

Soul Pets Bk2 1521

Chapter 1521: High Class Immortal, Seven Headed Hydra King

After leaving the trench, Chu Mu glanced at the ocean bottom city.

A terrifying undercurrent swept over from the ocean bottom city. It was a black mass of pressure!

The closest thing to Chu Mu was a seven headed enormous hydra!

The hydra's luminous eyes locked onto Chu Mu. Its seven mouths opened and stuck out its red tongues as it let out an incomparably sharp cry that made one's head spin.

"Young master... young master, this is a Seven Headed Hydra King. It's at the high class immortal rank!!" Old Li let out a shocked cry.

High class immortal rank was the strength of humanity's leader ranks!

Chu Mu watched it rapidly approach him, and his heart sank.

He had no time to think and chanted an incantation, forcibly using a spatial leap in the water.

The ocean water was extremely obstructive and added on the fact that a spatial leap would already be interfered with by dimensional space, Chu Mu would suffer an even stronger dimensional interference in the water if he used a spatial leap.

However, he had no time to consider all of this. If he was caught by this terrifying Seven Headed Hydra King, he would really be finished here.

The first time he used a spatial leap, he, unfortunately, appeared in a huge group of ocean demons.

Fortunately, none of these ocean demons were of the immortal rank and had no way of locking down space. Chu Mu used entered dimensional space once more, cleaving apart the dual obstruction force of dimensional space and water, shifting spaces again.

After using the second leap, Chu Mu was just outside the ocean floor city and was a ways away from the patrolling army. However, the Seven Headed Hydra King wasn't stopping its pursuit. He hadn't even increased the distance between them; in fact, it was growing closer and closer!

In a normal fight when Chu Mu used a spatial leap, there would be no creature that could catch up to him.

However, the opposing party was a powerful high class immortal, so this escaping ability of his was insignificant.

The Seven Headed Hydra King charged straight at him. The Azure Ocean Iguanas and ocean demons below its enormous body were like tiny and weak plankton.

After Chu Mu finished his third spatial leap, he glanced down and abruptly discovered that the monster with seven snakeheads was not far under him!

At this distance, Chu Mu finally was able to see how large its body was. Most of its body still could not be seen as it was much further down in the ocean region. The fact it was not completely visible was a shocking sight to behold.

As the Seven Headed Hydra King approached, its seven mouths simultaneously opened and it spewed an azure energy at Chu Mu!

The energy morphed in the water, forming shackles that wanted to lock Chu Mu to this region.

Almost the exact moment he was going to be locked to this space, Chu Mu chanted an incantation, and his body entered the dimensional space once again, leaping towards the ocean surface.

The moment he exited the water, Chu Mu's entire body felt lighter. The feeling of being constrained by water was a very uncomfortable one.

“Hua!!!!!!!!!!”

Suddenly, the ocean surface below him exploded! Chu Mu looked down and immediately felt as if the entire ocean had erupted. In the midst of an enormous wave, seven terrifying heads rushed out!

Seven Headed Hydra King!

This fellow's swimming speed wasn't slower than Chu Mu using spatial leaps!

Chu Mu was able to see the hydra king's abyss-like deep throat. Its poisonous teeth were like small rock mountains to Chu Mu!

He was too tiny. Compared to this enormous creature that could occupy an entire portion of the ocean surface, Chu Mu was like a piece of dust.

“Hu hu hu hu hu hu~~~~~”

The Seven Headed Hydra King began to violently suck in air into its lungs!

The clouds in the sky and surrounding ocean water were rapidly moving as it was all sucked into this ocean monster's mouths.

Chu Mu, who was flying in the sky, felt as if he was being bound by countless wind binds. He was being fiercely pulled towards the Seven Headed Hydra King's throat!

The Seven Headed Hydra King's lungs were full of poison. If he were sucked in, he would instantly be dissolved by the poison.

Chu Mu was already trying to fly higher into the air at full speed, but his body was still being sucked down as the clouds around him were rapidly being guzzled downwards.

With difficulty, Chu Mu managed to get his hands free and formed a devil flame ball!

The black devil flames danced in his palm, the scorching tongues of flames dancing ostentatiously.

Chu Mu opened his hand and the black flame broke free, sucked down with the clouds towards the Seven Headed Hydra King's deep sea throat.

“Gu long!!!!!!!!!!”

One of the Seven Headed Hydra King's heads suddenly bulged, and it emitted a muffled sound as if something blew up within!

The snake head violently trembled as the black exploding flame swept down along its throat. Part of the flame aura puffed out of its nose and mouth while another portion entered its lungs!

The Seven Headed Hydra King had seven heads, but they all shared one body. Thus, the exploding black flames that entered its lungs caused a burning wound to its organs.

Soon, there was black flame aura leaking out of every one of its heads. With its lungs now wounded, the Seven Headed Hydra King was unable to keep sucking in air. The ocean region and sky were ostensibly freed and they returned to their normal calm.

Chu Mu was nearly at the Seven Headed Hydra King's mouth. Using the time the monster was painfully wringing its necks, Chu Mu hastily chanted an incantation, using Displacement Specter and leaping a long distance away in the sky.

After flying back into the sky, Chu Mu let out a sigh of relief as he subconsciously looked down.

“Hua!!!!!!!!!!!!!!”

Suddenly, the ocean surface exploded again.

Chu Mu was several tens of thousands of meters in the sky. When he looked down, he could see the curve of the ocean’s surface.

However, the curved ocean surface abruptly exploded. Ocean water flew up to the height of a mountain as the gorgeous waves transformed into tsunamis that swept in all directions.

At the very center of the ocean, the seven snake heads charged out. Behind the heads was a lizard body covered in scales. It was so large that it nearly took up all of Chu Mu’s vision.

Such a shocking seen caused Chu Mu to forget to think. It wasn’t until the monster had leaped high up above the ocean that Chu Mu awoke from his stupor - this fellow had come out of the ocean to chase him!

This monster was an ocean creature, and it was a water type soul pet. How could it leave the very region it depended on to survive to chase him into the sky? Why was it trying so hard?!

A few tens of thousands of meters was nothing to an immortal rank. And if he were dragged back into the ocean, Chu Mu wouldn’t have any chance to resist.

Chu Mu transformed into a bright black and silver color flame that broke through the sky as he flew diagonally upwards.

The Seven Headed Hydra King didn't give up. It had astonishingly managed to sweep up ocean water several tens of thousands of meters high and was riding on it through the sky as it chased after Chu Mu!

"Young master, this fellow probably recognized you." Old Li saw that the Seven Headed Hydra King wasn't giving up and spoke helplessly.

Chu Mu was the number one wanted criminal by the Calamity Ocean Demon. In order for his soul pets to obtain training, Chu Mu often frequented the Calamity Ocean Demon's territory or to battle between the two sides. With powerful strength himself as well as numerous immortal rank creatures, Chu Mu had killed the most number of the Calamity Ocean Demon's subordinates. He had even surpassed Eastern Ocean's Ocean Iguana War Commander!

Therefore, the Calamity Ocean Demon hated the meddling human, Chu Mu, to its core.

And this time, Chu Mu dared invade their headquarters. Even though the Calamity Ocean Demon wasn't there, there were many ocean king rank great ocean demons watching over the territory.

If they let Chu Mu flee, these great ocean demons would no longer have face in Eastern Ocean.

The Seven Headed Ocean King wasn't going to let Chu Mu go and it resolved to keep this damned human here in this ocean region.

Chu Mu didn't expect the Calamity Ocean Demon's cronies to hate him so much. The only thing worth rejoicing over was the fact that the Calamity Ocean Demon's army wasn't able to keep up with his speed. Only the Seven Headed Hydra King was chasing.

Without the water's obstruction, Chu Mu's flying speed was faster than before. On the other hand, the Seven Headed Hydra King had left the ocean and its speed had visibly fallen. This gave Chu Mu some time to catch his breath.

Chu Mu didn't stop to rest. It had nearly been a day and he didn't have much time to spare. He had to bring the small Yellow Springs the Life Providence Grass as soon as possible.

.....

Chu Mu flew the whole way. By night time, Chu Mu was nearly at the Exile Ocean.

This ocean region had its own stench, and it was almost impossible to miss.

Using his soul pact with Ning Maner, Chu Mu quickly found her location.

Ning Maner and the small Yellow Springs were not in the ocean. The water here was full of poisonous properties and staying there would only make the wounds continuously worsen.

Chu Mu found Ning Maner and the small Yellow Springs on Tu Island. He immediately saw Ning Mnaer using medicine to carefully clean the small Yellow Spring's wounds.

There were too many wounds on the small Yellow Springs that were also poisonous. Ning Maner couldn't using healing abilities and could only help the small Yellow Springs slowly treat its wounds.

“Big brother!” Ning Maner saw Chu Mu fly over and her face was full of smiles.

“How is it?” Chu Mu hurriedly asked.

“It’s in a daze, and is only half awake. Its life force aura is growing increasingly weak,” said Ning Maner.

Chu Mu walked up to the small Yellow Springs. He was about to examine its condition when from the distant horizon suddenly came a loud rumbling sound!

Chu Mu turned around and saw a shocking scene!

Water had been swept up to the starry sky and had engulfed the stars in the distance. The ocean was violently billowing and swelling as if countless monsters were overturning the ocean itself!

An enormous dragon and snake-like silhouette could be seen in the frightening wave of water as it aggressively surged towards this place.

Chu Mu looked at the monster silhouette. He passed over the Life Providence Grass to Ning Maner as he said: “Save the small Yellow Springs. I’ll sort this fellow out!”

The Seven Headed Hydra King had chased him through several ocean regions. Even Buddha himself had a temper, let alone the innately bloodthirsty Chu Mu!

Did it really think he was afraid of it?

He would make snake soup out of it and use it to nourish the small Yellow Springs!

Chapter 1522: Fighting the Hydra King!

Chu Mu obviously wouldn't fight the Seven Headed Hydra King in the water. As he watched it aggressively charge at him, he flew straight into the air.

Chu Mu's flying speed was very fast. Soon, the entire ocean was within Chu Mu's view and the enormous Seven Headed Hydra King's body kept shrinking.

However, it had a wild side to it and when it saw Chu Mu fly into the air, it didn't give up chasing. It rode upon an ocean wave and ascended into the skies, wanting to fight Chu Mu once and for all.

Ocean water swept all the way to the sky. Chu Mu continued to move upwards because only this would give him the fighting advantage.

The Seven Headed Hydra King didn't give up. The ocean water it swept up grew longer and longer. From Ning Maner's island, she could see a huge tidal wave reaching ten thousand kilometers in the sky.

And on top of this enormous wave was a huge Seven Headed Hydra King. Its squirming malevolent heads had summoned the destructive wave that looked like it was going to swallow the sky.

“Ni~~~ ni~~~~~”

The small Yellow Springs let out a weak cry.

It was able to see the enormous wave, and its dull eyes actually flickered with some light.

It should also have had such overturning sea and cloud strength. However, its soul had been branded with ten heavy layers of shackles, and it was unable to rush through the ocean like this.

“Don’t worry, you’ll get better.” Ning Maner stroked the small Yellow Spring’s forehead.

Old Li had already fed the small Yellow Springs the Life Providence Grass. Its effect was very apparent. Its dying life force was slowly recovering, and its wounds were no longer worsening as much.

The small Yellow Spring’s wounds just needed to show signs of self-healing, and it would mean its life would be preserved.

Old LI saw that the small Yellow Springs had recovered some of its life force and let out a long sigh.

“Don’t worry, big brother has been rushing to the various large Ocean species during this time to help you pardon your crimes. Once we heal you up this time, you must obediently wait in the Ocean Bay Stone. If you can avoid it, don’t come out. Big brother and I will definitely take you out of this ocean region,” earnestly said Ning Maner.

“Ni~~~~~”

The small Yellow Springs raised its head and its eyes that had recovered a bit of its life force stared at the sky. It was staring at the human fighting the extremely powerful Seven Headed Hydra King as its eyes faintly trembled.

... a cold and biting wind blew in the upper atmosphere. The ocean water swept up by the Seven Headed Hydra King was nearly frozen up here.

“Si nie!!!!!!!” the Seven Headed Hydra King’s seven pairs of eyes coldly and angrily glared at Chu Mu. Its seven heads simultaneously shouted at Chu Mu.

The piercing noise was able to penetrate one’s mind, delivering a painful and sharp penetrating feeling.

Chu Mu saw that the Seven Headed Hydra King still dared be so arrogant this high in the sky. It had brought its temper with it!

Chanting an incantation, Chu Mu quickly summoned the Little Hidden Dragon.

The Little Hidden Dragon had consumed a very large number of souls in its fight with the Ocean species. Its current strength was probably not much inferior to the Martial Cloud Dragon.

The Ice Air Fairy and the other soul pets were all at the low class dominator rank. In the face of a high class immortal rank Seven Headed Hydra King, they would be easily killed with one blow. Thus, Chu Mu didn’t summon them.

But why would he, when fighting alongside the Little Hidden Dragon, back away from a fight with the Hydra King that had flown out of the ocean?

In the skies, Chu Mu could release his devil flame domain without fear.

His right hand had silver flames and his left hand had black flames. The distinct two colors were slowly raised into the skies. This vast aerial region had been swept up by a wanton devil flame wind and split the blue sky into a dual bright devil flame colored cloud sea.

“Hu hu hu hu hu~~~~~”

The devil flames burned and spread in the sky.

Underneath the devil flames was the surging ocean water swept up by the Seven Headed Hydra King. The clash of fire and water formed a beautiful confrontation. Chu Mu, controlling the devil flames, and the Seven Headed Hydra King, turning over the ocean, stared at each other with killing intent.

“Si nie!!!!!!”

The Seven Headed Hydra King gave a sharp cry and was the first to attack.

The ocean water it controlled began to strangely pulse. Within the pulses, countless large water pythons, that were formed from the ocean water, emerged!

These enormous pythons brashly leaped into Chu Mu’s devil flame domain. They wanted to extinguish the entirety of his domain.

The large water pythons danced through the sky. Each one had a thick and large body. After they smacked into Chu Mu's devil flames, the struck devil flames would instantly die out.

Water naturally countered fire, but Chu Mu didn't need to fight a domain contest against it. Moreover, the effort it required to control water this high up in the sky was much more than what Chu Mu needed to use spatial and devil flame techniques.

"I'll fight it head-on. You find an opportunity to attack." Chu Mu instructed the Little Hidden Dragon.

The Little Hidden Dragon nodded its head. Taking advantage of when the Seven Headed Hydra King was completely focused on Chu Mu, it suddenly entered the restless water and fully disappeared.

Chanting an incantation, Chu Mu's peculiar pupils flashed with a sharp light. The sharp light formed two sword shapes!

Worldly Dark Devil Swords!!

When the incantation finished, 14 dark devil swords were erected around Chu Mu.

Their bodies were pitch-black, they emitted an ice-cold aura and they carried strange sword patterns.

Chu Mu pointed with a finger and the dark devil swords flew out together. They stabbed straight at the Seven Headed Hydra King's heads!

With 14 dark devil swords, the Seven Headed Hydra King's seven heads were targeted by two devil swords each.

These dark devil swords flew through Chu Mu's devil flame sea and were ignited with raging devil flames. Immediately after they took a very strange spatial flight path as they stabbed at the Seven Headed Hydra King.

Although the Seven Headed Hydra King was enormous, its heads' swivel and dogging speeds were very nimble. There were even a few dark devil swords, burning with devil flames, that were bitten into energy particles by its terrifying teeth.

Chu Mu had used this attack to deliver the fatal blow on the Extreme Sky Ice Beast. However, it was difficult to actually injure this high class immortal rank with this attack.

As he watched the Seven Headed Hydra King's enormous wave rush towards him, Chu Mu had no choice but to give up his attack. He used Displacement Specter and widened the distance between him and this wild and ferocious monster first.

He had to admit that this was the strongest creature he had faced head on.

The high class immortal rank was the standard for humanity's leader ranks. Chu Mu still distinctly remembered the contemptuous arrogance the Navy Chieftain had from his high class immortal rank.

And right now, he was challenging a creature at this rank!

Chapter 1523: Ninth Ocean's Supreme Ruler

A legion of deep blue colored boats was traversing the Southern Ocean Region.

These boats were uniform and orderly.

Wave after wave of fierce waves surged at them from the Exile Ocean ahead of them. However, they were still able to maintain an intact formation.

At the very front of the ships was an immortal rank ship made of bones. This enormous ship was built using the bones of some ocean beast. When it moved on the ocean, it resembled an enormous monster swimming on top of the ocean.

On the deck of the ocean was a man wearing the uniform of a navy ocean lord commander. He had a serious face.

"What's going on in front? Why is there suddenly such large waves?" asked the darker-skinned female navy officer standing next to the commander.

"The navy member who was in charge of investigating the weather stood behind the ocean lord and said: "This isn't caused by the atmosphere."

"If it's not caused by the atmosphere, is it some ocean king causing mischief? But ahead of us is Exile Ocean. There shouldn't be such a fierce creature that can cause such a stir there." said the female navy officer.

"It's an ocean king," said the ocean lord commander after a long period of silence.

He had used his soul remembrance to scout ahead. He found that there were extremely violent waves of the water element there under the control of some creature.

“Is it really an ocean king?” the female navy officer and the other officers behind the ocean lord were all stunned.

Any creature called an ocean king was an ultra powerful ocean creature that ruled over several ocean regions. They were the supreme rulers of ocean dynasties. It was extremely rare for the Wupan Navy to come across an ocean king while traversing Eternal Ocean.

Moreover, when an ocean king appeared, it would always be tailed by an enormous army that could fill up an ocean region. Even Wupan Navy’s army didn’t dare provoke ocean king rank creatures.

“Commander, do... do we need to go around it?” said the navy member in charge of the ship’s path.

“We can’t go around it. This is the only route that will allow us to silently enter New Moon’s Northern Ocean. If we go around it, we’ll definitely be discovered,” said the female navy officer.

“Let’s keep going forward a bit more,” said Ocean Lord Commander Su Bu.

The skies had mysteriously been shrouded by dark clouds and the space between the clouds and the ocean was dark and gloomy while also carrying an oppressive aura.

The ocean violently undulated. The difference between the peak and trough of the waves nearly reached several hundred meters or perhaps even a thousand meters. All of the boats seemed to be traveling through an unstable patch of valleys and hills.

The bone immortal ship was at the front while a few other large ships tailed behind.

And behind this fleet, numerous other ships formed a long formation in the undulating waves, resembling a long boat dragon. Even further behind them in the waves were a mass of masts. This was Eternal Ocean and humanity's most famous Wupan Navy!

It was unknown why this grand fleet of Wupan Navy had appeared at the northern end of Exile Ocean. However, their direction was headed through Exile Ocean and into New Moon Land's northeastern ocean region.

.....

"Heavens, what did I just see!"

The scouting members circling in the sky let out cries of shock.

The scouting members were in the sky so they could see even further ahead. The moment something occurred, they would immediately fly back to the ships.

Currently, ten scouts were flying in the skies ahead. Once they passed through a patch of dark clouds, they were greeted with an astonishing scene.

As far as they were able to see, the expansive ocean was being overturned!

The ocean's surface was the standard for zero elevation. However, the scouts witnessed the ocean in front of them rise steeply up like a plateau.

Water was a moving liquid, so how could there be a plateau in the ocean?

However, the ocean they were now witnessing in front of them was much higher than the boats they were driving.

Most shockingly, at the center of the surging ocean plateau, millions and millions of tons of water were being swirled even higher into the sky that they themselves were at. In other words, the scouts flying high in the air needed to look up in order to see the top of the waves!

The scouts were stunned.

They had been traveling through the ocean for many years, but had never seen something like this before.

"Look at the top of the water!" suddenly cried out one of the scouts.

All of them used their soul remembrance to look at the top of the water in the sky. They abruptly discovered several enormous snake necks violently twisting!

An incomparably sharp cry rang out from above as the enormous and malevolent snakeheads angrily swayed in the water.

The scouts were still a long ways away from the top of the water, but they were able to see the snake necks and heads!

An ocean king!

A snake species ocean king!

Many of the ten scouts hadn't even been in the ocean for ten years. With their lack of experience, how could they accept such a shocking scene?!

The ten scouts were looking and forgot to think while a man and a woman riding on a Lion Eagle flew up to them.

These two people were the navy's Ocean Lord Commander Su Bu and the darker-skinned female ocean lord.

"Is... is this a Seven Headed Hydra King?" the female ocean lord looked with shock at the sky and spoke with disbelief.

"Exile Ocean, Northern Unbounded Ocean, Imploring Ocean... the supreme king that unified nine ocean regions, the Seven Headed Hydra King! That's it!" Ocean Lord Commander Su Bu was also full of astonishment.

He remembered thirty years ago when he was but an insignificant ocean commander of the First Ship Legion, he had seen it!

The Seven Headed Hydra King had swam atop of the ocean then. Behind it were impressively following a huge group of ocean overlords. That scene had been incomparably magnificent and terrifying, making one feel as if air itself would freeze.

The First Ship Legion's navy hadn't dared make any rash movements and had even given way to them since they didn't want to provoke them at all.

Now, thirty years later, Su Bu saw the Seven Headed Ocean King again. The shock in his heart hadn't diminished at all.

However, he didn't understand why the Seven Headed Hydra King had appeared alone in Exile Ocean, and why it had stirred the ocean to such an extent.

"Commander, I... I seem to see a person..." the leader of the scouts pointed at a human figure that flashed through the sky.

Su Bu immediately used his soul remembrance to look. Instantly, he widened his eyes and looked with disbelief at the flaming region.

It was fire fighting against the violent ocean water. In the midst of the torrential flames was a human that was facing off against the supreme king of nine ocean regions!

Someone who could fight alone against the Seven Headed Hydra King!

Was that a soul pet trainer?

But who else, aside from their Navy Chieftain, could anyone fight alone against an ocean king of this level?

“Heavens, they’re coming this way!” one of the scouts let out a panicked cry.

Su Bu finally discovered that the Seven Headed Hydra King and the human’s fight was sweeping over to them.

Su Bu’s heart trembled, and he hastily had the scouts flee.

The water that reached the sky suddenly smashed down where they were. However, the Second Division’s First Ship Legion was moving in this direction. If the fight kept spreading in that direction, the entire legion would suffer a destructive blow.

Su Bu looked up at the water that covered the skies and sun. Ge grit his teeth, and urged his Lion eagle towards the human swooping down...

.....

With the waves covering everything, Chu Mu turned around to look at the Seven Headed Hydra King at the top of the waves.

He couldn't help but admit that the Seven Headed Hydra King was much stronger than he thought. Despite fighting for so long, Chu Mu could only inflict medium degree wounds while he himself had expended a huge amount of physical energy.

“Ao~~~~~”

The Little Hidden Dragon emerged from a tiny water droplet and warned Chu Mu that a Lion Eagle was flying towards him.

Chu Mu looked down and saw a Lion Eagle carrying two people on its back: a man and a woman.

“Why are there people here?” Chu Mu was confused.

The Lion Eagle didn't seem weak either. However, compared to the Seven Headed Hydra King, it wasn't of the same rank. Chu Mu jumped on the Little Hidden Dragon's back and had it fly towards the Lion Eagle.

“Long long long long!!!!!!”

The thunderous noise of ocean water rang out as ocean water splashed everywhere. Chu Mu saw the man and woman wearing commander uniforms on the Lion Eagle.

“Do you want to die?” Chu Mu coldly glared at the two people.

They clearly knew he was fighting with the Seven Headed Hydra King and yet still flew over here. Chu Mu only dared summon the Little Hidden Dragon in this fight since his other soul pets had a chance of being instantly killed by the Seven Headed Hydra King.

“Senior, we are Wupan Navy Ocean Lords. Our entire legion is headed this way. If senior’s fight with the Seven Headed Ocean King keeps spreading this way, our entire legion will be heavily damaged.” respectfully said Su Bu.

The other party looked very young, but Su Bu didn’t believe that a young man could fight alone against a Seven Headed Hydra King. Thus, he called him “senior”.

Chu Mu creased his brows. From their uniform, they were Wupan Navy people.

Chu Mu already had a great grievance with the Chieftain. If it weren’t because he also knew Ocean Leader Xu Kuan, Chu Mu would just instantly slaughter Wupan Navy whenever he saw them.

“I’ll lead the fight in another direction. You guys scram further away.” Chu Mu knew that he couldn’t hate every Wupan Navy member so he didn’t need to do something so extreme. Of course, Chu Mu didn’t need to be polite to them.

This was the first time Su Bu had been told to scram further away after becoming a navy commander. However, he couldn’t feel dissatisfied and respectfully said: “Many thanks, senior.”

“It’s... it’s coming.” the female ocean lord’s face was incomparably pale as she looked up.

The Seven Headed Hydra King's enormous body was pressuring down. Just previously when she had been watching from afar, her heart had already been trembling. Now that the Seven Headed Hydra King was charging over, the grandeur it emitted made her want to faint.

Su Bu didn't dare stay any longer and he hastily urged his Lion Eagle to fly downwards. If he delayed any longer, it was likely he could instantly lose his life.

Chu Mu looked up with imposing eyes at the Seven Headed Hydra King.

They had fought for a long time. It was time to end things!

Chapter 1524: Eight Trigrams Annihilation Diagram, Severely Wounding the Hydra King!

Chu Mu stopped dodging and looked up at the Seven Headed Hydra King riding on the overwhelming ocean!

Devil flames began to dance in his black and white pupils. Simultaneously, the plane he was on began to burn with black and white flames.

The different colored devil flames formed a devil flame ocean on top of the ocean's surface!

Looking from below, the devil flame ocean beautifully formed two rings. At the very center was where the two colors separated, forming an enormous Devil Flame Eight Trigrams Diagram!

“Hu hu hu hu hu hu!!!!!!!”

The scorching devil flames surged, causing the sun to lose color. The area of the black devil flames governed was completely dark where it was impossible to even see one's fingers. The area the silver devil flames governed was deathly pale!

At the very center of this magnificent Devil Flame Eight Trigrams Diagram, Chu Mu stood there with flames that danced on him even more ostentatiously. He looked like a devil god that had come from a strange space.

As he stood in the midst of the black and white devil flames, Chu Mu gathered all of the energy together in an attempt to engage in a single, final energy clash with the Seven Headed Hydra King!

Simultaneously, the Little Hidden Dragon spat out a beautiful and frightening River of Styx upon the Devil Flame Eight Trigrams Diagram!

The Styx flowed and millions of ghosts howled.

The Little Hidden Dragon gathered the spectral souls in the River of Styx around its body and calmly waited for the Seven Headed Hydra King's arrival.

“Ao!!!!!!!!!!”

The Little Hidden Dragon's River of Styx launched an attack first. The millions of spectral souls transformed into a tide of souls that clashed with the Seven Headed Hydra King's ocean domain!

The spectral tide and ocean tide clashed in the skies. The stunning scene made the navy watching in the distance feel as if the world had been flipped!

The millions of souls from the underworld advanced wave upon wave.

On the other hand, the enormous ocean pythons created out of water were innumerable. The two techniques formed a fight between armies as the skies were filled with the plaintive cries of warrior souls and the thunderous roars of water pythons.

However, the roaring pythons were visibly stronger than the River Styx army. The spectral souls were continuously being swallowed by ocean water and their number continued dwindling.

Nonetheless, the Little Hidden Dragon's River Styx was buying time for Chu Mu to gather even more energy.

When the River Styx's million souls disappeared in the skies, Chu Mu's Devil Flame Eight Trigram Diagram was finished!

“Pu!!!!!!! Pu!!!!!!!!!! Pu!!!!!!!”

Like a volcano violently erupting, pillars of torrential flames shot up in the Devil Flame Eight Trigrams Diagram.

Each flame pillar contained scorching heat energy of devil flames. They passed through the Little Hidden Dragon passed through the defeated River Styx army and the extremely chaotic ocean water pythons towards the Seven Headed Hydra King!

The number of pillars kept increasing. The Devil Flame Eight Trigrams Diagram seemed like it was standing as the dual layer of devil flames and dual layer of space forced the Seven Headed Hydra King inside.

The Devil Flame Eight Trigram Diagram began to spin around Chu Mu.

The diagram enveloped a huge patch of the sky, forming an umbrella over the ocean. When it started spinning, it felt like the entire world was spinning.

The spinning transformed the devil flame pillars into spirals that ascended to the sky like flaming dragons!

An enormous force that shook space itself, burning devil flames and a mighty explosion, and a dual layer of spatial squeezing. When this series of force collided together, it created an extremely destructive effect.

Just like the black hole in the sky above Imprint Valley, when the Devil Flame Eight Trigrams Diagram's destructive force reached the maximum, the area the Seven Headed Hydra King was in collapsed, transforming into a terrifying black hole.

There were devil flames burning, space ripping and tearing apart and overwhelming darkness invading the black hole.

The Seven Headed Hydra King writhed around. It wanted to mobilize the water to protect itself, but the water was being sucked away by the black hole. The Seven Headed Hydra King could only rely on its powerful body to resist the black hole formed by the Eight Trigrams Diagram.

The longer it stayed in the black hole, the more seriously wounded it would become.

If this place were the ocean region, it would be able to call upon endless amounts of ocean water to fill up the destructive black hole and destroy the Devil Flame Eight Trigrams Diagram.

However, it was high in the sky right now and it could only mobilize this much water.

As its body was continuously torn away by the destructive force, the incomparably arrogant and fierce Seven Headed Hydra King finally felt fear and panic.

It shook its body and attempted, with all its might, to swim out of the black hole and Eight Trigrams Diagram.

The Seven Headed Hydra King was enormous, but in the face of such a powerful technique, it struggled, like a small water snake that had fallen in a whirlpool, to get out.

The Seven Headed Hydra King was slowly swallowed up by the Eight Trigrams Diagram. If it was pulled into another dimension, there would be even stronger spatial windstorms waiting for it there!

The energy of the Devil Flame Eight Trigrams Diagram needed to be maintained. The Seven Headed Hydra King was still fighting for its life and the stronger its struggles were, the more impact it would have on Chu Mu.

Chu Mu's face grew increasingly pale. and the devil flames on his body would occasionally dim out. Mental strength and physical energy rapidly disappeared from his body as he neared exhaustion.

Once he was exhausted, if he tried to forcibly maintain such a huge technique formation, he would essentially be taking out his own life force.

Finally, the Seven Headed Hydra King's final head was sucked up by the Eight Trigram Diagram's black hole and the energy created by the diagram came to an instant stop as Chu Mu weakened.

Without destructive energy colliding with itself, the black hole would quickly close together like a closing of hell's gates.

Everything returned to normal in an instant and the ocean water, no longer under control, dropped from the sky...

The chaotic ocean gradually pacified. Wave after wave of water rolled into the distance as the height of Exile Ocean returned to normal.

“Hu!”

The devil flames on Chu Mu's body instantly disappeared as if he had been extinguished.

Chu Mu's body swayed and even flying became strenuous for him.

The Little Hidden Dragon hastily flew under Chu Mu and allowed him to sit on its back.

“Sha sha sha~~~~~” the Little Hidden Dragon opened its dragon toothy mouth, revealing a tired but excited smile.

This was an unprecedentedly powerful opponent. Nonetheless, they had defeated it. There were many wounds on the Little Hidden Dragon’s body, but it could feel its blood still boiling. The boiling still seemed to be filled with power.

Chu Mu rested on the Little Hidden Dragon’s back. He rubbed its head and weakly said: “You’ve become even stronger.”

This fight had been a direct clash between Chu Mu and the Seven Headed Hydra King. However, the latter was ultimately a high class immortal rank. Without the Little Hidden Dragon’s multiple perfect attacks to get him out of a tough spot, Chu Mu wouldn’t have been able to last until now.

The Little Hidden Dragon excitedly nodded its head and brought Chu Mu to the distant island.

The fight with the Seven Headed Hydra King had spanned from the edge of Exile Ocean to Exile Ocean’s Ocean Bay Rock Island. This area of a few thousand kilometers was a mess now. The number of creatures who had suffered from collateral damage and perished were probably innumerable!

After flying down to the island, Ning Maner saw Chu Mu had returned from her fight. A smile immediately rose on her worried face. She jogged up to Chu Mu and threw her soft body into Chu Mu’s embrace. She wiped away small tears as she was ostensibly worried that Chu Mu wouldn’t return from this fight.

“I’m fine.” Chu Mu consoled her.

“The Seven Headed Hydra King died?” Ning Maner used the back of her hand to wipe her tears as she quietly asked.

“I’m not sure. It may have not,” said Chu Mu.

The moment he finished speaking, an enormous heaven shattering sound suddenly rang out from the distant horizon!

Chu Mu turned around, and discovered that the space on the ocean’s horizon had suddenly shattered like a mirror!

Four heads with large tongues wormed out of the collapsed space, dripping with blood and incomparably malevolent.

Following the heads, an even fatter devil snake body climbed out. Its original azure steel-like mass of scales were now shattered in countless places and its flesh had been torn open. It looked as disgusting as if it had shed its skin.

“Hua!!!!!!”

When the huge snake wormed its way out of the horizon, it dived into the ocean, giving rise to a series of violent waves. That area of the ocean was also dyed blood red from the blood on its body.

“How... how frightening!!” Ning Maner’s face was pale from fright as she tightly hugged onto Chu Mu and his behind him.

“Don’t worry, it fled.” Chu Mu looked at the bloody water.

If he still had strength, Chu Mu wouldn’t hesitate to chase after it and keep the Seven Headed Hydra King in Exile Ocean forever. Indeed, this was a high class immortal rank ocean king.

However, Chu Mu was extremely weak right now. The Seven Headed Hydra King had also dealt some deadly wounds to him and if he didn’t rest, his life would be in danger.

“How is it doing?” Chu Mu glanced at the small Yellow Springs, Calamity, lying on the smooth rocks.

“It’s much better.” said Ning Maner.

Although the small Yellow Springs, Calamity, was lying down, it wasn’t sleeping. Its exhausted eyes were staring at Chu Mu, unmoving.

“It was just watching the entirety of big brother’s fight,” said Ning Maner.

Chu Mu faintly smiled. He walked over to the small Yellow Springs side and rubbed its head.

The small Yellow Springs squinted its eyes, but didn’t reject Chu Mu like before. Instead, it looked like it enjoyed it.

“Big brother, you did so much for the small Yellow Springs and even fought the Seven Headed Hydra King for it. It must have understand your intentions.” Ning Maner walked up to Chu Mu and helped him sit down next to the small Yellow Springs.

Chu Mu nodded his head. He was currently very tired. He lay on the adjacent rocks and closed his eyes to sleep.

Chu Mu’s exhaustion wasn’t only because his physical strength had been severely overused, but his mind was feeling disoriented and hazy.

When he was exhausted, Chu Mu would always feel indescribably lonely and empty. Only by holding Ye Qingzi and smelling her fragrance could he peacefully enter sleep.

After Ning Maner helped him sit down, Chu Mu’s disoriented consciousness could no longer distinguish between reality and imagination. He just wanted to grab the soft and fragrant body of “Ye Qingzi” and pull her into his embrace before falling into a deep sleep.

.....

When Chu Mu fell asleep, the small Yellow Springs shifted its body and laid next to Chu Mu and Ning Maner before slowly closing its eyes.

Chapter 1525: Little Yellow Spring’s Amnesty

Although Exile Ocean was filled with stench, the sunset still added a beautiful scenery over the horizon.

The dusk sunlight showered along the calm ocean all the way to the Obstinate Rock Island and onto Chu Mu.

Chu Mu opened his eyes at that moment. Seeing the beautiful sunset, a smile floated on his face.

It would be a bliss to witness such a beautiful scenery after passing out for a short while.

Furthermore, it seemed that he was also hugging an obedient girl. No boundary was cross, they only hugged each other quietly and peacefully.

Ning Maner was still sleeping. She had been following Chu Mu and rushed to various places. She was similarly tired and slept soundly.

Chu Mu also noticed Ning Maner's shadow wavering slightly under the setting sun. It was clear that Dark Emperor had been protecting Ning Maner as she slept.

Chu Mu lightly pulled out his arm and let Ning Maner lean on a rock. He got up to check on little Yellow Spring.

Little Yellow Spring had woken up long ago. It laid there and looked at Chu Mu curiously with its clear pair of eyes which regained their normal luster.

Chu Mu examined the wounds on little Yellow Spring's body. He noticed that the opened wounds were mostly healed and only some scars were left. It would not take long before it fully recovered.

"It's really difficult staying here, right?" asked Chu Mu as he sat before little Yellow Spring and stroked its unicorn.

Little Yellow Spring seemed to be able to understand Chu Mu's words. It nodded and cried 'Ni Ni'.

"Yes, I will help you," Chu Mu knew little Yellow Spring was pleading him to help it.

Little Yellow Spring shook the long chain on its body, hoping for Chu Mu to destroy this chain which restricted its movement.

Chu Mu shook his head and told little Yellow Spring, "I cannot help you break the chain. If you don't obediently stay in Exile Ocean before you're amnestied, the royal ocean guards will execute an even harsher punishment. What I have done to help you will also be wasted."

"Ni~!" Little Yellow Spring hung its head and seemed to be listless.

"Don't be hasty. You must obediently stay inside Sea Obstinate Rock for now. I will help you obtain your Ocean Species amnesty. By then, not only can you be freed, you can regain the strength that belongs to you," said Chu Mu.

Little Yellow Spring nodded. After experiencing a life and death situation, it had matured quite a bit. It no longer acted without thinking about consequences like in the past.

Certainly, little Yellow Spring had to rein in its temper. This Exile Ocean encounter was a great experience to mature its mentality.

"We need to go," Chu Mu rubbed little Yellow Spring's head.

Little Yellow Spring sat up and watched Chu Mu like a pitiful child.

“I will help you remove your seals the next time I come, take care of yourself,” said Chu Mu.

“Ni~!” Little Yellow Spring remained watching Chu Mu. Its big eyes already expressed its loneliness and insecure feeling.

Chu Mu knew there was no point staying here for too long. It would be better to appease the rage of the Ocean Species towards little Yellow Spring as soon as possible.

Chu Mu carried the still sleeping Ning Maner and flew towards the Coral City.

.....

After returning to Coral City, the first thing Chu Mu did was to look for mermaid princess Lan Qie.

Lan Qie was handling a very urgent case, so Chu Mu waited outside for a while.

Chu Mu approached Lan Qie and asked, ““What happened?”

“Border Ocean reported that they saw Seven Headed Hydra King escaped back to Underwater City after suffering heavy damage. This is an excellent news to us. I have already told Ocean Iguana General to deploy Ocean Species warriors to recover those ocean regions we lost,” said Lan Qie.

“Big brother, you earned a big achievement,” said Ning Maner with a smile.

Lan Qie looked at Ning Maner and Chu Mu with a little perplexion.

Ning Maner giggled, “Seven Headed Hydra King was wounded by big brother.”

“You were the one who wounded Seven Headed Hydra King? Severed three of its heads??” Lan Qie looked at Chu Mu with surprise.

Chu Mu nodded and briefly relayed the situation he encountered in Underwater City.

Mermaid princess and her Ocean Iguana Guards opened their eyes wide after hearing the story!

The human before them actually infiltrated into Calamity Ocean Demon’s base, Underwater City, and stole Life Providence Grass. Not only did he safely escape, he also heavily damaged one of the major ocean powerhouses, Seven Headed Hydra King!

The Ocean Species knew this human was strong, but they never expected him to be that strong!

“Wait, you just said you saw Ocean Infant Formation in the Underwater City’ ocean trench?” said mermaid princess hurriedly.

“Yes, there are over a hundred soul pet eggs from various high rank bloodline Ocean Species.

“Did you destroy it?” asked mermaid princess immediately.

Not only did Ocean Infant Formation possess a natural strengthening effect, it also possessed a type of soul binding force. Once those soul pet eggs hatched, the infants would completely listen to Calamity Ocean Demon’s orders. This would be a huge threat to Ocean Species.

“No,” Chu Mu shook his head.

Lan Qie’s gaze dimmed a little. When she thought about the offsprings from those Ocean Species Generals would become the slaves of Calamity Ocean Demon, her heart sank.

“However, I brought those soul pet eggs out,” said Chu Mu.

Saying so, he opened his Spatial Ring and took out those soul pet eggs.

The eggs varied in sizes and floated around Chu Mu. Each soul pet egg contained a dense life force.

“This.....” Lan Qie was astonished by this scene.

These soul pet eggs were all from the various Ocean Species Generals. They were stolen by Calamity Ocean Demon during the war. They all had high rank bloodlines, and due to both of their parents being very strong, the talents they possessed would definitely surpass their fellow race members. More importantly, they were also strengthened naturally by Ocean Infant Formation.....

The infants hatched from these eggs would be the future Ocean Species experts and generals!

Chu Mu actually brought all of them back without leaving one behind!

Mermaid princess's expression gradually changed from astonishment to excitement and relief. A teardrop squeezed out from her eye.

When this teardrop trickled down her cheek, it immediately solidified into a pearl.

“Great..... Wonderful. Us high rank Ocean Species have a really poor fertility rate. It usually took us a hundred years to produce one offspring. Many of our Ocean Species generals only have one such offspring.....” Lan Qie exclaimed, “You were able to bring these unborn babies back. It’s as if they have been reborn.”

Chu Mu naturally could tell that these soul pet eggs mostly represented the next generation of core Ocean Species generals. When Calamity Ocean Demon stole them away, it almost swept up the rage of the entire East Ocean.

“Rururu~!” The Ocean Iguana General at the side spoke a string of Ocean Species language, seemingly to be praising Chu Mu.

Lan Qie summoned many mermaids and told them to bring these soul pet eggs to a safe place carefully. Then, those eggs would be returned to the various races in East Ocean respectively.

After settling this matter, Lan Qie continued to say words of appreciation to Chu Mu.

“You have contributed another two important achievements to our Ocean Species. Perhaps these are just some high rank bloodline soul pet eggs in your eyes, but this is the same as rebirth to the parents of these unborn infants..... I have already informed my father of these achievements. He told me he wants to meet you,” said Lan Qie.

.....

This was the second time Chu Mu had an audience with East Ocean Siren King. It was still on the cliff altar at the island.

East Ocean Siren King examined Chu Mu similarly like before, then suddenly laughed heartily.

“Looks like your objective can be achieved earlier than expected,” said East Ocean Siren King.

“Earlier?” Chu Mu did not quite understand East Ocean Siren King’s words.

“Us high ranking Ocean Species treat our offsprings with a fervent importance. You brought back 133 soul pet eggs. This 133 represents 133 East Ocean and surrounding ocean races. The parents of these unborn infants hold high positions in those races. You saved their children, wouldn’t you gain their favor and respect?” said East Ocean Siren King.

Chu Mu was surprised after hearing that. Would that mean he could convince those Ocean Species to release little Yellow Spring?

It seemed that returning these soul pet eggs to Ocean Species was the best decision!

“Furthermore, you defeated Seven Headed Hydra King, it’s similar to helping us regain a few big ocean regions. Us Ocean Species value gratitude. I believe your effort will be rewarded greatly,” said East Ocean Siren King with a smile.

“Then, the matter about little Yellow Spring?” asked Chu Mu.

“I will ask these 133 races to plead for Calamity to Yellow Spring Emperor, I believe it will have a significant effect,” East Ocean Siren King nodded.

“Great! Little Yellow Spring can regain freedom, big brother will also gain a new soul pet!” cheered Ning Maner even before Chu Mu.

This was certainly a great piece of news to Chu Mu. Recalling little Yellow Springs reluctant and helpless gaze, Chu Mu really wanted to go to Exile Ocean and fetch little Yellow Spring back right now.

“How about this? You can wait for a while. After we recover the ocean regions occupied by Seven Headed Hydra King, it will stabilize our East Ocean’s war situation to a certain extent. You will also gain the respect of us Ocean Species. You may inform these situations to Yellow Spring Emperor by then, Yellow Spring Emperor will consider your opinion,” said East Ocean Siren King.

“How long will it take?” asked Chu Mu.

“Four months,” said East Ocean Siren King with confidence.

“Alright. I will train in Demonic Mound for a while. Hopefully, I can hear good news from East King when I return,” Chu Mu nodded.

“Hehe, you won’t be disappointed.”

Chapter 1526: New Moon Land War

.....

Wanxiang City.

The usual Wanxiang City was always peaceful and calm. However, since some time ago, Wanxiang City’s security became extremely strict. Almost every person entering the city would be carefully checked.

Other than that, the two roads connecting New Moon Land to the outside, Eastern Wild Forest Road and Cloud Gate, had already forbidden non-New Moon Land members from entering.

In other words, New Moon Land was currently in a completely blockaded state.

Cloud Gate and Eastern Wild Forest Road had one stronghold city respectively. The cities were built when New Moon Land began interacting with the outside world. Currently, Cloud Gate Stronghold and Eastern Wild Forest Stronghold were two famous Border Cities amongst the neighbouring borders.

Between Wanxiang City and these two stronghold cities, batches after batches of troops were running along the roads. They either ran on land or flew in the sky. One could always see a large soul pet army passing by.

Currently, New Moon Land deployed most of their fighting forces in Eastern Wild Forest Stronghold and Cloud Gate Stronghold, because it would not be long before those two places become the worst battlefields.

Not only Wanxiang City, the entire New Moon Land were deploying manpower rapidly over various places. They were sending as many of their fighting forces as possible to the border areas.

New Moon Land's geography was unique. There were only four places that connected to the outside world.

One was Windy Rain City at Dark Sky Ocean Coast; One was the Western most White Nightmare City, the last two were Northeastern Heavenly Mountain Stronghold and Eastern Wild Forest Stronghold. The other regions were Forbidden Regions. If the New Moon Land subjugation army wanted to invade New Moon Land from places other than these four locations, they would have to cross the territories of those Empires and Dynasties in the Forbidden Regions. If they were unlucky, they would be annihilated before entering New Moon Land.

Hence, if New Moon Land really entered a war with other factions, what they had to do was to defend these four crucial city checkpoints.

In geography, New Moon Land possessed the perfect defensive advantage. However, nobody would feel glad about it, because they would be facing possibly the allied forces of eight major factions as well as some other minor factions. The scale of this subjugation force had never happened within the recent hundred years!

The current Cloud Realm could be described as an army camp. More and more factions deployed their armies to this place.

These armies did not swarm here in a large wave at once. They slowly gathered at Cloud Realm after the Dual Earth Conference ended. They would camp at Cloud Realm and slowly accumulate. Currently, the size had accumulated to the point they could be seen anywhere inside or outside cities within Cloud Realm!

Liu Binglan naturally sent people to investigate in Cloud Realm and made estimations on the constantly accumulating army. When she obtained the data of the armies from the various factions and knew that this data was still increasing, she felt helpless.

There were too many enemies!

The greedy wolves desiring New Moon Land were even more than Liu Binglan's estimation. Even some of the friendly factions also joined this greedy gang.

This was disaster stacking upon disaster.

Of course, what made Liu Binglan felt most insecure was that Chu Mu still did not return.

Chu Mu had not returned to Wanxiang City for a long time. Usually, he would go out to train for a year and half, there were also times he went out for a few years. However, New Moon Land was currently in a very dangerous period. If Chu Mu did not return, Liu Binglan would just feel insecure.

“How many had been gathered now?” asked Cloud Gate Elder with a frown.

“Dominator army probably passed 12,000, Emperor army is over 20,000,” said Liu Binglan.

Every time she recalled this data, she felt a suffocating pressure!

12,000 Dominator rank experts. Just how big of a concept this was to New Moon Land in the past? Back then, there were only a few Dominator rank in New Moon Land.

Only a short time had passed, and New Moon Land had to face 12,000 Dominators. There was also a 20,000 Emperor army!

The 12,000 Dominator rank experts had 10,000 from the six major factions. Divine Sect’s Disciple Palace had a 1,500 men Discipline Palace army; Elemental Clan Fire Sect and Wind Sect had a 3,000 men Elemental Dominator army; Demon Beast Palace’s Snake Dragon Sect sent a 1,000 men Snake Dragon army; Departed Spirit Palace had a 1,500 men Ghoul army; Mu Family Dynasty Mu Tuan clan sent around 2,000; Xuan Gate Immortal School’s Gu Xinshui and Sect Master Lü sent 1,000 Xuan Gate experts.

Amongst the eight major factions, Ning Family Dynasty and Wupan Navy would definitely attack New Moon Land from Dark Sky Ocean or White Nightmare City. They had not been able to scout how much force those two factions sent yet.

In other words, just Dominators would exceed 15,000. As for the even larger Emperor army, Liu Binglan did not dare to continue thinking.

Those were just the strength of the armies. There were also Immortal rank commanders above the armies. Each faction's commanders were almost all Gate Master rank experts qualified to participate in Dual Earth Conference. Beneath these Gate Masters usually had twenty to forty Immortal rank subordinates.

When Liu Binglan gathered all Immortal rank fighting forces in New Moon Land, she noticed that New Moon Land could hardly match the allied force of various major factions on Immortal rank fighting force.

Without a doubt, this would be a devastating war, and an even greater disaster.

For the past few days, Liu Binglan was unable to sleep. Under the pressure of this 15,000 strong Dominator army and over 20,000 strong Emperor army, she wanted to give up on New Moon Land many times. She wanted to tell New Moon Land citizens to escape because she could not face the scene of New Moon Land dyed in blood.

However, some things could not be decided by Liu Binglan alone.

All territory lords in New Moon Land clearly indicated that they were going to fight on!

Regardless of the outcome, New Moon Land had to fight. If they did not display the courage of New Moon Land, then New Moon Land would really become a lowly coward race which could be toyed with by others!

Once New Moon Land's people were branded with such a sigil, no matter where they migrated to, they would be endlessly bullied and humiliated after losing their resources.

Nobody was willing to live a refugee life or live under the roof of others and getting despised by those humans who thought they had a higher rank bloodline. By then, a bloody conflict would similarly break out. Rather than fighting with a refugee or exiled identity, they would rather fight to their hearts' content right now. Even if they lost, they would let those greedy wolves know the power of New Moon Land. They would tell the world that New Moon Land was not a lowly Normal Human Subspecies, that New Moon Land was not a cowardly race!

This fighting spirit swept over every city in the entire New Moon Land. Protecting New Moon Land was no longer just the responsibility of New Moon Palace. All wandering soul pet trainers, training soul pet trainers and solo soul pet trainers, as long as their hearts belonged to New Moon Land, they would be willing to stand on those strongholds and fight against those greedy major factions.

New Moon Land had not experienced any war after independence.

Would the Normal Human Subspecies living in New Moon Land really be the dystopian Normal Human Subspecies in the past?

A war would be the best proof!

.....

.....

In an ocean region far away, an island wrapped in fog appeared on the ocean surface. It was mysterious and hazy.

Heavenly Realm Forest, in between tree branches that connected into roads, a black figure trailing a white-feathered tail was agility running. It was extremely fast, running from one end of the forest to another end in a blink of an eye.

“Huhuhuhu~!”

Raging wind battered Chu Mu’s clothes. He sat on Night’s back and experienced the thrill of extreme speed. That feeling opened all the pores on his skin.

On Chu Mu’s back, Ning Maner’s tender arms hugged Chu Mu’s waist. She leaned her cheek on Chu Mu’s back and produced bell-like giggles. It seemed that she really liked the feeling of dashing through the forest.

Night had been running all the time. Demonic Mound’s Heavenly Realm Forest was vast. And what Night had to do was to run one round around the forest!

“Big brother, Night is so fast, many times faster than before!” said Ning Maner.

“It can be even faster!” Chu Mu knew Night’s strength. Its speed could keep accelerating. When it was at its fastest, the surrounding trees would be uprooted by the wind pressure if he unleashed the wind barrier around them!

Night had become stronger.

Elder Li’s medicine not only removed the corpsification of Night, it also completely stimulated Night’s Nomadic Demon bloodline. Night began rapidly absorbing demon aura in Heavenly Realm.

Its strength had far surpassed middle class Immortal rank, once again taking the lead amongst all of Chu Mu's soul pets.

“Wuwuwu~!”

Little Mo Xie slouched on Night's head, the gushing wind rustled its fur comfortably. However, the cry it made was not of comfort, but with a little grudge.

Night had been growing stronger and overtaken it quite a bit. Meanwhile, Chu Mu had been in the ocean all this time. Mo Xie had nothing to do other than sleeping in its soul pet space. Its level had not gone up at all.

If it could stay in this Demonic Mound with Night, its strength would probably be at middle class Immortal rank by now instead of wandering around low class Immortal rank.

Other than Night and Little Hidden Dragon, those possessing middle class Immortal rank included Ning and Zhan Ye.

After Ning took in Extreme Sky Ice Beast's soul crystal, it reached middle class Immortal rank without any accident.

Meanwhile, Zhan Ye received special care by Ning Maner's Immortal aura and also reached middle class Immortal rank.

In the few months of training in Demonic Mound's Heavenly Realm, Chu Mu put most of his attention on Zhan Ye. This also made Zhan Ye approach middle class Immortal rank.

If Zhan Ye reached middle class Immortal rank, fighting solo against that Seven Headed Hydra King would not be a problem at all.

Ning Maner's Immortal Aura nurturing also took time to settle in. The accumulation of Immortal Aura this time would not be less than the last time Dead Dream executed Nirvana Rebirth, so it naturally took a longer time.

Speaking of which, Chu Mu was also wondering why had Dead Dream still not awakened? It had been such a long time.

Chapter 1527: Ten Thousand Year Wheel, Thousand Year Era

They returned to Elder Li's residence after dashing back from Heavenly Realm Forest.

Elder Li took Chu Mu to that foreign rock this time. It was clear that it intended to unveil the secret of the first Heaven Boundary Monument.

Chu Mu followed Elder Li to the location of that foreign rock. The foreign rock remained standing tall in the dense forest, with a large crater around it.

After walking to the foot of this foreign rock, Elder Li used its short hand to stroke this enormous rock. It did not speak for a long time, as if in deep thought.

"It's actually one of my old friends," Elder Li opened its mouth.

"It?" Chu Mu did not understand who Elder Li referred to.

“The Beast Soul you saw at Heaven Boundary Monument,” said Elder Li.

Chu Mu immediately understood and focused on Elder Li’s anecdote.

“Every era has the era’s strongest. I don’t know if it’s a promised culture, or a cycle itself, our world counts one thousand years as one era, ten thousand years as a wheel,” said Elder Li.

“Does this thousand year and ten thousand year contain some implication?” asked Chu Mu.

“It naturally does,” Elder Li sat before the foreign rock and explained, “You should know that there are ten Heaven Boundary Monuments. Two of them are in New Moon Land, the others are scattered in various places of this world. Actually, these ten Heaven Boundary Monuments represented ten one-thousand-year era.”

When Elder Li reached this point, Chu Mu was a little confused and interrupted to ask, “But the stories I saw in those Heaven Boundary Monuments are over ten thousand years ago. Aren’t Seven Sins Fox and Messiah Tree at least ten thousand years ago?”

“Yes, what you saw are the two ten-thousand-year-wheel rank creatures. One-thousand-year era creatures aren’t qualified to be carved on Heaven Boundary Monuments yet,” said Elder Li.

“Then this so-called qualification?” Chu Mu was really confused. Did Heaven Boundary Monument also possess thinking process? Could they determine which creatures were the strongest in the ten-thousand-year wheel and which creatures were the strongest in the one-thousand-year era? Could it be that every strongest creature was a Monument Tear Individual?

“Qualification judgments are based on two methods. The first is chosen through the Monument Tear Individual’s experience. The second is.....” When Elder Li spoke to this point, it suddenly paused for a moment and took a glance towards the ocean region, then continued, “You have been to that Heaven Boundary Monument on White Island, right? What did you see?”

“White Ocean God and an unknown Heaven Palace,” answered Chu Mu.

“Then, the second is Heaven Palace’s choice,” said Elder Li.

Heaven Palace’s choice??

Chu Mu did not quite understand Elder Li’s words. Were the era’s strongest and wheel’s strongest chosen by people from Heaven Palace?

“Don’t pry too much into Heaven Palace for now. You just need to know they exist,” said Elder Li.

It had a similar opinion on this matter as Old Li. They would not say too much about this level before Chu Mu reached that level.

“My Evil Good Queen came from Heaven Palace,” Elder Li did not tell Chu Mu, but Chu Mu wanted to know.

“She’s from Heaven Palace?” asked Elder Li.

“Should be,” Chu Mu nodded.

Elder Li shook its head and did not continue on this topic any further. It returned to the topic about Heaven Boundary Monument.

“The Beast Soul you saw was the fourth era’s strongest in our current ten-thousand-year-wheel.”

“While that Ancient Flood Dragon Person you saw was the fifth era’s strongest.”

Beast Soul, Ancient Flood Dragon Person, one-thousand-year-era’s strongest!

Chu Mu had only lived for over twenty years, just how long would one thousand years be?

In that one thousand year period, just how many powerful creatures could become the strongest during their lifespan? How powerful could they become?

“What about the other era’s strongest?” asked Chu Mu immediately.

“Limbo Flower Ancestor is the first era’s strongest.”

“Inferno Ghost Lord, second era’s strongest.”

“Hades Fox God, third era’s strongest.”

“Underworld Demon Lord, sixth era’s strongest.”

“Yellow Spring Emperor, seventh era’s strongest.”

Elder Li listed out the five Undying rank experts which ruled the five races.

Chu Mu certainly expected those Five Undying Legends to be the strongest creatures in this wheel.

However, Chu Mu was surprised that the Beast Soul he saw in the first Heaven Boundary Monument was actually another Undying rank creature. Even the fearsome Ancient Flood Dragon Person also belonged to Undying rank!

Chu Mu had always known that Ancient Flood Dragon Person was very strong. He could tell from its subordinates that filled the hall. Furthermore, the number one general, Calamity Ocean Demon, already made a mess out of East Ocean. However, when Elder Li put Ancient Flood Dragon Person amongst the Five Undying Legend level, it made Chu Mu feel helpless.

How should he oppose an Undying rank creature?

“It and Ancient Flood Dragon Person had been archenemies, because they were both born in New Moon Land. It made Ancient Flood Dragon Person slumber for nearly five thousand years, but it also died due to a fatal wound and only left behind a trace of soul,” said Elder Li calmly.

“If you can see some scenes of the sealed past, that means it has already died,” supplemented Elder Li.

Chu Mu immediately recalled the scenes he saw in Heaven Boundary Monument after hearing that.

He saw that ancient Beast Soul himself, it was buried deep into his memory.

However, in the second Heaven Boundary Monument, Chu Mu did not really witness any sealed past. There were only descriptions of Ancient Flood Dragon Person, that was because Ancient Flood Dragon Person had not died yet.

In Lin City’s Heaven Boundary Monument, Chu Mu saw Ning Maner’s Monument Tear. However, Messiah Tree was wheel-rank creature, he was able to see those scenes due to Ning Maner’s tear. This means Lin City’s Heaven Boundary Monument also hid a story about an era’s strongest, but he did not see it.

Chu Mu told Elder Li about the situation of Lin City’s Heaven Boundary Monument.

“How many Monument Tears do you possess now?” asked Elder Li.

“Not many, they are all mine. There’s also a Seven Sins Fox Monument Tear, but I can’t seem to view the memories inside,” said Chu Mu.

“Era’s strongest are chosen from Monument Tear Individuals. You are one of the fourth era’s strongest candidates. However, you cannot view a thousand-year Monument Tear, this means there’s a candidate even more qualified to inherit the fourth era’s strongest than you,” said Elder Li.

“What does this mean?” Chu Mu still could not understand.

“The fourth era’s strongest was Ancient Beast Soul, but it had died. Era’s strongest cannot be left blank, so a portion of people would be chosen to become the candidates and inheritors of the era’s strongest for this Heaven Boundary Monument. You were not the only one who saw the scenes of Ancient Beast Soul. Some others also saw it, they are similarly candidates for this era’s strongest like you. However, the strongest one is the inheritor. Only this inheritor can activate the memory of other Monument Tear Individuals and obtain the power in their Monument Tear,” said Elder Li.

Chu Mu was enlightened after hearing this explanation.

No wonder Monument Tear Individuals would rob and kill one another. Those Monument Tear Individuals and Fake Monument Tear Individuals were probably competing over the position of this era’s inheritor position. As long as they killed the other competitors, not only could they obtain the power inside the Monument Tears from all other Monument Tear Individuals, they could be acknowledged by Heaven Boundary Monument to be the era’s strongest.

Era’s strongest would be Undying rank, this was the true path towards Undying rank!

“Looks like the fourth era’s inheritor has yet to find you?” asked Elder Li.

“Some Monument Tear Individuals and Fake Monument Tear Individuals did come to look for trouble, but I don’t know which of them is the real era’s inheritor. I think the real era’s inheritor should be very strong, those people feel average,” said Chu Mu.

“Era’s inheritor may not be the strongest one. You can treat it as a title. This title can be transferred, as long as you are capable of killing this era’s inheritor. Of course, the person who can keep this

title must be the strongest. And he will eventually fill in the position as the fourth era's strongest," said Elder Li.

"What my old friend left is its Monument Tear. Unfortunately, you can only possess it and cannot obtain the power within it. Unless you can kill the fourth era's inheritor," continued Elder Li.

Chu Mu frowned after hearing that.

Without Ancient Beast Soul's assistance, how should he defeat Ancient Flood Dragon Person?

If he only had Monument Tears but could not obtain any power, what use was there to own them?

Elder Li could tell Chu Mu's disappointment and doubt, it spoke, "This is also a test. By holding this most crucial Monument Tear, that inheritor will naturally come to you. Perhaps you are the most suitable person?"

Ning Maner listened attentively at the side. She suddenly thought of a question and asked, "Grandpa Li, the dead era's strongest needs to be filled in. That means big brother and the other Monument Tear Individuals are only fighting for the position of the fourth era's strongest. Then, has the era's strongest of our current era been born? Which era do we belong to?"

Elder Li smiled, "The era's strongest of this era has not been born, but should be soon. Isn't Solar Eclipse approaching?"

Elder's Li's words caused Chu Mu's heart to suddenly thump.

Because he captured an astonishing information from Elder Li's words!

A Moon Tide and Solar Eclipse cycle should be around fifty years. Meanwhile, the hundredth Solar Eclipse since Ancient Flood Dragon Person's slumber would be approaching.....

The hundredth Solar Eclipse meant a total of five thousand years.

Ancient Flood Dragon Person happened to be the fifth era's strongest in the current wheel.....

Which meant the next Solar Eclipse would be a wheel!

The current era was the last era in the wheel, there would only be a few years left, as the hundredth Solar Eclipse would be approaching!

Elder Li mentioned about wheel-rank strongest. It was clear that the wheel-rank strongest would be chosen amongst the era's strongest!

In that case, the wheel rank strongest, which could be called a god, would be born soon!

Hades, Yellow Spring, Inferno, Underworld, Limbo, Flood Dragon Person.

There were another four which Chu Mu did not know.....

Who would become the god of this wheel?

Chapter 1528: Ocean Species Sending Military Aid Part 1

“Take this Monument Tear along. Perhaps it will help you when you need it. Of course, it can also bring disaster to you,” Elder Li walked to the foreign rock and passed that Monument Tear hidden inside the rock to Chu Mu.

Chu Mu looked at the Monument Tear floating in front of him, unsure whether to receive it or not.

“Oh, there’s a bad news for you. Your territory seems to be in big trouble,” said Elder Li.

“What big trouble?” Chu Mu frowned.

New Moon Land was currently very stable. Its average strength also surpassed the surrounding borders, so it should not encounter any problem.

“My informant told me that New Moon Land had been determined to be Racial Independence. It would be subjugated by a joint force from the human factions. You better go back and ask for the details yourself,” said Elder Li.

When Elder Li said that, Chu Mu also had a bad feeling.

Joint force subjugation, and from many factions. Would those major factions be at war with New Moon Land?

“Take it. You are already carrying many heavy burdens. This Monument Tear will bring trouble to you, but will also provide you with boundless strength. You are the guardian of Messiah Tree, you need to take responsibilities. Your territory is invaded, you need greater strength in order to protect it,” said Elder Li.

Chu Mu nodded and eventually accepted this Monument Tear.

Escaping held no meaning. Perhaps just as Elder Li said, that he was the most suitable inheritor?

.....

After leaving Heavenly Realm, Chu Mu had been thinking over Elder Li’s words.

Just what could have happened? Why would New Moon Land suffer a joint subjugation from those factions? What happened during Dual Earth Conference?

“Big brother, are we going back to Wanxiang City now?” asked Ning Maner.

“The promised time with East Ocean Siren King is almost up. We will go there once and then immediately return to Wanxiang City,” said Chu Mu.

With Night’s current speed, it should not take too long to head back to Wanxiang City from Coral City.

.....

After reaching Coral City, Chu Mu immediately found mermaid princess Lan Qie and asked about little Yellow Spring.

Lan Qie could tell Chu Mu was in a hurry, so she did not say anything pointless, “Yellow Spring Emperor has ordered to remove the seals on Yellow Spring Calamity, but some races cannot accept it back into East Ocean. Yellow Spring Emperor will exile it into another ocean region.”

“Exile again? A big problem has come up in my territory, I cannot stay with Ocean Species,” said Chu Mu.

Lan Qie saw Chu Mu’s anxious state and smiled, “Do you know where it will be exiled to?”

How could Chu Mu know where Yellow Spring Emperor would be exiling Yellow Spring Calamity to?

“East Ocean East Border Ocean,” Lan Qie’s mouth curved up.

East Border Ocean?

Isn’t East Ocean’s eastern most side New Moon Land? Then isn’t that Dark Sky Ocean which extends into the continent??

“Dark Sky Ocean is your territory, its freedom is up to you,” said Lan Qie.

Chu Mu and Ning Maner were still filled with worry a moment ago, but they immediately smiled after hearing that.

This was basically leaving Yellow Spring Calamity under his management in another way. Yellow Spring Emperor's exile this time was perfect!

Other than not having sufficient sunlight, Dark Sky Ocean's environment was still pretty decent. Little Yellow Spring would have a much better time living in Dark Sky Ocean than Exile Ocean. Also, it could visit Wanxiang City when it was free. Little Yellow Spring had half unicorn bloodline anyway, there would be no problem fighting or moving on land.

"Yellow Spring Emperor's order has been issued. Next will be waiting for the royal ocean guards to execute it. If your territory is in trouble, you should go back first. The royal ocean guards will escort little Yellow Spring Calamity to Dark Sky Ocean. You will be in charge of receiving it by then," said Lan Qie.

"Alright," Chu Mu certainly could not afford to waste any time. Hearing this news, he could return to Wanxiang City in relief.

"Wait," Lan Qie saw Chu Mu in a hurry to leave and quickly stopped him.

"What else is there?" asked Chu Mu.

"Didn't you agree to bring me to your human territory?" Lan Qie looked at Chu Mu with a smile.

“New Moon Land is under subjugation by human forces right now. After I settle this matter.....”
said Chu Mu.

Lan Qie shook her head, “When we were in danger, you stand up for us and helped us. Now that you are facing danger, how can we leave you alone? I have received the news about the subjugation. This is an extremely large scale war. Our East Ocean’s war has reached an initial victory and slowly settled down. I believe it’s time we help you settle your war. After all, we are unswerving allies.”

Chu Mu could not ask for more to be able to receive assistance from East Ocean’s Ocean Species. After all, no matter how easy to defend and difficult to attack New Moon Land was, it could not be compared to those powerful factions.

“Great, great. However, sister mermaid needs to learn to wear clothes. Human territories have many lechers like big brother,” exclaimed Ning Maner.

“I shall abide by the culture,” said Lan Qie with a smile.

.....

Chu Mu was actually really clueless how it would be like for the mermaid princess to be on land.

When Lan Qie and her maid followed Chu Mu to land, Chu Mu suddenly realized this mermaid princess was quite smart.

Mermaids were not used to wearing clothes. They wrapped soft corals around their chest, their shoulders and abdomen were still completely exposed.

Meanwhile, they used a long skirt to cover their curvy mermaid lower bodies. The long mermaid skirt traced out a beautiful curve. They could easily be recognized as women with beautiful hips and long legs. They did not look strange at all.

He had to admit that mermaids were certainly creatures filled with beauty and temptation all over their bodies. Perhaps all races would love their appearance.

Since mermaid princess Lan Qie would be heading out, her two Ocean Iguana Guards would naturally be brought.

These Ocean Iguana Guards would naturally be treated as Lan Qie's soul pets. With that, other than attracting the gaze of humans, it should not cause a great commotion.

Of course, Chu Mu still suggested to mermaid princess not to just wear a chest wrap when going to a crowded place. She was already so beautiful, it would cause a commotion if she wore an attire with such high exposure.

.....

Mermaid princess Lan Qie possessed the ability to manipulate water. Chu Mu rode on Night and flew parallel to the ocean surface. Mermaid princess and her servants would ride on water.

After reaching New Moon Land, Chu Mu let the two mermaids sit on Night's back, while he carried Ning Maner and continued rushing towards Wanxiang City.

Chu Mu knew it was an emergency, so he did not have any leisure to introduce many things to Lan Qie. He could let Ning Maner act as a tour guide after reaching Wanxiang City. Ning Maner knew how to play the most right now.

.....

When Chu Mu returned to Wanxiang City, the door of the conference hall was opened. This meant everyone should be inside the hall.

Chu Mu brought mermaid princess, the important guest from Ocean Species, into the conference hall directly.

Within the hall, elders sat in two rows facing one another. The core members of New Moon Land were all present, including Ye Wansheng, Ye Qingzi, Mu Qingyi, Bai Yu, Prince Chao. These New Moon Land leaders were all in their seats.

Chu Mu and these people focused more on cultivation. Without any major events or special occasions, the leader seats in the conference hall would mostly be empty. It was a rare scene to see the current generation of leaders all attending. This was sufficient to indicate the severity of this matter.

Beneath these leaders would be the elder rank members and old or new members with extraordinary strength in New Moon Land. Even Cloud Gate Elder and Uncle Yu who were not in charge of anything sat in the conference hall.

Going further down, the Palace Masters sent to various Border Cities were mostly recalled.

Over half of the wandering guest members also showed up.

Chu Mu rarely participated in palace conferences. However, this time, the palace conference suddenly became so crowded and solemn. It was certainly the first time in history.

There were many people in the hall, but the hall was very quiet, as if they were discussing something in low volumes.

When Chu Mu barged in, everyone naturally turned their gaze towards him. When they saw the person barging in was Chu Mu, their worried expressions finally eased up a little, some even heaved a sigh of relief.

“King Chu.”

“King Chu!”

Other than people on the leader seats, the others stood up from their seats and greeted Chu Mu.

The stuffy atmosphere also freshened up a little with Chu Mu’s arrival.

Of course, the three beautiful women behind Chu Mu also entered the view of everyone.

Chu Mu walked straight to his throne and arranged guest seats for Lan Qie and her maid.

“What happened?” Chu Mu sat on his throne and swept his gaze over everyone.

Most of them remained silent. This would naturally be told by Liu Binglan.

However, before Liu Binglan spoke, someone else spoke first.

“New Moon Land is currently under a crisis, King Chu sure has great mood, bringing three beauties to tour until now. Only King Chu doesn’t know what the entire New Moon Land knows……”

These words carried a heavy sarcasm.

The person who spoke was a relatively highly reputed guest elder —— Xue Bin.

This elder was an expert who joined New Moon Land the earliest. Most guest experts were under his management. Even some internal affairs were managed by him.

Xue Bin’s words caused the venue’s atmosphere to become stuffy again.

Chu Mu did bring three beauties back, everyone saw that. Some people who were unfamiliar with Chu Mu naturally felt dissatisfaction after seeing such a scene. However, they did not dare to voice out.

At that moment, Ye Qingzi used mental voice to tell Chu Mu, “He’s Xue Bin, guest elder, also the one who intercepted the urgent letter of Ice City.”

Chu Mu took a glance at Xue Bin and a smile floated at the corner of his lips. He purposely did not try to explain this matter.

Trying to sow discord and shake the attitude of New Moon Land’s core members? Trying to make New Moon Land’s people lose confidence in their leader?

Beauty? Mermaid princess Lan Qie was certainly a beauty. However, this beauty was also the ruler of Eternal Ocean East 360 Dynasty races!

Chapter 1528: Ocean Species Sending Military Aid Part 2

Liu Binglan changed back to the original topic.

The reason for this conference to be held was naturally to decide whether to fight or migrate.

Certainly, the leaders of various New Moon Land regions chose to fight. Even if they would lose, they had to fight. Otherwise, New Moon Land people would never hold their ground in this continent.

Human territories appeared to be peaceful, but the segregation of races was very obvious. For example, those slave rank humans with brown pupils lived in the poorest environment. The resources they could possess were also scarce. The seldom few talented individuals could not break through due to racial rank limitation.

Furthermore, the descendants of those people also lived in a similar situation, it was almost impossible to change.

New Moon Land's people were constantly improving their social ranking. However, after losing this precious land, would they not end up at the lowest tier like those slave rank humans as a migration race?

Hence, they had to fight no matter what!

However, regardless of how much they wanted to fight, New Moon Palace's core members had to consider the safety of New Moon Land's people.

The major factions had been spreading the news that if New Moon Land still refused to migrate, what would happen would not just be a war, but an extermination of the rebellious race. Anyone who stayed in New Moon Land and fought for New Moon Land would be executed, including the family!

Actually, slaughtering was not allowed. The subjugation alliance represented not the eight major factions, but some of the sects within the eight major factions. The other factions would not let these factions in the subjugation alliance do as they like.

Hence, the subjugation alliance was just making empty threats. However, once the war broke out, the slaughtering that would occur could easily be disguised. Such an empty threat might still become a bloody truth.

The enemies were really too powerful, it was useless to just be filled with fighting spirit. It was no different from hitting the rock with an egg.

Hence, New Moon Land was divided into two camps. One camp naturally wished for migration to save the New Moon Land race. The other camp would choose to fight, defending New Moon Land till their death.

Xuan Gate Immortal School's Madam Ying, Divine Sect's Magistrate Xiao and Old Sect Master Xiao, Mu Family Dynasty's Mu Li Clan, Royalty's Family Master Tao, Beiming City's elder hermits and Yu Suo all indicated to ask New Moon Land to compromise first and wait until this storm was over. Once Ancient Flood Dragon Person's incident was resolved, they could find another chance to regain New Moon Land.

At most in twenty years, during the next Dual Earth Conference, New Moon Land would definitely be given back to New Moon Land's people.

However, if New Moon Land's people were completely annihilated or had very little remaining, they would not be able to defend New Moon Land even if they won this time.

Recently, Liu Binglan had been hesitating over fighting or migrating.

She wished to fight, but she was unwilling to see New Moon Land dyed in blood. Just one sentence from her 'We will fight' might make everyone die.

However, if they did not fight and give New Moon Land away, they had to suffer twenty years of refugee hardship. By then, even if they regained New Moon Land, would it still be New Moon Land?

Suffering from this dilemma everyday caused her to be very haggard. She was able to hold on until now because she still had a trace of hope in her heart. That hope came from Chu Mu.

Over the past few days, Liu Binglan was constantly being pressured by the subjugation alliance. When she saw Chu Mu return, she finally felt a little relieved. No matter how Liu Binglan managed

New Moon Land, Chu Mu was still the irrefutable king of this territory. Only he could shoulder such major decisions.

Liu Binglan went through the events of Dual Earth Conference and New Moon Land's situation in detail. The others were also patiently waiting for Liu Binglan to inform Chu Mu of the matter at hand.

"Currently, migration is being favored, but some still wish to fight. We need a final decision," Liu Binglan told Chu Mu.

This final decision naturally would be up to Chu Mu, because he was the New Moon Land's King!

Chu Mu did not participate in Dual Earth Conference, but after hearing Liu Binglan's anecdote, a flame of rage ignited in his heart!

Ancient Flood Dragon Person was about to awaken, those people did not take direct measures to resolve this problem, but intended to reap New Moon Land for themselves!

They even dared to use the justification of protecting humanity!

Chu Mu really regretted not participating in Dual Earth Conference. If he was at the scene, he would just flip the conference table over and smash it onto the face of that Royalty's Family Master Gu! What shameless trash!

Furthermore, the two royalties were really too arrogant, as if they were the rulers of humans. This era's strongest had yet been born, and they claimed to be god?

“Fight.”

Chu Mu spat out one word. He did not say any useless things!

“King Chu, you don’t seem to understand just how much fighting force the enemies we face possess. You are making such a rash decision?” said a young elder who similarly felt dissatisfied.

“King Chu, you have just returned from cultivation. It’s not too late to make the decision after understanding the matter in depth,” said Elder Pang who was better at words.

Most conservative core members suggested Chu Mu to understand the situation first. Persuading words kept coming out.

“King Chu, shall we end the conference here first, and continue discussing tomorrow?” said Nightmare Emperor Jiang.

Chu Mu shook his head and turned his gaze to New Moon Navy’s Chief General Yuan Sui, “How’s the condition of New Moon Navy?”

Yuan Sui raised his head and calmly answered, “We’re waiting for Wupan Navy to come and receive their graves!”

New Moon Navy was a champion army of New Moon Land. They only listened to Chu Mu’s orders from the start.

Even if the entire New Moon Palace chose to migrate, as long as Chu Mu said to fight, New Moon Navy would not shrink back.

“Elder Yu, how’s Holy Guard army?” Chu Mu ignored all voices of protest and asked the few martial instructors.

Uncle Yu was in charge of being the top elder for New Moon Holy Guard. This ex-Royal Chief Instructor nurtured New Moon Holy Guard army into an elite army.

New Moon Holy Guard army’s sole commander was also Chu Mu. If Chu Mu said to fight, nobody in Holy Guard army would say no!

“Waiting for King Chu’s orders!” said Uncle Yu respectfully.

Everyone could call one another casually at normal times. However, in the conference, Uncle Yu had to maintain respect towards a king!

“How’s New Moon Palace army?” Chu Mu’s gaze turned to Chao Lengchuan.

New Moon Palace army was the main force of New Moon Land, it was also the elite army with the largest size.

This army was usually managed by Elder Pang, Elder Shen and Elder Liu, the three most qualified elders from the three palaces. However, the actual commander was Chao Lengchuan. Even though he had been cultivating all the time just like Chu Mu, it had to be Chao Lengchuan who could move this army.

“I remember that during the Independence War, King Chu already said that any unauthorized personnel stepped foot onto this land, be it Cloud Realm’s Realm Lord, Border Lord, Divine Sect Officials..... All will be exterminated! Now, our enemy is no longer the tiny Cloud Realm, nor some Border Lords or Divine Sect Officials. Our enemy has become an enormous existence known as the entire human faction. However, doesn’t that further prove that our strength is sufficient to make all those factions wary?”

“In that case, how can we not fight?” said Chao Lengchuan with some bloodthirst.

Chao Lengchuan’s words caused the conference hall to stay silent for a long time. Chu Mu was watching him and thought, it’s been a while since I last saw him. How did he suddenly become so domineering? Is he still that reserved Prince Chao?

Leaders should possess the courage of a leader. Prince Chao’s words were perfect. Chu Mu did not like to say inciting words. Prince Chao’s words perfectly filled this gap of Chu Mu.

“Bai Yu, what about you?” asked Chu Mu as he turned to Uncle Bai Yu.

“I’m in charge of killing people,” said Bai Yu plainly.

“King Chu, I, Bai Shaoye, and the external New Moon Palace army I’m commanding are willing to follow with our lives,” Bai Shaoye directly made his stand.

Bai Shaoye and Shen Mo were both in charge of the fighting force of external New Moon branch Palaces. They similarly owned a powerful army. Now, Bai Shaoye made his stand as an external core member, it was sufficient to prove his loyalty.

Chu Mu took a glance at Bai Shaoye and nodded. It seemed that using the light type Immortal Item to gain his favor back then was the right choice.

After Bai Shaoye, City Defense Generals, Realm Guard Commanders and various City Lords also made their stand!

In an instant, those wishing for migration felt helpless.

Originally, the migration faction even gained some advantage. However, after Chu Mu returned, those people holding real authority all chose to follow this king!

Chu Mu was no good at army deployment and war tactic, so the actual commanding was left to Chao Lengchuan.

Chao Lengchuan had been cultivating in the recent years, but he cultivated in all the places within human territories where war broke out. This was also the reason he became so courageous.

Hero Chief Yuan Sui was outstanding in commanding. New Moon Navy core army and Marine should not be a problem in his hands.

The two of them were assigned chief army commanders by Chu Mu.

After the conference ended, Hero Chief Yan Sui, Bai Yu, Chao Lengchuan, Bai Shaoye, Shen Mo, Liu Binglan, Wanxiang City's General Luo Zhongjum, Xiang Rong City's City Lord Xia Zhixian,

Ye Wansheng, Uncle Yu Fengdi, Cloud Gate Elder Yue Lei, Elder Liu, Elder Pang, Elder Shen, as well as all of New Moon Land's inner core members were held back by Chu Mu.

These people were all trusted by Chu Mu and possessed authority over armies. Chu Mu had to know the exact difference between his own side and the subjugation alliance.

"Chu Mu, our Dominator rank fighting force numbered around 6000, while the subjugation alliance had 16,000. In just Dominator rank, we are 10,000 short of the enemy," said Chao Lengchuan as he looked at Chu Mu.

Chao Lengchuan knew Chu Mu also controlled Yu Suo's Invisible Kingdom. If this Invisible Kingdom surfaced, they might still have the qualification to fight. Otherwise, saying to fight would be just empty words.

"Our Dominator rank fighting force is not only 6000, it will far exceed this number," said Chu Mu calmly.

New Moon Land's Dominators certainly numbered only around 6000. From the original few to around 6000, this development speed was really astonishing.

However, that only counted human Dominators.

"Not only 6000?" Elder Pang could not think of any other forces no matter how much he thought.

These people who were familiar with Chu Mu seemed to have forgotten about this. Not only was Chu Mu New Moon Land's King, he possessed the identity of another King!

Chapter 1529: Ocean Region? Defense Is Unnecessary Part 1

Heavenly Mountain Cloud Gate.

Ye Wansheng would be in charge of defending this stronghold. The enemy he would face was Divine Sect's Discipline Palace.

Discipline Palace was the main force controlled by Vice Sect Master Du in Divine Sect. He deployed 1500 members this time.

All Divine Sect members reached Dominator rank. Their subjugation army was also simple, simply these 1500 Discipline Palace members.

The person commanding this Discipline army was Qin Guang who had a conflict with Chu Mu in Imprint Valley.

As Chu Mu possessed Seven Sins Fox's Monument Tear, he had to obtain it using whatever excuse he could make. Of course, Qin Guang knew that there were others who wanted that Monument Tear.

The faction cooperating with Qin Guang to take down Heavenly Mountain Stronghold was Hua Border's army faction.

Hua Border was a famous large Border Kingdom in Zhengming Continent. Its territory was very vast, ranked number two amongst all Border Kingdoms.

Other than Hua Border's own army faction, there were many powerful sects and households in the territory. Hence, the army sent by Hua Border reached quite a scale. There were a total of 1000 Dominators and over 50,000 Emperors.

With that, Divine Sect and Hua Border had a total of 2500 Dominators and over 50,000 Emperors.

Heavenly Mountain Stronghold was not the main battlefield of the subjugation alliance. After all, taking this Cloud Gate route to New Moon Land was not very convenient.

Meanwhile, in New Moon Land's stronghold, there were only 1000 Dominators. 500 from New Moon Palace army, while the remaining 500 were all volunteer soul pet trainers.

The difference between invasion and protection was that invaders would not be acknowledged and supported by these volunteer soul pet trainers.

Meanwhile, protection was a form of responsibility and mission. Volunteer soul pet trainers would willingly join the protection side.

New Moon Palace army's Dominator fighting strength reached 500, while volunteer soul pet trainers also reached 500. This was sufficient to show that New Moon Palace was well liked.

There was a clear difference in army size between Heavenly Mountain Stronghold and Divine Sect plus Hua Border. As the defending side, Heavenly Mountain Stronghold's defensive installments might not be able to perform an important role. After all, the enemy's fighting strength would be all Emperor and Dominator rank.

The fortunate thing was that Cloud Gate Edler Yue Lei and his disciples would be personally defending here.

Within the hundreds of years Cloud Gate Elder Yue Lei guarded Cloud Gate, he did not just stay there. He would actually take a walk everywhere after a period of time and pick some people with decent potential to be trained in Heavenly Mountain.

After so many years, his disciple group had also become a remarkable fighting force!

Ye Wansheng was naturally one of Cloud Gate Elder's disciples. With Cloud Gate Elder Yue Lei as lead, there were a total of eighteen disciples. They would be leading New Moon Palace army and New Moon soul pet trainers to oppose Divine Sect and Hua Border.

Heavenly Mountain Stronghold could only be called a secondary battlefield, because the real battlefield would be at Eastern Wild Forest Stronghold.

Eastern Wild Forest route was much better than Heavenly Mountain. Furthermore, there were plenty of places to set up camps. Currently, the main force of various major factions were camping at the junction between western border of Cloud Realm and Eastern Wild Forest. They were prepared to charge into Eastern Wild Forest and invade New Moon Land at any moment.

The army camping in Eastern Wild Forest was formed by Elemental Clan's Fire Sect and Wind Sect, Demon Beast Palace's Snake Dragon Faction, Xuan Gate Immortal Sect's Commandment Palace and Mu Family Dynasty's Mu Tuan Clan. There were over 10,000 Dominators, while the Emperor rank army filled up the few mountain ranges outside Eastern Wild Forest!

Without a doubt, Eastern Wild Forest would become the main battlefield of this joint subjugation!

Meanwhile, on New Moon Land's side, New Moon Holy Guard, New Moon Palace army, volunteer alliance were all defending Eastern Wild Forest Stronghold. There were around 3000 Dominators.

Compared to the enormous subjugation alliance, 3000 Dominators were really too insignificant. More importantly, there were many Immortals within the subjugation alliance. Every faction was led by Gate Master rank people. For example, Fire Sect's Madam Huo, Wind Sect's Tong Guanyu, Snake Dragon Faction's Zeng Long, Mu Family Dynasty's Mu Tuan, Xuan Gate Immortal School's Gu Xinshui and Lü Fengnan.....

These experts already held great authority in Zhengming Continent. They were famous and strong. This was also the reason many New Moon Land members felt helpless. One had to actually step into Zhengming Continent and visit enough cities and Border Kingdoms to truly realize what becoming those Sect Masters and Gate Masters actually meant in this cruel and competitive world.

New Moon Land also had Immortals, but almost none could become Gate Master or Sect Master rank experts.

Immortal rank would deal a devastating blow to Dominator rank. If they could not keep those Immortals in check, New Moon Land would be flattened quickly!

.....

Wanxiang City Conference Hall.

"Chu Mu, are you sure we don't need to reinforce the two sides connecting to ocean region?" asked Mu Qingyi.

"Yeah, Wupan Continent's Wupan Navy and Ning Family Dynasty's factions are also eyeing on us. The forces they would be sending definitely won't be little. Especially Wupan Navy, they would surely want to expand further North. They will swallow our New Moon Land to act as the checkpoint for their expansion," said Elder Pang.

The four battlefields, Heavenly Mountain battlefield, Eastern Wild Forest battlefield, Windy Rain City and White Nightmare City.

Windy Rain City and White Nightmare City might encounter the attack from Wupan Navy. Especially Windy Rain City, if Wupan Navy occupied Windy Rain City, they could send their main army to Xiang Rong City and Wanxiang City directly. It meant they would be entering the center of New Moon Land and dealing a fatal blow to New Moon Land.

Hence, Windy Rain City was also a crucial point of defense. No accidents would be allowed.

“It’s enough with New Moon Navy. Deploy the remaining forces to Eastern Wild Forest Stronghold,” said Chu Mu with confidence.

“This..... King Chu, the responsibility you are giving us is really too heavy. Our New Moon Navy’s average strength is certainly higher than them, but our elite only numbered 1000. Wupan Navy has nine regiments, each regiment has thirty fleets.....” Sang Ying had a bitter expression.

“Relax, your ocean region will be safe,” said mermaid princes Lan Qie with a smile.

As the war occurred suddenly, Chu Mu did not have any time to make arrangement for mermaid princess to visit the human cities. Lan Qie was also very considerate, she followed next to Chu Mu during the war conferences over the past few days.

Liu Binglan looked at Lan Qie. She had felt the two beauties Chu Mu brought back this time seemed strange. Their waists would swing exaggeratedly when walking, and the legs inside that long skirt also seemed weird. More importantly, their gaze always gave off a foreign feeling.

“There were outsiders before, so it’s not convenient for me to talk,” Chu Mu looked at Lan Qie and asked her to stand in front of everyone.

Everyone was confused, would this beauty possess something special?

“This is East Ocean’s Ocean Species princess —— Lan Qie. She controls the 360 races of Ocean Species. You can say that the Eternal Ocean region humans have reached are all her territories!” introduced Chu Mu formally.

Liu Binglan had already told her trusted people about the five races after returning to New Moon Land. They only knew about the other major races apart from humans recently.

Meanwhile, Chu Mu suddenly introduced this beautiful and sexy woman to be an Ocean Species member, and a princess at that. This caused everyone to open their eyes wide in disbelief!

Everyone’s gaze turned to Lan Qie for a while.

“Hello, this is the first time I’m visiting the human world,” Lan Qie politely nodded towards everyone.

She could sense deep doubts from these people. She smiled and weaved an elegant melody from her sexy lips.

When this beautiful melody reached the ears of everyone, it became a simply canvas within their minds. Mermaid princess revealed her real appearance in the canvas and jumped into the ocean with her elegant style.

Meanwhile, in the ocean, densely packed ocean creatures lined up inside the ocean. They were neat and solemn just like human armies!

The images Lan Qie used her arcane-filled voice to let everyone watch were real. It was the scene of Ocean Species fighting against Calamity Ocean Demon.

This scene was very short, but really astonished everyone!

The other races really exist!

Furthermore, the Ocean Species princess, the legendary mermaid, was standing right before them!

The strongest fighting race of Ocean Species, Ice Demon Shark clan is living in Dark Sky Ocean now. This is thanks to your King Chu for finding a suitable ocean region to let them live. Ice Demon Shark clan likes battles and is courageous. They won't let tt army which attempts to attack your New Moon Land cross that ocean region easily," said Lan Qie.

"On the other hand, our strongest Ocean Species, Ocean Iguana race, is currently advancing towards your ocean region. The western coastline of your human ocean region is getting controlled by our Ocean Species members successively. You will receive intel immediately if anything happens."

Lan Qie's words shocked everyone.

What did she mean by controlling this human ocean region called Eternal Ocean??

Human ocean region ranged from the North Barren Ocean Region further North from New Moon Land, to New Moon Land's Nightmare Ocean Region, then to the enormous Dark Sky Ocean, and then Wupan Continent's Guan Ocean, there was an even larger ocean region further South from Guan Ocean.

This entire coastline stretched over unknown kilometers. There were also countless islands and archipelagos along the stretch. Nobody, including Wupan Navy, amongst human territories dared to claim to have controlled this western coastline of human territory!

"Can I ask about the fighting force of your Ice Demon Shark clan which migrated to Dark Sky Ocea?" Yuan Sui opened his mouth.

"Using your human's method to describe, Ice Demon Shark clan has 3000 Dmoniators, 50,000 Emperors, Monarch rank army is still migrating towards this ocean region, there is over a million and still increasing," said Lan Qie.

Everyone drew a sharp breath after hearing the statistic!

Amongst the 360 races of Ocean Species, a single Ice Demon Shark clan actually had such an enormous army! Furthermore, they would be living in Dark Sky Ocean which was closest to New Moon Land!

Chapter 1529: Ocean Region? Defense Is Unnecessary Part 2

The fighting force of Ocean Species naturally would not be just this little. The army opposing Calamity Ocean Demon also had a portion camped near human territory.

Now that Calamity Ocean Demon's arrogance had been suppressed by Ocean Species, mermaid princess could easily deploy this portion of the army to New Moon Land's ocean region.

Everyone looked at mermaid princess in astonishment for a long time, then turned to Chu Mu.

They really wanted to know just how Chu Mu made contact with Ocean Species, and a princess who held authority over the vast army of Ocean Species on top of that. Shen Mo, who was in charge of negotiating with other factions, had done whatever he could to form an alliance. In the end, those so-called allies neglected them when New Moon Land was in trouble.

In the end, when Chu Mu returned from his cultivation, he brought back such a major ally, and Ocean Species on top of that, Shen Mo really did not know what to say.

No wonder Chu Mu said to fight so confidently in the conference hall.

With Ocean Species helping, the ocean battlefield at Windy Rain City would not need much fighting force. They could deploy most of the fighting force to the main battlefield in Eastern Wild Forest.

Now, New Moon Land's main fighting force could also gather in Eastern Wild Forest. However, the number of enemies they had to face was really too large, this would be a problem that needed a solution.

New Moon Land was currently severely isolated, most allies did not dare to openly help New Moon Land. However, if they wanted to fight the subjugation alliance, they could only keep looking for helpers. New Moon Land had already invested almost all of its fighting force.

Beiming City sent a few rogue experts to join the defense as volunteer soul pet trainers. Wang Border, Huang Border, Luoyu Land..... These factions which could truly be trusted by New Moon Land also arranged fighting force into the defense using similar methods.

However, such assistance was still insufficient. The difference was still too large, especially Immortal rank.

New Moon Land did have pseudo Immortal, low class Immortal rank experts. They could barely oppose those from the subjugation alliance. However, only Uncle Yu, Cloud Gate Elder, Bai Yu and Chu Mu were at middle class Immortal rank.

Cloud Gate Elder would be guarding Heavenly Mountain Cloud Gate, Uncle Yu was already old and in a deteriorating state, he could only match one Gate Master level opponent.

Bai Yu was a cultivation maniac just like Chu Mu. He only owned one Ice Pupil Unicorn. His cultivation was rather focused, so his strength was the closest to Chu Mu.

If not for White Three offering his Black Nightmare soul to Chu Mu, Chu Mu would even be inferior to Bai Yu in half devil transformation. After all, he had too many soul pets, and had to care for all of them.

Of course, the silver lining was that leader rank experts did not show up in this subjugation alliance.

“I will deploy another Dominator rank army to Eastern Wild Forest Stronghold. Chao Lengchuan, Bai Yu, Eastern Wild Forest’s defense will be up to you.....” said Chu Mu.

“Where are you deploying them from? Also, aren’t you going to defend Eastern Wild Forest with us? It’s difficult for us to handle those Immortals,” said Chao Lengchuan.

“Since they are attacking us, we don’t have to just defend,” said Chu Mu.

Everyone did not really understand Chu Mu’s words and looked at him.

Chu Mu did not say too much. It was not because he was purposely being secretive, but he did not know how much fighting force he could deploy to Eastern Wild Forest. This fighting force would definitely be difficult to integrate into the human army. They had to fight independently like Ocean Species.

“Big brother, are you going to move White One and the others?” said Ning Maner a little excitedly.

White One’s side was no longer as casual as before. They were currently the rulers of a big dynasty. Managing a Nightmare Dynasty was not a simple task. Hence, even though Ning Maner returned to New Moon Land, she never had any chance to meet those nine bodyguard Nightmares.

“White One, what White One?” asked Uncle Yu.

Uncle Yu joined New Moon Land later on, so he would not know the history of New Moon Land.

In the past, there was a battle between Nightmare army and Flower Demon army in Wanxiang City. Back then, almost the entire Wanxiang City was swallowed by Devil Fire and Flower Sea. It was also after that battle that New Moon Land gradually reached the current prosperity.

Even though that was only a battle between two soul pet empires if they used their current standards to judge, while New Moon Land was rapidly developing, would the Nightmare Empire which once spread throughout Wanxiang City still be that tiny Nightmare Empire in the past??

When Nightmare Holy Region was excavated by Chu Mu, the Nightmare ruler and its subordinates had been rapidly developing in that Holy Region.

Afterwards, the master of Southern Forbidden Region especially sent a group of Nightmare experts to develop in Nightmare Holy Region. After so many years, the scattered Nightmare Empires in various parts of Nightmare Holy Region were already fully occupied by Nightmare rulers. They united all the Nightmare Empires and formed a Nightmare Dynasty!

All the Holy Regions in New Moon Land were opened to public, only Nightmare Holy Region remained in a sealed state. Non internal members were not allowed to enter. That was because this Nightmare Holy Region had already become the world of Nightmares. Nightmare Palace had already become the strongest fighting force amongst New Moon Palace army. They just had to leave development to Nightmare Dynasty.

However, for some reason, the news of Nightmare Holy Region was leaked. Furthermore, those people somehow obtained the information that Devil Soul residing in Nightmare Holy Region.

Hence, the sealed Nightmare Holy Region was the most abundant Holy Region all factions desired instead!

Of course, those people did not know that the entire Nightmare Dynasty in Nightmare Holy Region regarded Chu Mu as their King. They completely obeyed Chu Mu's order!

New Moon Land was in trouble, under subjugation by various major factions.

Those allied factions definitely estimated how much fighting force would be needed to break through New Moon Land's defense. However, their estimation probably only counted the fighting force of human armies. They completely neglected and never imagined Chu Mu actually controlled an enormous Nightmare Dynasty. This Dynasty was right inside the sealed Nightmare Holy Region they desired!

"Why did I forget about this!?" Chao Lengchuan tapped his forehead.

Back then, Chu Mu stood atop Nightmare Palace and ordered the grand Nightmare army. That evil aura and tyranny totally made him look like a Demon Lord!

The older members revealed a relieved smile now. Certainly, with New Moon Land's development and Nightmare Holy Region's closure, even Nightmare Palace's elders and senior elders forgot that this faction completely obeyed Chu Mu's order!

"Chu Mu, how much fighting force can you deploy from Nightmare Holy Region?" asked Mu Qingyi.

In Eastern Wild Forest, there was already a five to six thousand difference in Dominator rank. If the army Chu Mu would be deploying could fill this gap, they could really gain a chance in this war!

"I'm not sure either. It's been a while since I last went to Nightmare Holy Region," said Chu Mu, then turned his gaze to Bai Yu.

Bai Yu often trained in Nightmare Holy Region, he surely knew more details than Chu Mu.

“I didn’t pay attention to the army fighting force. There should be around one to two thousand Dominators, there are a few Immortals. They reached Immortal rank together with me in Evil Temple. The benefits they obtained wouldn’t be inferior to me. They are surely stronger now,” said Bai Yu.

Bai Yu breaking through to Immortal rank was also by using the power of Evil Temple. It was also Evil Temple which caused White Three to mutate its race mysteriously. Chu Mu still did not have the time to experience the specialness of this Evil Temple. Since he would be going to Nightmare Holy Region to deploy the army this time, he would visit this Evil Temple along the way.

“If there are 2000, 7000 vs 10,000 still has a chance,” said Chao Lengchuan.

“Then, should I use my Xiang Rong City’s power?” asked Xia Zhixian.

“What power does Xiang Rong City have?” asked Chu Mu in confusion.

Everyone else was also confused. Even the city guards in Xiang Rong City were deployed to Eastern Forest or Windy Rain City. What other power could it use?

“Since there is Nightmare, how can there be no Flower Demon?” The corner of Xia Zhixian’s lips curved up.

Nightmare, Flower Demon?

That was the archenemy during the war which was the turning point for New Moon Land. Could it be that the Flower Demons which spread over the entire city still existed?

“I followed Empress Concubine’s instruction and buried the Flower Demon seeds in Wanxiang City and Xiang Rong City. They have been nurtured for many years. Especially in Wanxiang City, with Xuan Aura lingering around, these Flower Demon seeds grew very well. If they protect Eastern Wild Forest Stronghold.....” said Xia Zhixian.

“Why am I unaware of this?” Chao Lengchuan raised his brows.

“City Lord Xia, when did you do that? And I never saw you taking care of them?”

“Before we became enemies, didn’t you also not realize Flower Demons already spread throughout the city?” Xia Zhixian asked him back.

Chu Mu actually knew about this matter. Xia Zhixian was still working for Yu Suo, and continued nurturing the Flower Demon Empire in Xiang Rong City and Wanxiang City.

However, Yu Suo, the Flower Demon Queen, was already obeying Chu Mu now, this Flower Demon Empire would be controlled by Chu Mu in the end. Hence, he silently allowed this matter to be carried out!

Now, this Flower Demon Empire would really be of use. They could make a huge flower sea obstacle in Eastern Wild Forest. The subjugation alliance would pay a heavy price before even reaching the battlefield!

Xia Zhixian’s words brightened the mood of everyone without a doubt.

During the conference, they opted to fight because they knew that New Moon Land had to be defended with their lives, they had to fight even if they knew they would die.

However, after Chu Mu returned and announced these hidden fighting forces, they suddenly realized this war was actually not so hopeless!

They could even fight evenly against the alliance of eight major factions!

Chapter 1530: Holy Region, Nightmare Dynasty!

.....

Nightmare Holy Region had always been opened to only a select few. After not stepping into Nightmare Holy Region for a long time, Chu Mu realized the fire aura and other aura in this dark world became much denser after entering again.

Chu Mu entered with Bai Yu. Bai Yu flew at the front, towards Evil Temple.

Bai Yu felt that Chu Mu should also visit that strange Evil Temple.

Evil Temple located deep within Nightmare Holy Region. Both of them flew in the sky, leaving a long trail of bright and bewitching flame behind them.

Bai Yu turned his head to take a look at Chu Mu whose body was enveloped in two colors of Devil Fire.

Bai Yu had not seen Chu Mu transforming into a half devil for a long time. He was surprised that Chu Mu's half devil transformation had an additional bloodline.

The black and white color were clearly separated. Wildness clashed against coldness. The evil aura exuded by Chu Mu was much denser than his pure silver half devil.

“Your new appearance looks great,” Bai Yu made a humorous comment while looking at Chu Mu.

Chu Mu laughed bitterly and spoke, “Remember that White Nightmare Emperor which mutated into Black Nightmare?”

“Hmm?” Bai Yu naturally remembered that. He was the first to discover the White Nightmare Emperor which mutated to Black Nightmare. Also, it happened inside Evil Temple. He could still remember clearly about the situation back then.

Chu Mu briefly told Bai Yu the situation leading to becoming Dual Evil Half Devil.

After Bai Yu listened, his expression also became solemn.

It was difficult to imagine a Nightmare could actually sacrifice its soul like that!

After staying silent for a long time, Bai Yu suddenly remembered something and told Chu Mu, “Jinrou is still resting, she should wake up after a while.”

“Alright,” Chu Mu nodded, he also had good news for Bai Yu.

However, before Chu Mu could speak, Bai Yu continued, “The awaken I mean is resurrection.”

Chu Mu’s words stopped at his throat.

Resurrection? Bai Jinrou’s soul and body integrated?

“You found Limbo Flower?” asked Chu Mu hurriedly.

“Something like that,” Bai Yu briefly mentioned his encounter in Dual Earth Mountain.

“The jade pendant that Family Master Rong gave you worked?” asked Chu Mu.

“Yes, I can sense Jinrou’s life energy gradually recovering..... Unfortunately, she said this jade pendant can only sustain her life for one to two months,” said Bai Yu.

“I want to know what she want to make you do,” said Chu Mu a little worriedly.

“I can only find out in future, I will see first.”

“I went to Demonic Mound Heavenly Realm, an elder from Demon Species knows how to concoct medicine that removes corpsification. My Night once turned into a corpse, but it's not any different from most Demons now. This elder is now helping me concoct the medicine for Jinrou.....” Chu Mu told this matter to Bai Yu.

Bai Yu showed a surprised smile and spoke, “What’s the probability?”

“I don’t know that either. I can only find out after it delivered the finished medicine.....”

.....

Nightmare’s territory was vast. While flying through the sky, Chu Mu saw various Nightmare tribes and empires scattered in various positions.

Nightmares were competitive and bloodthirsty. Although they became a Dynasty, Chu Mu realized those Nightmares remained disorderly. They either attacked other races which lived in this territory, or attacked each other. Chu Mu often saw some Nightmares with the ability to devour souls eating their brethren.

Such a phenomenon was not really shocking amongst the Nightmare race.

A piece of burnt land entered Chu Mu’s view. A mountain erected at the end of the burnt land.

This mountain looked like a devil’s palace, giving off an evil and terrifying aura by erecting on this land.

This Devil Mountain was the headquarter of Nightmare Dynasty. He had to admit, Nightmare Ruler really knew how to pick the place. This mountain certainly gave off an intimidating aura, it would be decent according to Nightmare’s perspective.

With this Devil Mountain as the center, high rank Nightmares from various empires spread over this burnt land. When Chu Mu flew past from the sky, blue, white and silver Devil Fire formed into a piece of Devil Fire sea. They were so densely packed that they looked like an endless army.

“Nie! Nie!”

Chu Mu and Bai Yu flew in directly. Perhaps, there were still many native Nightmare in Nightmare Holy Region which did not recognize them. When Chu Mu and Bai Yu barged in, they immediately made warning cries.

After that warning cry, Chu Mu noticed a large cluster of flame surging out from the Devil Mountain all of a sudden, almost occupying the entire Devil Mountain. The evil aura exuded from them even astonished Chu Mu and Bai Yu.

Why are there so many Nightmares? And their aura is so strong!

“Nie~!”

Another long cry carrying a commanding tone silenced those warning cries.

Chu Mu traced to the source of that cry and noticed a familiar figure standing at the side of Devil Mountain. It ordered the Nightmares to return.

The reason Chu Mu felt that figure familiar was because its physique was almost the same as Chu Mu. It looked like Chu Mu's shadow burning in flames.

It was White Nightmare Emperor!

Chu Mu immediately recognized that figure.

He really did not expect it to become a Nightmare General which commanded so many Nightmare Dominators after not seeing it for many years!

Nightmare Holy Region's territory had been constantly expanding. The more they expanded, the more resources they gained. As the leader, Nightmare Ruler naturally took the greatest share of resources.

Chu Mu and Bai Yu flew to the peak of Devil Mountain. When White Nightmare Emperor saw Chu Mu's arrival, it was elated. It cracked open its wide mouth and made an honest evil smile.

Nightmare worshiped the strong. If one wanted to rule over the Nightmare Dynasty, it would be impossible with sufficient strength.

The appearance of Evil Temple allowed these Nightmares to obtain a method to break through to Immortal rank. White Nightmare Emperor became an Immortal rank Nightmare now.

Bai Yu also told Chu Mu that a few Nightmares also became Immortal rank after entering Evil Temple with him. If they had been utilizing Evil Temple's special resources, these Nightmares should become even stronger.

White Nightmare Emperor led the way and they entered the interior of the black Devil Mountain.

The interior also had sculptures, paintings and stone pillars. This was evidence that Nightmare race also had their own civilization.

“The evil aura here is dense,” Chu Mu took a deep breath. He felt really comfortable in this aura.

“This Devil Mountain should have a long history. Jinrou had been here before, but she can’t interpret Nightmare’s language and illustrations,” said Bai Yu.

While they were conversing, they passed by a natural abyssal stone bridge guarded rows of Dominator rank Nightmares. In a stalactite cave, Chu Mu saw a group of Nightmare completely in silver Devil Fire. Those Nightmares were far stronger than the Nightmares outside. They were actually all Immortal rank Silver Nightmares!

“Jiejie~! Jiejie~!”

The creepy laughs those Nightmares made sounded like a group of devils whispering.

When White Nightmare Emperor brought Chu Mu and Bai Yu into here, those Immortal rank Silver Nightmares all turned towards them. Pairs of evil-looking eyes immediately stared at Chu Mu and Bai Yu who possessed human presence.

Above these Immortal rank Silver Nightmares, there was still an old Nightmare with even brighter flames!

This old Nightmare was not the Nightmare Ruler, but an old Nightmare from the Northern Forbidden Region. It was one of the earliest Nightmares sent by the Northern Forbidden Region's master to develop this territory. Its strength seemed to be the strongest amongst all the Nightmares here.

The group of Nightmares which entered Evil Temple with Bai Yu included it.

This old Nightmare naturally recognized Chu Mu. It flew down from the high Nightmare altar and greeted Chu Mu.

"Where's White One?" asked Chu Mu.

Nightmare Ruler was actually the subordinate Chu Mu saw most potential in. That fellow had far greater talent than other Nightmares and possessed the best qualities of a Nightmare: Cunning, despicable and quick-witted.

Nightmare Ruler was different from other Nightmares. It had a motto: Escape if it could not win, crush if it could win.

That motto proved it to be much smarter than the other Nightmares which only knew how to slaughter. It could even be on par with the cunning humans, allowing it to maintain the best survival ability in the Nightmare race which followed survival of the fittest.

In Nightmare race, the strong ones would usually survive until the end. Nightmare Ruler adhered to this belief. Chu Mu believed that if that fellow did not perish in the competition within its race, it would surely be living a good life now.

“Nie~! Nie~!”

Before the old Nightmare could answer, the screeching cries of a Nightmare rang out from nearby.

Chu Mu was very familiar with this cry. As expected, another figure which looked like Chu Mu’s shadow flew over. It flew around Chu Mu excitedly and kept crying.

The other native Immortal rank Nightmares were rather confused. They could not understand why Nightmare Ruler was flying around a half human and seemed to be flattering that half human.

“Alright, enough. Stop that flatter,” Chu Mu was here on official business, he did not have that much time to be chattering with Nightmare Ruler.

Nightmare Ruler also fixed its attitude and commanded the Nightmares nearby. It was probably telling those Immortal rank Nightmares that Chu Mu was its boss, so they had to listen to Chu Mu.

Nightmare Ruler had stayed in human world for a few years, and it was heavily influenced by the ruffian attitude of the humans. This was due to Ning Maner bringing Nightmare Ruler to stroll in the streets of the cities.

Chu Mu briefly told his objective to Nightmare Ruler and told it to deploy its Dynasty’s army.

On the other hand, when Nightmare Ruler heard that there would be a large scale war, its eyes shone brightly!

Chu Mu did not know how boring Nightmare Ruler was cultivating day after day in Nightmare Holy Region. Now that it had the chance to run rampage in human territory, how could it not feel excited?
