

Soul Pets Bk2 1541

Chapter 1541

“Pupupupu~~~~~”

The last Dead Butterfly flew down from the skies, and fell in the two hundred thousand army that welled forth after the ghoul and snake dragon armies!

The three hundred thousand army was the complete force of the alliance. They slowly appeared over the horizon and, like the rising tide, slowly devoured the Eastern Wild Forest!

Ghouls army and snake dragon army were like a river compared to the ocean that is the alliance army!

Dead Dream used its life and immortal rank to kill most of the ghouls and snake dragon army, but this didn't mean the war was over. The last Dead Butterfly that exploded in front of this massive army wasn't it overestimating its power, but it was Dead Dream releasing its emotions. As long as there is still a single Dead Butterfly left, it would be sent towards the three hundred thousand army and destroy it!!

With the ground burnt from the thunderous explosion that leaves countless corpses. Snake dragon faction's stacked corpses covered the grounds, mixing with the bodies of the ghouls.

The burnt smell, blood, and innards all mixed together and permeated through the three hundred thousand army, floating into every soul pet trainer's nose.

The Dead Butterfly's death dance was seen by everyone who came slightly late. However, they never would have expected the snake dragon and ghoul army to nearly all die!

Those two factions add up to two thousand dominator rank, fifty thousand emperor ranks, but they all died in front of their eyes!

Three hundred thousand people all ran over from afar, but they couldn't give the leading armies any protection. They thought these two armies alone could have a destructive effect on New Moon Land's fort.

Yet, who would have thought that they all died with the Dead Butterflies, leaving a few lone stragglers that are useless in the grand scheme!

.....

“Exchanging a near high class immortal rank soul pet for the snake dragon and ghoulish army... there is no one more foolish than them!” Xuan Gate Immortal School's Gu Xinshui said.

Creating a middle class immortal rank was already incredibly difficult, let alone an organism that was almost high class immortal rank.

In immortal ranks' eyes, emperor ranks and dominator ranks were nothing different from the weaker monarch and commander ranks. They're merely things that leaders use to satisfy their desires. If they're destroyed as long as their power remains, more can be found. After all, there are enough soul pet trainers in this world.

However, a near high class immortal rank soul pet is far more valuable than two thousand dominator ranks and fifty thousand emperor ranks.

He had never seen such a stupid person!

“When had this person become this powerful!!” Lady Huo with her face still recovering from wounds saw Chu Mu stand against the enemy alone and was frightened.

She still remembered back in Imprint Valley when this person was still a normal immortal rank. However, it had only been so long before this person was much stronger than all the Gate Masters, Sect Masters, and people present!

“It’s the Monument Tear, he must have activated its power!” Zeng Long gritted his teeth.

Getting this much power in such a short time, only the power of the monument tear could explain this!

Seeing Chu Mu’s change, the other Fake Monument Tear Individuals was even more jealous. Chu Mu’s power increase was enough for them to risk everything!

“Let’s deal with him together. The rest of you, go kill them!” Zeng Long roared.

It didn’t matter that the entire snake dragon faction was dead as long as they could get the Monument Tear that promised endless power!

Fire Sect Sect Master Lady Huo, Xuan Gate Immortal Sect Gu Xinshui, Snake Dragon Faction’s Zeng Long, Departed Spirit Palace’s Ghost Master Dan Xie, Mu Dynasty’s Mu Tuan, Wind Sect Master Tian Huan.....

These six people gathering on the Eastern Wild Forest were the leaders. They naturally couldn't let Chu Mu continue his slaughter so they all casted their incantations to fly their soul pets at the forefront of the three hundred thousand army!

The thing that New Moon Land was missing the most were people to fight against these leader rank experts. This was why most people were fearful. With no one to stop these immortal rank experts, these dominator and emperor ranks would die no matter how they struggle.

However, now, the Alliance revealed all their leader experts and flew towards Chu Mu!!

.....

Chu Mu slowly left the rock building and floated into the air.

Seeing the six greedy people flying towards him, Chu Mu simply smiled.

The Monument Tears he had were far more than they thought. Other than the Monument Tear of his own, he also had Ning Maner's tear, Seven Sin Fox Light Fox's Monument Tears, and the inheritance tear of the strongest expert of the fourth era!

At the Gate Master level, everyone more or less had one or two fake Monument Tears that also acted as the false monument tear. These six people were also False Monument Tear Individuals and were clearly going for the tears on his hands.

Want to get it?

Then come and get it!

If you can't take it, then I'll take all of yours!!

Just as Old Li said, though Chu Mu wasn't the true inheritor of the fourth era, who couldn't guarantee he wasn't the most suited to be the strongest of this era?

These six Gate Masters gloated alongside Chu Mu.

Above their head, was a cloud of wing type and other flying organisms. Below them were a tidal wave of rocks slamming across the conquest army.

There was a region in the sky that belonged just to the immortal rank experts. There, not a single soul pet dared to pass because the forcefield of middle class immortal ranks were more than enough to rip them to shreds!!

Six Gate Masters weren't there to just kill the king but were there for Chu Mu's Monument Tear!!

They believed that the only way Chu Mu could gain such strength in such a short time was the Monument Tear. He very likely would be the inheritor of this era!

As long as he was killed, the Monument Tear would fall into their hands, and even the inheritance!

They were all Gate Masters that couldn't enter the true Gate Master level. Some had even been stuck in this realm for decades. Yet, their yearning for high class immortal rank and leader rank had never faded. This was the chance of a lifetime!

Zeng Long first cast a spell. This was the soul pet that Chu Mu had seen in Imprint Valley, the Golden Snake Dragon!

The Grotesque markings were like scars that covered the Golden Snake Dragon. Its writhing body covered a large space in the air, slowly yet may pounce at any point!

Not far away stood Dan Xie, the ghost faction master.

Her ghoulish army was almost single handedly destroyed by Chu Mu's Dead Dream. Even if she wasn't a fake Monument Tear holder, she wouldn't be able to bear this shame!

The soul pet she was riding was a long bone tailed blood ghost!

Its shriveled arms had countless layers of dried blood. They bobbed up and down, eager to rip open Chu Mu's chest and pull the heart out.

Dan Xie, Zeng Long aside, there was also a Xuan Gate's Gu Xinshui and Mu Tuan.

Mu Tuan's face was still pale. One could tell that the Sacred Light Unicorn's death caused him to take quite a hit to his soul.

He was currently riding a Red Flame Armored Beast. From its aura, one could tell that it was a middle class immortal rank.

Gu Xinshui currently had no plans to summon his soul pets. He stared tightly at the stupid soul pet trainer that is Chu Mu, his eyes filled with blood!

“Why is my son’s Monument Tear on you!” Gu Xinshui roared at Chu Mu.

Chu Mu didn’t hide the energy any longer. At such a close distance, anyone could tell the amount of Chu Mu’s Monument Tear!

Yet, there was a monument tear within there that was Gu Xisha’s. When Chu Mu walked out of the Imprint Valley, he made him disappear with anger, and thus obtained his Monument Tear.

“Gu Xisha is your son?” Chu Mu suddenly smiled strangely.

“Yes, give your life up!” Gu Xinshui was fuming, wanting to rip Chu Mu to shreds right there!

Chu Mu’s gaze slowly became cold. After he left Imprint Valley, he knew that the Navy General continuously focused on his father because of Gu Xisha’s greed for his father’s Monument Tear..

At this moment, the scene of leaving the Imprint Valley entered his mind....

Violent grief-filled Chu Mu's heart, and quickly turned into unstoppable vicious and irritable anger!

This anger and violence wasn't released but instead hidden within his cold gaze!

“Huhuhu~~~~”

A soul pet covered in feathers passed through the battle and appeared in this battlefield of Gate Masters.

On the feathered organisms was an old man with a beard that caused him to seem slightly haggard.

“I, Yu Fengdi, am getting older and older and haven't fought in a while but I can still defeat one of these bastards easily!” Yu Bo said proudly beside Chu Mu.

“Other than him, you can pick any of them.” Chu Mu's eyes were still cold as he pointed to Gu Xinshui!

Gu Xinshui must die, and he had to die by his hands!

Chapter 1542: Fight, Facing Six Gate Masters

Gu Xinshui was also enraged by Chu Mu!

The muscles on his face twitched. That ugliness bore great resemblance to Gu Xisha.

He chanted an incantation and began summoning his soul pets!

Similar to Gu Xisha, Gu Xinshui was a soul poison master as well as a soul pet trainer. Other than using Xuan Item and Immortal Item to train his soul pets, he also knew how to apply the worst poison to his soul pets' attacks!

A poison vine appeared from the diagram and kept extending its branches. Those vines were enormous. Zeng Long's Golden Snake Dragon was right next to it. Compared to that snake dragon which occupied a large space, this huge poison vine occupied even more space!

Its roots extended in the air, its vines crossed over in the clouds. If one examined closely, one would notice twelve main vines twisting amongst countless vine branches.

At the tips of those twelve main poison vines, there was a semi-spore opening. Green poisonous fangs were exposed outside, the deep esophagus was also filled with poisonous fangs!

Twelve poison vines with esophagus wriggled around. Their shadow cast down and seemed as if there were twelve monsters looking down on Chu Mu from the clouds!

Twelve Demon Faces!

This was the most infamous and deadly species amongst vine type creatures. The main vines had twelve demon faces, the majority of the demon face was a terrifying mouth. Especially when it opened its mouths, it was just like getting stared at by twelve faces of devils. They opened their mouths and were about to enjoy their meal!

Such a fearsome creature made one's head go numb at a glance. The toxic stench spat out by Twelve Demon Faces also made one feel suffocated.

Chu Mu stood beneath Twelve Demon Faces and remained calm like a bedrock.

“Ga!”

One demon face waved and pounced towards Chu Mu while making a screeching noise!

Along the path that demon face swept past, many similar faces suddenly manifested. That also meant many more mouths trying to devour Chu Mu approached!

It was as if countless faces opened their mouths and bit towards Chu Mu!

Chu Mu’s incantation was completed halfway. He ignored the approaching demon faces and continued chanting.

“Huhuhuhu!”

Purple flame burned around Chu Mu. The flame as vibrant as poppy flowers bundled up was swaying fervently!

The burning flame transformed into a fox and twined around Chu Mu, divided into a total of nine layers!

The intense flame from every layer slid down in an arc and rapidly became long fox tails!

The tails kept on extending and connected into a mountain range!

The nine burning tails became nine layers of stacking mountain ranges. The place they connected to swept up a purple flame tornado!

Within the flame tornado, a pair of silver eyes burned in furious flames sparkled. It stretched out its leg and stepped in the air, leaving an astonishing flame ripple in mid-air.

Purple flame burned all over its body, demon aura rampaged, the Immortal of Hades!

Mo Xie appeared from its soul pet space. Hades Fox Noble's aura was fully displayed. Nine beautiful burning tails faced off against Twelve Demon Faces twelve main vines. This was a clash between auras!

"Hades!" Gu Xinshui was very knowledgeable and immediately recognized Mo Xie.

Hades, one of the Five Undying Legends. The Hades race dominated the Demon Continent across the vast Eternal Ocean. They were the most tyrannical creatures amongst the demon fox race after Seven Sins Fox!

Although Twelve Demon Faces was infamous, it could not compare to the fame of Hades!

Mo Xie solemnly stared forward. Twelve Demon Faces was higher ranked than it, so Mo Xie was inferior in the clash between auras.

However, Chu Mu still decided to let Mo Xie take on Twelve Demon Faces.

Chu Mu would always arrange enemies difficult to win against for it to fight. This was not harsh treatment towards Mo Xie, but Chu Mu firmly believed that Mo Xie, which inherited the various demon fox races' bloodline and racial techniques, would far surpass the rank it had reached!

Mo Xie had to fight enemies above its rank to be fair.

Furthermore, the fire property Mo Xie fighting against vine property Twelve Demon Faces would let Mo Xie gain the property advantage. Even if Mo Xie had not reached middle class Immortal rank, Chu Mu still held absolute confidence towards Mo Xie.

“Ga! Ga! Ga!”

Demon faces pounced down. They bit, spat poison and swallowed from all directions, filling any gap possible.

Toxin spread out in the air. The purple flame could not completely purify the toxin. Mo Xie could only create a purple flame domain around it to prevent the toxin from infiltrating.

Meanwhile, the demon faces approaching from all directions were the most troublesome. Mo Xie kept changing its positions to avoid the areas where those demon faces gathered the most!

Mo Xie's body was difficult to catch. Those demon faces could not bite down, so they tried to bite Mo Xie's tails off.

A large group of demon faces turned into a bunch of evil spirits fighting for food.

They bit down onto Mo Xie's long tails.

However, those tails were so soft they felt like thin layers of silk. Other than touching the burning hot flame, there was no sensation of biting a tail.

Mo Xie's real tails were naturally not as large as mountain ranges. The reason they had such a beautiful effect was due to the semi-realistic and semi-illusory phantom!

However, since it was half real and half illusion, when it wanted them to be real, those nine tails would naturally be filled with power like steel whips!

The nine tails flowed through the attacks of all the demon faces, then suddenly became huge chains after waving up, whipping sharply on the nine faces of Twelve Demon Faces!

Nine main vines were severely bent. The vine skin burned in purple flame, spreading along the long vine bodies!

"Take him on together, Monument Tear will be evenly shared!" shouted Zeng Long, making a promise which nobody would believe in.

Every one of them were desperately trying to obtain the Monument Tears Chu Mu owned, because there were too many Monument Tears Chu Mu held. They would never have the patience or morality to fight one by one.

The six Gate Elders joined hands. Even a leader rank would have a hard time facing them.

The Golden Snake Dragon swept up countless snake shadows and charged towards Chu Mu first.

Chu Mu took a glance at that Golden Snake Dragon and slid back some distance bizarrely to dodge Golden Snake Dragon's snake shadow attack.

Golden Snake Dragon wanted to pursue, but it did not notice a pitch-black armored tiger standing on the original spot Chu Mu was at!

Zhan Ye, low class Immortal rank, almost reaching middle class Immortal rank.

Mo Xie took on Twelve Demon Faces, then Zhan Ye's warming up opponent would be that clumsy Golden Snake Dragon!

The reason he treated Golden Snake Dragon as Zhan Ye's warming up opponent was because it would not be long before a middle class Immortal rank enemy would no longer satisfy Zhan Ye's increasing fighting spirit!

"What trash dares to block my path? Die!" Zeng Long saw Zhan Ye and felt frustrated.

Does he only have these low class Immortal rank soul pets?

Using these low class Immortal ranks to take on middle class Immortal rank, what a joke!

If that Thunder Dark Phoenix was still here, they might remain wary. After all, that was a creature close to high class Immortal rank.

Unfortunately, it perished. These two low class Immortal rank creatures would never be able to stop them!

Madam Huo flew to the front of Chu Mu and arrogantly declared, “Hmph, you should have handed over the Monument Tear back in Imprint Valley. It’s too late to regret now. What I want is no longer just the Monument Tear, I also want your entire New Moon Land!”

Chu Mu took a glance at Madam Huo.

Yu Suo already told him about the mockery and humiliation Madam Huo used against Liu Binglan. Chu Mu should complain that Dark King did not just kill this woman when she and Mu Tuan were shamelessly lusting after each other, making everyone see her dirty corpse.

However, it was fine if Dark King did not kill her. Chu Mu would let her know the taste of something worse than death for humiliating Liu Binglan!

A huge fire shadow slammed down. Shadow Flame Beast abruptly appeared in front of Chu Mu, as if a volcano suddenly shot out at the side!

Madam Huo stood on top of Shadow Flame Beast's head and looked down on Chu Mu arrogantly.

Chu Mu witnessed her most shameless appearance. He wondered just how this woman had the pride and face to continue being a Sect Master after receiving such a heavy injury and shame.

She was just a bitch, Chu Mu would gladly grant her wish to die!

The incantation completed and a reversed space appeared next to Chu Mu.

A green Hidden Dragon creepily floated out from the space, its body gradually enlarging!

"Little Hidden Dragon, do you know how to treat it and its master?" Chu Mu plainly ordered Little Hidden Dragon.

Little Hidden Dragon casually flapped its wings. The roaring volcano attack falling down from above was instantly dispersed, as casual as taking a stretch.

It enthusiastically nodded towards Chu Mu, then nonchalantly turned around and focused on that Shadow Flame Beast.

Back in Imprint Valley, Little Hidden Dragon was naturally not a match against this Shadow Flame Beast.

Unfortunately, after such a long time passed, Shadow Flame Beast did not seem to get any stronger. On the other hand, the souls Little Hidden Dragon had devoured could create a soul ocean!

Back then, Shadow Flame Beast could not even match Martial Cloud Dragon. Now, Little Hidden Dragon was already stronger than Martial Cloud Dragon. It really did not need to treat Madam Huo's Shadow Flame Beast seriously!

Madam Huo saw Little Hidden Dragon's human-like gaze and expression as she stood above Shadow Flame Beast's head. Her mouth twitched a little, is this belittling??

So what if Little Hidden Dragon was belittling them?

Lord of Nine Oceans Seven-headed Hydra King was already defeated by it. In its eyes, those lower than high class Immortal rank were already insignificant. Furthermore, this Shadow Flame Beast did not seem strong at all.

Chu Mu drifted towards another direction to leave enough space for Little Hidden Dragon to perform.

Actually, making Little Hidden Dragon take on Madam Huo was already overdoing it. After all, Little Hidden Dragon's current strength would not be much inferior than Dead Dream.

"Chu Mu, I will take on Wind Sect's Sect Master Tian Huan. There's one more, if you don't have soul pets left, I will try to take it on as well," Yu Fengdi told Chu Mu.

“I told Chao Lengchuan that I will take special care of Departed Spirit Palace,” Chu Mu swept his gaze and sharply focused on Ghost Sect’s Sect Master Dan Xie.

Dan Xie was startled. Chu Mu’s gaze made her feel uncomfortable.

“Hopefully, you won’t disappoint my soul pet,” said Chu Mu slowly as he stared at Dan Xie.

“Arrogance!” snorted Dan Xie.

“It was once a departed spirit,” Chu Mu cracked a smile. This evil smile made Dan Xie feel a chilling danger!

Chapter 1543: Since He Cannot Live, Then I Can Only Offer Sacrifices For Him

Chu Mu returned Dead Dream which only had a single Dead Butterfly left back into soul pet space, then quickly chanted another incantation.

A reflection appeared in the space. A black Phantom Dream was running in the reflection, as if running from another dimension to this dimension.

Night was slim and charming. After its corpse property was removed by Elder Li, its demon aura became even richer.

The corpse tattoo around its neck did not completely disappear, because that was a lifetime sigil which signified it had once turned into a Departed Spirit.

Perhaps in the near future, those corpse tattoos would crawl all over its body again. However, in these few years, it would be a pure Nomadic Demon!

Night's opponent was Dan Xie's Clavicle Blood Ghost!

This Clavicle Blood Ghost had been drifting around Chu Mu. That clavicle tail cautiously swung by its side, constantly finding a chance to take Chu Mu's throat.

After Night showed up, it immediately sensed this hidden Clavicle Blood Ghost. Dream horns emitted dream ripples. Night became creating dreams, confusing Clavicle Blood Ghost's sensations.

Meanwhile, Clavicle Blood Ghost's senses were sharp. It kept changing its positions, using a fighting style as Night. They both belonged to a fatal counterattack type. Before unleashing the real attack, they were starting a stealth, cover and confusion competition!

.....

Chu Mu's soul pets had already clashed against four Gate Master level experts. Meanwhile, above and below Chu Mu, armies as tiny as grains of sand were also clashing fiercely!

The weakest fighting force in this war already reached Emperor rank. Every Emperor possessed terrifying destructive power. When tens of thousands of Emperors clashed against tens of thousands of Emperors, spatial ripples from the clash between meteor-like energies could be seen. The ripples shook the entire Eastern Wild Forest and cracked the ground!

After the commanders in Eastern Wild Forest Stronghold gave the order.

Various soul pets filled the space between Eastern Wild Forest Stronghold and Rock City Wall.

New Moon Land's army had defense as priority. They could gradually see the subjugation alliance swarming in from the horizon.

On the stronghold, rows and columns of elemental army swept up an elemental storm!

Flames turned the entire Eastern Wild Forest Stronghold into a raging volcano, constantly spewing magma and volcano ash towards the sky, drawing an arc across the air and raining down onto the 300,000 strong subjugation alliance.

Countless thunderbolts and lightning sparks danced between the volcano ash and magma rain. They sometimes twisted, sometimes fell down straight, sometimes connected into an electrical chain and leaped towards the alliance!

Rocks either shot out from the ground in sharp spikes or fell from the sky as meteors!

The war completely broke out in a bang!

The rain of techniques flew across the sky, energy storms swept waves after waves on the ground!

Within that epic scene, a single soul pet trainer and his soul pets were just a drop of paint in the painting.

However, the vast army and devastating energy rampage were formed up by those tiny paint drops. They held the same objective, and would offer their lives for it!

.....

Mu Qingyi stood on the tall stronghold tower. The raging wind blowing due to energy storms disheveled her hair.

At her side, icy white-colored White Tiger calmly stood there.

Above her head, the golden burning sun-like Crown Phoenix King flapped its wings and levitated.

Mu Qingyi focused on the spot where the battle was most intense. There would always be people getting splattered all over the place. Some of those belonged to the subjugation alliance, while some belonged to New Moon Land.

Chu Mu felt Mu Qingyi suited her role in Divine Sect because she held a righteous heart as well as a merciless attitude towards enemies.

In fact, Mu Qingyi had always felt herself to be a contradicting person. She could feel sadness towards the death of an unrelated person, yet she could feel nothing towards countless corpses.

Perhaps, that was the division between good and evil.

Her good and evil did not take after the macro judgement of the sentire humanity's survival at Dual Earth Mountain. It was only her own judgement.

In Divine Sect, people constantly told her the obligation, responsibility and mission of Divine Sect. Some even tried to make her assimilate into the macro environment of Divine Sect.

However, after staying in Divine Sect for so many years, the obligation, responsibility and mission in Mu Qingyi's heart never wavered for a single moment!

Even if Wanxiang Realm no longer belonged to her Mu Family, even if the Mu Family Household only left her alone, she would hold her ground.

Long hair fluttering freely in the energy storm.

Mu Qingyi's gaze gradually turned sharp. She slowly took out a hairpin and proficiently coiled up her hair, then secured it with the hairpin!

A beautiful face which carried a heroic expression was fully revealed. She was breath-taking, yet solemn and cold!

Crown Phoenix King flew past the stronghold tower. Mu Qingyi jumped onto Crown Phoenix King. Her figure flew through the crisscrossing technique barrages.

Behind her were over a hundred Heavenly Concubine Palace members behind her, all female soul pet trainers.

Most female soul pet trainers on the battlefield were support soul pet trainers. However, the female soul pet trainer team Mu Qingyi led carried a sharp killing intent not any inferior to an army!

The size of a hundred people was similarly insignificant towards the war with a scale of hundreds of thousands. However, when this group of female soul pet trainers and Mu Qingyi carved their way into the most intense battle zone, the war situation showed a significant change. The originally declining battle frontline was slowly coming to a stop.

Amongst the chaotic technique crossfire, there was a beautiful figure wrapped in golden burning flame and white frost. Those taking guard on Eastern Wild Forest Stronghold could see her clearly.

She killed her way into the densely packed enemy formations. She streamed through the technique crossfires. She stood in front of armies suffering heavy casualties. Her hair dyed red from the original black. Her silver armor was similarly dyed in blood. Even her beautiful face was full of blood stains.

Overall commander Chao Lengchuan who guarded the stronghold tower stared hard at Mu Qingyi. There were many times where he could not even find her.

Solemn and untouchable when still, ferocious and unstoppable when active!

Right now, Mu Qingyi was like a blood rose who carved out a bloody path!

All of her pride and disdain were hidden in her sharp deadly blood-colored petals. People could only see her steel-like heart when she completely bloomed!

.....

Mu Qingyi's slaughtering was even more tyrannical than most men. In the places she passed through, flame would burn everything into ash, or ice would freeze everything into sculpture!

Unknowingly, she killed her way into Mu Family Dynasty's army!

There were probably over half of the army with the same surname as Mu Qingyi, some of the captains and generals might even have blood relations with Mu Qingyi, because Mu Qingyi's household was a branch household from Mu Tuan's clan.

In the eyes of others, killing one's own kin was a traitorous act.

However, as Mu Qingyi continued to kill, the sin accumulated by the number of kins she killed could be described as eternal sin!

Mu Tuan clan would not allow Mu Qingyi to continue this slaughter. A female general riding on an Immortal rank Guang Bird angrily flew towards the ferocious Mu Qingyi.

"You hopeless madwoman! We are both from Mu Family's same clan, do you know what you are doing?" cursed Mu Guangxue with a furious tone.

Mu Guangxue had a little interaction with Mu Qingyi back in Zhengming Main City. She had tried various methods to persuade Mu Qingyi to detach from New Moon Land.

Mu Qingyi did not listen to her at all. She even killed into their Mu Tuan clan's army when the war started!

"I know it very well. You are my enemy, I won't show mercy towards my enemies," said Mu Qingyi coldly.

Mu Tuan clan was the kin of Mu Qingyi. Mu Qingyi would occasionally help them handle some matters due to this relationship. However, the moment they took the side of subjugation alliance, this so-called kin was no longer a kin, they would only be enemies!

"You..... You don't deserve to be called Mu. I'm going to personally twist off your head and put it in Mu Family's Sinner Hall to worship all those you killed!" shouted Mu Guangxue.

Mu Qingyi did not need the so-called Mu Family Dynasty to determine whether she deserved to be called Mu or not. She only had to know she was Wanxiang Realm's Mu Family.

"Qingyi, stop. It's still not too late to come to our side. If you continue to be so stubborn, your grandfather will really lose his life," said Mu Ruanen as he flew to Mu Qingyi.

Seeing Mu Ruanen's appearance, Mu Qingyi's cold eyes finally wavered slightly.

Mu Ruanen saw Mu Qingyi showing intention to stop and hurriedly continued, "New Moon Land offended everyone. Its destruction is definite. You are Divine Sect's Master Official, as well as our Mu Family Dynasty's member. If you stop now, nobody will blame you. You can save your grandfather's life as well. Your grandfather requested me to tell you that he wishes for you to live well. Don't perish along with New Moon Land for some meaningless things....."

Mu Qingyi silently looked at Mu Ruanen. Her eyes did not show any change from what he said, and gradually turned sharp instead, “I didn’t spend much time with him, but I know what kind of person my grandfather is. If you are really my grandfather’s brother, tell me the actual words.”

Mu Ruanen was startled.

Mu Ruanen did tell a lie, because he wanted to save Mu Zuoli who was held captive by Mu Tuan to threaten Mu Qingyi.

However, seeing Mu Qingyi’s stubborn eyes which were similar to her grandfather, Mu Ruanen did not know what lies could be used to persuad Mu Qingyi.

“Tell me the actual words,” said Mu Qingyi.

Mu Ruanen took a glance at the almost lashing out Mu Guangxue.

“Tell me,” repeated Mu Qingyi.

“Do what you judge to be right,” Eventually, Mu Ruanen opened his mouth.

Do what you judge to be right.....

After that sentence was spoken, Mu Qingyi’s body trembled slightly.

She clearly remembered that when she was very little, her grandfather, Mu Zuoli, had told her this sentence. Back then, Mu Qingyi did not have any parents, her grandfather's words were everything to her. Those words planted a deeply-rooted faith in her immature heart.

Do what you judge to be right.....

Mu Qingyi had been abiding by those words all the time. The only one thing she did not follow was that feeling hidden deep in her heart which she could not express.

Knowing that this was the last sentence her grandfather told her, no matter how she tried to disguise or steel her will, she could not control hot tears from flowing out of her eyes.

.....

Wiping away the tears, wiping away the blood stains.

Since he cannot live, then I can only offer sacrifices for him.....

Using the blood of all these enemies I can see as offerings!

Chapter 1544: Blood Rose Amongst Enemy

The battle between middle class Immortal ranks occupied a large space in the entire battlefield.

The horrifying Twelve Demon Face only had seven demon faces left. Every demon face and main vine had burnt marks.

Meanwhile, Mo Xie, which fought against it, was also riddled with wounds. Blood flowed out from the corroding wounds.

Twelve Demon Face's rank was higher than Mo Xie after all. While Mo Xie severely damaged Twelve Demon Face, it also paid a heavy price.

"Mo Xie, return," Chu Mu did not let Mo Xie continue fighting.

The wounds it suffered were all toxic. The toxin would constantly exhaust its life force. It would only approach death step by step if it continued fighting.

Furthermore, apart from Twelve Demon Face, Gu Xinshui also summoned other low class Immortal rank soul pets. If Mo Xie was surrounded, its life would be truly in danger.

Mo Xie did not act stubbornly. The toxin on its body indeed made it feel weaker and weaker.

Chu Mu chanted the incantation to keep Mo Xie into its soul pet space, then opened the spatial gate of another soul pet!

Coldness spilled out from this spatial door, the temperature suddenly fell.

Cold glitters drifted down and gathered into Ice Air Fairy's pure and noble frost body. A frost ring surrounded it and rapidly spread out under Ice Air Fairy's control. Even the air froze in places the ring passed through!

Absolute Zero!

Twelve Demon Face was still suffering the burns from Mo Xie's Hades flames, and now it suddenly suffered extreme cold and frost damage!

Gu Xinshui's expression darkened. His eyes stared hard at this soul pet Chu Mu summoned.

Ice Air Fairy, this was a soul pet which only had a Warrior species rank, yet why was it exuding a middle class Immortal rank aura!?

Furthermore, despite facing various Gate Master level experts, Chu Mu still possessed a middle class Immortal rank soul pet!

Ice Air Fairy's offensive ability had always been devastating. It chanted one fairy ice incantation after another. The chill madly spread out and swept up the area. Twelve Demon Face and Gu Xinshui's other soul pets suffered waves after waves of chilling frost attacks!

"Huhuhuhuhu~!" The cold air spread to the battlefield between Little Hidden Dragon and Shadow Flame Beast.

Little Hidden Dragon was much stronger than Shadow Flame Beast. Despite Madam Huo summoning three other low class Immortal rank soul pets to attack Little Hidden Dragon, Little Hidden Dragon still managed to swallow two.

Madam Huo could not take on Little Hidden Dragon by herself, her lover Mu Tuan rode on his Flame Armored Beast to help her.

Little Hidden Dragon faced the most number of enemies. Shadow Flame Beast and Flame Armored Beast were both middle class Immortal rank, there were also five low class Immortal rank soul pets summoned by the two.

Even so, Little Hidden Dragon relied on its powerful properties and unparalleled fighting strength to defeat the soul pets those two summoned.

On the other side, it was the battle between Zhan Ye and Golden Snake Dragon.

Other than Golden Snake Dragon, Zeng Long also summoned four snake dragons of different color and properties. The five snake dragons kept circling around Zhan Ye, constantly leaving wounds on Zhan Ye's body.

If there was only one Golden Snake Dragon, Zhan Ye would be able to counterattack soon.

However, the other four snake dragons kept pestering Zhan Ye and caused quite a problem to it.

However, Zhan Ye had only used two Broken Limb Rebirth. After the third time, the situation would definitely change!

Chu Mu did not need to pay attention to Night's battle. Dan Xie was weaker than the others. It would only be a matter of time before she was defeated.

Chu Mu looked down. People were moving in crowds. There were New Moon Palace army and volunteer army, as well as the various factions in the subjugation alliance. The smoke swept up on the battlefield caused Chu Mu unable to distinguish who were allies and who were enemies. Both of them were gradually wearing the same colored attire, blood red!

Suddenly, Chu Mu noticed a slim figure flying up from the chaotic battlefield, towards this middle class Immortal rank battlefield.

The figure approached closer and closer. It was a Seven Colored Phoenix. Chu Mu was also familiar with the person riding on it, she was Mu Qingyi's subordinate, Guan Guan.

Guan Guan's strength did not reach Immortal rank. If she rode on her Seven Colored Phoenix and flew here, the shockwaves from the clash between Little Hidden Dragon and Shadow Flame Beast would tear her and her soul pet apart!

Guan Guan did not stop and kept flying towards this battlefield. Chu Mu even saw her getting flung away by energy ripples a few times, yet she continued flying towards here.

Chu Mu naturally could not watch her get shredded by energy ripples. He used Displacement Specter and moved away from this Immortal rank battlefield, then appeared in front of Guan Guan.

"King Chu, King Chu!" Guan Guan saw Chu Mu coming towards her and shouted out excitedly.

"What are you doing?" Chu Mu was not having an easy time facing many Gate Master level enemies.

“Palace Master Mu! She charged deep into Mu Tuan’s army and lost contact with the rest of us. We can’t save her, more and more enemies are gathering towards her,” said Guan Guan anxiously.

“Where is she roughly at?” asked Chu Mu immediately.

“Over there,” Guan Guan pointed to a direction.

Chu Mu looked towards that direction and saw an astonishing scene.

Within the sea of creatures, a tiny figure wrapped in ice and fire charged through the army. The places she passed through would be splattered with blood and corpses!

However, looking down from his height, he could see a few armies securely surrounded her. Her killing speed would not compare to the speed of the enemies closing in on her like a raging tide.

The densely packed wings became a cluster of cloud. Chu Mu only saw that beautiful and bloody figure for a moment before the space above her head was occupied by a large group of black monster birds. Chu Mu could not see her figure again.

Chu Mu was shocked by that scene.

Was that really Mu Qingyi?

Did she not realize even an Immortal would perish if she charged into enemy ranks all by herself?

“King Chu, Mu Tuan clan abducted Old Man Mu and threatened Palace Master Mu before the war. She did not allow us to tell anyone about this matter.....” said Guan Guan with a teary face.

Chu Mu took a glance at the tear-stricken Guan Guan, then at Mu Qingyi’s position which was swarming with enemy forces.

Chu Mu flared up in fury before even listening to the end!

Black flame burned all over Chu Mu, turning his body into ash and dispersed by the billowing wind.

Guan Guan was startled and looked at the empty air where Chu Mu was originally at. Then, she seemed to realize something and turned to look towards the enemy army. She noticed a streak of black flame pierced through the layers of enemies like a meteor and crashed towards the center of those armies!

The black flame was evil and tyrannical. Any enemy grazed by the flame would be burned into black powder!

Chu Mu charged through all hindrance and flew to the deepest part of the enemy forces, towards that bloodily beautiful figure.

.....

Golden flame and white ice stacked in layers, wiping out countless enemies.

Standing between the ice and fire, Mu Qingyi's coiled black hair loosened. Her hair was dyed in so much blood it seemed to be burning red!

From the moment she stepped into enemy formation, the blood red on her body did not cease to bloom. There would be fresh blood dying her attire every single moment.

Green silk-like feathers hovered above Mu Qingyi's head. Over a thousand large green birds used their wings to create a big wing type restriction and rooted Mu Qingyi to the spot.

This restriction was very powerful. Mu Qingyi's numbed heart from all the killings finally started beating again after getting restrained.

Standing at the center of the green restriction, countless corpses strewn beneath her feet. Endless armies could be seen from all directions.

Mu Qingyi was already numb.

Her Crown Phoenix King and White Tiger were also exhausted.

However, the enemies could not give her any chance to take a break. Layers after layers of elemental energy blasted towards her from all directions!

Mu Qingyi could not open her eyes from the stinging pain coming from the burning energy. She could only feel her wounded Crown Phoenix King opening its wings to protect her under its wings.

Mu Qingyi shut her eyes tightly. She did not know if her Crown Phoenix King which accompanied her since childhood would still be alive after opening her eyes again.

.....

After the pain subsided, Mu Qingyi opened her eyes.

Crown Phoenix King was still next to her. It did not die, but its beautiful wings were gone.

Seeing the wingless Crown Phoenix King, Mu Qingyi felt an urge to cry.

She chanted the incantation to recall Crown Phoenix King to its soul pet space and jumped onto White Tiger's back.

White Tiger's sharp claws tore apart the restriction and charged into the enemy army again.

Mu Qingyi also wanted to leave, but she did not know which direction was New Moon Land. There were only large beasts around her and green monster birds filling up the sky.

She could only pick one direction and carve out a path of blood.

Blood spurted like fountains, rained like a downpour, splashing onto Mu Qingyi's face.

Mu Qingyi completely lost her mind. She rode on her bloodthirsty White Tiger and dashed past a cluster of black flame. Her eyes still looking at the enemies blocking her way ahead.....

That cluster of black flame was Chu Mu. Chu Mu was already standing by her side, but she did not see.

Chu Mu watched the bloodied Mu Qingyi dashing past him absentmindedly. At that instant, he saw her eyes.

Those eyes were bloodshot, they became numb and hollow. It seemed that a certain suppressed feeling deep inside her was also about to break out any moment.....

Those eyes pained his heart.

Chapter 1545: Summoning Nightmare Army!

"Kill her, she's New Moon Land's commander! Killing her will net you a hefty reward. Capturing her alive and you will be raised to Immortal rank directly!" Amongst the enemy armies, the mental voice of those captains spread out loudly.

Most of the participants were Emperors and Dominators. Such an individual was insignificant towards the entire army, especially before Immortals. They would only be slaughtered without even putting up any resistance. In such a situation, would they not wish to advance to Immortal and dominate the lives of others?

Killing her or capturing her alive would allow them to break free from being a cannon fodder and become a true dominator!

Nobody would not become crazy. A war was full of sacrifices and deaths. However, if they grasped the chance, they could soar up amongst all the sacrifices and deaths. And there happened to be a great chance right in front of them.

She only had a weakened White Tiger left, there were so many of them in the surroundings.

With the stimulation of hefty rewards, the armies became more crowded. Even more people swarmed towards Mu Qingyi and her White Tiger in order to obtain such a chance.

This wave had an even large number, and almost all of them were Dominators.

Their soul pets were mostly as tall as canopies, they were greedily looking down on Mu Qingyi and her weakened White Tiger.

Whoosh!

White Tiger's sharp claws swept across and heads fell off from bodies.

Over a hundred beasts surrounding Mu Qingyi lost their heads. Over a hundred pillars of blood sprayed out and scattered into the sky, forming a beautiful blood painting!

“Pzzzzzzt~!”

Blood kept pouring out, blood droplets rained down from the sky, splattering on Mu Qingyi's face and body.

She had completely become a bloodied person, her entire body was bright red.

White Tiger was completely exhausted. That claw was its final technique. It could only kill those hundred beasts.

The stiffened corpses of those beasts barely formed a wall and obstructed the rest of the armies. This was the last thing White Tiger could do.

Blood continued to rain down. Mu Qingyi raised her face and looked at the sky from a tiny gap.

After completely exhausting herself, her mind was gradually clearing up. She looked at the sky from the gap and mumbled to herself.

This much blood should be enough as offerings, right?

After killing so many people, New Moon Land should be safe, right?

Suddenly, Mu Qingyi felt a pair of arms appearing from her back. They were so fast she did not know when they approached her.

The arms were rapidly approaching her. She could not dodge them at all with her current condition, even turning around felt taxing.

Would she be pierced from her back? Would she have her neck twisted? Mu Qingyi did not resist anymore, but that did not mean she was not afraid of death.

Her body tensed up, calmly accepting yet fearing what would come. She felt she still had something she really treasured.

The arms passed by her sides and touched her body.

Her body was very tense. When those arms suddenly wrapped around her waist, she felt she would be severed into two from the waist. That way of dying must be disgusting.

The arms wrapping around her waist was getting tighter and tighter. Mu Qingyi did not struggle, only despairing waiting for her waist to be broken and her organs crushed.....

Those arms remained tight, Mu Qingyi shut her eyes and forcefully put up a solemn expression on her bloodied face.

Suddenly, a burning hot chest leaned onto her back.

Mu Qingyi no longer felt the pressure of her waist getting crushed, only the sensation of being hugged tightly from behind.....

Mu Qingyi trembled slightly and stiffly turned around.

A handsome face entered her view. That sharp chin, upright nose and familiar eyes.

Mu Qingyi was dumbfounded. She absentmindedly looked at Chu Mu's face, her tensed body almost went limp in his bosom.

She was truly exhausted. At the same time, she desired such solid arms and chest before her death, allowing her to leave in peace. This was her lingering regret and frustration.

"Qingyi, don't be like this," Chu Mu moved his hand and wiped away the blood on Mu Qingyi's face.

That was a beautiful face with her unique charm and allure. However, after dying in blood, that face looked really heartbroken.

Mu Qingyi's eyes accumulated too many suppressed emotions. After seeing Chu Mu, her tear glands could no longer hold back and tears poured out from her eyes.

She used crazy slaughtering to vent her feelings, used hatred to cover the pain in her heart. However, when all these stopped and she could lean in the bosom of a person she could truly feel safe with, the outbreak of emotion would instantly crush all of her pride, perseverance and tenacity, turning her into a woman who lost her family and could only cry in someone's bosom. She cried as feeble and sad as a child would.

Fresh blood continued to rain down. Chu Mu just helped Mu Qingyi wipe away the blood on her face, yet her face was dyed red again. The blood stains mixed with her sorrowful tears and trickled down her cheeks.

“Don’t let loose of your life like that, she doesn’t belong to you alone. If you just die like this, it’s the same as stabbing the heart of all those who cared about you. This feeling will be far more painful than the moment you get killed, and far longer,” said Chu Mu slowly as he lowered his head to look at Mu Qingyi.

The deceased would only feel the pain at the moment of death, and then enter an eternal slumber. The others had to first experience this nightmare, then experience the sadness. Every time they recalled this memory, they would experience the sadness again. This was a long lasting pain.

Any person, regardless of how insignificant, should not belittle his or her own life. This would only satisfy the enemy and hurt those who truly cared about him or her.

Chu Mu was not good at pointing out the principles, he only wanted to tell Mu Qingyi that while she could feel sadness and pain for her deceased grandfather, then even more people would have to feel such sadness and pain if she died. At least, he would be one of them.

“Sorry.....” Mu Qingyi hugged Chu Mu’s shoulders tightly.

Seeing Mu Qingyi like that, Chu Mu also felt bad. Not long ago, he similarly experienced this craziness after losing his family.

“It’s fine, you need to vent it out. However, the next time you want to be willful, you better be at my side,” Chu Mu tapped her back.

“I’m not a troublemaker,” said Mu Qingyi.

Chu Mu thought about it and nodded.

Mu Qingyi was certainly not a troublemaker. She was independent, strong-willed and tenacious. She could make others feel relieved. She would only experience such willfulness and craziness once.

“Not a troublemaker? The problem is we are in a big trouble now. The entire subjugation alliance seemed to know I have come here to rescue you,” said Chu Mu as he raised his brows.

“Ah? Then what should we do?” Mu Qingyi panickedly looked around.

Those hundred stiffened corpses had already collapsed. Mu Qingyi saw the heads and bodies of those fallen corpses, it was a menacing sight!

Not only that, the armies in the sky which should have been deployed to other regions of the battlefield suddenly changed their tactic and gathered towards them.

When Mu Qingyi charged into the enemy formation, only Mu Tuan’s army focused on her.

Now, Mu Qingyi felt the entire subjugation alliance, regardless of which faction, seemed to be swarming towards Chu Mu and her!

Chu Mu was New Moon Land's king, he was also the symbolic belief of this war. He was currently an individual who could truly affect the entire war. If Chu Mu died, this war would be over quickly.

The subjugation alliance generals and commanders saw Chu Mu entering their army formations. They would never allow Chu Mu to escape!

Seeing more and more armies gathering towards Chu Mu and her, Mu Qingyi completely blamed herself.

She should not have been so impulsive and charge into the enemy armies, nor should she drag Chu Mu into this dire situation.

All of Chu Mu's soul pets were still fighting against the various Gate Masters, there was no soul pet he could summon. With just his half devil transformation ability, he would be exhausted by the endless armies sooner or later.

"I will send the signal to Chao Lengchuan and let him send a troop to rescue you. You have to make your way towards the direction Chao Lengchuan is coming. They should not be able to stop you," said Mu Qingyi.

Saying so, Mu Qingyi was about to overexert herself to chant an incantation.

Chu Mu used his hand to cover her mouth directly, "Stop ruining yourself."

"But..... But you will also die. We must get reinforcement," said Mu Qingyi after pushing Chu Mu's hand away.

“Reinforcement? We do have it, but there’s no need to make Chao Lengchuan come here,” said Chu Mu.

Mu Qingyi looked at Chu Mu confusedly, unable to comprehend Chu Mu’s words.

Chu Mu revealed a smile and slowly lifted up his left hand.

A cluster of black Devil Fire quietly burned. Once it burned to the point of overflowing from Chu Mu’s palm, Chu Mu threw this cluster of black Devil Fire into the sky!

The black Devil Fire shot out in a straight and beautiful trail, turning any creature in its path into black powder.

The black Devil Fire reached high into the sky, then exploded magnificently, blooming into a bewitching black fire lotus!

Seeing this black flame signal exploding in the sky, Mu Qingyi suddenly realized something!

Chu Mu was about to summon that Nightmare army!

Chapter 1546: Nightmare, Stage For Slaughtering

To the north of the subjugation alliance, the army in this place attempted to approach Eastern Wild Forest Stronghold from the flank.

The person commanding the battle here was Xuan Gate Immortal School’s Lü Fengnan.

Xuan Gate Immortal School's top disciple Lü Fengnan should be the first person with the intention of beating down New Moon Land. However, he gradually realized someone with an even bigger ambition than him. He also never expected this person could actually rile up eight major factions to cooperate and subjugate New Moon Land together.

Lü Fengnan actually had a hard time recently. As New Moon Land kept developing, it meant he received more and more pressure from New Moon Land. There were many times he almost lost his position to those people in Xuan Gate Immortal School who mixed with New Moon Land.

Everything turned out well now. The entire New Moon Land was in danger of destruction. Lü Fengnan was in a great mood after suffering years of oppression, he could not wait to flatten New Moon Land.

"Go from underground!" ordered Lü Fengnan.

He led Xuan Gate Immortal School's Toxic Grass Sect. These Toxic Grass Sect members could make use of their knowledge of earth to infiltrate into Eastern Wild Forest Stronghold.

The toxicity of the toxic grass affected a very wide area. As long as his Toxic Grass Sect members entered Eastern Wild Forest Stronghold, New Moon Land army's rear would collapse.

After the order was issued, all the grass type creatures dug into the ground. The entire area originally had a large group of plant soul pets, but became barren immediately. Those grass type soul pets did not even leave behind any signs of earth being dug.

Boom!

A loud explosion rang out in the sky. Black flame shrouded over from the distance, sweeping up a chilling evil aura.

Lü Fengnan raised his head and looked towards the armies further away. He could see a bewitching black flame lotus blooming at the center of the armies. From his position, he could see many soul pet trainers turning into black powder due to the black flame!

“What’s that?” asked a general while pointing towards that direction in shock.

“Ignore that, we will head there,” snorted Lü Fengnan.

Lü Fengnan saw Chu Mu flying straight to the center of the army formations. That act was no different from suicide, so Chu Mu would be dead for sure. What he had to do was to take down Eastern Wild Forest Stronghold and completely collapse New Moon Land. Then, he would use their resources to strengthen himself.

“Leader, I meant over there,” said the general as he pointed to the side of Toxic Grass Sect army.

Lü Fengnan turned to the direction and realized a silver crack appeared not far away.

This silver crack tore open the space and slowly opened like a dimension gate connecting to another world. He could vaguely see clusters of flame auras seeping out from this unique spatial crack.

The flame aura was getting denser and denser, the spatial crack also opened wider and wider.

Suddenly, a silver devilish figure suddenly flew out!

He hovered at the edge of the spatial crack. His devil claw burning in silver flame grabbed the spatial crack and crudely widened the crack!

Rip~ Rip~ Rip~ Rip~

The crack enlarged even more and turned into a gigantic dimension gate. Fire spewed out from the other side of the gate, appearing to be surging out any moment.

Lü Fengnan and those generals were dumbfounded.

Someone actually used his hands to tear open the space! Just what level did he have to reach to be able to tear open a spatial passage in a normal space???

Silver flame, white flame, blue flame. Amongst those intertwining Devil Fires, devilish figures swarmed out from this spatial gate crazily!

“Huhuhuhuhuhuhu!”

Whenever a flaming figure flew out, there would be an evil aura sweeping across the surroundings. When a large group of flaming figures flew out, the evil aura already turned into an evil tornado which swept up all the way into the clouds. The turmoil stirred up this entire area!

Flames ignited the earth. Countless devilish figures flew out. They seemed to be a large group of hungry devils coming from another world. They were barbarous and savage!

“Night..... Nightmare.....” A general finally recognized these evil creatures.

“Why..... Why are there Nightmares here? There are so many of them!” shouted Lü Fengnan all of a sudden.

The Nightmares kept increasing in number and formed an eye-catching sea of fire. The abundant evil aura spread out and caused the entire Toxic Grass Sect army to stiffen on the spot.

Why would there be Nightmares??

Nobody could answer this question. However, the burning Devil Fire already told those Toxic Grass Sect members that they would be swallowed by this sea of fire if they did not leave!

“Silver..... Silver Nightmare..... A few thousand of them!”

Silver Nightmare meant reaching Dominator rank. How terrifying would the evil presence of a few thousand Silver Nightmare be!

The Silver Nightmares flew in front of the entire Nightmare army. Devil Fire spread out and swept across the land this Toxic Grass Sect army hid in.

Devil Fire was able to penetrate into the earth. Those grass type creatures hidden underground could not endure such high temperature. They began digging deeper into the earth to stay away from the Devil Fire.

Those Silver Nightmares seemed to be quite intelligent. They levitated above the earth and chanted simultaneously!

Space Overturn!

All Silver Nightmares controlled the power of space. It was not really a difficult feat to overturn an entire piece of land!

As the incantation completed, those Toxic Grass Sect soul pet trainers witnessed an astonishing scene!

The entire piece of land gradually rose up and was separating from the ground.

As the space violently twisted, this piece of land actually turned upside down.

The burnt soil, trees, hills and rivers were buried into the ground, while the soil layer, gravel layer and rock layer faced the sky and became the ground surface instead.

Due to this overturn, the grass type army trying to escape the burning flame had their directions reversed. They should have been digging further into the earth, but popped out to the surface instead, exposing themselves in the air.

“Huhuhuhuhu!”

What welcomed these plant type creatures were the high temperature Devil Fires from those Silver Nightmares!

Intense flame swept the ground. All those plant type creatures were severely burned. Just like a dry wildfire, the spreading and burning speed was astonishing!

The grass type creatures at Dominator rank from the Toxic Grass Sect Lü Fengnan commanded only numbered 1000, while there were around 20,000 Emperor rank.

However, those grass type creatures were merely weak and feeble grass before Nightmares. After the rampaging wildfire, no plant could be seen!

Devil Fire scattered to the surroundings while carrying intense heat.

Lü Fengnan and those generals absentmindedly stood there and watched over 20,000 plant type creatures turn to ash.

The tyranny of Nightmares made these Toxic Grass Sect members lose even the courage to resist.

Those Nightmares were devils!

The devils would burn everything up, not leaving a single survivor.

After burning the grass type army they saw into cinders, they did not seem to be satisfied at all. They started to make sharp devilish cries and charged towards the entire subjugation alliance!

“Nienienienie!”

Devilish cries echoed throughout the area. The subjugation alliance turned around and caught sight of the overflowing evil aura as well as the sea of Devil Fire shrouding over half of the sky and swept across half of the land!

Nobody knew where this vast Nightmare army came from. They possessed the brightest and bewitching bodies. They looked like a group of hungry devils. They charged into the human army and wanted to burn this entire human army into cinders.

The Nightmare army which suddenly joined the fray charged in from the north wing. They swarmed over after crushing Toxic Grass Sect's grass type army. In an instant, the entire subjugation alliance fell into panic. Before the Devil Fire tsunami, even an entire army seemed insignificant and would be swallowed immediately!

Despairing cries started to ring out. The most painful experience was none other than getting burned alive. They even had to suffer the pain of having their souls burned. The despairing cries reached Mu Tuan clan's army. The generals and soldiers felt crept out by the cries.

“Ignore those, kill them first!” Mu Tuan commanded his army loudly from the sky far away!

Chu Mu and Mu Qingyi were trapped deep within Mu Tuan clan's army. Killing them was just a matter of time. Mu Tuan would not allow those two to escape.

Hearing Mu Tuan's furious command, all the generals stared hard at Chu Mu and Mu Qingyi, constantly ordering their subordinates to attack.

"Nie! Nie! Nie!"

Devilish cries came from the distance once again. One could sense these Nightmares seemed to be charging towards Chu Mu's direction.

"My army is coming," Chu Mu raised his head and glanced through the gaps within the wing type army. He looked at those rampaging Silver Nightmares and revealed a smile.

This was a plain smile. However, when the face showing this smile split into two, burned in silver and black Devil Fire, this half creepy half snorting smile was instantly filled with absolute arrogance! Seeing that, Mu Qingyi became mesmerized!

"Huhuhuhuhu!"

Devil Fire traveled along that bewitching face and covered Chu Mu's entire body, black and silver clearly separated!

Amongst the densely packed subjugation alliance, a bizarre Nightmare figure stood alone. Black and silver Devil Fire separated with his body as border, madly sweeping across the surroundings!

In an instant, all enemies within the range of Devil Fire were turned to black and silver corpse powder, scattering into the air along with the rampaging air currents!

This piece of land would soon turn into a charred land. Charred land was the stage for slaughtering Nightmares loved the most!

Chapter 1547: Splitting Battlefield, Flower Demon Army

Under the Devil Fire, all creatures perish.

Let alone Dominator or Emperor rank creatures in the subjugation alliance, even Immortal rank creatures might not be able to endure such high temperature Devil Fire.

The entire army was backing off. Those who did not would definitely be burned to cinder.

Chu Mu retracted his black and silver Devil Fire and turned them into serpent shape, coiling around himself.

He dashed through the army. The army was churned into a mess. Bodies and souls were vaporized by the black and silver streaks of flames.

He was unstoppable.

Chu Mu brought Mu Qingyi and charged straight through the army, rapidly regrouping with the Nightmare army.

The so-called regrouping was by stepping over the corpses of the subjugation alliance. The person acting as the spearhead in front of the Nightmare army was none other than Bai Yu.

His level of savage would not be much inferior to Chu Mu. In addition, there were various Immortal Nightmares around him to open the path together. The places they swept through would not leave a single survivor behind. It was meaningless even if there were Immortals blocking their way.

The Nightmare army cut in from the flank. The entire subjugation alliance immediately became chaotic.

“Middle area army must defend them, don’t let them split our battlefield!” shouted Divine Sect Gate Master Han Yan who commanded over the entire war.

The intention of those Nightmares coming from some unknown place was very obvious. They wanted to cut in from the flank of the entire subjugation alliance and forcefully split the frontal armies of the subjugation alliance from the rear. Then, they would annihilate this one third of the subjugation alliance as soon as possible.

If they succeeded in their plan, not only would the subjugation alliance suffer a heavy loss, Eastern Wild Forest Stronghold might even initiate a counterattack!

The Ghost Sect and Snake Dragon Sect taking the vanguard of the subjugation alliance had already been annihilated. This was a heavy loss to the subjugation already. The sudden appearance of the Nightmare army further boosted the fighting strength of Eastern Wild Forest Stronghold. Once their splitting tactic succeeded, the subjugation alliance would fundamentally lose this war!

Gate Master Han did not know why the war situation would suddenly turn so bleak. This should have been a risk free war.....

“Gate Master Han, they can’t gather!” reported the commanding general.

The Nightmare army acted very quickly in splitting the battlefield. The generals were not really slow to react. All the armies had their own commanders. With the mobility of Emperors and Dominators, they should be able to gather in a short time and form a solid defense formation.

However, for some reason, those scattered armies could not gather no matter how they tried. It was not because they were panicking and ignoring the commands, but.....

“What’s wrong? They can’t even perform such a simple grouping command!” scolded Han Yan.

“Gate Master Han, all of our armies are closing in towards here. But somehow..... our people seemed to be trapped by something.....” said the commanding general.

Han Ya frowned. Just as he was having doubts, a crack slowly opened up in the soil next to him.

A green flower vine was slowly stretching out within the crack. The soft flower vine quietly wrapped onto the leg of the commanding general next to Gate Master Han Yan.

That commanding general did not notice this and continued reporting to Han Yan. His soul pet similarly did not notice it.....

“Ah!”

Suddenly, this commanding general screamed.

Han Yan turned around, only to notice this commanding general collapsed onto the ground. His leg was getting pulled by a flower vine into that crack!

Han Yan was shocked. When he snapped back, blood seeped out from that crack and looked extremely creepy.

“There’s something under the soil!” roared Han Yan furiously!

The generals around him hurriedly jumped onto the back of their soul pets. By now, more and more cracks appeared on the ground. Flower vines filled with dangerous presence began twining around all creatures.

This situation not only happened here. It could be said such a creepy and horrifying phenomenon manifested in the entire army.

There would be flower vines appearing from the soil all of a sudden. They looked like tentacles of hungry witches, pulling the creatures into the soil.

Once dragged into the soil, not many could crawl back out alive.

These creepy Devil Flower Man-eating Vines were not the true culprits to hinder army movements. At the center of the entire alliance, Flower Demons as tall as trees rapidly broke out from the soil.

There were toxic stings growing on the bodies of these Flower Demons. Their flower vines connected to one another and formed into a Flower Demon Forest filled with toxin!

The sudden appearance of this forest forcefully split the entire subjugation alliance from the middle, not allowing them to gather.

The size of the isolated subjugation alliance amounted to roughly one third. They were currently facing the rampage from the Nightmare army.

Their retreating path was sealed by the dense Flower Demon Forest. Creepy Devil Flower Man-eating Vines constantly crept out from under their feet. What was more despairing was the Eastern Wild Forest Stronghold's army was also approaching them!

One third of the subjugation alliance could not oppose the entire Eastern Wild Forest Stronghold army. Furthermore, the Nightmare army and Flower Demon army were not any inferior in slaughtering.

As such, the nearly hundred thousand-men army instantly became a group of trapped beasts caged inside the New Moon Land army!

"Fire Sect, Madam Huo, order your army to burn these Flower Demons!" shouted Gate Master Han towards Madam Huo.

Madam Huo also saw the abrupt change in the war situation. She hurriedly gave up her battle and flew towards her Fire Sect army.

Once Madam Huo left, it meant Mu Tuan had to face Little Hidden Dragon all by himself.

Little Hidden Dragon watched Madam Huo leaving and crackled, revealing its dragon fangs. It showed a savage smile towards Mu Tuan and his armored beast.

Mu Tuan was not dumb. He and Madam Huo joined forces and could not gain any advantage over this Little Hidden Dragon. Would it not be suicidal to take on Little Hidden Dragon alone?

Mu Tuan had been wanting to return to his army, because Chu Mu and Mu Qingyi fell into his army. He wanted to use this chance and capture Chu Mu and Mu Qingyi. Yet Little Hidden Dragon kept pestering him and would not let him go, making him feel extremely frustrated.

Once Madam Huo left, Mu Tuan's mood was no longer frustration, but fear. His low class Immortal rank soul pets were all severely injured. Just his Flame Armored Beast could not oppose this Spectral Hidden Dragon.

"Madam Huo, hurry up, I can't hold for long!" Mu Tuan used mental voice to remind Madam Huo.

Madam Huo did not respond. She led her Fire Sect members and began advancing towards the densely packed Flower Demon army.

With an order, all the fire type creatures began chanting!

Crimson flame rained down from the sky and showered onto this Flower Demon army.

The flames churned and scattered. Heatwaves splashed onto all the Flower Demons.

The Flower Demons could not endure such a large scale attack, many Flower Demons were burnt to ash by the intense flames.

The flames burned and spread. Plant type creatures were afraid of fire the most. The damage caused by fire elemental energy unleashed by tens of thousands of Fire Sect members was terrifying.

The flames continued to burn for a long time.

Madam Huo stared hard at the sea of flame sweeping high into the air. She could see some Flower Demons still twisting their bodies within the sea of flame.

“What’s going on?” asked Gate Master Han with a frown.

“These Flower Demons possess water property. They have some resistance against fire. My people cannot kill them in one attack,” grumbled Madam Huo.

“How long do you need to exterminate them?” asked Gate Master Han.

“I don’t know. Some Flower Demons have very high resistance. Fire may not kill them,” said Madam Huo.

“Damn! If we don’t break this Flower Demon wall, our frontal armies will be annihilated!” said Gate Master Han furiously.

Madam Huo looked at Gate Master Han mockingly, “Do you think my people aren’t putting in effort? I want to ask you instead, just where did that Nightmare army come from? Where did this Flower Demon army come from? Didn’t you investigate all the situations before taking command over all of us?”

“I..... How can I know that!” Gate Master Han was enraged.

The momentum of the Nightmare army was like a sharp burning sword charging through the battlefield. It not only crushed many armies, it also cut apart the entire subjugation alliance.

Meanwhile, the ambush from the Flower Demon army caught all the commanders off guard. There were many casualties, as well as the wounded and poisoned. More importantly, this ambush completely messed up the formation of the entire subjugation alliance.

Looking through the burning Flower Demon Forest, Gate Master Han and Madam Huo saw a scene of bloody splattering and powdered corpses scattering in the air.

Death throes rang out ceaselessly. In a short while, just how much of that one third alliance force was lost after getting surrounded by three sides?

They could not tell, and did not have the courage to fly into the encirclement by Flower Demon army, Nightmare army and New Moon Land army to rescue them.

“How can this be.....” Zeng Long rode on his Golden Snake Dragon and looked at this chaotic battlefield in disbelief.

Golden Snake Dragon was already dyed in blood. The reason Zeng Long retreated from the middle class Immortal rank battlefield was not because he wanted to reinforce the subjugation alliance, but because all of his other snake dragons were killed by that terrifying Battle Beast Mo Ye. Even his Golden Snake Dragon was riddled with wounds.

Zhan Ye did not intend to let Zeng Long go. It actually chased after Zeng Long even after he hid into the army. That savage aura made Zeng Long's face turn pale in fear!

Chapter 1548: Alliance Retreat!

Madam Huo's Fire Sect members took a long time to get rid of all those Flower Demons.

When their view was no longer blocked by the Flower Demons, what the subjugation alliance members saw was a painting from hell.

The ground was charred, corpses littered all over. The charred corpses of humans, the crushed beasts, the torn snake dragons, the bones sticking out from the soil of unknown race and the powder of burnt plant type creatures drifting above various corpses.

In conclusion, regardless of humans or soul pets, there was not a single survivor!

Smoke rumbled across the battlefield, hindering the sight of the people.

Such a scene should have appeared in New Moon Land's territory. Because they should be the subjugator, they possessed the absolute advantage in fighting force, they were the alliance from the various sects of eight major factions.

However, nobody expected that the side which ended up in such a pitiful state would be them!

The Nightmare army that appeared out of nowhere, the terrifying Flower Demons ambushed under the entire land, in addition to the advancing Easter Wild Forest Stronghold's New Moon Land army. The entire war was no longer in the subjugation alliance's control.

Looking up and around, the blazing Devil Fire cloud occupied half of the sky. Rows of Nightmares gathered there, giving off a pressuring and unstoppable aura.

At the front most of this sea of Devil Fire, a silver half devil was hovering in mid-air and looking down at them.

This was a half devil, the famous Half Devil Bai Yu in this continent. Those Gate Master level people saw him in Dual Earth Conference. However, nobody expected his strength to be so terrifying. Nobody could stop him from charging through the armies.

When a half human fully displayed his power, he was actually strong enough to destroy an army of ten thousand all by himself.

A Half Devil Bai Yu already wavered the will of a few armies. The half devil next to Bai Yu was even more terrifying.

Half of his body was black, half was silver. He stood tall before the entire Nightmare army.

A row of Silver Nightmares stood in an arc behind him. Those Nightmares were shaped similar to that Black and White Dual Evil Nightmare. They looked like a bunch of shadows of that Black and White Devil. What was even more shocking was that those Silver Nightmares were all at Immortal rank.

Without a doubt, this half devil split in black and white color was the supreme commander of this entire Nightmare army!

From the rumors of the past, New Moon Land's King was also a half devil, a silver half devil similar to Bai Yu.

However, the subjugation alliance was looking at a Black and White Dual Evil Half Devil. This was never heard of before. That supreme evil aura filled the atmosphere, as if everything had to submit before his Devil Fire.

Just the aura alone was not enough to prove how powerful this Black and White Dual Evil Half Devil was. When Mu Tuan clan's army saw him, they would tremble in fear. Because right before the battlefield was split, this Black and White Dual Evil Half Devil started his slaughter from the center of their army.

He was not trying to break out of the encirclement. He was simply charging towards the place with the most number of people. Those died from his two types of Devil Fires were countless. The death toll in that short amount of time was several times more than the number of people Mu Qingyi killed.

Mu Tuan clan was the faction which suffered the most from the split. They had two thirds of their army split by the Nightmare army and could not be rescued due to the Flower Demon army.

Adding to the members of Mu Tuan clan Chu Mu and Mu Qingyi killed, Mu Tuan clan was more or less annihilated!

Furthermore, due to facing Little Hidden Dragon alone, Mu Tuan's Flame Armored Beast could not escape in the end. Its soul was devoured by Little Hidden Dragon and became a delicious soul meal.

When Mu Tuan and Madam Huo were making out, his middle class Immortal rank Holy Light Horned Beast was killed by Dark Death King. Now that the other middle class Immortal rank soul pet was also killed, he only had low class Immortal rank soul pets left.

The damage to his soul would make him almost impossible to continue advancing in his cultivation.

The army was almost annihilated, the Clan Master Mu Tuan was also heavily wounded. This Mu Tuan clan would no longer be considered a clan in Mu Family Dynasty in future. They might fall to become a normal household.

This was unquestionably a heavy blow to Mu Tuan clan.

“Clan Master..... What should we do?” Mu Guangxue supported the pale-faced Mu Tuan.

Mu Tuan’s expression was extremely dark. This should have been a tiny third rank territory, an insignificant existence compared to his Mu Tuan clan.

However, his clan was almost annihilated in this place. They did not obtain anything and suffered an irrecoverable blow.

Gate Master Han absentmindedly watched the Nightmare army and hysterically roared, “Why? Why can he control the Nightmare army? Those Nightmares never signed soul pact with humans, why are they willing to fight for them!?”

Those were wild Nightmares, not any different from those masterless Nightmares in Sequence Land. Normally, they should be the enemies of humans, they would never listen to the commands of a human.

Madam Huo, Wind Sect's Sect Master Tian Huan and Zeng Long who barely escaped were all gathered next to Han Yan.

The astonishment in their hearts was similar to Gate Master Han. They could not believe someone could actually control a Nightmare army which did not sign a soul pact with humans.

At that moment, a calm voice to the point of eeriness gradually spoke, "He's their king."

Gate Master Han and the others turned around, only to see a young and noble man standing behind them. His eyes shone in purple, his aura gave off a natural born nobility.

"Mister Yu, what does that mean? All of us listened to your command, but New Moon Land actually has so many experts. There are even Nightmare army and Flower Demon army we don't even know....." said Madam Huo a little angrily.

The wounded Mu Tuan stood at the side, he was so gloomy as if his entire body turned into ice. He did not want to talk anymore now, he just wanted this Mister Yu to give him an explanation.

New Moon Land had so many ambushes and many powerful beings. If they could obtain such information, they would not be taken by surprise like that.

"Hmph, six Gate Masters can't even take down a private territory's king," Mister Yu took a glance at these losers with a sneer.

Mister Yu's words caused these Gate Masters to become furious. Madam Huo lashed out, "He obtained power from Monument Tear. I could have squashed him with one hand in the past!"

"He's not Monument Tear Inheritor, the Monument Tear power he can obtain are just his own insignificant few," Mister Yu swept a glance at Madam Huo.

"Then he..... he didn't use the Monument Tear?" Madam Huo was startled.

The others were also startled.

If he did not use Monument Tear, just how did he become so strong in such a short time?

Furthermore, they did not see him transforming into such a powerful Black and White Half Devil.

"If he never used Monument Tear, how can he grow strong so fast!?" said Zeng Long in disbelief.

"There are many ways to raise one's strength in this world. You short-sighted people just don't want to look for it," said Mister Yu.

"It's pointless talking about all those, what should we do now? Their morale has been greatly boosted. Even if we still have over half of the armies left, we may lose if we continue fighting," said Han Yan.

“Retreat first,” said Mister Yu calmly.

“Retreat? How can we do that? This is no different than announcing we lost!” shouted Gate Master Han.

The grand subjugation alliance formed by eight major factions had to shamelessly retreat after attacking a private territory. They would not have the face to return to their own factions. How would their sects have the courage to face the other sects in their factions from now on?

“The battlefield isn’t just this alone. Look at Wupan Navy and Ning Family Dynasty sides. They deployed all their forces to this Eastern Wild Forest Stronghold, so their rear is severely lacking defense,” said Mister Yu.

“This.....” Gate Master Han entered a deep thought.

The other Gate Masters also fell silent. Truthfully speaking, they did not have the resources to continue fighting. Ghost Sect, Snake Dragon Faction, Mu Tuan clan suffered crushing blows. The remaining fighting forces were Fire Sect, Wind Sect, Xuan Gate Immortal School, Divine Sect and various small factions. This fighting force could no longer be considered elite.

“Clan Master, let’s retreat,” whispered Mu Guangxue to Clan Master Mu Tuan.

When Mu Tuan heard those words, his rage flared up and slapped Mu Guangxue’s cheek, “I told you to finish off Mu Qingyi, yet you can’t even do such a simple task. She fought such a long time in our army, yet you can’t take her down. You trash!”

Mu Tuan's short temper was completely exposed at this moment.

The other Gate Masters chose to ignore this scene. Their moods were no better than Mu Tuan, because they more or less suffered some losses in the battle against Chu Mu's soul pets. Although it was not as severe as Mu Tuan who lost his last middle class Immortal rank soul pet, they also lost a few low class Immortal rank soul pets and suffered damage to their souls.

"Let's retreat. We will return to the edge of Eastern Wild Forest first and wait for the news on the ocean battlefield. Once they break through those two sides, it won't be too late for us to attack," Han Yan gritted his teeth and eventually made such a decision.

The others also did not want to lose their forces anymore and agreed.

"Mister Yu, I have a question," whispered Madam Huo.

"Speak."

"Why don't you kill him? With your strength, you could have killed him without anyone knowing!" said Madam Huo.

"First, I cannot make a move easily, some people are watching. Second, do you remember that Dark Death King which humiliated you?"

The moment Dark Death King was mentioned, Madam Huo's expression turned dark.

“If I’m not wrong, that Dark Death King should be near him. This New Moon Land is more complicated than I expected,” said Mister Yu.

Chapter 1549: Cloud Gate Breached

The attacker and defender were separated on two sides, with the charred land created by Elemental Clan Fire Sect at the center, lingering fire continued burning.

Within the fire, some Flower Demons were still twisting their bodies. Those Flower Demons had higher rank and possessed strong water property. They were not afraid of Fire Sect’s flames. They continued to twist themselves within the burning flame and appeared to be showing off.

The flames gradually subsided. Once the fire was completely extinguished, it would be the moment New Moon Land army counterattacked.

They finished off one third of the subjugation alliance in one go. This almost tilted the scale of the war. Riding on this momentum and charging towards the enemy would definitely net them a complete victory.

However, the subjugation alliance did not give them the chance.

The remaining subjugation alliance forces began retreating under the orders of various commanders while the flame still acted as a natural barrier.

The subjugation alliance swarmed in like a flood, and now retreated like a flood. They were very fast, even faster than their entrance.

Separated by a long strip of flame, New Moon Land side watched the retreating tide and could not believe their eyes.

“They..... They are retreating??” Military advisor Luo Yi was astonished by the scene.

This subjugation alliance formed by various major factions, which could be considered the largest scale in recent years, which should be undefeatable.....

They were really defeated by such a tiny private territory’s defense??

Looking at the corpse-strewn land and the retreating army, not only Luo Yi, many New Moon Land army commanders could not believe such a scene.

At the start of the war, they witnessed New Moon Land’s king facing the entire army alone.

They saw Dead Dream use its near high class Immortal rank level to annihilate two armies. They saw their king facing five Gate Master level people by himself.....

All of those encouraged him and spurred them on to oppose the enemies and kill the invaders.....

When they actually dove into the battle, it would be difficult to think about some things. Many people would go numb in battles and lose their ego. Their heads would only be left with the faith of protecting their land and killing the enemies.

When everything was over and they were still alive, they would suddenly realize they actually gained an advantage.

After going through another bloody clash, the enemies actually escaped!

They won this war??

Everyone had this question which they themselves could hardly accept.

However, the truth told them that they really won! They successfully defeated the enemy. That was the largest and strongest army of the subjugation alliance from the eight major factions. They actually chased those people away!

“Chu Mu, do we pursue?” asked Chao Lengchuan excitedly.

Honestly speaking, this New Moon Land war was actually commanded by Chao Lengchuan. He was even prepared for sacrifices. However, he never expected the situation to actually turn around in such an astonishing way. The Nightmare army and Flower Demon army far surpassed his expectations.

The most important part was the Nightmares splitting the battlefield, while the Flower Demons blocked the path of retreat and employed traps. The final three-sided encirclement tactic was perfectly carried out. They used the least sacrifice to annihilate one third of the enemy army. What else could make one cry in joy than such a victory??

“King Chu, Commander, we cannot pursue. Flower Demon army is unsuitable for pursuit. It’s the same as losing a powerful army. Furthermore, they are very smart. They divided out two wings and took a triangle relative to our position when retreating. Once we chase after them, the two wings will charge in and breach into New Moon Land. By then, their main force will be used to stall us instead, Wanxiang City may get occupied by them,” said Military Advisor Luo Li.

Chu Mu nodded. The subjugation alliance suffered a heavy loss this time, but they still had two third of their army. Chasing after them recklessly would carry a certain level of danger.

After experiencing this war, Chu Mu's soul pets were tired. They might be in danger if they continue fighting.

It was already a defeat for the enemy when they were able to successfully defend New Moon Land.

.....

Eventually, the last of the enemies disappeared in the horizon of Eastern Wild Forest. Only a devastated battlefield was left.

The belated cheers from the New Moon Land army echoed throughout the sky and forest after the enemies completely retreated. One could only experience the joy of victory after going through this uncertain and bloody war.

They successfully protected their families! They protected their land!

Surrendering without a fight would always be failure. Only after truly resisting and fighting back could one realize the seemingly powerful enemy was not undefeatable.

.....

“The war isn’t over yet,” said Uncle Yu worriedly as he looked towards the direction the subjugation alliance retreated to.

There were still a majority of the enemies left. They could prepare a second attack.

Now that New Moon Land’s Nightmare army and Flower Demon army were exposed, the enemies would not be so unprepared when they return for a second round.

Despite New Moon Land’s fighting force actually surpassing the enemy now, this Eastern Wild Forest battlefield only had five factions. The other three battlefields might not be so optimistic.

“No matter what, if we are able to defend this Eastern Wild Forest battlefield, we have won half of the war,” said Chao Lengchuan.

“Yes,” Chu Mu nodded.

Certainly, Eastern Wild Forest was the most important battlefield. The other places should not be a problem if they could defend here.

At the two ocean battlefields, Wupan Navy never showed any movement until now. However, the ocean region was almost completely in Lan Qie’s control, so there should not be a big problem.

Chu Mu was more worried about Cloud Gate Stronghold’s battlefield.

There were really not many people deployed to defend Cloud Gate Stronghold. The true experts were only Cloud Gate Elder, Ye Wansheng Cloud Gate Elder's disciples.

However, they had to face the Divine Sect Discipline Palace's members which had the strongest fighting strength.

Divine Sect Disciple Palace members were all elites of Divine Sect. This army would be far more difficult to handle than the other armies. Chu Mu was really worried about the Cloud Gate battlefield.

"Xia Zhixian, control those Flower Demons to stay inside and outside of Stone City. Maintain a guarding stance," Chao Lengchuan told Xia Zhixian.

Xia Zhixian nodded and began controlling the Flower Demons to set up the defense towards Eastern Wild Forest.

Next, Chao Lengchuan made New Moon Land forces take shifts to defend and rest.

The enemies left quickly, but they could come quickly as well. Nobody could guarantee the subjugation alliance would not execute a sudden attack when New Moon Land let down its guard.

New Moon Land army, Holy Guard army and volunteer army began to take up the important spots in Eastern Wild Forest under the command of Chao Lengchuan. This was to ensure they could react immediately when the war broke out again.

The logistic regiment began saving the injured. This was a major project. After all, there were too many injured, some even died as they could not be saved in time.

Ye Qingzi stood under the stronghold wall. All of her healing soul pets were summoned.

She and her soul pets continued to chant incantations and all the injured would receive a shower of life force and a shower of healing when passing through the stronghold gate. This could extend their life force and ease their injuries.

Continuously using wide area healing techniques was mentally exhausting. When the rescued injured people and soul pets passed around one third, Ye Qingzi's face was already pale.

"It's alright, conserve your strength. There are many important people requiring your treatment," Xia Zhixian stopped Ye Qingzi from overexerting herself.

"It's fine, I can endure for a while longer," Ye Qingzi knew how to concoct soul power recovery potion.

These injured people fought for New Moon Land. They were already fortunate to be able to survive this war. She would not let them die because they could not be treated in time.

"Go help Chu Mu, Mu Qingyi and Chao Lengchuan. They and their soul pets are also heavily injured, they can't fall. Leave these injured to me. I will get a group of healing Flower Demons to here and ensure all of them can receive treatment," said Xia Zhixian.

Xia Zhixian was a support soul pet trainer. She also possessed a certain level of healing ability. Furthermore, those holy blue-colored Flower Demons all possessed healing ability.

Regardless of any army, support soul pet trainers were always in demand.

Probably only New Moon Land had so many flower type soul pets and could heal the injured individually. This greatly reduced the post war casualty, and could let the army recover its fighting strength with the fastest speed.

Ye Qingzi did not remain stubborn. Those leaders certainly had to recover their fighting strength. Especially Chu Mu, he could stop an army of ten thousand all by himself. If he recovered his fighting strength, the entire Eastern Wild Forest would gain the greatest security.

Ye Qingzi went to the resting place of the few commanders. She saw those commanders carefully tending their soul pets. The entire hall was filled with their soul pets. Some female support soul pet trainers were also attentively helping them to heal their soul pets.

“You’re here,” Chu Mu smiled and looked at the slightly fatigued Ye Qingzi.

“Yes, are you alright?” Ye Qingzi began checking on Chu Mu’s injury first.

“Take a look at Qingyi first, she’s heavily injured,” Chu Mu pointed to the side hall and indicated that Mu Qingyi was inside.

“Alright, be careful yourself. Don’t worsen your wounds,” reminded Ye Qingzi gently before bringing her Bell Noise Concubine into the place Mu Qingyi rested.

The moment Ye Qingzi entered the side hall, Military Advisor Luo Yi barged into the hall in a hurry with a poor expression.

Chao Lengchuan took a glance at him and asked, "What's the matter?"

"Cloud Gate..... Cloud Gate is breached."

Chapter 1550: Avenge Them!

When Ye Qingzi entered the side hall, she saw Mu Qingyi dyed in blood. Her armor was already tattered, her flesh was meshed up and even her bones were exposed.

Seeing such a scene, Ye Qingzi could not help but draw a sharp breath, then immediately let Bell Noise Concubine heal Mu Qingyi.

Mu Qingyi was still in a half unconscious state, she could vaguely sense someone healing her.

In fact, she was already in this half unconscious state when Chu Mu carried her and broke through Mu Tuan clan's army.

Mu Qingyi's mind felt hazy, she felt she was still in that battlefield. There were still many enemies in the surroundings, roars of beasts still echoed in her ears. Chu Mu who should have saved her disappeared. She was really scared and weakly called out Chu Mu's name.

Ye Qingzi approached her to listen to what she wanted to say. When she leaned closer, Mu Qingyi suddenly hugged her like a child without any sense of security. Mu Qingyi tightly hugged her and would not let go.

Ye Qingzi's clothes were immediately stained by Mu Qingyi's blood. She did not struggle and quietly allowed Mu Qingyi to hug her. Mu Qingyi's mumble entered her ears, she could only understand half of the mumbles.

After a long time, Mu Qingyi finally fell asleep from fatigue. Ye Qingzi put her hands back neatly and quietly healed her wounds.

.....

“How is she?” asked Chao Lengchuan beyond the windscreen.

“Her wounds are treated, but her three souls were damaged and require a long rest. Her White Tiger and Crown Phoenix King are severely injured, they can’t fight within a month,” said Ye Qingzi.

“Three souls..... three of her soul pets died??” Chao Lengchuan was startled.

“Yes.”

Chao Lengchuan became speechless.

Getting the soul wounded was a heavy blow. Chao Lengchuan experienced it during his cultivation. Mu Qingyi had three souls wounded. How would she face such pain after waking up?

“Where’s Chu Mu?” asked Ye Qingzi.

“He’s heading to Cloud Gate, Cloud Gate was breached,” answered Chao Lengchuan.

“His injuries..... did he go alone?”

“A few of his stronger Nightmare subordinates followed him.”

After Chu Mu returned from the ocean region, Ye Qingzi did not get to be alone with him. He had been rushing around without stop over the past few months, it was even more so after the war broke out.

“Take good care of Qingyi, our injuries are fine,” Chao Lengchuan left after finishing his sentence.

Ye Qingzi nodded.

As she turned around, Mu Qingyi whimpered and blood spilled out from the corner of her lips, dying her pale lips red.

“Are you awake?” Ye Qingzi smiled and brought a cup of tea to let Mu Qingyi rinse her mouth.

“Why am I here??” Mu Qingyi was a little confused, because she thought she was still in the battlefield.

“The subjugation alliance retreated,” said Ye Qingzi.

“Just now, I.....” Mu Qingyi looked at Ye Qingzi a little dazed.

She recalled that right before she lost consciousness, she thought she was about to die and spoke a few things to Chu Mu while hugging him.....

However, she felt something wrong after waking up, because the person she hugged was soft and slim. It did not feel like Chu Mu's shoulders and bosom.

Don't tell me.....

Mu Qingyi wanted to verify something from Ye Qingzi's expression, but she could not tell anything. Ye Qingzi was too calm.

"Qingzi, did I say something that shouldn't be spoken?" Mu Qingyi lowered her head and did not dare to look at Ye Qingzi's eyes.

"Do you want me to convey it or find the correct person and repeat it?" said Ye Qingzi.

"I won't be able to say it again, please don't convey it either," said Mu Qingyi in a serious tone.

"Recover your injury first."

"Yes."

.....

Heavenly Mountain, ice covered the earth and cold wind billowed. The white silence looked like a huge canvas laid over the ground. Everything was still, there was no sound.

In the sky of the connected mountain range, black and silver Devil Fire was dancing in the raging wind. Chu Mu flew at the front most, hurrying towards Cloud Gate.

Behiihim were ten Silver Nightmares. Chu Mu left Nightmare Ruler behind to defend Eastern Wild Forest. Once war broke out in Eastern Wild Forest, Bai Yu would command that Nightmare army in place of Chu Mu.

The ten Silver Nightmares he brought were all leader rank in the Nightmare army. They were outstanding and fast enough to follow Chu Mu as reinforcement.

Cloud Gate was breached, that meant one side of New Moon Land was broken through.

The subjugation alliance's main fighting strength were Emperors and Dominators. However, there were way too many greedy factions in the entire Zhengming Continent. In this warring period, many smaller factions would linger around the battlefield like vultures, finding a chance to reap profit.

Once Cloud Gate was breached, other than Divine Sect Discipline Palace invading into New Moon Land, those factions would also swarm in.

They would not dare to attack well-defended cities like Wanxiang City or Xiang Rong City, but would deal devastating damage to those smaller cities!

Most of Wanxiang Realm's fighting strength were gathered at the various battlefields. Those cities did not have much defensive strength, completely helpless against invaders.

.....

Heavenly Moungain Cloud Gate was getting closer and closer. The thing Chu Mu worried about the most still happened.

On the mountain range, he could vaguely see small groups of factions advancing towards New Moon Land along Heavenly Mountain. Those small groups were not really strong, Chu Mu could easily crush them.

However, he did not have the time to care about them now. Cloud Gate was breached. Cloud Gate Elder, Ye Wansheng, Teng Lang and the others were trapped at the peak of Heavenly Mountain. Chu Mu had to rescue them first. If they died, New Moon Land would suffer a heavier blow.

After crossing through that long glacier valley, a building that looked like an ice stronghold erected at the end.

Currently, that ice stronghold was already half destroyed. Chu Mu could see a group of New Moon army in silver armor trapped at the edge of the stronghold.

Corpses strewn all over the ice stronghold. Most of them were New Moon Land members. Fresh blood dyed onto their silver armor, New Moon Land's flag fell in pools of blood. The frustrated expressions of those who died.....

They achieved victory at Eastern Wild Forest, but due to deploying too much fighting force in Eastern Wild Forest, Cloud Gate Stronghold suffered a devastating blow. This caused Chu Mu's heart to turn cold.

.....

“Kill them all. Damn, insolent trash!” ordered Divine Sect Master Official Xie Lian.

The New Moon Land army still defending the stronghold only numbered a few hundred. After exterminating these resistances and capturing a few commanders who guarded this stronghold, this battle would be over without any suspense just like the usual battles Divine Sect fought.

Discipline Palace members were known for being merciless in Divine Sect. They were not influenced by the absolute righteousness doctrine of Divine Sect, but turned into merciless slaughterers instead. There were countless examples of Divine Sect Discipline Palace slaughtering non-believers. This was probably due to their leader.

Discipline Palace's leader was Vice Sect Master Du Xian, a person whose heart gradually twisted from righteousness to madness. The Discipline Palace he led also gradually changed over the years. They became bloodthirsty and savage, they only obeyed orders and lost their benevolence.

The entire stronghold had more corpses from New Moon Land army. They stepped over those corpses and kept creating more corpses. Even the final bit of defenders were not spared.

Furthermore, Discipline Palace ignored the entrance of those small factions which were clearly acting like bandits. This meant Discipline Palace allowed those small factions to enter New Moon Land to reap profit!

“Attack!”

The order was issued. Techniques poured down towards a corner of the stronghold.

The over three hundred New Moon Land army and volunteer army stood there and helplessly waited for their death.

Boooom!

Energy exploded amongst the three hundred New Moon Land members. Everyone instantly splattered into pieces!

Blood and flesh splashed. Bones and limbs were blown into the air and flew far away.

Over three hundred people instantly turned into a pile of corpses!

“Hu~!”

Black and silver Devil Fire crossed. A devilish figure abruptly stood amongst the scattering corpses.....

Watching these defenders of New Moon Land falling in pieces around him, watching their blood pouring down like rain. Chu Mu felt his heart getting violently stabbed for arriving too late. It was so painful his flame-covered cheeks even twisted.

Just a little, it was just a little more. He would be able to arrive before these three hundred defenders before Discipline Palace's attack. He would be able to block this attack. He would be able to save their lives.....

However, it was just a little bit late. Blood and flesh splattered and the corpses were blasted into pieces.

Splat splat splat~!

Minced flesh and blood fell onto Chu Mu's body.

Chu Mu instantly turned into a bloody man. His hair, face, arms and body were dyed in red. A segment of a certain soldier's arm hung on his shoulder, as if an old friend was tagging him.

Chu Mu did not dodge and allowed these splattered corpses to fall onto his body.

"There's one still alive, continue attacking!" shouted Divine Sect Master Official Xie Lian.

The moment Xie Lian issued that order, the figure standing within the blood rain slowly raised his head. The pair of black and white pupils glared at these Divine Sect Discipline Palace members creepily and horrifyingly.

Huhuhuhuhu~!

Death was the source of all evil. There were countless frustrated souls wailing in this stronghold!

At that moment, as if those frustrated souls received a summoning. They began circling around a devilish figure, willingly turning into his strength, all for the sake of avenging them!
