

Soul Pets Bk2 1551

Chapter 1551: Evil Vessel

From the entire city, the evil aura from those lost lives began surging along with Chu Mu's rage.

An invisible army hovered above Chu Mu's head and formed into a huge black specter, adhering to Chu Mu.

Black Devil Fire began burning along this huge spectral body. Spectral fire filled the entire stronghold, causing the Divine Sect Discipline Palace members still remaining here sensing a terrifying chill.

Hollow whimpers echoed next to their ears, ghostly voices ranged from whispers to menacing roars filled their surroundings.

Immediately after that, the chilling Devil Fire soaked their bodies, making their souls suffer unbearable pain.

Insecurity, frustration, anxiety, within the chilling Devil Fire, Discipline Palace members saw the faces of ghosts. The ghosts bit towards them grudgingly!

Huhuhuhuhu~!

The evil aura was gathering towards this place. Chu Mu appeared like a ruler of death at the center, constantly swallowing all the grudge.

The black and silver Devil Fires on his body burned even more brightly!

“What’s that monster?”

“Such a strong evil aura!”

Those six hundred plus Discipline Palace members looked at Chu Mu in fear. In their eyes, this devil crawled out from underworld hell and should not exist in this world. Whoever made eye contact with those creepy pupils would feel stinging numbness!

The evil aura was getting denser and denser. The terrifying specter adhering to Chu Mu above his head was also getting bigger and bigger!

Suddenly, Chu Mu’s two pupils burned, flame almost shot out from his eye sockets!

He pressed down his palms. The horrifying Devil Fire Specter immediately opened up its sky-shrouding mantle and descended from the sky. Its menacing and creepy laughter was telling everyone that it would squash any soul it saw!

After the specter mantle pressed down, all the Discipline Palace members were swallowed into darkness. The sharp screeches from specters turned into countless soul snatching grudge flame ghosts and squeezed into the ears of every person and soul pet, directly entering their souls!

Bite, scratch, swallow, pierce, those specters carrying black Devil Fire began torturing the souls of the enemies. Their attacking methods were only out of instinct after their rage, pain and grudge reached the extremity. However, due to them being able to infiltrate into the enemy's soul directly, such instinctual attacks were sufficient to deal a fatal blow to all Discipline Palace members!

Despairing screams rang out. Such throat-tearing screams sounded extremely creepy. It was easy to imagine just how much pain these people suffered from the soul attacks!

The biggest specter remained shrouding above the enemies. This was also the manifestation of Chu Mu's Resentment Gathering.

Nightmare race's Resentment Gathering could absorb its own grudge to improve its strength. Meanwhile, the Black Nightmare bloodline could absorb evil aura and convert it to their own strength, as well as unleashing it to become fatal weapons!

Not leaving a single one out!

Chu Mu's eyes looked down at these Discipline Palace members and let their screams echo next to his ears.

They inflicted pain to those New Moon Palace members. Then, Chu Mu would make their souls pay ten times the price, let them experience the torture of death ten times!

Such tearing and biting were hundreds of times more painful than getting devoured. Spirit Emperor and Spirit Dominator level souls could not endure such torture.

When the fifth time those specters squeezed into their ears to devastate them, some of them already lost their minds and rammed into the claws of their comrades' soul pets.

They could not endure the sixth attack. They would rather suicide!

In an instant, over a hundred Discipline Palace members held their painful bodies and madly crashed into the sharp claws to end their lives.

Next, even more Discipline Palace members fell due to their minds breaking. Blood flowed out from their orifices and their eyes turned hollow as if their souls were eaten.

Not a single one out of the six hundred Divine Palace members escaped Chu Mu's Resentment Gathering specters. They and their soul pets fell to the ground one after another. Even though their physical bodies were unscathed, they lost even the qualification to become a ghost. Their souls were forcefully vanquished.

They fell to the ground like dried corpses. There was no injury, no blood, only pairs of hollowed pupils which looked even more horrifying than getting butchered.

The last one alive was that Divine Sect Master Official Xie Lian.

Spirit Immortal rank's soul allowed this Divine Sect Master Official Xie Lian to become the only person who endured ten times of spectral attacks.

However, when he saw over six hundred Dominator rank Discipline Palace members instantly became soulless corpses, he was terrified.

He rode on his soul pet and watched the approaching Chu Mu in fear.

What could be more terrifying than this devil who tortured the souls of people?

Xie Lian stuttered his words, “What..... What kind of monster are you!?”

While Xie Lian spoke, Chu Mu already arrived before him. His silver Devil Fire-covered right hand clamped onto Xie Lian’s neck and rose him up into mid-air. Meanwhile, the Divine Sect’s horned beast beneath his feet was ignored. He stood on its back and it did not even dare to move.

Silver Devil Fire burned along Chu Mu’s arm and quickly covered Xie Lian’s body.

Silver Devil Fire was extremely torturing. It would not directly burn the enemy’s soul, but slowly grill the soul, gradually reducing the soul and body into ash. This process was slow and cruel, but using it on the similarly cruel enemy was the most suitable.

A thick stench of charred corpse spread out. Unknowingly, Xie Lian already turned into a black corpse charcoal, not even leaving a human shape.

Not far away, those small factions rushing into New Moon Land’s territory stood there dumbfoundedly. They did not even dare to breathe heavily.

They witnessed the death of these six hundred Discipline Palace Dominators and Xie Lian. To them, Discipline Palace was already an insurmountable force of Divine Sect. Even those people were tortured to death by that devil, it would be a piece of cake for that devil to annihilate them.

Chu Mu threw Xie Lian’s corpse to one side. The evil aura exuding from him was so thick it made people feel this place was a graveyard hell.

“Regardless of which faction you are from, what you did to my New Moon Land, I will pay back several times more to you, your territories and your families!” Chu Mu used mental voice to transmit his voice to everyone.

Chu Mu was not a well-mannered person. He had his temper and bloodthirst flowing through his bones. He was already doing his best to suppress himself from staining his hands with blood from slaughtering. However, when facing those who deserved to die, Chu Mu just had to unleash this temper from his heart!

This mental voice covered the entire Heavenly Mountain, just like a devil which just descended into the world warning the mortals.

Many tiny factions trying to reap profit through this chance stopped their advancement.

Perhaps, they might be able to obtain some benefit from New Mon Land. However, on a certain day in future, when this terrifying devil descended into their territory and began a slaughter, could they really fend it off??

Some factions began to give up, some hesitated, some greedily continued to pass through the destroyed Cloud Gate Stronghold to enter New Moon Land.

Chu Mu hovered high in the sky and focused on those small factions which scurried into New Moon Land in countless groups.

Actually, Chu Mu was unable to stop them now. He could even imagine the violence those people would inflict on many cities.

Chu Mu was only one person. He could not protect everyone and could not stop these overly dispersed bandits.

Just like the moment Mu Qingyi went mad in killing, Chu Mu could not save these cities and prevent this cruelty from befalling New Moon Land. He could only offer sacrifices for those who would soon die, using the blood of these enemies and the blood of their territories!

Their badges, their flags, their households, factions and territories, Chu Mu would remember all of them!

.....

“Young master, you seem to have advanced,” Old Li’s voice called out.

Chu Mu had stalled on the current rank for a long time. In the Ocean Species battlefield, he was already constantly devouring the evil aura. Furthermore, he also obtained plenty of the vast amount of evil aura Yu Suo obtained from the destruction of Imprint Valley. His strength was lingering around the threshold between middle class Immortal rank and high class Immortal rank.

When the grudge and evil aura of this entire Cloud Gate Stronghold swarmed into Chu Mu’s body, his devil soul became even more powerful!

Chu Mu clenched his fists tightly. The evil black flame burned on his fist.

Perhaps, he was born to soak in endless slaughtering. Otherwise, why would he obtain greater power everytime he experienced cruel, heartbreaking deaths of others??

Nightmare's Resentment Gathering could only absorb the grudge generated by himself to improve its strength.

The reason those grudge souls would madly gather towards him was not because Chu Mu had a soul devouring ability like Little Hidden Dragon, but because Chu Mu's body was a huge evil vessel.

Just like White Three in the past, these people held onto an obsession before their deaths. They could not let it go even after their deaths.

What they could do was to offer their souls and leave everything to Chu Mu who was the terminal of evil!

Chu Mu did not rob their souls, he also did not possess such ability.

What he had was just the same rage and grudge these souls had. When he unleashed his emotion, all those souls who held the same obsession would be willing to turn into evil aura and become the weapon and power Chu Mu could use to kill the enemies!

Chapter 1552: High Class Immortal Rank's Power

Whenever Nightmare obtained power, it always carried some pain. If Chu Mu could easily accept it, it meant he would become an emotionless devil again.

Evil aura was evil intention, such avenging grudge was already planted in Chu Mu's heart.

These factions trampled New Moon Land today. In future, Chu Mu would bring these grudge souls to visit their territories!

Chu Mu clenched the Devil Fire in his hand tightly and focused on the higher place in Heavenly Mountain.

Ye Wansheng and the others were still trapped on Heavenly Mountain. Chu Mu could see them getting surrounded by many Discipline Palace members and an army formed by various small factions.

Chu Mu turned to look at those Silver Nightmares which were slower to arrive and calmly asked them, "Do you know what to do?"

White Nightmare Emperors nodded. They could already feel the rage in their King's heart.

"Don't let me see too many survivors," said Chu Mu.

After that, he turned into a black and silver meteor and flew towards the sky above Heavenly Mountain.

After Chu Mu left, all the Silver Nightmares scattered into this stronghold. Whenever they saw non-New Moon Land members, their mouth would crack open into a cruel smile.....

.....

Flying up Heavenly Mountain, Chu Mu saw a number of people standing on a mountain peak under the darkened sky.

There were only over thirty soul pets around the group of people. All of them were heavily injured and did not seem to be able to hold out for long.

Meanwhile, around them, there were over 10,000 Emperor rank enemies, including hundreds of Dominators and a few Immortals.

Chu Mu took a quick glance and immediately locked on to Qin Guang, the leader of this army.

Chu Mu encountered Qin Guang before in Imprint Valley. He was an underling of Divine Sect's Vice Sect Master Du Xian. Currently, that guy was confidently looking down on the New Moon Land members trapped on the mountain peak, as if trying to obtain something from them.

"Don't take me as a fool. The thing on this Heavenly Mountain must have taken away by you. Do you think I will believe that old man will really keep his promise with Tang Ang and only guard this gate?? If you hand it over quickly, I may spare your life," threatened Qin Guang using mental voice.

"Take it if you can!" Ye Wansheng's voice came from the mountain peak. One could sense the rage from his tone.

Chu Mu saw Ye Wansheng from far away. He used Displacement Specter and passed through Qin Guang's tight encirclement, appearing at the mountain peak.

The moment Ye Wansheng ended his words, Chu Mu already stood before him.

Ye Wansheng was dumbfounded for a moment and could not react.

Chu Mu was also looking at him. His eyes were bloodshot and appeared to almost explode. It was a terrifying sight.

Ye Wansheng did not suffer many injuries. His main soul pets were all next to him. However, an old man laid quietly next to Ye Wansheng.

The old man was covered by some snow. His white hair was disheveled. That lifeless face was hidden by the messy hair, making him look extremely depressed.....

The old man had lost all signs of life. There were no fatal wounds on his body, but his soul was in tatters. At his age, a tattered soul meant death.

There was a trace of potion at the corner of this old man's lips. Chu Mu was very familiar with the scent of this potion. It was the soul recovery potion Ye Qingzi concocted. The old man seemed to have taken in a large dose, potion even overflowed from his mouth.....

Usually, only the dead could not swallow anymore.

Seeing the raging Ye Wansheng with bloodshot eyes, Chu Mu could imagine him desperately trying to pour soul recovery potion into Cloud Gate Elder's mouth the moment he stopped breathing. However, it was futile.

Chu Mu did not interact much with Cloud Gate Elder. He only remembered this person was a strict and stern old man, but would always leave a chance for others.

After New Moon Land became independent, Ye Wansheng became his disciple. Other than accompanying him to Wupan Continent and Zhengming Main City, Ye Wansheng would receive Cloud Gate Elder's guidance most of the time. They were truly master and disciple.

"What is the item they want?" asked Chu Mu as he looked at Ye Wansheng.

Ye Wansheng's rage calmed down a little after seeing Chu Mu. He lowered his head and took a glance at the stiffening body of the old man and spoke, "I don't know. This geezer threw a spatial ring to me and just left like this!"

Ye Wansheng turned silent for a moment, then lowered his head again after taking a look at Chu Mu, "Sorry, I couldn't defend it."

Ye Wansheng knew very well the Eastern Wild Forest battlefield Chu Mu was in charge of had to face several times the number of enemies at Heavenly Mountain battlefield. Chu Mu had crossed over such a long distance to reinforce Heavenly Mountain. If anything happened at Eastern Wild Forest Stronghold because of this, then he would really become the sinner of New Moon Land.

"Hahaha, so there's really effortless profit. Little Chu Mu, still remember me?" Qin Guang's voice rang out. It was obvious that he saw Chu Mu falling into the encirclement.

Qin Guang was also a fake Monument Tear Individual, he could sense the Monument Tears on Chu Mu!

Qin Guang could not activate the Monument Tear's power himself, but Vice Sect Master Du knew how to use it. If he tributed these Monument Tears to Vice Sect Master Du, he would surely receive great benefits.

“Treat your injuries first, I will finish them off first,” said Chu Mu.

Saying so, Chu Mu was wrapped in Devil Fire.

The black and silver Devil Fire carried a terrifying evil aura and swept across with this mountain peak as center!

Two types of Devil Fires showed a clear separation, forming a huge Devil Fire Eight Trigram on this Heavenly Mountain!

Devil Fire Eight Trigram kept expanding, intimidatingly shrouded over countless mountains within Heavenly Mountain Range, covering the sky above those 10,000 subjugation alliance members.

Evil aura, grudge and rage transformed into a stampede storm and blew down from Devil Fire Eight Trigram, accompanied by two types of Devil Fire!

Huhuhuhuhu!

Just like the burning sun hanging above everyone’s head, intense fire spit rampaged within the turbulent air currents.

Soon, the densely packed soul pets and soul pet trainers flying in the sky were swallowed by the flames spewing out from Devil Fire Eight Trigram!

The remaining ten or so New Moon Land members were astonished after witnessing such a scene. They had never seen such a powerful technique before. It was so powerful it could envelop over 10,000 enemies and burn them to crisp.....

This army destroyed over half of the stronghold and forced all the New Moon Land members into a dire situation. This army was powerful and terrifying, but hated by them as the enemies killed almost all their comrades.

Right now, such a powerful enemy suddenly became insignificant ants. The enemies had no chance to struggle under the sweeping Devil Fire.

Devil Fire spread from this Abyss Beast to that Light Winged Bird, then to the next soul pet and soul pet trainer. Each time the flame swallowed and spread, they could hear despairing screams. That pain was carved deep into the soul, burning away the body and soul together!

Two different-colored lights reflected on Ye Wansheng's face. Ye Wansheng watched Chu Mu above the Devil Fire Eight Trigram who appeared like a devil king from another world in disbelief.

It had been a long time since Ye Wansheng last saw Chu Mu. His memory of Chu Mu's Half Devil Transformation still remained at Silver Half Devil state.

Even though he heard from others that Chu Mu was already a Dual Evil Half Devil, when he personally witnessed that absolute power which belittled all life, that astonishment wiped his head blank. His eyes only reflected such a powerful figure.

If he could also possess this power which could look down on an army of 10,000, this stronghold city would not be breached, Cloud Gate Elder would not die pitifully like this.

Even though they both walked out from the western border of New Moon Land and similarly pursued the path of a soul pet trainer, right now, Ye Wansheng felt the distance between him and that devil figure was getting longer and longer. The enemies which seemed undefeatable to him were annihilated like a joke in Chu Mu's hands..... This was probably the power of high class Immortal rank only human leaders possessed. However, he was still far away from high class Immortal rank.....

.....

This was Chu Mu's second time using high class Immortal rank's power. He received this power a little abruptly and a little heavily. Perhaps, he should have understood when he accepted the soul offering from White Nightmare Emperor. Black Nightmare's bloodline would only make him approach the peak of Nightmare. This process would definitely be accompanied by the evil grudge pouring into his mind from the deaths of other lives.

At the same time, this power was immense. This allowed Chu Mu to understand why those people would desire to reach high class Immortal rank so much.

Such a vast army was nothing before a high class Immortal. This was the absolute power that controlled all life forms. To live or to die was just a single thought from him.

After Devil Fire Eight Trigram swept past, the entire Heavenly Mountain became dead silent. There were no more death throes. The lingering flames waved in the air, reflecting in Qin Guang's eyes.

Qin Guang's expression was stiff and his pupils turned hollow. A moment ago, he led an army of 10,000. He was in high spirits and greatly confident. Now, there were only charred corpses and a few Divine Sect Master Officials who were in a similar state as him.

This was the power of high class Immortal rank! Why did he possess such power!?

Chapter 1553: Attacking Tianxia City

“I will keep your Monument Tear,” A devilish voice rang next to Qin Guang’s ears.

Qin Guang was startled. That Half Devil was clearly in front of him, why did the voice came from behind?

Gradually, the devilish figure in front scattered like smoke. There was nothing in front, but the chill behind him was getting closer and closer.

Qin Guang immediately ordered his soul pet to dodge.

The Light Beast he rode on transformed into a light beam and dashed a long distance away. Qin Guang turned around and was slightly relieved to see that Half Devil was not giving chase.

Qin Guang was definitely no match for high class Immortal rank, so he would not risk his life. His priority was to leave here first.

Chu Mu stood on the spot. He slowly retracted his burning hand claw, his palm holding a bloody item.

Chu Mu looked at the escaping Qin Guang from afar and revealed an evil smile, “Did you forget something?”

Saying so, Chu Mu slowly opened his palm. It was a bleeding heart!

This heart was still beating, it looked so fresh!

Qin Guang was taken aback and hurriedly used his hand to feel his chest.....

Blood seeped out from his clothes. The speed increased over time and eventually spurting out like a fountain.

Bam!

Chu Mu clenched his fist and Qin Guang's heart was crushed. Fresh blood scattered from the crushed heart.

Qin Guang stiffened there. Blood flowed out profusely from his mouth and could not be stopped.

With the heart getting crushed, there was no way for Qin Guang to survive.

His painfully twisted face carried disbelief and confusion even after death.

Such a bloody scene was witnessed by the other Divine Sect Master Officials. A deadly chill instantly spread throughout their bodies!

Qin Guang was the strongest person amongst them. Even he had his heart dug out, how could the rest of them resist?

It seemed that escaping was meaningless. What awaited them was only to let this devil reap their lives one by one.

Before a high class Immortal, pseudo Immortal and low class Immortal were nothing. This sensation of controlling the life and death of others caused Chu Mu's bloodthirstiness to grow.

The three Divine Sect Master Officials were not spared. All of them were burned to cinder by Chu Mu.

When the remaining New Moon Land members witnessed such a scene, they could not describe their astonishment.

After Chu Mu killed the last Immortal rank Master Official, they saw Chu Mu flying towards them. They sensed the rampaging and devilish feeling from Chu Mu's heart. Even their souls could not help but tremble, as if they would be burned by that Devil Fire any moment.

"He can rest in peace," Chu Mu landed in front of Ye Wansheng and watched Cloud Gate Elder.

Ye Wansheng recovered from his astonishment. Seeing the lifeless old man on the ground, he was heartbroken.

He and Ye Qingzi were orphans, they were brought up by Ying Rong. Ying Rong was their teacher, as well as their father, strict and kind.

Ying Rong passed away early. This already caused Ye Wansheng to be downcast.

When Cloud Gate Elder took him in as a disciple, Ye Wansheng was unwilling at first. However, after so many years of interaction, Ye Wansheng similarly respected this old man who had been taking care of him. Though he always showed an attitude as if he did not care about this old man.....

Cloud Gate Elder had many disciples. Ye Wansheng could not understand why this old man would give that item which seemed to be very important to him. He was so lazy, disrespectful, and did not cherish the precious cultivation resources.

Chu Mu tapped Ye Wansheng's shoulder and did not say anything further.

With Ye Wansheng's strength, if the stronghold was breached, he could have chosen to escape and retreat. Defending until the last breath was meaningless. He already did his best.

If the territory was lost, they could recover it. If the person died, nothing would be left.

Cloud Gate Elder chose to die fighting perhaps due to this old man who had a warrior's heart would not allow himself to die of old age.

He had guarded New Moon Land's Cloud Gate for several hundreds of years, but there were not many people in New Moon Land who knew him. Chu Mu did not know the reason he chose to guard Cloud Gate, but there must be something in New Moon Land and this Cloud Gate for him to protect. This was not something Chu Mu should comprehend, it would be Ye Wansheng who had to.

“How’s Eastern Wild Forest Stronghold?” Ye Wansheng reigned in his sadness. It was not the time for sentiments now.

“Subjugation alliance retreated, can be considered a victory,” said Chu Mu.

After wiping out almost half of the enemy, the Eastern Wild Forest battlefield was basically stabilized.

“That’s good. You’re more reliable than me as expected,” Ye Wansheng smiled in self depreciation.

“How many people are still alive?” asked Chu Mu.

Ye Wansheng took a glance at the wounded generals behind him and plainly spoke, “This should be all of us.”

Divine Sect Discipline Palace members had exceeded their estimation. They were completely on the passive side from the start.

Now, other than this batch of Discipline Palace members Qin Guang led, there were around half of the Dominator rank army already invading New Moon Land.

“Return to Wanxiang City first,” said Chu Mu as he looked at this group of people.

Ye Wansheng shook his head, “We still have fighting strength. They are the ones who sacrificed.”

Chu Mu took a glance at those generals behind Ye Wansheng. Although they were defeated, their eyes still burned with a fighting spirit.

Frustration. They were unwilling to leave the battlefield as injured personnels like this!

“Many factions entered the north of our New Moon Land. All of you return to Wanxiang City first. Send some people to defend the important cities in the northern region,” said Chu Mu.

“Yes, we were already breached once. There won’t be a second time!” said Teng Lang.

“My Nightmare subordinates will follow you.”

Cloud Gate was completely lost. Chu Mu could not stay in this wreckage and defend against waves after waves of factions swarming into New Moon Land all by himself. What he could do now was to defend the various cities in the northern region of New Moon Land.

However, most of the fighting force in New Moon Land were deployed to the various strongholds. The cities near Heavenly Mountain would definitely be severely damaged.

.....

Chu Mu did not stay in Heavenly Mountain Stronghold for too long. Heavenly Mountain was the most rural place in New Moon Land after all. Once anything happened to other parts of the territory, Chu Mu had to travel a long distance to reinforce.

Chu Mu did not return to Eastern Wild Forest Stronghold. He left Zhan Ye, Night and Little Hidden Dragon in Eastern Wild Forest Stronghold. With their strength, taking on those wounded Gate Master level people should not be a big problem.

He flew straight back to Wanxiang City. Wanxiang City was the true foundation of New Moon Land. The defense of this city did not get compromised at all because of this war. Chu Mu was actually worried about some people taking a detour from those strongholds and directly attacking New Moon Land's Main City Wanxiang City.

After returning to Wanxiang City, he could tell Wanxiang City was much more empty than before. There would always be soul pet trainers walking around the streets and a platoon of Immortal Ming Bird would always be patrolling the sky like the cloud protecting the sky.

Now, the defenders were deployed to various strongholds. The entire Wanxiang City was in a solemn and anxious state.

.....

The sun hung high up in the sky. Afternoon sunshine showered onto the plains, shining onto those insignificant wild flowers.

At the end of the plain, an army in dark blue armor lined up into a long row and rapidly advanced towards Tianxia City.

All the fighting forces of Tianxia City were sent to White Nightmare City, Eastern Wild Forest Stronghold and Windy Rain City. Other than normal citizens, there were hardly any soul pet trainers or city guards in the entire city.

Tianxia City was not the key location of this war. Furthermore, as it was located near the center of New Moon Land, it was almost impossible to be attacked. Hence, the defensive strength of the entire city was much weaker than before.

Such a weak defense caused this dark blue army to be elated. It seemed that their vice chief was talented in war tactics. He expected New Moon Land's inner cities would be weakened, so he purposely let their First Ship Legion land at New Moon Land's northern ocean which was almost impossible to be guarded. Then, they secretly entered the region of this Tianxia City directly along the Forbidden Region.

"Su Bu, Tianxia City's defense is almost insignificant. Do we take over the city directly or observe for a while?" reported the female navy officer.

"Take over directly," ordered Su Bu.

The blue army charged straight in. Following the wide road leading to Tianxia City, they advanced to Tianxia City's city gate directly.

All of the defense installments on Tianxia City were the oldest Realm City Defense. Such defense was like paper towards Dominators and Emperors.

Wupan Navy's First Ship Legion easily broke through the city gate. They dashed down the main street of Tianxia City and would be directly taking over the City Lord Mansion in Tianxia City.

“Halt!”

Suddenly, Su Bu raised his hand and ordered the navy to stop.

“Commander, why are we stopping? These city guards are nothing,” asked the military advisor confusedly.

Su Bu did not answer. He raised his head and focused on the grand golden statue erected on the main street.

“Su Bu, what’s wrong?” asked the female navy officer.

“This is their king?” asked Su Bu as he pointed at that statue.

The female navy officer raised her head and vaguely felt she had seen the person this statue modeled after somewhere before.....

Suddenly, the female navy officer remembered. Wasn’t that the person who fought the Seven Headed Hydra King alone at Exile Ocean back then??

“It’s..... It’s him!” exclaimed the female navy officer.

Su Bu's expression turned stern. He looked at this statue and recalled the scene of this man fighting that Seven Headed Hydra King. He suddenly lost the courage to continue invading Tianxia City.

Chapter 1554: The Surfacing Ocean Species Army

“Retreat.”

After a long time, Su Bu issued the order with a darkened expression.

Their First Ship Legion already stepped into the city. Furthermore, this was an empty city without any proper defense. Even though they could have taken it over immediately, why would they have to retreat?

All the navy members and officers could not comprehend Ocean Lord Commander Su Bu's decision.

“Did you not hear my order? I said retreat!” said Su Bu with a louder volume.

Although everyone was confused, they did not dare to disobey Su Bu's order.

The blue army travelled along the main street and retreated from the city.

On the main street, the scarce guards looked at this navy legion in confusion.

Why did they suddenly retreat after reaching their king's statue?

An army with their strength could easily take over Tianxia City. There was no reason for them to retreat.

Soon, the blue army retreated out of Tianxia City. They stood outside and looked at this old city. Those Wupan Navy officers were still unable to comprehend their commander's decision.

"Commander, if we don't accomplish our mission, vice chief will be very angry," said a general while watching the empty Tianxia City.

"Let him blow his fuse," said Su Bu.

Wupan Navy was also divided into different factions, not all members followed the direct orders and commands of Navy Chief and vice chief.

"This..... We at least need a reasonable explanation, commander?" The generals did not know what to say.

"Reasonable explanation? When we passed through Exile Ocean, Seven Headed Hydra King appeared in front of us. If not for this New Moon Land's King especially luring its attacks away, how many of us do you think can survive from that Ninth Ocean's Supreme Ruler??" snorted Su Bu.

Everyone was dumbfounded. They remembered the scene back in Exile Ocean. They even saw Seven Headed Hydra King getting severely damaged. They never expected the individual who wounded Seven Headed Hydra King was New Moon Land's King!

That just proved that the king of this private territory was already on the same level as their Navy Chief and vice chief!

Why did such an astonishingly powerful individual appear in this tiny New Moon Land?

“Is there any other question?” said Su Bu.

“But we should follow orders and not put our personal feelings.....” said the military advisor.

Su Bu took a glance at the military advisor. He did not like meaningless war, and did not like to use the benevolence of others as a chip to invade their territory even more.

If not for that individual purposely luring Seven Headed Hydra King away, they might not even be able to land on New Moon Land, let alone invading the city.

“We are Wupan Navy. If we still invade the territory of our benefactor after he saved us, how are we any different from those pirates wandering around the coastline!?”

“We are navies, not pirates!” said Su Bu with a stern tone.

Su Bu’s words made the navy members who were getting influence by their invasive mindset clear up a little.

Invading a territory without a proper reason already went against the morality of their Wupan Navy.

Furthermore, invading the territory of the life savior could only be done by the inhumane pirates!”

They joined Wupan Navy because they hated pirates, and some even had their families killed by pirates.....

They often travelled in ocean regions and clearly knew New Moon Land was a clean land. There was no reason to be attacked. The only reason would be someone after New Moon Land’s wealth.

The army slowly retreated along the original path.

The city guards of Tianxia City stood on the city walls and watched this somewhat funny scene and felt even more confused.

“Go, inform Wanxiang City of this situation,” said Tianxia City’s City Guard General Shang Heng.

“Yes.”

.....

.....

Wanxiang City still looked a little strict and solemn. The usual prosperity was nowhere to be seen.

There were not many city guards, but every team was especially cautious, not making any mistake.

Chu Mu flew to Wanxiang City from the sky and landed in New Moon Palace.

Within the palace, the letter from Tianxia City coincidentally just arrived. It described the situation at Tianxia City.

There was a spatial formation set up between Tianxia City and Wanxiang City. Some information could be transmitted between the two cities.

“What’s wrong?” asked Chu Mu as he looked at Liu Binglan after entering the palace.

“A navy army suddenly appeared at Tianxia City,” said Liu Binglan with a frown.

“How did they appear at Tianxia City?” asked Chu Mu.

“Probably from the northern ocean, and they must have acted long ago,” said Liu Binglan.

“How’s the situation now?” asked Chu Mu.

Tianxia City was the foundation of the entire New Moon Land. Once occupied, it would bring a huge loss to New Moon Land. It seemed that he had to take a trip to Tianxia City.

“They retreated,” said Liu Binglan.

“Retreated?”

“Yes, they stopped their advancement before the king’s statue, then suddenly retreated.”

“Which navy legion?” asked Chu Mu.

“Wupan Navy’s First Ship Legion.”

Chu Mu had long forgotten about helping Wupan Navy’s First Ship Legion. For safety’s sake, Chu Mu still told Liu Binglan to deploy some Tianxia Realm’s experts to scout the movement of this navy army which barged into New Moon Land’s center.

“There’s news from Windy Rain City. Wupan Navy’s main force is advancing,” said Liu Binglan.

“Alright, I will take a look,” Chu Mu was a little worried.

He turned into a dark light and immediately disappeared from the hall and from the city.

Watching Chu Mu running around all over the place, Liu Binglan felt bad. He had never asked for anything from New Moon Land, but New Moon Land always required his protection. He shouldered too much all by himself.

.....

.....

On the ink-colored ocean, fleets of navy ships cruised along the ocean surface.

The masts captured the wind and the ocean waves were cut open. There was also a group of military seagulls travelling along with the fleets. They neatly moved in formation and advanced towards New Moon Land's Windy Rain City.

An enormous ship travelled in front of all ships. Dark brown Ocean Lord level armor covered the entire ship. The front half was like an ocean monster opening its mouth filled with sharp teeth, trying to swallow everything in front.

If this ship cruised straight into the port, it might flatten a small city.

On the deck of this enormous ship, a middle-aged man wearing a windcoat faced the approaching wind and held a letter delivered by the military seagull.

“Eastern Wild Forest battlefield..... they actually retreated??” Navy vice chief Tie Jun sneered, “A bunch of trash.”

Eastern Wild Forest battlefield had a total of five factions. Their fighting force was at least double the size of New Moon Land, and their average strength should be above New Moon Land's armies. Yet they actually failed after suffering a heavy loss. He was not sure whether to feel sad or funny about it.

"Vice chief, First Ship Legion is currently retreating from New Moon Land's territory," said an officer with a greeting.

Vice chief Tie Jun's gaze turned cold, "What happened? They encountered hindrance?"

"No, Su Bu ordered the retreat."

"He dares!" Tie Jun's rage swelled up.

"Vice chief, something strange happened in the ocean region ahead," Another military seagull landed and reported to vice chief Tie Jun.

"Don't come and ask me for every tiny detail. Don't you know how to eliminate the strangeness yourself?" said Tie Jun a little irritably.

"We can't eliminate....." the military seagull lowered its head.

"Trash," scolded Tie Jun again.

The fleets continued advancing. The ocean region in front suddenly became very calm.

At the same time, this calm ocean region gave off a chilling feeling. The waves splashing up was bone-chilling.

This coldness was getting more and more intense. Wupan Navy noticed that the ocean region in front no longer showed any ripples, it was completely still. A thick layer of ice covered the ocean surface!

Ocean freezing was not really a rare phenomenon. In the ocean region further south from Wupan Continent, there was a large ice ocean.

However, this was Dark Sky Ocean, an ocean region with violent ocean currents. It should not freeze even in winter.

“Could it be New Moon Land’s trick?” Vice chief Tie Jun mumbled to himself.

The frozen layer was very thick. If the fleets wanted to pass through it, their bow had to break this solid ice layer. However, this process would undoubtedly damage their ships. After all, not all ships were as solid as this enormous ship vice chief was taking.

“Summon soul pets and destroy this ice layer!” ordered vice chief Tie Jun.

.....

“Vice chief, creatures are swimming under the ice layer.”

.....

“Vice chief, the broken ice layer is immediately frozen again!”

“Vice chief, Third Ship Legion’s No. 3 Navy army is attacked by underwater creatures.”

“From the flank, over a hundred huge tornadoes are sweeping towards our Fourth Ship Legion and Second Ship Legion.”

The originally calm ocean suddenly rampaged. Waves after waves of terrifying ocean storms swept across, catching Wupan Navy off guard!

However, everything arrived quickly and disappeared quickly.

The fleets swayed and the ocean surface was littered with shipwrecks after calming down.....

The neat formation was messed up. There was no heavy loss, but this sudden attack they received caused all Wupan Navy members to be confused about what just happened.

Then, everything returned to a creepy calmness.

Chapter 1555: The Mysteriously Annihilated Seventh Ship Legion

“Maintain formation, continue advancing!”

Wupan Navy's color was blue, covering a large area of this ocean region.

The affected ships were mostly on the edges of this entire Navy fleet. Some ships were sunk, some crews fell into the ocean, blood slowly spread out in the water.

After calculating the death toll, they realized not many people went missing.

This was clearly an attack by New Moon Land in Dark Sky Ocean. To vice chief Tie Jun, this level of harassment could not affect Wupan Navy.

The navy crews summoned their soul pets, most possessing fire type ability.

Raging flame spread out over the ocean surface, melting the thick frozen ocean surface in front.

The ice continued to melt, but the melted ice would freeze up again. Wupan Navy expected this and accelerated after the ice melted to prevent the ocean from freezing again and hinder their advancement.

The obstruction from the ice layer caused the entire fleet's formation to turn into a narrow straight line. The navy crews at the front would break the ice, the fleet behind would follow up and cruise along the cleared up path.

Wupan Navy mobilized over 10,000 elites this time. This was already close to one third of the five faction alliance.

One faction already mobilized such a large fleet, it was clear to see the determination Wupan Navy showed to occupy New Moon Land.

10,000 elites would take up a minimum of about 1,000 ships. When they travelled along the cleared path, this Navy fleet turned into a long straight row.

When all the ships entered the frozen ocean region, the frozen ocean region remained especially silent.

By right, this place was already very close to Windy Rain City. New Moon Land should have at least set up scouts and watchtowers above the ocean. However, Wupan Navy did not see anything when they passed through. There was only the frozen ocean region.

Crack crack~!

The broken ice rapidly froze again. The few navy admirals had a bad feeling after seeing such a bizarre phenomenon.

This ocean region getting frozen like that was too abnormal.

Pupupu~!

Pairs of white wings appeared in the sky. Those were military seagull scouts.

Currently, these military seagulls were flying towards the various flagships. They were clearly reporting the situation to every legion commander. Red beak military seagulls represented a dangerous situation.....

Something happened again!

“Reporting, Seventh Ship Legion is trapped by ice!”

“Reporting, Seventh Ship Legion suffered attack from underwater. Thirty ships were sunk.”

The information was transmitted to every legion commander, and was also transmitted to vice chief Tie Jun.

Tie Jun’s expression was dark. His eyes glared the Wupan Navy’s tactician at the side.

The tactician seemed to be more rationale and calmer. He raised his head and took a glance at another seagull reporting the situation, then plainly spoke to vice chief Tie Jun, “If I’m not wrong, this report should be Seventh Ship Legion completely cut off by the frozen ocean.”

Vice chief Tie Jun did not speak and looked at the red beak seagull.

That military seagull landed before then and half knelt, “Reporting, Seventh Ship Legion is completely cut off and suffered unknown attacks. Please send reinforcement.”

Tie Jun took a glance at the tactician and waved his hand, telling that military seagull to continue gathering information.

“Our enemy is smart. By freezing this entire ocean, they guessed we will be lining up into a long row to pass through. Hence, when our main force travelled a long distance, they suddenly cut off our tail,” said the tactician.

When the fleet was lined up into a row, it also meant the entire fleet’s cohesion was weak. Furthermore, it was extremely difficult to steer in this frozen ocean region. Once the tail received isolation and ambush, their main force would have a difficult time trying to reinforce.

“Leave Sixth Ship Legion behind, the other Ship Legions continue advancing. They are purposely stalling us in this ocean region,” said the tactician.

Vice chief Tie Jun nodded and issued the order suggested by the tactician.

“The fleet should take a square formation. Even if the ice will severely damage the ship, we have to maintain this formation. Otherwise, we will be cut off by them using the same method. It’s not a big problem if the ships get damaged, the resources in that territory will be more than enough to repair the damages, we can even build an even grander fleet, isn’t that right?” said the tactician.

The tactician’s suggestion was transmitted and Wupan Navy immediately changed their formation.

The ice was crushed. The fleet broke through the ice and kept pushing the ice aside.

The frozen ocean was not simply covered in a layer of ice. The ice surface also contained many sharp ice spikes. The fleet ramming in like that resulted in ships getting damaged non-stop.....

However, just like what the tactician said, this loss was nothing. Everything could be recovered after landing.

However, the tactician was very curious just how New Moon Land managed to achieve this. How did they freeze an entire ocean region's surface? Could it be that New Moon Land possessed an extremely large ice property soul pet army?

"I wonder how much time and effort they spent to freeze this ocean region," said the tactician Ning An.

"Freezing an ocean region was a huge task, especially when creating a frozen ocean region that could obstruct a fleet of 10,000 like Wupan Navy. Tactician Ning An was certain New Moon Land had spent a huge amount of resources to achieve this.

However, so what if they could freeze the ocean region? It only hindered their advancement a little. A little harassment would not affect the overall situation. It made Ning An feel New Moon Land's action was just futile.

Seventh Ship Legion and Sixth Ship Legion remained in the frozen ocean. There were about 20,000 people.

The remaining 80,000 navy crews took a square formation and broke apart the frozen ocean, advancing towards New Moon Land's Windy Rain City.

“Actually, it’s a little redundant to call me here this time. This war is simply advancing our army to a place and then overwhelm them,” The tactician looked at the coastline in the distance and calmly smiled.

Seeing the coastline, vice chief’s eyes also brightened. New Moon Land was a treasure chest. If they discovered it sooner, Tie Jun would have sent their fleet to occupy this much earlier. They would not wait until the other factions come to snatch a share.

Pupupupu~!

In the sky, the military seagull appeared again.

This time, it was a blue beak military seagull. This military seagull was one rank higher than red beak seagull. Wupan Navy would only use blue beak seagull to transmit messages when encountering great danger!

Vice chief Tie Jun and tactician Ning An frowned after seeing blue beak seagull.

“Reporting, Seventh Ship Legion was annihilated, Sixth Ship Legion is retreating, requesting first level reinforcement!”

Vice chief Tie Jun, tactician Ning An and the officers behind them were dumbfounded after hearing this news. They could not believe their ears.

“What! Repeat that!” roared vice chief Tie Jun furiously.

“Seventh Ship Legion’s No.1 Navy army, No. 3 Navy army, No. 4 Navy army..... completely annihilated!” Blue beak seagull lowered its head and repeated the news.

Completely annihilated!

This time, Seventh Ship Legion sent five navy armies. There were a total of 10,000 crews. Amongst them were 500 Dominators and 7 Immortals!

This was a fighting force that could roam freely in Wupan Ocean Region. They were actually annihilated in such a short time!

Vice chief Tie Jun suddenly moved forward and pulled up the kneeling military seagull, as if he was about to tear this military seagull apart!

“Vice chief, calm down,” Tactician Ning An walked up and persuaded the furious vice chief Tie Jun.

Tie Jun was Wupan Navy’s vice chief, as well as a short-tempered person. There were countless Wupan navy crews dying in his hands.

“Military seagull, describe the details,” Tactician Ning An’s elegant calmness already disappeared.

10,000 navy crews were annihilated mysteriously. This was definitely never heard of before. Ning An did not expect New Moon Land to be so capable.

That military seagull displayed the quality of a soldier and reported with calmness, “When Seventh Ship Legion cruised forward, the freezing speed of the ice layer suddenly accelerated. They could no longer advance. Seventh Ship Legion crews summoned their soul pets to break the ice. However, the breaking speed could not catch up to the freezing speed. As a result, the entire fleet was trapped on the ocean.”

“When the other Ship Legions continued to advance and left, every ship immediately suffered crashes from underwater creatures.....”

“What creatures are those?” interrupted Ning An.

“Ice Demon Sharks!” answered the military seagull.

“Ice Demon Sharks..... Ice Demon Sharks, that’s impossible. How can there be Ice Demon Sharks in this Dark Sky Ocean??” questioned a general behind the tactician.

They often travelled the oceans, so they knew very well which creatures inhabited which ocean regions.

Ice Demon Shark lived in the center of Eternal Ocean East Ocean. They almost never left their ocean region. This Dark Sky Ocean was very far away from the center of East Ocean. How could they appear here? This was illogical!

“Could it be New Moon Land’s Ice Demon Shark soul pet army?” asked a general.

That military seagull answered, “We never saw any soul pet trainer, not a single one.”

Tactician Ning An frowned deeply. If those were Ice Demon Sharks, it could explain how this ocean region was frozen.

However, why would there be Ice Demon Sharks here? Furthermore, they were clearly not the soul pets of others. Could it be that Dark Sky Ocean was currently Ice Demon Shark's territory? Their Wupan Navy unfortunately cruised through their territory and was attacked by them?

Ning An was an intelligent tactician. He could see through many things immediately.

However, Ning An could not comprehend the annihilation incident this time no matter how he thought about it.

Chapter 1556: Immortal Seventh Rank Tsunami

"Military Advisor." Vice Head Tie Jun looked at Strategy Military Advisor Ning An. He was waiting for him to make a decision.

"Stop our advance. Have the fifth and fourth divisions aid the sixth division." Strategy Military Advisor Ning An quickly came to a decision.

They weren't far from New Moon Land's shoreline, but they had no choice but to stop the entire navy. If they continued to advance, the sixth division would meet the same end as the seventh division.

Their army had a hundred thousand. They could afford to lose a legion of ten thousand, but couldn't lose another legion of ten thousand.

It required a lot of work to turn around in the ocean because there was a thick layers of ice forming behind them. By trying to smash apart the ice, it would inevitably deal severe damage to their ships.

When the Military Advisor decided to stop their advance, the ocean ahead of them suddenly surged up.

As if the ocean was being lifted by someone, the water formed glaciers, ice mountains and icy rivers that stood between New Moon Land's shoreline and Wupan Navy.

The Wupan Navy scouts that stayed in the ocean watched this enormous icy world suddenly form in the ocean with disbelief.

How many ice type soul pet trainers were required to create such an icy world!

Ice was the natural bane of ships. Although Wupan Navy was fierce and bold, in the face of such thick ice, would they really dare charge head on?

Military Advisor An Ning stood on the deck of his ship. He faced the biting wind that blew towards him. His expression turned serious.

The annihilation of the seventh division was his fault. He had underestimated New Moon Land's powers in the ocean.

He absolutely wouldn't commit a second mistake like this that had dealt such heavy losses to Wupan Navy. Moreover, he still had to deal back those losses onto the enemy!

But an enormous glacier had appeared in front of him. This meant that New Moon Land had a special ice type army that was extremely strong. It was so strong that it could freeze the ocean, could devour the ten thousand members of the seventh division in a short span of time, and could form an enormous wall of ice in the ocean that blocked their army from advancing.

“Report. The sixth division has successfully returned to the rest of the army. The Ice Devil Shark species has returned to the deep ocean and has stopped their attacks.” a scout reported.

Tie Jun glanced at the immortal rank officers behind him. He calmly said: “They have killed ten thousand of our army members. We must return the favor 100 fold. You know what to do, right?”

There were a total of ten men wearing dark blue officer’s uniforms behind Tie Jun. The moment Tie Jun gave the order, the ten officers chanted an incantation, summoning their soul pets.

Large, sharp-bladed wings. Enormous feet that could step though the air. Shadows that flew through the sky at light speed. Large bodies that charged across the ice.

The ten officers rode on their soul pets towards the glacier obstructing the path ahead of them.

“All members advance!!”

The flag that gave the order danced in the biting, cold, wind as it burned with a deep blue fire.

The burning flag represented bold and fearless offensive. When it flew into the sky, all of Wupan Navy’s boats became monsters that rushed across the ocean glacier!

“Hong hong hong hong!!!!!!!”

After a wave of violent shaking, the boundless icy land in the ocean suddenly began to sustain countless, enormous cracks. In between these cracks, a powerful energy surged up and shattered the thick ice into scattered pieces.

The chaotic energy in the obstructing ice destroyed everything. The icy mountains collapsed and the icy land was crushed to pieces. The ten immortal rank navy officers used their absolute strength to shatter the icy world, opening a path for Wupan Navy’s offensive.

A wave of wind filled energy swept through the icy area. In the wind were countless bits of ice that smashed into the navy’s ships.

The navy was a bulldozer that showed no signs of stopping. More and more navy members flew in front of the ships and ordered their soul pets to attack the ice!

In an instant, the heavens were shaking and ground was trembling. No matter how tough the ice was, it was incapable of stopping such a fierce offensive. The enormous ice world began to collapse.

“We’ve removed the obstacles!!”

A navy commander flew back to the main ship from the ice and gave a report.

Military Advisor Ning An sneered and pointed ahead: “Are you sure you’ve removed everything?”

The commander of the fourth division turned around and suddenly discovered that in the tumultuous water, another huge amount of cold air had appeared. The ice was indeed being continuously broken and destroyed. However, at the same time, new icy mountains were rising out of the water and blocking Wupan Navy’s advancing path.

“We shall continue to remove the obstacles!” the commander flew into the sky once more towards the continuously forming ice.

Loud rumbling sounds rang in everyone’s ears as icy shards that filled the sky streaked in front of everyone’s eyes.

The simultaneous exertion of destructive force by ten immortal rank soul pet trainers as well as the front line navy legion of elemental attacks was capable of turning over an ocean region.

However, the ice didn’t stop forming. It was as if the icy barricade was incapable of being eliminated. Even after destroying it, it would reform...

“Let me see how capable these Ice Devil Sharks are!” Military Advisor Ning An said in a deep and cold voice.

The signal flag in his hands was raised up again and quickly flew into the icy sky. Every Wupan Navy member could see that it became a deep blue colored wing pattern high up in the sky.

Wings of freedom. This was Wupan Navy’s aerial force.

This flag was an order to the legion flying above the ocean.

On the deck of the mass of enormous ships, dark blue colored feathers could be found everywhere. All of the Deep Blue Ocean Eagles raised their heads and looked at the signal flag in the sky.

When the flag reached the highest point in the sky and began to drop back down, all of the deep blue colored wings instantly expanded on the ship decks.

“Pu pu pu pu pu!!!!!!”

Numerous wings flew into the turbid skies. It was countless deep blue feathers taking flight. These short bodies carried coldness and killing intent as they reached the sky.

When the signal flag landed in the water, eagle legion of freedom was gathered into a square formation above Wupan Navy.

“Attack the ice!” the Military Advisor ordered.

The moment he finished speaking, the blue colored wings transformed into blue lines that shot towards the obstructing ice.

Blue light pillars shot out from the mouths of these Deep Blue Ocean Eagles. The pillar shaped energy smashed into the ocean, instantly obliterating these frozen water into nothingness.

“Advance!!” Military Advisor Ning An gave another order.

The army that had come to a brief halt once more summoned torrential waves as they charged towards the shattered icy world.

This time, the ice wasn't able to stop their advance. Like a hot knife through butter, the ships pushed straight through the icy pieces on the water.

“Hua!!!”

“Hua!!!!!!”

When they reached the waters with pieces of shattered ice, the ocean water roared once again. Numerous strange waves had appeared.

In the cold fog, it was possible to faintly see creatures with protruding edges jumping in the icy water.

Underneath the icy water, black figures that were neither big nor small rapidly swam. A closer look would show that wherever these black figures swam under, the water would be frozen into ice.

“Are these Ice Devil Sharks finally surfacing?” coldly laughed Tie Jun.

Military Advisor Ning An watched the rapidly moving figures under water and looked like he was in deep thought.

“That’s not right. They seem to be fleeing.” said Military Advisor Ning An.

The Ice Devil Sharks that had created the obstructing ice didn’t jump out after being attacked. They were all swimming into even greater depths of the ocean from the glaciers, fleeing in different directions. They had no intentions of clashing with Wupan Navy.

“Why are they retreating?” Military Advisor found another problem.

These Ice Devil Sharks were all retreating behind them. Did they want to launch another sneak attack from behind Wupan Navy? But Wupan Navy formed a square formation and there wouldn’t be a lone and straggling division that could be attacked by them.

“Military Advisor, should we go underwater to hunt them down?” asked an officer.

Military Advisor An Ning shook his head. The Ice Devil Sharks had extremely terrifying fighting strength underwater. If they fought with them underwater, who knew how many losses Wupan Navy would suffer.

“That’s strange, why is the water flowing so smoothly?” Military Advisor Ning An suddenly noticed something strange.

The ocean had tides and undercurrents, but smooth currents or countercurrents would rarely appear.

If all of the ocean water was flowing in a certain direction, this meant that there was something awaiting them wherever the ocean water was flowing...

“How long has the water been flowing in this direction?” Military Advisor Ning An asked a subordinate behind him.

“When we reached Dark Sky Ocean, the water was flowing in this direction.”

“Idiot! Did you not research the Dark Sky Ocean’s tide at this time of year?!” Military Advisor Ning An immediately berated.

This navy members was confused. What effect would the water flowing in this direction have?

At the same time, Ning An’s expression changed as he abruptly threw up a full army defense signal flag into the sky.

When the defensive signal flag rached the sky, it formed a defensive pattern. This made all of the navy divisions very confused. Weren’t they just given a flag to attack? Why did it suddenly become a defensive flag?

“Military Advisor, what’s the matter?” Vice Leader Tie Jun confusedly asked.

“Did you not notice?” Military Advisor Ning An coldly swept his eyes over the cold fog ahead.

Vice Leader Tie Jun hastily used soul remembrance to explore ahead. His soul remembrance passed the shattered ice world and reached New Moon Land's shoreline.

However, he shockingly discovered that an enormous wall was on the New Moon Land's shoreline.

This wall was completely formed by water and it reached the clouds. It was emitting thunderous noises as it surged towards Wupan Navy!

"Immortal Seventh Rank Tsunami!!" Tie Jun's face turned ashen as he looked with disbelief ahead.

An immortal seventh rank tsunami was a genuine disaster. Even Wupan Navy's ships would be drowned!

Chapter 1557: Large Turtle Beast, Bi Xi

A white tsunami had appeared in the fog in front. The height of the tsunami reached the clouds and the deep blue water became the horizon.

The feeling was as if the sky was terrifyingly turning over. There was nowhere to run and nowhere to hide!

Wupan Navy had been established in the ocean for countless years, but this was the first time they had seen such a huge tsunami.

An immortal seventh rank tsunami was capable of destroying everything.

Military Adviser Ning An finally realized why the Ice Devil Sharks had swum backward, why the ocean water's currents had been flowing north, and why the clouds in the sky were moving so strangely.

It was a disastrous tsunami, and all of these were omens of a disastrous tsunami. Unfortunately, he wasn't able to notice it.

"All captains listen to my order. Adopt a locked ship formation!"

"All captains listen to my order. Delay the crushing pace of the tsunami."

"All captains listen to my order. Adopt a defensive formation and set up barriers on the ocean!"

Military Adviser Ning gave three orders in one breath. Three different signal flags were thrown into the air.

Before the tsunami had even arrived, the mist was already in their faces. The wanton nature and wild howl of the tsunami caused Wupan Navy to tremble in its wake.

In front of this enormous tsunami, a single person, a single boat or a single legion was incomparably small!

"Vice chieftain." Military Adviser looked at the adjacent Vice Chieftain Tie Jun.

Tie Jun's eyes were fixated on the enormous oncoming tsunami. His gaze had gradually turned from a violent anger to an icy cold.

He slowly chanted an incantation. The water under the enormous ship suddenly began to stir.

A soul pact design appeared on the water as water pillars shot out around the pattern.

The surging water became increasingly violent. A head that resembled both a turtle's and a snake's aggressively shot out of the ocean water design.

Immediately after, all of the water began to spill in all directions. From underneath the flowing water, it was possible to see a stone island-like body surfacing.

It was an enormous shell about the size of a human city plaza. If it were floating on top of the water, it resembled a small island.

However, this creature wasn't fully a turtle species creature. It possessed extremely robust and developed limbs. It could stand up like a wild beast.

Ocean waves were swept up as the creature carrying an enormous shell on its back stood up like a giant in front of Wupan Navy's ships. It was both domineering and imposing!

All Wupan Navy members recognized this creature. It was Wupan Navy's Vice Chieftain Tie Jun's soul pet - Bixi.

Bixi was a special ocean species. It had an immortal rank bloodline, a large snakehead, a devil turtle shell and an ocean beast's body. It was one of the few high bloodline leader rank creatures in the ocean.

Tie Jun was able to steadily maintain his Wupan Navy Vice Chieftain position because of Bi Xi. Nobody in Wupan Navy dared oppose him.

And right now, Tie Jun had summoned this strongest creature in front of the ships. Clearly, it was going to face the immortal seventh rank tsunami head on!

"I'll leave it to you." Military Adviser Ning An said to Vice Chieftain Tie Jun.

Vice Chieftain didn't resemble a ruler. Instead, he was like an undefeatable general that could defeat everything obstructing Wupan Navy's path.

Vice Chieftain Tie Jun jumped onto Giant Tortoise Bixi's shoulder. While every one of the navy's generals were retreating in fear like lowly insects, he was staring at the surging sea and faced the terrifying immortal seventh rank tsunami, alone.

Such fear left the Wupan Navy members in shock.

Chieftain and Vice Chieftain Tie Jun were probably the only ones in Wupan Navy that dared face a deadly immortal seven rank tsunami head on!

The enormous tsunami grew closer and closer. The air was filled with the stench of salty water and thick destruction.

Many navy members' visions turned blurry. They were only able to see Vice Chieftain Tie Jun and his soul pet, Giant Tortoise Bixi, still standing in front of the navy and of course the terrifying tsunami that was so tall, its top couldn't be seen.

The top of the tsunami was like a black horizon that enveloped Wupan Navy. Like a deadly wave, it began to swallow them.

The 90 thousand Wupan Navy members were no longer able to hear anything. The world had suddenly become silent. Their heads were filled with the scene of the oncoming tsunami. They weren't able to think, found it hard to breathe and their hearts were about to stop...

This was an immortal seventh rank tsunami!

In front of this destructive force, having a higher cultivation was of no meaning. Life or death was no longer in their hands.

.....

Finally, the tsunami swallowed Giant Tortoise Bixi.

Then, it swallowed the ocean king rank ships.

Afterward, Wupan Navy's first division was swallowed.

Finally, the entire navy was swallowed.

All of the ships had been constructed by wood type soul pets and vine type soul pets. These were ships that were sturdy on water.

However, they were only sturdy enough to ensure the center ships weren't broken up. When the tsunami arrived, the enormous ships were scattered and smashed.

.....

At the top of Windy Rain City's ocean stronghold city tower.

Chu Mu, Sang Ying, and Lan Qie were standing under the flag. They stared at the immortal seventh rank tsunami that had swallowed up Wupan Navy.

Sang Ying was the most shocked.

An immortal seventh rank tsunami would only appear in the depths of the ocean. If an immortal seventh rank tsunami were to be created in Dark Sky Ocean, the entire surface of the ocean would significantly sink.

What he found even harder to believe was the Mermaid Princess Lan Qie was able to create an immortal rank seventh rank tsunami by herself. Weren't the Ocean species too terrifying? If this tsunami had struck land, he didn't know how many cities would be swallowed up.

Mermaid Princess Lan Qie maintained a warm smile. Her two different eyes exuded the charm of a different species as she looked at Chu Mu. She said: “What do you think of a present like this? And you were still worried about Windy Rain City’s defense?”

Chu Mu’s face went red. It wasn’t that he didn’t believe in Mermaid Princess Lan Qie’s strength. There were many things that he wanted to personally see happen since any unexpected mishap would pay a huge price.

“These types of tsunamis aren’t very effective on Ocean species that can dive into the deep ocean. But they’re rather effective on humans who rely on boats to traverse the ocean.” continued Mermaid Princess Lan Qie.

Sang Ying emphatically nodded his head. He didn’t understand how Chu Mu, this god, had struck up a relationship with the Ocean species. Moreover, he had even gotten to know Eastern Ocean Princess who was capable of controlling the ocean.

A portion of the ocean was already under their control. Was there any need to continue the fight on the ocean?

Wupan Navy was most familiar with naval fights and they had a rich history of fights in the ocean. But could they beat the Ocean species which were innately ocean creatures?

Humans were land creatures and even with water type soul pets, were never able to take over the ocean. The true rulers of the ocean were the Ocean species. Sang Ying at least understood this undisputable reality.

As the immortal seventh rank tsunami grew further and further into the distance, the tumultuous ocean was scattered with countless boat wrecks. There were also numerous Wupan Navy corpses that weren’t even able to summon soul pets in time and had lost their lives in the tsunami.

The Ice Devil Sharks ostensibly didn't want to let these filthy invaders sink in the ocean. They arranged the corpses in rows on the top of the ocean's surface.

A disaster would always be accompanied by a bloody aftermath.

After a tsunami, there wasn't any blood flowing or chopped off limbs or heads. Instead, there were intact and grey corpses.

Human corpses, soul pet corpses and ship corpses. They were scattered on top of the ocean. Some were close and some were far apart. Some were left in the wake of the tsunami while for others, it was unclear where they went.

It was indisputable that Wupan Navy, despite having adopted defensive measures, had suffered enormous losses from the tsunami.

On the corpse littered ocean, the water began to mysteriously shake.

A small island-like body slowly surfaced from underneath the water and the surrounding water that had just calmed down suddenly began to shoot out water pillars!

There were numerous water pillars that towered like enormous pillars that touched the sky.

In between the enormous pillars, a giant tortoise suddenly stood on the ocean's surface with a majestic aura.

The violently surging around it represented the anger in this ocean hegemon's heart.

"I, Tie Jun, will crush your city!!!"

A seething roar rang out from the ocean, causing Windy Rain City to shake.

"It's Wupan Navy Vice Chieftain Tie Jun. He's going to charge over!" said Tie Jun.

"He seems very strong," said Mermaid Princess Lan Qie.

Chu Mu faintly creased his brows. He thought that Wupan Navy's only leader rank figure was the Navy Chieftain.

He didn't realize Wupan Navy's Vice Chieftain Tie Jun was a human leader too. His soul pet, Giant Tortoise Bixi, was a high class immortal rank soul pet!

Mermaid Princess Lan Qie fighting strength wasn't very strong. Her true strength lay in her control of the ocean and the species in the ocean.

There probably were no high class immortal rank Ocean species generals among the Ocean species army helping them. If he let the immortal rank Ocean species generals attack the Giant Tortoise Bixi, these experts would undoubtedly suffer greatly.

“I’ll deal with him,” said Chu Mu.

Mermaid Princess Lan Qie shook her head and said: “You’re a fire type. You’ll be at a disadvantage when fighting the same ranked water type Bixi. You being able to advance a rank at such a crucial moment is already a good thing; however, you cannot exhaust all of your strength before the war is over.”

“This person is a high class immortal rank. It won’t be easy for your subordinates to deal with him either,” said Chu Mu.

But Mermaid Princess Lan Qie maintained her opinion. Since this city had been entrusted to her protection, she wouldn’t let Wupan Navy take a single step in it. She wouldn’t even let a high class immortal do so!

Chapter 1558: Making A Comeback, Yellow Spring Calamity!

What mermaid princess Lan Qie said was also reasonable. Chu Mu’s property was unsuitable to fight against creatures with water property. When they were of similar rank, Chu Mu fighting against Wupan Navy’s vice chief Tie Jun would only be in disadvantage. The war was not over yet, if he exhausted all his strength on this, once any accident happened, he would not be able to salvage it.

Chu Mu did not recklessly attack. Lan Qie took out an exquisite-looking conch and blew a solemn melody.

Familiar figures immediately appeared from the ocean waves below the stronghold.

Those were mermaid princess’s bodyguards. Chu Mu was already familiar with two of them. They were both around middle class Immortal rank, holding a high position amongst the Ocean Iguana Demon race.

A total of seven figures appeared under the stronghold wall. They were all Ocean Iguana Demons. There were three low class Immortal rank and four middle class Immortal rank.

“Ice Demon Sharks are already attacking their trapped fleets. Their vice chief brought a group of experts to attack Windy Rain City directly. The longer we stall them, the greater their losses,” said Lan Qie.

Mermaid princess still did not want Chu Mu to go. Chu Mu’s current condition was already not at peak. He fought in Eastern Wild Forest battlefield and defeated the 300,000 subjugation alliance. Then, he rushed to Cloud Gate to reinforce the defense. And now, he rushed to Windy Rain City battlefield, he needed rest to recover his fighting strength.

Chu Mu took into consideration of the overall situation and did not force himself. He left this battlefield to Lan Qie.

The seven Immortal rank Ocean Iguana Demons dove into the water under mermaid princess’s order.

Ocean Iguana Demons were similarly experts at manipulating water. These seven Ocean Iguana Demons forcefully took back the control of the ocean on this continental shelf. They swept up seven waves and crashed towards Giant Tortoise Bixi.

Giant Tortoise Bixi was much larger than Ocean Iguana Demons. This huge ocean beast totally ignored the obstruction and violently slammed towards Windy Rain City!

Furious like an underwater volcano, Wupan Navy’s vice chief Tie Jun had never received such humiliation before. It was just a tiny New Moon Land, he could flatten it by himself!

Giant Tortoise Bixi slammed down its claw and immediately splashed up layers of tall waves!

These waves contained violent shockwaves. Even though Windy Rain City's stronghold was built by the best rock materials, it could not endure multiple crashes of the hidden shockwave in those waves.

The seven Ocean Iguana Demons' mission was to defend Windy Rain City. They swept up screens of water to turn them into layers after layers of ocean walls, protecting Windy Rain City's stronghold.

Giant Tortoise Bixi tyrannically crushed its way through these ocean walls. When its body was blocked by the last ocean wall, this monster suddenly swept its body horizontally. A huge whirlpool tumbled up with this monster as the center!

The seven Ocean Iguana Demons suffered the impact of this power and were blown away from the ocean. Two Ocean Iguana Demons flew all the way to land and were bleeding profusely.

Low class Immortal rank Ocean Iguana Demons clearly could not resist Giant Tortoise Bixi's attacks. Mermaid princess did not force those two Ocean Iguana Demons to continue fighting. She let them retreat from the battlefield.

Giant Tortoise Bixi raised its head, its thick neck was making a rumbling noise.

“Hou!”

A huge water pillar was shot out from Giant Tortoise Bixi's mouth. This water pillar split the ocean into two and the continental shelf below could almost be visible!

The astonishing water pillar gushed towards the stronghold. The force behind this water pillar could easily pierce through the entire Windy Rain City!

Sang Ying looked at the approaching water pillar and paled. However, mermaid princess Lan Qie seemed rather calm.

She curled up the corner of her lips and hummed out beautiful syllables. These water syllables were not just soundwaves. Chu Mu could see these syllables flying towards the stronghold wall.

These water syllables adhered to the stronghold wall, mysteriously applying a thick layer of water wall on the stronghold wall!

Boooom!

The water pillar slammed onto Windy Rain City's stronghold wall. Waves of water energy carrying shockwave and destruction energy spread out onto the entire Windy Rain City's stronghold wall from the position of the collision!

At the same time, the water syllables mermaid princess hummed out began to glow blue, appearing like a dark blue shield covering Windy Rain City's stronghold wall.

The water pillar pushed on, the water syllable shield dimmed at times, as if it would be broken any moment.

Crack! Crack!

Many cracks appeared on the stronghold wall. It seemed that it could not endure this water pillar anymore.

Tie Jun coldly looked at the stronghold from Huge Tortoise Bixi's shoulder, "I'm going to see who dares to obstruct me!"

Saying so, Tie Jun issued the order to Huge Tortoise Bixi again, telling it to strengthen the water pillar energy. He wanted to burrow a hole through Windy Rain City's stronghold and crush Windy Rain City.

At that moment, the Ocean Iguana Demons already returned. They chanted incantations simultaneously and took up an ocean formation on the five corners around Huge Tortoise Bixi. They wanted to restrain its power!

Tie Jun coldly swept a glance at these Ocean Iguana Demons and spoke, "A bunch of useless Ocean Iguanas, get lost!"

Huge Tortoise Bixi could only forfeit the attack and swept its horrifying tail. Another violent sweep found a middle class Immortal rank Ocean Iguana Demon away horizontally above the ocean surface.

"So troublesome!" Tie Jun looked at these Ocean Iguana Demons which were pestering him irritably and chanted an incantation.

Two diagrams appeared in front of Tie Jun. A Thousand Tentacle Demon Octopus and a Deep Sea Giant appeared from the diagrams.

These two soul pets were both middle class Immortal rank. They seemed to be even stronger than those four middle class Immortal rank Ocean Iguana Demons.

After Tie Jun's summon, Thousand Tentacle Demon Octopus and Deep Sea Giant pounced towards those Ocean Iguana Demons.

"See what other soul pet you have to stop me!" snorted Tie Jun.

New Moon Land suddenly had so many middle class Immortal rank creatures and dealt a heavy blow to Wupan Navy after creating an Immortal seventh rank tsunami. All of those exceeded vice chief Tie Jun's expectations.

However, a leader rank person was on a different level from Gate Master rank after all. He alone could deal a devastating blow to New Moon Land. The entire New Moon Land would not be able to stop his advancement!

Bam! Bam!

Huge Tortoise Bixi sank half of its body into the ocean, leaving the other half above water. It no longer stepped on the waves to move forward, but directly on the continental shelf, approaching Windy Rain City step by step.

It was far away at first, so those New Moon Land city guards only felt this creature to be big. However, when it slowly approached from the horizon, they realized just how big this Huge Tortoise Bixi was!

Its muscles were like steel beams, its four limbs thick and robust. It was filled with destructive power and carried an island-like shell on its back. If such a creature slammed towards a city, the city would instantly be flattened.

Seeing Huge Tortoise Bixi approaching closer and closer, Lan Qie also frowned.

This vice chief Tie Jun was certainly very strong, it would not be so easy to take him on.

She held up the conch in her hand and was hesitating whether to blow it or not.

At that moment, Chu Mu held down Lan Qie's conch and shook his head, "I can't let your Ocean Species make such a sacrifice for us. Let me take him on."

After Lan Qie blew the conch, there would definitely be tens of thousands of Ocean Species coming out from the water.

This army was huge, it would not be a problem to stop Huge Tortoise Bixi's advancement. However, with Huge Tortoise Bixi's high class Immortal rank destructive power, this Ocean Species army would also suffer a heavy loss.

Lan Qie had already helped New Moon Land plentifully. She almost annihilated the 100,000 strong Wupan Navy army on the Ocean. He could not bear to let them continue making sacrifices.

He should do it himself. Even though fire property was incompatible, Tie Jie should have a short temper. He might be able to lure him onto land to fight.

Lan Qie's pearl-like eyes looked at Chu Mu and began hesitating.

She certainly did not expect a high class Immortal to appear in Wupan Navy. Such a rank had a decisive role in a war. This was her lack of consideration.

Chu Mu did not wait for mermaid princess to say anything. Two types of Devil Fires flared up on his body and he slowly floated up.

Compared to Huge Tortoise Bixi's body, Chu Mu was like an ant. However, Chu Mu showed no fear. Since he could defeat Seven Headed Hydra King, it would not be a problem to take on this Huge Tortoise!

“Ni! Ni!”

Suddenly, a familiar and majestic call came from the horizon.

This call carried the tyranny of a ruler. When the soundwave made contact with the ocean, whirlpools appeared in the entire ocean within their visibility!

The ocean flowed backwards and created an astonishing whirlpool. Huge Tortoise Bixi could no longer take a step forward.

Chu Mu and mermaid princess turned their gaze towards the source of the call.

This voice.....

Chu Mu did not interact with it much, but he would never forget such a unique voice!

This was little Yellow Spring Calamity's voice!

Chu Mu was elated. The royal ocean guards really escorted little Yellow Spring to Dark Sky Ocean!

He could tell from its tyrannical call that the restrains on its body were removed.

It would be making a comeback!

Chapter 1559: Soul Pact Activates, Yellow Spring Soul Pet

"What's that?" Vice chief Tie Jun turned around and saw the ocean waves transforming into water dragons and flying up from the whirlpools.

The water dragons were dark blue in color. When they flew above the ocean, they were clustering around a creature swimming through the ocean whirlpools.

This creature had the majestic head of a unicorn, its face was covered in scales and intimidating scale patterns.

Its body was long and robust, mixed between a dragon and unicorn beast.

Its tail was swinging and creating tiny whirlpools at the end. However, it was because of the tiny whirlpool at its tail that the entire ocean flowed in reverse!

The water current was under its control. Hundreds of elemental water dragons flew out from the ocean surface and clustered around it. One could feel this little Yellow Spring Calamity's tyranny over the ocean!

Tie Jun's Giant Tortoise Bixi was clearly slower due to its size. When this creature turned around and saw little Yellow Spring Calamity, little Yellow Spring Calamity already reached right in front with the hundreds of water dragons!

The water dragons turned into violent impacts and slammed onto Giant Tortoise Bixi.

Each water dragon splashed into a downpour, and Giant Tortoise Bixi's island-like body was getting pushed back by the impact.

The water dragons flashily clashed and Giant Tortoise Bixi kept getting pushed back. It was pushed back from the continental shelf all the way back to the ocean region filled with broken ice!

Windy Rain City's city guards were astonished. Not only that, even Wupan Navy was unable to believe their eyes after witnessing this scene.

Giant Tortoise Bixi's strength was almost at the peak of the entire soul pet world. High class Immortal rank was an undefeatable rank. They could not imagine any creature pushing Giant Tortoise Bixi from the continental shelf all the way back to the deep ocean!

Powerful tail swings stirred the ocean, water dragons clustered around, when little Yellow Spring Calamity reappeared as the proud child of Eternal Ocean and pushed back Giant Tortoise Calamity, Chu Mu also felt elated!

This majestic appearance, this aura, that was exactly the image Chu Mu had in his mind. As expected, Yellow Spring was his ideal water type soul pet. Chu Mu really wanted to sign a soul pact with this majestic Yellow Spring Calamity right now and fight against Giant Tortoise Bixi with it!

“Ni! Ni!”

Yellow Spring Calamity did not intend to let go of Giant Tortoise Bixi. It poked its tail on the ocean surface and churned the water furiously.

The whirlpool began spinning wilder and wilder. The ocean region around Giant Tortoise Bixi became a rapid whirlpool. This whirlpool generated a powerful suction force and pulled Giant Tortoise Bixi towards the seabed!

Giant Tortoise Bixi’s body was massive. It used its limbs to bash the whirlpool and wanted to scatter the suction force.

Yellow Spring Calamity cried out majestically. No matter how many times the whirlpool was scattered, it would gather the currents and regenerate the whirlpool, determined to drag Giant Tortoise Bixi to the seabed!

Yellow Spring Calamity was born with arrogance. It would never allow any creature within its ocean region to be stronger than it!

In the entire Eternal Ocean, be it the West Ocean Yellow Spring lived in, or the North Ocean with many powerful beings, even this East Ocean which connected with human territory, its infamous name spread throughout all the ocean regions. Yellow Spring Calamity would not even bother to bully some Immortal rank ocean creatures, it only picked Ocean Ruler rank to bully.

Any Ocean Ruler would behave after seeing it, yet this fat tortoise demon which somehow appeared in this East Ocean dared to make a ruckus in its new home!

Yellow Spring Calamity was unhappy. First, this thing which seemed even more arrogant than it was messing up its new home. Second, this thing was actually making trouble for Chu Mu!

Furthermore, its restrictions were finally lifted. It recalled the humiliation it suffered in Exile Ocean and wanted to vent its grudge. This Giant Tortoise Bixi seemed rather thick-skinned, so it would definitely not let it go!

Ocean Manipulating Tail!

Its tails swept violently. The huge whirlpool spread further and further. It even began to spread towards the chaotic Wupan Navy.

Vice chief Tie Jun's expression was completely darkened.

Did he actually barge into the headquarters of the Ocean Species?

First it was the Ice Demon Shark, then Ocean Iguana Demon, and now even the strongest race which ruled the ocean, Yellow Spring, also appeared!

Vice chief Tie Jun took a glance at the whirlpool which was spreading towards Wupan Navy. He gritted his teeth and could only order Giant Tortoise Bixi to dive towards the bottom of the whirlpool.

If he did not destroy the source of the whirlpool, the whirlpool would continue spreading!

Of course, he would have to pay a heavy price for getting swept into it.

Bloop bloop bloop~!

The huge whirlpool slowly swallowed Giant Tortoise Bixi, as if a bottomless gullet swallowing food.

Soon, Giant Tortoise Bixi was completely dragged down by the whirlpool. Nobody could see its huge body above the ocean.

For a moment, the ocean surface returned to calmness. There was only a unicorn-dragon resembling creature standing solemnly above the ocean. Its eyes watched over the ocean region, as if anywhere with water was its territory.

.....

The whirlpool did not sustain for a long time and gradually died down.

After remaining silent for a while, the water suddenly bulged up in the area where the broken ice was. The water splashed all the way into the clouds.

The water splashed to a great height. When it fell back down, one could see a huge silhouette erected above the deep ocean like an island.

The water flowed down along the solid muscles of Giant Tortoise Bixi, tracing out the masculine lines of its limbs, bringing out an intimidating aura!

Giant Tortoise Bixi opened its mouth and panted. The gusts of air exhaled by it blew all the way onto land.

Scattering the source of that whirlpool exhausted Giant Tortoise Bixi greatly. However, it was clearly insufficient to truly exhaust it.

Its eyes stared open widely. Its gaze crossed through the ocean surface and locked onto Yellow Spring Calamity from the distance.

Giant Tortoise Bixi was like a volcano island about to erupt. Meanwhile, Yellow Spring Calamity remained the arrogant and solemn Yellow Spring Calamity. For a while, the staring off between the two super ocean rulers caused the ocean to churn and clash. The waves almost reached the clouds.

High class Immortal rank creatures were rarely seen. Normally, crews would never get a chance to see vice chief Tie Jun personally acting. They also could not experience the strength of the true high class Immortal rank.

However, right now, there were two high Class Immortal rank creatures on this ocean.

Giant Tortoise Bixi, unicorn-dragon resembling creature!

The ocean no longer belonged to Wupan Navy, nor did it belong to Ocean Species. The ocean was completely dominated by these two high class Immortal rank creatures.

Without the need for further explanation, they would definitely determine a victor at this ocean. Who was the one qualified to rule over the ocean region in their sight!

The black clouds pressed low, the wind gushed past, the ocean was divided into two factions. Water kept clashing and competed for supremacy.

Standing on Windy Rain Castle's stronghold, Chu Mu's feeling was as churning as the ocean.

"Go, fight alongside it," Lan Qie smiled and looked at the excited Chu Mu.

Chu Mu was a little hesitant. Little Yellow Spring's personality was aloof. Even if it was exiled into this ocean region and the royal ocean guards left it to him. Would it be willing to sign a soul pact with him?

After all, the fire property Chu Mu would definitely be no match for little Yellow Spring.

Little Yellow Spring Calamity was still young. Its strength was enough to mess up the entire Eternal Ocean. Would it really be willing to listen to his commands?

Chu Mu had walked the path of a soul pet trainer for many years. This was the first time he questioned his qualification to control a soul pet.

“Go, this is the best chance for you two to become intimate. You have done so much for it, it won’t be so stubborn to the point it neglected your deeds. Furthermore, haven’t you realized it got angry for you because Giant Tortoise Bixi is attacking you?” said Lan Qie as she watched Chu Mu.

“King Chu, this..... is this also your soul pet?” stuttered Sang Ying at the side.

That was a high class Immortal. It could oppose Wupan Navy’s vice chief directly. Sang Ying would never even dream of obtaining such a soul pet.

However, the young soul pet trainer next to him was actually acknowledged by such a creature.

If a soul pet trainer could cultivate up to this level and had such an encounter, there would be no regrets!

“Not yet, but it will be!” said Chu Mu in a serious tone.

Saying so, Chu Mu nodded towards Lan Qie and flew towards little Yellow Spring Calamity.

.....

Chu Mu landed on little Yellow Spring Calamity's body. The scale armor on its back was a little chilling.

"Ni~!" Little Yellow Spring turned its head around and cracked a smile towards Chu Mu.

Little Yellow Spring was showing gratitude towards Chu Mu, because it knew it would still be in Exile Ocean without Chu Mu.

"I told you I will help you break free from Exile Ocean and your shackles," said Chu Mu.

Chu Mu stretched out his hand and stroked the rather small unicorn and spoke, "This will be your new home, do you like it?"

"Ni!" Little Yellow Spring Calamity nodded, but made a sharp cry, glaring at Giant Tortoise Bixi.

Obviously, apart from this Giant Tortoise Bixi, it liked everything else.

Chu Mu could feel little Yellow Spring Calamity's friendliness towards him. He suddenly felt inspired and slowly chanted the incantation for soul pact.....

It had been a long time since Chu Mu chanted the soul pact incantation. This time, he would be finishing the incantation fully and sign a soul pact with a high class Immortal rank Yellow Spring.

The starry light of the soul pact gradually lit up and fell onto Yellow Spring Calamity's body.

At this moment, Chu Mu's heart was beating violently.

Because he was unsure if Yellow Spring Calamity would accept his soul pact despite showing such intimacy.....

Chapter 1560: New Soul Pet Yellow Spring, Leader Chu Mu!

"What is he doing? Soul pact light??" Tie Jun stared at Chu Mu on Giant Tortoise Bixi's shoulder.

The soul pact light was very bright and unique with starry light sigils and special diagrams. When Chu Mu chanted the entire soul pact incantation, Tie Jun was even more certain Chu Mu was intending to sign a soul pact with that Yellow Spring!

What a joke! Signing a soul pact on the battlefield?

Furthermore, they were seriously looking down on him!

Tie Jun sneered coldly. Although that Yellow Spring was a little strange, it was a high class Immortal.

Yellow Spring was a race even more arrogant than his Giant Tortoise Bixi. It was almost impossible for them to sign a soul pact with a human. Tie Jun looked at Chu Mu's action and felt it was ridiculous.

The starry light pulsed around little Yellow Spring. This meant little Yellow Spring was struggling mentally to some extent.

It did not completely reject Chu Mu's soul pact. If that happened, the starry light would be shattered immediately. However, it did not accept this soul pact directly, because the soul pact light did not brand its forehead or soul.

During the process of the pulsing light, Chu Mu's nervous heart was beating with the same frequency.

This was a high class Immortal rank soul pet. Owning it meant Chu Mu would be officially entering the realm of human leader rank.

In this world, there was probably nobody who could actually sign a soul pact with a high class Immortal rank soul pet directly. There was also nobody who could own two creatures from Undying Legends.

If he succeeded, not only would his strength jump a level, he would also accomplish all the targets he set on his path of soul pet trainer.

Chu Mu's soul pact was almost full. This might be his last soul pet, could he succeed?

The pulsing light brightened and dimmed. Little Yellow Spring's eyes were also a little confused and hesitant. Chu Mu could not determine whether this soul pact would be completed or not from the expression.

Soul pact carried a spiritual enforcement property. Most soul pets would resist and get angry when getting enveloped by soul pact. Only soul pets which had built up an intimate relationship or become powerless to resist could accept this forcefulness.

“Ni~!”

Little Yellow Spring called out to Chu Mu confusedly. It could not understand why Chu Mu wanted to forcefully brand a spiritual sigil on its soul. This made it feel like putting on a new shackle.

However, little Yellow Spring also felt that if it broke this sigil, Chu Mu would feel sad. This sigil seemed to be containing Chu Mu’s anticipation.

It wanted to ask Chu Mu, but Chu Mu did not answer. He only kept eye contact with it.

Little Yellow Spring looked back at Chu Mu’s eyes, also keeping eye contact.

This was a pair of human eyes, different from the eyes of Ocean Species.

Regardless of the race, the emotion expressed by the eyes would never be fake. Little Yellow Spring seemed to have seen Chu Mu’s emotion. Not a trace of deception, pure, focused and carried a little bit of feverish anticipation.

“Ni~!”

Little Yellow Spring cried out. Its eyes no longer showed confusion or hesitation, slowly opening up its soul towards Chu Mu.

The pulsing soul pact light suddenly shined brightly at this moment, as if countless stars were gathering in one place!

The soul pact light gradually shrank while shining dazzlingly, turning into a unique sigil and branding onto little Yellow Spring's forehead, branding deep in the little Yellow Spring's soul.

As a soul pet trainer, it had been a very long time since Chu Mu last saw the success of a soul pact. He remembered that the last time he experienced it was when he completed the soul pact with Dead Dream. The excitement at that moment was indescribable.

After so many years, he finally completed another soul pact. Furthermore, this had truly fulfilled all the ideal soul pets Chu Mu set for his path of soul pet trainer. This was extremely meaningful towards Chu Mu who was taught the ideals of soul pets since young!

Success!

From the day Chu Mu started off as a soul pet trainer, he held a desire. His desire was to obtain all the soul pets he planned to obtain.

The success this time would be the final stroke to the grand soul pet blueprint he had in his heart!

Soul connected with soul, Chu Mu could clearly feel the emotion of little Yellow Spring through the soul pact.

This sensation was faint yet intense. The two changed from strangers to inseparable families in an instant!

Little Yellow Spring's thoughts no longer appeared strange to Chu Mu. Its personality was also not so difficult to comprehend. Its emotions felt like his own.

This was the connection between a soul pet and a soul pet trainer. It seemed to be breaking the independence between two life forms and joining into one.

“Ni~!”

Little Yellow Spring's calls sounded even more intimate. It even tilted its head and licked Chu Mu's cheek.

Chu Mu did not avoid this action. His cheek was smeared with little Yellow Spring's drool, but he was still showing a heartfelt smile.

This smile was very pure, expressing the excitement and joy of most soul pet trainers after obtaining a new soul pet.

.....

During the process Chu Mu chanted the soul pact incantation, be it the New Moon Land members in Windy Rain City's stronghold or Wupan Navy with Tie Jun as the vice chief, they personally witnessed the scene of Chu Mu successfully signing a soul pact with little Yellow Spring!

The moment the soul pact sigil was branded on little Yellow Spring's forehead, the entire ocean and city became quiet. Everyone opened their eyes wide and stared at Chu Mu and little Yellow Spring in disbelief!

A super ocean ruler rank creature actually signed a soul pact with a human!

This was an unbelievable story!

Every soul pet would have a dream. They would imagine a powerful creature willingly becoming their soul pet due to coincidence. Then, they would bring that creature and make a name for themselves in the soul pet world.

Dreams were dreams after all. There was nothing after waking up.

However, when they personally witnessed such a scene in reality, the astonishment they felt made them speechless. They even forgot they were still in war, a battle that betted their lives.

The person who could not believe this scene the most was none other than Wupan Navy's vice chief Tie Jun.

Tie Jun was a true human leader. Only he clearly knew the insurmountable gap between a leader and normal soul pet trainers. He also knew just how much resources had to be spent to nurture a high class Immortal rank soul pet.

Although he could not understand where this high class Immortal rank Yellow Spring came from, he felt that Chu Mu trying to sign a soul pact with such a creature was a ridiculous act.

It was impossible to succeed!

A Yellow Spring, let alone reaching Tenth Phase or high class Immortal rank, even if it was still an infant, the chance of succeeding a soul pact was very low. These kinds of high bloodline creatures had their own thoughts and intelligence. They completely put themselves in a higher position than humans. They would rather die than to become the slaves of humans.

However, the successful soul pact between Chu Mu and little Yellow Spring instantly shattered the common sense of this human leader!

That person actually succeeded in signing a soul pact with a high class Immortal rank creature and joined the leader rank!

.....

This ocean region was temporarily calm on this rare occasion.

Wupan Navy finally reformed their ranks after getting messed up by the Immortal seventh rank tsunami. They lined up in rows behind Giant Tortoise Bixi, becoming a furious and grudgeful storm.

Giant Tortoise Bixi stood on the ocean at the front. The lower half sank into the ocean while the majority front half was exposed above the ocean surface.

On its shoulder, Wupan Navy's vice chief Tie Jun stood there, his face grim and he coldly stared at the front.

From the moment the soul pact succeeded, this human became a huge threat!

On the continental shelf, the unicorn-dragon resembling Yellow Spring floated above the ocean. Its long tail stretched out along with the ocean ripples.

On Yellow Spring's back, the person standing upright was none other than Chu Mu. Right now, he already reached the position of a human leader without his half devil transformation. He was a true high class Immortal rank human soul pet trainer!

His eyes similarly locked onto Tie Jun on Giant Tortoise Bixi's shoulder, fighting spirit burned deep in his pupils!

On his back, it was a solid stronghold. Behind this stronghold, it was the prosperous territory of New Moon Land.

Right now, Chu Mu, who was standing in front of Windy Rain City's stronghold, already used his actions and back figure to tell all the defenders of New Moon Land that he would stand firmly in front of this Windy Rain City battlefield. He would defeat New Moon Land's strongest enemy —— Tie Jun!

“Houhou!”

“Nini!”

Giant Tortoise Bixi and Yellow Spring Calamity roared simultaneously!

The calm ocean immediately exploded. The two super ocean ruler rank creatures were both dominators over the ocean. Whoever could control the larger portion of the ocean would be the victor.

Now, the ocean ripples clearly indicated that the ocean was divided into two factions. The water was like their soldiers, slaughtering and invading the other faction!

The battle between two leaders was ignited. Wupan Navy and New Moon Navy's battle would be set off next!
