

Soul Pets Bk2 1561

Chapter 1561: Yellow Spring Vs Bixi (1)

“Ni!”

Yellow Spring raised its head and spat out a thick mist.

The mist quickly ascended into the sky and turned into rain clouds. One could see the rain clouds rapidly condensing towards this area.

The sky immediately became dark, the clouds pressed down so low they almost touched the flagpole on Windy Rain City’s stronghold.

Boom!

A thunderbolt exploded. In an instant, like a dam opening up, rain poured down from the sky.

The ocean started churning by the downpour. The entire ocean surface rose up by a layer. The newly added water was controlled by Yellow Spring Calamity. Gradually, the overall control of the ocean leaned towards Yellow Spring Calamity.

Giant Tortoise Bixi’s water property was not its strongest property. It was clearly no match for Yellow Spring in terms of ocean control. Soon, the tide turned into little Yellow Spring’s power. The swarming waves sometimes turned into rampaging beasts, sometimes turned into flexible water dragons, circling around Giant Tortoise Bixi. The waves would sometimes revolve rapidly and forcefully pulled Giant Tortoise Bixi into the ocean.

Giant Tortoise Bixi no longer competed for control over the ocean. Its body suddenly laid flat onto the ocean surface, letting its huge tortoise shell float completely above water.

Suddenly, the ocean split open in a straight line. Giant Tortoise Bixi's body furiously shot towards Yellow Spring Calamity!

It was difficult to imagine such a huge creature charging forward with such speed.

Little Yellow Spring was agile both in water and in air. It twisted its body and evaded Giant Tortoise Bixi's charge.

“Ni!”

Raising its head, little Yellow Spring chanted an incantation. It manipulated a water dragon and crashed into Giant Tortoise Bixi's abdomen!

The dark blue water dragon slammed heavily onto Giant Tortoise Bixi's solid body, pushing it towards the rain cloud layer.

Little Yellow Spring looked up at Giant Tortoise Bixi which was flung high into the air. Its pupils changed again and reflected the rampaging ocean's image.

Within the dark rain clouds, water pillars shot out, piercing through the clouds into the black-colored ocean beneath, forming a sky connecting pillar in the literal sense.

The water pillars were clearly visible and scattered around the space Giant Tortoise Bixi was in patternlessly.

Suddenly, all the water pillars rippled and bent into a water diagram in the air!

Chu Mu did not know what techniques little Yellow Spring had. Seeing the water diagram, he was also a little confused.

This diagram seemed different from formations. There was no energy fluctuation. In a normal situation, such a large water diagram would definitely contain a huge energy fluctuation.

Little Yellow Spring took a glance at Chu Mu, as if telling him to watch the show.

Chu Mu looked at the sky incomprehensibly. Giant Tortoise Bixi could not struggle free from the restraint of the water diagram for the moment. Meanwhile, the downpour suddenly stopped!

“Ao!”

All of a sudden, a silhouette even larger than Giant Tortoise Bixi appeared above the water diagram!

This was an elemental body completely made of water. Its majestic head, robust body and limbs belonged to none other than a Giant Ocean Unicorn!

The Giant Ocean Unicorn crashed down from the sky and stomped onto Giant Tortoise Bixi's shell with its powerful body.

Giant Tortoise Bixi's body sank down a little. The Giant Ocean Unicorn which stomped onto its shell also turned back into water and flowed down into the ocean.

However, the moment that astonishing scene was over, an even larger Giant Ocean Unicorn took shape above the water diagram. Giant Tortoise Bixi suffered another stomp on its shell!

Gak!

Almost everyone could hear the loud denting sound from Giant Tortoise Bixi's shell!

The third Giant Ocean Unicorn appeared, and once again stomped onto Giant Tortoise Bixi.....

Following the cycle, there were a total of seven Giant Ocean Unicorns created from water. They continuously stomped onto Giant Tortoise Bixi's back. Each stomp generated a loud boom!

Watching these majestic unicorn soul shadows stomping, Chu Mu suddenly realized.

The water diagram was just a guiding formation. It gathered the power of water towards the diagram and shaped it into the terrifying Giant Ocean Unicorns to execute a destructive stomp. Each time the unicorn appeared, Chu Mu could see the ocean surface level suddenly falling. Little Yellow Spring pulled tons of water to stomp Giant Tortoise Bixi's back.

Giant Tortoise Bixi was flung into the air by little Yellow Spring Calamity, then stomped all the way to the bottom of the ocean by those unicorn soul shadows.

Water dragon and unicorn, Yellow Spring's technique clearly explained its bloodline!

“Ni~! Ni~!”

Little Yellow Spring Calamy noticed Giant Tortoise Bixi was stomped to the bottom of the ocean and immediately cheered.

“Don't let your guard down before the battle is over, and don't give your enemy any chance to recover,” reminded Chu Mu as he stood on little Yellow Spring Calamity's back.

Little Yellow Spring was very strong. Furthermore, from the techniques and control over the ocean just now, he could tell that this fellow was almost invincible in an ocean battlefield. This was probably the reason mermaid princess Lan Qie wanted to borrow little Yellow Spring's strength to take on Calamity Ocean Demon.

With little Yellow Spring Calamity's powerful control over the ocean region, even a creature on the level of Calamity Ocean Demon might not be able to do anything.

Although little Yellow Spring was strong, its fighting method was not thorough.

The current enemy they faced was Wupan Navy's vice chief Tie Jun, not those ocean rulers which could tolerate little Yellow Spring. This habit of relaxing after gaining an advantage was bad, Chu Mu had to correct it.

Little Yellow Spring seemed to be obedient and did not just play around with its opponent. It began chanting another incantation.....

Splash!

Suddenly, a loud noise came from the bottom of the ocean. A powerful underwater current shot out from the water and squarely hit little Yellow Spring Calamity's body. Little Yellow Spring was still chanting and did not take any defensive measure, so it was knocked away by the current.

The moment little Yellow Spring was hit, Chu Mu reacted instantly. He cast a buffering space along the path little Yellow Spring was flung to and helped little Yellow Spring Calamity to ease the impact of this attack.

Little Yellow Spring Calamity was pushed back onto the land and dragged out a long trench on the reef shore.

“Ni~!”

Little Yellow Spring spat out a little blood and cried sharply out of frustration!

“Calm down, don't lose your temper,” Chu Mu consoled little Yellow Spring.

Wupan Navy's vice chief Tie Jun was a human leader after all. He was a real general above the ocean who experienced countless battles. They had to remain calm when facing such an enemy. If the opponent grasped the chance due to their carelessness, the situation would turn around.

Chu Mu did not know what techniques or abilities little Yellow Spring Calamity possessed. He only had a rough estimation of its strength. He could only teach little Yellow Spring how to maintain a stable and calm attitude when fighting. Otherwise, with the experience from Tie Jun and Giant Tortoise Bixi, they would definitely find the weakness of little Yellow Spring Calamity and suppress it.

“Young master, Yellow Spring is the irrefutable ruler of water. Giant Tortoise possessed the powerful body of huge ocean beasts. It has a solid defense and immense strength. Don’t ever let little Yellow Spring clash head on with Giant Tortoise Bixi. There’s no chance of winning. This little Yellow Spring Calamity’s temper is very stubborn, young master has to teach it the ideals of battle patiently,” Old Li’s voice entered his ear.

“Yes,” Chu Mu nodded. He already had a rough method to take on Giant Tortoise Bixi. It was up to whether little Yellow Spring Calamity could cooperate well with him.

The cooperation between soul pet and soul pet trainer required training. Chu Mu just signed the soul pact with little Yellow Spring Calamity, this cooperation was almost non-existent. If little Yellow Spring’s cooperation with Chu Mu could reach Mo Xie’s level, Chu Mu felt that with Yellow Spring’s powerful property and bloodline, it would be very easy to finish off Giant Tortoise Bixi.

Chu Mu stroked little Yellow Spring’s unicorn and appeased the frustration and anxiety in its heart.

Hearing Chu Mu’s persuasion, little Yellow Spring gradually calmed down and no longer intended to clash head on against Giant Tortoise Bixi.

“Do you have any restriction ability, like the whirlpool before?” asked Chu Mu.

Little Yellow Spring Calamity nodded and understood Chu Mu's intention. It began chanting an incantation on the spot.

The ocean was little Yellow Spring's weapon after all. When it began chanting, Chu Mu saw some water sigils slowly floating up from the rampaging ocean.

These water sigils were a little similar to the water shield created by mermaid princess. What was different was that those water sigils did not become a thick shield, but floated around Giant Tortoise Bixi like feathers.

Chu Mu looked at those tiny water sigils and became confused again.

What was this technique?

"Young master, these water sigils are restraints. One sigil is similar to the weight of ten thousand tons of water. Giant Tortoise Bixi's physique is huge, so its mobility is not as agile as little Yellow Spring. After applying these water sigils onto it, it's the same as adding an extremely heavy weight on Giant Tortoise Bixi!" Old Li immediately explained to Chu Mu with the information he obtained from somewhere.

Chu Mu's eyes brightened up. This kind of burdening technique usually lasted longer than temporary restriction technique, and it would be difficult to break the technique. If Giant Tortoise Bixi had to shoulder the heavy water sigils throughout the battle, it would never be able to touch little Yellow Spring at all!

Chapter 1562: Yellow Spring Vs Bixi (2)

Splash! Splash! Splash!

The waves were constantly splashing up from struggling slaps.

Giant Tortoise Bixi had to exert a great force to lift its limbs and move its body. Weight sigils were applied to all parts of its body, it could not exert its strength no matter how strong it was.

It could not swing its limbs to get rid of those heavy water sigils. However, those water sigils could not be destroyed using normal brute strength.

Little Yellow Spring Calamity knew it was time to continue its attacks. Its agile body dove straight into the ocean and rapidly swam in the ocean.

Soon, little Yellow Spring appeared near Giant Tortoise Bixi. Its body was in the ocean and easily evaded a slow attack from Giant Tortoise Bixi.

It circled around Giant Tortoise Bixi and began swimming in circles with Bixi as the center.

Little Yellow Spring Calamity's swimming speed was extremely fast. Its tail stirred up the water and gradually generated a huge water funnel below Giant Tortoise Bixi!

Water funnel began sinking, dragging Giant Tortoise Bixi down. In an instant, a gap without any water appeared in the ocean.

Splash!

Suddenly, the forces blocking the water disappeared. The surrounding water turned into ferocious monsters and swarmed into this gap.

The power of water could not be neglected. Using millions of tons of water to bombard a single spot could destroy a city.

Giant Tortoise Bixi was currently at the center of this funnel. Its body was restricted by water sigils, and the surrounding water slammed down onto its body. No matter how strong its defense was, it could not completely endure this impact and shockwave.

Booom!

It felt like the ocean instantly caved in. Giant Tortoise Bixi's body severely dented under the pressure of this force. Its robust body was just like a duckweed under the pressure of millions of tons of water, getting tumbled around by the currents.

This time, little Yellow Spring learned the lesson. It did not give Giant Tortoise Bixi any chance to recover. When Giant Tortoise Bixi was unable to fight back while getting crashed by the surrounding water, its body transformed into a crimson yellowish lightning and drilled through Giant Tortoise Bixi's body!

This attack was extremely fatal. The attack pierced through Giant Tortoise Bixi's chest area near the heart. If the force was a little bit stronger, the attack might destroy Giant Tortoise Bixi's heart.

Giant Tortoise struggled for a long time before finally stabilizing itself. There were countless bruises and dents on its rock-like muscle. Its furious aura was also greatly weakened. A horrifying blood hole opened up near its chest and spewed out blood profusely.

Giant Tortoise Bixi's pupils turned bloodshot. It randomly picked up an ice stone and stuffed it into the hole at its chest to forcefully stop the bleeding. It did not show any pained expression.

The effect of water sigils gradually faded away at this moment. Giant Tortoise Bixi violently shifted its body. The surrounding water became a huge turtle soul shadow around it!

This huge turtle soul shadow completely enveloped Giant Tortoise Bixi inside. It also grew spikes on its shell area!

“Hou!”

Giant Tortoise Bixi pounced forward, breaking through the entire ocean and crashed towards little Yellow Spring Calamity along with its defense and shell spikes!

Little Yellow Spring Calamity kept shifting its position, but no matter how it shifted, it seemed to be locked on by Giant Tortoise Bixi and would always be facing the approaching crash!

Rumble!

Giant Tortoise Bixi turned into a huge rolling thunder and charged past little Yellow Spring Calamity.

Little Yellow Spring Calamity broke free from Giant Tortoise Bixi's lock on at the last moment and barely dodged this charge. However, its flank still suffered a long cut by the shell spikes on that soul shadow.

Bam!

Giant Tortoise Bixi's body slammed onto land out of momentum. That area was a high rising cliff high ground.

Dust was swept up and the high ground collapsed. A disastrous earthquake was generated and spread inland. Windy Rain City's buildings and streets also cracked open!

Chu Mu took a glance at the land. This Giant Tortoise was totally a war machine. If that attack hit Windy Rain City directly, this city would have been completely destroyed.

Chu Mu must never fight Giant Tortoise Bixi on land. He let little Yellow Spring Calamity lure Giant Tortoise Bixi towards the ocean.

Giant Tortoise Bixi was so enraged it only focused on little Yellow Spring. It wanted to use its claws and tear little Yellow Spring Calamity into two.

However, little Yellow Spring Calamity was too agile. Not only did it possess the streamline figure of a water dragon, it also possessed the explosive strength of a unicorn. Giant Tortoise Bixi pounced into the ocean a few times, but could not even touch little Yellow Spring's tail. It suffered from a series of water type technique counterattacks from little Yellow Spring Calamity instead.

Not only was Giant Tortoise Bixi frustrated and enraged, Wupan Navy's vice chief Tie Jun became furious long ago. He was losing his rationality.

.....

“Tie Jun, stop bothering about that Yellow Spring, return now!” Suddenly, Wupan Navy’s tactician Ning An’s mental voice was transmitted into Tie Jun’s ears.

“I must kill him!” said Tie Jun furiously.

“We suffered a heavy loss. If you continue fighting it, are you going to watch the entire army sink here??” reprimanded Ning An.

Vice chief Tie Jun was startled for a moment. His bloodshot eyes regained a trace of calmness and rationality at this moment.

He used his soul remembrance to check the battlefield at Wupan Navy and was shocked to realize the devastating state of the entire Wupan Navy.

Countless Ocean Iguana Demons crossed between shipwrecks, strong Ice Demon Sharks froze the soul pets of the crews, unknown ocean monsters flipped the ships, even the Freedom Wing army members were getting dragged into the ocean by tentacles.

Wreckages, corpses, blood, fallen flags.....

After vice chief Tie Jun witnessed such a scene, he could not believe his eyes.

Even if his 90,000 strong Wupan Navy suffered from the Immortal seventh rank tsunami, the entire navy should still possess a decent fighting strength. How could they end up in such a state when he charged towards the enemy alone??

Where did that large number of powerful Ocean Iguana Demons come from? Who was controlling those ferocious Ice Demon Sharks? Why did countless ocean creatures and monsters gather here as if they had been waiting for Wupan Navy?

Chapter 1563: Sunken Ocean, Yellow Spring's Power

No matter how humans built ships, obtained water type soul pets or attempted to conquer the wild ocean, they would not win against those creatures truly living in the ocean.

Ocean Species relied on their natural born advantage and control over the ocean to destroy the entire Wupan Navy.

This disadvantage could not be overturned no matter how brilliant their tactic could be. Those caused those experienced crews to be helpless despite spending decades on the ocean. They could only watch ships getting destroyed one after another and the ocean creatures they were familiar with passing by and dragging their companions into the ocean one by one.

Underwater warfare was not unusual for navy. However, as their armies dove into the ocean one by one, only very few survived and came out.

The water was Ocean Species' weapon. Any struggle, training or tactic was powerless before it. They just need to casually shake their bodies to generate a ferocious dark current. A common incantation could transform the gentle water into deadly weapons.

Tactician Ning An stood on the huge ship, watching the bloodied and wreckage-filled ocean.....

He was different from those Wupan Navy crews. He knew where these powerful ocean creatures came from and also knew the navy was no match for New Moon Land's navy!

They were Ocean Species!

These creatures came from a deeper region of Eternal Ocean. They possessed their own ocean civilization and were separated from human's continental ocean.

Nobody knew their existence. Only those who participated in Dual Earth Conference or stepped into the true Eternal Ocean region knew it was the Ocean Species which ruled over Eternal Ocean even more vast than human territories! They were even stronger than the entire human race!

However, did these Ocean Species not know the racial pact? Did they not know they should not appear in human territory?

More importantly, why did they deploy such a huge army to help New Moon Land? This was completely incomprehensible!

Defeat, it was a crushing defeat.

Wupan Navy did not lose to New Moon Land's defense, but to Ocean Species' army.

Splash~!

The ocean was parted and Giant Tortoise Bixi returned to Wupan Navy with heavy steps.

The bloody ocean and corpses drifted past Giant Tortoise Bixi's limbs. Wupan Navy's vice chief Tie Jun watched this scene in astonishment and was speechless for a long time.

The wreckages spread from under his feet all the way to the ocean region further away. Seven Ship Legions, over thirty armies, a total of 100,000 Wupan Navy crews. It seemed that the moment they entered this Dark Sky Ocean, the death shadow already loomed over their heads.

First, it was the annihilation of Seventh Ship Legion, not even the corpses could be found. Next, it was the hindrance of ice mountains, followed by a huge tsunami.....

Throughout the entire war, Wupan Navy did not even touch New Moon Land's continental shelf. Only vice chief Tie Jun who charged out alone crashed onto land once.

However, even this godly existence in Wupan Navy could not obtain victory. Everyone could see his Giant Tortoise Bixi riddled with wounds.

These wounds clearly indicated that Giant Tortoise Bixi was no match against that Yellow Spring!

The army was crushed and the leader was injured. From the moment Wupan Navy set off, their heads were only filled with new territories, new resources and the victory celebration. Who could have imagined such a grand fleet to be annihilated above the ocean.....

Tie Jun stood on Giant Tortoise Bixi's shoulder. He turned around and looked at Windy Rain City from the distance.

His eyes were bloodshot and filled with killing intent!

100,000 Wupan Navy crews were lost in this tiny ocean region. What a humiliation this was to the entire Wupan Navy!

“Tie Jun, escort for our retreat,” Tactician Ning An told vice chief Tie Jun.

Ning An knew Tie Jun’s temper. Once he became enraged, he would not care about the lives of others and dead set on destroying the source of his rage completely.

Currently, Wupan Navy was still getting attacked by Ocean Species. If Tie Jun and those Immortals did not escort the retreat, they would really perish in this ocean.

After a human became a leader, that ‘standing at the peak’ mindset would become more and more dominant. They would not even regard the lives of others as anything significant many times.

Tie Jun was already showing this tendency. The deaths of Wupan Navy crews would not sadden him, but only made him more enraged. This was related to the reputation of a human leader like him.

“Tie Jun, escort for our retreat!” Tactician Ning An repeated his words.

Tactician Ning An held a similar position as vice chief. On many occasions, tactician Ning An would directly order vice chief Tie Jun due to the support of Navy Chief.

Tie Jun gritted his teeth so hard his teeth almost shattered. However, what could he do? A high class Immortal rank Yellow Spring obstructed him.

Finally, vice chief Tie Jun turned his head back and rode his Giant Tortoise Bixi through the wreckages. He slammed away those Ocean Species blocking the retreating path of Wupan Navy.

Giant Tortoise Bixi was opening the path for Wupan Navy. The Ocean Species army could not stop it and avoided it.

“Ni!”

Little Yellow Spring seemed unwilling to let go and cried loudly above the ocean.

The ocean churned chaotically. The dark currents squeezing out from the bottom turned into water dragons!

These water dragons either flew above the ocean surface or swam in the ocean. They became a water dragon army and headed towards the retreating Wupan Navy.

The incantations never stopped, more and more water elemental dragons charged forward fiercely. They had robust physique and ferocious strength. The Wupan Navy crews who were slow in retreating would immediately get crushed by the power of water after getting caught up.

Water dragons danced wildly. Countless soul pets of the crews were swept into the sky and crashed heavily into the ocean. Wupan Navy's retreat gave little Yellow Spring a perfect chance to attack to its heart's content.

The offensive strength of a high class Immortal rank creature was terrifying. Let alone those Dominators, even Immortals would perish if they did not escape little Yellow Spring's attack range in time.

Chu Mu and little Yellow Spring pursued the retreating Wupan Navy. More and more Immortals were killed along the way. Each time Wupan Navy's tactician and vice chief saw the death of an Immortal, the vein popping up on their forehead would increase by one.

"We must kill him!" Ning An looked at Chu Mu and little Yellow Spring Calamity with a darkened expression.

Vice chief Tie Jun had been accumulating strength for a while. Once little Yellow Spring was separated from those Ocean Species, he and all of his Immortal rank subordinates would immediately counterattack, killing it with a full power assault.

"Prepare," Ning An's eyes focused on little Yellow Spring's figure, waiting for the pursuing little Yellow Spring to fall into the Ocean Trapping Formation they set up along the way.

In the distance, little Yellow Spring swept its tail and crushed the bones of an Immortal rank ocean beast, killing it and its master together.

It was clear to see this Ocean Lord held a relatively high position in Wupan Navy.

After killing this Ocean Lord, little Yellow Spring Calamity did not continue pursuit. It floated above the ocean and stared at Giant Tortoise Bixi.

Giant Tortoise Bixi roared towards little Yellow Spring, clearly provoking it.

Little Yellow Spring Calamity lightly waved its tail, a group of water elemental dragons would cluster around it all the time. It levitated on the spot but would not take a step forward.

“It noticed the Ocean Trapping Formation!” cursed Ning An after seeing little Yellow Spring’s action.

Little Yellow Spring Calamity hovered outside Ocean Trapping Formation. It did not recklessly charged into the enemy formation by itself, but waited for the Ocean Species army on the spot.

“Is there any technique that can keep them here?” asked Chu Mu.

Little Yellow Spring nodded and began to focus on the ocean region in front.

Its pupils reflected the ocean. As its gaze turned, two intangible ocean lines began splitting the ocean surface!

The ocean line splitting speed was not fast, but it was very wide. From the birdview, these two spreading ocean lines actually traced out a huge diamond shape. This diamond shape perfectly captured the majority of Wupan Navy!

Yellow Spring Calamity’s pupils began sparkling.

Suddenly, it opened its mouth and roared towards this entire ocean region!

This roar made people felt as if the sky was pressing down.

Boom!

After the roar, a loud noise was generated from the ocean. Next, an astonishing scene appeared. The diamond-shaped ocean region split by the ocean lines suddenly began sinking. A perfect diamond pit appeared!

Sunken Ocean!

Within the dark blue ocean, a diamond-shaped sunken pit suddenly appeared!

Almost all of Wupan Navy sank into this diamond-shaped pit along with the lowering ocean surface. Ocean walls appeared on the four sides and the water poured down like a waterfall from the sky.

People had witnessed a huge crater when the earth sank, but they had never witnessed such a scenario on the ocean where everywhere was filled with water.

This Sunken Ocean trapped the escaping Wupan Navy under the ocean surface. The surrounding water became a screen barrier and could not be broken through.

All the crews became trapped beasts in an instant!

.....

Chu Mu watched this astonishing scene created by Sunken Ocean and spaced out for a long time.

This little Yellow Spring's strength was simply too terrifying. Even Giant Tortoise Bixi could not struggle out of such a powerful technique.

He felt that he still underestimated little Yellow Spring's true strength.

Chapter 1564: Capturing Navy Vice Chief Alive

The escaping Wupan Navy was trapped in Sunken Ocean. Without the need for mermaid princess to order, the Ocean Species knew what they should do.

This Sunken Ocean would be the ocean burial ground of Wupan Navy!

Various techniques filled the space and blasted towards the Sunken Ocean region. The water charged forwards like ferocious beasts, tearing and slamming the Wupan Navy crews. Some creatures with weaker bones were flattened by water, blood dyed the water inside this diamond Sunken Ocean.

Sunken Ocean was a powerful restrain technique. Trying to break it in a short time was impossible. The spewed out blood and organs mixed with the water, but could not seep out of Sunken Ocean.

Minced up corpses kept increasing in number. Blood already filled the entire Sunken Ocean area. Vice chief Tie Jun stood on Giant Tortoise Bixi's shoulder with a face full of popping veins.

“Kill it!” shouted vice chief Tie Jun.

Giant Tortoise Bixi nailed its claws into Sunken Ocean’s walls and climbed to the ocean surface.

Standing on the edge of Sunken Ocean, Giant Tortoise Bixi’s limbs stretched and heavily slapped the ocean!

The water exploded from the impact. The entire Sunken Ocean also slanted visibly. The scattered water transformed into countless black water blades and flew towards the densely packed pursuing Ocean Species.

Those black water blades possessed terrifying penetrative strength. One blade could pierce through several Ocean Iguana Demons and Ice Demon Sharks.

The black water blades transformed from the splashes sprayed forward. Those Ocean Species in the lead suffered severe damage and fresh blood dyed the ocean red.

Chu Mu turned to look at the wounded Ocean Species and chanted an incantation.

He suddenly opened his palm. A horizontally spiral-shaped spatial ripple manifested in front of him and the ripple gradually spread out into a funnel.

All the black water blades began changing direction, getting sucked towards the wind tunnel at Chu Mu’s palm.

Water property still heavily affected Chu Mu. Black-colored water toxin mark appeared on Chu Mu's palm and slowly spread towards his entire arm.

Chu Mu did not give up. After sucking in all the black water blades, he reversed the wind tunnel and shot these blades towards Sunken Ocean!

These black water blades which caused severe damage to Ocean Species similarly could cause severe damage to Wupan Navy. Wupan Navy had nowhere to hide after falling into Sunken Ocean. They could only watch the black water blades rain down towards them.

After this narrow area was showered by black water blades a few times, even less could survive.

The majority of Wupan Navy this time was Emperor rank crews. After suffering the barrage of techniques and Sunken Ocean, less than 10,000 survived.

Boom!

With a loud explosion, one of the Sunken Ocean walls was finally crushed. The water instantly gushed into the pit.

The remaining Wupan Navy had long lost their formation. When the water gushed in, they rode on their soul pets and dove into the ocean along with the flow, escaping in different directions.

The Ocean Species army was still closing in. If they still did not escape, they would become bloody corpses like those who died in Sunken Ocean.

This was a classic example of utterly routed. Even the well-trained Wupan Navy also displayed such a scene.

The gushing water filled up Sunken Ocean. Tactician Ning An remained standing on the deck of that huge ship. He watched the corpses around getting swallowed by the water absentmindedly.

Those corpses were his subordinates, crews of Wupan Navy. Organizing a 100,000 men Wupan Navy elite army required a very long time.

However, this 100,000 men Wupan Navy elite army he brought out was annihilated like this.

At the edge of the slowly filling Sunken Ocean, vice chief Tie Jun was still controlling its Giant Tortoise Bixi to stamp the ocean. He seemed to have forgotten that his crews were mostly dead.

Giant Tortoise Bixi was gradually surrounded by Immortal rank generals from Ocean Species. Furthermore, the powerful Yellow Spring Calamity was also suppressing Bixi, even Giant Tortoise Bixi could not resist the joint attacks by so many Ocean Species experts.

Giant Tortoise Bixi could not last long. Ice Demon Shark's Ice Boundary froze the four limbs and disabled its mobility.

Ocean Iguana Demon generals raised up their bloodied ocean forks and pierced through its jaws from below to top, sealing its mouth to prevent it from using roar attacks or chanting incantations.

Finally, Yellow Spring Calamity controlled a golden binding dragon and bound the body of Giant Tortoise Bixi, restraining its strength.

On Giant Tortoise Bixi's shoulder, vice chief Tie Jun chanted incantations like a lunatic, summoning Thousand Tentacles Demon Octopus which appeared before.

This Thousand Tentacles Demon Octopus was just at middle class Immortal rank, it was no match before little Yellow Spring Calamity. Little Yellow Spring swept its tail and made a flip, flinging Thousand Tentacles Demon Octopus into Wupan Navy army. It was instantly shredded into countless pieces by Ocean Iguana Demons.

"Seal your mouth," Mermaid princess Lan Qie used a silence incantation and sealed vice chief Tie Jun's ability to chant.

Tie Jun was still chanting, but he could not voice out a single syllable.

Chu Mu jumped onto the completely restrained Giant Tortoise Bixi and walked towards vice chief Tie Jun.

"Wupan Navy nine ship legions one hundred fleets' vice chief, Tie Jun. Hmm, you never tasted such defeat for a long time, right? How does it feel to be captured alive like this?" Chu Mu revealed a smile and focused on vice chief Tie Jun.

Tie Jun could no longer speak, he could only stare at Chu Mu furiously with his eyes.

"So short-tempered, I don't know how you reached high class Immortal rank," Chu Mu stood before Tie Jun and silver Devil Fire began burning on his palm.

This Devil Fire transformed into a tiny flicker. It slowly drifted into Tie Jun's throat and infiltrated into his body.

"This is a trigger flame. I just need to think about it and that flame will explode inside your body. If your body is solid enough, it will just be your organs getting meshed up. At most, it will just blow you up into pieces," Chu Mu calmly looked at Tie Jun and flashed a trace of cruelty across his eyes.

Tie Jun's face twisted.

"Take him away," Chu Mu told Sang Ying.

Sang Ying examined the restrained Tie Jun in detail, still unable to believe the situation before his eyes.

Sang Ying was just a drifter on the ocean at first. He found the place of his belonging at New Moon Land and became a chief of Navy.

He never dreamt of defeating the strongest Navy of the entire human territory, and even captured the number two figure of Wupan Navy, Tie Jun!

When handling a leader rank person like Tie Jun, Sang Ying would naturally not be careless. He called over a few experts and applied several more seals on Tie Jun's soul. Only after that, he let his men escort this prisoner of war back to Windy Rain City.

"King Chu, how do you intend to deal with Tie Jun??" asked Sang Ying.

“Kill him according to situation,” said Chu Mu.

Kill him according to situation? Sang Ying could not understand the meaning.

“Are we really killing him? I heard that every human leader holds important significance in human territory. We can’t simply kill them,” said Sang Ying.

Hearing Sang Ying’s words, Chu Mu laughed instead. He swept a glance at the countless Ocean Species around them and spoke, “Do you think our New Moon Land can still be a pure human territory?”

Sang Ying was taken aback. He recalled the Nightmare army and Flower Demon army which appeared in Eastern Wild Forest battlefield, then the Ocean Species army which filled up Dark Sky Ocean.....

Humans joined forces to subjugate New Moon Land. Ocean Species, Nightmare race, Flower Demon race became New Moon Land’s protectors instead. Did New Moon Land still need to define themselves as human territory? Did they still have to abide by those laughable human laws??

“Since they recognized us as racially independent, they are not really wrong.....” said Chu Mu.

New Moon Land never needed the protection of those hypocrites. Every faction which attempted to reap New Moon Land’s profit would definitely pay a heavy price. Divine Sect’s Discipline Palace, Elemental Clan’s Wind Sect and Fire Sect, Xuan Gate Immortal Schools’s Grass Sect, Departed Spirit Palace’s Ghost Sect, Wupan Navy.....

Their corpses were left outside New Moon Land. They did not manage to take a single step into New Moon Land. If they still desired New Moon Land, New Moon Land would not mind burying all of them outside. This would be a warning towards all factions that had ulterior motives!

“Tie Jun must die. We must let everyone know that even if a human leader comes to invade our land, this will be the end result!” said Chu Mu.

Chu Mu words were heard by every New Moon Navy members.

Their king rode on the strongest race of the ocean, Yellow Spring and led the enormous Ocean Species army. What he said was no arrogant words, Tie Jun was the best proof.

Furthermore, Chu Mu was also a human leader now!

He led not the humans, but just New Moon Land!

They attained another victory in the second war.

Every defender of New Moon Land was prepared to be sacrificed after joining this war. However, they witnessed such a magnificent victory at the end.

To many soul pet trainers, defending their territory and defeating Wupan Navy, as long as they attained such a participation badge, there would be nothing left to regret even if they had been experiencing failures in their cultivation path in the past!

Chapter 1565: Gate Master rank? Let Leader Rank Come To Negotiate!

Not long ago, the entire New Moon Palace was still frowning over how they could defend against the alliance from eight major factions. Everyone was also worried about the survival of New Moon Land.

At this moment, everyone was still frowning during New Moon Palace's conference hall.

This time, it was not the final discussion related to New Moon Land's survival, but the action taken by their King Chu completely taking them by surprise.

Human leader, Wupan Navy's vice chief Tie Jun.....

It was already a feat for defeating Wupan Navy, he even captured such a leader alive. When this news was reported, New Moon Land's leaders and elders could not believe their ears.

However, when Chu Mu dragged a high class Immortal rank Giant Tortoise Bixi and a furious man back to Wanxiang City, this unbelievable news became the truth.

Then, what everyone should be considering was the place that would produce the best deterrence effect when executing Wupan Navy's vice chief Tie Jun.

Some also tried to persuade him that they should not kill a human leader. This might bring about the subjugation from the two royalties.

Unfortunately, Chu Mu was already determined to kill!

On one hand, Chu Mu did not forget the heart-tearing pain and rage Wupan Navy's chief gave him at Imprint Valley. On the other hand, New Moon Land had no need to lower themselves towards any faction after attaining victory at both battlefields. Executing leader rank Tie Jun was to make a declaration to all factions. This is to prevent any random faction daring to come to New Moon Land to reap a profit!

New Moon Land's king was Chu Mu. The person who turned the situation of the war around was also Chu Mu. Although Chu Mu rarely showed up and performed his duty as the king, the entire New Moon Land regarded him as the highest faith. If he ordered to kill, the entire New Moon Land would cheer for him, not a single person would object!

.....

The war continued, the flames of war burned in every part of New Moon Land's border.

There were also many factions which invaded New Moon Land spreading the flame into New Moon Land's cities.....

Every day, different scales of confrontation occurred in different regions. The eight major factions did not give up on New Moon Land despite suffering defeat in the two crucial wars.

Unfortunately, apart from venting their anger in some New Moon Land's cities, they did not gain any achievements afterwards. Their fighting force was constantly depleting instead.

Time passed by unknowingly. Three months had gone by, the season changed from new spring to summer. The flames of war gradually extinguished.

.....

“Chu Mu, Chu Mu, they are asking for negotiation!”

Chao Lengchuan hurried to Chu Mu’s yard and informed Chu Mu of this news.

Chu Mu rarely attended meetings. Most news was directly passed to him from Liu Binglan.

This time, Chao Lengchuan probably could not hold back his excitement and run out of the meeting to tell Chu Mu of this news first.

“Oh? Do they want a ceasefire or what?” asked Chu Mu as he calmly stroked Zhan Ye’s cold armor.

“It’s definitely a ceasefire. What resources do they have to continue fighting? Over half of the 400,000 at Eastern Wild Forest Stronghold were finished off by us. The 200,000 reinforcement added later on only left 50,000 now. Their fighting force probably only has one quarter left.”

“After Wupan Navy lost over 90,000, with their vice chief in our hands, they at most gathered 30,000 at Crown Ocean to make a bluff. They never truly tried to sail into Dark Sky Ocean. Those small factions which invaded our New Moon Land originally possessed some threat, but they retreated one by one later on for some reason.....” listed Chao Lengchuan quickly.

“I made Yu Suo destroy the cities of those subordinate factions which barged into our New Moon Land,” said Chu Mu.

“Destroyed??” Chao Lengchuan was startled.

That explained why those small factions escaped out of New Moon Land like losers. Yu Suo actually uprooted their foundations.

If considering cruelty, Chao Lengchuan personally experienced Evil Good Queen’s methods. He could imagine those small factions regretting their lives after seeing the rubbles and corpses after returning.

“Is this the reason they are asking for a negotiation?” asked Chao Lengchuan.

“More or less. Yu Suo’s Invisible Kingdom is beginning to surface. This faction destroyed the base of those small factions which invaded New Moon Land. Then, they began infiltrating into the sections of those eight major factions using the chance they mobilized their fighting forces to our New Moon Land. There are probably several tens of thousands of fighting forces left for the subjugation alliance. However, they do not dare to continue fighting now and ask for a negotiation. It’s probably because their backyard is on fire,” said Chu Mu.

“I see. No wonder these factions actually chose such a humiliating method,” Chao Lengchuan realized the truth.

This war was directed by the royalties and participated by the various sects within the eight factions. However, the end result seemed to be controlled by these two people.

Chu Mu repelled the Gate Master level people from various factions with his strength and even defeated a leader.

Nightmare army, Flower Demon army and Ocean Species army, these three factions which did not belong to the human faction nailed in the foundation stone of protection for the entire New Moon Land. They caused the eight factions unable to progress after such a long time.

While the enemies were invested in this war, Yu Suo's Invisible Kingdom was rapidly expanding. It changed from originally scattering the seeds in different factions to directly snatching the authority of these defeated sects within the eight factions.....

This commotion in their backyard forced the eight major factions to stop their war earlier. If they continued, not only would they not obtain the resources they wanted, they might even lose everything they owned!

Hence, when Chao Lengchuan excitedly ran over to Chu Mu's place to tell him this news, he was not surprised at all.

Actually, when Ocean Species protected the entire ocean region of New Moon Land, when Nightmare army joined the war, when Flower Demon Kingdom spread throughout the various cities in New Moon Land, the eight faction subjugation alliance should have realized that they were not facing a single New Moon Land. They were facing the alliance of East Ocean Ocean Species, Nightmare Dynasty, Flower Demon Kingdom and New Moon Palace!

"Then, should we agree to negotiate with them?" Chao Lengchuan looked at Chu Mu, feeling that Chu Mu was becoming more and more like a king.

Perhaps this was how it would be like when one's strength reached a certain level. After all, there were only those few who reached leader rank in the entire human territory.

"Agree," said Chu Mu.

.....

Negotiation only existed between two factions of similar strength. If the two factions were different in strength, it could not be called negotiation, but a single-sided declaration.

When the subjugation alliance and King Chu Mu started the negotiation, the entire Zhengming Continent and Wupan Continent were shocked by this news.

Nobody had expected a tiny independent territory to survive until now after getting attacked by eight major factions repeatedly. This tiny independent territory even possessed enough strength to negotiate with the subjugation alliance after fighting so long.

If someone said this before the war, everyone would treat that person as a lunatic.

However, this had become a fact. No matter how the subjugation alliance tried to seal the news, it would still leak out.

The war negotiation was arranged to be held at a temporary stronghold below Cloud Gate. This stronghold was built by Cloud Realm. Some people joked that this stronghold was built to prevent New Moon Land from counterattacking Cloud Realm.

If some joked, some would believe..... The two sides already entered the negotiation stage. Who could guarantee that the furious New Moon Land would not counterattack??

Since it was a negotiation, the fighting forces from both sides would naturally follow. However, a certain distance was also kept.

There were not many people participating in the negotiation, just Chu Mu, Chao Lengchuan and Liu Binglan.

It was unknown how many people the other side would send yet.

Chu Mu's current strength was very strong. Even if the other side sent a leader rank person, Chu Mu could escape without problem. So he was not worried that the other side would play a trick.

.....

Heavenly Mountain remained chilling even in summer.

The raging wind blew past the high plains, flowing past Chu Mu, Chao Lengchuan and Liu Binglan.

The three of them waited at the designated area for a while. Four people came out from Cloud Realm's stronghold.

Chu Mu recognized those four. Divine Sect's Gate Master Han Yan, Wupan Navy's tactician Ning An, Fire Sect's Madam Huo and Divine Sect's Sect Master Xiao.

Divine Sect's Sect Master Xiao showed up probably to appease both sides. After all, Sect Master Xiao already stopped interfering worldly matters. Be it wars, conflicts or benefits, they were unrelated to him. Unless Divine Sect faced destruction, he would not interfere in any matter.

Divine Sect's Discipline Palace was just a sect of Divine Sect. Even if this sect was annihilated, it was none of Sect Master Xiao's concern.

The other three were probably representatives chosen by eight factions to negotiate, as well as the chief commanders of the subjugation alliance.

Chu Mu watched the three and sneered. Black flame sparked off on his palm.

The black flame danced in Chu Mu's palm. It seemed as if it would fly out any moment, causing Han Yan, Ning An and Madam Huo to turn pale in fear!

"Chu Mu, what are you doing? You agreed to negotiate, are you going to kill us??" said Han Yan in panic.

The other two immediately turned towards Sect Master Xiao.

Now, everyone knew that New Moon Land's King Chu was a Half Human. His fighting strength reached high class Immortal rank during the war. Furthermore, he also gained an Undying Legend — Yellow Spring which defeated Tie Jun at Dark Sky Ocean.

Chu Mu was completely on the blacklist of dangerous individual ranking. Madam Huo and Han Yan even trembled when seeing Chu Mu.

"Chu Mu, please calm down and listen to what they want to say first," said Old Sect Master Xiao peacefully.

“Those three cannot even take on one attack from me, what qualification do they have to negotiate with me?” Chu Mu played with the black flame on his palm, as if he would throw it out any moment.

Old Sect Master Xiao took a glance at the three trembling people and nodded seriously, “That’s true.”

Madam Huo, Ning An and Han Yan wanted to cry after hearing Old Sect Master Xiao’s words. Those words were too humiliating when spoken right in front of them!

Gate Master rank?

Would Chu Mu still need to be concerned about Gate Master rank now?

Chu Mu’s intention was clear. Let those few hypocritical leaders come to negotiate!

Chapter 1566: Death By Explosion, Cruel Devil

Madam Huo, Ning An and Han Yan were fuming.

However, they were certainly no match for Chu Mu anymore. They could not speak on equal standing with a leader rank person like Chu Mu.

They could not understand just how he was able to cultivate so fast. Back in Imprint Valley, Madam Huo could easily crush Chu Mu. Only a little time had passed and she became the one who could be easily crushed.

“Hmph, if a leader participated in this war, do you think your New Moon Land can survive until today?” complained Han Yan frustratedly.

“No? Then what is he? A trash?” Chu Mu pointed at the prisoner of war Tie Jun who was escorted to Heavenly Mountain.

Tie Jun had his soul sealed now and looked extremely feeble. He was so weak he looked like a refugee who had not eaten for days. He no longer looked like the mighty Wupan Navy’s vice chief.

Seeing vice chief Tie Jun, Ning An’s expression immediately darkened.

Is he purposely trying to humiliate Wupan Navy?

“I will negotiate with you.”

Suddenly, a haughty voice called out from the stronghold. Next, a man in a military leather uniform appeared in mid-air riding on a demon.

He had a cool and arrogant eagle face, appearing to be a young soul pet trainer full of arrogance.

However, one could tell from his white hair that he had lived for a long time.

The soul pet he rode on was a demon. It had long claws and dark blue skin. It made ripples when stepping on air.

It looked like a common demon, and even gave off the feeling that it only had a bloodline of Monarch rank or below. However, not many knew countless Immortal rank creatures were torn apart by those claws!

“Ch..... Chief!”

Tactician Ning An was startled. He never expected Wupan Navy’s Chief to show up!

The entire Wupan Navy was managed by six people. Ning An, Tie Juin and four other famous Navy Admirals.

Even if the six of them could order Wupan Navy as they liked and his orders could be considered the highest level order in the entire Wupan Navy, Ning An knew very well that as long as this Chief was alive, the entire Wupan Navy was still Chief’s alone!

Old Sect Master Xiao also looked at this Chief Pan Jun. He never expected Pan Jun to be the mastermind behind Wupan Navy in this war.

“I will negotiate with you, am I qualified?” Wupan Navy’s Chief —— landed at the negotiation spot and focused on Chu Mu.

Chu Mu did not speak, but his pupils turned chillingly sharp!

Black flame and silver flame almost seeped out from Chu Mu's skin uncontrollably. His grudge was boiling to the peak and turned into devil aura, slowly covering the sky.

Chu Mu clearly remembered this eagle face!

"You improved really quick. You already reached the level to face me on equal standing?" Wupan Navy's Chief Pan Jun smiled.

Liu Binglan and Chao Lengchuan felt the mental pressure Pan Jun gave them simultaneously. Their gaze turned to Chu Mu and noticed raging Devil Fire uncontrollably seeping out from Chu Mu's skin.

Liu Binglan looked at Chu Mu's face. She noticed the usually calm Chu Mu was actually showing such an incomprehensible rage!

"You're not the Monument Tear Inheritor, yet you gained such strength in such a short time. Looks like the Messiah Tree girl really benefited you greatly and allowed an insignificant character like you to reach the level you can never reach in your lifetime," said Chief Pan Jun with sarcasm as he watched Chu Mu.

Hearing Chief Pan Jun's sarcasm, Chu Mu suppressed the rage in his heart a little.

He certainly obtained some benefits from Ning Maner's nurture. However, the strongest fighting strength he currently possessed did not come from Ning Maner.

Dual Evil Half Devil, that was from White Three offering its Black Nightmare bloodline to him.

Yellow Spring Calamity was from him spending lots of time and effort helping Ocean Species.

If Chief Pan Jun really assumed Chu Mu became strong due to Ning Maner's nurture, then he really overestimated the ability of the immature Messiah Tree, as well Chu Mu's capability.

Perhaps, someone like Pan Jun who could attain the height of a leader habitually raised the standing of high class Immortal rank, as if only he could naturally reach this level while the others only reached this level by chance.

"You want to negotiate with me, then so be it," Chu Mu slowly suppressed the rage in his heart.

This suppression was not extinguish, but accumulating within himself to wait for the chance to explode!

"Release Tie Jun, our Wupan Navy's 300,000 army will disband from Crown Ocean and never step into your New Moon Land," said Chief Pan Jun.

His tone sounded like an order that could not be refused.

"What about you two?" Chu Mu's gaze turned to Madam Huo and Han Yan.

"Our Fire Sect and Wind Sect will step out of New Moon Land and never offend New Moon Land again. You must also recall your people from our territories," said Madam Huo.

“The war will cease here, your New Moon Land will still be New Moon Land. However, once Ancient Flood Dragon Person awakens, don’t expect us to reinforce you. Your New Moon Land is up to yourselves,” As a member of Divine Sect, Han Yan was still trying to speak about big reasons.

“Is there anything else?” asked Chu Mu again as he looked at these people.

Old Sect Master Xiao took a glance at Chu Mu and spoke, “This time, my Magistrate Palace will interfere. If you agree to a ceasefire, once these eight factions show ulterior motive towards New Moon Land, our Divine Sect Magistrate Palace will clean them up as sinners who disturb human law, including Divine Sect members.”

Ceasefire required the agreement from both sides.

If Chu Mu nodded now, it meant New Moon Land won this war. The eight major factions would never send any army to fight them in future.

Right now, everyone’s attention was on Chu Mu. Whether to ceasefire or not was up to Chu Mu.

“Alright, I will release Tie Jun first,” Chu Mu nodded.

Saying so, Chu Mu turned to take a glance at the escorted Tie Jun.

He reached out his hand and pulled the air, directly dragging Wupan Navy’s vice chief Tie Jun from Heavenly Mountain to his side.

Tie Jun was held up single handedly by Chu Mu. Chu Mu glanced at Wupan Navy's Chief Pan Jun, then threw Tie Jun to Chief Pan Jun like throwing a trash.

Chief Pan Jun did not expect Chu Mu to be so obedient and revealed an arrogant smile.

He casually caught the feeble vice chief Pan Jun.

Tactician Ning An saw Tie Jun returning to them and heaved a sigh of relief.

Tie Jun was Wupan Navy's vice chief, his strength also reached high class Immortal rank. If he died, it was a great loss to Wupan Navy.

"Chu Mu..... just..... let him go like that?" Chao Lengchuan watched that precious prisoner of war getting thrown back to that Chief and could not understand Chu Mu's casual decision.

Liu Binglan also looked at Chu Mu. Chu Mu's expression just now was too unnatural, his current action was also illogical.

What's wrong with him??

Chu Mu did not speak. His eyes focused the eagle-faced Chief Pan Jun the whole time. Slowly, his lips curled up in a cruel smile.

Black flame suddenly rose up from Chu Mu's palm. Then, with a creepy flicker, it seemed as if he was manipulating something.....

Bam!

Just as everyone thought the war would end with Tie Jun's return, Wupan Navy's vice Chief Tie Jun suddenly exploded!

The black explosion splattered Tie Jun's abdomen and chest, scattering Tie Jun's organs everywhere.

Tie Jun's limbs were blown away in different directions and rolled down towards the stronghold below.

Chief Pan Jun simply stood there. He never imagined Tie Jun's body to suddenly explode. Disgusting flesh bits smeared onto Chief Pan Jun's face, the stench of corpse instantly filled the surroundings.

Tie Jun's head was blown straight up to the sky, that face still maintained the final moment of confusion.

He thought he survived, but he forgot that on the day he was captured, Chu Mu already planted a flame seed which could rob his life away any moment in his body!

Blood splashed all over Chief Pan Jun's face. Chief Pan Jun's eagle face dyed in blood turned from arrogance to darkened, darkened to the extreme!

Tie Jun was nurtured by Chief Pan Jun from the beginning. If it did not involve Tie Jun's life, Chief Pan Jun would never have showed up.

However, just as he thought he saved Tie Jun, Tie Jun was blown to pieces right before him. His blood, his organs and his flesh bits stuck onto Pan Jun's body. Chief Pan Jun totally did not expect this!

This scene not only fell into the eyes of those participating in the negotiation. The armies from both sides at Heavenly Mountain similarly witnessed this bloody scene!

A human leader was blown into pieces just like that!

The person who exploded Tie Jun just levitated in midair. His pupils looked unlike human, but an emotionless devil!

Everyone saw the remnant of the black flame which triggered the explosion. They also saw his smile. That smile was so cruel, sadistic and crazy!

Liu Binglan and Chao Lengchuan were closest to Chu Mu. They saw Chu Mu's face gradually getting covered by Devil Fire. They saw the crazy smile on that face.

The current Chu Mu gave off a feeling as if he was possessed, as if he had completely changed into another person!

Chapter 1567: Ceasefire? Never!

"You..... You are digging your grave!"

Wupan Navy's Chief Pan Jun twisted his face and glared at Chu Mu furiously.

Dark blue claw creepily swept across, the targets were Liu Binglan and Chao Lengchuan next to Chu Mu.

Now, Chu Mu did not need to fear Wupan Navy's Chief Pan Jun anymore. As he laughed, flame shot up in front of him.

The black flame became a black diagram shield and protected Liu Binglan.

The silver flame became a silver flame guardian and protected Chao Lengchuan.

Liu Binglan and Chao Lengchuan also reacted quickly. They did not stay here, they immediately chanted incantations and flew towards New Moon Land army.

The moment Chu Mu triggered Tie Jun's explosion, everyone knew what he was going to do.

"The war was initiated by you, and you want to ask me to stop now? What a bunch of jokers," Chu Mu's face was covered by Devil Fire, reflecting his crazy laughing face.

"300,000 Wupan Navy?? How funny. Just come to my New Moon Land's ocean region if you dare. This ocean is so vast, it won't stink even after burying 300,000 corpses."

“This Heavenly Mountain Cloud Gate Stronghold was destroyed by your Divine Sect’s Discipline Palace. I wonder if you counted how many small factions entered my New Moon Land’s northern region? How many cities did they invade? A total of seventy-three factions. I have returned ten times the things they have done to New Moon Land to their territories. I won’t leave a single survivor behind!”

“After them, all of you will be next. Snake dragon faction, Grass Sect, Discipline Palace, Wind Sect, Fire Sect, Ghost Sect, Wupan Navy, Mu Tuan clan.....”

Chu Mu’s body was completely covered by two types of Devil Fire. His words poured into everyone’s ears like arcane sound!

“Prepare for the funeral of your kins.”

Chu Mu’s last sentence was a declaration to all those who joined the subjugation alliance.

He wanted to tell everyone that New Moon Land would not be defending next, but exacting revenge for this war!

Ceasefire??

Mu Zuoli was executed right in front of Mu Qingyi during the first month of the war.

Mu Qingyi cried her heart out, Chu Mu could only stand next to her and silently watch.

At Cloud Gate Stronghold, Cloud Gate Elder died in the war. This elderly who silently guarded New Moon Land for hundreds of years, did he deserve such an end?

Wanxiang City's city guard general Xiao Hai died in the war. Chu Mu always remembered this guy coming to him when he returned to the city everytime. Xiao Hai would ask Chu Mu to bring him to train every time.....

Holy Guard Chief Zhuo Nong also died, his corpse was still not found.

Thousand Wave Beast which accompanied Chao Lengchuan's growth also died, but he still stood on the battlefield.

Yuan Sui's five souls were injured, he could only lie on the bed like a useless person.

Even Ye Qingzi's Purple Robe Dream Beast perished during a sudden attack by Fire Sect.

There were also many others who frequented New Moon Palace whom Chu Mu did not know the name of. Who would appease the hatred of those people who paid such a heavy price?

Ceasefire??

How could Chu Mu agree to a ceasefire!

The first half of the war was the subjugation alliance invading New Moon Land, then the second half would be New Moon Land counterattacking and taking revenge. At least to Chu Mu, he had to make all those factions pay the price in order to appease the grudge accumulated in this war!

Ceasefire?

Never!

“Huhuhuhuhuhu~!”

Black and white, two types of grudge flames burned up half of the sky. At that moment, everyone could sense the terrifying evil aura and grudge aura swarming out from Chu Mu’s Devil Fire.

Some menacing faces could even be seen within the grudge aura. They screamed in frustration, they revolved around Chu Mu who represented the black grudge. They used their screams and cried to vent their grudge which could not dissipate even after death!

“Grudge King Black Nightmare!” Wupan Navy’s Chief Pan Jun wiped away the blood stains on his face and glared at Chu Mu sharply.

The war which lasted for three months. All the grudge poured into Chu Mu’s soul.

He was a vessel for evil. All frustration, all rage, all hatred and all pain were received by Black Nightmare bloodline, transforming into the burning power in Chu Mu’s hands.

This grudge was so vast one could not imagine the depth. When Chu Mu completely unleashed it, the entire New Moon Land seemed to be shrouded by devil-possessed clouds. The color of the sky could not be seen, only bloody red.

“Old..... Old Sect Master Xiao!” When Madam Huo and Han Yan felt the evil aura, they trembled in fear.

Chu Mu had gotten even stronger. The more devastating this war became, the more the grudge Chu Mu received!

Old Sect Master Xiao took a glance at Chu Mu who reached the extremity of evil and plainly spoke, “The karma you incurred has to be shouldered by yourself.”

After that, Old Sect Master Xiao flew away.

In this negotiation, he only acted as a neutral party for both sides.

He did not need to be partial to any side or take pity on any side.....

The karma had been planted long ago.

Those leaders wanted to do the same thing they had done to Quiet Forest to New Moon Land.

However, they never knew that these two tragedies caused Chu Mu to grow stronger at a crazy speed.

To Old Sect Master Xiao, this was karma. They acted as they liked and caused countless slaughtering and grudges.

When the slaughters and grudges reached the extreme, the backlash would definitely occur.

The source of this backlash came from Chu Mu. This meant that from now on, Messiah Tree's revenge would begin!

Either the girl who possessed Messiah Tree's power transformed into a devil, or the sole guardian who protected her would begin a vengeance.

This was the causal loop, no pity was involved. They dyed Quiet Forest in blood without any pity. When they invaded New Moon Land, they should be prepared to pay the heavy price.

Old Sect Master Xiao turned and left.

This meant that no matter how Chu Mu took revenge on the various major factions, he would not interfere, just like when someone forbade him to interfere in this New Moon Land war at the start.....

.....

“Do you think you can oppose me after obtaining the strength of a Half Human? You're far from it!” roared Wupan Navy's Chief Pan Jun furiously.

The terrifying mental voice transformed into countless mental blades and shot towards Chu Mu's mental world.

Chu Mu's gaze sharpened and directly used his will to shatter Pan Jun's mental attack.

High class Immortal rank Deep Sea Demon swam around Chu Mu, constantly changing its location. Each time it moved, a deep water ripple would spread out in the space.

What Chu Mu saw now was countless layers of water ripples stacking up one another. This proved that Deep Sea Demon was also extremely fast on land.

Deep Sea Demon clearly possessed the ability to manipulate water. When Chu Mu's Devil Fire spread out, the water from unknown place condensed in the air, slowly occupying a domain and confronted Chu Mu's black and white Devil Fire!

Back in Imprint Valley, Chu Mu was powerless when facing this Wuapn Navy. He could only watch that masked figure getting swallowed by the storm.

The world collapsed. Chu Mu could never forget the rage he felt as he stood at the edge of the exit.

Right now, it was similarly this eagle face, similarly the powerful Deep Sea Demon which could wipe out everything in an instant, but Chu Mu had never desired for a battle like now!

This fighting spirit was burning his soul, making him forget he was a sul pet trainer, only making him remember he was a devil born for killing.

However, whenever this rage was about to swallow Chu Mu's rationality, the Monument Tears in his spatial ring would always cool Chu Mu's head, allowing him to retain the final bit of rationality in his mind!

Chanting the incantations, Chu Mu began to summon.

This time, he was facing the true Wupan leader, Wupan Navy's Chief. Chu Mu witnessed how those Immortal rank experts from Darkness Sect falling easily before that Deep Sea Demon.

Due to suppression on property, Chu Mu was not foolish enough to use his own strength to fight that high class Immortal rank Deep Sea Demon.

It would naturally be Yellow Spring Calamity which should face that Deep Sea Demon!

The water spread out like ink, tracing an ancient summoning diagram in front of Chu Mu.

Within the diagram, a water screen scattered. Yellow Spring Calamity swam out from the summoning diagram. That majestic body and low dragon tail seemed extremely tyrannical.

Similar to its appearance in the ocean, a few water elemental dragons would always swim around Yellow Spring Calamity, clustering around this ocean's ruler!

Five Undying Legends, the strongest race which ruled the ocean —— Yellow Spring!

The moment Chu Mu summoned high class Immortal rank Yellow Spring Calamity, everyone knew Chu Mu did not say empty words.

How many people could oppose Wupan Navy's Chief in the entire human territory?

Now, New Moon Land's King would be facing him!

Yellow Spring Calamity swam freely in the air. Its scales would always be accompanied by illusive waves. Those water dragons gave off a feeling that they could submerge the land into the ocean anytime if that creature wanted to!

Yellow Spring Calamity floated next to Chu Mu. Its tail seemed to be still in the ocean and slowly fluttered.

Its eyes focused on Chief Pan Jun's Deep Sea Demon.

When facing Giant Tortoise Bixi, Yellow Spring Calamity did not really treat that clumsy guy seriously. However, when facing Deep Sea Demon, Yellow Spring Calamity's gaze turned serious!

Chapter 1568: Tall Mountain Deep Ocean, Yellow Spring's Power!

Deep Sea Demon flickered and disappeared into the air.

In the next second, countless water ripples spread out in the space. Sword reflections in water flashed around little Yellow Spring.

Suddenly, all the ripples froze. Streaks of sharp water reflections shot out and transformed into tens of thousand streaks, swarming towards little Yellow Spring.

Those were all Deep Sea Demon's claw blades. It used its terrifying speed to swing out tens of thousands of water reflection claw blades, attacking from all directions!

The density of this attack did not allow for any evasion. Even Chu Mu was included in the attacking range.

Little Yellow Spring Calamity calmly focused on the approaching water reflection claw blades. It slowly raised its dragon tail and swept in a full moon sweep.

Along the path of the sweep, some silver moon scars appeared in front of Chu Mu and little Yellow Spring.

The claw blades rained down on little Yellow Spring's Protection Moon Scar.

Cracks kept forming on Protection Moon Scar, but this Protection Moon Scar was sturdier than Chu Mu's expectation. Even after countless cracks opened up by Deep Sea Demon's claws, it did not shatter.

The tens of thousands of water reflection claw blades reached its final wave. Chu Mu sensed an unnatural fluctuation in the space.

As expected, in the final wave of water reflection claw blades, Deep Sea Demon's fatal claws cleaved down from the ripples and broke through the tattered Protection Moon Scar. The claws continued down unhindered towards little Yellow Spring's head.

Little Yellow Spring Calamity's reaction was a little slower. That cleave smashed onto its scale and knocked it away.

Yellow Spring Calamity skidded for a long distance before stopping. A deep scar appeared between the pair of still growing horns. Blood began seeping out from the scar which ran from the forehead to the nose.

Yellow Spring Calamity's defense was not weak by any means. Even Giant Tortoise Bixi's attack might not leave a blood scar on its body. Chief's Deep Sea Demon could injure Yellow Spring Calamity in such a short time, it proved how dangerous those sharp claws were.

Deep Sea Demon's attack was not over yet. A watery silhouette rapidly dashed forward and circled around little Yellow Spring Calamity.

The water dragons surrounding little Yellow Spring Calamity were shattered by this force and turned back into puddles of water.

The circling watery silhouette kept grazing past little Yellow Spring Calamity without any patterns.

Calamity was already very agile, but it could not completely avoid that creepy watery silhouette.

Whoosh!

A streak of frost flash strayed off to Heavenly Mountain Range.

In an instant, the mountain range was cut horizontally. Dozens of ice peaks collapsed and became a large scale avalanche!

Just one streak of frost flash could sever dozens of mountains. How terrifying were the thousand streaks of frost flash revolving around Yellow Spring Calamity!

Water dragons kept manifesting around Yellow Spring Calamity. However, the rate of appearance was still slower than Deep Sea Demon's attack speed. Each time a water dragon disappeared, there would be an opening and Yellow Spring Calamity's scale would receive a scar!

These scars ranged from shallow to deep. Some only left a mark on Yellow Spring Calamity's defensive scale armor, some cut into the flesh and blood seeped out.

“Ni!”

Calamity became angry and roared.

A huge wave suddenly rose up from beneath its limbs.

This wave transformed into hundreds of water dragons and wildly rampaged in all directions!

Deep Sea Demon seemed to have realized the strength of this technique and immediately stopped its attack. Its agile body turned into a water tornado and weaved through those water dragons. It maintained a distance that was safe and could attack Yellow Spring Calamity immediately.

“Your Yellow Spring has quite a bad temper,” mocked Chief Pan Jun.

Exhausting such a vast amount of energy and stamina to release this wide range attack, yet none could touch Deep Sea Demon. Chief Pan Jun could ascertain that this Yellow Spring Calamity’s battle experience was no different from a child. It was using strength that did not match its mental age.

“Calamity, calm down,” Chu Mu flew to Calamity’s side and stroked its horn.

Mermaid princess Lan Qie told Chu Mu that Calamity was at tenth phase and possessed even stronger power than other Yellow Springs. However, Calamity’s growth was actually catalyzed. It had never experienced the real process of growing to tenth phase. It possessed such power from childhood.

This was why it caused so many troubles. High class Immortal rank’s power signified destruction. If it did not know how to control, disaster would follow wherever it went.

“Its speed is very fast and its attack is very strong. You have to think of a way to even the different in speed first,” Chu Mu taught Yellow Spring Calamity.

Chu Mu was really furious right now. However, as a soul pet trainer, he had to maintain the calmest mind to console his soul pet.

Chief Pan Jun was a formidable enemy. Deep Sea Demon's water property would severely suppress Chu Mu's fire property. If he wanted to completely defeat Chief Pan Jun, Calamity had to defeat Deep Sea Demon here.

After all, Chief Pan Jun definitely possessed more than one high class Immortal rank soul pet. Only by finishing off Deep Sea Demon which had water property, Chu Mu's Dual Evil half Devil could truly display its strength. Furthermore, he still had to let the entire eight major faction subjugation alliance taste his grudge flame!

"Ni~!" Yellow Spring Calamity's frustrated gaze gradually returned to calmness.

It began twisting its body and swam in a semi-arc in the air.

This arc slowly began manifesting many water sigils and glowed.

Like a crescent moon filled with strange sigils, this moon was filled with an ancient mysterious arcane power unlike the Protection Moon Scar just now.

This crescent moon laid silently there like a moon-shaped mirror.

Yellow Spring Calamity opened up its step and suddenly stepped on this moon with its front limb.

Bam!

The moon shattered crisply and turned into water after falling.

Meanwhile, the sigils on the moon seemed to have broken free from the restraint and hovered around Yellow Spring Calamity as if they were alive.

These water sigils were not as majestic as water dragons cuddling around it. However, Chu Mu could sense the unique spirituality from them. Yellow Spring Calamity's body also seemed to have lightened up after those water sigils revolved around it.

"Young master, water dragons represented Yellow Spring's power. These water sigils represented Yellow Spring's spirituality. Please pay attention to Yellow Spring's body," Old Li's voice could be heard.

Chu Mu immediately looked down and noticed Yellow Spring Calamity's body gradually becoming slim.

The powerful physique of the unicorn slowly stretched out to become the slim and agile figure of a dragon.

"Different forms possess different techniques. Most Yellow Springs cannot change their form freely. This little Yellow Spring is the proud son of Eternal Ocean as expected. Its body seems to contain many strange abilities, young master must carefully discover them. In this spiritual form, Calamity's strength will be weakened, but it's enough to finish off a Deep Sea Demon with poor defense," said Old Li.

Chu Mu nodded and told Yellow Spring Calamity, "It's coming."

Calamity's eyes gradually filled with fighting spirit, its tail was swingly lightly.

Its pupils did not shift directions and stared hard at a single spot.

Meanwhile, Chu Mu's Other Pupil and Sharp Eye also activated. The silver rotation was transmitted into little Yellow Spring's pupils. In little Yellow Spring's eyes, Deep Sea Demon's unpredictable movement gradually changed from unable to capture to blurry, then from blurry to clear.

With a glare, Yellow Spring Calamity's swinging tail suddenly disappeared.

Its slim body turned into a thunderbolt that swept across everything!

Slap!

The dragon tail whipped the air.

A cracked appeared in space, it seemed that nothing was hit.

However, in the next second, a blood stain appeared within that cracked space. Deep Sea Demon's body appeared and was falling down towards the ground.

Boom~!

Deep Sea Demon crashed into the frozen ground and swept up the snow.

Seeing this scene, Chief Pan Jun's expression darkened and his eyes turned as sharp as a blade.

Chief Pan Jun had fought against a Yellow Spring in ocean before, so he was familiar with the ability Yellow Springs possessed.

However, Chief Pan Jun did not know Yellow Springs actually possessed different forms. The Yellow Spring he encountered did not have the ability to transform into different forms.

Calamity's spiritual form caught Deep Sea Demon and Chief Pan Jun by surprise. Even Deep Sea Demon which was known for its speed could not dodge that lightning flash tail sweep.

Clearly, the water sigils around Yellow Spring Calamity boosted its observation ability and speed.

Chu Mu had already poured the attitude of not giving the enemy a chance to recover to little Yellow Spring Calamity. After sweeping away Deep Sea Demon, Yellow Spring Calamity vanished in the air.

In the next moment, it already appeared on top of Heavenly Mountain. Its tail wrapped around an ice peak and its eyes looked down at the spot Deep Sea Demon crashed on.

Its pupils kept flashing and the ice on the ice peak began melting.

Ice melted into water. The water first became streams of river between mountains, then slowly accumulated into a lake at the mouth of the mountain.

The lakes then connected with one another along with the downpour and became an ocean.

The ocean swallowed halfway up the mountain. The waves rumbled but did not flow down to the lower ground. They just gathered on the tall mountain!

An ocean on a tall mountain!

What a beautiful and astonishing scene.

Calamity was the ruler of this ocean. When Deep Sea Demon got out of the snow pile, this ocean was right above it.

Now, it could not escape this rampaging ocean no matter how fast it was!

Chapter 1569: Death Graveyard, Destroyed Stronghold

The melted ice peak poured down from the mountain. The force broke through all the mountains blocking the way.

Rock and water tumbled down together. Deep Sea Demon just got up from the snow pile and was swept into the raging waves.

Deep Sea Demon was similarly a water type creature. However, its control over water was far inferior to Yellow Spring. When the ocean poured down, the shield it created did not last long before getting crushed.

The raging tide flowed down the slope carrying destructive force all the way towards the stronghold built in Cloud Realm.

There were hundreds of thousands of soldiers still inside the stronghold. They were not as strong as the initial batch, there were many Emperor rank soldiers mixed in the army.

When the people from the stronghold saw an ocean tumbling down from the sky, it felt as if the sky was falling down!

Once this ocean swept past, the newly built stronghold would definitely be destroyed!

Chief Pan Jun's expression turned dark. He flew towards the stronghold and chanted an incantation.

A large soul pet diagram appeared in front of the stronghold. Within the diagram, a monster with giant upper torso, six arms and rock beast lower torso appeared.

This monster was enormous, its head reached half of the stronghold's height after standing up. Its robust and solid body stood firmly like a castle wall, protecting this stronghold.

"Boulder Wall!" ordered Chief Pan Jun.

That half giant half rock beast monster roared and forcefully flipped up the earth beneath its feet, forming an arc-shaped rock screen, hiding the entire stronghold behind the screen.

The water flowed down and crashed onto this rock screen.

This rock screen was very solid, the water was still split by the screen despite the amount.

The stronghold was built in the middle of the mountain slope. The water flowed down from the higher spot, but could not destroy this stronghold due to the rock screen blocking the path. The water flowed down from the two sides of the stronghold towards the plain further down.

The flow lasted for a long time, almost breaking the rock screen several times. However, this Rock Giant Beast used its control over rock and kept reinforcing the rock screen. The rock screen finally lasted all the way until the end of the flow.

“Another high class Immortal rank,” said Old Li.

Chu Mu knew this Chief would not be an easy opponent. He took a look at Deep Sea Demon which laid limp and at Wupan Navy’s Chief who was standing on that Rock Giant Beast’s body.

“Calamity, you handle that Deep Sea Demon, don’t be reckless. You can definitely defeat it with your strength,” Chu Mu told Yellow Spring Calamity.

Calamity nodded. Chu Mu’s words meant that he would not be guiding it in the following battle. It had to fight Deep Sea Demon by itself.

Chu Mu jumped down from Yellow Spring Calamity’s back and chanted an incantation.

The black diagram gradually took shape in front of Chu Mu. A black shadow suddenly flew out, leaving deep dark footprints in the air after dashing through the sky and disappearing.

Another black shadow appeared. It seemed gigantic and intimidating.

A black war tiger stepped out from the black shadow, its steps overlapping those dark footprints!

It had sharp black armor, powerful limbs and robust body, as well as a pair of calm and merciless eyes.

“Zhan Ye?? Is Chu Mu intending to let Zhan Ye take on that high class Immortal rank Rock Giant Beast?” In the distance, Chao Lengchuan watched Chu Mu’s summoned soul pet in astonishment.

Chu Mu’s soul pets were already very strong. Little Hidden Dragon, Zhan Ye, Night, Ice Air Fairy and Dead Dream. It had always been difficult to estimate the true strength of Zhan Ye due to its uniqueness.

When Chu Mu summoned Zhan Ye, everyone was surprised to notice Zhan Ye had reached middle class Immortal rank!

The difference between middle class Immortal rank and high class Immortal rank was not as simple as it seemed. However, did that mean Zhan Ye, which had always been challenging enemies one or two ranks above it, would not dare to fight that Rock Giant Beast?

Chu Mu issued his order. Zhan Ye pounced towards that Rock Giant Beast in a flash.

Zhan Ye's attack strength obviously could not break Rock Giant Beast's defense. Its attacking method was simple, by using its Ink Armor Spikes which ignored defense.

Rock Giant Beast did not really bother about Zhan Ye and focused on Chu Mu instead.

It waved its six arms and threw rocks even larger than itself towards Chu Mu.

The weight of those rocks could easily crush a city, Chu Mu did not try to block this force head on.

The rocks flew towards him one after another, his body suddenly dimmed.

Whenever a rock was about to hit him, his body would creepily stack together with the air and became a cluster of air. Once the rock flew past, his body would reappear.

The rocks flew to Heavenly Mountain Range. The tall mountain peaks disappeared in loud crashing noises.

Chu Mu's black and white burning body continued gliding towards the stronghold.

His physique was not as eye-catching as Rock Giant Beast. However, when that burning body hovered above the stronghold and looked down on this stronghold, everyone could feel an emotionless disdain!

Chu Mu raised his black left hand and chanted an incantation.

Death Graveyard!

A terrifying black swirl appeared above the stronghold.

When the swirl revolved, people could see a huge graveyard burning in black flame descending from the sky.

This Death Graveyard was different from Evil Mound. It was not an ability that restrained the enemy, but a pure attack that crushed the enemy!

Booom!

The first burning graveyard landed. It landed right in the center of the stronghold. There was an unknown Monarch rank army camped there.

Before the graveyard touched the ground, the black flame already swept across the streets. When Death Graveyard landed, the army and that region vaporized into nothing!

The black flame wave spread out with the black graveyard as the center. Screams instantly rang out from the stronghold!

Some soul pet trainers who reacted quickly rode on their soul pets and escaped out of the range.

However, when they were running about in the stronghold, a huge shadow appeared above them.

This shadow swallowed all the light and reflected black glow.

The shadow and black glow grew larger and larger. Looking from afar, it appeared like ants scurrying away from a slowly descending huge foot. No matter how the ants tried to run, they could not run out of the range.

Boom!

Another crushing sound. This graveyard caused another terrifying disaster in this stronghold. Countless armies were swallowed up.

Monarchs, Emperors, and even Dominators, any living being within the range of Death Graveyard could not survive!

The stronghold was large, it could hold hundreds of thousands of people.

The streets were complex and the buildings densely packed. The area these two Death Graveyards covered was just a portion of the stronghold.

However, when the people in the stronghold raised their head and saw that terrifying black swirl in the sky, everyone blanked out after watching the countless Death Graveyards descending from the swirl.

What they could do was to pray that the graveyard would not appear above them.

“Defend! Gather your soul pets and form a defensive formation!”

Divine Sect’s Gate Master Han used mental voice to remind the people in the stronghold.

Looking down from above, dozens of regions in this stronghold had been swept into the disaster caused by Death Graveyards. The black and cruel flames kept burning everything in the stronghold into ash.

Occasionally, there were armies of thousands cooperating to cast elemental barriers of different colors above them.

However, when the black graveyard fell onto them, no barrier worked and they were squashed into nothing!

.....

Above Heavenly Mountain, the New Moon Land army watched the scene unfolding on the enemy stronghold.

The tremor caused by each Death Graveyard could be felt even at their side.

A stronghold, hundreds of thousands of soldiers.

It should have been an insurmountable force.

However, for some reason, that force became so insignificant. Before Death Graveyard, they became weak and tiny ants. Clusters and clusters of them were squashed and burned to ash.

It was really difficult to imagine their king to possess the strength of destroying a stronghold. Their king could deal such a devastating blow to an army.

From the start, New Moon Land had been in the position of being invaded. Everyone personally witnessed New Moon Land's cities crumbling into rubble and slaughtering fields.

When they saw the enemy stronghold ending up like this, they would not feel sympathy, but vengeance instead.

With such a powerful and merciless king, why should they ceasefire??

It was time to counterattack the enemy base!

Chapter 1570: Person From Heaven Palace

Death Graveyards crashed down one after another like a meteor shower.

The stronghold became charred land under the baptism of black flame.

Levitating above the stronghold, Wupan Navy's Chief Pan Jun furiously glared at Chu Mu.

He was not pitying the armies crushed by Chu Mu, but Chu Mu's action of completely ignoring him.

"Get lost!" Chief Pan Jun swept a glance at Zhan Ye irritably and ordered Rock Giant Beast to throw its six huge rock punches towards Zhan Ye.

Zhan Ye could not dodge an attack from high class Immortal rank. It used its soul shadow to protect its vital parts and received Rock Giant Beast's attack.

Six rock punches hit Zhan Ye's body consecutively, each punch shattering Zhan Ye's armor.

Chu Mu saw that scene from a high spot. He stopped the bombardment towards the enemy stronghold and chanted an incantation, directly exploding the air in front of Rock Giant Beast's head!

When the fourth punch was about to hit Zhan Ye, the air in front suddenly exploded, flinging its entire head back. Its body was pushed back and crashed into the stronghold wall.

Zhan Ye was still at middle class Immortal rank. Even though its life force was six times higher than other creatures, it would be killed before getting to use Broken Limb Rebirth if it received such consecutive attacks.

Before Zhan Ye could boost its strength to a certain level, Chu Mu had to protect Zhan Ye to some degree.

After Zhan Ye was protected by Chu Mu, it immediately used Broken Limb Rebirth.

Its shattered armor rapidly regenerated, the bloodied body became even more robust.

Ancient Power Awakening.

The ancient marks on Zhan Ye's armor brightened a little, the soul shadow also became clearer.

Chu Mu landed next to Zhan Ye. His silver right pupil began rotating, glowing wickedly silver.

Zhan Ye's black pupils similarly began to glow silver. After a while, every motion in Zhan Ye's eyes became slower.

Rock Giant Beast was not fast in the first place. After Chu Mu applied Other Pupil to Zhan Ye, Rock Giant Beast's movement could be described as clumsy.

“Dark Blessing!”

With an incantation, Chu Mu split out a cluster of burning mantle from his black Devil Fire.

The mantle drifted to Zhan Ye and wrapped around its body.

Zhan Ye's soul shadow was gradually filled with this darkness energy and black flame, becoming a ferocious evil dark flame soul shadow!

“Grrr!”

After receiving the effect of darkness property and burning soul shadow buff, Zhan Ye's savage characteristic was fully displayed.

It once again pounced towards Rock Giant Beast.

It was the same Ink Armor Spike attack. Before its claws were sharp enough, Ink Armor Spike was the only weapon which could deal damage to Rock Giant Beast.

However, Zhan Ye's Ink Armor Spike had dark flame effect this time. Rock Giant Beast could not block the invasion of this flame which burned the soul directly no matter how thick its armor was!

A piercing attack that ignored the defense, a burning effect that burned the soul directly. Rock Giant Beast naturally could not belittle Zhan Ye's attack now.

Rock Giant Beast would be handled by Zhan Ye, Chu Mu could continue his attack to destroy this stronghold.

When Chu Mu flew towards the sky above the stronghold, he noticed many figures flying up from the stronghold. They surrounded him as if facing a powerful foe.

Chu Mu took a glance at the dozens of Immortals and sneered.

Han Yan, Madam Huo, Gu Xinshui and the others were all amongst those Immortals. He was unable to kill them the last time, then he would not let them escape this time.

“Little Hidden Dragon,” With an incantation, a creepy ghost diagram appeared in front of Chu Mu.

Within the diagram, Little Hidden Dragon drifted out without disturbing the air current and levitated next to Chu Mu.

These Immortal rank souls would be the nourishment for Little Hidden Dragon to reach high class Immortal rank!

If he made Little Hidden Dragon fight them one by one, it would be too time consuming. He would just bind all these Immortals up together and let Little Hidden Dragon slowly devour them.

Chu Mu stretched out his left hand which was burning in black Devil Fire. A cluster of black grudge aura rotated around his arm.

Suddenly, the black grudge aura transformed into long ghost tongues, shooting towards a low class Immortal rank Dawn Bird.

The black ghost tongue entangled this Dawn Bird. It desperately flapped its wings, but its neck was tightly bound. What was more terrifying was that the neck was gradually turning black and spreading towards the entire body.

Soon, when Dawn Bird completely turned black, it could no longer move and appeared like a black statue floating in midair.

Just as those Gate Master rank experts were getting shocked, that ghost tongue suddenly branched out.

Three black ghost tongues shot out and rapidly entangled the nearing three Immortal rank soul pets. Those three Immortal rank soul pets were also getting dyed black.

“Ao!”

Suddenly, Little Hidden Dragon appeared next to that Dawn Bird!

It opened its mouth and bit onto Dawn Bird’s body. Its specter dragon fang pierced through Dawn Bird’s body and forcefully tore its soul out.

Dawn Bird’s soul struggled and screamed in pain.

However, non-specter type creatures could do nothing once their souls were pulled out.

Little Hidden Dragon bit off Dawn Bird's wing. Dawn Bird could do nothing no matter how it struggled. Next, the entire soul was devoured by Little Hidden Dragon.

After eating Dawn Bird's soul, Little Hidden Dragon turned towards the three Immortal rank soul pets newly bound by ghost tongues.

It flapped its wings and flew towards those three Immortal rank soul pets to continue its meal.

Pseudo Immortal rank, low class Immortal rank, middle class Immortal rank, over forty Immortals appeared, but they could do nothing. Since they wanted to prevent Chu Mu from destroying the stronghold, then they had to feed his soul pet with their souls!

Chu Mu swung his left hand again and more ghost tongues flew towards those Immortal rank soul pets.

Once these ghost tongues hit a target, they would transmit the restrain and black seal. If the target could not struggle out, then what awaited the target would be getting the soul devoured.

The forty Immortals turned pale, especially after hearing the screams of those whose soul pets were eaten.

They originally thought they could resist Chu Mu by cooperating, but they underestimate the power Chu Mu accumulated over this war. Before his technique, even middle class Immortal rank soul pets could not fight back, let alone low class or pseudo Immortal rank!

"How noble, you're willing to sacrifice yourselves to help those armies to retreat??" Chu Mu's flaming face cracked open a smile. He looked at these trembling cowards with interest.

Noble?

Not many Immortals would care about the lives of those weak soul pet trainers. The reason they could reach this height was because they stepped over the corpses of countless people.

When these Immortals realized their attacks were ineffective before Chu Mu and their soul pets were only feeding Chu Mu's soul pet, they already lost their fighting spirit.

Little Hidden Dragon ate a total of seven souls. These Immortals immediately escaped in all directions.

Chu Mu watched these laughable human experts, and his eyes suddenly locked onto Gu Xinshui.

“Do you think you can escape?” mocked Chu Mu as he stared at Gu Xinshui.

He let Gu Xinshui escape last time in order to save Mu Qingyi.

This time, Chu Mu would be reaping Gu Xinshui's life for sure.

With a casual swing, the black ghost tongue shot out.

No matter how fast Gu Xinshui escaped, he could not be faster than a high class Immortal rank half devil's attack.

The black ghost tongue wrapped around Gu Xinshui's neck and dragged him back to Chu Mu.

Gu Xinshui's face was completely pale, he desperately called for assistance to the other Gate Masters.

The other Gate Masters were desperately trying to escape themselves, nobody had the leeway to care about him.

On Chu Mu's right hand, the silver flame had been prepared for Gu Xinshui. Suddd, a silver flash slashed past and cut the ghost tongue.

A figure appeared, holding Gu Xinshui with one hand.

He had a pair of purple pupils, giving off an arrogant and emotionless gaze, as well as a little disdain. He stared at Chu Mu, that attitude seemed as if Chu Mu's rampage was just a child's tantrum.

Chu Mu was not surprised, he knew this person would definitely show up.

He was Yu Suo's enemy. Chu Mu did not know who he was, but he definitely came from that unknown Heaven Palace.

This man did not say anything. He just stared at Chu Mu with his arrogant attitude.

Chu Mu similarly stared at this mastermind who planned the entire war.

With Chu Mu's current strength, he was no match for this man. However, Chu Mu was not afraid of him.

Dark Death King was lying in his soul pet space right now. With Chu Mu's current strength, he could order Dark Death King to fight to some extent.

If that man could not hold back and attack, Chu Mu would gladly fight back.

If he and Dark Death King fought above this stronghold, even if it was a draw, the entire stronghold would be rendered to nothing after the battle!
