

## **Soul Pets Bk2 1571**

Chapter 1571: Pulling Up An Entire Stronghold!

The man did not make any move. He held up Gu Xinshui and flew back.

His flying speed was very fast. After flying into a cluster of white clouds, he completely disappeared from Chu Mu's sight.

Chu Mu did not pursue. Why did that man from Heaven Palace show up? Why did he want to destroy New Moon Land? Chu Mu had no clue about them. However, one thing was for certain, this man was his enemy.

The appearance of this man allowed those Immortals to escape despite not making any other moves.

Chu Mu randomly caught a few and threw them to Little Hidden Dragon, allowing it to slowly savor their souls.

Looking down, the subjugation alliance within the burning stronghold took up formations and created layers of barriers to prevent Chu Mu's attack from crashing down again.

Those Immortals also escaped back to their camps and the crowds gathered around them.

If forty Immortals could not defeat Chu Mu, they would use their vast army to destroy Chu Mu.

In the sky above the stronghold, many figures moved about and took up a square formation. All the armies locked onto Chu Mu.

Incantations were being chanted, powerful elemental fluctuation caused the air above this stronghold to become viscous.

“Attack!”

Someone gave the order. A terrifying energy storm instantly surged up from the armies.

Countless techniques flew through the air and shot towards Chu Mu who was high above the stronghold.

From all directions, those techniques rained down like arrows towards Chu Mu, carrying the energy of destruction.

Chu Mu looked around and felt as if he was completely wrapped inside the technique rain, there was no gap at all.

If there were only a few armies, Chu Mu could easily wipe them out.

However, when dozens of armies unleashed their techniques simultaneously, that destructive power could even injure high class Immortal rank.

Chu Mu was not so foolish to clash against hundreds of thousands of people frontally. The black and silver Devil Fire on his body suddenly separated. His body turned into black and silver starlight, rapidly flying out of the stronghold area.

The two streaks of starlights twisted and turned, crossing through the densely packed technique rain.

Boooooooooom!

The different types of energy clashed above the stronghold. Shockwaves rippled out and the raging air currents swept to the ground.

Claw marks, breath, horn thrust, wing slash, shadow strike, the attacks from demons tore the space into pieces. Long tears remained in the sky.

Thunder, flame, ice, sand, light, the energy generated by elementals possessed far more destructive power than demons. The elemental storm shook the earth and made one feel as if an apocalypse was happening.

The endurance of space was limited. Once too much energy gathered in one area, the space would shatter like a mirror and generate a huge blackhole.

Once the energy dissipated, the space would be repaired. The reparation of space was another disaster. The blackhole would trigger air currents and stir the space, pulling everything in the vicinity into an alternate dimension. Be it living creatures or non-living things, the blackhole would swallow all!

In order to wound Chu Mu, the armies in the stronghold did not consider the terrifying side effect of accumulating so much energy in one spot. As the blackhole spread wider and wider, the storm

generated also became stronger and stronger. There were already soul pet trainers getting pulled into the sky and disappeared inside the blackhole.

The target of the attack was Chu Mu, Chu Mu was within the suction range of the blackhole right now.

When those Gate Masters who controlled those armies noticed Chu Mu was within the range of the blackhole, they madly ordered their armies to continue attacking.

Such continuous attacks would cause the blackhole to enlarge even further. Just like how Imprint Valley collapsed, the terrifying blackhole would swallow everything, including this world.

For the sake of killing Chu Mu, these Gate Masters already lost their rationality to consider the aftermath. More techniques were thrown towards Chu Mu.

Chief Pan Jun similarly wanted to kill Chu Mu. Seeing Chu Mu getting dragged into the blackhole storm, he chanted an incantation again.

A huge eagle with a metallic body suddenly appeared. Chief Pan Jun jumped onto this Four-eyed Steel Eagle and flew towards Chu Mu.

“Let me send you to hell!” sneered Chief Pan Jun.

Right after his words, his Four-eyed Steel Eagle began flapping its wings crazily!

The turbulent air currents generated by Four-eyed Steel Eagle swept towards Chu Mu while carrying silver energy beams.

Chu Mu was still crossing through the densely packed elemental techniques and slowly flying away from the blackhole. However, when Chief Pan Jun's Four-eyed Steel Eagle attacked, Chu Mu's body was clearly getting dragged towards that terrifying blackhole.

Within the blackhole storm and watching the barrage of techniques, Chu Mu simply stopped resisting and allowed the blackhole to suck him in.

The body burning in black and silver flames instantly disappeared. Chu Mu's body was swallowed into the blackhole along with the rubbles and fell into another world.

"Huhuhuhuhuhu!"

After the blackhole swallowed Chu Mu, the armies also ceased their attacks.

However, the blackhole still had to be filled. An immense suction force that almost pulled the entire stronghold off the ground appeared. Soul pets and soul pet trainers hovering above the stronghold were getting pulled away one by one!

That scene looked like a bottomless hole appearing within the ocean. Everything would be poured into that bottomless hole, be it living things, plants, rocks or cities.....

Those armies began stacking up barriers to prevent the stronghold from getting sucked into the blackhole.

However, not all barriers could resist this suction force. When more and more people were swept into the blackhole and lost their lives, those Gate Masters finally realized they had just created an energy destruction themselves.

“Chief, help us block that blackhole!” Tactician Ning An used mental voice to speak to Chief Pan Jun.

Chief Pan Jun actually did not really bother about the deaths of so many people. The reason he was so cold-blooded was because whoever stood at the peak and lived for hundreds of years would slowly be enlightened. When you step into a higher realm, you would stop treating those weaker ones as your own kind.

However, even though he would not care about those feeble lives, as a human leader, he had to save those seemingly still useful armies.

Chief Pan Jun rode on his Four-eyed Steel Eagle and flew to the center of the stronghold. His Four-eyed Steel Eagle began spreading out its wings wider and wider!

The steel feathers covered the sky. At first, it started at the center, then slowly spread to one quarter of the stronghold area. Furthermore, it was still spreading.

The blackhole madly sucked everything in. Those people who were swept into the sky clashed onto Four-eyed Steel Eagle’s wings and remained stuck to them like little magnets.

A technique that could protect half a stronghold let those armies heave a sigh of relief.

“Gosh, what’s that!?”

Suddenly, Wupan Navy’s tactician Ning An screamed.

Those people not covered by the steel wings raised their heads and were shocked to notice a black and silver devil figure appearing at the center of the blackhole!

That devil figure was filled with otherworldly craziness and arrogance. He was standing at the center of this destructive blackhole!

His hands seemed to be grabbing onto something and were using brute strength to tear open the closing blackhole!

“He did not get sucked away by the blackhole, he is tearing the blackhole!” When tactician Ning An saw such a horrifying scene, his eyes instantly turned listless!

Standing at the center of the blackhole and tearing open the gap of this space? Could that still be considered the strength of a human??

“Huhuhuhuhu!”

The blackhole was getting torn bigger and bigger. The suction storm was becoming stronger and stronger.

More and more people were dragged off the ground and flew towards the blackhole along with all the rubbles in the stronghold.

“Let me see if you can protect this stronghold.”

Chu Mu stood within the blackhole and laughed menacingly.

The blackhole storm was getting more and more terrifying. The entire stronghold’s foundation gradually started to show cracks.

These cracks stretched from east to west. As the cracks widened, the entire stronghold suddenly shook violently!

At Heavenly Mountain, New Moon Land army did not attack the stronghold recklessly. They were astonished to see that the stronghold was getting pulled out from the ground. The entire stronghold began leaning!

A stronghold was forcefully pulled up!

The power displayed by Chu Mu after transforming into Dual Evil Half Devil made New Moon Land’s members unable to believe their eyes!

Chapter 1572: War That Swallowed The Enemy Stronghold!

Four-eyed Steel Eagle’s burden was getting heavier and heavier. If it really wanted to protect this stronghold and the armies inside, it meant Chief Pan Jun and this Four-eyed Steel Eagle would be sucked in by the blackhole if the blackhole enlarged a little bit more.

Half Devil Chu Mu's strength already made Chief Pan Jun feel wary. Even the blackhole could not swallow Chu Mu. If he fell into that spatial blackhole with his soul pet, his Four-eyed Steel Eagle would not stand a chance.

Finally, Chief Pan Jun gritted his teeth and issued an order to his Four-eyed Steel Eagle.

Four-eyed Steel Eagle's wings began to shrink. From the original half of the stronghold to the size which protected only some important armies.

Without the protection, those soul pet trainers and soul pets that were sticking to the wings screamed in panic.

They were sucked away like dust. They could not resist the suction force of the blackhole and were swallowed inside.

There was even an army of a thousand people getting swept up into the blackhole and vanished.

The stronghold's foundations were broken from the root. Some stronger armies might be able to secure the stronghold surface using barriers. However, if the entire stronghold was sucked into the blackhole, their barriers could do nothing no matter how powerful they were.

The commanders and Gate Masters in the subjugation alliance turned pale. This blackhole was created because they tried to kill Chu Mu using quantity. In the end, it became the weapon Half Devil Chu Mu used to annihilate them instead.

"Chief, please think of something!" shouted Gate Master Han.

Chief Pan Jun's expression turned grim. He took a glance at his Rock Giant Beast which was still fighting that middle class Immortal rank Battle Beast Zhan Ye Mo Ye and issued an order frustratedly.

Rock Giant Beast opened up its stride, its heavy armor flew up high and heavily stomped on the center of this stronghold.

The stronghold's foundation had split from the earth and severely slanted. Rock Giant Beast's stomp forcefully pushed the stronghold back into the earth!

Rock Giant Beast possessed rock property. After its four limbs stepped onto the center of the stronghold, it unleashed rock gravity and used its body to hold the stronghold down.

The stronghold barely regained a little stability, but many people were still thrown into the sky. Some wing type creatures desperately flapped their wings, but their bodies were glued to the spot and slowly pulled into the blackhole. If nobody helped those creatures struggling in front of the blackhole storm, they would not be able to escape in the end.

“Grrr!”

Zhan Ye did not miss this chance. When it saw Rock Giant Beast working hard to stabilize the stronghold, it tailed after Rock Giant Beast. Once Rock Giant Beast's center of gravity slanted, it fiercely drove its Ink Armor Spike into Rock Giant Beast's back.

Chu Mu applied black Devil Fire soul shadow to Ink Armor Spike. These spikes not only ignored defense and injected the dark corrosion into Rock Giant Beast's body, the soul flame also squeezed into Rock Giant Beast's soul.

“Nong!”

Rock Giant Beast cried in pain, its body began to shake.

While it was shaking, the already unstable stronghold also began shaking. Many of those soul pets maintaining the barriers were toppled down.

In this situation, once the gravity was lost, it meant getting lifted off the ground.

Hence, another batch of soul pets and soul pet trainers were swept into the sky.

“You bunch of trash, don’t you know you need to stop it!?” scolded Chief Pan Jun as he looked down on those commanders and Gate Masters from Four-eyed Steel Eagle’s back.

Those people naturally saw Zhan Ye’s pursuit. However, Zhan Ye was too fast, they could not even interfere in time.

After getting scolded by Chief, Madam Huo, Han Yan and Ning An hurriedly rode their soul pets and charged towards Zhan Ye.

Behind those three, there were still over twenty Immortals.

These people dared not face Chu Mu, but could easily finish off this Zhan Ye Mo Ye.

The majority of the armies within the stronghold were still suppressed by the blackhole Chu Mu tore open, only Immortal rank creatures could move freely.

However, if the entire stronghold was pulled into the blackhole, even these Immortals might not be able to survive.

Zhan Ye did not back off. Its cold and black eyes focused on all those Immortals surrounding it.

Madam Huo's Shadow Flame Beast, Ning An's Whale Monster, Han Yan's Light Tiger, as well as over twenty Immortal rank creatures following behind them, quickly surrounded Zhan Ye in the stronghold. They did not leave any gap for Zhan Ye to escape.

"This is his soul pet, killing it will deal damage to his soul," said Madam Huo.

"Go, kill it," Ning An ordered his subordinates behind him.

Zhan Ye's strength was definitely weaker than Chu Mu. Chu Mu could face over forty Immortals by himself, but if Zhan Ye faced these twenty plus Immortals, it might be killed before using Broken Limb Rebirth.

The encirclement by these people would be even more troublesome than facing a high class Immortal rank Rock Giant Beast.

“Ao!”

A pale blue Hidden Dragon flew out from between two barracks.

When Little Hidden Dragon flew past the tilted buildings while flapping its wings powerfully, those buildings were easily smashed into smithereens.

Little Hidden Dragon landed above a lighthouse, its pale blue eyes examined these Immortal rank soul pet trainers.

“That Spectral Hidden Dragon which can devour souls.....” said an Ocean Lord with a grim expression.

Not long ago, this Ocean Lord’s companions had their souls devoured by that Hidden Dragon. He could still recall the desperate screams his companions made.

Little Hidden Dragon was very close to high class Immortal rank. Once it swallowed a few valuable souls, it might be able to reach high class Immortal rank.

In the war over the past three months, Little Hidden Dragon had devoured countless souls. It was now in the budding period of advancing a rank. If it could devour enough souls to advance, the subjugation would be facing a truly devastating disaster.

It was clear to see that Yan Han and the others did not know Little Hidden Dragon obtained strength by devouring souls. They also did not know Little Hidden Dragon intended to use their souls to help it reach high class Immortal rank. They were only thinking about killing Chu Mu’s soul pets as they had over twenty on their side.

“You handle that Hidden Dragon, we will finish off this Battle Beast Mo Ye,” Han Yan told Ning An.

Ning An’s expression turned dark. Why did they have to take on that Hidden Dragon which could devour souls instead of Divine Sect and Fire Sect?

However, it was not the time for such squibbles. Ning An took a glance at those Ocean Lords behind him and issued the order.

The Immortals split into two teams and began attacking Zhan Ye as well as Little Hidden Dragon.

Furthermore, some experts who could still move also started gathering towards this area.

They all knew these two were Chu Mu’s soul pets. Once they killed these two soul pets, they could deal a heavy blow to Chu Mu’s soul.

There were quite a number of experts within the subjugation alliance. Little Hidden Dragon and Zhan Ye gradually attracted more and more enemies. They were completely surrounded without any chance to escape.

.....

“Chu Mu’s Zhan Ye and Little Hidden Dragon are surrounded,” Chao Lengchuan witnessed the scene from high ground.

He took a glance at Chu Mu's Yellow Spring Calamity again.

Yellow Spring Calamity and that Deep Sea Demon had already shifted their fight to Heavenly Mountain's peak. One could occasionally see huge tides sweeping down from above. It was not feasible to ask it for help.

“Huhuhuhuhu~!”

A cluster of bright silver flames lit up. Bai Yu did not say anything and charged straight into the enemy stronghold.

Liu Binglan also chanted an incantation quickly and rode on its soul pet Star River towards the stronghold.

“Rock Giant Beast held the stronghold down. Zhan Ye is surrounded. We have to help Little Hidden Dragon and Zhan Ye clear the obstacles and let them chase away Rock Giant Beast,” said Uncle Yu.

Chu Mu was making use of the blackhole created by the subjugation alliance to destroy the entire stronghold. Chief Pan Jun used his Four-eyed Steel Eagle to protect the armies and Rock Giant Beast to hold the stronghold down so that Chu Mu could not succeed.

The force at the center of the blackhole was extremely terrifying. Chu Mu could not keep on tearing open the blackhole. They had to help Chu Mu do something.

Right now, both New Moon Land army and subjugation alliance were completely suppressed by the blackhole. New Moon Land army could not approach that stronghold, or they would also be sucked into the blackhole. Meanwhile, the enemy armies were desperately keeping up with barriers and could not do anything. Only the Immortals from both sides could move freely!

New Moon Palace would definitely not let Chu Mu fight alone. They had to help Chu Mu's Zhan Ye and Little Hidden Dragon fight Immortals from the subjugation alliance.

Bai Yu and Liu Binglan reached the stronghold first, followed by Chao Lengchuan, Mu Qingyi, Ye Qingzi, Xia Zhixian, Sang Ying, Bai Shaoye and the other New Moon Land Immortals.

“Ao!”

The moment New Moon Land's Immortals flew into the stronghold, dragon roar suddenly came from behind Heavenly Mountain.

An enormous dark blue dragon flapped its huge wings and overtook New Moon Land's Immortals, charging straight into the enemy stronghold!

“It's Martial Cloud Dragon!” exclaimed Chao Lengchuan.

The huge shadow flew over everyone's head. After Martial Cloud Dragon flew into the enemy stronghold, it tyrannically breached an army barrier, sending the entire army up the sky and into the blackhole!

Martial Cloud Dragon opened up the path savagely. Everyone else was also encouraged by it and charged straight towards the center of the stronghold!

## Chapter 1573: Rage, The Craziness That Tore The World

Chief Pan Jun took a glance at the Immortal reinforcement from New Moon Land, then at those Gate Masters who were having a hard time facing those two middle class Immortal rank soul pets.

He chanted an incantation and made a dual summon!

An Ice Ocean Fairy appeared from the soul pet diagram. This Ice Ocean Fairy's target was Half Devil Bai Yu. It swept up a gust of chilling fog and flew towards Half Devil Bai Yu.

Right behind Ice Ocean Fairy was an Undead General, its target was Martial Cloud Dragon!

Martial Cloud Dragon and Half Devil Bai Yu held the greatest influence in this Immortal battle. Chief Pan Jun naturally could not let them tilt the scale of this war.

Ice Ocean Fairy and Undead General were both middle class Immortal rank. Based on their auras, they seemed to be even stronger than middle class Immortal rank soul pets owned by those Gate Masters.

Martial Cloud Dragon and Bai Yu were intercepted by these two soul pets. Ice Ocean Fairy with ice and water dual properties greatly suppressed Bai Yu's silver Devil Fire. Bai Yu was blocked by this Ice Ocean Fairy before reaching Zhan Ye and Little Hidden Dragon.

Bai Yu was suppressed by ice and water properties just like Chu Mu. However, he could not back off in this battle. After all, this Ice Ocean Fairy was very strong. The Immortals from New Moon Land had not reached middle class Immortal rank. This Ice Ocean Fairy would deal significant damage to them.

Bai Yu chanted an incantation and summoned his Ice Pupil Unicorn.

Ice Pupil Unicorn was his only soul pet. One fire and one ice, with this, Bai Yu would not be completely suppressed by Ice Ocean Fairy.

Martial Cloud Dragon was stopped by Undead General. Undead General was actually weaker than Martial Cloud Dragon which approached high class Immortal rank. Martial Cloud Dragon knocked it away on the first clash.

Undead General's bones bent in strange directions after getting knocked away. However, it grabbed a corpse next to it and swallowed the corpse, fixing the twisted bones.

The wound instantly recovered!

This was the troublesome part about Departed Spirit type. They could boost their strength or heal themselves by using blood and corpses. It would take several times the effort to kill them than to kill other creatures of similar rank.

The ghost aura exhaled by Undead General spread around Martial Cloud Dragon. Martial Cloud Dragon was trapped by this miasma and could not rush to Zhan Ye or Little Hidden Dragon. It was stalled by this Undead General.

"Liu Binglan, you go first, be careful," Bai Yu told Liu Binglan.

Liu Binglan took a glance at the intercepted Bai Yu and Martial Cloud Dragon, then at the fighting Zhan Ye and Little Hidden Dragon. Without much hesitation, she flew through the barracks towards the battlefield at the center of the stronghold.

Ye Qingzi followed right behind Liu Binglan. Her Purple Robe Dream Beast had already passed away. She could only ride on War Court Black Beast which followed her for the longest time.

War Court Black Beast was the soul pet with strongest fighting power amongst Ye Qingzi's soul pets. After Chu Mu received help from Ning Maner, Ye Qingzi's Immortal Items were all supplied to herself and those leaders in New Moon Land.

Her War Court Black Beast was at low class Immortal rank now, while her other support type soul pets were even higher in rank. When Chu Mu returned from Ocean Species, he passed over all the resources he looted from Calamity Ocean Demon to Ye Qingzi. Ye Qingzi naturally sped up in strengthening herself.

War Court Black Beast was in charge of her safety. When she arrived at the center battlefield, she immediately summoned her Bell Noise Concubine, Wood Tray Spirit, Ardent Yang Pupil and Dark Fire Heavenly Devil.

Dark Fire Heavenly Devil and Ardent Yang Pupil strengthened Zhan Ye's flame soul shadow simultaneously.

Bell Noise Concubine applied continuous recovery pollen and flower armor on Zhan Ye and Little Hidden Dragon. Wood Tray Spirit used spiritual tree sap to boost the life force of Zhan Ye and Little Hidden Dragon.

Zhan Ye and Little Hidden Dragon both possessed insect property. Their recovery and life force were already different from other soul pets. After getting boosted by Ye Qingzi's high tier support soul pets, their fighting strength instantly raised by one or two levels.

Especially for Zhan Ye, after boosting its life force to seven times, it possessed seven times of Broken Limb Rebirth. When it reached its final Broken Limb Rebirth, its strength would be boosted to an incredible degree. That would be Zhan Ye's peak condition!

"I will protect you," Liu Binglan did not join the fray herself.

Ye Qingzi used her four soul pets to assist Zhan Ye and Little Hidden Dragon. Then, she would be easily attacked with just a low class Immortal rank War Court Black Beast.

Ye Qingzi nodded. With Liu Binglan's protection, her safety could be guaranteed.

Ye Qingzi raised her head subconsciously and took a glance at Chu Mu who was at the center of the blackhole.

Black and silver, Chu Mu was currently a Half Devil who would destroy a stronghold.

Certainly, it was unfathomable power. However, only Ye Qingzi knew how Chu Mu endured the burning pain of his soul as he struggled between Half Devil and human.

He transformed into a Half Devil from a human, then changed from a Half Devil to an irrational Devil. After regaining humanity from Devil, he then changed from Half Devil to the current black and silver Dual Evil Half Devil.....

No matter how he changed, what Ye Qingzi could see was that unwavering heart of Chu Mu.

Cold and emotionless on the outside, burning hot on the inside!

When people gave up on New Moon Land, he called up Ocean Species army, Nightmare army and Flower Demon army to protect this land.

When the enemies approached, he faced 300,000 enemies to boost the morale of his army.

When the enemy requested a ceasefire, he killed a leader right before everyone and fought against a stronghold with his own strength!

He was currently standing at the rampaging blackhole and appeared to be furiously tearing this world!

He was not furious about this world, but furious about Wupan Navy's Chief for making him lose the person of his faith. That was his father.

He was even more furious about the tragedies caused by the subjugation alliance during this war.

At Cloud Gate Stronghold, Cloud Gate Elder's corpse was buried by snow, Ye Wansheng forced himself not to reveal any sad emotion.

The reinforcement to Spring City was ambushed, Holy Guard Chief Zhuo Nong died.

When the golden Thousand Wave Beast fell on the battlefield, Chao Lengchuan was devastated.

The past enemy, but suffered damage to his five souls for New Moon Land, Hero Chief Yuan Sui.

The corpse Xiao Hai who always wanted Chu Mu to bring him out for training was still not found.

Suffering many wounds, Mu Qingyi who lost her soul pet and her final family member.

Half Devil Bai Yu who almost destroyed Tianxia City, but stubbornly remained at the front despite being surrounded by the enemies.

These were all acquaintances of Chu Mu, there were still countless New Moon Land members whom Chu Mu did not know the name.

He always believed he was a selfish person. However, when he saw hundreds, thousands, or even tens of thousands of New Moon Land members losing their lives. Could he really feel nothing? Could he really not be concerned?

If he felt nothing, why would his body shoulder the countless grudges of souls in this war? If he was not concerned, why would those souls willingly convert themselves into his power to let Chu Mu become the vessel of evil and grudge?

He was unwilling to admit he was someone who cared about the overall situation. However, everything he had done, his insistence and effort to avenge these people, how was that not shouldering everything by himself??

His devil claws which stabbed into the blackhole and were almost minced up, his forceful tearing of the space, that rage which was set on swallowing up this stronghold. They exposed his true self which he did not want others to see!

He was protecting the entire New Moon Land.

He did not only protect those he cared, he also protected those who sacrificed themselves for New Moon Land!

He was avenging Mu Qingyi, Chao Lengchuan, Yuan Sui and Cloud Gate Elder, as well as getting enraged for the countless New Moon Land members who died in this war!

Not only Ye Qingzi could understand that rage, many other people could.

Otherwise, there would not be so many people flying towards the enemy stronghold without hesitation, putting in all their efforts to fight against the enemy on enemy's turf!

Many people in this stronghold had fallen into Chu Mu's raging abyss. However, that was far from enough. It had to be the entire stronghold, it had to be all the enemies in this stronghold!

They invaded New Moon Land, laid waste to so many innocent cities, killed so many people and destroyed the lives of countless citizens.

They wanted a ceasefire when they could not defeat the stubborn New Moon Land and tried to end it there.

How could they end it there!

They had to pay the price. This price had to be this stronghold. They had to offer the lives of all the enemies in this stronghold!

.....

Rubbles flew around in the stronghold. Buildings after buildings were torn off from the ground. Plants were uprooted, people and creatures that lost balance were sucked up into the blackhole.

Above the stronghold, a pair of huge steel wings shrouded over the stronghold, protecting most of the armies under the wings.

At the center of the stronghold, Rock Giant Beast was expending all its strength to step down this stronghold and kept it on the ground.

Meanwhile, a chaotic battlefield unfolded next to this Rock Giant Beast. The Immortals from the subjugation alliance were fighting against New Moon Land's Immortals!

.....

“We have to defeat that Rock Giant Beast which is holding the stronghold down!” Liu Binglan turned around and looked over those twenty plus New Moon Land Immortals.

“But our attacks are useless against that Rock Giant Beast.”

“Chu Mu’s Zhan Ye has completed three Broken Limb Rebirths and about to reach high class Immortal rank. Once Zhan Ye reaches high class Immortal rank, they can’t stop Zhan Ye’s attack!” said Chao Lengchuan.

“Then we just have to protect Chu Mu’s Zhan Ye from getting harmed!” said the Immortals.

“No, we just need to ensure it won’t die, then it will definitely stand up again!” said Ye Wansheng in a serious tone.

Not dead, then it would surely stand up again! This was Chu Mu’s Zhan Ye!

Even if the enemies far outnumbered them, this war had to be fought!

As long as they successfully protected Zhan Ye and allowed Zhan Ye to boost up, this war would be New Moon Land’s victory!

Chapter 1574: Zhan Ye’s Uprising, High Class Immortal Rank (1)

Chief Pan Jun stood on Four-eyed Steel Eagle’s claw and looked down towards those Immortals fighting near his Rock Giant Beast.

“Broken Limb Rebirth, Ancient Power Awakening, Brave Stinging Heart, there’s actually a soul pet with such properties in this world!” Chief Pan Jun focused on the strengthening Zhan Ye.

Now he finally understood why Chu Mu dared to use a middle class Immortal rank soul pet to fight against his high class Immortal rank Rock Giant Beast.

This Battle Beast Mo Ye would keep boosting its strength. Once it fought for long enough, with enough Broken Limb Rebirths, its strength might reach high class Immortal rank!

Once Zhan Ye reached high class Immortal rank, Rock Giant Beast would not be able to hold the stronghold down. So they had to prevent this Battle Beast Mo Ye from boosting its strength up no matter what.

“Kill that Battle Beast Mo Ye regardless of what price you have to pay!” Chief Pan Jun had already summoned five soul pets, he could not do anything else.

He could only hope that these Immortals from the different factions could kill that soul pet!

Madam Huo, Han Yan, Ning An and the others also realized how horrifying it would be if this Battle Beast Mo Ye continued to grow stronger. All forty plus Immortals focused on Zhan Ye and unleashed their attacks.

Zhan Ye's septuple life force was instantly exhausted by such a barrage of attacks. Horrible wounds were carved onto its body. Normal soul pets would have died or about to die after suffering such wounds.

The attacks did not stop. Fireballs fell from the sky, sharp claws tore through the space and vibrations sent impacts from the ground. Once these follow up attacks landed on Zhan Ye, Zhan Ye would not even get a chance to use Broken Limb Rebirth.

Fortunately, the twenty plus Immortals from New Moon Land arrived in time. They made their soul pets block these follow up attacks.

Amongst the twenty plus soul pets, there were some which were weaker. While blocking the follow up attacks, a pseudo Immortal rank soul pet could not endure the attack from low class Immortal rank and was burnt to ash by a fireball.

The wounded Zhan Ye raised its head and watched this snow white Immortal Ming Bird vaporizing before its eyes. Its cold black eyes shook.

“Pang Yue,” Ye Qingzi looked at Pang Yue not far away in shock.

Pang Yue’s face turned pale. She looked at that Immortal Ming Bird with hollowed eyes and forced a smile, “I thought it could block.....”

Ye Qingzi did not even get the chance to save that Immortal Ming Bird. Pang Yue’s Immortal Ming Bird only left behind a few charred feathers after getting burnt by a low class Immortal rank fireball.

Ye Qingzi did not know what to say. After she took a glance at Zhan Ye and ensured there was no immediate threat in the surrounding, she told Zhan Ye, “Zhan Ye, Broken Limb Rebirth!”

Chu Mu was not around, so she had to command his soul pets to fight, even though she was unsure if she could handle this role.....

However, she must not let everyone's sacrifice be in vain!

“Grrrr!”

Zhan Ye roared despite being wounded. Recovery insect fluid seeped out from all the wounds. The insect fluid transformed into Zhan Ye's shattered bones, shaved flesh and corroded skin and armor!

The insect fluid gradually solidified from the viscous state, eventually settling as solid armor, covering the entire body of the bloody Zhan Ye. The black armor exuded a sharp killing intent!

Brave Stinging Heart, Ancient Power Awakening, these two powers appeared simultaneously. Zhan Ye's beast mark also became very bright. The soul shadow which was wrapped in darkness and black Devil Fire also majestically adhered to Zhan Ye's body!

Zhan Ye's sharp eyes glowed mysteriously, with bloody savage mixed in that mysterious glow. With another furious roar, Zhan Ye's armor was coated with a blood-colored battle suit!

Bloodthirsty Berserk Transformation!

The third type of power was unleashed, Zhan Ye's aura instantly intensified!

It leaped off from the ground, turning into a black death scythe and swept up from below!

Psst!

The Fire Dragon which shot the fireball was bisected vertically!

After the low class Immortal rank Fire Dragon's corpse fell down, Zhan Ye swung its tail and swept half of the corpse to Pang Yue.

“Grr!”

Zhan Ye also growled towards Pang Yue, as if telling her that it had avenged her Immortal Ming Bird.

The blanked out Pang Yue heard Zhan Ye's growl and forced her tears back.

She chanted an incantation and continued to summon her soul pets.

She was a support soul pet trainer. Although her support was insignificant to Zhan Ye and Little Hidden Dragon, she could support the other Immortal rank soul pets!

Zhan Ye returned to the ground. Ten Immortal rank soul pets including Madam Huo's Shadow Flame Beast immediately attacked it. Those techniques shot towards it from all directions, not giving it any chance to evade.

Ye Qingzi hurriedly ordered her Dark Fire Heavenly Devil and Ardent Yang Pupil.

The two soul pets chanted simultaneously and created two arc-shaped flame shields at the two sides of Zhan Ye.

The shield could only block a limited amount of damage. After the shields shattered, Zhan Ye immediately jumped away and pounced towards a Star Eye Centipede closest to it.

“Hu!”

All of a sudden, a flame breath shot out. Before Zhan Ye could reach that Star Eye Centipede, its body was knocked away by this flame breath.

The flame was very intense and left a large patch of burnt wound on Zhan Ye’s armor. Next, another barrage of techniques flew towards Zhan Ye from all directions.

It was Madam Huo’s Shadow Flame Beast which shot that flame breath. This middle class Immortal rank soul pet was a big threat to Zhan Ye which had not reached high class Immortal rank.

When Liu Binglan, who was standing next to Ye Qingzi to protect her, saw Madam Huo’s arrogance, she was enraged.

“Her Shadow Flame Beast has to be suppressed. Go after her, I can protect myself,” Ye Qingzi told Liu Binglan.

“Alright,” Liu Binglan nodded. However, she was still worried and told Ye Wansheng to protect Ye Qingzi.

Ye Qingzi's support could allow Zhan Ye and Little Hidden Dragon to continue fighting as well as maintaining the recovery. The enemies would surely notice this, so someone had to protect Ye Qingzi.

Asking Ye Wansheng to protect Ye Qingzi was the most suitable choice. Even if Ye Wansheng had to sacrifice all his soul pets, he would not allow those people to harm his little sister.

Madam Huo stood on Shadow Flame Beast's back. Her paled face was twisted in fury, she wanted to burn Zhan Ye into ash immediately.

Shadow Flame Beast raised its paw and slapped down towards Zhan Ye which was on the ground.

All of Zhan Ye's evasion routes were blocked. Facing Madam Huo's Shadow Flame Beast, it could only endure with its body.

However, before this slap could fall, Shadow Flame Beast's body was suddenly hit by a starlight strike. Its burning body was knocked far away.

When Madam Huo and her Shadow Flame Beast got out of a pile of rubbles which was flying towards the sky, her hair was already disheveled and her face was full of dust.

She glared at the person who attacked her furiously!

"Are you here to die?" cursed Madam Huo.

Liu Binglan was riding on her soul pet Star River Bird. Next to Star River Bird, it was Star Sky Dust Spirit which possessed the ability to twist space.

Liu Binglan would not waste her effort to talk to such a trash. She issued her order, Star River Bird and Star Sky Dust Spirit chanted simultaneously. Immediately after that, burning hot meteors began falling towards Madam Huo!

Shadow Flame Beast roared and used its burning fist to smash these meteors. The shards were scattered around.

“You think you can fight me? You’re too weak!” Madam Huo held a deep grudge towards Liu Binglan.

She hated Liu Binglan’s aloof and cold attitude. She also hated how Liu Binglan was able to reach such heights despite not doing anything.

It took Madam Huo a lot of time and effort to obtain the Gate Master position. How could there not be some shameful trades during this process?

Once she was defiled, she could not endure seeing other people clean. She could not endure such a person slowly snatching away her fame amongst the female soul pet trainers.

Liu Binglan did not speak a single word to Madam Huo. She simply issued orders one after another. Star River Bird, Star Sky Dust Spirit, Palm Dawn Concubine and Immortal Ming Bird, these four soul pets attacked Madam Huo together.

Madam Huo already suffered damage to her soul in the battle before. She could not summon more soul pets. Although Liu Binglan's four soul pets were lower than Shadow Flame Beast's rank, it was also difficult to face Liu Binglan's four pets at once.

The more Liu Binglan kept quiet, the angrier Madam Huo became. Madam Huo becoming more and more angry meant Liu Binglan's objective was achieved. Without the interference from Shadow Flame Beast, Zhan Ye's danger would be much lesser.

"You're dead for sure," Madam Huo laughed menacingly.

The four people Madam Huo called over were all low class Immortal rank. Each of them could hold back one of Liu Binglan's soul pets. Liu Binglan would not have any soul pet to block Shadow Flame Beast's attacks.

Liu Binglan turned to take a glance at Zhan Ye which boosted its strength to another level with Brave Stinging Heart.

After the next Broken Limb Rebirth, it would definitely reach high class Immortal rank.

Liu Binglan's calm expression turned resolute. This was Zhan Ye's most crucial moment. Without the interference from Madam Huo and these four low class Immortals, Zhan Ye would definitely reach high class Immortal rank with the protection of the others.

Facing the attack from those four people and Madam Huo, Liu Binglan chose not to back off!

Even though she did not know if the figure that would appear whenever she was in danger was hiding nearby, if her choice could bring victory to this war, she would quietly tell her soul pets which had accompanied her life: Sorry.

Chapter 1575: Zhan Ye's Uprising, High Class Immortal Rank (2)

"Kill her," Madam Huo ordered her subordinates.

Four low class Immortal rank soul pets held back Liu Binglan's three soul pets. Facing Shadow Flame Beast's attack, Liu Binglan could only ride on her Star River Bird to dodge to the side.

Madam Huo immediately gave chase. Her Shadow Flame Beast was faster than Liu Binglan's Star River Bird.

Vast flame energy bombarded the area in front of Liu Binglan's flight path, creating a chaotic eruption site which directly blocked Liu Binglan's escape route.

Liu Binglan turned around. Shadow Flame Beast leaped from behind and landed right in front of Liu Binglan and her Star River Bird!

Booom!

The magma splashed up and burned through the star river shield around Star River Bird. The boiling magma scorched Star River Bird.

Star River Bird did not reach middle class Immortal rank, it could not match Shadow Flame Beast in strength. That attack dealt heavy damage to Star River Bird.

“Die,” Madam Huo stared hard at Liu Binglan and ordered her Shadow Flame Beast to attack.

Star River Bird desperately flapped its wings and flew to the front of Liu Binglan. It quickly grabbed Liu Binglan and dodged Shadow Flame Beast’s attack.

The starlight dimmed and Star River Bird’s posture slanted a little while flying towards another region.

Shadow Flame Beast chased right behind it, determined to kill Liu Binglan.

.....

On the other side, without Madam Huo and her subordinates, Zhan Ye had sufficient room to boost its strength.

Broken Limb Rebirth certainly allowed it to boost its strength directly. However, if it used Broken Limb Rebirth within short intervals, the effect of Brave Stinging Heart would be much weaker. It would be difficult to reach high class Immortal rank with Ancient Power Awakening alone.

The longer Zhan Ye could sustain in battle and use Broken Limb Rebirth at critical moments, the greater the effect of Brave Stinging Heart and Ancient Power Awakening that could be stacked.

After this fifth Broken Limb Rebirth, Zhan Ye was able to sustain its battle for a long time with Ye Qingzi’s support and healing. Brave Stinging Heart activated twice during the period. Even though it was suffering more and more damage, its strength was still increasing!

“Protect Zhan Ye, let it use Broken Limb Rebirth!” When Ye Qingzi noticed Zhan Ye’s stamina could not be recovered using healing, she immediately told all New Moon Land members.

Everyone immediately gathered around Zhan Ye to protect it.

“Stop it! Madam Huo, what are you doing!?” Chief Pan Jun’s furious roar came from the sky.

In the distance, Madam Huo was about to catch up to Liu Binglan. However, when she heard Chief Pan Jun’s roar and turned around, she was shocked to sense all the dark matters in the surroundings creepily gathering towards one spot!

The dark matters accumulated and formed a thick black soul shadow. This soul shadow’s appearance was a majestic tiger. Even though it was formed by soul and shadow, it felt like a real ancient black tiger standing at the center of the stronghold!

Dense darkness aura and beast aura swept across, the source was none other than that Battle Beast Mo Ye!

This aura instantly suppressed all the Immortal rank creatures at the scene. It was even on par with that Rock Giant Beast holding the fort at the center of the stronghold!

High class Immortal rank!

That Battle Beast Mo Ye was reaching high class Immortal rank!

Madam Huo was stunned by that scene. She could never imagine a middle class Immortal rank creature actually boosting its strength all the way to high class Immortal rank!

The moment that huge tiger soul shadow manifested, all the Gate Masters and Immortals from the subjugation alliance changed their expressions.

“Stop spacing out, kill it!” roared Chief Pan Jun.

Four-eyed Steel Eagle also made a long cry and its feathers suddenly turned into countless blades!

Those blades rained down under Four-eyed Steel Eagle’s control and tore through the bodies gathered below Four-eyed Steel Eagle’s wings.

The blades targeted towards a single spot as they rained down!

Whooooosh!

Blades flew past and those Immortal rank creatures protecting Zhan Ye were also wounded. Blood immediately spurted into a bloody mist around Zhan Ye.

“Grrrr~!”

Seeing the surrounding blood, Zhan Ye’s black pupils were filled with rage.

The black soul shadow which seemed to be almost solidified began moving. It turned into a protection soul shadow and shielded all New Moon Land members.

Those steel blades bounced off the protection soul shadows after hitting, made sharp screeching noises and fell to the ground.

The protection soul shadow's vastness, robust body and darkness aura astonished everyone!

Four-eyed Steel Eagle's attack was completely blocked. Even those Immortal rank attacks meant to interrupt Zhan Ye from using Broken Limb Rebirth were also blocked outside this huge protection soul shadow.

This scene allowed those New Moon Land members realize their protection battle had morphed!

After completing Broken Limb Rebirth, Zhan Ye had truly stepped into high class Immortal rank!

Only a high class Immortal rank could possess such majestic aura. Only a high class Immortal rank could block those fatal feather blades from Four-eyed Steel Eagle. Only a high class Immortal rank could completely ignore the attacks from those Immortal rank soul pet trainers!

“Grr!”

Raging wind blew, Zhan Ye's roar spread throughout the entire Heavenly Mountain!

Its soul shadow stood erect at the center of the stronghold. At that moment, be it pseudo Immortal rank, low class or middle class Immortal rank, all appeared tiny and insignificant before that soul shadow!

It was no longer just Four-eyed Steel Eagle shrouding over the stronghold or Rock Giant Beast shaking the earth. Zhan Ye which possessed the tyrannical tiger soul shadow was similarly astonishing and strong!

This was Zhan Ye's sixth Broken Limb Rebirth. Reaching high class Immortal rank from middle class Immortal rank took more times than expected, but Zhan Ye eventually did it!

With seven times life force, Ancient Marks, Bloodthirsty Berserk Transformation, Devil Fire and darkness energy stacking in the soul shadow which possessed ancient beast soul's strength, The current Zhan Ye reached one rank higher in quality. Its aura was so strong that those subjugation alliance Immortals who tried to kill it could not even gain the courage to approach!

Ye Qingzi stood next to the majestic Zhan Ye and raised her head to look at Chu Mu.

She knew that Chu Mu would also feel excited for Zhan Ye's uprising!

Zhan Ye had succeeded, everyone's blood was not for nothing!

This stronghold filled with enemies should be annihilated from this point on!

.....

“Zhan Ye, defeat Rock Giant Beast!”

Chapter 1576: The Second Battle Beast Mo Ye

Zhan Ye began running, the soul shadow burning in black flame synchronized its steps with Zhan Ye.

The powerful charging dash of the soul shadow knocked away all enemies blocking Zhan Ye’s path.

A black trail appeared at the center of the stronghold. Anything which blocked its path, be it soul pets or buildings, were smashed by the enormous soul shadow!

Soul Shadow Charge!

The huge figure leaped up and slammed onto Rock Giant Beast!

Rock Giant Beast could not dodge this attack. The powerful darkness impact not only shattered its chest armor, it was even knocked away!

Rock Giant Beast tumbled through the stronghold from the center to the outskirts.

Once this heavy weight creature no longer held down the stronghold, the entire stronghold immediately began shaking violently!

Boom!

The stronghold's foundation was uprooted in one go, the surrounding stronghold walls began lifting off the ground.

Boom!

Another explosion and the entire stronghold slanted. The west region was completely lifted off the ground.

Next, the east region also began to break free from the earth!

Deep cracks abruptly appeared. The entire stronghold floated up!

The stronghold floated higher and higher, those New Moon Land members in the sky could already see the bottom of the stronghold!

The entire city was pulled up from the ground. This astonishing scene robbed away their ability to think, their views were completely occupied by this rising stronghold.

The sky was gradually covered by this stronghold, the sunlight was blocked and the air currents generated by the rising stronghold blew past them.

Bam!

Suddenly, the rising stronghold sank down as if getting hammered down to the earth by something!

The air currents generated by one stronghold was terrifying. A storm was swept up by the sudden descent, toppling down some tall mountain peaks!

Rock Giant Beast stepped down at the center of the stronghold once again. The descent of the stronghold was also due to it using gravity.

Zhan Ye naturally would not let it succeed, its body and soul shadow turned into a black battleaxe!

This battleaxe slashed down at the center spot of the stronghold!

The stronghold cracked open. A crack spread from the north to south, forcefully cleaving apart the foundation of the entire stronghold!

If Rock Giant Beast continued stepping on the stronghold, it would only accelerate this stronghold getting split into half!

“Nong~!”

Giant Rock Beast roared frustratingly. Once the stronghold was split into half, it could only step on half of it. Rock Giant Beast decided not to press down the stronghold, but kill Zhan Ye before the stronghold was sucked into the blackhole first!

While the stronghold was rising and sinking, another few armies lost their footholds and were sucked into Chu Mu's raging abyss.

More and more armies were held down by Four-eyed Steel Eagle's wings. There were at least 50,000 people.

As the stronghold continued floating up, the distance between the stronghold and Four-eyed Steel Eagle was getting closer and closer. Soon, the stronghold would hit Four-eyed Steel Eagle and bring everyone into the blackhole.

Standing on Four-eyed Steel Eagle's claw, Chief Pan Jun's expression began twisting as he watched the stronghold approaching.

Those trash could not even finish off a middle class Immortal rank Battle Beast Mo Ye!

Chief Pan Jun raised his head and coldly swept a glance at those 50,000 people protected by Four-eyed Steel Eagle.

"Sacrificing you people to save a stronghold is worthwhile," Chief Pan Jun told everyone.

"Chief, you can't do that!" screamed an army leader.

Chief Pan Jun simply ignored them and ordered his Four-eyed Steel Eagle.

Four-eyed Steel Eagle rapidly shrank its wings. Thousands of people would lose their protection and get sucked into the blackhole as the wings shrank a size smaller.

As Four-eyed Steel Eagle's wings returned to its normal size, those protected people were all sucked into the blackhole!

Screams rang out non-stop. The entire 50,000 people could not escape the blackhole!

The larger the size, the greater the suction force. Once the stronghold hit Chief's Four-eyed Steel Eagle, it would also be sucked into the blackhole as it carried so many people.

Wupan Navy's Chief would not sacrifice his high class Immortal rank soul pet to save those people.

"Hmph, if you want to erase this stronghold, then I will kill all the people here!" Wupan Navy's Chief raised his head and glared at Chu Mu furiously!

There were many Wupan Navy crews amongst those 50,000 people.

Chu Mu could slaughter so many people, would Wupan Navy's Chief not be able to do the same??

Wupan Navy's Chief Pan Jun completely gave up on those armies and simply allowed them to be sucked into the blackhold. His eyes coldly focused on Zhan Ye.

After hesitating for a moment, Chief Pan Jun eventually gave up the intention to kill Zhan Ye.

Zhan Ye had Broken Limb Rebirth and seven times the life force. Four-eyed Steel Eagle and Rock Giant Beast might not be able to kill it even if they attacked together.

Chief Pan Jun's attention turned to those New Moon Land Immortals who charged into the stronghold.

Those people were pseudo, low class and middle class Immortal rank. His Four-eyed Steel Eagle definitely could kill them all before the stronghold was sucked into the blackhole!

Chief Pan Jun's first target was Ye Qingzi.

Ye Qingzi's supporting ability was very obvious. If not for her continuous healing, that Battle Beast Mo Ye would not have lasted until becoming high class Immortal rank.

Furthermore, Chief Pan Jun knew this woman was Chu Mu's wife. He believed Chu Mu would not care about her!

Chief Pan Jun made Rock Giant Beast stall Zhan Ye while he rode on Four-eyed Steel Eagle towards the center of the stronghold where Ye Qingzi was at.

Four-eyed Steel Eagle shrank down greatly. However, when a high class Immortal rank soul pet descended from the sky, the pressure easily suppressed the people.

Ye Qingzi raised her head. She could no longer see Chu Mu who was at the center of the blackhole, she could only see Chief Pan Jun's cruel grin.

"Qingzi, go," Ye Wansheng told Ye Qingzi.

Saying so, Ye Wansheng ordered his Empress Heavenly Thunder Snake!

Empress Heavenly Thunder Snake kept enlarging and transformed into a thick purple lighting, pouncing towards Four-eyed Steel Eagle.

Seeing Empress Heavenly Thunder Snake approaching, Chief Pan Jun snorted in disdain.

Four-eyed Steel Eagle flapped its wings and instantly generated a chaotic air current field beneath it.

This air current field was filled with Four-eyed Steel Eagle's feather blades. Those feather blades danced around within the field.

Empress Heavenly Thunder Snake appeared large, but its scales could not match the sharpness of Four-eyed Steel Eagle's feathers!

Within the blade storm, Empress Heavenly Thunder Snake's long body suffered countless cuts.

Psst~!

Blood poured out from the densely packed cuts. Empress Heavenly Thunder Snake was instantly shredded into pieces.

Blood and flesh rained down from the sky, falling onto Ye Qingzi and Ye Wansheng.

Ye Wansheng raised his head and watched Empress Heavenly Thunder Snake turning into countless pieces in disbelief.....

Ye Qingzi was also shocked and simply let the blood rain stain her body.

“Stop spacing out, run! He’s coming after you!” Ye Wansheng shouted towards Ye Qingzi.

Right after that, the soul tearing pain came to him. Ye Wansheng was already injured in the previous battles, the damage to the soul this time caused him almost unable to stand.

Ye Qingzi was still unable to react. Instead, her War Court Black Beast sensed its master in danger and immediately ran towards the edge of the stronghold.

Wood Tray Spirit, Bell Noise Concubine, Ardeny Yang Pupil and Dark Fire Heavenly Devil followed right next to War Court Black Beast. The four soul pets chanted protection incantations simultaneously to block Chief Pan Jun’s follow up attacks.

Chief Pan Jun ignored Ye Qingzi’s soul pets and his Four-eyed Steel Eagle locked on to the escaping Ye Qingzi.

Ye Qingzi's War Cour Black Beast was only low class Immortal rank. It could never outrun the pursuit of a high class Immortal rank soul pet.

Ye Qingzi turned to look behind and noticed that Four-eyed Steel Eagle was closing in. A chilling death aura was approaching her back.

"Qingzi, over here!"

Suddenly, a familiar voice called out in front of Ye Qingzi.

Ye Qingzi immediately saw Liu Binglan standing in front of her.

Liu Binglan also could not take on Four-eyed Steel Eagle. Just as Ye Qingzi was confused, she noticed a man standing behind Liu Binglan.

That man seemed unwilling to let others see his face. He was completely covered and appeared rather strange.

That man had a black color wartiger next to him. A dense darkness aura surrounded its body. Once this darkness aura was unleashed, it would definitely sweep across the entire stronghold!

That man pointed with his finger. The target was Chief Pan Jun. One could sense this man's rage towards Wupan Navy's Chief from his gaze!

“Grrr!”

Battle Beast Mo Ye charged out from the man’s side. It was so fast it appeared like a black lightning flash!

Ye Qingzi only felt a cluster of darkness energy grazing past her. When she turned to look back, that powerful Battle Beast Mo Ye already pounced towards Four-eyed Steel Eagle. It was brave and strong, not showing a tiny trace of fear when facing a high class Immortal rank creature.

Chapter 1577: The Destroyed Stronghold Under The Blackhole

Ink-colored claws weaved into two stellar coronas and swept towards Chief Pan Jun’s Four-eyed Steel Eagle!

Four-eyed Steel Eagle did not make sufficient preparation for defense and was knocked away by the claw strikes. Two deep claw scars were carved into its body.

The furious Four-eyed Steel Eagle flapped its wing and adjusted its balance. Then, countless feathers were detached from its wings.

Those feathers rotated at high speed and rained towards Liu Binglan and Ye Qingzi.

Battle Beast Mo Ye calmly watched the approaching feather rain. Just as those feathers were about to reach them, this Battle Beast Mo Ye heavily stomped the ground. A darkness storm surged up from the darkness energy wrapped around Battle Beast Mo Ye’s feet!

The darkness storm rose up and all the feather blades touching the darkness storm were swallowed.

More and more feather blades approached from all directions. However, no matter how many feather blades there were, they could not pierce through the darkness storm generated by Battle Beast Mo Ye.

The attack was easily neutralized. Chief Pan Jun stared furiously at the man who stopped his attack.

“Good, very good. You’re actually still alive and obtained another layer of Monument Tear’s power!” Chief Pan Jun’s expression turned menacing.

“You two leave here first,” said the man as he took a glance at Liu Binglan and Ye Qingzi.

Liu Binglan did not hesitate and flew towards the edge of the stronghold with Ye Qingzi.

Their objective had been achieved. Staying here would only become the weakness of Chu Mu.

After Liu Binglan and Ye Qingzi left, that man walked forward and stood next to Battle Beast Mo Ye.

He was similarly staring at Chief Pan Jun, his gaze showed not a trace of fear.

This was his third time facing this human leader Pan Jun. During the first time, there was a huge gap between their strength, he escaped from this arrogant Chief out of pure luck.

The second time was at Imprint Valley. He was still unable to oppose Chief Pan Jun. He could only rely on the advantage of spatial control to escape from this terrifying enemy.

However, this time, Chu Tianmang no longer needed to escape!

The order was given, Battle Beast Mo Ye charged forward. The darkness storm instantly shrouded this region into darkness.

Four-eyed Steel Eagle stretched open its wings to intercept this Battle Beast Mo Ye's attack. Darkness aura and feather blades within the chaotic air currents clashed!

.....

The entire stronghold was completely in the air, approaching closer and closer towards the blackhole.

Within the stronghold, countless soul pets and soul pet trainers were swept up by the blackhole. All the buildings were demolished by the turbulent storm. Rubbles danced in the air and it was chaos everywhere.

The huge blackhole was right above the stronghold. Those desperately struggling armies still inside the stronghold could not even move a step.

As they raised their heads, they no longer saw a gap in the sky, but the entire sky was filled by the blackhold. The black and white Half Devil at the center of the blackhole was ever terrifying!

When death approached, not many could remain calm. As the storm was getting more intense, the barriers created by those armies were finally shattered!

Be it large beasts, tiny fairies or rooted plants, once they lost the protection of the barrier, what awaited them was only to be swallowed by the blackhole of vengeance!

One after another, they were sucked up into the blackhole.

Some were shredded into pieces before even reaching the blackhole.

.....

As the entire stronghold was getting closer and closer to the blackhole, those Immortals also felt the strong suction force severely hindering their actions!

“Gate Master Han, what should we do?” asked a Divine Sect Master Official.

“Leave!” Han Yan resolutely rode on this Light Tiger to escape, leaving his Divine Sect army to be sucked into the blackhole.

With Han Yan taking the lead to escape, the other Immortals naturally would not be willing to sacrifice themselves here. They rode on their soul pets and abandoned the fight against New Moon Land’s Immortals, then ran towards the edge of the stronghold at full speed.

With their speed and strength, as long as they left the stronghold before reaching the edge of the blackhole, they would be able to escape from the blackhole.

“Escaping? Die here, you bastards!” Bai Shaoye saw those Immortals escaping and gave chase.

What he wanted to do was only to stall those Immortals. This stronghold was about to enter the blackhole region. By then, even those Immortals would not be able to escape.

As for whether he could escape himself, Bai Shaoye no longer cared. The war had been so devastating up to this point. He was long prepared to die. Even if he would die, he would also drag a few Immortals down with him!

“Everyone retreat from the stronghold, hurry up!” In the distance, Uncle Yu shouted.

Their mission had been completed. They had to leave this stronghold now.

“Bai Shaoye, leave here now!” shouted Uncle Yu using mental voice when he noticed Bai Shaoye did not escape, but went to stall the enemies!

Bai Shaoye ignored Uncle Yu and continued heading towards the direction Han Yan and the others escaped towards.

.....

“Grrrr!”

Berserk Roar. The huge black flame soul shadow disappeared for a moment. Then, an even fiercer tiger-shaped black flame soul shadow appeared, its aura greatly boosted!

The seventh Broken Limb Rebirth!

During the battle, Zhen Ye finally reached its strongest moment!

Dashing, charging, claw strike!

Without any unnecessary actions, this claw strike was swung out. The huge soul shadow's energy was all contained inside Zhan Ye's claw strike!

Black flame, darkness aura, Ancient Marks, bloodthirsty sharpness, strongest soul shadow, these five types of powers gathered on this claw strike!

A streak of black light that broke apart the world appeared!

The claw strike swept across the part where Rock Giant Beast's upper torso connected with the bottom torso!

This claw strike not only tore through Rock Giant Beast's defenses, it also severed this Rock Giant Beast into two!

Rock Giant Beast was completely made of rock, so there was not a single drop of blood even after getting bisected.

This type of creature could not be killed by just bisecting it.

The moment Zhan Ye landed, destructive light congregated in its throat and shot towards Rock Giant Beast!

The energy exploded between the two separated parts of Rock Giant Beast. Rock Giant Beast was blasted into shards before it could reconnect its bisected body. Those shards scattered into the sky and were immediately sucked in by the blackhole.

Rock Giant Beast was like a collapsed mountain. It was swept up by the blackhole pieces after pieces and swallowed!

If Rock Giant Beast entered the blackhole as a complete entity, it could still struggle inside the blackhole with its solid defense. However, if it was heavily damaged like now, the intense blackhole storm could grind it into powder in a short time. There was no chance of survival!

“Huhuhuhuhuhuhu~!”

Each time the rampaging storm blew past, Rock Giant Beast’s body would shatter.

After shattering into tiny pieces of rocks, even greater storm blew past and those tiny pieces were grinded into sand and powder!

In an instant, Rock Giant Beast lost a proper body. Eventually, those powders also disappeared into the blackhole, not leaving anything behind!

“Grrrrr!”

Zhan Ye roared towards the sky after defeating Rock Giant Beast. That roar caused all those still struggling armies to tremble in fear.

Even Rock Giant Beast was killed, would they still have a chance to survive??

.....

Soul pets and soul pet trainers were easily swept into the blackhole.

The entire stronghold finally reached the blackhole region. Some buildings built with unique materials were vaporized after lighting touching the blackhole storm.

The entire stronghold was slowly getting grinded. Watching from afar, this stronghold looked like a sandcastle getting dispersed by the wind!

“Zhan Ye, Little Hidden Dragon, rescue everyone!”

At the center of the blackhole, Chu Mu used mental voice to order Zhan Ye and Little Hidden Dragon.

The stronghold had completely entered the blackhole region. Even Immortal rank creatures would not be able to escape. Chu Mu wanted to destroy the enemies and not those New Moon Land members who kept sacrificing for this war.

Zhan Ye and Little Hidden Dragon could already feel a certain level of hindering. They dashed through this vaporizing stronghold, looking for those New Moon Land members who were unable to escape in time.

Zhan Ye found Pang Yue who was getting swept away. It forcefully dragged her back from the edge of the blackhole. Next, it saw Ye Wansheng who was dyed in blood from the tearing of the blackhole.....

Little Hidden Dragon was spectral type. This spatial storm had less effect on it. It quickly found a few New Moon Land members who were unable to escape and held them in its mouth. It then flapped its wings and brought them out of the blackhole region.

.....

“Who else has not escaped?” asked Uncle Yu as he turned around to look at the descended Little Hidden Dragon.

“Bai Shaoye, Sang Ying, Qingyi..... And that man who is fighting Chief Pan Jun,” said Teng Lang.

“Who is he??” Everyone turned around and noticed there was still someone who could fight evenly against Chief Pan Jun!

The entire stronghold was almost swallowed up by the blackhole. That man could still fight against Chief Pan Jun within the blackhole storm.

In their eyes, it seemed as if the blackhole never existed.

Perhaps, they would only be satisfied after personally sending the other party into the blackhole!

Chapter 1578: Monument Tear Inheritor!

The entire area was filled with destructive storm and raging wind!

In the sky, the huge blackhole was like a gullet of a devil which swallowed everything. Half of the stronghold was swallowed up, the remaining half was still turning into powder.

Armies after armies were sucked into the blackhole and vaporized into blood mist under the blackhole storm.

The blackhole was shrouded with blood mist, it was a horrifying sight.

One could still see a few Immortals within the blood mist. They looked like drowning people and desperately struggled. However, their bodies were still slowly getting dragged into the death storm, their eyes filled with fear!

Immortals were also unable to escape this disaster.

At Heavenly Mountain's direction, the fatigued New Moon Land members watched that stronghold shrinking and disappearing into the blackhole.....

An entire stronghold, hundreds of thousands of enemies. They rampaged in New Moon Land's cities, they killed many New Moon Land citizens, they created countless blood and tears to the peaceful New Moon Land.

Now, they finally received the punishment they deserved!

At that moment, New Moon Land's army and leaders quietly watched the demise of the enemy. They could not decide if they should cry or laugh.

.....

As a stronghold was swallowed, the blackhole slowly repaired itself.

Chu Mu stood at the center of the empty chaos within the merciless storm, watching the stronghold completely sinking into the blackhole. He watched everything turn into dust and every enemy into blood mist.

His black and silver pupils did not show any emotion fluctuation, without any human expression. However, after the stronghold was completely shredded by the blackhole, one could see through his burning face that his heart was wailing in sorrow!

The blackhole slowly closed up, the gate of hell disappeared in this world.

However, Chu Mu was unable to lift a single finger now that he expended so much energy to expand the blackhole. After the stronghold disappeared, his body also fell towards that closing blackhole.

“Chu..... Chu Mu!”

Liu Binglan saw Chu Mu falling and turned pale.

Everyone started shouting!

The blackhole was extremely terrifying. Chu Mu stood at the center of the blackhole until now. Even if he possessed Other type spatial ability, the energy would devastate his body.....

He endured until the stronghold was swallowed, but he also reached his limit.

“Grrr!”

Zhan Ye stepped on air and charged towards the blackhole.

However, there was only a tiny crease left. Zhan Ye would not be able to drag Chu Mu out no matter how fast it was.

.....

“Huhuhuhuhu!”

Spatial storm was blowing everywhere, Chu Mu’s silver and black Devil Fire already scattered. He was like a withered leaf and tossed about by the storm.

Chu Mu opened his eyes. He could sense his body falling non-stop into a bottomless abyss. However, what his eyes saw was a land covered in ice.

He saw Zhan Ye roaring and running towards him. He saw Liu Binglan and Ye Qingzi weeping on earth. He saw all those astonished and worried faces.

Chu Mu wanted to fly towards them, but he was really too tired.

The dense darkness element, tyrannical spatial energy and empty chaotic world. This seemed to be the birth place of a Half Devil like him. He did not sense any incongruity, instead, he even wanted to laze around.....

Chu Mu was very tired. He knew that even if he fell towards this other dimension, the spatial storm might not be able to shred his Other type body.

He did not struggle, he did not have the strength to struggle. He simply allowed himself to fall into another world.

His vision was getting blurry, but he faintly saw two people fighting near the crease where the blackhole was closing up.

Who were those two people?

One was Wupan Navy's Chief, Chu Mu recognized that Four-eyed Steel Eagle.

Chu Mu was unable to kill him this time, but that did not mean Chu Mu would let him go. However, Chu Mu could not muster any strength, so Chu Mu could only let go and slumber in that unknown world.

However, who was the person fighting against Wupan Navy's Chief Pan Jun?

Why did his figure feel a little familiar?

That person was really strong. He actually tore Chief Pan Jun's Four-eyed Steel Eagle into pieces. That was a high class Immortal rank soul pet!

Chu Mu's consciousness was fading out. The final scene he could see was Chief Pan Jun running away.

That masked man could have chased after Chief Pan Jun and deal the finishing blow, but he gave up and flew towards Chu Mu.

That man was getting closer and closer, Chu Mu's eyelids was also getting heavier and heavier.

Chu Mu's spatial ring transmitted warmth to him, as if the Monuments were radiating!

When encountering a Monument Tear Individual, the Monument Tears would only glow dimly. The Monument Tears were shining really brightly this time. Especially that Ancient Beast Soul's Monument Tear, Chu Mu could even sense this Monument Tear calling that person.

The fourth era's strongest inheritor!

Chu Mu suddenly had such a thought!

He was a Monument Tear Individual!

Elder Li said before that only when Ancient Beast Soul's Monument Tear called for someone, it meant he encountered the real Monument Tear Inheritor. This was the archenemy of all fourth era's Monument Tear Individuals!

Chu Mu did not expect the Monument Tear Inheritor to show up at this time. His thoughts were messed up, his head felt so heavy he could not think anymore.

He also closed his eyes, only vaguely catching a last glimpse of that Monument Tear Inheritor's eyes.....

.....

The black and silver pupils were finally covered by eyelids. At the same time, the final crease of the blackhole was also completely sealed up.

Chu Mu lost consciousness and simply allowed the dimension storm to blow his body away.

However, he did not know another hand firmly grabbed him as he was falling towards the dark abyss.

“Huhuhuhuhu!”

The wind raged and pulled away the cloth covering the masked man’s face, revealing a stern and sharp face.

This face appeared rather tanned. He had black eyes, that calmness and stubbornness seemed a little similar to the unconscious Chu Mu.

Chu Tianmang held tightly onto Chu Mu’s wrist. The turbulent spatial storm blew past them and left many cuts on their bodies.

Chu Tianmang pulled forcefully and dragged Chu Mu onto his Strange Mane Demon.

“Beast Soul Monument Tear, Sins Fox Monument Tear, Half Devil Monument Tear.....” Chu Tianmang looked at Chu Mu’s glowing spatial ring absentmindedly.

This was fate.

.....

.....

New Moon Land members stood on top of Heavenly Mountain in dead silence.

They raised their heads and looked at the spot where the blackhole disappeared. They watched their king disappearing along with the blackhole.....

Not far away, Bai Yu was flying towards them.

He was holding onto someone, that person was Mu Qingyi who could not be found during the retreat.

Mu Qingyi was unconscious, it was obvious that her soul suffered damage during the battle. One of her soul pets left her again this time.

Bai Yu handed Mu Qingyi to Ye Qingzi's soul pets for healing, then asked everyone in confusion, "What's wrong?"

"Chu Mu also fell into the blackhole..... He did not come out," said Pang Yue in a low volume.

“He..... He will be fine, right? All of you have Other type ability, you can survive in alternate dimensions, right?” asked Liu Binglan hurriedly.

Bai Yu did not answer.

Nightmare’s body could certainly survive in alternate dimension, but if Chu Mu fell into the spatial storm in coma, he would also be torn apart if he encountered an intense spatial storm.

“I will take a look,” Bai Yu flew towards the closed up sky after saying so.

Now, only Bai Yu could tear open the space and pull Chu Mu out from the alternate dimension, but doing so carried extreme danger.

Just as Bai Yu reached the sky, a spatial crack suddenly appeared above him!

It was as if a pair of claws were stretching out from another world and forcefully tearing open a passage connecting to the human world. This crack slowly widened and Bai Yu could already feel the spatial storm surging out from within.

Bai Yu frowned and cautiously stared at those claws.

Soon, a semi-shaded creature with silver mane jumped out from the torn space.

“Strange Mane Demon?” Bai Yu was startled and suddenly felt this scene familiar.

As expected, Strange Mane Demon was carrying a man on its back. There were many cuts done by spatial storm on his body.

“It’s you?” Bai Yu looked at this man who came out from the spatial crack and commented in astonishment.

This was Bai Yu’s second time seeing that man. Both encounters were due to that man forcefully crawling back to this world from alternate dimension. The first time, he was full of wounds and almost died. This time, he was not really injured, but he was holding onto a bloodied person.

“Chu Mu!” Bai Yu immediately recognized the person on that man’s shoulder. He was none other than Chu Mu who was dragged into the blackhole!

“Catch,” The man handed Chu Mu to Bai Yu.

Without saying anything further, that man rode on his Strange Mane Demon and left.

Strange Mane Demon ran through the air, its semi-shaded body gradually blended with the color of the sky. Bai Yu watched that man leaving in hurry confusedly.

Bai Yu held onto the unconscious Chu Mu and noticed Chu Mu’s spatial ring was glowing brightly.....

For some reason, as that man went further away, the spatial ring's light also dimmed down, as if a pair of excited eyes gradually turning into disappointment.

Bai Yu did not think too much, he carried Chu Mu and flew back to the ground.

Everyone saw Chu Mu safely returning and heaved a sigh of relief.

Ye Qingzi saw Chu Mu dyed in blood. That stronghold was completely destroyed. Every enemy was slain. Chu Mu accomplished the dying wish of all those who sacrificed. He also protected the land for all those who were still alive.....

Recalling Chu Mu saying those words when he was similarly injured back in Wanxiang City, Ye Qingzi's tears fell down uncontrollably.

She did not have resurrection technique, she could not treat all injuries.....

However, if Chu Mu really died, she would start the journey to seek resurrection like Bai Yu without hesitation.

Chapter 1579: Protect Till Death!

.....

Wanxiang City.

This city was so quiet as if nobody lived inside. There were occasionally patrol guards passing by, but it was clear that the security was not as tight as before.

Those who stayed to guard the city were some New Moon Land Holy Guards. The soul pets who were able to fight had mostly joined the war. Most of the people in the city were children, women, elderlies and those who had not taken the path of cultivation.

The Holy Guard Chief who guarded the city was a wanderer soul pet trainer from another border — Yi Wu. Yi Wu flew above Wanxiang City's sky with utmost caution.

In the sky, a group of Immortal Ming Bird flew towards Wanxiang City from southeast.

Immortal Ming Birds were pure white. They looked like a cluster of clouds approaching. However, when this scouting Immortal Ming Bird team flew closer, Yi Wu immediately noticed bloodstain on their bodies!

It was blood!

The scouting Immortal Ming Bird team in the southeast direction returned with injuries. That meant there were enemies in the sky of that direction!

“All Holy Guards assemble!”

“City guards on alert!”

Yi Wu issued the orders before that Immortal Ming Bird team arrived!

Within Wanxiang City, over two hundred Holy Guards immediately took off from the ground and flew towards Holy Guard Chief Yi Wu.

Meanwhile, on some important main roads in the city,,teams after teams of silver city guard army riding on Lin Yin Beasts turned into streams of silver river, rapidly gathering towards Yi Wu's location.

Yi Wu rode on his Thousand Wave Beast and flew towards the city's southeastern city wall.

"Holy Guard Chief, enemy attack! They came from the east of Southern Forbidden Region, they are very fast!" reported Immortal Ming Bird team's captain.

"Bring your team to receive treatment, leave the rest to us," Yi Wu took a glance at this Immortal Ming Bird team.

Every team member was wounded. This scouting team should have fifty people, but only seven returned. The rest.....

"The enemy number is vast, we must immediately send a distress signal towards Heavenly Mountain!" said that captain anxiously.

Yi Wu frowned and immediately ordered his subordinate to go to New Moon Palace and send the distress signal.

Yi Wu brought the two hundred plus Holy Guards to the city wall.

Normally, there would be 10,000 elite royal army defending the city. Right now, there were only around 1,000 left on the city wall. They really suffered a heavy loss in this war.

The city guards spread evenly on the thick city wall. The Holy Stem Flower left behind squeezed out from the soil under the city wall. Their flower vines weaved into a flower vine defense structure along the city wall.

Over 1,000 elemental soul pet trainers lined up neatly on the wide city wall.

They were looking towards the southeastern direction. At the horizon, a group of black dots gradually appeared.

Soon, the black dots increased rapidly, like a cluster of black clouds flying rapidly towards the city.

Next, a yellow dust cloud swept up from the ground. A large army could vaguely be seen within the dust cloud, stomping on the fragile earth and charging towards Wanxiang City!

Enemy attack!

A large wave of enemy attack!

Holy Guard Chief Yi Wu and all the city guards were dumbfounded. How did such a large army quietly enter New Moon Land? Where did they come from?

“It’s Ning Family Dynasty! They came from Southern Forbidden Region!” That scouting captain did not return for treatment and went to the city wall instead.

“Southern Forbidden Region? Isn’t there a Nightmare Dynasty habitating Southern Forbidden Region? How are they able to safely cross the Nightmare territory? That’s supposed to be a part of the Sequence Lands!” said Holy Guard Chief Yi Wu.

As they talked, a group of soul pet trainers riding on Sky Butterflies flew towards them from the city center.

This team of soul pet trainers were all females. The person leading them was Xiang Rong City’s City Lord Xia Zhixian. New Moon Palace’s head manager Shen Mo also came.

Shen Mo and Xia Zhixian received the distress signal simultaneously and rushed to the city wall right away.

When they saw an army large enough to destroy a city marching towards them, their expressions also changed.

Ning Family Dynasty!

Ning Family Dynasty’s army had never shown up. Originally, Xia Zhixian thought Yu Suo interfered King Ning to some extent and allowed King Ning to successfully suppress those greedy Ning Family clans.

To think that Ning Family Dynasty still deployed an army and even crossed over Southern Forbidden Region, marching towards Wanxiang City when the defense was the weakest!

“There are over 2,000 Dominators, 40,000 Emperors..... They belong to Ning Family Dynasty’s Ning Zhuang clan. The leader is Ning Zhuang himself and the strongest Ning Tianyou in his clan. Ning Tianyou is controlling the Tianyou clan which is opposing King Ning. Ning Zhuang clan was absorbed into his clan.” reported that scouting captain.

This scouting captain came from Wupan Continent. He was familiar with Wupan Continent’s situations.

“Leader? This Ning Tianyou is leader rank??” Shen Mo was shocked.

Leader rank. Leaving aside the approaching army, even if Ning Tianyou flew towards them alone, nobody could stop his steps.

“How much fighting strength do we have?” Xia Zhixian was calmer and asked Shen Mo.

“Gathering the entire city’s fighting strength, we have 500 Dominators, 9,000 Emperors, 10,000 Monarchs, but.....” said Shen Mo.

In a war at such level, Monarchs were really weak. 10,000 Monarchs might vaporize in an instant. Making them go to the battlefield was useless sacrifice.....

“Wanxiang City still have 10,000 Flower Demons. We will defend the city until Chu Mu and the others return!” said Xia Zhixian in a serious tone.

Shen Mo gritted his teeth. Successfully defending the city was almost impossible. What they could do was to do their best to buy time!

“Holy Guards listen up!” said Yi Wu coldly as he stared at the enemies in the distance.

The 200 Holy Guards yelled, “Protect till death!”

The city guards heard Holy Guards’ yell and looked at the enemies which were several times their number.....

City guards never participated in the front line, but that did not mean they were waived of sacrificing.

Front line could lose, that was because the front line armies still have this Wanxiang City to retreat to. However, city guards were not allowed to lose. Because, behind them was New Moon Land’s foundation!

The well-trained and iron-willed Holy Guards could yell out such resolution without any hesitation. Would city guards be the ones to face the enemies in fear??

They were not as strong as Holy Guards, but when facing the same deadly situation, were they going to lose to the Holy Guards even in courage?

A certain city guard captain shouted ‘Protect till death’, and all armies gathered on the city wall also began shouting ‘Protect till death’!

“Protect till death!”

“Protect till death!”

The determined shouts transmitted over the entire city. Right now, the entire Wanxiang City was in silence, only this vow echoed in the air.

.....

New Moon Palace.

In an elegant yard, a refined lady sat on a swing weaved by flower vines.

She raised her head, the voices of Holy Guards and city guards entered her ears.

Protect till death.....

Is this city going to perish??

Are we really unable to stop the rumbling killing intent coming from the horizon?

If we can't stop it..... how many more people will die?

Too many people have died in this war, there can't be anymore deaths.

.....

Soul Palace inner palace, Princess Wan Ning anxiously ran towards Chu Mu's yard.

There was a team of silver-armored Holy Guards following behind her. These Holy Guards were left by New Moon Palace to protect those important members in New Moon Palace. They did not have to participate in the war, they only had to die before these members were abducted or killed.

"Maner, quick, leave with me," Princess Wan Ning saw Ning Maner still sitting on the swing and hurriedly pulled her up.

"To where?" Ning Maner looked at Princess Wan Ning.

"Hide!" said Princess Wan Ning.

Princess Wan Ning knew that all the Holy Guards and city guards would sacrifice themselves to protect this city.

However, that also meant the enemies would step over their corpses and enter this city any moment. By then, lives were as cheap as grass.

“Where can we hide?” said Ning Maner gloomily.

Princess Wan Ningn was startled and looked at Ning Maner in a daze.

Yeah, where can we hide?

This is Wanxiang City. If even Wanxiang City cannot ensure the safety of everyone, where else can they hide from the disaster of this war.....

“Don’t worry, our armies have received the signal. They will return soon. We just have to endure until they return.....” said Princess Wan Ning.

They would rather die than to be captured.

Once they were captured, the enemies who occupied the city would gain another bargain chip to negotiate with New Moon Land’s army.

Ning Maner shook her head. She took a glance at the cluster of shadow silently following behind her and spoke, “Dark Emperor, take me outside of the city.”

“Maner, what are you saying?” asked Princess Wan Ning confusedly.

By then, the cluster of shadow behind Ning Maner slowly stood up and wrapped up Ning Maner's tender body.....

Ning Maner dove into the shadow. Before Princess Wan Ning could react, that cluster of shadow dashed away along the surface. Princess Wan Ning could only roughly see that cluster of shadow heading towards the southeast!

.....

Ning Maner knew that Ning Family Dynasty attacked New Moon Land because she was in New Moon Land.

The leader was Ning Tianyou. She already sensed the arrival of this grandfather who was related to her by blood.

She only had to hand over her freedom again to protect this city. She could not rely on anyone to protect her now, she could not let this city be destroyed by Ning Family army because of her.....

Chapter 1580: Quiet Forest's Mastermind

Flower vines wriggled at the feet of the city wall, the majority of their bodies were hidden in the soil.

It seemed that this city's defenders only numbered so little. However, when all the Flower Demons squeezed out from the soil, it would surely deal a heavy blow to the enemies.

Ning Family Dynasty's army was approaching closer and closer. The defenders could already feel the killing intent blowing past them, the breaths, roars, savage.....

Those which flew in the sky, those which ran on the earth, the dust rumbled and noises blasted.

Eventually, the enemy army was only one plain away from Wanxiang City.

This plain could not sustain the stampede of an army. The army would sweep across within ten minutes and nothing would be left on the plain.

Tiny sweat droplets began seeping out of the heads of those defenders. The strength of the enemy far surpassed their imagination. They could not help but started to fear, their faces pale and grim.

Shen Mo and Xia Zhixian stood on the city wall and stared at the approaching enemies.

Suddenly, Xia Zhixian frowned and turned her gaze to the piece of land between Wanxiang City and the army.

“What’s going on? Why is she there?” asked Xia Zhixian.

“Ning Maner?” Shen Mo also saw that figure and changed his expression.

Raging wind blew across the plain. The grass leaves were swept into the air. Ning Maner silently stood between the city and the army. That tiny figure looked like a pure white feather within the black tsunami.....

“Bring her back,” Shen Mo asked Holy Guard Chief Yi Wu.

Yi Wu shook his head, "Too late."

The army approached. Just as everyone thought the army would ignore her and continue marching towards the city, the army suddenly stopped.

At the front most of Ning Family Dynasty's army, a running Blood Life Beast came to a stop.

After that Blood Life Beast stopped, the entire army followed. It looked as if a moving scene was paused.

An old man with black and white mixed hair stood on that Blood Life Beast's back. His wrinkles were deep, and that pair of pale purple eyes were focused on the woman standing alone before the army.

The old man maintained a hand raising gesture. The entire army stopped because of that gesture.

"You left your home for a long time and have grown up. You look more like your mother," Ning Tianyou looked at Ning Maner and smiled.

"Grandfather," Ning Maner lowered her head, scared of keeping eye contact with Ning Tianyou.

She agreed to let He Cang bring her out in the past, she never returned after leaving. She also knew they would find her eventually. Messiah Tree's secret would be exposed one day. However, she never expected them to show up here at this moment, with an entire army in tow.

“Come,” Ning Tianyou waved towards her, as if not showing any anger.

Ning Maner took a glance at the densely packed army behind Ning Tianyou.

All of them were especially respectful towards Ning Tianyou, there was even nobody standing next to him. This meant Ning Tianyou already reached a high position in Ning Family Dynasty and even became a leader.

Ning Maner remembered that when she was still in Ning Zhuan clan, the clan was still falling. However, this clan rapidly expanded over the past few years and obtained the past glories. The clan master was no longer Ning Zhuang and became her grandfather Ning Tianyou.

Ning Maner walked towards Ning Tianyou and stopped before that Blood Life Beast.

At that moment, Ning Maner’s cousins walked over as if to protect her, but seemed more likely to prevent her from escaping again and surrounded her.

“Grandfather, let this army retreat. I will follow you back. I will use my power to nurture more experts for Ning Family Dynasty,” said Ning Maner.

Ning Tianyou looked down at Ning Maner from Blood Life Beast’s back and slowly spoke, “Escorting you back is the main mission this time, but a treasure vault-like city is right in front. If I order retreat, I will disappoint these soldiers who crossed over such a long distance.”

Ning Maner was startled for a moment and turned pale. She hurriedly pleaded, “No! They are my families and friends.”

“I am your only family!” said Ning Tianyou.

“I inherited Messiah Tree’s power. When I become a little stronger, I can provide far more resources than New Moon Land. If grandfather let go of this city, I will do my best..... High class Immortal rank, peak Immortal rank, even Undying rank. I can achieve those,” Ning Maner’s emotion fluctuated violently.

She had to persuade Ning Tianyou. She was unwilling to see her grandfather becoming the enemy who killed her families and friends. She was unwilling to see Wanxiang City in ruin like that.

Deaths, sacrifices, she had seen enough corpses.....

“I know that long ago,” said Ning Tianyou.

“Long ago?” Ning Maner was unable to comprehend Ning Tianyou’s meaning.

“Yes, long ago. Have you never wondered who threw you in Quiet Forest to let Messiah Tree pass down its power to you?” said Ning Tianyou peacefully.

Ning Maner was stunned.

She remembered she lived in Wupan City when she was very young. However, those memories were blurry, she could not remember them well. Her real memories started in Quiet Forest.

She..... She really did not know how she was in Quiet Forest.

“I have a son who was really idealistic, he loved a woman who was disliked by the entire family. The things they had done were never acknowledged by the family. They wandered everywhere, abolished the clan kins without mercy, completely unrestricted by the world.....”

“He was my most rebellious son, and also the most irritating son. He never listened to me. However, he did something I had to be proud of.”

“He and your mother pursued a life of just the two of them. They gave birth to you under Messiah Tree in Quiet Forest. The miraculous thing was, you who was born under Messiah Tree was acknowledged and blessed by Messiah Tree, and even inherited a portion of Messiah Tree’s power.”

“He and your mother brought you back to me and proudly told me that you are the luckiest daughter in this world. Because you possess a blessing from a god.”

“Quiet Forest, that was the land of gods forgotten by the six races. I could not believe they actually really entered Quiet Forest and saw Messiah Tree. They told me that Messiah Tree spread its nurturing ability to many life forms. Actually, there were not many powerful creatures around it to protect it. It was a tree of god which completely offered all of its power.”

Ning Maner stood there, her eyes focused on Ning Tianyou who was slowly narrating the past. For some reason, the current Ning Tianyou gave her a dangerous feeling, as if he was someone else.

She did not know if she never saw her grandfather's true personality or he completely changed over these years. In any case, he was like a stranger now!

Ning Tianyou looked at Ning Maner's rather naive expression and grinned, "Do you still not understand?"

Ning Maner shook her head. She could not understand what Ning Tianyou wanted to say.

"Fine," Ning Tianyou continued his narration, "When my irritating son told me this news and showed you to me, I have thought up a grand plan."

"As expected, my son never listened to me again. He has never listened to me before. I have no other choice but to let Wupan Royalty to handle him."

"He's rebellious, stubborn and tenacious. However, as a father, I had to admit he was a strong individual worthy of respect! We sent out all our experts and even Wupan Royalty had to send out a few experts to take him down. In order to subdue him alone, our clan suffered a great loss. Our overall strength fell greatly in Wupan Continent....."

Speaking up to this point, Ning Tianyou stopped and stared at Ning Maner.

Ning Maner was completely shocked, her eyes filled with disbelief!

She had always assumed the other clans were the culprits harming her parents. She never thought it was her grandfather, Ning Tianyou, who truly harmed her parents!

“You are still too naive. A naive person cannot survive in this world. I took you to Messiah Tree again. Messiah Tree treated you like its own granddaughter and carefully nurtured you. It even granted you its Messiah Seed to let you inherit its power.”

“Unfortunately, Messiah Tree is also too naive. It never imagined you are the fatal chess piece Wupan Royalty and I arranged to be at its side.....”

Ning Maner felt a chill. The chill seeped through her skin, invaded her body and touched her soul!

She could not believe that all of that was planned by her grandfather!

In that case.....

Ning Maner looked at this stranger-like Ning Tianyou.

“Then, Quiet Forest’s slaughter.....”

“I’m just a guide. In fact, a special existence like you brought destruction to Quiet Forest!” said Ning Tianyou.

Guide.....

The nightmare in Quiet Forest would occasionally appear in Ning Maner’s dream.

After personally witnessing that slaughter, she could clearly remember it even after so many years.

However, that heart-tearing slaughter was actually orchestrated by the person before her, and he was her blood-related grandfather!

Her family killed the three which nurtured her from young, as well as countless companions and guardians in Quiet Forest.

Treant, snake, fairy, lion man, wind eagle..... They desperately protected her life, but the person they protected was actually the cause of the destruction of Quiet Forest.

The culprit was herself. From the moment of her birth, the seed of disaster had been planted for the entire Quiet Forest.....

This sudden information shocked Ning Maner and caused her mind to break in an instant!
