

Soul Pets Bk2 1581

Chapter 1581: Devil Soul Race's Incantation

"Some people are born with power and dominate their fates. Some have to struggle from the bottom most rank. They have to use the most despicable means and the most merciless conspiracies to barely reach their current positions. I have lived for over two hundred years, the things I have experienced are far more than a little girl like you. There's no need to feel grudge towards me, the path of cultivation has no such thing as family ties. Don't easily believe anyone who you think you can trust, because one day, that trusted individual may sell you out for his own benefit. As your grandfather, I'm at least not completely harming you. I taught you the most important survival law, right?" said Ning Tianyou with a calm tone.

Ning Maner could no longer hear any sound. Her brain kept repeating those nightmarish scenes she witnessed in Quiet Forest. Now, there was one more nightmare. That nightmare was her grandfather. He had torn away that fake mask and revealed a terrifying devil behind the mask!

She remembered that long ago, He Cang already told her that Ning Tianyou was a hypocrite.....

She did not pay much attention, she only thought her grandfather was just not familiar with her and that resulted in a poor relationship. He was at least her grandfather.

Ning Maner could never imagine his hypocrisy to be this cruel. No words could describe the inhuman things he had done for his own benefits.....

While narrating the truth, he was even using a proud tone. Killing his own son and setting up his granddaughter, or perhaps he who lived for over two hundred years had killed even more family members. He did not feel a trace of pain or regret, but seemed to be showing off his achievements, to prove that what he had done was right.

How could there be such a crazy person in this world? Why did that person have to be her grandfather?

“Secure her,” Ning Tianyou told those cousins.

After that, he waved his hand and indicated the army to continue the march!

A blood red flag waved above the sky of the plain.

At the front of Ning Zhuan Clan’s army, blood-colored horned beasts lined up in a charging legion.

As the order was given, dust was kicked up and the earth trembled. Over three thousand Blood Horned Beasts charged forward on the plain towards Wanxiang City!

.....

“They are coming,” Shen Mo’s expression turned grim.

Xia Zhixian chanted an incantation and green light flashed.

Beneath the solid city wall, some Flower Demons with flexible vines began climbing along the city wall. They rapidly weaved a plant stronghold filled with sharp thorns on both sides of this city wall.

Blood-colored bodies crashed towards the city wall one after another. In an instant, blood spilled on the plant stronghold. The Flower Demons buried in the soil surged up like snakes and overturned the soil. They forcefully dragged those Blood horned Beasts into the soil traps.

Elemental soul pet trainers chanted incantations on the city wall. Elemental techniques weaved into a net shape covered the rear of this Blood Horned Beast legion. In an instant, a large group of Blood Horned Beasts turned into corpses.

In the distance, when Ning Tianyou saw the suddenly emerging Flower Demons, he revealed a wicked smile instead, "I thought it was an empty city, so there is some defensive strength left. However, that's just useless!"

The order to attack was given once again. A large crowd of wings pressed down from the sky and sharp cries rang out.

Wanxiang City's plant stronghold was not very tall. Ning Zhuan Clan's wing type army directly flew onto the city wall and started attacking the soldiers on the city wall.

The city wall began shaking violently and a large piece collapsed.

Next, tens of thousands of Ning Zhuang main force began pressing in!

The main force would easily crush Wanxiang City which lacked in defense!

Watching the enemies stepping over the corpses of Flower Demons and reaching the city, the city guards and New Moon Land members immediately felt helpless!

The enemy had Dominator army, a large Emperor army, as well as Immortals who possessed absolute strength. They had done their best to buy time, but they could still not sustain the overwhelming assault by the enemy.

When the Flower Demon army was completely burned away by fire type creatures, New Moon Land's army could no longer prevent this army from approaching.

The city wall was toppled down. The streets and buildings inside the city wall were demolished.

Citizens living in the southeast region were evacuated to another location. However, a city was only this big. Once the city wall and plant stronghold were breached, it was meaningless to hide!

A city zone, residences and streets were enveloped by the flame of war.....

Wind raged and monsters roared, desperate screams also echoed. Destructions, corpses and slaughtering were happening in real time. Flying above the city, Shen Mo watched the enemies swarming into the city like a flood. He really wanted to charge into the enemy ranks, if he could just stop one or two Immortals.....

Xia Zhiran also remained silent. Everyone did their best and desperately held on. However, they were still unable to overcome the absolute disadvantage in numbers.

She knew that what she could do now was not to stall the enemies. She should be thinking about ways to rescue those important family members of those people fighting at the frontline.....

“Yi Wu, let the Holy Guards defend the city wall in the middle city,” Shen Mo forced himself to calm down.

The Holy Guards reduced from two hundred to around one hundred. These one hundred Holy Guards were insignificant before the enemy army.

Yi Wu did not hesitate and took the Holy Guards to defend the middle city.

The enemies travelled along the main streets towards the middle city.

There was really nothing worthy to pay attention to in the outer parts of the city. There were only empty streets, buildings and some New Moon Land members.

The middle city was the place where Wanxiang City’s citizens gathered. There would be countless wealth inside.

Meanwhile, the inner city was filled with vast resources which could let them increase their strength. They believe that the reason New Moon Land could develop so fast was because New Moon Palace possessed large quantities of Xuan Items, Immortal Items, and those Isolated Spaces were huge treasure vaults.

The remaining New Moon Land defenders retreated to the middle city wall.

The middle city wall’s defense mechanisms were similarly not effective. There was only a city barrier that operated with over ten thousand soul crystals.

When the danger approached, this dark blue barrier already covered Wanxiang City's middle city and inner city. However, nobody knew how long this barrier could last.

"There is a finally New Moon barrier in the inner city, hopefully we can endure until they come....." Shen Mo flew back to the middle city. His eyes looked past the dark blue barrier towards the distance.

"Commander, a Nightmare army swarmed out from Nightmare Palace!" reported a New Moon Palace soldier.

Shen Mo, Xia Zhixian, Yi Wu and the others turned around and focused on Wanxiang City's inner city.

New Moon Palace was currently built around Wanxiang Altar. Nightmare Palace was also rebuilt near Wanxiang Altar.

Currently, beneath the tall Wanxiang Altar, silver flame, blue flame and green flame burnt dazzlingly as if the city was on fire!

"It's Chu Mu's Nightmare army..... but, isn't Nightmare Dynasty also short in fighting strength now?" said Shen Mo.

"They have a large number, but their average rank is not high....." Xia Zhixian's hopeful gaze dimmed.

Certainly, a Nightmare army swarmed out from Nightmare Palace. However, this Nightmare army was not strong, it was clearly the remaining fighting force Nightmare Dynasty left behind.

“Let’s buy as much time as possible. By the way, who is leading this Nightmare army?” asked Shen Mo.

On Nightmare Dynasty’s side, the ones who could really order those Nightmares around were Chu Mu and Bai Yu. Shen Mo could not understand. Were those Nightmares coming out from Nightmare Holy Region to save Wanxiang City out of their own will?

“It’s Princess Jinrou,” said that palace soldier.

Shen Mo and Xia Zhixian were startled and hurriedly used their soul remembrance to check that direction.

As expected, amongst those burning figures, an elegant figure wearing white long skirt was protected by those Nightmares.

Other than that, there were countless floating spiritual entities around her.

Those entities looked like specters, but were filled with spiritual energy. There was not a trace of the coldness of an undead creature.....

“It’s the Devil Soul race. Princess Jinrou summoned the Devil Soul race,” said Shen Mo in astonishment.

The Devil Soul race was Nightmare Dynasty's neighbour. The Devil Soul race was the crucial resource for New Moon Land to nurture powerful individuals. Only Devil Souls could change the quality of New Moon Land member's racial potential.....

The Devil Soul race had been heavily guarded by Nightmare Dynasty. The reason Nightmare Holy Region was not opened to the public was also because the Devil Souls were living in Nightmare Holy Region.

"There are several thousands of Devil Souls..... These Devil Souls don't possess much fighting strength....." Yi Wu watched the spectral creature gathering around that princess.

"What are they doing?? Why are they flying towards the Sealed Tower??"

The Nightmare army began flying towards the middle city wall under Princess Jinrou's order. They were probably trying to buy time for Wanxiang City as well.

Meanwhile, Princess Jinrou landed on Wanxiang Altar's Sky Palace. She crossed her hands before her chest and chanted an incantation with her eyes closed.

Her black long hair and white skirt fluttered in the air. The surrounding Devil Souls began rotating into a spectral current. They also started chanting this unknown incantation with this woman at the center!

Chapter 1582: The Spectral Goddess From Ancient Timespace

"What..... What is she doing?" Xia Zhixian looked at Bai Jinrou who was at Wanxiang Altar's Sky Palace.

The Devil Soul incantation created an ancient diagram on Wanxiang Altar. The dazzling timespace radiance shone at the peak of Sky Palace, condensing into a bright Devil Gallop!

The Devil Gallop opened up the spatial gate in Sky Palace.

This spatial gate connected to Wanxiang City's Sealed Tower.

The Sealed Tower was the energy source for the entire Wanxiang City. It allowed the entire city to be filled with Xuan aura, and some special places were even filled with Immortal aura.....

Inside the Sealed Tower, creatures which had sinned were chained up and sealed.

In the past, creatures sealed in New Moon Land's Sealed Tower were not of high ranks. Most of them were Emperors and Monarchs, only the highest floor had Dominators.

However, as New Moon Land developed and Liu Binglan organizing the imprisoned soul pets from all over the world, the creatures sealed in this Sealed Tower greatly increased in rank. Most became Emperors and Dominators, there were even Immortals.....

One could say that the reason Wanxiang City could nurture so many experts in a short time was closely related to this Sealed Tower.

Outsiders did not know the secret of the Sealed Tower. However, once it was known, this Sealed Tower would become a sacred place for cultivation which would many many envious of!

Currently, Princess Jinrou forcefully activated the isolated space on this floor of the Sealed Tower and made all the Devil Souls fly into it.

These Devil Souls flew out soon after entering, then hovered on a node of Devil Gallop each.

Each time the Devil Souls made a round trip, they seemed to have brought something out of the Sealed Tower. Soon, the huge diagram became even brighter!

“She..... She seems to be absorbing the soul power of those creatures sealed in the Sealed Tower!” Yi Wu looked at the sky in astonishment!

Those who were familiar with Devil Souls knew that Devil Souls possessed the technique to absorb soul energy. Right now, the several thousand Devil Souls with Devil Soul Princess Bai Jinrou as lead all became soul absorbing Devil Souls. They kept flying into the Sealed Tower to absorb soul energy from the sealed soul pets, then filled Devil Gallop with soul energy.

Nobody could estimate how large the Sealed Tower was inside. At least, over the years, there would be tens of thousands of soul pets sent into the Sealed Tower.....

.....

“Clan master, look!” Outside the city, a Ning Family commander pointed at the sky and stared at the diagram in shock!

Ning Tianyou felt an abundant soul energy gathering at the center of Wanxiang City long ago. He raised his head to look at those Devil Souls, greed filled in his gaze!

Devil Souls, over three to four thousands of them at that, an entire Devil Soul race!

Some special creatures were the favored children of the world from the moment of their birth. They were not very strong themselves, but could be used to increase the level of other creatures and even change the strictly restricted bloodline rank!

Devil Soul was such a special existence. Their appearance was totally meant for the humans, because they were the unique creatures which could truly change the human bloodline.

For example, a common cultivator had to take fifty years to reach Spirit Emperor rank. If such a person could sign a soul pact with a Devil Soul, then he might reach Spirit Emperor rank in five years. How could one not become crazy over such a shortcut in cultivation?

To any cultivator, being able to meet a Devil Soul was a heaven-sent gift.

And now, near four thousand Devil Souls appeared in front of Ning Tianyou, an entire Devil Soul race!

Furthermore, he could tell those Devil Souls were not low in rank. If he could capture them all and carefully nurture them, how many Dominators and Immortals would work under him??

Ning Tianyou watched the scene in a daze. He never expected such a surprising Devil Soul resource to be hidden in New Moon Land's Wanxiang City. It was no wonder this third rank territory could develop so fast until they could oppose eight major factions. This place was a treasure vault. Furthermore, who could guarantee there were no other resources yet to be excavated??

“Do you know what to do??” Ning Tianyou took a deep breath and suppressed his excitement.

“Clan master, please rest assured. We will definitely obtain all the Devil Souls!” The commanders also became excited.

The commanders threw their flags up high. War cries instantly rang throughout the entire city, causing the dark blue barrier at Wanxiang City’s middle city to ripple violently.

Seeing Ning Family army with such morale, the entire city fell into panic.

In the sky above Wanxiang City, Princess Jinrou remained with her eyes closed and continued chanting the complex incantation.

She did not know how much energy she could gather, but she knew if she did not step up soon, the entire Wanxiang City would fall into ruin.

The diagram gradually changed from a semi-transparent state to a real diagram shrouding the sky above Wanxiang City. Those Devil Souls had also completely flown out from the Sealed Tower. They transported soul energy and filled all the nodes on the diagram.

Nearly four thousand Devil Souls meant there were nearly four thousand nodes. Once all the Devil Souls reached their positions, people noticed this entire diagram unleashing a spectral light which pierced through the space, galaxy and universe!

The entire diagram began rotating in the sky. Spiritual light gathered, the entire world seemed to have stopped at this moment, only the diagram remained rotating!

Each time it completed a rotation, there would be Devil Souls flying up from the nodes towards Princess Jinrou, as if a soul was integrating into a body.

More Devil Souls flew up and stacked themselves onto Princess Jinrou with the soul energy absorbed from the Sealed Tower.....

Everyone knew that Devil Souls could integrate into a body with life force. However, who could have witnessed nearly four thousand Devil Souls gathering in one body??

At the center of the diagram, after all the Devil Souls integrated into her body, her aura completely changed!

Ancient diagram lingered around her, exuding a unique aura. An unknown and mysterious power turned into an illogical spectral domain around her, with faint starlight decorating the space.....

The past Bai Jinrou was a spectral princess. Now, she appeared like a spectral goddess who had awakened from an ancient timespace. Her perfect body did not seem to belong to this timespace, her aura was also different from this world!

Just like nobody knew why Devil Souls would exist in this world with such a special property, nobody could explain why a human girl who maintained her spiritual form with Devil Soul could become such an incarnation. Was she a human? A Devil Soul? A Specter? Or a Half Human?

Bai Jinrou slowly opened her eyes, her beautiful eyes revealed a little confusion.

She looked at herself.

Devil Gallop was the strongest incantation formation of the Devil Souls. She had never used such a power before, she also did not know what would happen when such a vast amount of soul energy was gathered in her body.....

However, she could sense that the entire world had changed in her eyes.

It became not so realistic.

She felt as if she was looking at the scenes in a dream which she knew she entered. She saw the city buildings, streets, panicking people and the enemies.

Everything felt like an illusion.....

Those should have been realistic. If they appeared unreal in her eyes, that only meant she herself did not exist in this world right now.

However, if she did not exist in this world, why did she feel that she possessed the strength to easily change everything??

Bai Jinrou raised her head and saw a group of creatures with grey feathers breaching the dark blue barrier, coming straight for her.

She felt she could use her will to manipulate them.

That was an aerial army made up of 100 Dominator Grey Wing Demons and 2000 Emperor rank wing type creatures. If the past Princess Jinrou felt she could use her will to manipulate and destroy them, she would definitely think of it as a joke.

However, she still tried to unleash her spiritual psychic power. This felt as easy as using her hand to take something on the table.

Her long hair fluttered and her pupils shone. Her will turned into intangible lightning which instantly travelled through the space and hit the aerial army which tried to breach Wanxiang City's barrier.

Suddenly, that aerial army became still in the air. In Princess Jinrou's eyes, they were just like pictures. However, when she allowed her will to be unleashed, those wing type creatures completely stopped moving, just like a real picture.....

.....

"What's going on? Why did they stop moving?" In the sky, New Moon Palace soldiers riding on Immortal Ming Birds focused on the enemies.

"These wing type creatures are not flapping their wings or generating any energy to hold up their bodies. How are they able to fix themselves in the sky?"

On the city tower, Xia Zhixian, Shen Mo, Yi Wu and the other commanders stared at the sky in astonishment.

The originally ferocious wing type aerial army completely lost their presences the moment they stopped! There was not a single stroke of wind in that region. All those wing type soul pets and soul pet trainers appeared to be dead. The scene was extremely creepy and scary!

Chapter 1583: Spectral City Protection Barrier

“What’s going on? Who asked them to stop?” roared Ning Family aerial army’s commander.

“Commander, they..... they seem to have died,” said an Immortal member.

“Dead? Aren’t they still there?” The moment the commander rebutted on reflex, he suddenly felt an unusual aura approaching.

This aura felt like ice sealing power, or darkness restriction power, or perhaps the soul power used by specters. It even carried the fluctuations of Other type. This aura swept past that Ning Family aerial army commander. The Immortal who was speaking a moment ago suddenly spasmed as if he was electrocuted, then turned stiff on the spot.

That creepy aura grazed past this commander. The commander suddenly felt a chill, his body and thoughts instantly stiffened.....

If felt like that aura lasted just one second. When this commander regained his thinking ability, he suddenly realized everyone around him becoming motionless objects.

Wing type creatures did not flap their wings or execute and sky scaffolding techniques. However, they were creepily floating in the sky..... or fixed in the sky might sound more suitable.

Any life would exude a life force presence. However, these fixed wing type soul pets and soul pet trainers did not exude any life force presence. They were just like non-living things.

Why did such a bizarre thing happen?

This commander looked at those clearly alive soul pet trainers which felt even colder than corpses and recalled the terrifying sensation of completely losing his mind and body. A chill ran down his spine.

The aerial army commander raised his head and looked at that spectral woman which should not belong to this timespace in fear.....

Her eyes were bright and charming. However, when this aerial army commander accidentally made eye contact with her, that creepy chilling sensation was transmitted again.

He lost his feelings and thinking ability again, the entire world suddenly became dark.

.....

“Clan master..... That woman.....” Ning Family army’s Demon army commander looked at the sky and was shocked by the scene.

This scene was extremely creepy and scary. The entire aerial army was fixed in the sky and lost all signs of life.

They seemed to be alive, yet they felt even more terrifying than dead!

Nobody could understand what kind of power that was. It was not restriction, petrification or ice seal. If one had to describe it, it was stillness in timespace.

It was difficult to imagine such a power existing in this world!

Ning Tianyou stared at the spectral woman in the sky who unleashed such a power and frowned.

In records, Devil Souls were not offensive. However, it was also said that they possessed the most mysterious power in this world. At least, Ning Tianyou was still unable to understand how that spectral woman was able to fix the aerial army in the sky and turn them directly into non-living things.

“Ignore her, continue attacking the barrier,” ordered Ning Tianyou.

Blood Beasts made up of the majority unit in the demon army. Over a thousand Dominator rank demons and ten thousand Blood Beasts charged towards the middle city barrier.

The dark blue barrier was already showing cracks. A barrier of this level could never block the charge of an entire army.

“The barrier is about to shatter!” said Yi Wu.

Shen Mo and Xia Zhixian snapped back.

Killing intent swept across, as if that aura alone was enough to topple the city wall.

Shen Mo turned to take a glance at Wanxiang City's middle city.

Most of the people in the outer city had retreated to the middle city. There were still many people on the streets of the middle city.

There were not sufficient underground chambers for them to take refuge. They could only stand on the streets.

Some children hugged the legs of adults in confusion and looked at the city wall of the middle city.

Those adults also stood there and looked at the city wall, at the New Moon Land city guards.....

Such helpless gaze filled the streets. They seemed to be staring at the defenders and leaving all the hopes to the defenders.

Shen Mo turned forward and did not dare to look at them again.....

The middle city was about to be breached. If they stood on the streets like that, the first wave of attack would easily tear them to pieces.

"Commander!" Yi Wu looked at Shen Mo and awaited Shen Mo to issue the final order. Yi Wu also knew the result would be the same no matter what order was given.

Shen Mo took a glance at the few defenders remaining. He was about to raise his hand and order them to fight till the death, but he still gave up.

“Holy Guards retreat, New Moon Palace army retreat, city guards retreat..... Bring as many people as possible,” Shen Mo told Yi Wu.

Yi Wu was shocked for a moment. He was prepared to sacrifice, yet became speechless at Shen Mo’s order.

“Commander.....”

“There’s no need to make pointless sacrifices. Try to let as many people survive as possible. New Moon Land will not perish just because Wanxiang City is lost!” Shen Mo waved his hand and indicated the others not to persuade him any further.

“Shen Mo, the barrier is not broken,” At that moment, Xia Zhixian reminded Shen Mo.

Shen Mo raised his head and looked at the barrier. He suddenly realized the dark blue barrier was still intact.....

The barrier was like a light film and covered the most important city gate of the city. The powerful enemy demon army gathered at the city gate. They concentrated their power to attack this brittle barrier protecting the city gate.

However, the barrier which should be broken easily was strangely sturdy. It was still not broken by now. What was more unbelievable was that the enemies even had Immortals attacking the barrier, yet was unable to break it!

“How can that be possible..... Did someone reinforce the barrier?” exclaimed Shen Mo.

Shen Mo personally participated in the installation of the middle city barrier. He knew very well the sturdiness of this barrier.

It should have been shattered long ago. However, it managed to block the enemies for such a long time. The enemies numbered in tens of thousands. With such a large army attacking the same spot, even the inner city barrier could not endure!

“Look,” Xia Zhixian pointed at the edge of the city tower roof.

Shen Mo looked in that direction and was astonished to see Princess Jinrou quietly standing at the edge. Her pale white skirt fluttered gently, giving off a beautiful and spiritualistic aura!

She was standing behind that important part of the barrier. If they used soul remembrance to examine, they would realize a spectral shield in front of Princess Jinrou. This shield was invisible to the naked eyes, only a vague outline could be seen.

This spectral shield protected that fragile barrier and stopped the enemy attacks!

“Is that spiritual power?” mumbled Xia Zhixian as she looked at Princess Jinrou’s spectral shield.

Princess Jinrou turned around and took a glance at Xia Zhixian and Shen Mo.

She did not speak, but Xia Zhixian and Shen Mo could hear her voice gently speaking to them.

“My power can defend for a while, don’t give up so easily.”

Shen Mo and Xia Zhixian nodded.

Although they did not know what kind of power Princess Jinrou obtained, her performance brought trace of hope.

As long as there was hope, Shen Mo and Xia Zhixian would never give up. They would not let a single enemy enter the middle city even if they had to sacrifice themselves!

“You can start attacking. My spiritual barrier is a single-directional defense. Your techniques can pass through my barrier,” continued Princess Jinrou.

Shen Mo recollected himself instantly, “Holy Guards, long distance attack! New Moon Palace army, long distance attack! City guards, long distance attack!”

There were less than five thousand people left in total. They were also not of high ranks, but they would try to kill as many enemies as possible, because that would be equivalent to saving an extra life of those in the city.

The New Moon Land defenders did not hold back at all. They started chanting and charging, gathering all of their power to hit the enemies outside the barrier!

The enemies crowded outside the barrier to try breaking it. However, when the New Moon Land defenders counterattacked, over two thousand demons perished in this barrage of counterattack.

Furthermore, if they could not break the barrier, they would continue suffering the attacks from New Moon Land defenders.

“Clan master, we can’t break through this barrier. That spectral woman used some unknown power!” said demon army’s commander.

“Hmph, I will take her on!” snorted Ning Tianyou.

After that, Ning Tianyou rode on his Blood Life Beast and stepped into the air!

Blood Life Beast flew over the entire demon army. Its body turned into a shade of blood and furiously crashed onto a certain spot of the spiritual barrier!

Vroom~!

A charge by a high class Immortal rank creature was extremely terrifying. That crash impacted all the surrounding demons. At the same time, a violent shockwave traveled along the spiritual barrier and penetrated inside, hitting towards the city tower at the middle city!

Princess Jinrou slid back a certain distance!

When she stopped sliding back, her hair fluttered. The city tower beneath her suddenly showed a big crack.

“See how many times you can block my attack!” shouted Ning Tianyou.

Blood Life Beast raised its claws and slapped onto the barrier!

Chapter 1584: The City Still Stands, You Must Make It In Time

A horrifying claw flash appeared on the city tower, almost tearing the entire city tower in two.

Princess Jinrou was pushed back a few steps by this power again. However, that unique domain was still maintained in front of her. Ning Tianyou’s Blood Life Beast did not manage to pierce through Princess Jin Rou’s unique domain. Only the power contained within the claw strike pierced through the city tower.

Wanxiang City’s city tower definitely could not block the attacks from a high class Immortal rank creature. So it was clear that Ning Tianyou’s attack was greatly weakened after passing through a layer of barrier and domain. Wanxiang City’s defender only had to let a rock type soul pet chant an incantation to repair the crack on the city tower.

“That woman is actually able to block clan master’s Blood Life Beast!” Ning Family’s commanders were shocked and looked at that spectral woman in astonishment.

Blood Life Beast was a high class Immortal rank creature. Just this soul pet alone could cause a devastating blow to Wanxiang City.

Its attack should be unblockable, yet that spectral woman exuding unknown aura used an unknown power to block Ning Family army outside of her barrier. That barrier was even able to block their clan master's Blood Life Beast.

"Don't stop, continue attacking!" shouted Ning Tianyou as he swept a glance at his army.

Be it a barrier or spiritual protection, sufficient power could break through it. Ning Tianyou would not believe a specter could really stop the attack from him and his army!

Blood Life Beast fell back a little distance. Thick blood aura condensed around it, and a horrifying blood shadow stacked within the blood aura.

Blood Life Beast was accumulating its blood beast power. It stood in the sky and enlarged within the blood shadow and blood aura!

"Hou!"

Blood Life Beast roared and a blood beast soul charged out from its body!

The blood beast soul heavily crashed onto the spiritual barrier.

A terrifying blood ray flashed on the barrier. The blood beast shadow pounced down and twisted the shape of the spiritual barrier using its pressure.

At the same time, Ning Family army's elemental legion completed their incantations. Techniques showered down onto the spiritual barrier after blood beast soul's pounce!

An elemental storm was able to bring destructive damage to the middle city. The people on the street raised their heads. What they saw was no longer the blue sky, but a sky filled with deadly elemental techniques.

Such destructive energy was only one thin barrier away from them. They clearly understood that this thin barrier would never be able to block so many techniques.

On the middle city's streets, panic did not break out. Those people could only raise their heads and watch the elemental energy exploding on the barrier. It was a beautiful yet terrifying sight.....

The streets were crowded with people. If any technique landed on the streets, it could easily reap the lives of over a thousand people.

The barrier dimmed occasionally, as if it would shatter any moment. Then, the meteor-like elemental techniques would fall onto the crowds.

However, the barrier did not shatter. There was still an invisible spiritual barrier outside the barrier.

This spiritual barrier was created with Princess Jinrou's will. The enemy's bombardment was similar to landing on her vast spiritual world.

As long as her spiritual world did not collapse, this spiritual barrier created with will and spirit would never shatter!

“She used her spiritual power and protected the entire city,” Holy Guard Chief Yi Wu was astonished. He looked at the woman standing on the roof in disbelief.

Soul pet trainers possessed spiritual power, also known as soul remembrance. They could use soul remembrance to sense, replace their sight or even attack the opponent’s spiritual world directly. At the same time, they could use soul remembrance to protect their souls.....

However, using spiritual power to create a large barrier and protecting an entire city was never heard of before.

Just how vast the spiritual power would be needed to stop an entire army outside of the city and block waves after waves of deadly barrages?

After stacking over four thousand Devil Souls, Princess Jinrou’s body was no longer semi-transparent.

However, each time a fierce attack landed on the barrier, especially from Ning Tianyou’s Blood Life Beast and the other Immortals, Princess Jinrou’s spectral radiance would dim a little. Her body would also become a little more transparent.

From being shrouded in an unknown domain to gradually seeing the sky through her body, it was clear that this spiritual barrier which protected the entire city was rapidly exhausting her spiritual power.

Shen Mo knew that when Princess Jinrou’s body turned completely transparent, it meant that she and those Devil Souls would have exhausted all their power. Devil Souls sustained their lives with spiritual power. Once it was exhausted, it meant their lives reached the end.....

Her power was not bottomless. She seemed unaffected, but she was also doing her best to grab onto the final strand of hope for Wanxiang City.

Shen Mo clenched his fist tightly. He could not let Princess Jinrou endure through this alone, he and the others had to do something!

He took a glance at the Nightmare army which flew onto the city wall.

There were around 50,000 Nightmares, their average rank did not even reach Emperor. They were basically the reserve fighting strength of Nightmare Dynasty. They were similarly buying time for Wanxiang City.

Shen Mo gritted his teeth and ordered, “New Moon Palace soldiers, split into two teams and leave middle city through the secret passages. Disrupt the enemy elemental legion from behind!”

After that, Shen Mo jumped down from the city tower and led one team to leave from the secret passage.

Xia Zhixian watched Shen Mo leave.

The New Moon Palace soldiers Shen Mo led would definitely head to the outer city. There was no protection in the outer city. Going to disrupt the enemy like that was similar to stretching their necks towards the enemy’s guillotine.

She did not know if what Shen Mo did was worth it or not, since what he did was only buying the little time the enemy had to use to raise the guillotine.....

“That flower garden below Wanxiang Altar has a Flower Killing Formation.....” Xia Zhixian began speaking to Holy Guard Chief Yi Wu.

“City Lord Xia can just tell me. If the city is lost, what use is there to keep my life?” said Yi Wu with a serious expression.

“The elders can provide the energy to activate the Flower Killing Formation, they just have to place the formation nodes accordingly. However, this Flower Killing Formation was set up at Wanxiang Altar to protect Empress Concubine Palace. I need ten experts to set up the formation catalyst flowers amongst the enemies in order to make the Flower Killing Formation work on the enemies,” said Xia Zhixian.

The Flower Killing Formation was set up by Yu Suo, it was used to protect her own territory.

This Flower Killing Formation was very special. The more the energy provided, the greater the power it could unleash. Wanxiang City was in its crucial moment. If the city was lost, there was no point keeping those soul crystals.

Although it was not known if changing the Flower Killing Formation like that would work, if they did not even try, everything would be lost!

“I will personally lead the team. City Lord Xia just has to tell me how to do it, I will definitely accomplish the mission!” said Yi Wu without any hesitation.

Diving deep into the enemy army to set up the formation nodes.....

This was even more dangerous than Shen Mo's suicidal disruption!

"The catalyst nodes are simple. You just have to plant these seeds into the soil," Xia Zhixian handed over some seeds to Yi Wu.

"How many enemies can this formation kill?" asked Holy Guard Captain Jian Feng.

"Two Emperor soul crystals can kill an Emperor rank enemy. Two Dominator soul crystals can kill a Dominator rank enemy," said Xia Zhixian.

Holy Guard Captain Jian Feng also took over the catalyst seeds, then took off his spatial ring and handed it to Xia Zhixian, "The soul crystals inside can kill three Dominators and twenty Emperors more."

Xia Zhixian was surprised for a moment and held onto the ring.....

"Tell me where I should bury these seeds," said Jian Feng.

"It is best to be near the enemy's elemental army," Xia Zhixian suddenly felt that her suggestion was very cruel. By saying those words, it was similar to deciding the grave of this young Holy Guard Captain would be at the enemy elemental army's area.....

Jian Feng nodded and did not say anything further. He stood on the city wall and observed the enemy's elemental army.

“City Lord Xia, please prepare the formation. Princess Jinrou cannot endure much longer, she is already having a difficult time,” said Yi Wu, “Leave these to us.”

“Alright. Take care,” Xia Zhixian nodded and flew towards Wanxiang Altar on her Sky Butterfly Queen.

.....

Wave after wave of energy bombardments blasted Princess Jinrou's spiritual world. Her spiritual world was in a mess. That brain churning pain caused her to bite her lips tightly, her face was extremely pale.

“That's.....” Suddenly, Princess Jinrou saw a team.

The person leading that team was Shen Mo. He brought a limited number of New Moon Palace soldiers and appeared in the outer city unknowingly.

Without the protection of the barrier, they would not be able to defend the enemy bombardments.

They would die.....

At this moment, several figures flew out with their demons from the city wall.

They crossed through the barrier she put up and exposed themselves to the enemies.

These people should be the strongest ones left in the New Moon Land defenders. They rode on their demons and dove towards the enemy army. The person at the front waws Holy Guard Chief Yi Wu, as well as that outstanding young Holy Guard Captain Jian Feng.....

Seeing them leave her protection, Princess Jinrou felt even sadder.

Everyone was squeezing out their final effort to protect Wanxiang City.....

“Chu Mu, the city still stands, you must make it in time,” prayed Princess Jinrou in her heart silently.

Chapter 1585: Dragon Race, To Be Proud Of

In the northern region of New Moon Land, several anxious figures flew towards the south.

Uncle Yu flew at the front. He rode on his elderly Thunder Dragon.

This Thunder Dragon had yet had the time to heal its wounds. It was doing its best to fly towards Wanxiang City.

Thunder Dragon suffered a heavy injury. It kept panting and appeared very tired.

Uncle Yu stroked Thunder Dragon’s head with his hand, tears moistened his eyes.

“Old pal, never mind, stop here,” Uncle Yu told Thunder Dragon.

Thunder Dragon had accompanied Uncle Yu for several hundred years. Immortal rank creatures should have an even longer lifespan, but non-stop battles for over a hundred years greatly exhausted its body and soul, making it reach its elderly stage along with him.

Thunder Dragon continued to flap its wings. Perhaps, it was trying to use its steady flight to prove that it had yet to age, or it wanted to fly freely again as its life was about to reach the end.....

Thunder Dragon flapped its wings and flew towards a certain direction without caring about its injuries.

Right behind Uncle Yu and his Thunder Dragon were a few others. Bai Yu who was engulfed in Devil Fire, Liu Binglan who was riding on Star River Bird, Ye Qingzi who was sitting on Little Hidden Dragon’s back, as well as Zhan Ye and Martial Cloud Dragon following right behind Ye Qingzi.

Ye Qingzi turned to look at Zhan Ye and Martial Cloud Dragon.

Chu Mu’s Little Yellow Spring Calamity possessed the greatest fighting strength. It would surely reach Wanxiang City with the fastest speed possible.

However, Yellow Spring Calamity was injured during the fight against Chief’s Deep Sea Demon. It was currently resting in Heavenly Mountain and would not be able to make it.

Meanwhile, Zhan Ye's Brave Stinging Heart effect was also fading away as the battle was over. Its strength gradually returned to its normal state. It would not be able to reach with its speed.

As for Chu Mu, he was still unconscious. Ye Qingzi was currently healing him, hoping that he could wake up soon.

"Too slow, our speed is too slow," Liu Binglan looked towards Wanxiang City's direction.

If they rushed to Wanxiang City with their current speed, Wanxiang City would already be in ruins. After all, the enemy even had a high class Immortal rank. With such a large army in addition.....

Furthermore, they were all injured during the previous battle. Even if they made it back to Wanxiang City, could they really stop that army with their current conditions??

"Ao!"

Little Hidden Dragon flapped its wings and rushed to the front of the group.

Little Hidden Dragon's state was rather healthy. Its flying speed was also fast enough. Since it was accelerating like this, it was clearly indicating that it would rush back to Wanxiang City first.

"Qingzi, why is Little Hidden Dragon glowing blue?" asked Bai Yu.

Ye Qingzi looked down and just realized Little Hidden Dragon was really glowing. This glow appeared to be the evolution glow, yet a little dim.

“Little Hidden Dragon can evolve by devouring souls. It seems to be on the verge of evolving,” said Ye Qingzi.

Glowing like that meant the creature reached the bottleneck for evolution. It might break through any moment during this state!

In the previous battle, Little Hidden Dragon devoured ten Immortal rank souls. Originally, it would have evolved after devouring another middle class Immortal rank soul. However, after the entire stronghold was devoured by the blackhole, there was no souls left for Little Hidden Dragon to devour.

“Wait,” Suddenly, Uncle Yu called Little Hidden Dragon which wanted to fly back to Wanxiang City first.

Ye Qingzi asked Little Hidden Dragon to slow down albeit confused. She turned to look at Uncle Yu whose Thunder Dragon was getting slower and slower.

“Is it almost going to evolve?” Uncle Yu focused on Chu Mu’s Little Hidden Dragon.

Ye Qingzi nodded, “It should be missing one middle class Immortal rank soul.”

“Take it,” said Uncle Yu.

Ye Qingzi did not understand Uncle Yu’s meaning.

“Take its soul,” said Uncle Yu with a calm tone.

Ye Qingzi was in a daze for a moment, then looked at Thunder Dragon which Uncle Yu was riding on.

Taking away Thunder Dragon’s soul??

Uncle Yu intended to let Little Hidden Dragon devour his Thunder Dragon’s soul. That was the same as taking away Thunder Dragon’s life.

“That won’t do, it is your soul pet!” said Ye Qingzi.

“Uncle Yu, we will make it in time,” said Liu Binglan.

“Yes. Thunder Dragon still has sufficient lifespan. I can heal it and use Life Fruit to extend its life.....” said Ye Qingzi.

This was a soul pet which accompanied Uncle Yu for hundreds of years. Their feelings even surpassed blood relation. Taking away Thunder Dragon’s life like that was too cruel!

Ye Qingzi would never do that, Chu Mu would also not allow Little Hidden Dragon to do that.

Little Hidden Dragon devoured the enemy's soul, not ally's soul. It would never do that.

Everyone objected to Uncle Yu's sudden suggestion. However, Uncle Yu shook his head and stroked Thunder Dragon's horn, "This is its intention."

Thunder Dragon's intention??

Was it offering its soul to Little Hidden Dragon??

Everyone looked at this purple dragon Uncle Yu rode on in astonishment.

Thunder Dragon's breathing was already quite heavy. It looked really tired, wrinkles filled around its eyes. The sunken eyes focused on Little Hidden Dragon like a senior watching over a junior.

"Dragon race won't allow themselves to die of old age. That is the display of cowardness. It also knew its own condition. Even if Little Hidden Dragon won't take away its soul, it will leave me some day in future and fly towards the sky. Flying past first layer, second layer and then third layer, until it is completely exhausted, stiffened up and shredded by the chaotic air currents....." said Uncle Yu calmly.

Even though reluctant, Uncle Yu had to admit that he and his soul pet had become old.

Even at old age, he was able to participate in such a meaningful defense war. Uncle Yu already had no regrets left, this was probably also the reason Cloud Gate Elder chose to die fighting.

After reaching their age, they already saw through the life and death cycle.

His old pal Thunder Dragon was similar to him. It was getting old, it was heading towards death step by step. However, before reaching the end of its life, it would definitely challenge the highest sky..... This was the proud funeral ceremony of the dragon race.

However, if it could do something for its kin before dying, then Thunder Dragon would gladly offer its soul to a young and powerful Hidden Dragon. Because it believed that this Hidden Dragon would definitely fly higher and further than it!

Uncle Yu waved his hand and indicated that there was no need to persuade him any further, “It also loves New Moon Land. It will also choose its sky burial at Wanxiang City. If this city is destroyed, it will also lose the place it can rest in peace. Stop persuading me, time is not on our side. Little Hidden Dragon must rush to Wanxiang City before us.”

“It has gone through the Dragon Race war and experienced the pain of its home getting destroyed. Wanxiang City must not be destroyed, or the war we endured through would become meaningless. Even if we defeated the eight major factions and all the other enemies, what is lost cannot be recovered,” said Uncle Yu sternly with his eyes focusing on Ye Qingzi and Little Hidden Dragon.

Liu Binglan, Ye Qingzi and Bai Yu became silent.

They did not know how they should respond to Uncle Yu.

He was a retired elderly. He chose to spend the rest of his life in New Moon Land, yet he was acting as a New Moon Land member right now.....

Ye Qingzi could not make this decision. She could only look at Uncle Yu and Thunder Dragon.

The others also could not make this decision for Little Hidden Dragon, they could only remain silent.

“Little Hidden Dragon,” Suddenly, a feeble voice called out.

“Shashasha~!”

Little Hidden Dragon immediately turned around and looked at Chu Mu who should have been unconscious.

Chu Mu woke up!

“Chu Mu.”

“Chu Mu!”

The three of them saw Chu Mu waking up and immediately brightened up.

Ye Qingzi hurriedly held onto Chu Mu and wiped the tears accumulated in her eyes due to Uncle Yu’s words.

During this war, Ye Qingzi already forgot how many times she had shed tears. The number of times was even more than her entire life before the war. Perhaps, it was the same for everyone else.....

“I have not recovered my stamina, I cannot fight,” said Chu Mu as he held his chest in pain.

“We know.....” said Uncle Yu.

“Little Hidden Dragon, devour its soul,” said Chu Mu. He heard Uncle Yu’s words right after waking up.

Uncle Yu was right. Wanxiang City must not be destroyed. Once destroyed, all the efforts everyone put in to defend New Moon Land would have gone to waste. There was no meaning no matter how many enemies they killed.

Dark Death King was only willing to protect Chu Mu, since it still shared something like a soul pact with Chu Mu. Making Dark Death King rush to Wanxiang City would only make it destroy everything in its sight.

Only Little Hidden Dragon could save Wanxiang City now, because it only needed a middle class Immortal rank soul to reach high class Immortal rank.

Uncle Yu nodded towards Chu Mu. What Chu Mu did was correct, it was not time for sorrow.

“Do you remember how your mother faced its aging?” Chu Mu asked Little Hidden Dragon.

“Shashasha~!” Little Hidden Dragon nodded.

The scene Empyrean Cyan Hidden Dragon chose for its sky burial was deeply carved into Little Hidden Dragon’s memory. It proudly threw itself towards the sky.

“Don’t feel sad, the dragon race is to be proud of. So is it,” Chu Mu pointed towards Uncle Yu’s aged Thunder Dragon.

Little Hidden Dragon nodded and flew towards Thunder Dragon. It bit onto Thunder Dragon’s neck.

Thunder Dragon did not put up any struggle.

Ye Qingzi closed her eyes, so did Liu Binglan. Bai Yu turned around.

Only Chu Mu and Uncle Yu calmly witnessed this scene.

However, Chu Mu saw something glittering in Uncle Yu’s eyes.....

No matter how enlightened he was, it was still difficult to make the sacrifice. This was the gaze of an elderly soul pet trainer who had lived for hundreds of years watching his soul pet pass away, Chu Mu would etch it in his memory.

Chapter 1586: River Of Styx Subjugation, Slaughtering Countless Enemies

The soul flowed along the opened wound and poured into Little Hidden Dragon’s body.

Spectral Dragon devoured souls and could convert the soul into evolution energy. If it devoured a dragon race's soul, this conversion would be even more pure.

Little Hidden Dragon did not inflict much pain on Thunder Dragon. Thunder Dragon closed its eyes slowly and slept as if a dose of paralyzer was injected.

Little Hidden Dragon guided Thunder Dragon's soul into its River of Styx. The energy conversion was very quick. In an instant, Thunder Dragon's soul became part of Little Hidden Dragon!

Little Hidden Dragon's evolution glow was getting brighter and brighter. It was so dazzling it looked like a cluster of blue burning sun!

“Ao!”

Little Hidden Dragon roared as it raised its head, dazzling light burst from its body!

A dragon breath swept up like a hurricane. It swept all the way into the sky!

There was a greater gap between middle class Immortal rank and high class Immortal rank. This gap was much more difficult to cross than other ranks. Once crossed, the aura exuded would be different from other creatures. The strength would also raise by several times.

A moment ago, Little Hidden Dragon appeared to be similar to the other soul pets. However, after that roar, everyone could clearly feel the pressure Little Hidden Dragon gave off!

Uncle Yu stood on his Thunder Dragon which had fallen into eternal slumber. He watched Little Hidden Dragon evolving into high class Immortal rank. His sorrow also slowly turned to gratification.

An elderly's emotion was difficult to describe. They were more willing to see the birth of a new generation expert to help them reach the height they could not.

Little Hidden Dragon flapped its wings. Its powerful membrane wings would sweep up a storm each time they flapped, whipping this land.

Chu Mu took a glance at Uncle Yu, Uncle Yu nodded.

Chu Mu did not say anything further and rode on the evolved Little Hidden Dragon towards Wanxiang City.

Whether Wanxiang City was already in ruins or still held its ground, nobody knew. However, nobody would give up.

They had to rush back as fast as possible!

.....

Little Hidden Dragon's flying speed increased by several times. The mountains and rivers were zooming past Little Hidden Dragon.

Chu Mu remembered that he would be able to see Wanxiang City's plain after flying past this mountain range. The fight against Soul Alliance was over there.

Gradually, the flat land appeared in Chu Mu's view.

That place should have been green with grass, but Chu Mu only saw a piece of devastated land. Deep craters and footprints were everywhere.

After reaching the plain, Chu Mu's eyes stared at the horizon.

Soon, he would be able to see Wanxiang City.

Chu Mu's feelings also turned heavy at this moment.....

What if he saw a city of ruins, corpses and blood?

Chu Mu did not shift away his eyes. Even though he was really afraid of seeing such a scene, he still bravely watched out for it.

If that really happened, he would not escape. He would etch the disastrous scene in his mind and make Ning Family's city pay!

Finally, the city wall of the city appeared!

When Chu Mu saw the outer city's city wall collapsed, his heart started beating violently.

Was he still too late?

After going through three months of war, facing the continuous assaults from eight major factions, New Moon Land barely defended itself. However, the things they protected were lost at this final moment before victory.....

“Little Hidden Dragon, all those enemies you can see.....” Chu Mu was calm, but this calmness was terrifying.

He knew that Wanxiang City must be filled with enemies. He would not let any of them go!

“Ao~!”

Little Hidden Dragon roared. The roar transmitted all the way into Wanxiang City.

Chu Mu was getting closer and closer. Just as what he saw, Wanxiang City's outer city was already breached.

However, just as he thought the city was already in ruins, he suddenly noticed a tattered barrier still in the sky above Wanxiang City, protecting Wanxiang City's middle city!

The city still stood!

Based on the extent of destruction of the outer city, it had been some time after the outer city was breached. The enemies should have taken down the entire city.

However, Chu Mu saw all the enemies stopped outside the middle city wall. The entire middle city was protected by a barrier!

Looking through this tattered barrier, Chu Mu saw a beautiful figure. Her snow white clothes and long hair fluttered in the air.

She was calm, persevering and stubborn.....

Her body was almost left with only an outline. She was so feeble she was about to disappear from this world. However, her unique spectral body astonished Chu Mu. Chu Mu was lost in thoughts while looking at her.

That was Princess Jinrou, the barrier which covered the entire middle city was her spirit barrier!

How was she able to do that? How could her strength have stopped such a large army?

Chu Mu looked around and noticed flower petals dancing in the air outside the middle city.

Those petals appeared to be soft, but each one of them was stained in blood. They were sharper than sharp blades.

Under those dancing petals, a large number of corpses laid there. They were all enemy corpses. Soul pet trainers and soul pets were cut into countless pieces!

This was a flower diagram formation. There was only one person who could set up such a deadly flower diagram formation in this world.

Yu Suo had started taking revenge on those sects in eight major factions. It was impossible for her to appear here, that meant someone activated the flower diagram formation Yu Suo once set up in Wanxiang City to annihilate a wave of enemies!

In any case, the city still stood, it was not breached. The citizens in the outer city were evacuated to the middle city's streets. Chu Mu could see those helpless people filling up all the streets. They were not slaughtered.

Meanwhile, in the entire outer city, the corpses left behind were all New Moon Palace soldiers as well as Wanxiang City's city guards. They suffered a heavy casualty.....

However, they protected the city!

"Little Hidden Dragon!" Chu Mu wiped away the tears which almost flowed down and shouted!

"Aoo!"

Little Hidden Dragon opened its mouth and roared above the plain still a distance away from Wanxiang City!

The breath spat out by Little Hidden Dragon instantly turned into a storm. The storm swept into the city along the tattered main street!

The green-colored storm blasted onto the rear of Ning Family army. The powerful impact instantly torn over a thousand elemental soul pets into pieces!

Little Hidden Dragon's dragon roar shook the sky and earth. In addition to that savage green-colored breath, everyone defending the middle city saw this breath sweeping over from kilometers outside the city and killing over a thousand enemies!

"That's....." New Moon Palace army's leader Qin Yutong focused his gaze on the area outside the city. After seeing that breath attack, a green-colored figure was flying towards Wanxiang City with extreme speed.

"It's Chu Mu's Spectral Hidden Dragon!" Xia Zhixian recognized Little Hidden Dragon at first glance and revealed a smile on her gloomy face!

Yi Wu and Jian Feng died. They successfully planted the catalyst flower seeds into the enemy army and lessened the burden for Princess Jinrou.

Xia Zhixian always thought of herself as a person who would not feel emotional easily. However, when she saw Yi Wu, Jian Feng and the others getting swallowed by the enemy army, she could not hide her tears from flowing out.

They bought a little time for Wanxiang City. Nobody knew if that little time they bought could really last until reinforcement arrived.

However, the fact proved that everything they paid was worth it. Chu Mu arrived in time!

.....

“Clan master, our rear suffered an enemy attack!” reported the army commander.

Ning Tianyou’s mood was extremely irritated. He simply could not believe that he was unable to break through a female specter’s spirit barrier.

“They won’t be able to rush back so quickly. Even if there is, there will only be a few stronger people,” said Ning Tianyou.

“It’s a Spectral Hidden Dragon. Its breath is very powerful, directly killing over a thousand of our elemental legion,” said the commander.

“Hmph, do you have to report just one Spectral Hidden Dragon to me? Just kill it!” said Ning Tianyou.

The spirit barrier was about to shatter. Ning Tianyou knew that the spectral woman could not last much longer.

Once this city was taken down, endless resources would be his alone. Nobody would be able to stop him from tearing down that barrier!

Boooooom~!

A thick beam swept across Ning Family army from the outer city!

The beam swept across in an angle, nothing survived along the path. In an instant, another two thousand plus enemies were vaporized.

The beam and breath were both long distance attacks. Little Hidden Dragon flapped its wings excitedly. When it flew above this army, it started chanting its dragon incantation and spectral incantation simultaneously!

Little Hidden Dragon's pupils turned mysterious. When it looked down onto the ground, the city was shrouded in a layer of shade.

It was as if something was flowing. The flowing speed was getting faster and faster. A gate appeared in the dense fog. Inside the gate appeared to be water current flowing rapidly, waiting to swarm through the gate into this world!

“Ao!” roared Little Hidden Dragon.

In an instant, the gate abruptly opened!

River of Styx Subjugation!

A River of Styx immediately flowed out the moment the gate opened. Sharp screams of souls rang out from the river water. Skull numbing ghastly ghost faces reflected in the water. There were also countless spectral claws which could tear living beings apart!

Chapter 1587: Survived, Wanxiang City!

The River of Styx flowed into the army. One could see some soul pets directly melting in the River of Styx and integrating into a part of the river.

Meanwhile, even though those higher ranked creatures would not melt from River of Styx's corrosive power, the countless specters and claws filled in the River of Styx which hated living things crazily pounced onto those creatures like a group of hungry monsters!

Despairing screams echoed throughout. Ning Family army did not know what the bloody water flowing past their feet was. When they realized just how fatal this River of Styx was, they were already dragged into the river by those claws!

A large number of enemies fell into the River of Styx. The screams made those who were outside the range shiver.

Ning Family army still had 30,000 people. However, as the River of Styx Subjugation flowed across the army, the army size rapidly shrank. A large patch of bloody water flowed through the city. The streets were dyed in red and not a single complete corpse could be seen.

The entire army instantly fell into panic. The Flowering Killing Formation which appeared a while ago already spooked them. This creepy River of Styx could even take their lives away unknowingly. The entire army was shrouded in a deadly atmosphere.

Ning Family army's commander watched the bloody water flow in shock. He could not snap back into reality as he watched those claws reaping away countless lives.

The previous techniques already annihilated over 3,000 soldiers. This River of Styx Subjugation instantly killed over 7,000 Emperors. Such power was simply too terrifying.

At the barrier area, Ning Tianyou clearly sensed an energy fluctuation enough to threaten him. When he turned around, he saw his army easily harvested by that Spectral Hidden Dragon like wheat. He could even see the souls of those dead getting absorbed by that Spectral Hidden Dragon.

Ning Tianyou saw creatures with the ability to absorb souls. However, he had never seen a dragon able to devour souls. More importantly, that dragon was not any inferior than his Blood Life Beast.

Ning Tianyou's gaze focused on the person standing on that Spectral Hidden Dragon's back. He saw a man dressed in black.

There were only a handful of leader rank people in the entire human territory. Ning Tianyou could not recognize which one had a Spectral Hidden Dragon soul pet.

Ning Tianyou took another glance at that almost transparent spectral woman inside the barrier.

It was only a little more to go and the barrier would shatter. This city would also be in his hands.

However, if he leave that terrifying high class Immortal rank Spectral Hidden Dragon alone, his army would suffer a greater loss.

“You lots, hold him back first!” said Ning Tianyou as he looked over to his army commanders.

Those commanders immediately turned grim.

The opponent was clearly high class Immortal rank. Letting them who were low class and middle class Immortal rank to oppose a leader rank person was similar to suiciding.

“Stop spacing out!” ordered Ning Tianyou.

The commanders dared not disobey. They chanted incantations and gathered all the Immortals. They all flew into the sky to take on Little Hidden Dragon.

Soon, Chu Mu was surrounded by a group of Immortals. Although they could not really threaten Chu Mu, the barrier would definitely be shattered if he was held back.

“Little Hidden Dragon, charge through them!” Chu Mu ordered Little Hidden Dragon.

Little Hidden Dragon’s body changed into void. A specter’s movement was difficult to grasp. Those Immortals could not hold Little Hidden Dragon back.

Little Hidden Dragon drifted creepily towards the barrier, easily reaping the lives of four Immortals. Meanwhile, the others could not catch up to Little Hidden Dragon and could only chase after it towards the barrier.

“Houhouhou!”

Blood Life Beast roared ferociously and manifested blood beast soul again!

The middle city barrier was greatly weakened. It could no longer stop a high class Immortal's attack. As Blood Life Beast's attack was about to hit Princess Jinrou's spirit barrier, Chu Mu hurriedly chanted an incantation!

Chu Mu's body immolated and instantly disappeared from Little Hidden Dragon's back.

Blood beast soul's roaring charge shattered the barrier that protected the city. The rampaging blood beast power turned into a destructive flood and swarmed towards Princess Jinrou's location.

After the spirit barrier disappeared, Princess Jinrou's body almost vanished, even her expression was difficult to see.

The Devil Gallop above Wanxiang Altar disappeared. Nearly four thousand Devil Souls flew out from Princess Jinrou's body.....

This was beyond her endurance. All the Devil Souls were similar to her and greatly transparent. One could almost not feel the spirit energy in them.

After losing the power from Devil Souls, Princess Jinrou could no longer defend against the blood beast soul which broke through the barrier.

She could only watch the front with her tired eyes where Little Hidden Dragon was at.

The blood beast soul approached, she could sense that fatal energy tightening around her neck.

Suddenly, a Devil Fire's outline appeared in front of Princess Jinrou, less than two meters away from her.

Black and white Devil Fires separated and rapidly traced out a familiar figure!

"I knew you will make it back in time," Princess Jinrou smiled, but this smile was already very blurry.

Chu Mu turned around and took a look at Princess Jinrou, then turned back to face the approaching blood beast soul.

He stretched out his hand burning in black Devil fire. His hand suddenly burst in strength and grabbed this energy form blood beast soul single-handedly!

The rampaging energy impacted. The terrifying blood beast soul appeared to have hit an absolutely solid wall before Chu Mu, unable to push forward at all!

Chu Mu's flame was not very bright as he had not recovered much stamina yet.

Even so, it was enough to stop this Blood Life Beast's attack.

He narrowed his eyes and a spatial destructive power surged into the blood beast soul through his palm. This energy from blood beast soul trembled and shattered, becoming blood-colored air currents and dissipated.....

Chapter 1588: Dark Emperor, Fatal Shadow

Ning Tianyou rode on his Blood Life Beast and stepped through the shattered barrier. He stared at Chu Mu.

“You are Messiah Tree’s guardian?” asked Ning Tianyou as he looked at Chu Mu in Devil Fire.

After the Quiet Forest incident, there was news that a Half Devil with two types of Devil Fire took Ning Maner away.

Ning Tianyou knew that Ning Maner’s power needed to develop slowly. So he was not in a hurry to imprison Ning Maner next to him. After all, it was not enough to satisfy Ning Tianyou with just Xuan Items.

During that time, Ning Tianyou had the same thoughts as the others. He thought that the Messiah Tree Seed was in Ning Maner’s hands, but never expected Ning Maner to be the future Messiah Tree.

Ning Tianyou treated her well during those times because he wanted to use his identity as her grandfather to obtain the location of Messiah Tree Seed from Ning Maner. However, he realized later on that Ning Maner really did not know where the seed was.

Without Messiah Tree Seed and the ability to nurture Xuan Items, Ning Tianyou lost interest in her. So when He Cang took her away, Ning Tianyou did not really care about it. He even thought that if he let her go, Messiah Tree Seed might appear again.

As a result, the matter went out of control. Ning Maner was taken away by a Half Devil to a place he did not even know.

Only after so many years, when many Immortals appeared from New Moon Land, Ning Tianyou suddenly realized Ning Maner might have gone to New Moon Land. Those Immortals might be nurtured by Ning Maner's Immortal aura, or else it was impossible for so many Immortals to suddenly appear from New Moon Land.

Seeing the powerful and creepy Devil Fire on that Half Demon before him, Ning Tianyou really regretted having allowed the true Messiah Tree successor to slip away from him. If he had kept Ning Maner by his side all those years, he might have already become peak Immortal rank. In the end, Ning Maner offered her power to other people!

It could be said that everything this Half Devil owned should have belonged to him. Hence, Ning Tianyou held a grudge against Chu Mu!

"Brat, you sure have great foresight," mocked Ning Tianyou.

Chu Mu ignored Ning Tianyou. His gaze passed through the army and saw Ning Maner who was surrounded by a few young soul pet trainers.

Ning Maner's head was lowered, her hair dangled down and covered half of her face.

Chu Mu was connected with her mentally, so he naturally knew what she was going through right now.

She stood there motionlessly as if she lost her soul. She was also shrouded by a strange shade.

Chu Mu did not speak. Ning Maner's mind was in chaos, she might not listen to Chu Mu's words.

Currently, the shade shrouding Ning Maner's body was getting denser and denser, secretly including the surrounding Ning Family army.

The person supervising Ning Maner was Ning Zhuang, the real clan master of this clan.

He was a middle class Immortal. When Ning Tianyou reached high class Immortal rank, his clan master role was no longer qualified to be on even standing as Ning Tianyou.

His mission was simple, to supervise Ning Maner.

New Moon Land's resources were abundant, but it could not compare to Messiah Tree.

Ning Zhuang rode on a Crimson Devil Scorpion. His attention was focused on Chu Mu and Ning Tianyou. He did not notice the strange shade spreading beneath his feet.

That shade swallowed Crimson Devil Scorpion's shadow and overlapped the shadow of several Immortals nearby.

A shade hand traveled along their bodies to their necks, then the shade hand slowly tightened.....

“H..... Help.....”

Suddenly, an Immortal grabbed his own throat and made strange sounds with a livid-colored face.

The others were startled for a moment. When they reacted, they realized several shade hands appeared on the necks of the others and tightened up!

Everyone’s expression stiffened. They felt as if their necks were being strangled by a devil hand, their windpipes were about to break!

“What’s going on?” shouted Ning Zhuang.

Panic immediately spread to the surroundings. Ning Zhuang turned around and was shocked to see Ning Maner already disappeared. A cluster of black shade appeared at her spot instead. Several arms stretched out from the cluster of shade and choked the surrounding Immortals.

“Gah!”

A crisp sound rang out. One of the Immortals had his neck broken by the shade hand. He fell limp to the ground without even getting the chance to summon his soul pet.

Soon, another four Immortals ended up in a similar state. They were choked by shade hands and had their necks snapped. Their soul pets suffered a similar fate, collapsing on the ground and spasming.

Ning Zhuang was dumbfounded. He did not know what just happened.

Suddenly, a chilling darkness power approached, causing Ning Zhuang to feel a cold shiver.

His Crimson Devil Scorpion began rampaging. It started to swing its scythe arms madly to attack its own shadow.

The horrifying thing happened. Crimson Devil Scorpion's shadow actually separated from the ground and turned into a pitch-black Crimson Devil Scorpion silhouette. That silhouette actually started to attack Crimson Devil Scorpion.

This strange phenomenon did not only happen to Ning Zhuang. Several thousand soul pets' shadows seemed to have gained their own lives and started attacking the owners of the shadows!

The fighting strength of those shadows was great, not any inferior to the original. The number of shadows equalled to the number of soul pets shrouded by the shade. In an instant, those shadows became a shadow army and kept reaping lives around them.

The shadow army did not draw any blood. Those killed by the shadows did not show any surface wounds. They either had their windpipes snapped, or other vital organs broken. They simply collapsed and lost all signs of life.

The thick darkness of death aura began to spread out. As more and more corpses appeared, the army began to make a commotion.

Little Hidden Dragon's attacks caused thousands of deaths each time, not leaving any soul behind.

Now, there was another creepy shadow army starting a slaughter within the army. They did not even know how the people around them died, and whether the next to die would be themselves.

The city's barrier already shattered. The path before them was an unhindered road to occupy the city. As for those people on the streets, they could simply step over them, it would only be more bloody.

However, under the attack by that powerful Spectral Hidden Dragon and creepy shadow creatures, their invasive heart had long cooled down. The entire army was losing people at a rapid speed. Several thousand soul pet trainers and soul pets became corpses. Perhaps, before they could take down the enemy's city, all of them would become corpses first.

"Ning Zhuang, where is she?" A roar rang out from the sky.

Ning Zhuang raised his head and saw Ning Tianyou riding on Blood Life Beast above the army. Those eyes were staring at him furiously.

Ning Zhuang already used his soul remembrance to sense the surroundings many times, but he could not discover Ning Maner no matter how he searched.

Before the shadow attack, she should have been tightly surrounded. Her soul was also restrained, she definitely would not be able to chant any incantation to escape.

However, in a moment, she disappeared within that creepy shade. Next, the shadows of the surrounding creatures began attacking them, followed by soul pet trainers collapsing one after another.

“I..... I don’t know, she was here a moment ago,” Cold sweat poured down from Ning Zhuan’s head.

He only sensed a thick darkness aura, he did not know what to do about the things that happened afterwards.

Ning Tianyou forcefully suppressed his anger and spread his sensation to the limit.

Soon, Ning Tianyou sensed Ning Maner’s presence in the army near the barrier.

He turned his gaze towards there and saw Ning Maner standing under the broken city wall. The city wall’s shadow shrouded over her and it would be hard to see her if he did not focus.

Meanwhile, there was an even thicker shadow on the city wall she was standing under.

This shadow roughly imitated Ning Maner’s body, but it was clear that the shadow had much longer hair than Ning Maner. There was also a pair of creepy darkness wings on its back. The tips of the wings were sharp hooks, there was something dripping down from the hooks.

Ning Tianyou took a glance at his army and realized many people had their throats slit by something sharp.

No blood flowed out, but the hooks on that shadow's wings kept dripping something.

“Dark Emperor!” Ning Tianyou glared at the shadow.

He recognized that soul pet, it was He Cang's Dark Emperor.

Meanwhile, the current Dark Emperor was no longer the same as the past Dark Emperor. The current Dark Emperor was like a reaper hidden deep in the shadow and darkness, quietly reaping the lives of over five thousand people.....

Perhaps, Dark Emperor had started spreading its death domain from the start. However, Ning Tianyou never discovered a reaper ambushing next to Ning Maner and hence allowed it to slip into the army.

On the city tower, Chu Mu watched Ning Maner walking out from the enemy's encirclement and did not feel strange at all.

Although he was Ning Maner's sole guardian, the one which truly protected Ning Maner all the time was Dark Emperor.

Dark Emperor was the one which received the most nourishment from Ning Maner. Its strength might not be sufficient to take on Ning Tianyou and the entire army, it was enough to ensure Ning Maner's safety and help her escape.

And now, Dark Emperor represented Ning Maner's fury and truly started to reap the lives of those people!

Chapter 1589: Ning Maner's Killing Intent!

“Huhuhuhu~!”

Little Hidden Dragon flapped its wings and landed on the city wall. It stood next to Ning Maner and Dark Emperor.

Dark Emperor's figure began to slant towards Little Hidden Dragon's shadow.

The shadow started stretching and merging. Dark Emperor's figure gradually overlapped with Little Hidden Dragon's shadow.

After overlapping, Little Hidden Dragon's shadow seemed to have gained its own life. It took a step forward from the wall and became a cluster of semi-transparent grey Spectral Hidden Dragon.

The pale blue Little Hidden Dragon stood on the right of Ning Maner, while the Spectral Hidden Dragon silhouette Dark Emperor transformed into stood on the left. Two Spectral Hidden Dragons unleashed high class Immortal rank aura simultaneously, one wild and savage, the other cold and dark!

Dark Emperor was a unique type of creature. Categorizing it as a darkness type creature was a little forced, because Dark Emperor also possessed a certain level of spectral property.

Dark Emperor's shadow imitation required a powerful creature as vessel. It never appeared before because it lacked a truly powerful vessel.

If it directly imitated Ning Tianyou's Blood Life Beast, Ning Tianyou would definitely discover it.

Now, Little Hidden Dragon appeared, and Little Hidden Dragon reached high class Immortal rank.

Dark Emperor's own rank was similarly high. Not only could it imitate Little Hidden Dragon, it could also imitate all the abilities Little Hidden Dragon had. In other words, Ning Maner had two high class Immortal rank Little Hidden Dragon next to her!

Dark Emperor's own offensive power was not strong. However, after imitating into Little Hidden Dragon, its fighting strength was on par with Little Hidden Dragon. Little Hidden Dragon's River of Styx Subjugation could swallow over 7,000 enemies. If two Little Hidden Dragons unleashed River of Styx Subjugation together, how many people would be left of Ning Family army??

After seeing such a scene, Ning Tianyou's expression turned dark.

He was just one step away from taking down this city. He would be able to sweep all the resources clean from here and also bring Ning Maner who inherited Messiah Tree back to Wupan Continent. He would be able to report to Wupan Royalty with that.

However, his army was only left with less than 20,000 before he knew it. He lost over half of his army, it was a severe loss.

Losing over half of the army was a devastating blow. Those army commanders and generals were all too scared to continue fighting anymore.

From Little Hidden Dragon's appearance to now, over 10,000 people had died. And now, a shadow Spectral Hidden Dragon with similar strength as Little Hidden Dragon appeared. Its method of killing was even more creepy and dangerous. Other than Ning Tianyou and a few Immortals, the

others were no different from cannon fodders in a battle against two high class Immortal rank creatures like those!

“Ao!”

Dark Emperor Hidden Dragon opened its mouth. A dragon roar echoed throughout the city. The sky above the city was instantly engulfed by a layer of black matter!

The visibility turned low, dragon and spectral incantations were chanted simultaneously. Dark Emperor Hidden Dragon imitated Little Hidden Dragon’s technique and opened a black gate before it!

The gate slowly opened and black fluid began flowing out, becoming a pitch-black River of Styx!

This River of Styx did not flow on the ground, but levitated in the air above the army.

Within the river, angry faces snared and clawed on the surface. They could not wait to drag all those life forms below into the River of Styx.

There were hundreds of thousands of specters in River of Styx, ten times more than Ning Family army. Every specter was creepy and dangerous. When they stretched out their bloody claws and screamed, it gave off a really horrifying feeling!

“Tianyou, help us block this River of Styx,” said Ning Zhuang in panic as he watched that River of Styx slowly lowering down.

Ning Tianyou's eyes were filled with fury, but he could not leave the black River of Styx alone. If that River of Styx flowed through the army, there would probably be only 10,000 people left.

Ning Tianyou rode on his Blood Life Beast and flew towards the River of Styx.

Blood Life Beast spat out a blood-colored light pillar. The light pillar blasted onto Dark Emperor Hidden Dragon's River of Styx, instantly severing the entire River of Styx into two.

However, that did not affect those specters in the River of Styx!

The entire River of Styx poured down and the army was drenched in this black and cold water.

River of Styx was a domain. Once covered by this domain, unless one could shatter the domain directly, they would remain inside the River of Styx no matter where they escaped to. The countless specters in the River of Styx closed in and started biting and swallowing the living beings trapped inside. They attacked not only the flesh bodies of those soldiers, but also their souls!

River of Styx flowed to the ground. Death throes echoed non-stop. These people could not even struggle under the technique used by a high class Immortal rank creature. Their bodies quickly dissolved into corpse fluid and their souls were shared amongst the specters in the river!

Ning Tianyou watched his army getting swallowed by the River of Styx and his face twisted.

Blood Life Beast already worked hard to blast River of Styx, but River of Styx belonged to ghost type power. Ghost type was the hardest to defend and break through. Blood Life Beast's energy

attack was like throwing a rock into a pond. It could only create some ripples, but could not stop River of Styx from swallowing the army.

“Ao!”

Just as Ning Tianyou was crossing through the River of Styx, another dragon roar rang out!

The soldiers swallowed inside River of Styx turned pale after hearing that dragon roar. They saw another gate appearing under the previous gate!

That gate slowly opened and the green River of Styx poured out furiously!

Similarly, the green River of Styx was filled with menacing specters and levitated under the black River of Styx. The two River of Styx surrounded the entire Ning Family army!

The horrifying screams from hundreds of thousands of specters destroyed the will of the entire army, instantly crushing their defense!

River of Styx Subjugation!

The two River of Styx carried a deep grudge. Ning Maner stood at the connecting point of the two river. Her eyes calmly watched the enemy army getting swallowed by River of Styx. She watched those people struggling inside the water. No matter how pitiful or despairing they were, she did not show a trace of sympathy in her gaze!

Those people deserved to die!

They destroyed Quiet Forest, and they wanted to destroy Wanxiang City.

Wanxiang City was already the sole place she could belong to. She was determined not to let the tragedy happen once again. She could not tolerate anyone from harming Wanxiang City.

Ning Maner furiously chanted an incantation. A streak of green light split into two halos and showered onto Little Hidden Dragon as well as Dark Emperor Hidden Dragon.

Little Hidden Dragon's body slowly enlarged under the special halo.

Dark Emperor Hidden Dragon's body did not enlarge, but its color became darker and its darkness aura became stronger.

With Ning Maner's buff, the River of Styx Subjugation from Little Hidden Dragon and Dark Emperor Dragon became even more ferocious!

Black and green River of Styx swallowed nearly 20,000 army and even trapped Ning Tianyou inside the domain.

More and more specters flew out from the River of Styx. They not only attacked those Ning Family army soldiers, they also started attacking those Immortals and their soul pets!

Ning Tianyou became really irritated. He ordered his Blood Life Beast to swing its claws to tear the specters into pieces.

However, before long, those specters gathered again and revolved around Ning Tianyou while screaming loudly.

Ning Tianyou glared at Ning Maner. He never expected that lass to have such a powerful Dark Emperor next to her!

He was too careless. He should have noticed the unusual presence on her when she came to him herself.

Ning Maner grew up in Quiet Forest. When Quiet Forest was destroyed, Ning Tianyou was her sole family member.

She cherished this sole family member, she never complained anything despite suffering from various humiliations from Wupan Royalty.

However, she never thought that her most cherished family would become her most hated enemy one day. He treated her like a chess piece. He lured those evil people to begin a slaughter in Quiet Forest and even killed Messiah Tree.....

She was unable to believe this fact for a long time just now, her head was filled with painful scenes.

However, that did not mean she forgot about Wanxiang City still suffering from attacks.

Quiet Forest was already gone. Wanxiang City became her true home. Nobody cherished this city and its citizens more than her.

Even if Ning Tianyou was not the mastermind behind the Quiet Forest incident, as long as he attacked this city, he would be her enemy!

“Kill me?? Even though I never did anything to you??” Ning Tianyou laughed out of anger instead.

After Dark Emperor Hidden Dragon unleashed the last wave of River of Styx, its gaze suddenly turned to Chu Mu.

Chu Mu could sense a certain power from Dark Emperor wrapping around him. After hesitating for a moment, he chose not to prevent Ning Maner’s killing intent.

Dark Emperor’s darkness energy wrapped around Chu Mu, its Hidden Dragon body slowly started to change.....

It changed from a shadow dragon form to a humanoid form.

This humanoid possessed a blurry face. Its body was burning in Devil Fire.

The pupils separated the silhouette. One side had a darker shadow, while the other side was grey. This was clearly the shadow of Chu Mu after he transformed into Half Devil!

This time, Dark Emperor imitated Chu Mu. That meant it would take on Ning Tianyou with Chu Mu's power!

Chu Mu was much stronger than Little Hidden Dragon at peak state. If Dark Emperor could imitate Chu Mu's power completely, Ning Tianyou would not be Dark Emperor Half Devil's opponent!

Meanwhile, Ning Maner let Dark Emperor imitate Half Devil Chu Mu also represented her determination to personally control Dark Emperor to kill Ning Tianyou!

Chapter 1590:

Dark Emperor Half Devil cracked open its mouth and revealed a creepy smile.

Dark Emperor possessed darkness property in the first place. After stacking with Chu Mu's evil aura, this imitation became even more realistic. Chu Mu could clearly sense the aura not any inferior to his.

It seemed that Dark Emperor really grasped most of Chu Mu's strength.

Dark Emperor Half Devil used Displacement Specter. Flame shadow suddenly appeared around Ning Tianyou's Blood Life Beast. A pair of pitch-black claws swung towards Blood Life Beast's fatal spot.

Chu Mu focused on Dark Emperor Half Devil and noticed its moving speed was slower than himself. However, that speed was already very troublesome to Blood Life Beast!

The black claws swung down. Blood Life Beast was unable to dodge in time. Its blood-colored body immediately suffered a long cut!

Black Devil Fire burned around the wound on Blood Life Beast, widening the originally narrow wound!

The wound caused by Dark Emperor Half Devil contained a powerful darkness corrosive effect and burning effect. Blood Life Beast would suffer greatly from any random cut.

Blood Life Beast spat a mouthful of blood towards Dark Emperor as it twisted its body. The mouthful of blood was easily dodged by Dark Emperor Half Devil. Another pitch-black claw slashed down and left another wound on Blood Life Beast.

Ning Tianyou watched his Blood Life Beast suffering injury two times consecutively and turned grim.

If Dark Emperor imitated Little Hidden Dragon, Ning Tianyou might not be worried. After all, Little Hidden Dragon only reached high class Immortal rank not long ago. It might be able to deal a devastating blow to the army, but it would not be able to harm him.

However, Ning Tianyou never expected Dark Emperor to gain such power after imitating Half Devil Chu Mu. They were both high class Immortal rank, but Blood Life Beast could not dodge its attack while it could easily dodge Blood Life Beast's.

Ning Tianyou was frustrated and furious. He took a glance at his army and noticed there were less than 10,000 people left. Those survivors were still getting devoured by Little Hidden Dragon. They would not last long.

Furthermore, a large number of people were already trying to escape.

“Go!” Ning Tianyou ordered Blood Life Beast resolutely.

Blood Life Beast opened up its stride and immediately flew towards the outer city.

Ning Tianyou already chose to retreat, the rest definitely did not dare to fight anymore.

River of Styx continued to flow on the ground, it turned many people into corpses and new specters. The survivors desperately escaped from Wanxiang City.

Chu Mu did not intend to let them go so easily. He let Little Hidden Dragon chase after them and reap as many souls as possible.

Meanwhile, Ning Maner’s hatred towards Ning Tianyou was needless to mention. Dark Emperor Half Devil chased after Blood Life Beast and kept slashing onto Blood Life Beast’s body.

Ning Tianyou’s Blood Life Beast was fast and reached outside Wanxiang City first.

However, the moment he and his subordinates reached outside the city, a few powerful figures appeared right on time and blocked their path.

“Want to leave just like that?” Half Devil Bai Yu burned in silver Devil Fire and hovered on the path Ning Tianyou’s group tried to escape to.

Bai Yu held up a cluster of silver flame on his palm and threw it towards the escaping army!

A silver sea of flame spread out from the ground and burned brightly, instantly blocking all the paths Ning Family army could use to retreat.

Now, Ning Family army only had two choices. They would either be devoured by Little Hidden Dragon's River of Styx or burned by this silver sea of Devil Fire.

"We're trapped!" Ning Zhuang told Ning Tianyou who was high in the sky.

Ning Tianyou's expression turned livid.

The stronghold at Heavenly Mountain should have gathered many people. They should be fighting against New Moon Land's army. How could these people rush back so quickly? Ning Tianyou could not believe it.

Bai Yu, Liu Binglan, Uncle Yu, Ye Qingzi and Martial Cloud Dragon showed up on their escaping path. Although they had not reached high class Immortal rank, they could easily stop Ning Family army from escaping. There were quite a few middle class Immortals amongst them after all.

"Immortals follow me, leave the rest behind!" Ning Tianyou forcefully suppressed his fury and made this decision.

The ten plus Immortals flew towards Ning Tianyou immediately.

If an army did not have any Immortal, it was nothing in the eyes of a middle class or low class Immortal!

Devil Fire burning, dragon breath sweeping, River of Styx flowing, Ning Family army only had a few thousand people left scurrying in all directions in an instant.

Chu Mu was determined not to let a single enemy leave this city alive when he entered the city.

He waved his hand and all the Nightmares on the city wall roared. They flew towards the outer city to chase after the escaping survivors.

Those Nightmares were not of high rank. However, when ten Nightmares chased after one soul pet trainer, there was no way those survivors could escape.

As for the Immortals with Ning Tianyou taking lead, Chu Mu would definitely not let them escape.

With an incantation, Chu Mu converted his last bit of energy into Delay Zone. This Delay Zone was applied to the space Ning Tianyou and his Immortal subordinates were in. They looked as if they fell into a swamp and became slower and slower.

Little Hidden Dragon flapped its wings and flew towards this Delay Zone. Its sharp dragon fangs bit onto an Immortal rank lion's neck!

The lion's soul was dragged out by Little Hidden Dragon, torn into pieces and swallowed by Little Hidden Dragon.

Meanwhile, Dark Emperor Half Devil was chasing after Ning Tianyou this whole time. When Chu Mu used Delay Zone, Dark Emperor Half Devil chanted the same incantation and stacked a Darkness Delay Zone.

When two Delay Zones stacked upon each other, Ning Tianyou's Blood Life Beast encountered great difficulty in movement. The other Immortals suffered even worse.

Bai Yu's silver body crossed through a few low class Immortal rank soul pets. When he returned to his spot, three organs appeared on his hand!

Bai Yu then crushed the three organs and those three low class Immortal rank soul pets collapsed stiffly. Silver Devil Fire began burning them inside out and turned them into ash.

Martial Cloud Dragon tyrannically used its body to stomp onto two low class Immortals without using any technique. It was clear to see that Martial Cloud Dragon was furious towards these invaders.

Ning Tianyou's Immortal rank subordinates were getting slaughtered, leaving only Ning Zhuang and a few others.

Dark Emperor Half Devil was still extremely ferocious. Its target was not only Ning Tianyou's Blood Life Beast, the middle class Immortal rank soul pets of Ning Zhuang and the others were torn apart by it. Soon, only Ning Tianyou was left.

Corpses were piled up from middle city's city wall all the way along the main street, filling up the entire main street.

Large sized corpses could also be seen from some rubbles, blood splattered everywhere.

Within the dual Delay Zone, Ning Tianyou was surrounded by Dark Emperor Half Devil and Little Hidden Dragon. It was almost impossible to escape, Delay Zone restrained almost all types of power, not letting Ning Tianyou make a move easily.

Chu Mu landed on Little Hidden Dragon's back, Ning Maner stood next to him.

Ning Maner watched Ning Tianyou trapped in Delay Zone. Her gaze showed no anger or hatred, only sadness.

If possible, she hoped what happened was just a nightmare.

However, the truth was cruel, torturing her fragile heart.

When she endured enough sufferings, she would naturally get used to it and become stronger. After countless people and guardians lost their lives to protect her, she was no longer a little girl who needed to rely on others in her heart.

No matter how difficult it was to accept the truth, the evil did not deserve her sympathy, even if the evil was a blood-related family member.

Some people did not possess familial love from the start, some people turned crazy after losing it, such people deserved to go to hell.

“Let me do it,” said Chu Mu as he looked at Ning Maner.

Ning Maner nodded and closed her eyes.

Dark Emperor Half Devil flew back to Ning Maner and transformed back into a cluster of vague shadow, quietly fading away at Ning Maner’s side.

Chu Mu walked towards Ning Tianyou.

Chu Mu looked at this person who claimed to be Ning Maner’s grandfather. Chu Mu actually knew that only Messiah Tree was Ning Maner’s grandfather in her heart. This person was only a cold-blooded beast disguised in human skin!

Ning Tianyou saw Chu Mu walking over and revealed a panicking expression.

Chu Mu did not speak a single word, he slowly opened up his right hand burning in silver Devil Fire!

“Hu!”

A cluster of Devil Fire ignited on Ning Tianyou and Blood Life Beast, rapidly spreading to their entire bodies.

Blood Life Beast and Ning Tianyou screamed in pain, that terrifying soul burning sensation was too much for them to endure.

“Big brother, stop torturing them,” muttered Ning Maner.

Chu Mu nodded and took a glance at Ning Tianyou, “Don’t choose to be a human in your next life, it’s not suitable for you.”

Saying so, black Devil Fire ignited on his left hand.

With a casual swing, the black Devil Fire flew onto Ning Tianyou, instantly replacing the slowly burning silver Devil Fire.

The black Devil Fire burned fiercely and incinerated everything that was Ning Tianyou!

Ning Tianyou’s twisted expression could be seen from the remnants of the fire, but soon disappeared.
