

## **Soul Pets Bk2 471**

### Chapter 471: Flames of Anger, Power to Destroy a Mountain

“Princess, you have to stall this time for me!!” Chu Mu again said to Princess Jin Rou.

Princess Jin Rou nodded heavily, and quickly cast an incantation to summon her defense soul pet.

Princess Jin Rou’s defense soul pet was a rock type monarch covered head to toe in armor. It was massive, standing in front of Chu Mu like a great wall!

Finally, Bat Monarch Blood Beast still let out an attack. It stood a hundred meters away, while its mouth gathered a blood colored beam. When the energy reached its limit, the Bat Monarch Blood Beast let the beam go towards Chu Mu and Princess Jin Rou!!

The ninth level blood light stuck to the ground as it flew over, instantly shattering the rocks it passed through.

“Beng!!!!!!”

The power of the blood light slammed into Princess Jin Rou’s rock type monarch’s body!

The rock type monarch’s body became covered in Advanced Crystal Rock as the attack approached. At the same time, an eighth rank soul armor’s starlight lit up, blocking the energy of the blood light. This blood light only left a dent mark in the rock type monarch, which was basically just a scratch by elemental world soul pet standards.

“Ninth rank late stage defense!!” The young man named Pan immediately showed a surprised expression.

Princess Jin Rou’s rock type monarch’s defense was shockingly high. A soul pet like Bat Monarch Blood Beast was already one of the strongest entities of second tier, and its attacks were not blockable by many. The young man named Pan did not expect the princess to be this powerful and able to hide her power this well!

Princess Jin Rou recognized the young man named Pan. This person's full name was called Pan Zheng. Pan Zheng wasn't very famous in Tianxia City, and the public barely knew him at all.

Yet, Princess Jin Rou knew this person very clearly. Pan Zheng used to be a member of Soul Alliance, and showed outstanding strength in his early stages, often challenging soul alliance second tier experts.

The last challenge was a few years ago, when Pan Zheng challenged the most powerful second tier member of soul alliance: Si Tian!

Pan Zheng lost, and all news of him thereafter disappeared. Not only did he leave Soul Alliance, he never appeared in any other faction either.

Princess Jin Rou was very astonished when she saw Pan Zheng before her, since this hidden expert of soul alliance was now a head of killers, working for a woman of unknown identity.

"Chu Mu?" Princess Jin Rou knew that, in real combat, she probably wasn't Pan Zheng's match, so she could only put her hope of escaping upon Chu Mu.

When Princess Jin Rou tilted her head over to Chu Mu, she suddenly noticed that Chu Mu again started burning with devil flames!!

This time, Chu Mu's devil flames weren't caused by summoning White Nightmare, but instead was the burning of some energy within his own body. Standing by Chu Mu, Princess Jin Rou could even feel the soul-chilling effect of the cold flames!

Chu Mu, while chanting his incantation, glanced again at Princess Jin Rou, signalling, "Protect me."

Princess Jin Rou quickly realized that Chu Mu was gathering an extremely powerful offensive technique!

She glanced at the two soul pets that Pan Zheng summoned and the soul pet the other man summoned.

Seeing the three ninth phase middle class monarch ranks approach viciously, she immediately let Towering Ice Curse Demon Fox and Dark Devil Buddhist start ramming the middle portion of the mountain, not giving them a chance to approach.

A hundred meters was in reality extremely short, especially for ninth phase middle class monarch ranks. This little bit of time that Princess Jin Rou was buying for Chu Mu was actually incredibly crucial.

“Nie!!!!!!!!!!”

Finally, the white nightmare finished its technique’s channelling. The devil flames on Chu Mu blazed even higher following a piercing shriek from the White Nightmare!

The nine underworld devil flames lifted upwards. One could easily tell that the devil flames rose up in thirteen different levels, like thirteen amorphous devil flame organisms, all charging towards the clouds angrily to look down upon their enemies from above!

“Wuwuwu!!!!” After the White Nightmare, the double royal flame Mo Xie also finished her channeling of Thirteen Inferno hells!

Mo Xie lifted her head up, her silver fur dancing in the midst of the chaotic royal flames!

The royal flames started slowly peeling off of Mo Xie, one by one becoming thirteen imposing flame foxes that stepped into the clouds!!

The white of the nine underworld devil flames, the bright red of the demon fire evil flames, the crimson of the blood flames, three different colored flames resided in thirteen different layers above the clouds to create a new blaze!

As the light from the flames lit up the grounds, the veiled female master’s face expression slightly shifted. She clearly understood the power of this combined technique and was about to chant an incantation to stop it, when she suddenly noticed that Chu Mu had devil flames on himself as well.

“A third Thirteen Inferno Hell technique!” The veiled woman finally showed panic!

Two eighth rank fire type techniques combined was already frightening. If three were combined, it would create the destructive capabilities of ninth level complete phase!!

With such an attack, even Bat Monarch Blood Beast could be instantly killed with a direct hit!!

The veiled female master didn't dare to hesitate any longer. Those hollow eyes suddenly formed two powerful mental poisonous blades that flew past Princess Jin Rou's defensive soul pet and straight into Chu Mu's mental world!!

A violent mental pain immediately came through. This powerful mental attack almost caused Chu Mu's Thirteen Inferno Hells to be interrupted.

"Young master, this is Poisonous Mental Bite, quickly give up on the technique and use your soul remembrance to get rid of the poison!" Old Li shouted loudly.

The Poisonous Mental Bite was a very scary mental technique. If not dealt with in a timely fashion, it would cause immense damage to the mind!

"Nie~~~~~"

"Wuwuwu~~~~~"

White Nightmare and Mo Xie's techniques were already at their limits. If Chu Mu didn't combine his Thirteen Inferno Hells right now, they either had to let their techniques go now or let them dissipate in mid air.

"Beng~~~~"

With a loud bang, the rock type monarch in front of Chu Mu could no longer withstand the combined assault of the three soul pets, falling down heavily in front of Chu Mu.

After the rock type monarch fell down, Chu Mu could perfectly see the veiled woman!

The veiled woman stared hollowly at him, without any emotion. However, the high up feeling and the fake demeanor of being superior to all life caused an extreme revulsion in Chu Mu!!

Chu Mu bit down and ignored the Poisonous Mental Bite. The Nine Underworld Devil Flame on his body gathered like a tidal wave, rolling with the hatred in Chu Mu's heart. It represented the most powerful judgement as it dashed into the clouds to combine with White Nightmare and Mo Xie's Thirteen Inferno Hells!!

'The three fire types merged and became an even more powerful fire type energy!!

"Huhuhuhu!!!!!!!!!!!"

Finally, the Thirteen Inferno Flames fell. The sound of it passing whistled painfully, as its flames lit up the entire skies!!

"Beng!!!!!!!!!"

The beam of Inferno Hell fell. The thick flames enveloped the veiled woman, Pan Zheng, mysterious young man, Shen Yichen, sub leader, as well as the five soul pets summoned!!

"Beng!!!"

When the second Inferno hell fell, the entire hill was blasted flat. Powerful Demon Fire Evil Flames, blood drying Blood Flames, and soul piercing Nine Underworld Devil Flames!!

"Beng!!!!!!!!!!!"

"Beng!!!!!!!!!!!" A third and fourth blow caused the mountain to start shaking!!

"Beng!!!!!!!!!!!!!!!!!"

Thirteen Inferno Hells meant the technique had thirteen assaults. With three of these eighth level techniques overlayed, it meant a total of thirty nine Inferno Hells!!

The flames burned the skies up, causing the mountain peak to blossom into fire lilies. Under the beautiful fire lilies was the most shocking display of destruction!!

Princess Jin Rou stood at the edge of the flames dressed in black. Her eyes could barely open now, as her vision was completely engulfed by the flames!!

Princess Jin Rou's heart was flipping like the waves of flame. This dazzling yet heavily lethal technique was cast by Chu Mu. Such destructive powers couldn't be blocked by anyone in second tier. It could even instantly kill a whole group of the so-called hidden experts!!

If she herself wasn't deep within the Inferno hells, Princess Jin Rou probably couldn't believe that this was a true fire type destructive ability!!

"Princess, let's leave quickly. I can't control the range of the energy!" Chu Mus' face suddenly became very pale as he used a worried voice to notify Princess Jin Rou.

Princess Jin Rou finally reacted after this prompt, quickly retracting her slow moving rock type monarch and she jumped onto the Towering Ice Demon Fox's body.

"Are you okay?" princess Jin Rou looked worriedly and asked Chu Mu, who was burning from head to toe in flames.

Chu Mu didn't respond, only quickly jumping onto Mo Xie and telling her to directly jump off the steep cliff!

Four paws of royal flames send flames shooting. When she stepped forward, it was like she was running on thin air!!

"White Nightmare, let's go!"

"Nie~~~~~"

White nightmare didn't stay by Mo Xie's side for long. It guarded Chu Mu and stopped the fires from Thirteen Inferno Hell that were about to fall on Chu Mu.

The energy from the thirteen Inferno Hells was still there!

When the final beam fell from the skies, the entire mountain shook. The majestic peak started collapsing under the barrage of energy!!!

The mountain peak stood amongst the mountain range as one of the tallest mountains.

Yet, from afar, one could see that the couple thousand meter tall peak was over half covered in world destroying flames. These flames have already burnt half the upper body of the mountain to the point of collapse, starting a rumbling of collapsings!!

The collapse of a mountain a few thousand meters tall; how shocking was this scene!

At this moment, all the participants scattered in this bewildering world could see this frightening scene from afar. They could clearly feel the ground shaking under their feet, and they were even able to feel the burning temperatures coming from the flames at the horizon!!

Countless people's hearts were overturned! How terrifying of a battle must have happened on the mighty peak for the entire peak to collapse!?

#### Chapter 472: Three Main Soul Pets, Rise in Command to Danger

Thousands of meters up, the high rising mountain was no longer majestic. The mountain collapsed inwards from the halfway point up. Rocks engulfed in flames fell from up high, and heavily landed at the bottom of the mountain.

This image was like a volcano eruption. Billowing flame clouds, sputtering lava, and constantly rolling rocks lit the large forest at the bottom of the mountain afire.

The entire process lasted an extremely long time. In the burning forest under the mountain, a woman stood within the flames with her hair messily draped over her shoulders.

At this moment, the veil on her face had already been devoured by the flames. Her icy cold face was completely exposed!

This was a very intricate face, causing anyone to fall prey to it with a single glance. However, this utmost beautiful face was emitting a frighteningly cold expression under the light of the flames. It was the result of all her anger!

There were many burn wounds on the female master's body. Chu Mu's three eighth rank fire type techniques had caused significant damage to her body and soul.

Not far from the female master was Soul Alliance hidden expert Pan Zheng. He had summoned a total of two soul pets, one of which was the Bat Monarch Blood Beast.

Yet, after this technique, Pan Zheng's Bat Monarch Blood Beast was instantly killed by the combined three fire type techniques!!

Ninth phase high stage middle class monarch rank, this was a power nearly at the very peak of second tier, able to sweep across all the experts. This Bat Monarch Blood Beast was also Pan Zheng's strongest soul pet, a soul pet he put countless blood, sweat, and tears into to become ahead of his generation.

He originally wanted to use this soul pet in the struggle of second tier to reveal himself, and even defeat the person who once defeated him in the following realms.

However, his Bat Monarch Blood Beast couldn't withstand the threefold Thirteen Inferno Hells. When the entire mountain collapsed, it was crushed by a massive boulder and was quickly engulfed by flames.....

That wasn't it. Before Pan Zheng had time to grieve for his Bat Monarch Blood Beast, his other soul pet was enveloped by the Thirteen Inferno Hells that Chu Mu created, causing its soul and body to become ashes!!

Both main soul pets being instantly killed with one technique was the most lethal blow to Pan Zheng.

Currently, he laid, body full of burn wounds, beside the female master. His face was shaking with the wounds to his soul as well as his anger. From his near flaming eyes, anyone could feel that his anger for Chu Mu was at a peak!!

Pan Zheng simultaneously had two soul pets wounded. Not far away, Shen Yicheng wasn't much better off either. He didn't summon any soul pet, so he was barely clothed and had charred skin, looking like a burnt mummy. However, Shen Yichen didn't die. He laid weakly on the ground as his thigh was under a huge piece of rock. He was painfully moaning.....

As for the killer sub leader, he was the weakest out of the five people, so when the Thirteen Inferno Hells fell, he was disintegrated, including all his soul pets, not letting a single one alive!

The only one that wasn't bad off was the mysterious young man that always stood beside the masked female master. This masked young man had put up water type defense as the Thirteen Inferno Hells fell to protect himself. And this young man was one of the luckier ones because he was also standing at one of the weaker regions of the technique.

"Master." Mysterious young man didn't mind his heavily burnt companions, but instead stood like a piece of permafrost in the flames.

He awaited a command from the masked female master because he could sense the raging anger within her heart.

Female master's chest slightly quivered. Chu Mu had completely enraged her. Originally, because of another person, she didn't want to fight Chu Mu, even telling him to exit the Battle of the Realms to give him a path to live.

Yet, what she didn't expect was this person had had the guts to damage her. Now, she couldn't quell the anger in her heart no matter what!!

"Kill all of his soul pets and bring him in front of me!" Finally, female master spoke. At this moment, this woman was no longer like a soulless person, but instead felt like a person possessed by an evil spirit, causing even the mysterious young man behind her to shiver slightly.

Mysterious young man knew female master's scary nature. Normally, she had no emotions, no feelings, only followed a strange method towards her goals. However, once one angered her, then the person would face the most terrifying revenge. She definitely wasn't soulless; her true soul was simply too resentful, so she hid it behind her perfect body!

"Master, don't worry. I, Ling He, want to kill, and he will never live past the time I allot to him!!" The mysterious young man who called himself Ling He said.

"Nightmare Palace princess is with him. He has already fallen prey to my Poisonous Mental Bite and won't last long. Bring all the killers. If you can't bring them to me, you know what to do!"

Female master finished saying that coldly and turned to walk east, disregarding the wounded Pan Zheng and Shen Yicheng.

"Ling He nodded and glanced at the pale faced Pan Zheng, asking, "Can you still move?"

Pan Zheng's face muscles were still shaking as he replied with stifled anger, "Won't die." "Wake Shen Yicheng up, he still has some use. I'll go take revenge for your two fallen soul pets." Ling He said.

Pan Zheng didn't like Ling He's attitude, but after remembering that he lost two souls, the expression on his face grew even worse.

Even at full state, he wasn't as powerful as Ling He. According to his estimate of Ling He, he was very close to the strongest member of soul alliance Si Tian. Now that he lost his two main soul pets, Pan Zheng had no qualification to show any displeasure in front of Ling He.

The terrifying strength of Ling He was something only a very select few knew. Pan Zheng was sure that if he went, the two wouldn't be able to escape!

On the east side of the mountain bewildering world, in the complicated geography of the mountains and valleys.

Princess Jin Rou turned around to look at the burning clouds, and the ripples in her heart slowly calmed down. She rode her Towering Ice Curse Demon Fox tightly behind Chu Mu. She had wanted to ask something, but seeing Chu Mu escape, she decided to say thing, instead running towards the east side.

"Chu Mu" Princess Jin Rou couldn't help but ask.

Chu Mu's fire type technique was way too powerful. Princess Jin Rou was sure that almost no one could defend against it.

In the past, Princess Jin Rou had made a series of estimates about Chu Mu, especially after Chu Mu strangely defeated Xia Guanghan, who was way more powerful than he was.

Princess Jin Rou finally confirmed that Chu Mu held some incredible power that he couldn't use lightly, after she had witnessed the battle between Great Chu Family and Chu Mu. However, Princess Jin Rou wouldn't have thought the hidden power was combining three fire type techniques to create a destruction beyond its rank!

"Chu Mu?" Princess Jin Rou called again. She vaguely sensed strangeness from Chu Mu.

Finally, Chu Mu stopped to rest. He didn't utter a single word before sitting down against a rock.

This was when Princess Jin Rou finally saw Chu Mu's face. What surprised her was that Chu Mu's face was incredibly pale. His forehead was filled with cold sweat and he looked in excruciating pain!

"Chu Mu, are you alright?" Princess Jin Rou quickly pulled out all sorts of medicine from her spatial ring to try to help Chu Mu alleviate the pain.

"It's Poisonous Mental Bite. Do you have any medicine that can relieve mental pain?" Chu Mu said to Princess Jin Rou with difficulty.

To give the defector young woman's puppet a lethal strike, Chu Mu had wasted a huge portion of her soul pet for the technique.

Right after the technique finished, Chu Mu experienced the scariness of the poisonous mental bite!

It was a force that ate up all his soul power, and then caused immense havoc to his mental world. Old Li had reminded Chu Mu that he had to get rid of it using his soul remembrance immediately.

Chu Mu didn't do this, so now the power of the Poisonous Mental Bite was deep into Chu Mu's soul, only relievable by very special soul items.

"I don't think I have such medicine." Princess Jin Rou showed panic.

Princess Jin Rou knew how well Chu Mu could take pain. Seeing how pained his expression looked, Princess Jin Rou couldn't imagine how frightening the poisonous mental bite was.

"I can still hold out for a while. Let's continue east." Chu Mu knew that he couldn't get rid of this poisonous mental bite, so he could only try his best to leave as quickly as possible.

"You should rest for a while..." Princess Jin Rou said worriedly.

"They will chase up, we can't stay for long." Chu Mu said.

After saying that, Chu Mu started an incantation while he still had soul power to summon Zhan Ye in front of himself.

"White Nightmare, Mo Xie, Zhan Ye. I don't know how long I can last. If I completely go unconscious, it is up to you to escape from this situation." Chu Mu knew the poisonous mental bite could cause him to lose consciousness at any time, so he had to make all preparations before his mind was completely destroyed.

White Nightmare, Mo Xie, and Zhan Ye were Chu Mu's three main soul pets. Now that danger was imminent, they knew that an even crueller battle could await them, and that they had to shoulder the responsibility of protecting Chu Mu!!

#### Chapter 473: Three Big Main Pets, Benefiting From Help in the Face of Crisis (2)

High up, Chu Mu stared at the western group of mountains. Right now, he could see several green clothed figures riding on their soul pets chasing after him from far away.

The competition authorities wouldn't appear until the sixteenth day, but only a mere five days had passed. He still needed to wait another ten days before he could be considered to have won this fight between him and this defector young woman puppet. Clearly, regardless if it was Chu Mu or Princess Jin Rou, the defector young woman puppet wouldn't let them off. She had already sent out all of the green clothed killers...

Chu Mu didn't stay much longer in his spot. He had to take advantage of the time he was still conscious to get as far as he could from these killers. Otherwise, the moment he passed out, Princess Jin Rou, who was not proficient in the wild, would easily be caught by these killers.

The seventh realm's main round was realm crossing, and this really was the easiest round to Chu Mu. As long as he didn't launch attacks at those wild soul pets, Chu Mu would even be able to unobstructedly cross ninth rank bewildering worlds.

Princess Jin Rou followed close behind Chu Mu. She paid very close attention to any of Chu Mu's small movements, in hopes of learning anything on how to not leave any traces behind.

Princess Jin Rou was naturally smart, and small explanations by Chu Mu allowed her to quickly grasp a few basic abilities. At least the killers would have to use a bit of their minds to find her tracks.

After two days, Chu Mu's mental backlash caused his face to grow more pale. Not long later, he completely passed out.

The truth was that normal people would immediately pass out after their soul power was exhausted. Yet, Chu Mu had relied on his willpower to last a whole two days.

"Princess, there is definitely a rather complex cave system in the mountains ahead. Go into the mountain first, and find the entrance of the cave. Wait for me there..." Chu Mu pointed at the enormous mountain as he spoke.

Chu Mu had studied a bit of the topography, and from merely looking at the mountain form and vegetation, he was able to determine the nature of the mountain. The enormous mountain belonged to the class of mountains that was empty on the inside, so there definitely was a complex and tangled system of caves inside. Regardless if it was the caves or the entrance, at least this cave would be the optimal place to stall for time!

The large mountain was absolutely enormous and it looked like several mountain ranges put together. Even if all of the killers combined their strength, it would be very hard to shake and make the entire enormous mountain tremble. Therefore, Chu Mu didn't have to worry that he would be buried by the mountain.

"Then what will you do? Your present body condition is very poor..." Princess Jin Rou was a bit ill at ease as she looked at Chu Mu. His face was pale and not a single blood vessel was apparent. He looked a bit scary.

"The person next to the veiled woman has caught up. His speed is very fast. If we enter the cave like this, he'll definitely catch up, and we'll be in big trouble. I'll go lead him in circles..." said Chu Mu.

“Don’t do that. That person is the second grade’s strongest, Ling He. Even if his strength is put among the first grade, there are few that are his opponent.” hastily said Princess Jin Rou.

“First grade’s expert?” Chu Mu was shocked. No wonder this fellow was able to immediately begin chasing after the Thirteen Inferno Hells attack. This Ling He’s strength was much stronger than Pan Zheng!

“His age range is in the second grade, but his strength is capable of comparing to first grade experts. The so-called strongest on the surface of the second grade cannot even defeat one of his soul pets. There are even few hidden experts who are his opponent. The only person who can really fight him is Soul Alliance’s strongest, Si Tian!” said Princess Jin Rou.

Chu Mu’s heart sank. He never expected that such a terrifying young man would exist beside the defector young woman puppet. No wonder after suffering from the Thirteen Inferno Hells, he was still able to recall his ninth phase monarch, on the verge of death, from the torrential flames.

The Thirteen Inferno Hell’s destructive ability was extremely powerful. In the previous fight, there were a total of five soul pets - Pan Zheng’s two, Ling He’s one, and the assistant leader’s two. Among them, the assistant leader as well as his soul pets were completely destroyed, and Pan Zheng’s two soul pets were instantly killed.

The soul pet Ling He had summoned was heavily wounded, but this fellow with unmeasurable strength was able to recall his soul pet back into his soul pet space just before it was completely burned to death.

Further, the defector young woman puppet’s strength was rather shocking. Chu Mu had used the Thirteen Inferno Hells towards her, but as the inferno hells had descended, he clearly saw her use some type of defense to cover herself as well as Ling He beside her.

“If I had learned Thirteen Inferno Hells, they wouldn’t have been as easily let off...” silently said Chu Mu.

Chu MU had used Thirteen Inferno Hells using Chong Mei to replicate it. However, this lowered the technique’s might to a mere forty percent, causing the effect to be greatly reduced. If Chu Mu had learned the true eighth rank fire type technique, Thirteen Inferno Hells, he would have definitely been able to create a technique nearing the tenth rank in terms of destructive power. This way, regardless if it was the defector young woman or Ling He, both would have been heavily wounded and would not have been able to have a chance to retaliate.

“Ling He should merely have suffered a soul wound, and cannot use soul techniques. However, it shouldn’t be a problem to summon two or three main pets. His main pets’ strength are stronger than Pan Zheng’s.” said Princess Jin Rou. She didn’t want Chu Mu to take this risk; after all, Ling He was a second grade expert who Princess Jin Rou was truly afraid of.

“He can’t stop me. Go quickly. You must get rid of your tracks on the way.” Chu Mu said to Princess Jin Rou.

“Then... I’ll have Bing Ying follow you...” Princess Jin Rou was still ill at ease as she spoke.

“No need, just take care of yourself.” Chu Mu waived his hand. After speaking, he jumped onto Mo Xie’s back and returned to the previous high valley location.

The White Nightmare flew along the ground. Its serene white devil flame body closely followed beside Mo Xie.

Zhan Ye’s speed was rather slow, and it ran behind Mo Xie...

The mental destruction caused Chu Mu’s thinking to be more and more forced. Chu Mu knew that in order to break free from Ling He’s chase, he had to maintain his sober-headedness. Otherwise, it would be futile from breaking free from second grade’s strongest person.

When Chu Mu reached the high valley, he quickly found the low valley location. A demon soul pet wielding lightning was streaking as fast as lightning there.

This person was Ling He. Chu Mu never expected him to be following so closely,

Seeing the lightning demon, Chu Mu couldn’t help but suck in a breath of air. Ling He was riding on a monarch rank soul pet near the tenth phase. This speed was several levels faster than Mo Xie’s full speed burst!!

“Ninth phase ninth stage - middle class monarch - Lightning Monkey King!!”

Lightning Monkey King: Demonic world - demon type - Monkey species - Lightning Monkey King subspecies - monarch rank

The Lightning Monkey King resembled a black panther. It had four strong and robust limbs and its body was lined with several purple lightning imprints. As it ran, these lightning imprints transformed into purple lightning and it looked like a bolt of lightning was streaking past every time!

“White Nightmare, attack it.” Chu Mu gave the White Nightmare an order.

Night had yet to arrive, so Mo Xie’s fighting strength was two levels below the Lightning Monkey King. Only the White Nightmare could face it!

The White Nightmare was a high class monarch. Its phase and stage and rank was identical to the Lightning Monkey King’s. There wouldn’t be an issue for it to deal with the Lightning Monkey King with its other type and dark type abilities.

The White Nightmare’s body floated above the low valley and the nine underworld devil flames began to burn all over its body. Its entire body had transformed into a nine underworld devil flame!!

When the devil flames burned to their hottest point, the White Nightmare let out a devilish cry and its body abruptly swooped down from above. Immediately, white colored devil flames burst with the air and began to hotly spill with a scalding flaming star!

“Hu hu hu hu~~~~~”

The White Nightmare was like a meteor that whistled downwards. Ling He, in the lower valley, immediately saw the White Nightmare. He didn’t chant an incantation, instead immediately having the Lightning Monkey King launch an evasive technique!

“Dao!!!!!!”

The Lightning Monkey King was as fast as lightning, and it strangely transformed into a lightning bolt in the lower valley. When the White Nightmare’s imposing, torrential energy landed, it nimbly avoided the attack range of the devil flame attack.

“Hong~~~~~”

The White Nightmare’s attack was composed of both strength and devil flames. After its body smashed into the lower valley, the entire lower valley began to intensely shake. The nine underworld devil flames blossomed into a shocking fire wave that swept towards the Lightning Monkey King hiding far away.

The Lightning Monkey King didn’t dare head forward and quickly jumped back, dodging the engulfing devil flame. Only, the devil flame’s piercing cold still reached the Lightning Monkey King’s soul.

“What a tyrannical White Nightmare!” Ling He’s face turned serious.

The White Nightmare’s fighting strength was higher than equivalent phase/stage and ranking soul pets by a level. If they were to directly clash, the Lightning Monkey King probably would not be the high class monarch White Nightmare’s opponent.

Ling He swept his eyes over the high valley, and quickly saw the pale face Chu Mu.

Ling He naturally could not rely on the Lightning Monkey King to fight against Chu Mu’s White Nightmare. Promptly, he chanted an incantation, summoning his other main pet.

An enormous beast aura began to proliferate outwards from Ling He. On top of a large soul pet pattern, a creature covered from head to toe in a dawn armor flashily appeared. A radiance from its luminous eyes was like a colorful sun!!

An imposing light shot out in all directions and its dazzling and awe inspiringness greatly damaged Chu Mu’s mind. It nearly caused him to pass out, but he bit his tongue hard to prevent him from doing so.

His eyes fell on the radiating soul pet pattern. From its aura, Chu Mu realized that Ling He had summoned an extremely powerful soul pet!

“Tenth phase Ardent Sun Rhinoceros!!”

Finally, Chu Mu could clearly see this soul pet!

Chu Mu was extremely shocked because Ling He had summoned a tenth phase monarch. A tenth phase middle class monarch to be precise!!

The difference between the ninth phase ninth stage and tenth phase was two levels. This was a soul pet that was even scarier than the high class monarch White Nightmare!!

#### Chapter 474: Three Big Main Pets, Benefiting From Help in the Face of Crisis (3)

Chu Mu had heard Old Li's previous reminder that the most of the time, tenth phase monarch rank soul pets would appear in the first grade. It was a practically inconceivable for one to appear in the second grade.

Yet, now Ling He had summoned a tenth phase middle class monarch Ardent Sun Rhinoceros. It was no wonder he had the strength to contend in the first grade. This tenth phase monarch would be able to crush several normal experts in the first grade!

"Mo Xie!" Chu Mu immediately gave Mo Xie an order, having her fight the Lightning Monkey King.

Mo Xie was at the ninth phase second stage, and was an entire eight stages lower than the Lightning Monkey King! The dual royal flame effect was probably able to make up for three stages, but there were still five stages of a difference.

Chu Mu's present soul power was nearly zero, and he could not use any soul technique to raise Mo Xie's fighting strength. He could only rely on Mo Xie's fighting experience and talent to fight the Lightning Monkey King.

The Lightning Monkey King's lightning strength wasn't weak either. Every time it swept its claws, it would carry a powerful lightning effect that could paralyse a soul pet's limbs. There were many times that after receiving its attack, a soul pet would grow slower and slower before ultimately being unable to move.

Chu Mu didn't have Mo Xie engage in close combat. After all, Mo Xie was five stages lower than the Lightning Monkey King, which was nearly two levels. If they were to fight head on, Mo Xie would quickly lose.

Chu Mu's present strongest soul pet, the White Nightmare, was fighting the Ardent Sun Rhinoceros whose attacks were extremely powerful. Moreover, as long as there was sunlight, this soul pet was able to step in the air at will. Thus, the White Nightmare's flying advantage simply didn't manifest itself.

The fight didn't last very long. Chu Mu's Mo Xie and White Nightmare were both at the disadvantage. If it wasn't because Chu Mu was experienced with fighting those stronger than him and used to having his soul pets fighting stronger opponents, Chu Mu probably would have already lost with such a clear strength difference.

"Mo Xie, White Nightmare, we're going!" Chu Mu decisively chose to retreat.

Chu Mu came here not to engage in an all out fight with Ling He, but to delay this fellow and not let him follow so closely.

Now that the situation was unfavorable, Chu Mu naturally wouldn't have his soul pets continue fighting!

"Wu wu wu~~~~~"

Mo Xie's strength was inferior to the Lightning Monkey King. Relying on the powerful escape ability from her Nine Tail Confuse, it wouldn't be hard for her to escape the battle though.

The White Nightmare's movements were innately outlandish. Even though the Ardent Sun Rhinoceros' strength was stronger than the White Nightmare by a level, its speed was far from the White Nightmare's. After the White Nightmare used Devil Phantom, it quickly managed to flee the battlefield.

"You won't be able to get away!" Ling He had already guessed Chu Mu had this intention. He chanted another incantation, as he was clearly going to summon another soul pet. Moreover, it was probably going to be a soul pet with speed not inferior to the Lightning Monkey King!

"Hou hou hou!!!!!!"

As Ling He chanted an incantation, Zhan Ye which had remained in place in the high valley let out a roar. Instantly, a black Death Ray shot down, and accurately blew up the weak precipitous stone wall!!

“Beng!!!!”

The destructive ray’s energy blew up, and the lofty stone wall began to violently shake. From high up, rocks began to tumble down!!

Mo Xie and the White Nightmare had already jumped up to the high ground. When the enormous rocks began tumbling down, the White Nightmare used Displacement Specter to quickly appear even higher up, now floating in front of Chu Mu.

Mo Xie relied on her agile skills to dash higher up, using the tumbling rocks as jumping platforms as she smoothly moved from stone to stone!

The Lightning Monkey King was actually very close, so when Mo Xie jumped up towards the high valley, it transformed into a lightning bolt that chased after her.

However, the Lightning Monkey King’s dodging abilities were slightly inferior to Mo Xie’s. When it reached the halfway point, it was smashed by an enormous and fast moving stone, and it heavily fell back down from a hundred meters up to the bottom.

Facing the countless number of tumbling stones from high up, Ling He still didn’t pause his incantation, and he continued to chant in place.

Just as a piece of rock was about to smash into him, the Ardent Sun Rhinoceros next to him shook and immediately, all of the tumbling stones were blown to pieces!

A soul pet pattern slowly appeared next to Ling He as another enormous soul pet aura appeared from the pattern. If Chu Mu was still there, he would have definitely been able to feel that the soul pet Ling He had summoned had an aura even slightly stronger than the Ardent Sun Rhinoceros!!

The tumbling rocks continued for a period of time. When Chu Mu had passed through here earlier, he had registered that this was a pretty good location. Thus, even if Ling He had prepared, his understanding of the topography was a bit inferior. He was stopped by Chu Mu who managed to successfully escape.

However, Ling He wasn't worried. After summoning his third pet, he continued to chase eastward. He was sure that Chu Mu intentionally stopping here to obstruct him was to satisfy an objective. As long as he carefully searched, Chu Mu and Princess Jin Rou would not be able to escape.

Chu Mu intentionally ran around in a few circles to throw off Ling He's sense of direction before returning back to the location he and Princess Jin Rou had split.

Although Princess Jin Rou had learned a few techniques as to not leave any traces when she moved, to Chu Mu, a soul pet trainer with much experience in the wild, there wasn't much meaning in doing so. Chu Mu only had to pay a bit more attention, and would be able to catch up to the place Princess Jin Rou was heading to.

Chu Mu continued along the path Princess Jin Rou was walking on and wiped all of her footprints that she had left. Simultaneously, he left many signs on any branches of the path that would lead in different directions. This would throw off Ling Hee and the other killers' pursuit again.

After doing this, Chu Mu felt abnormally tired. His mind had reached its limit.

"White Nightmare, Mo Xie, Zhan Ye, the rest is all up to you." Chu Mu knew his mind had reached its limit and once again urged his three main pets.

"Wu wu wu~~~~~" Mo Xie stuck out her tongue and licked the back of Chu Mu's hand.

Chu Mu's hand was already completely pale, and his green veins were showing. It looked extremely scary.

Chu Mu scratched Mo Xie's velvety ears and in a weak tone said: "The enemy is my first soul pet and she signed a soul pact with me before you guys. However, she defected and is no longer my soul pet, nor is she your comrade!"

"She is my greatest enemy. I can't lose no matter this time or in the Battle of the Realm. You guys have to help me to continue to fight. Do you understand!"

The White Nightmare, Mo Xie, and Zhan Ye all vigorously nodded their heads.

Chu Mu's three main pets had followed Chu Mu for a long time, and their spirits were linked with Chu Mu. Right now, they could feel an intense will to fight in his heart. It was like their own honor that was possessed by soul pets. Chu Mu had his own honor and they understood that this fight represented his honor!! They absolutely had to approach it with their full strengths!

#### Chapter 475: Thousand Legged Centipede, Maze like Cave

Mo Xie lowered her head. Zhan Ye and White Nightmare followed tightly next to her.

Mo Xie grasped Chu Mu's chasing technique. Though Chu Mu on her back was already severely mentally damaged and couldn't do much thinking, Mo Xie could still use her years of experience with Chu Mu to find the place where Princess Jin Rou was hiding.

Princess Jin Rou stopped near the cave. Not long ago, she heard the sound of the valley crumbling and knew that Chu Mu had probably met Ling He.

Ling He's strength was probably the best hidden of all second tier. Only a few people knew of the existence of this young man who reached the top of his generation.

If Chu Mu was still in his complete state, then Princess Jin Rou believed that Chu Mu could stay safe and escape from Ling He using his wilderness training skills. However, Chu Mu had suffered from an incredibly powerful Poisonous Mental Bite, so Princess Jin Rou was scared Chu Mu would faint half way through.

“Sousousou~~~~~”

Light footsteps came from not far away. Very quickly, Princess Jin Rou saw Mo Xie carrying Chu Mu over.

Beside Mo Xie was White Nightmare and Zhan Ye. Chu Mu sat somewhat limply on Mo Xie's back, seeming very strange.

Princess Jin Rou quickly went forward, but when she neared she discovered that Chu Mu had completely fainted, and he was convulsing slightly.

“Chu Mu, Chu Mu” Princess Jin Rou tried to wake Chu Mu.

Chu Mu's consciousness was completely blurred. To not get followed by the defector young woman, he stayed awake for two full days. These two days time was the limit of his mental strength. Now, he completely lost his senses and could not be woken, no matter how much Princess Jin Rou called him.

"Little princess, his mind is heavily wounded and needs many days before he can recover. Before he recovers, you have to ensure his safety!" Old Li jumped forward and said to Princess Jin Rou.

Princess Jin Rou looked surprised as she saw this talking half human half soul pet pop out of nowhere. After a while, she came back to her senses and said, "Are you that talking raccoon from the legends?"

"..." Old Li heard Princess Jin Rou's description of him and felt a little embarrassed.

"I can't be bothered to explain to a little girl who can't respect her elders. Don't say more, just hide into the cave. That Ling He's nose is like a dog's. He won't take long to catch up. Your hiding abilities are limited, so we need to use this complicated cave to lose him." old Li said.

Princess Jin Rou nodded without asking any more. Jumping onto her Towering Ice Curse Demon Fox's back, she travelled deeper into the pitch black cave.

Mo Xie also knew Chu Mu needed Princess Jin Rou's protection, so she tightly followed, hoping she could safely bring Chu Mu out of danger this time. As long as Chu Mu woke up, neither Ling He nor the killers would be able to catch the experienced Chu Mu.

"Old Li, why does Chu Mu look strange, almost as if he knows the veiled woman?" After entering deep into the cave, Princess Jin Rou couldn't help her curiosity and asked Old Li.

She sensed strangeness from Chu Mu, as if he was hiding something in his heart. Princess Jin Rou felt that Chu Mu was willing to fight to his last breath against her.

"I can't say this randomly, right?" Old Li clearly seemed to be unable to keep a secret.

"I know his even bigger secret, so what is there that can't be said?" Princess Jin Rou's bigger secret was naturally the fact that Mo Xie could continuously mutate.

Princess Jin Rou had always kept this secret for Chu Mu. She felt that if she gave it away, she would definitely start a sensation that would shock all the factions, causing Chu Mu to truly become a member at the forefront of everything.

“Don’t you know that he lost a soul? It has something to do with his lost soul. That’s all I can say, and it’s already too much.” Old Li said.

Princess Jin Rou blanked slightly. She didn’t expect these people to be related to Chu Mu’s first soul pet. If this was related to his first soul’s honor, then Chu Mu’s performance today was understandable. Chu Mu wasn’t the kind to be cowering; he was always burning with belief that he used to power his battles, a man of powerful determination!

Outside the massive mountain, countless green figures rode their soul pets as they swiftly appeared and gathered in front of the cave Princess Jin Rou entered.

Of all the green clothed killers, Ling He stood coldly there, his gaze sweeping over all the killers and their soul pets.

Ling He stood on his tenth phase monarch Ardent Sun Rhinoceros and said, “These two people are in the cave. He definitely wants to avoid our pursuit through the use of the complicated cave system.”

“Boss Ling, the cave environment is one of our best environments for assassinations. Don’t worry, we won’t let them get away this time!” The blue clothed killer said steadily.

“We will split up and search this cave completely. No matter where they hid, I can find them!” The other killer leader said.

Ling He’s mouth corner lifted slowly, “Split up? That isn’t necessary. Nightmare Palace little princess isn’t that weak. Your killers may not be their match and could be easily broken through one by one.

Now, do as I say. You two leaders each take a team and follow me into the cave. My Lightning Monkey King can find their scent. All you have to do is when I find them, you guys block off all possible escape routes!”

The two killer leaders looked at each other and nodded, starting to split the killers into two teams.

“Now all follow me, let’s hope you aren’t too slow.” Ling He said.

“Boss Ling, don’t worry, our soul pet strength cannot compare to yours, but when chasing, we definitely won’t fall behind.” The two killer leaders said simultaneously.

“Good, I will find them within a day!” a smile appeared on Ling He’s face.

The reason Ling He could constantly follow Chu Mu wasn’t because Ling He also had amazing wilderness training, but because he had a Lightning Monkey King that could pursue from thousands of miles away. As long as he had it, Chu Mu and Princess Jin Rou wouldn’t be able to escape.

The cave under the massive mountain could be described as unbelievably complicated. Countless rock tunnels spanned outwards to unknown locations, with a completely hollow rock cave and an even more fickle underground river, creating an intricate underground maze.

This special cave group also had many soul pets that liked dark and sealed habitats, acting as a huge soul pet nest!

When Princess Jin Rou entered this complicated soul pet nest, she had been obstructed by soul pets constantly. She couldn’t avoid angering soul pets during travelling like Chu Mu could, resulting in her even getting surrounded a couple of times.

In the cave were mainly bug type soul pets, and to some degree all had dark type.

“Young princess, you should switch a path. This path straight ahead is definitely a bug type soul pet colony of thousands. With my experience, it is likely the cave of a Thousand Feet Centipede. If you walk in there, even if all your soul pets are tenth phase, you may not survive.”

“Then which way do I walk? I can’t turn around, the killers and Ling He aren’t far from me.” Princess Jin Rou couldn’t decide.

“Let your little ice fox freeze the rock layer above and dig through if you have any rock type soul pet. Above you is another cave tunnel, putting you above the thousand feet Centipede, and then you can go right across.” Old Li said.

“I can also try to use these thousand feet Centipedes to deal with the killers?” Princess Jin Rou said.

“Give up that thought. You don’t know wild soul pet groups well enough, meaning you won’t be able to handle them. One misstep and you’ll kill yourself in the process. The safest method is still to go above the cave.” Old Li said.

Princess Jin Rou didn’t try to hold her own. She told Towering Ice curse demon fox to freeze the rock layer above and then let a powerful soul pet shatter the rocks.

Old Li noticed water dripping from above, so he deduced that there must still be another cave above.

Indeed as predicted, a huge hollow layer opened up about ten meters upwards that winded its way into the mountain.

Princess Jin Rou didn’t know where this tunnel led, but she led her soul pets and Chu Mu’s three soul pets up into this new layer.....

Thousand feet Centipede could travel between rock layers easily. When Princess Jin Rou went up, she quickly found signs of a thousand food Centipede having travelled here, causing the rocks to be riddled with marks.

“Princess, be careful. These thousand feet Centipedes have been here for countless years and were all high phases. Getting accidentally surrounded would spell the end for us.” Old Li specially reminded Princess Jin Rou.

When Princess Jin Rou saw these climb marks, she already felt uneasy. After all, near this cave was thousands of vicious centipedes!

If Chu Mu were here, he indeed could use these thousand feet centipedes to get rid of the chasers.....” Old Li said.

Princess Jin Rou glanced at Chu Mu on Mo Xie’s back again. It has been half a day since they entered the cave, yet Chu Mu didn’t have any sign of waking up. Princess Jin Rou didn’t know how much longer she could last.....

## Chapter 476: Cave Abyss, Millipede Calamity

The east side of the mountain was a vast forest. This forest stood on relatively flat ground. Gazing across, it was a green sea of canopies.

Chu Mu and Princess Jin Rou's final location, Lake Chen, was on the east end of this forest full of danger.

At this time, at the bottom of the huge mountain, the lifeless female master stood on a steep rock face, and eyed the slant below her feet.

Beside the female master was the soul damaged Pan Zheng. Pan Zheng could only summon two soul pets right now, one of which was holding the heavily injured Shen Yicheng.

"Master, why have you stopped walking?" Pan Zheng asked.

"You wait here." Female master said.

Pan Zheng didn't quite understand. Currently, most of the other contestants have probably reached the west side of this mountain. Crossing the mountain only took about half a day. If they didn't take this advantage and reach the end of the bewildering world first, they may not get the final honor.

"Is master worrying for Ling He? One cannot find anyone in all of second tier that can go against him, let alone him and that whole group of killers. How could the Nightmare Palace princess and Soul Palace Chu Chen beat them? If not for that combination technique, even I could kill that soul palace Chu Chen easily!" Pan Zheng said.

Female master didn't reply, only letting Pan Zheng wait while she turned back.

Pan Zheng didn't dare go against female master's command, so he could only stand as he watched female master go back towards the massive mountain towards one of the cave entrances.

After she slowly walked into the pitch black cave, her hollow eyes slowly gained a glint of coldness.

When she stepped into the cave, her clothes started billowing strangely, as if some power were overflowing from her body and creating a powerful aura.

Around her were countless red eyes of the bug type organisms that lived in the caves. Yet, when female master walked past them, the organisms all scurried away, terrified, back into the caves they dug, not daring to show themselves again.

As she stepped forward, a seal on her seemed to be slowly opening up, and a cold and dark aura enveloped her!

Gradually, her pupils regained the spirit of a normal person, cold and imposing. The perfect face now emitted a nobility and arrogance that isolated herself from everyone else.

Now, she was no longer a lifeless body, but a true icy and black-blooded empress. One could no longer tell if she was a soul pet trainer or a top tier organism transformed into human form!

When she stepped to a crossroad, female master closed her eyes and started sensing for Chu Mu's presence.

Seeming to have sensed Chu Mu's direction, she slowly opened her eyes again and started walking pointedly in a specific direction.....

The black cave always let out strange squirming noises. When red light flashed past, they could clearly sense some long organism moving out of the way of the light, quickly darting to the shadows where fire couldn't reach while keeping their eyes on the people that have intruded into this cave.

Every thousand feet millipede was about a dozen meters, making them considerable giants. With thousands of these organisms, it was unimaginable how large this mountain abyss was to hold this many resting millipedes.

"Ice Luster, Towering Ice Blade!" Princess Jin ROu commanded.

The towering ice curse demon fox darted forward with claws full of frost intersecting above the massive hole, creating two flashes of moon like arcs!

“Shishishi!!!!!!”

The black millipede couldn't block this vicious attack. Its ten meter long body was instantly split into multiple chunks, falling down from above.

Princess Jin Rou retracted her soul remembrance and glanced at the millipede corpses that were carpeting the ground. From her expression, it could be seen that she wasn't used to this killing.....

“Sousousou~~~~~”

Hurried footsteps came from one of the pitch black tunnels.

After not too long, the extremely fast Old Li ran in front of Princess Jin Rou and waved his short arms around, “They're all coming from this way, quickly escape by that path.”

Just as he finished, Old Li immediately ran towards another path. Princess Jin Rou could sense that the killers were near and immediately followed.

Yet, before Princess Jin Rou even made it to the hole entrance, Mo Xie, with her nine tails burning with royal flames, ran back from that direction.

“Wuwuwu~~~~~”

Mo Xie called towards Old Li and Princess Jin Rou, signalling that there were many enemies that direction as well.

“We're truly in trouble now.” Cold sweat dripped down from Old Li.

Princess Jin Rou bit down on her crimson lips. This cave only had four tunnels outwards. Behind her was Ling He, whose strength was too strong for Princess Jin Rou to fight head on.

From both Old Li and Mo Xie's directions, there were many killers. With the amount of killers in each direction, Princess Jin Rou couldn't possibly exit from their directions either.

The final tunnel was the path through the thousand feet millipede's cave. There was air movement this direction, meaning it wasn't a dead end. However, there were definitely countless thousand feet millipedes inhabiting this path, so entering meant looking for death.....

"Ice Fox, you stay ahead. Dark Devil Buddhist, restrict all the thousand feet millipede that attack us..." Princess Jin Rou finally decided to try the path of thousand feet millipedes.

The Towering Ice Curse Demon Fox lead the way, while Dark Devil Buddhist ensured Princess Jin Rou and Chu Mu's safety. The rock type monarch was behind to ensure they wouldn't get assaulted by killers. White Nightmare Princess followed Princess Jin Rou's side, ready to attack at any time.

White Nightmare was Princess Jin Rou's White Nightmare. It was already ninth phase middle class monarch. From its ghostly cold aura, one could tell that it was a White Nightmare that was about to enter high class monarch rank!

Towering Ice Curse Demon Fox's offense was incredible, so any thousand feet millipede less than tenth phase would get instantly killed.

Very quickly, Towering Ice Curse Demon Fox created a hundred meter bloody path full of millipede corpses. Princess Jin Rou couldn't stop to worry about the disgusting bug type corpses, stepping right on these filthy bodies as she ran without stopping.

"They are already nearby. Very quickly, they will catch up." Old Li quickly ran back and said very gravely to Princess Jin Rou.

Princess Jin Rou didn't reply, continuing to let Towering Ice Curse Demon Fox lead the way.

Finally, after killing a dozen more thousand feet millipedes, what appeared in front of Princess Jin Rou was a palace-hall-like cave.

This cave was also full of punctures, with marks left by countless millipedes. Luckily, some lead to tunnels in other directions.

"Young princess, watch your step!" Old Li quickly jumped onto Zhan Ye's back as he pointed ridiculously at the rock layer beneath them.

The cave they were in was the upper layer. Under them was a rock layer, yet it was clearly becoming more perforated.....

Mo Xie's body was always burning with royal flames. These flames cast into the perforated rock layer, revealing a massive black abyss under that layer!!

In reality, below this cave wasn't an abyss. The entire cave itself was an abyss; the layer they were on was just a rock strata that formed halfway into the abyss.

These rocks covered the upper half of the abyss, creating the perforated layer they were on now. Therefore, above this layer was a very fragile cave, while below it was a dark abyss that sent shivers down people's spines!!

“Hu~~~~~”

The royal flames on Mo Xie's body darted down a little as she tried to illuminate the bottom of the abyss.

Princess Jin Rou followed its lead and looked downwards, but this glance made Princess Jin Rou instantly lose all her composure!!

The pitch black cavern was immense, and grew gradually wider as it got deeper. At the bottom, its radius was a few thousand meters large!!

Following Mo Xie's flame light down, one could only see a tiny corner of the pit. However, in the area mere hundreds of meters wide, squirming red body after body laid wriggling and interlacing!

Black scythe like legs, fluid covered millipede armor, massive grotesque heads, scary long bodies.....

Everywhere the flames reached was covered in millipede bodies!!!

These millipedes were tangled together, all emitting disgusting fluids. Some were half upright, waving around its dozen meter bodies and thousands of scythe like legs; others were coiled around stalactites, while yet more were laying on the abyss walls, as if ready to dart upwards at any time!!

The entire black abyss suddenly revealed countless shocking beasts and wriggling masses!

If everywhere the light illuminated was filled with millipedes, one could imagine what it looked like in the massive region where light couldn't reach. Was it also chock full of these revolting yet hair-raising creatures!!!

Princess Jin Rou nearly fainted at this sight!!

She knew that below her, in the hundreds of meters wide abyss, was the true nest of the thousand feet millipedes. If she fell down, not even an ounce of her would be left intact by the hands of those millipedes!!

“Mo Xie, retract your flame quickly!” Princess Jin Rou said panickingly at Mo Xie!

Organisms that lived in the dark hated light the most. If they triggered the thousand feet millipedes below them, the killers wouldn't even need to catch up before Princess Jin Rou, Chu Mu, and all their soul pets were eaten up.

Old Li had realized that below them was a millipede hell, so he specially jumped onto Zhan Ye's back, in case he fell down accidentally.

“Little princess, let's...let's leave here first.” Old Li said.

Princess Jin Rou's face had turned pale long ago. Just the thought of the millipede calamity below here made her shiver.

She jumped onto the Towering Ice Curse Demon Fox's back and picked a tunnel to lead Chu Mu and their soul pets quickly out of this living hell.

Chapter 477: Emperor Rank Strength, Terrifying Master (1)

Old Li ran in front. His body was small, but his four limbs moved very quickly. Even Mo Xie and the Ice Fox were unable to catch up to this fellow.

Since it was a dangerous situation now, Old Li was no longer as cowardly as he was in the past. He took to the front to lead Princess Jin Rou.

They ran along this path for four to five hundred meters before a new cave appeared. This cave seemed head upwards and the further inwards they headed, the more it seemed like a slope.

“Princess, quickly follow. It’s another cave. Perhaps there’s an opportunity to throw them off.” Old Li stood in an even narrower cave before climbing onto a tall pointed rock before returned back and speaking to Princess Jin Rou.

After speaking, Old Li immediately rushed in another direction, but when he reached the very center of the cave, he immediately stopped in his tracks, and his constant-moving eyes suddenly turned serious!

His eyes were fixated on a protruding rock and he could faintly feel that on top of this ten meter rock was a figure!

This figure was slim and graceful and he could tell it was a woman.

Old Li stared closely, and at first thought it was a rock that looked like a woman. But when he discovered that the female statue’s sharp eyes were blinking, Old Li’s face immediately changed!

“Princes, don’t.” Old Li turned around and stretched out his small arm, not wanting Princess Jin Rou to enter.

However, in the next moment, the female statue’s cold eyes swept across and before Old Li could finish his sentence, a grey colored demonic flower suddenly blossomed under his feet from in between the cracks!

It was unclear what strange ability this grey demonic flower had, but when Old Li stood on top of it, his small body rapidly turned grey as if he was being covered by a layer of grey paraffin wax!!

Old Li wasn't able to yell in time. His body began turning around and his arm was outstretched as if he was trying to stop something. But after that, there was no more movement. He was completely still on top of this grey demonic flower!!

Behind him, Princess Jin Rou had heard his shout, but she hadn't clearly heard what he had said.

Quickly, Princess Jin Rou and her soul pets also entered the cave and she immediately saw the grey statue body of Old Li standing there. His raccoon-like face was still filled with worry and fear!

A wave of fear washed over Princess Jin Rou and she immediately realized that there was danger here. Her eyes swept over the cave and she immediately discovered that not even twenty meters in front of her was a beautiful woman radiating with a frigid air. Her eyes were so cold that others wouldn't dare face her head on!

Although she had never seen the veiled female master's real face, Princess Jin Rou knew that this woman was definitely the mysterious master from before without a trace of a soul!

But right now, things were completely different. This woman's eyes were full of power and tyranny, reflecting the arrogance in her heart. She seemed like a noble spirit that looked down upon everything and peered with disdain on every living thing!

In front of this woman, Princess Jin Rou felt unprecedented pressure. Her breathing turned rough and she even forgot to order her soul pets to attack!

"Wu wu wu wu!!!!" Mo Xie's reaction was the quickest and as Princess Jin Rou had lost herself, a pair of royal flames ignited on Mo Xie's body before flying beside the princess!!

Phantom!!

Mo Xie's flaming body rapidly transformed into five bodies that rushed towards the female master. 45 flaming tails were like chains that began criss-crossing across the female master's body with the intent to squeeze her to death!

Mo Xie had used Five Night Inferno Fox Diagram, her strongest single-target destructive force technique!

The female master's body didn't move, however. A golden colored flower petal began to circle around her body. It was like a golden colored petal knife that danced around and split apart the surrounding space!

Of Mo Xie's 45 flaming tails, 36 were illusions. The sharp golden petals managed to destroy all of the fake Mo Xie's as they flew around.

“Shi shi shi shi shi!!!!!!”

Mo Xie's real nine tailed body wasn't so lucky either. When her nine tails were struck by the circling golden petals, they were slashed apart and fresh blood began to spill out amidst the flames.

The flower petals were completely under the control of the mysterious female master and they locked onto Mo Xie, flying at her!

Their attack power was extremely terrifying and Mo Xie's defense was incapable of resisting them. If she was ultimately wrapped up by these drifting flower petals, she would be peeled apart so that only her bones appeared!

“Wu wu wu~~~~”

The injured Mo Xie registered this woman's terrifyingness, and hastily gave up on her attack. She used Nine Tail Confuse and unfurled her nine tails covered in blood, dodging the female master's attack. Then, she retreated back to the soul pet group.

The female master's eyes were like knives and they coldly swept over the Princess and the soul pets beside her. Suddenly, a cold grey light blossomed from her eyes!!

This was the same attack used on Old Li. This time, the female master had attacked all of the soul pets!

There was the wounded Mo Xie, the White Nightmare about to launch an attack, Zhan Ye that stood near the back carrying Chu Mu, the Towering Ice Curse Demon Fox, the Dark Devil Buddhist protecting Princess Jin Rou at the back, the rock type monarch that stood at the very back and the Princess White Nightmare that stood with the White Nightmare...

Seven soul pets and Princess Jin Rou. Grey demonic lights began to blossom simultaneously under them. This demon flower was like a lotus, but was full of an ice cold aura. When stepping on top of it, one felt that the lower half of his body was being frozen!

Eight mysterious and terrifying grey demonic lights were released, and Princess Jin Rou quickly thought of Old Li that had turned completely grey. A worried expression showed on her face as she hastily had all of the soul pets dodge.

The White Nightmare and the Princess White Nightmare were the strongest, so they had the quickest reactions. Seemingly the moment the grey demonic flower began exerting a grey force, they both used Displacement Specter, narrowly dodging this strange flower technique.

Mo Xie had just used Nine Tail Confuse and her illusion techniques. She could no longer use another dodging technique, so she seemed incapable of dodging. Quickly, the grey energy began to seep into her body...

The royal flames on her body began to gradually extinguish under the power of this grey flower type energy and her silver fur began to turn grey. In a short period of time, she became a flaming fox statue. Her nine tails were still dancing in the air, but they were frozen... incapable of movement!

When Princess Jin Rou saw that Old Li had been completely bound by the grey flower type energy, she had raised her guard and managed to use a technique in time, creating an ice type defense that blocked the grey demonic flower's binding power.

The Dark Devil Buddhist wasn't so lucky and was completely bound. Just like Old Li, it stood motionless on top of the grey demonic flower.

The Towering Ice Curse Demon Fox innately possessed curse strength and the grey demonic flower was clearly a flower type sealing technique. This seal was ineffective on the Towering Ice Curse Demon Fox.

Zhan Ye stood at the very back, but the grey flower attack wasn't very accurate, slightly missing its body. Only its back left leg was affected by the grey color, now bound.

Princess Jin Rou's rock type monarch had the slowest reaction and its brown body was quickly covered by the grey colored demon flower ability. Even its eyes became a grey color.

Perhaps this demon flower sealing power was weaker on the rock type monarch because although it had been bound, it was still able to move its body very slowly.

“Leave this place!” Princess Jin Rou recognized that this female master had astonishing strength had promptly had all the soul pets turn around.

After speaking, Princess Jin Rou hastily changed an incantation and immediately recalled the immobile Dark Devil Buddhist back to her soul pet space.

The White Nightmare and Princess White Nightmare both used devil flame techniques on the mysterious female master, blocking her from attacking.

However, the devil flames were unable to burn the female master, who stood unaffected in the white devil flames!

The female master’s technique didn’t end and grey demon flowers outlandishly blossomed in the rock cracks. Countless flowers began to appear on the icy cave wall!

The demon flower grew at a very fast speed and quickly, the rock cave was covered by terrifying demon flowers. Presumably, it wouldn’t be long before the cave and the pathway were completely covered.

Princess Jin Rou didn’t dare hesitate and quickly had all the soul pets retreat back into the pathway they came in.

At this moment, a sliver of a flower vine was curling around the female master’s finger. This flower vine suddenly transformed into a viper-like object that flickered with a cold black light before flying out. It completely demolished the pointed rocks in between the female master and Princess Jin Rou!

Princess Jin Rou’s eyes opened wide and he could feel the flower vine viper’s approach. It was an approach of an aura full of death! She knew that if she was hit by this attack, with her ability to resist, she probably wouldn’t survive!

The female master seemed to realize that this technique could instantly kill Princess Jin Rou. As the flower vine viper flew out, her hand softly moved and changed the direction of its attack towards Princess Jin Rou's shoulder bone!

This attack looked incomparably average, but was incomparably vicious. Princess Jin Rou knew that even if it was her shoulder that was attacked, there was no chance of climbing back up. However, she could not dodge right now and she could only watch with her eyes full of fear as the viper flew over.

“O!!!!!”

With an angry roar, the rock type monarch standing behind Princess Jin Rou exploded with its full strength and forcibly moved its enormous body!

It took a large steep and appeared in front of Princess Jin Rou to use its rock body to protect her!

“Beng!!!!!!”

The flower vine viper swept past and immediately shattered the rock type monarch's armor, piercing into its thick body!!

However, despite this, the flower vine viper's power wasn't weakened in the slightest and after it finished piercing through the rock type monarch's body, it still struck Princess Jin Rou's shoulder, leaving a deep bloody hole in her delicate shoulder!!!

#### Chapter 478: Emperor Rank Strength, Terrifying Master (2)

“Ah...” Princess Jin Rou painfully let out a cry, and her body went flying backwards.

She heavily crashed into the flower-vine littered ground.

The Towering Ice Curse Demon Fox rapidly rushed back, shot out its tail and picked up Princess Jin Rou just as she was about to be engulfed by the flower-vines. It then threw her onto its back.

After Princess Jin Rou fell back, the body of the pierced rock monarch let out a rumbling howl. Its grey body surfaced with cracks and it looked like it was going to explode!!

The rock type monarch realized its master was in danger. As a creature with great willpower, it completely ignored the continuous cracks on its body and its arms fiercely smashed the ground.

The flower vines growing were smashed into countless pieces by these fists. Immediately after, sharp rocks began to pierce along the ground towards the female master.

A large golden vine began to emerge from the female master's surrounding. When the earth began to pierce from under her feet, the rocks suddenly pacified.

A trace of imposing killing intent was revealed in the female master's eyes. The vine under her feet began to grow countless golden flower petals which flew at the rock type monarch like falling snow!

The rock type monarch's body was already cracking. The flower petal attacks were extremely powerful and unexpectedly even the rock type monarch's ninth rank late stage defense was easily broken up!!

“Ao!!!!!!”

The rock type monarch let out a pained cry. As its body was slowly blowing up, it was ripped into pieces by the flower petals!!

“Shua shua shua shua!!!!!!”

Each time the flower petals swept past, the rock type monarch's body was split into pieces. The cave began to reverberate with rock type monarch limb pieces with each roar. All of the soul pets couldn't help but shiver as they listened!

The wounded Princess Jin Rou's face was originally pale. But as the rock type monarch's body was dismembered, her face lacked even a trace of blood and she nearly passed out from the cracked soul pact and soul wound.

Princess Jin Rou's rock type monarch had a defense of the late ninth stage which made it difficult for even a tenth phase monarch to kill it.

However, the grey demon flower's effect lowered the rock type monarch's defense. After the female master's two attacks, the rock type monarch was completely cut into pieces of rocks!!!

The death of a soul pet!

This was the first soul pet death to happen to Princess Jin Rou since becoming a soul pet trainer. The pain of a soul pet fracture caused her eyes to flush completely red.

“Wu wu wu!!!”

“Nei!!!!!!!!!!”

Princess Jin Rou's Towering Ice Curse Demon Fox and Princess White Nightmare let out sharp cries, as they felt their master's soul wound and anger that was about to burst. The two soul pets' eyes spat out angry flames and they glared firmly at the savage female master!

“Wu wu wu wu!!!!!!!!!!”

Another fox cry rang out in the cave!

Just as the rock type monarch was about to be killed, the completely bound Mo Xie let out a cry!

Silver light on its body flashed and relying on its moonlight species technique, it forcibly broke the flower type seal!

The grey flower type energy quickly withdrew and Mo Xie's royal flames once more burned on her body. Taking advantage of the female master not paying attention, it fiercely swept its claw blade at her neck in an attempt to cut off her head!

The female master let out a slightly flustered expression.

She hastily stopped her attack on Princess Jin Rou, and used a golden flower wall to stop Mo Xie's attack!

Mo Xie's claws pierced through the female master's flower wall and a cold light swept past her neck. She left a deep claw mark in the female master's neck from which fresh blood spurted out from and rolled down her white neck!

The female master anxiously retreated, and used her hand to cover her ripped neck. However, she was unable to stop the blood from flowing...

Blood spilled everywhere and a few drops spilled onto the completely bound Old Li.

The female master's blood had special freeing effects that caused the grey color to rapidly withdraw from Old Li's body and he recovered his freedom.

The fight had been witnessed by Old Li. The two White Nightmare attacks had been unable to truly damage the mysterious female master because she had possessed a seal defense. Even if it was a devil flame fire attack, it wasn't able to deal even thirty percent of the damage.

All of the soul pets present had been unable to use particularly strong attacks thus unable to deal damage to the female master. Only Mo Xie who had undone the seal's strength and could break through her seal defense was able to truly damage her!

"Princess, quickly flee! She possessed the strength of the Sacred Holy Flower which is emperor rank strength!!" Old Li let out a sharp cry.

After shouting, Old Li hastily had Mo Xie take advantage of her injury to escape. This was because he was worried Mo Xie would be instantly killed like the rock type monarch by the terrifying female emperor!

Princess Jin Rou was filled with anger and hate. Her pale white lips had already been bitten through; yet, the enemy's strength was too strong and even seven soul pets still weren't her opponent.

"Everyone leave!" finally, Princess Jin Rou gave an order to her soul pets while full of tears.

The White Nightmare and White Nightmare Princess didn't hesitate and quickly floated back. The White Nightmare Princess floated to Princess Jin Rou's side to protect her while the White Nightmare flew to Zhan Ye's side to protect Chu Mu, who was still passed out.

After Mo Xie hit her target, she swept her tail and picked up Old Li, using Nine Tail Confuse to flee far away from the female master's attack range. After stepping over the rock type monarch's miserable body. Immediately after, she chased after the Towering Ice Curse Demon Fox.

The female master held her neck that was full of fresh blood and her face was extremely dark. Her pair of eyes gradually began burning with an angry flame.

The female master didn't immediately pursue. The royal flame from the Nine Tail Inferno Fox seal break attack dealt deadly damage. If she didn't stop the bleeding in time, all of her blood would be lost.

The female master hadn't put any of the soul pets in her eyes. Yet, Chu Mu's main pet possessed a unique seal break species technique that countered the female master. This caused her to have no choice but be afraid of the Nine Tail Inferno Fox!

“Wu~~~~”

Mo Xie quickly ran up to Zhan Ye that was carrying Chu Mu. She had noticed Zhan Ye's speed had drastically slowed down and immediately asked why.

Zhan Ye's speed had drastically reduced because its back limb had been restricted by the grey demon flower energy and could only run with three limbs.

Mo Xie extended her claws to see if there was still any of the female master's blood left on it. However, Mo Xie possessed blood flames so the female master's blood had already evaporated. There was no way for her to undo Zhan Ye's restriction.

“Hou~~~~~”

Zhan Ye let out a roar, telling her to keep running. It wouldn't be able to keep up for long. Princess Jin Rou, in the meantime, lead all of the soul pets back to the caves above the abyss from before.

The White Nightmare and White Nightmare Princess had the fastest reactions and realized that both of Ling He's main pets had appeared there. They flew into the cave and both used nightmare flames, forcibly forcing back Ling He's obstruction.

"They're here, stop them!!"

Ling He immediately saw Princess Jin Rou and the following soul pets, and a smile rose on his face as he spoke to the killers.

Over thirty killers had just entered the cave but were a distance away from Princess Jin Rou.

Practically all of them were riding on a green eyed demon beast. Seeing Princess Jin Rou appear, they all chanted incantations as they continue to summon other soul pets!

Soul pet patterns appeared. Instantly, over thirty Terror Wolf-like ominous demons while baring their teeth appeared. When they ran, they were as fast as lightning and they formed cold streaks of light in this pitch-black cave as they charged towards the two White Nightmares!

The nine underworld devil flames had extremely powerful destructive force. A dozen white devil flames appeared that rose up high into the air, forming a nine underworld devil flames array. This forced the green eyed demon-Terror Wolf-like demons to one side. As for the demons that had already jumped into the nine underworld devil flame array, the White Nightmare's powerful array burnt them to crisps, instantly killing a number of them!

"Princess, go this way!" Old Li lead the way forward. He took advantage of the fact that Ling He and the killers hadn't occupied the whole cave yet and brought Princess Jin Rou down a side path.

Princess Jin Rou didn't hesitate and rode on her Towering Ice Curse Demon Fox down the rock path.

Mo Xie added to the two White Nightmare flames and didn't give the killers on the other side of the cave the chance to charge over. The different colors of nine underworld devil flames, white demonic devil flames, demon fire evil flames and blood flames burned through the cave!!

"You three, quickly retreat!" Princess Jin Rou quickly made her way over to the cave pathway entrance. She turned her head around towards the White Nightmare Princess, the White Nightmare and Mo Xie as she spoke to them.

The three soul pets all knew when to stop. They maintained the flaming wall in the cave before rapidly turning around and following Princess Jin Rou and the Towering Ice Curse Demon Fox.

“Princess, be careful of Ling He. His soul pets have arrived!!” Old Li let out a cry out of fear.

In the flaming wall, a scorching sunlight abruptly burst forth. The multiple layers of fire were of no obstruction. Light burst in all directions from its enormous body as it quickly approached them.

Beside the scorching sunlight, purple lightning flew across. The scorching flame wave didn’t deal much damage to it either. This was Ling He’s Lightning Monkey King!

All of Ling He’s soul pets were strong and if they were stopped by his attacks, the moment the killers caught up, it would be impossible for Princess Jin Rou and Chu Mu to escape.

Princess Jin Rou bit her lip. She knew that there had to be a soul pet to cut off their pursuers in order for them to have an opportunity to escape...

However, the soul pet that cut off their pursuers would not be able to return

Princess Jin Rou couldn’t make the choice. If she didn’t give up a soul pet, both her and Chu Mu’s soul pets would be completely annihilated.

However, giving up a soul pet was something very difficult for Princess Jin Rou to do. After all, her soul pets constantly stayed by her side as she grew up...

Chapter 479: Abyss, Surprise Appearance of Ten Thousand Feet Millipede

“Hou!!!!!!! Hou!!!!!!!!!!!!!!”

Suddenly, Zhan Ye’s roar came from behind.

Princess Jin Rou turned around and glanced over to notice that Chu Mu’s Zhan Ye had fallen behind some time ago!!

“Its leg has been caught!” Old Li said.

Princess Jin Rou’s heart sank. The unconscious Chu Mu was still on Zhan Ye’s back!

Mo Xie and White Nightmare’s attention were both on the killers. When the flames lifted, they all thought Zhan Ye was holding Chu Mu beside Princess Jin Rou. They didn’t realize that it was actually far behind still.

“Wuwuwu~~~~” Mo Xie didn’t hesitate, quickly turning around and running towards Zhan Ye.

Zhan Ye, on the other hand, started slowing down. As if it realized it could no longer protect Chu Mu well, he shook his body and let Chu Mu fall from his back and into his tail.

“Hou!!!!!!” Zhan Ye roared at the approaching Mo Xie and whipped its chain-like tail over to toss Chu Mu to Mo Xie.

Mo Xie quickly halted and extended two tails to catch Chu Mu as he flew over, laying him on her back.

“Wuwuwu~~~~~” Mo Xie called towards Zhan Ye. Zhan Ye’s roar signalled Mo Xie to leave. What confused Mo Xie was, after Zhan Ye threw Chu Mu over, it stopped running. Instead, it turned around and faced the Ardent Sun Rhinoceros and Lightning Monkey King.

Seeing Chu Mu’s Zhan Ye give up escaping, Princess Jin Rou suddenly realized something. Her eyes stared intensely at the black yet determined figure, and she found herself at a loss for words.

“Wuwuwuwu~~~~”

Mo Xie won’t leave Zhan Ye behind. She ran in front of Zhan Ye and called a few times, extending two tails to curl it up to escape as well.

“Pa~~”

Yet, Zhan Ye’s chain-like tail whipped across and slapped Mo Xie’s tails back.

It turned around and gazed at Chu Mu, letting out a low growl.

Then, Zhan Ye no longer paid attention to Mo Xie. It stood unmoving on the perforated cave floor, its black eyes burning with flames against a large group of enemies..."Nie~~~~~"

White Nightmare quickly floated over. It realized what Zhan Ye was about to do. Though it had small grudges against all of Chu Mu's other soul pets, it would never give up on its companions when times mattered.

"Wuwuwu~~~~"

Mo Xie also didn't try to escape. If Zhan Ye didn't leave, she would rather stay and fight with it!

"They...they....."

Seeing the actions of the three main soul pets, Princess Jin Rou was moved.

Soul pets that stayed didn't have a chance of living!

Princess Jin Rou had just been deciding which soul pet of hers to give up, because she knew if she picked one, it would stay behind without any complaints.....

Yet, Chu Mu was still unconscious, but his soul pets didn't need him to pick. In this moment of danger, the beast Mo Ye passed its owner onto its companions and chose to stay behind...

This needed not only loyalty, but a relationship above that of a soul pact between soul pet trainer and soul pet. Only such emotions could let a soul pet sacrifice itself for its trainer so willingly!!

"Mo Xie, White Nightmare, leave here first, keeping Chu Mu alive is your priority!" Old Li couldn't watch all three main soul pets stay. If all three stayed, they would all be killed and Chu Mu wouldn't make it alive either.

"Hou~~~~~"

Suddenly, Zhan Ye let out a deep roar. Its front legs lifted up with beast type energy and, before Mo Xie and White Nightmare noticed, stepped downwards powerfully!!

“Beng!!!!”

Zhan Ye’s stomp’s energy rolled up a gust that sent Mo Xie and White Nightmare back to the tunnel entrance.

“Wuwuwu~~~~~”

Mo Xie flipped backwards and landed stably. Looking at the Zhan Ye make up its mind, Mo Xie’s silver pupils started glistening.

“Nie~~” White Nightmare cast Nine Underworld Devil Flame forcefully pushed away Ling He’s two soul pets to buy more time for Zhan Ye.

But, White Nightmare saw that Zhan Ye never even attempted to leave and immediately let out another angry shriek!

“Mo Xie, White Nightmare, let’s leave. You have to persist until your owner wakes up.” Princess Jin Rou saw Chu Mu’s three soul pets refusing to leave and quietly suggested.

There wasn’t much time left. Many killers were already riding their soul pets through the flames, reaching only two hundred meters away. “Nie!!!” White Nightmare suddenly let out an angered call, signifying Mo Xie to leave with Chu Mu alone. It wanted to stay and fight with Zhan Ye to stop the opponent and find another chance to escape.

After saying that, White Nightmare floated forwards and started towards Zhan Ye.

Yet, just as White Nightmare floated up, Mo Xie’s two tails suddenly locked onto White Nightmare and forcefully pulled it back.

Mo Xie turned around and no longer hesitated, determined as it dragged White Nightmare towards Princess Jin Rou.....

White Nightmare and White Devil Princess's devil flames helped buy this short time. However, these flames could no longer stop these killers' footsteps. Thirty green eyed beasts and thirty demons charged over like a tidal wave!!

After Ling He's two soul pets were pushed back by White Nightmare's Nine Underworld Devil Flames, they charged forwards again quickly, approaching extremely quickly!

On the other end of the cave, Ling He's apathetic eyes looked through the slowly dimming flames and he laughed coldly at the sight of the Zhan Ye.

Compared to the massive amount of opponents, its three meter body was incredibly tiny. One glance from Ling He was enough to judge this soul pet's phase and rank.

This was a Mo Ye that hasn't even reached ninth phase. Having such a weak soul pet stop his soul pets and that of sixty other killers was laughable and ridiculous!

"Kill this poor thing." Ling He gave a command to his Ardent Sun Rhinoceros.

Ardent Sun Rhinoceros's strength was a full five ranks higher than Zhan Ye. From Ling He's perspective, instantly killing it was too easy!

Facing such a violent tide of soul pets as well as the powerful Ardent Sun Rhinoceros, Zhan Ye's eyes glowed with a calmness like never before.

Even when it knew it couldn't escape death anymore, it didn't have any fear. Its eyes only shined with fighting spirit!!

Seeing the Ardent Sun Rhinoceros pounce over, Zhan Ye retreated towards another tunnel and forcefully leaped upwards.

Its body did a flip in mid air and, as it released the dark aura at its highest point, its body morphed into a dark hammer!!

"Hou!!!!!"

Suddenly, Zhan Ye let out an angry howl!!

This angry howl was full of shocking energy. It was Zhan Ye's anger, a release of its fighting spirit, as well as a manifestation of a heart trembling heroism!!

After the angry howl, Zhan Ye's body dropped down and heavily slammed into the ground!!!

The dark hammer fell down, releasing a stamping energy that could completely shatter the ground!

“Beng!!!”

A huge sound reverberated through the entire cave!

When the entire Zhan Ye's forelimbs hit the ground, the entire rock floor shook violently.

Quickly following, shocking cracks appeared in the perforated rock layer!!!

These cracks spread towards the inner structure of the rock cave but also covered the entire cave floor, quickly destroying the floor!

“Bengbengbeng!!!!!!!!!!”

Large rumbles travelled over. This cave was already weak, so it couldn't possibly hold after Zhan Ye's charged stamp. When the energy from the stamp spread outwards, the entire rock layer started crumbling from the center!

All of the floor broke apart. Without a support, the rock layer immediately fell into the massive black abyss!!

“Ah!!!!!!”

“Ah!!!!!!!!!!!!!!”

“Han!!!!!!! Man!!!!!!!!!!!!”

Chaos and alarmed calls filled the space!

The killers were too far forward, so all sixty of them fell into the deep abyss along with the floor when it collapsed!!

Abyss, that was the nest of thousands upon thousands of thousand feet millipedes!

There were countless thousand feet millipedes measuring past ten meters. Just where Mo Xie's light reached previously showed at least nine tenth phase thousand feet millipedes. One could only begin to imagine how many the rest of the abyss held!!

“Sisi!!!!!!!Sisi!!!!!!!!!!!!”

“Sisisisi!!!!!!!!!! Sisisisi!!!!!!!!!!”

Immediately, ear piercing millipede screeching started, causing everyone's hairs to raise!!

Zhan Ye's attack caused the entire upper rock layer to collapse. The sound alone alarmed the countless thousand feet millipedes below!!

“Siyen!!!!!!!!!!”

Through all the screeching, suddenly, a terrifyingly penetrating millipede shriek cut through!!

At the bottom of the abyss, a massive bug type aura rolled upwards. The green eyed demons that were thrown down first started rotting as they fell because of this bug type aura!!

“La!!!!!!!!!!”

Like the sound of meat being cut, after the powerful bug type aura rose upwards, countless cold glints flashed in the dark abyss, quickly rising with time. In this process, the killers and soul pets that haven't fallen to the bottom of the pit were shredded into pieces!!

“Siiiiiman!!!!!!!!!!”

Another penetrating shriek echoed throughout. This time, one could clearly make out two organized files of sharp scythes standing upright in the pit, reaching the top in one leap!!

A massive, ugly, and grotesque head suddenly appeared. Below the head were rows upon rows of legs. Its snake like body extended deep into the darkness, as if this beast propped up was perfectly the length of the abyss, from the bottom to the top!!

“Ten....ten... ten thousand feet millipede!!!!!!!!” Old Li shouted out without composure. Standing in the tunnel, he stared shocked at the alarming millipede's head!!!

Chapter 480: Zhan Ye, Zhan Ye! (1)

Ten Thousand Feet Millipede

The shockingly sinister body was right before their eyes. The abyss was immense, but it seemed to be taken up completely by this massive beast.

When the ten thousand feet millipede rose up, it had a spiral to it. This caused the entire hundred meter black abyss to be taken over by a terrible stirring force.

At the center of the abyss was about thirty green eyed demons. When these green eyed demons fell down, they lifted up a huge cloud of blood mist. At least ten green eyed demons were ripped to pieces when the energy lifted up by the ten thousand feet millipede hit them.

Zhan Ye stood at the very edge of the abyss. Luckily, Zhan Ye didn't have to withstand the stirring force of the Ten Thousand Feet Millipede.

However, in the abyss, there were still thousands upon thousands of Thousand Feet Millipede. No matter how many times Zhan Ye could use Broken Limb Rebirth, it would still be eaten alive in the end.

“Sisisisisi”

With its head as lead standing upright in the center, the Ten Thousand Feet Millipede used its eyes to glance at the demons on the cave sides.

Some of the killers’ demons reacted rather quickly. When the ground collapsed, these demons utilized their speed to quickly jump onto the cave walls, stopping their descent.

Yet, very quickly all these demon killers let out shivering howls.

A hundred meters down into the darkness, the cave sides were slowly being encroached by a mass of millipede bodies. They filled almost the entire cave side, their blood red eyes violently locking onto the killers’ demons.

“Retreat from this god-forsaken place.” Ling He’s expression was ugly.

If not for his Lightning Monkey King and Ardent Sun Rhinoceros’s quick reactions, they would definitely have fallen to the bottom of this abyss as well.

With only Thousand feet millipedes, Ling He could somewhat handle the situation. However, with the merciless Ten Thousand Feet Millipede, staying was looking for death.

The Ten Thousand Feet Millipede’s bright red eyes quickly locked onto the Ardent Sun Rhinoceros running along the side of the rock walls. As a dark type, Ten Thousand Feet Millipede was very against light type organisms. So, as the Ardent Sun Rhinoceros was running along the sides to try to run back to Ling He, the Ten Thousand Feet Millipede’s eyes locked onto it.

“Sihuo”

The Ten Thousand Feet Millipede’s head slightly tucked in. The next moment, it darted forward, swiftly crossing the gap and slammed towards the Ardent Sun Rhinoceros.

“Beng”

The entire abyss cave started shaking violently. The Ardent Sun Rhinoceros had no time to dodge, before it was slammed a dozen meters deep into the caveside, its thick dawn armor immediately shattering everywhere.

“Sihuo”

The Ten Thousand Feet Millipede never planned on letting the tenth phase Ardent Sun Rhinoceros go. Lifting its head up, it quickly gathered a globule of black acid, spraying it towards the dozen meter deep opening it created.

The black millipede poison quickly filled the entire ten meters. The Ardent Sun Rhinoceros never had time to get up before its body was similarly burnt through like the rocks around it.

“zizizizi~~~~~”

Black smoke arose. The entire wall looked like mud being washed away by a jet of water. As the powerful acid flowed downwards, the entire wall showed signs of being corroded, up to a hundred meters downwards.

The outer armor of the Ardent Sun Rhinoceros was quickly dissolved in the acid. Losing its protection, its body started decaying fully.

“Sisisisi”

Sharp noises sounded out. Not needing the Ten Thousand Feet Millipede to give a last hit, thirteen tenth phase thousand feet millipedes frenziedly dashed into the corroded wallface and devoured the most powerful soul pet without leaving a single ounce behind.

The Ten Thousand Feet Millipede’s attack was very sudden. Ling He couldn’t react, and was only able to watch as his tenth phase Ardent Sun Rhinoceros was swallowed alive by the thousand foot millipedes.

The mental blow from the soul pact shattering quickly travelled over. Ling He’s face immediately became pasty white, as he clutched his chest and gulped for air.

“Lea.....Leave” Ling He didn’t expect this Ten Thousand Feet Millipede to be this powerful. He dared not stay for any longer. He called his Lightning Monkey King back and disregarded the lives of the killers, escaping back into his tunnel with his Lightning Monkey King.....

After killing the strongest creature in the abyss Ardent Sun Rhinoceros, the Ten Thousand Feet Millipede’s eyes quickly locked onto Chu Mu’s White Nightmare.

The White Nightmare had just flown to the edge of the cave. It had tried to save the fallen Zhan Ye. Yet, when the reaper-like eyes locked onto it, White Nightmare’s body clearly shivered.

Mo Xie’s tails again rolled White Nightmare up, pulling White Nightmare forcefully into the tunnel. Seeing the Ten Thousand Feet Millipede eye them, Mo Xie didn’t dare to hesitate, dashing further into the tunnel while holding White Nightmare.

Ten Thousand Feet Millipede saw that the White Nightmare left, yet it didn’t slam through the rock walls to chase. Instead, its eyes locked onto another direction.....

In this direction, a woman emanating killing intent from every pore of her body stood on the edge of the abyss. Her eyes stared emotionlessly at the Ten Thousand Feet Millipede.

The Ten Thousand Feet Millipede similarly felt the opponent’s powerful aura. Its blood red eyes stared cautiously at the seemingly tiny woman.

The one eyeing Ten Thousand Feet Millipede was the female master that had finished nursing her wounds. She originally thought that Chu Mu and Princess Jin Rou wouldn’t be able to escape anymore.

Yet, she didn’t think there would appear a tenth phase Ten Thousand Feet Millipede reaching top tier monarch rank.

The female master had emperor rank power, yet she herself wasn’t tenth phase. Her strength was higher than this Ten Thousand Feet Millipede, but to kill it and then catch up to Chu Mu and Princess Jin Rou would take a lot of time. Plus, she had to deal with the huge group of thousand feet millipedes too.

Finally, the female master’s vicious killing intent disappeared in a flash, as her body again became a seemingly soulless puppet.

She turned back emotionlessly, disregarding the glaring Ten Thousand Feet Millipede. With some anger and resentment, she walked further into the cave and slowly disappeared into the shadows of the tunnel.....

After the female master left, blood-curdling screams still echoed through the abyss.

These hair raising sounds were the last remnants of the killers. Other than the two leaders, all thirty killers along with their soul pets didn't make it out alive, leaving only blood splatters on the sides and bottom of the abyss.....

.....

In another tunnel of the cave, Mo Xie ran with all her strength, covered in royal flames.

Yet, in this process, countless thin shimmers flew out from her silver pupils, wetting the path she ran through.....

When Mo Xie and Zhan Ye first met, Zhan Ye was unbelievably weak; her claws could easily rip through Zhan Ye's defenses.

Yet, Zhan Ye grew slowly stronger, and could even beat her sometimes when his strength exploded. At this, Mo Xie was very happy for Zhan Ye.....

"Mo Xie, let's stop for a second, stop running.....they didn't chase after us.....we should rest for a while....." Old Li said to Mo Xie, who was running without stop.

"Nie~~~~~" White Nightmare became a demon shadow that blocked Mo Xie's way, signalling for her to stop and cease her running.

Yet, Mo Xie didn't stop for anything. She easily evaded White Nightmare's obstruction, and just kept running deeper into the pitch black cave.....

Gradually, Mo Xie's royal flamelight showed the way into another abyss.

This time, Mo Xie finally stopped. Her body slid to the edge of the abyss due to momentum, but she simply let it act on her. She stood tall, yet aloof, at the side of the abyss.

“Wuwuwuwuwu”

Mo Xie lowered her head, and let out a heart wrenching call towards the depths of the abyss, as if she was releasing something, or was it to convey something through the reverberation of the pit.....

The sound bounced back and forth through the abyss, the cave, the tunnels, refusing to dissipate.

Princess Jin Rou and Old Li both heard Mo Xie’s call. Yet, when they caught up, Mo Xie was already curled up quietly on the ground. Her blood-stained tail was unfurled to let Chu Mu lay on it.

Mo Xie closed her eyes. One could clearly tell she was feeling down, and she didn’t want to notice anyone else.....

Old Li jumped to Mo Xie’s side and wanted to console her, but he didn’t know what to say. He could only stand by and stare into the abyss.....

.....

.....

In the other abyss, a thousand feet millipede with a bulging stomach slowly wriggled its way towards the edges of the abyss.

It had just swallowed a three meter long organism, so it needed to go to the edges to rest and slowly digest the black organism. This way, it could grow even stronger.

Once it was at the edge, the thousand feet millipede curled up, and readied itself for a nap that could completely digest the thing in its stomach.

Yet, not long after this thousand foot millipede fell asleep, its long belly suddenly showed an unusual movement.

“Shua”

Suddenly, two blades slashed outwards from inside the thousand feet millipede’s stomach.

Ink claws extended outwards, as a Heavenly Ripping Claw tore through this thousand feet millipede’s stomach. Following it was a black figure that swiftly jumped out from inside the stomach.

“Si~~~~~” The ripped open thousand feet millipede let out a pained squeal. Its red eyes bulged outwards, as it stared in disbelief at the completely unscathed black tiger like beast.

Thousand feet millipede was sure that, when it swallowed the organism, the beast was covered in cuts and bruises, and was a breath away from dying. How could it come out from its stomach like that?
