

## **Soul Pets Bk2 511**

### Chapter 511: Chu Mu's True Main Pet Formation?

Chu Mu's black figure descended from the air and his two feet stepped onto the ground still filled with the remnants of the fire.

Even if the Heavenly Life Mountain's rock was sturdier than normal rock, several layers of the ground were still destroyed by Chu Mu's Thirteen Inferno Hells.

"Mo Xie!"

Mo Xie began to run under the demon moon. Her two eyes locked onto one of the high class commanders that was burned.

After suffering the Thirteen Inferno Hells attack, the prisoners scattered. Mo Xie had locked onto one of the prisoners and his soul pet that had completely separated from the prisoner team.

Royal Flame Claw!!

A silver demon moon's cold light abruptly swept across the high class commander. This prisoner wasn't able to react in time as Mo Xie's Royal Flame Claw tore apart his body and the royal flames entered his body!

There was an entire three level difference in strength and they had attacked by the Thirteen Inferno Hells. This prisoner and his high class commander were even more unlikely to escape their fate of being instakilled and indeed were burned to ashes.

Hearing the miserable cry of a prisoner, the wounded seventh rank prisoners all revealed expressions of terror.

His soul pet was unable to defend against even one of the Royal Flame Nine Tail Inferno Fox's techniques. Therefore, having learned their lesson, they all began to retreat, trying to distance themselves from this middle class monarch that had reached the peak of the ninth phase.

“What are you afraid of?!! It’s only one soul pet! Use the demons to inhibit its techniques while the beast types attack!!” the leader, an eighth rank prisoner, angrily roared!!

Chu Mu’s Thirteen Inferno Hells had caused a huge loss to their group of prisoners, but six of their peak commanders still had full fighting strength.

Therefore, the six peak commanders from the 4 eighth rank prisoners charged at Mo Xie to prevent her from using her instakill techniques on the high class commanders!

Mo Xie’s speed was something none of the peak commanders could keep up with. Her silver figure nimbly passed through the six commanders, each with different degree of burn wounds. Despite the wave of attacks from the six peak commanders, none of the attacks were able to even scratch Mo Xie!

“This Nine Tail Inferno Fox has incredibly powerful dodging abilities!” the eighth rank prisoners’ faces went pale. Unexpectedly, the six peak commanders attacking the Nine Tail Inferno Fox from all sides had no effect!

“Hou hou hou!!!!!!!”

Suddenly, the War Court Black Beast let out a roar filled with dense darkness strength that transformed into dark storm that swept in the other direction!

Underneath the War Court Black Beast’s four limbs were black colored bone blades that extended outwards. These bone blades were its sharpest weapons and when this mysterious soul pet charged with full strength at a wounded high class commander, it split open the commander’s body when its black body streaked past like a cold light!

“Pu chi~~~~~”

Fresh blood spewed out. This originally heavily wounded high class commander was unable to dodge the War Court Black Beast’s technique. Its artery was cut apart and its final bit of life force slipped away as the blood spilled out!

After killing one high class commander, Ye Qingzi’s War Court Black Beast then charged towards the peak commander and Mo Xie battlefield!

A dark light flashed, an ice cold blade flickered and the War Court Black Beast launched attacks on two peak commanders.

Two peak commanders didn't dare underestimate this War Court Black Beast and gave up pursuing Mo Xie, instead turning around to fight the War Court Black Beast!

“Wu wu wu~~~~~” Mo Xie saw the War Court Black Beast come to help and let out a cry.

Having lessened the danger to Mo Xie, she was able to move more freely.

Mo Xie was very versed with battle tactics and completely avoided facing the peak commanders. Her silver body continuously moved, but she each time she kept on moving closer to the wounded high class commanders!

To the wounded high class commanders, the appearance of a ninth phase peak middle class monarch was like the advent of a death god!!

Phantom Royal Flame Claw!!

Five elegant silver figures, each wearing heavy bloodthirsty auras, tore with Royal Flame Claws at one high class commander's vitals!

Even if this high class commander's dodge abilities were stronger, it was incapable of breaking free from the five Royal Flame Claws. Once the claws passed through, the high class commander was torn to pieces by Mo Xie's claws. The pieces of flesh were then burned to ashes by the royal flames!

The seventh rank prisoners didn't have peak commanders and having been scattered, amounted to no threat. They could only stand there with pale faces and stare with their eyes wide open at their high class commanders being mercilessly ripped apart by this massacring fox. They had no strength to retaliate!!

“A group of idiots! If you don't want to die, then gather your soul pets together and keep control of them. The more spread out they are, the better chance you're giving it of killing you!! Hmph, whoever dares to flee, I'll be the first to kill him!” angrily said the eighth rank prisoner leader!!

They were in desperate straits. It would really be difficult for them to escape and adding on the prisoner leader's threats, these seventh rank prisoners could only continue to fight while trembling with fear.

If the high class commanders were able to create order among themselves and work with each other, even if Mo Xie had the ability to kill them, it would be hard to do so while being chased by peak commanders.

Quickly, all of the seventh rank prisoners gathered together. The soul pets began to work together and a few consecutive fierce strikes by Mo Xie were unable to kill a single high class commander.

This situation allowed the prisoners to finally let out a large sigh of relief. However, these seventh rank prisoners had been terrified and stunned by Mo Xie's free-movement abilities and forgot about Chu Mu and Ye Qingzi's other soul pets!

"Qin, scatter them!!" Chu Mu gave the Binding Wind Spirit an order!!

The Binding Wind Spirit's small body had not been noticed by anyone. Added on its Wind Walk technique, this wind type monarch with terrifying destructive power was capable of bringing a powerful wind type destruction force!!

"Hu hu hu hu hu!!!!!"

Chaotic wind whistled as a violent wind gradually began to billow around the Binding Wind Spirit!!

The stream of air began to surge and countless air streams gathered together, resembling the charge of a hundred beasts or the surge of an enormous ocean wave!!

"Hu hu hu hu hu~~~~~" the chaotic wind's surge practically lifted up the ground and the black colored wind force constituted intense batterings against the prisoners that had gained order!!

The seventh rank prisoners still technically had general fighting knowledge and when they received the wind attack, they defended their original position. The defensive type soul pets stood at the front to withstand this force!

Only, even if they were able to form a defense, it was unable to prevent the slightly weaker and wounded high class commanders from being knocked flying by the Binding Wind Spirit's powerful gale!

The Binding Wind Spirit's technique still hadn't ended when the prisoners soon suffered from the Ice Fire Demon Fairy's ice fire dual attacks!!

As for the Devil Tree Battle Soldier that had been assisted by the Water Moon's two supporting techniques, it slowly arrived before its wood type group fighting abilities caused heavy damage to the prisoners!!

There were not many seventh rank prisoners and their soul pets remaining. When the Binding Wind Spirit, the Ice Fire Demon Fairy and the Devil Tree Battle Soldier entered the fight, the high class commanders scattered and were devastated by these three soul pets all possessing group fighting abilities.

"Qingzi, have your Water Moon and Nest Wood Spirit restrict the other three peak commanders!" Chu Mu used soul remembrance to speak to Ye Qingzi.

The Water Moon and Nest Wood Spirit were both helping Mo Xie and the War Court Black Beast. With their existence, Mo Xie and the War Court Black Beast didn't need to worry about evasive fighting and could fight the peak commanders directly head on.

Ye Qingzi nodded her head and immediately had the Water Moon and Nest Wood Spirit use restricting abilities.

Chu Mu didn't need to say anything and Ye Qingzi knew which three peak commanders to restrict. Soon, the Nest Wood Spirit's roots binded two of these peak commanders while the Water Moon used Water Moon Waterfall on the other peak commander, causing its physical strength to greatly decrease!

"Mo Xie, Five Inferno Foxes!!" Chu Mu's words carried imposing killing intent.

Mo Xie already knew of her master's intentions. Her long silver fur began to flutter wildly as she used her illusion technique once again while running sleekly forth!

Five illusions appeared and among them was hidden Mo Xie's real body!

These five illusions respectively appeared in all five directions of the peak commander. Forty five tails flew forth and even if this peak commander's abilities were stronger, it could not dodge forty five nimble fox tails!!!

“Wu wu wu wu!!!!” Mo Xie let out a cry as a signal and immediately, the five Nine Tail Inferno Foxes rushed away in all five directions!

Forty five chain-like silver fox tails went taut together. Such force and pulling strength ripped apart the peak commander's entire skeleton as a clear bone-chilling sound rang out!

Four of the eighth rank prisoners were completely stunned as they stared with incomparable terror at the body of the peak commander that reached six meters...

They only saw this enormous creature open its mouth to muster a cry before the pulling force terrifyingly spread to its throat, transforming its roar into a whimper.

Finally, this peak commander turned into a boneless piece of flesh that dangled onto the ground. An extremely miserable death!

Instakill!!

Mo Xie's strongest technique had instakilled a peak commander! Immediately the wilderness was filled with the sound of stunned silence!!

Outside the battlefield, Shang Heng's face was filled with astonishment as he stared at Chu Mu's demonic, savage and tyrannical Royal Flame Nine Tail Inferno Fox. He couldn't even stop his jaw from dropping.

“Could... Could it be that this is Chu Mu's true strongest soul pet?!” Shang Heng had never seen Chu Mu summon a Nine Tail Inferno Fox to fight. Yet, the shocking strength this Nine Tail Inferno Fox displayed caused Shang Heng to abruptly think of this!

Shang Heng no longer knew what words to use to describe Chu Mu. This was because he never would have expected that in the previous grade-surpassing challenges, Chu Mu had unexpectedly hidden his strongest soul pet!

“Young Lady Ye, the Nine Tail Inferno Fox, the Binding Wind Spirit and the Devil Tree Battle Soldier. These must be Chu Mu’s main pet formation, right?” Shang Heng was a bit excited as he asked.

Ye Qingzi merely let out a faint laugh, but didn’t say anything.

Very clearly, Shang Heng didn’t understand much about Chu Mu. With what Ye Qingzi understood about Chu Mu, his main pet formation didn’t include either the Binding Wind Spirit or the Devil Tree Battle Soldier...

Moreover, Ye Qingzi was sure that before long, Chu Mu’s three main pets would display themselves in front of true experts, causing those aloof and arrogant young competitors that looked down on Chu Mu to turn pale with fear!

That would be the time when Chu Mu truly shocked everyone!!

Chapter 512: 16 Prisoners, All Exterminated

Top tier monarch ranks and tenth phase ninth stage middle class monarch rank was similar, yet Mo Xie was a full two ranks higher than them. With the powerful support of Wood Tray Spirit and Water Moon, Mo Xie could easily deal with even three top tier commander ranks!

Very quickly, another top tier monarch rank was thrown away by Mo Xie’s tail. Under the effects of the nine majestic tails’ Nine Tail Dragon Obliteration, it completely lost all of its fighting strength. The eighth rank prisoner couldn’t do anything but clench his teeth and retract his soul pet!

One against all of them!

The four eighth rank prisoners’ faces were already steely. Beforehand, the disheveled leader thought he could handle Chu Mu alone. However, as the battle continued, more than a half of the twenty-some soul pets had died, of which a few seventh rank prisoner died under the savage attacks of the three soul pets as well.

And now, the only thing they could truly rely on was the four top tier commander ranks.

“Ah!!!!!!!!!!”

Suddenly, a sharp scream sounded. The disheveled leader turned around to immediately find an eighth rank prisoner fallen on the floor, his hand separated from his body, shooting blood out.

Beside this prisoner, the top tier commander rank that War Court Black Beast originally fought with had fallen on the floor. A deep gash cut this top tier commander rank from neck to hip!

The top tier commander rank had already died, but the wound in it was still being eroded by dark energy. Its muscles and bones slowly dissolved into black blood that oozed out of the wound!

“Another.....another dead!!” The disheveled leader’s face permanently turned black. Three top tier commander ranks were killed, and the remaining three commander ranks couldn’t possibly match up!!

“The opponent has two support type soul pets that can heal. We’ve fought against them for so long, yet none of his soul pets are heavily injured!” The other eighth rank prisoner’s tone became very weak, without any fighting intent anymore!

The prisoners had a total of twenty one soul pets. The terrifying Thirteen Inferno Hells fell down and killed four while heavily wounding three. One technique caused them to lose seven soul pets. Three of their wing type soul pets were restricted by Ting Lan, while the rest of the eleven soul pets were all wounded to a certain extent. This caused many to instantly be killed by Mo Xie and the mysterious War Court Black Beast!

The Prisoners were previously only relying on a numbers advantage. However, as the amount of soul pets continued to decrease, and with seventh rank prisoners constantly being killed, they were slowly becoming utterly defeated!

Shang Heng came quite late. He originally wanted to fight even while he was wounded. After all, the prisoners had a numbers advantage. However, when he arrived there, the battlefield’s situation no longer needed him. His mission changed to dealing with the escaping seventh rank prisoner that lost two soul pets!

The battle in the air with Ting Lan neared completion too. Two of the three wing type soul pets had their wings snapped by her soul pet.

Looking down from above, Ting Lan could see the black figure that rode his royal flame nine tail inferno fox. She watched Chu Mu, a man that was cold and apathetic as he darted through between these prisoners.

The remaining two top tier commander ranks could no longer cause any obstruction to the ultimately swift Mo Xie. Now was the time for Mo Xie to kill!!

A total of twelve seventh rank prisoners. Just as Chu Mu said, Chu Mu didn't view these prisoners as people. No matter if they were fallen on the ground or still riding wounded soul pets, whenever Chu Mu and the Nine Tail Inferno Fox appeared, a prisoner would face a miserable death under its savage claws!!

“Ah!!!! Ah!!!!!!!!!!!!!!!!!!!!!!” Screams rang through everyone's ears. Not long ago, the prisoners' malevolent and wicked laughs were still echoing beside her ears, almost causing her to lose her reason. However, now, these prisoners got their deserved punishment, all slowly accepting their deaths in terror as their torturous laughter became frightening screams!

And this all was because of the man who had completely released his killing aura.

Before seventh realm, Ting Lan always thought Chu Mu's strength was at most similar to herself and Shang Heng. However, now she finally saw the true power of this bloodied man who constantly trained in the wild!

What Ting Lan, Li Zhan, and Shang Heng saw as difficult prisoners now became insignificant life forms that Chu Mu could kill with ease. The prisoners still alive were all shadowed with death. They were all soul pet trainers that lived over thirty years. With their understanding of the young generation, it was almost impossible for someone that could beat all of them to appear.

Yet, they still ended meeting this abnormal young man. As a result, they were being slaughtered like pigs!

“Why did it turn out like this, we had so many people...” The eighth rank prisoner that lost two of his top tier commander ranks looked as if he had lost his mind as well, staring blankly at the corpse-ridden grounds.

Just ten minutes ago, this prisoner was still fantasizing about the female soul pet trainer's attractive body. Ten minutes later, his head was filled with nothing but fear, without the energy to escape because of his damaged soul!

“Shi!!!!!!!!!!!!!!!!!!!!!!” A silver figure strangely passed by this eighth rank prisoner’s body. This eighth rank prisoner seemed to get startled. He lifted his head up and only saw the black clothed man’s emotionless eyes on the Nine tail Inferno Fox. A coldness came from his neck, prompting the eighth rank prisoner to touch it, just to discover that unceasing blood was spurting out!

“Wu~en~~~~” His throat was cut open, converting his cries of pains into gargles.

Very quickly, this eighth rank prisoner opened his eyes wide and fell down, completely dying!

Four eighth rank prisoners, they only had two left. The eighth rank prisoner leader’s face twitched with a terrible expression.

He knew that he no longer had a chance to win, so he viciously glanced at the other prisoner. While this eighth rank prisoner’s top tier commander rank was being attacked by Mo Xie, he suddenly turned around and ran towards this prisoner in an attempt to escape!

The prisoner that made Ting Lan most angry was the prisoner leader. The other leaders could be let go, but this lead prisoner that killed and mocked Li Zhan definitely couldn’t escape.

Seeing as the leader was about to escape, Ting Lan quickly rode his wing type soul pet downwards towards the eighth rank prisoners.

“Let me.” Ye Qingzi told Ting Lan with soul remembrance.

Ting Lan’s wing type soul pet was already heavily injured and may not be a match for the top tier commander rank. This eighth rank prisoner was also very sly, so Ting Lan could fall for something easily.

Ting Lan didn’t force herself this time, simply riding her wing type soul pet high above the eighth rank prisoner’s head.

Seeing that Ting Lan didn’t dive down, the eighth rank prisoner’s face twitched again. Clearly, the plan of baiting the wounded Ting Lan to come down and taking her as hostage fell through.

After Ye Qingzi's War Court Black Beast dealt with the other two top tier commander ranks, it became a black blade that caught up to the escaping eighth rank prisoner in mere seconds!!

"You thought, I, Pang Xu was this easily killed?" The eighth rank commander shouted angrily. Suddenly, the top tier commander rank he was riding was enveloped in a beast type aura as its muscles expanded, nearly ripping through skin!!

"Nong!!!!!!!!!" This top tier commander waved its powerful arms and slammed them heavily towards the running War Court Black Beast!

"Beng!!!!!!!!!"

This beast had rock type energy. When its arm fell down, the beast type energy created multiple rock spikes that reached nearly a hundred meters in radius!!

The War Court Black Beast was already hard-pressed to dodge, so it was quickly shocked away by this beast type and rock type energy. Its body was shaken at the same time the rock spikes pierced its skin!

"Heng, want to kill me, Pang Xu? Go back and train a few more years!!" Pang Xu laughed coldly, preparing to turn around and run away without regard for the other eighth rank prisoner's life.

Yet, just as Pang Xu turned around, he went stiff with cold sweat!!

Wearing black, riding the nine tail inferno fox that was brandishing its tails wantonly, when did this man, who could cause the evil-doing eighth rank prisoner's soul to tremble, appear on his escape path!!

Eyes like cold daggers stared right at him. Pang Xu's tricks maybe could trick Ting Lan and Ye Qingzi, but he knew that no matter what he did, it wouldn't escape this terrifying man's eyes!

Mo Xie's pupils weren't staring at the muscular beast, but instead her eyes were on the ground!

The top tier commander rank with secondary rock type didn't actually get more powerful. The body on the surface was just a species ability, rock body, created by this top tier commander rank to hide its true nature!

Such a disguise couldn't escape Chu Mu's scrutiny!

"Mo Xie." Chu Mu commanded lightly to Mo Xie.

"Ding~~~~"

Mo Xie's body suddenly disappeared. With barely any time, she could raise her speed to the max, and this speed also caused her offense to be at its peak!!

"Phantom!!" Mo Xie's body turned into five bodies, each burning with raging flames as they ran in a misleading fashion!

"Royal Flame Claw!!!!!!"

Five claw marks flashed from above towards the ground, ripping through the surface!!

"Shishishishishi!!!!!!!!!!!" The five royal flame claws ripped five massive marks out on the hard ground, reaching over a hundred meters in length!

Under the cracks, one could clearly see blood welling outwards. Very quickly after, two flames started burning this top tier commander rank's body and blood. Clearly, underground was where this top tier commander rank's true body resided.

Eighth rank prisoners' leaders also didn't escape Mo Xie's Royal Flame claw. He was like his soul pet, first getting his body ripped open before being burned by two types of flames!!

"Ah!!!!!!!!!!!!!!!"

Screams continued to sound. The eighth rank prisoner didn't die immediately after Mo Xie's attack, meaning he had to withstand the burning of the royal flame and die by fire instead!!

Chapter 513: Chu Mu is just too Truthful

Seeing the last prisoner die in agony under Chu Mu's Nine Tail Inferno Fox's flames, Ting Lan still remained emotionless.

No matter how many prisoners were killed, it couldn't calm her heart down. It couldn't revive Li Zhan either. Thinking of that, she quickly rode her wing type soul pet towards the massive hole, wanting to dig Li Zhan's corpse back up.

Chu Mu didn't say much, picking up all the prisoner rings that were dropped from the prisoners.

Eight eighth rank prisoners, twelve seventh rank prisoners, it was a total of x hundred million gold!!

"Qingzi, qingzi!!" Suddenly, Ting Lan's worried sound came.

"What's up?" Ye Qingzi asked.

When they were in soul palace, Ye Qingzi and Ting Lan met. Ye Qingzi accompanied Ting Lan to Lin Yin Sacred Region, and Ting Lan also helped Ye Qingzi gather a lot of materials that soul palace didn't sell.

"Li Zhan, Li Zhan, he seems to still be alive!" Ting Lan's voice had irrepressible joy!

Ye Qingzi paused for a second before running to where Ting Lan was, bringing her Water Moon and Nest Wood Spirit.

Ting Lan currently was telling her soul pet to take the rocks off of Li Zhan's body. Very quickly, a rotting corpse of Li Zhan appeared under the dirt.

Very thankfully was, Li Zhan's skull was perfectly wedged in the gap between two large rocks, protecting his head.

When Ye Qingzi and her soul pets ran over, Ting Lan already dug Li Zhan out.

In front of Li Zhan was countless bloody armor pieces. These armor pieces came from one of Li Zhan's defensive armor beast's body.

This armored beast's body was no longer visible. Clearly, it had been pulverized in the wave of attacks from the prisoner. Perhaps it was this armored beast's sacrifice that let its owner live by the skin of his teeth.

Li Zhan's body was rotting away very heavily. Two of its arms were nearly shattered, while there was a huge hole in his right chest. A little more to the left, and Li Zhan's heart would definitely have been smashed.

Li Zhan's body glinted with a very weak starlight, coming from the effects of the eighth rank soul armor.

"His soul is currently dissipating." Ye Qingzi said with a grave face. The gleam of a soul armor meant that one, the armor was completely shattered, but also that the soul was dying. After all, the soul was attached directly to the armor.

Ting Lan's eyes reddened once more, only able to stare at Ye Qingzi and hope she could save Li Zhan.

Chu Mu and Shang Heng also walked over. Chu Mu saw the terrifying wounds on Li Zhan's body.

Under normal circumstances, such wounds would definitely have killed him. However, Li Zhan's life force was surprisingly tenacious, refusing to die even today.

"I need to let my pet use its Soul Healing Stamen to heal it." Even Ye Qingzi couldn't guarantee that Li Zhan could be saved. After all, the wounds on Li Zhan were too strong. Many places still need long term treatment to fully recover. After having such a series of heavy blows on his body, being able to live to now was a miracle on its own.

After saying that, Ye Qingzi retracted Nest Wood Spirit into her soul pet space and summoned her flower type soul pet Bell Noise Concubine.

Bell Noise Concubine was caught by Chu Mu when defeating the Ancient Devil Tree in Forest Yuan. Ye Qingzi needed this flower type soul pet, so it became her soul pet.

Bell Noise Concubine had almost zero offensive capabilities as it was the purest healing and support type soul pet. Its healing strength was even stronger than Water Moon, especially in terms of soul damage.

“I’ll look around nearby to see if there are any hidden dangers. Having such a large group of prisoners together is very abnormal.” Chu mu said.

On saving people, Chu Mu couldn’t help much, so standing there was no use.

“Be careful.” Ye Qingzi nodded. After speaking, she cast her incantation and gathered a soul technique to stop Li Zhan’s soul from dissipating.

“Wuwuwuwu~~~~~” After the battle finished, Mo Xie’s body’s burning royal flames slowly died down as she became a smaller body. She leaped onto Chu Mu’s body, eight tails draping down from Chu Mu’s shoulder while the last one wrapped around Chu mu’s neck. Staying in pitiful appearance could save Mo Xie some stamina as well as let her recover faster. Also, little Mo Xie loved staying on Chu mu’s shoulder, either taking a nap or staring alertly at her surroundings.

Prisoners were mostly split up by the competition staff into different times and places. Teams like Cai Ji were already a sizeable magnitude.

Yet, adding on the ones that Shang Heng, Li Zhan, and Ting Lan before, there were nearly 20 prisoners. This many prisoners gathered together was almost unstoppable, but such a phenomenon was also very strange.

“To be able to gather this many people, does it mean that there is one man powerful enough to suppress all of these prisoners? Or else, with these prisoners’ nature, how could they gather near 20 people?” Chu Mu guessed.

Prisoners were all selfish. With twenty people together, reducing everyone’s sentences would mean taking down nearly 100 contestants, which was nearly impossible. So, the only reason they would do this was for one person. This quickly made Chu Mu remember the bodies a few days ago on the mountain path. Could it be because of that mysterious prisoner?

These twenty prisoners were all average in strength. At least, none of them were more powerful than Cai Ji. Yet, Chu Mu specially searched around but didn’t find any traces of this prisoner. It looked like he wasn’t a part of these prisoners.

Of course, if these prisoners all gathered together because of this person, he must be nearby. He either didn't know what had happened with such short notice, or he knew the competition guard was nearly there and didn't dare to get near.

Making sure the nearby is safe, Chu Mu very quickly walked under the previous gap.

When Chu Mu came back, Ye Qingzi's basic treatment of Li Zhan was already complete. What surprised Chu Mu was the tenacious Li Zhan actually woke up slowly.

"He ate a lot of self-strengthening soul items, so his life force was much stronger than a normal soul pet trainers'."

His soul was in a very weak state. My Bell Noise Concubine can only heal his soul slightly. To truly heal him and make him leave danger, he must be served Soul Healing Stamen as well as Soul Supporting Nectar....." Ye Qingzi said to Shang Heng and Ting Lan.

Ting Lan heavily nodded. Seeing Li Zhan slowly open his eyes, her throat was too choked up to speak, unable to stop her tears.

Li Zhan wasn't too conscious, but seeing Ting Lan fine, he very barely smiled palely.

Quickly after, Li Zhan seemed to have remembered something and said in a very weak voice, "Those.....prisoners....."

"Don't worry, all those prisoners were killed by Chu Chen." Shang Heng laughed.

"Chu.....Chu Chen?" Li Zhan said weakly.

"Yes, Chu Chen and Ye Qingzi saved us..." Ting Lan said.

Li Zhan's expression may have been very stiff, but he could still see the shock in his eyes!

Li Zhan, of course, didn't know why Chu Chen had such strength and was able to kill this many prisoners. One has to know that Li Zhan didn't even see Chu Chen as real competition before this incident!

Soul Palace second tier true experts were Fang Ze, Luo Bing, and Li Zhan, where he was ranked third. Almost no one could shake that. If Chu Chen and Ye Qingzi could kill this many prisoners, it meant that Chu Chen very likely was at the level of young master Fang Ze.

“You, why did you come to save us?” Surprised at Chu Mu’s strength, Li Zhan was even more confused. Even as another soul palace member, he didn’t need to send himself into danger for a half-alive man against so many prisoners. After all, this was battle of the realm, where similar faction members ultimately ended up as enemies too.

Once Li Zhan asked this, Ting Lan’s teary eyes also looked at Chu Mu. this was already the second time Chu mu had saved her, and thanks were not enough to represent her gratitude for Chu Mu anymore.

“This is just Chu Mu’s character! As well as Soul Palace’s goals and mission. No matter if it is Battle of the Realms, if teammates are in danger, he would definitely help...” Shang Heng laughed and patted Chu mu on the shoulder.

Chu Mu brushed it off and said lightly, “Four eighth rank prisoners, twelve seventh rank prisoners, adds up to 1.4 billion gold. I need a large sum of money to strengthen my soul pets.”

Shang Heng heard Chu Mu’s light-hearted description and stared blankly. Could it be that the only reason Chu Mu helped was because of this group of prisoners’ rings?

Ting Lan also stared wide-eyed at Chu Mu.

Ting Lan found that Chu Mu just had one big weakness.....He was too truthful!

Even if it were for a large sum of money, he didn’t need to say it out loud. Just like last time, when he pulled a Binding Wind Spirit back, if he didn’t say he wanted the soul pet, Ting Lan would definitely be very grateful for Chu Mu’s actions.

Ye Qingzi also laughed lightly and said to Chu Mu with soul remembrance, “Why not take both fame and riches? I heard Ting Lan say you were like this too.....” Chu Mu tilted his head over to the smiling Ye Qingzi and smiled naturally, “Other than you, who would I help without condition.....” “Stupid.” Ye Qingzi blushed and looked away from Chu Mu’s spirited eyes.

“Huhuhuhu~~~~~” A messy wind flow came down from above, covering them in a massive shadow.

“The competition guard is here.” Shang Heng lifted his head, immediately seeing the silver armor of the guards.

Seeing the ground filled with corpses, the competition guards showed confusion too. He quickly let his wing type soul pet land in front of Chu Mu and the others.

“You killed all of them?” The competition guard asked with surprise.

There were nearly 30 soul pets’ corpses here, and they were all tenth phase commander rank. With just them, they killed this many soul pets. Even the competition guard wasn’t certain he could face that many at once by himself!!

#### Chapter 514: A Sign of Mo Xie Evolving (1)

“We have someone wounded here and needs saving. Can I trouble this guard brother to bring him off of Heavenly Life Mountain.” Ting Lan pointed at the incomparably weak Li Zhan as he spoke.

The eighth realm breakthrough was already Ting Lan’s limit and she only wanted to bring Li Zhan back to Soul Palace right now, then have Soul Teacher De take control over his situation.

The competition authority guard saw Li Zhan and didn’t say anything as he hastily jumped off of his wing type soul pet and brought him back onto his soul pets’ backs.

“My wing type soul pet can only hold one person and if there are too many, it will affect its balance and speed. I’ll bring him off the mountain first and have someone immediately heal him.” said the competition authority guard.

Ting Lan and Shang Heng both wanted to give up on the realm breakthrough, but they knew that Li Zhan needed healing the most. Thus, they nodded their heads and let the competition authority guard take Li Zhan off the mountain. They all watched the competition authority member lift off smoothly and quickly head down the mountain.

“Let’s leave too.” said Chu Mu.

Chu Mu felt that there was a high chance this expert prisoner was nearby so if they stayed here, they could very well encounter him.

Chu Mu didn't want to fight with someone too strong at this time. This would only waste his fighting strength so he promptly had his Devil Tree Battle Soldier use its roots, creating a climbable ladder of roots up the lofty hundred meter layer...

The most headache inducing part of the stone rampart was that there was no way to place one's foot to climb. After the Devil Tree Battle Soldier's roots, it was much easier to reach the top.

"Chu Chen, we plan on giving up, so there's no need to hold you back." Ting Lan saw that Chu Mu wanted to bring them forward so she spoke to him.

Many of Shang Heng's soul pets were heavily wounded so there was not much point in them continuing to fight, so he didn't plan on doing so.

"There's a very strong prisoner nearby. If you guys continue to stay here, if the other competition authority isn't able to make it in time to bring you away, your lives will be in danger." Ye Qingzi explained in place of Chu Mu, "So you should leave with us first."

"Then we'll be troubling you again." Ting Lan nodded her head.

At night, the competition authority member carrying passed through the fog in between the mountains and flew to the bottom of the mountain.

This competitor was wounded very badly and needed healing as soon as possible. Therefore, this competition authority guard didn't take his time at all.

After flying for nearly half an hour, a golden figure suddenly appeared in front of the competition authority guard.

The competition authority guards were split into different ranks. Golden armored competition authority guards were even stronger while silver armored competition authority guards were slightly weaker. This was normally determined from their position in various large factions.

“What’s the matter?” the golden armored man riding on his wing type soul pet saw the silver armored guard hastily flying down the mountain.

“Some competitors were attacked by a large group of prisoners and were wounded. They need to be healed. At the fault location are another two competitors that want to withdraw from the competition. If you keep going on this path, you can reach there and bring the wounded competitors off the competition battlefield.” said the silver armored guard.

“What people are they?” asked the golden armored guard.

“They’re Soul Palace people. I saw Soul Palace’s Young Lady Ting Lan and also Soul Palace’s Chu Chen whose reputation has been extremely high recently.” said the silver armored guard, “Saving this person is pressing so I’ll head down the mountain first.”

“Ok, go ahead.” the golden armored guard nodded his head.

After the silver armored guard brought Li Zhan away, the face underneath the golden armored guard’s helmet suddenly turned cold!

This man’s face was pale and he looked tired and sickly. However, his eyes were as sharp as a hawk, especially since they were flashing with hate right now. He looked especially terrifying!

“Back then, if it wasn’t for the pseudo emperor rank Blue Galactic Demon Emperor’s existence, even if you were able to transform into a half devil, I, Xia Guanghan, would still have been able to crush you. Now, I want to see what sort of abilities you have to contend against me.” the golden armored man revealed a smile.

In this period of time, he had continuously flown in the air in order to find Chu Mu among the competitors. Right now, he finally found a trail and he would definitely not let Chu Mu leave!!

This competition authority guard wearing gold armor was Xia Guanghan!

Back in the demon’s home, Xia Guanghan hadn’t dared summon his true main pets. However, his incomparably precious Yellow Corpse Sand Dragon with fighting strength reaching the high class monarch rank had been killed by Chu Mu!

The Yellow Corpse Sand Dragon was only at the seventh phase back then, but if it hadn't died then, it probably would have reached the tenth phase by now. Furthermore, if he had used all the expenses that he had used to heal himself on strengthening the Yellow Corpse Sand Dragon, Xia Guanghan probably could have possessed a tenth phase peak monarch by now!

With a tenth phase peak monarch, Xia Guanghan's position would be on a completely different level. However, all of this, because of the fight in the demon's home, and his soul pets with extremely high fighting strength had been killed by Chu Mu!

By now, Xia Guanghan had already recuperated, but he only had three main pets now. Nonetheless, these three main pets were his true strength!!

“Wu wu wu~~~~”

A small Mo Xie vigorously jumped out from in between the craggy rocks, agilely jumping back to Chu Mu's side.

“There are two prisoners?” asked Chu Mu.

“Wu wu wu~~” the small Mo Xie adorably nodded her head.

Chu Mu had a total of 2.4 billion now, but this amount of money still wasn't enough. Since more prisoners had appeared, he naturally would take their lives!

“You guys rest here, I'm going out.” Chu Mu said to Ye Qingzi, Ting Lan and Shang Heng.

After being healed by Ye Qingzi's soul pets, Ting Lan and Shang Heng's wounds had recuperated by half. The two of them hadn't suffered soul injuries so if their soul power and soul pet wounds were able to recover, they would still have extremely strong fighting strength.

It was already late into the night. Ye Qingzi had her Bell Noise Concubine lay a few hypnosis traps in the surroundings that weren't easily detectable. This was to defend against enemies sneaking near.

“You guys rest. This place should be relatively safe.” said Ye Qingzi.

Shang Heng nodded his head and exhaustedly sat to one side as he began to rest. Ting Lan also began to rest to one side with her soul pets. Having undergone much shock, excitement and sadness, she really did need a deep sleep to recuperate.

To the other side of the mountain, Chu Mu expressionlessly stepped on the corpses of two seventh rank prisoners, removing the rings from their fingers.

Adding on the rings from these two prisoners, Chu Mu had collected billions of funds.

According to his estimations, it would be a few days later when the prisoner and competitor numbers reached a certain amount. If Chu Mu wanted to continue obtaining prisoner rings, he would have to steal them from competitors.

When that time came, the battle would evolve into a competitor against competitor fight!

After dealing with the two prisoners, Chu Mu began to head back.

“Wu wu wu~~~~~” suddenly, the small Mo Xie let out a strange cry, indicating that Chu Mu should come over.

Chu Mu walked forward and quickly discovered a bit of sticky secretion underneath a rock. It looked like the fluids from some bug type soul pet.

“Why do I feel like it resembles the secretion from Gluttonous Insect Monsters?” Chu Mu muttered to himself.

Chu Mu had essentially spent a long period of time interacting with Gluttonous Insect Monsters. The smell from this secretion was in Chu Mu’s memories and he was silently curious. Perhaps there was someone in the eighth realm that possessed the rare yet terrifying Hundred Mothers soul pet?

“It’s already a bit dry. It seems to have been here for a while now.” said Chu Mu.

“Wu wu wu~~~~~” the small Mo Xie adorably nodded her head.

“Let’s go back first and let them prepare a bit in their hearts. If it really is Gluttonous Insect Monsters, they have camouflage abilities and we need to be extra careful.” said Chu Mu.

When Chu Mu returned to his area of rest, he spoke of the Gluttonous Insect Monsters to Ye Qingzi.

Ye Qingzi knit her brows. The Gluttonous Insect Beasts really were a group of difficult to deal with things. Especially because of their camouflage abilities. Just the slight amount of carelessness and one would be instakilled.

“The prisoner controlling the Gluttonous Insect Beasts shouldn’t be here right now. Summon your Purple Robe Dream Beast eh. If something strange emerges, it should be able to detect it in time.” Chu Mu said to Ye Qingzi.

Ye Qingzi nodded her head and recalled the slower Ice Fire Demon Fairy, summoning the Purple Robe Dream Beast.

Ye Qingzi’s Purple Robe Dream Beast was much stronger than Chu Mu’s Night. Chu Mu right now was the primary attack force and the Night Thunder Dream Beast wasn’t suited to intense fights. Therefore, Chu Mu hadn’t summoned it.

Ye Qingzi gave soul power medicine to Chu Mu and said to him: “This will allow your soul power to recover twice as fast. If you silently cultivate tonight, you’ll be able to recover all of your soul power.”

Chu Mu took the soul power medicine, but quickly felt that there was some slight signs of pulsing in his soul power. Promptly, he sat down against a rock.

“Wu wu~~~~~”

If Chu Mu was silently cultivating, the small Mo Xie would always naturally jump into Chu Mu’s embrace and fall into a deep sleep. However, this time Mo Xie wasn’t like that; instead, she jumped onto the Devil Tree Battle Soldier’s body with much energy.

“Chu Mu, your small Mo Xie has seemed very lively recently.” Ye Qingzi sat next to Chu Mu and with a bit of a smile in her eyes, watched the small Mo Xie.

Chu Mu opened his eyes and discovered that the small Mo Xie had mischievously ran over to the head of Shang Heng's Thunder Sword Wing Lion. He bitterly laughed as he said: "Yes, she hasn't been sleeping at all. Before, she used to only eat and sleep..."

The Thunder Sword Wing Lion's body was tall and mighty. However, the small Mo Xie was too fast and it couldn't throw her off. It could only helplessly allow the small fox to pull on its flamboyant fur.

"When a relatively strange phenomenon appears in a soul pet, it's always the sign of something special. You should pay a bit more attention to it." Ye Qingzi reminded.

"The sign of something special?" Chu Mu rubbed his chin as he began to ponder.

Speaking of this, it had been a long time since Mo Xie had mutated. Moreover, Chu Mu remembered Old Li telling him back when Zhan Ye had fallen into the abyss, Mo Xie's state had been extremely strange!!

#### Chapter 515: A Sign of Mo Xie Evolving (2)

Chu Mu had been in a state of unconsciousness then so hadn't known what sort of abnormal state Mo Xie had been in.

Mo Xie, come here." Chu Mu called over Mo Xie who was full of energy over to his side.

The small Mo Xie waved her tails and agilely jumped into his embrace. She purposefully used her fluffy body to brush against Chu Mu's cheek...

"Are you about to mutate?" Chu Mu brushed the small Mo Xie's ear as he asked her.

According to Chu Mu's estimations, Mo Xie should not have been far from mutating. After all, she had last mutated in Jia City which was a few years ago.

"Wu wu wu~~~"

Mo Xie let out a quiet cry and looked at Chu Mu with a blank face.

“When Zhan Ye erupted in strength that day, Old Li said your mental state was very strange?” asked Chu Mu.

“Wu wu wu wu wu~~~~~” Mo Xie used her remembrance to communicate with Chu Mu.

Mo Xie told Chu Mu that when Zhan Ye had fallen into the abyss, she really had felt some change in her body. This change was somewhat similar to when she had mutated back then.

When Zhan Ye had sacrificed himself, Mo Xie’s emotions had been greatly affected. This had even intensely forced her mutation because only by mutating could she defeat the Ten Thousand Legged Centipede to defeat Zhan Ye.

However, she hadn’t successfully mutated then because when she reached the edge of mutation, she felt some mental restriction.

“Are you saying that when you had the feeling mutating, you didn’t succeed?” Chu Mu asked in astonishment.

“Wu wu wu~~~” Mo Xie indicated that she didn’t know why, but it seemed that some condition hadn’t been met.

Chu Mu knew that Mo Xie’s next mutation had a definite chance of allowing her to step into the peak monarch or even pseudo emperor level. Therefore, if Mo Xie most recently had signs of mutating, then this indeed was something that was worth Chu Mu getting very excited over.

If Mo Xie mutated, then Chu Mu would definitely dare enter the tenth realm and contend with the defector young woman puppet!

However, since the mutation hadn’t succeeded, this caused Chu Mu to have a headache.

Mo Xie’s mutation normally originated from herself before mutating. The first time she had received an intense stimulus, Mo Xie had transformed into an Evil Flamed Six Tail Demon Fox.

As for the second mutation in Jia City, after Mo Xie’s six tails had been frozen, this had seriously angered Mo Xie’s honor, so adding on the original strength accumulation, this had pushed Mo Xie

past the perfect warrior rank limit into the perfect commander rank level, making her strength comparable to a monarch rank.

Afterwards, the fights became more frequent and Chu Mu had continuously hoped that Mo Xie would be able to mutate again, especially in Tianxia City where the enemies were numerous.

Most recently, Mo Xie's state had been slightly abnormal, especially after the seventh realm. Mo Xie must have realized that her middle class monarch fighting strength rank was unable to truly fight against enemies and attempted to mutate...

However, why did she fail?

Mo Xie's previous mutations had never shown signs of failing and normally after the impulse to mutate, her soul would change. Immediately after, her strength would rise as her species mutated. A pseudo mutation situation like the one in the centipede abyss like last time had occurred before.

"Young master, what are you wondering in your heart?" Old Li who was hidden in Chu Mu's spatial ring asked.

"Yes." Chu Mu nodded his head.

Chu Mu hadn't told Old Li of Mo Xie's continuous mutation ability and Chu Mu was presently hesitating whether to do so or not.

"There's nothing I, Old Li, don't know of!" Old Li's voice carried a rather confident smiling expression behind it.

"Regarding species mutations, how much do you know?" Chu Mu asked.

"This... young master, you really do know how to find questions to ask. It's always questions normal people can't answer." Old Li bitterly laughed as he spoke.

"Tell me what you know." said Chu Mu.

“Species mutations occur extremely rarely and always appear on soul pets with abnormal talent. Abnormal talent refers to attack rank that always surpasses a higher species level than normal. Scholars have joked that soul pets with mutating bloodlines are creatures mistakenly born into the wrong body. Although this is a joke, it does carry a bit of logic to it because soul pets with mutating bloodlines normally have much higher talent than their species normally does. If it were to solely change its body, it would pretty much become a higher rank creature.

Species will ultimately be limited by their own species rank. For instance, a servant rank creature will not be able to increase its fighting strength rank to the emperor rank no matter how much it is strengthened. Only through species mutation can it truly break through its life tower.” Old Li quickly began to spit out a lot of information.

“What is a life tower?” Chu Mu asked in confusion.

“A life tower cannot be seen, but it will always exist. A life tower is a concept, yet it is also a natural law. All living things must abide by this law of life.”

“This law of life is described in the form of a tower. Starting from the bottom layer are small life forces without any ability to fight. In truth, it’s not that they have no ability to fight, it’s just that they’re too weak. So weak that they’re neglected by you humans.

They are the weakest layer of creatures, but they comprise an enormous amount. Above them are servant rank creatures.

Servant rank creatures have the greatest number of species in the entire world. You humans have had civilization for several thousands of years and have recorded probably millions of servant rank species... remember, its seven million types of species! There are many instances when one servant rank species encompasses million and millions of soul pets!

Although servant rank are the weakest, they play the most important role in developing the long river of history. This is because the so-called warrior rank, commander rank, monarch rank and even emperor ranks have evolved out of one of special physiques of the millions of servant rank species.” said Old Li.

After Old Li finished, Chu Mu was stunned and in a bit of shock, shocked: “The ranks after the servant rank have evolved out of servant rank soul pets??”

“Yes, most of them are like this. Warrior ranks will appear because amongst an enormous servant rank group some soul pet with an extremely special constitution will emerge. These soul pets are the creatures with the so-called mutating bloodline!

It is these soul pets that will mutate from the servant rank to the warrior rank. Same species soul pets will reproduce and the moment a warrior rank soul pet appears, it is predestined to become the king of this species. You probably understand the concept of survival of the fittest. As long as a few special cases emerge, in the subsequent number of years, the warrior ranks will also transform into an enormous life system.

The moment warrior rank soul pets become enormous system, there will always be one warrior rank that will be able to species mutate. Thus, a commander rank soul pet will appear. The subsequent monarch and emperor ranks also follow this logic.” Old Li rubbed his beard and spoke in high-spirits.

“The higher the rank is, the stronger they will be after being born. Thus they will be even more suited to surviving in this world. Doesn’t this mean that servant ranks will eventually die out?” asked Chu Mu.

“You’re wrong about that. The life tower has created this ranking system while also allowing for the existence of mutations. Thus, you can be sure there are limitations. There is no creature that is perfect and I can tell you with full confidence that emperor rank soul pets may not even be the opponent of servant rank soul pets.” said Old Li.

Emperor ranks not being the opponents of servant rank soul pets?

What kind of madness was this? This was completely contrary to common sense!

“Aren’t you mixing the two up?” Chu Mu asked Old Li.

“Of course not. You humans often only look at soul pets individually because you only possess individual soul pets. However, putting it in the life tower, if all of the servant rank soul pets and emperor rank soul pets were to fight, the ones that would lose would be the emperor rank.” Old Li saw that Chu Mu had been confused by his words, but he seemed rather proud.

“Nature also has another critical law: reproduction rate. Emperor ranks have the strength to destroy and can annihilate several tens of thousands of creatures with their individual strength. However, they are severely restricted in their abilities to reproduced. Let’s assume that 100 million servant

rank soul pets are equivalent to an emperor rank soul pet in strength. Do you think that 100 million servant rank soul pets are more likely to appear or an emperor rank soul pet? You must know that in one region, there are nearly 100 million servant rank creatures, but does each region contain an emperor rank soul pet?” said Old Li.

“This macro conception is something I’ve never thought of before. Mutations establishing the soul pet system has surprised me quite a bit...” said Chu Mu.

After speaking, Chu Mu suddenly thought of something and asked: “Wait, what about the Emphyreon Cyan Hidden Dragon’s situation...”

“That is split reproduction. Its split-off descendents are weaker in rank than itself. Emphyreon Cyan Hidden Dragons are predestined creatures. I’ll talk to you about predestined creatures in the future. They’re similar to the bug type Hundred Mother, Devil Ant species and Demonic Wasp species since they can all split reproduce.” said Old Li.

“Ok, then bringing back the main question, I want to know what kind of restricting criteria there are for a mutating bloodline soul pet to mutate.” Chu Mu wanted to know how to make Mo Xie mutate the most right now.

As for the incredibly holistic view of the world Old Li had spoke of and the so-called life tower, this was a bit too abstract and distant for someone like Chu Mu who was also a human in this indistinct life tower.

“The most important thing is mutating bloodline. The moment it fills the criteria, it will be able to mutate.” said Old Li.

“Then what if I had a mutating bloodline soul pet and it was in a state of near mutation. What do I have to do?” asked Chu Mu.

“That’s easy: fight. The moment this soul pet realizes its strength isn’t enough and has the pressing need to increase its strength in the course of a fight, its soul and heart will be impacted and it has the highest chance of mutating then...”

Of course, if your own rank is too low, the soul pet cannot mutate. Soul pacts are able to restrict soul pets about to mutate in order to prevent them from growing too strong and dealing a mental blow to their master.”

After Old Li finished speaking, Chu Mu's expression immediately changed!

It was then that Chu Mu abruptly realized: Mo Xie's mutation had failed because his soul remembrance was too low!!

## Chapter 516: Gluttonous Insect Monster, Ninth Rank Prisoner

If soul pets were too much stronger than soul pet trainers, they could show signs of betrayal and defect.

So, when soul pet trainers trained, they often started by controlling the lowest level servant ranks, before slowly growing up along with their soul pets.

No one could control overly high ranked soul pets at spirit servant stage, even if they had high rank soul pets available.

Because of this, large factions had very strict restrictions for their young generation members. Every soul pet trainer had to train themselves instead of simply getting high rank soul pets from others. Large factions could only give these young generation members the environment for high rank soul pets.

Chu Mu's own strength grew very quickly. This was because Chu Mu had great talent himself, excelling in soul remembrance even when he was very young. On another hand, he was constantly stimulated by the defector young woman and White Nightmare, both high ranking soul pets, causing Chu Mu's soul remembrance to constantly be pushed to grow.

It could be said that most middle aged generation experts were still spirit masters. Those who leaped into spirit emperor usually become a respected and dominant character of their own territory.

Able to reach fifth remembrance spirit master at such an age, Chu Mu was probably the only one in second tier.

Yet, Chu Mu never would have thought that even with his superior soul remembrance, it was still too low for Mo Xie, even limiting Mo Xie's ability to species mutation!

“Old Li, if my Mo Xie could mutate, then do I have to reach spirit emperor before she can do it?” Chu Mu opened his mouth to ask.

Mo Xie’s species mutation could raise her to top tier monarch, or even pseudo emperor rank. If it truly became pseudo emperor, wouldn’t Chu Mu want to be soul emperor? That’s a very far away event.

“No need. Your Mo Xie is already perfect commander rank. The next mutation might just be perfect monarch. Perfect monarch is still monarch rank, so you would only need to reach seventh rank spirit master, or in other words, go from middle remembrance to high remembrance and you will be fine.....young master, you should be a little more realistic though. Your little fox had already mutated once in Western Kingdom. It was already extremely rare, and it won’t mutate again.” Old Li said.

“So they only need to be seventh remembrance!!” Chu Mu thought to himself happily. He was currently between fifth and sixth remembrance, and only needed a few nights of meditating to reach sixth remembrance.

Once at sixth remembrance, he would only be one rank from seventh remembrance. That meant that the moment he took that step, he would own a soul pet that could match pseudo-emperor rank soul pets!!

Before, Zhan Li Kingdom’s kingdom master’s strongest soul pet was just a pseudo emperor. If Chu Mu became seventh remembrance, he would be able to own a soul pet that could compete against anyone!

.....

Thinking about how Mo Xie was near mutating to pseudo emperor, Chu Mu’s heart was overwhelmed by emotions, causing his confidence to surge during his meditation as well. He wanted to take this opportunity to break through the fifth remembrance and reach the realm of sixth remembrance.

Sixth remembrance to seventh remembrance will be another large gap. Unless one of Chu Mu’s soul pets’ strengths grew explosively, he would need a few months just like how he took a few months from fourth remembrance to fifth remembrance. At that time, the Battle of the Realm would be over.

Chu Mu changed soul pets, and also casted a very strong soul power depleting eighth rank soul technique. He had used up near half of his soul power. Now that Chu Mu's soul remembrance was stronger, he would need at least four days to recover it all. The depleted half would need about two nights of meditation.

It was here that Ye Qingzi's soul power medicine had a distinct effect. With the recovery speed of these, he could replenish all of his soul power by daylight.

Seeming to be stimulated by Ye Qingzi's soul power medicine, when Chu Mu's soul power slowly reached full capacity, his soul power remained on the rise!

"There's hope!" Chu Mu's heart lifted. He immediately concentrated his soul remembrance in his soul to try to elevate his soul.

A vibrant blue slowly emitted from Chu Mu's body. Sitting beside, Ye Qingzi quickly noticed Chu Mu's abnormality.

"About to elevate?" Ye Qingzi said to herself.

Immediately, Ye Qingzi pulled out another soul power medicine from his spatial ring.

This soul power medicine was made just for soul pet trainers in a promotional status. If taken while breaking through, it could greatly increase the success rate.

Ye Qingzi opened this opened up his deep blue medicine flask and said to Chu Mu with her soul remembrance, "Drink this, it will help you improve."

After saying that, Ye Qingzi fed the bottle to Chu Mu's mouth.

Chu Mu very mechanically opened his mouth. Ye Qingzi held Chu Mu's neck lightly, and slowly poured the medicine into Chu Mu's mouth.

Chu Mu was in a meditating state and couldn't split his attention to control his body. So, this medicine had to naturally flow down his throat into his stomach.

After Ye Qingzi fed Chu Mu this soul remembrance medicine, she carefully wiped Chu Mu's mouth corner and watched attentively at Chu Mu, thinking of something.....

Ye Qingzi's medicine acted on the body, and then transmitted to the soul. Chu Mu indeed felt a great aid, pushing himself towards sixth remembrance!

.....

Dawnlight spilled down, lighting the smooth rocks with gleams of light.

Chu Mu's body's blue glow started slowly dissipating in this morning light as he opened his eyes slowly.

The first thing that he saw was a few locks of supple hair. Chu Mu tilted his head slightly and found that Ye Qingzi had unknowingly nestled herself by his side, sleeping silently.

Ye Qingzi and Chu Mu's habits were similar. They would enter meditation in night and truly sleep for an hour or two near daybreak.

Ye Qingzi slept very soundly, as if leaning on Chu Mu's shoulders meant she had nothing to worry about, and she could sleep steadily.

A ray of sunlight fell down and lit up Ye Qingzi's beautiful face. Fully asleep, she didn't have her usual cold, collected self, but instead showed a gentle girl's sleeping expression, cute yet charming. Watching at such a close distance, Chu Mu stared for a long while.....

Ye Qingzi wasn't a strong sleeper. As the sunlight fell on her intricate face, she also slowly opened her eyes.

When she opened her eyes to see Chu Mu staring at her with a mischievous smile, Ye Qingzi immediately felt shy as her face turned red, becoming even more beautiful under the rising sun.

"You succeeded?" Ye Qingzi lowered her head and asked very quietly.

“En, I was a step away originally and needed a few extra days. Your special medicine helped me greatly.” Chu Mu laughed and said.

“That is soul liquid, able to improve the soul remembrance.” Ye Qingzi said.

“I’m currently sixth remembrance. Is there any soul liquid that could let me reach seventh remembrance in a short period of time?” Chu Mu’s eyes brightened and asked.

“If you want a medicine that could make you seventh remembrance right after you became sixth remembrance, it is very difficult to find. However, there are supporting soul liquids. If another one of your soul pets have a huge increase in strength, it is still quite likely.” Ye Qingzi said.

“Can you make such medicine, and what soul items do you need?” Chu Mu asked. Such an expensive medicine definitely required many materials.

“I made a flask myself. If you really need it, I’ll give it to you first.” Ye Qingzi opened her spatial ring and pulled a crystal red flask of soul liquid out and handed it to Chu Mu.

Chu Mu stared blankly and opened his mouth, “This took you awhile to make, didn’t it?”

No matter the soul power medicine or soul liquid, they were both things that couldn’t be bought with money. Especially the soul liquid that could raise a soul pet trainer’s soul remembrance, it was something ninth remembrance soul teachers would definitely pay fortunes to help them become soul masters. So, such medicine’s preciousness was something Chu Mu recognized.

“Don’t worry, I can make more.” Ye Qingzi smiled lightly.

“Qingzi, you’re always so good to me, I’ll feel bad. I haven’t given you anything.....” Chu Mu looked into Ye Qingzi’s eyes and said.

After Chu Mu left the demon home, he shouldn’t have used half devil anymore, yet he used it twice more. The after effects of these two half devils were both alleviated by Ye Qingzi. Or else, after this long, Chu Mu’s burning soul would definitely have made him crazy.

Ye Qingzi heard this and instead started feeling embarrassed, so she murmured, “Everytime you meditate, just have one drop, having too much.....will have negative side effects.”

“En. Qingzi, don’t worry, I will get your teacher’s will.” Chu Mu felt that this was the only thing he could help Ye Qingzi with, or else he couldn’t continuously take all of her costless support.....

“Don’t force it.....” As Ye Qingzi said it, she suddenly realized the change in her attitude. Before, she desperately hoped that Chu Mu could get her teacher’s will. After all, the things inside were truly important. However, now, she instead felt she didn’t want Chu Mu to risk himself for it.

Ye Qingzi knew that Chu Mu would definitely put his all towards something he wanted to do. However, there were many experts in second tier. She moreso hoped that Chu Mu could act within his ability.

“As long as some people didn’t obstruct me, second tier experts are something I can handle.” Chu Mu said seriously.

Chu Mu naturally meant Xia Guanghan and the defector young woman. These two people were Chu Mu’s true enemies. As for second tier experts, Chu Mu still had lots of hope to prevail over them.

“Hui~~~~hui~~~~~”

Ye Qingzi was just about to say something else when her Purple Robed Dream Beast suddenly let out a cry. This cry was very urgent, clearly alerting them of danger approaching swiftly!!

Chu Mu immediately stood up and broadcasted his sixth remembrance soul master remembrance outwards!

At sixth remembrance, Chu Mu’s remembrance was much stronger than the purple robed dream beast, able to detect a further range as well.

Very quickly, Chu Mu noticed that under the sunlight, a group of special organisms were squirming.....

Yet, when Chu Mu looked over, he couldn’t see any of these things!!

Chapter 517: Gluttonous Insect Monster, Ninth Rank Prisoner (3)

“It’s Gluttonous Insect Monster! Ye Qingzi!” Chu Mu became alarmed. Of all the organisms Chu Mu knew about, only the Gluttonous Insect Monster could become invisible like this.

In fact, lower ranking Gluttonous Insect Monsters could only hide in darkness completely. Only powerful Gluttonous Insect Monsters could hide in daylight.

“Ting Lan, Shang Heng, wake up, there are enemies near.” Chu Mu immediately woke up the overly tired Ting Lan and Sahng Heng.

Ting Lan and Shang Heng were both suddenly roused. They nervously summoned their soul pets and told them to get into fighting state.

Shang Heng’s Thunder Sword Winged Lion let out a heavy breath, sending lightning sizzling around the area, creating a ten meter radius lighting field. With a single command from Shang Heng, this lightning field will send out countless lightning shocks towards enemies.

But, Shang Heng was prepared, except when he looked around, he couldn’t see any enemies. The surrounding was still empty.

“Chu Chen, where’s the enemy?” Shang Heng very carefully asked Chu Mu using his soul remembrance.

“Tell your Thunder Sword Winged Lion to retract its lighting field, and act as if it just woke up. They have the ability to be invisible. Your detection is just too weak to find them.” Chu Mu quickly told Shang Heng with his remembrance.

Shang Song stared blankly. It was the first time that he had heard of an organism that could completely hide itself. He immediately did as Chu Mu told, letting Thunder Sword Winged Lion retract its lighting power and act as if it were stretching out.

Ting Lan didn’t speak, simply staring worriedly at Chu Mu. Her three soul pets were all fast asleep beside her. Their soul pet wounds had recovered a lot over one night of rest, except they were all too tired. In their sleep, none of them realized the danger Chu Mu was speaking of.

“There are about three, high class commander rank Gluttonous Insect Monsters. We must instantly kill them.” Chu Mu said to the other three with soul remembrance.

Gluttonous Insect Monsters’ appearance meant that the Hundred Mother was near as well. If they let one Gluttonous Insect Monster go, then a huge group of Gluttonous Insect Monsters may come over!

“Qingzi, can your Bell Noise Concubine’s Hypnosis Trap hypnotise one?” Chu Mu asked.

“It can’t be completely hypnotized. At most, it will be mentally dazzled for a second.” Ye Qingzi replied.

“A second is enough. Ting Lan, Shang Ting, listen to my command. Let your soul pets gather their techniques. Once the Gluttonous Insect Monster falls into the trap, immediately attack it!” Chu Mu said.

Shang Heng and Ting Lan both nodded. They both couldn’t see the unknown soul pets, so they were anxious. However, seeing the calmness and seriousness in Chu Mu’s eyes, they quickly calmed down and waited for Chu Mu’s command with a grave face.

“Mo Xie!” Another one would naturally be dealt with by Mo Xie.

Without moonlight, Mo Xie’s strength would be weakened. Chu Mu specially told Ye Qingzi’s Water Moon to cast Advent of the Demon Moon.

In daylight, Advent of the Demon Moon could only raise Mo Xie’s power by one rank. So, Mo Xie was but two ranks higher than the high class commander rank Gluttonous Insect Monster.

However, Chu Mu’s had confidence in Mo Xie’s speed and fighting strength, confidence that she wouldn’t let that Gluttonous Insect Monster go.

Furthermore, even if Mo Xie couldn’t instantly kill it, Binding Wind Spirit could still attack from afar, making them unable to escape death.

The final one, Devil Tree Battle Soldier could definitely distract it. No matter how fact the Gluttonous Insect Monster was, once it lost its invisibility, it couldn't possibly run from a plant world soul pet's limitless root attacks.

The three Gluttonous Insect Monsters slowly neared.

The Gluttonous Insect Monster's paws were very special. When they moved, their claws were completely retracted into their meaty pads, causing almost no sound to be made even when they ran.

The Gluttonous Insect Monster's front limbs were very long, while its back limbs were powerful. They were lanky like a monkey. Its pair of eyes bulged out from its nose bone. When they looked for prey, one could clearly tell its pupils were turning. Once they locked onto prey, their eyeballs would also become vicious and terrifying.

At this moment, three Gluttonous Insect Monsters locked onto Chu Mu's Devil Tree Battle Soldier. Devil Tree Battle Soldier stood on the outer side. Just around the rock were Chu Mu and all the other soul pets.

None of the three Gluttonous Insect Monsters realized that there were many soul pets behind the rocks. The reason they advanced so riskily was just to ambush Chu Mu's Devil Tree Battle Soldier.

"Gluttonous Insect Monsters are very hungry organisms. They will constantly hunt and feed it to the Hundred Mother. The more food the hundred mother gets, the more it can split and reproduce. Its a very terrible loop. No one knows how many Gluttonous Insect Monsters the fellow controlling the Hundred Mother has right now." Ye Qingzi said in a very light voice.

Hundred Mother was incredibly hard to deal with. If they couldn't find the original body, no matter how many Gluttonous Insect Monsters they killed, there wasn't much meaning.

"En, seems like we've met a very hard to deal with prisoner. Get ready." Chu Mu said.

Ye Qingzi immediately gave Bell Noise Concubine a command, letting it cast Hypnotizing Flower Powder.

The hypnotizing trap was already set up. One of the Gluttonous Insect Monsters stepped on a seemingly very normal rock, which suddenly triggered a flower vine that sprouted upwards, releasing powerful hypnotizing pollen!

“Si~~~~~” The Gluttonous Insect Monster immediately let out a strange sound, but the sound was abruptly cut in half!

The Thunder Sword Winged Lion, two Lin Yin Beasts, Star Phoenix Butterfly Tail, these four soul pets, finished their techniques simultaneously. Immediately, four ninth rank techniques mixed together, directly piercing through the rocks, heavily slamming towards the hypnotized Gluttonous Insect!!

“Bengbeng!!!!!!” The Gluttonous Insect Monster didn’t make any move to defend or block it. Very quickly, the four streams of energy blasted into it, causing its skinny body to be torn into shreds!!

The other two Gluttonous Insect Monster jumped away in time to dodge the flower vines. However, when the energy blast came, their bodies were still flipped over, falling to the rock cracks on each side.

Mo Xie was already there in ambush. Her body started burning with royal flames, quickly turning it into a Royal Flame Nine Tail Inferno Fox. She swiftly dashed upwards and very accurately swiped her claws through the Gluttonous Insect Monster!

The Gluttonous Insect Monster swiftly turned in the air, barely dodging Mo Xie’s lethal blow. It landed in the rock cracks covered in blood and actually swiftly bounced back up, wanting to escape to the rock faces.

“Binding Wind Spirit!” Chu Mu commanded.

The binding wind spirit’s wind tornado technique had long been completed. Just as the Gluttonous Insect Monster was about to escape, a finger-sized hollowness appeared, suddenly creating an extremely powerful wind flow that forcefully pulled the escaping Gluttonous Insect Monster back!

“Shiga!!!!!!!!!!”

Mo Xie again leaped upwards. This time, her claws didn’t err. It cut through the Gluttonous Insect Monster’s hip and neck position, cutting the Gluttonous Insect Monster into three parts!

These three bloody corpses were quickly pulled in by the Binding Wind Spirit's wind tornado, causing it to be shredded!

On the other side, the Devil Tree Battle Soldier's roots were already around the last Gluttonous Insect Monster. Ye Qingzi's War Court Black Beast swiftly leaped out, slashing the Gluttonous Insect Monster's four limbs off with its black bone blade and rendering the last Gluttonous Insect Monster unable to escape. The Devil Tree Battle Soldier finished it with life force absorb!

The three Gluttonous Insect Monsters were almost instantly killed. Ting Lan and Shang Heng stared at the pile of mincemeat, and couldn't say anything for a while.

Both of them could only sense their presences after they became corpses. They started to worry secretly. If not for Chu Mu sensing these things preemptively, they wouldn't even be able to know if they were killed by these beings.

"Chu Mu, how did you sense them? You clearly didn't summon any mentally powerful soul pet." Shang Heng walked to the three corpses and asked.

Just as he finished speaking, the Gluttonous Insect Monster's corpse excreted a strange black liquid, causing Shang Heng to hastily step back in fear.

"Don't worry, that's its ability, not poison." Ye Qingzi said.

It was Shang Heng's first time seeing such a strange creature, so his eyes naturally fell on Ye Qingzi as he asked questioningly, "Can you detect them as well? Why can't Ting Lan and I detect anything?" "I can't detect them. It was my dream beast that alarmed me. This Gluttonous Insect Monster's invisibility is much stronger than the ones we met before. Only Chu Mu could detect them." Ye Qingzi explained.

"Chu Mu, what remembrance soul master are you?" Ting Lan started asking curiously. She feels that Chu Mu could always predict many things that they couldn't foresee.

"I just reached sixth remembrance." Chu Mu didn't hide it.

"Sixth remembrance!!" Ting lan and Shang Heng both opened their mouths, surprised at the news.

“Don’t speak of this anymore, let’s leave here first. The person that controls the Gluttonous Insect Monster is nearby.” Chu Mu

Just after Chu Mu finished, his brows creased and he quickly turned around, watching a rock gravely about two hundred meters away.

The rock spiraled upwards in a snake-like fashion. On top of the fifty meter rock was a grey clothed decrepit man sitting there breathlessly, watching them with disinterested eyes.

This man seemed to have been sitting there for a long while. Chu Mu felt that he even watched as his three Gluttonous Insect Monsters were killed!

“Let me introduce myself. I’m called Duan Xinze. To you young generation members, I’m a nightmare of a prisoner.” The man smiled wickedly. “From what I know, the ninth rank prisoner ring can be exchanged for 1 billion. I, Duan Xinze, am this 1 billion you players are looking for- the only ninth rank prisoner. I seem to be the highest honor of eighth realm or something. It’s a pity that in this eighth realm Battle of the Realm, no one will be able to get the highest honor because everyone will die!!”

#### Chapter 518: Ninth Rank Prisoner, Duan Xinze

“Duan Xinze!! Could this fellow be the egregious Duan Xinhe’s younger brother?!!” Shang Heng looked at this man in shock.

Duan Xinhe was high up on the list of wanted prisoners. All of his soul pets had originally been killed, and he had ended up with his dying breaths in a small city.

As for Duan Xinhe’s young brother, Duan Xinze, he had been locked up in prison. Shang Heng never expected this savage and evil prisoner to appear in the eighth realm’s realm breakthrough round!

Chu Mu coolly stared at this prisoner. There were a total of four of them, and even if Duan Xinze’s strength was higher, he still could not gather enough strength to defeat the four of them.

“You two young ladies, don’t be worried. Although I, Duan Xinze, have committed many evils, I will treat you two beautiful young ladies extremely, extremely, tenderly.

Of course, the precondition is that you don't make me angry. I get angry very easily, and when I do, I don't know what I'll end up doing." Duan Xinze jumped down from the tall rock and landed steadily on the other rock.

He began to break into a walk and slowly moved towards Chu Mu.

He was a skinny man, and his eyes were playful but evil. He also wore a fake smile. Ting Lan could feel his eyes scan her body and she had this indescribable feeling of discomfort and eeriness. It seemed as if her body wasn't covered by any clothes.

Duan Xinze had come alone, and seemed to want to face Chu Mu and the other three's soul pets dozen or so soul pets alone.

Ting Lan, Shang Heng, and Ye Qingzi couldn't see the Gluttonous Insect Monster, but Chu Mu could see that around Duan Xinze were countless faintly discernible silhouettes!!

This was a large group of Gluttonous Insect Monsters. These things had come along with their master every step of the way, and the moment the order was given, the twenty Gluttonous Insect Monsters would immediately launch themselves at the four of them!

"Open the medicine, and have the competition authority guards come." Chu Mu used soul remembrance to speak to Shang Heng.

"Chu Chen?" Shang Heng didn't know why Chu Mu wanted to suddenly do this.

"Do as I say. This ninth rank prisoner's strength wasn't limited by the competition authorities so I'm not sure for the moment if his Hundred Mothers is capable of continuing to reproduce. We only have to fight for ten minutes. If in these ten minutes, he still has other Gluttonous Insect Monsters, we must have the competition guard authorities take action." Chu Mu said to the two of them.

Shang Heng looked at Chu Mu, and saw that he was speaking very earnestly. He promptly didn't hesitate and opened the medicine bottle, releasing the smell.

"There's no use. The competition authorities need ten minutes before they arrive. Within the ten minutes, your soul pets will all be dead and, at that time, I'll hand over you and your cut off tongues

with your soul remembrances sealed to the competition authority guards. Then, I'll hide the two beautiful women and wait for the competition authority guards to leave before slowly cultivating feelings with them." Duan Xinze didn't care about Shang Heng's actions at all.

Chu Mu stood in front of the three of them and coldly said: "You're exactly like your older brother, Duan Xinze. Before fighting, he said the exact same trash."

"Duan Xinhe? You've seen him?" Duan Xinhe raised his eyebrows and showed a shocked expression.

"Yes, I saw him." Chu Mu calmly said.

"I'm very curious, since you've seen him, how are you still alive?" Duan Xinze was full of interest as he asked his question.

"Because the one who died was him." Chu Mu's tone turned ice cold, and his eyes became fierce!!

Mo Xie stood next to Chu Mu, and her two silver pupils locked onto the tenth phase pseudo monarch rank Gluttonous Insect Monsters next to Duan Xinze!

The Devil Tree Battle Soldier's roots had already laid around Chu Mu in a hundred meter range earlier. In a group fight, the Devil Tree Battle Soldier didn't have anything to fear, even in front of twenty Gluttonous Insect Monsters!

After listening to Chu Mu's words, Duan Xinze's smile on his face froze, and his eyes slowly turned dark.

"Who killed him?" Duan Xinze slowly asked.

"Me. Aside from the arrogant and delusional nature, your brother had no other abilities." said Chu Mu.

"Haha, what a joke. Relying on your small creatures, you wanted to kill him? When his strength was at its peak, only your Soul Palace's Palace Lord level of people could be his opponent. Even if all his soul pets were killed, his Thousand Mother could have destroyed you. Easy as flipping ones hand." Duan Xinze suddenly laughed. It seemed like he didn't really believe Chu Mu's words.

When Chu Mu had encountered Duan Xinhe, all he possessed was a Hundred Mother and his strongest Gluttonous Insect Monster was merely at the ninth phase. Chu Mu never expected that Duan Xinhe once had a Thousand Mother.

The Thousand Mother innately was a monarch rank soul pet, but if its fighting strength rank was exceptionally high, the Gluttonous Insect Monsters it split off could likely instantly reach the tenth phase full state.

It was no wonder Duan Xinze could have created so many tenth phase Gluttonous Insect Monster pawns. It seemed that this fellow possessed the Thousand Mother, which was even more terrifying than the Hundred Mother!

“Young master, his Gluttonous Insect Monster probably have already formed order. Moreover, his Thousand Mother innately has extremely powerful fighting strength. If he summons the Thousand Mother, fighting him like this will probably end in great injuries for you.” Old Li warned Chu Mu.

“His Gluttonous Insect Monsters are very fast and number very many. Undoubtedly, fleeing would be even more dangerous. We must kill a few first. Also, this fellow’s head is worth 1 billion. It’s more worth it to fight and if we can’t beat him, there’s still the competition authority guards. They will be able to arrive within ten minutes.” said Chu Mu.

Duan Xinze had a total of twenty Gluttonous Insect Monsters which were, for the majority, at the high class commander. Only three had reached the peak commander rank. Such strength was slightly lower than the other prisoners’ soul pets. Of course, these things ultimately still had the ability to berserk; this made it harder to deal with.

Right now Shang Heng, Ting Lan, and Ye Qingzi had enough fighting strength. The four of them, adding together their soul pets, had 15 soul pets. As long as they coordinated, it probably wouldn’t be too hard to deal with Duan Xinze.

Since he chose to fight, Chu Mu wouldn’t shrink back. Chu Mu promptly chanted an incantation and used the Thirteen Inferno Hells!

Thirteen Inferno Hells was capable of dealing a heavy blow to the Gluttonous Insect Monsters. This would make the fight even easier.

The nine underworld devil flames began to slowly burn in Chu Mu's hand as the Thirteen Inferno Hells required two seconds of chanting time!

“Wu wu wu wu~~”

Mo Xie's body also began to burn with royal flames as she began to brew a two layered flame effect eighth rank fire type technique!

“Do you think that with this measley distance you'll be able to finish such a long incantation?” Duan Xinze was much more acute than the other prisoners, and immediately saw that Chu Mu was using an eighth rank fire technique. Thus, he immediately pointed his two hands forward!

Immediately, two peak commander Gluttonous Insect Monsters flew forth at rapid speed, not giving Chu Mu the chance to finish his incantation. Their fierce claws fiercely swiped at Chu Mu and Mo Xie!

Ye Qingzi knew of the importance of Chu Mu's incantation, and promptly had her Water Moon and War Court Black Beast stop the two peak commanders.

However, the fight had been triggered due to Chu Mu's incantation and immediately, all of the Gluttonous Insect Beasts launched ruthless attacks at Chu Mu and the three others.

Ye Qingzi's two peak commanders came to block for Chu Mu, but the Gluttonous Insect Monsters were too fast and, within a second, they had made their way into the four peoples' soul pets with their ruthless claw attacks.

Chu Mu had finished his incantation, but he couldn't release his technique because if he did, his soul pets would also be hit!

“Don't use such a boring trick. Obediently, let your soul pets become my Gluttonous Insect Monsters' prey!” Duan Xinze coldly laughed.

When Chu Mu began chanting his incantation, Duan Xinze knew that he was going to use the fire technique, Thirteen Inferno Hells. If his Gluttonous Insect Monsters were gathered together, he truly could have suffered serious injuries.

Unfortunately, his Gluttonous Insect Monsters weren't a bunch of stupid demons and before Chu Mu could use Thirteen Inferno Hells, he had to have his soul pets attack together.

Chu Mu's heart sank. He never expected Duan Xinze to be so crafty. He could only give up on using the Thirteen Inferno Hells, and quickly retreat behind his soul pets to avoid the Gluttonous Insect Monster attacks.

Duan Xinze was very strategic. He knew that elemental world soul pets could deal group damage to his Gluttonous Insect Monsters, so he intentionally had his three peak class commander Gluttonous Insect Monsters draw Chu Mu and the others' attentions before mysteriously arriving two hundred meters away from Chu Mu and the others.

Two hundred meter distance wasn't anything to the Gluttonous Insect Monsters, while to the elemental world soul pets, they probably wouldn't be able to finish an incantation before being charged by the Gluttonous Insect Monsters.

This Duan Xinze had begun weighing up these four people from the very start. Now, all of his Gluttonous Insect Monsters were charging forward. Chu Mu and the three others' elemental world soul pets were now hard pressed to use long range explosive attacks and their destructive power was greatly reduced. They had to fight these strange creatures head on!

"Don't get flustered, don't get flustered. Control your soul pets well. If someone makes a mistake, hahaha, I won't go easy."

Twenty Gluttonous Insect Monsters were controlled by him alone, but the insect monsters coordination with each other was nearly immaculate. After the first wave came, they separated Chu Mu and the three others!

"Qingzi, careful! They're heading towards you!!" Chu Mu suddenly yelled. He agilely jumped onto Mo Xie's back and ran towards Ye Qingzi!

"What a quick response. He knows whose soul pets I'm targeting?" Duan Xinze's eyebrows rose, and he stared at the Royal Flame Nine Tail Inferno Fox agilely passing through the Gluttonous Insect Monsters.

In a fight, if a support type soul pet trainer existed, it would be very hard to harm that side's soul pets.

Duan Xinze's first wave of Gluttonous Insect Monster attacks had been aimed at everyone while the second wave of attack had pointed the blade straight at Ye Qingzi and her soul pets!

Chu Mu had detected this fellow's crafty tactics and hastily rushed to Ye Qingzi's side in support!

## Chapter 519: 0 Mothers, Insect Merge, Gluttonous King

Ye Qingzi knew that the demon type Purple Robe Dream Beast was very unlikely to fully utilize its fighting strength. Promptly, she chanted an incantation, recalling it and summoning the wood type Nest Wood Spirit!

Against these demon and bug type combination creatures, the best option was a plant world soul pet that could simultaneously use techniques. No matter how fast they were, it was impossible to dodge plant world soul pet attacks.

Moreover, the Gluttonous Insect Monsters didn't have very high defense. Although the plant world soul pet attacks were slightly weak, they were enough to deal high damage to the Gluttonous Insect Monsters.

Quickly, Ye Qingzi summoned her Nest Wood Spirit whose roots contained a powerful poison attribute. When three Gluttonous Insect Monsters rushed over, the poisonous roots quickly wiped across the Gluttonous Insect Monsters!

It was a petrifying poison that caused the enemy's movements to grow slower and slower. The longer it was poisoned, it would slowly transform into a stone statue.

These three Gluttonous Insect Monsters had locked onto the Nest Wood Spirit, and knew that they couldn't get closer to Ye Qingzi.

However, evidently, the Gluttonous Insect Monsters attacking Ye Qingzi weren't limited to three. Ye Qingzi could feel that the air currents around her were changing, but she was unable to see them!

Those were the peak commander Gluttonous Insect Monsters, and their camouflage abilities made it so that Ye Qingzi couldn't see them despite being so close!

“Hu hu hu hu hu~~~~”

Suddenly, nine gorgeous flames exploded twenty meters away from Ye Qingzi!

The nine flames erupted into numerous fire blossoms. Under the flickering fire figures could be seen two figures being illuminated by the fire!

“Wu wu wu wu~~”

Mo Xie’s speed suddenly increased, and she passed through the two Gluttonous Insect Beasts blocking the path in front of her. When she reached the flames, Mo Xie suddenly stopped and turned!!

Her nine fox tails burning with royal flames swept forth. It was as if nine majestic long dragons twisting their bodies towards the two peak commander rank Gluttonous Insect Monsters!!

“Gezhi!!!!”

The sound of bone splitting rang out. The two Gluttonous Insect Monsters couldn’t dodge, and were knocked flying several hundred meters!

Ye Qingzi glanced at Chu Mu, and discovered that Mo Xie’s body had wounds from being scratched by the Gluttonous Insect Monsters. Promptly, she gave her Bell Noise Concubine an order.

The Bell Noise Concubine let out a faint noise. Its hands which were full of grown vines, sprouted with two pink colored flower petals that slowly floated onto Mo Xie’s body.

Just like a lily dissolving into water, when the flower petals touched Mo Xie’s wound, the petals disappeared while the claw wounds on Mo Xie’s body fully healed within a few seconds!

The Nest Wood Spirit also possessed life force healing ability. With its existence, soul pets wouldn’t lose fighting strength from wounds worsening. At the same time, life force and life force recovery speed would increase.

The Water Moon possessed detoxification and suppressing mental attack abilities. It could heal both soul and body wounds. With its existence, it would be difficult for soul pets to die.

The Bell Noise Concubine's flower healing abilities were a higher level than the Water Moon's by a level. The Gluttonous Insect Monster's first wave of attacks had caused claw wounds on the majority of everyone's soul pets. However, with its existence, most of their wounds had been healed, rendering the first wave of savage attacks useless.

These three supporting soul pets had completely protected Ting Lan, Shang Heng, and Chu Mu. No matter how many attacks or how savage the Gluttonous Insect Monster's attacks were, the three of their soul pets would be healed. This gave the ninth rank prisoner Duan Xinze a massive headache.

Duan Xinze was very confident in his control of Gluttonous Insect Monster, and adding on their camouflage abilities, it shouldn't have been a problem to instakill the enemies' soul pets.

However, the healing soul pets' existences made instakilling them extremely difficult. After all, these soul pets couldn't be immediately killed and as long as this was the case, they could receive a powerful heal, freeing them from danger.

At this time, Duan Xinze couldn't launch more techniques at these soul pets because even if these young soul pet trainers were stupider, they had to know how to substitute soul pets in to continue fighting.

Duan Xinze had successfully wounded Ting Lan's and Shang Heng's soul pets three times. However, he hadn't actually been able to kill them, giving them the chance to substitute soul pets.

As the battle continued, Duan Xinze's Gluttonous Insect Monsters began to continuously dwindle. The majority of them had died miserably under Devil Tree Battle Soldier's group killing abilities.

When less than half the Gluttonous Insect Monsters remained, Duan Xinze realized that it would be hard to shift the tides of battle. Promptly, he recalled his peak commander rank Gluttonous Insect Monster to protect his surroundings.

"Not bad, not bad. You've killed so many of my soul pets. You guys are much stronger than those previous competitors." Duan Xinze laughed and stared at the high class commander Gluttonous Insect Monsters. However, his face had no expression of anger; instead he was laughing. He seemed not to care about the losses of these high class commander Gluttonous Insect Monsters.

“There are still seven. Get rid of them at once, eh.” Duan Xinze laughed once again.

Shang Heng’s eyes swept over the last seven high class commander and said: “This fellow is mentally ill. He’s urging us to kill his soul pets!”

Ting Lan had an uncomfortable feeling as she fought the Gluttonous Insect Monsters. One reason was because these Gluttonous Insect Monsters were ugly and disgusting, while another reason was because this ninth rank prisoner’s actions were extremely abnormal.

Duan Xinze recalled the last peak commander Gluttonous Insect Monster before unexpectedly actually just watching from the side.

Watching Chu Mu and the others killing the last seven Gluttonous Insect Monsters, his face wore a smile that was hard to read.

Chu Mu creased his brows because Duan Xinze’s actions were too strange. It made his next actions unreadable.

Finally, the seven Gluttonous Insect Monsters were killed, and their corpses slowly disappeared on the battlefield.

“Your actions are truly slow. I was even impatient waiting for you guys.” Duan Xinze then took a few steps towards Chu Mu and slowly said: “Then... let’s begin a new round of these games!”

After speaking, Duan Xinze chanted an incantation!

His chanting speed was extremely fast, and he didn’t give Chu Mu and the others an opportunity to attack!

Amidst a soul pact pattern flashed a demonic glint. Immediately after, the entire pattern transformed into a soul pet’s skeleton. Slowly, blood, flesh and muscles began to construct the physique of a soul pet. Every soul pet had a certain type of physique, even a strange bug type creature.

However, the creature Duan Xinze was summoning was something hard to describe!

It was a ball of flesh floating in the air, which reached a diameter of two meters. On its surface, it was covered by the skin of Gluttonous Insect Monsters, but it proceeded to mysteriously sprout several front limbs, hind limbs, and even heads of numerous Gluttonous Insect Monsters!

This kind of thing gave people the feeling that it was the amalgamation of several dismembered Gluttonous Insect Monsters with no particular sense of order. There was no skull, no body nor any facial organs!

When Ting Lan saw this huge ball composed of disorderly corpses, her face turned pale and she had a nauseous feeling of throwing up.

Ting Lan had little experience in the wild. Although she often read books and understood various types of soul pets, she had never seen such an ugly, nauseating, and strange creature to this extent!

Shang Heng's expression was strange to the extreme. He would have rathered seen a huge pile of corpses in front of him than this deformed creature floating in front.

Ye Qingzi had previously seen the Hundred Mother, and its ugliness was similar to this creature. However, the nausea-inducing extent indicated that this was the Thousand Mother, which was even more terrifying than the Hundred Mother!

"What do you think? My favorite pet is very good at attracting people's fondness." Duan Xinze saw the extremely strange expressions of the four people in front of him. However, he let out a laugh, and used his hand to pat his Thousand Mother.

"Monster." Shang Heng couldn't help but curse.

"How can this be considered a monster? I'll let you guys witness what a true monster is." Duan Xinze let out a loud laugh and gave his Thousand Mother an order.

The Thousand Mother began to wriggle its flesh ball-like body. Suddenly, several cracks appeared on the flesh ball. These cracks made it look like a huge brain with several mouths on it!!

Suddenly, rows of Gluttonous Insect Monster claws began to form hunting teeth that appeared on its mouth. The Thousand Mother's body trembled and in one breath, it swallowed the four peak commander rank Gluttonous Insect Monsters!!

The Gluttonous Insect Monsters had been split off from the Thousand Mother. However, the Thousand Mother ended up eating them!!

The sound of chewing rung out. The four young soul pet trainers instantly had shivers run down their back. The Thousand Mother's mouth could open very wide, and they could see the four Gluttonous Insect Monsters being slowly ground down by its teeth...

"Blegh~~~~~" finally, Ting Lan couldn't hold it anymore in front of such a nauseating seen. With a pale face, she doubled over on the ground and began to throw up.

Not just Ting Lan, even Shang Heng felt that something was coming up his throat. He had never seen such a cruel and disgusting scene.

Ye Qingzi glanced to the side. Her withstanding ability was much stronger than Ting Lan's, but she still didn't dare look on.

Only Chu Mu, after feeling slightly frightened at the beginning, was now staring at the Thousand Mother. He watched the four Gluttonous Insect Monsters being chewed into mush.

"Look at my absolutely artistic masterpiece! Insect Merge! Gluttonous King!" Duan Xinze malevolently laughed. His state of madness was definitely that of a mentally ill person!

The Thousand Mother finally finished chewing!

Suddenly, the warts on its body began to fall off. The blood and flesh dropped to the ground, before unexpectedly slowly forming the body of a Gluttonous Insect Monster!

This Gluttonous Insect Monster's physique wasn't any different than other Gluttonous Insect Monsters. However, when its claws and skins took form, Chu Mu couldn't help but crease his brows. Finally, the Gluttonous Insect Monster's eyes appeared, and when he felt those terrifying eyes, Chu Mu finally understood what Duan Xinze had created!

Duan Xinze had merged four peak commander rank Gluttonous Insect Monsters together, creating an even more powerful Gluttonous Insect Monster!!!!

Chapter 520: Finish battle in a minute

Tenth phase - Middle Class Monarch Rank!!

Four top tier commander ranks combining created a tenth phase middle class monarchs. This was an organism two ranks higher than even Mo Xie!!

Additionally, a tenth phase middle class monarch rank's Gluttonous Insect Monster's invisibility was at its peak. If they couldn't restrict it, everyone's soul pets could get instantly killed by it!

"Four top tier commander ranks should at most make a low class monarch rank Gluttonous Insect Monster. How is it middle class monarch rank?" Ye Qingzi looked at the tenth phase middle class monarch rank with surprise.

This was an organism that could kill even War Court Black Beast instantly. If they were locked onto, they would definitely die instantly!

"The fellow didn't simply combine four top tier commander ranks. Before, after all the high class commander rank Gluttonous Insect Monsters died, the restricted thousand mother basically combined all those high class commander ranks into this one monster. This is the result of more than twenty Gluttonous Insect Monsters' combination. This was also the reason why he wanted for all the high class commander rank Gluttonous Insect Monsters died before he summoned this Gluttonous Insect Monster King." Old Li's voice came.

If all their strengths perfectly stacked and created an even more terrifying soul pet, its fighting strength would definitely be scarier than when they were all split up. From this tenth phase middle class monarch rank Gluttonous Insect Monster, one could tell. This beast could completely rely on its unmatched speed and start a slaughter within their soul pets!

"Bring your soul pets to the back!" Chu Mu very strictly said to the other three.

People didn't dare hesitate, quickly gathering all of their soul pets together and backing off to the back of the battlefield. Their ninth phase soul pets were a full chunk weaker than these Gluttonous Insect Monsters. Once they were caught, they were dead for sure!

Almost just as everyone backed off, the Gluttonous Insect Monster started moving!

Its body swayed once. Almost without any sound, Chu Mu felt a few gusts of sharp wind swipe past, leaving many bloody marks on his body!

Gluttonous Insect Monster's objective wasn't Chu Mu. Chu Mu had Mo Xie and Devil Tree Battle Soldier to protect him, so the Gluttonous Insect Monster probably couldn't prevail.

He attacked Ting Lan's Lin Yin Beast. Yet, other than Chu Mu, no one could make out this organism's attacking intent!!

Chu Mu didn't have time to save them. After all, even Mo Xie couldn't catch up to the Gluttonous Insect Monster's speed now.

Immediately, Chu Mu casted an incantation, retracting the Binding Wind Spirit back into his soul pet space.

Chu Mu casted another incantation, slowly emanating a thick and dark aura!

This darkness slowly gathered around Chu Mu, creating a dark soul pact symbol underneath him!

Inside the dark symbol, a Mo Ye stood, body covered in imposing inky black armor. Its eyes stared tightly at the Gluttonous Insect Monster that attacked Lin Yin Beast.

Although Zhan Ye couldn't see the Gluttonous Insect Monster's actions clearly, he could clearly sense the monster's attack and movement purely based off battle instinct!

The Gluttonous Insect Monster's speed was too fast. Lin Yin beast didn't have any time to react before having its armor ripped to shreds by its long claws, spraying blood everywhere.

Gluttonous Insect Monster was enough to kill in one attack. What was lucky was, Ye Qingzi gave the Lin Yin Beast protection beforehand, allowing the Lin Yin Beast to keep its life!

The reason the Gluttonous Insect Monster attacked it wasn't to kill it, however. The Lin Yin Beast was standing right on the path between it and the death of Ye Qingzi's many support type soul pets.

After hurting Lin Yin Beast, the Gluttonous Insect Monster suddenly switched directions and leaped straight at Ye Qingzi's support type soul pets!

No matter if it were Water Moon, Wood Tray Spirit, or the even lower rank Bell Noise Concubine, the moment they were attacked by the Gluttonous Insect Monster, they would instantly die. In fact, within a minute, if nothing could restrict the Gluttonous Insect Monster's terrifying speed and offensive power, all of Ye Qingzi's three supporting soul pets would die!

Chu Mu's expression became grave. He originally planned on attacking Duan Xinze himself. That way, he could at least force the Gluttonous Insect Monster back over.

However, Duan Xinze still had his Thousand Mother. The Thousand Mother itself had a very powerful fighting strength, and Duan Xinze was incredibly sly. If he successfully evaded danger, then Ye Qingzi's life would be threatened.

"Chu Mu....." Ye Qingzi looked at Chu Mu from afar. The Gluttonous Insect Monster was near, but she still couldn't see the monster's movements clearly. Any longer and her soul pets will truly be all dead. She had to look to Chu Mu for support.

"Don't panic. Block one of its attacks." Chu Mu said to Ye Qingzi with soul remembrance.

After speaking, Chu Mu glanced at Mo Xie, Zhan Ye, and Devil Tree Battle Soldier and said to the three, "One minute, deal with it!"

All three soul pets nodded, eyes full of fighting strength!

"Haha, hahaha, what did you just say..... Did I hear correctly, one minute to deal with my soul pet?" Suddenly, Duan Xinze started laughing arrogantly.

A minute was enough for Duan Xinze's Gluttonous Insect Monster to at least kill Ye Qingzi's three soul pets. In another few minutes, the others' soul pets would probably be slaughtered clean too. In any way, they were dead for sure. Yet, this kid in front of him said he could deal with his Gluttonous Insect Monster in one minute. It was too laughable!

“You big-talking kid, three minutes. I’ll give you three minutes. If you can make sure that my Gluttonous Insect Monster doesn't touch your little girlfriend, I, Duan Xinze, swear that after I kill all of your soul pets, I will not touch her.....” Duan Xinze laughed.

Suddenly, his face changed to a gloomy coldness and continued, “If you don’t do it, then your little woman will face a terrible price for your foolish words!”

Chu Mu started an incantation emotionlessly. Duan Xinze’s words were automatically ignored by him.

Chu Mu knew that if he cast Thirteen Inferno Hells, in the two seconds of channeling, Duan Xinze would definitely escape from the attack range.

This time, Chu Mu wanted to kill Gluttonous Insect Monster, and he had to finish it within a minute because this technique only lasts a minute!

Other Pupil!!!

This technique didn’t need too long. Chu Mu’s pupil started changing and became a demonic silver. Its different eyes started locking onto the Gluttonous Insect Monster’s position.

Sharp Eye!!!

Eighth rank Other type territorial technique! This technique almost didn’t need any incantation. In Chu Mu’s vision, he could already see the Gluttonous Insect Monster. At this moment, the Gluttonous Insect Monster was moving incredibly slow, as if a normal animal was crawling along and attacking.

This special visual effect quickly transmitted to Chu Mu’s three soul pets as well. Mo Xie’s eyes, Zhan Ye’s eyes, and Devil Tree Battle Soldier’s eyes all glazed over with a special mysterious color.

In their eyes, the Gluttonous Insect Monster’s actions similarly became slow.

.....

Ye Qingzi wasn't a helpless soul pet trainer. Her War Court Black Beast could be completely invisible if it weren't moving. While Duan Xinze hadn't noticed her War Court Black Beast, Ye Qingzi told it to leap outwards the moment the Gluttonous Insect Monster King attacked to save her Water Moon successfully.

Chu Mu said she only needed to block one attack. In reality, Ye Qingzi didn't have much means of stopping the Gluttonous Insect Monster's second attack.

Finally, the Gluttonous Insect Monster neared again. Its terrifying speed and invisibility made it seem like it was moving right beside oneself.

It appeared!!

This time, the Gluttonous Insect Monster attacked Ye Qingzi herself. Ye Qingzi's feeling of it nearing her wasn't an illusion!!

Ye Qingzi could only rely on her instinct now. She had the Water Screen Armor of Water Moon and the Natural Wood Armor from Wood Tray Spirit. She wasn't sure, however, if these defenses could stop the Gluttonous Insect Monster's next attack!

“Sou!!!!”

Suddenly, Ye Qingzi heard footsteps. Her gaze immediately locked onto the sound, and she decisively told the Wood Tray Spirit to send its roots into the ground as an attack!

However, when Ye Qingzi saw the incoming soul pet, she quickly stopped wood tray spirit's attack because the footsteps weren't of the Gluttonous Insect Monster King's, but of the Mo Xie that was running over!

Mo Xie appeared beside Ye Qingzi and opened up its nine tails into a nine tailed fan. With one heavy sweep, she heavily slammed it beside Ye Qingzi!!!

Gluttonous Insect Monster dodged Ye Qingzi's War Court Black Beast and was just about to attack from that angle. However, its intentions were discovered by Mo Xie, who was the only one to

barely catch up. If the Gluttonous Insect Monster King had walked half a step further, it would have been heavily slammed by Mo Xie's tail!

“Sisi!!!!!!!!!!” Gluttonous Insect Monster let out an angry call, actually choosing to charge directly into Mo Xie's nine burning tails, letting Mo Xie slap it!

The Gluttonous Insect Monster King was very crafty. Using Mo Xie's tails, it instantly switched directions and jumped straight at Zhan Ye, who was quickly approaching!!

“Heng, I'll count you lucky that you could see through my intentions. However, even so, you will have to pay the price of your soul pet's death. This Mo Ye's life will be taken by me first!!” Duan Xinze said coldly.

The Gluttonous Insect Monster flew above Zhan Ye. With Zhan Ye's speed, even if it could detect the Gluttonous Insect Monster's intentions, dodging will be difficult.....

“Sha!!!!!!!!!!!!!!”

A claw that could instantly kill most soul pets swiped past Zhan Ye's body, a complete frontal assault. This claw hit was even enhanced by a technique of Gluttonous Insect Monster, able to instantly kill even those with ninth phase middle stage defense!!

Duan Xinze smiled. A ninth phase fourth stage beast Mo Ye couldn't possibly stop such attack. Unable to deal damage to the female soul pet trainer, killing this small soul pet wasn't a bad deal either.

Yet.....

Duan Xinze's smile slowly stiffened.

That was because the Gluttonous Insect Monster's attack only left a shallow mark on the Mo Ye!! Not to even mention instakill, the wound wasn't even medium-sized!!
