

## Soul Pets Bk2 531

### Chapter 531: The Fight on Heavenly Life Mountain's Peak, Clash of Factions

As the eighth realm of the Battle of the Realm continued, even more competitors withdrew from the competition and flew on wing type soul pets five hundred meters up in the air.

These people had been eliminated, but they didn't want to leave. Instead, they would rather watch the competition from far away!

The number of prisoners was decreasing, and more and more prisoner rings were falling into the hands of the competitors. Further, the prisoners that managed to eliminate five competitors would be sent off of Heavenly Life Eastern Mountain.

Therefore, the number of people on Heavenly Life Eastern Mountain had drastically decreased. Those that were able to remain on the battlefield were only the best experts of the second grade!

"Isn't that Soul Palace's Chu Chen? I never expected that he would be able to last until now. So many people in the top ten of the large factions have been eliminated!" numerous spectator soul pet trainers flying around in the air had noticed Chu Mu.

In the eighth realm, the third ranked in Soul Palace Li Zhan, and the third ranked in Nightmare Palace Lu Shanli had both been eliminated. This meant that the two hidden experts had exited the competition before entering the ninth realm. This made numerous people very surprised.

As for the remaining competitors, the majority of them were probably within the top five of a large faction. It was reasonable to say that Soul Palace's Chu Chen shouldn't have appeared among them. People didn't know if this fellow's luck was good or he had been hiding his true strength.

"Shang Heng, it turns out you were already hanging in the air." a man riding on a black colored soul pet flew over from not too far away.

Shang Heng looked over, and showed a shocked expression.

The person flying towards him was Luo Bing, who was ranked second in Soul Palace. He never expected that the expert only inferior to Young Master Fang Ze would be eliminated in the eighth realm.

“Luo Bing, what happened? Even you were...” when Ting Lan saw Luo Bing, she was in a bit of disbelief as she spoke.

Luo Bing was the publicly recognized second strongest person in Soul Palace. With his strength, it probably wouldn't be a problem to enter the ninth realm...

“Haha, just now that group saw me, and made a big fuss too.” Luo Bing laughed at himself and proceeded to say, “I was really unlucky. I encountered that fellow from Nightmare Palace. He didn't say anything and immediately attacked me...”

“Nightmare Palace? Could it be that you're referring to Jiang Yiteng?!” Shang Heng stared at Luo Bing as he spoke.

Luo Bing bitterly laughed and said: “Aside from him, who else could it be? Originally, I thought that even if I encountered him, I would still be able to flee from him. However, he was stronger than I thought, especially his Nightmares... the only person from our Soul Palace who can deal with him is Fang Ze.”

“How long did you fight him for?” asked Ting Lan.

“Not even five minutes, and all of my soul pets had lost.” said Luo Bing.

“You didn't even last five minutes...” Shang Heng sucked in a breath of air. Luo Bing was already the second strongest person in Soul Palace yet had lost in such a short period of time.

“No wonder I always hear competitors say that our Soul Palace has no chance of obtaining the second grade's ultimate honor.” softly said Ting Lan.

“That's right. Li Zhan has already been eliminated, and suffered a serious wound. Although I didn't lose anything, I can only watch from the skies like you guys now. The only person who remains is Fang Ze. Whenever I encounter Nightmare Palace competitors, they all take delight in my misery. To speak bluntly, this makes me very uncomfortable, and if it wasn't for the competition authority guards, I would have already taught them a lesson.” said Luo Bing with a bit of anger.

The eliminated competitors didn't have the qualifications to obtain honor. However, they really hoped for the experts from their faction to be able to stand out from the rest, and display an outstanding performance.

"No worries, our Soul Palace still has Chu Chen." said Shang Heng.

"Chu Chen? Okay... I hope he'll be able to breakthrough the eighth realm. That way we won't have too few people from our Soul Palace enter the ninth realm." sighed Luo Bing.

Chu Chen only breaking through the eighth realm? Ting Lan and Shang Heng didn't believe this. One had to know that a few days ago, Nightmare Palace's top three Lu Shanli had been absolutely demolished by Chu Chen!

.....

It was already in the later stages of the eighth realm. The majority of the competitors on Heavenly Life Mountain were pretty much all congregated on Heavenly Life Eastern Mountain's tallest peak.

The competitors didn't urgently head to the top of the mountain. After all, the first person to do so would be challenged by all the other competitors, and become a target for them.

Therefore, the majority of the competitors were at the foot of the main mountain. The mountain itself halfway up was easy to roam about, and there were people hiding here waiting for the eighth realm to end.

However, the main mountain itself wasn't very large, and as long as a competitor moved around, conflict would arise, especially with those prisoners that hadn't eliminated five competitors yet.

The majority of the competitors and prisoners were already congregated near the main peak. The eliminated spectators had formed groups and flew in the air above the main peak, watching from high above.

At this later stage, pretty much all of the competitors were all within the sight of the spectators. These spectators had come from Soul Alliance, Nightmare Palace, Soul Pet Palace, Soul Palace, Merchant Alliance, Elemental Sect and the other various factions. At all times was someone from these factions watching them.

“Someone has stepped onto the top of the peak!!!”

Suddenly, several spectators pointed at the main peak and shouted!

The person who dared step onto the highest peak was undoubtedly challenging all of the competitors. If his strength was incapable of subduing everyone, standing at the top of the peak was equivalent to suicide!!

“Who is it that dares have such guts? His strength must be strong!” the competitors all released their soul remembrances to lock onto the top of the peak.

“It’s Nightmare Palace’s Young Master Jiang Yiteng!!!!”

“Nightmare Palace’s people are unbridled!!”

Soon, the Nightmare Palace spectators all showed smiles. Being able to stand at the top of the mountain represented one’s true authority!

Moreover, this person happened to be from Nightmare Palace. Thus, these Nightmare Palace spectators would naturally feel proud. Especially since this person was the strongest in Nightmare Palace and it for a long time nobody dared challenge him!!

“If you don’t have the guts, then just watch from afar. Our Nightmare Palace’s Young Master is the strongest person in the second grade. If you don’t believe it, then have your Young Master Fang Ze fight him... haha, Soul Palace’s people really are trash.” the egos of the Nightmare Palace spectators soared and they began to mock the eliminated Soul Palace competitors.

Soul Palace’s competitors didn’t have the confidence to rebuke and could only swallow their anger.

Young Master Fang Ze didn’t appear at all, and looking down from high above, nobody could find him at all.

“This group of dogs. They really think they are something, eh. They forget that six years ago it was me, Li Hen, who had trampled on them!” when Li Hen heard these people holler at them, he was extremely angry.

However, as a competition authority guard, he naturally couldn’t overstep his bounds and could only watch.

“Big Brother Li Hen, this time... we weren’t able to obtain honor for Soul Palace. This is truly shameful...” Luo Bing said in a dejected spirit.

“Another person has gone up to the peak...” Shang Heng pointed at Heavenly Life Mountain and the other competitor who had reached the peak.

“Is it Fang Ze?” asked Ting Lan.

Nightmare Palace’s strongest, Jiang Yiten was defending the peak, and only the strongest from the large factions had the qualifications to make their way up.

Soul Pet Palace’s experts would normally not enter into this kind of conflict. The experts from Merchant Alliance, Elemental Sect, and the other great kingdoms didn’t have the qualifications to fight against Nightmare Palace’s Young Master.

The person who would challenge Nightmare Palace’s strongest, Jiang Yiteng, was probably only Soul palace’s Fang Ze. Therefore, when someone went to the peak of Heavenly Life Mountain, all of the Soul Palace members carried expectations.

If Fang Ze were to defeat Jiang Yiteng, these Nightmare Palace members would all obediently shut their filthy mouths.

However, everyone saw that this person wasn’t Soul Palace’s Young Master Fang Ze....

“Hahaha, it turns out it was Xing Yang!!” suddenly, the Nightmare Palace competitors up in the air began to shout as if they were provoking all the Soul Palace members.

Nightmare Palace’s Xing Yan was a Nightmare Palace extreme expert whose strength was hidden extremely deeply. He was ranked second in Nightmare Palace’s second grade.

There had previously been some insider news that when Jiang Yiteng and Xing Yang had fought at least a year ago, the two of them had been equal.

In other words, the strongest and second strongest in Nightmare Palace weren't too far apart in strength. If it was the two of them guarding Heavenly Life Mountain's peak, then it would essentially become dominated by Nightmare Palace!!

Right now all of the competitors were near the main peak. There were also prisoners there so there would definitely still be competitors who were eliminated.

If Nightmare Palace's two great experts occupied the main peak, then it would be planting a flag on the main peak for Nightmare Palace. All of the Nightmare Palace members in the eighth realm would immediately head to the top of the mountain and gather there.

Therefore, a large number of Nightmare Palace members would successfully breakthrough, and enter the final ninth realm. This was a great advantage to Nightmare Palace in order to obtain the ultimate honor!!

"It's over. Even if Fang Ze arrives, it's of no avail. Unless Young Master and Soul Pet Palace's strongest ally..."

The Soul Palace spectators all had ugly expressions. This situation was extremely unfavorable to them. Nightmare Palace Jiang Yiteng and Xing Yang were intentionally protecting their Nightmare Palace competitors to allow them to enter the ninth realm!

"This time there's no hope of our Soul Palace obtaining the ultimate honor." Luo Bing let out a long sigh.

If he hadn't been eliminated, he probably could have gone with Fang Ze to kick these two people off. Unfortunately, his luck had been too bad and he had encountered Jiang Yiteng too early.

.....

“That’s strange... why is Chu Chen continuing to head up the mountain... could it be that he still doesn’t know that Jiang Yiteng and Xing Yang are at the mountain peak?” suddenly, Ting Lan who had continue to pay attention to Chu Mu showed a curious expression.

Chapter 532: Challenge the 2 strongest people of Nightmare Palace

“More people went up the mountain, most likely people from Nightmare Palace. Who else dares to go to the mountaintop!”

“Their character was similar to Nightmare Palace. I feel like there was some aura of a Nightmare.”

“Why does the person seem like Soul Palace Chu Chen.....The Battle of the Realm teen that was very outstanding in the previous realms.”

At this moment, Chu Mu was currently traveling towards the peak of Heavenly Life Mountain. Following behind was Purple Robed Dream Beast with Ye Qingzi on top.

The black angular Mo Ye and the black clothed Chu Mu matched perfectly, bringing out Chu Mu’s cold and demonic character.

The two Nightmare palace people took over the top of the Heavenly Life Mountain, trying to give all Nightmare Palace people safe haven. Chu Mu knew this already.

Now, of all the Nightmare palace second tier experts, only these two peoples’ nightmares fit Chu Mu’s White Nightmare’s appetite. As for other Nightmare Palace members, Chu Mu could pretty much ignore now.

White Nightmare was ninth phase fourth stage. After swallowing all of the nightmare’s souls, White Nightmare could still grow one or two stages. As for the remaining soul energy, Chu Mu took it all. Chu Mu could gain another three parts to his remembrance. This way, Chu Mu’s remembrance could reach nine parts, making him only one step away from Seventh Remembrance Soul Master!

The main mountain was towering into the skies, acting more like a tall battlefield!

The wind blew hard, sometimes lifting up eroded rock layers in a gust of dust, bringing them further into the mountains.

“Xing Yang, how many prisoner rings do you have?” Jiang Yiteng asked.

“Around 3 billion worth.” Xing Yang answered.

“I have around 4 billion worth. Probably no one has more than I do, haha.” Jiang Yiteng laughed.

“Maybe.” Xing yang said.

“Soul palace and soul pet palace people all shrunk away, so uninteresting.” Jiang Yiteng walked to the edge of the mountain, and looked downwards arrogantly towards the rest of the mountain.

His loved the feeling of looking down from the highest peak, much like what his father Emperor Jiang did!

“Second tier already didn’t have many threats. Following this, we can get rid of Si Tian of soul alliance, and the second tier final honor will be ours.” Xing yang laid against the rocks and said.

“Haha, Si Tian’s strength wasn’t much either, I’ve fought against him before.” Jiang Yiteng suddenly laughed.

“If you know his strength, even better.....” Xing Yang said. Suddenly, he looked at his demon. It seemed like the demon told him something because his expression changed and said, “Someone is coming up, and it doesn’t seem to be people from Nightmare Palace.”

“It better be Fang Ze.” Jiang Yiteng said as he returned to the top of the mountain, waiting for the fellow that was looking for his own death.

.....

The black Zhan Ye ran along the nearly vertical peak. Very quickly, the tip of the peak neared.

Zhan Ye’s back limbs stepped on the rock and leaped upwards, soaring past the peak by a dozen meters.

“Peng~~~~~”

Zhan Ye landed sturdily on the floor. The four paws on the ground shattered into pieces, sending cracks outwards!

"Hou!!!!!!!!!!!"

Zhan Ye's gaze quickly locked onto the two nightmare palace members already on the top of the mountain, prompting it to let out a loud roar!

When Jiang Yiteng and Xing Yang saw the black clothed Chu Mu appear on the top of the mountain, both of them revealed strange expressions. Clearly, the person looking for death wasn't anyone that they expected.

“So it's you, hahaha.” Suddenly, Jiang Yiteng put his head back and started laughing. This laughter didn't hide his disdain and ridicule for Chu Mu at all.

“Who is he?” Xing Yang hadn't even heard of Chu Mu before. In his eyes, the only ones who could he care for were those that truly threatened him. As for those that pushed for fame, Xing Yang would never care for, no matter how famous they were.

“A small character in soul palace, truly disappointing. I thought you were some powerful character.” Jiang Yiteng said and walked towards Chu Mu before continuing, “What, have you collected enough prisoner rings and specially want to hand it over?”

Chu Mu didn't waste his breath and opened up his spatial ring, taking out all his prisoner rings.

The prisoner rings all shined with different colors. Seventh rank blue, eighth rank purple, the appearance of this huge stack of rings caused a vibrant glow in the sunlight.

“So many prisoner rings!!!”

“This.....there is probably at least five billion!!”

When Chu Mu pulled out the prisoner rings, the spectators all stared in awe.

The players all got around 500 million in prisoner rings. The 500 million could buy a normal talent middle class monarch. For second tier players, it was a large sum.

Yet, in Chu Mu's hand were purple and blue that added up to more than 5 billion, to the point where everyone's eyes turned red in jealousy!

"Strange, why is there a red prisoner rings. Is there a red prisoner ring?" very quickly, someone noticed the lone ring showing red light.

A large majority of players didn't know the existence of ninth rank prisoners, so the discussion sounds became louder.

Jiang Yiteng's smile froze. Chu Mu had even more rings than he did. In fact, this man killed the highest honor of eighth realm, ninth rank prisoner. The ring alone was worth 1 billion. This means that Chu Mu had over 6 billion gold worth of prisoner rings!

Jiang Yiteng himself had only collected 4 billion gold. He felt as if he were the number one of eighth realm. However, compared to the person in front of him, he was nearly 2 billion behind!

"Perfect, with the 6 billion you give to us, we'll have 10 billion, able to buy a ninth rank offensive soul equipment." Jiang Yiteng's expression froze and suddenly started laughing again.

"If he could kill so many prisoners, including ninth rank prisoners, his strength is probably pretty strong." Xing Yang said quietly to Jiang Yiteng as he observed Chu Mu.

Chu Mu glared coldly at both Jiang Yiteng and Xing Yang before saying, "Summon your strongest soul pets. If you beat me, you can split this 6 billion however you want."

"Such arrogance. Before at Hong Bridge, I didn't even want to waste stamina to defeat you. Killing a useless bug like you is easy, but even then, you need to be worthy of my effort. Now, you have earned the chance to make me try. Heng heng, for soul palace people, I never show mercy." Jiang Yiteng said.

.....

“What is wrong with Chu Chen. Though he defeated Lu Shanli, Xing Yang and Jiang Yiteng’s strengths are much more powerful than Lu Shanli.” Ting Lan murmured to herself, showing some concern in her eyes.

“Ting Lan, did you say he defeated Lu Shanli?” Luo Bing stared blankly before asking.

Ting Lan nodded, specially glancing at the other group of Nightmare Palace spectators on their wing type soul ptes.

At this point, Nightmare palace’s spectators were also taken over by surprise. Clearly, they found out through other people that the person that damaged Lu Shanli’s three souls was Chu Chen!

“I can deal with Lu Shanli as well. However, Jiang Yiteng’s strength is truly powerful. There’s no way he can beat him!” Luo Bing came back to his senses.

Chu Mu being able to defeat Lu Shanli was indeed shocking for Luo Bing. However, Jiang Yiteng indeed had the ability to be proud. In Jiang Yiteng’s battle with Luo Bing, he was very badly beat. To him, it seemed like even young master Fang Ze wasn’t his match. Competitors like Chu Mu who get power later on would most likely suffer the same fate as himself.

.....

“Xing yang, you think I can’t defeat them myself?” Jiang Yiteng glanced at Xing Yang. Noticing that Xing yang was ready to battle, he laughed coldly.

Xing Yang’s gaze fell on Ye Qingzi. Ye Qingzi clearly came with Chu Mu, so Xing Yang naturally had to fight.

“Summon all your nightmares. I really don’t have time to waste with you.” Chu Mu jumped off his Zhan Ye.

Chu Mu had to fight fast. A few days ago, he already felt that the devil Qin Ye that he met in the desert was tracking him.

Chu Mu and Ye Qingzi spent a lot of time to lose this fellow who came from first tier. He believed that, without much time, he would catch on anyways. Chu Mu had to leave before he got here, while also devouring the two nightmare palace experts' Nightmares!

The competitors could go across tiers to challenge people. Also, if first tier members could get into the second tier battlefield with special means, the competition guards didn't have any method of stopping them.

So, even with so many spectators at the top of Heavenly Sky Mountain, no one could stop Qin Ye, a first tier expert, from attacking. So, time was very tight!

.....

If they wanted to fight, they would fight. Chu Mu would never waste time speaking.

"Huhuhu!!!!!!!!!!!!!!"

Zhan Ye, when he ran at top speed, brought up a gust of black wind, blowing on Jiang Yiteng and Xing yang's soul pets.

"Shua!!!!!!!!!!"

The black claws flashed past, immediately creating a dazzling blade edge that flashed into appearance like a crescent moon!

This attack became the spark that started the heavenly Life Mountain's battle, immediately lighting up the mood in the battlefield.

"Chu Chen attacked first!! Fighting nightmare Palace first and second experts, this Chu Chen truly is arrogant, deserving to be called one of us Soul Palace!!!"

This battle, no matter if Chu Mu could win or not, his boldness to challenge Nightmare Palace was enough to cause all of Soul Palace people to feel deep veneration!!

At this moment, everyone stared at the peak, hoping that the person who defeated a ninth rank prisoner, who defeated Lu Shanli, the hidden expert of Soul Palace could save the dignity of Soul Palace!!

### Chapter 533: The Stage Shocking Powerful Support

The black armored Zhan Ye was at the start of its battling, remaining at ninth phase middle stage status. This strength was two ranks lower than Jiang Yiteng's ninth phase high stage White Nightmare.

However, Zhan Ye's attack power could increase a rank under the effects of Horned Beast Magic Runes. On defense, it also had ninth rank soul armor!

Ninth rank soul armor was something a tenth phase middle class monarch rank had to cast a high technique to barely break through the defense. Jiang Yiteng's ninth phase high stage White Nightmare was still a rank away.

Xing Yang had a Blue Nightmare. This Blue Nightmare was ninth phase high stage - middle class monarch rank. The blue devil flame's damage already wasn't inferior to the middle class monarch rank's White Fiend Devil Flame.

Zhan Ye directly entered the enemy formation. At the same time, Jiang Yiteng's White Nightmare and Xing Yang's Blue Nightmare activated Devil Flame Claw towards Zhan Ye!

The two devil flame claws were both ninth rank late stage. With such an attack, plus devil flame soul burning effect, ninth phase low stage middle class monarchs could be instantly killed, even after defending!

"Sila!!!!!!!!!!!"

Blue claws and White claws flew past Zhan Ye's body, leaving two marks on Zhan Ye's armor.....

If these two claws were thrown onto a beast type soul pet, they definitely would split open as devil flames flew into the wounds, burning the flesh.

However, Zhan Ye's ink armor was extremely thick. The two attacks couldn't even split up Zhan Ye's armor, let alone cause any harm to Zhan Ye!

"What.....what defense is this!!" Jiang Yiteng immediately stared wide-eyed in disbelief at the shallow cut on Zhan Ye.

Xing Yang similarly looked shocked. His Blue Nightmare's damage towards the Zhan Ye was even weaker, almost negligible!

"Hou!!!!!!!!!!"

Zhan Ye let out a roar, its mighty body jumping high up. When it reached the peak of its jump, it suddenly became a dark hammer covered in black energy!

"Beng!!!!!!!!!!"

Zhan Ye stepped downwards in the air, creating a shockwave that heavily slammed the Blue Nightmare away hundreds of meters away!

Jiang Yiteng's White Nightmare similarly felt affected, but the bizarre movement of the creature nimbly dodged it.

"Zhan Ye, Ink Armor Spike!"

Sending away the troublesome Blue Nightmare, Chu Mu directly commanded Zhan Ye to cast the defense ignoring attack!

Ink armor spikes appeared. Zhan Ye became a black light that went towards the approaching White Nightmare. Immediately, white devil flames and dark energy collided at the center of the peak. Both cold energies swept outwards towards the surroundings!!

"Such an imposing Mo Ye, it is able to fight against Jiang Yiteng's ninth phase high stage White Nightmare!?" Luo Bing said with some questioning.

“Very soon, you will see its even more abnormal ability.” Shang Heng laughed. Chu Mu’s Mo Ye was able to belittle even the tenth phase middle class monarch rank Gluttonous Insect Monster, let alone this ninth phase high stage white nightmare!

Soul palace members found that Chu Mu still had his imposing manner even after clashing with the most powerful member of Nightmare Palace, and they couldn’t help but smile.

.....

Chu Mu would never waste time like this. Chu Mu patted Mo Xie on his shoulder.

Mo Xie was already rearing to go. Getting Chu Mu’s permission, she immediately jumped onto the ground, her silver eyes staring at the beast type soul pet that Jiang Yiteng just summoned!

Jiang Yiteng summoned a beast type soul pet - Great Lightning Snake Lion!

Great Lightning Snake Lion: Beast World - Beast Type - Lion Species - Great Lightning Snake Lion  
- Middle Class Monarch Rank

Great Lightning Snake Lion looked like the Lightning Sword Winged Lion. Its purple coat flowed majestically in the wind. With a pair of purple wings, it could fly wherever it wanted. The most special thing about it was that its tail wasn’t a normal lion tail, but instead were two purple patterned poisonous snake tails that extended from its behind!

These two poisonous snakes were surprisingly long, looking like two menacing pythons. They themselves seemed to have life, propping themselves up and staring evilly at its opponents.

Mo Xie had nine fox tails. In comparison, the nine tails were more powerful and beautiful, but the Great Lightning Snake Lion’s two snake tails were savage, biting, and lethal at close ranges!

“Ninth phase high stage - Middle Monarch!!”

The eighth realm competitors were already top 100 in all of Tianxia Realm. Ninth phase low stage middle class monarchs were the average soul pet in this tier. This ninth phase high stage Great Lightning Snake Lion was two ranks higher than that average.

Furthermore, it seemed as if all of Jiang Yiteng's soul pets reached this level of ninth phase high stage!

Nightmare Palace most powerful expert, one could tell the difference from these two soul pets alone.

“The Royal Flame Nine tail Inferno Fox is ninth phase third stage. How could it be the Great Lightning Snake Lion's match? Clearly, this Great Lightning Snake Lion had a sub-type, so its true strength was ninth phase top tier!”

The match up between Mo Xie and Great Lightning Snake Lion was immediately decided!

However, before everyone had the chance to analyze the soul pets' strengths and types, a flashy stream of moonlight fell from the skies and onto Mo Xie, bringing out the cold grandeur of Mo Xie's body!

Ascent of the Demon Moon!

Ninth phase third stage Mo Xie. Demon aura was immediately strengthened under the moonlight, lifting her strength from ninth phase third stage into ninth phase sixth stage!

The royal flame's effects could lift Mo Xie's strength another rank. So, Mo Xie's true strength was ninth phase high stage, being only one rank from Great Lightning Snake Lion.

“Flower Appeal!”

Ye Qingzi knew the idea of type countering. She didn't give Mo Xie Water Screen Armor. Instead, she cast the continuously healing Flower Appeal through Bell Noise Concubine!

Such a Flower Appeal technique could wipe away any light wounds within three minutes, and make medium sized injuries light sized as well.....

This technique lasted twelve minutes. This means that, in the next twelve minutes, as long as Mo Xie didn't get hurt, she would stay in her best state of fighting.

With the strength a rank apart, Mo Xie would no longer lose. Even without Flower Appeal, Chu Mu believed that Mo Xie could confidently win against the Great Lightning Snake Lion!

“Also ninth phase high stage, this fight can be fought. Speaking of which.....” Soul Palace spectators suddenly realized an issue.

The person standing at the peak and controlling all these ninth phase high stage soul pets should be soul palace’s most powerful expert Fang Ze. Why was it seventh level title Chu Chen now?

Clearly, Chu Chen had only summoned secondary soul pets when gaining all the fame in previous realms!

.....

“Xing Yang summoned his beast type soul pet!”

Beast type soul pet was almost every soul pet trainer’s main soul pet. Any expert had to have a beast type soul pet in their main roster.

Xing Yang summoned the beast type soul pet Tundra Ice Beast!!

The Tundra Ice Beast was high class commander rank. However, its fighting strength was top tier commander rank at best innately. However, Xing Yang strengthened this Tundra Ice Beast’s fighting strength to middle class monarch, and got it to reach ninth phase high stage!!

Nightmare Palace’s first and second experts definitely weren’t just names. The soul pets they summoned were all ninth phase high stage, causing the spectators to all stare in awe!

Tundra Ice Beast’s type was ice. If it bothered Mo Xie, Mo Xie could get heavily restricted.

Chu Mu furrowed his brows. Xing Yang and Jiang Yiteng were both clever people. With type counters, they definitely won’t let Mo Xie battle other soul pets.

Indeed, the Tundra Ice Beast locked onto Mo Xie who was fighting Great Thunder Snake Lion. Its icy aura spread outwards in a frenzy, instantly suppressing Mo Xie's Royal Flames!

"Chu Mu, my War Court Black Beast can be used to defeat Tundra Ice Beast." Ye Qingzi said using soul remembrance to Chu Mu.

"En." Chu Mu nodded. Most of the soul pet trainers they faced now were top talents of big factions. None of their soul pets were normal.

Even the Tundra Ice Beast's ice was advanced Towering Ice. This meant that secondary type could raise Tundra Ice Beast by another rank, making it ninth phase top tier!

"Chu Chen and Ye Qingzi's soul pets were both ninth phase middle class. Though they had secondary types, its average strength was one rank lower. These two people hid their strengths well. Facing anyone other than Nightmare Palace Xing Yang and Jiang Yiteng, they would easily win. Too bad they met even more powerful experts." The spectating Soul Palace members said.

Soul pet strengths were easily discernible. With the average strength on one side being lower than the other, unless Chu Mu and Ye Qingzi's soul pets all had special techniques, they wouldn't be able to last past ten minutes.

Of course, if they didn't have Ye Qingzi's support type soul pets, even five minutes would be hard.

.....

"Let my demon restrict his Mo Ye." Xing Yang said using soul remembrance to Jiang Yiteng.

The domineering Mo Ye relied on its incredible defense to fight two on one, becoming the spotlight of the entire battlefield. In close combat, even the White Nightmare and Blue Nightmare couldn't handle it properly!

The two Nightmares were both offensive soul pets. If this thing that didn't care about death preoccupied them, they won't be offensive at all in this fight. After all, Great Thunder Snake Lion and Tundra Ice Beast both had opponents.

Facing such defensive and power type organism, the best alternative was mental restrictions. They only needed one demon with a higher rank. Even if this demon had no defense and attack, they could restrict such a violent soul pet.

“En, this Mo Ye indeed is hard to deal with! I’ll hand it to you!” Jiang Yiteng said with a cold face.

“The female soul pet trainer is support type. The Water Moon and Bell Noise Concubine both have healing capabilities. If we don’t defeat them, though our soul pets are stronger, they will get healed easily after every hit.” Xing Yang glanced at Ye Qingzi’s two support type soul pets.

“Nothing to worry about. I’m just playing with them. Do they truly think that I, Jiang Yiteng, only have these soul pets?” Jiang Yiteng exclaimed.

“Jiang Yiteng, this White Nightmare.....isn’t ‘Si’, is it? A year ago when we were skirmishing, you didn’t summon it.” Xing Yang brought it up.

“So you realized. Of course this isn’t my strongest Nightmare ‘Si’! If I summoned it, do you really think you could have drawn with me? However, this fighting doesn’t need him yet.” Jiang Yiteng smiled.

#### Chapter 534: Stunning the Entire Field with Ultra Strong Supportive Soul Pets

Xing Yang was triple controlling, Jian Yi was dual controlling, Chu Mu was dual controlling, and Ye Qingzi was quadruple controlling.

Neither side continued to summon soul pets. Clearly, the fight would continue like this for a while. As long as the battle didn’t tip in one side’s favor, neither side would summon more soul pets.

Xing Yang’s demon had reached the ninth phase sixth stage, two stages higher than Zhan Ye. During the fight, Zhan Ye was continually restricted by this demon.

Zhan Ye’s speed was innately slower than Nightmares and the moment it was restricted, Jiang Yiteng’s White Nightmare and Xing Yang’s Blue Nightmare broke free from Zhan Ye’s pursuit and began to attack Ye Qingzi’s support type soul pets.

Fortunately, Ye Qingzi's Water Moon was still able to restrict the Nightmare Flames to a certain extent. Otherwise, before a minute had passed, Ye Qingzi's two weaker support type soul pets would be defeated with heavy injuries.

"Qingzi, why don't I summon the White Nightmare!" Chu Mu saw that the fight was to their disadvantage and promptly planned on having the White Nightmare display its might.

"There's no need for now. Jiang Yiteng still hasn't summoned two soul pets. If you were to summon the White Nightmare now, you'll only be able to save the fight at this stage, but when the later stages come, you'll be very strained." said Ye Qingzi.

Chu Mu understood this logic, but if the fight continued like this, there would be no hope of winning.

Zhan Ye's strength was slowly increasing, and by summoning the White Nightmare, the fight could be prolonged. The moment Zhan Ye's Brave Stinging Heart caused Zhan Ye's strength to surpass the ninth phase sixth stage demon, Zhan Ye would not be as restricted. When that time came, Jiang Yiteng, and Xing Yang would be ultimately destroyed even if they had stronger soul pets.

"Use soul techniques, our soul power is greater than theirs, and heals faster than theirs." said Ye Qingzi.

The medicine Ye Qingzi possessed caused her and Chu Mu's soul power to be fifty percent more than their opponents. Fifty percent soul power wouldn't be of much use when it came to summoning other soul pets; after all, the opponents' soul pets had reached the peak ninth phase and Chu Mu's secondary soul pets was two or three levels lower.

When the late stage of the fight came, the fight would pretty much be a contest between main pets. This was a common phenomenon. Practically all of the hidden experts would only use secondary pets to breakthrough the earlier realms because summoning one's main pet would be equivalent to exposing one's strength.

"You use your soul techniques. I should save my soul power." said Chu Mu.

Jiang Yiteng was rather difficult to deal with, so Chu Mu had to leave some soul power to use Thirteen Inferno Hells.

“Ok.” Ye Qingzi nodded her head, opened her spatial ring and retrieved a deep blue medicine bottle.

Suddenly, Ye Qingzi shattered the medicine bottle on the ground. Immediately, a thick blue gas began to pervade the area.

Strangely, it didn’t matter how strong the wind was, the thick blue gas wasn’t blown in any direction and continuously floated near Ye Qingzi and her soul pets.

When the medicine bottle was shattered, Ye Qingzi chanted an incantation. Evidently, her technique was going to be completed using the medicine she concocted!

“What happened?”

“Can soul techniques really be used through medicine?”

Seeing Ye Qingzi’s actions, many people showed confused expressions. Obviously they had never seen this ability before.

“This is a soul teacher soul technique!! How worthy of the Medicine Immortal’s personal disciple. This is a technique even tenth rank soul teachers have difficulty using.” Li Hen who was experienced and knowledgeable had a shocked expression.

Shang Heng, Luo Bing, and Ting Lan all looked at Li Hen. They were waiting for him to explain how this technique worked.

“Soul teacher soul techniques are powerful abilities that very few soul teachers can use. They manifest from the spirit items used by oneself, or a special spirit item aura concocted by oneself in order to support soul techniques. Normally this support can allow a soul technique’s might to increase by two times. It’s said that this is an extremely difficult technique to learn.” said Li Hen.

The blue cloud began to slowly drift up into the air where it dispersed. Slowly, it enveloped the entire Heavenly Life Mountain peak.

Finally, Ye Qingzi finished her incantation!

She raised her head, and her eyes circulating with a deep-blue light stared at the blue cloud up in the air.

“Pata~~~~~”

“Pata~~~~~”

“Pata~~~ Pata~~~~~”

Suddenly, small blue raindrops began to fall from the blue cloud above!

Soon, the rain drops began to fall more frequently as the rain grew bigger and bigger before transforming into a blue colored middle-sized rain that fell at the top of the mountain!!

“Weakening Rain! This is an eighth rank water type AOE weakening technique!!”

The blue colored clouds were only three hundred meters up in the air. All of the competitors were underneath the rain and soon, some competitors began to recognize this soul technique!

AOE soul techniques, especially an eighth rank water type one like this, could use up over half of a spirit master’s soul power!

“What a smart and sharp woman. The fight is about to turn tides!!” Li Hen suddenly let out a sigh.

“But why? This is an AOE technique, so Chu Mu’s soul pets will also be weakened.” said Shang Heng, confused.

Since it was an AOE soul technique, both sides would be affected, especially Chu Mu’s Royal Flame Nine Tailed Inferno Fox which would cause her strength to greatly decrease.

“The main type of soul pet we control in this realm are demon beast type soul ptes. Yet, the reality is that many people don’t understand the wonders of the other attributed soul pets. The Weakening Rain’s effect has doubled with the help of the blue medicine, and ostensibly every soul pet’s strength will decrease by a level... Ai, I don’t need to explain this. Just watch. Ye Qingzi is going to teach you all something today.” said Li Hen.

Shang Heng didn't understand Li Hen's meaning. The other spectators were also very puzzled. Did this type of AOE weakening ability that affected both sides really make sense? At least it would affect the fight, right?

When Ye Qingzi used this technique, Chu Mu also didn't understand why she used this. However, he believed that Ye Qingzi wouldn't randomly use soul techniques.

“Zi zi zi~~~~~”

Under the weakening blue rain, the speed of the rain made it impossible for the soul pets to dodge. When the blue rain hit their bodies, they slowly penetrated their skin!!

This special liquid would be able to penetrate elemental skin, armored skin or even beast type skin. The penetration effect would cause the soul pet's strength, defense and elemental strength to be affected.

The ones that most clearly suffered the weakening were the White and Blue Nightmares. When these two unbridled soul pets were covered by the blue rain, their devil flame auras began to weaken!!

Fire type soul pets were innately countered by the water type!

When they encountered blue rain like this with extremely strong effects, their strengths directly fell by two levels!!

Jiang Yiteng's White Nightmare had true strength at the peak of the ninth phase. After being weakened, it fell to the ninth phase middle stage!

As for Xing Yang's Blue Nightmare, it was also wasn't so lucky. Its ninth phase high stage strength astonishingly fell, reaching the ninth phase low stage!

Being weakened by two levels had severe repercussions to the Nightmares. When Jiang Yiteng and Xing Yang saw that their soul pets' strengths had fallen so much, their expressions turned extremely strange.

The eighth rank Weakening Rain soul technique being able to weaken a soul pet by half a level was normally already amazing. Moreover, techniques that affected both sides were normally useless soul techniques to many soul pet trainers.

However, Jiang Yiteng and Xing Yang both had Nightmares, which would obviously suffer losses from weakening.

“Hmph, don’t worry. Using over half of one’s soul power to weaken our two Nightmares by two levels. Their soul pets will also be weakened, making the balance even.” said Jiang Yiteng.

“That Royal Flamed Nine Tail Inferno Fox will also be weakened by two levels. It will be weakened the same. Ultimately, it’s weakening our soul pets overall by one level.” said Xing Yang.

Using over half of one’s soul power to weaken, at the end of the day, one soul pet by one level in comparison to one’s own soul pets. Ye Qingzi was naturally not so stupid as to do something like this.

“Water Moon, Purifying Armor!” Ye Qingzi’s eyes flashed with a light, and her beautiful and mesmerizing eyes now carried a bit of wisdom in them.

The Water Moon was also affected by the blue colored rain, but it’s strength didn’t decrease. Instead, it increased by a level, making it equal to a ninth phase middle stage - middle class monarch.

The Water Moon chanted an incantation. The Purifying Armor was a technique that the Water Moon could simultaneously dual cast.

Soon, two purifying streams of liquid moons began to revolve around Zhan Ye and Mo Xie and they blocked the corroding blue rain on the outside of the bodies!

Zhan Ye’s strength only briefly fell by one level before recovering to its normal ninth phase middle stage state.

Zhan Ye recovered its normal strength while the demon that was restricting it fell to the ninth phase low stage. Its demon techniques’ rate of failure naturally increased.

Once its mind was no longer be restricted, Zhan Ye's close-combat fighting would become unstoppable. Soon, Xing Yang's demon was hit by a setback and was chased down by Zhan Ye!

Mo Xie had also been weakened by two levels in the blue rain, but after the Purifying Armor began to revolve around her body, the royal flames on her body began to flare ostentatiously once more. Her aura quickly was able to suppress the Great Lightning Snake Lion!!

“Wu wu wu!!!!!!!”

Mo Xie's nine tails fiercely swept across and the weakened Great Lightning Snake Lion was immediately knocked a hundred meters flying.

Xing Yang's demon and Jiang Yiteng's Great Lightning Snake Lightning had originally had the advantage. However, after the addition of the Purifying Armors, the situation instantaneously changed!

At this moment, all of the competitors in the sky were so shocked they couldn't say anything!

They never expected that this woman would be able to use support type soul pets so proficiently!

All of the enemy's soul pets had been weakened, while her own side's soul pets hadn't changed in strength after the addition of the Purifying Armor!!

The Weakening Rain caused all of Jiang Yiteng's and Xing Yang's soul pets to drop by one level and their Nightmares to drop by two.

However, Chu Mu and Ye Qingzi's soul pets hadn't changed in strength. The originally disadvantageous fight had turned on its head. This change had been caused because of a water type AOE technique that no one was optimistic about at first!!

“Did you see? If a soul teacher understands his or her attributes well on a battlefield, and is able to use corresponding techniques, he or she will be able to control the entire fight. Especially in these group fights with so many soul pets!” said Li Hen.

Li Hen didn't need to explain anything anymore. Ye Qingzi's soul techniques' effects were beyond clear!

Thus, Li Hen became a teacher that explained things, while the Soul Palace competitors gathered together became incomparably shocked students. They nodded their heads in great earnest and received his teachings!

## Chapter 535: Soul Palace? White Nightmare? A Summon That Shocked the Whole Battlefield

“Purifying Armor!”

The Water Moon chanted once more, and the special ability that originally only had a purifying effect became a crucial point in the battlefield. The purifying armor basically increased a soul pet strengths by a level!

Soon, the Warcourt Black Beast and Purple Robe Dream Beast were also purified by the Purifying Armor. The Warcourt Black Beast’s true strength was equivalent to the ninth phase high stage, so after the Tundra Ice Beast was weakened by a level, it was at the same strength as the Warcourt Black Beast. Soon, the strenuous fight between the two became evenly matched.

However, relying on its mysterious fighting ability, the Warcourt Black Beast was able to use its bone blades to rip open the Tundra Ice Beast’s body, and its aura gradually suppressed the Tundra Ice Beast.

After the Water Moon used its second Purifying Armor, the tides of battle completely changed, and the inferior soul pets of Chu Mu and Ye Qingzi were able to mount strong counterattacks!

“This is so hard to believe! They’re really able to suppress Nightmare Palace’s two strongest people!!”

Seeing the situation turn on its head, people began to let out shocked cries.

Previously, the Soul Palace spectators were only admiring Chu Mu’s and Ye Qingzi’s bravery. But now, they understood that these two didn’t only have bravery, but also had the strength to truly fight against Nightmare Palace’s two strongest!

What they most admired was that the two of them hadn't shown anything in the previous rounds. Even the extremely ostentatious Chu Chen had only been using his secondary soul pets to fight. This shrewdness and calmness wasn't something normal people possessed.

"Take a look why don't you. You guys still call Nightmare Palace the strongest, yet two random people from our Soul Palace have just come out and have put you losers into a sorry state. Weren't you guys just cheering? Why aren't you saying anything now? Are you all shocked?" Luo Bing didn't bear the demeanor of an expert and berated the Nightmare Palace group.

Of course, Luo Bing also knew that the so called "two random people" were two people that probably couldn't be matched in Soul Palace.

Nightmare Palace's members really couldn't say anything now. They could only bitterly watch their two experts.

.....

"Let's summon again. If we keep going like this, our soul pets will lose." Xing Yang finally couldn't keep his calm.

The Weakening Rain forced their soul pets into defensive states, and they continuously received injuries. If they continued like this and suffered another serious wound, their fighting strength would greatly weaken. This was equivalent to losing a soul pet.

Neither Xing Yang nor Jiang Yiteng had healing type soul pets. If they prolonged the fight, their soul pets would grow weaker and weaker. Continuing like this was impossible against an opponent that could continuously heal their soul pets.

Jiang Yiteng's face was unsightly. He had originally thought he could easily crush these two insects. But now he was swallowing his words and it hurt. This was extremely annoying and aggravating.

"I don't want to waste time. After all, the only person who is a threat is Si Tian, and he already knows what soul pets I have. There's no need for me to hide anymore." Jiang Yiteng said in a low voice.

Xing Yang was shocked and asked: "You want to summon Si? You don't want to leave it to the ninth realm?"

“There’s no difference. I’ll treat it as a warmup for the ninth realm!” said Jiang Yiteng.

“But you have to wait for the Weakening Rain to disappear, or you Si’s strength will be weakened by two levels.” said Xing Yang.

“Hmph. Can such a insignificant water type technique really pose an obstruction for me? Too naive. Even if it’s weakened by two levels, so what? I’ll still destroy them!” sneered Jiang Yiteng.

Jiang Yiteng’s expression was cold, and he wore a sneer as he chanted an incantation.

Blue rain continued to fall, forming a rain curtain that fell on top of Jiang Yiteng.

Jiang Yiteng’s body began to burn with a serene white devil flame. The devil flame seemed not to be affected by the Weakening Rain as it fluttered around his body. A cold serene chill began to proliferate and penetrate into the depths of people’s souls!

“Quickly look, Young Master is about to summon another soul pet!!” a Nightmare Palace competitor pointed at Jiang Yiteng and shouted.

Right now, everyone’s attention was focused on Jiang Yiteng. Indeed, Jiang Yiteng was burning with white flames; a sign he was going to summon a White Nightmare!!

“He’s still going to summon even under the Weakening Rain. This fellow is so arrogant. Could it be that he still has stronger soul pets?” Luo Bing was stunned.

When he had fought Jiang Yiteng, the White Nightmare he had summoned was the one Zhan Ye was currently fighting. Luo Bing had not seen another White Nightmare.

The majority of White Nightmares were nourished through their master’s soul power. Being able to raise one White Nightmare at the spirit master level was already amazing; thus, no one expected Jiang Yiteng to have two White Nightmares. This was equivalent to giving up all opportunities to use soul techniques!

A ninth phase White Nightmare pretty much consumed fifty percent of a spirit master's soul power. Thus, two White Nightmares would practically always keep a spirit master's soul power depleted.

"It's rumored that Young Master has reached the fifth remembrance spirit master. Could it be that this is true? Otherwise how else could he nurture two White Nightmares? After all, only true powerful White Nightmares are raised by a soul pet trainer's soul power!" Nightmare Palace members began to shout.

Within the Nightmare Palace's young generation, the most extreme situation was having a team of three Nightmares, but one had to be a high remembrance soul pet trainer to achieve this. Otherwise, if one's strength even slightly stagnated, the three Soul Pets could potentially deliver an enormous soul wound to its master or even devour the soul.

Furthermore, a White Nightmare was innately much more domineering than Blue and Cyan Nightmares. There were almost no young people that were able to raise two White Nightmares. Thus Jiang Yiteng's current summon essentially illustrated the difference between the strongest experts and normal experts!

"That's strange, the nightmare flames seem a bit special..." soon, people noticed the nightmare flames on Jiang Yiteng's body.

"Isn't that the fourth ranked nine underworld devil flames?!!"

"Nine... nine underworld... oh my, those are nine underworld devil flames!!"

Shouts began to shoot out among the Nightmare Palace group and they all stared in shock at Jiang Yiteng!

The appearance of nine underworld devil flames meant that the White Nightmare's fighting strength had reached the high class monarch!!

A high class monarch!!

Even in the eighth realm, all of the competitors' soul pets' ranks were at the middle class monarch rank. The appearance of a high class monarch undoubtedly surpassed the limit of the Battle of the Realm's young generation soul pet fighting strength!

“There’s big trouble now!! Jiang Yiteng really did conserve his strength. Moreover, it’s a high class monarch. He must have started raising this high class monarch a long time ago. Even if it hasn’t reached the tenth phase, it is definitely at the ninth phase high stage!” Luo Bing’s face was full of shock as he spoke.

Nobody liked Nightmare Palace’s Young Master Jiang Yiteng’s arrogance. However, when the high class monarch appeared, everyone realized that this fellow indeed had the qualifications to be arrogant!!

“Zi zi zi~~~~~”

Blue rain splashed onto Jiang Yiteng’s nine underworld White Nightmare. Even if the water type technique weakened this high class monarch’s strength by two levels, its evil and imposing aura still caused people to shudder!!

Two levels of weakening, yet it still had such presence. If it wasn’t being weakened, then what kind of terrifying heights would it reach?!!

The weakening rain caused Jiang Yiteng’s White Nightmare to fall from the high class monarch to the middle class monarch. However, this still was a ninth phase high stage creature!!

This meant that even with the Weakening Rain, the White Nightmare was still a ninth phase high stage - middle class monarch. Moreover, this White Nightmare was innately stronger than other creatures by a level. This meant that its strength was equivalent to a ninth phase peak stage middle class monarch!!

Ninth phase peak stage middle class monarch even with the weakening rain. Then, didn’t this mean that its strength was still a level stronger than a tenth phase middle class commander in normal circumstances?!!

A tenth phase middle class monarch had the strength to sweep through the second grade. So if it was a level higher, everyone understood how terrifying this White Nightmare was!!

The skies quieted for a moment before the White Nightmare members erupted in cheers!

“Nightmare Palace is the strongest!”

“Nightmare Palace is the strongest!”

Each cheer was louder than the previous. The atmosphere even could be felt on the battlefield!

“The female soul pet trainer is already quadruple controlling. I heard that Chu Chen injured a soul in the seventh realm. This means that he can only triple control. Thus, they can only summon one more soul pet. Even if the high class monarch has been weakened, its strength is still stronger than any soul pet on the battlefield by a level. Unless Chu Chen is able to summon a soul pet with strength reaching the ninth phase peak stage, he will undoubtedly lose!!” the Soul Palace members were instantly dejected.

Ninth phase peak phase? Chu Mu and Ye Qingzi’s soul pets had used the supportive type soul pets to barely strengthen to the ninth phase high stage. How could they summon a ninth phase peak stage soul pet?!

.....

“I guess we still lose... I originally thought there was that bit of hope...” Luo Bing let out a long sigh.

“That’s not necessarily the case.” a smile rose on Ting Lan’s face, as she purposefully gave a glance at Shang Heng.

Shang Heng also wore a mysterious smile. Other people didn’t know Chu Mu’s main pet, but Ting Lan and Shang Heng had seen it before. The fight wouldn’t end just because Jiang Yiteng’s high class monarch had emerged.

This was because Chu Mu also possessed a high class monarch, and it was an abnormal high class monarch!!

“Hu hu hu hu hu~~~~~”

Seemingly just after Jiang Yiteng finished his summon, Chu Mu’s body began to flicker with serene white devil flames!!

Chu Mu was wearing black clothes, so the flickering nine underworld devil flames was rather striking.

Quickly, regardless if it was the unbridled and arrogant Nightmare Palace competitors, or the sullen Soul Palace members, they all discovered the devil flames on Chu Mu's body.

“White... white colored devil flames. Isn't this the summoning ritual for a White Nightmare?!!”

“I... I haven't gone blind have I? Is Soul Palace Chu Chen's body burning with devil flames??”

Nobody was seeing this incorrectly. Right now, Chu Mu really was summoning a White Nightmare!

The nine underworld devil flames wantonly burned on Chu Mu's body as a White Nightmare with an even more evil grandeur was gradually arriving!

When this scene appeared before everyone's eyes, the competitive and at-odds competitors of the two large factions of Nightmare Palace and Soul Palace looked at each other in shock, disbelief and at a loss...

However, one could be sure that no matter how different the expressions were on their faces, they were thinking the exact same thing in their hearts: “What on earth?!! Isn't he a Soul Palace member? Shouldn't he be summoning a Seven Diagram Saint Beast? Why... why is he summoning a White Nightmare?!!”

In this instant, the entire battlefield was in disbelief!!

## Chapter 536: Nightmare Amongst Nightmares

A strange atmosphere fell upon the people five hundred meters in the air. Not only Soul Palace and Nightmare Palace, other factions were also dumbstruck by this scene!

Soul Palace member summoning Nightmare Palace's White Nightmare!

“This Chu Chen, who does he belong to! Why does he have Nightmare Palace’s White Nightmare!!” Nightmare Palace’s eighth rank title owners exclaimed in a very strange tone. Those able to gather in eighth realm were undoubtedly excellent figures in Nightmare Palace’s young generation. Even they only owned a couple of White Nightmare amongst all of them!

Even Nightmare Palace experts didn’t all have White Nightmares, yet this soul palace member had one. Everyone in Nightmare Palace knew that White Nightmares were different from normal soul pets. One can’t just sign a soul pact with them. They needed a very long feeding process before being a true battle-ready soul pet!

The soul palace members’ expressions weren’t normal either. Many of them knew that Chu Mu had the Binding Wind Spirit, a seven diagram sacred soul pet of soul palace.

Chu Mu, who was able to have a seven diagram sacred soul pet, should be an authentic member of soul palace. Yet, what he just summoned pushed the limits of their mental expectations!

This abnormal scene had already frozen all of their expressions. Yet, someone quickly noticed with shock that the devil flames on Chu Mu were also very special!!

“Nine Underworld Devil Flames!! Chu Chen’s body is burning with Nine Underworld Devil Flame too!!”

The silent skies were suddenly interrupted with cries of surprise from Nightmare Palace members. This sound immediately twisted the expressions of the speechless spectators even further!

Ninth phase White Nightmare with Nine Underworld Devil Flames meant that it was already a White Nightmare that had reached high class monarch rank!!!

High class monarch rank!!

Jiang Yiteng summoning a high class monarch already surprised a lot of people; Chu Mu’s summon shook the entire audience!

Ninth phase middle stage - High class monarch rank!

“Huhuhuhu~~~~~”

Nine Underworld Devil Flame burned rampantly, its cold aura colliding with the other High Class Monarch rank. Immediately, an even colder current travelled around the top of the peak and flew into the skies!

“Nienienienie~~~~~”

Chu Mu’s White Nightmare smiled wide. Its piercing, nine underworld devil pupils staring at the similarly high class monarch rank Nightmare of Jiang Yiteng, and it actually let out a bone-chilling laugh!

“Very well, an unexpected harvest.” As White Nightmare laughed, Chu Mu’s face was overtaken by a similarly demonic grin.

High Class Monarch Rank White Nightmare!!

Chu Mu previously had guessed that, after devouring blue nightmare and the middle class monarch rank White nightmare, his soul remembrance would reach nine parts whole.

Now there was a high class monarch rank feast, if White Nightmare ate it, breaking through seventh remembrance definitely wasn’t an issue!

Chu Mu was just fearing Jiang Yiteng couldn’t summon more powerful Nightmares. Jiang Yiteng indeed didn’t let down his identity as a Nightmare Palace prince, and summoned a high class monarch rank feast for Chu Mu!

.....

At this moment, Jiang Yiteng’s immensely pleased expression was already frozen on his face!

Many times, Jiang Yiteng wanted to ask himself if he was just seeing things. However, the collision of icy aura between high class monarch ranks told him that the fellow he never put much thought into had indeed summoned a high class monarch rank White Nightmare!!

“You.....how could you have a White Nightmare!?!” Jiang Yiteng shouted, flustered.

Ye Qingzi's Weakening Rain had dropped his High Class Monarch Rank White Nightmare by two ranks. Although Chu Mu's High Class Monarch rank was only ninth phase middle stage, under the effects of Purifying Armor, its strength wouldn't change.

This way, after his ninth phase high stage "Si" was weakened, its strength was one rank lower than Chu Mu's white devil!!

"Si" was Jiang Yiteng's proudest soul pets. Once summoned, it had to wipe out the battle!

What Jiang Yiteng didn't expect was that once he summoned his White Nightmare, it hadn't even fully exposed its magnificence before getting suppressed by the opponent's Nightmare. What caused Jiang Yiteng to nearly spray out blood was - the person who summoned that White Nightmare was a member of Soul Palace!!

As the most powerful person in Nightmare Palace, he spent all his efforts on a Nightmare Soul Pet. Even Xing Yang was like this. Though he didn't have a White Nightmare, his Blue Nightmare was extremely powerful. They basically represented all of Nightmare Palace.....

Yet, they had now been repressed by other people's Nightmares. How should the two most powerful experts of Nightmare Palace as well as all the Nightmare Palace members feel about this?!!

"This must be a result of rushed growing, it must be!! Its fighting strength is definitely garbage!" Jiang Yiteng didn't believe Chu Mu could have such a soul pet.

Angry on the inside, he commanded "Si" to give a command and pounce, all claws and flames, towards Chu Mu's White Nightmare!!

White Nightmare as a result of rushed growing?

Chu Mu couldn't help but laugh coldly. White Nightmare was raised by Chu Mu stage by stage. As for its fighting strength, Jiang Yiteng would know soon!

Nightmare Palace members, no matter when they sign the soul pact with a White Nightmare, they could only summon them when they reached soul master.

Even Chu Mu, whose soul remembrance raised extremely fast, couldn't feed two white nightmares. If Jiang Yiteng had two, he definitely didn't feed both purely with soul power!

“Nie!!!!!!!!Nie!!!!!!!!”

“Nie~~~~~Nie~~~~~”

Two high class monarch rank white devils were almost instantly the sole dictators of the battlefield. Devil flames rolled through. Even the blue water screen was devoured by it!

Nine Underworld Devil Flames were surprisingly powerful. They were especially burning to the soul. Even the spectators five hundred meters in the skies could feel the aura of the Nine Underworld Devil Flames!

“Chu Mu, my Weakening Rain can only last three more minutes.” Ye Qingzi reminded Chu Mu.

Losing weakening rain, Jiang Yiteng and White Nightmare's strength will recover, making Chu Mu's White Nightmare one rank lower, leaving it at a disadvantage.

“That's enough.” Chu Mu smiled.

Three minutes, one rank higher, how could Chu Mu's White Nightmare not beat its enemy?

Devil flames rolling, white devil's control over the nine underworld devil flames was greater. Every technique cast could suppress “Si”. No matter how much “Si” tried, it could only block passively!

Chu Mu's White Nightmare's strength always increased due to a strange resentment when facing its own species. Even if it weren't a rank stronger, even if it were a rank weaker, “Si” may not be able to defeat the stubborn white devil!

Worth Chu Mu's questioning was, Jiang Yiteng's “Si” resentment gathering was very powerful, at least three times white devil's resentment gathering.

That meant, Jiang Yiteng's “Si” could gain strength through resentment gathering very quickly. By Chu Mu's estimates, in five minutes, this highly talented “Si” may catch up to his White Nightmare!

It had to be said that Jiang Yiteng's White Nightmare was also a highly talented organism. If not for weakening rain, White Nightmare and "Si"'s battle may last a very long time!

"White devil, don't give it time to get stronger!" Chu Mu said.

Immediately, Chu Mu put his full attention into the battle of White Nightmare.

"Double Displacement Specter!" Chu Mu commanded.

White Nightmare's body burned up in devil flames, strangely disappearing!

In the blue rain, White Nightmare's body appeared twenty meters to the side of Si's body. Its claws suddenly morphed, becoming a long, Nine Underworld blade in the burning flames.

This nine underworld blade was like a burning scythe. Any casual swipe and slash could create ninth rank destructive power!

Adding on other type, fire type, and beast type talent, once it cut down with full power, it could definitely cause ninth rank complete stage effect!!

Si very quickly noticed the White Nightmare that appeared waving around its nine underworld devil blade. Its claws burned with two layers of devil flames that morphed into two tides and rolled towards white devil!

"Jiejie~~"

White Nightmare let out a strange string of laughs. Just as the two devil flame waves rolled over, white devil again burned up in flames, becoming ashes!!

Double Displacement Specter, using it twice in a row, White Nightmare's control over Displacement specter was clearly stronger than "Si"!

"Huhu~~~~~"

Behind Si, the ghostly nine underworld devil flames slowly burned, quietly taking the shape of White Nightmare.

The nine underworld devil blade extended out of the devil flames. White Nightmare's two hands held the nine underworld blade, and slashed towards Si's body without any hesitation!!

“Hua~~~~~”

This slash created a hundred meter long ripple of flames as it fell down, slashing down the center of the peak, cutting even the blue rain screen in half!!

From five hundred meters up, one could clearly see that all the burning devil flames outlined the silhouette of a hundred meter long devil blade that not only cut open the rain, but seemed to cut open the entire peak from the top!!

“Such terrifying strength, Jiang Yiteng's White Nightmare is at least heavily injured, if not dead!”

Ninth rank complete stage. Unless Jiang Yiteng's White Nightmare was wearing the expensive ninth rank soul armor, it wouldn't be safe.

In reality, Jiang Yiteng only had ninth rank soul armor himself. His soul pets didn't have such equipment!

“Huhuhuhu~~~~~”

Jiang Yiteng's “Si” immediately had half of its nine underworld devil flames extinguished. One could clearly see the pain in the White Nightmare's face.

Yet, this was only the beginning!!

White Nightmare's even more terrifying ability was about to appear.

“Devour it, and White Nightmare's strength could raise by two stages!” Chu Mu thought to himself.

White Nightmare was already ninth phase fourth stage. After devouring the high class monarch rank, its strength could reach ninth phase sixth stage!!

.....

“It’s happening again!” Li Heng stared closely at Chu Mu’s white devil, and said out loud accidentally.

“What’s happening again?” Luo Bing quickly asked. The battlefield was completely changed, and Luo Bing’s thoughts were completely following Chu Mu.

“You’ll soon see this nightmare’s even more terrifying ability!” Li Heng said.

Chu Mu’s White Nightmare was a nightmare amongst Nightmares!

It was a highly talented evil organism that no one in the entire Nightmare Palace dared to sign a soul pact with!!!

Chapter 537: “Inauspicious”, the White Devil that No One Dared to Master

One word from Li Heng caused almost all soul palace members to become intensely attentive.

“Can it be that this White Nightmare has even more special abilities?” Soul Palace members all had a good understanding of Nightmares, so they started wishing for Chu Mu to bring them more shock.

Soul Devour!!

Even Nightmare Palace prince wouldn’t think that a White Nightmare could devour its own species!

After White Nightmare heavily injured Si, its rapidly burning nine underworld devil flames started darting towards Si. At the same time, its body became like a shadow, slowly merging into Si’s body step by step!

Jiang Yiteng stared blankly. At first, he thought Chu Mu's White Nightmare was casting Obliterating Heart on his soul pet.

If it were obliterating heart, then his White Nightmare could definitely dodge it even, if it were heavily injured. However, when he noticed the white devil starting to merge into his soul pet's body, Jiang Yiteng suddenly realized it was a much more terrifying technique than Obliterating Heart!

"Quick!! Don't let him cast that technique!!" Jiang Yiteng yelled out loud.

At this moment, Jiang Yiteng didn't dare to hesitate any longer. He commanded the fourth soul pet he summoned to attack Chu Mu's White Nightmare to save his own White Nightmare!

Yet, after Jiang Yiteng's fourth soul pet was washed by weakening rain, its strength was an entire four ranks below White Nightmare. Such a White Nightmare could be completely ignored!

After the weakening rain fell, other than Jiang Yiteng's White Nightmare, Xing Yang and Jiang Yiteng's other soul pets were nearly three ranks lower. Now that Si was heavily injured by Chu Mu's White Nightmare, who else could stop White Nightmare??

Soul Devour was still happening. Si's miserable shrieks echoed through the entire Heavenly Life Mountain peak!

"What technique is this!!" Isn't this the Nightmare's techniques to devour its owner's soul? How could this White Nightmare devour its own species?!" Nightmare's devour was the most evil technique. Everytime a soul devouring was witnessed, even Nightmare Palace members would shiver in terror.

Yet, a Nightmare devouring Nightmare was definitely something no Nightmare Palace member had ever witnessed. Seeing this process with their own eyes chilled their bones even further!

"Brother Li Heng, what is happening!!" Soul Palace competitors all shook with shock as well.

Li Heng shook his, simply furrowing his brows and saying, "Chu Chen had swallowed three of Lu Shanli's soul pets just prior to this....."

"En, we saw it with our own eyes too." Shang Heng and Ting Lan both nodded.

“This.....this is too abnormal!” Luo Bing said.

“This means nothing, continue to watch.” Li Heng pointed at Chu Mu’s White Nightmare.

“Is there anything worse than th- What, this White Nightmare is growing!!” Suddenly another person cried out in fear.

“Truly it’s growing, this White Nightmare’s power level grew to ninth phase sixth stage!!”  
Devouring its own species and converting it into its own energy to grow!!

As the nine underworld devil flames burned brightly on Si’s body, the spectators five hundred meters in the air were utterly speechless!

Soul devour had this effect?! It was able to directly grow the soul pet?!

“My soul pet!!” Jiang Yiteng’s entire person blanked out, as he watched his own White Nightmare Si get devoured by Chu Mu’s white devil!

The pain of a soul pact splitting hit his soul, turning his face extremely pale. However, he seemed to have been frozen in white ice, staring, as White Nightmare came out of his Si’s body!!

Blue rain fell on Jiang Yiteng’s face. The rain was getting weaker and weaker, yet at this point, the arrogance on this Nightmare Palace prince was nowhere to be found!

Xing Yang also forgot to battle, his eyes stared in terror as Chu Mu’s White Nightmare’s strength flew upwards!!

“Brother Li Heng, what is happening, why can this White Nightmare have such devouring abilities?” Luo Bing said astonishingly.

Increasing its own strength through devouring same species to increase its own strength, this White Nightmare’s ability is too powerful. If it continues to devour, devouring an emperor rank Nightmare, then wouldn’t this White Nightmare also be able to grow to emperor rank?!

“This devouring White Nightmare has unlimited potential.” Li Heng said.

In the higher skies, the golden armored man covered head to toe stared coldly from the mountain top.

This person was the scheming Xia Guanghan. What caused him to be very annoyed was, Zuo Xiao and his subordinates didn’t appear like previously agreed upon.

Chu Mu had very powerful hiding abilities. This skill caused even Qin Ye to be unable to track him.

Qin Ye had previously blocked Chu Mu on the way towards Heavenly Life Mountain, yet Chu Mu managed to escape. Zuo Xiao had good tracking; if Zuo Xiao appeared, Chu Mu definitely wouldn’t have escaped Qin Ye’s tracking.

Yet, the fellow mysteriously disappeared, as if they weren’t ever in this eighth realm, causing Chu Mu to be able to reach Heavenly Life Mountain without obstruction.

Heavenly Life Mountain’s many players were there. Even with Qin Ye, the chances that he could steal Chu Mu’s soul pet were extremely low, let alone having Li Heng staring from the skies as well!

“Xia Guanghan, this white nightmare’s ability is very rare, do you know its origins?” Qin Ye, beside Xia Guanghan opened his mouth to ask.

At this moment, Qin Ye’s eyes glowered with light. He had no idea that Chu Mu had such a rare White Nightmare!

“This white nightmare is the offspring of Bai Yu Nightmare Emperor’s main nightmare. It inherited the special powers its ancestors had. Its soul devouring ability is much stronger than normal Nightmares, and its temperament is capricious. Emperor Bai Yu’s soul getting devoured is the obvious example. Emperor Bai Yu’s soul remembrance should have been enough to control his White Nightmare at the time, but in the end...” Xia Guanghan said.

“Then, this Chu Chen’s White nightmare can also devour its owner at any time?” Qin Ye asked.

“En, so when this White Nightmare was born, the entirety of Nightmare Palace thought it was an inauspicious organism, so no soul pet trainer dared to sign a soul pact with him. I had just been serving Emperor Bai Yu’s five apprentices, so Boss Yang gave it to me, telling me to get rid of the inauspicious thing, meaning to wipe it out.” Xia Guanghan said.

“Truly ironic, you Nightmare Palace people have inauspicious things too. Haha!” Qin Ye suddenly laughed. After laughing, though, Qin Ye asked, “Then, how is this White Nightmare in his hands?”

Xia Guanghan didn’t answer. Clearly, he didn’t want to tell everything to Qin Ye either, but instead changed the topic.

In reality, when Xia Guanghan got the White Nightmare from the emperor apprentice Boss Yang, the daring Xia Guanghan wanted to risk it and sign a soul pact with this White Nightmare and make it his own.

The White Nightmare’s father was Emperor Bai Yu’s main soul pet, so its power and bloodline meant this White Nightmare must have incredible talent. Xia Guanghan was a very ambitious person. He dared to do such dangerous things.

So, when he got the White Nightmare, Xia Guanghan didn’t kill it, but instead saved it.

To make sure this White Nightmare didn’t devour its owner’s soul randomly, Xia Guanghan used these young soul pet trainers as experiment, making them sign soul pacts with White Nightmare first.

Once the White Nightmare grew to a certain point and didn’t show any strange phenomenons, Xia Guanghan would have taken it back and made it his own soul pet!

Luckily and unluckily, Xia GUanghan’s first experiment subject was Chu Mu!

Yet, as a result, White Nightmare became Chu Mu’s true soul pet. What made Xia GUanghan’s face especially steely was this White Nightmare had to ability to devour fellow species members and convert it into its own energy!

Devour souls and grow at the same time, this talent could cause countless nightmare palace experts to go crazy!!

Chu Mu's performance today completely proved Xia Guanghan's previous guesses that White Nightmare must be the best quality among other White Nightmares!

Seeing such ability, Xia Guanghan felt incredibly regretful! He hated how he didn't sign the soul pact because of his cowardice at the time, instead giving this overpowered White Nightmare to Chu Mu!!

White Nightmare's father killed the emperor of all of Nightmare Palace. White Nightmare then became the inauspicious item of Nightmare Palace, causing no one to sign a soul pact with it.

But, in today's fight, the white devil devoured the talented White nightmare "Si" of Nightmare Palace. After showing its supposed "inauspicious" ability, Nightmare Palace members presumably would get the message and regret not signing a soul pact with it before.

White Nightmare wasn't an inauspicious item!

It's just that no one knew its capricious attitude. No one could understand its heart, so no one could control it!!

Chu Mu had no clue what white devil's past was like. At least, as a spirit soul pet trainer, Chu Mu knew that the more dangerous the thing was, the more powerful it was.

If one wanted to control this White Nightmare, one must be ready to sacrifice their life and soul at a moment's notice and accept that white nightmares tendency to defeat the owner!

Chu Mu wasn't afraid, in fact going along with the White Nightmare's attitude.

What strange perseverance, it finally caused Chu Mu to witness the most shocking moment!

"Huuuuuuuuuu~~~~~~"

Nine underworld devil flames started burning brighter. After high class monarch rank white nightmare finished, the white devil was truly in ninth phase sixth stage!

Yet, the ninth phase sixth stage high class monarch, even if it was truly dominating, no matter what Jiang Yiteng and Xin Yang did, it wouldn't be able to block the White Nightmare's attacks.

"Nie!!!!!!!!!!!" The nightmare cry sounded, immediately breaking most of the spectators from their imaginations.

Following, when everyone's eyes fell on the White Nightmare, the White Nightmare showed its true strength, while Xin Yang and Jiang Yiten's other soul pets became bulliable organisms that stood shivering!

Ninth phase sixth phase, high A+ high class monarch!

Even without weakening rain, White Nightmare's strength would be a full two ranks higher than any other organism.

This Nightmare Palace were their two strongest soul pets. Without these, White Nightmare could easily beat up this so-called white nightmare

Chapter 538: Breakthrough, Seventh Remembrance Spirit Master (1)

The White Nightmare's Devour didn't end because Jiang Yiteng's Si disappeared!

Quickly, the White Nightmare's eyes locked onto Jiang Yiteng, and Xing Yang's other two Nightmares!

These two Nightmares seemed even smaller in front of this White Nightmare, and when the White Nightmare Displacement Spectered in front of the other White Nightmare, the other White Nightmare would inevitably become this White Nightmare's offering.

There was simply no need for an intense fight. Relying on its high class monarch tyranny, Chu Mu's White Nightmare firmly grabbed the remaining White Nightmare and devoured its soul, forcibly merging it into its own body!

The soul devouring speed was extremely fast this time, and everyone personally witnessed a ninth phase high stage middle class monarch White Nightmare being devoured by a White Nightmare.

As Jiang Yiteng's second White Nightmare was obliterated, the other White Nightmare's devil flames sprung up once more. Its nine underworld devil flames caused people to tremble from head to toe!

It's strength rose once more!

The White Nightmare had just increased from the ninth phase fourth stage to the ninth phase sixth stage. After it devoured another White Nightmare, it unexpectedly rose to the ninth phase seventh stage, reaching a true ninth phase high stage level!

A ninth phase high stage high class monarch!

Right now, even if these soul pets had secondary attributes, they were lower than this White Nightmare by two levels. Thus, Xing Yang's demon soul pet without a secondary attribute would be instakilled if it encountered the White Nightmare!

"It's already grown by ninety percent!!" after the White Nightmare devoured two White Nightmares, Chu Mu reaped a huge benefit.

Now, Chu Mu's soul remembrance had grown by ninety percent, and was only a small step from the seventh remembrance. As long as he was able to make this small step, Chu Mu would not have anything to fear, regardless if it was Xia Guanghan, Qin Ye, or the defector young woman!!

.....

When the even colder and bone-chilling nine underworld devil flames came, Jiang Yiteng abruptly woke up.

If he didn't take any measures, he wouldn't only lose his most powerful White Nightmare, but his other main pets would also be killed!

"Tundra... Tundra Ice Beast, stop it!!" Jiang Yiteng gave his Tundra Ice Beast an order!

The Tundra Ice Beast was ice attributed, and when the Weakening Rain disappeared, it recovered its ninth phase peak stage strength.

This enormous ice beast's single punch blew away Ye Qingzi's Warcourt Black Beast. It broke into a stride, and bravely charged at the White Nightmare. The cold aura from high ranked towering ice hit the White Nightmare.

The White Nightmare devilishly laughed, and its pair of eyes unexpectedly fixed onto Xing Yang's ninth phase sixth stage demon!

“Hu~~~~~”

The White Nightmare used Devil Phantom, and easily evaded the Tundra Ice Beast's Attack. With extreme speed, it appeared in front of Xing Yang's demon!

“Shua!!!!!!:”

Its claws burning in torrential demon flames descended. This was the White Nightmare's most basic attack!

Its claws ripped apart this demon's body. Immediately, the nine underworld devil flames rapidly spread into the demon's body, burning its flesh and its soul!

The demon raised its head, and let out a pained cry. Only, very quickly, its mouth, eyes, and nose were all filled with white colored nine underworld devil flames!

This demon was four levels lower than the White Nightmare. It was going to be instakilled!

Soon, Xing Yang's ninth phase middle stage demon was burned to ashes, and even its corpse didn't remain.

“Aside from the Tundra Ice Beast which attribute is a counter, if the other soul pets are chosen, they will die. Chu Chen's White Nightmare has already become the ruler of this fight!!”

Even a ninth phase sixth stage demon has been instakilled. This White Nightmare's strength shouldn't appear in the second grade.

Jiang Yiteng and Xing Yang's soul pets, which were powerful and undefeatable main pets in the eyes of Nightmare Palace members, had now become toys that the White Nightmare could wantonly step on. It didn't matter if the soul pets were ninth phase high stage or ninth phase middle stage, they were unable to withstand a blow!

Perhaps, everyone present, including Li Hen, Ting Lan, and Shang Heng, thought that this wouldn't be the scene that ultimately appeared. After all, Chu Mu was dominantly fighting Nightmare Palace's two strongest in the second grade!

.....

Ultimately, Xing Yang's Blue Nightmare was unable to escape its fate of being devoured!

As Xing Yang's Blue Nightmare was devoured, another large portion of soul energy was sent over. Chu Mu closed his eyes and began to absorb this soul energy. He allowed it to impact his soul remembrance and raise his soul!

“Nie~~~~~”

The White Nightmare transmitted a mental message, informing him that its devouring ability had reached its limit!

The White Nightmare couldn't devour its own species without limit. After each devour, although it could transform the energy from its own species into its own growing ability, after it grew, it required a long time to completely digest the soul from its own species.

This period of time was a long one, and the White Nightmare informed Chu Mu that this Blue Nightmare's soul was the last sliver of soul energy that it could provide Chu Mu.

The truth was that the White Nightmare had slightly overly devoured in this eighth realm. If it ate any more, it would burst. Chu Mu also knew this, and understood that the Blue Nightmare's soul energy was extremely crucial. Whether he could break through the sixth remembrance spirit master barricade was completely up to him!

“Nie~~~~~ Nie~~~~~”

The White Nightmare let out a cry, wanting Chu Mu to calmly breakthrough. It would annihilate all of the enemies!

This was the final sliver of soul energy. Chu Mu had to utilize it to successfully breakthrough. He was going to breakthrough in one push, so it was extremely important to pour his energy in right now.

Promptly, Chu Mu retreated from the fight and had Ye Qingzi protect him. He entered into a silent cultivation state, both body and mind.

Ye Qingzi knew that Chu Mu had to breakthrough the seventh remembrance spirit master and commanded his soul pets for him, continuing to attack Xing Yang Jiang Yiteng.

The White Nightmare killed two other White Nightmares, a Blue Nightmare, and a demon. Thus, the state of the fight was completely under their control, and Ye Qingzi didn't have to do much.

Especially since the White Nightmare was so tyrannical, the entire fight essentially became the White Nightmare's stage. Its nine underworld devil flames would always cause group injuries with its sweeping nature. For each time it released a technique, a few soul pets would have their bodies and souls burned.

The fight was still continuing while Chu Mu sat next to the Bell Noise Concubine in his silent cultivation state. He was attempting to breakthrough the soul remembrance.

Chu Mu had broken through to the sixth remembrance spirit master not too long ago, and his soul remembrance and soul should have been at an early stabilizing stage. However, he had absorbed such an enormous amount of soul energy in a short period of time from the White Nightmare's devouring. This was incredibly stimulating for his fiery soul origin.

This energy continuously surged against Chu Mu's soul, almost like waves.

Since this was undulating energy, there had to be moments of smoothness. If Chu Mu wasn't able to breakthrough into the seventh remembrance spirit master, when the energy smoothed out, Chu Mu

would stop at the ninety percent soul remembrance state and breaking through the bottleneck would be abnormally difficult. Especially since Chu Mu had broken through to the sixth remembrance not too long ago. This would cause the stabilizing phase to extend even longer!

Therefore, he only had one chance. If he didn't succeed, Chu Mu would perhaps have to wait another month or two, or even longer!

“Hu hu hu hu~~~~~”

Devil flames peacefully burned around Chu Mu's body. It made Chu Mu, who was sitting in black clothes, to seem even more mysterious.

“This.... Isn't this too arrogant? He's silently cultivating in the middle of a fight?!!”

“Chu Chen... what is Chu Chen doing?”

The spectators opened their eyes wide. After seeing so much, this was the first time they had seen someone sit down in a fight and enter into a soul power recovery silent cultivation state. Especially in such a dignified fight!

.....

“What is he doing?” high up, Xia Guanghan watched Chu Mu's actions, and his brows creased.

Xia Guanghan didn't dare attack right now, and could only implore Qin Ye to do so. However, Qin Ye was in no rush and floated in the air, waiting for the fight to end.

Qing Ye's goal was very simple. He just wanted to see what special abilities Chu Mu's soul pets had.

Right now, the White Nightmare had entered into the list of the soul pets that Qin Ye wanted to steal. After all, a White Nightmare that could perpetually devour its own species to increase its strength was practically too perfect. Qin Ye enjoyed stealing other people's perfect soul pets!

Qin Ye didn't care right now what Chu Mu did, because he thought Chu Mu was an overly weak brat. Qin Ye only had to summon one main pet and could defeat Chu Mu's three soul pets.

"Soul remembrance breakthrough, so obvious... however, even if he breaks through into the spirit emperor rank, his unlimited potential soul pets will still be stuck in embryonic states. They pose no threats to me. Unless he's able to increase all of his soul pets in the next few days to the high class monarch rank or the peak commander rank..." Qin Ye was indifferent as he spoke.

"In the next few days? Could it be that you don't plan on taking action?!"

"Obviously I do, but not right now. There will be an even better opportunity."

"An even better opportunity?"

"You'll find out very soon... other than that, I want his Warbeast Mo Ye and White Nightmare!" Qin Ye's eyes flashed with a glint.

"Didn't we decide before that the Warbeast Mo Ye would belong to you?" a complicated expression immediately appeared on Xia Guanghan's face.

"I've changed my mind now. Are you unsatisfied with this?" Qin Ye stared at Xia Guanghan and coldly spoke.

"I don't have memory fluid. Even if I obtain his soul pets, I won't be able to sign a soul pact. His Warbeast Mo Ye and White Nightmare will belong to you. My enmity with him is too deep. You only have to help me get rid of him... other than that, I am rather interested in his fox species soul pet. Just leave his Royal Flame Nine Tail Inferno Fox." Xia Guanghan calmly said.

"A perfect commander. If I was at the spirit teacher level, I would definitely take it. But right now, that kind of thing is insignificant. You can have it." Qin Ye said, disdainfully.

Xia Guanghan's face was hidden under the golden armor. Right now, his pale face was in a sneer, laughing at Qin Ye, this stupid and arrogant person. He fundamentally didn't understand which of Chu Mu's soul pets was the most perfect...

The Blue Nightmare's energy poured in wasn't large, and was much weaker compared to the previous energy. However, there were three continuous soul energies being poured in. Its surging strength reached the highest interference with the usual calm.

The soul power didn't linger in his body. Chu Mu began to use his soul remembrance to rapidly squeeze the soul power into his own soul.

However, this energy had all come from Nightmares, whose soul power carried flames. So when the three streams of soul energy poured in, they carried a negative side effect of burning Chu Mu's soul with a terrifyingly high temperature!

Chu Mu's present soul was already at a high temperature state, so the addition of the Nightmare soul energy was like adding oil to the fire!

The White Nightmare had devoured three Nightmares. Cyan, blue, and white colored devil flames were in the midst of Chu Mu's soul world. These three devil flames were intersecting with each other, doubling the burning effect...

Moreover, the more Nightmare soul energy that Chu Mu induced, the stronger the fire would be. It was like a nightmare, whereby his entire world was filled with devil flames.

Chu Mu's soul world was practically like a devil flame purgatory. A soul could be both the master of a purgatory, while also being the prisoner of a purgatory. It was going to be beaten thousands of time, and either it would be burned to a crisp, or it would be refined into an even stronger state. Tempering through fire and water!

Chu Mu looked calm while he sat there. He looked like he was quietly undergoing silent breakthrough cultivation. However, as he battered against the seventh remembrance, Chu Mu wanted to give all of the soul energy to his soul. The more he provided, the higher his soul temperature would increase, and the more pain he would be in...

Only, no matter how difficult it was to bear or how hot it was, Chu Mu had to persevere and absorb all of the energy. Otherwise, it would ruin everything!

"Just a little bit more!! Just a little bit. If I had just a little bit more soul strength..." Chu Mu silently said.

When Chu Mu felt that the high temperature had reached the highest point but discovered that his soul energy was still slightly lacking. If he couldn't muster the amount to breakthrough, then the energy would soon dissipate...

Only, the White Nightmare couldn't continue devouring. Where could Chu Mu obtain the final sliver of soul pet energy? In this moment, Chu Mu couldn't help but feel frustration. Could it be that he was destined to fail his breakthrough?

Defeat meant that he would have to wait a month or two, but he simply didn't have this much time...

.....

"Chu Mu's eyes are burning..." Ting Lan covered her small mouth and looked in shock at Chu Mu.

Chu Mu had closed his eyes, but even through his closed eyes one could feel his eyes overflowing with flames. It made him seem like a bronze statue being refined by flames!

Shang Heng and Li Hen both looked on with worry at Chu Mu. This sort of scene was extremely strange, and it was like a Nightmare was attaching itself to his body...

The Nightmare Palace competitors also stared at Chu Mu's every action in shock. When a Nightmare was unable to control devouring its master, devil flames would burn the master's body. Chu Mu's present situation was as if the Nightmare was devouring his soul!!

"Jiang Yiteng... our soul pets are not that White Nightmare's opponent. Let's give up..." Xing Yang's face was pale white, as he looked at Nightmare Palace's Young Master.

Jiang Yiteng's face was continuously twitching. But when he saw Chu Mu's body being burned by devil flames, his face that was incomparably pale revealed an extremely unsightly smile. Amidst the smile was a bit of excitement and frenzy!

"Hahaha, he played with fire! He devoured so many Nightmares that the souls have turned around and burned his soul. His soul is too weak, and it is unable to withstand this amount of energy!!" Jiang Yiteng wantonly laughed.

“You say that, but our soul pets...” Xing Yang had already lost two souls and Chu Mu’s White Nightmare had seized the battlefield. If they continued like this, all of their soul pets would be killed.

“Could it be you want to surrender? Hmph. Even if all four of my souls are wounded, I still wouldn’t do that. He’s already gone overboard with his cultivation, and this is the best opportunity to kill him!” said Jiang Yiteng.

Jiang Yiteng wasn’t someone who was willing to compromise. He would rather lose everything than accept less but stay in shape. This was his principle. Chu Mu had killed his strongest Nightmare so he would use the last of his strength to kill Chu Mu!

Xing Yang grit his teeth in pain. The fight had reached a point that he had never expected. As one of Nightmare Palace’s strongest, he also had his own honor. Since Jiang Yiteng was going to resolutely stake the rest of his strength to kill Chu Mu, then he wouldn’t cower in fear either. When Nightmare Palace members cultivated, they already had to prepare for their own deaths!

“My Demon Fairy has the ability to burn its own soul to steal another’s soul. It can prevent his White Nightmare from using techniques for ten seconds. Are you sure you can kill him in these ten seconds?” said Xing Yang.

“Yes!” Jiang Yiteng merely spat out this word coldly.

Xing Yang’s Demon Fairy had abnormal dark attribute talent. It could burn its own life force to steal another soul pet’s soul!

Of course, this was normally towards soul pets weaker than it by three levels. However, Xing Yang’s Demon Fairy was weaker than Chu Mu’s White Nightmare by nearly three levels. If it used this technique, the moment it entered the White Nightmare’s body, it was equivalent to jumping into a fire pit. It would definitely be burned to a crisp within 10 seconds by the White Nightmare!

The Demon Fairy that could camouflage in the shadows was a strange creature. Quickly, it locked onto the White Nightmare and took advantage of the White Nightmare being slightly inhibited by the Tundra Ice Beast to suddenly transform into a shadow that shot into the White Nightmare’s shadow!

“Nie!!!!!!!” the White Nightmare immediately discovered something enter its body, and it let out an angry shout.

The White Nightmare wanted to use the nine underworld devil flames in its body to burn this suicidal thing. However, when it called forth its inner flames, it felt something stopping it from doing so, preventing it from controlling the devil flames on its body!

“Nie!!!!!!” the White Nightmare became angry.

It had never encountered this situation before. Chu Mu was in a state of breaking through his soul remembrance, and couldn't tell the White Nightmare how to resolve this. It could only allow this strange object to shackle his body.

“I've succeeded. You must kill him and avenge our soul pets!” Xing Yang barely managed to show a savage smile!

Jiang Yiteng nodded his head, and gave his Great Lightning Snake Lion an order!

Thunder Sonic Boom!

The Great Lightning Snake Lion's strongest species technique used thunder create a boom, manufacturing a sound that was so strong it could penetrate one's soul.

If the enemy didn't defend this technique, he would definitely be injured by it!

The Thunder Sonic Boom's strength was extremely terrifying. When the Great Lightning Snake Lion used this technique, its eardrums would rupture and its ears, nose and eyes would spill with blood!

Obviously, this was a powerful technique that harmed oneself!

Once the Great Lightning Snake Lion used this technique, all of Chu Mu's and Ye Qingzi's soul pets suffered from this noise.

The sound would wouldn't actually deal any physical damage, but it could prick a soul pet's eardrums and cause them to lose consciousness.

“Ci~~~~~”

Fifty meters up in the air, all of the competitors were holding their ears. The soul pet trainers with lower soul remembrance had had their eardrums injured from which blood flowed out of.

The soul pets that couldn't withstand this sound attack let out wild roars. There were even soul pets with weak soul withstanding abilities that fell from the air. If the competition authority guards didn't rescue them in time, they probably would have been smashed to pieces!

“Tundra Ice Beast, kill him!” Jiang Yiteng ordered.

The Tundra Ice Beast had already prepared its soul beforehand so the sound attack was much weaker to it.

”“Hou hou!!!!!!!!!!”

The Tundra Ice Beast waved its long arms, and fiercely swept aside Mo Xie and the Warcraft Black Beast blocking its path. It broke into heavy strides and resembled a moving glacier as it charged at Chu Mu!

The Tundra Ice Beast was a peak ninth phase and aside from the White Nightmare, the other soul pets could only restrain it but not actually fight it. Furthermore, all of the soul pets had been injured by the Thunder Sonic Boom and would find it difficult to react.

“Beng!!! Beng!!! Beng!!!!”

After the Tundra Ice Beast knocked away the two soul pets, it leaped into the air. Its glacier ike body jumped a hundred meters long and it landed twenty meters away from Chu Mu.!

At this range, the Tundra Ice Beast merely had to raise its claw, and could deal a fatal attack to Chu Mu...

Ye Qingzi was clutching her ears. The sound attack had stunned her consciousness, and her field of vision had become hazy.

However, she was in a state of panic because the Tundra Ice Beast was already in front of Chu Mu.

Chu Mu had no defense and the moment he got hit by the Tundra Ice Beast's attack, he would be undoubtedly killed!

Chu Mu was in a precarious situation!

Ye Qingzi wanted to use soul remembrance, but she found it difficult now to concentrate and she couldn't even chant an incantation. Her heart was on fire with anxiety, as she didn't know how to protect Chu Mu!

"Chu Mu, wake up!!" Ye Qingzi barely managed to form a voice with her soul remembrance that transmitted into Chu Mu's ears.

A second later, and Chu Mu really would be killed!!

The ground trembled, but Chu Mu who was sitting there didn't react at all!

.....

When Chu Mu was battering his soul, he was missing just that sliver of strength. This made Chu Mu extremely vexed.

If he didn't succeed this time, he would have to wait a long time!

Just as Chu Mu was helpless in the face of this, a sound suddenly entered his ears and entered his soul!

Compared to the devil flames that burned his soul, this sound was painful and seemed negligible...

However, when Chu Mu was hit by this attack, he was extremely excited!

This sound attack had struck his soul, which was had presently stopped at the highest point, right on the border of the next rank. This soul attack happened to provide the perfect assistance, and under Chu Mu's powerful sixth remembrance spirit master soul remembrance guidance, it caused Chu Mu's soul to breakthrough the bottleneck and step into the seventh remembrance spirit master rank!!!

Chu Mu didn't know where this technique came from, but he thanked the user from the bottom of his heart. This person had bestowed him this energy when he needed it the most to hit his soul!

The seventh remembrance meant that one had stepped into the high remembrance spirit master rank. This was a small leap for one's soul remembrance.

Once one's soul remembrance strengthened, one's soul power would increase. Additionally, one would be able to add another soul pact. All of this was already worth being excited over.

But most importantly, Mo Xie's mutation conditions had been fulfilled!!

He only needed to give Mo Xie a slight stimulus, and the pseudo monarch rank Mo Xie would be magnificently born!!!

## Chapter 540: Fourteen Billion, Incredible Sum

Chu Mu couldn't hold back the joy in his heart, having even more anticipation for Mo Xie's mutation to perfect monarch rank!!

“Chu Mu!!!!!!!”

“Wuwuwu!!!!!!!!!!”

“Nie!!!!!!!!”

“Houhouhou!!!!!!!!!!”

Suddenly, in his buzzing ears came Ye Qingzi, Mo Xie, White Nightmare, and Zhan Ye's alarmed calls.

Chu Mu was secretly happy. It seems that they all knew his strength had broken through and were cheering for him. But, it was strange. Why did they sound so panicked?

The moment Chu Mu opened his eyes, Chu Mu lost his cool. He finally realized why his soul pets and Ye Qingzi were calling out this sharply!

Chu Mu didn't imagine that, with a stadium with White Nightmare, the two crippled soul pet trainers still had the chance to fight back.

Opening his eyes, the first thing that fell into his vision was a huge muscular glacial creature covered in ice armor. Its claw, large enough to shatter mountains, lifted high up, and gathered a space freezing large Towering Ice ability, smacking down forcefully!

The Tundra Ice Beast was massive, but its attack speed wasn't any slower. Just as it lifted its claw up, it already came hurtling down!!

This moment was what tested Chu Mu's mental strength. If it were any other normal person, seeing a huge claw coming the moment they opened their eyes would definitely scare them enough to cause their minds to go blank, let alone start an incantation.

Yet, Chu Mu almost instinctively reacted the moment his eyes opened, starting the Displacement Specter incantation!

Initially, Chu Mu needed a whole second to cast Displacement Specter. However, as Chu Mu's remembrance became stronger and he was more adept at techniques, this dodging technique could be casted almost the moment Chu Mu thought of it!

The most important thing about dodging techniques is casting speed and reaction speed. When the icy claw fell down, Chu Mu's body was engulfed in devil flames, quickly burning through Chu Mu's body.....

The Ice Tundra Beast's claw was even larger than Chu Mu. Coming downwards like that, no one could see the displacement devil flames that flew up suddenly on Chu Mu.

The ice claw slammed down solidly. Ye Qingzi immediately lost all her composure to shock and fear. Holding her mouth, tears were almost rolling out of her eyes.

Yet Xing Yang and Jiang Yiteng, who were doing their utmost to kill Chu Mu, smiled with prevalence on their pale faces.

The final victory was still theirs! No matter how many of their souls were hurt, as long as they were alive, they could ultimately recover. Chu Mu, on the other hand, was permanently gone from this world!

The effects of the sonic boom was dimming away. The spectators in the skies all saw the giant ice claw fall on Chu Mu, and Chu Mu's body almost instantly getting squashed!

"How is that possible....." Shang Heng stared despondently at the large claw.

"Too careless.....too careless....." Luo Bing's face stared lifelessly.

All of soul palace members lost their cool too. This result was beyond everyone's expectations!

Li Heng was much calmer than everyone else. His remembrance was the highest, so he was also the only one that saw the devil flames that popped up under the ice claw!

These devil flames came from White Nightmare's powerful dodging ability, Displacement Specter.

Though Li Heng could hardly believe Chu Mu could complete the technique so quickly, he could watch the battlefield more calmly than anyone. He was looking.....looking for another position where devil flames would pop up!

Indeed, on the back of the Tundra Ice Beast, at first, there was the ripple of a strand of White Nightmare flames. Following it right after was a sprout of nine underworld devil flames that quickly burned upwards. One could see the black clothed Chu Mu standing devilishly on the back of Tundra Ice Beast!

The person in the devil flames was Chu Mu. Seeing Chu Mu successfully dodge the Tundra Ice Beast, Li Heng let out a long breath. However, he quickly noticed that Chu Mu was extending his flaming hand into the Tundra Ice Beast's back!

Obliterating Heart!!!

Li Heng saw Chu Mu's technique. It was this technique that instantly killed Shen Yichen's Violent Blood Pool Beast!!

Chu Mu's actions were very quick. As a seventh remembrance soul master, Chu Mu was even better and more powerful at using techniques!

.....

“Beng!!!!!!!!!!!!!!”

A shatter sounded!!

Chu Mu single handedly crushed the innard crystal that he pulled out of the Tundra Ice Beast's body!!

The Tundra Ice Beast was a beast type organism made of countless ice pieces. Once its human-like heart was shattered, its life force immediately depleted!

Losing the life source for the innards crystal, the Tundra Ice Beast crumbled like a glacial mountain that lost its supporting rock foundation, rumbling as it collapsed completely!!

“Longlonglonglong!!!!!!!!!!”

The death of the Tundra Ice Beast was very sudden. While everyone was still preoccupied by Chu Mu's death, the sound of the Tundra Ice Beast collapsing woke them up.....

Ice constantly fell on the ground, breaking and melting.

Amongst the white fragments, one could see a black figure- cold, yet proudly standing in the Tundra Ice Beast's broken ice shards. The wild, demonic, yet hidden killing intent behind the cold pupils caused one to shiver!

“Dear god, he didn't die!!!”

“Chu Mu didn't die, yet the Tundra Ice Beast died!!!”

Chu Mu was already a seventh remembrance soul master. Of the people present, other than Li Heng, no one saw Chu Mu's actions. Everyone was shocked immediately!

.....

Chu Mu stepped forwards from the countless ice shards.

Specially taking a look at Ye Qingzi, a smile flew onto his cold face.

Ye Qingzi started crying of joy. Wiping the corners of her eyes, she said, “Can't you scare me less?”

Chu Mu only laughed and replied, “I've broken through seventh remembrance soul master.”

Ye Qingzi didn't know why Chu Mu had to break into seventh remembrance soul master, so she immediately adjusted her emotions and said to Chu Mu, “First, get rid of them, or else if Qin Ye appears, we'll be in big trouble.”

“Hehe, I'm just afraid he won't come.” Chu Mu laughed mysteriously.

If Qin Ye doesn't come, who would stimulate Mo Xie into mutating?

Ye Qingzi didn't know why, after Chu Mu woke up, he was laughing like an idiot, so she complained cutely, “What's wrong? Is seventh remembrance really that important?”

“Very quickly, you will know.” Chu Mu said.

When Chu Mu and Ye Qingzi were laughing and talking, Jiang Yiteng and Xing Yang both spit out blood!

Not only did this person not die, he still had the time to talk with that woman. One had to know that the both of them were trying their absolute hardest to kill Chu Mu!

“Nie!!!!!!!!!!”

Ten seconds had finally passed. White Nightmare’s internal nine underworld devil flames completely burnt the demon fairy into pieces. Xing Yang’s twisted face again started twitching, barely able to stand anymore!

After White Nightmare’s imprisonment was removed, the entire Heavenly Life Mountain peak was disturbed by an imposing soul devil flame aura. This soul piercing energy felt like countless demons forming legions, bringing White Nightmare’s greatest wrath towards Jiang Yiteng and Xing Yang!

“White Nightmare, kill his soul pet!” Chu Mu gave a command to White Nightmare!

Chu Mu hoped Mo Xie could mutate right now, but with opponents like Jiang Yiteng and Xing Yang, there was no need for Mo Xie to mutate. Let alone, even when these two people’s soul pets were defeated, it was not enough to stimulate Mo Xie’s mutation!

To mutate, Chu Mu had to go against a powerful enemy!

.....

The angry White Nightmare became even crueler. Both Xing Yang and Jiang Yiteng only had one soul pet remaining.

Very quickly, the Great Lightning Snake Lion was locked onto by White Nightmare. It directly appeared in front of it, devil claw extending into the injured Great Lightning Snake Lion and heavily ripping it apart!!

“Sila~~~~~”

“Sila~~~~~”

The Great Lightning Snake Lion couldn't resist at all. Its massive purple body was ripped into multiple shreds cruelly by the White Nightmare. Finally, even the corpse of the White Nightmare was burned clean by the nine underworld devil flames!

Great Lightning Snake Lion's death meant Jiang Yiteng was four souls down. Such a wound was very lethal. He was curled up on the ground, pale on the face, as well as bloodless all over.

The soul wound caused him to look utterly weakened. His life force was also dropping. Any slight soul attack and Jiang Yiteng would definitely die from having too weak of a soul!

Xing Yang similarly didn't fare better. When his fourth soul was killed by White Nightmare, he also fell onto the ground.....

Looking down from above, one could see the weakened and pathetic figures of them.

Up until now, the nightmare palace members didn't believe that the two most powerful experts of Nightmare Palace would lose this badly!!

Nightmare Palace members could no longer speak anymore. Yet, with the victory ensured, soul palace members all smiled. Except, their smiles were somewhat strange too.....

If Chu Mu used his soul palace seven diagram sacred soul pet to defeat the two, they would definitely shout and cheer with joy and view Chu Mu as a hero of soul palace.....

Yet, Chu Mu used his White Nightmare, and an utmost evil one at that. Chu Mu gaining the honor for soul palace was way less important than the shock Chu Mu brought them himself.

.....

“Prisoner rings, give them up.” The black clothed Chu Mu was like a reaper that controlled life and death. Standing arrogantly in front of the two Nightmare Palace experts, he commanded.

Jiang Yiteng and Xin Yang had never experienced such failure. Other than a deep sense of shame, their eyes were also filled with the utmost hatred for Chu Mu.

“I won’t say it a third time, give up the Prisoner Ring!” Chu Mu said!

Finally, Jiang Yiteng and Xing Yang gave up their prisoner rings. After all, their absolute loss was a reality in front of them, no matter their shame or hatred towards Chu Mu!

Jiang Yiteng and Xing Yang’s prisoner rings added up to around 7.5 billion. Coupled with Chu Mu’s 6.5 billion, Chu Mu gained 14 billion gold from this eighth realm.

14 billion, this was enough to buy near three ninth rank soul armors, fully armoring his soul pets. This gold could also be used to create even more high rank monarch ranks to increase his strength greatly!!

The second tier strongest member Ling He only had a 5 billion gold soul armor. If Chu Mu completely used up this 14 billion, then he would become a truly invincible being in second tier. Gaining the final honor would be as easy as a flick of his wrist!
