

## Soul Pets Bk2 561

Chapter 561: Sin Flame Totem, Epoch Flame Lotus

Sin Flames were dark red in color, a mixture of blood and darkness, as well as a heat that could incinerate everything!

Mo Xie's body was completely enveloped in the Sin Flames, her body seemingly merging with the flames, leaving only the cold noble eyes visible!

“Huhuhuhuhu~~~~~”

Sin Flame's aura created an entrenching influence that created immense pressure in the hundred meter radius around Mo Xie.

What was more surprising was, on the black ground under Mo Xie, a massive Sin Flame Totem appeared bizarrely. This totem hid the most powerful ability of the seven sin fox's ability to bring disaster to the world. At the same time, also sealed within it was infinite energy!!

The sealed totem was shocking; the Rock Statue Guards didn't dare to step towards it in the slightest, all backing off quickly in fear.

Standing at the center of this Sin Flame Totem was Mo Xie, her silver noble body slowly appearing amongst the rapidly burning Sin Flame!

The first to appear was Mo Xie's skull. Compared to the Royal Flame Nine Tail Inferno Fox, her appearance didn't change much. However, her angular eyes were now decorated by flamboyant sin lines; the sin lines almost covered all of Mo Xie's face and neck- almost like a cold mask!

These lines on Mo Xie's face not only broke up the fox monarch's famously beautiful appearance, it actually added a touch of a monarch's unique pride!

Royal Flame Nine Tail Inferno Fox's body was the combination of power and beauty. Furthermore, as a seven sin fox monarch, after Mo Xie mutated, her body had found the perfect balance between power, elegance, demoniness, and wildness- seeming like the perfect life form.

No matter her body proportions, muscles, length of four limbs, there wasn't a single disharmony found on this fox's body. Down to every single silver-like hair, she seemed intricately engineered. As they flowed in the wind, countless soul pet trainers would go crazy over her perfect form!

Mo Xie's nine most shocking tails didn't disappear, instead spreading out further along the sin flame totem. They were spread out uninhibitedly over the ground; some were unfurled, while others waved along with the release of sin flames, creating a magnificent fox tail diagram!!

Every soul pet trainer knew that one couldn't value the appearance of a soul pet too much. However, from a human's sense of beauty, even veteran old soul pet trainers, when looking at a soul pet, would naturally be attracted by a soul pet's appearance, because a soul pet's appearance often decided the growth situation and decided their power!

Thus, with her elegantly sculpted muscles, pure colored and high quality fur, well angled and gleaming armor, powerful and flexible limbs.....these were all objectively beautiful traits for beast type soul pets.

The seven sin fox that appeared from the sin flames again made Chu Mu reconsider what truly was perfection in art. One couldn't believe how such a maximally elegant being could be considered the source of all disasters!

Seven sin fox's true perfectness definitely was not just because of their appearance. Its power was even more perfect, in fact surpassing its own species rank!!

Just as Old Li shouted out loud, the seven sin fox itself was perfect monarch rank. Its beast type and demon type energy's combination made its innate strength beyond monarch rank, reaching pseudo-emperor rank!

Adding on the sin flames that were rumored to incinerate worlds, Mo Xie's fighting strength would reach low class emperor rank!!

Pseudo emperor rank and low class emperor rank were nearly three ranks apart, meaning any attack of Mo Xie could instantly kill the tenth phase ten thousand leg centipede back in the centipede abyss!!

In the seventh realm, facing the ten thousand leg centipede, Chu Mu could only look on in despair, but now the ten thousand leg centipede was nothing but a pathetic bug now!

The most important thing was, what Chu Mu currently faced was a thousand strong monarch army. However, they were all completely subdued by Mo Xie's emperor aura. Not a single rock statue monarch dared to attack Mo Xie. The high class monarch rank that attacked Mo Xie before was now like a statue, frozen in standing. Clearly, even this high class monarch rank Rock Statue Guard didn't think the royal flame nine tail inferno fox would have this mutation!

In front of the seven sin fox inferno monarch Mo Xie, the high class monarch rank Rock Statue Guard was infinitesimal, causing it to lose the courage to even run away!

The long, dragon-like tail slowly extended forward, while Mo Xie stayed in place. Her fox monarch tail slowly snaked its way towards the high class monarch rank Rock Statue Guard, lifting it up.

Rock Statue Guard didn't have any ability to resist. The fox monarch tail had the imprisoning power of the sin imprints. As a high class monarch rank Rock Statue Guard, there was no way for it to struggle free!

Mo Xie's eyes were cold and proud, like a cruel monarch that was gazing down upon its inept servant, and then executing it unhurriedly!

“Beng!!!!!!!!!!!!!!”

Suddenly, Rock Statue Guard's body shattered under the fox monarch tail's power!!!

High class monarch rank Rock Statue Guard's defense was ninth rank complete stage. Only a tenth rank power could kill it. Yet, Mo Xie didn't even seem show effort before crushing the high class monarch rank!!

Rock Statue Guards had their own wisdom. They had Mo Xie surrounded in hundreds of circles. However, when they saw their commander killed like an insignificant ant, all the Rock Statue Guards started shaking!

.....

Mo Xie's eyes were cold with fury!

Now, facing the Rock Statue Guards that had tried to kill her not long ago, the angry Mo Xie wanted them to feel the helpless despair of death!

“Wuwuwuwuwu!!!!!!!!!!!!!!”

Mo Xie let out a powerful call!

This voice was like a sprout of flames, darting into the low hanging black sky!

The sin flame totem under Mo Xie slowly dimmed away. With the angry call of Mo Xie, the sin flame totem slowly rose into the air instead.

Finally, the sin flame totem fell upon the black sky, shrouding the entire altar plaza!!

The entire altar plaza was nearly one thousand meters in length. One could imagine just how grand and majestic a sin flame totem that could cover the entire plaza was; it was completely blocking off the entire black sky!!

Sin Flame Totem - Epoch Flame Lotus!

Rumor was that, when the seal didn't exist, the Seven Sin Fox Corrupted Inferno Monarch used this exact technique that incinerated worlds!

Even if they were burdened with the source of sin, even if their energy was sealed, the world flames could still cause an entire region's organisms to turn to ashes!

The dark red flames slowly dripped down from the sin flame totem and didn't look much different than the most normal flames. In fact, even while falling, it was incredibly quiet.....

Suddenly, when the dark red flames fell on the ground, a terrifying darkness and blood inferno lotus blossomed from that location!!

The inferno lotus immediately devoured the Rock Statue Guard's surroundings, leaving these Rock Statue Guards no chance to even struggle, burning away into ashes under this power!

How great were low class monarch rank Rock Statue Guards? Yet, with one drop of the flame lotus, they were instantly killed!

Very quickly, more and more inferno lotus dew dropped down from the sin flame totem, and every time it fell, more blossoms of death appeared to destroy nearby Rock Statue Guards!

“Honghonghong!! Honghonghong!!!!!!!!!!!!!!”

The sin flame totem became an apocalyptic judgement. Thousands of Rock Statue Guards withstood the fury of the inferno monarch. The entire altar plaza was filled with incredibly hot inferno lotus that were both brilliant yet merciless!

.....

“Zhizhizhizhi~~~~~”

In the distance, the special informational soul pet let out a hurried cry.

From its vision sharing with the informational soul pet trainer, the trainer couldn't possibly judge that Mo Xie had a species mutation.

All in all, he only saw a seven sin fox appear out of sin flames before the catastrophic scene unfolded, nearly burning the little weak informational soul pet!

Informational soul pet trainer himself was dazed, relaying the message to the rest of the plaza after a while.

.....

The entire Tianxia City was still in its silent state. In reality, everyone was waiting for the news of Chu Chen and his soul pets' death.

“Soul palace Chu Chen.....he.....he isn't dead. For some reason, there suddenly appeared an emperor rank fire type soul pet!!!”

“The emperor rank fire type soul pet was killing Rock Statue Guards in packs, instantly burning them all using inferno lotuses!!”

Emperor rank fire type soul pet?

Low class monarch rank Rock Statue Guards being instantly killed in packs?

What was this concept? The second tier young generation members could already enter the ninth realm with a tenth phase low class monarch rank soul pet!!

Yet now, such a rank was being instantly killed, and in clumps at that!!

Sighing noises sounded all around, because no one wanted to believe this unbelievably fake news!

“The news is real!” At this moment, one of the four chairs used their soul remembrance to make sound that spread towards all the people’s ears!

“The immortal city staff sensed a huge amount of fire energy come from the blood beast altar!”

Informational soul pet trainers could lie, but could the Battle of the Realm leaders, and the authoritative elder Hai Qiu, lie?

At this moment, the entire plaza finally realized that what the informational soul pet wasn’t fabricated!!

If this were real, then the emperor rank soul pet that were instantly killing Rock Statue Guards, it truly existed!!

If even the competition staff of the immortal city felt the flame energy’s spread, one could imagine the terrifying fire type calamity that was ravaging the blood beast altar plaza!!

“Emperor rank..... heavens!!” Zhao Cheng cried out loud.

“Chu Chen was right there, and this emperor rank soul pet was clearly helping Chu Chen fight the near thousand Rock Statue Guards..... can it be.....” Soul palace members all showed shock. If they continued that line of thought, they wouldn’t even believe it themselves!

“Can it be, this is Chu Chen’s true main soul pet - an emperor rank existence!”

“Emperor rank main soul pet..... this Chu Chen is too abnormal!!! This kid is going to get disqualified in his first competition!!” Old spirit teacher De could no longer sit still, shouting out loud!

Chapter 562: Species Catastrophe, Indignant Sin Fox

Gorgeous flaming lotuses continuously blossomed throughout the entire plaza. With each destructive flame attack, they rapidly smashed the plaza.

The entire plaza was composed of black rock that was several hundred times sturdier than normal rock. Using defensive terms to describe it, the ground had reached the equivalent of a ninth rank defense.

However, under Mo Xie’s Sin Flame Totem - Epoch Flame Lotus’ tenth rank might, the ground had been completely smashed, caved in, and shattered. The indignantly burning sin flames even began to extend outside the plaza, igniting the black wood walls!!

A tenth rank technique!!

Chu Mu stood at the center of the flame lotus, and watched with a face full of shock as the sin flames imprinted everything red. His eyes were illuminated by the gorgeous dark red flames!

Chu Mu himself didn’t know how long this technique persisted. He could only see the statue guards slowly being swallowed up and destroyed. This monarch legion, which originally should have been undefeatable, was now unable to withstand a single blow. It was truly hard to believe that these were monarch soul pets that he had, once upon a time, could only look up and revere!

“Long long long long~~~~~”

The remnants of the fire explosion still lingered in Chu Mu's ears. He scanned his surroundings, and discovered that the statue guards two hundred meters around him had all transformed into smashed rocks and ashes.

There had probably been 200 statue guards that met this fate. One technique unexpectedly annihilated 200 statue guards. Even Chu Mu was slightly disbelieving that the one which possessed such powerful destructive power was his very own Mo Xie.

“Wu wu wu wu!!!!”

The statue guards' defenses were extremely high. If the creatures on the battlefield had all been under the monarch rank, Mo Xie's technique would have been able to kill thousands!

Two hundred statue guards had been eradicated, and the remaining seven hundred statue guards had more or less been injured. They looked like a ruined army!

However, Mo Xie seemed to be unsatisfied with this kind of destructive power!

The Seven Sins Fox wasn't an elemental world soul pet. If an elemental world soul pet were to use Epoch Flame Lotus, it would definitely be able to kill most of the statue guards present!

The death of two hundred statue guards was clearly not enough to pacify Mo Xie's anger!

Suddenly, Mo Xie disappeared from the sin flames. Her speed had reached a level that Chu Mu couldn't even see her!

In the next instant, Mo Xie astonishingly appeared in the statue guard legion. Her nine sin imprinted fox monarch tails were like nine boundless creatures, beautifully but savagely unfurling their bodies as they began to fiercely strike the statue guards!!

Each sin imprinted fox tail was suffused with a special marking. These sin marks were the most pure type of energy, and when they struck a statue guard's body, their ninth rank middle stage defense would be instantly shattered!!

“Pai!!!! Pai!!!!!! Pai!!!!!!!!!!”

Mo Xie didn't use any techniques. The moment she swiped out with her claws, a statue guard's head would fall off. Her nine sin imprinted tails seemed to possess life, as they autonomously attacked the surrounding statue guards.

Mo Xie's calm slaughter and the destruction of the statue guards losing their heads out of fear created a stark contrast. The grey pieces of rock were the statue guards' flesh, and the current scene could only be described as carnage!!

“Wu wu wu!!!!!!!!!!!!!!”

Suddenly, Mo Xie's nine sin imprinted tails began to dance and imposingly wave!

Wherever the sin flames went, a bright light would appear before transforming into Sin Flame Whips!

Sin Flame Whip!

Mo Xie's tail suddenly used her strength to fling Sin Flame Whips in all directions!

The sin flames on the nine fox monarch tails transformed into flaming whips. Each whip reached a terrifying several hundred meters in length. They were incomparably concentrated as they flung out. Consequently, another large group of statue guards was crushed under this force!!

In the blink of an eye, another hundred statue guards had been crushed under Mo Xie's ruthless attack. Regardless if they were low class monarchs, middle class monarchs, or high class monarchs, it was hard for them to escape this destiny of death. The entire altar plaza was now filled with a dense aura of destruction!

“Young master!!!” Old Li's voice suddenly reverberated in Chu Mu's mind.

“Stop making a big fuss. Just say what you want to say.” Chu Mu had enough of Old Li's yelling.

Ever since Mo Xie mutated, Old Li didn't stop shouting and it seemed as if he was about to go crazy.

“Your small fox is now a Seven Sins Fox. These statue guards aren’t very smart, and don’t have a true commander. They can only dumbly defend this area.” Old Li spoke very quickly, meaning that he was very excited.

“What do you want to say?” Chu Mu didn’t understand Old Li’s words.

“Your small fox’s strength is abnormally high. Although there are nearly a thousand statue guards, as a Seven Sin Fox, there’s no need for it to personally waste time to trample these weak things. Just have Mo Xie use Species Calamity, and you’ll witness a stunning scene!” Old Li said in incomparable excitement.

“Species Calamity?” just from hearing the name of this technique, he immediately knew this was a formidable technique. Chu Mu was excited.

“Mo Xie, use Species Calamity and annihilate them!” although Chu Mu didn’t know what Species Calamity was, since Old Li said it could cause a species to self-destruct, it would definitely be an extremely extremely powerful technique!

“Wu wu wu wu!!!!!”

Mo Xie’s attacks suddenly stopped, and her pair of eyes blazing with destructive torches of fire became even more resplendent!!

A strange phenomenon occurred once more. The sin flames on Mo Xie completely covered her body, transforming her into a ball of burning sin flames.

Inside the sin flames, Mo Xie’s long, narrow, and imposing eyes suddenly appeared. Her pupils were several times larger than normal circumstances. When one stared closely, he or she would gradually feel that the ball of sin flames that Mo Xie had transformed into was, in reality, Origin Flame that the Seven Sins Fox Flame Monarch always thought would burn down the world!

In her pupils, nothingness transformed into Origin Sin Flames that ignited the plaza. The light from the Origin Sin Flame seemed to resemble countless staring sinful eyes!!

The statue guards had green colored eyes, but when Mo Xie's Species Calamity technique finished, the nearby statue guards' eyes gradually turned a savage dark red color!

More and more of the statue guards' eyes began to change color. If one looked closely, he or she would discover that a ball of small Origin Sin Flame had been imprinted into their eyes!

"Young master, have your small fox kill the high class monarch rank statue guards. Then, you and your small fox will be able to sit to the side and drink some tea while chatting." said Old Li.

Although Chu Mu really didn't understand, he still had Mo Xie find the high class monarch rank statue guards.

There were not even ten high class monarch rank statue guards leftm and Mo Xie quickly locked onto them!!

"Sou sou sou!!!!"

It was as if Mo Xie had entered an uninhabited region. None of the hundreds of statue guards were able to do anything to stop any of Mo Xie's actions!

Mo Xie only had to expend a bit of energy to kill the high class monarch statue guards. Chu Mu only saw an incomparably gorgeous dark red light of fire flash amidst the statue guard legion...

"Beng!!!!!!"

The first high class monarch rank statue guard was ripped to shreds by Mo Xie's sin flame claws!

"Beng!!!!!!"

The second high class monarch rank statue guard was crushed by Mo Xie's fox tail!

"Wu wu wu wu!!!!!!"

Ostensibly feeling as if killing them one at a time was a waste of time, the extremely fast moving Mo Xie split into six figures!

“Young master, this is no longer a simple illusion technique. Instead, it closely resembles a doppelganger technique!” Old Li immediately cried out.

Chu Mu hastily used his soul remembrance to follow Mo Xie’s steps. He abruptly discovered that the six doppelgangers Mo Xie had split into had each locked onto a different high class rank statue guard in different locations!

“Although the doppelgangers will only last for a very short period of time, they are able to utilize seventy percent of your small fox’s true body’s attack power. This is enough to kill these high class monarch rank statue guards!” said Old Li!

“Beng!!!!!! Beng!!!!!!!!!! Beng!!!!!! Beng!!! Beng!!! Beng!!!!!!!!!!”

Practically the moment Old Li’s voice faded, six high class monarch statue guards at different locations on the altar plaza were ripped to pieces!!

“The high class monarch ranks have all been killed. You’ll now be able to witness the Seven Sins Fox’s most terrifying ability!” said Old Li.

Chu Mu really did want to know what this so-called Species Calamity was.

“Wu wu wu wu wu wu!!!!!!!!!!”

Mo Xie had already returned to Chu Mu at some unknown time. She had stopped all her attacks. Instead, she raised her head, and let out a deafening howl!

After the emperor sound rang out, all of the statue guards began to clearly tremble. Immediately following, the dark red Origin Sin Flames imprinted in their eyes began to violently burn!

Presently, one could see both ruthlessness and savagery in their eyes. Most astonishingly, they had locked onto the closest member of the same species!

There was both extremely profound hostility and a 'fight to the last breath' anger that was inextinguishable.

“Your small fox has transformed into the wrath fox monarch of the Seven Sins Foxes. It will spread wrath through an entire species like the plague, causing them to kill each other out of wrath!” said Old Li.

“Kill each other...” Chu Mu was even more shocked in his heart. If he were to spread the wrath to a soul pet empire that possessed millions of soul pets, the entire species would start killing each other. This truly was a species calamity!

“Ao!!!!!!!”

“Ao!!!!!!!”

The statue guards infected first finally went mad. They raised the rock blades in their hands, and struck their own species members with incomparable wrath!

The statue guards struck by members of their own species were angered. And they retaliated in wrath!

The wrath slowly began to spread from the first location like the wars of flame. Gradually, it evolved into a fight between all of the statue guards!

Not long after, the entire plaza had transformed into a massacre among these statue guards!

To think that, not long ago, Chu Mu and Mo Xie were facing undefeatable enemies. But now, Chu Mu and Mo Xie were standing on the side, watching this species massacre each other!

Mo Xie's species mutation this time had been so powerful, it had far surpassed Chu Mu's imagination. Thinking of the situation in the seal, Chu Mu's eyes suddenly flashed, and the expression on his face gave the story of what he wanted to say: “Xia Guanghan, Qin Ye. Is it possible for you to survive now?”

Chapter 563: The Seal Under the Seal!

“The statue guards have begun to kill each other!!”

The news rapidly transmitted to Tianxia Plaza, which immediately erupted again!! Right now no one was clear what was happening over there!!

“Internal strife. Could that emperor rank soul pet be a demon with powerful mental strength? Have that messenger soul pet describe the details!” said Elder Hai Qiu.

The messenger soul pet, from far away, quickly described the shape of the emperor rank soul pet and its abilities to Elder Hai Qiu.

“This... dark red colored flames... there seems to only be one type, right?” Old Soul Teacher De stroked his beard.

“Yes, sin flames!” Hai Qiu and the Soul Palace four seat elder nodded their heads.

“A soul pet that has sin flames, nine sin imprinted tails and looks like a fox monarch. Moreover, it is capable of causing soul pets to kill each other... why have I not heard of this soul pet before?” Old Soul Teacher De was experienced and knowledgeable; however, for a moment, he was unable to determine what it was.

“Could it be... it is the soul pet in legends that is capable of causing species calamity - the Seven Sins Fox?!” said Hai Qiu.

Hai Qiu’s words caused numerous higher ups of the Tianxia competition authority to show shocked expressions.

At this moment, the Soul Pet Palace and Soul Palace elders of the four seats looked at each other with extremely complex expressions!!

“Hai Qiu, if I didn’t remember incorrectly, the nearly thousand statue guards are the guardian creatures situated even deeper in the Blood Beast Altar...”

“If the one that appeared there is a Seven Sins Fox, then it’s capable of causing these statue guards to completely annihilate one another. And the moment the statue guards no longer remain...”

Hai Qiu’s face was full of worry right now. It was originally impossible for even an emperor rank soul pet to kill all of the statue guards. However, they never expected that the powerful emperor soul pet summoned by Chu Mu would have such a terrifying ability!

“It’s extremely dangerous. Go now, and inform the first seat!” at this moment, the two elders that knew of Immortal City’s secret were extremely worried!

.....

Hai Qiu quickly transmitted the information to the first seat, Tian Ting. Tian Ting creased his brows, because he never thought Chu Mu would have a Seven Sins Fox!

“His majesty Li Hong has already gone east. The only person who can suppress the Blood Beast Emperor is you. If you don’t take action, the Immortal City will be met by a hard to suppress disaster.” Hai Qiu said very earnestly.

“Who put the second grade’s final honor at the Blood Beast Altar? What an absolutely stupid idea!!” Tian Ting’s face was unsightly.

The core members of the Tianxia authorities knew that the Blood Beast Altar had two seals. The first seal was a normal high class monarch seal, while the guardian creatures were merely six low class monarch rank statue guards.

However, underneath this seal was an even larger seal. The guardian creatures of this seal was the nearly 1000 statue guards from the entire plaza!!

There were nearly a thousand statue guards. Unless one had a middle class emperor rank, it would be extremely difficult to kill them all.

Only, the Species Calamity technique was extremely special, and it caused the statue guards to kill each other. Therefore, in a short period of time, nearly all of the statue guards would meet their deaths!

Once all of the guardian creatures were killed, the seal would become very unstable, and the sealed Blood Beast King would very likely be able to use its own strength to shatter the seal!

“Fortunately Xie Tao is already heading to Blood Beast Altar. However, Xie Tao alone may not be the Blood Beast King’s opponent. Just to be sure...” Hai Qiu solemnly said.

“I’ll go over!” Tian Ting’s face went cold. He most hated it when issues kept arising, especially when he had to personally do something.

.....

Inside the seal.

Qin Ye looked with contempt at Chu Mu’s Zhan Ye.

In his opinion, there was no Mo Ye stronger than his emperor species Mo Ye. Even if Zhan Ye had six times the usual life force, it could not fight against his emperor species Mo Ye!

With each attack, the emperor species Mo Ye would carry a dense darkness aura. This darkness effect would cause its attacks to at least double in strength. Moreover, the corroding strength from the darkness was an extremely powerful counter to high ranking defense. Zhan Ye’s ink armor and ninth rank soul armor would unlikely be of much use.

“Hou hou!!!!!!”

Zhan Ye’s ink armor had been intensely corroded already. Its darkness attribute was weaker than the opponent and thus there was no immunity.

It slightly trembled as it stood up and its pair of black eyes stared closely at the emperor rank Mo Ye!

This was already the second fight with an emperor species Mo Ye. Last time in the desert, the emperor species Mo Ye had made Zhan Ye feel enormous humiliation, by heavily injuring it with one attack. Especially since they were the same species, and at the same rank and phase and stage!

“Hou!!!!!!” Zhan Ye let out a low roar at Ye Qingzi.

Zhan Ye’s roar told Ye Qingzi that it didn’t need any healing or life force strengthening. It would rely on its own strength to defeat this emperor species Mo Ye!

“Zhan Ye...” Ye Qingzi could feel the stubbornness of this soul pet.

In reality, Ye Qingzi, Ye Wansheng, and Princess Jin Rou’s fight were also extremely difficult. Their four soul pets each were being fought by Xia Guanghan and Qin Ye’s other main pets. Moreover, in this short period of time, their soul pets had suffered numerous injuries. If it wasn’t because they were being healed, they would have already perished.

Compared to Zhan Ye that could Broken Limb Rebirth, their soul pets required Ye Qingzi’s healing.

The injuries on Zhan Ye’s body was already affecting its movement. Its body began to secrete insect fluid. This fluid rapidly healed its body, allowing it to return to a good-as-new condition!

Moreover, along with the Broken Limb Rebirth effect, the Brave Stinging Heart energy appeared. Zhan Ye’s strength began to rise, reaching the ninth phase high stage!

“Strength increase?” Qin Ye’s face showed a shocked expression.

Qin Ye knew that Chu Mu’s Warbeast Mo Ye had the ability to Broken Limb Rebirth six times. But he didn’t know that Zhan Ye could increase its strength during a fight.

Moreover, Qin Ye valued Zhan Ye’s six Broken Limb Rebirth ability and could always later teach it an ability to increase its strength. But now Qin Ye was greatly shocked. Chu Mu’s Warbeast Mo Ye unexpectedly had a technique to increase strength!!

“Ninth phase high stage. It turns out this was a top quality Warbeast Mo Ye!” Qin Ye’s face was immediately filled with ecstasy.

This wasn’t some semi-complete good. Instead, it was a perfect Mo Ye!!

“Perfect Mo Ye, perfect Mo Ye. This is too good!!! This is too good!!! This belongs to me! Although it’s a bit lacking to my emperor species Mo Ye, this is already very perfect!” Qin Ye was a bit deranged!

Zhan Ye’s eyes were apathetic. It was indifferent towards Qin Ye’s deranged manner. Right now, all of its focus was on its fight with the emperor species Mo Ye.

Still a bit lacking to the emperor species Mo Ye?

Zhan Ye could understand what Qin Ye was saying, and it snorted disdainfully!

Zhan Ye wanted to make Qin Ye understand that this emperor species Mo Ye was a piece of trash!!

.....

There was no bottleneck effect on Zhan Ye’s Brave Stinging Heart. When Zhan Ye had angrily used the second Broken Limb Rebirth, its strength rose to the ninth phase ninth stage. It would soon step into the tenth phase!

The emperor species Mo Ye had incited all of Zhan Ye’s fighting intent. One had to know at its very peak, Zhan Ye had gone from the eighth phase ninth stage middle class monarch rank to the tenth phase peak!

Now, Zhan Ye’s innate strength had reached the ninth phase middle stage - middle class monarch rank. It definitely didn’t need to put a ninth phase middle stage middle class monarch rank emperor species Mo Ye in its eyes!

The emperor species Mo Ye’s dark corroding energy caused Zhan Ye’s defense to greatly drop. When it used the first Broken Limb Rebirth, Zhan Ye had only taken three attacks.

After the second Broken Limb Rebirth, the emperor species Mo Ye had to use four full strength attacks before seriously wounding Zhan Ye.

When Zhan Ye used the third Broken Limb Rebirth, its strength rose to the tenth phase. At this moment, Zhan Ye’s attacks could already pose a threat to the emperor species Mo Ye!

Seeing Zhan Ye's strength continuously rise, Qin Ye was in a state of shock. He never expected that this Warbeast Mo Ye's strength to rise so quickly!

The fight hadn't lasted very long but this Warbeast Mo Ye that was originally four levels lacking was gradually becoming even!

“Hou Hou!!!!!!!!!!”

Zhan Ye gasped for air, and let out a roar at Qin Ye!

Zhan Ye's angry roar quickly made Qin Ye's face turn unsightly.

Qin Ye had had this emperor species Mo Ye for a long time and understood a bit of the Mo Ye language. Right now, Zhan Ye's roar was mocking the emperor species Mo Ye that he was proud of!

“Chu Mu's Warbeast Mo Ye is rising in strength so quickly!” Ye Wansheng inadvertently glanced at the fight over there before shockingly discovering that Zhan Ye had unexpectedly reached the tenth phase!

Princess Jin Rou who was commanding her soul pets' fight also noticed this soul pet.

With three mere Broken Limb Rebirths, the Warbeast Mo Ye's strength had reached the tenth phase middle class monarch rank. Moreover, as its strength rose, Zhan Ye would grow stronger from various aspects. As the fight increased, the more its strength would increase!

Now, Princess Jin Rou understood how Zhan Ye was able to survive after dropping into the centipede abyss. With this speed of strength increase, probably only the Ten Thousand Legged Centipede could kill it!

.....

Indeed, Zhan Ye's strength had increased much faster than normal, because Zhan Ye was hiding, under its cold fighting intent, a deep anger!!

Zhan Ye's mental strength was much weaker than Chu Mu's seven remembrance spirit master level. Therefore, in the seal, Zhan Ye was incapable of feeling any mental connection with Chu Mu...

Chu Mu could very likely have already died!! This was the real reason why Zhan Ye was angry!

To Zhan Ye, it would never be able to forget Chu Mu's firm promise that "he would never let it be abandoned". The human in front of it that delusionally wanted to obtain it would never understand how important the meaning behind Chu Mu's words to it was!

Zhan Ye wouldn't show its emotions.

However, it would use the indignation in its heart as a catalyst for strength to fight!!

It didn't want to simply defeat this laughable emperor species Mo Ye. It wanted to also kill Qin Ye and kill all of his soul pets!!

Chapter 564: Dawnlight Reaper, Killing Royal Mo Ye in Combat!

"Qin Ye, kill it, don't give it a chance to grow!" Xia Guanghan also noticed the Zhan Ye was increasing in strength.

Xia Guanghan was a careful person. He didn't like to give his enemies breathing room. As for Xia Guanghan, he had already summoned two soul pets. One top tier monarch rank white nightmare, the other top tier monarch rank Bloodthirsty Terror Wolf.

"Making a big fuss over small issues." Qin Ye didn't think of it much. His gaze fell on his own royal Zhan Ye, and again glanced at the extremely resilient Zhan Ye. He laughed coldly saying, "Witness the true power of a royal Mo Ye King- I'll show you what a true king looks like!"

Just as he spoke, the royal Mo Ye's dark aura became even heavier. Its entire body seemed to have fallen into this dark energy!

Suddenly, the royal Mo Ye disappeared. Only a heavily dark black axe remained, locking onto Zhan Ye.

“Broken Limb Rebirth isn’t a resurrection technique. Once injured to the point of near death, its extremely weak body wouldn’t be able to heal back.....” Qin Ye’s voice said very calmly, “Don’t worry, I won’t let you die, but I will put you at the brink of life and death to let you feel the true power of a Mo Ye!”

As Qin Ye spoke, the black energy became larger and larger, almost touching the tip of the seal!

“Houhou!!!!!!!!!!!!!!”

Royal Mo Ye let out a roar. Immediately, the massive black axe fell down from above, and its deadly black ray blossomed on the edge of the knife, threatening to cut the space itself in half!!

This energy was extremely dominant. The wounded Multi Colored Devil Tiger was almost split open by the black battle axe’s energy alone. If not for Ye Wansheng retracting it in time, it may have been cut into pieces already!

At the center of all this energy, withstanding much more energy than the Multi Colored Devil Tiger was Zhan Ye. At this moment, all of Zhan Ye’s Horned Beast imprints lit up and gathered on Zhan Ye’s claws!

Zhan Ye didn’t put up any defense!

As the royal Mo Ye was gathering energy, Zhan Ye was also gathering energy!

When the powerful dark energy fell down, Zhan Ye abruptly lifted his ink claws towards the dark battle axe as well!!

Contrasting the dark energy, Zhan Ye was casting the Dawnlight Reaper Blade!

Representing the last gleam of death, it blossomed amidst the thick dark energy. In the sealed space, it was like the break of dawn!

“Peng!!!!!!!!!!!!!!”

The black battle axe cut down from above, cutting Zhan Ye from skull to waist. The terrifying wound nearly broke Zhan Ye in half directly while the thick dark energy seeped into Zhan Ye's body, frenzily corroding its blood and innards.....

This attack was scary. From Zhan Ye's shocking wound, one could tell that, with any other normal life force soul pet, they would probably die multiple times over from the wound!

At the same time Zhan Ye received the incredibly grave injury, the royal Mo Ye similarly didn't fare better. The dawn light pierced through darkness and flashed past the royal Mo Ye's lower jaw position!

Zhan Ye survived in the Mo Ye Forest. Before it was even mature, Zhan Ye fought constantly with same species Mo Ye. Such a cruel past in survival caused Zhan Ye to learn about a defense weak point in his own species.

This defense weak point was impossible to discover. Even the Mo Ye species themselves had never realized it. Only through countless batterings and beatings did Zhan Ye even learn of this about his species.

Their defense weak point was their lower jaw! Mo Ye's lower jaw has extremely powerful bite strength, but to move the lower jaw around, the armor near it was soft armor!

A Mo Ye was almost covered from head to toe in ink armor. Only its lower jaw is softer armor!

Royal Mo Ye carefully protected its head in the entire fighting process, so Zhan Ye never had an opportunity. However, as it fell down from above as a battle axe, its lower jaw was completely exposed!!

That menacing dawnlight flew straight for the royal Mo Ye's lower jaw!!

“Beng!!!!!!!!!!”

Royal Mo Ye fell heavily from the skies, its lower jaw almost completely torn off while blood spewed heavily out of it!

Zhan Ye's attack was significantly weaker than the royal Mo Ye. However, this weak attack completely collapsed this royal Mo Ye, causing this Mo Ye to fall into a state of near death!

The wound that nearly split Zhan Ye in half was full of dark energy, causing Zhan Ye to be unable to use Broken Limb Rebirth, and as the dark energy spread, Zhan Ye's life force was nearing zero swiftly.

But, at least Zhan Ye was tenacious, causing the first to die to be the royal Mo Ye!

Qin Ye's entire person was dazed, in disbelief as he looks at the royal Mo Ye he prided himself on.....

His royal Mo Ye also opened his eyes wide, but his pupils were not visible. Its body was jerking violently while its lower jaw was completely unhinged. Its life force was nearly out!

"This.....how is this possible!!" Qin Ye stared face full of shock!

Xia Guanghan also glanced at the dying royal Mo Ye and said angrily, "I told you to just get rid of it, what are you doing!"

Qin Ye's seemed to have gone completely crazy, his terrifying eyes staring intently at Zhan Ye, who was similarly on the verge of death!

"You, heal my Mo Ye! Fast, or else I will kill you all along with your soul pets!!!!" Qin Ye suddenly pointed at Ye Qingzi and commanded angrily.

Even if Qin Ye retracted his royal Mo Ye now, it would be to no avail. Tenth rank healing medicine couldn't stop the draining of life now. Only soul pets with healing techniques could bring back Mo Ye's life now.

Ye Qingzi's soul pet formation was Bell Noise Concubine, Water Moon, Wood Tray Spirit, War Court Black Beast, three of these support soul pets could all bring a near-death soul pet back to life. It was also these three support soul pets that caused the three to last until now against Qin Ye and Xia Guanghan, or else their souls would be heavily injured already.

"You heard me, heal my Mo Ye, or else I won't even leave your body intact!!!" Qin Ye said angrily!

“Okay, I’ll heal for you!” Ye QIngzi laughed coldly.

After speaking, Ye QIngzi immediately commanded bell noise concubine to cast a technique!

Bell Noise Concubine’s singing was like an incantation. Special pollen appeared around its light body, which slowly flew towards Qin Ye’s royal Mo Ye.

The pollen slowly fell down and merged with the royal Mo Ye’s body.

The next second, royal Mo Ye’s life force steadied, remaining at an incredibly weak state.

Seeing his royal Mo Ye’s life force stop leaking, Qing Ye’s expression finally loosened a little. He glanced at Ye QIngzi and said, “Very well, you may live.”

“Oh,” Ye QIngzi replied, “but, your royal Mo Ye is dead for sure.”

Just as she finished speaking, the life force that stopped flowing immediately started falling at an even faster rate, more than ten times faster than when it was struggling before!!

The pollen that entered the royal Mo Ye’s body wasn’t there to replenish its life force; it was there to destroy the royal Mo Ye’s organs!

It wasn’t healing pollen, it was poisonous pollen!

Once subject to poisonous pollen, even soul pets with rebirth technique would die for sure!!

Very quickly, the royal Mo Ye’s life force dissipated completely, becoming a grudging corpse that laid in front of Qin Ye.

Qin Ye’s face became even paler, clearly signs of soul pact breaking!!

“You!!!!!!” Qin Ye’s veins popped out as he shouted angrily!!

“I want you all to die for that!!!!!!” Qin Ye yelled out, actually starting an incantation while his soul was still wounded to summon another soul pet!!

The moment Qin Ye cast an incantation, an even larger aura assaulted everyone!

This aura was a rank or two stronger than top tier monarch, meaning it was a soul pet very near pseudo-monarch rank!!

All three of them’s soul pets added together could barely withstand Xia Guanghan’s top tier monarch rank Bloodthirsty Terror Wolf and Qin Ye’s top tier monarch rank Gold Evil Insect. Such a situation couldn’t last for more than a couple minutes before they get completely annihilated.

If another top tier monarch rank appears, in a minute, they would definitely all die!

“I feel like someone is ripping the seal apart right now. Very likely, the competition staff have noticed the strange situation and have come to save us. We just need to last until the seal is forcefully broken, and we will get out alive!” In the dangerous situation, Princess Jin Rou used her soul remembrance to say to Ye family brother and sister.

Ye Qingzi nodded stiffly. Ye Wansheng glanced at the top tier monarch that was about to be summoned by Qin Ye and replied, “We won’t last more than a minute, can it be opened in a minute?”

“No, I guessed that a competition staff needs at least two minutes. And, if Xia Guanghan knew someone was opening the seal, he can definitely summon more soul pets to kill us all..... I will summon up the hidden energy in my white nightmare, so please take out your strongest power, we still have hope.” Princess Jin Rou said.

Princess Jin Rou didn’t know whether the brother and sister have more powerful cards to play. If not, they would definitely die here.

“Princess, maybe I can let you two live on.....’ Ye Qingzi used her soul remembrance to say to Princess Jin Rou.

“I know. If you live on, I will cause them both to die without a burial ground!” Princess Jin Rou said very earnestly.

These two people set up a trap, causing them to all fall prey to it. The most hackle-raising thing was, Chu Mu had also fallen prey to near thousand monarch rank soul pets due to their tricks.

So, if any one of them should live on, Princess Jin Rou would absolutely subject these two to the worst, torturous death known to mankind!!

Chapter 565: Power Stealing, Crazy White Nightmare

Blood Beast Altar

Chu Mu was currently anxious because he didn't think that, after the seal closed, using Mo Xie's seal breaking abilities, he would still need a bit of time.

Chu Mu understood Qin Ye and Xia Guanghan's abilities well. They definitely both had top tier monarch rank soul pets, and not only one. Though White Nightmare and Zhan Ye were both in the seal, compared to top tier monarch rank soul pets, they were clearly a large chunk weaker!

If there were any accidents, Chu Mu would definitely obliterate their souls!!

“Old Li, how long before we open the seal!” Chu Mu asked worriedly.

“This was clearly a double seal, causing the blood beast's seal to become sturdier too. After all, under normal circumstances, with the seven sin fox's ability, one hit should be able to destroy a seal that kept a high class monarch rank back..... By this seal's toughness, they need about two more minutes.” Old Li said.

“Two minutes.....you have to withstand until then!!” Chu Mu said to himself.

.....

Inside the seal

Princess Jin Rou casted an incantation, and started using her soul remembrance to awaken the hidden strength in her White Nightmare.

Princess Jin Rou's White Nightmare was fed by her from first phase first stage. Though this White Nightmare didn't have the largest appetite, its stage and phase growth was still very slow later in its growth.

Under normal situations, with the amount of time Princess Jin Rou had fed this White Nightmare, it should have reached tenth phase long ago, yet it was only ninth phase high stage now. This was because Princess Jin Rou's White Nightmare had converted some of its energy into a hibernation state!

Hibernating soul pets were a very special case in the soul pet realm. This hibernation didn't discriminate species, meaning it could happen on any soul pet.

A hibernating soul pet's unique quality was that its late stage growth speed was incredibly slow. Even so, many soul pets viewed hibernating soul pets as treasure.

Slow growth didn't mean it wouldn't grow, and the moment the soul pet grew to tenth phase, the sleeping energy would completely awaken, and its strength would increase greatly.

Even before reaching tenth phase, this organism could have a short awakening, with the price being no growth within the next three months.

White Nightmare Princess's devil flames were already much darker, having been wounded by the top tier monarch rank blood terror wolf.

Top tier monarch Bloodthirsty Terror Wolf was nearly five ranks higher than the White Nightmare princess. With the expensive ninth rank soul armor, its defense brought their strength disparity to two ranks.

However, if the White Nightmare princess was attacked head on by the Bloodthirsty Terror Wolf, the White Nightmare princess would still die!

.....

“Kill it!” Xia Guanghan commanded his White Nightmare.

Xia Guanghan’s White Nightmare and Chu Mu’s White Nightmare have fought for enough time. As a top tier monarch, Xia Guanghan’s White Nightmare was two ranks stronger than Chu Mu’s White Nightmare.

From what Xia Guanghan saw, this battle should have ended much earlier. However, he never would have thought that Chu Mu’s White Nightmare could last until now!

Xia Guanghan’s White Nightmare floated in front of the White Nightmare. Its burning middle rank nine underworld devil flames appeared at White Nightmare head!

“Beng!!!!!!!!!!!!!!”

Middle class nine underworld devil flames suddenly blew up in Xia Guanghan’s palm. The White Nightmare was blown away. One could see that Chu Mu’s White Nightmare silver face was blown half off!

White Nightmare’s devil flames immediately extinguished. It laid down painfully, its eyes nearly flipping out, but still full of the utmost anger and unwillingness!

“Your life is mine. Initially, when I wanted you to die, you had to die. I let you live, so you have to be grateful! Now, I want you to die, and you will die!!” Xia Guanghan said sternly.

Xia Guanghan’s sentence was not only said to White Nightmare, but it was also said to Chu Mu.

At that time, if Xia Guanghan simply had to think, and Chu Mu and White Nightmare had to die. And now, their ending would be the same, with absolutely no change!

“Nie!!!!!!!!!!!!!!”

White Nightmare’s mouth corner was rotten, yet it still let out angry roars, barely propping up its body.

Of all the soul pets, White Nightmare had followed Chu Mu for the longest. Just as Chu Mu had gotten free of Xia Guanghan, the White Nightmare was also trying to get rid of this Xia Guanghan's control.

At that time, he was incredibly weak. Now, it was stronger, so the stubborn White Nightmare would definitely not resign itself to its fate!!

“Huhuhuhuhu~~~~~”

Just at this time, Princess Jin Rou was slowly waking up the White Nightmare princess. Soul devil flames' energy slowly increased, and one could clearly feel the White Nightmare princess's strength increase!

“Nie!!!!!!”

Chu Mu's White Nightmare glanced at White Nightmare princess and let out an excited call!!

Displacement Specter!!

The heavily injured White Nightmare suddenly cast a dodging technique, strangely floating in front of the progressively stronger White Nightmare princess.

“White Nightmare, what are you doing!” Princess Jin Rou stared blankly. She suddenly realized that Chu Mu's White Nightmare was very likely devouring her White Nightmare Princess to increase its strength!!

As an ominous White Nightmare, when facing powerful opponents, even its owner would get devoured, let alone another species. So, when White Nightmare floated in front of the White Nightmare princess, Princess Jin Rou also showed panic.

Though this could increase White Nightmare's strength and give everyone a better chance of survival, princess Jin Rou's White Nightmare princess post-awakening could also reach high class monarch rank top tier monarch rank.....

While both their strengths would increase, princess Jin Rou wouldn't just watch as her White Nightmare princess was devoured. After all, it and her towering ice curse demon fox had grown up along with princess Jin Rou.

“Nie!!!!!!!!!!!!”

White Nightmare didn't mind Princess Jin Rou's call. It stood behind White Nightmare princess's back and grabbed White Nightmare princess's head.....

“Huhuhuhuhu~~~~~”

White Nightmare princess's energy was awakening, causing its devil flames to get stronger and stronger. However, when White Nightmare slapped its hand onto the princess's skull, the awakened energy seemed to pass through this hand and into White Nightmare's body!

White Nightmare's original dim devil flames sprouted upwards, becoming even stronger!!

“Power Steal!!” Princess Jin Rou's face immediately showed shock!

Power steal, this could be said to be a more advanced nightmare species ability! How could it appear on this White Nightmare!!

After absorbing the White Nightmare princess's awakened energy, White Nightmare's originally low rank nine underworld devil flames sprouted to middle class rank!!

Middle rank Nine Underworld Devil Flame!! This meant that the White Nightmare was now a top tier monarch rank, similar to Xia Guanghan's White Nightmare!

Xia Guanghan was surprised by this scene too, only realizing after a while, “How is this possible!!”

“Nie!!! Nie!!!!!!!!!!!!!!!!!!!!!!”

Obtaining more energy, White Nightmare became crazier. Throwing the White Nightmare princess behind to princess Jin Rou, it gathered up middle class nine underworld devil flames again and leaped towards Xia Guanghan!

“Huhuhuhuhu!!!!!!!!!!!!!!”

White Nightmare was incredibly crazy, with a completely unpatterned fighting style! Middle class nine underworld devil flames and its counterpart collided together. No matter how much damage it would cause its body, White Nightmare wouldn't care. As if it had infinite power, it continuously attacked Xia Guanghan's White Nightmare!

Xia Guanghan's White Nightmare's mannerism was completely gone, very quickly getting pushed back by White Nightmare's devil flame. The scared Xia Guanghan couldn't do much but bring back the top tier monarch rank Bloodthirsty Terror Wolf, somewhat curbing the White Nightmare's assault!!

“Nie!!!!!!!!!!!!!!”

White Nightmare body's resentment had finally reached a certain level, slowly becoming an energy that welled into White Nightmare. White Nightmare's middle rank nine underworld devil flames again became powerful, causing even the Bloodthirsty Terror Wolf to not dare to near!!

After pushing away the Bloodthirsty Terror Wolf, White Nightmare's peculiar eyes locked onto Xia Guanghan!

Using displacement specter twice, White Nightmare suddenly appeared in front of Xia Guanghan. The middle rank devil flames brought White Nightmare's anger towards Xia Guanghan's body!!

Xia Guanghan's face was scared pale as he quickly retreated and told his White Nightmare to protect him!!

Xia Guanghan's White Nightmare also cast displacement specter back to guard Xia GUanghan, pushing away all the nine underworld devil flames that welled up.

Xia Guanghan backed off continuously, not daring to look down on the White Nightmare with confidence anymore. Just now, he had almost fallen into the terrifying devil flames. He never would have thought that in a situation he should have been able to control, such a situation would happen!

“Qin Ye, don’t hold back, kill them all!!!” Xia Guanghan was full of resentment, and after being pushed away pathetically, he was flew into anger out of humiliation.

He had no patience to waste on these trash soul pets!!

The incantation came up, causing Xia Guanghan to summon his other main soul pet!!

Xia Guanghan’s soul hadn’t completely recovered. He only had three souls, and now he only had three previous generation soul pets, all of which were near top tier monarch rank!

Once he summoned all three, killing them would be a piece of cake!!

Xia Guanghan didn’t like making a big fuss over small things, but he was truly angered now!!

Qin Ye’s entire person was cold as ice. After Mo Ye died, Qin Ye started summoning!!

“They are summoning all soul pets!” Ye Wansheng’s voice fell.

In this situation, the three would only last a few minutes. Once they summoned all their soul pets, the first wave attack would cause them to lose a large amount of their force! There was no way they would last until the seal broke!

Chapter 566: I’ll Use Your Deaths As A Form of Catharsis

Chu Mu’s White Nightmare could at most only restrict Xia Guanghan’s White Nightmare.

After being purified by the Water Moon, Zhan Ye expelled the dark energy in its body before using another Broken Limb Rebirth. Although its strength once more increased, it could still only barely resist a peak monarch rank attack!

Princes Jin Rou, Ye Qingzi, and Ye Wanshengs’ injury riddled soul pets were fighting together against Xia Guanghan’s Blood Terror Wolf and Gold Evil Insect. It had only been a few minutes, but they were in extremely miserable states.

Now that both Qin Ye and Xia Guanghan had summoned a peak monarch, these two pebak monarchs would definitely be able to slaughter them all within half a minute!!

Princess Jin Rou's gaze fell on Ye Qingzi. She had no other choice right now, and could only see if Ye Qingzi could buy some time for everyone.

"Qingzi, you already used it last time in Li City..." Ye Wansheng shook his head at Ye Qingzi, indicating that she shouldn't rashly use this ability.

Ye Qingzi was unable to change anything, though. So she decisively retreated behind the soul pets, and began to chant an incantation!

Ye Qingzi closed her eyes. With each chant, an incantation character would appear. Her pulse began to violently beat, and the War Court Black Beast that was linked with her soul also began to pulsate.

When they had fought Duan Xinhe's Hundred Mother in Li City, Ye Qingzi had used this technique. The originally much weaker War Court Black Beast had suddenly erupted with the strength to fight against the Hundred Mother!

As Ye Qingzi chanted, black hairs began to slowly rise up. The War Court Black Beast that gave people a feelings of calm and collected, gradually began to exude a savage aura. This aura increased with each pulse and with each increase, it would rise quite a bit!!!

The War Court Black Beast's hair was originally disorderly hanging down. However, as its soul pulsed, the War Court Black Beast's hair began to stand on end!!

Even more shocking, when the hairs began to ostentatiously stand on end, a black specter-like energy began to envelop the especially savage War Court Black Beast!

In this moment, the War Court Black Beast no longer seemed to simply be a War Court Black Beast. Under the strange black grievance shroud, it transformed into a creature filled with dark type aura that controlled death itself!!!

It began to explode from the ninth phase middle stage. Under the special technique, it unexpectedly instantly reached the tenth phase peak monarch rank!

The enormous dark aura was much stronger than the emperor species Mo Ye's. Moreover, even the Gold Evil Insect didn't dare approach!!

A tenth phase peak monarch!!!

At the most crucial moment, Ye Qingzi used this mysterious technique again!

“Hou hou!!!!!!!!!!”

The War Court Black Beast astonishingly transformed into a specter of death and abruptly appeared in front of the peak monarch Qin Ye had summoned!!

“Beng~~~~~”

This peak monarch had just been summoned but was immediately met by the War Court Black Beast's fierce attack and was knocked flying!

The War Court Black Beast's speed and strength was very high. It was even more ruthless and fierce than Xia Guanghan's peak monarch rank Bloodthirsty Terror Wolf!

After knocking this peak monarch flying, the War Court Black Beast used its powerful skills and quickly appeared in front of the Gold Evil Insect!!

It raised its claws of death as a dense dark light congealed on its arm before fiercely smashing it at the Gold Evil Insect!!

Although the Gold Evil Insect's defense was astonishing, it had encountered the dark type War Court Black Beast, and its defense was unable to withstand a blow. This claw immediately shattered the Gold Evil Insect's armor, crushing it under this terrifying attack!

Qin Ye and Xia Guanghan saw that Ye Qingzi's War Court Black Beast suddenly erupted with such shocking strength, and their two faces were filled with astonishment!

The White Nightmare that had reached the peak monarch rank was already very difficult to deal with. Now that a powerful soul pet which was in between the pseudo emperor and peak monarch

rank had appeared, if they didn't take out their true strength, it would be impossible for them to kill those three people.

“What a fierce soul pet!” Princess Jin Rou saw how fierce the War Court Black Beast was, and a smile rose on her face.

She swept her gaze over Ye Qingzi who wasn't saying anything. However, she was stunned because Ye Qingzi looked as if she was frozen, and her face was extremely pale!

“How could this be!” Princess Jin Rou was stunned and looked with disbelief at Ye Qingzi.

On Ye Qingzi's fair neck, a vine-like black object was slowly crawling up to Ye Qingzi's face!

Those were Ye Qingzi's arteries!

Right now, Ye Qingzi's arteries had been completely corroded by some black substance. It was as if she had been poisoned. Her originally snow-white and transparent skin was completely showing the black arteries through her skin. It was clearly visible that they were rapidly destroying her body...

Ye Wansheng stood beside Ye Qingzi, and his face was extremely unsightly.

Ye Wansheng was very clear about Ye Qingzi's energy. In order to use this powerful energy, she had to pay a painful price. Moreover, the moment the black arteries completely infected all of her arteries, Ye Qingzi would die!

Princess Jin Rou looked at Ye Qingzi's state, and her heart was filled with emotions. She abruptly realized why Ye Qingzi hadn't included herself when she said that they would survive.

This type of energy was self-destructive!

“This female soul teacher... she's using a self-destructive mysterious technique!” said Xia Gaunghan.

“So what? I'll have my demon restrict it. You have your Destructive Wind Fairy get rid of them. I've already had enough of these trash!” said Qin Ye.

As he spoke, Qin Ye's demon outlandishly rushed forwards and its black eyes emitting a spectral light stared at the War Court Black Beast!

The War Court Black Beast quickly realised that this demon possessed an extremely powerful mental ability. Relying on its agile fighting ability, it quickly dodged this demon's gaze!

The War Court Black Beast was a beast type soul pet, and its strength had been forcibly risen through Ye Qingzi's technique. If it was restricted by the demon, then all of its strength would dissipate!!

The third soul pet Xia Guanghan had summoned was a Destructive Wind Fairy!

Destructive wind was a fourth rank wind element crystallization. The Destructive Wind Fairy was thus a wind elemental type monarch rank soul pet a rank above the Hurricane Fairy!

Xia Guanghan's Destructive Wind Fairy had been strengthened to a peak monarch. A wind type soul pet innately possessed extremely high destructive power. It had a lot of range and if it wasn't restricted, a single technique would be able to deliver a fatal blow to everyone!!

Right now, there was no soul pet that could stop Xia Guanghan's Destructive Wind Fairy.

Chanting a wind type incantation, the biting destructive wind began to swirl around the Destructive Wind Fairy's body. It transformed into a dense ashen energy that a strange air flow to appear in the entire sealed space.

The space was fiercely whipped about and as the wind type technique brewed, everyone found it hard to breathe!

Obviously, this Destructive Wind Fairy was fermenting a tenth rank wind type technique!

The moment this technique swept through, most of the three peoples' heavily injured soul pets would die!

"All of you, die!!" Xia Guanghan mercilessly said.

Finally, the Destructive Wind Fairy finished its incantation. A destructive wind that practically occupied the entire sealed space suddenly formed and everyone felt an aura of death pervade the air!

“Hu hu hu hu hu hu!!!!!!!!!!!!”

The destructive wind mixed with an ashen color energy resembled the charge of ten million wild beasts that would fiercely trample anything with their enormous bodies!!!

The intense wind energy was difficult to defend. Quickly, Ye Wansheng, Princess Jin Rou, and their soul pets were swept up by the wind. With the level of their soul pets' defenses, it probably wouldn't even be a few seconds before they would be ripped to pieces by the destructive wind!!

Ye Wansheng held on tightly to the extremely weak Ye Qingzi. Right now, his face was extremely pale. Perhaps he understood that he would be unable to protect Ye Qingzi from the destructive wind like this. However, as an older brother, even if there was only that sliver of hope, Ye Wansheng would protect his sister.

“Brother...” Ye Qingzi didn't know what to say.

“As a brother, I'm growing more and more useless. If I manage to survive this time, I'll definitely not let anyone harm you! Nobody will be able to!!!” Ye Wansheng grit his teeth.

Practically the moment his voice faded, Ye Wansheng's body was ripped apart by the destructive wind energy and he quickly disappeared from Ye Qingzi's view.

Ye Qingzi was unable to grab onto Ye Wansheng. Watching Ye Wansheng's Sword Beetle which was stubbornly resisting the wind energy for her, Ye Qingzi's immediately felt her heart being cut out...

No matter how much she struggled, they were unable to stop these two peoples' soul pets. Xia Guanghan and Qin Ye were too much stronger than them!

Ye Qingzi, whose life was dissipating extremely quickly, felt powerless. She could only remorsefully close her eyes and embrace death.

.....

Watching the three people and their soul pets being enveloped by the incomparably turbid destructive wind, Qin Ye's face looked extremely cold.

To Qin Ye, even if all of these people died, it was not enough to make up for the death of his emperor species Mo Ye. Therefore, after they died, he would go and hack them to pieces!!

Xia Guanghan stood next to the Destructive Wind Fairy. Even if all of these people died, the grievance in his heart would still exist. After all, Chu Mu wasn't among them. Especially that Royal Flame Nine Tail Inferno Fox. It had also perished among the statue guard legion. Xia Guanghan was extremely unreconciled.

"Don't kill the White Nightmare as well, otherwise we'll make a loss." Qin Ye saw that Xia Guanghan's Terror Wolf and White Nightmare were gradually suppressing Chu Mu's White Nightmare so he immediately reminded him.

"Their deaths are only used as a form of catharsis! I won't kill the White Nightmare!" Xia Guanghan coldly said.

Xia Guanghan's Destructive Wind Fairy's techniques swept up Ye Qingzi and Ye Wansheng. Princess Jin Rou had suffered an evidently weaker attack because Xia Guanghan still had to take her to the female master. Therefore, she couldn't die.

As for Ye Qingzi and Ye Wansheng, these were insignificant people and it didn't matter if they died. Xia Guanghan didn't even blink as he killed them!

.....

"Then, I'll also use your deaths as a form of catharsis!!"

Suddenly, an ice cold devilish voice rang out from the incomparably turbid destructive wind, and transmitted into Xia Guanghan and Qin Ye's ears!!

Xia Guanghan was stunned. Abruptly, he discovered that amidst the gradually calming destructive wind, a fearsome figure had appeared!

Most shockingly, this figure had nine incomparably ostentatious long shadows that resembled nine fierce dragons. These shadows unrestrainedly unfurled, revealing enormous majesty!!!

“Qin Ye, Xia Guanghan, your time of death has arrived!!” this voice rang out once more. It was full of ruthlessness and killing intent that was hard to suppressed!!

Chapter 567: In Front of An Emperor, Monarchs Are But Bugs

The destructive wind energy was capable of ripping apart any creature with defense underneath the tenth rank.

Ye Wansheng was wearing merely an eighth rank soul armor that barely had a ninth rank defense. In front of this destructive wind, he was undoubtedly dead. After he was swept up by the destructive wind, he even gave up resisting.

However, just as he felt his body was about to be ripped apart, suddenly something furry swept him up, protecting him.

The destructive wind force was unable to damage this furry object. Ye Wansheng never expected that he would so mysteriously escape this calamity.

When the destructive wind force had slightly weakened, Ye Wansheng opened his eyes and found a shocking scene!

Several long, dragon-like silver furry creatures were raised up ostentatiously. At the end of each one of them was a wrapped up soul pet that the object was protecting.

The three soul pets of Ye Wansheng, the Sword Beetle, the Flame Tail, and the Purgatory Thunder Monarch, had all been wrapped up by these long tails. They had only suffered light wounds and hadn't been ripped apart by the destructive wind force!!

Ye Qingzi's three soul pets, the Water Moon, the Wood Tray Spirit and Bell Noise Concubine, which should have been utterly destroyed in the tenth rank wind type technique due to their weak and small nature, had also been protected by these silver furry powerful objects!

There were a total of nine silver furry objects, and one that had wrapped up Princess Jin Rou's Towering Ice Cursed Demon Fox!

In other words, nine gorgeous and ostentatious silver objects had come to the protection of everyone's soul pets. The destructive wind that should have been able to instakill all of them lost its effect!!

"What... what happened?!" Ye Wansheng looked at the furry objects, dumbfounded. Indistinctly, he felt that they were a bit like fox tails!

Ye Qingzi opened her eyes. She had already prepared herself for death, but unexpectedly, the pain never came. Instead, she heard a familiar noise.

"I didn't die?" Ye Qingzi said in a low voice.

"The seal has been undone!" Princess Jin Rou revealed a dismal smile on her pale face.

When the destructive wind had attacked, the seal had been forcibly undone, and Princess Jin Rou, who hadn't been swept up by the destructive wind saw an elegant figure riding on a powerful creature that could ignore the destructive wind energy jump in!

Afterwards, the creature protected the Ye siblings' soul pets!

"It doesn't matter who you are. If you've come here to seek death, then we'll oblige you!!" Xia Guanghan's face was extremely unsightly. He never expected that just when he was about to kill this group of soul pets, the competition authority would arrive.

However, although he was angry, he wasn't afraid. Unless a tenth rank titled expert appeared, he would be able to kill even a competition authority member!

Qin Ye was someone who wasn't afraid of anything and he would even kill a competition authority member!

“Hu hu hu hu hu~~~~~”

The turbid air from the destructive wind gradually settled and Xia Guanghan and Qin Ye finally were able to clearly see who this competition authority member who sought his own death was.

However, when they were able to clearly see this person’s face, their eyes began to bulge and their faces were filled with shock!

“Chu... Chu Mu!! Chu Mu!!!!”

Ye Wansheng was the closest to Chu Mu, and he was the first to let out a shout!

Ye Qingzi had already noticed that the owner of the voice was Chu Mu. Right now, her state of mind was hard to describe. She could only stand there, dumbfounded, and watch Chu Mu’s elegant figure from behind...

Princess Jin Rou opened her small mouth, and seemed to be in disbelief!

Chu Mu was still alive!!

Chu Mu had survived from the nearly thousand monarch rank statue guard legion!!!

Regardless of Ye Qingzi, Ye Wansheng, or Princess Jin Rou, their first reaction when they saw Chu Mu was to think that this was an illusion.

However, Chu Mu really was standing in front of them. Standing, full of life, in front of them!

Seeing that Chu Mu was still alive, the three of them were filled with elation, and couldn’t say anything!

“Nie~~~~~”

The White Nightmare had discovered that its owner had appeared alive. It let out an incomparably excited shout and used Devil Phantom to quickly arrive in front of Chu Mu.

“Hou hou!!!!!!!!!!”

Zhan Ye saw that Chu Mu had appeared, and its strength rose once more. In an incomparably domineering fashion, it forced back the Gold Evil Insect, and jumped a few times until it landed next to Chu Mu.

“You guys did well. Just leave the rest to me and Mo Xie.” a smile rose on Chu Mu’s face as he spoke.

As Chu Mu spoke, Zhan Ye and the White Nightmare suddenly discovered that the flames on Mo Xie’s body were completely different than before. An imposing aura was emanating from her flames. If it wasn’t because Mo Xie’s flames allowed them to, it would be very difficult for them to approach!

“Chu Mu, your Mo Xie...”

At this moment, the three people finally realized that the one, so powerful that she could completely ignore the destructive wind energy, who had protected everyone and their soul pets from the tenth rank wind type technique, was unexpectedly Chu Mu’s Mo Xie.

Only, no one was able to recognize Mo Xie’s aura!

Moreover, compared to Mo Xie, the soul pet Chu Mu was controlling was emanating in a sovereign majesty. Its aura and majesty were completely different than the Nine Tail Inferno Fox!

Strength, grace, savagery and evil had perfectly combined into a body. Although the noble pure silver color was the main highlight, there were dark red incomparably gorgeous sin imprints extending from its face to its body. Its nine tails filled with majesty resembled sin imprint chains. This all combined to form this soul pet’s untrammled, evil and sinful nature!

If the Royal Flame Nine Tail Inferno Fox was a noble species, then this Seven Sins Fox was truly capable of making countless creatures pledge their service and worship to this sinful evil monarch. In this manner, it considered itself above everyone!

“This... this truly... this truly is Mo Xie?!” Ye Wansheng was stunned!

Purely from its shocking exterior, it was possible to tell that this was a true emperor that had absolute power. It was very difficult it to a Royal Flame Nine Tail Inferno Fox with strength merely at the ninth phase middle stage - middle class monarch rank.

.....

After seeing the Seven Sins Fox Corrupted Inferno Monarch show itself, Xia Guanghan and Qin Ye were completely stunned!

An emperor rank could be discerned from a monarch rank purely through majesty. Compared to the soul pet in front of them, their peak monarch rank soul pets were simply insects that could only cower in fear. There was no thought of fighting it head on as they cowered in fear besides them...

“How is this possible?! How is this possible?! How is this possible?!” finally, Xia Guanghan who realized what had happened suddenly let out a loud roar.

The reality of Chu Mu still surviving was something Xia Guanghan was just as affected by as Ye Qingzi and the two others!

However, Xia Guanghan wasn't excited. Instead, this situation caused him to essentially collapse!!

Species mutation!!!

The Royal Flame Nine Tail Inferno Fox had unexpectedly species mutated at this moment!!

A single species mutation was an entire rank increase! Perhaps at the servant rank, warrior rank and commander rank, the true meaning of a mutation wouldn't manifest, but after the monarch rank, a single species mutation would multiply a soul pet's strength by nearly ten!!

Continuous mutations would allow it to multiply by several tens of times. This was unlimited strength and an absolute soul pet that could even completely surpass all creatures!!

“Xia Guanghan, what happened!! Didn’t you say that his strongest soul pet didn’t surpass the high class monarch?!! Then what is that creature!! Is that thing a high class monarch?!!” Qin Ye went mad as he shouted!!

How could Qin Ye not sense that this was an emperor rank aura in front of him. It even caused all of his soul pets to tremble with fear!

Qin Ye had always loved stealing other people’s perfect soul pets. However, it wasn’t like he didn’t have any self-awareness. This was because in front of this emperor rank soul pet, his peak monarchs had practically turned to trash!

Qin Ye roared at Xia Guanghan, while Xia Guanghan himself was quickly about to go crazy. Hearing Qin Ye flipping at him, he angrily said: “Are you blind?! Could you not see that this is species mutation?! Stop yelling at me. Quickly think of how to deal with this emperor rank soul pet! Otherwise we’re dead!!”

“Species mutation?!! How could something like this happen?!!” Qin Ye was instantly dumbfounded!

One had to know that the chances of species mutation was even lower than encountering an emperor rank soul pet in the wild!

Imagine, going out at dawn to train one’s young soul pets in the outskirts of the wild where there were only one or two phase servant rank soul pets, before ending up encountering a savage tenth phase emperor rank soul pet... the state of one’s emotions in that circumstance was the same as Qin Ye’s current emotions!

As for Xia Guanghan’s emotions, if one had to describe it, it was worse than Qin Ye’s. It was akin to capturing a servant soul pet, and as one was about to sign a soul pact with it and just about to succeed, this servant rank soul pet suddenly transformed into an incomparably tyrannical tenth phase emperor rank. Even the most vulgar words were incapable of describing the feelings attacking his heart!

“Hu hu hu hu~~~~~”

The remnants of the destructive wind blew at Mo Xie’s gorgeous sinned fur. Mo Xie’s eyes resembled a death god’s as she stared at the pale twitching faced Xia Guanghan!

Even if Xia Guanghan transformed into ashes, Mo Xie would still recognize him!

When they were at the demon's home, he had used the Heavenly Vine Demon to capture Chu Mu, before using an illusion to forcing her to undo her soul pact with Chu Mu!

At that time, the angry Mo Xie had yearned for strength. She had never wanted strength more than then!

Back then, when she had been firmly restricted, Mo Xie had attempted to incite her blood's strength and species mutate.

However, she had just mutated not too long ago at Jia City. No matter how badly she yearned for strength, it was impossible to species mutate in such a short period of time. Especially when it would have been her fighting strength rank increase from the monarch to emperor rank!

Today, the strength she had yearned for had finally arrived! Moreover, the enemy who she had monomaniacally wanted to eradicate had also appeared!

Right now, only Xia Guanghan's blood could pacify the accumulated flames of anger of the Seven Sins Fox Corrupted Flame Monarch Mo Xie!

.....

"Chu Mu... they have six peak monarchs..." Princess Jin Rou warned Chu Mu.

"In front of an emperor, their six monarchs are all insects!" said Chu Mu

Chapter 568: Sin Seal, Inferno Monarch's Second Power!

"Nie~~~"

White Nightmare and Zhan Ye let out a call simultaneously. Clearly, they didn't want to just watch, but instead wanted to continue fighting!

White Nightmare plundered the White Nightmare princess's hidden energy. Reaching top tier monarch rank, facing same species Xia Guangahn's White Nightmare, White Nightmare definitely wouldn't shrink away. It had made clear that, even if Mo Xie could species mutate, she wouldn't be able to steal the kill of Xia Guanghan's White Nightmare from him!!

Zhan Ye constantly received healing from Ye Qingzi's soul pets. With the life force addition, its strength was already high class monarch rank level!

High class monarch rank and top tier monarch rank was two ranks apart. With Zhan Ye's powerful life force, it didn't mind fighting till the last breath with the top tier monarch rank Gold Evil Insect either!

Chu Mu naturally believed his own soul pets' strengths, so he nodded, letting them lock onto their own opponents!

"Then the remaining four....." Chu Mu's gaze swept onto Qin Ye and Xia Guanghan's other four top tier monarch ranks!

"Wuwuwuwu!!!!!" Mo Xie stepped forward, four hooves instantly creating a burning flash of sin flames. The powerful aura again assaulted Xia Guanghan and Qin Ye's four top tier monarch rank soul pets!

Xia Guanghan's three top tier monarchs were White Nightmare, Bloodsucking Terror Wolf, and Destructive Wind Fairy.

Qin Ye's royal Mo Ye died, hurting one of his souls. He also summoned three top tier monarch rank soul pets, respectively Gold Evil Insect that was restricted by War Court Black Beast, as well as a Violent Ice Beast between pseudo emperor rank and top tier monarch rank!

Violent Ice Beast was immediately smashed away after being summoned by Qin Ye, losing its ability to move.

After being able to move again, this Violent Ice Beast cast a frenzy of attacks of War Court Black Beast, hurting War Court Black Beast!

“Yin!!!!!!!!!!!!”

Ye Qingzi’s War Court Black Beast similarly didn’t show weakness. Its pair of death eyes stared right at the demon monarch, not becoming any less cruel because of the wounds and weakening!

“Looks like there’s only three left.” Chu Mu smiled. War Court Black Beast was ready to completely attack, and his target was the demon!

Qin Ye’s eyes were constantly on Mo Xie. Suddenly, Qin Ye noticed something, and his grave expression eased a little.

“So its an emperor rank that hasn’t reached tenth phase!” Qin Ye said.

Ninth phase middle stage emperor rank, but its strength was comparable to top tier monarch. After all, ninth phase middle stage to tenth phase was three rank differences apart!

At this point, Xia Guanghan noticed that Chu Mu’s Mo Xie hadn’t reached tenth phase. Without reaching tenth phase, their emperor rank strength was greatly discounted. Let alone, Qin Ye was still an ice type Violent Ice Beast!

Qin Ye’s Violent Ice Beast was tenth phase top tier monarch rank and closer to emperor rank. Under a type counter, his Violent Ice Beast may be able to deal with the emperor rank!

Qin Ye cast an incantation and a cold air surrounded him, slowly merging into the Violent Ice Beast!

Qin Ye clearly was using an ice type strength soul technique. When the ice formed, the Violent Ice Beast’s aura again increased, raising his strength by a rank!

Violent Ice Beast’s strength increased, adding onto the type counter, Qin Ye finally had the confidence.

Attacking first, Qin Ye first commanded Violent Ice Beast to attack. Its nearly pseudo monarch rank Violent Ice Beast let out a snowy roar, stepping forward with her ice type body and ran towards Mo Xie!

Mo Xie calmly watched as these violent ice beast ran over quickly. Seeming to know that her sin flames would be countered by the ice type energy, Mo Xie's sin flames slowly dimmed away!

Sin flames disappeared. Without the flames blocking, Mo Xie's silver body's bold sin imprints were even more striking now!

Suddenly, the sin imprints blinked evilly. Soon, these sin imprints disappeared, and every time the sin imprints disappeared, Mo Xie's demon aura grew!

Suddenly, Mo Xie disappeared, so fast no one could see when it disappeared!

“Sousousousou!!!!!!!!!”

After a while, the six inferno monarch shadows appeared. These shadows were almost exactly the same as their real bodies. Even their auras weren't any different, completely as if six evil fox monarchs!!

Every split of Mo Xie's body could be seventy percent of her body. This seventy percent of the energy was enough to get tenth rank!

Which means there were six tenth rank power techniques!!

Sin flames was only Mo Xie's subtype. Seven sin fox's truly terrifying power was beast type energy. One claw was enough to break the ground!

The six splits all used sin imprints attack. The evil claws and air ripped two dark red marks out in the space from the friction!!

Every dark red sin imprints claw broke the space. In fact, it caused the entire seal to rip apart clearly. The long sin imprints caused long caused rips to appear from the center to the ends of the entire sealed space!!

“Shuashuashuashua!!!!!!!!!”

The Violent Ice Beast just leaped up when the ripping sin imprints claw appeared, yet the Violent Ice Beast fell down the air without getting obstructed!

The massive ice hammer lifted up high, the Violent Ice Beast was just about to bring all this violent ice energy.

Except, this Violent Ice Beast didn't notice the dark red marks that appeared on the ice white body. These shocking marks, other than its head and arms, spread onto its entire body!

If the Violent Ice Beast didn't attack, its body still wouldn't feel any stranger. However, once it used energy, the sin imprint marks grew even crazier, destroying the Violent Ice Beast's entire body!

Finally, the Violent Ice Beast still lifted its large arm and dropped it. Except, before the ice energy fell, the Violent Ice Beast's body suddenly blew up!!

“Beng!!!!!!!!!!!!!!!”

The Violent Ice Beast's iced body became countless shards that spread every direction. Its body was so weak it couldn't even withstand the power of itself!

“Once sin imprint's energy has infiltrated every part of its body, it would directly destroy its bones, muscle, and skin! Now, seven sin fox was no longer the soul pet that was completely at the seal's mercy; it could utilize the sin imprints to its own advantage!” Old Li said.

“Hua~~~~~”

Violent Ice Beast's body completely shattered. At that moment, one could clearly see the patternless bizarre sin imprints still remained in space, like a branching sin imprint flower!

The sin imprint flower had six petals, each formed by one of the six clones. Once the sin imprint flower disappeared, the Violent Ice Beast completely lost its life aura!

“So strange, such terrifying energy!” Ye Wansheng saw with his own eyes the appearance and disappearance of the sin imprint flower. The entire process was unpredictable and inexplicable. In fact, he had no clue whether the Violent Ice Beast was shattered by the claw's energy or the sin imprint's energy!

“This.....this.....” Xia Guanghan was dazed!

Violent Ice Beast was at least near pseudo emperor rank soul pet, so there was no way it was this pitiful!

“Low class emperor rank! Sin imprints power could cause its attack to be low class emperor rank!” Finally, Xia Guanghan realized!

Low class emperor rank!

Pseudo-emperor was already difficult to defeat for them, and now that low class monarch rank, three ranks higher, was here.....

This is clearly a monarch rank soul pet, yet why would it be able to surpass that and even reach low class emperor rank!

“Sin flames and sin imprint, seven sin fox is rumored to be a being beyond emperor rank. Even if it were sealed to become lower rank, Mo Xie is definitely invincible in her own territory! How could a clumsy ice beast beat a seven sin fox, truly laughable!” Old Li said.

Old Li’s praise for the seven sin fox was at its peak. Very rare was it to see this fellow have such praise for a soul pet!

Sin imprints!

Seven sin fox’s inheritance gave it the second power, which also signified countless years, the atonement of the seven sin fox for a thousand generations was near its end!

Qin Ye’s face was very terrible, but he didn’t feel the backlash from breaking a soul pact!

“If you want to kill my Violent Ice Beast this easily, you are the laughable one!” Qin Ye humphed. From his side, he could tell the soul pact hadn’t shattered, meaning the Violent Ice Beast hadn’t died!

“Dongdongdong~~~~~”

Suddenly, all the corpse pieces of the Violent Ice Beast started shaking. Soon, these pieces started moving as if they had life, gathering in a certain direction!

“dongdongdong~~~~~”

The ice gathered extremely quickly. First it was the Violent Ice Beast’s powerful lower limbs; the ice pieces were slowly creating the Violent Ice Beast again!

In a short time, all the ice pieces merged together to create a complete Violent Ice Beast!

The Violent Ice Beast that Mo Xie shattered actually revived! Though it had many cracks on its body, it seemed good as new!

“Don’t think only your soul pets have special abilities. No matter how many times my Violent Ice Beast is shattered, it can be remade. No matter how powerful your inferno monarch is, it can be killed!” Qin Ye laughed out loud!

Chu Mu furrowed his brow. He actually hadn’t thought that the Violent Ice Beast had such a recombobulating ability!

“Young master, this is the ice type Ice Resurrection. Usually, it only appears on ice type elemental world soul pets. To have this technique, this Violent Ice Beast must have an insane type talent too!” Old Li said.

“Beng!!!!!!!!!”

As he spoke, Mo Xie again attacked!

This time, Mo Xie used her sin imprint tails. These tails were powerful enough to break through mountains. Passing through, the nine dragon like tails waved around with vigor, causing the very space to shake!

No matter how many times it could reconstruct itself, Mo Xie could break it as well, until it was permanently rendered rubbish!!

#### Chapter 569: Ultimate Technique, Flame Monarch Purgatory(1)

The Violent Ice Beast had just finished recovering when Mo Xie's nine tails flipped up massive shockwaves. The air flow alone was enough to reach the effects of a ninth rank wind type technique!

When the nine sin imprint tails fell heavily onto the Violent ice Beast's body, the Violent Ice Beast's body split into many pieces and flew back!

"If this energy were slapped onto a normal top tier monarch, even its bones would split open!"

Ye Wansheng said shocked.

Compared to the Royal Flame Nine Tail Inferno Fox, as a seven sin fox corrupted inferno monarch, Mo Xie's use of her tail was at its max. When those nine tails swept past, even the sealed space itself shook!

"It's useless. No matter how many times it attacks, it can't kill my soul pet!" Qin Ye laughed out loud. After speaking, he even turned over to Xia Guanghan and said, "Let your Destructive Wind Fairy attack. I don't believe it can protect all of them at once!" Xia Guanghan saw that the Violent ice Beast regained control of the scene and showed some relief. Immediately, he told his Destructive Wind Fairy to start gathering a new wave of wind type techniques!

Mo Xie's gaze was cold. It wanted to kill Xia Guanghan the most, yet Qin Ye was in the way, making Mo Xie even more infuriated!

"Dongdongdongdong~~~~~" Very quickly, the Violent Ice Beast's body reformed again, as if it had countless revival powers. It indeed was hard to deal with!

"Chu Mu, my Bell Noise Concubine's pollen poison can counter all revival abilities. As long as this Violent Ice Beast gets poisoned, it won't be able to regather." Ye Qingzi said to Chu Mu using soul remembrance.

Chu Mu turned around and was just about to reply when he suddenly noticed clear black veins slowly appearing on Ye Qingzi's face, almost destroying her delicate face.

"Ye Qingzi, what is wrong!" Chu Mu stared shockingly at Ye Qingzi.

Just now, the destructive wind was blocking his vision, so Chu Mu didn't notice Ye Qingzi's transformation. Seeing this now sent daggers into Chu Mu's heart.

Ye Qingzi only then realized that the veins on her face were affected by poison too. She didn't want to show Chu Mu this terrible side of her, so she quickly turned around and faced away.

"Mo Xie, you go deal with them first!" Chu Mu quickly jumped off of Mo xie and ran in front of Ye Qingzi, grabbing her shoulder.

"Qingzi, what happened!" Chu Mu said worriedly as she hugged Ye Qingzi.

"Haha, she used a soul master's self-damaging soul technique to increase her soul pets' strengths and is now facing the worst of punishments. She will die in no time!" Xia Guanghan's irritating voice suddenly transmitted over. At the same time, Xia Guanghan's destructive wind fairy finished its wind type channeling, creating another tenth rank wind type technique!

Tenth rank wind type techniques may not cause much damage to Mo Xie, but to other people, it was deadly. Violent Ice Beast was using its continuous revival to restrict Mo Xie. Meanwhile, if Xia Guanghan's destructive wind fairy constantly cast wind type techniques, Mo Xie would be burdened by constantly protecting everyone, making her unable to leap past the Violent Ice Beast to kill anything else!

"Chu Mu, just continue to waste time with us. The longer you wait, the worse the poison gets to her. Once all her veins are covered in poison, your woman will be as good as dead!" Xia Guanghan said.

After speaking, Xia Guanghan's destructive wind fairy's wind type techniques again swept over. This time, the powerful destructive wind was a destructive wind vortex that almost covered a fourth of the space, slowly yet terrifyingly inching nearer!

With everyone and their soul pets' defenses, even if they were near the fringe region, this massive vortex could cause fatal damage to them!

Mo Xie of course wouldn't just watch as this destructive wind vortex came to everyone. She suddenly started running, her silver sin imprints quickly appearing in front of the destructive wind vortex!

All her fur was blown askew. However, facing this tenth rank wind type technique, Mo Xie didn't show any fear. Her sin imprint claws suddenly ripped forward, creating huge sin imprint cracks on the tenth rank destructive wind vortex. These sin imprints actually started branching into the entire vortex!!

“Huhuhu~~~~~”

As the sin imprints appeared, the destructive vortex seemed to break apart from inside, and quickly shrink, causing its power to shrink as well.

Very quickly, the tenth rank hurricane vortex slowly disappeared under Mo Xie's claw!

“This sin imprint can destroy even energy!” Xia Guanghan was shocked. This was the first time he had seen a power able to directly destroy the energy and intangible wind type technique!

Qin Ye laughed coldly, and didn't mind the sin imprints power at all. Taking advantage of Mo Xie's landing, he gave a command to Violent Ice Beast.

Violent Ice Beast's body actually shattered, sending countless ice shards towards Mo Xie's landing region, floating around Mo Xie.

Suddenly, all the ice cubes started to merge and combine!

The recombobulation of the Violent Ice Beast there was intending to completely seal Mo Xie inside, freezing her in permanently!

The Violent Ice Beast's body came together extremely quickly. In a short period, the seven meter tall violent Ice beast gathered its complete body, with Mo Xie in the center, as if devoured by the ice. Even the nine tails were slowly being frozen!

Chu Mu lost focus for a second and was immediately taken advantage by Qin Ye. Both Xia Guanghan and Qin Ye were extremely sly and were very good at controlling their soul pets.

“Wuwuwuwu!!!!!!!!!!!!!!”

In the Violent Ice Beast’s stomach, Mo Xie let out an angry call!

How could the low class monarch rank corrupted inferno monarch be so easily subdued? With this call of Mo Xie, the sin imprints on its body peeled off and extended into the violent ice beast’s body!

The low class emperor rank sin imprints were enough to easily break the violent ice beast’s body. Very quickly, when the sin imprints stretched across the violent ice beast’s entire body, the violent ice beast’s body again showing countless cracks!

One of Mo Xie’s unfrozen tails lightly swept by, causing the seven meter tall violent ice beast to again get shattered.

Violent ice beast collapsed and Mo Xie quickly recovered her freedom. Yet, at this moment, Xia Guanghan’s Bloodsucking Terror Wolf had laid ambush beside Mo Xie- without her knowing at all!

Xia Guanghan’s Bloodsucking Terror Wolf quickly released a dozen blood wolf shadows that frenziedly attacked Mo Xie. Mo Xie had just been unfrozen and was immediately put under assault, so she couldn’t defend much> very quickly, a couple small wounds appeared on her skin.

“Come back!”

Xia Guanghan was also playing incredibly dirty,. He knew that if his Bloodsucking Terror Wolf directly fought Mo Xie, a single sin imprint claw from Mo Xie could kill his wolf. So, once it got a hit in, he immediately commanded it to run away and wait for Mo Xie to attack again!

“Chu Mu, this poison isn’t lethal. Let’s kill them first. If we continue to waste time like this, they gain more control!” Ye Qinzgi saw Mo Xie hurt and quickly told Chu Mu.

Xia Guanghan and Qin Ye clearly weren’t easy to deal with. Their soul pet training and manipulating was clearly adept and highly skilled!

Ye Qingzi's water moon, bell noise concubine, as well as Wood Tray spirit were all low ranking. Giving the emperor rank Mo Xie healing didn't amount to much. Also, they were all heavily injured, so casting techniques would be hard.

Chu Mu's face was also stern. Violent Ice Beast was an incredibly hard to deal with soul pet., especially because it type countered Mo Xie.

If they could figure out a way around the violent ice beast, Xia Guanghan and Qin Ye would all be useless!

“My bell noise concubine is small. Use your Mo Xie's tail to hide it, and when the next tundra ice recombobulates, the Flower Noise Concubine's poison will seep into Violent Ice Beast's body, completely killing it.” Ye Qingzi said to Chu Mu.

Chu Mu shook his head. It wasn't that he didn't want Ye Qingzi to help. Instead he wanted to give her a change.

As an emperor rank soul pet, getting swallowed up would result in her being frozen. Mo Xie's tails clearly could not block frost off well, and if she used sin imprints it would directly burn up the Bell Noise Concubine. So, the method Ye Qingzi described would definitely sacrifice the Bell Noise Concubine.

Ye Qingzi similarly adored her soul pets , so how could Chu Mu tell Ye Qingzi to sacrifice herself.

Though this was a long long time ago, Chu Mu could still remember what Chu Tianmang telling him. The seven sin fox corrupted fox monarch's strongest power wasn't sin flame totems, wasn't sin imprint claws, but instead was sin flames and sin imprints combined, creating the technique Flame Monarch Purgatory!

“Wuwuwuwuu~~~~~”

Mo Xie quickly signalled that she knew this technique through her native knowledge.

If she casted this most powerful inferno monarch technique, regardless of whether it is Bloodsucking terror wolf or destructive wind fairy, even violent ice beast could be instantly killed. After all, its the ultimate technique of the seven sin fox inferno fox monarch!

Yet, this ultimate technique needed two seconds to cast.

Between the three top tier monarchs, the sneak attacking Terror Blood Wolf, destructive wind fairy that constantly attacked the owners, and the unkillable Violent Ice Beast, so Mo Xie definitely wouldn't have two seconds to channel.

“Qingzi, do you have anything that can cause soul power to increase instantly?” Chu mu hugged Ye Qingzi and said.

Ye Qingzi nodded lightly, “I have two, but you can't eat it again within 10 days.

“How much can it add?” Chu Mu asked.

“As seventh remembrance soul master, it can grow about 30%.” When Ye QIngzi opened up her spatial ring, she pulled out a red pill and put it in his hand.

Mo Xie was species mutating, Chu Mu's soul was rising. Though it didn't immediately break through eighth remembrance, it still caused a 30% growth in sales. Adding on Ye Qingzi's medicine's three tenths, six tenths was enough!

Ye Qingzi's palms were covered in black poison too. Chu Mu was sad just looking at her.

After taking the soul power medicine, Chu Mu swallowed it in a gulp and his expression became determined and also caring towards Ye Qingzi, “Qingzi, I'll kill them quickly, and then immediately bring you in for healing!”

Chapter 570: Ultimate Technique, Flame Monarch Purgatory (2)

Chu Mu glanced at Mo Xie.

Mo Xie was about to launch an attack at the Bloodthirsty Terror Wolf. However, she was unable to do anything about the Destructive Wind Fairy's technique, and had no choice but to quickly retreat and destroy the destructive wind force in order to protect everyone.

Mo Xie knew that stalling like this was unfavorable to her. Moreover, Ye Qingzi really did need to be healed.

Promptly, Chu Mu chanted an incantation.

His chant was very short and quickly, his eyes gradually began to swirl with a strange color.

Other Pupil!

Chu Mu's pupils flashed with a completely different color, while the swirling speed became abnormally slow.

At the same time, any moving thing he looked at became extremely slow. Regardless if it was the Violent Ice Beast or the Bloodthirsty Terror Wolf, Chu Mu was able to see their steps.

Chanting again, Chu Mu used the eighth rank abnormal technique, Other Pupil, and gave this power to his soul pets!

Zhan Ye was the closest to Chu Mu. Its black eyes were the first to change. Gradually, the Golden Evil Insect's speed began to abnormally slow down in its eyes, and Zhan Ye was able to easily determine its next steps.

Zhan Ye was a level in strength lower than the Golden Evil Insect. This difference mainly manifested in attack power and speed. The Golden Evil Insect's attacks were difficult to dodge for Zhan Ye while Zhan Ye's attacks were easily dodged by the Golden Evil Insect.

After the Other Pupil's effects, Zhan Ye immediately was able to detect all of the Golden Evil Insect's intentions. Before the opponent had even launched its attacks, it was able to dodge.

The Golden Evil Insect's death pincers released an evil light that flew towards Zhan Ye. However, Zhan Ye had already jumped away before abruptly launching an attack!

Ink Armor Spike!!

The defense-ignoring Ink Armor Spike accurately stabbed into the Golden Evil Insect's body. Its black defense-corroding poison began to seep into the Golden Evil Insect's body!

The Golden Evil Insect let out an angry shout, and it swept up a wave of air with its tail as it smacked it at Zhan Ye!

Zhan Ye's reactions were even quicker. As the attack came, it quickly jumped and beautifully dodged the close-ranged attack. In its mouth, it began fermenting a destructive ray!

"Hong!!!!!" the destructive ray exploded on the Golden Evil Insect's body from such close range, causing it to go flying over a hundred meters. The golden armor on its body began to fester with clear cracks. Clearly, the injuries were not light.

On the other side, the White Nightmare obtained the Other Pupil effect, allowing it to reveal its domineering and evil face. At a short range, it immediately, used its claws to rip at Xia Guanghan's White Nightmare.

Next, it raised Xia Guanghan's White Nightmare high into the air. It released countless pillars of nine underworld flaming clouds that knocked Xia Guanghan's White Nightmare flying.

"White Nightmare!" the point of Chu Mu using Other Pupil wasn't to have Zhan Ye and the White Nightmare defeat their enemies. After all, it wasn't easy for them to defeat their enemies.

Instead, Chu Mu needed himself and the White Nightmare to combine techniques!

"Nie~~~~~" the White Nightmare understood its owner's intentions and taking advantage of the moment Xia Guanghan's White Nightmare had been knocked flying, it rapidly used Displacement Specter to appear in front of Chu Mu.

"Thirteen Inferno Hells!" Chu Mu once more chanted an incantation!

As a seven remembrance spirit master, the might of Chu Mu's Thirteen Inferno Hells was able to reach the late ninth rank. Chu Mu would release an incomparably tyrannical nine underworld devil flames too, so the Thirteen Inferno Hells would further increase to the full ninth rank.

Since his Nightmare was a peak monarch with middle rank nine underworld devil flames, the Thirteen Inferno Hells it used would reach the tenth rank!!

Therefore, combining the two Thirteen Inferno Hells was absolutely capable of dealing enormous injuries to the peak monarch rank soul pets!

The White Nightmare's brewing speed of the Thirteen Inferno Hells was faster than Chu Mu's. Although it started a few chants after Chu Mu, it finished at the same time as him!

Chu Mu's body ignited with a nine underworld devil flame just as one exuberantly did as well on the White Nightmare's body. The White Nightmare then transformed into Chu Mu's figure and stood together with him, the two of them mutual reflections of each other!

Xia Guanghan and Qin Ye's minds were focused on dealing with Mo Xie. They didn't take their attention off of her, because the moment they did, this extremely powerful Corrupted Flame Monarch would immediately defeat them!

They had ignored Chu Mu, and thus allowed him to unobstructedly finish the Thirteen Inferno Hell technique!

Very quickly, at the top of the sealed space appeared a serene white devil flame cloud. It combined Chu Mu and the White Nightmare's dual devil flames. This nine underworld devil flame's might was probably near a high rank nine underworld devil flame!

“Hong hong hong hong!!!!!!!”

The Thirteen Inferno Hells practically all focused onto the Violent Ice Beast. Each pillar smashed towards the Violent Ice Beast, each time exploding on its body, causing it to rupture!

The one truly thing obstructing Mo Xie was the Violent Ice Beast. Mo Xie saw Chu Mu's Thirteen Inferno Hells smash the Violent Ice Beasts and quickly realised Chu Mu's intentions. Her body flashed and she retreated.

“Hu hu hu hu hu~~~~~”

The originally completely extinguished sin flames suddenly ignited!

Mo Xie’s sin flame energy and sin seal force could not be used at the same time. The moment the sin flames began burning, the sin seal would imprint itself onto Mo Xie’s body like a normal devil mark.

However, this time was different. As the sin flames began burning, the sin seal also began to spread!

Mo Xie was fermenting the Corrupted Inferno Monarch’s strongest technique - Inferno Monarch Purgatory!!

The beast type sin imprint’s majestic energy, the demon type evil aura and the fire type burning sin flames. The Corrupted Inferno Monarch’s three attributes began to combine with each other!

“It’s going to use an emperor technique. Quickly stop it!” Qin Ye’s face immediately changed.

The Thirteen Inferno Hells had blown the Violent Ice Beasts to pieces. For a short while, it was useless. Promptly, Qin Ye roared and ordered the Gold Evil Insect that had been knocked flying to charge at Mo Xie!

Xia Guanghan let out a cold sweat in shock. If they allowed the Corrupted Inferno Monarch to use the emperor technique, their monarch rank soul pets could very likely be instakilled. Therefore, no matter what, they had to stop it from successfully using its technique!

Promptly, Xia Guanghan did all he barely could, and ordered his three soul pets to all launch attacks at Mo Xie!

The White Nightmare, Destructive Wind Fairy, and Bloodthirsty Terror Wolf all locked onto Mo Xie!!

If she was attacked, Mo Xie’s fermenting would definitely be interrupted.

However, Mo Xie's nine tails were still moving. Upon seeing the Bloodthirsty Terror Wolf attacking, Mo Xie's sin imprinted tail fiercely swept across, immediately engulfing a current of air, blowing the Bloodthirsty Terror Wolf away.

Mo Xie could use her tail to stop the close-range attack of the Terror Wolf. However, the White Nightmare and Destructive Wind Fairy's techniques were already very difficult to block.

"Nie!!!" Chu Mu's White Nightmare let out a cry. It had already locked onto Xia Guanghan's Destructive Wind Fairy which attack range was extremely wide. If it allowed it to release its technique, Mo Xie's technique would not only be interrupted, but the others would also most likely suffer serious injuries!

Using two Displacement Specters, Chu Mu's White Nightmare moved to a range it could attack the Destructive Wind Fairy. Its two palms burned with middle rank nine underworld devil flames, quickly transforming into two balls of enormous nine underworld flame balls. It then threw them at the Destructive Wind Fairy!

"Hong!!!!!!!" the two balls of devil flames blew up next to the Destructive Wind Fairy. The Destructive Wind Fairy was just about to complete its wind type technique, but was interrupted by the devil flames!

After the White Nightmare used stopped the Destructive Wind Fairy's technique, it used Other Pupil, and quickly detected that Xia Guanghan was preparing a technique!

The White Nightmare's hatred to Xia Guanghan had already seeped to its bones. Using the opportunity it had, it used Devil Phantom to float towards Xia Guanghan. From its posture, it clearly wanted to directly devour Xia Guanghan's soul!

Xia Guanghan had completed half of the technique, when he discovered that the White Nightmare was rapidly approaching.

Xia Guanghan hastily stopped the technique and used a speed increase ability to escape to the Destructive Wind Fairy's side. He could only order the White Nightmare to stop Mo Xie's technique!

It would be extremely difficult for Mo Xie to stop the White Nightmare. Seeing the White Nightmare's technique about to touch Mo Xie, Chu Mu was so anxious he felt like he was on fire.

If he allowed the White Nightmare to attack her, Mo Xie's technique would be interrupted and all of his previous efforts would be wasted.

However, just at this moment, an ink colored figure flew over. At an extremely timely moment, it arrived in front of Mo Xie and used its body to block the White Nightmare's attack for Mo Xie!

"Zhan Ye!" Chu Mu astonishedly swept his eyes over the Gold Evil Insect and abruptly discovered that in between its death pincers was one of Zhan Ye's hind limbs!

Chu Mu finally realized that Zhan Ye had sacrificed a hind limb to protect Mo Xie.

The nine underworld devil flames possessed the ability to immediately burn the soul. Zhan Ye had powerful life force, but it was still hard pressed as it feel the soul burn. Soon, Chu Mu realized that Zhan Ye's soul had been severely wounded!

The moment its soul was wounded, Zhan Ye would be unable to Broken Limb Rebirth to heal itself!

"Wu wu wu!!!!!!" Mo Xie looked at Zhan Ye which had been struck by the nine underworld devil flames on its body and in its soul. She let out an angry cry!

The anger was able to catalyze the Corrupted Inferno Monarch's strength!

Under heavy protection, Mo Xie finally finished casting her technique!!

"Hu hu hu hu hu!!!!!!!!!!" imposing sin flames suddenly began to discharge from Mo Xie out to the peripheries. The sin flames flitted past Zhan Ye's bodies and directly extinguished the nine underworld devil flames!

The people and soul pets Mo Xie approved of wouldn't suffer from the scorching heat of the sin flames. However, the people and soul pets Mo Xie was angry at would feel the terror of this energy!!

Inferno Monarch Purgatory

Inside Mo Xie's pupils was a world. In this world, there was no longer but a single ball of Origin Sin Flame burning. Instead, countless waves of sin flames were raging through this world. They were torrential and resembled a terrifying purgatory!

At the same time, the sin imprints rapidly spread through the sealed space. However, these sin imprints were the reflections of the horrifying purgatory in Mo Xie's eyes into reality!!
