

Soul Pets Bk2 601

Chapter 601: Tianxia Half Devil (3)

Ma Yilu, Li Teng, Jia Cunding's three soul emperors heard Tian Ting's angry roar, and continued to hesitate before finally giving the command to summon wing type soul pets!

A thousand elite soul alliance members all had the same soul pet, the high class monarch rank Sunset Eagle!

This team was one of the most elite as well as one of the most powerful team, completely listening to soul alliance's highest authority!

Before coming to Tianxia City, he directly gained control of this elite member group. Just with all these wing type soul pets combined, a thousand high class monarch Sunset Eagles, was a group powerful enough to fight a middle class emperor rank soul pet. Adding on that all of these people had three more soul pets, from pure numbers and strength, the thousand elites could completely compare to high class emperor ranks!

These well trained soul pet trainers all had good coordination between themselves, creating an effect higher than even normal high class emperor ranks!!

In the chaotic streetway, figures of gold flitted through the night sky, leaving behind sunset like glows that lit the entire city gate area up!

The thousand sunset eagles flying into the skies immediately got everyone's attention.

One had to know that every high class emperor rank sunset eagle was near ten meters in length. When every sunset eagle set flight, their golden feathers carpeted the skies, creating many tidy teams within the air that didn't show any chaos. From the bottom up, one could see all the sunset eagles blotting out the night sky, creating a spectacular scene!

"So many sunset eagles!!" Many people have never seen such a brilliant scene in their lives, letting out exclamations of admiration.

"We're saved, that definitely is soul alliance's team, the strongest of Tianxia City!!!"

Many people had clearly heard of the news of this sunset eagle team. Seeing a large team of well trained sunset eagles fly into the skies, they knew it had to be the undefeated soul alliance elite team, the greatest power of soul alliance in all of Tianxia City!

“If I had just gone through the last test, then I definitely would be a part of that team. Its too bad that soul alliance’s team exams were extremely strict. Even I, a fifth remembrance spirit master, was eliminated because of low control over my soul pets. Now watching them appear, I’m truly jealous, regretting why I didn’t try for the exam again.” A short soul pet trainer sighed on one of the roofs.

Once the soul alliance team appeared, people seemed to be much calmer.

Most people in the city area had average distinguishing ability. They often simply compared grandeur to determine the battle situation. Seeing the sunset eagle team appear so flashily, almost covering the entire night sky, the unknown evil devil seemed to get suppressed. From their view, this was the struggle between the mass of justice against a lone evil. The soul alliance team will definitely be able to take down this evil devil!

Tian Ting saw the sunset eagle team finally appear, and let out a long breath and quickly rode his Eight Feathered Turtledove into the team of thousand sunset eagles!

The eight feathered turtledove isn’t much larger than the sunset eagle. However, its white feathers and flamboyant eight wings were incredibly noble. In the thousand sunset eagles, it stood out like a swan in a group of chickens, magnificent and outstanding!

Tian Ting quickly took the commander position in the soul alliance team. He glanced at the chasing evil half devil and smiled nastily!

“Summon your Hurricane Fairies!” Tian Ting raised a single hand and shouted angrily using soul remembrance!

The thousand soul pet trainer soul alliance team were extremely in sync. The moment Tian Ting spoke, everyone cast their incantations, their body getting shrouded in turbid wind!

The soul alliance teams were strictly required to select a certain type of soul pets. In air battles, they must have sunset eagle and hurricane fair. So, every team member of soul alliance had high class monarch rank hurricane fairies!

With a thousand high class monarch rank hurricane fairies together, their pure fighting strength wasn't any weaker than a middle class emperor rank wind type soul pet. If these thousand high class monarch rank hurricane fairies cast the same wind type techniques, stacking the wind type technique, this element could create a destructive power that even high class emperor ranks couldn't handle!

"Throw it into the Snowfall Mountain Range!!" Tian Ting shouted, giving an attack command to all of the soul alliance team!

Snowfall Mountain Range city gate position was a couple dozen miles, so if all of the hurricane fairies cast the same wind type technique, even a high class emperor rank would get sent a couple kilometers away!

In the skies, the chaotic winds blew carelessly. Countless black winds started whipping the city, sending debris and loose items into the air. The items with worse support started swaying in the air. Some weaker structures instantly lost their roofs to the rampaging winds!!

In the night sky, the wind type energy freely got stronger and stronger. As the thousand hurricane fairies gathered their techniques, the effect caused the entire night sky to become muddled!

Facing the thousand hurricane fairies' wind type techniques, the half devil simply floated in the sky. The lone evil white fixture stood against the countless golden figures and turbid wind images!

The killing of the Triumphant Tooth King had wasted some of its time. Now, fighting his way into the soul alliance team formation was hard, so he must withstand one of the hurricane fairies' attacks!

Chu Mu didn't want to sit and wait for the attack, but instead wanted to have the thousand soul alliance members' techniques collide with themselves!

The turbid wind whistled past its ear. Half devil Chu Mu extended a right hand, opening his palm!

The devil flames burned. In the palm of half devil Chu Mu, there slowly appeared a strange vacuum hole!!

The vacuum continuously expanded. One could clearly see the vacuum expanded towards the nearby region of Chu Mu's palm, devouring the nearby night sky as well!!

“Huhuhuhuhu!!!!!!!!!!!!!!”

All of the hurricane fairies finally finished their chanting. Immediately, countless hurricanes appeared. All of the hurricanes' heights were nearly hundred meters tall, reaching ten meters in width as well!!

The ninth rank hurricane was near fifty meters in diameter, but clearly these high class monarch rank hurricanes were all compressed greatly!

Though barely ten meters in diameter, with nearly a thousand shocking hurricanes, not considering the effects of the hurricane, this was already a technique that covered ten thousand meters!!

One could imagine a technique that covered ten thousand meters. When standing on the ground and glancing upwards, the feeling was like one was in a world of wind, while all of one's senses were devastated by wind!

Finally, the thousand hurricanes rolled out!

Every hurricane's path was locked onto the half devil Chu Mu. Hurricanes on different heights would have clear deviations that overlapped with other hurricanes that created stronger wind currents!!

“Longlonglonglong!!!!!!!!!!!!!!”

The wind sound was too massive, creating a fundamental change that was incredibly heavy!

Finally, the forward most hundred hurricanes stacked up and swept past. The energy able to pull up whole mountains collided with Chu Mu's palm vacuum!

Bizarre events unfolded soon afterwards!

The hundred hurricanes stacked together when collided with the vacuum suddenly weakened. In a few short seconds, the vacuum of twisted space in Chu Mu's right hand completely dissipated!

And Chu Mu himself only slid back a couple meters!

When the second hundred hurricanes came, the same thing happened. The hundred hurricanes stacked together were completely absorbed when they neared Chu Mu's palm, still only sending Chu Mu a couple meters back!

Ten times, the hurricanes swept over, yet only the last hurricane sent Chu Mu a few hundred meters back. Other than that one, the rest of the hurricanes only sent half devil Chu Mu a couple meters back!

With such an imposing presence, falling like the wrath of god, such a destructive wind type technique was just dissolved so simply!!

It felt as if a huge tsunami came from the horizon, yet when it was about to devour all, it became a tiny tide at the shore.....

"Snowfall Mountain range is in Tianxia City?" In the night sky, regaining his balance, Chu Mu heard Tian Ting, and said coldly with some mocking tones.

Tian Tin watched the half devil Chu Mu and his face twitched!

The dozen kilometers the Snowfall Mountain Range spanned was nothing compared to the hundred meters Chu Mu was sent back.

Tian Ting would never have thought that the half devil's other type techniques would be so effective against wind type techniques. One had to know that, other than ground type, wind type could usually send its opponents really far away even if it couldn't do direct damage head on.

All of the soul alliance team showed poor expressions. Joining the soul alliance team for so long, they rarely used their full strength and still got dealt with this easily. The opponent's strength was far beyond what they estimated when watching from the ground!

“The half devil has three types to the extreme. Though its high class emperor rank, even top tier emperor ranks couldn’t necessarily win.....” Jia Cunding said. From his tone, one could clearly see it was ruining their own morale and raising the opponent’s might.

Tian Ting gave Jia Cunding a wicked stare to shut him up, but Tian Ting himself was shocked beyond belief!

Their attack is done, its my turn!” Chu Mu smiled !

Chu Mu’s other hand lifted up. Also opening up its palm, this time he raised it high up above his head, facing the sky, clearly wanting to grasp the very sky in his hands!

“Don’t.....don’t let it cast techniques!!” Tian Ting’s face immediately changed. He let out a large roar that commanded all the soul alliance team members to attack with their sunset eagles!

After giving the command, Tian Ting summoned his middle class emperor rank. Not caring whether the middle class emperor ranks could harm the half devil, he just wanted them to obstruct any techniques it wanted to cast!

Chapter 602: Half Devil With a Consciousness Part 1

All of the Hurricane Fairies had already released a technique. If they wanted to launch another round of techniques that had effect against the half devil, they would have to spend a few seconds of preparation time.

At this moment, only by relying on the technique linkage of the Sunset Eagles could they have a hope of stopping the half devil Chu Mu.

As for Ma Yilu, Jia Cunding, and Li Teng’s emperor rank soul pets, their single attacks were unable to damage the high defense half devil. But combined with the thousand Soul Alliance members, they had some effect.

The well-trained Sunset Eagles had already begun preparing wing type techniques earlier. When Tian Ting gave the order, all of them began to move. Their golden yellow bodies rapidly moved and intersected with each other, displaying a dazzling sight!

When the half devil Chu Mu saw all the Sunset Eagles approaching him, these golden lights carried powerful severing energies. A thousand of them slashing across the sky really would deal damage to him while also interrupting his technique.

However, the half devil Chu Mu wasn't worried. His violently burning thoughts were filled with battle memories of the half devil. All of the half devil techniques were at his disposal!

Facing the thousand Sunset Eagle attacks, the hand Chu Mu used to block the Hurricane Fairies stretched out.

After Chu Mu blocked the wind type technique, this hand firmly clenched together. If one looked closely, in between his fingers were traces of chaotic wind seeping out.

Suddenly, Chu Mu opened his hand!

In the half devil Chu Mu's hand, the wind cave unexpectedly hadn't disappeared!

"Reverse!"

The half devil Chu Mu's palm opened and suddenly, an incomparably violent wind element strength surged out of his palm. Astonishingly, it was the Chaotic Wind Hurricane that Chu Mu had neutralized earlier!

"Hu hu hu hu hu!!!!!!!!!"

The hurricane expanded and swept towards the Sunset Eagles flying at him!!

"He's using the Hurricane Fairy's technique against us!!" Jia Cunding's face immediately paled. This was the half devil's other type reversal ability. It was a strange ability that could reverse the energy from every attribute!

Jia Cunding's knowledge of half devils was extremely limited. How would he know that the half devil Chu Mu would reverse the technique from just now. The enormous amount of Hurricane Fairies had practically been replicated, and now his eyes were full of fear!!

To the soul emperors with emperor rank soul pets, if this wind type techniques were to disperse, it was not capable of instakilling them.

However, the Soul Alliance members would not necessarily escape unscathed. Especially since the Hurricane Fairies would be unlikely to use a wind defense!

“Combine! Combine together!!!” Tian Ting roared!!

All of the Sunset Eagles had dispersed. The more dispersed they were, the more effective the wide area attack wind type technique would have. This amount of leadership, Tian Ting still had.

With Tian Ting’s Eight Feathered Turtledove in the lead, the Soul Alliance Members all flusteredly gave up on attacking and rapidly formed their original star board formation!

“Half retract you wings!” Tian Ting said.

The thousand Sunset Eagles collectively half retracted their wings. Everything was in unison, and they indeed were well trained. This way, the wind strength attack they suffered was much weaker!!

“Hong Hong Hong Hong!!!!!!!!!!”

The sound of the wind fundamentally changed once again. The chaotic hurricane wind swept out with long teeth and dancing claws. It repeatedly tried to engulf the golden team!!

”Ah ah ah ah ah!!!!!!!!”

The Soul Alliance at the very edges of the group were swept away by the hurricane. Their miserable cries rung out in the air!

The wind strength was terrifying. To individual Soul Alliance members, the wind strength had even more destructive strength. Therefore, the moment they were swept away, they would definitely be ripped to pieces in the air!

The Soul Alliance members all lowered their heads, and laid on their Sunset Eagles with fear. Death continuously whistled in their ears!

“Hu hu hu hu hu!!!!!!!”

The wind sound eventually returned to normal. This meant that the wind technique was weakening.

Finally, the members in the team opened their eyes. However, the members who remained could tell that their numbers had been greatly depleted.

Nobody knew how many teammates they had lost, but the fear of death was all looming in their hearts!

“Don’t pay attention to those people. Quickly form together!” Tian Ting couldn’t be bothered to take notice of the people who died. He extremely cold-bloodedly gave an order.

Although the team was a team, the hurricane had clearly scattered their formation. It would take a while before they would be able to create a group attack.

Tian Ting swept his eyes over the members. Seeing them so undisciplined, he immediately cursed!

“Don’t form up. Disperse a bit. Perhaps a few of them may be able to survive. If they all group up, they’re all dead!” at this moment, the half devil’s devil voice was arrogantly transmitted into the ears of the Soul Alliance members!

The half devil Chu Mu revealed a savage smile!

The half devil was innately an incarnation of slaughter. It didn’t matter that these were lackies of Soul Alliance. Even towards normal people, the bloodthirsty half devil would not be merciful at all!

Evil was evil, and it meant that a large amount of corpses were going to be piled up. Otherwise, how else would one step into the pinnacle of evil?

After Chu Mu’s reversal hurricane technique, he never put down his hand reaching to the horizon. In other words, he immediately began fermenting a technique from that moment!

“Shattering Heaven Imprint!”

Finally, the half devil Chu Mu coldly spat out the technique name!!

The horizon abruptly pressed down!!

A shroud of destruction loomed over everyone's heads. The horizon was within reach!

There were people that watched, stunned. There were others that fled in fear. But in reality, whether they fled or not, it didn't matter. Indeed, the level of this energy covered a range of several thousand meters. The technique only took a few seconds to ferment. If the technique were to directly strike the ground, any soul pet of the emperor rank or under would be unable to escape this wave!

The sky continued to sink further. Suddenly, a strange shattering heaven crack broke through the sky like lightning! It was astonishing!

The half devil Chu Mu's silver face had completely transformed into that of a Nightmare. He had a clearly protruded silver nose, and his lips broke into the most savage and ruthless smile possible as demonic lights and flames of range emanated from his other pupils...

His other pupils stared at the heavens that were cracking, and he slowly opened his mouth. From his mouth spat out a white pillar of light that fiercely struck the expansive heavens!!

After the might from the light pillar continued up, the cracks in the sky became even deeper and more expansive!!

As if countless savage Nightmares appeared in this black sky, their devil claws ruthlessly extending out and ripped apart fresh blood and flesh in order to fill their stomachs!

Even more shattering sky devil claws appeared. The golden yellow colored Sunset Eagles and soul pet trainers were extremely weak under this energy. As long as they were slightly touched, they would undoubtedly transform into flying flesh and blood!!!

“Ah ah ah!!!! Ah ah ah!!!!!!!!!!”

“Ah ah!!! Ah ah ah ah ah!!!!!!!!!!!!!!”

The miserable shouts didn't stop. Every Soul Alliance member had practically fallen into this Nightmare purgatory. Each one of them was ripped to pieces by the Shattering Heavens Imprint!

Like rain, the flesh and blood from soul pet trainers spilled from the sky while the feathers from the Sunset Eagle began to drift about covered in blood and broken limbs fell from the air. A bloody mist covered the city!!

Chapter 602: Half Devil With a Consciousness Part 2

The blood struck the faces of others, and a few more courageous spectator soul pets were already completely stupefied. Beside them rained down snapped off hands, snapped off legs, half of people's' heads and shattered innards that rained down with blood and fluids into the city!

This was a shocking and harrowing scene!!

Countless people in the city among this purgatory of flesh and blood immediately fainted. Countless others stood there petrified, while some stared with eyes wide open at the sky raining in blood...

Everyone's ideas of justice and evil had been completely turned on their heads after the Shattering Heaven Seal. These people who had received small benefits and favors from Soul Alliance for so many years were now watching their protective guardians die so miserably.

On top of the roof, the bloody rain pattered onto a short soul pet trainer's face. He looked stunned and panickedly muttered: "It's good... it's good that I didn't pass.... didn't pass the test of the Soul Alliance team."

This short soul pet trainer, if he had passed the test for the Soul Alliance team, would have been one of those members whose limbs would have spilled all over the place!

Shattering Heaven Imprint was a completely slaughter!

And the creator of this slaughter was like the ruler of the night!

He was emanating in demonic aura as he floated in the bloody rain towards Tian Ting.

Tian Ting's soul pets didn't die. Chu Mu's Shattering Heavens Imprint was targeted at the entire Soul Alliance team. It was also Tian Ting's last resort. As for the two middle class monarchs Tian Ting had summoned and the Eight Feathered Turtledove of which three wings had been ripped off by the Shattering Heavens Imprint, they could no longer pose any threat to Chu Mu.

Tian Ting was on the verge of collapse on the Eight Feathered Turtledove. He was trembling as he watched Chu Mu walk over.

As Soul Alliance team was cleanly slaughtered, Tian Ting collapsed. He took responsibility for the strategy just now. The arrogance from having high class emperors and the aggressiveness due to having the reliance of the Soul Alliance team was completely gone!

"Do you want to tell them my name?" Chu Mu seemed to see through Tian Ting's thoughts and spoke mockingly.

Tian Ting trembled as he opened and closed his mouth...

Tian Ting really had planned on saying Chu Mu's name. He wanted to tell everyone in Tianxia City that Soul Palace Chu Chen was Li City's half devil, as well as Tianxia City's half devil. He was a seed of calamity that could transform himself into a half devil!

However, Tian Ting could no longer speak. The enormous pressure was practically going to rupture his heart!

"You... you..." Tian Ting twitched from head to toe as he tried to speak. But what he wanted to say to Chu Mu was no longer important!

"This is just the beginning. There are too many people like you in Soul Alliance who deserve to die. I will crush each of their heads one at a time..." Chu Mu reached Tian Ting and grabbed his head with one hand, lifting him up by his head!

The bloody rain began to calm. All of the corpses fell onto the roofs, streets, courtyards and water platforms...

The smell of blood pervaded half of Tianxia City as it even began to spread. Presumably in the next few days, the sewers of the entire Tianxia City would run red, as would the rivers flowing outside the city...

The Shattering Heaven Imprint didn't strike the ground. Aside from the evil devils descending and affecting a few people, this battle didn't bring any heavy casualties to Tianxia City itself or deliver any tragedy to the people.

However, the shock and horror this fight gave the city was of enormous impact to the hundreds of thousands of people watching. As for how serious the aftereffects would be, nobody could be sure.

"Head seat... head seat... he was caught by the Nightmare..."

Several spirit emperors who had very high defensive abilities were dumbstruck on the ground as they watched the far away sky.

Most of these spirit emperors didn't even have middle class emperor rank soul pets and above. Unless there was someone else with even more authority who came here to organize a team, they would not send themselves to their deaths. Especially since the head seat under the throne was being lifted up by the Nightmare's claws as if it was grabbing a dead creature.

"Someone... someone appeared!!"

In the center of Tianxia City, several tens of extremely fast enormous figures rushed towards this city district urgently.

"It seems to be the elders and spirit emperor experts!"

The scattered Soul Alliance members quickly recognized the group of experts approaching. After this savage calamity had passed, the only one who would dare face this enemy would only be the spirit emperor camp!!

When the entire city was threatened, Nightmare Palace, Soul Palace, Soul Pet Palace, Merchant Alliance, Soul Alliance, and the Elemental Sect, as the most authoritative representatives of the human soul pet domain, would combine forces to resist unknown invaders.

Therefore, among the tens of figures, there were Soul Palace elders, Nightmare Palace elders, Soul Pet Palace elders, various great Palace Lords, Kingdom Lords, and Spirit Emperors that controlled other resources...

Flying at the very front of them was the only senior elder level person in the entire Tianxia City, Soul Palace's Senior Elder Liu!

Immediately behind the senior elder were the other three seats: Elder Hai Qiu, Elder Xie Tao, and Elder Ting. Behind the three elders were the elder level figures from the three great factions. Old Soul Teacher De was among them.

After the elder group were the great Palace Lord level people. Most of these people had middle class emperors and occasionally there would be a few spirit emperors riding very fast soul pets dithering nearby the group of great Palace Lords.

The final group were the Palace Lords and normal Spirit Emperors. What they possessed was low class emperors and pseudo emperors!

The spirit emperors watching over Tianxia City normally numbered about one hundred. This time, nearly half of them appeared!!

Moreover, as this group of people neared, scattered spirit emperors on the ground began to continuously fly up into the air, joining the duty bound spirit emperor group!

This shocking fight didn't continue for long. The emperor group of experts didn't appear too slow. After all, the entire Tianxia City was incomparably vast. From the very center to the city gates were several flourishing districts, city cores, the inner city and the outer city's four districts. The area of each district was calculated in kilometers. Even if emperor rank soul pets were faster, they would not be able to immediately arrive.

As for the Spirit Emperors who were originally nearby, they didn't even have the courage to attack or even assist.

This kind of Spirit Emperor team was unprecedented in the past tens of years. The congregation of this group of experts was in order to fight the evil emperor half devil that had suddenly appeared in Tianxia City!

Senior Elder Liu's flying speed was the fastest. His two pale white hairs fluttered in the wind and his profound and wise eyes looked at the demonic devil figure burning with white flames in the distance.

Even if he was a senior elder, when facing a true half devil, his eyes clearly changed. One had to know that tens of years ago another half devil had destruction was still vivid in Senior Elder Liu's mind.

Senior Elder Liu's soul pet was overflowing with aggressiveness. It astonishingly was an Immortal Ming Bird that had been strengthened to the peak of the emperor rank!

Undoubtedly, the half devil Chu Mu was not necessarily a peak emperor rank soul pet's opponent. Moreover, one could see that Senior Elder Liu didn't only have one peak emperor!

"Everyone stop!" suddenly, Senior Elder Liu shouted with soul remembrance, ordering all of the spirit emperors to stop!

There were now already sixty spirit emperors. Yet, regardless of which faction an expert was from, after Senior Elder Liu gave an order, none of them dared disobey. They all stopped behind the senior elder and didn't dare step forward.

"Senior Elder Liu?" Hai Qiu asked, not understanding.

Right now they were only a thousand meters away from the half devil. To an emperor rank, this distance wasn't anything.

Moreover, at this distance, every Spirit Emperor could clearly see the evil emperor half devil's figure. Numerous spirit emperors discovered the ground littered with bodies under them and were even more shocked!

"So this is a half devil..."

"Nightmare Palace's sin."

“Devil flames, beast strength, and other type. The strongest creature without a weakness. A devil god from another world!” the emotions of spirit emperors from Nightmare Palace were extremely unsteady.

Many spirit emperors didn’t even dare look at the half devil. The shock from staring at a half devil from such a close distance was something hard to describe.

“Senior Elder Liu, head seat is being held in its hands. We still don’t dare attack?” asked Old Soul Teacher De in a low voice.

Senior Elder Liu’s expression became grave as he shook his head.

There was no need to talk about Tian Ting. He was definitely dead!

The half devil would be able to kill him whenever he wanted. Even if Senior Elder Liu attacked it was of no use.

Right now, Senior Elder Liu was afraid of the condensed death devil flames in the half devil’s other hand.

This death devil flames had condensed when everyone neared.

If this technique were to attack the spirit emperor group, it wouldn’t be able to deal much damage.

However, if his technique were to be thrown at Tianxia City below, the repercussions were unthinkable!

“Half devils possess other type abilities. Even if my Immortal Ming Bird is faster, it won’t be able to stop him from attacking the countless citizens in Tianxia City.” Senior Elder Liu’s expression continued to change.

Several elders also darkened their expressions.

Elder Hai Qiu said: “He probably wanted to attack Tianxia City. If it releases his technique, Tianxia City will be engulfed in a catastrophe!”

After speaking, the hearts of all the experts sank.

They had so many experts watching over Tianxia City. Yet they still allowed Tianxia City to suffer such a disastrous attack. What kind of qualifications did they have to receive the support and respect of these people? There would be countless people condemning them!

Of the elders, Nightmare Palace's Elder Xie Tao had the most complicated expression. After hesitating a while, he used soul remembrance to speak to Senior Elder Liu: "Senior Elder Liu... did you see it?"

Senior Elder Liu slowly nodded his head. His expression was complicated. After a while, he used soul remembrance to reply: "This half devil... possesses consciousness..."

A half devil with consciousness!

The half devil was full of slaughter. If it appeared, bloody wind and rain would equally emerge.

How the half devil appeared was extremely clear by the senior elder and elder rank experts. IT was an extremely powerful soul that was devoured by a powerful Nightmare.

Because some experts had extremely powerful willpower, they were unwilling to be devoured by a Nightmare, and thus would engage in a soul fight with the Nightmare whilst being devoured a little bit at a time.

This state of bitter struggle in the expert's soul was the half devil!

It could be said that if an expert was able to resist this pain from his soul being devoured and continuously not give up, an incomparably evil and grievance pain-based strength would emerge.

In human form, one's strength was average, and when in Nightmare form, its strength was also average. Only when in the state of both human and Nightmare would one be the strongest!

When in the half devil state, the Nightmare was the dominant side. Otherwise, if the Nightmare didn't devour the soul, the human would passively struggle. The Nightmare needed to devour, but wasn't able to fully control the body.

However, in the half devil state, the half devil only knew how to slaughter. It could not possess a consciousness.

Senior Elder Liu was someone who had experienced a half devil calamity while Elder Xie Tao also understood it. They were both clear that a half devil didn't have reason, logic, or intelligence.

However, the hearts of Senior Elder Liu and Elder Xie Tao were trembling because: the half devil in front of them unexpectedly possessed consciousness!!

It understood how to grab the head seat, Tian Ting, but not kill him. It also understood how to use the innocent civilians' lives in Tianxia City to threaten their enormous spirit emperor group.

No matter if a true half devil was strong or weak, they were simply unable to think whilst struggling amidst the pain, let alone do actions like this!

"Senior Elder Liu, you try... try using soul remembrance to communicate with it..." Elder Xie Tao spoke softly with soul remembrance.

The half devil possessing consciousness gave Elder Xie Tao an enormous shock. If this news spread, the experts in Wanxiang City would be horrified!

Senior Elder Liu nodded his head. While confronting the half devil, he attempted to communicate with soul remembrance.

"We won't go forward if you don't let your technique descend." Senior Elder Liu's soul remembrance transmitted into Chu Mu's mind.

The half devil Chu Mu stood there. His devil flame hand was still clutched to the half dead Tian Ting. He stared at the enormous spirit emperor group.

Only, the half devil Chu Mu didn't say anything.

Chu Mu's heart right now was full of savagery, ruthlessness and bloodthirstiness. But it was also filled with reason and calm. He didn't say anything because he was afraid Senior Elder Liu remembered the sound of his soul remembrance, and could identify this half devil as his own grandson that he just met not too long ago.

Chu Mu didn't want too many people to know about his half devil secret.

"If you have anything you want, you can tell us as long as you don't harm the innocent civilians in Tianxia City." Senior Elder Liu seemed earnest as he spoke.

Senior Elder Liu was an upstanding Soul Palace old man. He really did care about the civilians in Tianxia City.

Right now, he had no choice but to humble his senior elder attitude, because several hundreds of thousands or even millions of lives could perish if he said one wrong thing.

The half devil Chu Mu watched this old man with strength far greater than his, but who was willing to lower his own status. The evil in his heart lessened a bit.

However, the half devil Chu Mu still didn't say anything. He clutched Tian Ting's head and slowly retreated towards the outside of the city.

Senior Elder Liu saw that the half devil was retreating and slowly moved forward.

However, at this moment, the devil flames in Chu Mu's hands bloomed, forcing Senior Elder Liu to hastily retreat.

"I won't move forward. I definitely won't move forward." Senior Elder Liu hastily said.

The half devil's actions caused Senior Elder Liu to confirm that this evil emperor half devil had a consciousness. Moreover, it could very well be a very clear consciousness!

Chapter 603: Li City's Half Devil? Tianxia's Half Devil?

The half devil Chu Mu saw that Senior Elder Liu wasn't moving forward anymore, and he slowly floated backwards.

"Save... save me... he's... he's..." Tian Ting knew that Soul Alliance's group had arrived, but he was still struggling against the grasps of death.

None of the spirit emperors made any movement. They could only pitifully watch head seat Tian Ting, who had previously emanated with might, be pulled along in the half devil's hand like a dead dog.

Even the senior elder couldn't save him. How could the others? These Soul Alliance experts could only stand behind the senior elders peak emperor rank Immortal Ming Bird without being able to do anything as they watched the demonic half devil slowly float backwards...

They didn't know how the half devil would deal with the half dead Tian Ting, but they were sure that his ending would be the most miserable.

The arrogant, indifferent, and contemptuous figure gradually moved further away. Finally, it transformed into a tiny white ball that disappeared in the night sky.

"Senior elder, are we not going to pursue? If the half devil exists, I'm not sure how many people will be harmed." a few Kingdom Lords expressed their worries.

The appearance of any half devil would bring about destruction. Now that the half devil had fled Tianxia City, if it didn't die, there was a chance it could appear in some kingdom in the future.

Within a kingdom, it would be impossible to gather this many spirit emperor experts to deal with the half devil. Therefore, if they didn't get rid of this future danger, the entire kingdom's people would be in trouble.

"Other types will not leave behind traces that we can trail. If it flees with all its strength, even my Immortal Ming Bird will not be able to catch up." Senior Elder Liu sighed.

"This is a huge hidden danger. The half devil from Li City has yet to be dealt with yet. It hasn't been too long, and another half devil has appeared in Tianxia City." said Elder Ting.

After speaking, Elder Ting swept his eyes over Nightmare Palace's Elder Xie Tao. His gaze was looking down on Nightmare Palace's people because it was them that had created this Nightmare.

Nightmare Palace's Xie Tao couldn't pay any heed to Elder Ting's gaze right now because he was fully concentrated on pondering: "The half devil from Li City that teamed up with the Cyan Hidden Dragon was hypothesized as having a bit of consciousness. Now this Tianxia City half devil also has consciousness. Could they be the same half devil?"

Half devils could last for either long or short periods of time. The ones that lasted for short periods were because the human was unable to beat the extreme pain, giving up resisting and completely transforming into a devil. This was approximately the time of a battle.

If it lasted for long periods, the human's willpower and soul wouldn't extinguish as he continued to resist the devil. Nightmare Palace had one example of a half devil that lasted for a dozen years!

Of course, this inextinguishable half devil had already been sealed, otherwise the everything under heavens would have been in great chaos.

"Senior elder, right now we..." various Spirit Emperors began to ask questions.

Because Wang Lihong wasn't in Tianxia City, the person with the most authority was Tian Ting. Now that Tian Ting had been taken away by the half devil, everyone naturally listened to the strongest person, Soul Palace's senior elder.

"Each elder take five spirit emperors with them and defends all eight sides of Tianxia City. Regardless if the half devil attacks or not, nobody is allowed to leave their post for a month!" said the senior elder to the Spirit Emperors.

Since he was a Soul Palace senior elder, Soul Palace's members were normally the only ones that had to obey Senior Elder Liu's commands.

However, once Senior Elder Liu gave an order, nobody dared disobey.

Experts would forever demand respect and reverence. A senior elder's aura alone was enough to suppress everyone. The wing type soul pet peak emperor rank Immortal Ming Bird had the qualifications to command the entire Tianxia City.

Quickly, the various elders who remained to defend Tianxia City each lead five spirit emperors to fly in eight different directions in Tianxia City.

“Have people clear up this place. I don’t want any vestiges remaining by daylight, and I don’t want any announcements of the half devil’s appearance. Just say it was a White Nightmare close to the peak emperor rank attacking.” Senior Elder Liu spoke to the Spirit Emperors who were in charge of Tianxia City as he swept his gaze over them.

“Yes.” these Spirit Emperors promptly floated down from the sky and began to gather all of the city guards in the district. They had them clear up the corpses in the district.

Senior Elder Liu then ordered a few people to do some things before sitting alone on the Immortal Ming Bird’s back while thinking.

After a while, Senior Elder Liu then thought of something. He waved his hand, and summoned Palace Lord Yu who hadn’t gone to perform a task.

Palace Lord Yu had followed behind the large team. Throughout the entire course of events, Palace Lord Yu’s expression had been more complicated than everyone else. He was the only person who had seen both Li City’s half devil and Tianxia City’s half devil!

“Just now you had something to say. You can say it now.” Senior Elder Liu swept his eyes over Palace Lord Yu as he spoke.

“That is Li City’s half devil.” Palace Lord Yu spoke with great assurance.

Palace Lord Yu didn’t know if half devils all looked the same, but from what he sensed, Tianxia’s half devil was the same as Li City’s half devil in demonic essence. They both had the same ruthless, yet cold and intelligent eyes...

Senior Elder Liu had guessed the same. He was going to talk about it tonight with Elder Xie Tao.

"Was there anything else?" Senior Elder Liu saw that Palace Lord Yu seemed to want to say something else.

Palace Lord Yu hesitated, not knowing whether to speak about it.

Palace Lord Yu had honestly been suspicious if Li City's half devil had some special connection with Chu Mu. So when he saw it today, he became more certain of his suspicion. Only, a twenty year old young man being able to transform himself into a half devil with high class emperor rank strength was something Palace Lord Yu was wondering if it was a little bit too preposterous.

Finally, Palace Lord shook his head and said: "No."

Senior Elder Liu nodded. He turned around and looked at Palace Lord Yu. Using soul remembrance he said: "Help me do something. Do not tell anyone else about this."

"Please instruct me Senior Elder." Palace Lord Yu hastily gave a bow.

Senior Elder Liu transmitted his soul remembrance into Palace Lord Yu's brain.

Palace Lord Yu listened very seriously at the beginning. However, when he realized who this task was being done for, he was even more shocked in his heart. Immediately, he felt that the half devil and Chu Mu were greatly related!

.....

"Ah!!!!!!!!!!!"

At the very peak of Departed World Gates, miserable cries reverberated across the night sky. Listening to them would make one's blood run cold!

The person letting out these miserable cries was Tian Ting who had been captured by the half devil Chu Mu.

Chu Mu didn't immediately kill Tian Ting. Instead, he needed to know who else knew about his secret.

The number of times he could transform into a half devil was extremely limited. If someone else knew his secret, Chu Mu would absolutely make his way into Tianxia City again and get rid of this person. He wouldn't leave any future troubles for himself.

"No... there's no one else... this matter... this matter was directly given to me by Alliance Master... he didn't want... didn't want anyone to know... also... even... even myself... I don't know what the item is... what it is..." Tian Ting's words kept cutting off. Evidently, he was in an extremely weak state.

Just imagine being continuously tortured by a high class emperor rank soul devil flames for half an hour. Who would be able to maintain any semblance of an unyielding character?

"Then, how many people knew you and I were going to exchange items tonight at Departed World Gate?" Chu Mu asked again.

Chu Mu increased the mental attack on Tian Ting. This mental attack made it so that it was virtually impossible for Tian Ting to lie.

"Chen Peng... Jia... Jia Cunding... Li Teng.... Ma... Ma Yilu... only... only these people..." Tian Ting kept dithering between the boundary of life and death. The amount of pain made it impossible for him to think of any schemes. He only wanted his life to end.

Perhaps Tian Ting would have never expected that he would encounter such a day where he was being tortured by a twenty year old young man.

Chen Peng had already been killed by Tian Ting. Jia Cunding, Li Teng and Ma Yilu were not let off by Chu Mu and had all been ripped to pieces by the Shattering Heaven Imprint. They were mixed together with the corpses of Soul Alliance's members.

The people who knew that Chu Mu was exchanging with Tian Ting at Departed World Gate were really only these few. This was because Tian Ting had intentionally plotted against Chu Mu and was afraid that the senior elder and Her Majesty would take their anger on him. Therefore, he didn't reveal anything.

Tian Ting never expected that his carefully crafted plot would end up helping Chu Mu get rid of future troubles. Chu Mu no longer had to risk breaking through the encirclement of spirit emperors to reach Tian Ting's manor and kill everyone.

When Chu Mu was discussing things with Senior Elder Liu, he had said he was going to personally go to Tian Ting's manor to return Soul Alliance's item. Therefore, Senior Elder Liu thought that Chu Mu had always been in Tian Ting's manor.

As for Jia Jing who had given the information to Tian Ting, Chu Mu didn't have to kill her to silence her. The only thing he did was have Mo Xie use Demon Eye Evil Pupil to forcibly erase her memory.

This memory erasure was only effective on people who had very weak soul remembrance. Jia Jing was a spirit disciple and naturally could not stop the ability. Obviously, after this technique, she would be seriously ill.

"Kill... kill me... nobody... nobody knows... nobody knows.. please.... Kill me." Tian Ting bitterly plead.

Tian Ting knew that if there were still people who knew, this Nightmare would definitely not let him off. But he himself had ensured that nobody knew about this...

Chu Mu ensured that Tian Ting wasn't lying and slowly released his hand. An evil smile arose on his face as he said: "Did you forget to give something to me?"

"This... this is a soul capture ring... inside... inside is an emperor... an emperor rank infant pet..." Tian Ting weakly said.

Chu Mu took the soul capture ring, but didn't hastily open it. Instead, he took Tian Ting's spatial ring as well so that it wouldn't be burned to a crisp as well.

A spirit emperor that had a high class emperor rank, even if he had carefully hidden his treasures in some secret location, would probably have many good things in his spatial ring that he carried with him.

If Chu Mu really was a half devil, he wouldn't have cared about these items. However, once his half devil effect ended, he would have to go back to honestly bitterly training. The items in Tian Ting's spatial ring would definitely bring him enormous benefits.

Chapter 604: Chu Mu's Emperor Preparation Team

The second day, at the departed world gates mountain, corpses burnt beyond recognition were found by the city guards.

Afterwards, Tianxia City's spirit emperors found that the restricted gates towards Immortal City were ripped open forcefully by other type technique!

The departed world gates led to the immortal city was information that only highly positioned Soul Emperors knew. Inside was also sealed countless ancient powerful organisms.

Indications of ripping were very bizarre, so many people came to the following conclusion about the half devil:

The half devil attempted to enter Immortal City, but after touching the seal, chief leader Tian Ting noticed it, so chief leader Tian Ting brought the soul alliance team ahead to fight a great battle against the half devil.....

The result afterwards, many people saw. Tian Ting, the three soul emperors, and the soul alliance team all lost.

The soul alliance team truly lost too poorly. Many people witnessed the blood rain's magnificence. Though the soul emperor formation and many factions guaranteed that the half devil would never appear in Tianxia City again, in the following days, many people remained alarmed. No matter how locked down the news was, news still spread all over about the shocking battle that night.

The commotion lasted a while. The entire Tianxia City was constantly in a guarded state, strictly controlling all people entering the city.

.....

Speaking of that day, the main character Chu Mu, after dealing with Tian Ting, returned to Soul Palace from a different direction.

Once back to soul palace, Elder Liu sent people to search for Chu Mu.

Chu Mu had readied an excuse already; he simply said when he went to look for Tian Ting, he wasn't in his residence, so he walked around outside before returning to soul palace.

Elder Liu only wanted to ascertain Chu Mu's safety. Since Chu Mu was safe, he didn't ask any more.

Chu Mu returned to his room, he let out a long breath. After resting a while, he used the Ground Immortal Ice to slightly adjust his body situation before falling asleep.

A few days later, Chu Mu was about to use soul palace's power to make the situation even more undetectable. He especially couldn't let soul alliance's people stare at him right after Tian Ting's death. Additonally, he had to get rid of all those who stopped him from leaving the city.

What Chu Mu was surprised about was, when Chu Mu was ready to get rid of these people, all of them disappeared mysteriously.

These People couldn't have exited Tianxia City in this period, and couldn't have guessed the true reason of Tian Ting's death. The only reason they might disappear was that someone dealt with them before him.

The only person willing to take this risk to hide the secret was one person: Senior Elder Liu.

Afterwards, Chu Mu had confirmed with Palace Master Yu that, after Tian Ting died, Senior Elder Liu used his secret power to wipe away all evidence, making sure Chu Mu wouldn't be scrutinized by Soul Alliance.

Elder Liu's action's caused Chu Mu to be frightened. Could it be that Senior elder Liu had already guessed he is the half devil, or does he just want to protect him using this opportunity?

.....

No matter whether Senior Elder Liu knew if he was half devil, Chu Mu could finally rest his heart.

Because he was perpetually stressed, Chu Mu hadn't even had the chance to look at the emperor rank young soul pet. He hadn't even looked through the spatial ring that Tian Ting kept with him.

Now, after everything against him was dealt with, Chu Mu could check just how big of a reward he received.

Emperor rank young soul pet was a little fellow that was like little Hidden Dragon, not even entering first phase first stage.

At this time, the young emperor was laying silently in the soul capture ring sleeping, not knowing it had already been passed through multiple peoples' hands.

Chu Mu observed this little fellow closely, and faintly felt as if he had seen the shape of this little soul pet before, but he couldn't remember immediately. He could only tell it from its faint wind type aura that it was a wind type elemental emperor.

"Young master, it's a Fierce Wind Demon Emperor. Look at its head, there's the basics of an emperor plume forming....." Old Li's appraising eye was great, immediately identifying it as a Fierce Wind Demon Emperor.

With Old Li's words, Chu Mu realized. It was the Fierce Wind Demon Emperor. He had seen it back when he was in the Binding Wind Sacred Region.

"Fierce Wind Demon Emperor?" Chu Mu sighed. From his expression, one could see that he didn't care much about this emperor rank soul pet.

Chu Mu already had Binding Wind Spirit, a Wind Type soul pet. Though the Fierce Wind Demon emperor had a natural species advantage over the Binding Wind Spirit, Chu Mu didn't have the habit of switching soul pets.

Chu Mu himself preferred the binding wind spirit's fighting nimbleness. Though the Fierce Wind Demon Emperor was powerful, it wasn't Chu Mu's ideal wind type soul pet.

"Young master, you aren't too interested in the Fierce Wind Demon, are you?" Old Li said.

"En." Chu Mu nodded.

“This is simple. Just sell it! Young master doesn’t particularly like this Fierce Wind Demon, but countless other people are frenetic about it! With the value of the Fierce Wind Demon, this emperor rank species, exchanging for a wind type emperor rank soul item shouldn’t be an issue.” Old Li said.

“Fierce Wind Demon also lives in Binding Wind Sacred Region. However, the Fierce Wind Demon isn’t listed in the seven diagram sacred pets. This, in fact, means that if the Binding Wind Spirit could get strengthened to the same rank as the Fierce Wind Demon, its fighting strength would be even more powerful than the fierce wind demon emperor.

There was only one serving of the Immortal Spring Water, definitely only enough to feed to the little hidden dragon. If he had to retrain the Fierce Wind Demon, he would have to do it phase by phase, needing many years.

Binding Wind Spirit was already ninth phase middle stage. Strengthening it to emperor rank, Chu Mu would have a tenth phase wind type emperor rank soul pet very soon, which was much more important!

“Young master, your next goal is to raise Binding Wind Spirit to tenth phase and to top tier monarch rank. Then, you can exchange soul items to strengthen the binding wind spirit to emperor rank.”

Initially, the old kingdom master Li only had a pseudo-emperor rank to stay superior in status. In not too long, Chu Mu would have multiple emperor ranks. Indeed, many people he once had to look up to had to respect him today.

After figuring out how to deal with the emperor rank young soul pet, Chu Mu took out Tian Ting’s spatial ring.

Old Li knew things better, so Chu Mu simply gave the ring over to Old Li.

Old Li was looking through the spatial ring very enthusiastically before offering a hair-raising laugh.

“Young master, the things in this spatial ring are much better than the defector young woman’s!” Old LI said.

The reason Old LI was this excited caused Chu Mu's eyes to light up naturally. This was a spirit emperor spatial ring, so the things inside would cause Chu Mu's strength to increase!

"There's a thousand spirits in cash, a second rank emperor rock crystal, an emperor rank wood type soul crystal, and an emperor rank healing medicine of a hundred flasks. Just selling the medicine alone is worth hundreds of billions, let alone the rock crystal and soul crystal!" Old Li said excitedly.

"What is the rock crystal for? And, the second rank emperor rank? First emperor rank?"

"Beforehand, didn't you talk with young master? Tenth rank items were split from servant rank to monarch rank. In emperor rank, there was a new ten ranks. Pseudo-emperor rank, low class, middle class, high class, top tier, five clear tiers. Of these, first and second rank are usually directed to soul items, medicine, minerals, soul crystals used for pseudo-emperor ranks....."

"Third rank and fourth rank mean those are able to be used for low class emperor rank, and so on."

Chu Mu was enlightened. It seemed like emperor rank and the previous four tiers were split apart. This meant that, in the future, when he met spirit emperor ranks, their first rank didn't need things buyable with a few gold.....

"Young master, the medicine ranks are all too high. Leave some for yourself for emergencies, but sell the rest on the black market to get a few hundred billion. Then, you can spend them until all of your middle class monarch ranks are tenth phase top tier monarch rank. After that, just worry about raising them to emperor rank....."

"Second rank emperor rank rock crystal is a good thing. Once young master's monarch Ghost King reaches pseudo emperor rank and you give it to the Ghost King, within pseudo emperor, no special attack technique could possibly break through the monarch Ghost King's defense."

"As for the first rank emperor rank wood type soul crystal, you probably don't need me to explain?"

Chu Mu nodded. Soul crystals were items that never lost their value. An emperor rank soul pet's soul crystal's price was something Chu Mu was extremely clear about.

“Old Li, by what you said, Tian Ting had high class, middle class emperor ranks. What he needed were between fourth and eighth rank, so why would he not even have third rank emperor rank soul items?” Chu Mu asked.

After Old Li heard, his whiskers were stiff, “Young master, you truly aren’t content. Do you think emperor rank soul items are like the first ten ranks’ soul items, laying everywhere? I can say very surely that even these first and second rank emperor rank soul items caused Tian Ting a lot of pain. Emperor rank soul items are incredibly rare. Why else do you think her majesty spent so long just to find a fourth rank Ground Immortal Ice! Emperor rank items aren’t storable. Even Tian Ting’s secret treasury may not have many emperor rank soul items above third rank, because two high class emperor ranks have immense consumption!”

Chu Mu nodded with some understanding. All in all, Old Li was letting him know that he truly hit the jackpot this time. As for how large the pot was, without truly reaching emperor rank, Chu Mu couldn’t understand accurately.

“The Binding Wind Spirit is bound to be an emperor as well as the Little Hidden Dragon. The first thing you have to do next is raise all your soul pets to the peak monarch rank before raising them one at a time to the emperor rank. Haha, I would guess that before long, the people who will dare cause trouble for young master can be counted.” Old Li spoke with a bit of excitement.

Chapter 605: Return to Western Kingdom

Ten days after the half devil wave, Elder Liu finally appeared in front of Chu Mu.

Elder Liu’s first sentence was to ask why Chu Mu was so eager to leave Tianxia City.

“I said I wanted to go train more.” Chu Mu now needed to increase his soul pets’ strength very urgently. After all, to a large amount of soul pet trainers, top tier monarch rank bottleneck was not much of an obstruction for Chu Mu.

Elder Liu had long since called Chu Mu a workaholic, so he said earnestly, “After Tian Ting died, I secretly got rid of some people from soul alliance. However, I believe that not long after, soul alliance will send someone to replace Tian Ting. Similarly, he will also be told to retract your Seven Sin Fox.”

Chu Mu nodded and said gloomily, “I know, which is why I want to leave immediately and not appear in any big city.”

Elder Liu shook his head and said, “Your identity hasn’t been revealed yet I think, you can still use the identity of Chu Chen. A few days ago, I got the news that soul alliance master went straight through the forbidden realm, and isn’t currently in our human world.....”

“He crossed through the forbidden realm?” Chu Mu was immediately shocked!!

Initially, when Chu Mu walked to Xiling Region, it was the place connected directly to the southwest forbidden realm. And, at the time, Chu Mu had only walked slightly out of the human realm but he was already faced with an emperor rank kingdom master!

If one compared the forbidden realm to a boundless ocean, then the Blue Galactic Demon Emperor’s bewildering world was just a small beach. So, just how shocking was the concept of passing through the forbidden realm!

“En, only alliance master could go straight through forbidden realm.” Elder Liu said.

“He.....why did he go straight through the forbidden realm. Are there any special soul pets on the opposite side of forbidden realm?” Chu Mu immediately asked.

Elder Liu shook his head, “That I don’t know. I haven’t gotten to the other side of forbidden realm either. Though soul alliance master has the ability to go straight through forbidden realm, it will take a while, so he won’t return in a couple of years.”

Elder Liu said this and calmed Chu Mu down a great deal. He even started praying in his mind, “This soul alliance master better meet some unknown beyond emperor rank soul pet and just instantly get killed.

Since alliance master wouldn’t appear in a few years, Chu Mu could indeed improve his strength calmly. In fact, once soul alliance master came back, if he sent someone like Tian Ting again, he wouldn’t even be his opponent.

“Every time soul alliance master goes through the forbidden realm, his strength will increase. He truly is the most powerful human of all. No one dares to be his enemy over this many years. Chu Mu, you inherited the soul pet trainer talent of Chu Tianmang and Liu Binglan, so you have a great base. You have been trying very hard all your way through growth. However, if you go against him,

you may become like your father, losing your glorious future and the rest of your life.....” Elder Liu’s tone lowered as he looked at Chu Mu and continued to say.

Elder Liu indeed didn’t want to see Chu Mu offend alliance master because of a soul pet. After all, Chu Mu was a very excellent soul pet trainer, and had a high chance of becoming one of the few humans to reach the realm of true experts.

“Uncle, don’t worry, I will stay careful.” Chu Mu said seriously.

Chu Mu understood Elder Liu’s warning. However, telling him to give up Mo Xie and improve his strength without worry would instead just make Chu Mu feel like a walking corpse. It wouldn’t matter how great his achievements would be later in life.

Thus, even if his current enemy was the strongest human in the world, Chu Mu wouldn’t be moved.

“Ai, it seems like you still don’t understand how powerful this person is, so powerful that all the soul palaces in the world has to avoid him.....whatever, you should be fine these couple of years. If the soul alliance master doesn’t find any clues, this secret may just get lost. Since you have your own path, just walk it.” Elder Liu knew he couldn’t convince Chu Mu any further.

Elder Liu didn’t want to say anymore, so he patted Chu Mu’s shoulder and walked away with his hands folded behind his back.

Chu Mu watched as he left and returned back to his own room.

Chu Mu was always swift like thunder. Since they had to start anew, then the second morning, Chu Mu had to leave directly.

Before leaving, Chu Mu gave the Fierce Wind Demon Emperor young soul pet to Old Soul Teacher De telling him to find a good buyer to exchange for wind type soul items that could strengthen his binding wind spirit.

Old Soul Teacher De took over the emperor rank young soul pet with much complaining, saying he was always handling small logistical things for Chu Mu, and that he wasn’t even an elder at this point, but a house servant of Chu Mu.

Though he complained, Old Soul Teacher De didn't reject it, and also expressed the thought that strengthening Binding Wind Spirit to emperor rank was much smarter than training an emperor rank Fierce Wind Demon.

The night before Chu Mu left, he also quietly said goodbye to Princess Jin Rou. Princess Jin Rou was busy with something, or it could be said that, since coming back from tenth realm, Princess Jin Rou had never appeared again.

Chu Mu never understood this woman. Since he had already went to say goodbye, Chu Mu didn't think of it much and just left Tianxia City directly.

The moment he left Tianxia City, Chu Mu glanced at the far horizon where the sky met the ground, and one felt entirely worry free. He urged his steed on and started running down the plains of Tianxia City.....

.....

.....

On the green plains, there was a blue water belt that meandered slowly into the distance.....

The river was wide and deep, and one could see countless boats slowly riding through it.

Most of these were merchant ships, making trades between Western kingdom and Zhanli Kingdom.

The brown dirt of Western Kingdom was something Zhanli Kingdom didn't have. Brown dirt was an important construction material that many palace level structures needed. Whenever palace-like structures needed to be built along this kingdom river, they would constantly need these merchant ships from Western Kingdom.

Of course, because this river spanned the two kingdoms, it became the water source of a dozen large cities. This also made this river a transportational node. To avoid danger on travels, many people who had to go through the kingdoms chose to avoid danger by taking a guest ship too.

The view along this Western Zhan River was always extremely beautiful, making it a hot tourist location for scholars and ladies.

There were many different ranks of guest boats. Normal boats were slowly pushed by very low phase water elementals up the river.

Slightly higher rank ones were pushed by even stronger water type soul pet techniques.

The highest rank ones blitzed through the river. Called “the gangster-like” boats, they often were pushed by a huge group of water type soul pets, so its speed wasn’t any slower than soul pets on the run.

“Oh, so the passenger ship was Chu Clan’s business, interesting.” On one of these domineering boats, a white clothed young man rubbed his chin thoughtfully.

The boats were extremely fast, sending water everywhere around the white clothed young man. This feeling was indeed refreshing in such a hot summer day.

“Hehe, it was just picked up not long ago. For this, Chu Clan used many experts to win the deal from Lu Clan.” The explaining boater said smiling.

This boater was naturally smiling broadly, because this rich young man in front of him had just reserved the entire commander rank boat for himself.

A commander rank boat could board at least a hundred people and was expensive. This boater really hadn’t seen anyone else with this much money.

The young man stood at the wooden fence and watched the spraying water as he murmured to himself, “Since its along the way, lets see what the clan says. I don’t know how grandfather is now, and uncle too.....”

The young man who took over the commander rank boat was naturally Chu Mu.

After leaving Tianxia City, Chu Mu headed west, and seemed to follow his way back to Zhanli kingdom.

Of course, Chu Mu's route was different. For example, this West Zhan River was something Chu Mu didn't travel through.

Seeing the river, Chu Mu needed a break from his continuous nights of travelling, so he spent some silver to take the speediest guest boat up the stream to the source of the river, which was basically the main base of Chu Clan.

What Chu Mu found very surprising was, Chu Clan clearly had a decent strength to be able to make this cross-border deal. Though it was just a guest boat, it was a water flow that spanned multiple great cities, so guest boats were definitely a lucrative business.....

Chu Mu remembered that when Chu Family was still in Gangluo City, its main trade was between eighth and ninth rank cities. They had no chance in extending to tenth rank territory. Now, they spanned such a large region, so presumably, Chu Clan had grown very well in the past few years.

"Young master, as a soul emperor, kingdom power is very powerful. If you own a Kingdom, all the kingdom's resources will be yours. Even the worst kingdoms could at least keep a pseudo emperor rank alive. Young master should consider taking the western kingdom resources. From what I estimate, the monthly production of spirits should be near 100. In fact, some spirit sources haven't even been excavated. If they are all excavated, it's another large gold source." Old Li said.

"Only a hundred spirits? If this is gold, the entire kingdom only makes 10 billion?" Chu Mu asked

"Young master, how many times do I have to emphasize that no idiot would switch 1 spirit for 100 million gold! Spirits can't be compared to gold, they are completely different in status! And now, spirits are in low supply with disasters everywhere. Emperor ranks are increasingly important. In these times, even if one tried to exchange 1 billion for 1 spirit, some soul emperors may be willing!"

"The fluctuation in spirits is always very high because it had to do with disasters. 1 spirit for 100 million is the absolute bottom line....." Old Li said.

"Okay, though I still have 1000 spirits to use, I should have some fixed assets to avoid an increase in burden once I have more emperor ranks. I will consider using my family to fix the issue of spirit sources." Chu Mu said.

Chu Mu had the power to fight against a Kingdom Master now, so helping a clan out shouldn't be a big problem.

Chapter 606: The Tough First Phase little Hidden Dragon

Being able to return to his family, Chu Mu was very happy. After all, he had lived with them for over a decade. After having left for that long, Chu Mu indeed missed them.

“Shashasha~~~”

The white water splashed everywhere. On Chu Mu’s shoulder, the little hidden dragon was even happier. It actually climbed onto the railing itself. Yet, its small claws slipped. It was only when Mo Xie helplessly extended a tail to catch this mischievous little fellow that it didn’t fall right into the river.

Little Mo Xie’s playfulness was no longer evident. She was mainly focused on eating and sleeping. After little hidden dragon was born, Mo Xie was like a little maid, having to watch over it constantly, in case the little guy got lost without even knowing.

Chu Mu’s palm flipped up, revealing two nail-sized spirits. The larger piece was fed to little Mo Xie, while the smaller was given to little hidden dragon.

The little hidden dragon’s appetite wasn’t large. After the cleansing of the Jade Spring Sacred Blood, it was strengthened to emperor rank, its usual spirits weren’t even a hundredth of Mo Xie.

Emperor ranks usually need the replenishment of spirit, because their power was too strong and used up too much energy. Emperor rank young soul pets naturally don’t need to eat as much.

The washing of Jade Spring Sacred Blood was done not long after Chu Mu left Tianxia City. After the washing, little hidden dragon successfully crossed into emperor rank. Except, it fell into a slumber that it only woke from not long ago.

Now, little hidden dragon was first phase first stage, no longer as frail as its infant stages.

It had some attack power, so Chu Mu was readying to find some weaker places to train little hidden dragon.

Immortal Spring Water was given to little hidden dragon as well. The little hidden dragon would reach tenth phase in about two years. However, if Chu Mu let it constantly battle, it may take even less time.

“Shashasha~~~~~”

The little hidden dragon wriggled its green body, its eyes watching as the water splashed everywhere. It looked very excited, as it again struggled free from little Mo Xie’s tails.

The boater beside clearly had never seen such a special soul pet so he inquired with a smile, “Boss, what soul pet is that? It seems very young, is it only first phase first stage?”

“En, it had just been born not long ago.” Chu Mu replied. He didn’t say much about little hidden dragon’s species. If he said it was a cyan hidden dragon, the boater may become too dumbstruck to continue.

The boater was just about to continue talking, when suddenly a larger splash appeared under the boat!!

The boater looked at it confusedly. Following the splash, a Sawtooth Steel Python flew across, its blood red maw clearly visible!

This Sawtooth Steel Python was nearly three meters long. Its target was the little hidden dragon playing on the fence!

“Boss, careful!!” The boater shouted. He wanted to summon his own soul pet, but it was too late.

Seeing the Sawtooth Steel Python bite towards the cyan little soul pet, the boater’s heart sank.

Since this teen was this wealthy, his soul pet definitely wasn’t simple. The attacking Sawtooth Steel Python was definitely second or even third phase high class servant rank. It could easily rip the first phase first stage soul pet into pieces!

The boater already yelled out, but he saw the young man doing nothing, instead smiling.

“Shua!!!!!!!!!!”

Suddenly, a flash flew past extremely quickly, as if a sword were drawn. Even the splashing water seemed to get cut in half!

The next moment, blood splattered outwards, mixing with the water as it painted the deck.

“Pa~~~~~”

An ugly head fell its its sawtooth maw exposed, gory and drenched.

Seeing this, the boater’s jaw fell down!

Because, just as the Sawtooth Steel Python bit towards the little soul pet, the little cyan soul pet actually cut off the Sawtooth Steel Python’s skull in a single claw!

“This.....this little guy isn’t first phase first stage??” The boater stared in disbelief at the scene.

First phase first stage soul pet, yet it directly killed a near third phase high class servant rank! Just how high of a fighting strength did it need to accomplish that!

“Shashasha~~~~~”

Little hidden dragon let out a string of excited calls. After it clawed the python, its body was enveloped in cyan light. It had grown!

Seeing little hidden dragon grow, Chu Mu smiled.

Presumably, from today on, little hidden dragon’s strength would grow rapidly as it morphs!

The boater originally thought the little hidden dragon had some hidden methods to hide its true stage and phase. Yet, this green glow further proved it was really just first phase first stage. This caused the boater to be even more dumbfounded. Counting with his fingers this time, he was trying to figure out what rank soul pet could possibly kill an opponent near two phases higher!

To the boater's shock, little hidden dragon didn't mind it at all, as if it did nothing impressive, simply continuing to play with the water by the rail.....

In the water, a group of other Sawtooth Steel Pythons that were ready to ambush under the cover of water immediately scattered at the sight of the little hidden dragon, afraid that this little monster would jump down and kill them all.

"Boss, these Sawtooth Steel Pythons usually aren't a worry for us commander rank boats. However, they often used the underwater geography to hide and ambush weaker people and soul pets as we pass through. If you aren't on guard, there could be danger of life. However, your little soul pet.....it truly is powerful, is it the legendary monarch rank?" the boater asked tentatively.

Now, his smile was no longer as fake as before, instead showing a real respect for experts.

Monarch rank? Chu Mu shook his head and smiled, not elaborating further.

Little hidden dragon's fighting strength?

To be truthful, even Chu Mu didn't know. This little fellow definitely was emperor rank after the Jade Spring Sacred Blood. As for pseudo emperor, low class emperor, or middle class emperor, Chu Mu wasn't sure.

However, Old Li warned Chu Mu that if little hidden dragon reached seventh phase before Chu Mu reached Soul Emperor, the little hidden dragon would very likely leave and establish itself elsewhere!

The reason little hidden dragon completely followed Chu Mu was definitely not because of the soul pact. It was because of the Jade Spring Sacred Blood's special relationship that caused little hidden dragon to view Chu Mu like a dad.

In terms of strength, Chu Mu had a rough estimate for little hidden dragon. The first phase first stage hidden dragon's strength was similar to a second phase servant rank. The reason it was able to kill the near third phase Sawtooth Steel Python was mainly because of its domination of emperor rank techniques.

Using tenth phase calculations, little hidden dragon was pseudo-servant rank. Once it's second phase, its strength can be comparable to a pseudo-warrior rank, and that was a tenth phase pseudo-warrior rank!

It could be said that when Chu Mu walked off the prison island, all of his soul pets together weren't second phase little hidden dragon's match. From that one could see just how terrifyingly powerful the little hidden dragon will be if it truly grows up!

From first to second phase, it needed about two months. Chu Mu predicted that, by the time he reached Chu Family, little hidden dragon would be about second phase.

.....

.....

In the process of leaving Tianxia City, Chu Mu never slacked a single second. He still constantly passed through all sorts of bewildering worlds, mainly to train all his other soul pets.

Chu Mu had a bunch of money now, especially now that Mo Xie was emperor rank and stealing the resources of bewildering world much easier.

With Mo Xie's lead and unlimited soul items, Chu Mu's other soul pets' strengths grew even faster. In a short amount of time, all of Chu Mu's soul pets reached tenth phase.

Able to eat ninth and tenth rank soul items like food, what were bottlenecks?

In terms of fighting strength: Night, Devil Tree Battle Soldier, Zhan Ye, and Binding Wind Spirit were all high class monarch rank.

Under normal circumstances, even with a large group of soul items, soul pet strength increasing needs a buffer and digestion period.

Yet, this buffer and digestion period could be completely reduced through battle. Chu Mu entered a ninth rank bewildering world and went on a killing spree.

Waging a battle against tens of thousands of soul pets, the soul pets all consumed most of their energies in the battle. No matter how full they were from soul items, they probably used it up after the battle. So, that was why the soul pets grew at such a rapid pace.

Ning was still in slumber because of the Ground Immortal Ice that Chu Mu had before. Ground Immortal Ice was a fourth rank emperor rank soul item. Even though Chu Mu absorbed most of it, the tiny bit used on a monarch rank soul pet had a surprising effect.

After sleeping for a few months, Chu Mu estimated that Ning would wake up as tenth phase top tier monarch rank.

White Nightmare had been strengthened to high class monarch rank by Chu Mu. To raise it to top tier monarch rank, Chu Mu not only spent 60 billion gold, he even searched all over for other type, fire type, and dark type tenth phase top tier monarch ranks, spending a total of 100 billion on strengthening it forcefully.

Normally, 30 billion was enough to raise a high class monarch to top tier monarch rank. However, this usually needed a couple of years of buffer.

Chu Mu couldn't wait that long, so naturally his investment was multiplied manyfolds!

With a 100 billion investment, White Nightmare was truly undefeated in monarch rank!

Normally when they met soul pets lower than emperor rank that no other soul pet could beat, White Nightmare took the task so he could avoid Mo Xie fighting and using up more spirits.

Chu Mu also went to another Kingdom Capital to make a big clean up. In his wealth, he got rid of all his "ill-gotten wealth" and gained 400 billion gold.

Seeing 400 billion gold in his hands, Chu Mu's eyes were gleaming at the time. Not long ago, he had to struggle for a few hundred million. Now, he was holding a few hundred billion accidentally, causing even Chu Mu to stare in disbelief!

Of course, the main reason was because he entered emperor rank, so Chu Mu wouldn't find it troublesome to get 400 billion anymore.

In the 400 billion, 100 billion was used to strengthen the White Nightmare, while another 100 billion was used on raising all his soul pets to tenth phase high class monarch rank.

The remaining 200 billion Chu Mu didn't want to spend haphazardly.

The money didn't come easily. Now that his soul pets' strengths were all up to par, Chu Mu could go to high level bewildering worlds himself. On one hand, he could gather more soul items, but on the other hand, he could subject his soul pets to high intensity battles, which saves him from having to use up 100 billion to raise them from high class monarch to top tier monarch.

As for Chu Mu himself, with all his soul pets increasing in strength, Chu Mu reached eighth remembrance soul master. If all his soul pets were top tier monarch rank, Chu Mu would probably reach ninth remembrance soul master.

Chapter 607: Chu Family's Seven Color City, The Danger of a Natural Disaster

With Chu Mu's current speed, if he were to ride Night, he probably would be able to reach the Chu Family in a month.

However, Chu Mu chose to cross a mountain range through the entire Zhanli Kingdom and Western Kingdom that nobody dared to use.

This mountain range was Western Zhan Mountain Range. It was an authentic large bewildering world. Due to the ample resources in the mountain range, the phases and stages of the soul pets inside were extremely high. Moreover, species communities were everywhere and a small careless mistake would lead to one encountering a soul pet group numbering in the hundreds or thousands.

It was best if the bewildering world had different levels of difficulty. This way, it would satisfy the training requirements of soul pet trainers at different levels. However, this particular mountain range belonged to a lawless area between the two kingdoms. If one didn't have enough strength, trying to pass through would almost inevitably lead to death.

Since Chu Mu planned on searching for spirit items that could raise his soul pets to the peak monarch rank, this mountain range happened to become Chu Mu's training ground due to its ample resources.

.....

Chu Mu was different from other training soul pet trainers, who would normally run away when they encountered communities of soul pets.

Chu Mu would actually go to areas where the soul pet communities were dense. If there weren't over a thousand soul pets, Chu Mu himself felt that it wasn't enough.

Western Kingdom and Zhanli Kingdom were both small places and there weren't many high ranking soul pets. Chu Mu could naturally only use quantities of soul pets to satisfy his fighting training.

The one month of training went by very quickly. Chu Mu also obtained a tenth rank wood attribute soul crystal, which was the most suitable to strengthen the Devil Tree Battle Soldier.

Of course, even if he had the spirit item, giving it to the Devil Tree Battle Soldier to use wouldn't necessarily mean it would strengthen. He had to wait at least two months, otherwise the tenth rank wood attribute soul crystal would most likely fail.

In the one month in this mountain range, Chu Mu would often have the Little Hidden Dragon bully those creatures weaker in phase and stage. Moreover, each time it fought, Mo Xie would follow beside it like a bodyguard to ensure nothing unexpected happened.

After continuous fights, the Little Hidden Dragon grew very quickly. When Chu Mu left the mountain range, the Little Hidden Dragon had reached the eighth stage.

Chu Mu's previously estimated that it would take two months for the Little Hidden Dragon to reach the second phase. Yet a month had gone by now, and it was already at the first phase eighth stage. One could see the effects of continuous fights.

.....

Another month later Chu Mu stepped into Western Kingdom's Western Region.

Western City was Western Region's region city. After Chu Mu left the mountain range, he began to inquire about the Chu Family.

Since the Chu Family's business had already reached Zhanli Kingdom, it could no longer be a mere eighth rank city family. It probably now had some fame in a tenth rank city.

As expected, after inquiring, Chu Mu obtained some information. There really was a Chu Family in Western Region, and it was considered a first tier family. All of Western Domain's cities had Chu Family property.

Moreover, the one who was managing the Western City property was Chu Lang, who had participated in the family competition together with Chu Mu.

Chu Lang was an open-minded person, and his strength was near the top in the Chu Family young generation. It was said that his strength now also ranked near the top of Western Region's young generation.

The increasing of a soul pet's phase and stage and rank were determined on the one hand by continuous fights and on the other by spirit item help. If Chu Family's business had made it big, then the younger generation probably was able to obtain numerous resources. Their strength was probably very different now.

Chu Family's business in Western City was buying and selling crystals. The effect of crystals was similar to soul crystals. Soul Crystals were worth more than gold and would never depreciate in value. Although Chu Mu didn't understand much about economics and business, he was able to understand that since the Chu Family was able to monopolize the business on crystals, there was no way it was comparable to the eighth rank city small family from back then.

It seemed that choosing back then to migrate the family was a correct decision. The family had clearly broken through its original development limit and had become more prosperous with each day.

Chu Mu reached the center street, and quickly found a four storied crystal store.

The moment Chu Mu entered the store, a small store assistant amicably ran over and eloquently said:

"Good afternoon esteemed guest. This store has every type of elemental crystal. The first floor has first and second rank crystals, the second floor has third and fourth rank crystals, the third floor has fifth and sixth rank crystals and the fourth floor... What ranking crystal does esteemed guest require? As for the price, we can guarantee that esteemed guest will be satisfied..."

“Is the manager of the store Chu Lang?” Chu Mu immediately asked.

Chu Mu couldn’t even be bothered with items in the ten ranks system now, unless a large amount of them appeared at once.

“Yes, Young Master Chu is on the fourth floor. Does guest have some business he would like to talk about with Young Master Chu? If you do, this assistant will immediately report to him. If you would like something else, then I can only have this esteemed guest wait for a moment.” this small store assistant really was able to talk.

Of course, this small store assistant had spotted an elegant and beautiful nine tailed fox lying on Chu Mu’s shoulders. This kind of soul pet was probably extremely expensive, so this person definitely had some status.

Chu Mu thought for a moment. He had ostensibly obtained numerous soul crystals and crystals while engaging in his slaughter in the mountain range. Getting rid of it would be perfect.

“I have numerous soul crystals and crystals on me. Take me up.” indifferently said Chu Mu.

The small store assistant was shocked when he heard this: “Numerous?”

The small store assistant naturally didn’t ask anything further, and hastily guided Chu Mu up to the fourth floor. He silently thought: a huge customer has come!

Chu Mu walked up the stairs, and when he reached the third floor, his soul remembrance captured a man’s voice.

“Ai, how can it be so easy? Back then I was really opposed to having the family city be Seven Colored City. In the entire Western Region, who doesn’t know that that city will have random natural disasters? Our family has spent how much money resisting those things... although we make much profit, the risks are really too much...

“We don’t have a choice. Our family being able to prosper so quickly was through relying on Seven Color City’s resources. Now that a problem has appeared, we naturally must solve it.” another man’s voice rang out.

As they spoke, the two people seemed to hear the sound of footsteps, and immediately stopped talking about this topic.

When he reached the fourth floor, Chu Mu immediately saw Chu Lang dressed in an azure outfit. He was sitting on a chair and beside him lay an Ice Winged Tiger fast asleep. It seemed to be at the eighth or ninth phase.

Beside Chu Lang was another man who was a bit older. Chu Mu didn't know this man's name, and he probably was a side-branch disciple like Chu Lang.

"This friend..." Chu Lang stood up and looked at Chu Mu. He was about to politely say something when he astonishingly discovered that this handsome man dressed in white looked very familiar.

A smile rose on Chu Mu's face. When he had arrived in Western City, Chu Mu had Old Li change his appearance back. Although many years had passed, Chu Lang definitely would not have forgotten Chu Mu's appearance.

Indeed, Chu Lang was initially puzzled, but slowly shock and excitement appeared on his face!

"Chu Mu, you are Chu Mu!" Chu Lang let out a shout and quickly walked forth!

"It's me. Chu Lang, it's been a while." Chu Mu also stepped forward and hugged Chu Lang.

"It really is you. I... I..." Chu Lang was so moved he didn't know what to say.

Back then, after destroying Yang Family, Chu Mu had mentioned migration and afterwards, nobody in the family had seen Chu Mu again.

Chu Lang had originally thought that Chu Mu, who would only grow further and higher away the more he flew, wouldn't return to his tiny family. He never expected Chu Mu to actually return. This made Chu Lang both shocked and happy.

After an exchange of pleasantries, Chu Lang hastily introduced the young man next to him.

This young man was called Chu Shenghua, and was a side-branch disciple. After migrating to Western Region, his performance in the family was extremely outstanding, and he was now Chu Lang's assistant. He was helping Chu Lang manage Western Kingdom's crystal business.

"Chu Lang, you just mentioned Seven Color City's danger. What's up with that?" Chu Mu quickly turned to the main matter.

"Oh, I was just going to speak about this." Chu Lang patted his head, and promptly recounted the huge problem the Chu Family was now facing.

It turned out that, after the Chu Family had migrated, they had chosen Seven Color City as their family city.

Seven Color City was a ninth rank city. Its resources, territory and human capital were much more than Gangluo City. Moreover, even Western City had to obtain rare resources from there.

It was because of this city that the Chu Family grew increasingly prosperous and their strength grew increasingly solid.

However, this city had a huge problem: natural disasters would often occur.

This so-called natural disaster didn't refer to food shortages. Instead, a huge number of soul pets in the wilderness would wantonly go on a rampage, and destroy human cities before taking control of their resources.

These natural disasters were frequent, yet Seven Color City was the model case of being plagued by these misfortunes. Every few years it would be ransacked by some 'tribe'.

Now that the Chu Family had only developed for a few years but was about to encounter a huge natural disaster, if they weren't able to resist it, this would definitely be a huge blow to their strength.

"Young master, if it's Seven Color City, that place is very close to the spirit source I spoke of earlier. The reason why these disasters happen often is most likely due to that spirit source's existence." Old Li's voice drifted in Chu Mu's mind.

Old Li had told Chu Mu that this spirit source was extremely concealed. Moreover, its single output was enormous. Every month there would be a huge harvest!

Western Kingdom's resources were exceptionally meager. Each month, it would only produce 100 spirits.

Old Li indicated that this spirit source had existed for many years, and its single output was probably over a thousand spirits. Moreover, its production each month wouldn't be little. If he could obtain this spirit source and operate it well, Chu Mu wouldn't have to be worried if he could raise an emperor rank soul pet, even if he sat at home.

In each kingdom, the resources to strengthen an emperor rank were extremely limited. The problem of the Binding Wind Spirit becoming an emperor was already settled while the Devil Tree Battle Soldier could use the emperor wood type soul crystal to increase in strength.

Moreover, Chu Mu still had Night, the Ice Air Fairy, the Ghost King, and the White Nightmare. These soul pets all had to reach the emperor rank. The only way to strengthen them was through spirit items.

Yet, emperor spirit items were extremely rare. Chu Mu had no way of finding them. He could only obtain a huge amount of spirits.

Spirits were equivalent to emperor currency. With them, Chu Mu would be able to exchange with other emperors. Therefore, on the one hand, Chu Mu had to obtain enough spirits to raise his soul pets, while on the other hand he had to obtain enough spirits to exchange for spirit items that would strengthen emperors.

Chapter 608: Community, Tribe, Empire

"I'll deal with this problem. Since the family city is in Seven Color City, I'll head to Seven Color City," said Chu Mu.

The spirit source Old Li mentioned earlier was in Xiling Region, which was bordering Western Region. Chu Mu never expected that the family's city would be in a city rather close to the spirit source. If Chu Mu wanted to obtain a long-term spirit source, he really needed to greatly assist his family.

“That’s perfect. I don’t have anything to do for the time being, so I’ll accompany you back. I’m sure that when the family sees that you have returned, they will be very excited.” said Chu Lang.

As he spoke, Chu Lang had Chu Shenghua manage the crystal store business.

“This spatial ring has a few soul cores, soul crystals, and crystals. You can take it as a small gift I brought back.” said Chu Mu. He then handed over this spatial ring that wasn’t of use to him.

This spatial ring was pretty much used only to hold scraps, so he just handed it over to Chu Shenghua.

Although Chu Lang really wanted to know what gift Chu Mu had given, he didn’t ask. Regardless, anything Chu Mu gave couldn’t be simple.

Promptly, Chu Lang woke up his Ice Winged Tiger, planning on immediately bringing Chu Mu back to Seven Color City.

Not long after Chu Lang and Chu Mu left, a shocked cry rang out from the crystal store.

The voice came from Chu Shenghua, who had already prepared his heart. Yet, he never expected that there were over a thousand soul crystals and crystals. Moreover, there were dozens of eighth rank soul crystals and crystals and even one ninth rank!

This store had never engaged in ninth rank crystal business since they had always been a part of auctions in the marketplace. How was this a small gift? This was practically enough to monopolize this entire large shop with spare change left over!

Chu Shenghua let out a silent sigh. Exactly how shocking of a stage in strength did this young man, who had changed the fortunes of the family, reach?

.....

Chu Lang had an Ice Winged Tiger so he could fly. This was definitely much more convenient. Chu Lang originally planned on having Chu Mu ride on his Ice Wing Tiger back with him.

However, Chu Lang awkwardly discovered that Chu Mu's Night Thunder Dream Beast's jogging pace was much faster than his Ice Winged Tiger. He could only helplessly have the Ice Winged Tiger flap its wings as hard as it could to follow Chu Mu.

En route, Chu Lang recounted the family situation over the past few years to Chu Mu.

Due to Seven Color City, the family had developed with great speed, and already possessed numerous eighth rank territories.

It didn't need to be said how rich the resources of eighth rank territories were. At least every year they would be able to obtain a middle class monarch infant pet from them. It was completely different from the small Chu Family from before.

Having occupied these resources, the family was able to purchase various valuable spirit items. His uncle's generation had greatly grown in strength. The strongest naturally being Chu Tianheng.

The aptitudes of Chu Tianheng's soul pets were not weak, and the majority of them were at the seventh rank bottleneck for a long period because he couldn't obtain resources.

However, over these few years, Chu Tianheng had spirit items and would frequently fight against Seven Color City's natural disaster. One of his main pets had also obtained a great stroke of luck. Right now, Chu Tianheng's strength had greatly increased. A number of his soul pets had reached the tenth phase and he was already a famous expert in Western Region.

Many soul pet trainers relied on luck, and once they obtained a stroke of it, they would surge in strength.

Of course, encountering these things would often be accompanied with extreme danger. It wasn't everyone who was like Chu Mu that would crazily enter bewildering worlds frequently. Normal people would only go once or twice before losing their courage. Obviously, there was no need to speak about strokes of luck...

The Chu Family's second ranked expert was Chu He. Chu He was part of the young generation and he originally was a very talented soul pet trainer. Back then, his strength hadn't been much inferior to Chu Xing.

A region was subordinated to a kingdom and the strongest strength in a region would probably only have a tenth phase peak monarch. Moreover, people with these strengths would often be in the kingdom city. They didn't enjoy staying in small places, especially places like Western Region that was rather far away and rather destitute. Perhaps even a peak monarch didn't exist here...

Therefore, Chu Mu estimated that even with just one soul pet, his strength was probably in the top ten of this region.

.....

In about three days, Chu Mu and Chu Lang had reached Seven Color City.

Originally, Chu Mu thought that Seven Color City was a ninth rank city that was definitely more prosperous and majestic than the eighth rank Gangluo City.

However, when Chu Mu saw this city, he was clearly shocked in his heart.

This city was far from being as majestic as he had thought. Moreover, aside from being much larger than an eighth rank city, the inside was very average, or perhaps even less...

The streets had cracks in them everywhere, and the stone houses were both short and old. The crowds of people were loud and noisy, so this clearly was a community of people without much order among them. Even the most important city wall had certain parts of it that showed clear signs of collapse.

"This... although Seven Color City doesn't look like much from its appearance, the profits are rather good." Chu Lang slightly forced a smile as he spoke. His current appearance looked as if his close relatives had come to visit after a long while, and he was embarrassed from his own home being in a shabby condition.

Western Region ultimately couldn't compare with Luo Region Secto's Luo Region. Seeing these circumstances, Chu Mu understood this.

The family had grown more prosperous day by day, but had been established in this extremely worn down city. It was probably the case that in these few years, the blood and sweat the family members had spent was even more than in the dozens of years in Gangluo City.

Walking along the rugged main street, Chu Mu only saw extremely simple and crude stores. The majority of what was being exchanged was crystals, soul crystals, soul cores, and a few energy rocks. Clearly, this was a city with many ores. Otherwise, with how broken down this city was, there probably wouldn't be so many people visiting.

The largest downside of this city is the natural disasters and the fact that the creatures around it are too savage. First uncle has spent much time searching and discovered that if the natural disasters and surrounding hidden dangers are dealt with, Seven Color City will definitely develop more than Western City.

Chu Mu was about to say something when someone from a carriage moving quickly peeked her head out. She glanced at Chu Mu's Night Thunder Dream Beast, and showed a shocked expression.

"Chu Lang, who is the person next to you? Introduce him." the woman peeking her head out from the carriage gave a very direct question.

"This is Chu Mu, my younger cousin. Young Lady Xiao Yi has come to Seven Color City again. Are you planning on going to Qing Feng Wetland to hunt?" Chu Lang wore a smile as he warmly spoke with the woman inside the carriage.

"You know, yet you're still asking. I want to roam around the city and buy a few things. You go back to your family and tell them that I have arrived. Have them prepare the things they need to..." Young Lady Xiao Yi spoke with arrogance.

After speaking, she glanced at Chu Mu, but before waiting for Chu Lang to introduce her to Chu Mu, she immediately had her carriage continue on.

This woman's carriage was being driven by two Star Wilderness Devil Colts. Moreover, their phases and stages were very high. Merely from looking at them, one would know that her status was not low in this region.

Chu Mu glanced at the woman but didn't say anything. Only, her commanding and bossy attitude made Chu Mu uncomfortable.

"She is the Region Lord's daughter. She is also the a young generation expert ranked in the top five of our region. Every once in a while, she will come to our Seven Color City and go to Qing Feng

Wetlands to hunt and train. When she comes, it is us that receives her. She is a rather frequent visitor.” explained Chu Lang.

“Qing Feng Wetlands?” asked Chu Mu.

“Qing Feng Wetlands is a huge obstruction to our family’s development. Inside lives a large group of high phase and stage and high ranking soul petse. Our family has spent a large sum of money numerous times to hire mercenaries to clear up the place. Otherwise, transporting goods through the area would be greatly obstructed...” said Chu Lang.

After Chu Lang finished speaking, Old Li’s voice floated over and said: “Qing Feng Wetlands is on the border of Western Wetlands. Western Wetlands is truthfully very close to a forbidden region, and is a ninth rank bewildering world...”

“A ninth rank bewildering world. Then there are emperor rank creatures there?” hastily asked Chu Mu.

“Yes. In truth, the ranking division of bewildering worlds is not strict and is applicable to soul pet trainers under the emperor rank. After all, to these soul pet trainers, a tenth rank bewildering world is the very highest.”

“Then how is it divided?” asked Chu Mu.

“Within the human world, most of the bewildering worlds are mixed bewildering worlds. The species inside haven’t actually reached a genuine scale. Instead, inside forbidden regions, most of the soul pet species have formed enormous systems. For example Binding Wind Holy Region’s Fierce Wind Demon Empire and Great Broken Sting Valley’s Heavenly Devil Insect Empire.

Underneath these empires are also the concepts of “tribes” and “communities”.

Using common conventions to draw an analogy, a community is akin to a city. You humans divide cities into ten ranks. A tenth rank city is called a region city, and underneath you just call them cities: a ninth rank city, an eighth rank city etc...

In truth, calling them ninth rank cities, eighth rank cities, and seventh rank cities are all just everyday names for them. But they should truly be called ninth rank region cities, eighth rank

region cities etc... the region that the ranked city belongs to also becomes the same ranked region. For example, Seven Color City is a ninth rank city, and its territory is a ninth rank region.

A first rank community is equivalent to your first rank region, or what you call a first rank city. A ninth rank community is equivalent to your ninth rank region and has equivalently the same amount of territory and population as this ninth rank Seven Color City.

Above a tenth rank region is a first rank kingdom. A first rank kingdom is equivalent to a creature's tribe." said Old Li.

Chu Mu had been very confused at the beginning why a region city was just a small region that had for some reason been classified among in the highest tenth rank. So it turned out that ninth rank cities, eighth rank cities and seventh rank cities were just small regions.

"Seven Color City's disaster comes from a first rank tribe with pseudo emperors!

Moreover, the source of Qing Feng Wetlands, Western Wetlands, is even more terrifying. It is a third rank tribe with low class emperors!

A small region that is equivalent to a ninth rank community doesn't even have peak monarchs. Wanting to survive among the cracks and at the edge of this enormous tribe is extremely frightening. After developing and prospering for a few years, you should quickly move again..." said Old Li.

Chapter 609: Return to Family

After Old Li said this, Chu Mu's heart was shocked.

First rank tribes were like first rank kingdoms. Seven Color City was incredibly built at the edge of a clan. Without the proper strength, the development of this city truly was a miracle!

"What rank are Western Kingdom and Zhanli Kingdom?" Chu Mu asked.

"Western Kingdom, not considering Luo Region Sect, is definitely a first rank kingdom. Zhanli Kingdom is also first rank. Nearby Luo Region, North Ice Kingdom are all second rank Kingdoms. These four kingdoms are are third rank kingdoms."

“Simply speaking, first rank kingdoms have at least a pseudo-emperor rank, second rank kingdoms have many pseudo-emperor ranks. Third rank kingdoms have low class emperor, fourth rank kingdoms have many low class emperor ranks, fifth rank kingdoms have middle class emperor rank.....

Chu Mu indeed didn’t systematically understand this, only knowing to train with his head down and kill his way through young generation.

Only now did he know that humans of region, kingdoms, and realms had very complete systems. Similarly, there are corresponding organisms categories of clans, tribes, and empires.....

A city, if built near a bewildering world of different level, would definitely be full of catastrophes.

Clearly, Seven Color City was built in such a difficult position. Compared to a clan, the resources will definitely be great, enough to match the resources of a Kingdom. However, the disparity in strength was too large. It wouldn’t be long before the seven color city would change owners again.

Chu Lang didn’t know that Chu Mu was talking with Old Li and continued to speak

“Qing Fengpo originally needed to come clean, so Chu Clan welcomes Lady Xiao Yi’s arrival. Though her attitude truly isn’t that good.” Chu Lang continued.

Chu Mu nodded and didn’t mind. Asking, he said, “Are Chu Xing and Chu Ning back?”

Speaking of the two, Chu Lang’s expression changed slightly and he shook his head, “Ever since they got to Tianxia City and gave us a letter back, we never heard from the two of them again.”

“No news?” Chu Mu looked astonished.

Chu Mu clearly remembered that Chu Xing and Chu Ning would write back to the family every once in a while. Before, Chu Mu thought Chu Lang didn’t mention the Battle of the Realm at all because the letters haven’t arrived yet. However, he didn’t think that after this long, not even Chu Xing and Chu Ning’s letters got back yet!

Chu Mu immediately explained the general event of him meeting Chu Xing and Chu Ning in Tianxia City and joining soul palace.

Chu Lang heard and was astonished, saying, “We indeed didn’t get their letters, so we thought they had encountered something unfortunate.”

“However, if they are unscathed that is great news. If they could join Soul Palace, their strengths would definitely increase greatly!” Chu Lang said admiringly.

After the battle of the realm finished, Chu Xing and Chu Ning said good bye and left to travel back. If they were delayed, then indeed they wouldn’t be back before Chu Mu.

If the family hadn’t received the letters, that means they don’t know the situation at battle of the realm. No wonder Chu Lang was excited when he saw him, but had no other emotions.....

Chu Mu was actually secretly wondering why there wasn’t any shock factor that came with him as a first tier final honor winner of Battle of the Realm.

Of course, Chu Mu was worried about the letters. Was it that soul alliance had already followed clues back to Chu Clan? He had to find an end to this.

“Since they’re on their way back, they should be fine. Let’s return to the clan. Grandfather, uncle, and the siblings must all miss you.” Chu Lang said.

Chu Mu nodded and rode his Night Thunder Dream Beast, raising many surprised shouts from the streets as he ran straight towards seven color city city hall.

.....

Chu Clan’s residence couldn’t be described as grand or luxurious. It was just the best out of this city. Even compared to their residence in Gangluo City, this residence was simpler.

“With constant disasters, even well constructed residences could get easily destroyed, so we’ve been frugal these years with this residence.” Chu Lang said.

“Who is in charge of city planning?” Chu Mu asked.

“Second uncle.” Chu Mu said.

Chu Mu nodded. Since second uncle was in charge of city planning, once he sees Chu Tianling, Chu Mu naturally wanted to let him construct without any worries. After all, this entire city, including their residence, was way too simple. This wasn’t a scene Chu Mu wanted to see.

Entering the main gate, he walked to the front, Chu Lang immediately told the servants to tell the family members that Chu Mu was back.

Most of the servants were new, so they didn’t know who Chu Mu was. However, since Chu Lang commanded, they just had to do it.

Chu Lang led Chu Mu to the hall. Chu Mu felt that if he wanted to lift the family up, he had to see everyone and solve all issues at once.

.....

In the back courtyard, the clearly older Chu Ming sat in a chair and fed little fishes in the pond.

On Chu Ming’s shoulder was an eagle type soul pet. Its eyes were expressive and sharp. Though it was small, it was definitely a fearful bird.

In a moment, a servant came up and whispered into Chu Ming’s ear.

Chu Ming immediately stood up excitedly, face full of surprise and joy. Throwing down the fish feed quickly, he walked quickly towards the great hall. Seeing the old man so hurried, the servant was confused.

In the loft, Chu Tianheng sat by the window, watching outside with a face full of worry.

Beside Chu Tianheng was Chu Tianling. He sighed, “If you have no other way of solving it, then we have to leave this city quickly. We can lose the city, but we can’t lose the people.”

“I know, but these years of development, we’ve made many enemies in Western Region and even Western Kingdom. Especially Lu Family was especially glaring at us. If we switch family cities, we will soon face the combined vengeance from many families.” Chu Tianheng said.

“Brother, is there any news from Chu Qian? Didn’t she say she would bring a bunch of experts from Great Chu Family to help us out?” Chu Tianling said.

“They should be here soon. However, from the letter, Great Chu Family seems to be facing a severe problem too. Chu Qian may not be able to bring back that many experts. Luo Region Sect we told Tian Ren to contact already. Hopefully, in the next period, Tian Reng will bring some Luo Region Sect experts over.” Chu Tianheng said.

Luo Region Sect and Great Chu Family were the largest two factions in Western Kingdom. If they could bring experts from them, the disaster issue this year should be solved.

“Clan master, vice clan master, young master Chu Lang said young master Chu Mu is back and is waiting in the great hall.” A small female servant slowly walked up and whispered quietly to the two.

Seeing the servant walk up, Chu Tianheng reflexively thought it was trivial matters and waved for her to leave.

However, Chu Tianling quickly reacted and was surprised!

“Chu Mu!!”

“Chu Mu!!!”

Both of them almost simultaneously yelled the name out. Looking at each other, the two clan masters quickly went down from the loft, their usual composure in public completely gone.

.....

On the training grounds, Chu Ying was training her own soul pet when a word from a servant caused her eyes to light up.

“Chu Ying, who is Chu Mu? I hadn’t heard of him before.” the man beside Chu Ying said.

This man was dressed cleanly, clothes lavish and medium built. He seemed like a person of status.

“Sun Yuan, he’s a prodigy of our family, originally our family and Yang family……’ Chu Ying was just about to speak about the past when she remembered Sun Yuan was an outsider that probably shouldn’t be hearing it, so she quickly switched focus to how talented Chu Mu was.

“So its a direct descendant of your family without real blood relations. If he truly is that powerful, why have I never heard of the name Chu Mu?” The man called Sun Yuan said with disdain.

It had been many years since Chu Mu became famous throughout western kingdom. Young generation always had highly fluctuating fame, so having left for a few years, Chu Mu had been forgotten by everyone.

Sun Yuan was from Zhanli Kingdom. When they left to train, they met Chu Ying. He was particularly fond of Chu Ying’s gallant and straightforward attitude. It was also because of Sun Yuan that Chu family could steal the guest boat business.

Thus, Sun Yuan was a great guest of Chu Family.

In reality, Sun Yuan had great background. Let alone the guest boat business, even the crystal business between two Kingdoms, he had the confidence to get. However, facing a clan in ninth rank city, he truly was too lazy to reveal his full identity as young master of merchant’s alliance of the two large kingdoms.

While holding his own identity back, Chu Ying suddenly started greatly praising another man. As a young generation, he obviously got upset. However, Chu Ying didn’t have the sensitivity of most women, so on the way to the great hall, her praise and love for Chu Mu wasn’t disguised or ceased. This caused Sun Yuan, who hid his identity and lowered himself to her level, to become somewhat upset.

“Since he’s that powerful and he’s back, shouldn’t he be able to solve your family’s hidden issues alone?” Sun Yuan laughed coldly, saying with a slight mocking tone.

“This.....he is one person after all. Speaking of which, you told me your clan members will come help out. When will your people come?” Sun Ying was completely oblivious of his upsetness and continued to ask.

“They’ll come within the next few days.” SPEaking of this, Sun Yuan smiled.

To get Chu Ying, Sun Yuan put in great effort. Of course, to make it more shocking, he never revealed anything, instead secretly telling merchant alliance experts to come help Seven Color City out.

Sun Yuan had never said how many experts would come. But, the moment the experts came and lined up, the entire Seven Color City will presumably be shocked!

After that, there was no way Chu Ying wouldn’t run into his embrace!

Chapter 610: Luo Region Sect with Ulterior Motives

Sitting in the main hall, the first to come forth was grandfather Chu Ming. After Chu Mu saw his grandfather, he was gratified, but at the same time sad. After all, the old man was getting weaker and weaker. No one knew how long he could last. If they were disturbed by these disasters, in his distraught, he may just pass away.

Human life spans could only be increased through raising one’s own strength. Normally, reaching soul emperor is the only way to increase one’s life span. So, for Chu Ming’s gradual aging, Chu Mu couldn’t do anything.

As an old bodied man that got a little too excited, he was tired within a couple of sentences. Chu Mu told people to come and take Chu Ming back to rest.

“My body is getting weaker and weaker, when its dinner time.....you first talk with uncle and them.....the family is in the middle of a lot of troublesome matters right now.....” Chu Ming coughed but left with some reluctance.

Chu Mu nodded, supporting the old man for a bit before returning to the main hall.

After coming back to the main hall, Chu Tianheng and Chu Tianlin appeared already, getting even more excited when they saw Chu Mu.

CHu Mu politely addressed them and the two uncles asked a bunch of questions. Chu Mu answered them all, not hiding anything.

“This means your strength must have increased greatly. It seems like you can relieve a lot of stress from us this disaster.” Chu Tianheng said.

Initially, Chu Mu’s strength was already very near Chu Tianheng. Now that this many years have passed, Chu Mu’s ability was probably the most powerful of the entire clan. As long as Great Chu Family and Luo Region Sect all come help, they indeed could stop this disaster.

“I will solve the root of this disaster, uncle and second uncle you don’t have to worry about it anymore.” Chu Mu said seriously.

“It isn’t as easily said than done to solve it completely……” Chu Tianheng shook his head helplessly.

Solve the root? Chu Tianheng had been here for many years, and had long since understood the terrifying root of the disaster. Unless the western kingdom master brought experts from all regions to fight, there was no getting rid of this disaster source.

As for the western kingdom master and region masters, their territories were all very safe, so why would they attack for seven color city?

Chu Tianheng and Chu Tianling both believed that Chu Mu’s current strength was definitely powerful, to a point where they couldn’t imagine. However, facing a disaster bewildering world that would require all region experts to stop, how could they believe Chu Mu could stop it by himself?

Chu Mu was just about to talk when a special rose scent floated over. Before Chu Mu had the time to smell it closely, an energetic and beautiful girl appeared in front of CHu Mu.

“Haha, you really came back. I thought you had long forgotten the little clan we are.” Chu Ying patted Chu Mu’s shoulder and said carefreely.

Chu Mu had recognized Chu Ying. For Chu Ying's attitude, Chu Mu understood it, so he simply nodded gently and said nothing.

"Why do I feel that you're much more scholarly now? You were cold before like a killer." Chu Ying immediately asked.

Scholarly?

That word used on Chu Mu was too much. Chu Mu simply got better at hiding it, not staying emotionless at all times like before.

"Know your place, where are your manners as a girl? Sit aside, and don't talk unless I tell you to!" Chu Tianheng gave Chu Ying a glare.

Chu Ying seemed reluctant, but didn't dare to defy Chu Tianheng, so she obediently sat aside, simply staring with her flashing eyes at Chu Mu. Even if she said nothing, Chu Mu knew she wanted to ask how powerful his soul pets were.

Chu Tianheng knew that Chu Mu had just come from thousands of miles away, so it wasn't proper to mention the disaster before he could even catch his breath. So, he told a female house manager to bring Chu Mu to a clean room to rest first and wait until dinner before continuing to talk.

Chu Mu didn't need to rest so, after going into his room, he let out the playful little hidden dragon.

Two months have passed, one of which was passed through battle. Little hidden dragon was second phase fourth stage already, so its strength was low class warrior rank to some degree.

Now that they had time, Chu Mu brought little hidden dragon into the courtyard to practice.

"Shashasha~~~~~"

The little hidden dragon was happy to exercise. Seeing a rock in the courtyard, its cyan body suddenly flashed as cyan glow gathered on its claws!

The cyan glow represented the power of a dragon, so the power that exploded was much more powerful than its own power alone!

“Beng!!!!!!”

A rock as tall as a person was directly shattered by the little hidden dragon, scattering it everywhere.

“Adding on the dragon power, it reaches low class warrior rank. Once it grasps its emperor powers, its strength should rise drastically again.” Seeing little hidden dragon this violent at second phase, CHu Mu was moved. In another short while, the little hidden dragon would probably dare to battle in western kingdom.

“Ling~~~~~Ling~~~~~”

As Chu Mu was training little hidden dragon, ice air fairy’s chime-like sound reverberated through Chu Mu’s mind.

Ning was awake!

Chu Mu was overjoyed, and he quickly cast an incantation to summon Ning in front of himself.

Ning’s strength definitely grew at an explosive rate. When Chu Mu summoned it, it almost froze the entire courtyard over. If not for Chu Mu quickly telling Ning to stop releasing its aura, the entire Chu family residence would have been frozen.

“Ninth phase high stage top tier monarch!” Chu Mu was overjoyed. Seeing the ground immortal ice work, it indeed gave ice air fairy great benefits. Not only did it raise it to top tier monarch rank, it grew to ninth phase high stage.

Ninth phase high stage top tier monarch, its strength was probably similar to tenth phase high stage monarch. And raising from ninth phase high stage to tenth phase isn’t difficult.

“This time, the disaster isn’t small. We’ll rely on you to show off your powers in a few days.” Chu Mu rubbed ice air fairy and smiled.

Chu Mu's binding wind spirit had elemental group attacks, but its wind type damage couldn't match ice type in the end. Ice Air Fairy of course had to serve as the main power.

"Ling~~~~~" Ice Air Fairy smiled simply, unable to wait to show Chu Mu its new powers.

.....

At dinner, other than Xiao Yi and Sun Yuan who also appeared, Chu Mu knew most other people, since they were all one of his.

Chu Tianheng first said some words to welcome Chu Mu and cheered him. As for the others, they naturally knew Chu Mu's status in Chu Family, so they all exchanged greetings for a while with him too.

As for Lady Xiao Yi and Sun Yuan, they were all very confused as to why Chu Family would be this hospitable to a young generation member. One had to know that even them, as noble guests, haven't received such treatment.

Though it was dinner, because of the urgent nature of the disaster, the conversation still ended up on it.

"What rank disaster is it this time? Is there any accurate news?" Chu Mu also felt the main worry was to resolve this issue, so he opened his mouth to ask.

"Probably ninth rank disaster. In about three days, there will be servant rank clans that will be forced out by the powerful soul pets. Following, more powerful soul pets will continue to appear." Chu Tianheng said.

Hearing that it's a ninth rank disaster, Region Master princess Xiao Yi's expression shifted too and said, "Ninth rank disaster, a ninth rank city will be destroyed for sure. Didn't you say it was only eighth rank before?"

Chu Tianheng laughed bitterly, "Ninth rank could be a conservative estimate. Lady Xiao Yi indeed didn't come at a convenient time."

"On about the tenth day, the real disaster will appear."

“Since you chose to stay, we have to defend the south, west, and east side well. The south side definitely will have the most vicious attacks, so our family will be in charge of defending it. Luo Region Sect will send a group of experts of soul master rank. They will arrive around tomorrow and will help us defend the west side. The east side will be dealt with mercenaries we hired as well as great chu family helpers.....” Chu Tianling started splitting up the work.

They’ve already split up how they should protect the city. However, as the disaster level rose, and with new members, they obviously had to change things up a little.

After speaking, Chu Tianlin specially glanced at Chu Mu and asked, “Chu Mu, what do you think?”

“Why is Luo Region Sect willing to help?” Chu mu asked curiously.

“This, your fifth uncle knows people from Luo Region Sect. However, it is strange because fifth uncle’s friends aren’t high up in Luo Region Sect. Yet, a few pretty famous experts are coming over this time. If not for this, I wouldn’t dare stay in Seven Color City either.” Chu Tianlin said.

“That’s why.....having help is naturally good.....” Chu Mu insinuated other meanings.

“Then what are your thoughts, or should we defend the disaster the way I said it?” Chu Tianheng asked.

Since everyone thought of Chu Mu as the strongest person, they naturally had to listen to Chu Mu’s suggestions.

Chu Mu shook his head, and didn’t have any opinion to give.

Servant rank army? Perfect, Chu Mu’s little hidden dragon needed training, he’d kill however many would appear.

As for the warrior and commander rank armies, he’d let the group attacking ice air fairy, devil tree battle soldier, and binding wind spirit take care of them. Chu Mu didn’t find it worrisome at all.

Instead, the appearance of Luo Region Sect caused Chu Mu to feel that something was up.

Logically, Luo Region Sect's power was beyond Western Kingdom, and they should have a good few soul emperors even. Luo Region Sect mostly looked for powerful or high potential candidates to please. Chu Mu didn't understand why Luo Region sect was so eager to help by sending experts to Chu family.

“Young master, don't guess anymore. Either Qin Menger brought news back to Luo Region Sect saying you, the winner of battle of the realm, is from Chu Family, and Luo Region sect was simply throwing an olive branch over, or Luo Region sect came for the spirit source I mentioned. In reality, they come every once in a while to check it out to see if they had a chance to get it. This time, helping Seven Color City escape from danger was not their true intentions. Coming to get further information and potentially find a break-in point to the spirit source was the real intention. I feel that the second option is more likely, too.” Old Li said.
