

Soul Pets Bk2 701

Chapter 701: Soul Palace's Female Majesty, A Cruel Choice

Mirroring Sword Mountain

The wind was volatile above the Departed World Gates. Indeed, the streams of air were even more biting than usual and seemed to be making use of the chaotic situation.

Light from the palm condensed into pillars of light that transformed into four dazzling sun swords. They floated in front of a white haired old man. The taut fierceness couldn't help but cause Old Man Mirroring Sword from trembling!

Old Man Mirroring Sword lived in seclusion in Tianxia City. He was a truly virtuous hermit. The opening and closing of Departed World Gates was completely under his control. Even the four realm throne chiefs had to respectfully call him senior.

However, right now this old man, currently unmoving, respected by even the four chiefs was being pointed at by four sun swords.

On either side was a high class emperor rank soul pet, but they also didn't dare move. This was because if he even made a small movement, the wielder of the sun swords would pierce his old body.

"Who permitted you to close Immortal City!!" a woman's cold voice angrily rang out. Imperceptibly, it was the dignified pressure of an expert, that made it difficult for Old Man Mirroring Sword to breathe.

"Your Majesty, this old servant is just fulfilling his job. If I didn't close the gates, this gate probably would never be closed!" respectfully said Old Man Mirroring Sword.

Her Majesty Liu Binglan's chest heaved. It was ostensibly difficult for her to restrain her anger. Her entire body radiated a cold aura, and her beautiful eyes had transformed into sharp swords that pierced the old man's mind!

Liu Binglan obviously couldn't control her emotions because Chu Mu, under the identity of a patroller, was still in Immortal City!

“Open the gates!” Liu Binglan didn’t say anything else except for this. She wielded the sun swords and moved closer to the old man!

Old Man Mirroring Sword felt Her Majesty’s pressure and slightly shifted backwards.

“Your Majesty, this entrance cannot be opened again! Don’t you understand the consequences of doing so? What type of a calamity it will bring to the tens of millions of citizens in Tianxia City?

You are Soul Palace’s Female Majesty. Protecting humanity is your duty. How can you forsake this duty because of your selfishness?! This involves the lives of tens of millions or even the tens of billions in Tianxia Realm!” Old Man Mirroring Sword’s voice shook as he spoke.

His words struck Liu Binglan like a bolt of lightning and she stood there, stunned.

From a young age, Liu Binglan had received the teachings of Soul Palace to protect Soul Palace as well as the existence of humanity and civilization.

Her Majesty should not have any personal considerations. Yet, due to a series of events, she had become a mother.

In the past, she had attempted to forget her identity as a mother, and treated her own son without any feeling.

However, she gradually came to discover that the depths of her heart had actually been occupied by this person. Indeed, when she learned that Chu Mu had gone missing or perhaps even perished, she clearly understood how important her only child was to her!

Liu Binglan would never allow the pain from losing her son to come again...

Yet, this incorporeal gate was now forcing her to make a choice between the lives of tens of millions of people and her own son!

Thus, Liu Binglan who possessed ultimate power, abruptly realized how cruel of a choice this was.

.....

Outside Immortal City was a chaotic region where there was no spatial undulations. Young Lady Shan was decrepitly sitting there having already lost all hope.

Perhaps this was because she never expected that death would arrive so suddenly.

“Is there any method to open the gate?” solemnly asked Chu Mu, next to her.

Regardless if it were the guardian creatures or the sealed creatures, they would all automatically attack foreign creatures. Right now the entire Immortal City was in chaos. The various powerful soul pets had taken over the city. Staying in this space was suicide!

“Old Man Mirroring Sword has sealed off the exit, and it cannot be opened. If it is forcibly opened, the space will crack. This is equivalent to opening another exit to Tianxia City for this city full of monsters.” stiffly said Young Lady Shan.

“How strong does one have to be to rip open a spatial crack?” asked Chu Mu.

“You need to surpass the emperor rank.” responded Young Lady Shan.

Chu Mu’s heart sunk. Originally, he planned on transforming into the half devil to use its peak emperor rank strength to forcibly rip open the spatial exit. He never expected the Departed World Gates to be so sturdy, requiring strength above the emperor rank in order to escape.

“Hou hou hou hou!!!!!!”

“Ao ao ao ao ao ao!!!!!!!!!!”

“Awuwuwuwuwuwu!!!!!!!!!!”

Inside Immortal City, completely pervaded by an aura of death, palpitating cries rang out. It was as if a storm had arrived from outside the city!

The entire Immortal City had seemingly transformed into an enormous nightmare. Even Chu Mu who was outside the city, could feel the pressuring aura from this nightmare and it gave him an unprecedented feeling of unease!

Chu Mu could transform into the half devil and possess peak emperor rank strength.

However, even with the half devil transformation, he couldn't guarantee that he could kill all of the prisoner soul pets that broke free from their seals as well as the guardian creatures.

Moreover, once the transformation ended, the heavily outnumbered Chu Mu would be subject to a terrifying group assault.

"We can seal ourselves in a seal somewhere and wait for these creatures to break through our seal. Once we're released, will we be viewed as enemies by those creatures?" Chu Mu immediately thought of the method they used back in the Blood Beast Altar.

Young Lady Shan shook her head and said: "Unless we're sealed for over a year and breathe in the rotten aura from Immortal City, our bodies will not obtain the immortal scent of Immortal City. Only with this scent will we be viewed as allies. However, with the pace at which the seals are being destroyed, there's no way we'll be able to seal ourselves for a year."

"Then Immortal City definitely has another exit. Didn't Hao Ting and the others brazenly enter Departed World Gates? Moreover, with their speed, perhaps they wouldn't have been able to leave Immortal City before us?!" said Chu Mu.

"They have a rotten scent on them. I smelt it earlier." said Young Lady Shan.

Chu Mu immediately creased his brows. This meant that Hao Ting and the others had sealed themselves in Immortal City for a year! The defector young woman's plot was unexpectedly so complete!

"Long long long long~~~~~"

A rumbling sound rang out from inside the city.

Chu Mu swept his gaze over Immortal City and discovered that a wave of smoke was staring in his direction. Along with it was a torrential imposing aura as well as killing intent!!

“It’s... it’s the guardian creatures you awakened!!” yelled the deathly pale Young Lady Shan.

There was an enormous amount of guardian creatures. The strength of those guardian creatures Chu Mu had defeated was also very powerful. Even if Chu Mu had emperors, dealing them would be extremely strenuous...

Right now, Chu Mu was faced with an unprecedented pressure and his heart began to speed up.

In the past, Chu Mu had always been able to calmly think before facing his desperate straits.

But this time, Chu Mu truly felt a feeling of weakness and powerlessness. The enemies he had to face were too many!

.....

"Weng~~~~~"

Suddenly, a special fluctuation appeared in the chaotic space behind Chu Mu!

This fluctuation was caused by striking the space. It was extremely obvious!

“There’s... there’s someone who’s attempting to break the seal!!” Young Lady Shan shockingly watched the chaos which was unceasingly morphing!

Only at least a high class emperor could strike two separated spaces, only a peak emperor could barely create a fluctuation in the space and only an existence that surpassed emperors could truly rip apart the space!

Right now, the space was fluctuating, meaning that on the other side of space, a peak emperor rank soul pet was striking the Departed World Gates!!

Young Lady Shan was completely stunned. She had no idea who would possess a peak emperor rank soul pet!

“Mu Er...”

An anxious voice rang out from the fluctuating space!

Chu Mu was shocked. He thought he heard incorrectly, but the next time the space fluctuated, he heard the anxious voice once again.

“Young master, when space fluctuates, soul remembrance can pass through. Hurry and communicate with Her Majesty. She is outside the Departed World Gates.” Old Li hastily told Chu Mu.

“Mu Er, are you inside the Departed World Gates? Hurry and respond to mom...”

“Mom, I’m here!” Chu Mu quickly responded.

“That’s... that’s really good...” Liu Binglan seemed to be crying.

“I’m trapped here. How can I get out?” hastily asked Chu Mu.

“Listen carefully, and don’t miss a word!” said Liu Binglan.

“Yes.” Chu Mu took in a deep breath.

This was a matter of life or death and Chu Mu’s heart seemed to jump with each spatial fluctuation!

“The Departed World Gates cannot be opened. Find a sealed place in Immortal City, and use your soul remembrance to commit suicide. This way, the guardian creatures and sealed creatures will not smell your scent. Nor will they attack you.”

Commit suicide?

When he died, he obviously wouldn't be detected by the other creatures. Could it be that suicide was his only option?

"Don't worry, mother won't let you die. The bodies and souls of people who use soul remembrance to kill themselves will be preserved. You also need to tell your soul pets to remain in the soul pet space and not to break off the soul pact..."

"Once the crisis ends, mother will immediately go to Immortal City to find you, and use a secret technique to revive you. When that time comes, you will still be you and there will be no injuries to you!"

.....

On Mirroring Sword Mountain

Old Man Mirroring Sword had clearly heard the words Liu Binglan had told Chu Mu through the spatial fluctuations. His expression was extremely unsightly.

"Your Majesty, this absolutely will not do. Although those who use soul remembrance to commit suicide will experience secondary death, it is still death. If you want to revive him, you need to sacrifice the life of a family member. If you cannot find Chu Tianmang, you can only sacrifice your own life to revive him." Old Man Mirroring Sword's face was full of shock as he spoke.

"I know." Liu Binglan calmly replied.

After speaking, Liu Binglan decisively turned around and flew to Tianxia City.

.....

In the howling wind, Liu Binglan's long hair fluttered about. Her proud and graceful figure slowly disappeared under the setting sun...

.....

Chapter 702: The Chaos of Immortal City, the Dragon in a Sheep Disguise

Immortal City

Chu Mu breathed very heavily. With such a massive sealed world threatening him, no matter how powerful his heart was he couldn't remain completely calm and composed.

"Young master, the method her majesty told you must have sacrifices. This is an ancient art of the Holy Stem Flower, through using the blood of one's closest one to revive someone whose body, soul, and consciousness are well preserved....." Old Li said to Chu Mu.

Chu Mu nodded heavily. He had guessed already that there wasn't a real revival technique in this world. Even if there were, there must be a very heavy price to pay.

Chu Mu hoped he could live on, because he still had the dream of reaching the peak that he hasn't fulfilled.

But, more so, he didn't want to wake up again and never be able to see his mom again, even though this mom never did the best job.....

One can say that, when Liu Binglan made the difficult choice, it gave Chu Mu a cruel decision to make too.

"Lady Shan, now calm down for me and help me think carefully. Is there truly no other way out of this immortal city? Some other way other than the seals to get rotten aura?" Chu Mu asked Lady Shan very sternly.

Lady Shan stared blankly. She was already in despair and was just shaking in fear, waiting for the defending organisms and sealed organisms to come and kill her.

But, Lady Shan didn't understand how the man in front of her still hasn't given up. Did he not know that amongst the chaos in immortal city, they were like two weak sheep?

Chu Mu's calm and determined gaze caused Lady Shan to lose focus momentarily and also slightly get rid of her desolation.

Yet, Lady Shan still shook his head and slowly said, “There aren’t any other exits. There used to be something that instantly gave a rotten aura, but not anymore.”

There were two paths now, first was to find another exit. Second was to get the rotten aura like the prisoners and become one with them.

When Chu Mu heard there was something that gave rotten aura and his eyes lit up and immediately asked, “What, is it in immortal city?”

The closer to death, the calmer Lady Shan became. This was an extreme phenomenon in her mental state.

She seemed to see a sliver of life in Chu Mu and shook her head hopelessly, “You’re survival resolve is much stronger than a normal persons. Just now, passing straight through immortal city and now that the gate is closed, you still aren’t willing to give up, even after we’ve become flotsam in the ocean.....what I have to tell you is we are extremely unlucky.....”

“Immortal city originally had something in it that was your soul palace’s treasure. The person with top tier emperor rank that wanted you to live on could definitely guide you to it and get it. Then, we would have rotten aura on us and mingle with the sealed organisms. We would have a chance to live then.”

“But, this treasure was stolen. Just after the Battle of the Realm ended, it disappeared. No one knows where the treasure that was heavily guarded by even high class emperor ranks went, and no one has figured out how the culprit managed to steal it without even alarming the defending organisms.”

After saying this, Lady Shan seemed to use up all her life. She sat down as if she lost her soul, put her head between her knees, and had her back against the defending organisms as her eyes went hollow.

This was desolation, the last display from a woman who had her mind broken.

Lady Shan didn’t want to look at Chu Mu’s expression because she completely believed that after her words, he would become like her. Even if he was accomplished, even if his future was bright, he would die here with her.

“I really didn’t think I would die with you, of all people....” Lady Shan faced away from Chu Mu as he said.

Lady Shan muttered. She knew that Chu Mu facing death would have far more unwillingness than her. After all, he had four emperor ranks at such a young age, one of which was low class.....

“Chu Chen?” Lady Shan said a lot, yet Chu Mu didn’t respond at all.

She turned around subconsciously.

“Ah!!!!!!!!!!!!!!”

This moment, Lady Shan’s countless fears materialize, as a loud scream as she turned around.

“You.....you.....what are you doing? Why..... why are you suddenly summoning a dragon species.....” Lady Shan was far from true silence before death. A slight stimulus brought back all the unease.

“The thing with rotten aura, you meant immortal spring water right?” Chu Mu asked.

“En.” Lady Shan nodded stiffly.

“We have a chance to survive!!” Chu Mu finally smiled rarely.

This smile wiped away all the shadows that looming death put on Chu Mu’s heart.

The immortal spring water was stolen by the defector young woman puppet, but fell into Chu Mu’s hands in the end!

This meant that little hidden dragon, that drank the immortal spring water, had the rotten aura of immortal city and wouldn’t get attacked by sealed organisms, and may even be seen as a companion!

“Aoho!!!!!!!!!!!!!!”

Having drank a lot of immortal spring water, little hidden dragon had a closeness to this city. As if coming back home, it let out a deafening roar into the skies!!!

“Rotten aura.....so much rotten aura.....” Lady Shan stared blankly at this majestic dragon species and stared in disbelief.

This rotten aura was enough to cover up two humans’ auras, giving them a protective umbrella in this chaotic world!

“We have a chance to live? We have a chance to live!!” Lady Shan’s emotions were in turmoil.

When joy collided with desolation, it was another rapid shift in mental state. This time, Lady Shan fainted from becoming too excited, falling to the ground with tears of excitement still on her face.....

“.....” Chu Mu was speechless.

It was good that Lady Shan’s faints were momentary, or else Chu Mu would’ve thrown this deadweight behind long ago.

Of course, Chu Mu wouldn’t truly throw this woman behind. She understood way more about immortal city than he did. Though he very luckily had immortal spring water and can hide in the sealed army, it didn’t mean he was completely safe. In immortal city, he still needed lady shan’s guidance to tell him information in case he strays onto a deadly path.

Little hidden dragon used its claws to hook onto Lady Shan’s collar, and very roughly tossed her onto its back and turned around, opening its toothy maw and smiled towards Chu Mu like a kid.

“Little hidden dragon, we’re in the most dangerous plac in the world right now. Your bigger brothers and sisters wont’ be able to come out without getting ganged upon. We’re counting on you for the rest!” Chu Mu very seriously told little hidden dragon.

Little hidden dragon’s grin became even wider, looking excited!

“Your true fighting strength is near pseudo emperor rank. Ghost dragon’s rank is still only commander rank. If we raise up that rank, your true fighting strength will reach low class emperor rank!” Chu Mu said to little hidden dragon.

Chu Mu suppressed little hidden dragon’s growth mainly because Chu Mu couldn’t collect 250,000 spirits in the near future.

Little hidden dragon was ninth phase first stage, adding up to be at pseudo emperor rank level.

However, ghost dragon’s rank was still low, being only top tier commander rank.

This meant that little hidden dragon still had much room for growth. As long as ghost dragon’s rank rose, its strength will reach low class emperor rank without a problem!

Ghost dragon’s rank could be easily increased through killing enemies. In the past, there weren’t strong organisms like emperor ranks for chu Mu to kill, little hidden dragon couldn’t aggregate powerful souls and naturally ghost dragon’s rank would be low.

And even in forbidden realm, every emperor had a massive tribe with it, causing the killing of one to be exponentially harder. And one mishap could cause danger to everyone, making it extremely dangerous.

Yet now, within the entire thousands of years of history in immortal city, emperor rank soul pets weren’t hard to find anymore. Even the weakest soul pets were monarch rank, while the middle class power was emperor rank already.

These were all soul delicacies for little hidden dragon to increase its strength!!

Maybe, in one move, the ghost dragon could accidentally become emperor rank, causing the little hidden dragon to be even more powerful than Mo Xie!

Going from imminent death to a chance of increasing little hidden dragon’s strength greatly was a very extreme shift. Not only was little hidden dragon was excited by the countless meals in front of it, even Chu Mu was excited.

The little hidden dragon with immortal spring water was like a dragon in sheepskin, hiding in the chaotic immortal city and slaying the released emperor ranks like sheep!

“Maybe, getting locked in here wasn’t a bad thing?” Chu Mu said to himself contemplatively.

Chu Mu gazed at the countless defending organisms and sealed organisms that had chased to the gate already. At this moment, all these organisms had stopped their chase.

All of them stared blankly in place looking at the little hidden dragon with thick rotten aura.

"Awuhou!!"

Little hidden dragon was very aggressive, and let out a roar towards the organisms to show alliance!

The organisms that chased over lost track of Chu Mu and Lady Shan’s auras, and were all confused.

Without human aura, there wasn’t any reason to continue chasing. As for the thickly rotten aura covering dragon species, these defending organisms and sealed organisms saw no reason to actively provoke such a powerful and seemingly long sealed prisoner!

After little hidden dragon called towards them, it unfurled its sturdy wings and leaped into the sky, flying straight into immortal city’s sky!

Chapter 703: Seven Star Demon Suppressing Monument, Immortal Guardian God

Inside Tianxia Palace

The chaos in immortal city had lasted three days already. In this three days, the competition members staff just watched as more and more seals were leaving their control.

Now, they couldn’t even guess what kind of hell immortal city has become. Even if one of the leaders entered, they will probably die!

“There’s only one month, with this rate of seal breaking, in one month, there will be a large group of emperor ranks roaming immortal city. And if there's a big leader that appears amongst these emperor ranks, then all the immortal city sealed organisms and guarding organisms will gather together and start a spatial assault towards the departed world gates!” Ye Tao said in a deep voice.

Behind Ye Tao there was a large scroll painting. This scroll painting was the size of a wall, looking like an old city map.

The map was vertically set, allowing all spirit emperors to see it.

“Red marks are seals in the top 100, yellow is 100-300, blue is 300-1000, and green is past 1000. Black circles mean its already unsealed.” Ye Tao turned around and continued.

Different colors, different marks, densely packed, of which ones circled with black were plenty!

The entire immortal city was complicated. One could say that the simply the table of contents for the crimes of the sealed soul pets would fill a huge book. The detailed crime records with seal descriptions, power descriptions, reason, and belongings could fill an entire library. The scholars that spend their lives dedicated to immortal city still only knew a tiny piece of this ocean of knowledge.

Speaking of which, why would the massive sealed city collapse?

After three days of analysis, the old scholars finally knew. In reality, the immortal city in the past ten years has always been suffering from some energy’s destruction!

The conspirator was very smart. Every time they touched a seal, they only broke a little bit of it.

If the immortal city were a house, then the conspirator was like a white ant. They didn’t touch any of the pillars on the surface, instead biting into the insides. Once they got to a certain point, they would switch to a different pillar and continue to bite.....

The days and months stacked on, and the pillars were all badly damaged, but the house was still a house, so no one noticed anything.

One day, white ants brought down one pillar whole, causing a balance problem in the house that collapse all the other pillars. Immediately, the entire house would collapse under the long term chewing!

After coming to this conclusion, everyone was surprised. It was hard to imagine someone potting for over ten years and pulling it off this flawlessly!

“By this pattern, the immortal city’s limited space couldn’t possibly hold so many powerful organisms!” merchants alliance palace master said.

“In a months time, the people fighting on the western side with the heavenly devil insects can’t possibly all come back!” Soul pet palace great palace master said.

“Is there nothing to stop the seals from collapsing? The massive immortal city has no final protection mechanism?” A young spirit emperor asked.

Speaking of final protection, everyone’s eyes fell on the mysterious woman’s body.

Of the spirit emperors present, at least half of them have never seen the woman on the main seat. However, when elder Ting seriously announced that this mysterious woman was the soul palace noble woman, as well as soul alliance sixteen absolutes, the spirit emperors who hadn’t come in contact with the true elites of humankind were astounded!

It was hard to imagine that such a cold beauty was an expert that even them, as spirit emperors, could only look up to!

Soul palace noble woman already represented a top commanding title of a faction.

Yet, soul alliance sixteen absolutes was a truly utmost authority!

“Immortal city has seven Demon Suppressing Monuments, split up in seven stars across immortal city!” Liu Binglan did not waste any words and said very proudly without emotion.

“Under every monument is a sleeping ancient sacred soul pet!”

Ancient sacred pet?

Many of the spirit emperors were old and experienced, yet they had never heard of this secret!

Hearing it come from this noble woman of soul palace, their hearts were thrown into chaos!

“These ancient sacred pets are soul palace’s seven diagram sacred pets- Lin Yin Beast, binding Wind Spirit, Xuanzhen Beetle, Immortal Ming Bird, Palm Dawn Concubine, Holy Stem Flower, Wanmo Beast. These ancient sacred pets have slept for a few hundred years, and would only wake when immortal city is truly shaken!”

Soul palace's seven diagram sacred pets!!

Tianxia Realm was originally completely ruled by soul palace. Immortal city inherited the old layout, so its true pillars were the ancient seven diagram sacred pets!

This secret was something only palace experts had the authority to know!

“Dare I.....dare I ask, are these sleeping ancient sacred pets prisoners or.....” Blue Kingdom kingdom master Zhao QInghe lowered his voice and asked.

Since they are all ancient sacred pets, then they must have truly sky opening powers! If these ancient sacred pets are on the opposing side as humans, then no one can stop the disaster.

“They are defending organisms, guardian gods that suppress all evil within immortal city!” Liu Binglan answered.

Liu Binglan’s words caused everyone to breath out in relief. This means that immortal city still has a chance.

“What rank are the guardian gods?” Elder Ye Tao asked in a low voice.

“Seven sacred pets, all top tier emperor rank!” Liu Binglan said.

Liu Binglan's words caused everyone to smile in ecstasy!

Top tier emperor rank!

That was an organism at the peak! And there were seven of them!!

How powerful was this force? If they gathered together, suppressing immortal city was definitely a possibility!!

With these seven protector guards, the chaos will quickly get suppressed and tianxia city will be saved!

"However, the ancient sacred pets won't wake up by themselves. They need the seven drops of heavenly dew in my hands to awaken from the suppressing demon monuments." Liu Binglan said coldly.

All of the spirit emperors' emotions rose and fell with Liu Binglan's words. This sentence indubitably dampened everyone's happiness.

"Many of top fifty in immortal city were sealed by me personally. If I enter the already chaotic immortal city it would just cause these organisms to break out sooner. I can't complete this mission....."

"Now, we must select seven experts to enter immortal city and reach the suppressing demon monuments, and wake the seven ancient sacred pets up and save tianxia city."

Save Tianxia City, this was an honor worthy of epics. Which soul pet trainer wasn't willing to let their name be passed down for thousands of years?

But, everyone knew this was also a sacrifice! If even the main leader could lose their life entering immortal city now, the more average spirit emperors would barely have a sliver of chance of living!

"Volunteers will get a quarter serving of immortal spring water for their main soul pet, so it has a rotten aura and won't get attacked by everyone once they enter. This mission is extremely difficult, but not impossible."

“After ten days, mirror sword old man will open a one way spatial gate and let the seven brave men in. Each man will get a soul item that will raise their main soul pet by one rank before entering immortal city.....” When getting here, Liu Binglan suddenly paused for a moment before slowly continuing, “Then, the fate of Tianxia City will rest in these seven people’s hands.....”

In the words before, no one could feel any emotion in this high up mysterious noble woman, but after that pause, everyone could sense a clear change in her tone.

This change caused everyone to feel the heavy sense of duty pressuring their hearts!

“No matter if they succeed or not, the Realm Throne’s golden crown will be embedded with these seven brave souls’ names!”

The last sentence of Liu Binglan echoed through the hall. The mystical female voice was noble, stern, gentle, yet heavy, causing all the strongest human beings that gathered there to completely go silent.

.....

In immortal city

“You.....you bastard!!”

“How can you steal the immortal spring water, you.....you’re embezzling. Did you forget that you’re a member of soul palace? How can soul palace members steal soul palace treasures?!” Lady Shan pointed at Chu Mu, her plump bosom heaving, clearly fuming with rage.

Once she woke up, Lady Shan suddenly realized that this first rank winner of battle of the realm was the great thief, or else his soul pet couldn’t possibly have this thick of a rotten aura!

“If you shout at me one more time, i wouldn't mind throwing you out to feed these hungry devil tigers!” chu Mu said coldly.

Lady shan glanced worriedly at the devil tigers with eyes burning with blue glints and quickly covered her mouth, choosing instead to stare at Chu Mu to express her utmost anger for the thief.

Now, Lady Shan was more and more convinced that Chu Mu was part of the crew that collapsed immortal city!

“I didn’t steal the spring water, I just happened to meet the thief and killed her.” Chu Mu explained.

After explaining, Chu Mu told little hidden dragon to fight its way directly towards the teeth baring devil tigers!

After days of battle, ghost dragon was already middle class monarch rank. Once it reaches invincible monarch rank, little hidden dragon’s strength could reach low class emperor rank!

Ghost dragon could gather souls to raise its strength, but the improvement is slow and it only counted when little hidden dragon truly killed the enemy.

Chu Mu didn’t hurry. After all, all of immortal city was full of advanced organisms. These few days he had been constantly switching it up, so little hidden dragon could kill different ranking organisms and slowly level up.

Chu Mu estimated that with two pseudo emperor rank souls, ghost dragon could reach invincible monarch rank, raising little hidden dragon’s rank to low class emperor.

.....

“Huhuhuhu~~~~~”

While Chu Mu and little hidden dragon were fighting the devil tigers, a huge gust of wind suddenly blew down from the skies, evidently a powerful wing type soul pets that flew over their heads.

"Someone’s in the sky.....I think.....I think it's the soul pet trainer that was with He Teng!" Lady Shan pointed at the sky.

“I see it.” Chu Mu asked.

“Then why don’t you go and chase them?” Lady Shan “Chase them to do what?” Chu Mu asked.

“To see what he want to do; he’s the criminal that broke immortal city.” lady Shan said.

“En, after I feed my little dragon completely.” Chu Mu said nonchalantly.

Lady Shan was increasingly speechless. She was sure Chu Mu was a team with the other!

Chu Mu obviously choose to ignore her. The most important method here is to improve his little hidden dragon’s strength to have some guarantee to living.

But, just as they were about to fly over, Chu Mu suddenly noticed teh wing type soul pet paused for a second and directed its eagle eyes downwards to them!

“Damnit, this thing found us!” Chu Mu cursed out loud!

Chapter 704: Ghost Hidden Dragon, Instant Kill!

In the sky, the man riding a two-headed meat winged bird gazed emotionlessly at the ground.

This man’s skin was withered and yellow, without any glow. He was like a man that had been sucked dry by a succubus-like in many fairy tales.

“Looks like they are the annoying patrolling officers. They managed not to die with all the other competition guards. Truly rare.” The man smiled a large yellow toothy grin.

As he spoke, he patted his two headed wing type soul pet, and dove down swiftly from the skies.

The man’s soul pet was a Duohead Plague Bird, a pseudo emperor rank wing type! Its eyes were incredibly sharp; when it was flying thousands of meters into the high skies, it could discern every ant crawling around on the ground.

“Huhuhuhu~~~~~”

The Duohead Plague Bird fell heavily onto the ground, its two long necked heads raring to dart forward, wanting to immediately swallow Chu Mu and Lady Shan.

“Oh, so its two young ones? Able to be a patrol officer, you probably aren’t too bad, right?” The skinny yellow man on the Duohead Plague Bird said without hurry.

After speaking, the skinny yellow man’s gaze quickly fell on Chu Mu’s little hidden dragon.

From its aura, little hidden dragon was only top tier monarch rank. Other than its appearance being slightly mysterious due to its ghostly transparency, it wasn’t much different from a normal dragon type. However, the thick immortal aura on it was surprising.

Monarch rank was monarch rank in the end. The skinny yellow man didn’t mind. He couldn’t help but smile belittlingly as he continued, “Let me introduce myself, I’m called Yang Qi, I’m not sure if you two have heard of me?”

The person calling himself Yang Qi had a forced and fake calmness and “elegance”, that caused Chu Mu to want to puke. He had never seen such a boring person. Defector young woman’s subordinates indeed were all questionable people.

Of course, Chu Mu didn’t know Yang Qi, but from Lady Shan’s reaction, this man seemed to have some infamy in the world!

“You.....you’re underground palace’s killer, the one that once assassinated a soul pet palace master in Tianxia City!!” Lady Shan pointed a finger at the skinny Yang Qi, in complete shock!

“Hehe, it is me.” Yang Qi suddenly smiled deviously, his laugh causing hackles to rise on her skin. He continued “Little pretty chick actually knows of me. Let me tell you, that night, after I killed him, I also treated his wife very well, who hadn’t experienced such activities in a while.....”

After hearing this, Lady Shan’s body shook. She could feel Yang Qi’s burning gaze. This man’s fervor and satisfaction caused Lady Shan to feel like she had already been violated.....

Lady Shan subconsciously hugged Chu Mu’s arm, and looked pitifully at Chu Mu.

Chu Mu remained calm and steadily asked Yang Qi a question, “How did you enter immortal city?”

“Oh, almost forgot about you. I don’t want to waste time talking with you. I still have much to do. However, the beautiful chick beside you, I’ll happily accept her.” Yang Qi smiled, and leaped off his soul pet.

Suddenly, the Duohead Plague Bird that Tang Qi was riding attacked. This thing clearly was ready to attack. Before Yang Qi even finished speaking, it blew forward in a fully charged attack, wanting to immediately kill Chu Mu’s soul pet!

However, Chu Mu’s reaction was even faster. Almost the moment it reared to attack, Little Hidden dragon’s technique was finished!

“Hu~~~~~”

Ghost Dragon adhered itself immediately. Little hidden dragon’s body along with Chu Mu and Lady Shan all became intangible. When the Duohead Plague Bird attacked, it immediately passed through the little hidden dragon’s body!

Ghost Fade!

Ghost type perfect dodging technique!

Unless the power was at a certain degree, or if it were a direct attack to the soul, it couldn’t harm the ghost type little hidden dragon one bit!

“Hundred Spectral Strikes! Attack its vulnerable spots!” chu Mu commanded.

“Aohou!!!!!!!!!!!!!!”

Little hidden dragon’s body quickly solidified again. The soul pearl’s over hundred souls swirled around little hidden dragon’s body, looking like an ancient soul pattern that quickly gathered on little hidden dragon’s ghost claws!

The little hidden dragon was currently right behind the Duohead Plague Bird. With a dragon claw full of energy, it ripped straight towards the Duohead Plague Bird's heads!!!

“Shua!!!!!!!!!!!!!!”

Dead souls shattered. At the same time, the dragon claws sharply swiped by the Duohead Plague Bird's neck, completing a glamorous attack from behind that struck at its vitals!!

The Duohead Plague Bird's two heads immediately left their necks, leaving the thin necks spewing blood like garden hoses!

Its life was instantly gone. The Duohead Plague Bird's necks fell down and its body slumped heavily into the ground!

Vital instant kill!!

The pseudo emperor rank had its heads swiped off in one exchange, dying utterly!!

“Such a powerful dragon!!!” Lady Shan's little mouth was so wide it could almost fit her fist!

It was the first time Lady Shan had seen such a cryptic move, and such powerful instant damage. When this little hidden dragon was fighting the other monarchs, she could already tell it was special. Yet, she never would have thought the ninth phase dragon could instantly kill the underground palace killer Yang Qi's wing type emperor!

This was unbelievable!!

And looking back at Yang Qi, his soul was instantly heavily wounded. Yang Qi's egoistic and fake confidence instantly morphed into a face of anger, his veiny and eyes bulging!

“Impossible!! Impossible!! That can't possibly happen!!!!” Yang Qi immediately was on the verge of collapsing.

That was Yang Qi's emperor rank soul pet he was so proud of! Having it get instantly killed so carelessly, Yang Qi couldn't accept it!!

“Gather soul!

Chu Mu didn't care whether the other person could accept it or not. He immediately had little hidden dragon to cast its species ability and suck the pseudo emperor rank's dead soul into its body.

After the soul entered little hidden dragon's body, it immediately became energy for ghost dragon, causing its rank to immediately increase and raised little hidden dragon's power by a rank!

This pseudo emperor rank's soul was too easy to collect.

Before, Chu Mu thought that Yang Qi may have a lot of emperor ranks, causing him with a little hidden dragon to be unable to handle him.

Yet, this fellow saw Chu Mu and Lady Shan to be young, and thought they were just normal patrolling officers. He didn't even summon his other soul pets, and just sent a wing type emperor to fight little hidden dragon on the ground.

Without the air advantage, wing type soul pets couldn't use all its power. Yet, this person didn't take little hidden dragon seriously at all, rushing forward to try to kill little hidden dragon in one hit.

Little hidden dragon was a top tier monarch with three main types! If it truly fought, even pseudo emperor ranks would have trouble dealing with it.

This Duohead Plague Bird flew over with low defense. It thought it had powerful offense, but to the little hidden dragon fully prepared to kill it, it was just giving its life up for free!

“I'll skin you all alive!!!!!!!!!!” Finally, Yang Qi erupted!

Yang Qi's recovery was rather quick. After being unable to handle the loss of one soul briefly, he immediately backed off to prevent him from getting instantly killed by little hidden dragon and also cast duo summon while retreating, summoning other emperor ranks!

Two emperors appeared left and right, two panther emperors with rock and lightning sub types!

The barbarian mountain panther emperor Chu Mu met had no sub types. This time, either of the panther emperors Yang Qi summoned was a rank stronger than that barbarian mountain panther emperor!

“Chu Chen!! Chu Chen, these are two pseudo emperor ranks with sub types!!! You’re soul pets can’t beat it!!” Lady Shan frantically shouted, showing her temperament as a deadweight fully!

“I’ll show you the feeling of dying over and over again!!!!” Yang Qi’s summoning hadn’t finished yet. While his soul was harmed, he started another incantation to summon a third emperor!!

Chu Mu’s little hidden dragon could at most deal with one subtype panther emperor. The other two enemies, what would he do with them, give it to the woman that only knew how to scream?

“Die!! Go Die!!!!” Yang Qi was crazy, commanding all his soul pets to attack Chu Mu.

Facing the two sub type panther emperors, Chu Mu remained calm as he patted little hidden dragon’s dragon horn.

Little hidden dragon immediately understood.

Very quickly, little hidden dragon’s body was shrouded in a special ghostly sheen as its body slowly became incorporeal, becoming a transparent quartz like sculpture dragon!

Ghost Dragon!

Little hidden dragon completely released ghost dragon’s powers, becoming an intangible ghost type organism!

“Huhuhu~~~~~” Little hidden dragon flapped its transparent wings, yet it didn’t create any gust of wind as it very lightly started floating!

Suddenly, little hidden dragon turned around swiftly!

It became a dragon ghost that brought the also transparent Chu Mu and Lady Shan deeper into immortal city, floating away.....

The crazed Yang Qi stared wide eyed in shock. He just watched as the opponent that made him crazy flew away in front of him!!

After a moment, Yang Qi felt his chest hurt, as he almost spit out blood in anger!

The person escaped!

Not only that, he escaped very easily in front of his very eyes!

It wasn't that Yang Qi didn't know to chase. It was that anyone who knew about ghost types knew that other than ghost types, any other type soul pet chasing might as well just be sending it off!

.....

If he couldn't fight, Chu Mu could run away!

Spending fortunes to train little hidden dragon wasn't just to make little hidden dragon shinier than usual!

The opponent had multiple emperor rank soul pets. Chu Mu's other soul pets couldn't be summoned easily, so since he couldn't win, obviously he had to escape. He dared to stay in front of Yang Qi because he believed in little hidden dragon's ability to escape.

And, Chu Mu wasn't afraid of Yang Qi.

He just had to feed ghost dragon to low class emperor rank first and then take his time in dealing with Yang Qi! Then, Yang Qi's soul pets would still get instantly killed even if they were prepared!

.....

Chapter 705: Only Exit, Demon Suppressing Monument

Yang Qi's main pets all had rotte aura on them, so summoning three soul pets wouldn't attract a group onslaught.

But right now, his soul was injured. His face was pale for a moment before turning dark. He flew up and towards Hao Ting.

"I wanted you to destroy a few seals, but you returned with a wounded soul!" Hao Ting creased his brows when he looked at Yang Qi.

Hao Ting was about 40, and there were numerous white strands of hair in his black hair. His countenance was also older than his age!

"I encountered a young inspector. He had a strange dragon species soul pet with him. I was screwed over by that dragon species!" Yang Qi grit his teeth.

"There's still a competition authority person that is still alive? Who?" asked Hao Ting. Those who could wound Yang Qi were definitely spirit emperors.

"I don't know. He was very young. About 20!" said Yang Qi with a loathing tone.

"About 20?" Hao Ting thought for a moment before opening his eyes and speaking: "The only person who is about twenty and has an emperor is Soul Palace's Chu Chen. But I've never heard of him possessing an emperor rank dragon species." "Chu Chen? Wasn't that the brat master told us that we had to capture him alive if we encountered him?!" Yang Qi abruptly came to a realization.

"Why would he be here?" Hao Ting knit his eyebrows.

The puppet female master's plan hadn't actually failed. The only part that had failed was losing the Immortal Spring Water from Immortal City that would allow it to operate autonomously.

After the puppet female master was killed by Chu Mu, Hao Ting had continued to operate and execute the plan given to him by the female master.

Of course, the completion of the plan was due to the appearance of a mysterious man who was a leading subordinate of the female master. It was him that managed to actuate the shocking beginnings of this plot.

Now that things had been started, Hao Ting and Yang Qi only needed to add oil to the fire when it was appropriate to do so. Afterwards, they would go and find this mysterious leader and their task would be considered complete.

However, neither Hao Ting nor Yang Qi expected that Chu Chen, who their female master had angrily ordered to be captured alive, was in Immortal City!!

“If we capture him, master will reward us with a emperor fourth rank and above spirit item!” Yang Qi’s blood was boiling and the pain from the wounded soul seemed to disappear!

“Yes. We won’t be able to leave here for a while, so we may as well capture him and deliver an extra gift to master!” Hao Ting cracked a smile.

“The problem is that he has a specter type soul pet, and it’s very difficult for us to capture him. It’s a dragon species comparable to a pseudo emperor rank. I only lost to him because I was careless.” said Yang Qi.

“Pseudo emperor? What a joke. Do you really think he’ll be able to escape from my low emperor rank demon? In front of absolute strength, what use is the specter type?” arrogantly said Hao Ting.

“Of course, of course, In front of a low class emperor, pseudo emperors are garbage...” Yang Qi nodded vigorously as he panderingly spoke. Yet, while he pandered, he was also cursing his own soul pets.

.....

The chaos in Immortal City had already reached the 13th day.

Inside Immortal City, more and more high ranking creatures climbed out of their ‘tombs’ and saw sunlight once again!

In Tianxia City, everything was still as usual. Only the leaders of Tianxia Realm, the spirit emperor rank, was in a panic.

In 13 days, only about 10 spirit emperors had returned, increasing their number from 50 to 60.

However, the speed at which the human forces gathered was far from as fast as the powerful creatures that escaped from the big seals. This storm was so stressful the experts weren't able to sleep or eat.

The 13th day was also the day the seven heroes were to be sent into Immortal City.

The primary part of summoning the ancient saint pets was infiltration. Overly strong soul pets in Immortal City which was covered with powerful creatures would attract the most attention from the violent groups of creatures. It was difficult for Immortal Spring Water to fully mask their powerful aura.

Therefore, when the seven heroes were chosen, Tianxia City's City Lord had to choose spirit emperors with strength between pseudo emperors and middle class emperors.

Soul pets between these ranks would easily be ignored by the powerful sealed creatures after they used the Immortal Spring Water. Moreover, if they encountered any violent creatures, their emperor rank strength would allow them to protect themselves.

The calamity was here, and this was a great concern of life or death. Further added on the incomparable glory and enormous reward, this made it so that experts were actually willing to give it a try!

Soul Palace had a limited of Immortal Spring Water. Thus, seven people was the limit. Even if there were additional brave spirit emperors and experts willing to shoulder this task, only seven people could embark on this mission.

Victory or defeat would be decided by this one mission.

The seven spirit emperors shouldered an incomparably heavy mission for humanity. When the seven spirit emperors stepped onto the lonely path to Immortal City, the other experts who rarely shed tears couldn't help but do so when they saw these seven determined and resolute figures.

Conflicts between spirit emperors would happen both in the open and in the dark in Tianxia Realm. But right now, all the spirit emperors had an unprecedented feeling of unity!

Perhaps this was a species mission. This was something the mundane people in this world had not realized was going on nor would ever know what happened. Yet, this matter was of vital importance to the growth and existence of their species!

“Go to the respective sacred halls.” Liu Binglan, in charge of the situation, had a calm tone as she spoke. However, everyone could still hear a slight nasalness to this noble woman’s voice.

“The Seven Diagram Saint Hall’s Saint Spring Pond can reflect the scene in the reflection of the springs under the seven great Demon Suppressing Monuments. It is the only method right now for us to see what is going on in Immortal City. I hope that those heroes will be able to appear in the Seven Diagram Saint Hall’s Saint Spring Pond...” Elder Ting looked weary as he spoke.

Right now, aside from waiting, the other 50 spirit emperors couldn’t do anything else.

.....

“Fellow friends, I will go first. I hope that I will be able to see the rest of you in the future.” Soul Pet Palace’s young genius, Han Jiling, was only 33. He waved his hands, and rode on his pseudo emperor rank Earth Fiend Dream Demon into the hell-like city.

The other six spirit emperors looked at each other.

These six people didn’t look as free or easy as Han Jiling. In front of them was an endless abyss. An underworld of death. Even if Immortal Spring Water, stepping into it would lead to nine deaths and one life. There was also the pressure from how important this was. There was no one who could face this calmly. Perhaps it could be described that if one had the courage to enter, this meant that his ability to withstand pressure was extremely high.

Indeed, even maybe the carefree Han Jiling was not as carefree as he seemed.

“I’m also going to go. I need to return earlier so that I can hold my daughter, who is just one month old.” said Kingdom Lord Duan Yi, who was part of the seven heroes.

When Duan Yi volunteered to enter the seven heroes, Blue Kingdom Lord Zhao Qinghe was stunned for a long while. The two of them, neighboring each other, had been through many trials

with each other for many years. It was unknown how many grievances they had had between them. Zhao Qinghe never expected that Duan Yi, who he found a bit irritating, would make him ashamed and unable to show his face!

“So you had a daughter. Then I’ll arrange it... Ah, it’s arranging it for my son so she can be my daughter-in-law.” the nomadic spirit emperor, Guan Qing pretended to be carefree as he spoke.

Duan Yi was already a distance away from the group, but after he heard Guan Qing’s words, he turned around and said: “If we have a chance to see each other in the future, I will recognize your young wanderer as my son-in-law.”

After speaking, Duan Yi, like Han Jiling, waved his hands and said goodbye to everyone.

However, not long after, Duan Yi’s soul pet suddenly sped up and in a thick haze, it charged into Immortal City. It seemed a bit reluctant...

The others were silent.

It wasn’t that they didn’t understand the danger this time, nor was it that they didn’t understand that there were other spirit emperors.

Of these seven people, most of them weren’t here for the honor or reward. Instead, it was because in Tianxia City and the nearby kingdoms were numerous people who would be unable to flee from this calamity and who they had to protect...

.....

Time quickly passed.

It was the 17th day of unrest in Immortal City. Deep inside Immortal City, Chu Mu gradually discovered that the guardian creatures and sealed creatures which were originally often fighting and killing each other had now become quiet.

In fact, the entire Immortal City had become quiet.

However, Chu Mu understood that the peace in Immortal City didn't mean that the riot had been suppressed.

Instead, it was the calm before the storm!

The arrival of the peace meant that an ultra-strong creature with enough strength to suppress most of the chaotic creatures had appeared!

Without a doubt, at least one peak emperor had appeared in Immortal City!

This world-shocking creature's rise to the occasion had been savage and lively as it had set numerous unknown places in Immortal City on fire!

Even more sealed creatures were released and they were suppressed by this enormous creature. It was forbidden to fight internally amongst each other. Instead, they began to consolidate their strength and attack the ancient Departed World Gates!!

They wanted to escape and release their grievance, pent up over many years, on the humans!

As for the imprisoned pets that still had masters, they wanted to extract justice for their masters!

The imprisoned soul pets that had already lost masters had obtained their freedom and wanted to retaliate against the authorities that had punished them!

Although there were now less conflicts in Immortal City, the heavens were overflowing with grievance!

.....

"Will we be able to survive..." quietly asked Young Lady Shan.

"Didn't you overhear that Hao Ting and the other guy know another exit?" earnestly said Chu Mu.

“But the history books have recorded that the Demon Suppressing Monuments should be the most stable areas. There cannot be spatial fissures there.” Young Lady Shan still didn’t entirely believe it.

Most recently, Chu Mu and Young Lady Shan had been pursued by Hao Ting and Yang Qi and were in hiding. But at the same time, they obtained extremely vital information: there was an exit from Immortal City nearby the Demon Suppressing Monuments!

Young Lady Shan was extremely familiar with the entire Immortal City, and although she was somewhat suspicious, she still guided Chu Mu towards the Demon Suppressing Monuments.

“That being said, what’s up with your dragon? How did it’s strength rise so quickly? Are you carrying strengthening spirit items with you? But I haven’t seen you strengthen it, nor have I seen your soul power decrease.” asked Young Lady Shan.

“What’s the point in asking so much?’ Chu Mu couldn’t be bothered to answer.

After fighting for so long, Chu Mu had already raised the Little Hidden Dragon into a fatty!

It was very hard to believe that the weak infant Little Hidden Dragon born two years ago in Immortal City would return two years later, and become Chu Mu’s most powerful fighting strength soul pet!

Most importantly, this little fellow was still only at the ninth phase!!!

Chapter 706: Spatial Reflection, Reflected Spring

“Are the Demon Suppressing Monuments nearby?” Chu Mu looked around.

There were no old buildings or palaces in this area. It was rather vacant. The only thing ahead of them was a very shallow spring.

The spring was large and the water was calm. It was so clear the bottom could be seen. Strangely, when one looked far into the spring, one would feel that this special spring would show the reflection of another world.

“It’s here. Definitely. The large spring in front is proof of this.” Young Lady Shan was sure.

“But I don’t see anything.” said Chu Mu.

Everything around them was empty. The spring was also empty as there was no imposing and magnificent building on it, much less a Demon Suppressing Monument!

“This... I’m not sure, but this place is the Demon Suppressing Monument!” Young Lady Shan was confident in this. She believed in her own knowledge.

Chu Mu was helpless. Perhaps, he had subconsciously thought the Demon Suppressing Monument would be as grand as the Heaven Boundary Monument. Indeed, maybe the Demon Suppressing Monument would only be as small as a tombstone.

“There’s a soul pet nearby!”

Chu Mu was about to step forward to search for it, when his soul remembrance suddenly detected a fluctuation in the air.

“Sha sha sha~~~~~”

The Little Hidden Dragon reacted very quickly. Its specter body gradually floated to the edge of the spring where water was spilling out of.

A strange thing occurred!

The water seemed to be very shallow, but the enormous body of the Little Hidden Dragon seemed to have fallen into a deep pool, as its body slowly sunk into the water!

The uniqueness of specter type creatures lay in their strange physical abilities. Immobile water, mirrors, shadows or even paintings, totems and engravings on a wall could all act as hiding places for powerful specters. Moreover, as long as it didn’t move an inch, it wouldn’t give off any aura.

One may ask then, with such unfathomable hiding abilities, what soul pets would be able to catch specter type creatures?

Young Lady Shan had spent a long time now with Chu Mu and realized how special and mysterious specter type creatures were!

In the shallow water, three pairs of eyes stared at the world outside the water.

Of the three pairs of eyes, one was big and two were small. The big round eyes naturally belonged to the Little Hidden Dragon. This little fellow had grown very quickly, and its childish nature was still there. Its eyes also contained a little bit of adorable craftiness. Its eyes looked left and right, as if it was playing hide and seek with its enemy.

The other two small pairs of eyes naturally belonged to Chu Mu and Young Lady Shan.

Most recently, after being chased by Hao Ting and Yang Qi, these mad dogs, they were particularly cautious.

A moment later, a figure emerged nearby.

However, because the field of view underneath the water was limited, neither the big nor small eyes were able to see the creature that had approached this area.

“It’s here! It’s here!!”

Suddenly, an excited voice rang out!

From his voice, one could detect the excitement in his heart that was hard to contain!

Under the water, Chu Mu and Young Lady Shan looked at each other in shock.

In Immortal City where roars, cries and snarls could be heard, there was unexpectedly a human’s voice! Moreover, this voice didn’t belong to Hao Ting and Yang Qi!

“I’ve finally found this place! Thank the heavens and earth!” this man was unable to control his emotions and began madly laughing for a long time.

However, after laughing for a while, his laughter came to an abrupt halt...

.....

Soul Palace, Immortal Ming Bird Sacred Hall.

Each one of Soul Palace's Sacred Halls had an enormous spring.

The spring was very shallow but very clear. At the bottom of the spring were gem-like pebbles. Even at night they would flicker with bright lights.

The spring had a special phenomenon. There were no tall buildings around the spring, but when one stood at the edge of the spring and looked in, he would see a solitary building that extended the water and into one's blindspot...

The existence of this spring made many Soul Palace members confused. After all, it was a big spring. Although Soul Palace's construct in Tianxia City occupied a huge plot of land, such a huge chunk of it was used to build this luxurious spring that didn't seem to have much meaning. It seemed to be a bit wasteful.

However, today, everyone finally realized how important this spring was!

This spring wasn't a normal scenic spring. Instead, it was the world's most mysterious marvel - a reflection spring!

The reflection spring utilized another corresponding reflection spring in another space and allowed one to see the scenery in the corresponding spring's space!

There were a total of seven reflection springs. These seven great reflection springs happened to correspond with Immortal City's seven great Demon Suppressing Monument's reflecting springs. This meant that through Soul Palace's seven springs, people could see the situation occurring nearby the Demon Suppressing Monument!

Until now, nobody knew of the situation inside Immortal City. Thus, this reflection spring gave everyone a surprise.

They wouldn't just have to sit and do nothing. Instead, they could use the reflection spring to see if the seven heroes finished their difficult species mission!

The seven great springs were continuously watched by alternating people. This continued for many days and many spirit emperors would also sleep next to the spring in wait.

Finally, on this day, a figure appeared in Immortal Ming Palace's sacred spring!

For a moment, all the spirit emperors were concentrated there. They all stood on the edge of this pebble spring and stared at the incomparably excited man.

Everyone stood on one shore and watched the image on the other shore. The springs reflected each other which meant that one had to stand on the opposite diagonal to see what was going on.

"I see it! I see it! Immortal Ming Bird's Demon Suppressing Monument. This is Han Jiling's responsibility. This person is Han Jiling!!" Elder Hai Qiu was the first to shout out in spite of her identity!

It had been a long time since this old fellow had been so excited!

Everyone else showed expressions of excitement. Even Liu Binglan who rarely smiled couldn't help but reveal a slightly gratified smile.

In the image, Han Jiling was incomparably brilliant and magnificent right now in the eyes of these spirit emperors. After all, to the entire Tianxia City, this was too important!!

"This is too good. One of the ancient saint beasts, the Immortal Ming Bird is about to awaken. The riot in Immortal City will be slightly suppressed."

"Han Jiling is our hero!"

"Yes, he's so young but has obtained such merit for Tianxia City. This is irreplaceable!"

In the previous half a month, these spirit emperors hadn't been able to breathe easy!

This matter concerned the life and death of everyone. Even those without a sense of responsibility felt the pressure of a mountain. Breathing was hard.

Right now someone had finally finished their mission. The meaning of this was important and worth celebrating!!

"Your Majesty, what's the matter?" the attentive Elder Ting discovered that after Liu Binglan revealed her beautiful smile, her face gradually turned serious.

"Look behind him a bit. There seem to be two people." Liu Binglan softly said.

Elder Ting looked on and discovered in the image two people were standing in a blindspot.

"They moved!"

Liu Binglan hoped she saw wrong. But these two people had moved!

They were quietly approaching Han Jinling and as they did, their faces slowly appeared where all the spirit emperors could see.

"What's up with this. Why are there other people?!!" immediately a spirit emperor discovered them and asked a question in confusion.

"These two people are..."

Right now, from their position, they could clearly see these two people!

One was skinny and dispirited. The other was tall and cold, but his eyes flickered with light!

Clearly, these two people were not the heroes they had chosen!

Their appearance at the Demon Suppressing Monument meant that they were very likely to be the cause of this plot!!

“Hao Ting!!” suddenly, Palace Lord Yu let out a shocked cry!!

Palace Lord Yu was extremely familiar with Hao Ting. Even though this was a reflection, Palace Lord Yu could recognize him!

“Hao Ting? Isn’t he Merchant Alliance’s Hall Master?”

“Why would he be here?!” everyone’s eyes fell on Merchant Alliance’s Master of Affairs!

Merchant Alliance’s Master of Affairs’ face was full of shock and he earnestly shook his head and said: “This... this has nothing to do with our Merchant Alliance.”

“Yu Shang, tell us what’s going on.” Elder Ting immediately said.

Palace Lord Yu nodded his head and said: “A while ago, I discovered that Hao Ting’s temperament had greatly changed, and he began to do things for personal interest. He began to continuously incite conflict between the large factions. I mentioned this matter to the competition authorities and the higher-ups of the various large factions, but I didn’t have concrete evidence...”

“Since you knew that he was the black hand behind the scenes that destroyed Immortal City, why didn’t you stop him?!” at this point, a few agitated spirit emperors spoke up.

Palace Lord Yu had already noticed him, so he should have reported it or killed him. If he had killed him in time, it wouldn’t have lead to thee events today.

“Everyone calm down. Hao Ting should only be one of the black hands. He cannot be the true mastermind. Everyone shouldn’t make rash conclusions.” Elder Ting spoke up for Palace Lord Yu.

Palace Lord Yu was incomparably regretful about this.

If he was able to get to the root of this matter, perhaps he would have been able to know of this plot!

“Han Jinling’s strength isn’t too far off from Hao Ting’s. The problem is that there’s another bastard beside Hao Ting who seems to be Yang Qi. He’s a notorious bastard who should be locked up in the Labyrinth!” angrily said Soul Pet Palace’s Elder Hai Qiu.

“I never expected that our huge matter of life and death would fail at the hands of a bastard!” the other spirit emperors were bitter and angry.

Yang Qi’s strength was barely anything. At least most of the spirit emperors present could completely crush Yang Qi. But right now, no matter how eager to fight or how many sparks were flying from their eyes, they couldn’t do anything to Yang Qi!

It was because of this bastard. Now, it would be very hard for Han Jinling to defeat the combined Hao Ting and Yang Qi!!

It was all for naught!

Han Jinling was an incomparable genius, but he was definitely not their opponent!

Everyone’s originally high spirits fell to rock bottom. Their hope became illusory. Especially because this was done by a bastard, this was extremely hard to accept.

“Even if I die, I am still going to kill Yang Qi and Hao Ting, these two bastards!” the spirit emperor called Old Li exploded in anger.

“That’s right! Even if we can’t fix the situation, we’re still going to kill those two bastards!” angrily said the spirit emperors.

Silently standing on the side of the spring, Liu Binglan’s expression betrayed nothing. However, in her heart, she was just as angry and aggrieved as the other spirit emperors.

There was no one more than Liu Binglan who cared more about the survival of Tianxia City!

Yet Soul Palace’s Her Majesty never expected that this matter that concerned life and death would fail at the hands of criminals!!

Chapter 707: The Fight that Surpasses the Peak of Humanity

Immortal City, Demon Suppressing Monument

At the shore of Demon Suppressing Monument's spring, Hao Ting and Yang Qi didn't know that their ugly reflections were being watched by several tens of spirit emperors in Tianxia City!

Each one of their actions, even if it was a breath, was looked upon with extreme disgust by the spirit emperors. The two of them looked like a cat cornering a mouse, as they stared with evil smiles at Han Jinling.

Most spirit emperors had two sides to them. Both Hao Ting and Yang Qi recognized Han Jinling.

Hao Ting spoke first: "It seems that the Tianxia competition authorities weren't so stupid as to do nothing. But they ended up sending a bunch of trash to infiltrate this place."

"Originally we were guarding this place for another piece of prey. But you ended up turning up. This really is interesting." laughed Yang Qi.

Han Jinling wasn't stupid. Hao Ting and Yang Qi weren't inspectors. The only explanation for their appearance was that they were part of the plot!

Han Jinlian was angry. He was so close to finishing his mission, but he ended up encountering these two bastards!!

The two sides faced off and summoned their soul pets.

Han Jinling had to fight with full strength. He summoned two low class emperors and three pseudo emperors in front of him!

Although Han Jinling knew he wasn't the opponent of these two, he had to give it his all. Perhaps he would find an opportunity to summon the ancient saint pet!

“You two bastards, today I, your grandfather, will slaughter you!” angrily roared Han Jinling. He gave his two low class emperors an order to kill Hao Ting.

Hao Ting wasn’t flustered. He also summoned two low class emperors. One demon, and one beast type. These two low class emperors immediately met the other two head on. A wave of power exploded from their clash, traveling in all directions!!

The clash of four low class emperors created a destructive force that was capable of destroying a low ranking city. The splash damage spread several kilometers, creating destruction!!

“Hu~~~~~”

The energy also hit the spring, but strangely, the spring wasn’t destroyed. There was only a small ripple, as if a cool breeze had swept past...

Han Jinling saw that the spring wasn’t affected, and let out a huge sigh of relief. He focused on dealing with Hao Ting’s five emperors!

However, Han Jinling didn’t realize that when the technique wave swept past, the figure under the water had suddenly disappeared, and had strangely moved to the spring’s water.

Specters had the ability to travel in an illusory state. When Chu Mu discovered that the spring wasn’t affected by the techniques, he immediately had the Little Hidden Dragon travel from the reflection world to the great spring’s reflection, where he could continue to watch.

.....

Han Jinling’s strength was fairly close to Hao Ting’s, and his soul pet controlling abilities were superb! The two of them had a huge fight, but it would take a while before a winner was determined.

“I’d better join.” Yang Qi cracked a smile and began chanting, completing a dual summon.

He summoned two leopard emperors with lightning and rock attributes. These two secondary attributed leopard emperors immediately pounced at Han Jinling’s three pseudo emperors, causing the battle’s equilibrium to change.

.....

“Sila~~~~~”

An earth splitting technique abruptly ripped open the ground outside the spring. Countless cracks appeared in the ground!!

“Hong hong hong!!!!!!!!!!”

Pale white lightning intersected in the sky, angrily striking downwards. With each flash, a towering black figure was illuminated on the spring.

“Hu hu hu hu!!!!!!!!!!”

The wind violently whistled and the black soil several kilometers around the spring was severely damaged. Guardian creatures as well as sealed creatures began to flusteredly flee even further away.

However, no matter how much the heavens and sky shook or how much wind and lightning there was, the spring would only ripple.

“Let’s ignore who this Han Jinling is for now. The enemy of my enemy is my friend.” Chu Mu rubbed his chin, as he could no longer keep watching.

Yang Qi’s existence had completely upset Han Jinling’s tempo, causing him to suffer a series of wounds. If they managed to kill Han Jinling, Chu Mu would have to fight himself against both of the defector young woman’s subordinates!

“Little Hidden Dragon, let’s go!”

Promptly, Chu Mu urged the Little Hidden Dragon to emerge from the illusory world under the water!

The surface of the water merely rippled as the Little Hidden Dragon beat its wings. There was no splash of water as its enormous body emerged and floated on the surface of the water!

“It’s Chu Chen and his ghost dragon!!” when Chu Mu appeared on the surface of the water, Yang Qi discovered him.

Hao Ting was a bit surprised. Chu Mu had been continuously hiding there, but he hadn’t detected him at all!

“Perfect, we’ll get rid of them together. I’ll deal with Han Jinling, and you kill his soul pet. Don’t tell me you can’t even deal with a pseudo emperor rank soul pet!” coldly laughed Hao Ting.

“I’m more than enough. Last time was because I was careless!” Yang Qi quickly broke away from the fight with Han Jinlin and gathered his two leopard emperors to lock onto Chu Mu.

Yang Qi’s eyes stared closely at Chu Mu who was hovering above the spring. He angrily said: “This time you won’t be able to flee!”

“Don’t worry, I don’t plan on fleeing this time.” Chu Mu stood on the Little Hidden Dragon’s body as he calmly spoke.

After speaking, Chu Mu patted the Little Hidden Dragon’s dragon horn, indicating that it should enter its battle state!

If it was completely in the specter state, its attacks would be extremely limited. The Empyrean Cyan Hidden Dragon and Specter Dragon had to combine in order for it to reach its most powerful state!

The Little Hidden Dragon flapped its wings, its body slowly becoming solid and transforming into a Spectral Hidden Dragon draped with a spectral light quartz armor.

Instantly, the might of a dragon was released and a vigorous dragon’s cry rang out!

“Big Brother Han, it’s me, Xiao Shan!” Young Lady Shan hastily yelled towards Han Jinling!

Han Jinling had panicked and thought he was about to face another enemy. But when he heard Young Lady Shan’s voice, he immediately showed an expression of happiness.

“Han Jinling, can you deal with Hao Ting?” Chu Mu didn’t waste words.

“No problem. Chu Chen, Yang Qi isn’t easy to deal with. You must be careful. This fight is extremely important. Even if you stake your life, you mustn’t lose!” Han Jinling recognized that the soul pet trainer controlling the mysterious dragon species was Chu Chen.

Chu Mu nodded his head. He didn’t say anything more and calmly faced the four pseudo monarchs Yang Qi had summoned.

.....

Specters didn’t have solid bodies, but the Little Hidden Dragon’s fusion state did create a solid body!

Therefore, when Chu Mu had the Little Hidden Dragon transform from the spectral state, he didn’t realize that his figure as well as the Little Hidden Dragon’s appeared in the reflection on the spring!

In other words, Chu Mu and the Little Hidden Dragon had appeared in the eyes of Soul Palace’s spirit emperors!

Moreover, because he was flying above the spring, when the Little Hidden Dragon undid its spectral state, everyone was able to clearly see it!

Beside the lake, the spirit emperors that were originally angry and helpless were all now staring with their eyes wide open!

Several of the old spirit emperors rubbed their eyes, doubting that their eyes had gone bad!

“This... this... this is... this is...” Elder Xie Tao was speechless and couldn’t get his words out.

A strange dragon species had appeared on the water!

Moreover, from this angle, they were able to see the man riding the dragon species!

“Chu Chu Chu... Chu Chen!!” finally, Elder Ting strung together his words and blurted out this person’s name!!

“Chu Che... it’s the young man who was the first in the Battle of the Realm!!”

“Why would he be in Immortal City?!!”

A series of questions and cries of shock rang out! Moreover, there were a few stunned spirit emperors who raised their heads and looked at the sky, doubting whether the reflection came from Immortal City or whether it was because Soul Palace’s Chu Chen was flying above them.

However, when they saw Yang Qi and Chu Mu square off, they finally believed that Chu Chen was in Immortal City and was next to Demon Suppressing Monument!!

“I remember. Chu Chen and the Shan girl were inspectors on the day of the riot. They’ve been trapped in Immortal City...”

Suddenly, Old Li who had previously mentioned he wanted to chop up Yang Qi into thousands of pieces came to a realization.

This matter had been managed by Old Li, who was a supervisor of Immortal City. When the riot broke out, he had forgotten about this.

Liu Binglan was the first to recognize Chu Mu, but she was completely stunned!

She had been continuously worried about Chu Mu. She hated that she was unable to head alone first to the passage and revive Chu Mu who had died by suicide.

In these previous days, the moment she closed her eyes, Liu Binglan would immediately begin to think of terrifying things that could have happened to Chu Mu.

Thus, she never expected that Chu Mu wouldn’t suicide as she had told him to.

He wasn’t dead and was still living. He had survived uninjured for an entire 17 days in Immortal City!

Even more shocking was that he had appeared at the crucial spot, Demon Suppressing Monument!!

“Am I hallucinating?” Liu Binglan hadn’t truly rested in these 17 days. She felt that it was very likely she was hallucinating due to mental exhaustion.

However, even if she was hallucinating, were the spirit emperors around her also hallucinating?

Liu Binglan’s mind had been completely thrown into chaos!

“Why is Chu Chen able to survive in Immortal City that is full of prisoners for so long? Indeed, even us who have middle class and high class emperors may not be able to survive for so long!”

“It’s very likely because his dragon species soul pet is special. Let’s not worry about this for now. Can anyone tell me what this brat’s strength is like, and whether he can deal with Yang Qi?!”

The spirit emperors suddenly went quiet after these words.

Everyone knew that Chu Chen was too young. Although there was unconfirmed news that in the Heavenly Devil Insect fight, this first place in the Battle of the Realm person had low-key accomplished great merits. However, this time the opponent was a crafty assassin with five pseudo emperors!

.....

Immortal Ming Palace’s spring was windlessly rippling. This caused the reflections to slightly distort.

Right now, 50 spirit emperors from humanity’s strongest group were holding their breath and staring with rapt attention at the spring.

Their hearts were violently beating and their breathing was extremely quiet!

Chu Chen’s appearance had ignited a sliver of hope in their hearts.

However, everybody had no choice but to accept a reality: Chu Chen was too young. He couldn't be Yang Qi's opponent.

There was an imbalance between hope and reality that caused these experts to feel an unprecedented pain in their hearts!

"Chu Chen, he... he seems to only be able to summon one soul pet..." it was unknown who suddenly said this.

Immediately, everyone glared at this spirit emperor!

Will you die if you just kept quiet?

Could they not have seen that Chu Mu wasn't summoning another soul pet?

The atmosphere was so tense that their hearts were about to jump out of their chests, yet this person had still spoken the cruel truth. Wasn't this crushing the sliver of hope they were holding on to?

No one dared say anything else afterwards. These spirit emperors, feeling the immense pressure, stared at the spring.

The hearts of these fifty human experts had been completely affected by the young man riding the dragon species.

Nobody expected that the fight between Yang Qi and Chu Chen, these two figures that should have been insignificant among the spirit emperor camp, was a thousand times more important than the fight between the peak of humanity!!

Chapter 708: Another Instant Kill, Shocking Reversal!

In immortal city's map, a seal was marked with a crimson red.

This was a super seal within the top fifty that even tianxia city's experts balked in fear at the mention!

In the corresponding devil altar city area of immortal city, the centermost region of near ten kilometers of ruins, a beast headed spider body organism stood within it!!

If these old scholars that research immortal city for a long time saw this, they would definitely faint in fear from this sight!

That is because the organism standing there was the 37th seal put in two hundred years ago. It was the super demon known as the Calamity Spider Emperor!

This thing had a full five hundred years of life. Its owner died in the last century. It was rumored that the Calamity Spider Emperor was suppressed by the tianxia city experts only after its owner died!

The entire immortal city defending organisms and sealed organisms calmed down because this Calamity Spider Emperor had just escaped its seal!

When it got out of its seal, it immediately killed the high class emperor rank that previously was leading, absorbing this tragic high class emperor rank's innards as energy. This move instantly shocked all the sealed organisms into obedience, and caused it to truly become the head of immortal city!!

Calamity Spider Emperor didn't have eyes. Its thin and pointy fur could sense everything nearby, from the vibrations in the ground, to the changes in air flow, to the spatial surges- it was the most sensitive soul pet in the world!!

To the Calamity Spider Emperor, its sensing organ was the fur all over its body. However, to a human, these hair follicles when hardened were like dark swords, densely packed onto a mountain like body.

From this, one could imagine just how terrifying this Calamity Spider Emperor's body was!!

“Sisisisi~~~~~”

The Calamity Spider Emperor suddenly let out a noise. Even its normal calls could scare away tens of thousands of sealed organisms.

The Calamity Spider Emperor moved!

Immediately, the nearby surrendered sealed organisms hurriedly split up, creating a shocking scene!

“Hou~~”

“Ao~~~~~”

The emperors that didn’t dare move usually all followed when the Calamity Spider Emperor dominantly moved towards a certain city area. With their intelligence, they would guess that some sealed region had some in-fights again.

The Calamity Spider Emperor already used its mental voice to warn all the sealed organisms and defending organisms not to have infights. How did some foolish creature challenge this true boss’s claim? The emperors that were suppressed all followed behind the Calamity Spider Emperor with a look of anticipation of seeing the foolish creature getting destroyed.

.....

Suppressing Demon Monument

“You know what the consequences of troubling me are?!” Yang Qi said angrily.

Chu Mu calmly glanced over and didn’t even respond.

Yang Qi was even angrier.

Yang Qi had four pseudo emperors this time. To prevent Chu Mu from escaping again, Yang Qi didn’t hesitate anymore, summoning all four pseudo emperor ranks.

Of the four emperor ranks, the Thunder Panther Emperor and Rock Panther Emperor were the strongest, both having secondary types. The other two were normal emperor ranks!

With these four emperor ranks, he was the lowest level within tianxia city spirit emperors.

However, in the spirit emperors with very fragile hearts, they were incredibly savage.

Everyone was worried for Chu Mu, yet Chu Mu didn't realize he was already exposed in front of their eyes and didn't understand the importance of this battle, so he remained very calm.....

His gaze looked first at the Thunder Panther Emperor. The Thunder Panther Emperor was the fastest and had the strongest attacks. If it were for Chu Mu to decide, he would let it attack first and the rest to follow up.

This time, Yang Qi learned from experience and no longer dared to launch an all out attack on Chu Mu's little hidden dragon and instead first surrounded Chu Mu and little hidden dragon.

Indeed, the first to attack was Yang Qi's Thunder Panther Emperor!

This panther emperor's body became a violent purple lightning that locked onto little hidden dragon's neck,

This time, Yang Qi clearly was wary of little hidden dragon's ghost type techniques. The panther emperor only ran at half speed. Just when it neared little hidden dragon, the lightning panther emperor's claws both held thunder as it slashed forward!

The lightning crisscrossed, sending electric through the space like pythons!

The powerful lightning hit was strong enough to burn the air itself. The radiant glow caused the spirit emperors watching to only see a large splash of lightning appear.

After the thunder panther emperor attacked, the other three emperor rank soul pets also attacked the little hidden dragon's location, causing the space above ground to be thrown into chaos!!

Four techniques fell down, causing all the spirit emperors' hearts to pop out. With four pseudo emperor rank attacks at the same time, the only pseudo emperor rank dragon type will be at least heavily wounded, if not dead!

Liu Binglan saw this little hidden dragon of Chu Mu before. She was sure that this little hidden dragon was only pseudo emperor rank. When she saw the techniques combine and slam into Chu Mu and the little hidden dragon, her heart felt like it was stabbed countless times, in torturous pain!

Her fists tightened, and her body couldn't stop shaking. She wanted to close her eyes, but didn't dare to!

.....

The four techniques combined could blow through a rock type emperor's defense!

In such a situation, Chu Mu, of course, wouldn't be arrogant enough to try to fend it off head-on. Instead, he commanded the nimble little hidden dragon to dodge it using its ghost type advantage!

Ghost types have very unpredictable dodging patterns. When the watching spirit emperors saw the techniques' glow fade, and didn't see Chu Mu or the little hidden dragon, their hearts were broken!

"It.....it didn't even leave a corpse....."

"It wasn't a match.....wait, what is that?"

Before the spirit emperors could lament, they suddenly noticed that on the other side of the pool, a dragon figure appeared.

On the dragon, Chu Mu and Lady Shan sat completely unharmed on it!

"This....." The old spirit emperors all let out a big breath but were also surprised. Even they couldn't tell how Chu Mu's dragon dodged the four emperor ranks' techniques!

"Good thing he's fine, thank the heavens!" A few spirit emperors were already shouting

In the reflection, Chu Mu's expression was easily seen by everyone. It could only be described with a single word: calm!

This calmness created a stark contrast with the spirit emperors' faces, whose hearts were threatening to pop out of their throats.

Of course, Chu Mu was calm. When he was playing hide and seek with He Ting and Yang Qi, he killed countless enemies, and had raised little hidden dragon's strength to low class emperor rank already. Adding on little hidden dragon's strange ghost type and hidden dragon's domination species abilities, there really wasn't a need to take Yang Qi's four pseudo emperor ranks seriously!

"Kill that Black Crystal Ice Fairy!" Chu Mu's eyes locked onto Yang Qi's elemental emperor and coldly gave the command to kill the little hidden dragon!!

"Aohou!!!!!!!!!!!!!!"

Little hidden dragon let out a roar, shaking the world!!

With a huge flap of its wings, the little hidden dragon swiftly approached Yang Qi's emperor rank Black Crystal Ice Fairy before his other emperors could react, much more than two times faster than the thunder panther emperor!

"Empyrean Dragon Slaughtering Shadow!"

The little hidden dragon flew over. Its body and massive wings were wrapped in a thick green glow, morphing it into a majestic Empyrean Dragon Shadow that missed towards the fragile Black Crystal Ice Fairy Emperor. The dominating power and wild aura caused the nearby ground to all shatter!

Facing such an attack, Yang Qi was blindsided!!

He had no idea how Chu Mu's little hidden dragon finished the switching in space. More unbelievable was, the dragon species that was just pseudo emperor rank before suddenly exploded with low class emperor power!!!

This Empyrean Dragon Slaughtering Shadow was unblockable, falling down from the skies and shockingly swiping over the Black Crystal ice Fairy's body!!

"Beng!!!!!!!!!!!!!!"

The next moment, the Black Crystal Ice Fairy Emperor's body was shattered by the Empyrean Dragon Shadow!!!

The emperor became countless shards, sending its corpse everywhere!!!

Yet, behind this ice type emperor, a huge ravine continued to spread for a few kilometers, shocking everyone!

Instant kill!!

Black Crystal Ice Fairy Emperor was instantly killed!!

A few seconds ago, yang Qi was still laughing in pleasure, yet now he went dumb!

Another instant kill!!

A dozen days ago, Yang Qi overly underestimated Chu Mu's strength and lost a pseudo emperor rank to him. Yang Qi accepted it as an unfortunate mishap.

Yet this time, he was well prepared and started with a group assault.

Again.... Why was his soul pet again instantly killed!!

"Heavens, your little hidden dragon is too powerful!!" Having been with Chu Mu for a few days, Lady Shan's tone was different now. She no longer only muttered "we're dead for sure, we can't beat them", instead saying that.

Lady Shan was used to Chu Mu's abnormal strength, yet the watching spirit emperors were all experiencing Chu Mu's fighting for the first time.....

Of the fifty something spirit emperors, no matter their status, age, power, when they saw with their own eyes Chu Mu's little hidden dragon instantly killing the black crystal ice fairy emperor, their faces were all frozen in shock!

“Low class emperor rank!! That dragon definitely just showcased low class emperor rank power, there’s no mistaking that!!”

After a few seconds, everyone erupted into a huge roar! They became beasts under the sudden joy that swept through them!

This was going from utter despair instantly to the realm of hope!!

Yet Liu Binglan, who underwent immense mental trauma when witnessing the previous scene, almost collapsed with joy.

However, Liu Binglan still managed to remain standing.....

But, hot tears welled out of this resolute noble woman who held the fate of humanity in her hands.

Chapter 709: Kill to One Heart’s Content!!

.....

Yang Qi’s soul pets were all part of Chu Mu’s ghost dragon’s delectable feast!

Chu Mu didn’t know how many pseudo emperor rank souls could bring ghost dragon from invincible monarch to pseudo emperor. However, Chu Mu could faintly tell that ghost dragon was nearing a breakthrough in strength. A few more pseudo emperor rank souls or low class emperor rank souls would be enough!

“Gather Soul!” Chu Mu said to little hidden dragon.

After getting rid of Black Crystal Ice Fairy Emperor, Chu Mu naturally wouldn’t let go of its pseudo emperor rank soul.

Black Crystal Ice Fairy’s dead soul immediately floated up from the countless corpse shards and was absorbed into little hidden dragon’s body, becoming little hidden dragon’s food!

“Next, find a chance to get rid of the demon!” Chu Mu’s gaze quickly locked onto Yang Qi’s demon.

The demon’s defense wasn’t that great. Without an advantage in speed or maneuverability, killing this demon was much easier than the two panther emperors.

Spirit emperors were, in the end, spirit emperors. Even though his heart was impacted greatly by the blow, facing such a formidable and confusing opponent, Yang Qi still maintained control on the verge of collapse, angrily controlling his other three soul pets to attack little hidden dragon!!

Though Yang Qi was driven mad, he quickly realized that Chu Mu’s hidden dragon could explode with low class emperor rank power.

“Lightning Claw!”

Finding an opportunity, Yang Qi commanded his thunder panther emperor to attack!

The thunder panther emperor was swift. It became a fork of thunder in mid-air. When its claws slashed past, it was like a sword!

Little hidden dragon’s wings flapped lightly, tilting to the side and easily avoiding the thunder panther emperor’s attack.

“There’s an opening!” Yang Qi was elated, and immediately commanded rock panther emperor to follow up on the little hidden dragon!

“Houhou!!!!!!!!!!!!!!”

Rock panther emperor stomped the ground heavily! The ground in front of its forelimbs suddenly split open as a huge craggy rock slanted outwards, its point directed at little hidden dragon’s stomach!

Little hidden dragon’s body shifted unpredictably, and very neatly dodged the hundred meter high rock mountain that jutted out!

Seeing little hidden dragon's body shake, Yang Qi immediately laughed coldly. Ghost type soul pets were definitely fragile. One true hit, and Yang Qi had confidence he could kill the opponent!

"Attack it!" Yang Qi grasped the opportunity well, giving his demon a command to attack.

The demon emperor hid far away. Seeing the chance to attack, he neared and launched a mental attack!

A mental wave flashed past. This time, little hidden dragon couldn't block it, feeling a bit of its effect in its mind!

"Here's the opportunity! Let's see how you cast Ghost Fade now!" Yang Qi was happy after feeling restricted in the fight all this time.

The mental restriction removed the chance of Ghost Fade. Yang Qi was confident his soul pet could give this dragon a sturdy hit and heavily wound it!

Almost without Yang Qi needing to command it, Rock Panther Emperor had already readied his follow up attack!

The Rock Panther Emperor's claw hung onto the hundred meter jagged cliff that flew out of the ground. It followed this cliff up, and instantly jumped to the tip of the rock cliff!

It leaped forward and found the perfect opportunity to fight close up!

Its claws gathered up beast type energy, and at the same time summoned rolling rocks, adding a heavy shock effect to its attack, wanting to heavily wound little hidden dragon in one single move!

Little hidden dragon was too inexperienced. If it were Mo Xie, she would never leave such an opening for her opponent when she had such an advantage.

With its mind getting restricted, little hidden dragon couldn't dodge and could only use its wings to protect Chu Mu and Lady Shan and take this hit with its body!

“Bengbengbeng!!!!!!!!!!!!”

The sound of the mountains cracking blew through the air. The little hidden dragon was shot backwards by the force of the impact, flying like a comet down from the skies!

The air combat was something every spirit emperor around the spring could see clearly. When little hidden dragon was hit, their hearts pulsated violently.

All of these spirit emperors were very experienced and could tell that little hidden dragon wasn't truly low class emperor rank. It was solely because it had multiple types that it could cause low class emperor rank damage. Yet, if these types didn't have powerful defense, this attack would truly hurt little hidden dragon!

Yang Qi smiled wide! All of his anger was wiped clean! As long as he could take down Chu Mu, the rewards he could get would compensate for his loss of two pseudo emperor ranks!

“Hu!!!!!!!!!!”

Suddenly, just as little hidden dragon was about to fall into the pool sideways, the little hidden dragon that should have completely lost its balance suddenly opened up its majestic wings!!

“Zizi~~~~~”

Little hidden dragon's falling speed was incredibly fast, so when it opened its wings, the wind power it felt was incredible. One could clearly tell because little hidden dragon's powerful wings were creating flames through friction with the air, threatening to catch on fire!

Yet, dragon species were dragon species. Their bodies were amongst the most powerful of all soul pets!!

Little hidden dragon completely stopped, relieving all of the force with its wings and powerful body!

“Huhuhu~~~~~”

Little hidden dragon's spring water was rippling from the wake!

With such a shocking fall, normally one would have to collide with the ground to completely stop it. Yet, little hidden dragon simply opened its wings up, and forcefully stopped itself above the water!

On the other end of the spring, when fifty some spirit emperors saw this scene, they all opened their eyes wide. They knew exactly how powerful and perfect of a body the dragon had to have to accomplish this feat!!

Little hidden dragon was nearly against the water. At this moment, everyone could see the firm and powerful dragon body of little hidden dragon!

Initially, no one could tell what subspecies of dragon it was. Now, even close up, they still couldn't judge.

This perfect beast type body was this dragon species's source of power!

It was covered in cold scales, each piece a masterpiece. This was the manifestation of bug type armor's impenetrable armor!!

Yet, with a special blue glow, the ghost aura caused this majestic dragon to be enveloped in mystery.

“Dida~~~Dida~~~~~”

Crimson dragon blood dripped down from little hidden dragon's wound, falling into all of the spirit emperors' eyes.

Yet, when they looked closely, all of the spirit emperors could tell that this drop of blood didn't have any impact on the organism.

In fact, shockingly, everyone noticed that this dragon's wound was self healing!!!

“That powerful of a hit, yet it only left a light wound. This dragon's defense was unbeatable!!” A wave of excitement went through the spirit emperors.

“I can swear by my life that within thirty seconds that wound will close up completely. This dragon also has very very rare and immense self regeneration abilities!” Nightmare Palace Elder Ye Tao could no longer remain silent!

“Insane offense, ridiculous defense, incredibly fast, and surprising self-healing, how is it possible there’s a species this powerful innately in this world!”

“This dragon doesn’t even seem to be pseudo emperor but is already displaying such power. If it is strengthened to higher ranks, its power truly will be unthinkable!!”

“Speaking of which, why do I feel as if this dragon is only ninth phase.” as everyone was exclaiming, an old spirit emperor that often studied dragon species soul pets suddenly mentioned.

This voice was muttering to himself, but was also like announcing it to everyone. It caused everyone to go silent.

“Ninth phase? This is a dragon that hasn’t reached complete stage yet?”

“Look at its dragon horn closely, it seems mature, but compared to a tenth phase dragon, it indeed is still a little off. It really is a ninth phase dragon!” Finally, old spirit emperor found conclusive evidence and yelled out.

“My god, its this incredible at ninth phase, if its tenth phase.....”

“I heard Souil Palace Chu Chen was extremely overpowered, but how did I know it was to this degree?”

“But, its good that he’s this powerful, that bastard Yang Qi can just wait to die now!!”

“Hahaha, Yang Qi is dead for sure!!”

This dragon wasn’t emperor rank, but its strength wasn’t any lower than low class emperor!

Since it was low class emperor strength, how could Yang Qi’s pseudo emperor ranks stand a chance?

Indeed, the hurt dragon was enraged!

Little hidden dragon demonstrated terrifying speed. After the two panther emperors' attacks didn't cause much harm, he locked onto the demon!

In power, speed, and technique, little hidden dragon's attack was near perfect!

“Beng!!!!!!!”

Blood and flesh flew everywhere!!

The demon couldn't possibly block one of little hidden dragon's hits, as it instantly turned to mush under one blow!!

Watching the ugly demon's blood scatter, and seeing the despicable Yang Qi again dumbfounded, all the spirit emperors felt unprecedentedly delighted!!

“Good kill!! Good kill!!!!!!”

“Yang Qi is truly a scum and deserves to be killed like this!”

The spirit emperors' emotions had gone up and down countless times in the short period. They have never felt this pressured watching a battle in their lives. Seeing Chu Mu very convincingly kill Yang Qi's soul pet, they all felt unbelievably great, wiping away all pressure they had on their minds and transforming it into a blood-boiling passion!!

“Her majesty, to have such a son, the entirety of Tianxia City is proud for you!” As elder Ye Tao of Nightmare Palace, even he couldn't help but speak to Liu Binglan.

Originally, Liu Binglan could still control her emotions near the brim. However, with elder Ye Tao's “everyone is proud for you”, she could no longer keep her feelings back!

Initially, for the honor of soul palace, the title of noblewoman she had to carry as she grew up, she even tried to forget this son of hers.....

However, she never would have thought that this child who shouldn't have been born was playing such an important role in this crisis!

Liu Binglan indeed felt proud like never before, but also felt immense guilt and remorse!!

“Her majesty.....” Elder Ye Tao looked at this supreme level woman. Watching her beautiful face quickly fill with tears, he didn't know what he said wrong.

Elder Ting, Elder Hai Qiu, and the other old spirit emperors all paused. They never would have even thought that the unique cold beauty would be sobbing this hard like she was currently.

Before, Liu Binglan's tears could be hidden with a wipe of her sleeves.

However, this time, thinking to all that Chu Mu had to face himself, had to go through, and remembering her treatment of him, her tears could no longer be stopped.

All the spirit emperors stared stunned, as the tears of this mysterious and authoritative noblewoman fell drop by drop into the spring.....

Chapter 710: Strength Once More Explodes, Emperor Spectral Dragon!

Immortal City

“Ao hou!!!!!!!!!!”

The Little Hidden Dragon was angry! Its roar was much more intimidating than the previous dragon roar. This was a roar incited by its Empyrean Cyan Hidden Dragon bloodline!!

Although the small wound was already healed by the time it angrily attacked the demon, in the eyes of this proud emperor dragon, how could it suffer the humiliation of being wounded by a pseudo emperor?!

The Cyan Hidden Dragon's roar caused the two leopard emperors to reveal frightened expressions. Their purple and brown eyes stared with fear at the terrifying Little Hidden Dragon. They clearly had opportunities to attack, but didn't dare try!

The two leopard emperors didn't dare attack, but the Little Hidden Dragon still had to use their lives as a sacrifice for the drops of dragon blood it had lost!

Suddenly, the Little Hidden Dragon raised its head!

A powerful and scorching hot cyan energy condensed in the depths of its throat. This was its orthodox Empyrean Cyan Hidden Dragon strength. With the addition of the specter attribute, the cyan energy also contained a hazy spectral light that made it a light blue color!

The dragon light eventually transformed into an indigo color that boiled in its throat!

“Ao ao~~~~~”

The Little Hidden Dragon outlandishly moved to an optimal position and spat out the dragon light!

A shocking energy swept up waves of air that smashed towards the leopard emperors on the ground!!

The rock leopard emperor was already frantically running away, but the dragon light had locked onto it. Running was of no use!

“Beng!!!”

“Beng!!!!!!!!!!”

Two loud sounds!

The first sound was the dragon light piercing through the rock leopard emperor's defensive rock mountain!

The second was it striking the rock leopard emperor's thick body!

Since it had a secondary rock attribute, this meant that the rock leopard's defense was strong amongst pseudo emperors. However, this defense was of no obstruction to such a powerful dragon light!!

“Hong!!!!!!!!!!!!!!”

The rock skin on the rock leopard emperor's body crumbled, as its body exploded when the dragon light exploded along with it!!

Yang Qi originally thought his rock leopard emperor would be able to stop the opponent's attacks. However, he watched helplessly as the rock leopard emperor he was so proud of was blown up. Not even its bones remained!

“Gather Souls!” Chu Mu coldly said to the Little Hidden Dragon!

An opponent's corpse was the basis of the Little Hidden Dragon's strength!

The Little Hidden Dragon wouldn't let an enemy that wounded it get away. It flew up into the air and absorbed the rock leopard emperor's dispersed soul into its body!

However, the death of a single rock leopard emperor was not enough to pacify the Little Hidden Dragon's anger!

“Kill them all!” Chu Mu nodded his head at the Little Hidden Dragon, indicating that it didn't need to stop!

There only remained one terrified thunder leopard emperor, whose knees were weak. Did the Little Hidden Dragon need to stop?

Quickly, the Little Hidden Dragon's savage eyes locked onto the thunder leopard emperor. It flapped its wings and ignored the oncoming lightning claw strike. Instead, it flew straight at the thunder leopard emperor with killing intent!

The thunder leopard emperor's attack could leave a small wound on the Little Hidden Dragon's body. But what did that matter? Empyrean Cyan Hidden Dragon never had plans of suffering light wounds.

When facing enemies at this level, in a one against one situation, killing it was the easiest thing to do!!

The thunder leopard emperor had transformed into a masterless dog against a colossus. When the Little Hidden Dragon appeared in front of it, the Little Hidden Dragon swiped its wings and knocked the leopard emperor several hundred meters into the air!

The leopard emperor reached the highest point, but the strangely figured Little Hidden Dragon had already flown above it!

The Little Hidden Dragon opened its dragon mouth and spat out a second dragon light at its head!

The dragon light smashed into its skull, causing it to rocket several hundred meters down and through the surface of the ground!

“Hong long long long~~~~~”

An enormous hole appeared in the sturdy ground.

Underneath the hole was a layer of rock that had disintegrated into dust. Even dregs of the thunder leopard emperor's body couldn't be found!

“Dead... they're all dead!!” the hole was next to Yang Qi. Yang Qi's legs were trembling, and he could no longer stand properly.

With five souls wounded, Yang Qi was essentially reduced to a mere human container - trash!

“Hu hu hu hu~~~~~”

An enormous shadow suddenly appeared above Yang Qi's head!!

Yang Qi didn't dare move because he knew that the terrifying dragon was above his head!

"I'll also take your soul!" Chu Mu's cold death god-like voice languidly rang out.

The Little Hidden Dragon's claw swiped Yang Qi's skinny body, turning him into meat paste!

Yang Qi's death caused blood to fly everywhere. The scene was extremely bloody and violent!!

However, the more miserable Yang Qi's death was, the more everyone else was happy. The spirit emperors watching the reflection all cracked happy smiles and laughs!! They were all thinking: Yang Qi a traitor of Tianxia City? Him as a henchman of the mastermind? It's too good that he died!! Chu Chen killing him so bloodily corresponded with what everyone was thinking!

Of course, no one would forget that there was another person who should die there.

But since Yang Qi had been killed by Chu Mu, Chu Mu would only have to give Han Jingling a bit of help, and wouldn't Hao Ting be reduced to a drowning criminal?

.....

"Trash... you trash!!"

Hao Ting who was currently in a huge battle with Han Jinling was so angry his lungs were going to erupt! He wanted Yang Qi to get rid of a 20 year old brat. Even if he couldn't capture him, that didn't really matter. But his four main pets ended up being killed in such a short period of time before he himself joined that list!

Hao Ting had seen useless teammates before, but he had never seen a teammate so useless that he was worse than a pig!

5 pseudo emperors could barely keep up in a fight with a low class emperor, as long as they weren't killed one at a time. Yang Qi happened to have four emperors and two of them had secondary attributes. Even if the opponent had a low class emperor, it should have been no problem for him to last for a period of time.

Hao Ting originally planned on obtaining the advantage in his own fight before having his low class emperor help that pig. But ultimately that pig dared to die so fast at the hands of the enemy!

The death of this trash was whatever. Hao Ting wasn't lamenting over his death. However, crucially, his death also dragged Hao Ting along with him!

“Hahahaha!! Bastard, fight with your grandfather for another 500 rounds!!” Han Jinling let out a delighted laugh and began to unrestrainedly curse!

The pent up sullenness of Han Jinling was finally released. It didn't need to be said that having Chu Chen as a teammate was too awesome!

The change in Han Jinling's emotions was the opposite of Hao Ting. The death of Yang Qi meant that Hao Ting's fight was going to collapse.

Han Jinling originally hoped that Chu Mu would be able to last against Yang Qi for at least a period of time...

But Chu Mu killing Yang Qi surpassed his expectations, beautifully changing the tide of the fight!!

How could this not make Han Jinling, who was shouldering a heavy burden, delighted? If Han Jinling was a woman, he would have instantly fallen in love with Chu Mu!

“Hao Ting, you're dead!! Go wild!! I'll make you into someone else's dog!!” Han Jinling's confidence skyrocketed. His control over his soul pets became more easy and his attacks became fierce from their originally passive nature, forcing Hao Ting back.

“Hmph, you want to kill me? Just the two of you?” Hao Tin coldly harrumphed, disdainfully.

As he spoke, Hao Ting jumped onto his low class emperor rank demon and his other three soul pets quickly formed a protective formation.

Each of Hao Ting and Han Jinling had lost a pseudo emperor in their fight. Right now Hao Ting was planning on swallowing his anger and fleeing!

Han Jinling never expected that Hao Ting would have already prepared to flee. He had just now intentionally started fighting more passively in order to flee. Thus Han Jinling let out an angry roar when he saw the demon about to flee!

Even if it wasn't because of Hao Ting's evil nature, it would be for the death of his soul pet. Han Jinling couldn't let Hao Ting go!

The fifty spirit emperors next to the spring had the same thoughts as Han Jinling. They were itching to charge themselves into Immortal City to slaughter Hao Ting and Yang Qi, these two bastards.

Now that the situation was under control, they couldn't bear to watch Hao Ting flee!

But Han Jinling was still too slow. His soul pets all launched attacks, but the bastard Hao Ting just coldly sacrificed his beast type pseudo emperor and didn't hesitate to flee!

When both parties had equal strength, if one part wanted to flee, it would be hard to make him stay. All the spirit emperors recognized this.

"Hmph, when I report this to leader, the two of you will die!" Hao Ting sinisterly turned around and venomously spoke.

"Oh? There are others of you here? Let's sit down and have a chat." suddenly, a spectral voice drifted into Hao Ting's ears.

Hao Ting's body went cold. When he turned around, he abruptly discovered that Chu Mu's dragon had at some point arrived in front of him! Clearly, Chu Mu was aware of his intentions to flee.

"You're courting death! Do you think I'm Hao Ting, that piece of trash?!!" Hao Ting was abruptly angry. When he saw Chu Mu and his dragon species block his path, he immediately ordered his low class emperors to attack the Little Hidden Dragon.

The majesty between low class and pseudo emperors was completely different. When Han Jinling saw Chu Mu recklessly block Hao Ting, his face went pale and he hastily cried out: "Chu Chen, let him go. Don't injure yourself. You can't stop him!"

“Too late! Before I leave, I need to collect a little consideration!!” sinisterly said Hao Ting while he mocked Chu Mu’s overestimation of his own abilities!

“Attack him!” Hao Ting ordered his two low class emperors.

There were two emperors, one in front and one behind. They both charged at Chu Mu’s Little Hidden Dragon that was in front of Hao Ting!

However, unexpectedly, in front of two low class emperors, Chu Mu didn’t retreat. Instead, he gave the Little Hidden Dragon an order!

“Thousand Spectral Strikes!!”

“Ao hou hou hou~~~~~”

The Little Hidden Dragon was fearless. It gave a savage roar and a thousand battle souls abruptly emerged from its scales. These battle souls could not be seen by others, but they caused space to warp and pulse!

Suddenly, the thousand souls transformed into the Little Hidden Dragon’s claw energy as it transformed into a savage attack a thousand whistling dragon spectral strikes!!

Direct confrontation!!

The Little Hidden Dragon was going to fight the two low class emperors head on!!

When everyone saw this scene, they sucked in a breath of air. Although everyone wanted to prevent Hao Ting from fleeing, they didn’t want to see Chu Mu injured!

Everyone was extremely apprehensive, but Chu Mu himself was extremely calm and was extremely certain about this fight!!

If it wasn’t a few minutes ago, Chu Mu wouldn’t have recklessly gone to prevent Hao Ting from fleeing. After all, the opponent had two low class emperors.

However, after killing Yang Qi, Chu Mu didn't have anything to fear.

It was because in that moment, Chu Mu had happily discovered that the Spectral Dragon had been fed by the souls of the four pseudo emperors and Yang Qi. Unexpectedly, it had stepped into the emperor realm!!

The Spectral Dragon becoming an emperor meant that when combined, the Little Hidden Dragon had strength that was comparable to a low class emperor or even one or two levels higher!

With the eruption of the Little Hidden Dragon's strength, why would Chu Mu not fight?

In other words, Chu Mu wanted to accept the souls of Hao Ting's soul pets!
