

Soul Pets Bk2 711

Chapter 711: So This Fight Just Now Turned Out To Be So Important?

Thousand Spectral Strikes. The might of this attack was several times more powerful than Hundred Spectral Strikes!

The Thousand Spectral Strikes' dragons occupied a huge area of space, and magnificently swallowed up the low class beast type emperor at the front!!

Each dragon from the Thousand Spectral Strikes was full of majestic energy. The beast type emperor's attack seemed to meet an oncoming wave and was fully suppressed!!

Quickly, the beast type low class emperor was suppressed by the Thousand Spectral Strikes!

When Hao Ting, at the back, witnessed this tyrannical technique, the cold smile on his face froze!

“Ao hou hou hou hou~~~~~”

The thousand spectral dragons roared like a magnificent army. They crashed through the beast type, and charged at the low class demon emperor!!

Teeth and claws bared and a boundless majesty. The puny demon wasn't even able to dodge and it was swallowed up like the low class beast type emperor!!

As for Hao Ting's other pseudo monarch, it was knocked flying like a piece of grass when the technique arrived. It was powerless in the face of the technique!

“Long long long long long~~~~~”

There were countless gorges in the surface of the earth and streams of air skyrocketed up. Space was in completely chaos!

This tyrannical scene was all caught by Han Jinling. When he saw the thousand spectral dragons fly by him, his face was full of shock!

Such might was definitely not something a normal low class emperor could create!

What rank was Chu Chen's soul pet?! Why did he feel as if its strength suddenly erupted?! The destructive force even caused his heart to palpitate!!

“Weng weng weng!!”

The technique lasted for a while as the ringing in Han Jinling's ears didn't stop.

He took a glance at the entire Demon Suppressing Monument area. Aside from the spring, which had nothing more than a few ripples, the surrounding area was now unrecognizable from the destruction!

A few hundred meters away, Hao Ting's beast type emperor was lying in the ground, its body full of blood and painfully howling. When this beast type low class emperor fought Han Jinling's soul pet, it had already suffered heavy injuries.

This time, after the Thousand Spectral Strikes swept through, the beast type was filled with injuries. Even if it hadn't died, it had pretty much lost most of its fighting strength.

A hundred meters away from it, Hao Ting's hair was a mess, and his clothes were in shambles. Next to him was the demon with lower defense.

This demon was behind the beast type so it suffered lighter wounds. When it climbed to its feet, its movements were sluggish and its body was trembling. It seemed to have been concussed by the strike.

As for the remaining pseudo emperor, it was unclear where it was buried, but it probably wouldn't be able to climb up for a good while.

“Look after him. Don't let him get away!” Chu Mu immediately said to Han Jinling.

Han Jinling recovered from his shock, and hastily ordered his two low class emperors to rush towards Hao Ting.

Hao Ting's original plan to flee with full strength hadn't accounted for the terrifying technique of Chu Mu's dragon that even low class emperors struggled to defend against. Right now, his demon was so concussed it had lost its sense of direction; thus, how could it flee from the pincering of Han Jinling's two low class emperors!

"What... what on earth is this dragon?!!"

"Just now it clearly had the strength of a normal low class emperor. Why did its aura, majesty and strength all rise in such a short period of time!!"

"Is Chu Chen's dragon really only at the ninth phase?"

An uproar began!!

Everyone present wasn't a normal soul pet trainer. They were all the strongest members of the spirit emperor camp. But even they couldn't tell the reason why Chu Mu's soul pet had exploded in strength!

It was truly hard to believe that this twenty year old young man would have a dragon that could stun all the spirit emperors here!!

"Your Majesty, which dragon subspecies is this creature? I'm already very familiar with dragon species, but even now I can't think of a dragon species with such a powerful bloodline!" inquired the elderly Hai Qiu.

After she had shed her tears, Liu Binglan had returned to normal. However, she herself wasn't sure what dragon Chu Mu had raised. She had only heard the cawing Old Li often describe how powerful this dragon was, and how special it was before boasting that creating such a dragon was his doing.

.....

"Ao Hou Hou!!!!!!"

The Little Hidden Dragon let out a pant before giving a wild roar. It then beat its wings and landed heavily in front of the heavily wounded beast type low class emperor.

The physical strength of Empyrean Cyan Hidden Dragons was shockingly powerful. If it were other soul pets, after utilizing such a powerful attack, they would definitely have to rest for a bit first. Yet, the Little Hidden Dragon had just given a pant before being able to formidably fly over. High ranking bloodlines were indeed high ranking bloodlines; they were too superior!

With it being so heavily injured, how could the low class emperor escape death?

The Little Hidden Dragon bared its teeth, and bit the beast type low class emperor into two pieces!

Fresh blood spurted out. The low class emperor didn't have the strength to resist and its body was bitten through by the Little Hidden Dragon's dragon teeth!

In order to recover the energy it had expended through the continuous fights, the savage Little Hidden Dragon swallowed the low class emperor's inner crystal into its stomach!

After eating it, the Little Hidden Dragon extracted any advantage it could gain from the beast type's body, absorbing its dead soul into the dragon soul pearl and letting the Spectral Dragon eat its fill!

"After reaching the emperor rank, the Spectral Dragon seems to need even more powerful soul energy in order to increase in strength. Even low class emperor souls aren't notable anymore." after eating the low class emperor's dead soul, Chu Mu checked over the Spectral Dragon's ranking.

The Spectral Dragon was still a pseudo emperor and its strength didn't rise. It seemed that the Little Hidden Dragon's strength couldn't rise so easily. After reaching the pseudo monarch rank, a low class emperor rank's dead soul couldn't meet the Spectral Dragon's requirements.

The Little Hidden Dragon definitely would not be able to defeat a middle class emperor. He had to wait for it to reach the tenth phase, and he had to spend 250k spirits to consolidate its attributes before this was possible.

The dead souls of a low class emperor weren't very distinct, but Chu Mu knew that every little drop counted. He definitely could not let the low class demon emperor go; moreover, a spirit emperor's soul was equivalent to an emperor's soul which meant that Chu Mu wanted Hao Ting's soul too!

With Han Jinling's two low class emperors watching him, Hao Ting couldn't flee even if he wanted to!

Quickly, Han Jinling's demon was subdued!

Unfortunately, the demon's body and soul contained the energy from numerous other soul pet attacks. The Little Hidden Dragon's gathering soul pearl was unable to absorb these half-destroyed dead souls.

The Empyrean Cyan Hidden Dragon had the hidden Gather Souls species technique. This allowed it to imprint a special marking on its enemies' souls each time it attacked them. For however much life force the enemy lost, the marking would correspondingly occupy that amount of its soul. Only when the marking encompassed 70% or above of the soul was the Empyrean Cyan Hidden Dragon able to absorb the dead soul into its own body, transforming the soul into its own strength.

If the Empyrean Cyan Hidden Dragon could absorb every dead soul, Chu Mu would have been able to have his other emperors beat down a low class emperor before having the Little Hidden Dragon deliver the finishing blow and absorb the soul...

.....

"Kill me! Don't even think about finding anything out from me!" Hao Ting was stubborn. He was indifferent towards Han Jinlin trying to force a confession from him.

Chu Mu wasn't a nice guy though. He promptly used a White Nightmare technique to burn Hao Ting's soul, forcing him to tell them everything.

Unfortunately, Hao Ting had been injected with some mental serum by the defector young woman that made it so he couldn't tell them anything, even under the burning pain of the soul devil flames!

"Kill him. He's not going to say anything." he had even used the soul devil flames but this fellow still wasn't saying anything. There was no need to keep him alive.

Chu Mu did things properly this time and didn't allow Hao Ting's soul to go to waste. Instead, he gave it to the Spectral Dragon as a delightful snack.

Hao Ting's spirit emperor soul was like a low class emperor's dead soul. Unfortunately, the Spectral Dragon's rank still didn't rise.

Chu Mu wasn't hasty. After the Little Hidden Dragon reached the tenth phase, its strength would explode again.

"Big Brother Han, what are you doing here? Are you here to rescue us?" Young Lady Shan, who spent the entire time cheering and shouting, asked a question to Han Jinling.

"Uh... no. It's a long story." awkwardly said Han Jinling.

Promptly, Han Jinling gave an approximate account of the vital mission he had undertaken to Chu Mu and Young Lady Shan.

Immortal City's pillars, the seven great Demon Suppressing Monuments, the seven ancient saint beasts, the seven heroes...

After Chu Mu and Young Lady Shan learned about this, Chu Mu was greatly affected. He never expected that Soul Palace's ancient saint beasts would exist in Immortal City. Moreover, they were all eminent and powerful peak emperor ranks!

How would Young Lady Shan know about this either? She was shocked for a long while before finally saying: "So you're saying that this fight regards the survival of Tianxia City?!"

"Yes. I've come for the closest Demon Suppressing Monument to the entrance. Which is here. This is pivotal to whether I can awaken the first ancient saint beast!!" Han Jinling took in a deep breath before staring intently at Chu Mu. He was somewhat excited as he said, "Thank goodness this time for Chu Chen, otherwise our city would be faced with a crisis!"

Young Lady Shan hastily turned around and looked with a face full of shock at Chu Mu. She looked like she was in disbelief as she said: "You... you unexpectedly saved Tianxia City!"

In Young Lady Shan's eyes, the Chu Mu that had wantonly destroyed Immortal City was nearly grouped together with the conspirators of this plot. Yet, in the blink of an eye, he had suddenly become a world-renown hero!

“So the fight just now turned out to be so important?” Chu Mu was also shocked for a long while, before mustering these words.

Chu Mu had naively wanted to get rid of Yang Qi and Hao Ting because they had chased him for over ten days.

If he knew that this fight was about an ancient saint beast and it was pivotal to whether Immortal City’s chaos could be suppressed, Chu Mu wouldn’t have been so calm when fighting Yang Qi...

Chapter 712: The Coldness that Pierced Through Space, Blood Drenched Spring

“Speaking of which, do you know how to leave here?” Chu Mu asked. Though he was a hero now, he was still extremely down to earth!

“No clue. We seven came in with the intention of not living. The only path to survival is to awaken the ancient sacred pets, and cease all the chaos and wait until the departed world gates open back up.....” Han Jinglin shook his head.

“Then to leave here, we have to summon all the ancient sacred pets.” Chu Mu started muttering.

“Save Tianxia City, this.....this is too exciting!” hearing that Chu Mu was going to help summon all the ancient sacred peets, Lady Shan was immediately excited, her face glowing!

As a patrolling officer of immortal city, Lady Shan represented the “justice” of battle of the realm members, she had always dreamed of doing something that could cause a sensation in the realm.

This time, having been trapped in immortal city and gone through so much, now that she knew it was extremely important, for honor, she dared to risk it all!

“Shashasha~~~~” Little hidden dragon extended its head over, and glanced with detest at this woman who only knew how to hide on its back and scream. It was as if it was saying “why are YOU getting excited?”

Lady Shan actually understood little hidden dragon's glance. Putting her hands on her hips, she pouted angrily, "I know the seven Suppressing Demon Monument locations, and can definitely point out the shortest and safest route!"

Han Jinglin laughed and said, "I will have to follow noble woman's guidance and awaken Immortal Ming Bird first. Chu Chen, please guard me and try not to let other organisms nearby. This needs my full attention and may take awhile."

"Brother Han, don't worry and do your thing." Lady Shan quickly replied for Chu Mu.

Chu Mu only nodded. Whether he was doing it for himself, Liu Binglan, or all of Tianxia City, Chu Mu had to take this important mission, and naturally had to give it his all!

Of course, Chu Mu was far from as excited as Lady Shan.

Because Chu Mu knew that defector young woman's subordinates in immortal city were far more numerous than He Ting and Yang Qi. This immense mission wasn't that easy to complete.

Han Jinling started putting all his effort into waking up Immortal Ming Bird.

On the other end of the spring, they all saw Han Jinling start the incantation that noble woman taught and started to awaken the first sacred soul pet!

This process could take a while. None of the spirit emperors would completely relax here, all of them staring at Han Jinling reading the incantation while standing on the spring.

Lady Shan became very active, starting to drag Chu Mu over and drawing out a simple map of the other six suppressing demon monument locations. Acting like a female strategist, she said, "Next, we'll go here since it's the closest to us. There may be other lackeys of the mastermind, so we have to help the others summon their ancient sacred pets too."

"Weiwei, are you even listening? This is related to the fate of Tianxia City, it's an important mission to save the world, please be more serious will you?"

Lady Shan was incredibly frustrated because she said a whole lot while Chu Mu acted like she didn't exist. She also found that Chu Mu, who was ridiculously calm, didn't seem to have much passion for saving the world.

"Do you remember when that red cloud nearly touching the ground appeared?" Chu mu stared at an extremely bizarre demon cloud and asked.

"How would I know, who would care, are you even listening to me?" lady Shan said.

Chu Mu furrowed his brows.

He remembered that when he was fighting Yang Qi, though the sky was still dark and full of gloomy clouds, there definitely weren't strange demonic clouds covering nearly the entire sky like it was now!

"How much longer until immortal ming bird awakens?" Chu Mu had a very bad feeling about this.

This was an instinct, and a very accurate survival intuition that Chu Mu built up through many years of training outside.

"There still may be 15 minutes." Lady Shan looked at Han Jinling deep in focus and said.

Chu Mu's brows knit up further!

The demon cloud was nearing!!

Chu Mu could even smell an acrid scent come from afar, the scent of extreme danger!

"What is it that is making me so uneasy! Am I just overthinking it?" Chu Mu stared at the demon cloud getting thicker and thicker and asked himself.

It was all calm around him, without even the sounds of other sealed organisms and defending organisms.

In fact, since some time, there wasn't even a single roar nearby. The ten kilometer radius around suppressing demon monument had a frightening silence!!

"No sounds, yes, not a single call!!" Chu Mu stood up and yelled out!

Chu Mu wasn't loud at all, yet it spread through this incredibly empty region.....

"What are you doing, no sound means there isn't anything nearby. Isn't that better? Why are you so keyed up!" Lady Shan said.

"When some beasts lay down in ambush for its prey, the bugs and birds nearby all go silent. This is an invisible influence organism higher on the food pyramid place on lower positions. It was the same in the soul pet world, and based on soul pet rank, the influence reaches a very wide range!" Chu Mu suddenly remembered this information that his dad once told him.

"Not a single bit of noise, this isn't normal. Let's leave here immediately." Chu Mu stood up and pulled Lady Shan onto little hidden dragon's back.

"What are you doing? We still have to guard Brother Han, he's waking up the ancient sacred pet Immortal Ming Bird!" Lady Shan thought Chu Mu was crazy, becoming scared, just because of some abnormality in immortal city, not acting like a hero at all.

"Don't waste time! Tell Han Jinling to leave with us!" Chu Mu was very strict and an icy tone took over his words!

Chu Mu's manners caused Lady Shan to freeze and not dare to speak again.

Chu Mu immediately told little hidden dragon to fly in front of Han Jinling and told him to stop awakening the Immortal Ming Bird.

"Brother Chu Chen, I only need 15 more minutes!" Han Jinling just reached a point where he could take a break in the incantation and said directly to Chu Mu.

"I sense an extremely powerful organism coming towards here. 15 minutes is too long. If we stay here for that long, we may all die!" Chu Mu said very seriously.

Han Jinling looked at the nearing demon cloud, and specially told his soul pets to sense the surroundings.

However, Han Jinling didn't find anything.

“Brother Chu Chen, do you sense something?” Han Jinling asked.

Chu Mu shook his head. He didn't feel anything. It was completely an instinct and he was confident in the experience his dad Chu Tianmang had told him!

“Then do your soul pets feel anything?” Han Jinling asked again.

Chu Mu shook his head again. Little hidden dragon didn't sense anything amiss either.

“Chu Chen brother, you may be overthinking.” Han Jingling laughed, “And, even if there is a powerful organism, my soul pets all have the rotten aura, so it won't care much about us insignificant beings.”

“Hehe, this is a normal phenomenon. When I used to train, when I'm in an extremely dangerous situation and my life is threatened, my subconscious would always think there's something wrong with the surroundings, but in reality, it was all just in my mind.” Han Jinling understood what Chu Mu was feeling.

“I already dripped the heavenly dew into the spring and the incantation is almost complete!” Han Jinling said.

With what Han Jinling said, Chu Mu didn't know how to continue. After all, Chu Mu indeed didn't have convincing evidence that something powerful was nearing.

“I still trust my instincts. I will leave.” Chu Mu knew that he couldn't convince Han Jinling, who only wanted to become a hero and save Tianxia City, so he directly stated.

“How can you do that!” Lady Shan immediately shouted.

Han Jinling paused, and stared at Chu Mu.

After a moment, Han Jinling pulled out his spatial ring and gave a scroll to Chu mu and said, “This is the awakening incantation. I memorized it already. The incantation takes two hours and needs a little longer for me to finish. I can’t give up based off of your evidenceless instinct; after all, too much relies on this. No one can predict whether this retreat may forsake all our chances, since more degenerates like He Ting and Yang Qi may come. We can’t postpone it, and dare not.”

“However, your considerations aren’t without reason. For safety’s sake, take this scroll. If, and I say if, what you say really does happen, then the mission that I, Han Jinling, can’t complete will be yours.”

Han Jinling was a logical person. To be able to say this and give the incantation to Chu Mu now meant that he indeed wasn’t a person blinded by the honor of being a hero.

Chu Mu was logical too and didn't say much more. He put the scroll into his spatial ring and said, “Let’s hope I’m overthinking. Stay safe!”

Han Jinling nodded, and wasted no more time talking, starting to finish the last bit of the incantation.

Chu Mu jumped onto little hidden dragon’s back and specially glanced at the determined Han Jinling.

Lady Shan at this point started hesitating. She didn’t know whether she should stay with Han Jinling. In the end, she somehow decided to stay with Chu Mu and leave, for reasons even she didn’t know.

In the soul palace, through the reflection of the spring, the spirit emperors saw the scene where Chu Mu said farewell to Han Jinling.

They couldn’t hear anything, but the spirit emperor who knew how to lipread approximately relayed the information to everyone.

“Chu Chen is overthinking probably.”“Yeah, Han Jinling’s soul remembrance is higher than Chu Chen’s, yet he didn’t sense anything.” A few younger spirit emperors started discussing.

“But, being safe is a good thing.” Elder Ye Tao said.

Liu Binglan saw Chu Mu suddenly give up at such a crucial time to leave, and was also confused.

Yet, Liu Binglan didn’t mean to put blame on Chu Mu. She moreso hoped for Chu Mu to be safe.

.....

15 minutes felt like an incredibly long time for the spirit emperors. Many times the young spirit emperors couldn’t help but ask how long was left.

“Almost, there can’t be more than 5 minutes.” Liu Binglan said.

At this moment, Liu Binglan for some reason also had a bad feeling. The closer it was to the key moment, the more uneasy she felt. Maybe it had something to do with Chu Mu leaving!

In the calm reflection, Han Jinling still stood at the spring, his clothes and hair starting to hover and dance due to the energy of the incantation. Around him, countless ancient marks vaguely appeared, looking very mysterious!

The incantation was getting more and more powerful. Spirit emperors all realized that Han Jinling was about to awaken the top tier emperor rank Immortal Ming Bird!

“Weng~~~~~”

In the soul palace sacred spring, a slight inexplicable ripple passed through, creating wrinkles in the reflection.....

The ripples affect their vision, but no one minded it.

“En, strange, why did Han Jinling stop moving?” A sound broke through the silence.

When the ripple appeared, Han Jinling’s body suddenly went stiff!

This feeling felt like a photo freezing time.....

Everyone gazed at it, not daring to blink at the reflection.

Yet, the next instant, everyone saw a frightening scene!!

In the reflection, Han Jinling's stiff body started spraying blood out from the hips, blurring the reflection in the water!!

As this striking red diffused, everyone saw Han Jinling's body break in half from the hip, becoming two pieces that slowly fell down in the spring!!

Everyone saw it with their own eyes, and felt a cold shiver like never before come from within and spread through their entire bodies!!

It was a coldness that transcended space!!

All the spirit emperors were in shock, including the three supremes and Liu Binglan. They couldn't believe their eyes as they watched the spring slowly turn blood red.....

The spring had become completely red due to the blood, a horrible crimson!!

Han Jinling's upper body was in the blood water, his face planted and reflected in the center of soul palace's sacred spring, gazing into fifty something spirit emperors' eyes. They were split up by immense space, but seemed so close together.

They could even see the expression on Han Jinling's bloodied face, one of irrepressible excitement as he was about to summon the ancient sacred pet.

Yet, after becoming a corpse, this face was frozen in the blood water. In the blood, the face remaining excited and passionate gave all the spirit emperors a shiver!

Chapter 713: Saving the World is Fine, but I Can't Sacrifice Myself!

Han Jinling's blood seemed to dye the space red, reflecting a red sky in immortal city!

The spirit emperors' thoughts were all frozen by the frightening scene. They stared wide-eyed closely at the reflected world.

Liu Binglan sucked in a deep breath, her gaze staring unwaveringly at the rippling surface!

Other than noblewoman Liu Binglan, no one saw how Han Jinling died!

The water was rippling in the sacred spring. The power that killed Han Jinling pierced through space, causing sacred palace's reflection spring to have ripples as well!

Liu Binglan knew that only top tier emperor rank power could cause true spatial vibrations between two spatial realms!

"Heavens, that.....what is that!!!" A spirit emperor suddenly shouted!

This shout caused everyone's gazes onto the place the spirit emperor pointed at!

The red skies had unknowingly been covered in thick demon clouds. These demon clouds were very high up, not pressing against the ground.

In the limited reflection, the spirit emperors discovered that a huge spider leg stepped into the spring, slowly crossing over.

This organism was flat against the ground. People could only see the shocking leg!!

Stepping down, everyone felt the spring itself would shatter. At such close distances, the weaker spirit emperors' hearts were palpitating frenzily due to the coldness that transcended space.

They were apart by a whole space, but seeing a small corner of it gave low remembrance spirit emperors immense pressure!!

Just what rank did it have to be to have such shock!!

The organism seemed to have moved away already, but the aftermath of its presence still seemed to seep through the space, causing them to still be apprehensive.

“Go check what high rank spider rank organisms are sealed in immortal city.” Finally, Liu Binglan spoke. They could see that Liu Binglan’s face was pale.

“Yes.....yes!” The spirit emperor with surname Li replied and quickly turned around.

“Start looking in the first fifty!” Liu Binglan said in a low voice.

The old spirit emperor surnamed Li halted in his steps, turned around to stare at Liu Binglan for a few seconds before saying yes more seriously and running towards the sealed library.

The surrounding went silent. After a while, someone finally said in a low voice, “Noble woman, is.....is that truly a sealed organism in the top fifty?”

Liu Binglan nodded and didn’t speak further.

Han Jinling’s sacrifice, top fifty sealed organism.....

Just as the first sacred soul pet was about to awaken, everyone took this huge hit. The massive mental stress made everyone feel as if they suffered a huge defeat, causing everyone to feel depressed.

“Han Jinling has been sacrificed, but Chu Chen’s intuition was correct.....” Elder Hai Qiu muttered, his expression sad.

“The incantation scroll is with Chu Chen.....there’s still hope!” Elder Ting nodded.

Liu Binglan at this moment felt incredibly complicated. She didn’t think that the final responsibility would land on Chu Mu.

Liu Binglan had a sense of powerlessness. She could only watch. If Chu Mu didn't have a sharp instinct, then would he have become like Han Jinlin? Becoming two slices that dyed the spring red and face planting right in front of her?

Just the thought of that scene caused Liu Binglan to feel a heart-wrenching pain.

And even if Chu Mu managed to escape this fate, Liu Binglan couldn't remain calm because sealed organisms in the top fifty weren't that easy to avoid!

.....

Immortal City

“Brother Han.....”

Lady Shan laid on little hidden dragon's back and held her mouth, forcing herself not to cry out loud.

Chu Mu and Lady Shan didn't hide too far away. The area around the suppressing demon monument was very spacious, so the two watched as the massive beast headed spider bodied organism sliced Han Jinling in two!

Not only Han Jinling, but even his low class emperor rank soul pets were alson't spared!

Watching this giant organism lay by the suppressing demon monument, Chu Mu's heartbeat still hasn't recovered to its normal pace.

Instinct was such a baseless sense.

Yet, if Chu Mu had any wavering in his self-belief, he would have been killed by the immortal City giant like Han Jinling without even noticing!

Chu Mu could go half devil and maybe get some time for Han Jinling.

However, Chu Mu knew he couldn't go half devil in this immortal city full of sealed organisms.

Just like Liu Binglan, she had top tier emperor soul pets, but she didn't dare to step into the already chaotic immortal city. It wasn't because she cared for her life too much, but because the stronger one was, the harder it was to traverse immortal city. Entering meant certain death, a sacrifice with no meaning!

After all, no one could predict how many giants have already appeared in immortal city.

"Now.....now what do we do?" Lady Shan used her soul remembrance to ask tentatively.

Lady Shan was glad that she left with Chu Mu.

Chu Mu didn't reply and creased his brows. He noticed that the Calamity Spider Emperor was doing something.

The massive Calamity Spider Emperor laid there, and used its hair to touch the ground, seemingly looking for something!

"Young master, Calamity Spider Emperor probably smells a human scent but can't find its precise location yet." Old Li suddenly spoke at this time.

Chu Mu and Lady Shan both relied on little hidden dragon's rotten aura to hide their aura. After all, a human's aura in this immortal city full of dangerous beasts was like a piece of fragrant steak.

Yet, top tier emperor rank organisms' senses were incredibly sensitive. If they can smell a human's scent from inside little hidden dragon's rotten aura and find them, then Chu Mu and Lady Shan were dead for sure!

"It.....it seems.....it seems to be looking towards us.....it notices us!! Quick.....quick run!" Lady Shan's face turned sheer white!

The Calamity Spider Emperor's beast head had countless eyes, many of which were staring at Chu Mu's .

Under normal circumstances, for safety, Chu mu would definitely try to distance himself as much as possible from this giant organism.

Yet, this time, Chu mu didn't dare to move, and neither did he dare to tell little hidden dragon to move.

Because Old Li told Chu Mu before that Calamity Spider Emperor was an extremely famous cruel beast of the last century. All of its senses came from the dense furs on its body. They could feel the ripple of water drops hitting the ground from a thousand meters away, or the beating of wings of a fly from a thousand meters away. It could even feel the air flow of a human breathing within a thousand meters!

Just now, Lady Shan was scared to the point of crying, and Chu Mu forced her to hold her mouth. If she cried audibly, even three thousand meters away, the Calamity Spider Emperor could definitely sense it. Even, for safety's sake, their breathing had to be very light!

"Young master, the Calamity Spider Emperor has eyes but they aren't used to see. It can smell it but can't locate it. I think the reason its locked onto here is probably because of the remnant air flows of little hidden dragon's flying. Young master please do not panic. You have to stay calm. Also, make sure the airheaded chick doesn't do anything stupid." Old Li said.

"She won't be able to." Chu Mu glanced somewhat calmly. As he spoke, Chu Mu used his soul remembrance to cause Lady Shan to faint.

This woman was the best at screaming. The Calamity Spider Emperor was incredibly sensitive, and Chu Mu couldn't let this woman cause his demise.

So, Chu Mu very decisively made her faint when she was about to panic.

The fainted lady Shan had even and light breathing. If this woman breathed loudly, Chu Mu wouldn't mind choking her out completely. Though this woman looked okay and had a curvaceous body, Chu Mu could easily crush her still. He would save others, but under the condition that they don't harm him!

"Young master you have to awaken ancient sacred pet. If Calamity Spider Emperor is the only giant in Immortal city, Immortal Ming Bird's strength is enough to deal with it. Ancient Sacred Pets are the veterans of this city and have a lot of power in this city. The sealed emperors and guarding emperors won't easily fight ancient sacred pets."

“If the immortal city has more than just the Calamity Spider Emperor, then the Immortal Ming Bird is our scout.”

“Of course, young master needs to awaken not only Immortal Ming Bird, but all the other ancient soul pets as well if you want to leave safely. The ancient sacred pets need to fight all the giants and undermine all their power.

“Also, the immortal city giants are almost all top tier emperor rank. Young master would probably half to go half devil if you want to awaken the ancient sacred pets. However, young master can only do one battle in half devil state. Young master can go half devil but.....but you have to ensure that after you go half devil, the chaos will be suppressed and immortal city gates will open. Or else, after losing the effects of half devil, remaining in immortal city will be certain death.”

Chu Mu nodded. Chu Mu understood everything Old Li said. Immortal City’s chaos had to be stopped for the departed world gates to open. And the only way to suppress the chaos is to summon all seven ancient sacred pets, combine their energy to fight against the giants that cause all the organisms to have discipline.

Now, the sealed giants had the absolute advantage.

Half devil Chu Mu could barely count as an eighth ancient soul pet. However, the first to appear is the first to die! Let alone Chu Mu’s half devil wasn’t even permanent.

So, looking at the situation, summoning the other ancient sacred pets was a must, while Chu Mu had to act as anchor!

Chu Mu was very down to earth. He could save Tianxia City but he wouldn’t sacrifice himself!

As for testing the waters and “being the first bird to go out”, the ancient sacred pet Immortal Ming Bird was perfect, since it was a bird and had the species advantage.

Chapter 714: Heart Palpitating, the Calamity Spider Emperor’s Terrifying Perception

“It’s moving in this direction!” Chu Mu’s heart clenched.

The Calamity Spider Emperor's eyes were facing him. Although according to what Old Li had said, it wasn't able to see objects, it was clearly moving towards him!

The word slow described the speed at which the Calamity Spider Emperor took each step. Because it was an enormous creature, each step, however, was nearly a hundred times that of a human's step. The 3000 meters in between them wasn't so far!

"It's walking in the direction of the remaining air flow from the Little Hidden Dragon. Young master cannot make any rash moves right now." said Old Li.

Although Old Li had said it so easily, what they were currently facing was an ultra savage beast spider at the peak emperor rank that could cover a hundred meters with each step!

"Young master, have the Little Hidden Dragon spectrify. If you're willing to believe in my words, let's take a gamble." said Old Li.

"A gamble? You're treating my life as a joke!" said Chu Mu.

"Young master, the Calamity Spider Emperor was sealed last century. I happened to see that fellow back then. It possesses extremely acute senses, and it is virtually impossible for any creature to sneak attack it. However, this is also its fatal weakness in that there must be a fluctuation in order for it to sense a creature. If young master has the Little Hidden Dragon completely spectrify, and it moves very carefully, it won't have any influence on the streams of air and spatial fluctuations." said Old Li.

"But what about our scents. This fellow is able to smell our scents, and it is also able to determine my human scent from the Little Hidden Dragon's rotten aura." said Chu Mu.

"This..." Old Li wasn't able to answer.

Chu Mu was speechless. This old fellow wanted to take a gamble without thinking everything through. If he did as Old Li said, Chu Mu would be toast.

"Little Hidden Dragon, swallow us into your stomach." Chu Mu said to the Little Hidden Dragon.

The Little Hidden Dragon was confused and looked blankly at Chu Mu.

The Little Hidden Dragon was able to rationalize eating that woman because she was just a hindrance. But what about eating his master as well?

“That’s right. Young master, the Little Hidden Dragon has gastric acid in its stomach, and can cover the aura of a human. It will be safe if you hide there. Then, if you have the Little Hidden Dragon completely spectrify, your smell will no longer exist.” said Old Li.

After Old Li’s explanation, the Little Hidden Dragon understood. It first boorishly swallowed Young Lady Shan into its stomach before having Chu Mu slide into its digestive tract. It then widened the tract and left a bit of air inside.

The Little Hidden Dragon had most recently only eaten soul crystals so its stomach was rather clean. Of course, the putrid stench from its stomach was not easy to smell.

While the Little Hidden Dragon swallowed Chu Mu and Young Lady Shan, the Calamity Spider Emperor had moved 1500 meters. Now only a thousand meters away, the Little Hidden Dragon was extremely terrified as it sensed its fearsome claws and teeth!

The Little Hidden Dragon didn’t dare delay and slowly spectrified, its body becoming completely transparent.

After becoming transparent, Chu Mu was able to see through its body and see the enormous Calamity Spider Emperor.

The mere body of this peak emperor rank creature was enough to imbue fear into one’s bones. Moreover, this enormous creature was releasing a powerful aura!!

1000 meters to the Calamity Spider Emperor wasn’t very far. It seemed to have detected Chu Mu, Young Lady Shan, and the Little Hidden Dragon’s scent and suddenly sped up!

The Calamity Spider Emperor’s speed was shocking. The moment it sped up, its flesh palace-like body instantaneously appeared where Chu Mu and the Little Hidden Dragon were previously hidden!

“Si si si si~~~~~”

The Calamity Spider Emperor turned its enormous head, and let out a low growl!

This place had the scent of a human, but there was no prey here. The Calamity Spider Emperor's fur all over its body began to faintly bristle, feeling the ground and the air...

Although the Spectral Dragon wouldn't disturb the space and flow of air, the Little Hidden Dragon didn't dare make any large movement. Indeed, it didn't even dare beat its wings!!

It was under 300 meters away from the Calamity Spider Emperor!!

Through the Little Hidden Dragon's body, Chu Mu was able to see the fur all over the Calamity Spider Emperor's body wriggle!!

He never imagined he would be so close to this enormous creature!!

Right now, Chu Mu had even stopped breathing, and had used his hand to cover Young Lady Shan's nose and mouth.

The Little Hidden Dragon's stomach wasn't an absolute safe space. At such a close distance, the Calamity Spider Emperor could sense any minute fluctuations hidden in a spectral body!

The Little Hidden Dragon's movements were extremely slow as it began to move laterally. The pressure the peak emperor rank Calamity Spider Emperor gave the Little Hidden Dragon was powerful!

Suddenly, the Calamity Spider Emperor turned its head at them!!

Its head was full of teeth and red eyes. Right now, these eyes were all focused on the location the Little Hidden Dragon was at!!

In this instant, the Little Hidden Dragon froze and was unable to move an inch!

Inside its stomach, both Chu Mu and the fainted Young Lady Sha were like statues. Their breathing stopped. The only thing moving was Chu Mu's violently pulsating heart beat!!

The heart, the pulsating heart!!

The Calamity Spider Emperor had sensed Chu Mu's rapidly beating heart!!

If he could, Chu Mu right now wanted to use his other hand to cover his heart so that it wouldn't beat so fast!

The passed out Young Lady Shan's heart wasn't beating as fast, so it hadn't attracted the Calamity Spider Emperor's attention. However, the heart rate of Chu Mu, who was watching the Calamity Spider Emperor, was slowly growing faster, nearing the lowest limit at which the Calamity Spider Emperor was able to detect him!

In front of danger, Chu Mu would often take in a deep breath and calm down!

But right now he had even stopped breathing. One breath was equivalent to yelling at the Calamity Spider Emperor "We're right here!".

Moreover, Chu Mu didn't dare perspire right now, because the movement of sweat could attract the Calamity Spider Emperor. After all, even his beating heart had attracted its 'stare'!

The further away it was, the weaker the Calamity Spider Emperor's senses were. Chu Mu understood that his heart could fall within the boundary of its senses.

However, the more nervous he was, the faster his heart beat!

Once discovered, the Calamity Spider Emperor would move in this direction and its senses would be even more acute. When that came, unless Chu Mu died, even his normal heartbeat would be discovered by it!

When he couldn't breathe, it was very difficult to regulate his heartbeat. Chu Mu had frequently encountered life-threatening situations and in many of these occasions, life or death was determined by a breath, a movement or a technique.

But Chu Mu had never been more nervous than right now because right now his life or death was not determined by those things, but rather by a heartbeat!

His heart!

Chu Mu never expected the beating of his heart would become the crux between life or death and in this situation, it was speeding up as if he was going to explode!

Chu Mu had already closed his eyes. The more he looked at the Calamity Spider Emperor, the more he felt fear and anxiety.

He had to calm down or only death awaited!

In this world, was there any test of the heart harder or frightening than this?

Chu Mu had thought about knocking himself out like Young Lady Shan, but if he did that, who would stop his breathing?

One of Chu Mu's hands had covered Young Lady Shan's mouth and nose so that her face was pale and she looked like she was about to suffocate soon.

But it didn't matter if she suffocated. He had to slow down his heartbeat... he had to!

Calm, cool.

Calmer... cooler...

.....

“Si si si si si si si~~~~~”

The Calamity Spider Emperor's eyes were 'staring' at the Little Hidden Dragon. It seemed to have faintly sensed something, but this sense could have just been a misperception.

Time became slow. Perhaps the ordeal had only lasted a few seconds, but to Chu Mu it was incomparably slow!

Finally, it turned its head!

It was staring at a series of middle class emperor wing type soul pets that were rising into the sky!

The Calamity Spider Emperor's eyes utilized mental power to lock onto enemies. The enormous movement the wing type soul pets created when they flew up immediately caused its fur to stand on end. Thus, it immediately moved its eyes in another direction and placed its sensory abilities on the wing type emperors!

“Si si si si si~~~~~” the Calamity Spider Emperor took a step in the opposite direction of the Little Hidden Dragon!

The enormous storm-like aura had caused the Little Hidden Dragon to turn into a spectral statue. When the Calamity Spider Emperor took a step in the other direction, the pressure immediately disappeared, and the Little Hidden Dragon immediately lay itself on the ground.

Of course, when a specter stepped on the ground, it didn't cause any dust to rise. If it were another attributed creature, at such a close distance, the Calamity Spider Emperor would definitely have been able to detect it, easily.

The Calamity Spider Emperor took another step as it slowly moved towards the wing type emperors. 400 meters, 500 meters ... 1000 meters away.

“Hu~~~~~”

Inside the Spectral Dragon's stomach, Chu Mu took in a deep breath before exhaling!!

This was a full breath. Although he was stuck in the cramped stomach filled with a putrid stench, this was Chu Mu's most enjoyable breath ever!

"Peng peng peng peng peng~~~~~"

After Chu Mu completely relaxed the restrictions on his heart, it instantly sped up and grew more fierce!

This was due to ex post facto fear!

Chu Mu no longer cared if his heart was beating fast.

“Wu wu wu~~~~~”

The small Mo Xie inside Chu Mu’s soul pet space let out a series of indistinct murmurs. Clearly, she had also let out a cold sweat for Chu Mu.

Chu Mu’s other soul pets hadn’t dared to breathe either just now. Now that the danger was gone, they all took in deep breaths.

“Young master, if you don’t loosen your grip, this girl is really going to suffocate.” at this moment, Old Li gave Chu Mu a very timely reminder.

Chu Mu finally realized and hastily loosened his grip.

Young Lady Shan eyes were wide open. Veins could visibly be seen bulging in her eyes and her face was completely pale.

She had awakened because she hadn’t been breathing properly, and was about to be suffocated to death by Chu Mu. her glaring eyes were filled with the anger and fear of a person struggling at the gates of death!

It could be assumed that if this woman had died, as a ghost she wouldn’t let off the person who had strangled her to death, Chu Mu!

Chapter 715: Demon Suppressing Monument, Awakening the Saint Pet - Immortal Ming Bird (1)

“You may as well have choked me to death... *sniff*...” Young Lady Shan who had survived the predicament had a face full of tears.

She didn't care that Chu Mu nearly choked her to death because if she had breathed, she would have been killed by the Calamity Spider Emperor.

However, when the Little Hidden Dragon spat her out, she found that most of her clothes had been corroded by its stomach acid.

In other words, when she emerged, she was almost completely naked!

Chu Mu's clothes were of better quality so although some of his skin was showing, it wasn't as much.

Much of Young Lady Shan was revealed, and her white body still had a bit of dragon fluid on it. Chu Mu, who would inadvertently glimpse this scene, pretty much confirmed what Ye Wansheng had guessed back then that this woman was truly curvy and well-rounded.

Chu Mu would always have extra clothing in his spatial ring so after he crawled out of the Little Hidden Dragon's stomach, he walked over to the spring under the Demon Suppressing Monument and jumped in to wash off.

The spring had powerful purifying effects. The spring had been covered by fresh blood not long ago, but now it had returned to its original clear nature. Even Han Jinlin's corpse had disappeared.

After washing off the acid, Chu Mu changed into a clean pair of clothes behind the Little Hidden Dragon.

"Turn around." Young Lady was holding a big windbreaker from Chu Mu's spatial ring around herself.

She stood beside the spring as she went to look for Han Jinling's corpse. However, she didn't discover anything. The spring was as clear as usual.

"Why must I turn around?" Chu Mu was confused.

"I also need to wash off the acid, otherwise my skin will be corroded." angrily said Young Lady Shan.

“Ok. Hurry up. I’m going to practice the incantation a few times.” said Chu Mu. He sat down behind the Little Hidden Dragon and took out the scroll Han Jinling gave him. He began to practice the summoning incantation.

Young Lady Shan was wrapped in the windbreaker as she squatted besides the spring. She stretched her hand out to feel the water...

Obviously Chu Mu and Young Lady Shan didn’t realize that their every movement next to the spring was being watched by 50 spirit emperors!

.....

“Eh, these two kids...” Elder Hai Qiu let out a cough, his face full of embarrassment.

When Chu Mu had just jumped into the water and refreshingly washed his body, this was seen by the spirit emperors. However, he was still wearing clothing while doing so, and didn’t reveal everything while in the water.

The male spirit emperors had let out a laugh. They were clearly very happy to see that Chu Mu was safe and sound. The female spirit emperors had turned around with a red face. Only Xiang Yiyun, who had arrived not long ago, stared at the spring with fervent eyes.

It was unknown what this flower type female spirit emperor would ever feel ashamed about. She had very bluntly enjoyed Chu Mu’s manly body, and had worn a smile that a young lady wore when she was excited.

It was fine that Chu Mu was washing off. Everyone had guessed that Chu Mu had hidden inside the stomach of his dragon to escape from the savage creature.

However, when Young Lady Shan walked over to the spring, a group of younger spirit emperors’ eyes began to bulge as they looked at Young Lady Shan’s exposed white and slender legs.

It could be seen that this sexy woman was going to undo her clothes and wash off!

This woman was really about to step into the spring!

Just as the younger spirit emperors and a few old perverted spirit emperors swallowed their saliva, the scene in the reflection spring disappeared!

Liu Binglan coldly retracted her hand and apathetically said to everyone: “I forgot, Han Jinling’s corpse dissolved in this spring!”

The person who had dispersed the reflection was naturally Liu Binglan. This wasn’t a time to give the young spirit emperors who weren’t actually suffering from any hardships right now a chance to peek at Young Lady Shan.

Liu Binglan’s chiding caused the young spirit emperors whose imagination had begun to roam to think of Han Jinling who had died not long ago. Quickly, they lost interest in peeking.

“Chu Chen has returned. There’s hope of the Immortal Ming Bird reviving.” said Elder Ting. “Yes, he can chant in place of Han Jinling. He should be able to finish it in four minutes. I just hope the Calamity Spider Emperor is far away now.” Liu Binglan nodded her head.

The old spirit emperor who had gone to find information about enormous spider species creatures had found it was the Calamity Spider Emperor.

The Calamity Spider Emperor’s perception was exceptionally terrifying. When she had learned of this information, Liu Binglan wanted to faint because this monster was able to recognize human aura and rotten aura.

Liu Binglan had been on the edge of her seat until she saw Chu Mu appear full of gastric acid and wash himself. It was only then that she let out a sigh of relief.

Obviously, Chu Mu not only had a very powerful survival instinct but also had an agile brain.

.....

Young Lady Shan knew that it wasn’t a time to take a comfortable bath. She stripped off the windbreaker and washed her body and hair a few times before quickly walking out and wrapping the clothing around her.

Of course, if Young Lady Shan knew that this was a reflection spring and on the other side were 50 spirit emperors, she would have rather been strangled to death by Chu Mu in the Little Hidden Dragon's stomach or corroded to death by the acid. Otherwise, even if she managed to escape Immortal City, she wouldn't have the face to continue living!

While Young Lady Shan bathed, Chu Mu had roughly looked over the incantation.

When Chu Mu walked to the center of the spring and attempted to chant, he surprisingly discovered that the effect from Han Jinling's chant hadn't disappeared.

Chu Mu carefully compared the two, and found that only the last portion of the incantation wasn't complete.

"How's it going?" Young Lady Shan, whose hair was dripping wet, made her way over with a face of excitement.

"I'm only missing the last part." said Chu Mu.

"Then why aren't you chanting?!" said Young Lady Shan.

"Do you think that the incantation is a child's phrase?" apathetically replied Chu Mu. He waved his hand, indicating for her not to disturb him.

The incantation was very complicated, and required repetitive practice to be completely chanted. Moreover, because the incantation contained energy, the process would expend soul power. To soul pet trainers with weak mental strength, a high ranking incantation could cause them to pass out.

The amount of soul power expended by summoning incantations wasn't very much. The problem was that Chu Mu had never memorized this incantation before.

Soul pet trainers would always practice soul techniques for a long time and obviously, even more for a complicated and ancient summoning incantation.

Fortunately the incantation hadn't been cut off by Han Jinling's death, otherwise if he needed to rechant the incantation, Chu Mu would need 3 days and 3 nights to be able to recite a large portion of it.

"Young master, don't be hasty. While you chant, a powerful energy wave will definitely emerge from the Demonic Suppressing Monument. There's a 100% chance the Calamity Spider Emperor will rush over, so you must wait for it to get even further away before you chant again!" Old Li warned Chu Mu.

Chu Mu nodded his head. He needed to take things steady to achieve victory. In these circumstances, he couldn't be too hasty.

In the preceding period of time, Chu Mu attempted his best to familiarize himself with the last portion of the incantation.

The Little Hidden Dragon laid down beside the jade spring. While they were in Immortal City, it was the only soul pet that could fight for Chu Mu. It had been a period of time so it was evidently a little tired.

Young Lady Shan was not as in high spirits as before because of Han Jinling's death. Saving Tianxia City truly was an extremely glorious mission. But she recognized that if she wasn't calm and prudent enough, or lacked strength, she would just be throwing away her life.

Chu Mu was very patient. He spent about half a day before deciding to chant the incantation.

Before doing this, Chu Mu had the Little Hidden Dragon fly in a twenty kilometer radius around the Demon Suppressing Monument.

If the Calamity Spider Emperor wasn't hiding under the ground, it would be located outside the 20 kilometers.

Only with this info would Chu Mu be completely at ease when he chanted the incantation.

The spirit emperors on the other side of the jade spring had waited until they were both mentally and physically exhausted. But the younger spirit emperors were much calmer than the older veteran spirit emperors.

“Chu Chen is about to chant the incantation.”

This sentence caused all of the spirit emperors to focus.

They all knew that if a peak emperor rank exploded with all its strength, it would be extremely fast. As long as the Calamity Spider Emperor was outside the 20 kilometers, it would need at least 4 minutes to reach the Demon Suppressing Monument.

The death of Han Jinling made everyone raise their wariness and everyone understood why Chu Mu was being so careful and prudent.

.....

The jade spring was clear and clean. There was not the slightest impurity. The surface was like a mirror and reflected the dusky sky.

An uneasy wind blew through Immortal City. Emperor rank energy was ripe and abound. Although this energy was only able to leave ripples on this spring, the wind was able to cause larger waves as the water began to slowly undulate...

Chu Mu stepped on the water and stood where Han Jinling stood before.

He raised his head and stared at the sky opposite of the jade spring. Occasionally, he would see circular spatial holes in the dusky layers of cloud.

“The human eye cannot see the Demon Suppressing Monument...” Chu Mu let out a sigh.

Chu Mu had already memorized the incantation and he couldn’t waste time. The longer he waited, the more high ranking creatures would emerge. If he waited until Immortal City was completely in chaos, even summoning all the ancient saint beasts would be incapable of suppressing the situation.

Taking in a deep breath, Chu Mu began to concentrate his mind on chanting the incantation!

“Weng~~~~~”

Practically the instant Chu Mu let out the first syllable, the spring began to beautifully ripple. Chu Mu was at the heart of this ripple as it spread outwards!

At this moment, a special energy surged out from the center of the spring. This energy was like a stream of air but at the same time like a stream of water that slowly rose up.

For some unknown reason, the moment he chanted, Chu Mu felt that the space in front of him began to change. It was as if the spring's fully reflecting surface had been lifted and he could clearly see the bottom of the spring, which was another space!

A towering monument!

While he was chanting, Chu Mu abruptly discovered a tall silhouette that reached the heavens!

The silhouette slowly materialized as Chu Mu continued his incantation. Shockingly, the thing that materialized were ancient and venerable words!

It was a cluster of ancient words that were hard to decipher. They contained a mysterious magical power. When they were combined together, the energy gradually formed an astonishing building...

Suddenly, a mysterious thought arose, causing a sense of dread, reverence, repentance and submission to involuntarily arise...

It was as if one felt that even if he was stronger, he would still be insignificant in front of it!

Demon Suppressing Monument!!

An illusory demon monument formed by ancient words!!!

Chapter 715: Demon Suppressing Monument, Awakening the Saint Pet - Immortal Ming Bird (2)

Suppressing Demon Monument came to shape, towering and pointing straight into the clouds!

Before, Chu Mu looked up through the hole in the clouds, just to see the tip of the suppressing demon monument, causing the clouds to be unable to gather there.

Feeling the ancient energy awakening, the feeling of time that had settled and was stirred open along with the opening of the monument, Chu Mu felt a strange familiarity.

As if sometime, he also stood in front of a towering monument and welcomed the dusts of time.....

Chu Mu's incantation was speeding up. In this completely concentrated state, Chu Mu reading the incantation became an instinct. Even though the incantation was incredibly difficult to pronounce, Chu Mu could very easily complete it with this strange familiarity.

Lady Shan stared upwards. Her feeling was very different from Chu Mu. She felt a cowering that could cause her to fall to her knees.

The massive pressure and shock made Lady Shan realize that Suppressing Demon Monument's aura was something that she couldn't handle.

She no longer dared to gaze at it, and started backing off.

She forcefully took her gaze back because if she continued to watch the monument inscriptions full of magic, she won't be able to peel herself away and would continue to suffer the fear, cowering, and panic.

Finally, she escaped from the magic powers of suppressing demon monument. This time, she definitely wouldn't turn her head around. This was because the mental pressure was too terrifying for her. Looking at it without being spirit emperor was akin to destroying her mind.

Lady Shan forcefully moved away, and all the pressure disappeared.

Lady Shan let out a deep breath. Her gaze was looking far away to try to get rid of the aftermaths of the suppressing demon monument's pressure.....

"That's....." Suddenly, Lady Shan's eyes widened as they were quickly taken over by fear!!

Demon Cloud!!!!!!

The Calamity Spider Emperor's Demon Cloud!!!!!!

Lady Shan had no instincts, but she remembered clearly that when Chu Mu started the incantation, that region had no clouds.

Yet now, the orange red demon clouds were like rolling smokes lit afire. It seemed far away and non-threatening, but it quickly neared and was much faster than 1st time!!

“Bengbengbengbeng~~~~~”

The spring water uneasily shook at the same rate as the completely decimated ground!

Lady Shan's entire being froze. A massive being with a demon cloud was nearing at frightening rates!!

Its running was like an entire army approaching, or like a tsunami crashing into shore. Even dozens of kilometers away, Lady Shan felt as if she had nowhere to run.

“Chu.....Chu Chen..... It's..... It's back!!!!”

Finally. Lady Shan manage to utter a few shaky words!

Chu Mu didn't reply at all. He was completely absorbed into the monument as if his soul had left his body. His heart floated amongst the ancient words of the suppressing demon monument. This dreamy feeling was something Chu Mu was certain he experienced before.

Yet, why couldn't he remember at all?

The incantation had already become a mere muttering that Chu Mu continued, but his spirit remembrance had already floated deep into the thousand year old language of the monument.....

As for the arrival of Calamity Spider Emperor, Chu Mu had no clue, no matter how hard Lady Shan shouted and cried or how hard the ground shook.

“The calamity spider emperor reappeared!”

Through the reflection spring, spirit emperors saw lady shan screaming and also felt a heart-freezing spatial shake!

“It was still nearby!”

“This thing, once it locks onto a target, it wouldn’t give up even in a few years!” The old spirit emperor surnamed Li held the Calamity Spider Emperor’s information book and read out slightly panickingly.

“Please don’t read the incantation wrong, Chu Chen, please don’t!” Flower type emperor Xiang Yiyun was clasping her hands in prayer.

“The Calamity Spider Emperor is intentionally making such a scene to try to break Chu Chen’s mental state. As long as Chu Chen reads a single syllable wrong, it will add 4 minutes!” Feeling the top tier emperor rank energy come through space, the old spirit emperors were even more uneasy.

All of the spirit emperors started muttering out of nervousness, but they were all shouting the same thing in their hearts, “You have to finish, this is the last chance!”

If they can’t complete, Chu Mu and Lady Shan will die in the spring like Han Jinling and the entire Tianxia City will be one step closer to death!!

“He will complete it!” Liu Binglan gazed firmly at Chu Mu’s back image.

After speaking this, Liu Binglan bit her lips. She could feel that Chu Mu had entered the monument state, and wouldn’t be influenced by the outer world.

Liu Binglan was the only one able to enter this state. She didn’t know how Chu Mu got the recognition of the suppressing demon monument and could communicate directly with the Immortal Ming Bird through resonance. But the incantation at this point was just a formality!

Everyone gazed at the reflection, not daring to even blink.

Yet, at this time, the Suppressing Demon Monument's tip suddenly casted down a holy light screen!

This light shrouded the entire suppressing demon monument. The reflection in the spring became too dazzling. Other than shimmering, the spirit emperors could no longer see anything.

The sacred light screen brought Chu Mu in as well. At this moment, only Chu Mu could see the suppressing demon monument!

In the light screen, the entire suppressing demon monument started crumbling. All the ancient letters flew and revolved around the light screen!

The ancient incantation floated through the gleaming sacred light screen. This scene gave Chu Mu unprecedented shock. He had never thought that words could act like little sentient fairies. They wrapped around patternless, yet also going through seemingly fixed routes. Chu Mu felt like he fell amongst the stars!

The ancient texts started spinning faster and faster, slowly concentrating in the center of the light screen and drawing out a sacred bird's outline!

Chu Mu was captivated by the scene. The light screen became a canvas as the words flew around and brushed together into the outline of an ancient sacred pet.....

This was a scene only possible in dreams!!

The Immortal Ming Bird was truly a sacred pet, having to be drawn on a sacred light screen by ancient words!

After Immortal Ming Bird's silhouette appeared, its body was slowly filled in by the countless words.....

A proud and noble head, long swan-like neck, sacred and beautiful feathered wings, elegant and streamlined body!

This lifelike Immortal Ming Bird didn't have any cruel or violent feelings, instead like an immortal fairy that wasn't contaminated by the mortal world. Its exquisite feathers were clean like a woman's supple skin.

Chu Mu had seen all the soul palace seven diagram sacred pets before. He saw the Immortal Ming bird multiple times too. Yet, they were like skylarks compared to a phoenix like this Immortal Ming Bird. Including Elder Liu's Immortal Ming Bird, they were all inferior to this one full of an immortal aura!

Its clean feathers lightly lifted in the wind. Chu Mu found that the Immortal Ming Bird was watching him, as if it wanted to say something.

Chu Mu only then realized that the sacred pet Immortal Ming Bird was awakened!! It was using its fairy-like soft body to get close to him and watch him with its pure eyes.

“Ming~~~~~”

A mental note came into Chu Mu's mind.

It was like a song. Chu Mu felt like the Immortal Ming Bird wanted to tell him something, so he used his soul remembrance to listen to its voice.

“There's a devil in your heart.....”

Chu Mu paused for a second.

There indeed was a devil in his heart!

It was half devil's evil energy. After the jade spring sacred blood's washing, this utmost evil power became even more powerful, much stronger than what Chu Mu could rein in, needing ice type soul items to control it!

Yet, why did the Immortal Ming Bird say this the first time it met Chu Mu? Did it know that Chu Mu was going to use half devil as anchor too?

“Ming~~~~~” Sacred pet Immortal Ming Bird let out a light call.

Chu Mu came back to his senses, and realized that Immortal Ming Bird was signaling for him to get on its back.

Chu Mu didn't think any further and leaped on.

The sacred pet Immortal Ming Bird lightly flapped its wings. The light screen started sinking, slowly becoming a special immortal glow that embed itself into Immortal Ming Bird's feathers, making it look even more holy!

After the light screen disappeared, Chu Mu's vision returned to normal.

Yet, the scene that entered his eyes caused Chu Mu to suck in a breath.

Since an unknown time, the massive Calamity Spider Emperor was very near!! Its cruel and ugly body created a striking contrast between the noble and beautiful Immortal Ming Bird!!

“Shashasha~~~~~”

Little hidden dragon's voice came from the spring. This little fellow had unknowingly shrunken back to its mini state. As if a wounded child after feeling the pressure from Calamity Spider Emperor, it flapped over with a pouty face along with Lady Shan, who had fainted long ago. It quickly threw Lady Shan aside and hid in Chu Mu's embrace.

Little hidden dragon was at most two years of age. Its mind was still somewhat reliant like a child's. Meeting an organism like, Calamity Spider emperor that was impossible to defeat, it naturally felt incredibly wronged and also felt a huge blow to its confidence.

Standing on the sacred pet Immortal Ming Bird's back, Chu Mu hugged the fat little hidden dragon and comforted, “Okay, okay, this big sister Immortal Ming Bird will help you deal with it!”

Looking down from above, the Immortal Ming Bird's wings lightly flapped, hovering, while watching the cruel, ugly giant.....

Before, Chu Mu had to survive between the cracks of this powerful organisms grasps. Especially the time his heart rate quickened, he felt very repressed by this giant.

If Chu Mu's thoughts were voiced, they were definitely, "If I didn't have to anchor, I would've obliterated you long ago!"

Now, it was time to fight back!

Sacred pet Immortal Ming Bird was awakened by Chu Mu. Adding on a special spiritual connection, though this Immortal Ming Bird won't completely obey Chu Mu, it would definitely attack whatever Chu Mu pointed at!!

With the sacred pet Immortal Ming Bird, how much longer can this giant Calamity Spider Emperor be rampant for?

Chapter 717: Sacred Pet Immortal Bird Fights the Calamity Spider Emperor

"Awakened!!!"

"The ancient sacred pet!!! It really is an ancient sacred pet!!!"

The soul palace spirit emperors could finally see the holy ancient sacred pet through the reflection!!!

Top tier emperor rank soul pets were always extremely mysterious, standing at the peak of spirit emperors. Of all the spirit emperors present, other than Liu Binglan, who actually has a top tier emperor rank soul pet, the others all had an untouchable respect and a dream-like desire for it!

Sacred pet Immortal Ming Bird's aura was clearly stronger than even a normal top tier emperor rank. The old generation emperors all watched this sacred pet with a face full of excitement, let alone the younger spirit emperors. It could be said that this ancient sacred pet is the strongest organism they have ever seen in their lives!!!t this moment, the spirit emperors' bloods were boiling. Chasing after the utmost power, chasing after the supreme soul pet, any soul pet trainer would bet their lives to do this, to climb to the top of the soul pet world!

Now, when a top tier was right in front of them, none of them could remain calm!!!

The peak that soul pet trainers yearned for!!

Chu Mu was standing on the back of the utmost that all soul pet trainers strive for, sacred pet Immortal Ming Bird. Like all the spirit emperors, Chu Mu also yearned to truly own a supreme sacred pet like this one!

But, Chu Mu was luckier than all the spirit emperors that could only watch. At least he could truly touch the organism that all soul pet trainers yearn for, and even command it in a fight with another super giant top tier emperor rank!!

“Sisisisissi”

The Calamity Spider Emperor’s blood red eyes locked onto the sacred pet Immortal Ming Bird in the sky. Its sound was piercing and full of a powerful mental shake. If weaker organisms were yelled at like this head-on, their eardrums may burst, and their blood vessels would all rupture!

“Aohou!!!!!!!!!!!!!!!!!!!!”

Little hidden dragon laid in Chu Mu’s lap. With Immortal Ming Bird’s immortal aura protecting it, it knew it could finally brag. The Immortal Ming Bird hadn’t even showed its might, yet the little hidden dragon was already letting out weak roars, challenging the calamity spider emperor youthfully!

“Sisisisissi!!!!!!!!!!!!”

Calamity Spider Emperor was immediately angry. Sacred pet Immortal Ming Bird’s aura was stronger than it, so the bird yelling at it was acceptable. How dare this little dragon yell at it as well?

Clearly, the Calamity Spider Emperor recognized the little hidden dragon’s aura and remembered that this little fellow seemed to just recently have escaped right under its nose!

"Ming!"

The sacred pet Immortal Ming Bird saw that the Calamity Spider Emperor still dared to be reckless in front of it, and let out an angry call!

The Immortal Ming Bird seemed to be giving Calamity Spider Emperor a command. If it didn't go back into its seal, it would end the calamity spider emperor's life today!

The Calamity Spider Emperor had just escaped, so there was no way it would enter back into the damned seal willingly. So what if it was an ancient sacred pet? Now, immortal city was the world of it and three other giants. There was no place for this Immortal Ming Bird to boss it around!

"Don't say any more, just obliterate it!" Chu Mu was fired up, saying that to sacred pet Immortal ming Bird.

The Immortal Ming Bird opened up its wings. Its speed was frightening, flying a few circles around the Calamity Spider Emperor in the blink of an eye!

Its flight path left special immortal light that created a glamorous sacred ring!

This sacred ring vaguely contained the outlines of feathers. This was the power created by countless light feathers!

"Is this the Immortal Ming Bird's wing type restriction?" Chu Mu quickly identified the technique!

Chu Mu had seen his fellow soul palace members cast it with their Immortal Ming Birds. Their soul pets' wing type restriction would at most create a wing shadow and then hit the enemy to shackle them.

The sacred soul pet indeed was sacred. When it cast techniques, it all had dazzling sacred immortal auras, and within the sacred hoop, countless light feathers bobbed in and out, creating a huge hoop shackle that locked down the Calamity Spider Emperor's hundred meters wide body!!

Comparing speed, the sacred pet Immortal Ming Bird could probably fly a few circles around Calamity Spider Emperor before it could even turn its head!

This wing type restriction was something the Calamity Spider Emperor naturally couldn't dodge. It could only swing its large scythe-like legs and frenzily cut at the quickly locking up immortal hoops, trying to cut it open!

Calamity Spider Emperor's attacks were terrifying as well. Every wave of its huge scythe would leave a near ten kilometer crack on the ground. Its swings were highly frequent as well. The entire vacant area was getting destroyed, losing its original appearance!!

“Shuashuashua!!”

The wing type restrictions were somewhat destroyed by the Calamity Spider Emperor as it shrunk, but it still successfully locked onto the Calamity Spider Emperor's eight large legs!

The Calamity Spider Emperor was a spider, so once its eight legs were shackled, its fat body instantly fell down, sinking into the ground!!

“Cut its legs first!”

The Calamity Spider Emperor's movement and attack tools were both its scary large scythe legs. One could tell just from the scary ten kilometer wide marks on the ground.

Once the calamity spider emperor was shackled, the sacred pet Immortal Ming Bird flew down, its immortal aura completely releasing to form a glowing comet that slashed down!!

“Shua!!!!!!!!!!!!!!”

Immortal Ming Bird's technique wasn't any weaker than the Calamity Spider Emperor. Once this light wing fell, it not only cut off one of the Calamity Spider Emperor's legs directly, it left a clean cut mark from the immortal city demon suppressing monument to the black stone seal area far away.

The sacred pet Immortal Ming Bird's slash was frightening. If there were any soul pets along this line, they would all be instantly killed!

.....

When the Immortal Ming Bird was getting awakened, this entire region already had huge groups of sealed organisms and defending organisms watching from afar.

At first, Chu Mu was confused as to why these rebellious organisms didn't come help the Calamity Spider Emperor.

But, after witnessing the destruction of the immortal ming bird and calamity spider emperor, Chu Mu understood." Without high class emperor, standing in the range of ten kilometers meant almost certain death!

"Sisisisi!!!!!!!!!!!!!!!!!!!!!!"

After getting a leg cut off, the Calamity Spider Emperor let out a pained cry, the vibrations creating a spatial wave that sent the sacred pet Immortal Ming Bird backwards and away.

This impact sent them a few kilometers. Though Chu Mu was on sacred pet's back and had sacred light protecting him, he still barely withstood the abnormal shock.

"It's about to go free!" Immortal Ming Bird steadied itself and Chhu Mu immediately found that the Calamity Spider Emperor was gathering power to destroy the sacred seal!

"Ming"

Sacred pet Immortal Ming Bird flapped its wings hard. The sacred feathers wrapping its body suddenly split off from its body!!

Every feather was wrapped in sacred light, each like an arrow that was packed densely around Immortal Ming Bird!

The Immortal Ming Bird was around twenty meters in height. All of its feathers were incredibly thin. With this split off, the entire sky was filled with these holy light feathers!!

"Ming!!!!!!!!!!!!!!"

Sacred pet Immortal Ming Bird let out a call that immediately sent the feathers in the sky flying down, hundreds of thousands covering the skies!!

Only a thunderstorm could wash the ground this densely, yet right now the ground was instead getting barraged by feathers full of piercing energy!!

Any feather could cut through an advanced organism's body. With these feathers falling like raindrops, it was crazily hitting the region the Calamity Spider Emperor was in!!

The immortal city ground was always tough as steel. Normal power couldn't even break a single pebble here. Yet, with two top tier emperor ranks' techniques, the black ground was as shattered as it could get. In a ten kilometer radius, everything was countless feet shorter than its surroundings, creating a huge basin!

If there were any sealed organisms within ten kilometers, then it must have died in the fight between the two supreme beings!

“Sisisisis~~~~~”

The immortal Spider Emperor successfully broke through the restriction but quickly was met with the sacred pet Immortal Ming Bird's attacks. Its thick armor was punctured thousands of times through, leaking disgusting blood down onto the ground!

The calamity spider emperor was a poison organism. When its blood dropped to the ground, it could burn through dozens of meters of heavy rock

Having one leg cut off already made the Calamity Spider Emperor to get angry. Now that its body was full of holes too, the Calamity Spider Emperor's anger seemed to be completely erupting!

Suddenly, the Calamity Spider Emperor made a terrifying move!!

It rubbed the pus blood that was leaking out onto its seven remaining scythe-like weapons. Releasing the furs on its body, it very calmly started sensing for sacred pet Immortal Ming Bird's next action!

Seeing the Calamity Spider Emperor like this, the sacred pet Immortal Ming Bird was about to continue attacking but very quickly gave up and suddenly leaped upwards, going straight into the skies!!

“Shuashuashuashua!!!!!!!!!!”

The next moment, calamity spider emperor made an attack!!

The seven legs swung out one after another, creating a black scythe flurry before it!!

Poisonous Emperor Blade!

The seven poisonous blades broke through everything. The air in a few kilometers in front of it instantly whistled. One could even see the space getting cut open where the blades flew past!!!

Power able to rip through space!!!

Such attacks, if any hit the sacred pet Immortal Ming Bird straight on, could directly cut the Immortal Ming Bird apart since it lacked a strong defense!

And, even if it were just grazed, the Immortal Spider Emperor’s poison would seep into the Immortal Ming Bird’s body.

There was no wonder the sacred pet Immortal Ming Bird would suddenly give up and fly into the sky. It was definitely a killer technique of the Calamity Spider Emperor!!

Chapter 718: The Mission of Summoning the Xuan Zhen Beetle

“Shua!!!!!!!!”

The intense poison emperor blade lingered in the clouds, leaving a long scar in the rolling clouds.

The intense poison emperor blade didn’t strike the Immortal Ming Bird saint pet. However, its AOE energy managed to rip open its stomach, causing fresh blood to spill out!

Although the poison didn't permeate, Chu Mu still hastily grabbed the high ranking emperor healing medicine Liu Binglan had prepared for himself. He adeptly applied it to its wound.

As long as the poison didn't penetrate, this wound wouldn't influence the saint pet too much. After dodging the seven poison emperor blades, the Immortal Ming Bird began its counterattack!

The expansive sky became the Immortal Ming Bird's personal domain. Within a few breaths, the Immortal Ming Bird had flown above the Calamity Spider Emperor.

An immortal light flickered in its mouth. From above, the light transformed into a light screen that spilled down from its mouth, striking the Calamity Spider Emperor.

The Calamity Spider Emperor rapidly moved on the shattered earth, continuously dodging the immortal light.

However, no matter how fast or how strong its dodging abilities were, it could not truly dodge all of its attack. When the tenth light screen rained down, the Calamity Spider Emperor's entire body seemed to be scorched by sunlight, and its skin began to fester!

"Si Si Si Si!!!! Si Si Si Si Si Si!!!!!!!!!!!"

The Calamity Spider Emperor let out incessant angry cries. Before being sealed, this enormous creature was a tyrant on the battlefield. It would rarely encounter opponents that had the strength to fight it.

However, in front of the Immortal Ming Bird at the same rank, the Calamity Spider Emperor had lost multiple times. Besides suffering injuries, it also wasn't able to do anything about the Immortal Ming Bird flying back and forth!

"Si si si si!!!! Si si si si si si!!!!!!!!!!!"

Suddenly, the Calamity Spider Emperor pried open the destroyed ground. Its hundred meter body rapidly descended as the surrounding soil and rock surged into the air, creating a hundred meter earth wave!

“This fellow wants to flee?” Chu Mu quickly realized. This Calamity Spider Emperor had the same mentality as him; if it couldn’t win, it would flee!

The immortal light from the Immortal Ming Bird’s mouth grew denser, and locked onto the Calamity Spider Emperor now underground!

The saint-like light seemed to break through dark clouds and strike the surface of the earth. Indeed, the earth’s surface nearly caught on fire due to the heat. The rocks on the earth had become a red color and it was unknown how deep the red extended underground!

Although the Immortal Ming Bird’s technique followed very quickly, it wasn’t able to do anything about the Calamity Spider Emperor’s shocking digging speed. In a short period of time, the Calamity Spider Emperor managed to hide somewhere and was untraceable.

It was like how the Calamity Spider Emperor couldn’t do anything about the Immortal Ming Bird flying in the air. When the Calamity Spider Emperor hid underground, the Immortal Ming Bird couldn’t do anything.

“It truly did flee...” Chu Mu looked with astonishment at the ground. It had sacrificed a few legs, but still escaped. If he were to encounter it in the future, it would bring him much trouble.

“Young master, peak emperor rank soul pets aren’t mice. Even if the Immortal Ming Bird is a hawk, the chances of killing it are virtually zero. If a creature is able to reach the peak emperor rank, I can say with assurance that even if they have weaker fighting strength, their ability to sense danger and to flee are top notch!” said Old Li.

Such supreme creatures were very intelligent. The reason why they were able to survive and stand at the apex was not only because they had unparalleled fighting strength, but also because of their powerful survival instinct. They wouldn’t continue with meaningless fights and if they couldn’t win, they would decisively retreat. Especially something like the Calamity Spider Emperor, which had to crawl up from a lower level in order to reach the top. Perhaps their fighting strength was the weakest among peak emperors, but they were definitely those that survived the longest!

“Ming~~~~~”

The Immortal Ming Bird continued to patrol the skies for a while. But after confirming the Calamity Spider Emperor had fled far away, it slowly descended to the ground.

With the Immortal Ming Bird present, the Calamity Spider Emperor probably wouldn't dare show itself. The Immortal Ming Bird would also be able to detect if it was nearby.

"There's a chance it could be summoning a rescue force. The high ranking creatures that undid their seals in Immortal City shouldn't just be limited to the Calamity Spider Emperor. If it summons a rescue force, it will probably be hard for you to deal with it." Chu Mu said to the Immortal Ming Bird.

"Ming~~~~~" the Immortal Ming Bird nodded its head. It stared at the Demon Suppressing Monument, and used its claws to point at the surface of the earth.

"You mean that in order to kill the Calamity Spider Emperor, we need to have a saint pet that can fight underground?" Chu Mu was able to discern its meaning from its mental voice.

"Young master, the Xuan Zhen Beetle is an expert at ground fights. Moreover, it is impermeable to a hundred poisons. It will be much easier for it to deal with the Calamity Spider Emperor. Moreover, it will be difficult for the Calamity Spider Emperor to escape the Xuan Zhen Beetle's pursuit." said Old Li.

The Immortal Ming Bird nodded its head. It moved its head closer, and used its mouth to softly brush against Chu Mu's chest...

"I should go and summon the Xuan Zhen Beetle Saint Beast?" asked Chu Mu.

The Immortal Ming Bird let out a soft bird cry. It raised its head and looked at the sky.

"Young master, the Immortal Ming Bird wants you to continue summoning the other saint beasts. It needs to go into the skies and contain the seals of a few restless high ranking creatures. Otherwise, if those high ranking creatures grow in number, even if all seven ancient saint beasts are summoned, they may not be all of their opponents." Old Li promptly jumped out and translated.

"Isn't it better for it to go with us to the other Demon Suppressing Monuments and release the rest of the Seven Diagram Saint Beasts?" said Chu Mu.

“Young master, since the Calamity Spider Emperor has fled, it will definitely summon rescue forces to deal with the Immortal Ming Bird, which is on its own. It will do so to prevent it from summoning the other saint beasts. But they probably don’t know where the other Demon Suppressing Monuments are. The Immortal Ming Beast staying by your side is equivalent to attracting the other big shots to you. You won’t be able to summon the other saint beasts like this. The Immortal Ming Beast is going to draw them away from you by attracting their interest.” explained Old Li.

Seeing this old thing express its meaning for it, the Immortal Ming Bird moved its head and knocked it against Old Li’s head.

Chu Mu bitterly laughed. He had managed to summon the Immortal Ming Bird with great difficulty. He originally thought he would be able to ride on it to the other Demon Suppressing Monuments and easily summon the other ancient saint pets this way.

However, Chu Mu had forgotten, crucially, that peak emperor rank magnates were extremely intelligent. They would not just sit and watch the Immortal Ming Bird summon its companions.

“There are still another 6 saint pets. Summoning 1 was hard enough...” Young Lady Shan had awoken at some point and softly chimed in.

“There are the other six heroes. There’s no way they cannot even summon one. Moreover, they were chosen from so many spirit emperors so their composite strength must be very strong. Young master can be considered as an assistant. You just need to help them in secret.” said Old Li.

“You... you... what are you!” Young Lady Shan abruptly discovered the half pet half human Old Li and was extremely shocked.

Chu Mu ignored this woman who was always startled over the smallest things. He stretched out his hand and rubbed the Immortal Ming Bird’s head as he said: “Then you be careful. Don’t get caught by those magnates.”

“Ming~~~~~” the Immortal Ming Bird nodded its head. It used its mental voice to tell Chu Mu that if he encountered an enemy that he couldn’t defeat, it would come as fast as possible.

“Then you need to arrive fast. After all, I can only summon one soul pet right now.” said Chu Mu.

Chu Mu could only rely on the Little Hidden Dragon right now, but its fighting strength was limited. If he encountered a strong opponent, Chu Mu probably wouldn't have another option.

“Ming~~~~~” at this moment, the Immortal Ming Bird raised its head and an immortal light gradually surfaced on its body. This immortal light slowly covered Chu Mu, Young Lady Shan and Old Li.

Chu Mu confusedly bathed in this special light, not knowing what it did.

Young Lady Shan looked with curiosity while also being excited as if she was being bestowed some strength.

Old Li's two hands were behind his back and he looked very calm. He waited for the immortal light to fade before explaining: “This eradicated the Calamity Spider Emperor's scent lock on us. It also gave us rotten aura. With this effect, young master can summon other soul pets to fight. You don't need to be afraid of group attacks.”

Chu Mu's eyes lit up. The Little Hidden Dragon had been striving its hardest during this period of time, and its physical strength was a bit overspent. If he could summon other soul pets, it would be easier to deal with this situation. Especially since the small Mo Xie could come out. Mo Xie's strength was not lacking much compared to the Little Hidden Dragon's. Moreover, she was very clever. Chu Mu didn't need to say anything and she would already have done it. His intentions and Mo Xie's intentions were completely linked.

With the small Mo Xie, Chu Mu would be much safer traversing this complicated Immortal City.

After the immortal light disappeared, Chu Mu immediately summoned the small Mo Xie, who hadn't taken a breath of fresh air in a while.

The small Mo Xie maintained her pitiful appearance. Her furry and small body was extremely adorable. After being summoned, she jumped up and crawled onto Chu Mu's shoulder. Her sleek tongue continuously licked Chu Mu's cheek as she let out a series of murmurs.

The small Mo Xie had the Pitiful Appearance technique so had the special privilege of constantly being summoned. Moreover, normally when she wasn't doing anything, the small Mo Xie would just be lying on Chu Mu's shoulder. This had grown to be a habit. Thus, in this past month where he was missing a soft and furry body on his shoulder, Chu Mu really was not used to this.

Of course, aside from Mo Xie, Zhan Ye, the Ghost King, the Devil Tree Battle Soldier, and the Binding Wind Spirit could all be summoned to fight. Being able to command his soul pets as he pleased naturally gave Chu Mu much more confidence. Indeed, Chu Mu was extremely adept at commanding them. If they encountered powerful enemies, Chu Mu would be able to adapt to the situation.

As for the White Nightmare, Chu Mu didn't plan on letting it fight, because it was going to have to combine with him.

Chapter 719: Xing Hen, The Attack that Transcends Space

After Zhan Ye stepped into the pseudo emperor rank, it would have six times the normal amount of life force, and its recovery speed would be six times faster than normal. With Broken Limb Rebirth and Brave Stinging Heart, it would allow Zhan Ye to fight a low class emperor. If it was allowed to slowly increase strength, Zhan Ye's strength would probably be even more terrifying than the low class emperor Mo Xie and Little Hidden Dragon.

Once the Ghost King reached the pseudo emperor rank, Chu Mu would give it the second rank emperor rock type soul pearl, making its fighting strength terrifying. Although it wouldn't be able to defeat a low class emperor, it would still be difficult for a low class emperor to kill it. Especially once the Ghost King used Monarch Ghost Transformation, even Mo Xie wouldn't be able to leave significant damage unless she used her full strength.

Nonetheless, this was a second rank emperor rock type soul pearl worth 30k spirits. When it came to complete defense, the Ghost King wouldn't be weak.

As for the Binding Wind Spirit and Devil Tree Battle Soldier, they were able to improvise in certain circumstances and couldn't be underestimated.

Aside from Night and the Ice Air Fairy, the other soul pets could all participate!

Thus, it probably wouldn't be a problem for him to get rid of the defector young woman's henchmen.

Her henchmen probably weren't too strong because if they were, it would be difficult for them to traverse Immortal City.

.....

Soul Palace.

“Your Majesty, take a rest first. If you go so long without rest, it will affect your body. In our Tianxia City, the only person who can truly fight those magnates is you. If something unexpected occurs and your mind isn’t rested...” Elder Ting said to Liu Binglan.

After Chu Mu summoned the Immortal Ming Bird saint pet, the spirit emperors all let out sighs of relief.

The Immortal Ming Bird Demon Suppressing Monument was closest to the entrance, so it would probably be another while before the other heroes reached their Demon Suppressing Monuments. Thus, the spirit emperors decided to rest in Soul Palace.

Mhm, have someone always stand guard here and if something happens, immediately let me know.” said Liu Binglan.

Elder Ting nodded his head, and called two servant girls over to take Liu Binglan to rest.

After Liu Binglan lay in her room, she quickly fell asleep. She was truly too tired. So many days had passed since she had last properly slept. Now that she was slightly more relieved, even though her mind was still in chaos, she still fell into a deep sleep the moment she closed her eyes.

There were several sleeping aromatics in her room. A slight fragrance wafted through the room, allowing one to ease their mind and enter a full sleep. Not only did these fragrances allow one to sleep deeply without dreams, it also increased the mind’s recovery by a lot. Even higher ranking fragrances could even allow one’s soul power to recover faster.

With the fragrance lingering around her, Liu Binglan should have been able to enter an even better sleep. However, she was bearing much too heavy of a burden. Added on the fact Chu Mu was still in Immortal City, the sleeping fragrance lost their effect. Gradually, she began to let out a cold sweat...

Liu Binglan's breathing became more haggard. In her murkiness, she felt she had fallen into the reflection spring, and continued falling to the bottom of the spring before suddenly floating up.

When she floated to the top of the spring, she discovered that she had appeared in Immortal City!

There was a dark and gloomy sky, a black rotten city, rotten aura omnipresent, and palpitating cries everywhere...

The wind and clouds changed as the horizon began to depress. An enormous pressure weighed down on Liu Binglan's heart, making breathing very difficult.

In the dark sky and earth, this gloomy world was suffocating her!!

"You, how can you treat my child like this!"

Suddenly, a palpitating voice pierced her ears, causing her body to turn ice cold!

"You, how can you treat my child like this!"

A second voice rang out. Liu Binglan's face instantly turned pale. She abruptly felt a pair of hands firmly gripping her throat.

"Sister Lan..."

"Sister Lan... wake up..."

The terrifying ghost noise lingered in her ears while a soft but anxious voice transmitted into her mind. This made it so Liu Binglan wasn't able to tell where she was for a moment!

A nightmare!!

Liu Binglan had descended into a nightmare!!

The feeling of being unable to awaken despite knowing it was a dream made her very unsettled. In a nightmare like this, even powerful people were powerless to resist!

Perhaps more terrifying was that even if she struggled and forcibly awakened herself, she could be possibly be greeted by another dream that she had no idea she was in...

Xiang Yiyun stood next to Liu Binglan's bed. She had hastily summoned her flower type soul pet to use a mental technique on Liu Binglan, undoing the tautness in Liu Binglan's mind.

With Xiang Yiyun's help, gradually, Liu Binglan was able to recognize she was in a terrifying nightmare. She slowly calmed down and her breathing became normal.

"Sister Lan, are you okay?" with a smile, Xiang Yiyun saw that Liu Binglan finally opened her eyes, and she let out a sigh of relief.

Liu Binglan sat up and had a servant girl get her a towel.

"What's the matter?" a while after Liu Binglan awoke, she finally asked a question.

"Duan Yi has appeared at the Binding Wind Spirit Sacred Palace's spring. He is currently fighting against Underground Palace's Leng Lian." said Xiang Yiyun.

"Ok." Liu Binglan nodded her head. After freshening up a bit, she immediately went to Binding Wind Spring.

En route, Xiang Yiyun softly asked: "Sister Feng, with the effect of my fragrances, it is impossible for nightmares to occur. Are you shouldering some large mental burden?"

"I was dreaming of the past. It's no big deal." Liu Binglan shook her head. After she had awakened, the dream had somewhat faded from her memory, and she wasn't willing to talk about it either.

Xiang Yiyun didn't inquire further and said: "Oh, there's a piece of good news. Senior Ying Jue is in Tianxia Realm, and is currently in Nightmare Palace."

“Ying Jue...” Liu Binglan was a bit absent-minded as she said: “This fellow’s nature can be shady. Go and tell Elder Xie Tao to watch over Ying Jue.”

“Eh? Could Senior Ying Jue be the mastermind of this plot?” asked Xiang Yiyun, astonished.

Ying Jue was one of Soul Alliance’s Sixteen Absolutes and his position in Soul Alliance was equivalent to Liu Binglan’s. Moreover, within the various large factions, he was a supreme expert capable of rivaling senior elders. The appearance of an expert like this in Tianxia City which was desperately lacking supreme experts made the spirit emperors much more at ease. Thus, why did Liu Binglan want Nightmare Palace to be wary of this supreme expert?

“Whether or not he is the mastermind of the plot, I won’t consider for now. But this person has a strange disposition. His sense of evil is strong while his sense of righteousness is weak. The crimes he has committed in secret are enough to lock him up Sealed Tower for several hundreds of years. When he has done things in the past, he has always required a price. His appearance in Tianxia City is definitely not to merely protect Tianxia City. There’s a higher chance he’s going to take advantage of the chaos.” coldly said Liu Binglan.

“This... I originally thought he was a powerful handsome man. I never expected he was an ingrate.” Xiang Yiyun was a bit disappointed.

When danger came, the three large factions would definitely stand together despite the constant conflict between Nightmare Palace and Soul palace.

Of course, it was only during true crises that supreme experts would appear. These supreme experts naturally had the authority to give orders to Nightmare Palace elders and senior elders. Normally, as long as they didn’t harm Nightmare Palace, the elders and senior elders would comply.

Liu Binglan was a bit unsettled by Ying Jue’s appearance. After all, this fellow was a famous eccentric amongst the Sixteen Absolutes. He was an expert from Wanxiang City and had nothing to do with the survival of Tianxia City. He was definitely someone who would watch from the side and then criticize and judge others after the fact!

Leaving aside Ying Jue for now, Liu Binglan went to Binding Wind Spring.

When Liu Binglan arrived, there were already 30 spirit emperors watching. From their expressions, the fight wasn’t going well.

“Underground Palace’s Leng Lian. Her demon type soul pet and poison vine type soul pet have killed countless people. She had already been placed onto our blacklist.” said Palace Lord Yu with a low tone.

“But you didn’t get rid of this criminal earlier, instead allowing her to appear in Immortal City!” angrily said a Great Palace Lord from Soul Pet Palace who had previously ordered to arrest this female assassin.

“Didn’t this woman used to have two poisoned scars on her face? Why does she not have them anymore? Unless a peak emperor rank healing soul pet heals them, the poison scars cannot be undone!” said Elder Xie Tao.

The number of peak emperor rank healing soul pets possessed by spirit emperors could be counted. There was no way these spirit emperors could have taken action to heal Leng Lian who was already wanted for arrest. Therefore, the disappearance of her scars made them surprised. Could it be that amongst the plotters there was a supreme expert with a peak emperor rank healing soul pet?

“Duan Yi seemed to have suffered an injury en route. He can’t deal with her right now.” everyone was anxious for Duan Yi right now.

Duan Yi’s strength was worthy of acknowledgment, but it ultimately was a bit too much for him to deal with an opponent who was already prepared.

Liu Binglan stood next to the jade spring and coldly stared at the female killer Leng Lian’s every action.

Suddenly, Liu Binglan summoned her soul pet, Xing He!

he gorgeous starlight soul pet appeared. It radiated starlight that illuminated the spring with a spotted magnificence.

“Your Majesty, what are you doing?” Elder Ting didn’t understand what Liu Binglan summoned her soul pet for and softly asked her.

Liu Binglan didn't respond. Instead, she had her mysterious soul pet, Xing He, hover above the spring. Her beautiful star-like eyes were fixated on Leng Lian's Bloodsucking Dream Demon!

Bloodsucking Dream Demons. In the dream demon species, their restrictive abilities were outstanding. In a fight against a same level opponent, the powerful Bloodsucking Dream Demons were not able to incorporeally suck their opponent's life force and blood, but were also able to terrifyingly restrict opponents from even using a single technique.

Leng Lian's Bloodsucking Dream Demon was even more tyrannical as it was restricting Duan Yi's two strongest soul pets at the same time. Thus, Duan Yi was essentially crippled since his other soul pets were all being countered when it came to attributes. This made the fight abnormally difficult for him.

"Xing Hen!" suddenly, Liu Binglan coldly gave an order to attack!

The starlight soul pet beat its wings. From its two eyes shot out two beams of starlight that struck the shallow spring!

The surrounding spirit emperors looked at Liu Binglan's actions with confusion. They were about to ask for clarification when they abruptly discovered that on the other side of the reflection spring, a cold starlight had shot out!!

This cold starlight had been perfectly planned and passed through the air, moving from the Sacred Palace's reflection spring to Immortal City's reflection spring. It shot towards the moving Bloodsucking Dream Demon!

Above both the reflection springs appeared a gorgeous spatial starry scar. It was astonishing!

"Pu!!!!!" the starry scar accurately pierced the Bloodsucking Dream Demon's abdomen, instantaneously puncturing a wound!!

Chapter 720: Underground Palace Female Killer, Leng Lian

Immortal City, Binding Wind Spirit Suppressing Demon Monument

Female killer Leng Lian's face looked full of shock at her own Bloodsucking Dream Demon and stared in disbelief at Xing Hen that appeared through the spring! "Why did this happen!!" Female killer stared lifelessly!

An attack through space!!

Leng Liang would never have thought that just as she was about to do the final blow to take down Duan Yi, a super expert broke through space and attacked her demon!

This Xing Hen was weakened through space, and was no longer top tier emperor rank, but to the low class emperor rank Bloodsucking Dream Demon, it was lethal!

Bloodsucking Dream Demon's mental restriction abilities were amongst the top in demons, yet it had a crippling weakness- its defense was pitiful. A highly offensive pseudo emperor could instantly kill the Bloodsucking Dream Demon!

The Xin Heng that came from the other space was only pseudo emperor rank in power, but it hit the Bloodsucking Dream Demon directly, dealing heavy damage to it!

Duan Yi fighting with Leng Lian blanked too. He didn't know what had happened. However, this was a rare opportunity, so how would Duan Yi let it go? He immediately commanded his two main soul pets to attack the wounded Bloodsucking Dream Demon!

"Sila!!!!!!!!!!!!!!!"

The Bloodsucking Dream Demon couldn't dodge, immediately ripped into shreds by the two low class emperor ranks, sending blood everywhere!

It was a monopoly effect. After this technique came out of nowhere, Duan Yi took this opportunity perfectly, and immediately struck back. After killing Leng Lian's Bloodsucking Dream Demon, he also killed Leng Lian's elemental pseudo emperor, wounding Leng Lian twice heavily...

Leng Lian lost her footing and didn't dare to stay any longer, resentfully glancing at the spring!

Bringing her three other main soul pets, Leng Lian escaped with grief and indignation. This female killer's reaction was indeed quick. If she stayed for another moment, Duan Yi definitely could take her down.

Duan Yi didn't chase after. The opponent was a killer, who excelled in hiding, escaping, and assassinating. If he chased after, he could get killed again.

Two of Leng Lian's main soul pets have already been killed, while Duan Yi still had four emperor ranks, so he wasn't afraid of getting assaulted when he was chanting the incantation.

"Not sure which expert assisted, but Duan Yi will never forget this as long as I am still alive." After making Leng Lian back off, Duan Yi immediately bowed towards the spring and said with true gratitude.

On the other side of the spring, the spirit emperors saw that the battle situation was instantly flipped and couldn't recover from the shock instantly. Their eyes all fell on Liu Binglan.

"Your majesty, can it be that your soul pet already surpasses emperor? How else can it influence across spaces and turn the battle around?" Elder Ting was the first to question.

Elder Ting's words were something all the spirit emperors wanted to ask. Only soul pets beyond emperor rank could rip through space!

"Star River is an other type soul pet. The reflection spring has some spatial correspondence, so other type techniques could pass through it to a certain extent." Liu Binglan explained coolly.

Liu Binglan's technique instantly flipped the fight around, yet her explanation was so simple and cold. The other spirit emperors wanted to praise her for it, but couldn't bring themselves to say it. The cold beauty's name truly isn't false. The spirit emperors clearly felt that, in front of this cold beauty, any words of praise were useless.

In reality, when Chu Mu and Yang Qi fought, Liu Binglan could have done it as well.

Yet, she didn't for three reasons. The first, Chu Mu and Yang Qi weren't fighting on the spring. Everyone had to stand at the edge of the spring and glanced diagonally to see the fight. Liu Binglan couldn't directly hit the enemy. Second, such technique wasted a lot of stamina. After Liu Binglan's soul pet did it, it would need to recover for a long time before being able to do it again. The third

being after it went through space, its power will fall greatly, at most adding up to an all out attack of a pseudo emperor rank. If not for Leng Lian's Bloodsucking Dream Demon truly having low defense, it won't have any real effect.

Of course, no matter what, being able to flip a battle around through space caused all the spirit emperors to have an even greater respect for this noble woman!

"Strange, what is Duan Yi waiting for?" Elder Ting said.

"He seems to be looking for something....."

.....

Immortal City

Chu Mu rode a little hidden dragon and was about to ride towards sacred pet Xuanzhen Beetle. However, Lady Shan said she only knew the location of the remaining six suppressing demon monuments but didn't know which held which sacred pet.

So, Chu Mu could only tell lady Shan to lead the way to the nearest suppressing demon monument.

"Wuwuwuwu~~~~~"

Little Mo Xie laid on Chu Mu's shoulder. Suddenly, her furry ears perked up and her eyes glared into a direction.

"What's up?" Chu Mu asked.

Little Mo Xie didn't reply, jumping straight onto the ground and ran in front of the little hidden dragon.

Chu Mu didn't tell little hidden dragon to catch up immediately, instead of letting Mo Xie roam herself. Chu Mu didn't worry too much about Mo Xie. On one hand, little Mo Xie in pitiful appearance will almost never get targeted by organisms higher rank than it. On the other hand, little Mo Xie's speed, dodging skills, and danger instinct were all top notch. She'll be fine.

After a short while, little Mo Xie ran back, and didn't seem to discover anything, laying back down on Chu Mu's shoulder.

.....

In the half-destroyed palace, a black-clothed woman kneeled on the ground pale-faced, breathing heavily.

"Damnit, just a tiny bit off. Who cast such amazing techniques, hitting here from another space!"

This woman was Leng Lian who had fought Duan Yi not long ago. Having two souls hurt, her vitality was greatly affected. She was hiding here to adjust herself. Thinking back to the Xin Heng ability, Leng Lian felt scared. The person that attacked her through space truly had a terrifying strength!!

"However, it's okay, I still this still. Without it, let's see how you can summon the ancient sacred pets." Leng Lian smiled and held a spatial ring.

This spatial ring was what Leng Lian stole from Duan Yi while in battle. Not only did it have some of Duan Yi's fortunes, it had the most important component to summoning a sacred pet - Heavenly Dew

Without heavenly dew, even if the incantation was complete, it wouldn't do anything. So, this mission Leng Lian technically still succeeded.

She extended her hadn't and gently apt the nine furry tails beside her, a nine tail fox full of demonic aura and said, "Well done."

Leng Lian's nine tail demon fox was a thieving expert. The reason she could stand firmly amongst many female spirit emperors was this nine tail demon fox and its stealing ability. The Bloodsucking Dream demon's death caused Leng Lian to be very sad, but if she had to pick, Leng Lian would rather choose for her Bloodsucking Dream Demon to die than have anything happen to her nine tail demon fox.

"Wuwuwu!!!!"

Suddenly, nine tail demon fox let out a call.

Leng Lian immediately raised her awareness and told nine tail demon fox to hide outside to look at the situation.

“Chu Chen, why did your little fox go off and run around?” A female voice came to Leng Lian.

“Maybe it discovered something, but it turned out to be a mistake.” A man's' voice slowly came through.

The man's words caused Leng Lian's heart to tighten and start beating faster.

“I'm glad that I kept my aura hidden at all times, or else I would have been discovered just now.” Leng Lian said with lingering fears.

“Speaking of which, what did the woman just call the man, Chu Chen?” Leng Lian muttered to herself.

Chu Chen was a name Leng Lian had heard many times. It was the young generation member that destroyed everyone with an emperor rank soul pet. Of course, this wasn't enough to keep Leng Lian entertained. Most importantly, the master once said that Chu Chen, if caught alive, will definitely bring handsome rewards!

The female master's generosity was something all underground palace people saw. The handsome rewards were definitely third, fourth rank emperor soul items. This was a great allure to Leng Lian!

Leng Lian's face fell as her brain spun quickly, clearly thinking of a way to take Chu Chen alive.

“He Ting had a legend that Chu Chen and another female patrol officer was stuck in immortal city. He probably doesn't know about the suppressing demon monument, not knowing who came forth to awaken them.....perfect, I can use my other identity.....” Leng Lian's pale face suddenly smiled sinisterly, clearly already having a plan.

.....

Chu Mu rode little hidden dragon cowards continuously and came to a suppressing demon monument.

“En, there’ s someone? Chu Mu raised his guard and said to little mo xie.

Little Mo Xie swiftly hopped onto the ground and with a few light taps darted into the broken palace beside them.

Chu Mu told little hidden dragon to hurry up and catch up. When he stepped into the wounded palace, he heard a woman moaning as if hurt.

“Wuwuwuwu~~~~~”

Little Mo Xie jumped onto the step and met the eyes of three soul pets with animosity.

“I think there’s a woman there.” Lady Shan pointed behind the three soul pets with ill will and said to Chu Mu.

Chu Mu nodded and told little hidden dragon to slowly move forth.

“You guys……” The female that seemed extremely weak suddenly said, “Heng, I got chased all the way here. Us Hunter’s Alliance don’t have cowardly folks. Even if I sacrifice my life, I’ll finish it. Just come at me!”

Chu Mu and Lady Shan looked confused. They seemed to be an expert of hunter’s alliance. Was it one of the brave experts recruited to summon the seven sacred stones!?

This was very near the suppressing demon monument, so seeing a warrior here was normal.

“Don’t panic, sister, are you Lady Yan of hunter’s alliance?” Lady Shan asked tentatively.

This hunter’s alliance famous female spirit emperor was lady Yan. Lady Shan has seen her a couple of times and remembered her soft and alluring voice. This Lady Yan is a widow, constantly wearing a black veil so no one remembers her true appearance.

“En, this sister is?” The woman immediately popped her head forward.

“I’m Shan Ying, we’ve met at the dinner party.” Lady Shan affirmed the opponent’s identity and quickly replied.

。 “So its sister Shan..... I heard you were stuck in Immortal City, meeting you here is truly good.” Lady Yan smiled slightly.

.....

Chu Mu said nothing, simply apathetically watching the truly wounded woman who was mature yet flirtatious.
