

Soul Pets Bk2 721

Chapter 721: Do you know whose fox demon is stronger now?

“Who’s the person beside you?” After confirming they were allies, Lady Yan told her three soul pets to step down.

“He’s Chu Chen, a patrol officer here like me.” Lady Shan said.

“Chu Chen, the first place battle of the realm young man?” Lady Yan acted surprised.

“Indeed.” Lady Shan nodded.

Chu Mu lightly glanced at Lady Shan, using his expression to tell the woman to shut up.

Lady Shan felt the action inexplicable, but since Chu Mu was so stern, she didn’t dare say more and shut her mouth.

“Show me your heavenly dew.” Chu Mu didn’t exactly believe this Lady Yan was one of the seven brave warriors, and was regretting that he didn’t ask Han Jinling the identities of the other six. Or else, he wouldn’t be unable to tell between Liu Binglan’s warriors and defector young woman’s subordinates.

Lady Yan looked blankly and forced a smile, “You don’t trust me?”

“Chu Chen, Lady Yan is an alliance leader level figure in Hunter’s Alliance. She can’t be part of the conspirators.....” Lady Shan felt that Chu Mu was being too cautious.

Chu Mu glanced coldly at Lady Shan again. She had already given up all his information in the few sentences she said, clearly putting him at a disadvantage.

Seeing Chu Mu’s icy glare, Lady Shan quickly shut up again.

“Take it!” Lady Yan took out the heavenly dew from the spatial ring and threw it to Chu Mu.

Chu Mu took the heavenly dew and looked it over in detail. After making sure it's the real heavenly dew he nodded and said, "En, what enemy did you encounter?"

"Shouldn't you give it back to me first?" Lady Yan saw that Chu Mu believed it and intentionally said angrily, seeming to be angry at Chu Mu's suspicion.

Lady Yan in reality still had lingering fears. She wouldn't have thought that Chu Chen was this young but still this cautious and experienced. What scared her, even more, was that Chu Chen actually knew about the heavenly dew, meaning he had some contact with another brave warrior!

Good thing he didn't seem to know who the other brave warriors were, or else this plan would have fallen through and may even cause her to get killed as well. Then she truly would have dug herself a hole!

"It's Duan Yi. I met Duan Yi of Qing Kingdom. I truly didn't expect him to give up all his honor for this and do such a vile thing!" Lady Yan said angrily.

"Duan Yi? Qing Kingdom master Duan Yi? He.....his reputation has always been good and his popularity has been great too. How could he be a conspirator that wants to destroy Tianxia City? That's.....that's impossible!" Lady Shan said surprisingly.

"In the past, I always thought he was a man of honor as well, but many spirit emperor gatherings, he many times had some questionable conduct towards me. That time, I already had my guard up against him. Yet, I only thought he was a little unscrupulous. I didn't expect him to do something like this!" Lady Yan said.

"Too terrifying. A kingdom master rebelling!" Lady Shan's heart was in shambles.

"Where is he right now?" Chu Mu asked.

"At the suppressing demon monument. After he hurt me, he will probably chase after me here." Lady Yan said.

Leng Lian was sure that Duan Yi would come because she stole his spatial ring and took away the heavenly dew. Now that Chu Chen and Lady Shan believed her, and with heavenly dew as proof, they would only believe her and not Duan Yi.

Of course, Leng Lian didn't plan on staying here for too long. After all, if she faced Duan Yi face to face, her lies won't be able to hold their own. She had to take Chu Mu down quickly and immediately leave.

"Chu Chen, do you have emperor rank healing medicine? My soul pets are hurt." Leng Lian asked.

"I have some." Chu Mu opened his spatial ring and took out the recovery and healing medicine.

"Then.....then please help my soul pets heal. I have two souls wounded and my mind was attacked as well, so I need to sit and rest for a bit before moving." Leng Lian said gently.

"Let me do this." Lady Shan said.

As she spoke, she went to take the medicine from Chu mu.

Leng Lian immediately furrowed her brows. Her goal was to make Chu Mu go near her soul pet and suddenly attack him to take him down. This Lady Shan being so proactive was truly annoying!

"Let me do it, you can go take a look at Lady Yan's wounds." Chu Mu said lightly.

As he spoke, Chu Mu brought the medicine towards nine tail demon fox.

Mo Xie's original species was royal flame nine tail inferno fox, a fire type subspecies of the nine tail demon fox species, an emperor amongst demon foxes.

This demon fox clearly was purely demon with no subtype.

Of course, demon types' attacks couldn't be belittled. Their instant damage was higher than even beast type soul pets sometimes, so they were often perfect for assassinations.

Chu Mu examined the nine tail demon fox and didn't say much before walking in front of it to examine its wounds.

This nine tail demon fox was similar to Mo Xie's original appearance, but it was more charming and less apathetic. Of course, this nine tail demon fox was already low class emperor rank. If Mo Xie weren't mutated to inferno monarch, she wouldn't be a match for this nine tail demon fox.

"You seem to be interested in my nine tail demon fox?" Leng Lian saw that Chu Mu was carefully examining it and said. She was intentionally trying to divert Chu Mu's attention.

"En, I have a nine tail demon fox too." Chu Mu nodded. As he spoke, he came around to behind nine tail demon fox and slowly applied the medicine on the nine tail demon fox's side.

Nine tail demon fox waved its tails and very calmly accepted Chu Mu's healing. However, if Chu Mu stood in front of it, he would definitely notice that the demon fox's expression was very strange!

"Ah, then who knows if your nine tail demon fox is stronger or if mine is?" Leng Lian laughed lightly.

Lady Shan had seen Chu Mu's seven sin fox corrupt inferno monarch. No matter its species rank or its imposing monarch aura, it was much stronger than this charming nine tail demon fox in front of her.

Immediately, Lady Shan was going to show off to Chu Mu. Her gaze fell on little Mo Xie and was just about to praise Chu Mu's inferno monarch.....

Suddenly, Lady Shan felt a powerful mental pressure flow into her mind, causing her to be unable to speak and collapse.....

A string of enchanting laughter sounded as Lady Shan stared wide-eyed at Lady Yan, "Lady.....Yan....you....."

Lady Shan could no longer speak, falling over onto Lady Yan. Her chuckles quickly became cold as she flipped around to grab Lady Shan's neck and stared daggers into Chu Mu.

Almost the moment Lady Shan was mentally assaulted, the nine tail demon fox getting healed suddenly moved!!

"Wuwuwu!!!!!!!" Nine tail demon fox suddenly stood up and released all its demon aura!

Its nine tails became powerful chains that flew towards Chu Mu that was just helping it heal!!

Soul pet trainers had to keep their distance with the opponent's soul pets to stay safe. If they couldn't do that, once they were attacked or restricted, victory was instantly decided.

At this moment, Chu Mu was standing right by the nine tail demon fox. At this distance, if the soul pet trainer had no preparation, there was no way he could dodge it!

“Kid, you’re careful, but you’re not careful enough!!” Leng Lian saw Chu Mu fall into the trap and started laughing!

The nine tails covered a huge region and blocked off almost all of Chu Mu’s escape paths. Yet, Chu Mu’s dragon type was still watched by Leng Lian’s Dark Devil Buddhist.

The dark devil buddhist is a ghost and demon type mix. One of Princess Jin Rou’s main soul pets was a Dark Devil Buddhist, so Chu Mu had seen it before.

At this moment, the dark devil buddhist suddenly attacked little hidden dragon as well, clearly wanting to instantly deal with Chu Mu and all his soul pets!

The chains flew and quickly locked together. As the tails flew over, Chu Mu simply stood calmly and let the tails surround him.

Suddenly, Chu Mu smiled, his handsome face starting to burn with an evil devil flame. His eyes instantly became a strange new color!!

“Huhuhuhu!!!!!!”

Devil flames started burning on Chu Mu. Almost the instant the nine tails locked together, Chu Mu’s body was disintegrated, and the nine tails only caught a quickly dimming flame.

Two hundred meters away, a bright sprout of devil flames appeared. Within the devil flames, Chu Mu’s body slowly appeared and stared at Leng Lian coldly!

Leng Lian stared shocked. She didn't expect Chu Mu to dodge the trap she had set up.

“Wuwuwuwuwu!!!!!!!!!!”

Suddenly, a fox call ripped through the sky. Also a fox species call, this call was much more dominating than the nine tail demon fox's!

Nine fox monarch tails marked with sin imprints appeared!!

They became even more powerful tail chains that quickly wrapped around the nine tail demon fox. Just after the nine tail demon fox stood up, it was tied back down and unable to move!

The dark red sin imprints flowed along the fox monarch tails and quickly went into nine tail demon fox's body, frenzily destroying everything in it. The nine tail demon fox quickly started spewing blood from both its maw and its wounds!

“Aohou!!!!!!!!!!!!!!!!!!”

Little hidden dragon roared, releasing its three types instantly. Before the dark devil Buddhist could even cast a technique, the little hidden dragon floated even ghostlier in front of the dark devil buddhist!

Dragon claw slapped down and sent the dark devil buddhist outwards, destroying countless palace walls!

She lost swiftly again. Just a few hours apart, Leng Lian faced the second unbelievable blow to herself. The smile of plotting successfully froze on her pale face as she looked at her nine tail demon fox restricted!

Before, Leng Lian noticed the little pet like cute fox that laid beside her nine tail demon fox. Yet, How could Leng Lian know that this little almost ornamental soul pet would instantly transform into a being even more terrifying than her nine tail demon fox!!

It was a being with a higher species rank than nine tail demon fox - seven sin fox corrupted inferno monarch!!

“Now, you know who’s demon fox is stronger.” Chu Mu smiled and said to Leng Lian, whose face was still frozen.

Chapter 722: Provoking the Defector Young Woman

The nine tailed demon fox was being suppressed by Mo Xie. It was only able to let out “wu wu wu” cries. It couldn’t even use a technique.

Although the small Mo Xie was a low class emperor, as she had continuously mutated, the number of species techniques she accumulated grew in number. When the difference in strength wasn’t too large, the small Mo Xie wouldn’t lose. Even if the nine tailed demon fox were to have a proper fight with Mo Xie, it would definitely be beaten down!

The Little Hidden Dragon burst with pure explosive force. Leng Lian’s other two pseudo emperors weren’t able to release a technique before being knocked into the rubble by a single claw and wing of the Little Hidden Dragon. Even if they could climb out, they weren’t of any threat to Chu Mu.

“You... recall your soul pets, or I will immediately kill her!” Leng Lian was able to keep her thoughts, and was able to realize that she could use Young Lady Shan as a hostage.

Young Lady Shan couldn’t move. Her throat was being gripped by Leng Lian whose long fingernails had penetrated her white neck, causing blood to seep out.

“Recall my soul pet? Are you naive? I had her go to you in order to exhaust your soul power. Do you really think I care if she dies?” apathetically said Chu Mu.

As he spoke, Chu Mu gave Mo Xie an order to attack, to use sin imprint strength to crush the nine tailed demon fox’s body until nothing remained.

The nine tailed demon fox’s body was rapidly destroyed. Blood spilled out from its eyes, nose, mouth and ears, as its life force quickly dissipated!!

The nine tailed demon fox’s defense was very weak and was instantaneously killed by Mo Xie. The sudden soul rupture caused Leng Lian to suck in a breath of cold air. Her body could ostensibly no longer bear it.

Young Lady Shan seized the opportunity and chanted a soul technique to abruptly run towards Chu Mu.

Leng Lian's fingernails were unable to deal any real damage to Young Lady Shan. When Chu Mu firmly gave the order to kill, she realized that she had truly miscalculated!

"You bastard. You already knew she was one of the plotters, yet you still had me stand beside her. Chu Chen, I hope you don't die a good death!" after Young Lady Shan escaped, her chest heaved as she began yelling at Chu Mu.

Chu Mu glanced at Young Lady Shan. It was just as Old Li had said, this woman had big boobs, but no brain. It wasn't that Chu Mu had the choice to warn her because with her intelligence, if he did warn her, Lady Yan would have been able to see through it. This would have made it extremely difficult for Chu Mu to force Lady Yan to expose herself.

Leng Lian saw that Chu Mu and Young Lady Shan were together, and subconsciously believed the two of them were very close to each other. Because Young Lady Shan had believed in her so naively, Leng Lian naturally thought that Chu Mu had also lowered his guard around her. The only blameable part was that she had underestimated Chu Mu. He was a cold-blooded killer that would kill both men and women. Unimportant people were unimportant; it didn't matter if you were a boy or girl.

"If you want to survive next time, don't easily trust others. Especially strangers." Chu Mu had basically given a lesson to Young Lady Shan. Chu Mu was not referring to only Leng Lian when he mentioned strangers, but also himself.

"You..." Young Lady Shan was so angry she couldn't say anything.

Chu Mu couldn't be bothered with her anymore. He had the Little Hidden Dragon get rid of Leng Lian's other two soul pets before walking up to the heavily soul wounded Leng Lian. With a single hand, he lifted her up.

"Let... let me live... live.... I will do anything for you." Leng Lian's face was pale. Her eyes glistened with pitiful tears as she looked at Chu Mu.

“How many people did your master hide this time in Immortal City?” sternly asked Chu Mu. He wasn’t going to fall for Leng Lian’s ploy.

“I... I don’t know...” Leng Lian weakly shook her head.

“Listen up. If you say anything false, not only will I kill you, but I will also make you wish you were dead. I believe that you should know what this is!” Chu Mu’s tone was cold. In his left hand slowly burned resentment flames that illuminated Leng Lian’s face in a pale white color.

“This... this is...” Leng Lian’s face was full of fear because the flames in Chu Mu’s hands were White Nightmare soul devil flames.

What was more painful or would make her more wish for death than slowly dying over a few days from a White Nightmare’s devil flames?

“Speak!” coldly said Chu Mu!

“I... I really... I really don’t know. All of us are located in different seals, and we don’t know each other. Only through the soul imprints the female master placed on our bodies are we able to communicate. Therefore, the mission orders are all told to us by a red haired leader which we then implement!” flusteredly said Leng Lian.

“Imprint, what imprint?” asked Chu Mu.

“It’s a mental imprint branded on our souls. Master gives us benefits, and we do things for her. We cannot betray her because the imprints on our souls are always in his hand.” continued Leng Lian.

Chu Mu creased his brows. He released his soul remembrance and forcibly searched Leng Lian’s soul.

Leng Lian thought that Chu Mu was going to destroy her soul. She trembled and was so frightened her face contorted!

After Chu Mu searched Leng Lian’s soul, he indeed discovered a mental imprint. This mental imprint immediately gave Chu Mu a familiar feeling.

“It’s an imprint from the defector young woman’s original body...”

The soul pact between Chu Mu and the defector young woman still existed. The mental connection between them was severed due to some ability of the defector young woman. However, since the defector young woman was able to communicate with these henchmen from such a far distance through this imprint, once Chu Mu came into contact with it, he would definitely be able to detect her thoughts.

The defector young woman was very far away, and Chu Mu could only feel a very weak mental connection. He couldn’t determine her location, but he still tried to use the mental imprint to incite the defector young woman.

.....

In the distant Wanxiang City.

In the pavilion of a rooftop garden, a woman wearing a noble golden mask stood there and stared at the far east...

She closed her eyes and was currently using the soul imprints she left in her henchmen to examine the status of the plan.

These henchmen of hers were like her chess pieces. None of them could escape her examination and if someone were to violate her intentions, she could release a mental wave that would make their souls tremble from even tens of thousands of kilometers away. This would let them know that their actions had violated her intentions.

Suddenly, the gold masked woman creased her brows, because she felt a familiar yet abnormally repulsive thought coming from one of the mental imprints in her chess pieces.

“Chu Mu!!” her hand suddenly gripped the fence, and her white fingers were pricked by the vines so that blood spilled out.

Her blood dripped onto the vines. It was as if the vine was injected with a hundredfold of growth fluid as if unexpectedly began to rapidly grow. The vines intersected with one another. It resembled

a tentacle monster that began to stretch out. In a short period of time, the entire flower pavilion was wrapped by this enormous vine. This gave the gardeners here extreme shock.

The woman's large chest began to heave. It could be seen that she was incredibly angry right now!

It was Chu Mu again!

Last time, because of Chu Mu, she had not only lost the Immortal Spring Water, but the Holy Stem Flower clone she had spent much effort into creating had perished. This also caused her to lose her control over all of Tianxia City.

Chu Mu hadn't actually interrupted her plan. After the matter was over, she calmed herself and felt that there was no need to be so upset over Chu Mu, this small figure. Indeed, to her, this woman who had waded into the enormous plot, Chu Mu was but an insignificant character.

However, she never expected that Chu Mu would once again appear in the midst of her plan, capture one of her chess pieces and then use the mental imprint on the chess piece's body to intentionally provoke her!

How would the female master know it was Chu Mu that was provoking her?

The mental connection between her and Chu Mu had already been sealed off through a powerful mental technique of her's. It was impossible for Chu Mu to transmit any mental messages to her. However, this time, Chu Mu had used her mental connection with a chess piece to forcibly give an order to her!!

"You want me to kneel?" the female master's face was full of disdain.

If the female master's strength was weaker than Chu Mu's, then Chu Mu's mental order perhaps would have forced her to do as he said. Unfortunately, the female master's mental power was much stronger than Chu Mu's. The mental order was practically like a breeze. There was no effect.

"Master, why did you suddenly use your noble blood to feed a warrior rank Flower Vine Demon?" a beautiful woman slowly walked over and asked a question in confusion.

"It's Chu Mu. He's appeared in my plans again." said the female master, calmly.

“Eh, this brat truly appears everywhere. I’ll just have Hong Fa kill him.” faintly laughed the beautiful woman. She didn’t take this matter seriously.

However, the beautiful woman discovered that the female master was in the midst of chanting an incantation. She seemed to be using some powerful mental technique.

The beautiful woman was stunned. She had seen the female master use this technique before. Everytime she gave Hong Fa an order, she would chant this incantation. But this time, the beautiful woman discovered that she didn’t seem to be targeting Hong Fa’s mental imprint. Instead, she was giving an order to a chess piece.

.....

“The person who shall kneel is you!”

A cold and haughty female mental voice transmitted over through Leng Lian’s mental imprint on her soul!

A smile rose on Chu Mu’s face. His incitement this time truly had effect!

At this moment, Chu Mu was able to clearly feel a trace of mental resonance with his first soul. This was the defector young woman undoing the mental block, using some powerful mental technique to create a mental bridge that transcended distance!

“I’ve said before that if I, Chu Mu, still exist, there is no way you’ll have an easy time!” Chu Mu’s mental voice transmitted through the mental bridge the defector young woman created.

“You are but a mouse. Even if you nibble through a wall, you won’t be able to destroy an entire city!” the defector young woman’s voice transmitted.

Chapter 723: The Magnate that Loves to Kill, Probing Blood Wolf Emperor

This was the first time Chu Mu had been compared to a mouse in his life.

Chu Mu's feeling wasn't wrong. This woman probably viewed him as a low class creature, just like other people. Even spirit emperors in her eyes were just chess pieces that could be casually tossed aside.

"The entire Immortal City is in your control, yet three of your henchmen were killed by me so easily? Moreover, it seems you haven't realized that the Binding Wind Spirit Saint Pet is about to be summoned by me?" mocked Chu Mu.

Chu Mu was certain that even if the defector young woman had the ability to connect through the heavens, she could not dispatch ten or twenty spirit emperors to Immortal City. After all, spirit emperors weren't omnipresent. According to his estimates, there were no more than ten spirit emperors from Underground Palace. Now that three had been killed by him, this was definitely a huge blow to the defector young woman.

Most importantly, the Binding Wind Spirit Saint Beast was about to appear. This ancient creature had incredible intimidation force to Immortal City. If the magnates that were just released were to fight against it one on one, they would definitely not be this saint beast's opponent.

"Hmph, it's just three chess pieces." coldly said the defector young woman.

Due to the mental resonance with Chu Mu, anything relating to Chu Mu would involuntarily affect her emotions. Although she really didn't care about their deaths, the summoning of the Binding Wind Spirit Saint Pet made her extremely unhappy!

"Master?" the beautiful woman softly probed.

She didn't wish for each time for the female master to lose her cool because of Chu Mu every time. This was no good even if the beautiful woman didn't actually know what relation the female master and Chu Mu had.

"The Binding Wind Spirit Demon Tower mission failed. The Binding Wind Spirit Saint Beast is about to be summoned by him." coldly said the defector young woman.

"He's that strong?" the beautiful woman revealed an astonished expression.

"Him being able to kill three of my underlings means that in these two years, his strength has greatly risen again." the defector young woman knew the more she talked with Chu Mu, the more

this would disturb her state of mind. She promptly cut off the mental bridge and stopped wasting her mental strength.

Maintaining a mental bridge at such a long distance was very exhausting, and there was no meaning in wasting mental strength only to be provoked by the other party or to argue. Thus in a short period of time, she managed to rein in her emotions.

However, Chu Mu's actions really did surprise the female master. The summoning of the saint beasts was extremely crucial to the Immortal City state of affairs. She didn't wish for her meticulously planned Immortal City chaos to go wrong!

"Have Hong Fa take action. There cannot be any hidden miscalculations." said the beautiful woman.

"Yes." the female master closed her eyes, and used the powerful mental technique again, creating a mental bridge over 10 thousand kilometers away.

On a bloody black slope in Immortal City, a red haired handsome man stood in solitary above a ten meters tombstone. From this black slope, one was able to see a huge portion of Immortal City. Right now, his gaze was focused on the city itself and he wore a smile on his face. This smile originated from his confidence and despise for others!

"Hong Fa! Pursue Soul Palace's Chu Chen and get rid of him." suddenly, a mental voice transmitted into his ear.

The arrogance from the red haired man's face didn't disappear. He perked his eyebrows and replied: "Soul Palace Chu Chen? The person who obtained first place in the Battle of the Realm and stole your Immortal Spring Water? You want me to take action against a person like this? Aren't you valuing that brat who only took slight advantage of you a bit too highly?"

"He's about to summon the Binding Wind Spirit Saint Beast. After you summon your Probing Blood Wolf Emperor, immediately get rid of the Binding Wind Spirit Saint Beast. If you can capture Chu Chen alive, do that. But if not, kill him!" the female master had already created two mental bridges today, and had consumed a lot of mental energy.

"If you want me to do something, I will give it my all." a respectful and confident smile arose on Hong Fa's face.

“I’ve already placed a mental tracker on him. You can use the imprint ring I gave you to find him. Don’t be careless!” said the female master.

“Don’t worry, I will gracefully deliver the thing you want to you.” said Hong Fa.

“Ok, after everything is over, I will give you the reward you deserve.” said the female master.

“You know what I want.” a smile rose on Hong Fa’s face again.

After speaking, Hong Fa felt the mental bridge cut off. Although he had said the last sentence very confidently, the female master hadn’t responded. This made Hong Fa a bit disappointed.

Shaking his head, Hong Fa stared at the large tombstone beneath his feet and said: “What you want, she can give you as long as you’re willing to help us.”

“Ao wu~~~~~”

Suddenly, underneath the ten meter high large tombstone, an incomparably miserable cry rang out!!!

This wolf’s cry caused the surrounding sealed stones to violently tremble as a dense bloody wind enveloped the black slope!!

“Don’t be impatient. I can release you, but you must promise me first to listen to my commands for now. Otherwise, after the ancient saint beasts are summoned, the chance you’ve waited for over a 100 years to escape will be lost!” continued Hong Fa.

"Ao wu!!!!!!!"

An impatient howl rang out again from under the sealed tomb. This second cry seemed to have been detected by the surrounding sealed creatures and guardian creatures who realized that something terrifying was going to happen. Unexpectedly, they began to flee in all directions, not daring to wander nearby!

Only a magnate level creature could create such a terrifyingly shocking effect!

Obviously, another magnate was about to be unsealed!!!

“Your reply was truly resplendent. Very good. I hope that our cooperation will be delightful.” a smile hung on Hong Fa’s face once again.

.....

An hour later

Hong Fa stood on top of a savage wolf which was dripping with fresh blood. He stared at the huge pile of guardian creature corpses around him.

This pile of guardian creatures numbered in the thousands and the lowest rank was a middle class monarch. Among them were few emperor rank creatures. Moreover, these guardian creatures had been completely slaughtered within a few minutes!!

Their blood had become the delicious food of this terrifying magnate level wolf emperor after it broke free from its seal!

It was no wonder that after its howl, so many creatures had fled as if their lives had depended on it. This bloodthirsty magnate creature would dye Immortal City in a bloody storm, leaving bloody death in its wake!

“Don’t worry. You just have to listen to me and perhaps you’ll even be able to enjoy the blood of ancient saint beasts. Their blood is a fine delicacy. Of course, before this, we need to kill someone. Although this is making a big fuss over a minor issue, this is the order of my master. You need to come with me. Oh, he should be accompanied by a saint beast Binding Wind Spirit and you should really enjoy its blood.”

“Ao Wu!!!!!!” the Probing Blood Wolf Emperor’s bloody fur began to flutter!

There was nothing more than the corpse mountain on the ground that could catalyze this magnate level creature’s savagery and bloodthirstiness!

This was a true slaughtering emperor!

.....

In the old location of the Binding Wind Demon Suppressing Tower's outer palace.

Chu Mu was merciless towards Leng Lian. After speaking, he had the Little Hidden Dragon end her life.

"You... you truly are merciless." Young Lady Shan looked at Leng Lian's corpse on the ground and spoke as her heart palpitated.

Young Lady Shan had seen Chu Mu's cold-bloodedness before. Even if Leng Lian, a woman, was crying and begging, Chu Mu still didn't blink and ended her life. If it wasn't because she had heard that Chu Mu already had a girlfriend, Young Lady Shan would have wondered if he was not interested in women at all.

Chu Mu ignored this woman's nonsense and took Leng Lian's two spatial rings.

Leng Lian was much more generous than Hao Ting and Yang Qi. She kept her spatial ring with her at all times and left much property to Chu Mu.

Chu Mu gave it a look. There were treasures worth approximately 50k spirits. This was extremely rare to come by and enough to create a low class emperor!

Of course, he had also taken all of Hao Ting and Yang Qi's emperor rank soul pet inner cores from their fight earlier. This was a total of 6k spirits from them. Added on the inner crystals from Leng Lian's soul pet, this number went up to 9k spirits, nearly 10k. Thus the total earnings this time was 60k spirits, which was quite a bit.

After all, Chu Mu had been worried about the 250k the Little Hidden Dragon needed to reach the tenth phase.

In the other spatial ring was naturally the vital spirit item to summon the Binding Wind Spirit Saint Pet, Heavenly Dew.

This spatial ring probably belonged to Qing Kingdom Kingdom Lord, Duan Yi. Aside from a few medicines, there weren't other items inside. Chu Mu naturally would return them to him.

"Young master, that woman probably will not just waste the huge amount of mental energy needed to construct a mental bridge with you. She probably left a mental imprint on your soul and has now sent experts to kill you." Old Li was a veteran and gave Chu Mu a warning.

"I know." Chu Mu nodded his head and said, "That's why I only mentioned summoning the Binding Wind Spirit Saint Beast."

Hao Ting and Yang Qi only reached the Immortal Ming Bird Demon Suppressing Monument through chasing Chu Mu. Therefore, the defector young woman probably wouldn't link their deaths to the Immortal Ming Bird.

"So young master is planning on setting a trap for the defector woman's underlings?" Old Li's eyes lit up.

"Yes, I've already told the Immortal Ming Bird to come over here. I'll kill as many underlings as she sends!" a smile rose on Chu Mu's face.

"This woman isn't simple. Since she knows you're about to summon the Binding Wind Spirit Saint Beast, there's a high chance she's attracted a magnate rank creature to head your way." Old Li warned Chu Mu.

"Don't worry, if there are more than two magnates, I'll immediately flee. I don't think that there are creatures in Immortal City that are faster than the Immortal Ming Bird and Binding Wind Spirit, right?" Chu Mu had already thought of a strategy.

"Haha, young master's thoughts are very complete. The Immortal Ming Bird is a pure wing type soul pet and there shouldn't be creatures in this world that can catch up to it. Added on the Binding Wind Spirit's ability to increase speed and slow down pursuing opponents, unless four magnates appear, there's no way they can be stopped." laughed Old Li.

Old Li discovered that Chu Mu's methods were becoming more and more proficient as well as experienced!

Chapter 724: Ancient Will, Sacred Pet Inheritance

After getting rid of Leng Lian, Chu Mu immediately went towards the binding wind spirit suppressing demon monument.

Halfway through, Chu Mu bumped into the anxious Duan Yi. After they exchanged identities, Duan Yi let out a big sigh of relief. If he couldn't summon the sacred pet binding wind spirit because his heavenly dew was stolen, even if he made it out alive, Duan Yi wouldn't forgive himself for the rest of his life for this mistake.

After reaching the suppressing demon monument, Chu Mu didn't have Duan Yi and lady Shan stay, instead telling them to go to the next suppressing demon monument.

"Are you not coming with us?" Lady Shan asked questioningly. Though she didn't say it, Lady Shan had to admit that Chu Mu's calm and wisdom was rare amongst soul pet trainers. With him, the chances of summoning sacred pets will be much higher.

"I have been locked onto by a conspirator. Not long after, they and giant organisms will find their way here. There isn't much meaning for you to stay around. You should instead go help the others awaken their sacred pets while I have their attention. This way, we have a greater chance of winning." Chu Mu said.

Duan Yi didn't say much and nodded, giving the heavenly dew to Chu Mu and said, "Since you can finish the incantation by heart, then I'll leave awakening the binding wind spirit up to you. We'll head on to the next suppressing demon monument."

Duan Yi had a natural trust in Chu Mu. After all, without him, he wouldn't have gotten the heavenly dew back..

Duan Yi and Lady Shan didn't say much. Chu Mu decided to stay and deal with the giant organism's and conspirators, so their use here was near zero. Their priority was to summon the rest of the sacred pets.

Before they left, Lady Shan walked up to Chu Mu and said after a long while of hesitating, “You be careful yourself.....also.....thank you for always saving me.”

“En.” Chu Mu nodded and stepped slowly into the spring.

”Seeing how indifferent Chu Mu was, Lady Shan was instantly embarrassed and angry, thinking to herself, “I was so serious in saying goodbye! Do I look ugly? Why don’t you even spare me an extra glance?”

After Chu Mu stepped into the spring and summoned the sacred pet immortal ming bird, Chu Mu found that he could very easily form some sort of communication through the ancient incantation. Thus, when summoning the other soul pets, the incantation really was just a formality.

When walking to the center of the spring, Chu Mu closed his eyes and started the incantation.

.....

His clothes lifted as an invisible ancient power surrounded the handsome young man. Through the reflection, the spirit emperors again saw Chu Mu’s figure and saw him about to summon the second ancient sacred pet binding wind spirit!

Xiang Yiyun’s two charming eyes stared at Chu Mu. Both the sacred ancient pets were summoned by Chu Mu. If they could alleviate this crisis, Chu Mu would definitely be the largest contributor. Then, Chu Mu in the spirit emperor ranks would definitely stand out as the star of Tianxia City, of his entire generation!

Initially, after Chu Mu rejected Xiang Yiyun’s seduction, she became very interested in Chu Mu. Now that Chu Mu was doing this many things, this mature woman had even better feelings for him.

Not only Xiang Yiyun; all the other spirit emperors were praising this young man from the bottom of their hearts. This man much younger than them was truly using his calmness, intellect, and strength to turn the situation around!!

“Sacred pet binding wind spirit! It woke up!!!”

In the sacred light, a small wind spirit slowly appeared in the reflection!

Another top tier emperor rank organism. Within, a few soul palace spirit emperors had their own binding wind spirits. Yet, compared to the noble son of wind, they all dimmed in comparison. They also had a deep desire that their binding wind spirit could someday become the same level as this sacred pet!

Sacred pet binding wind spirit slowly floated down from the sky. The spirit wind around it glowed with a special gold, causing the binding wind spirit to seem like it was forged in gold. Though it was small, one could feel the emperor aura it emitted, one that controlled all the winds of the world!

The moment the sacred pet appeared, an invisible wind hoop was released with Chu Mu in the center that continuously expanded, finally wrapping around a ten kilometer radius around the suppressing demon monument!

The wind hoop technique was something Chu Mu's Qin also had. It was a sensing ability that used air flow. Chu Mu's Qin could only cover less than a kilometer and needed an incantation for it. Yet, this sacred pet binding wind spirit didn't even need an incantation to feel everything within ten kilometers constantly!

This sensing ability, though it couldn't be as precise as the Calamity Spider Emperor's ability to sense airflow, spatial distortions, and ground vibrations, it was much larger in coverage!

The sacred pet binding wind spirit stood on Chu Mu's shoulder. Because Chu Mu had Qin, he would have an easier time communicating with this one.

“Qin~~~~~”

Binding wind spirit used its mental voice to tell Chu Mu to summon its kin.

Chu Mu followed its wishes and started an incantation to summon Qin in front of this ancient sacred pet.

Qin was already emperor rank, yet in front of this ancient sacred pet, it was still like a child. The difference in power, mannerisms, and age, were all too large, causing Chu Mu's binding wind spirit to feel anxious.

“Qin~~~~” Qin murmured, not knowing what its great ancestor wanted, asking tentatively.

Sacred pet binding wind spirit slowly floated in front of Qin and extended a long finger onto Qin’s forehead.

A sacred glow gathered on sacred pet binding wind spirit’s fingertip. Immediately, a golden energy flowed forth, becoming a surprising wind belt that covered a large space around!

“This.....Ancient Will..... sacred pet is passing down its Ancient Will to Chu Chen’s binding wind spirit!

Elder Ting was the first to shout out. Being extremely familiar with all the sacred pet information, Elder Ting dreamed that one day he would have such an opportunity, to let his binding wind spirit have the strongest species ability of binding wind spirit species!

What caused Elder Ting to be shocked was this ancient sacred pet binding wind spirit was passing this ancient will down to a young man, to a young man’s pseudo emperor rank binding wind spirit!!

“Ancient Will. Isn’t that the species ability that allows a binding wind spirit’s wind type controlling to double and to be able to channel uninterrupted even if it is heavily injured?” Palace Master Yu said amazed!

There were many wind type soul pets that reach monarch rank in binding wind sacred region. Yet, only the binding wind spirit was named a seven diagram sacred pet of soul palace. The main reason was because of this ancient will of the binding wind spirits. This ancient will was definitely an ability that all elemental world organisms dreamed to have!

Doubling elemental control meant doubling all its techniques powers. As for channeling, the use of it was apparent to anyone that has ever owned an elemental world soul pet!

Soul pet ranks can be strengthened through soul items, but species techniques can’t be gained, especially the extremely powerful ones like ancient will!

At this time, everyone who knew what ancient will was astonished. Their eyes were widened with shock and envy!!

“Qin~~~” Accepting the passing down of a species ability calmly, Qin very confusedly flew around Chu Mu’s body, not sure what its ancestor just passed onto it.

“How is it?” chu Mu didn’t know what the sacred pet did and asked casually.

“Qin~~~” Qin answered very innocently.

“Increased your control of wind by a little? Eh, it’s alright, better than nothing.” Chu Mu said with slight disappointment.

When what Chu Mu said was repeated by the people who knew lip reading, all the spirit emperors who were caught up in envy felt an urge to spit blood!

This kid truly knows no contentment! The amount of elemental organisms with ancient will in this world were countable on two hands! As long as it had this technique, no matter how low talent this elemental soul pet had, or how expensive the soul items are, these spirit emperors would feed it everything without hesitation!

“I wish I could choke this kid to death, what does he mean ‘better than nothing’?” Elemental sect sub sect master Xue Qing gnashed his teeth and said.

As Xue Qin said this, a few spirit emperors with elemental soul pets nodded heavily. Using those words to describe Ancient Will was an insult. Does he think a technique that all these old spirit emperors dreamed of having was about as useful as the insignificant technique “Wind Riding”?

However, just as Xue Qing spoke, the sub sect master caught a cold glare from Liu Binglan.

Xue Qin quickly shut up!

The person who is happy for Chu Mu is naturally Liu Binglan. The Ancient Will was extremely hard to get. Chu Mu’s binding wind spirit was now limitless in its future. Once it is strengthened more, its use in battle will be unforeseeable!

.....

Sacred pet binding wind spirit after finishing its passing down of inheritance, started putting down a very wide range wind belt. This wind belt was basically the sacred pet binding wind spirit's territory.

Since it was readying to fight a giant level organism, some preparation work was necessary!

“Qin~~~~~”

After finishing the wind territory, Binding Wind Spirit floated in front of Chu Mu to notify him that it feels a very thick and violent scent floating over!

After a while, the violent scent that the binding wind spirit described wafted into Chu Mu's nose as well.

“Only one, good, this giant organism will fall prey to our trap!” Chu Mu smiled. He looked into the sky.

Ten thousand meters high in the sky, the sacred pet Immortal Ming Bird was silently spiraling and watching down at everything with its wise eyes!

Chapter 725: A Large Fish Took the Bait

Sacred Palace's spring lifted with a ripple. This ripple was caused by a power able to affect things through space!

Able to cause the sacred spring to ripple uneasily meant the giant organism finally appeared!!

“What is Chu Chen doing?” For two whole hours after Chu Mu summoned the binding wind spirit, he didn't leave, instead of waiting at the suppressing demon monument.

The priority at hand was to rely on binding wind spirit to summon the other sacred pets. What caused everyone to be confused was why Chu Mu stayed in place. Is he waiting intentionally for the giant organism to appear?

Chu Mu's actions caused everyone to be confused. Now that the spring moved, it meant that the giant organism appeared!!

"One sacred pet can't kill a giant organism. Chu Chen is wasting time!" Female kingdom master was very dissatisfied at Chu Mu wasting two hours in place.

Time was limited. Dodging the giant organisms and summoning sacred pet was the way to go. With these two hours, if he brought the binding wind spirit with him, he may have gotten to the next suppressing demon monument and summoned a third ancient sacred pet!

"He wants to fight, truly don't know what he is thinking!" Elemental sect Xue Qing said.

Everyone knew that it wasn't time to fight right now.

Yet, no matter how people complained, they couldn't influence Chu Mu's decision through space.

Chu Mu believed that he had successfully taunted the defector young woman. The defector young woman will definitely send someone to kill him, and he had to give her a sweet blow of revenge back!

The violent scent that came through the wind caused Chu Mu to have difficulty breathing. This was a top tier emperor rank's aura!!

After seeing Immortal Ming Bird and Calamity Spider Emperor fight, Chu Mu knew clearly just how powerful the top tier emperor rank is, and at the same time solidified Chu Mu's yearning to become more powerful!!

his plot in immortal city made Chu Mu clearly realize that the defector young woman, in both strength and wisdom, far surpassed what Chu Mu imagined!

"Aowu~~~~~"

A long roar came from far at the horizon. The giant organism didn't disguise itself at all, recklessly releasing its powerful and overwhelming emperor aura. Its wildness and courage wasn't something the Calamity Spider Emperor could have!

Chu Mu looked on. In the dark horizon, the color of blood approached like a tidal wave, swiftly covering the ground towards them!

Wild, Violent, Bloody!

The giant organism's aura caused all the organisms in a ten kilometer radius to scatter. The wing type defending organisms were all scared and sent flying further into immortal city!

"Young master, this fellow is extremely bloody!" Old Li said.

Chu Mu nodded and glanced at the golden sacred pet binding wind spirit and said, "First give it a taste of your power!"

Binding wind spirit gazed at the blood rolling down the horizon and slowly closed its eyes to start an incantation!

Full of chaotic golden squalls, the wind belt suddenly stirred. As the sacred binding wind spirit's spirited chanting sounded, the powerful wind belt that covered the nearby kilometers started shifting as a whole, slowly gathering together!

The golden wind swirled and transformed into a storm that reached a few kilometers!!

Chu Mu's Qin could create a hurricane at most one kilometer in width, and this sacred pet binding wind spirit controlled a wind type power crystal that was ten times more powerful than Qin's!

"Huhuhuhuhu!!!!!!!!!!!!!!!"

His ears filled with golden winds as Chu Mu's vision was instantly filled by this magnificent golden storm!!

Finally, the technique finished gathering. The binding wind spirit let out a long call. Instantly, the massive golden hurricane that swallowed the nearby region became a massive snarling beast that stormed forth, bringing rumbling as it swept towards the horizon!!!

Though the golden hurricane was massive, it was extremely quick. In a short moment, it already left far away from Chu Mu's vision, going towards the arrogant emperor rank organism!

Sacred pet binding wind spirit's technique and wind control showed Chu Mu a whole new world. The technique's power alone caused Chu Mu's heart to shake.

Through the rumbling, Chu Mu could hear the howl the giant organism let out as it got hit by the golden hurricane!

A few kilometers out, the golden hurricane slammed into the rolling blood tide. Immediately, the collision of beast type and wind type gathered together into another force that went even further away!

What was shocking was, a moment after, the entire city area became ruins!!

"Qin~~~~~" Seeing this destructive scene, Qin on Chu Mu's shoulders let out a small mumble.

"You'll reach that stage sometime too." Chu Mu knew what binding wind spirit was thinking and comforted.

In the following battle, the top tier emperor rank and top tier emperor ranks collided. For safety's sake, Chu Mu retracted Qin and little Mo Xie, leaving only the ghost type little hidden dragon.

The golden storm started dispersing. Within the chaos, Chu Mu saw a blood red silhouette advance towards Chu Mu at a speed he couldn't even comprehend. The sacred pet binding wind spirit's golden hurricane seemed to pose no obstruction to it!

"Such a terrifying speed!" Chu Mu was greatly astonished!

If the organism had such speed, Chu Mu may not even see its true form after a whole battle!

"Young master, you should just stand by and watch. At this level, you have no chance in commanding, you're truly too far behind." Old Li said.

"That may not be true!" chu Mu was just surprised, but he definitely wasn't useless.

Immediately, Chu Mu started his own incantation!

After it completed, Chu Mu's eyes became a strange swirl and glowed with a strange color, becoming special pupils!

Other Pupil. Through this technique, Chu Mu could definitely see the actions of the top tier emperor rank soul pet

Indeed, after casting Other Pupil, Chu Mu could finally discern the figure in blood red. What caused Chu Mu to get frightened was the giant organism that was running over was a wolf species emperor!

And, on the wolf species emperor there stood a man with a head of red hair. This man's eyes were staring at Chu mu, showing arrogance and distaste, clearly not thinking much of Chu Mu.

"He's probably the man the woman sent to kill me!" chu Mu smiled.

From this red-haired man's aura, one could tell he was definitely powerful. No one knows how long he had to stay in the immortal city to get enough rotten aura to avoid getting targetted.

Chu Mu and little hidden dragon slowly started rising into the sky as he told the binding wind spirit to continue to cast wind type techniques to attack the wolf!

The Probing Blood Wolf Emperor's claws were very scary, powerful enough to rip apart the golden wind forces that the sacred pet binding wind spirit sent at it. However, the sacred pet binding wind spirit had already set up a wind territory around the area. The Probing Blood Wolf Emperor couldn't easily break through this barrier to attack the binding wind spirit directly.

The Probing Blood Wolf Emperor remained in running as it dodged sacred pet binding wind spirit's attacks and also looked for an entrance into this golden wind barrier, its violent eyes constantly staring at the sacred pet binding wind spirit!

"Though I don't know how a character like you got the attention of master, you have to know that, even if you do something that makes master crinkle her nose a little, you only have one path left for you: death!" The red-haired man used mental voice to say to Chu Mu.

With his tone, he didn't view Chu Mu as a foe at all. From what the red-haired man could see, Chu Mu was only lucky in releasing the sacred pet binding wind spirit. The red-haired man had the Probing Blood Wolf Emperor, so the binding wind spirit couldn't really do much to him. Killing Chu Mu was easy to him.

"Your master is my slave." Chu Mu replied lightly.

"Outlandish!! Master is the noblest person in the world!!" Red-haired man immediately creased his brows and scolded.

"She once stood utterly naked in front of me, begging to be my slave." Chu Mu said calmly.

Chu Mu spoke only the truth, while his tone left no room for dissent!

"You're full of gibberish, I will rip your mouth apart!!" Red-haired man said furiously.

His love for the female master was already fervent. Chu Mu's words defiled the most sacred and perfect goddess in his heart!

Seeing the red-haired man angry this quickly, Chu Mu laughed. The woman truly had charming down to an extreme, causing even such a level of spirit emperor to fall prey!

"Probing Blood Wolf Emperor, I'll leave the binding wind spirit to you, I'll go slay that kid!" Red-haired man suddenly leaped off of the Probing Blood Wolf Emperor's back and started chanting a new incantation!

The Probing Blood Wolf Emperor was much more bloodthirsty than the Calamity Spider Emperor. Its cruel eyes stared constantly at the sacred pet binding wind spirit, unable to wait to drink its blood!

Sacred pet binding wind spirit was unusually calm in this situation. It chanted its incantation rhythmically, constantly whittling down the Probing Blood Wolf Emperor while the wind barrier was still in place.

Chu Mu knew that once the sacred pet binding wind spirit and Probing Blood Wolf Emperor fought head-on, it couldn't guarantee his safety, so Chu Mu rode his little hidden dragon up under the protection of the wind barrier and slowly left the two top tier emperors' battle.

At this time, the red-haired man was already riding a massive eagle with two wings icy blue, flying into the air to fight Chu Mu!

"An ice sub type Cruel hawk Emperor, this is a wing type soul pet very close to high class emperor rank!!" Old Li saw the organism that red hair summoned and let out a small cry of surprise!

Near high class emperor!!

Able to have such a powerful soul pet, this was very near elder level power. Such a human expert being loyal to defector young woman was truly surprising.

"The more powerful the better!" Chu Mu smiled.

This red hair was a large fish! If he trapped him and killed him, even the defector young woman would go crazy!

Chapter 726: Closing the Net, Slaughtering Hong Fa

As Hong Fa ascended into the skies on his Cruel Hawk Emperor, the people on the other side of the reflection spring were able to see a soul pet through the gold color wind belt.

"Cruel Hawk Emperor. Isn't that spirit emperor Hong Fa's main pet?!" Hai Qiu immediately recognized this soul pet!

Spirit emperor Hong Fa. No one knew what his real name was. He wasn't a spirit emperor from Tianxia Realm, but often frequented this realm, and his reputation was huge!

In terms of strength, he was in the middle class or middle-upper class among the spirit emperor camp. An expert like this would have the position of a Great Palace Lord in any major faction or even the position of an elder!

“So many spirit emperors have appeared in Immortal City. When exactly was this organization created? How could it have pulled in so many experts to do its bidding!” Holy Guard Leader Zhuo Nong said in a low voice.

“If it’s Hong Fa, Chu Chen is in big trouble. The Binding Wind Spirit Saint Pet needs to deal with the Probing Blood Wolf Emperor, and is unable to protect him!” Xiang Yiyun worriedly said.

“Chu Chen was too reckless this time. I hope he’ll be able to use his specter type dragon to escape.”

Chu Mu could not deal with Hong Fa. Thus, this battle was a miscalculation.

Liu Binglan stood beside the spring. Even if she had Xing He use its space-transcending attack again, it would be of no avail, because the opponent had a Cruel Hawk Emperor that was between a middle class and high class emperor. A pseudo emperor technique wouldn’t have any effect.

Chu Mu continued to rise up into the air, gradually transforming into a small black dot in the reflection spring. He seemed to completely meld into the clouds in the sky.

Although Chu Mu was continuously ascending, he was still continuously protected by the Binding Wind Spirit Saint Beast’s wind crystallization. Thus, it was difficult for Hong Fa’s Cruel Hawk Emperor to attack Chu Mu.

“Do you think I won’t be able to do anything if you hide in the binding world?!” Hong Fa had a face of contempt, as he stood on the Cruel Hawk Emperor’s back.

As he spoke, Hong Fa chanted an incantation!

A black turbid wind coiled around his body, transforming into a turbid wind pattern. From within the pattern appeared a Turbid Wind Fairy Emperor!

The Turbid Wind Fairy Emperor was another middle class emperor rank soul pet!!

“Open the binding world!” Hong Fa gave an order.

The Turbid Wind Fairy Emperor's body began to spin, transforming into black moon wind blades that slashed the golden wind binding world.

At this altitude, the Binding Wind Spirit's wind binding world was extremely weak and could not stop a middle class emperor's continuous attacks.

"Haha, even if you know to be scared now, it's too late!" Hong Fa discovered that Chu Mu was no longer happy and he cracked a smile.

Of all the spirit emperors in Immortal City, none of them could deal with Hong Fa's strength. Hong Fa guessed that this brat had classified him among the low class emperor trash. So when he summoned multiple middle class emperors, how could this brat not be flustered?

"A specter type dragon is very special. But you still can't escape!" after opening the binding world, Hong Fa discovered that Chu Mu wanted to flee and he quickly chased after Chu Mu and the Little Hidden Dragon!

Chu Mu was 300 meters away from Hong Fa. When he saw Hong Fa chase after him without any caution, Chu Mu knew it was time to close the net!

"You're truly pitiful!" Chu Mu looked down at Hong Fa. The shock on his face disappeared, and a cold light flickered in his eyes!

An expert nearly at the high class emperor rank would undoubtedly have a lot of power and status in any region. Unfortunately, this spirit emperor had fallen into Chu Mu's trap of provoking the defector young woman!

Seeing Chu Mu's expression instantly change, although Hong Fa didn't pay much heed to it because of his arrogance, for some reason his heart began to violently beat!

"Immortal Ming Bird, kill him!" Chu Mu raised his head, and spoke to a patch of dark clouds!

A sacred light suddenly appeared from the dark clouds. It created a gorgeous curtain of light that shined down like a sacred sun!!

"Ming~~~~~"

The Immortal Ming Bird had already locked onto Hong Fa. Its noble body was wrapped up by immortal light. It extended its wings and created fierce wing blades in the curtain of light!!

“Immortal... Immortal Ming Bird!!” Hong Fa went pale with shock. His expression was completely the opposite of Chu Mu’s. The disdain on his face was now completely non-existent!

Hong Fa flusteredly ordered his Cruel Hawk Emperor to dodge!

However, this was all futile. The full strength attack of a peak emperor rank soul pet could instakill a high class emperor. Thus, the Cruel Hawk Emperor, which wasn’t even a high class emperor couldn’t even dodge this terrifying spatial attack!

“Shua!!!”

The Immortal Ming Bird’s wings were like golden sacred swords that split the sky for ten thousand meters and slashed down - beautifully, at the Cruel Hawk Emperor!

“Puchi~~~~~”

The Cruel Hawk Emperor’s body was split into two pieces!!

Fresh blood spilled out from the two pieces, all splashing onto Hong Fa’s body!!!

Right now, not only was this spirit emperor’s hair red, but so was his entire body from the blood of his dead soul pet!

“Ming!!!!!!”

After instakilling the Cruel Hawk Emperor, the Immortal Ming Bird extended its wings and came to a stop in the sky. Its sharp eyes stared at the Turbid Wind Fairy Emperor!

Under this peak emperor’s gaze, the Turbid Wind Fairy Emperor was only able to use a wind type protection technique on Hong Fa before being unable to chant anything more. Its body was frozen in place!

The Immortal Ming Bird's gaze turned increasingly cold like sharp swords that pierced the Turbid Wind Fairy Emperor's mind and through its brain!

“Pi!!!!!!”

Suddenly, an incomparably miserable cry rang out!!

The body full of turbid air suddenly began to collapse from the inside!!

The miserable cry only lasted a very short period of time, until it disappeared along with the middle class emperor rank Turbid Wind Fairy Emperor itself. The only thing left was its inner crystal which dropped from the sky!

Despite the pain from his soul being ruptured, Hong Fa reacted rather quickly. He wasn't killed along with the Cruel Hawk Emperor. In his panic, he was able to use a wind type soul technique to instantly flee a thousand meters away.

If this was a high class emperor rank soul pet launching a hidden attack on him, Hong Fa would have abandoned the Cruel Hawk Emperor in the situation of life or death, while having the Turbid Wind Fairy Emperor use a wind type defense, and he himself used a fleeing soul technique. This way, he would be able to cleverly escape from the killing.

Unfortunately, Hong Fa had encountered a peak emperor!!

Even if he had fled a thousand meters, the Immortal Ming Bird would be able to catch up to him within a few seconds after killing the Turbid Wind Fairy Emperor!

In these few seconds, Hong Fa had completed a dual summon, clearly attempting to abandon another two middle class emperor rank soul pets so he could escape.

“Capture him!” Chu Mu immediately said to the Immortal Ming Bird.

The Immortal Mind Bird swooped down from the sky. It ignored Hong Fa's two middle class emperor rank soul pets. It folded its wings and dodged their attacks, appearing in front of the rapidly descending Hong Fa.

Chu Mu had lured Hong Fa to an altitude of 7000-8000 meters. During the time it would take for Hong Fa to fall to the ground, the Immortal Ming Bird would be able to take its time, and wait for Hong Fa to summon all of his soul pets and then kill them all before capturing him.

However, in case Hong Fa had other special means, Chu Mu had the Immortal Ming Bird deal with Hong Fa first just in case something went wrong.

Indeed, Hong Fa really did have a last resort methods!

The necklace on his neck rapidly transformed into an Ocean Shield as the Immortal Ming Bird approached. Unexpectedly, it was able to block one of its attacks!

The Immortal Ming Bird was extremely surprised. It never expected this weak human had the ability to block its attack.

However, this didn't affect its ability to capture Hong Fa!

The Immortal Ming Bird continued to swoop down. The feathers on its body transformed into light swords that rapidly attacked the Ocean Shield!

"Pai!!!!!!!"

Under these attacks, the Ocean Shield was shattered!

When the shield shattered, Hong Fa's face instantly went deathly pale, because he no longer had any means to stop this peak emperor creature from approaching!

"Sou!!!!!"

The Immortal Ming Bird beautifully descended and its white claws sunk into Hong Fa's stomach. It grabbed onto Hong Fa's sternum and lifted him up in midair!!

Ah!!!!!!”

Hong Fa let out a painful howl as his body violently writhed!

He couldn't do anything about the Immortal Ming Bird's claws. The more he struggled, the more it hurt!!

The Immortal Ming Bird lowered its head and a sharp light flickered in its eyes again, transforming into two mental streams that pierced Hong Fa's mind and dealt a heavy blow to his soul!

Hong Fa's five orifices were congealed together and as he painfully howled, blood began to spurt from his neck.

In the eyes of the peak emperor rank Immortal Ming Bird was like a baby - unable to stop it at all!

After Hong Fa's soul was destroyed, the Immortal Ming Bird loosened its claws. It softly beat its wings and broke Hong Fa's bones all over his body. It then casually tossed Hong Fa to Chu Mu.

The Immortal Ming Bird naturally wouldn't forget the two mosquito-like middle class emperors behind it. Its cold eyes locked onto them!

It probably wouldn't be long before the skies would spill with their blood.

“Sha sha sha~~~”

The Little Hidden Dragon beat its wings, taking delight in their slaughter. After they died, it did as Chu Mu ordered and collected their inner crystals.

A middle class emperor's inner crystal was worth 10k spirits. Quickly, there were four of these corpses, meaning there were 4k spirits. This was quite a big profit!

Chapter 727: Hunting the Probing Blood Wolf Emperor (1)

“This.. the Immortal Ming Bird Saint Pet! When did it get here!”

Seeing the stunning body of the Immortal Ming Bird, the dark clouds in the spirit emperors’ hearts disappeared, and an excited smile appeared on their faces!

Even if Hong Fa was stronger, he would still not be its opponent!

“So Chu Chen was prepared for this!” Xiang Yiyun patted her tall breasts, and her beautiful face was all smiles.

“Chu Mu intentionally stayed here...”

Right now, everyone abruptly realized that Chu Mu was hunting magnate rank creatures!

Although noone knew how Chu Mu had lured the Probing Blood Wolf Emperor here, they realized he had the Immortal Ming Bird hide in the clouds and sneak attack Hong Fa!

The Immortal Ming Bird and Binding Wind Spirit saint beasts are extremely fast soul pets. The Probing Blood Wolf Emperor doesn’t have an escape technique like the Calamity Spider Emperor. If the two saint beasts join hands, they will definitely be able to defeat this magnate!

“This brat’s guts are too big! However, there’s really a chance they can kill a magnate. If so, this will have gotten rid of a huge enemy!”

All of the spirit emperors had been focused on summoning the other ancient saint pets to ensure a greater chance of victory. They didn’t really consider hunting the other magnate level creatures, because the current saint pets were at a disadvantaged state. If a large fight were to break out, these two saint pets would be killed by the magnate creatures.

However, Chu Mu had done the unexpected and flipped this logic around, hunting a magnate level creature!!

If he was really able to succeed, killing a magnate was equivalent to summoning a saint beast!

.....

Hong Fa's two middle class emperors were unable to stop the Immortal Ming Bird's techniques. Quickly, blood stains and two corpses appeared in the air.

The Little Hidden Dragon beat its wings. Its dragon claws had a few blood stains on it, but within the claws were now two inner crystals.

The Little Hidden Dragon maintained a certain altitude as it peered down at the thousand wave-like energy wave on the ground. It looked very happy as it watched the commotion.

On the Little Hidden Dragon's back, Chu Mu was stepping on Hong Fa, who was now spitting blood. He was beginning to plunder the treasures on Hong Fa.

Hong Fa only had two rings on him. One of them was the spatial ring he would always carry on him while the other was a tracking ring.

Hong Fa carried a lot of spirits in the usual spatial ring. A total of 50k spirits.

Aside from the 50k spirits, there were two second rank emperor soul crystals which were worth 50k spirits.

All together, Hong Fa had a total of 10k spirits on him. This was considered extremely wealthy among spirit emperors!! After all, when most spirit emperors obtained spirits or spirit items, they wouldn't store them away but rather immediately use them to strengthen their soul pets.

At the spirit emperor level, each soul pet trainer would have over ten soul pets and each one of them needed to be strengthened. This would require a ton of resources, meaning that there was no soul pet trainer who would ever claim he had too much money.

As for the tracking ring, Chu Mu gave it a search. He discovered a dense aura from the defector young woman on it. Presumably Hong Fa had obtained it from her, and an even higher ranked mental imprint from the defector young woman should be on it.

"I'll represent the Tianxia competition authority to seize your assets. As for you yourself, I don't think there's any use in you remaining alive." righteously said Chu Mu as he looked at Hong Fa, covered in blood.

Hong Fa's eyes were filled with an unresigned expression. The person stepping on his head right now was clearly someone who he could easily crush to death. Yet, due to his negligence, he had fallen for his trap!

This was an unprecedented feeling of shame!

Each spirit emperor's growth was filled with difficulties. Hong Fa had relied on his own strength to reach this point today. However, since he had chosen to make Tianxia City an enemy, he should have already been prepared to die with the cause!

.....

Wanxiang City, the flower garden pavilion.

The beautiful woman lowered her head, and didn't dare say anything to the female master standing next to her.

The female master was still wearing a golden mask. Although she remained calm and collected in front of one of the Sixteen Absolutes - Long Jue, right now, one could feel her hand tremble from time to time out of anger!

"Di Ji is a bit unwell today; please return Senior Long Jue. Di Ji will consider what you just said." The beautiful woman saw that the female master's mood was not good. She was afraid that the acute Long Jue, who was ranked second in strength among the Sixteen Absolutes, would notice something. Thus, she didn't want this man to stay here longer.

"Sure. Then go rest, Di Ji." the man nodded his head. He gave a simple parting phrase before leaving.

The female master watched Long Jue leave. Although she wore a golden mask, it was possible to see the gloom on her face!

"He was indeed trash!" the female master had already reminded Hong Fa not to be negligent because Chu Mu would definitely be accompanied by saint beasts.

Ultimately, Hong Fa hadn't listened to her warning and had been easily killed by the opponent!

"Hong Fa was a genius. It's just a pity he was impatient, conceited, and not shrewd enough. A person like this can only be used as cannon fodder. If he dies, he dies. There's no need to feel regret over him, master." said the beautiful woman.

"Regret? The tracking ring on him was taken by Chu Mu. This ring can increase mental interaction and if his soul remembrance is slightly stronger, he'll be able to sense my location!" the female master's voice was extremely cold!

"Sense your location? You still have a special mental connection with him?" asked the beautiful woman, confused.

The female master waved her hand, indicating that she didn't want to answer. She didn't want anyone to know that she had signed a soul pact with this man she had called a mouse, that she was his soul pet!!

Of course, the female master now had to reevaluate the contempt she felt for Chu Mu because he was now gnawing through not only a wall, but was also gradually beginning to take control of the whole situation!

"This Chu Chen isn't simple. Master has to carefully deal with him." the beautiful woman had also changed her attitude of contempt towards Chu Mu.

The female master obviously knew that she had been defeated by Chu Mu in this round. She, who had thought of this plan extremely meticulously and bided her time, had been delivered a resounding slap to her face. This was an exceptionally uncomfortable feeling!

.....

Immortal City.

There was a chance the violent, savage and bloodthirsty Probing Blood Wolf was going to perish due to the arrogant Hong Fa!

Compared to a peak emperor rank soul pet, the Probing Blood Wolf Emperor's life was much more important than Hong Fa and his soul pets. Therefore, when the Probing Blood Wolf Emperor saw the Immortal Ming Bird appear, it didn't dare continue the fight, and began to flee into the depths of Immortal City.

Unfortunately, the Binding Wind Spirit had intentionally lured the Probing Blood Wolf Emperor into its wind binding world. By the time it realized that there were two saint pets here, its body was being continuously bound by binding wind!

“Aowu Aowu!!!!!!!”

The Probing Blood Wolf Emperor let out a mad howl. Its howl pierced through the wind binding world, reverberating far into Immortal City!

Clearly, the solitary-minded Probing Blood Wolf Emperor was seeking help from other magnates!

The magnates were all extremely intelligent. Right now they all had a common goal - to destroy the Departed World Gates. At the same time, they had a common enemy of the Seven Diagram Saint Pets.

Therefore, when the other magnates heard its howl, they would immediately rush over to assist. Otherwise, their side would be weakened!

“Ming~~~~~” the Immortal Ming Bird circled in the air, giving a cry to Chu Mu!

“You're saying that before you came here to hide, you were being watched by a few magnates?” asked Chu Mu.

“Ming~~~~” the Immortal Ming Bird was at a disadvantage, and had been chased by the other magnate creatures. If it wasn't because there were no wing types among the magnate ranks, the Immortal Ming Bird wouldn't have been able to lose them and come here to help Chu Mu ambush the Probing Blood Wolf Emperor.

“Tell me earlier next time...” Chu Mu bitterly laughed.

The ambush this time had succeeded. However, there were other magnate rank creatures chasing the Immortal Ming Bird. The Probing Blood Wolf Emperor's howl was equivalent to informing the other magnate ranks of the saint pets' location. It probably wouldn't be long before other magnates arrived!

"Are you certain you can kill the Probing Blood Wolf Emperor before they arrive?" Chu Mu immediately asked the two saint pets.

"Ming~~~" the Immortal Ming Bird indicated there was a chance they could do so, but this chance wasn't very big.

"Qin~~~~~" the Binding Wind Spirit indicated that it could kill the Probing Blood Wolf Emperor.

The two saint pets gave different answers, making Chu Mu speechless.

"Even if you can't kill it, you must heavily injure it, so that it won't pose a threat to you at least for a while." said Chu Mu.

The Binding Wind Spirit's golden vortex descended from the heavens. It practically swept up all of the shattered earth into the sky, gradually turning a turbid color!

The Probing Blood Wolf Emperor was extremely fast. Chu Mu had to use Other Pupil in order to barely see its movements!

This peak emperor rank wolf was extremely crafty. While fleeing, it wouldn't continuously change paths. There were many times it would take light wounds just to dodge the two saint beasts' techniques!

The two saint beasts truly did have the strength to kill the Probing Blood Wolf Emperor. However, this required a bit of time and right now it came down to when the other magnates arrived.

As for Chu Mu who was still in the air, he could only watch from afar.

Immortal City was divided into several sealed districts. From 5000 meters in the air, although much of his vision was covered by rotten aura, he was able to see the situation in several other districts.

The southern sealed districts were filled with thousands if not ten thousands of guardian and sealed creatures. These creatures were wandering very orderly in their territories, covering the large and small ancient streets...

Suddenly, Chu Mu discovered that an army of sealed creatures that looked like black dots in that district seemed to have obtained some signal and began to quickly disperse!

Immediately after, Chu Mu saw a surging hundred meter high earth wave that swept through the streets in this district. It destroyed a huge number of sealed stone houses and began to approach the Demon Suppressing Monument!

“It’s the Calamity Spider Emperor!!!” Chu MU creased his brows. He never expected that the first to arrive was this ugly magnate!

Chapter 728: Hunting the Probing Blood Wolf Emperor

The dirt waves lifted in thousand layers, causing the region to become muddied, sending dust into the air!

The Calamity Spider Emperor’s speed was much slower than the Probing Blood Wolf Emperor, but its offense and poison were extremely scary.

“This fellow’s leg grew back out!” Chu Mu noticed from far away. Originally, the Calamity Spider Emperor had a leg cut off by the sacred pet Immortal Ming Bird, but it had an eight full legs now.

In this resource-barren immortal city, the calamity spider emperor could only recover its leg through its own regeneration. Bug type organisms were indeed like this; if you don’t kill it in one go, it would quickly regenerate after a while and have its original fighting strength!

Through the rolling smoke, Chu Mu continued to stare in a direction, trying to see further, because he believed that there had to be more than just the calamity spider emperor approaching!

Indeed, within the large dirt wave and demon cloud, Chu Mu found that a dark ghost shadow followed behind the calamity spider emperor, barely visible!

The ghost shadow didn't try to intentionally hide its stature and aura, or else a ghost type top tier emperor rank soul pet wasn't something that Chu Mu could see even with Other Pupil!

"What's that ghost shadow?" Chu Mu asked Old Li.

Old Li shook his head and said, "I only recognize top tier emperor ranks that were sealed away last century. This ghost shadow is probably a recently sealed organism. It seems very hard to deal with, since even the calamity spider emperor is willing to lead the way for it."

"If it's ghost type, then escaping will become much tougher!" Chu Mu said.

"Indeed, let the two sacred pets quickly kill the Probing Blood Wolf Emperor. Or else, once the ghost type top tier emperor rank came, escaping will be incredibly tough for us!" Old Li said.

Chu Mu nodded. He was just about to tell the two sacred pets the distance the giants were, yet the heavens suddenly started shaking!!

Chu Mu paused and strained his eyes to look into the dark skyline!

The entire sky was covered by the massive storm clouds, and the calamity spider emperor's demon cloud, yet after the spatial shaking, the sky seemed to collapse, going from its stormy colors to pure black. It was like a growing black hole, causing people to suffocate at merely the sight of it!!

Chu Mu was speechless with shock. This scene was as shocking, as if the entire world just disappeared in front of him, eaten by a large black hole that encompassed the heavens and earth. Even far away, Chu Mu shivered! Just how powerful did the organism have to be to create such a world-destroying scene!

Old Li stared dumbfounded at the region and only after a while did he say, "this is dark type energy. The only one to do it to this degree in Tianxia realm is the Evernight Emperor, the commander of the night!"

"Evernight Emperor, what is that!" Chu Mu's inner shock didn't calm down the slightest!

"We're in big trouble, we're in big trouble!" Old Li's voice became shrill. It seems Old Li had a very deep wariness for this Evernight Emperor!

“What’s wrong, say it!”

“This is the dark type emperor that swept through the entire soul pet territory around 150 years ago. Not only Tianxia realm, even in Wanxiang realm, this dark type emperor has rarely had a match. Its movement is fickle, its techniques countless. In similar rank battles, it often won with great advantage. At the time, my owner once fought with its owner. It was this Evernight Emperor that almost caused my master to fail. One has to know that the soul pet my master pitted against it was a duo sub type top tier emperor!” Old Li said in one breath.

Duo type top tier emperor rank! Those were a full two ranks stronger than normal top tier emperor ranks!!

Sacred pet Immortal Ming Bird, Binding Wind Spirit, the calamity spider emperor, and the Probing blood Wolf Emperor are all single type. Putting aside the fact that the two sacred pets have some special sacred light power, they were all normal top tier emperor ranks!

From Old LI’s description, the Everngiht Emperor could barely win against a duo sub type top tier emperor rank, meaning even if this dark type giant couldn’t fight one vs three, it could at least fight one versus two!!

This dark night emperor alone could take down the two sacred pets Immortal Ming Bird and Binding Wind Spirit, nevertheless the fact that Evernight Emperor had the Calamity Spider Emperor and ghost Emperor to back it up!

“This fellow is the true leader of the giants in Immortal City!” Chu Mu was shocked. With this Evernight Emperor this tyrannical, the giants’ strength was far beyond Chu Mu’s expectations!

“Absolutely! That woman truly is too ruthless. She dared to release even this kind of organism. I don’t even know how she broke open those seals!” old Li said.

“Let’s not worry about how it escaped. Is this fellow’s speed quick? Can the immortal Ming bind and the binding wind spirit dodge it?” Chu Mu opened his mouth and asked.

“Its speed isn’t very quick. As long as we prepare to run away and not get caught by any dark type restriction techniques, he shouldn’t be able to catch up to sacred pet immortal ming bird and binding wind spirit. But, if we can’t summon sacred pet Palm Dawn Concubine, of all the sacred pets, other

than Wanmo Beast and Holy Stem Flower, the other soul pets may not even be able to win against this Evernight Emperor two against one!” Old Li said.

Not being able to beat it with two soul pets combined, this Evernight Emperor truly is terrifying!!

Looking down, Chu Mu told the news of the Evernight Emperor, and the other two giants to the Immortal Ming Bird and Bindign Wind Spirit.

Two sacred pets naturally knew the terrifying nature of Evernight Emperor. As long as one of them got controlled, they would definitely get killed by the three giants!

Yet, the Probing Blood Wolf Emperor were already wounded, so it was the perfect time to kill it. The two sacred pets didn’t want to give up this rare opportunity.

Sacred Pet Binding Wind Spirit’s wind barrier became a golden funnel. This large funnel connected upwards to the clouds and down to the ground. The ripping power threw the Probing Blood Wolf Emperor into the air forcefully!

Even after the Probing Blood Wolf Emperor’s bloody shadow was flung into the air, it constantly ran on the clouds as the winds ripped wounds into its body!!

The Immortal Ming Bird no longer cared whether the massive wind type technique would hurt her as well. As long as the Probing Blood Wolf Emperor left the ground, it would have to brace for the Immortal Ming Bird’s most vicious attacks!

Beams of immortal light became the burning rays of a thousand suns, scorching all the wounds opened up by the wind type techniques!

The Probing Blood Wolf Emperor’s eyes were blood red. While it was dizzied by the wind funnel, it actually still managed to fight back against the Immortal Ming Bird!

Immortal Ming Bird knew the situation was urgent and didn’t want to put it off any longer. Just as the Probing Blood Wolf Emperor ripped a blood red mark towards it, it didn’t dodge and continued to surround Probing Blood Wolf Emperor!

Wing Type restriction!!

The sacred hoop appeared once again. Except this time, there was a smear of blood in it. This was the immortal ming bird's blood. To kill the Probing Blood Wolf Emperor, it didn't care about the wounds it sustained anymore!

Wing shadows appeared in the sacred hoop, quickly tightening. As the Probing Blood Wolf Emperor was dizzyed by the wind funnel, it was finally restricted properly!

Once this slimy beast was restricted, the two sacred pets had full time to cast a true killing technique!

The sacred pet binding wind spirit started chanting a more powerful wind type incantation immediately after the wing type restriction completed.

The Immortal Ming Bird also couldn't care for its ripped wound. Immortal light again appeared on its body, dazzling eyes and forming a sharp sacred blade that hovered in the skies!!

The sacred blade flew past, stunning, ripping through the skies it passed by!

When the sacred blade flew through the skies, it created flames from air friction. It hit the Probing Blood Wolf Emperor head on and ripped open its defense, leaving a bloody gouge on its body!!

"Aowu!!!!!!!!!!!!!!"

The Probing Blood Wolf Emperor's body wasn't able to move. This attack caused great damage to it, yet it could only let out a pained howl!!

"Qin!!!!"

At this moment, the powerful wind type technique the sacred pet binding wind spirit was casting finally completed!

The incantation was chanted for a long time. The sacred pet binding wind spirit lifted up its two hands. Immediately, an immense pressure came from the skies. With the binding wind spirit in the

center, the pressure started swirling and quickly spread towards all directions. The dirt on the ground reached thousands of meters into the skies!!

At the same time the pressure fell, a wind cave compressed to merely ten meters appeared by the Probing Blood Wolf Emperor's side!!!!

The previous moment, the air pressure pushed everything tens of thousands of meters away, but the moment the wind cave formed, the air flows within ten thousand meters all reversed, being dragged into this merely ten meter wide wind cave!!

It was like a plug was drawn in the deep sea. The air flows were turbulent waves, crashing towards the hole. Even six seven thousand meters up, Chu Mu and little hidden dragon were pulled in by the powerful force. No matter how hard the little hidden dragon flapped, it was useless!!

With such powerful suction six seven thousand meters away, then how terrifying was the center of the wind cave?

The Probing Blood Wolf Emperor already broke through the wing type restriction forcefully, but it was truly too close to the wind cave. Even if it was running at top speed away, its body was still slowly dragged into the ten meter wind cave!

Within the wind cave was endless death. Even an invincible emperor rank would die for sure once it fell in!

“Aowu!!!!!!!!!! Aowu!!!!!!!!!!!!!!”

The Probing Blood Wolf Emperor continued to let out calls for help. Its lower half was already submerged into the wind cave and sustained the torment of the storms, already bloodied.

Yet, the giant that climbed to the peak of soul pet pyramid didn't want to die like this. Its upper body was still struggling outside the wind cave!

Yet, no matter how angry, resentful this wolf emperor was, it couldn't escape its fate this time!

Chapter 729: The upcoming top tier emperor battle

Night Control, mysterious and unknown, yet full of the feeling of death!

This Evernight Emperor seemed to want to take in the entire immortal city into its reign, including the boundless skies!

Chu Mu gazed into the distance, yet all he saw was eternal darkness!

The Evernight Emperor's terrifying power showed Chu Mu for the first time just how scary a truly powerful dark type organism was. Just its power to make the world pitch black could cause countless emperor rank soul pets to fear and bow down.

"Young master, if we don't leave now, we're going to die here!" Old Li screamed.

Chu Mu didn't dare to hesitate anymore. Retracting his little hidden dragon, he fell from the skies, and told Immortal Ming Bird to catch him.

After landing on the sacred pet's back, Chu Mu quickly pulled out healing medicine from the red hair's spatial ring and leaped onto the immortal ming bird's claw to heal the ripped wound on its stomach.

The Probing Blood Wolf Emperor's attack nearly opened up a third of the immortal ming bird's stomach. It was thin and had a strong bleeding effect. Blood was constantly flowing out of the wound. If not treated with medicine immediately, the blood would definitely affect the immortal ming bird's speed.

This medicine was all stolen. Though the rank wasn't that high, Chu Mu didn't bother to save it at all, putting it all onto the wound. The immortal ming bird's rank was too high. Only a large quantity of these middle rank emperor rank medicine could be of use.

After a large swathe of medicine, slowly, the immortal ming bird's wounds finally stopped bleeding.

Chu Mu let out a small breath, and instinctively looked back.

Yet, the endless darkness that came into sight caused Chu Mu to go numb. This Evernight Emperor's darkness swallowed up the sky faster than he expected. It was almost at hand, causing Chu Mu to have nothing else to see!

“Qin~~~~”

Sacred pet binding wind spirit, at this time, flew onto the immortal ming bird and immediately lifted up a golden wind to imbue the immortal ming bird's sacred wings!

With this wind type technique's boost, the immortal ming bird's speed distinctly quickened, causing it to become a beam of light that quickly flew far away!

“Do NOT fall into the darkness, your speed will fall greatly!” Old Li at this time didn't forget to give a reminder.

Chu Mu's night thunder dream beast had the eighth rank Night Control, but this terrifying Night Control was thousands of times stronger, even having a slowing effect!

“Binding wind spirit, use wind type techniques to swipe at them!” Chu Mu couldn't see anything anymore. Facing the imminent darkness, he had an unavoidable fear. Chu Mu had finally seen the true extent of Night control!

Sacred pet binding wind spirit read out a wind type incantation that threw out hundreds of golden wind scythes!!

Sacred pet's wind scythes were each near hundred meters long, imposingly floating a few kilometers around the binding wind spirit's region!

“Qin~~~~” Binding wind spirit let out a long call and pointed forwards, letting out the hundreds of golden wind scythes into the consuming darkness!

The hundred meter golden scythes ripped through the darkness. Chu Mu saw the calamity spider emperor and the ghost type giant's figure. These two giants were ugly and full of evil tendencies, eager to just swallow the two sacred pets and render them into food.

Yet, no matter how much the golden scythes ripped through the thick darkness, Chu Mu with other pupil, still couldn't see the Evernight Emperor's true figure.

Slowly, hundreds of wind scythes disappeared into the thick darkness. A second later, the darkness slowly filled in the region again, as if a harmless wound healing up.

For some reason, although sacred pet immortal ming bird's flying speed was already very fast. Chu Mu always felt like the darkness dominator was still nearing. Whether it was an illusion brought by the encroaching darkness or whether the Evernight Emperor was indeed gaining on them!

The binding wind spirit didn't stop its wind type technique casting. As it constantly spent mental strength throwing massive wind hurricanes into the darkness, the nightmare like darkness finally slowed down a little.

Slowly, the distance got pulled apart. When Chu Mu looked back, he no longer felt that everything was darkness.

However, even as they slowly escaped, Chu Mu's body was drenched in cold sweat!

Seeing the Night Control almost cover half of the entire complex immortal city, Chu Mu again felt the insignificance of his power. In such a battle, if Chu Mu didn't go half devil, he wouldn't even know if he could live longer than a few seconds in it.

.....

After escaping from the pursuit of the Evernight Emperor, the sacred pet Immortal Ming Bird didn't immediately stop, instead of flying into higher skies. Only more than ten thousand meters in the sky did the immortal ming bird truly feel safe.

To a certain height, the entire immortal city should be visible in sight.

Yet, Chu Mu noticed the entire immortal city was covered in a rotten aura, as if a cloud was veiling it.

When deep in immortal city, one could only feel a slight haziness in vision. At this height, one would find that immortal city's rotten aura was incredibly thick, almost completely wrapped in it.

“Ming~~~~~”

The immortal ming bird lightly flapped its wings and spat out a cloud that slowly spread out.....

Once the cloud formed, Immortal Ming Bird landed on it and stood tiredly.

Binding wind spirit didn't stop throwing wind type techniques throughout the entire escape, looking like it wasted a lot of energy as well. It floated to the side and started adjusting itself.

As for Chu Mu, he also jumped onto Immortal Ming Bird's cloud and let out a breath.

No matter what, they had gotten rid of a giant organism. That was worthy of satisfaction. What gave him a headache was the Evernight Emperor was truly too powerful. If they didn't wake Palm Dawn Concubine up, only Holy Stem Flower and Wanmo Beast could deal with it.

Yet, presumably, the defector young girl definitely put a lot of experts around the Wanmo Beast and the Holy Stem Flower's suppressing demon monuments, so awakening them would be especially hard.

“Young master, the longer we wait, the more giant organisms there will be. Looking at immortal city's situation, with the Evernight Emperor as lead and the calamity spider emperor and ghost emperor at its side, there are a total of three giants that appeared. My guess is that those are the only three; even if there are more, there won't be more than four total.

“En.” Chu Mu nodded. If the immortal city still had other giants, it definitely would follow Evernight Emperor out to kill the three giants. Of course, conservatively, we can estimate that they have four because the giants are growing in strength daily!

“We can't afford to waste time. Following this, after summoning one or two more sacred pets, young master will have to risk it all.” Old Li said.

Old Li's words were something that Chu Mu already knew. Awakening all ancient seven diagram sacred pets wasn't likely. After all, not every warrior could finish their mission.

Yet, Chu Mu was alone, so his strength was limited, and he could hardly help all the suppressing demon monuments scattered in different places. The following will truly rely on the other brave warriors.

After a few more days, all the warriors will have arrived at their suppressing demon monuments. Just how many would awaken will be revealed in the following days.

So, Chu Mu and the two sacred pets could only wait and watch. On one hand, they had to recover, but on the other hand they had to wait for the new sacred pet to appear to bring about a true battle between top tier emperor ranks!

The sacred pet side had to fight with the giants. At this moment, Chu Mu couldn't keep up his strength anymore, needing to join the sacred pet division and giant division struggle.

It would be best if he could join and gain a clear advantage. If Chu Mu's advent would only offset any disadvantage, then the victor of this battle will truly be hard to determine.

.....

Sacred palace spring water.

The entire spring seemed to be drenched in ink, and it was too dark to see anything.

The young spirit emperors didn't know what happened. They only saw the probing blood wolf emperor die to binding wind spirit's ten meter wind cave before the spring was covered in darkness.

Almost everyone could feel a terrifying dark aura seep through the spring, spreading coldness to through bodies.

The young spirit emperors were still confused with what happened. They didn't know much about the powerful soul pets of immortal city.

Yet, the older and experienced spirit emperors' faces all turned pale!

That was because they knew exactly what organism just escaped from its seal!

“Evernight.....evernight emperor, sealed in the top twenty!!” Only after a while did the spirit emperor named Li spit out these syllables.

The immortal city stood for thousands of years. The top ten organisms were true calamities of humankind in the past couple thousand years. Their seals were reinforced to the max. Almost no power could open it up. Thus, the sealed organisms mostly had died, or greatly weakened over the years.

This meant that top twenty seals were already the strongest organisms of all of immortal city, reaching an undefeated level!

It was truly hard to imagine just how powerful the conspirators must be to release even top twenty sealed organisms!

Just how much hatred did this conspirator have for Tianxia City, wanting to ruin this thousand year culmination of human culture!?

Chapter 730: Igniting One's Life Force to Summon!

Due to the Evernight Emperor's appearance, the optimistic state of battle was instantly covered by the darkness emperor's darkness. This made it hard for the spirit emperors to rest easy.

On the 24th day of Immortal City's chaos, the number of spirit emperors in Tianxia City grew to 80, and there were now 3000 spirit master experts from various regions here.

However, Liu Binglan understood that this amount of strength was far from enough to deal with Immortal City's sealed and guardian creatures.

On the 25th day, Liu Binglan had no choice but to summon all the spirit emperors to the Tianxia Great Hall to discuss the Labyrinth Prison matters.

There were a lot of prisoners in this prison, and most of their soul pets were sealed in Immortal City. In other words, among the soul pets in the chaos, some of them were prisoner soul pets.

The war between Tianxia City and Immortal City was inevitable. In this situation where not all of Tianxia City's strength could be mustered, the only thing they could do was use the prisoners to weaken the riot in Immortal City.

"Granting amnesty to the prisoners... this method is too dangerous. After all, these prisoners and their soul pets have deep grievances and want nothing more than to destroy Tianxia City so that way they can escape." the conservative Elder Hai Qiu felt that this was too impulsive.

"It's not releasing all of them. We can release those that violated certain orders, accidentally harmed others, thieves, disobeyed authority and committed malpractice. We can promise them that when the fight breaks out and they recall their soul pets, they will have done a great deed and we will pardon their sins." said Liu Binglan.

After discussing, the representatives of the large factions agreed with this suggestion and began to compile a list of prisoner names.

Each prisoner had to be approved by the three authoritative spirit emperors from each faction.

Of course, this measure wouldn't be implemented before the Departed World Gates were destroyed. This was only preparation, and they would try to delay releasing them as long as possible.

.....

Immortal City, Thousand Wave Beast Demon Suppressing Monument.

Young Lady Shan was following Duan Yi towards the Thousand Wave Beast Demon Suppressing Monument which was located the deepest in Immortal City.

Before Duan Yi had entered Immortal City, he had paid attention to others. He knew that among the seven heroes, the hardest mission was undertaken by Holy Guard Captain Zheng Jie to summon the Thousand Wave Beast Saint Beast.

En route, Duan Yi discovered that summoning the Linyin Beast was hopeless, so he went in this direction instead.

Duan Yi knew the approximate district, while Young Lady Shan knew the precise route and location. This made it much easier for Duan Yi to traverse Immortal City.

“It’s in front.” Young Lady Shan pointed to a district filled with countless towering black towers and softly spoke.

Duan Yi swept his gaze across. He added soul remembrance and discovered that there was some special energy attached to the black towers that made him unable to see into them.

“Stay here. I’ll enter. If I don’t return within 20 minutes, leave this place.” Duan Yi glanced at Young Lady Shan.

Young Lady Shan nodded her head. She currently had rotten aura on herself right now, and she just had to find a safe place to hide and she wouldn’t be in any danger.

After speaking, Duan Yi rode on his soul pet into the black tower district covered with a special energy. Young Lady Shan was too restless to wait in place and would occasionally climb out of her spot to look at the black tower before returning to hide.

.....

20 minutes passed very quickly and Young Lady Shan gradually grew uneasy.

“He still hasn’t emerged. Could he have been ambushed?” muttered Young Lady Shan.

She didn’t immediately leave. Instead, she waited for another ten minutes. But Duan Yi still hadn’t returned, making her panic even more.

Young Lady Shan chanted an incantation, summoning the Cloud Snake Ape Monarch, planning to immediately leave this dangerous place.

However, she had only walked a few steps away before having the Cloud Snake Ape Monarch come to a stop. She turned around and glanced at the district of countless black towering towers.

She bit her lips, and hesitated before finally coming to a decision. She unexpectedly had the Cloud Snake Ape Monarch walk towards the Thousand Wave Beast Demon Suppressing Monument, and into the black tower district!

No one knew what Young Lady Shan, who wasn't even a spirit emperor, was thinking right now.

.....

Soul Palace's Xuan Zhen Beetle spring.

On the 26th day of chaos, a hero finally appeared at the Xuan Zhen Beetle Spring.

The hero in charge of summoning the Xuan Zhen Beetle was Xuan Zhen Beetle Palace's Palace Lord - Lin Zhe.

When the spirit emperors saw Lin Zhe appear, they found this Palace Lord was covered in blood, and had several near-fatal wounds that exposed his bones. This caused the spirit emperors to tremble!

The wounds this Palace Lord received were enough to take his life, but through the reflection, they saw him stumbling towards the Demon Suppressing Monument's spring...

In his current state, if even a monarch rank soul pet appeared, it was enough to easily kill him.

Yet, even in this defenseless state, he dropped the Heavenly Dew, mixed with his blood, onto the spring. While his blood flowed, he chanted the incantation.

This scene made his Soul Palace colleagues' eyes go red.

Soul Palace Lin Zhe had always been an extremely low-key spirit emperor. He had his own method of cultivating and enjoyed solitude. The amount of respect he had in Soul Palace was much less than the spirit emperors that had a lot of connections.

However, when the others saw the spring slowly fill with blood, and this usually silent and taciturn Palace Lord using his life to summon the Xuan Zhen Beetle, everyone was choked up...

No one knew what kind of a fight he had been through to reach this place or if the medicine he had brought along had all been used up. However, he had no soul pets next to him protecting him, illustrating how miserable of a fight he had been through!

The blood practically dyed the entire spring. Through the entire chant, Palace Lord Lin Zhe was dripping with blood. The spirit emperors were afraid that halfway through the chant, he would collapse in the spring.

Time became abnormally slow. Whether it would be his life that gave way first or the incantation that would be completed first, this made the spirit emperors feel extremely heavy during this nearly two hour long incantation.

"He... he persevered!"

Finally, the last portion of the chant was finished!

The spirit emperors saw a holy light descend from the sky, illuminating the mighty silhouette of the Xuan Zhen Beetle's Demon Suppressing Monument and Palace Lord Lin Zhe.

When the Palace Lord that had relied completely on his willpower and ignited his own life force to awaken the Xuan Zhen Beetle Saint Beast saw this moment, he cracked a smile on his pale face.

This smile wasn't only because the saint beast had descended, but also because he was Xuan Zhen Beetle Palace's Palace Lord, and had nearly fanatical adoration for the Xuan Zhen Beetle.

His Xuan Zhen Beetle had perished in the fight just now. Thus, summoning the strongest Xuan Zhen Beetle right now was like attaining nirvana for his soul pet, and watching the soul pet that had accompanied him for over ten years resurrect!

However, when his mind finally relaxed, his life force reached its end.

The curtain of light from the Xuan Zhen Beetle became the final curtain for this spirit emperor as his body fell into the spring...

.....

The awakening of the Xuan Zhen Beetle Saint Beast was deserving of cheers from the spirit emperors. However, this was the second hero that had perished in the spring, causing everyone's eyes to glisten with tears. They could only silently clench their fists.

“Well done. Leave the rest to us.” Elder Ting was choked with emotions.

The reason why Tianxia City had been able to persist for several thousands of years wasn't because of the prosperity or robustness of the city itself. Instead, it was because when its very existence was threatened, there would always be spirit emperors like this that would stand in a blood-soaked battlefield and use their own lives to ignite everyone's hearts...

Those that could stand at the very apex of humanity were not heroes. Without these heroes that sacrificed their lives to ignite the blood in their species, the species would live in fear and fright, ordained to be wiped out...

One didn't have to be a hero like Lin Zhe, but these types of heroes deserved the utmost respect from other humans!

He had not only awakened the Xuan Zhen Beetle, but also the species duty of all spirit emperors in Tianxia City as well as their undying devotion to protect Tianxia City!

.....

Ten thousand meters above Immortal City.

The Immortal Ming Bird had already completely recovered.

Just to be safe, it began to fly really high in the sky, and wouldn't fly any lower unless something happened.

“Ming ming~~~~~”

Suddenly, the Immortal Ming Bird let out a bird's cry. Its sharp eyes penetrated the dense rotten aura and stared at the location the curtain of light was descending upon.

"There's a saint beast being awakened?" Chu Mu revealed a pleased expression.

Another saint beast meant a higher chance of success.

"Ming~~~" the Immortal Ming Bird let out another cry, warning Chu Mu.

"Those magnates are heading there?" Chu Mu asked, astonished.

"Young master, they definitely want to kill that saint beast. After all, that saint beast is alone and weak right now!" said Old Li.

Chu Mu creased his brows. If he didn't assist that saint beast, it would be killed by the three magnates. Especially with the Evernight Emperor, the chances of that soul pet escaping were very small.

But if he went to help, this meant that the saint pet group would directly clash with the magnate group!!!

"Young master, you don't have a choice. You must fight!" said Old Li.

Chu Mu nodded his head. There was no way right now to summon all Seven Diagram Saint Pets.

The three saint beasts as well as himself in the half devil transformation were probably a bit stronger than the combined strength of the Evernight Emperor, the Calamity Spider Emperor and the Ghost Emperor because the half devil Chu Mu was a peak emperor with a secondary attribute!

"It seems that I may need to deal with the Evernight Emperor."

The big fight ultimately came, and Chu Mu took in a deep breath.

He was about to fight against the leader of Immortal City's magnates, the Evernight Emperor. This made Chu Mu's hand slightly tremble. Perhaps it was because of nerves, but it was even more so because his blood was boiling!

This was a true fight at the apex!!
