

Soul Pets Bk2 731

Chapter 731: The Young Man Facing the Ruler of Darkness

The Immortal Ming Bird lifted off into the air towards the holy light.

In terms of speed, the Immortal Ming Bird was definitely faster than those magnates.

However, while approaching the Xuan Zhen Beetle's Demon Suppressing Monument, Chu Mu discovered that the Evernight Emperor's territory was not far away, and was slowly covering the Xuan Zhen Beetle's Demon Suppressing Pagoda from the northern side.

Since the fight was imminent, Chu Mu naturally wouldn't cower. He had the Immortal Ming Bird fly faster to ensure that when they met up with the Xuan Zhen Beetle, they would still have adequate time to prepare.

“Ming~~~~~”

The Immortal Ming Bird was hovering above the Demon Suppressing Monument, staring down at the blood red colored spring.

Right now, the Xuan Zhen Beetle was standing in the center of the spring covered in insect type armor. In the location of its horns were sharp gold weapons!

When Chu Mu looked down, he saw a corpse floating in the spring, and he was barely able to see the face.

Chu Mu remembered this spirit emperor. He was attempting to become one of the Holy Palace Lords!

The spring water was slowly decomposing this Palace Lord's corpse, and the water was gradually being cleaned. From the Xuan Zhen Beetle's expression, it was possible to tell that this Palace Lord had probably sacrificed himself to summon it. The Xuan Zhen Beetle was silently standing there, watching the Palace Lord decompose in the spring.

Han Jinling had been sacrificed as well as this Palace Lord. As for the other five heroes, it was unknown how many of them would be able to survive. Chu Mu thus had the utmost respect for these experts that dared stand up in the face of danger.

Gradually, the spring cleared up. The Xuan Zhen Beetle lifted its armored head, and stared at the Immortal Ming Bird and Binding Wind Spirit in the sky.

The Immortal Ming Bird's eyes were beautiful and holy, while the Binding Wind Spirit's were spirited and pure. Yet, the Xuan Zhen Beetle's were calm and cold. Perhaps it could be said that it looked like a sturdy boulder that gave others a very steady feeling!

This naturally came from its sturdy defense and heart that was hard to move. Normal attacks would rarely affect it!

"Tell it that it will deal with the Calamity Spider Emperor." Chu Mu said to the Immortal Ming Bird.

The Immortal Ming Bird let out a cry, communicating to the Xuan Zhen Beetle about the enemy's camp.

The Xuan Zhen Beetle merely nodded its head. It didn't even open its mouth. It slowly stood up, and stared apathetically at the darkness gradually devouring everything in their direction. It seemed indifferent about the fight and remained cold and callous!

This type of temperament was similar to Zhan Ye's. Perhaps when it fought, it would be just as wild and savage as Zhan Ye!

"Three great saint pets of gathered!" through the clear spring, people were able to see the three ancient saint pets as well as Chu Mu, who was on the Immortal Ming Bird's back.

However, simultaneously, the spirit emperors could feel the spring violently trembling!

Normally, when magnates appeared, the Holy Palace's spring would merely ripple. But right now there were waves surging across it and from the spring, they were able to detect the Evernight Emperor's terrifying aura!

“The saint pets, and the magnate creatures are about to fight?” seeing the three saint pets in their preparatory nature, they realized they were in a fighting state!

This meant that the fight that decided Tianxia City’s fate was about to erupt!!

The spirit emperors all understood that they would only be able to summon these many saint pets and the fight would break out in the next few days.

However, they still weren’t ready in their hearts because regardless if they won this fight, Immortal City would descend into huge chaos.

Winning was still better. They would be able to rely on the Ancient Saint Beasts’ intimidation to suppress the chaos in Immortal City then have the spirit emperors enter the city to reseal the rioting creatures. Although it was inevitable that a fight would break out when resealing occurred, the chaos would eventually be suppressed as the human faction grew in strength.

However, if they lost the fight, the magnate rank creatures would lead the rioting army to break the Departed World Gates. The nearby Tianxia City would be destroyed. This would be a true calamity that would also bring ruin to the surrounding kingdoms.

Perhaps humanity would ultimately emerge victorious, but Tianxia City would no longer be Tianxia City, and the vitality of Tianxia Realm would be greatly damaged.

Or even worse, the Heavenly Devil Insect Empire could launch a large scale invasion, causing the destruction of Tianxia Realm!

The destruction of a realm was a terrifying calamity! There were over 10 billion people in this realm. Even if everyone fled for their lives, how many would be able to successfully flee?

All of this was predicated on the fight between the saint beasts and the magnate rank creatures. Everyone understood what implications this fight had.

This was the pressure of potential destruction of Tianxia City that had been established for thousands of years. It weighed on these spirit emperors, making it difficult for them to breathe.

But the only thing they could do was watch the three ancient saints beasts and a young man...

The terror of magnate rank creatures was enough to pass through space.

It was hard to believe that a young man would be so brave as to dare stand there, calmly, with the saint pets against the torrential aura from the magnate rank creatures!

"Chu Chen, he doesn't seem to be leaving."

In a fight like this, unless it was an elder rank spirit emperor who had five or more high class emperors, one would be unable to participate and could only hide far away.

It didn't matter how much merit Chu Mu had obtained from awakening these saint beasts. Ultimately, he was only a soul pet trainer with low class emperors. The smartest thing to do right now was to get as far away from this district as possible.

Thus, the spirit emperors didn't understand why Chu Mu was so firmly and calmly standing among the saint beasts.

Liu Binglan could see the resoluteness on Chu Mu's face through the reflection spring.

She was extremely torn in her heart. If she could tear open space, she would rather it be her standing there. She didn't want her young child to bear such a heavy burden. This shouldn't have been his fight!

Suddenly, Liu Binglan's thoughts began to wander, and she remembered the emotions not long after Chu Mu was born 20 years ago.

In those first years after his birth, Chu Mu had stayed with Liu Binglan. Due to her special status, Chu Mu had always been attended by her servants, and she sometimes wouldn't see him for dozens of days on end.

To a child, the care of a mother was the most important. It wasn't until he was 3 that Liu Binglan discovered that he wasn't like others his age. He was reclusive, didn't speak much, didn't throw tantrums, didn't play around, and didn't ask questions...

Liu Binglan herself had been very young back then. She understood that her child treated her with much unfamiliarity as if the two of them weren't blood related at all.

Later, due to the violation by his father, Chu Tianman, who was subsequently forced to stay in the tiny Luo Region, had requested for Chu Mu to accompany him.

After that, every once in a while, Liu Binglan would head to Gangluo City to see Chu Mu. She discovered that the Chu Mu beside Chu Tianman was much more lively, and had his own childhood. However, the unfamiliarity towards his mother grew even more...

Even now, when Chu Mu had become an adult and become the youngest spirit emperor in Tianxia Realm, Liu Binglan still didn't truly understand him.

His character had already been shaped and matured his inner being. It wasn't something she, as someone who wasn't fit to be a mother, could understand.

For example, right now, she didn't understand why Chu Mu wanted to fight. It would be perfectly fine for him to find a safe space to wait and hide. He had rotten aura on him and wouldn't be targeted by the magnate creatures...

However, he was standing now on the Immortal Ming Bird's back, fighting together against the terrifying magnate creatures! This required more than just courage...

.....

Indeed, Chu Mu didn't have to participate in this fight because it didn't matter which side had the advantage, the Departed World Gates would inevitably be broken. And when that happened, he would be able to leave. He wouldn't have to use the half devil transformation which had a huge backlash against him.

However, Chu Mu understood, just like when Liu Binglan had given him a message back then that she was willing to sacrifice her own life to revive him, she would have been willing to stake her own life to fight against the chaos, akin to Han Jinling and Palace Lord Lin Zhe.

Chu Mu's own values had never been warped. Chu Tianman had portrayed for the infant Chu Mu a beautiful and resplendent world for soul pet trainers; he hadn't illustrated it as there being trouble

everywhere and that every region was a living hell full of slaughter. Especially when he saw his family nearly fall into disaster, Chu Mu understood his own place!

Chu Mu wouldn't go play hero because a hero would be sacrificed. Nonetheless, since he had the paramount power of the half devil transformation, why would he just cower back and not fight?!!

What created a hero was not the hero's own grand and majestic mindset, but rather the circumstances of the situation!

The current circumstances of the situation dictated that Chu Mu had to fight!

Immortal City's strongest!

Chu Mu strived for these heights. Even if this was only a short fight, if he could have a taste of a true pinnacle fight, this would subconsciously ignite Chu Mu's blood!!

Therefore, Chu Mu's decision stemmed from his utmost conviction to grow stronger and burning wild fighting intent!

.....

Darkness, it devoured the heaven and earth!

The terror the Evernight Emperor gave to all creatures unceasingly proliferated, eventually covering everything around the Demon Suppressing Monument.

Within ten kilometers, there were no longer any creatures under the high class emperor rank. Unless the other creatures formed a legion, at this level of a fight, they would be of no use.

Facing against this invincible ruler of darkness was a young man who had lost a soul just after stepping onto the soul pet trainer path, had his talent stripped and had relied on his own hardwork and opportunities to reach today's heights!

Chapter 732: Sacred pet, giant, The Ignition of a Large Fight!

Three sacred pets' sacred lights gathered together. The surrounding was completely dark, unable to see further. Only the suppressing demon monument's surroundings had light remaining!

On the other side, everyone stared at the spring that was lit up by the sacred light.

The light caused their vision to be extremely clear. They clearly saw the demonic and even reckless smile on the young man's face!

Everyone's attention was on the three sacred pets and Chu Mu. They didn't notice that a man with grey hair slowly walked over and stood by Liu Binglan.

"Elder Liu.....Elder Liu!!!" Suddenly, Elder Ting cried out, watching shocked at the middle-aged man, his eyes twinkling with joy!

Liu Binglan was too focused on her child to care about her surroundings. Only after Elder Ting yelled out did she suddenly notice the elder that already stood by her. He slowly grew older over the years, but he still stood straight like a lone tree standing on the edge of the cliff.

Liu Binglan took after Elder Liu's surname. In her heart, this elder was like her father. The immense pressure she withstood before had instantly halved when this father appeared.

Elder Liu extended a hand and gently pressed Liu Binglan's shoulder, saying, "These few days, you did very well....."

Elder Liu knew clearly that the entire Tianxia City's experts all had their own factions and wants to worry about. Able to summon them together and put their efforts in, it needed not only authority but also the approach of an iron fist. Liu Binglan was a noble woman, but she was, in the end, a woman. Her ability to bring all the spirit emperors together when calamity struck, making all the experts of different factions want to try their best to defend the city, was in itself much harder than just fighting a battle, especially when the spirit emperors all had their own agendas!

Without organizing Tianxia City well, they would be like the chaotic sealed organisms and defending organisms. They wouldn't be able to break through departed world gates. Without an expert able to withstand the pressure and gather everyone, everyone in Tianxia city would be scattered and run away themselves. There would be no seven brave warriors as well as 80 spirit emperors gathered together.

The command to gather everyone was mandatory, but if Tianxia City was going to fall, what binding power did this gathering command have?

Thus, elder Liu knew clearly that Liu Binglan truly did well these twenty days. Other than letting everyone see her cry when Chu Mu summoned Immortal Ming Bird successfully, no one ever saw this Tianxia Leader reveal any disappointment, loss, or despair.

Elder Liu's appearance let a lot of the spirit emperors feel safer. After all with Elder Liu's power, he could go against the giants. With another elder level expert, they had a better chance in this fight.

"What's the situation like?" Elder Liu walked by the spring and asked.

Immediately, Liu Binglan gave a brief description of how Chu Mu was bringing the three sacred pets forth in preparation to fight the lead of the giants, Evernight Emperor.

From the spring, Elder Liu was surprised to look at Chu Mu's determined back image.

Elder Liu had already heard from others that this grandkid of his has awakened two sacred pets already. To be able to complete such a game-changing task, Chu Mu had already gained elder Liu's satisfaction.

Yet, he never would have thought that Chu Mu would appear in this battle between sacred pets and giants. That was something only a soul pet trainer with at least top tier emperor rank soul pets could handle.

.....

Chu Mu still stood quietly on the sacred pet Immortal Ming Bird's back. He didn't know that this following battle will be completely revealed to all of Tianxia realm's spirit emperors!

However, even if he knew his identity would be revealed, Chu Mu had no other choice, because Evernight Emperor's territory completely covered everything. He had no chance to escape otherwise now.

Through the thick darkness, with the effects of the sacred light, Chu Mu slowly saw the arrival of the Calamity Spider Emperor with the mountain like body.

This gruesome organism stepped forward in large strides. It was two thousand meters away, yet all its blood red eyes locked onto Immortal Ming Bird and Chu Mu.

Though Calamity Spider Emperor can't see, it could already sense the existence of Immortal Ming Bird and Chu Mu, who had cut off one of its legs!

“Sisisisiiii!!!!!!!!!!!!!!!!!!!!”

Calamity Spider emperor let out an unpleasant scream. This sound became a shattering force that went along the ground. The rocks hundred times stronger than normal rocks instantly shattered just because of this roar!

Beside the Calamity Spider Emperor, there was an organism with a fake smile and ghostly face!

This organism seemed to have a creepy smile growing out of its entire body. Its body was like a standing deviled goat, but its four arms all held dark red scythes. These scythes didn't have handles. If one looked closely, one would find that the scythes grew right out of the organism's arms. If these bone scythes hook onto one's body and are pulled, it would create immense torture!

Chu Mu finally saw the appearance of this ghost emperor. Its cruel appearance definitely meant it had committed countless crimes and killings!

By strength alone, any sacred pet could win a one on one against the calamity spider emperor and ghost emperor.

The one that truly causes the sacred pet to fear was the dark night dominator that still hadn't appeared!

Behind the calamity spider emperor and the ghost emperor, Chu Mu could clearly see a fuzzy dark image. This dark image didn't show its true appearance, but one could clearly tell that the evernight came from this soul-creeping dark image.

“Only three?” Chu mu stared at the three giants.

If there were truly only three giants, then the winner would be the sacred pets for sure.

Yet, Chu Mu always felt that the giants' side wasn't this simple, or else they couldn't make the entire immortal city be so united.

Indeed, when the calamity spider emperor slightly moved its body, Chu Mu noticed that behind the calamity spider emperor, there was a terrifying devil vine. If Chu Mu didn't have other pupil, he would never have noticed this devil vine!

Vine type top tier emperor rank!

Without a counter, plant world organisms were hard to deal with. Maybe the half devil Chu Mu could kill this vine type top tier emperor, but the Evernight Emperor would not let Chu Mu freely kill it!

"Promontory Devil Vine Emperor! Another fellow that kills without a second thought. I heard of it getting sealed. I heard that it once used its vines to pierce through an entire human city, causing the city to become a forest of vines. It laid there for a very long time, and killed countless people. It was finally defeated by a combination of nightmare palace experts and sealed in immortal city!" Old Li immediately told Chu Mu everything he knew of it.

Those sealed in the top fifty of immortal city all gave humans devastating blows, with millions of people dying at their hands.

Of course, the most terrifying was still the evernight emperor. Its crime was not measurable by cities anymore. It spread the most devastating dark plague in history, killing countless people and soul pets. It was truly a dark age!

"Binding wind spirit, the Promontory Devil Vine Emperor I'll leave to you. Rip its vines to shreds with your wind type techniques!" Chu Mu said to binding wind spirit.

Wing type and bug types naturally were disadvantaged against vine type soul pets, even with the help of sacred light. Thus, the nimble and wielder of golden hurricanes Binding Wind Spirit should deal with it.

"Immortal Ming bird, the ghost emperor will be yours. Bring it into the skies and don't give it a chance to ambush anyone." Chu Mu said to Immortal Ming Bird.

In the battle, as a soul pet trainer, Chu mu had an absolute leadership over everyone, because only a soul pet trainer could completely understand the interconnections between all the types and the different effects that could be generated!

As for the Calamity Spider Emperor, the Xuanzhen Beetle already had its eyes on it!

In this sacred pet battle, the Xuanzhen Beetle's chance of victory was highest. After all, the Xuan Zhen beetle had an extremely sturdy defense and poison tolerance. Adding on the equally powerful combative ability, the Calamity Spider Emperor's offense, poison, and escape powers were all heavily countered. Without outer influence, this battle Xuanzhen Beetle could definitely win.

The most important was naturally the fight between Chu Mu and Evernight Emperor!

In reality, Chu Mu only had a vague estimate of his power in half devil. He only knew that he was definitely more powerful than in his fight with Tian Ting, but he didn't know by how much. Only after fighting the Evernight Emperor would he have a clear recognition of how powerful he would become!!!

“Then, let's fight!!!”

Chu Mu yelled out. He didn't wait passively for the giants to strike, instead of telling the three sacred pets to seek out the foes they selected and start the battle of top tiers that influenced the fate of humanity!!

Immortal Ming Bird was the fastest. After Chu Mu jumped off it, it immediately attacked the ghost emperor!

The ghost emperor swung its four death bone scythes, floating forth and colliding into the immortal ming bird halfway!

“Honghonghong!!!!!!!!!!!!!!”

The immortal light and ghost aura collided, and the battle between sacred pet and giants finally erupted with this as a spark!

Chapter 733: Half Devil, Night Emperor? Who is the Ruler?! (1)

Top tier emperor rank's any technique reached over five kilometers. An all out attack could even reach ten kilometers in distance!

According to Chu Mu's previous command, the Immortal Ming bird first angered the Masked Ghost Emperor, and lifted the battle slowly into the skies!

The sacred pet Immortal Ming Bird's feathers became radiant stars, each falling like comets towards the intersection between light and dark. They covered five kilometers. In the five kilometer radius, almost every ten meters had a hundred meter wide explosion of energy feathers!

The masked ghost emperor's figure floated around through the feathers. Every time a large group of comet feathers flew towards its location, its body would suddenly disperse into a cloud of smoke-like substance. The powerful penetrating comets all fell down and flew right through it, unable to harm it at all!

Most ghost type organisms could fly, but it definitely wouldn't have an advantage against a wing type soul pet.

However, the Evernight Emperor's powerful dark night territory gave the Masked Ghost Emperor the most comfortable movement space. With such a powerful night sky effect, the masked ghost emperor wouldn't fear to fight against the Immortal Ming Bird in the air. In fact, the Mask Ghost Emperor's fighting intent was sky high. Its cruel, violent tendencies may not be as wild and reckless as the Probing Blood Wolf Emperor, but it had a bit more treachery and cruelty!!

.....

The Calamity Spider Emperor's leg blades were unusually sharp, and it was its main attack move. Every sweep would either cut through several kilometers of dark space, or create ten kilometer long gouges in the ground. Because it had eight legs, its attack frequency was incredibly high. The battle had just started, and the region near the suppressing demon monument was already full of cracks, crisscrossed with gouges!

When the Xuanzhen Beetle took a defensive posture, its body would sink down and all its armor would be covered in a metallic sheen. With this absolute defensive stance, it could simply stay as all these attacks flew past.

The Calamity Spider Emperor's all out attacks could often only leave a thin scratch of the Xuanzhen Beetle's armor. And once the attacks were over, the Xuanzhen Beetle's thick armor would transform into sharp weapons. It didn't have any grand and shocking attacks; it only had stern and fierce piercing and ripping techniques!

Just as Chu Mu predicted, the Xuanzhen beetle was like a rock when stationary, just letting enemies run around it as it stood motionlessly. Yet, when it actually attacked, its wildness wasn't weaker than any beast type top tier emperor. In a few rounds, it already sent the calamity spider emperor tumbling backward!

This was a battle-hungry creature. Its single target attacks were even stronger than the Immortal Ming Bird. Clearly, this Xuanzhen Beetle was the strongest of the three sacred pets present!

Facing this Xuanzhen Beetle's unmoving defense and striking offense, Chu Mu was in astonishment, wishing his Zhan Ye could also someday reach this stage!!

.....

The Promontory Devil Vine Emperor realized that the sacred pets had already noticed its presence. The crafty plant that was readying a sneak attack abandoned the thought.

The only ones the Promontory Devil Vine Emperor could truly sneak attack were Immortal Ming Bird and Binding Wind Spirit. It could at most restrict the Xuanzhen Beetle, but couldn't do anything about the ridiculous bug type defense.

Immortal Ming Bird was already wary of the Promontory Devil Vine Emperor, so in battle, it flew into the high skies, making it hard for Promontory Devil Vine Emperor to reach.

As for the swift elemental world soul pet Binding Wind Spirit, it already had its eyes on Promontory Devil Vine Emperor. It constantly had hundreds of golden scythes around its fingertips. The moment the Promontory Devil Vine Emperor shows even a hint of surfacing, the Binding Wind Spirit wouldn't hesitate to throw all these golden scythes towards it!

The Promontory Devil Vine Emperor was like an underground dragon hidden amongst the rocks. The rocks and dirt of Immortal City became like water to it. The hundreds of meters of its body

showing were just the tip of the iceberg. Any vine type technique would cause the ground to roil like the sea, sending waves of dirt crashing forth!

The Sacred pet Binding Wind Spirit remained halfway in the sky. It couldn't go too high, or else its attacks would easily be dodged by the Promontory Devil Vine Emperor, and it wouldn't be able to look for the main body of the Promontory Devil Vine Emperor either.

Yet at this height, the Promontory Devil Vine Emperor could create a midair vine forest, wrapping the binding wind spirit in.

Luckily, the binding wind spirit's dodging capabilities were very strong, and it could always weave through the intertwining vines and use its powerful wind type techniques to cut through the grass like a scythe cutting through weeds, shredding all the vines in the skies!

In reality, sacred pet binding wind spirit and the Promontory Devil Vine Emperor's battle was completely a war of attrition. Each side couldn't deal much damage to the other in a short time. Either the binding wind spirit runs out of mental energy and can no longer clean out the endless vines, or the Promontory Devil Vine Emperor runs out of vines to send and gets killed by wind type techniques!

.....

The three sacred pets fought with the three giants in the sky, on the ground, and underground. There were countless shockwaves that sent throughout immortal city, causing the sealed organisms and defending organisms some unease!!

The energy that leaked from the suppressing demon monument still caused terrifying effects outside of ten kilometers. One could only imagine how destructive they were at the center of the battle!

Yet, no matter how the battles were happening between the sacred pets and the three giants, no matter how the energy shook Immortal City, Chu Mu still stood at the center of the spring. His other pupils pierced through the chaotic space and stared at the mysterious dark shadow - Evernight Emperor!

Evernight Emperor also gazed at Chu Mu. This powerful organism seemed to already sense that this human's body held a very powerful energy, one that even it had to be wary of!

Evernight Emperor wasn't an invincible emperor but was very close to it. The number of organisms in this world that could make the Evernight Emperor wary were definitely limited!

This dark night dominator was very confused as to why a human soul pet trainer could release this aura!!

“Even spirit emperors, when faced with the Evernight Emperor's direct gaze, could be subject to a darkness explosion in their minds!”

Chu Mu stood at the spring, so everyone could clearly see Chu Mu's other type pupils. They could even tell from the chaotic battle that the Evernight Emperor hadn't fought yet, and was most likely making eye contact with the young man!

In this world, who had a soul remembrance high enough to stare eye to eye with the Evernight Emperor?

Why could this young man do it without fear and even some burning desire to battle!

.....

Finally, the dark night dominator couldn't wait longer!

No matter if this human truly had the power to go against it, Evernight Emperor would ruthlessly kill it, because the Evernight Emperor couldn't stand any dark type organism to be more powerful than it!

It, Evernight Emperor, was the dominator of all darkness, unique and undefeated!

With such pride, it could not stand an organism to exist that could threaten its status!!

Dark shadows covered the skies like a cloak. As the Evernight Emperor moved, its body completely disappeared in the darkness without a trace!

Throughout the spring, the spirit emperors constantly walked around to try to see the true appearance of the Evernight Emperor!

“It.....it’s.....it’s right above Chu Chen’s head!!!!”

Suddenly, a spirit emperor pointed out the center of the spring and stared shocked, as an emperor shadow appeared inside the reflection!

A pair of eyes stared down in the night sky. The ruler of the night sky stared down at the seemingly insignificant human, a sky covering darkness slowly falling down!!

The reflection should have been just an image, yet when the Evernight Emperor came down from above Chu Mu, everyone felt as if the Evernight Emperor was about to break through the spatial restrictions in the spring and pop out. The coldness of the darkness affected everyone!

“This child.....” Elder Liu saw this, and his heart couldn’t stop pounding!

Evernight Emperor was a top tier emperor rank that even Elder Liu felt somewhat fearful of. What could this young man do to escape the falling of the death cloak?

Everyone was already feeling sorry for the young but accomplished Chu Chen!

Only Liu Binglan looked at Chu Mu calmly with her brows slightly furrowed.....

.....

In the shadow, Chu Mu’s gaze remained calm, as if not even feeling imminent death approaching him from above.

His eyes slowly started burning with a unique silver through the demonic white!

The soul flames slowly started burning around Chu Mu, causing Chu Mu’s body to be doused in what seemed like mercury. Even his handsome face seemed to be covered in a mysterious silver mask!

This demonic mask was, in reality, Chu Mu’s face, but it seemed like two different entities than the real Chu Mu!

In fact, all the spirit emperors noticed that Chu Mu's devil flame covered face suddenly smiled devilishly!

This devilish smile was belittling the Evernight Emperor's seemingly clever attempt at ambushing him!!!

Chapter 734: Half Devil, Night Emperor? Who is the Ruler?! (2)

Spatial Nightmare walked on the edge of the world!

Regardless if it was a creature from the ghost, dark, or demon attribute, there was nothing more evil and demonic than the other attribute Nightmare species!

As for half nightmares, they were near god-variations. They were capable of controlling the strangest and most mysterious technique. They also possessed the most destructive strength!

Due to their utmost power, the price they had to pay was immense. Their life, their soul, and their memories. All of these would be wiped!

However, to a person that longed for strength, even if they had to sell themselves to the Nightmare, they wouldn't hesitate to transform into a half devil!

Right now, this ultimate strength was filling Chu Mu's entire body. He had an evil and cold smile, as he silently stood above the spring, waiting for the ruler of darkness' attack to descend!

The shroud of darkness enveloped anything. No one knew what strange occurrences would happen inside the shroud.

However, just as the Evernight Emperor's dark type technique mysteriously descended, evil flames began to burn on Chu Mu's body, and as he was shrouded by the darkness, his body was burned into ashes!

In the next instant, a ball of demonic devil flames abruptly appeared atop the shroud. Chu Mu's devil figure appeared in the pale white, evil, flames. After using Displacement Specter, he appeared

above the Evernight Emperor, his two peculiar pupil staring at the Evernight Emperor who had missed its attack!

“Evil Behead!”

Chu Mu’s hand had transformed into a claw that slashed down!!

Suddenly, a vertical spatial tear appeared, burning with demonic devil flames!

This Evil behead was even more powerful than the Immortal Ming Bird’s Wing Slash in terms of both speed or might!

“Shua!!!!!!”

The strike descended, causing a ten kilometer spatial tear to appear in the shroud of darkness. The silver color devil flames instantaneously ignited along the tear, causing terrifying a terrifying other type aura to surface!!

This regular attacking technique was rather astonishing to peak emperors. The three saint beasts and three magnates all glanced over in this direction!

The saint pets knew that there was a Nightmare that lived in Chu Mu’s heart that would bestow upon him unlimited strength.

However, the three magnates were shocked by the transformation into a half devil!

Also being peak emperors, they were very clear of how terrifying the Evernight Emperor was. It was hard to find creatures that could even effectively attack it, let alone creatures that were its math. How did a human suddenly utilize such terrifying energy to be able to rip apart the Evernight Emperor’s dark shroud!

The half devil Chu Mu’s Evil Behead also fell onto the spring!

However, the spirit emperors around the holy spring were enveloped by an atmosphere and were all silent!!

It wasn't only because the Evil Behead just now had broken through the spatial restriction and had left a fissure on the holy spring, but also because they never expected that Soul Palace's Chu Chen, the person who obtained first place in the Battle of the Realm, was a world-shocking half devil!!

There was only shock!

Li City's half devil and Tianxia's half devil!

Those who had access to internal information knew that these two half devils could be the same person. Elder Xie Tao and Senior Elder Liu had been able to determine from Tian Ting's situation that Tianxia's half devil was the first half devil in history to possess its own independent consciousness!!

Until now, Elder Xie Tao and Senior Elder Liu had closely guarded this secret, because they understood that if a half devil, which was akin to a shooting star in that it would light up gorgeously for a brief moment before disappearing, possessed its own consciousness, this meant that a person controlled the most terrifying power in this world!!!

Elder Xie Tao and Senior Elder Liu had raked through their memories, but couldn't think of which hidden expert this half devil was an incarnation was. In these two years, they didn't forget the appearance of the Tianxia half devil.

However, these two old spirit emperors never expected that Tianxia's half devil was Chu Mu. A young man that they would never have associated with the half devil!!

Seeing the young man's demonic and powerful figure reflect in the reflection spring, the two older men experienced unprecedented shock!!

Senior Elder Liu tried his hardest to take in deep breaths, but he was unable to find a rhythm or calm down despite having experienced numerous things.

He couldn't believe it, and had to forcibly move his eyes away in order to stop looking at the half devil Chu Mu.

Senior Elder Liu looked at Liu Binglan. There was no way she didn't know about him being Tianxia's half devil.

Indeed, Senior Elder Liu discovered that Liu Binglan's expression was much more complicated, than the shock of the surrounding spirit emperors. She knew that Chu Mu was a half devil!

"This... this is real?" asked Senior Elder Liu. Even now, personally witnessing it, Senior Elder Liu still asked this needless question. It was possible to see how shocked he was!

"Yes." Liu Binglan nodded her head. Her eyes flickered as she said, "I've been looking for a suitable ice type spirit item these past few years in order to cool his soul's temperature."

After obtaining Liu Binglan's response, Senior Elder Liu was frozen in place, and shocked silent!

It was no wonder that Tian Ting died. He had forced a young man who could transform into a half devil into a corner. Of course it would be him that would die!

Senior Elder Liu's brain was in chaos. The calamity the half devil brought was hard to imagine. The moment it appeared, there would be destruction.

However, the half devil Chu Mu was fighting right now against the Evernight Emperor in order to save Tianxia City. This fight concerned the survival of the city. If there was no half devil, who would be able to stop the ruler of darkness?!

"He can control himself? Complete control?" Senior Elder Liu understood that Tianxia's half devil could think, meaning that even if Chu Mu was a half devil, he could control this strength!

Liu Binglan nodded her head: "He can transform himself into the half devil. After the transformation ends, he will split from the devoured White Nightmare soul. However, his soul's temperature will rise because of this. Therefore, he perpetually needs ice type spirit items to treat his soul..."

Senior Elder Liu went silent again. Liu Binglan was very afraid that Chu Mu's devil transformation would lead to Tianxia's suppression, and softly asked: "Father, as long as I can find an ice type spirit item, Mu Er will be able to control this strength..."

Senior Elder Liu naturally understood the meaning behind her words, and his face was filled with completely new emotions!

Senior Elder Liu's voice trembled as he said: "He's fighting for humanity right now. As long as he can save Tianxia City, even if I need to shake hands and reach an agreement with Old Devil Lang Han, I will definitely unite out Soul Palace with Nightmare Palace to protect this half devil brat!!"

Hearing Senior Elder Liu's words, the worry in Liu Binglan's heart disappeared, and a gratified smile appeared on her beautiful yet haggard face.

Liu Binglan was most afraid of Soul Palace's and Nightmare Palace's higher-ups attitudes towards Chu Mu's ability to transform into a half devil. But as long as these two large factions were willing to unite and protect Chu Mu, even Soul Alliance's Alliance Master would be very afraid!

Moreover, Soul Pet Palace, that had always remained neutral, would not just sit on the sidelines this time. After all, the half devil Chu Mu was currently fighting to protect their foundations!

The earliest roots of the three great factions, Nightmare Palace, Soul Pet Palace, and Soul Palace, originated in Tianxia City. Even if the three great factions were even more prosperous in Wanxian City, Tianxia City was their roots. The moment it was destroyed, it would be difficult for them to recover their vitality even in a several hundred years.

"Senior Elder Liu, I, Xie Tao, dares to say that when Senior Elder Han learns about this, he will definitely extend a hand to you first!" at this moment, Elder Xie Tao was ecstatic!

Half devil!! Nightmare Palace's near god-incarnation strength!

Although they had brought countless instances of calamity and destruction, to Nightmare Palace members that beseeched the devil path, they represented the hope of countless experts. As long as one could transform into a half devil, they would be willing to pay the accompanying pain and cost!

And right now, a person that could autonomously transform into a half devil had appeared!!

To Nightmare Palace, this was practically the arrival of a god. The Nightmare Emperor, Senior Elders and Elders wouldn't hesitate to worship it!!

In this world, it was the authoritative Soul Alliance that called the shots because neither Soul Palace or Nightmare Palace had a person that could truly rival the Alliance Master. However, this person had appeared right now!

The countless years of grievances between Soul Palace and Nightmare Palace could be resolved because of him. Yet, this wasn't even enough to signify the importance of Chu Mu's ability to transform into a half devil!!

.....

In the reflection spring, the devilish figure always wore an evil smile that one could not see through. After transforming into a half devil, Chu Mu's aura had become unbridled. Even if he was facing Immortal City's strongest creature, the ruler of darkness, he was still displaying powerful fighting abilities that made spirit emperors exclaim in admiration!

The half devil also possessed the darkness attribute so the Evernight Emperor's domain did not weaken the half devil Chu Mu's strength at all. Instead, it caused its movements to become even more erratic and mysterious!

“An an an~~~~~”

The Evernight Emperor let out a noise, using its terrifying darkness voice to transmit into the half devil Chu Mu's brain.

After clashing a few times, the Evernight Emperor finally realized that the Nightmare in front of it definitely had the ability to rival it. The previous few probing techniques were clearly trying to deceive both the others and himself.

The Evernight Emperor didn't want to engage in a life-and-death struggle with Chu Mu right now, because even if it was slightly stronger, in order to kill the powerful opponent in front of it, it would cost heavy injuries.

The Evernight Emperor was inviting the half devil Chu Mu, which was also evil and demonic, to join their magnate camp!

Being able to make the Evernight Emperor relinquish its arrogance to send an invitation... if this was a hundred years ago, this would have been a matter that shocked the heavens.

However, to the Evernight Emperor's invitation, the half devil Chu Mu merely let out a cold laugh!

Just because it felt that its opponent was a bit too strong, they would be able to talk through this?

Using the words in Chu Mu's heart: "This devil's time is limited. Let's find out who's the victor between us first before we figure out who is the true ruler!!!!"

Chapter 735: Half Devil, Night Emperor? Who is the Ruler?! (3)

The half devil Chu Mu took advantage of the ruler of darkness talking to ignite fire in its right hand. It threw an exploding ball of flame at the Evernight Emperor invincible under the heavens!

"Beng!!!!!!!"

Other types had unique control over space. Chu Mu's technique was extremely sudden, and he didn't even make any motions of preparation. Instead, the white ball streaked across the curtain of darkness in a beautiful arc and exploded after the resplendent beauty!

The Evernight Emperor was defenseless, and it let out an angry cry. The darkness shroud was smashed up by Chu Mu's technique!

The half devil's technique was mixed with killing intent. The devil flame looked like a normal fire type technique fireball, but the moment it exploded, it completely destroyed the several kilometer large space. The omnipresent darkness became a huge empty space!

The Evernight Emperor's dodging abilities were astonishing, otherwise, this technique would have dealt large damage to it. The provocative sneak attack caused heavy anger to well up inside the Evernight Emperor. and it released its boundless aura towards Chu Mu!

The half devil also possessed the darkness attribute, and when the darkness came to envelop it, Chu Mu didn't feel uncomfortable at all!

However, the Evernight Emperor was rather crafty, and it mixed in the Thousand Phantom Strikes inside, attempting to slash Chu Mu into fine pieces!

Thousand Phantom Strikes seemed to contain even more dense darkness than normal and Chu Mu could feel the hidden killing intent within. Even the Calamity Spider Emperor and Xuan Zhen Beetle over ten kilometers away could feel the AoE from this terrifying technique; dark ulcers even began to fester on their bodies!

The half devil Chu Mu slid backwards, leaving afterimages amidst the darkness roar. Yet, the Thousand Phantom Strikes was much faster. and flew towards Chu Mu, like a thousand arrows of death, leaving no room to dodge!

While Chu Mu was sliding backwards, his devil flame hands completely opened and one could see a spatial hole that seemed to connect with some other space slowly form in his palm!

Thousand Phantom Attacks rained down from the sky, but under the Evernight Emperor's control, they suddenly changed directions and flew at the location Chu Mu was in. Yet, at this moment, Chu Mu fully opened the spatial hole in his hand, sucking in the thousand attacks completely like a wind hole!

This was a thousand attacks packed so closely together that it was capable of destroying everything. However, a mere extension of one hand by the half devil was enough to dissolve this omnipresent attack.

“An an an an~~~~~”

Suddenly, the Evernight Emperor let out a mocking laugh, as if it was laughing at how stupid Chu Mu was.

The Evernight Emperor wasn't surprised that the half devil was able to take its technique with one hand because the true effect from this attack wasn't the flying force that could destroy everything, but rather the dark corrosion ability. Since the opponent had absorbed it into its palm, this was practically allowing the darkness to wantonly corrode its body!

The palm spatial hole could absorb the enemy's attack, but could also launch the attack back at the opponent.

Chu Mu felt his heart palpitate when his palm began to rapidly fester. Even if he had the darkness attribute too, the dark corrosion ability could render his entire arm useless!

In the past when Chu Mu had transformed into a half devil, he had been able to completely oppress his opponents. However, the Evernight Emperor wasn't a normal emperor. If he didn't use his full strength, even the half devil body would be defeated!

Realizing the terror of the dark corrosion, Chu Mu didn't dare leave the Thousand Phantom Strikes in his palm space!

“Reversal!”

Chu Mu's palm suddenly opened. There were clear ulcers on his palm, but fortunately, from the beginning Chu Mu never planned on absorbing the dark attack into his body to transform into his own strength. Instead, he planned on returning it to the Evernight Emperor!

Once the reversal space opened, the Thousand Phantom Strikes completely changed directions. Carrying dark rage, they flew towards the laughing Evernight Emperor!

The Evernight Emperor had lived for a long period of time, but it clearly had not had many encounters with powerful other type creatures. This sudden reversal technique caught it unprepared, and the shroud of darkness it just condensed was pierced to tatters!

The Evernight Emperor's defense was far from as high as an insect type peak emperor. Its only form of defense was the shroud of darkness that was covering its true body. Although it could condense the shroud of darkness many times, when this layer of defense was destroyed for the second time, the ruler of darkness felt unprecedented anger and humiliation!

A dense darkness energy enveloped the area. From the aura, it seemed that the Evernight Emperor was about to use a true sure-kill technique!

It was possible to feel that the area in which the saint pets' light enveloped had dimmed. Even the half devil Chu Mu with a darkness attribute felt that everything in front of him had gone darker!

“An an~~~~~”

The Evernight Emperor let out a shout, terrifyingly piercing one's soul! Even the spirit emperors on the other side of the spring could hear its shout!

Black ulcers began to fester on the holy spring. This attack was capable of leaking from one space to another, thus illustrating how terrifying this technique was!

“Once this Evernight Emperor is able to unite Immortal City, breaking open the Departed World Gates is only a matter of time!” exclaimed Senior Elder Liu.

The Evernight Emperor’s strength was too tyrannical. A mere technique’s aura was capable of passing through space. Once it united the other magnates and legions in Immortal City, relying on its strange dark energy to corrode space, it would be able to combine energy to destroy the Departed World Gates!

“The half devil’s strength back then was only near a peak emperor. Can it truly defeat the Evernight Emperor?” although the spirit emperors were extremely shocked by the young man Chu Chen who could shake the heavens with the half devil, they were also very concerned if this young man could use the half devil strength to defeat Immortal City’s strongest, the Evernight Emperor!

Not too long ago the half devil was the most evil thing in this world, and unless one was part of Nightmare Palace which had the insane devotion towards it, the other spirit emperors would pale the moment they heard its name. However, now, the half devil had become a peak creature part of the same faction as all these spirit emperors. All of them hoped that its strength would be able to increase!!

The half devil Chu Mu’s expression turned serious. He sensed that the Evernight Emperor was very probably using a fatal attack against him. He didn’t dare be negligent at all!!

True darkness wasn’t instilling one with fear from being enveloped in a shadow. Instead, true darkness was omnipresent and originated from one’s very own shadow that would always follow that person!

Shadows didn’t always require light. They only needed the darkness to be dark enough in order to appear!

The Evernight Emperor used a heavenly ability that forcibly created an extremely dense space of darkness around Chu Mu, causing his shadow to imprint behind him!!

The half devil Chu Mu remained calm, and stared at the Evernight Emperor. It put up defenses to block the Evernight Emperor's powerful darkness technique.

However, the half devil Chu Mu was not able to discover that the Evernight Emperor had already disappeared and had emerged behind his body from his shadow with a false smile!!

“Jie jie~~~~~”

The half devil shadow let out a devilish laugh, and slowly broke free of its spatial carrier. As if it was a real creature, it demonically appeared behind Chu Mu's back, and its devilish claws that could crush hearts reached towards the back of Chu Mu's heart!

Obliterating Heart!!!!

The half devil shadow possessed the same fatal technique as the half devil. It used an instakill technique on the half devil Chu Mu, and attempted to mysteriously steal his heart!

Chu Mu was completely oblivious towards this. Even if he was a powerful creature and had perceptive sensories, he was unable to realize that his own shadow was attacking him!

“Min!!!!!!!!!!”

Just as the shadow's devil claw was about to reach into Chu Mu's heart, the Immortal Ming Bird in the sky suddenly let out a cry, warning Chu Mu of the shadow behind him!!

The half devil Chu Mu trembled, and its body suddenly burned with an intense devil flame. It used Displacement Specter, which allowed it to teleport several kilometers away and disappeared from its location!

However, the half devil Chu Mu was still a bit slow. Obliterating Heart hadn't managed to reach its heart, but ripped open a large part of its body, causing a large portion of the devil flames on its body to dim!!

The half devil Chu Mu didn't feel any pain on its body, only the scorching heat of its soul. However, the strangeness of this technique made Chu Mu's heart tremble!

Chu Mu instantaneously traveled several kilometers away, and stared at the shadow that looked exactly like him!

“Jie jie.... An an an...” the half devil shadow let out two different laughs. The first was the half devil’s demonic laughter, while the latter was the Evernight Emperor’s hair-raising laughter.

At the same time, the shadow gradually transformed from a half devil shadow into the Evernight Emperor’s shrouded body!!

This transformation left the half devil Chu Mu in great shock!

This terrifying Evernight Emperor had not only stolen his shadow, but even replicated his own techniques. If it wasn’t for the Immortal Ming Bird’s warning, even if the half devil Chu Mu hadn’t been instakilled, he would have been heavily wounded!

Chu Mu had transformed into a half devil many times. However, it was only when he encountered the ninth phase Heavenly Devil Insect while still in the embryonic phase that he had suffered a serious wound. In the future when he transformed into a half devil in Li City and Tianxia City, Chu Mu was able to use his advantageous position to defeat his enemies!

However, this time, the half devil Chu Mu, a world-shocking evil devil, had met a match - the emperor of the night!

Chapter 736: Half Devil, Night Emperor? Who is the Ruler?! (4)

Only with similarly matched opponents would the battle be interesting!

Chu Mu’s silver face slowly smiled. His devil flames became violent, causing the nearby darkness to become a pale white.

With the devil flames burning brightly, his own shadow no longer appeared behind him, and the Evernight Emperor wouldn’t be able to use the same technique to ambush him again!

But, Chu Mu could see that the Evernight Emperor's shadow technique wasn't that easily countered!

Indeed, after the Evernight Emperor attacked. Half devil Chu Mu noticed that the black figure of the Evernight Emperor again became the half devil shape, and cast displacement specter to appear in front of him!

This Evernight Emperor ate the half devil's shadow and even mimicked half devil Chu Mu's techniques!

There was a reason Evernight Emperor was almost undefeated in emperor rank. With such a strange technique, even if it met a powerful organism it couldn't defeat, it could steal the organism's shadow, and use its own techniques to deal with it!

Chu Mu didn't dare to underestimate it at all. His body became a phantom, suddenly becoming countless images that confused the Evernight Emperor's vision!

Evernight Emperor became half devil and mimicked Chu Mu's techniques, as if a true shadow that followed!

"Can you mimic Other Type techniques?" Chu Mu laughed coldly and suddenly tightened his palm!

Half devil Chu Mu's fingers started leaking spatial distortions. With Chu Mu's twisting, the space where the evernight emperor was at had even stronger twist. Through the movement in darkness, one could tell that the space had a huge devil claw's silhouette and was tightening at the same pace as Chu Mu's hand!

Evernight Emperor cast half devil technique devil phantom, wanting to escape from the space Chu Mu was grasping, but no matter how unpredictable devil phantom was, how many illusions it created, the space Chu Mu created wasn't that easily escaped from with simple dark type techniques!

Evernight Emperor remained half devil's shadow state. Finding out that it couldn't use devil phantom to escape, the shadow started burning with shadow devil flames to cast displacement specter!

Seeing Evernight Emperor cast displacement specter, Chu Mu's face smiled with a gloomy and demonic expression.

He closed his eyes. Using his control over other type, he could sense the location the opponent was about to appear!

In the dark night, Chu Mu's senses definitely weren't as sensitive as Evernight Emperor. However, displacement specter was an other type technique. This technique didn't instantly burn you when it was casted. Instead, before burning, it confirmed a movement location, or else the displacement specter cast easily get targeted by an opponent's attack!

It was this knowledge of other type techniques that allowed Chu Mu to predict that evernight emperor would use this technique, and that it would appear in a certain location!

"Half devil has no weakness. Wanting to use a shadow to surpass me, laughable!" Chu Mu slowly extended his right arm slowly, palm facing the black skies, while an undisguised smile was plastered on his face!

Chu Mu's hand lifted high up suddenly became a first. Immediately, a turbid object slowly appeared in the dark space.

Almost the next second, the shadow devil flames burned where the turbid object appeared. It was the Evernight Emperor that appeared with the half devil technique. Its appearance location was already found by Chu Mu through spatial detection!

Chu Mu's palm instantly opened up!

At that moment, the black space's turbidness quickly widened, bringing along a strange swirl that spiraled out of control!

Spatial Quicksand!

Half devil had an extreme control over other type techniques. Top tier techniques like spatial quicksand could get instantly casted without any channeling!

Yet spatial quicksand's restriction power was extremely strong. Even with the surrounding locked in evernight, Evernight Emperor couldn't stop the slow of spatial quicksand!

At the bottom of the spatial quicksand was the spatial storm that could rip even the Evernight Emperor into pieces easily! So, no matter what evernight emperor, it couldn't let itself fall into the spatial quicksand!

At this time, the Evernight Emperor had to give up the half devil shadow it stole. Even if the shadow could mimic all the techniques of half devil, its strength definitely was discounted especially after it had already been seen through. If it wanted to use half devil's other type techniques to get out, Chu Mu's next spatial quicksand would be again waiting where it appears!

Immediately, Evernight Emperor threw away its fake shadow and revealed its dark mantle. The mantle constantly expanded and absorbed the spatial quicksand.

Seeing the Evernight Emperor sacrifice his dark mantle to dissolve the energy, the half devil Chu Mu again smiled.

After the dark mantle was slowly devoured by spatial quicksand, it quickly lost its suction. Evernight Emperor extracted itself from it!

However, just after he resolved that technique, the Evernight Emperor suddenly found that the other type half devil appeared ferociously in front of him, its burning devil flame palms creating two large devil imprints that burned with powerful spirit devil flames!

“Huhuhuhu~~~~~”

The devil flames burned. Without the mantle as protection, the Evernight Emperor was almost naked in front of the flames. The flames immediately caused great damage to it, causing it to have to hide into the thick darkness.

Chu Mu immediately started another wave of attacks, causing the Evernight Emperor to constantly dodge. Presumably, before the mantle regenerated, it won't dare to show itself again!

Without the dark night mantle, the Evernight Emperor was extremely weak, and didn't dare to fight head on with the powerful half devil!

The Evernight Emperor went and hid, but Chu Mu's evil silver face remained smiling. Its other pupils turned to look at the Promontory Devil Vine Emperor that had created an almost complete forest in the skies!

“Devil Flame Sea!”

The half devil Chu Mu's body was instantly lit up. With Chu Mu's silver devil body as the center, the rising devil flames created a shocking scene that spread towards everywhere, creating a floating devil flame sea five hundred meters off the ground, burning coldly the entire ten kilometer radius!!

With such a powerful devil flame, it lit up almost the entire immortal city, as if countless lightning bolts stayed in the world!!!

The devil flame sea quickly filled up the entire region the Promontory Devil Vine Emperor was in. The vine forest covered only five kilometers. However, the vine forest that caused binding wind spirit to despair was instantly swallowed up by the devil flame sea!

The devil flames did incredible damage to plant world soul pets, especially the kind that burned the soul!

One could say that this technique gave the Promontory Devil Vine Emperor a powerful hit, causing the devil vine emperor to have to shrink back to the ground, and not dare to do anything to the binding wind spirit anymore, only able to stare at the powerful half devil from far away, scared!

Promontory Devil Vine Emperor had the same wisdom. It could sense that the devil flame sea wasn't just a territory the half devil let outwards. It was also a blow it sent specially to deal with it!

Yet, what the Promontory Devil Vine Emperor didn't understand was where did the Evernight Emperor that was dealing with this half devil go? Did their leader just watch as the opponent's techniques reached its battlefield?

This was a team battle, so with the Promontory Devil Vine Emperor understanding of the Evernight Emperor, it was this absolute darkness dominator that should appear behind sacred pet binding wind spirit to attack it. How did half devil attack them instead? Could it be that even the extremely powerful evernight emperor lost?

After the Promontory Devil Vine Emperor shrunk down, it specially glanced at the battlefield of the half devil and Evernight Emperor, yet it was shocked to find that the Evernight Emperor had hid into its own territory and didn't dare to go against the half devil anymore!

No wonder the half devil could attack it so recklessly. Even the darkness dominator that caused countless organisms to bow down had to stay away from it!

“Huhuhuhu!!!!!!!!!!!!!!”

As the Promontory Devil Vine Emperor was shocked, a golden storm went through the devil flames sea and picked it all up, creating a devil flame storm that went towards it!

Wind type techniques didn't do much harm to Promontory Devil Vine Emperor, but with devil flames, it was a whole new concept!

The Promontory Devil Vine Emperor panicked, and quickly used all its devil vines to protect its body!

.....

Far away, Chu Mu glanced at binding wind spirit that knew how to utilize its power and smiled even broader. It seems the devil flame storm definitely wounded it. Without any accidents, the binding wind spirit will be able to deal with this vine type top tier emperor.

Devil flame sea was burning wildly, sending the darkness backward. Chu Mu's other pupils slowly turned, trying to find where the Evernight Emperor was hiding through the light of the devil flames.

Chu Mu was sure the fellow didn't hide far away. If it hid far away, Chu Mu would be able to feel the spatial distortions!

“Not only you have a territory!” Since the opponent didn't want to show itself, Chu Mu could only up his game!!

With almost infinite power and a good environment to cast in, Chu Mu didn't have to worry about stamina. This was the effect of the jade spring sacred blood, allowing half devil Chu Mu's energy to be unceasing!!

“Burn!!” Half devil Chu Mu raised his hands up high, as if welcoming the appearance of a devil flame hell!!

“Huhuhuhu!!!!!!!!!!”

An incantation sounded, Chu Mu’s mercurial body’s flames waved in the wind, making Chu Mu seem like a true devil flame dominator unique to this world. Through the spring, everyone was even more shocked to see this!

Half devil’s evil was something no other organism in this world could match!

Especially when it released the soul burning devil flames, it revealed a true arrogance of a monarch, giving off a powerful visual impact!

It, half devil evil emperor was the true dominator. It didn’t dominate only darkness, but it dominated everything!!

Chapter 737: Peak Chaotic Fight, Saint Beast vs Magnate (1)

Half devil territory was a burning world!

The dark night became the best background for the pale devil flames, causing the half devil to release even more piercing devil flames. The devil flames didn’t have scorching heat waves like fire type, but instead, it only had a coldness that seeped into one’s soul!

The devil flames wantonly swept through everywhere. From a height of five hundred meters, it constantly swallowed the darkness. The devil flame aura immediately took over the suppressing demon monument, causing even the monument to project a lone shadow!

Without the protection of dark night territory, the evernight emperor had no way of hiding from Chu Mu’s other pupils, no matter how powerful it was!

Glancing over, Chu Mu’s other pupils could not only slow down quickly moving objects, but it could also allow it to see unmoving objects at insane detail.

However, what caused Chu Mu to be slightly surprised was that, looking around in the ten kilometer radius, Chu Mu didn't see the evernight emperor at all.

"Did it escape?" Chu Mu thought to himself.

However, Chu Mu quickly refuted this guess. He believed that his spatial sense wouldn't have gone wrong. The evernight emperor must be nearby still!

Glancing over again, Chu Mu saw a very light shadow under the suppressing demon monument. The shadow reflected on the water and seemed a little too dark.

Chu Mu's devil flames covered all around the suppressing demon monument. Under normal situations, having light from all directions removed shadows. Even if there were shadows, they would be extremely dim. Yet, this suppressing demon monument's shadow was very thick. The evernight emperor must have hid there, and wanted to use this insignificant detail to hide from Chu Mu and secretly gather up a dark night mantle again.

Chu Mu smiled and extended a finger to slowly control the nearby devil flames to gather.

The devil flames gathered more and more. Chu Mu knew how long the evernight emperor needed to create its mantle, so just as it was about to complete it, the devil flame sea seemed to overturn and all the devil flames poured forth towards the suppressing demon monument location!!

Such imposing devil flames caused the evernight emperor's spirit to burn to ashes. The evernight emperor was scared stiff, and quickly darted out from under the suppressing demon monument, becoming a thick shadow that flew the opposite direction of the flames.

Chu Mu's burning left hand waved and the devil flames gathered again from another direction, creating a surrounding attack that completely engulfed the evernight emperor in flames!

"Yanyan!!!!!!!!!!!"

Evernight Emperor let out painful cries!!

Devil flames burned the dark body into a flickering spasm!

The evernight emperor was right above the spring, so all the spirit emperors saw the evernight emperor was burned by the devil flames, their faces becoming incredibly excited!

The hardest to deal with in immortal city was evernight emperor. Its plague technique was like death; even soul pet trainers fall ill to it.

Not long ago, the thick darkness left a very traumatizing mark in everyone's hearts. But now, with the half devil Chu Mu burning the evernight emperor, all the darkness in their hearts were lit with hope by Chu Mu's pale flames, even though the flames were equally demonic and evil!

"Good! Very good!!!" Elder Liu's finally let out a breath!

Elder Liu also reached top tier emperor rank, but after seeing half devil fight today, even he had to exclaim that the half devil truly is the vilest yet the strongest organism in this world. Even the fickle top tier emperor rank evernight emperor was suppressed by it!

This was ultimately the first time Liu Binglan saw Chu Mu truly half devil. He didn't think that Chu Mu would control such a powerful realm. If Chu Mu truly could stop this danger in immortal city, Liu Binglan will not hesitate to head off to forbidden realm to find the heavenly immortal ice!

Of course, the half devil's energy is shocking and could let Chu Mu reach the peak of power in a short time, but Liu Binglan was more worried about the constant high heat Chu Mu had to withstand. If it could be completely removed, she didn't hope Chu Mu had to tread the border between reason and devil every time!

.....

Devil flames caused very serious damage to its soul, but it couldn't completely kill it.

At this moment, the darkness dominator was completely angry. At the same time, the dark night commander was even more afraid of this half devil!

Under complete state, the evernight emperor couldn't take down the half devil Chu Mu. Now that the spirit was wounded and its territory was taken over, it was in a complete disadvantage!!

The evernight mantle was already done conjuring, yet the evernight mantle still didn't dare to go against half devil Chu Mu, instead screaming loudly!!

When the sound happened, Chu Mu quickly found that the calamity spider emperor, mask ghost emperor, and promontory devil vine emperor all tried their hardest to leave the battlefield and started to gather around the emperor!

Evernight emperor was summoning all the magnates to him!

Very clearly, evernight emperor wanted to group battle with Chu Mu!

Evernight emperor already realized that in a one on one situation, they weren't a match for half devil Chu Mu. In a group battle, with evernight emperor's unpredictable ability, it could cause a sacred pet damage or even kill it. This way, the magnates would have a greater chance of winning!

Promontory Devil Vine emperor was the closest to evernight emperor. Once getting the command, the vine type emperor darted into the ground at first notice, and hid near evernight emperor.

However, the Promontory Devil Vein Emperor didn't dare pop up because half devil Chu Mu's techniques could do double damage against it. If it accidentally reveals its main body, it could even get instantly killed!

After it, the massive calamity spider emperor ran aside the evernight emperor. The calamity spider emperor was already wounded. If it continued to fight against the Xuanzhen Beetle, it would die there.

So, with the evernight emperor's command, it didn't even hesitate to run to its side.

The calamity spider emperor's battle was a few kilometers away from Chu Mu's battleground. The calamity spider emperor thought the evernight emperor had the advantage, and just wanted to gather all the magnates to deliver the final blow.

It ran over happily, hoping the evernight emperor could help it get rid of the sacred pet Xuanzhen Beetle that it couldn't handle. Yet, it noticed that the evernight emperor's body was flickering and its imposing dark aura was nearly halved, its body still smoldering from burn marks!

This caused the calamity spider emperor to be surprised. Even though the calamity spider emperor knew the human world well, it was very unlikely that the evernight emperor had a match. Why was the dark night dominator hurt so much?

The masked ghost emperor was the last to arrive. Its battle with the immortal ming bird was nearly twenty thousand meters into the skies.

Using the darkness of the evernight emperor, the masked ghost emperor not only didn't get suppressed, it even vaguely had an advantage in the fight. However, a spout of devil flames ruined that all!

Without the darkness, the mask ghost emperor could only get destroyed by the immortal ming bird, so mask ghost emperor didn't dare to stay around for long, dashing downwards to escape the battle.

While the evernight emperor called all the magnates to its side, Chu Mu also told the three sacred pets to gather around him to go against the magnates.

The following battle was truly a top tier emperor rank struggle!

In such a skirmish, the unpredictable evernight emperor indeed had a great advantage. It didn't dare to deal with half devil Chu Mu, but it could definitely attack the three sacred pets. As long as it could get rid of one sacred pet, the magnates could still win.

However, this was the evernight emperor's thoughts, yet how would half devil Chu Mu be afraid of such a skirmish? It was a perfect time for the other three magnates to feel the wrath of his flames, especially the calamity spider emperor who gave it a hard time before!

"Yan!! Yan!!!!!!!"

The evernight emperor let out a call to signal the calamity spider emperor to attack half devil Chu Mu!

The calamity spider emperor's skin was thick, and could withstand devil flames better than evernight emperor. It was with some thought that evernight emperor made this choice.

“Sisii~~~~~”

The calamity spider emperor indeed had high defense, but it didn't mean the calamity spider emperor was willing to fight against the silver evil devil. If even the evernight emperor couldn't deal with it, it was just looking to get its hide beaten. Though evernight emperor knew strategy, the calamity spider emperor wasn't stupid either!

Seeing the four giants unable to fight back, Chu Mu's burning face started laughing with belittlement!

Strategy? Did they think they can beat Chu Mu, a soul pet trainer?

A soul pet trainer's main mission was to command battles, analyze situations, and use strategies!

“Kill!!”

They had the advantage now and didn't need to worry much. It was perfect instead to completely cripple their morale by attacking while they were still hesitant!!

The high defense Xuanzhen Beetle lead the charge for Chu Mu, targetting the calamity spider emperor that it had been fighting for a while!

Sacred pet immortal ming bird quickly took over the skies, its sharp eyes glaring at the four large magnates looking for an opportunity to fight

The sacred pet binding wind spirit stayed in place. In such a situation, its wind type group attacks were even more effective. Any technique could easily affect all four magnates!!

Sacred pet binding wind spirit loved group battles. The feeling of throwing everyone into the air was much better than fighting a vine that kept hiding underground!

Half devil Chu Mu was tightly following behind the Xuanzhen Beetle. With such a solid defense ahead, Chu Mu could cast his strongest flames without worry, causing all four magnates to feel the wrath of devil flames!!

Chapter 738: Peak Chaotic Fight, Saint Beast vs Magnate (2)

Seeing the three saint beasts and the half devil attack, the Evernight Emperor let out an angry cry!

The Calamity Spider Emperor realized that if it didn't do anything, their magnate camp would be completely obliterated. Promptly, it braced itself and evaded the Xuan Zhen Beetle that had been suppressing it to head towards the half devil Chu Mu!

The Evernight Emperor targeted the Xuan Zhen Beetle that was charging like a battle-ax. The Xuan Zhen Beetle's defense was very strong, but as the highest ruler of darkness, the Evernight Emperor's ability to weaken an enemy's defense was extremely terrifying!

Seeing the Xuan Zhen Beetle appear, over a thousand exceptionally malevolent dark poisonous snakes appeared in the Evernight Emperor's cloak. Each one of these snakes was equivalent to a poison snake monarch. With over a thousand of them, each of their attacks were far from negligible.

The Xuan Zhen Beetle hardened its defenses, and charged at the thousand dark poisonous snakes without fear. However, these poisonous snakes were extremely tough and merely its charge was unable to kill even half of the thousand snakes. Quickly, its thick armor was twisted around by the poisonous snakes, and countless cyan black bite marks appeared!

The signs of the cyan black indicated that dark corrosion had penetrated its body. Indeed, it transformed nearly its entire armor into this color. Even if it hadn't been attacked, its previous wounds showed severe signs of festering!

Although the Xuan Zhen Beetle had a lot of life force, it was in a very weak state right now. When Chu Mu saw this, flames appeared on his hands!

Hundred Layered Heavenly Flame Rite!

Chu Mu flung the pale white devil flames into the air. They exploded into a white fiery lotus above the four magnate creatures!

Under Chu Mu's control, the white flames descended five hundred meters away from the Evernight Emperor, destroying that area!

In the next moment, a surge of torrential devil flames arose from the destroyed area. They transformed into a devil flame dragon that ascended into the air and through the clouds while swinging its dragon tail!

This technique was the seventh rank fire type technique, Heavenly Flame Rite. However, after reaching the peak emperor rank, how could it remain so simple?!

The flaming dragon Chu Mu's was wielding had not only increased in size and might by nearly 1000 times, but the number of dragons had also increased to nearly 100!!

After the first Heavenly Flame Rite dragon surged into the clouds, the second followed shortly after. It was also surrounded by a majestic aura and burned away everything as it shot into the sky.

Even more heavenly flame dragons followed. Dozens of their pale white and imposing bodies swept up everything. Aside from the Calamity Spider Emperor, the other three magnates were hit by the intense devil flames!

After the gorgeous devil flames passed, the Binding Wind Spirit's golden windstorm emerged from the foundations of the torrential devil flames. It made the wild dragons even more ostentatious and wild. The Evernight Emperor, Masked Ghost Emperor and Promontory Devil Vine Emperor couldn't help but retreat to avoid them!

"Si si si si~~~~"

The Calamity Spider Emperor had dug underground, and appeared beside the half devil Chu Mu!

Chu Mu had already prepared defenses against this flesh-mountain like huge creature. After the Heavenly Flame Rite technique ended, two enormous flaming devil swords appeared in his two hands!

Each devil flame sword reached a shocking length of 100 meters. Added on the majesty of the devil flames, the Calamity Spider Emperor retreated on sight of them!

But since it had appeared, why would Chu Mu let it go?!

The two hundred meter enormous swords were effortlessly thrown forward Chu Mu. Strangely, the two of them didn't actually fly along a set path; instead, they disappeared in midair!

At practically the same time, beside the Calamity Spider Emperor appeared two spatial fluctuations. As space rippled, two swords, as large as the Calamity Spider Emperor, appeared on either side of it, slashing down!!!

The Calamity Spider Emperor's reactions were not as fast as the Evernight Emperor. These two devil flame swords pierced its body. Although they only managed to enter 1/3rd of the way, it was enough to make this magnate howl in pain. After all, the devil swords contained devil flames that could burn the soul!

"I'll get rid of you first!!!" Chu Mu targeted the heavily wounded Calamity Spider Emperor, and he outlandishly flew above the Calamity Spider Emperor. He put his two hands together and created a powerful spatial explosion that smashed into the Calamity Spider Emperor's thick body!!

"Beng!!!!!!!"

The entire area of space exploded and the Calamity Spider Emperor's body sunk down. Its eight legs trembled as it struggled against Chu Mu's attack!

Chu Mu demonically moved upwards above the Calamity Spider Emperor, dodging its retaliatory strike and began to rapidly absorb the energy from the devil flame sea above!!!

"Hu hu hu hu hu!!!!!!!"

The devil flame technique that had been compressed several times swept forth. When it reached the Calamity Spider Emperor's body, it abruptly blew up into a flaming prison. The Calamity Spider Emperor's two enormous legs were burnt to crisps!!

"You want to escape?" Chu Mu saw it was trying to dig underground so he rapidly condensed a muddy colored object in his right hand and threw it at the surface the Calamity Spider Emperor was trying to dig through!

The object suddenly opened and engulfed the surrounding 1000 meters in all directions, including 1000 meters underground. This was Spatial Quicksand that could bury anything and everything!

Even the rocks on the ground were sucked into the Spatial Quicksand, making the Calamity Spider Emperor's digging of no avail. Its remaining 6 legs were sucked into the quicksand and before long, its entire body would be sucked up!

In order to ensure that the Calamity Spider Emperor, rendered seriously wounded by the Xuan Zhen Beetle, would die for sure, Chu Mu ignited an even more intense soul devil flame inside the Spatial Quicksand!

The soul devil flames didn't necessarily lose their effectiveness if the opponent's defenses were high. There were many instances when the soul devil flames could pass through the enemy's thick defenses and directly burn their souls!

After a continuous series of attacks, the Calamity Spider Emperor which was slowly sucked into the quicksand weakened in life force. Even if the other three magnates managed to save it at this point, the Calamity Spider Emperor would have lost the strength to fight!

The magnates sealed in the first 50 seals undoubtedly had extremely evil hearts. They were exceptionally selfish. Now that the Calamity Spider Emperor had no more value in this fight, they wouldn't try and save it from the extremely powerful half devil if the cost was potential injuries!

The Calamity Spider Emperor's enormous body continued to struggle. As it faced death, it didn't angrily shout at the half devil Chu Mu; instead, it shouted at the other three magnates, especially the Evernight Emperor!

The Evernight Emperor had had the Calamity Spider Emperor act as the vanguard. However, after it entered the enemy's ranks, it was unable to break free. Moreover, the Evernight Emperor clearly didn't plan on it making it out alive!!

The Evernight Emperor was indifferent towards the Calamity Spider Emperor's shouts. Its dark technique rapidly corroded and dropped the defenses of the Xuan Zhen Beetle. As long as it could either kill or heavily wound the Xuan Zhen Beetle before the Calamity Spider Emperor, the magnate's side would not lose out in this chaotic fight!

However, the Calamity Spider Emperor had already been wounded by the Xuan Zhen Beetle, and its life force was much weaker than the Xuan Zhen Beetle's. Added on the fact that the half devil's other type techniques and devil flame's destructive abilities were exceptionally terrifying, especially the soul devil flames, the half devil was able to almost virtually ignore the Calamity Spider

Emperor's defenses. Although the Xuan Zhen Beetle was not in a good situation, it was still far from death!!

“Hou hou hou!!!!!!”

The Xuan Zhen Beetle was far stronger than the Calamity Spider Emperor, and was the strongest among the three saint pets. In fact, while suffering the attacks of the Evernight Emperor and Masked Ghost Emperor at the same time, the Xuan Zhen Beetle was still able to retaliate. It left a deep claw mark in the Evernight Emperor's cloak!

In the air, the Immortal Ming Bird continuously harassed the Masked Ghost Emperor, not giving it an opportunity to truly launch a technique at the Xuan Zhen Beetle. As for the Binding Wind Spirit's wind type techniques, they swept across the three magnates. Originally, the Promontory Devil Vine Emperor used its vine forest to block the golden windstorm, but it was extremely difficult to also protect the Masked Ghost Emperor and Evernight Emperor as well!

The Xuan Zhen Beetle's braveness and ferocity far surpassed Chu Mu's expectations, giving him enough time to kill the Calamity Spider Emperor!

Finally, the Calamity Spider Emperor's body fully submerged into the Spatial Quicksand. In this terrifying and unknown world of a spatial storm, the Calamity Spider Emperor would not be able to live more than 10 seconds before being ripped to shreds!

The Calamity Spider Emperor's death was determined. But Chu Mu could not let the Xuan Zhen Beetle die like this.

Chu Mu was planning on killing his way into the magnate camp when the Xuan Zhen Beetle suddenly let out a roar!

This roar caused his heart to tremble, and couldn't help but make him even more respectful towards this steady saint beast!

The Xuan Zhen Beetle didn't want Chu Mu participating in this chaotic fight. Instead, it would use its life to buy Chu Mu time to use his most powerful technique!

The Xuan Zhen Beetle was clear that if these magnates wanted to flee, even if they combined their strength, they would still not necessarily be able to stop them. Only by launching a fatal attack at the three magnates was there hope of completely obliterating them!

Chu Mu didn't hesitate. His right hand slowly rose up towards Immortal City's dusky and dark sky!

Right now Chu Mu was fermenting the half devil's strongest technique - Shattering Heaven Imprint!

His right devil palm was facing the sky as if he was going to control the boundless heavens in his hand. The entire horizon was pressed downwards as Chu Mu wantonly released his evil devilish aura. Even the Binding Wind Spirit felt the atmosphere rapidly sink, making its control over the wind even more chaotic!

However, after the Binding Wind Spirit realized that Chu Mu was manifesting an extremely powerful energy, it realized that the winners and losers of the fight were probably going to be determined very soon. Promptly, it stopped conserving energy, and began to wantonly control the golden wind to attack the three magnates!

The Immortal Ming Bird knew that the fight had reached the most crucial moment, and its attacks grew extremely fierce. Several wounds appeared on the Masked Ghost Emperor's body!!

The Masked Ghost Emperor was a magnate that they had to kill. If it managed to escape and it was able to devour the corpses of ghost type soul pets, it would be able to recover its fighting strength in an extremely short period of time!

Chapter 739: Tearing Apart the Ghost Emperor, Chasing the Night Emperor

The horizon sank lower and lower. Even the devil flame sea was being suppressed, gradually dimming with the advent of the more powerful energy...

“An an!!!!!”

The Evernight Emperor focused on killing the Xuan Zhen Beetle let out a terrified shout!

It realized that the half devil Chu Mu was fermenting its strongest technique. It felt the intimidating and pressuring heavens, and its black eyes revealed a frightened expression!

Subsequently, the Masked Ghost Emperor and Promontory Devil Vine Emperor felt that the surrounding space was uneasily moving as if a lightning storm was about to hit!

“Shattering Heaven Imprint!!”

Finally, Chu Mu finished the incantation, and coldly spat out the name of the technique!

The moment he spoke, the dusky heavens of Immortal City abruptly sank down and an enormous atmospheric pressure appeared 100 kilometers around him!! Countless sealed and guardian creatures found it abnormally difficult to breathe!

“Si la!!!!!!!!!!”

As if a bolt of lightning streaked through the night sky, breaking the darkness, the Shattering Heaven Imprint appeared in this sinking horizon. The shattering imprint fissured the sky like a snake while also splitting into countless forks and branches that rushed at the Evernight Emperor first!

The Evernight Emperor lifted its night cloak and retreated a kilometer away. With a palpitating heart, it stared at the Shattering Heaven Imprint which was several times more powerful than Evil Behead!

However, the half devil’s strongest technique was far from this simple. The first Shattering Heaven Imprint was only the first two or three raindrops before the storm. The true terror had yet to arrive!!

“Si la!!!!!! Si la!!!!!!”

The second and third Shattering Heaven Imprints appeared at the same time. The second imprint was in the form of enormous horizon nightmare claws. One on the right and one on the left that ripped at the Masked Ghost Emperor!!

The Masked Ghost Emperor's reaction abilities were not as strong as the Evernight Emperor's. Especially since the Shattering Heaven Imprint had ripped apart space. The Masked Ghost Emperor didn't even have the space to dodge!!

The two shattering heaven devil claws streaked across its left and right arms. The Masked Ghost Emperor let out a painful howl as its two arms were ripped apart!!

Quickly, even more shattering heaven devil claws full of the death god's aura appeared. Watching the low hanging sky split apart from these imprints, the people watching the reflection spring felt that Nightmares that could destroy the heaven and earth had seemingly gathered in Immortal City. They were launching malevolent attacks at the three magnates, slowly tearing them apart from limb to limb!!

The Promontory Devil Vine Emperor realized that there was danger, and attempted to bury itself deep into the ground. These magnates were all selfish and when morale fell, they would protect themselves. They didn't care for the survival or deaths of others.

Hiding underground indeed lessened the impact of the Shattering Heaving Imprints. However, this meant that the Masked Ghost King took more of the Shattering Heaven Imprints!

Even the Evernight Emperor would not necessarily be able to survive from the Shattering Heaven Imprints, much less so the Masked Ghost King.

Space continued to shatter. The Masked Ghost King's half mutilated body was completely surrounded by heavenly nightmare claws. Under the enormous claws, the Masked Ghost King was just a piece of prey that was being watched by insatiable nightmare claws. In a short while, it was ripped to pieces; even its head had been split into hundreds of slices!

The Masked Ghost Emperor's corpse was composed of flesh, a ghost heart and ghost blood. Although a ghost type creature would be able to recover as long as 1/5th of its body was still intact, the current Masked Ghost Emperor was split into tens of thousands of pieces, making it impossible to recover!

Of course, while it was being ripped apart, Chu Mu wouldn't let its inner crystal go to waste.

With a slight thought of its mind, the half devil Chu Mu was able to utilize spatial fluctuation with its other type energy to easily collect the Masked Ghost Emperor's and Calamity Spider Emperor's inner crystal into his spatial ring.

“Ga ga ga ga!!!!!!”

The Evernight Emperor was exceptionally crafty and the moment it sensed danger, it fled far away.

But when it saw that the Masked Ghost Emperor had borne the brunt of the attack, this strange night emperor very bravely decided to approach Chu Mu. It took advantage of Chu Mu having just completed the Shattering Heaven Imprint technique to launch a sneak attack on him!

The Evernight Emperor was extremely clear that if the half devil remained, even if it was able to escape, it would still be tracked down by the half devil. It would be difficult to escape its fate of death. Therefore, no matter what, it had to get rid of the half devil Chu Mu!

However, Chu Mu was prepared for this. When he saw the Evernight Emperor attack him instead of flee, an evil smile arose on his face!

“You think that Shattering Heaven Imprint is this simple?” Chu Mu suddenly turned around and faced the Evernight Emperor!

The Evernight Emperor was tall and from far away, he looked like a black towering fortress. Added on its black cloak, it seemed to be shrouded in even more mystery, darkness and time!

However, when this creature, famous in the past century for its tyranny, faced the half devil Chu Mu, it couldn't help but tremble. It seemed that everything it was doing had been grasped by the opponent. Even its sneak attack had been predicted!

“Si la!!!!!!”

Suddenly, a Shattering Heaven Imprint appeared between the Evernight Emperor and the half devil Chu Mu. This Shattering Heaven Imprint destroyed the dark wave the Evernight Emperor attacked Chu Mu with, breaking open its sneak attack!

If the Evernight Emperor had used its strongest dark technique to attack Chu Mu, perhaps he would have been able to dodge it.

Unfortunately, the Evernight Emperor was afraid of the half devil Chu Mu after clashing with him numerous times. Even in a sneak attack, it didn't want to be rash, so it sent out the dark wave in an attempt to contain the half devil Chu Mu first.

The dark wave had indeed succeeded in containing the half devil Chu Mu. Nonetheless, Chu Mu was already prepared for this, and had shattered it with the Shattering Heaven Imprint!

The Shattering Heaven Imprint hadn't disappeared because of the Promontory Devil Vine Emperor's death. When Chu Mu's two abnormal pupils released a demonic light, another group of terrifying heavenly nightmares appeared on top of the Evernight Emperor! They strived to be the first ones to reach out with their claws that could rip apart space!!

If the Evernight Emperor's hidden attack didn't succeed, they would completely lose this fight!

The Evernight Emperor's eyes were filled with panic, anger, and fear! Having lived for so long and finally being released today, it shouldn't have been a problem for it to dominate Immortal City. Yet, it didn't expect that in this era, a half devil, a creature even more terrifying than the Evernight Emperor, would appear!

Countless Shattering Heaven Imprints streaked past. The Evernight Emperor's waved his evernight cloak in an attempt to dodge the Shattering Heaven Imprints!

The Evernight Emperor's dodging abilities were extremely powerful, and it managed to dodge a majority of the sudden Shattering Heaven Imprints. However, its defenses were nothing much especially when it had lost its evernight cloak. A few attacks from the Shattering Heaven Seals would deal heavy damage to it!

After the nightmare claws that were seemingly trying to snatch prey struck it, the Evernight Emperor's figure became dimmer. Clearly, this attack had dealt considerable damage!

If it couldn't defeat the opponent, the only option was to flee!

The Evernight Emperor didn't hesitate. After dodging all the Shattering Heaven Imprints, it immediately began to flee into the depths of Immortal City!

"You guys kill the Promontory Devil Vine Emperor. I'll chase after it!" Chu Mu said to the Immortal Ming Bird and Binding Wind Spirit.

The Xuan Zhen Beetle was right now collapsed on the ground from its serious wounds. Its body had been corroded by the Evernight Emperor's dark energy. Whether it would be able to survive depended on the tenacity of its life force. In order to give Chu Mu enough time to release this technique, the Xuan Zhen Beetle had indeed paid a heavy sacrifice!

Chu Mu understood that now wasn't the time to attend to the Xuan Zhen Beetle. He had to kill the Evernight Emperor otherwise, when it made a comeback, Chu Mu would not be able to fight it again because he could only transform into a half devil once!

The Evernight Emperor's figure would go dark before going light. It flew across the sky above Immortal City, leaving in its trail a dense darkness aura that covered several districts.

This made Chu Mu very suspicious. This fellow was fleeing, yet still was consciously laying down its darkness domain.

"Young master, this is Dark Plague. The Evernight Emperor is able to create an intense darkness and death aura using this plague. The more creatures killed by its plague, the quicker its recovery is. You absolutely cannot let it release its plague on the entire Immortal City. Otherwise, this fellow will have an abnormal recovery rate. Even if you launch many Shattering Heaven Imprints at it, you won't be able to kill it!" Old Li used a mental voice to warn Chu Mu.

Chu Mu was shocked that the Evernight Emperor also possessed this ability. It was no wonder it was sealed in the first 20 seals. The moment it was released, the plague damage it could release could be counted in terms of species!

The Evernight Emperor fled very quickly. Even after using Devil Phantom and Displacement Specter, Chu Mu could at most guarantee that he wouldn't be thrown off its tail.

Nonetheless, the Evernight Emperor was heavily wounded and could not maintain its fastest fleeing speed. The moment it slowed down, it was undoubtedly dead!

"An an an an!!!!!!!"

The Evernight Emperor discovered that the half devil Chu Mu wasn't giving up its chase, and it let out an angry cry!

It conveyed that it had no enmity with the half devil Chu Mu, so why did he have to chase him to the very end? If worst came to worst, the Evernight Emperor would just avoid Chu Mu in the future.

Chu Mu ignored its words. Regardless of the fact that this was his last half devil transformation, even if he could transform into the half devil anytime he wanted, Chu Mu would still not let this walking disaster go. The Evernight Emperor would definitely be able to kill him with sneak attacks. Now that there was an enmity between the two, Chu Mu absolutely had to chase him to the very end!

The Evernight Emperor and the half devil Chu Mu were extremely fast. This pursuit lasted half of Immortal City!

Immortal City had several large sealed areas. The Immortal Bird, which was the fastest, needed only a little bit of time to fly across. But Chu Mu was surprised because even while heavily wounded, the Evernight Emperor was still able to maintain its speed for so long!

At the moment, Chu Mu didn't even know which districts of Immortal City he had flown over. But he indistinctly felt that the atmosphere from these districts was a bit fishy. However, he was only focused on the Evernight Emperor which still wasn't slowing down, and didn't pay too much heed to this.

“Hou hou hou hou hou!!!!!!!!!!!!!!”

“Hou hou hou hou hou!!!!!!!!!!!!!!”

Suddenly, a loud roar rang out from the sealed district under him!!!

This roar caused both the half devil Chu Mu and the Evernight Emperor, these two peak emperors to tremble!

From the majestic aura of the roar that was capable of making peak emperors fearful, this creature that suddenly roared was definitely no weaker than Chu Mu and the Night Emperor!

This was a creature that was nearly a paragon emperor!!!

Chapter 740: Seven diagram sacred beast's head, Thousand Wave Beast!

Chu Mu's half devil couldn't stand the waste of time. It could, at most, get rid of evernight emperor. Any longer, and his soul may not be able to take the stress.

Now, the city suddenly showed an organism stronger than itself and evernight emperor. This was a huge blow to the sacred pet side. At least, he didn't have time to deal with this new entrant!

While Chu Mu was shocked, the evernight emperor was also worried!

The evernight emperor was heavily injured right now. It could feel the roaring organism was even stronger than it at its peak, so the evernight emperor wasn't its match!!

Though immortal city magnates created factions, the leader had to use powerful organisms' corpses to solidify its position! Now that it was wounded, the summoned organism would definitely not hesitate to come up and finish it off and swallow its innards as energy.

Thinking back, when the evernight emperor woke up from its seal, it also killed a large pack of emperors to replenish its energy!

And let alone top tier emperor rank organisms, even high class emperor ranks may hazard a try to kill it for a chance to rank up with its innards!

Soul pet survival was cruel. Killing an organism higher rank than it and swallowing its innards had a good chance of ranking itself up. After all, the innard crystals held energy equivalent to large amounts of spirits. If they were lucky and a soul crystal appeared, then it would become a hundred percent chance of ranking up!

The evernight emperor was scared. The half devil behind it was already leaving it no escape, yet at this time another organism appeared within immortal city that was more powerful! The evernight emperor was truly in despair!

“Houhou!!!!!!!!!!!!!!!!!!!!”

A roar came from the ground and into the skies. The evernight emperor felt a pair of eyes locking onto it!

The evernight emperor lived for a few hundred years, and didn't want to die here. Even if it were sealed for another hundred years, it was better than dying!

It started using all its dark power to hide itself, and let the terrifying organisms' attentions fall onto the half devil behind.

As long as the magnate on the ground stared at the half devil, it would have a chance of survival!

Yet, the gaze's dignity and killing aura locked onto the evernight emperor, not budging no matter what evernight emperor did.

Finally, the tyrannical organism appeared. The sacred light shrouded its whole body, exuding an emperor like aura. The beast type organism leaped into the air as the sacred light covered claw magnified infinitely, covering the entire city area!

The massive beast claw heavily slammed down. Even half devil Chu Mu had to back off to avoid it, but even so, he felt a wind gust that pushed at him and caused him to waver!

One had to know that half devil Chu Mu was still a kilometer away from the massive claw. Even Chu Mu couldn't guarantee he could exert power to such degrees!

“Beng!!!!!!!!!!!!”

The massive claw fell down. The powerful organism clearly didn't want to damage the sealed city. When the claw was around a kilometer above immortal city, it directed the power into the space itself and shattered the space above city!!

Even if the evernight emperor wanted to escape it couldn't. Its already dim figure was shattered when the giant beast claw fell against the space it occupied. Even the dark aura after death was purified by the sacred light between the claws!!

The sacred light beast's hit caused evernight emperor to truly disappear into nothing.

Of course, Chu Mu couldn't just watch as a nearly invincible emperor rank innard was shattered. He also casted other type technique to grab the dark innard crystal of the top tier emperor rank!

"Houhouhouhou!!!!!!!!!!!!!!"

To show off its kingly aura, after the beast killed the evernight emperor, it yelled out a roar strong enough to shake the entire city!!

This roar had a very strong quelling effect. All the high class emperor ranks were originally waiting for their chances to attack the tired sacred pets.....

Yet, after this firm roar, all the high class emperor ranks were scared back into their own places, not daring to rebel at all anymore!

Binding wind spirit, immortal ming bird, and xuanzhen beetle all had some suppressing factor in immortal city. This suppressing factor could at most guarantee them not to get ganged up upon. However, there were countless emperor ranks in immortal city that yearned to be free. If these sacred pets were all very weak, they would definitely gather up everyone and defeat the sacred pets.

Chu Mu had thought of this issue before, so during the battle, he told the sacred pets to save as much power as possible. What Chu Mu didn't expect was the beast's roar instantly silenced the entire city!

This suppressing factor was something even evernight emperor couldn't do!!

"Young master, this is the boss of the seven sacred pets - Thousand Wave Beast!! This fellow isn't just a little bit powerful!!" Old Li's voice came into Chu Mu's mind.

Thousand Wave Beast! When Chu Mu saw the sacred light, he knew it meant the fourth sacred pet was awakened!

Yet, he was surprised that this time it was the most powerful seven diagram sacred pet, Thousand Wave Beast!!

Thousand Wave Beast was also known as Wanmo Beast (Thousand Bows), an organism beyond emperor rank that truly causes all beasts to bow down!!

Of the seven diagram sacred pets, Linyin Beast, Xuanzhen Beetle, Immortal Ming Bird, Binding Wind Spirit, Palm Dawn Concubine were all monarch rank. Only Holy Stem Flower and Thousand Wave Beast were emperor rank. The Thousand Wave Beast was even on the higher end of emperor rank, so the moment it reached tenth phase it was a hegemon of a whole region, completely unstoppable!

The amount of people that owned the Thousand Wave Beast was very limited even within soul palace. This Thousand Wave Beast was top tier emperor rank. Even without any subtypes, its easily discernible that this was an organism that truly was in touch with the invincible emperor rank realm. The evernight emperor would definitely lose against it!

Chu Mu was shocked. He thought three sacred pets was the limit already, yet Thousand Wave Beast was awakened. He quickly glanced down to see who did it.

“Her?” Chu Mu suddenly paused because where the Thousand Wave Beast’s Suppressing Demon Monument was, Chu Mu found a familiar figure.

This woman was the one that followed Chu Mu around for half a month. Other than pointing out the way, the only thing she did was scream, cry, and faint. Chu Mu was surprised that it was this woman that awakened the Thousand Wave Beast.

However, a close look revealed that Chu Mu found many emperor rank soul pet corpses around the monument. Chu Mu understood. The brave warrior and defector young woman’s subordinates fought and both died, leaving Lady Shan with the opportunity to awaken the strongest Thousand Wave Beast of all sacred diagram soul pets.

Chu Mu had confidence he could kill the evernight emperor, but if the Thousand Wave Beast could appear earlier he wouldn't have had to waste the chance of using half devil.

Of course, if Chu Mu didn’t lead the three sacred pets into battle, the four magnates wouldn’t let anyone awaken the Thousand Wave Beast.

.....

The Thousand Wave Beast awakened, making suppressing immortal city much easier. Presumably, in a bit, the departed world gates would open and tianxia city’s spirit emperor ranks will come through with the help of sacred pets and seal back all the organisms.

“I don’t know how likely I can win against this Thousand Wave Beast.” Chu Mu looked at the powerful Thousand Wave Beast and thought to himself.

It was rare he became half devil, so Chu Mu’s wildness was completely ignited. Yearning a fight, he even had the urge to fight the Thousand Wave Beast.

This was the half devil’s influence. Logically, Chu Mu wouldn’t ever anger the Thousand Wave Beast. Yet, while half devil, Chu Mu’s blood was burning with battle, so even his mind constantly had cruel thoughts he couldn’t control!

.....

Thousand Wave Beast was by the sacred spring while Lady Shan stared dumbfounded at the evil devil in the sky!

“Half.....half devil!!!!” lady Shan almost gave up her life to summon Thousand Wave Beast. She thought that the chaos could finally be suppressed, yet she didn’t think that there would be a half devil in immortal city!!

Compared to the Thousand Wave Beast’s righteous aura, the half devil was full of evilness. When these two forces collided, one couldn’t tell which was stronger and which was weaker. Lady Shan was originally full of hope, yet when she saw the half devil, her emotions fell significantly!

Half devil was the utmost evil. Lady Shan had heard the tale of the half devil very early on. Though the half devil looked like Chu Mu, getting gazed at by the half devil still caused her to become cold all over and not even be able to stand.

“Houhouhou!!!!!!!!!!”

Thousand Wave Beast didn’t have wings but it could easily stand in the sky and gaze at half devil with its golden pupils!

If not for Chu Mu having the aura of the other three sacred pets, it definitely would leap forward without hesitation and fight Chu Mu. Evil and Righteousness couldn’t stand each other, which was

totally displayed between the two. This may be why soul palace and nightmare palace held such long grudges for each other.

To Thousand Wave Beast's unfriendliness, Chu Mu didn't have to be polite either. He said calmly, "Xuanzhen beetle is almost dead. Instead of staring at me, might as well check to see if it can be saved."

Thousand Wave Beast wasn't truly hostile towards Chu mu. It was like water and fire, or dark and light- friction was inevitable when they were nearby. It was an instinct!

Chu Mu had to admit that half devil's heart had a strong resentment and evil aura. This soul pet filled with justice, righteousness and holiness caused Thousand Wave Beast to feel very uncomfortable too!!
