

Soul Pets Bk2 791

Chapter 791: Advance, High Remembrance Soul Emperor!

Mental restriction, this was a large diagram that used the entire space as its diagram. It created a long-lasting mental suppression that normally was not perceivable.

Initially, Heavenly Concubine didn't realize the difference in this world. However, when she noticed that she was impacted by the world's desolation even when she was meditating, it raised her alarm, so she didn't tell Teng Lang and her two female disciples to stay for any longer.

After a while, they would truly suffer from mental collapse and need a long time to adjust back.

"I'm not that fragile." Chu Mu didn't care.

This mental restriction was to test one's heart. Chu Mu wanted to use this mental restriction to raise himself to high remembrance soul master and gain another soul pact.

"Ride my white tiger." Heavenly Concubine said as she jumped off her white tiger, and called her nine colored phoenix beside her.

Chu Mu nodded. He really didn't have much that could ride. Little Mo Xie was afraid of the cold and wouldn't want to walk around in this cold world at all.

Heavenly Concubine told the nine colored phoenix to fly low. This way, when it was boring, they could talk and get rid of the boredom and fear that inevitably would come.

However, Heavenly Concubine seemed to want to test Chu Mu's patience. Though she rode her nine colored phoenix right beside Chu Mu and the white tiger, she didn't speak at all.

Chu Mu closed his eyes calmly, staying in meditation, not caring whether this woman was intentionally silent.

It went on like this for ten full days- the meditating Chu Mu and Heavenly Concubine didn't say a single word. This patience was truly crazy.

In reality, throughout the whole process, Chu Mu had always watched Heavenly Concubine silently to see if he could land a lethal blow while she was meditating silently. However, Chu Mu found the woman would maintain a wisp of soul remembrance aside her in meditation.

This soul remembrance wasn't to guard against Chu Mu, but instead guarding against sudden attacks from organisms.

Organisms that lived here for a long time definitely were incredibly powerful. Though the scene was always the same, Heavenly Concubine would never truly think this world was calm.

On the fifteenth day, Heavenly Concubine's soul remembrance increased a little bit, and she opened her eyes.

What she saw was still the distant ice mirror ground and pure sky. It was the same the entire month, and even Heavenly Concubine was starting to despise it.

She subconsciously glanced at the white tiger aside her, and glanced at Chu Mu's face.

"This Chu Fangchen truly is out of the ordinary in patience, able to stay silent for fifteen days. Instead, I've become useless." Heavenly Concubine said quietly.

She indeed was intentionally testing Chu Mu's patience and mental strength. Yet, this man's confidence was truly beyond ordinary.....

In reality, Heavenly Concubine could guess that when Teng Lagn and her two female disciples headed back, they may very likely fall to their desperation, and do something that shouldn't happen due to losing their minds.

Being completely desireless wasn't something everyone could do, especially two female disciples that weren't beyond mortal desires yet.

They were indeed experts, but if they didn't have enough mental strength, they would stay at high class emperor for the rest of their lives.

Heavenly concubine's main worry of whether to bring Chu Mu along was this as well. She was worried that Chu Mu wasn't powerful enough and would show his evil desires in this place. The

source of the desires would of course be her, because in this empty place, human imagination would slowly take over the real world. If the man had even the slightest of desires for her, those thoughts would slowly be magnified until it took over their reason.

What was rare was this perfectly healthy and robust man's heart was surprisingly firm. Heavenly Concubine didn't even feel any intrusive gazes from him. He was able to completely devote himself to training and not get affected by the outer world. Becoming an expert was just a matter of time for him.

This way, Heavenly Concubine had to start thinking of taking him as a disciple again. Such a firm mind could be her disciple and reach her heights.

"En? About to advance his soul remembrance?" Suddenly, Heavenly Concubine noticed the starlight glow on Chu Mu's body, a dim but deep blue that surrounded Chu Mu before slowly merging into Chu Mu's forehead.

"Sixth remembrance to seventh remembrance- high remembrance spirit emperor. He is firmly in the highest realm of humans already. Reaching such a realm means that Chu Fangchen may very likely reach the peak in the future." Heavenly Concubine thought secretly.

Heavenly Concubine was only ninth remembrance spirit emperor. Reaching seventh remembrance spirit emperor, Chu Mu was only two remembrances below.

As the light slowly dimmed, Chu Mu slowly released his remembrance on the white tiger. The feeling of covering nearly a hundred kilometers' space felt amazing to Chu Mu!

Though most soul pet trainers used their minds to control every aspect of a fight and completely assess the situation, if Chu Mu gathered all his soul remembrance together to launch a mental attack against weaker foes, spirit emperors may instantly lose their mental defense. Low remembrance spirit emperors would feel great mental pressure, while middle remembrance spirit emperors would get shocked.

Under normal circumstances, if Chu Mu wanted to raise most of his emperor ranks to high class, becoming high remembrance spirit master would be easier. However, because of the special circumstances, he entered high remembrance spirit emperor ahead of time. This was very useful for the raising of his soul pets' strengths.

Opening his eyes, Chu Mu's eyes flashed blue and he smiled confidently.

"Seventh remembrance spirit emperor, congratulations." Heavenly Concubine looked at Chu Mu and said softly.

Chu Mu nodded, discovering a rare gentle smile on Heavenly Concubine's fair face.

"Where's the end to this world..." Chu Mu glanced far and asked.

Since he reached his goal, Chu Mu would probably start despising this endless world. He couldn't just continue walking forever. If he walked for two months, it meant walking back for two months too.....

"Let's continue, I can feel the source of the spirits getting closer." Heavenly Concubine, of course, wouldn't just give up. After all, other than fixing the fire poison in her body, she didn't gain any benefits from this trip yet.

.....

Indeed, a full two months went past as Chu Mu and Heavenly Concubine continued in this world.

Chu Mu had a determination, on one hand to not let Heavenly Concubine get this special treasure but on the other hand this was a great opportunity to get rid of her that Chu Mu didn't want to give up.

Heavenly Concubine always believed this world had treasures, and so having walked this much, she didn't want to give up.

In the two months, the two people started having qualms about this world and held a great despise for it.

Chu Mu slowly started talking with Heavenly Concubine, mainly asking about dominator rank and things like xuan and where it might appear.

Heavenly Concubine hadn't been in dominator rank for too long, so the only hint of finding xuan was with Ning Maner, yet she had been taken away by silver devil man.....

On the other hand, Chu Mu finally found out the woman's name. Though Chu Mu felt that this woman was destined to die soon anyways and knowing her name was meaningless, he still learned about her situation through talking.

Heavenly Concubinee was the grand daughter of the wanxiang realm king, and she was called Miu Qingyi.

Wanxiang King had disappeared many years ago and never cares about what happens in the realm. Then, as the position was always empty, the entire wanxiang realm was slowly taken over by the three palaces and soul alliance.

Miu Qingyi wasn't that interested in the realm king position, and instead meditated and became the famous war goddess. Presumably, the title of wanxiang realm king would naturally fall on her head.

Similar to most experts, Miu Qingyi merely had a title in soul alliance, but never participated in any alliance matters and rarely used her title to do anything. This was why the three palaces weren't too hostile towards her.

Miu Qingyi's stance was with Wanxiang realm and not soul alliance. The three palaces' enemy wasn't wanxiang realm's nobility, but instead the monopolizing soul alliance.

If Heavenly Concubine Miu Qingyi really didn't stand with soul alliance, there was no point in killing her off. Strictly speaking, they didn't have any deep grudges.

However, Chu Mu felt that he had to be vigilant and still attack if he had the opportunity. If Miu Qingyi stood on soul alliance's side due to pressure from the alliance master, the third most powerful human, war goddess, could cause great threat towards Chu Mu, who wanted to destroy soul alliance.

Since Heavenly Concubine Miu Qingyu told Chu Mu about her general situation, Chu Mu of course had to make up a story so she wouldn't be suspicious.

Chu Mu made a half true and half false story. Even so, Heavenly Concubine Miu Qingyi smiled and nodded, "It's rare to see a person like you go from ordinary to such a realm."

Seeing Miu Qingyi's elegant and beautiful smile, Chu Mu quickly averted her gaze and moved the topic elsewhere.

"Damn it, We can't stay here for longer anymore, or else I'll lose the heart to kill her!" Chu Mu bit down on his teeth.

As Miu Qingyi predicted, Chu Mu as a normal man started glancing at Miu Qingyi's curves covered by her clothing and some thoughts were popping into his head. The immoral sentence Teng Lang had said a while ago was starting to come back too.

Miu Qingyi was indeed beautiful and had a great body. If the mental pressure continued, these thoughts will only get larger.

Any longer and trouble would truly happen!

Chu Mu had to find a chance to attack and not waste any more time!

Chapter 792: War Goddess, Mad Goddess?

If he were to attack in this sort of circumstances, Chu Mu would be unable to attack the Heavenly Concubine herself. Firstly, the White Tiger would detect Chu Mu's intentions and secondly, the Heavenly Concubine was cautious of her surroundings. The moment Chu Mu transformed into a half devil, she would be able to react and summon the Crown Phoenix King.

Therefore, Chu Mu decided to quick and violently kill the White Tiger, which posed a threat to him. This would cause the Heavenly Concubine to lose a soul, and he could take his time killing the Crown Phoenix King.

Inside the extreme ice land, the Crown Phoenix King's strength was greatly reduced, and Chu Mu had the confidence to beat it.

In case the Heavenly Concubine wanted to flee, Chu Mu would pursue it. The route back was 2 months long, and that gave Chu Mu more than enough time to chase her down. Presumably, the Crown Phoenix King's flying speed here wouldn't be very fast.

Chu Mu had planned everything, and was just waiting for the Heavenly Concubine to begin silent cultivation. However, a very untimely thing occurred that caused Chu Mu to dispel thoughts of attacking her.

“We found it!” a smile arose on Heavenly Concubine Mu Qingyi’s face. One could see that after two months of mental suppression, she was also at a very jittery stage. Now that she had finally found the place she had been looking for, she was naturally extremely happy.

Chu Mu’s expression was one of excitement but also disappointment. He stared at the towering snowy peak in front of them that reached the blue skies and muttered in his heart: “This snowy peak didn’t appear earlier nor did it appear later. It just had to appear right when I was about to make a move.”

Since they had found the snow peak, the mental suppression naturally weakened. The continuously growing desire Chu Mu had towards Mu Qingyi only had to be slightly suppressed, and the desire would shift to the mysterious snowy peak.

In truth, Mu Qingyi had also let out a sigh of relief when she saw this snowy peak. She was actually like Chu Mu in that she had been swept up with desire. As she gradually came to understand the man accompanying her, she grew more and more approving, and had a better impression of him. These feelings continuously grew during the two months of suppression. But this wasn’t something good, especially since the approval and good impressions would sometimes grow in certain areas...

Of course, Mu Qingyi had also discovered that Chu Mu’s eyes had transformed from their original calm and unrippled serenity to a blazing hot. This was the occurrence from his mind being increasingly broadened, and Mu Qingyi was extremely aware of how terrifying the mental suppression was. She also understood that Chu Mu could no longer suppress those thoughts. However, she didn’t feel disgusted by this; instead, she was afraid that Chu Mu would lose his rationality one of these days.

Therefore, Mu Qingyi maintained a sliver of soul remembrance around her. The moment this man had any improper thoughts towards her and before he made a move, Mu Qingyi would have the Nine Colored Phoenix imprison him and kill him.

The reason why she would do this was because she had a favorable impression of him and perhaps really would take him as a disciple. Even if she didn’t take him as a disciple, he probably would reach a level very close to her in the future and Mu Qingyi wanted to make friends with someone with potential. Therefore, regardless if he became a friend or disciple, Mu Qingyi could not have any embarrassing experiences with him.

“I should have had him go back with the three of them before. However, it’s fine, because we still made it.” Mu Qingyi discovered that in this place where their minds were ceaselessly broadened, having a single man and woman travel together really wasn’t too suitable.

Chu Mu naturally could not know what Mu Qingyi was thinking. If he knew that Mu Qingyi had maintained a sliver of soul remembrance to guard against any improper actions, he probably would have been speechless.

Chu Mu really was going to do something improper, but it wasn’t what she was thinking. Instead, he was going to kill her! Moreover, as Chu Mu placed his attention on killing her, his killing intentions broadened, making his eyes seem “hot” to Mu Qingyi.

The snowy peak, accurately speaking, should have been called an icy peak because it was formed by sparkling ice crystals!

As they approached, they discovered that the entire icy peak was formed by countless rhombus-shaped ice pieces. It made the peak seem as if it wore a set of ice armor.

“The spirit energy here is very dense. Perhaps there is a spirit source nearby.” Chu Mu raised his head, and stared at the icy armor mountain peak.

Mu Qingyi didn’t respond. Instead, she closed her eyes and used her perceptive abilities to search...

A moment later, Mu Qingyi opened her eyes, and an excitement that was hard to inhibit blossomed from her eyes.

“What’s the matter?” Chu Mu saw that Mu Qingyi was very happy and asked in confusion.

“Although there isn’t xuan here, this really is a historical place. Normally in these places, there exists some strength inheritance that can increase the strength of a soul pet or a soul pet trainer.” said Heavenly Concubine Mu Qingyi.

In regards to strength inheritances, Chu Mu had obtained one before. That was the Empyrean Cyan Hidden Dragon’s Jade Spring Holy Blood baptism. That caused his strength to soar. If there really was inherited strength here, this trip would not have been in vain!

“You and the White Tiger stay here. I’ll go to the icy peak to look.” said Heavenly Concubine Mu Qingyi. After speaking, she rode on her Nine Colored Phoenix up the icy peak. She seemed to be searching for some special mark above the icy peak.

Chu Mu wasn’t in a rush. After waiting for a moment, a purple clothed Mu Qingyi returned to the ground. She didn’t seem to have found anything of value.

“Is it underground?” asked Chu Mu.

“Yes.” Mu Qingyi nodded her head and ordered her White tiger to use its claws to rip apart the ice on the ground!

The icy mirror ground was several tens of thousands of times harder than normal ice. A full strength claw from the White Tiger merely left a dozen meter pit in the ground. Mu Qingyi had the White Tiger continue to attack while summoning the Lava Emperor which had more destructive power against ice.

In a few attacks, the Lava Emperor managed to chisel a several hundred meter whole under the icy peak.

“Beng!!!!!!”

The Lava Emperor’s fist descended and suddenly, the layer of ice three hundred meters gave way. Cracks began to spread on the ice under Chu Mu’s feet. Chu Mu wasn’t able to react in time before abruptly falling in!

Chu Mu fell with the ice about twenty meters. Mu Qingyi rode on her Nine Colored Phoenix down and intercepted Chu Mu, who was being rapidly sucked down by some attraction force.

If he had fallen naturally, Chu Mu could have relied on a wind type soul technique to fly back up. However, due to the strange and extremely strong attraction force, Chu Mu knew that using soul remembrance was of no avail. Thus, he allowed himself to fall, waiting for Mu Qingyi to save him.

“Are you ok?” asked Mu Qingyi.

“Yes, there’s a wind cave underneath. Let’s slowly fly down.” Chu Mu was obviously ok. Instead, he felt that Mu Qingyi had no need to ask this question.

Mu Qingyi had the White Tiger stay above on the ground while the Nine Colored Phoenix and Lava Emperor slowly descended.

The wind cave was a spatial black hole with extremely powerful attraction force. As the Nine Colored Phoenix circled down, the attraction force grew increasingly strong.

“The center of the wind cave is still very far away. But at this distance, there’s already this much attraction force. This wind cave is a bit terrifying.” said Chu Mu.

They had already continued descending for a long time, but the wind cave was still exuding so much force. If it were a middle class emperor or high class emperor, it would not have been able to descend this deep.

Even if it was a paragon emperor rank Nine Colored Phoenix, it still had to be extremely careful when flying down. Otherwise, if they descended to an area where the attraction force was too strong, the Nine Colored Phoenix would not be able to fly its way back up.

In order to prevent this, Chu Mu suggested to Mu Qingyi to have the Lava Emperor stay on the Nine Colored Phoenix’s back. The moment something happened, the Lava Emperor would be able to haul the Nine Colored Phoenix back up.

“This place is the limit.” Mu Qingyi creased her brow, and didn’t have the Nine Colored Phoenix continue down.

Right now, the Nine Colored Phoenix was beating its wings very quickly. If it continued going down for about another 10 meters, it probably would be sucked away by the wind cave.

But Mu Qingyi naturally wouldn’t give up here. Mu Qingyi had the Nine Colored Phoenix and Lava emperor return to the ground while she summoned the dominator rank Crown Phoenix King.

When the Crown Phoenix King appeared, Chu Mu’s heart clenched. He was truly afraid that the direct descendent of an ancestor level creature would discover the half devil aura on him.

Fortunately, the extremely ice land made the Crown Ice Phoenix feel extremely uncomfortable. It naturally didn't consider whether Chu Mu, this man who was standing with its master, was of any danger.

The Crown Phoenix King's flying abilities were much more powerful than the Nine Colored Phoenix. This type of powerful attraction force wasn't of much influence on it.

The Crown Phoenix King was indeed bold. While the Nine Colored Phoenix needed to slowly circle its way down, it simply dived straight down. It practically didn't place the endless wind cave in its eyes.

As the Crown Phoenix Cave dived down, Chu Mu was silently shocked.

It had already reached such a deep place, but hadn't reached the end of the wind cave. This wind cave probably exuded strength similar to a dominator rank other type or wind type creature!

"It's about to reach its limit. How deep is this wind cave?!" Mu Qingyi's expression turned serious.

If the Crown Phoenix King was about to reach its limit, this meant that the wind cave's strength was at the dominator rank. Most importantly, even at the Crown Phoenix King's limit, it still hadn't reached the end of the wind cave.

"The wind cave probably has another 1000 meters until the end. In these 1000 meters, probably even dominator rank creatures will not be able to withstand the attraction force." said Chu Mu.

From Mu Qingyi's expression, it was possible to tell that she was unreconciled. She was unreconciled because she had already stepped into the dominator rank, yet was being held outside an entrance by an ancient site!

"Hold on tight!" Mu Qingyi calmly said to Chu Mu.

"Hold on tight to what.... Hey!" Chu Mu wasn't able to finish speaking before the Crown Phoenix King suddenly swooped down. This caused Chu Mu to stumble and nearly fall off. Fortunately, the Heavenly Concubine extended her hand and hauled Chu Mu back.

“I told you to hold on tight!” Mu Qingyi glared at Chu Mu. Her hair, which was originally hanging elegantly, was fluttering in the air as they fell. This exposed her beautiful blemishless face.

Chu Mu naturally couldn’t say anything. The bottom thousand meters of the wind cave naturally was not something even a dominator rank creature could resist!

Mu Qingyi having her Crown Phoenix King swoop down like this was tantamount to suicide!

How was Mu Qingyi a war goddess? She was more like a mad goddess!

Five hundred meters down, the attraction force became abnormally powerful. The golden flames on the Crown Phoenix King’s body were practically going to break free from it.

Finally, Chu Mu detected the end of the terrifying wind cave!

The might of this wind cave was even more terrifying than the wind cave Chu Mu could use as a half devil. Therefore, by flying down like this, there was a 100% chance they would not be able to fly up again. One careless mistake, and they could also be sucked into an area in the wind cave filled with wind storms. There, they could be ripped to pieces!

She’s mad! Until now, Chu Mu thought that Mu Qingyi was rather conservative. He never expected her to be so gutsy. So gutsy that Chu Mu’s hair was about to stand up in anger!

Chapter 793: Microcosm of a Legendary Land

The wind cave led to a terrifying wind storm space. Even dominator ranks, if sucked in, would be ripped into pieces.

The bottom was an enormous abyss that seemed like a deep well. At the bottom of the deep well was a fatal wind cave. One didn’t even have to reach the bottom of this wind cave. By only flying 1000 meters above the bottom, one would not be able to climb back up.

However, at about a hundred meters from the strongest point in the wind cave, along the wall, was a horizontal cave.

A golden flame slowly flickered, illuminating the bottom of the cave. When the light spread to the abyss, it was possible to see an arc appear in the golden light. It wasn't illuminating the opposing wall, but instead the the bottom.

Right now, Chu Mu stood at the edge of this cave.

Seeing the ray of light warp, he couldn't help but suck in a breath of air. The attraction force from the wind cave was already causing space to distort, changing the trajectory of light.

Chu Mu's half devil state wind cave could only suck in real substances, not distort light.

Wiping the cold sweat off of his neck, Chu Mu turned back and looked at the woman currently smoothing out her hair. He said: "How did you know that there would be a cave here?"

"I guessed." calmly answered Mu Qingyi.

"..." Chu Mu was instantly speechless.

His heart had just calmed down, but now it was palpitating. He had thought that Mu Qingyi had detected this cave before deciding to bravely surge down.

Yet, it turned out that this woman simply had no idea that there was a cave here!

Surging down like this was like playing with their lives. Indeed, even though Chu Mu could control other type abilities in his half devil state, he wasn't confident that he could escape from this terrifying wind cave!

"I didn't realize that you understood how to be afraid." a smile rose on Mu Qingyi's face. She could see that this demonically calm man was now sweating buckets. This really wasn't easy to achieve.

"Next time, could I trouble you to ask first and not decide things for yourself." Chu Mu wore a bitter smile, and he wanted to curse at Mu Qingyi. This woman was crazy! If she decided to do something, she would just pull him in. If there was no cave, he would have died with her!

“Decide things for yourself? Do you think that this phrase is fitting for this Majesty?” said Mu Qingyi.

Normally when people spoke to the Heavenly Concubine, they had to add a respectful title first. Chu Mu calling her “you”, if this was heard by others, would cause him to be met by angry glares. This was especially when he was calling her out on deciding things for herself?

As a war goddess, any one of her choices would not be questioned by others. Therefore, there wasn’t much to discuss about deciding things for herself.

If it was an expert, he or she needed to be respected no matter how arrogant you were.

The Heavenly Concubine naturally discovered that this man’s tone towards her was too casual. However, from her expression, it could be seen that she wasn’t dissatisfied with the way he was talking to her. Instead, she was curious as to where this man got the courage to talk to her like that.

Chu Mu couldn’t be bothered to stake his own life to argue with this female madman. He stared at the other side of the deep abyss where the golden light shone onto. It was a cave not even 20 meters away from the end of the wind cave.

“I’m not sure where that cave leads to. It’s only 20 meters away from the wind cave. There is probably nobody in the human territory that can enter it.” said Chu Mu.

There were two horizontal caves in this abyss. One was the cave Chu Mu and Mu Qingyi were currently in that was only a hundred meters away from the end of the wind cave. The other was even further down, only 20 meters away. Chu Mu was able to see it using the distorted light.

Chu Mu was certain that in his half devil state, even if he were to reach the 20 meter area, he wouldn’t be able to change his flying direction to reach the opposite wall. Therefore, even though there was 80 meters between him and the other cave, this 80 meters was like a region of death that he couldn’t traverse.

“In the future when we’re stronger we can try to reach the deeper cave.” after Mu Qingyi saw the deeper cave, she was also shocked.

She already stood at the pinnacle of humanity, yet still didn’t dare enter that place. What on earth was hidden there...

The world was vast with many extraordinary things. If he hadn't entered the Universe Ice Gates and the mysterious underground world under the icy mirror, Chu Mu wouldn't have believed that there was a terrifying place where even dominator rank creatures felt incapable!

.....

Chu Mu used his hands to feel the ice on the cave walls. Due to the powerful attraction force of the wind cave, the ice from 1000 meters and below in this wind cave had been compressed by multiple layers. Even a dominator rank creature's full strength attack would probably only be able to leave a light scar on the ice.

The Crown Phoenix King's body had shrunk, transforming into a golden small phoenix that stood on Mu Qingyi's shoulder. This cave clearly couldn't hold its original body. When it flew in here earlier, it had immediately shrunk itself to enter.

The two of them were extremely interested at what secrets were hidden at the end of this cave. Mu Qingyi walked in front. Fortunately for Chu Mu, who couldn't summon soul pets, he could rely on the Crown Phoenix King's golden light to see ahead.

The cave was long and although it was a bit windy, it was rather direct.

After walking for a long time, they didn't discover anything special. It was just a long endless cave.

"It's not like the icy mirror world, right? Do we have to walk another 2 months?" Chu Mu felt something wasn't right and muttered to himself.

Mu Qingyi turned around and glanced at Chu Mu. Her eyes were probably glaring at him. Could he not talk about something else?

Mu Qingyi was also afraid. Afraid that this cave was as long as the icy mirror world. If they never reached the end, her willpower would definitely collapse.

Of course, there was another important problem. This path had to be walked to the end because Mu Qingyi wasn't confident that the Crown Phoenix King could fly out from the deep abyss well.

Therefore, if this cave they had to walk to the end of was endless, even if Chu Mu transformed into a half devil to kill her, she would still feel as though she was freed.

Unfortunately, Chu Mu's inauspicious remark turned out to be true.

An entire five days, and there was still no end in sight. Even Chu Mu, who had a resilient mind, was gradually growing impatient. Persisting wasn't the scary part. What was scary was bitterly persisting and holding on, but only to endlessly walk this incomparably long dark path unable to see the light.

Mu Qingyi was also impatient. However, her steps showed no signs of stopping as she trudged along, full of complaints.

Having known her for this period of time, Chu Mu finally understood why this woman was able to stand in the top 3 experts of humanity and no one tried to remove her. Her willpower and persistence far surpassed what a normal person was capable of. Added on her reckless nature and abnormal talent, if she didn't die, she would definitely be able to reach the altar of the strongest person.

On the sixth day, Mu Qingyi had Chu Mu walk in front.

However, on the seventh day, when Mu Qingyi was planning on having Chu Mu walk behind her, Chu Mu suddenly stopped, and looked at her who was wearing a strange expression.

Mu Qingyi quickly returned to normal and asked: "What's the matter?"

"Could it be you haven't detected anything?" Chu Mu cracked a smile.

Mu Qingyi's mind was a bit numb right now, and when she released her soul remembrance, her emotionless expression immediately blossomed into a smile!

Spirit energy. Extremely dense spirit energy!

Extending her soul remembrance, she could tell that in front of them, the cave opened up to land, an extremely vast and spacious underground world!

In this underground world, dense spirit energy overflowed, rousing people and ostensibly dispelling any fatigue!

After undergoing inner torment for so long, if it were another expert, he or she would have felt like retreating, especially since it was so hard to reach this cave and another ten day trek on top of that. It was extremely easy to give up.

Fortunately, Chu Mu and Mu Qingyi were the same sort of person and could persist until the end! Moreover, they were able to find the spirit source land!

“Purely the spirit source energy is capable of creating a peak emperor. There’s also the mysterious inheritance strength...” Mu Qingyi’s smile was very pure.

Chu Mu nodded his head and allowed the Heavenly Concubine to walk ahead while he followed behind her.

The golden light spread out, illuminating the spacious underground world and bouncing off the glossy ice. Everything around them was gold as if they had stepped into a country made of gold. It was so bright and dazzling!

Underneath the spacious earth, this icy spacious palace appeared in Chu Mu and Mu Qingyi’s vision!

The most majestic golden palace Chu Mu had seen was the Tianxia King’s Palace. However, compared to that, the icy palace in front of him was far more beautiful and majestic. Each brick, each roof tile, each ledge and each corner exuded an ancient majesty and venerable aura. It made one seem as if one had entered an ancient time and space that had been sealed off for a long time. The moment one stepped into this place, the ancient atmosphere that had lasted until now would be broken.

At the end of humanity’s extreme icy sealed land were a pair of Universe Ice Gates standing alone in the dark ice and snow. Behind the door was an eternal icy mirror heaven and earth that had no end.

Underneath the icy peak of this endless world, there existed a terrifying wind cave in a deep abyss. The endless cave at the bottom of this abyss lead to an underground world where sealed off was an ancient ice palace!!

When had it existed, who had built it, and how many ancient secrets did it store?

Shock was no longer capable of describing the situation. In front of them was an ancient icy palace that resembled the skeleton of a frozen, ancient and powerful creature. Its solitude, its majesty and its grandeur hid an ancient inheritance that people couldn't help but investigate but at the same time not want to investigate...

It was like a microcosm of a legendary land!!

Chapter 794: Ice Spring, top tier emperor rank spirit aura

The entire ice palace was nearly transparent, and one could see the beautiful inner design of the ice palace.

At the center of the ice palace was the main hall of ice palace. The great hall had something similar to the sacred realm steps. At the top of the steps was a miniature altar, and on it was a book!

This book was completely made of ice, and wasn't something truly readable.

Both Chu Mu and Miu Qingyi could feel that the source of the spirit came from the book. The two no longer hesitated, going through the entire crystalline palace and walked up the steps.

The ice book was laid open halfway, its crystalline book pages carved with ancient runes.

For the ancient language, Chu Mu had always thought of it as scribbles. Only those that were very adept at curses and seal diagrams were able to read it. Thinking up to there, Chu Mu couldn't help but remember Bai Jinrou that was brought away by Bai Yu.

Bai Jinrou seemed to be an expert in this factor, but she had fallen into endless sleep. Though her body and soul were saved through rotten aura, the life force to revive her was near impossible to find on earth. Even if Bai Yu returned to being a human, he would continue down a path of pure determination.

“You can read this?” Seeing Chu Mu lose focus, Miu Qingyi asked.

Chu Mu shook his head. Did his mind wandering look like he was reading the words?

Since Miu Qingyi asked like that, it meant she couldn’t read either. If she needed to decipher the texts to gain the inheritance, then the two-month long search would be for nothing.

“Qin~~~~~”

“Qinqin~~~~~”

At this moment, Binding Wind Spirit in Chu Mu’s soul pet space let out an exciting voice, wanting to fly out.

“You can read it?” Chu Mu was surprised, and quickly summoned it before him.

Qin floated towards the book, and let out a string of indecipherable sounds.

At this moment, Chu Mu discovered that a few lines on the ice book started shining. More surprisingly, some of the words and curses that floated off of the book seemed to become conscious entities and started floating around Qin.

Miu Qingyi looked at Chu Mu’s binding wind spirit. As the little beings around Qin floated around it, she seemed to realize something and also chanted an incantation.

Chu Mu glanced at Miu Qingyi’s summoning symbol and was surprised to find that she was summoning the seven diagrams sacred pet Immortal Ming Bird!

This was a high class emperor rank Immortal Ming Bird. Its body was pure white and elegant, its eyes spirited like a girl’s, giving off a very obedient and pretty feeling.

“You seem to like wing type soul pets a lot.” Chu Mu was only a slightly surprised, but didn’t find it unbelievable that Miu Qingyi had Immortal Ming Bird.

Seven diagram sacred pets didn't only exist in seven sacred realms. There were wild seven diagram sacred pets.

"En, it seems like this ice palace does belong to soul palace." Miu Qingyi said.

Since only the seven diagram sacred pets could decipher it, it meant that this probably was a sacred realm of soul palace.

Of course, this was just a guess. The palace could have existed long before soul palace became powerful!

Chu Mu only had one seven diagram sacred pet, so he couldn't steal the other part of the inheritance from Miu Qingyi.

In reality, Qin already gained the inheritance of a sacred pet, the Ancient Will, which allowed it to cast wind type techniques without being interrupted and allowed its wind type powers to double. Though Qin was low class emperor rank, its power was very near middle class. This was the power of ancient will.

Now that Qin deciphered the mysterious energy in ice palace, though its strength didn't erupt, it still probably would gain some special species energy.

"It seems like it'll take a while, let's go look elsewhere?" Chu Mu saw that Qin remained floating for over two hours, and saw that Miu Qingyi's Immortal Ming Bird was doing the same.

"En." Miu Qingyi nodded. The two seemed to have an aversion towards long periods of time already.

This time Miu Qingyi walked behind Chu Mu. Looking at him, her gaze became somewhat doubting.

Chu Mu and Miu Qingyi found beyond the ice palace an ice spring full of massive spirit energy!

This entire ice spring looked like it was flowing outwards. It seemed to penetrate the hard ice beneath and spread through the entire ice mirror world through the ground. The reason the entire world had spirit energy enough to raise middle class emperor ranks to high class emperor ranks was indubitably because of this spring.

“White tiger!” Miu Qingyi chanted an incantation and summoned her ice type white tiger aside the spring.

Seeing the white tiger appear, Chu Mu stared blankly and said, “Wasn’t your white tiger guarding us above ground?”

Chu Mu very clearly remembered that when Miu Qingyi and he flew into the abyssal well, Miu Qingyi left white tiger above ground. Did Miu Qingyi have two white tigers?

“When we entered the cave, I retracted it.” Miu Qingyi said.

“Retracted it?” Chu Mu didn’t understand. The surface was at least ten kilometers below the cave. In normal circumstances, soul pet trainers could only retract soul pets within a kilometer. How did Miu Qingyi do that?

Seeing Chu Mu still confused, Miu Qingyi laughed lightly and said, “This is a soul technique, allowing me to retract my soul pets from farther away the higher my remembrance is.....I can’t pass it to other people though.”

“Alright.” Chu Mu laughed bitterly. He had to admit that he indeed wanted to ask to learn it, but his intentions were seen through.

To be able to retract his soul pet from ten kilometers away would definitely be extremely useful for him!

For example, in the fight between ice air fairy and violent ice demon, if Chu Mu knew this soul technique, when the ice air fairy had danger, Chu Mu could cast an incantation from long distance and retract ice air fairy, allowing him to save its life in critical conditions.

This soul technique of Miu Qingyi indeed couldn’t be passed outwards lightly, but she didn’t keep it solely to herself. Her seven disciples all had this ability. However, many times battles happened within short moments, and none of them are sharp enough to retract their soul pets that precisely.

“This person doesn’t seem to know how to ask for help?” Miu Qingyi glanced at Chu Mu and thought.

Miu Qingyi had the intent of taking Chu Mu as a disciple. Even if Chu Mu wasn’t willing, with Miu Qingyi’s good feelings towards Chu Mu, she wouldn’t mind making a very high potential friend and teach it to him. However, a single word from her caused him to completely stop seeking for it. This truly was a man who valued pride over all else.

Miu Qingyi thought this as other thoughts went through Chu Mu’s head. He glanced at the ice spring but thought to himself, “I must get the soul technique before I kill her!”

Miu Qingyi’s white tiger put its nose against the ice spring, and smelled it before raising its head and shaking its head.

“Does it not match?” Miu Qingyi looked disappointed.

White tiger was already at top tier emperor rank bottleneck. This spirit source was indeed massive, but spirit aura is spirit aura. No matter how thick it was, it couldn’t cause white tiger to go from emperor rank to dominator rank.

“These are yours.” Miu Qingyi no longer even looked at the ice spring and said to Chu Mu.

“Your majesty is indeed generous.....” Chu Mu smiled. The thickness of the spirit aura was enough to create a top tier emperor rank ice type soul pet with 100% success rate!

Now, Chu Mu only needed to give Ning some chances to train and use this massive ice spring to slowly strengthen it and it will easily become top tier emperor rank!!

“Your use of title was well placed.” Miu Qingyi said, and brought her white tiger to other places.

Reaching her level, she truly stopped caring whether people called her respectfully or not, but Chu Mu’s change of title caused Miu Qingyi to understand this man a little more; he clearly cared about his own profit a great deal!

Seeing Miu Qingyi's back leaving image, the joy on Chu Mu's face slowly cooled down, and some suspicion replaced it.

In reality, when the white tiger started to try the ice spring, Chu Mu already was ready to attack.

Such a soul item able to create a top tier emperor rank was rare. Chu Mu walked so long with Miu Qingyi, and finally found it deep in this ice palace. This showed just how rare top tier emperor rank soul items were.

Even if Miu Qingyi didn't give it, Chu Mu would steal it. However, with Miu Qingyi giving it to him so generously, this didn't make any logical sense.

This soul item was something even Miu Qingyi couldn't get easily. Only a few people in all of humanity had top tier emperor ranks. Even if Miu Qingyi didn't need it, she could save it for her disciples and grow her faction. Let alone, who would think they had too many soul items? Once one was a high remembrance soul emperor, with all soul pacts signed, one could have as many as 15 soul pets!

While confused, Chu Mu gathered the ice spring into his spatial ring and protected it well. To solve the confusion in his heart, Chu Mu quickly caught up to Miu Qingyi.

Miu Qingyi's clothes were changed again, now wearing a yellow long robe that closed in at the hips. Her elegant steps caused her figure to lose a mortal woman's beauty and gain a sense of elegance and dignity. When her hair was messed by the wind cave, so she didn't put it up again and instead let it loose downwards, reaching her hips.

This beautiful image was hard to connect to the war goddess that never lost. However, seeing her courageous side, Chu Mu knew that the woman's beautiful and calm appearance hid a terrifying determination and strongheadedness!

"It's not all for you, remember to give half to young master Teng." Miu Qingyi didn't turn around but reminded Chu mu.

"En." Chu Mu nodded.

Everything here should have been Teng Lang's, and Chu Mu didn't mean to take it all away. The spirit source was incredibly dense and, even after splitting away half, Ning could still reach top tier emperor rank with Ning Maner's nurturing effect.

Chapter 795: Meeting wind cave again, danger of five hundred meters

Following higher rank people meant they got better resources. At least they always heard from different sources about which places had uncommon resources.....

This time entering with Miu Qingyi allowed him to earn a large sum. Not only did Ning reach high class emperor rank, he even solved the issue of top tier emperor rank. This meant that Ning didn't have a bottleneck going towards top tier emperor rank.

Of course, there was also the power of the inheritance that was still unknown.

The power of inheritance usually meant another species technique for a soul pet, and it often was something that could let a soul pet increase greatly in strength.

"It seems like only bringing in people who are extremely academic will we be able to truly understand this place." Walking through many palaces, almost every palace had strange languages. There were a few places deep inside that Miu Qingyi found even her soul remembrance couldn't penetrate, not allowing her to even explore it.

No matter what, it was a valuable trip for Chu Mu. Miu Qingyi definitely was disappointed about her white tiger not being able to reach dominator rank. With her strength, she explored for so long yet only gained a strange ability for her immortal ming bird. It truly didn't justify the effort she put in.

However, soul pet trainers were always like this. Without entering, no one knew what they would get in it or whether the sealed items would fulfill their ranks.

"Looks like the human realm truly has nothing left....." Miu Qingyi sighed, and said somewhat in loneliness and in helplessness.

Miu Qingyi was determined, but with many of the restricted items in the ice palace, she couldn't get them even if she tried as much as she wanted, so she could only give up.

Going back to the ice book's great hall, Binding Wind Spirit and Immortal Ice Bird seemed to have completed their inheritance.

"What changes are there?" Chu Mu opened his mouth and said.

"Qin~~~~~" Qin shook its head, not knowing what power it gained.

Chu Mu used his soul remembrance to explore a while he casted techniques.

However, Qin's wind control didn't get stronger, nor did it learn any species techniques. Other than looking more spirited, it didn't seem to have changed much at all.

At this moment, Chu Mu glanced at Miu Qingyi and from her expressions, he knew that she didn't know what her immortal ming bird got either.

"Maybe this isn't an inheritance....." Miu Qingyi clearly was even more disappointed.

If the immortal ming bird didn't get anything from this, then she truly gained nothing from this trip.....

"Qin~~~~"

Binding wind spirit stood on Chu Mu's shoulder and conveyed some information to him.

"Monument tear? Use it now?" Chu Mu said to Qin with some questioning.

Chu Mu's little flask had eight crystallized monument tears. Ning Maner said that these tears had a special power that had great power to the human and soul pet they corresponded to.

Chu Mu wasn't sure what the crystals did, so he kept it safe until now.

Now, Binding wind spirit actively told Chu Mu to use the energy, meaning the power it got very likely needed the monument tear to activate.

Chu Mu no longer hesitated and took out the tear crystal and held it in his hand.

At the same time, binding wind spirit extended its thin and smooth little arm and pressed onto Chu Mu's palm.

Miu Qingyi didn't know what Chu Mu was holding and simply glanced at Chu Mu and Qin curiously.

The tear crystal slowly melted in Chu Mu's palm, and became a liquid that melted into Qin's skin and into its blood.

Chu Mu closed his eyes, as if binding wind spirit's memories flashed through him again.....

“Qin~~~~~” Binding wind spirit suddenly dragged Chu Mu over to the ice book and pointed at a line of words that was dancing beforehand.

“Spirited and light breath of wind, it fills the world, it exists everywhere. However, when it disappears.....”

Chu Mu blanked, and suddenly found he could read the few lines of flashing text now.

“When it doesn't exist? Then?”

Chu Mu wanted to decipher the rest of the text, yet it ended on “When it disappears.....”, the remaining words were no longer binding wind spirit's. This made Chu Mu even more confused.

For some reason, Chu Mu felt like he suddenly understood something but couldn't quite grasp it fully. He thought for a long while without finding a concrete answer.

However, one thing was for certain; binding wind spirit, after some training, should be able to reach middle class emperor rank.

“What's up?” Miu Qingyi was watching Chu Mu. Seeing that he finished thinking, she finally asked.

“I understood a few lines.” Immediately, Chu Mu told the sentence that confused him to Miu Qingyi and hoped that she could help him.

However, Miu Qingyi shook her head and completely didn't understand the meaning behind the words.

Chu Mu asked Binding Wind Spirit, and it simply said the tear crystal caused its heart to feel much cleaner, slowly shedding away the grudges that were shackling it. It felt like it was finally burdenless and free, which made it feel like it could reach middle class emperor rank very soon.

Binding Wind Spirit already had a sacred pet inheritance. Once it reached middle class emperor rank, its wind type destruction will flip even more and the incantations won't be interruptible, making it much stronger than normal middle class emperor ranks!

Chu Mu and Miu Qingyi looked around in the ice palace for a bit longer, yet didn't discover anything new. It was as if the entire ice palace only belonged in ancient times, and was only able to give them a limited amount of time.

Chu Mu gained a lot himself, but Miu Qingyi clearly came for nothing. As for what Immortal Ming Bird got, she didn't have an answer at all.

“Let's leave.” Miu Qingyi's emotions weren't high. Spending this long, she only got such an unknown inheritance.

Miu Qingyi started to look for an exit.

Returning to the wind cave was obviously impossible, and there was indeed another tunnel on the other end of the cave.

Though there were a lot of inexplicable things about the mysterious ice palace, Chu Mu knew that it had very powerful and mysterious inheritances that didn't belong to him. He couldn't truly understand it and could only leave. Maybe if Teng Lang were here he could get more things. However, inheritances often only targetted a certain organism, meaning such inheritances maybe only for Teng Lang or other soul palace descendants.

Stepping into the second cave tunnel, Miu Qingyi didn't say a word.

“Huhuhuhu~~~~~”

A gust of wind suddenly blew by her and lifted her hair.

Miu Qingyi suddenly stopped and said ,” There’s a flow of air here.....”

Chu Mu nodded. Since there was movement of air, it meant the cave led to the outer world.

This tunnel that led outwards didn’t disappoint Chu Mu or Miu Qingyi, turning out to be just as long as the one leading inwards!

At first, Miu Qingyi walked ahead. Five days later, Chu Mu was ahead, because Miu Qingyi felt Chu Mu’s gaze to be strange here and there.

Chu Mu was already planning on attacking before they reach the ground. Once they reached the surface, Miu Qingyi will leave a sliver of her soul remembrance up, and it would be impossible to land a lethal blow then.

However, Chu Mu was hesitant in laying down the lethal blow. These few days, Chu Mu’s perspective of Miu Qingyi had changed, and he no longer saw the need to kill her.

Walking ahead, Chu Mu was always pondering this question.

“Chu Fangchen, wait!” Suddenly, Miu Qingyi stopped Chu Mu.

Chu Mu stopped and turned around to look at Miu Qingyi ten meters behind him.

“What’s up?” Chu Mu asked.

Miu Qingyi didn’t speak but merely pointed above her.

Chu Mu lifted his head and discovered that above Miu Qingyi was emptiness as if it were a small well that led straight upwards!

Since it went upwards, it meant a path towards groundlevel!

However, Chu Mu didn't understand how he didn't notice the well when he passed by under it and instead walked a dozen meters further.

"Do not move." Chu Mu was just about to go back when Miu Qingyi suddenly said very strictly!

Chu Mu again stopped, and instinctively lowered his head to see that a strange diagram had appeared under him when he wasn't watching!

Chu Mu was even more confused now.

"It's a hidden barrier. You stepped onto the hidden barrier which opened up this well above me. However, a barrier appeared between you and I!" Miu Qingyi explained very carefully.

Chu Mu paused, and sent his soul remembrance outwards. Indeed, in the ten meters between Miu Qingyi and him, there was a completely transparent barrier. This barrier didn't block off any mental energy but Chu Mu could feel that it blocked off all matter, including life!

"Huhuhuhu~~~~~"

A gust of wind blew up and rustled Chu Mu's hair.

The wind blew towards the direction Chu Mu was previously traveling, yet this phenomenon caused Chu Mu's hackles to raise. The barrier blocked off all matter and energy, meaning the well in front of him no longer could lift any winds. If there was a wind flow that went towards further in the tunnel, it meant another wind cave appeared within the cave!!

This wind cave was sucking all the air away and slowly getting stronger and stronger, dragging Chu Mu further in!

"Five hundred meter wind cave!" Chu Mu felt his blood run cold!

Using his remembrance, Chu Mu was shocked to find that five hundred meters from him, another wind cave appeared similar to the one at the end of the deep abyss. More terrifyingly was, Chu Mu was within five hundred meters of it!

When near a thousand meters of the wind cave, dominator ranks could no longer fly out of it. Within five hundred meters, unless there was another cave, he would definitely get sucked into it!!

Chapter 796: Cruel Area, Death Plane

The energy was so immense that Chu Mu was unable to react. His body was abruptly pulled towards the wind cave. Due to the windingness of the cave, his body smashed against ice multiple times!

When the attraction force was extremely strong, these sorts of smashes were deadly, and could cause someone to pass out. Chu Mu, after being smashed a few times, felt dizzy, and his transformation into the half devil was much slower.

Chu Mu had never thought that after reaching the dominator rank, his life would be in danger like this.

Chu Mu knew that resistance was futile unless his half devil managed to breakthrough a rank. Otherwise, he would not be able to free himself from this force.

Chu Mu thus naturally allowed his body to be sucked away while also slightly shifting his body so as to prevent him from smashing into the thick ice and causing him to go dizzy.

He was nearly at the end of the cave and this time, Chu Mu tried to use the ice in the winding cave to act as a buffer. Unknowingly, he was only 300 meters away from the wind cave end!

Chu Mu reached out a devil claw, and sank them into the thick ice, hanging on there!

“Zi zi zi~~~~~”

Chu Mu's body slowed down a bit, but his legs were still being sucked. His claws left deep marks as they scraped along the thick ice.

The meandering ice walls could only slow things down, but he would still ultimately be sucked away.

Chu Mu's heart was about to stop beating.

The half devil possessed other type energy and even if he was sucked to the other side and ripped at by the spatial wind storm, he had the ability to open another spatial gap to escape.

But Chu Mu was afraid that the spatial windstorm in the wind cave world would be too intense, not giving him enough time to open a spatial gap before dying!

The more dangerous it got, the calmer he got. Chu Mu was hanging on the rock wall as his mind rapidly tried to conjure a solution.

“Ming~~~~~”

Suddenly, a golden flame poured down from above, filling this winding abyss!

The golden flames and light were severely deflected from their original target as they were sucked away by the enormous wind cave.

Chu Mu was stunned. He never expected Mu Qingyi to not escape via the cave above her. Instead, she broke through the barrier to save him.

With her soul remembrance, she definitely knew that the moment she broke the barrier, she would fall within the 500 meter range of the wind cave!

If there were no other caves, she may not even be able to survive much less save him.

Chu Mu was presently in the half devil state. Although his silver devil flames were not continuously dispelling from his body, the color of his pupils had turned silver.

However, the golden flames had covered Chu Mu's body to a certain extent. When Mu Qingyi saw Chu Mu holding onto the rock wall, she hastily had the Crown Phoenix King fly to Chu Mu and she pulled him onto its body.

Mu Qingyi didn't have time to look at Chu Mu since any hesitation in this terrifying space would mean they would fall into eternal damnation!

Thus, Mu Qingyi, as her entire attention was focused elsewhere, never expected that the face of the man holding onto her back was now completely silver and full of an evil aura.

The Crown Phoenix King had also sensed a trace of irregularity. However, right in front of it was a wind cave that could take its life and it moved this irregularity to the back of its mind.

Relying on its powerful flying ability, the Crown Phoenix King attempted to use its wings to slow down and search for another cave on the four walls of the deep abyss.

However, the closer they got to the end of the cave, Mu Qingyi's face went pale!

They had already fallen within 100 meters of the end and she still hadn't found another path aside from the wind cave. This meant that this was a deep abyss well that they would die in!

Mu Qingyi hadn't expected this. She attempted to turn around and tell Chu Mu that it would be difficult to escape this calamity. Unfortunately, the powerful attraction force prevented her from even turning her head. Even her released soul remembrance was continuously sucked into the terrifying wind cave.

"Beng!!!!!"

The Crown Wind Cave could no longer dodge the meandering walls and it smashed into the thick ice wall!

This smash was much stronger than a full strike attack from a dominator rank creature. It caused the Crown Phoenix King to pass out. As for the ninth remembrance spirit emperor Mu Qingyi, there was no way she could maintain consciousness.

Her consciousness grew fuzzy and just before she passed out, she sensed a man grabbing her waist and taking her completely into his arms. She indistinctly felt the abnormal dark cold on his body, but she didn't think much about it as she completely lost consciousness.

“This devilish place simply never planned on letting people leave alive!” cursed Chu Mu!

Right now in the half devil state, Chu Mu's right hand was grasped onto the passed out Mu Qingyi, while his left hand was holding the passed out Crown Phoenix King. Fortunately, they were above the ice flying towards the wind cave!

When Mu Qingyi had been controlling the Crown Phoenix King, Chu Mu had obtained enough time to recover. Since the Crown Phoenix King was a dominator rank, it was able to resist the attraction force to a certain extent. Seeing that this deep abyss well had no other paths, Chu Mu had no choice but to surge towards the powerful wind cave end!

In order to prevent him from flying too far into the wind cave end due to the attraction force's inertia, Chu Mu utilized a wind cave himself when he flew into the wind cave end.

Although the wind cave's might was not enough to content against the deep abyss well's wind cave, it was enough to slow down his speed!

“Hu hu hu!!!!”

Finally, Chu Mu fell into the terrifyingly deep wind cave!

After entering the wind cave, he entered another plane. This other plane was a nothingness and chaotic zone of death filled with a spatial windstorm. There was no creature that could survive on this plane.

The windstorm was biting and after calming down, Chu Mu began to release his own perception to dodge the wind storm blades that were about to come.

There were weak and strong areas in the spatial wind storm because spatial windstorms would randomly appear. In weak areas or areas without a spatial windstorm, the other type half devil could persist for a little while.

However, each time Chu Mu found a weak area, he was immediately engulfed by a terrifying spatial windstorm, forcing him to hastily change areas.

On this plane, even if he was a half devil, he was like duckweed in the ocean; helpless as he was taken along and battered by the surging ocean waves.

“Am I really going to die here?!” Chu Mu was extremely anxious. He was continuously swept away, causing his silver body to show clear cracks. The short period of time he could stay here was extremely limited. If he couldn’t find a safe weak area to recreate a spatial tear, he would really die here.

“Qin~~~~~Qin~~~~~”

Just at this moment, the Binding Wind Spirit’s mental voice rang out in Chu Mu’s mind.

Originally, because Chu Mu was being ravaged by this terrifying spatial windstorm and didn’t dare move his attention from it, he wanted to ignore Qin’s words. However, he suddenly remembered the words about wind!

“When it doesn’t exist...”

“Doesn’t exist... when it doesn’t exist...”

Chu Mu suddenly understood!

He held on tightly to the passed out Mu Qingyi, and tightened his grip on the Crown Phoenix King. Unlike before, Chu Mu didn’t intentionally search for a weak wind area because that sentence had given Chu Mu a hint!

Suddenly, Chu Mu changed directions and he directly charged at the strongest spatial windstorm area!

The strongest spatial windstorm area was capable of instantly killing a dominator rank creature!!

Right now, Chu Mu was gambling with his life!

The powerful energy was practically going to rip apart Chu Mu and the pain was extremely unbearable!

As for Mu Qingyi who was being tightly held onto by Chu Mu, her clothes were ripped to shreds and her snow white and porcelain naked body was completely exposed!

However, such a beautiful body wouldn't be treated with mercy by this deathly windstorm. Several cracks appeared on her skin, and she could be ripped into mincemeat at any moment.

Seeing that Mu Qingyi's body was about to rip apart, Chu Mu was helpless. Her body was too weak, and couldn't withstand this powerful spatial windstorm.

Just as Chu Mu thought this war goddess was about to be ripped apart, the jade bracelet on Mu Qingyi's wrist suddenly lit up. It unexpectedly formed a blue light barrier that protected Mu Qingyi, Chu Mu and the Crown Phoenix King within!

This blue light barrier had shocking defense, reducing the pain Chu Mu felt by several times!

"She indeed did have hidden cards!" seeing the blue light barrier that could withstand a powerful spatial windstorm, Chu Mu couldn't help but sigh because this war goddess truly had many protective soul equipments. Particularly, this blue light barrier could stop something that could kill a dominator rank!

Chu Mu couldn't ponder longer about this. He hauled Mu Qingyi and the Crown Phoenix King along as he sped up and charged into the strongest spatial wind storm!

"Beng~~~~"

Finally, the blue bracelet on Mu Qingyi's hand shattered!

The blue light barrier disappeared, and immediately they were greeted by a wave of terrifying shredding force!

Fortunately, Chu Mu had already greatly sped up and relying on his spatial manipulation, he beautifully dodged this last wave of energy, appearing in the eye of this terrifying spatial storm!

This was a safe area and after entering it, Chu Mu didn't dare to hesitate. He closed his eyes and chanted an incantation!

The incantation for shattering the plane didn't take long. Previously, Chu Mu couldn't complete it, because the spatial windstorms came too frequently and he could not finish it while having to focus on dodging.

The spatial windstorms were random and intermittent. The appearance of a spatial windstorm could also be strong or weak. Right now, Chu Mu was in the eye of the strongest spatial windstorm where the windstorm quickly disappeared before transforming into calm...

However, a random spatial windstorm only had to visit this place again and Chu Mu, who was completely focused on chanting an incantation, as well as Mu Qingyi and the Crown Phoenix King, would be completely ripped apart!

Chapter 797: Sudden News of a Snow City War

The wind was everywhere. When it disappeared, it didn't mean things were calm; instead, in a true wind zone, the more calm a place was, due to the fluctuations in the air streams, in the next moment an even more powerful windstorm would appear!

Therefore, Chu Mu ultimately chose to fly to the strongest storm!

When Chu Mu flew there, it wasn't at the strongest point of this storm, but as it was gradually weakening. When this storm weakened to a stop, there would be a moment of calm and this was the only chance Chu Mu had to escape!

This guess was correct, and Chu Mu was thus narrowly able to rip apart the plane and successfully escape!

The other plane of the wind cave was the spatial windstorm, and through the spatial windstorm they could return to the mirror ice world.

The mirror ice world was still a reflection of the heaven and earth, linking the sky together. It was pure and without any blemishes. It was so beautiful it was like a paradise in one's dreams. However, people who had truly walked through this place knew that this world of pure beauty was even more terrifying than the nine underworlds!

On the icy mirror, Chu Mu teeteringly walked out of a spatial crack, his body filled with cracks.

Thinking of the spatial windstorm that had swept past his eyes just now, Chu Mu's heart was still palpating. Just a little bit slower, and he would have been left forever in there.

Chu Mu was exhausted. What he felt was akin to what a person would feel after struggling to escape from the angry ocean after being ceaselessly beaten by the ocean waves...

Chu Mu sat on the ground and threw Mu Qingyi and the Crown Phoenix King to the side as he looked at his own body.

"This was probably the deathtrap set to prevent foreigners from obtaining the items in the icy palace. If I was able to comprehend what Qin made me see earlier, we probably could have just walked along the horizontal deep abyss well safely out. The airflow there was extremely abnormal, and those words of reminder probably were the exit..." Chu Mu muttered.

The words that Qin made Chu Mu read weren't about wind type cultivation. Instead, it was the method to leave the icy palace. Probably this method had something to do with the language Teng Lang understood. Although Chu Mu was considered a Soul Palace member, he had no understanding of Soul Palace's ancient history. Thus, he wasn't able to understand the meaning of those words and stepped into the wind zone of despair.

As for those words happening to be related to understanding the changes of spatial windstorms inside the wind cave, this was probably a path to survival the master of the icy cave left for dominator rank creatures. This was because in those words was hidden the laws of the spatial windstorms' intermittence.

From this, it was possible to see how terrifying the strength of the ice palace's master was. Not only was this person able to create two eternal wind caves, but was also able to control the laws of a spatial windstorm death zone.

After understanding everything, Chu Mu let out a breath of relief. The next time he entered an ancient site like this, he had to figure out the exit first, because these ancient sites would seal off and kill those that wanted to plunder and take things.

After resting, some of Chu Mu's physical strength had recovered. As for the wounds on his body, he could only rely on his own slow recovery. The emperor rank medicines weren't of any effect on him.

Chu Mu glanced at Mu Qingyi who was lying unconscious to the side.

Mu Qingyi was completely naked, and any part of her sexy curves was capable of leaving Chu Mu in a reverie.

"Her body really isn't bad at all. It's a pity..." Chu Mu sighed.

Under normal circumstances, if Mu Qingyi was lying naked next to him, Chu Mu, as a young and vigorous male, would have been infatuated. This woman's figure was very provocative. Whether it was her soft and supple breasts, her waist as slim as a willow, or her curvy and round butt that was accentuated by her slim waist...

There were definitely people in this world with even more blood-boiling bodies, but when one factored this in with her noble status that was perched atop tens of thousands as well as her unattainable temperament, this made her even more attractive. It was capable of arousing every man.

Only, it was unfortunate...

Her white and supple skin was in a slight state of tragedy.

The spatial windstorm had terrifyingly injured her. Her skin was cracked in several places and blood was seeping from her neck to her feet.

In this state, even if Chu Mu was more perverted, he could not feel aroused by looking at a completely injured woman.

Chu Mu naturally couldn't just ignore her life or death.

If someone was a threat to him or would inevitably cause trouble for him, Chu Mu wouldn't hesitate to kill them. Mu Qingyi was this sort of person.

However, someone who was willing to risk their lives to save him, Chu Mu couldn't kill these sorts of people. Indeed, without the Crown Phoenix King earlier and Mu Qingyi's blue barrier shield, Chu Mu could not guarantee that he would be able to escape.

Fortunately, Mu Qingyi probably hadn't seen him transform into a half devil. Chu Mu wasn't willing to kill someone who was willing to brave dangers to save him.

"Ai, whatever. I'll directly ask her when she awakens." Chu Mu shook his head. He didn't understand why she had braved dangers to rescue him.

Chu Mu turned Mu Qingyi over, and took the spatial ring off her left hand.

Every soul pet trainer would carry two spatial rings with them with medicine, soul crystals, spirits and treasured items etc. inside.

Mu Qingyi definitely also carried a medicine ring perhaps with high grade medicine inside.

"Whatever, it's better if I don't look so that I don't get the urge to kill when I see her riches..." Chu Mu grabbed her ring of wealth first. There were probably treasures inside.

Chu Mu was originally curious, but after thinking it over, perhaps after he finished looking, he would just burn Mu Qingyi and the Crown Phoenix King to ashes...

The second ring had medicine. Mu Qingyi didn't have an ordinary amount inside; there was practically everything possible inside. There were even spirit items that would help recover wounded souls. These medicines probably would have the same effect as a peak emperor support type soul pet in a fight. This woman was truly wealthy.

After finding basic medicine, Chu Mu took some for himself before prying open Mu Qingyi's small mouth and putting a few inside her mouth.

There were two types of medicines. Medicine taken orally and medicine applied externally. The externally applied medicine wasn't herb-type medicine but rather medicinal liquid. If the conditions were enough, normally one would choose to soak in the medicinal liquid.

Mu Qingyi also didn't have just an average amount of medicinal liquid. Chu Mu directly chiseled an 'ice coffin' in the ice mirror and poured medicinal liquid inside before throwing Mu Qingyi inside.

As for the Crown Phoenix King, Chu Mu ignored it. This fellow probably had a rebirth technique and could not die.

If Mu Qingyi were to awaken, her face would probably go black. The Crown Phoenix King indeed could revive, but that was only with fire available. In this extreme ice and snow land, how could the Crown Phoenix King revive?!

.....

Outside Ice Muslin Valley, a man carrying two women with soulless eyes on his soul pet exhaustedly moved across the earth covered in white snow.

From far away, they could see a white city.

"We've finally escaped!" the two women next to him lit up.

However, this man creased his brows and frivolously said: "But I hoped that we would never be able to escape."

The two women next to him turned red, and hastily ran forward.

The three of them naturally were Teng Lang, Guan Guan, and Xiao Tong. Just as Mu Qingyi had expected, something that should not have happened had occurred between them.

If the circumstances were normal, with Guan Guan and Xiao Tong's nature, they would absolutely not have allowed it to happen, especially when there were three of them. However, the amount of mental destruction the ice mirror world had wreaked upon them far surpassed what a normal person

could endure. Thus, it was imaginable that the two of them were so angry and embarrassed that they just wanted to dig an ice hole and jump in.

However, Teng Lang was exceptionally resolute since it had already happened. Although he was very dissatisfied with the way the two women had acted, he had managed to teach them a few lessons and made them his women.

Most importantly, by making them his women, Teng Lang could have them influence the Heavenly Concubine, shifting her stance towards Soul Palace. This was definitely something good for Soul Palace and Teng Lang's name would go down in Soul Palace's thousand year foundation at the sacrifice of himself.

"Hold on, why is there a huge group of people outside!" suddenly, Teng Lang had the two women, impatient to return to the city, come to a stop.

Guan Guan's nature was rather straightforward and she just ignored him. However, Teng Lang creased his eyebrows and glared at her.

Guan Guan seemed to be afraid of him, and she obediently retreated as if she had done something wrong.

If Chu Mu had seen this scene, he really would have admired Teng Lang's ability to manage them. Even Guan Guan, this stubborn girl, could be subdued.

"They seem to be Soul Alliance people. The ones wearing cyan-colored garments are Soul Alliance's spirit master legion. I've seen them before in Wanxiang City. They are a group of well-trained people with powerful strength." said Xiao Tong.

Neither Guan Guan nor Xiao Tong had joined Soul Alliance. They were Wanxiang City people and belonged to the Wanxiang City Lord's faction. Wanxiang City Lord was Mu Qingyi's father, but the influence he had was not much. The true master of Wanxiang City was really Soul Alliance.

Fang Wu, Tie Xin, and Luo Hen were Soul Alliance members, but when Mu Qingyi had taken disciples, she didn't care about what faction they were in. Just like Xue Tang and another one of her female disciples, they used to be people from Soul Pet Palace and some big kingdom. Aside from this, she also had a few female disciples from Soul Palace and Nightmare Palace.

This was one of the reasons why the three great palaces weren't very hostile towards her. In Soul Alliance, she had the authority to mobilize the Eight Desolations, Sixteen Absolutes and Thirty Two Scars. However, she still had to go through the Empress Concubine and the head of the Heroes because those two were the real controllers of Soul Alliance.

"Soul Alliance is attacking my Snow City!" Teng Lang was hovering in the air when his expression turned serious.

As Soul Palace's Third Young Master, Teng Lang had been indoctrinated from a young age to pledge his life to Soul Palace. Seeing such a big army from Soul Alliance appear in Snow City, there clearly was going to be a conflict. Teng Lang obviously wouldn't hesitate, but he never expected that Soul Alliance would unexpectedly attack the heavily guarded Snow City!

Chapter 798: Impossible to Unravel, Without End

"Damn it, if I knew earlier, we should have gathered together and killed the guy while we had a chance!" Elder Jiang stood at the city wall, and used his piercing gaze to stare at the hero Mo Ling riding his Trioptic Devil Tiger!

A few months ago, Mo Ling went to search for the silver devil man on command, but after searching for a long time, he found no traces of this silver devil man.

Instead, Mo Ling was surprised to find a natural underground cave that could lead armies near snow city without being detected!

Mo Ling, as one of the four Heroes, had a lot of power in soul alliance. Commanding a tenth rank kingdom's army was no problem.

Thus, Mo Ling directly moved soul alliance's forces into the cave and appeared outside the southside of snow city without them discovering.

Mo Ling wasn't hurried in attacking snow city. Snow City had very solid defense. However, he leveraged the power of the army and directly took over the grounds south of the snow city, clearing out all the guards south of the city.

He seemed to be staying in place south of the city, but Mo Ling was secretly constantly gathering more forces through the cave.

Snow city, on the other hand, stayed in place and didn't show any intention of leaving the city to attack this force. However, Elder Jiang was having a headache. He was sure that, if the enemy could easily pass through the kilometers of warning lines and defenses and appear right outside the gate, they definitely have a way of escaping without being detected if the three palaces try to surround them and instead the now weakly defended cities.

This put snow city in a very passive spot, especially when Li Hong disappeared. Without Li Hong, no one could truly control Mo Ling.

Of course, if Mo Ling could play psychological tricks, snow city could also. When Mo Ling suddenly appeared with troops, elder Jiang played a bluff with Li Hong.

Li Hong disappeared again, causing all of snow city to have no one that could go up against Mo Ling. This was what hurt the most, and why Mo Ling could get in so easily. Elder Jiang therefore spread false rumors that Li Hong was meditating in the city, which was why Mo Ling only dared to stay outside the city and gather troops, but didn't dare to actually attack.

Mo Ling was definitely trying his utmost to find the exact whereabouts of Li Hong. if there was even the slightest indication that Li Hong was no longer in snow city, Mo Ling would definitely strike.

Elder Jiang also sent out a secret message to not only gather experts from all over to come back, but most importantly to get Li Hong back.

Almost every true expert was like a wandering monk. They definitely couldn't stay in one place for a long time. To have a breakthrough in strength, Li Hong also walked through all of the world and the forbidden realm. If he were in human territory, he may be able to come back in time. If he left for forbidden realm, snow city was in trouble.

No matter what, delaying was the best method.

.....

Ice mirror world.

On the flat ground, two ice casket shaped holes marred it. One of the caskets held a beautiful body drenched in medicinal fluids. It was like a sleeping beauty, showing off everything while also keeping her eyes closed, so silent it seemed lifeless.....

Her hair floated within the medicine, occasionally pressing against her smooth skin.

After a few days of medicinal soaking, Miu Qingyi's wounds healed, not even leaving a scar, becoming a perfect piece of art within the liquid.

Suddenly, her eyelashes quivered. She tried to breathe but suddenly found medicine going into her throat. She instinctively propped herself up, and started coughing red-faced.

After coughing for a while, Miu Qingyi finally had time to look around and found herself back in the ice mirror world.....

"What is this?" Miu Qingyi quickly thought back, and realized she fell into the wind cave. However, logically, if she fell in, she was hard pressed to escape. Why was she back in the ice mirror world, and drenched in the rare medicinal fluids she spent so long gathering!

The fluids usually had to be diluted with other pure waters. Putting her in such a large casket of the fluids was an utter waste.

Of course, Miu Qingyi noticed she wasn't wearing a single thing. Once she felt that she was mostly recovered, She took out a fire feather coat from her spatial ring to cover herself up.

After wrapping herself up, the noble and somewhat demonic fire feather coat dried out all the medicine on her, and she seemed much more spirited.

Very soon, Miu Qingyi noticed another ice casket not far from her. A masculine and well built man laid in there facing upwards. Luckily, this man wasn't completely naked, wearing some things that wouldn't get corroded by the medicine.

"Chu Fangchen?" Miu Qingyi paused. She looked around, wanting to know who saved the two of them.

However, the ice world only had the two of them. The Crown Phoenix King had since sometime ago fallen into deep slumber in her soul pet space.

“Could it be that he brought me out?” Miu Qingyi looked at the scattered medicinal flasks aside as well as the spatial ring she usually kept her medicine in, and came to a conclusion she couldn’t believe in.

Chu Mu felt Miu Qingyi awaken, and also opened his eyes. Propping himself up, he wiped down some of the aromatic medicine on his face.

“You brought me out?” Miu Qingyi quickly asked.

“En.” Chu Mu nodded. Such a thing was hard to hide.

“But didn’t we fall into the wind cave?” Miu Qingyi continued questioning.

“The jade bracelet on your hand saved us, and right after that I understood the sentence about wind.....” Chu Mu of course wouldn’t admit he ripped open space. That would be equal to telling her he was the half devil.

Chu Mu already constructed a lie, which was that Chu Mu used the wind sentence to find another exit within the wind cave, and escaped while Miu Qingyi’s jade bracelet protected them.

Of course, Chu Mu tried his best to exaggerate, and also put most of the recognition onto the bracelet.

Miu Qingyi looked somewhat skeptically at Chu Mu, yet she was fainted at the time and had no clue what actually happened, so she could only take Chu Mu’s word for now.

“Able to think so calmly and realize the meaning of the words in danger.....” Miu Qingyi said, she originally wanted to end with a word of thanks, but she couldn’t bring herself to it, as if she hadn’t thanked anyone in a while.

Discovering the embarrassment on Miu Qingyi’s face, it was Chu Mu’s turn to be embarrassed. He thought the woman was still hung up about being completely naked.

“Thank you.” Finally, Miu Qingyi said it lightly, and pursed her lips to think of something else.

Chu Mu didn’t mind and laughed, “Didn’t you fly down to save me too?”

If the woman didn’t fly down to save him, Chu Mu truly wouldn’t have adjusted so quickly. Especially since the jade bracelet protected him while entering the strongest part of the winds, he no longer cared about the thanks; it was saving each other.

However, thinking back to how he should be killing her and instead saved her, the wind cave truly introduced some interesting developments.

“It’s only because I discovered the well above me was also a dead end.” Miu Qingyi saw that Chu Mu’s gaze was somewhat strange. To not be mistaken, she quickly spoke the truth too.

“.....” Chu Mu was speechless. So the woman wasn’t even trying to save him, but just found out that the other path wasn’t an escape!

For some reason, it reminded Chu Mu of the time he saved Ting Lan, and took the binding wind spirit, when he said the real reason he risked himself.....

He didn’t think that Miu Qingyi would be so realistic too!

With things like these, omitting it was perfectly fine as well!

“Alright, I’ve saved her already.” Chu Mu laughed bitterly. If even the world didn’t want him to kill her, maybe he would need her in the future sometime.

Having walked such a long path and finding the ancient palace, Chu Mu gained a lot of good things. Miu Qingyi instead gained a mysterious inheritance. However, they still hadn’t found the secret as to why the ancient palace existed.

But, they knew they would never want to head back there again. It almost caused two dominator rank experts to die!

It was time to put an end to this long journey. Chu Mu and Miu Qingyi decided to leave.

Yet, a very severe problem appeared.

Chu Mu ripped open space and fell into ice mirror world with some randomness. This meant that the claw marks left by the white tiger were nowhere to be seen anymore, and they couldn't find the way back.

“What kind of joke is this, why is my time with this woman endless!” Chu Mu's heart shook. With the lengthy journey before, if Chu Mu killed her earlier, he probably wouldn't have to deal with all these events afterwards and even lose the thought of killing her now.

What was scarier was that he lost his direction within the ice mirror world. This was like throwing a lone man and women into absolute despair. Many things could happen when their minds were destroyed.

However, why was such a drama-like thing happening to him? The ten years of training he had experienced previously never put him in such a “cliche” situation, yet just when he made up his mind and kept his heart firm, such a test appeared. Could it be that Xiang Yiyun was actually speaking truth, and that he would face more tests of beauty the stronger he got?

Chu Mu's heart belonged to someone already, or else he would have fallen when Xiang Yiyun used the aphrodisiac on him in Great Chu Family.

Chu Mu's principle was that he had to truly like anyone he had a physical relationship with. Chu Mu still couldn't call his feelings towards Miu Qingyi as attraction. So, he definitely didn't want anything to happen between him and her while under mental pressure and destruction, no matter how pretty, how highly positioned, or how hard to get the woman was!

.....

“Why am I getting so tangled up with this man!”

As the queen of a kingdom and the war goddess, Miu Qingyi, who always lived a life without desire, she was also grumbling to herself!

Before, she had already repressed her embarrassment when she realized the man had helped her heal while she wasn't wearing a thing. However, without a road marker, though they wouldn't get stuck here forever, the long term mental damage would definitely cause something to happen.

To Teng Lang, Guanguan, and Little Tong, such experiences were once in a lifetime, full of excitement and desire. However, when the same experience was placed in front of two extremely firm people, they weren't happy at all, as they dealt with their logical struggles.

Such logical struggles would definitely only get harder and harder as they struggled more with finding the route back.

Chapter 799: Almost a Saint!

The time was extremely long.

Even in the three years at prison island, Chu Mu didn't ever experience such pain ever. This torture wasn't about restricting his own thoughts, but more because the powerful annoyance made him want to become half devil and destroy the permanently similar scenes!

After half a month, Chu Mu and Miu Qingyi both had their own thoughts, or rather, both of them didn't want anything to happen, so they thought about splitting up.

Yet, there was only one exit. If they split up it meant one person could very likely be going directly opposite to the exit.

And, walking alone in this place would cause mental pressure to grow greatly, possibly rendering them insane.

Both of them didn't hope they became crazy, so they decided to go ahead while keeping a distance.

Walking a distance away wasn't much different from walking alone. The only difference was when they reached the maximum of their mental threshold, they could stop and talk with the person behind them so their mental world isn't stuck in silence.

Of course, they couldn't talk for long or else neither would be able to control the desire that swiftly takes over their brains.

“How long have we been here?” Chu Mu asked.

“I didn’t count.” Miu Qingyi shook her head, her eyes vigilant yet slightly lost as they looked at Chu Mu.

This expression was actually a facade. Humans were like this; the more they repressed an emotion, the harder it will bounce back. Miu Qingyi had seen countless men, and just as many that chased after her, whether it was for resources, for benefits, or truly for love. However, she only had meditation in mind and didn’t have any thoughts in that direction, so naturally, she had never liked anyone.

Yet, this man she had no relation with in the past had become more and more likable to Miu Qingyi in the short while. Talking would cause her heart to beat rapidly.

She knew that this was just the result of mental desires getting magnified and wasn’t her true feelings, so she had to remain logical.

After speaking a few words, Miu Qingyi no longer dared to speak with Chu Mu, quickly riding her Nine Color Phoenix forwards.

Seeing Miu Qingyi swiftly running away, Chu Mu laughed bitterly. There was nothing that made Chu Mu more speechless than that.

All accounts of time were lost, but Chu Mu had a feeling that if Miu Qingyi approached him one more time, Chu Mu won’t be able to control himself because his mind will completely collapse.

“Don’t come over, please don’t!!” The last wisp of logic struggled in Chu Mu’s mind. Seeing the slowly nearing Miu Qingyi, Chu Mu knew that she was near her limits too.

Maybe she didn’t come for desire and came only to get rid of her desolation. However, whoever makes the first step will completely fall.

“I think we must split up and walk.” Miu Qingyi flew before Chu Mu and said.

Chu Mu didn't say anything. He only felt his head hurt and the only thing in his eyes was Miu Qingyi's alluring body.....

Miu Qingyi paused. She realized that Chu Mu was walking towards her, yet his burning gaze caused her to be unable to look away. In this dull and deadly world, these black eyes were too alluring, causing her to be unable to look away.

“Whatever, stop struggling, it's him, he's the one that you will spend the rest of your life with.....”
A devil's voice floated around in Miu Qingyi's mind.

She stiffly yet somewhat anticipately walked forward before Chu Mu.

Chu Mu stood there blankly. At this moment, a sliver of logic rose up in his mind and his gaze moved difficultly from Miu Qingyi's body onto the deep claw mark under Miu Qingyi!

Miu Qingyi didn't seem to have noticed and instead stepped right over it. Her soft and alluring body pressed against Chu Mu's chest and her lips pressed upwards before Chu Mu could react.

The hot lips caused Chu Mu's mind to blank and his hands almost instinctively started seeking out the seductive body.

Miu Qingyi seemed to have decided his man with potential was her partner for the future and no longer restricted herself. Though she had never hugged or kissed before, she didn't need to; she was letting her instincts take over and the fire burn her.

Chu Mu as a man felt the allure at an even deeper level. Though he had already seen the claw mark, remembering that he may need almost two months to leave still without being able to get a taste of this body, it was worse than killing him.....

The icy grounds were clean without a single blemish. The sky and ground reflected each other. The only thing in this icy world was the fire that lit up between the two, the mingling of Miu Qingyi's medicinal aroma as well as her own body's scent.

Chu Mu's blood was boiling with fire and desire. He had never thought a woman's lips could be this soft, tongue this teasing. The friction between their bodies seemed to be able to melt their clothes off.....

This kiss was very long, causing them almost to forget everything.....

However, just as they were burning with desire and lost all sense of time, Chu Mu and Miu Qingyi suddenly both extended their hands and pushed each other away!!

One of them had accidentally bit down on a tongue, and the pain at their tongue tips caused them to regain a sense of logic and push each other apart!!

If any of them leaped forwards again, they would no longer be able to split apart.

However, neither made that move. Each faced away from each other and took deep breathes, forcefully pushing away all the sexual thoughts in their brains.

The training was a test, and the allure of the body was also a lethal test. Chu Mu didn't want to be a fake gentleman, but at least he had to keep his principles. What he was doing now was beyond his principles. Chu Mu couldn't let himself do whatever. It was like how he almost used memory fluid to clean Qin's soul. He can't make the wrong first step, and he couldn't lose to this mental oppression!

"Under your feet are white tiger claws. Along with these claws, we'll be able to leave here." After a long time, Chu Mu felt himself a little more awake and said to Miu Qingyi.

Miu Qingyi nodded and also didn't mention the event before, "Let's leave immediately."

.....

Chu Mu and Miu Qingyi had good luck. They walked the right direction before and only took a month to leave the Universe Ice Gate.

In this month, Chu Mu struggled. Since they kissed already, they could kiss some more. However, all these thoughts only flashed briefly before being cut off immediately.

Once they left the ice mirror world, they felt the terrifying mental pressure instantly drop. Both of them let out a breath. They may never come back to this place no matter how powerful they get.

Of course, the mental shadow won't get wiped away immediately. It needs some time to adjust.

"Chu Fang Chen, have you considered entering Wanxiang Government." Miu Qingyi asked.

"Um, I'm part of soul palace....." Chu Mu said hesitatingly.

"If you can reach dominator rank....." Miu Qingyi thought Chu Mu didn't understand what she said and added a sentence, but the feeling of her heart beating faster caused her to stop.

Miu Qingyi's feelings for Chu Mu were always on the good side, so even after they left Universe Ice Gate, she didn't feel a strong repelling sense. She believed in fate and destiny.

If this man can step into dominator rank, he will come in contact with her for a lot. This way, she could truly consider developing their relationship further. Of course, it was only a consideration.....

"I thank your majesty for your goodwill....." Chu Mu naturally understood Miu Qingyi's hinting, but declined gracefully.

Miu Qingyi furrowed her brows. She didn't think that as the queen of Wanxiang Realm, actively giving a hint, would still get rejected. There are men who would reject her in this world?

"Do you have any bad feelings for me?" Miu Qingyi couldn't help but ask.

Bad feelings, truthfully, after having been with her for this long, Chu Mu found that usually, the woman wasn't as overbearing and arrogant as he thought. Even towards Chu Mu who was far weaker than her, she didn't act over the top and annoying.

In other words, Chu Mu's impression of her changed.

"I have someone I like." Chu Mu felt the need to explain in case there was any misunderstanding. There weren't any bad feelings but she was far from being liked.

When he said it, Chu Mu laughed bitterly. He was almost a saint, turning down a hint from a goddess-like Miu Qingyi!

However, Chu Mu didn't understand how women think.

If Chu Mu didn't say he liked someone, Miu Qingyi may have put it down to stance, status, or power and written it off.

However, because Chu Mu said he had someone he liked, it caused Miu Qingyi to feel very uncomfortable!

Even men, when they get rejected by a woman due to another man, would naturally feel jealousy and competition with the other man, let alone women. With war goddess level woman like Miu Qingyi especially, their need to compete was insatiable!

So, the moment Chu Mu mentioned he had someone he liked, though Miu Qingyi wasn't jealous, she still thought "is this woman truly that powerful? Am I worse than her?"

"I won't insist, but let's keep whatever happened inside a secret, yes?" Miu Qingyi felt uncomfortable but she wouldn't truly put down her status to fight for it.

Anyways, Miu Qingyi thought she expressed herself already. If he didn't accept, then they could each walk their own paths in the future. She could just wipe this man away from her mind. To Miu Qingyi, who was constantly strict to herself, it wasn't too hard.

Or that's what she thought at least.....

Chapter 800: Who on Earth is that Person?!

Chu Mu had believed that it should have taken only 5 months to go to the Universe Ice Gates and the icy palace from the ice muslin valley before returning.

Mu Qingyi also believed this. Although most of her soul pets were at a bottleneck, spending an entire 5 months on a mysterious inheritance was a bit too wasteful of time.

However, when they left the Universe Ice Gates, the two of them felt that the flow of time was different between the two sides.

“We should have only left Snow City for 2 months.” conjectured Mu Qingyi from the subtle change in season in Snow City.

Normally, Snow City would have snow all season, but there was still change each season; thus, using seasons to estimate time was the best.

“Our sense of time has also been unlimitedly expanded.” bitterly laughed Chu Mu.

This was a very normal phenomenon. When undergoing a tedious or torturous task, time would become abnormally slow. Chu Mu was able to rely on his perception to tell how long had passed, thus he never expected that his normally very accurate perception would deceive him.

Since only two months had passed, Chu Mu was a lot more calm. He was really afraid that with no one looking after Ning Maner and the group of White Nightmares, there would be a problem.

The two of them flew towards Snow City, but they quickly discovered that there was an intense commotion outside Snow City. Various dazzling and beautiful techniques were flickering in the air. There was wind, lightning, thunder, and falling rocks... these different attributed techniques interweaved across the snowy ground outside Snow City!

It was the flames of war. Soul pet howls filled the surroundings of Snow City and smells of techniques clashing against each other pervaded the area.

A war!

Snow City's war!

Chu Mu never expected that upon returning, this tenth rank city would be engaged in such a large scale war!

The two sides of the fight clearly were the three great palaces and Soul Alliance. It was hard to imagine how many unsettling energy waves would be caused by this war with peak emperor experts in it!

Chu Mu looked on. He could see that Snow City was no longer as intact as before. The southern and western walls had practically completely fallen. On either side of the wall, everything was destroyed and red flames filled the streets, jumping from residence to residence. It was even possible to see a few innocent corpses lying on the dirtied snow. There were civilians crying for their families everywhere and cries from young children. However, there still lay neglected corpses...

The scale of Snow City was not much more inferior to Tianxia City. It was unknown how many people lived in the outer city, but underneath the smoke from battle, too many people had been engulfed in the disaster.

Nonetheless, this was war. These weak people simply had no control over their lives or deaths.

It was already possible to determine that the three great palaces were fighting Soul Alliance in Snow City. Chu Mu and Mu Qingyi were both riding on the Nine Colored Phoenix. She was next to him, so he glanced at her.

The moment war broke out between the two sides, her stance was extremely important. Especially since the three factions and Soul Alliance were in at an irresolvable point...

Mu Qingyi was expressionless. She flew directly towards the war.

The Nine Colored Phoenix was fast, and the guards defending the northern side were unable to stop it at all.

When she flew into the center of the city, Mu Qingyi suddenly chanted an incantation, surprisingly summoning her dominator rank Crown Phoenix King!

A silver light filled the entire Snow City, lightning it up in gold. The enormous might of a dominator rank was capable of dimming the atmosphere of this enormous war.

“You stay here.” Mu Qingyi apathetically said to Chu Mu. Afterwards, she jumped onto the Crown Phoenix King, flying towards the fight outside the southern city that extended several tens of kilometers!

Chu Mu naturally couldn’t stay. Yet, he didn’t have a suitable wing type soul pet and thus attempted to have the Nine Colored Phoenix bring him.

The Nine Colored Phoenix naturally wanted to put Chu Mu down in the center of the city before following its master. However, Chu Mu wouldn't leave so it just carried Chu Mu as it flew after Mu Qingyi.

As they flew, Chu Mu expanded his soul remembrance, searching for Ning Maner and the group of White Nightmares.

While Ning Maner enjoyed having fun, she was smart and knew her limits. Although in the past two months, she had skirmished a few times with a few higher ups of the three great palaces, she hadn't actually been discovered. However, in these two months, there had been nothing fun to do and Ning Maner definitely could not participate in the war.

But even if she couldn't participate, she couldn't just watch these innocent civilians being affected. Thus, the kind Ning Maner had the White Nightmares hide in the southern and northern parts of the city and protect those without any ability to a certain extent.

In the disorderly street, Ning Maner was wearing a small white robe, and was kneeling beside a body with mangled legs. She carefully put back together the bloody wound.

Ning Maner could only do this much. After helping the passed out man guarantee his life, she could only wait for a rescue team to take him away.

"Big brother has returned?" Ning Maner suddenly detected Chu Mu's soul remembrance.

In the past two months, the soul link between Chu Mu and Ning Maner had been ostensibly severed. It wasn't until recently that it slightly recovered. Now, Ning Maner could feel that he was in the city.

"Girl, bring those two the southern side of the city." Chu Mu used soul remembrance to say to Ning Maner.

"Ok, ok!" Ning Maner hastily agreed.

Without Chu Mu's orders, Ning Maner couldn't autonomously have the White Nightmares participate in the fight. Now that Chu Mu had returned, the restless White Nightmares were going to be very happy!

The Nightmare ruler and the other nine White Nightmares were all near Ning Maner. After knowing their king had returned, they revealed themselves. The Nightmare ruler grabbed Ning Maner and brought its comrades to the location of its king!

On the southern city tower. A noble Nine Colored Phoenix carrying nine long streams of color behind it below in the air. Chu Mu never expected that Mu Qingyi would participate in the fight so immediately. When the Nine Colored Phoenix flew past the tower, it instantly descended on a half broken roof, silently standing there.

There weren't many guards on the city wall and city tower. Most of them had thrown themselves into battle.

In a fight of this rank, the city was simply like decoration.

The fight continued for several tens of kilometers and the entire extent couldn't be seen. Even further away, the humans and soul pets were indistinct. Only the occasional flash of light and explosion of energy indicated that there was still fighting beyond the snow slope

From the city wall, the five or six kilometer snow slope could be seen clearly. There were countless soul pet trainers and soul pets fighting. Amidst the clashes of creatures, there were terrifying blasts of energy that would occasionally land in the city, causing large scale destruction.

On the white snow land and even the city, there was red everywhere. The cruelty caused by the open slaughter and brazen killing couldn't be described by words.

Chu Mu stood alone on the destroyed city wall. His white garments fluttered in the wind. His slightly messy hair danced in front of him and his entire being slowly began to exude a demonic aura. This wildness and coldness, even in the eyes of those not standing on the city wall looking at the slaughter, was not a joke!

“Hu hu hu hu hu~~~~~”

Suddenly, behind Chu Mu, a ball of strange white devil flames began to burn. Devil flames flew up and fiery tongues began to dance.

An evil demonic phantom slowly drew a shape amidst this ball of flame. The wavering white flames materialized, finally forming the Nightmare ruler which was filled with extreme evil, viciousness and darkness!

The Nightmare ruler stood behind Chu Mu and respectfully lowered its head, waiting for its king's orders.

In the next moment, another two balls of devil flames ignited beside the Nightmare ruler. From them, two devil aura figures emerged. The arrogance and ego of a powerful creature could be seen from their eyes. However, when they saw the figure of their king, they immediately lowered their heads, waiting like the Nightmare ruler for an order.

Another while passed, and seven balls of flame practically simultaneously ignited. They all stood there, filled with a terrifying majesty that would make others tremble!!

“That... that is...” four kilometers from the city wall, Senior Elder Jiang who was commanding the war glanced at the broken city wall and was stunned!

These ten devil flame figures were clearly the ten White Nightmares. From the color of their flames, all of them had reached the high class emperor rank!

Moreover, at the center of them stood three of them with even deeper devil flames. Their majesty was even more tyrannical. His own White Nightmare probably was inferior to them!

Finally, at the front of these ten White Nightmares that instilled others with fear stood a white clothed man!

This man simply didn't need to hide his evil and arrogance. It was something Senior Elder Jiang had never felt before. It was hard to believe that a human could do something that a Senior Elder needed to respect and revere!

Staring at the city wall, Senior Elder Jiang's gaze was filled with horror and he was filled with shock! Who on earth was that person!

.....

“Kill all of the Soul Alliance members within five kilometers of the city.” Chu Mu apathetically swept his gaze around. His tone was calm, but within was hidden killing intent!

“Nie!!!! Nie!!!!!!”

“Nie!!!!!!!!!!”

The ten White Nightmares could finally enjoy bloodshed! They essentially resembled ten Nightmares dancing atop a pool of blood!
