

## **Soul Pets Bk2 801**

### Chapter 801: Whose Peak White Nightmares are Those?

There were a total of four experts from the three great palaces that had reached the peak emperor rank. Nightmare Palace's Senior Elder Jiang had two peak emperor ranks while Soul Palace's Senior Elder Teng, also Teng Lang's father, also had two peak emperor ranks. Soul Pet Palace had two senior elder rank experts, but each of them had only one peak emperor rank.

Therefore, in this fight, there were only a total of six peak emperors on their side. They could be described as the most crucial points of this war. If the senior elders lost a fight, subsequently the high class emperors would be easily slaughtered and so on and so forth, eventually influencing the entire fight.

Of Chu Mu's ten underlings, three of them were peak emperors. Most importantly, they were all multiple attributed creatures!

Added on the other seven White Nightmares, the strength of this team was rather terrifying. It could easily sweep through and obtain victory in this scale of a war!

Ten white figures charged into the chaotic and smoking battlefield. In the ten kilometers of chaotic fighting, there were countless Nightmare Palace White Nightmares. Therefore, the entrance of these ten White Nightmares wasn't something people would take to heart.

Most of the Soul Alliance army near the city wall were spirit masters and spirit teachers - the Green Mist Army. The Green Mist Army was being commanded by a peak emperor rank Great Kingdom Lord. His name was Jia Hechuan and was a peak expert comparable to Soul Alliance's Sixteen Absolutes!

Jia Hechuan was only fighting with his secondary pets, but they were all high class emperors. He had summoned a total of four of them and they had appeared in the air above the tall snow slope. They were currently fighting against Nightmare Palace's Senior Elder Jiang's soul pepts!

Jia Hechuan hadn't summoned his main pets yet because before Senior Elder Jiang showed his hidden cards, he absolutely could not show his strongest soul pets!

“This old Jiang fellow definitely does not know that I broke through a few years ago. What use does having two peak emperors have? At the end of the day you’ll still lose to me!” a smile hung on Jia Hechuan’s face.

Indeed, he was the crucial person in this fight because the senior elder from the three great palaces definitely know that this Great Kingdom Lord had hidden his strength so deeply that he could fight against the senior elders from the three great palaces. He was going to do something when least expected and defeat Nightmare Palace’s Senior Elder Jiang whose name was already renowned!

“Hmm? You’ve finally summoned them, but you thought I wouldn’t be able to find them if they entered the chaotic fight? This Old Jiang is truly a joke.” Jia Hechuan’s lips formed a sneer as he discovered a White Nightmare which aura reached the peak emperor rank!

This White Nightmare was currently secretly passing through the monarch rank soul pet fights, attempting to sneak around to a middle class emperor beast type soul pet to deliver a fatal attack.

The person controlling the middle class emperor was Jia Hechuan’s underling - Xing Shen. Numerous Soul Pet Palace members had perished under his other two ice type main pets. Moreover, the number of Nightmares he had killed could probably form a whole team.

“Xing Sheng, have your soul pets retreat. Senior Elder Jiang’s White Nightmare is flying towards you!” Jia Hechuan used soul remembrance to tell his underling.

Xing Sheng was having fun killing when he suddenly heard the Great Kingdom Lord’s voice. His heart instantly froze!

Since it was a senior elder, his White Nightmare had definitely reached the peak emperor rank. One of its techniques was capable of annihilating all of his soul pets.

Xing Sheng never expected that his slaughter would attract the attention of a senior elder rank expert. He hastily withdrew his soul pets from the frontline and fled towards Great Kingdom Lord Jia Hechuan.

“It unexpectedly is pursuing! That’s the best!” Jia Hechuan’s attention was currently on the demonic White Nightmare. Seeing it chase, he promptly chanted an incantation!

Jia Hechuan naturally summoned his main pet which was an Ice Forest Scorpion Emperor!

This Ice Forest Scorpion Emperor was about 20 meters large and its terrifying metal moulded tail reached fifty meters in length. Its poison barbs were filled with cold light as they casually waved about. It filled the air with intense paralysis, causing the surrounding creatures to be paralyzed to the earth!

This White Nightmare had just ascended to the peak emperor rank and had been waiting since to fight with its full power. It finally obtained this chance.

Originally, it wanted to find a few high class emperors to serve as appetizers. The White Nightmare had ascended from the high class emperor rank so it wanted to find a few opponents that had oppressed it in the past and enjoy the power of being a peak emperor rank!

However, before it could find a high class emperor, it surprisingly discovered a large tailed devil scorpion with poison aura that had locked onto it!

A peak emperor!

The White Nightmare was very surprised. It had been wandering around and unexpectedly encountered a peak emperor clearly aiming for it!

“Nie!!!!!!”

However, this was perfect. The White Nightmare should attempt to deal with an enemy it could not defeat in the past!

The devil scorpion emperor made its way over and the White Nightmare Emperor’s blood began to boil. They clashed together, causing the heavens to rumble and earth to crack. The creatures around the two peak emperors were knocked flying and scattered everywhere.

“Peak... peak emperor...”

“Quickly flee!! It’s peak emperors!!”

The clash between peak emperors could be detected by everyone on the battlefield within 5 kilometers. They all quickly began to move locations, leaving this area for the two tyrants!

Xing Shen brought his middle class emperors far away and his forehead was filled with a cold sweat.

Just now when the devil flames swept over, at least several hundred monarch rank and commander rank creatures had been instakilled, transformed into ashes. If he had still been in that area, if his middle class emperors hadn't died, they would at least be severely wounded.

"Peak emperors are indeed terrifying!" Xing Shen's heart was palpitating.

After moving far away from the peak emperor battlefield, Xing Shen naturally didn't forget his mission to slaughter the experts from the three great palaces. Eventually, Xing Shen gathered a hundred spirit masters and began to approach the city wall...

"Nie~~~~~"

Three or four kilometers from the eastern city wall, the White Nightmare in charge of that area grasped two emperor rank inner crystals in its hands and raised its head. It was staring at the fight between the devil scorpion emperor and White Nightmare emperor.

Peak emperor rank enemies. Only these were of interest to the white emperor. In comparison, fighting those creatures at the middle emperor rank and under was too boring. Even if they formed an army, they would still be wiped by its devil flames!

"Nie!!!!!"

This White Nightmare ("Nightmare 1") gave a cry and irresponsibly gave up on its battlefield, crying out towards the other White Nightmare ("Nightmare 2")

\*TL: So this is super confusing. The author is distinguishing the two White Nightmare emperors by using a different word for emperor. But they both have the exact same English translation...

When Nightmare 2 heard its companion's cry, it let out a very dissatisfied cry, warning Nightmare 1 not to interrupt its fight!

It was extremely difficult to encounter a peak emperor in a fight so Nightmare 1 ignored whether this was its companion's prey. It resolutely rushed over to bully the devil scorpion emperor that was filled with a poison aura.

"Old Jiang took out his two hidden cards so quickly?" Jia Hechuan was a bit shocked. He then turned to look at the other White Nightmare peak emperor that was passing through a huge army towards him.

"Kingdom Lord Jia, that White Nightmare seems stronger than the other. Its flames don't resemble that of a recently ascended peak emperor!" the army's general, Jia Rong, spoke with a bit of shock.

"Hmph, so what?!" Jia Hechuan objected. The 4th Hero Mo Linghui had sent him here to deal with Senior Elder Jiang. Of course this made sense because Jia Hechuan's other peak emperor was a water type ocean beast!

The amount a water type emperor countered a fire type emperor far surpassed how much an ice type countered a fire type. Even if the White Nightmare was stronger, it definitely was not his ice type peak emperor's opponent. This was the true reason Jia Hechuan was fearless!

Seeing the White Nightmare slaughter its way over, Jia Hechuan didn't hesitate to recall one of his high class emperors before chanting an incantation!

An ocean wave surged to the sky, forming a tsunami that could engulf the whole territory. It terrifyingly hovered above the southern city wall and could at any moment swallow everything.

Above this enormous 100 meter tsunami, an ocean beast emperor covered in a deep blue color arrogantly stood there, staring down at the enemies that were like small ants that could be easily engulfed. This included the White Nightmare that was courting death as it flew over here!

"Hahaha, Old Jiang, you never expected it, eh? Today, I'll have your two White Nightmares perish alongside you in this poison water. Not even your corpse will remain!!" from high above, Jia Hechuan looked down at Senior Elder Jiang on the city wall!

Jia Hechaun could see Senior Elder Jiang's shocked expression as well as the perplexity all over his face. In the past, this old man had always walked past him arrogantly, rarely looking at him. But Jia

Hechuan was certain now that this old man was extremely shocked at him who had hidden his strength. Jia Hechuan wanted to see this old man's shocked and angry expression.

Such an enormous tsunami was hanging in the air. To the spirit teachers and spirit masters, this was a stunning sight. This was an unstoppable force. If they were swept away, how much of Snow City could be preserved?

Sounds of fright ceaselessly rang out. The chaotic fight between the armies got further and further away, or perhaps it was more accurate to say it gradually quieted because compared to a peak emperor's tsunami ability, the fight between commanders and monarchs was like a child throwing a tantrum - insignificant.

"Senior Elder... that's a water type peak emperor. That Jia Hechuan has hidden himself very deeply!!" Nightmare Palace's Elder Xue Lin spoke with a grave expression.

"Senior Elder, how is this good?"

"Your White Nightmares are going to be completely oppressed by him!"

The aides next to Senior Elder Jiang were pale. The appearance of a water type peak emperor was undoubtedly the advent of a nightmare. It caused the Nightmare Palace members defending the area to lose hope!

You guys have been standing next to me the whole time. Did you see me summon my White Nightmares?" just as everyone was anxious, Senior Elder Jiang measuredly spoke.

"This... senior elder's summoning methods are incredible. How could we have detected..." his three aides were stunned as they really hadn't seen him summon soul pets.

Senior Elder Jiang's eyes were at a loss. Obviously, it wasn't because of the terrifying water type peak emperor, but because he simply hadn't shown any hidden cards!

"Those two peak emperor rank White Nightmares are not my soul pets!" Senior Elder Jiang's voice was deep.

This sentence stunned the higher ups around him. Among them, one of them bitterly laughed: “If they aren’t your White Nightmares, who else’s could they be? Senior Elder Jiang, you had best not joke around in this sort of a time...”

“You guys can look yourselves. My five secondary pets are still fighting.” said Senior Elder Jiang.

Xue Lin was the first to sweep his gaze over. Indeed, he discovered that Senior Elder Jiang’s high class emperors were all still on the battlefield. None of them had been recalled!

Quickly, the aides discovered this problem, making them, who commanded this area, dumbstruck!

They finally realized that these two peak emperor rank White Nightmares truly were not Senior Elder Jiang’s soul pets!

Chapter 803: Hidden Expert? Call me Elder Chen!

“Elder Jiang, this.....these two top tier emperor rank white nightmares are.....” Elder Xue Lin said with surprise.

The only people who had top tier emperor rank white nightmares was the four elders of nightmare palace. This snow city only had elder jiang from nightmare palace, so where did these other top tier emperor rank white nightmares core from. Did Jiang Devil Emperor appear?

Yet, wasn’t Devil Emperor Jiang always in Wanxiang City? If he weren’t there, who would be able to suppress the soul alliance experts?

Elder Jiang’s gaze flew to the city buildings. However, the white-clothed man above the building already disappeared and this white nightmare participated in the fight!

“It seems to be our aid. Some high class emperor rank white nightmares entered the battle too. No matter what, let’s get rid of Jia Hechuan first!” Elder Jiang said.

Since its an ally, then they shouldn’t be worrying about their identity but instead try to defeat soul alliance’s army with the injection of this powerful helping force!

“There are.....there are more white nightmares, all high class emperor rank?” Listening to Elder Jiang say that, the aide-de-camp paused and he gazed at the battlefield.

Indeed, the commanders all found that the battle became a one-sided slaughter. Occasionally, one could see rolling devil flames quickly devouring large chunks of the soul alliance soul pet army!

They couldn't even see the silhouettes of the soul pets. Such a development appeared very suddenly, and they completely subdued the soul alliance army with overwhelming advantage!

Elder Jiang was the only one to see the mysterious white-clothed man. However, no matter how questioning and shocked he was, he must push it down. He cast an incantation to retract one of his secondary soul pets and summoned his own white nightmare!

Water type top tier emperor ranks indeed could counter fire type well, but white nightmare itself was an organism of many types. Adding on the fact that white nightmare emperor was very close to invincible emperor rank, he was even stronger than elder Jiang's white nightmare and wasn't at a disadvantage against the water type emperor!!

“Did old Jiang's white nightmare get stronger, why is it this hard to deal with!” Jia Hechuan said solemnly.

White nightmare emperor's power was beyond Jia Hechuan's estimates, actually able to go even against his water type top tier emperor rank!

“Boss Jia..... boss.....” At this time, the kingdom master's strategist started calling out fuzzily with a pale face.

Jia Hechaun glanced at the strategist's panicked look and said angrily, “Just say it!”

“We.....our army is getting pressured by nightmare palace experts that came out of no where and can no longer fight!”

“Repeat what you just said!!!” Jia Hechaun said angrily!

The strategist, of course, didn't dare repeat it, so Jia Hechuan looked towards the army battlefield himself!

Indeed, devil flames completely engulfed his army. The large elemental army, beast army, rock type defense army were all losing rapidly by the second!!

Jia Hechuan's face was full of shock and turned red with rage!

This was the elite army under his lead. Seeing them all suddenly engulfed by the powerful white flames, it was as if the flames attacked him!

“What is wrong!!!” Jia Hechuan yelled.

“I think it's a white nightmare..... For some reason, the battlefield suddenly was intruded by multiple high class emperor rank white nightmares, completely destroying our formations. Then, the nightmare palace armies came forth.....” The strategist said with a blackened face.

The entire army's formation was managed by this strategist. He had just promised that within three hours, their formation will be undefeatable.

Yet, within half an hour, the army was completely destroyed. The rock type defense that was solid as mountains, the elemental army that could destroy all, the undefeated beast type formation, all of them were rendered into scattered losers, running away in battle!

If it wasn't for Jia Hechuan being too preoccupied, he would have cut this boasting strategist's head off already!

To protect his own head, the strategist kept trying to explain, “These high class emperor rank organisms' elders, palace masters, soul emperors have all been restricted by me already, this definitely is a new force!”

The more the strategist explained, the more frustrated Jia Hechuan got. He told the man to take his broken army and run away and devoted himself fully to the top tier emperor rank battle.

As long as Jia Hechuan could win here, the battle could be turned around!

Yet, after not long, something that caused Jia Hechuan to completely collapse happened!

“Three white nightmares.....this is impossible.....utterly impossible!!!!” Jia Hechuan’s eyes almost fell out of their sockets. He saw Elder Jiang ride another top tier emperor rank white nightmare over!

Jia Hechuan would never have thought that elder Jiang already had three top tier emperor rank white nightmares!

“Jia Hechuan!!” Elder Jiang yelled with vigor and heavy killing intent as he commanded his white nightmare to kill Jia Hechuan!!

Jia Hechuan’s two top tier emperor rank soul pets were occupied by the two white nightmare emperors, so how would he still have power left to deal with elder Jiang’s top tier emperor rank?

In a hurry, Jia Hechuan quickly brought the three other high class emperor ranks he had beside him.

However, such an act was meaningless because other than top tier emperor rank, elder Jiang had four high class emperor rank secondary pets too!

The three high class emperor rank soul pets didn’t last long before getting killed by elder Jiang’s soul pets. With three souls wounded, Jia Hechuan gave up everything, called back his two top tier emperor ranks and started escaping on a massive tide!

Unluckily for him was the two white nightmares were both kill thirsty fellows. How would they let their enemy escape? Once the tow killed the ice forest scorpion emperor, they started chasing after Jia Hechuan!

Initially, elder Jiang had to worry about this kingdom master’s fame in other kingdoms and didn’t dare kill him easily. However, seeing these two white nightmares carea bout nothing, he also decided to kill the man. No matter what status he was or how many enemies he might gain from this, anyone who dares to breach snow city will have to pay the price!

Elder Jiang no longer kept anything back and summoned his other top tier emperor white nightmare!

Then, another white nightmare would be chasing Jia Hechuan and he wouldn’t be able to escape!

“Four.....four top tier white nightmares.” Jia Hechuan looked back and he went stiff!

Jia Hechuan thought he was really good at hiding his strength and wanted to show himself off in this fight against the three palaces. However, he finally saw what true strength hiding was. With four top tier emperor rank white nightmares, this elder Jiang could kill him as easily as the flip of his palm!

This time, Jia Hechuan truly was in despair!!

He was at least ten kilometers from another expert, but devil flames already devoured his entire body. He felt the devil flames burning in his soul!

“Ah~~~~~”

A shrill scream echoed through the skies and this kingdom master Jia Hechuan used the painful scream to mark the end of his life.

One had to say that this Kingdom master Jia was very unlucky. He finally waited for the chance to show himself off and wanted to gain fame amongst wanxiang realm through his performance, except he got attacked by four top tier emperor rank white nightmares. Before he could even show off, he was killed!

“Jia Hechuan is dead, if you don’t want to get burnt to ashes, leave!!!”

Elder Jiang flew into the air and gazed down at the soul alliance army that was already escaping!!

The soul alliance army was already completely subdued by the white nightmares. Hearing their kingdom master getting killed, they lost all will to fight. Half the soul pets were instantly retracted and they started running hastily in different directions.

Elder Jiang, of course, wasn’t doing this to be nice to his enemies. He simply didn’t have the time to waste and deal with these remainders. The other battlegrounds were all looking bleak. Especially with the existence of Mo Ling, the other three elders were probably losing strength and would lose without assistance.

Elder Jiang just saw heavenly concubine ride her crown phoenix king through the air. However, heavenly concubine couldn't truly get meddled into this affair. As long as she didn't help soul alliance, it was the best!

"I wonder which secret expert came to help, Jiang Ang is eternally grateful. However, may I dare ask expert to help Jiang Ang again and kill our way into the central fighting grounds?" Elder Jiang suddenly bowed down.

Elder Jiang was sure the white-clothed man was hidden in this chaotic battleground!

Able to gain help at a such a moment was crucial to them!

"Go forwards, I don't like these situations so I won't show myself." Within the bustling battlefield, Chu Mu lifted his head and glanced at elder Jiang, saying lightly using soul remembrance.

Chu Mu couldn't participate himself so he could use elder Jiang's position in nightmare palace to tell nightmare conquerer and the other ones to fight instead.

"Thank you, what may I call you by?" Elder Jiang racked his brains but couldn't think of an expert that matched the mysterious man he was faced with. An expert like this definitely needed respect even if he was an old senior elder.

"Call me Elder chen." Chu Mu didn't intentionally make his voice sound old, simply making it sound deeper. After all, true experts are hard to tell by age. Age was meaningless until one's life was about to come to an end.

"Elder Chen, I Jiang Ang will come with great thanks and gifts after the battle!" Elder Jiang didn't say much more, leading his white nightmares towards the center battlefield.

At the same time, Chu Mu brought his ice air fairy nearer to the center battlegrounds. The three top tier emperor rank white nightmares were vicious. Everywhere they went, the soul alliance army groaned in pain. They were simply following their hidden king through the battlefield.

The battle was in utter chaos so naturally no one would know that these utmost powerful white nightmares were all commanded by a young man in white!!

## Chapter 804: Just how powerful?

This time Soul Alliance army didn't bring that many top tier emperor rank experts to take down Snow City. They only sent two, Jia Hechuan and Hua Ming - a 32 scar expert.

This person has a top tier emperor rank soul pet. Though having a top tier emperor rank put him at the level of sixteen absolutes, Hua Ming only had one passable soul pet - his top tier emperor rank Thousand Whiskers Tree Demon Emperor. His other soul pets indeed weren't great, making him different from sixteen absolutes, whose secondary soul pets were high class emperor rank as well.

No one knew how Hua Ming came to own a top tier emperor rank wood type soul pet, while most of his soul pets were still middle class emperor rank. However, with this top tier emperor rank, his fame and position was very high in Wanxiang Realm.

It was imaginable that of the hundreds of millions of people in Wanxiang Realm, within all these cities and regions, anyone with a top tier emperor rank soul pet was a hegemon of a large piece of territory. On the arduous path that all soul pet trainers took from servant rank to emperor rank, those who reached top tier emperor rank deserved the greatest respect and admiration.

Thus, a top tier emperor rank brought this man countless riches and admiration from others.

However, these days of pleasure didn't last long. He only became one of 32 scars of Soul Alliance a few years ago, and was now sent here to fight against three palaces.

Having top tier emperor rank meant he could dominate countless kingdoms. However, there was always a couple of people in Wanxiang Realm that were much stronger than him.

At this moment, the person facing the three palace senior elder figures alone was a true expert that Hua Ming didn't dare disobey!

It's because of a command from him that Hua Ming had to risk his life for Soul Alliance, no matter how unwilling he was. He also had to step onto the opposing side of the three palaces and face these senior elder figures!

"Hua Ming, control that fellow's demon. Don't let it appear near me or I'll rip your head apart!" Suddenly, hero Mo Ling yelled out angrily!!

Mo Ling stood amongst the snowing skies. He was riding a Dream Demon Emperor that could step in the skies. The Dream Demon Emperor was like a phantom, with long arms reaching the ethereal lower body of it. When it cast dream realm techniques, its long arms would wave like tapestries.

Though this dream demon was already top tier emperor rank, it was still hard-pressed to deal with soul pet palace elder Zhuo's Night Drinking Demon.

Elder Zhuo had amazing battle instincts. Mo Ling's near dominator rank soul pet was incredibly hard to deal with, so elder Zhuo attempted to assassinate Mo Ling directly to end the battle.

Sadly, Mo Ling wasn't the type to be so careless in battle, so Elder Zhuo's assassination attempt failed, and he had to let his Night Drinking Demon fall into the ranks of soul pets attacking Mo Ling.

Hua Ming rode his wing type soul pet into the air and commanded Thousand Whisker Tree Demon to create a large whisker forest to protect Mo Ling. In reality, he truly wished for Mo Ling to just die from an assault, because that meant he could bring his soul pets and leave the battlefield immediately.....

"This Tai Mountain Giant, I can't even break its defense!" Elder Teng's face was grave as he glanced at all the other senior elder.

A total of four top tier emperor rank soul pets, 16 high class emperor rank soul pets, and 20 soul pets attacked Mo Ling's Tai Mountain Giant. Yet even when all these powerful people of Snow City came together, they couldn't break apart this Tai Mountain giant's defense and instead were finding it hard to deal with!

In the past, three palaces knew the four heroes were incredibly powerful, and would rarely have real conflicts with them. Now that a real battle erupted, Mo Ling's power caused everyone to shiver!

By himself, he was fighting almost all the elders and senior elders of Snow City. If Mo Ling had gathered more sixteen absolute, 32 scar level experts, Snow City battle would almost certainly end in a loss for the three palaces!

Mo Ling's power was hard to doubt. The three palace army members could barely believe that the senior elders they thought were probably the strongest experts they knew would come together to

fight one person and still not be able take him down. Mo Ling's power completely overthrew their understanding of the peak of soul pet trainers. The shock was incomprehensible.

"Haha, so your majesty came back to help me, let's destroy Snow City's obstinate forces!" Mo Ling suddenly laughed loudly, and lifted his gaze to the beauty riding a golden Crown Phoenix King.

Elder Teng and Zhuo both paused and suddenly lifted their heads!

They noticed a powerful aura approach them before, but they didn't expect it to be heavenly concubine Miu Qingyi showing up at the battlefield!

One Mo Ling already needed all of the top tier experts of Snow City to come together to simply suppress. If the even more powerful heavenly concubine attacked, Snow City was destined to fall. Elder Teng, Elder Zhuo, and elder Zhang all felt immense pressure.

"All emperor ranks stop fighting within a minute!"

"All emperor ranks stop fighting within a minute!!!"

Above the golden and noble crown phoenix king, Miu Qingyi's icy voice came down with a hard to repress anger!

Mo Ling, senior elders, palace masters, and other spirit emperors were all confused, not sure why heavenly concubine wanted them to all stop fighting.

Yet, when all the spirit emperors heard the war goddesses next words, they were too shocked to think of disobeying.

"In a minute, if any spirit emperor casts a technique, I will personally kill them!!"

After the command, crown phoenix king's golden flames instantly burned brighter, standing like a golden sun in the air that lit up the nearby kilometers of the battlefield!

A true dominator rank. Its intimidation was terrifying. Both sides of spirit emperors seemed to get locked onto by the crown phoenix king, not daring to move anymore!

“Back off first!” Elder Teng could tell that the war goddess was incredibly angry and didn't dare continue fighting. Yelling out loud, he commanded all his faction spirit emperors to back off.

Mo Ling furrowed his brows, not knowing why heavenly concubine commanded everyone to stop. However, Mo Ling also didn't want to anger the war goddess, commanding all his spirit emperors to stop.

With such a chaotic battlefield, countless people were red-eyed from killing, full of grudges and resentment.

However, in a minute, all the spirit emperors stopped fighting!!

It was hard to imagine that in such a large battle, one person could make all the spirit emperors put down their anger and stop!

.....

“Team leader, what.....what is this? Why don't you kill that guy!” On the snow, at the clash between the two armies, the wind type elemental sub-leader lifted his head in confusion.

“War goddess appeared, and she commanded all the spirit emperors to stop.” Army commander Shang Yingcheng said.

The leader Shang Ran was the son of palace master Shang Yingchen. They were father and son soldiers.

The young Shang Ran was only a top tier monarch rank expert, so how could he tell how powerful emperor rank truly was? Immediately, he asked, “Why, within five minutes, you could kill him!!”

“Because she is the most powerful person here.” Palace master Shang Yingchen said.

“The most powerful? Stronger than Mo Ling!!” Shang ran was shocked.

Sixteen absolutes, eight desolations, four heroes, two concubines- these were the power rankings of Soul Alliance but it wasn't directly correlated to strength.

Most people below spirit emperor didn't truly know these experts' names and titles, let alone their relative rankings.

Many people have heard of heavenly concubine and knew she was the war goddess, incredibly powerful.

Many times people who are "incredibly strong" is hard to imagine.

To soul palace members below tenth level, palace masters who were emperor rank were already unimaginably powerful. To palace masters, elders and senior elders were unimaginably powerful.....

So, without a relative comparison, without entering the realm oneself, one couldn't have a full picture of the tiers between experts, just like when the elders fought with Mo Ling. In three palace members' hearts, elder and senior elders were already experts beyond anything they could reach in their lifetimes. However, the fight instantly toppled their view because they saw an enemy that needed three senior elders and five elders combined to fight.

However, just after Shang Ran's shock and reconfirming that enemy Mo Ling was definitely the strongest person, the entire battle stopped because of the appearance of a woman. He was then told that she was the strongest person. Not only was Shang Ran in disbelief, but many people were also in shock.

This was the first time they witnessed just how impactful a real expert was, able to stop a battle spanning several kilometers!

.....

"Why stop all spirit emperors from attacking?"

Not far away, Chu Mu rubbed his chin in the chaotic battlefield, watching the war goddess Miu Qingyi covered in golden flames, not understanding her intentions.

## Chapter 805: In My Eyes, You Are Also Ants

“The duty of spirit emperors is to guard the borders of human territory when there are enemies invading; it is a duty to protect the lives of other humans! Wanxiang King left behind these words. Have you already forgotten them!”

The golden flames seemed to symbolize Mu Qingyi’s own anger and allowed others to feel the viciousness in her words. However, the spirit emperors on either side were confused as to why she had yelled at them to stop fighting. Was it to teach them a lesson?

Spirit emperors had their own thoughts, and each one of them was willing to fight for profits. What the war goddess was speaking of was a macro responsibility and unless it was an exceptional circumstance, no spirit emperor would adhere to what the Wanxiang King said.

This was an infight, not when enemies were invading!

“All of you look at the outer city of Snow City!!” as Mu Qingyi spoke, it was possible to feel a form of soul remembrance suppressing all of the spirit emperors’ minds. This forced them to look in that direction.

In the broken outer city, everything was a mess; it was desolation after a disaster. Fresh blood flowed through the streets and broken corpses were splayed out on the ground, completely ignored. Several people dressed shabbily were moving through broken courtyards in search for family...

This war had caused the death of tens of thousands in the outer city. It was practically inevitable that in each merciless conflict normal people would be affected; however, the casualties in this fight were particularly miserable. When Chu Mu flew across the western part of the city, his heart had been abnormally heavy. Even now, Ning Maner was still in the streets helping those heavily wounded...

“You can forget those words, can divide up the king’s territory, can receive the tribute of the king’s citizens and can occupy the resources he left for you; however, who gave you the authority to wantonly kill!!”

“This authority isn’t even possessed by the king! Where did you obtain the authority then!!”

As she spoke, Mu Qingyi’s voice began to tremble from the anger!!

“Your Majesty, this is an unexpected...” at this moment, the only one who dared speak was the Fourth Hero, Mo Ling.

Towards Mu Qingyi’s anger, the Fourth Hero disapproved of it. There would be inevitable deaths in war and he felt that the Heavenly Concubine was making a huge deal out of a small matter. Perhaps this proclaimed war goddess was meddling in other people’s business.

“Shut up!” the Heavenly Concubine coldly stared at Mo Linghui!

The Fourth Hero, Mo Linghui, opened his mouth as the resentment in his heart made him want to viciously retort. However, ultimately he resisted.

“In the eyes of you people, they are like ants. Simply not worth caring about. Then in that case, don’t forget that in my eyes you are all ants!”

“If you continue to harm the citizens of my Wanxiang Realm, each life will be compensated with the life of a soul pet trainer at the spirit master rank and above!!”

Mu Qingyi’s resoundingly angry voice descended from high above. The concentrated hostility and killing intent entered everyone’s ears.

Perhaps the words earlier were ignored by the spirit emperors or maybe even made them feel upset at this war goddess’ intervention. However, these final words caused their hearts to shake!

How many people under these heavens could view spirit emperors as ants?! The Heavenly Concubine currently riding on a dominator rank ancestor creature was one of them!

The smoke from war continued to roll on in the ensuing silence. In the broken outer city of the Snow City, those people that had lost their family, those that were watching others who had miserably died in the chaotic fight between the two factions, and those that were lying incapacitated on the ground ignored by others could all hear Mu Qingyi’s words.

They were helpless, but now they all stared at the war goddess hovering high up outside the city. Their eyes were red as they knelt there, worshipping the woman who was angry for them and was

willing to criticize those dictators who treated their lives like grass! Only she was the true king in the hearts of the Wanxiang Realm's citizens!

The smoke slowed. Most of the spirit emperors were hovering in the air, and when they saw countless people kneeling in the outer city whether it be in large streets or small alleys. Even in the central city where there hadn't been any disaster yet, black masses of people were kneeling on the ground.

These people that hadn't stepped onto the path of a high ranking soul pet trainer were indeed weak and lowly. They numbered many, yet could not control their own lives, especially in a war like this. However, this didn't mean that they didn't cherish their own lives or the lives of those next to them. It was when their lives were hanging on the edge of a thread in a war to be decided by experts that a person who viewed their lives as human lives stood up. She used her greater power and authority to protect them who were but ants among ants to her. How could such an expert be not worthy of them kneeling?

Her final words threatened her using violence to curb violence. It forced everyone to understand why she had been conferred the superior name 'War Goddess'.

.....

Soul Alliance could not control the Heavenly Concubine's stance, nor could the three great palaces understand whether she would ultimately remain impartial. However, right now both sides had realized that she was the descendant of the Wanxiang King, and her stance was for the entirety of Wanxiang Realm's civilians. She was definitely not standing on the side of Soul Alliance or the three great palaces.

It wasn't that Mu Qingyi didn't understand the cruelty of war. In fact, she understood it very clearly. When both sides vied for power, there would inevitably be mass casualties.

Wars in the past also affected tens of thousands of innocent civilians. Back then, she had also been angry, but didn't issue a warning to both factions.

However, this time, Mu Qingyi couldn't stand it any longer!

The three great palaces that controlled Snow City had such a huge army that even she needed to be afraid of and on guard against when she entered Snow City. So why did they let those tens of thousands of civilians lose their lives?!

Soul Alliance's army could basically regard the city wall as non-existent. So why did they have to start the war while there were still many people who had yet to retreat from the outer city.

War would have injuries and misery; however, there was no need to cause so many casualties. Under the roofs of the residences, there were clearly cellars where one could hide from the fight.

The only explanation was that neither side saw their lives as human lives.

.....

"Mo Ling, if the silver devil appears somewhere else and begins to mass slaughter, the first person I'll blame is you." Mu Qingyi coldly said to Mo Ling as she spoke to him.

Mu Qingyi had Mo Ling come to Snow City Kingdom in order to stop the silver devil that could bring a huge calamity to Wanxiang Realm. Yet, he ended up leading soldiers to start a war! This was very difficult to tolerate!

Mo Ling's face was pale. Being scolded by this woman in front of so many people was not a good feeling.

From today onwards, fights for kingdom cities cannot use the city itself as a defense. The fight must be 5 kilometers away from the city!" ordered Mu Qingyi.

In reality, soul pet trainers were not infantrymen. A city defense, in the eyes of spirit teachers and spirit masters, was hardly of any use. The fight could easily be moved outside the city. However, having both factions completely listen to her words was impossible.

Even Mu Qingyi understood this. The war rules she decreed were very pale... however, her words would at least decrease the casualties.

.....

"The war is going to move. However, this woman really has courage." Chu Mu looked at Mu Qingyi in the air and muttered.

“In your eyes, these lives are but ants. However, don’t forget that in my eyes, your lives are also ants.” Mu Qingyi’s words made Chu Mu feel hope. These were words that only a true expert could speak!

Chu Mu also hoped for a day where he could cast aside the half-devil, and speak the same words with the qualifications of a true expert!!

## Chapter 806: Thousand Man Fight, Who Will Control Snow City

“Your Majesty, you are merciful to everyone. But what do you see our Soul Alliance as. We cannot give up on Snow City just because of your words.” coldly said Mo Ling.

The chance of obtaining Snow City was hard to come by and could not be given up on. Mu Qingyi’s interference was essentially giving back Snow City to the three great palaces.

Mu Qingyi obviously understood that since the fight had started, neither side could retreat. If she were to force one of them to retreat, they probably wouldn’t be willing to let the matter go.

Her eyes fell on Senior Elder Teng and she apathetically said: “Since tens of thousands of people have died in Snow City, Teng Jiangfeng, in the next few days this Majesty will take back Snow City. Do you have any objections?”

Mu Qingyi’s words caused an uproar with everyone in the three great palaces!

For a moment, voices of dissatisfaction rang out, forming a clamor. There were even a few unbridled young soul pet trainers that spoke a few rude words!

Senior Elder Teng waved his hands, telling everyone to quiet down.

“Our Teng family has governed Snow City for nearly a hundred years and it was the Wanxiang King that gave the city lord decree to my father. How can Your Majesty just take it back by saying that you’ll take it back? The fact that there were casualties in this fight was due to the neglect of my duty. Your Majesty may care for the citizens, but I have been Snow City’s City Lord for nearly 20 years. Do you think I really view their lives as just grass?” righteously said Senior Elder Teng.

A hundred years ago, Snow City was given to the Teng family. But there was a rather long story behind this.

The Teng family already had firm roots in Snow City and this enormous city, in terms of scale, was just inferior to Tianxia City. Whether it came from the family itself or whether it was the profits of the three great palaces speaking, Senior Elder Teng could not give over Snow City.

“Just hand it over for now.” said Mu Qingyi. Since she had come to stop the fight, she naturally had to let both sides speak. Otherwise, she would be unable to affect such enormous armies. She continued, “If neither side is willing to retreat, we can use a decisive battle to determine who will control this city.”

“A decisive battle?”

“A decisive battle?”

The leaders in Mo Ling and Senior Elder Teng were stunned.

Decisive battles were a prevalent way of fighting in the past, and lay in between a war and a fight.

Wars involved huge armies and casualties were horrible. Moreover, one side had to throw down their weapons before it ended.

A fight was a fight between individuals or singular groups arranged for a certain time and place. Each side would place a wager and then engage in an even fight. The winner would obtain the other side's wager.

As for a decisive battle, this happened when factions were contesting. Each side would send forth a certain number of people and under the supervision of an authoritative third party, they would engage in a fight. The wagers were large-scale things like land, cities and borders.

To change from a war to a decisive battle, there needed to be the involvement of a third party. This third party had to have the power to control the state of the war and could not be biased towards one side.

Right now, Mu Qingyi was the third party and as Wanxiang King's descendant, she truly had the qualifications and authority.

She had powerful strength, and if she stood even slightly on one side, that side would easily win.

Therefore, if she gave the option of a decisive battle, this would be the way things were done!

"20 spirit emperors, 200 spirit masters, 1000 spirit teachers. In five days, on the southern snowy plains, the winner will obtain control over Snow City!" Mu Qinyi swept her eyes over Mo Ling and Teng Jiangfeng. Her words didn't allow for objection!

After intention of a decisive battle was given, both sides began to discuss.

Neither side needed to be afraid of sneak attacks. The Heavenly Concubine ordered that if anybody at the emperor rank or above used a technique, she would kill them. The dominator rank Crown Phoenix King was imposing and could suppress all of the soul pets present. Nobody dared defy her orders.

"Senior Elder Teng, in the 200 spirit master army, we should have the advantage. In the 1000 spirit teacher army, we should be even with them. The problem is in the 20 spirit emperors..."

"Mo Ling will definitely participate in this fight. Therefore, the three senior elders and five elders will be pinned down by Mo Ling. The remaining 12 spirit emperors probably will have a hard time dealing with their 19 spirit emperors." Soul Pet Palace's Senior Elder Zhuo softly spoke to Teng Jiangfeng.

Teng Jiangfeng entered into contemplation.

As Senior Elder Zhuo had said, they probably had the advantage in the spirit master and spirit teacher army fight. However, Mo Ling was too hard to deal with. Aside from Mo Ling, there were a few others that were extremely troublesome.

"We can fight!"

Just as the two senior elders felt at an impasse, Senior Elder Jiang's voice suddenly rang out!!

“Mo Ling can pin down eight of our spirit emperors, causing the spirit emperor army to collapse. How will we be able to fight?!” Senior Elder Zhuo creased his eyebrows.

“It’s inconvenient to talk more about this here. Just accept it.” Senior Elder Jiang was full of confidence!

Senior Elder Teng turned around and looked at Senior Elder Jiang...

“This... ok!” finally, Senior Elder Teng nodded his head.

Senior Elder Teng understood very clearly that the time limit was five days. This meant that it would be difficult for either side to call for reinforcements. Therefore, all participants were practically here now.

However, Senior Elder Jiang was extremely confident. Senior Elder Teng thus had the confidence to accept.

Of course, since the Heavenly Concubine had given the order to battle, it would probably be difficult to refuse. They had to fight!

“Your Majesty, just as you have said, our three great palaces will choose to engage in a decisive battle. I hope that Your Majesty will be truly impartial. After we win, I hope you can have those scumbags retreat from our territory.” replied Senior Elder Teng.

“Absurd, you will win? You may as well start packing your bags now. Although I, Mo Ling, understand how to be righteous and moral, I don’t enjoy people staying in my city for too long. Of course, Your Majesty had best add a restriction. In these five days, you must maintain the city. Perhaps these rats who know they’re going to lose will go about pillaging and destroy the inner city. Then what use will this city be to me?” Mo Ling was fearless.

“So, you agree to the decisive battle as well?” asked Mu Qingyi.

“Of course! Since Your Majesty is taking pity on the common people, I, Mo Ling, will do Your Majesty a favor and change the war into a decisive battle. I hope that Your Majesty will not be too

protective over these 2220 people and their soul pets because in five days, they will all die even more miserably!” Mo Ling was clearly trying to return some face to himself!

A decisive battle? What did Mo Ling have to fear? He, alone, could deal with a group of senior elders and elders. Wouldn't it be easy to get rid of the rest?

In five days, Li Hong, who was far away in the northern forbidden region, would not be able to return. Mo Ling had already made sure of this.

With Li Hong not around, who could stop Mo Ling? Thinking of this, Mo Ling couldn't help but smile.

“It seems that this woman is still standing on Soul Alliance's side. This decisive battle is equivalent to handing Snow City over to us. I was just thinking about complaining about her to the Alliance Master and the Hero Leader. But it seems like there's no need to.” Mo Ling rubbed his chin and was silently excited.

.....

Since both sides agreed to a decisive battle, the war naturally came to a halt.

Following the spirit emperors' orders, the armies gradually dispersed.

However, even if the fight had stopped, the entire snow slope was littered with corpses of people and soul pets on the bloody snow.

There existed hatred in war and once this hatred slowly cooled off, when both sides looked at the corpses they both recognized and did not recognize, they could feel the bitterness in their hearts.

After the fight had stopped, there naturally was a team specialized in sweeping up the battlefield.

Soul Alliance's army retreated to their camp, which was located 40 kilometers away in a snow basin. They had tents and construction soul pet trainers with rock type soul pets. This camp had a bit of order and had ample resources. They didn't care about waiting for 5 days because this gave them time to recover.

The three great palaces occupied the city so an armistice was even more beneficial to them.

However, because they occupied the city and the outer city was badly damaged, they needed to repair it. This would increase the war goddess' goodwill towards them. After bringing the wounded back to the city, they immediately sent people to save the affected civilians in the outer city, bringing them to temporary settlements.

.....

Snow City Lord's Residence.

"Senior Elder Jiang, what on earth happened?" hastily asked Senior Elder Teng.

Senior Elder Jiang showed his mouth full of yellow teeth and said: "Jia Hechuan died!"

"So what if he died? Is there a need to be so excited?" Senior Elder Teng didn't feel this was special.

"Jiangfeng, there's something you don't know. Jia Hechuan actually hid his strength and had two peak emperors. Wouldn't his existence greatly affect us?"

"Two peak emperors?!!" the others didn't know of Jia Hechuan's strength and were stunned.

"How did he die? Could it be you who killed him?"

"It was me who killed him, but some expert helped me. It was only through him that I was able to kill him. The reason I was able to turn the tables in the fight outside the city was also because he took action."

Senior Elder Jiang wore a smile, thinking of that scene again.

It turned out that when the Heavenly Concubine ordained for a decisive battle to determine the winner of Snow City, this Elder Chen who had helped the senior elder kill Jia Hechuan had indicated that he would hide among the 2220 people to help the three great palaces.

Senior Elder Jiang still remembered the scene of ten powerful White Nightmares lined up. Although he couldn't be sure of all of their strengths, if that group of White Nightmares participated, they would have a much better chance of winning this decisive battle!!!

If the hidden expert Elder Chen was willing to help, they would definitely catch Soul Alliance by surprise!

Promptly, Senior Elder Jian spoke with a face full of smiles as he told everyone about Elder Chen.

Hearing the earlier battle described by Senior Elder Jiang, the elders, senior elders, generals and palace lords were full of shock. Much later, they all showed pleased smiles!

"I have spent most of my life in Snow City, but never realized that Snow City was residence to a hidden expert like this!!!" Teng Jiangfeng let out a loud laugh. The haze of the long war was instantly cleared. He hadn't let out a laugh like this in a long time!!

Chapter 807: Warrior Absolute, Qin Wu

Snow Basin, Army

"What!" Mo Ling suddenly slammed the desk and got up, glaring at the strategist!

The strategist was shaking as he repeated in a very small voice, "Kingdom master Jia, he's dead from the fight...."

Immediately, the strategist briefly explained the process of elder Jiang summoning three top tier emperor rank white nightmares and killed the Jia kingdom master.

The strategist only cared about retreating with his army, so he saw the three top tier emperor rank white nightmares but failed to see the fourth white nightmare summoned when elder Jia chased after Jia hechaun.

Mo Ling's face became extremely ugly. Jia Hechuan had two top tier emperor ranks, but Jiang Ang unexpectedly had one more top tier emperor rank. Jia Hechuan's death instantly created a power difference of there top tier emperor ranks. This was incredibly important to the battle!

“Trash!” a top tier emperor rank, losing in a war!” Mo Ling’s face was twitching.

At their rank, unless they were attacked by multiple experts, they would at most lose a soul pet in similar rank fights. They themselves could usually run away successfully. Jia Hechuan dying this way was truly an anomaly!

Hua Ming stood aside without a word. Eevn Hua Ming didn't expect things to develop this way. He would definitely lose a few soul pets in this fight.

Hua Ming was one of thirty-two scars, yet he was given the title of Rat Scar, describing his cowardice and fear of trouble. No one knew how this fellow got to top tier emperor rank; maybe it was his incredible ability to survive, like a rat.

“End hero, what matters are causing you to be this angry?”

Suddenly, a cold and dry voice came from outside the tent.

The voice was truly as shivering as the wind, causing one to feel uneasy, especially the female soul pet trainers aside.

The tent flap lifted up, showing a stick-like man in a green robe walk in with half a smile. His eyes remained level, but he looked over all of the female soul pet trainers greedily with his peripheral vision.....

The army was very disciplined and proper, so the three female soul pet trainers were all not there to please men.

They were water type, flower type, and grass type soul pet trainers, all very powerful support roles in the army and they weren’t low in ranking either. Their appearances didn’t seem to reach the man’s standards, so he glanced at them and lost all interest.

"Qin Wu, it’s good that you came here!” Mo Ling first stopped and then burst into laughter!

Mo Ling had a mustache. When he was normally strict, his mustache angled downwards and he was smileless. Everyone in soul alliance knew this hero was very short-tempered, often punishing his

subordinates. However, when Mo Ling laughed, his mustache seemed out of place. It made him look not like a top tier expert, but instead like a merchant that just got a great deal.

“Qing Wu? Is that the sixteen absolute Wu Absolute, the one that once destroyed a ninth rank tribe all by himself?” The Strategist, Hua Ming, and the others quickly showed surprise!

The eyes of the three female soul pet trainers that were glanced at all lit up, not expecting this unsightly man to be the famous Wu Absolute Qin Wu. Their disgust all disappeared, and was replaced with disappointment in the man’s disinterest in them.

“Haha, I heard your majesty was here and specially came to say hi. I didn’t expect there to be war, so seems like I came at the perfect time!” Qin Wu laughed and said, his extremely prominent.

Mo Ling naturally knew Qin Wu had been wanting of heavenly concubine for a while now. Before Miu Qingyi became dominator rank, this fellow was frenziedly trying to win her over, using countless methods.....

Of course, this wasn’t important. The important thing was this fellow appeared during the most important moment. Three palaces were destined to fail this time!!

Jia Hechuan’s strength was very strong, able to have two top tier emperor ranks. However, this fellow had powerful soul pets but couldn’t control them as well as sixteen absolutes. The reason sixteen absolutes were strong was not only because they had top tier emperor rank soul pets but also because of their unparalleled fighting ability and soul pet formations. For example, Wu Absolute Qin Wu could destroy a ninth rank tribe with top tier emperor ranks by himself, and maybe even tenth rank tribes. Jia Hechuan would have trouble defeating even eighth rank tribes.

While they both had two top tier emperor ranks, there was still a large disparity in strength! This was why one was a sixteen absolute while the other was just a kingdom master.

The appearance of Wu Absolute raised the army’s morale. Adding on the nearly undefeatable Mo Ling, they had full faith in this final battle!

After the officers, commanders, and strategists left the tent, only Mo Ling and Qing Wu were in it.

Mo Ling and Qing Wu were very close personally. Looking at the half-smiling Qin Wu, Mo Ling smiled and said, “You aren’t here for that good for nothing woman, are you?”

“Indeed, that woman’s standards are too high to see. I was tracking down another woman when some medicine making old fellow took over. I heard from a few subordinates that you were trying to take snow city so I came to split it with you.” Qin Wu said.

“What woman? A plaything or business?” Mo Ling asked.

“Business. Its a disciple of undead immortal. She seems to have gotten the inheritance of Undead Immortal. As long as she has materials and soul power, she can create any soul item for soul pets below high class emperor rank. For those above high class emperor rank, she may own it as well. You know I have some personal grudges with Undead Immortal. Hearing about his disciple in tianxia city, I originally wanted Tian Ting and Empress Concubine to deal with it. After all, they were just two small ants, easily destroyable....” Qin Wu said.

“Oh? And after?” Mo Ling got interested and continued to ask.

“Yet, not only did the two not get dealt with, they grew strong very quickly. When they entered wanxiang realm, I sent a few of my spirit emperor subordinates and they were all killed.”

“They are growing incredibly fast, beyond imagination, so I plan on getting rid of them myself!” Qin Wu said.

At this moment, Mo Ling laughed and said, “Why would you want to go yourself for such a person, its more like you’re greeding for undead immortal’s skills, right?”

“Haha.” Qing Wu laughed with a mutual understanding and continued, “But later I thought, I’m not a soul teacher, I can’t use this at all, so I talked with Medicine Desolation and gave the matter to him and I can just wait to reap the rewards.”

“From what I can see, this time the beautiful female disciple by old medicine man probably fell to you, right?” Mo Ling knew Qin Wu too well. Though he was the Wu Absolute, he was also the most lustful, a high status and very powerful lecher. He had too many accidental sons to count.

“Not really, that guy treats her like his own life.” Qin Wu shook his head but instead seemed to get something even better.

Mo Ling wasn't very interested in the skills. At his current realm, he was missing soul items to reach dominator rank. After this, the two decided to start discussing how to deal with the three palace experts.

Snow City, inside a central area courtyard

A silver bell-like laughter echoed through the courtyard. Ning Maner was very restless, often playing with the white nightmares.

Chu Mu sat on his stone chair and started considering how to send these white nightmares into the final battle.

Chu Mu would join with Chu Fangchen's identity, but definitely not with white nightmares as soul pets. Presumably, in the final fight, he would be watched by Miu Qingyi. If he summoned white nightmares, she would definitely be suspicious.

Soul capture rings weren't possible either. The best soul capture ring could only hold middle class emperor rank organisms. The main purpose of a soul capture ring was to hold weak and infant soul pets. Nightmare dominators would burn the soul capture ring no matter how hard they try to conceal their power.

Furthermore, the final battle wouldn't allow any soul capture rings. This is a very clear rule in final battle culture. Presumably, before the final battle, Miu Qingyi will definitely look through with soul remembrance.

Before the final battle, they weren't allowed to summon any soul pets. This was to prevent people from bringing in soul pets from non-appointed people. This meant that Chu Mu couldn't directly bring nightmare commander into the plains.

These rules were all told to Chu Mu by elder Jiang after he accepted, so his head was hurting now, not knowing how he could bring the white nightmares into battle.

"Brother, what are you worried about?" Ning Maner ran covered in sweat beside Chu Mu, blinking as he sat down.

Chu Mu didn't know what to do and told his troubles to Ning Maner.

“This is simple. Make them dress up as 10 of the 1000 spirit teachers.” Ning Maner said.

Chu Mu shook his head, “The spirit teachers would definitely get investigated by Miu Qingyi and they have to be soul pet trainers with remembrance at spirit teacher level.”

“You’re right.” Ning Maner nodded and pursed her lips to think

“How about this, let me battle and I can hide them.” Ning Maner suddenly smiled and said.

“.....” Chu Mu was speechless.

“How are you gonna hide them?”

“When brother wasn’t here, I often brought them to the arena to play. If I didn’t have a way, wouldn’t we have been discovered long ago? Brother doesn’t have to worry. As long as I get in as one of the 20 spirit emperors, I can bring them all in. Of course, I’ll dress up more maturely and wear a mask to seem more mysterious!”

“..... We’ll see. If there’s no other way, we’ll do that.” Chu Mu truly didn’t know what this spirited little girl had in mind, making it seem like she could summon soul pets.

Chapter 808: A man’s two dreams Part 1 & Part 2

Chu Mu didn’t think of any other way, and could only tell Ning Maner to act like a hidden expert.

Ning Maner’s ability to hide her aura was incredible. The final battle had 4440 people, with an average of three soul pets each, there were thirteen thousand soul pets!

In such a messy battle, even heavenly concubine couldn’t completely tell which soul pets were whose, let alone nightmare palace’s white nightmare army. Even if they were noticed, heavenly concubine couldn’t possibly connect the 10 white nightmares with the silver devil man’s subordinates.

.....

On the second day, three palace members brought out an approximate list. Of the twenty spirit emperors, almost all of them were from the top twenty spirit emperors in the rankings.

Many times, war factions had to keep a few experts in case their army loses extra hard after the fight. This time, almost all 20 spirit emperors were top tier experts, meaning the three palaces left no room to fail!

Snow city couldn't be taken. Once it was taken, the three palaces would lose a great deal of power in the wanxiang realm western region. This city was an important node from tianxia realm to wanxiang realm. Cutting it off meant cutting off all help!

The 200 spirit master, were also almost all top 200 ranking. Almost no one was below middle class monarch rank. These people were all leaders and commanders of their armies, but had to go fight themselves this time!!

As for spirit teacher armies, they were selected from the most elite teams!

No matter the spirit master or spirit teacher armies, when combined, they would all cause a great threat towards spirit emperors, so the two armies victory were very key, needing experts to lead.

.....

The city master hall

"Spirit master army, who will anchor it?" Elder Teng rubbed his temples, and didn't know how to arrange it.

"Father, I have a friend that is willing to fight. Switch palace master shang off. Shang master can command from snow city and can manage any emergency situations." At this moment, Teng Lang spoke.

Teng Lang was in charge of the spirit teachers' army.

Telling a spirit emperor to anchor these armies was mainly to prevent an opposing spirit emperor will enter their formation and kill everyone. If the spirit master and spirit teacher armies want to have any threat, they must be a combined force, meaning not having a spirit emperor was not good.

“How good is this friend of yours?” Teng Jiangfeng asked.

“His fighting experience was extremely skilled and he’s very brave. When I went towards ice muslin valley, I saw him use a middle class emperor rank to defeat a high class emperor rank Violent Snow Devil and successfully improved his ice air fairy to high class emperor rank!” Teng Lang said with a smile.

Teng Lang’s words caused the fifty snow city upper level to all show mixtures of shock and doubt.

Teng Lang’s words had two meanings. First, this was an expert with high class emperor rank, meaning there was another elder rank expert. Second thing, he could use a middle class emperor rank and high class emperor rank, and with such powerful fighting techniques, he definitely had been through countless battles to go pull this all off!!

Palace master Shang originally thought young master Teng was trying to save him and wanted to reject it until he heard the words “high class emperor rank”. He opened his mouth but decided against speaking anything.

“Is this person reliable?” Compared to strength, Teng Jiangfeng was even more worried about how reliable the person is.

“Definitely reliable, its elder de’s wandering disciple. I’ve already sent a message to elder de and elder liu to confirm.” Teng Lang nodded.

Teng Lang seemed reckless and unconstrained but was very meticulous. After meeting Chu Mu he went to confirm Chu Mu’s identity. As the third young master of soul palace, he had many friends but also knew how to make friends carefully.

“Yes, a while ago elder liu sent a letter saying he had a private adopted son called Chu Fangchen that is currently staying in snow city. Do you mean that one?” Soul palace Elder Qing said.

“Yes. He has four souls hurt, and can only control one soul pet, but his high class emperor rank can easily anchor the spirit master army!” Teng Lang said seriously.

“Four souls hurt.....ai, sad, sad, but this is still very hard to come by.” Everyone sighed.

Four souls hurt, this was a cruel attack to any soul pet trainer.

“Then invite him in here.” Now they needed heroes from everywhere to step up. Having a spirit emperor with a high class emperor rank was definitely worth joy.

Not long ago, Chu Mu entered the spirit master negotiation hall.

When the fifty high level people saw Chu Mu walk in, their expressions immediately changed.

“This one?”

“High class emperor rank spirit emperor?? He has a high class emperor rank?”

“He’s way too young!”

Those that were truly young and those that simply keep their youthful appearance were easy to tell apart. Everyone there was experienced and could naturally tell that the man was indeed only twenty or so.

Yet, who would have thought that Teng Lang’s high class emperor rank expert was such a handsome young man!

“Pleased to meet everyone.” Chu Mu very politely saluted.

“Chu Fangchen?” The few elders were all staring blankly, and only came back to their senses later and asked.

“Yes.” Chu Mu nodded.

“Everyone was suspicious, but the person I was talking about is him.” Teng Lang smiled.

He guessed long ago that the moment Chu Fangchen appeared, more than half of the people would show very colorful expressions.

Reaching such a level at such a young age, who else could reach that?

“Truly unthinkable that our soul palace still has a hidden expert of this degree!” Teng Jiangfeng stood up and let out a sigh.

“He’s probably beyond the first young master?”

Chu Mu was already high class spirit emperor, everyone could tell with one glance at him. The sighs continued to sound for a while.

Soul palace first master was almost undefeated when he was young, but near the end he plateaued for a while. He again raised his strength recently, so he took over a Supreme title. Those with supreme titles much have top tier emperor rank, it meant that the young master was now in that realm!

Entering high class emperor rank at his age meant he had even more unlimited potential.

Of course, the people very quickly realized that he had four souls wounded. Teng Jiangfeng started worrying that this prodigy would fall in battle, and was hesitating whether to allow them to join.

The final match was much crueler than war and often true death or alive situations happened. If such a genius fell in the final battle, it would be a huge loss to the three palaces!

Chu Mu insisted on fighting and said he had techniques to save himself. And as the anchor of the spirit master team, there wasn’t too much risk.

Finally, Teng Jiangfeng made Chu Mu the spirit master main general. With a few experienced strategists, he was in charge of the army of spirit masters.

.....

Following that, Chu Mu entered the 200 spirit master team. The 200 spirit masters all briefly described themselves, but they were all dumbfounded.

In the spirit master elite army, many of them were often called geniuses, being powerful at a young age. However, compared to this general, countless people couldn't call themselves a genius anymore!!

After everything ended, it was nighttime.

“Brother Chu, how is it?” Teng Lang patted Chu Mu's shoulder and asked slightly humorously.

“Not bad, the spirit masters are all powerful and we have a good chance.” Chu Mu commented.

“Who was asking you that?” Teng Lang was speechless.” You stayed with the war goddess alone in that snowy place for many months. The temperature probably didn't prevent you from doing any steamy things, right? Ai, you truly got lucky with such a thing. Speaking of which, you truly did help me “greet” her.....”

“.....” Chu Mu was even more speechless.

This soul palace third young master didn't seem to act like the final was in a few days, instead having the time to think of this?

“Don't be so boring, I have a thing to give you. Let's find a quiet place.” Chu Mu said.

“Heihei, still saying nothing happened....” Teng Lang thought Chu Mu just wanted some place quiet to slowly talk about it in depth and started laughing even more obscenely.

Though Teng Lang took in two females, none of them were comparable to heavenly concubine, so Teng Lang obviously was jealous of CHu Mu.

Ten minutes later

A very repressed and strange voice came from a side palace!

“This.....this.....this....this..... Brother Chu.....”

Teng lang was blanking, as he looked at the coldness in Chu Mu’s hands, unable to speak!

At this moment, other than disbelief, his face was plastered with undisguised joy. His body was shaking with emotions!

“This is a spirit source, I found it with heavenly concubine. She didn’t want it and gave it to us, we each get half of it.” Chu Mu gave half of the ice type spirit spring to teng lang.

Teng Lang was dumbstruck and stood there, not knowing whether to take it!

This was too sudden and surprising.

About Universe Ice Gate, Teng Lang only had a determination to not let anyone in. He knew however, that he may never have had the chance to truly step deep in. When Miu Qingyi let him walk in first, he was already satisfied.

Afterwards, he couldn’t withstand the long mental torture and decided to leave, he was full of regret but couldn’t do much about it. He got over it recently too.

Yet, what he didn’t expect was, Chu Mu actually gave half of his resources to him after suffering for multiple months. Not only that, it was a resource that could improve high class emperor to top tier emperor rank! Countless people could never make that leap!!!

As the soul palace third young master, Teng Lang had immense pressure to become a true top tier emperor experts!

He and the first young prince were from the same generation, and the young prince was already at the peak, yet he was still in middle class emperor rank. Though he was often magnanimous, he was secretly constantly disappointed in himself.

Breakthrough, breakthrough! He yearned to breakthrough!

This time, he caused his iceberg lion to step into high class emperor rank and was already overjoyed. He had yearned for that rank for too long!

Yet now, with the top tier emperor rank resource in front of him, he just needed to extend a hand and he would have it!

Yet, the normally casual Teng Lang didn't dare to receive it!

"What, do you want it all? I can't do that, I worked many months for it." Chu Mu didn't act polite, directly stating his attitude.

Teng Lang saw the man younger in front of him and for a moment felt his emotions boiling out of control.

Suddenly, Teng Lang yelled out loud and cursed, "Are you utterly stupid? You could have just not mentioned this!!! Don't you know you have to be selfish, selfish, and more selfish!!!"

Chu Mu was slightly taken aback but quickly understood. Half was enough for Chu Mu. If not, Chu Mu may have considered keeping it.

Chu Mu laughed, "Take it, you truly are being too polite...."

"I.....I....." Teng Lang was at a loss of words. He never would have thought that he would feel his eyes starting to feel touchy in front of another man.

Finally, Teng Lang took the freezing yet heartwarming gift.

Being speechless for a while, Teng Lan in his mind already put this man at a position where he would do anything for. Not many people held that position in Teng Lang's heart!

Finally, Teng Lang said something off topic to break the silence, "Guanguan told me that Heavenly Concubine is pretty keen to find out whether you are participating. Listen to brother and take down this war goddess. A man has two dreams: 1. To step up to the top of all soul pet trainers and 2. To take down both the goddesses....."

“.....” Chu Mu was speechless

## Chapter 809: Like a Heavenly Cage, Dominator Rank

By the time night fell, Chu Mu didn't return, instead he went to Snow City's library...

In each city, Chu Mu had a habit of going to the library. Each city would record their own unique views of soul pets. Without Old Li with him, Chu Mu had questions in his heart, and naturally went to the library.

There were relatively few people in the library at night. When Chu Mu stepped into the library, the last reader happened to be leaving.

The reader was a woman who was wearing pure white clothing that fluttered behind her as she left. Her head was looking down, but when she walked past Chu Mu, she looked up at him with shy curiosity.

“You... you are Mr. Commander?” a smile rose on this white clothed woman as she spoke with happiness. When her beautiful face looked up, amongst the warmth on her face, she carried a mature beauty. Her half-moon eyes were extremely bewitching.

“Yes, and you are?” Chu Mu didn't remember seeing this woman in the discussion hall.

“I am your supporting commander in the spirit master army. I'm in charge of supporting the battle. When you entered the army, I don't think you noticed me. I'm called Zhuo Wan and am now a member of Soul Pet Palace.” smiled the woman called Zhuo Wan.

Zhuo Wan looked about the same age as Chu Mu. Chu Mu never expected that such a sweet looking girl would enter such a cruel decisive battle.

Of course, since she was selected as a supporting commander for the spirit master army, her supporting abilities were definitely not just average.

“I'm sorry, I only remembered the commanders and military advisers.” Chu Mu spoke truthfully.

The battle would be commanded by the military commanders and advisers. Chu Mu didn't have much ability to command large armies, so he remembered the few crucial people.

"You've come here to find a book?" Zhuo Wan was curious why this young commander would come to the library so late.

"Yes, I'm searching for a book on the Seven Sins Fox." nodded Chu Mu.

Mo Xie's increase in strength made Chu Mu very anxious because her attributes were too special. If he didn't find a few books on her, it would be difficult for him to find a solution to her problems.

"Seven Sins Fox? That is a very legendary soul pet. There aren't very many libraries with records." as Zhuo Wan spoke, she wore a smile and slightly lengthened her words, saying: "However, you've come to the right place. I've seen one on the fifth floor..."

"Really?" Chu Mu showed a pleased expression. It wasn't easy to find information on the Seven Sins Fox. This fellow was even more rare than peak emperors.

"Yes, I'll take you there." Zhuo Wan was rather familiar with the boss here, and could help Chu Mu fix a big problem of his.

Indeed, Snow City's library didn't disappoint Chu Mu. There was recorded information about the Seven Sins Fox that previously appeared in Snow City, which soul pet trainers held Seven Sins Fox in the past, and a few personal letters from previous generations about the Seven Sins Fox.

"The true rank of a Seven Sins Fox should be either a high class emperor or peak emperor. But due to the sin imprint it carries, its species strength has been greatly reduced. If one can find the method to undo the sin imprint, its strength will erupt as if it has undergone a species mutation. In terms of strengthening, the Seven Sins Fox is the hardest soul pet to strengthen. It has diverse attributes and if the distribution of attributes are of huge range, this will affect its strength, causing a slight chance of attribute deviation if there's a careless mistake. This will make it weaker in battle."

This senior indicated that the most direct way of increasing the Seven Sins Fox's strength was to find the method of undoing the sin. Using spirit items to strengthen it wasn't too effective.

At the emperor rank, resources were rare. It was extremely difficult to find a spirit item with three aligning attributes. And even if he did find a corresponding spirit item, the chances of failure were extremely high. Therefore, this made the amount of money he would spend difficult to calculate...

“Where would I be able to find the method of undoing the sin?” Chu Mu bitterly laughed and closed the book.

It was nearly midnight so Zhuo Wan didn’t stay too long with Chu Mu before leaving him alone to finish the book.

Chu Mu looked at this book for a long time. The small Mo Xie was lying on his shoulder, asleep. Her saliva was dripping out of her mouth without restraint.

He had planned on raising the small Mo Xie to the middle class emperor rank before the decisive battle so had come here to investigate.

“If I directly use spirit items, I should be able to succeed. She’s stayed too long at the low class emperor rank for too long.” Chu Mu felt that in the next few days he should attempt to collect spirit items for Mo Xie. It was best to raise her to the middle class emperor rank before the fight. This way, Mo Xie would be able to train in the battle. If this small fellow didn’t fight soon, her claws were going to grow rusty.

Time quickly passed and the decisive battle neared.

In this period of time, the three great palaces were not stingy with resources. They tried as best as they could to find resources to help soul pets at a bottleneck to breakthrough. However, the room they could grow was extremely limited.

In the last few days, aside from collecting spirit items for the small mo Xie, Chu Mu studied information about both sides of the decisive battle. He had to understand this; he had to know thyself as well as his enemy!

Finally, the decisive battle arrived.

Just as the human formed decisive battle army from Snow City set off to the snow plains, a scout brought a bad piece of news to the three great palaces!

“Qin Wu, why did that fellow appear...”

Senior Elder Teng had already scouted all of the enemies and had formed a strategy for them.

However, this strategy didn't account for change. With the appearance of Qin Wu, this was enough to shift the scales of the decisive battle.

For a moment, everyone was shrouded with bad news. Qin Wu was much harder to deal with than Jia Hechuan. This fellow was practically a reaper of death in a group fight!

Elder Chen, what do you think?” Senior Elder Jiang respectfully asked the accompanying Elder Chen.

Elder Chen was wearing a mask, and around her weak body was wrapped thick clothing.

Elder Chen was obviously the disguise of Ning Maner. To make this 13 or 14 year old young woman enter such a serious fight, Chu Mu felt like this was a bit of a joke.

Fortunately, although Ning Maner would carefree and happily laugh normally, when she needed to be serious, she could act old and experienced with careful thoughts. Her large clothes and mask wrapped her in a feeling of mystery. Her aura that seemed to surpass the mundane made the senior elders think she was a hidden expert.

“It's no bother.” Ning Maner had no difficulty changing her voice, making it seem identical to an old man's voice.

Ning Maner's disguise was completed through the Messiah Tree's abilities.

This disguise ability was similar to Old Li's ability to change one's appearance. In the two months Chu Mu had left, it wasn't that she hadn't done anything proper. At least she knew that when there were numerous experts pursuing her, disguising herself was extremely important. Therefore, in these two months, she had bitterly practiced her disguise ability.

In the arena, she had tricked everyone, and right now had succeeded in tricking these sharp eyed senior elders.

In their eyes, the person wrapped in large clothes and wearing a mask was just a skinny and weak old man. Nobody would expect that this person with the crooked posture wrapped in tree bark was actually a young and spirited young woman!

Of course, if Ning Maner hadn't managed to trick Chu Mu with her disguise ability, Chu Mu would never allow this girl to participate in the decisive battle. Indeed, the decisive battle wasn't some game.

After leaving Snow City, they traveled five kilometers across an open and vast plain.

The plain was covered in palm-thick snow. It was a pure white color and as far as one could see, it covered all of the mountains. At the end of one's vision were snowflakes falling from the horizon.

Snowflakes were rare. At the center of the field, seven noble and proud phoenixes were beating their rainbow wings, hovering in the white sky.

The seven phoenixes were the seven female disciples. They were all wrapped in long robes with graceful figures, resembling beautiful snow women. They were longed after, yet could not be approached.

At the head of the seven phoenixes and women was an even holier Nine Colored Phoenix. Atop this Nine Colored Phoenix quietly stood a woman with an appearance out of the ordinary. People were shocked by this fairy's aura which was dignified and noble. It also contained august and a composure that didn't allow for blasphemy.

Even higher above this woman was a golden burning flame that resembled a holy flame hanging in the sky. It was dazzling and striking, incorporeally suppressing others. It seemed that underneath this creature, all types of strength were abnormally tiny and childish.

This was a true dominator rank ancestor's descendant - the Crown Phoenix King!

If such a powerful creature appeared in this large scale and high end decisive battle, the victor would probably be instantaneously decided.

Mu Qingyi had the Crown Phoenix King hover in the air naturally to intimidate both armies. Presumably, neither side wanted to anger this war goddess-like ultra strong existence.

Above the plains was another imposing creature. It was Mu Qingyi's White Tiger that had reached the emperor bottleneck!

In the icy skies and snowy land, a cold wind howled as a white colored devil tiger, of the same color as the ground and sky, proudly stood there. Its majestic aura was like a snowstorm, preventing people from nearing.

With these soul pets of the Heavenly Concubine appearing on the plain, both armies were extremely intimidated. Even if both sides had great animosity towards one another, neither dared easily approach.

"A true expert should be like her. Both armies are great enemies yet both are so cautious." Senior Elder Teng looked at the distant Heavenly Concubine, feeling myriad emotions in his heart.

In his life, he probably would not be able to reach this realm!

It wasn't only Senior Elder Teng. The other senior elders understood that they would never be able to reach the same heights as the woman in the sky currently was at. They would be unable to stand aloof from the mundane like her, nor would they be able to control the mundane!

On the other side of the plains was another army of 2220.

The leader was the 4th Hero, Mo Ling!

This absolute expert which also should have surpassed the mundane was now standing amongst the mundane army. Perhaps this was the reason why he was never truly able to reach the dominator rank...

Mo Ling's strength was self-proclaimed to have reached the dominator rank. However, experts who had truly reached the dominator rank knew that Mo Ling was still lacking a step and this step was something he probably would be unable to cross his entire life.

Although it was only one step, a true dominator rank expert could rely on one soul pet to annihilate all of Mo Ling's main pets.

Of course Mo Ling wished for a day he could breakthrough. He had waited for many years, but was still standing on the ground. There were even times that he had to look at true dominator rank experts with admiration!

The dominator rank that was like a heavenly cage... innumerable spirit emperors had shed blood for it...

## Chapter 810: Protection, Qin's Fight!

Mu Qingyi's soul remembrance was the highest. When she swept her soul remembrance across to search everyone, nobody could escape her sharp perception.

Chu Mu was standing at the front of the spirit master army and was focused on Ning Maner. He was unable to see through her disguise ability, but perhaps Mu Qingyi would detect something. This was what he was afraid of.

Fortunately, Mu Qingyi didn't keep her attention on the disguised Ning Maner for too long. It seemed that Ning Maner had successfully tricked her.

However, when Mu Qingyi's soul remembrance swept across the spirit master army, Chu Mu sensed her soul remembrance stop on him.

"You have four wounded souls. Why are you still participating in this battle of life and death?" Mu Qingyi used her soul remembrance to speak to him.

"Battles are a form of training." Chu Mu didn't truthfully respond.

Mu Qingyi didn't say anything more.

.....

The White Tiger at the center of the plains slowly strode forward.

Even without saying, both armies knew that when this White Tiger left the center, it would be time to fight to the death.

In this moment, incantations were at the tip of everyone's tongues. All of the soul pet trainer armies took their initial formation in preparation of the fight!

Chu Mu was in the spirit master army, so he had come to understand how to deploy an army very well.

If he were to divide them into styles of fighting, all soul pets were either attack, defense, or supporting soul pets.

Diving deeper into these three categories, attack type soul pets were split into aerial teams with flying abilities; bug and beast type soul pets were close combat teams; demons were sneak attack teams; and elemental soul pets formed long ranged attack teams.

Of the defensive soul pets, most of them ensured that the long range team and soul pet trainers remained safe. They were further split into horned species and armored species that formed close combat defensive lines; wood types and vine types that formed plant defenses; and rock type and water type elemental world creatures formed the final fortress of defense.

Finally, there were support types.

There weren't many support soul pet trainers. Indeed, in this world, of every 100 soul pet trainers, only one would specialize in support. Furthermore, most of them were women.

Of Chu Mu's 200 spirit masters, there were 10 support soul pet trainers. Therefore, there wasn't much of a difference between subdividing them or not.

Most of the 10 soul pet trainers were women and Zhuo Wan, who Chu Mu saw at the library, was their leader. It was integral to protect them as well as their soul pets; it was also very easy for them to become targets of enemy attacks.

Although there were only 10 of them, their effect was no less important than a team in the army. Due to Ye Qingzi, Chu Mu knew very well that in a battlefield, especially of this size, support type soul pet trainers were extremely important.

The White Tiger's figure gradually disappeared from the plains. There ostensibly was no need for a special signal. When all of the soul pets had been summoned and filled both sides, forming ranks to create a true soul pet army, the killing intent from each side was imposing like a windstorm and they clashed against each other on the location the White Tiger was previously standing on, causing the temperature to abruptly drop. It could be seen that on this vast plain, white snow was everywhere, but no white snow was falling in between the two armies!

Soul Alliance and the three great palaces had fought in Snow City for a long time and their animosity towards one another was at an extreme. Right now, this animosity had transformed into killing intent that took the form of countless fatal swords. They whistled through the snowy ground. Even if there were a spirit emperor standing in the center of it, he or she would collapse from the imposing aura from both sides.

Kill!

This was the best method to resolve differences, animosity and conflict!

Several thousand people simultaneously yelled out the word "kill", causing the heavens and earth to tremble!!

.....

The demons roared like thunder and when they ran, they attacked like a tsunami. Surging on, they caused the earth to violently shake!!

Long sharp cries were ear-piercing. The vast sky was tens of thousands of meters and formed their borderless battlefield. It was a place to soar and kill!!

Elemental chants were like songs as different attributed lights that represented destructive power was hidden in these elemental hands. At any moment, they could blossom in this magnificent battlefield with the ember of death!

Thick branches interwove with one another, covering the snowy earth. They resembled pythons and if angered, could immediately launch a terrifying attack.

Chains covered the vine, forming a vine forest. The venomous stings hidden in the ground could turn enemy that closed in into fertilizer!!

Until now, Chu Mu had trained alone and fought alone. The first time he encountered a war was when he reached the emperor rank when war broke out in the Hibernating Desolation.

TL: Don't think this is right. He hit the first hibernating desolation ages before that.

However, compared to the Hibernating Desolation, this decisive battle was much more intense than what he imagined. Spirit emperors, spirit masters and spirit teachers. This was a campaign of humans against humans. If one hadn't reached the dominator rank, could he or she call oneself a dominator?

This was a feeling of insignificance. Without the half devil, Chu Mu felt extremely tiny standing here. He also felt a bit weak, even though most of the soul pet trainers here were far from as strong as him.

However, why did everyone, despite knowing they were weak and insignificant, still stand here and let out a heaven trembling howl to kill? Why did no one retreat or feel cowardly in front of the enemy's malevolence and powerful majesty? Why did even the sweet and timid women not hesitate to stand on the bloodthirsty battlefield of slaughter...

Because they all had a common goal!

Defeat meant absolute failure!

Therefore, even though they were fighting a losing battle, they had to win!

As he calmly stood there on the battlefield of human slaughter, perhaps Chu Mu was the one most without a reason to participate in this battle.

He was a half devil, and could stand like Mu Qingyi high up in the sky, overlooking the fight between them.

However, Chu Mu didn't want to stay uninvolved. Chu Mu already had developed sentiment for Soul Palace, and this sentiment made it worthwhile for him to protect Soul Palace!

Humans should take a side. Even if the side one stood on was hindered, tied down or restricted, as long as one had sentiment towards this side, one didn't need to ask for a reason to adhere to it and fight for it!!

“Qin!”

Chanting an incantation, as the decisive battle began, Chu Mu immediately thought of the Binding Wind Spirit that had lost its wind tribe.

Presumably, Qin would have the same state of mind as all of the soul pet trainers from Snow City.

“Qin!!” dancing in the wind, the figure of a Binding Wind Spirit appeared. Its eyes were spirited, but also contained a deep wound that made it seem “lost”.

Chu Mu had already used a tear crystal on Qin's soul. Qin, who understood the feeling of losing something, understood the meaning of this decisive battle where blood and tears would be shed.

It had already lost its wind tribe. Thus, it would fight to protect its master's palaces!!
