

Soul Pets Bk2 811

Chapter 811: Soul master army final battle Part1

Binding wind spirit was middle class emperor rank.

Chu Mu led 200 spirit master army and also had many soul palace members that could control elemental soul pet binding wind spirit.

Wind was the longest reaching elemental attack. Before the close range armies clashed, the wind type soul pets will bring the first wave of attacks to the enemy!

“General, wait another moment!”

The old strategist stood by Chu Mu. He had grey hair and his eyes were large, gazing intently at the nearing melee army!

The melee army was consisted of beast and bug type soul pets. Almost the moment the battle started, the melee army lunged forward, creating two lines of offense that swiftly approached each other!

And both sides knew that before their armies reached each other, they would get destroyed by wind type elemental attacks!

This was unavoidable. The battlefield was incredibly important. Even though there will be damage, neither side will let their melee armies back off.

The old strategist's eyes were right on the enemy front line. The moment they entered a good distance from their wind type soul pets, he would immediately tell his wind type army to cast a storm!

Chu Mu's eyes were similarly gazing at the nearing hundred beasts. Suddenly, Chu Mu gave Qin an attack command!

"General, that's too far!" Strategist Tang saw Chu Mu's binding wind spirit attack and immediately shouted.

Almost the moment he spoke, the kilometers near the melee army had a massive muddy gust that became a massive dragon. The long frontline was instantly ripped up. Countless beasts were thrown into the skies and some were ripped to shreds, splattering blood onto the snow!!

This ultra long distance attack caused everyone aside Chu Mu to pause. It was then that they realized that Chu Mu's binding wind spirit was middle class emperor rank!!

"Middle class emperor!!!"

With an average strength of high class, top tier monarch ranks army, this middle class emperor rank attack shocked everyone!

This was near five kilometers in distance. If their wind type soul pets had this attack distance, their powerful group killing strength would definitely defeat the enemy army before they even enter a kilometer of their team!

Everyone originally thought this general was just a normal spirit emperor, with a low class emperor rank being impressive already. They never would have thought that he would have a middle class emperor rank. This caused the two hundred spirit masters to be shocked at his unbelievable strength but also overjoyed.

With such an expert anchoring them, they definitely wouldn't lose with their advantage!

Chu Mu's attack was to grow their morale!

"Continue to attack!" Chu Mu continued to attack!

At this distance, Qin definitely could defeat many opponents!

.....

Soul alliance spirit master army's general was Jia Hechuan's original subordinate Xin Sheng.

At this moment, this fellow that was specialized in killing weak enemies was standing behind all the soul pet trainers.

At this moment, Xin Shen's expression was very ugly. He didn't have any wind type soul pets, so the difference in their armies caused great losses for them. After all, middle class emperor rank's techniques could easily defeat all of them!

“I’ll let you get the upper hand first. Once my hundred pupil devil panther enters your melee army, you can just wait to die!” Xin Shen repressed his anger and coldly said.

He slowly lifted up his hand and watched the opponent’s melee army approach.

However, soul palace because of binding wind soul pet’s existence had a huge advantage in reach. Before Xing Shen’s elemental soul pet army could attack, the binding wind spirit team already started a frenzied assault!

With Qin’s powerful wind being the most cruel, the other binding wind spirits quickly caused chaos in the enemy’s team!

The muddy wind brought snowflakes and blood along with it, dotting the snowy lands. This moment, the beast roars suddenly became even louder. In morale, neither side will show any weakness!

“Beng!!! Beng!!!!!!!!!!”

The moment the armies clashed, the snow grounds broke open. The beasts entered the purest form of close combat, allowing the elemental armies’ attacks to land on them while they only had the enemies in front of them in sight, ripping and tearing at each other!

“Houhouhou!!!!!!!!!!”

With a pelt of dark fur, the devil panther covered in unsettling pupils let out a roar that shocked everyone nearby. It brutally tore through a dozen monarch ranks in front of it. Still biting onto some

organs, it tore through even the highest defense armor bug type monarchs. Nothing could withstand a single attack from it!

Seeing his Hundred Pupil Devil Panther immediately take an advantage, the soul alliance spirit master army's general Xing Sheng smiled cruelly. This was a middle class emperor rank. Standing within the spirit master army, it was like an adult man with a knife slaughtering a group of toddlers!

"General!" Zhuo Wan creased her brows, her beautiful face showing some determination and some reluctance.

The water, wood, and flower type supporting team couldn't even cast healing techniques before these teammates' beasts were killed. The difference in strength caused the support team to be useless.

"Qin, destroy it!" Chu Mu commanded binding wind spirit.

Binding wind spirit rode the wind and floated straight into the skirmishing of the beasts!

Chu Mu had absolute faith in Qin's wind type control. No matter how chaotic it was, it definitely could pull the hundred pupil devil panther out and kill it!

"Lift it up!" Chu Mu commanded.

Qin floated in the air and didn't need any incantation. A slight point of a finger and the hundred pupil devil panther's feet were surrounded by a swirling wind. Before it could realize what was happening, the winds blew upwards suddenly, sending the hundred pupil devil panther into the skies.

“Telling a binding wind spirit to come forth to deal with my hundred pupil devil panther, isn’t this looking for death?” Xin Sheng’s soul remembrance quickly locked onto Chu Mu’s binding wind spirit.

He lifted a hand and gave a command to the elemental army behind him.

Waving his hand, he immediately told near hundred elemental monarch ranks to lock onto Qin. Fire, meteors, storms, lighting, and all kinds of colors filled the sky and barraged where binding wind spirit stood!

Once monarch ranks gathered up and casted techniques together, it would definitely cause great damage to emperor ranks.

Qin’s wind was waving in the wind and it slowly floated backwards. At the same time, a massive wind parrier blocked the dense technique barrage outside.

The hundred techniques had Xin Sheng’s middle class emperor hail barrage. After Qin’s wind type barrier was broken through, it was immediately attacked with ice type techniques.

Yet, as Qin was blocking the attack from the elementals, Xin Shen told his hundred pupil devil panther to near Chu Mu. He wished so dearly that he could directly kill Qin.

“General, you’re being implausible!” Strategist tang saw Chu Mu send his binding wind spirit into the battlefield and wasn’t satisfied. Binding Wind Spirit needs to attack from far back instead.

”No worries, let us return to them a wave of elemental army’s attacks!” Chu Mu didn’t mind and told the leading general of the elemental army.

The enemies were already hit by a huge wave of techniques. Now was the best time to attack. Command did not hesitate at all and raised the flags. Immediately, allies all started glowing different colors, created an even more formidable combo, sending an imposing wave of techniques in a pretty arc into the enemy lines.

Such an attack may normally hit allies. However, spirit master rank elemental world soul pets weren’t mechanical bows. They could definitely kill the right target at a range of a few hundred meters. Adding on the fact that the command given was for narrow and small area techniques, the chances of self damage was negligible.

Chapter 811: Soul master army final battle Part 2

“General, your binding wind spirit.....” Strategist Tang saw the fight in midair and wiped some sweat off.

The middle class emperor rank binding wind spirit simultaneously drew the attention of the middle class emperor rank hundred pupils devil panther and the crimson snow emperor. Not only that, it stepped into the range of the opposing elemental army. It would die with a single mistake!

Just command your war.” Chu Mu said lightly.

Chu Mu as general wasn't there to lead the war. His true mission was to kill the opposing emperor rank. Chu Mu had absolute faith in binding wind spirit. Even if three middle class emperor ranks appeared, Chu Mu wouldn't worry!

“Huhuhuhu!!!!!!!!!!!!!!!!!!!!!!”

Bloody scythes dashed through the sky, causing the hundred pupil devil panther's skin to tear off. It had to back off to the ground and let red snow emperor rank defend.

Looking at the hundred pupil devil panther back off, Xing Sheng furrowed his brows.

While they were both middle class emperor rank, the binding wind spirit didn't seem to have anything special. However, his hundred pupil devil panther seemed to be losing, even in close combat.

"Boss Xing Shen, is that binding wind spirit high class emperor rank, why is it so powerful?" Strategist said out loud in shock.

"Not possible, that's a middle class emperor rank." Xing Shen said very confidently. However, he hadn't figured out why the binding wind spirit was different.

"Boss, your.....your Red Snow Demon Emperor was forced to retreat too!" Strategist opened his eyes wide, and stared at the binding wind spirit in disbelief.

Xin Sheng's veins popped, and he glanced coldly at his strategist.

He didn't need someone to say it, he knew himself!

Both were elemental soul pets, both were middle class emperor ranks- the enemy's elemental power crystal wasn't any stronger, yet why was his emperor forced to retreat within a few moves? They didn't seem to be on the same rank at all!

“This binding wind spirit’s wind type attacks are near one times stronger than normal middle class emperor ranks, chants incredibly swiftly, and can never be interrupted!”

Finally, Xing Shen saw where the problem was!

This wasn’t a normal binding wind spirit, this was a binding wind spirit that had the special species technique countless elemental soul pets could only dream of!

Ancient Wind Will! With the inheritance of a sacred pet, Qin was far from being a normal binding wind spirit. With that technique, he could rarely find a match within his rank!!

At the same time, til now, Chu Mu still didn't know what ability Qin gained in the ice palace. Maybe its hidden, maybe its slowly changing binding wind spirit, but no matter what it was, Qin would let these spirit alliance members know what true wrath of the wind was!

“Push forwards!” Chu Mu gave the command to his commanders.

The close combat army already started fighting, and the elemental armies were exchanging attacks. The two army’s main fort must push forwards or else the opponent would push closer!

Seeing the binding wind spirit cause the opposing two middle class emperor ranks back off, morale was at an all time high. After Chu Mu gave the command, the spirit master fort started pushing forwards, moving the vine type, rock type, and wood type defense lines forwards!

The pushing forth of the defense line was very crucial. As the line got closer, they could effectively aid and support the air and land armies to increase the pressure on the enemy because it meant the elemental army was nearing too!

Of course, the prerequisite was to have an advantage. Or else, if their close combat army was blown through, they may instantly lose their last line of defense.

With the defense line pushing forwards, the support team immediately started healing the close combat army.

However, Chu Mu didn't play too aggressively. After consulting his strategists, he temporarily told his defense line to stop moving forth.

“General, there's a wing type emperor flying over that's incredibly fast!”

Chu Mu lifted his head and immediately saw the opposing general's wing type emperor!

“Another middle class emperor rank. They truly have a pretty powerful spirit emperor anchoring their army!” Chu Mu furrowed his brows and glanced at the other two middle class emperor ranks fighting his binding wind spirit already.

“Send the wing type army and distract it, no need to attack.” Chu mu naturally couldn't care for this wing type middle class emperor too, so he had to rely on the wing type army to restrict it momentarily.

The wing type army was made up of the elites of soul pet palace. It was because of this army that the spirit master army on the three palaces side had an advantage over the opponent. It shouldn't be an issue to let them distract the wing type emperor for a while.

Of course, this wasn't a long term plan. Chu Mu couldn't waste time, and had to let binding wind spirit quickly kill one of the middle class emperor ranks!

Qin and Chu Mu were connected by heart, so Chu Mu didn't need to say anything for his thoughts to be conveyed.

Qin cast wind path and passed through the battlefield full of elemental attacks and appeared by the wounded hundred pupil devil panther!

The incantation quickly finished and silk-like strip of wind appeared by the hundred pupil devil panther. The panther tried to roar and interrupt Qin's incantation but it didn't work at all.

The wind strips gently interweaved and one couldn't feel any danger from it. However, the hundred pupil devil panther started running in the opposite direction, not daring to get trapped in this wind!

However, binding wind spirit was much faster than it.

Binding wind spirit directly ignored the Red Snow Demon Emperor's attacks, and continued to chant an incantation to wrap all the strips of wind onto the hundred pupil devil panther!

Wind Thread Kill!!!

Suddenly, Qin let out a piercing call that caused all the gentle wind strips to become terrifying weapons that ripped off pieces of the hundred pupil devil panther's flesh!!!

Chapter 812: Power Difference, How to Make Up For It?

The seemingly soft wind strips were full of terrifying killing power!

This technique attacked the hundred pupil devil panther's four limbs. The limbless hundred pupil devil panther immediately lost all fighting strength!

Blood started splattering out of the wind. The hundred pupil devil panther let out a painful howl, and hobbled towards its own side.

Chu Mu didn't let his binding wind spirit chase after it. To kill this middle class emperor rank, it needed at least two more wind type techniques. The opposing general wouldn't give binding wind spirit the chance to cast again.

Indeed, the massive ice mountain of the red snow demon emperor appeared by binding wind spirit almost without a precursor!

Binding wind spirit's defense wasn't high, so directly getting hit by that attack will cause it to lose the ability to battle.

“Wind Walk!”

Chu Mu quickly reacted and gave binding win spirit a command.

Facing this falling ice mountain, binding wind spirit was very calm. In the shadow of the falling mountain, it adeptly found a hidden wind spot, and its nimble body slowly disappeared into this spot!!

“Beng!!!!!!!”

The massive ice mountain directly passed through Qin’s body and fell on the snow ground, shattering into countless pieces and sending many nearby beasts onto their backs.

Yet, after the glacial mountain shattered, binding wind spirit slowly appeared in the hidden wind spot again. It lifted into the air and launched a counterattack on the red snow demon emperor.

Xing Shen’s face was incredibly twisted. This binding wind spirit’s powers are far beyond his expectations. Two middle class emperor ranks weren’t its match. Now that his hundred pupil devil panther was wounded, it couldn't go up to harass either.....

“Who is the opposing general?” Xing Shen said angrily.

“This.....I think its a soul palace member named Chu Fangchen.” The strategist got the information from a spy hidden in snow city.

“Chu Fangchen?” Xing Shen and the nearby commanders clearly have never heard of the name.

Yet, how was a nameless spirit emperor displaying such power!

The battle of the spirit emperors had unknowingly left the region of the spirit master armies because neither side wanted their techniques to affect the armies.

Also, if any of the armies released a group attack, it would be of great harm to spirit emperors. Thus, the spirit emperors were often fighting in the air or off to the side.

Both sides' spirit emperors have already attacked. 40 spirit emperors almost all were experts beyond middle class emperor rank.

“Qin Wu, attack!” Mo Ling watched the spirit emperor battle but never fought himself.....

If Mo Ling didn't participate, the elders and senior elders all couldn't fight either, because a slight mishap may cause their soul pets to get instantly killed by Mo Ling's Tai Mountain Giant!

The spirit teacher armies and spirit master armies each had a spirit emperor as anchor.

There were 8 elders and senior elders unable to participate. So, ten spirit emperors were occupied. Facing soul alliance, they were in a huge disadvantage.

At this moment, Qin Wu also joined into the spirit emperor fight. If no one could stop Qin Wu, the three palace spirit emperor formation would instantly collapse.

“Elder Chen!” Elder Jiang yelled out anxiously.

Wu Jue - Qin Wu's appearance was in itself unexpected because it caused the powerful assistance of the hidden expert Elder Chen to be of less use, making him more of a balancing tool.

This way, it was 11 spirit emperors against 16, so soul alliance still had the absolute advantage.

Elder Chen saw that Qin Wu already entered the fight and started an incantation!

As the incantation sounded, devil flames gushed out and from the rampant flames emerged a human shaped demon that slowly solidified into a silver and demonic man!

Within the flames, the white nightmare emperor slowly walked out. It stared at the chaotic emperor battlefield and a dark smile appeared on its face!

“Huhuhhu!!!!!!”

The white nightmare's body lit up and it stepped into the battlefield eagerly!

High class and middle class emperor ranks were no longer interesting to white nightmare emperor. White nightmare emperor immediately appeared by Qin Wu's stop tier emperor and it started taunting it.

“This is Jiang Ang's white nightmare, or....” Mo Ling looked at the battlefield and started guessing.

Mo Ling already heard from Jia Hechuan's strategist that they gained two top tier emperor ranks out of nowhere.

With Mo Ling's understanding of Nightmare Palace, those with top tier emperor ranks in snow city was only Jiang Ang.

"Boss, spirit master army Xin Sheng requests assistance. The opposing army's general is a very powerful spirit emperor." Main strategist told Mo Ling.

Mo Ling's expression didn't change but he felt it strange. Three palaces already were at a disadvantage in the battle of spirit emperors, yet they had the spare effort to send a powerful spirit emperor into the spirit master army.

"Tell Liang Ming to go assist." Mo Ling said lightly.

The spirit master army being in disadvantage was within Mo Ling's expectations, so he didn't care about it. If they sent a spirit emperor, the situation will quickly flip around.

Liang Ming was a fifth remembrance spirit emperor and was similar strength to Xing Shen. Before Mo Ling told him to go assist, he was fighting a large palace master in nightmare palace.

"One of their spirit emperors left" Main strategist Elder Qing's eyes lit up as he said.

Elder Qing was one of the elders affected by Mo Ling. He couldn't do anything right now, only able to watch as things developed.

In the spirit master chaos, the three palaces were in an absolute disadvantage. If not for elder Cheng's white nightmare joining, three palace would have been in absolute defeat already.

Of course, they knew that the opposing spirit emperor expert also didn't send all their main soul pets on stage. Once the main soul pets all join the battle, the three palace's disadvantage will be more apparent and their powerful helper elder Chen will be restricted by Qin Wu.

In this situation, the spirit master army and spirit teacher army situations were very key.

Once any of these armies gain a great advantage, Mo Ling would definitely send a spirit emperor to help. This way, the difference between two sides' spirit emperors would lower and give three palaces some breathing room.

"Chu Fanghen did very well, so quickly defeating the enemy!" Teng Jiangfeng saw the opposing spirit emperor liang ming leave the battlefield and his expression slightly relaxed.

"The current count is 10 vs 16. The spirit emperor that left is Liang Ming, a kingdom master with five middle class emperor ranks. Chu Fangchen can probably still handle that.

Both sides have an approximate estimate of strengths that were pretty accurate. This was because anyone able to reach spirit emperor had a certain level of fame. Adding on their previous experiences at war, they knew each other quite well.

Mo Ling and the elders created a balance in power.

Mo Ling's subordinates, top tier emperor rank experts were Hua Ming, Qing Wu, and the dead Jia Hechuan, making up around 3-4 top tier emperor ranks.

Elder Jiang and Elder Chen had four top tier emperor rank white nightmares so they created a balance there as well.

Of course, Elder Chen said he still had backup, which Teng Jiangfeng didn't list into his calculations.

They were unequal in the high class emperor rank realm.

Based off of estimates, soul alliance had around 20 high class emperor ranks.

The palaces only had 10 high class emperor ranks. These 10 high class emperor ranks created a difference that will cause their loss of weren't addressed quickly.

The middle class emperor rank region was another difference.

The opposing side had around 70 middle class emperor ranks, while they only had 50, a difference of 20.

10 high class emperor ranks and 20 middle class emperor ranks created a separation in power that meant certain loss. The only thing worth rejoicing was the three palace spirit emperors' secondary soul pets were slightly stronger and could elongate the fights. However, without any other opportunities, they would definitely lose here.

Originally, Elder Chen's entrance was enough to make up for this difference. This was why Jiang Ang dared to confidently fight even when the enemy had a much stronger team.

Yet, Qin Wu's appearance widened the gap again. Teng Jiangfeng could only hope that Elder Chen's backup plan is good and the other two armies would win quickly to make up for the difference, or else they would lose horribly.

Chu Mu forced 5 middle class emperor ranks to leave the battlefield, shrinking their power difference to 10 high class emperor ranks and 5 middle class emperor ranks.

This wasn't a small effect. Both sides were still using their secondary soul pets to tire each other out first, so victory won't happen in a short while. If the three palaces were to win, they must use this time to slowly narrow the gap between the two sides!

"Boss, Liang Ming failed..... spirit master army is requesting help....." Suddenly, the spirit alliance strategist's face turned sour as he spoke to Mo ling again.

"Mo Ling furrowed his brows and said, "Lost again?"

"This.....We may have underestimated the opposing spirit master army general's power." Strategist said.

"The opposing general is a young man named Chu Fangchen, correct?" Mo Ling asked.

"Precisely." Main strategist nodded.

“Able to defeat Xing Shen and Liang Ming, he at least has 5 middle class emperor ranks.....” Mo Ling estimated. He glanced over at the thick masses of soul pets from the spirit master army.

“Tell Li Zhan to go.” Mo Ling waved his hand. Though Xing Shen and Liang Ming’s failures caused him to be displeased, such a loss wasn’t enough to make him lose his composure.

“Tell Li Zhan to fight? He has a high class emperor rank.....” The strategist paused, thinking his boss was being too careful.

“Our spirit master army was already in a disadvantage. Tell Li Zhan to go and destroy the opposing spirit master team so we don’t have to worry about it further!” Mo Ling said decisively.

With a 10 high class emperors advantage, mo Ling didn't mind diverting a little bit of it.

“Yes! If Li Zhan goes, their spirit master army won’t last long!” The strategist smiled.

Chapter 813: Eating Away the Enemy, Changing the Tide of Battle (1)

“Liang Ming has been killed by Chu Fangchen!”

“Haha! Chu Fangchen is indeed an expert! He unexpectedly forced the enemy to mobilize three spirit emperors to deal with him!!!” Teng Jiangfeng couldn’t help but praise Chu Mu.

If the opponent’s Li Zhan left, the strength they had left would only be 9 high class emperors and 15 middle class emperors! This was another imperceptible change!!

“Naming him as the commander of the spirit master army was a very smart decision!” a few elders wore traces of smiles.

Chu Fangchen’s performance had surpassed their expectations. Although he couldn’t truly control the state of battle, the spirit master commander was being fully accentuated by him!

“However, Li Zhan is going to support. Chu Fangcheng has continuously fought two spirit emperors and is only single controlling. He probably cannot beat Li Zhan...” Senior Elder Zhuo was a bit worried as he spoke.

Senior Elder Zhuo’s words made people worry.

Unfortunately, they couldn’t send any spirit emperors to assist him. They hoped that Chu Fangcheng would be able to hold off Li Zhan for a while, and wait for the spirit teacher army to obtain an advantage before Teng Lang could go help him.

“Elder Chen” naturally heard their words, and she looked at the incomparably chaotic spirit master army fight.

“Good luck big brother. First White still hasn’t taken action. If First White takes action, that Martial Absolute - Qin Wu will definitely meet a calamity. As long as I can make up for the strength discrepancy, that man with the eight shaped moustache will not be able to sit still.” silently said Ning Maner.

First White was the name Ning Maner gave the Nightmare ruler. Afterwards, according to their strength, they were ranked Second White, Third White, Fourth White and so on. When Chu Mu heard this girl use these adorable names in the courtyard on the extremely vicious and evil White Nightmares, he felt very strange.

Nonetheless, the more Ning Maner called them that and the more Chu Mu heard her, he ended up just calling them that.

Right now on the spirit emperor battlefield, Nightmare 2 and Nightmare 3 were fighting. In other words, Second White and Third White. Aside from them, Ninth White, Fifth White and Eighth White were lying in wait in the battlefield. They were there to prevent the opponent from immediately summoning their main pets and then rushing the inferior spirit emperors from the three great palace, defeating them.

The threat of the enemy rushing was very high, and had to be prevented against. Otherwise, the winners and losers would be instantly decided.

However, Mo Ling also knew that the risk of a rush was high. If they failed, they could instantly suffer the three great palace's spirit emperor's counterattack. Mo Ling wasn't a very extreme person and with the advantageous state right now, he chose to slowly advance, smoothly defeating the three great palaces.

Moreover, Mo Ling had to be wary of the three great palace's trump cards. If the three great palaces didn't have hidden cards, they would not have accepted this fight so easily.

.....

The spirit master line of defense continuously pressed closer. The elemental team of wind type soul pets could even attack the opponent's defensive fortress and in one go, one third of the opponent's soul pets had been annihilated. This gave them a huge advantage.

A smile rose on Chu Mu's face as he looked at the exhausted Qin.

In this fight, Qin had fought to the limit while relying on the wandering strategy of wind to first defeat Xing Shen and then Liang Ming.

Xing Shen and Liang Ming were both soul pet trainers with five middle class emperors. If they had used three middle class emperors or above to surround and attack Qin, Qin would be unable to stop them. Indeed, its limit was fighting against three middle class emperors at once.

However, if they came at it one by one, the Binding Wind Spirit's powerful ancient wind would give it a limitless advantage. This was even the case if a demon appeared, as it wouldn't be able to truly restrict the Binding Wind Spirit's powerful wind type techniques.

Of course, defeating Xing Shen and Liang Ming wasn't entirely due to Qin.

The spirit master army's generals utilized fighting strategies and tactics very well. Xing Shen's wing type middle class emperor and Liang Ming's wing type two middle class emperors had been killed by the elemental team's concentrated attacks!

The three great palace's spirit master army's strength was much higher than Soul Alliance's. Chu Mu, as the commander, as well as his generals took advantage of this.

Killing two Soul Alliance spirit emperors was a huge boost in morale for the spirit master army. Right now their spirits were high, and their killing of the enemy was straightforward and decisive!

"In under two hours, they'll have been slaughtered so badly not even their armor will remain!"
Tactician Tang was 100% confident!

Relying on one middle class emperor to kill 7 opposing middle class emperors was a shocking success. With such a commander leading them, whose blood wouldn't be boiling!?!

“Soul Alliance will send reinforcements. However, the more they send, the more I will kill!!” the corners of Chu Mu's mouth rose.

He chanted an incantation, recalling the exhausted Qin back to the soul pet space.

Qin's performance made Chu Mu extremely satisfied. Even he didn't expect it to be so successful. It was time for it to rest and the rest would be left to his other soul pets!

.....

“Powerful destructive force, can stay in the fight for a long time, its movement is graceful, and its chanting is fluent... it was able to defeat a total of seven middle class emperors by itself. Chu Fangcheng's Binding Wind Spirit is ridiculously strong!” high in the air, Xiao Tong who was watching the fight was so shocked she couldn't close her mouth.

Mu Qingyi's seven female disciples truthfully came from different factions, however, Mu Qingyi forbade them from participating on either side. This included the Dancing Desolation - Fang Wu who was among the Eight Desolations, and Tie Xin from the Sixteen Absolutes.

The spirit emperors were still exhausting their secondary soul pets first. This war of attrition wouldn't have too many shocks. Instead, the continuous deaths of two spirit emperors became the bright spot in this decisive battle. Thus, the concubine girls' attentions naturally would gravitate there.

However, as Xiao Tong was praising Chu Mu's Binding Wind Spirit, Tie Xin and Fang Wu snorted disdainfully, silently cursing Xing Shen and Liang Ming for being extremely stupid.

"Li Zhan is going to take action. He will come to put a stop here." said Dancing Desolation Fang Wu.

Fang Wu was feeling very impatient right now. As a Soul Alliance member and a member of the Eight Desolations, she really wanted to participate in this fight. As long as she could participate, the three great palaces would undoubtedly lose.

Unfortunately, her main stance was with Mu Qingyi, and because she hadn't listened to Mu Qingyi's instructions earlier to find the devil person and instead participated in the fight, a portion of the destruction of Snow City's outer city had been caused by her. Mu Qingyi was already extremely angry, so Fang Wu had to stay with her in the air.

Mu Qingyi's attention was actually on the spirit emperor armies. For some reason, the Nightmare Palace expert's soul pets from the three great palaces were a bit strange. But she couldn't explain why.

Hearing her female disciples talk, she only then discovered that Chu Fangchen's Binding Wind Spirit had outstandingly killed seven middle class emperors. This was essentially another successful and gorgeous surpassing rank challenge.

"If his ability to fight is so amazing, how did he carelessly injure four souls?" muttered Mu Qingyi.

.....

“Commander, the person who has come to their aide is Li Zhan... I’m afraid we’re in big trouble.” General Tang’s expression was ugly.

“Li Zhan is very strong?” asked Chu Mu.

“Strong. Extremely strong!”

“He’s an expert with one high class emperor!”

The generals all had grave expressions as they nodded their heads. To monarchs, high class emperors were undoubtedly terrifying killing machines. If they were released into the army, the defenses would instantly crumble.

“They’ve already dispatched high class emperors ranks now. Soul Alliance is really placing a lot of emphasis on us.” Chu Mu raised his brows. Originally, he thought he would be able to kill a few more middle class emperors first. It seemed that Ning had to take action!

Chu Mu stared at the middle aged man quickly approaching the fight between spirit master armies. His expression was calm, causing the generals beside him to greatly calm down. If the commander himself was anxious, how would these generals still have the ability to fight a powerful enemy?

“If I can kill Li Zhan’s high class emperor and four middle class emperors, I should be able to wound the body of their spirit emperor camp!” Chu Mu silently waited for Li Zhan to appear and didn’t rush to summon his soul pet.

“Commander!” General Tang and the other generals watched Li Zhan approach, and felt like they were being approached by an enormous mountain. They hastily implored Chu Mu for orders.

“General Tang, you said just now that in two hours we’ll be able to annihilate all of the enemies?” asked Chu Mu.

“If there aren’t any other reinforcements, it’s completely possible! This old man can give the military orders!” General Tang said very earnestly!

“Ok! I’ll leave this place to you. In two hours, make sure that none of them are still alive!’ Chu Mu pointed at the enemies ahead of him and seriously spoke.

Commander Tang was shocked, and didn’t understand what his commander was saying.

Suddenly, he saw a flicker of dark red flames from which a sleek and evil nine tailed creature astonishingly appeared. Everyone saw the beautiful flames fly up and directly meet Li Zhan head on!

The adjacent generals were stunned!

The commander was going to fight Li Zhan alone??

Without borrowing the army’s advantage, how could the commander be Li Zhan’s opponent? This was too dangerous!!

“Commander, don’t be too rash!’ General Tang’s face was pale as he hastily used soul remembrance to yell out.

However, General Tang’s soul remembrance voice was seemingly unable to keep up with the speed of the gorgeous and noble nine tailed inferno monarch. Instantaneously, the commander and his nine tailed inferno monarch had stepped into the air and were going to clash with Li Zhan’s wing type soul pet. This was shocking!

“Aerial team prepare to assist commander. Support team...” General Tang could not let anything unexpected happen to the commander. Li Zhan’s strength was too terrifying!

“General Tang, we believe in the commander!” at this moment, the support assistant commander, Zhuo Wan, spoke.

“This...” General Tang looked at the assistant commander next to him and astonishingly discovered that they didn’t intend on assisting him.

“General Tang, Commander is buying time for us. Our mission is to annihilate all of the enemies in front of us within two hours!” the close combat general clenched his hands as he spoke!

General Tang never expected the other generals to be so resolute.

One truly could not hesitate on a battlefield!

General Tang seemed to realize this, and his expression became determined. He said: “Hmph, why would I need that long to annihilate these rats! Aerial team general, listen to my orders...”

Chapter 814: Eating Away the Enemy, Changing the Tide of Battle (2)

Chu Mu had practically all of the spirits he had previously accumulated, and finally allowed Mo Xie to successfully breakthrough the low class emperor to the middle class emperor rank.

Just as the senior's letters had recorded, if the Seven Sins Fox wasn't strengthened correctly, this route would gradually dig away at its species potential. Growing from the low class emperor rank to the middle class emperor rank already expended enormous resources; moreover, it also required a composition method that expended great effort.

Chu Mu truly didn't know where he was going to find the resources to strengthen Mo Xie to the high class emperor rank. He really did have to find another route.

At the middle class emperor rank, Mo Xie had the advantage in speed. Her demon attribute was a main attribute and made it so that she didn't have to fear the nimbleness of a wing type soul pet.

Of course, even if speed and dodging were Mo Xie's strengths, this didn't mean that Chu Mu wouldn't have Mo Xie directly clash with a wing type middle class emperor in the air.

"Just exhaust it first!" Chu Mu didn't plan on summoning Ning to fight so quickly. After all, the enemy was an expert with a high class emperor. Even if Ning was strong, it would be able to fight alone against one high class emperor and four middle class emperors.

"Wu wu wu~~~~"

It had been a long time Mo Xie had fought, and she was exceptionally excited right now. Her silver fur fluttered in the wind and the feeling of running to her heart's content and tasting the blood of the enemy made her silver eyes twinkle!

Mo Xie didn't continue to step on the air. She began to run along the vast pale-white snowy ground. The charge just now had been so that Li Zhan would chase after her. Presumably, he would feel confident that he could kill Chu Mu.

"He unexpectedly left his defensive line. Suicide!" looking down from high above at the running silver noble fox, Li Zhan laughed.

If this commander hid behind his defensive line, it would waste quite a bit of Li Zhan's time to breakthrough. After all, those peak monarch rank plant type armies and defensive armies weren't easy to deal with.

Li Zhan obviously knew that Chu Mu was intentionally drawing him away. However, where could he run to? If he wanted to draw the enemy away, he had to have the ability to survive. In Li Zhan's opinion, this young spirit emperor would not be able to escape from his grasp!

Li Zhan didn't waste time and as he approached Chu Mu, he immediately chanted incantations, summoning his other soul pets!

If the enemy intended on fleeing, Li Zhan would have his middle class emperors slaughter their way into the army. If he didn't continue to flee, he would definitely die under his claws!

Indeed, when Li Zhan summoned all his soul pets, he discovered that the opponent had only dared to circle a few times in the surrounding, but wasn't actually fleeing afar!

"Just a single middle class emperor? He is truly courting death!" Li Zhan discovered that the opponent hadn't continued to summon other soul pets.

But if he wasn't summoning, so be it. There were definitely no traps here. Promptly, Li Zhan ordered his Sun Demon to attack!

The Sun Demon was Li Zhan's high class emperor. It was an elemental kingdom creature that was covered in raging flames.

"Hm? My luck isn't bad!!" Chu Mu saw that the opponent's high class emperor was unexpectedly a fire type elemental, and a smile rose on his face.

Ice types and fire types could counter fire types, thus making Ning have the huge advantage!

On the spirit teacher army battlefield.

There were over ten thousand people and soul pets from either spirit teacher army. The number was enormous.

The spirit teacher commander was Teng Lang while the opponent was also another powerful commander. He had suppressed Teng Lang to a terrifying degree.

The opposing commander was called He Xikuang. His main pets were similar to Teng Lang in that they were all five middle class emperors.

However, Teng Lang's secondary soul pets had been exhausted first and he used his main pets first. A lot of his main pets' fighting strength had also been exhausted by the secondary pets, causing Teng Lang to be very passive when he fought against his opponent's main pets.

The moment Commander Teng Lang was suppressed, He Xikuang began to occasionally have his middle class emperors use techniques on the spirit teacher army. This was extremely damaging to Teng Lang's spirit teachers, because a casual attack from a middle class emperor could instakill a group of commanders.

"Shit, I just had to fight this fellow!" Teng Lang grit his teeth and was a bit annoyed.

Their secondary soul pets were not equal, and his main pets were also countered. Teng Lang's luck really was a bit bad. If things kept going like this, they would definitely slowly lose.

"We can't go on like this. Shi, let's stake it all!" the spirit teacher army could not lose, because it would cause a chain effect. Teng Lang would not allow himself to lose here!

Teng Lang jumped onto the back of his Ice Mountain Lion, and immediately charged after He Xikuang who had left his army's defense!

He Xikuang was ostensibly waiting for Teng Lang and wore a sinister smile on his face.

"Beng!!!!!!!"

Suddenly, the snowy ground exploded. As the Ice Mountain Lion ran, the ground under it suddenly gave way and instantly, countless vines appeared, forcibly dragging Teng Lang into the trap!!

"Haha, idiot!" He Xikuang let out a loud laugh. He had taken advantage of Teng Lang's impatience and set this trap. Unexpectedly, he had succeeded. As long as he could get rid of Teng Lang's Ice Mountain Lion, Teng Lang's other soul pets didn't need to be feared.

“Young Master Teng!”

The faces of the generals instantly paled. The army was originally at a disadvantage. If their commander were to fall, the army would quickly crumble!!

However, they were unable to help in a middle class emperor fight unless they mobilized the army's strength to attack the opponent. However, if they did this, the opposing army would deliver a fatal blow to them!

“Quickly you will understand the meaning of “one small mistake will lead to the collapse of an army”.” wildly and sharply laughed Xi Hekuang. He immediately sent his other soul pets to destroy the Ice Mountain Lion.

All of their techniques bombarded the trap, causing practically nothing to remain on the snowy ground Teng Lang's other soul pets were also unable to come to the rescue in time.

“Hou hou hou hou!!!!!!”

An angry roar suddenly rang out from the underground. A frosty aura surged out of the cracked ground, nearly freezing all of the energy!

In the trap, an icy light blossomed, giving people a chilly feeling that made them tremble. Along with a stubborn roar, it formed an enormous aura that suppressed He Xikuang's soul pets!

“This... what happened?!” Xi Hekuang was stunned.

After being bombarded like that, the Ice Mountain Lion should either be dead or seriously wounded. Why had its majesty suddenly erupted and its viciousness become even more profound?!

“You dog, your death has arrived!” under the ground, Teng Lang gave an angry roar!

Suddenly, the ground cracked and ice shattered. The thick layer of ice that was covering the Ice Mountain Lion was thrown off as it jumped out of the trap. The vines that were restricting it were frozen before shattering. They were unable to stop this extremely powerful ice mountain body.

"Hou hou hou hou!!!!!"

The Ice Mountain Lion let out a cry, causing a violent wind and snowstorm to angrily descend, rushing towards He Xikuang and his vine type emperor!!

The surging snow was filled with trembling killing intent. It made He Xikuang stunned and for a moment he couldn't react!

“High... high... high class emperor!!!!” He Xikuang stuttered, as he watched the ice and snow energy bombard him. This unstoppable majesty swept past him and instantly covered his vine type emperor.

Even if the vine type emperor were to put up a defense, it would still have been frozen by the icy snow angry roar before shattering to pieces!

Instakill!!!

The Ice Mountain Lion had instakilled this vine type middle class emperor with one strike!!

The vine type emperor's corpse transformed into fragments of ice that scattered on the ground!

This sudden change caused everyone watching to open their eyes wide. It was hard to believe that after falling into the trap, the Ice Mountain Lion would be able to shockingly counter attack and instakill the opponent!

“High class emperor! Young Master Teng's Ice Mountain Lion has advanced a rank. It broke through at the crucial moment!!!” the generals couldn't believe their eyes, and had faces full of happiness!!

This rank advance was extremely crucial!!

When they experienced the Universe Ice Gates, Heavenly Concubine Mu Qingyi had predicted that Teng Lang's Ice Mountain Lion would soon advance a rank.

Indeed, Teng Lang's Ice Mountain Lion had advanced to the high class emperor rank. Moreover, it had done so in such an important fight and just as things were about to go downhill. This made everyone extremely happy. Even Guan Guan and Xiao Tong who were in the air with extremely worried expressions wore smiles.

“How can I, Teng Lang, be so easily defeated. Scram to the path of hell for this young master!” Teng Lang yelled. He urged his Ice Mountain Lion to charge at He Xikuang’s two middle class emperors!

He Xikuang’s expression was pale. He clearly had the advantage, yet the opponent had broken through when he was about to die. This was too unjust of a death!

After reaching the emperor rank, advancing a rank was difficult and doing so in a battle would make others want to cry. Indeed, if this was done at a crucial moment, others would really spit out blood.

“This Teng Lang, being able to breakthrough while in between life and death, is crazy enough.” indifferently evaluated Mu Qingyi. She then gazed at Chu Mu’s fight, which was even further away.

When an ice type high class emperor fought a fire type high class emperor, the advantage was instantaneously seen. Presumably, Soul Alliance’s Li Zhan would very sullenly need four middle class emperors to assist in his fight. Otherwise, he would be suppressed to a very miserable extent by the opponent.

Moreover, due to Teng Lang breaking into the high class emperor, after he killed He Xikuang, the spirit teacher army gradually gained the advantage. Teng Lang came to assist Chu Mu a bit, causing Li Zhan to ultimately die a miserable death since Teng Lang’s high class emperor was also an ice type...

“He Xikuang and Li Zhan have both lost.” Soul Alliance’s general’s voice was gloomy. His face was ashen as he spoke to Mo Ling.

After receiving this bad news, the originally calm Fourth Hero Mo Ling finally changed his expression.

He didn't care about the first defeat, but the second defeat made him slightly aware. As for the third defeat, Mo Ling couldn't help but silently curse!

These underlings were all useless. At the crucial moment, couldn't they just make things easier for him?!

Didn't Li Zhan have a high class emperor? Why did he lose?!!

"What happened?!" Mo Ling could no longer underestimate the opponent's spirit master army and spirit teacher army's commanders because they had begun to eat away at the spirit emperor army's body.

"The opponent's spirit master commander is called Chu Fangchen. He is very strong. Previously, he relied on one special middle class emperor Binding Wind Spirit to kill seven of our army's middle class emperors. Afterwards, he summoned a high class ice type emperor and after obtaining help from the spirit teacher army's commander, he defeated Li Zhan. The opposing spirit teacher army's commander is Teng Lang and is Soul Palace's Third Young Master. It seems that in the fight, his soul pet broke through..." the general read out the information in his hands.

"It's this hard to deal with two insignificant people?!" Mo Ling's tone turned cold and he used soul remembrance to say: "Qin Wu, what is your ability to fight multiple battles like?"

Chapter 815: I will turn the fight around for your spirit master army!

Split Mind Battle

Split remembrance battling was a soul pet trainer technique where one could have the ability to control different soul pets in relatively distant battles.

Such a technique was extremely hard, because a soul pet trainer had to be completely focused when commanding a battle. If there were two battles far apart, and one had to keep track of both, the level of concentration on each side would be discounted.

“I can take the time to tell you all about my recent sexual adventures while I deal with this top tier emperor rank white nightmare. My soul pets’ self battle awareness is extremely high. Even if I don’t command them, they are stronger than many of their commanded soul pets.” Qin Wu said easily, almost not taking the battle seriously.

“Send a soul pet to the spirit master army.” Mo Ling said.

Qin Wu didn’t say much, only sending back arrogant laughter with his mental voice.

Since he told Qin Wu’s secondary soul pets to fight, it meant Mo Ling truly realized the spirit master army and the spirit teacher army were eating away at his powers.

Mo Ling couldn’t let them continue to do that, and Qin Wu’s entrance would be their demise!

Mo Ling’s attention was constantly on the spirit emperor battle. Until now, the spirit emperors’ main soul pets slowly were replacing the secondary soul pets.

Because of the people advantage, in the secondary soul pet battle, they were already at an advantage. And as the main soul pets started clashing, their main soul pets casualties would only increase due to it!

Yet, for some reason, Mo Ling felt like something wasn't satisfying about the fight. It seemed that at every stage, some new soul pets would turn around the advantage they had.

“End hero, nightmare palace has many experts.” Watching the battlefield, the strategist said.

With the strategist reminding him, Mo Ling discovered that there indeed seemed to be some abnormality with the White Nightmares on the battlefield, and started using his soul remembrance to look at them.

“Why are there so many high class emperor rank white nightmares?” Mo Ling furrowed his brow and asked!

If three palaces could estimate their strength accurately, it meant they also had a pretty accurate estimate of the three palaces.

Yet, a quick survey revealed 5 high class emperor rank white nightmares that were unaccounted for, which was a formidable force!

Under this situation, Mo Ling could no longer watch from aside and casted a secondary soul pet into battle!

Mo Ling's secondary soul pet was already top tier emperor rank, and would bring a great pressure to three palaces.

“Mo Ling attacked!”

“Very well, forcing him to fight first means we can gain an advantage!” Teng Jiangfeng said.

The eight senior elders and elders saw the secondary soul pet of Mo Ling, and all summoned a high class emperor rank soul pet.

Eight high class emperor ranks could deal with Mo Ling’s top tier emperor rank, especially since they could pick the perfect type counter to it.

In the spirit master army war, three palaces already had the absolute advantage.

In the hour that Chu Mu and Li Zhan fought, soul alliance army was already over half gone. If they had another while, the opposing spirit master army would definitely be gone!

Strategist Tang and the other commanders were all high in morale. Their general again defeated a foe they thought was undefeatable. How could they not be excited!

With such a powerful general, they could invoke every last bit of their own potentials!

The spirit master army victory is already certain so Chu Mu specially neared the spirit teacher army.

Ning still had some fighting strength. When high class emperor rank Ning appears in the spirit teacher army, even if there were millions of enemies, a single ice type technique will cause uncountable losses. Adding on Teng Lang’s iceberg lion, not only will they completely win the spirit master battle but also the spirit teacher battle!

“Chu Fangchen, quickly back out!” Suddenly, a woman’s airy voice came into Chu Mu’s mind.

Using ice arrows to kill his enemies, Chu Mu paused and looked up at the floating woman in confusion.

“Qin Wu’s Assassination Demon is already heading your way. Your senior elder and elders are distracted by Mo Ling and didn't notice the disappearance of this demon.” Miu Qingyi said.

Mo Ling was cunning. He was sure that if he sent Qin Wu’s soul pets to assassinate Chu Mu and Teng Lang, the three palace would send people to help. So, at the same time Qin Wu sent his demon, he distracted them with his secondary soul pet and allowed the assassination demon to slip away successfully.

Chu Mu was astonished. If not for Miu Qingyi’s reminder, Chu mu indeed wouldn't have thought that the sixteen absolute Qin Jue was now focused on him!

Chu Mu thanked her but didn't exit the battlefield, instead bringing Ning towards the spirit master army.

The spirit master army had a defensive barrier with hundreds of soul pets protecting it. If Chu Mu could detect the demon’s position, he can cause it considerable pain before it even arrives.

In the skies, Miu Qingyi furrowed her brows. Chu Mu clearly didn’t listen to her warning.

Qin Wu’s demon was extremely powerful. Unless an elder helped, it was impossible to stop, not even with an army barrier!

Furthermore, the reason Miu Qingyi told Chu Mu to exit the battlefield was because Qin Wu's demon was already hiding in the spirit master army!

“Shua!!!!!!!!!!”

A cold glint flashed past, and a spurt of red bloodshot out within the spirit master army!

The armies were deep in battle and were chasing after the fallen enemies, yet no one would have thought that such a shocking spurt of blood would appear at this moment!

This blood stemmed from their close combat army general!!

To command the fight better and see the big picture, the close combat general already rode his beast slightly beyond the defense barrier.

However, just as he was commanding and causing the enemy to run in terror, a flash went past his neck, and he fell down amongst the other bloodied corpses.

“Shang..... Commander!!”

The strategists and generals were all shocked by this scene. Everyone only saw a flash. They didn't even see what organism caused the death!

“Shua!!!!”

Suddenly, another glint appeared, and a fighting commander suddenly had his back ripped open, sending blood out like a fountain!!

This commander still had the zeal of charging into battle on his face, yet he fell over into the bloodied ground just like commander Shang!

This all came too quickly; the other commanders and strategists all went blank!

“Defense! Create a barrier defense!!!” Strategist Tang suddenly realized something, and yelled out loud!!

Demon, it definitely is a demon that could hide itself and enter their army like it was unguarded!

Strategist Tang’s face was pale because the moment he yelled out defense, all the hairs on his body stood up and he could no longer move!

The reaper was near!! It killed two army generals, and the third would be Strategist Tang!

At this moment, strategist Tang was in despair, because the demon was way too strong. Even with a defensive line, it probably meant next to nothing!

“Give up defense, and kill all the enemies! Everyone, charge!!!” Suddenly Strategist Tang yelled out as loud as he could.

He heavily threw his commander flag into the sky!!

“Slash!!!!!!”

Almost at the same time Strategist Tang gave the command for everyone to charge and threw the flag, his chest was ripped apart!

“Everyone charge!!!!!!”

“Everyone charge!!!!!!”

The same time the command was given, all defensive lines were abandoned and all the soul pet trainers rode their soul pets forwards in a tidal wave, yelling as they entered the remains of the opponents’ spirit master army!!

The killing sounds were like thunder, full of the power of a victor’s confidence, threatening to kill soul alliance’s army completely.

Yet, none of these fighting spirit masters realized that at the same time the army charged, their main general had died to an unknown organism, and charging was the last command he would give in his life!!

“Give up the defense line, kill all opponents, everyone charge....”

Seeing strategist Tang getting gutted, the late Chu Mu stood there, and momentarily got lost in his own thoughts.

Chu Mu didn't think that Qin Wu's demon was already hidden not far from spirit master's army. When it moved, the commanders had no chance and fell to it.

However, what caused Chu Mu's heart to roll was Strategist Tang. When this old soldier knew he couldn't escape death, he gave his life away and commanded the army to charge.

As spirit master, under the gaze of top tier emperor rank demon, he still made such a decision. In fact, one could still hear the general's reckless laughter as he fell to this top tier emperor rank demon.

Yes, his dying expression was that of mocking, mocking this top tier emperor rank demon. So what if it could kill him, could it kill his entire army?

The demon couldn't kill groups of enemies at once. Even a top tier emperor rank demon couldn't easily kill an army in a short time.

Strategist Tang's decision was incredibly wise!

However, Chu Mu who saw all of this couldn't dispel his tension. He suddenly thought of Old Li's words, “Every person has something they would guard with their lives.....”

Chu Mu didn't know Strategist Tang's full name, only knowing that this over sixty year old man was already at the ninth remembrance spirit master barrier for over thirty years.

In the top tier emperor rank demon, this ninth remembrance spirit master was so weak. However, that final command from full defense to offense needed much more than just courage.....

Chu Mu slowly walked to where Strategist Tang fell and grabbed the floating army flag, lightly putting it over old strategist's bloody body.....

"Farewell, old strategist..." Chu Mu ignored the demon watching him in the dark and sucked in a cold breath.

"I, Chu Mu, will help your spirit master army turn the battle around!!"

The last four words were uttered with complete confidence, his eyes full of a power that raised the hackles on Qin Wu's demon!

Chapter 816: Atonement Mutation, Forgiven Fox (1)

Qin Wu furrowed his brows. From the demon, he felt a cold aura that was preventing his demon emperor from advancing!

"Is it just an illusion?" Qin Wu murmured to himself.

The aura instantly disappeared, and the inexplicable fear of his demon vanished.

Finally, Qin Wu dismissed it as an illusion, because that frightening aura couldn't possibly have come from a young man!

“Kill him!” The split remembrance fighting Qin Wu gave his demon emperor a command.

Qin Wu's demon emperor was one of his main soul pets. He was mainly relying on it to kill the emperor rank soul pets in the tribe!

Assassin demons are always known as the killers of soul pets. Their mental restriction wasn't very strong, but it had uncontested speed and strange attack methods. Once anything was locked on by an assassin demon in the wild, it was hard to escape death, because even soul pet trainers with much higher remembrance couldn't usually see through their disguises.

Qin Wu's assassin demon was top tier emperor rank, yet in some cases, this demon could kill some weaker top tier emperor ranks!

And this was when it is high class emperor rank. If it could become top tier emperor rank, it would be even scarier!

Using that soul pet to kill a few inconsequential characters, Qin Wu felt like he was overstating things. However, Mo Ling didn't want the spirit master army and spirit teacher army to simply disappear. Qin Wu naturally waited for the last second to kill these weaklings, which included the spirit master army general.

“Kid, be honored that you can boast to your friends in hell that you were killed by I, Wu Absolute Qin Wu, and my assassination demon!” Qin Wu was still confident and arrogant in this fight, actually using his spirit remembrance to taunt Chu Mu through his assassination demon.

To these arrogant and brain dead foes, Chu Mu always felt it was funny. Why did these people always feel so good about themselves, saying such things without even winning yet?

“This piece of trash that thinks he’s strong, let’s see if you can still laugh after this!” Chu Mu was still hiding a bunch of anger in his heart.

Qin Wu heard this and laughed. A person that could only control one soul pet and had a top tier emperor rank that was already incredibly tired couldn’t use such a tone to speak with him.

“Qin Wu, be careful, two White Nightmares are heading towards you!” Suddenly, Mo Ling’s voice sounded by Qin Wu.

“It’s just two nightmares.....” Qin Wu said without caring much. However, he quickly realized that if Mo Ling specially warned him, it couldn’t be just two high class emperor ranks.

“Is it the two top tier emperor ranks that came out of nowhere?”

“En, its the old man in a mask. There are three high class emperor rank White Nightmares that are nearing you as well.” Mo Ling said.

“What is happening, why can’t your subordinates control nightmare palace people well?” Qin Wu’s expression froze. He really couldn’t laugh anymore!

White Nightmares were already one rank higher than normal top tier emperor ranks. With the two White Nightmares going towards him, he would find trouble dealing with them. If three high class

emperor rank whit nightmares came as well, his soul pets would get burnt to crisps with the slightest mistake. How could he stay calm?

“The kid was right.... Heng!!” Qin Wu humphed.

Facing five White Nightmares, Qin Wu didn't dare split his remembrance in two fights anymore. He immediately gave assassin demon the command to fight on its own, and started putting all his concentration in his four main soul pets to deal with the White Nightmare.

White Nightmare surrounded Qin Wu. Naturally, it was on Chu Mu's command. Today, Qin Wu must die here!

“Sisisisi~~~~~”

The red tongued assassination demon let out a hiss, as it stared at Chu Mu warily.

Chu Mu's aura let it feel danger, so even now it didn't dare to attack.

Demons like the assassination demon had incredibly accurate instincts, and were often very sensitive to these dangerous auras. Before confirming that the opponent before him was a normal human being, it wouldn't attack recklessly. Plus, the human had an ice type high class emperor rank beside him.

.....

The angry Chu Mu wanted to become a half devil and burn the ugly demon to ashes, but this would cause the three palaces to instantly lose!

Chu Mu couldn't do that, so he could only stare arrogantly at the slightly shivering demon!

“Wuwuwu!!!!!!!!!!”

Suddenly, Mo Xie's voice came from inside Chu Mu's mind!

“Will you kill it for me?” Chu Mu pushed down the half devil flames within him, and asked Mo Xie calmly.

“Wuwuwuw!!!!!!!!!!”

Her fighting intent was boiling. After staying silent for a year, Mo Xie's yearning for battle was at a peak. Chu Mu could even feel her mutating blood boiling like never before!!!

“Ning, come back!” Chu Mu cast an incantation and retracted Ning back to his soul pet space.

After retracting Ning, Chu Mu again cast a summoning incantation!

Dark red flames started burning in front of Chu Mu. The snowflakes falling in the skies melted before they could even fall to the ground.

In the flames, a noble silver body within dark red appeared. Nine tails unfurled in an imposing manner!!!

“Why.....why did you summon this middle class emperor rank. It won't be this assassination demon's foe.” Guanguan noticed the danger in spirit army battle and noticed Chu Mu's situation. However, she didn't understand Chu Mu's actions at all.

“Seven sin fox Corrupted Inferno Monarch, a very rare soul pet.....” Mu Qingyi had been watching Chu Mu ever since she warned him.

Though it was rare, a single technique of assassination demon would be able to kill the sinful fox monarch.....

Seeing the demon fox full of dark red sin flames, Mu Qingyi couldn't help but think back to a demon realm in northern forbidden realm where she saw a seven sin fox.

It was a purple furred seven sin fox thunder monarch, a powerful demon fox that had finished serving its sentence already!

Mu Qingyi had heard of the seven sin fox's tales. Seven sin fox should be around low class emperor rank. However, in that fight, the dominator rank Crown Phoenix King and all her invincible emperor rank main soul pets couldn't defeat the sin fox thunder monarch!

That was Mu Qingyi's first time seeing a real seven sin fox. However, it was way stronger than what she imagined. Only after a long while, she heard from an old man that seven sin fox are split into those that are atoning for their sins and those that were forgiven!

The atoning foxes were still within a thousand generations. Their power was locked in by the sins committed by its species. Atoning sin fox was perfect monarch rank and relied on two main types and a subtype to reach emperor rank.

As for spirit emperors, these atoning sin fox didn't have much threat.

However, the forgiven fox was a completely different creature!

If the atoning fox was perfect monarch rank, then the forgiven fox that was already done serving its sentence was perfect emperor rank!!

Such a forgiven fox's true strength was definitely dominator rank!!

Because they have been forgiven from their thousand generations of sins, they recovered their ancient powers that were strong enough to bring calamity to the entire world!!

It was undoubted that Mu Qingyi saw a forgiven fox in the demon realm, one that matched dominator rank in strength!

Chu Mu's sin fox, on the other hand, was the second seven sin fox she has ever seen, an inferno monarch!

However, seven sin fox's silver body dark red imprints pointed to its identity as an atoning fox!

The next generation of this atoning fox could be a powerful dominator rank, or maybe it would take another hundred generations before its sin is paid off.....

Of course, Mu Qingyi knew that any seven sin fox could slowly release its sin through other methods. The releasing of the sin was how it got near to the power of a forgiven fox. However, barely anyone knew how to relieve them of their sins.

Chu Mu learned all this in the snow city library, but even then, it was only a small portion of what seven sin foxes are.

Though the predecessors could find seven sin fox's method of relieving sins, his seven sin fox wasn't completely forgiven because a fox monarch that truly had its sins relieved would be dominator rank!

.....

“Wuwuwu!!!!!!!!!!”

Snow flying, Mo Xie stood before Chu Mu while burning full of sin flames. Her silver eyes stared emotionlessly at the more powerful assassination demon!

“No matter if you can get the power you have to defeat it!!” Chu Mu pulled out his tear crystal and put it on his palm.

Chu Mu originally wanted to keep this tear because it was too precious.

However, after hearing Mo Xie call out in yearning for battle, Chu Mu understood.

To Mo Xie, who was full of the blood of fighting and mutating, going from silver moon fox to seven sin fox, she wasn't about to be shackled by the sins of its species. Instead, the seven sin fox inferno fox would be forgiven because the sins would end with Mo Xie and her mutating blood!

Going from atoning fox to forgiven fox was also a species mutation!

Chapter 817: Atonement Mutation, Forgiven Fox (2)

An attacking demon, yet it was so cautious and didn't dare, for a while, to advance.

After carefully observing, the attacking demon seemed to confirm that the enemy didn't have anything that could truly threaten it!

Finally, this attacking demon with strength nearly at the peak emperor rank launched an attack!

Its speed was extremely fast. If Chu Mu didn't use Other Pupil, he probably would not be able to see its movements clearly!

"Mo Xie!" Chu Mu retreated, and the tear crystal in his palm was held tightly!

The heat from Chu Mu's palm easily dissolved the crystal. At the same time, he discovered that Mo Xie's silver pupils flickered with a resolute gaze!

This tear contained too much. It was the most pure form of emotions that was now being transformed into incorporeal strength, melding into Mo Xie's body!

When the world was burning down, humans would always notice this type of calamity fox monarch standing in the flaming ruins...

Was it the bringer of calamity, or was it shedding an emotional tear for this world that was about to transform into ashes?

Chu Mu's tear was unable to answer this ancient legend. However, aside from the most sincere tear in this world, what else could rescue and pardon a species carrying a thousand generations of sin?

After the tear dissolved, Chu Mu seemed to have fallen into the endless flaming world in the Corrupted Inferno Monarch's eyes!

Right now, he was certain that this tear was the only spirit item that could atone for the Seven Sins Fox!

Mo Xie's soul was rising. This was not a tear of remorse, nor was it a tear that could be understood. It was unable to wash away all of Mo Xie's sins, but it could truly undo the Seven Sins Fox's seal!

With her mutated blood boiling and as the tear redeemed her, the dark red sin imprints on Mo Xie's silver body began to slowly shed off. Her silver fur became extremely pure!

The flames on her body were still dark red sin flames, and the dark red color formed a color contrast with her silver color. It seemed to represent that the Inferno Monarch had two completely different temperaments!

The silver represented nobility and pride, while the dark red represented demonic darkness and ruthlessness!

“Hu hu hu hu hu!!!!!!!!!!!!”

The dark red sin flames wildly danced about, transforming into countless long flaming dragons that lashed out in all directions as they twisted their wild bodies!

Inferno Monarch, Inferno Monarch. The reason why it was called an Inferno Monarch was because it didn't have a secondary attribute. The Seven Sins Fox's sin imprints were suppressing the Inferno Monarch's tyrannical main attribute - fire. Now that the sin imprints had completely disappeared, the red flames were unstoppable, illuminating the snowy ground in a dazzling light!!

“This... could the sin imprints have been undone?!” Mu Qingyi was shocked, as she stared at this Seven Sins Fox. She was in a bit of disbelief.

If the sin imprints were undone, this meant that Chu Mu's Seven Sins Fox Corrupted Inferno Monarch had mutated species and directly jumped up a rank!!

“No, that's not right. Its aura is still far from reaching the dominator rank. It has only undone a portion of its strength!” quickly, Mu Qingyi was able to accurately assess it.

“Your Majesty, this... what happened. Why did Chu Fangchen's Seven Sins Fox suddenly increase in strength so much!” Guan Guan and Xiao Tong were staring with their eyes wide open. The enormous fire aura even reached them, allowing them to feel heat and domination!

u Qingyi didn't respond to their questions. Instead, she stared at Chu Mu's Corrupted Inferno Monarch!

Although it hadn't fully mutated and had only undone a portion of its sin, this Sin Fox Inferno Monarch's strength was absolutely terrifying!

Indeed, Qin Wu's attacking demon, which was launching an attack, was forced back. The powerful flames precluded it from taking a risk to approach!

Contrarily, the Mo Xie took a step forward. Her silver limbs were long and full of strength. Wherever they stepped, snow would melt. It was possible to see the deep red flame footprints left in the ground. Practically in the blink of an eye, it appeared in front of the attacking demon!

A red flame was burning and launched itself at the attacking demon. The attacking demon quickly ran, attempting to break free from the powerful flames.

However, behind the attacking demon, the nine powerful red flaming dragons didn't stop chasing. Their speed was even faster than the demon!!!

The nine wild flaming demons were Mo Xie's nine dancing tails. No matter how fast the demon was or how crafty its movements were, it was unable to break free from Mo Xie's pursuit. This was because in the Seven Sins Fox's bloodline, there flowed the blood of demons!

Illusion!!!

Amidst the red flames, the pursuing Mo Xie suddenly split into seven real sin illusions!

These sin illusions had imprinted on them dark red sin imprints as they astonishingly were seven Seven Sins Fox Corrupted Inferno Monarchs!

These were Seven Sins Fox Corrupted Inferno Monarchs that had not undone their seals yet. Right now, Mo Xie had split them off of her body. The seven figures stretched out their sharp claws and ripped at the terrified and fleeing demon!!

Mo Xie's real body was hidden among the seven sin foxes. The true fatal attack was her fox monarch claw dazzling with a cold light!!!

“Shua!!!!!”

Seven dark red claws swept past!

“Shua!!!!!!!!!”

In the next instant, a silver demonic moon-like blade swept past. This was the attack from Mo Xie's true body. She slashed the attacking demon's chest, breaking apart its white bones and ripping into the attacking demon's innards!!

“Pu chi chi~~~~~”

Just like the attacking demon had ripped apart General Tang's chest, Mo Xie had used the same method to rip apart its chest!!!

The attacking demon wasn't able to resist at all, and it slid bloodily on the snowy earth. It slid several kilometers, leaving a bloody trail in its path...

“How is this possible?!!!”

Qin Wu, far away, sensed his soul pet being mortally injured and his face clearly twitched!

The attacking demon was the fourth ranked main pet of Qin Wu. It was a high class emperor rank ultra strong demon that could challenge those a higher rank than it. Within the entire three great palaces, it was possible to count the number of people that could stop its assassinations!

However, how did this soul pet get mortally injured by a young man's middle class emperor?!!

Qin Wu used his soul remembrance to sweep through the battlefield far away and astonishingly discovered that a powerful flame had transformed into a flaming red execution blade that was descending on her mortally wounded attacking demon!!

“No!!!!!!” loudly shouted Qin Wu!

The red flaming execution blade was capable of burning his attacking demon into ashes. However, at ten meters away, Qin Wu could not recall his soul pets!!

The extremely gorgeous red flames transformed into the most striking technique on the battlefield. It was brilliant and dazzling, yet full of an aura of death!!

After the attacking demon had its chest split open, blood freely flowed. It was unable to escape from Mo Xie's red flaming execution!

A miserable cry reverberated around the battlefield as the attacking demon frantically tried to run to Qin Wu. It hoped that its master would be able to save it. However, as it ran, its body was slowly burned up by the sin flame execution. It ran about three kilometers before finally transforming into a pile of dim flames, completely disappearing!!

"Brother... Brother Chu..." seeing this attacking demon burned to ashes, Teng Lang who had rushed here to help was stunned!

Teng Lang had heard of the powerful attacking demon before. It was an ultra strong assassination demon that had killed more than one peak emperor rank before and was one of Soul Alliance's Sixteen Absolute's - the Martial Absolute - main pets!

However, Chu Mu's Inferno Monarch's tyrannical attack was unstoppable!!

Why was a middle class emperor able to utilize such powerful strength. Even if this Seven Sins Fox Corrupted Inferno Monarch had advanced a rank like his Ice Mountain Lion, it still would not be this attacking demon's opponent!

"Brother Chu, could... could you Seven Sins Fox... have stepped into the peak emperor rank..." it was a while before Teng Lang recovered and he spoke with a tone of disbelief!

Chu Mu stood there with his right hand tightly clenched.

Atonement mutation!

Mo Xie had truly completed an atonement mutation. Perhaps Mo Xie's rank was only at the high class emperor rank, but with three main attributes, she was comparable to a peak emperor!!

Only five days ago, Mo Xie was merely a low class emperor.

However, now, she had instantly stepped into the peak emperor rank, nearly reaching the level of a single species mutation!!

It had been three years since she had mutated into a Seven Sins Fox. Although it wasn't a true species mutation, Mo Xie's mutation blood allow her to erupt in strength again, the excitement and happiness that came with it was far more intense than when he obtained dominator rank strength from the half devil!

A peak emperor!

This time, Chu Mu had truly stepped into the peak emperor domain!!

.....

“What happened? Why did such a powerful aura come from the spirit master army?!!” the senior elders looked over, and stared at the district colored in a captivating red.

“Chu Fangchen! It’s Chu Fangchen’s Seven Sins Fox! His Seven Sins Fox has suddenly erupted in strength. It was even able to kill Qin Wu’s main pet, the attacking demon!!” the general was the first to obtain news from the spirit master army, and his face was full of happiness!

“What?!! He... he killed Qin Wu’s main pet?!!!”

The senior elders and elders were stunned!

They never detected Qin Wu’s attacking demon slinking into the spirit master army. This was a terrifying situation, yet even more surprising was that Chu Fangchen had unexpectedly killed Qin Wu’s main pet!!

Qin Wu, one of Soul Alliance’s Sixteen Absolutes. Her main pet had been forcibly killed by a young man’s soul pet!!

“It... it seems to have mutated...” said the general.

“Mutated!!” the senior elders were stunned!!

At their rank, they were extremely clear that practically no emperor rank soul pet could mutate because a mutation would mean that its strength had reached the dominator rank!!

“No, it’s not a mutation. Chu Fangchen’s Seven Sins Fox has definitely undone its sin imprint!! There is a chance the strength of a Forgiven Fox has reached the dominator rank. Chu Fangchen’s Seven Sins Fox could very well be the thousandth generation and broke through the sin imprints in battle, obtaining the true strength of a Seven Sins Fox!!” Teng Jiangfeng had researched into the

Seven Sins Fox's legend. Therefore, he understood that any Seven Sins Fox had extremely shocking potential!!

Chapter 818: Why Doesn't A Monarch Dare Kill an Emperor?!

Qin Wu's flesh began to twitch, and his eyes were spitting out angry flames!

Soul wound!

A great Sixteen Absolute had one of their main pets killed by a young man?! And a soul wounded?! How embarrassing was this?!

"Still laughing?" Chu Mu stared at Qin Wu, whose face was twitching far away and his used soul remembrance to mock him!

"Starting from today, everyone who you're close to will pay a painful price because of your stupid actions today. Your family, your friends, your woman. They will all die. I, Qin Wu, will make you understand that the feeling of dying is better than living. I will wait for the best moment before killing you and all of your soul pets!!" said Qin Wu using malicious words!

Hearing those words, Chu Mu suddenly felt that Qin Wu was too funny.

Chu Mu had a total of three family members: Liu Binglan, Senior Elder Liu and Chu Tianmang. Would Qin Wu go and find trouble for Liu Binglan and Senior Elder Liu?

Senior Elder Liu could at least contend with an Eight Absolute. Although he couldn't beat the head of the Eight Absolutes, Ju Que, if Qin Wu wanted to take on this old fellow, he would essentially be committing suicide.

As for Liu Binglan, her strength was not under Qin Wu. Moreover, she seemed to have an even more powerful strength. Back when she had fought the Shadow Absolute, she hadn't used it because practically all of her soul remembrance had been used to care for Chu Mu with ice spirit items.

As for Chu Tianmang, Chu Mu believed that since so many years had passed, his strength was definitely above Qin Wu. How could a person that could nurture three main pets that were willing to inspiringly sacrifice themselves go quiet?!

Therefore, Qin Wu's words were like a joke.

“Wu wu wu wu wu wu~~~~~”

Mo Xie didn't like other people threatening Chu Mu. Red flames emerged from her foot where she stepped. She pridefully raised her head, and her demonic pupils stared at the spirit emperor battlefield far away. She seemed to be searching for Qin Wu's soul pets.

“Don't be hasty. We still have other things to do.” Chu Mu used his hands to stroke Mo Xie's soft fur.

Now that the spirit master army's victory was determined, Chu Mu didn't have to move his attention to the spirit emperor battlefield. Instead, he focused on the spirit teacher battlefield.

“Mo Xie, let them see your demon techniques!” Chu Mu pointed at the spirit teacher army and spoke.

“Wu wu~~~~~”

Mo Xie stepped forward, and her body transformed into a gorgeous and resplendent light of red flame that rushed towards the spirit teacher army.

“Brother Chu, why don’t you go help them. I’ll deal with this place.” Teng Lang saw Chu Mu’s mutated Forgiven Fox enter the spirit teacher army and hastily spoke.

Having a sin fox that was comparable to a peak emperor enter the spirit teacher army was too wasteful. After all, the spirit teacher army was large and peak emperors would expend a lot of energy to instakill them groups at a time.

“This will speed up your army’s advances.” calmly replied Chu Mu.

After Teng Lang’s Ice Mountain Lion had advanced a rank, the spirit teacher army gradually had gained the advantage. Obtaining victory was only a question of time. Therefore, Teng Lang wanted Chu Mu to go and assist the spirit emperor camp.

A single peak emperor was comparable to five high class emperors. The species mutation of Chu Mu’s sin fox was too crucial for this decisive battle. It caused the gap in high class emperor strength to instantly shrink to three high class emperors!

The spirit emperor camp had been fighting very defensively. Teng Lang understood very well that if the spirit emperors were to lose, their two armies would be of no meaning. Therefore, he hoped for Chu Mu to quickly aid the spirit emperors.

“Hmm? What is happening? Why is their formation suddenly in chaos?”

Teng Lang raised his eyebrows and stared with a bit of shock at the black mass of the spirit teacher army formation.

In the skies, a few of the concubine girls' attention had naturally been attracted by Chu Mu's Forgiven Fox. From their point of view, they could see that after Chu Mu's Inferno Monarch ran a circle around the spirit teacher army, the outer soul pets in the spirit teacher army suddenly began to turn on each other!

"They... they are killing each other?!"

"Why is it like that? Could their minds have been controlled by Chu Fangchen's sin fox? But how was it able to use such a wide-scale mental control?"

Tie Xin, Fang Wu and Luo Hen, all from Soul Alliance, had extremely unsightly expressions. Even if the spirit master army lost, they lost. After all, there was a difference in strength. However, this spirit teacher army could not lose before the spirit emperor army won.

Nonetheless, right now the outskirts of the spirit teacher army was in a state of chaos. Comrades were fighting comrades and the originally ordered soul pets were no longer under their soul pet trainer's control as they began to slaughter each other!

"Species Calamity. A Seven Sins Fox species technique." slowly said Mu Qingyi. As she watched this spirit teacher army slaughter each other, she looked a bit disturbed.

She knew of Species Calamity, and knew of its terror. It was much more cruel than killing the enemy because nobody could predict who was going to kill him. It could very well be one's closest friend and soul pet. This kind of a death wasn't just death, but it was also a betrayal. It was a sin of dirtying one's hands with the blood of comrades that would crush one's mind.

But to enemies, Chu Mu had no mercy!

Species Calamity!

Like changing sides in a war, the comrades next to one another instantly became their most terrifying enemy.

If an army had no conviction, and was constantly suspicious of one another, the strength formed by the army would instantly collapse!

Species Calamity could control the mind of thousands if not tens of thousands of enemies.

In reality, Mo Xie's Species calamity only controlled a portion of those without much resolution in their hearts. She had them attack their comrades, causing their comrades to attack in retaliation. Immediately after, the people nearby that saw this cruel scene of comrades changing sides would be mentally affected and begin to suspect the comrade next to them. This suspicion would be exploited and cause them to become the second group of people that attacked their comrades...

There were no longer spirit emperors commanding the spirit teacher army. The calamity was like an epidemic that wildly spread. It then broke the defenses in everyone's hearts!

The whole army quickly came to a collapse under Species Calamity. Presumably, the entire three great palace's spirit teacher army was going to charge. Afterwards, all of Soul Alliance's spirit teachers would throw down their weapons and flee.

“How... how... how is this just speeding things up a bit!!” as the commander of the spirit teachers, Teng Lang couldn't really believe his eyes as he watched the enormous spirit teacher army collapse like this!

Cries of killing rang out through the air. The morale of the three great palace's spirit teacher army increased and after the generals gave an order, the entire army changed, transforming into a stream of water that broke through a dam. They were truculent and unstoppable!

Soul Alliance's spirit teacher army was in chaos, and obviously couldn't defend!

.....

“Commander, Soul Alliance's spirit master army has been completely annihilated!” the spirit master army generals all stood in front of Chu Mu.

The place Chu Mu stood at was where General Tang had fallen. The flag here had already been dyed red.

The remaining generals and assistant generals looked at the general's corpse without much expression.

It wasn't that they didn't feel sentiment for this old general. Instead, they understood that right now was not the time to be grieving for fallen generals and commanders. They had to finish the mission they could not because the fight wasn't over!

Chu Mu swept his gaze across. Behind the generals were a dozen assistant generals and behind them were team leaders. Even further behind them were soul pets covered in enemy blood. There

were Terror Wolves, Abyss Beasts, Rhinoceros, Blood Beasts, Devil Insects, Armored Hibernations, Feathered Demons, Eagles, Fairies, Tree Demons and Vine Creatures...

These were all mainstream soul pets and formed the majority of the spirit master army.

In their eyes as well as their master's eyes, Chu Mu could see an elated will to fight and wildness from annihilating the enemy.

"The leading general has already gloriously sacrificed his life. Commander, please give an order!" sonorously said the generals.

The commander of a soul pet trainer army wasn't in charge of commanding the battle and utilizing tactics. Instead, his existence was like a fighting spirit. As long as the commander remained standing, it gave the army morale which would slowly manifest into enormous strength!

"There are numerous enemies still here." Chu Mu swept his gaze towards the other side.

The generals and assistant generals looked onwards in horror.

Commander, that... that place is the spirit emperor camp and those are all emperor rank creatures..."

"Our army cannot touch high class and peak rank emperors. However, we can absolutely kill middle class emperors!" said Chu Mu.

In the spirit master army, practically all of the soul pets were peak monarchs. 10 peak monarchs could fight against one pseudo emperor. Moreover, if they were cohesive, five peak monarchs could become a huge threat to a pseudo emperor.

The spirit master army had not suffered huge losses. There were at least 150 people with fighting strength. 150 people meant a total of 600 peak monarchs!

Combined together, this amount of strength still would have a hard time touching high class emperors. However, middle class emperors would have a hard time resisting them!

“Could it be that you don’t want to taste the blood of emperors?!” asked Chu Mu!

Taste the blood of emperors!!

To soul pet trainers with monarch rank strength, this made them impassioned!

All soul pet trainers desired even higher realms. The terrifying gap between spirit masters and spirit emperors made most of the peak monarch rank soul pet trainers feel powerless. However, this didn’t mean that they hadn’t thought of defeating an emperor rank creature before!!

Who didn’t want to taste the blood of emperors?

“Why aren’t monarchs daring to kill emperors?!!”

Why wouldn't they dare? They had 600 monarchs. Even if they could only kill one middle class emperor, to them, even if they would die, they would still let out a big laugh!

Challenging a higher rank!!!

Chu Mu understood very clearly that in the bones of every person that stood on this bloody battlefield flowed the blood to fight. They all wished to become stronger so that they could defeat the powerful enemies that they could not in the past!

The only things missing were the courage to throw off the shadow of terror, the passion to carry on and the hot bloodedness to never surrender!

As long as they had these, a monarch army, which was insignificant in the eyes of spirit emperors, could also change the tides of battle!!!

Chapter 819: Spirit alliance, Toppling Like a Mountain Falling

Chu Mu already lit the spirit master army's fighting intent. However, Chu Mu definitely wouldn't bring in the spirit master army into the spirit emperor army recklessly. Soul alliance still had the upper hand in the spirit emperor fight. If they got too close, a few high class emperor ranks combined could cause the entire army to fail!

"White one, lead your other brothers and appear!!" Chu Mu used spirit remembrance to tell the Nightmare Conqueror conqueror who was hidden in the battlefield.

Nightmare Conqueror conqueror was incredibly patient. So long after the fight started, they remained hidden. With him was also a few high class emperor rank White Nightmare Conquerors!

Now, getting the command from the king, Nightmare Conqueror conqueror slowly appeared amongst the snow, burning the snow with its pale devil flames!!

At the same time, behind Nightmare Conqueror conqueror appeared a few white devil flames that also were full of evil aura as they entered the battle!!

Invincible emperor rank! Even if Mo Ling fought, the Nightmare Conqueror Conqueror could easily deal with it, let alone Qin Wu, who was far from invincible emperor.

When Chu Mu said he wanted to take Qin Wu's life, then he would not give him a single chance to survive!

Qin Wu, struggling to deal with the Nightmare Conqueror emperors and still angry at Chu Mu, didn't realize that the person he accidentally provoked was the silver devil man, much scarier than Mo Ling!!

“Nienie~~~~~” A hackle raising laughter sounded by Qin Wu's ears.

Qin Wu's body went cold. The feeling of death staring at him caused him to immediately summon his two top tier emperor ranks to his side.

Turning around, Qin Wu saw a White Nightmare Conqueror standing frighteningly near him!!

“This.....this was impossible!!!”

Qin Wu's heart was shocked. He never would have thought that there would be a soul pet able to appear so close to him without him noticing!

The always composed Qin Wu completely panicked at this point!

The three White Nightmare Conquerors were all top tier emperor rank. The last White Nightmare Conqueror to appear was releasing a devil flame aura that was clearly stronger than even the two White Nightmare Conquerors he was already facing!!

The Nightmare Conqueror Conqueror held an evil smile, as it gazed at the pale faced human.

The king wanted this human to die, so how would the Nightmare Conqueror conqueror dare to let him live much longer?

On the entire battlefield, other than Tai Mountain Giant, not a single other organism on this battlefield could truly match this Nightmare Conqueror Conqueror head on. This was the power of invincible emperor!!

“What’s wrong, why are there so many White Nightmare Conquerors?”

Mo Ling’s face grew serious. He always thought that the three palace spirit emperors were near their limits, about to lose.

However, every time their side summoned a high class emperor rank able to turn the situation around, the opposing team would summon another high class emperor rank White Nightmare Conqueror.

Repeating this again and again, the battlefield suddenly had seven high class emperor rank White Nightmare Conquerors that Mo Ling didn't account for!!

Spirit alliance's advantage was on their 10 high class emperor ranks. Li Zhan lost one, Qin Wu lost one, meaning they still had an advantage of 8. Yet, it was somehow made up by the White Nightmare Conquerors that came from nowhere!!

"You bunch of trash, how did you estimate their strength. Tell me these White Nightmare Conquerors' source right now!" Mo Ling was furious. His Tai Mountain Giant was already on the battlefield, along with the main soul pets of the eight elders and senior elders.

Soul Alliance almost summoned all their main soul pets already. Under this situation, they should be in a great advantage, and three palace should be at their limits.....

Spirit alliance's strategists and generals were all trembling with fear, not knowing how to answer.

Spirit alliance didn't know where these White Nightmare Conquerors came from, but even the three palaces were incredibly shocked when they saw these seven high class emperor rank White Nightmare Conquerors!

The entire battlefield had four top tier emperor rank White Nightmare Conquerors: White Nightmare Conqueror emperor, White Nightmare Conqueror emperor 2, and Nightmare Conqueror palace elder Jiang's two main soul pets.

However, the last White Nightmare Conqueror to appear was even stronger than the first four top tier emperor ranks. Its powerful devil flame aura and reckless nature caused even elder Jiang to be in disbelief!!

“This.....White Nightmare Conqueror.....it’s a true invincible emperor!!!!” Three palace experts were all shocked!!

Invincible emperor, in a situation where the top tier emperor ranks on both sides were evenly matched, could easily take on 3 or even all 4 emperors by itself. This caused three palace members to all be overjoyed!!

Not only this, after the invincible emperor rank appeared, another few high class emperor rank White Nightmare Conquerors appeared that instantly turned around the disadvantage the three palace members were facing!!

“Kill!!!!!!!!!!”

“Kill!!!!!!!!!!”

Just as the battle saw a great change, another loud roar came from not too far away!!

A few excited strategists turned around, and found that on the white snowy ground, a large group of monarch rank soul pets were making their way towards the emperor rank formation. Their killing intent was enough to make even high class emperor ranks back off!!

The leader of them was the main general Chu Fangchen, who repeatedly created miracles and killed 7 middle class emperor ranks as well as 2 high class emperor ranks!

He rode his red flaming Forgiven Fox and brought the 150 spirit masters and their soul pets into the enemy formation!!!

“Honghonghong!!!!”

Techniques flew across the battlefield like a barrage. A few hundred top tier monarch ranks casted their techniques on a middle class emperor rank, causing it to be instantly killed!!!

“Good!! Good!!!!”

Teng Jiangfeng saw Chu Mu appear with the spirit master army and his face went red with excitement. At this moment, the three palace members’ morale were all ignited by the group of spirit masters that appeared!!

Why shouldn’t monarch ranks be able to kill emperor ranks?

After these 150 spirit masters had a taste of killing a true emperor, every wave of techniques they cast would instantly kill a middle class emperor rank!!

The generals by Chu Mu were hoarse from yelling. Seeing all these middle class emperor ranks get killed, their emotions weren’t expressible by language anymore!

Every spirit master had wished for a day where they could destroy emperors. Now the day had come, and in such an important battle. The normally undefeatable and invincible emperor ranks they faced were no longer as scary!

“Wuwuwuw!!!!!!”

Mo Xie, who just broke through her sin imprints, seeing the hundred emperor ranks skirmishing, her silver pupils were already ablaze!!

“Go, you haven’t fought to your heart’s desire for a long time!!” Chu Mu no longer restricted Mo Xie, letting it kill its way into the emperor rank formation!!

After Mo xie was forgiven, its strength was equivalent to top tier emperor ranks!

Maybe Mo Ling’s invincible emperor ranks could occupy the Nightmare Conqueror Conqueror. Maybe the advantage of 10 high class emperor ranks could allow soul alliance to hold their ground. However, when their middle class emperor ranks were continuously killed, when Mo Xie, as a top tier emperor rank appeared, then the scales of victory were slowly tipped towards three palaces!!

“Kill!!!!!!!!!!!!!!!!!!!!”

Just as the three palace members were invigorated by the spirit master army and the advent of the forgiven fox, an even louder roar of killing came from afar!!

Smoke rose as the spirit master army, fully powered by their recent victory, appeared!!

The spirit master army was the largest army. If they gathered together, the destructive power they had was even more terrifying than the spirit master army!!

Similarly, though they couldn't damage high class emperor ranks easily, they could easily cause devastating blows to the middle class emperor ranks of spirit alliance!!

“Kill!!! Kill!!!” Teng Lang rode his high class emperor rank iceberg lion and lead four middle class emperor ranks into battle first. His bloodthirst and courage caused the spirit teacher army to be lit ablaze as well!

If Soul Palace third young master was at the very front, why would they be afraid? Can their lives be any more valuable than young master?

Under the guidance of the strategists, the spirit master and spirit teacher armies quickly merged together and created a power that truly could affect the spirit emperor armies!! Even some wounded high class emperor ranks lost their lives in their technique barrages!!

The eight elders and Mo Ling were frozen.

Just not long ago, when he told Qin Wu to attack, his regards for Chu Mu and Teng Lang were worthless!

Yet, this hero never would have expected these two inconsequential characters to be the key to slowly destroying the spirit emperor army, causing his army's morale to drop and bring them from advantage to disadvantage!

The near guaranteed victory fell apart. No matter how strong Mo Ling was, he couldn't deal with all of the three palace members!!

Qin Wu, one of sixteen absolutes, originally so arrogant that he didn't care for the final battle much, was already on the escape pathetically!

However, the Nightmare Conqueror Conqueror was eyeing him carefully, also chasing multiple kilometers away, dead set on killing Qin Wu!!

Qin Wu already had three souls hurt. His only top tier emperor rank was also completely wounded, unable to escape from the grasps of the Nightmare Conqueror Conqueror!

Chapter 820: Victory!!

Qin Wu escaped, causing the two top tier White Nightmares to become undefeatable killing devils on the battlefield!

Their vicious eyes always locked onto singled out high class emperor ranks. Every time they casted displacement specter, their pale white devil flames would soon follow and destroy its enemy's soul, evilly reaping away all their lives!

The two top tier emperor rank White Nightmares caused the high class emperor ranks to all be terrified. Unable to do anything else, Mo Ling forcefully repositioned one of his main soul pets to restrict the two of them.

Mo Ling repositioning that soul pet meant that his Tai Mountain Giant would face immense pressure!

Tai Mountain Giant didn't reach truly dominator rank yet. Under the combined attacks of forty top tier emperor ranks, Mo Ling's Tai Mountain Giant's maximum capacity was four top tier emperor ranks and five high class emperor ranks. Now that one of his main soul pets moved away, Tai Mountain Giant had to face four top tier emperor ranks and 20 high class emperor ranks!

The Tai Mountain Giant had immense defense. Its tall and upright body was like a moving mountain!

This truly was a powerful soul pet that was able to truly dominate a war. Not counting the war goddess's crown phoenix king, most soul pet trainers present probably were witnessing such a powerful organism for the first time!

Chu Mu watched the high mountain giant from afar. Four top tier emperor ranks, 20 high class emperor ranks, this was a powerful formation, yet it was all to defeat this one soul pet!

Chu Mu's ghost Monarch King was also of the giant species. If Ghost Monarch could reach that level too.....

Powerful opponents were, in the end, undeniably important. This last of the four heroes, Mo Ling, was powerful!

However, no matter how powerful Mo Ling is, as the soul alliance middle and high class emperors were slowly all killed, Mo Ling had to withstand even greater pressure!

Very quickly, even elder Jiang joined the list of people attacking Mo Ling!

Elder Jiang had two top tier emperor ranks. These top tier emperor ranks' devil flames could definitely cause great damage to Tai Mountain Giant!

Indeed, after elder Jiang's two White Nightmares joined the ranks, Mo Ling's Tai Mountain Giant finally showed signs of being affected!

“Ao!!!! Oh!!!!”

The Tai Mountain Giant roared angrily, its massive arm frenziedly waving towards the ground. Immediately, many rock mountains created a large barrier that blocked the senior elders' top tier emperor ranks outside!

The next moment, on the other side of the mountain, blood flew outwards. The three elders' high class emperor ranks didn't have enough time to get away and was hit by the Tai Mountain Giant's arm, sending blood flying everywhere!!!

Chu Mu watched the Tai Mountain Giant truly reign terror upon all, able to kill high class emperor ranks even while being suppressed by so many other soul pets!!

“Mo Xie, let's try fighting it!” Seeing the Tai Mountain Giant roam the battlefield, Chu Mu's competitive nature was ignited!!

“Wuwuwu!!!!!!”

Mo Xie casted nine tail confusion and instantly left its current fight, appearing by Chu Mu's side.

Chu Mu jumped onto Mo Xie's back. Mo Xie let out a foxcall and relied on its extreme demon speed to speed through the battleground and appear under the Tai Mountain Giant's massive feet!

Compared to the Tai Mountain Giant's figure, Mo Xie was indeed infinitesimal; even the Tai Mountain Giant's foot was longer than mo Xie!

“Seven sin fox, humph, know your place!!” standing on the Tai Mountain Giant’s shoulder, Mo Ling’s cold pupils noticed Chu Mu on his seven sin fox!

Before the final battle, Mo Ling didn't know who Chu Fangchen was, yet after this battle, Mo Ling had much resentment for this young soul pet trainer. In fact, he had a strange feeling that these White Nightmares that mysteriously appeared was because of this young man too!

“Kill him!” Mo Ling locked onto Chu Mu with his soul remembrance and commanded Tai Mountain Giant!

Tai Mountain Giant looked directly downwards at the sin fox, and suddenly lifted its massive foot in an attempt to trample everything around it!!

Tai Mountain Giant’s trample didn’t step right onto the sin fox, instead creating a massive circular rock barrier in the nearby kilometer!!

This rock barrier was near a thousand meters tall. Inside it, one could only see a small part of the sky, as if one was in a deep abyss!

This rock barrier was to trap Mo Xie inside!!

“Ao!!!!!!!!!!!!!!”

Suddenly, Tai Mountain Giant gave up on all its other defenses and suddenly bent down, opening its palm to slam downwards!!

The palm grew massively and became a large shadow that shrouded the barrier. Falling from above, Mo Xie couldn't dodge anywhere!!!

When this rock palm fell, even top tier emperor ranks will get smeared to pieces!!!

“Chu Fangchen, run in my direction!” At this moment, Teng Jiangfeng's mental voice came to Chu Mu's mind.

Chu Mu didn't hesitate at all, telling Mo Xie to run towards Teng Jiangfeng's direction!!

Mo Xie was incredibly fast. Just as the rocky palm was about to block off all escape, she appeared by the barrier!

The giant palm immediately blocked off all light, and Chu Mu felt the immense pressure above him!!

“Beng!!!!”

Just as the large palm was a hundred meters from him, the rock barrier was suddenly broken apart by an outside force!

Mo Xie didn't dare to hesitate. Before the rock barrier was completely cleared, her body burned with red flames and she ran outwards!

“Honglong!!!!!!!!!!!!!!”

The next moment, a giant palm fell down!!

The ground shook violently, as a massive palm imprint appeared within the confines of the rock barrier, sinking countless meters downwards!

At the same time, inside the collapsing rock barrier, Mo Xie's red shadow agilely darted through the barrier and sped up, escaping the aftershocks of the slam!

“Wuwuwu~~~~~”

Running a dozen kilometers out, Mo Xie finally dared to turn around. She looked at the remnants of the Tai Mountain Giant's attack, and let out a small grumble.

“So close, this Tai Mountain Giant isn't easy to deal with!” Chu Mu realized he was too rash, and started keeping his distance with the Tai Mountain Giant!

Of course, Chu Mu's bait wasn't useless. As the Tai Mountain Giant attacked Mo Xie, a large group of high class and top tier emperor ranks fell on Tai Mountain Giant's body. The Tai Mountain Giant's outer rock skin was already clearly cracking apart. Elder Jiang's two White Nightmares' devil flames even darted through this cracked defense and into the inner workings of the Tai Mountain Giant!!

Chu Mu no longer acted rashly. A dozen kilometers away, he told Mo Xie to cast inferno monarch fire type techniques at the Tai Mountain Giant!

The Tai Mountain Giant was massive. Mo Xie didn't need to lock on. When red flames completely covered its body, Mo Xie's nine tails whipped out heavily!

Immediately, nine beautiful red flame dragons flew through the skies and towards Tai Mountain Giant's body!!

"Mo Ling, you can stop!"

In the skies, knowing soul alliance was facing imminent loss, heavenly concubine Mu Qingyi used soul remembrance to say to mo ling.

"Your majesty, are you just going to watch?" Mo Ling said angrily!

Mo Ling knew very well that the fight was slowly going towards defeat.

However, Mo Ling truly wasn't satisfied!!

Snow City was so close to being his, and the victory belonged to him, yet everything changed too quickly!

Three top tier emperor rank White Nightmares and seven high class emperor rank White Nightmares as well as the saving grace mutation that created a top tier emperor rank sin fox. All of these things shouldn't have appeared, yet they all happened as he was about to get snow city. How could Mo Ling be satisfied?

"I've already said I won't participate in the war between the two factions. Stop before you truly hurt yourself permanently....." Mu Qingyi said.

"As a heavenly concubine, staying so neutral, what qualifies you to hold such an important position in soul alliance?" Mo Ling was furious, starting to point fingers despite their status difference!

"I'll understand that as a slight against in my job. If you have any complaints about how I act, please present it to the soul alliance master." Mu Qingyi's tone instantly changed.

She simply warned Mo Ling as a fellow soul alliance member, not wanting him to get hurt and lose a soul pet.

Yet, Mo Ling didn't listen and instead turned around to accuse her. This caused Mu Qingyi to be very discontent. She had another meaning within her words, which was if Mo Ling was instead complaining about her as a person, she would accept any challenge because she wasn't afraid of Mo Ling.

"I don't dare." Mo Ling said coldly. Though he didn't dare offend her, he definitely had a lot of resentment built up!

"You two, bring Mo Ling away." Mu Qingyi glanced at Fang Wu and Tie Xing beside her and said lightly.

Fang Wu and Tie Xing were respectively eight desolation and sixteen absolute. If they joined the battle, the fight would definitely be a victory for soul alliance.

However, Mu Qingyi only allowed them to interfere now to ensure Mo Ling left safely. They can't possibly change the battle anymore. After all, the terrifying Nightmare Conqueror already killed Qin Wu and returned the battle.

On the battlefield, Chu Mu quickly noticed that Fang Wu and Tie Xing came from above representing soul alliance!

He lifted his head and watched Mu Qingyi, not knowing why this woman was going against her word at the last moment.

Yet, after seeing Fang Wu and Tie Xing protecting Mo Ling retreat, Chu Mu was no longer confused.

Mu Qingyi decided the ownership of Snow City using the final battle. This was obviously in favor of Soul Alliance. After all, without Chu Mu and the ten Nightmares, three palaces couldn't have possibly won against Mo Ling and his spirit emperors.

In the final battle, Mu Qingyi even restricted Fang Wu and Tie Xing, somewhat alleviating the three palaces' disadvantage and created a semblance of fairness.

Now, she was simply telling the two women to participate simply to help soul alliance army to retreat!

Killing Mo Ling wasn't an easy task. Able to get rid of Qin Wu as one of sixteen absolutes and win the final battle was already an achievement.

Heavenly concubine telling Mo Ling to stop was good for both sides. First, no one on the three palace side could keep Mo Ling from leaving. If they continued to fight, there will still be high class emperor rank deaths. Those were incredibly bad for three palace. However, if Mo Ling stayed, the three palace will definitely put in their all to keep Mo Ling's other main soul pets from staying alive!
