

Soul Pets Bk2 881

Chapter 881: Black and White, Death Butterfly

Ye Qingzi finally finished the upper quality seventh rank wood crystal.

When Chu Mu went to Yang Feng Ridge to train, he wasn't able to find any seventh rank wood crystals in the wild. Instead, he collected many high ranking materials and brought them back to Ye Qingzi.

Ye Qingzi had already concocted a lower ranking spirit item for the Devil Tree Battle Soldier, but it had only stirred the bottleneck, not actually breaking through.

This time, Ye Qingzi concocted a higher ranking spirit item. If things went as expected, the Devil Tree Battle Soldier stepped into the high emperor rank.

"Brother, those Black Fairy Butterflies are a bit strange." Ning Maner said to Chu Mu.

"How is it strange?" Chu Mu knew that Ning Maner could communicate with any wild soul pet. Presumably, she could do the same with the Black Fairy Butterfly army.

"They ignored me." pouted Ning Maner.

"Who allowed you to go outside the city to play?" Chu Mu glared at Ning Maner.

"You're being mean to me again. I'm telling big sister." Ning Maner turned and ran away.

How would Chu Mu let her run. Like he was grabbing a small rabbit, he grabbed her back.

“What else happened?” Chu Mu couldn’t be bothered to speak more about that so he asked a different question.

“Nothing. None of those Black Fairy Butterflies paid attention to me. I didn’t dare go far outside the city either before I had Second and Third White take me back.” said Ning Maner.

“Go and play then.” Chu Mu waved his hand and sunk into thought.

“Oh also, this city seems to be hiding something underground. I’ve most recently felt a very dense spirit aura seep out from the ground.” said Ning Maner.

“Ok.” Chu Mu ignored this. After all, with how flourishing Xiang Rong City was, there was definitely some special spirit source in the ground propping the city up.

“Hmm, outside is so noisy.” Ning Maner lifted her skirt and ran to the courtyard walls. She stared through the vine intersected wall on the outside.

There weren’t many people recently on the streets, making the big street outside seem colder.

A few guards wearing city guard uniforms flew in front of each house on their beast type soul pet as they threw city orders in front of the doors.

This was always how people here received city orders. Looking at the contents, everyone's face changed and they hastily closed their doors as they began shouting in panic.

A moment later, a city order arrived outside Chu Mu's courtyard. Ning Maner was already waiting there. She picked it up and ran back to Chu Mu.

"Big brother, something big is happening." said Ning Maner.

Looking at the excited Ning Maner, Chu Mu good naturedly let out a laugh. Did this girl want the whole world to descend into chaos?

Chu Mu opened the city order. It required all residents to prepare enough food to stay underground for a long period.

Xiang Rong City's ground was much sturdier than normal rock. Special underground cellars were built to ensure the safety of citizens when disasters or wars broke out. Indeed, most of these underground cellars were not right underneath the surface but rather very deep in the ground.

The city order required all spirit soldier and citizens to go underground. People above the spirit soldier rank, if they were willing, could voluntarily enlist in the city guard fight.

Chu Mu raised his head and looked at the western side of the city.

Indeed, the black clouds to the west were growing extremely thick, transforming into an incomparably enormous shadow that covered the outside of Xiang Rong City.

“Big brother, look. Those Black Fairy Butterflies are all gathering to the west.” Ning Maner pointed to the black horizon.

Indeed, just as she said, the scene resembled a black cloud that was covering the sun on the western side of the city.

“Let’s go and look. Go and call big sister over.” Chu Mu chanted an incantation and summoned Mo Xie.

Having Second and Fourth White follow, Chu Mu brought Ye Qingzi and Ning Maner towards the western part of the city.

.....

Upon reaching the western side, Chu Mu discovered that there were not many people left walking outside the western part of the city. It looked like it had been abandoned.

Moreover, up the towering city walls on either side, plan world soul pets covered the area with countless elemental world soul pets were lined up on top of the city walls. Demon beast world soul pets were on the outside of the wall...

With such densely packed soul pets, at some point the western city had become fully prepared, forming an enormous army.

Plant world soul pets were the dominant type for Xiang Rong City's soul pets. As far as Chu Mu could see, vine type, flower type and wood type creatures dominated the majority. Moreover, the higher ranking ones were these three types of soul pets.

Vine types were comprised of mainly the bramble species, heavenly vine and vine species. Their vines had covered the thick city wall in countless layers. From the amount that was compressed, it was possible for them to create a vine forest at the top.

Wood types were comprised of mainly the devil tree species, demon wood species and wood eccentric species. The devil tree species' wood type was rather average while, being the most mainstream wood type soul pet, it was also the strongest defender, attacker, restrictor and had the highest life force.

As far as Chu Mu could see, at least 70% of the wood type soul pets under the city wall were from the devil tree species. Indeed, there were Devil Tree Servants, Devil Tree Battle Soldiers, Ancient Devil Trees, Thousand Eyed Devil Trees and Natural Devil Trees. The Natural Devil Trees, being emperor rank creatures, stood out among the devil trees and their towering bodies made others incredibly envious.

There wasn't a large group of flower type creatures. They could be seen behind the wood type army draped in wooden armor. The flower types took on many forms and colors and their thin branches resembled the arms and waists of women that were faintly waving around.

The city wall had been covered by countless vines as well as the surroundings. Additional plant towers had been created by flower branches and vines.

At the very top of the plant tower a woman dressed in a simple but elegant robe quietly stood there, radiating magnificence.

She stared at the Black Fairy Butterfly army that were like soldiers under the city. Her expression was calm.

The Black Fairy Butterfly army covered the heavens and earth, transforming the western side of the city into darkness. Several people felt chills when they saw this darkness and were nowhere near as aloof as Flower Empress Master Xia Zhixian.

Not far away from the city wall, Chu Mu was looking ahead as well.

The view in front of him had been completely swallowed in blackness. Xiang Rong City's western side was a dark night that was so cold it made people afraid. The other side of the city, by contrast, was a daytime covered in sunlight. This distinct contrast created a shocking visual scene, and Chu Mu couldn't help but sucking in air.

Chu Mu had already witnessed the pure white beauty of Snow City.

Now he was witnessing a pure black scene. Only this time, it wasn't a natural scenery. Instead, it was formed solely by Black Fairy Butterflies. At this distance, each Fairy Butterfly was like a small black speck in the horizon.

However, it was these black specks that carried dense darkness and death auras. They were so concentrated they were like an abyss of darkness where no speck of light shined.

"Big brother, will there be a great battle?"

"Probably." nodded Chu Mu.

“Is that Flower Empress Master Xia Zhixian? Her aura is completely different than last time.” Ye Qingzi stared at the Flower Empress Master Xia Zhixian who was standing on the isolated plant tower.

According to rumors, while Flower Empress Master Xia Zhixian’s fighting strength was not necessarily stronger than the Fourth Hero, Mo Ling, her powerful support abilities could multiply the strength of a soul pet trainer. Moreover, it could even multiply the strength several times. She was someone who stood at the pinnacle of supportive abilities.

Among female soul pet trainers, the war goddess, Mo Qingyi, was ranked first, while the Flower Empress Master, Xia Zhixian, was ranked second. In reality, however, if Xia Zhixian stood at a position that was suited for support types, her effect would not be any less than Mu Qingyi.

Ye Qingzi herself was a support type soul pet trainer. Xia Zhixian’s realm was several times higher than her’s. If it wasn’t because she stood with Soul Alliance, Ye Qingzi probably would have admired and respected this most powerful support type soul pet trainer in humanity’s realm.

“Chu Mu, what’s her strength like? Can you deal with her?” subconsciously asked Ye Qingzi.

Ye Qingzi only had an approximate understanding of absolute experts’ strengths. She didn’t have a solid grasp of exactly how strong the Eight Desolations and Four Heroes were.

“If we were to fight one on one, I could deal with her. But if she’s supporting someone else, it’s hard to say.” said Chu Mu.

“A while ago I learned about the strength ranking of female soul pet trainers from Xiao Li.” pouted Ning Maner.

Xiao Li was Li Guang's granddaughter. Her age was similar to Ning Maner, and the two were very close.

"Oh? Who is on it and what is the ranking like?" Ye Qingzi was very interested.

As a woman herself and a soul pet trainer, Ye Qingzi naturally had her ambitions. At the very least, she felt that Flower Empress Master Xia Zhixian's calm state of mind when facing the Black Fairy Butterfly army was much higher than her own.

"First place is Heavenly Concubine Mu Qingyi, known as the War Goddess. Second place is her, Flower Hero Xia Zhixian, known as Flower Empress Master. Third place is Soul Pet Palace's Wei Ying, known as Madam Fu. Fourth place is Mu Qingyi's subordinate, Dancing Desolation Fang Wu, known as Blood Woman. Fifth place is Soul Palace's Majesty Liu Bing Lan, known as Ice Beauty. Sixth place is Heavenly Concubine Mu Qingyi's subordinate, Heart Absolute Tie Xin, known as Iron Woman. Seventh place is... I forget." said Ning Maner.

"Second place should be the Empress Concubine. Her strength is probably higher than the Flower Empress Master, but she just hasn't shown it." said Chu Mu in a low voice.

Chapter 882: Pouring In, Black Butterfly Wave

The black muslin of death came, immediately covering the western city in a dense shadow. An unknown smell onslaughted noses, making breathing even hard.

The Black Fairy Butterflies didn't make any noise. Even their wing beats were silent. Thus, they were a silent black ocean hanging in the sky.

Suddenly, an enormous black ripple expanded like a black ocean wave!!

The soul pet trainers' soul pets immediately were angered. A series of roars rang out outside the wall as demon beasts began to charge at the low flying Black Fairy Butterflies!!

The fight was about to break out. Countless Black Fairy Butterflies were rushing at the city. Their wings were like spears. When they were in groups, they formed a palpitating blade storm that could rip everything apart.

In the face of this black wave, Flower Empress Master Xia Zhixian calmly waved her hands. All of the elemental world soul pets on the city wall chanted different colored incantations, creating dazzling lights that surged at the black army.

All of the elemental techniques had large areas of effect. Having been layered a number of times and covering a huge amount of area, hundreds or thousands of Fairy Butterflies were instantly annihilated!

However, there simply were too many Fairy Butterflies. Even if the skies were filled with torrential flames, roaring waves and violently dancing thunder, there were still many Black Fairy Butterflies that passed through the techniques, appearing on the city wall.

At this moment, the aerial death forest created by the plant world soul pets formed an absolute defense.

Above the western city, thousands if not tens of thousands of branches, vines and flowers intersected to create the absolute defense forest.

This forest not only covered all of the streets and houses in the outer city, but even extended to the air, practically touching the clouds!

“How terrifying!” Ye Qingzi stared at the vines that extended to the clouds and subconsciously moved closer to Chu Mu. This was the first time she had witnessed a war of this scale!

Ning Maner knit her brows due to the countless dying Black Fairy Butterflies. As she saw the soul pets which flesh were ripped apart by the Black Fairy Butterflies, she softly muttered: “I can’t feel any evil intentions. Why are they attacking this city?”

Chu Mu was also wondering this. These Fairy Butterflies were capable of forming a large empire. They could occupy another piece of land and continue to develop there. There was no reason for them to attack a human city.

“Pu pu pu pu pu~~~~~”

A lucky Black Fairy Butterfly that had managed to pass through the defensive siege flew past Chu Mu and the two others.

Chu Mu glanced at it, preparing to have Mo Xie attack it.

However, what shocked him was that this Black Fairy Butterfly didn’t attack Chu Mu or the two others. Instead, it ignored him and flew past, before passing through the intersecting vines and branches as if it was searching for something...

“Maner, can you communicate with them?” Chu Mu felt this was strange.

“Mm, they’re all ignoring me. They clearly have souls, but their souls are strange. They seem to be different than normal life forms.” said Ning Maner.

“I’ll go and take a look. You guys don’t run around. Second White, Fourth White, protect them.” Chu Mu said to the two girls.

Second and Fourth White stood behind Ye Qingzi and Ning Maner with grins. They then adapted the bodyguard posture Ning Maner had taught them, fitting their evil exterior. Nonetheless, it was a bit comical and strange.

Chu Mu ignored the two White Nightmares’ amusing show. He jumped onto Mo Xie’s back and they passed through the interweaving path of vines in the air towards the chaotic battlefield.

With her long bright red tails dancing in the air, Mo Xie nimbly passed through the dense forest, quickly nearing the elevated city tower.

There were tens of thousands of soul pets on the battlefield, so naturally nobody would pay attention to Chu Mu.

As he neared, Chu Mu discovered that the Black Fairy Butterfly were not attacking the defending soul pet trainers or soul pets. Instead, they were all rushing at the city!

“There are too many! We can’t hold them all back!” a city general’s voice rang out from nearby.

“You guys take action.” Flower Empress Master Xia Zhixian calmly said to the people next to her.

Standing next to her were the Bin Liao from the Eight Desolations, the Dragon Absolute - Wen Luo and two Scar experts.

Eight Desolations Bin Liao continued to stand next to Xia Zhixian. The surroundings of the plant tower which had been wrapped with various branches began to splinter as Dragon Absolute Wen Luo, Zhuang Scar and Mei Scar summoned their soul pets. Immediately after, a few mighty beasts flew to the very top of the aerial death forest!

Dragon Absolute Luo Wen had summoned a peak emperor with shocking destructive force. Merely its roar was capable of stunning several Black Fairy Butterfly!

The two other high class emperors summoned were also incomparably ruthless. A single claw through the air and a group of Black Fairy Butterfly were ripped to shreds!!

With the single peak emperor Blood Beast and two high class emperor rank demon beast overseeing the battle, the Black Fairy Butterfly army was visibly pressed back. Even more Black Fairy Butterfly were ripped to shreds, resembling black snowflakes falling to the ground.

These Black Fairy Butterfly, upon death, didn't leave a corpse. Instead, the moment they touched an object, they would melt like snow...

Dragon Absolute Luo Wen's Blood Beast became an extreme killer on this battlefield. Streaks of bloody light passed through countless Fairy Butterfly. No matter the rank, they exploded to death!

“Hong Hong!!!!!!!!!!”

Suddenly, a loud sound rang out in the aerial forest. A thick bloody light exploded in the darkness. Instantly, a blood colored energy enveloped all of the Black Fairy Butterfly in the nearby radius of a few kilometers!!

The bloody energy had appeared so suddenly and disappeared equally quickly. However, this technique had opened an enormous hole in the originally dark air above the plant fortress. Through this hole could be seen a blue sky where there were no Black Fairy Butterfly.

The defending army was stunned. The attacks of hundreds if not thousands of elemental soul pets had merely annihilated over a thousand Black Fairy Butterflies. Yet, a single technique from a peak emperor had instantly annihilated a huge wave of Fairy Butterflies. The difference in strength was too evident!

The Dragon Absolute's attack caused the Black Fairy Butterfly army to temporarily stop. As they were stopped, the defending army quickly, annihilated any Fairy Butterfly attempting to enter Xiang Rong City.

.....

Inside the city tower, a dark red light dimly lit the conference room.

The city tower was being supported a high level, becoming the central point for the plant fortress. The conference room originally had windows, but now these were covered by countless interweaving branches, preventing any light from getting through.

In the dimly lit room, the Empress Concubine sat like an unmoving statue on a chair.

Next to her were the white haired Li Guang and Duan Qiming.

The two old men were clearly worried about this war that had mysteriously broken out. With deep worry, they really wanted to see the situation outside the city tower.

“Was it you who first discovered these Black Fairy Butterflies? When you did, did those Fairy Butterflies have a disposition to attack?” finally, the Empress Concubine spoke.

“Your Majesty, the first one to discover them was a young man called Chu Fangchen. He had gone to Yang Feng Ridge to train and because he disturbed a Fairy Butterfly habitat, he was attacked by a group. However, he didn’t fight with them.” responded Duan Qiming.

“Oh? Chu Fangchen?” the Empress Concubine’s tone faintly changed.

She merely felt that these Black Fairy Butterfly were a bit abnormal and wanted to trace them back to their origin. She never expected that the young expert from the three great palaces that had most recently swept through the world out of nowhere and was worth paying attention to was in Xiang Rong City.

“Just now this old man saw him nearby. Should I bring him over?” asked Duan Qiming.

“Sure.” the Empress Concubine nodded her head.

The Empress Concubine wanted to see what kind of a monster this young man that had made a big name for himself in Snow City then defeated Zhu Chao’s body double, allowing the three great palaces to take away Soul City, was.

“Da da da~~~”

Soft footsteps made their way over as Flower Empress Master Xia Zhixian stepped into the conference room. She glanced at Duan Qiming who gave a bow and left before walking up to the Empress Concubine.

“You want to get rid of Chu Fangchen?” Xia Zhixian had heard the conversation just now and used soul remembrance to ask the Empress Concubine.

“What’s the situation outside like?” the Empress Concubine didn’t respond. Instead, she asked another question.

“It’s being suppressed for the time being. However, they currently occupy ten kilometers of space and could launch a second wave of attacks at any moment.” said Flower Empress Master Xia Zhixian.

“They don’t seem to be attacking us, right?” asked the Empress Concubine.

“Yes.” the Flower Empress Master nodded her head.

At this moment, Li Guang’s expression slightly changed as he said in a low voice: “If they don’t have any intentions of attacking them and we wantonly slaughter them, this could truly anger the king of these Black Fairy Butterfly...”

“Even if their goal is not to attack, we can’t let them enter our city or all of the life in the city will instantly wither away.” Flower Empress Master Xia Zhixian interrupted him.

.....

Chu Mu never expected Duan Qiming, this old fellow, to pay attention to him. In truth, when Chu Mu had neared the city tower, he had intended to get nearer to that woman.

However, when Old Duan appeared in front of him and told him that this woman wanted to see him, Chu Mu was incredibly shocked!!

“What are you so stunned for. Her Majesty Empress Concubine wishes to see you. This is your good fortune. You don’t need to be worried about your Nightmare Palace identity. She is part of a neutral faction.” Duan Qiming glared at Chu Mu.

“Neutral faction?” Chu Mu thought it was a joke. In terms of creating appearances, this woman was exceptional.

Although he was stunned, Chu Mu was certain the defector young woman hadn’t recognized him. The reason she wanted to see him was for another reason!!

Chapter 883: Legendary Creature, Dead Dream

The tide of Black Fairy Butterflies had retreated, now occupying an area ten kilometers away. They gradually calmed down, and it seemed like something was going to happen.

Chu Mu looked through the dense cluster of branches at the weirdly acting Black Fairy Butterflies.

Chu Mu was hesitating whether or not to appear in front of that woman.

He didn't know if she would recognize him because the soul link between the two of them had already been severed. Even though there was a soul pact, there were still two strong layers of mental prohibition.

The Empress Concubine didn't want Chu Mu, who still hadn't died, to be able to detect her. Chu Mu also didn't want this woman to be able to chase him at any moment in time.

However, Chu Mu could not guarantee that this woman didn't have some other acute sensing abilities that would be able to detect him.

Most importantly, Chu Mu looked very similar to how he did at the Battle of the Realm. The defector young woman was able to share visions with her puppet, so she had definitely seen what he looked like. If she felt there was something suspicious from the way he looked, not only would Chu Mu have trouble, but that woman would also tear off her fake-nice mask and combine with the Alliance Master to attack the three great palaces.

.....

"Your Majesty, Chu Fangchen seems to have left. This old man wasn't able to find him." Duan Qiming

"Oh, then forget it." the Empress Concubine didn't care.

As the Hero Chief had said, Chu Fangchen indeed had strength, but there wasn't a need to be afraid of him yet. If they got rid of him right now, this would arouse the suspicion of the three great palaces and destroy the image of her faction.

There was nothing better than when the enemy didn't even know who their enemies were.

When Duan Qiming saw that the Empress Concubine didn't care, he cursed Chu Fangchen, that brat, a few times.

That brat was so arrogant. So many people would sharpen their brains just to see this fairy once. Even if they could only say a single sentence, to any young soul pet trainer, that would make their life without regrets.

Since Duan Qiming lived in Xiang Rong City, he zealously admired this woman. He never expected that Chu Fangchen wouldn't put this goddess in many other men's hearts in his own eyes. If those admirers were to find out, they would arrest and parade him around the streets while hurling insults at him!

Li Guang glanced at Duan Qiming before hesitating and saying: "If Your Majesty doesn't have anything else, we'll leave first."

"Sure." the Empress Concubine nodded her head.

After Li Guang and Duan Qiming left, the Flower Empress Master grabbed a spoiled flower that had grown into the room from outside the window. She crushed it with her hand and placed it into the tea before elegantly drinking it.

"Can you deal with it?" calmly asked the Empress Concubine.

“Probably.” Flower Empress Master Xia Zhixian put the teacup down. Her beautiful eyes displayed a bit of wisdom as she said: “Chu Fangchen’s vigilance is rather high, eh?”

“Don’t let them enter the city. The moment all of the plants wither, it will be very hard to find the item left by Cheng Mo.” said the Empress Concubine.

Flower Empress Master Xia Zhixian nodded her head.

The reason why Xiang Rong City was so thriving was because the structure of the city had all been grown by the Flower Empress Master herself. However, no one knew that while countless plants covered the entire city, these plants had dug three meters into the ground in search of the item left behind by Cheng Mo, the expert from two hundred years ago. The highest probability was that this item was hidden underground Xiang Rong City!

Xiang Rong City was enormous. Finding it underground was like finding a needle in a haystack. After spending these few years searching, Xia Zhixian was still unable to find it.

However, most of the regions in Xiang Rong City had now been searched through. If this item was really in Xiang Rong City, the area left to be searched was gradually growing small and would inevitably appear.

However, they never expected that the Black Fairy Butterfly Army would appear!

At the beginning, she didn’t know what intentions the Black Fairy Butterflies had. However, when she discovered that they were only withering plants, she realized that these Fairy Butterflies wanted to invade the city and destroy all of the searching plants. This would stop her from continuing to search for Cheng Mo’s item.

Therefore, no matter what, the Empress Concubine and Xia Zhixian could not allow these Fairy Butterfly to invade the city. Otherwise, they would have to spend many more years cultivating the required natural underground searchers.

“That’s strange. Why do I feel an uneasy aura?” the Empress Concubine suddenly creased her brows.

Flower Empress Master Xia Zhixian didn’t understand the meaning in the Empress Concubine’s words.

“Se... Senior!! Something big happened!!” a moment later, the Land Scar entered the city tower in a slight panic.

“Speak.” said Xia Zhixian.

“It... It’s best if you personally go up and see.” said the Land Scar.

“Ok, head up first.” said Xia Zhixian.

After Xia Zhixian had the Land Scar retreat, an investigation flower girl respectfully walked over. She gave a bow fitting of her lower status and used soul remembrance to speak to the Empress Concubine: “We have a general idea of it now, but we’ve encountered a few obstacles.”

The Empress Concubine’s limpid eyes circulated with a trace of confident happiness.

“I’ll leave this place to you. Don’t let them disturb me.” said the Empress Concubine.

“Don’t worry.” Flower Empress Master Xia Zhixian revealed a smile. It seemed that their years of hardship here finally going to pay off. All she had to do now was to stop that pesky Black Fairy Butterfly army...

The Empress Concubine stood up. She called over Eight Desolation’s Bin Liao and with the investigation flower girl leading the way, she flew over to some place in Xiang Rong City.

.....

Xia Zhixian steadily made her way up the slightly intertwining staircase of plants to the top of the aerial plant fortress.

“Look, those... those Fairy Butterfly seem to be merging together.” the Land Scar pointed at the Black Fairy Butterfly gathering at a certain location.

Each Black Fairy Butterfly was small like a black speck. What made all of the Xiang Rong City guards stunned was that these black dots were combining together, like small black life elements.

Chu Mu, dressed in white, was also standing at the top of the aerial fortress. He was looking at this incredible seen with shock.

There were at least a million Fairy Butterflies of different ranks and strengths. When Chu Mu first saw them, he had been stunned because he had never seen a species so big that they could densely cover a huge swathe of land like leaves in a forest.

Each Fairy Butterfly body was melding together like ink with other Fairy Butterflies. Instead of melding into one another, it seemed like they were combining together to form another more dense object.

This wasn't just a hundred or ten thousand. Instead, it was a huge Fairy Butterfly empire over a hundred times more.

Imagine the population of a tenth rank city jumping together into an abyss. How shocking of a scene would that be!

Condensing, melding, assembling...

The number of Black Fairy Butterflies that could originally cover the sky grew less and less. From the distance, a bit of the blue from the sky was returning.

However, the entire tens of thousands of soul pet trainers and hundreds of thousands of soul pets on the plant fortress were staring at the same spot in the sky, so quiet that there weren't even sounds of breathing.

Duan Qiming and Li Guang were both the most qualified people here and had seen countless soul pets before. When they saw this scene, they were both stunned, unable to say anything.

It was as if nothing existed in this short span of time. All of the Black Fairy Butterflies disappeared from everyone's sight and the western side of the city, originally a darkness enveloped the world, returned to its original color. Bright and beautiful sunlight began to spill down. This made

everything seem more real. No longer was everything enveloped in that nightmare-like darkness where nothing could be seen...

However, no matter how much everything else returned to normal, people were still rendered speechless, and still fixated with disbelief and fear at the same spot.

On that spot, a wing type creature shrouded in darkness was silently hovering there. It was hovering at the same height as the aerial plant fortress, but it gave people the feeling as if it was flying so high up in the heavens that even people's sights couldn't catch up to it.

It wasn't dashing, nor did it have any enormous aura. It was just silently beating its thin cloud-like black wings. Yet, the feeling it gave everyone was one of coldness and darkness that penetrated deep into the soul.

Looking at it was like staring at the god of death brandishing its scythe, with all its elegance and calm. It was the feeling of inescapable death that they, these weak and lowly people, could not avoid.

"What... what on earth... is this creature..." Dragon Absolute Wen Luo's eyes were dispirited.

The Dragon Absolute was the head of the sixteen absolutes and his strength was even stronger than a few in the Eight Desolations. He was an expert who truly stood among the ranks of the human pinnacle. Any one of his soul pets' techniques could annihilate an army of over a thousand.

There shouldn't have been an existence that he couldn't defeat.

However, right now his mind was no different than anyone else who was scared and in shock. Even after stepping into his realm and understanding so much that rarely anything surprised him, there ultimately was such a creature in this world!!!

Li Guang and Sun Qiming both believed that the king of this Black Fairy Butterfly army was the legendary “Dead Dream” - an ultra strong creature. It was the soul pet of the strongest human from 200 years ago, Cheng Mo!

They had been searching for the “Dead Dream” for decades. They had utilized different methods to search for records and evidence of this creature’s existence. They had researched different species, abilities and forms...

However, they never expected that “Dead Dream” was actually a million Black Fairy Butterflies!!

"Each Black Fairy Butterfly...is...is a part of its body!!!"

It was so shocking that it was almost inconceivable in Li Guang and Sun Qiming’s hearts!

A million Fairy Butterflies condensing into one creature. This was the legendary ultra powerful existence - Dead Dream!

Chapter 884: Dark and Wing Supreme

“Just what is that?” The always calm Flower Emperor Master Xia Zhixian finally lost her composure.

As one of the four heroes, Xia Zhixian was already at the top of humanity. She was similar to heavenly concubine Mu Qingyi in that going beyond emperor rank was extremely difficult. The entire human realm only has a few opportunities that fall into a limited few people.

So, no one knew the realm of dominator rank better than dominator rank experts!

Xia Zhixian already had some mental preparation. She knew extremely well that the organism that could lead a million fairy butterflies was probably dominator rank.

This was a dominator rank organism made with a million fairy butterflies, but they were completely different concepts. Seeing this process caused Xia Zhixian to truly be in disbelief!

“No wonder Ning Maner couldn’t talk with the fairy butterflies. They weren’t even completely life forms, and they were only a part of a larger whole. I didn’t expect there to be such a mysterious and powerful organism in this world.....” Chu Mu gazed at the black dominator rank in the air and lifted up a thousand waves in his heart before continuing, “This probably is an organism that never before appeared in human history!”

This black dominator rank made of countless black fairy butterfly wasn’t in a butterfly shape. It was a black totemic organism with eight pairs of wings!

This organism has a head like a black phoenix. When it lifted up its feathers, it was like a king with an authoritative crown!

Its tail was like a butterfly’s, forming black star patterns at the tip portion. Lightly waving it around, one could see starlight slowly flow out of its tail and dissipate, becoming cold and proud arcs that seemed mysterious yet deadly.

The most shocking thing were the feathers of this Dead Dream.

Different from most wing type organisms' feather, Dead Dream's dense feathers were completely made of fairy butterfly black butterfly wings, velvety and thin.

This means that the million black fairy butterfly army was only the feathers of the organism!!!

A pair of eyes hung high in the skies in dark night.

They gazed at the people in the entire plant castle and told them with its apathetic eyes that all humans who obstruct its views will bring upon themselves the most terrifying disaster!!

“Hu~~~~~hu~~~~hu~~huhuhu~~~~”

Dead Dream's flapping wings slowly accelerated. The eight pairs of wings stacked together and became a black wave that sent a grey flow towards the plant castle.

The plant castle extended towards the entire outer city wall. It looked like a castle heavily covered by roots, vines, branches covered, creating a massive mountain range that had no end.

The dark flow lifted up by Death Dream slowly became a thin black veil that fell upon the entire plant castle.

As this thin energy started to seep in, the entire dense plant world became grey. All the vines, flower shield, root walls, started to wither and die.....

“Gezhigezhi~~~~~”

Looking like they were frozen by black ice, the entire plant castle constantly snapped and bent. The plant towers that were in the air quickly were broken down by the soul pet armies on them.

The entire castle mountain started collapsing as all the blackened plants started shattering, shrivelled, or dead. The black withering instantly took away all the plants' life force and made them dead!!

The entire castle mountain became chaotic as countless soul pets fell and landed on the original castle wall.

Scary screams, frantic roars, painful screeches from soul pet trainers, these sounds all blended into one mess that was drowned out by the defensive mountain's fall!!

The entire city was shaking. Under this energy, even emperor rank experts couldn't do much other than watch as the entire castle collapsed and their army of soul pet trainers scattered!!

Wing type supreme!!

This was a real wing type dominator rank organism!!

It was so powerful that the entire army, including the strongest people, couldn't do anything!!

.....

Far away, Chu Mu watched this legendary Dead Dream, and his heart roiled!!

All along, Chu Mu never found the right wing type soul pet for him because Chu Mu's heart already had an image of the perfect wing type soul pet.

Travelling and training for so long and searching, he found nothing. However, when Chu Mu gazed at the dead dream, he suddenly felt that the image in his heart completely matched the scene he saw!

Cold, proud, and silent with an elegant outer appearance, yet it held a terrifying darkness, mystery, and death!

This was a deadly shadow that flew through people's nightmares, the elegant spoiled pet of the reaper. The combination of dark and wing type caused it to be the best aerial killer in the world!!

In reality, the dark fairy butterfly to a certain degree matched Chu Mu's standard for a wing type soul pet. However, fairy butterflies as a species was just too soft. They didn't have the wild and sharpness of the devil hawks, nor the power and nobility of a phoenix. So, dark fairy butterfly was only matching Chu Mu in its type.

However, the organism before him matched Chu Mu's standards completely. His eyes slowly became wild and excited, like a man who saw his dream lover appear in front of him.

Every soul pet trainer was like this. They have an ideal image of a soul pet in their minds, but often reality was too cruel and caused people to take on easier to obtain/train soul pets that replace the spot of the soul pet they had in their dreams.

Some soul pet trainers would rather have nothing and always leave a spot for the organism within their dreams.

Chu Mu had kept this spot in his heart for a long long time. He didn't care about walking over mountains day and night, nor staying on the ground as he stared at the noble wing type organisms flew by.

Originally, the last page of the Pet Encyclopedia, the crown phoenix king, was the perfect wing type soul pet for Chu Mu. However, Chu Mu knew that Mu Qingyi had one already, and it was incredibly hard to find another one of them in this world.

Today, seeing the Dead Dream appear in Xiangrong City, Chu Mu's heart started leaping wildly. However, Chu Mu was also utterly upset.

This was because the Dead Dream was definitely a dominator rank organism and, reaching that realm, it definitely had its own thought and its mind was definitely even more determined than humans. Its dignity wasn't easily stepped upon by anyone.

Putting aside Chu Mu not having confidence in defeating it, even if he defeated it, Chu Mu would have nearly zero chance in trying to take in this legendary Dead Dream as a soul pet trainer.

Chapter 885: Must Obtain!

The enormous shadow flew across the withered plant fortress. The Dragon Absolute's peak emperor rank blood beast was originally in the air, but now had no choice but to scurry back to the ground in fear like a wounded kitten, hiding beside its master.

Even peak emperors, the strongest in human territory, had lost the courage to fight!!!

This caused a feeling of disbelief that destroyed the spirits of innumerable soul pet trainers that pursued the soul pet dao. It was a feeling akin to the godly thing one chased after turning out to be useless!

Sixteen wings waving in the air. The thin feathers on its butterfly wings were a pure black. It coldly stared at the continuously withering plant fortress like a solitary death goddess that took elegant and calm steps forward, passing through the weak enemies.

Right now, there was no soul pet trainer that dared to attack it.

It was possible to imagine that despite trying one's best efforts to launch attacks, the only damage that was caused was one feather of a million to be lost. If this creature even had fast recovery abilities a combined full army's attack probably wouldn't even be able to damage it faster than its own feathers grew!

Flower Empress Master Xia Zhixian stood stunned on the ground. She didn't even dare to issue any orders at this point.

She knew that if the soul pet trainer army attacked this kind of existence, there was no meaning in doing so. Furthermore, she even thought that if the Hero Chief was here, he wouldn't be able to stop it!

If it wanted to destroy this city, nobody could stop it. Xia Zhixian thus stood there quietly, but unsettled, gnawing on her red lips.

The Darkness Withering could wither all plants.

The Dead Dream merely used this single attack, meaning that its only goal in coming here was to destroy all the plants underneath Xiang Rong City as if it were searching for that something.

If it was stopped, Dead Dream's techniques could likely fall onto the citizens of the city.

Xia Zhixian didn't dare make any rash movements. This was her city, and she couldn't pay such a painful price.

Right now, her only worry was that the female master would make a move.

The female master definitely would not expose her strength in front of the world, but the question was whether she would just watch Dead Dream fly above Xiang Rong City as it used Darkness Withering below it...

.....

A black shadow that resembled a floating mountain elegantly flew above Chu Mu's head. Chu Mu was one of the few people who dared to look up.

Merely its aura was capable of causing the entire soul pet trainer army to lose its fighting spirit!

This creature was so powerful Chu Mu couldn't stop trembling.

How strong did one need to be to be a master of a soul pet like this!!

Absent minded and shock. When what he was chasing after was so close yet still so untouchable, the feeling was hard to describe.

“Dead Dream!!” from Old Duan’s shout of shock, Chu Mu learned of this creature’s name!

A long time ago, Chu Tianmang had described countless creatures in legends to Chu Mu. These became distant dreams in his heart.

Right now, a gorgeous black figure was calmly flying across the blue sky, and it happened to match the one in his dream.

It was so strong that he didn’t have the confidence that he could defeat it even in half devil form. Its aloofness and solitariness made it difficult to actually communicate with it.

It repelled people thousands of kilometers away. It didn’t need to institute its greatness. Instead, it merely calmly flew across, and all life forms would feel ashamed, not daring to look at it.

This completely corresponded with the wing type soul pet Chu Mu was striving for. However, just like its name “Dead Dream”, it caused all fantasies to die.

“Thirty years! A whole thirty years!!!” Duan Qiming’s white hair danced in the wind. He was clearly abnormally excited.

“That’s right. We… we’ve finally seen it!!!” Li Guang looked up at the holy black figure.

These two old men had lived in Xiang Rong City in seclusion for forty years. When they were young and were full of vigour, they were soul pet trainers themselves. Even now in old age, they didn't forget the pursuits they had on the soul pet trainer path.

When they had accidentally discovered the tracks of a legendary soul pet, they were as impassioned as they were when they were twenty.

In order to obtain a soul pet, the first thing to do was to understand it.

These two old men began to search for various ancient texts, and managed to find among them a few depictions of its gorgeous black butterfly tail.

As they gained more understanding of it, they reached the pinnacle of humanity in strength and thought that they had enough strength to capture and subdue it. However, they came to understand that this creature that had never appeared in front of humans before and was unknown by humans was actually extremely strong. It was most likely an ultra strong existence that surpassed the emperor rank!

Surpassing the emperor rank. Many experts who had stepped into the pinnacle of humanity thought they could step over this barrier...

Only those who had experienced countless hardships and defeats would truly understand that those that surpassed the emperor rank were the true gods of humanity.

Zhu Chao never managed to enter the dominator rank, nor did Mo Ling. Li Guang and Duan Qiming also never managed to...

Li Guang and Duan Qiming were both already old. They understood that it was impossible for them to step into the dominator rank.

However, this legendary creature was a dominator rank, meaning that they could never obtain it.

They had been dispirited for a long period of time. But as they aged, they eventually got over it and continued to search. And helplessly, they discovered that even less than obtaining it, it was extremely difficult to see this creature.

Thus, their goal changed from obtaining it to seeing it. It had been thirty years since then, and they no longer had any hopes of seeing it.

This change in mental state undoubtedly revealed the cruelty of being a rank too weak.

Li Guang and Duan Qiming, who both had deep regrets had, to a certain extent, placed their dreams of the dominator rank onto this mysterious legendary creature.

As long as they could see it, they would have no more regrets in life.

And finally they saw it! Seeing it in person was much more shocking than they imagined. The powerfulness of Dead Dream caused them to realize how much of a childish joke their idea of capturing it was!!

.....

“I absolutely cannot let it go!!!”

Suddenly, a young man’s stubborn voice rang out from beside them!

The two old men turned around as if they had awoken from a dream, and stared at the young man beside them in shock!

“Brat Chu...” Duan Qiming was stunned. He stared at this young soul pet trainer whose eyes were filled with unwillingness and anger.

“Chu Fangchen, could it be you have intentions towards it?” Li Guang was also staring at Chu Mu. His eyes were extremely familiar to Li Guang as they represented a soul pet trainer’s most pure desire!!

“Yes, two seniors, could you please tell me all the information you have about it to me?!” Chu Mu nodded his head.

After talking with the blind old man, Chu Mu came to learn that Duan Qiming and Li Guang were searching for this soul pet. When he had first seen them, the thing they had been arguing over had been this creature!

“Resoluteness and passion. Every soul pet trainer who has desires and ambitions will have these emotions in his eyes... I always thought that I was different, but ultimately I would always follow everyone else...” when Li Guang saw Chu Mu’s eyes, he sighed.

Only having reached this rank would one understand how difficult it was to through to that level.

Most importantly, even if one did manage to break through, it was necessarily the case that the solitary and aloof Dead Dream would submit to a human.

“Brat, don’t get carried away in your dreams. Didn’t you just see the technique it used?!” Duan Qiming’s tone was distasteful, but it was also realistic.

“I saw it, which is why I want it even more now.” said Chu Mu.

There had been pain, hardships, misery and even transforming into a devil and losing his memories. The bumpiness of the soul pet trainer’s path had far surpassed Chu Mu’s imagination. Yet, there hadn’t been a day when he had given up.

Perhaps the monument tears had given Chu Mu eternal dominator rank strength, but this wasn’t what he truly wanted, nor could he rely on it. Chu Mu was an obstinate soul pet trainer and what he strived for was more and more powerful soul pets, meaning he required even more powerful strength.

Now that a soul pet of his dreams was in front of him, why would he give up on it?

Even if there was a huge obstacle in front of him, there would be a day when he would be its master!!

This was a creature Chu Mu may not even be able to defeat even in half devil mode. But what did that matter? In the past, there were countless creatures that he was unable to defeat that today were like ants that crawled between his feet!!

Therefore, Chu Mu was certain that he had to obtain this creature!!

Since he had made his decision, he had to advance bravely and begin from the first step of understanding it!

“Ai, go and ask Old Chen. Of what we understand of it, a portion is what we’ve found ourselves and another portion is from what he’s told us...” said Li Guang.

“The blind senior?” Chu Mu was stunned.

“Yes, it was him who told us about Cheng Mo, and it was also him that told us that Dead Dream was likely Cheng Mo’s soul pet.” Li Guang nodded his head.

“Many thanks.” Chu Mu immediately gave a bow.

Dead Dream had already flown far into Xiang Rong City, leaving a black gorgeous figure engraved in everyone’s minds...

Yet, there was a young man, riding a nine tailed flaming Seven Sins Fox, who was rapidly chasing after it, flying over the ground.

.....

“What’s the point? Do you actually believe that he will succeed?” Duan Qiming asked Li Guang.

Li Guang shook his head and said: “Although we know that what he’s doing is futile, there is no harm in a young man striving for something.”

Chapter 886: I’m Lacking a Wing Type Soul Pet

Chu Mu chased the Dead Dream for a while, but discovered that in the places it flew over, all of the plants would wither...

“Wu wu wu~~~~”

Mo Xie let out a cry, indicating that Chu Mu should look behind.

Chu Mu turned around, and astonishingly discovered that some gray misty hue was falling onto Xiang Rong City behind Dead Dream. It was as if a gray paint was being smeared onto a city of a painting.

“It’s...” Chu Mu didn’t understand. The Dead Dream didn’t have any interest in attacking humans, but why did it go to such great lengths to destroy Xiang Rong City’s plants? Did it have some sort of enmity against the city?

After chasing for a while, Chu Mu was gradually unable to keep up with its speed.

The Dead Dream looked as if it was passing through the air elegantly and slowly, but its speed was actually very fast. Mo Xie was unable to keep up.

Examining the surroundings, no matter if it were the red cedar on the streets, the white paulownia in the courtyards, the willows beside the gardens and next to the lakes, the vines growing on the wall, the roots in the ground, the fresh flowers decorating the city and the mysterious lichen, they were all withering. Even plant world soul pets not recalled in soul pet spaces were not able to escape unscathed...

The entire city was withering into a grey color like death. It resembled a ruler stripping the city of its life force.

.....

In a courtyard deep into an alley in the central part of Xiang Rong City.

A blind old man was standing outside the courtyard with an expression of complication as he stared at the sky.

Unfortunately, he couldn't see anything. His soul remembrance, under the powerful grey restriction, was unable to fully expand and he was unable to reach the area within a thousand meters of the mysterious and dangerous creature.

"It ultimately did come. It ultimately did come!!" the blind old man's expression upon seeing the Dead Dream was completely different than Duan Qiming and Li Guang's desire. Instead, he seemed like he was sighing with sorrow.

The only person in this city who knew of Dead Dream's existence was this old blind man, because he had personally seen its absolute and lonely figure a long time ago. He still remembered the shock in his heart back then. So many years had passed, but the shock and desire had gradually transformed into a ripple in his old heart. This ripple was one of bitterness and helplessness.

“Senior.” Chu Mu jumped off Mo Xie, and walked up to the blind old man who was immersed in some memory.

Watching this dazed old man and seeing the desire and indiscernible sense of loss, Chu Mu suddenly really wanted to know about this old man’s past, since his status was even higher than Li Guang and Duan Qiming, those two old monsters. His understanding and knowledge of soul pets was not inferior to Old Li who had lived for several hundreds of years. Therefore, his past must be extremely marvelous.

“It’s you. Come, describe to me its appearance.” the blind old man was not surprised by Chu Mu’s arrival, nor did he care about the withering plants and trees in the courtyard.

Chu Mu stared at the sky in between two eaves, looking at the distant dream-like figure. He gave a description of it in a somewhat sentimental tone.

“Hmm, it seems that my memory still hasn’t gotten indistinct yet.” the blind old man nodded his head in satisfaction.

“Oh, you’ve seen it before?” quickly asked Chu Mu.

“I saw it when I was a young man. There was someone who I respected, and it was him who lured me into the mysterious and beautiful soul pet world. It was through him that I saw a Dead Dream that was still in its childhood. Back then, the Dead Dream was childish like an infant. Its feathers were so exquisite that others couldn’t help but go and touch it. I remember stroking its small head...” the blind old man gave a detailed account of the scene in his memory to Chu Mu.

This should have been his own memory, yet for some reason this old man was very willing to share it with the young man who gave him a feeling of familiarity. Perhaps it was because this young man reminded him of his obstinate and smart disciple back then.

“Was that expert Cheng Mo? The Dead Dream was his soul pet?” asked Chu Mu.

The old man shook his head and said: “Cheng Mo never signed a soul pact with the Dead Dream. Every person has an ideal soul pet in their hearts and Cheng Mo already had what he believed was the perfect wing type soul pet. Therefore, he didn’t sign a soul pact with the young Dead Dream. Instead, he released it into this nation that used to belong the Dead Dream.”

“Used to belong?” Chu Mu was confused.

“This place was originally not human territory. Instead, it belonged to the Dead Dreams. The first ancestor of all Fairy Butterflies was the Dead Dream. However, after humans began to meddle into this territory, the offspring of the Dead Dream gradually disappeared. In its place, the Fairy Butterfly species which was more suited to living with humans and surviving and breeding appeared. Then, this species slowly covered the entire Xiang Rong Boundary.... Of course, this was something that happened a few thousand years ago.” said the blind old man.

Chu Mu knew that the Dead Dream wasn’t part of the Fairy Butterfly species. It was probably a legendary species that probably only had the powerful and mysterious Dead Dream as part of the species.

“Then it hasn’t signed a soul pact with anyone yet?” Chu Mu was a bit surprised.

After most soul pets signed a soul pact with a human ,they wouldn’t follow a second human because soul pets were loyal until death.

If it hadn't been another person's soul pet, then the difficulty would greatly lower, and there would not be a mental barrier between the human and soul pet.

Of course, the probability subduing it lowering was equivalent from becoming 1000% impossible from 10,000% impossible. Even if the impossibility lowered, it was still impossible.

One could imagine how set in its ways a soul pet that had lived over a hundred years was. Moreover, from its perspective, Chu Mu was basically a small child...

"You seem to be very interested in it." said the blind old man.

"Yes. I lack a wing type soul pet." Chu Mu honestly nodded his head.

The blind old man was stunned for a moment, but soon after widened his chest, and let out a loud laugh!

The blind old man's laugh wasn't mocking. Instead, it was a benevolence and respect towards youngsters. The reason why he laughed was because when he had told his own young disciple about the Dead Dream back then, he had also been just as bold and confident. He seemed to believe that capturing the Dead Dream was like capturing commanders and monarchs. As long as one put in enough effort and persevered, it was definitely possible...

"It may be rather friendly to humans, but it is aloof and lonely like a king. A king cannot submit to others. If it has offspring, perhaps it wouldn't mind letting its child following a human soul pet trainer to train. However, this doesn't mean that it, who has already become a king, will be willing to follow a human into danger. That is unless you have reached the heights of Cheng Mo and can make this proud king submit." laughed the blind old man.

“Then again, you aren’t a normal person, right? At this age, you already have a high class emperor rank Seven Sins Fox with three main attributes. If I haven’t guessed incorrectly, your White Nightmare should be even stronger, right? Your strength is at least comparable to the Sixteen Absolutes.” said the blind old man.

Chu Mu didn’t deny it. Although this old man was blind, the experiences accumulated over a hundred years allowed him to be a sage with eyes like torches. It was very difficult to hide anything from his eyes.

“I really do want to obtain a Dead Dream. Does it have any offspring?” asked Chu Mu.

The species rank of a Dead Dream’s offspring would definitely be a peak emperor. Like the Empyrean Cyan Hidden Dragon, after it reached the tenth phase, it would be an unrivalled existence in the emperor rank. The innate species advantage of this creature would make the chances of it breaking into the dominator rank much higher than other lower ranked creatures.

“Offspring? It probably doesn’t. Creatures of this rank are all unique and unmatched. Their method of inheritance is life inheritance...” said the blind old man.

“Life inheritance? What is life inheritance?” Chu Mu was stunned as this was the first time he had heard of this reproduction method.

“Life inheritance normally appears on creature with extremely high innate species ranks where finding a mate is nearly impossible. Thus, life inheritance creatures, will only give birth to an egg just before they die. Only when the previous generation is completely dead will the egg hatch. Then, the following generation will continue the species. The Dead Dream’s life span should be very long, and it cannot give birth to a new Dead Dream. Therefore, unless you kill it...” the blind old man was still smiling.

“Kill it?” Chu Mu rubbed his chin.

Even in the half devil state, Chu Mu didn’t actually have the confidence he could defeat this powerful Dead Dream.

Defeating and killing were two different ideas. Chu Mu had to be at least one or two grades higher than it in order to kill it.

“Haha, brat, are you really working out a plan to kill it?” the blind old man let out a loud laugh again. Although he couldn’t see it, his soul remembrance was able to detect the minute changes on Chu Mu’s face.

“Eh, no. I was only considering it. I think that the next generation will inherit its previous generation’s memories. The next generation would thus probably rather kill itself than become the soul pet of the enemy who killed his previous generation, right?” said Chu Mu.

“Your thoughts are rather sharp.” the blind old man let out a slight laugh before continuing: “You can’t kill it. It’s too too strong!”

Chu Mu was stunned and hastily asked for an explanation.

The old man faintly shook his head, not giving Chu Mu an explanation.

Chapter 887: Dominator, Strongest Support!

Central City South Residential Area

“Your majesty, be at ease. With me, Bing Liao here, you don’t need to worry at all.” Bing Liao glanced at the average strengthened flower girls and said arrogantly and confidently.

City master already gave the command to evacuate. Now, on the complicated granite roads, there were barely any pedestrians, so quiet it was like midnight.

“Then thank you, Mister Bing Liao.” Emperor Concubine smiled elegantly, and said politely to the eight desolation Bing Liao.

Seeing this beautiful woman, eight desolation Bing Liao’s gaze showed a brief moment of loss before quickly moving his gaze away.

Bing Liao didn’t want Emperor Concubine to see through his thoughts. He already stood amongst the top, so he couldn’t possibly be like Dragon Absolute Wen Luo, acting like an obedient dog and listening to everything her majesty said.

Bing Liao believed that no woman liked a man who listened to everything and was obedient, because such a man was petty and funny.

Bing Liao already had many servants around her, so, trying to be unique, he couldn’t possibly be the same as those people without any backbone. In fact, he even tried to not be attracted to her angel-like qualities.....

Sadly, Bing Liao still couldn’t help but want to attract this beauty’s attention.

Standing aside Emperor Concubine, the main flower girl Qing Yin laughed quietly.

Seeing Bing Liao act fake as if he didn't care about Emperor Concubine, Qin Yin secretly muttered, "This world only has two types of men: men whose soul and body both succumbed to her majesty's beauty, or men who stand proudly yet their hearts are already lost. In reality, they are both the same—both trying to gain the favor of Emperor Concubine. No man can stop themselves from falling in love.

"Your majesty, the west fourth of our city's plants all withered away. It.....it seems to be flying towards us." The messenger flower girl rode her wing type soul pet and gently floated down, falling onto her knees.

Emperor Concubine nodded and looked up to gaze at the skies on the other side of the city.

An elegant black figure was swiftly flying over. A black shadow shrouded it and devoured all the colors of life.

The flower girl quickly cast an incantation and summoned the soul pet by Emperor Concubine and protected it before glancing warily at the organism in the sky that swiftly approached.

"It dares to come and obstruct things!" Emperor Concubine stared coldly at the black figure in the sky and thought darkly.

She had already heard the rumors of Dead Dream. She originally thought she could get Chen Mo's item successfully, but she didn't think that dead dream would be completely obstinate and even ran into the human realm to cause the entire city's plants to wither!

“Your majesty.....this.....this organism is already beyond emperor rank!” Eight desolation Bing Liao’s face turned pale!

Dominator rank organism didn’t appear in human realm!!

Bing Liao’s arrogance and confidence disappeared. His eyes were full of alarm and incredible!!

Eight desolation was indeed at the top of the human pyramid, and not many could beat them.

But, people who reached this realm all knew very clearly that above their realm, there was another level that was terrifying enough to cause them to feel feeble. That was dominator rank!!!

“Mister Bing Liao, make a move.” Emperor Concubine looked at the suddenly pale Bing Liao and said calmly.

“Your majesty, this.....this is dominator rank.....” Bing Liao’s face was full of shock.

Dominator rank organism, that meant any single technique of its could instantly kill a soul pet that he spent countless years training. How would Bing Liao dare to attack!!

“Xia flower master will support you. Do you wish to see all the life in this city get destroyed? This is my city.” Emperor Concubine asked with a slight plea.

This saddening plea caused Bing Liao to momentarily lose his focus, even through the mask. Such a plea for help and gaze caused him to find incredible courage from nowhere!

“Your majesty, don’t worry, Bing Liao won’t allow it to harm you.” Bing Liao said seriously.

After speaking, Bing Liao immediately casted an incantation.

He very clearly knew that dealing with a dominator rank organism required more than just one soul pet. Before Dead Dream flew over, Bing Liao summoned his five strongest soul pets in front of him.

Five soul pets all top tier emperor rank!

Crafty Rock Giant, Cloud Stepping Beast, Heavenly Vine Bramble Demon, Dual Pupil Strange Spirit, Barbarian Wing Emperor. Five top tier emperor ranks all appeared, causing the flower girls that previously looked down upon Bing Liao to show shock.

This Eight desolation Bing Liao’s strength indeed was powerful. One top tier emperor rank was enough to reach the peak of humanity. Yet, Bing Liao summoned five top tier emperor ranks. Though one Barbarian Wing Emperor was the only one near invincible emperor rank, this formation truly was nearly unmatched in the human territory!!

Bing Liao glanced into the sky. He didn’t know that the Emperor Concubine secretly casted mental heartening on him. Normally, he definitely wouldn’t summon all five of his main pets at once. After all, dominator ranks could easily instantly kill top tier emperor rank organisms!

Bing Liao didn’t rush right in. he waited for the arrival of flower emperor master Xia Zhixian.

With Xia Zhixian, his soul pets would truly have the chance to fight against the dominator rank soul pet!

“Xia flower master is already in the sky.” Emperor Concubine said to Bing Liao.

Bing Liao lifted his head and noticed that not far away, at the top of the building, the beautiful flower emperor master Xia Zhixian stood silently.

Beside her, a blue and white wing type organism stood. This was the most powerful flower type soul pet in the human realm - Sky Butterfly Queen.

The strongest bug type soul pet in human realm was the second hero's dominator rank beetle. Sky Butterfly Queen was flower and bug duo main type. If one counted it as bug type, then this Sky Butterfly Queen would also be the second strongest bug type soul pet!

Sky Butterfly Queen's own fighting strength was only slightly stronger than invincible emperor rank, but its flower type supporting abilities and bug cocoon healing abilities were nearly powerful enough to bring the dead back to life, able to let an invincible emperor rank fight an entry level dominator rank organism!!

At this moment, the Sky Butterfly Queen silently floated near Xia Zhixian. Its aura was similar to the Dead Dream in the sky, similarly elegant, noble, yet proud.

“Bing Liao.” Xia Zhixian glanced at eight desolation Bing Liao, and said commandingly!

Seeing Xia Zhixian already appear, he naturally had nothing to fear. He leaped onto the Barbarian Wing Emperor and flew towards the Dead Dream.

Seeing Bing Liao rise up, Emperor Concubine glanced at the ten flower girls nearby and said, “You all support his other four soul pets in battle.”

“Yes!!” The ten flower girls all replied.

The moment they spoke, the flower girls all gave commands to their soul pets!

Immediately, wooden type armor, vine type brambles, flower type continuous healing, water type shield cushions, and all sorts of support techniques fell onto Bing Liao’s other four main soul pets!

Bing Liao’s other four main soul pets were all around top tier emperor rank. However, after these ten flower girls all gave their supportive powers, putting offense aside, their defense and recovery speeds were definitely near that of an invincible emperor rank!

“Go, support his Barbarian Wing Emperor.” Xia Zhixian glanced at Sky Butterfly Queen aside her.

The Sky Butterfly Queen was light as the wind. A few flaps of its wings later, it seemed to teleport through space and lightly appeared by the Barbarian Wing Emperor.

“Flower Armor!” Xia Zhixian gave the command.

The Sky Butterfly Queen’s body was rather small and intricate, but after whirling around the massive Barbarian Wing Emperor a few times, it created countless flashing flower petals!

These petals were bright and vivid. They seemed easy to break, yet after all these petals adhered to the Barbarian Wing Emperor's body, it seemed like a king's battle coat had been draped over it!

The Barbarian Wing Emperor was invincible emperor rank, so its aura was very minuscule in front of Dead Dream. Its golden body also seemed to lose its color as darkness covered everything.

Yet, after the flower armor was imbued upon the Barbarian Wing Emperor, its body radiated gold and seemed to slowly even pierce through the greyness!

"Flower recovery!" Xia Zhixian gave another command to the Sky Butterfly Queen!

Within all the petals of the flower armor, a bright string of magical runes appeared. These runes wove together became special healing barrier!

Being in this barrier, once the Barbarian Wing Emperor was hurt, it could heal up in the shortest time. Even heavily wounded, it could return after a few breathes fully healed!

Xia Zhixian's supportive techniques clearly weren't done yet.

After the third command, the Sky Butterfly Queen lightly flapped its wings. It let down countless sacred flower pollen that all fell upon the Sky Butterfly Queen, seeping into the Barbarian Wing Emperor's skin, and into its blood!

The Barbarian Wing Emperor's body entered its body and, after a brief pause, Barbarian Wing Emperor's golden glow radiated even larger, becoming a raging golden sun. Hanging high in the skies, it burnt away the grey veil and shined half the city gold!!

“This.....” Bing Liao’s face turned happy. This was the first time he got the support of Xia Zhixian. This feeling of being imbued with power was amazing, and Bing Liao knew that these abilities raised his Barbarian Wing Emperor raised three whole ranks!!

At invincible emperor rank, raising a single rank was difficult, let alone three!

At this moment, Bing Liao felt that his Barbarian Wing Emperor’s strength was endless, even able to even fight a dominator rank!!!

At this moment, Bing Liao’s confidence expanded frenziedly. Thinking back to the dominator rank organism that he was about to ride into battle against, Bing Liao felt his blood boil with energy!!

Chapter 888: Blossom, Death Rose

“Huhuhuhu!!!!!!”

The gale beside his ears whistled. The Barbarian Wing Emperor was more than three times faster than before. This feeling of speeding through the skies caused Bing Liao to become incredibly excited.

Facing the legendary Dead Dream, nothing seemed scary anymore, and he actually went head-on against it!

The golden sun slashed through the gray sky. The shining sky was split into a few beautiful arcs, as if it was splitting the dark sky in half!

After the withering of the Dead Dream was stopped, its cold crescent eyes stared at the Barbarian Wing Emperor that flew forwards.

This colorful energy had a sacred aura. It was probably an imbued light effect, wanting to use light type to counter the darkness that flowed within its body.

Dead Dream's eight wings lightly flapped. A black glow fell down from the skies, and fell onto Dead Dream's body.

Suddenly, Dead Dream's black body disappeared in place as if it was completely merging with the shadows of the clouds, disappearing without a trace.

Barbarian Wing Emperor golden wings were as sharp as knives, cleanly darting into where Dead Dream was. Yet, because the Dead Dream disappeared suddenly, the attack became meaningless.

"Where did it go?" Bing Liao released his soul remembrance, and looked for the Dead Dream's whereabouts.

Sadly, Bing Liao's soul emperor remembrance couldn't possibly capture the dream-like Dead Dream that moved through the shadows.

Suddenly, a pair of completely black fairy butterflies appeared behind them, and in front of the Barbarian Wing Emperor.

The next moment, a pair of similar wings appeared to the left and right of it.....

A total of eight wings became black restrictive doors which appeared in eight directions of the Barbarian Wing Emperor!

The Barbarian Wing Emperor was originally flying through the air, dominating and unstoppable. However, when the eight black restricting doors appeared with these runes, all of the Barbarian Wing Emperor's actions seemed to be like light falling into a dark abyss. It was pressured and locked down, unable to even open its wings easily!

Bing Liao's expression changed. The eight directions represented every possible direction to move in. However, this region was completely locked down by the eight death gates. This meant that no matter which direction Bing Liao tried to go in, he would enter the gates of death!

Dark type restriction and sealing powers were even more powerful than a demon's mental restriction! Dead Dream's dark seal was at a completely overwhelming level. No matter how powerful the supporting techniques were on Barbarian Wing Emperor, a dark type seal would kill it all!!

"Brash!!!" Xia Zhixian's face was incredibly solemn.

Dead Dream definitely couldn't be defeated with just a few extra support type abilities. Bing Liao charging forward without a brain was completely stupid!

Xia Zhixian quickly casted an incantation and finished her summon!

A bright glow appeared around Xia Zhixian's body, and became a lively dawn fairy!

"Seal Break!" Xia Zhixian gave the command to her dawn fairy!

The dawn fairy was also clearly invincible emperor rank. Its glow came ring after ring, both sacred and holy, gathering around the fairy's body.

As the dawn fairy's incantation sounded, the dazzling seal appeared in the skies like a corona, continuously slamming into one of the death wing gates.

Even though their types were counters, the dominator rank dark technique wasn't that easily broken through. Though the dawn fairy continuously casted two long incantations to attack one death gate, they only caused it to become slightly darker.

Bing Liao wasn't utterly stupid. Seeing that one death gate was growing dimmer, he quickly commanded his strengthened Barbarian Wing towards that position.

"Beng!!!!"

Finally, the dark seal gate became countless black pieces and was destroyed!

Bing Liao was overjoyed, and quickly rode his Barbarian Wing Emperor towards this direction.

This moment, higher in the skies, two cold moon-like cold glints fell down and hit this death gate like a command.

The other remaining seven death gates suddenly solidified and became black stones that suddenly fell!!

Seven death gates fell along with the space within it forcefully. The Barbarian Wing Emperor was just about to escape from the opening before it felt massive pressure. It was as if its body were suddenly locked down with seven incredibly heavy lead balls. Not only did the Barbarian Wing Emperor lose the ability to even lift its wings, even Bing Liao felt so heavy that his body was about to break!

“Hong!!!!!!!!!!!!!!”

The seven death gates fell heavily onto the city’s industrial streets. The sturdy houses were like paper under the power, easily shattering. The Barbarian Wing Emperor’s body fell heavily into the ground, which caused its flower armor to shatter into pieces. Tendrils of black energy seeped into its body, and quickly destroyed all the added effects on it!!

Barbarian Wing Emperor couldn’t even lift its wings. Without its supporting techniques, this Barbarian Wing Emperor was just a weak baby eagle that could get crushed with any technique!

“Save him!” Xia Zhixian immediately gave her Sky Butterfly Queen a command.

The Sky Butterfly Queen, of course, couldn’t let Dead Dream cast another technique. If another technique fell, the Barbarian Wing Emperor and Bing Liao will definitely be killed.

Sky Butterfly Queen let out a light sigh, as its soft body became ten flower shadows that surrounded the Dead Dream’s body, falling like a thin veil onto Dead Dream’s black body!

These thin veils became tens of thousands of butterfly silk that gathered together. Even a single strand was hard to break with a sharp weapon. With tens of thousands of strands braided together,

however, when it grabbed onto an enemy, even the strongest abyss beast couldn't possibly struggle free!

When the Sky Butterfly Queen slightly restricted the Dead Dream, Xia Zhixian immediately commanded her dawn fairy to help the brash Bing Liao dodge the black binding!

At the same time, Bing Liao's other four soul pets were all completely weaponized, and had appeared. With the Cloud Stepping Abyss Beast leading, they ran through the clouds and slammed towards the Dead Dream.

Bing Liao's Cloud Stepping Abyss Beast was supposed to be a normal emperor rank. Under the full support of ten flower girls, its strength raised a rank.

A rank wasn't nearly enough. Right before the Cloud Stepping Beast could collide with the restricted Dead Dream, Xia Zhixian's sky Butterfly Emperor also casted a flower armor that caused Dead Dream to be unable to get killed in a single technique!

After the Cloud Stepping Abyss Beast appeared, Bing Liao's demon closely followed. After Bing Liao's demon was imbued with wind type effects, its speed became incredibly fast and the skies seemed to be flat ground for it!

The Cloud Stepping Abyss beast let out a thunderous roar, its eyes bright red and not knowing what fear was!

Bing Liao didn't know that his emperor concubine had secretly cast a mind heartening technique on him. Because he was connected to all his soul pets by soul, he no longer cared about how powerful or aura intensive their enemies were. They only had a vigorous battling mentality and enemies in front of them!

This technique, in similarly matched battles, could bring out all the potential in an excited soul pet. Because they had no fear of anything, it could cause its enemies to instantly lose their courage. However, if there was a large difference in strength, casting it on an enemy would cause one to lose their life.

At this moment, the cloud stepping abyss beast didn't know what its strength distance from Dead Dream was. It could only think of how it was going to step the Dead Dream into pieces.

The Cloud Stepping Abyss Beast had amazing power, and was able to shatter mountains with a single stamp!

When all of the Cloud Stepping Abyss Beast gathered its power into its four hooves, it instantly stamped towards the Dead Dream's back in one explosive move, causing even the space nearby to shatter!!

Dead Dream's body was caught. Facing Stepping Cloud Abyss Beast's attack, it didn't even seem to want to dodge.

Suddenly, Dead Dream became a night fog that suddenly dissipated too!

“Pupupupu!!!!!!!!!!!!”

Immediately, countless wing type glints appeared around the black fairy butterfly-like dust spreading out. The Sky Butterfly Queen's butterfly silk became threads of broken string that fell layer by layer from the skies!

Though the Stepping Cloud Abyss Beast caused a hard sound, it only shook off a layer of black fairy emperors. Other black fairy butterflies were already becoming a black sand storm that swept across the Stepping Cloud Abyss Beast!!

The Stepping Cloud Abyss Beast's body stopped in the sky. Suddenly, the outer layers of its scaly flower armor became strings. Countless red slits appeared on the Stepping Cloud Abyss Beast. Its skin, its flesh, its bones- they all started falling from its body!!!

Cut through with thousands of knives. This phrase was perfect to describe Stepping Cloud Abyss Beast's body. Black Fairy butterfly army flew by violently, causing the massive Stepping Cloud Abyss Beast to become white bones in its lower half!!!

This top tier emperor beast type soul pet had an amazing defense. Dead Dream's blade form had not only broken through Sky Butterfly Queen's flower armor, it even caused a top tier emperor rank to have nothing but bone in its lower half now!!!

Stepping Cloud Abyss Beast let out a painful roar. Losing its lower body, the Stepping Cloud Abyss Beast only had a breath left. When it was falling from the skies, everyone was shocked to say anything else!

On the ground, finally breaking through the seal, Bing Liao stared lost at his stepping cloud beast. The feeling of his soul pact nearly breaking caused his heart to feel as if were being shredded too!!

Scary, too scary!!

Having been imbued with a dominator rank flower armor protection, it still couldn't avoid getting instantly killed!!

Far away, Chu Mu in all white gazed at the fight in the skies. The moment the Dead Dream instantly killed the Stepping Cloud Abyss Beast, Chu Mu lifted his head. The explosive strength in the technique was like a death rose blossoming in the sky, reaping lives in the name of death. This cold killing intent wasn't anything a soft Sky Butterfly Queen could match!!!

Chapter 889: Rising from the Dead, Revival Cocoon

"Flower Master Xia, quickly... quickly save my soul pet!" Bing Liao's face went pale.

Bing Liao viewed each and any one of these five soul pets as his life. If any of them died, this was a fatal strike to him.

After being struck by the mental blow of potential death, Bing Liao's mind calmed down, and he truly realized that the Dead Dream in the sky was not a normal dominator rank creature!

Xia Zhixian wasn't flustered. She calmly gave her Sky Butterfly Queen an order!

The Sky Butterfly Queen swooped down from the grey sky, and appeared next to the white boned Stepping Cloud Abyss Beast. The Sky Butterfly Queen's wings faintly moved and immediately, countless colors began to fly around like ribbons. They quickly covered the Stepping Cloud Abyss Beast inside.

The Stepping Cloud Abyss Beast was large and after it was wrapped by the colorful ribbons, it transformed into a colorful insect cocoon. It fell onto the ground cushioned by interweaving vines where the ten flower girls were.

The colorful insect cocoon was half translucent, and it was possible to see that the Stepping Cloud Abyss Beast's dropping life force aura had come to a sudden halt. Instead, the weak life force began to grow more vigorous!

Shockingly, inside the colorful insect cocoon, countless streams of blood began to appear on the Stepping Cloud Abyss Beast's white bones. These bloodstreams began to interweave, transforming into complete veins and arteries.

Immediately after, around the circulatory system, innards and flesh began to grow. This caused the remaining white bones in the lower half of its body to rapidly heal!!

Seeing this, Bing Liao was able to barely put on an expression of relief. Just now he had felt his soul pact nearly about to rupture. If Xia Zhixian was only a little bit later, his Stepping Cloud Abyss Beast probably would have been unsavable!!

Bing Liao had never interacted with Flower Hero Xia Zhixian before. Seeing this woman's ability to raise a soul pet from the dead, he was in incredible admiration of her!

Not far away, Chu Mu was also very shocked.

Chu Mu glanced at Ye Qingzi who was now next to him after secretly making her way over not long ago. He asked: "That Stepping Cloud Abyss Beast should have been dead. That woman was still able to save her?"

Ye Qingzi had just come, so she hadn't seen the Dead Dream's technique. She had only seen the Stepping Cloud Abyss Beast's corpse fall from the sky. However, she never expected that the Stepping Cloud Abyss Beast which had practically become a corpse was brought back to life by Flower Hero Xia Zhixian!!

"This healing ability is very close to resurrection abilities. Moreover, it's such a huge creature..." said Ye Qingzi.

The limit of Ye Qingzi's healing abilities was being able to keep a soul pet that was on the edge of death alive. For her, being able to bring a creature like the Stepping Cloud Abyss Beast back to life which had half of its flesh torn off was impossible.

Not only had Flower Empress Master Xia Zhixian brought it back to life, but she had also increased its recovery speed. This healing ability could only be described as terrifying!

"This is one of the butterfly species' strongest support techniques. Revival Cocoon. It's said that after it reached the dominator rank, even if another creature's organs have been damaged, as long as this technique is used in time, there's a chance of saving it. Furthermore, its effect isn't just simply bringing back to life. Take a closer look..." the old blind man was able to understand the state of the battle through Chu Mu's descriptions.

After the old blind man spoke with Chu Mu, he had gone with Chu Mu to chase after the Dead Dream. He seemed to have already known that the Dead Dream would fight with Xia Zhixian and the Empress Concubine.

Chu Mu nodded his head and stared at the colorful butterfly cocoon.

The Stepping Cloud Abyss Beast recovered very quickly. From its state of near death, new flesh had now appeared. This had happened merely in the span of a few techniques being released.

Even now, skin was beginning to grow!

For some reason, when Chu Mu saw skin grow on the Stepping Cloud Abyss Beast, there seemed to be something more on its skin...

"Hou hou hou!!!!!!"

Suddenly, the Stepping Cloud Abyss Beast let out a pained and angry roar!!!

Its strong four hooves had recovered, but now they seemed to be covered in sharp protruding armor, seemingly even more mighty!!

The cocoon began to split open, and the Stepping Cloud Abyss Beast savagely used its claws to rip the remainder of the cocoon open. Like a drawn bow, it crawled out onto the ground!!

"Beng!!!!!"

The ground seemed to fracture as several hundred streets began to sink. The Stepping Cloud Abyss Beast leaped into the air once more at the Dead Dream!!!

Watching the violent and tyrannical Stepping Cloud Abyss Beast surge into the air, Bing Liao was stunned!

The near dead Stepping Cloud Abyss Beast was able to perfectly recover in such a short period of time. This was a feeling of disbelief for Bing Liao. Moreover, it was even more unexpected that its fighting strength had more than doubled!!!

"Senior Flower Hero, this..." Bing Liao had already forgotten to command his soul pet.

A beautiful smile rose on Xia Zhixian's face. She didn't respond to him, but instead gave an order to the Wood Tray Immortal next to her!

Wood Tray Immortal was the same species as Ye Qingzi's Wood Tray Spirit, but its rank was higher than the Wood Tray Spirit by two ranks. It was a bonafide emperor rank creature.

Xia Zhixian's Wood Tray Immortal had even been strengthened to the peak emperor rank. Its thick life force aura managed to reignite life in the withered plants around it.

"Wood Spirit Dew!" Xia Zhixian gave the Wood Tray Immortal an order!

A cyan light transformed into a soft silk that curled around the Stepping Cloud Abyss Beast as it flew into the air!

The thick life force aura permeated its body, increasing the Stepping Cloud Abyss Beast's life force instantly!!

"This Wood Spirit Dew causes the Stepping Cloud Abyss Beast's life force to triple by its original amount!" said Ye Qingzi in shock!

Three times the usual life force and its doubled fighting strength. Adding on the flower armor, water shield and the healing effects, it was impossible for Dead Dream to instakill the Stepping Cloud Abyss Beast!

Although Chu Mu had fought with Ye Qingzi in the past, that was only at the monarch rank. Chu Mu had since not been in contact with another support soul pet trainer.

Today seeing Flower Hero Xia Zhixian use her powerful support soul pet trainer techniques, he was extremely surprised. With the existence of such a support soul pet trainer, there would probably be an overwhelming victory where not even light scratches were incurred!!

Bing Liao had four peak emperors and a paragon emperor. If Chu Mu were to take action, he would probably be able to annihilate all of them with one hand.

The Dead Dream's strength was no inferior to the half devil Chu Mu. However, once Bing Liao's five soul pets were completely supported and strengthened by Xia Zhixian's five soul pets, his five soul pets were able to lock up the dominator rank Dead Dream in the skies. This was too unbelievable!!

"The most terrifying aspect of Soul Alliance isn't the unparalleled strength of the other three Heroes within human territory. What's terrifying is if Flower Hero Xia Zhixian, the most powerful support soul pet trainer, is to fight with the other three Heroes as a team... the minute the Four Heroes all take action, the three palaces won't be able to stop them." the old blind man sighed.

Chu Mu's initial estimates of Xia Zhixian's strength only had her slightly above the Fourth Hero, Mo Ling. And if she were to fight alone, her fighting strength would be under Mo Ling's.

However, right now, he had no choice but to reevaluate her strength. The moment this woman was to support anyone in a fight, that person would practically become an unrivaled existence!

Moreover, Xia Zhixian was only supporting Eight Desolation Bing Liao, whose strength was limited. If she was standing behind the strongest Hero Chief, how strong would he become? If she stood behind all three of the other heroes, even if the three great palaces came out in full force, they would still have difficulty stopping them!

“Senior, the Dead Dream shouldn’t be this simple, right?” Chu Mu looked at the Dead Dream which was being locked up by five strengthened soul pets in the air.

The blind old man shook his head and said: “I feel that it doesn’t really want to fight.”

“Mhm.” Chu Mu nodded his head. He could also see that the Dead Dream wasn’t using many offensive techniques. Further, it wouldn’t use any techniques that hit the ground.

“It seems to be worried that its techniques will hit the city.” said Ye Qingzi. Her perceptive abilities were very sharp.

Even if a dominator rank creature was flying in the air, the area of effect of its techniques was vast. If it was afraid of hitting the city, the Dead Dream indeed would have difficulty using its full strength.

.....

On the ground, the Empress Concubine stared at the deadlocked aerial fight.

“You guys, do I said before...” the Empress Concubine swept her gaze over the lower ranked flower girls.

The flower girls behind her gave a bow and immediately summoned their soul pets. They began rushing off at different directions into the city.

These flower girls had all reached the spirit emperor rank. Chu Mu remembered that the defector young woman had at least a hundred of these emperor rank flower girl subordinates.

However, her subordinates hadn't all appeared here. If all of these spirit emperors were to gather here, the destructive force that could be generated couldn't be neglected!

As Chu Mu silently watched from the city, he naturally was observing the defector young woman's movements.

When he discovered one of the flower girls rushing towards his direction, a strange change occurred in Chu Mu's eyes. One of his hands began to lightly clench!

That flower girl, aged about thirty, was riding a Star Wilderness Devil Colt. As she was riding on it, she didn't notice that the path in front of her was gradually growing dimmer...

"What's going on?" suddenly, this flower girl realized something was wrong because no matter how much she ran, she kept running in the same place.

"Sou"

The Star Wilderness Devil Colt passed through the dense darkness and suddenly appeared in another shadowy alley.

If this flower girl had looked behind her, she would have surprisingly discovered that this place was very far away from where she just was. In fact, given the direction she was originally going in, it should have been impossible to arrive here!

The flower girl was stunned. With a face full of confusion, she looked at the young man and woman, and an ostensibly blind old man in front of her.

At this moment, the young man took a few steps forward. His abnormally evil eyes caused the flower girl to tremble. The feeling this man gave her was akin to the Empress Concubine. He was both mysterious and extremely dangerous!!!

Chapter 890: Nightmare Death Blade

“Why is her mouth so hard to crack. Could these flower girls have some sort of mental restriction on them?” Chu Mu recalled the devil flames, and looked at the flower girl whose gaze was now empty.

Chu Mu had grabbed this flower girl naturally to understand what goal the defector young woman had. Unfortunately, no matter how much Chu Mu pressured this flower girl, she didn’t say anything.

After reaching the spirit emperor rank, everyone viewed their own lives as very important. Even if they were loyal to someone else, they wouldn’t use their lives to safeguard normal secrets. However, the defector young woman’s subordinate seemed to view the defector young woman as a god. It seemed that divulging any information to the enemy was even more painful than the torture of having her soul burned by devil flames!

“That woman’s methods are truly out of the ordinary. She trained her subordinates to be so loyal.” Ye Qingzi glanced at the flower girl whose soul had been turned to ashes by devil flames.

The blind old man didn’t make any comments towards Chu Mu’s actions. He only silently sighed that these two youngsters were truly resolute in their actions. Even without obtaining any information, they killed someone and burned the body and all its traces. If Xia Zhixian were to discover this, the two of them would be in big trouble.

“Xia Zhixian probably wanted to find the item left by Chen Mo in Xiang Rong City. If I have guessed correctly, the reason why she created so many plants to cover the city is to act as her eyes and scouts. The reason why the underground foundations of Xiang Rong City these past few years haven’t been very sturdy is because of this.” said the blind old man.

“What did he leave?” asked Chu Mu.

It seemed that the blind old man had also been tricked by the Empress Concubine’s appearance. He had shifted the blame to Xia Zhixian, instead of the Empress Concubine.

The blind old man shook his head and said: “I’ve never seen it before.”

Since the defector young woman wanted to obtain it, it definitely wasn’t normal. Since Chu Mu was here, he had to think of a way to stop her.

However, although this time was underground, finding it was far from easy.

Right now, he probably could only wait and see what happened.

In the air, the Dead Dream was still coolly and elegantly fighting against Bin Liao’s five soul pets. As the fight continued, Bin Liao’s five soul pets, even after being strengthened several times, were unable to truly stop the Dead Dream.

It could be seen that the Dead Dream rarely used offensive techniques. It freely passed through the air, while continuously releasing Darkness Withering on the plants in the city.

The continuation of the fight allowed tens of thousands of soul pet trainers in the army to cover the entire city.

There were five soul pets fighting the Dead Dream head on giving the army a chance to attack. Otherwise, if a single one of the dominator rank techniques were to hit them, a huge portion of the soul pet trainers would be annihilated. The damage caused would be enormous.

“There are so many people. If they were to attack together, the Dead Dream probably wouldn’t be able to defend.” Ye Qingzi stared at the black mass of plant world soul pets in the distance and spoke with a bit of worry.

Chu Mu creased his brows. The strength of the army could not be underestimated. Even Chu Mu himself wasn’t sure he could fight the army alone. If the Dead Dream were to face so many enemies, it would be unable to wither all of the plants in the city.

“Your majesty, should we have the army attack now?” Xia Zhixian walked up to the Empress Concubine and spoke.

Although Bin Liao had obtained Xia Zhixian’s support, and could fight against the Dead Dream, he couldn’t continue doing so for a long time. From Xia Zhixian’s perspective, the Dead Dream hadn’t used its full strength.

It hadn’t taken out its full strength and it was already so hard to deal with. Without the army’s strength, it would probably be difficult to even harm it.

“Keep waiting.” said the Empress Concubine.

Xia Zhixian didn't say anything further. There were many occasions when she, party of the Four Heroes, was unable to see through this woman. Furthermore, Xia Zhixian didn't even know about Chen Mo, the Dead Dream, or even why the Empress Concubine had wanted her to distribute plants all over the city.

She was certain that these were all done for a reason, but until the very end, she was unable to guess what she wanted.

"Your majesty, it's ok." a moment later, the head flower girl riding on a wing type soul pet landed in front of the Empress Concubine.

The Empress Concubine's bright eyes revealed a trace of a smile. But amidst the elegance was also a trace of danger!

Seeing the Empress Concubine's gaze, Xia Zhixian knew that everything was in the palm of her hands, including the Dead Dream's appearance!

"Take action!" the Empress Concubine gave an order!

Suddenly, a flower shining with holy blue light blossomed under the Empress Concubine's jade feet. The petals of this flower were like skirts being taken off as they fell onto the ground, before mysteriously merging into the ground.

Light was overflowing as if a god was descending. The enchanting holy blue colored light was like a cornelian gem that seemed to cover the entire city in a starry sky.

“You can attack.” said the Empress Concubine.

After giving the order, the army of over ten thousand elementals began chanting incantations!!

The mighty energy generated by this many high ranking elemental soul pets was capable of reaching the dominator rank. As the first pillar of flames blossomed around the Dead Dream’s body, multi colored techniques suddenly began covering the sky, splitting open the heavens!!!

Xiang Rong City was covered in silence, but if one looked up, it was possible to see various dazzling elemental techniques blowing up. Amidst the deathly colors, countless astonishing cracks had appeared in the blue sky. They started from the city, expanding in all directions. These cracks were like enormous bolts of lightning, snaking from the sky to the ground. Every place, including houses, streets and statues were all blown to pieces!!!

“Hong Long Long Long!!!!!!!”

The explosions finally stopped after a long while. The enormous destructive force had razed the city to the ground. Even the underground cellars several tens of meters underground were terrifyingly caved in!

“Hu hu hu hu hu!!!!!!!”

The energy also swept over where Chu Mu, Ye Qingzi, and the blind old man were standing. Mo Xie jumped off of Chu Mu’s shoulder in time and created a fan-shape with her tails, protecting the three of them.

“What terrifying power.” Ye Qingzi grabbed onto Chu Mu’s neck. The energy had caused the ground and space to violently tremble. They were about ten kilometers away from the area in which the energy had been concentrated. There, the power of the energy that entered the ground had been even more terrifying, and how shocking the destructive force had been in the central explosion could be seen.

Water, fire, stone, and lightning had created the cracks in the sky. The black Dead Dream’s body slightly wavered and several feathers created by Black Fairy Butterflies fell off!

With one attack, several tens of thousands of Black Fairy Butterflies had been instakilled. These dead Black Fairy Butterflies were like rain that melded into the pond as they completely dissolved.

“Yi!!!!!!!”

Suddenly, the Dead Dream gave a long sharp cry towards the ground. The noise was like lightning that clapped next to one’s ears. It was stunning and ear-piercing. Eardrums seemed like they were going to explode.

A pair of eyes, as cold as the moon, looked down at the humans in the city attacking it. The wounded Dead Dream seemed to have been angered!!

“This seems to be the first time it has let out a shout!” Bin Liao’s face became much more serious.

For some reason, Bin Liao felt very very terrified when the Dead Dream got angry. It was as if the death god himself had lifted its scythe. Although he hadn’t been killed yet, it would be very difficult to escape his fate!!

“Ai, many people are going to sacrifice their lives.” the blind old man sighed.

The moment the blind old man’s voice faded, the Dead Dream’s elegant body slowly transformed into a cloak that could cover the whole city as it quietly descended!!

The colorful sun lost its color and the horizon that had been destroyed by elements began to sink!!

The color black rapidly covered the heaven and earth and a dense aura of death caused the people on the ground to feel more nervous than the plagued air. For a moment, all soul pet trainers descended into the thick darkness where one’s fingers couldn’t even be seen!!

Not only was the soul pet trainer army covered in darkness. Even the world around Chu Mu and the two others turned dark. Chu Mu, even though he had the darkness attribute, could only see up to a kilometer away!

Nightmare Death Blade!

The Dead Dream beat its wings very fast, and its body completely assimilated into the darkness!!

”Shua!!!! Shua!!!!!! Shua!!!!!!!!!!!!!!”

Cold blades of death flashed in the darkness. With each slash, a string of red would splurt out. Then, in a flash, it would return to darkness!

There were more and more cold blades criss-crossing through the air. As far as one could see, it was like the god of death was brandishing the proud and aloof scythe in its hands. With each flash, a life was taken!!

The frequency grew increasingly quick, making the flashes dazzle. Unknowingly, a thick stench of blood began to pervade the air!!

"Disperse!"

A holy blue light and golden dawn blossomed in the darkness, slowly dispersing the black energy.

The Dead Dream's technique had ostensibly ended. The two rays of light simultaneously dispersed the darkness, slowly revealing a broken city.

Suddenly, Xia Zhixian creased her brows. Where the rays of light had dispersed the darkness, blood was running like rivers!!!

Corpses of soul pets and humans were submerged in the blood, and none of their bodies were intact!

Blood was still quietly flowing. When their eyesight recovered, the army members who had managed to luckily escape the god of death's scythe began to tremble all over upon seeing that they were the only ones left standing there. They had no idea what had happened and they had collapsed into the blood, unable to stand.

As for those who had died, they were lying on the ground. Their eyes were still wide open, filled with shock and disbelief!
