

## Soul Pets Bk2 891

Chapter 891: Organism in the second soul pact

“Wenluo, Bingliao, Zhuang Scar, Mei Scar, you all attack, and I will support you.” Xia Zhixian immediately gave the command.

Xiangrong City’s soul pet trainers were all subordinates of Xia Zhixian. She couldn’t just watch as they were killed.

“I’ll support Dragon Absolute.” At this moment, Emperor Concubine’s voice floated into Xia Zhixian’s ear.

Dragon Absolute was the head of sixteen absolute. He had five top tier emperor ranks. After summoning them all in one go, the five emperor ranks were instantly covered in a sacred blue petal, becoming a flower scale that raised their defense.

After Emperor Concubine cast defensive technique, the flower girls aside them all gave Dragon Absolute Wen Luo’s five top tier emperors rank the effects of light armor.

Under all these strengthening spells, Dragon Absolute’s five top tier emperor ranks should be able to withstand Dead Dream’s attacks for a while.

Bin Liao still was supported by five soul pets of Xia Zhixian. However, after Bin Liao’s strongest Barbarian Wing Emperor died, Bing Liao’s entire being seemed negative.

Dead Dream’s strength was powerful beyond his imagination. Flower hero was also dominator rank, and under her support, there shouldn’t have been any deaths. Yet, Barbarian Wing Emperor had still died. Dead Dream’s strange dark type techniques caused all of Xia Zhixian’s healing abilities to be useless.

Barbarian Wing Emperor was Bing Liao's strongest soul pet. Dying like this, his status definitely would fall drastically. If another died, he probably wouldn't be able to keep his title as Eight Desolation.

"You're scared?" Xia Zhixian furrowed his brow after seeing Bing Liao's other four soul pets not daring to move forth.

"I don't dare." Bing Liao's expression changed.

"Stupid, this battle relates to Emperor Concubine. Even if all five of your soul pets died, she can help you climb back to your current position in no time, if not higher. Why do you think Dragon Absolute's rank climbed all these past years?" Xia Zhixian said scathingly.

Bing Liao was taken aback and glanced at emperor concubine. Does this veiled woman truly have such powers?

Bing Liao no longer dared to hesitate, again commanding his four soul pets to go into battle.

Bing Liao and Dragon Absolute's soul pets were in charge of preoccupying dead dream head on so it can't cast powerful techniques. They had trouble dealing real harm to Dead Dream.

The one that can truly threaten Dead Dream was the ten thousand elemental army!

"Attack!" Emperor Concubine calmly gave a command to the elemental army!

The elemental army similarly didn't dare to retreat at all. In their eyes, Dead Dream was a terrifying intruder that had to be sent away from the city!

Though thousands of soul pets could die with one technique of Dead Dream, the elemental army still had terrifying destruction!

The second elemental explosion unfolded into the skies. The massive energy again caused all of xiangrong city to shake, causing buildings to collapse even very far away!!

Tens of thousands of elemental explosions definitely wasn't any inferior to the spatial storm that Chu Mu can pull from the chaotic realm. Dead Dream also wasn't a soul pet with great defense. With two of these attacks, dead dream's feathers started becoming black snow that fell down from the skies!

"Wasting energy like this is very unworthy." Chu Mu's face grew serious.

He didn't know why Dead Dream was adamant in staying in the city, and even flying right above defector young woman. However, this battle would become incredibly disadvantageous for Dead Dream.

The soul pet trainer army was terrifying, but it had no mobility. If Chu Mu had to defeat these people, he definitely wouldn't stay in place and slowly fight them. After all, flower hero Xia Zhixian was a dominator rank expert. In this situation, fighting would make things less and less favorable to him.

.....

“Honglonglong!!!!!!!!!!”

A third elemental explosion came, shaking the heavens and earth. The city was completely flattened. The energy in the sky even took in one of dragon absolute top tier emperor rank soul pets, which utterly disappeared after things calmed down again.

Dead Dream’s wounds didn’t show any marks, but its feathers constantly became less dense.

At this moment, of dead dream’s sixteen wings, four wings’ feathers were very dim. Its other body parts weren’t as densely covered as before either. Clearly, the dominator rank energy with ten thousand elemental explosions did a good amount of damage to it.

“Yi~~~~~”

Dead Dream let out a shrill call, seemingly angry yet lamenting!

Suddenly, Dead Dream’s black body became like a large abyssal cave that hung in the skies.

“Pupupupu!!!!!!!!!!”

Countless organisms flapped their wings. Within the spatial abyss, countless black fairy butterflies flapped their wings, instantly becoming black clouds that covered the skies.

The sky covering black fairy butterflies all flew towards Xiangrong city, darting through the streets, staying on trees, or whirling around roofs.

The hundred thousand fairy butterflies were in numbers equivalent to the population of the entire city. They all went from one region and dispersed to the rest of the city, creating an impressive scene!!

The skies were pitch black. Where the army of black fairy butterflies passed by, plants began to wither, and countless black fairy butterflies created a scene that spelled doom for the previously bustling xiangrong city!!

Speaking of amount, xiangrong city's army was only a hundredth in power. No matter how many attacks it threw, it could only kill a limited amount of black fairy butterflies.

At the same time, the strengthened eight emperor rank soul pets were all helpless. They all flew in different directions and cast destructive techniques to destroy the black fairy butterflies, but there were just too many!!

"Flower hero, what should we do." Bing Liao glanced helplessly at the black fairy butterflies and asked.

Xia Zhixian was most worried about Dead Dream's ability to split up and gather its body completely. This was because once Dead Dream became a million fairy butterflies, even the strongest dominator rank organism had trouble cleaning off all the fairy butterflies in a short while.

Xia Zhixian didn't reply to Bing Liao, instead looking over to emperor concubine.

She believed that if Emperor concubine decided to fight, she had a reason and thus must have thought of a way to deal with this!

A hint of humor flashed past Emperor Concubine's eyes, causing even Xia Zhixian to momentarily lose her thoughts. This woman's beauty and allure was naturally seducing, causing even women to fall for it. All of this wasn't intentional; it showed completely naturally.

A smiling expression meant that she already predicted this situation would happen.

"Following, the real mission is to split up across the city and kill all the black fairy butterflies, leaving none behind!" Emperor concubine said with soul remembrance to Xia Zhixian.

Emperor concubine wouldn't give such a cruel command herself because she didn't want to take down her holy and clean disguise so easily. That would cause her to be exposed.

Thus, all these commands had to be given by flower emperor Xia Zhixian!!

"Your majesty, these black fairy butterflies were in the millions, we can't possibly end them all...." Xia Zhixian was slightly hesitant.

"Of course you'll be there to finish off the remains."

Emperor Concubine smiled, her lips against her veil as she slowly started an incantation.

This was the second time emperor concubine started an incantation. The first time, countless blue starlike glows appeared around the entire city, dazzling yet mysterious in purpose.

This time she cast an incantation, the sacred blue glow again blinked, causing blue rosebuds to blossom at every point that glowed blue before.

.....

“What is this woman trying to do?” Chu Mu tightened his brows.

Suddenly, a soul remembrance came into Chu Mu’s mental world, causing Chu Mu to be shaken.

This was a determined killing intent as well as some threatening intent. It was so large that even Chu Mu’s mind was affected, starting to feel some anger towards the black fairy butterflies!

“This is.....” Chu Mus’ heart lifted up in waves!!

First soul pact!!!

Chu Mu felt a mental wave come from his first soul pact, this was the defector young woman’s mental thoughts!!

Chuy Mu was connected to all his soul pets, so he could feel the thoughts and some mental emotions of them. This was a basic ability of all soul pet trainers.

All along, Chu Mu's first soul pact was like an empty pool, completely isolated and desolate, causing Chu Mu to feel absolutely nothing from it.

Yet this time, the dead water started rolling, lifting up into tides that constantly shook Chu Mu's mind!

This feeling was different from his other soul pets. Though he could feel her emotions, Chu Mu couldn't see what she was thinking!

Soul connection!

Chu Mu finally felt the soul connection with his first soul pact, causing Chu Mu to almost unconsciously open his soul and try to control the sacred yet evil woman like he controlled his other soul pacts!

Chu Mu felt her soul in both soul pacts, one sacred and untainted, while the other was evil and chilling.

Two completely different qualities with different emotions and mental states, yet they appeared on the same woman!!

“What is this second soul pact!”

Chu Mu's heart was shocked, as he watched the woman casting a technique far away!!

The second soul pact definitely wasn't Holy Stem Flower. It was an organism that Chu Mu had never seen nor heard of!

Just like Chu Mu's half devil, the power came from the combination of white nightmare and him. Clearly, then, the defector young girl's powers all came from the blood and soul of this second soul pact organism.

Yet, the organism in the second soul pact didn't belong to Chu Mu! It had a stronger soul connection to the defector young woman!!

Chapter 892: Human Territory? Flower Demon Nation!

One could say that this second soul pact was completely taken up by defector young woman's two souls. Chu Mu only knew it was a flower type soul pet.

He could feel the flower type soul pet's power was incredible, but he couldn't feel any spiritual connection to it; its control was completely under the control of the defector young woman.

This was similar to Ning Maner's soul pact with him. White Nightmare was controlled by Chu Mu and Ning Maner couldn't really do much to Chu Mu's soul pact.

"Why can I feel this woman's soul right now...." Chu Mu stared tightly at the defector young woman.

"Maybe this technique causes her to use up a lot of energy, and so she has no more energy to keep the soul barrier up."

Chu Mu and defector young girl's soul pact created a two way barrier. Chu Mu created one level, while the defector young girl also did. Chu Mu blocked it off because he didn't want the defector young women to know that their souls were awakened already. At the same time, he didn't want her to know of his location.

The reason defector young woman would seal it off was because she was afraid of Chu Mu becoming a devil and coming to find her for trouble.

Now that defector young woman was casting a powerful technique, it caused her to open her side's seal up, making the soul connection one way. This meant that Chu Mu could feel the defector young woman's emotional movements, mental movements, as well as soul strength, while defector young woman still couldn't feel Chu Mu's presence.

This look caused Chu Mu to realize that defector young girl's strength was outstanding and probably not any inferior to him as a half devil!

"Chu Mu, to your left!" Suddenly, Ye Qingzi's voice interrupted Chu Mu's thoughts!

Chu Mu came back to his senses, and followed Ye Qingzi's pointed finger.

A deep blue rose vine appeared like a blue clothed demon girl, twisting around as it slowly darted out of the ground, and then continued to grow!

"This.....this rose demon is a puppet flower demon!" Ye Qingzi knew flower type soul pets well, and instantly made a judgment.

"Puppet flower demon?" Chu Mu heard this phrase for the first time.

“Similar to bug type reproduced organisms where the mother organism created countless gluttonous insect monsters, rose demons aren’t created by reproducing from some flower type soul pet. However, they are called puppets because they have their specialties.....” Ye Qingzi immediately explained.

“Specialties?” The relationship between Thousand Mother and Gluttonous Insect Monster was something Chu Mu understood- it was a mother body that created countless later generations. If the mother died, they did too.

“They can be planted and grown! Mother flower makes seeds, and then throws them somewhere with a powerful natural aura to grow. The longer it grows, the more natural aura it absorbs, and the stronger they were!!” Ye Qingzi said.

“Five years.....monarch rank!” Chu Mu’s expression became grave.

Monarch rank wasn’t scary; what was scary was the length of time that these puppets were in hiding for!

“So that’s what it was..... that’s why..... why did I never think of that.” Suddenly, the blind old man said slightly dazed.

“Blind mister, what is happening?” Chu Mu looked over to the old mister and quickly asked.

“Puppet flower demons, so this place had long since become the nation of puppet flower demons. These past many years..... All these years I have that felt something was strange in Xiangrong

City, but I never thought it would be puppet flower demons!” Blind old man was still muttering to himself, looking even older than usual.

Chu Mu was even more confused and asked Ye Qingzi.

Ye Qingzi didn’t have a great expression either. Her small hand grabbed Chu Mu’s arm and said, “Fly into the skies to see how many blue dots are in the skies first.”

Chu Mu didn’t think much of it. When the entire city was swarmed with black fairy butterfly, Mo Xie constantly flew higher into the skies.

Xiangrong City was very large. Chu Mu flew thousands of meters into the skies to see the entirety of Xiangrong City.

Looking down from above, though countless black fairy butterflies obstructed their vision like dust, Chu Mu could still see the entire city.

At this height, any tall building was just a small bump on the ground, while all the streets became thin lines, criss-crossing around a bunch of house-like figures. Even the large plaza was just a slightly larger dot!!

Above these, millions of black fairy butterflies covered the land like a thick veil that slowly spread across the entire city’s skies.

But, no matter how impressive or mysterious these black fairy butterflies were, the black veil over the city couldn’t block off the blue glow!

The blue glow was as dense as stars, covering almost every street and plaza. Every structure had blue glows. Even the mountains that had a few kilometers outside blinked!!!

The entire city!!

Xiangrong City could host a few million people, so one could imagine how large the city was. The black fairy butterflies that veiled the entire city was already shocking enough. This city's dense glows was even more shocking!!

"Qingzi, the entire city is filled with blue dots, extremely dense, and not any worse than black fairy butterflies!" Chu Mu flew down in shock and fell by Ye Qingzi.

Just in the short time Chu Mu went up and back down, the streets and architecture seemed to disappear around Chu Mu and Ye Qingzi, replaced with a dense forest.

Ye Qingzi watched Chu Mu and bit her lip. After a while, she said in a low voice, "This entire Xiangrong City is a very arable piece of land. That woman likely used the natural spirits in Xiangrong City to create countless puppet flower demons....."

"Chu Mu, this isn't human territory, it had become the nation of flower demons long ago!!"

After Ye Qingzi said the last sentence, Chu Mu's soul trembled!!

Turning an entire tenth rank kingdom city to a flower demon nation! Unbelievable, truly unbelievable!!

Blue plants were still growing, becoming unstoppable in a short time.

The city no longer seemed to exist, completely replaced by these blue flower demon's bodies!!

The entire city was transformed instantly into a forest of flower demons! These uncovered puppet armies weren't created in a short time. Just how many years and power did it take to create a city full of these puppets?

"This woman is too terrifying!!" learning of all this, Ye Qingzi's body went cold!

Was it truly possible to win against this woman? She thought back again to the hoops of schemes within Tianxia City!

Both times, they were completely calm and undetected but instantly created a disaster.....

She was definitely the most dangerous woman in the world!

If Chu Mu hadn't controlled his anger and became a half devil on his wedding night, then what would have awaited him was this army that could take down even a dominator rank!!

"Damnit, Dead Dream is in lethal danger!!" Ye Qingzi suddenly realized and shouted!

Chu Mu was also drenched in shock and couldn't think. Only when Ye Qingzi mentioned it did Chu Mu react!

With so many puppet flower demons, it was a deadly blow to the millions of fairy butterflies. After all, each butterfly's offense wasn't that great!!

The entire city's plants were withered, but sacred blue demon flowers were growing even more rapidly, meaning they were completely immune to the darkness. This meant that a slaughter of all the black fairy butterflies was about to come!!

This was a huge trap!!

It was like a terrifying piranha plant that was silently waiting for the black Dead Dream to fly in and then devour it in one!!

"Don't let her succeed!!"

Chu Mu didn't know why the defector young woman wanted to kill Dead Dream, but Dead Dream was already in Chu Mu's heart his soul pet. He couldn't just watch as the puppet army killed it!!

Chu Mu's body was burning with silver flames. The blind man couldn't see. If Chu Mu retracted his aura, there was no way he could tell that Chu Mu was a dominator rank half devil!

"Kid, don't go!"

Suddenly, blind mister grabbed Chu Mu's arm!

“Huhuhu~~~~~”

The silver devil flames danced wildly, causing Chu Mu to look even eviler. Yet, the blind mister was tightly grabbing Chu Mu's arm, his aura suddenly increasing, allowing him to tightly keep dominator rank Chu Mu in place!!

Chu Mu was in shock as he stared in disbelief at the incredibly shockingly strong old man!

“I know you have a powerful force in your body, but listen to an old man for once. If you go now, you'll only lose your life as well. Don't forget about the dominator rank Xia Zhixian. Retract your power quickly before they notice.” The old man's arm was like an iron clamp, unmoving!

“Old mister.....’ Chu Mu's heart quickly cooled down.

Even before speaking, Chu Mu knew that this blind yet wise man was likely his father's teacher!

His soul remembrance didn't go beyond ninth remembrance spirit emperor, but he definitely once had dominator rank organisms!

He was also who Old soul teacher De said was the last person to ever go against the soul alliance master!

Chapter 893: Bright-Colored Toxic Flower

“These Rose Flower Demons are covering the entire city. Even if you were stronger than you are, you can’t save the Fairy Butterflies spread over the entire city. Otherwise, you’ll expose yourself to her.” said the blind old man.

“But...” Chu Mu didn’t want the defector young woman to succeed.

The Dead Dream, with its rank, would use the life inheritance when its life came to an end to continue its race. However, if it fell into a trap and was killed, it would not be able to use life inheritance in time. If there was only one Dead Dream in this world, then the Dead Dream race would become extinct!!

“It’s protecting this piece of land.” said the blind old man.

The city was looking more and more vibrant, full of nature’s energy. No matter where one went, it was always possible to see the beautiful picture of overflowing spring.

However, no one in this city knew that underneath this flourishing scene there was hidden a terrifying legion of thieves. These thieves had absorbed away all of the natural energy that had accumulated over several hundred years.

In these hundred years, the earth would become more and more fertile. However, in another hundred years, this energy filled land would become barren where not even grass would grow!

Xiang Rong City’s territory was the area that the Dead Dream protected. The reason why it appeared in this city and used the powerful Darkness Withering technique to wither all the plants was not to destroy the prosperity that was cultivated with great difficulty by the humans, nor was it to bring disease and disaster to the city; instead, it was to save this piece of land and save the Xiang Rong City for another 100 years!

However, how many people in Xiang Rong City knew of the truth? Even if someone told them everything, the only thing they would believe was that the holy goddess Empress Concubine and these puppet flower demons that would protect them. They wouldn't believe that the Empress Concubine was going to steal the resources Xiang Rong City would rely on in the future.

... all over the city, the puppet demon flowers were rapidly growing, transforming into a huge forest where the sun could not be seen.

Powerful hypnotic pollen sprinkled through the air, covering the city. The puppet flower demons weren't attacking the residents of this city. However, after the pollen was spread, everyone who wasn't able to head underground in time was forced into a hypnotic sleep. Even soul pet trainers were unable to stop themselves from sleeping.

The sleeping pollen flickered with a blue light. The light attributed pollen completely countered the dark attributed Fairy butterflies. Although the Black Fairy Butterflies also could create hypnotic sleeping powder, while flying in the sleepy air, unknowingly, a few of the smaller Fairy Butterflies began beating their wings slower before slowly falling to the ground.

The puppet flower demons were also a holy blue color, and they grew like huge trees aiming for the skies. In the view of others, they resembled a mighty army protecting the city. However, once the Fairy Butterflies fell en masse from the large-scale sleeping pollen and fell into the puppet flower demons, the puppet flower demons changed forms. Their greedy flower mouths and poisonous teeth were exposed and ripped the sleeping Fairy Butterflies into pieces... even though there was no blood, each street and alleyway was filled with this terrifying scene. The low ranking Black Fairy Butterflies were easily put into a sleep, and then died in their sleep under the heartless attacks from the puppet flower demons.

“Pu pu pu pu pu~~~~”

A ground of high ranked Fairy Demons' wings were destroyed as they flitted past Chu Mu and the two others. Their injury riddled bodies flew through the tall yet imposing puppet flower demon's branches. They attempted to use mental techniques to awaken the sleeping Black Fairy Butterflies hanging on the petals and branches.

Unfortunately, the holy blue colored puppet flower demons were extreme counters to both the wing type and the dark type. This group of high ranking Black Fairy Butterflies was ultimately unable to escape its fate of death.

"They know this place is filled with traps. Yet, why do they still come?" Chu Mu looked at the beautiful yet sad snowflake-like bodies of the withered Black Fairy Butterflies. A sense of sorrow arose in his heart.

"It promised Cheng Mo that when this piece of land was in danger, it would appear..." said the blind old man.

"It's like moths drawn to a flame..." Ye Qingzi could no longer watch the sad scene of the dying Black Fairy Butterflies.

Chu Mu glanced at Ye Qingzi, before looking at the cheering soul pet trainers on the streets.

These soul pet trainers hadn't been put into a hypnotic sleep. They viewed these Black Fairy Butterflies as rampant insects that brought the plague and death with them. The more of them that died, the more the soul pet trainers would feel safe.

"These people really can't tell. The Dead Dream truly is a moth drawn to a flame." Chu Mu sighed with a bit of resentment.

It truly was a moth drawn to a flame. When it was weak, it sought for its survival and when it was strong, it sought for the survival of weaker creatures ... it was the king of this piece of land, yet it had never appeared on this piece of land with a mighty and imposing aura, demanding for resources from its own land.

Nonetheless, when danger appeared, its lonely figure appeared in the air in elegance, coolness, and grace.

There didn't need to be too much of an explanation. The only thing it was doing was fulfilling its duty. Even if the people of this land saw the color black as auspicious, or even if those ignorant people had been bewitched so terrifyingly by a female demon that they couldn't tell the difference between right or wrong... Chu Mu believed that it couldn't be bothered if the humans knew about its intentions, nor did it require humans to understand that it was protecting this land.

There was even the chance that in a hundred years, the people would put the blame on it for the resources of the land withering up. But what did that matter. If the humans couldn't realize that the one destroying the land they survived off of was the goddess they worshiped, and the one saving them was the Dead Dream in the darkness, then the fate of this nation had already been determined and would ultimately perish.

Things that were beautiful, multi-colored, and enticing were always poisonous.

The entirety of Xiang Rong City was protecting a holy flower that on the exterior was flawless and extremely enticing. They hadn't noticed the poison unknowingly seep into their bodies and blood.

Even if someone told them they had been poisoned, they would get angry and turn on that person because they were still in a fantasy.

Chu Mu never saw himself as a hero of the world. The only things he cared about were the things that already had emotions - people, cities, soul pets, territory... however, Xiang Rong City's people were already beyond cure. Chu Mu could only watch from the side. What he did care about was the Dead Dream, like a moth drawn to a flame.

The layer of black covering the sky gradually grew thinner.

The millions of Black Fairy Butterfly were being destroyed one at a time. The world of blackness was being occupied by the beautiful yet poisonous holy blue color.

“Chi chi chi chi~~~~”

A Black Fairy Butterfly filled with wounds fell onto Chu Mu's shoulder. With exhaustion, it half opened its eyes. It lightly fluttered its wings. The light in its eyes had noticeably dimmed.

Although this was only one small Fairy Butterfly of the Dead Dream's million, Chu Mu could see very much from its eyes. Presumably, the Dead Dream's heart was also like its eyes.

“I buried Tianmang's soul pets where Chen Mo was buried. Come with me and take a look. That item may be there.” said the blind old man.

“Ok.” Chu Mu nodded his head.

Two hundred years ago, there was someone stronger than the Alliance Master. The thing it left probably wasn't ordinary so he couldn't let the defector young woman have it.

“How many more places do we have to search?” the Empress Concubine stood on a holy blue flower with an indifferent expression. Towards the surrounding Black Fairy Butterflies dropping from the sky, she was indifferent.

“There’s only one more place left. That place is a commemoration memorial. Senior Chen expressed that it was a historical tomb, and that the ground there was special. Our seeds and branches were unable to penetrate that place.” said the chief flower girl.

“Oh, it’s in that place.” the Empress Concubine nodded her head. She used soul remembrance to say to the Flower Emperor Master, “I’ll leave the rest to you. Don’t let off a single Black Fairy Butterfly.”

The commemorative memorial was on a grassy slope located north of the library.

It was a rather simple commemorative memorial. There was no name or record. The only thing there was a solitary white stone, silently erected in its spot.

This was one of the few places in the city that had no puppet flower demon.

“Did you see anything?” behind the stone memorial, a young woman wearing a long skirt was half kneeling on the ground, She was peering into the hole dug into the ground.

“Nie~~~~~” from within the hole dug so deep underground it was like a well, a helpless voice rang out.

“How stupid. Second White, go down and look. My senses cannot be wrong. It’s definitely here.” the young girl pouted her small mouth. She was like a pampered and bullying young mistress, ordering her bodyguards while criticizing them.

Second White’s face was unsightly. It was a mighty Nightmare Emperor. How could it do digging work!

However, after squirming for a moment, it was unable to withstand this mistress’ schemes. It could only “roll up its sleeves” and jump underground to dig with Fourth White.

The dirt here was much more firm than other places in Xiang Rong City. The White Nightmares had to exert no small amount of effort here.

“Have you seen it??”

Ning Maner was lying next to the black well peering down as her hair freely dangled down.

Nie~~~~”

“Nie~~~~”

The two White Nightmares both looked up with bitter expressions, indicating that they hadn’t found anything.

“Keep looking!” bossily said Ning Maner.

“Pai!” suddenly, a soft hand slapped Ning Maner’s butt which was raised in the air.

Ning Maner retracted her body in a fright and in shame. She turned around angrily to see which fellow had the guts!

“Oh, Big Sister Ye...” Ning Maner immediately saw the beautiful Ye Qingzi standing next to her.

The person who had just hit her was Ye Qingzi.

“We had you go hide in the cellar. Why did you run off here? You also shamelessly were exposing your butt!” Ye Qingzi glared at this wild girl.

Ning Maner hastily stood up and arranged her long skirt. With a flushed face, she stared at the stone-faced Chu Mu who was on the side. In a sweet voice she said: “How would I know someone would be here? Naughty big brother. Stop acting prudish.”

“Silly girl, have you found anything?” asked Chu Mu.

In truth, Chu Mu never expected Ning Maner would come here first. He remembered that she seemed to have told him before that she had sensed some spirit aura coming from here. It seemed that there really could be something buried underneath.

Chapter 894: Full City of Demon Flowers

Chu Mu casted an incantation, and retracted Mo Xie into his soul pet space and summoned devil tree battle soldier.

If the item was underground, devil tree battle soldier would naturally find it easier to search around.

Devil tree battle soldier was already high class emperor rank after Chu Mu strengthened it. It pulled out the laboriously digging White Nightmares, and sent its roots deep into the well!

The dirt here was even stronger than some crystals and gemstones, so devil tree battle soldier had to take things slowly.

“Brother, I feel it already, its right under the old tree, just dig a bit more.” Ning Maner instructed the devil tree battle soldier from aside.

The devil tree battle soldier’s roots were very plentiful, with dirt getting thrown aside very quickly.

“Hua!!!!!!!!!!”

Suddenly, devil tree battle soldier seemed to hit an empty layer. The ground where its roots touched suddenly collapsed downwards, revealing a black hole.

“Chu Mu, look.” At this moment, Ye Qingzi pointed into the sky and said.

The moment the whole was revealed, Chu Mu felt a thick aura escape and fill the air.

At the same time, a large region of black fairy butterflies that were avoiding puppet flower demons seemed to get some signal and started to move towards this region.

What was scarier was all the nearby puppet flower demons moved in a large group. The vines, roots, all started extending towards this area!

“You go down to check it out, I’ll get rid of these puppet flower demons.” Chu Mu said.

Ye Qingzi nodded, entering the black cave full of spirit aura along with Ning Maner and the old blind mister.

The puppet flower demons weren't very swift. They waved their large wood like soft bodies, transforming their countless branches into attacking weapons. Like a deep blue female demon holding vine whips, they were alluring yet vicious.

There were a lot of puppet flower demons nearby, nearly thousands of commander ranks. They all frenziedly moved towards the commemoration memorial leaking spirit aura. At the same time, their vines filled with poisonous barbs still combatted the black fairy butterflies in the air, continuing the battle.

“Unroot them all!” Chu Mu said to devil tree battle soldier.

“Ao!!!!!!!!!!”

Having just stepped into high class emperor rank, the devil tree battle soldier seemed excited. Facing the endless puppet flowers, it was red eyed and let out large roars!

The high class emperor rank devil tree battle soldier already had thousands of roots at once. These roots were buried into the hard ground of this hill. Though this would give some resistance to devil tree battle soldier, they were still an immense threat to the puppet flower demons.

“Peng!!! Peng!!!!!!! Peng!!!!!!!”

Devil tree battle soldier’s roots were like powerful arms, tightly grabbing the puppet flower demon’s roots in the ground, and wildly lifting them out of the ground by the roots!!!

The nearest group of puppet flower demons weren’t allowed to escape. They were all pulled out, but in the air they waved their long branch vines and whipped towards the devil tree battle soldier!!

“Pa!!!!!!!”

A long whip caused the ground to break open!

Following that, even more long vines whipped over, each one leaving a long mark on the grassy hill.

The grassy hill was extremely hard. With normal dirt, after all these whips, the entire hill would probably disappear.

“Destroy them.” Chu Mu gave another command.

Devil tree battle soldier stood on the grassy slope, like a fully equipped warrior facing off against a group of disheveled beasts!!

“Ao!!!!!!” Devil tree battle soldier let out another roar, causing all the puppet flower demons to get grabbed by the devil tree battle soldier and to be twisted together!!

The devil tree battle soldier’s energy wasn’t something a commander rank flower demon could withstand. When their roots were twisted, the puppet flower demons were easily broken!!

Immediately, the blue forest around the grassy slope thinned out slightly. Without the help of dirt and after being ripped apart, there was no way they could stand back up.

At this time, groups of dark fairy butterflies joined in on the fight against puppet flower demons. Its body was rendered into a group of leaf blades, becoming a smear of cold glint that went through the night sky, which mowed down the puppet flower demon army like a scythe through wheat!

The commander rank puppet flower demons weren’t a match for devil tree battle soldier, and the black fairy butterflies. Quickly, all the puppet flower demons within a three kilometer radius of the hill was cleared out.

Standing on the hill, Chu Mu glanced around. At this height, he could see ten kilometers out.

Though the blue flowers and branches within three kilometers were all gone, Chu Mu was sure that he could see even denser groups of puppet flower demons coming.

A deep blue had taken over this city. The grassy slope was like a lone island amongst the growingly vicious sea water that was rising up, devouring everything else!

Suddenly, Chu Mu felt a soul move towards them!

This was defector young woman's soul. She didn't seal her soul off right now, so Chu Mu could still feel her position.

"That's trouble!" Chu Mu thought to himself.

Chu Mu was sure the defector young woman herself was incredibly powerful as well. Especially the organism in his second soul pact, once it combined with her soul, a half human, half soul pet organism like his half devil would appear.

Chu Mu estimated that the second soul pact organism may be stronger than his White Nightmare. If the defector young woman's own soul remembrance was very high, after becoming half soul pet, she may be even more powerful than himself.

And though the defector young woman's own strength was slightly fuzzy, the entire xiangrong city was taken over by puppet flower demons. This meant that everyone fell into her trap. With one command, endless puppet flower demon would pounce forth. Even a dominator rank half devil could get restricted and be unable to deal with it.

.....

"I can feel it, it's exactly what I need!" Emperor concubine stopped in place, and gazed at the commemoration memorial.

That aura, full of natural energy. If it could be taken, she could train even larger puppet armies!

This way, not only Xiangrong City, but all of Xianxiang Realm, and maybe even Tianxia City would be hers!

“En? Someone’s there!” Emperor concubine’s expression became serious, as she gazed at the few figures that suddenly floated into sight on the memorial.

“Master, we lost quite a few flower demons in this position.” The lead flower girl said.

Emperor concubine didn’t care about these insignificant losses, and closed her eyes to send her remembrance outwards!

“The spirits are getting further away.....” Emperor Concubine was slightly shocked and her tone went frigid, “Someone got here first!!”

The other flower girls were stunned but quickly glanced over at the figures fighting away and reacted, “Subordinate will send people after them right this moment!”

Truly reckless, daring to steal from emperor concubine. These people truly didn’t want to live anymore. Didn’t they know that all of xiangrong city was under emperor concubine’s control? Even the dominator rank Dead Dream couldn’t escape from this flower prison!

“I do want to see who dares to play these games in front of me.” As emperor concubine spoke, she slowly lifted upwards, disappearing in bursts of sacred blue flower blossoms. Every blossom seemed to leave a brief glimpse of her beautiful figure.....

The four flower girls nearby saw emperor concubine chase after the culprits herself, and they didn't dare fall behind, quickly riding their own soul pets through the dense blue sea, tightly following emperor concubine as she easily warped through the flowers.

Sadly, they couldn't follow for long. The four high class emperor rank flower girls couldn't keep up with their master's footsteps, only able to find their master's position through the puppet flower demons.

.....

"The woman is coming!" Chu Mu turned around to look at the blue flower demon forest, and his expression became stern!

If it were outside the city, Chu Mu at least had a chance against the defector young woman. However, in xiangrong city where danger was at every corner, Chu Mu didn't dare to face off against her!

"Sousousou~~~~~"

Suddenly, the puppet flower demons ahead lifted up from the ground, starting to interlace all their thin branches to create a massive sky blotting net that didn't even let light through.

"Brother!!!!" Ning Maner let out a yell.

Chu Mu looked over and found that the forest like puppet flower demons started to attack them, causing countless flower branches to extend forth. If anyone were grabbed in, they would be left without a whole corpse!

“White two, white four, you protect them and leave. Maner, give the item to me and I will distract her.” Chu Mu said.

They had to walk separate ways. In this place full of defector young girl’s puppets, it was easy for everyone to lose their lives here. Even Chu Mu becoming half devil couldn’t protect them.

“Then you be careful.” Ye Qingzi said worriedly.

Ye Qingzi knew clearly that Chu Mu was very scary against these enemies. With a slight mistake, they would have lethal danger!

“Brother, don’t let that evil woman get you!” Ning Maner said.

“Old mister, I beg you to bring them somewhere safe.” Chu Mu said to the old mister.

“Don’t worry.” Old blind mister may not have incredible strength anymore, but bringing two women out of the pursuit of some puppet flower demons should still be easy.

Chu Mu nodded, throwing the precious box of unknown use into his spatial ring and quickly flew towards beyond the south city wall!

Chapter 895: Predestined Enemies

“Huhuhuhuhu!!!!!!!!!!”

Silver glow suddenly flashed brilliantly in the sacred blue forest. Regardless of the emperor rank puppet flower demons that could almost reach the clouds, or the shorter shrubs, the silver flames instantly lit everything up, causing the sacred blue to be taken over with a silver flame!!!

The cold soul flame came towards them from up front, projecting onto the emperor concubines face.

She sat silently amongst the branches, her purple blue hair and clothes slightly messy from the cold gusts blowing forth.

A pair of cold eyes stared closely at the burning flames, mixed with a complicated calmness and rumination.

“Who is it?” Emperor concubine saw the devil flames connect up like a sea and asked herself.

From nature’s praise, emperor concubine had the sharp anticipation that she felt a vague threat. Clearly, some expert showed hostility toward her.

It seems like this time it was the same person!

Flower type organisms feared fire, especially such a soul devil flame. Regardless of emperor ranks or warrior ranks, no flower demon could live within this powerful silver devil flame.

Immediately, the dense flower demon army was burnt clean, and the aura that was powerful enough for emperor concubine to be wary was swiftly leaving!

“No matter who you are, if you fall in Xiangrong City, don’t even think about leaving!” Emperor concubine stopped slightly, and continued to cast her moving flower technique!

Blossoms of sacred blue flowers blossomed before the silver devil flames could dissipate, constantly moving forth. Every blossom would have her figure in it, and it wasn’t any slower than if Chu Mu continuously casted displacement specter!

The remaining silver devil flames couldn’t cause much harm to her. She was completely locked onto the person that made her feel threatened. In front of him, more puppet flower demons would block his path, so emperor concubine was following along unhurriedly, wanting to see just how powerful this person was!

“Top tier emperor rank or invincible emperor rank?” Emperor concubine smiled with pondering.

She could already see the silver figure. It was a white nightmare with special devil flames, but it gave off the feeling of a half devil.

Half devils weren’t even that attractive to emperor concubine. Nightmare palace often had lower rank half devils. Those half devils were worthless. Truly valuable half devils were powerful ones like Bai Yu!

The opponent before her that was burning all her puppet flower demons seemed to be a half devil. Sadly, this half devil didn’t have that strong of an aura. If she attacked herself, a single technique could beat it.

“Take it down.” If it was a top tier emperor rank half devil, she would at most gain some half devil energy from it. Emperor concubine didn’t want to waste time anymore. She wanted more so to get the item that this half devil stole, the item Chen Mo left behind!

After emperor concubine let out a command, huge groups of monarch rank puppet flower demons gathered together, frenziedly attacking the silver devil man!

“Huhuhuhu!!!!!!”

Suddenly, silver devil flames flared up, causing an even larger group of devil flames to shoot outwards. All the monarch rank puppet flower demons became the weakest weeds, disintegrating with the slightest contact with the flames!

Out on the south side of the city, the large group of puppet flower demons were specially trained. All of their strengths were particularly powerful. Even a top tier emperor rank organism would die without a trace if it fell in.

Yet, the sudden explosion of silver other type fire energy easily burned through the flower demon army that could kill even top tier emperor ranks. This power wasn’t something an emperor rank could have!!

“Dominitor rank!!” Emperor concubine’s expression instantly changed.

An incantation started as two sacred blue branches grew from under emperor concubine’s feet, spiraling around her soft body.

With her command, the two branches suddenly extended outwards, becoming two blue arcs that dashed straight through the silver devil flames.

Emperor concubine stepped forth, hurried yet keeping her elegance. However, every step of hers moved her an incredible distance, as if she were stepping into a constantly shrinking scene.

“She’s here!”

Chu Mu’s heart sank, as he gazed at the purple blue haired woman that appeared from the flames.

The devil flames Chu Mu controlled were blocked out by some energy of the woman’s, unable to reach her soul, so he could only watch as she approached slowly yet swiftly!

A pair of calm yet beautiful eyes looked through the silver flames, staring at Chu Mu’s back image. Chu Mu didn’t turn around because he knew if he saw the woman’s face, he wouldn’t be able to control the devil-like anger in his heart.

“There’s no point to escape. Dead Dream couldn’t escape Xiangrong City, do you think you can escape from my army?” Emperor concubine looked at the silver devil man and her expression became serious and concentrated.

Silver Devil Man!!!

She didn’t expect that the person to go against her this time would be the silver devil man that heavenly concubine Mu Qingyi had mentioned before!!

Chu Mu turned around, and gazed sharply at this woman with his silver eyes.

With a casual wave, an evil slash cut through ten kilometers, creating an arc that instantly cut all the restless puppet flower demons in half. The entire blue forest shortened as all the branches fell.....

Chu Mu's action was telling the proud defector young woman that her army was flimsy!

Emperor concubine didn't attack recklessly.

She knew that the silver devil man in front of her was incredibly powerful. Though she had the confidence to take it down, the devil flames' counter towards flower types would cause great losses for her.

So, before understanding the situation, the emperor concubine didn't want to make an enemy out of nowhere that she couldn't fully defeat while hunting Dead Dream down.

Chu Mu didn't speak. While both of them had their souls shut, even if they were face to face, the defector young woman couldn't possibly recognize him as the man she signed a soul pact with.

Evil, cool, emotionless eyes with anger and resentment under the surface, this was the feeling the defector young woman got from this silver devil man!

"That thing doesn't belong to you, give it to me and you can leave." Emperor Concubine said in a commanding fashion.

This was xiangrong city, the nation of flower demons. Even if the dominator rank king of south forbidden realm appeared, she didn't have to lower her status as a queen, especially when the emperor concubine could tell that the silver devil man showed strong hostility towards her!

Chu Mu remained silent, silently yet also irritably looking at her!

It was this woman that almost made him unable to become a soul pet trainer. It was this woman that stole his supreme talent of being a spirit emperor before twenty years old!

Most unbearably, this woman had no remorse after lying. She remained overbearing, arrogant, and high up.

Even through the burning silver devil flames and puppet flower demon army that carpeted the space, Chu Mu could still feel the angering and disgusting aura of the woman!

All the nobility, holiness, elegance, were just a bright outfit she wore in front of idiots. When she took that off, the ugly nature of her heart was completely revealed!

"Leave the item behind!" Defector young woman's voice became cold and angry.

The moment she said that, the nearby puppet flower demons became ferocious beasts that reared their ugly heads!!

These puppet flower demons were completely controlled by defector young woman. Though Chu Mu killed a huge group of people, the entire Xiangrong City was filled with puppet flower demon armies, unable to be completely killed.

Chu Mu's chest went up and down, the silver flames burning frenziedly!

The flames that appeared on him were the countless years of rage and hostility pent up over the years. At this moment, the woman was right before him, still wearing a laughable veil.

She wasn't a goddess high up, she was just a soul pet that betrayed him for her own benefit!!

Logic told Chu Mu to turn around and leave immediately. He couldn't afford to get tangled with her, because once she found out his true identity, the war between three palaces and soul alliance would completely erupt, and the god-like soul alliance master would appear to destroy everything!!

However, the closer Chu Mu was to defector young girl, the harder the rage within him burned throughout his entire body like wildfire!

Since he was ten, his first soul was humiliatingly occupied. He went through countless bitter trials, training, and a long dozen year of training. Chu Mu yearned to stand at the top of soul pet trainers. But, he also yearned for a day where he could find back the first soul he had lost, find back the soul pet trainer dignity he lost utterly to this woman!!

The woman he stood face to face with was his soul pet!

She lied to him, looked down upon his weak self, and glamorously yet apathetically left, causing his soul and heart to be wounded and almost ruined his dream of becoming a soul pet trainer!

No matter how hard the road to becoming a soul pet trainer, how bitter it was, Chu Mu persevered through, not giving up on a single day.

Constantly repeating the actions to become stronger just so one day, he could step on this unethical woman and reclaim his dignity!!

This emotion that Chu Mu had kept had been pent up for too long!!

Everyone had a limit to how calm they could be!

At this moment, Chu Mu's heart was stuck between the struggle of logic and extremes.

If he were any stronger, he could start a fight with her today!

Yet, where would he get this extra energy from? Just how could he deal with the puppet flower demon army and put his all towards this predestined enemy?

Chapter 896: Silver Devil Man, Sacred Blue Flower Concubine

Four high class emperor rank flower girls came, and they all stood by emperor concubine's side.

Leader flower girl glanced at the white nightmare-like organism and was about to say "let subordinate handle these enemies....." but upon feeling the terrifying coldness come from the opponent, leader flower girl didn't dare to speak.

Four flower girls had seen this silver white nightmare for the first time, but for some reason, they felt that the organism in front of them was more vicious and calmer than a regular white nightmare!

“Back off.” Emperor concubine didn’t even glance at the four flower girls before saying coldly.

“Protecting your majesty is my responsibility.....” a flower girl that hadn’t noticed what was wrong said.

“Back off!” Emperor concubine repeated, much louder this time!!

The simple tone was made heavier, which caused the calm emperor concubine come off as irrefutable and stern!

“You four can’t even take a single hit from it!” Emperor concubine explained apathetically.

The four flower girls were all stunned. The four combined were not any weaker than sixteen absolute. If they couldn’t even block a single attack, just how powerful was this special silver devil man!?!

The flower girls felt the strangeness in the atmosphere beforehand because of the confrontation in fighting intent between the emperor concubine and the devil man. This was an invisible mental collision between dominator ranks. The flower girls’ soul remembrance was relatively high, so they only felt some pressure. If anyone under spirit emperor rank stood there, they wouldn't even be able to breathe!

Four flower girls no longer hesitated and quickly backed off. They found that the usual smiling and at ease emperor concubine had a very solemn face, clearly no longer daring to underestimate her foe. This was very rarely seen usually!

In reality, defector young woman had a very strange and unstable feeling. This was a special ability she had. Once she met something that could endanger her life or have great influence over her, her premonition would appear.

For some reason, though emperor concubine had the confidence to deal with this silver devil man, it gave her an incredibly dangerous feeling. The anger in his heart even caused her to feel a slight fear, a fear without any reason!

The unsettling premonition caused her to slowly change her mind!

“It’s definitely a threat in the future, I have to get rid of it now!” Emperor concubine made sure.

Anyone that could cause unease to her, if she had the control, should always be instantly killed, so that there won’t be hidden trouble for her in the future!

Suddenly, the opponent retracted all of its aura!

“Want to escape?” Defector young girl laughed coldly.

.....

The puppet flower demon army was densely packed. The blue branches and petals stacked up countless layers, blocking off Chu Mu’s vision.

Even in the air, the puppet flower demon army could easily extend to the skies, making no difference from the ground.

Chu Mu didn't stay to fight. No matter how willing he was to fight and how angry he was, Chu Mu had to keep the big picture in mind. Xiangrong city was already controlled by her, and a single mishap would cause Chu Mu to follow the fate of Dead Dream, getting devoured by this terrifying puppet demon army.

"I'll let this woman be rampant for a little longer!!", Chu Mu thought secretly.

He casted displacement specter and forcefully charged into the densely packed flower demon forest!

Flower demon's arm was like countless poison snakes interlaced. The place Chu Mu appeared at only had a single ray of light spill down, the rest of which was covered by blue flower demon arms!

After every time Chu Mu landed, he would cast a technique to clear out the path forward!

"Jie!!!!!!!"

Suddenly, out of all the blue flower demons, two sharp glints appeared!

These were the defector young girl's eyes!

The endless flower demon forest was her strongest realm. She could move around it at will and control it at will!!

“Flower throat!” Defector young woman’s proud figure appeared within the flowers as she spit out the name of a technique!

Chu Mu was at the south outer city, where there was a large plain and the puppet flower demon army extended a dozen kilometers.

When the defector young woman casted her technique, all the puppet flower demon armies opened their mouths, going from the inside out and became a large blood basin filled with vines devouring towards a certain direction!!

From high up looking down, Chu Mu noticed that where they were, ten kilometers became a black throat cavity, so massive that Chu Mu was like a grain of sand in a lake!!

Chu Mu lifted his head and felt like he fell into a basin. He could only see the blue sky right above him. What was scarier was the basin around him was closing in, causing his body to fall down constantly!!

Chu Mu was shocked!

This defector young woman’s technique was dominator rank. Adding on the flower demon army’s advantage, Chu Mu’s silver devil flames were hard to block even with type counters.

Chu Mu already flew upwards the moment he realized this to try to escape this massive mouth.

However, the sky above him was still taken up. Chu Mu completely fell into this flower stem's throat that seemed to encompass the entire south outer city!!

Though it was completely dark, an acrid smell took up almost all of Chu Mu's nose.

Though he couldn't see anything, Chu Mu felt the hidden great danger within the flower throat!

"Evil slash!" Chu Mu's arm became a knife that heavily slashed towards a part of the flower throat!

Silver crescent slash created an arc that broke open space within the throat!

"Shua!!!!!!"

Chu Mu's evil slash could easily slash through ten kilometers of space. Even if he wanted to make it stronger by condensing it, he could reach a few kilometers. These attacks, to those that hadn't reached dominator rank, were impossible to dodge.

However, once he slashed forth, Chu Mu saw an unbelievable scene!

Evil slash seemed to slash into an infinite black space. Not only did the power weaken slowly over time, it even slowly became a glow that went far away!!

"In this flower throat, is this an infinitely expanding space?"

Before, the flower throat at most swallowed ten kilometers of space. Compared to the city, it was a large region, but Chu Mu's evil slash had a great range too, with power enough to rip space apart. How could it just swipe past and disappear?

Chu Mu's palm opened, causing Chu Mu to throw two globules of silver devil flame upwards that combined and created a brilliant blossom in the darkness!!!

The silver firelight was like a sun in the dark space, illuminating the surroundings!

Following the silver firelight, Chu Mu's eyes looked around and he couldn't even see the edges of the throat!

This space indeed was infinitely large, as if any energy would just disappear by sheer distance!

Suddenly, a pair of pupils appeared in the darkness. This was the defector young woman's eyes. She looked down at Chu Mu in the darkness like a queen.

"This flower throat devours not the body but the soul. It devours time and it speeds up aging, getting faster and faster....." An apathetic sound appeared by Chu Mu's ears.

Chu Mu lifted his gaze and gazed at the defector young woman's eyes.

"Seems like this woman also knows some other type techniques!" Chu Mu wasn't flustered.

Other type was Chu Mu's main type. Though this infinite flower throat could stop Chu Mu for a second, it didn't mean that Chu Mu had no way of destroying it!

"Spatial storm!!!"

Chu Mu's hands became claws that cut into the darkness!

"Sila!!!!!!!"

The black space was ripped open by Chu Mu's claws, making a crack in the space!

Chu Mu extended a hand into the chaotic dimension and, with his own power of other type, forcefully pulled a rogue spatial storm from his own dimension!

This was power between dimensions!

The storm instantly became even more violent after entering an unfamiliar place. The dark flower throat space started warping!!

"Sila!!!! Sila!!!!!!!!!!!!!!!!!!!!!!!"

The storm was like countless devil claws that pulled at the massive flower throat, creating clear spatial rips!

“Beng!!!!!!!!!!!!!!”

Finally, the flower throat couldn't withstand the energy anymore and exploded. Immediately, a spatial shockwave exploded outwards when the flower throat shattered!!

The flower demons outside south city weren't able to be spared. They could see that the puppet flower demons all backed off like the tide, getting bent or snapped under this power.

In a sacred blue robe standing where the energy ravaged, emperor concubine stood without her veil.

She stood silently in a weaker region, her purple blue hair messed up by the wind.

At the center of the energy, the silver and straight body floated there. There were countless flower demon corpses near them, creating almost a mountain. At this moment, his silver pupils watched the faded veil defector young woman.

This face was something Chu Mu wouldn't forget. Walking out of the sacred blue flower, in tianxia city she already had this shockingly beautiful appearance.

Compared to the initial young girl, she was clearly more mature now. She didn't have a youthfulness anymore, showing a natural alluring and nobility that can't be tainted.

These traits should be present only on someone with a pure heart and spirit. Chu Mu had no idea why the fake woman could still show it completely. In fact, no other woman in this world could reach such a level of beauty and mannerisms as her; she seemed flawless.

Originally, Chu Mu thought his soul remembrance was low and he was charmed by her, and that it wasn't her.

But seeing her now, he realized that this was just her very nature!

Chapter 897: A Group of Bandits, Nightmare Army!

This perhaps was where she was truly terrifying. Nobody could see through her facade!

Many other colorful flowers were like this. They were full of poisonous spikes, but they looked oh so beautiful in the eyes of others.

"Do I look good?" the defector woman had a lovely smile on. Her eyes were charming like a witch as she intended to flirt with him.

Chu Mu managed to not lose his mind over her devastating beauty because he was able to remember her betrayal back then as well as her enormous plot in Tianxia City. Thinking of Xiang Rong City, a city of a million, which would be reduced to a flower demon empire, all because of the arrogant and contemptuous woman in front of him, made Chu Mu feel that it was all laughable.

Chu Mu didn't respond. The Empress Concubine was obviously playing with him. She seemed like a genuine beautiful woman attempting to use mental charm to make him distracted.

"So you're a creature who can't think." when the Empress Concubine saw that this silver devil's eyes were not affected by her mental charm, she coldly sneered.

A flower type's charm, as long as it was a living creature, including women, would be effective.

When the Empress Concubine fought enemies, she was used to wearing a veil or her golden mask. However, if her appearance were to be revealed, she wouldn't mind using her soul-devastating looks to take a mental advantage.

Normally speaking, the mental charm wouldn't fail because it targeted a creature's heart and soul.

However, if that creature knew everything about her and had a resistance against her, the mental charm would be ineffective.

"This is the last chance I'm giving you. Put down the item and you can leave." the Empress Concubine put emphasis on her words!

A creature that wasn't capable of thinking could not pose any threat to her. She felt that she was wasting her time.

Most importantly, she didn't want to reveal her strength before everything had been achieved. If that happened, there was a person who could find trouble for her.

"Hua!!"

Suddenly, a crack was opened up in the space. Chu Mu extended his hand and took the special wooden box out.

When the Empress Concubine saw the special wooden box, a smile immediately rose on her face.

That was what she wanted. The special spirit energy inside was so dense that it would allow her to breed even more stronger puppet flower demons!

Suddenly, her smile froze and gradually her expression grew dark.

That repulsive silver devil showed off the wood box before immediately putting it back into the space. It then turned and left. It was clearly telling her: if you have the ability, come and get it!

“I gave you a chance to live, but you didn’t take advantage of it!” harrumphed the Empress Concubine.

She had believed that the silver devil was a creature that was incapable of thinking. But now it seemed that this fellow was just playing with her!

“Listen to my order!” the Empress Concubine lifted her hand. Her skirt and long hair fluttered in the windless air and her body slowly rose up as a holy blue halo appeared under her feet!

The blue halo transformed into an enormous blue ripple in a calm ocean that spread out around her!

Everywhere the ripples passed through, the surface of the ground would fissure. Countless monarch rank or higher puppet flower demons appeared from the broken earth, breaking the ground. All of them lined up in front of Chu Mu like enormous nightmarish demon women wearing hair and baring their fangs and claws!!

The path in front of Chu Mu was instantly sealed off. If he used Displacement Specter, there was a higher chance he could fall into the flower devouring path!

Chu Mu was going to flee in another direction, but this time, shockingly strong puppet flower demons appeared. He gave a glance, and surprisingly, over a hundred emperor rank flower demon emperors had appeared. They were scattered throughout the vast swathes of the monarch rank puppet flower demon legion. Their tall and graceful bodies began to twist about and their toxic spikes flew like sharp swords in the rain as they charged at Chu Mu!

If he was surrounded by this army, he would suffer a total defeat. No matter which way Chu Mu moved, countless flower demons would appear around him. There were so many that he wasn't able to see the sunlight through them. Their thick branches were rampant. They twisted about, resembling dancing snakes that raced towards Chu Mu's body as if he was their prey!

The Black Fairy Butterflies originally scattered through the air had now been completely swallowed. There probably wouldn't even be one survivor!!

In his previous fights, Chu Mu had rarely encountered flower type soul pets. Thus, he had always been under the assumption that their attacks were very weak.

However, in this dominator rank fight, as he looked at the endless demon flower forest, he was truly able to realize that after the flower type reached the dominator rank, how terrifying it could become!!

Chu Mu's silver devil flames didn't stop burning. The dust under his feet was continuing to pile up!

Right now, even if the defector young woman didn't use her Flower Throat technique, Chu Mu would also fall into the devouring path of the plants.

In a perimeter of five kilometers, almost everything was occupied by flower demons. Occasionally, there would be a silver devil flame that rose up and all of the plants in the area would be annihilated.

These five kilometers could be considered Chu Mu's range of safety. The might of his devil flames ensured that within the five kilometers, no matter how many puppet flower demons appeared, they would die!

However, the puppet flower demons were endless, and Chu Mu's range of safety gradually decreased, becoming four kilometers!

Within the four kilometers, the rate of Chu Mu's techniques turned this black flower demon world into an enormous ball of silver fire. This ball of devil flames burned all of the nearby plants to ashes, but the endless wave of plant flower demons gradually pressed in.

"If this continues, even if my physical strength isn't depleted, I'll be bound to death." Chu Mu's heart sank. He looked up and stared at the defector young woman quietly standing on a flower demon.

The defector young woman's cold eyes were looking down on him. All of the plants were listening to her orders and at this height, her imposing nature caused her to look like a flower queen that controlled all creatures. Anything that opposed her would be mercilessly destroyed!

A flower type dominator with extremely terrifying attacks!!

Whether she had showed her full strength, Chu Mu wasn't sure. But at least in Xiang Rong City, Chu Mu could not fight equally against her!

Watching his devil flame domain continuously shrink, Chu Mu's heart turned heavy!

The defector woman's strength had far surpassed his imagination. The blind old man stopping him from taking action had indeed been a wise thing. However, right now, the waves of puppet flower demons were about to practically swallow him up. The moment his demon flame domain disappeared, countless flower type techniques would all strike him. His defenses were not capable of stopping the tens of thousands of attacks!

Chu Mu had experienced the strength of a half devil and finally found this woman. However, he was unable to do anything in this endless flower demon sea. This made him very unreconciled.

Chu Mu clenched his hands and forcibly attracted a spatial wind storm into this world!

This time, Chu Mu used the spatial wind storm in his own domain. In other words, he would also be struck by the spatial wind storm's chaotic attacks!

However, in order to escape this extremely terrifying flower demon forest, Chu Mu had to do this!

“Hu hu hu hu hu!!!!!!”

The spatial wind storm mercilessly ripped at everything, tearing the interweaving and closely packed flower demon legion to shreds. Flower petals turned to powder and stems were chopped off while roots were torn out of the ground...

It flew everywhere as the entire southern city was piled up with blue colored corpses that reached a mountain high!

Amidst the chaotic energy, the silver bodied Chu Mu slightly swayed. The devil flames on his body showed signs of slightly dimming!

Thousands of enemies had been injured. If he didn't control this spatial wind storm properly, he would be struck by a destructive attack.

The blue sky and radiant sun reappeared. The feeling of suppressing suffocation from falling into the flower demon nation had made Chu Mu feel deep fear. If it wasn't because he had the attribute advantage, a normal dominator rank would have already lost its life in the defector young woman's territory!

"How stubborn!" when the Empress Concubine saw the spatial wind storm appear, she floated far away.

Her defensive abilities were not strong. If she fell into the spatial wind storm, she would definitely be heavily injured!

The silver devil had devil flames which did twice the damage to flower types. It was harder to deal with than the Dead Dream!

However, even if a dominator had the guts to act unbridled in her territory, it had to perish!!

The Empress Concubine arrogantly floated above a flower petal in the air. She slowly raised her arms and chanted an incantation.

“Beng!!!!!!!!!!”

“Beng!!!!!!!!!!”

Suddenly, the ground fissured!

Blue branches began wildly growing out of the ground. Looking down from the air, it seemed that another blue sea had arisen in the northern side of the city. It was endless, making it seem as though one had entered the deepest part of a primitive forest!!

Chu Mu attempted to leave the city. However, not long after he got far away, another huge group of puppet flower demons appeared in front of him, as if they had grown out of the grass, blocking off his escape!

“This place is a flower nation. Nobody can think about leaving here without my permission!” when the Empress Concubine spoke, the aura of a flower queen was on full display.

Chu Mu went quiet and he hovered in the air...

His path in front had been heavily sealed again. A feeling of powerlessness manifested.

This flower nation was indeed too terrifying!!

“Nie!!!!”

Suddenly, a familiar nightmarish cry rang out from the horizon!!!

Chu Mu was stunned. He stared past the rapidly growing branches at the horizon blocked by plants.

In the horizon, a large group of white flame balls were flying towards the city!!!

These white flame balls burned half of the sky with fire clouds. They were ostentatious, wild and tyrannical!!

“First White!” Chu Mu was very happy in his heart!

The one flying over from the horizon was the Nightmare Ruler that insisted on following Chu Mu!

Moreover, behind this ruler were countless White Nightmares!!

These White Nightmare had clearly seen the flower demon sea in the city. However, these troublesome fellows who enjoyed fighting as if it was their life resembled a group of hungry bandits!

They all wore evil smiles, and their eyes shone as they stared at the blue enchanting and weak flower demons. They all let out excited shouts and cries!

They were like prisoners that upon being freed, saw a group of pretty ladies. Their expressions were evil and fierce!

#### Chapter 898: The Fight Between Holy Blue and Evil Silver (1)

The Empress Concubine raised her head, and stared at the large group of White Nightmares flying in the sky. Her expression visibly changed!

She had just had an uneasy premonition which she thought came from the threat of the silver devil. Thus, she never expected that so many White Nightmares would appear in Xiang Rong City!!

The White Nightmares rushing out from the horizon grew increasingly many, so much so that it was practically impossible to count the number of flaming Nightmares. They illuminated the sky and earth in a pale white!

Pale white flame clouds of devil flames that could penetrate one's soul with cold onslaughted the city filled with puppet flower demons. The puppet flower demons began to strangely sway, especially the ones on the outside of the city, which had started to dodge in terror underground. They didn't dare to face this wild and ruthless group of White Nightmares!

"Did that fellow move the whole empire of White Nightmares here?!" Chu Mu also cracked a smile.

The number of White Nightmares that had appeared this time had surpassed his expectations. With a glance, there were probably nearly ten thousand of the Nightmare Ruler's young brothers that it had brought to the rescue!

The White Nightmares innately had a high species rank. With nearly ten thousand White Nightmare appearing, this was nearly the size of an empire. Did the Nightmare Ruler lead such a huge group of an army over to wage war on humans?!

The puppet flower demon army gave Chu Mu the biggest headache, and made him trepidatious in this fight.

While the Nightmare Ruler probably hadn't brought enough White Nightmares to fill the city, they were definitely stronger than the puppet flower demons, and also had the fire type advantage. As long as they could concentrate on fighting the puppet flower demons in the city, eradicating them would be of no problem!

"You are Southern Forbidden Region's King!" the Empress Concubine's charming face sunk. Her tone turned dignified as she continued: "We have no enmity, and there is no need to start an empire fight."

The Empress Concubine's attitude changed very quickly, when she saw that the silver devil had brought its own empire's Nightmare army. She immediately indicated that she wanted to solve this peacefully.

While the Empress Concubine looked calm and cool, her chest was already violently heaving!

She never expected that the Southern Forbidden Region's White Nightmare army had entered human territory, and would appear at such a crucial time when she had offended their king. If she didn't settle this war quickly, she would not only lose the puppet flower demon army she had spent much effort cultivating for many years, but even the foundations of Xiang Rong City would be destroyed!

“The item belongs to you. Take your army and leave.” the Empress Concubine waved her hand and immediately, all of the puppet flower demons in front of Chu Mu parted. None of them dared to block his path!

“This woman surprisingly gave up so easily!” Chu Mu could feel the defector woman’s emotions.

Right now, her heart was filled with rage as if it was burning with devil flames that would burn until the end of the sky and shoot out from her eyes. It was an indescribable shock, anger, and unwillingness.

Clearly, this woman’s myriad of schemes and strategies would have never accounted for the Nightmare Empire’s army invading Xiang Rong City from the Southern Forbidden Region!!

Seeing this woman, whose arrogant and calm expression from just a moment ago completely disappeared and was replaced with a forced smile, Chu Mu cracked a smile riddled with evil intent like a bandit!

Chu Mu’s resentment had accumulated for over ten years. He would at least have to obtain a bit of interest from this woman today!

“You... what are you doing!!” the forced calm on the defector woman’s face immediately disappeared, when she sensed the opponent’s unbridled resentment and killing intent!!

The Empress Concubine understood fully that, much like most dominator rank creatures, this silver devil had full intelligence. It could definitely understand what she was saying!

“If you take your army away right now, we won’t bother you. But if you continue invading our territory, this majesty will definitely destroy your Southern Forbidden Region empire in the future!!” the defector woman’s tone turned sharp. However, the sharpness also exposed her fear!

How could she not be fearful? The group of White Nightmares were now lining up outside the city, respectfully standing behind the silver devil.

Essentially, if that wretched silver devil were to wave its hand, these Nightmares with soul devil flames would all throw white devil flames at the southern city!

Before this had all happened, she had relied on the number of puppet flower demons, although being countered via attribute, to maintain the advantage. Now, with ten thousand White Nightmares, she was definitely weaker, unless she could draw all of the puppet flower demons to the southern part of the city. Otherwise, she could not fight against this group of White Nightmares, which were all of the monarch rank or above!

The problem was that if she sent all of the city’s puppet flower demons here to fight against the White Nightmares, then the millions of Black Fairy Butterflies would easily be able to use darkness withering on the plants over the city!

When she had the absolute advantage, the millions of Black Fairy Butterfly did not need to be feared. However, if the proportion of Fairy Butterflies was greater than the flower demons, the darkness withering would spread like the plague and destroy this nation!

“Nie!!!! Nie!!!!!!!!!!!!”

The Nightmare Ruler’s temperament was the nastiest. Hearing the defector woman’s stern threat, it extended its fist..

Suddenly, its thumb burning with white devil flames adorably pointed downwards!

The Nightmare Ruler's actions made Chu Mu, who was adjacent to it and prepared to fight, widen his eyes!

He knew that the Nightmare Ruler had definitely learned this from those lowly arenas!!

Indeed it was like this. When Ning Maner had brought her ten bodyguards to the arena to bully others, Ning Maner and the White Nightmares had thought this was a common courtesy when fighting the other side.

After Ning Maner learned what the gesture actually meant, she muttered: No wonder every time I was "courteous" everyone was extremely mad!

Seeing the Nightmare Ruler with its extreme personal and eccentric gesture, Chu Mu, who had wanted to say a few things of resentment at the contemptuous defector woman, was momentarily speechless.

"Nie!!! Nie!!!!!!!!!!!"

At this moment, Third White, Fifth White, all the way to Tenth White all gave the exact same pose. These fellows had all been harshly trained by their Little Miss that they had to give this "courteous gesture" before they fought others!!

"Nie~~~~~"

The Nightmare Ruler, who wished for the world to be drowned in chaos, gave a long cry at the White Nightmare army behind it!

Chu Mu, who was standing in front of the White Nightmares, drew his lips back.

That fellow had actually told all of the White Nightmares to give the “courteous gesture” to the opponent.

Behind him there were nearly ten thousand White Nightmares in human form. With so many of them, burning with devil flames, floating above the city and giving this thumbs down gesture, it was like a provocative gesture from street gangsters...

How spectacular was this!!

Chu Mu wasn't able to stop the Nightmare Ruler's antics in time as the rows of White Nightmares all, with blank expressions, gave this gesture without understanding the meaning behind it!

“Xia~~~ Xia~~~~~”

The puppet flower demons that densely packed the southern city all swayed, as they saw this gesture.

They thought the reason why the enemies had extended their hands was to use a technique. Therefore, their instincts were to prepare to escape.

However, nothing ended up happening as this large group of puppet flower demons was just swaying...

The atmosphere suddenly turned strange!!

The almighty queen on top of the holy flower was heaving her chest. Her absolute beauty of a face was flushed red with anger!!

Xia Zhixian, who had just arrived, had a rigid expression too as she looked at the extremely strange and absurd scene that was hard to describe with words. She sneakily glanced at the female master.

This was blatant humiliation!

Obviously, the Empress Concubine wouldn't care about learning where this group of White Nightmares learned this roguish provocation from. Her eyes that were spitting flames glared at the king of this group of presumptuous and arrogant creatures - Chu Mu!

This was definitely the orders of their king!

Only a creature with dominator rank intelligence would use such a crude human method of provoking her and her enormous Flower Demon Empire!

Unforgivable!!

The female master had never been this mad before!!

“Kill them all!!” finally, the Empress Concubine spat out these words!!

The flower demon sea of blue branches once more covered the city. Countless blue flowers blossomed with various poisonous teeth. Even large malevolent creatures that fell into them would be left without any bones!!

“Kill!” Chu Mu hated wasting words!

Chu Mu had waited for today for a long time!!

Behind his silver and cold body, the rows of pale white flaming cloud White Nightmares immediately stopped their rude gesture. The dense devil flames on their bodies expanded, causing the sky to burn with a beautiful and shocking white flame!

Once Chu Mu gave his order, all of the White Nightmares transformed into shooting stars that streaked past Chu Mu’s body towards the blue world!!!

And thus the world was filled with a beautiful blue, and a terrifying white!!

.....

Amidst the holy light and devil flames, a gorgeous flower queen with a long blue skirt stared at the evil silver steel-cast body of the silver devil. The resentment and hatred of fated enemies seemed to have lasted for a thousand years. The only way to solve this would be if one party submitted to the other!!!

Chapter 899: Dead Dream Assistance!

Devil Flames danced wildly. Nightmare Conqueror hid in the burning white sea. This devil that walked out of the depths of south forbidden realm loved to bully the weak. Thus, when it fought, it loved to mount sneak attacks, especially against those weaker than it. This way, it could ensure a kill in one hit, and also leave with ease.

“Nie nie”

Its white pupils stared at the ground. Nightmare conqueror let out a sly laugh, and gazed at the hundred white nightmares battling the flower demon army.

Every white nightmare had to keep a certain distance. They didn’t know how to fight together, but each one had amazing individual potential. As long as they didn’t get surrounded alone, facing similar puppet flower demons, they could definitely fight three or even four by themselves!

At this moment, the nightmare conqueror already locked onto a high class emperor rank puppet flower demon!

To the monarch rank white nightmare, this high class emperor rank puppet flower demon was a terrifying killer. As the conqueror, it definitely couldn’t allow its subordinates to fight such a presence!

Displacement Specter!!

Nightmare conqueror was handsome and swift, appearing behind the massive puppet flower demon.

Grasping thin air, a sprout of white devil flames lit up, and quickly spread over the high class emperor rank puppet flower demon.

The high class emperor rank puppet flower demon seemed to notice the nightmare conqueror's appearance, and sent a few kilometer long sword towards the nightmare conqueror!

Nightmare conqueror let out a laugh. After coming around from the puppet flower demon to the front of it, it laughed and left.....

High class emperor rank puppet flower demon was just about to chase after it when suddenly, the few white devil flames that stuck onto its lower body grew into a massive fire dragon that swiftly devoured the puppet flower demon!!

“Huhuhuhu”

Fire spread. Not only did the pale devil flames devour the high class emperor rank puppet flower demon, it even ignited all puppet flower demons that touched even the slightest spark. Instantly, all the flower demons on the street were cleared out!

Seeing an entire streets worth of puppet flower demons die, the nightmare conqueror laughed hideously on the side like a pyromaniac.

Its gleaming eyes glanced around, trying to find the next target within the chaotic battlefield!

Suddenly, nightmare conqueror noticed two top tier emperor rank soul pets fly past his head arrogantly, flying towards its king.....

The two top tier emperor rank soul pets were Dragon Absolutes. This south city's dominator rank collision naturally was detected by them, so they quickly came over.

However, when Dragon Absolute Wen Luo saw the massive white nightmare army, she sucked in a large breath!

All of nightmare palace's white nightmares could come, and the quantity still wouldn't surpass the current magnitude. Having always been in the human realm, dragon absolute Wen Luo couldn't possibly know that such a massive nightmare empire existed far in the south forbidden realm!

Chu Mu didn't immediately attack. His opponent was the defector young girl currently staring at him, full of anger.

Dragon absolute's two strengthened soul pets pounced towards him, a clear attempt of the woman to try to consume some of his fighting strength!

This woman always hid behind others, and never fought until absolutely necessary!

“Nie”

Seeing the two strengthened top tier emperor ranks near, Chu Mu instead heard the call from the nightmare conqueror who had approached quietly.

The nightmare conqueror was the higher commander of south forbidden realm, yet it had no more mannerisms of a leader- a simple and obedient fellow in front of its king.

At this moment, Nightmare conquer floated behind Chu Mu, and yelled that such enemy could be handled by it!

Chu Mu indeed didn't want to waste his time and stamina on these two top tier emperor ranks. His fighting intent was at the max. Chu Mu could finally fight the defector young woman without any worry!

The nightmare conqueror faced off the two top tier emperor ranks, while Chu Mu casted Devil Phantom to near the woman!

“This.....this is the silver devil man that Mu QIng Yi mentioned!” Xia Zhixian looked at the powerful silver figure and said gravely. Under its powerful aura, she felt a strange sense of fear!

To be able to hurt heavenly concubine Mu QIng Yi, it meant that this silver devil man was stronger than her, Xia Zhixian.

Xia Zhixian's gaze, therefore, fell on her female master. She could sense that her master was angered. This aura meant she was about to fight herself!

Having been by the female master's side for this many years, even Xia Zhixian wasn't sure just how powerful she was. This rage would definitely cause everyone to tremble!!

“Support me.” Female master said coldly to Xia Zhixian.

She nodded, and sent Sky Butterfly Queen above female master.

Sky Butterfly Queen’s fighting strength couldn’t cause any threat to Chu Mu. However, when it stood behind another dominator rank, its strength will definitely multiply.

Thus, when he saw the Sky Butterfly Queen appear, Chu Mu furrowed his brows.

Chu Mu couldn’t possibly face the defector young woman and flower hero Xia Zhixian combined.

“Pupupupu”

The sound of wings flapping all around the city. Suddenly, within the blue covered city, black figures densely gathered around the south outer city.

Black wings flapped lightly and an impressive black figure started solidifying amongst all the gathering fairy butterflies.

“Dead Dream!” Chu Mu lifted his head and gazed surprisingly at the black dancer that he had admired!

Dead Dream gathered its body together very quickly. Even the black fairy butterflies far away from it started disappearing strangely, and reappearing near Dead Dream.

The trap in xiangrong city caused countless black fairy butterflies to die. Each one should be a part of Dead Dream's life. Thus, the gathered Dead Dream's life force wasn't as thick as before, but the Dead Dream's dominator rank aura wasn't any weaker. Its lonesome yet beautiful body remained calm and elegant- no matter how powerful its enemies were!

“Yi”

Dead dream floated at the same height as the Sky Butterfly Queen. Clearly it found its own opponent!

Dead Dream was wounded, but it had no trouble dealing with the sky butterfly queen!!

The enemies were enemies Chu had always wanted to defeat. His ally was the wing type soul pet he had always dreamed of.

At this moment, Chu Mu felt his blood boil!

“It still has fighting strength.” Xia Zhixian's face turned pale.

After facing a full city of puppet flower demon's attack, Dead Dream definitely lost upwards of a million butterflies. Under this situation, the gathered Dead Dream still didn't get any weaker. This dead dream was much more powerful than Xia Zhixian's estimates!

Female master stared coldly at Chu Mu. For some reason, this silver devil man could always ruin her mental state. Having a powerful premonition, she also knew that this silver devil man held a great threat towards her.

Chu Mu was similarly staring at the defector young woman coldly. With Dead Dream's help, Chu Mu didn't have to be worried anymore!!

The deep scar caused Chu Mu to hurt even today!

And today was the time for him to heal himself using a proud victory!

"Heavenly Earth Devil Sword!" Chu Mu casted an incantation, and spit out a technique name.

Around Chu Mu's silver body, many kilometer long silver devil swords appeared, reaching the skies and shocking everyone!

These devil swords were long and filled with the vilest silver devil flames of the world!!

Chu Mu's surrounding white nightmares and puppet flower demons all moved their battlefields to further away, because a dominator rank's destruction could easily kill them all!!

The devil swords all hung upside down and were imposing. They seemed as if they were sealed away in this world since the beginning of time and were now reappearing with black sealing power!

At the same time, sacred blue queen emperor concubine's blue fair danced in the skies. She put her hands before her chest, and closed her eyes calmly to cast an incantation.

Suddenly, within the pale sky lit up by firelight, a few flower branches appeared and extended downwards, mysteriously and coldly. It seemed like a blue thunder down from the skies and calmly stop by the woman!

Within the blue giant flower branch, a bouquet of lonesome flowers blossomed open around female master, circling off a large section of space.

Every blooming flower was incredibly spirited. They had no stem but instead floated strangely in midair, giving off an unreal yet incredibly dangerous feeling!

“Weng”

The heaven earth devil swords rang and, under Chu Mu's control, started swirling in a formation. The leaking devil flames formed dragons that caused the devil swords to look even more shocking!

Devil swords flew. The space they whistled through didn't belong in this world, so their routes were impossible to track.

Heaven Earth Devil Sword combined the essence of other type, fire type, and dark type. If not for Bai Yu casting it before, Chu Mu never would have thought these three types could combine so well, creating such a technique!

Suddenly, a silver flaming devil flame came through from thin air, coming down from above the female master without any warning!!

This devil sword's length was a few thousand meters long. Its status was like a thin and towering mountain!

Such a mountain sword falling down made it seem like even the ground could get split up and disintegrated. Anyone who hadn't seen the power of a dominator rank was utterly shocked by this power!

Chapter 900: Taste of Emperor Concubine's Blood

When the first devil sword fell, Emperor Concubine flipped her palm over, and sent all the floating flower blossoms around her to above her head.

The devil sword was immense, but the blossoms were also huge. When the heaven earth devil swords power touched the flower buds, the white devil flames suddenly felt an energy suck it in and started dimming!

Seeing the first devil sword get easily devoured, Chu Mu didn't even pause. Waving his hand, the second, third, and fourth devil sword flew in front of and behind the defector young woman!

Devil fire burned brightly. The devil swords that spanned several kilometers left a massive flaming shadow that pierced towards the defector young girl.

Three devil swords attacked simultaneously, their tips converging at one point. Instantly, the silver flames blew up in the skies, scattering down countless meteor shower like flames, falling on the ground and causing at least a few thousand puppet flower demons to disintegrate in the power.

Sacred blue halo blinked ten kilometers away. In the space, a strange branch grew out and quickly became a huge stem. This stem opened up into a bud where the emperor concubine stood within.

When the devil sword power exploded, emperor concubine decided to avoid it. After all, devil sword's destruction and unpredictable movement still caused great threat to her.

At the same time, Xia Zhixian already rode her Sky butterfly Queen beside emperor concubine. When it flew over, some very thin lines appeared in her path that were either blinking or hidden. When Dead Dream went to chase her, it had encountered obstructions that caused it to fall into a silky and confusing maze.

The defector young woman and Xia Zhixian moved towards the outside of the city. They didn't want the battle between four dominator rank organisms to affect this Xiangrong City.

Chu Mu naturally knew that these two women only wanted to maintain their position in Xiangrong City. Whether they truly cared for Xiangrong City was another matter.

Chu Mu and Dead Dream naturally wouldn't want to injure innocents either, also flying past the city wall to appear outside the south city.

Chu Mu's heaven earth devil sword technique still hadn't finished. The remaining devil swords, when Chu Mu moved, were already on their way into a strange turn of space!

“Dun!!!!!!”

Suddenly, the heaven earth devil swords broke through space and again converged, lifting up waves of silver devil flames around emperor concubine and Xia Zhixian!

This time, Xia Xhixian and emperor concubine didn't dodge in time. The flames burned emperor concubine. Even though her outer layer was protected by water protection casted by Xia Zhixian, the devil flames still pierced through the defector young woman's body, and started burning her soul!

Emperor Concubine's face instantly became pale. Within the silver devil flames, the flower guards couldn't stop the flames a single bit!

Xia Zhixian quickly told sky butterfly queen to destroy all the energy lifted up by the heaven earth devil swords, and gave emperor concubine a soul healing technique.

Aroma spilled out. After Xia Zhixian's healing technique revolved around for a bit, emperor concubine's pain finally subsided a little, and her skin returned to its original hue.

"Your majesty, its type counters you too strongly." Xia Zhixian watched the silver devil man from afar.

Originally, the silver devil man was already extremely powerful. Probably only the lead hero could defeat it in all of the human realm. Though emperor concubine also had a very powerful dominator rank power, in a one on one, she clearly wasn't the silver devil man's match.

Chu Mu didn't want to give the defector young woman any chances. Without the terrifying puppet flower demon army interrupting, Chu Mu found that he had no need to worry at all!

"Dead Dream, can you make sure that the sky butterfly queen's healing doesn't fall onto that woman?" Chu Mu used mental remembrance to communicate with Dead Dream.

The soul devil flames clearly wounded the defector young girl's soul yet sadly, right after the healing, she was completely recovered.

Chu Mu knew clearly that in battle, if he didn't control the support soul pet trainer, then any amount of techniques were just meaningless struggles!

Dead Dream used its cold crescent pupils to tell Chu Mu that it would restrict the Sky Butterfly queen and cause it to be unable to heal in a certain while.

"Good, in this period of restriction, I will try my best to expand her wounds!" Chu Mu nodded.

This time, Dead Dream launched the first attack!

Wherever the black elegant body flew past, it caused ripples of black to remain. These ripples caused Dead Dream to seem to be flying over water. Every time its wings flapped, it created spatial black ripples along the edges.

Dead Dream's figure was extremely unpredictable, so even the flower trap defector young woman set didn't kill Dead Dream successfully. Dead Dream didn't seem to have any pattern, yet it already created a large, dark seal!

Seals usually needed special totems to create permanent seals. This, to some degree, needed reliance on space, geography, and energy.

Wanting to create a temporary seal was possibly by many demon, dark, and wing type organisms. However, to create such a seal was incredibly difficult!

The dominator rank Dead Dream didn't rely on any energy, completely creating a large and powerful darkness sealing diagram. Any lower organisms would forever be sealed within in!

When Xia Zhixan realized it was a sealing diagram, it was too late to dodge. The sky butterfly queen quickly lost its color to the waves upon waves of black, becoming grey!

That woman's arrogant look was still fresh in Chu Mu's mind. Chu Mu now wanted to see her expression- pathetic and frightened!!

“Huhuhuhu!!!!!!!!!!!!!!”

Chu Mu's body burned with silver devil flames, and he disappeared from the ground!

In the next moment, the defector young woman's four sides were completely limited by silver devil flames!

Emperor concubine furrowed her brows. Four places of devil flames simultaneously lit up, causing her to be unsure of whether the silver devil flames would appear.

When emperor concubine lifted up a palm and turned her body, blue flower petals lifted up and, after surrounding emperor concubine as a center point, it created a massive flower petal hurricane that destroyed the silver devil flames from all four sides!

Since she couldn't make a decision, it was lucky that everything hit!

“Huhuhuhu”

The four positions were quickly destroyed by the flower petal storm.

However, in the next moment, Emperor Concubine’s head had devil flames that started burning!

Half devil Chu Mu was like a devil that played within humanity, creating an evil silver face mask within the evil appearance.

Chu Mu’s flaming claws silently extended towards the emperor concubine’s head, his hands holding devil flames that exploded when holding it near this woman’s head!!

“Beng!!!!!!!!!!!!!!!!!!!!!!”

The energy was blown up, causing even emperor concubine, who reacted swiftly, to feel the energy of the explosion. Devil flames were nearly all burned away, while her face was ripped apart, cracked open like a case!!

Chu Mu’s attack didn’t stop . Grabbing with one hand in the air, the emperor concubine that flew outwards was pulled back. The devil flame claws cut into the woman’s lower abdomen!

Emperor concubine was greatly shocked. This silver man wanted to extract her organs!

She hurriedly extended both hands. Suddenly, her hands were covered in two blue branches that mimicked two snakes, which ran towards her vital parts!

This poison snake was also able to ignore defensive skills. If the devil man didn't block this, the flower poisonous snakes would dart into its body and devour it whole.

The final task was naturally to see one's movement. Just yesterday, Chu Mu was still retaining in his cold smile. However, now, he ignored the two poisonous snakes in his hand and was more than happy to trade blows!

Silver devil man wanted to switch lives with here!!!

She already felt a convulsion in her smaller abdomen. Taking notice, emperor concubine immediately changed the flower devil tree search to another direction,

Hoping to use the last bit of time, defector young woman quickly became a flower that escaped to farther places.

Chu Mu turned around, and grabbed the two poisonous snakes. The energy wasn't powerful, but once he crushed them with one hand, a pair of violent eyes gazed over at the defector young woman.

Emperor concubine's flower petal could reopen. However, suddenly, her small abdomen started leaking blood, dying her robe crimson!

“Your majesty!” Seeing Xia Zhixian’s expression became somewhat chaotic, and seeing the opened up wound in Emperor Concubine, she couldn't provide healing, because her sky butterfly queen was caught.

“Just a little bit, truly unfortunate.” Chu Mu slowly let off his hand, causing his silver fingers to all have the blood of the Emperor Concubine.

Chu Mu simply judged that there was an opening in her abdomen, and didn’t grab her innards. If he had gotten a hand on it, the woman truly would find it unbearable.

“Nice smelling blood.” Half devil Chu Mu moved his blood-stained arm to his face, and sniffed it.

Chu Mu was enjoying the cruelty and emotion of being a half devil right now. Tasting this woman’s blood seemed to be second nature for the devil’s enjoyment!!!

Emperor concubine held her stomach, her hair messy as she stood there. Seeing the silver devil man smelling her blood, she felt indignant, but also a terrifying coldness fly through her body!

It had been so many years, and she didn’t lose a single drop of blood or suffer a single wound. Now, she was wounded by a silver devil man, causing even her otherworldly beautiful face to crack open!
