

Soul Pets Bk2 911

Chapter 911: As long as it isn't dead, it's fine

While Old Li and Pang Xing spoke, the roaring blood barbarian hidden dragon had already retracted its wings and dived down, its body becoming a blood colored meteor that lifted up huge waves as it fell towards Zhan Ye!!

“Beng!!!”

The Blood barbarian hidden dragon's power was incredibly powerful. When the blood rose up, the whole bloodthirsty bug army was sent into the skies. The yellow skies immediately had a lot of black figures appear!

Zhan Ye's black body was also spinning around in the air. In terms of power, Zhan Ye couldn't possibly compete against this barbaric fellow.

“Sou”

Suddenly, the bloody shadow shrouded Zhan Ye, who was still trying to find its balance in the air. Its meaty wings flapped heavily, like two blood colored clouds blotting out the sun in the skies.

Dragon shadow!

Blood barbarian hidden dragon went into a dive, yet this time a blood dragon shadow came out of its body and flew straight towards Zhan ye.

In the sky, Zhan Ye's dodging power was much weaker. This shocking blood dragon shadow was something it couldn't dodge, sending it heavily into a crater on the ground!

The ground shook greatly. Rock waves traveled through the ground nearby, rippling high enough to blot the sun out.

Pang Xing stood far away, utterly lost as he stared at the dragon shadow attack, his heart sent into ruckus!!

With only two techniques, the invincible emperor rank Mo Ye was finally defeated. The Blood barbarian hidden dragon again showed its near dominator rank power!

"I told you it wouldn't be able to defeat the Blood barbarian hidden dragon!" Pang Xian said angrily.

If they joined forces, even if they couldn't beat the Blood barbarian hidden dragon, the six top tier emperor rank soul pets could definitely fight the Blood barbarian hidden dragon for a while.

Yet now, even the Zhan Ye Emperor, who was the only one that could wound the Blood barbarian hidden dragon, was hurt. Their fighting strength as a whole would take a huge hit. Blood barbarian hidden dragon could kill them without a threat now.

Pang Xian's five soul pets had long since been ready for battle, staring at Blood Barbarian Hidden Dragon like their greatest enemy.

"What are you worried about, don't you see, it climbed up! I told you this is its special training!" Old Li's short fingers pointed at the cracked crater.

“How can I not be worried!” Pang Xing stared at the damned old half man.

In such a worrying time, who cared about whether it was special training or not. Did he truly think the blood barbarian hidden dragon was this easy to defeat? It was a near dominator rank organism!

After cursing a few times, Pang Xing glanced at the Blood barbarian hidden dragon and was about to tell his five soul pets to attack when suddenly, in his vision, an extremely fast black figure darted forth, quickly circumventing the jagged rocks and appeared in front of the arrogantly roaring Blood barbarian hidden dragon. Its shark armor spikes again pierced into its stomach location!

Blood barbarian hidden dragon’s stomach armor was already rotten to a certain degree, weakening its defense. This attack therefore no longer just broke through defense but instead truly wounded the Blood barbarian hidden dragon!!

“Ao!!!!!!!!!!”

The Blood barbarian hidden dragon let out a pained roar, and stared angrily at this black war beast, slamming its claw down again at it!

Zhan Ye again decided to dodge after one hit. However, this Blood barbarian hidden dragon couldn’t let it easily dodge away. After slamming down its claw, the Blood barbarian hidden dragon turned its body around suddenly and sent its thick steel like tail sweeping, lifting up a terrifying blood hurricane that slammed into Zhan Ye’s armor!

Zhan Ye was sent flying far away, but it didn’t lay there unable to rise afterward. It immediately stood up and stared calmly at the Blood barbarian hidden dragon.

“Why is this Mo Ye’s defense so high?” Pang Xing was dumbfounded!

Pang Xing’s soul pets, other than invincible emperor rank, could at most block a few hits from the Blood barbarian hidden dragon, but other top tier emperor ranks would definitely be instantly killed in a single technique.

What Pang Xing didn’t expect was that after multiple attacks from the Blood barbarian hidden dragon, it still had such overwhelming fighting strength. This was truly unimaginable. After all, from its aura, one could tell that this Mo Ye emperor was invincible emperor rank and couldn’t compete against dominator rank!

“I can’t believe you’re the great senior elder of soul pet palace, unable to even differentiate between defense and life force.” Old Li sneered.

Pang Xing paused and quickly realized that he had made a very low level mistake.

If its defense were powerful, getting attacked won’t leave obvious marks on it. This Mo Ye Emperor’s wounds seemed incredibly heavy. In normal situations, it could no longer maintain complete fighting strength. The fact that it could still retain its original fighting strength meant its life force was incredible!

“That’s why. It’s a Mo Ye with life force talent.....” Pang Xian understood.

However, Pang Xing knew that just having life force wasn’t enough. In terms of power, speed, defense, and techniques, it was far off from the Blood barbarian hidden dragon. Its life force would allow it to last a little longer, but it was not enough to compete.

So, for safety, Pang Xing couldn't just watch.

“Can you not be in the way?” Old Li saw the man was about to intervene again and yelled out dissatisfied.

Old Li had finally found a Blood barbarian hidden dragon to train Zhan Ye. If Pang Xing helped then they wouldn't be able to truly find out how powerful Zhan Ye was at its peak.

“I..... I.....” with Old Li's yelling, Pang Xing had a pent up anger. He was secretly cursing in his mind that if he didn't intervene, he would probably die!

When Old Li and Pang Xing stared at each other angrily, Zhan Ye again collided with the Blood barbarian hidden dragon.

Zhan Ye seemed to know that this attack of Blood barbarian hidden dragon was something it couldn't dodge, so its claws became a Death God's Dawn blade, slicing towards the defenseless stomach of the Blood barbarian hidden dragon!

“Shua!!!!!!!!!!”

The criss cross of claws split open the Blood barbarian hidden dragon's stomach, sending huge chunks of blood, flesh, and armor!

At the same time, Blood barbarian hidden dragon's teeth became a blood red energy. It opened up its massive maw, and bit down on Zhan Ye's body with enough power to shatter mountain ranges!

"Luo!!!!!!!!!!!"

With a crisp snap, the teeth came through Zhan Ye's body, sending sticky blood down to the ground.

Blood dragon teeth energy locked Zhan Ye in the sky. As the Blood barbarian hidden dragon shook its head aside arrogantly, the bloody Zhan Ye was thrown before Pang Xing and Old Li, landing heavily on the ground.

Pang Xing was very shocked by the previous scene. Seeing Mo Ye emperor full of blood in front of him, his body went completely cold.

"Damnit, I told you you couldn't beat it and you even wanted to succeed!" Pang Xing quickly recovered from his shock and cursed angrily!

"If I knew you were this wordy, I wouldn't have saved you and would've just let that dumb dragon slap you to death!" Old Li seemed to have missed having a good argument, and seemed to be enjoying this banter with Pang Xing.

As for the Zhan Ye lying aside, Old Li only glanced at it once and nodded secretly, "En en, as long as it isn't dead, it's fine.

Pang Xing didn't have the time to waste time arguing with the half human half soul pet. His five soul pet formation was already complete, but he didn't dare to go straight into battle, instead choosing a defensive stance.

“Hou”

At this moment, a low yet angry roar came from below, as if the Mo Ye Emperor was groaning in pain.

“Don’t worry, I can still keep it at bay for a while. You can escape first.” Pang Xing said to Mo ye emperor while his eyes were tightly staring at the blood barbarian hidden dragon, not daring to lose sight of it at all.

“Hou!!!!!!” Suddenly, Mo Ye emperor let out a stronger roar, as if telling Pang Xing to go aside.

Pang Xing understood the meaning in the roar, and went bright red with anger. Why was it telling him not to be a bother again!

No one wanted to be a bother. If not to save Lady Xiao and the other three, to save his daughter’s life, there was no way Pang Xing would come to such a place and fight the blood barbarian hidden dragon.

“If you’re this wounded already, can’t you go aside.....” Pang Xing lowered his head and yelled angrily.

Yet, halfway through cursing, Pang Xing’s expression went still and his cursing stopped abruptly.

“This.....this.....this is impossible!” Pang Xing’s face stared stunned at the black war beast that stood back up, immersed in utter disbelief!

Mo Ye’s wounds were completely healed!!

The black and sturdy figure slowly walked ahead of Pang Xing. Its mighty armor had a cold glint that averted one’s gaze. Its four powerful limbs stepped heavily on the ground, as if it commanded this piece of territory, and no one could tell it otherwise!

“Houhouhou!!!!!!!!!!”

Zhan Ye let out a wild roar, its speed much faster than even before. Its body became a mighty black axe that pierced towards the blood barbarian hidden dragon!!!

The blood barbarian hidden dragon similarly didn't think the Zhan Ye could still stand up. Unable to make a reaction in time, the blood barbarian hidden dragon was slammed by the black war axe. Its huge body was sent flying in one hit, its blood colored body creating a huge gorge in the ground!

“Beng!!!!!!”

Blood barbarian hidden dragon flew back and hit many bloodthirsty insect cave mountains along the way. A dozen thousand meter tall mountains fell one after another. When it was near another mountain range, the blood barbarian hidden dragon’s near hundred meter long body was but a speck in the distance that fell into the ruins of a mountain!

Pang Xing was dumbfounded, as he watched the black and proud figure that seemed near death just moments ago. He was speechless at the sight before him!

On the other side, lost in the fight with the bloodthirsty insect army, Lady Xiao and the other two turned around to find that the blood barbarian hidden dragon had disappeared!

When they followed the long gorge with their eyes, they were shocked to find that the blood barbarian hidden dragon, so powerful they nearly lost their souls at first sight, was sent ten kilometers away by an attack!

Chapter 912: Undead Zhan Ye

“Ao~~~~~”

Blood barbarian hidden dragon’s voice came from afar. Its roar contained an anger that it couldn’t contain anymore!!

Suddenly, the Blood barbarian hidden dragon opened its bloody maw and revealed a rolling ball of lava deep within its throat, sending white smoke out of its mouth!

The Blood barbarian hidden dragon’s throat instantly became a volcano mouth. The rolling lava was already leaking out from between its teeth and burning through the ground!

“Ao!!!!!!!!!!”

Dragon breath came out, creating an impressive beam of red that stuck close to the ground as it flew from ten kilometers away swiftly over!!

The ground was burnt to crisp as a massive funnel of lava came forth, the blood red energy threatening to melt everything!

This blood dragon breath clearly also held the Blood barbarian hidden dragon's anger as it came over. However, its attack range was so large that even Pang Xing had to ride his soul pet away to avoid it.

“Long~~~~~”

Blood colored dragon breath swept across. With Zhan Ye's speed, even being ready for it, it was hard to dodge it completely.

Immediately, Zhan Ye's grey figure was devoured by the terrifying dragon breath, flying even further away along with the magnificent blood lava!!

The bloodthirsty insect army originally had Lady Xiao and the other two trapped in another piece of land. Luckily, the three saw the Blood barbarian hidden dragon's attack and quickly dodged, being unaffected by the breath.

As for the bloodthirsty insect army, they were less lucky. When the dragon breath rolled across, millions of insects disappeared under the rampant energy!

“It's terrifying!” Zheng Bang looked at the burnt ground that now covered everything in his sight and started shaking.

Zheng Bang followed the burnt land to the edges of the attack and suddenly found a black figure come out of the burning ruins, shaking off the rocks on it.

“It didn’t die?” Zhen Bang yelled out, astounded!

This dragon breath was definitely dominator rank in strength. If they went against it head on, they would definitely die. Yet, this black soul pet could stand up in such a short time, just how powerful was its life force?

“Sousousou~~~”

Zheng Bang hadn’t even come back to his senses before the black organism became a shadow that followed the long burnt ground away.

At the same time, Blood barbarian hidden dragon followed the breath, and flew full of power into this tough insect, colliding powerfully and starting a bloody brawl!

The Blood barbarian hidden dragon was incredibly angered right now. It had been too many years since someone dared to pick a fight with it.

Though the Blood barbarian hidden dragon hoped dearly that an organism could come find trouble with it so it could have a good fight, it didn't expect all of its techniques to fail to kill a mere emperor rank.

It was just an emperor rank organism, how could it possibly stop this many attacks? This had never happened before!

Of course, what caused it to be angry the most was the wound on its stomach. In not too long, it would truly be a dominator rank organism. As a dominator rank organism, it was an absolute shame to its pride as a dragon to be wounded by an emperor rank!

The Blood barbarian hidden dragon's red eyes stared violently, yet disdainfully at the emperor rank organism, looking down upon it!

“Beng!”

It couldn't even withstand that hit. The Blood barbarian hidden dragon heavily swept its claw across, and the Mo Ye didn't even have the time to dodge before falling heavily onto the ground, the sound of bones cracking clearly heard!

“Beng!! Beng!! Beng!!!”

The blood barbarian hidden dragon angrily lifted up a foot, not giving a lethal claw that could end Zhan Ye's life, instead stepping on Zhan Ye's body when it was still struggling with broken bones. It was utterly torturing its foe!

This blood barbarian hidden dragon was just letting out its rage!

Seeing the cruel blood barbarian hidden dragon, Pang Xing glanced at Mo Ye getting stamped on and again decided to attack.

“Ao~~~~~”

Suddenly, the continuously stomping blood barbarian hidden dragon let out low roar and lifted up its foot in pain, which proceeded to bleed profusely!

The bottom of blood barbarian hidden dragon's feet had no armor, so Zhan Ye's ink armor spikes extending caused the blood barbarian hidden dragon great pain, as if its entire body was on fire!

Red energy gathered within its angry red claws, so dense that it seemed to be dripping.

Suddenly, blood barbarian hidden dragon's claw fell down, heavily falling towards the Mo Ye still in the pit!

Pang Xing saw that things weren't great, and immediately told his ice type emperor rank to cast freeze!

Frost welled up and became countless crystals that swiftly covered the blood barbarian hidden dragon's body.

Yet, the near dominator rank blood barbarian hidden dragon didn't even care about the technique. A single shake caused all the ice to shatter and its claw fell down!

The claw could pierce through countless layers of ground. If it hit the Mo Ye, it wouldn't be a simple matter of a wound; Zhan Ye's whole body would become mush!

When Zhan Ye's ink armor spikes pierced the foot of the blood barbarian hidden dragon, it already casted broken limb rebirth. After it recovered its wounds slightly, it didn't dare to hesitate and quickly dashed out of the cracks in the ground, evading this lethal hit from the blood barbarian hidden dragon.

Zhan Ye was very speedy, instantly appearing a few kilometers away, stopping not far away from Pang Xing.

“Hou!!!!” Zhan Ye dodged the attack and roared towards Pang Xing, signaling for him to not participate!

Pang Xing blanked, and watched as the Mo Ye’s wounds quickly healed.

“This.....this is broken limb rebirth?” Pang Xing stared wide-eyed.

“Of course, you thought it had nothing to rely on and dared to fight the blood barbarian hidden dragon? Use your mind!” Old Li said.

Pang Xing was the great senior elder of soul pet palace, yet now he was being called brainless by a half human thing. Even he felt slightly embarrassed.

“It’s life force is incredibly powerful, but don’t you find this completely meaningless? Can’t you see its always just passively taking a beating?” Pang Xing said.

“It’s used to it, it was always like this in the beginning.” Old Li said grumbling.

“What do you mean “in the beginning”?” Pang Xing was still confused.

Usually, soul pets with Broken Limb Rebirth were slightly weaker in fighting strength. If one were to strengthen it again, it would take a large amount of resources.

“Ao!!!!!!!!!!”

This time, the blood barbarian hidden dragon was truly furious!!

It was nearly dead, but why was it running around completely healthy again!

What made it angrier was it could vaguely feel that the insect's power, defense, and speed all became stronger!

The blood barbarian hidden dragon was incredibly violent, so it was to the point where it had to kill the Zhan Ye!

After Zhan Ye's speed got faster, it no longer purely fought the blood barbarian hidden dragon head on. Instead, it chose to wander and avoid its direct assault, finding a good chance to leap forth, as if it were dragging out the battle.

Zhan Ye's life force was already six times stronger than normal organisms. Now that Zhan Ye was invincible emperor, it means the blood barbarian hidden dragon had to kill six invincible emperor ranks before making Zhan Ye use broken limb rebirth once. This caused the blood barbarian hidden dragon to have even greater difficulty killing the Zhan Ye!

.....

As the battle continued, the bloodthirsty insect army retreated. Losing so many troops, they didn't want to lose even more just because of the battle between dominator ranks.

Without the army's pressure, Lady Xiao, Zhen Bang, and Zhang Ying were relieved and came to meet up with Pang Xing.

Originally, they thought the three were going to go into battle and defeat the blood barbarian hidden dragon together.

As long as a single soul pet could stop the blood barbarian hidden dragon's attacks head on, with the four of their powers, they could probably fight the blood barbarian hidden dragon.

However, Pang Xing didn't want to let them attack because Pang Xing was staring in awe at the Mo Ye Emperor get stronger constantly. Even he wanted to know deep down just how powerful this Mo Ye could become!

When the second broken limb rebirth appeared, Pang Xing just barely understood.

The third time, Zhan Ye's strength clearly raised two ranks and he was surprised.

By the fourth broken limb rebirth, everyone was shocked speechless because they never would have guessed that the invincible emperor rank Mo Ye had four broken limb rebirths!!

.....

After the fourth one, Zhan Ye's strength climbed three full ranks!

Originally, Zhan Ye's own body's healing had no effect under the powerful attacks from the blood barbarian hidden dragon. After all, any attack could easily cause Zhan Ye to be heavily wounded.

However, after the fourth broken limb rebirth, Zhan Ye was sustaining weaker and weaker wounds while its regeneration was getting stronger, causing the blood barbarian hidden dragon to find even more difficulty.

Most importantly, Zhan Ye could cause wounds now to the blood barbarian hidden dragon even without its defense ignoring ink armor spikes!

The blood barbarian hidden dragon's self-healing was very strong. Until now, other than its stomach, the blood barbarian hidden dragon barely had any wounds.

"Heavens..... fifth..... the fifth broken limb rebirth! Its strength raised again!!" Zhang Ying let out a cry of surprise.

Just when the four of them thought that was Mo Ye's last broken limb rebirth, they saw a world-shaking scene!

Five broken limb rebirths, and it had a Brave Stinging heart that constantly increased its powers. As long as it couldn't be killed in one go, this Mo Ye would become incredibly scary!

After the fifth broken limb rebirth, Zhan Ye's strength raised another rank!

At this moment, Zhan Ye's strength was much closer now to the blood barbarian hidden dragon's.

It was time for this dumb dragon to get a taste of being tortured!

“Houhouhou!!!!!!!!!!” Zhan Ye let out an angry roar. Using speed nearly five times higher than its original speed, it became an even larger black axe that slammed imposingly towards the blood barbarian hidden dragon!

Chapter 913: Tramping on the Blood Barbarian Hidden Dragon (1)

A black colored hatchet; violent and imposing. A flash of death caused the surrounding environment to lose its color!

For a moment, the only thing that could be seen was the imposing hatchet that Zhan Ye had transformed into. It was proud, baleful, and aggressive!!

“Si la!!!!!!”

The black hatchet ripped apart the Blood Barbarian Hidden Dragon's chest. Zhan Ye's darkness secondary attribute's effect, mixed with the beast type's sturdiness and the insect type's piercing and ripping abilities, fiercely tore apart its thick scales!

Immediately, a huge portion of dragon scales dripping with blood and flesh fell to the ground. A stunning scene!

Quickly, Zhan Ye's darkness energy broke through the Blood Barbarian Hidden Dragon's wound, and greedily poured into the flesh!

Darkness corrosion could prevent the wound from healing, while also enlarging the wound. Zhan Ye didn't have many darkness techniques, but as long as the darkness secondary attribute could destroy defenses and corrode wounds- this would be the most optimal attribute for Zhan Ye!

The wound corrosion ability was something Old Li had specifically trained Zhan Ye in. After reaching the tenth phase, it was extremely difficult for it to comprehend a new technique. Fortunately, Old Li's experience was vast, and he knew that there were a few spirit items that could nurture inside a soul pet's body. Then, having it eat darkness creatures' soul cores and soul crystals over a long period of time, the two effects together would successfully add the darkness corrosion ability on Zhan Ye's claws!

This technique had truly wounded the Blood Barbarian Hidden Dragon's physique!

Moreover, the self-healing ability it was so proud of was rendered useless because of the darkness corrosion!

“Ao!!!!!!!!!! Ao!!!!!!!!!!”

The Blood Barbarian Hidden Dragon's body transformed into a red volcano. No matter how much it exploded with anger, the black creature in front of it would remain vigorous and energized!

At this point, it had no choice but to reevaluate this powerful enemy in front of it!

.....

There was an enormous discrepancy in strength between a dominator rank and emperor rank. There were times when ten normal peak emperor ranks were not even able to fight back against a single dominator rank before being killed.

Even a paragon emperor, in the face of a dominator rank, would still be instakilled.

Paragon emperors were ultimately emperors. They were only one or two grades higher than a normal peak emperor. There was still a huge gap between them and dominator ranks.

At the very least, the Blood Barbarian Hidden Dragon, that was near the dominator rank, was three grades higher in strength than a paragon emperor!

This three grade gap was something that a paragon emperor ostensibly could not cross.

Indeed, the Blood Barbarian Hidden Dragon was essentially a paragon emperor in the process of evolving to a dominator rank. Paragon emperors had no qualifications to fight it.

However, this time, it had encountered Zhan Ye.

Zhan Ye was practically an undying powerful life force. The Broken Limb Rebirth ability and Brave Stinging Heart gave it the powerful qualifications of fighting those stronger than it! Therefore, the rank of strength it appeared to be was actually Zhan Ye at his weakest state!

In other words, at his weakest state, he was a paragon emperor. Thus, if he could truly explode, why would he not dare to fight the Blood Barbarian Hidden Dragon?!

At the beginning, Old Li had known about this enormous potential of Zhan Ye's. This was the reason why he had chosen to stay in the forbidden region, which was full of hardships, for such a long time. It was to raise Zhan Ye.

Raising Zhan Ye's innate rank to a paragon emperor was actually extremely, extremely difficult. As for truly creating a dominator rank creature, Old Li wasn't sure if it was possible even after combining all the resources.

Of course, the most important aspect was Zhan Ye's powerful recovery abilities and obstinate fighting intent that allowed his strength to skyrocket in truly bloody fights!

Today, the success of the bitter training was about to be displayed!

Facing the Blood Barbarian Hidden Dragon which was near the dominator rank, Zhan Ye had to pull out all the stops. Old Li would also be able to give a firm assessment of Zhan Ye's strength, and determine if Zhan Ye could challenge those at an even higher level!

.....

Zhan Ye's fight with the Blood Barbarian Hidden Dragon continued. The Bloodthirsty Insect's territory in the surrounding ten kilometers had been completely destroyed.

Initially, it had only been the Blood Barbarian Hidden Dragon's destructive force that had been terrifying. A casual attack would sweep up an area of ten kilometers.

However, as Zhan Ye's strength rose, its attacks grew more powerful. The endless fissures in the ground were a work of art from its claws. Even the four spectators had to continuously change locations to not be affected by the waves from the two creatures.

The strength gap had narrowed. Zhan Ye didn't need to hide its claws, and it was finally able to fully exhibit the superior nature of its formidable life force. It recklessly attacked the Blood Barbarian Hidden Dragon's corroded wound.

The Blood Barbarian Hidden Dragon's attacks were no longer able to deal substantial damage to Zhan Ye like before. There were many times that in order to make the Blood Barbarian Hidden Dragon's chest bleed, Zhan Ye recklessly used its own body to block the Blood Barbarian Hidden Dragon's techniques.

.....

"Crap!" Madam Fu's expression changed, and she intently watched Zhan Ye.

The accumulated wounds had caused Zhan Ye to slow down.

The Blood Barbarian Hidden Dragon grasped this opportunity. A bloody energy condensed on its dragon horn, and it surged towards Zhan Ye!

The dragon horn was the sharpest weapon of the Hidden Dragons. If it was attacked, beaten and battered Zhan Ye wouldn't have anymore strength left to stand.

The four spectators decided to take action.

A huge amount of the Blood Barbarian Hidden Dragon's physical strength had been exhausted by Zhan Ye. On its body were visible significant wounds. If the four of them combined their strengths, they would definitely be able to defeat this Blood Barbarian Hidden Dragon!

"If you guys attack, you are not showing respect to it." Old Li wasn't worried and slowly spoke.

"Even now?! What respect is there left to show?!" anxiously said Pang Xing.

As he spoke, the Blood Barbarian Hidden Dragon's terrifying dragon horn descended!

"Chi!!!!!"

The dragon horn ghastly pierced through Zhan Ye's broken armor, which was of no defensive use. It pierced through from its back to its abdomen!

"Ao!!!!!!!!!"

The Blood Barbarian Hidden Dragon let out a wild roar!

It raised its head high up into the air, raising up Zhan Ye and a huge piece of rock up with it. It was like a cruel monarch had lifted and hung the person that had offended it high up into the air after piercing it!

The four of them went pale when they saw this frightening scene. They quickly urged their soul pets forward to the rescue.

“Hou Hou Hou!!!!!!”

Suddenly, a roar filled with equal intimidation force rang out!

The Blood Barbarian Hidden Dragon, that was wildly venting its anger about the enemy that was about to die, immediately realized something. It abruptly smashed its head against the ground in an attempt to pulverize the innards of the pierced enemy!

However, Zhan Ye's movements were quicker. It forcibly lifted its body from the terrifying dragon horn and rang along the Blood Barbarian Hidden Dragon's rugged back. Using its two claws, it clung onto the Blood Barbarian Hidden Dragon's two wings!

Insect fluids continuously seeped out, quickly healing the enormous wound from being pierced. This was the sixth Broken Limb Rebirth Zhan Ye used!

The Blood Barbarian Hidden Dragon's offensive blindspot was precisely its back. In anger and humiliation, it jumped into the air and smashed its own back towards the ground!

Zhan Ye's healing was extremely fast. Just as the Blood Barbarian Hidden Dragon smashed into the ground like a bloody meteor, Zhan Ye jumped off, and ran along the ground explosions over ten kilometers away.

“Hong!!!!!!!”

The energy from smashing into the ground transformed into an air wave that knocked Zhan Ye up.

Zhan Ye flipped in the sky and steadily landed on the ground. Its pair of cold eyes stared at the berserk Blood Barbarian Hidden Dragon!

Pieces of dirk and rock struck Zhan Ye's armor, emitting crisp sounds.

A black armor was covering Zhan ye's body. The original blood and flesh wounds were completely healed. It was another full recovery!!

"Sixth... this is the sixth Broken Limb Rebirth!!!" Pang Xing stared in shock at the Warbeast Mo Ye that was as good as new.

An entire six Broken Limb Rebirths!!

Pang Xing finally understood why Old Li didn't want them to interfere. With such an abnormal attribute, why would it not dare fight the Blood Barbarian Hidden Dragon.

Madam Xiao was equally stunned!

She had seen creatures in the past with the ability to use multiple Broken Limb Rebirths. However, the only strong part of these creatures was that they had powerful resistances.

Today was the first time she had seen a Warbeast Mo Ye with the ultra talent to combine the Broken Limb Rebirth and Brave Stinging Heart techniques. The strength it displayed left her in incomparable amounts of shock!

“Haha, this stupid dragon is about to meet a disaster!’ Old Li happily laughed.

“What do you mean?” quickly asked Zheng Bang.

“Can you not see that its strength rose again?” Old Li raised his ugly eyebrows.

The four of them looked at the war beast that stood proud like a monarch.

Indeed, the Warbeast Mo Ye’s aura had become stronger. The incorporeally emitting darkness effect even froze the space around it!

The aura and intimidation emitted was different from the Blood Barbarian Hidden Dragon’s wild violence and dominating nature. However, they could tell that its aura wasn’t any inferior to the Blood Barbarian Hidden Dragon’s.

In other words, the current Mo Ye’s strength was also extremely close to the dominator rank!!

.....

Zhan Ye's fighting strength was full, and there were no wounds on its body, while the Blood Barbarian Hidden Dragon's body was full of wounds. In this state, who was weaker and who was stronger was already known!

Thinking of what would come next, Pang Xing, Madam Xiao, Zheng Bang and Zhang Ying felt that it was inconceivable that the Blood Barbarian Hidden Dragon that made all of them quake would be trampled on by a Warbeast Mo Ye!!

"Old Li, is this Mo Ye Emperor really Chu Mu's?" a while later, Madam Xiao finally asked this question.

"Of course. However, the reason it's this strong is because of my efforts!' Old Li didn't hesitate to pump his own ego.

Madam Xiao didn't say anything more.

Madam Xiao and Liu Binglan called each other sisters, so she knew that Chu Mu was Liu Binglan's child.

A formerly unremarkable Warbeast Mo Ye was so strong today that it was nearing the dominator rank that was inconceivably hard to reach. Wasn't this the most clear indicator of how successful and what heights its dead master would have reached?!

Chapter 914: Tramping on the Blood Barbarian Hidden Dragon (2)

A black figure flew along at extreme speed. Zhan Ye's black iron body transformed into a black light that flew across the ground.

The Blood Barbarian Hidden Dragon didn't want to display weakness. It took an earth-shaking step, and also threw itself at Zhan Ye.

A blade of death suddenly appeared, as if it was ushering in a new dawn. It split the heaven and earth, sparkling in cold light!

The Blood Barbarian Hidden Dragon used its two enormous wings to cover its body as it charged. Its enormous body transformed into a blood colored energy, resembled a bloody moon, as it made contact!

The two forces clashed against each other. The Blood Barbarian Hidden Dragon's energy exploded like a blood meteor of destruction. All of the energy that burst out destroyed everything in its path!

Zhan Ye's Dawn Blade was ostensibly muffled by the overwhelming bloody energy. It was only after the heaven and earth shattered that the delayed-force stubbornly flickered in the bloody light. Subsequently, a proud body flew along its original trajectory like a rainbow.

“Ao”

“Hou”

The Blood Barbarian Hidden Dragon and Zhan Ye both let out pained roars. However, in the sky filled with a bloody light, the enormous outline of the Blood Barbarian Hidden Dragon was still tangled with the sturdy and strong body of Zhan Ye!

With six times the normal life force and its strength nearing the dominator rank, Zhan Ye had already abandoned defending. Each one of its claws left deep black scars on the Blood Barbarian Hidden Dragon's body!

Despite relying on its innate powerful defense, the Blood Barbarian Hidden Dragon was still able to engage in a purely flesh fight with Zhan Ye as it attempted to rip Zhan Ye to pieces.

In this battle, Zhan Ye's ruthlessness and berserk nature was completely displayed. The Blood Barbarian Hidden Dragon used its bloodthirsty ability to enter a berserk nature as it also fought against Zhan Ye without knowing pain.

Unfortunately, the Blood Barbarian Hidden Dragon had no way of killing Zhan Ye, whose life force had reached an oppressive state!

Six Broken Limb Rebirths was Zhan Ye's strongest state. Its strength, defense, and speed were no longer inferior to the Blood Barbarian Hidden Dragon. However, it had six times the life force and recovery speed than the Blood Barbarian Hidden Dragon. The innate advantage of the Blood Barbarian Hidden Dragon was not like the Empyrean Cyan Hidden Dragon, which had extremely fast self-healing abilities. In terms of healing, the Blood Barbarian Hidden Dragon could not hold a candle to Zhan Ye!

Entering a berserk state for the Blood Barbarian Hidden Dragon would indeed deliver extreme intimidation and deterrence to equal matched opponents in the later stages of a fight. However, against the six times the life force Zhan Ye who was nearly undying, the berserk state would only allow it to fight blindly against Zhan Ye, which would in turn increase the wounds it suffered.

Gradually, the berserk effect began to fade. The moment it faded, it meant that the Blood Barbarian Hidden Dragon would enter a weak state!

Moreover, while Zhan Ye fought the Blood Barbarian Hidden Dragon, not even half of its life force was expended. Seeing the Blood Barbarian Hidden Dragon's aura drop, Zhan Ye's black pupils suddenly flashed with a savage glint!

..

Bloodthirsty Berserk Transformation!

The incredibly patient Zhan Ye waited until the Blood Barbarian Hidden Dragon had used its trump cards before using Bloodthirsty Berserk Transformation!

The Blood Barbarian Hidden Dragon was already at a worn and exhausted state. Seeing Zhan Ye use Bloodthirsty Berserk Transformation, it immediately retreated in fear!

“Hou Hou Hou!!!!!!!”

A bloody light appeared on Zhan Ye’s black body as an armor circulating with blood was draped on top of it. Zhan Ye, whose style of fighting was innately berserk, after undergoing a berserk transformation, became even more savage and terrifying. Even the Blood Barbarian Hidden Dragon, famous for its ruthlessness and bloodbath, was stunned by Zhan Ye’s berserk aura!!

“Shua!!!”

Black claws kept flying through the air. There were no longer many scales left on the Blood Barbarian Hidden Dragon’s body. Each claw would sink into its flesh, and even bones would snap!

“Ao!” the Blood Barbarian Hidden Dragon let out a pained roar. It strenuously beat its wings, attempting to dodge into the air.

Zhan Ye took a step in the air and appeared atop the Blood Barbarian Hidden Dragon's wings!

"Hou!!!!!!" Zhan Ye let out a roar. His four limbs, filled with strength, abruptly stamped and trampled downwards!

Just after ascending to the air, the Blood Barbarian Hidden Dragon turned into a rock of flesh that was hurtled to the ground after being trampled on. It sunk into a deep whole in the earth.

It wasn't too long ago that the Blood Barbarian Hidden Dragon had used its enormous leg to trample on Zhan Ye. Back then, it had been all haughty and arrogant.

However, right now the powerful Blood Barbarian Hidden Dragon was being stepped on by Zhan Ye. The previously arrogant expression had vanished without a trace. It was replaced by eyes full of fear, shock and anger!

The Blood Barbarian Hidden Dragon laboriously climbed up, and it smacked its large wings towards Zhan Ye!

Zhan Ye didn't dodge. When the dragon wings arrived, Zhan Ye's ink armor spikes stretched out, locking onto the cartilage of the wings. Like countless sharp swords of darkness, they pierced the wings!!

The Blood Barbarian Hidden Dragon withdrew its wings in pain, and miserably rolled to the side.

Destruction Ray!

An energy filled with destructive aura surged up in Zhan Ye's throat before it spat it at the area in front of the Blood Barbarian Hidden Dragon!

“Hong”

The Destruction Ray blew up. Since it didn't have the aim of injuring, it knocked the Blood Barbarian Hidden Dragon back to Zhan Ye!

Indeed, after the energy wave swept up, Blood Barbarian Hidden Dragon's 100 meter body was lifted into the air. It had tumbled a long way away with great difficulty only to be blown back by Zhan Ye. Thus, Zhan Ye launched another series of techniques on the Blood Barbarian Hidden Dragon.

Without many scales left, Blood Barbarian Hidden Dragon could only bend its wings to shield its body.

However, the defensive strength of the wings was also extremely limited. Inevitably, this defense would ultimately be utterly destroyed.

Zhan Ye's attacks turned increasingly savage. Occasionally, the Blood Barbarian Hidden dragon would be able to let out roars of resistance, but ultimately it was fiercely beaten down.

The more it was beaten down, the less of an opportunity it had to free itself. Indeed, after its Bloodthirsty Berserk Transformation, it would continuously grow weaker, while Zhan Ye's Bloodthirsty Berserk Transformation had only just started. As time wore on, Zhan Ye would secure himself the victory!

Seeing the black proud figure move around in the distance, Pang Xing, Madam Xiao, Zhang Ying and Zheng Bang were all speechless. They stared, fixedly, at Zhan Ye and the Blood Barbarian Hidden Dragon!

Powerful. The berserk Blood Barbarian Hidden Dragon's strength was something the four of them had personally experienced. However, now, they felt that it was going to die!

This invincible enemy was being beaten by another creature so badly that it didn't even have the ability to resist!

“Pu pu pu pu pu”

Suddenly, the Blood Barbarian Hidden Dragon spat out bloody silk. The traces of red silk wrapped up its body, blocking the wounds that were spilling too much blood.

The red of blood cocoon silk grew, instantly wrapping the Blood Barbarian Hidden Dragon's injury riddled body.

The cocoon silk was able to stop the injuries to a certain extent and was flexible enough that they prevented Zhan Ye from delivering a fatal strike.

“Hu!! Hu!!!!!!”

The blood cocoon silk wrapped up its wings as well. Its half-broken wings now had the ability to resist to a certain extent.

“Ga!! Ga!!!!!!” the Blood Barbarian Hidden Dragon strived to beat its wings. The sound of bones breaking was crisp.

Being wrapped by cocoon silk was like being imbued with strength. Zhan Ye’s continuous attacks attempted to drag the Blood Barbarian Hidden Dragon back to the ground, but it ultimately couldn’t stop it from ascending to the air.

The Blood Barbarian Hidden Dragon chose to flee! Pang Xing and the three others, stunned by the battle, all reacted!

If they could kill this Blood Barbarian Hidden Dragon, merely its inner crystal would be capable of creating a bug type and beast type peak emperor. If its body had a soul crystal...

The value of a dominator rank’s soul crystal didn’t need to be said!

Essentially, the swaying Blood Barbarian Hidden Dragon in the air was an enormous manageable treasure!

“Don’t think about it. The Blood Barbarian Hidden Dragon’s ability to flee are stronger than true dominator ranks. It’s impossible for you to kill it. Don’t you see the cocoon silk that is wrapping its entire body? Quickly, Innards of a God will appear in some place...” Old Li looked at the fervent eyes of the four people and coolly spoke.

The blood red insect silk grew in number, practically wrapping the Blood Barbarian Hidden Dragon's entire body. It transformed into an enormous cocoon in the air that continuously grew thicker and larger as it flew far away.

The cocoon silk was a species ability of the Hidden Dragon species. The moment one of these species was in danger, it would turn into a chrysalis and undergo a long period of sleep...

"Dominator ranks aren't so easily killed. Zhan Ye, don't chase after it. The value of the item it is protecting is far more valuable than its fatty body." Old Li saw that Zhan Ye had leaped into the air and spoke to it.

It was extremely difficult to kill a dominator rank creature. Indeed, if it was able to cultivate to that level, this soul pet was undoubtedly distinguished from the myriad of other soul pets. Not only would it be hard working, it would also have extremely powerful abilities to flee and survive. If it was so easily killed, they would have been eliminated a few ranks ago.

The Blood Barbarian Hidden Dragon was also a creature with fleeing abilities and the chances of killing it were extremely low!

Seeing the Blood Barbarian Hidden Dragon fly further and further away, Pang Xing and the others knew that it was impossible to keep it here. They felt a bit of regret in their hearts.

Of course, this Blood Barbarian Hidden Dragon that originally could have wiped all of them had been defeated and was fleeing. This was already exceptionally lucky, and they didn't have anything to complain about.

As for Zhan Ye, it knew very well that after its berserk state ended, it would become even harder to kill the Blood Barbarian Hidden Dragon. The goal this time was to defeat the Blood Barbarian

Hidden Dragon, and obtain the Awakening Cocoon Heart the Blood Barbarian Hidden Dragon was protecting.

The Recovery Cocoon Heart was a spirit item that Old Li had searched for a long time for Zhan Ye. It was in order to give Zhan Ye a chance at comprehending the technique, Ancient Force Awakening.

Ancient Force Awakening was an extremely ancient bug type ability. Very few bug type creatures possessed this ability and it could be regarded as an ability that had been practically eliminated from the bug type domain.

This was because this ability could only awaken strength once a body had been ruptured!

Normally once a body ruptured, the soul pet would lose the ability to fight or lose its life. An increase of strength would be of no use.

Therefore, this caused the Ancient Strength Awakening technique to become useless among bug types and gradually become “extinct”.

However, to Zhan Ye, this “useless” technique was a perfect technique, as it could increase its strength again!!

Chapter 915: Plain, Village

“Ha, I knew this blood barbarian hidden dragon was hiding some good stuff.”

From blood barbarian hidden dragon’s cave came Old LI’s laughter.

Coming out strutting, Old Li walked in front of Zhan Ye and said, “It had what we want. One more thing in the future, and you will be able to have Ancient Power Awakening. Then the fight would be much easier against the blood barbarian hidden dragon if you had to fight another in the !”

“Easier to beat? Then..... wouldn’t that be dominator rank?” This time, Zhang Ying blinked and asked.

“Little fellow, if it truly got to dominator rank, that would be truly impressive.” Old Li said.

Pang Xing and Lady Xiao’s face slightly changed. Their ranks were still invincible emperor rank, yet they could already fight near dominator rank organisms. If Mo ye reached dominator rank, wouldn’t it be able to fight a group of dominator rank organisms? That would be scary!

Old Li saw the expressions on Pang Xing and Lady Xiao’s face and laughed out loud, saying honestly, “It’s not that strong. It has two main types and one subtype, and adding on its own talent weakness, raising it to dominator rank is far harder than all other soul pets, so it won’t be able to reach dominator rank in a short while.”

Hearing Old Li’s explanation, the four of their expressions were slight. If it truly reached dominator rank, it would be invincible in the human realm. Even the most powerful soul alliance master would probably have to be worried about it.

However, reaching its current state was already abnormal. Only a few people in the entire human realm reaches dominator rank!

Seeing the powerful strength of this Mo Ye, Pang Xing immediately started discussing with Pang Xing.

The three palace and soul alliance's battle was never ending. In terms of upper level strength, the three palaces were clearly not as good as soul alliance, especially with the four heroes of dominator rank that were unstoppable.

Pang Xing calculated that if they could get the Mo Ye into three palaces, at least when the war started, they could deal with one hero. This way, the three palace would have a better chance.

Old Li seemed to understand what Pang Xing was trying to do. Now, Old Li was training up a super-powerful emperor rank for Chu Mu, so his status was much better than before. He touted himself and replied, "Of course we will help, but not now; its training isn't over yet."

"It's already this powerful, and you aren't done yet? Didn't you say it cant reach dominator rank?" Zheng Bang replied.

Old Li glanced condescendingly at the fellow, "The emperor rank dominator rank gap can be infinitely expanded. The reason you are all at a bottleneck is because you don't know the way, and you aren't trying hard enough. Their ranks are usually at emperor rank but I have ways to increase their strength further."

Pang Xing and Lady Xiao always thought Old Li was just a thieving creature, but today they found out about Zhan Ye's power and realized that Old Li really had a lot of ability. Otherwise, how could he train such a powerful soul pet. In fact, even after reaching the peak of human strength, he could still improve it further!

Pang Xing and Lady Xiao both had invincible emperor ranks. They and many other experts who had reached the peak of their realm were always stuck at invincible emperor without any progress. After asking countless scholars and wise men, they could still only raise their soul pet strengths by a little, yet it was already extremely precious.

One can see that Old Li who could raise the strength of invincible emperor rank truly had great powers!

“How long should it take?” Pang xing indeed wished for Old Li to bring Zhan Ye to soul pet palace.

“Around half a year.” Old Li rubbed his mustache and said.

“Oh, half a year.” Pang Xing looked overjoyed.

Half a year was very short. Going back to wanxiang city alone may take that long.

“Speaking of which, what did you come here to do?” Old Li asked.

Pang Xing didn’t hide anything, and told the news of getting poisoned to Old Li.

“Just this? The way to fix the poison is easy. Find a plant called Blood Moistening Grass. Cut open your daughter’s artery and rub the grass on. When the blood flows through her veins, the poison will naturally get absorbed by the blood moistening grass. A month of this treatment and she will probably be healed.” Old Li said.

“Moistening Blood Grass, isn’t that the grass given to soul pets when they need an emergency infusion of blood? This can cure poison?”As the soul teacher of the group, Zhang Ying asked curiously.

“Go back and try it, and you’ll know. And I suggest you not to use that earth heart bug. It doesn’t only eat poison but also bones and blood. She may lose her poison but her body will be permanently weaker. If she’s a soul pet trainer, her strength will permanently fall.” Old Li said.

Pang Xing and Lady Xiao looked at each other. Could it really be that the antidote they spent so long to find had other consequences, while their problems could be solved with a simpler solution?

“Then thank you Old Li!” Pang Xing quickly said.

“Go back quick, the longer the poison is in the system the more troublesome it is.” Old Li heard Pang Xing’s praise and waved his hand, clearly pleased with himself.

Pang Xing didn’t dare to stay around for long, turning around soon.

The way back, there were many dangers that they may run into so Old Li decided to be a good person and showed them a safe way back.

Initially, Pang Xing didn’t have much hope in the infamous old man, but once he found that he truly was much safer on the way back. Pang Xing couldn’t help but be secretly surprised!

“Looks like this half soul pet old man truly is a hidden expert!” Pang Xing said.

“En, if we can bring him to soul pet palace, it would be great news for us. However, we should first check to see if the antidote will work today……” Lady Xiao said.

.....

After Pang Xing left with the other three, Old Li brought Zhan Ye further into forbidden realm.

It said it would need half a year because Ancient Power Awakening needed one more soul item. This soul item Old Li already had an idea of having, so he would be able to find it in half a year.

Another thing, to ensure Zhan Ye didn't get instantly killed by any stronger dominator rank, Old Li decided to do some changes to broken limb rebirth to ensure Zhan ye didn't get instantly killed before using all six of them.

Getting Ancient Power Awakening shouldn't be a big problem. As for changes to broken limb rebirth, that was much harder. Old Li wasn't sure he could do it.

"Half a year and if we make no breakthrough, we'll switch a place." Old Li said to Zhan Ye.

"Hou" Zhan ye replied with a low roar.

"Don't worry, dominator rank always has some things that can bring people back from the dead. As long as your soul pact didn't split, you still have some hope." Old Li was very sure. The reason Zhan Ye fought so hard was for only one goal.

In fact, all of Chu Mu's three soul pets were fighting for the same goal!

As long as their soul pacts didn't split, they wouldn't give up!

.....

On the green plain, a few exotic little villages were scattered and spread apart.

From far away, one could hear gallant voices singing with a string of clear chimes, its rhythm causing one to want to go closer to the villages.

The villages were all split up, but if they were connected, it would be the size of a city. All of these villages had sheep and shepherds near them, often adding in a long call to join in on the singing.

One could see that it was a purely farming village. The occasional seemingly cruel soul pets were just shepherding dog replacements.

“Wuwuwu”

Springtime little Mo Xie was always tired. Her small and delicate body laid on Chu Mu’s shoulder and it half-closed its eyes, yawning constantly. Her small tails hung off of Chu Mu’s back, lightly swinging. If little Hidden Dragon were here, they would definitely become the mischevious fellow’s swing.

Chu Mu turned his head to look at the bored little Mo Xie and rubbed her furry tail. “A bit longer and you won’t be so bored.”

Chu Mu finally knew why the higher one went the harder one’s rank was to increase.

If Chu Mu wanted to train in the past, he just had to walk into a bewildering world and had countless soul pets to fight.

Now, bewildering worlds that could satisfy Chu Mu were very limited. Most places viewed as forbidden regions were not any more challenging than walking on city streets.

Fighting was a key to raising one's strength. Not accounting for difficulties in finding soul items, fighting less was a key issue that caused their strength to be unable to increase.

"It seems like if I don't go to forbidden realms, my strength will stay in place." Chu Mu said to himself.

Ning Maner glanced at Chu Mu and mumbled, "Brother is a maniac at training."

Ye Qingzi knew Chu Mu couldn't stay bored and laughed lightly, "Wanxiang city has many experts, you can look for them to fight."

"Those fights at most let my soul pets loosen up and not cause them to lose strength over time, it won't strengthen them." Chu Mu said.

Many times soul pet trainers at soul emperor rank were very cautious and took battles mainly as skirmishes. Those were mainly to warm up their soul pets. If they didn't train for a long time in battle like before, their strengths staying stagnant was an understandable scene.

Of course, not many soul pet trainers were as dissatisfied as Chu Mu. Ask any of the large kingdom masters, elders, or high class emperor rank soul pet trainers and very very few would yearn for battle like Chu Mu did!

Chapter 916: The Man who Brought a Cyan Hidden Dragon

The three of them stepped into the village. Entering such a village for the first time, Ning Maner was very excited. Chu Mu and Ye Qingzi had just found a place to stay when the wild girl had already run off to play with a few of the kids of the great plains.

The young people on the plain clearly rarely saw such pretty girls. All the boys and girls circled around her.

Chu Mu wasn't surprised at all. This wild girl was naturally amicable, so as long as people didn't have ulterior motives, she was easily welcomed by others and escorted like a little princess.

Chu Mu knew now that meditating was useless, and his soul pets couldn't find a good place to train either. Most of the time, he acted as a traveller and focused on gaining different kinds of knowledge.

This time, their destination was Wanxiang City. After passing this great plain, and passing a few more large kingdoms, they should be able to reach the edge of Wanxiang City's boundaries. Even so, Chu Mu and the other two had spent nearly four months just to get there from Xiangrong City.

In these four months, Chu Mu didn't accomplish nothing. At least he raised ghost monarch king and binding wind spirit to high class emperor rank.

Other than that, Ning, under Ning Maner's spirit aura, was slowly moving towards top tier emperor rank.

Chu Mu still had half the ice spring on him. Once Ning reached a bottleneck, Chu Mu could use the ice spring to help Ning rank up. If so, Chu Mu would have another top tier emperor rank.

As for Dead Dream that was following Chu Mu around, it was still in its tiny form, quietly laying on his shoulder and sleeping, not giving any indication of when it would wake up.

Once a dominator rank was hurt, unless it had a rather powerful self healing, it couldn't recover in a short time usually.

Of course, Dead Dream completely recovered three months ago. The problem was that it was preparing for its rebirth, so it would probably be in slumber for a long time.

Without much to do, Chu Mu originally planned to walk around outside, but Ye Qingzi called Chu Mu to a halt.

"I heard the locals said that eastwards there's a bewildering world called Lang Diyi- it's purple. I need a medicinal ingredient for the soul item I'm making, help me go find some." Ye Qingzi was pretty straightforward with calling Chu Mu for favors now. After all, Chu Mu was absolutely free, and was looking for something to do anyways.

"Sure, but how do you plan on thanking me?" Chu Mu smiled lazily and looked at Ye Qingzi.

Ye Qingzi rolled her eyes at him. Why was he always acting so improper, asking for more?

"Go if you want to!" Ye Qingzi naturally knew what Chu Mu was thinking of, and turned her face away slightly with a blush.

“Alright, alright.” Chu Mu laughed bitterly. It looked like he didn’t have much hope with any “games” tonight.

“There’s a local that can lead the way for you, you should be able to be back by night time.” Ye Qingzi’s beautiful eyes rippled with a slight charm as she pushed Chu Mu out of the wooden room’s door.

Chu Mu knew Ye Qingzi well now. With those eyes, he knew his night today would be wonderful and unforgettable.

Young couples always had so much energy.....

.....

After leaving the wood hut, a honest looking man stood there waiting for him.

“Are you Lady Ye’s husband?” The man walked up, and asked slightly timidly.

Chu Mu nodded, secretly pleased with Ye Qingzi. It looke like she already was getting used to being a wife.

“Hehe, you truly are fortunate. Lady Ye is the most beautiful person I’ve ever seen. I used to think Man Ting was the prettiest, but if I could marry Lady Ye, I would be willing to do anything in my next life.....” The more the man spoke, the more he realized he wasn’t insinuating the right thing and quickly he tried to explain himself, “Oh, I’m not trying to steal her from you, I.... I meant....”

“I know.” Chu Mu could tell that this young man just wanted to praise Ye Qingzi, but he didn’t seem to be great with words.

“My name is Qing Yeshan. Lady Ye said you were very powerful and could bring me safely to the east plains.” The man said.

“En, let’s go.” Chu Mu already told Mo Xie to come out of pitiful appearance.

When Zhan Ye wasn’t there, Chu Mu could only tell little Mo Xie to bring him around. Otherwise, normally, little Mo Xie always sat on Chu Mu’s shoulder comfortably.

Mo Xie was an emperor rank organism. Just from its appearance, it was extremely flashy. When its nine shocking silver tails waved around, it gave one a very large visual shock.

Qing Yunshan clearly had never seen such a noble soul pet. He stared for a while before uttering some words of praise.

“Even our tribe’s most powerful Qing Yunkhan’s soul pets aren’t as pretty as yours. Your soul pet must be at least monarch rank, right?” Qing Yunshan said.

Chu Mu didn’t explain and rode Mo Xie in the direction that Qing Yunshan pointed in.

East plain wasn’t actually that far. If Mo Xie ran at full speed, she could make many laps within an hour.

However, Chu Mu didn't have much to do right now so he slowly waited for Qin Yunshan's commander rank ride to run while he "took a walk" through the plains.

Even so, Qin Yunshan felt that Chu Mu's soul pet was too fast, causing his soul pet to wheeze as it tried to catch up.

"So you're going to Wanxiang City. I heard you could see emperor rank soul pets there. I have never seen a single emperor rank soul pet in my life. I'm not sure if its like the elders said, how they could just stamp their feet and destroy my entire village." Qin Yunshan said.

"It's not that exaggerated. Your village is pretty big." Chu Mu said.

"A while back, I heard that a northern village accidentally angered someone, and their entire village was destroyed by a single emperor rank technique. Hearing their description, even I was scared. Thankfully, it was only angry but didn't truly harm anyone in the village or else no one would be able to survive." Qin Yunshan lowered his voice intentionally and said.

"Your tribes shouldn't be able to offend any truly important characters, right?" Chu Mu used to not care about gossip because he had to meditate, but he truly was bored now that he didn't have to meditate, so he occasionally decided to learn about such news.

"It was mainly because of Man Ting. When she went to train outside, I think she angered a character from a very large faction. This person sent someone to chase here and break all the houses as a warning." Qin Yunshan said.

"Which person?" Chu Mu asked.

An important person in Qin Yunshan's eyes may not even be significant in Chu Mu's mind.

"I don't know but I heard it was a soul pet trainer with a cyan hidden dragon." Qin Yunshan didn't know much.

"Cyan Hidden Dragon?" Chu Mu's expression immediately changed.

Chu Mu remembered Old Li said before that soul alliance seemed to have five people with the offspring of Empyrean Cyan Hidden Dragon, one of which was Dragon Absolute Wen Luo, who was famous for her cyan hidden dragon.

However, in Xiangrong City, Wen Luo didn't seem to have summoned her cyan hidden dragon to fight at all.

The remaining people Chu Mu didn't know, but they were definitely all soul alliance members.

"I have to get a hand on this!" Bored, Chu Mu finally found a small goal for himself!

Old Li said the other people with cyan hidden dragons were all hegemony of one place, very powerful.

Chu Mu's other soul pets were still high class emperor rank. Though Mo Xie couldn't be trained, his other high class emperor ranks could still get training. And of course, his training would come from soul alliance people in middle class and high class emperor rank realms!

“Yi, what’s wrong today? Usually, we see a lot of soul pets near the border, yet we’ve walked for so long today without running into a single thing.” Qin Yunshan scratched his head and said slightly embarrassed.

Not long ago, he was still boasting about how dangerous east plains were, and told Chu Mu to be prepared, yet they had walked for a while now and nothing happened. The organisms that used to come near all hid far away today.

Qin Yunshan naturally couldn’t imagine that Mo Xie’s invisible aura was strong enough to turn all the violent and cruel organisms he knew of into docile organisms. After all, the rank difference was just too big.

The process of getting the soul grass was very successful. Chu Mu even went out of his way to do good, helping Qin Yunshan finish a Green Wild Terror Wolf and gave him a soul crystal.

Because of this, Qin Yunshan had nothing but thanks to say on the way back. He excitedly told Chu Mu that, with this soul crystal, his strength could probably enter top ten of the entire tribe’s young men. This way, he could cause his secret crush, Jing Jing, to glance at him a few more times.

Chu Mu came from that position, and thus knew of Qin Yunshan’s excitement.

Many times, soul pet trainers weren’t trying to reach a certain, far away height. Instead, a lot of the time they were just trying to step forth to cause their friends and family within their realm to respect them more.

.....

When it was nearly midnight, Chu Mu and Qin Yunshan returned to the village.

The moment he got back, the wild girl ran to Chu Mu's side and pouted her lips, looking wronged as if someone bullied her.

"These people are so wicked, forcefully stealing women. I heard old grandfather speak of bullies like this in his stories before, but I've finally seen it today!" Ning Maner said.

"....." Chu Mu was speechless. Such an event of course happens in the real world.....

"Little sister, do you mean Man Ting?" Qing Yunshan thought the only person that could be stolen was Man Ting, who had just troubled an important person.

"En, that sister is so pitiful." Ning Maner said, her eyes blinking widely at Chu Mu.

Clearly, Ning Maner wanted Chu Mu to give her the permission to beat someone up.

Chu Mu restricted Ning Maner and told her that unless someone was trying to wrong her, Ning Maner couldn't use the white nightmares to bully anyone.

The white nightmare army was sent back by Chu Mu, but he kept the original ten white nightmares. Wearing strange human clothing, though they circled around Ning Maner every day, they still had to carry out Chu Mu's commands.

“Whatever, let’s go check it out.” Chu Mu really wanted to know who had the cyan hidden dragon. Would they be enough for Ning or Qin to train with?

Ning Maner immediately smiled widely and hugged Chu Mu’s arm, sweetly starting to praise Chu Mu for his handsome looks and confident decisions.

In her mind she thought, “Bringing a dominator rank brother to bully them is way more interesting. Let’s see if they dared to bully people with their rank now!”

Before, Chu Mu would never do such a meaningless thing, but he truly was bored now.

Chapter 917: Poison Desolation Nie Yunbin

Fighting over a woman wasn’t only something that happened in stories. If Chu Mu imagined himself in someone else’s shoes and wondered whether if he liked someone else who didn’t belong to him, would he fight over that woman?

As Ning Maner walked to the northern village, Chu Mu discovered that the houses here were rather new and simple. There were also pieces of wreckage from former houses.

There were about 100 residents in the northern village. Although they had their own plot of land, they were not far apart from each other. It was similar to a district in a city. The exchange area was rather busy and didn’t seem as backwards as other mountain villages.

Seeing Ning Maner speaking of those “evil tyrants”, Chu Mu was very disappointed.

Indeed, aside from one person possessing a pseudo emperor, the others were all of the monarch rank. There were no opportunities to let his soul pets warm up, much less train them.

“Hmph, so you recognize how strong we are now? Do you regret it now?” said the thirty year old man with a pseudo emperor.

This man’s face had a poisonous scar that was the size of a palm. When he let out a proud laugh, he looked incredibly malevolent and disgusting. Women would shiver in fear when they saw this.

The people beside this poison faced man were clearly his thugs. Right now they were sneering at the girl called Man Ting, and the other weak people protecting her.

“Big brother, that person is called Li Qin. He also said that his lord is the senior with a Cyan Hidden Dragon.” Ning Maner now knew that Chu Mu wanted to find trouble for the Cyan Hidden Dragon master, so she pointed at the poison scarred man.

Chu Mu nodded. His body took flight and he floated over like a phantom to the man called Li Qin.

“Who is it!” Li Qin was stunned and glared at Chu Mu.

Li Qin was sitting on a pseudo emperor rank Terror Wolf. The emperor rank Terror Wolf’s aura caused the villagers’ faces to pale. None of them dared move much less walk up to the Terror Wolf.

“Brother Chu, that’s very dangerous!” at this point, Qing Yunshan let out a shout. That was an emperor rank and just by stamping its feet, it could kill many people.

To the side, the woman called Man Ting saw that an outsider was willing to help and she was happy in her heart. But when she saw how young this person was, she felt a bit worried. She didn’t want her own matter to negatively implicate others.

“Don’t worry, that Terror Wolf is not even a small dog in the eyes of my big brother.” Ning Maner laughed and spoke to the adjacent Man Ting.

Hearing Ning Maner’s boast, Qing Yunshan and Man Ting looked at each other. An emperor rank Terror Wolf was ostensibly capable of sweeping through their entire village. How could it be not even comparable to a small dog? This was too much of a boast and the two of them clearly didn’t believe it.

However, in the next moment, they had no choice but to believe it.

This was because the Terror Wolf Emperor, which they saw as all powerful and savage, suddenly laid down on the ground. No matter how much its master, Li Qin, angrily yelled at it to get up, the Terror Wolf Emperor buried its head in the ground and trembled!

The villagers were stunned by this. It was very hard to believe that the tyrannical and arrogant Terror Wolf Emperor was rendered into a cowardly small dog that lay there. It didn’t dare show any savage intent in front of this young man!

“Who is your lord? That person with the Cyan Hidden Dragon.” Chu Mu calmly spoke.

“You... what witchcraft did you use...” Li Qin pointed at Chu Mu and it was a while before he said anything.

This Li Qin was evidently a bit confused. He didn’t even know that higher ranking soul pet trainers could use their soul remembrance to intimidate lower ranked creatures.

Chu Mu repeated his words. Of course, this time, Chu Mu didn't only exert pressure on the Terror Wolf. He even added mental suppression on Li Qin.

Once his mind was shackled, Li Qin couldn't even give an order. He finally realized that the young man in front of him was not merely a few grades higher than him. He hastily knelt on the ground while trembling.

The thugs around him didn't react at all, and stared in shock at Li Qin.

"You idiots. Hurry and pay respects to this spirit emperor senior!" Li Qin cursed his thugs.

These monarch ranks were all shocked. They didn't expect this young man to be a spirit emperor. Fortunately, they still had a brain and seeing even Li Qin kneeling, they obviously didn't remain standing.

"This... senior, this subordinate has pledged loyalty to Poison Desolation Nie Yunbing. One of Senior Nie's main pets is the Cyan Hidden Dragon. Who are you, senior..." Li Qin gave his identity before beginning to inquire about Chu Mu's identity.

"The Poison Desolation. Where is he now?" asked Chu Mu.

"This... not long ago he returned to Wanxiang City." Li Qin secretly wiped the sweat on his forehead.

Originally, Li Qin thought that after speaking of the Poison Desolation, this young man would go into a panic out of fear. He never expected him to not show any expressions. This meant that the person in front of him was likely to be a formidable existence!

There were rarely any spirit emperor rank people that were incurably stupid. A single survey by Li Qin, and he knew that the young man in front of him couldn't be offended.

"So why did you come here to bully a village girl?" Chu Mu creased his brows and spoke.

"This... this..." Li Qin immediately began to hem and haw.

The reality was that Li Qin had relied on his spirit emperor status to do a few evil things. In the past, he had bitterly trained and hadn't had a chance to enjoy life. Now that he had reached the spirit emperor rank, if he found something he liked, he had to obtain it. If normal methods didn't work, he could only take it by force.

"Scram, don't come back here in the future to bother her." Chu Mu waved his hands. He wasn't even in the mood to take action and get rid of these people.

"This lowly one will immediately leave...Oh, no, I mean, I will immediately scram..." Li Qin hastily stood up.

"Wait." Li Qin had just turned around when Chu Mu stopped him.

Li Qin was truly afraid that Chu Mu would kill his emperor soul pet because he didn't find him pleasing. If that happened, in the future, he could forget about his indulgent lifestyle. Even living a normal life would be a problem since he had offended many people after reaching the emperor rank.

“Se...senior, do you have any other instructions?” Li Qin hastily knelt again.

“What’s up with the poison scar on your face?” Chu Mu could see that the poison scar on Li Qin’s face wasn’t natural. It should have been given a short while ago.

“This is a mark of my loyalty to Senior Poison Desolation. Senior Poison Desolation said that it would disappear in a month. Oh, no- not completely disappear. The moment someone is to disobey his orders, it will reappear again and will continuously expand.” at this point, Li Qin’s expression grew very unsightly.

He had initially thought that he had obtained an opportunity and could latch on to a big thigh. However, he didn’t expect Nie Bingyun to be so terrifying. He even added a poison imprint on everyone who pledged loyalty, so that no one would dare to betray him.

Chu Mu waved his hand, indicating that Li Qin could scam now.

Li Qin didn’t dare to stay. He quickly brought his thugs and fled the northern village in a panic.

Chu Mu turned around and suddenly discovered that the hundreds of people in the village were staring at him. For a moment, he felt it was a bit uncomfortable.

However, Qing Yunshan was looking at Chu Mu with a face of adoration. When Chu Mu walked over, he very excitedly said: “Brother Chu, you really are a spirit emperor!”

“Yes. In the future they probably won’t find trouble for you.” Chu Mu nodded his head and swept his eyes over the girl called Man Ting.

This girl was about 17 or 18. She had extraordinarily fair and smooth skin and a pair of limpid and beautiful eyes. She was staring at Chu Mu with gratefulness and curiosity.

However, when this girl discovered that this handsome spirit emperor was staring at her, her fair cheeks immediately developed a red blush. She lowered her head and didn’t stop saying words of thanks.

“Eh... Brother Chu, our Man Ting is already married... look...” Qing Yunshan thought that Chu Mu had taken a fancy to her.

This person was a spirit emperor and could marry whoever he wanted. Qing Yunshan was truly afraid Chu Mu had taken a fancy to her and would take her away.

“Big brother is acting wickedly again!” Ning Maner angrily pinched Chu Mu’s neck and acted like she was going to tell Ye Qingzi.

Chu Mu returned to his senses and bitterly laughed as he shook his head: “She just reminds me of someone I used to know.”

“Oh, oh.” Qing Yunshan straightforwardly nodded his head and let out a sigh of relief.

“Hmph, big brother is truly bad.” Ning Maner pouted, and didn’t want to listen to any excuses.

Chu Mu pinched this girl's cheeks. He didn't stay here any longer and began to return to the village he had come from.

He had gone absent-minded mainly because she reminded him of the girl who had lived with him on Nightmare Island and eventually became his maid. They really were alike, and Chu Mu originally thought they were the same person.

Chu Mu still remembered that that girl was called Ting Yu. Chu Mu knew that after he had offended Xia Guanghan, she had likely become implicated, so he had her find a way out when the Chu Family migrated.

If he hadn't seen Man Ting, Chu Mu probably would have forgotten about her.

In the blink of an eye, so many years had gone by. It was inevitable that certain people disappeared in this boundless sea of people...

"Big brother, isn't that Poison Desolation very strong?" Ning Maner clung onto Chu Mu's neck and curiously asked a question.

"Since he's a Desolation member, he definitely has some strength. At least, if I don't use the half devil transformation, I can't deal with him." said Chu Mu.

"Oh, good luck to big brother then!" said Ning Maner.

"Mhm. After we reach Wanxiang City, we'll make a trip to the forbidden region as soon as possible." Chu Mu was feeling more and more restless.

After reaching Wanxiang City, he would find Mu Qingyi first to ask about the Phoenix species' nirvana rebirth. The top priority naturally was to make the Dead Dream his soul pet!

.....

A moment later, Ning Maner returned to her room with a red face. She angrily grabbed her quilt to let off steam as she muttered: "Bad big brother. Not letting me sleep with big sister and making big sister do embarrassing things. Scoundrel, hoodlum!!"

Thinking of that bad big brother of hers who was self-righteously using the excuse of husband and wife sleeping in the same bed to kick her out, Ning Maner angrily grit her teeth!

Chapter 918: Wanxiang City, Wanxiang Altar

Wanxiang City's history couldn't be considered long. However, within 100 years, it had become humanity's number one city.

Wanxiang City was located on the eastern side of humanity's territory and occupied the most fertile piece of land.

Moreover, not only were the amount of resources plenty, but the variety was many. No matter what type of soul pet trainer one was, he would be able to obtain satisfactory decisions here.

Of course after so many years of development, the territory around Wanxiang City including the bewildering worlds gradually were partitioned by the factions stationed in the city.

Most of the territory was occupied by either Soul Alliance or the three great palaces. The remaining territories were often far away or were not easy to occupy and these were occupied by a few ancient

families of the city. Therefore, if one wanted to obtain a fitting soul pet, it was hard to avoid entering a faction.

Chu Mu had always heard that Wanxiang City's magnificence and beauty was incomparable to any city. When Chu Mu passed the mountain range and saw the endless walled construct at the end of the flat stretch of land, he felt waves in his heart.

Wanxiang City was incomparably vast. From the towering city walls, it could be seen that the city was split into three: the outer city, the middle city and the inner city.

Merely the outer city looked much more prosperous to Chu Mu than other large cities!

As far as he could see, the most attractive part of this city was the towering mountain-like Wanxiang Altar at the very center of this city.

Wanxiang Altar was grand and reached the clouds. The factions that were able to have a place in Wanxiang City were already considered incomparably large families. However, in the eyes of these family, even a small palace in Wanxiang Altar was unreachable and too hard to obtain.

There were a total of 300 palaces in Wanxiang Altar. From the mountain range several hundred kilometers away, the uncanny workmanship of the city gave Chu Mu much visual shock. It was hard to imagine what heights of artistic achievement had to be reached in order to create 300 palaces, each a different shape from the other.

"The Wanxiang Altar is very pretty. I really want to take it for myself!" Ning Maner stood on the top of a tree, and looked with expectation at the Wanxiang Altar in the distance.

“I’ve heard from others that only spirit emperors have qualifications to enter Wanxiang Altar. Moreover, in order to obtain a palace inside the city, one must do some outstanding merit for Wanxiang Realm.” Ye Qingzi was rather interested in Wanxiang Altar.

Chu Mu’s state of mind was different than the two women. He remembered the first time he saw Wanxiang Altar, he had seen it through the defector woman’s eyes.

Now that he was present himself, he remembered that that woman was inside the highest palace in Wanxiang Altar. Thus, Chu Mu was thinking of how to trample his way up to the highest point of Wanxiang Altar!

Chu Mu understood that Wanxiang Altar was not as simple as being a place for the experts of the kingdom to be. It was actually a strict ranking class. Those that were higher up in the altar possessed more power and most importantly, they represented all of humanity!

Inside Wanxiang Altar were a few enemies that Chu Mu would have difficulty dealing with even if he transformed into a half devil. There was also the godlike existence - Soul Alliance’s Alliance Master!

Chu Mu knew that he hadn’t actually prepared enough because with his current strength, getting rid of any of Soul Alliance’s Four Heroes would be a bit difficult. By extension, he obviously couldn’t deal with the godly and mysterious Soul Alliance Alliance Master.

However, aside from Wanxiang city, Chu Mu really couldn’t find another city that would make his blood boil

Therefore, although there was much hesitation and consideration in his heart, Chu Mu ultimately still made his way to this city!

.....

The size of Wanxiang City was hard to describe. As far as one looked, it was shocking and in comparison to the magnitude, one felt tiny and insignificant.

Inside this enormous city, there were often times where one didn't even know where he or she was located. Other times, people were incredibly far away from the places they needed to be, separated by countless buildings and intersecting streets. These streets stretched on and there were countless forks in the road, each one of them containing an endless flow of all sorts of people.

And this was merely the outer city.

The outer city was dazzling and gave one a sense of bewilderment. So what feelings did the middle city and inner city give people?

As he stepped into the middle city, Chu Mu discovered that most of the people were soul pet trainers who did not have low strength. Often, he could see experts riding on their steeds proudly through the wide streets. This would arouse a sigh from the surrounding people who would then begin to discuss the soul pet's rank and strength.

In every city, there were numerous dazzling people and many people who were envied. Every person strived for more power, but there were many times that after one put much effort into reaching the peak of a summit and excitedly lifted their head up, they would suddenly discover an even higher mountain towering in front of him. In between this person and the mountain would be a mountain stream that was impossible to cross. Therefore, most people who were hit by this shock would choose not to continue climbing. Instead, they would use their boastful eyes to look down at the others still climbing below him.

It could be seen that the middle city was occupied by these people that had climbed up one peak but were unwilling to cross the mountain stream. Moreover, the mountain peak they were climbing was different in height.

As for when Chu Mu entered the streets of the inner city, when he saw the magnificent and tall palaces, he felt an enormous pressure that was hidden under the magnificence.

Indeed, the people who arrived here had ostensibly already divided into different classes. The spirit masters that would be considered kings in other cities were in the lowest class. Other people who would be considered experts or seniors in the eyes of others around the world would merely be normal people in this society. Only those that had reached the spirit emperor rank would truly have status...

The humans who flaunted their strength were not that different than other creatures. If one looked at the intrinsic nature, human society was actually just a food chain. A world where the strong ate the weak.

“Big brother, I like that Wanxiang Altar. Big sister said that I need to become Wanxiang Realm’s queen in order to possess the entire Wanxiang Altar. I want to become the Queen!”

Suddenly, a clear voice interrupted Chu Mu’s train of thought.

Chu Mu was stunned and looked at the naive and adorable Ning Maner. He couldn’t help but bitterly laugh and shake his head. How old was he? Yet, here he was, sighing like an old man.

“In a few years, big brother will gift Wanxiang Altar to you for you to play with.” Chu Mu rubbed Ning Maner’s head and said something that even he thought was crazy.

Chapter 919: Main Soul Palace

Wanxiang City seemed to be just as calm and bustling as usual, but the people in inner city all knew that the three palace and soul palace were constantly engaging in bloodless wars!

Wanxiang Realm's struggle was key to both the factions. The high level of both sides were all in Wanxiang Realm, but before the territorial wars in the other cities of the realm are solved, neither side could truly start a war in Wanxiang City. After all, once a battle broke out in Wanxiang City, it would become a truly unprecedented battle between humans.....

So, though wanxiang city wasn't a neutral city, neither soul alliance nor the three palaces dared to do anything overly aggressive here. The usual small conflicts were pushed down.

Wanxiang city's three palaces sit in three directions of Wanxiang Altar, taking up a large space of inner city.

And, in wanxiang altar, there were around 100 palaces that belonged to three palace factions. Because wanxiang altar's base had a huge spirit source, the architects at the time specially caused the entire wanxiang altar to have spirit houses. Almost every palace in wanxiang altar could be affected by the spirit aura, having great benefits for the soul pet trainers and soul pets.

Of course, the special design of the architects made it so the higher one was in the palace, the faster spirits moved and the thicker spirits were. Many times, emperor ranks could self strengthen in its effects.

This was why so many experts wished to step into wanxiang altar. In such a spiritual land, not only did one not have to waste spirits to feed their soul pets, they could speed up their strength increase.

Chu Mu was still used to living in a soul palace. At least in soul palace, his safety was guaranteed.

As for the palaces belonging to soul palace within wanxiang altar, Chu Mu didn't plan on going anytime soon. As long as Chu Mu brought Ning Maner around, a moving spirit source, he had no need for such thing, so wanxiang altar's attraction wasn't that high for Chu Mu. He would only be interested about the experts that lived in it.

From what Chu Mu saw, tianxia city's soul palace was soul palace's true roots. After all, the seven sacred realms were all there.

Wanxiang city's soul palace truly was larger than any other city and the materials used to construct it were very steady. Even emperor rank organisms' full force attacks would have trouble destroying these buildings.

Wanxiang city's soul palace didn't have a main hall. Main halls were usually used to provide reception for roaming soul palace members and hand missions or trade deals to them.

However, the entrance of wanxiang city itself was already extremely high. Adding on that it was the most authoritative soul palace within all of wanxiang realm, everyone who could enter it probably had some title or rank, and no scattered members would ever come.

Even if there were such members, they would definitely go to the sub palaces in mid city and outer city. They wouldn't have the authority to go to inner city soul palace.

So, main soul palace didn't have soul palace main hall. Instead, it had layers upon layers of clean smooth crystal rocks that made stairs upwards, as well as lifelike soul pet sculptures.

Walking up the stairs, one could see the mirror-like palace plaza. At the height of the plaza, one could see all of wanxiang city behind them.

After the plaza was the majestic and mighty main soul palace, seeming like a cold and imposing giant looking down upon people!

“Brother, I also want a palace like this!” Ning Maner said crisply.

Ning Maner used to spend all her time in the forests, so naturally her eyes went wide when she saw such a majestic palace, wanting to make it all hers so she could run around the massive pillars, smooth halls, and majestic doors.

“Then you can have it.” Suddenly, a man beside him said.

This was something Chu Mu was going to say, but somehow someone else said it first. He saw the man speak and looked him over slightly.

The man was well built and had noble clothing. He looked handsome and impressive. Even a man would be momentarily shocked at his appearances!

“Little beauty, which palace do you want? Other than the row at the back, I can give any other to you for fun.” The handsome man continued.

“What’s the row at the back?” Ning Maner went on her tippy toes, trying to see the palaces at the back. Sadly, all the palaces at the back were blocked by the front palaces. The deeper ones were not visible.

“Those are also soul palaces, except I would get scolded if I give those away.” The man laughed.

Ye Qingzi and Chu Mu were also looking this man over. Hearing his say this, Ye Qingzi said in a low voice to Chu Mu, “Do you know this person? Why is his tone so bold? Anyone of these palaces are probably worth a normal city, why can he just give them away?”

Chu Mu shook his head, “Probably some rich young master. Eighth young master Fang ze and third young master Teng Lang I’ve both seen. I don’t know who the others are though.”

“Aren’t you a young master too? Why don’t you give me a few palaces.” Ye Qingzi hugged Chu Mu’s arm tighter, her eyes showing a charming smile as she asked coquettishly.

Chu Mu rarely saw Ye Qingzi act this way and couldn’t help but give her white cheek a little peck, “I gave myself to you, and that’s a lot more valuable than these few palaces.”

Ye Qingzi pinched Chu Mu’s arm. She knew the fellow knew no shame at all, so she shouldn’t have tried to tease Chu Mu out in the open.

When Chu Mu and Ye Qingzi flirted, Ning Maner had walked over with the handsome man and started hearing his explanation of all the palaces.

Chu Mu didn't mind at all, letting the fellow take Ning Maner away.

“Don’t you want to care about her, what if she gets stolen away by that prince-like fellow?” ye Qingzi said as she watched Ning Maner walk further away.

“That’d be great, then she won’t come and bother us.” Chu Mu replied.

“Be a more responsible brother.” Ye Qingzi rolled her eyes.

“No worries, let her play.” Chu Mu said.

“But that man makes me feel slightly uneasy.” Ye Qingzi pointed at the nobly dressed man.

Ye Qingzi had trained with her brother Ye Wansheng for a long time, visiting everywhere. She didn’t have the same childish and blind reverence that most women had to seemingly venerable men. She always had a frigid attitude towards them, often causing these men to back away themselves.

Ye Qingzi noticed that the man specially looked her over first and looked disappointed at first, before going to talk to Ning Maner. Though he hid it well, Ye Qingzi was observant enough to see it and instantly decided he wasn’t up to any good.

Many times people who felt good about themselves would come up and make conversation with her. Often, when Ye Wansheng was nearby, these people would find excuses. Ye Qingzi saw a lot of these people, so naturally she instantly could tell that this handsome man was not any good.

“The girl is quite smart.” Chu Mu said.

No matter where they went, there were always people interested in fourteen or fifteen year old girls like Ning Maner. Especially those with ulterior motives, whenever they saw Ning Maner’s pure and untainted eyes, they always thought this little fairy like girl was easy to deceive. In reality, Ning

Maner loved to have such people come up to her because, as the real devil she was inside, she had no qualms bullying these people and loved doing so.

Chu Mu actually didn't care about Ning Maner, and brought Ye Qingzi into the palace.

The tenth rank sub decree was still effective in soul palace, so he didn't see much problem entering the main soul palace.

“Are you Chu Fangchen?” The leading sacred guard said curiously to Chu Mu.

“En.” Chu Mu nodded.

It seemed like many people in soul palace already knew his name.

“It's an honor to meet you at least. I am Linyin Palace's sacred guard leader - Jia Ren.” The sacred guard leader said very politely.

This sacred guard leader seemed very young, probably around low remembrance soul emperor. Presumably after the events in soul city and snow city spread out, there were many admirers of Chu Mu, including this sacred guard leader.

Along the way, Jia Ren recited the wars in snow city and soul city and asked Chu Mu of the situation at the time. The man's admiration and passion were truly a little too much for Chu Mu to handle.

“Speaking of which, do you know who that well-dressed man at the gate was?” Chu Mu asked randomly.

“Oh, that was second young master Ying Xiang..... Um, did he trouble lady Ye?” Jia Ren’s expression became strange.

“No, he knew better. But, he did swindle my sister away.’ Chu Mu said calmly but realized he may have misspoken and added, “Since he’s the second young master, it probably wasn’t swindling.”

“This.....this is a misunderstanding, let me send someone to tell second young master.” Jia Ren’s expression became even worse.

Jia Ren knew well that Chu Fangchen’s current position definitely wasn’t any lower than a real young master. In fact, the elders often put him in the same position as soul palace prince. Though second young master had a high rank, if he upset Chu Fangchen, he would get scolded heavily by the older generation.

“Second young master only uses his title when he sees girls he finds attractive and is somewhat casual. However, he won’t ever use his authority to do anything that crosses lines, Mister Chu you can have my word for that.” Jia Ren said very seriously.

Chapter 920: Fair Competition

Soul Pet Palace

A woman laid silently in her bedchamber, her eyelashes quivering lightly, as if she just woke up after a long sleep.

His eyes were blinking brightly, charming and dazzling, curiously looking around.

“What happened to me?” The girl said lightly.

“Pang Yue, you’re finally awake!” A few joyous sounds came from beside her.

Pang Yue slowly woke up. Her memory started when she escaped from Poison Desolation Nie Yunbing and then fainting in front of soul pet palace.

“Little Yue, you were poisoned by Nie Yunbing. Elder Pang specially went into north forbidden region in the thousand insect desolation ground to find medicine for you.” Lady Xiao came beside Pang Yue and lightly fixed Pang Yue’s hair.

“Father..... where is my father?” Pang Yue looked around and didn’t see elder pang.

Pang Yue naturally knew north forbidden region thousand insect desolation ground’s danger. Hearing that her father came to such a dangerous place to save her, her eyes turned slightly red.

“Elder Pang is currently trying to deal with Nie Yunbing. Don’t worry, Elder pang will quickly take revenge for you.” The man aside the bed said.

“En, but Nie Yunbing is really hard to deal with, let my father be careful.” Pang Yue said worriedly.

“Your poison just finished healing, rest for a while longer.” Lady Xiao helped Pang Yue to lay down again and glanced at all the people who cared for Pang Yue, signaling for them to leave first.

The people who came to check on her, other than Lady Xiao, were mostly young men. These men were all polite yet eager, telling Pang Yue a bunch of blessings and worried words before leaving.

“Heng, we can’t forgive Nie Yunbing easily!” The man that just spoke said in righteous anger.

“Great young master Qin, you can’t even fight a subordinate of Nie Yunbing, how do you expect to let Nie Yunbing go?” At this moment, another man ridiculed.

The man who was called Young Master Qin gave this fellow a glare.

Young master Qin knew well that Jiang Feng didn’t want him to get close to Pang Yue, just in case Pang Yue was stolen by him.

However, now who wouldn’t know that Elder Pang already wanted to marry Pang Yue to Qin Yutong. If not for Pang Yue getting ambushed, they may already be engaged.

Qin Yutong looked over the others as well. Undoubtedly, these people were all here for Pang Yue, and none of them were easy to deal with.

The one that just mocked him was Nightmare Palace Nightmare Emperor Jiang’s eldest son Jiang Feng, who was inferior to only Shen Mo.

Soul pet palace and Nightmare Palace never really interacted much. In the past, though there were joint marriages, they were pretty rare. Yet now, with the alliance between the three palaces, the palaces’ marriages became increasingly frequent. Nightmare Emperor Jiang had a great influence in three palaces, and his eldest son Jiang Feng was powerful as well, poised to surpass his father too. If Qing Yutong wanted to have Pang Yue, he had to defeat this powerful competitor.

Aside Jiang Feng was soul palace's fifth young master Xiao Yufeng. This fellow was already on the blacklist of soul alliance.

The reason was simple. Xiao Yufeng, who was an expert in demon type soul pets, killed two scar type experts by himself without leaving any evidence. In wanxiang city, the three palaces usually fought in the dark, but there weren't many lives lost usually. Even when lives were lost, they had to go by the evidence. The fight young master killed two scar level experts, yet left no evidence, which meant soul alliance couldn't take revenge. This was to the satisfaction of everyone.

Because of this, Xiao Yufeng solidified his position within three palace and was one of the top people of his generation.

With such identity, status, and power, both of them had the qualifications to steal women from Qing Yutong.

As for the other two, one was the previous Tianxia Realm King Xiao's son, Xiao Hai. Lady Xiao was the remarried King Xiao's wife, so Xiao Hai called her his step mom. Though King Xiao was nowhere to be found now, Lady Xiao herself was a powerful soul pet trainer, and thus Xiao Hai learned a lot from his stepmother, gaining a lot of fame within wanxiang realm and tianxia realm.

The other was called the youngest elder soul pet palace expert Wang Bosha.

Of course, because soul palace had this person come out of nowhere, Wang Bosha's youngest elder position was slightly moved.

“It was still hard to tell who will win. Qin Yutong, you may not be the one to laugh in the end.” Xiao Hai was rather straightforward, directly making clear his intentions.

“Aiai, saying who will win is too much, it should be seeing “where the flower lands”. Let’s not hurt our feelings and relationships.” Wang Bosha said with a gentle smile.

“All of you, stop thinking. Don’t you know that our greatest competitor has already appeared?” At this time, the fifth young master Xiao Yufeng smiled.

“Largest competitor?” Who do you mean?” Qing Yutong’s face fell and he asked sternly.

The others didn’t look that great either. The five of them were enough competition already, another one would be deadly.

“You truly are all clueless. The person who recently has all the fame is already in Wanxiang City.” Xiao Yufeng rubbed his chin.

“You mean the young prince? No, anyone knows that person isn’t interested in women.” Xia Hai said shockingly.

Xiao Yufeng immediately coughed to mask his embarrassment.

The other three also glared at Xiao Hai and one said, “Xiao Hai, are you tired of living, saying such things? If that fell into the prince’s ears, you won’t have much chance here anymore.”

Xiao Hai hadn't been in wanxiang realm for long, so he didn't know much about that unique prince. He only heard that he didn't seem to have much interest for women.

"Young price is just busy with getting stronger and doesn't talk to women much. Maybe his target are the two goddesses/concubines, so how could we possibly compare to him." Fifth young master Xiao Yufeng said.

After the three palaces came in alliance, if they didn't add anything before "young prince", it wasn't talking about nightmare palace prince Shen Mo or soul pet palace prince Li Yun, but it was soul palace prince Chao Lengchuan!

Prince Chao Lengchuan wasn't involved in most affairs, but if he were, any "son of nightmare emperor", fifth young master, or "descendant of a king" would have to stand aside.

"Then who do you mean? Can it be Shen Mo who likes to mess things up in the dark?" Qin Yutong asked questioningly.

"..."Xiao Yufeng originally thought that his hint was enough for everyone to realize, yet they were still all clueless.

"Can it be that news of the person was only popular within soul palace and soul alliance, while no one else knows about him?" Xiao Yufeng guessed.

"Its Chu Fangchen." Xiao Yufeng felt like it wasn't necessary to hype the man up more and just said the name.

“Chu Fangchen?” The four all looked at each other, not being able to remember who Chu Fangchen was.

“Whatever, act as if I didn’t mention it.” Xiao Yufeng looked at their expressions and realized that none of them knew him!

It seemed like soul palace was good at keeping secrets, not letting such a great event spread out. Xiao Yufeng thought everyone in the world knew Chu Fangchen.

“Hey, is Chu Fangchen powerful?” Xiao Hia was the first to ask.

They were already the strongest of their generation and either knew each other or has heard of each other. However, Chu Fangchen was a name they truly never heard of, yet this person was already at Wanxiang City. Why did Xiao Yufeng make it sound as if his arrival would shock the entire city.

“I think I’ve heard of him, I think he did well in snow city, and is pretty powerful.” Jiang Feng felt like he had a faint impression but doesn’t remember where he heard it from.

“Who cares who he is, if he wants my princess Pang Yue, I won’t forgive him!” Qin Yutong said.

The others all looked at him with disgust. When was princess Pang Yue his? Qin family people were truly all shameless!

“If we compete, we’ll get scolded by the old fellows and be told we are missing out on proper business. However, telling any of us to leave is impossible. How about this, I have a way that can allow all of us to compete fairly.” At this moment, the youngest elder Wang Bosha spoke.

“What fair competition, she’s mine!” Qing Yutong said unsatisfied.

“Say it.” Xiao Yufeng said.

Pang Yue nearly died because of Nie Yunbing this time, so we have to take revenge. After all, its more than Pang Yue; it relates to the three palace’s reputation. Though elder Pang was trying to find trouble with soul alliance, everyone knew that the older generation had restrictions and worries, so they couldn’t fight in the city or else a war would break out. We young generations are different, where they won’t care as long as there isn’t evidence.....”

“Get to the point.” Xiao Hai said impatiently.

“What I mean is, let us do the revenge competition. The target is Nie Yunbing. Whoever can kill more of his subordinates, whoever will have the highest score and has the best qualification to marry Pang Yue.” Wang Bosha said.

“What if we kill the person himself?” Xiao Yufeng smiled and asked.

“Then we will help him throw flowers and drink for him during his wedding with Pang Yue.” Wang Bosha said.

“Very fair.” Jiang Feng nodded.

“I have no objection, the person is mine.” Qing Yutong said.

“Agreed.”

.....

In the bedchamber, Lady Xiao specially brought over a bowl of hot soup and helped Pang Yue get up to drink it.

Pang Yue was slightly reserved. After all, Lady Xiao had such status yet she was helping her.

Lady Xiao saw Pang Yue's reservedness and laughed lightly. Looking out the window, she said, “Get better, look at all those fellows worried, almost fighting. Looks like they all like you a lot.”

With Lady Xiao's words, Pang Yue's sickly pale face blushed slightly and said, “They're just worried as friends.....”

Lady Xiao didn't expose her and instead said, “Speaking of which, the reason you could be awake is thanks to a young man.”

Pang Yue looked confused at Lady Xiao. Wasn't her father the one that went to north forbidden region and found the antidote for her poison?

Lady Xiao went ahead and explained the general situation in north forbidden region.

“You mean, the reason I can awaken is because Chu Mu, who was now a devil, had a soul pet saved me?”

“En, along with your father. If not for his soul pet, your father probably couldn't have escaped the claws of the blood barbarian hidden dragon.” Lady Xiao said.

“Then I truly have to thank the man called Chu Mu. However, he’s a devil now, can he ever wake up?” Pang Yue asked.

Lady Xiao shook her head, “It’s not likely.”

Pang Yue sighed lightly. She didn’t think that her life and her father's life was all thanks to this young man. Such a favor required her to give thanks in person. Sadly, such a good soul pet trainer passed early on. Truly even the heavens were jealous of him!

“Lady Xiao.....” At this time, a servant girl came up and whispered in Lady xiao’s ear.

“Oh? The Chu Fangchen that did well in both snow city and soul city?” Lady Xiao looked slightly confused.

“Yes, this person is already in soul palace. The elders are holding a banquet to welcome him and wanted to introduce him to the other high level people of three palaces.” Servant said.

Soul palace intentionally wanted to keep Chu Fangchen hidden, so his identity reveal was still kept within the higher levels.

“Since that’s the case, let’s go to soul palace tonight.” Lady Xiao, of course, knew of Chu Fangchen. Such a stellar character naturally deserved her attention tonight.

Pang Yue laid in bed and asked curiously, “Lady Xiao, who is Chu Fangchen and why is his welcome so important?”

“He counts as the second prince, probably.” Lady Xiao smiled.

“Another prince? Is his strength similar to the prince?” Pang Yue said surprised.

“Not yet, but he indeed is strong. Soul palace seems to be hiding his information intentionally, and soul alliance, who lost in his hands, doesn't seem to be spreading that either. However, you truly should talk with this young man.” Lady Xiao only heard of Chu Fangchen, but these alone were already enough for Lady Xiao to think highly of him!

“En, then can I go tonight?” Pang Yue nodded. A person on the same level as a young prince deserved her relationship.

“Yes, your poison is gone, so you can walk around at night. It’ll probably be good for your body too.” lady Xiao said.

Chu Fangchen? Pang Yue truly had never heard that name.

However, she couldn't help but be curious as to who Chu Fangchen was, able to command so much attention from the three palaces, even gathering all the high level personnel immediately to welcome him.
