

## **Soul Pets Bk2 961**

### Chapter 961: Nine Tail Hanging

Nie Bingyun couldn't lose like that. Looking at the Cyan Hidden Dragon's swaying body, anger welled up inside Nie Yunbin.

Normally, even if the Cyan Hidden Dragon couldn't win, it couldn't be felled either. Why did it become like this today after a few strikes?!

Nie Yunbin swept his eyes across, and discovered that everyone's attention had fallen on the Seven Sins Fox. Thinking that he could suffer humiliation again, he grew even more crazy!

"Poison transformation!' Nie Yunbin angrily gave an order to the Cyan Hidden Dragon!

The Cyan Hidden Dragon rocked its head. It took a while to lower the confusion effect. After hearing Nie Yunbing's order, it sluggishly extended its sharp claws into its armor before savagely tearing away!!

"Ao hou!!!!!!"

With each scale it ripped off, it let out a roar. In the short period of time, its cyan body was ripped open and cyan blood seeped out of its wounds, rolling down the patterns on its armor!

Everyone watched the Cyan Hidden Dragon mutilate itself, and felt a wave of terror. Clearly, Nie Yunbin was going to fight the enemy to his last gasp!

The price of its own life force was paid to obtain poisonous dragon blood; nonetheless, it allowed the Cyan Hidden Dragon to transform into a Cyan Poison Dragon. Terrifying poison clouds lingered around it, forming a poison barrier that forced others back!

“What a terrifying technique. This Poison Desolation’s methods are too cruel!” when people from the three great palaces saw the Cyan Hidden Dragon use this unceasingly spilling of blood to fight, they couldn’t help but worry for Chu Mu.

The dragon blood poison was extremely powerful. If it caught onto a creature, there was a chance it would deal a fatal injury. The Seven Sins Fox could not be hit by it.

Chu Mu looked at the Cyan Hidden Dragon, which blood was full of extreme poison.

Mo Xie coldly stared at her opponent. Her claws were already dug into the ground, transforming the surrounding ground into a flaming scorched earth. Tongues of flames danced around her, drawing a gorgeous and conspicuous arc.

“Ao hou~~~~”

The Cyan Hidden Dragon let out an angry blood roar. Its enormous body began to charge, transforming into a huge tumor that charged at Mo Xie!

Poisonous fog began to spread. The ruins of buildings were corroded into pus after being covered. It was a shocking scene!

Mo Xie didn't retreat. She rapidly exploded with speed. The only thing that could be seen was a silver ray of light with red behind it as he flaming tails flew towards the tumor-like Cyan Hidden Dragon!

Mo Xie stepped into the air from the ground. Just as she was about to collide with the Cyan Hidden Dragon, her nine tails suddenly spun around, her silver body hiding in the interweaving tails.

The Cyan Hidden Dragon stretched out its poison claws and ripped at Mo Xie. Two intersecting claws streaked past. Although the movement speed was a bit sluggish, the strength was shocking!

The poison attribute cyan claws swept past the nine tails. Mo Xie didn't attack at all. Instead, her body flew over the Cyan Hidden Dragon's head in an arc, appearing behind it, before continuing to run without slowing down!

Her nine tails were like chains that looped around the Cyan Hidden Dragon's neck the moment it passed it!

“Wu wu wu wu~~~~~”

Mo Xie let out a wild cry, and ran in the opposite direction as the Cyan Hidden Dragon's forward momentum moving body. The tails behind her transformed into a fatal lasso!!

“Ge zhi!!!!!!”

A horrifying sound of bones cracking rang out from the joint between the Cyan Hidden Dragon's head and its body!!

The Cyan Hidden Dragon's neck instantly lost connection, and its enormous head was nearly split from its body, snapping all the way back until its head was nearly against its back!

It was as if its head was snapped backwards. Its neck bones were completely exposed. The only thing connecting its body to its heavy head were blood vessels and flesh!

“Hong!!!!!”

The Cyan Hidden Dragon's body came to a stop. Its head was facing up and shortly afterwards, its enormous body was dragged into the ground, as it came to a crashing fall!

With its head twisted, the Cyan Hidden Dragon wasn't even able to struggle before death. It lay there unmoving.

Cyan Blood continued to flow from its opened wounds, forming an enormous blood pool...

“De...Dead?” Fourth Hero Mo Ling looked at the Cyan Hidden Dragon with eyes filled with shock.

The people beside Mo Ling also wore shock. This hanging by the nine tails was too terrifying!

Imagining these nine tails wrapped around their own necks was a terrifying thought. Indeed, even a creature of the Cyan Hidden Dragon's calibre had its neck snapped!!

Nie Yunbin looked flabbergasted at the Cyan Hidden Dragon. The poison spots on his face were violently twitching.

Quickly, a mental rupture transmitted into his soul, causing him to open his mouth and suck in a breath of air.

After breathing in, Nie Yunbin's face went pale.

Pain, anger, and humiliation were all on his ugly face, making him seem extremely dismal. His face wore no happiness from purging his humiliation; rather, it was the misery, hatred and malevolence of being heavily wounded and trampled upon!

“Chu Fangchen, I, Nie Yunbin, will have your life!!” Nie Yunbin angrily roared, as he became berserk!!

When everyone present heard Nie Yunbin's roar, they all turned and looked at Chu Mu. They wanted to see how this young man would react to this terrifying Poison Desolation's desire for revenge.

Towards Nie Yunbin's idiotic threat, Chu Mu had seen enough. He glanced at Mo Xie and called her back. He didn't say anything as he turned around, and walked towards Soul Palace's stairs.

Chu Mu's solitary and calm figure walking away gave many Soul Alliance members who wanted his head an unforgettable shadow in their hearts. After this fight, some of these people probably wouldn't be willing to find trouble for Chu Mu any longer!

“Very good!!!”

"Nice kill!! Too nice of a kill!! Perfect!!!!"

The three great palace's side erupted into a thunderous noise. The cheers boosted the morale of all of their members. They felt that ostensibly after this fight, there was nothing to fear about Soul Alliance's people.

"Chu Fangchen!!! Chu Fangchen!!!!!!"

"Chu Fangchen!!! Chu Fangchen!!!!!!"

No one knew who started the cheers, but for a while, the army of the three great palaces began to yell the name of this young man who was calm, terrifying, and made them feel invigorated!!

During their struggle against Soul Alliance, most of the fights against Soul Alliance's higher ups resulted in them being severely pressured. Often, the three great palaces could only swallow up their anger against their higher up's provocations and refuse to fight. This caused their reputation and morale to fall.

However, Chu Fangchen had defeated one of the most savage member of the Eight Desolations - the Poison Desolation. He had left a deep, impressionistic fight by using soft to defeat hard. Therefore, in an instant, this young man's status had skyrocketed in the hearts of everyone in the three great palaces. He became revered like Xiao Hai, Xiao Yufeng, and Qin Yutong, these powerful and virtuous people!!

Who else could cleanly kill a paragon dragon species that was full of extreme poison?

Chu Fangchen had done just this. He had used his own strength to obtain the three great palace's complete support and used his own strength deliver a fierce slap upon Soul Alliance!

One calm and collected young man and one fierce and wild Seven Sins Fox had defined what was strong, and what a fight was to everyone present!

“Wu wu wu wu~~~~~”

Mo Xie quickly followed Chu Mu. The fire on her body slowly faded and her body, a combination of beauty and power, slowly turned back into its pitiful appearance - a small bewitching fox with nine small waving tails. She then lithely jumped onto Chu Mu's shoulder.

Chu Mu tilted his head and used his hand to stroke the satisfied small fellow's head. He wore a smile as he asked: “Were you injured?”

“Wu wu~~~~” Mo Xie shook her head. Evidently, these wounds wouldn't affect her much. Thus, she narrowed her eyes, and just laid there.

This small fellow was genuinely satisfied. She could sleep, eat, and fight. This alone was sufficient!

.....

Mu Qingyi stood on the stairs and stared at Chu Mu. She watched Chu Mu petted his soul pet, and a smile could be seen in her eyes...

Although this perhaps was just a regular small action by this man, Mu Qingyi saw much more than that. Not only was it praise after obtaining victory, but it also symbolized a deeper connection, and the usual habit of partners.

It was undoubtedly that this simple scene caused Mu Qingyi to feel jealous. She subconsciously thought of her Crown Phoenix King that had transformed into a pillar of fire, and her heart sank.

When Chu Mu walked into the three great palace's faction, Diagram Supreme Ke Yin wore a smile. From his eyes, it could be seen that he found this young man increasingly pleasing. Moreover, Senior Elder Xiao, who was originally very hesitant about Chu Mu's strength, also wore a smile and was even continuously praising him!

Despite everyone's praise, Chu Mu didn't change at all. This made all of the senior elders surprised. Even after obtaining a huge victory, becoming a giant among men and continuously lauded, he showed no expression of arrogance.

Obviously, there was no way these old men realized that in Chu Mu's opinion, because he had already reached the dominator rank, winning a fight at this level was nothing worth being happy about.

"Mo Xie, come here." seeing Chu Mu walk over, Ye Qingzi's first priority was to check Mo Xie's wounds.

The opponent used poison and if there was a wound, it was easy for poison to seep in. If the poison wasn't quickly eradicated, it would likely affect health, life force and recovery of wounds.

Mo Xie jumped in front of Ye Qingzi, and obediently let herself be examined.

Ye Qingzi quickly discovered a long wound on Mo Xie's abdomen. That was a wound incurred during the final strike by the Cyan Hidden Dragon's claws. The poison had already seeped in. If it wasn't treated in time, it would be a while before Mo Xie would recover her fighting strength.

Chapter 962: Facing Fourth Hero Mo Ling

"Senior Tan, how should we have these troublesome people leave?" asked Diagram Supreme Ke Yin.

Tan De glanced at the group of Soul Alliance members slowly gathering up and softly sighed: "It seems like they're unwilling to leave things."

Indeed, after losing, Soul Alliance hadn't retreated. Instead, they gathered around the city forest and even pressed closer to Soul Palace's steps.

"What? You want to go back on your word?" Nightmare Emperor Jiang was slightly angered.

Soul Alliance's people were so shameless. They had clearly lost, but still lingered here. They weren't afraid of this matter spreading and destroying their reputation?

"What do you mean going back on our words? Hasn't Nie Yunbin already taken his people away?" Fourth Hero Mo Ling raised his eyebrows and spoke very seriously.

"Nie Yunbin said that he was going to fight against Chu Fangchen. Since he lost, he naturally brought his people with him. What does that have to do with us? Do you really think a single Nie Yunbin can represent our entire Soul Alliance? That can only mean that you overvalue him." snickered Eight Desolation Bin Liao as he turned around and glanced at Nie Yunbin who was leaving with resentment.

These words caused extreme anger in the three great palace's people, and they instantly began to curse!

Soul Alliance naturally didn't want to be outdone and both sides immediately drew their daggers.

Seeing both sides about to start a fight, Tan De hastily used his soul remembrance to suppress everyone's voices.

"Senior Tan, you also heard just now that Nie Binyun had only spoken about himself and his subordinate. Could I, a member of the great Four Heroes, really be his subordinate? Or are Bin Liao and the others also be his subordinates?" Fourth Hero Mo Ling's voice carried traces of ridicule.

"This..." Tan De didn't expect Soul Alliance to do something like this. In a somewhat awkward position, he said, "Then how can we resolve this matter?"

"Obviously, only by having the Mu woman coming back to receive punishment." as Mo Ling spoke, a slight smile rose on his face. With a bit of contempt he said: "Unless, the three great palaces can find someone who can defeat me; in which case, I will leave with my people just like Nie Yunbin. Hahaha!!!"

Mo Ling's last words were obviously to return the slap that Chu Mu had just given him!

When Soul Alliance heard this, they began to laugh.

In terms of strength, the three great palaces really didn't have this qualification. Their Fourth Hero was enough to deal with three peak experts from the three great palaces. With such a strength

discrepancy, if fights were how they were going to resolve the problem, Soul Alliance obviously had the advantage.

Soul Alliance's laughter made the three great palaces red with anger. Their army strength was capable of challenging Soul Alliance, but everyone knew that in a one on one fight, nobody from the three great palaces could beat Fourth Hero Mo Ling!

"Chu Fangchen, weren't you so arrogant? How about you fight against me one pet against one pet? If you win, I'll take all my people away from here; I will also go out of my way to avoid you wherever you appear in the future. If you lose, my requests aren't too much. You can just scam like Nie Yunbin; after all, you alone cannot represent the three great palaces." Mo Ling carried a clearly provocative and ridiculing tone.

"Hahaha, Senior Fourth Hero, how can you bully a young man? Isn't that too much?" the concubine next to the Fourth Hero laughed very sharply. She seemed like she was helping Chu Mu.

"Didn't this person say it himself? Strength doesn't need to be explained. It can only mean he is too weak." at this point, Bin Liao spoke very fittingly!

The act from the three of them caused the senior elders from the three great palaces to go ashen-faced. These people were clearly trying to humiliate Chu Fangchen!

It wasn't only the senior elders. The palace lords and elders were all swallowing their anger because they understood that the opponent was trying to bait them into sending someone to fight.

The problem was that there was no one who could fight Mo Ling!

“This is too excessive! He’s just relying on a Tai Mountain Giant! Without it, Mo Ling would just be trash!!” angrily yelled Teng Lang!

“Your majesty, I’ll deal with it. We probably can’t avoid this fight. If we were to cower in fear, it will be difficult for us to lift our heads in the future.” softly said Great Senior Elder Chao.

Often, losing was better than cowering away from a fight. Indeed, everyone knew what Mo Ling’s strength was so losing to him wasn’t that disgraceful. It wouldn’t affect the reputation of the three great palaces much. However, if they didn’t even have the guts to fight, rumors would spread that the three great palaces didn’t dare stand up against Soul alliance. This was a huge disgrace!

“Just bear it for now.” Diagram Supreme Ke Yin shook his head.

“This matter arose because of me. I’ll deal with it.” said Mu Qingyi.

Mu Qingyi’s White Tiger had broken through, so it probably wasn’t a problem for her to fight against Mo Ling’s Tai Mountain Giant. However, the White Tiger was excessively injured and was still recovering. Yet, without anyone to suppress Mo Ling, Mu Qingyi could only go herself. At least it would make everyone realize that although her Crown Phoenix King had perished, she wouldn’t be beaten by anyone!

“Diagram Supreme Ke Yin shook his head and said: “Young Lady Mu, you cannot lose. If you do, the effect would be huge on both you and us. It’s best if one of us deals with this. Don’t worry, since we’re willing to stand on Young Lady Mu’s side, we will naturally use all our strength to protect Young Lady Mu.”

A trace of appreciation flashed in Mu Qingyi’s eyes. However, when she saw Mo Ling’s unbridled arrogance, she instantly felt exceptionally embarrassed. She finally realized what it meant when the tiger that fell from grace would be bullied.

“If you lose, you’ll take everyone here and scram?” suddenly, a dark voice rang out, breaking the strange atmosphere.

Mo Ling was stunned. He looked across and discovered that the speaker was Chu Fangchen. He couldn’t help but arrogantly smile and say: “If you can beat me, I will naturally leave. Why? Do you want to fight me?”

“Use your soul to swear upon it. I don’t want certain people to renege on their promises.” Chu Mu walked forth and spoke in a calm voice.

“If you dare fight me, I will use my soul to swear upon it. It doesn’t even have to be you. If anyone from the three great palaces fights me, I will swear upon it. Hahaha.” Mo Ling loudly laughed.

Mo Ling’s arrogant words instantly incited anger from the three great palaces again.

“Too condescending!!”

“Incomparably arrogant! Do you really think our three great palaces has no one?”

“That’s right. If you have the ability, then say those words to Li Hong!”

When Li Hong’s words was mentioned, Mo Ling laughed even louder as he said: “Why would Li Hong bother paying attention to these ordinary matters. It’s best if you don’t count on him!”

Mu Qingyi coldly stared at Mo Ling. In the past when this fellow was in front of her, he would always be respectful and reverent. She originally thought that aside from his slightly lacking character, he was still tolerable. She never realized this fellow would be so overbearing and arrogant.

Mu Qingyi creased her brows and coldly said to Mo Ling: "There will be a day when your soul pets perish. That will be the day you pay the price for today."

"Sure. I will wait for that day. But before that, you had best not thinking of escaping my grasp!" said Mo Ling.

"Stop speaking nonsense. Use your soul to swear." at this point, Chu Mu walked in front of the stairs and stared at the arrogant Mo Ling who stood at the very front of the enemy.

Chu Mu's words stunned Mo Ling and he contemptuously said: "You're going to accept my challenge?"

"Yes, one pet to decide victory. If you lose, you will scam from here with your people." Chu Mu's tone was calm.

"Sure. Everyone heard that, right?!!" Mo Ling excitedly shouted. He still hadn't forgotten about the Snow City matters. If it wasn't for this brat destroying their monarch legion, they wouldn't have been defeated in that battle!

A wave of mocking laughter came from the vast army behind Mo Ling.

"Haha, there's unexpectedly someone who is challenging Senior Fourth Hero. Isn't this just suicide?!"

"Didn't you heard him say one pet to decide victory? Did this brat grow up in the wilderness? Doesn't he know what Senior Fourth Hero's greatest reliance is?"

Mo Ling's concubine feigned a smile and said: "Husband needs to show mercy. Although he has defeated Nie Yunbin, if you beat him, it won't give you a sense of victory. Instead, you will wear an infamous reputation for bullying the weak."

"That's right, senior, you should just let those senior elders from the three great palaces accept the challenge. Fighting that brat will lower your status." said Bin Liao.

Chu Mu's words not only surprised Soul Alliance, but also made the three great palaces think Chu Mu was crazy!

"Didn't you see everyone just swallow their anger? Why can't you contain your anger!" Senior Elder Xiao was a bit anxious.

"That's right, that fellow clearly has ill intentions. One small mistake and your soul pet could be killed." said Senior Elder Pang from Soul Pet Palace.

Diagram Supreme Ke Yin stared at Chu Mu, but didn't say anything.

Nightmare Emperor Jiang and the others were a bit nervous, because they weren't sure if Chu Mu's White Nightmare had surged with enough strength after devouring the Nightmare Ancestor that it

could fight against Mo Ling. Chu Mu had been daring enough to kill the Nightmare Ancestor because it had aged to the point where its strength had greatly fallen.

“Perhaps this is fine. Even if he loses, it won’t affect us much. Moreover, it will just be Chu Fangchen himself not participating in the wider event.” said Great Senior Elder Chao.

If Chu Fangchen from the younger generation accepted the fight, his loss wouldn’t affect the reputation of the three great palaces since Chu Fangchen’s status, as a younger person, wasn’t on the same level as Mo Ling.

“Ok, Chu Fangchen. Once you think the situation has gone bad, immediately surrender. We just need to accept the challenge and Soul Alliance won’t have the ability to stay arrogant.” Soul Pet Palace’s Pang Xing nodded her head as she spoke.

Chu Mu didn’t say anything else; instead, he just glanced at Ye Qingzi.

Ye Qingzi also didn’t say anything. After treating the poison on Mo Xie’s body, she let Mo Xie return to Chu Mu’s soul pet space.

“Chu Mu, give him a good beating.” Ye Qingzi used her mental voice to speak to Chu Mu. Obviously, Ye Qingzi couldn’t really keep watching this spectacle anymore!

Chu Mu looked at Ye Qingzi who was adorably waving her small fists in encouragement and he couldn’t help but crack a smile.

In terms of arrogance, Chu Mu really wanted to see if the Tai Mountain Giant was more arrogant than the extremely evil and murderous White Nightmare!

## Chapter 963: White devil battling Tai Mountain Giant

It was the same battered battlefield. Considering end hero Mo Ling's strength, Tan De specially told some experts to create some extra sturdy barriers around the battlefield to avoid the rest of the city getting affected.

After accepting the battle, Mo Ling immediately swore on his soul that if he lost, he would immediately bring everyone and leave, never asking Mu Qingyi about anything ever again and would also go around Chu Mu every time he saw him.

Swearing on one's soul could be circumvented, but it had a certain limiting ability as well. And if soul alliance people wanted to deny responsibility again, the older generation wouldn't let them off as easily!

Chu Mu went on to fight again. This time, he already retracted Mo Xie into his soul pet space and stood on the battlefield alone.

End hero Mo Ling stood on a higher building ruin and smiled coldly.

He didn't know where the young man got the courage to go up against him, but since he came up recklessly to him, Mo Ling wouldn't let him off easily. He would at least kill this fellow's strongest soul pet.

Mo Ling didn't waste any time. With an incantation, the summoned soul pet was his strongest one - Tai Mountain Giant!

Tai Mountain Giant was massive, standing like a towering mountain. Being in its shadow, one felt pressure that caused you to be unable to move!

The mountain stood tall, being even more imposing than Nie Yunbing's massive cyan hidden dragon. When the people outside the barriers looked at this massive body that blotted out the sun, they all sucked in a breath!

Humans were truly like ants in front of this mountain!!

"Truly terrifying, how can such an organism be defeated!" Many of three palace people had only seen this giant for the first time. The mountain-like powerful body battered their eyes and caused their minds to be disturbed for a while.

"How is this going to turn out well? Even if Chu Fangchen summons his seven sin fox again, it would probably be killed in a single move!" More people started worrying for Chu Fangchen.

Everyone's gaze fell on Chu Mu. To them, attempting to fight such an enemy was already impossible mentally, let alone trying to defeat it.

However, what surprised them was, Chu Fangchen was far calmer than anyone expected. This calmness made it seem like the explosive mountain giant was a mere object!

Chu Mu slowly casted an incantation.

The incantation was read very fluidly. A silver devil flame burned on Chu Mu's body and slowly filled Chu Mu's body, causing the already handsome Chu Mu to become even more demonic.

“If it were me, I may not even be able to chant anything.” Seeing Chu Fangchen already summon the white nightmare that had defeated Zhu Chao’s soul pet, Qin Yutong of nightmare palace muttered.

“I probably wouldn’t be able to do it.” the other young generation members all agreed.

Silver white devil flames grew thicker and thicker, as a cold aura started spreading out. A spatial swirl started with Chu Mu at the center, slowly flowing around him.

Chu Mu took a step back and the silver white devil flames on him remained burning, creating an identical copy of Chu Mu, as if it were a devil flame shadow!

“Nienie~~~~~”

White Nightmare slowly lifted up a flaming silver white devil flame claw and laughed slyly, sending shakes through its whole body.

Its sly flaming face hid a violent thirst for blood thirst. Within its arrogant eyes that saw above everything was a zeal for death.

This was a devil. Wild, cruel, bloodthirsty. Around it were countless resentful ghosts that could cause any organism to think twice before approaching!

“This white nightmare already has silver white devil flames!!” Nightmare palace elders were the first to make a judgement based off its flame color!

White nightmare's different energy crystals created different types of white. Low level white devil flames were simply pale. Once it were resentful flames, it had a ghostly nature. But, whatever level wouldn't leave the base of white color.

Only dominator ranks, like nightmare ancestor, could change devil flames into silver completely!

As for silver white, it meant the white nightmare was morphing into a dominator rank!

"This white nightmare, it truly digested nightmare ancestor!" Nightmare emperor jiang's heart rolled.

It was a white nightmare heading towards dominator rank. To almost everyone stuck at invincible emperor rank, this was too much to ask for!

In this era, the human realm didn't have any dominator rank white nightmares, so most people didn't know what silver devil flames meant. Even some people in nightmare palace who hadn't seen nightmare ancestor wouldn't know, let alone others with no knowledge of white nightmares.

Thus, when Chu Mu summoned his white nightmare, though most people were surprised at the evil nature of this white nightmare, no one realized it was a super strong white nightmare about to become dominator rank.

Yet, Nightmare Emperor Jiang and some others who knew simply stood around very mischievously and held in their excitement and zeal as they watched the worried three palace people and the joyous soul alliance members. Everyone would see the truth soon enough!

If it had made a step towards dominator rank, why wouldn't this white nightmare dare fight the Tai Mountain giant?

.....

In the battlefield, Mo Ling clearly didn't see anything special about the white nightmare. From its aura, one could tell that it was only a super emperor rank.

"Finish it in two techniques!" Mo Ling told his Tai Mountain Giant.

Tai Mountain Giant immediately let out a deafening roar, and caused the very ground to split as it moved!

Lifting up a fist high, the air was filled with countless high speed spinning rock crystals surrounded its arms. When looking upwards, one could see rocks fall from the skies like a mountain shattering and descending upon the ground!

When the shocking technique appeared, all the people protecting the barrier turned pale!

The entire city region was completely shrouded by rocks. Even though it was far away, it felt as if one was in the region, giving one immense pressure!!

Tai mountain giant's technique showed the truth of top tier rock type techniques, able to destroy everything- including their minds!

The massive fist flew down at the center of all the rocks, instantly turning the ground into powder. No one could see the white nightmare's ant-like figure in front of the massive tai mountain giant.

“He.....he wants to kill Chu Fangchen along with it!” Everyone saw Chu Fangchen get devoured by the technique himself and immediately, their eyes went red.

Chu Fangchen hadn't had the chance to move farther away after summoning his soul pet, when Mo Ling already told his tai mountain giant to attack. This seemingly direct hit on the soul pet was in fact enough to hit the soul pet trainer as well. Who could survive such a rock type technique!!

“Longlonglong~~~~~”

Within the barrier, everything was shattered. This tiny battlefield wasn't enough for near dominator rank organisms to truly expend all their destruction!

The city, forest, and streets were all powderized. When people looked over, they could only see an uneven desert!

With such a powerful attack, all of soul alliance and three palace were shocked. Who could survive under that attack?

“Huhuhuhu~~~~~”

Dust lifted and blew past Mo Ling's body.

Standing on tai mountain giant's shoulder, Mo Ling's eyes flashed with satisfaction as he laughed, "Seems like one technique was enough for both lives!"

Killing one soul pet may not be enough, and Chu Fangchen could always come back. Mo Ling wanted to get rid of the threat completely!

Suddenly, Mo Ling's laughter stopped.

He noticed that, among the slowly fading dust, Chu Fangchen stood there completely unharmed, while his eyes were emitting a very uncomfortable glint.

At the same time, Mo Ling felt an icy coldness come from his neck. This was an aura full of lethal threat!!!

"Shua!!!! Shua!!!!!! Shua!!!!!!!!!!!!!"

Ten evil slashes went past tai mountain giant's back!!

Every dash left a long mark on tai mountain giant's body. Even the mountain giant's sturdy defense couldn't block it!!

"Nong~~~~~"

Tai mountain giant let out a large roar. Turning around slowly, it used its arms to protect its critical points!

The evil slashes continue to barrage it, leaving multiple shocking cracks along the tai mountain giant's arm. Even its massive body had to back off multiple times under the attacks, causing it to almost losing balance and falling over!

“Beng!!!!”

Tai mountain giant stepped down with both feet suddenly, and steadied its body.

After the attacks stopped, Mo Ling glanced at the deep wounds on tai mountain giant, and a coldness spread through his body, causing his heart to palpitate!

This white nightmare not only survived unscathed under the tai mountain giant's attack, it even broke through the tai mountain giant's defense, which was its strongest suit!

How, how was that possible!!

At this moment, Mo Ling was gazing at the silver-white nightmare floating in the air, smiling strangely, and his face was plastered with shock!

Chapter 964: Is this person really Chu Fangchen?

"This.....is this real? Did the Tai Mountain giant's defense just get broken this easily?" The scathing woman in thick makeup stared in disbelief at the massive wounds on the tai mountain giant.

Every evil slash reached a few kilometers in range, and this was after being compressed. When these cracks appeared on the tai mountain giant's body, it seemed much more shocking and obvious, visible to everyone!

Bin Liao was also shocked. Tai Mountain Giant had an insurmountable defense. Its true power was its thick defense, so how could it get ripped apart in a single hit?

When everyone was shocked, the silver white devil again attacked. Its phantom body quickly darted through the clouds, leaving a floating glob of fire every time it pivoted directions!

The fire globs slowly connected, and became a massive fire cloud that shrouded the tai mountain giant's overhead, burning severely.

Tai mountain giant's massive pupils were filled with rage. This rage rolled in its pupils like molten lava!

Suddenly, Tai Mountain Giant extended an arm, and slammed it towards the silver white fire clouds in the sky!

“Longlonglonglong!!!!”

A frightening mountain appeared from tai mountain giant's palm that quickly morphed into a rock snake, rolling through the raging silver white flames!

The rock snake flew through the sky, and chased after white nightmare who was putting down its devil flame territory.

White nightmare looked at the mountain-range-sized rock snake but only laughed.

White Nightmare stood in place and stared at the massive being, slowly extending a palm.

The flames on its palm faded back and revealed a wind cave!

The wind cave seemed to only be the size of its palm, yet strangely, when the huge rock snake collided with it, it fell head first into the wind cave, getting its entire body devoured!

In a few short seconds, the giant snake disappeared from the sky. This bizarre scene caused Mo Ling's expression to become even worse.

"Give it back!" Chu Mu gave a command from afar.

White Nightmare's palm tightened. After getting Chu Mu's command, it smiled wide and slowly lifted its palm, reversing the wind cave!!

"Long long!!!!!!!!!!!"

The sound of rolling stones were like strikes of thunder. When the wind cave was reversed, from the strange palm space came a silver white devil flame burning rock snake darting out!!

Silver white devil flames covered its body. When its massive mountain-like body reappeared in the sky, it suppressed everyone outside the barrier. They stared as the unbreakable devil flame snake dragged out a long arc through the sky and collided straight into the tai mountain giant!!

Because the tai mountain giant was so massive, it meant it had nearly no dodging power. Seeing its rock snake get sent back with devil flames, the tai mountain giant could only quickly block its head using its arms.

“Honglonglong~~~~~”

The rock snake landed heavily onto Tai Mountain giant’s body. The tai mountain giant’s body was constantly knocked back by its own power, causing its body to slide to the edge of the barrier, shattering the barrier to barely stop its backpedalling.

Its chest was clearly caved in and breaking. The tai mountain giant had many small cracks covering its body now, looking very sorry.

“Damnit!!!” Mo Ling’s face was steely.

He finally knew why this youngman dared to challenge him. Clearly, he was relying on a similar near dominator rank white nightmare!

Watching the silver white devil in the sky, Mo Ling’s heart was filled with jealousy and anger. Why did a twenty something year old young man have such a powerful soul pet? How did he get such power? One had to know that barely anyone in all of the human realm stepped into that realm!!

“I, Mo Ling, cannot allow any person to defy and anger me!” Mo Ling yelled out furiously, commanding tai mountain giant to charge at White Nightmare!

End hero Mo Ling, with tai mountain giant, indeed wasn't someone that could be easily messed with. However, Chu Mu wasn't easily messed with either.

Daring to be so arrogant in front of the gates of soul palace, who else would Chu Mu beat up?

Today, end hero Mo Ling was going down!

"White Nightmare, devil flame tsunami!"

White Nightmare sent up flame clouds in the sky that just weren't for decoration. When Chu Mu gave the command, White Nightmare extended a hand, and pointed at the massive flaming cloud in the sky.

"Nie~~~~~"

Like a king commanding his army to charge forth from behind him, after White Nightmare let out this cry, the flaming cloud became a massive tsunami of flames that spilled forth from the skies!

The massive silver white wave covered the skies, and seemed to devour the whole world. All the devil flames fell forth in all its raging glory.

Tai mountain giant was just about to cast a technique when it immediately was attacked by this tsunami of flames. It quickly slammed a fist down against the desert ground, half kneeling down.

After the fist fell, tai mountain giant's surrounding lifted up with sand waves that swiftly covered the tai mountain giant over, creating a massive sand mountain!

The devil flames swept through, its burning coldness seeping through the sand and attacking the tai mountain giant.

Though the sand mountain provided some resistance, the pain of the soul burning was still there. Even Mo ling had to withstand the pain, yelling out in agony.

The devil flame tsunami ravaged through, burning everything and almost filling the entire world within the barrier with flames. This entire city area was rendered into burnt ground.

“Nong!!!!!!!!!!!!!!”

The tai mountain giant yelled out. Getting burnt, the black mountain shattered and tai mountain giant quickly appeared from underneath, instantly accelerating towards white nightmare!

The tai mountain giant's massive body smashing over was nearly impossible to dodge. White nightmare already casted displacement specter but was still hit by an arm, getting sent far away.

However, such a degree of attack still wasn't enough to do much damage to white nightmare. White nightmare easily steadied itself using the power of space and smiled at the mocking and angry tai mountain giant.

The tai mountain giant hid behind a hill, and didn't seem hurt but its soul was definitely still burnt heavily. Otherwise, its two eyes wouldn't be raging red like a beast.

“Spatial quicksand.” Chu Mu gave another command.

White nightmare casually waved its hand and a strange shiver went through the space near tai mountain giant. Right after, one could see tai mountain giant’s steps become slowed, as its movements became incredibly sluggish!

“Evil slash!”

Chu Mu continued commanding.

The reason he told white nightmare to cast evil slash was because Chu Mu needed white devil’s dark type to break through the tai mountain giant’s defense.

Tai mountain giant’s defense was indeed thick. Even a true dominator rank couldn't easily kill it.

The biggest counter to rock type was dark type. Since white devil’s evil slash was a combination of other and dark type, this technique could cause the most direct damage to the tai mountain giant. This was a great benefit of white nightmare having so many types.

Four evil slashes again broke straight through the tai mountain giant, reaching deep inside. Before, the white devil’s attacks were too swift and people may not have reacted. However, this time, everyone clearly saw that this white nightmare indeed could easily threaten the thick defense of the tai mountain giant!

After a few rounds, it was clear that tai mountain giant's wounds were only increasing, while other than that one arm swat, it didn't cause much trouble for the white nightmare. This was something no one expected.

Soul palace great elder Chao's jaw was still agape. He was just advising Chu Mu to give up immediately if he found he couldn't win, yet who would have thought this young man would be this abnormally overpowered, able to do such harm to Mo Ling's tai mountain giant!

Elder Pang, elder Xiao, and elder Teng were also all rubbing their eyes, unable to believe what they were witnessing.

"That guy.....is that really Chu Fangchen? His white nightmare..... how is it this powerful?!" Teng Lang was dumbfounded.

One had to know that in snow city, to restrict the tai mountain giant, three palaces had to send eight elders and senior elders to barely restrict it. Then, the power of dominator rank left an unerasable mark on Teng Lang's mind.

Now, Chu Fangchen could fight it with just one soul pet. This contrast caused Teng Lang to start questioning whether the man in the battle was truly Chu Fangchen!

"He said he would deal with Mo Ling, turns out he truly could..... this is end hero Mo Ling!" Elder Xiao and a few of the other conservatives couldn't calm themselves.

As for Mu Qingyi, who was spectating, and had her gaze fall on Chu Mu multiple times, she seemed calm, yet her beautiful eyes were also shining with disbelief.

Just as Teng Lang was confused, she was also wondering whether this was truly the same young man who trained in silence in snow city?

Why did this shocking man suddenly seem so unfamiliar and strange?

Or, maybe she never truly understood this person. Only now was she seeing this man's true self, a low profile expert that had a near dominator rank organism!!

Chapter 965: Sword Piercing Through, Defeating the Giant

Ending in two techniques?

Mo Ling could no longer speak such arrogant words. His face was ashen and serious, and he was suppressing the burning anger in his heart.

"Stamp him to pieces!!" Mo Ling roared.

The Tai Mountain Giant's body suddenly squatted down before it leaped into the air, transforming into a Tai Mountain in the clouds. It smashed in the direction of the White Nightmare!

The White Nightmare used Displacement Specter, teleporting several times and appearing outside of the area covered by the Tai Mountain.

However, the area of attack encompassed by the Tai Mountain wasn't merely the area in which it would land. Indeed, when it did land, it created a huge energy blast of sand that proliferated around Wanxiang City!!

The White Nightmare was instantly knocked up by the energy and out of the barrier, buried in the thick powder.

The Tai Mountain Giant's attack hadn't ended. After landing, it raised its enormous leg and stamped on the ground. Instantly, sharp rock spikes split open the ground and rose up in a straight line right towards the buried White Nightmare.

The White Nightmare wasn't able to crawl out of the sand dune before being knocked several thousand meters into the air by the sharp spikes. Its silver white body was incomparably small in comparison to these spikes.

“Nong!!!!”

The Tai Mountain Giant gave an angry roar. It opened its right palm and all of the sand on the ground began to rapidly gather, instantly forming a terrifying Tai Mountain Hammer!

The Tai Mountain Giant roared, and the Tai Mountain Hammer was launched through the air!!

A sandstorm surrounded the warhammer, creating a tornado spiral in the air as it flew towards the stunned White Nightmare in the air.

Seeing the Tai Mountain Hammer fly across, Chu Mu's heart clenched. This was clearly its ultimate technique.

Promptly, Chu Mu stopped the White Nightmare from restraining itself, and he hastily had it use a dominator rank technique!

“Worldly Devil Sword Array!”

By the time the White Nightmare managed to stabilize itself in the air, the Tai Mountain Hammer was imminent. It was impossible to dodge.

After hearing Chu Mu’s order, it immediately began to chant.

The silver white devil flames began to separate from its body, spreading around it before slowly expanding.

The silver white ball of flame gradually took form, morphing into scorching hot silver white devil swords!

Each devil sword was several thousand meters long, towering between the heaven and earth. Such an imposing majesty of swords reaching from the clouds to the ground couldn’t help but make those outside the barrier tremble in fear!

Beauty, evil, and reverence. The appearance of the Worldly Devil Swords made the Tai Mountain Giant’s sandstorm Tai Mountain Hammers pale in comparison. Indeed, the Worldly Devil Sword Array was a genuine dominator rank technique!

“Keng!!!!!!”

The Tai Mountain Hammer smashed into the Worldly Devil Sword Array, emitting the sound of metals colliding. The sound echoed through the city!!

Sand covered the skies as the Tai Mountain Hammer seemed to shatter the heavens. People could see that all rays of light were swallowed by the sand energy, transforming the area into a sandy dusk, layering their hearts with a terrifying shadow.

The barrier could no longer hold up defensively. Cracks began to appear before it quickly shattered.

The moment it shattered, everyone could feel the true aura of the Tai Mountain Hammer. Those with weak soul remembrance even kneeled on the ground as their legs were shaking so bad they couldn't stand.

A sweep of one's eyes and outside the barrier a huge number had fallen to the ground with extremely pale faces!

However, the terror didn't stop here. In the dusky sky, the bright silver white devil flames continued to occupy their original space. Despite the might of the world-destroying Tai Mountain hammer, the Worldly Devil Sword Array towered there unmoving!

The devil sword array began to spin. Shocking cracks could be clearly seen on each devil sword.

However, these cracks didn't mean that the devil sword had lost its original might. Instead, they resembled cracks left from years of fighting, making the swords seem even more fiendish and baleful!

“Nie~~~~~”

The White Nightmare let out an extremely sharp devil cry.

Instantly, nine Worldly Devil Swords began to emit otherworldly hums as they all locked onto the Tai Mountain Giant!

Long devil flames were left in the paths of these swords as they streaked across the sky. It was so beautiful and imposing that it made people forget to breathe!

Mo Ling raised his head, and sank into a panic.

He never expected that after being able to withstand the destructive attack of the Tai Mountain Hammer, the White Nightmare would be able to instantly retaliate. Moreover, the weapons that were retaliating were the Worldly Devil Swords that had blocked the Tai Mountain Hammer!

The first sword pierced towards the Tai Mountain Giant's chest. The Tai Mountain Giant reached out its hands, and grabbed onto the enormous devil swords.

The devil swords had very powerful forces of impact, and the Tai Mountain Giant that grabbed the flying devil swords slid backwards.

Its arms were taut, and only after sliding back a long distance was it finally able to neutralize the devil sword's power, crushing it to pieces.

The first devil sword transformed into countless wisps of flame that gently fell.

However, before the Tai Mountain Giant could put out the devil flames that had caught onto its hands, a spatial fluctuation appeared above its head. A devil sword, like the blade of an executioner, terrifyingly hung above its head before speeding up as it slashed down!!

The Tai Mountain Giant slid back in panic. The terrifying Worldly Devil Sword sliced down the side of its face before piercing the sandy ground in an upright position. The length of the sword was equivalent to the Tai Mountain giant!

“Hu hu hu hu~~~~~”

The devil flames dissipated. Although the Tai Mountain Giant had dodged the devil sword’s pierce, it was caught by the devil flames around it!

Mo Ling wiped the sweat on his forehead, as he fearfully looked at the terrifying devil sword. He was about to use soul remembrance to detect the location of the other devil swords when he suddenly discovered that the Tai Mountain Giant was violently trembling. Immediately after, he heard it let out a loud miserable cry!!!

“Nong!!!!!!!”

Mo Ling looked down in shock, and abruptly discovered that a devil sword had pierced the Tai Mountain Giant from the middle of its back to its stomach. In a ghastly fashion, it had pierced all the way through its body!

This third devil sword had appeared pretty much at the same time the second sword did. Thus, when the Tai Mountain Giant dodged backwards, this devil sword had noiselessly pierced it!

Mo Ling's attention had been solely on the second devil sword; however, those watching from a distance could clearly see Chu Mu's second and third devil swords appear, without a warning, like the death god himself!

There were a total of nine swords. If the first three were so frightening, would the Tai Mountain Giant be able to survive the last six considering that they didn't fly in conventional trajectories?

The fourth devil sword wasn't gaudy at all. It appeared in front of the Tai Mountain Giant, slashing at its body.

The Tai Mountain Giant was barely able to use its arms to block, but the mixed in darkness effect in the sword made it so that the Tai Mountain Giant's defenses were no longer absolute!

This sword's slash caused the Tai Mountain Giant to let out another anguished roar. Its arms and body exerted energy as it was knocked far away!

The fifth devil sword pierced its chest. The chest was where it had the thickest armor, and the devil sword was unable to successfully pierce through.

However, the sixth devil sword also aimed at its chest. The armor there was shattered, leaving everything bare!

The seventh sword, under everyone's watch, pierced its chest!!

Now, there were two devil swords burning with violent flames that had pierced its body. Such a scene was inconceivable!

“Hu~~~~~”

The eighth devil sword pierced towards its knees!

The Tai Mountain Giant was finally unable to bear this attack, and its mountain-like body fell backwards, crashing heavily onto the ground!

“Beng~~~~~”

An enormous sound rang out across the city. Once it fell, it was unlikely that it would stand back up.

Yet, things still hadn’t ended as the ninth sword appeared!

Above the handle of the ninth devil sword, a silver white Nightmare was chillingly standing there in arrogance. When it cracked a merciless smile, the devil swords transformed into the light of a death that pierced straight down at the Tai Mountain Giant’s head!!

“Chi!!!!!!!”

As the terrifying devil sword descended, the Tai Mountain Giant was barely able to extend a hand to block in front of it.

However, the devil sword pierced through its hand and into its head, nailing it to the sandy city ground!!

“Weng weng~~~~~”

The entire city district was deathly silent. The only thing that could be heard was the echo of the sword’s hum!

Outside the shattered barrier, several tens of thousands of soul pet trainers, each with different statuses and from different factions, had the same expression. It was one of fright and shock!!

The Tai Mountain Giant had fallen!!

The Tai Mountain Giant that could practically sweep through humanity had unexpectedly lost! Moreover, it had lost to a White Nightmare and a young man!!

The Tai Mountain Giant was as large as a mountain. Although it was far away in the barrier, it seemed so close. Yet, the Worldly Devil Swords were even more majestic and imposing. Each sword was several thousand meters long and looked as shocking as frozen lightning.

This enormous scene occupied everyone’s vision, making their breathing feel oppressed.

Yet, who present was willing to believe that the scene in front of them was a reality?

Soul Alliance's Bin Liao and the poison woman were frozen, as they stared in shock at the three devil swords pierced through the Tai Mountain Giant.

What had collapsed wasn't only the Tai Mountain Giant but also the deep-rooted idea that the Tai Mountain Giant was undefeatable. It wasn't merely an idea, but a truth to them!

Yet, now, their truth had been absolutely destroyed!!

Chapter 966: Intimidating Soul Alliance's Army into Retreating

Fourth Hero Mo Ling stood on the shoulder of the Tai Mountain Giant; he seemed to have lost his soul.

He had truly lost; moreover, he had lost so suddenly. It seemed like just a moment ago he was ridiculing this young man, using the same method to humiliate and provoke him.

But now, he was watching his Tai Mountain Giant collapse, its body pierced by three swords. Such a scene was even more terrifying than any nightmare!!

Fourth Hero Mo Ling's sole reliance was this Tai Mountain Giant. Without it, he was no different than the Eight Desolations. Even a few of the stronger senior elders from the three great palaces could defeat him.

The members from the three great palaces were silent for a while, before bursting out in stunning cheers!!

These cheers caused all of Soul Alliance's members to cower, as they thought that the three great palaces could charge at them any moment now.

Indeed, without Fourth Hero Mo Ling, they didn't have the qualifications to fight the three great palaces.

"Unbelievable!! Unbelievable!!!" Senior Elder Pang, Senior Elder Chao, and the others no longer knew how to describe the shock in their hearts.

Fourth Hero Mo Ling had always been an indispensable shadow draped on the three great palaces. It was often that the three great palaces had no choice but to swallow their anger and sullenly retreat because of Mo Ling's Tai Mountain Giant.

Nobody had been willing to fight Mo Ling just now as he mocked them, making them feel unprecedented anger. They hated that nobody from the three great palaces could savagely trample on this overbearing and arrogant fellow.

Initially, they thought they would have to swallow their anger again when this person had suddenly appeared. Relying on his silver white White Nightmare, he had demolished the source of Mo Ling's arrogant and overbearance - the Tai Mountain Giant!!

They had seen the entire fight. Each time they saw the Tai Mountain Giant receive an injury, the grievances piled up over many years towards Mo Ling was somewhat whittled away. Each time, they wanted to yell out and cheer!!

It wasn't until the very end when the three devil swords impaled the Tai Mountain Giant did shock fill their heart. Yet, even more than shock was the rapture from seeing Mo Ling's despondent appearance!!

"The son of heaven. Chu Mu truly is the son of heaven. I really want to know how he was able to cultivate a near-dominator rank at his age. I remember the original rumors that his White Nightmare was only a paragon emperor." Senior Elder Pang let out a sincere sigh.

Everyone's eyes fell on Senior Elder Liu, because they all knew Chu Fangchen was his adopted son. As his adopted father, Senior Elder Liu would definitely be able to explain.

Senior Liu felt everyone's gazes, and saw their shocked expressions because of Chu Fangchen. Many of them were also looking at him with a bit of reverence.

Senior Elder Liu never expected himself to receive such treatment because of Chu Mu's strength. Moreover, he was actually confused as to how Chu Mu was so strong. He only knew that this young man, with his strength alone, had allowed several billions of people to continue surviving, and stabilized the three great palace's foundations.

And today, once again, with his strength alone, he had defeated an undefeatable expert and subdued everyone from Soul Alliance who had come to challenge them.

"His White Nightmare received the inheritance of the Nightmare Ancestor." Diagram Supreme Ke Yin spoke up.

Diagram Supreme Ke Yin was very confident in Chu Mu. He was confident that he would be able to fight against Mo Ling; what had surpassed his expectation was that Chu Mu had been able to defeat the Tai Mountain Beast so dominantly. This fight would destroy any face Mo Ling had!

Diagram Supreme had already told this to the senior elders, but the senior elders hadn't put much weight on it, because these inheritances perhaps were just a few techniques at most.

After repeating it again now, everyone finally realized that this probably wasn't a simple inheritance; instead, Chu Fangchen's White Nightmare was the Nightmare Ancestor's successor.

The ones smiling the widest now were obviously Nightmare Emperor Jiang and the other Nightmare Palace higher ups that had already guessed this outcome.

Nightmare Emperor Jiang, the old hermit, Senior Elder Shen, and Shen Mo had all personally witnessed that White Nightmare devour the Nightmare Ancestor.

Devouring type White Nightmares could devour their own species to grow stronger. Thus, they were positive that Chu Fangchen's White Nightmare was already in the process of evolving to the dominator rank.

Moreover, they knew that this White Nightmare could wield dominator rank techniques as it wished. Once it stepped towards the dominator rank, Nightmare Emperor Jiang and the others had an idea of how strong it would be.

Ultimately, Mo Ling had been so arrogant and overbearing, shamelessly relying on his Tai Mountain Giant to challenge Chu Mu; yet, this was equivalent to sending himself on a platter to Chu Mu whose White Nightmare had just jumped in strength. His defeat was inevitable, and the more arrogant he was, the more miserable his defeat would be!

When they had been discussing things, Nightmare Emperor Jiang found that there were several people who didn't support Chu Mu, including in Soul Palace. He had laughed in his heart then, and couldn't wait to see what kind of expressions these people who looked down on Chu Mu would make.

Indeed, the expressions of Senior Elder Xiao, Yang Fengying, and others from the conservative faction had extremely rich expressions!

Of course, Nightmare Emperor Jiang, the old hermit and Senior Elder Shen were just even more certain that this young man was the best choice to become a supreme. Indeed, even Li Hong may not be able to destroy Fourth hero Mo Ling so badly!

Everyone was reevaluating this young man at the moment. They even placed this young man on an untouchable and incomparably reverent level!

Seeing this man bring his silver white White Nightmare back to the three great palace faction, the thunderous noise didn't stop as zealous and proud eyes looked at Chu Mu...

Chu Mu faintly smiled. Defeating a Hero expert made Chu Mu feel a trace of accomplishment. Of course, it was mainly the White Nightmare that hadn't let down Chu Mu, abiding to his instructions and miserably defeating that fellow!

"Start your attack. Mo Ling's Tai Mountain Giant is already wasted." Chu Mu walked up to Diagram Supreme Ke Yin and spoke.

Ke Yin was stunned and said: "Since he's already been defeated, our victory is guaranteed. However, those people won't let us attack."

As he spoke, Ke Yin pointed at the virtuous and noble old men who had faces of shock.

"Do you think that they will fight us now?" Chu Mu piqued his eyebrows.

These words awakened them from their dreams. Senior Elder Chao and Nightmare Emperor Jiang let out loud laughs, understanding Chu Mu's intentions!

.....

Fourth Hero Mo Ling had already recalled his Tai Mountain Giant back to his soul pets space. Elemental world soul pets would not die so easily; however, the Tai Mountain Giant was near death. He was certain if he hadn't begun to summon his other soul pets, Chu Fangchen would have continued attacking until his Tai Mountain Giant was completely dead.

"Senior, are you okay?" Bin Liao walked over, and stared strangely at Fourth Hero Mo Ling.

Mo Ling's concubine, the poison woman, also rode her soul pet over to Mo Ling. She looked incomparably concerned, but from the perspective of Bin Liao, this woman's eye expression was even more strange than his.

These two people both knew that if the Tai Mountain Giant was killed, the person in front of him would no longer be "Fourth Hero Mo Ling", and they would no longer need to be so filial to him.

Of course, they couldn't be sure that it had died. If the Tai Mountain Giant hadn't died, they would be in trouble. Therefore, they continued to act.

"Scram!" angrily roared Mo Ling.

Mo Ling wasn't stupid. He knew that the two of them had instantly come up to him not because they cared about him, but because they wanted to see if his soul had ruptured!

If his soul had ruptured, it meant that the Tai Mountain Giant was dead. Right now, the Tai Mountain Giant was in a precarious state, and could at any moment inflict a wound to Mo Ling's soul. If the two of them saw him injured, he wouldn't be able to maintain his status!

Bin Liao and the poison woman didn't want to be met with Mo Ling's temper and slightly retreated. However, it could be seen from their expressions that they were looking down on Mo Ling with a bit of disdain!

“Kill!!! Kill!!!!”

“Kill!! Kill those Soul Alliance bastards!!!”

“Mo Ling's Tai Mountain Giant has been wasted. Kill all of Soul Alliance's people!!!!”

Suddenly, a thunderous noise surged out of the Soul Palace stairs. Mo Ling, Bin Liao, and the poison woman hastily raised their heads and abruptly discovered that the members of the three great palaces had unknowingly summoned their soul pets. They also looked like they were about to charge!!!

Soul Alliance's people were still stuck in the shock of the Tai Mountain Giant being defeated. When they abruptly heard the ear-splitting “kill” order, they instantly entered a panic!

“Retreat!! Retreat!!!!”

Bin Liao was scared silly. He immediately used soul remembrance to order all of Soul Alliance's people.

After the godlike Mo Ling had been defeated, Soul Alliance's members obviously had no more morale. Once they heard the retreat order, they all summoned their soul pets and fled in a panic!

Mo Ling himself was so scared he began to coldly sweat. If a fight started, he would be heavily focused on by the experts of the three great palaces after having lost his Tai Mountain Giant. Even if others weren't killed, he would definitely be killed!

Mo Ling hastily chanted an incantation. However, despite being an absolute expert on the Hero level, he mischanted twice due to being frightened by the shout. On the third chant, he finally was able to summoned a wing type soul pet, and miserably fled towards Wanxiang Altar!

#### Chapter 967: Pleasant Afternoon

"End hero Mo Ling brought the soul alliance army to the steps of soul palace and asked for the criminal Mu Qingyi, did you hear about this?" In a tea house, a thirty year old thin man said quietly to a few people beside him drinking tea.

"That commotion was huge, who wouldn't know? I was in the outer city at the time, and saw the mountain like soul pet. At first, I had no clue what it was and asked an old soul pet teacher before I found out that was tai mountain giant's soul pet!" The tea drinking man said.

"Yes, I was shocked at the time. I didn't think this world had such a huge soul pet. It was like having a giant deity on earth. I heard inner city people say that the entire forest, business district, and the wealthy area all became deserts, even with the barrier protecting it. The scene would definitely cause your legs to shake nonstop if you saw it yourself."

The tea drinkers all started gossiping. To them, being able to talk about some events they heard before or even seen before was what made a very pleasant afternoon.

"However, it was still defeated in the end. I saw for myself the tai mountain giant fall down." A young man who lived in inner city said.

When this was said, everyone's gaze fell onto the young man. The thin man who started this discussion stared wide eyed and asked, "Someone could defeat that soul pet?"

"Of course, inner city has been spreading the story like crazy, how do you not know? End hero Mo Ling's tai mountain giant was defeated by a soul palace young man called Chu Fangchen and his white nightmare. When you were in outer city, didn't you see nine devil swords hanging in the skies of inner city?" The young man started babbling and describing in detail.

Everyone quickly nodded. The appearance of the heavenly earth devil swords were seen by nearly half the entire city. The thousand meter long swords hung in the skies, creating a shocking scene that caused the entirety of wanxiang city to tremble. No one would ever be able to forget that scene!

"I saw it."

"I saw it too."

The young man laughed and continued, "The nine devil swords were released by the white nightmare. I heard that three swords pierced straight through the tai mountain giant and nailed it to the ground!"

The moment this was said, everyone burst into discussion. The unimaginable tai mountain giant getting nailed to the ground was already an image that was too hard for them to imagine!

"That means end hero really got defeated by the young man called Chu Fangchen."

“Of course, this had spread through all of inner city already, yet you don’t know. You truly need to find a better news source. And, after end hero was defeated, three palace immediately started an assault. Soul alliance people all fled due to end hero’s loss, while end hero himself also ran away pathetically into wanxiang altar.”

“No way, even hero level characters have times where they have to escape pathetically.....”

Similar discussions spread through all of wanxiang city. Especially since the commotion yesterday was so massive, the entire city was still experiencing its effects. Presumably, after everything returned back to peace, no one would ask about what happened.

Wanxiang city was massive, so the rumors in each city area may be slightly off. Most of these were due to people exaggerating on purpose, but the reality of the situation was there. At least end hero Mo Ling running away was something everyone knew.

Thus, Mo Ling who went and hid in wanxiang altar, heard the laughter of three palace and realized that three palace wasn’t trying to start a war and simply wanted to see him embarrass himself. Running away so fast at the bluff, Mo Ling was nearly internally bleeding from anger, nearly wanting to strike back.

However, Tai mountain giant was in lethal danger, and he didn’t dare to waste a single extra second, so he decided to retreat back to wanxiang altar.

Presumably, in the following period, Mo Ling’s life would be very sad.

.....

As for Chu Mu, who made a name for himself in wanxiang city, he spent most of the following afternoons drinking tea and reading in his fixed courtyard. Occasionally, some elders would come and meet him out of respect, and Chu Mu would give them a seat and ask these experienced old men some questions he had about his readings.

Three palace elders sighed in satisfaction at the man's humble attitude towards his achievements. Not only was he powerful, he was so humble and studious, it was truly rare. They decided that all of their children had to follow Chu Fangchen's example.

Chu Mu's massive knowledge of soul pets were due to Old Li muttering by Chu Mu's ear constantly. Now that Old Li disappeared to who-knows-where, Chu Mu had to be studious himself and not be afraid to ask questions.

Of course, Chu Mu didn't truly have nothing to do. He simply realized that he had been a little too high profile in wanxiang city.

There were still people stronger than him in wanxiang city. If he stayed this high profile, he wouldn't have a good end. So, Chu Mu felt like it was time for him to disappear, and only reappear once his strength was another rank higher.

Chu Mu wanted naturally to disappear into the demon realm. After Mu Qingyi's mental damage and white tiger healed completely, Chu Mu would leave immediately. Every time he thought of riding the black dream-like phoenix through the skies, Chu Mu would get even more impatient.

"Brother, I'm back."

A string of clear laughter came in from the viney courtyard. Following it was a nimble and pretty figure, her hand holding the hand of another graceful and elegant woman.

Chu Mu saw them walk over beautifully and simply smiled. However, when he noticed the four servants behind them holding a myriad of different flashy items, his smile went stiff.....

“Don’t you know the existence of a thing called a spatial ring?” Chu Mu looked at the four poor servants with their hands full, and laughed helplessly.

“If we put it into a spatial ring, we’ll forget what we bought.” Ning Maner said with reason.

Chu Mu didn’t care about Ning Maner’s fallacious reasoning, and glanced at the newly dressed Mu Qingyi and asked, “You seem pretty well.”

“En, we can leave in a few days.” Mu Qingyi nodded.

Mu Qingyi didn’t seem to want to expose her love for shopping like most other women, and she blushed slightly. She quickly told the servants to put the items in her room as she escaped into her room as well.

After Mu Qingyi left, Chu Mu called Ning Maner over and gave her a stare, “Why are you being reckless again, don’t you know Mu Qingyi was the one that wanted to capture you in the past?”

Ning Maner looked wronged and muttered, “She never saw me before, and you never play with me. Sister Ye was also busy, so I went to find Sister Mu to play. She’s a really good person, or else brother wouldn’t help her.”

“This doesn’t matter whether she is good or not. I’m saying that you have to tell me the next time you go off by yourself or else I’ll throw you back into dark sky ocean.” Chu Mu said.

“Brother you said that a few hundred times already.” Ning Maner said.

“.....” Chu Mu was speechless. This damn girl, learning to talk back. It looked like Ye Qingzi truly spoiled her!

“I’m going to demon realm in a few days, stay within soul palace.” Chu Mu couldn’t do much, and could only change the topic.

“Sure, sure, how about Sister Ye?” Hearing Chu Mu about to leave, Ning Maner became even happier, as if finally no one could restrict her.

“She needs to continue her training, don’t disturb her.” Chu Mu said.

Ye Qingzi seemed to have completely understood Ying Rong’s inheritance, so even Chu Mu had a hard time seeing her these days.

However, seeing her so focused, her strength was sure to break through after this session.

Of course, Chu Mu was very curious. The soul arts that Ying Rong left seemed to far surpass human realm soul arts, able to let Ye Qingzi break through even at high class emperor rank and top tier emperor rank. This caused Chu Mu to be curious as to the true source of the arts.

“Ah? Then wouldn’t brother and Sister Mu be alone..... Aiya, sister Ye truly is too lax on brother..... Even I can tell that after this time brother helped sister Mu, she definitely will be especially grateful and even promise her own body in return.....”

“What is this nonsense!” Chu Mu glared at the unfiltered young girl and continued, “We’re also going with young prince, Shen Mo, Teng Lang, and Pang Yue.”

“Say that sooner! Sister Ye truly loves brother, you can’t disappoint her.” Ning Maner said.

“Go play by yourself.” Chu Mu said grumpily.

This young girl was truly getting more and more misbehaved. What was all this that she was saying- did he need a young girl to tell him this?

Ning Maner laughed evilly and ran over to Mu Qingyi, probably to check out everything they bought.

Chu Mu rubbed his temples and muttered, “This wild little girl seems to be getting odder recently.”

Shaking his head, Chu Mu didn’t give it further thought, and leaned back against his chair. Picking up a yellow old book, he continued to study the descriptions within.

Laying on Chu Mu’s shoulder, little Mo Xie woke up. Stretching out into a nice long yawn, she then peeked her head over Chu Mu’s shoulder to stare wide-eyed and curiously at the messy lines of text on the book, occasionally tilting her head back to glance at the focused Chu Mu, looking utterly confused and lost.....

The fall breeze blew through the courtyard filled with falling leaves. The man, half laid down, reading with a cute yet confused little fox on his shoulder created a special and memorable scene, quiet, pleasant, and overflowing with the advent of autumn.

Chapter 968: One day, you will learn to be independent

Seven sin fox lightning monarch's strength was stronger than Mu Qingyi at full status. Mu Qingyi had five soul pets with crown phoenix king leading it with other invincible emperor ranks fighting along with it. Even so, Mu Qingyi wasn't its match, so one could see how powerful this forgiven fox that guarded the demon realm was.

Thus, to enter the demon realm, they definitely couldn't enter from the guarded section, and instead went down a different ancient path with a special restriction.

This path was also very dangerous and even Mu Qingyi wasn't sure they could pass through safely, so she approved of going forth in a team. This team must have soul pets of all elements or else if a group defender that had a type counter appeared, they would have difficulties beating it.

Of the six people, Pang Yue was a support soul pet trainer. Though she wasn't as professional as Ye Qingzi, basic battle support was something she could easily give. She was also one of the strongest support soul pet trainers in the young generation. If Ye Qingzi couldn't come, naturally she had to take on the role of soul pet trainer.

Teng Lang's reliance was his top tier emperor rank iceberg lion. Mu Qingyi said that they needed ice type soul pets in that path, and instead of telling an elder to come along, they instead should bring Teng Lang who had more potential. At least that way, he could get training as well and, in the case of a special opportunity, he would get a lot of benefits.

Prince Chao Lengchuan was more mysterious, having not appeared yet. However, from diagram supreme Ke Yin, Chu Mu knew that the prince had already gotten Zhou Supreme, who had

formidable power. With him along, their safety would be better and Chao Lengchuan was a soul pet trainer. Going to an unknown demon realm was a great opportunity for him as well.

Shen Mo was a very low profile person and no one was better at hiding his strength than three palace. According to Chu Mu, this fellow's strength definitely wasn't any worse than a soul alliance absolute.

Of the six people, probably Pang Yue and Teng Lang were the weakest. Pang Yue was a soul pet trainer so it didn't matter that she was weaker. As for Teng Lang, he probably needed to rely on the iceberg lion to put up a good fight. Thankfully, the ancient path should be more nimble movements so even stronger people would get restricted.

The night before they left, the six gathered in Chu Mu's courtyard and Mu Qingyi reminded everyone about details of the journey they should watch out for.

Teng Lang said that Chao Lengchuan would appear tonight so, when the five people gathered in the pavilion and waited for the mysterious soul palace young prince.

The soul palace prince was someone Chu Mu had heard of since tianxia city, a true legend that Chu Mu really wanted to make friends with.

However, after sitting for a while, Chao Lengchuan still didn't appear. Instead, a very timid man that seemed to be a member who admired Chu Mu came forth.

"Sorry, we have a meeting tonight, you can go back first." Chu Mu offhandedly waved his hand, and told the admirer to leave.

There were people like that every day. There was no way Chu Mu had the time to give his autograph and motivate so many people.

“Eh.....brother Chu, he is the prince.....” At this moment, Teng Lang whispered to Chu Mu with a stiff expression.

This sentence caused everyone, including Mu Qingyi, to open their eyes and stare in disbelief at the timid man!!

Of the five people there, only Teng Lang had seen the prince before. Everyone had heard from rumors that the prince was handsome, confident, and had an imposing aura. Who would have thought that the person was more like a scholar that had just come out of school. He had none of the aura of a high level person; no calm, no confidence, let alone a dominating aura of a three palace young generation leader!

“Sorry, sorry, because I’m leaving tomorrow, after dinner my mother just couldn’t stop talking..... So I was late.....” This person that should have been natural and at ease instead said such an embarrassing reason.

“Teng Lang, you sure this seemingly immature fellow is the young prince?” Shen Mo glanced at him sideways and asked in a low voice.

“This.....every person who sees the young prince has the same expression as you. In reality, this person isn’t like the rumors, having eyes of thunder or the breath of a wild gale. He’s just a training freak since he was a kid. He doesn’t talk with many others, especially females.....” Teng Lang said using his mental strength.

“This is heavenly concubine, an honor to meet you at last.” Chao Lengchuan lowered his head, and said to Mu Qingyi politely.

Aside, Shen Mo had an even stranger expression. This legendary prince was blushing after seeing Mu Qingyi and Pang Yue!!

Heavens, the moment Shen Mo thought about the fact that he had always been beaten by a mysterious young man that turned out to be a timid young man, Shen Mo wanted to run into a wall!

Can he have more of the mannerism of a super expert?

“Alright, let me speak first. I originally thought Chu Fangchen and Chao Lengchuan meeting must be an intense scene to see who is the top person of soul palace. However, I thought too much.” Shen Mo was clearly beat, cutting off the timid scholar’s polite greetings to everyone.

The scholar paused and quickly said humbly, “Chu Fangchen truly beat end hero Mo Ling. I Chao Lengchuan have no achievements and is simply raised up by everyone else, I should give up the position, it’s only natural.....”

Chu Mu laughed helplessly at the incredibly polite person and didn’t know what to say. From the young prince’s gaze, one could tell that he wasn’t just being fake but was truly polite.

Shen Mo felt his chest heave slightly and no longer wanted to speak. He was truly hurt by the nightmare palace prince today.

“Prince Chao, I’ve heard of your name for a while now, but never would have thought you would be so timid and cute in person.....” Pang Yue laughed and instead found it interesting.

“Hehe, it’s just a habit I couldn’t get rid of. The old fellows never allow me to go to public events incase I destroy the reputation they have created for me.” Chao Lengchuan laughed embarrassed and scratched his head, not daring to meet Pang Yue’s charming eyes.

After saying this, everyone laughed along. Looks like the prince was mysterious for a reason.....

Chu Mu finally understood why Teng Lang wanted everyone to be mentally prepared. Speaking of which, Chao Lengchuan truly caused everyone to be shocked as he didn’t seem like an expert.

In reality, if someone were absorbed in training since a child and lived a life of exclusion, it was natural they acted like this.

Presumably, after prince Chao became extremely powerful, soul palace had a headache over how little experience the young prince had. No wonder diagram supreme Ke Yin told Chu Mu to take care of the prince. Initially, Chu Mu thought it was a polite way of telling them to work together. Now, he knew it was exactly what it sounded like.

“I’ve never been into the demon realm either, so everyone should bring everything they need in emergencies. As for how dangerous it is, no one needs me to repeat it, right? Since dominator rank forgiven fox lightning monarch protects it, it is truly a forbidden realm for humans.” Mu Qingyi said very seriously.

Mu Qingyi could tell that the three palace intentionally wanted her to bring younger generation members to give them opportunities. Since three palace helped her out greatly, Mu Qingyi wouldn’t push it off. Let alone, she did feel safer with six people going in together.

Some details Mu Qingyi continued to mention. After others added their thoughts, everyone left to prepare to leave the next morning.

.....

Going back to his room, Chu Mu started meditating again.

Stepping into eighth remembrance, his soul remembrance wasn't steady yet and needed some strengthening.

Around midnight, the meditating Chu Mu suddenly felt his window open.

Through his senses, he found a small shadow crawl in and quietly close the door before darting onto Chu Mu's bed, curling up by Chu Mu.

Chu Mu opened his eyes, and looked at the little girl who came to hide beside him like a frightened kitten.....

"Nightmares again?" Chu Mu sat there and looked at the already tightly wrapped up Ning Maner and asked quietly.

"No." The little girl said defiantly.

"Then why aren't you sleeping in your room?" Chu Mu asked.

"Sleeping by myself is cold." Ning Maner muttered from the blankets.

Chu Mu laughed helplessly, “You have to overcome this, I’m leaving tomorrow for probably a very long time.”

“Then no one will restrict me anymore.” Ning Maner’s voice started growing quieter.

Chu Mu knew the little girl was simply being stubborn.

“You must know that I can’t be by your side at all times. Once we split up, you may go to an unfamiliar place without me, without your sister Ye.....” Chu Mu said slowly.

As he spoke, Chu Mu started hearing sniffing in the blankets and heard her mutter, “Bad brother, stop speaking.....”

Chu Mu sighed and didn’t continue after hearing her cry and only said, “One day, you will learn.”

After a while, Ning Maner finally puffed her tear stricken face out and said quietly, “Brother, I will learn.”

Chu Mu smiled and rubbed her cheek off.

Chu Mu didn’t know what the young girl suffered on the other side of Dark Sky Ocean, but Chu Mu could tell that her skinny shoulders seemed to be weighed down by something that couldn’t be completed by someone her age.....

Chapter 969: Cloud Gate Guard

Rippling water washed in between the eroded rocks, giving them a soft shine.

A mischievous boy was happily playing in the water. But he was having too much fun and after tumbling in the water, he wasn't able to get back up after struggling a few times.

The middle aged man next to him loudly laughed, intentionally allowing him to struggle a bit before extending his hand to fish out the boy.

The boy was clearly annoyed and swatted around with effort, splashing water onto the middle aged man, drenching him, and making him find a mental balance.

The middle aged man didn't care. He just stood there and smiled.

Next to the creek was a man with lonely eyes. He aimlessly walked past the father and son playing in the water. However, upon seeing the father and son, he came to a slight stop and narrowed his eyes.

This middle aged father felt someone on the shore. He turned around, and when he saw the person there, his face instantly paled. He hastily went to protect his child.

The boy didn't know what had happened, but he could feel his father tremble and his eyes fill with fear from the person on the shore.

This continued for a while before the person on the shore looked away. He lowered his head and continued walking forward, looking at his feet.

“Father, who is that person? Why are you so scared of him?” asked the boy, confused.

“He is a very terrifying person.” said the middle aged father in a low voice.

“He’s walking towards the clouds.” said the boy as he pointed at the strange clouds on the horizon.

The clouds on the horizon were very weirdly shaped, resembling a cloud gate on an icy and snowy land.

The father and son were located at the mountain of an icy and snowy melted mountain. When they raised their heads, they would be able to see an enormous mountain that covered their field of view and towered into the sky. The feeling it gave resembled an untraversable heavenly mountain!

This heavenly mountain was covered in ice and snow, making it seem like a curtain from the sky. In this Glacier Heavenly Mountain, the sole floating cloud gate was like a pathway to another world. Indeed, one could see past the heavenly mountain and see the blue sky past the clouds.

The cloud gate wasn’t a spatial passage. It was merely the only gap in the enormous heavenly mountain. Clouds were wrapped around this gap, making it look like a gate. Unless one’s strength reached such a high realm, it was impossible to pass through the icy heaven mountain. The only way through would be through the cloud gate.

However, those that lived at the icy heaven mountain all knew that the cloud gate was a boundary. Those without the permission of the territory master would not be permitted to cross.

.....

The icicles were like stalactites in a rocky cave. Each one of them hung from the jagged icy rocks.

The mountain was completely an icy color. There was no wind whistling in the air; instead, the Glacier Heavenly Mountain was abnormally silent. It was like a perfectly still painting.

Inside the painting, shallow footprints were breaking the ice as someone slowly walked towards the cloud gates.

Cloud aura was formed by evaporated icy snow on the icy gates. This was the only place that didn't freeze together, forming an icy wall that hadn't melted in a thousand years.

The cloud gate was very high up. Compared to the cloud gate, the man and his soul pet were like black specks as they walked up.

The man wasn't riding on his soul pet; instead, he walked. He walked along the path with enormous icicles hanging on either side. Here, the only way sunlight made it through was reflection off the ice; thus, it was a bit dark.

In the darkness, a semi-old man wearing gruff clothing was sitting down. His eyes were full of solitude and age.

He felt the black clothed man walk over. A ripple of light appeared in his eyes which resembled dead water.

“I remember you.” said the semi-old man.

“It was about 34 years ago. You were like a young and wild runaway panther. You didn’t even say hi as you walked past me. Then, a few years later, you confidently came back again. Back then, I felt that you shouldn’t have come back so soon.

“About 10 years ago, you were like a beaten and battered old horse; you didn’t say anything again as you walked past me. Then, your eyes were filled with hate, sorrow and despair. However, your bones still burned with a conviction to grow stronger...”

“Ten years have passed in the blink of an eye. You’re like a cold and terrifying old tiger that hides yourself in your emotionless eyes and frozen heart...”

The semi-old man’s words stunned the black clothed man.

34 years ago, 10 years ago, and now...

Had it really been that long? Why did those events of 34 years ago and 10 years ago seem like they happened just yesterday.

The black clothed man looked at the semi-old man who had spoken to him for the first time. A while later, he spoke in an icy voice: “Why are you always here?”

“If you don’t know why I am always here, it means you aren’t prepared to come back...” said the semi-old man.

“Really? But I have a reason I must return.” said the black clothed man.

“I already gave you two chances. Something shouldn’t be attempted more than three times. Unless you obtain permission from the territory lord, I cannot allow you to pass through the area I defend.

At this point, the semi-old man stood up. His originally crooked posture instantly looked tall like a glacier. He was so tall that he was capable of covering the entire enormous cloud gate!

The black clothed man creased his brows. The black colored Warbeast Mo Ye next to him let out a savage roar!!

The roar shook the glacier, causing cracks to appear!!

TL: Glacier = Glacier Heavenly Mountain in this context

The majesty it exuded was like the striking of ten thousand thunderbolts. Such a savage creature was probably capable of destroying a mountain range!!

However, even in front of this powerful beast, the semi-old man didn’t summon soul pets. Instead, his imposing eyes stared at the Warbeast Mo Ye. His own powerful majesty transformed into an enormous icy mountain that heavily pressured the Warbeast Mo Ye and the black clothed man!

The Warbeast Mo Ye was forced back a few steps by the majesty and the black clothed man showed an expression of shock, as he stared intently at the semi-old man!

“You are but a typical soul pet trainer among the countless number of you. You desire unattainable strength, and your minds are filled with unrealizable pursuits. I already gave you two opportunities to become a true expert. Yet, you didn’t value those opportunities. I’m very disappointed.” said the semi-old man.

“You don’t need to worry about my matters!” the black clothed man’s face tightened.

“I have no time to waste on an average and feckless person. I will act according to the rules. Without a permit, don’t think about crossing this place; that is, unless you can defeat me.” the semi-old man’s words turned imposing.

Chapter 970: The Person From the Other Side of the Dark Sky Ocean

In the icy sky and snowy ground, a boundless white covered the field of sight. All that could be seen was endless falling snow.

In this world of pure white, six figures passed through the snowy ground towards the northeastern lands.

The hazy snow in the sky slowly dissipated, replaced by clear blue sky that slightly enthralled these people.

The white glaciers were protruding from the ground, towering and majestic. As they passed through these glaciers, these people couldn’t help but marvel at this natural beauty.

As they continued on their trek, the ground in front of them turned into a flat icy land. There was nothing obstructing their view in front of them; the only thing there was the beautiful sky.

When he saw this scene, Chu Mu felt a feeling of discomfort, and subconsciously looked at Mu Qingyi who was riding on her White Tiger next to him.

Mu Qingyi was looking ahead, but her eyes contained traces of a beautiful smile.” Don’t worry, it’s not much further.”

“That’s good. I wanted to ask about the glaciers we passed through on the eastern side. They seem to be endless. Do you know where they lead to?” asked Chu Mu.

“That place is a sparsely populated glacier world. The number of soul pets inhabiting that place are also few. If you continue along the glaciers eastward, there are a million icy mountains. I’ve never been there before, but supposedly at the very end is the Glacier Heavenly Mountain, an enormous mountain that genuinely touches the sky. The environment is strange there. It’s an extreme icy land; if you wish to traverse it, you must walk up to the very top where the cold is capable of freezing even fire type dominators into ice sculptures. Therefore, no one has actually crossed it.” said Mu Qingyi.

“A heavenly mountain that cannot be crossed?” Chu Mu was stunned.

Glacier Heavenly Mountain? Why did Chu Mu feel like he had heard it before? Did Old Li tell him about it, or had he read it in a book?

“How far away is that heavenly mountain from us?” asked Chu Mu.

“Very, very far away. The distance is about half the territory of Wanxiang Realm away.” said Mu Qingyi.

“Do you know if that place is Glacier Heavenly Mountain?” Chu Mu suddenly pointed at the horizon.

Mu Qingyi followed Chu Mu’s finger. Her eyes were incapable of seeing that far so she promptly used soul remembrance.

Her soul remembrance passed through countless layers of clouds and light. Finally, she was able to see innumerable bolts of lightning dancing about in the sky that was spotless and far away!

In this glacier world, the visibility was very high. Without any obstacles, a ninth remembrance spirit emperor’s soul remembrance could see several tens of thousands of kilometers away.

Of course, Mu Qingyi knew that outside of these several tens of thousands of kilometers, it didn’t matter how big the object was or how powerful the energy was, it would be as small as a speck of dust; she wouldn’t be able to see it!

However, she could presently see dense bolts of lightning. From how far away it was, that place was probably the legendary heavenly mountain peak that was nearly impossible to cross!!

How strong did the energy there have to be to allow someone over several tens of thousands of kilometers away to see it? At least in her knowledge, there was no soul pet that could do that!

“What did you see?” Mu Qingyi returned to her senses and spoke in astonishment.

“Some abnormal lightning,” responded Chu Mu.

Chu Mu really wanted to know right now hypothetically if that lightning were to strike the ground in front of him, how shocking of a scene would it create!

“Fog has arisen...” Chu Mu continued.

Mu Qingyi used her soul remembrance again to look, but indeed, this time she couldn't see anything.

Even with soul remembrance, a soul pet trainer would not be able to see that far because of fog, space and other obstructions. However, when the sky was perfectly clear just now, Chu Mu was able to see a few silhouettes fleet through the sky above the distant heavenly mountain. At the same time, he was able to see extremely dense lightning flash above the heavenly mountain.

Unfortunately, he couldn't see it anymore.

Chu Mu had no idea what was happening, but he suddenly remembered a concept Old Li had told him about that concerned the soul pet world. It seemed that in this world, there were still a lot of forbidden regions that humans had yet to discover. Inside them were hidden numerous powerful creatures, still unknown to humanity as they had never appeared in front of humans.

“Let's go. We'll head next to the northeastern world. If we have another opportunity, we can continue looking.” said Mu Qingyi.

Mu Qingyi had reached the dominator rank and knew a bit about the unknown. As someone who wholeheartedly pursued the soul pet path, she probably was filled with curiosity and longing at the world outside forbidden regions.

As they continued north, the glaciers began to slowly melt.

Normally, glaciers would only appear at very high altitudes. Chu Mu and the other five had probably only passed through a small patch of icy land in this glacier world. Now they had returned to a lower altitude ground.

The climate became warmer and due to the melting glaciers, the atmosphere in this path heading north was rather clean and fresh.

The glaciers heading north were part of a forbidden region and humans could not live here. The frequency that soul pets appeared, however, continued to increase along with their ranks.

This group of six was rather strong; the outskirts of the forbidden region didn't pose much of a threat to them and they were able to easily fly through.

Among the six of them, Mu Qingyi had an Immortal Ming Bird that carried Chu Mu, who even at this rank still didn't have a wing type soul pet.

The Crown Prince Chao Lengchuan also had an Immortal Ming Bird as his wing type soul pet. His Immortal Ming Bird was slightly weaker than Mu Qingyi's, and he was carrying Pang Yue who would frequently flirt.

Teng Lang was also another rare person who still didn't have a wing type soul pet at this rang. Thus, he could only sullenly ride Shen Mo's Sinking Wind Dragon.

"Everyone else is in a couple. It's only us men who have to ride together. Yet, we're also going to train so why is the difference so great." muttered Teng Lang.

Shen Mo shook his head. This Teng Lang was too good at classifying people as couples. First ignoring the circumstances Mu Qingyi was in, it was hard to say whether she would give her heart to anyone. Rather, it was Pang Yue who seemed gentle and quiet, yet who inside was not actually gentle and quiet. How could she start fancying the egghead Chao Lengchuan after only seeing him a few times?

"There's probably another two months to go." estimated Mu Qingyi.

"We've already been traveling for three months. When we return, it'll be close to half a year..." Chu Mu himself never realized the trek would be so long. The one year away made him truly worried for Ye Qingzi and Ning Maner.

However, going out to train was also fine. If he stayed inside the city, his soul pets wouldn't be able to train at all and wouldn't be beneficial towards his strength increasing. If the nirvana rebirth succeeded this time, he would have an additional Dead Dream as a support and he wouldn't need to be afraid of the Four Heroes.

Moreover, Chu Mu could feel Zhan Ye's mental fluctuations. Although he wasn't sure where it was, he believed that it wouldn't be long before he saw Zhan Ye again after a few years away from him.

.....

Wanxiang City, Main Soul Palace.

Three months to Ye Qingzi couldn't be considered too long, especially because she was immersed in concoction and refinement. Time flew by quickly.

Yet, when she wore a smile and walked into the room as she was about to share her happy thoughts with Chu Mu, she couldn't help but bitterly smile and laugh at herself: "How could I forget he went to the demon realm."

Since she couldn't find Chu Mu, she naturally went to look for Ning Maner. It was rare that this girl hadn't disturbed her once in three months, which made her feel shocked and a bit confused.

"Nie~~~~"

Ye Qingzi had just walked into the courtyard when she discovered a White Nightmare float over to her.

All of the White Nightmares looked the same, so Ye Qingzi could only use the devil flame colors to tell them apart. This was probably Fourth White.

"What's the matter? Where's your young lady?"

"Nie~~ Nie~~~~" the White Nightmare cried out as it gesticulated. Ye Qingzi didn't understand what it was saying.

“Whatever. Just take me to find her.” said Ye Qingzi.

Fourth White knew that its communication ability was limited, so it led Ye Qingzi on the way.

Following behind Fourth White, Ye Qingzi discovered that Fourth White was taking her to the main conference hall of Soul Palace. The main conference hall was used to receive important figures. When Ye Qingzi entered the conference hall, she shocking discovered that all of the three great palace’s experts were present.

Even more surprising was that instead of the Diagram Supreme sitting at the head of the conference hall was instead an incomparably breathtaking woman. Her natural grace and cold pride couldn’t help but make Ye Qingzi quietly exclaim in surprise. When did the three great palaces have such an outstanding female soul pet trainer? Moreover, it could be seen from practically all of the higher ups of the three great palaces that they treated her as a supreme.

Aside from her, there were a few people in guest seats. It was unknown which faction they came from. There were three men and one woman. Of the three men, there were two middle aged men and one young woman. Ye Qingzi was shocked that the young man’s soul remembrance was very high; he seemed to be extremely strong.

As for the female visitor, she wore a long skirt that was similar to most ceremonial attire. However, Ye Qingzi found that she was unable to see through her soul remembrance!

“These four people are all very strong!” Ye Qingzi could sniff seemingly courteous, yet extremely dangerous, smell from them!

“Big Sister Ye, you’ve finally arrived.” as Ye Qingzi was quietly observing the conference hall, a crisp voice rang out. Immediately after, Ning Maner, who was growing more and more like a beauty, ran over.

Ning Maner’s face was red, and her beautiful eyes were full of tears. It looked like she had been wronged.

“Soul Teacher Ye has arrived. You’ve come at the perfect time. We have no idea how to handle this situation.” said Diagram Supreme Ke Yin. He had someone give a seat to Ye Qingzi.

Ye Qingzi’s present strength had the qualifications to contend with senior elders. Adding on the fact she would often gift a few spirit items neither Chu Mu nor her could use to Soul Palace for free, her contributions towards Soul Palace were large. Diagram Supreme Ke Yin was naturally very polite to her.

Ye Qingzi sat down in confusion. What did this matter the three great palaces were discussing have to do with her? Moreover, did she have to make a decision?

“You are the protector of the young fairy in Wanxiang Realm?” at this moment, cold and arrogant middle aged man spoke out. He introduced himself: “I am from the other side of the Dark Sky Ocean World. My name is Ning Dong. I have been tasked with safely sending the young fairy back.”

After introducing himself, the middle aged man introduced the middle aged man next to him: “This is Ning Fengying.”

He then pointed at the young man who was casting wanton gazes: “This is Ning Changqing.”

After the introductions, Ye Qingzi noticed that the middle aged man hadn't introduced the woman wearing the skirt whose eyes carried a bit of confusion. It seemed that it wasn't that this woman wasn't important, but rather that she was the true leader here.

"Maner, what's the matter?" Ye Qingzi didn't understand the situation so she glanced at Ning Maner.

What was the Dark Sky Ocean World and who was the young fairy? Ye Qingzi had no idea. She only knew that Third White had picked up Ning Maner one day and brought her to Chu Mu.

"They want to bring me away." said Ning Maner.

"Do you recognize them?" asked Ye Qingzi.

Ning Maner shook her head and said: "They should be people sent by my grandfather. But I don't want to return. I've grown up with Grandfather World Ancestor Tree since I was young, but rarely with that grandfather. Moreover, I don't like it with them."

Ye Qingzi listened to Ning Maner, and roughly understood that Ning Maner had probably lost her family at a very young age. Now, her family had found her here.

"You really don't want to return?" asked Ye Qingzi.

"Yes." Ning Maner nodded her head. But in a soft voice she said: "But they're very strong. If I don't listen to them, they will definitely forcibly take me away."

Ye Qingzi roughly understood the situation. She looked at the man called Ning Dong and said; “I am not her guardian. Her guardian is my husband and he’s training right now. Wait until he returns to discuss whether to take away Ning Maner or not.:

“How long will that take? We don’t want to stay here for too long.” immediately inquired the young man Ning Changqing. Ye Qingzi, who was good at weighing up words, quickly realized that this fellow’s expression changed the moment he heard her speak. His tone was somewhat contemptuous, angry, and jealous.

“At least over half a year.” responded Ye Qingzi.

“Over half a year?” Ning Dong’s brows immediately creased. He felt that Ye Qingzi was intentionally delaying for time and harrumphed: “We’ll just politely notify that guardian. We aren’t asking for his permission. We’re going to take her back in a few days regardless.”

Ning Dong’s words made Ye Qingzi uncomfortable in her heart. These fellows had come to Soul Palace’s territory, yet were so unyielding. Even if they were strong, did they really think they could deal with all of Soul Palace’s experts?

“Since you’ve come a long way, why not stay a few days in our Soul Palace. Even if you’re in a rush, there’s no need to be anxious over these next few days.” at this moment, the woman in Diagram Supreme Ke Yin’s seat spoke up.

Her words were indifferent and cold. They seemed courteous, but they didn’t leave room for opposition.

Ning Dong creased her brows. He didn't want to waste time here. He was about to say something when the long skirt woman next to him faintly smiled and said: "Since that's the case, we'll thank you for your hospitality."

Ning Dong was stunned, and glanced at the long skirt woman. He didn't understand why she was willing to stay in this meaningless place for a few days.
