Chapter 4130: Both Master and Disciple Have Heaven-Defying Luck

“I heard that his comprehension of the Sword Dao is rather impressive as well. Does it also have something to do with the legacy of a supreme powerhouse?” the young man asked again.

“It’s unlikely,” Lu Tian Feng said as he shook his head, “His Sword Dao originated from his master. His master is Feng Qing Yang, the Heavenly Emperor of the Solitary Destructive Heaven, which is a Devata Realm.”

Lu Tian Feng continued to say, “Feng Qing Yang is a genius in the lower realms. He comprehended the Sword Dao on his own. When he was in the mundane realm, he had already comprehended the rudimentary form of the Sword Dao. With that, he was an undefeated champion of tens of thousands of battles. Later, after ascending to a Devata Realm, he carved out a path for himself with his sword and his Sword Dao.”

Lu Tian Feng’s eyes flashed as he said again, “However, based on the information I received from my men, Feng Qing Yang might have obtained a legacy from a supreme powerhouse during his time in the Asura Hell, one of the seven deadliest places in the Devata Realms.”

When Lu Tian Feng said the words ‘Asura Hall’, the expression of the young man and the other people on board the flying ship changed immediately. Although they were not natives of the Devata Realms, they knew about the seven deadliest places. It was a common thing for them to use the seven deadliest places as their training grounds. However, among the seven deadliest places, there were three places that they did not dare to venture into. After all, it was rumored that even Supreme Gods would not have an easy time in those three places.

According to the rumors, most of the natives of those three places were not humans, and they had many Supreme Gods. It was said that those who trespassed into those places would be killed as soon as they were discovered. As such, those three places were considered forbidden grounds even for natives of the Realms of Gods.

And, the Asura Hell was precisely one of those three places.

At this moment, the middle-aged man, who had remained silent all this time, finally could not help but ask, “Vice Leader Lu, what was that Feng Qing Yang’s cultivation base after he left the Asura Hell?”

Among the five people on board the flying ship, two of them were the Holy Sons. As for the other three, one was a rudimentary Supreme God and the other two were intermediate Supreme Gods. The other old man was a rudimentary Supreme God while Lu Tian Feng and the middle-aged man were intermediate Supreme Gods. The middle-aged man was also one of the Four Guardians of the Lone Primordial Spirit Congregation while the other old man was among the top three strongest rudimentary Supreme God in the Lone Primordial Spirit Congregation. The trio had been tasked to escort the two Holy Sons of the Lone Primordial Spirit Congregation to the Myriad Laws Academy.

Lu Tian Feng looked at the middle-aged man and smiled. However, when he smiled, he looked even worse than if he were crying. A hint of wariness could be seen in the depths of his eyes as he said, “Guardian Leng, based on the information my men sent me, he was a god when he left the Asura Hell. It should be noted that he had yet to attain godhood before he entered the Asura Hell.”

The others could not hide their shock when they heard Lu Tian Feng's words. After all, it was an unbelievable feat that Feng Qing Yang entered the Asura Hell when he had yet to attain godhood. Most shockingly, he managed to survive and leave the Asura Hell. The Asura Hell was a place where even the safety of Supreme Gods was not guaranteed. How could they not feel shocked that someone who had yet to attain godhood managed to survive? What kind of heaven-defying good luck did Feng Qing Yang possess?

"That's why I suspect he came across a legacy of a supreme powerhouse," Lu Tian Feng said, "After all, even the legacy of an advanced Supreme God wouldn't be able to help him survive in that place. Only the legacy of a supreme powerhouse could do such a thing. It's not just that. His cultivation base rose sharply after his time in the Asura Hell. His cultivation speed became much faster than before."

Upon hearing this, the middle-aged man speculated out loud, "Perhaps, he was the one who gave Duan Ling Tian the Supreme Powerhouse Divinity. Could it be that they shared the legacy of the supreme powerhouse?"

"Impossible," Lu Tian Feng shook his head and said, "I'm certain Duan Ling Tian obtained the Supreme Powerhouse Divinity before Feng Qing Yang went to the Asura Hell. Duan Ling Tian's comprehension speed was already abnormally fast before Feng Qing Yang left. As such, both of them likely found a legacy each."

The other four people looked at each other, speechless.

The master and disciple came across a legacy of a supreme powerhouse each? Was this a joke? Legacies of supreme powerhouses were rare. Only those with heaven-defying luck would come across them. What were the chances that both master and disciple came across a legacy of a supreme powerhouse each? Were the duo the sons of heaven?

"Vice Leader Lu, don't you think chances of both master and disciple coming across a legacy of a supreme powerhouse each is very, very low?" the middle-aged man asked.

Lu Tian Feng smiled bitterly. "Guardian Leng, perhaps, if it were before, I'd have a difficult time believing it as well. However, after learning so much, I'm rather certain of my conjecture." After a beat, he added, "Even if Duan Ling Tian did not obtain the legacy of a supreme powerhouse, at the very least, I'm sure he obtained a Supreme Powerhouse Divinity. Otherwise, it doesn't make sense that his comprehension of the law of space is so fast."

Lu Tian Feng was certain Duan Ling Tian's profound comprehension of the law of space and his comprehension speed were due to the Supreme Powerhouse Divinity. He could not think of anything else that could allow someone who was not even 1,000 years to comprehend the law of space to this degree. Let alone outstanding prodigies from prime supreme-rank forces, even direct disciples of supreme powerhouses did not have Duan Ling Tian's comprehension speed or the level of his comprehension.

The middle-aged man nodded. "That makes sense. Nonetheless, even if he didn't obtain the legacy of a supreme powerhouse, he's still incredibly lucky to have obtained the Supreme Powerhouse Divinity. Duan Ling Tian's luck is too heaven-defying!"

Lu Tian Feng nodded in agreement. Even if he could not wait to kill Duan Ling Tian, he had to admit that Duan Ling Tian was abnormally lucky. With Duan Ling Tian's luck and talent, Duan

Ling Tian would definitely soar to untold heights. This was the reason he was adamant about killing Duan Ling Tian.

The men Lu Tian Feng sent to the lower realms had told him that Duan Ling Tian placed great importance on not implicating his family and friends in the lower realms. In fact, Duan Ling Tian was likely to be angrier if his family and friends were hurt as compared to if he got hurt.

Although Lu Tian Feng and the Lone Primordial Spirit Congregation could deny their involvement in the matter, it would not be difficult for Duan Ling Tian to trace the matter back to them even if there was no concrete evidence.

Once Duan Ling Tian was strong enough, he would definitely settle accounts with the Lone Primordial Spirit Congregation. Perhaps, Duan Ling Tian would not be able to annihilate or destroy the foundation of the Lone Primordial Spirit Congregation, but it would not be hard for Duan Ling Tian to kill Lu Tian Feng. Put everything else aside, if Duan Ling Tian possessed enough strength, there was no doubt the Lone Primordial Spirit Congregation would take the initiative to hand him over to Duan Ling Tian to appease Duan Ling Tian.

As such, among everyone in the Lone Primordial Spirit Congregation, there was no one who wanted Duan Ling Tian to die more than Lu Tian Feng.

At this time, the eyes of the blue-clad young man, who first asked about Duan Ling Tian, shone with greed as he said, "If we can bet with a rare treasure, the life-or-death battle will become even more interesting..."

Upon hearing this, the other Holy Son, who had remained silent until now, said with a scoff, "If you want him to bet with you, you'll have to put up something of equal value at least. Otherwise, what reason is there for him to bet with you?"

This Holy Son was an intermediate Emperor of Gods while the blue-clad young man was still a rudimentary Emperor of Gods. In fact, the blue-clad young man could already become an intermediate Emperor of Gods, but he was told by the Leader of the Lone Primordial Spirit Congregation to suppress his cultivation base.

"You're right... I don't have anything of equal value with a Supreme Powerhouse Divinity..."

Upon hearing this, the middle-aged man smiled and said, "If Duan Ling Tian accepts your challenge to a life-or-death battle and you manage to convince him to bet with you, it doesn't matter if you don't have anything of equal value to use as stakes. The congregation definitely will help you."

"Although the Supreme Powerhouse Divinity is rare and precious, there are many other things that can also move Duan Ling Tian. It won't be difficult for you to get him to bet with you since he'll have to be assured of his victory to accept your challenge. Perhaps, he'll only realize how stupid he has been when you break through during the battle."

The blue-clad young man's eyes lit up upon hearing the middle-aged man's words.

The middle-aged man continued to say, "Don't be happy just yet. Even if you win and obtain the Supreme Powerhouse Divinity, the Supreme Powerhouse Divinity will belong to the congregation, not you. However, you'll naturally be given priority to use the Supreme Powerhouse Divinity."

The blue-clad young man said with a smile, “I understand, Guardian Leng. It doesn’t matter as long as I’m given priority.”

A Supreme Powerhouse Divinity was useful even to Supreme Gods. Although the Lone Primordial Spirit Congregation’s advanced Supreme Gods did not comprehend the law of space, there were quite a few intermediate Supreme Gods in the congregation who comprehended the law of space. One could imagine how high the demand for the Supreme Powerhouse Divinity would be in the congregation. As such, if the blue-clad young man were not given priority for his contributions, who knew how long it would take before he could use the Supreme Powerhouse Divinity?

Meanwhile, Lu Tian Feng frowned when he heard this exchange. He said, “It’s better not to complicate things. He might not even admit to possessing a Supreme Powerhouse Divinity. If he accepts your challenge to fight a life-or-death battle, it means he’s certain about his survival. Why would he reveal that he possesses the Supreme Powerhouse Divinity since it’ll only bring him trouble? You should know how many people covet a Supreme Powerhouse Divinity. In my opinion, there’s almost no chance of Duan Ling Tian admitting that he has the Supreme Powerhouse Divinity.”
