

Spatial Ability 1241

Chapter 1241: Nothing More Than a Fleeting Novelty

When they regained their senses, Qian Jiyun and An Jiuyue were nowhere to be seen. It was unclear how long they had been gone.

“Where are they? Where are they?”

After the fire was extinguished, the young lady stood up and stomped her feet in embarrassment.

“Damn it! They escaped! I won’t let them off! I must kill them! Kill them!”

“Sui Sui, you...”

The young master opened his mouth to say something, but the guard beside him tugged at him.

The gesture shut him up. He glanced at the guard and saw him shake his head at him, so he sighed without saying anything else.

What could he say? That all of them combined were no match for her? Sui Sui would not believe him. She would only think that he was deliberately going against her.

He also could not say that it was Sui Sui’s guard who had done something wrong in the first place. Why would they insist on being friends and traveling together when Qian Jiyun and An Jiuyue clearly did not want to talk?

“I want to befriend them because I think highly of them. How can they show me an attitude like that? I’m so angry. I won’t let them off. I won’t. I want them dead.”

The young lady was still thinking about wanting Qian Jiyun and An Jiuyue dead.

She even imagined torturing them ruthlessly, making them lie on their stomachs like dogs, and apologizing to her!

“Ha!” He chuckled softly and shook his head.

How could an arrogant young lady like her care about other people’s feelings? She probably believed that everyone should give in to her if she wanted to do something, right?

She would never consider what others thought.

And what about this so-called befriending? It was nothing more than a fleeting novelty. She thought the meat they roasted was fragrant and wanted a taste.

Or perhaps she was tired of eating the food she had and wanted to take them in as servants when she saw that they knew how to cook and roast meat.

Despite her intentions, she still said she wanted to befriend them.

“Young Master, stop laughing,” his guard quickly reminded him when he saw him laugh.

That young lady was capable of anything. If she noticed him smiling, his family would probably be in for a tough time.

However, the young lady was in no mood to care about the young master. She was furious and scolded her guards.

She pointed at the guards and shouted, “You bunch of trash can’t even handle a small fire! Keeping trash like you is useless! When we get back, I’ll have my father punish you all!”

She still needed these people to protect her for now, so she would not do anything to them. She would endure it first.

The guards listened to her criticisms, too afraid to say anything.

Anything they said would only fuel her hatred. They would simply pretend to be mute.

However, they felt a little helpless. Why were they so unlucky to be assigned to protect this young lady? Any dangerous task would be better than protecting her.

However, there was no other choice. They could only take things one step at a

time..

Chapter 1242: If We Meet Them Again

They wondered what else would happen on their way to Scorching Rock Peak. They were very worried about having such a resentful master around.

“Young Lady, they just left. Why don’t we chase after them?” a guard reminded her.

He did not actually want the young lady to chase after them. It was just that they had to go to Scorching Rock Peak too, so they could not stay here for long.

The young lady was obviously very angry and did not even want to hurry on her way. If he did not say that, who knew how long they would have to stay here? How could they afford to waste time?

“Then what are you waiting for? Chase after them quickly.”

The idea of chasing the two of them down thrilled the young lady.

She had to capture them and beat them up until they cried and begged her to let them go. Only then could she release her hatred.

“Young Master, that person’s Original Soul energy is higher than ours,” the young master’s guard reminded him softly as he watched the young lady lead the large group forward.

“I know.”

Of course, he knew.

They were all Original Soul energy cultivators. They could tell if someone’s Original Soul energy was stronger than theirs once they attacked.

He was not like Sui Sui. They were clearly at a disadvantage, but she still felt superior, believing their big group could drown those two with their saliva.

“That man still showed mercy. Otherwise, the fire would’ve gotten all of us,” he said.

Upon hearing that, the guard nodded.

Had that man exerted more force, the fire would have intensified, and their clothes would have burned off. It would definitely be very embarrassing.

“Young Master, if we meet them again, please don’t get involved. Let’s just pretend we don’t know that young lady,” the guard reminded him again.

It was better to keep his young master away from someone who attracted trouble.

“We’ll see.” The young master sighed softly.

He wished he did not know Sui Sui, but given her temper, the consequences would be unimaginable if he really ignored her.

“Let’s follow them first. Don’t fall behind.”

As he spoke, he moved quickly while keeping his distance from Sui Sui and her group.

Meanwhile, the young lady cursed softly as she walked ahead. She had already thought of several ways to kill Qian Jiyun and An Jiuyue.

“Those people earlier don’t look ordinary.”

Qian Jiyun and An Jiuyue had already walked quite far ahead. Qian Jiyun wrapped his arm around An Jiuyue’s waist and led the way, saving her a lot of effort.

They eventually slowed down after a long walk and confirming that the people behind them would not catch up.

“Ordinary people would not do such a thing,” Qian Jiyun replied calmly.

An Jiuyue smiled.

It was true. That lady thoughtlessly provoked strangers in an unfamiliar place. She dared to be unruly because she had several guards with her!

An Jiuyue thought their cultivation levels did not seem very high. Where did their confidence come from? Why did they assume that everyone outside would give in to them?

“You don’t say. Perhaps it’s just their personalities. But I don’t think they’re from Zhanling Empire.. They look more like...”

Chapter 1243: Please Don't Get Upset if I Tell You

"They're from Yueming Empire," Qian Jiyun replied.

Qian Jiyun and An Jiuyue had come from Yueming Empire and had seen many people there. That group of people earlier were undoubtedly from Yueming Empire.

"That lady is not a relative of the royal family but a member of an aristocratic family," he added.

"Of course. She wouldn't have threatened that man if she didn't have some authority," An Jiuyue added.

They continued chatting about those people as they walked. She had a feeling they would run into each other again—and there might be trouble.

"I pity that young master. He has to suffer and put up with this arrogant and domineering woman."

"Whether others suffer or not is none of our concern."

Qian Jiyun was not bothered. They were just a few unrelated people. Besides, they were from Yueming Empire.

Ever since he met Ming Fucheng, he did not have a good impression of Yueming Empire. It would be best if Zhan Beiye could teach Yueming Empire a good lesson.

"That's true." An Jiuyue nodded with a smile.

What did other people's problems have to do with them?

They had already entered the Scorching Rock Peak. Her mission was to hunt demonic beasts and increase her strength.

“There will be more demonic beasts after passing this mountain range, right? Jiyun, don’t compete with me for demonic beasts! This is the best opportunity for me to improve.”

“Okay,” Qian Jiyun replied. “Jiuyue, be careful too—”

Before he could finish speaking, An Jiuyue raised her hand to stop him.

Inside the space, Wei Na had just seen a certain little guy and was smiling speechlessly. However, he had no choice but to speak to his master.

“Master, you have a new mission.”

“What mission?” An Jiuyue was puzzled. She did not remember having to complete any missions in the space.

Besides, when was there a mission feature? Why was she unaware of this until now?

“It’s that little guy who’s been asking you for things! He has a request again,” Wei Na explained.

What other missions could there be except for requests from that space separator?

“Oh, that’s it? What does it want this time?” An Jiuyue finally understood.

The little guy had not made any request since leveling up. She was not sure what it wanted this time, but whatever it wanted must be related to this plane.

“It wants Warrior Wolf Crystals. As far as I know, the Warrior Wolves live on the Scorching Rock Peak,” Wei Na said. “Warrior Wolves.”

An Jiuyue had heard the howls of wolves.

Since it wanted the Warrior Wolf Crystals, she would grant its request. She was already here, so she had to kill demonic beasts, let alone wolves.

“How many does it want?” she asked.

“Well, Master, please don’t get upset if I tell you.” Wei Na hesitated.

“What do you mean? It wants a lot?” An Jiuyue raised her eyebrows.

Whatever its request was, it wouldn’t be more than that time it asked for inner cores at Huayan Peak, would it? If not for the Auspicious Cloud Sea-Devouring Python’s inner cores, they might have gone bankrupt.

“How many does it want?” she asked again.

“Um... 700 Warrior Wolf Crystals,” Wei Na answered weakly.

“What? Say that again. How many does it want?” An Jiuyue was shocked.

700 Warrior Wolf Crystals? She would have to kill at least 700 Warrior Wolves, right? She had never seen a Warrior Wolf before.. Even if there were that many of them, she...

Chapter 1244: Does It Intend to Grow Up on Crystals?

She looked up at Qian Jiyun, who was standing quietly beside her. She wondered how long it would take if they killed the Warrior Wolves together.

“Um, well... Master, actually, 700 Warrior Wolf Crystals aren't a lot. The most common demonic beasts on Scorching Rock Peak are Warrior Wolves. Moreover, there are at least 2,000 Warrior Wolves in each pack,” Wei Na explained weakly.

An Jiuyue was shocked. That did not sound like a good thing.

“So you f*cking knew that Warrior Wolves are pack creatures? There's only

Qian Jiyun and I. Are you expecting us to face off against a pack of over 2,000 wolves alone?”

“Uh.” Wei Na was stunned.

An Jiuyue gritted her teeth and asked, ‘Wei Na, are you lying to me because you want a new master?’”

“No! Absolutely not.” Wei Na immediately denied it.

No matter how bold it was, it had no intention of changing masters.

Besides, could he change masters just because he wanted to? Did he have the ability to do that?

“Master, this isn't my request. It's that little guy's request. You can't blame me. You can only blame the man beside you. That thing belongs to Qian Jiyun, not me!”

He quickly pushed the blame away. This had nothing to do with him. He was just a messenger.

“Hmph! You better not have such thoughts.”

An Jiuyue snorted and stopped talking to Wei Na. She looked up at Qian Jiyun.

“What’s wrong, Jiuyue?” Qian Jiyun asked softly when he saw her looking at him.

Whenever An Jiuyue fell silent suddenly, he knew she would be communicating with Wei Na. Something must have happened just now. “What happened? Are you going into your space?”

“I don’t need to.”

An Jiuyue had nothing to complain about. Since she was raising that little thing willingly, she had to put up with its demands, right?

“But we have to kill more Warrior Wolves. Your little thing wants 700 Warrior Wolf Crystals,” she said.

“What did you say? 700?” Even Qian Jiyun was shocked by the number.

Was this a typical consumption? 700 crystals were nearly comparable to the number of inner cores it requested earlier. He could not help but ask, “Does it intend to grow up on crystals?”

“Pft!” An Jiuyue was amused by his words.

Grow up on crystals? That little guy ate many different things! He did not only need crystals.

“It doesn’t just eat crystals. It eats other things.”

“That’s true.” He sighed softly and said, “I’ll get the Warrior Wolf Crystals.” “That won’t do.” An Jiuyue shook her head immediately.

She was here to train. Why would Qian Jiyun kill the Warrior Wolves on his own? Then what was she here for?

“Let’s do it together. I heard from Wei Na that Warrior Wolves live in packs. We have to make preparations. Otherwise, it’ll be impossible for the two of us to kill so many of them.”

They had to think about using unorthodox methods. Otherwise, they might find themselves in the wolves' stomachs.

Of course, she was here to train. If she wanted to increase her cultivation level, she had to break through her limits. Battles and killings were necessary.

"Mhm," Qian Jiyun replied.

He had never seen a Warrior Wolf, but he had heard its howl..

Chapter 1245: What Should We Do? Kill Our Way Through?

Judging from the howls, the Warrior Wolves seemed not too big, similar to regular wild wolves. However, they possessed a certain level of intelligence and beastly strength.

The two of them made some simple preparations and decided to head in the direction of the Warrior Wolves' howls.

Night had just fallen, and it was time for the Warrior Wolves to come out and search for food. When Qian Jiyun and An Jiuyue discovered a pack of Warrior Wolves, they were fighting a huge demonic beast.

These wolves did not seem to have the upper hand, but they had cornered a demonic beast that was hundreds or thousands of times larger than them.

"They're really strong!" An Jiuyue whispered to Qian Jiyun.

She only said one sentence, but the Warrior Wolves closest to them heard it and stopped fighting to look their way.

“Mmph.” An Jiuyue covered her mouth and nose. Although she was not panicking, she was still shocked.

They were extremely sharp! She had already lowered her voice and was not sure if Qian Jiyun could hear her, but the Warrior Wolves, who were farther away, did.

“They sensed our aura,” Qian Jiyun said as he looked at the Warrior Wolves sternly.

Their voices might not necessarily expose them, but Warrior Wolves were sensitive to auras other than their own. Given their proximity to the Warrior Wolves, it was natural for the wolves to detect their auras.

“Then what should we do? Kill our way through?” An Jiuyue raised her eyebrows and asked Qian Jiyun.

It was impossible to leave now. The Warrior Wolves that had discovered them were already howling and summoning their companions. They were running towards them, clearly wanting to fight them.

“We were planning to kill our way through anyway. There aren’t many Warrior Wolves here,” Qian Jiyun said.

An Jiuyue looked up at the densely packed Warrior Wolves, feeling extremely speechless.

Was he sure there were not many Warrior Wolves here? If the wolves before them did not constitute many, then how numerous would they have to be to qualify as many? The preliminary estimate here was... “Master, there are about 500 Warrior Wolves here.”

Before she could estimate the number of Warrior Wolves, she heard Wei Na’s voice in the space.

An Jiuyue sighed softly.

“Then let’s fight. We have to kill them,” she said.

“Be careful. If there’s any danger, enter the space immediately,” Qian Jiyun reminded her before charging towards the Warrior Wolves.

In the blink of an eye, Qian Jiyun killed two Warrior Wolves with his long sword.

“That’s fast!” She gave Qian Jiyun a thumbs up and took out her weapon, ready to attack.

She could not use a whip against these Warrior Wolves; a sharp weapon was needed. Hence, she also wielded a spirit sword. However, when she was about to use her Original Soul energy, she realized...

“What happened?”

“I don’t know either.” Wei Na looked at his master innocently.

He did not know how she could use demonic energy in a plane where people cultivated Original Soul energy.

Using demonic energy here was unethical! Both humans and demonic beasts here were unfamiliar with demonic energy, so demonic energy would be far more lethal to them than Original Soul energy..

Chapter 1246: You’re the Most Idle One All Day Long

“Master, don’t worry about this now. We’re here to train and increase our demonic energy,” he reminded her.

“That’s true. We have to kill these guys first.” An Jiuyue suppressed her doubts and rushed towards the wolf pack.

Qian Jiyun killed a group of Warrior Wolves but did not notice anything unusual about An Jiuyue. When he was almost done, he looked at An Jiuyue to check if she was injured.

However, what he saw shocked him.

“Demonic energy?!”

Black-purple demonic energy, which was distinctly different from Original Soul energy, surrounded An Jiuyue.

Wasn't this a plane where people cultivated Original Soul energy? So why was An Jiuyue using demonic energy? An Jiuyue's demonic energy dealt significantly more damage to the Warrior Wolves than Original Soul energy did.

Did different techniques cause varying degrees of damage to demonic beasts?

He shook his head, suppressing his doubts. He continued to fight the Warrior Wolves until he had killed all of them. When the remaining Warrior Wolves realized there were only a few of them left, they howled at Qian Jiyun and An Jiuyue before turning and scattering.

An Jiuyue heaved a sigh of relief. She had no intention of chasing the wolves, and as her legs weakened, she nearly fell.

Fortunately, Qian Jiyun caught her in time and prevented her from falling to the ground.

“How long have we been fighting?” Her hand trembled as she looked up at Qian Jiyun.

But how would Qian Jiyun know how long it had been? He was also killing the Warrior Wolves, so he did not take note of the time. Instead, it was Wei Na who told her.

“Six hours have passed.”

“It's been six hours?” An Jiuyue shook her head and touched her stomach with her trembling hand.

“No wonder I’m a little hungry. So I’ve been fighting for so long. Jiyun, let’s sit down and eat something. I can’t take it anymore.”

“Okay.” Qian Jiyun naturally complied.

He had her fetch some water from her space and wiped her down briefly before handing her a beast leg that he had roasted earlier.

“Eat slowly. Drink some water. Don’t choke.”

“Okay.” An Jiuyue was really hungry. She nodded as she ate.

“Jiyun, you should eat too. I’m starving, so you must be hungry too, right? You don’t have to care about these Warrior Wolves. Just let Wei Na deal with them.”

She quickly stopped him when she saw that he was about to dig up Warrior Wolf crystals.

With Wei Na around, there was no need for them to dig for the crystals. They were here to train. Digging for demonic beast crystals was not included in this training, right?

Inside the space, Wei Na was speechless.

Was he destined to dig for crystals? When would his master task him with some normal missions?

But what was he supposed to say? That he refused to do it?

If he really refused, who knew how she would deal with him later? She might withhold food and make him lose his human form.

“Yes, yes, Master, you’re right. Leave the crystal digging to me. Master, tell your man that these are trivial matters; he doesn’t have to bother because he’s someone who handles important things.”

Wei Na had his complaints, but he still said good things.

“You’re the one who should be doing this in the first place. You’re the most idle one all day long,” An Jiuyue snapped..

Chapter 1247: It’s Best to Avoid Provoking Them

Wei Na was confused.

He did not understand how he was the most idle one. He merely slept for a bit and swung on the swing for a while.

Why did she make him sound like he had been freeloading and not working?

“Master! I’m not that free, okay?”

“Is that so?” An Jiuyue asked calmly.

However, she had no time to gossip with him now. She pulled Qian Jiyun to sit beside her. They drank water and ate roasted meat and some fruits. “I don’t know if you’re free or not, but right now, Jiyun and I are really not free.” “Alright, alright. I’m the most free.” Wei Na raised his hands in surrender.

After all, the two of them had been busy for six hours and finally had a bite now... and it was not even a warm meal.

“When you’re full, put all the corpses of the Warrior Wolves into your space. I’ll handle them.”

“Mhm.” An Jiuyue nodded.

She thought of something else and asked, “Wei Na, Warrior Wolf meat is edible, right?”

Wei Na was startled. Was she intending to make use of the Warrior Wolf meat?

However, on second thought, why not make use of this hard-to-use meat? If they processed the meat and sold it in the shop, it would make a considerable income, right?

“I understand, Master. I’ll get this done.”

“Mhm,” An Jiuyue replied and wiped the corners of her mouth after eating. She took out a set of clean clothes from her space and handed them to Qian Jiyun. “Change your clothes. There’s blood everywhere.”

When she was killing the Warrior Wolves, she had used her space to shield herself, so there was not a drop of blood on her body. Qian Jiyun, on the other hand, was covered in blood, and the smell of it was a bit much.

If they hadn’t had something to do on Scorching Rock Peak, she would have gotten a bathtub and let Qian Jiyun wash up.

“Okay.” Qian Jiyun took the clothes and got changed behind a tuft of grass.

Meanwhile, An Jiuyue walked back and forth, storing the corpses of the Warrior Wolves in her space. Just as they finished, the young lady chasing after them arrived.

“You! I’ve finally caught up with both of you. Guards! Catch them— Oh!”

She pointed a finger at Qian Jiyun, about to command her guards to capture the two. However, before she could finish speaking, the leader of her guards beside her covered her mouth with his hand swiftly.

Her eyes widened. She reached out to pry her hand away but could not.

“Young Lady, please stop talking. Don’t provoke them,” the guard leader reminded his master.

He could tell—and even smell it.

There was blood everywhere. Anyone could smell it. It was clear that those two had just been in a battle. Yet, they were clean and uninjured.

Their clothes might not have made it obvious, but their auras were sharp and fierce. It was clear that they had been in a battle.

They had turned their enemies into a vast sea of blood, yet they remained completely unscathed. How could that go unnoticed?

“They’re not easy opponents. It’s best to avoid provoking them.”

“Mmph, mmph!” The young lady did not believe the guard leader and glared at Qian Jiyun and An Jiuyue indignantly..

Chapter 1248: Spoiled by the Elders

She opened her mouth and bit the guard leader’s hand, causing him to quickly retract his hand.

“Gasp!”

He looked at his palm. It was already covered in blood, and a piece of flesh had nearly torn away. “Young Lady, you...’

Slap!

Before he could say anything, a loud slap landed on his face.

“You piece of trash! There are only two of them. What’s there to be afraid of? Didn’t you hear me when I said to capture them? I can make you all suffer when we get home!”

The guards turned to look at the leader.

They could sense that the two people in front of them were not simple. However, they were also afraid that their master would report them once they returned. What would their punishment be?

The guard leader felt his head hurt.

He had never served such a troublesome master. Not only did she not listen to his advice, but she also did not know how to weigh the pros and cons.

“Young Lady, let’s...”

Although he did not want to say anything now, he had to.

If they continued to oppose them, they might create too much trouble. They might not even be able to go home!

“Shut up!”

The young lady clearly did not intend to listen to the guard leader.

She was already angry, but these people, who were supposed to listen to her, were speaking up for two outsiders. It made her even more furious.

She pointed at the guard leader's nose and shouted, "Who gave you the money to feed your families? How dare you talk to me like that? Do you want to die? I told you to capture these two people who offended me. Didn't you hear me?" "Well...

The guard leader looked at Qian Jiyun and An Jiuyue awkwardly. He looked even more embarrassed when he saw them looking at him.

"Young Lady, it's not that we don't want to listen to you, but... we can't defeat them even if all of us join forces. We have to protect you too. If we fight them,

I'm afraid...

He moved closer to the young lady and lowered his voice.

"Young Lady, look at the blood on the ground. They must have killed some demonic beasts. We won't be able to gain an advantage if we really fight them."

"You—"

The young lady finally noticed the traces of blood around her. The stench was especially unpleasant.

She immediately raised her hand, covered her nose, and frowned.

She wondered if they really caused this bloodshed. But she did not see any demonic beasts here. Did that demonic beast escape?

Or did they not cause this in the first place and were only using it to scare her into retreat?

She could not guess what was going on, but she did not want to take the risk.

“Alright, I’ll spare you for now. Hmph, let’s go!” She glared at An Jiuyue and left quickly.

“I’m very sorry. She... has been spoiled by the elders in her family,” the young master, who had remained silent, whispered to Qian Jiyun as he walked past him.

He was a little embarrassed. He would never go out with a clueless fool like this again.. Never...

Chapter 1249: Everything Has to Be Done Slowly

He shook his head and followed quickly.

Nothing he said mattered, and he could not refute Sui Sui’s words. Her family had really spoiled her. No one else had such a temper.

“Ha!” An Jiuyue smiled as she watched them leave. “We meet weirdos everywhere, Jiyun, don’t we?”

“Let’s go and find a clean place to rest. We can look for the Warrior Wolves tomorrow morning.” Qian Jiyun took her hand, and they headed in another direction. He decided not to take the same path as those strange people.

“Have you rested?” An Jiuyue looked at him and asked. “I’m not sleepy now.

Why don’t we—”

“Rest.” Qian Jiyun did not give her a chance to finish her sentence.

Her hands were already trembling. Did she still want to continue walking? Even if she wanted to, he would not allow it.

'Well..

"Either you rest or I'll carry you. What's your choice?"

An Jiuyue, who was about to retort, shut up when she heard Qian Jiyun's words.

She looked down and noticed that her hands were trembling slightly. It was clear she had spent too much time killing Warrior Wolves. It could also be that she hadn't trained in a long time.

"If you weren't worried that I'd tire just from walking and would carry me everywhere, would I end up this weak?" she muttered to herself.

Qian Jiyun was speechless.

Was this his fault? He was just afraid she would be too tired. Was it wrong to be concerned about his wife?

However, it seemed like he was in the wrong. He should be concerned only when necessary, instead of protecting An Jiuyue all the time.

"It's my fault, but everything has to be done slowly. We have plenty of time to train here. We can use a day or two to rest," he said.

"Alright."

What else could An Jiuyue say? She merely nodded.

They found a quiet spot and sat down. They took out a tent and prepared to rest for the night.

Qian Jiyun did not need to keep watch at night because she exchanged her points for a paper effigy to watch over them. If she did not use her points now, how long would she have to wait?

With the paper effigy keeping watch at night, no demonic beast could get close to them.

Meanwhile, others were not as fortunate. The young lady had been holding in her anger as she could not gain anything from Qian Jiyun and An Jiuyue.

Hence, misfortune had fallen upon the guard leader, who had stopped her from venting her anger.

It was natural for the young lady to hit and scold the guards. Now that she was angry, she punished the guard leader with a whip, which he could only endure.

“It’s all your fault! You said they’re strong! How can they be strong?”

The more she thought about it, the angrier she became. She felt that her guard leader had fooled her. If those two were really that strong, why didn’t they say anything when she threatened them?

“Those two must have seen us chasing after them and walked there on purpose. Those bloodstains must have nothing to do with them. Someone else must have hunted demonic beasts there, and they made use of it to dodge the bullet!”

The more she yelled, the more she felt she was right.

Otherwise, why was there not a single demonic beast lying on the ground, despite the strong stench of blood?

Chapter 1250: How Much Did They Bribe You?

She was sure those two had to be bluffing. They were not that powerful. It was all their imagination.

She felt even more unsettled as she thought about it. She took out her beloved whip and was about to hit the guard leader.

“Master, are you done with your ruckus?” the guard leader could not stand his master anymore and shouted.

“If you think those two aren’t powerful and I’m the one who stopped you from taking revenge for yourself, you can beat me up to vent your anger. However, have you forgotten where we are? If the smell of blood on my body attracts any demonic beasts, that’s not my problem.”

Although he was a subordinate, he was still the leader of many guards, right?

Why was he nothing to her? Why was she allowed to hit and scold him while he could not retaliate?

Not even her brothers would hit and scold him whenever they felt like it or speak to him like this. Yet this person in front of him, who clearly amounted to nothing, behaved with an unwarranted sense of superiority and arrogance.

When the young lady heard his words, she paused.

She listened to the roars of the demonic beasts and looked at the nervous guards surrounding her. She took another deep breath.

While she might make a scene, she would not risk her life. Even if she vented her anger now, she must not end up sacrificing her life on Scorching Rock

“Good, good. I’ll let you off today.” She retracted her whip and sat on a rock with a soft cushion already prepared for her.

“Young Master, Miss Sui Sui knows what’s at stake today,” one of the guards beside the young master remarked when he saw that the young lady was no longer making a ruckus.

The young master looked at the young lady coldly and snorted internally, his eyes filled with disdain.

“Let’s wait and see. How long can she stay put?”

Not only was she unable to vent her anger, but her subordinate had also provoked her. Would she feel good about this?

Perhaps at this moment, she was already cursing the guard leader internally.

However, he had known Sui Sui for many years and understood her personality.

Cursing the guard leader internally would probably only add to her grievances. She would eventually end up hitting him, and she might even be more ruthless than before.

If she did not vent her pent-up anger, she could probably lift a layer of ground on Scorching Rock Peak.

“I don’t believe it! Are those two really that powerful? You’re the one who’s trying to deceive me, aren’t you? How much did they bribe you, you dog?”

As she spoke, she raised her leg and kicked the guard leader, who was about to bring her some water.

The guard leader was stunned.

She was fine just a moment ago.. Why did she suddenly attack him again? Was she deliberately trying to feed them to the demonic beasts on Scorching Rock
