

Spatial Ability 1271

Chapter 1271: Automatically Ignore

Yue Suiyu was convinced these people had gone insane. Not only did they not save her from Qian Jiyun and An Jiuyue, but they were also willing to eat An Jiuyue's poison!

Shouldn't guards risk their lives to protect their master? They obviously did not care about their master.

"Father sent you here to protect me. I order you to kill these two people! Do it now!" she shouted at them.

As long as these guards fought these two people in front of her, she would have an opportunity to escape.

The guard leader was speechless.

If he could kill them, would he still need to take the medicinal pill?

He knew the pill was bad for him just by looking at it. They were being forced to eat poison. Yue Suiyu should know this, right? Yet she still yelled at them to kill these two people?

She had gone insane!

He sighed softly and shook his head.

Forget it. Why would he bother explaining things to someone like this? They could not even protect themselves now, but they might be able to survive if they took this pill. If they refused, they might not live.

“Princess, you’re on your own.”

With that, he took a deep breath and distributed the remaining medicinal pills to the guards.

“You... You all... Uh.’

Yue Suiyu was so angry that she did not know what to say. Finally, Qian Jiyun Imocked her out.

This time, she fainted for real. She would not wake up for at least three days.

Qian Jiyun threw her onto the triceratops’ back and looked at An Jiuyue. “Jiuyue, instruct it.”

An Jiuyue was the one feeding the triceratops, so it only listened to her. It would automatically ignore anything he said, as if it did not hear him.

An Jiuyue walked up to the triceratops and asked, “Trike, do you remember the military camp with many people earlier?”

The triceratops could not speak, but it could nod. It understood her and

nodded.

“Send the person on your back to the military camp,” An Jiuyue instructed before looking at Qian Jiyun.

“Write a letter to Zhan Beiye to inform him you’re the sender. Let him consider what he should do with this person to maximize benefits.”

She took out a pen and paper and handed them to Qian Jiyun.

“Okay,” Qian Jiyun replied and quickly wrote the letter.

Soon, the triceratops left happily with the letter and Yue Suiyu on its back.

The reason for its happiness? An Jiuyue had prepared many baskets of fruits for it. It carried them on its back and could eat as much as it wanted on the way.

Meanwhile, the guards were forced to eat the medicinal pills, but none of them collapsed.

But after a while, Young Master Nie and his guards discovered that these people chatted with each other as if nothing had happened.

“Where’s Young Lady? Why is she missing?”

“Who are you? Why are you traveling with us?”

The guard leader looked around but did not see Yue Suiyu. He saw Qian Jiyun and An Jiuyue, and the questions from the other guards surrounding him made him frown.

“Who are you? Why are you here on Scorching Rock Peak?”

An Jiuyue raised her eyebrows and asked the guard leader, “Didn’t your master go missing, so you came to ask us if we’d seen her?”

Chapter 1272: Have You Forgotten?

Young Master Nie was speechless.

What was happening? He could not understand what they were saying.

Did the guard leader forget everything? They had witnessed the triceratops leave with Yue Suiyu earlier. They even tried to chase after it but were too afraid.

But they had now forgotten where Yue Suiyu had gone?

‘Young Master, did that medicinal pill cause them to lose their memories?’ Young Master Nie’s guard whispered to him.

Did they lose their memories and have no recollection of recent events after eating the pill? If that were the case, it would be fantastic.

‘Young Lady has gone missing?’ The guard leader’s eyes widened in surprise and panic.

He did not want to believe this, but he had no choice. A voice in his heart told him that his young master had gotten lost.

‘Young Master Nie, what’s going on? How did Young Lady get lost?’ He turned around and asked Young Master Nie, who was standing nearby.

‘Have you forgotten? Sui Sui wouldn’t listen to your warnings and kicked up a fuss about eating mustard fruits on Scorching Rock Peak. She insisted you pick the fruits, and we ended up attracting a massive demonic beast. She went missing on her own during our escape.’

No matter what Young Master Nie said, he knew the guard leader and the others would believe him.

Hence, he started making things up.

The guard beside him nodded.

‘That’s right. We’ve been looking for the Princess all the way and met these two. They were kind and said they would look for her with us. Chief, what happened to you? Have you forgotten?’ he asked.

“Ahem.” The guard leader coughed lightly. “How could I forget? I just forgot it for a moment.”

He could not admit that he had forgotten something so significant. If he did, that would be a dereliction of duty. He shook his head again.

“Since that’s the case, why aren’t we searching quickly? Why are we still standing here?”

This was a serious matter. They had to find her. With that, he left with his subordinates hurriedly.

Behind him, Qian Jiyun held An Jiuyue’s hand, exchanged glances with Young Master Nie, and followed. He had not forgotten that Young Master Nie possessed a secret.

Meanwhile, when Qian Jiyun glanced at Young Master Nie, the latter automatically assumed that they wanted him to feed the guard leader more fabricated stories about Yue Suiyu.

Hence, he walked up to the guard leader quickly and told him about what had happened over the past few days.

He made everything up on the spot and said whatever he wanted.

“This kid is not bad!”

An Jiuyue and Qian Jiyun walked behind them. They could not help but raise their eyebrows as they listened to Young Master Nie speak with the guard leader.

His reaction speed was not bad; he was even capable of making up stories on the spot.

“He’s from Yueming Empire,” Qian Jiyun reminded her.

Even if he was commendable, he was still from Yueming Empire. Besides, they were only here to train. They could not take him in. It was best to treat him as a passing acquaintance.

An Jiuyue grinned and said, "I know. I'm just saying."

"But are we really going to look for Yue Suiyu with them?" she asked.

"No." Qian Jiyun shook his head..

Chapter 1273: Shook His Head and Dismissed It Instinctively

His intuition told him that Yue Suiyu was not the guard leader's top priority.

Otherwise, he would not have been so composed when he learned that they were going to attack Yue Suiyu. He would have fought them to the death rather than eating the medicinal pills An Jiuyue had given him.

"I think so too. These people seem to be looking for something, and that thing is the top priority," An Jiuyue said.

She reckoned this item was probably with Young Master Nie.

Qian Jiyun and An Jiuyue followed the guard leader and the others around Scorching Rock Peak for a long time.

Meanwhile, Zhan Beiye, who was covered in blood after his return from the battlefield, had received a large gift bag from Qian Jiyun. He smiled and raised his eyebrows.

He looked at Yue Suiyu, who had been unceremoniously thrown off the triceratops' back. He could almost see the intense disdain on its face. "You sure know how to surprise me!"

After reading the letter, he looked at the unconscious Yue Suiyu and chuckled.

Now that he had this woman, he could cause some trouble. Although it could not stop Ming Fucheng's madness, it could create some conflict between him and his father.

One of the two deputy generals accompanying him cast a curious glance at the woman who had fallen to the ground and asked, "Marshal, this woman is..."

He wondered if she was the Marshal's woman, but he shook his head and dismissed it instinctively.

If she was really the Marshal's woman and delivered like this, it had to be the work of someone from Ming Fucheng's camp. However, how could they possibly miss such a good opportunity to threaten the Marshal?

Hence, this woman was probably not related to the Marshal.

"The Princess of Yue Ming Empire, Ming Fucheng's biological sister," Zhan Beiye said calmly.

"What?" The two deputy generals were shocked but pleasantly surprised.

Ming Fucheng's biological sister? Could they use her to threaten Ming Fucheng into retreating? That crazy dog disregarded all morals on the battlefield. His erratic, every-man-for-himself style of fighting was unruly.

They were becoming frustrated because they had been beaten so badly over the last few days. They really wanted to capture Ming Fucheng and kill him.

However, capturing Ming Fucheng during this war would not be that easy. They could only bear the hatred in their hearts and resolve all their old and new grievances once an opportunity presented itself in the future.

But things were different now. "Marshal, will Ming Fucheng retreat because of her?"

"Ha!" Zhan Beiye sneered.

Just as everyone had said, Ming Fucheng was like a crazy dog. Even if the Emperor of Yueming Empire issued a decree personally, Ming Fucheng would not abide by it.

Besides, she was just a younger sister. Ming Fucheng might even kill her with an arrow if Zhan Beiye hung her on the city wall.

“Lock her up and let Ming Fucheng take a look at her tomorrow,” he instructed.

“Yes, Marshal.”

The deputy general did not dare to say anything else and followed Zhan Beiye’s instructions to drag the unconscious Yue Suiyu away.

“Failed? Failed again? How dare you tell me that you failed again!”

Ming Fucheng was hopping mad in the Yueming Military Camp.

He had already staked everything on this, intending to engage in a mutually destructive battle with the Zhanling Military to fight Zhan Beiye to the death..

Chapter 1274: Let Ming Fucheng Play House

However, he was now told that Zhan Beiye had always been a step ahead on the battlefield. How could this not anger him? He wanted to kill these useless fools!

“What are you doing? The Zhan Military only has that many people. If you can’t defeat them, why am I providing for you?” he shouted at the deputy generals.

A few deputy generals frowned and glanced at Ming Fucheng.

Were they being supported by a prince like Ming Fucheng? It was the Yueming

Empire that was providing for them!

Moreover, Ming Fucheng was the one who started this war. How many people had died? Was it even countable?

They thought Ming Fucheng would give in after so many casualties, but they never expected him to be completely merciless. It was as if he did not care how many people had died. Nothing mattered as long as he was alive.

“Your Highness, the Zhanling Military is abnormally ferocious. Our army is no match for them. Moreover, our food supplies have—”

“Shut up!” Ming Fucheng’s expression darkened at the mention of military provisions.

He rebuked the deputy general who had spoken. With one hand on his hip, he paced back and forth in front of them.

“You think I don’t know about the food problem? Do I need you to remind me?”

After walking back and forth for a while, he stopped and looked at the deputy general with bloodshot eyes.

He had already ordered people to gather food, but even if he hurried them, it would still take time, right? It was not easy to transport food here.

“Well...”

The deputy generals did not look too good either.

The lack of military provisions was a big problem. There were so many people in the military camp. Everyone needed to eat. There were a lot of expenses.

However, this problem had never been resolved. Everyone was eating the leftover food after the explosion.

“Your Highness, this food...”

“Shut up! Shut up! I told you to shut up! Didn’t you hear me?” Ming Fucheng shouted angrily at these useless people. Did they think he didn’t know about the problem?

“I’ve already ordered people to gather food. They’ll be here soon. Don’t you know about this? Didn’t I tell you? Why are you rushing me?”

The deputy generals lowered their heads.

Why were they rushing him? Did he really not know why they were rushing him? Everyone knew, right?

However, no one dared to voice their thoughts. They had to do whatever the Prince said and listen to his instructions.

In any case, this war had become a circus. The Yueming Empire was burning hundreds of thousands of soldiers to let Ming Fucheng play house.

“Your Highness, let’s not talk about food. Zhanling Military’s combat power is not something our military can match,” someone said.

“Ha!” Ming Fucheng sneered. “So you’re saying that my military, which is twice the size of Zhanling Military, is not as strong as them?”

‘Well...’

The deputy generals hesitated. They wanted to say that, but they did not dare to.

“Get lost! Get out! Get out!”

Ming Fucheng knew what they were thinking when he saw their expressions..

Chapter 1275: Do You Think Zhan Beiye Is Stupid

How could he admit that he was inferior to Zhan Beiye in every way? He clearly had twice the military size of the other party, but he could not gain any advantage over Zhan Beiye.

This was even worse than getting killed.

The deputy generals quickly turned around and left, feeling as if they had been pardoned.

However, one deputy general stayed behind. He was Ming Fucheng’s trusted aide and had also returned from Huayan Peak with him.

Taking a deep breath, he approached Ming Fucheng.

“Your Highness, we have to think about how to deal with Zhan Beiye at length. We can’t be too hasty,” he advised softly.

If Zhan Beiye was that easy to defeat, he would have died at the hands of the other princes and princesses of the Zhanling Empire long ago. How could he act so arrogantly?

This time, they still could not gain anything from Zhan Beiye.

Just like Ming Fucheng, he wanted to crush Zhan Beiye with an army. However, as their combat strength was depleted bit by bit, he no longer wanted to do so.

It was clear that using war to deal with Zhan Beiye was a bad idea. He would not die from it either.

“We can’t be too hasty?” Ming Fucheng glanced at the deputy general.

If this person had not been accompanying him since his time at Huayan Peak, he would have kicked him out.

Did the deputy general not consider how Zhan Beiye had treated him previously? He almost killed him and embarrassed him because of Qian Jiyun, that b*stard.

If he did not restore his pride, Ming Fucheng would not be able to keep his chin up in Huayan Peak or Yueming Empire in the future.

Hence, Zhan Beiye had to die. He wanted to tell Qian Jiyun that whoever offended him would not have a good outcome—death would be their only end.

Moreover, he wanted to tell Qian Jiyun that Zhan Beiye died because of him!

“You think I was too hasty?” he asked, staring at the deputy general coldly.

“Uh.” Ming Fucheng’s murderous gaze frightened him, so he did not dare to agree.

“Your Highness, that’s not what I meant. I wanted to say that we could exploit

Zhan Beiye’s weakness and attack him. Isn’t Zhan Beiye the most protective of Zhan Beicheng? Maybe we can... kidnap him from Huayan Peak?” he suggested.

“Zhan Beicheng?” Ming Fucheng sneered when he heard that name.

He was from the royal family. How could he not know Zhan Beicheng?

That guy probably wanted Zhan Beiye dead, and Zhan Beiye must have figured out his younger brother's true colors by now. Could he use Zhan Beicheng to threaten Zhan Beiye?

That was impossible. Zhan Beiye was not stupid.

“Would that thing make Zhan Beiye risk his life? Do you think Zhan Beiye is stupid? Or do you think I am?”

Qian Jiyun was definitely one of the people Zhan Beiye cared about. Unfortunately, Qian Jiyun could not come to their plane, even if Ming Fucheng wanted to kidnap him.

Besides, kidnapping Qian Jiyun would not be easy. He was as slippery as a fish.

“Go and make preparations immediately. We'll attack the city tomorrow with aerial troops and demonic beasts. I refuse to believe that Zhan Beiye can use his body to block the city walls.”

He was going all out. As long as he could kill Zhan Beiye, the sacrifices of these soldiers would be worth it..

Chapter 1276: Provided Numerous False Clues

“With aerial troops?”

The deputy general was shocked by his words.

The term “aerial troops” did not imply that soldiers would fly. Instead, soldiers were mounted on launchers and propelled across.

Although this method allowed them to send people across, it was extremely taxing on the human body. If not done carefully, it might result in casualties. However, those lucky enough to survive could potentially carve out a path for them.

“Your Highness, aerial troops are prohibited. It won’t do you any good to use them,” he advised.

“I said we’ll use it, so we’ll use it! Stop nagging! We must take down Zhan Beiye this time!” Ming Fucheng did not care about the consequences. How could a big shot be affected by such a small matter?

“Remember, the aerial troops must be comprised of elites. Select them yourself,” he instructed.

“This... Yes.”

When the deputy general saw that Ming Fucheng had decided, he knew it was useless to try dissuading him further. He could only agree.

He also had a vague feeling that Ming Fucheng was a little crazy. Why did he insist on going against Zhan Beiye and even lead the army to their graves alongside him?

The guard leader had been searching for Yue Suiyu on Scorching Rock Peak for an entire day, but he caught no sight of her.

“Where would Young Lady go? Scorching Rock Peak is riddled with dangerous spots. What if she encounters a demonic beast?” He was anxious. If Yue Suiyu really went missing, wouldn’t he die?

Next to him, Young Master Nie was silent as he listened to his nagging.

Even if they searched again, they would not be able to find Yue Suiyu. After all, Qian Jiyun and An Jiuyue had already sent her away, right?

However, he did not dare to say that. His guards knew the severity of the matter and did not mention it at all. They even took the initiative to help the guard leader find her.

Along the way, Young Master Nie provided numerous false clues to waste the guard leader's efforts.

He walked up to the guard leader and reminded him, "Chief, has Sui Sui left anything for us to track her down? If she did, you should take it out quickly. Scorching Rock Peak is too dangerous."

The guard leader was speechless.

He looked at Young Master Nie and wished he could take it out!

However, his young master was too confident in herself. She had scattered tracking powder on Young Master Nie, but she had not done anything to herself.

This was also the reason he was anxious. Now that she was gone, he felt like a headless fly who could not find her.

"Let's search again. We'll definitely find her," he said after taking a deep breath.

"But..." Young Master Nie sighed softly and looked at him weakly.

"But what?"

The guard leader frowned when he saw his hesitation, looking at him unhappily.

"Young Master Nie, what are you trying to say? You don't want to look for the Princess anymore? Huh?"

"Chief, what are you talking about? Why would I think that?" Young Master Nie immediately denied it.

“It’s just that I sensed that thing. As you are aware, I can only sense that thing for a limited time. If I don’t look for it when I feel it, I probably won’t sense it again for a long time.”

‘What? You sensed it?’

The guard leader was shocked and immediately forgot about Yue Suiyu. “Why didn’t you say so earlier? Can you sense where it is? Bring us there immediately..”

Chapter 1277: They Already Discovered

He could set aside the search for the Princess. As long as he could secure what the Yueming Emperor wanted, he would not hold him responsible for losing a princess.

To be honest, the Yueming Emperor had more than one daughter, and Yue Suiyu was not his favorite.

But this item was something he had been thinking about for many years...

No. Actually, it was the dream of generations of Yueming Emperors. It was difficult for someone to sense that thing. If they could not find it, they would all die.

“You have to... No, no.”

He wanted Young Master Nie to bring them there immediately, but he remembered Qian Jiyun and An Jiuyue, who had been following them all the way.

Their strength was unfathomable. What if they snatched the treasure after finding out that they were searching for them?

He was not sure if he and his subordinates could kill them.

“Wait a moment. Let me send those two away first.”

With that, he took a deep breath and turned to look at Qian Jiyun and An Jiuyue. He strode towards them.

Upon hearing his words, Young Master Nie opened his mouth, wanting to say something. Those two probably followed them because of this item, right?

Otherwise, with their strength, they would have left long ago.

But he did not say it aloud. The relationship between the two parties was too strained, and he was the one in the most difficult position. To be honest, he did not want that item falling into the hands of the guard leader, or, more specifically, the Yueming Emperor.

The guard beside Young Master Nie had some knowledge. When he saw the guard leader walking towards them, he whispered to Young Master Nie, “Young

Master, what should we do now?”

“What can we do? I don’t have the final say now.” Young Master Nie snorted.

“But they won’t leave, right? Didn’t you say that they already discovered—” The guard stopped mid-sentence. There were others around, so he could not continue.

He was afraid that someone would hear them and cause trouble for Young Master Nie

“That’s none of my business. If he wants to hit a wall, let him. It’s none of our business whether they’re willing to leave or not,” Young Master Nie said.

Could he do anything about this?

He could not even be sure about his own safety now. How could he have the time to care about others?

He was certain that if he led the guard leader and the others to that item and gave them the chance to obtain it, he would not be alive.

“Yue Suiyu is missing. With that person’s personality, he definitely won’t be willing to take responsibility. In the end, he might...” The guard paused. “Young Master, we have to be careful.’

“Ha!” Young Master Nie chuckled.

What was the use of being careful? There were only a few of them, so they were no match for the guard leader and his group.

He could only place his bets on Qian Jiyun and An Jiuyue taking a fancy to the item in their hands and eventually fighting and killing the guard leader and his group.

Perhaps he would have a chance to survive by then.

“Send a message to those two secretly later,” he whispered into the guard’s ear..

Chapter 1278: Go back to Gather Reinforcements

“Young Master, you mean...’

How could the guard not understand him? His young master wanted to use those two to get rid of the guard leader and the others, right?

“Young Master, that’s a good idea, but will they attack Chief and the others? What if...”

“There’s no ‘what if’,” Young Master Nie interrupted him before he could finish speaking. “If there’s a ‘what if’, we’ll die,” he said coldly.

He already knew that he would not have been able to leave Scorching Rock Peak alive even without Yue Suiyu’s ‘disappearance’. Was the Yueming Emperor a magnanimous person?

Even if that thing landed in his hands, he would not let the world know. He would only silence him and find an excuse to explain how he died.

Soon, the Nie family would come to accompany him on the road to hell.

Unfortunately, his family members were still engrossed in their joy. They believed the Nie family would soar into the skies thanks to his ability.

He felt sad about that.

“Brother Cheng, would you think I’m too cold-blooded if I give up on the Nie family and never return to the Yueming Empire?” he asked softly.

“I won’t,” the guard, Brother Cheng, replied without thinking.

He knew Young Master Nie’s situation very well. After all, he had been protecting Young Master ever since he was discovered to be capable of sensing the location of the treasure.

In fact, he was originally one of the Yueming Emperor’s men. However, he gradually stopped wanting to be his lackey.

“Young Master, you’re part of the Nie family’s collateral branch in the first place. Given the current situation, you can leave the Nie family. Just pretend you’re not part of them.”

“Ha!” Young Master Nie chuckled.

He belonged to the Nie family's collateral branch. Had it not been for his ability, he might never have been orphaned.

Everyone in the Nie family thought he didn't know, but he knew long ago that the Nie family had killed his entire family to snatch him.

"Huff! Let's take things one step at a time. No matter what, we have to find the treasure first."

He fixed his gaze on the guard leader, who had already walked up to Qian Jiyun and the others. He was looking forward to what would happen to this person.

Meanwhile, the guard leader stopped in front of Qian Jiyun.

He had always been proud in front of the other guards, but he was not confident in front of Qian Jiyun.

He had no choice. The strong were respected in this world. As someone with a lower cultivation level, he had to bow down to Qian Jiyun.

"Young Master Qian, Madam Qian, it's been hard on you to help us find the Princess these days. We haven't found her, so we're too embarrassed to trouble you any further.

"We've decided to go back and gather reinforcements. We'll ask the Yueming Emperor to send more people to help us. You must have other things to do, right? Why don't we split up?"

He looked at Qian Jiyun and almost said, "You can leave now. We won't look for that stupid princess anymore."

"Do you need everyone to go back to gather reinforcements?" An Jiuyue retorted without waiting for Qian Jiyun to say anything..

Chapter 1279: We i re Actually Quite Free

Were they trying to send them away to search for something valuable? Dream on! Did they think they were following them just to look for some useless princess?

Wei Na had already conveyed Young Master Nie and the guard leader's words to her. She knew everything.

"The Princess's disappearance is a big deal. Are all of you going to leave the Princess alone on Scorching Rock Peak? Won't the Yueming Emperor blame you if he finds out?" she asked.

"Well..." The guard leader was at a loss for words.

He obviously could not tell her that the Yueming Emperor would only urge him to find that item if he knew.

"I just don't think we should keep searching like this. We have to gather more people for the search, so..."

An Jiuyue blinked and asked, "Then can't you just send a few people back to gather reinforcements?"

"Uh." The guard leader felt a headache coming on.

"That's true, but I also don't think it's a good idea to trouble the two of you like this. You must have your own things to do, right?"

He looked at An Jiuyue awkwardly, nearly explicitly saying that he did not want them to follow him.

"We don't have anything to do!" An Jiuyue shrugged as if she did not understand him.

"We're just here for leisure. We don't have a specific destination in mind. We happened to meet you, so we helped you. After all, saving a life is better than building a seven-story pagoda to honor the dead."

The guard leader was speechless.

To hell with the seven-story pagoda! Could he tell them that he did not want them to follow him anymore?

Were they pretending not to understand him? He felt like that was exactly what they were doing! Were they trying to follow them?

His expression darkened at the thought.

He could not help but glance at their expressions, wondering if they had followed them because they knew what they wanted to do.

Did the Zhanling Empire find out about their whereabouts and come to snatch their treasures?

“Young Master Qian, Madam Qian, let me put it this way. We have other things to do now. We won’t look for Princess for the time being.”

His tone became less friendly when he considered how the two people in front of him might be here to snatch their treasures.

If not for the fact that their cultivation levels were higher than his, he would have killed them.

“What are you going to do? My husband and I can help.” An Jiuyue was still smiling, as if she did not notice the guard leader’s ugly expression.

She turned around and glanced at Qian Jiyun. “Husband, we’re actually quite free, right?”

“Mhm.” Qian Jiyun patted her head dotingly and nodded.

“You... Both of you...” The guard leader was dumbfounded.

He finally understood that the two of them were probably pestering him on purpose.

Were they doing this because they knew nobody here could control them and wanted to seize the treasure they were after? Or were they here because Zhanling Empire had sent them?

If they were really from Zhanling Empire, wouldn't he be inviting a wolf into his house?

He wanted to cry when he remembered how he had treated them as his guards and asked them for protection along the way..

Chapter 1280 They're Not Leaving?

He had never met anyone as stupid as him.

“What are you trying to do?” he asked, swallowing his saliva and suppressing his panic.

An Jiuyue continued to smile and asked, “What do you think?”

“You—” The guard leader clenched his fists and nearly attacked them.

However, he did not dare to do anything after receiving Qian Jiyun's cold stare. His face flushed red in anger, and he gritted his teeth in hatred, unable to say a word.

“If I were you, I would pretend we don't exist and don't cause trouble. Do you understand?” An Jiuyue said, still smiling, when she saw that he had finally stopped talking.

“Don't even think of finding an excuse to make us leave. Even someone as stupid as you, who only just realized our goals are the same, should know how to play dumb, right? After all, this should be your forte, right?”

“You—” The guard leader glared at An Jiuyue with bloodshot eyes.

However, he quickly stopped glaring because Qian Jiyun was staring at him murderously.

He left resentfully, returning to his group.

He decided to find a way to get rid of these two along the way. The strong might be respected in this world, but he could act secretly, right?

...

In the end, the guard leader could not chase Qian Jiyun and An Jiuyue away and allowed them to continue following his group.

This saved Young Master Nie a lot of trouble because he no longer needed to send a secret message to them. However, this did not stop him from stirring trouble with the guard leader.
