

Spatial Ability 241

Chapter 241: Pack Our Things Quickly

“Master, do you know how to ride a horse?”

He assumed she did not know how to ride a horse as she was a woman and did not go out often.

An Jiuyue could share a horse with Qian Jiyun. Sharing would help them become closer too—it was good for them! Hence, he only brought two horses with him.

An Jiuyue was speechless. She took a deep breath and glared at Yan Nuo sternly.

Even if I didn’t know how to ride a horse, shouldn’t he ask me if I could first?

“Master, don’t be angry. When we complete our pasture, we’ll raise a lot of strong horses. You’ll never lack a horse to ride anymore,” Wei Na said to her.

An Jiuyue was extremely shocked.

Come on! Is Wei Na here to anger me too, right? This has nothing to do with raising horses!

Qian Jiyun got on his horse while she was still fuming. He bent down and extended his right hand towards her.

“Jiuyue, get on the horse.”

There was nothing else she could do. The military camp’s matters were urgent—there must be no further delays. Hence, she decided to make do with it and share a horse with him.

She reached out and placed her hand in his. He lifted her swiftly and placed her in front of him.

...

The military camp was clouded with tension.

The camp was divided into three. The first section comprised soldiers who had not been exposed to the epidemic disease. They formed the majority and were separated from the infected soldiers.

On the other side, there were two small sections. One lived soldiers who had not contracted the disease but had interacted with the infected as they could have stayed in the same tent.

Soldiers who had contracted the disease lived in the last section. The atmosphere was lifeless there.

Although the percentage of soldiers infected was low, they were still a large group.

With 200,000 soldiers guarding the border, the number of infected soldiers was considered a lot to the commoners, even if they made up a small percentage here.

The military camp's most pressing need was medicinal herbs. They had given the prescription to the military physicians, who had reserves of some common herbs required. Even if they did not have enough of these common herbs, they could purchase them quickly.

However, two of the herbs needed were a little special. They were not usually used for medicines and, hence, not stocked up in large quantities in the military camp or pharmacies.

This was a huge problem. The prescription was ineffective without the two herbs.

"Xiao Zhu, pack our things quickly!"

There, in one of the tents, stood Xue Ling as she stared outside nervously, afraid that someone would enter. She urged her maid to pack up their belongings repeatedly.

“Miss, we can’t get out at all. What’s the point of packing up?” the maid asked, lifting her head as she put the clothes into her bag.

I regret coming here. Miss Xue Ling is in the military camp. So what if no one is taking care of her? Why did I have to come? There’s a rare epidemic now, and I’m stuck in this.

It would have been better if they stayed in the section for those not exposed to the disease. However, they were currently in the section for those who had contact with the infected soldiers.

Chapter 242: Complain to Her Aunt

It was difficult for soldiers to walk about inside the camp, let alone leave.

Xue Ling turned around and scolded her, “Stupid!”

If they could not leave openly, they would have to find other ways, right?

She had been walking around outside the tent for the past two days, and no one came forward to discipline her. Everyone was polite to her.

“I’ve already made arrangements. We’ll be able to escape tonight.”

She felt she could escape since the people here did not care about her walking around outside the tent. She did not want to await death here as she might contract the disease if she continued staying here.

“No matter what happens, I must leave tonight!”

At most, I'll leave Xiao Zhu here and leave alone, she thought.

"But if... No, if Prince Zhanyun finds out that you left just like that, won't he punish you?" Xiao Zhu reminded her kindly, unaware of Xue Ling's despicable intentions.

"What's there to be afraid of?" Xue Ling pursed her lips and sneered.

She was not afraid Qian Jiyun would punish her. She had her aunt. Although they were not blood-related, she could be considered her adopted niece. Why would she be afraid of Qian Jiyun?

After all, Qian Jiyun never did anything to her, even when she threw tantrums around him because she was her niece.

Her aunt was Qian Jiyun's stepmother. In fact, she was his mother nominally.

If he dared to offend her, she would complain to her aunt. Qian Jiyun would not have an easy time as her aunt would not let him off so easily.

"I have my aunt. Brother Yun will listen to me no matter what I want to do."

Qian Jiyun did not even dare to openly blame her for what happened with Qian Yiyun last time.

Qian Yiyun's belongings had disappeared. She thought Qian Jiyun must have taken them back. Despite knowing what she did to Qian Yiyun, he still did not dare to do anything to her.

However, she was also more worried and wanted to avoid him because of that.

Qian Jiyun had not been in the military camp for the past few days. She reckoned he had gone out to look for Qian Yiyun.

He was not in the position to argue with her since Qian Yiyun could not be found, but he might argue with her if he could not find her at all.

She decided to complain to her aunt first, painting Qian Yiyun in a bad light while describing herself as the weaker party. Then, Qian Jiyun would not be able to find a reason to argue with her.

She could only get rid of her fears if she saw her aunt.

With her aunt around, Xue Ling was like the mistress of the Prince Zhanyun of the Second Rank's Residence. No one could shake her status.

She believed she would soon become the true mistress of the Prince Zhanyun Residence. She would become Princess Consort of the Second Rank if her aunt asked Qian Jiyun to marry her.

"But, Prince Zhanyun..."

"What are you nagging about? Are you done packing up?"

Xue Ling did not give Xiao Zhu a chance to speak. She glared at her and hissed.

Xiao Zhu shivered and quickly nodded. "Yes, yes."

"Hurry up and hide the bag! You idiot, you don't even know how to do anything. I really don't know why Father and Mother sent you here!"

Chapter 243: Whose? Your Wife's?

Xue Ling cursed in disdain.

We have many maids at home, but they sent me the stupidest one. She can't do things properly or say the right things!

I must act more lovable and coy to my aunt and ask her to send me maids from Prince Zhanyun's residence. They are the only maids who know how to serve me right and satisfy my demands.

Although Xiao Zhu felt wronged, she did not dare to retort. She answered fearfully, "I understand."

"Idiot!" Xue Ling cursed again before walking to the bed and sitting down.

She had to think about how to escape from the military camp. It had been on lockdown after the disease outbreak.

Although she could walk around freely because of her status, she could not go to the main section of the camp that was not infected, let alone outside.

Even if the soldiers lowered their guard against her during the day, many kept watch at night. It would not be easy to escape!

"Hm, there must be a way. I can definitely escape." She exhaled heavily and looked at Xiao Zhu sinisterly.

If there's no other way, I'll sacrifice this idiot of a maid! There's no use keeping her around anyway.

...

They rode for several days.

That night, An Jiuyue, Qian Jiyun, and Yan Nuo rested by a narrow road. They planned to eat some food before continuing on their journey.

“Master, I sense a familiar aura nearby.”

An Jiuyue was taking a bite of her biscuit and a sip of water when she heard a voice in her mind abruptly. She stopped eating.

It took her a moment to register what Wei Na had said.

“Are you kidding me? You’ve followed me from another world and have never left the Lianjing Mountain Range. How can you sense a familiar aura here? Whose? Your wife’s?”

Wei Na was startled.

I don’t have a wife! Her joke is not funny at all.

“Master, do you remember that arrogant idiot, Xue Ling? It’s her aura. She seems to be in a rush,” Wei Na continued.

“Xue Ling!” An Jiuyue could not help muttering her name.

Qian Jiyun, who was sitting beside her, turned to look at her when he heard her voice.

He explained, “Xue Ling is still in the military camp, but we don’t have that kind of relationship. I’ve never bothered her, Jiuyue.”

“So you don’t have to care about her either?” was what he wanted to add, but he kept it to himself.

“Xue Ling is in the military camp?”

An Jiuyue swallowed the food in her mouth and looked up slowly at Qian Jiyun with a faint smile.

If I guessed correctly, the military camp should be on lockdown now. There must be strict enforcement there. How can someone who should be inside the camp show up here?

She refused to believe there was nothing fishy about this.

“You...” Qian Jiyun opened his mouth, puzzled.

Did Jiuyue think of Xue Ling because she heard from my sister that Xue Ling is in the military camp?

“Qian Jiyun, it seems like there are many problems in your military camp.”

An Jiuyue raised her eyebrows at the man and stood up after patting the food crumbs off her chest.

“Wei Na, can you sense where she is?” she asked.

She did not like seeing Xue Ling, but this was a woman who had obviously escaped from the military camp. There would be consequences if they let her run off.

Chapter 244: I Won't Let Anyone Off!

Wei Na answered, “Master, Xue Ling is two miles to your right. She must have seen you and is hiding there waiting for you to leave so she can escape.”

“Tsk!” An Jiuyue clicked her tongue.

She glanced at the sword beside Qian Jiyun and smiled meaningfully. She reached out and pulled the sword out of the hilt.

“Let me borrow your sword.” With that, she dashed off toward the right.

“Jiuyue!”

Qian Jiyun did not understand what she wanted to do and immediately followed her.

“Master, Mistress!”

Yan Nuo swallowed the food in his mouth and chased after them.

...

Xue Ling shivered in a bush.

She only escaped from the military camp less than half a day ago. With no horses, she could travel on foot.

She did not expect to encounter Qian Jiyun and Yan Nuo so soon!

To make things worse, An Jiuyue, whom she detested, was with them! She wanted to pounce on the woman, who had embarrassed her and ruined her image in front of Qian Jiyun, and eat her alive!

However, it was not the time for that. She could not let Qian Jiyun know she had escaped from the military camp. She had to hide.

Hence, she slowly retreated and decided to hide in the grass and wait for the three of them to leave.

The military camp was close by. She reckoned they would leave quickly and rush to the camp after eating some food.

After they left, she would go to the nearby town to buy a strong horse and leave this darn place quickly!

“Damn it! I’ll tell my aunt about her when I get back and let her deal with that woman!” she muttered as she hid.

She did not lower her voice much because she thought she was already quite far away from Qian Jiyun’s group—though it was mainly because she was too angry.

“Hmph! There can only be one woman by Brother Yun’s side, and that’s me! All other women have to die! I won’t let anyone off!”

“Really?”

Suddenly, Xue Ling’s ears picked up a familiar voice.

Shocked, she got ready to stand up but soon felt an intimidating aura charging at her. She raised her foot subconsciously to take a step back.

However, she forgot she was squatting and staggered, falling back on the grass.

A long sword tore through the air and struck the stone in front of her, releasing an ear-piercing sound.

Frightened, she shrieked instinctively.

However, she quickly covered her mouth when she remembered she would risk being discovered by Qian Jiyun and the others.

“What’s the use of covering your mouth?” An Jiuyue asked in amusement as she watched Xue Ling.

“Not bad, Wei Na. You can sense auras two miles away?” She communicated with Wei Na in her mind.

“Of course.” Wei Na responded proudly, but it cried internally.

It could only sense the vital energies nearby and locate someone by targeting them.

It would not have been able to sense Xue Ling if she had not been nearby. Xue Ling was unlucky because it happened to lock onto her aura.

“What a bold person! Master, did she escape from the military camp?”

Chapter 245: This Weak Little White Flower

An Jiuyue raised her eyebrows and replied, “Uh-huh.”

Escaping from the military camp? She’s bold indeed!

However, her attention was not on what was on the surface. Instead, she was fixated on the way Xue Ling dodged her attack.

There was no need for Xue Ling to dodge. She would only be slightly injured at the very most.

However, she dodged the sword completely in one motion. Was this something an arrogant young lady, who would become unreasonable when angered, could do?

Was Xue Ling hiding something all along?

Looking at the long sword in front of her, Xue Ling gulped and trembled.

“War... Warlord!”

She had been by Qian Jiyun’s side for so long. She might not be able to recognize many things, but she could recognize the ‘Warlord’. It was Qian Jiyun’s sword, which had accompanied him everywhere and killed many enemies. It was stained with the blood of countless enemy soldiers.

She looked up and became alert when she saw An Jiuyue.

“An Jiuyue!”

It’s An Jiuyue! She always ruins my plans!

Of course, Qian Jiyun saw Xue Ling. He was stunned for a moment before shouting her name.

“Xue Ling!”

The military camp has been on lockdown—the people inside cannot come out. How did Xue Ling get out? Does she have a spy in the military camp? Or rather, does my ‘good’ stepmother have a spy in the military camp?

“Brother... Brother Yun...”

Xue Ling was livid when she saw An Jiuyue, but she trembled when she heard Qian Jiyun’s voice.

I clearly avoided them! They didn’t notice me at all! How did they find me here?

“Xue Ling, why are you here?”

Yan Nuo, who had followed them, was shocked to see Xue Ling.

Shouldn't she be in the military camp? In fact, isn't she part of the group who had contact with infected soldiers? Did she run out?

"You—"

Xue Ling wanted to scold Yan Nuo when she heard him call her name.

However, she did not dare to do it when she thought about what she had done and how she had escaped from the military camp.

It was better to avoid angering Qian Jiyun now. Otherwise, she would definitely not be able to escape punishment. She really did not dare to go against Qian Jiyun since her aunt was not around now.

Moreover, her realization that Qian Jiyun might be interested in An Jiuyue made her want to avoid clashing with him even more.

She could only push all the blame on other people.

"Brother Yun, you're finally back! If you're away any longer I would be bullied to death by those people inside the military camp! Those men are too scary."

"Haha..." An Jiuyue chuckled and looked at Qian Jiyun teasingly. She was waiting for him to comfort this weak little white flower.

Xue Ling was so good at pretending she transformed into a different person from when she was at the treehouse.

However, would Qian Jiyun still go along with Xue Ling's antics?

He had been tolerating her because he wanted to find out who was behind her. But now... An Jiuyue was next to him.

There had already been a misunderstanding. If he treated Xue Ling gently, he would probably only be successful in reconciling with his wife in their next life.

“Yan Nuo, tie her up and bring her back to the military camp,” he instructed Yan Nuo coldly.

Chapter 246: Completely Unrelated

“Yes, Master.” Yan Nuo replied and tied Xue Ling up.

Xue Ling wanted to resist and argue with Qian Jiyun but found herself unable to say a word because she was gagged.

“Mmph, mmph!”

She shook her head and looked at Qian Jiyun. He was handing An Jiuyue a fruit.

She did not hope for Qian Jiyun’s pity. She only wanted him to untie her so she could escape again and let her aunt take revenge for her!

Yan Nuo sneered at Xue Ling.

We finally caught this scourge! I’ll go crazy if we have to tolerate her any longer.

But we probably can’t lure out the real person having Xue Ling’s back now. We probably won’t be able to even if we don’t do anything to her.

“Miss Jiuyue, how did you know she was nearby?”

He was very curious about how An Jiuyue knew Xue Ling was nearby. She even found her without making a wrong turn. He would not be able to do the same.

An Jiuyue glanced at him indifferently and did not say anything. Instead, she looked in Xue Ling's direction with interest.

"Qian Jiyun, who exactly is Xue Ling?" she asked.

"In my stepmother's words, she is a... distant niece from my stepmother's mother's clan," Qian Jiyun replied without even looking at Xue Ling.

His lips curled into a faint hateful smile at the mention of his stepmother.

"Distant niece..." An Jiuyue almost laughed.

"Distant niece" probably just means they're completely unrelated, right? But she can still run amok by Qian Jiyun's side with that old woman's authority? That's rather capable of her.

Xue Ling must have pretended to be stupid in front of me. She's not as arrogant and domineering as we think. She's doing everything for show.

"That's nice. That's quite nice." She stared intensely in Xue Ling's direction.

Xue Ling gasped. She trembled involuntarily when she noticed An Jiuyue's probing gaze.

I knew she was not a simple woman from the beginning! She ruined my good image the moment she appeared!

Does she... suspect me now? I have to be more careful in the future.

They'll probably take me back to the military camp now. It'll be harder for me to escape next time. I can't believe I failed after planning this for so long!

"Master, what are you talking about? What's nice about Xue Ling?" Wei Na looked at Xue Ling in disdain.

I don't understand. What's good about a woman like Xue Ling?

"You don't think so?" An Jiuyue lowered her head and chuckled. "Have there been any changes in the Points Mall recently?" she asked.

"No. The points have been increasing," Wei Na replied.

It would stare at the points when it had nothing to do. It was overjoyed watching the points increase!

"But some people may be too weak. A few groups of them died even after using the prescription."

"What do you mean?" An Jiuyue asked, her eyes narrowing.

Why would Wei Na make such a guess? Death? What death?

Chapter 247: Points Deducted

Her prescription could help strengthen the physiques of those who consumed it, even if they did not contract the epidemic disease. How could people be dying?

"What do you mean people died? How do you know?" she asked.

"Of course, I know. Didn't you ask me to keep an eye on the points?" Wei Na replied matter-of-factly.

“Huh?” An Jiuyue was even more puzzled.

How can Wei Na know how many people are dying just by staring at the points? Even if someone dies from the epidemic disease, it has nothing to do with my points, right?

“Explain yourself!”

“Okay, okay,” Wei Na replied and explained what had happened in the Points Mall over the past few days.

It turned out that although An Jiuyue’s points had been increasing over the past few days, there were a few occasions where the points decreased rapidly.

However, they would only lose about 100 points each time, so Wei Na did not care much about it.

It had assumed that some people died consuming the medicine because the prescription was not suitable for them. An Jiuyue’s points must have been reasonably deducted due to such circumstances.

“You—” An Jiuyue was furious after hearing Wei Na’s explanation! “Why didn’t you tell me earlier!”

Is Wei Na trying to anger me to death? How can it not mention something so important? I thought nothing happened in the Points Mall!

Wei Na was stunned for a moment. It felt she was making a fuss over nothing.

“But it’s nothing much. The epidemic is so serious. It’s normal for a few people to die, right?”

An Jiuyue rolled her eyes, speechless.

It was true that some people would die in the face of a major epidemic.

But Wei Na should not say that! Even if they had used her prescription, her points should not be deducted if they were not cured in the end. There was no such rule in the Points Mall.

“Do you know my points will only be deducted under two circumstances?!”

“W-what?” Wei Na was also stunned.

Having only discovered the Points Mall at the same time as its master, Wei Na did not know much about it.

An Jiuyue sighed.

“The first reason for points deduction is when I use them to buy something from the Points Mall. The second is when people use my things to do evil!”

“What?!” Wei Na was shocked to hear this.

“How can this be? Master, isn’t your prescription quite mild? How can someone use it to do evil? They can’t even if they want to, right?”

“You thought about this prescription for a long time and considered many consequences before coming up with it. Are you sure, Master? Is there a third possibility?”

An Jiuyue asked with a sarcastic smile, “What do you think?”

“Uh...” Wei Na stumbled at the question and wanted to hide in a corner. “So what do we do now?”

An Jiuyue took a deep breath and sighed again.

“It’s my fault. I thought this wouldn’t be discovered. I didn’t think people capable of this existed in the world!” She gritted her teeth and said hatefully.

I’ll crush them to pieces and grind their bones into ashes if I catch them!

“Master, what are you talking about? So you’ve always known...”

An Jiuyue continued, “I’ve always known a fatal flaw in this prescription.”

Chapter 248: How Dare They!

The medicinal herbs used in the prescription could combine with extracted epidemic disease pathogens to create a new disease that could accelerate someone’s life and kill them extremely quickly.

However, who would extract the pathogens from an infected body?

As far as she knew, anyone who contracted the epidemic disease in this world would be cremated after death. Even emperors would suffer the same fate.

How could they dare to do this!

“If I didn’t find out about this, do you think those people behind this are using the pathogens to plot a big scheme?”

“Master, what are you talking about?” Wei Na did not understand her words. What big scheme?

An Jiuyue shook her head and felt that things were not that simple.

Seems like I’ll be very busy in the next few days. I have to take responsibility for this trouble I created and resolve it. As for those who dared to scheme against me... I won’t let any of them off!

“Let’s not talk about this anymore. Continue keeping an eye on the points,” An Jiuyue instructed Wei Na before turning to look at Qian Jiyun.

“Yes, Master,” Wei Na replied, realizing the seriousness of the situation.

“Qian Jiyun, let’s hurry on our way after eating. I wonder how’s the situation like in the military camp?”

She wanted to go to the military camp to find out what was happening there.

“Okay.” Qian Jiyun nodded and instructed Yan Nuo to pack their things and prepare to leave.

“Mmph, mmph!” Xue Ling struggled, staring at Qian Jiyun aggrievedly as Yan Nuo dragged her away.

She wanted to ride the same horse as Qian Jiyun. That would prove she was the most important to him when they returned to the military camp, even if she was tied up.

People who wanted to bully her would be deterred on account of Qian Jiyun.

Unfortunately, Qian Jiyun did not give her the opportunity.

“What are you shouting for? Go up.”

Yan Nuo was very direct. He threw her onto the horse like a camel sack, her body sprawled across the horse.

If given a choice, he would refuse to share a horse with this woman. However, he had no choice because they only had two horses. He could not drag this woman on the ground, right? Hence, he got on the horse too.

“Jiuyue, get on the horse.”

Qian Jiyun supported An Jiuyue’s slender waist with both hands and mounted her on the horse before climbing up too.

Xue Ling watched the differential treatment with bloodshot eyes, her chest ready to explode from anger. Of course, the pressure in her chest could also be due to how she was crushed on the horse, but she was genuinely furious.

But what could she do? No matter how angry she was, she could not even complain.

The group mounted their horses and headed towards the military camp quickly.

...

The soldiers in charge of guarding Xue Ling were anxious.

A large group like them could not leave the camp to search for her. Some of them might have contracted the disease. They should not be going out and spreading the disease.

“That Xue Ling is really detestable!” One of them said hatefully.

He clenched his fist and punched a pillar. “If not for the general, I would have—”

“Stop it,” the other soldier interrupted him with a shake of his head.

“Why stop? Two of our brothers died! Two!” the soldier who spoke first yelled at his companion with bloodshot eyes.

Chapter 249: Utter Humiliation

“They did not die on the battlefield or because of the disease—they died because of that woman! How can such a vicious woman be worthy of our general?”

The other soldier sighed softly too.

So what? None of them understood or dared to ask what the general was thinking.

They could only wait for the general to return and see how he would punish her. After all, they did not even know where she was.

“Why do you think the general keeps a woman like that around him?” the angry soldier asked.

The other soldier sighed heavily again.

It would be great if he knew. He could find a way to have the general throw Xue Ling out. But the main point here was that he did not know why either!

“Don’t say anything. We’ll talk about it when the general returns. If Deputy General Yuan hears us talking about this, we’ll probably suffer again—”

Before he could finish, another soldier hurried over.

“Report!”

A deep voice, accompanied by a hint of annoyance, sounded from within a tent.

“What’s going on?”

Xue Ling had managed to escape because he was careless in guarding her. It was an utter humiliation to him.

The general had instructed him to keep an eye on her before he left. But Xue Ling had escaped, leaving only an ignorant little maid behind. She had been crying for a long time and could not even speak properly.

How was he going to explain this to the general?

“Deputy General Yuan, General and Deputy General Yan have returned,” the soldier at the tent replied.

“What?!” Deputy General Yuan was shocked.

He lifted the curtain and walked out of the tent, staring at the soldier sharply.

Didn't I discuss this with the other deputy generals? I also mentioned in the letter to the general to tell him not to return for the time being. Why is he...

“Where is the general?” he asked.

“The general has gone to the other deputy generals. He hasn't been here,” the soldier said.

He sounded rather sorry for the deputy general.

Deputy General Yuan has been stuck in this place and can't even handle military affairs. Yet, the general did not come to see him immediately upon returning. I feel so sorry for Deputy General Yuan!

“Deputy General Yuan, should I invite him over?”

Deputy General Yuan's anger erupted when he heard the suggestion, and he roared, “Don't you dare!”

Soldiers here are infected with the disease and carried out to the other quarantine area every day. How can this brat think of inviting the general here?

“You brat! Are you crazy? Why would you ask the general to come here? Do you want to die?” he cursed.

“Uh...” The soldier was rendered speechless by Deputy General Yuan’s words.

They had already been quarantined here and could not leave. Entering was not easy either.

“That was wrong of me. Deputy General Yuan, what should we do now?”

Deputy General Yuan pondered for a moment and replied, “Let’s wait. The general will send word.”

Everyone in the military camp probably knew Xue Ling had escaped. The general must have known too. He would definitely make arrangements, right?

...

Meanwhile, the deputy generals saw Xue Ling, who had been brought back by Qian Jiyun, and surrounded her. They did not even think of greeting their general.

Chapter 250: Bullsh*t!

“You... you all...”

Xue Ling could speak now as the rag stuffed inside her mouth had been removed.

She grew afraid as she watched the deputy generals surround her. She had killed two soldiers to escape. They would definitely settle this score with her.

“What about us? Xue Ling, what have you done?!”

They looked like they wanted to kill Xue Ling, and their knuckles cracked as they clenched their fists.

“I... I didn't... I didn't do anything, Brother Yun. I didn't do anything! They want to frame me! Don't believe them! They just can't stand seeing you treat me well!”

As the saying goes, strike first and gain the upper hand. Since Xue Ling was yet to be freed, she could only pretend to be pitiful and win Qian Jiyun's pity.

Unfortunately, she targeted the wrong person. It might be effective in front of someone else, but this was Qian Jiyun!

Qian Jiyun did not care about her at all. He only wanted to find out who was providing Xue Ling backing and if there were others besides that one from his residence.

How could he speak up for Xue Ling now that he had An Jiuyue with him?

Qian Jiyun looked at the deputy generals who wanted to skin Xue Lingsheng alive.

“What happened?”

There was forbearance in their eyes as they took a deep breath before turning to look at Qian Jiyun.

One of the deputy generals explained, “General, this woman is really vicious. Escaping from the camp is one thing, but she even killed the two soldiers guarding her in order to escape!”

“What?!” Shocked, Yan Nuo stepped forward.

Xue Ling actually dared to attack and kill two soldiers in the military camp! Seems like she really wants to die!

Fortunately, Master is even more capable and caught her. Otherwise, we won't be able to do anything to her when she returns to the Prince Zhanyun Residence and hides behind that old woman.

Qian Jiyun's sharp gaze landed on Xue Ling, emitting a faint murderous aura.

Xue Ling trembled subconsciously when she sensed it. She looked up at Qian Jiyun pitifully and shook her head.

"No, it's not like that. Brother Yun, believe me, I didn't mean to kill them! They intended to plot against me! I accidentally killed them. What I said is true, Brother Yun. It's really true!" she explained.

She could say whatever she wanted since the two soldiers were already dead. No one could refute her.

"Haha..." An Jiuyue could not help but chuckle when she heard the explanation. Two soldiers had ill intentions toward Xue Ling?

"Bullsh*t!" one of the deputy generals with an ill temper cursed.

"I chose those two soldiers personally. I know them very well. They plotted against you? Do you think you're a deity because the general gives you some attention?"

"You're not even worthy for them to serve you tea! Why would you be worthy of them plotting against you?!"

"You—" Xue Ling opened her mouth, but her anger was stuck in her throat.

She admitted the two soldiers were Deputy General Sun's trusted aides and had some authority in the military camp.
