

## **Spatial Ability 541**

### Chapter 541 What Are You Up To?

How dare Gong Cheng dig a hole for her? Was he tired of living?

In that case, she would lend him a hand and help him broaden his horizons.

“I’m a woman, so it doesn’t matter if I’m ignorant. But Gong Cheng is a man. He’ll be doomed if he’s ignorant, right?” she asked Qian Jiyun seriously.

“Yes, you’re right. He should go out and broaden his horizons,” Qian Jiyun agreed.

This brat has nothing to do here every day and only knows how to cause trouble for Jiuyue. If I don’t put him in his place this time, he’ll definitely cause trouble at Huayan Peak in the future.

“No.” Gong Cheng was dumbfounded.

Why did this conversation turn to me? Who said I’ll broaden my horizons? Is the Beast Affinity Meeting that easy to participate in?

You must be capable! Otherwise, you may be bullied if you’re not careful! With my current abilities, won’t I be bullied?

“Second Brother, I didn’t say I wanted to go. Besides, look at my face. How can I go out? I’d embarrass you. Second Sister-in-law, what are you up to?!”

He did not forget to accuse An Jiuyue.

An Jiuyue glanced at Yan Jin and asked, “It’s still early, isn’t it? Yan Jin, you’ll only be setting off in half a month, right?”

Yan Jin glanced at Gong Cheng and replied, "Yes, Mistress."

He had no sympathy for Gong Cheng at all. Gong Cheng was a blabbermouth. If they did not teach him a lesson, he would become too full of himself.

"We'll set off in half a month. We'll be able to arrive a day earlier if we hurry on the way."

"No, no..."

An Jiuyue did not give Gong Cheng a chance to speak and added, "That's great! The marks on your face should be gone in half a month, right? You can set off with Yan Jin."

"I—" Gong Cheng opened his mouth.

Why do I feel the urge to slap myself to death?

Why do I have such a blabbermouth? I decided to criticize An Jiuyue, of all people! Now I'm getting what I deserve, right? But then it's because An Jiuyue made me so angry, so I couldn't help but retort, right?

...

Qian Jiyun accompanied An Jiuyue to go shopping in the afternoon.

Business establishments on Huayan Peak were different from ordinary places. They were all set up in tents.

Although they only set up tents, they covered an unimaginably large area. An Jiuyue saw many things she had never seen before as she strolled through the street.

Moreover, the items sold here were very expensive. Merchants despised gold the most. People would only use gold to buy items no one wanted to buy.

Other valuable things were bought with Original Soul Stones and inner cores.

“Tsk tsk, this is too expensive. You need one inner core to exchange for so few vegetables and grain? You shouldn’t make demands like that. Is there any justice in this?”

An Jiuyue inquired casually about the items for sale in the stalls. The vegetables and radishes, which she rarely bought, as well as some coarse grains, were only enough for one person to eat for up to two days. Yet, they cost an inner core.

That was way too expensive. An inner core could be exchanged for 10 high-grade Original Soul Stones.

Qian Jiyun glanced at the food and said, “It’s not considered expensive. The food here doesn’t have any odors.”

Chapter 542 An Intermediary

Many people would buy the food here. Of course, it was the lords who did it. His subordinates had been sourcing food on their own for years and would never come to the shopping street to buy these items.

They would only occasionally buy food here for the women to satisfy their cravings.

That explained why there were more and more inner cores in Camp Zhan Yun.

He would have come here to buy vegetables if An Jiuyue did not have her microcosmic space or fresh edible vegetables. He had no opportunity to use his inner cores now.

“There may not be many vegetables here because it’s difficult to grow them. They were irrigated by wood-type ability users from other planes. There are only so many of them each day. There won’t be any left over.”

“So, some people specialize in selling food to live here and earn one inner core a day?” An Jiuyue understood.

People needed to have their own strengths to survive here. Would she be able to sell the vegetables in her space here?

A lot of mushrooms had piled up in her space again. They were much tastier than store-bought ones. They were fragrant, smooth, and tender.

“Yes.” Qian Jiyun nodded.

Everyone could benefit from inner cores.

However, some people could not refine medicine and were not capable of killing demonic beasts. What could they do?

They could only sell some vegetables and food they grew here in exchange for an inner core and high-grade Original Soul Stones. They could then hire people to refine medicinal pills to boost their Original Soul energy.

“This is also a viable option. Many people cultivated their Original Soul energy like this.”

“I’ll open the shop after I choose a piece of land.”

An Jiuyue made up her mind to open the shop quickly. She could not just watch others earn money while she had nothing.

She could also not rely on Qian Jiyun for everything, right?

“Alright, I’ll accompany you to choose the land after we buy the pill-refining furnace,” Qian Jiyun said.

Soon, they arrived at a shop. As soon as they entered, they saw a row of pill-refining furnaces on a shelf.

Of course, there were other things in the large tent—medicinal herbs, pills, and almost everything a medicine refiner needed.

“This shop is so big. How rich is the owner?” An Jiuyue exclaimed.

Qian Jiyun chuckled and glanced at her. “The things sold here don’t belong to one person.”

“Not one person?” An Jiuyue raised her eyebrows.

It was impossible for many people to open this shop together. There would definitely be conflicts, and the shop would not last long.

Hence, did Qian Jiyun mean that the things in this shop belonged to different people, while the boss here charged them a fee and only sold them on their behalf to survive at Huayan Peak?

“This is an intermediary!” She understood.

This intermediary was undeniably competent. Why else would they open such a large store on Huayan Peak?

“Something like that.”

Qian Jiyun thought for a moment and felt that An Jiuyue’s description was accurate.

It was essentially an intermediary who profited from the difference between the selling price and the fees charged. However, this was no easy income.

Chapter 543 Grow Up Eating Inner Cores

“Let’s look at the pill-refining furnaces.”

With that, he led her to the row of pill-refining furnaces.

There were eight pill-refining furnaces, each one exquisite and small. They had patterns made specifically for young ladies, and women adored them.

“Isn’t this Lord Qian? Do you have another medicine refiner in the camp? Why did you accompany her to buy a pill-refining furnace personally?”

When the boss saw Qian Jiyun and An Jiuyue standing in front of the furnaces, he walked toward them slowly with a smile and spoke half-jokingly.

He had long heard that Qian Jiyun had brought a woman back and that she was his wife.

However, the lady who came to buy herbs seemed very dissatisfied with the Madam and degraded her.

Now that he had seen her in person and studied her, he did not think she was as unbearable as that lady had described.

She could cultivate Original Soul energy and even buy a pill-refining furnace. She was clearly a useful person. Why did that lady degrade the Madam of their camp?

Soon, he stroked his beard and smiled in understanding.

Why would a woman degrade another woman, especially one she did not know? Was it not because of that?

Lord Qian sure was born handsome!

“Uncle Wang, this is my wife. She needs a pill-refining furnace. Please recommend them to her.” Qian Jiyun smiled and introduced An Jiuyue to Uncle Wang before turning to look at her.

“Jiuyue, this is Uncle Wang.”

“Hello, Uncle Wang.” An Jiuyue smiled and nodded at him.

“Hello, hello.” Uncle Wang smiled.

As long as someone did business with him, he would welcome them with a smile. Besides, Qian Jiyun had always been polite.

“What kind of pill-refining furnace do you want, Madam Qian? I have low-grade, medium-grade, and high-grade ones. I also have two special-grade pill-refining furnaces. The prices are also different.”

He studied An Jiuyue again.

“Madam Qian, you must have just entered the ranks of a medicine refiner, right? I suggest you buy a low-grade pill-refining furnace to practice with. You can buy a higher-grade one when your medicine refinement level increases.

“A low-grade furnace is not expensive. It only costs 1,000 high-grade Original Soul Stones each.”

An Jiuyue almost screamed. She was stunned for a long time before asking calmly, “How much?!”

However, her tone was not any better. She was a little startled.

10 high-grade Original Soul Stones could only be used to buy one inner core—the inner cores of ordinary demonic beasts, not the special ones.

1,000 high-grade Original Soul Stones were equivalent to 100 inner cores.

Was it necessary for a pill-refining furnace, especially a low-grade one, to be so expensive?

Did this thing grow up eating high-grade Original Soul Stones or inner cores?

“1,000 high-grade Original Soul Stones? Why is it so expensive?”

“Is it expensive?” Uncle Wang looked at Qian Jiyun in confusion.

Everything he had here was reasonably priced. He never overcharged his customers for anything.

“Uncle Wang, please don’t blame her. My wife just arrived at Huayan Peak and is unfamiliar with the prices here,” Qian Jiyun explained with a smile.

When he first arrived at Huayan Peak, he thought so too. Pill-refining furnaces were indeed expensive, but he had no choice. No camp at Huayan Peak could survive without them.

Moreover, the pill-refining furnaces could not be used for long. It would deplete if used for too long.

Chapter 544 Buy Them if They Wanted To

A low-grade pill-refining furnace like this would only last a maximum of three years. A medicine refiner could use it to provide essential medicinal pills to 30 guardians daily.

It was not bad, considering how a guardian could obtain an inner core daily.

At the very least, they would not have to worry about their lives anymore. People would not die so easily.

He looked at An Jiuyue and said softly, “Jiuyue, we shouldn’t buy low-grade pill-refining furnaces. We have to use them eventually. We should buy high-quality ones. Pick one you like.”

An Jiuyue remained silent.

Can I say that I don't want to choose any of them?

She had immersed her consciousness in the Points Mall and checked the medicine refinement page. There were also pill-refining furnaces.

Medium-grade furnaces could last for 10 years even if she used them 24 hours a day. They only cost 500 points! She could get one easily using the points she earned from the medicinal pills she refined to save people.

Even a piece of land would cost her more than 500 points, but here she had to spend...

"What's the price of a medium-grade pill-refining furnace?" she asked Uncle Wang faintly.

"A medium-grade one is a little more expensive. It costs 5,000 high-grade Original Soul Stones," Uncle Wang replied as he reached for a medium-grade pill-refining furnace.

An Jiuyue tried her best to suppress her inner screams and muttered, "You call this a little more expensive?"

The price increased from 1,000 to 5,000 Original Soul Stones at once? And it's only a little more expensive? It's clearly much more expensive!

"Madam Qian, you might not know this, but medium-grade pill-refining furnaces are much better than low-grade ones. The quality of the medicinal pills refined is also different," Uncle Wang explained.

Medium-grade pill-refining furnaces could last for five years. Moreover, they could be used to refine medium-grade medicinal pills. The prices would naturally differ. They would definitely cost much more.

"May I know which one you like?" he asked.

"No, I don't like any of them," An Jiuyue said quickly.

She was afraid that if she did not say it in time, Qian Jiyun would quickly pay with the high-grade Original Soul Stones, as he did at the Building of Years.

“Jiyun, I haven’t started refining medicine yet. I don’t know if I can eventually refine medicine successfully. Why don’t we go back and try to refine medicine first? We’ll see if we need to buy one later.”

She suggested to Qian Jiyun to save as much money as possible. Huayan Peak required a lot of money everywhere.

She decided she would exchange the points in the Points Mall for a pill-refining furnace.

She could even obtain a high-grade pill-refining furnace with 1,500 points.

If she refined medicinal pills to save people in the future, she could earn back her points quickly. Wouldn’t that be great! Why would she have to spend so much money here? It made her heart ache!

“Besides, think about it. I’ll only know what kind of furnace I’d need after I’ve refined pills. Don’t you think so?”

“Are you sure?” Qian Jiyun looked at her seriously and asked.

He knew An Jiuyue could exchange points for them in the Points Mall. On the way here, she had even told him her plans to inquire about the price of the pill-refining furnaces first. She would buy one if it were cheaper than the ones at the Points Mall.

“Yes, yes. I’m sure.” An Jiuyue nodded immediately.

She was very sure. Whoever wanted these exorbitantly expensive pill-refining furnaces could buy them if they wanted to. She, on the other hand, did not.

“Then let’s buy some herbs.” Qian Jiyun nodded and looked at Uncle Wang.

Chapter 545 Up to Her to Coax Someone

“Uncle Wang, order 5,000 high-grade Original Soul Stones worth of high-quality medicinal herbs according to this pill formula. I want every kind of herb. Also, give me 5,000 high-grade Original Soul Stones worth of Flaming Jade. Please send someone to send them to Camp Zhan Yun.”

“Okay, okay.” Uncle Wang’s eyes sparkled as he agreed.

In the end, they did not buy the pill-refining furnace. There was no need to.

“You even said it was cheap.” An Jiuyue rolled her eyes at Qian Jiyun after leaving the shop.

Qian Jiyun had told her that the pill-refining furnace was the most common item and was extremely cheap. She had believed it was cheap, but she was shocked when she inquired about it.

What the hell? How was that cheap?

It was outrageously expensive! How long would it take a person to kill demonic beasts to get 500 inner cores? A year?

No, if people like Yan Nuo and others could obtain 400 inner cores a year, they would wake up from their sleep smiling.

5,000 inner cores?

According to Qian Jiyun, someone like him could be considered one of the strongest at Huayan Peak. However, he could only obtain 1,000 inner cores a year. Moreover, he had to kill demonic beasts at Huayan Peak daily.

There were four medicine refiners in Camp Zhan Yun. They initially spent all their inner cores on four pill-refining furnaces.

“It’s just a pill-refining furnace,” Qian Jiyun replied with a straight face, feeling unhappy.

He did not spend the money he was supposed to. In fact, he did not spend what he was supposed to spend on his wife. How could he be happy?

Fortunately, they bought some medicinal herbs and Flaming Jade worth 10,000 high-grade Original Soul Stones. It should be enough for her to refine medicine for a long time.

He naturally did not expect a newbie like An Jiuyue to refine many medicinal pills with these 5,000 herbs. They were only for practice.

“Since you don’t have to buy a pill-refining furnace, buy something else. There are a lot of medicinal herbs here. We’ll buy more when they restock next time.”

An Jiuyue rolled her eyes secretly.

They almost bought out all the herbs from Uncle Wang with 5,000 high-grade Original Soul Stones. Did he think she was a medicine refinement machine?

However, she could tell the man was unhappy because he did not spend the money.

“What do you think of this pill-refining furnace?”

It was up to her to coax someone who was unhappy because she did not buy anything. What if he refused to accompany her to look at empty lands to open her shop?

She wondered who she had offended. Was it wrong of her to save money?

“I think this pill-refining furnace is much better than the ones I saw before. What do you think?” she asked Qian Jiyun as she presented the pill-refining furnace she had selected and exchanged for in the Points Mall.

“It’s alright.”

It was undeniable that the items obtained from An Jiuyue’s Points Mall were excellent.

It could not be disputed. Even a small pill-refining furnace contained powerful spiritual energy that was absent in the ordinary pill-refining furnaces here.

“It’s so-so. It’s barely passable.”

“What do you mean by ‘so-so’?” An Jiuyue could not stand it anymore and glared at him.

This pill-refining furnace was regarded as of higher quality in her Points Mall. She had seen that the lower-quality ones could be purchased with a few dozen points.

She spent a long time choosing this. How was it so-so?

Chapter 546 Go to the Suspended Pavilion

“This pill-refining furnace is a high-grade one in the Points Mall. Can you find one like that just now? It only costs 1,500 points. I can get the points by asking Wei Na to grow some vegetables and sell them to the Points Mall.

“It’s much better than the previous ones. This thing can be sold for an astronomical price here, but it’s only so-so in your eyes? Qian Jiyun, are you crazy?” she snapped at him.

“If you have 100, 500, or even just one inner core, you might as well give them to me to refine Blood Coagulation Pills and Original Soul Pills or other medicinal pills. They can treat illnesses, save people, and increase Original Soul energy.”

At Huayan Peak, the most important use of inner cores was to refine Blood Coagulation Pills. An inner core could be used as an efficacy enhancer to refine many Blood Coagulation Pills or Original Soul Pills.

The Original Soul Stone was the main medicinal herb for the Original Soul Pill. It was dug out of the mineral vein at Huayan Peak and was one of the common currencies here.

These two items would be much more useful in her hands than spent on a pill-refining furnace.

“When the time comes, I can sell these medicinal pills. I’m not opening a shop for no reason. Speaking of which, let’s not stand around. Hurry up and bring me to see the land plots to find a suitable place to open my shop.”

“Alright, I’ll bring you there.” Qian Jiyun had no choice but to agree.

What else could he possibly say? An Jiuyue had already bought a pill-refining furnace that was better than all the others they had seen. He could not say anything about it.

In the end, Qian Jiyun could only bring her to look at the empty land.

“Master, how can you have the nerve to say that? You haven’t even started refining medicine officially,” Wei Na muttered.

Master hasn’t even refined a single medicinal pill yet, and she’s already thinking about using it to treat illnesses and save people?

“I’ll start refining tonight!” An Jiuyue gritted her teeth and said. She understood what Wei Na meant.

Wei Na thinks I can’t do it now, right?

Although I also think that if I refine pills successfully, they’ll only be of low quality, so what? Everyone learns one step at a time, and I am no exception!

“Master, I suggest you go to the Suspended Pavilion before refining medicine,” Wei Na reminded.

“I know.”

She had already sensed the changes in the Suspended Pavilion.

However, she was outside now, so she would not go to the Suspended Pavilion. She would go at night.

...

According to the rules of the shopping street, anyone who wanted to open a shop did not have to pay for it. Whoever occupied a piece of land on Huayan Peak would own it as long as they could defend it.

The shopping street was more than just a street; it was an entire area. There were already tents densely packed in the center, so it was naturally not their place to open a shop there.

Hence, they could only go to the edges to see if there were any suitable locations to set up their shop.

He glanced at the large empty space closest to their camp and asked An Jiuyue, “How’s this place?”

“Isn’t it a little too big?” An Jiuyue looked at the large empty space and asked.

Large spaces were useless. Her shop could only be so big, right?

“Master, the Points Mall can be upgraded. Can your shop be upgraded too?”

An Jiuyue was thinking about how her shop was too small and could only take up a small amount of space when she heard Wei Na’s reminder in her head.

Chapter 547 Is This a Seven-Story Pagoda?

An Jiuyue remained silent.

That's possible. But how will I know if it will upgrade?

I've never upgraded it, so I can't be sure of this. What if it can't upgrade? But what if it can?

Everything was in high demand but short supply at Huayan Peak, especially vegetables, food, and fruits. They were more valuable than medicinal pills and were widely consumed.

If she actually sold these items in her shop, there would be more customers here. Wouldn't many other shops open next to hers soon?

In that case, it would be fine if her shop was upgraded and vertically expanded into a two-story building.

However, if her shop expanded horizontally, she would run out of space. How could it be upgraded?

"Isn't it good to have a bigger place?" Qian Jiyun raised his eyebrows and asked.

Did An Jiuyue not see the shops earlier? They were large because they were tents.

"It's quite good."

She did not think it was good at first. However, after Wei Na's reminder, she decided that a larger area was preferable. She wanted to occupy more space.

However, she could not occupy this land just because she wanted to. She had to occupy it with buildings.

"Why don't I try seeing how big my shop is?" she suggested.

"You can try it?" Qian Jiyun was puzzled.

He thought the Points Shop Jade that An Jiuyue had was no ordinary item. The shop would appear as soon as she placed it on the ground, right?

Could she try it and then relocate it if it was unsuitable here?

An Jiuyue nodded. "Yes. I have three tries."

She only found out about this after obtaining the Points Shop Jade.

She was not given a prompt like that when she was in Daqing Kingdom, but things changed when she arrived at Huayan Peak.

She reasoned that this was similar to how her space barred humans over the age of three from entering. Because Huayan Peak was unique, the things she had changed.

Soon, a tall building was erected on the ground.

"One, two, three..."

An Jiuyue lifted her head again and again and finally counted to seven.

"Is this a seven-story pagoda? Isn't it too high?" The corners of her mouth twitched as she muttered.

She had initially assumed there was only one floor. However, she was given seven right off the bat. Now the things she had in her space were not enough to even fill that many floors.

Of course, she could fill it up if she stuffed every floor with vegetables. After all, the mushrooms grew at a rapid pace.

However, that was obviously unrealistic. She would not do that.

“Can we go in and take a look?” Qian Jiyun asked.

“We should be able to, right?”

An Jiuyue was not too sure either. She had never entered the shop before.

“Let’s go in and take a look.”

Without saying anything else, Qian Jiyun pulled her towards the door of the “seven-story pagoda”.

As expected, they were able to enter without being stopped. They noticed a sign at the entrance as soon as they walked in.

When they saw “An” written on it, the corners of their mouths twitched.

“It can even do this?”

Qian Jiyun’s thin lips curled up as he looked at his wife.

“Maybe. This is a high-end shop, after all. We can’t use common sense to understand it.”

An Jiuyue was also having difficulties taking this all in, but she spoke calmly to show that she was calm.

Chapter 548 Open for Business Right Now!

It turned out that this shop was not the type to stay in one location unless it went bankrupt or the lease expired.

This was a roving shop. For example, if she opened it on the northern side of Huayan Peak today, the people in the north would be happy and have food to eat. However, it was uncertain where the shop would open tomorrow.

Moreover, this shop would only be randomly open for two hours per day!

She exclaimed internally, "This whole thing is like a traveling merchant in a game!"

It was like a traveling merchant who could go wherever they pleased as long as they placed the goods on the rack.

Of course, she had no control over where it would be opened. It was random.

"How much money can we earn like this?" she asked herself.

If the shop opened in an uninhabited place for a month, she would have to starve for that month.

"I think this is good. You won't be surrounded by other shops," Qian Jiyun said with a smile.

"But what if it opens in some nooks every day? I won't be able to earn anything, right?" An Jiuyue voiced her concern. This was a big problem, right?

"It won't choose uninhabited areas because it's a shop, right?" Qian Jiyun asked. Of course, this was only his speculation.

An Jiuyue raised her eyebrows. "That's true."

Isn't this Points Shop meant to earn points for me? The Points Mall won't let it open in an uninhabited area, right?

Unfortunately, she was mistaken. It was, in fact, very random. The shop could open in every nook and cranny of Huayan Peak.

Of course, Qian Jiyun and An Jiuyue did not expect people on Huayan Peak to go crazy for a bite.

They were not expecting them to send people to look for this shop every day and bring some inner cores and Original Soul Stones to empty the shop, leaving nothing for others.

“I’ll set it up in my space tonight and open for business every day. I’ll sell vegetables and fruits on the first floor,” she said.

In any case, she could only operate on the first floor. She could not go up to the second floor—there wasn’t even a staircase. Besides, she could only sell vegetables and fruits now.

She had yet to unlock her pasture, so there was no meat.

Moreover, the medicinal herbs planted in her space were useless at Huayan Peak.

“Okay,” Qian Jiyun replied.

He used to be able to help with matters inside the microcosmic space.

However, he could not interfere now because he could not enter. He could only let An Jiuyue do her own work.

An Jiuyue thought for a moment and asked, “Why don’t we go back now?”

She should still have an hour to sell vegetables if she prepared them now, right? She might be able to sell some vegetables to earn a few Original Soul Stones or inner cores.

“Let’s go back then,” Qian Jiyun replied, leading her out.

He would let her do whatever she wanted, as long as she was happy. He would even send someone to buy all the vegetables here later if it made her happy.

“Let’s go, let’s go. Let’s go quickly.”

The more An Jiuyue thought about it, the more impatient she became. She held his hand and led him back to the camp.

I need to hurry and prepare all the vegetables and fruits! I don’t care what day it is today. I’ll open for business right now!

...

In the microcosmic space...

An Jiuyue activated the paper effigies installed inside the seven-story shop.

Chapter 549 Isn’t This Too Convenient?

First, the vegetables. The most vegetables she displayed were mushrooms, followed by wild vegetables, then small vegetables, radishes, spinach, and others. They had been planted in her space and were readily available. There were also water-based vegetables like water chestnuts and lotus roots.

Next, the fruits. She had peaches, plums, persimmons, and pomegranates. She had planted them in her space earlier. A batch of them had ripened and could be sold.

Of course, she did not display everything—only a portion.

Finally, the grains. She had rice, wheat, green beans, soybeans, and corn. She had planted them as well and had everything on display.

As for the price...

What was that? An Jiuyue expressed that she did not know that.

This was because she only had to set the number of kilograms for each item to be placed on the shelves every day. The paper effigies would stock the goods on the shelves automatically, and the system would determine the prices. It was simply random!

There was a new storage unit in the Points Mall since the shop opened. It was used to store the money earned daily. Simply put, there were inner cores, Original Soul Stones, and so on.

She could spend the money whenever she wanted.

After leaving the shop, she looked up at Wei Na, who was circling around her, and asked, "Wei Na, isn't this too convenient? There's nothing to do now?"

Wei Na was speechless.

Master, you may have nothing to do now, but I'm busy!

I have to plant all kinds of crops every day to supply goods to the shop. Otherwise, we'll run out of stock one day!

"Master, do you want to revolve your life around the shop daily?" Wei Na snapped.

"Of course not." An Jiuyue shook her head without hesitation.

This setting was the best. She did not have to worry about what to sell every day. She only had to set the number of goods sold daily and let the paper effigies do the rest.

"Keep watch over it. I'm going out," she instructed Wei Na before returning to the tent.

Qian Jiyun had been waiting in the tent. When he saw An Jiuyue come out, he asked, "Are all your goods on the shelves?"

"Yes, it's very easy. I don't have to care about it for the time being."

An Jiuyue was quite happy. She could slowly hone her medicine refinement skills in the coming days.

"I don't know if they'll be sold, but I don't care. If I can't sell them, so be it. I'll continue selling them tomorrow. It's still early, right? Are the herbs delivered? I want to try refining medicine first."

In fact, she was rather worried. Although she had good intentions, what if she was not skilled enough and ruined all the medicinal herbs?

Wouldn't that be embarrassing?

"Take a look at the pill-refining books and prepare the pill-refining furnace. I'll go outside and see if the herbs have been delivered. I'll bring them to you," Qian Jiyun said and left.

He actually knew if the medicinal herbs had been delivered. After all, it was a huge transaction. Uncle Wang would have them delivered quickly. By now, they should have been delivered to the camp. Yan Nuo and Yan Jin would collect and pay for the goods.

He was going to do something else.

...

In another part of the camp, Yan Nuo and Yan Jin were in the midst of counting the number of medicinal herbs and Flaming Jade.

"Yan Nuo, Yan Jin, who bought so many medicinal herbs?"

Shui Liu and Shu Xian were refining medicine when they were informed that a large number of medicinal herbs had been delivered to the camp. They quickly finished what they were working on and came over to take a look.

They were shocked by what they saw. Wasn't this too much?

Chapter 550 Rely on Extraordinary Perseverance and Hard Work

They would usually only withdraw a little from Zhao Weimu, who was in charge of their assets. They would already feel devastated if they purchased enough medicinal herbs to refine pills for half a month.

Why did the camp buy so many medicinal herbs at once?

“Did Master buy it? Is he trying to make us refine medicine 24 hours a day without rest?”

Shui Xian could not help but wonder if what she said was true.

After all, not only did Ye Chenglin cause trouble for herself, but she also implicated Qin Yifeng and had her sent to the protected grounds.

Of course, Qin Yifeng and Qin Tingfeng were not the only ones affected. They, too, were affected. They had become busier since losing two medicine refiners.

She had been complaining in her heart initially. However, her sister told her that intermediate and advanced medicine refiners were all once forced to become good at what they did.

No medicine refiner could improve easily. They had to rely on extraordinary perseverance and hard work to do so.

Perhaps their level of medicine refinement would improve after being forced by reality?

If that happened, she would undoubtedly thank Ye Chenglin. They might not have made any progress if she hadn't caused trouble and made her and her sister, Shui Liu, the only two remaining medicine refiners in the camp, flustered.

Of course, these were her mere thoughts.

"What are you thinking about?"

Yan Jin looked up from the large pile of medicinal herbs and glanced at them.

"Master bought this for Mistress," he said.

Only their master would be willing to spend so much on this many medicinal herbs and Flaming Jade. Uncle Wang, who had delivered the medicinal herbs, was grinning happily.

He must have bought nearly all of Uncle Wang's herbs, right?

"He bought it for Mistress?" Shui Liu raised her eyebrows in understanding.

It seems like Mistress wants to become a medicine refiner too! That's fantastic news!

She was worried that Ye Chenglin, who specialized in causing trouble, would be recalled because there were insufficient medicine refiners in the camp and the number of medicinal pills refined could not keep up with the rate at which people were injured.

They could barely scrape by if their mistress knew how to refine medicine too. At most, they would request that Qin Yifeng return.

As for Ye Chenglin, she could go wherever she pleased.

She was arrogant and thought her medicinal refinement skills were the best in their camp. In fact, the four of them were roughly equally skilled. They had recently advanced to intermediate-level medicine refiners.

However, Ye Chenglin had advanced to an intermediate medicine refiner a few days before them. Even though it had only been a few days, she was arrogant, as if she had become the best in the world.

“I’ll gather all the pill prescriptions later and deliver them to Mistress,” she said after some thought.

The medicinal herbs and Flaming Jade were insufficient—the prescription was the most important. She knew that their master had brought her to the Building of Years, but every camp had its own secret medicine. They were no exception.

She had to send her these prescriptions.

“Sister, I don’t think all the necessary medicinal herbs are here. Some can’t be bought. We must deliver them to Mistress too,” Shui Xian added.

Medicine refiners like them would buy herbs from the shopping street and also go out to pick herbs. Herb picking was extremely dangerous here.

She felt that their master would definitely not let their mistress do it.

“Why don’t we pick some fresh medicinal herbs over the next two days?” she suggested.
