Chapter 571 Can't Collect Any For Now

After refining two batches of medicinal pills, she came out to check on the commotion. She knew Ye Chenglin would not hand over the antidote pill so easily. Everyone knew this.

However, if Ye Chenglin had been wise enough to hand over the antidote from the start, gain everyone's favor, and spend a few days at the Spirit Severing Cliff, she might have been able to overcome this.

Unfortunately, Ye Chenglin was not an intelligent person. She could not understand simple logic like that.

"You don't have the antidote pill anymore?"

An Jiuyue heard Ye Chenglin's last sentence.

How could the antidote pill be gone? Why did Ye Chenglin return from the Spirit Severing Cliff if it was gone?

Everyone fell silent when they heard her question. What would happen to Zhao Wei'an if the antidote pill was gone? They knew it was not gone—Ye Chenglin was withholding it.

However, their master could not give in to a subordinate. Even they would not agree to this, let alone their master.

What was happening? How could a subordinate dare challenge her master? If this had happened in Daqing Kingdom, she would have been dragged out and beaten to death. Could she still live and maintain her arrogance here?

Just then, Yan Nuo returned in a hurry.

He approached Qian Jiyun and whispered, "Master, Uncle Wang doesn't have any intermediate, high-grade antidote pills, nor any of higher quality."

Qian Jiyun frowned and looked at Yan Nuo with his dark eyes.

Yan Nuo understood what his master meant and replied softly, "I asked Uncle Wang to collect some, but he couldn't collect any either."

"According to Uncle Wang, many people have been poisoned by the Scaled Viper today. Our camp is lucky to have only one casualty, but we can't collect any antidote pill for now."

He had also asked Uncle Wang to collect the medicinal pills, but he could not collect any.

Yan Nuo had been waiting for him there. Otherwise, he would have returned to the camp earlier.

Of course, everyone heard what Yan Nuo said. They frowned.

Although Ye Chenglin was unaware of it, they knew that Zhao Wei'an, not Ye Chengzong, had been poisoned.

Zhao Wei'an would die if there was no antidote pill.

Everyone's attention was on Ye Chenglin. Even Ye Chengzong stared at her.

"Where is the antidote pill?" Ye Chengzong asked again.

"It's gone."

Ye Chenglin was about to be sent back to the Spirit Severing Cliff. How could she hand over the pill? She snorted and turned her head away.

“What antidote pill? I threw that away long ago.”

“You—”

Ye Chengzong was furious. He raised his hand and was about to hit Ye Chenglin.

But what was the point of hitting her? He knew she would not hand over the antidote pill. He reckoned she probably knew it was dangerous to keep it with her and had secretly found a place to hide it earlier.

Ye Chengzong was correct: Ye Chenglin had indeed hidden the antidote pill.

Moreover, someone had seen Ye Chenglin hide the antidote pill. However, it was a passer-by from another camp, not someone from theirs.

That person had already dug out the antidote pill, brought it back to his camp, and fed it to the poisoned people.

Chapter 572 Why Not Owe Me Instead of Others?

How could there still be any left?

“Ye Chengzong, escort her back to the Spirit Severing Cliff personally,” Qian Jiyun instructed.

Since the antidote pill was gone, why should he keep this woman?

“This is the last time. Ye Chengzong, remember what you said.”

“Yes, Master.” Ye Chengzong heaved a sigh of relief. “I’ll definitely end Ye Chenglin with my own hands if this happens again.”

This was his promise to his master and an act of accountability to others. This was an issue beyond his humiliation at having a younger sister like her.

“Big Brother!”

Ye Chenglin could not believe Ye Chengzong would say something like that.

He actually said he would end me with his own hands? Even a fool knows what he means!

“You’re my biological brother!”

Ye Chengzong glanced at her indifferently. “So you still know that I’m your big brother?”

Would Ye Chenglin do such a thing if she really thought he was her big brother? Did she only remember that he was her big brother because she was ordered to return to the Spirit Severing Cliff?

“Don’t just stand there. Come with me to the Spirit Severing Cliff.”

“No, I’m not going!” Ye Chenglin shook her head.

It was not easy for her to return to the camp. She was adamant about not going to the Spirit Severing Cliff.

She had had enough after spending the day at the Spirit Severing Cliff. She could not imagine how she would live there.

“Big Brother, help me plead with Master. I’m willing to retrieve the antidote pill. Please beg Master not to let me go to the Spirit Severing Cliff. That place is really not a place for humans.”

She only felt fear when Ye Chengzong grabbed her arm and dragged her toward the camp’s entrance.

If she went, she would be unable to return to the camp for the foreseeable future. She might even die at the Spirit Severing Cliff soon. Hence, she did not wish to go and felt she must not go!

However, Ye Chengzong did not care if she wanted to and dragged her away.

He believed his master would find a way to deal with the issue regarding the medicinal pill. His master knew many people since he became the lord of a camp at Huayan Peak.

Everyone breathed a sigh of relief as they watched Ye Chenglin leave.

If a woman like her stayed in the camp, she could endanger many people in the future. It was for the best that she left.

Some even thought it would be best if Ye Chenglin died at the Spirit Severing Cliff so that no one would worry.

Soon, everyone dispersed. Shui Liu and Shui Xian went to take care of Zhao Wei'an.

“Yan Nuo, go out again and make a trip to Camp Xiang Yang—”

Qian Jiyun, who had returned to the tent, eventually instructed Yan Nuo again.

He did not want to owe anyone a favor, but he could not care less now. He understood that saving someone's life was more important than repaying a favor.

“Are you going to buy antidote pills from someone else?” An Jiuyue interrupted him.

Yan Nuo explained, “Mistress, you may not know this, but Lord Xiang of Camp Xiang Yang is on good terms with Master. Moreover, he has an intermediate-level, high-grade medicine refiner in his camp.”

What he did not say was that there were drawbacks to looking for Lord Xiang.

“Since you have to owe someone a favor anyway, why not owe me instead of others?” An Jiuyue raised her brows and pulled out a porcelain bottle, handing it to Qian Jiyun.

She knew owing others a favor on Huayan Peak was not good. Who knew how he would have to repay them in the future?

Chapter 573 Don't Say It's Mine

“Is this an antidote pill?”

Qian Jiyun opened the porcelain bottle, and a fragrance wafted into his nose.

“Mistress, you can refine intermediate, high-grade antidote pills?” Yan Nuo asked in surprise without looking at the pill in the porcelain bottle.

An Jiuyue was speechless.

Are Intermediate, high-grade antidote pills mere rocks on the ground? Does he think he can have as many as he wants?

She rolled her eyes at Yan Nuo. “Yan Nuo, shut up. If I can do it, do we still have to watch Ye Chenglin cause a scene for so long?”

“Then this is...”

“An antidote pill I happened to obtain. I heard it can detoxify many types of poisons. Let's give it a try,” An Jiuyue said.

She had spent a lot of points to exchange for this antidote pill from the Points Mall. It was definitely effective.

Yan Nuo did not know that, but Qian Jiyun did.

He immediately handed the porcelain bottle to Yan Nuo. “Bring it there and feed this to Zhao Wei’an personally.”

“Don’t say it’s mine,” An Jiuyue added.

An antidote pill could cause her a lot of trouble.

She could win everyone’s hearts after what happened just now by presenting the antidote pill, as Wei Na suggested. She would, however, face public criticism if she could not produce the antidote pill one day.

“I only have one antidote pill.”

When she saw Yan Nuo staring at her, she explained that she could not fork out any more pills—this was all she had.

“Yes, Master,” Yan Nuo replied. He exited with the porcelain bottle.

After Yan Nuo left, Qian Jiyun turned to look at her.

“How many points did you spend?”

“Not many.” An Jiuyue raised her eyebrows and did not elaborate.

However, she had burned a hole in her pocket recently. Her heart ached.

She even unlocked the pasture ahead of time and placed all of the poultry in her space there to earn more points. The pheasant kept laying and hatching eggs, and the wild rabbit also gave birth to a nest of baby rabbits.

She had wanted to wait a little longer but suddenly felt her points would decrease if she did not unlock a pasture today.

The epidemic in Daqing Kingdom would eventually pass.

If she unlocked the pasture, her chickens could lay eggs, and the eggs could hatch into chickens. Furthermore, the poultry grew faster in the pasture than they did in the space.

She was killing two birds with one stone.

“Let’s not talk about this anymore. Jiyun, look at the medicinal pills I refined. What grade are they?”

Points were a headache. It was better not to think about it. She had refined two batches of medicinal pills, but she did not know what grade they were. She did not know how to judge it because it was her first time.

She handed the two bottles of pills to Qian Jiyun.

“You refined two... three batches?”

Qian Jiyun wanted to say two batches because every medicine refiner stored medicinal pills in porcelain bottles.

However, when he opened the porcelain bottles, he found they each contained 10 medicinal pills. A typical medicine refiner could only refine a maximum of seven or eight pills per batch. It was impossible to refine 10 pills.

Hence, he instinctively assumed An Jiuyue had refined three batches.

“No, I only refined two batches. Check their grade and tell me quickly,” An Jiuyue said.

She was eager to learn the grade of the medicinal pills she refined so she could determine her level of medicine refinement. She would know how hard she would have to work in the future.

Chapter 574 It's Already So Late!

“Two batches...”

Qian Jiyun struggled to keep his cool but remained calm on the surface.

Jiuyue has only recently begun refining medicinal pills. It's surprising enough that she can refine two batches of 10 medicinal pills in a row. Besides, how long has it been? How did she refine two in a row?

He took a step forward and asked, concerned, “How are you? Do you feel that your Original Soul energy has been severely depleted?”

“No, no. I'm fine. I recovered after meditating for a while. I can even refine a few more batches now.” An Jiuyue waved at him indifferently.

She, too, was perplexed. How could she regain her Original Soul energy by meditating for a while after refining the pills?

“Hurry up and tell me what grade these antidote pills are. You know how to judge them, right?”

“What are you thinking?” Qian Jiyun raised his hand and tapped her forehead in amusement.

He was worried about her physical condition, while she doubted his ability. What was going on?

“You're already very talented. These are junior-level, high-grade antidote pills. Generally speaking, a typical medicine refiner cannot refine a junior, high-grade medicinal pill on the first try.”

However, he did not mention that medicine refiners would typically fail nine out of 10 times when they learned medicine refinement for the first time. How could they have done what she did?

He had never heard of this.

“Junior-level, high-grade? That good?” An Jiuyue was surprised.

She took the porcelain bottle from his grasp and sniffed it. The medicinal fragrance made her want to refine medicine again. What should she do?

“Maybe because I refined them in the space. Perhaps I won’t be as effective outside,” she said.

“Maybe.”

Qian Jiyun said nothing. He would go along with whatever she said.

No matter where the medicinal pills were refined, how could they be refined if one was incapable?

Locations were secondary. At the end of the day, An Jiuyue relied on her abilities, right?

“It’s getting dark. Rest for a while. I’ll bring Zheng’er and Rong’er over for dinner,” he said as he handed her the bottles of pills again.

After she took them from him, he turned around and left the tent to look for his two sons next door.

“Oh, it’s already so late!” An Jiuyue snapped back to her senses.

She had been so preoccupied with Ye Chenglin that she had not noticed the sky had darkened.

“No, I have to cook some vegetable dishes. We can’t just eat wild boar meat,” she muttered and returned to her space.

Her heart ached when she saw the large residence in her space. She had only bought it for a while, but she would be living alone soon.

Because no one over the age of three could enter the space except her!

If she had known earlier, she would not have bought it. She had been tricked.

“But I couldn’t have known earlier!” She was helpless.

She never expected outsiders to be barred from entering the space after arriving at Huayan Peak. Furthermore, this space divided people into three categories: her, children under the age of three, and everyone else who did not fit into the first two.

But the majority of people fell into the third category!

However, as Qian Jiyun had noted, this was good for her too. It was preferable to her bringing people in carelessly and falling victim to a scheme, right?

Chapter 575 Stop Scolding Her

Although it was inconvenient that people could no longer enter, it was still a positive change. She would get used to it.

...

Zhao Wei’an did not know what Yan Nuo said, but his skin color returned to normal rapidly after taking the antidote pill.

After the swelling on his body had subsided, his skin appeared wrinkled.

But no one cared about that now. He was fortunate to be alive. It was better to have wrinkled skin than to face the King of Hell.

“That Ye Chenglin is too vicious.”

They had the mood to talk only after seeing that Zhao Wei’an had recovered. And they were talking about Ye Chenglin.

Everyone knew she had the antidote pill—she simply refused to hand it over. They had seen vicious people before but never anyone so vicious. Everyone finally had the time to scold this woman.

“That’s right. I really don’t know what she’s thinking. Yan Nuo, if Ye Chenglin had handed over the antidote pill, wouldn’t Master remember her good deed?”

“That’s a great merit! Although Master won’t let Ye Chenglin return immediately because of this, she can probably return after a few days if she admits her mistake and has a good attitude, right?”

“Why didn’t she seize such a good opportunity? Our captain even went to great lengths to ask people to look after his sister at the Spirit Severing Cliff.”

“Captain will suffer having a younger sister like her. She’ll embarrass him in the future.”

As they spoke, they began to feel sorry for their captain. After all, their captain was a good person. Who could stand having a younger sister like her?

“Alright, alright. Stop scolding her.”

Although Zhao Wei’an had been cured of the poison, he was still weak. However, he still stopped everyone from talking about Ye Chenglin.

He did not have a good impression of Ye Chenglin—he hated her too. She disregarded his life for her own interests. If it were him, he would not leave her in the lurch.

However, Ye Chenglin did. Not only did she do it, but she did it under the mistaken belief that her brother had been poisoned.

But so what?

Ye Chenglin was the one who did something wrong. What did it have to do with their captain?

Although no one said anything negative about the captain, he must have felt terrible when his younger sister was mentioned.

“You can say these things here, but you must not say a word in front of Captain. He’s already sad enough,” he warned them.

“Got it.”

“Is there a need for you to say that?”

“We have better things to do than mention Ye Chenglin to Captain!”

Everyone agreed. Yan Nuo listened but did not say anything.

Ye Chenglin was destined to spend the rest of her life at the Spirit Severing Cliff. It was fine as long as she did not cause any more trouble. He did not want to care about anything else. What did it have to do with him?

“I heard we have wild boar meat today. Aren’t you all going to keep an eye on it? Bring a bowl of it for Wei’an,” he reminded everyone.

“We have wild boar meat?”

Everyone’s eyes lit up when they heard about the wild boar meat. One of the men stood up immediately.

“Wei’an, you should rest. We’ll go first. I’ll bring you a big bowl later.”

With that, he ran away without waiting for anyone to react.

Chapter 576 Do You Want Me to Die?

When the others saw their companion run off, they exchanged a few words with Zhao Wei’an before running off quickly, as if afraid they would lose their share of meat if they ran too slowly.

“It’s good to have food to eat.”

Zhao Wei’an smiled as he watched them run faster than rabbits.

They did not have much food or drink at Huayan Peak. People here had particularly voracious appetites and ate a lot. When they saw food, their eyes glowed.

Yan Nuo looked at Zhao Wei’an and reminded him, “Wei’an, rest well. Don’t go anywhere for the next few days.”

“Rest for a few days? How can I do that?”

Zhao Wei’an panicked when he heard he had to rest for a few days.

The marshland was already short of guardians. One person was doing the work of two. How could he sit still when he knew he needed to rest for a few days?

“No, no, I’m fine. I can go back after resting for a night.”

Yan Nuo raised his eyebrows and asked, “Are you sure?”

Even if he was not a medicine refiner, he knew how potent the Scaled Viper’s venom was.

“How much Original Soul energy do you have left? Are you returning to the marshland to kill demonic beasts or let them kill you?” he asked again.

“Uh!” Zhao Wei’an was stunned by his words.

That’s right. I’ve been poisoned. How can I survive if I don’t rest well for a few days? Even if I force my way back, I’ll only implicate others.

“You should rest well. Master will make arrangements. You don’t have to worry about it.” Yan Nuo patted his shoulder a few times and left.

Zhao Wei’an sighed heavily.

It would have been fantastic if he had not been poisoned. Unfortunately, he had been poisoned. How unlucky! Why did they encounter the venomous Scaled Piper?

...

On the way to the Spirit Severing Cliff...

Ye Chengzong dragged Ye Chenglin all the way. She was extremely unwilling.

“Big Brother, I’m begging you. Please plead with Master and let me return to the camp. The Spirit Severing Cliff is really not a place for humans. Big Brother, on account that I’m your biological sister, please help me again this time.”

She struggled to break free from his grip to return to the camp.

Now that it had come to this, she was confident their master would not argue with her because of her brother if she returned to the camp.

So what if she was thick-skinned? She would do anything as long as she could stay alive.

“The Spirit Severing Cliff is not a place for humans. Shall I exchange places with you?” Ye Chengzong stopped in his tracks and asked Ye Chenglin coldly.

“Do you want me to die?” Ye Chenglin questioned Ye Chengzong instinctively.

Her brother was stationed in the marshland. The demonic beasts there were stronger, and the marsh was corrosive. Any contact with it would corrode the skin.

“I’m a lady. I’m going to marry Master in the future. That marshland will disfigure me!”

Ye Chengzong was speechless.

It had come to this, but she was still thinking of marrying their master?

He really did not know what his sister was thinking. It seemed like he did the right thing. She should be sent to the Spirit Severing Cliff.

Otherwise, she might do something to hurt their mistress.

She might not do anything openly after this incident, but as a medicine refiner, her greatest skill was to harm people secretly.

“You should stop fantasizing. You are not worthy of Master. Stay at the Spirit Severing Cliff obediently. Otherwise, even I won’t be able to save you!” he exclaimed ruthlessly.

Chapter 577 You Really Don’t Care?

“Big Brother!” Ye Chenglin was furious.

Don’t I have the best brother? He used to get me whatever I wanted! Why did it turn out like this?

Is it because of An Jiuyue?

“You’re my biological brother! How can you not help me? Have you developed feelings for An Jiuyue, that vixen— Ah!”

Before she could finish speaking, Ye Chengzong slapped her hard.

“Ye Chenglin, don’t you know what to say and what not to say?” he questioned.

As the question left his lips, he remembered when his sister learned this. Every time she offended someone, he was the one who stood behind her, shouldering her responsibility.

I was wrong. I should have let her bear the responsibility on her own. Then she won’t believe everything she says and does is right. She won’t provoke Mistress either.

“I’m right. Am I right?”

Ye Chenglin’s eyes lit up when she saw how exasperated Ye Chengzong was. She appeared pleased that she had hit the nail on the head.

“Ye Chengzong, let me tell you something. Return quickly and plead for mercy with Master on my behalf. Otherwise, I’ll tell everyone that you like Mistress! You won’t have an easy time either!”

Ye Chengzong was startled.

He had seen their mistress for the first time today, while Ye Chenglin was causing trouble.

When did he fall in love with her?

“Ye Chenglin, are you done fooling around? The Mistress is Master’s wife. I only have respect for her. Do you think everyone is like you and wants what they shouldn’t?”

“Hmph, stop denying it. There’s no point in denying it. I already know your secret.”

Ye Chenglin continued acting as if her brother liked An Jiuyue. Even though she knew it was nearly impossible, so what?

She knew this was the only way to threaten her brother and make him plead for her. She had no choice but to go all out.

“Big Brother, beg me now. Beg me to keep your secret. As long as you plead for mercy with Master, I promise I won’t tell anyone your secret. How about that?” she suggested.

“You—” Ye Chengzong did not know what to say.

“Think whatever you want! You can’t escape going to the Spirit Severing Cliff!”

His sister had truly defeated him. She came up with scheme after scheme. Did she think she could use this to coerce him like she did their master with the antidote?

But what kind of person was their master? Would he be threatened?

There were so many lords on Huayan Peak. Their master must know at least one of them and have close ties to them. How would he be unable to obtain a medicinal pill?

And he, Ye Chengzong, would not be threatened by his biological sister.

Ye Chenglin would only cause greater issues and make them ultimately insoluble if he continued to indulge her.

“You... You really don’t care?” Ye Chenglin was in disbelief.

“Aren’t you afraid Master will kill you if he finds out you like Mistress?”

“Isn’t that better?” Ye Chengzong smiled at her indifferently.

“You can be at ease if I die. How about that?”

“You—” It was Ye Chenglin’s turn to panic.

I thought I could use this opportunity to return, but my brother isn’t falling for it?

She thought for a moment before recalling that Ye Chengzong had detoxified the poison by taking an antidote pill, so he had to return it. If she took out the antidote pill, would he soften his heart and bring her back to the camp?

Chapter 578 Someone Must Have Dug It Up

“Big Brother, how about this? I’ll give you the antidote pill. Help me plead with Master to let me return. What do you think?” she suggested.

“Where is the antidote pill?”

Ye Chengzong was still concerned about the antidote pill.

After all, Zhao Wei'an was on his team. He could not let anything happen to him.

If there really was an antidote pill...

He studied Ye Chenglin and decided it would be better to obtain the antidote pill before sending her back to the Spirit Severing Cliff.

"You agreed to plead for mercy for me?" Ye Chenglin's eyes lit up.

"Give me the antidote pill first." Ye Chengzong did not reply to her question and only reached out to Ye Chenglin.

"Okay, okay," Ye Chenglin replied excitedly.

"I knew you all wanted the antidote pill! I hid it somewhere on the way back to the camp. I'll bring you there to dig it out. Big Brother, come with me."

With that, she ran in one direction.

They were near where she had hidden the antidote pill and would reach it soon. She was in a hurry to find the antidote pill in exchange for her brother's agreement to plead for her, not noticing how Ye Chengzong's eyes had darkened.

It's just as I expected! She clearly has the antidote pill but deliberately hid it to threaten Master with it!

However, it was not the time to question Ye Chenglin. He had to obtain the antidote pill to save Zhao Wei'an.

...

"Where's the antidote pill? Where is my antidote pill?"

After a while, Ye Chengzong found Ye Chenglin kneeling and digging somewhere in the forest.

“I don’t recall burying it that deeply. Why is it gone? Why is it gone?”

She had rushed back to the camp ahead of Yan Jin and pretended to be concerned about her injured brother. However, she was actually afraid that Yan Jin would follow her too closely and cause her to lose her chance to hide the medicinal pill.

Hence, she did not bury it too deeply. She only dug a shallow hole and hid the porcelain bottle inside.

But how could it be missing now?

“How did this happen? I remember it being here. Who dug up my antidote pill?” She was about to go insane. This antidote pill was her only hope of returning to the camp. How could it disappear just like that?

“Alright, stop searching for it.”

How could Ye Chengzong not understand what had happened?

This was definitely a case of the canary hiding behind a mantis stalking the cicada. Someone must have seen Ye Chenglin hide something here and dug it up later, right?

Poor Ye Chenglin! She thought she had hidden it well and wanted to use it to return to the camp.

But she could not return, even if she had the antidote pill.

However...

Now that the antidote pill was gone, Ye Chengzong did not know how to help Zhao Wei'an. He could only hope that their master had thought of a solution.

"Why should I stop searching for it? This is my antidote pill. I have to rely on it to return to the camp. Big Brother, help me search and dig together. It's definitely here."

After a series of setbacks, Ye Chenglin was already showing signs of insanity.

Her only hope was gone. How could she let this go? She had to find the antidote pill.

"Someone must have dug it up. Why are you still looking for it?" Ye Chengzong said coldly.

"Who did it?" Ye Chenglin looked up, her eyes bloodthirsty.

"Who dug it up? Who did it? How dare he steal my things? I'll kill him!"

Chapter 579 It Must Be Him!

It would have been fine if it had been something else, but this was an antidote pill. An antidote pill that was difficult to refine was simply taken away. How could she possibly accept this?

Suddenly, a glint flashed across her eyes.

"I know who it is! It's Yan Jin! It must be him! He walked behind me on purpose so that he could dig up the antidote pill after I hid it!"

Who else can it be but Yan Jin? He clearly has higher Original Soul energy than me. But why was he always walking behind me? He couldn't even catch up to a weak woman like me?

So he was targeting me to get my antidote pill!

“That despicable person! I’m going to kill him! Kill him!”

She got up from the muddy ground, emitting a murderous aura as she yelled.

How could she let go of someone who dared dig up her antidote pill and ruin her only hope?

“Big Brother, avenge me. You must avenge me. If you kill Yan Jin, you can replace him and stay by Master’s side forever.

“That way, it’ll be easier for me to get close to Master in the future. Don’t you agree, Big Brother?”

She suddenly felt that this was a great idea. As long as Yan Jin died, her brother could replace him. She would see her master more often in the future.

He would like her more the more she met him. She would be able to win his favor then.

“Shut up!”

Ye Chengzong raised his hand and slapped her.

“Do you think everyone is as despicable and shameless as you? Yan Jin won’t take your antidote pill.”

“Why not?”

Unconcerned about how he had hit her, Ye Chenglin jumped up to question him.

“Who else could it be? He was the only one following me! He must have dug out my antidote pill! It must be him!”

“Toot! Toot toot!”

As she was screaming, a demonic beast's cry sounded from afar, frightening her.

"Shut up!" Ye Chengzong rebuked her softly. "If you don't want to die, follow me to the Spirit Severing Cliff quickly."

With that, he dragged Ye Chenglin towards the Spirit Severing Cliff again.

The sky was already dark. No place on Huayan Peak was completely safe. There were only two of them, and Ye Chenglin was powerless.

He did not want to die in vain. He had to preserve his useful body and kill a few more demonic beasts.

"I'm not going! I'm not going! I don't want to go!"

Ye Chenglin continued struggling, but she was no match for a grown man like Ye Chengzong. In the end, she was sent to the Spirit Severing Cliff.

...

In the camp...

Everyone had a bowl of wild boar meat, and the camp was filled with laughter.

Qian Jiyun brought the two children outside and let them play with the others.

He looked at the two children and remembered how conflicted he was about raising them. Now that he thought about it, raising them was the right decision.

The two children learned everything quickly and were particularly serious about learning.

It had only been one day since they began cultivating Original Soul energy, but they showed no signs of slowing down.

It was not that they were talented but that they were very hardworking. They worked even harder when they heard they could protect their mother by cultivating Original Soul energy.

Qian Jiyun thought he was probably not as hardworking as the two children in the past.

Chapter 580 Fell to the Ground

However, there was someone even more diligent. She only ate some food before running back to her tent and entering her space to refine medicinal pills.

He was feeling helpless. All he had wanted was for An Jiuyue to find something to keep her from getting too bored.

But who was the one experiencing boredom now? It seemed like he was the one.

He was the only one without a companion, so all he could do was sit here and watch Zheng'er and Rong'er play with the others.

...

In the space...

An Jiuyue did not go to the Suspended Pavilion to look for the Medicine Spirit immediately. Instead, she looked at the person in a transparent state.

“Wei Na, is this what you mean by transforming into a human?” she asked.

She looked up and down. Was this a water curtain? It was not completely transparent—it looked a little blue. Most importantly, if one did not look closely, one would not notice anyone here.

“Did something go wrong?”

“I don’t know either.” Wei Na was on the brink of tears.

Isn’t it said that eating snowfish allows me to transform into my human form? Yes, my water curtain form is also my human form, but this is nothing like what I expected!

“You don’t know?” An Jiuyue asked.

If Wei Na did not know, she would not either.

Perhaps she would know what was going on after reading all the books in the medicine spirit. But for now, she did not know anything about it.

“Perhaps, maybe, this is it, right?”

Wei Na continued to speak uncertainly. He was at least in his human form and no longer a small glowing dot, after all, so it was not bad.

“I’ll get used to this body first. This is the first time I’ve transformed into a human... Ah!”

Before he could finish speaking, he stepped forward and fell to the ground because his legs gave way.

An Jiuyue was speechless.

How was he supposed to help her with her work? Shouldn’t he just rest?

“Take your time to adapt. I’ll go refine medicine first.”

She ignored Wei Na and entered the Suspended Pavilion in a flash. Soon, she arrived at the Medicine Spirit.

This time, she did not refine antidotes anymore. Instead, she refined other medicinal pills.

Antidote Pills were only one type of medicinal pill, and they were not commonly used. Blood Coagulation Pills and Healing Pills were the most important. They required a large number of them every day.

Hence, she planned to refine some Blood Coagulation Pills tonight.

“Jiu Bing, I want to refine the Blood Coagulation Pills,” she said to the young lady in the Medicine Spirit.

“Yes, Master. I will prepare it for you immediately.”

Jiu Bing replied. Soon, the young lady prepared two sets of medicinal herbs for her and placed them beside the pill-refining furnace.

An Jiuyue took a Flaming Jade, lit it, and began refining another batch of medicinal pills.
