Chapter 951: Sit Around and Wait for Death

“We have to be wary of Shang Ningshen too,” Yan Nuo reminded him again.

“I know. This person is very important to Master. I won’t let her escape, let alone be rescued,” Yan Qin replied, smiling.

Daqing Kingdom was their territory. How could they let Xue Fangyang’s people rescue them?

Even Shang Ningyi and Shang Ningshen were no exception.

“I’m leaving. There are still many things to do there.”

Yan Nuo felt at ease handing her over to Yan Qin. He was in a hurry to return.

Shang Ningyi and his men should be waiting at the entrance of the plane by now. However, he had nothing to worry about. He would tell them openly that he was the one who had taken Shang Ningluo away. So what?

He turned around and entered Huayan Peak.

Shang Ningluo, who had been unconscious for a long time, finally woke up in the room.

Her eyes widened when she woke up, surveying her surroundings. She was not where she had hoped to be, and the person she had hoped to see was not here.

“How can this be? How can this be...

She knew it was not Xue Fangyang or Shang Ningyi because she had seen a familiar face before she fainted. It was Yan Nuo—the Yan Nuo by Qian Jiyun's side.

At first, she thought Qian Jiyun had finally found his conscience and sent someone to save her. She believed that until she fainted.

She later realized that it was not due to Qian Jiyun's conscience but rather his scheme!

He had brought her here so that Xue Fangyang could not find her no matter what.

"But so what? Xue Fangyang can still get the antidote. Qian Jiyun, you can't defeat him!" She clenched her fist and punched the bed.

She did not understand why Qian Jiyun did this. Unless... Xue Fangyang needed something from her to detoxify the poison.

After all, the poison had been administered to both of them. She suspected that simply giving Xue Fangyang the antidote would be ineffective.

It was just like planting a Gu worm on someone, right?

"No, I can't sit around and wait for death. I...

She struggled to get up, wanting to escape again while no one was watching her.

However, she soon realized that she could not escape. Her hair was disheveled, she was dressed in plain peasant clothes, and her feet were chained.

She eyed the chain around her legs and noticed the small but heavy iron ball in front of the bed. She wanted to die.

Was this set up in advance to prevent her from escaping?

She had done so much, even risking poisoning Xue Fangyang, just to secure a future for herself. Did she really have to resign herself to this fate?

She did not want to accept her fate, but there seemed to be no other way.

She had lost her Original Soul energy and was just an ordinary woman. Trying to escape with the iron ball was impossible. When she wanted to use poison to dissolve the chain, she realized that her clothes had been changed, and she had nothing left.

She looked up at the roof and exhaled heavily.

The people here had sealed off all the escape routes she could think of. She felt completely helpless now..

Chapter 952: Did She Escape Because You Weren't Watching Her?

Translator: Atlas Studios Editor: Atlas Studios

Unless Qian Jiyun was willing to let her go, she would die of old age here.

Obviously, Shang Ningyi and the others could not defeat Qian Jiyun, and Xue Fangyang would only hold back since she was in Qian Jiyun's hands.

If she had known, she would have poisoned someone else instead of Xue

Fangyang.

She could have... She could have poisoned Xue Fangling!

Unfortunately, it was too late to think about this now. She had lost her freedom.

The sky was already bright, and more than half of the Flaming Antelopes by the hot spring had disappeared.

Once they could see that there were humans around them, the Flaming Antelopes sprang into action and fled; not one was left.

"I don't think they'll come here again," An Jiuyue muttered as she watched the Flaming Antelopes flee.

"Are you tired? Do you want to sleep for a while? Or do you want to eat something?" Qian Jiyun asked softly as he caressed her face.

She had to be tired and hungry after a busy night.

"I'm not tired. Let's find the Auspicious Cloud Sea-Devouring Python first." An Jiuyue shook her head.

Upon hearing that, Qian Jiyun nodded and crouched down in front of An Jiuyue. "Come on. I'll carry you on my back. You can sleep on my back." "Hm?" An Jiuyue raised her eyebrows and blinked.

Can I do this? But I'm really a bit tired after staying up all night.

"Alright then."

She did not argue and got on Qian Jiyun's back.

However, she did not sleep. Instead, she took out a fruit and brought it to Qian Jiyun's mouth.

"Have a fruit. I just picked it. It's still fresh."

“Okay.”

Qian Jiyun took a bite, and they hurried to the Auspicious Cloud Sea-Devouring Python.

Near the plane’s entrance...

Yan Nuo had just returned when he saw the two groups of guardians eyeing him with hostility.

“What’s the matter? Still want to kill someone here?” He smirked and looked at the guardians, casually walking past them, ready to leave.

Xue Fangyang’s people did not dare to do anything to Yan Nuo, perhaps because Ying Zi had given them some instructions. They did not say a word when they saw Yan Nuo leave.

However, Shang Ningyi’s people were different.

“Stop right there!”

They were difficult to talk with. They rushed up to Yan Nuo and his group and stopped them.

“What’s up?”

Yan Nuo and his group stopped in their tracks.

The leader of this group of guardians asked, “Where’s our Lady? Where did you take her?”

They would be foolish not to have figured it out by now. Shang Ningluo probably did not escape from Camp Xue Yang because of her own capabilities but because of Yan Nuo, right?

“Interesting question, isn’t it?”

Yan Nuo sneered and sized up the guardian.

“You couldn’t watch over your young lady, yet you’re asking me? Oh, no, I heard that your lord gave his sister to Xue Fangyang as a favor. Then you should ask Xue Fangyang. Why are you asking me?”

He cast a sidelong glance at the group from Camp Xue Yang, and the meaning in his eyes could not have been more clear.

“Why? Did she escape because you weren’t watching her?”

“That can’t be, right? Didn’t they say Shang Ningluo was going to be Xue Fangyang’s concubine? She’ll definitely be treated well if she becomes the lord’s concubine. Shang Ningluo should be lingering around, right? How can she be missing? Did you make a mistake?”

“Could it be that Lord Xue Yang is surrounded by too many women? Miss Shang was too lonely, so she left with another man... Hehe..”

Chapter 953: Gather Some More on Your Own

He did not finish his sentence.

“Yan Nuo!” The leader of the guardians was furious.

What does he think of the people from our camp? Shang Ningluo ran away because Xue Fangyang mistreated her... No, that’s not right. That’s not the point. The point is that Qian Jiyun planned all of this!

‘Why? Is there anything else?’ Yan Nuo looked at them and raised his eyebrows.

“If there’s nothing else, we need to get going. We have a lot of things to attend to. Who has the time to chitchat with you? It’s not like we’re on friendly terms.” He looked at everyone in disdain and left with his men.

The guardians watched Yan Nuo leave. They gritted their teeth in anger but could not do anything to him.

“Boss, what should we do now?” a guardian from Camp Ning Se asked their leader.

“What can we do? Two people will stay here to continue guarding, and the rest of you will return to the camp,” the leader said, gritting his teeth.

Yan Nuo had probably sent Shang Ningluo back to Daqing Kingdom, right? Since he had sent her away, there was no point in having so many of them stand guard here.

They might as well quickly report this matter to their lord and let him decide.

With that, he left two guardians behind and left hastily. The people from Camp Xue Yang were dumbfounded when they saw them leave.

“What should we do? Should we go back?” someone asked their leader.

The leader exhaled heavily and placed his hands on his hips.

They were in the most difficult situation. Shang Ningluo had entered their plane, and their people could not pass through. They could not chase after her, even if they wanted to.

“Two people will stay here. Everyone else, go back,” he instructed.

They had to let their lord know about this. They might not dare act against Qian Jiyun, but they could not let Shang Ningyi cause trouble too, right?

Their lord had used Shang Ningluo to hold Shang Ningyi hostage. Now that she had escaped, Shang Ningyi had to be...

“Let’s go. Let’s go immediately.”

With that, everyone left, leaving only four people at the plane’s entrance.

The sky was already bright when Qian Jiyun and An Jiuyue returned to the Auspicious Cloud Sea-Devouring Python.

On their way here, An Jiuyue could not resist her sleepiness anymore and dozed off for a short while on Qian Jiyun’s back.

“We’re here?”

An Jiuyue woke up when she sensed that Qian Jiyun had stopped moving. She patted Qian Jiyun’s shoulder for him to put her down.

“You’re awake? Why didn’t you sleep a little longer? Are you tired?” Qian Jiyun asked softly as he put her down.

“I’m not tired anymore.”

An Jiuyue shook her head and glanced at the mountain-like Auspicious Cloud Sea-Devouring Python.
“We’re here. It’s still sleeping.”

“I don’t need to sleep.”

Just as she finished speaking, she heard the Auspicious Cloud Sea-Devouring Python’s voice.

They saw the python slowly raise its head and look in their direction.

“The python scales you want are piled up where you’ve been before. Go and get them for yourself. There should be enough scales, but if not, you can gather some more on your own.”

An Jiuyue was silent.

Where else would they go to gather more python scales?

Even if there were not enough, it had to be enough for that little thing!

“Auspicious Cloud Sea-Devouring Python, I have a few questions for you, if that’s alright.”

An Jiuyue was not in a hurry to take the python scales. She decided to ask the questions she had in mind first..

Chapter 954: That’s Possible Too?

The Auspicious Cloud Sea-Devouring Python looked at her and said, “Ask.”

“Do you know how many types of items a space separator requires?” An Jiuyue immediately asked what she wanted to know the most.

They were leaving Huayan Peak and going to the capital soon. It was better to prepare everything she could ahead of time than wait until it was needed.

The Auspicious Cloud Sea-Devouring Python explained, “The nutrients it requires vary depending on the environment. Apart from the medicinal herbs and inner cores, everything else depends on the good resources available around you.

“Of course, most of the external factors will change based on the quality of where it is raised. In short, the more powerful the container used to nurture it, the better it can be raised.

“Consequently, the quality of the nutrients it requires would also be higher.

“I didn’t expect you to ask for so many medicinal herbs last time. I think your container is too high-quality.

“The intervals between times when it needs nutrients will also be shortened.

“However, these can’t compare to the benefits this space separator will bring later. Everything you’re doing now is worth it.”

An Jiuyue was extremely shocked.

Did the Auspicious Cloud Sea-Devouring Python imply that the reason the space separator required so many things without hesitation and consumed them quickly was because her space was too high-quality?

Was she reaping what she had sown?

But it was also good. At the very least, it would grow into a high-level space rather than a small space that could only store things.

She asked, “Are you saying that if it’s here, everything it wants will be found here? If it goes to our plane, everything it wants will be found there? Even with improvements, it won’t surpass our plane?”

The Auspicious Cloud Sea-Devouring Python thought for a moment and nodded.

“Broadly speaking, that’s the idea. However, you can choose not to give it anything if you think the things it requests aren’t high-level enough. You can give it something better when you return to Huayan Peak. Its preferences will also change as the plane changes.”

“I can do that?” An Jiuyue raised her eyebrows and tilted her head to look at Qian Jiyun.

When they returned to Daqing Kingdom, they would either have to stop raising the space separator for a while or use some things from their plane to raise it.

The second option could be disregarded. They had to raise that little thing on more high-quality items for better results!

“Of course.” The Auspicious Cloud Sea-Devouring Python nodded and added regretfully, “It’s a pity though. You don’t have the ability to go to other planes yet. If An Tu was still around, he could get you better things.

“He can bring his heir to other planes to get good resources. Some planes are much better than Huayan Peak.”

“That’s possible too?”

An Jiuyue was immediately interested and looked at the Auspicious Cloud Sea-Devouring Python with shining eyes.

“Don’t think about it. That’s impossible. If anyone can enter and leave other planes freely, why would we need inter-plane travelers?”

The Auspicious Cloud Sea-Devouring Python could not help but dampen her spirits.

An Jiuyue simply shrugged and did not say anything..

Chapter 955: You’re Taking Me to Other Planes?

Others might not be able to, but that did not mean she could not. She had many inter-plane travel vouchers. She should be able to make a few trips to high-level planes, right?

However, there was a prerequisite; they had to be capable of obtaining items from high-level planes and have sufficient Original Soul energy.

“Qian Jiyun, when are we coming to Huayan Peak again?”

On the way back to Camp Zhan Yun, An Jiuyue could not resist Qian Jiyun’s insistence. He carried her on his back as she muttered softly in his ear.

“Mhm,” Qian Jiyun replied softly.

This young lady was full of ideas. She had yet to leave Huayan Peak, but she was already thinking of returning. Huayan Peak was just this good to her.

But he knew she wanted to return because of him.

“We can come back whenever you want.”

“Yeah, when the time comes, you can pick a few of the highest-level planes, and we can explore them together.” An Jiuyue tapped her chin against his shoulder a few times.

She had already thought it through. Even if her Original Soul energy was low, it did not matter. She could get a few more paper effigies to protect them.

“Alright, I’ll take you there then,” Qian Jiyun replied softly with a doting smile.

“What are you thinking about?”

An Jiuyue patted his chest unhappily with the palms she had crossed in front of him.

“What nonsense are you spouting? You’ll take me there? You haven’t even developed your space yet, and you’re already thinking of taking me there?”

Dream on! I’m the one taking you there. Me.”

“You’re taking me to other planes?” Qian Jiyun asked with a chuckle.

“Yes.” An Jiuyue nodded. She would, of course, be taking him there.

“Who are you expecting to take you there if not me? I’m the only one who can take you to other planes, right? Didn’t the Auspicious Cloud Sea-Devouring Python say that some planes have high-quality items beneficial for that little thing?”

“We’re already raising it, so we can’t raise it poorly. We have to raise it better. Even if our pockets bleed, it’s fine,” she declared proudly.

“Um... Do you have a way to go to other planes?” Qian Jiyun asked her.

He knew An Jiuyue would back up her words with a plan, but when it came to traveling to other planes, he could not help but wonder if the young lady could really pull it off.

“Yes. I bought a batch of inter-plane travel vouchers from the Points Mall. It’s enough for us to go to other planes a few times,” An Jiuyue replied.

Qian Jiyun was surprised.

Those vouchers had to be very expensive, right?

She was willing to spend so many points to buy these things? She used to spend a long time contemplating buying a pasture.

But she even bought a batch of vouchers at once. How many vouchers were there?

Would Xue Fangyang and the others die from rage if they discovered that they had to work so hard to obtain that little thing while An Jiuyue had plenty of vouchers to help him travel to other planes?

“Let’s go next time.” An Jiuyue spoke again when she noticed he remained silent.

“Alright. Next time,” Qian Jiyun finally replied. He was also curious about the other planes.

Who wouldn’t be curious? Of course, he wanted to go and take a look if he had the chance. However, he had to make some preparations before going. “We’ll go to other planes to take a look after I make some preparations..”

Chapter 956: Think of a Way Slowly

“Okay! But it’s just the two of us. I can’t bear to send too many people,” An Jiuyue added.

An inter-plane travel voucher cost 1,000,000 points, so her heart would ache if too many people came along. She and Qian Jiyun should go alone.

“Mhm, okay.”

Qian Jiyun nodded and carried her out of the Black Pact Forest.

Clang! Everything on the table fell to the ground.

Shang Ningyi shot a fierce glare at the guardian, who had come to report to him, as blood rushed to his head. He was tempted to rush to Camp Zhan Yun and slash Qian Jiyun into pieces with his sword.

Fortunately, Shang Ningshen, who was beside him, still had some rationality and grabbed him in time to prevent him from charging out.

“That b*stard, Qian Jiyun, is too much! He even dared to kidnap my sister! Is there anything he doesn’t dare to do? He’s simply...”

“Brother, if he didn’t take Sister away, she’d really die,” Shang Ningshen could not help but say.

He was rational because he knew that Shang Ningluo would not end well in his brother’s or Xue Fangyang’s hands.

However, she could live a temporary good life in Qian Jiyun’s hands.

They could take their time saving her. There was no hurry.

Shang Ningyi exhaled heavily and looked up at Shang Ningshen.

“Do you think Qian Jiyun brought your sister there for her sake? He wants to make a deal with Xue Fangyang in the future!”

Shang Ningshen opened his mouth but did not say what was on his mind.

Would Shang Ningyi not make a deal with Xue Fangyang if he brought her back? They could at least stall for time since she was with Qian Jiyun, right?

He did not dare expose his brother’s schemes and could only say indifferently, “Big Brother, we can think of a way to save Sister slowly.”

“Qian Jiyun!” Shang Ningyi was furious.

He was slower than Qian Jiyun in everything he did, and saving his sister this time was no exception.

However, he had no choice but to bear with it. After all, she was already in Qian Jiyun's hands.

"I'll personally go to Camp Zhan Yun tomorrow morning to demand Qian Jiyun for her, no matter what."

In any case, he had to demand her and convey his attitude to Qian Jiyun because Shang Ningluo was his younger sister. However, he would not care whether Qian Jiyun would hand her over.

Shang Ningshen rolled his eyes secretly.

It would be odd if Qian Jiyun admitted to sending someone to kidnap her. He would not give others grounds to accuse him without reason.

"Brother, don't waste your effort. Qian Jiyun will definitely not admit it." Shang Ningyi would only embarrass himself if he went. But Shang Ningshen

ma noc cell mm cnac.

"Qian Jiyun!"

Of course, Shang Ningyi understood that. However, he had to convey to Xue Fangyang the truth, which was that Qian Jiyun had taken Shang Ningluo away. If Xue Fangyang had any issues, he should go to Qian Jiyun, not him.

"Prepare some gifts tomorrow morning. I'm going to Camp Zhan Yun," he said through gritted teeth.

Around the same time, Xue Fangyang was also burning with rage in Camp Xue Yang.

Qian Jiyun had taken the person who should have been in his camp—the one he needed to extract blood from to detoxify himself.. How could he possibly accept

that?

Chapter 957: Not Even a Single Tear in Their Clothes

But what could he do? He could not let the guardians in the camp know that he had been poisoned by the Mother-Child Reincarnation Pill. He also could not offend Qian Jiyun, let alone openly criticize him.

He could not quell the burning rage in his chest no matter what.

He looked at Ying Zi coldly and asked, “Did you find any leverage against Qian Jiyun?”

Judging from the current situation, it was impossible to forcefully take Shang Ningluo from Qian Jiyun. The only way was to find his weakness.

However, An Jiuyue... was not a weakness. She was a sharp weapon.

Hence, he could only look for Qian Jiyun’s weaknesses again.

“I’ve already sent someone to investigate. Although Qian Jiyun’s Camp Zhan Yun is not an impenetrable fortress, it doesn’t have any general weaknesses.

But... ”

Ying Zi looked at his master hesitantly.

“But what?” Xue Fangyang knew he had a chance and asked immediately.

“I heard that An Jiuyue accompanied Qian Jiyun to Huayan Peak with two other children. They should be their sons. If we can capture them, we’ll definitely be able to threaten Qian Jiyun,” Ying Zi said.

“Then what are you waiting for? Make arrangements immediately,” Xue Fangyang instructed impatiently.

“Master...” Ying Zi looked at his master helplessly.

He should at least listen to the whole story! If those two brats could be easily captured, Shang Ningyi would have captured them long ago and threatened Qian Jiyun to do all sorts of things. How could he possibly work with them?

“What’s wrong? Is there something that can’t be done?” Xue Fangyang asked when he saw his hesitation.

No matter what hesitations or limitations existed, the only thing he wanted was Shang Ningluo. He had to get her back from Qian Jiyun no matter what.

They could not capture An Jiuyue, but could they not capture the two brats as well?

“Master, I heard that the two children have two people protecting them. They’re even better at martial arts than Qian Jiyun. We don’t know if they cultivate Original Soul energy.

“According to Camp Zhan Yun’s guardians, even Qian Jiyun was injured when the Auspicious Cloud Sea-Devouring Python attacked Camp Zhan Yun for the first time. However, the two people protecting the children did not even have a single tear in their clothes, let alone injuries.”

Xue Fangyang was speechless.

Where did An Jiuyue come from? Those two were clearly not Qian Jiyun’s people, right?

If Qian Jiyun had such powerful people around him, they would not be nameless and unknown. They would have become Qian Jiyun's personal guards, like Yan Nuo and the others.

"Have you found out what kind of personality they have and if there's any possibility of breaking through?" he asked.

"It won't be easy." Ying Zi shook his head.

"Since we can't break through them, we'll lure them away before capturing the two brats." Xue Fangyang thought of an idea.

They should be able to lure them away, right? His men would have kidnapped those two brats by the time they realized it. Qian Jiyun would have to exchange Shang Ningluo for them.

Perhaps he could even get Qian Jiyun to hand over his artifact.

"Master, those two are only responsible for protecting the children. They don't care about anything else."

Ying Zi began to sweat with embarrassment. He knew that his master's mind was a little disoriented because he was poisoned, but that did not mean he should speak without being fully informed..

Chapter 958: Capture... Qian Jiyun's Sons?

"Someone once saw the two of them accompanying the children to kill demonic beasts in the forest. They were indifferent to threats as long as they fled. They would not pursue them and only cared about the children.

"They even saw a demonic beast kill someone in front of them. But if the children didn't tell them to save the person, they wouldn't spare them a second glance, as if they hadn't heard a thing."

“How can there be people like that?”

Xue Fangyang was a little speechless. Were they human? They did not even have the temperament a man should have, right?

“A few more provocations should do the trick. It won’t be impossible to lure them away. Let them figure out a way,” He instructed.

In any case, he had to bring the two children here. Shang Ningluo’s matter and when his poison would be cured were now entirely dependent on those two children.

“Settle this matter tomorrow.”

“Yes, Master.” Ying Zi nodded helplessly.

This had to be done in secret.

He had to plan well. He could not underestimate them, as he did when trying to capture An Jiuyue. Not only did he lose his subordinates, but he also almost lost his life.

“I’ll make arrangements tomorrow.”

“Don’t wait until tomorrow. Go and prepare immediately,” Xue Fangyang hurried Ying Zi.

He was already incredibly impatient. How could he wait further?

“Yes, Master,” Ying Zi replied and left the tent to plan how to capture Qian Yizheng and Qian Yirong.

“Capture... Qian Jiyun’s sons?”

Xue Fangling was hiding behind a big tree near the tent. She looked at her brother's tent in confusion.

She could not understand why her brother wanted to capture Qian Jiyun's sons.

Was it to threaten Qian Jiyun into handing over An Jiuyue?

That was possible. After all, a woman could not compare to a son. A son was meant to carry on the family line. But if one woman died, there would be another, right?

However, her brother had never thought of capturing Qian Jiyun's sons before. Why did he think of that now?

Besides, based on her brother and Ying Zi's conversation, they wanted to capture the two children in exchange for Shang Ningluo. When did Shang Ningluo become so important?

If she remembered correctly, Shang Ningluo was just a chess piece to her brother, right?

But instead of exchanging the two children for An Jiuyue, he wanted to exchange them for Shang Ningluo?

"Did Shang Ningluo really poison Big Brother?" Her eyes widened as she looked

in the direction of the tent in disbelief.

So her brother lied to her when he said that Shang Ningluo did not succeed in poisoning him?

She narrowed her eyes and asked herself, "What kind of poison can make Big Brother so wary and insist on Shang Ningluo's return?"

If he needed an antidote, her brother could return to their plane to detoxify it. At most, he would not be able to return to Huayan Peak, but it was not like he could not do without Shang Ningluo.

Did the poison require an efficacy enhancer to be detoxified?

Was it something on Shang Ningluo? Her flesh? Her blood?

Some poisons required blood to detoxify them. She did not know what poison Xue Fangyang had been poisoned with.

“What poison is it?” she asked herself.

She really wanted to ask her brother what poison he had been poisoned with.

However, she dared not to. She did not want her brother to know that she already knew he had been poisoned..

Chapter 959: Not on the Same Level

Ever since she was young, she knew that to live a long life, she had to be aware of what she should know and never inquire about things she shouldn't, let alone act like she knew.

But no matter what, her brother was poisoned, and Shang Ning was the one who poisoned him.

“This woman is really ruthless. She even dared to poison my brother. I shouldn't have fed her medicinal pills out of kindness,” she muttered as she stomped her feet.

If she had known this would happen, she would never have fed Shang Ningluo medicinal pills to treat her injuries. She had indirectly let Shang Ningluo go.

She had come to look for her brother to apologize to him. She did not expect to hear about this.

Her brother was her pillar of support. He was the only person in Huayan Peak who could protect her and allow her to live a peaceful life. She needed him, at least for now, while she had yet to cultivate to a point where she surpassed everyone in Huayan Peak.

Hence, she had to help her brother capture the two children.

“I have to think of something.”

Even if they could not capture the two children, they had to think of a way to find Shang Ningluo.

Shang Ningluo had returned to her own plane, right? Xue Fangling was sure that someone would be willing to help her find Shang Ningluo as long as she made a significant promise.

“I’ll go look for someone.” With that, she left the camp in a hurry.

“Wulong Mountain?”

An Jiuyue had just returned to Camp Zhan Yun after catching a large number of

Flaming Antelopes. Just as she was feeling happy, she heard the words “Wulong Mountain”.

There would typically be no good news at times like this. An Jiuyue thought so, and Yan Nuo’s next words confirmed it.

“Master, there’s a small problem at Wulong Mountain. Yan Feng sent a message.”

“Small problem,” Qian Jiyun repeated calmly.

The small problem Yan Feng mentioned was likely not so small after all. Otherwise, he could have handled it himself. There would be no need to send word to Huayan Peak.

“The letter says there are some small problems, but I don’t know what they are exactly. Master, do you want to send someone there?” Yan Nuo asked.

In essence, his question was whether his master intended to visit in person.

Qian Jiyun did not answer Yan Nuo. Instead, he looked at An Jiuyue and asked her, “Jiuyue, do you want to go to Wulong Mountain?”

Yan Nuo was speechless.

Did his master not hear him speak just now?

There were troubles on Wulong Mountain. Was he not concerned that she might be harmed if he brought her along?

“Wulong Mountain? I’ve never been there.” An Jiuyue raised her eyebrows and looked at Qian Jiyun.

Her intentions were clear. She wanted to visit and see how Wulong Mountain was different from Huayan Peak and if it was on par with Huayan Peak.

“Then let’s go take a look.” Qian Jiyun nodded and looked at Yan Nuo.

“Go and make arrangements. We’ll leave Huayan Peak today and return to the capital before setting off for Wulong Mountain.”

“Yes, Master.”

Yan Nuo accepted the order and left to prepare for their return. Proper arrangements were necessary, especially since they now had two young masters to look after as well.

“How is Wulong Mountain? Is it as dangerous as Huayan Peak?” An Jiuyue asked Qian Jiyun.

“What do you mean by dangerous? Master, Wulong Mountain is not on the same level as Huayan Peak,” Wei Na replied before Qian Jiyun could..

Chapter 960: Fully Recover

“It’s fine if they’re not on the same level.”

An Jiuyue sighed in relief and patted her chest.

It would not be as dangerous if they were not on the same level. She was considering bringing Zheng’er and Rong’er along to travel.

Wei Na, who heard his master’s inner thoughts, was shocked.

It was as if he had been struck by a bolt of lightning.

Master, when I said its not on the same level, I didn’t mean it’s on a lower level! It’s a higher level! And not just by one level!

“Master, let me tell you, please don’t be alarmed, but if Huayan Peak is considered a Level 1 danger zone, Wulong Mountain is at least Level 5, with

Level 1 being the lowest.”

“What?!” An Jiuyue almost leaped up.

It was so dangerous?

“Don’t be surprised. Dangers on Wulong Mountain are as common as eating and drinking. People would often fall asleep and wake up to find the people next to them missing, leaving only a pool of blood.

“That’s not all. Most importantly, people like you can only be protected by Qian Jiyun at Wulong Mountain.”

Wei Na’s words made An Jiuyue feel indignant.

“What do you mean? I’m someone who cultivated Original Soul energy, right?” She was just short of putting her hands on her hips and scolding Wei Na. Did he have to make her sound useless?

“Even if my Original Soul energy is not good, I’m still a medicine refiner, right?”

Wei Na was speechless.

Master, the two things you mentioned.

“Master, unless someone is dead, medicine refiners aren’t needed on Wulong Mountain. Even if they’re severely injured and on their last breath today, they can fully recover the next day.

“So medicine refiners aren’t popular. They aren’t popular at all.

“Secondly, on Wulong Mountain, they don’t cultivate Original Soul energy at all. They cultivate Demonic energy there. So, if you were to go there, you’d have to cultivate from scratch.”

“So you understand, right? Going to Wulong Mountain is equivalent to starting a new life.”

An Jiuyue was shocked.

So she would have to restart as a beginner and kill monsters to level up again after going to Wulong Mountain?

A medicine refiner who had worked tirelessly to attain the advanced level in Huayan Peak was useless there?

“Master, if you ‘worked tirelessly’ to become an advanced medicine refiner, how are the other medicine refiners supposed to live?”

Wei Na touched his forehead and muttered to himself, not daring to say that out loud.

“But there’s one good thing, Master. Wulong Mountain is teeming with alchemical materials. If you want to practice alchemy, that’s the place to be. You can try it. I heard that many artifacts originated there,” he reminded his master.

“I’ll have to get more alchemical materials then.” This piqued An Jiuyue’s interest. She almost wanted to give up on going earlier.

“There’s no danger.”

An Jiuyue had just ended her conversation with Wei Na when she heard Qian Jiyun’s reply.

An Jiuyue was silent.

Was Wulong Mountain not dangerous? This was different from Wei Na’s reply.

Nonetheless, Qian Jiyun was also correct. He believed that with his protection and Zheng’er and Rong’er remaining in the capital, there would be no danger.

“Is there really no danger?” An Jiuyue asked again.

“Mhm, there’s no danger.” Qian Jiyun chuckled and caressed her face.

“I’ll protect you no matter the danger. There are a lot of alchemical materials there. We can gather some together to decorate your space..”
