

## Special Soldier 1001

### Chapter 1001: world class football

Dakun was very excited when he heard this. It would be better if he didn't know how to play football. This is his field of expertise. It seems that these guys are not that powerful, and they are so mysterious. He came directly by helicopter, and he thought they were some big shots. This Qin Yuan said that he is not very good at playing football, and it is true, he does not even understand the most basic rules, because before they played on the training ground, they did not pay attention to so many rules, everyone just played casually, kicked Just be happy. Including even the positions of the forwards and guards, he was still a little unclear, which made Da Kun see a joke even more, especially those substitute players laughed out loud. Anyway, he is really not very good at it, but when he came into contact with football, the system's prompt sound came to mind. "Ding! It is detected that the host is in contact with ball games and whether to recycle it!" Qin Yuan smiled. He originally thought that he had used the merit points now, so recycling like this should not be so frequent, but he didn't expect it to be triggered. It seems that God is really helping them, and even God is helping them. It seems that they will definitely win this time. As long as they play this game, they will completely get rid of the contract. As long as they are not restricted by the contract, He will definitely teach those unscrupulous bosses a lesson. "System, directly recycle!" "Ding! Congratulations to the host for successfully reclaiming, it is now converted to the following skills, please make a choice." "1. World-class football level, you must be the young football player!" "2. The title of football master , Play freestyle football with yourself!" "3. World-class goalkeeper, don't try to score a ball!" Qin Yuan listened to the system's prompt introduction, this football master is quite good, but it's just freestyle football, which is too much. Not practical, so he decisively chose the first one. This first one is at a world-class level, so it shouldn't be a problem. At this moment, because Qin Yuan was making a choice about the system, his reaction was a bit slow, and he couldn't hear clearly what Da Kun was saying on the opposite side. Dakun laughed. Seeing Qin Yuan's slow movements, he found it even more funny. He didn't know why the boss would invite such a person. You must know that football players have to have a very strong reaction force, and he really didn't see it in these few people. The substitute players on the side started booing, and everyone was looking forward to this game, after all, it was about whether they would stay behind. If they really beat Qin Yuan and the others hard in the face when they won, that would prove themselves to their boss. They don't need to be anyone's substitute, they can play directly. Dakun was very confident, and without waiting for Qin Yuan's reaction, he rushed towards the goal with the ball. What he didn't expect happened, Qin Yuan was faster than him, and rushed directly in front of him with a stride, but before he could react, the ball under his feet was directly dribbled away by Qin Yuan. This speed is too fast, and how did he do it? Even the substitute next to him rubbed his eyes in disbelief, it was too fast, they didn't even see clearly! "I'll go! This guy, just now he seemed to say that he doesn't know much about football. I didn't see how his feet changed in his move. He can dribble with both left and right feet. That's too awesome. "It seems that these guys are pretending to be pigs and eating tigers, we all have to be careful." "Captain, you must work hard, don't take it lightly." They shouted lively here, on the contrary, the red blood cell team was calm Many, they stood in a row, just quietly watching Qin Yuan's game. Qin Yuan has refreshed their horizons again and again. Before that, he had won the basketball championship in the entire military region. This guy is not without him, so everyone is

not curious. Moreover, Dakun, who was on the court at the moment, was completely taken away by Qin Yuan, and his physical strength couldn't keep up. He really thought it was too strange, this Qin Yuan's speed was so fast that he couldn't react at all, and his physical strength was already considered very good, it was simply not comparable in front of Qin Yuan. He was led by Qin Yuan to run all over the football field out of breath, and more importantly, their identities were switched. Originally, Qin Yuan belonged to the defensive side, and he belonged to the offensive side. Unexpectedly, now he Can't even grab the ball. Dakun was also very helpless. The team members next to her kept cheering for her. In the end, it was really hard to watch, because his speed couldn't catch up at all, and Qin Yuan's footwork changed too fast. At this moment, Qin Yuan came directly at the right time, and shot a goal with a high degree of difficulty. Under such an angle, he actually hit the goal accurately and directly. This is simply too exaggerated. Even the substitute players who were still clamoring before became excited. You must know that those who can kick out from this angle are all god-level figures. "I'm going! I'm not mistaken, this is amazing, the kick before was only played by a world-class star, I didn't expect that I saw it face to face!" "Damn, is this still a human? This speed is simply too fast!" At this moment He Chenguang and the others clapped their hands beside him, Dakun couldn't run anymore, he sat on the ground panting, a little unbelievable. Originally, he wanted to show others off, but he didn't expect to be educated by them instead. He was simply playing tricks on the class. There was some respect in his eyes, and he looked at Qin Yuan with bright eyes, "I really don't know how you did it. At your level, you still say you don't understand football. Football master level, comparable to some of their big stars." "Thank you for your praise, but to be honest, I really don't understand the rules, and it was only after you told me just now that I know Yes." Da Kun gasped, this guy is really crazy, but he really has the capital to be crazy. At this moment, a burst of applause came from behind, Qin Yuan turned his head and saw a woman beside Mr. Zhang. After seeing this woman, Qin Yuan understood that this guy tricked him again, and this person was Emily. No wonder she always felt that this method was so familiar. Emily used this method before. Anyway, it was coaxing and deceiving. First, she gave some benefits and then asked him to rescue her brother. She did not expect to be with them in this place. We met again. Emily still had that professional smirk on her face, she applauded and walked over, "It seems that your level really surprised me, I thought you could only fight boxing, but I didn't expect this Football is so good." "What do you mean, it is necessary to go around in such a big circle, and to punish my brother." Qin Yuan was really angry, because he was tricked by this Emily before, Now this guy came again, and this time he attacked Li Erniu and the others, he really felt that it was unreasonable. "I said before that I hate others touching my brother and family. You violated my bottom line again and again. What are you doing?" Emily stepped forward and put her hand on Qin Yuan's chest. On the shoulder, Qin Yuan turned slightly to avoid it. "Actually, you don't need to be so angry. If possible, I'll take you to the office. After all, there are too many people here, and it's not easy for us to discuss." Qin Yuan didn't want others to find out his identity now, he read it Look around, then nod. He is already very familiar with football positions and formations. After all, his current level is world-class, so he left the red blood cell team here and let the substitute players teach them. The substitute team members were even more surprised when they saw Qin Yuan show his hand before. They didn't expect them to be asked to teach these players the basic positioning. Isn't this a joke? But everyone didn't say anything. Seeing the red blood cell team humbly asking for advice, everyone started to teach seriously. The red blood cell team's thinking is also very simple. They must want to win this game. It is definitely not enough to rely on Qin Yuan alone, so they must get familiar with it as soon as possible, and then cooperate with Qin Yuan. It turned out that after arriving at

the office, he also saw Xie Mier. When this guy saw Qin Yuan coming in, he immediately stood up and hugged him. Qin Yuan pushed him away with a look of disgust. "Don't make a fuss, I always feel that you two, brother and sister, cheat others like this every time, it's not good, you really think I have a good temper, don't you?" Qin Yuan raised his voice, and his body The aura slowly came out, and Emily couldn't help but shuddered directly. "Actually, don't get me wrong, I really can't help it, because the mercenaries over there, we definitely can't stay any longer, and we can only do a side job there, so now our brothers and sisters are also developing towards the market here, I really need start-up funds." "You need start-up funds, what's the matter with me, is it interesting to trick me and my team members here?" After hearing this, Emily felt a little strange, this It's different from what she said before. In this way, Emily talked about the things she told the surname Zhang to do. At that time, she gave 8 million to the surname Zhang. She wanted to invite Qin Yuan and the others. Special method. I didn't expect this guy to be so hearty. He not only gave Li Erniu and the others 2 million, but also tricked them. After hearing this, Emily was so angry that she patted the table and stood up. , I have to go to the surname Zhang to settle accounts. "Captain Qin, this is really a misunderstanding. You should know that I definitely wouldn't do that. After all, you saved my brother before. No matter what, you are our savior." Qin Yuan didn't want to worry about them. He doesn't want to mention the football now, because he always feels that he is being used by others. The main reason is that this Emily never tells him the truth, anyway, there are too many ghosts in women. Emily saw that Qin Yuan was about to turn against him, and if she wanted to stop Qin Yuan, it would be basically impossible. Xie Mier was also a little anxious. After all, all their hopes this time were on Qin Yuan and the others. He had seen with his own eyes that Qin Yuan's strength was really too strong. "Captain Qin, I really hope you will think about it. How about this? In the name of our mercenary group, I am giving you fifty 98-type howitzers, and then add another 20 million. This is for your brothers." A kind of compensation." Hearing this, Qin Yuan smiled, anyway, he would not make a loss-making business, and the value is relatively high, compared to what he said before, he has already made a lot of money Bowl full. If you don't agree to this, you will be more stupid. He said that there is no problem. If this had been done earlier, there would not be so many troubles. Emily was also a little embarrassed by the side. She really found someone wrong. She didn't expect the boss to punish Qin Yuan and the others like this. "Captain Qin, as for Boss Zhang's matter, don't worry, I will definitely deal with it. We are sorry for this matter." As long as your money is in place, there will be no problem, let's make it quick Xie Mier stared at Qin Yuan with some doubts, meaning they can go directly to sign up now? This guy has just arrived .Qin Yuan patted his chest and assured that there would be absolutely no problem in this match, but what they promised must be in place. "I will train my soldiers now, but don't worry, I have full confidence in this match, absolutely can win. "If someone else said that, Xie Mier must think that this person is talking big, but Qin Yuan is really different. Xie Mier even saw the bonuses waving towards him. After all, it would be hundreds of times when he went out. Red blood cells The team members are all training on the training ground. They saw Qin Yuan with a dark face before, but now he is in a good mood with his hands behind his back. Li Erniu has a bitter face. After all, he thinks it is all his fault. , so that everyone is now training on the football field under the sun. "Brother Qin, what happened to you, don't scare me, I'm not afraid of you crying now, but afraid of you laughing. "Don't worry, brat, I have already settled the matter this time, including your father's side, everyone is acquaintances, but well, it was just tricked by the middleman." "Everyone couldn't understand what Qin Yuan said, but they heard a loud voice, turned their heads and saw Mr. Zhang was knocked down to the ground by several people. After a while, Mr. Zhang's nose was bruised and his face was swollen.

Those people were dragged in front of Li Erniu. As soon as he came over, he quickly kowtowed and admitted his mistake, "The brothers are wrong, sir, I really know that they are wrong, please let them stop beating, I am an asshole. "Hey, do you think this kid is a scumbag? When we beat him up before, he was quite stubborn, but now he was beaten up by others and begged us for mercy." "

Chapter 1002: start the game

After Mr. Zhang was taken away, Qin Yuan told the team members what happened. He Chenguang also frowned. He also thought it was a coincidence.

"Brother Qin, although I don't know what happened to you before, if you knew this person, I always think it's not easy."

"I don't really know this person well. To be precise, I was tricked by them once, so I always feel that we were also tricked this time." Wang Yanbing nodded, and then said his opinion,

"It's all too coincidental. If Mr. Zhang knew our identities, would he still be like this?" Qin Yuan shook his head, he really couldn't figure it out, but what he can do now is to follow what Emily said first Let's do it, after all, the conditions she proposed are relatively generous.

It's not difficult for him to just participate in football games, and Emily really needs to make money here, so they are a win-win situation.

Li Erniu was training next to him, and he felt that the football was quite simple, so he felt strange, would the bonus really be so high?

Emily and the others not only gave them 20 million, but also provided weapons and equipment on behalf of their largest security team.

This batch of weapons and equipment was given to Qin Yuan and their special forces for free. No matter how he looked at it, he felt that the people over there were at a disadvantage.

"Brother Qin, I think this football is quite simple, basically four people can play it." Hearing what Li Erniu said, the faces of the substitutes next to him suddenly became pale, and these people kept saying They don't know how to play football, but after telling them the basic rules, it is impossible to stop them.

It's really amazing. On the other hand, it's also because their system has been strengthened and modified by Qin Yuan with merit points. Their reaction and sensitivity are several times that of normal people, so they must be better than them.

That's why Li Erniu thinks it's easy, plus the training they usually receive, it's much better than these trainings, the body's endurance and durability have already been strengthened.

The substitutes next to him spread their hands helplessly, and the substitute captain was even more ashamed of what he said before.

"Although I don't know your identities, I'm really curious, did you really know how to play football before?"

"Anyway, I haven't participated in any competitions. I'm just playing around for fun. If that counts, then that's okay." The captain of the substitute team didn't know where their boss found such a talented team Yeah, if they haven't been on a regular court before, that's pretty genius.

Especially with their performance just now, it was indeed as if they had never really played football, and many rules were handed in on the spot.

If they follow their style of play, their chances of winning this time will be very high. Qin Yuan looked at the substitute captain and asked curiously: "I'm just curious, if we win the game, how much money will she make?"

"Because no one has ever bought us, the odds are very high. The boss will definitely buy us to win, so if we really win this game, then she may double it by several hundred million." Li Erniu was dismissive just now, but after hearing this number, he gasped, this is too exaggerated.

These people really have money-making minds. They didn't expect that they could turn out hundreds of millions directly with just such an operation. To be honest, he really couldn't believe it.

The captain of the substitute team explained that because this is not a regular international football game, it belongs to the market of underground football games, and the doubling is very large.

Some people lose their fortunes because of this kind of game, and some people become millionaires overnight. Although the captain of the substitute team has seen the strength of the players, he is still a little unconfident because the time is too short, only three days.

He suggested that the boss could participate in the second start three months later, but Emily couldn't wait anymore, mainly because she was worried about Qin Yuan and the others, they didn't always have time on their side.

This time Qin Yuan was able to agree to help him, and it was enough to give her face, so she couldn't miss this opportunity. What the two brothers and sisters lack most now is money. The mercenary base on the other side is completely dead, so they now After coming out, I plan to make money, and then reorganize.

Now it's just a false name, a security company. Qin Yuan and the others are very confident. Although the substitute captain is a little worried, he still sees Qin Yuan's strength.

In this way, on the day of the competition, Qin Yuan and the others came to a large stadium. Except that there was no formal report like international competitions, other aspects were the same.

The arena is very lively. Today's main venue is the football match. After they came to the designated place, it can be seen that they were not taken seriously before. Even the organizer only simply registered them.

They needed to draw lots to see which team they were facing. Because Qin Yuan and the others were wearing masks, they attracted a lot of attention. During the lottery, country H was drawn.

The captain of the substitute team frowned and drew them, that's not good, these guys are quite despicable.

"When we go on the field, we must pay attention to safety. These guys are prone to touch porcelain."

"But isn't there a referee here? Don't they get a yellow card for doing this?"

"The people in their team have always been so despicable. Even if they are warned by a yellow card, it is worthwhile to be able to replace a member of our team. This is where their

despicableness lies." The captain of the substitute team has also participated in such a Although he has never played against country h in the tournament, he has seen other countries play against them. Anyway, their reputation has always been very bad.

Because when Qin Yuan and the others were wearing masks to draw lots, Country H knew that the opponent was Qin Yuan and they all stood up and booed.

"Hahaha, did you see that? What the \*\*\*\*\* are those guys doing? They are still wearing masks. Could it be that they came from ancient times?"

"I see, they are worried about losing face, so they put on the mask in advance."

"Don't worry, I will definitely beat them back to their original form, hahaha, people from ancient times." Li Erniu was furious when he heard this. The game is just over there barking like a dog.

It was a helpless choice for them to participate in this competition, but before the competition, they were kicked out by these people.

Qin Yuan pulled him and shook his head. There was no need to have a verbal argument with these people, because it was meaningless.

Country H didn't take Qin Yuan's team seriously at all, and their strength was relatively strong. Judging from the previous games, they were able to break into the top 20.

It's just that Country H's side is getting more and more exaggerated. After they knew that their opponent was Qin Yuan and the others, they had already called the cheerleaders to celebrate beside the arena in advance, and it seemed that they had already met victory.

Qin Yuan shook his head. These guys are really arrogant and there is no way to save them. Anyway, he firmly believes that the more low-key people are, the more powerful they are. They are just a bunch of clowns.

Just like that, it was finally their turn to play, and the players from Country H made a very impolite gesture, and Qin Yuan looked at him coldly.

This person shuddered suddenly, he did not misread it, the way Qin Yuan looked at him just now was full of killing, that kind of look was too terrifying.

Just like that, the game started. Country H was very confident at first, but they didn't expect that they didn't even have a chance to touch the ball just after kick-off, and they were being played around by Qin Yuan and the others all the time.

Qin Yuan is very good at dribbling the ball, and their cooperation is very tacit. You must know that apart from being on the playing field, they are still brothers who live and die together. They can even understand what the other is thinking with a single movement and a glance.

Just two and a half minutes into the game, they directly scored the first goal. It was a break from the rules. Everyone on the field was excited. Everyone couldn't believe it and started to talk about it.

The coach of H country team's eyes widened even more. What's going on? Immediately afterwards, he scored the second goal. The player who made impolite gestures at Qin Yuan and the others just now was completely dumbfounded. He didn't know how Qing Qin Yuan avoided him. The speed was too fast, and he didn't even see it clearly. The ball has been dribbled.

Because before this game, many people bought the H country team to win. Seeing Qin Yuan and the others score two goals, according to this situation, there is a high possibility of a reversal.

The spectators sitting in the stands were not calm at first, and stood up one after another, yelling at them for match-fixing, there must be something shady about it.

"There is definitely a shady scene. How is this possible? How could their strength suddenly be so strong? What are those guys from H country doing? I invested a lot of money."

"I think these guys are united and want us to lose money. Get out of here, these despicable guys."

"Get off, you trash!" At this time, the referee next to him frowned, these guys really don't understand anything, can't they see it?

There is no problem of match-fixing at all. They rely on strength. To be honest, he suddenly became optimistic about this team.

Their formation and coordination speed are really unbreakable, and the h country team has no chance at all.

The first half of the game is not over yet, Qin Yuan and the others have already scored five goals in a row, which is simply breaking the rules.

The mentality of the H-country players in the back is a little bit broken. After all, let alone want to score goals, even the most basic, it is impossible to want difficulties.

During the intermission, they began to complain to each other. The striker began to complain that the defender did not fill up the position in time, and the goalkeeper was also innocent. He felt that he could not defend any of the five goals. This is simply an exaggeration. up.

In fact, it's not the goalkeeper's fault, it's because of the speed and angle of the ball that Qin Yuan kicked, and he couldn't defend it at all.

After the half-time break, they planned to use their usual tactics and started to touch porcelain. Their main goal was Qin Yuan, because Qin Yuan was the center of the team. The previous five goals were all scored by Qin Yuan of.

So no matter what, they had to find a way to replace Qin Yuan. After exchanging glances like this, a team member started running towards Qin Yuan.

They have just come here and Qin Yuan has already seen that this group of guys really can't change their shit, and they just lifted their butts, and he knew what they were going to do.

That team member deliberately wanted to lean towards Qin Yuan and touch him. Could it be that Qin Yuan's speed was so fast that he just dodged sideways, and that team member failed.

There was a wide distance between the two. Seeing that he was unsuccessful, the team member planned to catch up again. Qin Yuan smiled and dribbled the ball directly in front of him, wanting to play tricks on him.

Seeing that the ball had come to him, the player couldn't control Pengci anymore. He thought it was a good opportunity and wanted to force it, but Qin Yuan made a fool of him and didn't even touch the ball.

"You despicable villain, bastard!" Huo Yanjian couldn't help scolding people after being tricked. Qin Yuan didn't care so much, and directly in front of him, he started to shoot from a long distance, and he hit it.

This match was already doomed to be a defeat, the H country team collapsed completely, their main striker ran over and grabbed that player.

"You bastard, what are you doing? Just watching him kick the ball in like this?" As a result, a dramatic scene turned into a dramatic scene on the field, and the players on the side of the H country team fought with each other on the field. , Qin Yuan spread his hands helplessly, and the referee also stopped the game directly. This was a serious foul by them.

This is to prevent everyone from grabbing it. As a result, all those who bought the h national team to win all lost, and Emily even secretly manipulated behind. Just make a lot of money.

Qin Yuan didn't care about this, anyway, after the game, they got what they deserved and left.

This game completely made Qin Yuan's reputation. Although it was just a simple game, they broke the record. They scored the first goal in just two and a half minutes, and they used their strength to crush them later. Overwhelmed the h country team.

However, there are still many people who disdain it. After all, the h country team is not very strong, it is too strong.

But what happened next was beyond most people's expectations. Qin Yuan and the others killed all the way, and they all completely crushed their opponents, so they directly rushed into the top ten. This is something that they would not have dared to do before. imagination.

Although the captain of the substitute team knew that this game he played was not considered an official game, he was really excited to be able to reach the top ten level.

The wind direction on the field has also completely changed. Everyone did not expect such a group of dark horses to rush out suddenly.

## Chapter 1003: won the championship

But it's impossible to have such an agreement with everyone, and those who can really understand have actually seen it. They really rely on their strength. Qin Yuan's defense is too strong, and their offense is also very fierce. Simply indestructible.

Emily actually didn't expect Qin Yuan and the others to be able to rush so fast, and now they have entered the top seven positions. You must know her previous estimate, as long as they can enter the top ten, they will basically make a lot of money. full.

This really surprised her. Soon Qin Yuan and his mysterious team were talked about by everyone, mainly because they were wearing masks. You must know that under the cover of such masks, their vision is actually the same. hindered.

But for them, it doesn't seem to have any impact. Compared with them, the cooperation of other teams is nothing to talk about.

The progress of the entire competition was also very fast. Seeing that they had already entered the top three, the two teams in front were a little worried. After all, Qin Yuan and the others were like a dark horse when they appeared.

They didn't even lose a single game. You must know that winning or losing is normal. Even if they lost, they could still enter the sub-match. However, Qin Yuan and the others have never lost a single game from the beginning to now.

Soon they will draw lots. Qin Yuan and the others will have a final duel with Yuan Guo. Yuan Guo has defended the championship for three times, so this match is very interesting.

This time, Qin Yuan and the others went directly to the finals, which was beyond everyone's expectation. For a while, the dispute between the two sides was very serious. Some bought Qin Yuan's side and others bought Yuan Guo's.

For Emily, they are already a sure win, and it doesn't matter to him whether they win or lose.

But Yuan Guo didn't think so. The coach of Yuan Guo asked them to win, because the odds this time were too high.

From the very beginning, he felt that Yuan Guo's side would definitely win, and he had already secretly manipulated and invested all the money in his own team. If their side lost, all the money would be wasted.

But this coach is not stupid, he has observed Qin Yuan and the others, if compared with his own team, Qin Yuan and the others are slightly better.

But he must win this time, so he thought of another way. Because all the teams are uniformly regulated and eat on the side of the gymnasium, he wondered if he could use poisoning.

He didn't dare to make things too big, he just gave a little medicine that can make people have diarrhea, mainly to drag down their physical strength, otherwise there should be no problem.

If Qin Yuan was there, he would definitely be able to find it, but it happened that Qin Yuan was called away by Emily, because it was the last game, and their previous so-called contracts did not count, but Emily had to honor it. For her, her 20 million promise had completely foreseen her victory.

So Qin Yuan is now called to discuss this matter, plus the matter of that batch of weapons. During the meal, no one noticed anything wrong, because all the team members ate together, and Qin Yuan just left early.

Yuan Guo's coach bribed the people in the cafeteria, and put diarrhea medicine in their dishes.

Sure enough, the game was about to start the next day, and Li Erniu was the first to react, running to the toilet again and again, and then other team members also showed this symptom, Qin Yuan immediately knew what happened, these Guys are really mean.

He snorted coldly, these guys really didn't take him seriously, this little problem was really nothing to him, he immediately treated the team members with silver needles, and soon everyone recovered.

But he had to do a full set of plays, and he had to catch the real culprit behind the scenes. If this matter was exposed now, at most he could only catch a few scapegoats.

He wants to see who is targeting him. Although he already has a target, it must be Yuan Guo, but there is no evidence now, so he can only cooperate with acting first.

Immediately contacted Emily, pretended to call in the medical team, and performed a full set of scenes, mainly because I was worried that these despicable people would do other things, so I simply let them believe that there was really something wrong on my side. problem.

Li Erniu clenched his fists and said indignantly: "These two times I've always been calculated by others, I really have had enough, these guys are too despicable!"

"It's because I didn't remind you to be in place. After all, we were in contact with a relatively regular team before, but it's different here. Everyone should be careful." You Er Niu shook his head. Reminder?

It's because they didn't pay attention, and these guys are really too despicable, it's hard to guard against.

Just like that, during the official match the next day, Yuan Guo's coaches were taken aback. What's going on?

Yesterday he clearly saw that the members of the medical team had already gone to Qin Yuan's side, but he didn't expect that they could still play normally today, and they seemed to be in high spirits, without any problems at all.

When the two sides stood together and questioned, Yuan Guo's coach was stunned. At this time, Qin Yuan whispered in front of him: "How about it, I'm dumbfounded, I didn't expect it." Before he could react, the next Some team members clutched their stomachs and fell to the ground in pain.

Qin Yuan didn't say anything, but just watched the show, and the people on the field were already clamoring, after all, what the \*\*\*\* are they doing this time, do they want to retire?

Immediately afterwards, not only one team member, but several players from Yuanguo's side had this symptom, and all of them fell to the ground in pain. The audience in the stands definitely quit. , but before the game, they fell down, what's going on?

"Stand up, you bastards!"

"Waste, what do you want to do? Do you want to use this method to escape the game? Dream! Stand up."

"Return the money!" Many people were shouting for the money back, but Yuanguo couldn't see it at all. They didn't pretend to be so fast. The medical team came and carried them down.

Qin Yuan smiled and originally wanted to fight them in a fair and aboveboard manner. After all, he wanted to beat these people to his heart's content. In the end, these guys were too despicable, and he could only use his own way to punish them. body.

In this way, Qin Yuan and the others directly won the championship of the final without any effort this time, and Emily was naturally very happy.

Qin Yuan and the others also got their own rewards as promised this time, but after returning, he explained to his team members again, asking them to be more vigilant with their relatives at home after returning.

The current people's routines are too deep, especially this Emily Qin Yuan really has nothing to do with her, but the rewards she gives every time are quite generous.

In addition, this time, Emily donated a batch of weapons and equipment to Qin Yuan and the others in the name of the security company. He just wanted to use this batch of equipment to train Long Xiaoyun and the others.

It is all thanks to Long Xiaoyun, who is taking care of everything, so Qin Yuan is not worried. More importantly, the old fox Gao Shiwei, although he talked about how the security company would give them such a batch of weapons and equipment, saying it was an international resource, he actually understood it in his heart.

When Qin Yuan went to report to him, he pretended to be reading the newspaper, and then casually said: "Boy, I didn't expect you to play football with style? Why didn't you find out before, or send it to the national team to develop. " Qin Yuan was stunned for a moment, how did this old fox know?

But Gao Shiwei just smiled mysteriously, let him go down to lead the team for training. Just like the matter of Long Xiaoyun looking for Long Zhanjun before, anyway, Gao Shiwei always has his way to find out.

This time Qin Yuan took Long Xiaoyun and the others to train, the main purpose was to strengthen their physique and quietly add merit points to them. If they want to be strong, then everyone should be strong together.

Unexpectedly, this time a new batch of team members came to the Special Operations Brigade. It happened that Qin Yuan was going to lead the team for training, so he brought them along with him.

These new special forces members are also top soldiers selected by various companies, and their physical fitness and various physical fitness are very good.

During the training process, Qin Yuan was divided into two waves of training. Naturally, Long Xiaoyun and the others did not need to supervise them, but just told them the training method. With Long Xiaoyun leading the team, he was mainly in charge of the new batch of special forces train.

Fan Tianlei felt a little curious. Qin Yuan's training seemed to be not much different from their usual ones. Is this kind of training really useful?

"Dragon team, it's not that I doubt it. I just think that the training Qin Yuan told us seems to be no different from our usual training." On the training ground, Fan Tianlei gave Long Xiaoyun enough respect. He also recognized Xiaoyun's strength very much.

"Don't worry, he won't lie to me. That's how they train in the team. Let's train first. Maybe there's something really special about it." Besides, Qin Yuan brought the new special forces team members here. , I feel that their physical fitness seems to be quite good. After all, even if they found out later that they broke the rules, it means that they can meet the standards of their old players, which really surprised him.

The team members assigned this time are really good, maybe this is talent, Qin Yuan didn't really believe in this thing before, mainly because of physical fitness, he thinks it still needs to rely on long-term training, but this group of players will make him quite Unexpected.

On Long Xiaoyun's side, Qin Yuan has quietly added merit points to them, and they can also see the difference, especially in the later training process, their reaction and speed have been improved.

Therefore, Long Xiaoyun was even more convinced that what Qin Yuan did was definitely useful. During the daytime training, Long Xiaoyun also ran over specially. He was also a little curious, after all, they said that this new special team was different.

This time they were rushing with heavy loads, Long Xiaoyun looked at the time on his watch, it was very good, they had only been here for a week, and they had already reached the standard of their old players.

"Qin Yuan, it seems that this group of players is pretty good. I didn't expect that the physical fitness of the people behind is getting better and better."

"It seems that we are going to retire." Long Xiaoyun followed the voice and turned around. Gao Shiwei also came to the training ground. He smiled and looked at the soldiers on the training ground with satisfaction.

He came out to praise Qin Yuan. It is really good to lead the team this time. It is really amazing to be able to achieve such a result in a short period of time.

In fact, Qin Yuan was also very confused. He didn't do any special training for this group of players, but just started the basics. Their physical fitness has fully reached the standard.

Gao Shiwei was also interested in asking them to demonstrate again. This time, in addition to running with heavy loads, they also went through the quagmire and then swam with arms.

Everything went smoothly before, but when they were swimming with arms, the body armor of one of the team members suddenly fell off.

Originally, this was a normal thing, but Qin Yuan saw that body armor floating on the water, which is very strange, it shouldn't be!

More importantly, how could this bulletproof vest fall off so easily? He asked the soldier to come up, and the soldier quickly put on his bulletproof vest, feeling a little guilty, not daring to look Qin Yuan in the eye.

The more it was like this, the more problematic it was. Qin Yuan stepped forward and grabbed his bulletproof vest. After touching it with his hand, he felt something was wrong.

This is not a body armor of their quality at all. According to their level of body armor, wearing all the body armor will add almost three kilograms of weight to the body, but when he opened the body armor, it was actually full of foam.

I didn't expect this kind of operation to exist. No wonder these guys have passed the physical training. The worst kind of cheating and cheating.

He called everyone up, and the body armor of each of them was all foam-filled front and back, which weighed less than a pound.

Qin Yuan frowned. It was the first time he got angry in front of these soldiers and directly tore the bubbles to pieces.

"Can any of you explain to me what's going on?" Gao Shiwei also stared at them coldly. He thought he had encountered a group of high-quality soldiers, but he didn't expect it to be a fraud.

The soldier stammered nervously, a little speechless. However, there are two stabbing soldiers in the team who don't think so, because those who can be selected to come to the special warfare brigade are basically the elite of the elite.

"Reporting to the instructor, I don't think this kind of training is meaningful, as long as we can wear it in actual combat." Qin Yuan didn't say much, and directly pulled out the gun from his waist, because their special warfare brigade used live ammunition for training. , he threw the body armor directly on the ground, and fired two shots.

The bullet had completely penetrated the body armor, and even the Saturn below was spattered.

Chapter 1004: bad equipment

The special forces standing beside him began to keep silent and lowered their heads. Gao Shiwei was so angry that he stepped forward and kicked the so-called foam body armor away. "This is your so-called achievement. It's completely deceitful. Do you know what it means? On the other

hand, you are deserters!" Someone in the team heard this and immediately stood up to refute. These guys are really brave. Big, obviously knew it was wrong, and his mouth is still so tough. "Report, this matter is indeed our fault, but if you insist on saying that we are deserters, then I can't accept it at all." "What is your behavior not deserters? You can even evade basic training. Can you be counted on to go to the battlefield? This is your protection. You are not only irresponsible to you, but also completely forget your comrades and brothers around you." At this time, the Wolf Warriors squad The team members came back from training, and they were sweating profusely. As soon as they came back, they saw Gao Shiwei getting angry beside him. Gao Shiwei changed the subject, and then pointed to the special operations team next to him, "Look at these old special operations personnel, how long have they been in the special operations team, and have performed countless missions, but such training is Everyday." "What we are dealing with here is the most dangerous and extreme mission, what we have to do is to become the people's first shield, if you can't do it, get out of here and leave now." Qin Yuan really He didn't expect him to squat down to check the body armor made of foam. To be honest, why didn't he think of it before, these guys are really good at sneaking and slipping. "I just want to know where you got these things from. It's so real that I thought it was the equipment you issued before." The question Qin Yuan asked is indeed the key point. This batch of equipment is definitely not It may have appeared in their army, but where did it come from? If you want to eat them, such a thing will never happen in the Special Operations Brigade. I didn't expect these guys to be quite stubborn. No matter how you ask them, they are willing to accept punishment, but they just don't want to say where this batch of equipment came from. Gao Shiwei was already getting angry, he had never encountered such a situation, this is not a joke, there was a mistake in the equipment. He looked at the people who were still doing push-ups on the ground and shouted angrily: "Don't do it, just look at what you look like. As soldiers, the first thing we do is to guarantee loyalty. Look at your attitude. If this is the case, they can all be repatriated to the original unit, or even withdraw directly." Everyone was stunned for a while, they didn't expect the consequences to be so serious, if they didn't want to say anything, this matter would be over. It passed, but Gao Shiwei didn't expect them to withdraw from the army directly. Because this matter may be a trivial matter to them, but if you look at it in a big way, it means that someone is cheating and directly provoking the majesty of their special forces, and someone directly brought this kind of inferior equipment into the barracks. In the end, the people in the team saw that the matter was serious, so they told the matter. It turned out that this item was purchased with a reporter. This was unexpected to Qin Yuan and the others, and this reporter was an acquaintance. The reporter's name was Wang Ming, and he was the one who reported Qin Yuan's various reports in the brigade before, so he was relatively familiar with them. When Qin Yuan and the others went to look for him, he didn't know what happened, so he greeted Qin Yuan and the others happily, and he didn't know until Qin Yuan slapped the inferior body armor on the table with a serious face the seriousness of the matter. Moreover, Wang Ming here not only sells these body armors, he also has some low-quality equipment, which are all fraudulent anyway. At this time, Wang Ming was still thinking of relying on Qin Yuan and his friendship to say good things. After all, he didn't think this matter was serious. It was just training anyway, and it wouldn't have much impact until his entire shop was closed down. . Seeing this situation, he hurried to Qianlong, Xiaoyun was also beside him, because he had interviewed many times before, so he was familiar with Long Xiaoyun. "Captain Long, what are you doing? Aren't we all friends? You don't have to be so desperate, right?" Long Xiaoyun looked at him coldly. This guy still doesn't know himself at this time. What was wrong? "Do you think you haven't made a big mistake? Normally we can all be friends, and I

even think you are a pretty good person, but what you did this time is really too much." Hearing Long Xiaoyun Having said that, Wang Ming was also a little unhappy. He felt that Qin Yuan and the others were just making a fuss out of a molehill, and he just took the opportunity to sell some equipment. Besides, they were only in training, so what's wrong with this batch of equipment? "I thought you guys already regarded me as a friend, but I didn't expect you to be so business-like. Besides, can't you give me some face? This matter is very simple for you." Before waiting for Long Xiao When Yun spoke, Qin Yuan stepped forward, "This is a matter of principle. If you really treat us as friends, then you should know what our meaning is in training." He does not admit where he is wrong, and he does not explain where these things come from. After all, he is only a reporter. For him, he is just an intermediate supplier for these things. Where is the source of production? Don't say anything. Qin Yuan took him directly to the training ground. Wang Ming came to the brigade and had been here many times. He had seen Qin Yuan and the others train, and then Qin Yuan directly asked him to wear this batch of inferior body armor. He was a little puzzled, "Captain Qin, what are you trying to do? If you say you want to detain me or something, I will admit it. Anyway, what this friend is doing is meaningless." Dangers of body armor." Qin Yuan took out a pistol from his waist and showed him that it was all live ammunition. He aimed at the solid target on the opposite side, and the bullets went out in an instant. Wang Ming was so frightened that he covered his ears. The penetrating power of the bullet is not a joke, Qin Yuan shook his head helplessly, he dares to do these reselling business just like this coward. "The bulletproof vest you are wearing is standing in that position now, and I shoot at you, do you think you can resist it?" "Qin...Captain Qin, you... are you kidding?" "I'm not kidding , since you didn't realize the seriousness of this matter, now you are wearing this training uniform, go over and shoot you." Wang Ming was completely frightened, how could he dare to go over, the few shots just now, It had already made his legs weak from fright. He had never seen such a scene before, and it was really shocking to feel the gunshots at close range. He had interviewed Qin Yuan before, and they only saw them carrying out armed swimming from a distance, so how dare he shoot them face to face? "Captain Qin, I really know I'm wrong, don't do this, it won't be a dead end for me to go in this way." Qin Yuan walked over, grabbed his collar, and said viciously: "Yes, you also know the dead end One, if you sell these things to my soldiers, what kind of consequences do you think will result? We use live ammunition during training, do you want them to die?" "I don't know, I thought They're just training, I didn't expect you to use live ammunition in your training." "Not only that, they cheated and played tricks during training, and when they actually went to the battlefield, they couldn't bear such a heavy gravity, and the whole team would be affected." This It was Qin Yuan who got angry rarely, because he disliked those who cheated and played tricks in training the most, and being lazy in training was irresponsible for himself on the battlefield. They are a special brigade, and they have to face the most real battlefield after they go out. This is not only irresponsible to themselves, but also to the comrades around them. It is even said that if they are asked to rescue the hostages, the death of the hostages due to their mistakes is an irreparable loss. It was only at this moment that Wang Ming realized how serious a mistake he had made, and then he slumped on the ground and told the factory that produced this batch of inferior body armor. He just used his status as a reporter to facilitate communication with other team members, and then asked them to buy their own things. Those guys also wanted to be lazy. This time, Gao Shiwei demanded that it be dealt with seriously. This batch of low-quality body armor was originally sold to some military-loving players as a prop, but they did not expect to be used by these people. Those special forces members who used inferior body armor were also punished. Not only did they report to the whole team, but they also doubled their training. They

had to make up for the previous training, because their time in the special forces team was very limited. A special operations team has a time limit from the beginning of training to the end, and is able to perform tasks. These times are all good results, because they affect the entire training process. On the other side, Long Xiaoyun's team of Wolf Warriors thought that Qin Yuan's training for them was quite ordinary, because it seemed that it was not much different from their usual training. Variety. Long Xiaoyun felt very strange, what happened to Qin Yuan, it seemed that the training method he had formulated was particularly effective. At this time, Gao Shiwei called Qin Yuan to the office. This time, there was a separate task that he needed to complete. Originally, he thought he was going abroad to perform some special missions, but he didn't expect that he was asked to go to Unit 602 to participate in training missions, and this time Wang Jinjin specially selected him. This time the training is different. They are going to prepare for the following exercise. This time the exercise is not a competition between domestic teams. This time, they are conducting a military exercise with the surrounding Pakistani countries. The two sides conducted a large-scale military exercise in the border area. The above attaches great importance to this military exercise, so Wang Qianjin directly asked Qin Yuan to lead the team to train. He believes in Qin Yuan's ability very much. They are a heavy armored force, and they also play a relatively important role in the exercise. Qin Yuan's special warfare team will also send a team at that time, but Gao Shiwei has not yet made a decision whether to let the wolf warrior team or the red blood cell team. These two teams are similar to him, just a military exercise. In this way, Qin Yuan came to Unit 602 again. Wang Qianjin didn't have any airs of leadership, and came to meet Qin Yuan in person. You must know that according to his level of leadership, basically only others would go to him. This time he personally greeted him, and it can be seen that he attaches great importance to Qin Yuan, and more importantly, he hopes to play out the characteristics of their side in this military exercise. They have had similar joint military exercises before, but this time it is different. This time it is more grand, and many international media will report it, so they do not allow any mistakes, and more importantly, they must show their style Type it out completely. It is said to be a military exercise, but in fact it is to let several surrounding countries see their military strength, UU reading [www.uukanshu.com](http://www.uukanshu.com). Especially this time they are conducting a joint military exercise with Pakistan. Wang Jinjin said with a smile: "I feel very honored to be able to send my team this time. It is very difficult to have this opportunity." "Chief, don't worry, I will definitely do my best Try to lead the team with your own ability, and you will definitely train our demeanor." "Now our main problem is the problem of aiming and shooting angles. There is no problem in general, but this time you know what I want. ? I want to be 100% accurate, and I can't even make a 0.1 error, can you do this?" If it is for other people, then this is simply too difficult, Wang Jinjin made this request, and even No other foreign army can do it. Including the training during this period, their accuracy has fully reached the standard, and there are only a few tenths of mistakes, which is normal. But Wang Jinjin came to Qin Yuan this time to strive for excellence. He knew that Qin Yuan could do it, and he could also make his soldiers do it. Qin Yuan nodded, this is no problem, he can be in charge of all the equipment control during the military exercise, as long as the launch is carried out according to the coordinates he stipulated, there is absolutely no problem. Wang Qianjin shook his head when he heard this. He thought that Qin Yuan might have misunderstood him. How could he take care of so many cannons alone? "During our military exercise, as long as you can take charge of the front ones, it's fine. If you put them all on your own, the pressure will be too great, and you can't do it at all." Qin Yuan smiled. It's a small problem, if he wants to do it, it's all the precision, not just responsible for those few sets. "Chief, don't worry, I can take care of all the artillery tanks, so you can leave them to me."

## Chapter 1005: Exercise went wrong

He can be responsible for all the artillery tanks. It's not that Wang Qianjin doesn't believe in Qin Yuan, but he just thinks it's too surprising, and it's impossible to do all their operations. For the researchers inside alone, there is a small team of members who are doing computer control inside. What can't be done on the computer, can he do it alone? Qin Yuan is also laying a foundation for himself, because he still has the blueprint of the aircraft carrier in his hand, which is the reward he got before. So now he has to show his reputation and let others believe that he has this ability. After all, this is not like an artillery chariot that he can control at will. The design of this aircraft carrier alone costs a lot of money. Now that Qin Yuan has no problem with the funds, he can turn around. Moreover, the research on this aircraft carrier is not done by one person. There are several dedicated research teams like Yanguo, and several teams do this kind of thing together. So it is conceivable that this is very difficult. He thought before that he wanted Gao Shiwei to explain the situation to this side and study it himself, but there are too many things involved in it. He just let Gao Shiwei say it. Words can't solve the problem, so now he can only play his own results first. With his own achievements, he can talk easily on his side, and others can trust him. However, what he said this time can guarantee the accuracy of all battlefield artillery. Although Wang Qianjin was skeptical, he still let him come to the training ground. No matter what, let's try it first. The main reason is how can he do something that even computers can't do? This military exercise is very rare, they are now representing the entire Yan Kingdom. Qin Yuan cooperated with them in military drills, and he really did what he said, all battlefield artillery, it can accurately calculate the coordinates of throwing, and he can control any target under unified command, according to his plan. The coordinates are typed out. His speed can even be said to have surpassed that of a computer, because although it is said to be controlled by a computer, it still needs to be calculated manually in the early stage, which will delay the time. On the other hand, the written documents from Gao Shiwei's side also came down. They discussed and decided to let the red blood cell team play in the future. Pakistan also has its own special warfare team. They belong to a cooperative military exercise. What Qin Yuan lacks now is to cooperate with other soldiers who control artillery chariots. As long as he obeys his orders, he is basically fine. Their current operations are so precise that Wang Qianjin was stunned. This is simply unbelievable. His operations have already reached the level of a computer. If this is the case, there will be absolutely no problem on the day of the exercise, and all battlefield artillery will be able to unify their targets. As for the red blood cell team, he didn't have the slightest worry. The main reason was that he was more confident in his team members. In addition, their training was usually very good, and they could go to the battlefield for exercises at any time. For this kind of running-in training, it took Qin Yuan only three days to reach an agreement with other soldiers who were operating. Because they have cooperated before, it is not a big problem to cooperate now. A month later, the large military exercise here began. Qingyuan and Wang Qianjin may have arrived at the border area first, and the red blood cell team also arrived later. For such an exercise, the red blood cell team felt nothing. Although it was an international joint exercise, they had long been used to it. On the contrary, Wang Qianjin of the 602 unit attaches great importance to it. They finally won this opportunity. This time, Qin Yuan also met many acquaintances, because he has a good relationship with Ba Guo. Task. Apart from the soldiers on both sides, many international journalists came to report this incident. After all, this is a military exercise between the two countries. A captain from Pakistan is being interviewed, but the reporter interviewing him is from the United States. These guys always

make some small moves. Qin Yuan always felt that something was wrong, so he stood silently by the side, and as expected, the reporter from the US country began to talk nonsense through the team leader from the Pakistan side, who didn't understand their language well. "Which side do you think is stronger this time between you and Yan Kingdom, it is in terms of military weapons." As a result, the translator next to him also started messing around. It was a normal sentence, but he directly ignored Yan Kingdom. When translated, it becomes how their military strength is. After all, the question was about his own country, and the captain of the Pakistani country could not hesitate to say that his country's military strength must be relatively strong. Once this sentence was interviewed by them, they began to edit it. Qin Yuan stepped forward and stared solemnly at the translator who had just been engaged, and then directly repeated the question he had just asked. He faced the camera directly, and the reporter felt a little embarrassed. Ba Guo's captain also found that something was wrong, these guys were under his nose, deliberately sabotaging their relationship with Yan Guo like this. "I really don't know why you have such an idea. We are very good friends with Yan Guo. We belong to the Allied Forces. Do you think you can provoke our relationship with a few words like yours?" Qin Yuan said. He didn't intend to let him go. For reporters who reported false and negative news like this, he directly asked the people next to them to detain them first. They were not released until after the military drill was over, and they were forced to delete all the things they had filmed. This reporter from the United States was very unconvinced. He questioned Qin Yuan, "I am an international representative. I don't know what right you have to confiscate my things. You are completely encroaching on my power. It is simply a barbaric act." "This guy would really bite back, Qin Yuan looked at him coldly. "As a reporter, your professional ethics is to report the correct news, but look at what you report, report some fake news, and deliberately provoke the relationship between the two of us." The reporter originally wanted to refute I wish I didn't give him this opportunity, and let someone directly control him, and then searched out all the photos he took, all of which were tricky angles. Moreover, the angle they shot was very easy to misunderstand. The soldiers on the side of the Eight Kingdoms were inspecting their weapons, but when they were shot at that angle, they felt that they were very unfamiliar with weapons. The captain Ba Guo was interviewing just now clenched his fists. If it wasn't for the clothes he was wearing and his current identity, he would really want to go up and beat this villain hard. It's really despicable. Those reporters were controlled by Qin Yuan's people, and then pressed down, he patted Captain Ba Guo on the shoulder. "These people's style of doing things has always been like this, but you didn't realize it before. We suffered a loss. They reported at will, which really had a great impact on us." It is a great shame and humiliation for such a person to come." "This is their usual style, and you don't have to worry about it. Now that people are under control, we just need to do a good drill with peace of mind." Ba Guo's captain nodded, Now the most important thing for them is to do a good job in the drill. Under Qin Yuan's leadership, the field artillery of Unit 602 hit the target accurately, completely exceeding everyone's expectations, especially Ba Guo, they could not achieve such precision at all. This is also to show Qin Yuan's strength to the surrounding countries. When country C came out to report, they directly commented on their attack this time, thinking that they should have secretly researched some more accurate computer equipment, but they didn't know What's more, this computer instrument is Qin Yuan. The next day, the international news was completely occupied by Qin Yuan and the others. The main point was to comment on their artillery shooting this time, which had reached 100% accuracy, and it really didn't even have a 0.1 error. Everyone is guessing, and most of the results are that they have developed more accurate instruments. Gao Shiwei is very proud. After all, this has also witnessed their strength. The military drills in the front are over, and the military drills

between the teams will follow. This one is mainly based on jungle warfare, mainly to show their special operations. . Qin Yuan led the members of the red blood cell team to start the exercise training. These training items are fixed, and it is very simple for Qin Yuan. All the previous events said that live ammunition was used, but at the last moment, because it was an exchange of training, Ba Guo was the defender this time, and Qin Yuan and the others needed to rescue the hostages in their hands. This was just an ordinary Counter terrorism training. But the bombs prepared at that time belonged to training, but because they were also worried about accidents, what everyone didn't expect was that when Qin Yuan and the others broke through to their position in Baguo, they discovered something was wrong. According to the previous training arrangement, after Qin Yuan and the others broke through the encirclement, they would directly dismantle the bomb, and the training would be over after the bomb dismantling, but they didn't expect that the bomb placement was different from their previous ones. In the previous training, both sides have seen it, and there are only two wires to cut off. Now this bomb is different, and the wires underneath are very complicated. But it wasn't too difficult for Li Erniu, he was in charge of dismantling the bomb, and when he just squatted down, Qin Yuan directly stopped him. "Wait for something wrong with this situation, and make it look like a real bomb." What! Everyone was a little surprised when they heard the news. After all, these are training bombs prepared before. How could they become real bombs? "Brother Qin, I'm not joking. It seems to be more complicated than the one we saw before." To be on the safe side, Qin Yuan still called over. The instructor who was in charge of training bombs at that time, when the instructor came, took a look and immediately To be sure, this is definitely not the training bomb they prepared. For a while, the people in charge of the eight countries also rushed over, because they were responsible for these things in Pakistan, what's going on? How could live ammunition be found in the training ammunition? Moreover, this bomb was very complicated. Qin Yuan planned to do it himself, and everyone around him was very nervous. He cleared everyone out, leaving only himself and that team member. The person in charge of the Pakistani side is getting angry outside. He wants someone to investigate the matter strictly. What is going on? This is simply a premeditated malice. I want to provoke the relationship between the two of them, and if the person who dismantled the bomb didn't pay attention to it once it explodes, the consequences will be unimaginable. After all, there are so many players in it, and according to their training at that time, they wouldn't pay attention to that much at all. , just simply cut the wire. Fortunately, Qin Yuan discovered something was wrong, and he comforted the team member not to be nervous. Ten minutes later, Qin Yuan came out with the dismantled bomb. He had a serious expression on his face. The bomb was full of fragments, and there was a Molotov cocktail device underneath, which would simply put everyone in their room to death. Ba Guo and the others did not find any results in their investigation. Someone must have sneaked into their team and secretly replaced the training ammunition. But they didn't know when it was changed secretly. After all, everyone was busy preparing for the exercise, especially the rear assault. Training equipment like this was piled up in the temporary warehouse Gao Shiwei immediately ordered everyone to check the current training equipment now, this is also for the sake of safety, someone is doing damage from it. After the inspection, not only was the exchanged training found, but also later, the mines they were preparing to use for practical training also made mistakes. The induction of this batch of landmines is very sensitive. Basically, just after they are put down, they will explode immediately when they touch them. But this was just a small episode. After discussing with Ba Guo, the senior senior immediately dispatched a training team to start patrolling around, mainly for the storage arrangements of the warehouse. Unexpectedly, under such a tight defense, there are still soldiers

doing things, but it is not because of a problem in the training. When they were patrolling at night, one soldier was hit by a landmine on the patrol road. This is too exaggerated, because in this patrol area, they are patrolling during the day, how could there be landmines for no reason? The emergency meeting Gao Shiwei convened temporarily was mainly aimed at this incident, "Comrades, it seems that some people can't stand our joint military exercise this time. After all, our two countries are now allies." "These \*\*\*\*\* It's really disgusting, we didn't even find out who was doing the sabotage." This is very strange, because both of them are patrolling, basically it can be said that no one will approach within a radius of ten kilometers, but How did this mine appear out of thin air? Military drills, so the border area has been completely blocked. If foreign troops want to come in, it is basically impossible to remove the journalists sent by the international community, but they are all under unified management.

Chapter 1006: There is a problem with the military exercise

So this time the landmines can only be placed by their insiders, but the crux of the problem is which side did it. Moreover, the purpose of these guys is very obvious, just to make internal strife between them, because now they don't know which faction they are. The main reason is that Qin Yuan and the team members from Pakistan will pass by this patrolling place, but fortunately, the team members on both sides are relatively calm. Everyone knows that this is an obvious strategy, so the upper management of both sides also held an emergency meeting. Meeting. Qin Yuan first expressed his thoughts, "According to this situation, it is definitely the soldiers at the bottom who have spies sneaking in." "Yes, I agree with our Qin team. People from outside can't get in, and those from the delegation can't get in." The people are placed in a unified place, and they will never approach there." "But now how do we find out this spy, or whether this spy is a group of people, we haven't figured out the situation yet." And at this time, a soldier Ran in to report, looking very flustered. It's from the Pakistani side, and the person in charge of the Pakistani country is a little unhappy, after all, everyone is in a meeting. "Why panic, talk about something, and everyone is in a meeting now." "Report sir, this is an urgent military report from the front." Although the soldier's voice was very low, Qin Yuan still listened When we arrived, the person in charge of Pakistan took over the information and looked at it, then please frowned and then stood up and said something. "Everyone, I'm sorry, I have some personal matters that need to be dealt with, so forgive me." Then the person in charge of Baguo left with his team members, Gao Shiwei and others sitting in the tent Confused, what's going on? How can these guys just leave? Li Erniu couldn't help complaining, these guys are too exaggerated, "Captain Gao, I think these people don't respect us at all, they agreed to come to a meeting and discuss matters, but they left as soon as they said it, I think That spy is definitely among them." "Don't be so hasty to make a conclusion, after all, we don't know exactly what the situation is now, those people's purpose is to sow discord, we can't fall into their tricks." "Gao team, but this gap is absolutely impossible to appear among us, because our red blood cell team is responsible for patrolling that road, so this can be ruled out." He Chenguang next to him gave Li Erniu a blank look, this kid really reacted Wait a minute, that's not what Gao Shiwei said. How could he doubt his team? Of course he knew that the red blood cell team was on patrol. What he meant was that we should not be so anxious to make a conclusion now, that the people from Pakistan, the more impossible things, might have sneaked in from other places. The patrolling on their side is definitely fine, especially the security on the periphery, but it is not certain that people from Pakistan are in charge of doing it on the

other side. Maybe someone really sneaked in from the periphery. However, people from the Ba Kingdom had withdrawn from the meeting first, so there was no way to continue. Gao Shiwei could only tell his team to pay attention to vigilance, and then arranged for Qin Yuan to patrol there. Eliminate the danger. After all, such things as demining are very simple for Qin Yuan and the others. He is more at ease when he entrusts Qin Yuan to do it. Although this has reached the late stage of the exercise, Wang Qianjin and the others did not withdraw their troops, because at the end of the performance except their special team, there will be the last coordinated exercise. That is, they need to cooperate with the Pakistani side, and then jointly attack the high ground and complete the designated goals. However, the accident happened in the team that had completely entered them. Although there were people guarding the periphery, they still stood guard normally. Because of the military joint performance this time, the cooking team also came along, but they have integrated vehicle equipment, so they can all complete the cooking, but the more troublesome thing is the ingredients, which need to be transported from outside. This is also to ensure the freshness of the dishes. After entering their team, someone will be responsible for the transportation of these dishes. In fact, it is just a formality. After all, these dishes are relatively safe. What they didn't expect was that something unexpected happened during the delivery. The dishes were all taken by the cooking team, and they were responsible for the delivery. But when they went to fetch vegetables in the morning, a soldier in the cooking team was carrying the vegetable basket and felt that something was wrong, because so many days had passed, and their daily food quantity was fixed and rationed. The soldier felt that the food basket was much heavier than before when he was carrying it. It was this small detail, "Squad leader, have you noticed why this batch of vegetables seems to be much heavier than yesterday's, and it should be heavier than the previous ones." what! ! Hearing this news, the squad leader also paid attention to it, and hurriedly asked them to put down the food basket, and everyone began to check. The point is that they don't know what the purpose of this is. These dishes are provided by them in a unified way, and then distributed to Pakistan. The main reason is that this time the border is relatively close to the Lian Kingdom side, so they can be regarded as doing their best as landlords. Unexpectedly, such a thing happened. Gao Shiwei hurried to the scene, and Qin Yuan and the others also came to the side. Yuan knelt down to check the bomb. There is nothing unusual on the outside, anyway, it was accidentally dropped. What happened to this batch of dishes made Gao Shiwei very angry. If this batch of dishes is delivered to Pakistan, then he will explain. I don't know. The main reason is to create a gap between the two of them, especially after this incident happened, the people in Pakistan knew the news in just one hour, which is very strange. You must know that Qin Yuan and the others did not No one was notified. When the person in charge of Ba State came to the scene, he was very angry and questioned Gao Shiwei on the spot without asking any questions. "Sir Gao, I really don't know what your intentions are. From the beginning, you have always suspected that there are spies, but now this dish is sent by you, but there is something wrong with it." Gao Shiwei was still investigating At the stage, this guy came over without saying a word and immediately questioned him, and he was not used to the person in charge of the Pakistani country. "What do you mean by that? If you have anything to say, you can say it directly. Also, I don't know how you guys got the news so quickly. We are still in the investigation stage." "Hehe, if our people didn't discover it earlier, Isn't that trying to keep us in the dark? You are only allowed to question our soldiers, so can't I question you?" Gao Shiwei stared coldly at the person in front of him, this guy's words were too harsh, they There were indeed doubts before, but Gao Shiwei had already stopped him when he had this idea just now, and no one on his side said anything. Aren't they trying to beat him back? "In this situation, I think it's better not to quarrel. After all, we must put

the overall situation first. You are the general manager of the Eight Kingdoms side. I hope you can understand this truth." There is nothing wrong with what Gao Shiwei said. , Qin Yuan and the others seemed normal, but the person in charge of Ba Guo suddenly became angry. This guy is inexplicably angry, and very angry. "You mean to look down on me. What do you mean by focusing on the overall situation? Of course I know. Now I even suspect that you directed and acted on your own. It's all your fault?" Seeing that the two sides were about to quarrel, Gao Shiwei sighed With a sigh of relief, he must not be fooled by the enemy. The person in charge of Pakistan is very impulsive now, and he must calm down. The team leader standing next to the person in charge of the Ba Kingdom also knew Qin Yuan and they had performed two missions before, so he was pretty good. In fact, I don't know my own officer very well, why did he suddenly get angry, he didn't say anything here, and both sides are now in the stage of discussion. Seeing that Gao Shiwei didn't speak, the person in charge of Baguo felt that Yi's fist hit the soft cotton, and was really bored, so he turned and left. The team leader next to him was called Habas, and he smiled apologetically, "Sir Gao, Captain Qin, I'm really sorry, I don't know what's going on with our commander, but I think someone must be thinking about it in the area." I apologize to you on behalf of him for instigating the relationship between the two of us." What Habas said was quite reasonable, so Qin Yuan found it strange that even his subordinates could understand the truth, the person in charge of the Ba Kingdom He has been in contact with him before, and he is not such an impulsive person. Gao Shiwei didn't say anything, anyway, he is a person who can endure, besides, it's nothing to endure for the sake of the overall situation. Qin Yuan stepped forward and patted Habas on the shoulder, "Brother, we have fought side by side before. Although it is impolite for me to say this, I think there is something wrong with your officer." "Captain Qin, I know what you said What do you mean, I also think our chief's behavior is very strange this time." "After all, it is a special period, many people's eyes are on us, and this time our joint military exercise has made many people dislike it , so we have to guard against it." Qin Yuan wanted this Habas to supervise their chief, after all, it would definitely not work if he rushed over here, and it would be best to have people around him supervise. Fortunately, this Habas is also an upright person. Qin Yuan has also been in contact with him before, so he dared to say this to him. Habas nodded and said that there is no problem. If he really finds out that the problem is on his side, he will definitely not Concealed. After Habas left, Gao Shiwei and the others also made a quick investigation. Maybe those people underestimated the executive ability of the senior four, because of this joint military exercise. They are very strict, including the delivery of food, so they quickly found out the clues. According to the soldiers who delivered the food, they went to the outside to perform duties. There was no problem before, but people from Pakistan came once while waiting for the soldiers from the cooking squad to come to pull the food. And the soldiers on duty there are very sure that the person who came is the person in charge of their Pakistani country. After investigating one by one, it turned out that the person in charge of Ba State said that they wanted to see today's food. Their excuse was that they were not very used to the food here, so they wanted to see today's food. Only during that period of time, people from Pakistan came to touch the dishes, and the rest of the whole process was completed by their own people. Hearing this, Gao Shiwei frowned tightly. It seems that the person in charge of Ba Guo is really a bit tricky. He looked at Qin Yuan who was sitting next to him, "What do you think about this matter, did you know this person before?" "Captain Gao, I think something is wrong with him since our meeting." As soon as they said it, everyone remembered that when they were in a meeting to discuss, the person in charge of the Eight Kingdoms said that they suddenly received an urgent report, so they left in a hurry. From then on, Gao Shiwei originally wanted to talk to him, but he couldn't come

with various excuses. The commander-in-chief of Yan Kingdom also attached great importance to this matter, and asked Gao Shiwei and the others to come up with the result immediately. Investigate the truth of the matter as soon as possible to avoid deterioration of the relationship between the two countries. The main reason is that incidents happened one after another this time. At first, soldiers stepped on landmines, but now they directly hide bombs in the dishes. Their joint military exercise has also come to an end, and it will be over in a week. This time, the large exercise span is also very large, so the time left for Qin Yuan and the others to investigate is getting less and less. Two days later, Hals quietly came outside Qin Yuan's tent. He looked sad, and when he saw Qin Yuan coming out, he hurried forward, "Captain Qin, it seems that you really hit the spot, there is indeed a problem with our officer." "What's going on, hurry up Tell me." "It's like this, because we are coming to an end in the past two days, but our chief is always absent for no reason. I have a lot of things to discuss with him, and when I go to him, I just I found this on his desk." Habas took out a note from his pocket, on which was engraved the head of a black eagle, this is not the original version, he imitated the pattern on the table, after all Worried about being discovered by his chief. Li Erniu and the others were quite curious. He leaned forward to have a look, but he couldn't understand for a while. "What is this? It looks like an eagle, but what does it mean?" "You brat, I usually ask you to study more, but you insist on feeding the pigs. Take a good look at what this sign is. Li Erniu looked carefully again, and suddenly realized that this is the symbol of the largest terrorist criminal group. Every time they commit a crime, they will leave this icon on the scene. They are a terrorist force in the world. Qin Yuan and the others also participated in the hunt before, but it was a pity that they escaped.

#### Chapter 1007: Find the mole

The main reason is that this logo is also very unique. It looks like an eagle from the front and looks more like a roc with its wings on the other side. This criminal organization is very famous internationally, and has escaped several international sieges, mainly because their members are spread across various fields. There have been several operations organized internationally, but they all ended in failure, and only hit some marginal members. But the core members have not been caught from the beginning to the end, and the origin of this organization is also very deep. If it is traced back, they have existed for more than forty years. Unexpectedly, Habas found this sign on the desk of the person in charge of Pakistan. He Chenguang leaned forward to look at the sign, and then slowly asked: "Does this mean that your person in charge is a member of this organization?" "No, this is absolutely impossible. I knew very well before our person in charge His, he has never been involved in such a thing." "Then how do you explain that this sign can't appear on his desk for no reason." Well, it was a deep sigh, he now doubts What's more, the person in charge should only be in contact with the people of this organization and not agree with it, otherwise the person has already joined this organization, which is absolutely impossible. After all these years, he has known the person in charge to some extent. If there was any collusion with this organization, he should have discovered it long ago. However, the successive incidents that occurred during this military exercise made everyone have to doubt, but what is the truth of the matter now? It's not too early to draw a conclusion, maybe he was really coerced. Habas immediately made a guarantee with Gao Shiwei, just asking him to keep the incident a secret first, and he will definitely investigate secretly and give everyone a satisfactory result. After all, what happened this time happened to Ba Guo. "I think you may have thought of this incident too

simply. Now that you have discovered this situation this time, I think you should immediately control him." Gao Shiwei's meaning was very clear, and Qin Yuan also agreed with Gao. What Shiwei did was mainly because of the previous bomb incident, and now that Junyuan is about to end, he must seize this last chance, and he doesn't want any problems in the end. Habas seemed very embarrassed. In fact, he had killed his relatives righteously, because the person in charge of the Pakistani country was the first to lead him into the barracks. He did not expect such a thing to happen. "But this is just what I discovered by accident, and it can't be regarded as direct evidence, because we are all conjectures now, so I beg you to give me a little more time, and I will investigate." Qin Yuan shook his head. He stood up and looked at Habas in front of him. In fact, his legs can understand him. Now Habas is really caught in a dilemma. On the one hand, the safety of those soldiers is also related to the relationship between the two countries. It is the leader whom oneself has respected from the beginning. "Look at this, we can't directly control him, mainly because if he is really coerced, those guys will definitely think of other ways, so we might as well play a long-term game to catch big fish." Gao Shiwei. Hearing what Qin Yuan said, he immediately understood that it was to monitor the person in charge first and pay close attention to his every move. That is to say, don't startle them, first see what they want to do, and then let the people behind them relax their vigilance. Habas also agreed to this approach. In fact, up to now, he is still looking for reasons to shirk for the person in charge, but he still can't pass that hurdle in his heart. In this way, Habas returned to their station in a hurry. The next day was their joint military exercise, and this time they needed to cooperate. Attack the high ground together, but now that something big has happened, patrols have been increased in the entire military exercise area. Just after Habas returned, the person in charge of their Pakistani country held a meeting. At this moment, Habas had a sad face, and he didn't know how to face the person in charge. Now he is equivalent to supervising. After coming to the meeting room like this, the person in charge talked about their battle plan as usual. They were in charge of attacking from the southeast, while Yan Guo was in charge of attacking from the northwest, and then rushed up to the high ground together. It sounds like there is nothing wrong with his battle plan in general, but when you think about the person in charge carefully, he has been emphasizing not to cross the line throughout the meeting. Because they are now part of the joint military exercise, there will be cases of cooperation in combat, but there is no need to keep emphasizing not to cross the line, it has no effect. Moreover, Habas repeatedly emphasized their command line with several chiefs of staff on their side, and Habas felt more and more strange. Could it be that he ambushed something in the position over there? While he was in a daze, the person in charge came down and patted him on the shoulder with a smile, "Habas, you are my best subordinate, and I trust you very much, so this time the leading operation will be done by You. Come to take you, you must remember, I told you the direction just now." Habas originally wanted to raise his doubts, but he looked at the person in charge in front of him, opened his mouth, didn't say anything, just entered a military salute, and then said that he would definitely complete the task. The problems here are really getting bigger and bigger. He is very worried that tomorrow will be the last joint military exercise. If something goes wrong with Qin Yuan and the others, then they will be criminals. They can't explain clearly. More importantly, the two. The relationship between the two countries is likely to be damaged. After the meeting, Habas returned to the dormitory, tossing and turning unable to sleep, and finally decided to report the matter to Qin Yuan and the others first. Qin Yuan thought it was not good after knowing it, this guy must be trying to do something to their assault position. He hurriedly rushed out with his team. There are no guarded soldiers on the high ground here, because there is no need to set up guard posts here. The joint military exercise will start tomorrow, and the

periphery has been cleared, so here Not to mention the deployment of guard posts. But when Qin Yuan and the others came, because the surroundings were pitch black, there was a faint sound of digging from the high ground in front of them. Qin Yuan pointed to the footprints on the ground, and with the help of the faint moonlight, they saw the footprints of a row of military boots on the ground. Originally, Qin Yuan wanted to wait and see, but this guy couldn't wait to make a move, so they also rushed forward to control this person first. Just like that, everyone rushed up. Just as Habas passed by, he saw the familiar figure, the person in charge of their eight countries. At this moment, he was wearing a black face scarf and was digging the soil with all his strength.

Explosive mines. The person in charge of Ba Guo didn't expect that someone would come here suddenly, and subconsciously wanted to run out, but Qin Yuan was faster than him, and kicked him on the calf, knocking him over in an instant. "In the middle of the night, what are you doing sneakily?" Habas couldn't believe what he saw, and then he turned from disbelief to anger. Before their soldiers stepped on a landmine, and then there was a The soldiers died on the spot, and one had his legs broken. He rushed forward and grabbed the person in charge by the collar, and looked at him viciously, "You bastard, do you know what you did? Are you worthy of our subordinates? You are not worthy of being our person in charge." At this moment, the person in charge of Pakistan also knew that he could not escape. He sat on the ground decadently, allowing Habas to punch and kick him. "Tell me, why did you do this? Besides our sacrificed brothers, do you know the impact of this? As the highest person in charge sent by us from Pakistan, you are like this?" "Speaking of which, the person in charge who sat on the ground couldn't hold back anymore, he pushed Habas away. "I didn't do the previous explosion at all. I just started now. I never thought of hurting our brothers before." Li Erniu walked up and snorted coldly. This guy said that he didn't want to hurt them. Brothers, so I shot at the people on their side, the people on their side are people, isn't it on my side? "I think you have really developed the double standard to the fullest. Your brothers are human, aren't we?" The person in charge was very emotionally broken, and he knelt on the ground and kowtowed to admit his mistake. "I don't want to do this either, but I can't help it. I'm really sorry for you." "Now the facts are in front of us. We wanted to give you another chance, but you can't wait." "But I There is really no way, if I don't do this, my family will not be able to survive, you know? I am really coerced, otherwise I will not be a good leader, I will do these murders and arson Something?" Gao Shiwei also came out from behind at this time, and he kicked the person in charge on the shoulder. "In my opinion, you are a coward, a selfish guy, and I tell you, if someone put a gun to my head, or even my family, I will not back down, because I will not Use the lives of my family members to bet on the lives of my soldiers." At this moment, the person in charge of the Ba Kingdom knelt on the ground and began to cry, Gao Shiwei was so angry that he clenched his fists. It's hard to imagine, if these mines were successfully planted by him and they didn't find them, what kind of tragic situation would happen when their soldiers rushed to the battlefield tomorrow? And what Gao Shiwei said is also true, what they can do is that they will never be threatened, this is the first criterion in their careers. In the end, before the person in charge of Pakistan told the whole story, it was indeed not the mine he planted, and there were still people in the team. And that person had already been caught by him, a spy had sneaked in from their peripheral team, and it was he who had placed the mines on their position at that time. At that time, the spy was caught, and the matter ended like this. I didn't expect that the spy was deliberately caught by him, mainly to reveal some information to him. The spy directly showed him a photo, which showed the parents of the person in charge, as well as his son and daughter. His family is now under the control of the criminal organization outside, because they are too tightly controlled on the outside, so they can't get in, and now they can only find insiders

from inside. And this person in charge is the most suitable candidate, because now they have increased their vigilance, and only this person in charge has the authority to go to the position and go to other places. Their purpose is also very simple. Now that Yan Kingdom and Ba Kingdom have completely become allies, the joint military exercise between them is also a demonstration to the people around them. So there are people in the periphery who want to use the hands of this organization to sabotage it. They don't know who the person behind it is. Anyway, he only knows that the criminal group is among them. He Chenguang quickly retrieved the main information of this international criminal group, which they claimed to be TASS. The specific organization leaders are unknown, but there are members of their organizations in every region, so the number is very large. The TASS organization asked the person in charge of the Pakistani country to plant landmines here. As long as the landmines are successfully placed, his family will naturally be released after the exercise is over. Habas shook his head helplessly, "How can you believe their nonsense? They have already attacked your family, do you think they will be released?" "But I really have no choice, you tell me what should I do?" "Do? Am I going to watch my parents and my wife die at their hands?" "You bastard, you are not worthy of being our leader. At least I will never back down when faced with such a choice." Qin Yuan snorted coldly, these guys are really crippled, they not only provoked Ba Guo, but more importantly, this time, he dared to provoke Yan Guo. If this is the case, then he should teach them how to behave. They used this trick really well. They directly and unknowingly provoked the relationship between the two countries, which is simply murder. Qin Yuan immediately made an application with Gao Shiwei, and asked the person in charge to keep in touch with them, mainly to avoid making them suspicious. Because there are still three days left for this kind of exercise to end, Qin Yuan will use these three days to find the criminal organization, and then send out the family members of the person in charge, and on the other hand, directly attack the organization. The person in charge of Ba State knelt down to Qin Yuan when he found out, "Captain Qin, I know I did something wrong, but I really hope you can bring my family back. They are innocent." "I told You, my family members have also been coerced before, but my approach is to teach them a blood lesson directly, I will not be as cowardly as you!" Gao Shiwei also looked at the person in charge on the ground coldly, his weakness only It will make those criminals more proud, which will only indirectly kill his family.

#### Chapter 1008: helpless rescue

But at this moment, the person in charge of the Pakistani country suddenly knelt on the ground,

"You guys are going to go to my family, but we must do everything in detail. If there is no explosion in those places, they will definitely not let it go." Qin Yuan felt very strange, Gao Shiwei had already done this before this incident. Having said that, the explosion can be postponed for two days. Anyway, they have three days of military exercises, so there is no need to be so entangled with this.

In the end, there was no other way. The person in charge of Ba State finally told the truth. He told Qin Yuan that there were traitors among them, but he never investigated who it was. He didn't dare to say, mainly because he was worried about exposing himself. Injure the family.

When Qin Yuan heard this, he was furious. They were all ready to take action, but this guy finally told the truth. Since there are traitors, this matter is serious.

"You bastard, do you know that you almost killed them? If they go out like this, they will definitely be discovered by the mole, and the mole and the people from the outside organization will report, so they are going to die!" Listening to Habas' roar, The person in charge of the Ba Kingdom had no choice but to keep shaking his head, then knelt on the ground and begged Qin Yuan and the others for forgiveness.

Because he is still gambling, to be honest, he doesn't trust Qin Yuan and the others very much. Although they are also very capable, this international criminal organization is even more capable, and their sphere of influence is too wide, so there is no way for this person to be responsible. The only way is to choose to obey them.

At present, Qin Yuan and the others can only change their strategy. According to the current situation, they can only find out the traitor first, otherwise their actions will also be in danger of being exposed.

The main concern is that the person in charge of the Eight Kingdoms, his family is in danger. Although this guy is a bit dishonest and doesn't consider his soldiers at all, his family is also innocent.

The four higher than the others can only act together in one play, the main thing is to have a fake explosion to see if they can catch the mole.

For this fake explosion, Gao Shiwei and the others have done enough homework. They not only used training as a ploy, but also set up smoke devices around. Confused mole.

Everyone is making preparations. For the sake of safety this time, even Gao Shiwei went on it himself. He repeatedly wanted to test the power of the explosion. Although it was a training bomb, he had to be accurate.

Habas felt a little sorry, after all, this matter happened inside them, he really couldn't understand it.

"Captain Gao, I'm worried that if the mole sees the explosion and then stops, how can we find the mole?"

"Don't worry, there is an old saying in our country of Yan that soldiers are never tired of cheating, and they will not let it go when they engage in such sabotage time and time again. They will definitely take advantage of the opportunity in the last three days, so this explosion is just the beginning." That's it, After everything was ready, it was time for the next day's military exercise. Most of the soldiers didn't know about it, except for the small group of soldiers specially arranged by Gao Shiwei to be responsible for stepping on landmines.

Every position is very important, so he also made an explanation in advance, drawing the formation on the blueprint, so that the soldiers must remember the location at that time.

Although everyone didn't know what they were going to do, they still followed Gao Shiwei's instructions. As for Qin Yuan, they were already lurking in the dark, mainly monitoring from the Ba country.

Because according to the account of the person in charge of Pakistan, he is very sure that this person was in their team before. Whether it is the people of the delegation or among their soldiers, he does not know, because the traitor took the opportunity to sneak in of.

After the military exercise started, Qin Yuan noticed that the reporters of the delegation were very active, especially the one in front with a mustache.

In the beginning, it was the field artillery firing. The firing range of this Type 59 main battle tank was no joke. After it was fired, it was deafening. Even Qin Yuan and the others had to step aside. I didn't expect this guy to be so fearless and always rushing to the front.

Others thought that this guy was too dedicated, but the more they looked at it, the more he felt that something was wrong. This person's steps were not like ordinary people at all. His steps were very similar to an offensive footwork trained in the army.

Qin Yuan pointed at the person in front, and He Chenguang and the others understood it at night, and everyone's attention was fixed on him.

It seems that they are not in their ranks, but lurking in these journalist delegations, because they have to take some pictures and then report internationally, but these photos have to be screened.

If some secrets are involved, they will be destroyed, so the review of this reporter delegation is also very strict, and they would rather not know how the mole got in.

At this time, after the artillery was over, the soldiers were about to charge. The traitor was even more active and rushed up first. Even the guards next to him blew their whistles to warn him.

But he didn't care. Although he had a camera in his hand, he wasn't thinking about taking pictures at all. He mainly wanted to witness something. It looked like the traitor hadn't escaped.

Qin Yuan rushed forward and pushed him over. In just a few seconds, Qin Yuan controlled his mind. Now Qin Yuan feels that this ability is quite useful, at least it can control his speech.

Just as soon as the reporter's awareness was taken, Qin Yuan asked directly: "Who sent you here?"

"I'm a member of the TASS organization!" After he said this, the corners of Qin Yuan's mouth rose, and he slashed to catch the right person. The guards next to him were unknown, so they all ran over.

Habas came over and quickly stopped the guards. It seemed that Qin Yuan had caught the mole. Next, Qin Yuan interrogated him again. The main reason was that it was difficult to sneak in, so he was the only one at the moment. He was mainly responsible for coming in to supervise the person in charge of the Ba country, and he was worried that he would make other small moves.

Gao Shiwei and the others immediately stopped the action. After all, they had already caught it that day and before they acted, this was a good thing for them.

Moreover, if the traitor was caught, it would be equivalent to indirectly knowing the exact location of the TASS agency. Without further ado, Qin Yuan immediately controlled the traitor and started to set off. Now the first thing to rescue is the family of the person in charge of the Pakistani country.

It's just a pity that this guy only knows the location of their branch. As for the family of the person in charge of Pakistan, he doesn't know what the situation is now, so he can only find their branch first.

And only after questioning did Qin Yuan realize that the organization of the Star Club was too complicated, with a total of fifteen branches. No wonder they hadn't found any traces of this group of people before, they were too scattered.

And people at their level don't even know where the main boss is. Even if there are several branches, the boss will not stay in the branch.

It seems that Qin Yuan and the others can only simply complete the rescue this time. It is basically impossible to find the leaders of these organizations.

The main reason is that time is too tight now, and sometimes it is necessary to distinguish which is more important. However, through the conversation with this person, Qin Yuan never had a bad premonition. The main reason was that the leaders of these organizations were ruthless, and they were unwilling to reveal the news about their branch.

But the family of the person in charge of the Pakistani country was caught in this distribution, so it is very likely that they will kill people to silence them.

In this way, under the leadership of this spy, Qin Yuan and the others came to an area of slums where fish and dragons were mixed, and armed men with guns could be seen everywhere, but whether it was this organization or not was uncertain.

This is also a typical state of slums, and it is also the place with the highest crime rate. These guys have chosen their distribution here, which is considered a success, and they have given them a layer of cover. Even if they kill people here, no one will Tube.

When entering the door, a secret signal was needed. Qin Yuan followed this gap and came to a dilapidated manor with many twists and turns.

There is a high wall outside, and there is a dilapidated iron gate, which looks old. After answering the code correctly, the people inside opened the door, but they were very surprised to see the spies.

"Lu Erxi, why are you back? You are not..." This man hadn't finished speaking when a throwing knife directly pierced his eyebrows, and the man's wide eyes fell to the ground in an instant. Qin Yuan and the others He also rushed up from behind and entered the manor smoothly.

The patrolling people inside heard the movement and ran over quickly, but Qin Yuan's speed was faster, and they immediately killed the patrolling members who ran over.

Cold weapons are the best to use in this situation, and the patrol was dealt with without making too much noise.

Now this spy is useless. Qin Yuan's throwing knife was directly wiped on his neck. People like this are not worthy of sympathy. They deliberately sabotaged the relationship between the two countries and used such despicable tricks.

Qin Yuan and the others entered the interior through the small door of the manor, and the sound of drinking and frolicking came from a room inside, accompanied by the sound of music.

These guys really enjoyed it. Qin Yuan snorted coldly and broke in directly. The people inside were completely stunned. The situation inside could only be described as chaos. Those guns and ammunition were randomly placed on the table.

The militants next to them were drunk with wine bottles and were frolicking. They didn't expect that someone could break into their branch directly.

Sitting in front, a man wearing a hat, who seemed to be the leader here, stood up without the slightest fear.

"Who are you, you are too courageous, you dare to provoke members of our Star Society." At this time, an armed man next to him reminded him in a low voice,

"There seems to be something wrong with the boss, look at their logo, they are soldiers from the Yan Kingdom." What!

! This person's eyes widened in an instant, and he was about to take up a weapon to fight back, but Qin Yuan didn't give him this chance, and the two throwing knives had already been thrown out, directly hitting his shoulder and wrist.

The people around were all controlled by Li Erniu and the others, and those who tried to escape were beaten to death immediately. Qin Yuan's speed was too fast. These people didn't expect it at all, and they didn't dare to move for a while. The leader who was unusually arrogant just now squatted on the ground tremblingly.

Qin Yuan stepped forward, put a gun against his head, and said slowly, "Where is the family of the person in charge?" Speaking of this, Qin Yuan noticed the leader's face, and his expression changed, it seemed that it was true. As he guessed.

It's just that he doesn't want the worst result, and it's best to keep at least one. The leader of the organization didn't dare to speak, but just lowered his head and was thinking about how to solve this problem. Qin Yuan shot directly, this time hitting his thigh, and the leader of the organization lay on the ground howling in pain.

"Don't...don't fight, his family has been killed by us."

"You \*\*\*\* are more than two years old, and you can handle children!"

"That can't be helped. This is what our superiors told us. They asked not to keep any of them, so we can only carry out the order." The man said while clutching the wound on his thigh, blood kept flowing out, Qin Yuan Staring at him coldly, at this moment, he heard a movement from the cabinet.

"Who! Come out?" At this moment, a disheveled woman with disheveled hair and bloodshot mouth was staring at everyone with a smile.

At this time, the leader of the organization suddenly pointed at the woman and said, "Brother, if you have something to say, it's not what I want. It was explained by our superiors, but this is his wife, and his wife is still alive." , but her mental state is completely different, Qin Yuan was able to heal her well But something unexpected happened to everyone, the woman suddenly laughed, then picked up the broken glass next to her, He stabbed directly at his own neck.

Qin Yuan didn't have time to react, he was only halfway running when the woman's blood spurted out, she just stared at him straightly, and then fell to the ground.

"Damn it!" Qin Yuan couldn't help swearing, and rushed over to save the woman, but the woman was very ruthless, with the determination to die.

These damned bastards, they simply gave that photo from the beginning, in fact, they had just captured his family and brutally killed him, leaving only this woman.

Li Erniu next to him couldn't help it, because he also had a family member, so he picked up the gun and shot at the boss. He felt that it was not enough, so he changed to another gun and continued.

The floor next to the leader of the organization had been completely pierced, and Li Erniu collapsed and threw the gun on the ground.

This can be regarded as their most disastrous rescue, watching the rescued people die in front of them.

Chapter 1009: have their own children

Li Erniu couldn't help thinking of her family. If her family was threatened like this, she really didn't know what would happen. Although he would not betray his comrades and teammates, if he really knew that his family was dead In front of it, it must be very broken.

Qin Yuan came over and patted him on the shoulder.

"Er Niu, we train so hard, but we won't let our family become like this. We are different from them, do you understand?" Li Er Niu nodded, he picked up the gun, and left Those criminals who saw Li Erniu shooting crazily just now were completely dumbfounded at the moment.

The reason why Qin Yuan kept these criminals was because he wanted to find out where the specific leader of this organization was?

Because before dealing with this organization for so many years, they also participated in the arrest operation, but there was no whereabouts at all.

But after careful questioning, they didn't know at all. Only the man who was beaten to death just now knew the specific contact information, and their contact was very old. These people didn't know how to contact the top.

And as long as someone knows that their side has been exposed, then this branch means that it has been abandoned, and they will immediately move their positions collectively.

There is no point in keeping these people any longer. I wish that when they came out, the people in the house had been completely dealt with, and they just brought back the woman's body.

The joint military exercise over there has ended, and the major media are scrambling to report. The photos have been screened, and the previous negative reports, especially the sabotage, have been completely screened out.

The Pakistani side also launched an emergency plan, and just came out to declare that something unexpected happened to their team during the training process, but this incident has nothing to do with Yanguo, and it can be regarded as clearing the relationship between the two countries.

On the way back, Qin Yuan checked his system, but he didn't expect that there were more than 10,000 merit points.

In the past, the system would give reminders, usually reminders, and rewards would be awarded for completing a certain task, but now it seems that as long as such criminals are killed, the system will automatically determine the rewards.

After Qin Yuan and the others went back, the troops of the Ba Kingdom had already started to retreat, and the joint military exercise here was over. Qin Yuan took the body out of the car, and the person in charge of the Ba Kingdom had been handcuffed. At this moment, he Looking at the corpse in front of him, he wept bitterly.

Habas stood by, he didn't know how to comfort this person, but if it wasn't for his blind cowardice, his family would not have become like this.

This wouldn't have happened if he'd confronted these people head-on and radiated positive responses from the moment he was threatened in the first place.

Qin Yuan also sighed silently, no matter how fast they were, they couldn't save a person who was determined to die.

This time the military exercise was over, Qin Yuan and the others also returned to the brigade, and just after returning, they found a familiar figure, unexpectedly it was An Ran.

An Ran looked at Qin Yuan and said with some reproach: "You bastard, why don't you just live in your brigade. Wanting to see you is simply as difficult as going to heaven."

"Hey, don't I have a mission? I usually have missions too, so it's too late." Gao Shiwei saw the two of them standing on the playground from a distance, so he specially gave Qin Yuan a vacation and let him relax for a few days. But the mobile phone must be turned on 24 hours a day, and he must come back whenever there is a task, because Long Xiaoyun has already led a team out to perform security tasks.

An Ran seemed a little embarrassed sitting in the car, she didn't know what to say to Qin Yuan.

"An Ran, let me see if you have something on your mind, tell me if you have anything."

"Well...it's like this. Grandma's health is getting worse and worse. Recently, she has been asking me about my great-grandson, so..." Qin Yuan could only smile awkwardly. To be honest, he is still not ready, mainly because he has experienced such a tragic rescue operation again this time, and he is very worried that his family will be threatened.

Although his current ability is very strong, he needs to perform tasks everywhere, so he really can't guarantee everyone's safety. This is also a point that he is very troubled with.

"Anran, I think the child's matter can be taken for granted. Let's let it take its course and take our time!" Hearing this, Anran lowered her head in disappointment. Now she has retreated to the second line, so basically there is nothing wrong with her Dangerous work, she also wants to live and work in peace.

Qin Yuan glanced at it silently, and An Ran, who was sitting on the co-pilot, could only sigh. The atmosphere in the car was very heavy, and Qin Yuan also knew what kind of life An Ran wanted now.

When it was time for An Ran's home, An Ran adjusted her mood a bit. Originally, it was agreed today that she would come to see her grandma.

Grandma Anran's situation is getting worse and worse. Qin Yuan has already seen that this is a normal birth, old age, sickness and death.

Qin Yuan got out of the car, looked at An Ran who was walking in front and said slowly,

"An Ran, I'm sorry, there are some things I can't do, so I can't promise you."

"It's okay, I can understand it, but when you meet grandma, don't say those things, try to say something to make her happy." Qin Yuan nodded, walked up to the front, took the fruit, and took the initiative to hold An Ran's hand .

How could An Ran not know what Qin Yuan was thinking? Their business is too dangerous, and there are really many factors that cannot be avoided.

But An Ran felt that she had the ability to protect her own children. She had not been a vegetarian for so many years. Besides, she had relegated to the second line and was not dangerous, so she was relatively stable now.

But everything should be based on respect, she still respects Qin Yuan's ideas. After the two returned, grandma would come out to greet them before, but this time it was An Ran's mother who came out. After the two greeted each other, grandma couldn't even get up when she heard a faint cough coming from the room.

After the two walked in, grandma lost a lot of weight and looked very poor. An Ran tried her best to adjust her emotions. Seeing grandma become like this, she knew that this was normal birth, old age, sickness and death, and she still had a faint feeling in her heart. tingling.

After seeing the two of them, grandma was still very happy. She leaned on the bed and stretched out her hand to hold An Ran.

"You two are so busy at work, you still take time to see me, the old lady."

"Grandma, what do you think you are talking about? I think we are too unfilial to see you once in such a long time."

"It's nothing, I'm really relieved that you all want to come and see me when you finally have a vacation." Qin Yuan couldn't bear to see his grandma like this, and sat beside them silently listening to them.

Perhaps seeing Grandma Anran's appearance, Qin Yuan was also a little stimulated. The old people all want to have a reunion, and seeing Grandma Anran's state, I don't know how long it can last, it is very likely that the last few month thing.

At night, Qin Yuan and the others lived in the next room. He pulled An Ran and said seriously: "An Ran, I think I was really selfish before. I thought too much, but I ignored you all. I'm sorry." An Ran was a little confused, why did Qin Yuan suddenly say that,

"Actually, I don't blame you, it's just because of the work of both of us that created this situation." Just as Qin Yuan was speaking, he pressed on directly,

"Well then, we want a common child, I can protect him, not only his parents protect him, but he also has those uncles." An Ran heard Qin Yuan's meaning, feeling a little embarrassed beating his chest.

"What are you talking about? It's very annoying." Qin Yuan smiled, and then turned off the light.

This time Gao Shiwei only gave five days of vacation, so Qin Yuan and the others came back after watching An Ran's grandmother.

He is also responsible for the training of the team. Now there is a new group of special forces members, and the training of these people is completely handed over to Qin Yuan.

When he was free, Qin Yuan looked at the meritorious value in his system, which seemed to be a little different. Now his meritorious value is 8000.

But if you can reach 20,000, then you have a threshold, and he doesn't know what kind of rewards there will be when reaching this threshold, or whether it will trigger something.

So in the recent period, he doesn't plan to use the merit points, but plans to see what will be triggered if he can reach 20,000.

The new special forces team members who sneaked, raped and played tricks before have had very hard training recently, and they are also aware of their mistakes.

Moreover, they will face the real battlefield in the future, and they will perform the most extreme and dangerous missions, so the training must not be opportunistic.

Although Qin Yuan is in charge of training now, but after the division of the team, it will become He Chenguang and the others. Now He Chenguang and the others are also very capable of leading

the team. As long as Qin Yuan is in charge of giving training programs, they can all be excellent. the completion.

Before He Chenguang, Qin Yuan added merit points to him, and his own sniping and fighting were very good. After adding merit points, his fighting skills became stronger.

Among the new special forces members who were not convinced, He Chenguang had already dealt with them into obedience. Two months later, this team of special forces members has been thoroughly trained, and they have also completed some assessment tasks assigned by Qin Yuan, and their results are relatively excellent.

Originally, this special warfare commando team was prepared by Gao Shiwei as a reserve force, and they needed to set up several new special warfare commando teams.

This will also ensure sufficient personnel, and at any time, they can send commandos to perform tasks.

Unexpectedly, a commander from their southern military region wanted to come over and ask them for a special warfare commando team, which originally had its own assault training brigade.

But now Gao Shiwei's special warfare brigade has relatively strong combat capabilities, especially the two small teams of the red blood cell team and the wolf commando team, whose reputation has already gone abroad.

So the Southern Military Region also applied to Shangfeng to send a team of commandos from their side.

The upper side also agreed, and Gao Shiwei thought that it was a coincidence that this commando had already been trained and could be directly dispatched to their southern military region.

And in the southern military region, they can also perform various tasks in the same way. They also border the border, and they may perform more tasks.

The Southern Military Region even gave this newly formed special operations team a famous name, Clouded Leopard Commando.

Before setting off, Qin Yuan specially checked the equipment for each of them, and told them that after they go out this time, they will directly perform the task and face the real battlefield.

"After you go out, do a good job for me. If you can't do well, let alone go out from our brigade, I feel ashamed, and I will put away your tricks of stealing, \*\*\*\* and slipping before."

"Captain, from what you said, we did know that we made a mistake before, and we will never make the same mistake again from then on."

"Captain, don't worry, we will definitely spread the reputation of our special operations brigade, as long as anyone who gets out of our brigade, no one is a coward!" Qin Yuan stared at the crowd with satisfaction, and then personally sent them up helicopter.

It was the first time for them to directly send out the entire special combat team, but this was the recognition of their training strength from above.

However, Qin Yuan still leads the team to train every day. Even though he knows that the current members of the red blood cell team have strong physiques, this training is indispensable and must not be relaxed.

This afternoon, everyone had just finished fighting training and came back covered in mud. Qin Yuan saw a familiar person standing on the playground talking to Long Xiaoyun.

He hurried over, and the person who came was An Ran, but An Ran's situation was a little different at the moment.

Long Xiaoyun stared at Qin Yuan with contempt and then directly stretched out his hand to stop him.

"Wait, don't get close to An Ran now, you see that your life is too boring, don't scare the child." What!

Qin Yuan was taken aback when he heard this, no wonder he saw something different from a distance just now, he didn't expect An Ran to be pregnant.

It's just because Yue Yue is only two months old now, so he doesn't show his feelings, Qin Yuan quickly wiped off the muddy water on his hands, then stretched out his hand to take An Ran's pulse.

She was really pregnant, he was very pleasantly surprised, he pulled An Ran and was unwilling to let go,

"I didn't expect that I would become a father." Long Xiaoyun directly opened his hand,

"Okay, please control your emotions, don't look at your body, don't scare An Ran." An Ran smiled, her child is not so expensive, maybe she will be in this muddy water in the future Fuck, just let him get used to it in advance.

Chapter 1010: rescue undercover

But he thought about it again, An Ran's pregnancy is actually the best thing for them. Now that she is the captain of the Wolf Warriors team, she has to lead the team members to perform various tasks every day. It is basically impossible to get pregnant. matter.

An Ran has also participated in various missions before, and it is a good choice to retreat to the second line now.

Qin Yuan smiled and looked at An Ran,

"An Ran, then here, do you want to apply with the superior, and rest now."

"It's still early. Why should I rest now? I should at least wait until the child is born." Qin Yuan looked at An Ran in surprise. Wouldn't it be too hard to wait for the child to be born? Due to the special nature of the job, there were not many holidays, and he definitely couldn't accompany An Ran, so he felt a little owed in his heart.

An Ran saw his disappointed expression, and comforted him in turn,

"Don't worry, my grandma also knows about my pregnancy. The old man is full of energy and brings me food every three days." Hearing this, Qin Yuan felt a little relieved, but he still felt a little owed. This is why he was unwilling to have children before, because he was destined not to be able to accompany him.

Both of them have special occupations, especially when he sometimes goes abroad to perform missions and stays for a month or two.

Qin Yuan basically rarely asks for leave, and usually encounters some special events. This time he came to the office and asked Gao Shiwei to apply for another leave.

"Captain Gao, I would like to ask for a few days off."

"Why, which beauty do you want to see again?"

"Captain Gao, look at what you said, am I that kind of person? An Ran is pregnant, and I want to go back with her." Gao Shiwei smiled when he heard this, and patted the table directly stood up,

"Stinky boy, I don't even know when An Ran got pregnant." Qin Yuan was speechless for a while, obviously he was the father of the child, why Gao Shiwei was more excited than him, and he just found out about the news.

"Captain Gao, look at my request for leave..."

"Okay, don't talk too much, but let's give you three days off first, it's not good to give too much to others, after all, you are the captain now." Qin Yuan nodded, although there were only three days off, but for him Enough said, he wants to tell Grandma Sun the good news.

And if grandma knew about it, she could take care of An Ran to some extent outside, and when he got really busy later, he really didn't have any time left.

Long Xiaoyun originally wanted to go to Grandma Sun's house with her this time, but it was impossible for the two captains in the team to go out together, so she could only stay in the team.

Before leaving, he threatened Qin Yuan,

"Let me tell you, you'd better not bully An Ran. If you want me to know, I'll make you go all the way."

"Don't worry, she is a national treasure now, who else would dare to bully her." An Ran smiled, and slapped Qin Yuan directly on the chest, telling him not to talk nonsense.

In this way, the two came to the orphanage talking and laughing. Qin Zhengyang hadn't seen Qin Yuan for a long time, and when he saw Qin Yuan's car, he ran out very excitedly.

"Hey, brat is so tall now, I haven't seen you for a long time."

"Of course, how about it? I can be a soldier now, can I be the same as you?" Qin Zhengyang's eyes were full of excitement. Every time Qin Yuan came here, he would ask this question, but he is really not old enough now. .

Qingyuan can only laugh, anyway, he is not old enough now, we will talk about it later, and if Qin Zhengyang wants to join his army, it is not a bad thing.

With his own supervision, and this kid's physical agility, coupled with his quick reaction before, he is indeed a scout. If he is trained well, he can also become an excellent special forces member.

Grandma Sun's body is still strong, and she was knitting small sweaters for the children in the orphanage. At this time, Qin Yuan strode in with big bags and small bags.

Qin Yuan couldn't wait to tell Grandma Sun the good news. Grandma Sun was also very excited. She had been looking forward to this day for a long time.

It was An Ran who was at the side, and Qin Yuan's loud voice made her face blush.

"Can't you keep your voice down? I wish the whole world would know."

"Okay, okay, I promise this is the last time, am I happy?" Qin Yuan was really emotional, this is a change of role, of course he has his own child, he has already fantasized about a family of three in the future screen.

After this time, Grandma Sun also asked a question. She asked Qin Yuan if he had considered retiring. The main reason was that she felt that now that she had a child, family should be the most important thing.

"In the past, you always said it was too early, but now that you have children, you should also consider these things." Qin Yuan shook his head. He had never thought about retiring. His current abilities are very strong, so he should use them ability, to do things for one's own beliefs and the country, should not retire at this time, and children are not the reason for his retirement.

An Ran was also very supportive.

"Grandma, don't worry, we will adjust this matter ourselves. Besides, this is his ideal of struggle, and we can't give up our ideal because of our children." Grandma Sun saw that the attitudes of both of them were the same, and also It's hard to say anything more, anyway, they live their lives, and they decide how they will live. Their health is not bad, and they can help take care of their children for a few years.

This is also the first time that Qin Yuan feels that the vacation time is so short, and he will go back to the brigade before he has had enough time with An Ran, and there is nothing he can do about it.

He also explained many things to An Ran, and An Ran is going back to the army. On their side, although she is relegated to the second line now, there are still many things to do.

"If you have any questions, call me as soon as possible. If not, you can call Xiaoyun. If I am on a mission, you can also call Lao Gao." An Ran saw Qin Yuan's nervousness I couldn't help but laugh a little.

"Look at your appearance. There are military doctors in our team, as well as the health center. I really don't know what you are worried about. Don't worry, it's okay." Qin Yuan also felt that he was too nervous, mainly because It is the first time to adapt to the role of father, so he is also trying to figure out how to be a good father.

After returning to the team, Qin Yuan received the mission before he had time to accept the blessings from his comrades. However, the task this time is relatively simple. They need to go to the border of the Southern Military Region to cooperate with the sniper mission.

They have performed such missions many times, so they didn't take it seriously. Besides, it would be better to go to the southern military region, and they could meet the former special forces members.

Li Erniu was very excited on the helicopter,

"Brother Qin, we can see our old friends this time. How are those boys doing in the Southern Military Region?"

"Maybe this time they will cooperate with us to carry out the mission. It's really good to be able to go to the battlefield together. After all, we trained together." Several people were still chatting about the special team, but Wang Yanbing suddenly The topic changed.

"Erniu, I said you kid, why don't you go and check it out, now even Brother Qin has a child, why hasn't there been any movement on your side?"

"You son of a bitch, Yan Bing, if you dare to talk nonsense, believe it or not, I will beat you right now, I don't want it." Li Erniu was a little excited, and the dialect came out, which caused the people on the plane to burst into laughter.

In this way, when they arrived at the southern military region, the instructors there warmly received them, mainly to carry out docking work. This time they performed a relatively simple task, sniping together with their feelings on the border.

It is mainly the criminals on the border. This time they received an undercover insider, and there will be a transaction in the border area here.

In addition to killing and arresting those criminals, what is more important is to cover the undercover retreat inside. Such tasks are commonplace for Qin Yuan and the others.

At this time, Qin Yuan's mind suddenly heard a system prompt.

"Ding! The host triggers the meritorious task, and kills a criminal to get 2000 meritorious value!"

"Ding! Find the real undercover personnel to complete the rescue mission, and the system will reward you with 5,000 merit points!" Qin Yuan was stunned when he heard this. You can get merit points, but the latter one!

Find the real undercover agent? It seems that the task this time is not that simple, Qin Yuan hurriedly asked about the specific situation of the undercover agent this time.

Sure enough, the instructor showed embarrassment. Lulu went online directly with the undercover agent in this lurking operation, but was discovered and brutally killed by criminals.

One operation was very secretive, they only knew the information sent by the undercover agent, but who was the identity of the undercover agent?

They haven't figured it out yet. In order to protect the information of this undercover officer, his identity was only this upline. After knowing that this upline was dead, they only knew a little information.

The offline nickname he connected with was Lark, and their usual secret code for connecting with him was Morse code. Everyone was stunned when they heard this. Isn't this just a joke? What if they kill the undercover personnel by mistake during the mission?

"Instructor, if this matter has not been clarified, I suggest that we carry out the arrest mission first. If our personnel are killed by mistake during the execution, it will be troublesome." The instructor also frowned, this is embarrassing That's why Qin Yuan and the others were invited to cooperate with the task.

"We also know, but those criminals are vicious and cunning. If you want to capture them alive, it will be even more difficult." At this time, Qin Yuan thought of a way. If it is the undercover personnel on their side, as long as he If they can enter their team, the undercover personnel should be able to recognize them at close range.

Since I can't identify the undercover personnel on my side, the other party should be able to recognize me. Although this move is very risky, it is currently the most feasible method.

The instructor immediately raised objections,

"This is definitely not good. It's just a joke. Don't you know how cruel those criminals are?" Not to mention that they are so far away, even if they are close, this is very inappropriate, but Qin Yuan doesn't take it seriously at all. .

For his skill, it doesn't matter if he is close-range or long-distance. The most important thing now is to ensure the safety of the undercover personnel.

"Don't worry, instructor. I'm sure I can complete this task. When the time comes, I'll be dispatched at close range. I will be able to find our personnel and ensure his safety." The instructor looked at Qin Yuan in surprise. He was able to make this decision. The instructor also felt very relieved. After all, at this critical moment, he was able to take the initiative to stand up as the captain, but this was also accompanied by risks.

He has also heard about Qin Yuan's previous deeds. This person is very skilled. Currently, this method is the most feasible.

If other people are released, he is really too worried. For Qin Yuan, he is at least five points sure. This is his opinion, and he is basically 90% sure about Qin Yuan's side.

According to the information from the undercover side, the transaction of some criminals is scheduled at 5 o'clock tomorrow afternoon.

Because of the urgency of the matter, only this brief message came from the undercover side, and there was no time to reveal his identity.

So this is also very embarrassing, and everyone can only wait quietly. Originally, Qin Yuan and the others thought they were acting together with the clouded leopard commando, but after they reached the border, they found out that it was the old army. They had cooperated before so they were very familiar with it.

Li Erniu was indeed a little curious. They came to the southern military region, but they didn't see the clouded leopard commando, so they couldn't help asking.

"Brother, I want to ask, why didn't the Clouded Leopard Commando transferred from our brigade earlier see them act this time? Did they participate in other missions?" He Chenguang hurriedly pulled him aside, this time The guy asks everything, this is a secret that belongs to others, doesn't he even know the secret code?

But fortunately, in the eyes of the other party, this is not a secret, so he answered with a smile.

"You mean the Clouded Leopard Commando. They are the treasures of our team now. They will definitely not be allowed to complete such a task. They are in our base." What's the situation at the base?

But the soldier who was too much didn't say that they didn't see the members of the Clouded Leopard Commando until Qin Yuan and the others came to the base at night, and the base specially arranged a place for them to rest.

Everyone was very excited to see the familiar comrades-in-arms, who had trained together before.
