

## Special Soldier 101

Chapter 101: on

Hearing this voice, Qin Yuan couldn't help but smile. As expected, his reminder was effective. Although I didn't say it clearly, for these people, just a few words are enough!

Sure enough, when the people of the Wolf Warriors team heard this, a trace of doubt appeared on their faces, but it was not the time to discuss this. The plane outside had already arrived, and they had to leave first.

Soon Qin Yuan also directly boarded a plane, but he was the only one on this plane.

After arriving at the destination, Qin Yuan directly parachuted.

Although Qin Yuan hasn't learned skydiving systematically, he can jump 500 meters high, even if he can't skydive, there is no problem.

After Qin Yuan jumped down, in order to avoid Shi Qingsong's satellite, after seeing almost 500 meters, he directly unlocked his skydiving bag!

Qin Yuan's body finally fell to the ground, smashing a big hole in the ground.

"Hi, my feet are numb!"

Qin Yuan slowly crawled out of the pit, stomping his feet vigorously. The prediction made just now was a bit wrong, and he forgot to add his initial speed of parachuting.

And Qin Yuan directly silenced all his radio and electronic equipment, so that he would naturally not be discovered by others.

What Qin Yuan can do now is to wait until the wolf squad and Shi Qingsong's brigade lose both, then he has a chance to win the final victory.

"It's better to take this opportunity to upgrade your skills."

Now Qin Yuan still has three grids, but Qin Yuan still has a lot of skills that have not been promoted to the top level. It happens to be in the forest now, so he can improve his skills.

And the first one Qin Yuan wanted to rise to the cosmic level was Mantis Quan!

When fighting with Zhao Haipeng before, Qin Yuan had already seen how powerful the mantis boxing is. With his own strength and neural response speed, he can definitely play a 1+1 far greater than 2 effect!

But at this moment, when he heard a voice coming from a distance, Qin Yuan knew that he still needed to find a place temporarily and hid it first.

It's not the time when he plays, only at night is his real home court.

Qin Yuan hid directly on a tree more than ten meters high, using his camouflage ability, most people would not find him.

"huhu, sleep!"

glanced at the time, Qin Yuan smiled, then closed his eyes.

A few hours later, the mobile phone in Qin Yuan's pocket vibrated slightly, and then Qin Yuan directly opened his eyes.

He found that the night had completely dimmed, and a smile appeared at the corner of his mouth. It was finally time for him to perform.

Qin Yuan directly turned on the night vision ability and thermal imaging ability, and then searched for the surrounding plants and animals.

He still has three squares, see if he can get a few more skills.

Just as soon as Qin Yuan turned on his power, he saw dozens of green eyes.

"Hmm, good luck! A good start!"

But Qin Yuan didn't panic and smiled, with a hint of joy in his eyes.

The last time he rescued Ye Cunxin, he had obtained two skills from this pack of wolves, and he had not yet reached the cosmic level. As a result, these wolves gave themselves the skills directly!

Moreover, there are more wolves in this pack than last time. Qin Yuan took out his dagger, gently pulled a knife, and then rushed directly towards the pack of wolves!

Seeing that Qin Yuan even dared to fight back, the leader of the wolf king was suddenly angry, and a few wild wolves rushed towards Qin Yuan!

But for Qin Yuan, these wild wolves are not threatening at all!

The power of ants is strengthened!

Qin Yuan slammed a fist on the waist of a wild wolf. It was the so-called copper-headed iron-boned tofu waist. The waist was the weakness of the canine. He only heard a click, and the wolf suddenly wailed!

Then the dagger in Qin Yuan's hand directly slashed the wolf's neck, and in the next instant, the wild wolf had disappeared!

Looking at the wolf lying in the grid, Qin Yuan showed such an expression.

If you want to put away such a beast, you have to kill it, or hit it until you can't fight back!

And the wolf king saw his subordinates and disappeared in Qin Yuan's hands unexpectedly, and there was also a trace of shock in his eyes very humane.

This situation is beyond his understanding.

But there is one thing he knows very well, that is, the prey in front of him is very tricky!

"Woohoo!"

With a long roar, the wolf king rushed towards Qin Yuan with the wolf pack!

But Qin Yuan smiled coldly, and his figure moved!

.....

Hearing a wolf cry from a distance, people from the Wolf Warriors team were lurking outside a camp.

They have taken away one of Shi Qingsong's team, and their ultimate goal is to directly behead Shi Qingsong.

As long as there is no command, the blue team will become the fish on their sticky board, and they really have the space to move.

But when they acted, they always maintained a vigilance, because they knew that Qin Yuan hadn't shown up yet!

But they let them investigate, and they didn't find Qin Yuan. Looking at the big piece of fat in front of him, Shao Bing finally couldn't bear it anymore and said directly to the team members:

"Forget it, I'd rather be beaten to death than scared to death. I took a small team to attack. Cold wind, you took the second team to support us. Remember, our first goal is Shi

Qingsong. The second goal is Qin Yuan. Don't you want to learn marksmanship from Qin Yuan? If you want to surpass Qin Yuan, this is the first step!"

Leng Feng nodded when he heard this. Although he didn't think he had a chance to surpass Qin Yuan, it's always good to be closer!

Then Shao Bing quietly led a bunch of people directly down, and soon, there was a burst of explosions and gunfire from the camp below!

But what Shao Bing didn't expect was that this turned out to be a trap, but fortunately, he was always cautious when attacking ~www.readwn.com~, and even escaped with most of his manpower!

At this time, Shi Qingsong, who was in the headquarters, nodded slightly when he watched Shao Bing's \*\*\*\* battle. This guy is a man of things.

But the brain is a bit awkward, not enough to be alone.

While Leng Feng and others hiding outside, saw Shao Bing running away in embarrassment, they showed a hint of joy!

This is not their gloating, but it is enough to prove that Qin Yuan is not hiding in this camp!

"Brothers, since Qin Yuan is not here, why are you so careful? Do it!"

"Hey, that's right, Shi Qingsong is there, don't you know if you do it?"

There was a hint of excitement in Leng Feng's eyes at this time. Although they didn't say it clearly, they and Qin Yuan were in a competitive relationship after all. If they performed well in this exercise, they could at least raise their heads in front of Qin Yuan!

"Go!"
