

Special Soldier 1011

Chapter 1011: 3 minutes is enough

And from the looks of it, the Cloud Leopard Commando is doing pretty well here. They are now training and instructing the soldiers in the base, and what they are teaching is similar to what they were teaching before. Qin Yuan smiled and walked over, and their little captain hurried over and typed a report. "Boy, it's not bad now. You can train others now. You are indeed a soldier from our brigade." The squad leader smiled, but his face was serious, and he just glanced at the soldiers behind him helplessly. "Captain, why are you here? I also said that when I am here on vacation, I will go to see you." "Don't worry, we don't need you to come to see. You just need to train well here, and then bring your brothers Complete the task well, and come back safely every time." The captain sighed helplessly, "Captain, it seems that we don't have this chance, I thought we came here to make achievements, but I didn't expect to come here As an instructor." "What do you mean?" It happened to be time for dinner, and he took Qin Yuan and the others to the cafeteria, and then the members of the Cloud Leopard Commando also came over. Everyone was very happy that they hadn't seen each other for a long time. On the way, Qin Yuan realized that their commando team was indeed highly valued when they came here, but it was precisely because of this reuse that he harmed them, because their side bordered the border area and dealt with those criminals, so it was more dangerous. The leaders above may have kept them inside the base for the purpose of protecting them, mainly to train those border fighters, as well as train soldiers in other bases. Wishing to hear this, he was instantly unhappy. He clearly brought out a special warfare team, but turned into an instructor here. This is not protection at all, but burying. You must know that it is not easy to cultivate a special warfare team. They were originally soldiers of the king level who were selected from various companies, but they turned into instructors here. This value is not the same at all. It's not that they are picky and unwilling to accept the jobs arranged by their superiors, it's just that it's really unfair to them. They were originally trained to go to the most real battlefield on the front line, but now they are instructors here. Isn't this burying talents? The captain of the Clouded Leopard Commando ate his meal helplessly, "I don't think these are important anymore, the main reason is that we are teased in other videos that we are national treasures and people are the most protected here." "Yes, people say that our team is Coming out of the most powerful brigade, it turned out to be the entire base now, the only one that doesn't have to go to the battlefield." Wang Yanbing frowned, he also knew the strength of this commando team, it was absolutely no problem to go to the battlefield, even better than their base These soldiers inside are even more powerful. "You didn't report it to them. I think your instructor is quite talkative. Didn't you say it?" , we can only obey the arrangement, what else can we do, I have reported it several times, there is no place for this old face." Qin Yuan nodded when he heard this, to reassure them, this time he said it himself, he This special team is really about to be buried. The captain of the Cloud Leopard Commando was very excited. He stood up and pulled Qin Yuan, "Captain, is what you said true? It would be really great if you could tell us for us." "Don't worry, you guys I brought them all out, and I know how capable you are to be an instructor, you are too talented, and I will never allow such a thing to happen." In this way, after eating, Qin Yuan found the instructor who had come to receive them before, This instructor is very talkative, and he is currently having a meeting in the office to discuss the surprise operation tomorrow night. Seeing Qin Yuan coming in, he also stood up and greeted him with a smile, "Captain Qin, is there

anything on your side? Or is there something dissatisfied with our arrangement?" "Instructor, what is your arrangement here?" It's really no problem, but I'm coming to you today, and the feedback is about the clouded leopard commando." "Oh, I've arranged them very well in our base, there's no problem, don't worry, there's absolutely no bullying "Instructor, it seems that you have misunderstood what I said. I am not saying that they are being bullied, but that the development direction of their entire team is a problem." And Qin Yuan is not saying wishful thinking, he wants to let this Only the Clouded Leopard Commando went to the front to perform tasks, but this was their will, and this was also the purpose of their previous training. After listening to Qin Yuan's appeal, the instructor frowned, feeling a bit embarrassed. "Captain Qin, don't you know that this commando team is of great significance to our base. After all, they came from your special operations team. Their various training methods and physical fitness are relatively strong, so I arranged for them to They serve as instructors, so they can bring out more people." At first glance, this kind of thinking is indeed okay, but he overlooked one point, the members of the Clouded Leopard Commando are not made to be instructors. "Instructor, I'm not questioning your judgment. It's just that the Cloud Leopard Commando has something they are more suitable for. They are trained to perform various tasks like us." Besides, they are now serving as instructors, and the tasks are indeed done well. That's because they just applied how Qin Yuan trained them and applied it to these soldiers, but this is not acceptable. It must have been done well in the early stage, because the training on this side is different from that of their special operations brigade. With another training method, the overall physical fitness of these soldiers must have improved. The problem is that they don't have much experience in the long run, so they can only follow their previous training, so it's very simple. This is Qin Yuan who has been the captain of the special forces team for so many years, and then served as an instructor. This is also the experience he summed up. He will definitely not lie. After listening to it, the instructor kept nodding. "And the purpose of the instructors is that we trained them to be commandos, not instructors. There are also instructors in our brigade. If you need them, you can also be dispatched from our brigade." This is exactly what the instructor wants to ask. Yes, since Qin Yuan has already taken the initiative to say it, and helped him completely resolve his worries, then there is nothing to say. He immediately decided that this was no problem, and immediately went to discuss with the captain here, so that the Clouded Leopard Commando could go out to carry out the mission directly. This is undoubtedly good news for the Clouded Leopard Commando. After all, they no longer need to be protected. This kind of protection is not protection for them, but burial. Originally, they wanted to carry out the mission with Qin Yuan and the others this time, and they also knew about the cooperative mission this time, but Qin Yuan told them not to worry. After all, such a request has just been made. If they keep saying that they are going to go to the battlefield now, wouldn't it disrupt their plans, because they already have a team arrangement before. If they talk too much, people will dislike them for stretching their hands too far. After all, this is their southern combat zone, and it is not under their jurisdiction. Sometimes mutual respect is still needed. After the instructor and the team leader in the office finished speaking, they couldn't help admiring Qin Yuan, "This person is really a person, and he told me so much, I didn't think he didn't mean to respect me, Instead, I analyzed the cause and effect for me." "It's rare to find someone you admire. We have cooperated with them a few times before, and their overall strength is very strong." "I think he brought out There is no problem with people, if this is the case, then let the Cloud Leopard Commando go out to carry out the mission." Their captain has already agreed, and what Qin Yuan has to consider now is the undercover situation. This undercover matter is quite complicated to say. Originally, they would keep a paper file for such a person, because the

electronic file is easy to find. Because one thing happened before, that is, their former undercover was brutally killed, and the undercover's family was also involved, in order to avoid such a thing from happening. The paper files of the former undercover agents were completely destroyed, and only the offline and offline connections were connected. Although this was troublesome, it also protected the undercover personnel to a certain extent, so that they had no worries. This has both advantages and disadvantages. The disadvantage is that after going online and dying like this, there will be no one to connect with him. In this way, they set off at noon the next day, starting early, and lurking to the border first. The current border line is quiet. According to the transaction coordinates sent by the undercover agent before, it is at this location, where they will conduct transactions. Cooperating with them is another team in the base on this side. They have dealt with these criminals for many years, so they are relatively experienced. After the people from both sides ambushed, they didn't move anymore, mainly because they were worried that the criminals would find out the clues in advance, so they all lay down in their respective positions and waited quietly. At this time, the voice of the captain of the other team came from Qin Yuan's headset. "Captain Qin, according to the previous battle plan, once we fight, you will rush into the opponent's team first, but the distance between the seats is too wide." It is normal for him to have such doubts, although before They have discussed it many times, but what Qin Yuan said is very simple, that is, once the fight starts, don't worry about him, he will rush to the opposite side first. But this distance is not a joke now, they look the same on the map, but they look different on the ground. If Qin Yuan goes there, he needs to cross a big river more than ten meters wide. Coupled with the dense forest terrain all around, it would take at least eight minutes for him to reach the opposite side. The captain is also calculated based on the current distance, and it is now a period of rising river water, and the river water is very rough. Qin Yuan just said very easily: "Three minutes is enough, and I will not be found, don't worry!" The members of the red blood cell team must believe in Qin Yuan, after all, their captain has this strength, but the other one The team felt that Qin Yuan was too exaggerated. This is simply talking big. They have also received this kind of armed swimming training. Three minutes is absolutely impossible. For their distance, three minutes can only reach the position of the big river at most. But it's not easy for everyone to say anything. Since he said so, the team leader exchanged glances with the team members next to him, obviously in disbelief. Then the team leader turned off the headset on their side, and whispered to the team members on his side. "I always feel that this matter is unreliable, and we may still have to rely on us later, remember, since we want to protect the safety of undercover agents, you are also very important, and you can directly attack if necessary." Although he said This decision is quite selfish, and it is easy to accidentally injure the undercover agent, but it is also for the consideration of his team members that these criminals are not so kind, they kill without blinking an eye. That's it. Everyone waited until 5:00 p.m., and I have to say that these criminals were quite punctual. At 4 o'clock, some criminals came in advance to investigate the terrain. Immediately after 5 o'clock, a group of criminals appeared with a horse team, and another group of people came from their side, mainly to conduct transactions. Everyone was very nervous. At this moment, the former team leader only felt the leaves shaking in front of him, and then he blinked his eyes, as if he didn't notice anything. Now is not the time to shoot. We have to wait until the personnel from both sides inspect the goods. At that time, they can catch them all at that distance. They had a panoramic view of the situation below this position, and something unexpected happened to him. He saw a black spot in the river, and he had reached the opposite bank in the blink of an eye. His speed was too fast, and he went ashore. It's also a matter of a second or two. This person was Qin Yuan. The shaking of the leaves he saw just now meant that Qin Yuan had already run out. This was simply

unbelievable. He didn't even notice this speed in front of him. And as he said before, he had already reached the other side in less than three minutes. Not to mention that the people on the opposite side didn't notice it, even some team members on their side didn't see it clearly. This was simply unbelievable. The team leader's eyes widened. It seems that they were not talking big, but they could really do it. This speed is too heaven-defying! What's more important is the turbulent river, people didn't hesitate at all, just let it go. At this moment, after Qin Yuan came ashore, he went straight into the dense forest. He approached slowly and could already hear the conversations of those militants. He decided to lurk below first, and find the undercover personnel as soon as he opened his mouth.

Chapter 1012: decisive decision

Because for him, the previous ones are just a simple foreshadowing, and the focus is on him. However, there are still some people in the team who hold opposing opinions.

This time the base is dispatched by members of the third team. They are organized as a brigade, and there are seven teams under the brigade. These seven teams are responsible for daily security patrols.

A guy named Liu Qiang in the third team was very unconvinced,

"I told you what's going on with you. This is extremely irresponsible to us, our comrades, and our lives." He Chenguang felt a little displeased when he heard the voice coming from the headset. Happy, what does this guy want to do?

Didn't you see that their captains passed safely? What else is he going to say here?

"Sorry, I don't understand what you mean now. Our captain has passed safely. This is his plan. What else do you want?"

"Hehe, he just broke our plan, and he posted it so close. If it is exposed in advance, it will expose us completely." Liu Qiang was really angry. After all, in order to participate in the mission this time, they But the team has already made a guarantee.

But now Qin Yuan's approach made him a little worried. If they were exposed in advance, let alone a mission, they could only consider the issue of retreat.

"Sorry, our captain never makes mistakes."

"Hehe, then you are really confident. This is the style of your special brigade, and it is really unique." The guy's tone was full of sarcasm and disdain. Qin Yuan was on the opposite side, so he naturally heard it. , he simply turned off the headset call directly, not wanting to be influenced by such a person.

Their captain also felt a little embarrassed. After all, his team members talked too much, so he quickly stopped Liu Qiang.

"Okay, what time is it? As long as Captain Qin passes safely, it's fine. Let's take a step first and don't think things are so extreme."

"Captain, it's not that I speak badly. It's that you look at their behavior. They didn't discuss with us at all. They rushed up and ignored us at all."

"Enough, what time is Liu Qiang now, don't you listen to what I said?" Liu Qiang was reprimanded by his team leader, he had no choice but curled his lips, and then stopped talking.

Naturally, He Chenguang and the others didn't want to argue with such people. They had seen many people like this, but they were only in the grassroots troops before.

Li Erniu wanted to come forward to make a theory, but Wang Yanbing pressed him down. There is no need to be with such a person. Let them see what their real strength is later.

At this time, the situation on the opposite side changed, and the two parties were about to enter the transaction stage, because both parties had already arrived.

Qin Yuan hid in the dark and carefully observed the other party's personnel, but he really couldn't tell who the undercover agent was.

Seeing that the time was right, Qin Yuan rushed forward, and the members of the third team behind were completely stunned. This guy doesn't play his cards according to the routine!

It was agreed before that they would shoot first, and then take the opportunity to find undercover agents after causing chaos. Unexpectedly, Qin Yuan would do it in advance.

For them, everything came too suddenly. Liu Qiang was even more indignant, thinking that this mission must have failed,

"Captain, this is the end of the game. Look at what kind of captain this guy still claims to be the captain of the Special Operations Brigade, but he is so disorganized and undisciplined at this level." At this moment, the captain of the third team's eyes widened and he was completely stunned. Liu Qiang Still chattering on and on.

"Enough! You kid, take a good look at the situation on the other side." Wang Qiang felt a little strange, and quickly looked towards the other side, only to see that the militants in front had been completely knocked down by Qin Yuan.

He didn't know what kind of weapon Qin Yuan was using, and he didn't even have time to shoot. The four militants standing in front of him had been completely placed by him, and they were all armed with heavy weapons.

This speed was simply too fast, not only him, but even the militants present were completely stunned, they didn't know where a person appeared, and directly attacked them, and the speed was extremely fast.

Qin Yuan didn't know who was the undercover agent, so he simply wanted to control everyone, so the undercover agent would naturally stand up.

If anyone wants to shoot at this time, it must not be their own undercover comrades. After all, there were a large number of militants here, and it was Liang gang militants who met together. Just when a person behind him wanted to do something wrong, a golden bullet shot out directly.

The militant sister who was about to fire a black gun in an instant fell to the ground and died from a bullet in his heart. The corners of Qin Yuan's mouth turned upward, and he knew that it was absolutely right to hand over his back to those brothers. The third team next to him was completely stunned. own comrades.

He Chenguang made an ok gesture, and then all the militants at the table who wanted to fight were dealt with by them. They were very sure.

It's just that Qin Yuan finds it very strange that the undercover agent has no intention of standing up for the sake of it all. Could it be that he is worried that he will be threatened by these criminals?

Then maybe these criminals also have deep cases in the country, so he didn't dare to stand up for a while.

Qin Yuan's speed was very fast. He turned over and ran forward to knock down the militant who was about to escape on the spot.

He Chenguang and the others shot one by one, killing all the delusions around them. For a while, those militants didn't know how many snipers there were.

After all, this marksmanship was so accurate that they didn't dare to resist any more, and they all crouched down with their heads in their hands. At this time, He Chenguang stepped forward, signaled Li Erniu and the others to go first, and then patted the shoulder of the captain of the third team.

"Brothers, I'll leave the rear to you. Let's go first." The captain of the third team hadn't even realized what He Chengguan meant, but saw that their team members had already set off towards the opposite side, and the fastest ones had already passed. Get to the river bank.

It has to be said that this is the strength of their special warfare brigade. Without the slightest hesitation, the team members cooperated very well, showing a ladder formation.

Qin Yuan coldly glanced at everyone squatting on the ground. Every time he killed a militant he killed, a reminder sound came out in his mind. It was just a reminder to get merit points, but he still couldn't find that undercover.

At this moment, a man with a cropped head stood up,

"Don't kill me, I'm one of my own people." Qin Yuan felt a little strange, although he couldn't tell where it was, but when he looked at this person, he always felt a little out of place, mainly because this person's figure was too different, but he thought about it , Maybe this is the case for undercover agents!

But at this moment, a man next to him also stood up. This man was sallow and thin, and looked as if he was malnourished.

"Don't believe him, I'm on my own." Unexpectedly, the two people started arguing like this, and the members of the red blood cell team rushed over, pointed guns at them, and told them to squat down with their heads in their arms, and don't move around.

Li Erniu frowned and walked over,

"Brother Qin, what's going on? How could there be two of us? One of them must be fake."

"Isn't this nonsense? But who is the real one?" This group of criminals were vicious, and they would do anything to survive. Qin Yuan knew that under such circumstances.

Someone inside the criminal must have known that there was an undercover agent, so the military and the others would know the exact time of their operation, and someone would immediately stand up pretending to be an undercover agent.

So now he had to choose the real undercover agent. At this time, the members of the third team also walked down, just when they were hesitating, and the captain and instructor of the third team reported the situation.

After all, two undercover agents appeared now, so they hurriedly reported to the top that the result given by the top was to take the person back first, and then hand them over to them for interrogation.

Just when the captain of the third team was about to get in touch with the man who had cut his hair, Qin Yuan pushed him away.

Then the next second, he shot the man directly in the head. Everything happened so fast, the face of the third team was spattered with blood in an instant.

Everyone was completely stunned, what's going on? Liu Qiang rushed forward and tore Qin Yuan away.

"Get out of my way, even if you are the first to rush over, even if you control them all, but you can't just shoot if you just shoot!" His captain hurriedly stopped him, after all, his team members were a little emotional. out of control.

"Captain, are you still protecting him? Look at him and shoot as soon as he says shoot, what if this person is the undercover agent we need to find." In fact, the captain of the third team also has some doubts in his heart, why Qin Yuan would shoot suddenly, besides, now that he has no identity, he just shoots for no reason. If he really accidentally hurts him, it will be bad.

At this time, Qin Yuan spread his hands helplessly, then walked over and kicked the corpse's hand away.

In an instant, a grenade rolled out from the position of the corpse, and everyone was shocked. If Qin Yuan hadn't reacted quickly just now, the captain of the third team would have died with this person, and not only him, but also the soldiers around him. All could be dangerous.

Liu Qiang looked at Qin Yuan in disbelief, how did he know that this man had a grenade in his hand. This is simply unbelievable. The main reason is that he can make a judgment in a short period of time, and the shot is very decisive. Isn't he afraid of making mistakes?

Qin Yuan stepped forward and directly saluted the other undercover agent with a military salute.

"Comrade, thank you for your hard work." The undercover agent's eyes were moist for a moment, and then he looked at him excitedly, knowing that he made the right choice.

Following Qin Yuan's choice, the notification sound in his mind also sounded,

"Ding! Congratulations to the host for completing the mission of rescuing the undercover agent and getting 5000 merit points!"

"Ding! The host killed eight criminals in this mission, and the system rewarded a total of 16,000 merit points!"

"Ding! Congratulations to the host for breaking through 30,000 merit points! The special passage is now open." Qin Yuan can only go back and look at this special passage, but it doesn't sound like a bad thing. Those criminals are all staring at them closely.

Except for a small number of those who were controlled, there were still some Qin Yuan who were ready to move, and shot them without any hesitation.

His speed was so fast that the captain of the third team was in a cold sweat just now. If Qin Yuan hadn't saved him in time, he would really be a corpse now.

Dealing with these criminals on the border is like this. It's all about pinning your head to your belt. It's too dangerous.

Because these criminals know that arresting them will lead to a dead end, so they will make dire choices.

The undercover agent just now was relieved, and when he went back, his identity would be verified and his initial primary file was called up, which was the file that had just entered the army.

The main thing is to check the identity, there is no problem with this, but the review time is relatively long, this is not Qin Yuan's business.

But the rewards from the system have already been given to Qin Yuan, and this time the task can be regarded as a satisfactory completion. But this time Qin Yuan made his reputation even more famous. The third team was still a little unconvinced before. Although Qin Yuan had cooperated with them several times before, it was really the first time that he felt such a close distance.

After returning to the base the captain of the third team found Qin Yuan in person, and brought Liu Qiang to apologize to him.

"Captain Qin, what happened on the battlefield before was that my team members were a little reckless and disrespectful to you, so we came here to apologize to you."

"You're talking about this, that's not necessary at all, it's just a trivial matter, it's not necessary, besides, we should help each other." Liu Qiang couldn't help admiring that this is a gentleman's mind, and he really didn't seem to have the slightest bit I was so angry, and thinking about what I said to others at the beginning, I felt very guilty in an instant.

"Captain Qin, I'm a straightforward person, but I don't know the situation, so I'm really sorry for what you said."

"Don't worry, I'm not the kind of person who cares. Besides, as long as the task is completed, the brothers will come back safely, but you still have to pay attention in the future, such a situation is

very dangerous." Liu Qiang kept nodding his head, now he looked at Qin Yuan with admiration in his eyes, he really didn't know how this man did it, all his movements were so clean and neat.

More importantly, when choosing, he did not hesitate at all and made a decisive decision to avoid the tragedy.

Chapter 1013: messed up

Moreover, the cooperation between their teams is very tacit, and the two sides trust each other very much, and they are able to hand over their backs to their comrades-in-arms.

The captain of the Cloud Leopard Commando also specially came to thank Qin Yuan, because they had also been notified that they would no longer serve as support teachers, but would go out to patrol like them and perform some special tasks.

Or their value, their abilities should be reflected in these aspects. Qin Yuan was on his way back here, so he quickly clicked on his system to check. Now his merit points are sufficient, and the system has rewarded him again, and at this time he found that there is a new thing in his system interface.

Unexpectedly, it turned out to be a meritorious value mall. In addition to being able to use it for improvement, this meritorious value can be exchanged for other things.

He couldn't wait to click on the mall to check it out. There was everything there. He didn't take all the weapons big and small. After all, he could have access to these weapons and didn't need them.

But he was completely stunned when he saw the back, only you can't think of it, you can't buy it, there is even an aircraft carrier in it.

But the price of this aircraft carrier made him feel that he might not be able to buy it in his life. This aircraft carrier cost a full 90 million merit points.

With 90 million merit points, he doesn't know how many tasks he has to complete and how many people he has to save in order to get them. Moreover, he needs to improve the team members or himself to earn merit points, so it is basically impossible to exchange merit points for an aircraft carrier.

Then there are some heavy weapons, including the series of intercontinental missiles, which surprised Qin Yuan.

It's just that such a price also surprised him, because such a price is basically impossible to complete, but Qin Yuan also has motivation.

Under such circumstances, he is more willing to take on more missions. Only by accepting missions can he complete the merit points up to the standard. With his current merit value of more than 30,000, all he can buy at present are a few blasting grenades.

However, this thing is of no use to him. Explosive grenades are too common, and he touches them casually every day here.

And there are not only weapons in the system mall, but he scrolled down to find some basic food, and even robots and clones appeared in the back.

Qin Yuan is very interested in this clone, what kind of operation is this? After he clicked to check it in detail, he discovered that this clone can not only imitate the other person's appearance, voice, and even habits.

It is even possible to copy yourself, which is much more convenient. Sometimes you can copy an identical self, and then you can do other things with this real body.

It's just that Qin Yuan is also very worried about whether he will be replaced by this clone. As soon as he had this idea, the system explained it directly.

"Answer the host, the time limit for cloning is only three days, and it will disappear automatically after three days." Good guy, co-authoring this thing is a one-time thing. In order to avoid the situation I suspected before, it would be dangerous if he directly replaced the rightful owner.

So now for Qin Yuan, the most important thing is to accept the mission, and only after accepting the mission can he increase his merit points.

After he came back, he made a special call to An Ran. An Ran is quite busy now. Although he has retreated to the second line, she has now been promoted to the director of the game office in the game office.

The main responsibility is the major rules and models in military exercises, as well as testing their newly produced equipment.

Now they have introduced a batch of new drone equipment, which is undergoing trials, so it is full of wind and dust. After Qin Yuan made a call here, he only heard An Ran. The wind was very strong there, and they were training outside, and the signal It was not good in the first place, An Ran said a few words, then hung up immediately.

Qin Yuan suddenly felt that something was wrong, he didn't know that An Ran was training outside, he thought the director of their game office wouldn't go outside, right?

Moreover, the wind was so strong that he couldn't hear what he said clearly. Could it be that An Ran was kidnapped? Without thinking too much, Qin Yuan rushed directly to Gao Shiwei's office. He ran in and said that An Ran was in danger. As soon as Gao Shiwei heard this, it was Qin Yuan who said it, and he dispatched immediately without hesitation. Helicopter, let Qin Yuan take the red blood cell team to find An Ran.

Just in case, Qin Yuan gave An Ran his positioning watch before, so now he has found An Ran's location.

Long Xiaoyun was also very excited when he found out about it. Who on earth is so courageous that he dared to attack the families of their special forces members.

He also directly applied to set off with the wolf squad. Just like that, the two special forces were sitting in the helicopter and moving vigorously in the direction of An Ran.

At this moment, An Ran didn't know about it. He was experimenting with drones with his comrades, because the scale of the drones was relatively large this time.

It is mainly used for monitoring and dropping small bombs, which the previous drones could not do, so in order to require precision, An Ran and the others came to the desert area this time.

This batch of drones was imported from abroad, but this is the first time for small bombs. They have to ensure that after the transfer of gold, they will carry out their own goals for the following exercises and training.

At this moment, there was a rumbling sound, An Ran squinted her eyes and looked into the distance, only to see two military helicopters moving towards her.

what's going on? The comrade-in-arms next to him looked up, and then slowly said: "It seems that there should be a company nearby, conducting military exercises, it's okay, they will do theirs, and we will experiment with ours." But An Ran always felt that something was wrong, how could he I felt that the helicopter was flying lower and lower, and it seemed to be coming towards them.

Immediately afterwards, the helicopter stopped at the position above them. The huge propeller was originally a desert area below, which stirred up sand and rocks. An Ran covered his mouth and then, led by his comrades beside him, withdrew to the outer position together.

But Qin Yuan on the helicopter seemed to be kidnapped and taken away in this scene. He jumped off the plane without any hesitation.

He Chenguang next to him was stunned. Their captain must have been too anxious. He jumped off the helicopter before it stopped.

Qin Yuan's speed was very fast, and he rolled when he landed, and then he stood still and moved in the direction of An Ran, with the throwing knife in his hand ready.

Immediately afterwards, He Chenguang and the others also descended, and Long Xiaoyun quickly approached them with the members of the Wolf Warriors team.

Then the group of An Ran who were undergoing experiments here didn't know what happened, and they were surrounded by people from their special operations brigade for no reason.

"The people in front put down their weapons and surrender!"

"Soldiers of the Yan Kingdom are performing their mission, put down their weapons!" Everyone was stunned by An Ran, and they couldn't figure out what happened. At this time, Gan Yuan had already run up and kicked the person next to him away.

Then he hugged An Ran into his arms,

"Anran, you're fine. It's really great. Do you know that you're worrying me too much?" An Ran frowned, looking at Qin Yuan and Long Xiaoyun rushing forward. What exactly do they want to do?

At this time, Long Xiaoyun also noticed something was wrong. Although they were wearing camouflage uniforms, the soldier who was kicked out by Qin Yuan just now seemed to have an epaulet on his shoulder, as if he was still a company commander.

At this moment, An Ran also slapped Qin Yuan directly on the back of the hand,

"Qin Yuan, what are you doing? Hurry up and let me go, and then help the third company commander up." What!

! Everyone was dumbfounded when they heard this, Li Erniu who was next to him reacted quickly, and ran forward to get the third company up. Qin Yuan's kick just now was really kicked out, and the third company leader fell headfirst and fell to the side in the ditch.

Sanlian Chang's teeth were bleeding, and he was rinsing his mouth with water, and his mouth was full of mud.

"Ahem...Captain Qin, what are you guys doing? Why don't you just kick me without saying anything." After a long time, it turned out that they were experimenting with drones. Qin Yuan finally realized it under An Ran's resentful eyes. , It turned out that I made a fuss and made a mistake.

He hurried over and personally apologized to the third company commander, as well as the soldiers next to him. This was really embarrassing. It was really a big misunderstanding that the flood rushed into the Dragon King Temple and wiped them out.

An Ran looked mentally retarded, looked at Qin Yuan, this guy is too exaggerated, the signal in this place is not good, he didn't ask clearly, came over indiscriminately and knocked him down.

"You don't look at what kind of behavior you are doing, it's too much, don't ask clearly!"

"An Ran, I was wrong. I was really wrong this time. Mainly, I was worried about you. I was afraid that you would be in danger."

"I'm doing well in the army. What danger can I encounter? I think the biggest danger is you. If your men shot at that time, the consequences would be unimaginable." An Ran was indeed a little angry, after all, the third company commander They were originally invited to conduct military experiments together, but now they are beaten for no reason.

In fact, An Ran's main worry was that if the third company commander reported this matter to the higher authorities, it would be troublesome, so she spoke of Qin Yuan so harshly.

Fortunately, the third company commander next to him waved his hand,

"Director An, in fact, you don't have to blame Captain Qin so much. He is also worried about you. Besides, it's really nothing for us soldiers to get kicked. Anyway, we have to train in normal times." An Ran breathed a sigh of relief, but she still gave Qin Yuan a blank look. Qin Yuan knew that he had done something wrong, so he kept smiling and flattering An Ran all the time.

Fortunately, it was just a false alarm, and the people on their side didn't care about it. You must know that their special warfare brigade is equipped with live ammunition. If they really shoot out, the consequences will be disastrous.

Qin Yuan didn't want to disturb An Ran's work, and after explaining to her again, he boarded the helicopter in a desperate manner. In the helicopter, Long Xiaoyun was not so easy to talk, and directly slapped Qin Yuan on the head. superior.

"Do you look like you are still the captain of the special warfare brigade? It's really funny. Our two commandos were dispatched like this. No one else knew what happened. Fortunately, the third company commander didn't care about it, otherwise We can't eat and walk around." Qin Yuan was also very innocent, he rubbed his head,

"It's all my fault. The main reason is that I didn't hear clearly, and I was too nervous." He Chenguang and the others snickered beside him. You must know that such an opportunity is so rare. It is rare to see their captain miss it. Unexpectedly, this time they really met.

But Qin Yuan did it because of what happened before, so he was nervous about his family, and now that An Ran was pregnant, he was always restless, and he made such a low-level mistake.

On the helicopter, Gao Shiwei had already called to ask about the situation at the scene, Qin Yuan could only answer truthfully, Gao Shiwei hung up the phone angrily, and told him to go back to the office.

Qin Yuan, who had just got off the helicopter, looked at the office in the distance, and silently swallowed his saliva. He was not afraid of punishing him, but he was afraid of Gao Shiwei's constant chatter, which really gave him a headache.

"Xiaoyun, why don't you accompany me in, why do I feel a little scared."

"Hehe, you, the captain of the special warfare brigade, are still afraid of such things. Go in quickly, and walk slowly." The members of the red blood cell team watched the excitement, just when Qin Yuan wanted to turn around and call them. At that time, they had already dispersed.

In this way, Qin Yuan was read in the office for more than an hour, it would be better to let him run for more than an hour, but Gao Shiwei knew that this kid was not afraid of running at all.

At the end, Qin Yuan almost fell asleep. Gao Shiwei let him out, although this time the oolong happened on Qin Yuan.

But Gao Shiwei, as Qin Yuan's main leader, still personally apologized to An Ran and the others, mainly to the third company commander and the others.

Moreover, Qin Yuan also accepted the punishment he deserved, and lost a toilet for a week. Unexpectedly, this incident spread. Although everyone didn't care about it, it became a joke after the meal. In order to rescue his beautiful wife, God of War directly flew a helicopter to rescue him on the spot, causing an oolong. Things, but rumors are buzzing.

Qin Yuan really felt that it was too embarrassing. Now he has to make a rational judgment and cannot be swayed by emotion. He thought he was a very rational person before, but since his identity changed, he was very worried.

This is also the so-called good things don't go out, and bad things spread thousands of miles. Everyone is discussing this matter for a long time. It's best that Qin Yuan specially issued a written inspection and read it out in front of the entire brigade.

This is actually for others to see, to stop others' mouths. In the eyes of others, this is actually a military mistake.

Chapter 1014: enron in action

What Qin Yuan didn't expect was that, a week later, An Ran was really sent out to perform a mission.

This decision was also very difficult for the superiors. The main reason was that An Ran was really excellent before. She almost never failed in the undercover missions, and the undercover was also the most successful.

The undercover mission this time was very difficult, and more importantly, it was difficult for this criminal gang to lurk in. This time, their zero-clearing operation caught a member of a criminal gang.

So they could use this member and send An Ran in. They originally wanted to consider other undercover personnel, but there has been no suitable candidate.

The main reason is that An Ran needs to play the role of the younger sister of this member. They selected a few undercover agents, but this crew member is not very satisfied. He has already chosen to cooperate with the police, so the cooperation is relatively positive.

The undercover really wanted to give himself a chance to be lenient, so when the police showed him the photos, he accidentally saw An Ran on the photo wall. Because An Ran had made great contributions before, her photo was on the wall of honor .

The moment the criminal saw An Ran, he was completely stunned, because he did have a younger sister who had passed away three years ago due to illness. Unexpectedly, the moment he saw An Ran, he thought it was him younger sister.

He immediately pointed to the person in the photo and asked, "Who is this person? She is exactly the same as my sister, who also has short hair like this." Go undercover, and then they will carry out the network collection operation together, mainly to combat this criminal group, which has been lurking in the country for many years.

Now several of their bosses have fled abroad, but their sources of goods are still mainly sold domestically, in order to avoid the recirculation of these goods.

So the best solution is to dig out this organization, and then completely wipe out this criminal group.

When the squadron leader next to him heard what the criminal said, he immediately regained his spirits. That's right, he almost forgot about An Ran, and with An Ran's overall quality, it was absolutely no problem if he wanted to go undercover.

But when Lei Shen, the captain of the Thunder Commando, heard it, he directly objected.

"This is absolutely not possible. An Ran has now retreated to the second line, and she cannot be allowed to go to the front line again."

"Although she is relegated to the second line now, we need her now, and the organization also needs her. She can come to perform another mission."

"Captain Liu, I think you have misunderstood me. Now that An Ran is pregnant, he has made so many sacrifices for us and completed so many missions. Now he should be in the rear and live and work in peace and contentment." Listen Up to here, the squadron leader is also very entangled. According to the current situation, An Ran is the best choice, but now she is pregnant again.

But for the sake of unnecessary sacrifices, Enron is really the best choice. It is not easy for them to catch this criminal this time, it can be said to be a very rare opportunity.

"And the squadron leader, I think you should understand a situation. It's not easy for us to explain Qin Yuan's side. Both of them are contributing to the country now, and the tasks that Captain Qin performs every day are also very dangerous." The squadron leader nodded. , he knew what Thor meant. Now Qin Yuan and the others were performing the most dangerous missions every day, and he couldn't be so ruthless.

"It's a matter of reason and reason. It's true that An Ran shouldn't be allowed to go. Although on the other hand, she is really suitable. Then I'll look for it." But time waits for no one, after all, this criminal came out It's been a week, if he doesn't go back, it will definitely alert other criminals.

It will be more troublesome if they want to lurk in at that time, so now they must race against time to find a suitable candidate as soon as possible.

They selected a lot of undercover agents and found it inappropriate. In the end, An Ran heard the news. Without the slightest hesitation, she went directly to the squadron leader's office and voluntarily applied that she would carry out this undercover mission.

After Leishen knew about it, he rushed to stop him. This matter was not a joke. He also had friendship with Qin Yuan before, and he promised Qin Yuan that he would take good care of An Ran.

"An Ran, I know you want to share it with us now, but you are in a special situation right now, so you should consider your physical problems. We already have other candidates for this task."

"Raytheon, we have worked together before. I know you too well. You won't lie at all. Once you lie, you don't dare to look at me. You haven't found a suitable person at all now." Thor sighed, still Can't hide from An Ran,

"Well, we did not find suitable personnel, but anyway, this task is not up to you to carry out, it is too dangerous." The squadron leader also hurried out to smooth things over, he also knew the seriousness of this matter Sex, they have been following this criminal organization for seven full years.

The scale of this criminal group is no less than that of the Black Cat back then. This time there are too many things involved, and it also involves transnational, so many things are unknown.

"An Ran, I can also understand your desire to share for the organization, but now, after all, your situation is special, and the organization will also consider your situation."

"Squadron leader, I have even written a written application, and I volunteer to participate in this operation!" An Ran said very resolutely, and Raytheon was also caught in a dilemma. He knew that An Ran's decisions were usually difficult to change.

"An Ran, because Qin Yuan is also my brother, so I really don't want you to go this time. More importantly, you are pregnant now. Don't you know your physical condition?" Thunder God said a little later Angry, he felt that An Ran was messing around, she was pregnant now, how could she carry out the mission?

"I think you are denying my grades, and you are discriminating against women."

"An Ran, you know I didn't mean that, I just think this timing is really inappropriate!"

"My decision has been made, and no one can change it, including Qin Yan, and my child will go to the battlefield in the future. This is my sure answer. Even now, it should be a kind of training for him." An Ran Put the written materials she handed in directly on the table, then turn around and leave. She has already gone to pack her luggage and can go to work at any time.

Before going out, she turned her head to look at Thor, and said slowly: "There is another matter, I hope you keep Qin Yuan a secret, this is a different job, you should know our confidentiality principle." An Ran's eyes Very firm and unquestionable, Thor had no choice but to nod in agreement.

In this way, three days later, An Ran went through a brief handover, mainly to check with the criminal about his sister's usual living habits.

Then I returned to country H with this criminal, this is their headquarters, and several of their bosses are here.

The main reason why they allowed An Ran to lurk in together was to put a long line to catch big fish. They still couldn't fully trust this criminal who was caught, so An Ran's role played a role of supervision, and they could also collect other valid information.

Qin Yuan originally wanted to look forward to the mission, because now he is eager to get merit points, and there is also something that interests him, that is, the blueprint of the ICBM series, which is the tenth generation.

However, that blueprint requires 500,000 merit points, and Qin Yuan can still save 500,000 merit points, because now he already has 30,000 merit points in his system.

So if there are a few missions coming, it should be no problem, but things are counterproductive, and now they don't have any missions.

Qin Yuan was also sent to the basic company, and all members of their special operations team would go to the basic company for some guidance and training.

Also, in a few days, a TV program needs to film their daily training, and the new season of conscription is coming soon.

They have to make preparations for these things, and they can be regarded as cooperating to shoot a promotional video for conscription. It is quite simple for them to do, but the things are more cumbersome.

It's just that Qin Yuan found that since he sent An Ran a message a week ago, she didn't reply to him again.

Because they were worried that it would affect An Ran's work, and because of the particularity of their work, they basically used text messages.

But An Ran didn't return for more than a week, Qin Yuan was also very helpless, he felt that An Ran should still be angry with him, after all, the commotion was vigorous, even now, and it was really embarrassing for someone to discuss what happened at that time.

Originally, An Ran didn't like to engage in such outstanding things, but now she is completely famous, so Qin Yuan didn't take it seriously, after all, he thought that An Ran was in the army, it must be the safest.

They cooperated this time, and after filming the promotional video, they conducted guidance training again, and just like that, almost half a month passed.

Qin Yuan saw that it was still early and they needed to return to the team, so they could go to An Ran to check on her situation while there was still time, Li Erniu and the others also went with them and bought a lot of food.

Usually, when Qin Yuan came to Anran's company, it was very easy. After all, everyone knew that he would be able to enter after registration, but he didn't expect that this time he would be turned away at the guard's position.

The third company commander who was knocked down by Qin Yuan before also ran over. The reason he gave was that Anran is now conducting a closed military plan. This time, several heads of the upper ranks participated in the plan, so it was all carried out in secret. Now no one can visit.

Qin Yuan can understand this, because apart from the weapons, now they have to conduct a large-scale exercise and training. This is an exercise for the whole army, so it is normal for An Ran to conduct closed training.

He Chenguang was a little unhappy, this is too exaggerated, if you don't let the husband and wife meet, it would be difficult to meet each other.

"Third Company Commander, what you did is too exaggerated. You know that we all understand the principle of confidentiality, and we won't say anything. Just let An Ran come out, and we won't go in. Let them meet as husband and wife." Three The company commander is very embarrassing for her at the moment, how dare he not let the husband and wife meet, there is nothing he can do about it, where can he find someone?

In my heart, I silently scolded the leaders above, handed over the scapegoat to him, and let him be the villain.

"Sorry, I really hope you can understand, this is also the rule above us."

"What kind of rules are you breaking? Why is it so difficult for a husband and wife to meet each other? Besides, are we that kind of people? Are we going to reveal your secrets casually?" Li Erniu also stood up and spoke directly. At this time, Qin Yuan quickly pulled them back.

"Forget it, everyone don't say a few words, after all, we are all comrades-in-arms, let's understand each other." After Qin Yuan finished speaking, he handed over the things he bought to the third company commander,

"The third company commander, please hand over these things to An Ran. We also have time to return to the team, and we can't stay here for a long time." The third company commander nodded and promised to hand over these things to An Ran. Qin Yuan and the others before leaving.

The third company commander sighed helplessly, looking at the backs of Qin Yuan and the others leaving, this deceiving feeling was really uncomfortable.

More importantly, it was not easy for the husband and wife, but this time there was really no best candidate, otherwise, they would not want An Ran to go to the front line again.

From the bottom of his heart, he hoped that An Ran could come back safely, and this would be a good explanation for Qin Yuan.

Qin Yuan's hearing is not a joke. Although they walked out, he heard the third company commander sigh, and he always felt that something was wrong.

So along the way, he was thinking It's been half a month since what happened in the past few days, and An Ran didn't even reply to his message.

This is really strange, it is not An Ran's style at all, and An Ran will not be angry for such a long time.

Seeing that Qin Yuan was not in a good mood, He Chenguang, who was beside him, quickly comforted him and said, "Brother Qin, don't think too much about it. We should also cooperate when the military exercises are held, and we will be able to see my sister-in-law at that time."

"No, I always feel that something is wrong this time. No matter what, An Ran will not reply to my messages for more than half a month, and have you seen the expression on the face of the third company commander just now? It is very unnatural."

"Brother Qin, but this is in our team, so nothing will happen." Qin Yuan couldn't tell, anyway, he always felt that these people were hiding something from him. He really couldn't figure it out, so he could only shake it. Shake your head.

Wang Yanbing also said that he would not reply to the news, and it may be that people were worried that it would be leaked, so it was already a normal thing to hand in their mobile phones.

Qin Yuan nodded, finding a reason to comfort himself.

Chapter 1015: suspicious ship

The main thing is to select some top soldiers. These selected soldiers can choose to join the special operations brigade or develop in their respective fields.

Qin Yuan and the others were always in charge of this work, but this time they received a notice from Gao Shiwei, and they changed people temporarily. This time, Long Xiaoyun was in charge of the exercise.

what's going on? Everyone thought it was strange, and it didn't mean that there was a temporary replacement, but that Qin Yuan had all kinds of signs that it seemed that something was hidden from him.

However, Gao Shiwei only said that it was the arrangement of the leaders above, and Qin Yuan and the others also had other tasks in the future, so it was reasonable to hand it over to Long Xiaoyun and the others, and there had indeed been such a situation before.

In fact, Gao Shiwei knew it was because of An Ran's relationship. When he knew that An Ran was sent out to perform a mission again, he was really angry.

But what can he do, their profession is like this, everything is to obey orders, so he has no choice but to cooperate with Qin Yuan, because he doesn't know what Qin Yuan will do.

And the most important thing now is to appease Qin Yuan's emotions, and his work is equally important.

Before Qin Yuan had time, he received a mission after thinking about it. This time, the Marine Corps salvaged a spy submarine in the waters under their jurisdiction.

The main thing is to collect the information they need through the special sonar equipment above the submarine, so that they can accurately infer the number of warships and military strength of their Marine Corps.

And looking at the style of these submarines, it was two or three years ago, which means that these submarines have existed for two or three years, but no one has discovered them before, that is because they have only recently started.

Originally, the Marine Corps was responsible for this matter, but for the sake of safety, Qin Yuan and the others were also transferred to cooperate with each other, because their investigation scope is getting farther and farther this time, and they will encounter pirates in the open sea area .

This mission is quite good for Qin Yuan. After all, he is working with Jiang Xiaoyu and the others. They have also cooperated with each other before, and everyone knows each other. In addition, he has treated Liu Xiaoshan and the others before, so both of them are very happy. is relatively familiar.

This kind of cooperative action is actually not too dangerous. Although it is said that there will be opportunities to encounter pirates, basically seeing their national flags now, plus the crackdown on pirates in the past two years, so these pirates see them. It is unavoidable.

This time, Qin Yuan and the others just cooperated with each other to carry out the salvage mission. In just three days, many submarines were salvaged intermittently.

Just when Qin Yuan felt that the mission was about to end, a notification sound suddenly came from the system.

"Ding! The host triggers a random mission, finds the spy, kills the spy, and gets 1,000 merit points for each person killed!" After hearing the prompt from the system, Qin Yuan came to the deck and looked around. The sea is very calm now, without any ship, but where did the spy come from?

Jiang Xiaoyu, who was beside him at the moment, also noticed the abnormality of their willingness. They are now only responsible for salvaging scattered submarines, so the task is relatively easy, and they have not encountered any pirates along the way.

"Brother Qin, why don't you relax, why do you think you're so nervous? Anyway, there's nothing to do, so don't worry."

"Let everyone be prepared. I have a bad feeling that it is very possible..." Qin Yuan hadn't finished speaking when he found a fishing boat slowly appearing not far from their boat.

You are their coastline, and the location is relatively remote. The sudden appearance of fishing boats really made them very vigilant, but after seeing the signs on the fishing boats, it seems that they should be fishermen near them.

These fishermen sometimes go to such a distant place to fish in order to catch big fish.

Qin Yuan stared vigilantly at the opposite ship, and this side began to signal to set off towards the ship, and the ship stayed in place cooperatively.

However, Qin Yuan always felt that something was wrong. The system would not send out an inexplicable prompt at this time. It was too coincidental at this time. It can only explain one problem, the ship really has a problem.

"Everyone should be prepared, it's not easy on that boat." Jiang Xiaoyu felt a little strange when he heard this. The distance was so far, and Qin Yuan hadn't even stepped forward to see it. How could he judge that there was something wrong? ?

"Brother Qin, I think you are too nervous, this fishing boat looks ordinary, besides, we have so many warships, is it possible that he is afraid that one of his fishing boats will not succeed?" Brother Qin smiled, or let everyone pay attention Be alert, just like that, the warship slowly approached the fish boat.

There were still five or six meters away from the fishing boat, when a man came out smiling and beckoning, Qin Yuan saw through the deck that there should be seven or eight people in the cabin.

As soon as they approached the man, they greeted each other with a smile,

"Sirs, we are all nearby villagers, what are you doing?"

"Don't be nervous, we are the Yan Kingdom Navy, we are only responsible for routine inspections and patrols, please cooperate with us to accept our inspections."

"This is for sure, we will definitely cooperate." The boss of the boat was still smiling, and then he came over to smoke for everyone, but everyone refused. This guy was too enthusiastic, and more importantly, The people inside were very nervous, in stark contrast to the boss of the boat outside.

Qin Yuan couldn't help but carefully looked at the people in the cabin. At this time, the boss of the ship also noticed that this guy was quite shrewd. He hurried down and patted the shoulder of the person below.

"Oh, Daming, I see what you are nervous about. This is our own team. Besides, it's just a routine inspection. Hurry up and cooperate with the officers to carry out the inspection." It was just an ordinary inspection, and it seemed that there was nothing wrong with it. At this time, the Marine Corps brought in military dogs.

The boat boss couldn't help feeling a little nervous, you know, the military dog's nose is not covered, Qin Yuan has been closely watching every move of the boat boss, at this time, the military dog suddenly barked in the cabin.

what's going on? Everyone became nervous, Jiang Xiaoyu and the others also jumped onto the deck. The boss of the boat trotted over quickly, and then said with a smile: "Sir, maybe you dogs are hungry, and the food under me is some canned chicken for us to eat."

"I won't ask you to open this again, we will check it." The military dog has received special training, even if it is canned chicken, it will not bark like this when it comes to food, obviously it has found something else.

The boss of the boat was very nervous. He promised to find the key to open the cabin, but kept looking at other places.

At this moment, the boss of the boat suddenly took out a grenade from the box next to it and put it in his hand.

Moreover, the boss of this ship was obviously trained. His speed was very fast, and he directly grabbed a soldier standing beside him.

"Damn it, I originally wanted to let you go, but I didn't expect you to keep forcing me, so there is no way to die together."

"Put down your weapons, what on earth do you want to do?" Almost instantly, the few people standing on the deck also started to resist, but Qin Yuan had been staring at them all the time.

His throwing knife had already been thrown out, and before the two people in front could react, the arm had already been stabbed by the flying knife, and they were quickly controlled by the marines.

As for the boss of the ship, he could only keep retreating, holding the soldiers in front of him tightly.

"Wait, let go of my subordinates, or I will detonate the ship, and everyone will die together." Qin Yuan had been staring at the boss of the ship just now, but he was attracted by several of his subordinates during the registration inspection, because he felt Those few people were sneaky, more like they were about to commit crimes, but unexpectedly, the boss of the boat made a fuss first.

"Put down your weapons first, everything is easy to talk about." The soldiers of the Marine Corps in front kept persuading the boss of the boat, but at this moment, the boss of the boat was very emotional and kept letting them get off the boat.

"Don't talk nonsense, get me off the boat, or I'll just press the remote control. I don't only have grenades on this boat, I have 50 kilograms of explosives on board, which can make you all fly into the sky." Jiang Xiaoyu and the others listened. In the future, I will take a breath, how could it be possible that when they checked just now, they found nothing, 50 kilograms of explosives?

Is this guy a liar? But now, for the safety of the kidnapped soldiers, everyone can only keep retreating, Qin Yuan is looking for an opportunity.

The captain of the ship held the soldiers with his left hand, and kept waving the grenade in his right hand.

"Get back quickly and let my men come over. My patience is not so good." Before he could speak, Qin Yuan quickly threw the poker cards in his hand. At this distance, the poker cards were faster than Flying knife is slightly better.

Two poker cards were dispatched together, one directly slashed the throat of the boss of the boat, and the other slashed his wrist, the boss of the boat felt pain and let go of his wrist.

Immediately after, blood spurted from his throat, and he held his throat tightly, but at the last moment, he still pressed the grenade.

Jiang Xiaoyu next to him didn't even see clearly, he only felt a black shadow fly out, and at this moment his wish had been activated, he rushed forward and kicked the grenade out.

"Get down!" The grenade flew out in an instant and exploded in mid-air. If it was a few seconds later, the consequences would be unimaginable.

If there were really explosives on board this ship, an explosion like this would undoubtedly be directly ignited explosives.

The boss of the boat fell into a pool of blood, and stared at Qin Yuan in disbelief before dying. At this moment, another boat came from the opposite open sea area.

Then there was a sound of system warning in Qin Yuan's mind.

"Not good, turn the direction quickly." Not to mention the soldiers on the nearby warship, they had a willing order under the circumstances, they quickly turned the direction, Qin Yuan also rushed into the wheelhouse of the ship, and controlled the flip Wall, quickly copy the rear and retreat.

Everyone understood that there must be nothing good about the sudden appearance of a ship at this time. As expected, their direction just changed.

A portable rocket launcher landed directly on the location where they parked just now, followed by the second, third, such dense artillery.

It was simply a provocation to them. It seemed that there was something important on board that forced them to move out suddenly, wanting to return the corpse and wipe out the traces.

Moreover, they have already used portable rocket launchers. The Marine Corps is not a vegetarian. The anti-aircraft guns on the warship immediately counterattacked. For portable rocket launchers, anti-aircraft guns are simply one thing against one thing.

If this portable rocket launcher is used on land, the range is quite wide. The anti-aircraft gun here immediately took aim and hit the opposite ship precisely. The opposite ship did not expect their reaction to be so fast. Originally, they had finished firing the portable rocket launcher, and they would quickly retreat as soon as they hit the target. They did not expect that now counterattacked by them.

Jiang Xiaoyu and the others must be captured alive. After all, it is not clear what happened on the other side. The anti-aircraft guns only hit their ships.

From a distance, they could see that their ships were already on fire, and they were slowly silent, and the warships quickly surrounded them.

As the warship approached them, the militants on the ship began to fight back, and Qin Yuan and the others quickly fired back.

Several militants on the front deck were shot down on the spot, and the anti-aircraft artillery attack just now had caused them to lose a lot of people.

The ship is already in a semi-silent state, and these guys are still able to resist, it is indeed quite desperate.

Jiang Xiaoyu gave Qin Yuan a thumbs up in admiration, recalling what he said before, could he really predict the outcome of the matter so accurately?

"Brother Qin, when it comes to this, I have to admire it. I even wonder if you are their boss. How can you know so accurately that they will appear?"

"How do you talk, our love song has many years of combat experience, so the judgment is very rich."

"Hehe, am I just curious? Besides, it's really awesome. I can only persuade this wave of predictions." At this moment, Qin Yuan is counting the reminders coming out of his mind, plus the fact that he committed suicide before. The ship boss who died, and the soldiers who are attacking now, have earned 10,000 merit points in this wave, which is not a loss.

Finally, under their investigation, they realized that these people were so anxious to destroy the evidence because the ship they seized just now contained spy weapons.

They rely on such fishing boats for camouflage, and then launch spy submarines. The spy submarines are just below their boats, and they are also tied with explosives, all at the bottom of the boat.

Chapter 1016: Enron's lurking

This was just their preliminary investigation. After the boat was discovered, they wanted to die with Qin Yuan and the others, but the boss of the boat was controlled at that time.

But when the explosives from the bottom of the ship were salvaged, everyone was completely shocked. If Qin Yuan hadn't discovered it early, they would have been unable to avoid such an explosion.

The subsequent investigation was handed over to the Marine Corps. After all, the group asked them to cooperate this time, and they continued to patrol and salvage.

A spy ship like this couldn't find any round heads in the first place. Even if some people were caught alive, they couldn't ask anything.

Therefore, these investigations can only be carried out through the submarines carried by the spy ships. They have checked that such submarine materials are from country H.

There has been no direct evidence, and it can only be judged from the fragments of these materials that it was exported from there, but whether it is related to them has not been investigated.

But this time they also captured a large number of spies alive, and during the surprise interrogation of them, they really interrogated something.

Unexpectedly, this espionage incident was actually related to a criminal organization they investigated in China, and this happened to be the one that An Ran lurks in.

Several leaders of this organization have now fled to country H. Although there are no police and military personnel to control them there, they will also be suppressed by the local military.

So they chose to cooperate with the local military, mainly because they used to operate in the waters here because of smuggling, so they are very familiar with these waters.

Let them carry out this espionage mission is the most suitable person, can escape effectively, and the probability of being interrogated after being discovered is also very low.

Because of this kind of action, they have done it several times before. For the executives below, they don't know the situation of the offer.

And this time it happened that the spy was getting closer to a member above. Later, during a drink, the leader of an organization slipped his mouth and said that they are a complete criminal group, and the members of these espionage organizations are managed by this organization.

So he probably knows the situation of some organization leaders, he only knows that he is in country H, but he really doesn't know the specific address of the organization, and at this moment, An Ran is lurking inside.

An Ran has been pregnant for more than three months now, that's because he is relatively thin, so he didn't show his pregnancy, but it was really hard during this period.

She has been lurking in for nearly a month, but the address of the leader of this organization has never been clarified. Their organization often changes locations, and An Ran has not yet grasped the exact number of people.

Because they are so cunning, they are more difficult to deal with than the black cats before, and even the usual trading place is above, and the decisions made by the bosses after discussion are all temporary decisions.

The location of the transaction can only be found out half an hour before the transaction, so no one on Enron's side has sent a message, half an hour is too late to wait for their people to arrive, these people have already fled, and they can still Feel free to make changes.

But at the moment, the Marine Corps is also investigating the spies. They found out about this criminal organization by following the vines. They didn't know that other teams were also investigating this, just because they had heard about this criminal organization before.

They treated it as a spy case, and as a result of the final interrogation, this spy member only knew that the people above him were in country H, but he could only find out their exact location by contacting their boss.

Jiang Xiaoyu, they were ordered to start an investigation, mainly because if this organization had not been dug out, their salvage would be meaningless.

We need to solve it from the source. Because of the previous incident, Liu Xiaoshan and the others invited Qin Yuan and the others to join the investigation.

After all, Qin Yuan's ability is also very outstanding, and this time he is in a foreign country, if they cooperate with him, the chance of success is very high.

Qin Yuan didn't say anything, and immediately agreed. This matter is not a bad thing for him. Anyway, it's nothing. In addition, Gao Shiwei also agreed. If he goes, he can also earn some merit points.

This member doesn't know the specific location of the leader, so he can only go to Country H first. After arriving there, he will find a way to contact the members there, so that he can follow the clues.

Anyway, what he said was very vague, and Zhang Chong next to him couldn't take it anymore, and now they were all about to act immediately, but it turned out that this guy spoke in a vague way, feeling like he didn't know what to ask.

Zhang Chong walked over and mentioned the spy member,

"I said, are you kidding us? It's already this time, and you still refuse to tell the truth. How could you not know how to communicate with your upline?"

"Brother, I really don't know. To put it bluntly, I followed them because of the money. I don't know anything, and our boss has been killed by you. He did this before."

"Don't talk nonsense, let me tell you, if you dare to play tricks with us, I will kill you on the spot."

"Brother, even if you lend me ten guts, I wouldn't dare. I only know that our boss will go to Xinwan Wharf in Country H every time, and there should be brothers there to support him." During this process, Qin Yuan kept going. Looking into the eyes of this espionage organization, he really didn't lie, and there was no need to exercise any consciousness control over him, because he really didn't know anything.

In this situation, we can only go to country h to talk about it first. On the other side, An Ran is also collecting. The person who brought her in before has been controlled by the police, mainly because that guy is useless now.

And if he was kept by An Ran's side all the time, it would be easy for An Ran to be exposed. An Ran has been here for such a long time now, and she only participated in the organized conference twice.

She knew the faces of several bosses, but she had only seen one of the four bosses in total. Moreover, there are not many people in the disappearing organization of the previous person. In a war-torn country like H country, it is common for people to disappear.

Therefore, in order to gain a foothold here and not be harassed by other forces, they can only seek the protection of the local military, and the deal reached between them is to obtain information from various countries.

Over the years, many organizations have flooded into country h, but it is a war-torn area, but it is precisely because of the war that these transactions are acquiesced.

No one will take care of these things, and they can let them do it freely, and now their military is no longer entangled with those other terrorists, but is making money and intelligence from these organizations.

Provide them with asylum, these people give them money, and then the powers of various countries conduct intelligence investigations on other countries based on their location, and they also protect their own security.

The main reason is that they can resell this information to other countries. Other powerful countries are very interested in such information.

Taking the current situation of Yan Kingdom as an example, their military strength is definitely unmatched by South Korea, and they dare not even think about it, but they can sell this military information to other countries.

They also profit from it. This country is now in a period of war, and it is also because of interests, but it is precisely because of the war that their economy has been in a state of decline.

So it is only through this method that they can make their own government rich first, and then lead other people to become stronger. They have no choice but to do so.

And after they have money, they can buy other weapons to defend themselves, but they encroach on the interests of other countries for their own interests. This behavior is very disgusting.

And these so-called organizations are the most hateful. For these interests, they are willing to become traitors and do things that are detrimental to their own national interests. This is the target of Qin Yuan and the others.

An Ran has been lurking here for more than a month, and probably has some clues. There are four forces lurking in this area, but these four forces are mutually restrictive.

Usually there will be no conflicts, and more importantly, the military is also a kind of protection for them, so these organizations have never been caught.

Because when they act, the local military will notify them in advance, which also creates a kind of difficulty for the operation. If you want to catch them, you can only use secret infiltration operations.

An Ran also successfully entered their drug manufacturing factory and took a lot of evidence. Not only that, they also involved in military transactions.

For their espionage behavior, An Ran only has a very small part, because the things below are very confidential, so An Ran can't get in touch.

An Ran is also very anxious, because she doesn't know how long she will continue to lurk here. If she can't get effective information and capture this organization, her stomach will slowly show up in the later stage, which will be more troublesome up.

The advice of Thor and the squadron leader is to give An Ran another half a month, if there is still no effective information, then An Ran will retreat immediately, and they will send someone to respond.

But An Ran felt that such a retreat was too hasty, without any effective information, so it was meaningless for them to lurk.

After spending so much effort on them and taking so long, should we just give up? However, Raytheon's goal is very clear, regardless of whether the mission is successful or not, Anron's safety is the most important thing.

So Thunder God has also issued a death order, no matter what, he will definitely pick up An Ran on time in half a month, regardless of whether he succeeds or not.

An Ran is very anxious now, and she can't expose herself, but inquiring about information in the organization is always accompanied by danger.

On this day, An Ran just came out of their drug manufacturing factory with a few members of the organization, mainly to deal with some goods.

At this time, a stubble-faced man walked towards An Ran with a wretched expression. Then restlessly rested his hand on An Ran's shoulder,

"Miss Li Sha, are you interested tonight? I'll treat you to a drink." An Ran shook off the man's hand with a look of disgust.

"Sorry, I have other missions to do tonight."

"Just hand over the task to your subordinates to complete it. It's just a simple docking, and you don't need to go. Let's go, I'll invite you to drink."

"I'm sorry, I'm not interested." Unexpectedly, the man was still relentless, and immediately came up and hugged An Ran.

"You **** let go, what exactly do you want?" An Ran's strength is also very strong, and the most important thing is that her grasping is also very powerful, so she used her ingenuity calmly to break free from the man's embrace.

She can't be too obvious now, for fear of exposing herself. If she had been in her previous state, the man would have been thrown to the ground by herself.

"His grandma, I think you are toasting and not eating fine wine, and you are pretending to be noble here with me. Today I insist on drinking with you!" After the man finished speaking, he went to pull An Ran again, and she then backed away Bu slapped the man directly on the face, and the crisp sound of the slap attracted several people around to see it.

Others just watched the excitement, and then started booing. The man instantly felt ashamed, and was beaten by a woman. He was not polite, stepped forward, and slapped An Ran on the face, and An Ran was knocked over. On the ground, blood dripped from the corner of his mouth.

An Ran clenched her fists tightly, she can't reveal it now, she can only fix it first, the man is cursing.

"Damn, what are you, you're just a stinky bitch, besides, I think highly of you by letting you drink today." At this time, a person next to him hurried out, pulled the man, and whispered next to him: "Forget it, don't touch her, her elder brother is the person in charge of Area A."

"Hehe, the person in charge has disappeared for a week. probably died outside a long time ago. I'm afraid he won't succeed."

"There are so many women out there, why do you bother us? If the boss finds out, it's not good. Forget it. I'll see you when you look up." The man with the beard thought for a while, and he did. That's the case, what his boss dislikes most is the members' quarrels, because he feels that this will affect the unity among the members of the organization and it is easy to go wrong.

So he spit on the ground, and then directly stepped over An Ran.

"Damn it, it's just to give you face, and I don't care what kind of person I am." An Ran really wanted to beat this man hard at this moment, but as an undercover agent, she could only endure it first.

The person who persuaded him just now was called Liu Bin. He walked over and helped An Ran up, and it was obvious that this guy also had a good impression of An Ran.

But he is relatively polite, An Ran knows that this feeling is not wrong, since this is the case, he can also find a breakthrough from this person, maybe he can give him a message.

Chapter 1017: sudden sacrifice

The main reason is that after these organizations entered country h, a large number of foreigners poured in, so Liu Bin has a relatively good attitude towards people from his own country.

He always felt that they were all compatriots. Although what they did was not glorious, at least it was a kind of comfort outside.

It is estimated that there will be no going back in this life. Liu Bin still has a little bit of kindness, at least he can take care of his compatriots, so he is more measured in doing things.

So An Ran saw this, and hoped that he could instigate rebellion against this person, and even if he couldn't instigate rebellion, it was still possible to inquire about other information from him.

An Ran also accepted his kindness logically,

"Thank you for standing up for me."

"It's okay, we are all compatriots, sometimes we should help, and don't bother with him, his temper is just like that." An Ran nodded, pretending to be dizzy, and leaned slightly against Liu Bin's on the shoulders.

This kind of operation, which man can bear it, soon aroused Liu Bin's desire to protect.

"You live in the No. 3 dormitory, right? I'll send you back first." The corners of An Ran's mouth raised. This guy has already been hooked. Now it's up to her to train her slowly to see if she can get other news. If she doesn't If I remember correctly, this person is the direct contact person of the factory.

It is very likely that he will be able to get in touch with the people in charge above, and maybe know some of their whereabouts. This will also be beneficial to their arrest, because there is really not much time left for her.

The Thunder God gave her a death order before, and after half a month, no matter whether it succeeds or not, he will definitely come to meet her.

An Ran is still getting news here, and Qin Yuan and the others also came to country H, but after arriving here, things did not go as smoothly as they imagined.

This spy member has been looking for his organization, but there is no news at all, because he was not in charge of contacting them before, so they are like headless chickens, scurrying around near the pier.

This spy member was also very scared. He was worried that he would be killed by Qin Yuan and the others because he was useless.

"Big brothers, let's wait, because this matter was done by our boss before, so I really don't know how he connected."

"It's fine to wait, but don't play tricks on me, or you will know the consequences." Zhang Chong clenched his fists and made a threatening gesture. Liu Xiaoshan stepped forward and patted Zhang Chong's shoulder, letting him know. Don't be so conspicuous, they really can't stay on the pier for a long time now, mainly because there are too many of them.

In this way, they lived nearby first, and then let the spy member go to the pier to wait for the opportunity.

After waiting like this for a few days, a clue finally came. Jiang Xiaoyu, who was supervising behind, quickly sent a message to inform Qin Yuan, and they also rushed from where they lived, because this person had an incident with the person on the opposite side of the boat. communicate.

The reason why they chose the location of the port is because this place is very easy to retreat. If they don't have a suitable means of transportation, it will be difficult to catch up with these people for a while, so their speed must be fast.

It has to be said that these criminals are also very cunning. Zhang Chong was worried that the spy organization would run away suddenly, so he followed up with a smile. Behind Zhang Chong was Xu Tianlong. He always felt a little uneasy, so the two went up together.

Originally, they wanted to wait for Qin Yuan to come together, but looking at the actual situation now, they can only act first. No matter what this espionage organization does, they can't let him play tricks and escape.

As soon as they walked over, the people on the boat stared at the two of them with vigilance.

"Second son, what's going on? What you said just now, but you are the only one, why are they?"

"Brothers, they are also our people, they are on our ship, am I afraid that you will not show up? Besides, we are all together."

"That's right! I'm also desperate now. Our boss is dead, and the brothers also want to find the organization as soon as possible." Unexpectedly, at this time, the people on the opposite boat fired quickly without saying a word. The spy member standing in front of it was too late to react and was shot dead on the spot. Zhang Chong and Xu Tianlong also retreated quickly.

How is this going? How could these guys suddenly shoot? Jiang Xiaoyu, who was behind, saw that the situation was wrong, and rushed forward with guns.

Qin Yuan also arrived at this time, but because the distance was too close just now, Xu Tianlong was shot twice in the chest, and now he fell directly into the sea.

Zhang Chong's situation is also very bad. They use a submachine gun. After this submachine gun is fired, the bullets are spiraled, which not only expands the wound, but also is too close at that distance.

Zhang Chong stood behind, so he was shot in the shoulder and arm, and these guys quickly retreated after shooting, Jiang Xiaoyu and the others rushed up, and they could only vent a few shots at the tail of their speedboat, but Still useless.

In addition, there was a gun battle on the pier, and the people around were chaotic and fled in all directions. Qin Yuan heard the sound of gunfire in the distance, and ran to the pier at a faster speed. When he came, he saw chaos, Zhang Chong fell in a pool of blood, but Xu Tianlong was not seen.

He Chenguang kept calling Xu Tianlong's name, but no one responded. At this time, Liu Xiaoshan's head emerged from the sea, and then shook his head.

"Your waves here are really too big. Although it is said to be by the port, I can't find it." What's the situation?

Qin Yuan's eyes were red, and he immediately understood, without the slightest hesitation, he jumped into the sea.

Liu Xiaoshan was pulled up, he coughed violently, his water quality is very good, but here, he didn't expect the shipwreck on their coast to be so serious, and Xu Tianlong couldn't be found for a while.

"I really tried my best. The main reason is that I don't have any oxygen equipment, and the extent of my dive is limited. I only see a piece of blood, but I can't see where it is." He Chenguang and the others stared nervously at the sea surface. , They believed in Qin Yuan, but now they were more worried about Xu Tianlong.

"Master, we know that you have tried your best. You should rest by the side first. Now that Brother Qin is here, he will definitely be able to rescue Xu Tianlong." After Liu Xiaoshan went down, he knew the situation on the sea surface, so he was very worried. I have also seen how powerful Qin Yuan is, but now he does not carry any equipment, and it is simply too difficult to pull a person down from the bottom of the sea.

Deng Jiuguang and the others treated Zhang Chong's wound nearby. His wound was not a serious problem, and the bullet did not hurt his vitals. However, this submachine gun was too close, and the bullet was spiraled after firing, so the wound area was relatively large.

So everyone was more worried about Xu Tianlong's situation, because Xu Tianlong was standing relatively close, and Zhang Chong was even more regretful. He could have just pulled Xu Tianlong just now. He saw the bullet hit his chest with his own eyes.

They also found it strange that these guys shot directly without saying a word, which really surprised them.

After Zhang Chong finished bandaging, his face was pale, and he slapped himself on the face, very remorseful,

"It's all my fault. If I had given him a hand at that time, perhaps such a thing would not have happened."

"How can we blame you for this matter? We didn't expect everything. Don't worry, Captain Qin will definitely rescue him." As soon as Deng Jiuguang finished speaking, he saw Qin Yuan's head popping out of the sea, followed by Xu Tianlong's figure also appeared.

It's just that Xu Tianlong's state is very wrong, he seems to have passed out, and he can only be dragged by Qin Yuan.

He Chenguang and the others jumped into the sea without any hesitation, and then helped pull him up together.

But Qin Yuan's expression was unusually stern, and when he landed, Qin Yuan half-kneeled on the ground in grief. No one knew what he was thinking, at this moment Qin Yuan was calling the system.

"Is there any medicine that can bring him back to life? I'll take everything in exchange. If you want the skills in me, then take it all, as long as it can bring him back." The system didn't respond, because the saying system Unable to get a response.

"You're a broken system. You always lose the chain at critical moments. You are answering. What can you do?"... There was still a long silence, and he didn't hear any answer from the system, but Qin Yuan didn't give up. He knew that he could ask for help now. Yes, there is only this broken system, so he kept calling the system.

The moment He Chenguang touched Xu Tianlong's body, he was stunned. The ammunition in Xu Tianlong's east mouth was very dense. At that time, I didn't feel any pulse.

He did not give up on Xu Tianlong's CPR, but it was useless. Xu Tianlong had already lost his breath and heartbeat. How could this be possible? Everyone could not accept this fact.

Li Erniu collapsed, it was absolutely impossible, they frantically performed cardiopulmonary resuscitation, but the person on the ground was already a corpse.

After calling for a long time, the system may not be able to see it, and finally responded, but this response is not as good as no answer.

"Answer the host, there is no way."

"Nonsense, I have come into contact with him just now, I used my recovery ability, why can't I save him!"

"Because he was already a corpse with no vital signs at that time, so even if he used the recovery ability, there was no way. The recovery ability is for creatures that are dying but still have vitality." The voice of the system was cold, and the explanation was very official. Without the slightest emotion.

Qin Yuan was very annoyed. He hated himself and felt that he had come too late. If he had come earlier, such a tragedy would not have happened. He rushed forward and pushed Li Erniu and the others away.

Then he took out the silver needle on his body, since the recovery ability is useless, then he will use the eight-defying needle, he doesn't believe that this person can't come back.

Everyone fell into great grief, no one dared to speak, just watched the movements of Qin Yuan's hands, but all this was in vain, no matter how Qin Yuan rescued Xu Tianlong, he just couldn't come back.

The accident this time was unexpected by everyone. They didn't expect the accident to happen so quickly. The team members who were chatting and laughing with them earlier in the morning turned into a corpse now.

It was the first time that Qin Yuan felt so powerless. He could say that everything went smoothly before, but now he really felt helpless, and he sat on the ground paralyzed.

He had tried all the methods, but they couldn't save Xu Tianlong. If he found another two minutes, it might not be like this. He was very remorseful, and slapped himself on the face. He Chenguang hurried Go, stepped forward and grabbed him.

"Brother Qin, don't blame you for the dragon's death, it can only be blamed on those criminals." Li Erniu was very sad, he rushed over and grabbed Xu Tianlong by the collar,

"You bastard, you don't mean what you say. We agreed to go back to eat dumplings together after we finish the mission. You don't mean what you ***** say."

"Hurry up for me, let's go back together now." But the people on the ground didn't respond. Qin Yuan took a deep breath. As the captain, he can't bring this emotion in now. He should be more rational to lead Player, he can't fall down at this time.

"Er Niu, get up and carry Dalong back. After we finish the task, we will take him home together."

"It's all because of this stupid mission that made Dalong become like this. I don't go anywhere." Li Erniu's emotions are completely out of control, but he can understand that they have been born and died for so many years, let alone comrades-in-arms. Already surpassed brother.

He couldn't accept it at all. At this time, Qin Yuan stepped forward and kicked him to the ground.

"Li Erniu Now I'm telling you an order, don't you understand? You want to disobey the order."

"Brother Qin, but Daniu is dead, and he has become like this, I really can't accept it." Li Erniu said this sentence almost in a crying voice, and everyone present couldn't take it anymore, and silently lowered his head. Qin Yuan felt uncomfortable too, he stepped forward and picked up Li Erniu.

"Could it be that you can solve the problem by crying like this? Do you think Dalong can come back now? You are a special soldier, take up the weapon in your hand, what we can do now is to avenge him." Li Erniu listened. At this point, hope suddenly lit up in both eyes, yes, what they have to do now is to avenge Xu Tianlong and kill all those bastards.

Deng Jiuguang next to him walked forward with a sad expression on his face,

"Captain Qin's incident this time is also my fault. I didn't expect such a thing to happen. If I had known, I wouldn't have let the two of them go up."

"Old Deng, it's not about who's right and who's wrong now. Now that it's happened, we can only come up with a solution. Now I'm going to kill that bastard!" Deng Jiuguang took a breath, this time the murderous aura on the guy has been fully revealed.

Chapter 1018: find address

Qin Yuan really didn't expect Xu Tianlong's sacrifice to come so suddenly, he didn't explain many things, which was different from what they said before.

Before that, they did a lot of tactical analysis, but he never thought that Xu Tianlong would have problems at this critical juncture.

He also wanted to cry like Li Erniu and the others. After all, Xu Tianlong is his brother. They have been training together and going on missions together for so many years. The brothers who were good before have become like this now.

But as the captain, he can't be so emotional, he must take the lead. He raised his watch, then tightened it around his wrist again,

"Erniu, remember to take Dalong back first, and we'll talk about everything after I come back."

"Brother Qin...what are you going to do now?" Because Qin Yuan was already arranging the equipment, the reason why these people chose to handover on the pier was because it was very easy to escape in this place, and they could leave with a boat.

After all, there are a lot of ships like this on the sea, and they fled out, and they couldn't be found for a while, and country h has a special geographical location, facing the sea on all sides, so they can land anywhere.

"I won't let these **** go, then I'll set off first, and then find the lair of these bastards, and then follow up according to the location, and annihilate them in one fell swoop." Deng Jiuguang shook his head while listening, how could this be possible? ?

Now that their ships are not prepared, how will Qin Yuan go.

"Qin Yuan, I can understand your current mood, but you have to be more calm. If you do this, won't you die? Our ship is not ready for anything now."

"Old Deng, I don't need a boat, and now I have to hurry up, those **** might not be able to catch up with me any longer." After Qin Yuan finished speaking, he jumped into the sea directly, which is simply too exaggerated , This is not Xiaohe Xiaojiang, but the sea, he is simply crazy.

"Qin Yuan, come back to me. Now that Xu Tianlong has died, you can't have any accidents. Come back quickly."

"Qin Yuan, you bastard, don't you understand?" Deng Jiuguang was a little excited on the shore. He was very worried that something would happen to Qin Yuan now, because Xu Tianlong had already had an accident, and he didn't allow Qin Yuan to have another accident. It's not easy to explain the same special forces team member.

One team member had already died. If there was any problem with their captain, Gao Shiwei would probably eat him alive after returning.

This guy Zhang Chong was injured now. After seeing Qin Yuan jumping down, he jumped down without any hesitation.

"It's just nonsense!" The members of the red blood cell team are quite calm, mainly because they are all in grief now, and they also have an order, which is to follow Qin Yuan's arrangement to do things, no matter what time it is, they must bear in mind .

This is the tacit understanding they formed after cooperating for so many years, and more importantly, they chose to believe in Qin Yuan, because Qin Yuan had really done it before.

They also wanted to go with Qin Yuan, but they knew that their abilities would only hinder them. Zhang Chong was also dragged down at this time, and he didn't know whether it was sea water or tears on his face.

Li Erniu wiped away his tears, then picked up Xu Tianlong who was on the ground, now he wants to carry out their captain's order, and carry Xu Tianlong back first.

Jiang Xiaoyu and the others didn't know how to comfort them. At this moment, silence speaks louder than words. Even if they were any of their teammates, losing would be unacceptable to them.

But now that the tragedy has happened, they can only figure out a way to solve it, instead of just immersing themselves in sadness.

Now Deng Jiuguang can only hope that Qin Yuan can arrive safely. This guy is too impulsive, but there is no equipment at all on the sea.

He is really desperate, even if he is the best swimmer, with such a span, he is still carrying equipment, which is simply a test for his physical strength.

Deng Jiuguang didn't want to say anything, but asked the members of the red blood cell team to send Xu Tianlong back first, and he went to prepare the boat, and then came to meet at the dock.

On the other side, Qin Yuan kept holding his breath, he must kill all those bastards. Now he is on the surface of the sea like a fish in water, his speed is no less than the speed of a speedboat, because when he came, those people had already left.

So he didn't see the real faces of those people, but through Li Erniu's description, he already had a general idea in his mind.

And with his current speed, he should be able to catch up with that group of people. The ships appearing on the sea are very suspicious, they are definitely those people before.

Ten minutes later, Qin Yuan saw a small motorized boat in front of him. In order not to startle the snake, after all, if they took him around in circles, it would be troublesome.

So he had to approach quietly, and just like that, he dived in one breath, and he had no effect underwater.

At this moment, those people on the ship are also reporting the situation here, mainly because there was a shooting incident at the port, and this matter must be reported to the higher authorities.

At this moment, Qin Yuan had come to their boat and capsized, he grabbed the bottom of the boat. There is no movement above, and the main goal of these guys is to check if there are any ships. Their speed is also very fast, and they are worried about whether they will catch up.

Sooner or later, Qin Yuan turned over and jumped up directly. A militant standing on the deck had no time to resist, and was directly kicked into the sea by Qin Yuan.

Immediately afterwards, a throwing knife was thrown out, and the militant didn't have time to resist, and blood gushed out instantly.

"Ding! Kill a criminal spy and get 1,000 merit points!" These merit points are no longer important to Qin Yuan, he just wants to kill all these bastards, but his reason controls him.

He needs these ***** to take him back to their lair, he wants to kill all this criminal organization, this is the real revenge for Xu Tianlong.

The other militants on the deck were also trained incorrectly, but just as they were about to shoot, Qin Yuan's playing cards flew out and directly scratched their wrists. At this time, they could not shoot to cause commotion.

At this time, a person in the cabin took out the walkie-talkie. Qin Yuan threw out a throwing knife without hesitation. His throwing knife directly shot through the glass in the cabin, and through the glass, his throwing knife directly shot through the militant's throat.

Seeing this movement, blood spurted everywhere, and several militants on the deck dared not move for a moment.

There was also a reminder sound in Qin Yuan's mind, and he stared at these people coldly. The man who was about to shoot just now had blood all over his wrist. He clutched his wrist and looked at Qin Yuan.

"You! Who are you? How could you appear out of nowhere?"

"Hehe, I am a soldier of the Yan Kingdom. You **** killed my brother just now. How could you say that I appeared out of thin air? You shouldn't understand the principle of killing people for life." The people next to him diverted their attention, but their small actions were not worth mentioning in Qin Yuan's eyes.

He only needs to keep two of these **** alive for questioning. Since the others have made so many small moves, they can't keep them.

The flying knife in his hand flew out casually, and the militant who was about to shoot was hit by the flying knife and fell into the sea.

Now those militants didn't dare to move around anymore, his throwing knives were even faster than the guns in their hands.

"My patience is not very good. If you still want to do these little tricks, I don't mind killing you all."

"Brother, it was all an accident just now. We killed the traitor, but I didn't expect that I would kill your people. It was all an accident."

"Killing is killing. I don't want to hear your explanations. Now I only have one question. Where is your lair?" The man holding his wrist hesitated. Before he could speak, Qin Yuan stabbed the flying knife He touched the man next to him, and in an instant, the man's face was sprayed with blood, and he was a little scared.

"If you don't want to say anything, then I'll see who wants to say it and whoever wants to say it, I will give him a chance to live. If you don't say it, then I will kill them all." The people next to him couldn't stand it anymore. Those things are enough bastards, but the person in front of him is completely crazy.

"I tell you, you'd better not try to kill us all, if you kill us all, no one will tell you our exact location!"

"Hehe, just because of your role, you want to threaten me. Even if I find the ends of the earth, I will find you. There are not enough of you!" After finishing speaking, Qin Yuan threw the flying knife in his hand, and instantly The two men next to them were directly hit by the flying knife and died on the spot.

Of the few people on board, only the last two were left. These two looked at Qin Yuan in horror. This person in front of him was really too difficult to mess with. He killed him as soon as he said it, without the slightest hesitation.

And Qin Yuan didn't just talk casually, he really has the ability to find those militants, but it takes time.

Even if he killed all these bastards, at most he would gain some merit points, but he could still find the lair.

"What? Do you two have anything to say?" A small man next to him kowtowed frantically on the deck,

"Brother, we are blind and killed your brother, but I am willing to live. Let me tell you where we are?" Before Qin Yuan could speak, the man next to him stood up suddenly,

"Brother, don't believe him, he doesn't know the address, only I know." Qin Yuan looked at the two people with interest, and before he could start, there was an internal strife between the two people. There was a row on deck.

It can be seen that these two people want to live, and they know that if one of them tells the location, the other will definitely die.

"You bastard, how could you know the address? It's me and my brother who have been connecting. How do you know?"

"Hehe, your thinking is too simple. I have been worried that something will happen, so I have already remembered it. Why should those bosses run away if they want to, leaving us as the

blamed ones." Qin Yuan couldn't stand it. Throwing the flying knife directly on the deck, the two stopped arguing instantly.

"I'm not here to listen to your quarrel now, give me an answer, otherwise this throwing knife will appear on you in a second."

"At Saigon Pier."

"At the Nanshan factory!" Qin Yuan frowned, the two gave different answers, what's going on.

The small man next to him immediately said: "The Saigon Wharf he mentioned is indeed the location of our boss, but the Nanshan factory I mentioned is their drug factory, and they will also appear there." The man with a wrist injury obviously did not expect This person still has such a hand, and he really found out. He was stunned for a moment, and he couldn't say anything more.

"Why are there two places? You're not lying to me, are you? Where are they, and where will they appear?"

"Brother, how dare I lie to you? Now that's the case, I really just ask you to spare my life, because we are all compatriots." Qin Yuan sneered in his heart, this guy knows now He is a compatriot, so when he killed his compatriots, was he ever merciful?

And for the bad things they do, killing them a hundred times is not surprising.

"I can't tell. Our boss will go to both sides, but that is his territory, and there are many brothers in the drug factory." Qin Yuan finally understood that these two places can be regarded as their old dens, and if he wants to If he had to go, he would definitely go to the drug manufacturing factory as well.

Because he will not let anyone go, but if he goes alone, he will not be able to keep up with the two places.

He walked over slowly, seemingly doing whatever he wanted, but when he walked over, two throwing knives directly pierced the eyebrows of these two people, and then kicked them directly into the sea.

These ***** are useless For him, the most important thing now is to go to the address they said.

There will be a navigation system on their boats, so there is no need to worry about this, as long as you know the location, there are only two locations now.

He was a little confused for a while, because the two of them didn't know where their boss would appear.

There was radio equipment on board, and he immediately contacted the red blood cell team. He still intends to go to the drug manufacturing factory in person, after all, that place is the source of evil, and Jiang Xiaoyu can let Jiang Xiaoyu cooperate with the red blood cell team at Saigon Wharf, and the action should not be a problem.

After He Chenguang and the others received the order, they set off immediately. Deng Jiuguang was relieved to know the news about Qin Yuan. He was worried all the way.

He also admired more and more that this kid Qin Yuan can always surprise them, and he can do things that others can't.

At this moment, everyone is holding a breath in their hearts. This time the mission is only allowed to succeed, not to fail, and they will not let anyone go.

Chapter 1019: Encounter Enron

However, according to the news from Qin Yuan, there seemed to be two places, and Qin Yuan actually went to another place alone.

Xu Tianlong's body had already been placed inside the embassy, so in the face of this situation, Deng Jiuguang and Liu Xiaoshan, as the veterans inside, were more rigorous and felt that no one could be sacrificed.

"Everyone must obey the command in this operation. Our team is the main attack force, and you follow us." What!

He Chenguang was not happy when he heard this. What does it mean that they are the main attacking force? No matter what task their red blood cell team performs, they are never in the front as a charging team.

"This is not okay. I know you want to take care of us, but we won't become timid just because we lost a brother. Instead, we will move forward bravely."

"Chen Guang, you don't have to think that way. In fact, relatively speaking, our experience is similar. Now that your captain is not here, I really want to treat you well. I don't want you to do anything under my command." He Chenguang again How could you not know?

He knew that everyone had good intentions, but he really couldn't accept this kind of kindness. No matter what, in the face of any situation, he never forgot that he was a soldier of the special operations force.

In this situation, no matter which team is in front, there will be danger, so he would rather transfer this danger to themselves.

The two sides argued for a while, but in the end, Deng Jiuguang had no choice but to agree to act together, regardless of priority.

On the other hand, he was also worried about Qin Yuan's situation. Qin Yuan didn't mention where he was going, but only explained the place and route where Deng Jiuguang and the others were going to act.

Qin Yuan's speed is even faster, because she has to take care of two places, one is the drug factory, and the other is the Saigon Wharf.

The main persons in charge must be there, because it would be convenient for them to escape if they were at the pier, so he must destroy the drug factory, and then go to the Saigon pier.

However, this is only Qin Yuan's analysis. If the persons in charge are in the drug manufacturing factory, then for him, he can simply catch them all.

At this moment, An Ran was also inside the drug manufacturing factory. She didn't know what Qin Yuan and the others were doing. She just heard from the people around that there seemed to be a gun battle at the port, but he didn't know the exact situation.

In order to get the most accurate information, she found Liu Bin. He didn't know much, but he only knew that he had dealt with a few traitors.

Liu Bin is the team leader in charge of the drug manufacturing factory here, and he is also the one who has the best access to those responsible persons, because he is the one who communicates with those responsible persons, so An Ran naturally accepted Liu Bin's kindness.

However, An Ran is also under the protection of Liu Bin, and her life is not bad, at least no one will harass her again.

While approaching Liu Bin, she learned about the most important sales routes of the drug manufacturing factory, and also knew about these sales routes.

It is not difficult to deduce the locations of the main responsible persons. Although they do not show up, of course, they can know where they will go through these sales routes.

They have sales in the country. More importantly, Enron has also investigated a secret team. This team is responsible for digging up information and making deals with their local military. What kind of deal is it? Enron's side Not sure.

After she collected the news, she passed the news here, and at this moment Raytheon and the others also received another news that the Marine Corps and the red blood cell team were on a joint mission.

Moreover, someone in the red blood cell group died, but they didn't know who it was. This was news from abroad, but it was just a coincidence.

Raytheon and the others don't know whether the extermination mission they carried out is the same as the one they carried out on their side.

Because Deng Jiuguang and the others were carrying out their mission, the news could not be replied in time in the future. In fact, both of them were targeting the same criminal group.

According to the information provided by the previous spy member, Qin Yuan came to the drug manufacturing factory. On the surface, it looks like a few ordinary factories, and there is no difference, not even people patrolling outside.

His figure is very bulky, and no one noticed when he sneaked in. After entering the interior, there are people with real guns and live ammunition. Looking at their clothes, they should be some ordinary staff.

Qin Yuan rushed into an office at random. After all, according to his judgment, the leaders of these organizations are usually located under the upper office area, and they basically have the functions of making drugs.

The people in the office didn't expect someone to break in suddenly. Before they could react, the two people around them had already been dealt with by Qin Yuan, leaving only a fat man with big ears.

When the man saw this situation, he was scared to pee on the spot, especially when he saw the clothes Qin Yuan was wearing. He knew that Yan Guo had never let them go.

He kept trembling, and then begged Qin Yuan to let him go.

"Brother, I don't know anything. I'm just a subordinate who helps them. I'm not the person you're looking for." This sentence clearly exposed him. Qin Yuan didn't even say who he was looking for. This guy Clever, he immediately wanted to distance himself from it.

"Oh, how did you know who I was coming for?"

"Didn't you come to look for Liu Bin? He is the team leader in charge on our side." I didn't expect to ask about other situations. Under Qin Yuan's interrogation, it turned out that only Liu Bin was able to connect with the several responsible persons above. .

These people are just maintaining the normal expenses of the factory, and they have a name. The real person in charge is not here, and all of them are at Saigon Wharf.

They will only appear when the goods are to be handed over, and they are more cautious about handing over the goods.

Qin Yuan felt a little bad when he heard this. If they were all at Saigon Wharf, then there should be the most sufficient troops there, so he had to go to Saigon Wharf as soon as he was done.

Seeing that Qin Yuan was thinking, the man thought that Qin Yuan had let him go, he breathed a sigh of relief, and the next second, a flying knife directly slashed across his throat, and a system notification sounded in Qin Yuan's mind .

These guys, Qin Yuan, said that none of the drug factories here would be spared. He planned to kill them all, put this paper in them, and then set fire to these harmful things. The sooner they burn, the better.

And now he is going to look for Liu Bin. It seems that this guy is still a key person. The Saigon Wharf is too big. He thought it was just like the previous port, but he did not expect that the entire extension line of the Saigon Wharf is very wide.

It is estimated that only by finding this guy can he find the real person in charge behind the scenes. He will not let these people go from top to bottom.

In this way, Qin Yuan was killing people all the way in the factory. He looked around for people to ask Liu Bin's whereabouts, and at the moment Liu Bin was sharing dinner with An Ran.

An Ran sat at the window. There was also a restaurant like this inside their drug manufacturing factory. She looked at the factory in the distance and always felt that something was wrong. The factory was too quiet tonight.

According to the usual point, the factory is already rumbling, especially at night, because most of the things they produce are highly toxic, so the emissions will increase at night, but at this time the factory is very quiet.

Liu Bin also felt that something was wrong, he said he wanted to send An Ran back first, and then see what was going on, maybe there was something wrong with the equipment at the factory.

Just when they got up, suddenly the lights of the whole restaurant went dark. An Ran couldn't see what was going on in the dark, but as a special soldier, she subconsciously leaned her back against the wall, so that her back could feel a sense of security, and she could face the enemy directly.

The inside of the restaurant was also in chaos. After all, it was suddenly dark. Before Liu Bin could react, he heard a few screams, followed by a smell of blood.

Liu Bin pulled out the pistol at his waist and shot indiscriminately in front of him. He didn't know who it was, but the shooting also exposed his location.

At this moment, Qin Yuan is like a ***** of killing. In the darkness, he could see everything very clearly, except that he saw a familiar figure.

The person he never thought of, even in the dark, he could see clearly that it was An Ran, he would never admit his mistake.

Especially those eyes. At this moment, An Ran's eyes were flustered, but they were very tenacious. He cried out uncertainly.

"An Ran?" Hearing a familiar voice, An Ran also responded subconsciously, but it was this sentence that exposed Qin Yuan's position, and Liu Bin quickly shot towards the opposite side.

An Ran couldn't see clearly in the dark, only heard random gunshots, she was very frightened, and called Qin Yuan's name loudly.

Immediately afterwards, she felt a figure approaching her. Liu Bin had been subdued. In the darkness, she heard the sound of gunshots falling.

Liu Bin was struggling on the ground at the moment, Qin Yuan didn't intend to kill him, after all, this guy held important clues.

At this moment, An Ran was sure that Liu Bin should be under control, but she hurriedly said: "He has a grenade on him!" As soon as An Ran's words fell, she saw two figures wrestling together, and an object flew out of the window , should be thrown out by Qin Yuan.

"Get down!" Without the slightest hesitation, she lay down directly under the table. Although such an explosion had little effect on their internal affairs, she still obeyed Qin Yuan's arrangement, and then the sound of the explosion came in.

At this moment, Liu Bin was cursing and was controlled by Qin Yuan.

"Damn it, I didn't expect it to be you, a stinky bitch. I suspected you had a problem before, but I treat you so sincerely." Qin Yuan punched An Ran directly on the cheek when he heard him

scolding An Ran here, At this moment, Qin Yuan was puzzled and angry. He was really angry, why An Ran was already pregnant, and they still sent her to carry out the mission. No wonder he couldn't contact An Ran before.

He hit Liu Bin as if venting his anger. He didn't dare to imagine what a cunning and vicious criminal like this would do to An Ran if he came later.

Although as a special forces member, he can't question the arrangement above, this is their fate, but now that An Ran is his family, he really can't figure it out.

At this time, An Ran also slowly stepped forward, grabbed Qin Yuan, and if he continued to fight, Liu Bin would probably lose his breath.

"Qin Yuan, I know you're angry, but there's nothing you can do about it. I'll give you an explanation. You stop first, okay?" At this moment, Qin Yuan hugged An Ran into his arms, and he thought again When Xu Tianlong was around, he was really scared. At this moment, he had to bring An Ran by his side for a sense of security.

He is not afraid of these criminals, but afraid of his brother, his lover leaving him.

At this moment, Liu Bin, who was beaten half to death, laughed coldly on the ground,

"Hehe, just wait, the sound of the explosion has alarmed other people in the factory, you wait for the two of you, I will definitely tear you into pieces, even if I catch you now, what about me?" Qin Yuan ignored him and kicked him in the chest. Liu Bin didn't speak, but coughed violently on the ground.

An Ran was very worried when she heard this, she naturally knew the distribution of troops in the drug manufacturing factory.

"Qin Yuan, although I don't know why you are here, we have to leave quickly. He is indeed right."

"Could it be that you don't trust your husband after being separated for such a long time? With my strength, do you think those people still have a chance to come back alive?" What!

There are nearly 200 people in this drug manufacturing factory including the staff and the militants. Could it be that Qin Yuan has solved all of them?

Not only did An Ran not believe it, but Liu Bin, who fell on the ground, roared loudly,

"How is this possible, you can solve those people by yourself, you are dreaming!"

"Then why do you think no one came over such a loud explosion? Because the dead will not come over." Qin Yuan's voice had just finished, and gunshots came from the northwest direction. The distance is very far, it should be on the side of Saigon Pier.

He grabbed Liu Bin, and then took An Ran and An Ran told them about their plan. The members of the red blood cell team should have fought with the people on the Saigon Pier over there.

After Liu Bin came out, he saw a raging fire in the factory. At this moment, he believed it completely, and looked at the man in front of him with a face of fear.

"Do you know why you were spared? Where are the main persons in charge? If you tell them where they are hiding, you can get a chance to survive." Liu Bin did know, not only at Saigon Pier, but also before they The prepared escape route was not a waterway, but a tunnel under the Saigon pier. It was a secret tunnel, and he had followed it before.

But at this moment, he is also struggling. He doesn't know whether he can survive after speaking out. With the crimes he committed, it is not a pity to die 100 times. Will the other party really let him go?

Chapter 1020: 1 is not spared

So now he is also thinking about what method to use to keep himself alive. At this moment, An Ran seems to have seen through his thoughts, and stepped forward to control him.

"You'd better not play tricks. If you know what's going on, you'd better speak up quickly."

"Hehe, do you think I will tell you?" Then Liu Bin suddenly thought of something, he saw that the relationship between An Ran and Qin Yuan was unusual, so he showed a meaningful smile.

"I have something to say, but I just want to talk to him alone." Qin Yuan stepped forward and kicked Liu Bin on the waist, causing him to roll onto the ground in an instant. Now the gunshots at

the Saigon pier are getting more and more intense , Qin Yuan has no time to talk about these things with him here.

"I think you are toasting and not eating or drinking. If you don't say it, then you have no meaning to live. If you rush there at my speed, there should be still time."

"Aren't you interested in what I said? This news is very accurate. Only I know that even if you go there, you won't be able to find their hiding place for a while. Maybe they just ran away. "Qin Yuan thought for a while, then looked at the people in front of him, An Ran was also a little puzzled, and then An Ran said in a low voice: "During this time, according to my investigation, he was indeed responsible for approaching those armed leaders, and he was also A more important person." Qin Yuan nodded, in that case, let's see what this guy can say.

An Ran looked at Liu Bin on the ground and turned around,

"Okay, then you can talk to him now."

"No, you are walking away, you are too close now, I only trust him." An Ran frowned, what is this guy trying to do?

Qin Yuan came over and shook his head, motioning for An Ran to go a little further, since the situation is urgent, ask him about the situation first.

"But in case this guy plays some tricks, can you handle it by yourself?"

"You don't even think about who I am, just this guy, I can subdue him with one hand." An Ran looked at Qin Yuan, and then took a few steps back, the distance between the three of them was a bit far.

Qin Yuan stepped forward and kicked Liu Bin who was lying on the ground,

"Well, now you can talk about it, what is going on, if I find out that you have lied to me, then you should know what will happen to you." At this time, Liu Bin who was lying on the ground suddenly smiled sinisterly stand up,

"What I want to tell you is that the girl tastes really good!" Qin Yuan's anger was about to burst out of his eyes, and he directly missed Liu Bin's thigh with a dagger, and Liu Bin let out a pig-killing cry in an instant scream.

Although he knew that this guy was talking nonsense, because he chose to believe in An Ran, and would never do such a thing.

It seems that this guy just wanted to sow discord, and didn't want to reveal any news at all. Hearing the screams, An Ran hurried over.

"Qin Yuan, what's the situation?"

"It's nothing. It seems that this guy is unwilling to cooperate. He originally wanted to give him a chance to survive. If he is cut off, he is no longer needed." Liu Bin's original idea was to sow discord, and then he could escape by taking advantage of the conflict between them. , but couldn't fully see this state. Qin Yuan seemed to trust An Ran very much, and she couldn't provoke her at all.

And seeing the killing intent revealed in Qin Yuan's eyes, this guy really wanted to kill himself, he trembled slightly.

"You... what do you want to do? Let me tell you, you'd better not mess around. Only I know where they are. If you kill me, you will never find them." Qin Yuan smiled Well, what he hates the most in his life is being threatened and hurting his family. This guy already has two of them.

Qin Yuan stretched out his hand and placed it directly on the man's head, and the man lost consciousness instantly. Instead of hypnosis like before, Qin Yuan forcibly took away the man's meaning and entered his brain.

In an instant, all the man's previous thoughts appeared. It turned out that those guys were under the Saigon Pier, and there was an underground tunnel. They usually escaped through this secret tunnel after loading the goods, so the police could not find any clues about them.

After getting the news, Qin Yuan raised the knife without hesitation, and the man fell into a pool of blood in an instant.

An Ran frowned, although she didn't understand why Qin Yuan would kill this person suddenly,

"Qin Yuan, we haven't asked about some things now. Regarding the news about those leaders, wouldn't it be too hasty to kill him like this?"

"Don't worry, I've got the news, there is an underground tunnel over there, we need to go there together." An Ran was a little surprised, he didn't ask anything just now, just saw him simply put his hand on Liu Bin's head, I already know the news, this is simply amazing!

Then Qin Yuan walked over, hugged the princess directly, and strode out with An Ran in his arms.

"What are you doing? Put me down quickly, I'm not that expensive." Although An Ran said so, her body was still very honest, and she hugged Qin Yuan's neck tightly.

Since she was pregnant, she did feel a little insecure and worried about her child's future, but this time, she didn't care so much for the task, because she knew her identity, and she had to stand up at the critical moment.

"Holding you, in case you mess around, this time you are so courageous, you even quietly participated in the mission behind my back, and that kid Thor promised me before that he would take good care of you, is that how he takes care of you?"

"You should know our identities. Sometimes we really have to. Don't blame Lei Shen and the others. This time I took the initiative to come out to carry out the mission." Qin Yuan sighed helplessly, he knew this was the result, An Ran Even he has no way to change the decision he made.

What he can do now is to try his best to protect An Ran, the news of Xu Tianlong's sacrifice, he has not told An Ran yet, it is really because of Xu Tianlong's sacrifice, so Qin Yuan, who has always been strong, suddenly feels particularly insecure at this time.

Obviously his ability is so strong now, but his life is also very fragile. A life dissipates in front of his eyes like this, but he can't do anything, and he is still his brother.

An Ran felt Qin Yuan's change. At this moment, Qin Yuan was carrying her on his back and speeded up. She didn't know how to speak, and thought that Qin Yuan was still angry because of her coming to carry out the mission, so she didn't dare to say anything.

Qin Yuan arrived at the Saigon Wharf very quickly. According to the consciousness he extracted before, he immediately determined the direction.

The tunnel entrance was just below the parking lot of Saigon Wharf, and at this moment Jiang Xiaoyu and the others were fighting those militants on the wharf, and the fighting was very fierce.

Qin Yuan put An Ran in a relatively safe corner.

"You stay here first, I will go out with my brothers to deal with those militants, none of them can escape today."

"No, Qin Yuan, the situation outside is too chaotic now, and I can be regarded as a fighting force. Give me a gun now, and I can deal with those enemies after I go out."

"An Ran, listen to me, what you need to do now is to ensure your own safety, you..."

"Enough, Qin Yuan, do you think I need protection like you? Am I An Ran the kind of person who needs protection?" An Ran's character is like this, she is relatively strong in the first place, to be honest, this may be the last mission she performed recently, because as the months get bigger and bigger, she can no longer come out to perform missions.

Coupled with the dense gunfire outside, can Qin Yuan and the others handle it? If there is more of her, it can be regarded as a combat power.

Unexpectedly, at this time, Qin Yuan's eyes were a little red, and he just stared at An Ran closely. His voice was a little hoarse, as if he was forcibly adjusting his emotions,

"An Ran, I beg you to stay here, at least you are safe here, I can't lose you anymore, because Xu Tianlong... died yesterday." What!

When An Ran heard the news, her eyes widened in shock, she couldn't believe it. Xu Tianlong naturally knew about it, because they were all members of their red blood cell team. When they got married, Xu Tianlong teased them with jokes, but she didn't expect that it would be their last meeting.

Qin Yuan handed over his gun to An Ran,

"So you know why we took this action. I didn't expect everything to be so coincidental. I feel that this festival is an opportunity given to me by God to protect you again." An Ran knew that Qin Yuan's emotions have always been In Yin Ren, she nodded and agreed to Qin Yuan's arrangement.

"Then you pay attention to safety, and you must come back safely. I...my child and I are waiting for you." Qin Yuan smiled and nodded, and then made sure that there was no one else around, and then his figure disappeared into the darkness, only Intense gunfire was heard in the distance.

An Ran was very worried, but she still chose to follow Qin Yuan's arrangement and stay here to wait for him.

There were indeed a lot of militants on the Saigon pier. Jiang Xiaoyu and the others were all red-eyed. Deng Jiuguang charged in front and was shot in the thigh and shoulder, but he still didn't relax at all.

Li Erniu next to him held a belief that no matter what, he must report Xu Tianlong today, and he would not let any of these guys go.

But the opponent's firepower was indeed too fierce, because the number of them was several times that of theirs. At the critical moment, Qin Yuan shot from behind.

The two heavy machine gun points on the opposite side were directly solved by Qin Yuan's poker. Qin Yuan turned over, jumped into their opponent's position, and beheaded indiscriminately among the crowd.

Those militants had no time to react, and were directly killed by Qin Yuan. Li Erniu and the others saw it instantly, and hoped that everything would be fine when Qin Yuan came.

With Qin Yuan charging ahead as a cover, they did not dare to relax. Soon, those militants were killed by Qin Yuan, and some militants who wanted to escape were even more frightened when they saw Qin Yuan. shivering.

Several people simply dropped their guns and knelt down to beg for mercy.

"Big brothers, we surrender!"

"Please let me go? We surrender, no more fighting!" Unexpectedly, Qin Yuan shot the talking man's head off,

"I'm sorry, you don't have a chance to surrender. I don't accept it." By the time Li Erniu and the others rushed up, corpses were already piled up at Qin Yuan's feet, and those militants had already died between his throwing knives playing cards. Down.

Wang Yanbing whispered beside him,

"Brother Qin?" After all, Qin Yuan's state is very wrong now, his eyes are a little red, and the aura on his body is completely exposed, He Chenguang and the others standing beside him are a little scared.

It was only at this time that Qin Yuan realized that he was just receiving the voice from the system in his head, because the system had been prompting meritorious service points.

In a short period of time, his meritorious value in the system has reached 100,000, so he is looking in the system mall, if there is a way to bring the dead back to life, he still has not given up on Xu Tianlong, but unfortunately, there is no such thing.

Hearing Wang Yanbing and the others calling him, Qin Yuan finally realized, and restrained his aura.

"Although the people here have been dealt with, there are still a few main leaders. I will not let any of this criminal group go. Each of them is the murderer who killed Daniel." Hearing Qin Yuan say this Said that everyone was filled with righteous indignation, and then followed Qin Yuan to the tunnel entrance of the underground garage.

Because they fled in such a hurry that they didn't even have time to lower the gate at the entrance of the tunnel, so Qin Yuan and the others easily entered.

Jiang Xiaoyu ran forward, looked at the disappeared wheel marks and shook his head,

"The water marks have completely dried up. According to their speed, we should not be able to catch up if they ran early and disappeared."

"Impossible. If I say I can catch up, I will catch up. Leave this matter to me for the time being." Jiang Xiaoyu looked at Qin Yuan strangely for a year, because these guys escaped too hastily. There were motorcycles discarded at will, Qin Yuan walked over and tried to start the motorcycle.

"Now I'll act alone first. With my speed, I should be able to catch up with them." Before everyone could react, Qin Yuan had already started his motorcycle and drove directly into the tunnel. He even said something loudly.

"An Ran is in the alley at the back, you go to pick her up first, and wait for my news." Deng Jiuguang was completely stunned, Qin Yuan's speed is too fast!

It was too late to wait for them to refute, and the people had already gone out.

"Master, what should we do now? Otherwise, we will catch up with him first, and he will be in trouble if he can't deal with those people alone." Deng Jiuguang frowned, looking at the two fallen motorcycles next to him,

"Now Shanzi and I will chase him together, you take care of Anran first." Deng Jiuguang just wanted to ride a motorcycle, but he pulled the wound on his leg, he took a breath of air, and the wound on his leg had already disappeared from the gauze. Lined out a lot of blood.

"Master, you are all injured now, you should stay here and let us go."
