

Special Soldier 1021

Chapter 1021: new team members

Deng Jiuguang kept insisting, but there was no time to waste. At this time, Li Erniu and the others did not hesitate, grabbed the motorcycle, and set off with Wang Yanbing.

The other one was ridden away by He Chenguang, and everyone froze in place for a moment. Is their red blood cell team like this?

"I'll go. They didn't even discuss this behavior of bandits. They just rode away." At this time, He Chenguang turned around and said loudly: "Our sister-in-law will leave it to you. If there is any problem with our sister-in-law, we will I won't let you go when I come back." Liu Xiaoshan's face was dark, these boys were really just like Qin Yuan, they were indeed his soldiers.

Now that they have already set off, Jiang Xiaoyu and the others don't have much to say, they can only go up first, and then talk after receiving An Ran.

After going up, An Ran heard footsteps in the alley at this moment, and was a little nervous for a while, because the gunshots on the other side had stopped for a long time, and she was debating whether to go out or not.

An Ran had already loaded the bullet, just leaned out, and saw a familiar figure, Jiang Xiaoyu trotted all the way over.

She was instantly relieved, but she didn't see Qin Yuan, and none of the members of the red blood cell team were there.

Seeing her doubts, Jiang Xiaoyu hurriedly explained,

"Brother Qin and the others go after them. The rest of the bosses are gone. Don't worry, there will be no problems." Although she said so, An Ran was still very worried, especially when she heard Qin Yuan say that Xu Tianlong had already died. She still can't fully accept the news.

An Ran learned from Jiang Xiaoyu's mouth that their actions this time were a mistake, so she could only quickly report the situation here to Thunder God first.

They also didn't know that this time it turned out to be the criminal organization that Thor and the others wanted to destroy, and they ran into it.

An Ran quickly contacted Thor. Thor knew that his mission was taken away by Qin Yuan again. He was also very helpless, but when he learned that a member of the red blood cell team died, he was completely stunned.

In his mind, the red blood cell team has always been the top team in their country. Under the leadership of willingness, they have always performed very well in their large and small tasks. There are almost no major casualties. Some players died.

If An Ran hadn't told him, he wouldn't have believed it. Gao Shiwei in China already knew the news and notified Xu Tianlong's family. Now their mission in H country is coming to an end, as long as those armed leaders are captured, Xu Tianlong and the others will be able to come back.

So Qin Yuan kept holding his breath, he would never let a militant go. With Qin Yuan's speed, he had already caught up with those militants, and he could see the rear of their car.

The armed leaders were in a hurry to escape, but they didn't expect that someone would catch up and shoot desperately at the back. Li Erniu, who was following behind, also heard the sound of gunshots, and they sped up their speed even more.

The militants in front frantically threw grenades towards the back, and in the bursts of smoke, the motorcycle disappeared.

"Hehe, he's just overthinking his abilities. I'll just say how can he catch up with us by himself." As soon as the man's voice fell, he felt as if someone had jumped on the roof of the car. Passed through the roof and hit the people in the cab.

When Li Erniu and the others came, Qin Yuan had already taken care of all the people in the car. It seemed that no one had escaped. After everyone got down, they looked at the corpse in the car silently.

Thinking of Xu Tianlong again, now their entire group members are here, the only thing missing is Xu Tianlong.

He Chenguang rushed forward and continued to shoot at the corpses of those people like crazy.

"Dalong, we finally avenged you." As soon as this was mentioned, everyone felt very heavy. Qin Yuan was silent all the time, and he blamed himself. own team members.

"After I go back this time, I will personally review with Team Gao. It is because I did not lead and protect you well."

"Brother Qin, I really don't blame you for what happened this time. It will be dangerous in the execution of the mission, not to mention that our mission is to lick blood on the edge of the knife."

"Dalong was just an accident. Even if you were there at the time, there might be no way..." An Ran was worried until she saw that Qin Yuan and the others had returned safely. Regardless of her appearance, she rushed forward and hugged Qin Yuan.

Especially after knowing Xu Tianlong's sacrifice, she was even more worried about Qin Yuan. Although she knew that Qin Yuan was very powerful, bullets had no eyes, and every mission they went out was accompanied by danger.

Qin Yuan and the others performed brilliantly every time before, with almost no casualties. It is easy for everyone to think that their abilities are like this, but they are not gods, they are also flesh and blood people.

In this way, they wished that they returned to China with Xu Tianlong's body. This was originally the task of Thor and the others, so Thor and the others also came to pick up the hero in person.

Everyone present was very sad, especially when Qin Yuan heard the painful crying of Xu Tianlong's family, he felt that he was too useless.

This time, he gained more than 100,000 merit points, but he couldn't exchange them back to Xu Tianlong. He felt that if he was alone, his energy was too limited. In such a dangerous situation like this time, the team members had no time to react .

So she decided to distribute these meritorious deeds to everyone equally, and give them a special training. He must strengthen the strength of the entire team again.

After all, they will perform many missions later, and it is impossible for him to take care of everyone. Everyone was unwilling to face such a result. Gao Shiwei sat in the office very quietly. He remembered the scene of Xu Tianlong's first visit to the Special Operations Brigade, and couldn't help sighing.

Qin Yuan walked in and handed in his own self-criticism, saying that he felt that what happened this time, no matter what, was his own responsibility. As the captain, he failed to protect the team members. what kind of situation.

Gao Shiwei threw it on the table without reading the review. He really wanted to scold Qin Yuan, but what could he do, Qin Yuan is not a god.

It's all because they completed tasks so well in the past, it was always easy to treat them as gods, thinking that they would not be injured or sacrificed.

"This review is a bit redundant. As the captain, I know that you are more sad than anyone else, and you also hope that they are all safe."

"But I still haven't been able to protect them well. I really think this time, if I'm faster, maybe I can save him."

"Anyway, this regret has already happened. I just hope that such regret and tragedy will not happen again in the future. Do you understand? Qin Yuan, I really can't bear it. I'm very sorry for any one of your team to leave. It's hard to accept." Qin Yuan nodded, but Gao Shiwei didn't criticize him, but talked to him so much with sincerity.

The members of the red blood cell team also personally went to Xu Tianlong's house to follow up on the funeral. His situation is also a martyr, so he was placed in the martyr's garden.

It has been more than two months since this matter happened. Gao Shiwei also talked to Qin Yuan personally. He planned to re-arrange the team members to join the red blood cell team. After all, their team still lacks players.

Xu Tianlong used to be the blaster, no matter what, this is a complete establishment of a special operations team, but Qin Yuan always used the excuse that the timing was not yet ripe.

The other members of the team couldn't accept it either. Someone came in. They had fought side by side for so many years. Xu Tianlong said that he was gone. Everyone is very sad now.

At this moment, it's really not to arrange for someone to come in, no matter who Qin Yuan arranges, he feels it's inappropriate.

Gao Shiwei had no choice but to ask Long Zhanjun to be a lobbyist, but Qin Yuan's attitude was very clear, not only him, but the entire team was very repulsive.

However, the loss of one person will indeed affect their training, because they used to fight in groups after all, so the training will involve team cooperation. Now that there is one person missing, everyone is really not used to it.

Qin Yuan didn't dare to add all the meritorious service points, he could only add a small amount. This matter had to be done slowly, after all, they were ordinary people.

Qin Yuan doesn't know if adding too many merit points like this will affect them in the future, so he is also experimenting.

In the end, Gao Shiwei simply issued a death order, requiring them to recruit enough players, otherwise they would not be allowed to go out to perform tasks. This was also Gao Shiwei's consideration. How could they carry out the task even if the formation of a team was not completed? Task?

So during this period of time, there were missions, which were basically carried out by members of the Wolf Warriors squad. Long Xiaoyun understood Qin Yuan quite well, but she didn't know how to persuade Qin Yuan.

On the one hand, they don't know whether the people in the team can integrate into the new players, and whether the new players can integrate into them. This is two-way.

Gao Shiwei also thought of many plans, and even wanted to transfer Long Xiaoyun to their red blood cell team, but the Wolf Warrior team is also indispensable.

Qin Yuan was also quite conflicted. In the afternoon, he held a meeting with his team members.

"As for the recent events, everyone should know something about it. Anyway, we will certainly have to incorporate a new player into our team this time."

"Anyway, I don't have any objections. This is also the arrangement above."

"I have no objection either, just do whatever you want." Qin Yuan was even more annoyed when he heard their casual attitude. He knew that everyone was very sad. As the captain, he had long wanted to change this situation. The atmosphere is up.

It's impossible for the lack of one member to completely wipe out the spirit of the entire team.

"Look at your current attitude, are you still a special fighter? How long has it been since we became a full-fledged special fighter? We can't even perform missions, do you know?" Li Erniu sighed. He didn't mean that he couldn't accept it, but he always felt awkward. No matter who transferred him, he felt that no one could take Xu Tianlong's place.

Everyone also thinks this way, so the aura in the whole team has always been low. Qin Yuan shook his head. As the captain, he can only solve this matter. Gao Shiwei has already introduced several candidates.

He even promised Qin Yuan that he could give his opinion on any soldier he wanted in the entire military region, and the higher-ups would fight for it, including the team members he liked in their Thunder Assault Team, and he could talk to them.

Just when Qin Yuan was in a difficult situation, he suddenly received a call from Grandma Sun. It turned out that An Ran had gone to see Grandma Sun again, so she thought of calling Qin Yuan as well.

It was this phone call that Qin Yuan thought of such a good candidate. He never thought that Qin Zhengyang was a good candidate.

Although it is true that he has not participated in any basic training, when this kid was scrambling outside before, his physical reflexes and various physical qualities were very good.

And according to this situation, the team members can easily accept it, just like Gao Shiwei said, if he likes the members of the Thunder Commando, he can't poach them, no matter who he poachs, he thinks uncomfortable.

Qin Zhengyang had been clamoring to join the army before, but this kid is old enough now, so he is indeed a good candidate.

Anyway, no matter what, he will join the army, so why not let him personally show him his physical fitness is not bad.

Qin Yuan immediately shared his thoughts with the team members, and Li Erniu and the others agreed. This candidate is a good choice.

"Brother Qin, Zhengyang is a pretty good kid. He is indeed a good seed. I can see his previous body, his reaction ability is quite good, and he has a strong sense of anti-investigation."

"If he comes to our team I don't reject it, after all, everyone is familiar with it, but can Grandma Sun agree?" This is indeed a problem, so Qin Yuan can only talk to Grandma Sun this time. Let's talk, he wants to bring Qin Zhengyang to his side, he is indeed a good seed.

There is a vacancy on this side of the team, and it is quite difficult for ordinary people to come in, but Qin Yuan is very optimistic about him.

On the other hand, Qin Yuan now has meritorious deeds, and he can also be blessed. He has already made a decision. As long as the personnel problem is resolved, he will immediately lead the team for special training.

According to the blessing during this period, there should be no problem. Later in the training process, he can add a large amount of merit points to improve the physical fitness of the entire team.

a Take climbing over obstacles as an example. Before, they needed the assistance of their teammates, but now they can easily climb up the two-meter-high height. They are also quite surprised by the changes in their bodies.

And these are just the simple blessings that Qin Yuan has recently carried out. What he needs is for the entire team to become stronger and reduce casualties to a certain extent.

Chapter 1022: just messing around

,

Qin Yuan also respects the team members' choices very much, because he will discuss these matters with the team members, after all, they will fight side by side in the future. It's not because he is the captain that he can make decisions alone, because this team member is indeed very critical, and everyone will work together in the future. At this time, Wang Yanbing frowned tightly. He was very familiar with Qin Zhengyang, but the fate of this child was too rough. He had never had a good life before, and now let him serve as a soldier. will not be good. "Brother Qin, it's not that I don't agree with Zhengyang coming in. Zhengyang's physical fitness is really good, but you also know that the mission we are performing is too dangerous, and I am very worried." "Yes, Brother Qin, and we We might not be able to wait for his training to perform the task, and we will go out directly, can he keep up with our training intensity in a short time?" This question is very critical, and the training intensity is absolutely no problem, after all, Qin Yuan Qin Zhengyang is indeed the best choice to bless him with meritorious service. "I've also considered this issue. He told me many times before that he wants to join our team. This kid is really good, so I have such an idea." Qin Yuan is not that kind of selfish People, including his own children in the future, if he wants to join the special forces, he will not hesitate, and he will never say that he will protect his shortcomings. In comparison, if you want to select a soldier from the entire military region, and then conduct training and run-in with them, it is better to choose Qin Zhengyang. After Qin Yuan reflected his thoughts to Gao Shiwei, Gao Shiwei was stunned, and he looked at Qin Yuan in disbelief. "No! Do you know what you kid is talking about? I gave you such great power. You can choose all the top soldiers in the entire military region. You made me a recruit! You can't even count as a recruit." Qin Yuan knew Gao Shiwei's reaction long ago, but this was his decision, and it was also the decision of their entire team. "Team Gao, we are actually very special to me. We have carried out so many missions for so many years. I don't want other outsiders to get involved in the relationship between the brothers. It takes too long to get in. It's better to let a familiar People come in." "I can understand this, but which team is not like this, what does it mean to let a familiar person in! I will never agree, this will delay the process too much, it is absolutely impossible." Gao Shiwei was a little angry, he felt that he was too protective and tolerant of Qin Yuan, which made him act like this. "Team Gao, but we are the ones who go out to perform missions, and we really want to think about this team." "Don't threaten me with this, it's the same as anyone who hasn't performed missions before, let me tell you, I'm absolutely sure about this matter." I won't agree, let's just leave it at that about the search for characters, and I'll make the decision." Gao Shiwei's attitude was very firm, and he directly rejected Qin Yuan, which he didn't expect. In the end, he had no choice but to follow Gao Shiwei's office left. In fact, Gao Shiwei can't be blamed for this, because it's not up to him alone, the pressure he bears is no less than that of Qin Yuan, how many pairs of eyes are staring at their special forces. Especially Qin Yuan's special operations team, they have completed missions time and time again, everyone has a reputation, not only they choose others, but how many people squeeze their heads to get in. Gao Shiwei looked at the back of Qin Yuan leaving, and was really angry. This guy is usually sober, why is he so confused at this time? At this time, Long Zhanjun just came to look for Gao Shiwei, saw him getting angry in the office, walked over with a smile, and patted his old comrade-in-arms on the shoulder. "Hey, who provoked you and made such a big fuss." "It's not that Qin Yuan, I really feel that this kid is spoiled by me, and I gave him so much power, you know it jumps Jump around and pick something for me? A rookie who has never been a soldier before, this is just a joke, our special operations brigade is not a company of recruits!" "Calm down, you old guy! That

kid Qin Yuan is doing things well. It's sensible, you should calm down, he should have a reason for what he did." Gao Shiwei shook his head helplessly, how much pressure he was under, and their red blood cell team hadn't gone out to perform tasks for two or three months. What is this concept? The gap period during this period was really too big, basically all the tasks and heavy burdens were handed over to the Wolf Warrior squad, and fortunately Long Xiaoyun and the others didn't care too much. As a result, I gave him such a big gap, and he hired a newcomer for himself. This is simply too exaggerated. It is absolutely impossible for a newcomer to become a special forces member in a short period of time. He didn't have time to waste any more, he was just joking, how could he explain to his superiors? Is it possible to wait until this newcomer is trained? It takes three months for a normal soldier to enter a recruit company, plus the training of their special forces, all of which are high-intensity. The task he is facing is also the most dangerous, can he bear it? All these questions revolved around Gao Shiwei. Listening to Gao Shiwei's analysis, it does make sense. Long Zhanjun is also on Gao Shiwei's side this time, and he is also actively selecting candidates. After Qin Yuan went back, he told everyone the news, but now he didn't expect that the biggest difficulty was Gao Shiwei's side, and there was nothing he could do if he disagreed with everyone. "Lao Gao's attitude this time is very firm. Before I can explain clearly, he directly refused, but it is understandable after thinking about it. After all, in his eyes, how can a newcomer directly enter the special forces team?" "Brother Qin, So what should we do now, if Lao Gao disagrees, then we have to re-determine the candidate." "Now there is no chance, depending on Lao Gao's attitude, he will not give us another chance to choose, he said he It's up to you." But Qin Yuan won't give up so easily, after all, that's the candidate he identified, so Qin Yuan plans to secretly give Qin Zhengyang special training in the rear. It's impossible for their special operations team. After all, the secrecy measures are well done, and it is almost impossible for outsiders to come in. At this time, He Chenguang suddenly thought of a place, "Brother Qin, if you are really confident, then train Zhengyang for a while. We are also waiting for Lao Gao to find players, but the time is too short. I'm a little worried..." "Don't worry, as long as I'm here in training, Zhengyang will be absolutely fine. I can assure you that he will definitely become an excellent special fighter." He Chenguang listened Qin Yuan replied so confidently, and immediately patted his chest and said, "Qin Ge, let's do it like this. Doesn't Jiang Xiaoyu of the Marine Corps have a sea training ground? Basically, no one goes there, so why don't we just send Zhengyang to him?" Go there for special training!" Yes, this is a good place, why didn't I think of it before? And there are two veterans over there to supervise, which is no problem. As long as he arranges the training tasks by himself, then this is simply free training. In addition, after adding merit points to Qin Zhengyang, he will improve his physical fitness. This kind of training is absolutely no problem. It's just that time is tight on his side, and he has to do a race with Lao Gao. He calculated that even if Lao Gao wants to let new special forces members come in, their running-in period will take two to three months. This time period should be barely enough, not to say that he will not pick up other players, but that he thinks Qin Zhengyang is really a very good choice. Just like that, he made a decision right away, and simply took a leave of absence to go to Grandma Sun's side. Anyway, they didn't perform any tasks now, and Gao Shiwei was very angry with him, so he agreed directly without saying anything. . Brother Qin came to the orphanage this time, because he hadn't seen Qin Zhengyang for a long time, he didn't expect this kid to grow a lot taller, he looked black and strong, he was wearing a training camouflage uniform, and he was standing guard in the yard. At first glance, it really makes sense. Brother Qin thinks that Qin Zhengyang and him are really too similar, and there is an unyielding spirit in his bones. Qin Zhengyang ran over excitedly when he saw him coming, "Brother Qin, why are you here?"

Black?" Before he could answer, Grandma Sun smiled and said beside him: "This kid is so stubborn, he said he was preparing for serving as a soldier in the future, and now he will stand in a military posture and bask in the sun all day A few hours." Qin Yuan patted Qin Zhengyang's shoulder with satisfaction, and he knew that his choice was indeed right. Grandma Sun was also very happy to know that Qin Yuan came. After all, she hadn't seen him for a long time. Every time she said she wanted to see her before, it was because of various tasks that delayed her. Qin Yuan intends to talk to Grandma Sun about this matter first, to see his opinion, because Qin Zhengyang's side basically has no problems. "Grandma, if I come this time, there is indeed a reason, that is, I want to take Zhengyang away." Where?" "Grandma, what I mean by taking away is that I want him to serve as a soldier with me. This kid is in good health, and he is indeed a young soldier." What! After Grandma Sun heard this, she looked at Qin Yuan in surprise, and immediately refused with a shake of her hands. "I will never agree to this. It's not that I'm selfish, but you've already gone. Look at how dangerous and busy your job is. This kid from Zhengyang must not go." "Grandma, listen to me first." , it is because Zhengyang has good physical fitness, and now our team is short of people, so I want him to go." Qin Yuan dared not say that someone in the team sacrificed, he was afraid that after he said it, Grandma Sun more worried. At this moment, Grandma Sun is very entangled. To be honest, serving as a soldier is a way out, but she is a little reluctant. He really treats Qin Zhengyang as his own grandson. "Qin Yuan, grandma would agree to you whatever you said before, but I think we should look at this matter again, Zhengyang, this child is too young." At this time, the door of the room was suddenly opened, and Qin Zhengyang was at the door The foreigner had heard it a long time ago, and he was very excited. He had long wanted to join Qin Yuan as a soldier. Now that he was old enough, he was looking forward to it every day and was always preparing. "Grandma, I really want to go with Brother Qin, just let me go, I am not young now, I am an adult, I can make my own choice." "Oh, what do you know, kid? How bitter and tiring is that place, is that where you can endure hardship?" But Qin Zhengyang's attitude was very firm, he said that he would definitely go with Qin Yuan, and he made a lot of preparations for this day. "Grandma, I really want to go with Brother Qin, just give me this chance! Brother Qin has always been my idol, when he rescued me from that hellish place, I decided to follow him! "Qin Zhengyang talked about his previous experience, and his eye circles instantly turned red. This was what Grandma Sun couldn't stand the most. Grandma Sun wiped away her tearsThe two of them cried into tears. Looking at Qin Yuan from the side is also very touching. To be honest, seeing Grandma Sun have such deep feelings for him, it is difficult for him to let go, but Qin Zhengyang is indeed quite good. In the end, Grandma Sun agreed, and she also respected the child's choice, after all, this path is indeed not bad. Although she didn't know what kind of army Brother Qin was, he only knew that he was a soldier and he didn't see him often, but Qin Zhengyang should have no problem with Brother Qin's care. After Grandma Sun agreed, Qin Yuan brought Qin Zhengyang out. Qin Zhengyang was very happy. He had been waiting for this day for a long time. "Zhengyang, but I want to tell you first whether you can endure this hardship. You must know that training is very hard and boring. I can take you there only after you are sure. I will not regret it after I go. There's more room for me." "Brother Qin, I'm really not afraid of suffering. I have suffered and suffered countless hardships since I was a child. This is really nothing to me." Qin Yuan nodded Nodding, Qin Zhengyang's previous experience was also very impressive to him, so he will never forget it. As for Jiang Xiaoyu and the others, I just said it on my side, and they immediately agreed. They themselves felt guilty about Xu Tianlong's matter before, and Qin Yuan helped them a lot before. Absolutely no problem for them. Deng Jiuguang even patted his chest and promised that he would give him a satisfactory training

result. With the two of them over there to supervise, there was basically no problem. He drove the car and looked at Qin Zhengyang next to him. "Zhengyang, do you know why we let you join our team this time? Our team was always full before." "Is it because we recruited people this time? Brother Qin, don't worry, I'm definitely not afraid of hardship. I will definitely train well and will never embarrass you."

Chapter 1023: Contest with Liu Xiaoshan

As Qin Yuan drove, his face became more and more serious, "No, it's because a member of our team died."

what! Qin Zhengyang was very surprised when he heard the news. In his impression, Qin Yuan's red blood cell team was very powerful. To him, every team member in it was at the level of a **** of war.

He was so surprised that he was speechless for a moment, and after a while he stammered and asked, "Brother Qin, you... what you said is true, who is it?"

"Hey, do you remember the fat brother who came with us to move things last time? You have to remember that his name is Xu Tianlong. He is our hero. You are here to take his place, you know? ?"

Speaking of this, Qin Yuan's eyes turned slightly red. To be honest, he really doesn't like heroes. What he hopes is that everyone can be together safely.

Qin Zhengyang didn't speak for a long time, and Qin Yuan talked to him seriously a lot, mainly because he wanted to tell Qin Zhengyang that this time he came in not just for fun.

He wanted to inherit Xu Tianlong's will, and at the same time told him that their red blood cell team performed the most dangerous missions, and every time they were on the verge of death,

So it depends on whether he has the courage. If he regrets it now, it is still too late, he can send him back directly.

"If you regret it now, I won't laugh at you, because this is the behavior of a normal person, and I will send you back safely."

Qin Zhengyang, who had been silent for a long time, suddenly raised his head and looked at Qin Yuan firmly, "Brother Qin, I will do what I say. I have never received much love since I was a child. I have been struggling anyway. As for the dangers you mentioned, you are not afraid, I am even less afraid, you are all my idols."

"Zhengyang, I'm serious. If you regret it now, it's too late, but you can't escape from the beginning of your real training. Then when you go to the training ground, if you escape, you will be a deserter, you know?"

"I know this, big brother, don't worry, I will never be a deserter, and I will not lose face."

This was the first time that Qin Zhengyang directly called Brother Qin Yuan. Qin Yuan smiled, and he was right. This kid's courage and guts are not bad. Let's see his performance in the training ground.

While waiting for the traffic lights, he patted Qin Zhengyang on the shoulder, taking the opportunity to imbue him with some merit points, which only improved his speed and reaction.

After all, when he arrives at the sea training ground later, he will accept the test from Deng Jiuguang and the others, and this time it is only for Qin Yuan's sake.

In addition, they always felt that they owed their red blood cell team a favor, and they felt that there should be no problem with the person recommended by Qin Yuan.

Half an hour later, Qin Yuan came to the sea training ground, and they were all ready.

At first they only knew that Qin Yuan would bring a soldier to train, but when they actually saw the person who came down, they instantly recognized him as an ordinary student.

Deng Jiuguang stepped forward with a puzzled face, looked at Qin Zhengyang, "Qin Yuan, you are not joking with me, if I read correctly, this guy should not even be a soldier, although he is indeed quite dark, but He has no calluses on his hands, he has not been trained at all."

"Besides, is this guy an adult? Could this be the soldier you were talking about?"

Qin Yuan smiled, he was indeed a man of the moment in the Marine Corps, and he could see many problems just by looking at it casually.

"Old Deng, listen to me first. This is my younger brother. It is true that he has never been a soldier, but his physical fitness is very strong, so I brought him for training."

what!

When the few people around heard it, they were completely stunned. This was simply a joke, because they knew what kind of soldiers they were training.

Because after training with them, he will enter their special forces team. Qin Yuan introduced before that he would recommend a soldier to come to train. After the training, he would compete with the person selected by Gao Shiwei.

Gao Shiwei can imagine that the people he campaigned for were basically soldiers at the level of kings of soldiers, and there was no comparison with a boy who had never been a soldier before.

"Qin Yuan, it's not that I've broken your confidence. Just give me three months. I guess this guy will only practice normally. For the rest, I really can't guarantee three months."

When Qin Zhengyang heard this, he was a little unconvinced. He wanted to refute, but he couldn't say anything. After all, this is his territory, and now Qin Yuan didn't say anything.

He knew that in this place one must speak with strength, and it seemed that Qin Yuan respected the people in front of him very much.

"Old Deng, do you think the person I recommend to you will be bad? Believe me, within three months, he can become a qualified special forces member, but follow my training method."

Deng Jiuguang shook his head, this is really too difficult, even if it is done according to Qin Yuan's method, it is simply inconceivable to turn an ordinary person into a special soldier for three months.

"Qin Yuan, it's kind of like pulling seedlings to encourage growth. As a child, I think it's quite clever, and it's your younger brother who keeps it. Let's cultivate it slowly and don't rush it for a while."

"Old Deng, Lao Liu, stop talking, just trust me this time, you can try it first."

After Qin Yuan finished speaking, he patted Qin Zhengyang, and he stepped forward to compete with them first.

After Qin Zhengyang heard it, he was stunned. He turned his head and looked at Qin Yuan in surprise, "Me! But I don't even know how to fight, and I don't know anything. How can I fight?"

"Go wherever you are told, so much nonsense, listen to my command."

Liu Xiaoshan stood up and shook his hands, "Qin Yuan, I can understand your feelings, but don't be so anxious, after all, you are still a child, you know the skills of the two of us, it will be bad if you hurt him ."

"Well, then I can't say for sure. Let's put it this way, he should be able to catch your ten moves."

As soon as Liu Xiaoshan heard this, he immediately became excited, how could this be possible! Can this brat in front of him be compared with a veteran like him?

Qin Yuan's tone was too arrogant, even his younger brother looked at him very young, and he had not done systematic training at all.

In the end, Liu Xiaoshan also agreed, even if he owes him more favors, he still wants to show Qin Yuan what a veteran is.

Qin Zhengyang had a puzzled look on his face. He really didn't know any tricks. He didn't expect Qin Yuan to kick his ***** directly.

"Stinky boy, you really think you are at home, what are you doing, you have to learn to obey orders from now on, and give me a quicker response."

This is simply a change of person, before Qin Yuan didn't speak so seriously, he was still kind, but now he changed a person immediately, and his aura was raised.

Facing Liu Xiaoshan's confident appearance, Qin Zhengyang couldn't help swallowing, he was so nervous, he didn't even know which hand to make first.

"Son, let me treat you with one hand, or else I won't be accused of bullying you."

Qin Zhengyang was complaining endlessly, looking at the muscles of the person in front of him, let alone one hand, he couldn't beat him like this.

Qin Yuan also laughed, and then said, "Lao Liu, then you have to pay attention, this kid is very clever."

Liu Xiaoshan was very disdainful. To be honest, he really didn't pay attention to such an opponent.

"Zhengyang listened to my orders, blocked with his left hand, and punched with his right."

Qin Zhengyang couldn't figure out what was going on, Qin Yuan had just issued the order, and he punched out directly with his fist. It seemed that his brain reacted very well, and he punched out just after hearing the password.

Moreover, his speed was so fast that Liu Xiaoshan on the opposite side was taken aback. He didn't expect this kid to do this suddenly.

"Hehe, kid, it's really interesting, come on!"

"Punch the right fist and kick the left leg."

Following Qin Yuan's order, Qin Zhengyang completed his order without any mistakes, and his reaction speed was also very fast. He turned over and directly avoided Liu Xiaoshan's fist.

Liu Xiaoshan was a little surprised, he didn't expect this kid's reaction power to be better than he imagined, and if he was able to avoid his punches, his physical fitness was really good.

In this way, under Qin Yuan's command, Qin Zhengyang really persisted through ten moves, but his speed still couldn't keep up, and he was kicked to the ground by Liu Xiaoshan.

Qin Zhengyang was lying on the ground clutching his stomach, and Jiang Xiaoyu and the others beside him were dumbfounded. If they read correctly, this kid really persisted in his real moves, and he was still under Qin Yuan's command, which is too exaggerated Bar!

Liu Xiaoshan burst into laughter suddenly, walked over and pulled Qin Zhengyang up.

"You are quite interesting, you have good physical fitness, okay, I will take you as an apprentice in the future."

"Hey, it's not right for you to say that. What do you mean you accept him as an apprentice? He is obviously my apprentice."

As Deng Jiuguang said, he walked over and pulled Qin Zhengyang past him. Veterans like them have very poisonous eyes.

After a few tricks like this, he knew that Qin Zhengyang was really talented, especially his reflexes, it was indeed not easy to escape Liu Xiaoshan's attack.

Although he still lost in the end, it was because he had not received systematic training at all, and he was able to achieve this level, which is indeed amazing.

You must know that Jiang Xiaoyu and Deng Jiuguang had also fought before, but at that time, the three of them couldn't get close to Deng Jiuguang. They are now Qin Zhengyang alone, and they can resist within ten moves.

The two actually fought over Qin Zhengyang, Jiang Xiaoyu and the others were speechless.

You must know that they wanted to worship these two people as teachers back then, it was a lot of painstaking efforts, but they didn't expect the plot to be reversed now.

Qin Yuan smiled and walked forward proudly, "How is it? Lao Deng and Lao Liu, let me say that my younger brother has a good physical response. Do you have confidence in his physical fitness?"

"It's really good. I really didn't expect there to be such a good seedling. Don't worry, I will try to train him for three months and become a special fighter. But the specific situation depends on his later development."

"That's no problem. I'll make a training form for you. Just follow my training."

Deng Jiuguang nodded, and couldn't help but look at Qin Zhengyang with admiration. At this moment, Qin Zhengyang was very pleased. He still didn't understand why his reaction was so fast.

Qin Yuan gave a random password, and he could do it subconsciously, which was unimaginable before.

At this time, Qin Yuan stepped forward, patted him on the shoulder again, and transferred 10,000 merit points to him again. This time, he strengthened Qin Zhengyang's endurance, physical fitness, and reaction.

According to his current physical fitness and a well-trained soldier, it should not be a problem as long as he keeps up with the training in the later stage.

At this time, Deng Jiuguang took the training form that Qin handed over.

After seeing the training content below, he was so startled that he couldn't close his mouth for an instant, Jiang Xiaoyu and the others also ran over to watch the fun.

After Xiang Yu saw such a training program, he was even more stunned, "Captain Qin, do you think this is too cruel? Anyway, he hasn't even done basic training before. Can he bear such intense training?"

It's no wonder they were surprised. The training started at 6:00 am and continued until 10:00 pm. This is all intensive training.

After waking up in the morning, it is 10 kilometers, then 100 push-ups, and 100 leapfrogs. This is just the morning training. After the training is over, there will be shooting training and anti-terrorism training in the afternoon.

All kinds of queues were full, and there was even training for meals. Qin Zhengyang was stunned by the side. He didn't feel scared, but he was really surprised to see so many training for the first time.

What surprised everyone even more was that there was anti-captive training in the workshop, which was too cruel for a child. Deng Jiuguang looked at the willingness in disbelief, but he nodded unexpectedly.

"Don't worry, I dare to teach you Lao Deng's table, you can train according to it, and I will take full responsibility for any problems in training."

Zhang Chong couldn't help sighing, "I'm a good boy, Brother Qin, you are training special forces, right? This kind of intensity is really too great, and you're completely loaded."

"That's right, I was originally training special forces, and time is running out. If he fails to complete the training within these three months, he won't be able to enter the special forces."

What Qin Yuan said was also very realistic. He didn't know whether Qin Zhengyang could hold on, but this was the most basic. If he couldn't even bear the hardships of training, how would he go to the battlefield in the future?

In addition, his side has already raised his merit points, and his physical skills have been improved, so it should be no problem to do these trainings.

The person Gao Shiwei was looking for was not a vegetarian. If he lost the competition, there would be no hope in the future. More importantly, Qin Yuan wanted everyone to believe in himself and in his decision.

"Zhengyang, do you think you have any problems with these trainings?"

"Brother Qin, I don't think there is any problem. As long as it is arranged by you, I can complete it."

Chapter 1024: simple competition

According to Qin Zhengyang's current physical fitness, Qin Yuan still believes that he can complete these training items, and he can't add all the merit points now, and still needs to test his endurance.

Looking at Qin Yuan's training form, Liu Xiaoshan couldn't help sighing.

"I have to say that your training plan is becoming more and more perfect, but the difficulty is really too strong, but don't worry, I'll take it step by step first."

Qin Yuan naturally believed in them. Both Liu Xiaoshan and Deng Jiuguang were very experienced.

"Lao Deng, Lao Liu, I will leave Zhengyang to you. No matter what happens in the future, I can accept it."

This time, he was also betting on himself, because he felt that the judgment he made would never go wrong.

Qin Zhengyang also promised him that he would never be lazy, and just like that, he left the sea training ground. As soon as he left Deng Jiuguang's side, he immediately started the training plan.

The main reason is that the most important thing now is time. Although there are three months, it is too little time for a young boy who doesn't know anything yet.

Qin Zhengyang didn't realize that his physical reaction was so strong, and he didn't know what happened.

After going back, Qin Yuan talked about the situation here with the team members, "Anyway, even though I am the captain, I can't specialize. We will see in three months. If he still can't do it after three months, then what is the point?" We can only follow Lao Gao's choice."

In fact, whoever they choose is a new integration for them, but they can integrate better with more familiar people.

There are several candidates for Gao Shiwei, one is a member of the Thunder Commando, but if you choose from the Thunder Commando.

Then their squad formation is not complete, and other candidates need to be reintroduced, so he is more inclined to recruit a new group of special forces members and choose from these members.

He attaches great importance to the selection this time. The entire team of the red blood cell team is very capable, and he doesn't want to select someone who will lag behind.

This afternoon, the commander-in-chief of the Western Military Region drove to their brigade in person. Gao Shiwei felt that there was nothing wrong with going to the Three Treasures Hall. What is this man doing here?

Sure enough, he brought three soldiers down from the car. For them, being able to enter the special operations brigade, especially the red blood cell team, was a supreme honor.

This time, he specially brought his own soldiers to select these people, "Captain Gao, look at my soldiers, I think they should be able to meet your requirements, if possible, the three of them together Getting in is no problem."

Gao Shiwei smiled embarrassingly. Three people were too many for him. If there were too many independent operations in the special operations team, their goals would be exposed instead. Everyone has a strict positioning. .

"Commander Chen, I thank you for your kindness in advance, but we really only need one person. Three people are too much for us."

"I can also understand this. After all, it's a matter of your organization. Those soldiers are among the best on our side. You can choose one of them at will."

Commander of the West, the meaning is very clear, that is to skip the selection. After all, he brought the people, so no matter what, he has to give him this face. He thinks that the people he brings are absolutely fine.

Gao Shiwei has always been stern and selfless when doing things, especially the selection of players. He never pays attention to anything and the commander of the western region. Although he doesn't have much contact with him, he still has some understanding. This guy Anyway, very arrogant.

So he also said very directly, "Commander Chen, let's get straight to the point. No matter what, selection is still necessary. After all, the missions performed by special operations teams are also specialized."

The three soldiers were a little unhappy when they heard what Gao Shiwei said just now. The three of them are also top-notch existences in their military region.

What this guy meant was to directly reject their commander, which is too exaggerated.

Standing in front, a soldier named Wang Yonggang stood up, "Reporting sir, I think each of us has such physical qualities and can meet your requirements. We are also selected through layers of selection in our military region. The strength is not to mention."

Gao Shiwei just smiled, he has seen this kind of situation a lot, after all, how can the people who come here be ordinary people, he has seen too many soldiers and spears.

"I know that everyone is very strong, but this is also our rule. I am not afraid of offending people. After all, this is what I do. I am responsible for my rectification team."

At this time, Commander Chen next to him was a little unhappy. This guy is someone who doesn't give him any face. What kind of selection is he going to do here? Could it be that he doesn't believe him?

"If you speak directly, then I will also directly say that your captain Qin is indeed a man of the hour in our general military region, but sometimes, I always feel that you are too proud."

Gao Shiwei just smiled and didn't speak. This is the impression most people have of them. In fact, they are not proud as they say, but use their strength to prove everything.

"By the way, I also heard that Captain Qin spent more than two months, and now it's almost three months, but he still hasn't selected any team members. Is this kind of efficiency your special operations team?"

Gao Shiwei naturally knew what he meant, that he was mocking his team members openly and secretly. Gao Shiwei was originally a calf protector. He could talk about Qin Yuan, but others couldn't.

"After all, this is a special situation, and it's not what the rumors say. It's just that their team is performing other training tasks."

Commander Chen laughed out loud, the legendary calf protector was really not easy, at this time, he was still speaking for his team members.

"I'm very confident in the soldiers I've selected. Since you want to make selections, why don't you let the people in their squad come out and have a look!"

Commander Chen is very confident in his soldiers, so he made it very clear that they are free to conduct the assessment.

This was also Gao Shiwei's idea. Originally, he wanted to give her a step down. Since he proposed it on his own initiative, if there is any ugly situation to slap her in the face later, it is none of his business.

At this moment, the red blood cell team should be on the training ground. Gao Shiwei brought them to the training ground, but he only saw He Chenguang and Wang Yanbing lying on the high wall of the training and basking in the sun.

Gao Shiwei didn't say anything, he is very confident in his players, and they are training every day, and now this situation has also fulfilled their training targets.

But when Commander Chen saw it, he had never experienced it before, and said sarcastically: "Captain Gao, this is the special forces team member you mentioned. They are already lying in the sun at this time, why didn't I see it?" Captain Qin?"

At this time, He Chenguang heard the movement and quickly jumped off the high wall, and the two saluted a military salute.

"Team High!"

"Where's your captain, and where are the other two team members?"

He Chengguan didn't understand what was going on for a while, did he bring someone to inspect it?

Still without hesitation, he said directly: "Report, our captain and Song Kaifei have gone to clean the toilets, Erniu is now in the cooking class."

A few people nearby burst into laughter when they heard this, and the captain of the special operations brigade actually went to clean the toilet.

"Hahaha, Team Gao, you really gave me a surprise. Are you too free? You even went to clean the toilet, why did you ***** all the work from the cooking class?"

Gao Shiwei's face was a little unnatural, he knew about cleaning the toilet, it was the punishment for Qin Yuan before.

But what was Li Erniu doing in the cooking class? Just as he was talking, Li Erniu ran over carrying a plate of pig's trotters.

He saw Gao Shiwei from a distance, and ran over to say hello with a smile.

"Captain Gao, why are you here? It's so good to come, try the stewed pig's trotters I just made, it's delicious."

Now the people next to me couldn't hold back any longer. The members of the Special Warfare Brigade actually went to the cooking class to stew pig's trotters. It really made people laugh to death. Are they from the cooking class or the Special Warfare Brigade? of?

"You brats know how to eat in a day, what time is it now!"

It's okay to do this normally, but after all, the commander of the Western Military Region is here now, and he really loses face.

However, he also believed in his team members very much. If Qin Yuan was not around, it would be the same if they competed together.

"Commander Chen, I'm sorry, Qin Yuan received a small punishment before, so he is cleaning up, but if you want to select a competition, a few of them are fine."

The three people next to them were very happy when they heard it. It would be no problem to compete with these few people, especially with a cook.

Li Erniu still didn't understand the situation, staring at the stewed pig's trotters in front of him, swallowing for a while, He Chenguang could see it, after all, the eyes of the people next to him were not good.

Wang Yonggang came out and looked at the pig's trotters in front of him, "Oh, I really didn't expect the food in this special operations team to be good, but are you a cook or a member of the special operations team?"

Li Erniu didn't hear the sarcasm at all, and said with a simple face: "Brother, no matter what it is, but you can try this stewed pig's trotters. I have a second-level chef certificate."

"Unexpectedly, your special operations team is really versatile, and the chef can even join the special operations team!"

He Chenguang also heard something was wrong, what does this guy mean? He was always talking with guns and sticks from the very beginning.

Gao Shiwei didn't say anything at the side, but Commander Chen looked smug, after all, his soldiers really gave him face.

"Li Erniu! Come out now!"

"Yes!"

Gao Shiwei turned his head and looked at the three people brought by Commander Chen and said slowly: "How about you, who is interested in coming out to compete with my soldiers?"

Wang Yonggang was the first to stand up, and then the people next to him also stood up. Li Erniu was confused. What's going on?

He Chenguang reminded him in a low voice next to him, "Be smarter, you kid. They probably want to be selected into our special forces team."

"Okay, don't worry, I know."

Wang Yonggang looked smug. Anyway, he was challenging a cook, and he was able to enter the special warfare team. It seems that their special warfare team is just a vain name, and their captain is probably the most powerful.

After all, this is Li Erniu's home field, "Brothers, you can snipe anything you want to challenge, cross-country with heavy loads, fighting, I can do anything."

"Then I'll compare it to my worst sniper."

He Chenguang was completely speechless, this person was too crazy, he didn't want to be his teammate with such a person.

Gao Shiwei was just watching the show with his hands folded. He knew Li Erniu's level. It should be said that anyone from the entire red blood cell team could compete with them.

Commander Chen said with a smile: "Captain Gao, don't turn your face away later. After all, it's a competition between soldiers. Sometimes it's not ashamed to lose."

What? Li Erniu looked at him suspiciously, he was right, he would never lose.

Since they said this, Li Erniu originally planned to release the water. After all, it is really meaningless to compare it with ordinary companies like them.

If this is the case, then he let go of the fight and let them see what a special warfare team is.

Wang Yonggang was very proud of himself, he stepped forward and looked at He Chenguang, "Brother, lend me your sniper rifle."

"Comrade, I'm sorry, I never borrow this sniper rifle, and our sniper rifles are all specially made, maybe you are not used to them."

At the beginning, Gao Shiwei refused directly. Gao Shiwei asked the soldier next to him to bring a sniper rifle and handed it to him.

Then He Chenguang threw his sniper rifle to Li Erniu.

Wang Yonggang was a little unhappy for a moment You are not authentic, you just said you couldn't borrow it, why did you lend it to him? "

"That's embarrassing, what I said just now is not to borrow, it is for outsiders, he is my brother, so he is not an outsider."

"you..."

Senior Senior was holding back a laugh. As the chief here, he was really not very good at talking, so he could only say something without pain or itching.

"Commander Chen, don't mind, the soldiers of our special warfare brigade are more united, so sometimes our words may not be so pleasant."

"We are also very united, but this soldier is very good at playing tricks. We will see how his marksmanship is after a while."

Commander Chen was also a soldier defending himself, and the two sides didn't say anything more, it was just a small episode.

Wang Yonggang directly said that they wanted to shoot a moving target. They chose a human-shaped ring target 800 meters away.

Chapter 1025: black hawk of the eastern theater

Originally Li Erniu wanted to remind him that they had stopped playing this kind of thing a long time ago, but seeing Wang Yonggang's expression of interest, he didn't want to say that the visitor is just a visitor, anyway, let him do as he pleases.

Wang Yonggang took over the sniper rifle. It is indeed the latest GS-1 sniper rifle of their special brigade, and they can see it everywhere here.

This kind of sniper rifle has a range of about 1,000 meters. The overall weight of the gunshot is relatively light, but its stability is extremely strong. In their team, the entire regiment only has five such sniper rifles. Teams are everywhere.

The humanoid moving target 800 meters away was already moving rapidly. After aiming, he directly pulled the trigger.

Soon, the voice of the target report came from the walkie-talkie, "The report hit the tenth ring."

Before Gao Shiwei said anything, Commander Chen was very excited and immediately applauded beside him.

"Did you see it? My soldiers are powerful, and it's no problem to hit these targets."

Wang Yonggang was very happy when he heard it. Gao Shiwei just felt that such difficulty was too simple for them, but it was hard to explain it.

Several times he hesitated to speak, but thinking that after all, he was a friendly army, and his words were too straightforward, which hurt people's self-esteem. Unexpectedly, Commander Chen would still work hard.

"If you have anything to say to the Gao team, why do you feel like you are hesitating? We are all soldiers. There is no need to hide and hide. If you are afraid now, there is still time."

what! Gao Shiwei smiled, and then patted Li Erniu on the shoulder, "It's not that we are afraid, but that we stopped doing basic training like this very early."

Wang Yonggang was stunned. He thought he would get a compliment, but he didn't expect to say that this was just basic training for them.

You must know that the speed of the moving target just now was very fast, much faster than he was in the company. The shot he fired just now felt a little guilty, and he didn't expect to hit the tenth ring.

"On the opposite side, shake it faster, and then hang up the ping pong ball."

Now it's the turn of these few people to stare dumbfounded. At such a speed, there are still ping-pong ***** hanging. Do you want to hit the ping-pong ball? That is absolutely impossible.

"Captain Gao, with all due respect, today's wind direction is not suitable for sniping. After the bullet is fired, it is easily deflected by the speed of the wind. It is basically impossible to hit the ping pong ball."

"I'm sorry, our special forces don't have this kind of statement. We only believe in the guns in our hands, the wind speed, and the temperature. These are just auxiliary for us."

Good guy, these words are simply too arrogant. Commander Chen looked at him coldly. Is this the beginning of provocation?

Gao Shiwei didn't pay attention to his gaze, this guy has been playing tricks on him since the beginning, he has had enough.

Originally thinking that they were all friendly troops, there was no need to make it so stiff, but since that was the case, then he would not be polite, and taught them a good lesson.

"Er Niu, just play casually, just play at your usual level, don't play beyond your normal level."

"Yes!"

Commander Chen was standing next to him with an extremely unnatural expression. This was simply too exaggerated. He stood directly in front of him with his hands behind his back and picked up the binoculars. He wanted to see how good this sniper could achieve.

From the binoculars, he saw the ping pong ball being blown into a mess by the wind, and the speed of the humanoid target was very fast. Not only did the whole handle move repeatedly, but also the hand was also swinging, plus the direction of the wind.

If this can be hit, it would be too exaggerated. At this moment, Li Erniu had seen everything in the sniper mirror with his gun up, and he shot without the slightest hesitation. Commander Chen next to him was stunned. Are you not ready? This is too exaggerated.

If it was because Li Erniu's various physical qualities had been blessed by Qin Yuan with merit points, their foundations would have been very strong before, let alone the blessing of merit points.

"Report! Hit the target!"

Wang Yongkang couldn't believe it. He asked to inspect the target directly on the spot, but Commander Chen said something coldly beside him.

"No, I saw it in the telescope and hit the target."

Gao Shiwei put his hands behind his back and said with a smile: "Commander Chen, you don't have to be so serious, it's all children's play, it's all just for fun."

Commander Chen didn't believe in luck. From Li Erniu's confident appearance just now, he knew that this round was extraordinary, but he didn't expect him to hit a hit.

Wang Yonggang walked over dejectedly. You must know that marksmanship is what he is most proud of, but he didn't expect to be shot by someone in seconds at the very beginning.

He definitely couldn't play at this level. At this time, a soldier next to him pushed him away.

"Can you cheer up, kid? Isn't it just a loss? If you lose, then come again, and compete with others if you have the ability."

He Chenguang's fighting spirit also came up in an instant, he stood up and looked at the person in front of him.

"Comrade, what do you want to compete? Is it marksmanship or something else? I can do anything."

"I don't compete with you, I compete with him, I want to compete in fighting."

The soldier pointed directly at Li Erniu, it seemed that he wanted to win over Wang Yonggang, so he didn't intend to let Li Erniu go.

After all, in his eyes, he felt that there was no such thing as a decathlon. Since his marksmanship was so good, he would definitely not be able to fight. He could directly crush him in the fight.

But he didn't think about where this place is, this is the special warfare brigade, and everyone is a master.

Wang Yonggang held him back at this moment and asked him to restrain himself a little. He was also worried that he would be slapped in the face later, but he didn't expect that soldier to ignore him at this moment.

"Don't pull me, I'll tell you, I'll earn back your shame, no matter what, our military region must not lose face."

Wang Yonggang sighed silently, and then retreated to the side. Commander Chen saw hope, after all, this soldier was the two-time military boxing champion of their military region.

Fighting is not a problem, he is the fighting instructor of their company.

Gao Shiwei hurriedly stood up to try to smooth things over, "Commander Chen, I think this soldier is so angry, maybe it's because the weather is too hot, or go to our reception room to drink tea and take a rest."

"Captain Gao, I think you want to protect your soldiers, right?"

This guy is simply too rude, what is Gao Shiwei's identity, he actually questioned him like this.

Gao Shiwei also snorted coldly, this kid really doesn't know what to do, and I kindly want to save him, "It's mainly because of fighting. Originally, in our special warfare brigade, many of them were used as nirvana. I was mainly worried hurt you."

"It turns out that's the case. Captain Gao won't bother you. There are basically no people who can hurt me. If he can really hurt me, then I will admit it."

The tone was too loud, Li Erniu shook his head helplessly.

"Chen Guang, look at this kid's tone is as good as yours back then."

"Can you stop comparing me with this kind of person? This guy has such a hot temper, I'm not as reckless as him."

Hearing this, the soldier was even more angry. He pointed to Li Erniu and said, "When you two discuss others, can you consider other people's feelings? If you are still standing here, you can discuss me."

"That's right, that's because you don't respect our captain, so what if you are a second lieutenant, our captain's rank is much higher than yours."

These two brats, Gao Shiwei smiled, "Forget it, don't waste your time fighting, hurry up and finish the competition in this hot weather, I'm still waiting to eat, the braised pig's trotters you made."

Li Erniu laughed, but when he looked at the soldier in the blink of an eye, his eyes became sharp.

Unexpectedly, in Commander Chen's eyes, a boxing champion would be beaten to the ground by Li Erniu in less than three minutes.

It was so embarrassing, Li Erniu shook his head helplessly, "It's not as good as the squad leader of our cooking class. The squad leader of our cooking class can last at least ten minutes, which is boring."

"you!"

The soldier lying on the ground was very angry, but there was nothing he could do. He didn't even have a chance to fight back. He didn't know what happened, so he was thrown down directly.

This guy is too weird, the point is that he is fast and has great strength, he can't resist it at all.

They lost one after another in a short period of time, and they couldn't even pass the basic assessment. Commander Chen couldn't bear it anymore. The last person wanted to challenge, but he directly refused.

"Isn't it shameful enough? Where is the shame now?"

These soldiers lowered their heads one after another at what he said, how arrogant they were when they came here, and how embarrassed they are now.

"Commander Chen, didn't you say that before, everyone is competing with each other, don't hurt your temper, just look at you, after all, these boys train like this every day."

Commander Chen finally understood why Gao Shiwei hadn't found a suitable player after searching for such a long time. It's just that the ordinary players of their special forces team are so good, let alone their captain.

He thought that his soldiers were already very powerful, but he didn't expect to expose all their weaknesses in just a few minutes, and they were not at the same level at all.

"I'm really ashamed to say that, Team Gao, I apologize to you for my ignorance before, I didn't expect your special warfare team to be really powerful."

He really couldn't figure it out, the soldiers he picked out should be fine, of course why they couldn't even beat ordinary players.

It seems that his own training method is really not good, he can play a one-on-three if he comes out casually.

"It's a pity that I didn't see Captain Qin this time. After all, Captain Qin is a man of the hour in our military region, and he is often featured in newspapers."

As soon as he finished speaking, there was a sudden movement in the grass, and a figure in an auspicious suit stood up and said loudly, "Report!"

They were all taken aback, and the soldier next to him subconsciously pulled out his gun.

"What are you doing? That's our captain, put down the gun quickly."

what! team leader!

It meant that their captain had been hiding in this bush all the time. Commander Chen couldn't believe that he was standing here just now and almost stepped on Qin Yuan, but he didn't realize that there was someone hiding here.

This time, he has thoroughly seen their sniping, fighting, and hiding and lurking.

So many people didn't realize that Qin Yuan was really awesome, and Gao Shiwei was even more flattered. This is called a silent blow.

But what he is more concerned about now is which player to choose to join the special forces team. For a while, he is really worried about this matter.

At this time, Commander Chen said slowly, "Captain Gao, today I am really impressed. My soldiers are really not good enough, but I know there is a candidate."

"Is there a candidate? Which military region is it from?"

"You should have heard of this man. He has a nickname called Black Eagle. This man is the treasure of their Eastern Military Region."

Gao Shiwei just heard Heiying's name, and his eyes lit up instantly. He knew this person, and there are still legends about him up to now, but it was covered up because Qin Yuan's radiance was greater.

At that time, this black eagle and his team members went to ambush criminals together, and his team members lost their way.

As a result, this guy drifted on the sea for three days alone, climbed onto the island with a piece of driftwood, and wiped out all 27 criminals on the island.

At that time, he obtained a first-class gong and a first-class gong. It can be said that he was also a first-class tough guy. He persisted in the turbulent sea for three days. This physical fitness and willpower are beyond ordinary people.

Gao Shiwei originally wanted to recruit him to the Special Warfare Brigade before, but their Eastern Military Region was too precious, so they failed no matter what.

In addition, Qin Yuan's red blood cell team had completely intercepted it later, so Gao Shiwei didn't talk about the matter over there. Now that he said it, he remembered that this person is really a suitable candidate.

Wang Yanbing pursed her lips after hearing this, "Tsk tsk tsk, don't be joking, 27 people are still drifting for three days, I see if there is an element of exaggeration."

He said in a low voice, but was heard by Qin Yuan, "I know this matter is indeed true, and I can actually do it, without using that log, I can even solve it in a day Brother Qin, look at what you said, how can he compare with you? I just think they are exaggerating too much. "

"You have to know, yes, it is impossible for the results to be adulterated, but it seems that this time the players are a little difficult to deal with."

Qin Yuan didn't mean that he wanted to target this player, but that he was worried about whether Qin Zhengyang could pass this level. Now Qin Zhengyang's training is in full swing.

But Commander Chen also said just now that this man is very precious in the Eastern Military Region, how could he be poached by Gao Shiwei?

"Brother Qin, I think you can rest assured, you couldn't dig it out before, let alone now."

"I think so too. Besides, he lived well in the Eastern Military Region and has this honor. Why did you come here?"

When several people were discussing, Gao Shiwei suddenly appeared behind them.

"You brats are muttering here, saying that I haven't talked about it yet, and you are just crowing here."

Chapter 1026: black hawk is coming

"Captain Gao, aren't we here to help you share the burden? Besides, he's a treasure in the eastern war zone. Wouldn't it be an offense for you to poach him?"

"Share the fart, hurry up and let me go to the training. Fortunately, you guys reacted quickly today and didn't embarrass me, otherwise I won't have good fruit for you."

Qin Yuan laughed, and then led everyone back to the training ground.

He is training, and he is a little worried about Qin Zhengyang's side. It has been more than a week, and he doesn't know how the training results are.

The training for Qin Zhengyang is completely in accordance with the special manual, and the training items are relatively strong, but he knows that Deng Jiuguang and the others are there.

There should be no problem with the training. Deng Jiuguang and the others are relatively experienced instructors, so they can make certain adjustments.

He is more worried about Qin Zhengyang's current situation, the effect of his training and whether his body can accept it.

Listening to Black Eagle's previous achievements, everyone felt that this person was indeed suitable for special operations, but Qin Yuan was actually a little shaken.

"Brother Qin, in fact, don't worry so much. I am quite optimistic about Zhengyang, but the time is too tight. After all, the opponent is a well-trained soldier. Zhengyang has just come into contact with him. The odds of winning may be a little low."

He Chenguang's implication is that if Qin Zhengyang loses the game, he also hopes that Qin Yuan will not blame him.

"Don't worry, I have my own sense of measure in this matter, and I know what to do. I don't have such a big selfishness. If the Black Hawk is really good, then let him stay in our special team, just because we didn't have a choice before. "

Qin Yuan still couldn't help but went to see Qin Zhengyang, he mainly wanted to see the current training results, if not, he had to make adjustments in time.

When he came to the sea training ground, he saw Qin Zhengyang doing push-ups on the sea, Deng Jiuguang and Liu Xiaoshan also accompanied her. After seeing Qin Yuan, Jiang Xiaoyu stood up happily to say hello.

Qin Zhengyang lost a lot of weight. This sudden training, although his physical fitness has been strengthened, but it is his other aspects that have been strengthened. This way of training his body will indeed require a process of adaptation for a while.

"How's Lao Deng? How's the training for this period of time?"

"Let me tell you, this kid is really suitable for serving as a soldier. His physical condition is simply amazing, but it's a pity that the time is too short."

"Yes, he can complete all the training tasks we gave him, but the time last month is really too short, and he has too much to learn, which is a bit counterproductive."

Deng Jiuguang is a person who loves talents, he is very worried that this will ruin the soldier, he really likes Qin Zhengyang.

Qin Yuan also said helplessly: "For this, I really have nothing to do. After all, Lao Gao will not give me that long, and our brigade will soon recruit new special forces members."

Qin Zhengyang stood up after hearing this, his eyes were extremely firm, his face was already peeling from the sun.

"Brother Qin, don't worry, no matter how hard or tired I am, I will never give up. From today on, I will strengthen my training."

Zhang Chong looked at him in surprise, "What the hell? You still need to strengthen your training, isn't that enough? Your training is already full from morning to night, how long can you train?"

Hearing Qin Zhengyang's assurance, Qin Yuan was quite satisfied, and there was nothing wrong with his attitude.

He patted him on the shoulder, "Come on, I believe in you."

"Ding! Successfully delivered 3000 merit points!"

It can be regarded as Qin Yuan's own selfishness. He may not want foreign players to join their team. Compared with familiar players, he is more acceptable.

And Qin Zhengyang didn't know what was going on, it seemed that after Qin Yuan talked to him, he felt a little relaxed, especially because of the previous training, his whole shoulder was already very sore.

But now it seemed that a heavy burden had been lifted, and his body was full of strength again.

Qin Yuan is still in the experimental stage, he dare not add all merit points at once, he is worried that there will be a situation beyond his control.

So he is slowly increasing the form, and later he will definitely cultivate an absolutely invincible special operations team.

There was nothing wrong with Qin Zhengyang's training here, so Qin Yuan went back. He didn't expect to hear Li Erniu running to tell him that the black eagle was actually invited by Gao Shiwei just after returning.

"It's too fast. It's only been a week, and people have been invited."

"We don't know the specifics, but today a car from the eastern theater drove into our brigade. I think who else could it be if it wasn't the Black Hawk?"

Qin Yuan nodded, and several people quietly came to the periphery of Gao Shiwei's office, originally wanting to see who this black eagle was.

They bypassed the guards downstairs and climbed up from behind. They were originally looking for information. Gao Shiwei's office was on the fourth floor, and they were on the top floor.

Some quarrels can be heard in this place, but the sound is not loud, but Qin Yuan can hear it clearly, and his ability is absolutely fine.

"I really didn't expect that you would use the leader above to suppress me, do you know? This person is absolutely impossible for you."

"Oh, old Kong, look at the fact that we were all comrades-in-arms before, not soldiers of the same age. After so many years of friendship, don't you have the heart to reject me again and again."

"You kid still knows that we are soldiers of the same age, so you come to cheat your old comrades like this? Absolutely impossible, I will not let this soldier go."

Gao Shiwei was also a little angry when he said this. He has gone to the eastern theater no less than three times, and it was enough to save face again and again.

"Let me tell you, old Kong, this time it's not a question of whether you are willing to give it, but I must have this soldier."

"Hehe, your special warfare team is too domineering. Why do you give you all the people you want? Don't we need elites in our eastern factory?"

Hearing this, Qin Yuan couldn't help laughing, it seemed that the deal was still not settled, and it was a false alarm.

"Don't worry, you guys haven't reached an agreement, and they are arguing inside now."

"Brother Qin, I have to say, your ears are reliable, your hearing is too advanced, we can only hear some clips, but you are completely live broadcasting."

"Small meaning, small meaning."

As for the situation downstairs, it was obvious that the conversation had collapsed, and the commander of the Eastern Theater Command didn't give face, so he slammed the door and walked out.

He was also very angry when he came this time. Without his consent, Gao Shiwei directly asked the superiors to call his soldiers by name.

This kind of behavior is simply too domineering, how can he allow it, this is his and wants it.

Gao Shiwei was very helpless. The red blood cell team hadn't gone out to perform tasks for three full months because of its incomplete organization.

Although he knew that Qin Yuan was very capable and would be fine even without this team member, he still had his concerns.

If the other players are faced with such an incomplete organization, there will definitely be problems with their cooperation. He really can't accept any form of sacrifice.

After Qin Yuan and the others went down, seeing Long Xiaoyun and the others returning from their mission, Long Xiaoyun from afar teased him.

"Hey, Captain Qin, where did you come back from? It feels like you are living a retired life."

"Xiaoyun seems to have to rely on you for the time being. After all, our team is not complete, and Lao Gao won't let us go out."

"Look how beautiful you are. Since you guys didn't go out to perform missions, then wipe our guns and maintain them."

Qin Yuan laughed. Now that he knew that the Black Eagle hadn't come, Qin Zhengyang still had time, so he was in a very good mood.

"Yes! Guaranteed to complete the task."

Long Xiaoyun gave him a blank look, and then the Wolf Warriors team handed over their guns to Qin Yuan, and they asked them to help maintain them.

Fortunately, there are really not many tasks recently. If it is like this, then you can leave more time for Qin Zhengyang.

Later, it is not an option to go on like this for a long time. Qin Yuan and the others will also go to some small tasks in the country. In fact, Qin Yuan thinks there is no problem, but Gao Shiwei is more worried.

A week later, Qin Yuan saw a car driving into their special operations brigade, and Qin Yuan vaguely felt that something was wrong.

Then he saw Gao Shiwei get out of the car with a smile, the door opened and a young man with a cropped head came down. This young man's eyes were tough, and he looked like a character not to be trifled with.

Could it be that this person is Black Eagle? Immediately after, Gao Shiwei blew the whistle for everyone to gather.

"Everyone, you must have seen it too. Now you are assembled to welcome our new comrade-in-arms, Black Eagle! Everyone applaud!"

Li Erniu and the others stared at this man with strange faces. Does this kid have bad eyesight? Why do I always feel a little slanted when looking at people.

Black Hawk was also very confident, he stood up with his hands behind his back.

"First of all, I am very honored to be able to join the Special Operations Brigade. Secondly, I think my ability can quickly adapt to life here, thank you!"

Good guy so brief? And it was very clear directly that Qin Yuan likes this character very much. If his ability is really stronger than Qin Zhengyang, then keep him.

In this, everyone competes for strength. He will not choose Qin Zhengyang because of personal affection. Compared with ability, he is more willing to choose the one with stronger ability, because what he wants to guarantee is the entire team.

What followed was the introduction of some team members, and Hei Ying just nodded politely. It seemed that this kid was very arrogant.

After Gao Shiwei left, let them get acquainted with themselves first, after all, they will fight side by side in the future.

Gao Shiwei was in a very good mood. It took him a lot of talk to get this person in. After such a long time, he decided that Black Hawk was the best choice.

This person is a God of War-level figure in their eastern theater.

Out of politeness, Qin Yuan also spoke first as the captain, "Hello, Black Eagle, I am the captain of the red blood cell team. Now I will show you the dormitory and our training ground."

Unexpectedly, the kid shocked everyone when he opened his mouth.

"You don't need to look at the dormitory, it's the same anyway, I'm quite interested in you, can you accept my challenge?"

What? Qin Yuan wondered if he had heard it wrong. There must be something wrong with this kid. He has just arrived, so he is about to challenge himself.

"No, I said that you are so funny, it's too strong. We just met, and you want to challenge me."

"Because in the eastern theater, I have always taken you as my goal, and my goal is to defeat you, so I can become the strongest in the eastern military region."

He didn't hide anything, he just told the truth.

Li Erniu and the others felt unhappy when they heard this, and felt that it was too provocative. It's too exaggerated to give their territory a blow just now.

"It's been a long time since anyone challenged me. If you challenge me, it's easy to get hurt, but other players are fine."

What Qin Yuan said was also true, but Hei Ying glanced at everyone very disdainfully.

"Based on their words, I really don't like them."

Li Erniu was unhappy when he heard this, and rushed forward.

"What do you mean by this kid? It's best to make it clear, what means we can't do it, I will let you see today, do you dare to challenge me?"

"If you don't dare, I just disdain it. If you want to challenge, then come and choose whatever you want."

This is really the opposite. Before they came here, they said to let others choose, but now they didn't expect this kid to steal their lines.

At this moment, Gao Shiwei watched all this silently upstairs, but the secretary next to him was a little worried. After all, Gao Shiwei spent a lot of effort to invite him.

"Captain Gao, why don't you go down and remind them, it's not good if something happens."

"What can be reminded, this is the key to being able to integrate. There is a saying that if you don't fight, you don't know each other. If they don't fight, how can they become each other's backs."

Because Black Eagle received so much attention before, especially in the eastern theater, this kid was very proud. When Gao Shiwei went to invite him before, he was full of dissatisfaction. It's time to dampen his spirit.

Li Erniu couldn't understand his appearance, so he chose to fight. He planned to rub this kid on the ground hard.

The result really surprised everyone. Li Erniu was blessed by Qin Yuan's meritorious service, and his fighting skills were basically fine.

Unexpectedly, Li Erniu was knocked to the ground, but the opposite Hei Ying was not much better, and he also received a few punches.

Li Erniu really couldn't believe it, what happened, he was knocked down.

At this moment, Black Hawk was also a little guilty. He didn't expect their players to be so powerful. You must know that he was basically invincible in the Eastern Theater, and there was no opponent there.

Qin Yuan looked at this black eagle with admiration, "I didn't expect that your tricks are quite fast."

"Don't think that you are the only ones who have been on the battlefield. I am also a person who has been on the battlefield and fought hard, so don't underestimate me."

This black eagle was indeed unusual. Although Li Erniu was not convinced, he was indeed defeated.

Chapter 1027: blackhawks pick

At this moment, Qin Yuan was staring closely at his moves. This guy's punches were not random. Although he was punched by Li Erniu a few times from the beginning, he did it deliberately to find out what Li Erniu was doing. Tricks.

It can be said that he is really very strategic, and his mind is also very clear, knowing what he wants.

Li Erniu had been beaten at this moment, and he stood beside him with a smile, "It turns out that the strength of your special warfare team is nothing more than that. I thought it was so good."

"What! I advise you to be more careful when you speak!"

"Could it be that you have been defeated by others? This is the attitude, but what you said before, you are willing to bet and admit defeat."

"I'm telling you, the one just now is not considered kind. If you do it again, I don't believe that I can beat you kid."

Seeing that the conflict between the two sides is becoming more and more extreme, the main reason is that this kid uttered wild words, which made many team members unhappy.

Qin Yuan quickly stood up and stopped him.

"Okay, don't talk about it, you really don't feel ashamed, if you lose, you lose, why are you looking for so many reasons?"

Following Qin Yuan's scolding, the members of the red blood cell team backed away silently, and they couldn't say anything.

Hei Ying just watched Qin Yuan coldly. It seemed that the entire team of the red blood cell team was dominated by him. When he spoke, everyone shut up.

But he is the captain after all, so the purpose of his visit this time is to challenge Qin Yuan.

"Do you know how long I've been waiting for this opportunity? I can be said to be the God of War figure in the eastern theater, but your limelight has completely overshadowed me."

Qin Yuan smiled, he didn't care about these names or anything, he just cared about the tasks he needed to complete, and ensuring that his brothers could return safely every time.

"I don't know why you have such a big prejudice against me, but I can tell you that these names are not what I want, they are just spread by everyone."

"Hahaha, you said this to deceive a three-year-old child. Don't you want to stop deceiving people with these fame."

This guy is so rampant, He Chenguang has already clenched his fists.

Qin Yuan shook his head at him, and it won't work if he continues to fight, so he will win with one move, and now he will meet this person.

Hei Ying was very excited. He had been waiting for this opportunity to prove himself for a long time. He lived under Qin Yuan's fame every day. The God of War that everyone first knew was Qin Yuan, so he was completely ignored.

Without further ado, the two began to fight, and Qin Yuan saw his flaws at a glance. Although this guy had fast fists, his foot was not stable.

So after dodging his first punch, Qin Yuan kicked him on the calf. In an instant, Hei Ying almost knelt down in pain, but he still tried his best to stabilize his figure, and then he whipped his leg towards Qin Yuan kicked it away.

Unexpectedly, Qin Yuan didn't hide at all, he just raised his hand to block, borrowed his strength, and then pushed the black eagle out.

Qin Yuan's strength is very strong. You must know that his strength is at least 1000 kilograms, so the black eagle couldn't bear it at all, and flew out for no reason, and fell heavily on the ground.

And Qin Yuan still restrained himself, otherwise Hei Ying would definitely be injured.

Hei Ying, who fell on the ground at this moment, couldn't believe it. He fell down so quickly. It was absolutely impossible. He had practiced for three years, and he had waited three years for this opportunity.

"I asked to do it all over again, it was just an accident."

The members of the nearby red blood cell team were already cheering, and everyone was booing.

But he got up angrily, and walked towards Qin Yuan with red eyes, "This time I want to compete with you in sword skills. Aren't you the best in sword skills? Let me tell you, I will do it too."

Hearing this, the members of the red blood cell team laughed even more. Isn't this a joke? Hitting directly on Qin Yuan's muzzle, compared to flying knives, no one in the entire military region can compare to their captain.

"I'll go, I think this kid must have knocked his head to the ground just now, and he's crazy to challenge Brother Qin's throwing knife!"

"I also think so, or he didn't bring his brains, after all, he can say such crazy things."

Hei Ying glared fiercely at the people around him, and then took out his special throwing knife from his waist.

"Don't talk, do you dare to fight me, I want to challenge you."

Qin Yuan folded his hands and stared at him with interest, not that he didn't want to accept the challenge, but that he really didn't want to hurt him.

After all, after the news got out, people thought he was intentionally bullying him from the eastern war zone.

"I think we can just go as far as we can. You don't need to be so aggressive. It will be difficult for everyone to see each other again. I have already given you a step, so let it be."

"No, I must compete with you today. If it's a man, you promise me."

Having said all of this, Qin Yuan shook his head helplessly. He didn't expect that the Black Eagle in the eastern theater would be a thorn in his head. It's all about this. Don't you understand?

In this way, he agreed to Hei Ying's request to leave the station, but Qin Yuan didn't use a throwing knife this time, he just picked up a few stones from the ground.

Hei Ying frowned when he saw it, "What do you mean? I think you are insulting me. You pick up the knife, and we will have a duel between men face to face."

"Brother, what era is this? You still engage in duels. I really don't want to hurt you."

"Then aren't you afraid that I'll hurt you? You underestimate me too much. The knife in my hand is specially made and very sharp."

"Hahaha, don't worry, you can't hurt me even if I close my eyes."

Black Hawk sucked in a cold breath, his tone was too arrogant, you must know that he is in the eastern theater, he is like a baby, when did he suffer such grievances.

"You are too much, let me tell you, I will try my best today even if something happens? I will bear it alone."

Good guy, this kid is too confident in himself, he even took into account what happened after the duel.

Qin Yuan smiled. Such a person is very capable. To be honest, his fighting level is actually not bad. Usually, when Qin Yuan fights with his other team members, he always uses his strength. This kid has a good basic reaction of.

It's just that he is too arrogant, and he should be discouraged, otherwise there is no way to integrate into this group.

In this way, the game started soon. Gao Shiwei was standing in the office holding a binoculars. Just seeing the situation below, he knew that there would be a competition among the players.

But I didn't expect to play such a big game. The two sides were facing each other with throwing knives. Isn't this a joke?

"These brats are really big at playing, and they're not afraid of causing trouble."

The secretary beside him was speechless. If he was really afraid of revealing something, he would have rushed up, not here to watch the excitement, because Gao Shiwei is very confident in Qin Yuan, and nothing will happen to him!

Almost at the same time, the two threw the throwing knives and stones in their hands respectively. It is not difficult to see that Black Hawk is also very powerful. It seems that he has really worked hard and practiced hard, and the throwing knives he flies are very powerful. strength.

But soon he felt a pain in his shoulder and his heart was still there. When he looked down, he saw some white spots on the camouflage training uniform, which were made by the stones just now.

On the other side, Qin Yuan avoided all the flying knives perfectly, with a blade in his hand.

"I have to say, it's good that you have a blade for this trait, but it's just a toy in front of me."

After Qin Yuan finished speaking, he pressed his ***** hard, and the special blade was bent.

Black Eagle gasped when he saw it. This is too exaggerated. This blade is very sharp and definitely tough enough, because he has tested it many times.

To be able to pass through objects, his toughness must meet the requirements. Unexpectedly, Qin Yuan could bend this special blade with just two fingers.

"You! How did you do it? And you just use stones..."

At this moment, Black Eagle doubted his life. He looked down at the white spot on his body and fell into deep thought. If he really used it, he would be a corpse now.

Qin Yuan didn't mind much, stepped forward and patted him on the shoulder.

"Let's go, brother, I'll take you to see our dormitory and training ground, how are you doing now? If you are convinced and there is no objection, you can continue to compete."

Qin Yuan had figured out what he was thinking a long time ago. This guy's goal was to throw the knife, because he had been imitating himself all the time, so he was practicing the flying knife hard now. He didn't expect that the flying knife would be instantly killed by himself just after he came out.

So he didn't even bother to compare other things.

Black Hawk just kept mumbling to himself, he had been preparing for such a long time, but he didn't expect to lose like this.

"I really don't know what's going on. I didn't play well today? Why did I lose like this? It shouldn't be."

Li Erniu shook his head, this kid was completely dazed and there was no way to save him.

But one thing to say, Qin Yuan is quite satisfied with this black eagle, his strength is generally not bad, and he also has many unique ideas, especially this special blade.

It's not impossible to let the Black Hawk become their team member, he can still accept it.

Black Eagle also silently accepted this fact, but the whole person seemed to have been severely hit, and silently returned to the dormitory.

Qin Yuan specially called the members of the red blood cell team out for a meeting, mainly to let everyone accept Black Eagle.

The more Li Erniu heard it, the more he felt something was wrong. He quickly stood up and said, "Brother Qin, listen to what you said. This is to betray Zhengyang. Zhengyang is still training against the sun."

"Look at what your kid said, I'm not betraying him, but there are still opportunities for other special forces, and he can also come in, just not with us."

"Although Hei Ying is really strong, I don't know if I can get along with him because of his arrogant attitude."

"That's why everyone has to adjust their mentality. No matter what, we have to accept this result. We need to adjust quickly so that we can take on the task and get back on track as soon as possible. Do you understand?"

This is the most important thing, they have been on and off for so long, they are a special operations team.

Everyone couldn't accept it anymore, and they could only accept it silently. In this way, Black Hawk officially joined the red blood cell team.

Qin Yuan also has no other selfish intentions. He has a very good plan. Even if he is Black Eagle, he has strong abilities, so he can accept it. If he can add some merit points to him later, then it will be no problem.

What he didn't expect was that the next day on the training ground, the Black Hawk was as if he had been injected with chicken blood. No matter what he did, he had to compete with the players.

Even including the simplest set, he was two or three seconds faster than others, and he felt very proud.

In the end, Qin Yuan couldn't take it anymore. It's not a competition for everything. They are not opponents, they are comrades in arms. After all, they will fight side by side in the future.

"I still want to remind you about that Black Hawk, don't compare anything."

"I'm sorry, captain, this is my own request. I will set a goal for everything I do, and you are my goal."

It can be seen from his address that he never regards the members of the red blood cell team, including the captain, as his own.

Qin Yuan also smiled helplessly, that may only give him time to get used to it slowly.

Gao Shiwei was very satisfied with the Black Hawk, after all, the addition of strong people to the red blood cell team instilled fresh blood into them.

Just like this, the one-week break-in period has come, because they don't have so much time now, Gao Shiwei is testing the results, he is very confident in Qin Yuan, and he is not worried about any problems.

It's just that they still conducted a simple assessment, which is a very common rescue operation.

However, in this rescue operation, they need to climb to the eighth floor with bare hands, and then enter the window to rescue the hostages.

This is the final assessment. Everything in the front is going well, and everyone is cooperating well. After all, they are all fighting in small teams. ' But when climbing, I encountered a problem.

Wang Yanbing's equipment had a problem at this critical moment. When they climbed to the eighth floor, the rope used to fix it suddenly broke.

Li Erniu was the closest, so he grabbed Wang Yanbing. Fortunately, he didn't fall off, but a rope couldn't bear the weight of two people at all.

And at this time, as long as the black eagle next to them stretched out his hand to help them, then everyone can go up safely.

However, something unexpected happened to everyone. Heiying was very indifferent, and directly bypassed Wang Yanbing, worried that he would affect him, then climbed quickly, and then jumped into the window.

At this time, the situation of Wang Yanbing and the others was very dangerous. Qin Yuan didn't care so much, because he was the commander, so he was commanding from below.

He rushed forward and jumped to the second floor with a light jump. He quickly climbed up and grabbed Wang Yanbing at the critical moment, so that no tragedy happened. If you fall from this height, you will have to break a bone even if you don't die.

Chapter 1028: sued

Li Erniu was frightened into a cold sweat. After all, who could have imagined the problem of equipment, he desperately held Wang Yanbing, not just a subconscious move, but more importantly, he was his brother.

"How are you, Yanbing? Are you feeling okay?"

"It's okay, Brother Qin, Er Niu, it's fortunate that you stopped me, otherwise I would have to lie in the hospital."

"Don't talk about it now, let's go down and talk about it."

In this way, the three of them came downstairs safely. Gao Shiwei next to him kept frowning, but he didn't say anything. He just came to ask about Wang Yanbing's situation.

But at this moment, Li Erniu was aggrieved. While arranging his equipment, he said loudly: "What the **** is that **** Black Eagle wanting to do? It's just desperate. Just now he could take the lead in stopping Yanbing, but he didn't. By doing this, isn't this just trying to kill us?"

Wang Yanbing was already depressed because of the equipment, "Okay, don't talk about Er Niu, I'm not to blame for this matter."

"Who would have imagined that this thing is your own equipment? The most important thing is that it's easy to do. He just watched the past like this."

Several people were talking about this time, and the black eagle jumped down carrying the dummy. The goal of their rescue was to successfully kill the criminals and rescue the hostages.

He directly passed Brother Qin and came to Gao Shiwei, put down the dummy, "Report to Team Gao that the task has been completed, and successfully rescued a hostage."

Qin Yuan looked at this guy without any embarrassment, he walked over and looked at him coldly.

"That's right, although the hostages were rescued, we sacrificed a special soldier on our side. Do you know what this means?"

Because according to the real situation, if Brother Qin hadn't made a move just now, both Wang Yanbing and Li Erniu would be in danger, and something unexpected would definitely happen.

And the most unacceptable thing for them now is casualties. It is very difficult to know that a special warfare team really goes from training to going to the battlefield, so it is necessary for their teams to cooperate with each other.

Hearing Qin Yuan say this, Hei Ying didn't take it seriously.

"But I have completed the mission. You must know that in the battlefield, our mission is the most important."

Li Erniu was furious, he really wanted to rush forward and beat this kid hard, what was he thinking?

"What do you mean by that? Don't you care about the sacrifice of your teammates for the sake of the mission? Then who the **** would dare to go to the battlefield with you?"

He Chenguang hurriedly pulled him, telling him not to be so excited and listen to his explanation first.

"I'm sorry, but because of the incompetence of your teammates, you caused your own sacrifices. Then this is definitely not my business. The point is that I have completed the task. I have rescued the hostages."

Qin Yuan frowned. This guy's words were too harsh, and he was very selfish. He didn't consider any safety issues of his teammates.

He only wants to complete the task. To be honest, such a person is really dangerous. No matter how powerful he is, everyone dare not trust him with his back.

"Although you have completed the mission, if this is a real battlefield today and two special forces members died, do you think the mission is more important, or your brother's life?"

"I'm sorry, I'm executing orders, so orders are more important. I've said it many times, and I rescued the hostages."

The guy became more and more unhappy as he talked, and then he threw the dummy on the ground and strode away.

Gao Shiwei also felt that this person was too independent and had no sense of unity. Although everyone insisted on their own opinions, he still stood by Qin Yuan's side.

This depends on the situation. If they have to give up their brother's life because of the mission, then they would rather not do the mission.

Such a sacrifice is unnecessary. They are not willing to make a one-for-one sacrifice, so what task do they perform?

It's just stupid to the extreme. Qingyuan had a good impression of Black Eagle before, but seeing this guy's attitude, he couldn't understand it at all.

Gao Shiwei looked at the back of the black eagle leaving, and said slowly: "It seems that the running-in time of this week is too short, let's get along for a while and see."

Li Erniu hurriedly stood up and said, "Captain Gao, I don't think it's just a week with this kind of person. I don't know if I can get along successfully. I dare not hand over my back to him."

"Okay, don't even talk about it. Now that this matter has passed, let's see that he is indeed a very good candidate. You can wait for a while and see, don't worry."

Gao Shiwei directly interrupted Li Erniu, and then walked towards the office.

After returning, Wang Yanbing was slightly injured because the rope was broken, and Li Erniu was giving him medicine. The more he thought about it, the more he felt that it was too much.

The atmosphere in the dormitory was very tense, and Black Eagle was not there. Ever since he lost to Qin Yuan, this guy had been working hard to train himself every day.

"Brother Qin, I really can't figure it out. You see, this guy is too indifferent. He doesn't regard us as brothers at all, but as opponents."

"I can see this too. No matter how strong his ability is, how can he go to the battlefield? There will only be big problems."

"Thinking back, if Dalong had Dalong in the past, we wouldn't have to worry about our backs at all..."

When Xu Tianlong was mentioned, everyone fell into silence.

"Brother Qin, judging by the state of this guy, it is better to let Zhengyang join our team. At least I dare to conclude that with Zhengyang's character, the situation like today will never happen."

"Let's wait and see. Zhengyang is also training. If this guy really can't do it later, I will tell the Gao team. I definitely don't dare to let him fight with us."

Just as he was talking, Black Eagle walked in. He didn't hear the first half of the words, only the second half.

"I really didn't expect that the dignified captain of the red blood cell team would speak ill of the team members behind their backs. To be a human being, you should be aboveboard."

He Chenguang rushed forward and asked him, "Can you be more respectful with your attitude, we are just discussing today's situation."

"Hehe, I know it well if I don't want to discuss it, and if you have no skills, I don't dare to fight with you."

He Chenguang couldn't stand this kid's character anymore, he was too aggressive. Just as he was talking, the two immediately wrestled and were finally pulled back by Qin Yuan.

"Enough, do you still look like a special fighter? If you have nothing to do, go out and run 5 kilometers to calm down."

Hei Ying snorted coldly, walked directly to his bed, packed his clothes, and walked out with his equipment on his back.

This guy is completely insane, he has been training for so long in the morning and he is still training.

"Wait, what is this for? Do you want to continue practicing?"

"Why, are you afraid that I will surpass you?"

Qin Yuan was very speechless, and gave him a disdainful glance, "Then I think you are thinking too much, since you are going, then go."

After finishing speaking, Hei Ying strode out with a smug face, because he saw Qin Yuan's deflated appearance, but in fact Qin Yuan just didn't want to argue with him.

"Brother Qin, you don't need to remind that guy in the future. Anyway, his body is his own. He can do whatever he likes."

"This time I have learned the lesson. This is called good heart as a donkey's liver and lungs. Forget it, let him go by himself."

Recently, because of Xu Tianlong's incident and the addition of this black eagle, the entire team has been in a state of mood swings. Love is also to ease everyone's emotions, so I plan to take them to the mountain for training.

It's training, but it's actually taking them to eat roasted hares and soak in hot springs to relax.

Originally, they wanted to call Hei Ying, but this guy didn't appreciate it at all, and kept competing with himself, so Qin Yuan didn't ask him to take the team and set off.

After arriving on the mountain, there was no Black Eagle at last, and everyone was in a better mood.

"Brother Qin, I feel in a good mood without that guy around, so I won't be staring at us like ghosts all day long."

"However, you should pay attention to what you say. In case someone really becomes our teammate, it may be like what Lao Gao said, and we haven't had a break-in yet."

"Come on, with such a person, I don't want to run in with him. He's just a villain."

Qin Yuan smiled helplessly. The emotions of the team members are not very stable now, and no one wants to accept him. He can only guide step by step and slowly.

Everyone ate the roasted hare, and then went to the mountain to soak in the hot spring, which was very comfortable, but when they returned, they found Gao Shiwei standing on the playground with a dark face, waiting for them.

"Brother Qin, why do I feel that something is wrong, Lao Gao's eyes seem to kill us all."

"I think so too. Tell me quickly, did you do anything?"

"Brother Qin, I can swear to God, I didn't do anything, and the few of us have been together all the time, and we didn't do anything."

After Qin Yuan and the others approached, Gao Shiwei took out his whistle and blew it, telling them to gather quickly.

"You guys are really good at enjoying it. Roasting hares and soaking in hot springs, this life is more chic than my own."

Qin Yuan looked puzzled, isn't this normal? In the past, he would take his team members out to relax like this, which was also tacitly approved by Lao Gao!

"Old Gao, what's going on? Why are you so serious?"

"Don't give me a hippie smiley face here, now everyone wants 100 push-ups."

What?

These 100 push-ups are really nothing to everyone, but everyone was punished for no reason.

Halfway through, Gao Shiwei looked inside the opposite building, then squatted down and whispered in Qin Yuan's ear:

"I can't help it. There are people watching from above, so you have to set an example. Do you understand what I mean?"

Qin Yuan understood in an instant that they had been informed by others, and his eyes were about to burst into anger. He hated this kind of informant the most in his life.

But now he has to cooperate with Gao Shiwei, so after finishing 100 push-ups, Gao Shiwei made them run on the playground.

Originally, they came back to watch during dinner time, so they couldn't even eat dinner, and everyone else went to eat, and they were still running.

In this way, it was already completely dark, Gao Shiwei looked at it, and it should be about this time before calling the stop.

Then he took everyone to the cafeteria. There was a special meal for them in the cafeteria. Long Xiaoyun was also there. At this moment, he had a solemn expression on his face.

"Team Gao, they have already left, saying that they have seen the effect."

"Hehe, it's really ironic. I didn't expect there to be such a person in my team. You have been wronged today, but there is nothing you can do about it!"

"Captain Gao, from what you said, don't we usually just train? It's just that I don't understand what's going on."

Only then did Gao Gaowei slowly talk about what happened. It turned out that he wanted them to go to the mountain to roast hares and soak in hot springs. He could file a complaint. The point is that he is not suitable for Gao Shiwei to file a complaint, but directly leapfrogged to the supervisory office above. complaint.

The Supervision Office is well-deserved of its reputation. Generally, special tasks like Qin Yuan's will be interrogated by them. This guy is really too much. He just went to the lower side to report, saying that they are lazy in training and take the lead in eating, drinking and having fun.

Gao Shiwei must have known about this, and he also acquiesced before, because the red blood cell team is also very good. In addition, they perform very dangerous tasks, such a relaxation is really not worth it what.

But Gao Shiwei and the people from the Supervisory Office explained that they didn't listen at all. What they were responsible for was all order, and what they asked for was to abide by the rules.

People have said that they are a special warfare brigade, and they should lead by example, and should not be so lazy in training and treated specially.

So the Supervision Office directly sent people down to supervise, and Gao Shiwei had no choice but to use bitter tricks.

Anyway, punish Qin Yuan and the others first, so that everyone can see the effect, and they will leave after seeing the effect, because such behavior is really nothing to be honest, just a little punishment is enough.

That being said, everyone hated that Black Hawk even more.

"What on earth does this kid want to do? Isn't this a betrayal? It's completely an act of traitor."

"Who knows about him, but I said that this person is unreliable. You can see that he will betray us at this time. He is probably the first one to be a traitor on the battlefield."

Although Long Xiaoyun has never had direct contact with Black Eagle, she has heard about what happened in the past few days.

She knew Gao Shiwei's attitude and valued this black eagle very much, so she also said beside him:

"Captain Gao, this situation is indeed a little too much. Everyone wanted to relax, but he made things so big."

"Maybe he has his own ideas. This person is too serious. In his eyes, he thinks we should be strict with ourselves."

At this time, Gao Shiwei was still speaking for that black eagle, and she instantly understood Qin Yuan.

"Is it true that you want to betray your teammates? Such behavior is really incomprehensible. Anyway, I dare not get along with such teammates."

Gao Shiwei seemed to be convincing himself, and also seemed to be defending this matter.

Chapter 1029: An Ran in the hospital

Because Black Eagle is a well-known soldier in the eastern theater, only he knows how much effort he has put in to invite Black Eagle over.

To be honest, he really didn't want to give up on this soldier, he was indeed outstanding in all aspects of body and hand.

"After all, no one is perfect, everyone has shortcomings, so I hope you all can continue to work together."

When Gao Shiwei said this, he also wanted to give the Black Eagle another chance, because they had only cooperated for a week, and it was normal for them to have estrangements between them.

But this kind of complaint behavior really lowers the impression of others.

Qin Yuan didn't think so, he felt that the first impression this person gave him had been completely broken, and he was really too selfish.

It can be said that he is the most capable in the entire special operations brigade, but he never thought of giving up the lives of any brothers.

Not to mention going to inform, because he really treats everyone as his own, and they really need a certain amount of relaxation when they face such dangerous tasks every day.

He thinks it's all normal, because he doesn't take his players to eat, drink and have fun every day. They are normal people and not robots. It is impossible to train 24 hours a day.

What the Black Hawk did completely annoyed the other players.

Because of this incident, Qin Yuan was the captain after all. In addition to leading the team to punish him, he also wrote an inspection and prepared to report to the whole team. Gao Shiwei called him to the office.

Gao Shiwei was actually quite angry about this matter, mainly because of the matter that Black Eagle leapfrogged to report.

But he couldn't help it. After all, what people said was indeed a rule. As the commander of the entire brigade, he couldn't indulge his subordinates.

When Li Erniu and the others returned to the dormitory, they saw Hei Ying lying on the bed reading a book. He walked over and said very seriously: "Have you forgotten the rules of the recruits? You can't lie on the bed. It's against the rules like you."

"They said that during the examination, they didn't usually say that people are not allowed to lie down. Besides, what's your business if I sleep in my bed?"

"Don't you like to abide by the rules? Then let's abide by them carefully. See if your standards are still qualified?"

Hei Ying didn't even get angry, and threw the book on the bed directly.

"Let me tell you, you kid is aiming at me, but you are just a defeated opponent. What's your name here?"

This sentence completely irritated Li Erniu, without further ado, he rushed forward and punched Hei Ying in the face, Hei Ying was not to be outdone, and the two fought again.

In the end, the two were pulled away, and Hei Ying was still cursing, Li Erniu gave him a blank look.

"You don't like to sue, so now you have the guts to sue, to sue me for beating you."

"Hehe, I'm too lazy to argue with you."

He Chenguang patted Li Erniu on the shoulder, "Forget it, you really need to change your temper, don't be so impulsive, he is our comrade-in-arms no matter what, do you know who will be affected by such a move? Not only Just you, our entire team and Brother Qin will be implicated."

After calming down, Li Erniu understood. After all, Hei Ying likes to sue them again. Maybe he will sue them again, which will be troublesome.

In addition, after Qin Yuan went out to review, it happened that there was something wrong with An Ran's inspection. She wanted to review it again, so she called Qin Yuan to ask if he had time. Recently, she was busy with training and did not have any missions, so He also took two days off.

When Qin Yuan saw An Ran, he saw that An Ran's stomach was slightly swollen. It has been more than six months now. After seeing An Ran, Qin Yuan felt full of happiness.

The feeling of being a father is really different. He never thought about it before, but now he is even thinking about the future of his children.

The two of them went to the hospital together for an examination. Fortunately, it was just a false alarm and there was nothing serious about it.

After all, Qin Yuan has the ability of a genius doctor, so it is not impossible to investigate, he asked An Ran with a smile.

"Do you prefer a daughter or a son?"

"How come you can see it, the doctors don't even tell you."

"Of course, I think we're ready for the little dress."

An Ran was very happy. She always liked little girls and always wanted to have a daughter, but she didn't expect it to be a girl.

The two of them went to the mother and baby shop hand in hand, and bought a lot of things along the way. Qin Yuan was eager to buy everything back, but An Ran couldn't control it anymore. He even bought clothes for his two-year-old child. Don't be in a hurry.

Mainly in the back, he doesn't know how long it will take to see him again, he hopes that when the child is born, he can be by his side, at least to witness the birth of the child.

The two-day vacation was over in a hurry, and the main thing was to take An Ran for a prenatal checkup, and after eating with her, he still had to continue with the training here.

The relationship between Black Hawk and the players is not very good now, but everyone still has to train together. After all, Gao Shiwei is very optimistic about Black Hawk.

His other aspects are indeed excellent, there is no problem in training, and his ability is relatively outstanding.

Moreover, Hei Ying is the only one in Qin Yuan who is not worthy of merit. This guy is relying on his own brute strength, and he is practicing extra every day, trying to catch up with everyone's progress.

Anyway, there was no problem in the subsequent training, so Gao Shiwei decided to let Black Hawk officially join the red blood cell team.

In fact, Qin Yuan also opposed this decision, but it was useless at all. The main decision was made by Gao Shiwei.

In addition, Qin Zhengyang still hasn't trained yet, three months is too short, and there are not three months yet.

However, Qin Yuan has also thought about other aspects. They can still form another special warfare team now, so they can add Qin Zhengyang to it. Although they are not in the same team as themselves, they can still be under their own supervision.

Regarding this matter, he also talked to Qin Zhengyang, Qin Zhengyang is a sensible kid, he can understand very well, as long as he can join the army, he can do it no matter where he is.

Deng Jiuguang and the others are very satisfied with Qin Zhengyang. Now this guy has been practicing for a while, and he has become dark and strong.

Now that the special warfare team here has been established and the number of places has been determined, Qin Yuan did not hesitate to treat them equally. He began to add merit points to everyone, and then listed a training plan to improve everyone.

What he has to do now is to build this team into the strongest elite team. After adding merit points in this way, their mental state is completely different. Acquired 10,000 merit points.

Their various levels have reached their respective peaks, especially He Chenguang, whose current sniper level can even catch up with Qin Yuan.

It's just that the Blackhawks speak very little, and they rarely talk to the players, except for normal communication during training.

Everyone slowly accepted that apart from his indifference, this guy is also good in other aspects, not to mention his ability, which will drag them down.

They also continued to complete the task as before, Qin Yuan still had to collect merit points, this time he almost used up all the merit points and he had to continue to earn back the rest.

Moreover, Gao Shiwei also told Qin Yuan that there will be an international special forces competition in the second half of the year, and the best special warfare team will be selected, which will be ranked in the world.

Qin Yuan is very interested in this game, so he can't wait to strengthen the abilities of the various players.

They also began to carry out the task slowly at the later stage, if they were willing to calculate An Ran's expected date of delivery, if he did not make a mistake in the calculation, she would give birth next week, so far, they have not had any tasks to go out.

An Ran is still working until now, she said that there is a hospital in the team anyway, and it will be fine to transfer directly to the military hospital when the time comes, so it doesn't need to be so troublesome.

Long Xiaoyun took Qin Zhengyang to visit her a few times, An Ran was in good condition, Qin Zhengyang was very happy, he was going to have a little niece soon.

Originally, Qin Yuan thought that there would be no more tasks, but when An Ran was about to give birth, they suddenly received an urgent task.

But fortunately, this task is only carried out in the country, and there is no need to go abroad, so Qin Yuan thinks that he should be able to catch up, because there is no movement from Anda.

It was only when Qin Yuan and the others came to the mission location that they realized it was a hospital. Qin Yuan felt uneasy in his heart.

What happened was that there was a bank near the hospital. After being robbed by four robbers, they fled crazily.

Just in time for the police to patrol nearby, after some pursuit, these gangsters had nowhere to go, so they simply rushed into the hospital to take hostages, trying to find a way to escape.

The police have surrounded the place for a whole morning, and they have not been able to find a suitable opportunity. They wanted to rush in, but they were worried that the hostages would be injured, so they contacted the Special Operations Brigade and asked them to send snipers to cooperate.

After Qin Yuan came to the scene and looked at the situation, he arranged for He Chenguang to be at the gate, find a suitable sniper spot, and act as a sniper there.

"Chen Guang, you'll be right there later, if there's anything unusual, shoot right away."

"Wait, I disagree."

Qin Yuan turned his head to look at Hei Ying, why is this guy the captain himself, or he is the captain? Every time he talks about assigning tasks, he has objections.

"If you have any comments, wait until the mission is over. I am the captain, and all commands and actions must be obeyed by me."

"Hehe, you do this every time. Use your identity as the captain to overwhelm me. Let me tell you, sooner or later I will surpass you."

"What time is it now? You still have to say these irrelevant words, we are on a mission now."

Qin Yuan was really furious. Could it be that this guy still doesn't understand the situation?

"That's why I said that I should be the sniper. Why do you let me be yours every time? It's too unfair."

The people in the special police team next to them were a little embarrassed, but they didn't expect that there would be internal strife in their special police team.

There is no point in arguing like this any longer. In the end, He Chenguang gave in and let him be the sniper. Anyway, his sniper level is comparable to his own.

Wang Yanbing was very angry, "Chen Guang, why are you letting this kid down? I think he's just looking for trouble for nothing. It's really too much."

"Then what can we do? Besides, wouldn't it be good for me to cooperate with you? Let me back you up, so don't worry."

"If you say that, then I can accept it. Forget it. I don't want to argue with him. I'll talk about it after the mission is over."

Qin Yuan didn't want to say anything more, and now he just wanted to quickly rescue the hostages inside.

The time in it was too long, and the robbers lost their patience, and kept urging them to meet their request quickly. Their request was to have the helicopter come to the top floor.

The police have been delaying the opportunity to see if they can find an opportunity, and then rushed in quietly.

In the end, because it was already time for lunch, the negotiator, taking advantage of the meal delivery time, planned to let Qin Yuan and the others take the opportunity to sneak over.

Qin Yuan and the others are looking at the map of the hospital at the moment. The obstetrics department is located on the first floor. There are three doctors and four patients kidnapped inside.

The specific identity information is not clear, because it was too confusing at the time.

Qin Yuan looked at the map and planned to take advantage of the food delivery time to let the food delivery staff try to attract their attention, and then they walked in from the side.

As for the Black Eagle's position, it would be better. When Qin Yuan and the others make a move, or when the food delivery staff can attract them, he will shoot when he finds a suitable opportunity.

Everything was ready, Qin Yuan and the others were ready to go. The food delivery staff were walking slowly with two big bags of rice, but unexpectedly, there were gangsters' voices coming from inside.

"Wait for the food delivery person, you put the food on the floor, and I'll ask someone to come out and get it."

This guy is too cunning, Qin Yuan and the others can only retreat quietly, mainly because the location of their hospital is really awkward, this is an old building, and there is only one way to get in and out.

These gangsters not only had control knives, but also an earthen shotgun. Qin Yuan and the others kept watching in the corner until a familiar figure came out to get food.

It turned out to be safe even if you covered your stomach!

What's going on here, everyone is staring, why is An Ran in this hospital? Shouldn't he be in a military hospital?

At this moment, An Ran knew that there were snipers outside, but the gangsters inside also had guns, and they chose to only make five comparisons quietly towards the outside when they turned around.

She meant that there were five gangsters, because they had been reporting that there were four before, but she didn't expect a fifth person to appear now.

Qin Yuan couldn't care so much anymore, he wanted to charge in alone, and with his speed, he would definitely be able to save An Ran, just like the hostage inside.

At this time, the policeman next to him said with a serious face: "Captain Qin, can you stop messing around and listen to our plan first, so many people inside know that it will be dangerous for everyone if you rush in like this. "

Chapter 1030: Black Hawk's Unauthorized Action

Qin Yuan also said very seriously: "I know, it is precisely because I know that I said that I will go alone, the goal of the whole team is too big!"

Regardless of whether An Ran is inside or not, Qin Yuan will make such a choice. According to the current situation, he can only enter through this entrance.

Choosing single-person action is the best plan. Finally, after their continuous negotiation, the captain of the special police brigade agreed to this plan.

"I can agree, but what do you think is your success rate alone."

"hundred percent!"

Qin Yuan wasn't talking big. When he knew that An Ran was also kidnapped inside, he made a decision to kill all those people.

He can definitely achieve the speed alone, and on the other hand, it is really not easy to be discovered.

The black eagle behind snorted coldly in the headset, "Hehe, it's really time for you to show your personal heroism again."

This guy is like this again, He Chenguang couldn't help but want to go up and beat him this time, it's like a dog can't spit out ivory, everyone knows that Qin Yuan is for everyone's benefit.

In this way, not only can the hostage be rescued, but the other party also has a homemade shotgun, which is quite dangerous. Qin Yuan is not a personal hero at all, and is really thinking about the team members.

Every time there is any dangerous task, he is the first one. Qin Yuan doesn't want to pay attention to it at the moment, he can't be affected by these things now.

Qin Yuan changed the equipment on his body just to better hide his figure, so he chose the safest way to go downstairs, so as to avoid the sight of the gangsters.

Everything was going according to plan, but what everyone didn't expect was that Black Hawk suddenly acted without authorization. According to the previous plan, they were on standby, because after Qingyuan entered, to be honest, they were no longer needed.

Hei Ying has always been dissatisfied with Qin Yuan in his heart. Although he was defeated by him before, he always held his breath in his heart and felt that he needed to prove himself for a certain period of time.

So in many subsequent missions, he has said this, but he was directly rejected by Qin Yuan, and he did not expect him to give up.

And at such a critical moment, Qin Yuan felt that the mission should be the most important, especially when the opponent still had weapons.

However, when they saw An Ran making that gesture, they all misjudged it. They thought that An Ran was talking about five people. In fact, An Ran made an explosion gesture later, just because time was too tight.

So everyone didn't see that there were indeed only four of them, but they also made a bomb, which is now tied to the hostage. These guys are completely ready for everything.

On An Ran's side, it was because it was indeed the expected date of delivery. Of course, the baby hadn't moved. The military hospital did it, and it turned out that there was no problem.

Because the delivery period is approaching, An Ran's place is considered to be on vacation. She originally went out to buy things, but later she thought that she was going to the Maternity and Children's Hospital anyway, so she might as well go in for a checkup to see what was going on.

Unexpectedly, she encountered the hostage-taking incident by bandits. At that time, everyone else ran outside, but because of her responsibility, she walked in the direction of the bandits without hesitation.

Because she knew that if she was inside, she could cooperate with people outside, and the chances of successfully rescuing the hostages would be much higher.

At this moment, Qin Yuan has been suppressing a wave of anger in his heart. He is trying to adjust his emotions. Now that An Ran is pregnant and still being hijacked by those gangsters.

It was his lover and children inside, so Qin Yuan was very worried that his emotions would lose control.

At this time, Wang Yanbing turned his head to look at Black Eagle, because it had been a long time since he heard this guy complaining through the headset, and this guy was chattering non-stop before.

"I'm going, where did this kid go? Why did he suddenly disappear?"

At this time, the captain of the special police brigade ran over, "What's the matter with you? Are there two plans that you didn't tell us? Why are two people dispatched?"

what!

Everyone followed the SWAT captain with a look of surprise, only then did they realize that Hei Ying was actually huddled in the corner, trying to get in from the front door.

Wang Yanbing clenched his fists, this guy was completely sabotaging their plan.

"What on earth is this guy trying to do? Why is Brother Qin not sure about our position? What is he thinking?"

"This bastard, he really wants to ruin the plan. If something happens to my sister-in-law, I will never let him go."

Everyone has no choice but to notify in the headset.

"Black Eagle, what are you doing? Come back quickly."

"Quickly withdraw, stop messing around, and obey the captain's orders."

Unexpectedly, after Hei Ying heard this, he dropped the goose and sold it. He was very impatient and made a very unfriendly gesture at them!

He was eager to prove himself. Since Qin Yuan didn't even dare to enter from here, then he went in from here, isn't it just to rescue the hostages? His speed will be faster.

At this moment, Qin Yuan had already arrived at the second floor. His speed was so fast that he could hear the soft cries of the hostages inside.

But he also heard their discussion in the headset, what is going on with this black eagle!

But the situation was urgent, he could only speed up and rescue the hostages before Black Eagle was discovered.

However, something unexpected happened to everyone. Hei Ying was spotted from the front door, and the gangster fired a shot outside regardless of the danger.

However, because it is a homemade shotgun, although its power is not great, it still caused panic.

The gangsters inside were very emotionally broken, and they were also very afraid of this situation, which meant that the police were going to break in by force.

"What are you doing? If you take one step forward, I will kill the hostages, and at worst, we will die together."

The people outside were very nervous when they heard it. He Chenguang's eyes were already filled with anger.

At this moment, they only hoped that Black Eagle would have self-knowledge and retreat quickly, but they didn't expect him to shoot inward rashly.

Heiyin is very confident in his marksmanship. He did hit the gangster who shot inside, but it also stimulated the gangster inside.

It all happened so suddenly.

After the gangster fell down, suddenly a gangster grabbed a figure and dragged it to the window, standing in front of them swaggeringly.

"What are you doing? You have been forcing us. If this is the case, we will die together. Let's say goodbye to this building!"

What does it mean? At this critical moment, Qin Yuan jumped down from his position on the second floor without the slightest hesitation, and broke open the window in an instant.

He jumped into the room and saw the situation. His speed was very fast, and the flying knife flew out. Before the gangster could finish his sentence, he was immediately dealt with by Qin Yuan's flying knife. In an instant, people outside also rushed in.

Qin Yuan ran forward and saw that An Ran was strapped with a bomb, and An Ran was very nervous at the moment, she was already feeling faint labor pains, and it was estimated that the child was about to be born, but she did not expect to encounter such a situation.

"Qin Yuan... child, it seems that the child is about to be born, and I feel a great pain in my stomach."

Just after An Ran finished speaking, the amniotic fluid broke unexpectedly. At this critical moment, Qin Yuan could only speed up.

He had to finish dismantling the bomb quickly. When Wang Yanbing came up, he punched Heiying in the face.

The gangsters inside had all been hit on the head and died on the spot, but if it wasn't for Qin Yuan's speed just now, everyone inside them would be in danger.

"What the **** are you doing, bastard? You almost killed everyone just now."

"It's not that you are afraid. When I shot just now, you should come up together."

"You lunatic, you know that you shot them and stimulated them, so what if we all come up, don't you care about the life of the hostages?"

So far, Heihu still thinks that he is very reasonable. He and He Chenguang wrestled together, and the people next to him hurriedly pulled them away.

Qin Yuan yelled, "Stop it all! Get out, don't you see what I'm doing now?"

The surroundings were instantly quiet. After all, Qin Yuan is dismantling bombs, so he must not be disturbed.

An Ran's stomach hurt more and more, she gritted her teeth, trying to keep herself still, the pain and tension made her hands tremble slightly.

"An Ran, you trust me, I will definitely rescue you and the child, don't worry."

"I believe you!"

Qin Yuan was also very nervous. He had dismantled such a bomb countless times, but to be honest, he was really a little scared when it was placed on An Ran.

The people at the scene didn't dare to show their anger. Qin Yuan made up his mind to reduce the wires on the bomb. Time stopped in an instant, and everyone breathed a sigh of relief.

The nearby medical staff also rushed up, and everyone hurriedly sent An Ran to the operating table.

"Hurry up and get out of the way, the child's head has already been seen."

The hostages next to them were terrified, after all, they were shot and bombed.

Qin Yuan looked at An Ran nervously, before he had time to talk to An Ran, she had already been pushed into the operating room.

The rest of the special police began to clean up the scene, and the captain of the special police brigade rushed over and praised Qin Yuan non-stop, "Captain Qin has to say, it depends on you, you are so fast, the gangsters didn't even react. It's done, it's great, it's great!"

"It's what we should do."

At this moment, Qin Yuan's thoughts were all on An Ran's side, and he didn't bother to answer what the special police captain said, but the special police captain said again,

"It's just that when you act next time, I think it's better to make arrangements, otherwise it will be really difficult to explain this situation again."

Qin Yuan knew what he meant. It was the first time Qin Yuan encountered such a sudden action. After all, his teammates had never disobeyed his orders, because they all chose to believe in him unconditionally, only this black eagle!

Now he is not in the mood to talk about those things with Black Eagle, he only hopes that An Ran will be safe.

Time passed by, Qin Yuan was very disturbed in the corridor, he didn't know what was going on in the operating room.

The big movement just now might not scare An Ran. It is also important to know that pregnant women are emotional. He is worried about any danger.

The members of the red blood cell team were all in the corridor, and everyone was very quiet, waiting with Qin Yuan together, and more than half an hour passed like this, and the doctor came out from inside.

Followed by a nurse, she held the baby in her hands, "Anran's family, the baby has come out, it's a girl, born at 13:52, weight..."

The rest of Qin Yuan could no longer take care of him, and when he heard him, he hurried forward and asked, "Nurse, please tell me how your lord is doing, can you come out now?"

"Why are you in such a hurry? People usually come to see their children first. Don't worry, adults will come out soon."

Hearing this, Qin Yuan was completely relieved. He took the child, and the team members surrounded him. The child was small, and he opened his eyes to look around.

"Brother Qin, this child's eyes are too similar to yours. Congratulations, there is an extra little princess."

"Fortunately, it's really great that the mother and daughter are safe. I don't know why I want to cry so much at this moment."

Wang Yanbing gave Li Erniu a blank look Don't cry, let our daughter laugh at that time, let me explain first, this is my daughter. "

"It seems that the few of us are happy to be fathers. Don't worry, some of us will be godfathers to ensure the safety of this child's life."

Several people were discussing enthusiastically outside. Qin Yuan was completely immersed in the child. To be honest, he had never imagined that he had a child before. At this moment, his mood was really complicated.

What others said was true, he really felt it at this moment, even if his daughter wanted stars now, he could go to the sky and really pick them off for her.

At this time, An Ran was also pushed out, Qin Yuan handed the child to He Chenguang, He Chenguang was in a daze, he didn't know how to hold a child at all!

"An Ran, thank you for your hard work!"

At this moment, An Ran is still a little weak after giving birth, "It's not hard to talk about my own child, as long as the child is healthy."

Then Qin Yuan followed An Ran back to the ward, and at this moment his attention was completely attracted by An Ran.

Completely ignoring it, He Chenguang, who was still holding the child, said, "Look, your father and your mother are two heartless people who just left you behind. Fortunately, you still have a godfather."

Several people laughed loudly from behind, but the laughter was so loud that the little girl was so frightened that she cried.

The nurse took the child and gave them a white look, "You guys are big and thick, how can you hold a child like this, and your voice is so loud, it is easy to scare the child."

Several people quickly apologized with a smile, and then took the child back to the ward together.

The lively scene here was in stark contrast to the Black Hawk outside. This guy simply sat in the car outside and waited for them. He was not interested in these things, but now he was reflecting on his actions.
