

Special Soldier 1031

Chapter 1031: I can't send it away now

He is not reflecting on his previous behavior, but reflecting on why those players did not come to help him.

He still stubbornly believes that in that situation, if everyone rushed in with him, the following things would not happen.

And he felt that Qin Yuan was responsible for everything. He felt that Qin Yuan was just showing off his personal heroism, and everything was dominated by him.

After An Ran's parents came, Qin Yuan was ready to lead the team back, because he hadn't had a vacation yet, and he would discuss it with Gao Shiwei first when he went back.

It's just that An Ran asked Qin Yuan not to tell his parents about the situation just now. After all, if her parents knew about the dangerous situation just now, even though she was safe now, they would still be worried to some extent.

Qin Yuan gave her a reproachful look, "You still know the danger, but you don't. The moment I saw you, I couldn't believe my eyes."

"I didn't expect that Captain Qin could worry about me."

An Ran was still teasing Qin Yuan here, the ward was full of laughter, discussing the child's name, mainly because she was too busy before, many things piled up, and these things hadn't been considered yet.

After all, it is the first child, so Qin Yuan still wants An Ran to make the decision and see what name she likes.

Ever since scaring the child outside the ward, Li Erniu and the others have changed their previous style, talking in a low voice inside the ward.

Watching the time go by, Qin Yuan had to take the team back, but An Ran's parents didn't mind, after all, they could understand their work in exchange for personal care.

It's just that after leaving the ward, Qin Yuan had a gloomy face.

Wang Yanbing originally wanted to tease a few words, but seeing his captain's appearance, he didn't dare to say anything more for a moment.

After a few people came out, they saw the black eagle sitting in the car, and they were very unhappy at the sight of this guy.

"I really don't know how long you are going to delay. It has been an hour since we returned to the team."

It's this kind of attitude again, and I haven't settled with him for the previous things, "I said, can you show some respect, don't you know what happened? Is there any human touch?"

"Hehe, I don't know what human feelings are. I only know that you have violated the regulations. If I can't go back alone, I won't wait for you. Our regulations are like this. You have changed the rules because of this, and delayed a Hour."

This guy is really indifferent, he has no human touch, he has to follow the rules in everything, including the usual training with his teammates, he has to strive for the first place.

For the red blood cell team, everyone is his opponent, especially Qin Yuan. He came in hoping to defeat Qin Yuan.

Qin Yuan looked at him coldly, if it wasn't because he broke the plan just now, he might not have made a decision so quickly, but it also disrupted his schedule.

Fortunately, I reacted quickly. If I was slower, the consequences of those gangsters pressing the explosive device would be unimaginable, and this guy doesn't know how to repent, so now he is blaming everyone.

"Black Eagle, I just want to ask, why did you come to our Special Operations Brigade from the Eastern Theater? Don't you know what our significance is?"

"Of course I know that my purpose is very simple. It is to prove myself. I am better than you. In addition, you, a group of teammates, have violated the regulations time and time again. I am really disappointed."

The words are not speculative, and Qin Yuan has completely understood the deep meaning of these words now, this guy is completely reckless.

He didn't want to talk too much with him, so he called the team and set off together.

Sure enough, when the guy who had just arrived at the brigade saw Gao Shiwei, he went up to report and first sued Qin Yuan and the others.

He also emphasized that the task had been completed before, mainly because of their personal affairs, they were delayed for more than an hour before returning to the team.

But he ignored the friendship between Gao Shiwei and the others, and Gao Shiwei didn't like to get angry in front of him, but felt that this person had too many things.

Gao Shiwei is indeed the commander of the special warfare brigade, and he needs to maintain the order and rules that should be there, but he is also a humane person.

He has heard about the things over there, so he can't leave it to others for an hour, besides, Qin Yuan and the others have consulted so many dangerous missions before, sometimes it is really hard to say, the tolerance that should be given is still must have.

However, in order to prevent this kid from going to the next level to file a complaint like last time, Gao Shiwei still gave Qin Yuan and the others a small punishment and asked them to go cross-country with heavy loads.

After many years of cooperation, Gao Shiwei got on the off-road vehicle directly and shouted loudly: "Everyone, except the Black Eagle, all of you will be punished and go off-road for ten kilometers. Let's start now."

The smile on the corner of Hei Ying's mouth after hearing this was exactly what he wanted to achieve. As a result, he had already made a plan. If Gao Shiwei didn't deal with it, he would definitely report it to the higher authorities, because he couldn't get used to this kind of behavior the most. Deliberately inclusive.

In fact, after Gao Shiwei went out, he held a meeting for everyone, and he also heard about the rescue operation this time.

The entire red blood cell team members were very dissatisfied.

"Team Gao is not like we like to speak ill of others behind their backs, but if you look at the disobedience of orders at the scene, our captain said him, and he is still justified."

"That's right, and it almost hurt. This operation failed. Instead, he said that it was because of our problem that we didn't cooperate. He, isn't this just messing around?"

Gao Shiwei also felt a headache when he heard the complaints from the team members. He didn't expect that the person he had found after so much painstaking efforts was still a hot potato. Even if he wanted to give it away, he had no other choice.

The main reason is that this Black Hawk is too serious, everyone thinks there is no way, and more importantly, he has never regarded this team as his comrades-in-arms, and they all regarded them as opponents.

Qin Yuan also had a dignified face. To be honest, he was quite optimistic about Black Eagle before, because his strength itself is really good, and his foundation is also very good.

"Captain Gao, as the captain, I'm really serious about discussing this issue with you. I'm very worried about carrying out the mission later, because he put the whole team in danger."

Because Qin Yuan felt that they would not dare to hand over their backs to such a person. All he could think about was the task, and he would do anything to complete the task.

Although they are indeed to perform tasks, sometimes they still have to consider practical issues.

Gao Shiwei was also very conflicted, "I know all the truths you said, but the problem is that people can't be sent away now. I finally invited them here from the Eastern Theater, how can I just leave?"

Qin Yuan thought that this was just an opportunity, "I have a way. Do you remember the person I mentioned to you before? Now he is not enough to train at the sea training ground, let them have a competition."

"You brat is now playing with me in the secret trick, right? I didn't allow you to bring it before, so you are training secretly now."

"Captain Gao, don't you think this is just right? I made second-hand preparations. The main reason is that even if a person is capable, he and we are not of the same mind, which is also very scary."

Qin Yuan also focused on An Ran's problem, "Captain Gao, let me tell you the truth, if something really happened to An Ran today, I might lose my mind, and I will never let him go."

Speaking of this, Qin Yuan's eyes revealed a trace of ferocity, after all, it was his lover and his child.

In the end, Gao Shiwei agreed. After all, Black Eagle is also very strong, so he naturally knows that he must speak with his strength.

"I can promise you this, but do you think the person you are looking for can defeat him?"

"I still have a certain degree of confidence, after all, the eyes of the person I value will not be too bad."

In this way, the few people went back after the discussion. Hei Ying was lying in the dormitory at the moment, and was very happy to see the few people coming in with tired faces.

Anyway, he always felt relieved in his heart, saving himself from watching these guys arrogantly every day.

But he was also completely isolated by the people in the group, no one talked to him, even if he deliberately raised the topic, no one answered.

In this way, the next day Qin Yuan went to the sea training ground to look for Qin Zhengyang. After a few months of seeing each other, Qin Zhengyang had changed a lot.

The most important thing is his eyes. His eyes have become very firm, and after such a long period of exercise, his body has grown a lot.

He was very happy to see Qin Yuan. Qin Yuan had also told him before that he might be allowed to join other special forces members, and he had no opinion.

"Brother Qin, can I participate in the selection now? Uncle Deng told me that even if we have this relationship, I still have to participate in the selection. I will definitely not embarrass you."

"It's good that you have this awareness, but the current plan has changed. You still have the opportunity to join my special operations team. You just want to compete with one person. Do you have this information?"

When Liu Xiaoshan next to him heard it, he immediately asked, "Qin Yuan, is the person you asked him to compete with Black Eagle?"

"Huh? Old Liu, why do you know this person?"

You must know that Qin Yuan didn't mention it much before, he just said that a team member came from their side.

Liu Xiaoshan snorted coldly, how could he not know about this person, the Marine Corps and the people from the eastern theater had conducted a cooperative drill together before.

That black eagle was very arrogant, not only humiliated Deng Jiuguang face to face, but also used insidious tricks to directly defeat Liu Xiaoshan.

Unexpectedly, there is such a relationship between them. It seems that the reputation of this black eagle is not very good.

Liu Xiaoshan knew Hei Ying very well. He was a cruel man. To be honest, he felt that this man was a war machine, but he didn't have any emotions at all.

"Do you know? At that time, he and his master were going to compete together, mainly to compete for the king of fighting in the team. As a result, this guy didn't hesitate at all, and severely injured his master. His master retired that year."

"It's this guy's style. The reason why I let Qin Zhengyang participate in the competition is because I want Zhengyang to beat him and kick him out of our team."

Qin Yuan felt that Deng Jiuguang and the others were not outsiders, so he told them everything that happened before.

After Deng Jiuguang heard it, he immediately made a decision. They had fought against this black eagle before, and they knew the specific moves.

It can be used as a reference for Qin Zhengyang. In addition to Qin Zhengyang's recent devil training in the past few months, he is already very good.

Even when Qin Zhengyang and Zhang Chong fought, sometimes Zhang Chong would be hit by him.

Qin Yuan is still quite satisfied with this result, it seems that he can add a little merit point to him, so that he can defeat Black Eagle more confidently.

It's not that Qin Yuan has selfish intentions, but that he really dare not keep such a teammate.

Qin Yuan doesn't have many points left now, only more than 10,000 points, all of which he added to Qin Zhengyang's fighting.

But in order not to be seen by Deng Jiuguang and the others, after all, he has improved so much in a short period of time in fighting, and he still has a good name, and he took Qin Zhengyang to train for two days.

He can't stay longer at the sea training ground. When he left, Balang was considered a master of fighting' He also fought with Qin Zhengyang. Unexpectedly, Qin Zhengyang's speed and strength had risen. Lang didn't pay attention, and was directly knocked down to the ground.

Seeing this situation, Deng Jiuguang felt that he would definitely be able to defeat Black Eagle, because Qin Zhengyang's speed can be said to be the fastest among them.

"Qin Yuan, don't worry, within a week, I will definitely explain all the moves clearly. What Zhengyang says to him is absolutely fine."

Since this is the case, Qin Yuan is relieved. As for other aspects, Gao Shiwei has already said, and he will talk about these things. After all, as the captain of the special warfare brigade, it would be better for him to talk about these things.

So when Black Eagle came to Gao Shiwei's office, this guy still looked arrogant.

Gao Shiwei was not too polite with him, and told him all the problems reported by the team members recently, mainly because this person did not have any sense of unity and empathy.

I didn't expect this guy to say a word, can make people half dead.

"I think it's entirely because they have a problem. Isn't it because I sued them several times that they talk about me like this? Is this interesting?"

"Black Eagle, I came to talk to you mainly to solve the problem, not to make your conflicts deepen. You must know that the special operations team is not like a single-person operation. You have to consider the entire team."

"I know this, but their strength doesn't match mine, so what should I consider?"

Gao Shiwei also shook his head, why didn't he find this guy so conceited before? There was really no other way now, and in the end he simply said straight to the point that according to his situation, he was not suitable to be in the Special Operations Brigade.

Hei Ying was very angry when he heard it, "You said it is not suitable, so why can you veto all my efforts."

Chapter 1032: The Blackhawks lost!

This guy is now completely reckless, and Gao Shiwei regrets that he has invited an uncle.

He understands Qin Yuan's situation very well, especially what happened today. If he leads the team as the captain, then Qin Yuan can't get rid of any problems in the whole team.

The main thing is to make your own way in disobeying orders on the battlefield, which is the most dangerous thing.

Otherwise, what else does the captain need to do? The guy was completely unaware of his attitude.

Gao Shiwei was also a little angry. After all, he was also taken into account that he was invited by the Eastern War Zone himself, because in order to invite him to save a lot of face, he said a lot of good things. This guy's attitude completely angered him. he.

"Black Eagle, let me tell you, your attitude is very undesirable. You disobeyed orders on the spot. What do you think you are? We are a special operations brigade here, not some bandits."

Gao Shiwei was already angry, he slapped the table and immediately got angry. You must know that a person with such strong ability as Qin Yuan has never dared to challenge himself. He never thought that this brat would dare to challenge himself here.

Hei Ying didn't expect Gao Shiwei to be so angry, and he was stunned for a while.

"Team Gao...I, I also want to complete the task, you should know me, I am not that kind of person at all."

"Now I don't want to listen to your explanations. You should think about the whole thing today, and after you go back, write me a 500-word inspection!"

Although he agreed to write the inspection, it can still be seen that he is very unconvinced.

Gao Shiwei shook his head helplessly, he didn't know what to do with this guy? It is obvious that the ability is so strong, but why do the thoughts go like this and can't turn the corner?

They are a special operations team, not a place that needs any personal heroism. He keeps saying that Qin Yuan has always been there for personal heroism, but the fact is that he is disobeying orders by himself.

And if you want to say strong, anyone from the red blood cell team can be compared with him.

Gao Shiwei also considered this point. After all, if the ability is not strong, it will be very difficult to enter their group.

And Gao Shiwei also considered giving him face, he didn't have to read the inspection in front of the whole brigade, but just asked him to get up and read the inspection when they were holding a meeting for their group.

In the end, this guy really didn't give face. When he wanted to check, Qin Yuan, as the captain, must have the obligation to remind him of what he didn't do well. Unexpectedly, he rejected the suggestion Qin Yuan gave him on the spot.

"Let me tell you, don't pretend to be a good person here, isn't it because you are complaining behind your back, otherwise I will do this?"

When Qin Yuan heard this, he was also furious, "Isn't this your usual style of complaining behind your back? Now you have learned to bite back. Although you wrote the inspection, you didn't realize the slightest mistake."

Gao Shiwei originally wanted to give him one last chance, and it is acceptable if he knows his mistakes and can correct them, but it is useless to look at it like this.

"Black Hawk, I'm really disappointed in you. I don't think your situation is suitable for a special operations team, and it's not suitable for us to fight in a group."

"why!"

Hei Ying also understood that this meant driving him away, and he was not happy anymore, after all, he was called here from the eastern war zone before, and now he was sent back in despair.

What is this, he is trying to save face, if he goes back from the special warfare brigade now, wouldn't it be too embarrassing, everyone knows that he can't get along in the special warfare brigade.

"Until now, you have not realized the slightest mistake of yours. This is the greatest ignorance!"

"I don't care what you say, how did I get in in the first place, even if you want me to go now, you have to convince me to go!"

What Qin Yuan waited for was his words, "I know that you are very aggressive and strong. Indeed, if I compare with you, it would seem a bit too bullying, so this time you will compete with the new team members you want to join. Compare!"

Hei Ying felt that although what Qin Yuan said earlier was not pleasant, the latter sentence was very important.

A new team member also wants to fight with him. Looking around, he doesn't have any opponents in the entire eastern theater. If he was selected here together, then he is not afraid at all.

"Okay, I have no problem, I will accompany you at any time, but if the selected person is not as strong as me, then I will be embarrassed."

"what do you mean?"

"And what do you mean? Isn't it obvious that you did this? This is obviously a joint effort against me, so don't blame me for reporting these things to the superiors."

Li Erniu couldn't bear it anymore, and rushed forward to beat him up, but was pulled down by He Chenguang next to him.

Gao Shiwei even felt that this was shooting himself in the foot and causing so many troubles.

In this way, this meeting broke up unhappy, and everyone was very unhappy, and the conflict between Black Hawk and the players became deeper and deeper.

He is very conceited now, he just feels that everyone is targeting him, especially regarding his disobedience in the last mission, he feels nothing wrong.

He even said that it was because he felt that the captain was wrong, so he would disobey, which is simply to say a set of fallacies.

Now that Black Eagle has already agreed, Qin Yuan also went to the sea training ground to pick up Qin Zhengyang, this time even the senior four were a little impressed.

He remembered that when Qin Yuan picked up the child at the beginning, the child's eyes were full of vigilance, but now it is completely different.

"Is this child one of the few you brought back before? It seems that he is the oldest, right?"

"Yes, how's it going? It's changed a lot now. Look at his eyes. Anyway, Zhengyang is someone we know all about. The person who knows is better than that black shadow. I can guarantee this."

Qin Zhengyang also walked forward with a smile and saluted a standard military salute, "Hello, Captain Gao!"

Everyone was very happy about Qin Zhengyang's arrival, only the black eagle in the distance stared at Qin Zhengyang coldly, secretly determined to defeat him, and when he saw Qin Zhengyang, he was even more disdainful.

He looked like a brat at first glance. If he was defeated by such a person, he would simply be unable to hold his head up.

However, Li Erniu was also a little worried. After all, Qin Zhengyang had only trained for three or four months. Whether he could defeat the Black Eagle was really too difficult.

Qin Yuan is still confident about this point. After all, his meritorious service is not a joke. He can greatly shorten the training time.

After adding meritorious service points, it usually takes at least two or three years to train special forces like this, but he completed the target in only three or four months.

Just like that, Qin Zhengyang had already arrived, and Hei Ying walked over with his arms folded, looking at him with disdain.

"It turns out that you are a new member of the Special Forces team. I said you think highly of me, and this kid deserves to be compared to me."

Qin Zhengyang was a little unconvinced, but after all, Qin Yuan didn't say anything, so he just stood beside him and ignored his provocation, which Qin Yuan was very satisfied with.

"A good boy is very good. He can withstand other people's provocations. This is a good point of determination. Continue to maintain it."

Hei Ying didn't expect to become like this, and he was given a negative teaching material.

"Okay, stop talking nonsense, let's do it all! But even if you lose, don't blame me for bullying him, this is what you agreed before."

"Hehe, don't be so confident. Whoever loses will win. It's not certain. If you lose at that time, then fulfill the agreement."

"Don't worry, I will never lose."

When I come to the training ground in the future, the first thing is the weight-bearing training based on warm-up activities. This kind of weight-bearing cross-country ratio is endurance and speed.

These are trivial things to Qin Zhengyang. In the sea training ground, his current speed is comparable to them, and he can even surpass them.

So at the beginning, everyone was still a little worried, but when Qin Zhengyang started to run, everyone was stunned. This kid's speed is too fast, and he is very stable.

Hei Ying didn't take it seriously, he just started running fast now, so wait for the ten kilometers, and see how this kid persists.

What everyone didn't expect was that the speed behind Qin Zhengyang has been maintained at this level. He is simply another copy of Qin Yuan.

The corner of Qin Yuan's mouth turned upwards. This is what he wanted, and now Qin Zhengyang is not enough, he will continue to add merit points to him later, this kid has a pretty good background.

In this way, without any accidents, in the first competition between Qin Zhengyang and Black Eagle, Qin Zhengyang was better in terms of speed in the ten-kilometer cross-country with a load.

When Black Eagle reached the finish line, he couldn't believe it. The kid kept holding his breath, and his speed was so fast that he passed him directly, which he couldn't catch up with at all.

He was very reconciled, thinking that it might be aimed at him deliberately, because compared to his stamina, he was indeed lacking.

But following the next 800 meters and 1,000 meters of sniping, only the 800 meters were shot, which was comparable to Qin Zhengyang.

In the 1,000-meter sniper, Qin Zhengyang achieved better results than him. Although he didn't want to admit it, this is the fact that Qin Zhengyang is better than him.

Gao Shiwei was very optimistic about this match. Before that, he was sweating for Qin Zhengyang, but looking at it like this, this kid is really strong.

"Qin Yuan, I said, why are you hiding it? I didn't expect there to be such a good soldier by your side!"

"Captain Gao, that's because you are not authentic. I told you at the beginning that I wanted to introduce him, but you strongly opposed it."

Gao Shiwei smiled awkwardly. If he had known earlier, he would have agreed that Qin Zhengyang could have avoided these troubles when he came in. Now it is really a situation where it is easy to invite God and it is difficult to send God away.

It's just that when it came to the fighting competition later, everyone was still very nervous. After all, Li Erniu had been defeated by him before, anyway, Black Hawk's moves were very fierce.

Li Erniu also specifically explained that when Li Erniu was fighting with him before, he could be regarded as holding back some strength, because their fighting was not a killer move, but the Black Eagle was different. Used a killer move.

Qin Zhengyang did not let them down either. During the fight, the black eagle kept provoking him. He felt that this was his last chance. He lost in other events. This is her strongest event, so she must not lose face.

"Boy, today I will teach you what is real fighting."

"I have several masters who have taught me. I don't know if your tricks are better than theirs."

Qin Zhengyang is relatively modest in comparison.

Hei Ying snorted coldly, and then the first move came directly to a killer move, and the scissors kicked Qin Zhengyang's neck.

Qin Zhengyang's reaction was also relatively quick, he directly dodged his move with a low waist, and then hit him in the chest with all strength, but was blocked by the black eagle.

He Chenguang frowned, this kid is too exaggerated, "I said how much he wants to win, and he will use this ultimate move when dealing with his teammates."

"Chen Guang, what you said is not authentic. Since when did they treat us as comrades-in-arms, they have always said that we are all rivals."

"If all the ultimate moves were used, I guess he would have died a long time ago, especially when he was competing with Brother Qin."

Qin Yuan smiled at the side and said nothing, he believed in Qin Zhengyang's ability' To be honest, Black Eagle's fighting ability is also very strong, Qin Zhengyang had a hard time fighting this battle, so he had to consume Black Eagle first Physical fitness, because in terms of physical fitness, Qin Zhengyang is even better.

Fighting skills still require the accumulation of experience. Although Qin Yuan has strengthened his fighting skills, some aspects still need to be learned from actual combat.

When Black Hawk was thrown to the ground, he couldn't believe that he had lost.

He was very unconvinced and stood up again, but Qin Yuan stepped forward directly.

"Okay, you have lost now, there is no need to continue!"

"Why! It was an accident just now, and the situation doesn't count as a chance to do it again."

"Do you think there will be unexpected situations in the battlefield? If you lose, you lose. Why make so many excuses for yourself?"

Hei Ying was really unconvinced and rushed towards Qin Zhengyang after he finished speaking. How could Qin Yuan let him control him with one hand? He grabbed his shoulder and threw him flying on the spot.

He Yin felt the powerful force, he didn't expect to be thrown away like a piece of paper, and looked at Qin Yuan in surprise.

At this moment, Qin Yuan's aura had completely exploded. In any case, Qin Zhengyang could be regarded as his younger brother, so at that moment, Black Eagle could feel the murderous aura in his eyes.

"If you lose, you lose! It's really embarrassing to find so many excuses!"

Hei Ying lay on the ground decadently. He lost completely this time, and he couldn't figure out what was going on. Could it be that he didn't practice hard enough?

And he is obviously very strong, why does everyone want to target him like this, no one recognizes him.

"I know that you are all jealous of me, because you are worried that I will surpass you one day."

Chapter 1033: 1st mission

Although he was defeated, he was still very unconvinced. On the contrary, Qin Zhengyang was very aggressive and walked over to pull him up, but this guy didn't appreciate it and threw his hand away.

Li Erniu gave him a blank look, this kid is not worthy of sympathy at all, he has no idea what he is.

"Forget it, Zhengyang hurry over here, don't talk to him, the more you talk to him, the more energetic you will be."

Hei Ying was very upset when he was defeated, and always felt that she was being calculated, but she couldn't figure out what kind of inside story there was.

Qin Zhengyang was not favored by Gao Shiwei before. He did not expect that his growth rate would be so fast in a short period of time.

He couldn't help but look at the person in front of him, to be precise, this was a childish child, just like when he saw Qin Yuan.

The defeat on Black Hawk's side was already doomed, but this guy didn't accept his fate, and now he was caught in his own emotions, repeatedly feeling that they had joined forces to frame him.

Black Hawk's ability is indeed very strong, but his character is not suitable for team combat, and he has no human touch. Even if he is alone as a hostage, sometimes for missions, he can do whatever it takes.

Such people are actually the scariest.

No matter what he thinks, the fact is already doomed, and in their special operations team, it is based on strength, and only those with strong speaking ability will be able to stay in the special operations team.

Maybe Black Hawk was the first player to enter the red blood cell team and then was eliminated. Generally, it is enough to return to the original team in such a situation, but Black Hawk is so strong that he simply went through the discharge formalities.

This is something that Gao Shiwei didn't even think of. Apart from these things, Black Hawk is still relatively strong. If he returns to the Eastern Theater to undertake training tasks, or continues to maintain his previous style there, He is also the strongest existence.

It's just that his xinxing is too high, and he feels that it is meaningless to come out of here in despair.

In comparison, he didn't want to do such a shameful thing. Instead of doing this, he might as well just retire from the army.

Everyone was very surprised that Black Hawk was discharged from the army. Seeing that the car was about to leave their special operations team, Qin Yuan chased after him.

Hei Ying still felt strange, he looked at the person in front of him coldly.

"What do you mean now? There's no need to pretend like this in front of me. It's really boring."

"No matter what you think, I still hope that you can change your mentality. Is it so difficult to admit the strength of others? And you still have ambitions with us after retiring from the army, but in my opinion, it's just childish behavior."

Hei Ying clenched his fists, "Did you catch up on purpose just to mock me? Congratulations, your goal has been achieved."

"It's not necessary for you, but I think your ability is relatively strong. If you leave the army like this, I don't know if you are escaping or what you want to do. I really look down on you."

"Do you think I need you to look up to me? Your trick is to surround me and won't give you a chance to mock me again."

Qin Yuan knew that with Hei Ying's character, it was difficult to reason with him normally, so he could only use this aggressive method, but he didn't expect that the stimulation was too much, this guy completely misunderstood what he meant.

After being stimulated like this, he felt that Qin Yuan was here to find fault on purpose, so he was even more sure of his mentality of retiring from the army. It was absolutely impossible for him to let such a person have the opportunity to laugh at him.

Qin Yuan sighed silently, he had already said what he should say, since he couldn't listen to anything, there was nothing he could do.

And now he should also consider Qin Zhengyang's problem. Now that Qin Zhengyang has completely entered the red blood cell team, he has to hurry up and get in touch with other teammates, and they have to prepare for other tasks formally.

In the afternoon, Qin Yuan came to the training ground. This was Qin Zhengyang's first time in the special warfare brigade. Facing Qin Yuan like this, his image was completely different from his usual image.

At this moment, the aura of a strong man in him was completely exposed.

Standing in the team, Qin Zhengyang didn't say much, just silently listening to Qin Yuan's introduction of the situation in the team.

Because Gao Shiwei has experienced the Black Hawk before, he is a little worried now. The main reason is that Qin Zhengyang is also relatively young, and with the three or four months of training, is it really all right?

So from the very beginning, he has been watching from the sidelines of the training field. The red blood cell team has always been his greatest hope. Nothing will happen. The team members are also very important.

Unexpectedly, after a week of running-in, he found that Qin Zhengyang was better than he imagined, and Qin Zhengyang quickly adapted to the life of the special warfare team.

After all, he has to receive this kind of training every day in the sea training ground, and everyone looks at him with admiration, especially before He Chenguang, he always thought that Qin Zhengyang was just a child

But at this moment, he always felt that Qin Zhengyang was another copy of Qin Yuan.

For Qin Yuan, the most important thing now is to complete the task and obtain merit points, because they will participate in the international special forces selection competition in the second half of the year.

This is different from the past. In the past, the combat ability of the individual was more tested, and more prominent characters could be selected from the special operations team. But this year, the rules have been completely broken, and the strength of the team is more important.

To put it bluntly, it means the integrity of the entire team to complete the mission, after all, they are fighting in a team.

At present, Qin Yuan doesn't have many merit points, so now he needs to increase his merit points by completing tasks. He is very interested in this special forces competition, after all, he has many opponents.

In addition, the Alpha team, the Thunder commando team, and the Black Panther team from the US side are all tough opponents. They are all preparing for the selection of the strongest special team this time.

This selection is of great significance. If they can stand out from this selection, they will truly go to the world and be able to achieve their own ranking in the world.

Qin Zhengyang was on the training ground, and spent another month or so getting along with the team members. Everyone got along very well, and the team members were also very satisfied with Qin Zhengyang, so it was their first time to go out on a mission.

Qin Zhengyang was very nervous when he came out to perform the mission for the first time, but he was also looking forward to it. This was also the time for him to prove himself.

After all, he is a newcomer, so the team members take good care of him, and they are all familiar people.

This first mission is to go abroad, and they want to arrest criminals who have fled abroad.

Although Qin Zhengyang has trained many times before, and he has also trained in such a forest, but at this moment he is facing real guns and live ammunition. To be honest, he is really nervous.

"Zhengyang, you and Erniu are in charge of guarding the rear, and we will be the front assault."

After all, at the moment when he was facing his first kill, Qin Yuan still didn't want him to do it, and planned to let him get used to it for a while, first to see what the team members did.

Li Erniu understood what Qin Yuan meant in an instant, and he patted his chest to assure that he was absolutely fine.

To put it bluntly, he was actually protecting Qin Zhengyang.

This group of criminals not only possessed guns, but they were also a group of desperadoes. These criminals had countless lives on their hands.

Faced with such a heinous crime, the order from their superiors was to kill them directly, because these characters were too dangerous.

They had already been arrested at that time, but during the arrest process, they strongly resisted and killed two guards at that time.

Relying on his strong sense of smell and hearing, Qin Yuan quickly started tracking, and the person was right in front.

This is Qin Zhengyang's first time in love. He doesn't know how these teammates can completely trust Qin Yuan. He can say that he hasn't heard anything, but Qin Yuan already has a goal.

Fifteen minutes later, he also heard movement from ahead. It seemed that they were tracking them, but at the same time, the people in front also spotted them.

Just when Qin Zhengyang was still wondering, a golden bullet hit him directly.

Sooner or later, Li Erniu tore him off, the bullet hit the tree trunk behind him, and he instantly had a feeling of narrow escape, which was simply too exciting.

Immediately afterwards, before he could make any other reactions, the sound of bullets and bullets rang out, and countless bullets rushed towards him.

At this time, he couldn't see Qin Yuan's figure anymore, because Qin Yuan had already run out, and his speed was very fast.

The whole team cooperated very tacitly, and everyone launched an attack formation. He and Li Erniu were in charge of the end of the team, as long as they tried their best to keep up with the team.

Qin Zhengyang had lingering fears in his heart, but at the same time he felt that his ability was still not enough, "Brother Er Niu, why do I feel that I am still not good enough, it seems to be holding you back."

"Zhengyang, don't think so. After all, you have just arrived, and you need to adapt to many things. When we first arrived, we were not as good as you, and the team couldn't keep up."

With Li Erniu's comfort, Qin Zhengyang felt much better. At this moment, he kept searching for Qin Yuan's figure. Qin Yuan was like the ruler of the night in the jungle.

Qin Yuan's speed was very fast, and he directly solved the two criminals in front of him as soon as he made a move.

When those militants saw their accomplices fall one by one, they panicked for a moment and fled forward as hard as they could, but everything was under Qin Yuan's control.

The formation they formed could completely encircle them without letting any criminals go.

Qin Zhengyang and Li Erniu were also very fast. They caught up with the team ahead, and he could already see the scene ahead.

At this time, a criminal suddenly raised his hands in a gesture of surrender.

Qin Zhengyang could only smell the strong smell of blood around him. They were wearing night vision goggles now, so he could clearly see the movement of the person in front of him, and he clearly felt the panic of that person.

Although he knew that these people were all criminals, when he saw that person raised his hand and surrendered, he still couldn't bear it.

"Brother Qin, do we want to take this man back? Is he considered our prisoner?"

Qin Yuan shook his head, and before the person opposite could react, he shot him directly between the eyebrows, which completely shocked Qin Zhengyang.

With the death of the last criminal, their mission ended, and a system notification sounded in Qin Yuan's mind.

"Ding! The host killed nine criminals without casualties, and got 30,000 merit points!"

This merit value matches the difficulty of his task, and it is also related to the crime itself. These criminals are all vicious, so this kind of reward is quite generous.

At this moment, Qin Zhengyang was facing death directly. He stared blankly at Qin Yuan. He didn't understand why Qin Yuan wanted to shoot directly after this person surrendered.

"Brother Qin...he, he wants to live, I saw the look in his eyes just now..."

Qin Zhengyang is still too kind, but no matter what, he is still a child, he is too young, and some things still have to be experienced.

Qin Yuan patted him on the shoulder, then led him to the corpse, pushed him lightly with his foot, and suddenly found a bomb wrapped around the man's waist.

"First of all, our task is to kill them. Secondly, look at this situation. If I don't make a quick shot, then the few of us present will go to heaven."

Qin Yuan also said it in this joking way later, but Qin Zhengyang's heart was already shocked, he didn't expect it to be like this.

Just now he clearly saw that person had the consciousness to survive, but he didn't expect that he wanted to drag them to die together.

To be honest, he really misunderstood Qin Yuan just now, thinking that Qin Yuan was too cold-blooded when performing the task, but seeing this scene, he felt his scalp go numb instantly.

Qin Yuan's approach is correct. No wonder his teammates trust him so much, because he can guarantee everyone's safety at critical moments.

Qin Zhengyang couldn't figure out how Qin Yuan found out that he had a bomb on him. He looked at Qin Yuan with even more admiration, and secretly vowed to become a powerful person like him.

Generally speaking, Qin Yuan is quite satisfied with Qin Zhengyang's performance today, at least this is the first time he has faced death.

After going back, because An Ran was on maternity leave recently, Qin Yuan specially took two days off to go back and see An Ran.

After all, now that they have children, Gao Shiwei agreed, and they are not so unkind.

What Qin Yuan didn't expect was that he got into a taxi, and after talking about his destination, he was about to close his eyes and rest his mind, and take a good rest. But after driving for more than ten minutes, Qin Yuan heard the movement outside and felt a little Something is wrong.

What's wrong with this route?

"Master, why do the places I mentioned and the route you drive do not match?"

"Brother, you probably don't know. The road is being built recently, so that side has been blocked, so we can only take a detour here."

This reason sounds okay, and Qin Yuan's strength is placed there, so he doesn't have any worries.

Just like that, the car drove for another twenty minutes, and this time it completely deviated from the route. Qin Yuan stared coldly at the driver beside him.

Chapter 1034: system changes

"Who are you and where do you want to take me?"

"Mr. Qin, my husband has invited me, and I hope you can cooperate..."

Before the man finished speaking, Qin Yuan snatched the steering wheel, followed by a cold dagger, and paid off the man's throat.

The man in the driver's seat was completely stunned, because the steering wheel completely deviated and went out, but Qin Yuan pulled the steering wheel back very quickly with great strength.

The man still wanted to grab the steering wheel desperately, but the dagger pressed deeper and deeper, and blood was already seeping out.

"Ahem...you!"

"Don't talk so much nonsense, who is it? I'm not interested in the person you're talking about. If you want to invite me, this is how you treat guests. Get lost!"

Originally, he wanted to go to Anran sometime today, but when the plan was disrupted, he was very upset and asked the driver to stop by the side of the road, and he wanted to get off. Unexpectedly, at this time, four or five cars surrounded him.

Qin Yuan snorted coldly, he wanted to see who it was that made such a big scene.

Besides, these people are too confident, and they can hurt themselves with just these few bastards.

A dozen men in black suits got out of the car, and a man with a mustache stepped forward with a smile.

"Mr. Qin, our husband has asked you to return it. I hope you can give me face."

"Who is your husband? I'm not interested, but now I'm angry."

The man may not be aware of the danger of the people in front of him. After all, there are so many thugs around him. He didn't want to hurt Qin Yuan with these people, but just wanted to control him and bring him back.

"Mr. Qin, I still hope you don't..."

Before he finished talking about the man's words, he felt himself flying into the air, because Qin Yuan had already made a move and punched him in the abdomen, and the man flew out in an instant.

Such a fast punch, the man was taken aback.

"What are you still doing? Hurry up!"

The thug next to him didn't hesitate, and rushed up. At this time, a man ran over, trying to help the man up.

"Brother Dong, but the boss said that we must not hurt him, what should we do?"

"Nonsense, look at his strength, can we hurt him?"

When the man said this, a shrewd shot shot between his eyes. Although he said that the person in front of him did beat him, but with so many people, he was capable of bringing Qin Yuan back.

If the boss asks at that time, just find an excuse to prevaricate, after all, Qin Yuan doesn't want to go back with them.

But there is one thing to say, just now Qin Yuan's boxing was too fast and powerful, he is also considered a half-trainer, he did not expect to suffer from it.

But the next second he couldn't laugh anymore, because all the thugs he had gone earlier were all overthrown by Qin Yuan.

This speed is simply too fast! Then Qin Yuan walked to the car blocking him and dragged the driver out.

The driver didn't dare to resist. After all, he saw so many thugs, and he dealt with them directly.

"What should Brother Dong do now? We can't stop him at all. How can we go back and explain to the boss?"

"How else can I explain? To be honest, we are indeed no match for him. I didn't expect this kid to be so strong. It seems that we can only think of other ways."

After Brother Dong finished speaking, he took a meaningful look at the car that was about to disappear. No wonder the boss wanted this person. This person's ability is really strong.

Qin Yuan was holding back his anger. He had already negotiated with An Ran about all the planned things, but he had to be late again.

The main reason is that today is the child's 100th day, so Qin Yuan asked for leave and agreed to go together. An Ran from the photo studio has been waiting for more than half an hour.

Fortunately, An Ran didn't mind, and knew about Qin Yuan's work. Normally, he wouldn't be late. After all, a job like theirs pays great attention to the concept of time.

When Qin Yuan came downstairs to An Ran's house, he saw her holding the baby waiting below, so he quickly trotted there.

It has been a long time since I saw my child, but I saw it once on the day of birth.

Now that the child has fully grown, it is no longer like the last time I saw it for the first time, the wrinkled brows are more like An Ran, and the words at the corners of the mouth are more like Qin Yuan.

Maybe it was because of the long waiting time, the child kept crying, Qin Yuan saw that An Ran was working hard, so he quickly took the child and kept apologizing.

"An Ran, I'm sorry, I was delayed by something on the way."

Looking at the crying child in his arms with a flushed face, Qin Yuan also felt a little strange. At this moment, the feeling of being a father came again.

Unexpectedly, this child is quite smart. After being hugged by Qin Yuan like this, he stopped crying. He kept looking at him with his **** eyes.

Seeing her own child, An Ran laughed out loud.

"This girl is a ghost, you really won't cry when you hug her."

Speaking of this, Qin Yuan remembered that the child's name had not been found yet, because An Ran had thought of several names before, and she wanted Qin Yuan to make a decision.

"What do you think of the names I gave you before?"

"That's the simpler one at the beginning. It's called Qin Ran with my last name and your first name."

An Ran nodded, but said with some embarrassment: "Qin Yuan, my parents have some opinions, but I still want to discuss it with you."

In fact, An Ran was quite conflicted, his parents wanted the child to follow their surname, mainly because Qin Yuan was too special, and they were worried about retaliation.

After all, there are many cases like this in their brigade. After the child is born, he won't even have **** with his mother, and they are all anonymous.

But Qin Yuan said very confidently: "Don't worry, I can definitely protect you with my ability, and with my name, who would dare to touch her."

"However, if the child wants to be reasonable, then maybe we have to reconsider the name. After all, we can't have two An Ran."

Qin Yuan jokingly said that he didn't seem to mind, An Ran smiled.

"Forget it, let's call it Qin Ran. No matter what, not only you will protect her, but I will also protect her."

And behind this child are not only the two of them, but also Long Xiaoyun, including the members of the red blood cell team, so Qin Yuan is not worried about these problems.

What happened in the morning had no effect on Qin Yuan at all, and now his eyes were completely attracted by his own daughter.

The three of them took a family portrait and had dinner together, just like an ordinary family, but Qin Yuan looked at the child in his arms and sighed deeply.

"What's the matter? Why are you doing well? It feels like you're not in such a high mood suddenly."

"It's not because of this gadget. I thought I was not afraid of anything, but later on I found out that I have more and more weaknesses. In addition, I even feel that with the two of us working, I really can't accompany her in the future. "

An Ran is very considerate, she smiled, "Look at what you said, isn't there so many children on Grandma Sun's side? You can let Xiao Ranran be with them, besides, Grandma Sun said it several times , I want to take the child over."

Although she can't get the company of so many parents, but An Ran's parents have so many children from Grandma Sun and Gu Orphanage, so she won't be too lonely growing up.

The time with the children is so fast, Qin Yuan has never felt that the three-day vacation is so short.

He can also be considered to have experienced it. It is really more tiring than training with children. He has to be vigilant at all times. He will cry when he is hungry, and just need a diaper for a while.

Seeing Qin Yuan busy beside me, An Ran thought it was funny, after all, Captain Qin was very powerful on the training ground, and his face did not change when performing tasks.

But at this moment, she read it right, in order to make her daughter happy, she actually lay down on the ground and started barking like a dog.

"Qin Yuan, I said you really don't need it, a 100-day-old child, what does she know, just let her sleep well, don't torment her."

But Qin Yuan looked at his daughter's big eyes blinking, and always felt that she could understand, just to make her happy.

Qin Yuan was about to return to the team the next morning, and he was really very reluctant. This was the first time that he had the idea of not wanting to return to the team.

The child was still asleep, and he touched the child's little face, "The next time I see you, I think you can call me Dad."

Qin Yuan was also very sad when he said this. This is because they really don't have so many holidays, and he will have to prepare for the special forces competition in the second half of the year, so he will only become more and more busy.

Fortunately, An Ran understood very well, told him not to be so pessimistic, even if he couldn't get out, he could take the child to find him, after all, their identities are here.

Qin Yuan smiled, he didn't want to take advantage of any special relationship, let's see it later.

Just returned to the brigade He Chenguang received the letter from the guard, rummaged through it for a while, and then said:

"Brother Qin, here is another letter from you, but it was sent from Jiangcheng, please take a look at you."

Qin Yuan took the letter, he felt strange, this place in Jiangcheng was too strange, he probably didn't have many friends there.

The letter he opened while walking, did not have too many signatures and content on it, it just said,

"Mr. Qin, my daughter Qin Ran is really a good name. I took a look at it from a distance, and my daughter is really cute."

Just this simple sentence, there is also a photo on it, which is a photo of the child when he was born in the hospital.

When it came to the child Qin Yuan clenched his fists, He Chenguang stepped forward to read the contents of the letter, but Qin Yuan was so fast that he immediately hid the letter.

"Brother Qin, what is this thing? It can't be a love letter written to you by a girl you admire. Please show it to me quickly, or I will tell my sister-in-law."

Brother Qin put away his emotions, and then said with a smile: "Stinky boy, I think you may be itchy today, and dare to tease me, go to training quickly."

He Chenguang shook his head, could it be his own illusion just now? To be honest, he clearly felt a murderous aura ignited on Brother Qin.

But now this aura has completely disappeared. Could it be that I was thinking too much?

Brother Qin just didn't want to involve He Chenguang, they didn't want to get them involved in this matter, it was also their own business.

In addition, he vaguely felt that this matter had something to do with the person who came to him that morning.

He just turned them down, and then they got the pictures and the names of the kids, and she wondered how these guys did it.

"Ding! Congratulations to the host for triggering a random mission."

what's going on? Since he has now upgraded to a state where all values have reached the peak, including his current abilities are very strong, the system has not responded for a long time, basically to increase his merit points.

This random mission popped up suddenly, what the **** is it?

"You can only complete the random tasks issued by the system first, and the host's questions can only be answered after the system is upgraded."

Qin Yuan became more and more curious, and then clicked on the query, he wanted to see what this random task was.

"Ding! Find Boss Li in Random Mission 1 and agree to cooperate with him."

Qin Yuan felt that something was getting more and more wrong. This system seemed to be different from before. The previous system only allowed him to recover skills and then provide skills, but now these strange tasks appeared again.

He was hesitating whether to order it, and when he accepted it ' looked at the photo in his hand again.

If he was afraid of anything, he would just add something related to his own child. He absolutely had to investigate clearly. This kind of unclear feeling made him very uncomfortable.

Just like that, he clicked receive directly.

Now that the task has been determined, but who is this boss Li? It is probably related to the group of people who were looking for him before, otherwise the system would not have suddenly issued such a task at this time.

At this time, the emergency assembly whistle sounded.

Qin Yuan could only put away the letter and photo first, and let's talk about the rest.

The emergency they received this time was that suspicious explosives were found in a chemical plant, and they also called a professional EOD team.

But the situation seems to be not as simple as imagined, because the bomb inside seems to belong to a type of special operations.

That's why their team has to deal with them. They are mainly special operations bombs, which are very explosive and destructive. The signs on the outside of the bombs are like this.

So when Qin Yuan and the others arrived, the scene was completely blocked, and even the special police had withdrawn two kilometers away.

The cordon was pulled within a radius of five kilometers.

After Qin Yuan arrived, the head of the detachment in front hurried over to discuss the situation with him.

"Hello, Captain Qin, I'm going to trouble you again this time, because the situation is quite special."

"It's okay, everyone is here for work, what's going on in it?"

"In this chemical factory, what they produce is toxic substances, so there must be no sparks, otherwise our cordon will not be able to be pulled, and now we can only evacuate the crowd as much as possible."

"Since there is a bomb, the bomb disposal team went up to see it. How is the situation?"

Chapter 1035: Approval of special protection

The team leader was also in a dilemma. He said helplessly, "Someone came from them. After looking at the situation, they said they couldn't dismantle it, because the bomb is so special."

For safety's sake, Qin Yuan asked them to evacuate the crowd as much as possible, but he was sure that he could dismantle the bomb.

Qin Yuan was very confident. He went in alone, because the whole factory didn't know if there were such bombs in other places, so he asked the members of the red blood cell team to act separately to check whether there were other bombs.

"Then arrange it like this. I will deal with the leftover bomb first. You must be careful, and there must be no omissions."

At this moment, Qin Yuan looked at Qin Zhengyang who was standing behind the team. If he went alone, he would feel a little worried.

After all, he had just experienced that kind of mission before, and this time it was a bomb again. Maybe there are other dangers inside this chemical plant.

"By the way, Zhengyang, you just follow He Chenguang."

"Ah, Brother Qin, I think I can act on my own, so that we can save time and quickly eliminate other safety hazards."

"Zhengyang, I don't mean to look down on you, it's just that the time has not come yet, you should listen to my arrangement first."

He Chenguang also hurriedly stood up and said: "It's up to Zhengyang. After all, you just came here. I'll take you to get familiar with it first. Don't worry if it's too late. Just trust Brother Qin."

Qin Zhengyang could only nod his head, and just like that, the team entered the chemical plant together, and everyone began to separate.

Qin Yuan came to the room with the bomb, which looked like a production workshop, and there was something in the boiler next to it, emitting an unpleasant smell.

The bomb was very obvious, and it was placed on the conveyor belt. The conveyor belt had stopped at this moment. According to their previous workers, they were carrying large bags of machines on the conveyor belt, and a bomb came out unexpectedly.

So they stopped right then and there, and the conveyor belt called the police right away.

But how did this thing come in? Qin Yuan took a closer look and found that it was a homemade one. This kind of bomb material can be obtained in many places. If you want to investigate, you have no clue.

However, such a bomb was too simple for him. It took less than a minute for Brother Qin to dismantle the bomb directly, and he was relieved.

It was only for a moment that he became vigilant again. Someone was approaching from behind, and he was definitely not a member of the team. He was very familiar with the footsteps of each member.

In order not to accidentally injure, after all, this is not a foreign country, and there are no such terrorists, so he turned over, turned his gun directly, and aimed at the people behind him.

The people behind didn't expect Qin Yuan's speed to be so fast, and they froze in place for a moment.

A man in overalls came in. He stared at Qin Yuan with a blank expression on his face.

This is definitely not an ordinary worker. Qin Yuan can feel the difference in his aura. Such a person has definitely killed people, especially his eyes.

"Who are you? Why are you here?"

"Captain Qin really lives up to his reputation. I admire the speed of his reaction."

"Who are you?"

"It doesn't matter who I am, it's just that the people behind me are interested in you. Our boss really wants to invite Captain Qin to have a cup of tea. As for today's, it's a gift for Captain Qin."

Qin Yuan's speed was very fast, and he rushed directly in front of the man. The man retreated quickly, but he didn't react at all, and was knocked down by Qin Yuan with a punch.

The man was taken aback, the speed was too fast, and his punches were also very heavy.

In an instant, the man was knocked to the ground, and Qin Yuan stepped on his chest.

"Do you know? What I hate the most is being threatened. Is the bomb you threatened me just now, and the previous letter, all the ghosts of you?"

The man was a little surprised. Qin Yuan is indeed very smart, and he thought of all these points.

"Captain Qin, why do you have to fight with me? My boss told me to do this. If you cooperate with us, such a thing will not happen."

"Like I said, I don't like being threatened!"

Especially when his own child was involved, Qin Yuan was very angry and directly forcibly invaded the man's consciousness. The man didn't respond at all and remained motionless on the ground, but Qin Yuan didn't ask any clues. He only knew that the boss behind him was surnamed Li. He doesn't know anything else.

It seems that the person behind the scenes did a very good job of keeping secrets, but at this moment Qin Yuan was completely angered.

He withdrew from consciousness, pulled the man up, and wanted him to take him to find that boss Li.

Unexpectedly, the man's state at this moment is very wrong, the corner of his mouth is drooling, and he looks at himself with a smirk.

What's going on? Qin Yuan still felt strange, he looked at the man, it seemed that he was not pretending.

At this time, Li Erniu also ran over when he heard the movement, he thought something happened to Qin Yuan.

Unexpectedly, when he came in, he saw a man being pinned to the ground by Qin Yuan. He walked over and wanted to ask a question. Unexpectedly, the man pointed at Li Erniu and smirked, clapping his hands while laughing.

"Brother Qin, what's the situation? Where did this kid come in from? Isn't the scene blocked?"

"I do not know either."

Qin Yuan's eyes were stern. He didn't know what happened, but the man became stupid. It may be that he forcibly invaded his consciousness just now, which caused his nerve damage.

There are still many questions, and he didn't have time to ask them. He didn't expect this person to become stupid.

Li Erniu was still on the ground, watching the man in a daze, Qin Yuan could only change the subject, "How is your search going?"

"No problem, they're coming down soon, and they haven't found anything."

In this way, after everyone came down, they all felt very strange when they saw this man. Qin Yuan said that he didn't know, but he suddenly appeared behind him after dismantling it.

While waiting to go out, Qin Yuan handed the man over to the detachment leader and asked him to investigate this man.

At this moment, the man's condition became more serious. He kept clapping his hands and laughing, and couldn't control it at all. The two special policemen next to him could only come over and forcefully hold him up.

At this time, the person in charge of the factory also came.

"Is this person an employee in your factory? Take a good look and verify it, otherwise he may be a criminal suspect."

The person in charge of the factory nodded and took a device. Their employees all checked in for fingerprint authentication. Unexpectedly, after the man tried ten fingers, there was no response.

"This is not our employee, but it's strange why he is wearing our factory clothes."

That seems to be a criminal suspect, they can only take him back first, and Qin Yuan has been staring at the man's back in a daze, he felt that he was too impulsive this time, and directly turned him into a fool.

It's just that he has a lot of things that he hasn't had time to ask. This situation is really too tricky.

On the way back, he didn't say a word, he looked worried, the aura in the car was very low, and no one dared to say anything.

Now that he has a child, he is always impulsive whenever it comes to children.

There is really a lot of fog behind this incident. He doesn't know if this will happen again. These people are obviously targeting him.

In this way, another week passed, and the documents above were all down, if they were to let their representatives participate in the selection of the strongest special operations team in the second half of the year.

Qin Yuan actually considered letting the Wolf Warriors team go before, mainly because he wanted to train them, because now they have also been blessed with merit points, but this time Gao Shiwei said that they were asked to go by name, because they wanted them to go. Come up with grades.

So Qin Yuan and the others also had to make preparations and lead everyone to train every day. In the afternoon, when Li Erniu went to pick up things from his hometown, he found a letter from Qin Yuan.

The letter Qin Yuan opened was still the same as the previous one, with the same handwriting, and it seemed to be that group of people.

"Mr. Qin, your ability is indeed very strong. I didn't expect to turn the subordinates around me into fools. Are you sure you want to start a war with me? If so, then I will accompany you to the end and the game begins."

The matter seemed to be out of his control, Qin Yuan clenched his fists, he just wanted to protect An Ran and the others, but looking at it like this, it probably exceeded expectations.

Seeing that he was in a bad mood, Li Erniu originally wanted to say a few words of concern, but Qin Yuan already showed a murderous look, so he froze in place for a while, not daring to say anything more.

Then Qin Yuan came to the office with the letter, and he applied for the protection of An Ran.

When Gao Shiwei saw this letter, he just felt that it was a bit of a fuss, "Qin Yuan, could it be that you are too nervous, after all, this letter alone can't explain other problems."

"Captain Gao, this isn't the first time this letter has appeared."

Qin Yuan told Gao Shiwei about his previous experience and what happened in the chemical factory that day. He is really worried now, not knowing who is plotting against An Ran and his children.

So he had to make an application, and he had to protect An Ran personally until the person behind this was found out. This feeling made him very uneasy all the time, and he was not sure whether he could complete other tasks under such circumstances.

Gao Shiwei knew it, and he would immediately pay attention to it in the future.

"You boy didn't tell us earlier, when you should have started to find out, you told us, then there will be no such situation."

"After all things like this started, I thought I could handle things by myself, but I really didn't expect that."

"Okay, I get it, I'll transfer you to protect An Ran first, your goals alone won't be too big, so it's okay."

This is definitely no problem, Ruan Ruan didn't plan to bring the entire team with him at first, the goal would be too big, it would be exposed, and it would also affect their training, he was very confident in himself.

Now Qin Zhengyang still needs to get in touch with the team members, because they will participate in the special team selection in the second half of the year.

Qin Yuan didn't tell anyone about this matter, he didn't tell Long Xiaoyun, he just didn't want them to worry.

And Long Xiaoyun always felt that Qin Yuan's state was not right for a while, and now he actually said that he was going to perform some secret mission.

An Ran still had more than ten days of maternity leave and was about to go back. Unexpectedly, Qin Yuan appeared at this time.

"Why are you here again now? Aren't you afraid that Captain Gao will scold you?"

"Hey, don't worry, I've already asked Team Gao for leave. He said we've been working too hard recently, so give me a long vacation."

"It's a long vacation, why didn't I know you had such a saying?"

"Oh, don't worry, Captain Gao has already agreed, what else do you think? Besides, wouldn't it be nice for me to spend more time with you and the child?"

An Ran nodded, it was really good, but she never had a feeling that she couldn't express.

Qin Yuan just didn't want An Ran to worry, after all, it involved children, so he planned to find out the person behind the scenes himself.

The child didn't know what happened, and slept soundly in the crib.

Looking at the child's cute face, Qin Yuan swore secretly that she would never let anyone hurt her child.

Qin Yuan stayed here for two days, but he didn't see any suspicious people, because they can have pictures of their children, which must be close range, but An Ran's vigilance is not low.

An Ran didn't find any problems, Qin Yuan kept thinking about these things, 'The problem was in the photos, how could they get in touch with the child so closely.

"By the way, An Ran, on the day the child was discharged from the hospital, did you take photos?"

"Thanks for remembering it, I wanted to show it to you at the beginning, but you were too busy, so I did take it. Later, we took photos for 100 days, and they were also taken in that studio."

"Oh, but you were in the hospital that day, and they also went there to take pictures?"

"Yes, they all come to provide services, and if we are satisfied, we can go to them to take pictures. I don't think there is any problem."

Qin Yuan quickly played sloppy eyes, "It turns out that's the case. I think the photo is quite cute. Next time our family will go there to take a family portrait."

"I just said seeing how nervous you are, I thought there was something wrong."

Qin Yuan breathed a sigh of relief. Fortunately, An Ran didn't doubt it, but two or three days had passed, but there was no news at all, and he couldn't help feeling a little nervous.

Because Qin Yuan was very happy to come back An Ran, the next day, she proposed to go to the park together.

Qin Yuan didn't want to agree at first, mainly because he was worried that there would be dangers outside, but thinking about sitting around and waiting for death, it was not an option to go down.

He wants to see what the people behind him want to play with him. With him by their side, they will definitely not cause any problems for their mothers.

Qin Yuan tried his best to keep it normal, and didn't let An Ran find out what was going on.

Fortunately, An Ran's attention was on the children, so she didn't have any doubts. This park, which An Ran and Qin Yuan had visited before, was not that big, and there was a small playground inside.

Qin Yuan took photos of them in front of An Ran with the child in his arms. It seemed that the family was very harmonious. At this moment, a cry for help came.

Chapter 1036: sudden clown

The two subconsciously looked in the direction of the cry for help. After all, this was their profession, and they were in the direction of the Ferris wheel. The two quickly rushed over.

After they passed by, they discovered that the Ferris wheel had stopped in mid-air due to a malfunction, and there was a circle around it outside, and then there were staff coming to repair it.

But the more dangerous situation is that there are two children on it, because they are afraid, they keep crying, and one of the children has already leaned out half of his body.

The people below exclaimed, it is normal for the child to find his mother, and there will be fear in the below, no matter how the people below comfort him, the child just won't listen.

An Ran is also a mother now, so it is difficult to understand that kind of emotion. Qin Yuan understood what An Ran meant. He handed the child to An Ran, told him to be careful, and then climbed onto the Ferris wheel with his bare hands.

The staff next to him saw Qin Yuan rushing into the Ferris wheel and yelled loudly, "Hey, what are you doing?"

"It's best for you to cut off the power now, and don't let the car shake in any way. I'll go up and save people now."

Although the staff didn't know the identity of the person in front of him, there seemed to be no way to refute what he said, as if it was an order.

Qin Yuan's speed was very fast, and he climbed onto the Ferris wheel with his bare hands. He had already hugged the crying child just now, and kept comforting the child's emotions. The people below cheered.

It seemed that this was just an accident and there was no danger, Qin Yuan heaved a sigh of relief and picked up the child.

The mother next to her also rushed forward, hugged the child tightly, and kept bowing and apologizing to Qin Yuan.

Then at this moment, Qin Yuan found that An Ran and the child who were standing in the crowd just now had disappeared. What's going on? At that moment he really panicked.

The staff next to him wanted to come forward to thank him, but he pushed him away.

"An Ran! Where are you?"

Qin Yuan kept shouting from below, but there was no response. When he went up, he took a special look to see that An Ran was below, but why did it only take a few minutes?

Then he frantically ran over and grabbed the staff.

"Monitoring room! Where is the monitoring room?"

The staff member looked at the man in front of him, why did he change so much, and pointed in one direction tremblingly.

Qin Yuan ran to the monitoring room without saying anything to the staff inside. He threw his ID on the table and called the monitoring.

The staff didn't dare to say anything, Qin Yuan kept watching the replay of the surveillance, the moment he hugged the child, a man approached An Ran and gave her a box.

From the monitoring, it can be clearly seen that An Ran's expression changed, and then she walked out of the crowd silently.

How is this going? Qin Yuan didn't know, and then he zoomed in on the monitoring system, and only then did he see that if he guessed correctly, there should be a bomb inside the box.

He punched the table directly, and the stainless steel tabletop instantly became uneven, and it was another bomb. What the **** are these **** trying to do.

Time and time again, these **** do this every time, who is behind it, obviously, An Ran knows that it should be the bomb, although he is carrying the child, but there are so many people around, if the bomb is in this place Explosion, the consequences are simply unimaginable.

So she chose to leave the crowd silently, according to the man's instructions.

At this moment, the **** was willing to find a man wearing a clown mask under the monitor, looking at him with a smile on his face.

Still holding a sign in his hand, the game has begun.

"Damn! These bastards!"

Obviously, the man knew that Qin Yuan was watching the surveillance, which was nothing short of naked provocation.

Then the man changed another sign, which pointed to the carousel. Qin Yuan quickly left the monitoring room without the slightest hesitation.

Seeing Qin Yuan leave at this time, the staff inside were relieved and picked up the phone tremblingly. After all, the aura on the man just now was terrifying and full of murderous aura. kill yourself.

After Qin Yuan left, the staff chose to call the police. Although Qin Yuan showed him his ID just now, no one knows what happened.

At this moment, Qin Yuan didn't care so much at all. He had already arrived at the carousel, and An Ran was indeed on it. A box with the child on his back.

The merry-go-round was spinning round and round, and the moment An Ran saw Qin Yuan, she shouted loudly:

"Don't come over, he said, if you come over, he will directly activate the bomb, which is controlled by remote control."

Qin Yuan clenched his fists. He still failed to protect An Ran and put them in danger. He clearly felt that he was careful enough, and it seemed that it was a game from beginning to end.

From the very beginning of the Ferris wheel, even if these people remembered it well, they calculated that he would definitely leave and go up to save people.

These **** bastards, Qin Yuan was very angry at the moment, he looked around and shouted loudly: "Who are you? Don't hide behind, I know you just want to see me, get out quickly, don't hide behind!"

But the scene was empty, without any sound, only Qin Yuan's roar. After the merry-go-round went around twice, the music stopped, and so did it.

Qin Yuan just looked at An Ran like that, and he didn't dare to act rashly now. At this time, An Ran tried cautiously to put the child down, but she couldn't move the box in her hand.

"An Ran, don't worry, what does that bomb look like? Describe it to me."

"This bomb is very special. He presses and places the trigger on both sides. There is a small ball in the middle. I must ensure stability. If the small ball touches either side, it will explode."

It turned out to be like this, no wonder An Ran didn't dare to move it anymore after touching the cardboard box, because this kind of device is very special, it will explode when touched, it should be a liquid bomb inside, and it can also be controlled remotely.

At this moment, the man wearing the clown mask appeared again, but at this moment he was holding another person in his hand.

Qin Yuan noticed that this man had a bomb strapped to his body and wires all over his body, and the man in the clown mask was holding a remote control in his hand.

"Captain Qin, long time no see, but don't worry, this is just a game."

He has never heard this person's voice, but he is wearing a clown mask, is he trying to hide his identity?

"Who are you? I know your goal is me. Now that I have appeared, use me to replace them, whatever you want."

"Hahaha, you want to cooperate with me now, it's too late! Let me tell you, I'm not interested in you now, I just want to let you see, how do you choose between the person you care about the most and this person."

The man seemed a little crazy. He kept pushing and shoving the man with the bomb strapped to his body. The man was very scared, and his voice sounded a little panicked.

He kept begging for mercy, but the clown masked man ignored him and pushed him viciously onto the carousel.

Qin Yuan didn't know what kind of tricks the person in front of him was going to do, and he didn't dare to act rashly. The main reason was that they were too far apart. He was also calculating just now. If he stepped forward to grab the remote control at this time, or threw it Whether the flying knife is in time.

But the masked man was very cautious, he hid behind that person, and then looked at Qin Yuan coldly.

"Now do you want to talk to me?"

"I've always had this thought, I don't know who you are and why are you targeting me, targeting my family."

"That's because you self-righteous guy, you are always so arrogant, what do other people's dreams look like in your eyes? It's just being calculated by you."

What did he mean by saying this, Qin Yuan quickly recalled in his mind, to be honest, he really didn't do anything wrong, let alone anything like the man said.

"I don't know what you mean, but if you want to target me, then attack me directly, and I'll come here now."

"Stop!"

The clown masked man was very excited when he saw Qin Yuan stepping forward, and shouted at him to keep backing away, otherwise he would have to press the remote control.

"I know that your ability is backed up, and then go back, Captain Qin, don't be so anxious, the game is starting now, but the audience hasn't come yet, wait a little longer."

The bastard! Qin Yuan had been planning all along, he wanted to find an opportunity, and then throw his throwing knife, but this masked man knew him very well and kept telling him to back off.

In this position, he couldn't remotely control the masked man's consciousness at all. He tried many ways, but none of them seemed to work.

After a few minutes like this, he heard movement behind him, but he didn't expect it to be the wolf team, and the members of the red blood cell team also came.

How is this going?

The team members also looked puzzled. At this time, the clown laughed loudly in front.

"Good job, now the audience is finally here, and our good show is about to begin. Everyone, let me show you what kind of captain Qin you think is extremely righteous?"

"I'm going to take over his hypocritical mask today. He is an out-and-out villain, a despicable villain."

This person was completely insane, Long Xiaoyun ran over with his team members, he saw An Ran inside, and the child was also inside.

"Don't move, that lunatic has a remote control in his hand, and he has a bomb on him, so why did you come here?"

"This guy reported to the police that he had planted a bomb, but he made a request with the police that all the Wolf Warrior Squad and the Red Blood Cell Squad must be dispatched. We are still thinking about how to find you, but we didn't expect you to be here."

"It's a long story, but now I can't get close to that bastard, or I can definitely get the remote control."

At this moment, the clown interrupted their conversation, "Enough, everyone, now that the audience is seated, the good show is about to begin."

The clown's request was very harsh, he dragged the man and brought her and An Ran together, and then put the wires on An Ran's body.

An Ran was worried about her child, she looked at the clown, "The child is innocent, can you let me replace the child or him, I can stay here."

"Shut up, it's not your turn to speak now."

Qin Zhengyang and the others looked anxiously from the outside. After all, An Ran and the others were inside with bombs strapped to their bodies.

After two minutes, the clown raised his head and looked at the crowd outside, "Today I will let you see what kind of Captain Qin you have in mind, this despicable villain, let me reveal his true face."

Long Xiaoyun analyzed from the side, who is this man? Why keep targeting Qin Yuan.

Qin Zhengyang was a little emotional, "You despicable villain, brother Qin will not be like you said, you bastard!"

"Is it what I said, then you just wait and see."

At that time, the clown suddenly pressed a button, and everyone present was taken aback. Fortunately, it was not the start button of the explosion, but just a countdown.

"Let me tell you this, the two of them, the three of them, are already reduced to one body. It depends on how Captain Qin chooses. You can only save one of the three."

"Hahaha' Tell me about your beloved Captain Qin, who will he save, his child, his lover, or this man!"

The clown was very crazy, he was jumping and laughing beside him, He Chenguang in the distance was always looking for a sniper position, the clown seemed to know that he usually hid behind the two of them.

"Anyway, today I have already held the belief that I must die. Even if you can't save me, it's a big deal that we will die together!"

But what exactly is this guy trying to play? If the bombs were dismantled, Qin Yuan could guarantee that all of them could be dismantled at her speed, so it would be no problem.

"What exactly do you want to do?"

"This game is very simple. It's a multiple-choice question. Captain Qin, you only have three minutes to think about it. Now I will release one person. Who do you choose to release?"

Without the slightest hesitation, Brother Qin and An Ran said almost at the same time, "Let him go!"

This answer surprised the clown, he didn't expect that both of them decided to let the man in front of them go.

This obviously didn't work for the clown, who broke down and yelled behind them.

"No! No! It's not such a choice. This choice makes me very unhappy. Change to another one."

What on earth did this ***** want to do? Qin Yuan clenched his fists, just teasing them.

"You just said that this is our own choice. No matter how many times you choose, I will choose to release the innocent hostage first!"

After all, this incident was caused by the clown against him, and he didn't want to involve innocent people.

"It's really funny. I don't know whether to say you are selfish or selfless. Some people would choose not to save their children."

The clown was thinking about what method he should use. It seemed that he had miscalculated. He thought that Qin Yuan would definitely choose his child.

Chapter 1037: man with the same system

He felt that there was something wrong with his budget, which was not what he imagined, "No, I will give you another chance to choose, and you have to choose another one."

"No matter what you say, this is my choice. I will not bet on my child's life with others, because life is equal."

The clown couldn't believe it when he heard this, his emotions collapsed, and Anran could already see that his state was very wrong behind Anran's back.

Suddenly he stood up and roared loudly, "Who do you think you are, are you really the savior? Let me tell you, you are not unworthy!"

Taking this opportunity, the flying knife in Qin Yuan's hand and the bullets from He Chen's sniper rifle went out almost at the same time.

"Keep alive!"

Qin Yuan's throwing knife was aimed at the clown's wrist, and he was so angry that he shot through his wrist on the spot. The remote control fell to the ground. He Chenguang's sniper rifle

hit his shoulder, but because of the armor-piercing property of the sniper rifle, the clown's shoulder was pierced.

Under the effect of such gravity, the clown flew out in an instant, and Qin Yuan rushed forward, taking the lead to control the clown, and then Long Xiaoyun and the others also came up.

This guy snorted coldly, his eyes were full of death, without any vitality, the next second he wanted to swallow the poison in his mouth, but was kicked on the chin by Long Xiaoyun, and the poison spit out instantly .

"Ahem..."

"Do you think you can catch me like this? Let me tell you, I won't say anything, hahaha! I want you to live in such fear forever. As long as I exist for a day, I will let you live forever Live in this alertness."

Qin Yuan clenched his fists for this bastard's proper threat. He really wanted to kill this **** directly, but after thinking about it, this is this guy's trick, and he just wanted to irritate himself.

Qin Yuan ignored him, squatted down, and carefully checked the bomb in his hand. The man next to him was shaking with fright.

Because of the movement just now, the child kept crying on Anran's back, but Anran didn't dare to move around at will, after all, the box in her hand must be kept stable.

"Qin Yuan, you pick up the child first, and then dismantle the bomb."

"You believe in me, I can do it, and it will be too late if I delay it any longer."

An Ran lowered her head and took a look at Qin Yuan, but she didn't expect that the line would be demolished by Qin Yuan in the next second.

It was so fast, the man next to him was stunned. He thought that bomb disposal was very complicated like a TV show, but he didn't expect it to take only a few seconds to talk.

The clown couldn't believe it even more. He was restrained on the ground and screamed in despair.

"This is absolutely impossible. How could the bomb I designed be dismantled by you so easily! Impossible!"

"For me, nothing is impossible."

In the eyes of outsiders, it looks like speed, but Qin Yuan has already understood the structure of the bomb since he came into contact with it.

Because he also recovered the bomb before, he is now very clear about the internal structure.

He knew exactly which wire should be connected to which side to solve, so he dismantled it directly and easily.

After the bomb was dismantled, An Ran took the child down to calm his emotions, and the three of them hugged each other tightly.

"Did you already know that we will have a dangerous situation, and this person will appear."

An Ran looked at Qin Yuan, because her premonition was unmistakable, plus the conversation between the two just now.

"Sure enough, I still can't lie to you. That's right, because I received some letters before, so I applied with Team Gao to protect you and the child, but I don't want you to worry."

"You guy, you should tell me, let me live with you for a while, look at the situation today, if you tell me, I will be more vigilant."

An Ran complained and punched Qin Yuan in the chest.

At this moment, Qin Zhengyang ran over and interrupted them embarrassedly.

"Well, Brother Qin...Sister Xiaoyun, let you go and have a look. It seems that there is something wrong with that clown."

"Okay, I know."

When Qin Yuan passed by, the clown sat on the ground and looked at Qin Yuan angrily, very unconvinced.

"Who appointed you, and what organization is behind you?"

"I regret it so much. I should have pressed the detonator just now and didn't give you any chance. At worst, everyone will die together."

"Answer my question, who is the organization behind you?"

"Hahaha, you won't get anything from me."

Qin Yuan snorted coldly, and then pressed his hand directly on his head. This time he learned his lesson and did not directly choose to invade, which would damage his brain nerves. In the morning, the situation was the same as last time.

He slowly and directly controlled the clown's consciousness. At this moment, the clown was completely stunned, like a walking dead.

"Who is the person behind you, and who are you?"

"There is no one behind me. I planned it all myself. My name is Zhao Dongming."

Qin Yuan had never heard of this name.

"Why did you choose to attack me and harass my family? What's going on?"

"Because I want to avenge my brother and vent my anger for his unfair treatment. My brother is the best, so I want to fight for him."

How is this going? More involved.

What the clown said next shocked everyone. They didn't expect that the younger brother he was referring to was actually Black Hawk.

This is simply unbelievable. The Black Eagle had just retired before, and such a thing did not expect to happen. Hearing this, Li Erniu clenched his fists.

"I knew that kid had no good intentions. Look at what happened just after quitting. This is too exaggerated. How small-minded this guy is, he chose revenge."

"This is no longer a small-minded issue, but involves other issues. It seems that I have to find it and add it back to ask."

However, Qin Yuan shook his head at this time. He felt that Heiying was not that kind of person. Although this guy was very conceited, he would never do such a thing. It was probably wishful thinking of this person, wanting to avenge his brother.

"Brother Qin, I said that you value brotherhood too much. At this time, you are still thinking about that guy, but he wants to hurt, but sister-in-law and child are crazy!"

"It is precisely because of this that I am sure that the Black Hawk must have nothing to do with this matter."

At this time, Hei Ying also heard the news and rushed over. He pushed aside the crowd outside, and rushed forward to see his brother, yes, interrogating on the ground, but at this moment, because of the consciousness of invasion, his brother did not respond .

"What are you doing? Let go of my brother quickly, it is absolutely impossible for him to do such a thing."

"Your boy is here, and I just told you if you planned it. We still want to find you, so you sent it to our door."

"what?"

Hei Ying had a disbelieving expression on his face. He didn't know what he planned. He just said that his brother was related to some explosion here, so he ran over.

"I don't understand what you're talking about, but my brother would never do such a thing."

"Now that everyone has stolen the money, he just confessed it himself, and you are still defending him, so does this matter have anything to do with you?"

Hei Ying was completely stunned, he didn't expect this to be the case.

In the end, Hei Ying saw what his brother said, but he had no choice but to accept it, and followed everyone into the car in a daze.

He was a very proud and conceited person before, but now his eyes are very complicated.

In the car, he actually raised his head and said sorry to Qin Yuan seriously.

"Qin team, I didn't expect that my brother would actually do such a thing. I'm sorry, we caused you trouble."

Li Erniu seized this opportunity and took the opportunity to attack him, "I tell you, don't think that you are so sincerely apologizing now, but you can also be regarded as a suspect. I will talk about the specific situation when I go back."

"I haven't done some things, so I haven't done them. It's just that I'm really sorry about what happened today."

In this regard, Qin Yuan quite believed him, but when he invaded the clown's consciousness just now, he didn't find anything about the so-called boss, what was going on.

In this way, after they went back, they investigated carefully, and it was true that Black Hawk had nothing to do with this matter, but he couldn't help complaining a few words because he was discharged from the army.

The main thing is to talk about the situation on the Special Forces side, and his brother feels aggrieved on behalf of his younger brother. He always feels that his younger brother is so good, and he retreated after being designed like this.

Qin Yuan felt that such a thing would definitely happen mainly because of their personalities. One was too conceited, the other was too confident in his own brother, thinking that his own brother was the best, and absolutely could not accept denial from others.

The matter here has been investigated to the bottom, but no matter how much Qin Yuan interrogates, he has been completely hypnotized and still has not found any clues.

The man who was made a fool by Qin Yuan last time was indeed Hei Ying, the accomplice sent by his brother to test Qin Yuan, but he did not expect such a thing to happen.

The main reason is that the bombs are all from the same batch, so things are getting more and more strange. Who is behind it, and whether it has anything to do with that Boss Li, and the system has not given any hints so far.

You must know that the task given by the system before was to let you choose to cooperate with Boss Li, but when you met the clown just now, there was no prompt, which meant that he was going in the wrong direction.

It seems that there is another group of people, and this group is the so-called Boss Li.

"System, what's going on here? Have I entered the mission? Is he Boss Li's pawn?"

"To answer the host, the system has limited permissions, so I can only answer that I haven't contacted Boss Li yet."

"What's the use of you, can't you come up with some effective answers? This person should have nothing to do with Boss Li!"

The main reason is that if the person who hurt him, the person who hurt his family has something to do with Boss Li, then don't even think about cooperating, even if it is a broken task of the system, he will never execute it.

The system seems to have sensed Qin Yuan's voice.

"Host, please rest assured that the system will not make wrong judgments. The tasks issued by the system are all carefully decided, and they have nothing to do with each other."

After receiving such an answer, Qin Yuan's heart was relieved, and such words were considered a kind of comfort, but who the boss is here is becoming more and more mysterious.

This time the crisis was resolved, and the team also arranged An Ran's parents in the army's family home, which would also improve safety and security. An Ran's vacation would be over, and her parents would take care of the children.

Just when Qin Yuan came back after delivering An Ran, he saw the familiar vehicle again.

This is the vehicle that stopped him before. Although the system has said that it has nothing to do with it, he still has an extra heart.

It was still a convoy, Qin Yuan got out of the car without the slightest fear, and stared at these people in front of him coldly.

At this time, a man in a blue suit came down, and a thug next to him opened the door for him.

When he saw this person just now, Qin Yuan's system suddenly issued a notification tone.

"Host, the presence of other systems has been detected."

What the hell? Qin Yuan was shocked when he heard the news. He detected other systems' Could it be that the person opposite also has a system?

"Don't worry, the host, the people on the opposite side can also detect us, so you are the same kind of people."

The system's words kept echoing in Qin Yuan's mind. He couldn't calm down for a long time, and so did the person opposite, who was completely in a state of shock.

The two of them glanced at each other and understood instantly. Qin Yuan looked at the confidence in the man's eyes and was even more sure that this guy had a system, otherwise he wouldn't be so calm.

But this place is really not for talking about business, and with so many people around, Boss Li opposite also made a gesture of please.

"Mr. Qin, if you have any questions, we can go back and talk better. I think you can also answer the doubts in my heart."

"That's what I mean."

After Qin Yuan got into the car, he kept asking the system, but the system seemed to be dead, and did not answer any of his questions. Qin Yuan's mind is full of questions now, what is going on?

He won't have a good impression of that person just because the other party has a system, and more importantly, he is completely on guard, which means that the strength of the other party and him should be comparable, after all, the system is really against the sky.

So he really couldn't figure it out. When he carefully recalled that he just started the first generation system, he felt very strange.

How many people are bound by such a system?

He really didn't know what was going on behind the scenes. In the car, he looked at the man sitting next to him, trying to control him with his consciousness.

But the man just smiled indifferently, "Mr. Qin, I have already given me a hint here, so I am already on alert, you don't need to waste your energy like this."

Sure enough, Qin Yuan tried to control his consciousness, but there was no way to invade, as if there was a barrier.

Chapter 1038: Lee Kang's Confidentiality

"Mr. Qin, I actually have the same doubts. It's just that it's inconvenient to talk about some things here. It's better for us to sit down and talk about it. But don't worry, I don't think I have any intention of hurting you."

Qin Yuan snorted coldly, hurting himself, he didn't have enough capital, and then a knife was close to the man's throat.

The man frowned tightly. His speed was indeed faster than his own. He should have mastered other skills. Although they all have systems, the recovery of skills is different.

"I don't care about the rest. I just want to ask about the safety of my family. Did you mess up and threaten me behind my back?"

The man spread his hands helplessly, "Mr. Qin, there is no need for you to be so wary of me. I sent someone to look for you that day. After we failed to negotiate, I didn't look for you anymore. It seems that I didn't. Offend you."

Qin Yuan kept looking into the man's eyes when he was talking. Although he couldn't control his consciousness, Qin Yuan knew that this guy wasn't lying.

It seemed that the people who were looking for him for the first time were under the man's subordinates, and those behind him were all the ghosts of Black Eagle's brother.

If this is the case, Qin Yuan can still accept it, otherwise, even if the system wants to cooperate by himself, it is absolutely impossible, because his family is his bottom line.

"I do have a lot of questions, so let's talk about it."

The man smiled and didn't speak any more. The driver in front was also very calm. Qin Yuan took out the knife and took it back, the driver didn't make any movement.

"Your people have seen big scenes. In this kind of scene, I put a knife on your neck, and I didn't panic at all."

"Because I have told them that they will not interfere in my affairs. This is absolute obedience."

Qin Yuan couldn't understand this kind of obedience. The knife was on his boss's neck, and he didn't respond in the slightest. It was controlled by him, probably because he was worried about being seen out of other secrets.

After more than an hour, the car came to a villa in a detour, to be precise, it was an independent manor.

There were quite a few men in black clothes patrolling outside. After the car drove in, someone opened the car door for them.

The man made a gesture of please, Qin Yuan didn't say anything more, and strode in with his hands behind his back.

The two came to a room. The setting of this room was quite unique and antique. It could be seen that men's preferences were still old-fashioned.

"This is a distinguished guest, serve the best tea."

"Yes!"

After explaining his subordinates, the man opposite also sat down and introduced himself.

"Mr. Qin, my name is Li Kang, and I am the same person as you. When I learned about your deeds, I started to investigate you. I hope you don't mind, because I am really curious."

"The same person? It's really interesting, I actually received a reminder here."

"That's right, I didn't expect that Qin Xian's system is already more advanced than mine, and he can even know the warnings and reminders. I didn't respond here, but it's also because I haven't done so many tasks like Mr. Qin."

Since the other party said it straight to the point, Qin Yuan didn't hide it. Both of them are systematic, so there's no need to hide it like this.

When Li Kang said this, he frowned tightly. To be honest, he didn't know what was going on, so he took the system with him in a daze, and then completed some tasks inexplicably. It's just that he and Qin Yuan took completely different paths. .

He took the road of shopping malls. It can be said that they did have a system, but Qin Yuan took the military and strengthened various physical skills.

And Li Kang's system is mainly to complete the development of the mall, helping him to be the dominant player in the mall and become the dominant player.

"With this system, I have grown from a novice who doesn't know anything, to now across the country, I have a total of more than 40 large groups and more than 20 small groups."

Hearing this, Qin Yuan suddenly remembered, no wonder he felt the name Li Kang was familiar, as if it was indeed ranked as the richest man in China.

"I'm just curious, how do you know that I also have a system."

"Because I have also experienced life and death. When others thought it was absolutely impossible to survive, I survived. It was the system that saved me, and you are the same, not to mention that you are the captain of the special brigade. You execute The task is more dangerous than mine."

In fact, until now, Qin Yuan still had no choice but to completely trust the person in front of him, and he stared at him coldly.

"Do you know what you mean by this? I wonder if you mean to spy on the military situation."

Li Kang said with a wry smile: "Mr. Qin, there is no need for you to be so wary of me. We are all the same person. Do you think I will tell others about this? If so, why should I invite you?" you come here."

Then Li Kang stood up and poured the tea to Qin Yuan himself, which was enough to give him face. After all, with Li Kang's current status, he can be regarded as a big shot in the domestic economic industry.

"I did rely on the system to obtain some skills, many of which are life-saving. Although I don't see that much danger in the mall, it's just that I can't avoid being framed by villains."

Then Li Kang changed his style of painting, "But not as good as Captain Qin. After all, Captain Qin's skills are all real. If we compare them, then we are far behind."

"You don't have to lift me up so much, but why did you find me this time?"

"Because my system has given me a task this time, and the reward is very generous. I need to find another person who also has the system."

"It stands to reason that people like you should have everything. I'm curious what kind of reward makes people like you willing to reveal their identities, and then come out to find the same people."

"Mr. Qin is worthy of being smart. Naturally, he saw the problem at a glance. It is true that I don't lack anything now, except for the system's rewards. On the other hand, aren't you curious about this matter?"

What he meant was those who had a system. Qin Yuan had always thought that he was unique, but now he met another person who also had a system.

So he wondered what the ***** was going on, and whether there were other people with systems like this in other places.

From the current point of view, Li Kang has no malicious intentions. He is in the army now, so there must be no problem. It's just that other people have such a system, so what will he use it for?

Li Kang was very smart, and quickly saw through Qin Yuan's thoughts.

"Mr. Qin, it seems that your thoughts are the same as mine. We are all curious, and I can assure you that I have never used my skills to do anything that would harm the security of our people and the country."

"Then have you found anyone else besides me now, because to be honest, it's really the first time I've noticed such a thing."

Li Kang nodded, and then handed in a document.

"Mr. Qin, the military is busy with important tasks, so these things will definitely not bother you. This is the result of my secret investigations for so many years, but they are just objects of suspicion and have not been clarified yet."

Qin Yuan took the information and glanced at it. There were about seven people on it, both men and women, and Long Xiaoyun's name also appeared.

"These people are just my suspicions. I don't have conclusive evidence. Among them, Mr. Qin, the female instructor of the Special Forces, should be familiar with her. She is also very capable, so I have doubts."

"Don't worry, this can be ruled out. She is absolutely fine. She doesn't have a system and relies on her own strength."

Hearing this, Li Kang was quite surprised. He didn't expect a woman to be able to sit on the leader of the special operations team by her own strength, which is really awesome.

"You don't have to be so surprised. Situations like this abound. They actually work harder than people like us, and their spirit is more respectable."

Li Kang nodded, and then he also explained his purpose of coming, mainly because he wanted to cooperate with Qin Yuan. There were some aspects that she couldn't investigate, and he hoped to use Qin Yuan's power to investigate.

"I have screened all these lists. Since the female special warfare instructor has been excluded, there are still six left."

Qin Yuan nodded, he looked at all walks of life, but judging from their information, they are all top talents in all walks of life!

For example, the one ranked first is a returnee doctor named Zhao Mingyu. He is not only a returnee doctor, but also the executive chairman of domestic technology and biopharmaceuticals.

Looking at it this way, it seems that there is no problem, but judging by his age, I think this is too exaggerated. At the age of 30, he has become a returnee doctor and the youngest executive chairman.

All of this, it seems that his life is on the loose, completely beyond the normal living arrangements of others.

According to the normal life trajectory, there is no such a young executive director, but he achieved this position by his own ability, because there is really no one behind him.

This person is Li Kang's key suspect.

"Anyway, he is very mysterious. I tried to investigate him before, but there was no way. He is very cautious and always has bodyguards around him, so I can't get close."

"I didn't expect that people like you, who are already on the wealth list, can't get close to him?"

Qin Yuan was actually testing Li Kang to see his reaction. Is this guy telling the truth, or is he trying to use his own hands to get rid of his opponent?

Li Kang was very calm, "This guy is very conceited. Anyway, he always holds the title of so-called talent, and he doesn't bother to cooperate with a businessman like me."

Then Li Kang was still worried that Qin Yuan would refuse, so he took out another item.

"This guy is the president of a biopharmaceutical group, but according to my investigation, their group has been recruiting people in recent years, don't you find it strange?"

"It's quite normal for a large conglomerate like them to recruit people. What do you mean by the strange point?"

"Mr. Qin, because I must be very familiar with this part of the shopping mall, I have also focused on investigating whether they have more people going in and fewer people coming out, which completely deviates from the ratio."

When he said this, Qin Yuan immediately understood, could it be that this guy was using human bodies for experiments, and then quietly used his skills to solve the problem of controlling these people.

Li Kang nodded, that's exactly what he meant, that's why he wanted to investigate this person.

"In the beginning, I was really looking for people with a system like us, because this is the task of my system, and generally it will not cheat me."

Li Kang raised the teacup in front of him, and took a sip of the tea.

"I didn't realize a problem until later. I must be aboveboard, including Mr. Qin, but I can't guarantee what others are like."

When he said this, Qin Yuan understood that on the one hand, this guy was seeking his own help, and on the other hand, he was actually protecting himself.

Because if other people also have a system, then maybe they will also issue such a search task. He has no intention of harming others, but others say it may not be so.

So this guy is also smart, he knows to come to him first, after all, with his own strength', he can definitely protect him.

Li Kang said it very sincerely, and even put himself in the system, and his skills, all of them can be said, this guy.

"Mr. Qin, don't blame me for not letting you invade my consciousness, because this is also my self-defense. After all, I have worked hard in the mall for so many years, and some precautions are necessary. This is my life-saving tactic."

This Qin Yuan can understand it, and it seems that this guy is really not lying. He has spoken out some of his skills, which are indeed very different from his own.

He is mainly engaged in the economic system, as well as the business system, and he is completely on the line of business warfare.

It can be said that it is completely different from Qin Yuan's system. Qin Yuan's current ability can kill him directly with a single move, and it can be done quietly.

So Qin Yuan looked at him and said jokingly: "You are very interesting, you have told me all the secrets, aren't you afraid that I will directly tell you to kill people?"

"I know that Mr. Qin is not that kind of person, and I have also heard about what happened at the playground before. Mr. Qin is such an upright person, he would never do such a thing."

Li Kang trusted Qin Yuan very much, so he chose to tell the whole story. He also knew his own strength, so he might as well explain it early, so as to gain trust.

"Except for the first person, I have been secretly investigating the others, but there are not many results. Some of them are due to identity issues, so I have no way to investigate."

"So you want to use my hand, and then we will investigate together."

"Yes, Mr. Qin, I very much hope that you can choose to cooperate with me. After all, I am sincere. I don't care what others think, but at least I am on our side."

Chapter 1039: Advanced System Replication

This guy is really a businessman, and he is too good at negotiating. He first showed his sincerity directly, and now he directly wins over Qin Yuan.

And before Qin Yuan agreed, he said that they were on the same boat, and this guy's strategy was really deep.

Qin Yuan was a little undecided, whether he should trust this person, he was also a little tangled at the moment, mainly because he couldn't use consciousness control on this person, and he was more cautious now.

He is no longer the simple person he was back then. He has experienced so much when he came out, and he can meet all kinds of people.

So he really didn't believe it now, he stood up, looked around and didn't answer the person in front of him.

And Li Kang trusted Qin Yuan very much, he saw Qin Yuan's thoughts, "Captain Qin, you can think this way, but I can understand that after all, you have seen all kinds of people in the special forces team, so you are on guard." It's also normal."

"This is the time I need now. I want to verify the authenticity of what you said. I also tell you directly, because there are many things in front of me. If I am not sure, then I will not do it."

Li Kang nodded, it was this kind of Qin Yuan, that's why he needed it, what he needed was not a reckless man, Qin Yuan not only had strength, but also brains.

In order to show his sincerity, Li Kang directly pushed the information to Qin Yuan.

"Captain Qin, as for the result or the follow-up development, I will give you all the information. You can investigate secretly, or you can prove it. I will not stop the authenticity of these things."

"Of course I will investigate, but if I find out that you lied to me, then you should know the consequences."

Li Kang smiled frankly, "Captain Qin, there is no need for you to be so wary of me, we are the same kind of people no matter what."

Qin Yuan looked at the guy in front of him, it was too difficult to touch, so let's wait for him to observe first, he also has his own definite direction, and we can talk about it when we have our own inner definite.

The most important thing is that he is a little uneasy now. This uneasiness comes from the other party, who actually has a system. If what he said is true, and other people also have a system, then what is going on? Why are there so many people?

Li Kang interrupted Qin Yuan's train of thought, and took him to dinner with a smile.

"Captain Qin, you don't have to be so anxious. I have already planned these things. You can take your time in the past two years and eat first."

This Li Kang was quite candid on the way there, and told about his experiences over the years, including the tasks assigned to him by the system.

"It is true that from a novice who didn't understand anything, I climbed to where I am today by relying on the system. The system's capabilities are indeed very powerful. After I complete the tasks given by him, I can get rich rewards."

However, his system is a commercial system, so the tasks given are all required to complete a certain business goal, or reach a certain business quota.

After hearing this, Qin Yuan secretly heaved a sigh of relief. If he said this, his system is much better than Li Kang's wall.

Because this is the most powerful recovery system, and what Li Kang said, it seems that his system is an auxiliary system, mainly to let him complete tasks and then acquire certain skills.

Because Qin Yuan's skills are all recycled directly, and the recovered skills are forcibly transformed into himself.

Including now that his system has been upgraded, it is now possible to bless merit points and even help others become stronger.

It seems that Li Kang didn't know, he thought that Qin Yuan's system was the same as his, that they were rewarded for completing tasks.

As soon as Qin Yuan's idea came up, the system immediately sent out a notification tone.

"Ding! Congratulations to the host for completing the cooperation with Boss Li, and over completing the investigation task, and getting 30,000 merit points!"

"Overfulfilling the task, what is the situation?"

"Answer the host, because the host's next task is to investigate Boss Li and know the attributes of his system in advance."

Qin Yuan smiled inwardly, good guy, he didn't expect him to guess the right one, and he only analyzed it based on the current situation, but he didn't expect the installment to be correct.

"System, is it that my system is the strongest, and even if its system is completing the task, it cannot surpass it?"

As soon as this system was mentioned, suddenly there was a little pride in the arrogant voice.

"Of course, this system belongs to the recovery system, and now that you have completed all the tasks and indicators, I have upgraded to the advanced system."

No wonder Qin Yuan felt different from before, especially when he was talking to the system, this guy had already been upgraded to a high level before he knew it.

The main reason is that when you talk to the system, you will feel emotional. Generally, before, the answer is cold and cold.

"What do you mean by advanced system? What level is his current system? Do I have this authority to investigate?"

"Yes, I only need the host to contact him, and I can invade his system, because now I belong to the advanced system."

At this moment, the voice of the system is no longer that cold mechanical injury, but more like a little boy.

Qin Yuan felt a little bit of comfort, and Li Kang was still chattering beside him, when Qin Yuan suddenly reached out and patted him on the shoulder.

"Boss Li, it turns out that you have had such a hard time before, but you are indeed very good. After all, if you want to complete this system task, it really needs difficulty."

Li Kang didn't notice anything, but felt that Qin Yuan understood him, and felt that he had found a bosom friend.

"Captain Qin, really, we are too much of the same kind of people. Although we have the help of this system, it is very difficult. I have such a status now, so I am very afraid that I will lose it."

It turned out to be like this, so you wanted Qin Yuan to help with the investigation just now, he was worried about the tasks given by other people's systems.

In case of attacking or doing other things that hurt him, he has no ability to resist at all, he can only rely on Qin Yuan.

Because Qin Yuan can be regarded as the strongest special soldier to be honest now, so from this point Li Kang can see that the tasks given by their system should be different.

In addition, Li Kang sent people to test Qin Yuan before, and the thugs he sent at that time were all thrown to the ground by Qin Yuan, and no one could stop him at all, that is, one block ten.

So now he trusts Qin Yuan more, and with his identity problem, Li Kang didn't hide anything from him.

Just as Qin Yuan's hand touched your shoulder, the system's notification sound followed.

"Host, please wait a moment, I am invading and replicating his system."

Only in this way could Qin Yuan be more confident. Although what he said was sincere, Qin Yuan felt that it was better to be more cautious.

Li Kang was very happy, and kept pouring wine for Qin Yuan, "Captain Qin, I really met a bosom friend. The main reason is that we are the same person. We must have a good drink today, if you have time."

"This is no problem. I will definitely settle the matter here, otherwise I will run out of time later."

Li Kang felt that he had met a bosom friend, and he kept talking non-stop.

At this time, Qin Yuan's system has also been copied.

"Answer the host, his system is a commercial system, and it's only at the intermediate level now."

"Business system? If he is promoted to a senior level, wouldn't he be the same as you?"

"Don't worry, the host, we are of different attributes. I am in charge of the military, and in the system, I belong to the most powerful recycling system. It is different from his concept. Comparable."

"Such systems are generally not threatening."

"I think he should ask you this, because you are the biggest threat to him."

After the system was upgraded, it was different, and even teased himself, Qin Yuan felt relieved when he heard this.

That's not a problem. Let's secretly investigate the people on his list first.

It has to be said that Qin Yuan's system is indeed relatively powerful. After all, he has the ability to stay drunk for a thousand cups. Although Li Kang also has a system and an increase in drinking capacity, it is not as good as Qin Yuan's.

When the subordinates outside came in, they found that the two of them had already drunk a box of liquor. The subordinates who came in were completely stunned. are you crazy?

Their boss was already drunk, leaning back on the chair, still talking in a daze.

"Captain Qin, you...you, don't go, let's continue to drink tonight, it's so refreshing to meet you."

Even after drinking like this, he still didn't forget to make friends with Qin Yuan.

On the other hand, Qin Yuan didn't have any problems here. Instead, he directly picked up a bottle of white wine and drank it, just like drinking water.

"Boss Li, it seems that you still need to practice your drinking capacity!"

The man next to him was completely stunned. Their boss was the best drinker he had ever seen. He didn't expect Qin Yuan's operation to shock him.

Qin Yuan raised his head and drank the whole bottle of wine, then put it on the table.

"Take good care of your boss and tell him to thank him for the wine he treated you to. I'm very happy. I'll do what he said."

Qin Yuan left after speaking, while Li Kang was completely confused and passed out from drinking.

After he came out, Qin Yuan thought carefully about the information he had seen before. In fact, what you said was really good. If other people have a system, they have to be on guard.

Thinking of this, he quickly called out his system.

"System, since you can sense the existence of other systems, can you tell me how many people like this are there?"

"cannot..."

"Don't you claim to be an advanced system? Why can't you do this?"

Unexpectedly, the roaring voice of the system came out, "It's true that I am an advanced system, but how can I know the existence of other systems, unless you get in touch with others!"

This system is indeed different, Qin Yuan touched his nose in embarrassment.

But this is also a wake-up call for myself, if there are other people's systems, if other people also have such a powerful recycling system.

Then he has to work harder to make himself stronger, especially now with the blessing of merit points.

The main reason is that he wants to strengthen the entire team. Now their red blood cell team is indeed quite famous, and the record of the whole team is also ranked first in the southwest region.

Now Qin Yuan and the others have become the standard for most people, including Qin Yuan who went to the tank brigade before, and now they all target him.

Qin Yuan thought about it, the few people Li Kang suspected before, except for himself and Long Xiaoyun who were crossed out, the others had no contact with the military, but they were all from other industries.

There are biopharmaceutical doctors, medical doctors, scientific research experts, and device geniuses. What these people have in common is that everyone is excellent in their respective fields, even surpassing the standards of their age.

No wonder they are doubted by you. From this point of view, it is indeed such a commonality. If they really rely on their own abilities, they are indeed at the genius level.

But if you rely on the system, then it will be explained, including my current situation.

Mainly the returnee doctor of the biopharmaceutical group he mentioned at the beginning, they often have a loss of personnel' If someone uses the system to do bad things, he will definitely not let it go, this is what he has responsibility.

"Ding! The host triggers the mission!"

Why did I trigger the mission when I didn't do anything? Qin Yuan was dumbfounded.

"Ding! The investigation of the origin behind the biopharmaceutical group was successful at the end of the Yuan Dynasty, and the key personnel behind it were captured, and the system rewarded two ICBM blueprints!"

When Qin Yuan heard the blueprint, he jumped up excitedly, forgetting that he bumped into a big bag on the car, and the driver next to him looked at him strangely.

He quickly explained with a smile that he drank too much to relieve the embarrassment.

He didn't expect to reward the blueprint of the intercontinental missile. He got the aircraft carrier before, and now if there is an intercontinental missile, he can invest in research.

In addition to the economic aspect, the biggest problem now is to gain everyone's trust, otherwise no one will let him go to the laboratory.

It's just that with the help of Wang Jinjin and others before, it might be easier if Wang Jinjin was allowed to be the lobbyist.

It's just that the car investigation task is urgent, he can only use his usual time, and now Gao Shiwei is watching him every day, because their team will be represented to participate in the strongest special team selection competition in the second half of the year.

So having this system is both a good thing and a bad thing. To be honest, like Qin Zhengyang, he only has a little talent occasionally, but Qin Yuan directly turned him into an excellent special fighter with the blessing of merit points.

Neither he nor Li Kang have done anything else that violates the basic principles, but it is possible that others will use this system to do things that harm others and benefit themselves.

Therefore, it is really urgent to investigate the person with the system behind him. He must find a way to get out first, mainly because he is too easy to attract attention now.

Chapter 1040: weird interview

If the other party has a system, will they find it like this? Although the system said that he has now upgraded to an advanced system, it is not sure whether other people's systems have this function.

Because Qin Yuan also repeatedly asked his own system, the system could not give an accurate answer.

The system gave the answer that even if it is a commercial system, if it is upgraded, it will be able to sense the existence of nearby systems and will remind its host.

Before, he preferred to think that he was the only one who mastered this system, so he didn't know much about it. Only now did he know that there are several types of systems.

There are divisions from their specific plans to their grades, and their functions are also different.

The ones like Li Kang's are business systems, as well as literature systems, music systems, recycling systems, and super ***** systems.

When the system mentioned the super ***** system before, Qin Yuan asked a question, after all, the name sounds awesome.

However, the system said that a super ***** system like this was completely eliminated a long time ago. It is indeed powerful, but there are also many uncontrollable factors, so that system stopped very early.

In terms of function allocation, Qin Yuan's recycling system is the most powerful, because it is very overbearing, and all functions can be recycled.

Qin Yuan patiently listened to the system's explanation in the car. He really had never thought about this problem before, and now he still has to pay attention to it.

He had already arrived at his destination, and the driver next to him yelled a few times, but seeing that he didn't respond, he didn't dare to say anything more.

When Qin Yuan came to his senses, the driver was almost falling asleep in the car, and he realized that he had already arrived. He was just so engrossed in listening that he had already forgotten that he was still in the car.

He got out of the car a little apologetically, still thinking about what the system said just now in his mind, he needs some time to digest it slowly, he didn't expect the things inside to be so complicated.

The problem is that even if he finds someone with a system, what can he do with him? It can only be said that he plays a supervisory role here. After all, it is unfair to have a system.

Compared with other ordinary people, will they take the path of crime, or become the opposite of themselves? None of this is certain.

But just like what Li Kang said, they have to be one step ahead of others and prevent problems before they happen. They must not have the heart of harming others, and the heart of guarding against others is indispensable. After all, sometimes the tasks given by this system are also weird.

When Qin Yuan went back, he walked past the training ground and saw a figure who was still training.

He shook his head, let's talk about those things later, take your time, there is no way to rush here now.

Looking at the figure in the distance, he waved his hand and called out, "Zhengyang!"

Qin Zhengyang heard someone tell him to turn his head, and then ran over with a smile. He was sweating profusely from training.

"You kid, why don't you sleep at night, and you're still training here."

"Brother Qin, isn't it that we are going to participate in the strongest special team competition later? I don't want to drag everyone down. I know that I just came in now, and I am not familiar with some things."

"I'm really relieved that you have such an idea, but the body must bear it, don't damage the body, and now there is still a buffer time."

Qin Zhengyang nodded, and he patted his chest to ensure that he knew it well.

After returning to the dormitory, He Chenguang took a newspaper and threw it on the table indignantly.

"What's wrong with you? Feeling angry."

"It's okay, I'm just competing with myself, what's the big deal, we will have it in the future, what's the point of showing off."

Qin Yuan took the newspaper and looked at it, and instantly understood that it turned out that the United States and Xiaomao had held a joint military exercise, pulling their newly developed aircraft carrier out for the exercise, and the momentum was simply too huge.

Li Erniu just glanced at it, and then slowly said: "I said, don't take it too seriously. Besides, don't we have it? I just don't bother to show it off."

"That's different. They have been produced for several generations. There is no way. We can only take our time."

Hearing this, Qin Yuan swore secretly that she must get the rewards from the system. He now has the blueprint of the aircraft carrier, but if he adds the intercontinental missile, it will be a double guarantee.

At this time, Long Xiaoyun walked in aggressively and kicked open their dormitory door.

Wang Yanbing quickly pulled back the quilt, "Long Dui, what are you doing? This is the dormitory for male soldiers."

Long Xiaoyun ignored him at all, and kept staring at Qin Yuan.

"Come out now, I want to talk to you about something."

Qin Yuan was also stunned, what's going on? Seeing her aggressive, when she went out, everyone gave him a sympathetic look.

Qin Yuan thought what Long Xiaoyun was going to say, but when she came out, she asked directly: "Qin Yuan, tell me the truth, did you encounter any trouble again?"

"Ah, no, why did you suddenly ask such a question?"

"Don't lie to me, where have you been these few days? You never went to An Ran, I asked her."

Qin Yuan didn't expect that Long Xiaoyun's mind would be so delicate, so he went directly to ask An Ran, because the reason he gave for asking for leave at that time was to go back and see An Ran and the child.

Long Xiaoyun must not let Long Xiaoyun know about the affairs of this system, he could only quickly cover up, "Actually, I didn't go anywhere, I just went to find a friend."

"Friend? What kind of friend, do we know?"

Long Xiaoyun was mainly worried, because when the explosion occurred in Anran before, someone also sent some letters to them.

At that time, Qin Yuan chose to hide it, so Long Xiaoyun and the others didn't know until later.

But after going through that kind of thing, Long Xiaoyun felt that Qin Yuan should tell them everything. After all, with their relationship, they can be regarded as family members now, and these things should be faced together.

"Qin Yuan, there are some things, I really hope you can tell us, don't bear it alone, because you are not alone now, do you understand what I mean?"

Long Xiaoyun was really angry. She asked this question, but Qin Yuan didn't let go at all. He didn't tell her who that friend was at all, but just changed the subject blindly.

"Do you know that you really worry us, I really..."

Long Xiaoyun was hugged by Qin Yuan before he finished speaking.

"Let me tell you, it's useless to be a rascal. Don't do this to me. Believe it or not, I'll give you an over-the-shoulder throw directly?"

"Don't move, let me hug you."

In fact, Qin Yuan was under a lot of pressure in his heart, and he definitely couldn't let other people know about these things, including Long Xiaoyun, even if they were his closest people.

There are some things that he really needs to solve by himself, and that's what he carries.

Seeing his appearance, Long Xiaoyun also felt a little soft-hearted, maybe he also has his own difficulties.

"Oh, forget it, then I won't force you, but if there is any problem, you must tell us and don't make us worry, okay? You are not alone now."

"Xiaoyun, don't worry, I will definitely tell you anything."

At this time, Qin Zhengyang had just finished running five kilometers, walked over, and saw the two hugging each other.

"Brother Qin, sister Xiaoyun, what are you two doing here?"

Before Qin Zhengyang could finish his sentence, he was forcibly dragged away by Li Erniu who rushed out from behind.

This is so embarrassing, when did these guys hide there? Long Xiaoyun's face turned red instantly.

"Look at the soldiers you bring. Why do you like to spy on others? When were they there?"

"They've been there since we came."

"How do you know, you guys didn't tell me so early."

Qin Yuan felt that Long Xiaoyun was really cute at the moment, and she only asked that way because she was too worried about herself, but he had to bear these things himself, and no one else could help him.

Time passed quickly, and in one week, they were going to participate in the selection of the strongest special team.

Gao Shiwei knew that their abilities were also very strong, and they had been training very hard recently, so they were given a vacation at this critical moment.

The previous preparations have been fully done, and this week is not too far away, and this week will allow them to have a good rest, and then face the next game.

It is said that the competition is actually very cruel, it can be called a great escape for thousands of people.

Moreover, the competition system this time is very mysterious. Until now, they don't know the specific specifications and what the requirements are.

Just taking advantage of this week, Qin Yuan intends to investigate the matter of the previous returnee doctor, whether he has a system or not.

It is very safe for An Ran's parents to bring their children to live in the military camp. Qin Yuan took the time to take a look, and the little guy was already able to sit and laugh.

Looking at his daughter, he didn't even want to leave. He wanted to stay with his daughter for a week, but he couldn't help it. In order to stay with his family in the future, he had to do a good job in these guarantees.

An Ran's parents never asked about Qin Yuan's work and asked him to work hard, pay attention to safety, and leave the child to them.

This really touched Qin Yuan, her parents were very understanding.

For the convenience of this trip, Qin Yuan even made a simple disguise, so that he would not be able to see it. Then Qin Yuan transformed into a biology graduate student with an interview resume in his hand.

Because the best approach is to go directly into them through the interview method and see what they are doing.

Li Kang also said before that this returnee doctor is too cautious, and basically does not contact outsiders.

The biopharmaceutical group under the name of this returnee doctor is called Wanyuan Biotechnology Manufacturing.

At this moment, Qin Yuan came downstairs to the group with his resume. After entering, he found that there were still many interviewees. It seems that this company is still very famous.

Different from the nervousness of other interviewers, he looked at the surrounding environment, which looked like an ordinary biopharmaceutical group, because their factory is not here, it is just an office location.

One after another, the interviewers shook their heads after entering, and then walked out.

A young man sitting next to Qin Yuan was very nervous. He couldn't help pulling out a person who came out and asked, "What kind of questions will the interviewer ask, brothers? Why do you feel like you are all moaning?"

"I don't even know what kind of weird question this is. I asked if there are any relatives in the three-generation family of my parents. I asked in too much detail. I felt that I answered very well. But people told me that it was a pity that the interview failed."

"How could this be? Just now I saw that your resume is so excellent, but you were not retained. It seems that I have no hope."

The young man became even more nervous, and silently lowered his head, saying that he had no intention of listening, Qin Yuan hurried forward and asked with a smile:

"Brother, then he asked these questions, how did you answer them?"

"How else can I answer? Answer truthfully, I am the only child in my family, and my parents are all there."

Qin Yuan smiled and nodded. Through observation, he found that most of the people who went in were not admitted. Like this group of interviewers, when he came, there were more than forty people in front. But only three remain so far.

He remembered that when he looked at their group's resume, it said that it was a big move. If they recruited on their scale, it would be impossible to keep only so few people.

What's more, several of the interviewees who were eliminated were all graduates from prestigious universities. Such talents are the most scarce in a biopharmaceutical group company like theirs, but they were all rejected.

Just like that, it was Qin Yuan's turn soon. When he came in, he saw only two interviewers, a man and a woman.

The two looked at him with a smile, "Don't be nervous, we just read your resume and think you are pretty good, but we still need to ask you a few questions."

Qin Yuan nodded, and the man sitting opposite adjusted his glasses, and then asked, "How is your current family situation? It means parents and friends, how are relatives?"

This is really weird, there is an interview company that would ask such a question, but Qin Yuan had already prepared it before.

"I have no parents. I am an orphan. I grew up in an orphanage, so I don't have any family or friends."

If a normal person said this, no matter what happened to the person opposite, even a stranger, he would feel that this person was very pitiful. Unexpectedly, Qin Yuan could see excitement in the eyes of the interviewer.

But the interviewer remained calm, and continued to ask: "Then is there anyone who has close contact with you in normal times, that is, a good friend."

Qin Yuan has mastered their psychology, it seems that what they want is someone who has no worries.

"Because I studied abroad, there are basically no people I know in China."

Hearing this, the interviewer became even more excited and stood up directly.
