

Special Soldier 104

Chapter 104: Silhouette

Hearing Leng Feng's speculation, the people around immediately felt very reasonable, and then took a breath!

Although Qin Yuan is more powerful, if you rely on one person, you can kill the wolf squad and Shi Qingsong's brigade. This is not what people do!

But Leng Feng has a numb scalp. I don't know why, he always feels that his guess is right!

Then they are now exposed to Qin Yuan's gun?

Thinking of Qin Yuan's non-human marksmanship, Leng Feng yelled directly:

"Beware of snipers!"

A gunshot!

At this time, hundreds of meters away from the cold front, the bricks were fleeing frantically in the other direction, and a burst of blue smoke burst out of his chest.

He died!

Several teammates around looked at Banzhuan, but Banzhuan directly reprimanded:

"Look at what I am doing, run!"

Banzhuan looked speechless. At this time, he heard the reminder from Leng Feng in the headset, and understood that it was Qin Yuan's doing it!

"Great God Qin, I was wrong, and I will never taunt you again!"

Banzhu wants to cry without tears at this time!

But Qin Yuan put away his gun, then found a place to continue to rest!

Leng Feng guessed right, they were indeed exposed to Qin Yuan's muzzle.

But Qin Yuan's goal is not to take advantage of the opportunity to kill the Wolf Warriors team, but to hurt both sides, so he can't directly eliminate Leng Feng!

So, he pointed his muzzle at the escaping brick!

killed a stone pine, and then killed a brick.

Balanced the strength of both sides.

Qin Yuan can continue to watch the show again!

On this side of the cold front, the remaining team finally gathered with the second team of the cold front!

But before they had time to be happy, they saw a group of green lanterns lit up around them!

"Wolves...wolves pack!"

Seeing this pack of wolves at this time, Leng Feng, Yu Fei and others immediately became nervous. The guns in their hands are empty bullets, and they have no effect on these packs of wolves. It is no different from a fire stick!

They only have 5 people now, and this pack of wolves must have nearly 20. If they face it head-on, they will die!

And Leng Feng also noticed that the eyes of these wolves were different. He looked at them like prey with a trace of hatred!

But no matter what, they are on the bar with these wolves!

A cold sweat appeared on Yu Fei's forehead, and he said directly to Leng Feng:

"With so many wolves, it is impossible for us to have no casualties. Let's hold on. I have already sent a distress signal to the captain, and a helicopter will pick us up in a while!"

At this time, Long Xiaoyun, who was watching Leng Feng and others under surveillance, was also worried in her heart. She had already arranged a helicopter, but it would take some time for the helicopter to arrive.

This time, no matter what, it was an exercise. If the exercise caused a reduction in personnel, it would be a major mistake!

"Leng Feng, be careful, hold on!"

Soon these wolves began to attack Leng Feng and others. Leng Feng and others yelled and started fighting with these wolves!

At this time, Qin Yuan in the distance also discovered Leng Feng's traces through his night vision ability. He saw Leng Feng being surrounded by this group of wild wolves, but he did not worry in his heart. These people still have great strength.

"Ding Dong~ The system releases a mission to rescue the wolf squad from the wolves, and reward a grid!"

At this moment, when he heard this voice, Qin Yuan was taken aback. Could this pack of wolves kill the Wolf Squad?

"It shouldn't be!"

Qin Yuan muttered.

After all, in the original work, the people of the Wolf Warriors team also encountered the wolf, but they did not have any accidents.

What Qin Yuan had forgotten was that Leng Feng and others at that time killed a wolf king, so they let all these wild wolves retreat!

And now, that wolf king has been killed by Qin Yuan!

But Qin Yuan still ran towards there, the system should not go wrong, if these people are really injured by the wolf, it will be over!

"Wait for me, Great God Qin is here!"

Qin Yuan began to move directly towards Leng Feng. The two of them were no more than 1 kilometer apart. Although the mountain road was relatively rugged, it only took one minute!

But Qin Yuan thought for a while. It seemed that he could not be directly exposed in front of them. He found that there was a mask in the backpack, put on a mask, disguised himself, and hid behind a big rock!

Qin Yuan found that these wolves were indeed different from the ones they had just encountered, and became even more fierce. No wonder the system will release missions, Leng Feng and others are absolutely unstoppable!

They probably regard the defeat of Leng Feng and others as a condition for the new wolf king!

These two dozen wolves took turns to attack, and soon Leng Feng and others' physical strength was greatly consumed.

"Brothers! It doesn't look good anymore, we may die today by these wolves!"

Yu Fei wiped the cold sweat on his forehead and said to several companions.

They have lit a fire, but the flame still poses little threat to these wolves. These wolves seem to be crazy, and rush towards them regardless of casualties!

And Yu Fei accidentally twisted his arm while killing a wolf!

Now that the gun can't be used, others can only protect him!

But when I heard Yu Fei's words~www.readwn.com~ the people around did curse:

"What nonsense, don't you still want to go home to see your daughter?"

"That's right, I haven't married my wife yet, so do you let my wife lose her father!"

Hearing this, Yu Fei suddenly laughed and cursed.

"Thanks to a bunch of you bastards, my girl is only five years old! You just miss it!"

"If you don't want us to worry about it, just keep her well!"

Leng Feng gritted his teeth and said, his face was blood red, and he had just cracked a wolf!

Their stamina is already low, but there are more than a dozen of these wolves. If they continue to attack, they will probably start to suffer casualties!

And these wolves also stared at them, and found that their physical strength had dropped drastically, and all the wolves began to surround them!

Leng Feng and others all gave a wry smile, I am afraid they are really in danger!

But at this moment, they did hear a wolf's wailing!

is like seeing some terrifying natural enemy!

Then left Leng Feng and others, and fled frantically!

And Leng Feng hurriedly shone his flashlight over, and happened to see a figure flashing past!

is human!

"what happened?"

"Why did these wolves just run away?".

At this time, Sanba and others were relieved. They thought they were dead this time. Who knew their luck was so good!

But Leng Feng did know that these wolves would not run away for no reason!
