

Special Soldier 1041

Chapter 1041: Successfully entered the group

It seems that it further confirmed Qin Yuan's thoughts. The person they asked for was really ruthless, which is really suspicious. After all, if there is no contact, if this person disappears, not many people will pay attention.

The interviewer suppressed his excitement and put Qin Yuan's resume aside. In fact, Qin Yuan had already seen through him.

"Mr. Ye, we are very satisfied with your resume. If possible, when will you be able to join the job at the soonest?"

In order to pretend, Qin Yuan even made a pseudonym for himself. Now his identity is Ye Yuan. After all, this act requires a complete set.

Sure enough, he has already been hooked, and Qin Yuan's time is relatively tight, so hurry up.

"If possible, I can go to work tomorrow, mainly to see if you can arrange it."

"Okay, okay, there is no problem here, you can come and report at 8 o'clock tomorrow morning!"

The man was even more excited. He was afraid that Qin Yuan would run away. Qin Yuan smiled, then stood up, and was just about to leave.

The interviewer just ran up and said, "By the way, I think you're in a hurry to find a job. Otherwise, I'll take you to the HR office to register, and you'll go to work tomorrow, so you won't have to go back and forth tomorrow."

These guys are really in a hurry. Sure enough, there is an inside story. What kind of company is so anxious to find employees that they directly handle all the personnel affairs for them on the first day of the interview.

But Qin Yuan also followed them, the main reason was not to scare the snake, and it would be better if it was like this, so he could be more direct tomorrow.

When Qin Yuan came out, a staff member took him and told him to take him to do the job entry.

The interviewers outside all looked at him with envy. They didn't know what the origin of this guy was. He had such a ***** luck that he got hired directly on the first day today.

As soon as he came out, Qin Yuan heard the man inside say: "Let them pay attention, it's really hard to find people like this now, if this one slips away again, then we won't be able to provide any more." .”

"Don't worry, I think that guy is just a graduate, he doesn't understand anything, there is no problem, just stay here."

Qin Yuan's hearing is excellent, and the conversation between the two fell into Qin Yuan's ears word for word.

The entry process was quite fast. At this time, Qin Yuan noticed that the department he was assigned was actually a laboratory in a pharmaceutical factory.

Qin Yuan couldn't help being a little curious. Can he directly enter the laboratory with his identity? After all, it is not so simple for a large pharmaceutical company like this to enter the laboratory, it is impossible to just enter it directly.

Looking at the staff in front of him who handled the documents for him, Qin Yuan asked, "By the way, please ask me, is my workplace in your pharmaceutical laboratory?"

The staff member nodded and said blankly: "Yes, our pharmaceutical factory is the most short of people now, and the specific arrangements are based on us."

It seemed that this staff member didn't know much about the inside story, so Qin Yuan came to the company the next morning.

After coming to the company, someone told him to wait for a while, and then came again after a while. Personally, this should be the previous interviewees. Everyone feels very lucky to work in such a large pharmaceutical group.

Seeing the talking and laughing of the few people next to him, Qin Yuan just paid more attention to what will happen next. They directly entered the pharmaceutical group, which was really too fast.

After a while, a staff member led them to their company's factory in a car. The factory looked quite large and formal.

Then the staff actually brought them into the workshop directly. You must know that Qin Yuan and the others are newcomers, how could they enter the production workshop so quickly.

So everyone was very curious about what was going on, but the staff didn't explain much, just handed them some work chemical protective clothing.

"Okay, let's start working today, your job is to live here for a month."

what! !

What kind of weird work is this? This is the first time that everyone has heard of wages being paid, and they are even allowed to live here for free for a month.

A young man next to him couldn't bear it anymore, and asked, "But aren't we here to work? Why do we have to live here for a month?"

"That's your job!"

Everyone was confused, at this moment, a group of people walked in outside, some of them held sticks in their hands, looking fierce, everyone was completely confused by this sudden situation.

The staff member who led them here just now also changed his face instantly, and then took out a contract from the bag.

"This is indeed your job. You have signed an agreement before, and your job content is from the experimental subjects of Shanben Pharmaceutical Group."

Everyone was completely stunned when they heard the news. What's going on? Absolutely impossible, they are here to participate in work, not to be some kind of experimental subjects at all.

The man in front snatched the contract from the staff, only then did he notice that there was a line of small print on the contract, their job content was to voluntarily join the biological experiment of Yuan Pharmaceutical Group.

how could this be?

Qin Yuan stared at the staff member coldly, did he just want to make trouble from the beginning?

"I don't know if your behavior is fraud? We signed the contract without our knowledge."

The staff smiled indifferently, "Why didn't I find out without your knowledge? I told you many times yesterday that you should pay attention to the contract, but you signed it without any hesitation."

This is completely fraudulent. They also take advantage of people's hearts and keep dealing with them. The main thing is to introduce various benefits of the company group. Under such circumstances, who would pay attention to read the contract?

The young man just now was very excited, after all, who would want to be such a **** experimental subject.

"Now I tell you, I quit, I'm leaving now."

The staff member's face changed when he heard this, and he waved the two men behind him to come up, and directly pushed him to the ground.

"I told you to be honest and obedient after signing the contract, and I don't want to be rough on you. If you are not obedient, then don't blame my ruthless subordinates."

Qin Yuan originally wanted to wait until he advanced to take a look at the situation, but he didn't expect these guys to be more anxious than him. If this is the case, then there is no need.

After all, the others are just graduates, who have ever seen such a situation? A little frightened for a moment, Qin Yuan stared at the opposite person coldly.

"Is your group boss here? Call him out."

"Hahaha, it's really funny. With a small role like you, you also want to meet our boss. Go ahead and dream!"

"Now you just need to be obedient, otherwise..."

Before he finished speaking, he felt that he suddenly rose into the air, and then fell heavily to the ground. He looked at Qin Yuan in surprise, why is this man so fast, almost in the next second rushed over.

The staff member who fell on the ground covered his shoulders and stared at Qin Yuan viciously, "What are you still doing in a daze, put on a pose, hurry up and give it to me, this kid doesn't seem to be a good person."

The surrounding people with sticks also rushed up, but then there was a scream, and after a few minutes, Qin Yuan stepped on one of the people's shoulders.

"How about it? Just because you little characters want to fight me."

The people on the ground were completely stunned. What's going on? They knew each other more or less and they just graduated. Since they are so strong, they are not opponents at all.

The few people who followed Qin Yuan were completely frightened and dared not move at all.

"Now you can tell me where your boss is, or call him in person, and I will go find him."

"Who are you?"

"It doesn't matter who I am, but your behavior is really not human. If you trick so many people into being experimental subjects, where is your conscience?"

The staff was at a loss for words for a while, not knowing what to say. Qin Yuan increased the strength on his feet, and the staff began to howl under their feet.

"Don't touch me. I don't know the contact information of our boss. I can only contact our director and ask my director to talk to you."

It seems that there is still a layer of control.

"But he'd better show up within five minutes. My patience is not that fun. I'll hit you once every minute I show up until he shows up."

The staff lying on the ground looked at Qin Yuan and raised the corners of his mouth, and couldn't help but shudder.

At this time, a young man next to him said anxiously: "Brother, or else we should leave now, don't worry about these things, if they call other people, then we won't be able to escape."

The face of the staff lying on the ground changed, he really thought so, these guys already knew their secret, how could they let them escape with such a big group?

"Even if I let you run now, you can't run away, but don't worry, I can guarantee your safety."

There are all password locks inside, and there are many barriers when they come in. It is basically impossible to get out, and only their people take them out.

And Qin Yuan was very confident, he was not afraid at all, he wished that the people behind the scenes would come out as soon as possible, so as not to waste time, he went to find them one by one.

The staff is also secretly praying, hoping that the higher-ups will send someone down as soon as possible. They should have discovered the clues from the monitoring.

After a while, a middle-aged man came over, followed by some thugs.

When the man came in and saw this scene, he frowned slightly, "They're all trash, even a few people who just came out can't handle it, **** it, are they all soft food?"

"Director Zhao, I really don't blame me for this. As you can see, the brothers are no match for this guy. This kid hides too deeply. I suspect he must be a cop!"

The man called Director Zhao stared at Qin Yuan coldly, and you scolded uncleanly, "Damn it, it's not their fault. If you don't do a good review in advance, anyone will come in. I really don't know how those guys in front of them do things."

Qin Yuan didn't have time to listen to what he said, "Okay, since you are here, then stop talking nonsense and let your boss come to see me, right now."

Qin Yuan originally didn't want to scare the snake, but he didn't expect that they were more anxious than himself, and he had to expose it in advance because they just came and made things like this.

The main reason is that there is nothing wrong with me, I am immune to any medicine, but these people on the opposite side are not necessarily so.

Director Zhao glanced at Qin Yuan disdainfully, "The tone is not small, our boss is not something you can meet whenever you want."

Then the people behind all rushed up, Qin Yuan's movement speed was very fast, this time these people were all carrying machetes, it was obvious that they wanted to kill people and silence them.

A young man next to him had to run into the corner. Unexpectedly, he bumped into a thug who had just raised his machete. , he felt a pain in his wrist, only to see a throwing knife directly shot through his wrist.

In an instant, blood flowed, and seeing the blood, the young man became even more frightened shivering in a corner.

There was a scuffle inside, and Qin Yuan was like a fish in the water, fighting very freely without any pressure.

At this moment, the system suddenly issued a notification tone.

"Ding! Remind the host that another system has been detected approaching."

I didn't expect that person to have a system. Fortunately, after so many years of polishing, my system has been upgraded to an advanced system, so I can directly make early warnings and judgments.

Sure enough, within two minutes, a man in a blue suit came over, followed by a group of bodyguards.

He stared coldly at the fighters inside, and he would have thought that he would come in, but he didn't expect this guy to directly order all the doors to be closed, the doors here are coded doors.

All the doors and windows were locked in the next second.

Those who were still fighting just now panicked instantly, as if they had thought of something terrible.

Director Zhao was even more anxious, looking at the man outside the glass window for a year begging for mercy.

"Mr. Chen, you can't do this. Let us out quickly."

"Mr. Chen, I have a family outside, you can't do this!"

This guy even knelt on the ground and begged for mercy. He looked very scared. Qin Yuan stared at the man opposite him the whole time. The system should be on him.

At this time the man spoke, what Qin Yuan didn't expect was that the voice was extremely soft and beautiful, it was the voice of a delicate girl, it was so weird!

"Don't worry, I will take good care of all your family members. Now is the time for you to contribute to the group, because you didn't handle it well!"

What does this guy mean? The staff members inside instantly showed terrified expressions.

Chapter 1042: was taken away

Qin Yuan also felt that something was wrong. At this time, the people inside started smashing the windows crazily, but the windows were all tempered. With the strength of ordinary people like them, how could it be possible to open them?

In the next second, a lot of white smoke came out from the vent above.

It was so cruel that they put poison directly in the room. Didn't he pay attention to the lives of so many people?

Before it was too late, Qin Yuan punched the tempered glass.

The man opposite snorted coldly, the glass was all reinforced, how could it be opened by him, but his eyes widened in the next second.

Qin Yuan punched again, and instantly the whole piece of glass began to crack. With a bang, the glass was completely shattered. At this time, some people inside had already had a poisoning reaction, and some people had already started to vomit.

But of course, after the fresh air came in, everyone just inhaled a small amount of poisonous gas and started to escape towards the window.

Qin Yuan grabbed the ground and was already in a coma, and the thugs threw him out of the window directly. All these people were just following orders and were considered innocent.

The man outside was completely stunned. He didn't expect this person to have such a strong strength, so he quickly ordered his subordinates to turn off the poisonous gas, because it had already spread over.

Qin Yuan approached him step by step, and those thugs stepped forward one after another, but were thrown to the ground by Qin Yuan.

Qin Yuan looked at the man in front of him coldly. This guy used his own system to do many unreasonable things.

It's just that the moment Qin Yuan touched him, the man suddenly waved his hand and pushed Qin Yuan away.

Why did this guy suddenly become stronger? Qin Yuan was a little surprised, and punched again, this time the man actually caught it, but his hand was trembling slightly.

Just like that, the man even accepted Qin Yuan's tricks, and finally couldn't hold on anymore, and was directly knocked down by Qin Yuan, because Qin Yuan not only has great strength, but also has his own skills.

The man lying on the ground was a little scared, and kept moving backwards. Qin Yuan grabbed his collar.

"what on earth is it?"

The man definitely didn't want to say more, and within three seconds of looking at each other, Qin Yuan successfully controlled his consciousness.

This is much easier than dealing with Li Kang. It should be that the system is different, so the reaction of the system is also different.

It's much easier now, Qin Yuan asked his own system to invade his system first, and first got a general understanding of the situation.

The system is intervening in data, at this time Qin Yuan suddenly asked a question.

"If it's like this, it is estimated that we all have the system at the same time, but don't you know anything about it?"

Now the system has been upgraded to an advanced system, so it can answer some basic questions.

"Answer the host, when I connect with the host again, it has already been set to completely delete the memory before the factory mode. I am just a brand new system."

This kind of explanation seems to make sense, after all, the system doesn't seem to have done anything against it for so many years.

And the tasks given are all rewards, and they are all helping Qin Yuan get promoted.

At this time, I wish to understand that the reason why the man's strength became so great just now is that a kind of powerful pill came out of his system. After he took it, his strength became extremely huge in an instant.

But a pill like this doesn't last long, and he wasn't originally a military system, but an ordinary biological system.

The system has also completed the docking at this time, and it quickly analyzed Qin Yuan.

A biological system like this is similar to their principle, which is to let the host complete the task and then get rewards, but the main function of the biological system is healing.

There was no element of attack, so this guy was caught so easily.

However, what is mainly mastered in the biological system is the components of various scientific researches.

"According to your analysis, he doesn't need to catch these people for experiments. A system like yours and a resistant system are relatively good. You don't need to use people for experiments."

"After testing, it was an answering command from his system before, which allowed him to study the structure of the human body. It was not limited to humans at first, but he was worried about exposure, so he chose these special groups of people."

It is really interesting to study the human body. Qin Yuan is very curious about what kind of research is being carried out.

"They all invade the brainwaves and then control the brainwaves."

"What is the effect of such an intrusion? Can you find out this?"

The system asked Qin Yuan to wait a while, this one may take a little more time, because the other party's system is now in a self-protection situation after being hacked, and it will take a little time to hack.

At this time, the man on the ground didn't react at all, just sat quietly on the ground like a walking dead with blank eyes.

The thugs next to him didn't dare to stay here any longer, they all ran out one after another, and the laboratory was also in chaos.

Qin Yuan manipulated the man to the laboratory inside, because fingerprints and his password were needed to unlock it.

After he came in, he saw the familiar scene again, which was the same as the experiment done by the previous doctor of biochemistry. This should be the place where these experimenters were detained.

They were all small rooms with transparent glass windows for easy observation. It was only when Qin Yuan entered that he was shocked.

There are people locked in every room inside, but the states of these people are very different.

Some shrank in the corner of the wall in fright when they saw him, and some shivered, clapping their hands and laughing inside, and seemed to be in an abnormal mental state.

Sitting quietly on the bed without any thought.

These people looked very wrong, Qin Yuan manipulated the man and asked him what was going on.

"They are all subjects to be tested, but their brain waves are too weak, so the brain nerves are damaged, and the experiment fails."

Qin Yuan frowned. To them, the failure of the experiment was just an experiment, but to these young people, it meant that they had become completely fools.

Such an experiment was really too cruel, Qin Yuan didn't know what they were going to do.

"What kind of experiment did you arrest so many people for?"

"The experiment cannot be said, absolutely cannot be said."

What's the situation? It was the first time Qin Yuan heard such an answer. You must know that if you are under his control, all the secrets will be fully revealed.

But no matter how Qin Yuan asked later, he still kept repeating the sentence that the experiment could not be said.

At this time, the system also issued a notification tone.

"I, the host, successfully invaded the core of his system. They conducted experiments to place the system on these people."

Qin Yuan gasped when he heard this, then what's going on, why when he asked him just now, he always said that the experiment can't be said.

The system explained that this was his own system, and the security guarantee was placed on him to prevent others from knowing the secret.

But Qin Yuan's system can't figure out what's going on now. They want to conduct experiments on ordinary people and put the system on these ordinary people.

Hearing this, Qin Yuan was even more puzzled. What kind of experiment is needed? Shouldn't it just be selected? It's the same for Li Kang and himself, and when he connected to the system, he didn't feel any discomfort.

The system doesn't know what the secret behind this is. He can only find such commands from the other party's system, but he doesn't know the specific situation.

The water behind here is too deep, and Qin Yuan feels that a pair of big hands are controlling it. All of this is now linked to the system, and he really feels that things inside are getting more and more complicated.

Why is the system still picking? Were they all chosen in the first place?

And looking at it this way, this man is just a puppet, and the real manipulator behind the scenes can control his system and give him instructions.

Thinking of this, Qin Yuan had to guard against his own system. Will this guy give himself an order at any time?

But as soon as this idea came up, it was detected by the system.

"Host, you don't need to have such an idea. I am your own system. For me, we are symbiotic, because I can only be upgraded if you complete the task or complete the merit point."

The system made it very clear that he would never harm him. He never received any orders from the beginning to the end, and he acted completely according to Qin Yuan's instructions.

It seems that it does include recycling some things by myself, and I make my own choices.

Maybe this is the difference in the system.

Just when Qin Yuan wanted to investigate again, suddenly a burst of white smoke rose, and the surroundings were instantly enveloped. You must know that Qin Yuan could see clearly in such an environment. He was in the environment of tear gas and smoke bombs. No problem in .

But he didn't expect that the white smoke was so strange that he couldn't see anything.

"System, what's going on here, what kind of smoke is this? Can it be recycled?"

"Answer the host, it can be recycled, wait a moment!"

Qin Yuan's skin touched the white smoke, and then the system's notification sound came again.

"Ding! The system recovered successfully. According to the situation of the smoke, the following three skills can be recovered."

"1. Smoky, in a dangerous or specific situation, a moderate amount of smoke, the smoke contains a hallucinogenic atmosphere."

"2. Smoke and dust, the mixture of the two can directly produce an explosion effect in the smoke."

"3. Smog treatment can quickly restore the vital signs of people who are in the smoke."

The recycling of the system this time is very different. What was recycled before was all sorted out.

But now it is directly recycling the smoke itself, it looks like it is a direct recycling skill.

If Qin Yuan thought about treatment, he already had several types, including recovery and his miracle doctor skills.

This smoke dust sounds pretty good, and it can explode directly in the smoke.

Qin Yuan resolutely chose the second skill, just clicked OK, and after choosing to recover, the smoke has completely dissipated, because it can be controlled by Qin Yuan.

It's just that Qin Yuan looked down at the man who was lying on the ground before, and now he was gone, as well as those people in the room, none of them were there, as if nothing happened just now.

This speed is too fast, what is going on, although he can't see in the smoke, could he also lose his hearing, because his hearing and sense of smell are very sensitive.

It took no more than ten minutes before and after, and the speed was so fast that it could take everyone away.

Qin Yuan was a little reconciled, and began to search the entire experimental base, but except for the thugs who ran out before, there were no other people at all.

All this happened so suddenly that there was still someone who could save someone under his nose.

"System, what's going on here? That person's system is just a biological system, but how can he escape my control."

Because Qin Yuan now suspected that the man escaped his control, and then quietly took everyone away.

But the answer given by the system is not like this Someone appeared and took away the man and the people inside, because it was surrounded by smoke.

Qin Yuan's facial features have been completely lost. This smoke is very special, and it is also something produced in the system.

It's the system again, Qin Yuan clenched his fists, this kind of unfathomable feeling is really uncomfortable, he investigated a circle, but found nothing, and now he is startling the snake.

There is no other discovery here, and the main characters have disappeared. It is best that Qin Yuan has no choice but to find Li Kang again.

Knowing Qin Yuan's visit, Li Kang was very excited, he deliberately postponed all the meetings, and then received Qin Yuan.

"How about Captain Qin? Is he also systematic?"

From the current point of view, Li Kang's previous conjectures seemed to be correct, so Qin Yuan chose to believe him, so he told all about his investigation there.

After Li Kang heard it, he was even more surprised. He didn't expect that he would actually experiment with people.

At the beginning, he suspected that this person's identity was too problematic, and he didn't know what kind of drugs he was taking, so his voice became very strange, so he rarely spoke in public.

"But this system is too strange. Our system has never issued an order like this, and has never asked for anything hurtful."

"Right, so I suspect that our systems are not in the same batch, but I don't know what kind of person is behind the manipulation. It may be the person who provided us with the system."

Qin Yuan feels very confused now. What he can't figure out is why it is necessary to use ordinary people as experiments and put the system on them. What kind of connection is there between them.

If their system was also provided by the mysterious person behind this, what kind of conspiracy would this be?

Chapter 1043: Auxiliary Therapy System

What happened this time was beyond Qin Yuan's expectation, mainly because the people behind it were linked to the system, he always felt a little uneasy.

Because a military system like this, especially a military recovery system like his, is indeed too powerful, and he doesn't know if there are others.

Like before, he has also come into contact with genetically modified people, and their abilities have indeed improved, which is the situation of consuming his own genes.

But if there is a system, it is completely different. If he is faced with a person who has the same recovery system as himself, he does not know what to do. If the other party wants to recover skills and chooses to be stronger than him, then it is over.

Because many times the system will make other choices, just like asking him to use nuclear weapons to do other things before, he chose relatively conservative skills.

Because what he needs is not to use violence to solve it, but to use peace to solve it with his greater ability, but if it is another person, he does not know whether the other party will choose this way.

Li Kang was also caught in a tangle. He looked at the few people on the list. Since the first one had been confirmed, he didn't know what happened to the others.

"Captain Qin, then these next few people, or I will secretly send someone to investigate your identity, or it's better not to expose it?"

"That's no problem. There are still a few days left. I can also go and have a look. After all, with my ability, it's easier to infiltrate. It's just that you need to hide your identity. The person behind this is too mysterious."

"You mean the person behind this is the person who provided us with the system?"

Qin Yuan is like this, thinking of this kind of thinking is the most accurate, if the people behind it are really like this, then they are simply impossible to guard against.

"By the way, I'm curious, why do you have these people on the list, and how do you judge that they have a system?"

Speaking of this, Li Kang patiently explained that he was also invited to a scientific seminar held by them as a bigwig in the business world.

It's just that when he went there, he felt very strange, because he had no interest in such a meeting room, but he was surprised when he saw the list by accident. Everyone is a powerful figure.

After such a careful study, he launched an investigation, only to find out that everyone's identity is not simple, and anyone randomly pulled out is the boss of that field.

"Science seminar? When did this happen?"

The reason why Qin Yuan asked this was because she had also received such an invitation, but he didn't care about it at the time. He was not interested in any seminar like this at all.

It seems that such a letter was sent to the brigade, but at that time he had to perform a mission and was going to train for the tank brigade, so it was treated as a junk letter.

After saying this, he remembered that he had received such a letter.

When Li Kanggang heard that Qin Yuan had also received the letter, he was also taken aback. He found the letter he had received at that time from the drawer.

"Look, this is the letter. I didn't pay attention to it at the time, but my secretary said that it has been sent for a week."

This letter is very strange. The sending address has been deliberately concealed, and there is no way to check it.

The reason why I chose to send a letter is because this method is the most covert, because no one will investigate at all.

The person behind that is definitely manipulating their system, but he wants to gather all these people with the system together, what exactly is he trying to do?

"That so-called scientific seminar, if you went there, did you find anything strange?"

"At that time, the boss of this biopharmaceutical group was very enthusiastic. He kept explaining his medicines and other things, but the people present didn't seem to be very interested. When I heard about it, I wanted to leave. gone."

It turned out that this was the case, and there was such a relationship among them.

Qin Yuan intends to investigate another woman on the list. She is a well-known female biologist in the local area. He seems to be somewhat related to the people from the biopharmaceutical group, but they are not the same kind of research.

The biological research she conducts is of the kind that studies regeneration to make something like a cancer drug.

Anyway, Qin Yuan has somewhat resisted these so-called types of anti-cancer drugs since the previous genetic experiment modification.

He had already alarmed the people behind him before, so Qin Yuan didn't put on much disguise this time, but went straight to the point and went to the female biologist after changing his appearance.

Anyway, if this person is carrying a system, then his system can also sense it.

In addition, this female biologist is not as nervous as the returnee doctor before, so it would be easier to meet each other.

Qin Yuan came to their office building, and now there is not much time left for him. He still hopes to investigate the situation and prepare for the follow-up.

When he came to the front desk, the two staff at the front desk were chatting and gossiping together. When they saw someone coming, they quickly shut up.

"Hello, I want to ask, is Zhang Meng, your vice president, here?"

The staff at the front desk raised their heads to meet Qin Yuan's handsome face, and they blushed involuntarily.

"Oh, so you are looking for our vice president. Did you make an appointment with her in advance? If you want to see her, you have to make an appointment with his secretary alone."

"Ah, it turned out to be like this. I don't know. It's just that I had a relationship with your vice president before, and I want to find her alone for something."

The staff shook his head helplessly, "Sir, I'm sorry, if that's the case, we can't let you go up without an appointment."

At this time, Qin Yuan suddenly approached, "Then I want to meet your vice president today, what method should I use? The wardrobe is indeed a very urgent matter."

The staff member's face turned even pinker, but she really had no choice but to take out a business card.

"This is the phone number of our president's secretary. You can call the secretary, and he will arrange it for you."

Qin Yuan smiled, showing his white teeth, "Then thank you, thank you for your phone number."

"No...you're welcome."

After Qin Yuan walked out, the two staff at the front desk quickly started discussing.

"Wow, did you see it? It's so handsome. I didn't expect such a handsome guy to come in the morning."

"Stop dreaming, didn't you hear? He is here to find our vice president. Seeing your **** appearance, I have no experience."

"You still have the nerve to say me, you just stared at him just now."

The two waiters laughed and fought with each other.

At this time, after Qin Yuan came out, he dialed the secretary's phone number, and it took a long time before the other party answered the phone.

"Hi, I'd like to make an appointment with your vice president because I have something very important to discuss with her."

"Oh, which friend of hers are you? I'll register you first, and what's the matter, can you tell me?"

In this situation, Qin Yuan could only make up a random name, Tang Sai went over, and the secretary was not easy to fool.

Anyway, it was just a few words on the phone.

"So that's the case, don't worry, I'll leave your phone number first, and then I will pass it on to our vice president, just wait and see."

This kind of answer is very official, and there is no result at all.

Qin Yuan hurriedly asked: "Then when will I see her?"

"That's not necessarily true. After all, our vice president is very busy, so please wait patiently. There are still many people who want to meet her, but I will make arrangements as soon as possible."

This answer is very official, basically there is no hope.

After Qin Yuan hung up the phone, he was also thinking about using some special method. According to this normal method, he would not be able to see himself at all.

At this moment, after the secretary on the other side of the phone hung up the phone, he threw the phone on the table casually.

There is no arrangement at all.

A staff member handed in a report, "Secretary Chen, is there someone looking for the vice president?"

"Now all the cats and dogs have come up. There is no need for the vice president to be so busy. How can we have time to talk to them? Those of us who are secretaries have to learn to share and help him block these boring people."

The staff smiled, put the coffee on the table, and backed out.

After Qin Yuan knew that there was no game here, he thought of another way. For such a building, it was too easy for him to get in.

To her, the security and surveillance downstairs were just white, and she could easily slip through.

After he came in, he quietly walked into the corridor. There was no surveillance in the corridor.

At this moment, Qin Yuan was staring at the fire protection system above. There are usually fire alarms in the corridors.

There is also a fire alarm on the other side of the hall. Just press the button at a critical moment, and the entire building will be on fire.

However, there are still some security staff in the hall, so it is not convenient to go there. Qin Yuan saw that the building took out a piece of paper from his pocket, lit it with a lighter, and placed it under the smoke vent.

Soon, the smoke system in the corridor sensed the smoke and immediately set off an alarm.

In such a building, the fire safety measures are very good. Just after the smoke was sensed, the alarm went off in the whole building, and there was no need for Qin Yuan to go to the lobby.

Everyone ran outside in fright, because they had done this kind of security training many times, only Qin Yuan ran along the corridor.

At this moment, a woman in a short skirt and high heels was sitting in the office drinking coffee and looking at the data sent today.

"Secretary Chen, why is there such a big difference in today's batch of data? It's different from the content we released before."

"This time the doctors did research and found that the effect of the drug was not that good, so they increased the dosage, especially the content in the drug, but they didn't expect the result to be not so good."

The woman who spoke was Zhang Meng. She looked at today's data and fell into contemplation, then raised her head and said, "This kind of data is absolutely unacceptable, so they can't use this kind of plan. The side effects are so severe on animals, let alone put into production. ."

"Okay, Mr. Zhang, I will communicate with them."

At this moment, a sudden siren sounded, Secretary Chen looked up and looked outside, and everyone in the office stood up one after another.

"What's the situation? Why did the fire alarm go off?"

"There may be a fire somewhere in the building, don't panic, and follow our previous fire drills to evacuate everyone safely."

I have to say that this woman is relatively calm. She asked Secretary Chen to deal with the outside employees first, and asked them to retreat from the corridor in an orderly manner instead of taking the elevator. After making sure that there was no one in the office, she left last.

She was quite responsible, and she was the last to leave after making sure there was nothing missing.

Because she is relatively reassured about the fire protection measures of the building. Even if the alarm is sounded now, the fire should be dealt with and controlled soon.

It was inconvenient for her to go down the stairs wearing high heels, so she simply took off her high heels and walked down the stairs slowly with bare feet.

It was strange, although there was a fire alarm, but she didn't smell any smoke At this moment, a black shadow suddenly ran out from the side and grabbed her.

Zhang Meng was so frightened that she repeatedly exclaimed, her face paled in this sudden situation.

"Who, who are you?"

"Don't bark!"

Zhang Meng was so frightened at the moment, she just waved the high heels in her hand, Qin Yuan had no choice but to hold her wrist tightly, and then carried her on his back.

Qin Yuan walked up the stairs to the top of the building, because at this time, it is safer to go up the stairs. The fire alarm has already sounded, and everyone is walking in the direction downstairs, so Qin Yuan took the woman with him at this time. Came to the roof.

Zhang Meng was very scared, and she didn't dare to scream anymore, for fear of arousing this person's anger. After all, according to this situation, she should have been kidnapped.

After arriving at the top of the building, Zhang Meng was a little scared. She didn't know the person in front of her at all, and she was completely unfamiliar.

"Who are you? Do you want money? If you want money, I will give you whatever you want."

"Don't be so excited, I didn't come to you because of money."

Qin Yuan stared at Zhang Meng coldly. Just when he came into contact with him, the system had already issued a notification sound. The other party did have a system, but the other party's system was just a simple biological manufacturing system.

To put it bluntly, her bio-manufacturing system is mainly for the role of assistance and treatment, it can complete tasks, provide some medicines that can treat people, medicines for recovery, and so on.

This assist system is basically non-threatening.

However, this is only the explanation given by the system. Qin Yuan has to interrogate the specific situation himself to see whether this woman is cooperating with the people behind it, or whether she is also an uninformed person.

Chapter 1044: system of healing

But Zhang Meng was even more excited, because if it wasn't for money, then it was for other things. She stretched out her hand to tightly protect her chest.

"Let me tell you, you'd better not mess around. This is our company. If you really do something, the police won't let you go when they come."

"You think too much."

Qin Yuan was speechless, the woman was thinking about something, at this moment, he heard footsteps coming from outside.

With sharp eyes and quick hands, Qin Yuan covered the woman's mouth to prevent him from making a sound.

It was the security guards in the building. They came up the corridor and began to check if there were any people left behind.

"Is there anyone up there?"

The security guard called several times, but no one responded, and the footsteps went further and further away. After Zhang Meng heard the footsteps walking away, she felt even more fear in her heart, and her eyes gradually dimmed from hope.

Zhang Meng is also very smart. After the security guards walked away, Qin Yuan let go of his hand.

"The information in the building today is your fault, right? Then what do you want to do? Let me tell you, if you have other ideas, you will never pass it on. I will bite my tongue and kill myself."

Qin Yuan was dumbfounded by this kind of thinking. Do you really look like a bad guy?

"Don't worry, I will never touch you, it's just that there are some things that need to be verified."

Qin Yuan walked forward slowly, Zhang Meng kept backing away in fright, but her strength was no match for Qin Yuan.

Qin Yuan stretched out his hand, supported her head, and then directly sneaked into her consciousness and took control.

The system also began to invade her system, and then Qin Yuan began to analyze and ask her questions.

"Who are you working for, and who is behind it?"

"Behind me is Jingwei Biotechnology Co., Ltd., and I am one of the main persons in charge."

This answer was beyond Qin Yuan's expectations. The answer was serious, mainly because it was too official, and it was not the answer he wanted at all.

"Is there anyone behind you manipulating your system and giving any instructions to your system?"

"My system is my own, no one else, I don't understand what you mean."

It seems that this woman has nothing to do with the person behind her, because Qin Yuan has completely mastered her consciousness now, she is not lying.

In addition, Qin Yuan's system here also gave his own answer, "Host, after analyzing this side, it is indeed the kind of healing system that can produce healing medicine and help people recover, and it has no offensive purpose."

"I didn't expect such a system to exist without any offensiveness?"

"Yes, after testing, I can see that every time her system releases medicines, because she studies biopharmaceuticals, these medicines are also related to the system's production. They are all prescriptions that can help recovery and drug."

Qin Yuan nodded when he heard this, it seems that this woman really has nothing to do with the matter behind him, so he let go, and only then did the woman wake up.

Just after waking up, the woman took a deep breath and stared around in horror. She didn't know what happened just now, but she suddenly lost any consciousness.

"What's going on here? What did you do to me just now?"

"Don't be nervous, I didn't do anything to you, but we are the same person, I know your secrets, you have a system, and so do I."

After learning about Zhang Meng's situation, Qin Yuan also let go of his guard against her. If that's the case, it's better to get straight to the point.

Because there are indeed people behind the scenes manipulating these things, he must seize the time to grab these systematic allies.

Zhang Meng was a little hesitant when she heard Qin Yuan say this. After all, there was a system. This was her biggest secret. She was worried that the other party was cheating on her.

"I don't know what system you're talking about, and I don't know what you mean, so let me go."

"Miss Zhang, you are a smart person. I don't need to say so much. I'll just tell you directly. I also carry a system with me, but my system is very powerful. You are only a healing system and can be used as an assistant."

Now Zhang Meng stared at Qin Yuan in horror, she didn't expect that the other party also had a system.

When she first came into contact with the system before, she thought she was the only one, but now that there are more, and there are other people, she felt a little more fear inexplicably.

"You...then what do you want to do?"

"It's just that I want to talk to you about something. This place may not be suitable. After all, the fire alarm won't last long. But what I want to tell you is that we are at least on the same boat now."

"I don't understand what you're talking about."

"This matter is very complicated, and it cannot be explained clearly in one or two sentences, but you have to believe me, I definitely don't want to hurt you, otherwise I would have done it long ago."

After speaking, Qin Yuan handed her the business card of Li Kang's company, "You see this address, come to this address tomorrow morning, we will meet and discuss in detail."

Qin Yuan's calculations were very accurate. Security guards came up below, because Zhang Meng's disappearance was a big deal. Everyone gathered downstairs, but they didn't see Zhang Meng. This was their vice president.

Qin Yuan heard the footsteps, smiled slightly, and then jumped directly onto the opposite platform.

After saying hello, Zhang Meng jumped down the stairs straight away. Zhang Meng exclaimed in shock.

"what!"

At this time, the security guards also arrived, and when they rushed up, they saw Zhang Meng who was full of surprise.

"Mr. Zhang, what's going on? Why are you here alone?"

At this moment, Zhang Meng couldn't care less about these things, and hurried to the opposite platform, she quickly looked down, this is the 36th floor!

Unexpectedly, the person just jumped straight down like this, and she couldn't help exclaiming.

The security guard thought that La was going to do something, so he ran over and pulled her, "Mr. Zhang, what are you doing? It's so dangerous down here, don't lean out completely!"

"Take a look and see if there is anyone down there?"

Although the security guard felt strange, he still looked down. There was nothing wrong. There were many people below, but they all ran out because of the fire alarm.

"Mr. Zhang, there is nothing wrong."

"Then when you came here just now, did you see a person jumping directly from here?"

"Mr. Zhang, are you kidding us? This is the 36th floor. Who would jump down from here so foolishly? They will definitely die."

Zhang Meng shook her head, maybe she was unconscious, but at this moment she saw the business card in her hand again.

He had to believe that everything just now was indeed the truth, and he believed even more that that person really had a system, otherwise he would have jumped from such a high floor directly, and he would have been smashed to pieces if he didn't die.

It seems that it is really necessary to meet that person. What is the secret behind this, and she can't tell whether the other person is an enemy or a friend.

Zhang Meng was in a daze for a while, the security saw that she was in a bad mood and took her down first.

"Mr. Zhang, don't worry, it was just a false alarm just now. We checked the entire building and found no fire. Maybe someone was smoking in the corridor, and the smoke was too big to trigger it."

Zhang Meng nodded, she can't control these things now, she has too many things to consider at the moment, why did a man claiming to have a system suddenly appear, and he also understands his own situation.

Zhang Meng herself is also relatively good. Since she has the system, she is even better in the field of biopharmaceuticals. Basically, she can predict everything, so she can grasp it in advance, but this is a special case.

This was the first time she encountered such a situation where she couldn't fully grasp the matter.

After returning to the office, she took out the business card in her hand, which was already soaked in her sweat.

She was considering whether to go or not, but the origin of this person was unknown, whether it was an enemy or a friend, and she couldn't tell for a while, if she went, it would be a trap, what should I do?

But she was thinking again, if this person really wanted to hurt him, he would do it directly today, why did he go here again, and said that he also has a system.

Zhang Meng thought for a while and put the business card in his pocket. No matter what, he will go and have a look tomorrow.

The next morning, Zhang Meng came to Li Kang's office building as scheduled. She knew about Li Kang's group, but she didn't expect that even Li Kang would be involved.

After entering, she explained her purpose of coming, and a staff member immediately took her to the office.

After entering the office, she saw two people sitting across from him. She had seen Li Kang before. After all, this guy had been on the financial news many times.

But the other person, she said that she had never seen it before, and had no impression of it at all.

Just when she felt curious, Qin Yuan stood up and greeted him with a smile.

"Miss Zhang, it seems that you are still keeping your promise. I am very sorry for scaring you yesterday."

Zhang Meng was taken aback when he heard this. Could it be that he was the same person yesterday?

"You... are you the one who gave me my business card yesterday and met on the rooftop?"

"Yes, because of the special situation yesterday, I could only do some basic camouflage."

Zhang Meng gasped, what kind of ability is this? To be able to achieve such a level, it seems that his system is indeed stronger than hers.

"Then what exactly do you mean by calling me here today? And I always have a bad feeling. You looked like that yesterday, and you look like this today. Who is your real face?"

It is normal to have such doubts. After all, she knows that she is not capable enough, so she will have doubts only if she is afraid.

Qin Yuan spread his hands, "I'm very sorry to scare you yesterday, but I can assure you that this is my true face, my name is Qin Yuan."

When Zhang Meng heard Qin Yuan's name, she immediately searched in her mind. She had definitely heard the name before, but she didn't know where it was for a while.

"I know what you are thinking, don't worry, I am not malicious, I am a member of the Special Operations Brigade."

Zhang Meng suddenly realized, she said why this name is so familiar, it has been mentioned in newspapers and news several times before, this Qin Yuan is a figure at the level of God of War!

Thinking of this, Zhang Meng felt relieved, after all, a person like this would not do any harm to her.

Li Kang also greeted her with a smile and introduced himself. In this way, the three of them started a formal interview.

Mainly regarding the situation this time, everyone is also a little uncertain about the situation, so just a few people get together, discuss first, and tell everyone what they know.

Zhang Meng was even more surprised when she found out that someone was manipulating behind the scenes. She didn't expect such a thing to happen.

Following Qin Yuan's introduction, her expression became more and more solemn. This was something he had never thought about before, and he didn't expect that there were so many people with the system.

"And it's nothing. What's more important is the people behind it. They use those ordinary people to experiment. We really don't know what they are doing."

"So you want to find these people to find out about the situation."

"That's right, and it can be confirmed now that the three of us are the ones with the system, and the other one has been taken away by the mysterious person behind. At this time, Li Kang also took out the list. He pointed to the person above and said: "These other people need us to investigate slowly, and we can't expose them in advance. It's easiest to leave this matter to Captain Qin. "

"If you say that, it's okay, I can choose to believe you, after all, you have shown your sincerity."

Zhang Meng is the type of a strong woman, and she is very dry in doing things. If this is the case, there is no other doubt.

She pointed to a person on the list and said, "You don't need to go to this musical genius, he has absolutely no system, and his excellence is so excellent in itself, including his parents and elder brother."

"Then if this is the case, if this person is excluded, there will be two others."

"I don't know about these two people, because I haven't contacted them before. Of course, if you are worried about that talented musician, you can also contact them."

At this time, Qin Yuan suddenly asked about the previous science and technology exhibition, that is, they received a letter at that time, and then asked them to come together to participate in such a scientific research seminar.

Zhang Meng thought about it carefully, "This is indeed the case, but I didn't have too much contact with other people that day, so what I said to that person is simply a fantasy."

The person Zhang Meng mentioned was taken away by the mysterious person behind him. That guy and the mysterious person behind him have already colluded.

Qin Yuan just felt that he was a little careless at the time. He didn't expect that the person behind him would come out and take him away under his nose, otherwise he might be able to dig out other clues.

"But we all have to be careful because the people behind the above should be very powerful, because when I questioned that person at that time, he actually hid something from me."

Chapter 1045: Zhang Meng's ability

Zhang Meng felt strange, isn't it normal to be concealed when interrogated?

"No matter how powerful you are, if you ask someone else, they won't be able to tell you everything."

Qin Yuan smiled helplessly, "If I say I can do it and ask him to tell me everything without reservation, would you believe me?"

To be honest, Zhang Meng definitely didn't believe it, because she had never seen such a powerful ability, so she shook her head.

"Your favorite is the fried chicken shop on the side downstairs of your house. Although you know it's unhealthy, you eat it every week. You must soak your feet for a pedicure when you sleep, otherwise you won't be able to sleep..."

what! !

Zhang Meng interrupted Qin Yuan before he could finish speaking. He knew himself too well about the situation.

"Are you that kind of pervert, so you've been following me?"

Qin Yuan shrugged his shoulders helplessly, "Don't think too much, and today is the second time we meet, the reason I know it is because my consciousness is strong, I can fully grasp your meaning and understand your every move. One move, and you'll tell me anything."

Hearing this, Zhang Meng blushed, "Oh, what kind of ability do you have, why... so, then you know all my secrets."

"It's not much, basically, I have a general understanding, and that's all you said."

Zhang Meng's face turned even redder. At this moment, Li Kang next to him couldn't stand it anymore. What are these two people talking about now? Shouldn't their focus now be how to figure out how to find these people on the list? Identify their systems first.

"Let me tell you two, is what you are talking about now the key point? The key point now is that we must first find out the system behind it."

Qin Yuan also coughed unnaturally, after all, it was just a joke just now.

"Ahem, so you should know why I said this. It's because the person behind it should have given her something. Even when I questioned him with such a strong consciousness, he didn't let go."

"So the most dangerous thing now is not that these have systems, but the people behind them. You just want to find us so quickly, so as not to be controlled by that person."

"We don't know exactly what organization is behind the person and who he is. It's still unknown now. It's up to him to grasp the system."

The main reason is that according to Qin Yuan's current situation, at least among the four, his own system is the most powerful.

But if the descendants are very powerful, or controlled by him, it is these systems, then maybe there is a system that is stronger and more heaven-defying than oneself, and it is okay if the person who is carrying is on his side.

If you are standing with the person behind you, it will be troublesome.

Zhang Meng still has another question, "I just want to ask, why are you sure that the people behind it must be bad guys? If they provide us with the system, then there is really such a situation, why didn't they control us early?"

"I've made a bold idea now. Maybe they have no way to control us through the system, so they can only look for the target. Otherwise, how could they use those ordinary people as experiments?"

Both Li Kang and Zhang Meng nodded. This point of view, at least for the current situation, is the most realistic.

Then the three of them started discussing again and shared their understanding of these people. At present, there is absolutely no shortage of money here, and he has already achieved the top ten positions on the wealth list.

But his system has never given any strange tasks like this, because basically they are all about financial competition or financial tasks.

For Zhang Meng, her system is more special, basically it is to complete some research and development conditions, and then get rewarded prescriptions for healing medicine, and then she will take it out for research.

Li Kang was a little disdainful, after all, what effect did he think such a healing pill had.

"It seems that among the few of us, your ability is the most weak, and it seems to be useless. Don't mind if I say this, and I am speaking frankly."

As she said that, Zhang Meng conjured some pills out of thin air from her hand.

"Who said that my ability is useless? Taking a pill like this can make you go without food for three days. Wouldn't it be better if you don't have to eat for a day?"

It was the first time Qin Yuan encountered such a thing, and he felt a little curious. He took the pill and smelled it. It didn't smell like food or anything special, but it had a delicate fragrance.

Zhang Meng was very proud. She took a pill and put it in her mouth.

"I rely on this pill to maintain my health. After taking one, I don't need to eat for three days. I just feel full and I don't feel hungry at all."

Qin Yuan himself would have no problem if he didn't eat, because his system is very powerful and can maintain his physical skills.

The abilities he recovered are definitely enough for him to maintain, so he doesn't need this pill, but his team members do.

Because then they will participate in a worldwide special team selection competition, mainly to select the strongest special team.

Then this pill could not be better for them, it can save a lot of unnecessary troubles. On the other hand, he heard Gao Shiwei said before that this challenge is very difficult.

The main reason is the difficult environment, and even Gao Shiwei and the others still don't know what it is.

"Your pill should have a shelf life or something."

"Don't worry, this thing of mine is very easy to store, and there is absolutely no problem."

When Zhang Meng heard that Qin Yuan wanted her pills, she was very proud and felt that she could help them.

"Look at what you said just now. My ability is still useful. I have to rely on my ability at critical moments. Besides, I can conjure healing pills for injuries and so on, and they can be cured immediately."

Qin Yuan just couldn't bear to expose her, he had all these abilities, and he didn't need any pills at all, he was a cure himself.

However, according to this understanding, he felt that Zhang Meng was quite a good person, at least very frank.

"There is not much time left for us now. I have at most three days here, so I have to investigate in the last three days to find out that there is one left. These two people should not be a problem."

Li Kang also patted his chest to ensure that he needed any help, especially in terms of money, he was absolutely fine.

The remaining two people, Qin Yuan, took a look at their profiles. There was a man named Zhao Tao, who had been a boxing champion for three consecutive years. This was not the most important thing. What was more important was that he challenged all the weights in all competitions.

This has broken the tradition. You must know that regular boxing matches like this are divided according to weight, but Zhao Tao is all the heavyweights he challenges, and he belongs to the strongest boxing champion in all fields. .

This is indeed relatively rare, and Qin Yuan also suspected that this guy must have a system, otherwise how could he break the routine.

Not only that, he also represented him in various international competitions.

Li Kang pointed to the results of his investigation, and said slowly: "This man is very powerful. He has not had any defeats since he started boxing."

Hearing this, Qin Yuan was even more sure that there was a system. How could there be no defeat?

It seems that you can meet this person for a while first. For the other one, he only has a code name, and his code name is 007. This is a more important thing for this guy to do for himself. He controls the largest network security system in the country.

His information is very mysterious. Under Li Kang's investigation, he only investigated some companies he belongs to and some fields he is involved in. Other aspects are unknown, and he doesn't even know the real name of this person. clear.

"Investigating this person is really very difficult. I have exhausted all kinds of means, but I don't even know his basic information. Now I only know that there is a group called Jinwei under his name."

"Then their company's signature, or this basic information should have his information, why isn't there?"

"All these things have been kept secret by him. Do you think I investigated these people through formal channels? In fact, most of them discovered so many things by hacking into their systems."

Li Kang was also very helpless. He slowly explained that at that time he had hacked into the systems of these companies in their respective fields, so he learned so much, because he was indeed rich and had a team behind him.

His network security team is responsible for the network security of all the groups under his name, and it can be said that its business capabilities are also the strongest.

Unexpectedly, 007's company system cannot be invaded at all. All his information is kept confidential, even some public information is hidden.

Even the name has been processed, so he only knows the person's code name.

Qin Yuan heard this and looked at it. Is this person so mysterious?

But I have world-class hacking skills, and I don't know who is stronger than this person.

Qin Yuan decided to go to Zhao Tao first. After all, this guy is the best to get close to. Using Li Kang's network resources, he learned that Zhao Tao is currently on vacation.

Li Kang also spent a lot of money, so he simply chartered a special plane, and the three of them took the plane and went to Zhao Tao's vacation place in person.

On the plane, Zhang Meng was delicately touching up her makeup. Qin Yuan was a little helpless. The two of them didn't know what kind of connection they had, so they wanted to come with him without saying a word.

I can only tell the two of them not to make trouble, some things can be handled by themselves, in case they don't bring the system, these two people are also on the guarantee, just follow them to see them, in fact, they want to see Qin Yuan's ability, I promise not Add to the chaos.

Li Kang looked at Zhang Meng, who was putting on makeup, with a little disgust, "I said you come with us, what's the point?"

"Mr. Li, you don't care about your money, do you? Anyway, you have already chartered a special plane, and you don't lack my seat, right?"

Li Kang gave her a blank look, what was she talking about?

"Actually, I think it's best for both of you not to come. It's better for me to handle it alone."

The two of them didn't speak for a moment, and they just waited until they came to Zhao Tao's vacation place, which was a five-star hotel. Every time he finished boxing, he would come here to relax.

It has to be said that it is easy to do things with money. Qin Yuan used to infiltrate or use some of his own methods before.

Li Kang went straight to the front desk, "Hello, I want to see which room Zhao Tao is in. He should be staying with you."

The waiter was a little embarrassed. After all, this is the privacy of the guests and they should not disclose it.

"Sir, I'm sorry, this is the responsibility of our hotel, and the privacy of the guests should not be disclosed. If you are his friend, you can call him directly."

Li Kang didn't say a word, and threw out a wad of money.

The waiter was stunned for a moment, and before the waiter could speak, there was another wad of money.

Now the waiter is not calm, "Sir, hello, Mr. Zhao Tao, he lives in room 6082, and is currently taking a bath in the hot spring pool."

The waiter was all smiles instantly, almost knelt down to Li Kang, that look was simply amazing!

Zhang Meng was full of contempt, "I said you can't use it like this even if you have money, so just find out some news Do you need such a big money?"

"I'm sorry, money is really nothing to me. It's just something outside of me. I can earn more than this in a minute."

"It's people like you that the evil capitalists hate the most."

Seeing that the two were really at odds, Qin Yuan seemed to be about to quarrel again, so he quickly stood up and stopped them.

"Both of you, now is really not the time for us to quarrel. Now that you know where he is, let's go up first."

Qin Yuan is also a big head, he really should stick to his own ideas, and shouldn't bring these two people here, one is too generous, and the other seems useless.

Fortunately, they were not performing some special missions, so they had already been exposed.

In order not to miss them, they also acted in batches. Li Kang and Zhang Meng first went to the room to wait for Zhao Tao, and then Qin Yuan came to the hot spring pool.

With Li Kang's management just now, the waiter was very enthusiastic and took him to the hot spring pool in person.

"Sir, Mr. Zhao Tao was late at the hot spring half an hour ago. If there is no accident, he should be still there now."

Qin Yuan nodded, and the waiter also left knowingly. The hot springs in five-star hotels are all exclusive to VIPs, and each room is unique.

Zhao Tao was in the room inside. Qin Yuan pushed the door open and walked in. He saw a person soaking in the pool.

Hearing someone coming in, Zhao Tao was a little unhappy and frowned.

Qin Yuan felt that this kid was pretty good, he had already reacted just after pushing, and he could hear the sound of water clearly all around, his hearing was really good.

"What's the situation? Didn't I just say that? When I take a bath, I don't want to be disturbed. What are you doing here?"

Zhao Tao thought it was the waiter who came in.

Chapter 1046: Intrude directly into the system

Qin Yuan didn't speak, but strode forward. Zhao Tao also noticed the difference. If it was a waiter, he should have quit by saying so.

Zhao Tao opened his eyes. His eyes were full of disdain. He was indeed a strong man. Standing opposite Qin Yuan, he could feel her aura. At the same time, Zhao Tao also felt that Qin Yuan was extraordinary.

Zhao Tao spoke first, "Are you my enemy, or when did I beat you? I don't remember at all."

"Why do you think I will be your enemy? There is no other possibility."

"Hahaha, this is my confidence in myself. It is absolutely impossible. The people I meet in this life will not be friends, but enemies. If so, then come directly."

"Although I am not your enemy, I also want to find out your reality."

Zhao Tao was very confident in himself. He stared at Qin Yuan coldly, jumped up from the pool, and then pulled the towel beside him to wrap around his body.

"Let me tell you, don't be so crazy. The person who said that to me last time has already been beaten down by me. It seems that you are the second."

What Zhao Tao didn't expect was that Qin Yuan was faster than him and jumped over the pool directly from the opposite side. Is this height a normal person can do? Zhao Tao was completely stunned.

"you..."

"Stop talking nonsense, start fighting if you want to fight, and let me see how strong you are."

Qin Yuan has the title of world-class boxing champion, and he also has a world-class gold belt, plus the strength of his punch, that is already 1000 kilograms, which is considered to be a hard fight.

So he was very confident. At this time, the system also issued a notification tone.

"Ding! Remind the host that the other party has a system."

"Can you check out what kind of system he is? How about attack power and threat? Can this one be analyzed?"

"Answering the host is currently not possible. You need to upgrade the system to the Zunhua system before you can predict in advance. Now you can only sense the existence of the other party's system."

"But the host can rest assured that this system is currently the most powerful system."

This is undeniable, indeed.

The corner of Qin Yuan's mouth raised, and he directly punched Zhao Tao who was facing him, and this Zhao Tao was also considered a small boxing champion, and his reaction was also very quick. Because of his own system, his agility was stronger than ordinary people.

He ducked down to avoid Qin Yuan's attack, and then kicked Qin Yuan's chin, and Qin Yuan punched him in the leg.

Then there was another whip kick, kicking him directly on the shoulder, unfortunately, it was only a little bit close, originally he was aiming at the chin, if this kick hit the chin.

Then Zhao Tao probably won't be able to stand up. This guy does have a system, so his body is more agile.

And Zhao Tao on the other side was also a little surprised. You must know that his physical reaction is ten times that of a normal person. He didn't expect that he couldn't escape this person's attack.

The important thing is that the strength and speed of the person opposite him is higher than him, so Zhao Tao couldn't help but become a little cautious.

He also began to show his true strength, not to mention that Zhao Tao is really good. You must know that He Chenguang and the others in the red blood cell group are also very good at boxing, and they also pay attention to proficient fighting, but they are basically opposite to Qin Yuan. No less than ten strokes.

At this time, the two actually fought on par. Qin Yuan thought it was quite interesting, and this guy's system was also very strong.

However, he also wanted to fight quickly. He had been holding back his strength before, but this time he let go of the punch completely, and the speed became faster, and he punched him directly on the shoulder.

Zhao Tao hadn't reacted yet, he just felt a pain in his chest, two punches hit his shoulder, and the other punched his chest, he couldn't help being a little surprised.

He was actually able to be hit. You must know that since the system was installed, his agility was very strong and he was rarely hit.

Then Qin Yuan punched him in the abdomen again, and Zhao Tao was knocked down to the ground like this, his face was full of disbelief.

"This...how is this possible, you can defeat me."

"There are so many impossible things in this world, and let me tell you, I only used 30% of my strength to fully achieve you."

"Thirty percent!"

Qin Yuan smiled. Seeing his unbelievable appearance, he walked to the side where there was a marble table. He slapped it down with his palm, and the entire marble table was instantly reduced to dust.

Zhao Tao opened his mouth even more, which is simply too exaggerated. This marble table is solid, and it shattered with just one palm.

Zhao Tao is not the kind of person who only has brute force. He is relatively smart. He has his own system now, and he didn't expect that even the system can't solve it.

"You are simply too powerful! Your boxing technique is very weird, and your speed is also very fast. How did you do it?"

Qin Yuan didn't answer him, but walked towards him with his hands behind his back, and when he reached out to pull him up again, he and he started to look at each other. He was just hypnotizing Zhao Tao.

He mainly wanted to make sure whether Zhao Tao had anything to do with the mysterious person behind him, but after some inquiries, he found that Zhao Tao was also unaware. From the current point of view, the problem should not be serious.

The situation is different from the previous inquiry. Zhao Tao and Zhang Meng have no self-awareness and can answer the questions according to their own questions.

It was the first time he controlled the doctor of biopharmaceuticals before, and she couldn't answer many questions at that time, as if her mind was still being manipulated by someone on the other side.

So Qin Yuan was sure that Zhao Tao was also safe, at least this person could be recruited, because his strength was really good and he could fight with him.

In this way, Qin Yuan also withdrew his own strength, and Zhao Tao also woke up from his confusion.

"What's going on here? I was in a daze just now, what's wrong?"

Qin Yuan stretched out his hand to shake his hand, "Hello, we are the same person, I came to you, not to trouble you, but to tell you about other related matters."

"Same person? What do you mean? I don't understand."

"To put it bluntly, we are people with a system."

Zhao Tao's eyes widened even wider. He never thought that the other party also had a system. No wonder the power would be so strong. Before this, he must not have believed it, thinking that someone deliberately deceived him.

But he had been completely defeated just now, the opponent's strength and speed were unimaginable, he must have the same system as his own, and his system was stronger than his own.

At this moment, Zhao Tao is thinking in his heart, mainly because the other party's system is stronger than his, and he is very worried about what the other party will do.

Just when he was about to ask questions, Qin Yuan made a silent gesture because he heard a waiter coming from outside.

Within two minutes, a waiter walked in, opened the door and saw that the front had been completely shattered to the marble table.

The waiter was also completely stunned, what's going on? He heard the noise just now, but he didn't expect the marble table to shatter.

"Two guests, this... what's going on, you are not injured!"

Qin Yuan hurriedly laughed and said, "I'm sure I'm not injured, but the quality of your table should be strengthened. It will break if you touch it lightly. This is simply a tofu project!"

The waiter was also full of doubts when he heard this. Is it really a problem with the quality of the table? I can only apologize first.

"The two guests are very sorry for making you have a bad experience, so I will change a room for you now, and I will call someone to deal with it immediately."

Zhao Tao said no, he is going back now, after all, he is full of questions now.

Just like that, the two came out, the waiter walked over, squatted down and looked at the shattered marble table, he couldn't help but gasped, it was all real, why did it shatter.

He really couldn't figure it out, but he also asked people to come over and deal with it first.

In addition, Qin Yuan brought Zhao Tao to his room. Before he could open the door, the door was already opened from the inside. Li Kang and Zhang Meng were sitting inside watching TV.

Zhao Tao was speechless for a while, what's going on? Someone was in his room out of nowhere, and just as he was about to get angry, Qin Yuan stopped him.

"They are all their own people."

Zhao Tao was even more speechless. He didn't say anything about his own people, he became his own people, and these two people were too exaggerated, so familiar, they appeared in his room for no reason.

Qin Yuan was also quite speechless to these two people, didn't he say that he would wait for him outside?

"I'm really curious, how did you two get in?"

Li Kang patted his pocket disdainfully, "I can't help it, I seem to have nothing but money."

What a speech in Versailles, Zhao Tao didn't know what to say, just like that, Qin Yuan and Li Kang told Zhao Tao what happened before, and after confirming that they all existed in the system, Zhao Tao this time Only then did I react.

"I really didn't expect that there are so many people with systems on their bodies. I thought I was just one before."

"Before I met you, I thought the same way, but our system division of labor is different."

When controlling Zhao Tao just now, Qin Yuan's system had already analyzed his system, and his system was simply an attack system.

His system is very different, mainly to perform various tasks. The general system proposes to complete a certain game, or obtain a certain achievement, and then improve his strength and speed. His situation is constantly rising.

That's why Zhao Tao has to keep participating in various competitions and challenge boxing matches that are more difficult than himself.

Because this is also a task given by the system, he must complete it in order to improve himself.

Zhao Tao is a bit more serious about this. Basically, he walked out step by step on his own. Qin Yuan felt a little dark in his heart. To be honest, it seems that his system is still quite against the sky, and he can choose to recycle directly.

But in front of everyone, he still doesn't want to show it. He just said that among these few people, his system ability is currently the strongest.

Zhao Tao's side has been resolved, and he is also straightforward. After knowing the ins and outs, he chose to join Qin Yuan and the others directly to investigate the truth of the matter with them. After all, compared to them, the mysterious person behind seems to be more threatening to them. .

There is no problem here, but the biggest problem is that 007.

Li Kang called his subordinates, and then took a document, which basically had no usable information.

"I really tried my best. I spent a lot of money on this thing, but I didn't find anything out of the investigation."

Qin Yuan smiled, since he is a hacker, then use the hacker method to find him, this guy, he really wants to see whether his world-wide hacking skills are better, or this guy is better.

Zhang Meng urged everyone to set off now, don't waste time, because Qin Yuan doesn't have much time left, and he still has important military affairs behind him.

Unexpectedly, Qin Yuan crossed his legs and looked relaxed, and he didn't intend to set off at all.

"I said you are not mistaken, time is short, let's go now."

Qin Yuan said confidently: "Just relax, I will let that person come to us on his own initiative, just stay at ease now."

Zhang Meng didn't understand the situation for a while, but the ability of willingness is too mysterious. His ability seems to be involved in all walks of life, and he is stronger than them.

Qin Yuan looked at Li Kang and said, "Can you get me a computer over there? As long as I have a laptop, I can let this kid come to us right away."

This is of course a small problem. Li Kang didn't say much. A few minutes later, his subordinates brought several laptops of various brands.

Qin Yuan felt that this guy was really rich and stupid. Even if he was rich, he couldn't make it like this. He just said that any computer would do, and he took out so much in a hurry.

"Mr. Qin, take a look at which one you want and choose it at will. If these don't work, I'll let them find it."

"That's enough. I just need to be ordinary. Let me tell you how rich you are."

Li Kang smiled, "Actually, I have concealed my financial resources. Currently, I am ranked among the top three in China, but I am also ranked in the world. Don't worry."

Zhao Tao has no concept of this kind of money, after all, his focus is all on punching.

Qin Yuan didn't want to say anything more, so he just took a computer randomly, and then started his manipulation.

The main reason is that he wants to hack into the system of the company that 007 is in charge of. Such an intrusion is very simple for him.

He has the title of a world-class hacker. This is very easy for him. As long as he invades the other party's system, the other party must be aware of it.

Since I can't find the mysterious 007, I can ask him to find me.

Under Qin Yuan's operations, 007's company has become a mess at this moment.

First of all, the system webpage of their entire company was completely paralyzed, and they were in a state of network disconnection. This was very strange. The network cables were all connected normally, but there was no way to complete other network work.

Chapter 1047: fish hooked

As the person in charge of their group company, 007 is also responsible for the security of the entire group's network. She did not expect such a thing to happen.

When the secretary reported to him, he was also a little confused. What's going on?

But when he turned on the computer system, he saw several large characters appearing on the screen.

"If you have the ability, then find me!"

This is simply a naked provocation, the entire computer is completely uncontrollable, only these few characters are constantly flashing.

007 felt that he had been provoked. He couldn't figure out who was targeting him. He had to know that the network security of his entire company system was designed by himself. It was absolutely impossible for him to go wrong. Someone was able to break through his firewall.

And it was done so quietly that he didn't even notice it, and judging from the traces, they directly invaded his network system in less than five minutes.

007 was also a little surprised. He squinted his eyes and looked at the flashing big characters in front of him.

The secretary next to him was a little anxious. After all, the entire company's network has been completely paralyzed now, and they must find a solution as soon as possible.

"Chairman, what should we do now? The colleagues in the network security department are also helpless, and now we can't run any work at all."

007 snorted coldly, isn't this nonsense? How could those people handle things that even he couldn't solve?

It seems that we can only use the system, 007 thought of this and clicked on the system! His network security is to use the system to analyze, which can be traced back to the address of the person who invaded his system, including the information of the other party.

As long as the other party uses the Internet, he can find the address. This is his chance of winning over the years.

But this time it was very strange. He summoned the system, and no matter how he hacked and tested it, he couldn't figure out the other party's address.

It feels like the other party just appeared out of thin air.

Just when he was still wondering, suddenly the entire company's network returned to normal, which only lasted for half an hour.

"Chairman, it seems that you still have to take action. With your action, the entire network of our company has been restored."

007 didn't say anything, and when the secretary went down, his brows were tightly frowned, because he didn't do any operation at all.

This shows that the other party let it go on purpose, and it is absolutely impossible that his firewall system was restored again, and it did not recover so quickly.

It seemed that the strength of the other party was higher than his, and then a call came in. It was a call from a stranger, and 007 would not normally answer this kind of call.

But this call was made twice in a row, and 007 still pressed the answer button.

"Hey!"

"Well, how about this surprise? Although I don't know your name yet, I have successfully hacked and copied your phone. If you want to play again, I will accompany you to the end."

This person is Qin Yuan. At this moment, he called triumphantly. In just half an hour, Qin Yuan already knew 007's personal phone number, his address, and his usual office hours.

He just hacked into their company's system and forged part of 007's mobile phone data. Because this person is still cautious, he can only see part of the situation.

"Who on earth are you? Why did you suddenly hack into my company's system? Do you know what this half hour means to me?"

"Of course I know this. If it takes half an hour, you may lose several million, but rest assured that I will compensate you for this sum of money later. It just depends on whether you have the courage to come to see us."

007 snorted coldly, this is a complete provocation, it is too exaggerated, but the strength of the other party is indeed higher than him, and he was able to find his phone number.

This is not his private phone number, almost few people know about it, and he didn't expect it to be investigated by the other party. More importantly, he doesn't know what the other party's purpose is now.

Because it is also the Internet age, 007 also feels that he has been cheated in this situation, including his opponents and previous partners. He can grasp all the information of others with just one intrusion, and he knows them well.

Unexpectedly, it was the other way around this time, he didn't know anything about the situation, but was directly caught by the other party.

"You know, I'm not talking about the millions for half an hour, these things are not important to me, I just want to know how you did it."

"I'll give you one more chance, if you can find me, then I'll tell you who I am."

Before 007 could speak, Qin Yuan who was on the opposite side directly hung up the phone.

He squeezed the phone tightly, feeling that he had been challenged, and he had to complete this challenge, otherwise the things he was proud of all these years would be trampled on the ground.

Sure enough, the phone just hung up, and the situation just now happened again, but this time it was replaced by a string of codes, not those numbers.

In fact, these codes are also a loophole given to him by Qin Yuan. If he really wanted to make no traces, then he would never be able to find out.

This is the level of a world-class hacker, which has reached the highest peak. This is the horror of Qin Yuan's recycling ability, which can easily surpass others.

On the other side of the room, Li Kang and Zhang Meng didn't understand.

Zhang Meng looked at Qin Yuan and asked strangely: "You already got his phone number just now, why didn't you just tell him our address and let him come to us like this? What if he doesn't come to look for us?"

"That's right, Captain Qin, aren't you asking for trouble? Why don't you just tell him the address and let him come here?"

Qin Yuan smiled, this was originally his plan.

"You don't know this person too well. How is it possible that he is so cautious? He will come when I ask him to come. Only in this way, he will come because he is challenged."

Zhang Meng was a little dubious, but 007 in the other office had already started manipulating, Qin Yuan guessed right, he was always very cautious.

And he is very conceited, mainly because he has always been a top talent in network security in the past few years and has never received such a challenge.

For him, this is a professional challenge. He must meet this person, which is really crazy.

Through systematic analysis, 007 caught something from the string of codes, as long as he surfs the Internet, he can leave traces, which is also a must for their cyber hackers.

The corner of 007's mouth rose, feeling that he had caught the opponent, he quickly searched for this trace, and then retrieved the address from it.

"Hehe, I thought it was so powerful, but I found it, so I have to go and see for myself, what kind of ghosts and monsters it is."

At this moment, 007 was very happy that he had deciphered the other party's address, so he directly led people to Qin Yuan's location.

However, what he didn't know was that this was originally a back route that Qin Yuan deliberately left for him. If Qin Yuan didn't leave this gap for him, he would have no way to find it.

After all, what Qin Yuan possesses is world-class hacking skills, he can completely fork or re-change the address.

When 007 came to the room, for the sake of safety, he asked the bodyguards behind him to wait for him downstairs, since he was in this hotel anyway, nothing would happen.

He knocked on the door, and it was Zhang Meng who opened the door, which surprised 007. He didn't expect it to be a woman, but following him, he saw three men in the room.

For a while, he was a little cautious, hesitating whether to go in, after all, if he couldn't get out after going in, it would be troublesome.

Qin Yuan, who was sitting on the sofa, spoke first, "Why are you already here, and you dare not come in just one last step? What do you think we will do to you?"

"Hehe, how do I know about you, you have invaded my company's network security, do you still expect you to do good things to me?"

"Don't be so excited, if we don't do this, will you come to us? And if we want to hurt you, there is no need to use such a stupid and troublesome method."

007 gasped, he actually said that this method is stupid, this is his specialty.

"You don't have to put on a high-spirited look there. To tell you the truth, I revealed this address to you on purpose, otherwise you wouldn't even try to find it."

Only at this time did 007 feel that something was wrong. He took out a handheld computer and searched it quickly. Sure enough, he was led by the nose for everything.

For a moment, he froze in place, but the field he was proud of was unexpectedly being tricked by others, and others were leading him from the beginning to the end.

This is simply unbelievable. There is actually someone who is more advanced than his hacking skills. It is indeed above his ability, and even he cannot do it.

Just like that, 007 became more and more curious, and walked into the room directly.

Qin Yuan also kept a long story short, and told him about the system straight to the point. 007 didn't expect that his own system had been found out, and he still couldn't believe it.

"How did you do it? How did you know about my system? I have never revealed anything about myself in any network."

Until now, 007 has not reacted. He always thought that the other party knew the existence of his system through the means of network hackers, but this is absolutely impossible.

At this moment, Qin Yuan stood up and smiled at him, and then 007 became unresponsive, and sat on the sofa in a daze.

This scene completely stunned the people next to him. The guy saw what he meant. When he lost consciousness before, he was also controlled by him in this way. They thought it was so difficult, but they didn't expect that in just a few seconds, they could take a person completely under control.

Li Kang was so frightened that he quickly held his head and pinched himself to make sure that he was not in a dream or illusion. This ability was simply too terrifying.

Zhang Meng pursed her lips, "I have to say, this is your previous strategy? This ability is really too strong, no wonder you know me well."

"Don't worry, I'm doing this for the sake of safety, including when I got to know you before, I just had the idea of ensuring safety, and I didn't do any harm to you."

This is indeed true, but it is really uncomfortable to be seen through by others at a glance. Zhang Meng can't help but shudder, the person in front of him is indeed terrifying.

The reason why Qin Yuan did this was to determine whether the real identity of 007 had anything to do with the person behind it.

After some cross-examination, 007 really didn't know about the mysterious person behind him. He was also kept in the dark, and his real name was even asked.

This guy's name and himself are really dissatisfied. His appearance is that of an elite high-end person, but his name is actually called, "Liu Baobao."

And this is indeed his real identity information. He is indeed called Liu Baobao. Zhao Tao next to him can't make a sound of laughing. This is too exaggerated. Such a big person is called Liu Baobao.

"So I should know why he changed his name to 007. After all, a high-end elite hacker can't be called a baby!"

When Liu Baobao woke up, he looked around, and everyone had a smirk on their faces.

He still doesn't know what's going on, Qin Yuan next to him said with a smile: "Relax, don't be nervous, we are all the same kind of people, because we all have a system, so I know what's wrong with you. system."

Liu Baobao gasped when he heard this, so many people had systems, he thought he was the only one.

Zhang Meng even made a long story short by the side, going through some of their things quickly, mainly to give him some basic explanations and tell him what happened.

The more Liu Baobao listened, the more he felt a layer of cold sweat break out on his back. The water in it was too deep. As a senior network hacker, he didn't even have the slightest understanding of these things.

This is simply unbelievable. is mainly because they have been in contact with other fields before, and they are completely immersed in their own network security.

He felt that the network software he produced was all rewards given to him by the system, so it was basically safe and correct, there was no problem, and he had not investigated other people.

Unexpectedly, so many things happened outside. He stared at Qin Yuan, mainly because Qin Yuan's ability was much stronger than him, so he was still a little cautious about Qin Yuan.

"You say so much, how can I be sure that what you say is true? What if this is just a means you use to deceive me. "

"Then how do you believe it, Baby Liu?"

Just hearing this name, Liu Baobao blushed. This was the biggest secret in his heart, and he couldn't reveal it anywhere.

Now he believed the other party completely, and they were indeed people with a system.

Liu Baobao's expression was a little unnatural. After all, Qin Yuan said this name, and everyone else laughed.

Chapter 1048: Substitution

"You guys are enough, there's no need to talk for so long, and you don't need to talk so loudly."

"I'm sorry, it's really really funny, and the contrast with you is really great."

Zhang Meng was covering her stomach with a smile. Looking at Qin Yuan's confident face, Liu Baobao really couldn't see through this person in front of him. Apart from these, does he have other abilities?

"I want to know what else is in your ability, or is it just a simple network ability like this."

"You don't need to know too much about my ability, because I can say that among these few people, my ability is the strongest."

Liu Baobao looked around. According to Zhang Meng, she is a woman, so there should be no problem. Among these people, Zhao Tao was the strongest in his first sense.

Because Zhao Tao was originally a boxing champion, he maintained a very good figure, with muscles all over his body, he looked very difficult to mess with.

Unexpectedly, when Qin Yuan said this, Zhao Tao did not refute anything, instead, there was a trace of admiration and fear in his eyes.

Qin Yuan watched Liu Baobao stand up and patted him on the shoulder, "These are not the point now, the point is what you think, we have already told you everything we know, and this is also the clue we have so far. "

"If what you said is true, then I would like to know, besides us, are there other people with systems?"

Qin Yuan also shook his head. To be honest, he really didn't know about this. Even this list was provided by Li Kang, and Li Kang discovered it by accident.

"These things are unknown now, but at least we can be sure that someone is manipulating all of this, and the most critical person has been taken away, so now we must unite and take precautions."

"Yes, this is the key point. We must not be manipulated by the people behind us like this."

Liu Baobao felt that what they said was also reasonable. According to the division of system capabilities like this, he should not be considered the weakest among these cards. After all, this guy was also very conceited before, and he always felt that his abilities were very strong.

"There is nothing wrong with our cooperation. It is possible, but apart from your ability, I have never seen the ability of the others."

Li Kang smiled, and then made a phone call. After a while, Liu Baobao's cell phone rang.

He picked up his phone and saw that it was a transfer message.

"In fact, my ability can be regarded as superpower. After all, I have absolutely no problem in business. Now the industry is getting bigger and bigger. I just called you 10 million of the millions you mentioned just now. , I wasted half an hour of your time."

Everyone present had black lines on their faces, and this guy really gave money as he said.

And 10 million people just threw it out without blinking their eyes.

Liu Baobao was stunned for a moment, well, he really has no way to compare this ability, he also shook his head when he saw Zhao Tao, this guy was not easy to mess with at first glance, and finally turned his attention to Zhang Meng.

Zhang Meng saw what he meant at a glance.

"What kind of eyes do you guys have? Do you think I'm so weak? Let me tell you the truth, I think your ability is the weakest among us."

"What! What do you mean, woman?"

"It means literally. After all, if the network is safe, we only need Captain Qin. As for your words, we can't say for sure."

Liu Baobao was so angry that it was the first time that someone looked down on her so much. In his knowledge, he felt that his ability was the strongest.

"Then tell me what your system is, is it really better than mine?"

Zhang Meng didn't say anything, and walked up to him and brought him a cup of coffee, "All right, then admit that you are amazing. Among this group of people, I am indeed the weakest."

Liu Baobao admitted that Zhang Meng had taken the initiative to admit it. The corners of his mouth turned up, and he didn't have much doubt. He took the cup of coffee and drank it, but immediately felt dizzy for a while.

Then he fell down on the sofa and lost all strength in his hands and feet in an instant, but his brain was still awake.

Zhang Meng stepped forward with a smirk on her face, "How is it? Do you still think my ability is the worst? For example, you can't move at all now. If I don't give you the antidote, you may remain like this for seven years. Hours."

And Liu Baobao can't even speak now, only his eyes can move.

Zhang Meng just gave him a small warning, and didn't make things difficult for him. She took out another pill and stuffed it directly into his mouth. Within a few minutes, Liu Baobao completely recovered.

Liu Baobao recovered and stared at Zhang Meng vigilantly. The person in front of him was so dangerous that he was drugged without any precaution.

Qin Yuan just felt that they were all playing tricks, and he didn't care about this at all.

However, Liu Baobao's ability is still very strong. Now that Qin Yuan is about to return to the team, they still have a lot of things to deal with.

"But your ability can't be wasted. Now I need to return to the team. As you said just now, since you have such network ability, it is the Internet age after all. You need to pay attention to the investigation and see if you can find other players with system people."

Hearing what Qin Yuan said, Liu Baobao, who had no confidence just now, saw hope in an instant.

"This is my forte. You can rest assured that there will be no problem. I will definitely be able to complete the task."

If this is the case, then it is not a big problem. Since several people have united together, now Qin Yuan needs to return to the team, and the outside affairs can be temporarily handed over to them.

"I don't have much time in the future, so I hope you guys don't let me down. If you want to get in touch, I can write directly."

Li Kang said that there is absolutely no problem, and he will not be as reckless as last time.

Qin Yuan felt fortunate that he found out in time, if these people were instigated by the mysterious person behind the scenes, it would be more troublesome.

So they still need to investigate now, how many such people are there, and they also need to step up time to take precautions.

After they separated, Qin Yuan also returned to the team. This week, he investigated a lot of things. After returning to the team, the atmosphere became tense, because they would represent the Yan Kingdom.

Gao Shiwei also directly gave him a list. He is really familiar with the names of the teams on this list, and he has cooperated and contacted more or less before.

Qin Yuan held a meeting with the team members with this list, and Li Erniu saw a familiar team name on the list.

"Alpha team? Why did their team participate this year? I remember they said before that they would not participate in any form of competition. They felt that such a competition was meaningless."

"That's because we also participated this year. Didn't you find out? We have unknowingly made our reputation, and many special operations teams have already regarded us as opponents."

Look carefully at this list, not only the Alpha Squad, but also the Flying Eagle Commando from the United States, and the Lightning Squad from the A Country. These special forces teams are all relatively good, and they are still quite famous in the world.

Unexpectedly, all of them came to participate this time. The competition will start tomorrow. They just got the list now. More importantly, they don't know the specific competition process, time and rules.

Everyone gathered in the cafeteria to discuss. Gao Shiwei walked in with a solemn expression holding a notice.

"Qin Yuan, you come out first, I have something to tell you."

Seeing that he looked very serious, Qin Yuan hurried out without delay.

Gao Shiwei struggled for a long time, and finally said, "Qin Yuan, let Long Xiaoyun and the others go for this match."

what! !

Qin Yuan was very surprised when he heard the news. What's going on? Why did they say they want to change in a short time? Besides, their ability must be higher than that of Long Xiaoyun's Wolf Warriors team!

"Captain Gao, is there any mission on our side? That's why there are temporary substitutions."

Gao Shiwei also didn't want to deceive Qin Yuan, mainly because this time the competition was very cruel, and it was very likely that the entire team would be wiped out.

And judging from the list this time, the ace teams from various countries have already been sent up.

Gao Shiwei also struggled for a long time. To be honest, he also had selfish intentions. It was really not easy to cultivate such a red blood cell team. Coupled with the sacrifice of Xu Tianlong before, he was even more shadowed.

Compared with the Zhannan squad, it is more meaningful for the red blood cell team to stay, and they can do more things.

Although this statement is cruel, it is the fact that they need to survive the fittest.

The two special forces teams are the teams they are most proud of, but now they have to face a choice. This time the game is really cruel.

So he could only choose to let the Wolf Warriors team go. After all, the specifications of the red blood cell team were kept up to this point, and he didn't allow any other mistakes.

Gao Shiwei didn't speak for a long time, Qin Yuan was a little anxious, "Captain Gao, what's going on? If you tell me something, I'm sure I can understand it."

"Anyway, you have to know sooner or later, so I'll just say it directly, because if you go this time, it will be a narrow escape. Do you understand what I mean?"

"If it's a narrow escape, then we should be allowed to go, and the Wolf Warriors squad shouldn't be allowed to take this risk. Their ability is indeed not as good as ours..."

"Qin Yuan! Didn't I understand enough? I just know that their ability is not as good as yours, but it's really dangerous to go this time. What if your entire team can't come back?"

Gao Shiwei couldn't help raising his volume. He really didn't allow any unexpected situation in the red blood cell team, because this was his last trump card.

"Your red blood cell team is not only you as a representative, but more importantly, you are now our last trump card. You are absolutely not allowed to do anything, do you understand?"

"But the Wolf Warriors team absolutely can't go. I have the ability and I can take charge. I can definitely bring them all back."

"It's nice to say that you can be responsible. What happened to Xu Tianlong before that? Did you bring him back?"

Gao Shiwei didn't want to talk about Xu Tianlong at first, after all, it was also a thorn in Qin Yuan's heart, but now, he has no choice but to let the red blood cell team die.

Seeing Xu Tianlong, Qin Yuan lowered his head, he is very capable, he saved so many people, but he couldn't save his brother.

He really didn't expect something like that to happen, and that's why he wants to strengthen everyone's abilities, because he doesn't know if he can protect them 24 hours a day.

At this moment, there was a sudden sound behind him, and all the members of the red blood cell team came out.

"Report to Team Gao! Our red blood cell team requests to play."

"Report! We volunteer to fight!"

He Chenguang and the others expressed their wishes one after another, and even the youngest Qin Zhengyang was very firm.

If Gao Shiwei didn't get angry, didn't these guys disobey his orders? It's just nonsense.

"What are you trying to do? Are you trying to threaten me like this? Don't you understand what I mean? You are the trump card in your hand, and you must not play it like this at will."

"Team Gao, it is precisely because we are the ace that we can come in handy at critical moments. You can't always keep us behind. If we let the Wolf Warriors team go this time, it will really be an unprecedented battle." loss."

Gao Shiwei did not expect these consequences. There is no way to sign up like this. He originally didn't want to participate in this way, but this time basically all countries have already participated. It is really unreasonable for them not to participate.

He was also reluctant to part with the Wolf Warriors team, but in comparison, he could only make such a choice.

Qin Yuan was also very embarrassed to see him, and walked forward with a standard military salute.

"Captain Gao, I, Qin Yuan, promise to bring them back safely If Xiaoyun and the others go, there is really no chance."

"That's right, Team Gao and Team Dragon are actually very capable. In addition, we have been receiving training before. If we let them go suddenly, they may be caught off guard."

This analysis is quite reasonable. Gao Shiwei was already very entangled, but now he was a little shaken by what they said.

He turned his head and looked at these players who volunteered to play.

"But you all know what I just said. This time the game is really dangerous."

"Captain Gao, our red blood cell team has never performed any missions that were not dangerous. We can't do this, so let's not perform them."

After a long silence, Gao Shiwei sighed deeply.

"Forget it, I really don't want to talk to you guys anymore, go in and eat."

In fact, Gao Shiwei had already made a decision, and he didn't know what his situation was, so he became more and more cautious now.

Chapter 1049: original contest

It was really Xu Tianlong's previous sacrifice that caused him a certain blow. After all, the red blood cell team is indeed his trump card.

Every country has an ace team like this, so Gao Shiwei also has his own selfishness, although if they really can win this competition.

Then they can go to the world rankings, and their red blood cell team will be able to achieve the greatest reputation in the world.

But such a situation is also accompanied by risks, so Gao Shiwei is very entangled.

After Gao Shiwei left, Qin Yuan turned his head and saw that Long Xiaoyun was actually there the whole time.

Of course, Long Xiaoyun knew the strength of her team, and she definitely couldn't compare with the red blood cell team. In fact, she also agreed to change her team.

She stepped forward and looked at Qin Yuan seriously, "Qing Yuan, actually, I think what Gao Dui said is right. After all, it is really suitable for us to go this time. There is no need to bring everyone together."

"Xiao Yun, that's not what I mean. I don't mean to look down on you, but if it's dangerous, then we should go. I have the confidence to bring everyone back. You have to trust me."

"But there are too many unknown factors, I'm really worried..."

"Don't worry, there will be absolutely no problems. Our team has performed so many dangerous missions, and it's not bad for these few times."

Qin Yuan's attitude was very firm, Long Xiaoyun knew that as long as he made a decision, there was basically no room for maneuver.

More importantly, after Gao Shiwei made his decision just now, Qin Yuan's system also issued a notification tone.

"Ding! The host triggers the mission, leads the entire team back safely, and gets 50,000 merit points!"

"During the competition, every time you eliminate a team, you will get 100 merit points!"

At that time, Qin Yuan was thinking about eliminating other teams in the competition to get 100 merit points, which means that this task is not difficult, so the rewards given are not that high.

But for the reward of 50,000 directly, the higher the reward, the higher the risk, so he also knows the difficulty of this competition.

Anyway, no matter what, he must participate in this competition, and there are still many things waiting for him to do. In addition to this competition, there are also those mysterious people and people with systems behind them. He went to solve the riddles one by one.

Qin Yuan's attitude was very firm, and Gao Shiwei personally came to see them off the next morning. This time, the conditions were very strict, and the team went independently.

The departure time of each country is about the same. At this time, everyone still has not received any information about the rules. According to the requirements of the organizer, they need to get on the plane, and the rules will be released after ten minutes.

Gao Shiwei can only explain that they must pay attention to safety and bring everyone back. The ranking is not important and safety is the most important thing.

"Qin Yuan, I believe you have this ability, and I also hope that you can do what I promised. Remember, there must be no one left."

"Captain Gao, they are all my brothers and comrades-in-arms. No matter what, I will definitely bring them all back safely."

Just like that, Qin Yuan and the others boarded the plane, and Long Xiaoyun led the Wolf Warriors to salute them below. No one knew what was going on with this mission, but it must be extremely dangerous.

Ten minutes later, Qin Yuan and the others received a message on the device they were holding. The rules of this game finally came.

Good guy, this gave them a big blow at the very beginning. Originally, for a competition like this, at least registration was required, and then the organization was organized to determine which area the hair was in for the competition, but none of these.

When they signed up, the organizer had already registered, so there was no need for such steps, which meant that they were already in the competition from the moment they got on the plane.

This time their arena is very large, spanning more than half of North America, with a total of 37 special operations teams participating.

Such a number of people is unimaginable. Basically, they are the elite of the elite, and 37 teams are deployed in North America.

The locations where they were dropped were also random, but within the scope of North America. The only requirement this time was to successfully survive a month, and there would be a chance to resupply at the landing location, and that would be the last time.

In fact, such rules are also clear. The 37 teams are all competitors. They will only supply once, that is, when they land, and then the remaining supplies must be plundered.

There is no ranking in this rule, only the only condition is to last until one month later, the imagination space is too big.

All teams are competitors. After a month, there may be only one team left, or how many teams will be left depends on everyone's ability. This is the real version of Survival on a Deserted Island.

After Qin Yuan finished talking about the rules with everyone, he also frowned. A month is indeed quite a long time, but he had prepared beforehand. He asked Zhang Meng to give him some pills. He just took one, and it lasted three days. A pill that won't starve you.

But he can only put this pill in the food in the later stage, so that everyone can eat it, so as to maintain physical strength.

After all, he had no way of explaining what the pill was for or where it came from.

In this way, the helicopter flew for another hour, wishing they received a message again, this time they directly contacted the navigation of their plane, and a positioning has been sent, and these positionings are also random.

Ask them to land on the positioning.

When they arrived at the fixed point like this, the helicopter pilot could only wish Qin Yuan and the others safe, after all, such conditions were indeed too harsh.

Not only do they have to face the other 36 teams this time, but more importantly, they have to test their abilities for a whole month.

And during this month, there will be people from the organizer who will chase them down from time to time.

This kind of selection is indeed too harsh. Li Erniu and the others only care about what kind of equipment and weapons are below. If the weapons and equipment are better, then it's okay. What he hopes is to have a sniper rifle in this situation. After all, all equipment is unknown.

"Brother Qin, if there is a sniper rifle, that would be great. We can lay an ambush for a whole month, otherwise the other guns will make too much noise."

"The sniper rifle should be the standard equipment. It is the standard equipment for the entire special operations team. There should be some. Let's go down and look at it later. Everyone is now ready to parachute."

In this way, Qin Yuan took the lead in jumping down first, and the team members also jumped down one by one.

What is more user-friendly is that this time there is a big target point below, everyone can see the landing point, and the staff will come forward after jumping off.

These staff mainly came to check their equipment, because they had to hand in everything except the weapons and equipment provided by the organizer.

Including all positioning devices, such conditions are indeed quite harsh.

He Chenguang was a little puzzled. The watches they were wearing were their special team positioning watches. If something dangerous happened, everyone would rely on this watch to find their location.

"Brother, let me tell you that you don't need to be so exaggerated. This watch is our own positioning system. You can take it away if you don't need it."

"Sorry, this is our rule. Any positioning device will be regarded as a tool for cheating, so everything will be taken away, and we will provide you with our equipment uniformly."

Good guy, everyone is talking about this, so it's hard for everyone to say more, take out all the equipment on their bodies, including the bulletproof equipment they carry.

It's just that when everyone saw the equipment they provided, they were instantly dumbfounded. If they read correctly, this is equipment from the 1940s and 1950s, right? Who has seen this kind of rifle now?

Not to mention the quality of the body armor. All the equipment is a unified eight-bar rifle. The range of this thing can only reach 800 meters.

Then there was a dagger and a pistol.

Each person only carries 100 rounds of ammunition. This kind of condition is too harsh. If you want to survive for a month, you need to rely on this little thing.

Qin Yuan couldn't help complaining, what are they doing, are they engaging in a primitive adventure?

"No, I said that you are going too far, this thing is not as good as a fire stick, so you use this kind of thing to compete with us?"

"This is also a decision negotiated between our organizers. I hope you can understand. After all, there are too many new weapons now, and there are all kinds of them. So we plan to break through the tradition and have the most primitive battle. ."

This is indeed too primitive. There is no improvement in the weight of such rifles, and there is no improvement in range. More importantly, they have to carry ammunition by themselves, and they have to change the bolt every time they shoot. This is simply too much trouble and wastes time.

And they haven't touched this kind of rifle for a long time, who still uses this kind of thing?

But this is the equipment provided by the organizers, they have no choice but to accept it.

Regarding the issue of equipment, they barely convinced themselves that when they saw the real thing, everyone was completely dumbfounded. After all, every time they go out for training or follow outside to perform missions, they will have an individual soldier's own ration.

Such a self-prepared ration, which contains chocolate bars, beef jerky, compressed biscuits, and some self-prepared rice, can ensure strength and calories.

Unexpectedly, he gave them a few bags of fried noodles this time. To be honest, Qin Zhengyang had never seen such a thing. He picked up the fried noodles and smelled them quite delicious.

But do you have to eat this kind of thing all the time? Everyone felt a headache for a while, this is not equipment, it has completely returned to the original.

The staff still smiled and said: "Everyone, if you are ready, then you can start. We will evacuate in five minutes. Do you have any questions?"

"There are too many questions. I just want to know that you only provide this little thing. We can't even guarantee the basic quality. You must know that in this place in North America, the temperature at night can reach minus ten degrees. ."

So food is very important, they must have high-protein food to supplement their own calories, and the equipment they give is really poor.

There is no way to get supplementary equipment for food at night, and there is a risk of hypothermia.

"Sorry, this is the food and equipment we provide. Everyone is the same, so it depends on who can persist!"

Qin Yuan was speechless, since he couldn't ask anything anyway, they just don't care about it now, anyway, as long as the equipment is distributed, they will leave.

Qin Yuan can only convince everyone that they can only choose to accept it according to the current situation. This is also a challenge for everyone.

Li Erniu looked helplessly at the fried noodles in front of him. This was something he only ate when he was a child, but he didn't expect it to be on the competition field now.

"Brother Qin, I'm really not complaining. Do you think this kind of thing is eaten by humans? Now we are carrying such equipment and we have to escape, so we just eat this kind of thing."

"Forget it, stop complaining, pack up your equipment, and let's set off quickly. It's easy to meet other people in this place. Besides, didn't our seniors fight like this?"

This sentence can be regarded as a complete wake-up call for everyone. That's right, their predecessors fought in the same way before, relying on these primitive weapons and equipment, and they are not even as good as they eat.

This may also be the meaning of the organizers, to return everything to the original!

Everyone packed up their equipment and started to set off. There are still four hours before dark, so Qin Yuan and the others must find a suitable camping place before the sun goes down at night, because the nighttime temperature here will drop by more than ten degrees.

In addition, the fried noodles they provided were not enough for a week's ration at most.

Fortunately, the physical abilities of the red blood cell team have been strengthened. Qin Yuan has already used merit points to bless them before, so walking in such a harsh environment is not a problem.

On the other side, the Alpha team of the Mi Army also landed. When they saw the equipment, they also complained and even directly protested.

This time they are precisely because the red blood cell group also participated in this event. After all, the reputation of the red blood cell group even surpasses them now.

That's why they want to actively prove themselves, and since everyone has already participated, they certainly can't shrink back as a special combat team ranked in the world before.

The captain of the Alpha team is Chris. He has performed various missions before, but he did not expect that the living environment this time would be like this.

"Let me tell you that with your conditions, I can go to a military court to sue you. You are just making fun of our lives."

These staff are also very helpless, after all, this is the rule of their organizer.

Chapter 1050: The strength of the sponsor

These guys in the United States have never received such treatment, and they have participated in many competitions. It can be said that this is the worst condition.

A soldier inside directly poured the fried noodles distributed to them by the organizer on the ground.

"You feed pigs, right? What do we eat? It's best to take out your real equipment and don't mess with us, or we'll see you in the military court."

Good guy, these people are too arrogant. The staff of the organizer have never seen it before, and they are so unreasonable.

Because they had already signed the agreement before, and everything had to be handled according to their side. I didn't expect it to become like this now.

There was a lot of trouble in the United States, but these staff did not get used to them. Anyway, the distribution of food and equipment had been completed, and the staff went straight to the helicopter to evacuate.

The soldiers below started cursing angrily.

"Fuck! What the **** are you doing? Come down quickly and give us an explanation."

"Everyone, I advise you, the competition has started now, if you don't need to waste food, after all, we are only responsible for distributing it."

In this way, they can only see the staff leave, and there is nothing they can do.

Their captain, Chris, looked at the surrounding environment. The only electronic products on his body now were a watch and a compass they distributed.

They need to rely on these things to live for a month, which is simply a fantasy.

"Captain, I really can't figure it out. Why do we have to participate in this kind of stupid competition? It doesn't make any sense at all. Look at the things we've got now. Is this still something people eat?"

"Pick up things that are on the ground."

The soldier next to him was stunned, he heard right, their captain actually asked him to pick up the overturned fried noodles on the ground.

"Captain, what... what do you mean? Are we going to compromise?"

"It's not that we want to compromise. Didn't you hear clearly just now? Everyone is like this. I don't want to lose to those Yan people."

Chris understands very well that this time he is aiming at the impossibility of wishing them, and they lost without even starting.

"We can eat what they can eat. Anyway, we will see you on the battlefield when the time comes. Remember the reputation of our team and don't be looked down upon by others."

These players were also very helpless, and in the end they could only obey their captain's arrangement.

On the other side, Qin Yuan and the others are also hurrying up. The most important thing now is to find a suitable camp.

This area is really special, as far as the eye can see, it is all plains. Generally, it would be better if you can find a cave in this situation, because it does not rule out whether it will rain at night.

As time passed, they could all see that the sun was slowly setting, and at this time, they still hadn't found the cave, mainly because of the plain.

Qin Yuan looked around, and it seemed that he could only simply camp here, using the surrounding trees to form a simple fence.

He Chenguang looked worried. He felt that the situation was not good. "Brother Qin, are we going to stay here tonight? But this area is too open, and the temperature drops at night, so we definitely can't."

Of course, Brother Qin didn't want to be here, but there was nothing he could do. His eyes were fine, and he could see them at night, but not necessarily for these players.

In addition, they have been marching in a hurry. If they were not willing to use merit points to strengthen their physical fitness, they would have missed it long ago, because in order to save food, they have been in a state of not getting a drop of water since they set off.

In addition, this area is too special, it is a state of desert, not to mention food, even clean water is not seen.

It was also specially selected by the organizers this time in order to increase the difficulty of the competition.

"The sun is about to set. Tonight is the first night. I hope everyone can hold on. After all, there are still people from the organizer, so we can't light a fire, which will easily expose the target."

Qin Yuan's ability is indeed very strong, and he doesn't pay attention to the organizers, but he can't drive everyone to death, plus he doesn't know the situation yet, the organizers' weapons are completely different from theirs of.

Everyone took a break and watched the sun go down. At this moment, Brother Qin took out the pill that Zhang Meng had given him before.

Originally, he planned to save this thing for the final sprint later, but now he also wants to try it out.

And in the later stage, there should be a lot of food. Now they belong to the peripheral area. If they go to the center, there must be a lot of wild animals, so they should be able to catch food.

Taking advantage of the darkness, he quietly mixed the pills in the fried noodles, and then distributed one to each team member.

Li Erniu was so hungry that his chest was stuck to his back. Looking at the fried noodles in his hand, he showed a painful expression. This little thing was not enough for him to eat, so he had to pay for several meals.

But everyone didn't have any complaints, just ate the fried noodles with water, and there was no other abnormality.

It's just that when everyone ate this handful of fried noodles, Li Erniu suddenly felt that he was already full, a very strong feeling of fullness.

This is simply too strange, and it does not meet his appetite for today. You must know that their rapid march today consumes a lot of energy. At least they have already walked 50 kilometers today.

Unexpectedly, under such circumstances, he only ate this handful of fried noodles and already felt a strong sense of fullness.

Qin Zhengyang had never been exposed to this kind of food before, and he felt very full after eating it.

"Brother Qin, what is this? I've only eaten a handful, and I already feel very full. It may really last a month."

Qin Yuan just thought it was a little funny, so let's keep them in the dark first, after all, the first few days were the most difficult, and there are still the last few days.

"Maybe it's because we've just eaten, so we're not used to it. It's fine for everyone to eat enough. Now take a good rest. I'll be on guard. We have to hurry tomorrow."

"Brother Qin, are we going on our way? If that's the case, why don't we just lurk around here and sprint at the last moment."

"Stupid boy, hurry up and rest, things are not as simple as you think, do you think they will let us rest like this?"

In addition, this place is too barren, there is not even a place to live, after a month, everyone will be like savages, their bodies must be fine, but they can't shake like this every day!

The forced march during the day was quite tiring, so everyone leaned back to back and began to take a short rest.

At 12 o'clock in the middle of the night, Qin Yuan heard the sound coming from a distance, except for the sound of military vehicles, the roar should be a field tank.

Qin Yuan woke up the team members around him, and made a silent gesture to them, because the sound was far away, and Qin Yuan's hearing was very clear, so they didn't hear it.

"Everyone is now using the surrounding leaves to camouflage, try to fit the ground as much as possible, and treat this area as a bush."

Although everyone didn't know the reason for doing this, Qin Yuan also had his reasons, and everyone quickly pretended.

After 20 minutes like this, everyone heard the roar.

Qin Zhengyang looked at Qin Yuan in disbelief, this is too powerful, he could hear it in advance from such a long distance.

Everyone dared not say anything now. After a while, they saw a group of people in black uniforms slowly appearing with weapons. What's more, there were field tanks behind them.

There are also people in the team carrying rocket launchers, and their weapons and equipment are simply special among special ones.

"My dear, it turned out to be a GS sniper rifle and a Thompson submachine gun. These are completely light and heavy weapons."

"Don't worry, we're lying here, we're still far away from them, we shouldn't be able to find them, everyone try not to make any noise, just wait for them to pass by."

Qin Yuan was even more thankful that he didn't have the idea of living tonight, because the temperature did drop a lot in the middle of the night. According to this scale, if they lived, they would be exposed and would undoubtedly die.

There are tanks and chariots behind the three armored vehicles. This is simply a lineup of an armored company.

Just like that, the team left after patrolling around, and Qin Yuan and the others breathed a sigh of relief.

"Good guy, this is too exaggerated, it's so awesome!"

"I think it's too difficult for them. What kind of weapons are they giving us? What kind of weapons are they holding? Isn't this just because they don't want us to live?"

"I finally understand what Team Gao meant. Their competition this time is really cruel, and they have completely forced us to a dead end!"

"Anyway, when soldiers come to block, water comes to cover, what I play is impossible for others, and I can lead you all the way to the end."

Being made like this, everyone couldn't sleep in the second half of the night until dawn.

Just after dawn, Qin Yuan asked everyone to get up and get ready to go. Taking advantage of the good weather, the temperature here is very strange. It can reach minus ten degrees at night, and the highest temperature can break through 40 degrees during the day.

"Let's work harder, hurry up as soon as possible before the sun rises, otherwise we will consume too much energy later on."

And they had to avoid the organizers along the way. At present, the threat from other teams was very small, and the biggest threat was from the organizers.

Qin Yuan's speed was very fast, and they passed through this layer of plains like this, and they saw some forests and mountains. This place is also very beneficial for their concealment, and on the other hand, food is also very beneficial.

They can't eat fried noodles all the time, as this will consume everyone's physical energy. Now that they have taken the pills, they don't have to worry about it for the next three days, so Qin Yuan intends to let everyone hurry up and find a place with good resources.

The team members also found it strange that they had traveled for almost a day so far, but they didn't feel any hunger at all.

Originally, there was little food, and everyone was not hungry, so they didn't eat, and there was no time wasted along the way.

Looking at the dead horse running over the mountain, at dusk, they finally entered the jungle. Once they entered the jungle, they would have a magic weapon to win. At least after entering, they would be more concealed.

Just as they entered the jungle, a bullet flew out directly from the opposite side.

As soon as Qin Yuan pulled He Chenguang, everyone fell to the ground.

It seems that someone has already ambushed in this place. The good guy just came to fight with them. Qin Yuan was worried that he had nowhere to go. After all, this is simply too unfair. The organizer has such a good weapon. Order equipment.

And now we must make a quick decision. If we delay it further, if the organizers are alerted, it will be troublesome, and it will be easy to be blamed.

Qin Yuan squinted his eyes and noticed the people ambush in the jungle. He didn't know which country they were from, but since the other party had already made a move, he was not polite.

The rifle was like a sniper rifle in his hand, and the bullets flew out quickly.

Immediately afterwards, there was a scream, but it was not over yet. Qin Yuan was like killing a god. His speed was very fast, and he jumped directly into the opposite jungle. The people on the opposite side hadn't reacted yet.

Originally, they thought it would be fine for them to occupy a favorable position, but they didn't expect Qin Yuan's speed to be too fast!

The captain of this team was a little panicked. To be honest, they didn't see which country the people came from, but they all wanted to act first.

But he could see clearly that the people who came over were stunned for an instant, unexpectedly bumping into the strongest Yan Kingdom.

It was the last thing he wanted to meet, but there was nothing he could do now, the corners of Qin Yuan's mouth rose, and a throwing knife directly pierced his throat.

The members of the red blood cell team also rushed forward quickly. When they arrived, there were only corpses left on the ground, and there was a strong smell of blood.

Everyone seemed to have gotten used to it, but Qin Zhengyang hadn't recovered from the shock. What kind of speed was that? This is simply too powerful.

"Now sort out the equipment quickly, and take away all the bullets and food supplies in their hands. This place must not stay longer, there has been such a big commotion, other teams, and the organizer. People are very likely to come, so they have to evacuate quickly.

What is more important now is that the sky is completely dark and the sun has completely set, so everyone can only rely on Qin Yuan to identify the direction.

After packing up the approximate supplies, Qin Yuan took out the ropes and asked everyone to tie them around their waists.

He was mainly worried that everyone would walk on it, because there are too many trees in this jungle.

Although this action is relatively slow, it can ensure the safety of everyone, and he can take care of everyone.

It was pitch black in front, and after the sun went down, everyone couldn't see clearly that Li Erniu was stumped by a tree root, and even Wang Yanbing, who was behind, was dragged down by him.

"Erniu, can't you walk well, kid? We are really grasshoppers on a rope now."
