

## **Special Soldier 1051**

Chapter 1051: been followed

It is indeed too difficult to walk in this environment, and everyone's progress is getting slower and slower.

At this time, Qin Yuan heard movement from behind, and he hurriedly made everyone lie down. It should be those from the organizer. The weapons they held in their hands were all heavy weapons.

Compared with their rifles, it simply doesn't work, and now their vision is limited at night, so this also greatly increases the difficulty.

"Everyone, lie down quickly and don't move around!"

As soon as Qin Yuan's voice fell, a rocket fired directly over, lighting up the entire space in an instant.

This sudden situation really caught them off guard. The rocket was so close to them, Qin Yuan made an astonishing move in the next second.

His two throwing knives were thrown out directly, and then he led the rope to pull everyone aside.

His strength was enormous. After all, these people were tied to the rope, and everyone felt a strong force, pulling them over in an instant.

What made everyone feel even more incredible was that the two throwing knives that Qin Yuan threw directly changed the direction of the attack. However, the diameter of this kind of rocket is relatively small, so it is still possible to do it. Qin Yuan also gambled a handful.

The cannonball landed directly on the positions of the few people just now, and there was a violent explosion in an instant, and the surrounding positions were instantly lit up with flames.

Qin Yuan asked everyone to untie the rope, "Damn, this is too much fun, these guys almost killed us, now everyone runs towards the nine o'clock direction, remember the nine o'clock direction, we are in the meet there."

Qin Yuan knew that he had to stay and hold these people back. He had made the right bet just now. If he didn't react quickly, then everyone would really have to explain it here.

The team members did not have the slightest hesitation, because this was Qin Yuan's order, they moved quickly towards the nine o'clock direction, and now they can only confirm that everyone's direction is unified.

He ran in the opposite direction, and the organizers spotted the target and started a fierce pursuit.

Qin Yuan also found it strange that they didn't make much noise, they just settled it there before, how could other people know everyone's location so accurately.

He just approached, another rocket was big, and he hit directly. He turned over and avoided the organizer. The people over there were also very strange. This is too exaggerated. He missed the target twice in a row.

Qin Yuan just felt that he was lucky. Fortunately, the diameter of the rocket shell was not very large. If it was an anti-aircraft gun, it would be over.

Besides, if the anti-aircraft guns fall, even if they dodge a few of them, they won't be able to dodge. The blasting range is too wide.

At this time, he noticed that the person opposite was holding an instrument in his hand. It turned out to be an infrared tester, and even a drone was used.

They will be discovered. If so, it is unknown how many people they have to eliminate in one day, but it is very strange, today is the second day, why are they the only ones who meet these people from the organizer?

He remembered that on the plane before, they said that they would start broadcasting the number of eliminated people every day, and they would be notified, but with the ability of the organizer, it is really unscientific that there is no eliminated team. .

It's not that Qin Yuan is praising the strength of his team, but the facts are here. Their team is so strong, and they can only say that they barely escaped that kind of attack. For other teams, it is simply a nightmare existence .

Except for the team they eliminated just now, due to the rush of time, the organizers haven't had time to make an announcement, which is understandable.

But the organizer's bite is too tight, as if they have some tracking equipment on them, no matter where they go, they can be found.

When Qin Yuan thought of tracking the instrument, he felt more and more suspicious.

You know, his team has done a lot of anti-reconnaissance work, and they haven't left any traces along the way, except for the moment just now, is it just a coincidence?

The people on the opposite side also discovered Qin Yuan's existence, and they started to attack frantically.

Even the heavy machine gun was used, and the big tree behind Qin Yuan was smashed into a sieve in an instant, and the leaves flew around. Qin Yuan snorted coldly and directly used the world-class hidden skills.

In an instant, Qin Yuan merged with the surrounding environment and the night, and even their infrared equipment had lost its function.

The people in the organizer were even more surprised, why did the people disappear completely in just a split second?

A soldier manipulated the instrument in his hand with a strange expression on his face, "This is so wrong, I can't find any trace of him."

"It's fine if you can't find this person, but can you find the others?"

"It can be found. It left towards nine o'clock and is still moving. Are we looking for this person or chasing those people?"

"There is no need to look for this person. It should be their captain. This guy is very cunning. He probably has already escaped. Otherwise, our equipment will not be able to track him down. Let's go after them now."

Qin Yuan's hearing was very quick. He was standing in front of these people at the moment, but they didn't notice anything.

Sure enough, they were indeed equipped with trackers, no wonder they were able to locate them so accurately.

At this time, Qin Yuan shot quickly, and his throwing knife did not hesitate. After all, if he didn't make a move, it would be himself and his team members who would die.

Before the two soldiers in front of them realized what was going on, blood spurted out of their throats. They clutched their throats tightly and fell down like that.

The people next to him didn't know what happened, so they quickly raised their guns and started to sweep around.

But it's not helpful at all, and it creates tension.

"Get out, get out, I've seen you!"

"If you come out, we will not kill you."

These words are really used to deceive three-year-old children, and the children don't believe it. With their posture of holding guns, Qin Yuan may be beaten to death by them as soon as he comes out.

Qin Yuan didn't show any soft-heartedness, and he eliminated the people around him, leaving only the leader who led the team, because there was a sign on his shoulder, it looked like he should be the team leader.

The small captain who led the team watched the players around him fall down one by one, but he couldn't see any figures, and felt inexplicable fear.

Because in the dark, he couldn't see anything, although with the help of infrared equipment, he didn't know where the weapon came from.

At this moment, he was very scared, and he remembered the previous legend, that Qin Yuan was a figure at the level of God of War. At that time, he said that it is best not to provoke such a person, but they can only do things according to the orders from above.

At this moment, the captain was trembling slightly with fright. This kind of inexplicable fear had been gathered in his heart all the time. Suddenly he knelt down on the ground and began to kowtow.

"Brother, don't kill me. I am also following orders. You...don't kill me if you come out and speak."

Just like this, Qin Yuan appeared. Unexpectedly, just after he appeared, the man directly pulled the trigger. Qin Yuan snorted coldly, and dodged the bullet with just a dive. Then he rushed forward and kicked the man. on the chin.

The man was taken aback. He didn't expect that Qin Yuan's speed was faster than the bullet. He not only dodged the bullet, but also unloaded his gun directly.

"With your \*\*\*\* technology, you are not worthy of fighting with me. What's going on? It's best to explain clearly."

The man's eyes rolled, he didn't dare to talk nonsense, after all, this matter is of great importance.

"I don't know what you mean, but we are all doing things according to the rules, and we are responsible for sniping you."

Qin Yuan smiled. It seemed that this kid didn't cry when he saw the coffin, so he punched the corner of his mouth, and a tooth flew out instantly.

It's not over yet, this guy's hands are not honest, he wants to touch his waist, there is a grenade in his waist, he probably wants to die with Qin Yuan.

Qin Yuan turned over and stepped on the man's wrist. With a click, the man howled in pain, and Qin Yuan crushed his wrist.

"I've said many times, don't do these small tricks in front of me. I don't like your \*\*\*\* tricks at all. It's best to be honest. You said just now, what does the locator mean?"

Seeing that the matter was exposed, the man gestured for the goose on his body. Qin Yuan understood instantly, and smashed Ermai with one punch.

It seems that someone is watching them.

Only then did the man slowly talk about the truth of the matter. It turned out that there was indeed a problem with the batch of equipment sent to Qin Yuan and the others, and all of them were placed in the positioning device.

But the man didn't know exactly what was going on, because he was only responsible for carrying out the order, which was arranged by the people above.

So they were able to track Qin Yuan and the others through these positioning devices, and the order from above was to kill them directly.

"Is this locator unique to us, or does every team have it?"

The man was enduring great pain, now he dared not lie, he could only tell the truth.

"Only your equipment has it. Now that we have received the mission, we are just tracking you."

Hehe, Qin Yuan sneered, he really thinks highly of himself, the organizer must have gotten into someone, otherwise he wouldn't have targeted him like this.

The man couldn't stand the pain, "Brother, just let me go, I know what I should say, and I have already explained it. I really don't know about other things, and it's not that we want to target you..."

Before the man finished speaking, Qin Yuan cut his throat directly.

These weapons will be quite good when the time comes. If this is the case, Qin Yuan intends to give them a countermeasure, since he will take away their weapons first.

But just in case, he still touched these weapons, and then clicked on the system.

"The system can be tested on your side. Is there a location tracker on these?"

Now that the system has been upgraded, it has become very user-friendly, and he has started testing. Before that, he could recycle, but now he can do not only recycling and testing.

"Ding! Answer the host, there is no tracker!"

In this case, Dali Qin Yuan, who was sent up by them, was not polite, and took away all the weapons, including three rocket launchers and four assault pistols.

In addition to these equipment, there is also an infrared equipment device, so that they will not have too many problems when walking at night.

These guys didn't bring any food with them, only water. From the looks of it, the organizers are also controlling the food just in case.

It is basically impossible to get food from these organizers, but they can get supplies of equipment. Maybe they didn't expect that the organizers would lose in the face of such powerful equipment.

After all, the equipment Qin Yuan and the others are using now is the original rifle, and the bolt has to be changed every time they shoot.

In addition, at the office, the sniping team was completely out of contact, and the organizers were a little panicked. What's going on? But this is the first time I have encountered such a situation.

The organizer on the organizer's side was called Mo Xi, and he frowned. It shouldn't be, because it's just started, so the organizer didn't pursue them directly, but just chased them.

It stands to reason that contact should not be lost.

He had no choice but to send another team to start searching. After a while, a news came that the team they sent out before had been wiped out and their weapons had been taken away.

Moxi was taken aback, what's going on?

"What you said is true, the entire team was wiped out, how could it be possible that they have the best equipment!"

"Report sir, when we went, we only saw their bodies, all of them were killed with one knife, and the captain who removed them seemed to have been tortured before he died."

Everyone gasped when they heard this, which team is this? It was so strong that it just started, and it directly killed the organizers.

It's an exaggeration to know that their weapons are simply not comparable.

Moxi quickly opened the map There are too many teams on this area.

"According to the current situation, there are teams from Country C, Bangzi Country, and Xiaomao Country in this area."

The assistant next to him pointed to Qin Yuan's logo, "Sir, could it be the Yan Kingdom's red blood cell team? Their team is also very famous internationally."

"It's absolutely impossible. With their speed, how could they reach this valley in just one day? It's absolutely impossible."

It seems that the chief of the organizer was also kept in the dark, because he had no idea that someone had already been sent out to hunt down these soldiers, to be precise, the team from Yan Kingdom.

Then according to his analysis, it is very likely that the team from Xiaomao Country carried out the anti-killing. After all, they are in this area, so the possibility is very high, and their team is relatively strong.

Except for the team that patrolled before, there was another team that participated in the competition, which was also wiped out and killed in the front.

Chapter 1052: rest assured

So Moxi was guessing that it was probably caused by the Xiaomao team.

"When you went to check, did you find any wounds? Were they all killed by one blow? How is this possible? Did you find any rifle bullets?"

"Sir, there are indeed rifle bullets, but the remaining ones were killed with a single blow of a dagger. This is the combat method of their special forces, but I don't know which one it is."

Moxi was lost in thought. It was just unbelievable that a team with complete equipment and strong firepower was wiped out like this. Which team is this?

At this time, another sponsor representative from the United States came over, and this time they also participated in the organization.

The representative of the United States was very excited when he heard that a team was wiped out. He wished it was the red blood cell team, because at present, only the red blood cell team can fight against them.

So I hurried to the military office. I didn't expect to hear these two bad news just after arriving. It wasn't the red blood cell team at all, but a team from another country, and the team sent out.

Even Moxie didn't know about this team. It was mainly instigated by the representative of the United States. They originally wanted to use this opportunity to completely wipe out the red blood cell team.

Because the strength of the red blood cell team is indeed very strong, this is also the team that threatens them the most.

He wanted to use this method, but he was counter-killed. The representative of the United States, Aix, was very angry.

Ax had just returned to the office when he slapped the soldier behind him on the face.

"How do you do things? Didn't you keep monitoring them all the time? If there is any situation, we should cooperate together. Why didn't anyone report this matter, but such a guy took advantage of it."

The soldier was slapped in the face, and he didn't dare to say anything, he just lowered his head and said: "Sir, we did hear some clues in the headset. At that time, the captain was under control, but when we arrived, he was gone All dead."

"The waste is all waste. You have no way to take advantage of such a good opportunity. What else can I expect from you?"

Ax made a fuss in the office, but finally calmed down. He planned to send another team out, and just like that, he wanted to continue to bribe the organizer's team.

Judging from the current international situation, the red blood cell group is the group that poses the greatest threat to them, so he must solve it as soon as possible.

Their Alpha team must be the strongest. They were the strongest before, and they cannot be squeezed out now.

"Find me a new team now, I want the strongest one, and double the salary."

The soldier didn't dare to say anything, and hurried out.

The reason why Aix hates the red blood cell group so much is because Qin Yuan has been in their field of vision since the hunter school.

They were the strongest before, and everyone was called a God of War figure, but now everyone will compare it with Qin Yuan and the red blood cell group.

Moreover, many tasks in the world are now assigned to the red blood cell team.

This really made him very upset. Their Alpha team was very famous before.

Now it has slowly become the attention of all countries. You must know that when the Alpha Squad was the strongest, it could be said to be the leading force in the United Nations. If there is any task of extermination, they will be sent to fight.

At the same time, they are also used as representatives to give lectures in various countries.

But it's different now. If he remembers correctly, the red blood cell team had already gone to a Jin country to take classes.

This is the red blood cell group that poses the greatest threat to them, so he must be the first to solve it.

On the other side, after Qin Yuan escaped the attack, he came to the direction of nine o'clock. The team members all had a tacit understanding, which they had trained in advance.

Qin Yuan issued a special signal, and several team members came out, only to see that Qin Yuan was wearing equipment.

Qin Zhengyang found it even more unbelievable. Just now he heard that the attack over there was very violent. It was all the sound of rocket launchers and submachine guns.

Unexpectedly, Qin Yuan was unscathed and brought back so much equipment.

"Everyone, it seems that we are in a little trouble. I wanted to spend it peacefully before, but some people don't want us to be so peaceful."

"Brother Qin, what do you mean by that?"

"Because someone wants to plot against us, you throw away all the weapons in your hands now, and then replace them with the weapons I brought."

Qin Yuan shared the clues he got just now with the team members. This matter must be known to everyone, so that everyone can be alert in advance.

When He Chenguang found out, he threw the gun far away in disdain, "Damn, that's what happened. I just said why these guys have such good noses. It was too dangerous just now. We were all going to be cannon fodder."

"Yeah, I didn't expect it to be so despicable. This is a problem with their organizers. We must respond."

"Wait a minute, don't throw away these weapons, you should replace them with new ones first, hand them over to me, I will certainly be useful, I want to find the person behind it."

Qin Yuan didn't trust any organizers. This time, there was an internal problem with them, so he had to solve it by himself. He wasn't the type to go to the parents whenever something went wrong. She always used her own method.

"I'd like to see who it is who dares to target us. If that's the case, I'll do whatever it takes."

"Brother Qin, but their equipment is very strong. Would it be too risky to do so, in case we are in any danger?"

"Absolutely not. We have weapons now. We will take these equipments with us tomorrow. Let's hide them in advance, put the equipments in that place, and hide them in another place."

This idea is not bad, you can directly wipe out the people behind it, otherwise it will be endless if it goes on like this.

After Qin Yuan discussed with the team members, everyone continued to set off with their equipment on their backs. After all, this place is not suitable for resting. Now they are on a hillside.

Now that everyone has changed into infrared equipment, it is completely different from before. It is just like the daytime, and the things on the ground are also very clear. Everyone starts to stride forward and speed up.

At this time, Qin Yuan found a cave in front of him and smelled a smell of smoke.

He made a warning gesture, then squatted down, "Do you smell a flame? It seems that there are already people in that cave."

Everyone smelled it carefully. Although there is not such a strong wind at night, you can still smell it.

"Yes, it seems that someone has already seized the opportunity, Brother Qin, shall we go up directly?"

"Of course. After all, they have planned out the territory for us. I want to see which team it is."

Qin Yuan smiled, and then touched the gun with his back on his back. Now their equipment is different, and it is completely incomparable with their rifles.

Just when they were about to take action, He Chenguang suddenly said: "Brother Qin, if we shoot now, will our position be exposed? We still have positioning devices on our bodies, so it will be more troublesome. I will probably sleep tonight." No."

"Don't worry, I've dealt with the previous group of people. The organizer must have mixed in with other people, so they dared to be so bold, so there will never be a second such situation tonight."

Everyone nodded, thinking that this was also the case. In this way, everyone quietly touched the entrance of the cave, and Qin Yuan directly took out a grenade and threw it in. I have to say that the equipment on the organizer's side is really good.

The next second, with the explosion of the grenade, there was a scream from inside the cave, and the soldiers began to flee frantically. Qin Yuan also rushed in while taking advantage of the smoke, their equipment was not at the same level at all.

Qin Yuan quickly shot and ran behind, and a soldier was hit on the spot and fell to the ground. The sound seemed to belong to Xiaomao.

After Qin Yuan and the others ran in, looking at the equipment on their bodies, the clothes were indeed from Xiaomao Country, but these guys were too cunning, and they didn't expect that there was another exit from this cave.

The people in Xiaomao Country are also quite cunning. They arranged the exit in advance just in case, and faced with such powerful equipment, of course they knew that it should be someone from the organizer, so they didn't dare to fight back at all. just run.

Moreover, they had set up a trap in advance at the entrance of the cave. As soon as Qin Yuan and the others passed by, the rocks from above fell down and blocked the entrance of the cave.

I have to say that these guys are quite smart, knowing that their equipment is not good enough, so they are well prepared.

Qin Yuan didn't intend to chase them at all, he just let everyone have a good rest tonight, after all, it doesn't make much sense to make such a fuss.

In addition, now that they have this kind of equipment, basically the teams that can be heard nearby have already left, so there will be no problem at all.

When they entered the cave, they saw a fire rising in the middle, but the flame was very small, and they couldn't stand the cold, so they took the risk of lighting a fire.

Qin Zhengyang checked carefully, all the equipment and food these guys had brought with them, they didn't get anything except the man who fell on the ground.

Qin Yuan got lazy and asked everyone to rest here tonight.

"By the way, report all the firewood over there and let me make the fire more prosperous, as prosperous as it is."

"Brother Qin, aren't we exposing our own goals by doing this? What if the organizers chase after us?"

"Don't worry, this kind of situation is absolutely impossible to happen. I have already asked before. The organizer only withdraws money from us, and today is the second day. They didn't drive them away so much, so is it right at night? There will be action."

He let everyone rest at ease, besides, he is here to guard.

Everyone didn't have a good rest last night, plus they were being chased every day, and they were on their way all the time. Everyone's mental state was a bit weak, so Qin Yuan asked them to rest quickly.

"The main reason is that they all have infrared equipment, so it is more dangerous to operate at night. We will try our best to operate during the day."

Everyone nodded, and Qin Yuan just held a brief meeting to tell them to rest quickly, but what made everyone feel strange was that no one felt hungry.

Li Erniu couldn't help teasing from the side, "This is too amazing. I remember eating such fried noodles when I was a child and I couldn't get enough. Why didn't I feel like I ate much? I didn't feel hungry all day today."

"Isn't that a good thing? We don't feel hungry, so we save food. There is still a month left. I think we will be able to reach the end according to this development."

Hearing what they said, Qin Yuan was even more confident. No matter whether he had the pill or not, he would be able to lead the team out.

This game was inherently unfair, as if there was a major mistake on the organizer side, allowing outsiders to get in.

It's just a pity that those guys from Xiaomao Country were spared. These guys are also very cunning, so we can only wait until the next time we meet.

Everyone slept more comfortably tonight, after all, they were leaning against the fire, and there was a shelter on it.

And the second half of the night was very calm as Qin Yuan said, there was no problem at all.

Qin Yuan also dozed off slightly. His mental strength is very strong, so there is no problem.

He woke everyone up just before dawn, and now they had better hurry on their way as soon as possible during the day, this place can only be used as a temporary place to live.

There is still one month to go, and they need to find a place where they can live for a long time and are suitable for offense and defense.

Generally, this situation is near the top of the mountain. If they can occupy a favorable position, they can survive a month and become the final winner.

In the morning, under the leadership of Qin Yuan, everyone took the batch of equipment and set off.

Everyone finally saw a small stream and added some water. In fact, they didn't consume much in the past two days.

After all, after taking the pill given by Zhang Meng, they will not feel hungry, including thirst, for three days.

At this moment, Qin Yuan also felt that Zhang Meng was quite useful. Although she felt that she was only providing pills, it would be nice to have such an assistant.

"Well, it's already noon now, and it is estimated that the traitor from the organizer will also send a team, so we have to make preparations now."

Everyone nodded and began to hide in the nearby bushes. Qin Yuan took the equipment and placed it in another place.

On the other side, Aix couldn't wait, after all, he saw the flashing red dot of the red blood cell group again.

"These guys are really brave. They actually rested directly in the valley last night, and they only moved so little now."

"Sir, let's set off with the team right now and drive them away."

"Soldier, what I want is not to drive away, but to kill! Have you forgotten your mission?"

Chapter 1053: send 2 teams

The teams on the sponsor's side are patrol teams from all over the world, did they hear correctly?

The captain of this team looked at Moxi in surprise. Why did this person give such an order? They had received an order from the supreme officer before.

It is just to drive them away, drive them away one week ago, and start the real killing from the second week, because now they need to adapt to the environment, mainly because the weapons and equipment of the two sides are different.

Otherwise, like this, no one can go to the end.

Because the equipment they hold is indeed too primitive, which is also the result of the organizer's consideration, but now the order they received is to kill them directly, which does not comply with the regulations.

The team leader suspected that he had heard it wrong, and confirmed again, "Sir, are you talking about direct killing? But this does not comply with our previous regulations."

At this time, Moxi stepped forward and closed the door. The team leader looked confused. What on earth did he want to do?

Then the bodyguard next to Moxi came over and punched the captain directly in the stomach.

The captain didn't even react, what's going on? Why did you suddenly do something to yourself?

Immediately after Moxi opened a box with a smile, the person next to him brought over a box of gold.

"Soldier, sometimes you have to recognize the reality. You have to understand what I mean. I didn't ask you to target all the teams, but this time the red blood cell team. Do you understand what I mean?"

The team leader was punched and wanted to get angry, but when he saw the box full of gold, he hesitated for a moment.

You must know this matter, no matter how long he does it, he may not be able to earn that much money in his entire life. He never thought that these things are placed in front of his eyes. This is indeed a great temptation.

"His punch was just to teach you a lesson, don't ask if you shouldn't ask, you just need to follow my order, and I will take care of the rest."

"But I'm worried that other people will find out. In this case, I will easily be held accountable by the organizer, and then my career will be over."

"Hehe, you are quite smart, and you can still consider the consequences to be good. What I need is someone who can stand up like you. Don't worry, I can just leave everything behind to me."

After Moxi finished speaking, he personally put the box of gold into the soldier's hands.

"This is yours alone. As for the rest of the team, I will also take care of it. There will be another box after it is done."

The team leader's eyes widened in an instant. He didn't expect that there were other things, so this was too exaggerated. Under the temptation of such a large amount of money, he nodded in agreement.

Moxi didn't care about the money at all. What he wanted now was to make the red blood cell group disappear completely. This was the only chance.

Mainly at other times, it is not convenient for them to do anything at all. Only at this time can they buy people's hearts and do things openly and aboveboard.

"Remember, that team is difficult to deal with, but I hope you can solve it as soon as possible."

The team leader nodded, since he took money from others, he will definitely handle things well, and this one is definitely no problem.

"Sir, don't worry, I will bring the best equipment here, and I will definitely not let you down."

Moxi nodded, walked forward with a smile, and straightened the soldier's clothes.

"I like dealing with smart people very much. I hope you are also that smart person. If someone asks you, you can say that they resist violently. You should know what I mean."

The squad leader smiled, he understood this very well.

Just like that, the team leader smiled and walked out carrying the gold. At this time, a secretary next to him came in.

"Sir, according to what we have been monitoring, they are now staying near the 731 ditch."

"These guys are really brave. They don't even go anywhere, but it's also in line with their style. After all, their captain is a very arrogant guy. I want to see how strong they are, and they can avoid two Team pursuit."

That's right, the secretary heard it right. Moxi was fully prepared this time. He was ruthless and determined to kill the red blood cell team.

So he sent two such teams from the organizer, both of which had been bought by him, mainly to annihilate the red blood cell team directly.

Even if they can't be completely wiped out, they must be seriously injured.

At this moment, Qin Yuan and his team members had already ambushed in the bushes behind them. The equipment with positioning devices had been thrown into the ravine, and everyone was ready to hide.

Qin Yuan didn't know what the specific conspiracy was, and who was going to target them. He must dig out the people behind this scene, otherwise he would only suffer endless plots later.

Now they are fine in this mountainous area, but they can't stay here for a whole month, because there is an unwritten rule on the organizer's side, every other day, they will say that a small area will carry out a comprehensive sweep.

Therefore, Qin Yuan and the others could only rely on a simple map to head towards the interior. The purpose of this was to bring most people together and to allow them to fight among themselves.

So if someone wants to lurk in a certain place from the beginning to the end, then this is impossible, because the organizer will make them mobile at all times.

According to the fact that it only started now, this kind of pursuit is very inconsistent with the organizer's style, so Qin Yuan must investigate it out, otherwise they will be hunted down by several parties in the later stage.

Qin Zhengyang didn't understand. After all, the organizer had said before that the organizer's personnel would pursue them. Why was Qin Yuan so sure that someone was targeting them?

"Brother Qin, I said you are too amazing. How did you expect that they were targeting us on purpose?"

"Boy, apart from ability, you also have to learn some strategies. Think about it, two or three days have passed, except for the team that was eliminated by us for broadcasting, no team has been eliminated. ,how can that be?"

Speaking of this, Qin Zhengyang seemed to understand a little bit, yes, the organizer's weapons are so powerful, how could no one be eliminated, it means that they are deliberately targeting them.

He silently gave Qin Yuan a thumbs up. It seems that he still has a lot to learn, not only his physical fitness needs to be improved.

What's more important is the strategy of these operations, because their special operations team must have enough judgment to pick out anyone at random.

In this way, everyone lay quietly in the bushes, and they could be regarded as waiting for rabbits.

An hour later, Qin Yuan heard some slight footsteps. He was not sure whether it was the team they participated in together or the personnel sent by the organizer.

After a while, I saw people in uniforms coming up, they were indeed from the organizer, and they had a clear goal, heading directly towards the direction of status.

Qin Yuan was also worried that there would be a manslaughter situation. After all, the organizer must have mixed with other teams to kill them.

It seems that there is no need to distinguish this way, after all, it has been confirmed.

Their target is very clear, because those equipments have positioning devices.

Everyone picked up the weapons in their hands, and prepared to fight directly when they got closer. Qin Yuan also asked everyone to get ready.

In Qin Yuan's eyes, these guys just came here to give away equipment, so it's not worth mentioning at all.

The throwing knives in his hand were all ready. At this moment, there was some movement from behind, and Qin Yuan hurriedly asked all the team members to lie down.

How is this going? Did another team walk in by accident?

Fortunately, Qin Yuan and the others are now in the dark, after all, it is daytime, so they did not use infrared equipment, but directly based on the positioning system.

The members of that team obviously heard the movement, they also turned around, and everyone remained on alert.

Qin Yuan heard the leading team leader say: "Be careful, if you say they are players from other countries, then drive them away directly and don't hurt them, understand?"

"clear!"

This sentence is already very clear. It is really despicable to deliberately target these people in their red blood cell team. Qin Yuan clenched his fists. He will definitely not let go of who is targeting him.

At this time, the person behind appeared, unexpectedly, they were also from the organizer.

The two teams did not expect to run into each other. Both sides were a little strange, but obviously their purpose was the same, because the team's goal was also the bush in front, and that bush was where Qin Yuan and the others placed their positioning equipment. place.

Qin Yuan was worried about some innocent people before, it seems that both teams have problems!

Both sides are not very good people, so there is no need to feel too guilty on my side, maybe I can ask some specific situations.

The team that came from behind stepped forward. Their captain was tall and burly, and this guy was very arrogant. After walking over, he said loudly:

"Bro, what are you doing here?"

The captain of the team on the opposite side kept cursing in his heart, was this guy making such a big commotion because he was afraid that people wouldn't know? He couldn't help looking worriedly at the bushes behind him.

He was very worried that Qin Yuan and the others would run away suddenly. After all, they should have been aware of such a close distance, but this guy's voice was too loud.

More importantly, Qin Yuan's red blood cell team is very capable, and the captain is also very worried that these stupid guys have made such a big commotion just after they arrived.

So he didn't reply, and the people on the other side saw that they didn't reply, and strode forward even more. When he came over, the team leader said:

"We are all on the organizer's side, you don't need to be so nervous, relax, brother, we have patrolled here, there is nothing unusual."

This guy just wanted to send them away, the captain in front of him, of course, heard what he meant.

"Sorry, we were ordered to patrol this area. I don't know which officer ordered you, but we are patrolling this area now and found other things."

"Oh, it just so happens that we also discovered other things in this area, but this is our task, so please leave."

This guy is too domineering. Without further ado, he just told them to leave. Why? This is my task.

"It is the bounden duty of a soldier to obey orders. I am only carrying out our orders. Why should we leave, not you?"

"We have carried out the orders of Chief Moximo. Who is your chief? Is his rank higher than Chief Mosimo?"

The captain was stunned when he heard this.

"what!"

The team leader suspected that they were all sent by Moxi for the same task, but the team leader only had an initial guess in his heart, so he asked tentatively.

"Then it is very likely that our mission is the same. I was also sent by Chief Mo, which is the mission of killing."

Sure enough, the people on the other side were also taken aback. It seems that their purpose is the same. If this is the case, there is nothing to say, and everyone can act together.

Qin Yuan, who was hiding in the dark at the moment, frowned, originally counting on the two parties to fight.

It seems that they still have to solve it themselves. Knowing that their goals are the same, these two groups laughed out loud. After all, they now have a huge advantage in terms of numbers and equipment, and they feel that this victory is within their grasp.

"Hahaha, I didn't expect that we have the same purpose. If that's the case, that's even better. After all, I've heard of their names before."

"Indeed, I'm just curious, don't they know we're here? According to the positioning, they've been lying there all the time."

"It's estimated that they don't know yet. What we want to do is to kill them. These guys think too simply. It seems that we can complete the task today."

The two captains spoke very fiercely, as if they had already obtained the remaining gold. At this moment, a gunshot fired from behind them, followed by countless bullets.

Qin Yuan and the others directly attacked Before the two captains had time to react, the team members behind had already fallen one after another.

Qin Yuan's speed was several times faster than theirs. The captain on the left only saw a figure flashing in front of him, and then he flew out. Throw it out.

Unexpectedly, the grenade hit sideways and directly exploded on the captain who came over just now.

There was a violent explosion in an instant. The team leader originally wanted to bomb Qin Yuan, but he didn't expect his own people to be bombed.

"I didn't expect you to be so cruel to your own people, but well, dog eats dog."

The soldiers next to him also quickly counterattacked, but how could Qin Yuan's speed be comparable to them.

Qin Yuan was the first to deal with those people with heavy weapons, and now their red blood cell team wiped out the weapons before, which also came in handy.

Chapter 1054: Countermeasure

Before the leading captain could see clearly, the figure running over saw a throwing knife flying towards him.

He didn't even have time to dodge, and the knife flew directly through his head, and was heavily stuck in the tree trunk behind him.

The squad leader standing opposite was completely stunned. What kind of power was this, and it went straight through the head of the person.

It was the first time he saw a flying knife, and it was even faster than a bullet.

In the next second, he flew up into the air, and Qin Yuan had come to him, and kicked him directly on the chin with his knee. This little captain, with a backflip, fell heavily to the ground and rolled into the ravine go.

The red blood cell team cooperated very closely. In just five minutes, the two teams were completely resolved by the red blood cell team.

The injured squad leader desperately wanted to pick up the weapon, Qin Yuan was even faster, stepped forward and stepped on his wrist.

He howled in pain. At this time, he knew that something was wrong. This was beyond his imagination. Both teams were killed by the red blood cell team.

He lay on the ground and looked at Qin Yuan in horror. This is the legendary God of War, and they were not able to deal with it at all.

He began to beg for mercy loudly, after all, saving his life is the most important thing now, he smelled the \*\*\*\* smell around him, and he was already trembling.

"Brother, I am from the organizer, you can't kill me, if you kill me, they will definitely not let you go."

"Hehe, do you think I'm afraid of this? For me, you just appeared to interfere suddenly, and I was just out of self-defense. Do you think the organizers will take care of it?"

Hearing this, the man remembered what happened yesterday. The team was wiped out yesterday, but the organizer didn't say anything, and even now there is no clue as to which team killed it.

In an instant, he became even more afraid, because he knew that the identity of the organizer could not save him at all. The only one who could save him now was himself, and he planned to tell the whole story.

"Brother... Please let me go, I was also ordered by others, otherwise I wouldn't dare to attack you!"

"You are very smart, so tell me in detail who it is. I am very curious, and you are targeting us like this."

Just like that, the man told him exactly what Moxi had told him, then knelt on the ground and kowtowed, hoping that Qin Yuan would let him go.

When the members of the team heard this, they couldn't help but get angry, and it was their Mi country who did the trick. What is this Moxi?

Li Erniu stepped forward and kicked the man in the chest, "You brat still has the face to beg for mercy, if it wasn't for us, you would have let him go, it's really unfair, you put Is our destiny our destiny?"

Li Erniu couldn't help but swear. After all, they came here to participate in the so-called competition. They already felt very unfair when they got the weapons and equipment. This is too primitive. I didn't expect to encounter them. People plot like this.

"Brother Qin, I don't think there is any need to let this kid go, just kill him directly. People like this cannot be kept."

At this moment, Qin Yuan was thinking, and the man kneeling on the ground was also trembling. He knew what kind of opponent he was facing, and he had no power to fight back.

"I can let you go, but you have to do things for me!"

The team members and the man were shocked when they heard it. What's going on? Isn't this letting the tiger go back to the mountain?

"Brother Qin, this must not be done. After all, that Moxi is so despicable. If you put him back, wouldn't that mean letting the tiger go back to the mountain? Then we will be in trouble."

"Don't worry, I don't like these bastards, and I also have my plan, and there will only be a steady stream like this. It's better to put this kid back first and drag them along."

Qin Yuan's plan is to put this kid back and let him be his internal response there.

After all, Moxi is so vicious, he will never let him go easily, and he will definitely find a way to tamper with other aspects in the future.

After all, three teams from the organizer had already lost their lives, so he probably wouldn't make any trouble with the organizer's team, and would start from other sources.

The main reason is that one of them is in the light and the other is in the dark. It is simply impossible to guard against. If this kid is put back, maybe he can be their internal response and let them prepare in advance.

Hearing this, the man on the ground kowtowed immediately.

"Brother, don't worry, I will definitely tell you everything I know, as long as you let me go, I will say anything."

Qin Yuan smiled, walked into the man, and then directly stuffed a pill into the man's mouth.

Before the man could react, the entrance of the pill became polarized. He desperately grabbed his throat and wanted to spit it out, but it didn't work at all.

"Here! What exactly are you feeding me?"

Qin Yuan smiled, and said solemnly: "I don't really believe what you said. After all, people's hearts are unpredictable, so I still need some other means."

In fact, this is the pill that Zhang Meng gave him before, and this is just the one left by him. Anyway, he can't use it, so he just used it on this man.

"But don't worry, I won't let you die. This thing also has an expiration date and an antidote, but it depends on your performance, otherwise you won't survive a week."

The man looked at Qin Yuan in pain. He looked at Qin Yuan. This is the real devil!

In the end, he really had no choice but to agree to Qin Yuan's request. Before that, he was really thinking of delaying the attack, and he was still thinking about revenge. After all, Qin Yuan killed his team members.

But looking at the situation now, he could only follow Qin Yuan's arrangement.

Qin Yuan stretched out his hand, pulled her up, and patted his shoulder.

"I think you should know how to do a good double-faced undercover! I don't want your identity to be exposed, so it depends on how you do it. If it is exposed, I will definitely not give you the antidote. "

The man nodded desperately. What else could he do at this moment, but he regretted agreeing to Moxi's request.

Compared with Moxi, he felt that Qin Yuan in front of him was more terrifying. He killed people without blinking an eye. His speed and strength were unknown. With such a precise weapon, he was like a stick of fire in front of him.

In this way, the man could only choose to go back in despair, and Li Erniu and the others also felt strange when Qin Yuan would have poison again.

"Brother Qin, I have to say, your move is really good, so we can grasp the information at the first time, so we can take precautions in the future!"

"Of course, when dealing with despicable people, we can't look at them with our usual mentality. They have to return them in even more despicable ways. These guys are not worthy of pity at all."

After all, for the sake of money, the lives of soldiers from other countries can be ignored. What is the difference between such a person and a beast?

The batch of positioning equipment that Qin Yuan asked everyone to take weapons and equipment was directly blown up by him with a grenade.

There was a strong explosion in the ravine, and the organizers also detected the situation here, because two patrol teams lost contact at the same time.

And Aix was still kept in the dark, he was the one who was going to target the red blood cell team at the beginning, but he didn't expect that even Moxie, the top officer on their side, would do it quietly behind his back.

And this time the host was composed of representatives from several countries, so everyone was shocked by the fact that three patrol teams were killed one after another, and an emergency meeting was held immediately.

Moxi sat on the seat in the meeting room. He looked at Aix who was sitting under the stage. He knew everything before, but he didn't want to expose it.

He was very worried that this stupid guy, Aix, would destroy his plan, so he planned to do it in advance by himself. He didn't expect the strength of the red blood cell team to be so strong. He sent out three action teams in succession, and they were all solved directly. .

At this time, representatives from several parties also came, and everyone sat together, watching the disappearing signal, and fell into deep thought.

A representative of country c frowned and asked, "Could it be that you haven't found anything after such a long time? You have always been in charge of our team. What's going on?"

After all, the organizer's team that died today was sent by their country, so of course he paid attention to it, and he didn't care if the person who died before was not his.

"I think the murderer must be severely punished. If we want to follow the elimination method of the competition, it is not like this elimination method. The teams on the organizer's side have died one after another in just three days. This is simply a big joke."

"I even suspect that someone is deliberately conniving with them. These contestants must have heavy weapons in their teams. They are definitely cheating."

This is also the result of discussions among representatives of several parties. They all agreed that someone must have contacted their own team.

And there is definitely someone cheating, such behavior is very unfair to other teams.

The representative of country c was aggrieved. After all, there is no news about one of his teams. His team is still relatively strong. As the organizer's team, their weapons are also the most advanced, so he really can't figure it out.

He was also very angry about Moxi's attitude. Now three teams died in succession, and they didn't do anything.

"I just want to ask you how to give us an explanation, what is going on, it is very unfair to other teams."

Moxi raised his eyebrows. This guy was deliberately targeting him. He didn't agree with cheating.

"Now we are also actively investigating. This matter will definitely give everyone a perfect explanation, and we will also investigate the truth of the matter."

"Hehe, I think you should use your words to deceive ghosts!"

The representative of country c stood up directly, he planned to investigate by himself, and did not count on these Americans.

In the end, Mo Xi really had no choice but to delay everyone. After all, if he really wanted to investigate carefully, then this matter would be troublesome. Although they had no proof, there are still many things that can be investigated.

"Don't get excited, all of you. Now we have indeed investigated something new. It may be the red blood cell team of Yan Kingdom."

So far, he has no choice but to pour this dirty water on the red blood cell team.

The representative of country c also found it very strange, how is this possible?

"It stands to reason that now we are only carrying out the driving mission, and they don't need to counter-kill our people, and I personally sent staff to distribute their weapons, so there will be absolutely no problem."

Moxi felt a little guilty when he heard this, but he still pretended to be calm and said: "After all, the guy named Qin Yuan in his red blood cell team is their captain. This guy is very capable, and it's not unreasonable to kill people with bare hands."

It can be considered that the investigation revealed a little bit of information, and everyone began to discuss it, mainly for the red blood cell group.

"I'm just curious, how can you be sure that they followed the plan on the map, how could they run so far in a short time?"

The representative of country a does not agree with this idea. He feels that Moxi is completely shirking responsibility.

Because he judged based on the situation on the map, only two days had passed, and on the third day today, the location of the red blood cell team was too far away from the place where the two teams disappeared.

"You have to know that they don't have any means of transportation, and they didn't pass the exam at all. Under such circumstances, how could they appear here at such a fast speed?"

This is a distance of close to a thousand kilometers, not a joke.

"And as far as I know, your country of America and their country of Yan haven't dealt with them very well. You don't need to lead us all to other channels just to fool us. What we want to know now is the truth."

Moxi was a little anxious. It seemed that this \*\*\*\*\* county had not been successful. He originally wanted to divert everyone's attention to the red blood cell team, but he ignored the problem of distance.

In fact, he is also very curious, the red blood cell team is really moving too fast, if he hadn't sent the team himself, he would have no way to imagine how these people can achieve such speed.

The representatives of several parties started to quarrel again. This time, everyone felt that Moxi was a liar, and they didn't match the words, and now they came up with some weird reasons.

And what he did just now was to treat everyone like a gun, because he framed everything on the red blood cell team.

Aix also understood Moxi's intentions at this time, and it seemed that they were all on the united front.

He hurriedly stood up and followed the rhythm, "Everyone, don't be so anxious, it was just their speculation just now, and I didn't say it was confirmed. It was the red blood cell team that did it. After all, it was speculation."

The representative of Country A snorted coldly, saying that it was speculation, but it was actually confirmed. If there was no doubt in his tone, everyone would think that the red blood cell team did it.

Chapter 1055: unexpected result

This is really playing with a borrowed knife to kill people. They don't know when the time comes, so they suddenly imposed sanctions on the red blood cell team. Isn't that just helping others to commit murder, and the real murderer is at large outside.

The representatives of these countries are not stupid, and Moxi didn't know how to explain it when he saw the incident was exposed.

He could only smooth things over, and hurriedly said: "Don't be so excited just now, because what I said was only speculation, and it must be speculation. As a result, we have no actual evidence now."

"I'm not talking about you, I feel that you are too bullying, just because the Yan Kingdom didn't send a representative this time, are you targeting them like this?"

"That's right, your tone just now didn't mean conjecture, but completely poured dirty water on them. Do you really think us stupid?"

Facing everyone's accusations, Moxi was completely flustered, and he was very worried that this matter would be revealed.

But in the end, the topic of going around and around has returned to the original point, because everyone wants to know the truth of the matter, whether there is any team cheating.

This is the issue that everyone is most concerned about, and it is really unreasonable that all these teams have risen. A well-equipped combat team was killed in this way.

More importantly, so many days have passed, and the three teams have been counter-killed one after another, which has also caused panic. If this is the case, who would dare to continue to play the organizer's team.

The person in charge of country H said coldly: "If the basic security issues are not guaranteed, then our team is just looking for death, not only our team, but also our participating teams. What can I do?"

"Right, so I strongly recommend conducting a large-scale screening. We must find out the cheating team and let everyone supervise together."

At this point, everyone has also raised questions. If you want to screen, how should you screen?

Everyone is thinking about their own team. After all, if it is like this, it will be unfair. If everyone's weapons are wrong, then this team is likely to become the final winner.

When everyone was discussing enthusiastically, the representative of Ba in the corner suddenly said a word.

"Have all of you ever thought that it is very possible that there is a team that has succeeded in such a counter-kill. Now they have obtained the organizer's weapon from the team. How should this be explained?"

"This kind of situation is absolutely impossible. It is simply a big joke. When you are holding a rifle and facing a person with rockets, who do you think has a better chance of winning?"

"However, the situation I mentioned cannot be ruled out. You must know that there are indeed several teams with very strong combat capabilities."

Hearing what the representatives of the eight countries said, several other people also felt that it made sense, and the discussion reached a deadlock for a while. Some people also suggested that if this is the case, they should simply gather all the personnel and re-enter the release of weapons.

This proposal was quickly met with opposition from other people. After all, other people thought that their team had finally entered a safe area, and the current deployment must be very unfair to them.

Discussing and discussing like this, it seems that everyone has fallen into a deadlock again, and there is no solution.

In the end, Moxi and the others were also blamed. After all, they were responsible for this matter, and it was entirely their fault that caused this situation.

"I really didn't expect that this time it was handed over to you, the United States, as the main undertaker, and it turned out like this. It really disappointed me."

"That's right, such a well-planned competition has just started now, and such a big change has already occurred."

Moxi also felt a headache. This red blood cell team had exceeded his imagination, and had killed three teams in succession. He wanted to splash dirty water, but failed, and now he was on fire instead.

Now he can only stand up quickly and make a verbal promise that he will definitely solve this kind of thing.

But it's just a general verbal guarantee, without any actual behavior.

This kind of statement obviously does not get the support of other people. Everyone has been asking them to act as soon as possible, otherwise they will not send any teams forward.

Now they haven't even found out the team that killed these soldiers, how can this reassure everyone?

At this time, soldiers outside ran in to report.

"Report sir, the team we sent out yesterday has returned with a person, and it seems to be the captain of one of the teams."

Everyone was very excited when they heard this, and hurriedly asked the soldiers to bring people in. Since there are survivors, they can know which team killed them.

Moxi was very nervous. This was the last thing he wanted to see. The situation he would rather have was that everyone died, but he didn't expect that there would be people alive.

He was worried about whether this person would betray him, and who the one who survived was.

Because in his eyes, the ability of the red blood cell team is very strong, and with Qin Yuan's way of doing things, how could it be possible to leave a living, is this a trap or what is going on?

The team leader was also very smart, because he knew that if he came back rashly now, he would definitely be silenced by Moxie, so he looked for the right time, and he could have arrived last night, but he just dragged it off until this morning.

Because he knew that the two teams disappeared one after another, it would definitely attract attention. Everyone was in the conference room at the moment, so he rushed directly to the organizer's side, and then let the sentry go in to report. what does he do.

Just like that, when the man came in, there was a hint of viciousness in Moxi's eyes.

He kept staring at the man closely, his eyes indicating that he had better not talk nonsense, otherwise he would have 100 ways to kill him.

The man has no fear, and now he has taken the poison, and he is in the middle of two difficult choices.

It's just that he doesn't know the authenticity of the poison now, but the only thing that makes him feel a little suspicious is that from last night to now, he doesn't have any sense of hunger. There is hunger.

But now he has no such situation at all, so he is also a little anxious, suspecting that the poison may be real.

Everyone's eyes were attracted by this man, and the people from country A hurried over. This is their soldier from country A.

There was a gloomy look in the eyes of the representative of country C. After all, he hoped to be from his own country, but he did not expect that the survivors were not.

"What's going on here? Tell me quickly, which team did it to you."

The man looked at Moxi in front of him, and then slowly said: "It's not just one team that attacked us. We received an order yesterday and carried out daily patrols there, but we were attacked by several other teams. ."

Everyone gasped when they heard this, they had formed an alliance so soon, and it was a sudden attack by several teams.

It seems that this has deviated from everyone's previous guess, and everyone's guess is that someone cheated, because for me.

Everyone is in a competitive relationship with each other, and there is no such connection of interests at all.

I didn't expect that several of their teams would join forces. If it was like this, there was indeed a possibility of winning.

The representative of country C was a little unwilling. The people he sent were the elite among the elites. There were still three bazookas in their team. How could they be wiped out when they joined forces.

"Soldier! You'd better be responsible and tell the truth to what you say. What's going on? Even if they unite, don't the weapons in your hands be firesticks?"

To tell the truth, the man is indeed a little guilty, but this is what Qin Yuan taught him yesterday, so he can only pretend to be calm at the moment.

"There are several teams, and they are all the best of the best. We didn't expect to be attacked at all. Anyway, there are teams from Xiaomao and Ba. At least five teams attacked us yesterday."

The representatives of Ba and Xiaomao stood up instantly. How is this possible?

The representative of Pakistan even raised his own doubts, "How can you be sure that it is a person from our country? Besides, with such a long distance, we did not launch in this area at the time, and we couldn't catch up."

The representative of Xiaomao country thinks that this situation is possible, because their team is nearby. The reason why Qin Yuan asked him to say this is that he is sure, because the people of Xiaomao country did have conflicts with them .

In this case, even if it is investigated, there is no problem. The reason why he was involved in Pakistan is because they still belong to the alliance with Pakistan, and they will cover up no matter what.

"Then who are the other teams, have you seen clearly?"

"The scene was too chaotic. They attacked us suddenly. I didn't know what was going on. Then I was blown into the ravine by the shock wave of the explosion. Fortunately, I escaped unharmed because of this."

Hearing the man say this, everyone also felt that it was quite reasonable, after all, there was indeed such a possibility.

It's just that everyone didn't expect that these teams would unite and attack them.

The people from Xiaomao country were the loudest just now. They had always suspected that someone was cheating, but now that they got involved with people from their country, they immediately fell silent.

The people in country C were instantly unhappy. After all, their people died.

"You guys should give me an explanation about the representative of Xiaomao Country. You have been saying that someone cheated before, but you seem to have brought up this matter first."

"Then what do you mean? Do you think I directed and acted myself, and then said these things?"

"I didn't say that. You said it yourself. Besides, your team also participated in the operation. It's hard for everyone not to doubt it."

The representative of Xiaomao Country was a little excited, and he stared coldly at the man in front of him.

"Is what you guys are telling the truth? I'm just curious, why can't you beat them with so many heavy weapons?"

"Sir, you are really embarrassing me when you say this, because they launched the attack suddenly. You should also know that they are all elites from various countries. We were indeed caught off guard."

No matter how you ask in the back, the man will answer every detail. This is what Qin Yuan has explained to him before. I have to say that the man also admires Qin Yuan.

In a short period of time, all the countermeasures have been thought out, and the consequences before and after have been considered, including the reactions of various countries, Qin Yuan has already predicted it in place.

When Qin Yuan talked to him at that time, the man still felt that such a thing was impossible, because Qin Yuan's guess was so accurate, he said at that time that the people of Xiaomao country would definitely separate the relationship first.

But the more they want to do this, the more they will be involved, because they themselves are relatively guilty, and their team is here, and it is useless to separate the relationship.

And looking at the scars on the man's body, it really didn't look like it was pretending. Everyone didn't ask why, so they let the man go down for treatment first.

For a moment, the entire meeting room was silent. This was a scene that everyone had never imagined, and an alliance was formed.

"Our idea before was very simple, let them compete and confront each other, and then the organizers would hunt them down in the later stage, but now such a situation has appeared."

"Then do we need to carry out some basic interference now, and set a new rule to prevent them from forming an alliance?"

"Things have developed to the present, so what can we do if we don't allow them to form an alliance. In fact, if we form an alliance, they will still kill each other in the end, so it's better to do this first."

Many representatives also felt that if this was the case, then let nature take its course. After all, if they form an alliance, no matter how they think of it, there is no way to stop it.

At this time Moxi took advantage of this opportunity and quickly expressed his opinion.

"Everyone, I think that if this is the case, it is better for us to join the process in advance and directly kill them. Before we decided to drive them away."

Moxi continued to analyze from the beginning to the end. He said that it was because these soldiers were ordered to drive them away that they let go of their guard. If they directly carried out the killing mission, there would be no such sacrifice.

The representatives of C must support it. After all, their soldiers have suffered losses. Although a small number of people disagree, after voting, this decision will be implemented immediately.

This happened to be in Moxi's arms. This is what he wanted, and this time he could pursue the red blood cell team openly.

The people present may not be clear, but only he knows that the man lied just now, but the man did a good job, at least he did not expose him, so he has to wait for him to go to the infirmary to ask him personally.

At this moment, the man was lying on the hospital bed, and he was also very disturbed. He begged the doctor to give him a full body examination.

Chapter 1056: Choose to cooperate with Qin Yuan

He mainly wanted to see if there really was some kind of toxin in his body.

He didn't say that the doctor would definitely give him a full body examination, because there were indeed many wounds on his body.

It's just that after some examinations, the doctor only treated him, and the foreign businessman didn't find any toxins. He was a little unwilling, and then asked:

"Doctor, apart from these traumas, is there any problem in my body? Is there any other disease?"

"Don't worry, your examination results are normal in other aspects, but these injuries are very serious, and you need to rest for a while."

The man nodded. He was a little confused at the moment. He didn't know whether the toxin really existed, or whether it was impossible for the doctor to detect it.

But if ordinary toxins come in, they should be detectable by current medical technology, so he doesn't know for a while whether it is true or not.

But for now, let's take a step and take a look. Just when he was confused, a person walked in and closed the door of the ward.

It was Moxi who came in, the man looked at him coldly, it was all caused by Moxi, otherwise he would not have become like this, and his brothers.

When Moxie came in, he took out a check from his pocket.

"Your performance today is very good, I am very satisfied, this is as compensation for you."

After the man experienced life and death, he no longer cared about the money. What's more, he was not completely out of danger yet. The toxin in his body was like a time bomb, haunting him all the time.

He gave Moxi a disdainful look, "You think you can recover my loss with just your check? All my brothers died there. How should you compensate for all of this?"

"Hahaha, these things are not something I should consider. Didn't they die in front of them normally because of the mission? Your person in charge will also compensate them for these things. You and I don't need to worry about this."

This guy is really crossing the river and tearing down the bridge. After using it, he finds that it has no value, and he doesn't feel any guilt at all.

The man is also mentally prepared, he knows that if this is the case, it is better to choose to cooperate with Qin Yuan, because Moxi is too indifferent, if he is also useless, then he will directly abandon himself.

At least Qin Yuan did not hurt him, and the poison was also for protection.

The man had already made up his mind, at this moment Moxi stared into his eyes and asked:

"It's just that I'm curious about what's going on. Your rhetoric just now can only fool them. I want to know what the real situation is like."

"The real situation is that our two teams went there together, and then were tricked by Qin Yuan. They tried to lure us into the bait, and his ability is simply unimaginable."

When the man poked here, his body trembled slightly involuntarily. This was definitely not an act, because the ability of willingness was indeed too strong, and their heavy equipment had already been killed by Qin Yuan before they could make a move.

"If you let our two teams go out like this, you are completely dying. We are not on the same line with their strength at all. Even if we have those heavy equipment, we can't beat them at all."

The man became more and more excited as he talked, and he cried while covering his headache. He thought of his brothers. He was lucky to be left behind at the last moment, otherwise he would be a corpse now.

People like Qin Yuan who are at the God of War level should not be provoked by someone like him, their strength will never match.

Moxi looked at the man's reaction and frowned, as if there was nothing wrong with it. He had been worried that the man had lied to him before, but it seemed that there was nothing wrong with it.

He asked a few more detailed questions, and there were no other major questions, so he patted the man on the shoulder.

"Don't worry, now that the organizing committee has finalized the plan and started the mass killing operation, I will definitely let other people avenge your brothers."

Although Mo Xi said so, what he wanted more in his heart was to kill the man, because he knew that only the dead could not speak, and the only one who knew the truth was the man in front of him.

But she can't touch him yet. After all, this person is the focus of attention now, and he is also a key person. If the man dies suddenly at this time, then she can't get rid of it.

So he can only look for opportunities, the most important thing now is to appease the emotions over there, and the man must not let him notice.

Moxi thought that what he had done was perfect, but Qin Yuan had already informed the man of these things in advance. At that time, Qin Yuan told the man to be careful of Moxi. This man is cruel and will definitely kill people.

After all, a team had already been wiped out at the very beginning. Even in this situation, he still did not give up.

The men at that time still didn't dare to believe it. After all, the representatives of the United States were quite authoritative no matter what they said, and they wouldn't say that they would kill people to silence them.

But today when he saw Moxi's eyes, he understood that this guy would really do such a thing, so he had to plan well.

Now he has decided to cooperate with Qin Yuan. The condition of cooperation is that Qin Yuan can keep himself, and at the last moment he will stand up and report Mo Xi.

But these are things for later, after all, he has to find a way later, first contact Qin Yuan and the others, and now his right hand is completely broken, and there are many scars on his body.

Moxi couldn't ask anything here, and it seemed that the man didn't lie to him, so he walked out after a few pleasantries.

On the other side, Qin Yuan and the others are still speeding up their journey. He knows that Moxi will definitely not let it go, so let's get out of this range as soon as possible.

The Alpha team also received a message, which was a signal from Moxie, hoping that they would cooperate internally and externally to hunt down the red blood cell team together.

But the key problem now is that even Moxi doesn't know where the red blood cell team has gone, and they have completely cut off contact.

Since the batch of positioning equipment was blown up, he has completely lost his monitoring function.

At this moment, on a high ground, a throwing knife flew out of the grass and shot through the neck of a pheasant in an instant.

Qin Yuan came out from the grass, carrying a pheasant and two rabbits in his hands.

To be honest, because they are rushing so hard every day, because they have not found a suitable sniper position, they want to find a position that is easy to defend and difficult to attack.

Therefore, it is still necessary to add a lot of protein. For fried noodles, it is indeed too simple.

He regretted that he didn't ask Zhang Meng for some pills. The pills were so powerful that they could not eat anything for three whole days without any sense of hunger.

But as soon as the three-day statute of limitations expired, the feeling of hunger would immediately sweep over. The fried noodles would not be able to solve it at all. The main reason was that they had to travel intensively every day, just like today, they had already walked more than 50 kilometers.

The most important thing is that the terrain here is very complicated, and the temperature difference between day and night is also very large.

In a hidden cave, several people started to cook roast chicken. It is relatively hidden in such a cave, and the smoke from the fire will slowly dissipate.

At present, only Qin Yuan and the others are eating roast chicken leisurely beside them.

Holding a chicken wing, Li Erniu couldn't help admiring, "Brother Qin, I really think it's so strange, why is it also a barbecue, the taste of your roast is better than ours, and there seems to be nothing Plus, it is very fragrant."

"This is called technology. It's mainly about mastering the heat, you know?"

Everyone joked and laughed, but Qin Zhengyang asked with some doubts: "Brother Qin, will we make too much fanfare, even if the fire is not big, will it attract the attention of the sponsor's patrol team or other teams? "

"What I want is this effect. It would be better if other teams come, just to get some rations."

"As for the organizer's team? Then we'll see, they're here to give us weapons."

Although what Qin Yuan said was arrogant, it was true. Two or three kilometers away from them, a small team was quietly advancing, because in the middle of the mountains, the smell spreads faster here.

They are the black wolf team from country h, and their strength is relatively strong. The captain who led the team immediately made a warning gesture because he smelled the smell of barbecue.

"It's so strange, who is so courageous, dare to light a fire and barbecue at this time."

"Could the captain be someone from the organizer? After all, under such circumstances, other teams shouldn't dare to be so blatant."

"That's not certain. Everyone is scattered. Maybe some teams really dare to take this risk. Anyway, for safety, everyone should take a detour."

Even though I said this, the scent was too seductive for everyone. After all, they had been out for five or six days now, and they didn't smell any meaty smell.

The captain of the Black Wolf team was also very helpless. They did eat meat to supplement protein, but they didn't dare to start a fire at all, and all they ate was raw meat.

But what you eat is like a savage, and you have to be careful of the organizer's pursuit.

At this moment, everyone is attracted by this fragrance.

"Captain, otherwise, let's go up and have a look. If it's someone from the organizer, then we'll retreat directly. If it's from another team, it's just a supply for the brothers."

The captain is very conflicted, he can't take this matter as a risk, because this time the elimination is also very cruel, the previous elimination was elimination, and now it directly pays the price of life.

"For the sake of safety, we are taking a detour, and don't covet such cheap things."

"Captain, but we don't have much rations. It will last for two days at most, and we have to save food all the time. This consumes too much energy for us."

"That's right, captain, we've been walking for so long and we haven't even seen any other teams, so why not just go and have a look. If it's another team, then we can make a good supply."

The captain asked everyone to tap, the food on his body was theirs, and there were not many fried noodles left. After struggling to eat again, he decided to take the initiative.

On the other side, after Qin Yuan and the others had finished eating, they were resting with their legs crossed. At this moment, he sat up with the corners of his mouth slightly raised.

"Brothers, there are supplies coming to your door, everyone get ready."

Everyone immediately understood what it meant. At this moment, the team from country h had quietly arrived at a position tens of meters away from the cave, and they could already see the smoke inside.

"Captain, it seems that it is not from the organizer. If it is from the organizer, there is no need to start a fire in such a hidden place."

"Hehe, if this is the case, don't be polite, seize this opportunity and let the brothers have enough to eat once."

The little leader didn't know that he just made a wrong decision. At this moment, a black shadow rushed out of the cave.

The main reason was that Qin Yuan's speed was too fast, and everyone could only see an illusory figure.

The soldiers behind had already fired subconsciously, but they missed at all, which also exposed their positions.

The soldier who shot the next second was hit between the eyebrows by a flying knife, and fell to the ground and died on the spot.

When the captain of the team saw the throwing knife, he was taken aback for an instant, and quickly told the team members to retreat.

"It's not good to retreat quickly, this is the red blood cell team!"

When the other team members heard the red blood cell team, all their fears were instantly engulfed in their hearts, but the team they thought was the strongest unexpectedly met the red blood cell team.

The team leader was even more regretful. It was not good for him to offend anyone, but why did he offend the red blood cell team? It was over.

Li Erniu and the others rushed out quickly, everyone cooperated closely, and soon the team was surrounded, and those soldiers were knocked down one by one.

The gun in the captain's hand is useless at all After all, a rifle is against a submachine gun, how is this possible?

He really couldn't figure out why the red blood cell team had such good equipment. He thought everyone had rifles, but he didn't expect that the red blood cell team's guns had already become sophisticated equipment.

In the next second, a black shadow jumped down from the tree, kicked him directly on the chin, and then quickly pierced his heart with a throwing knife.

It was only at the last moment that he realized that it was the red blood cell team that announced the attack on the organizer's team in the previous broadcast. He didn't expect that they not only killed the organizer's team, but also had such sophisticated equipment.

At this moment, the team members have already taken off their supplies.

"Brother Qin, it seems that they don't have much food left. It's only two days with this amount."

"If this is the case, it is estimated that other teams are similar. From yesterday to now, a total of three teams have been eliminated in the broadcast."

Chapter 1057: Moxie's plan

And at this time, the organizers did take action. They changed from simply driving them away at the beginning to directly killing them, and many teams were eliminated within a short period of time.

Even the Alpha team didn't figure out what was going on, and they were chased in a very embarrassing situation.

In the Alpha team's battle, they also relied on ambushing other teams for the past few days, so they laid down a lot of rations. Even in this situation, they did not dare to start a fire. Everyone had a hard time.

There is no protein supplement, so it is a big problem for everyone's physical energy consumption. Just like before, they can directly march tens of kilometers every day, which is not a problem. This is also their daily training.

But now there is no protein intake, which is too critical to their physical fitness, and now their speed cannot be slowed down. Currently, the red blood cell group remains in the first place.

They kept ambushing and jumped out of the organizer's encirclement. Before the organizer's circle had time to shrink, Qin Yuan and the others had already rushed to the front.

It has to be said that under the leadership of Qin Yuan, the red blood cell team has flourished.

The captain of the Alpha team, who had led his team members to avoid the organizer's pursuit, suddenly saw a familiar team, and this one was sent by Moxie.

Because they had an agreement at the time, when someone in the organizer's team picked up their national flag, it would prove that they were their own.

The captain of the Alpha Squad, Shemir, stepped forward and said directly: "It's been half the time, and you are only giving us resources now, which is different from what you said before."

The people on the opposite side didn't say much, and quickly took out some food supplies from the equipment and handed them to them, and these people couldn't swallow it.

Xie Mier kept complaining that they were like savages when they came here for a while, and if they knew it, they would not have agreed to participate in this stupid competition. It was a life of savages.

"This is completely different from what you said before. I have never seen that red blood cell group."

The team leader on this side looked at the person in front of him and frowned. Is this still the captain of the Alpha team he knew before? Why did he become like this now, and he was already complaining from the very beginning?

"Captain Shemir, I need to remind you that it's not that you haven't encountered the red blood cell team, but that they have far surpassed you. This is also our prediction."

"This is absolutely impossible, our speed is already very fast, how could they surpass us?"

"Your speed is indeed relatively fast among these teams, but we haven't monitored the red blood cell team so far. According to our trajectory, they should have exceeded your range of more than 100 kilometers."

Xie Mier was stunned when he heard this, how is this possible? He felt that his Alpha team was already the strongest, and doing so was simply challenging his majesty.

"Let me tell you, you use this kind of aggressive method to me. It doesn't work for me. With these broken conditions you give, how can someone surpass us. Stop talking nonsense here."

The speaker shook his head helplessly. To be honest, these teams are really strong, but there is also a problem because they are American soldiers.

I always feel that I am very superior. Of course, after taking away those so-called advanced weapons, they are not as good as an ordinary team.

For example, now they have to rely on them to deliver supplies, and to be honest, this is actually against the regulations, and it is completely unfair to other team members, but there is no way to do this, this is their order to go to work.

Although he didn't want to, he also didn't want to watch his team lose.

"Officer Moxi has already told me that this batch of equipment is the best. She hopes that you can find the red blood cell team as soon as possible. We will also send you a message when the time comes, so we can cooperate internally and externally."

While eating beef jerky, Moxi said disdainfully: "As long as I have this batch of equipment, I don't need your help to find the red blood cell team. We can solve them directly."

The person in charge here is very good. He has become this guy. Up to this moment, he has not recognized his own situation and is still deceiving himself.

"Xie Mier, I really hope you are sober and don't take all the people into the gutter. I am really worried that you will bring all these soldiers to a dead end."

As soon as he finished speaking, the soldier next to him was not happy, so he stepped forward and pushed him away.

"What do you guys mean? Do you have such an attitude to talk to our captain? Don't you know how many missions our captain and we have carried out, and where were you when we carried out the mission?"

"Hehe, everyone, I just want to remind you that you are still relying on our rescue."

"What do you mean, you guy? Do you think we are not worthy of your rescue or something? What can we do about the \*\*\*\* environment?"

Seeing that the conflicts between people are getting more and more intense, and a fight is about to start, the people next to them all stepped forward to persuade the fight.

An older veteran in the organizer's team stepped forward and said:

"Captain Xie Mier, don't be so excited, he is telling the truth, maybe he wants to remind you."

"Did he remind you so much? He's talking inside and out. He just looks down on our Alpha team. Does he know what the Alpha team represents? This is the trump card of our country, and we are the trump card."

After speaking, Captain Xie Mier took his team and left directly with the equipment, without listening to any explanation from them.

The person in charge at the back was about to vomit blood. She didn't know how their team, which they were proud of before, had become like this and so conceited. He wanted to remind them because he really understood the strength of the red blood cell team. .

After all, with the original equipment, he directly killed three teams with a backhand. This situation has never happened before.

He has no choice now, but he can only cooperate with the Alpha team as much as possible. No matter what, it is also his own country's team, and he still doesn't want his own country to lose.

"Although it's unfair, I can't help it, because this is my order and I must obey it."

"Forget it, what should be reminded has already been reminded, and everything will be done according to God's will!"

After these people finished speaking, they packed up some equipment and left directly, but they didn't notice a few pairs of eyes in the grass, staring at them intently.

These people are the team from Xiaomao Country. They were hiding in the bushes to avoid the organizer's tracking. They didn't expect to see such a scene.

"Captain Matsuo, I didn't expect their Alpha team to do such a thing."

"It seems that we can go and talk to them. If we can form an alliance with them, then we can also catch up with the winners this time."

"But if they do this, will they suddenly attack us? After all, we know so many secrets."

"Don't worry, I have that capital. What do they want most? What they want most is face. Although they did this, they are also afraid that this matter will be exposed, so we are always on the initiative side. ."

Matsuo showed a meaningful smile, and followed quietly.

He must seize this opportunity. Since this is the case, it seems that the Alpha team will also be the final winner. After all, there are people inside the family who are quietly helping them.

If this is the case, then you must seize the opportunity and stay with them until the end.

In addition, here Moxi came to the ward again. He looked at the man's injuries, because his wrist was completely shattered, and it was impossible for his left hand to hold a gun in his life. It would take a long time to recover.

Moxi looked at his results, and then said slowly, "You have to know that I don't need to \*\*\*\*\* people here, so it's time for you to show your value."

"But what I look like now, Chief Moxi, don't you think it's too much to do this? My wound has not fully recovered yet."

"As a soldier, there is no time to say no, and I think you can follow my people to the battlefield in your current situation. After all, you have contacted the red blood cell team before, and you can act with them."

Moxi actually wanted to take advantage of this opportunity and kill him. After all, he was arranged in his own team, so it could be called an accident.

How can a man not understand this truth? He can shout, this guy is really ruthless, and now he wants to come to our weeds to eradicate him after using him.

"Moxi, sir, but I have not been ordered by our direct commander now. After all, I am not a subordinate unit of your United States."

Moxie smiled, and took out a transfer order from his body.

"Lieutenant Aleph! You are now assigned to the seventh team of the organizer, and all actions will be subject to the instructions of the seventh team."

After Moxi finished speaking, he directly threw the transfer order to him.

"Take a good look at it. There is also the signature of your highest official on it. As long as I speak, no one will dare to let people go. After all, this is our authority."

Aleph held the transfer order, clenched his fists, and doing it was a conspiracy by all of them. To them, his life was nothing at all, just a plaything, which was transferred around by them.

"Mr. Moxi, but I'm injured now, and my left hand hasn't recovered at all. If I go to the battlefield with you, isn't this just asking me to die?"

"How is this possible? How can you say such things as death? Don't worry, our team will protect you, and you will be absolutely safe."

Moxie smiled, then stepped forward and patted him on the shoulder, and then a man came in and delivered a set of clean clothes.

"You will join my team tomorrow morning, remember to perform well and don't let me down!"

After finishing speaking, Moxi left. Aleph was very helpless, but he had nothing to do. This is the means of capital, and he has no room to resist.

If this is the case, then he can only save himself. In addition, he always has a time bomb in his heart, which is the poison Qin Yuan gave him. In the first three days, he did not feel any hunger. At that time He felt that the poison must be at work.

Later, although he regained his sense of hunger, he always felt that something was wrong, and the poison must be real.

Now Moxi is like this again, and he has nothing to do with him. In this way, Aleph joined Moxi's team.

Although Qin Yuan's speed is fast, they are now in the leading position, and the organizer's team has never found them.

At this moment, they have found a hill that is easy to defend and difficult to attack. They can hide on this high ground for a few days and let everyone have a good rest. Recently, they have been on the road every day.

But after all, the organizers have heavy weapons, aircraft and tanks on their side, so their speed was copied for a while.

After all, the organizer was targeting them, and there was an infrared scanner on the organizer's side. In order to find Qin Yuan, Moxi, they spent a lot of money and directly used the drone to conduct an infrared search.

All the teams were hunted down by the organizers in the late stage, but the only team that stands out as the leader must be the red blood cell team.

Under the search of such scientific and technological weapons, Qin Yuan and the others had no choice but to be found. The drone flew relatively low, so it had to be close to the bottom to search and find thermal imaging like this.

Moxi sent a drone here, and Qin Yuan knocked it down as soon as it landed.

"It seems that this guy still found us. If he doesn't kill us, we won't give up."

"Brother Qin, what should we do now? Or change positions."

"It's useless to change locations. After all, it's useless for this guy to change locations for us. In this case, it's better to stay here and take the initiative."

Everyone nodded. After all, it's not an option to keep pestering him like this. In this case, it's better to fight him. Anyway, everyone has that strength, and now their weapons and equipment are very good.

They were worried about being discovered before, and they all hid carefully, but now it doesn't matter.

However, after Moxi discovered the red blood cell team, he didn't send out the team directly. Instead, he came up with another plan, because this time he wanted to make the red blood cell team disappear completely.

He immediately sent his own team, and then deliberately spread some news, deliberately exposing the location of the red blood cell team.

Then tell the other teams that there is a large amount of supplies in that place, which is a temporary supply point for them in this competition, but they didn't have time to evacuate.

Now that the competition is over halfway, everyone is convinced that there are supplies. In addition, everyone's equipment and food have been consumed. With such supplies, everyone will definitely go to the supply station. .

This is Moxi's strategy, of course he knows to use everyone's strength.

#### Chapter 1058: Operation Alpha Squad

At this moment, Aleph was already in the team that Moxi sent out, but in this team, he was fed up with bullying, after all, he had been specially explained by Moxi.

Now he has been reduced to an abandoned chess piece. His only use value now may be that he can still be used to deal with the red blood cell team. After all, he has little experience in fighting them before.

So Aleph knew very well that he would be eliminated later, judging by Moxi's ruthless style of doing things, and the news about the supply point also leaked out quickly.

Ba Guo's team has been struggling all the time. They can't fight an ambush. After all, there is a big disparity in weapons between the two sides. In addition, they have always chosen a more conservative plan.

If you want to rely on this method to survive to the end, after all, there is still half a month. If there is a battle now, there is really no room for turning back.

Of course, they also know their own strength. They have spent this period of time by eating grass roots and bark, and they really have no food left.

When they learned that there was a supply point, they were also very excited.

"Captain, I don't know how many people know this news, but we still have to hurry up and rush over there in advance."

"The problem is that we don't know the truth of this news at the moment. If we are fooled by it in the past and everyone gets into trouble, it will be more troublesome."

"This news came from the organizer's team. It should not be false. And now we hurry up, maybe we can really grab some supplies."

The squad leader looked at the soldiers around him. Everyone had a very difficult time. According to this development, it would not last for half a month.

They have been hiding in Tibet, using the time of night to set off quietly, because the target is indeed relatively large during the day.

Although this method is relatively safe at present, as the deportation circle becomes smaller and smaller, the chance of encountering other teams will also increase, so it is better to grab supplies first.

They thought so, and the other teams did the same, and the news reached everyone's ears almost at the same time.

Qin Yuan and the others didn't know about the news at the moment, but in the evening, Qin Yuan suddenly heard a movement, someone was approaching their position.

He Chenguang has been lying in ambush on the mountainside, and it is his top priority to stand guard as the number one sniper.

He quickly notified the team members in the headset, and when he turned his head, he found that Qin Yuan was already standing beside him.

"Brother Qin, your ears are still so sensitive, but this time it's strange, I saw two teams, take a look."

Qin Yuan nodded. Instead of taking the binoculars, he climbed up a tree and looked into the distance.

There are indeed two teams approaching them, and the two teams cooperate very closely.

"They are not the organizer's team, but the same contestants as us, but their goal is very clear, I don't know what the situation is yet."

"Brother Qin, could it be that they just passed by here? We are too nervous."

"Our location is relatively high. If you pass by, there is no deviation so much. There is no need to pass by to the top of the mountain."

He Chenguang nodded, and asked the other team members to follow up first, and be on guard. It seemed that the visitors were not friendly.

Sure enough, after more than ten minutes, these people's goals became clearer and clearer, and they were coming for them.

The gun in He Chenguang's hand was ready. At this time, Qin Yuan gave an order: "Everyone, get ready, but make sure to keep the two captains alive and don't fight. The rest can be dealt with casually."

Qin Yuan still has something to ask them, their goal is too clear, Qin Yuan suspects that this is definitely a conspiracy by the person in the organizer.

Qin Zhengyang, this is the first time since he joined the team that everyone protected him well before shooting in a real sense.

But now he can shoot directly subconsciously, because he knows that this is a life-and-death duel, and if they don't speak up, it is very likely that they will die.

The following two teams have reached an alliance. After all, the organizers are not very old, and maybe they are well equipped, so the two teams have reached an alliance.

But they had just set foot on the foot of the mountain when Qin Yuan fired directly. After a local soldier was shot, gunshots rang out. Qin Yuan's equipment and their rifles were simply incomparable.

The soldiers below became more certain after hearing the gunshot.

"Did you hear that? Brothers, the sound of gunfire is definitely the organizer's hurdle. There are indeed supplies in Lai Na. Come on, everyone!"

When a person is hungry to the limit, he is no longer afraid of other things. Anyway, if this continues, he will starve to death, so it is better to fight to the death.

In this way, these soldiers began to charge forward non-stop, but the red blood cell team occupied a favorable position, and they were well equipped and physically better than them.

In an instant, most of these two teams were wiped out, and the rest of them saw that something was wrong and wanted to escape, but it was too late, Qin Yuan had already led his team to chase down.

According to what Qin Yuan said before, there was one person left alive, but the captain was more agile, turned over, and jumped down directly regardless of everything.

Qin Yuan's throwing knife had already been deployed, and it pierced his calf. He lost his footing and rolled directly into the ravine.

The other one was also captured alive by Li Erniu and the others, so they were brought to Qin Yuan.

When these two people saw the people who ambushed them, they were instantly dumbfounded. What's going on, it's not from the organizer, but from the same participating team as them.

The important thing is that they also recognized the sign in front of them. The team leader who was kneeling on the ground gasped, unexpectedly it was the red blood cell team.

They had heard the name of the red blood cell team before, and everyone discussed how to avoid it along the way, but they unexpectedly ran into it by accident.

The captain only felt that he was at a disadvantage. He didn't expect that the red blood cell team had already seized the opportunity and occupied this supply point. No wonder such a thing happened.

Qin Yuan looked at the person in front of him and asked coldly: "What's your situation? Why did you come to this place? And who sent you here?"

These words completely confused the people on the ground, and he said suspiciously: "Aren't you a supply point? It has been occupied by you, and you ask us in turn. I can only say that I have fallen. Met your team."

What supply point? Everyone felt a little strange. Under Qin Yuan's persecution, the man told the truth, and it seemed that it was really that guy Moxi who did it.

He intentionally revealed their locations, which was simply killing people, deliberately letting those teams die, and then trying to consume the strength of the red blood cell team.

The man kneeling on the ground also understood when he heard this, that this was a conspiracy.

"But I'm very surprised, if this is not a supply point, why do you have such good equipment on your body?"

"This is what we fought with the organizer's team before, so you don't have to be surprised. I just want to know how many people know about this."

He was shocked when he heard this, he didn't expect it to be like this, after all, Qin Yuan's red blood cell team is too powerful, he can take down such sophisticated equipment directly with a rifle.

"I don't know exactly how many people know about it. Anyway, the news spreads relatively quickly."

Qin Yuan finally understands, if this is the case, then basically everyone knows about it.

The remaining two people, Qin Yuan, did not intend to kill them, but thanked them anyway, and sent him information.

"Now I can let the two of you go, but the next time we meet, I won't show mercy. I can only say good luck to you."

These two people fled as quickly as if they saw a demon. Who would want to see him next time? This guy now promises to change it, but he won't be sure next time.

But after the two left, Qin Zhengyang frowned, thinking that this place should be unsafe.

"Brother Qin, it seems that we need to evacuate again. Although there are abundant supplies and wild animals on this side, this place has been completely exposed."

Unexpectedly, Qin Yuan calmly packed up the equipment next to him. He didn't plan to evacuate at all, because he was under the monitoring of Moxi all the time.

He can avoid infrared tracking, but his team members can't. Even if they move to other places, they will still be tracked. It's better to stay here. The terrain here is more familiar to them and easier to fight.

In this way, for the past three days, teams kept coming to the door every day, all because of the news from the organizer that there was a supply station here.

With the passage of time, the team of the real organizer kept chasing them from the outside, and the circle became smaller and smaller. The position occupied by Qin Yuan and the others was indeed unique.

Because it takes a few days to rotate, and the time is relatively long now, so everyone who stands guard below takes turns. Tonight, Qin Zhengyang and Li Erniu are standing guard.

When everyone was sleeping soundly, Qin Zhengyang noticed someone approaching from the opposite side, and Li Erniu also noticed them. They all had infrared equipment, so they could see clearly.

Qin Zhengyang said in a low voice: "Brother Er Niu, I'm going to inform the captain to come over now."

"No need for this one. Just think about it. It's such a simple matter. They don't need to come over to talk about it. The teams who came here during this period of time should also be participating teams. With our equipment, we can directly solve them."

"But it's just the two of us, okay?"

"Silly boy, look at what weapons we have and what kind of weapons they are. Don't tell me you're so unconfident. You've been in the Special Forces for so long, so you should come out and exercise."

When Qin Zhengyang thinks about it, this is indeed the truth. He also needs to grow up well, so the two of them planned to make an ambush.

But this time they miscalculated, because what came across was not an ordinary participating team, but the equipment in the hands of the Alpha team, which could even be said to be more powerful than Qin Yuan's.

These pieces of equipment were specially provided by Moxie, and they were specially used to deal with the red blood cell team, and they also joined forces with the peripheral organizers.

Li Erniu originally wanted to make an ambush quietly, but a blasting grenade from the opposite side was thrown directly, and the big tree behind him was blown up in an instant. At this critical moment, Qin Yuan made a move. He grabbed Qin Zhengyang and almost At one o'clock, he was hit by the fallen tree.

Qin Zhengyang was still wondering when Qin Yuan came over, but in the next second a golden bullet shot directly at him with precision, not only that, but there was also a drone covering it above.

This speed was too fast, Qin Yuan had no time to react, and directly protected Qin Zhengyang under his body, using his body to resist the shock wave of the explosion!

Then she turned over and jumped up, and threw two throwing knives out, directly hitting the drone above.

This time, the opponent came clearly prepared. Their equipment was very sophisticated. This time, they were photographed with medium and heavy weapons. Like the previous drones, they all attacked with missiles.

"Find a safe place to lie on your stomach. I'll go find Er Niu now."

Qin Zhengyang was shocked a long time ago He couldn't calm down for a long time, he didn't expect Qin Yuan's speed to be so fast, and at this time Li Erniu was covered by the fallen branches.

The alpha team on the opposite side also rushed up quickly, these guys are very crazy.

"Brothers, don't let any one go later, try to solve it as quickly as possible, and finish it as soon as possible."

"Yes! Captain!"

And Moxi, who was in the office at the moment, was so angry that he kicked over the desk in front of him.

He could only quickly issue an order to let the team he sent before go out to act quickly. Now why is this Alpha team so disobedient to the order he had already said before, and did not act according to his plan at all.

"This stupid guy, doesn't he know how powerful the red blood cell team is? With his team, he is no match for others."

"Sir, what should we do now? They have controlled the drone, but according to the footage displayed by the drone, a crash has occurred."

"What else can I do now? I can only send reinforcements. I just hope that guy Qin Yuan didn't see through their identities and just regarded them as the organizer's team."

This is what Moxi is most worried about. After all, if an ordinary team also holds the host team's weapons, and is more advanced than theirs, then this will explain the problem.

So Moxi kept cursing the captain of the Alpha team. This guy was so conceited that he didn't take his words seriously at all.

Aleph's team also went for reinforcements. They had to resolve the battlefield as soon as possible before the real host team arrived, otherwise they would be easily spotted, and the plan would be completely exposed.

The Alpha team at this moment is very confident, they can resolve the battle within half an hour and wipe them all out.

Chapter 1059: this is a trap

So in the walkie-talkie, Aleph's team immediately reported.

After all, there were already strong explosions ahead, as well as the intertwined sounds of various heavy weapons.

The organizer also felt strange, what kind of team is this, and why are they playing so fiercely? More importantly, their weaponry seems to be similar to their own.

Teams from other organizers originally planned to investigate, but Moxi immediately said that he had sent people out.

"The main reason is that the distance is relatively far. I will send two teams to support, and your other teams can continue to encircle and suppress other participating teams."

Listening to what he said, everyone felt that this was also the case. After all, far water could not dispel near fire. Besides, an encirclement had already been formed, and they could not move out at will, otherwise they would destroy the previous camp.

This is very likely to miss other participating teams. These guys have their own agendas. After all, they don't want to make their team unfair, so they are also working hard to chase these teams.

But at this moment, the captain of the Alpha team was very confident, holding a bazooka in his hand, desperately attacking upwards, but he didn't notice that a figure had appeared behind him.

At this time, he also sensed the danger behind him, and when he turned his head, it was too late, Qin Yuan kicked him in the chest, and he fell down instantly.

The bazooka in his hand came out, and a shell exploded directly on the tree trunk next to him, flying sand and rocks everywhere in an instant.

The Alpha team was indeed well-trained, and they cooperated very closely. After discovering that someone had invaded their team, they immediately organized an effective attack.

But Qin Yuan's speed was not comparable to that of them. Just as the people behind were about to shoot, Qin Yuan turned over and jumped away. The bullet hit their captain's thigh directly.

Their reconciliation grinned in pain, but even in such pain, he didn't dare to make any noise. After all, it was night and the vision was very bad. They were equipped with infrared equipment, so they could see clearly.

But the other party is not sure, so he endured the pain, turned over and jumped to the back, but he didn't know that Qin Yuan had already seen his every move.

He had just arrived in the bushes when Qin Yuan kicked him directly on the chin again. He did a backflip and fell heavily to the ground. Before he could react, he was subdued by Qin Yuan.

A soldier in front rushed up quickly, and the flying knife in Qin Yuan's hand flew out, piercing the soldier's chest, and he fell straight down like that.

At this time, the members of the red blood cell team also reacted and attacked them one after another.

Li Erniu also got up from the ditch, he knew that he had caused trouble, but he didn't expect that the opponent's strength was so strong this time, he really underestimated it.

The members of the red blood cell team all surrounded them, and the two sides fought fiercely for a while. I have to say that the Alpha team is indeed very powerful, and their cooperation is very close.

It is indeed a special team that was also ranked in the world before.

At this time, Aleph's team also came up to support, repelling the attack of the red blood cell team for a while.

Qin Yuan snorted coldly when he saw it, originally he wanted to play with them, but these guys were too immoral, they even called for reinforcements, if that's the case, then it's meaningless.

And at this time, Xiaomao's team also appeared, and they began to besiege Qin Xian and them from both sides.

The captain of the Alpha team was rescued by the people from Xiaomao, and they quickly dragged him out.

This guy was dragged out, still cursing, "Are you \*\*\*\* going to save someone, I have a wound on my leg!"

But the people of Xiaomao didn't care that there was a hail of bullets in front of them, and it was already very good to be able to rescue people.

And at this time, the members of the Alpha team also realized, why did the people from Xiaomao appear at this time?

There will never be such a coincidence. At this time, the captain of Xiao Maoguo smiled and said: "Don't be so nervous, we can come to make a deal now."

"Hehe, just because you want to make a deal with us."

His eyes were full of disdain, and he simply looked down on them. After all, in his eyes, Xiaomao had never taken a fancy to them.

The captain of Xiaomao Country didn't say anything, anyway, he seemed to be used to it, but he still had that very polite attitude.

"Captain Baron, then don't blame me for being rude, because I still know something about the deal between you, including what you have now."

The captain's eyes turned cold when he heard this, and he pushed the person in front of him away.

"What do you guys mean? I don't understand at all, and you're threatening me, aren't you?"

"No, no, you misunderstood. How dare I threaten you? It's just a matter of fact, because we just know about it."

"What on earth do you want to do? Do you want to report on me? If that's the case, go ahead and see who dies worse in the end."

After all, the Alpha team is backed by the country of the United States, and they also have this strength. The biggest organizer this time is their country of the United States.

To put it bluntly, organizing such a competition is also used to consume the relatively strong team strength of several other countries.

"So I said you misunderstood. Don't worry, we are definitely on the united front. I will never report. Why are you looking for something? I'm here to help you."

Lomba looked at the person in front of him carefully, what does this guy mean?

"Captain Lomba, let me tell you this, because we also have hatred with the red blood cell team. This guy is too arrogant, so we also want to use this opportunity to eliminate them together."

Originally, he wanted to come to him for cooperation. He was disdainful before, but seeing the current situation, he really underestimated the strength of the red blood cell team. If this is the case, one more cannon fodder to die is fine.

"Since you want me to give you this chance, it depends on your performance. They are ahead, and we also have a support team, as long as you don't let me down."

Why didn't the captain of Xiao Maoguo know that this guy deliberately wanted them to go forward to be cannon fodder, and he pretended to cooperate and agree on the surface, and then helped Baron up with a smile.

"Don't worry about this. With our cooperation, they can be completely wiped out. Only we know about this."

Baron was very disdainful, sat by the side, and began to treat his wound.

At this time, Aleph ran out from the small team and found Qin Yuan first. Qin Yuan thought he was the person coming to attack from the opposite side, so he subconsciously attacked him. He quickly said:

"Captain Qin, it's me. I'm here to send you news."

"What do you guys mean now?"

"These guys, their plan is not only that, but they will also find ways to frame you later."

Before Aleph could finish his words, a shell landed directly on their side, creating a huge crater in an instant. Qin Yuan pulled him over and rolled on the side.

"Now is not the time to talk, let's get rid of these people first."

Unexpectedly, Aleph stopped him directly, "Captain Qin, absolutely no, the time has not come yet, and if you really kill them all now, you will fall into Moxi's trap."

What's the meaning? Qin Yuan silently looked at the person in front of him, and Aleph's eyes flickered with anxiety, and there was no deception.

"What the \*\*\*\* are you talking about!"

"Your captain doesn't have time to explain now. Take your people and retreat quickly. Don't get entangled with them, or you will really fall into their tricks!"

"Why do you think I should trust you, and maybe you are a double agent, are you sent here on purpose by Moxie?"

Because the situation is urgent now, Qin Yuan can't test it for a while, so he can only be forced to question him.

At this time, Aleph was very anxious, and while shooting back at the outside, he said: "Captain Qin, do you think that will happen to me? And you gave me that poison? I'm still counting on you. On the other hand, I really want to live, so you just trust me this time!"

And the rumbling sound also came from the sky. This time, Moxi really paid a lot of money. He didn't expect to send so many missile drones.

Qin Yuan clenched his fists. This guy really never let himself go from the beginning to the end. He thought of so many tricks and tricks, and even used so many heavy weapons.

Qin Yuan thought for a moment, and then blew a whistle directly, which was a unique retreat command among their team.

Then she saw Aleph behind her, "You'd better not lie to me, go to the back with my team now, I will cover your retreat."

Aleph nodded desperately, he really didn't lie to Qin Yuan, he just wanted to live, so he took the risk to remind Qin Yuan.

At this time, the team members also received an order to retreat, and they also began to retreat. At this time, they found Aleph coming.

Qin Zhengyang's gun directly touched his chest, "What's the matter with you guy? You brought him here?"

"Guys! Don't blame people, and don't shoot. This is an order from your captain. You should take me with you to retreat."

Qin Zhengyang didn't believe his rhetoric at all, and now he only believed in his own people, and he stared at Aleph coldly.

He Chenguang stood up at this time, and he analyzed that Qin Yuan should have called him here, otherwise this guy wouldn't have the guts.

"Let's take him now, even if this guy is a liar, then we will deal with him directly with a single shot."

In this way, everyone started to retreat with Aleph, willing to hold submachine guns, and began to desperately manipulate the people on the opposite side to attack.

Although the people from Xiao Mao said they would agree to cooperate with them, he knew that these Americans looked down on them at all, so they only attacked from the outside.

The most destructive weapon is the drone in mid-air. Missiles are exploding everywhere, and flames have already ignited.

Qin Yuan's movements were agile, a poker card flew out, and instantly slashed the throat of a heavy machine gunner. Before the man could react, blood gushed out instantly and fell to the ground.

The people next to him quickly added it. Everyone knew that the red blood cell team was powerful, and their captain's flying knife was so superb that it was dizzying.

Even though everyone was afraid, they could only do what they ordered. In addition, they were covered by these missiles, so Qin Yuan was suppressed for a while.

Qin Yuan originally planned to wipe out these guys completely, but then thought of what Aleph said, is this really a trap?

He threw a blasting grenade, and then took advantage of the smoke to retreat quickly, and the other party didn't see him.

At this moment, the members of the red blood cell team were really running desperately in front, and Aleph felt very strange.

"Wait, why don't you just retreat like this? Don't give your captain any sign, what if he can't find us?"

"It's not your turn to take care of these things, so you can rest assured to follow us. Now let's take care of yourself first, and let's talk about whether you can keep up."

Aleph felt more and more strange, how did they cooperate, did not leave a mark, just ran like this desperately, could their captain catch up? At that time, it will be troublesome if they all run away.

"You don't understand the strength of those people behind. What if your captain is caught then?"

He Chenguang snorted coldly in disdain, this matter is absolutely impossible, even their captain can wipe out all the people behind him.

No matter what Aleph said in the back, the people in front ignored her, everyone was running desperately, just like that, I don't know how far they ran, Aleph was completely behind, and Qin Zhengyang came to drag him behind.

"Your stamina is too good. You can run so fast under such circumstances. Your captain must have lost it long ago."

"What are you talking about I just tell you to follow us quickly."

Aleph had no choice but to adjust his breath and try to keep up. After running like this for more than ten minutes, he finally stopped. This is a bamboo forest, and everyone hid in it.

He found that his physical fitness was simply not the same as theirs. It was difficult for him to even stand up now, and he was lying on the ground, panting heavily.

However, the members of the red blood cell team did not change much. Instead, they immediately organized an effective formation and began to monitor the outside.

Only after seeing this scene did she realize the gap between herself and them, why they were so powerful, and had already left them by a large margin in terms of physical fitness.

Qin Zhengyang looked at the person in front of him with disdain. As far as this guy's physical fitness is concerned, he is completely a drag.

A few minutes later, a figure appeared, and Aleph was taken aback. He didn't expect it to be Qin Yuan. The speed was too fast, so he followed him.

Chapter 1060: There's a bigger conspiracy behind

Moreover, when Qin Yuan came, he was followed behind him without any signs, which was simply unbelievable, knowing that behind him was the Alpha team and the team they sent.

They were all wearing infrared equipment, how could it be possible for him to escape?

The more Aleph looked at it, the more strange it became. It was simply incredible that he was allowed to escape like this.

He couldn't believe it. Looking back, there was indeed no one else.

Qin Yuan grabbed his shoulder and lifted him to the front.

"Okay, don't make circles with me here, tell me about the trap you mentioned earlier."

He Chenguang also stepped forward, staring at Aleph coldly, "Let me tell you, if you dare to lie to us, you should know what will happen to you."

Aleph showed a wry smile helplessly, then shook his head, "Do you think I will lie to you? I am in danger now, and I was killed by that guy Moxi. The reason why I choose to cooperate with you is that And just because I want to live."

At the beginning, Aleph didn't have that much confidence in the red blood cell team. Although they were also very capable, this time he really saw it.

One after another, the sponsoring teams were killed by them, and in that case, they had absolutely no opponents.

In addition to the red blood cells, the strength behind the group is also very strong. Aleph can only be sure that Qin Yuan and the others will be able to protect themselves in the back.

"Before I say this, I just want to ask a question. If I am willing to stand up, correct you and expose the conspiracy behind Moxi, are you willing to protect me? I must at least ensure my own safety!"

Li Erniu stepped forward and mentioned Aleph, "Now you have not asked any questions yet, and you have started to ask for conditions. Let me tell you, don't push yourself!"

Everyone felt that Aleph was untrustworthy. After all, he had attacked them before, and they were very worried that Aleph was a double agent.

"Brother Qin, I don't think this kid is trustworthy at all. Moxi probably sent him here. Maybe this kid has positioning equipment on him."

Aleph was very helpless. He spread his hands, "Your captain gave me that poison before, and now it is still an unstable factor when I am tired. I don't know the market at all? Do you think I need to Harm you?"

The corners of Qin Yuan's mouth turned upwards, it seems that this kid has not realized that the poison is fake, after all it has been so long.

He also stepped forward and patted Aleph on the shoulder.

"He is right. You are indeed a smart person. Don't worry. If what you said is true and you choose to cooperate with us, I will not only guarantee your safety, but also give you the antidote."

Aleph had no choice at this moment, and cooperating with Qin Yuan and the others was his only choice.

In this way, he told what happened. It turned out that Moxi sent the Alpha team and another team from the organizer, and at the same time notified the other organizers.

The organizer's team that Aleph was in was like cannon fodder to put it bluntly. They didn't know it themselves, only their captain knew it, and this was what Aleph overheard.

According to Moxi's order, their captain, this team is going up to die, as long as Qin Yuan and the others completely wipe out this team.

The organizer's team would feel it, and then they took the opportunity to fight back, accusing Qin Yuan of colluding with the outside world and carrying the organizer's weapon.

Aleph didn't know that they were cannon fodder before, but he received an order from Moxi to stand up and identify Qin Yuan at the last moment. They said that Qin Yuan and his weapons were given by outsiders.

Hearing this just now, Li Erniu couldn't help it, and stood up directly, "These guys are really too much, they framed them again and again, we used this despicable and shameless method, and now we are targeting them like this."

"Okay, let's listen to him now. After all, we are also thanks to his reminder, otherwise we would really be fooled by that grandson."

Later, Aleph felt that this matter was getting more and more wrong, until he heard the real order from Captain Xiao, and it turned out that they were all cannon fodder.

At the last moment, Aleph was standing up to testify against such a fact. On the other hand, Aleph became a key figure again.

This is simply unbelievable, although Qin Yuan's abilities did kill the other sponsor's teams because of their strength.

That's why I got the gun, but when I was framed like that and there were witnesses, it was really difficult to explain clearly for a while.

It is really despicable to do it, and it directly used Aleph. In this way, if Qing Qinyuan and the others want to pursue it in the end, they will hold everything to Aleph.

"This Moxi is very despicable. He did this on purpose to draw your anger on me. How could I be so stupid and be used by him like this. My brothers died in vain."

Qin Yuan frowned slightly when he heard this, but at this moment, he still had a question.

"I'm very surprised, how can he have such great power by himself, and even dispatched the organizer's team one after another. Don't the other teams know?"

"Before I thought he was always alone, but there seemed to be another accomplice in him. Anyway, there were other people in him who united like this."

Aleph seems to be worried that Qin Yuan won't believe him, and he is a little anxious. After all, the most important thing to gain now is trust. If there is no basic trust, then it will be more troublesome later.

He took off his clothes directly, mainly to show them that he didn't have any positioning equipment on his body.

"I tell you this just to get your heart, and I also hope that you can protect me, and I can testify for you."

Qin Yuan looked at him and saw that this guy was indeed not lying. Since it is true, there are too many things involved behind Moxi's back. With these cunning guys, they will never let go if they have not caught substantive evidence. .

Even if I apply with the sponsor, the final investigation results are probably not satisfactory. After all, the above perfunctory situations are too common.

What's more, this is just a joint establishment of several countries. Even if there is no evidence, whether the interests of other people are involved, it will not involve much splash.

Qin Yuan thought about killing Moxi who framed them before, but this method was a bit too reckless, and killing Moxi would not solve the actual problem. He always felt that there should be other people leading behind this , Moxie is just cannon fodder.

And this person probably didn't even find out about Aleph, otherwise even if he had other accomplices, it would be impossible for him to have such great strength and send out the organizer's team one after another.

You must know that these teams of the sponsor are all favors from several other countries, and it is impossible to follow their dispatch casually.

It shows that the person behind this guy is very powerful, stronger than Moxie, and Moxie is just a pawn.

This is the result of Qin Yuan's current analysis. In any case, Aleph has gained trust now, and his position is also very important. If he stays later, he can directly prove Moxi.

It was almost dawn at this time, and Li Erniu and the others were lying on the hillside to rest.

But Aleph couldn't sleep no matter what, he always had two things on his mind. On the one hand, since Qin Yuan already believed in him, why did he always feel like he was still guarding against him.

He didn't mention the antidote at all, although he said he didn't know what kind of effect it would have, but it's not a solution if the poison stays in the body all the time.

Aleph became more and more worried, and finally he couldn't help asking: "Captain Qin, I have told you the truth. I came to surrender sincerely. I can only choose to stand by your side. I will I want to ask, how to do this?"

"What else can we do? Just let us protect you. This is what I promised before, and I will never go back on what I promised."

"Captain Qin, that's not what I mean, but do you remember what you gave me before? Will that thing do any harm to my body?"

Aleph struggled for a long time before he said: "Since it is a joint cooperation, at least it must be fair. If I choose to help you, then you must also ensure my safety. The toxins in my body can detoxify me."

At this time, Qin Yuan suddenly burst out laughing. He looked at Aleph and said slyly, "Do you think there is any toxin that can last for such a long time? Didn't you find it?"

"But why I haven't felt hungry for three days, I feel poisoned."

"That's what the ingredient is. It's actually a very powerful weight-loss drug that makes people not feel hungry for three days. They have taken it."

It was only at this time that Li Erniu and the others realized that they were willing to give them this kind of food long ago, but they didn't expect it to be a diet pill.

Qin Yuan could only use this pretense to perfunctory the past, Li Erniu repeatedly exclaimed, "Good guy, what brand of diet pills is this? I didn't feel any hunger at all."

"If you see it, I'll say you're stupid. There's nothing on the market now. Anyway, Brother Qin won't harm us."

The members of the red blood cell team laughed, and Aleph sat slumped on the ground. Unexpectedly, the half month he was worried about turned out to be a fake poison in the end.

To be honest, he was really angry now, as if he was being tricked by someone, but he didn't dare to get angry because he was stronger than him.

What else can he do? Besides, even if the poison is fake, or there is no poison, it will not affect the current result.

Qin Yuan looked at him seriously and said: "It's not enough for me to tell you this matter, otherwise I can continue to lie to you, if you show your sincerity, I will show my sincerity to you ."

Aleph nodded. This is indeed the truth. If this is the case, then choose to cooperate together.

"Although we are still in the competition, I already have a plan, you just need to follow us."

Qin Yuan's plan is that he wants to end the competition early, and in this case, he will take the initiative to attack.

Now there is only half a month left, so as long as he eliminates the other teams, this competition is meaningless and can end early.

The main reason is that he doesn't know what kind of plots and tricks Moxi will play later, so it's better to end it as soon as possible and take the initiative.

At the moment, the captain of the Alpha team who was chasing him covered his wound, and angrily punched the tree trunk next to him.

"A group of trash can't even look down on a few people, so let them run away like this."

Everyone didn't dare to say anything more. This guy got angry here, so he still lost to the red blood cell team.

Their losses this time were not too great, only some were injured, and then two soldiers died, and one was missing.

The missing one was Aleph. They didn't care at all, either he died in a corner and was not found, or he ran away as a deserter.

But Moxi in the office couldn't sit still anymore. Her seamless plan was broken just like this. What's more, Xiao Maoguo was now involved.

This is what he didn't expect. Their transaction was seen by Xiao Maoguo before, so now there is no way but to bring them in.

But for the little Mao country, he still has the ability to control it. After all, the strength of the little Mao country is placed there, and he has always respected them.

Both of them are fighting for their own interests, so this is not a conflict, they are together for their own interests, and the relationship will be more stable.

In addition, to be honest, Xiao Maoguo can't threaten him at all, so this problem is easier to solve.

When the organizer rushed back to report and told him that Aleph was missing, Moxi felt something was wrong.

He stepped forward and slapped the captain across the face.

"You trash, I asked you to watch a person, but you didn't catch that person, and this operation also failed, so you just say what else you can do."

The captain is also very innocent, he doesn't understand why the officer is so angry, isn't he just an insignificant person? Besides, he also confessed before that if he had the chance, he would kill him quietly.

"Sir, that person is probably more or less ominous. After all, in such a chaotic situation, it is very likely that he will be blown into pieces, and it is not certain."

"I don't want possibilities, I want affirmations. Do you know what affirmations are?"

Moxi was really angry. These team members were so weak, they couldn't keep up with their plan time and time again, and they were completely ruined.

What he is most worried about now is that Aleph will cooperate with the red blood cell team. If he really reports himself, it will be more troublesome.
