

## **Special Soldier 1061**

Chapter 1061: the mysterious man behind

The main reason is that every time his plan was broken ahead of time, he even suspected that Aleph was with Qin Yuan from the beginning and then was sent in.

He was the only one who played tricks on others, but he didn't expect to be tricked by others this time, and he was still a nobody.

He punched the table, but there was nothing he could do. The captain next to him was unknown, so he didn't know why the officer was so angry.

Isn't it just a missing soldier? After all, in such a melee, it is very likely that he will be blown to pieces or die somewhere.

"I think you are too worried. After all, this situation is not that complicated. It is possible that the guy is a deserter."

"Get out of here, what do you know! A bunch of trash, I really can't rely on you for anything."

The captain didn't dare to say anything more. Seeing that the officer was already angry, he hurriedly left. After all, Moxi didn't want too many people to know about this matter, and the young team of the organizer still couldn't be trusted.

After a while, Moxi called the people in his team in, and singled out Aleph's photo and the red blood cell team.

"It's this guy who will be killed when he sees it. No matter what the situation is, this time it's not for you to deal with the red blood cell team, but to kill this guy and tell the Alpha team the news."

The man standing opposite picked up the photo and glanced at it briefly. This guy looked familiar, as if he was someone they rescued some time ago.

But they are soldiers, and it is their bounden duty to obey orders. No matter what orders the chief gives, they only need to obey.

Moxi had no choice but to get angry and couldn't solve any problems. Now no matter what, Aleph must die. No matter what the reason was, this guy must have betrayed him.

After a while, Moxi received a call. He was very respectful at the moment. You must know that as the highest official on the side of the United States, it is rare for him to have such an attitude.

A deep male voice came from the other end of the phone, "Mr. Moxi, I really didn't expect that you are so unreliable in doing things, and you make mistakes again and again. You know that this really affects me. s plan."

Hearing this, Moxi panicked a little, thinking that he was quite afraid of the man on the other end of the phone, cold sweat was already breaking out on his forehead, and he kept wiping away the sweat.

"Sir, please listen to my explanation on this matter. I have made a solution now. Don't worry, this matter will never be exposed. I will definitely solve it perfectly."

"Hehe, then I hope you can give me a perfect explanation. You have to know that guy is not so easy to deal with. If you arouse his vigilance or discover my existence, you should know what will happen."

"I promise you this. Only the two of us know about the current call, and there is absolutely no other third person. I can guarantee this matter."

"Then I hope it is the same. It seems that relying on you is unreliable. Tomorrow morning, a well-equipped team will pass by the place where you are competing. You will be responsible for picking them up there and putting them in."

Moxi was taken aback when he heard this, did the person behind him not want to use him? What's the matter? He even sent his own people directly.

"Sir, I hope you don't give up on me, give me another chance, I will definitely complete the task and kill Qin Yuan."

"Don't be so nervous, I just sent the team to help you, because you really disappointed me in what you did, but on the other hand, if that guy is so easy to solve, it won't be so troublesome, you just have to do it well Just accept it."

Hearing this, Mo Xi breathed a sigh of relief, the other party seemed to be quite angry at first, but it was fine in the end, it should be fine from the looks of it.

No matter what, the result was considered good. He was very afraid that the person behind him would be angry, and that guy was also a terrifying existence.

After hanging up the phone, Moxi's back was covered in cold sweat. He didn't know when he came into contact with this terrible guy. He had seen all kinds of people, but this was the only one that really made him shudder. .

And he had to follow the instructions of the person behind him. In fact, he really wanted to target the red blood cell group, but without the support of the person behind him, he would not have dared to be so bold.

There will be this person behind everything to solve the trouble for him, especially some issues involving confidentiality.

In addition, Qin Yuan and the others also took action here. After a short rest, Aleph followed them and began to counterattack other competing teams.

"By the way, if I'm not mistaken at the time, the team from Xiaomao Country was also attacking us with my Alpha team."

Everyone is not surprised to hear this, after all, the guys from these two teams have always been in such a mess. And Xiaomao has always wanted to rely on the United States.

So it was just father and son, unexpectedly Aleph smiled at himself.

"Hehe, as long as they still want to be the sons of others, and the sons of the country of America, there are too many of them, and there is no shortage of them. They are just used as cannon fodder."

Aleph has already learned from the lesson this time. He knows that these guys only care about profit. When you have no use value, they kick you away.

This is the biggest reality, and they don't lack people around them who want to use them.

Qin Yuan looked at him, and then said: "Maybe the darkness behind this is bigger than we imagined, anyway, you just follow us, and we will end this competition early together."

"Captain Qin, I'm just really curious. Although you are very capable, facing so many teams and the organizer, do you really choose to do this? It's too risky."

"This is the best solution at the moment. I don't want to be so passive, I can only take the initiative, and this is my consistent style. Besides, I don't think there is any danger in this."

Seeing the self-confidence on Qin Yuan's face, Aleph gasped. This guy is not a simple captain. He saw the demeanor of a general from him.

Because of this confident aura on her body, I have seen it from the general before.

Qin Yuan's side also made a reverse breakthrough directly. At this time, the sky was completely bright, and they were shuttling around in the jungle. Qin Yuan took the lead in the front. His speed was very fast, mainly to pay attention to distinguishing other teams.

Aleph followed reluctantly. He was able to keep up at the beginning, but when the gap between the two parties became wider and wider, he was still very reluctant to keep up.

He even suspected that he was considered a relatively elite army in country A, and their training was also very strong, so they could also become the organizer's team. Unexpectedly, Qin Yuan's strength was too great. Facing such a jungle Running around, I feel that they are very relaxed.

He followed all the time, and then he heard gunshots, he couldn't help but be surprised, when he rushed to the front, he found the corpse on the ground. In five minutes, Qin Yuan and the others directly eliminated a small team. up.

He was dumbfounded, this speed, this reaction is too fast, in such a rushing situation, can immediately enter the fighting state, such a small team is really terrifying.

He Chenguang searched the people on the ground for a long time, only found a small bag of fried noodles, and threw it to Aleph.

"Brother Qin, it seems that they don't have much food left, that's all they have left."

"That's why we need to move forward and end this ridiculous race as quickly as possible."

After all, Qin Zhenyang just came in, so he didn't understand Qin Yuan's judgment.

Because he felt that since this competition was unfair, everyone stood up and resisted together, and there was no need to kill all the participating teams.

In fact, it is normal for him to have such thoughts. Anyway, he is still a child with normal empathy.

So he kept holding back until everyone packed up their equipment and was ready to set off again. Qin Zhengyang finally couldn't help but asked:

"Brother Qin, if that's the case, why don't we let them go and kill them? Wouldn't that be too cruel? After all, this competition itself is unfair."

"Silly boy, this so-called unfairness is only aimed at us. They have not suffered any other attacks from Moxie, but us. Do you understand?"

"But we don't need to kill them all. In this case, we only need to deal with the organizers."

"I know you can't understand it now, but you have to know that these guys are very cunning. If we go directly to the organizers, we are likely to be caught by them. We have to rely on our strength to speak. This is my way of doing things. "

Everyone is very supportive of Qin Yuan. After all, they can only use their strength to speak in this way. Even if they find the organizer later, others will have nothing to say, otherwise they will still be caught by their weaknesses.

When Qin Yuan does things, he will take everything into consideration. If he wants to occupy the leading position, he will definitely not be so passive.

In this way, everyone continued to move, Qin Yuan's speed was very fast, and the two teams encountered in succession were directly beheaded by her.

This is not to say that he is cruel, but that this is the original game rules and system. If he wants to end the game early, he can only kill all the competitors.

And Qin Yuan's action quickly attracted the attention of the organizers, because someone would report the team's death, but the successive eliminations made everyone feel that something was wrong.

It's really strange, and when the organizer's team came to clean up, they found that the wounds of these corpses, the wounds they were shot, were all open, this was definitely not caused by rifles, and they were the same as the first batch of wounds. The wounds found were identical.

All by the same team.

In a short period of time, three teams were eliminated one after another. Listening to the broadcast on the radio, some people from the remaining teams took their time.

The captain of Pakistan licked his chapped lips. They disguised themselves and hid in the ravine. The organizer kept killing them, and they were chased and hid.

I can only hide in the ravine and disguise myself, but this is only a temporary situation, and it won't work in the long run.

Their food had completely run out two days ago.

He had originally decided to go to that supply point, but at the last moment before leaving, he still gave up.

It was precisely because of this decision that they were completely saved. After all, it was a conspiracy.

But at this time, the sky was not beautiful, and it was raining again. In such a low temperature environment, everyone was shivering with cold.

"Captain, this...it can't go on like this. We are really too cold. The temperature is so low now that the sun hasn't set yet. I don't know what to do at night."

"But if we venture out to find caves now, this is the most dangerous, and caves are easier to hide other people. You also know that it is very difficult for us to get in."

It is also a comprehensive analysis. Although this method is a bit embarrassing, it may really be able to persist until the end.

"Let the brothers wrap a little more leaves in their clothes, which can be regarded as achieving a certain degree of warmth. Now we can only let everyone insist."

This is indeed a safety guarantee method, and listening to the continuous elimination on the radio, everyone is very panicked, and the organizers are not taking any action. Now they are starting to wonder which team is so strong.

Because if they continue to encircle and suppress these team members, there will be no more left. This sudden team is like a dark horse, and it will be killed directly.

The Alpha team was also a little flustered, insisting that this was done by the red blood cell team. He was very guilty at the moment. He had already fought against them before. At that time, Qin Yuan was almost able to kill him Baron tried to contact Moxi , but now there is no contact, because Moxi has to avoid suspicion at this time, and he still has bigger preparations.

There must be no hope here. He put his hope on the person behind him. That person sent a team in, and Moxi had to be ready to respond.

Qin Yuan didn't know if it was his premonition, but he felt that something big would happen tonight. Originally, his plan was to act together at night. Now that the red blood cell team has infrared equipment, it is not a problem to act at night.

But that bad premonition has been lingering in his heart, and just like that, he decided to take a temporary rest tonight and set off again the next morning.

Aleph was relieved to hear that he could finally rest. He was always at the end of the line and couldn't keep up with their speed. He was already exhausted by now.

He was getting more and more admired, he was just barely keeping up, but the red blood cell team still had to carry out tracking operations, this kind of ability was really too strong, they couldn't compare at all.

Chapter 1062: 1 unusual squad

Qin Yuan's first choice must be in the cave, mainly for rest, because the team members have been busy these two days, and the temperature is very low at night during this period of time. He still hopes that the team members can rest well so that they can have the energy to fight during the day.

He actually had a lot of doubts in his heart, but Aleph didn't know too much inside information, otherwise he really wanted to ask clearly.

The main reason is why Moxi has such great power. It has been so long since the previous attack, but there is still no investigation result, and no one will say that he is responsible for this incident.

Including Aleph, he was originally a soldier of country a, but now he is in a state of disappearance, and no one has come to look for him.

Qin Yuan looked at Aleph who was sitting across from him and asked, "I'm just curious what your leaders think and why they assigned you to Moxi and the others so easily."

"How can you think about it? After all, they are powerful in the United States. They just want a little soldier like me. As long as it is useful, my leader will definitely let him go."

"But this guy has too much power. He has dispatched the organizer's team again and again. There must be other people behind him."

"I'm not sure about this. After all, there are many things I don't know about. It's just that I made the right choice this time. Otherwise, this guy would have killed me long ago."

It seemed that there was nothing to ask, Qin Yuan asked everyone to wait in the cave, and he took He Chenguang out to find some food and replenish water.

Qin Yuan still planned to keep a low profile tonight, just fill his hunger with wild fruits early, and deal with them all night, because they still had dry food on them.

He Chenguang was a little puzzled, they had been relatively high-profile these days, "Brother Qin, aren't we going to start a fire tonight?"

"Yes, I don't know how to explain it to you. It's a premonition. I always feel that something bad will happen tonight."

"Brother Qin, I believe in you, then let's have a good night's rest."

Qin Yuan couldn't tell, it was a particularly bad feeling anyway, that's why he chose to rest, maybe it was because of this long-term battle that made his other perceptions more sensitive than theirs.

They found some wild fruits and planned to go to the ravine to get water earlier. This place has a relatively high terrain and only the bottom will have water.

The two slowly approached. At this time, Qin Yuan suddenly heard a little movement. He looked carefully, and there was a small team lying on the ground in the ravine below.

Qin Yuan immediately made a warning gesture, and then looked at He Chenguang. He Chenguang understood immediately with a glance, and he took out the weapon on his back.

"But wait for me to see the specific situation."

At this time, Qin Yuan carefully looked at their outfits and the logos on their clothes. Isn't this the team of Ba Guo?

He told He Chenguang not to do anything, this is a friendly army, anyway, he is quite familiar with Baguo, and he didn't want to face them directly on the battlefield, so he asked them about their situation first.

In this way, the two could go on, and the people in Ba Kingdom also heard the movement. They were also very nervous. Now it was almost dark, and they didn't expect someone to come at this time!

Ba Guo's captain was also very helpless. He originally wanted to hide it all the time, but looking at it like this, it probably won't work.

"Everyone should be ready to fight. They seem to be coming to our side. Could it be that we have been exposed?"

"Ah, it shouldn't be, could it be a coincidence? And I only saw two people so far. If there are only two people, then we might as well take a risk."

"I'm not talking about a few people. As long as we shoot, our position will definitely be exposed. This place is indeed an excellent place to hide."

Ba Guo's captain, no matter what his tone was, he still had to face it. Seeing the two getting closer, his eyes met suddenly, and he jumped out of the bushes.

Because he saw someone he was familiar with. The Pakistani team had cooperated with Qin Yuan and the others several times before, participated in two competitions before, and dealt with Qin Yuan and the others.

As he got up, he told his team members not to shoot. This is a friend.

He was a little excited, and hurried forward, "Captain Qin, don't shoot, we are all our own people, I didn't expect to meet you in this place."

Qin Yuan smiled, he recognized them a long time ago, "I didn't expect to meet you in this place, it's hard work to see you like this!"

Ba Guo's captain smiled awkwardly. They haven't eaten for three days now, and they're just hiding in this place, trying not to move as much as possible, and don't let their physical energy be exhausted.

"Hey, after all, compared with your strength, our strength is really far behind. In order to survive to the end, we choose the most stupid way."

"You can't say it like that, and you can't say it in action. This is the most stupid way. As long as any method can be used under the current situation, it is a good way. Besides, this is an unfair competition."

The captain of Baguo nodded. He was very glad that he met Qin Yuan. If he met other teams, he might not be sure. If he met Qin Yuan, he could seek their protection.

The team members also stood up one after another. Qin Yuan naturally understood what he meant, and took them back without saying anything.

"It's going to be the end anyway. If this is the case, then our two teams might as well choose to form an alliance directly and live together until the end."

It has to be said that Qin Yuan is also very good at talking. In front of these team members, not only did they give their captain face, but it also gave them a step down.

Of course Captain Ba Guo knew what Qin Yuan meant. Their team did not need to form an alliance at all. During this period of time, she kept hearing news of elimination, including the news of elimination from the organizer. Don't even think about it, he knew that it was absolutely true. A masterpiece of the RBC team.

It really gave him too much face. He looked at Qin Yuan gratefully.

"Captain Qin has to say, you are still trying to find ways to help us as before!"

"Don't say that, no matter what, we are all friends. Besides, there is no rule in this competition that we must fight each other. Anyway, his rule is to save it until the end."

The captain of Ba Guo was very moved, and just like that, everyone came to the cave together.

After arriving at the cave, Qin Yuan and his side still had a lot of food left, because during this period of time they mainly ate pheasants and hares.

After all, the only ones who dared to start a fire under such circumstances were their red blood cell team. Later Qin Yuan, he wished to use the fire smoke to attract more enemies, so he could save himself looking for it.

Ba Guo's team hadn't eaten anything for three days, and when they saw this kind of fried noodles, they didn't care about anything and started to eat it.

"Thank you very much. Without your help this time, I can't even imagine how long I can last? To be honest, I am really a useless captain."

"It's okay, everyone is a friendly army, and since we have encountered each other, we should help each other."

Everyone greeted each other a few words, and the captain of Ba Guo knew nothing about other situations, after all, they had been lurking all this time.

It was completely dark, and the captain of the Ba Kingdom felt a little sorry. He took the initiative to ask his soldiers to ambush two secret sentries below.

Although Qin Yuan said no, it was his insistence. He was protected by others, and he ate their food. He definitely needed to do something.

"Captain Qin, let us do something, otherwise I'll be really sorry, and I've always accepted your kindness."

In truth, Qin Yuan had no choice but to agree with him, and even gave them the infrared equipment. After all, it is better to have infrared equipment at night.

Tonight Qin Yuan always felt that something was wrong, so he didn't sleep, leaned in the cave, just closed his eyes and rested his mind.

In the middle of the night, he heard a slight movement, just a little footsteps, the sound was still far away, and he suddenly opened his eyes.

He walked out of the cave quietly. Although there were secret whistles outside, he was still a little worried.

The sound of footsteps was far away, but the target was very clear, and it was coming towards them.

And there were not a few people who came. The footsteps were divided into two directions. One direction was more chaotic, and the other direction was very orderly. Almost every movement of them was consistent.

This kind of situation is rare, including the people in your own team, it is impossible to achieve such complete consistency, as if those people are completely copied.

He quickly woke up the people next to him, because the footsteps were getting closer and closer, and it was very obvious that they were aimed at them.

Ba Guo's captain quickly got up with sleepy eyes, "What's the matter, Captain Qin? My sentries are still outside."

"Everyone, get ready. Someone has already arrived. Although I don't know what their purpose is, everyone remains vigilant."

The captain of the Eight Kingdoms gasped, his hearing was simply too strong, he didn't hear or see anything in this position, unexpectedly, Qin Yuan had already discovered it.

A few minutes later, news came from the secret whistle below, and they said in a low voice through the headset: "Captain, a pair of unknown people are approaching us, and they seem to be coming towards us."

After all, on this big night, who would act like this, and in such a consistent direction.

They only found this group of people, but the group of chaotic footsteps that Qin Yuan heard was still approaching the group of chaotic footsteps, a little far away.

"Captain, whether we shoot or not, I've already seen someone."

However, the soldier was headshot directly by a gun in the next second, and he was carrying a silencer. The rest of them didn't hear any sound, but suddenly there was no news in the headset.

Qin Yuan heard it clearly, and he rushed out of the cave directly.

"It even has a silencer, everyone should be more careful, this group of people is very unusual."

Everyone else was dumbfounded, but the members of the red blood cell team believed in their captain very much and rushed out.

Since the opponents had already fired, they naturally knew that Qin Yuan had also spotted them. This seemed to be a battle that was foreseen in advance.

Qin Yuan quickly exited, and he took out his weapon first, and also took out the sniper rifle on his body.

The moment he fired, a golden bullet flew towards him suddenly. The speed was so fast that he couldn't help being taken aback. He turned over and avoided, and then more dense bullets came towards him.

Good guy, the hottest people on the other side are really extraordinary, their speed and agility are really too fast.

More importantly, their cooperation is very high, and their goals are very clear. In this case, I was careful enough, but I didn't expect to be discovered by them.

The members of the red blood cell team also felt that under such suppression of firepower, Qingyuan was relieved. He turned around a few times and fired quickly, but under such circumstances, none of them hit the opponent.

The people on the opposite side were also very agile. The two secret sentinels sent by Ba Guo had already been killed, and the speed was too fast.

The captain of Ba Guo also rushed up with his men, shooting everywhere for a while, and there was a scuffle.

At this moment, Qin Yuan heard that the teams with chaotic footsteps had also arrived. They had heavy weapons in their hands, and the rockets in their hands directly hit them.

A rocket bomb directly hit the Pakistani team, and one of their soldiers was hit on the spot, blowing up everywhere.

Qin Yuan squinted his eyes, and then rushed straight up. He had to quickly deal with the people on the opposite side, otherwise he didn't know how many casualties would remain if this continued.

He flipped over a few times and jumped forward. At this time, he really saw the team in front of him. They were an eight-member team.

The clothes they wore were not much different from what they had seen before, but these few people cooperated very closely, and their formation did not show any flaws to the outside world.

Before Qin Yuan could observe more, a row of submachine gun bullets came directly. The reaction of these people was several times that of those before. Qin Yuan's speed was even noticed by them. .

Qin Yuan was not a vegetarian either, he threw the two throwing knives straight away, and his target was the captain in front, after all, as the saying goes, the king is the first to catch the thief.

The captain's skill was also very good, he turned over to dodge directly, and then threw a throwing knife, but his speed was still a bit slower, Qin Yuan's throwing knife directly hit his shoulder, only a short distance away. shot through his neck.

The captain stared solemnly at Qin Yuan in the distance, "An opponent like you is indeed worthy of our attack. I thought what happened to the old guy above. It seems really interesting to send us to attack!"

"Who are you guys?"

"Who? Of course it's someone who came to kill you."

At this time, because of Qin Yuan's approach, the system also issued an early warning.

"Host be careful, the person opposite has a system!"

Chapter 1063: blew up

The people opposite turned out to be systematic. No wonder they were so agile. Thinking of this, Qin Yuan frowned. The thing he was most worried about happened.

Although he had already accelerated his speed before, there was nothing he could do about it. He didn't expect these guys to infiltrate faster than he imagined, and they all infiltrated in such a competition.

At this moment, he just wanted to protect his team members. At this time, the Alpha team and the people from Xiaomao country also arrived, and they also took the opportunity to surround them from the side, blocking the red blood cell team and the Pakistan team on the mountainside for a while.

The red blood cell team had also seized the bazooka before, and the two sides launched a fierce attack for a while.

Wang Yanbing has been guarding Aleph's side all the time, because Qin Yuan told him before that no matter what happens, he must protect Aleph, he is the most important witness.

At this moment, Aleph looked at such a violent attack outside. A few meters away from him, a rocket shell exploded directly, igniting a huge flame, and he was completely frightened.

He desperately wanted to flee towards the cave, but was pushed to the ground by Wang Yanbing.

"What do you want to do, kid? Don't run around, just stay."

"Crazy! They are completely crazy. Look at the number of people on the other side and how many weapons they carry. You are just these few people. How do you fight with them? Are you still not retreating?"

"You'd better shut up and stay by my side honestly. If our captain hadn't told me to protect you, I would have rushed up."

Wang Yanbing was so angry that he didn't fight, and this kid didn't cooperate, he wanted to watch him all the time, and the teammates in front were also fighting very fiercely.

Aleph felt that this situation was absolutely impossible, and he should retreat quickly, but these people were clearly targeting them, so where could they retreat? Have you been hunted down all the time?

At this time, Qin Yuan had already dispatched, even though the person in front had a system, he rushed forward again.

He also took a risk, rushed directly in front of the other party, and then used the ability to confuse.

After all, there are other teams behind him, which also have a system, so Qin Yuan must be careful, and he must take the opportunity at the first time.

Unexpectedly, when he rushed forward, he just showed his ability to bewitch. Those bewitching auras passed through this team and directly controlled the Alpha team and the people from Xiaomao country behind.

This was unexpected by Qin Yuan. Those guys seemed not to be affected by his aura, and they were still attacking violently, but the members of the Alpha team became sluggish at the moment.

But this is also good news, at least the Alpha team can be handed over to Ba Guo, and people from his own team can solve it. Now he can deal with this team wholeheartedly.

Qin Yuan's eyes showed puzzlement, what's going on? It was the first time that someone could be immune to his own bewitching.

What was also puzzling was that the team on the opposite side had to reconcile the accounts. He didn't expect that he was the one with the system, and the people on the other side were even more agile than him, so they couldn't hit at all.

At this time, Qin Yuan, using his powerful body skills, had already moved in front of them, from the long-distance attack at the beginning to the melee combat.

Qin Yuan kept throwing out the throwing knife, and hit a team member's chest on the spot. The team member fell down heavily, but a person rushed out beside him.

Dragging the injured soldier out directly, Qin Yuan noticed this detail. Could there be a healer among them?

Qin Yuan's punching power has been strengthened now, so these are nothing to Qin Yuan. He rushed forward and punched the captain in front of him, after all, he punched now The strength has reached 1000kg.

If it was an ordinary person, this captain would have fallen to the ground and died on the spot. Unexpectedly, that guy got up again, and rushed towards Qin Yuan again.

The other side did ease the pressure on the red blood cell team, at least the Alpha team didn't know why, and suddenly stopped attacking them.

Li Erniu and the others took the opportunity to rush up and control them first, and the members of Ah Fa's team fell down one after another.

Qin Yuan's side was fighting fiercely, and the people on the other side were not vegetarians. They cooperated very closely. At this time, a sharp knife directly stabbed Qin Yuan's waist.

However, Qin Yuan's recovery ability is very strong. In just a few seconds, the opponent's dagger was just drawn out, and his wound was completely healed, and he didn't even see any painful expression.

It's really interesting, Qin Yuan's recovery ability is still there, and his own resistance ability is also very strong.

I didn't expect to be pierced by this dagger. You must know that his body has been strengthened before and can resist bomb attacks. His body defense is very strong.

The people on the other side were also a little strange seeing that he didn't fall down. At this moment, Qin Yuan kicked the face of the man just now with a whip kick, and then his throwing knife quickly slashed across the face of the one that slashed directly. human throat.

Blood gushed out in an instant, and another person came over and wanted to take off his teammate, but Qin Yuan saw the timing, and his poker cards had already flown out.

In this case, playing cards are more useful than flying knives, and playing cards can greatly reduce the sound, even the other party didn't notice it.

However, their captain seemed to have noticed the clue, and kicked the team member to the ground with one kick. The poker flew past the man's neck, drawing a bloodstain, and the wound was not very deep.

It seems that their team leader is not simple, the thief is the first to capture the king, his fighting ability is very strong, he took the lead to deal with the team members next to him, it was still the same situation as before, the man dragged the other team members into the grass.

At this time, only the captain on the opposite side was left, staring at Qin Yuan coldly.

"I really didn't expect that your ability is so strong, no wonder they want us to deal with you!"

"Don't talk nonsense, but before I die, I really want to know who you are and who sent you here."

"Hahahaha. You are very self-aware and know that you are going to die, but don't worry, the dead have no right to know this."

Qin Yuan snorted coldly, this guy is really arrogant, "I'm talking about you, you are a dying person, shouldn't you say your last words first?"

"It depends on who will die at whose hands. No matter what happens today, we will definitely complete the task."

After finishing speaking, the man rushed out first. The weapon in his hand was a nine-section whip. Before Qin Yuan could see clearly, the whip swung out directly.

Qin Yuan's body has a strong ability to react. This time, before his eyes could react, he immediately ducked down and dodged the attack.

His body reacted subconsciously. Realizing the danger, Qin Yuan lowered his waist and flew out his poker cards. The poker hit the nine-section whip and shot through the nine-section whip in an instant.

The two sides fought together, and the team member just now was not idle. He was indeed a healer and was healing his team members, but his healing methods were not as legendary as Qin Yuan.

He has to spend more time and energy, so he can only temporarily delay their pain. With so many players injured, he has no time at all, so he can only treat the minor injuries first.

The size of this team is also very complete, with powerful rulers and attackers, including this healer. They formed this team, which was established by the mysterious organizer behind it.

On the other side, the Alpha Squad and the people from Xiaomao Country were controlled by Qin Yuan. After that, they just stood there and were easily dealt with by the Red Blood Cell Squad.

Qin Zhengyang said cheerfully: "I'm just saying what the \*\*\*\* are these guys doing. They beat so hard at the beginning. I didn't expect to catch them with nothing. It seems that they were frightened by our momentum."

"Don't be so complacent, kid, be careful, maybe they are playing some tricks."

"Brother Niu, they were all wiped out by our army, what kind of tricks can they play, let's go help Brother Qin now."

"Brother Qin, we don't usually need our help over there. Now that we have to clean up the battlefield, I always feel that something is wrong. Are they just standing there and beating us?"

Even Li Erniu felt something was wrong this time, so that's why Qin Yuan didn't use his abilities in public, because someone would always find out.

But this time the matter was urgent and he had no choice but to use his own ability, otherwise these players would be in danger.

Li Erniu, they couldn't figure out where these guys made a mistake. They attacked so violently just now, why did they suddenly stand where they were?

Wang Yanbing dragged Aleph down and looked at them cleaning the battlefield with distressed expression.

"This guy was the one who could have fought side by side with you. I said, what the \*\*\*\* are you running for? There's nothing to be afraid of."

The more Wang Yanbing thought about it, the more angry he became, and he kicked Aleph in the stomach. He wanted to run several times on the way, but he was dragged back by himself.

At this time, He Chenguang stepped forward, looked at him and asked, "You should have dealt with them before. Come here to see if their team is the Alpha team. I always feel a little abnormal."

After all, the Alpha Squad has a great reputation outside, and their combat capabilities are ranked. Facing such a team, they have to be cautious.

The top-ranked Alpha team was wiped out by them, and He Chenguang couldn't believe it for a while.

Aleph nodded, he stepped forward and looked at the captain, Baron, and he was sure immediately.

"The person who fell in front is their captain, and it is indeed the Alpha team."

Qin Zhengyang was the only one cheering at the scene. After all, he was also a new team member. In addition, he didn't understand the situation.

Seeing everyone's frowning faces, he couldn't help asking: "Brothers, what's the matter with you? We've all won, shouldn't we be happy?"

"What do you know, kid? You don't even think about it. How powerful the Alpha team is. Although we are indeed very strong, it's not like this. Let's capture it with nothing."

"That's right, and this time we started fighting effortlessly. Their artillery fire is indeed very fierce, which can be said to be comparable to ours."

"In addition to these guys from Xiaomao Country, they are very despicable. I didn't expect that they are still in place now. I wonder if this is some kind of trap?"

Because when Aleph joined them before, he said that those guys were trying to set up some kind of trap, so everyone was a little scared for a while, whether they would fall into other people's tricks.

Qin Zhengyang didn't think it mattered, after all, they already had witnesses.

"But isn't there Aleph on our side? Just let him come out and testify for us."

"Boy, some things are not as simple as you think. Forget it, I can't explain it clearly to you. Let's go to Brother Qin first."

After all, Aleph was just an insignificant soldier. Even if he was to be used as a witness, the previous incident was fine. After all, it was Moxi who directly assigned him, but it would be very difficult to reverse this incident.

When everyone rushed over, they saw a man kneeling in front of Qin Yuan with an extremely painful expression. Qin Yuan was controlling his consciousness.

Qin Yuan had used this kind of tactic many times before, and it was basically no problem. He didn't expect that the man would show up in a state of extreme resistance.

Qin Yuan has been trying hard to intrude, and at this moment, his system prompts: "Remind the host, the system has detected that his system is in a state of self-destruction, leave as soon as possible! Leave as soon as possible!"

what's the situation? Qin Yuan didn't hesitate either. After all, the system's reminders saved his life every time. He turned over and quickly jumped away. Just as he jumped away, the man suddenly blew himself up.

This shock wave is no less than a large bomb, and fortunately Qin Yuan's own defense is relatively strong so he didn't suffer any injuries, but the surroundings were blown to \*\*\*\* flesh, that kind of scene makes people feel People gag.

This is the first time for Qin Yuan to encounter such a situation. He chose to blow himself up before he started interrogating the other party. It really fits the style of the man behind him. The first time he found the man with the system, it was the same, there was resistance consciousness.

This time, he actually exploded himself, not allowing himself to find any clues, it was really despicable.

At this time, Qin Yuan suddenly thought that this person is useless now, but the man who dragged them away just now should still have some interrogation value.

Li Erniu and the others also rushed forward, after all, the shock wave from the explosion just now was really strong.

Qin Yuan looked at them and said, "Don't come here yet, just stand over there, the situation here is very dangerous."

The main reason is that Qin Yuan was worried that other people would explode like this, and he reacted quickly just now.

Chapter 1064: the organizer behind

If other players came over, I would definitely not have time to take care of them, because these guys are fast and have strong reflexes.

From the looks of it, they were planning to die together, so Qin Yuan couldn't let his team members get hurt.

Qin Zhengyang was a little anxious. After all, Qin Yuan was alone on the opposite side. They only saw a few figures, and they couldn't see the specific situation clearly.

"Brother Erniu, don't we just do this and see that we can't help? What if Brother Qin is in any danger?"

"Don't worry, boy, you Qin brother is very powerful, this thing can't hurt him, he won't let us pass, of course he has his reasons."

Aleph also couldn't understand what kind of mission this was. Shouldn't they all go up together and annihilate them in one fell swoop, and then continue to delay like this.

Although he didn't understand, he didn't say anything. He Chenguang came over and patted Qin Zhengyang on the shoulder, asking him to find a place to sit down and rest. Now just wait quietly.

They obeyed Qin Yuan's orders 100%, which was also a tacit habit developed over the years. They would definitely not do things that Qin Yuan said they could not do, because doing so would cause trouble for Qin Yuan.

At this time, Qin Yuan jumped into the bushes. He had already found the guy who was treating others. He rushed forward and grabbed his shoulder. The guy just wanted to escape, but was thrown out by Qin Yuan's backhand.

Qin Yuan also learned to be smart this time. He first controlled the man and tied him directly to the big tree, and then he didn't have the consciousness to invade him by force.

He was worried about whether he touched some kind of mechanism, and then made them self-destruct. After all, these guys really came from a difficult background.

The main reason is that the person behind it is too cruel. These people don't know whether their system was chosen by themselves or was forcibly implanted by others. Everything is unknown.

Qin Yuan rushed forward and was checking several people nearby. One of them had died because of his serious injuries and the other had died. The wound was recovering slowly. At least there was no bleeding, but the recovery was very slow.

A person like this can't say anything, Qin Yuan understood him straight away, and the other two were also brought over by Qin Yuan, and now only the three of them are left alive.

Both of them were tied into zongzi and thrown to the ground. The healer who was tied to the tree was struggling non-stop. He seemed to have no effect other than healing.

Basically, it can be said that there is no threat, and they don't even have basic fighting skills.

Qin Yuan put him down first, and he stared at Qin Yuan in horror, knowing that Qin Yuan could kill him directly with his hands.

"You... what do you want to do?"

"Of course I want to know who sent you, and what's going on with these things on you, especially your abilities. That's something to say."

"I don't know what you're talking about. We're the organizer's team, and we're just in charge of meeting. I don't even know what you're talking about."

The healer, but he hadn't spoken yet, the man lying on the ground spoke first, probably because he was worried that the healer would expose them.

"talkative!"

Qin Yuan snorted coldly, and threw a throwing knife straight out, piercing the man's thigh in an instant, and the man howled like a pig being killed.

"You lunatic! Let me tell you, even if you kill me, I won't tell you anything after I die."

The healer frowned, looking terrified.

The man lying on the ground spat out a mouthful of blood, and then stared at him fiercely.

"If you dare to say anything or betray us, your family will die terribly, even you will die terribly."

Good fellow, he started to threaten others in front of his own face. It seemed that he was not hitting hard enough. Qin Yuan stepped forward and punched the man on the shoulder.

The man instantly felt that his entire right arm could not move, and the shoulder bone should have been smashed directly.

"Tell you, if you have the guts, kill me directly. I won't say anything. If you kill me, someone will avenge me."

His mouth was quite stiff, but Qin Yuan smiled, he was reluctant to kill these people.

He stretched out his hand and began to heal the man, and in an instant the man recovered, including the wound on his thigh.

This scene stunned the healer next to him, and the man was also very surprised. He didn't expect Qin Yuan's healing ability to be so strong.

Before he could sigh, Qin Yuan stabbed him directly on the thigh again, this time the wound was deeper, stretching from the thigh to the knee.

I have to say, this was really cruel, the man was shaking from the pain, but in the next second, Qin Yuan patted his shoulder and healed him again.

Repeatedly like this, after coming three times, the man's face was already pale, he knew that the person in front of him was a demon, and he was deliberately torturing him, the repeated wear and tear was not her body, but his spiritual strength.

Qin Yuan only came into contact with these few people, and he knew that these people were not as easy to deal with as the ordinary people before, and their willpower was weak.

And these guys have been brainwashed deeply, if you really want to ask something from them, you can only use some special methods.

If they forcibly invaded their consciousness, the people behind them would directly blew them up, because Qin Yuan found that such a blew up was not voluntary.

So it can't be used now, and the only way to force it is to see if they can be interrogated.

As for those outside the province, Qin Yuan is the best at this point. He is a special soldier. He has trained Li Erniu and the others to watch prisoners before. Of course, these people are the same, but to deal with these people, you have to with more specific means.

The healers next to him were completely stunned, and he couldn't help but spit out at the side. It seems that this guy really hasn't been through any battlefield.

Qin Yuan walked over and mentioned him, "The treatment you just had was just like a pediatrics in front of me, so I really want to know who are you working for and who is the person behind it?"

At this moment, all the men on the ground were pale and collapsed on the ground after being tortured by Qin Yuan. Although his wound had been healed, his spirit was really shocked, and he repeated the torture repeatedly.

"Let me tell you, don't worry about it, as long as you have one breath left, I can save you, and then let you go back to hell."

At this time, the man next to him couldn't bear it anymore. He saw such a painful criminal law just now, and said loudly:

"Don't do that. I'm really scared. I won't say anything."

Qin Yuan walked over with a smile, squatted on the ground and looked at him, "Then who is the person behind you? To be honest, I have been investigating you for a long time."

"We don't know your situation. It's just that our boss wants us to kill you. He didn't say anything about your situation, but I can tell that we all have systems."

Although the man next to him was scared, he still couldn't help shouting, "You bastard, you'd better shut up quickly, don't you want to kill us? We're all going to be killed by you!"

"But it doesn't make any difference if I don't say it now. Anyway, I'm going to die anyway, so it's better to die easier. I really don't want to be tortured to death like that."

Moreover, Qin Yuan looked at the man on the ground and knocked him out with one palm.

"Okay, you don't have any worries to tell me now, and I can guarantee your safety, but the premise is that I need to know your real situation."

The man collapsed, he nodded, and then slowly said, it turned out that they were indeed taken to do experiments, and this experiment was the so-called new human beings.

She doesn't know the specific situation, she only knows that she participated in a combat plan called New Humanity, which is to train such excellent fighters for various countries. There are many teams like this, and many people are receiving training every day.

He was also taken there at the beginning. He was a mercenary, and he was selected later. Anyway, in their base, there were people from all walks of life, but very few people could be selected.

Because they want to place the system on these ordinary people, there will be rejection reactions between the system and many humans themselves, so after many people are forcibly injected into the system, they become fools, dementia or even die directly.

People like Qin Yuan and the others are special cases. This is completely accepted by the system and the host itself, but most people have no way to accept it.

Moreover, the system this man mentioned was just an ordinary system, and they couldn't accept such an intensity, let alone such a powerful military system as Qin Yuan.

The man recalled that when he participated in the selection, there were a total of 60 people in their group, but only three passed.

Qin Yuan frowned when he heard this. This kind of selection was indeed too cruel. Only three were selected out of 60 people, and the results of the remaining people can be imagined.

"Who's that guy behind?"

Having said that, the man shook his head, he really didn't know.

"You may not believe me, but I'm telling the truth, including him. You can also ask him the name of the person behind us, including what he looks like. We don't know."

"Don't tell me you haven't contacted him once, why would he say that?"

"What makes me strange is this. We have to come into contact with him every day. How come we forget his appearance, voice and even his name after we come out of the base."

The healer next to him also nodded desperately. He was mainly worried that Qin Yuan would attack the person in front of him, and he would be the only one left.

It seems that this person is still worried about these players, so he is still manipulating their thoughts. This ability is really too strong.

The man went on to say that they received all kinds of training in the base and were going to perform tasks, and the new human fighter they said would be assigned to various countries, and they charged commissions to perform various tasks.

We will also reach a consensus with some countries to eradicate their opponents, because their abilities are also very outstanding, mainly because they are very low-key. Up to now, no one has discovered this long team.

Like this time, their mission was to eliminate Qin Yuan. At the time they received the mission, they thought it was too easy, because they had a small team to deal with one person, it was simply a fuss.

"How many people are there in your base for a team like yours?"

"I don't know about this. I only know the situation of our team. The composition of each team is similar. There are healers, electricians, and assaulters. Anyway, everyone's abilities are different."

After the man finished speaking, he pointed to the person who was knocked unconscious by Qin Yuan, "That guy, he is an electrician. When he shoots, he will automatically carry electricity to promote the heavy burden of the bullet. Not only will he be hit by the bullet, but he will also Being sucked by electricity, so basically death."

"Is this also carried by his system?"

"Yes, his system can absorb lightning and transform it into his own power, so this guy is very powerful. He can survive without eating or drinking, as long as he absorbs electricity."

Unexpectedly, there is such a supernatural system, Qin Yuan is really surprised, the person behind it is really not simple, able to come up with so many things.

Qin Yuan asked some other basic information. The two of them didn't know much, and part of their memories seemed to be hidden. He tried to control the man's consciousness.

Only at this time did he discover that there was indeed an invisible shackle in the consciousness of the two of them. He should have invaded by force and touched this shackle just now, which caused the self-destruct.

And the system also issued a beep.

"Ding! Remind the host that this is a self-destruct device carried by the system. Once there is an invasion, it will self-destruct."

"System, can this kind of thing be set by oneself, or is it forced by others?"

"Their system is currently a simple system, and it has not reached such a powerful function. At present, even I can't do it, so it is forcibly manipulated by people."

Qin Yuan nodded, and asked them a few more questions, including that they didn't even know the address of the base. At this time, the healer also knelt down directly.

He was begging Qin Yuan not to kill them, because they were also very helpless and were chosen by these people.

At this moment, the man who was knocked unconscious on the ground woke up. He stared at Qin Yuan fiercely, and then looked at the two people beside him.

"You cowards, you two scumbags, who killed us all, did you tell him everything?"

"Karl, please be sober, when is it now, we can only choose to protect ourselves."

"You don't know the ideals of the boss at all. You cowards, we are the real new humans. If you tell them these things, it will simply ruin the boss's plan."

Chapter 1065: find a scapegoat

This guy is completely bewildered, and he takes a mouthful of a new human being, and he really regards himself as a different person.

Qin Yuan shook his head, such a person is really hopeless, he has been completely brainwashed, there is no way to explain it.

At this time, He Chenguang and the others also rushed up, because there was too much commotion here, and Qin Yuan hadn't given them a signal, so they were also a little worried. After rushing over, they saw the man so excited.

What the \*\*\*\* is this guy doing? Everyone was stunned, why did he say something about new humans?

At this time, the flying knife in Qin Yuan's hand quickly slashed across the man's throat, and the man's eyes widened in an instant, and he fell straight down.

He was a little reconciled, but he was the strongest in the whole team, because he was equipped with an electric power system. He was unwilling to die like this, but this is the reality. When he met Qin Yuan who was stronger than himself, in Qin Yuan In front of Yuan Yuan, these are nothing.

The two were completely petrified. In the team, the man was already the most powerful existence, but if Qin Yuan wanted to kill him, it would be a breeze.

Both of them quickly knelt on the ground, begging for mercy, worried that Qin Yuan would attack them if he was unhappy.

Of course, these two people, Qin Yuan, did not intend to kill them. After all, there were other clues, and he needed to ask them slowly when he went back.

In addition, he also has another plan, maybe he can use these two people to lure the people behind him, saving him from searching blindly.

He Chenguang ran over, looked at the two people and asked, "Brother Qin, what's going on? What new human beings did he just talk about?"

"I don't know about this at the moment, and I can't ask about the specific situation. It's just that this guy is too excited. I'm worried that he will make other hurtful actions."

Everyone nodded. They really didn't know the specific situation, and the two people next to them saw this situation and instantly understood it.

The captain of Ba Guo also came over. In this battle, he lost three special forces members, but overall it was relatively good. After all, under such a fierce attack, he did not have his entire army wiped out. is very good.

It has to be said that Qin Yuan has once again refreshed his cognition. According to his previous understanding, Qin Yuan is indeed very powerful.

But he didn't expect that now he could defeat such a fierce attack with one against ten, and he could subdue the opponent.

Qin Yuan planned to take the two of them back to the cave first, no wonder he had always had that bad premonition before, it seemed that he was referring to this team!

And what they explained just now is also very worth thinking about. There are many such teams in the base.

Where did the human system behind it come from, and what is going on? Could it be that the systems they carried were also from that person?

What Qin Yuan is more worried about now is whether the system will unbind himself, because all his abilities now depend on the system. If the system really becomes unbound, what should he do then?

Or they might disappear. After all, these guys study different things, so Qin Yuan is also very entangled now.

Everyone also found that after returning to the cave, Qin Yuan kept silent. He said very little, basically nothing.

He just stared at the two people in front of him coldly, worried that they would run away.

When it was dawn the next morning, He Chenguang and the others brought some water from outside.

"Brother Qin, what shall we do today? Should we continue to set off and destroy the team?"

"Yes, we have to end this competition quickly, because many things have exceeded my expectations."

What Qin Yuan said was about this base. Who is the person behind it? Moreover, he can also manipulate people's memories. These systems are all controlled by him, and then he implants them in these ordinary people.

What he wants to find out most now is where these systems came from, and whether they will suddenly disappear. He is very afraid that he will not be able to protect the people he wants to protect.

He Chenguang saw that Qin Yuan was not in good condition, and didn't say much, but let everyone rest first, after all, Qin Yuan hadn't issued an order yet.

He and Li Erniu went out to find something to eat first. After the two walked out, Li Erniu finally couldn't help but asked curiously:

"Chen Guang, have you noticed something is wrong with Brother Qin?"

"That's right, since we caught these people last night, he has become a little different. Usually he rarely shows such a tangled expression, and he hasn't given specific instructions to start yet."

"But don't worry, Brother Qin should be fine. I guess he hasn't had a good rest these days. After all, he has too many things to worry about."

"Thinking about it, he has to worry about the safety of our entire team, and he is the first to stand up in dangerous situations. We should share some of it for him."

The two had just walked through a patch of grass. At this time, a small drone slowly rose from the grass.

This drone was sent by Moxi to monitor them. Moxi did not dare to act rashly now. After all, the team from last night had lost all contact by now.

What's more important is that everyone in their Alpha team will carry their sponsor's positioning equipment here.

Although these equipments are crude, there is another piece of equipment that can track their vital signs, which has all disappeared at this moment.

This can only explain one problem, their team has been completely annihilated, and the Alpha team is his best trump card, and he did not expect to be wiped out so quietly.

At this time, Moxi couldn't sit still anymore. He didn't want to interfere with this matter, because the team photographed above had already participated. If he made any movement at this time, people would pay attention to it.

So he kept suppressing the news and never cared about the affairs of the Alpha team. At this time, Brother Qin also felt strange. He originally planned to sit here and wait for the rabbit.

It is estimated that Moxi will send people to come, but so far, there has been no movement. After they wiped out the team, people from the organizer will come to collect the corpses, but no one has shown up so far.

At this moment, Moxi was fidgeting in the office. He was really worried. The incident was revealed, mainly because the weapons used by the Alpha team were also specially provided by them, plus that mysterious team.

After struggling for a long time, he finally made a phone call, and a gloomy male voice came from the other end of the phone.

"Hey!"

"Sir, what should we do? The team has completely lost contact."

"This is also in my expectation. I didn't expect his system to be so powerful. It seems that I really made a wrong decision. In a word, this is called breeding tigers."

Moxi couldn't listen to these principles at the moment, he was just worried that these exposures would affect him, after all, his current status.

After finally climbing to this position, you can't be messed up because of these things.

"Sir, what should we do now? I will send out the team again, and then quietly retrieve their bodies."

"Idiot, now is not the time to collect corpses. What he wants to know has already been known, so you should find a way to cover up this matter."

It is useless even if they collect the corpses back now, Qin Yuan should already know it with his talent, and last night he had already noticed that his team members had self-destructed, it was because someone activated the system.

His self-destruct system can also be detected at the headquarters, which means that Qin Yuan's system is being invaded, so Qin Yuan is very aware of these situations.

"Sir, but now I have no choice. Even if I want to solve it, I can only solve it with my wishes, but you know, this guy can't even deal with the people you sent..."

"Enough! Don't you think this incident is not messy enough? You should deal with this incident. You should think about what to do and cover it up. This is not something I should consider, and you'd better Don't contact me, lest he find out."

Hearing that the person on the opposite side had lost his temper, Moxi could only nod in agreement. He said that he would definitely deal with this matter as soon as possible.

"I hope you can really deal with it as soon as possible, otherwise I have raised you to such a high position, what do you think it is for? I don't need waste."

When Moxi heard this, he broke out in a cold sweat. This is the style of the person behind them. In fact, he also finds it very strange, until now.

If he really had to think back, he didn't even know who the mysterious person behind him was. It's as if it doesn't exist, but when this person is mentioned, he feels very scared.

This kind of fear comes from the heart, and he can't tell what it feels like, and he must obey this mysterious person.

After Moxi hung up the phone, his brows were furrowed. He really didn't know what to do now. If he sent another team out, he would be caught by Qin Yuan instead.

At this moment, the captain of the team he sent out before came in, and he was here to report the progress of the matter.

The captain of this team was with Aleph before, and they escaped back by luck.

Because Moxi had been asking him to find out about Aleph before, after all, how could such a living person just disappear out of thin air. At that time, the task Moxi gave him was to see people in life and corpses in death.

But he treated everyone in that area, and almost lifted the ground, but he still couldn't find Aleph, so he suspected that Aleph must have been a deserter, and he didn't even see the fragments of the body.

This time he came to the office to report on this matter, because Moxi was urging him every day.

"Officer Moxi, according to our investigation, Aleph is likely to be a deserter. I suspect that she should be somewhere in the jungle. After all, she can't hide anywhere."

At this moment, Moxi's attention was not on his words at all. Instead, he thought of an idea, that's right, this person in front of him is a good scapegoat.

"Don't worry about this matter, I'm just curious, did you talk to Aleph before?"

"Sir, don't worry, I've never told this guy about what you tell me. He's just an insignificant soldier, so don't worry about it at all."

Moxi raised an imperceptible smile, that's what he wanted, that's what he wanted, and in this case, he could put everything on the captain.

Moxi stepped forward with a smile, poured a cup of coffee for the captain himself, and then patted him on the shoulder.

"This time, you did a good job. You have really worked hard these few days. It is known that you will follow the brothers to investigate below."

The team leader felt it even more in an instant, and was flattered. Before, Moxi was angry at him at every turn, and he was very important to Aleph, the kind who would never give up if he couldn't find it.

I didn't expect her attitude to change so quickly now, and she treated him so well directly.

The captain felt flattered, as if he hadn't done anything.

"Don't be so nervous. I value your ability very much. You should also know that now I have an adjutant to be promoted. If you do well, you can directly become my adjutant."

When the captain heard this, his eyes lit up instantly.

To be his adjutant, wouldn't it be a good job to be in the office every day without having to go out to be exposed to the wind and rain like before?

He quickly stood up with a smile and took the coffee with both hands, full of compliments.

"Mr. Moxi, it's all thanks to your cultivation, otherwise I wouldn't be able to achieve something like this."

"So you must work hard and don't let me down. I will reserve this position of adjutant for you, but the details will depend on your performance."

"Sir, don't worry , I will definitely not let you down, I will definitely find Aleph."

Moxi smiled, and then watched him walk out of the room. This scapegoat is very good. Now that he has expressed his determination, it will be easier to use it later.

On the other side, Qin Yuan originally wanted to wait for the organizers to see how they ended up and whether they would meet someone sent by Moxi, but no one showed up.

He couldn't wait here, so he could only take the initiative to set off. After letting the team rest for a while, he began to lead the team to set off.

The two people caught last night were now tied into zongzi, and if Qin Yuan was around, these two people would not dare to talk nonsense.

The healer was already worried, so he was honest along the way.

After all, what they had to worry about was not only Qin Yuan, but also the people behind them, so they were relatively safe along the way.

Aleph, who was from the organizer before, just felt strange, he had never seen these two people before, and more importantly, the uniforms they wore were different from theirs.

Chapter 1066: show up at base camp

So he was really curious about this matter. He also asked Qin Yuan before, but Qin Yuan just told him not to ask things that he shouldn't ask, and he didn't say anything more.

After all, his current status is quite embarrassing, and he also wants to seek Qin Yuan's protection, because Moxi is trying to kill him now.

He is also a relatively key witness now, and it will depend on how he betrays in the later stage.

After Qin Yuan and the others left, they met another team. This team belonged to country C. There were not many people left in them, so they were wiped out by Qin Yuan's people easily.

It was only in the afternoon that Qin Yuan heard the news from the radio, the Alpha Squad from America, the Black Army Commando from Xiaomao, and the Coyote Stormtrooper from Country C.

The news of the elimination of these three teams broke out, and they were completely wiped out.

Originally, there were not many teams left in this competition. When everyone heard that the Alpha team was eliminated, they couldn't help being surprised.

In everyone's mind, Alpha Squad belonged to the ace team, but they didn't expect to be eliminated at this time. After all, they felt that Alpha Squad would definitely survive to the end, and no one wanted to meet them.

At this time, the two teams of Xiong Country and H Country met together. They originally wanted to start a war, but at this time, the problems they faced were the shortage of food and insufficient equipment.

Both sides are facing each other, they have rifles in their hands, there is not much food on the table, and it is only to see who goes down first.

At this time, the voice on the radio rang out, completely breaking the tranquility. The people who were thinking about \*\*\*\* each other before could not help but let down their vigilance at this moment.

After half a day, Xiong Guo's captain said loudly from the bushes on the opposite side: "On the other side, I don't think it's time for us to fight each other. We should find a way to form an alliance."

"I have the same idea, but I don't know if you can be trusted, so let's count to three and we will walk out together."

The two sides are still relatively cautious. After all, in this situation, they can't afford any losses. One more person means more strength, so that they can persist until the end.

These two parties are also relatively shrewd, after all, they are also testing now.

The captain of Xiong Guo was also very entangled. He saw that the other party had no intention of confronting them.

"The best way for us now is to form an alliance. I didn't expect the Alpha team to be eliminated."

"Currently, I have one of the biggest suspects, which should be the red blood cell team of Yan Kingdom."

"It seems that we all want to go to a place. From the beginning of cooking, when someone was eliminated from the rice, I suspected that it was definitely them. Their team seemed to have disappeared completely, and there was no news at all."

Now their suspicions are all the red blood cell group, so they chose to form an alliance, because the red blood cell group is very powerful, and now they have the sponsor's weapon, which is not on the same level as them.

On the other hand, Moxi also quickly came up with his own method. He knew that this would definitely not work. With the elimination of these people, he also understood that Qin Yuan wanted to end the competition early.

At this time, the team members who organized the competition were having a meeting to discuss, because this time things were more and more beyond their expectations. The originally planned competition rules and competition conditions were completely disrupted now.

Now not only are the host teams constantly missing, but their participating teams are also constantly being wiped out.

Moxi stood up at this moment, and he began to pretend to be innocent again.

"Guys, I thought there must be something else going on here before. You suspected that there was a traitor, but I don't think so. According to my current investigation, that person is absolutely powerful."

"What do you mean by that? The man?"

The representative of country A obviously cannot accept this result. After all, on their side, the organizer sent a team, and a team was sent in the competition. Now they are completely out of contact and completely wiped out. How can he accept this?

It's just for fun. Up to now, they don't even know who they eliminated.

Therefore, the representatives of country A must ask them to come up with a statement, and always feel that someone is playing tricks behind them.

"Everyone, according to our investigation results, the red blood cell team is very likely to do these things, because this is their ability."

For this result, everyone obviously cannot accept it. After all, no matter how strong they are, it is impossible to directly use such poor equipment to kill the organizer's team.

This is completely an unequal condition. At this moment, Moxi clapped his hands, and the team leader walked in.

This team leader has now become his key figure, "Sirs and representatives, what I said is completely true, because at that time my team was ordered to start investigation and expulsion, and what I encountered was the red blood cell team."

"But when you met the red blood cell team, why didn't you report it, and kept the matter hidden until now? What's going on?"

The representative of country A didn't believe their rhetoric at all. He must find out the real culprit behind the scenes and fight for the injustice of his team.

At this time, the old fox, Moxi, also stepped forward. He began to admit his mistakes on his own initiative. He said that all of this really had nothing to do with him, because he had his own selfish intentions at the time and wanted to use his position to target the red blood cell team.

"You know that the red blood cell team and our country have always had conflicts, so I did this only for our country."

"So you choose to hide it and not report it, and keep this news from everyone?"

"It is indeed my negligence on this matter, but all I did was conceal this matter. Now that the matter has developed to this situation, it has completely exceeded my expectations, so I asked everyone to come out and find a solution together."

This old guy is really evasive. He first said that he was indeed targeting the red blood cell team, but he did not admit that he sent a team to hunt down the red blood cell team.

And the most important issue now is that the red blood cell team has formed a threat, constantly eliminating other teams in a short period of time.

"Everyone, the key issue we need to consider now is that the red blood cell team is using this method to end the competition early. They think it is very unfair because I targeted them."

"Hehe, it's really the usual style of your country of the United States. The representative of the country of Yan didn't come, so you can bully him like this. You really can do it."

The representative of the Ba Kingdom said coldly in the corner that no matter what, he still believed what the Yan Kingdom said, and he could only half believe what the Mi Country said.

And when everyone was still holding a meeting, suddenly there were some slight movements outside.

The representative sitting at the door was a little unhappy, "What the \*\*\*\* are those guys doing outside? Don't they know that we have a meeting inside?"

"I think something is wrong, how could these sentinels..."

The representative hadn't finished speaking when suddenly a group of people rushed in, unexpectedly it was Qin Yuan and the others.

At this moment, everyone stared wide-eyed and completely stunned. This is simply too exaggerated. Qin Yuan actually appeared in their base camp. You must know that this place has completely jumped out of their competition encirclement, and it is more than a hundred years away from their competition location. kilometer.

Everyone doesn't know how the red blood cell team arrived, but at present, only their people are here, and their team members seem to be missing one.

The main reason is that Qin Yuan kept He Chenguang and Ba Guo's team and asked them to guard the two people with the system.

These two people are very important, and it would be more reassuring to ask He Chenguang to stay and watch over them.

Qin Yuan changed his mind halfway, he knew that this competition was unfair from the beginning, and he had to act faster.

Because this team with a system has been completely wiped out by him, the people behind will definitely realize this, so he must speed up the process.

According to this situation, if he chooses to continue to eliminate other teams, it will waste too much time, so he might as well rush to the base camp and question Mo Xi face to face, he will reveal the ugly faces of these people.

Moreover, Qin Yuan and the others had live ammunition in their hands, and they were confronting everyone at the moment.

The representatives of the Eight Kingdoms didn't do anything wrong, so naturally they didn't feel guilty, and they were happy to see Qin Yuan.

"Captain Qin, you guys are really good. I'm curious about how you guys got here after traveling more than a hundred kilometers?"

"These are trivial things to us, but we are traveling all night just to expose the ugly face of some people and prevent this unfair competition from continuing to develop."

At this moment, Moxi's face was extremely unnatural, because he saw Aleph, these guys still came to settle accounts, but fortunately he had made extra preparations.

He still pretended to be calm, looked at Qin Yuan and asked loudly: "We are still discussing you, but I didn't expect you to take the initiative to come to your door, you killed so many young couples, and these organizers, now You even rushed to the base camp, do you want to kill us all?"

This guy has already started to sow discord. He knows that he can't deal with Qin Yuan with his own strength, so he wants to pull other teams.

After all, they were holding guns in their hands now. When the other representatives heard this, they couldn't help feeling a little nervous, and stood up one after another.

"Captain Qin, what do you mean? He broke into the base camp with a gun, didn't he even let us representatives go? This is very inconsistent with the rules of the game."

Qin Yuan smiled, it seemed that the guy in front of him still knew how to be afraid, he strode forward, pulled out a stool, and sat on it directly.

"Representatives, I, Qin Yuan, did not come here today to hurt you, but to ask for an explanation to expose some people's ugly faces."

"But you are leading people, and you have killed all the sentries outside. Aren't you threatening us like this?"

Qin Yuan smiled, and then gave an order, "All the red blood cell teams are there, put down all weapons."

He was very sure that even if he put down his weapon, he would be able to deal with the old fox Moxi, who was still sowing discord until now.

The representatives of the Ba Kingdom also felt that this matter was strange. This was definitely not Qin Yuan's style, and he certainly would not want to hurt the representatives of other countries.

"All of you listen to me first, I don't think their red blood cell team has that intention, everyone, don't be fooled by some people!"

The meaning of the representative of Ba Guo is very clear. He is talking about Moxi, because this old fox has been disrupting the situation from the beginning to the end.

At this time, Qin Yuan pulled Alefu out and asked him to tell the whole story.

The representative of country A was also surprised to see that Aleph was still alive. After all, according to what Moxi said, Aleph had already died on the field.

At this moment, Aleph had already seen through it before he started. He originally hoped that the representatives of his own country could protect him, but there was no way, those guys had been trying to survive.

Even for the sake of safety, he was sent directly to Moxi, he almost died outside, and the one who actually saved him was Qin Yuan, which is really ironic.

So he didn't have so much fear anymore, he stood up and pointed at Moxi and said:

"He told me to do it all the way through, he told me to kill the red blood cell team, and we had two teams die because of it."

Everyone gasped when they heard the news. Sure enough, there was something inside.

Moxi was not in a hurry when he heard Aleph's accusation, but asked directly:

"I don't know how much benefit their red blood cell team has given you to allow you to frame me like this. I have never given up on you from the beginning to the end. I have been looking for you all of which are There was a misunderstanding."

This old guy is really, he doesn't cry when he sees the coffin, it's at this time, and he is still quibbling.

Aleph didn't care too much, anyway, things have developed to the present, so no one should live.

He directly found Moxi before, and he gave him benefits to kill red blood cells. He told all about the team, and there was another team.

When the incident finally came to light, he wanted to kill Aleph to silence him, but he didn't expect Qin Yuan to save him. At this moment, Aleph smiled wryly.

"Do you all know? Captain Qin actually saved me when I was most desperate, and he only wanted to kill me from the beginning to the end, because I was just a useless pawn."

Qin Yuan also went on to say: "From the beginning, this competition was unfair to us. We were violently attacked by the organizers, but we succeeded in fighting back. That is our ability."

The representatives at the scene were all in an uproar when they heard this, but they didn't expect the truth of the matter to be like this. No wonder this guy has been disrupting the situation, and everything was arranged by him.

Chapter 1067: I found 1 person to take the blame

But at this moment, Moxi was very calm, he stood up directly and spread his hands.

"Captain Qin, I know that we have been misunderstanding before, but you don't need to frame me like this, but it is indeed understandable for you to target me like this."

"What do you mean by that? I even have witnesses here. Don't you believe what he said?"

Aleph felt even more angry. This guy wants to shirk his responsibility now, so he has become the one to take the blame.

"I can use my military personality and the security of my military career as a guarantee. Everything I say is true."

Unexpectedly, Mo Xi smiled, then suddenly pointed to the little captain next to him and said:

"You misunderstood me just now, but I have been secretly investigating during this period. I did send him to kill you, but I did not do other things, but he made his own decisions on the Internet."

The captain was taken aback when he heard this, what's going on? Didn't he say that he would be promoted to an official position before, and then he would be reused, so why change now?

For a while, he was a little speechless, and quickly stood up and said:

"Officer Moxi, you can't do this. I have been following you before, and I have always done my duty. You can't just abandon me like this!"

"You are ashamed to say that what I told you before was just chasing them, but you directly killed them in order to read my order, and even acted without authorization. I don't know who you obeyed. ."

In an instant, Moxi directly threw this topic to country C, because the chief officer of this small team leader is from country C.

The representative of country C must not be happy to hear this, and stood up directly.

"What do you mean by this? At the beginning, you kept saying that you wanted to borrow my soldiers and said that you would join your team, but it turned out like this. Do you think I ordered it?"

"Hehe, that's not necessarily the case. After all, everyone knows that you Guoguo had conflicts with the red blood cell team before. I can't be the only one responsible for this matter."

Everyone was even more shocked at this moment. Why was country C involved?

The team leader was even more shocked. He felt that he had been used. Even if he said something now, he probably couldn't explain it clearly, because Moxi would definitely not let him go. Moxi wanted to take him from the very beginning. It's a scapegoat.

For this result, Qin Yuan definitely didn't believe it. He really wanted to tell the story of the two people who were caught. It's more troublesome.

Then Moxi's subordinates also produced a piece of direct evidence that the team leader secretly accused other team members of hunting down Aleph.

"Everyone can take a look, here are my witnesses, they are all directly ordered by the captain, let him catch up with Aleph, I have never given such an order, this is completely He's making his own way, so I don't even know what's going on."

The captain was completely confused, this guy was really quick to throw the pot away, obviously he was the one who asked him to chase him down, why is it the other way around now.

"Officer Moxi, you said the wrong thing, but it's too chilling. I was obviously ordered by you, and I followed your instructions before I went to hunt him down, but now it has become my own instructions. "

"How is it possible? You'd better not frame me. As an officer, how could I tell such a lie, and we have absolute authority in the United States."

He directly used the style of the big country of the United States to speak, and wanted to use the United States to suppress it. In Qin Yuan's view, going away was completely nonsense, and he wanted to see how this guy performed.

Now people from country C were also involved. Mo Xi suddenly stepped forward and whispered a word in the ear of the captain, and the captain's eyes widened in an instant.

Mainly, this despicable guy brought his family members here, and he asked the captain to bear this responsibility before letting his family members go.

The captain immediately understood that all of this was a trick. He had already fallen into his trap from the very beginning in the morning. Qin Yuan.

In the end, there was no other way. The team leader could only admit that he looked at the representative of country C and said slowly: "This situation was indeed instigated by me. I asked them to hunt down and kill Aleph."

The representative of country C was taken aback. He patted the table and stood up, "What do you mean by that? Are you worthy of our country's cultivation of you?"

"Sir, I'm really sorry, I made a wrong decision, but it's all because of me, I'm just standing in the stars, I was assigned by someone else, but I can't say that person."

Moxi was even more confident when he heard this, he knew that this guy had already understood.

"Everyone, you see, he has already voluntarily admitted it, and I said that this matter has nothing to do with me. I just hunted him down at the beginning. I really don't know what happened later, and I have been investigation."

Qin Yuan knew it would happen like this, but they stared at Moxi in a daze, only to let this guy escape.

For such a thing, everyone can only suspend the game first. At present, this is unfair from the beginning, and in fact, the victory is already obvious.

Under such a fierce pursuit, the red blood cell team was able to turn defeat into victory.

If the red blood cell team wants to upgrade, they can directly kill all the teams. They definitely have this strength.

The representative of Baguo never saw his team. He looked at Qin Yuan, "Captain Qin, I have a question for you, about our team."

"Don't worry, they are safe. I, Qin Yuan, know who should be killed and who should not be killed."

When Qin Yuan said this, he stared at Moxi coldly, and it seemed that only Aleph could not be shaken.

Moxi's main reason is that this guy is a representative of the United States after all, and other people are still afraid, plus the mysterious force behind him.

Moreover, this guy Moxi did a good job of acting. He said on the spot that all this was his own responsibility. After he returned, he would issue an application like his highest officer to hold himself accountable. This was just his selfishness.

Now that he has shaken the blame completely, this guy can be regarded as relieved.

Even if this position is not guaranteed now, it is still better than offending the mysterious person behind it. It seems that he is really afraid of the mysterious force behind him.

This time the competition has ended ahead of schedule, and everyone can only do one. Due to human factors, the game was suspended, so no results were drawn.

Qin Yuan looked at Mo Xi coldly, and said when he left at the end: "Go back and tell the man behind you that he has successfully challenged me, I am very upset!"

Hearing this, Moxi couldn't help but feel his back tremble a little. Qin Yuan's eyes were full of killing intent just now, and that aura was really terrifying.

On the other side, when Qin Yuan went back to look for Ba Guo's team, mainly because those two people were guarding on their side, he unexpectedly got a piece of news.

Those two people who took the system are dead.

He Chenguang also blamed himself very much. He squatted on the ground and dared not look into Qin Yuan's eyes. After all, he knew that these two people were very important to Qin Yuan.

"Brother Qin, please punish me. I did something wrong this time. I don't know what happened. After giving them water, they suddenly fell to the ground and convulsed, and there was no time for us to rescue them." die."

"Did anyone else come into contact with them during this time?"

"I assure you that there is absolutely no such thing. Only I have been in contact with it, because you said that these two people are dangerous, so I have always taken care of them personally, but I don't know what happened."

Li Erniu stepped forward and looked at the kettle lying on the ground, and the two corpses beside it.

"Brother Qin, is there something wrong with the water?"

"It's absolutely not. I have already drank the water, so I gave it to them. I feel very strange, what is going on."

Qin Yuan shook his head. It seems that the mysterious man behind him really did some tricks and was able to kill people remotely.

He would not blame He Chenguang, after all, this matter could not be avoided if he was around, it would be equivalent to killing someone from a distance.

He knelt down to touch the two corpses, when the system beeped.

"Ding! Remind the host that the systems on these two people have been completely cleared, to be precise, they have been recovered."

"Recycling? What's going on here? If it were you, would you be able to recycle the system?"

"The answer is that although this system is a powerful military recovery system, it cannot recover other people's systems. We do not have such a program internally."

Hearing this, Qin Yuan was also relieved. It seems that it is not that other people should recycle, but that the person who installed the system for them has the right to recycle.

He became more and more curious about the person behind him. This guy was cruel and merciless. He didn't expect that he would do such a great job. The team that was photographed did not complete the task, but all of them were killed.

If this continues, their situation will only become more and more dangerous, but the most important thing at the moment is to go back first, this time the competition is over halfway.

After Qin Yuan and the others went back, Gao Shiwei directly took out a document and put it in front of Qin Yuan.

"Captain Gao, we failed to complete the task this time."

"Before you know the mission all day long, I told you that as long as you come back safely, it's fine. Besides, this mission is only due to human factors. That's what the document I let you see is what it means."

Qin Yuan was a little curious. He picked up the document and took a closer look. It turned out that it was the document for dealing with Moxi in the country of America, and he was directly dealt with. He also dispatched a batch of excellent equipment and sent it to Yan country.

"What kind of operation are they doing? Is this because we bowed our heads and gave in?"

"It's not just our other countries that have also received such equipment. Their loss this time is not small, but the most important thing for these guys is face, otherwise they will not have any prestige in the future."

Qin Yuan was not very satisfied with the result of this treatment, after all, what he most urgently wanted to know now was the mysterious person behind him.

Moxi is just a pawn. Even if he is dismissed, there are still others. I don't know how many people are still lurking among them.

This time Qin Yuan and the others came back safely, Gao Shiwei felt that as long as they were safe, there would be no problem.

After returning, Qin Yuan couldn't wait to find Li Kang and the others. He wanted to share the news, mainly because the matter became more and more complicated.

The mysterious person behind this is too powerful, not only able to kill people remotely, but also able to control all systems.

So he can only remind everyone to pay attention to safety. He is definitely not worried, but these people have already taken action.

Li Kang was also very shocked when he heard such news, "No wonder I have investigated so much, but there is no clue at all, including the person I suspected before. It seems that even they themselves don't know who this mysterious person is."

"My main concern now is how many systems like his are left, and what kind of team he wants to develop. The most important thing is that he uses these soldiers with systems to gain own profiteering, which has violated many rules.

The main thing was that they wanted to win over Qin Yuan and they wanted to put them in the same exhibition, probably because they wanted to brainwash them.

"Captain Qin, I don't know how your investigation is going. What I'm more worried about now is whether he will control our system. If we can directly kill people remotely as you said, wouldn't our state be very dangerous?"

"According to the current situation, it shouldn't be. If he wanted to do it, he would have already done it to us. It seems that it is a system that we should provide, and he has no way to control it."

That's all the news Qin Yuan knows so far, so everyone can only exchange ideas with each other and give their opinions.

"It's possible that the mysterious person is around us, but we don't know it, so I hope you all pay attention."

The reason why Qin Yuan said this was because he had a very strong feeling that he definitely knew this person, but he just didn't know who was around him.

Especially this time, when the soldiers of these squads blew themselves up, he felt that the other party absolutely understood his abilities and knew him well, so he urgently cut off the connection with these soldiers.

Their investigation was at a deadlock for a while, and now they can't take the initiative, because the other party is in the dark, and they are in the open. Up to now, they don't know how many people there are in the other party.

At this time, Zhang Meng took out the invitation letter they received before and studied it carefully, and she found something different.

"It seems that we can only start with the details. I was very curious at the time. Although this invitation letter came in from the returnee doctor, I can't clearly analyze this new paper."

Chapter 1068: suspicious of people around

"I put the paper in the experimental machine and analyzed it. The ink on this paper is very unique."

Qin Yuan was a little confused when he heard this, isn't ink everywhere? And it should be something very common.

Zhang Meng explained that because the mysterious person behind this one may have obsessive-compulsive disorder, the paper he uses has a uniform format, including details to the use of pen and ink.

That's why Zhang Meng took advantage of this and detected that the humor was of a premium level, and some other small businesses could be ruled out at present.

Then he conducted investigations through this batch of inks. The inks currently used in the market are generally relatively common. Such high-standard inks are generally like large-scale printing factories.

"So according to my investigations, I finally decided on Hongjian Printing Factory."

Zhao Tao looked at Zhang Meng with admiration from the side. To be honest, he thought that Zhang Meng was the most useless among them before, because her ability was actually very weak.

According to the current situation, among them, Li Kang is very rich. He mainly controls the economy. Needless to say, Qin Yuan has all kinds of abilities.

In terms of his ability, boxing is absolutely no problem in fighting, except for Qin Yuan who can defeat him.

Unexpectedly, this time Zhang Meng actually used these details to investigate something that they did not investigate.

Qin Yuan was also a little excited. After all, after such a long time, they didn't even know whether the person behind it was a man or a woman. They only knew that it was just a mysterious person.

"Zhang Meng, is your investigation true? Why are you sure it's in this printing factory?"

"It's also thanks to this guy's obsessive-compulsive disorder. All his letters, including my visit to the office of the biochemical doctor, used this kind of ink for the letters he received."

So according to her investigation, it was finally locked in Hongjian Printing Factory. Only their printing factory has this unique ink, because such ink is not easy to fade.

The main reason is that the cost is high. Ordinary printing factories mainly produce books in batches, and they do not use such expensive inks at all. Such inks are usually used on famous paintings.

At the beginning, Zhang Meng's investigation direction was to investigate favorites, as well as some large and small art exhibitions in China, but he had no intention of finding anything.

Finally, after comparing the handwriting, she realized that Hongjian Printing Factory was very suspicious, and the signature of the boss at a press conference was very similar to this handwriting.

"But how could it be such a coincidence? I don't have any malice. I'm just saying how I was discovered by you. After all, Captain Qin is so capable, he didn't even discover anything."

This is also the idea proposed by Li Kang. Li Kang is more cautious, and he is very worried that he will fall into the enemy's trap.

After all, after being reminded by Qin Yuan, he knew that the mysterious person behind him was cruel and would use any means to achieve his goal, so it was impossible to let them go so easily.

That's why he asked such a question, and Zhang Meng said confidently: "For this question, don't worry! Even the most careful guy will show his fox's tail. Anyway, I am currently targeting this printing factory. We can Go see."

Unexpectedly, Qin Yuan looked at them and shook his head, "You can go to see them, but I will go alone, not us."

Zhao Tao was unhappy when he heard this, and he always wanted to help, "Brother Qin, it's not meaningful for you to say that, although my ability, Zhao Tao, is not as good as yours, but I can match two or three combat powers. "

"Everyone, that's not what I meant. The main reason is that the situation is special now. I'm worried that if everyone dispatches, they will startle the snake."

The most important thing is that Qin Yuan has always suspected that this mysterious person is someone he knows around him, so he has to be more cautious.

He has such doubts because he has been targeted since he participated in the competition this time, and the mysterious person behind him is so well informed that he even knows their exact location and their competition time.

Even if there is Moxi inside him, it must be known that in order to achieve confidentiality measures from the very beginning, all team lists are kept secret, even Moxi does not know.

It was only after Qin Yuan came back that he discovered this slowly, because at first he had to deal with Moxi there, and their situation was relatively urgent, so he didn't have time to think about these details.

Thinking back on it now, he always felt that the mysterious person was by his side and could monitor him at any time.

And now he still has the biggest question. Regarding the sudden death of the two people with the system, he has always felt very strange, because the timeline of the death of the two people is wrong.

If these two people belonged to remote control and then blew themselves up, why didn't they blow themselves up like that when they were interrogated by themselves?

Because at that time, when the first man with the system blew himself up, it meant that they had been remotely controlled and could kill everyone. There was no need to leave such a handle.

As a result, when he went to confront Moxi, the two people present with He Chenguang suddenly blew themselves up.

After all, they are on the same boat now, so Qin Yuan didn't hide the slightest thing, and he could tell his conjecture.

After listening to his conjecture, Li Kang frowned and said, "Captain Qin, I know that what I said may be a little too much now, but the suspicious people around you, do you think there is something wrong with this He Chenguang?"

Qin Yuan just heard this and patted the table and stood up. There is absolutely no problem with this. He Chenguang has been his brother from the beginning to the end, and it is absolutely impossible to betray him. This cannot be questioned.

As soon as his brother was mentioned, Qin Yuan became very excited, and his attitude suddenly became very cold.

"Such suspicions are simply nonsense, and I only hope to hear it once. Fortunately, I know you well, otherwise I really thought you were sowing discord."

It was the first time for everyone to see Qin Yuan get angry. For a while, everyone present didn't dare to say anything, after all, his ability was there.

After a few minutes, Qin Yuan may feel that his attitude was a little too excited, mainly because this is his brother who shares life and death with him, so he must not be suspected.

He also took the initiative to say that his attitude was not good, and I hope you don't mind. Li Kang's side is also easy to pick up and let go, but he thinks it's nothing.

It may be that he really thought too much. After all, he has never experienced their brotherhood, so he doesn't understand it. It is normal to make such a guess.

"Captain Qin, I didn't intend to provoke the relationship between you brothers, but I haven't experienced it, and because you said that you are someone close to you, that's why I have doubts."

"Of course I know this, so I was a little too excited just now, sorry."

Just when everyone was discussing when to go to Hongjian Printing Factory to find out what happened, Qin Yuan's phone rang.

Unexpectedly, it was Long Xiaoyun who called. It turned out that Qin Zhengyang had an accident during the training process. In order to save Qin Zhengyang, He Chenguang was injured and unconscious in the infirmary.

Hearing the news, Qin Yuan didn't say much, and hurried back to the team.

After all, with his ability, if something happened to He Chenguang, he could save He Chenguang.

When he came to the hospital, everyone was waiting outside anxiously, and He Chenguang was receiving treatment in the operating room.

"what on earth is it?"

When everyone saw Qin Yuan coming, they all ran forward one after another. At this moment, Qin Zhengyang blamed himself. He lowered his head and walked in front of Qin Yuan.

"Brother Qin is all to blame for this matter. I was training today, and I was a little absent-minded. The rope suddenly broke. In order to save me, Brother He rushed out and hugged me, and gave me his safety rope. And he fell off."

As soon as he mentioned this, Qin Zhengyang's tears flowed down. Only then did he truly understand what brotherhood is. The safety rope in front of life and death can be handed over to Qin Zhengyang without hesitation.

He slapped himself on the face directly, and then cried and said: "Brother He fell down from the fourth floor to save me. I blame me for this. If something happens to Brother He, what should I do?" Face it?"

Qin Yuan pulled Qin Zhengyang to tell him not to hurt himself. No one wanted this to happen, and even if it wasn't for He Chenguang to change to anyone in the team, everyone would do it. After all, we are all brothers.

"Don't worry, I already know something about this matter, no matter what, he will be fine."

Li Erniu also stood up, "Brother Qin, I'm all to blame for this matter. I was supposed to check the ropes, but I was a little lazy, and this happened."

The thing has already happened, and it is useless to pursue it, as long as the person is alive, and Qin Yuan can recover.

When He Chenguang came out of the operating room, the doctor came out to introduce his current situation. His right leg was broken and three ribs were broken.

At present, he can't stand any training for three months, after all, his three problems are still serious.

When Qin Zhengyang heard this, he felt very remorseful, because he had caused He Chenguang.

Qin Yuan felt that it was nothing, he was instantly relieved, and after returning to the ward, he treated He Chenguang, who was already awake at this moment.

Then he lifted his right leg, which could not be moved, but he did not expect to feel no pain now.

"Brother Qin, I still have to thank you. Your technique is still the same as before, it hasn't changed at all."

"Why are you saying these kind words to me, kid? We are all brothers. Besides, you were injured to save Qin Zhengyang. It is only natural for me to treat you."

Upon seeing this scene, Qin Yuan felt that Li Kang's previous suspicions were simply nonsense, and it was absolutely impossible for him to happen.

But they still have to find an opportunity, after all, they are going to Hongjian Printing Factory now.

The members of the team were no strangers to Qin Yuan's treatment method, but Qin Zhengyang saw it for the first time and found it very novel.

"Brother Qin, what kind of technique are you doing? It's amazing. Just now the doctor said that you have to lie down for at least a month before you can get out of bed. I didn't expect you to treat him like this, and Brother He will be fine!"

"In the future, you won't be surprised. After all, this is my special treatment."

When Qin Yuan was treating him before, he exhausted his energy a lot, but now it is different. He uses the complete recovery ability, which is recovered by the previous system, so it is relatively simple.

Everyone followed He Chenguang back together. On the way, Qin Yuan looked at the talking and laughing people in front of him, and he also fell into deep thought.

He has always had this feeling, and his feeling is unmistakable. Who is the person lurking beside him? But the only people around him who come into contact with him are the members of the Red Blood Cell Team and the Wolf Warrior Team.

He quickly shook his head. This kind of idea was very unrealistic just after it came out.

No matter what, you can't doubt the team members who fight side by side with you, because they are all born with you.

Soon he turned his direction to the previous eight-nation players, because at present, he can doubt only those few people.

Although they had cooperated before, they didn't know each other well after all, and when the two people with the system blew themselves up, they were also there. Although they didn't have direct contact, they were also there.

In order to solve the doubts in his heart, he found He Chenguang again.

"Chen Guang, do you still remember what the Pakistani team members were doing when the two people died that day?"

He Chenguang thought for a while, and then slowly said: "At that time, I also thought it was very strange. Those two people had never spoken to each other, but they suddenly asked for water, and the Pakistani players brought them water, but I refused, so I used my water."

"Then did they come into contact with those two people?"

Speaking of this, He Chenguang shook his head, because they were located in the cave, and the light conditions at that time were not very good, and he did not notice whether they had touched it.

"Brother Qin, I can't explain this matter clearly, because it happened so suddenly, but I think you mean to suspect that the Pakistani players have tampered with them?"

"Yes, that's what I know so far. They won't die so suddenly. If they are going to die, it will definitely be during my interrogation."

"It's reasonable for you to say that, but I noticed a detail at the time. They had a member of the country who was very enthusiastic and kept saying that they would guard me, but I refused."

Because Qin Yuan had told him before that no one could get close to them, and He Chenguang had to keep watch over these two people.

Qin Yuan fell into deep thought when he heard this. It seems that he really has something to do with those team members. If this is the case, Hongjian Printing Factory can let it go for a while. people start.

#### Chapter 1069: Fake He Chenguang

Qin Yuan was thinking about when to find an opportunity to get close to those Pakistani players, but he didn't expect them to come to him on his own initiative, because almost half a month had passed since the competition.

The person in charge of Ba State brought their team members to Yan State in person, mainly to thank them.

This time, although the competition was over halfway through the schedule, it had a lot of influence. After all, the strongest Alpha team had already been eliminated, as well as Xiaomao's special warfare team.

They are still ranked in the world, including Xiong Guo's special warfare team, they have been completely eliminated in this competition, and Ba Guo's team survived thanks to Qin Yuan's leadership.

So in this kind of competition, they can survive, and they are also specially grateful to Qin Yuan for this military exchange this time.

Gao Shiwei also warmly received them. After all, the relationship between the two countries is also an alliance. This time, the person in charge of the Ba Kingdom came here, on the one hand, to thank Qin Yuan, and on the other hand, to discuss how they will work together in the second half of the year. joint military exercises.

Just taking this opportunity, Qin Yuan also received Ba Guo's team. Their captain was still the same as before, very enthusiastic, and every word was an expression of gratitude.

Looking at it this way, there is no problem at present, but many things still need to be checked carefully, and He Chenguang also provided an important clue.

He recalled that when the accident happened to those two people, the team leader of Ba Guo was not there at that time, mainly because at that time, his attention was completely on those two people.

So I didn't pay much attention to Ba Guo's team leader. Now I just think back to that time. Ba Guo's team leader went out ahead of time. At that time, he was the only one in the cave, and the rest of the team members.

"Brother Qin, maybe I shouldn't say such things now, but it's still very suspicious to think about the situation of Captain Ba Guo so carefully."

"Then how did he react when he came back and saw those two corpses?"

"There was no reaction, but he was very calm, as if this was something he was used to. The main reason was that at that time, I blamed myself very much and didn't pay much attention to him."

Qin Yuan nodded to show that he knew it. It seems that the identity of the captain of the Ba Guo team is still very doubtful, although they have cooperated several times before.

When Qin Yuan found the captain of the Ba Guo squad, he also took the initiative to say that the death of the two guards before was really an accident. He felt very sorry, but Qin Yuan didn't mention him but brought it up on his own initiative.

"Captain Qin, I'm also sorry for what happened before. Until now, I don't know what happened."

Qin Yuan stared at him coldly. Anyway, this was the last chance. He didn't like to make detours, so he just asked directly:

"During this period, do you think any suspicious figures approached the two of them?"

The captain of Pakistan thought for a while, then shook his head. He said with certainty that no one approached, and they kept guarding every step of the way.

At this time, Qin Yuan looked at him, and suddenly directly controlled his thoughts and forcibly entered his consciousness. Under such circumstances, the captain of the eight countries can be said to know everything.

He had completely controlled the thoughts of the Ba Guo captain. At this moment, Qin Yuan suddenly realized a problem.

All his directions are completely wrong, because if there is a problem with their Ba Guo team or the captain, their own system will react first. Even if they want to manipulate or kill people, they must first have a system.

But the system didn't have any induction, which means that they don't have any system on them, but at this time people have been controlled.

Qin Yuan also directly raised his own doubts. Regarding the explanation that day, the captain of the Ba Kingdom did not have any suspicions, and he went out because He Chenguang asked him to go out.

This was indeed beyond Qin Yuan's expectation. After all, he did not expect that the result turned out to be like this. If He Chenguang told him to go out, why He Chenguang was different from what he said.

The real situation at that time was that He Chenguang asked them not to send two secret whistles below, which was also for safety reasons.

At that time, several team members of Pakistan were injured to varying degrees, so the team leader went down to serve as a secret whistle in person.

For a moment, Qin Yuan felt his head buzzing. This was different from what He Chenguang said. He didn't mean that he didn't believe in He Chenguang, but that he believed in his own system even more in the face of such absolute power.

Because the person in front of him has been completely controlled by him, every word he says is the truest thought.

Qin Yuan began to analyze, all this was indeed a bit too coincidental, and He Chenguang's reaction also made him a little unpredictable.

Since he had doubts just now, He Chenguang seemed to be impatient to pour dirty water on them, and he kept guiding his thoughts.

At first, I asked him if there was anything unusual, and he told himself no, and later he said that the team leader from Pakistan was suspected, and he went out by himself.

Qin Yuan was a little confused about the situation for a while. More importantly, He Shengguang was his brother who was born and died. How could such a thing happen?

But judging from the current situation, He Chenguang's suspicion is getting bigger and bigger now. There is no need for him to lie to himself, but what he said is not right with what he said now.

Qin Yuan released the control over the captain of the Ba Guo squad. He didn't know what happened, so he woke up from his confusion.

At this moment, Qin Yuan was a little lost, and he didn't even talk to the captain of the Ba Guo squad. Now he has some things that he needs to ask for praise, and he can't ask directly.

Even if He Chenguang really had a problem, wouldn't that be a warning? Even if there was no problem, if it was a misunderstanding, it would also affect the relationship between the brothers.

He first found Li Erniu, who was sorting out their previous training equipment in the utility room.

Before Li Erniu could speak, he asked directly, "What happened to the sudden break of the rope on the day of training? Have you checked the rope before?"

Facing Qin Yuan's sudden question and looking very serious, Li Erniu quickly took out the rope and said:

"Brother Qin, you see, this rope is what we usually train. It can carry the weight of two people, and there will never be any problems. But that day was very strange, and it broke immediately."

"Where is the broken cord? Is it still there? I want to see it."

"That was thrown away a long time ago. After Chen Guang recovered, he said that these inferior ropes should be disposed of earlier, so he disposed of them."

Looking at it this way, He Chenguang's suspicion became even greater. He seemed to be in a hurry to destroy the evidence, because when all this was thought of, there were too many coincidences.

Just when he suspected the people around him, He Chenguang rescued Qin Zhengyang, completely got rid of his suspicion, and made him feel guilty for doubting his brother.

Looking at it this way, it was more like a bitter trick staged. Qin Yuan didn't doubt He Chenguang, but had a bolder idea. The He Chenguang in front of him might not be real.

Because of the person he has been with for so many years, he still understands something. It is absolutely impossible to lurk in his team all the time, but it means that this person may have come in as a fake.

Since I received that threatening letter, maybe He Chenguang was replaced at that time, when would I rather believe that the current He Chenguang is a fake.

I also don't want to believe that the brothers who have been working for so many years will betray themselves, and the latter situation is absolutely impossible.

Judging from the previous situation, He Chenguang had many opportunities to kill himself, but he never did it, so it can only be explained that it started recently.

He clenched his fists. When did this guy infiltrate, everyone didn't even notice. What's more important is where the real He Chenguang went.

Li Erniu saw that something was wrong with Qin Yuan's mood, and was very angry. He hurriedly said, "Brother Qin, I'm actually to blame for this matter. Chen Guang came in a hurry that day, so I took the rope and went out, so I didn't check."

What he said aggravated He Chenguang's suspicion. Qin Yuan didn't say anything, and ran out directly. Li Erniu was confused.

At this moment, Qin Yuan is looking for He Chenguang, no matter what, he must ask him face to face.

At this moment, He Chenguang was on the training ground, no different from usual, Qin Yuan stepped forward and grabbed his collar, then looked at him coldly.

"Who the \*\*\*\* are you guys?"

"He Chenguang" was confused by this sudden scene, he smiled and pushed Qin Yuan's hand away, "Brother Qin, what do you mean? I am Chenguang."

"No! You are not."

Qin Yuan kept staring at him, trying to control his consciousness. At this moment, Li Erniu and the others ran over, because Li Erniu had seen that something was wrong with Qin Yuan's emotions before.

They ran forward and pulled Qin Yuan. After all, Qin Yuan's state was very wrong now, and he was angry with He Chenguang.

"Brother Qin, what are you doing?"

"The rope thing wasn't Chenguang's fault, it was all because I didn't check it properly, and I've made it clear to you before."

Li Erniu couldn't figure out the situation. He thought Qin Yuan was going to blame He Chenguang, so he hurried to explain, and brought other team members. Looking at the chaotic scene, Qin Yuan couldn't help but feel upset, and pushed him away. people.

"You don't care that this matter has nothing to do with you, but between me and him."

Qin Zhengyang was even more anxious when he heard this. After all, He Chenguang was injured in order to save himself. He hurried forward and kept apologizing, thinking it was his fault.

And "He Chenguang" next to him raised his mouth when he heard this, it seemed that his goal had been achieved.

This scene happened to be captured by Qin Yuan. This guy really has a problem. Under such circumstances, he actually showed such a weird smile.

He was here to stir up feelings between his brothers. Qin Yuan lifted his collar, and then dragged him into the training room next to him, locked the door behind him, and let Li Erniu and the others shout outside, but he didn't care. .

"When did you sneak in? Where is the real He Chenguang?"

"Brother Qin, what do you mean by that? I'm just with Cheng Guang. You can easily hurt our relationship like this. After all, I really regard you as a brother."

Qin Yuan was completely angry. He directly punched the person in front of him on the cheek. This guy kept saying his brother was not He Chenguang.

"You \*\*\*\* has been challenging my patience. Let me just say this one last time. Where is the real He Chenguang?"

Unexpectedly, the people on the ground suddenly burst into laughter. He stared at Qin Yuan coldly. Now that he didn't even bother to pretend, after all, he had already been recognized, so it would be boring.

"I really didn't expect that you discovered my identity so quickly. It's a pity. Then the game won't be fun."

"Sure enough! I already know what you \*\*\*\* is doing. Where is the real He Chenguang?"

"Captain Qin, aren't you very powerful? Then you can directly invade my consciousness, so you can know."

Qin Yuan looked at the disdainful smiles of the people on the ground, and directly mentioned him. He really wanted to invade his consciousness. At this time, Qin Yuan's system suddenly issued a notification tone.

"Ding! Remind the host that the other party has a hidden replication system. The system didn't notice it before. This person is very dangerous and must not be invaded."

No wonder this guy let himself invade directly, it turned out that this was a trap, Qin Yuan directly punched the person in front of him in the face.

"System, what is going on here? What will happen if I break into it by force?"

"This copy and hide system can copy my data, and can copy a capability recently used by the array. For example, if the host uses intrusion now, he can also intrude into your system. Qin Yuan hears this. He took a deep breath, fortunately the system reminded him, otherwise he would have almost been fooled by this guy, if he could invade, it would be troublesome."

The person lying on the ground kept provoking Qin Yuan to invade his system, and he also directly said: "Captain Qin, it seems that you only have this ability, that's really a pity, don't you want to know Where is your brother?"

Of course Qin Yuan knew that this guy was just trying to seduce him and wanted to be fooled.

"Let me tell you, one day I will dig all of you out and tear you into pieces, especially those who have hurt your brothers."

"But I'm right in front of you now, so you're doing something to me. What's the point of talking all this time?"

He kept stimulating Qin Yuan, just wanting to make Qin Yuan do something. At this moment, the door was opened, and it was Long Xiaoyun.

After all, they saw that Qin Yuan was in a bad state, so they hurried to find Long Xiaoyun.

Chapter 1070: to meet the people behind

Now, after all, in their eyes, He Chenguang is the same He Chenguang as before, but Qin Yuan's state is not right.

After all, Qin Yuan was a little excited just now, and he dragged He Chenguang to the training room, while the fake He Chenguang on the ground looked at Qin Yuan with a smile on the ground.

"Brother Qin, I don't know what to say. After all, we have been brothers for so many years, and we have been born and died so many times. Are you going to put me to death just because I made a little mistake now?"

Qin Yuan frowned when he heard this, this guy was talking nonsense, as expected, after Long Xiaoyun came in, she heard it, and she pulled Qin Yuan away.

"Qin Yuan, what the \*\*\*\* are you doing? He's your brother!"

What else can Qin Yuan say at this moment, it is really difficult for him to explain, because it is impossible for him to directly tell Long Xiaoyun and the others that this person is a fake. It is also possible to do this.

At this time, Qin Zhengyang and the others also ran in. It was because they had saved Qin Zhengyang, so Qin Zhengyang felt a little guilty at this moment. He felt that Qin Yuan was standing up for himself.

"Brother Qin, if you want to blame this matter, then blame me directly. After all, this matter really has nothing to do with Brother Chen."

Qin Yuan didn't pay attention to them, but kept staring at "He Chenguang" on the ground. At this moment, this guy was very proud, and he even pretended to be a weak person.

He knew that Qin Yuan didn't dare to speak out, after all, others wouldn't believe it, and he couldn't explain the system.

Qin Yuan shook his head helplessly, and then walked out. He will definitely find an opportunity to kill this fake guy and find out the real He Chenguang, because He Chenguang's current situation must be very dangerous.

At this moment, Qin Yuan is very irritable. He is thinking about when He Chenguang was transferred. The main reason is that he has been thinking about too many things recently, and he went to Li Kang's side again.

At the same time, he also fell into deep self-blame, feeling that he had been managing the affairs of the mysterious person behind him and neglected his brother. He Chenguang's current situation was very dangerous, and whether he was still alive was a problem.

But other people don't know that he is under so much pressure, and he is sitting on the training ground to sort out his current thinking.

"System, what's going on? If this counterfeit has a system, why didn't you detect it at that time, and didn't remind me."

"Answer the host, he is carrying a hidden god-level system, this person is very powerful, you'd better deal with it carefully."

"According to what you said, he is much stronger than you."

"This is not comparable, but he is better than me in some aspects. After all, I am the most powerful recycling system, and I can recycle everything."

After listening to the system's answer, Qin Yuan was relieved, at least he knew that this thing was not that difficult to deal with.

It's just that they used some despicable means, and they didn't expect to be able to infiltrate him. No wonder he felt that something was wrong before. Every action he made seemed to be controlled by the people behind him.

At this time, Long Xiaoyun came to find Qin Yuan, "What's the matter with you recently? Why are you angry with your brother? You must know that you are a special operations team, and the most important thing is mutual trust."

Qin Yuan smiled helplessly, he looked at Long Xiaoyun, and even wondered if Long Xiaoyun had other identities.

He quickly put this thought behind him. He couldn't suspect everyone just because of one person, after all, it wasn't that easy to infiltrate.

The reason why they chose He Chenguang must have their reasons. What kind of opportunity should it be at that time.

The main reason is that Qin Yuan was not in the team a few days ago, he looked at Long Xiaoyun and said: "I have my reasons for this matter, but don't worry, it is definitely not for public revenge."

"I know you are not that kind of person, but this is a matter between your team after all, and the trust between comrades is also very important."

"Yes, so I also want to ask you a question, I hope you can answer it truthfully, after all, this matter is of great importance."

Long Xiaoyun looked at Qin Yuan and said solemnly: "I know that you rarely have such abnormal emotions. What's going on? You can tell me, and I can share it with you."

How could this be possible to tell her, Qin Yuan looked at Long Xiaoyun and said slowly: "Don't worry, this matter is fine, I just want to ask you about He Chenguang's previous situation."

Qin Yuan mainly asked about his previous visits to Li Kang and the others, because he was not there for only a few days, so the suspicion was the biggest at that time.

Otherwise, they would have been together all the time. Sure enough, he only found out after asking Long Xiaoyun, because he is the team leader of the red blood cell team. If he is not around, Long Xiaoyun is generally responsible for their team members asking for leave. .

Although He Chenguang is a member of the Special Forces, they do have special treatment, but if he wants to ask for leave, he still has to tell Long Xiaoyun.

In the few days when Qin Yuan went to look for Li Kang and Chenguang, he also said that there was something at home and he needed to go home, but this was quite common, and Long Xiaoyun agreed at that time. After all, their captains were not in the team. There will be no special tasks.

Long Xiaoyun watched Qin Yuan keep asking, and felt a little strange, "It's strange for you to ask this question. Don't they usually ask me for leave like this? Or is it that I can't grant them this way?"

"This is not your problem, but I want to prove something, don't worry, I can handle it myself."

"Then I hope you can handle the relationship between you and your comrades-in-arms. After all, everyone will fight side by side in the future. Don't make the relationship too rigid."

Long Xiaoyun always thought that Qin Yuan was angry with He Chenguang because of Qin Zhengyang.

At night, Qin Yuan heard footsteps approaching him. Just as the person outside was about to knock on the door, Qin Yuan called him in directly.

"It's already here, why knock on the door?"

"Hahaha, as expected of Captain Qin, this is really powerful. I just walked over and could hear my footsteps."

"Don't talk nonsense to me, where is the real He Chenguang?"

"Captain Qin, what's the matter? You know you're in a hurry now, don't worry, at least his life will not be safe now, but it depends on your performance."

Qin Yuan clenched his fists when he heard this. He hated others threatening him the most. This guy was just provoking his majesty.

"Do you know what you mean by saying this? Are you afraid, I will kill you right now."

"Captain Qin is quite angry, but it's understandable. After all, he is your brother who lives and dies with you. But if you kill me, you may never find him again."

"What exactly do you want to do?"

Qin Yuan slammed his fist on the table, and he stared at the person in front of him coldly. If it wasn't because he didn't know He Chenguang's whereabouts now, he really wanted to kill the person in front of him directly.

After the fake He Chenguang walked in, he sat on the chair and raised his legs, "Captain Qin, I know you are very capable. It would be easy to kill me, but you still have to think about the overall situation."

"I don't want to hear your nonsense now. What do you want to do? Or what do you want me to do to get He Chenguang back!"

"This is just a small problem for Captain Qin. You just need to cooperate with us to meet our boss."

Qin Yuan didn't expect it to be such a request. He had worked so hard to find the other party, but he didn't expect to ask to see him now.

"Hehe, I thought any kind of request was fine, I promise you."

"Then it's decided, we'll see you tomorrow!"

After the fake He Chenguang finished speaking, he left with a smile. He looked smug. He was very confident. As long as Qin Yuan could meet the mysterious person behind him, he could guarantee that Qin Yuan would never return.

And his ability is indeed not low, he has the disguise technique on him, it is indeed very powerful to be able to do this, even Qin Yuan didn't find any flaws.

The next day, Qin Yuan walked out of the brigade under the leadership of this fake person. After they came out, the two of them couldn't do it all the time, and finally turned up the mountain.

"I said you don't intend to let me walk all the time, do you have a car here?"

"Captain Qin, don't pretend. If you use the car, you just want to find out our exact location. You just follow me honestly. This little road is nothing to you."

Qin Yuan didn't say much, and quickened his pace, and the men were not to be outdone. At this time, they finally reached the top of the mountain.

Qin Yuan looked around, there were patches of mountains, and there was no base at all, because according to the situation he interrogated before, they did have a base, because there were many people who received systematic training.

But judging from the current situation, nothing was found.

"Are you kidding me? In this place, don't tell me what kind of base there is."

Unexpectedly, the fake person smiled and hooked a backpack from the big tree behind him.

"Captain Qin, don't worry, we have already prepared these things."

Qin Yuan took a closer look, and it turned out that they were flying with wing suits. They were too cautious. If they did this, they would not be able to find their hiding place at all, and their trajectory would be covered.

"Captain Qin, you have to follow me well, otherwise I can't guarantee what happens later."

"Do not worry!"

Qin Yuan didn't want to say anything at the moment, he just wanted to see that mysterious man quickly, mainly because he wanted to make sure of He Chenguang's safety.

In this way, the two set off one after the other, the man kept adjusting the angle, Qin Yuan also accelerated to keep up with his pace, the speed here was very fast, the two of them crossed the mountain in front of them in an instant. Then it fell into the hinterland in front.

After coming down, he took out a compass, quickly looked around, and then walked in.

Qin Yuan's speed was very fast, and the man couldn't keep up. He rested several times along the way, and finally at night, the two arrived at their destination.

The whole journey was at the speed of walking. Anyway, there are mountains everywhere, and it is true that even cars cannot enter such places.

But after entering the depths of the jungle, Qin Yuan saw that the military tents here were completely built according to the terrain. They used the terrain to cover themselves well.

Moreover, military tents like this are very easy to disassemble. No wonder he couldn't find out before that this base turned out to be mobile.

They can disassemble military tents like this at any time and take them away directly.

There are about seven or eight such large military tents in front of them. According to the equipment in one tent, they can accommodate about six people.

The man stepped forward, took out a whistle, and blew a unique sound, and soon the people in front responded.

"Captain Qin, you don't need to be so nervous, relax a little bit, anyway, we are still our own people, after all, we are considered to have a system."

"You and I have never been on the same path."

Although Qin Yuan said so, the man didn't mind, he just took Qin Yuan in, and several people came out of the tent.

They stared at Qin Yuan vigilantly. At this time, the system also issued a reminder to remind the host that the people on the opposite side have systems, but they are all ordinary systems with a very low level. I can Deal with it, no problem. "

Since this is the case, Qin Yuan is relieved, as long as he finds He Chenguang, there will be no problem, and no one can threaten him.

At this time, a man wearing a black mask came out of the tent, holding a revolver in his hand, and was wiping it with a rag.

"Hahaha, Captain Qin, I didn't expect you to be faster than I imagined."

This guy's voice has been changed, so Qin Yuan doesn't know who it is. Anyway, this guy is very mysterious, he has already met, and he is still messing around.

"Who the \*\*\*\* are you? What do you want me for? And where is my brother?"

"You can rest assured that he is alive and well, and I didn't hurt him."

After the man in the mask finished speaking, he made a gesture of invitation and asked Qin Yuan to enter the tent.

After entering the tent, Qin Yuan took a look around, there was nothing special around, it was very simple, just a folded military table with a map on it.

"Captain Qin, it's really not easy for me to find you here. After all, I have made such a big circle."

"Are you the one who put the system behind it?"

Qin Yuan simply came straight to the point and asked him directly. Anyway, they are already here now, and his system has also been tested, and these people on the opposite side are not his opponents.

What's more, Qin Yuan has quietly tested his own system. It's unbelievable that the masked man doesn't have any system on him!

"I know you have a lot of questions, but don't worry, I'll show you a video, and you should know why we did this."
