

## Special Soldier 108

Chapter 108: purpose

This is a product left over from the last century. Many landmines are already aging. You don't even know what they will explode because of!

But Qin Yuan hesitated for a moment, and rushed in directly!

Although the thermal imaging ability can't see these mines, Qin Yuan still has danger perception ability and seven times the nerve response speed. As long as he is careful, there should be no problem!

It's just this, it still slows Qin Yuan's speed a bit!

Qin Yuan is trying to catch up with the old cat, so naturally he can't waste more time here!

"Fight!"

Qin Yuan decided to raise his danger perception and nerve reaction speed to the limit, let go of his steps, and rushed towards the forest!

Qin Yuan turned into a black shadow and rushed out quickly!

It's a pity that Qin Yuan suddenly heard a click under his feet in a place where he settled down!

The whole body suddenly froze!

stepped on a mine?

Qin Yuan was a little puzzled, why didn't his danger perception ability be reminded?

"m's!"

Qin Yuan scolded a swear word. Although he didn't know why his perception ability did not detect this landmine, he did not dare to loose his foot easily. If this landmine would explode, he would Ruined!

Qin Yuan dug out the soil slowly and saw the mine buried in the ground!

is a little nervous, he doesn't know how to remove landmines!

And at this moment, Qin Yuan's eyes lit up, he still had a lot of grids, why didn't he put this mine directly into the grid?

Just do it, and Qin Yuan directly put his hand on the mine.

"Ding Dong, recover the broken mines."

Hearing the system's prompt, Qin Yuan was relieved immediately. It turned out that this landmine would not explode anymore, no wonder he hadn't found his perception ability.

But looking at the mines in the grid, Qin Yuan suddenly remembered that the old cat in the original book is also a master of mine layout, and thinking of this, Qin Yuan suddenly came up with a very good idea in his heart!

"System, recover landmines!"

"Ding Dong~The host recovery is successful, please start choosing!"

"1, get world-class mine production technology!"

"2, get world-class landmine burying technology!"

"3, get world-class mine dismantling technology!"

Seeing these three options at this time, Qin Yuan's mouth suddenly smiled!

As expected, it was almost as I guessed!

As long as these three abilities are obtained, Qin Yuan can instantly become a landmine master!

And since this is the case, Qin Yuan sinks his heart.

He knew that this time the old cat, in addition to wanting to avenge Minden's brother, would also help Minden delay time and accomplish other things, and would not escape easily!

So Qin Yuan still has a lot of time left!

Now Qin Yuan still has three grids left, since this is a minefield, then simply take advantage of this opportunity to get rid of all these mines! It can be considered a good thing!

"System, I choose 3!"

Qin Yuan first chose the third item, and then Qin Yuan's mind suddenly had a lot of theories and methods on geographic dismantling!

Not only that, Qin Yuan glanced at his surroundings, then walked directly towards a place, carefully peeling away a layer of soil, and he found a land mine below!

"Unexpectedly, this mine dismantling ability will allow me to directly find out where the mine is?"

Qin Yuan couldn't help but feel happy, so that he can reduce the time he spends, and the ability of the system is much faster than those demining tools!

Then Qin Yuan directly dug out all these mines, and then recovered them into the grid!

"System, I choose item 1!"

"System, I choose item 2!"

Qin Yuan took this opportunity to directly upgrade all these three options to the cosmic level, instantly becoming a landmine master!

The ever-increasing knowledge in Qin Yuan's mind became more and more excited!

When I was young, Qin Yuan saw a very wonderful movie called "Landmine War". He was very shocked by the thundering techniques with fantastic ideas!

However, with the development of science and technology, the power of landmines has become more and more difficult to be removed. Many people have been blown off by the minefields left behind. Therefore, landmines have been destroyed on the international battlefield. Prohibited to use.

But Qin Yuan remembered that when the old cat was escaping, he planted a lot of landmines. Since they didn't abide by the rules, Qin Yuan naturally wanted to treat his body in his own way!

"I want you to know who is the ancestor of playing thunder!"

With a sneer on his face, Qin Yuan started working again, and now he must use these abandoned mines as raw materials.

After half an hour, Qin Yuan directly changed the direction and headed towards the boundary!

At this time, they are on the side of the old cat. They have fled for a whole day, and they just stopped to repair!

At this time, the old cat looked at his headset, recalling the screams of the assassins before, and the cold voice, but he couldn't help but feel a little worried.

"Boss, you are really amazing today. It was said before that the soldiers of the Yan Kingdom are so amazing Now it's just that!"

Hearing these jokes, the old cat also showed a slight smile:

"The soldiers of Yan Nation are just boy chickens who have never seen blood. They stay in a safe country, of course they can't compare to us!"

The mercenaries around burst into laughter. After all, Yan Guo was in a state of so-called mercenaries, but in their hands it was played like this!

Before they left, they even carved a few large characters on a big rock, Yan Country Boy Chicken, I don't know what the Yan Country soldiers would feel when they saw it.

"Boss, I remember the person you met before, it seems to be the guy named Leng Feng, why not just kill him?"

"We are not only going to kill the cold front, there is also a person called Qin Yuan, and more importantly, we must also attract the attention of all the military on the northern line! What? Are you scared? After all, what can just a bunch of boys Fighting power! This time the customer gave us a lot of bonuses. If anyone is afraid, let's go first!"

"Haha, that's right!"

"Let these boys know how good we are!"

Since these people have come to be mercenaries, they are naturally people who lick their blood at the edge of the knife. It is natural for them to take money for their lives.

What's more, they still have the advantage today, of course they won't be scared away by this sentence!

At this time, the old cat also smiled in his heart. Only he himself understood the purpose of their coming this time. .

is not the two soldiers at all!

is the blood sample in the hands of big boss Minden!
