

Special Soldier 1091

Chapter 1091: different purpose

"When we went there, the jeep was parked on the side of the road, and the doors were closed. These people had a very strong sense of anti-investigation, did not leave any traces, and the killing methods were very professional."

After finishing speaking, Long Xiaoyun took out the photos of the scene, and they were indeed all killed by a knife, and according to their speculation, there should be stones blocking the road ahead, and then a soldier went down to check.

Just as they stopped, the criminals got into the car, killed two fighters, and finally took the old man and the child with them.

Long Xiaoyun looked at Qin Yuan who was in a hurry and said: "I know you are in a hurry, but there should be no problem with the two old people and children now, because there are no other bloodstains at the scene."

Qin Yuan was very silent along the way, and no one said anything. At this moment, Qin Yuan's eyes were full of murderous intent, and he was convinced that it was definitely the man in the mask who did it.

He should have thought of it before, because the masked man mentioned the genetic problem many times. Then he already has a child on his side, maybe he came to **** the child.

He had put all his attention on Long Xiaoyun before, thinking that it would be enough to protect him, but he completely ignored the people around him who needed protection the most.

At this moment, he blamed himself very much, but at that time, it was necessary for the mission. If it was really a masked man, it would be more troublesome.

Qin Yuan and the others have already arrived, and Gao Shiwei also dispatched the entire special operations brigade team, and everyone began to search in batches.

Long Xiaoyun wanted to comfort Qin Yuan all the time, but he didn't know what to say. Seeing that he was silent all the way, at this moment, Qin Yuan suddenly turned his head and said:

"It's better not to tell An Ran about this for now, I'm afraid she won't be able to accept it."

"Don't worry, we have dispatched so many people, we will be able to find the child."

Qin Yuan nodded, and then set off with the team. This time, they had no scruples and ran ahead alone. They let go of any corners and started searching along the avenue.

The members of the red blood cell team couldn't catch up with Qin Yuan's footsteps when driving behind, because Qin Yuan wanted to come down to check for traces, and he would not let go of any clues.

Others began to search along the surrounding mountains. After all, this place is in the middle of a mountain.

However, the general manager found Tianliang in this way, without any clues, and it was far beyond that range. Qin Yuan even ran 30 kilometers away, and he did not miss every place.

Everyone also started to call the monitoring, the monitoring location is relatively far away, beyond this section of the mountain road, there is no way to know which car it will be.

The next morning, Qin Yuan's eyes were red. He had never been so nervous before. His energy was originally very strong. This was nothing to him, but now he was really worried about the child.

Although everyone was exhausted, after a whole night, no one was resting, and He Chenguang and the others were speeding up their search, but there was still no clue.

At this moment, a familiar figure came forward, Qin Yuan raised his hair, and found that it was An Ran, An Ran was very anxious at this moment.

She walked directly in front of Qin Yuan and grabbed Qin Yuan, "What's going on? They were fine before, so why did they say they were kidnapped!"

For a moment Qin Yuan didn't know what to say, he could only bow his head in silence.

Long Xiaoyun hurriedly said beside him: "Anran, don't worry, the Gao team has sent us all the team members, and we are all looking for it. The children will be fine, and we will definitely find them."

"Everyone said it would be fine, but it's been such a long time, with my parents on one side and my own child on the other, do you think I'm not in a hurry? What should I do? My child is still so young. "

After finishing speaking, An Ran burst into tears, both sides were her relatives, she didn't know what to do, at this time Qin Yuan blamed himself very much.

At this time, An Ran suddenly thought of something, she stood up and grabbed Qin Yuan, "Qin Yuan, tell me the truth, does this matter have anything to do with the girl you put me in charge of before? What are you hiding from me? "

An Ran's thinking is very quick, and Qin Yuan did not expect that she would associate these two things together, as expected, there are some things that cannot be hidden from her.

But what can Qin Yuan say now? He can only shirk that it doesn't matter, but he is willing to be very clear in his heart at this moment.

Only at this time did Qin Yuan understand what the pain of separation is. The child was fine yesterday, but now he is nowhere to be found.

He couldn't imagine how his child would be tortured by that pervert. If the child was really in his hands and had some system implanted, it would be over.

He asked everyone to continue searching, and then came directly to where Li Kang was, because Long Xiaoyun was here, and Long Xiaoyun knew nothing about it at the moment.

She was sitting in the room in a daze when suddenly someone rushed in and turned her head to see a familiar person. She was just relieved when Qin Yuan strode over and grabbed her by the shoulder.

"I'm very sorry, but I have to do this, because now my child is also in danger, it's the only way I can."

It was the first time for Long Xiaoyun to see such a terrifying Qin Yuan. His whole body exuded a murderous aura. She was so frightened that she trembled. Qin Yuan didn't care so much, and directly forcibly controlled Long Xiaoyun's consciousness. Searching for everything related.

At this time, the system suddenly issued an early warning, telling Qin Yuan to stop immediately.

"Host, please stop your behavior, forcible intrusion will cause mental disorder in the victim, especially the manipulated one!"

Qin Yuan doesn't want to care about this at all now, he just wants to find useful clues to find out that bastard, his child doesn't know where he is still suffering now, he is really worried.

But in the end, reason overcame him, he let go of his hand, and then took a few steps back a little decadently, and sat on the sofa next to him.

In terms of owning the system, it can be said that he has been very successful all the time. Basically, he has not encountered any setbacks. He can recycle everything, but at this moment, the child disappeared. At this moment, he was completely panicked. up.

Long Xiaoyun also came back to her senses at this moment, she was panting heavily, the feeling of suffocation just now made her the closest to death.

But she also recalled what Qin Yuan said just now, what happened to the child?

"I'm very sorry, although I don't know what happened, but can you tell me? I don't know if I can help you?"

"I was really impulsive just now, but I really can't help it, because that person kidnapped my child, so I want to find useful clues from you, you know? My child is just three years old."

Long Xiaoyun blamed herself when she heard this, and it seemed that it had something to do with her adoptive father.

But she can't do anything now, because she really can't remember that person's appearance at all, or what he experienced before, it's like passing by, everything is lost, she seems to have lost part of her memory.

Qin Yuan stood up and shook his head helplessly. He felt that it was useless to be here. In that case, he might as well go out and search more.

At this moment, Anran and the others have also made the latest progress, because the two old people carry mobile phones with them. Although the mobile phones are turned off now, they are still located at the last location.

An Ran's father's mobile phone was found near a garbage dump, and this line happened to correspond to the clue they followed.

When Qin Yuan knew there was a clue, he ran back quickly, but the phone was damaged, and the technical department was repairing it. He wanted to check the repair, could he find any useful clues?

But because it was soaked in sewage in the garbage dump, the maintenance department couldn't do anything about it. Unexpectedly, Qin Yuan took the phone directly and started repairing it.

He has the technology to modify guns and tanks, not to mention a small mobile phone. He immediately reset the program, which also includes his world-class hacking skills.

Soon, the program inside the phone was completely restarted. At the most critical moment, An Ran's father was very conscious anyway. He caught the gangster at the last moment, and there was a short video in it.

The child was held in the arms of the old man, and there were two men with knives guarding them. It looked like they were in a shaking carriage.

At this moment, the screen changed. It should be that the gangster found the phone, and then there was a sound of cursing. The gangster didn't hurt the old man, but just cursed a few words, and then snatched the phone.

Then he threw it outside casually, but at the last critical moment, Qin Yuan still caught it. It was a car selling ice cream, because at the end, he saw a sign.

Soon, the whole city began to search and arrest this kind of car selling ice cream. In the end, everyone found this suspicious car in the surveillance, but 17 hours have passed since the child disappeared.

Qin Yuan became more and more nervous. He was worried that the masked man would directly install the system on his daughter. She was just a child, and if she couldn't bear it, she would be like everyone else.

Following the last traces, everyone came to an oil processing plant. The car was parked at the door. Qin Yuan rushed forward first. He had already sensed that there was a living body in the car.

After opening the door, they found An Ran's parents who were tied up. Both old people were unconscious at the moment, but they didn't find the child after searching around.

At this time, under Qin Yuan's treatment, An Ran's parents woke up, and the first thing the old man said when he woke up was, hurry up and save the child.

"It's a woman! The child was taken by a woman, and there were four of them in total."

Qin Yuan was a little surprised when he heard the news, woman? Could it be that there is a new member here, or is it the masked man's subordinate?

It seems that it should be inside the oil factory. Everyone quickened their pace, and the gangsters at the step of the oil factory at the moment also heard the movement. A man wearing a mask said:

"Boss, it's not good, we seem to be surrounded, and they are all outside."

"Why are you panicking? Don't you know that we are here for this moment? Don't worry, this matter has nothing to do with you even in the end."

But at this moment, the child looked innocent, because the people in front of her were all wearing camouflage uniforms, so she didn't have the slightest fear.

Children don't know how to distinguish between good and bad, they just feel that they wear the same clothes as the fathers and uncles they know, so they are not afraid.

The man was vicious, holding the child while holding the knife, but the child was smiling at the moment, thinking he was playing with them.

Qin Yuan couldn't wait for herself to sneak in first, and the red blood cell team followed behind. At this moment, she had already seen two men.

Qin Yuan's speed was very fast. He turned over and jumped in, and then threw the flying knife in his hand. The man walking behind was directly hit by the flying knife, and fell to the ground with a scream.

Seeing this scene, the people in front became more flustered and quickened their pace. At this moment, a man in the middle of the line took out a homemade soil shotgun, and was about to shoot, but was stopped by the woman.

"Are you looking for death, kid? What is this place? Once you shoot, we will all die here."

The woman knew that she couldn't run away, so she turned her head, but the child then looked coldly at Qin Yuan opposite.

"I'm telling you that it's best not to move around, this child is in my hands now! I want to see if your knife is faster or mine is faster."

The main reason is that it is used to practice calligraphy and oil, so there are a lot of pipelines. In this case, Qin Yuan can't guarantee that his throwing knife can directly knock down the woman, after all, there are too many obstacles in front of him.

"What exactly do you want to do? Don't make mistakes again and again. Putting down your weapons is your best choice now And is it that man who sent you here? If that's the case, I advise you to give up as soon as possible ."

Qin Yuan approached slowly, as long as he got closer, he could directly control the consciousness of these people and confuse them.

Unexpectedly, the woman at this moment was a little excited. She waved the dagger in her hand and said loudly: "You better not come here. Now I just want to see one person. If I meet my conditions, I will let her go."

For a while, Qin Yuan did not dare to act rashly, after all, the child was still in her hands, Long Xiaoyun and An Ran also rushed up, at this moment Qin Yuan made a gesture of raising his hand.

Qin Yuan originally thought that it was the man in the mask who did the trick, but after hearing the conditions from the woman, he was a little hesitant. If it was the man in the mask, he would never put forward such a condition.

And it's as if the woman doesn't even know whose baby it is.

In order to test Qin Yuan raised his hand and said: "Well, it's useless for you to catch a child. I can not only drive a car, but also fly a helicopter. If you want to leave, I can help you leave me and exchange this child."

Chapter 1092: systematic inheritance

Unexpectedly, the woman agreed, but the condition of her agreement was not to exchange children, but to let Qin Yuan pass by. Based on this alone, Qin Yuan was even more convinced that this person was definitely not sent by the masked man.

Just like that, Qin Yuan put down his weapon in front of them, and raised his hand to indicate that he didn't bring anything.

An Ran was a little anxious at the side, she said in a low voice: "Be careful, they have shotguns in their hands, if they shoot later, they will be in trouble."

"Don't worry, they are not stupid enough to shoot in this oil field. I will go and have a look now."

As long as Qin Yuan is sure that it's not the masked man and the others, he will instantly become confident, then basically there will be no problem, and he can definitely take down this group of people.

Qin Yuan approached slowly, and the people on the opposite side were also very vigilant. The three of them stared at him intently, and the woman held the child in her hands.

The child was very happy to see Qin Yuan, and clapped his hands to hug him, while the woman pinched the child viciously.

"Little brat, you'd better not move around."

In the next second, Qin Yuan made a movement of closing his eyes, and the child followed him, followed by three throwing knives, and instantly threw two throwing knives, and the two people next to him didn't care. Another throwing knife pierced directly into the woman's arm.

The team members behind were completely stunned. Qin Yuan's speed seemed to explode even faster than before, and he came directly in front of the woman in the blink of an eye.

Immediately afterwards, he grabbed the child and kicked the woman to the ground. When Qin Yuan made a move, the team members behind had rushed up quickly, and everyone controlled the woman.

But I have to say, as expected of Qin Yuan's child, in this situation, the child didn't cry, but just looked closely at the flying knife in Qin Yuan's hand.

An Ran quickly ran over and hugged the child in her arms. The child smiled and showed two small canine teeth, pointed at the knife in Qin Yuan's hand and said, "Daddy's knife is so handsome."

At this moment, Qin Yuan didn't care so much, he walked over and grabbed the woman. The woman's hand was bleeding, and she couldn't believe it, but she was subdued so quickly.

Unexpectedly, after a lot of questioning, the woman told the truth. It turned out that they were two groups of people, and the women were completely scapegoats.

No wonder Qin Yuan felt that something was wrong, because the murderer and their physical skills were completely different concepts. The person who killed the two soldiers in the car before was very professional and killed them with a single blow.

They are definitely well-trained, but looking at the three people who were killed by him just now, they are not only not vigilant, but also not good at skills. The most basic common sense is in the oil factory, and they even tried to shoot in delusion.

The woman was trembling with fright at this moment, and she was even more frightened to speak incoherently when she looked at the corpse next to her.

"How could this be? That person just asked us to take the child there, how could so many people be dispatched!"

It seems that the woman doesn't even know the identity of the child. Qin Yuan stared at her coldly, and then directly invaded her consciousness. It seems that the woman did not lie.

Later, the woman explained that someone gave them money and asked them to bring their children to the oil industry. Yes, someone came to support them. I didn't expect that this happened just after they came in.

As for the killing of the two soldiers, they didn't know at all, so they didn't dare to attack An Ran's parents outside, they just knocked them out and threw them in the car.

Qin Yuan was furious when he heard this, and directly punched the wall next to him. It seemed that the long guy ran away, so he said how could he know the route of his child so accurately, it seems to be the man in the mask .

He quickly pulled the child over and examined her carefully, but so far, he didn't find anything abnormal.

He has a powerful recycling system. He has checked everything from the inside to the outside, and there is nothing abnormal. That is very strange. What are these people doing with their children?

And she kept interrogating the woman. The woman told all the details. It seemed that she was really frightened. She didn't expect to bring a child to the oil factory. She didn't expect so many people to be dispatched.

The woman said that she really didn't know anything, but just received a call, and a person hired them and gave them 20,000 yuan, as long as they took the children to the oil factory.

The ice cream van also belonged to them. When the two men brought the child down, it was from a van, and she didn't even notice the license plate.

Others asked some details, the woman didn't know, Long Xiaoyun felt that Qin Yuan's reaction was a little too nervous, since the child was fine, but the things he asked were a little too detailed.

"Is there something you didn't tell us? And we are not just comrades in arms. Is there anything else we can't say?"

Qin Yuan looked at Long Xiaoyun and sighed silently. At this time, An Ran also walked in.

Long Xiaoyun hurriedly asked: "How is the child? Are you scared?"

"That's not the case. Now leave it to my parents. They have no problem in the compound."

At this moment, An Ran also felt something was wrong, because something was really wrong with Qin Yuan's reaction.

"Now let's tell the truth. There is no one else here. Xiaoyun and I are just the three of us. Do you still think we will say something?"

Qin Yuan sighed silently. He looked at the two people in front of him, and finally he could only tell about the masked man, but he didn't mention the system.

It's just that I have been harassed by this masked man recently, including the two previous missions, which were deliberately planned by the masked man to test him.

"So you guys know why I'm so nervous? That guy is elusive, and there's a huge organization behind him."

"Qin Yuan, you are really confused. Faced with such an important clue, why didn't you report it to the higher authorities?"

"Do you think the report is useful? I really tried my best, and no matter how I investigate, even I can't find out. If this matter will explode, it will only make things bigger and lead to panic."

Long Xiaoyun frowned, this is indeed the truth, even if Qin Yuan could not investigate the results, what's the use of reporting them?

"But it's not the way to go on like this. Why did they target you? Could it be revenge from before?"

Qin Yuan could only continue to follow her words, it was very likely that it was revenge, after all, he had offended many people, and he had wiped out so many organizations before.

"It's just that this time I really didn't expect that they would actually attack the child. It's all my fault. I should be more vigilant."

After figuring out the truth of the matter, An Ran breathed a sigh of relief. She was mainly worried that Qin Yuan would do other irrational behaviors. Since this was the case behind it, it was understandable.

"This time, there is no danger, as long as the child is fine, if that's the case, it's too dangerous for the child to go out, so it's better to stay with us."

The three of them are also discussing countermeasures. It is impossible to continue like this. Although they have been taking precautions, if the mask behind this is not removed for a day, the child will always be in danger.

Long Xiaoyun frowned and said: "I think so, no, first put the child in our brigade, I think our brigade is the safest, otherwise I don't feel at ease where to put it."

Although the child was born to An Ran and Qin Yuan, Long Xiaoyun completely regarded the child as her own, and she was really frightened today.

In addition, I heard what Qin Yuan said about the mysterious person behind it. With Qin Yuan's strength, there are very few things he said could not be done.

As soon as Long Xiaoyun said what he said, An Ran and Qin Yuan said in unison: "This will definitely not work."

"What do I mean you two? What's wrong with it? It's the safest place here."

"It's not like that, but my children can't be specialized. After all, we are an army here, so let people think about it."

Long Xiaoyun gave the two of them a blank look, "I think you two are worried too much, what's wrong with that? I'll go to Team Gao and tell them, besides, how much contribution you two have made to the country, this little thing is just to ensure the safety of the child, shouldn't it?"

Before Qin Yuan could stop him, Long Xiaoyun had always been a hot-tempered character, so he walked out directly.

An Ran was also a little helpless, although he felt that their Special Operations Brigade was indeed a safe place, but it might really be inappropriate for the child to stay here.

After all, it is really a bit too special, but looking at Long Xiaoyun's attitude, it cannot be refused.

When did he feel that the masked man was coming for him, and he didn't protect the child well, he blamed himself a little and frightened everyone.

He kept apologizing beside him, but An Ran comforted him instead, "You have done well enough, besides, you are the one who saved the child."

At this time, An Ran suddenly mentioned one thing, "But our child is really brave. Under such circumstances, he didn't even cry from fright. I really admire it."

"It seems that our personalities have not changed at all after following us. Such a small courage is so big."

"However, I heard my dad say that this kid is very skinny. Last week, he climbed directly onto a 2-meter-high wall. He didn't know how to get up. My dad didn't pay attention at the time."

An Ran was just talking casually, just talking about the child's daily life, but Qin Yuan's eyes widened unexpectedly. This is not a joke. You must know that the child is only three years old, how could he climb the 2-meter training wall?

"An Ran, this is true."

"Can I still have a fake? I didn't believe it before, and even my mother said it later. My mother can't lie, but I thought about it later, maybe some soldier picked her up to play."

This kind of possibility is relatively low. After all, who carried the child to the 2-meter-high training wall to play and left alone. Qin Yuan suddenly had an idea, the gene that the masked man had been talking about before.

Will the child also carry his own genes? So this is the real purpose of the masked man, he just wants to experiment.

An Ran was still muttering next to him, Qin Yuan ran out directly, saw the child playing on the playground, and immediately hugged him up.

Dad smiled and said beside him: "You can be regarded as a boy with a conscience, and I finally think of your daughter."

Qin Yuan smiled embarrassedly, and then found an excuse to take the child to the training ground behind.

He just wants to experiment now to see if his child has a certain system, can this system still be passed on genetically?

He is holding the child, and it is a rock climbing rope net, which is relatively difficult for some recruits, because the test is about the strength of the arms.

Qin Yuan pointed to the rope net and said to the child, "Of course, can you climb up to this?"

Unexpectedly, the child squatted on the ground and played with mud, "I don't want to climb, I'm tired."

Qin Yuan was wondering if he was thinking too much. After all, a three-year-old child might have been just an accident before.

At this time, a butterfly flew over and slowly landed on the rope. The child was very happy when he saw it.

While pointing at the butterfly, he walked over excitedly, pulled the rope, and climbed up directly like this unexpectedly.

Not only did he not have the slightest fear, but he was also very skillful in his movements. He climbed up completely in a short while, and then wanted to reach out to catch butterflies.

What followed was a scene of astonishment that Ruanyuan saw. In order to catch a butterfly, the child hung upside down with his legs hanging on the street of God and stretched out his hands to catch the butterfly.

Qin Yuan's eyelids twitched in fright, and he subconsciously stretched out his hand to pick up the child, but the child was so teased that he giggled and laughed, but was very happy instead.

Qin Yuan also climbed up and looked at the child, who was able to hold on to the grid with one hand, "However, tell Dad, how did you do it?"

The child didn't know how to answer, but just said: "I don't know, I just want to climb, and then I went up."

At this time, Qin Yuan's system issued a notification tone, because his system was still being upgraded before, so it was in a shutdown state.

"Ding! Remind the host to detect that there is a primary system, and it is the same as the system of the array itself!"

Qin Yuan gasped when he heard this. He stretched out his hand to touch the child's head, and then asked the system to analyze it. Unexpectedly, it was indeed detected that the child had the system.

And it is also a recycling system, but it is in the initial stage now, and it will not have much powerful effect. Only after the system is gradually upgraded, the functions of the system will gradually be displayed, and the recycling will only be possible after the array grows Happening.

Now Qin Yuan is not surprised anymore, no wonder a three-year-old child can climb such a high knot, because she is a system with a system, and she may have opened a certain ability unintentionally.

Qin Yuan didn't know whether to be happy or sad about this matter, after all, for the child, he really didn't know whether it was good or bad.

At this time, An Ran came to look for the child, and saw Qin Yuan sitting on the high grid with the child.

Chapter 1094: Find Boss Kim

Although the two sides are not very familiar, after all, they have both been on the battlefield together, and they are not from their own team, but they still have feelings.

"Dahei is a nice guy, very righteous, but because his parents died early when he was a child, he can only work as a mercenary to support his sister."

"What's going on here? When was the last time he went on a mission? Did his sister say anything specifically?"

While the two were discussing, Qin Yuan also followed and listened to a few words. It turned out that Dahei and his team, a total of seven people, disappeared during the mission.

But the lives of mercenaries like them are worthless. They may have been attacked by previous enemies or escaped during the mission. Many things are uncertain, so the people below don't care at all.

Dahei's younger sister said that her brother would definitely not run away, because his parents were sick and died before, and they signed a lot of money, and her brother would be a mercenary to pay back the money, so how could he leave his sister and run away for no reason? None.

Dahei's younger sister really found a lot of people and traveled to many places, but in their place, there are too many mercenaries like this, and no one cares about the life and death of a mercenary.

In the end, Dahei's younger sister had no choice but to write a letter and send it to He Chenguang. It took half a month for this letter to arrive here from them.

He Chenguang couldn't help but sighed beside him, "If his sister hadn't had to, she would never have written a letter to come here, but it's been half a month now, so I don't know how the situation is going."

"Don't worry, try to find a way to contact his sister. Maybe it's been so long now, and the person has come back."

Listening to what Qin Yuan said, He Chenguang nodded. He remembered that the two of them did leave a phone call before, but he didn't know if they could still get through.

When he called, after a long time, someone finally answered, but he didn't expect it to be Dahei's younger sister.

He Chenguang asked some more about the recent situation, and only then did he know that Dahei hadn't gone back from the beginning to the end, his whole body seemed to have evaporated, and his seven team members didn't go back either.

Just when everyone was analyzing where Dahei could go, the emergency assembly number rang, and everyone couldn't care so much, so they had to go out first.

Unexpectedly, the mission Gao Shiwei mentioned was similar to that of Dahei. Several batches of mercenaries had disappeared in the border area of country F, and they were all in a small team, missing one after another.

At the beginning, no one cared at all, after all, mercenaries like this are too common, but as the number of missing people increased, everyone began to pay attention.

And the people above are even more eager for these people to disappear. After all, they have waged wars in various places and disrupted the normal life of those people, but this is only a small part.

Most of the people became mercenaries because of the pressure of life. Under the suppression of such public opinion, the authorities above had no choice but to send teams to search and investigate the truth of the matter.

Originally, this matter was not under the control of the red blood cell team. This time, one of the purple mercenaries was an undercover agent on this side, and they disappeared together.

Qin Yuan was a little strange. He took the information and asked, "What's going on? Why are all the undercover agents inserted into the mercenaries now?"

"When there were some criminals at their feet, there was a criminal organization. They were composed of mercenaries, so our people were also inserted into it. Unexpectedly, they disappeared like this. Now a week has passed, and no one is there. turn up."

But they can't reveal the real purpose, they can only show humanitarian care in name, but in fact they must find that team member to protect the safety of the team member.

Qin Yuan looked at the information. The name of this team member was Wang Zhi. He was a young man in his early 20s. He had just been undercover for three months and collected some basic information. He disappeared unexpectedly.

Without further ado, they set off immediately, and they must find Wang Zhi quickly.

On the plane, He Chen also said directly: "Brother Qin, do you think the disappearance of these mercenaries was caused by the same group of people? After all, Dahei also disappeared."

"We haven't investigated this matter yet, and we don't know the details, but don't worry, since we have encountered Dahei, we will definitely take care of it."

He Chenguang was very moved. He said it casually at the time, but Qin Yuan kept it in mind. After all, he said that his brother's affairs were his own affairs. In addition, Dahei did not do anything bad.

"Don't worry, when the time comes, find our team members first, and if Dahei is concerned, we will also investigate together. After all, they are all in the same area. I suspect that they are very related."

After Qin Yuan finished speaking, he handed over the specific information to the team members so that they could familiarize themselves with it as soon as possible, mainly to see the routes of these missing mercenaries.

Looking at it this way, the area where they disappeared belonged to the junction of country F and country H. There was a border line full of violence, blood and various transactions.

The mercenaries also hang out in this place all the year round, so there are all kinds of wars there, and everyone fights for the territory and fights bloody.

Later, the three giants completely monopolized the resources there and began to carry out standardized management. Although it is said to be standardized management, it is actually each occupying one side of the land.

However, the so-called peace is only on the surface, and there are still various disputes in private. It is not surprising that the mercenaries disappeared here at first. After all, there are too many people who come here to fight and kill.

So when Qin Yuan and the others came here, some of the mercenaries turned around and ran away when they saw them, while others stared at them vigilantly, because the marks on their bodies were a deterrent in itself.

A few mercenaries in uniform were sitting in the pavilion playing cards in front of them. Qin Yuan walked up to them and looked at them, then asked directly:

"Which organization do you belong to here?"

"Hey, sir, what are you trying to do? We shouldn't break the law playing cards on this site, right? If you want to control it, it's impossible to control it so broadly."

After the man finished speaking, there was a burst of laughing and joking around. It seemed that these people didn't pay attention to Qin Yuan and the others. After all, there is no rule of law in this place.

Qin Yuan smiled, and then quickly threw the flying knife in his hand. Before the man could react, the poker card in his hand was cut into two halves.

As soon as the masculinity didn't come out, he threw the cards on the ground, picked up the gun next to him, "Stinky boy, this place is where you can come and play wild, let me tell you, they are

afraid of you, but I am not afraid, anyway, every day will be difficult." It's the day of licking blood on the knife's edge."

But just as he picked up his gun, Li Erniu shot behind him. Li Erniu's marksmanship turned quickly and quickly, knocking off the helmet on his head on the spot. In an instant, everyone around was quiet.

"Don't move, answer our captain's question honestly, or the next shot will hit you directly in the head."

Everyone looked at the equipment on their bodies. It was completely composed of a special warfare team. The people behind were carrying heavy rocket launchers, as well as assault rifles, sniper rifles, and assault rifles.

And there are also equipment such as blasting grenades hanging on their waists. For them, they are indeed very sophisticated.

Although the man was frightened, he was still a little unconvinced and said: "I said that your management is too lenient. This is not your country of Yan. Do you still want to control it here?"

Qin Yuan snorted coldly, then looked at the man and said, "I'm not interested in your nonsense, I just want to ask, do you know this person?"

Qin Yuan took out Dahei's photo, because he wanted to protect the safety of his team members, so he could use Dahei's name to inquire about the whereabouts of their team members.

It is mainly Dahei, but it can also be used as a good cover. The man next to him looked at it, "I thought who it was, isn't this the hired team that disappeared a while ago? He is from Boss Jin's side." It's not about us."

"Who is Boss Jin? I'll go find him."

The man pointed to the southeast, where there was a tall building, and the reflection of the sniper scope could be seen from a distance.

"Boss Jin is over there. If you have the ability, go to him. Why make things difficult for us."

This guy really has a tough mouth, but these people are hob meat, so they are not afraid at all.

Just like that, Qin Yuan and the others set off to find Boss Jin, "Don't blame me for taking advantage of my identity as Dahei, after all, we can still protect our team members for safety."

Because Qin Yuan discovered that this **** and their undercover member belonged to the same employment organization.

So you can use the name of Dahei, after all, in this case, protecting your team members is the most important thing.

On the other side, Boss Jin was really drinking red wine in the office, and then watched his subordinate bring up the goods that had just arrived this week.

"This batch of goods is not bad, let's sell them as soon as possible, and take the previous route."

"Boss, it's just this batch of goods. The other party only gave us two points this time. He said that the purity of our goods did not meet their requirements."

Boss Jin was a little angry when he heard this, and he frowned slightly, "It's all **** excuses, I'm such a pure product, and they still think it's not pure enough, so just uproot it and give it to them."

When Boss Jin got angry, one of his subordinates walked in, and said in a low voice: "Boss has a team from Yan Kingdom, and it feels like we are approaching the front. What should we do? Should we intercept it or?"

"Yan Guo's team, what's going on? I haven't provoked them recently, or someone else provoked them, and I blamed it on me."

Because Qin Yuan's red blood cell team launched a huge operation before, Yan Guo's team also became famous for a while.

Boss Jin hesitated for a moment, thinking that he should not be tough with them, after all, if he angered those guys, his place would not be able to withstand their attacks.

"Forget it, let's put them in first, and then bring them to the living room to see what they mean."

"Yes!"

At this moment, Qin Yuan and the others were also approaching that area, power grid lines had been pulled up around them, Shangxian still had two sentry posts, Qin Yuan saw snipers from a distance.

"It seems that these guys are quite professional. The position of this sniper is really good, but it is also easy to be headshot."

After finishing speaking, he turned his head to look at Qin Zhengyang and asked, "Zhengyang, if you are asked to play those two snipers now, which position do you think is suitable?"

Qin Zhengyang took a look, then took a few steps back and stood on the right side, "This place is pretty good, and there is cover, I can evacuate after the fight."

The people next to him laughed loudly when they heard this, Qin Zhengyang was confused, what's going on? Did he say something wrong?

After all, Qin Zhengyang has just arrived, so Qin Yuan will often test him, "Listen to what your brother Niu said first?"

Li Erniu said proudly from the side: "Your position is really good, but we will not evacuate. Our general way of doing things is to cut grass and roots. After we finish fighting the two snipers, there are still two important people downstairs." Machine gun points can also be solved."

At this moment, the two snipers opposite saw the people below in the sniper mirror, and gestured at them, but their boss had explained that they must not shoot and welcome them in.

Qin Yuan didn't have the slightest fear either. He had come to this position anyway. If those guys were going to shoot, they would have fired a long time ago. Sure enough, the door opened just as he walked past, and a man came out and looked at them with a smile. .

"Brothers, our boss is already waiting for you inside. He said that you may have something to discuss with us, so he is waiting in the living room."

This guy's attitude is quite polite, Qin Yuan is quite satisfied After entering, Qin Yuan took a look around, there are mercenaries on duty everywhere, and their equipment is also very good.

The few mercenaries who played cards there before felt like a motley army, but here their weapons and equipment are very formal.

In addition to the two machine gun points outside, there are other secret whistles inside, and with their lurking skills, Qin Yuan spotted them at a glance.

In this way, under everyone's gaze, Qin Yuan and the others came to the living room. There was a slightly fat man sitting on the chair in front of him. The man was Boss Jin.

When Boss Jin saw that it was Qin Yuan, his eyelids twitched. Of course he knew Qin Yuan's reputation. One of his opponents was led by Qin Yuan to wipe out before, and it seemed to be their team.

So he spoke ahead of time, "Captain Qin didn't expect that my place would be worth your visit. I don't know why, or that some brother on my side is ignorant and offended you."

This guy's tone was full of awe. After all, he knew Qin Yuan's methods very well, and these people here probably weren't enough for him to beat.

Chapter 1095: wait and see

Qin Yuan looked at Boss Jin in front of him, and he was considered a sensible guy, "There is nothing else going on here, but a friend of my brother was working as a mercenary with you and then disappeared."

Boss Jin must have known about this, but at this moment he pretended to be shocked, "What! I still have such a thing to do here, it's impossible, why don't I know anything about it?"

"Don't be so anxious, I'll show you the photo of my brother first."

"Okay, Captain Qin, don't worry, as long as it is related to you, I can help you with anything, as long as I know, I will tell you."

Although Boss Jin is smiling at the moment, it is uglier than crying. After all, he has so many heavy weapons in his hands, a well-equipped special operations team, and Qin Yuan is here with the prestige of killing ten, how dare he Don't you listen?

The moment he was shown the photo, Tian recognized that this person wasn't Dahei? It was true that he had been missing for almost a month or two, and he couldn't remember how long it was. After all, these guys were nothing to him.

"Captain Qin, is there anything special about this person to you? He is indeed a member of my team, but you see, I have too many people in my head, and I can't manage it at all."

"It's like this. We also know his sister. Since her brother is gone, please let us look for it, so I want to see if you have discovered anything recently."

Boss Jin heaved a sigh of relief when he heard this, as long as he didn't come to make trouble for him, he could do anything, just looking for someone, it should be fine, he said hello, and a man walked in from outside.

"Go and tell the brothers below. If you have any clues about Dahei, or what happened that day, you can come and report to me."

"Okay, boss!"

The men didn't dare to delay too much, after all, their boss was submissive in front of Qin Yuan, so he hurried out, and it didn't take long.

Two other people came in. These two people belonged to the same team as Dahei, but one team was divided into two teams.

The man looked at his boss, but he didn't dare to say anything more. He could only tell the truth, "Dahei and his team went there to make a deal that day."

When Boss Jin heard this, he immediately became unhappy, patted the table and stood up, "Can you guys talk? What do you mean by trading over there? I obviously asked you to patrol over there, don't you Talk nonsense to me."

Instantly understood, he trembled in fright, "That's right, I'm used to talking like that, they were going to patrol the Jinsha River that day."

Unexpectedly, Qin Yuan didn't buy it at all, he glanced at the man next to him, "Just tell the truth, besides, I'm here today to investigate, not to investigate your matter, what you did before has nothing to do with me, I now Just want to hear the truth."

The boss Jin next to him sighed silently. Anyway, Qin Yuan can't be fooled. If this guy is in a bad mood and really does something to him, it's better to tell the truth.

Boss Jin waved his hand, and the man quickly told the truth that Dahei and his team were going there for a transaction, and they disappeared together, as well as a cooperative shareholder on their side.

The reason why we chose the Jinsha River is because the river itself is independent and extends in all directions. Everyone walks on waterways, so it is not easy to be caught by others. They deliver the goods with one hand and pay with the other.

Unexpectedly, after Dahei and the others went, they did not come back. Then Boss Jin thought that the shareholder had swallowed the money, and later found out that the shareholder was also missing.

However, Boss Jin was originally in business, and he always felt that the shareholder swallowed up the money and left with his team.

Boss Jin also sent people to investigate, but there was no trace, and then another team disappeared. This time, the missing team was Wang Zhi's team.

No other clues were found, and the man told the truth, "Actually, when Dahei and the others disappeared, we also felt strange, and when they disappeared along with our other team, I thought it must be the enemy who came to look for them." Hatred."

"Oh, then which enemy do you think it is?"

The man shook his head. He was not sure about this one. After all, there were too many people robbing business in this area, and he didn't know who did it, but these people were all dead.

Boss Jin also added in passing, "I think it must be the white label on the opposite side. This guy has never dealt with me from the beginning. It is because we occupy more territory than him that we will attack them."

Qin Yuan didn't care about these things. He just asked about the specific circumstances of the disappearance of these teams. After all, not only mercenaries disappeared on their side, but several other bosses also disappeared.

According to the analysis of this situation, it is unlikely that the enemy seeks revenge. If the enemy seeks revenge, there would have been corpses or a fight, and they would not have disappeared for no reason.

After all, it is meaningless for these guys to kidnap these mercenaries. What they need is to teach each other a lesson, so it is not seeking revenge at all.

Qin Yuan asked some other clues. For the specific situation, he had to go to the missing place to have a look. Boss Jin was all smiles.

"Captain Qin, these businesses I do are all clean businesses. I have never touched those things. Our transactions are some local antiques, which are definitely legitimate channels."

Qin Yuan also smiled, the reason why Wang Zhi'an was inserted was to collect evidence of this guy's crime, which even he wanted to avoid legal sanctions.

He has always been active in the border area, and now he has come here, and he is trying to use other behaviors to cover up his crime.

As long as Wang Zhi has the evidence, this guy will definitely not be able to escape, so now the most important thing is to find that team member, and it will only be a matter of time before this guy is dealt with.

If his business is really that clean, there is no need to be so flustered, and whoever does serious business brings so many people.

Boss Jin is also a shrewd person. He took a cigarette and walked forward with a smile, "Captain Qin, this matter is also my negligence. After all, it is mine. I didn't take care of it. Don't worry, my side Send someone to look for it immediately."

Qin Yuan didn't pick up his cigarette at all. This guy is really hypocritical. He has been missing for almost two months. It would be useless for his mobsters to look for him.

Qin Yuan led the people out and walked out. The cigarette in Boss Jin's hand was held up in the air. He didn't feel embarrassed and lit it up.

"Hey, Captain Qin, what's the matter? Tell me again, and I will fully cooperate here."

Qin Yuan waved his hand to show that he understood. After Qin Yuan and the others walked out completely, Boss Jin laughed, with a hint of sternness flashing across his face.

"It's his grandma, if it's not because I'm afraid of this guy's strength, why should I be so humble? Today's backbone is really aggrieved!"

The man next to him also stepped forward, "Boss, this place is outside, otherwise, if you give him a good meal, does he really think he is in Yan Kingdom?"

Unexpectedly, Boss Jin suddenly became angry, and slapped this subordinate on the face, "Idiot, what do you know? This person must not move. His strength is beyond your imagination. Before, my opponent had a He took care of all the military bases."

The man's face was shocked when he heard this. With his small team, he actually directly made a military base of his own.

That's why Boss Jin was so humble, and he did send someone to ask everyone to find Dahei together.

"No matter what, find out this ***** as soon as possible. It was this guy who provoked Qin Yuan, and I also told my brothers to be careful and not to ship."

The man nodded, and then retreated silently. At this moment, Qin Yuan had arrived at the bank of the Jinsha River with the members of the red blood cell team.

There are indeed transactions here, and many criminals are conducting transactions here. From a distance, three or four ships can be seen floating on the Jinsha River.

There were a few mercenaries holding AKs standing on it, they were not afraid at all, after all, there were too many people appearing in this place.

He Chenguang stepped forward solemnly and shook his head, "It's been two months, and all the traces here have been cleaned up, and there is nothing. Besides, we can't find anything."

"Of course we didn't come here to find any traces. After such a long time, I certainly knew that nothing would be found. We came here to wait for the rabbit."

Qin Yuan came here to observe the environment. He wanted to use himself as a bait, but he wanted to see that so many mercenaries disappeared here in a row.

So he also wants to use himself as a bait here, and then appear immediately, but the clothes they are wearing now are too conspicuous.

Just like that, they changed into an ordinary uniform, and they couldn't see any difference from those ordinary mercenaries under the moonlight.

"We are waiting here today. I want to see who understands these mercenaries, and according to the development of this situation, they should come here to find someone."

Qin Zhengyang couldn't understand it. After all, in his subconscious mind, he always felt that these mercenaries should have offended the opponent's enemies and were silenced.

"Brother Qin, can we really defend the enemy here? Why do I feel that there is little hope?"

"Don't worry, listen to me absolutely right, these people are not ordinary disappearances, because no one cares about people like them."

The more people like this, the more they can give others a chance to attack, Qin Yuan is more and more convinced of his own judgment.

Qin Yuan always felt that he was inseparable from the masked man. This guy has always been mysterious. Could it be that he is doing experiments with someone else?

Although such an idea is a bit groundless, it cannot be denied. After all, these mercenaries disappeared like this for no reason, which is indeed quite strange.

In this way, Qin Yuan and the others disguised themselves as ordinary mercenaries and started to guard on the Jinsha River, mainly pretending to be a transaction.

Qin Yuan has always been vigilant. After all, although these people are mercenaries, their strength is not bad. Being able to take these people away like this shows that they are also very capable.

There were a lot of people trading in the first half of the night, and basically there were no people trading on the entire Jinsha River in the second half of the night. At this time, there was a sound of an electric motor boat.

And the goal of this electric motor boat is very clear, it is coming towards Qin Yuan and the others.

"Everyone, be vigilant and pay attention, someone is approaching us."

Qin Zhengyang was really surprised. He didn't expect Qin Yuan to be able to say so many things accurately. He said that he could defend the enemy here, and he really did. After all, they stopped here in the middle of the night, and the purpose of this ship was indeed true. It is clear.

Qin Yuan had been standing on the deck, staring vigilantly at the approaching ship. The ship stopped beside them, and a bald head came out.

After the bald head came out, he said hello first, and then took a few cigarettes directly. This guy was very generous, and he threw it on the deck directly, and did not have direct contact with Qin Yuan and the others.

"What do you mean? What do you want?"

"Brother, don't be so nervous, I'm trying to find a way out for you brothers."

Qin Yuan smiled, and Li Erniu next to him was also very knowledgeable, and quickly picked up the cigarettes. When he saw this scene with his bald head, his expression changed. After all, it was like fishing, and the fish had already been hooked.

Qin Yuan pretended not to understand what he meant, and then said: "If you want to talk about business, then go and talk to our boss. It's useless for you to talk to me here."

"Brother, it's meaningless for you to say such things. Of course, the business I want to talk about is to talk to you. You ask, think about it. How much money does it get, let the boss take the big head."

What this guy said was sincere, and he also showed Qin Yuan and the others that he was not armed at all, and two women came out behind him.

"Brother, look, this is my sincerity. If you are willing to follow me, these two women still have countless money to give you."

It seems that those mercenaries were deceived by this guy in this way, because the temptation is indeed great. First of all, he said that he wanted to make money. The purpose of these mercenaries was to make money.

"I'm not very interested in these, but how much money can you earn? I don't need to betray my current boss for a little money, right?"

Looking at Qin Yuan with a bald head, this guy is really smart, "To be honest, I'm just here to poach people, but if you are willing to follow us, I will pay you three times the price you pay here."

This is indeed very tempting, and the bald head also took out a box of gold bars from the nearby shipyard and threw it directly on the deck.

Chapter 1096: enter the laboratory

"Brothers, I know that you are all looking for money, so if you can double your money in another place, why not make a better choice?"

Qin Yuan looked at the gold bar, and then made a greedy look, "It's just that I don't know which boss you are following here, what are we going to do, at least let me know a little bit about it, otherwise we will The boss on the side is not a vegetarian."

"That's right! Our behavior is equivalent to betraying the boss. If he finds out, the consequences will be disastrous."

He Chenguang also spoke in the back pretending to agree. At this time, the bald man in front smiled.

"Don't worry, they won't know, because the people behind us are stronger than any boss here. As long as you are willing to follow me, I guarantee that you will be popular and hot."

The bald head snorted coldly, as long as Qin Yuan and the others follow him, no one will know in this life.

The bald head is very confident, because the conditions he offered are very big. He used this method to poach several groups of mercenaries who offended recently, so no one heard the sound of fighting.

Use this method to attract them first, and everyone boarded the boat on their own initiative, so there is no dispute.

In this way, Qin Yuan and the others sailed into the Jinsha River with the bald head. The whole river was very calm, there were no other boats, and they didn't know where the bald head was going to take them.

Qin Yuan looked around, his hearing was very sharp, he had already heard several boats approaching here.

"You all will pay attention later, watch my gestures and actions, don't act rashly, and talk about it later, so as not to startle the snake."

Everyone understood that just like this, they left the range of the Jinsha River and reached another branch of the river. At this moment, several small boats suddenly appeared.

After those small boats came out, they surrounded Qin Yuan and the others. When Qin Yuan came out and saw the situation, he couldn't help asking:

"Brother, I said what do you mean by this, what do you want to do?"

"Relax, don't be so nervous. After all, you are going to enter our side, so you have to undergo routine inspections. I also hope that all brothers will hand over all the money. Don't worry, there will be absolutely no problems."

"Hehe, it is absolutely impossible to hand over the gun. This gun is our life. How can it be handed over?"

Unexpectedly, the bald head suddenly changed his face at this moment, and the people on several other ships also rushed onto the deck one after another. They all held submachine guns in their hands, and suddenly aimed at Qin Yuan and the others.

"I said you'd better not make those stupid decisions. We are several times your number now, and it's not good for you to do it in this place."

Seeing this scene, Qin Yuan pretended to be surprised and said, "What are you trying to do? That's not what you said before."

"Of course I'll take you to a good place, but before that, you must hand over your weapons, and from now on, it's up to me to decide."

Qin Yuan made a gesture, signaling to everyone to hand in their weapons first, and then enter their lair first.

The bald head was very satisfied after seeing it, and he said with a smile: "Yes, it will be over if this is the case. Blind resistance is useless, just like the group of people who resisted here a few days ago. The corpses have long been thrown away by us." Go down and feed the fish."

Qin Yuan frowned slightly when he heard this. He wasn't sure if it was Wang Zhi and the others who were there a few days ago. He was very worried about the safety of that team member.

But now they can only take one step first, and that's it. They handed over their weapons and went ashore under the leadership of the bald head and the others.

After going ashore, everyone walked through a forest and finally saw a base. This base had similar equipment to those of their previous bases. It had all the heavy weapons and people on guard.

The bald head didn't go in, but just chatted with the people inside, "We have to change places, or we have to wait for a few days, so many people have been contacted and disappeared, I'm afraid they will pay attention to it."

"No one cares about the lives of these people. I just took this opportunity to recruit some more people for me. Anyway, the benefits are indispensable to you."

After the man on the opposite side finished speaking, he handed over a box of money to the bald head, and the bald head left with a smile, ignoring Qin Yuan and the others.

Before leaving, the bald head looked proud, "Brothers, I wish you good luck!"

At this moment, he saw that Qin Yuan and the others did not resist at all, and thought they were resigned to their fate. In fact, Qin Yuan was just waiting for an opportunity. Even if he was empty-handed, these people in front of him were not a threat to him.

The people around escorted them into the base. After entering, Qin Yuan found that it was more like a prison.

There are a lot of people on guard, and there are plenty of lights here. Although it is night, there are lights all around, and there are surveillance cameras, so there are no dead ends.

Qin Yuan and the others were brought into a long corridor. There were rooms on both sides of the corridor, and no one spoke during the whole process. Qin Yuan couldn't help but ask, "Brother, what's going on with you? What did you bring us here for? "

"Boy, don't talk too much, you just need to feel at ease and go with us."

They couldn't ask anything, so they could only follow along silently. When they got to the front, Qin Yuan saw that there seemed to be people in the room on the side, and they were all mercenaries in uniform.

When did I search around, but I didn't find Wang Zhi, but there are many rooms here, maybe he was locked up elsewhere.

And this place is not so familiar. It is said to be a prison, but it is actually more like an experimental base. Qin Yuan is a little familiar with it, much like the experimental base that he destroyed when he found the masked man before.

Could this incident have something to do with the masked man? Qin Yuan frowned, if this is the case, then the matter is more serious, after all, the masked man is very cunning.

Qin Yuan and the others were taken to a room. The man who brought them looked at them with his hands behind his back and said: "You guys are indispensable if you just stay here to eat and drink, but it's best not to think about making any small moves."

"What on earth does this mean? Bring us here, what do you want to do? That's not what it said before."

Unexpectedly, the man let out a cold snort, stepped forward and punched Qin Yuan in the face, and the gun in his hand directly hit Qin Yuan's forehead. Seeing this scene, the team members next to him wanted to rush forward one after another. .

Qin Yuan quickly stopped drinking, telling the team members not to act rashly.

"Hehe, I really didn't expect that you, the team members, care about you as the captain, but I tell you, in this place, I am Wang Fa, and I have to follow my arrangements for everything, understand?"

Qin Yuan also just pretended to obey. As far as this guy's punching speed is at normal, Qin Yuan has already dodged it, but he was just showing weakness first, let them relax their vigilance, because many things have not been investigated yet, and many things have been done before. The previous time, the superior actually escaped, this time he must investigate something.

Seeing Qin Yuan's submissive attitude, the man was very satisfied, he put away his gun, "That's right, let me tell you, I just taught you a lesson, otherwise no one would know if I killed you in this place. "

"Brother, don't worry, I will definitely explain to my brothers, be obedient, and there will be no troublesome behavior."

"You're a sensible kid. Let me tell you, don't think about going out here, but I won't treat you badly. There are some things I can't tell you now."

Qin Yuan nodded and bowed beside him and guided the man to go out, only then did he put away his smiling face.

Qin Zhengyang hurried up to check the hurt on Qin Yuan's face, but Qin Yuan just smiled disdainfully.

"Hehe, just such a small character can't hurt me, he just wants to get some useful information, don't worry, I'm going to make a mess here tonight."

But the gates here are all locked from the outside, how can they get out? Moreover, the weapons have already been handed in, and there are surveillance everywhere outside, and there are people patrolling, so there is no way to escape.

Qin Yuan patted him on the shoulder and asked them to have a good rest tonight, "Let me do these things. Your responsibility is to stay in this place well, and I will give you a password."

He Chenguang and the others have been cooperating with Qin Yuan, so they have long been used to it. They stretched out and slept directly on the bed next to them. I have to say that the conditions here are really good, and the upper and lower bunks have a lot of space.

Through the chatting of the previous few people, Qin Yuan learned that those mercenaries were all captured here, and from what they said, they should be doing some experiments.

In another hour, it will be dawn, and this time is also the best hands-on driver, because at this time, people are also the most tired.

Qin Yuan came to the position of the door, Qin Zhengyang heard the movement, opened his eyes before he could react, he saw Qin Yuan unlock the door directly, he didn't know how he did it, and then Qin Yuan stepped out , the door is also closed.

This was simply too surprising, he couldn't believe it, and he was able to open the door lock from the outside, which is too exaggerated.

At this moment, Qin Yuan came outside. He tried his best to stick to the door to avoid the first wave of surveillance. Then, the poker cards in his hand flew out, instantly destroying the first surveillance in front.

At the moment, the staff in the monitoring room didn't even notice that everyone was dozing around.

After Qin Yuan destroyed the monitoring in this way, he walked up and down freely, and there were two patrolling personnel on the side, smoking a cigarette standing at the entrance of the corridor.

The two of them didn't know that the danger was approaching. The flying knife in Qin Yuan's hand flew out in an instant. In an instant, blood pierced the tranquility.

The two fell into a pool of blood. After a while, Qingyuan came out with the key. He checked one by one, first to find Wang Zhi.

But he searched all the rooms here, but still did not find Wang Zhi, so Qin Yuan could only open the door first, and then ask.

"Who among you knows Zhao Yong?"

Zhao Yong was an alias he used to go undercover into this organization. At this time, a man standing behind said slowly: "Zhao Yong was taken out by them the day before yesterday, and he hasn't come back yet. I don't know what he did when he was taken out. "

It seems that he is still a step late, Qin Yuan can only pray that there is nothing wrong with Wang Zhi, and only hope that he is still in the laboratory.

Qin Yuan looked at the people in the room, and then said: "You better not act rashly now, I will come back to save you, otherwise you will only be shot if you go out now."

Of course these people knew that even if they escaped here, there were patrols with guns everywhere outside, and they couldn't get out at all, and they didn't have any weapons now.

Qin Yuan asked about other things, but did not find Dahei's existence, and according to what they said, Dahei and his group were the first to come in, and they had already been taken to the laboratory.

The man who spoke before should have come here relatively early, he looked at Qin Yuan, and said: "Anyway, people who come to this place will be sent to the laboratory after staying here for a few days, and then sent back."

"Did they say what experiment it was? Or did they say any relevant clues?"

The man shook his head. He didn't know about this, but through their discussion, he knew that everyone was sent to the laboratory, but they didn't know exactly what to do.

Qin Yuan told them not to act rashly, and went to the laboratory to have a look first.

At this moment, these people looked at Qin Yuan's back, and the man who spoke just now shook his head, "I think it's very dangerous for this guy to go out, and it's impossible for him to come back. There are so many people outside, and he is still holding a gun. Isn't going out looking for death?"

"It's hard to say. He is very skilled, and he can come out directly. Maybe he can really save us."

In fact, everyone still had a sliver of hope, and at this time Qin Yuan had already come out. As soon as he went out, he heard footsteps, and there were long corridors around him, and there was no place to hide.

Qin Yuan didn't panic just walked over straight like that, when the people on the opposite side found him, Qin Yuan's bewildering aura spread out, and the group of people was directly controlled by him.

In this way, Qin Yuan controlled these team members and led him to the laboratory, which still needs to swipe the card to enter.

The person on duty at the door of the laboratory looked a little strangely, "Wait, what are you doing? This is not the time to send people over."

Qin Yuan moved his finger and manipulated the person who took the lead in front, "We also received the order from above, let us detain people here now, you delayed the experiment inside, can you afford the responsibility?"

The guard man looked at it and found that Qin Yuan was indeed alone. Although he felt strange, he didn't say anything and let him go.

In this way, Qin Yuan successfully entered the laboratory. Because of the current time, the only one with lights on inside was a staff member in work clothes in the previous office. How could he control it on the computer.

Chapter 1097: Became soy sauce again

When Qin Yuan and the others approached, the staff member also noticed a little. He stood up, looked at the person in front of him and said, "What are you doing? Why did you bring people here so early before dawn? This is against the rules."

At this moment, Qin Yuan spoke from behind. He looked at the person in front of him and said, "Sit down!"

The man was talking just now, but suddenly his head was short-circuited, and he obeyed the order in an instant, and sat directly on the chair.

Looking at these familiar instruments, Qin Yuan was even more certain that the man in the mask was behind the controls to conduct the experiment. He looked at the person in front of him and asked directly, "Where is the person behind you?"

"Behind us are professors who assist our experiments."

The man just answered this question mechanically, Qingyuan frowned, and couldn't find any clues, mainly because the identity of the masked man was too special, and most people really couldn't remember it.

Moreover, his system also detects that no one around him has a system card. This kind of system card is very special, because he has to use so many people for experiments, and there are not so many people who can access the system properly. .

It was precisely because of this that he dared to directly intrude and inquire so boldly. If it had a system, he would directly execute the self-destruct procedure without knowing what the masked man had done.

"What experiment are you doing now?"

"Perform genetic system implantation."

Knowing this answer, Qin Yuan was sure, it was the guy with the mask who had really long hands, he didn't expect to attack these mercenaries this time.

Qin Yuan asked a few more questions, but this experimenter may be only marginal, and he is not clear about too specific things.

In this way, Qin Yuan entered the office. According to the experimenter, the office inside is where the research professor is, and there should be core secrets.

After entering the office, Qin Yuan looked at the computer and snorted coldly. These little tricks couldn't stop him at all. He has world-class hacking skills, and it would be too easy to hack.

After he successfully deciphered the password, he entered the computer system, and there were indeed backup data in it. This time it was clearer than what he found last time. They belonged to an organization called Celestial Body. The leader code of this organization is described by 01 .

This is the style of the masked man, he is so cautious about everything, they have a lot of experimental data in it.

The main thing is to analyze the physical conditions of these mercenaries. At first they used some civilians to do genetic tests, but the effect of the implantation was very poor.

Later, they thought it might be because of the physical condition of these civilians that they changed the mercenaries, but the experiment came, and now there are only the first batch of sent personnel, and their serial numbers seem to have some achievements.

There are no names on these materials, they are replaced by numbers, Qin Yuan is very worried, wondering if there is Wang Zhi in it.

The main thing here is some experimental data, and he also found that these experimental data have been continuously sent to another place, and the masked man is really very cautious.

Qin Yuan could only write down the coordinates silently, and then went to investigate later. It seems that the masked man has never been to this place, and this is just his experimental base.

There were no other valuable clues in the computer. After Qin Yuan came out, he went straight to the innermost room, which should be where they imprisoned those who were tested.

After walking in, he knocked on the glass, and a person got up from the bed. He recognized at a glance that this person was Wang Zhi. At this moment, Wang Zhi was like a robot, who could only execute orders mechanically, and walked slowly to the window. forward, and reach out.

It seems that this is their daily operation, they need to draw blood for identification, and then implant the system, but at the moment Wang Zhi's situation is very wrong, and Qin Yuan's system also issued a reminder.

"Ding! Remind the host that the other party has implanted the system, but it is in the process of fusion."

"What's the situation? Is this just their experiment? Or has the fusion been successful?"

"The current situation cannot determine whether it has failed, but I can remove the system and then recycle it."

Because of Qin Yuan's system, he got the meritorious service and upgraded it again, so his system has now been upgraded to the middle **** level system.

There must be no problem with this kind of absorption, so Qin Yuan directly let the system recycle it.

This is Qin Yuan's first time recycling someone else's system, and he doesn't know what's going on with the current system.

"Ding! Congratulations to the host for the successful recovery. The currently recovered system is a fusion system, and the host can also recover the functions of the system."

Fusion system? Qin Yuan quickly clicked to check. It turns out that this fusion system is mainly a technological system, which can fuse and regenerate other heavy weapons and light weapons.

The above introduction is like this, Qin Yuan has no time to experiment now, anyway, this system sounds pretty good, and now it has been transformed into its own function, becoming another subsidiary system of itself.

As Qin Yuan recovered the system, Wang Zhi suddenly came to his senses. He shook his head and couldn't react.

At this moment Qin Yuan walked into the room, Wang Zhi looked wary at him, "What are you going to do to me?"

"Wang Zhi, don't get excited, I'm here to save you."

Qin Yuan said Wang Zhi's number, and it was only then that Wang Zhi believed him, "Now let's find a way to go out, the others are waiting for us outside, let's meet them first."

"Wait, but this place is too mysterious. They all use heavy weapons. If you bring a small team, can we really go out?"

Wang Zhi still doesn't know what kind of experiment they are doing, but he knows that they have to draw blood for testing every day.

Qin Yuan also just found an excuse to fool him, telling him that a biochemical experiment is going on here, and the rest will be discussed later, and he is very glad that Wang Zhi was able to merge, but such opportunities are really rare.

And now it is only the initial stage of integration. According to the experimental data they gave before, many people began to have rejection reactions in the middle of the integration.

So Qin Yuan came in time, if he came a little later, Wang Zhi might have a rejection reaction, and it would be hopeless.

"As for other issues, don't worry, we are the red blood cell team."

Wang Zhi gasped when he heard this. He had heard of the red blood cell team, but he didn't expect that the red blood cell team was sent to rescue him in China. It was a great honor.

"Don't worry, no matter what, we will never leave our comrades behind. If you stay with us, we will definitely protect you back."

"I didn't expect you to be the red blood cell team. I've heard of your reputation before!"

This time Wang Zhi believed it completely, but when he went out and saw the soldiers standing in a row outside, their expressions were a little unnatural.

Qin Yuan said in a low voice: "Don't worry, these people are no longer a threat. I will take you to meet my team members first, and then you will come out after I have dealt with the outsiders."

Wang Zhi was a little puzzled when he heard this. He meant that he wanted to go out and deal with those people outside alone. How could this be possible? Those people outside are all armed with heavy weapons.

But now he couldn't refute, so he followed Qin Yuan to the place where they were detained before.

Qin Zhengyang was also very surprised to see Qin Yuan coming back and coming and going so freely without anyone noticing.

At this moment, Qin Yuan told everyone to protect Wang Zhi, and when he solved the outsiders, everyone went out together.

The others are used to it, and they are all on standby. At this moment, Wang Zhi feels more and more strange. Can he really do it alone?

Seeing that Qin Yuan didn't seem to be joking, and went out directly, Wang Zhi hurriedly asked: "I said you can rest assured, let your captain go out alone, there are not only heavy machine guns outside, but also snipers, isn't that right?" Are you messing around?"

"Don't worry, our captain is absolutely fine, and if we go out to tell the truth now, it is likely to drag him down."

He Chenguang was very clear-headed, because he understood Qin Yuan's ability very well, and soon there was a burst of gunshots outside. Wang Zhi was very nervous the whole time, and the gunshots were also very chaotic, with the sound of heavy machine guns and grenades exploding. sound.

Ten minutes later, there was a sudden sound of footsteps coming from the empty corridor, followed by a sound of messy footsteps, which made Wang Zhi completely anxious.

"It's over now. It seems that your captain is in danger. They should be coming this way."

But as soon as the words fell, the door was opened. The leader was Qin Yuan, followed by those mercenaries. Wang Zhi was completely stunned when he saw this scene. Qin Yuan appeared at the door unscathed.

"What are you still doing in a daze? Let's go, I've dealt with all the people outside, now you can just go out."

Wang Zhi couldn't believe it at all, but when he went out and saw the corpses on the ground, he was completely in admiration. It's too exaggerated for one person to kill so many guards outside like this.

He took a closer look at the corpses on the ground, all of them hit the heart without heart. The knife technique is fast, accurate and ruthless.

Qin Yuan led the team members, took these mercenaries out, and dismissed them all on the spot, but Dahei was not found. According to a mercenary, Dahei and the others were the first batch to come, and they should have been fierce. Dorje is less.

Moreover, Qin Yuan did not find the existence of Dahei in the laboratory, and it is very likely that he had been dealt with secretly because of the failure of the experiment.

Qin Yuan stepped forward and patted He Chenguang on the shoulder, "I really wanted to save him this time, but I tried my best, but I really couldn't find him."

"Brother Qin, I know. There's nothing we can do about it. After all, we found out too late. It's been more than two months. How could he still be there?"

In addition, Wang Zhi also has important clues in his hands, mainly the evidence against Boss Jin's crime. Now that Wang Zhi has found it, Qin Yuan doesn't have so many scruples. He took the team members and came directly to Jin Boss there.

This can be regarded as a big gift for them. After all, it will save people from other teams in the back to solve this trouble. Now that Boss Jin has been discovered, it is better to just take him away.

Originally, this task was assigned to the Thunder Assault Team, and they have been following up, including Wang Zhi, who was also an undercover agent arranged by their Thunder Team.

Thor, who was still in China at the moment, received a call. When he learned that Wang Zhi was safe, he was instantly relieved. After all, he had arranged for the team members.

But at the same time, he also received another order to directly pursue Boss Jin, because the evidence Wang Zhi possessed was enough to arrest him.

The Thunder Assault Team attached great importance to this task. After all, they hadn't performed such a task for a long time, mainly because most of the tasks had been taken away by the Red Blood Cell Team.

In addition, this is a transnational operation, and everyone attaches great importance to it. They are ready to go, and they have already boarded the helicopter.

Thor was very excited, and he began to arrange the subsequent combat deployment. Everyone has their own positions, and when the time comes, they will rush in and wipe them all out.

On the other side, Wang Zhi has completely witnessed what is called the real God of War. Qin Yuan rushed into Boss Jin's base holding a submachine gun, killing them indiscriminately. Li Erniu followed him, changing the magazines and throwing them away. give him.

In the end, he felt that the gun was too slow, so he used the throwing knife directly. Boss Jin didn't even understand how he was being targeted by Qin Yuan because he was so covert.

When the Thunder Assault Team arrived, no gunfire could be heard, but there were no soldiers standing guard at the door, so Leishen also felt very strange, what's going on? He repeatedly confirmed the coordinates sent, and it was indeed this location.

At this time, a group of people came out from the inside, and everyone quickly raised their guns, but Thor soon discovered that the people walking in front were not the red blood cell team?

At this moment, Thor understood a little, "Damn, how can I meet them everywhere? Don't tell me, they were preempted by their red blood cell team again."

"Captain, I think this is really the case, because Wang Zhi is also on their side."

Thor was about to vomit blood, he had carefully arranged for so long, and explained various plans, but it ended when he came.

At this moment, Qin Yuan stepped forward with a smile, looked at Thunder God and said, "Boss Jin is inside, and we have already controlled them. Just go in and take them back."

"Captain Qin, I really want to thank you. This task was originally given to us, but why did you appear here!"

It's no wonder that Thor is depressed, after all, he waited for a mission with great difficulty, and it turned out to be soy sauce.

"Oh, look at me, I do bad things with good intentions, mainly to solve your troubles, easy things."

Lei Shen's face was almost black with anger, but since this guy appeared, he really has become more and more worthless.

Chapter 1098: Basic Fighting for Kids

At this moment, Wang Zhi was full of helplessness. He really didn't expect that the speed of the red blood cell team would be so fast, and he would directly solve the people on Jin's side in a blink of an eye.

Lei Shen's face was dark, and even his own people were rescued. He walked over with an unhappy face, "I said, what do you eat? Why didn't you inform us in advance?"

"Captain, I can't help it. They were too fast. Before I could react, they were wiped out. Besides, their timing was really good at that time. If you wait for you to come..."

Now that the person has been dealt with, it is useless to say these things, Thor is also very helpless, he has prepared for such a long time, brought the person to nothing, and finally had to go in, and silently brought the person out.

Looking at Boss Jin with a disheveled face, Lei Shen was so angry that he kicked him on the back, "I said you are cowardly enough, there are so many people, give him a small team, ten minutes is not enough. Pack it up when you arrive."

Because Raytheon was worried that someone would intercept this situation, and he set off immediately after receiving the news. In less than half an hour, he came directly.

But it still couldn't match Qin Yuan's speed. Boss Jin was also very wronged at the moment. He knew that he would run away when he saw Qin Yuan, but he didn't expect Qin Yuan to really come for him.

This time Qin Yuan not only got a system ability, but more importantly, he also got 17,000 merit points, this time as a reward for killing these criminals.

Wang Zhi didn't know what happened. He didn't know that he had been implanted by the system.

This time Qin Yuan gained a lot. Apart from meritorious service, he felt that the best thing was to find that coordinate point, and he had to leave as soon as possible.

But now we have to bring the team back first. Gao Shiwei was very happy after returning. This time, he completed the tasks assigned by them ahead of schedule, and also completed the tasks of others by the way.

Qin Yuan intends to go to that coordinate point to have a look, but he is very entangled. Since all the sophistry has been quibbled here, it is estimated that the masked man behind him has also received the news, and the coordinates are probably of little significance.

At this time, Gao Shiwei stopped Qin Yuan, "Boy, didn't you tell me before that you wanted to take three months of vacation? This time I discussed with the higher-ups and decided to approve it, but you have to deal with it as soon as possible."

Qin Yuan's face was full of excitement, he didn't expect to actually agree, it's been three months, it's not a joke.

"Captain Gao! That's what you said, don't ask me for any other tasks at that time, because I will definitely have to do other things of my own in the past three months."

"I said you really have no conscience, brat, what are you talking about? Besides, if you have any difficulties, tell the team directly and let Xiaoyun lead the team to help you, although I don't know that you are a ***** Mysterious, what are you going to do?"

Qin Yuan definitely couldn't say anything about this, but said that the criminal was very mysterious and he could only investigate alone, so it only took three months.

On the other hand, he also wants to accompany the child well. In fact, the most important thing is the system ability of the child. He hasn't seen the child for several months, and he doesn't know what it has developed into.

In the next few months, the red blood cell team will be led by Long Xiaoyun for the time being. They basically have some tasks, and they are fine. After all, their physical fitness has been improved. no problem.

In this way, Qin Yuan packed his luggage and planned to go to the military compound to see his daughter first, and then go to the coordinate point to have a look.

It was only when Qin Yuan went to the military compound that he realized that An Ran's mother was ill. During this period of time, An Ran's father had to take care of the child and go to the hospital to take care of Anan's mother.

An Ran's side is currently undergoing closed training, and they can't get out at all, so they don't know what to do about it. This side is originally in the special brigade, and the situation is also special, so the two old people didn't say anything.

Qin Yuan also blamed himself very much. Their job is like this, and they can't take care of their family when they get busy.

He saw that An Ran's mother was fine before, why did she suddenly get sick? It wasn't until he got to the hospital that he found out that it was because the road was slippery in winter that the old man fell and broke his leg.

However, this was trivial to Qin Yuan. He used acupuncture to heal An Ran's mother's leg directly.

An Ran's father was full of surprises. After all, the doctor said that he would have to lie in bed for at least two months. He didn't expect to walk normally now without any problems.

"Hey, Qin Yuan, you still have a way. We almost forgot that you are good at medicine."

"Father, this is too outlandish. Besides, if my mother is injured, you should tell me immediately. Anran and I are too busy, and the children have to be taken care of by you. I really feel guilty for your injury."

"We know that you and An Ran are busy. Besides, this child is also our granddaughter, and we don't want to cause you any trouble."

An Ran's parents are relatively open-minded, and the old couple never complained about taking care of their children.

Qin Yuan originally planned to see the child, and he would go to the coordinates to check the situation first, but he was very happy to see the two old people, and knowing that Qin Yuan was on vacation, he felt that Qin Yuan should stay with the child more. Improve your relationship.

"This child, you are father and daughter after all, and you haven't seen each other for such a long time, you have to stay and spend time with the child."

"Yes, besides, you didn't take her to meet the child's grandma, did you?"

Speaking of this, I really feel guilty, because I wish that this place has always been busy, that is, when the child was born, Grandma Sun came to visit, because Grandma Sun also had so many children in the orphanage, she couldn't leave at all.

Just like that, Qin Yuan made a phone call and asked He Chenguang and the others to investigate that coordinate first to see if there was anything unusual there.

You can ask He Chenguang and the others to take a look. If there is nothing wrong, there is no need to rush there. After all, it has been such a long time, and the masked man must have noticed it a long time ago.

Sure enough, He Chenguang and the others sent news. According to the coordinates, there was indeed a factory, but when they went there, the building was already empty, and all the equipment inside was still there. It seemed that they left in a hurry. None of them moved away.

"Brother Qin, does this factory have anything to do with what you're investigating? Or should I send two brothers over there to keep an eye on it?"

"No need for this, I'll ask you guys what's going on later."

After all, the masked man is too cunning. If He Chenguang and the others follow rashly, they may encounter some danger. This guy is also ruthless.

After hanging up the phone, Qin Yuan decided that since there were no clues over there, it would be better to accompany the child first. The most important thing was that he wanted to accompany the child alone, and then check the system problems on the child.

In this way, Qin Yuan took the child to find Grandma Sun, and happened to be able to spend time with the child alone on the way.

It can be regarded as a vacation for the two old people. After all, the two old people have been taking care of the children since they were born.

This was also the first time Qin Yuan took the child out. The two old men reminded him ten thousand times, but the child was quite obedient. He sat obediently in the co-pilot and gave her a bottle of yogurt with an innocent smile on his face.

An Ran's mother was really worried. Although the child was obedient, would he be able to bear driving for such a long time?

"Qin Yuan, why don't I go with you? I can still take care of the child on the way. How can you bring such a small child here by yourself?"

"Mom, don't worry if I tell you, besides, I have brought so many people in the team. Is it possible that I can't bring such a small child?"

Seeing Qin Yuan's insistence, An Ran's mother didn't want to say much, so the two finally set off.

But halfway through the drive, on the expressway, the child started crying. After all, it took more than nine hours to drive from here. How could the child have been in such a long car, two or three hours? Not happy.

Qin Yuan's head got dizzy for a while, and he really tried his best. Of course, it was a child. How could it be possible to hear that it was time for three or four-year-old children to make trouble.

He was surprised, he was usually obedient in managing people in the team, plus he has so many skills, but now he can't get a child, and he can't confuse his own child, it's really bad to hand.

In the end, Qin Yuan had no choice but to drive the car to the village below, leave the car on the side of the road and walk with the child.

This kid is really weird, he doesn't want to get off in the car, he walks obediently, and then jumps and jumps all the way, very happy.

Besides, Qin Yuan is no problem at all if he is walking. After all, it is only training, and his speed is very fast.

Qin Yuan looked at the child in front of him, and then asked, "Of course, do you still remember what you promised your father before, that you would climb high, and you can't tell others about this, do you still remember?"

The child blinked innocent eyes, then nodded, "I remember this, because Dad said it would scare other people, so I don't want that."

This child is quite sensible, anyway, Qingyuan will take the child out for a trip, and he also needs to see what skills his daughter has, because the child can only induce her to do it.

He also needs to take precautions in advance, but now the child is too vague about the skills, and only uses them from time to time, just like climbing the grid last time.

Moreover, Qin Yuan was also observing them along the way. Now they have walked four or five kilometers, but the child didn't want to hug him, and he didn't mean to be tired. He was full of energy along the way.

Looking at it like this, maybe the child's stamina was also triggered, and it is worth recycling. It should be triggered by touching something.

Qin Yuan couldn't help asking his own system, "What's going on in this situation? Can a child choose her own skills?"

"Answer the host, in this case, the basic recovery value is generally added, and then the system will recover it autonomously, so that there is room for choice later."

Qin Yuan only felt a headache for a while. After all, the child is too young, and she has no way to master many skills on her own.

The kid wasn't hypocritical, anyway, he ate some snacks along the way, and he wasn't hungry. The two of them just walked slowly along the mountain road, because the expressway was indeed unsafe and there were too many cars.

Unexpectedly, when he just walked through a village, he encountered a situation. Two people rushed out from the ditch next to him. These two people held knives in their hands and looked at Qin Yuan viciously.

This is obviously a robbery, Qin Yuan is very disdainful, and he is not impatient at all with these two people.

"Go away, take the children, I don't want to fight with you."

The two people on the opposite side laughed instantly when they heard this. This kid was really rampant. The bearded man looked at Qin Yuan with a knife and said:

"Let me see if you're looking for a pick, let me tell you, you still have a child with you, do you really want to leave here? Hand over your valuables."

"Don't you understand what I'm saying? I really want to let you go, and get out of here quickly."

Unexpectedly, this sentence completely angered the person opposite, and the person opposite cursed, "Damn, brat, I'm going to let you see blood today."

Before Qin Yuan could make a move, the child next to him rushed out, Qin Yuan was stunned, Qin Ran's moves were completely fighting moves, and even though he looked small.

Just relying on the nimbleness of the man, he rushed forward and grabbed the man's wrist, and the man fell off the knife in an instant. It was simply a one-stroke subdue.

Then, with the help of strength, Qin Yuan felt very familiar with every move she made, which was completely a basic fighting style.

But after all, he is a child. Although he is a basic fighter, his strength is not as good as that of the person next to him. At the critical moment, Qin Yuan made a move and kicked the man into the ditch next to him. He didn't want to see blood if he had a child. .

"piss off!"

Wait a minute, before Qin Yuan needs to say more, those two people got up in fright, they didn't expect to meet two hard bones They couldn't even beat a child.

The two ran back while begging for mercy. The child seemed to have found the fun and wanted to catch up, but was caught by Qin Yuan.

"Of course, don't chase after them, they are just two little thieves, let them go."

"But I haven't played with those two people enough. He scolded you. I don't like them scolding you, so I'm going to beat them up."

Regarding this situation, Qin Yuan was really surprised and delighted. The main reason is that his daughter is really good at making moves, and he did not expect that she has even activated the basic fighting skills.

But because the child is too young, many things cannot be controlled by herself. If she goes to study, other children will easily hurt others if she accidentally says something, because the child's self-control is very poor.

So at this moment Qin Yuan is also very tangled, and he is gratified that his daughter has actually inherited his perfect genes, and even the system has been completely reproduced.

Chapter 1099: see familiar people

Qin Yuan could only patiently say to his daughter: "Of course, you have to remember that under any circumstances, especially at your age, you must never fight with others. This is the first time and the last time for now. ,Understand?"

"Dad, that's why you can beat bad guys, why can't I?"

"Because you are still young and can't master the strength. Although they are bad people, it depends on their level. I'm telling you these things now, and you may not understand them. You will understand later."

The child originally thought that he would get a compliment, but he didn't expect it to be like this. He was a little unhappy and followed behind with a small mouth.

Qin Yuan did think a lot. After all, when the child goes to school in the future, that is a big problem. Now that he has shown his special side, he is very worried that what he does will affect the child.

Although the child's energy is very good, but after all, he is still young, and he will be tired after making a fuss for a while. Seeing that the sky is completely dark, Qin Yuan plans to stay in the village for one night.

Looking at the sleeping daughter next to him, Qin Yuan didn't know whether this system was a good thing or a bad thing for the child.

After all, there is the mysterious person behind him. That masked man doesn't know what bad idea he has, because he has been thinking of cooperating with him before, and he has completely rejected him on his side, so I don't know what this guy will find out behind him. An excuse to target his daughter.

In this way, the two continued to set off the next day, and bought some food for the children in the village. There was nothing unusual, and they were very happy along the way.

Qin Yuan speeded up on purpose, wanting to see where the kid's limit is, "Of course, let's play a little game now to see if you can catch up with me. If you catch up with me, then Dad will take you to ride the big bike." horse."

The child was very happy to hear this, and immediately got ready. Qin Yuan walked very fast, and the child started to trot along the way. Slowly, the child also ran faster and faster, and he did not feel tired at all.

Under Qin Yuan's test, he found that although his child was only three years old, his physical fitness was similar to that of a normal adult, and he even said that some of his strength was better than that of ordinary recruits.

At present, he only discovered the three skills of super physical strength and sensitivity fighting, and the others have not been discovered yet.

It's just a pity that Qin Yuan's system is still short of merit points. If it can be upgraded to a god-level system, then there will be no problem, and a complete analysis can be made.

But these are the days to come. He has been observing his daughter and found no other abnormalities, so he doesn't know when the system was activated and how to recover the skills.

In this way, the two finally arrived at Grandma Sun's place. Grandma Sun was making dumplings for everyone. When she heard the movement outside the door, she ran out quickly and saw a little girl beside Qin Yuan, who looked very similar to Qin Yuan. .

Grandma Sun was very happy, and hurried over to wipe the flour on her hands, "This kid is Ranran, why is he so old, oh, look, I haven't visited Ranran for so many years."

"Grandma, don't say that, after all, you are so busy, and there are so many children in the orphanage, they must be inseparable from you."

The child is not afraid of life. After all, he grew up in the army compound. He ran over to greet people enthusiastically, and took the initiative to hold Grandma Sun's hand.

Grandma Sun was very happy, and kept stroking the child, "I have to say, this child has inherited your husband and wife's good looks and cleverness, and his mouth is so sweet, he will make people cry when he comes."

Qin Yuan also found that Ranran was indeed much smarter than ordinary children. He didn't know if it was because of the system or other problems.

Originally, Qin Yuan planned to stay with Grandma Sun for a few days, but at this time he suddenly received a call from He Chenguang.

It turned out that they had monitored the coordinates he had sent to He Chenguang before, and then put a monitor there, but unexpectedly found other special circumstances.

The things in the factory before were still intact. Last night, more than a dozen people went to move things, because He Chenguang didn't bother Qin Yuan because it was too late, but there was a location on the monitor. People moved away together.

Now they found that these things appeared in the United States, and the current location is a small town in the United States.

Qin Yuan was very excited when he heard this. This time, he should have found the masked man's lair quietly. He had analyzed various possibilities before, including analyzing from Long Xiaoyun's side. Finally, he also came to a conclusion. It is possible that this guy's lair is in the United States.

Because from the place where Long Xiaoyun studied and where he lived, based on this radius, this guy is the best one to lurk in the United States.

And what's more important is their celestial body plan. Qin Yuan heard this word in a spy's secret explosive list during a mission four or five years ago, but he didn't know the specific meaning at that time. What is it.

Up to now, everything has been connected in series, and the place where they performed their mission in Dalian is indeed in the United States.

Qin Yuan was very excited, and finally let him catch the clues, so he could only temporarily put the child with Grandma Sun and let Grandma Sun take care of him. He had to go to the country of America for a while.

Grandma Sun said that there must be no problem, the child is safe here, and because of the incident of getting lost before, the security of the orphanage is doing very well now.

In addition, Qin Yuan brought the child all the way here on foot, and there was no possibility of being followed or monitored by others, so the child is actually very safe here.

In this way, he set off to the United States alone, wanting to investigate the matter of the masked man behind him. He Chenguang also asked for his opinion on whether the members of his team should be dispatched together, but was rejected by Qin Yuan.

This time, he wanted to go over and have a look first, so as not to scare the snake away. On the other hand, the masked man was too cunning, and there might be someone with a system inside him, so it would be safer to go out by himself.

After explaining to Grandma Sun in this way, he set off. This time he acted alone, so Qin Yuan turned into a disguise, mainly because he was worried about the masked man. He didn't want to startle the snake. He was the only one who came into contact with the masked man at such a close distance. .

Qin Yuan came near the coordinates sent by He Chenguang and found that it was a biopharmaceutical company, which was very similar to the company run by Zhang Meng.

And according to the location sent by He Chenguang, the goods are inside, and they have indeed entered this factory, so there must be something wrong with this factory.

Qin Yuan managed to disguise himself as a staff member, and then entered the factory, which was no different from a normal production factory.

Qin Yuan didn't find any clues for a while, but he noticed a place where there were a lot of security personnel. Generally, the more patrolling personnel there were, the more it proved that there was a problem there.

At this time, a black car drove in suddenly, Qin Yuan quickly dodged and hid beside him, and the patrol members beside him consciously walked to both sides. Valley

At this time Qin Yuan saw a familiar figure getting off the car, it turned out to be Zhang Meng.

He couldn't believe it for a while, what happened? Why did Zhang Meng appear here? Moreover, there were a few people wearing work clothes next to Zhang Meng, who got out of the car with him, exactly the same as the people I saw in the laboratory before.

Then they entered the container inside, which was just a passage, and it should be connected to other laboratories below.

In order to confirm his conjecture, Qin Yuan hid in a corner, and then called Zhang Meng, but he couldn't get through after two calls.

After a while, Zhang Meng finally called back. Qin Yuan didn't go around the corner, and asked directly to the topic: "Where are you now? I have a new discovery, and I want to come to you, let's come out and talk."

Zhang Meng directly avoided the topic, and then asked, "What new discoveries have you made?"

Qin Yuan could only find an excuse indiscriminately, saying that he saw two staff members on the road, which seemed to be very similar to the previous experimenters.

Zhang Meng, who was on the opposite side, was obviously relieved when she heard this. It seemed that she was still very worried that Qin Yuan would find other clues.

"Anyway, let's come out and talk first. After all, we have found some clues. Where are you now?"

"Now I'm transferred out by the company for a business trip. It's inconvenient. By the way, I'm going to board the plane later, so it's inconvenient. Don't call me yet."

After hanging up the phone, Qin Yuan's gaze was very stern. He didn't know whether Zhang Meng came here to investigate because of a clue, or if he was the spy hiding among them from the beginning.

Because he found that every subsequent action of his, even though he was careful enough, would be noticed by the masked man, giving her time to escape.

Either he escaped by himself, or he arranged other people to come to his side, just like Long Xiaoyun.

And more importantly, know about his daughter, because only Zhang Meng and the others know about this matter, especially when the child disappeared, he went to Long Xiaoyun, and Zhang Meng was also there at that time, so the masked man and the others knew. Time to evacuate.

If you think about it this way, Zhang Meng's suspicion is really getting heavier, but Qin Yuan has conducted a thorough investigation on her before.

There should be no problems after his system investigation, so now he prefers to believe that Zhang Meng is probably innocent and just misunderstood.

Looking at the container in front of him, Qin Yuan was always looking for an opportunity. When it was getting dark, a few people in overalls approached the container, and Qin Yuan knew that the opportunity had come.

She didn't know the situation in this place yet, so she didn't do anything yet, but just tried to muddle through as much as possible. In this way, he followed the few staff members into the container successfully.

As he had guessed before, the interior of the container was just a passage, and there was an entrance to the innermost part.

These staff members have been controlled by him, and after entering this entrance, they need to swipe their cards to complete facial recognition to enter. The base system here is obviously much better than what I saw before.

After Qin Yuan followed them down, he dodged into the next room, found a set of work clothes and changed quickly.

There are no people being tested here, but they are all manipulating various instruments, and there are a few rooms next to computer screens with more than a dozen large and small screens. Monitoring in various places.

There is a file on an office desk inside, which is also related to celestial bodies, but this is only a small part of the celestial body plan.

The coverage of the plan set up by this organization called Celestial Body is too wide, and the scope of their monitoring seems to be somewhat different.

From the video, it can be seen that the places they are monitoring here are several neighboring countries, and from the looks of it, they should be their military bases.

Because only a military base can be so heavily guarded, these surveillance personnel watched the video while recording the number of vehicles entering and exiting, as well as some other important military tasks.

Qin Yuan turned around carefully. There are such monitors in all the rooms on this floor. Those staff members are busy with the work at hand. His thinking was too simple. He originally thought that this organization was a masked man. Simply organized.

It looks like it has something to do with the United States. It is also on the border of the United States, and it has never appeared in the several countries under surveillance.

You must know that the United States is a military power. If they really want to monitor the military system, the United States should bear the brunt.

Yan Guo also didn't show up. This is because they were well-prepared and haven't found it yet. When Qin Yuan was still in the corridor, a staff member suddenly came out and called Qin Yuan to stop.

At this moment Qin Yuan turned his head slightly, could he have been discovered? The throwing knife in his hand was ready to go out.

At this moment, the staff member said, "Hey, why can't you hear me? Hurry up and send this document to the conference room, it's waiting over there."

Hearing this, Qin Yuan heaved a sigh of relief, but where is the conference room? How does he know? After all, he just came here.

He didn't care too much, took the file and turned around to leave, and the staff behind him stopped him again.

"I said, what did you do? What are you doing from there? There is a toilet over there, and the conference room is over there."

Qin Yuan turned his head, and quickly said with a smile: "I want to go to the toilet, and then deliver the documents."

"What nonsense? Hurry up and send the documents before you go. If you miss the professor's meeting, you will have nothing to eat."

Qin Yuan hurriedly ran over with a smile. Fortunately, he saw the elevator after passing by. He hurried in. He walked around here and found that there was only one floor here, and more importantly, the elevator here needed people. face recognition.

According to the instructions of the elevator here, their conference room is on the third basement floor, which requires face recognition, but this is not difficult for Qin Yuan, who has world-class

hacking skills, he took out his microcomputer, and began to manipulate. After a while the elevator began to slowly start.

Chapter 1100: Zhang Meng's plan

This made the United States very afraid, so it was the first time to attack them, which makes sense.

Qin Yuan quietly left the experimental base. At this moment, Zhang Meng got into the black car. It seems that he is going to go back. Qin Yuan also found out that the delivery time of the medicine is at 3 o'clock tomorrow afternoon. .

Since this guy came with him to hide Chen Cang in this trick, then he let Zhang Meng know what it means to be mantis catching cicadas, with the oriole behind, and quietly destroy all the medicines by himself.

In order to dispel Zhang Meng's suspicion, Qin Yuan specially called her again, no, just tell him that he has a mission now and is going back to the team, and he will go to her later when he comes out.

Zhang Meng's excuse is that she is still in a meeting elsewhere, so she can only talk about it when she goes back.

The purpose of Qin Yuan's words was to confuse the public. Just like that, as soon as Zhang Meng left, Qin Yuan came to the pier. In the evening, as expected, he saw someone transporting those medicines by truck.

It's just that they don't plan to set off yet, mainly due to the reception problem from country C, so they won't set off until after 3 pm the next day.

They tried their best to make it similar to an ordinary cargo ship, which also reduced the attention of others, and at this moment Qin Yuan had already mixed into the cabin.

This was a trivial matter to him, and just like that, the ship finally set off the next afternoon. They carried all these things and transported them all to the battlefield in country C to target those soldiers and launch their evil campaign. experiment plan.

Qin Yuan saw the right time, he planned to do it directly at sea, but he had to try his best to pretend it was an accident.

When the masked man on the other side received the call, he was very shocked, "What is going on, how could there be an accident?"

"Sir, I'm really sorry. All the medicines were destroyed in the Pacific Ocean. When we couldn't salvage them, they were completely destroyed."

"What's going on? Check it out for me quickly. Someone must have sabotaged it. I never believe in accidents."

After receiving the instructions from the masked man, the members of those organizations didn't dare to delay any longer. They also conducted an investigation, but it was indeed an accident, mainly due to the oil leakage from the fuel tank in the cabin.

Later, there was an explosion at sea, and in such a sea, the oil tank leaked and the explosion occurred, and there was no measure at all.

So no matter what, it was just an accident, but the masked man didn't think so, and immediately called Zhang Meng, wanting to ask about Qin Yuan's whereabouts, Zhang Meng was also very surprised when he received the call.

She made it clear that Qin Yuan should be in the army now, and it is absolutely impossible to appear there.

But the masked man was very puzzled, it was really strange, he felt that only Qin Yuan could do it above the sea.

But after they investigated it, it seemed that it was really an accident, because this matter was also very confidential, from their meeting to the final shipment of the medicines, it was absolutely confidential, and it was impossible for Qin Yuan to discover it.

Those investigators felt that it was absolutely impossible to be man-made, because there was an endless sea, and there was no possibility of any ships approaching.

They arrived 20 minutes after receiving the explosion, and there were no ships in the area they were patrolling, so this was completely an accident.

After Qin Yuan blew up those drugs, he has returned to the experimental base at this moment, because he wants to continue to observe here, after all, he doesn't know what kind of conspiracy these guys still have.

But when he went to the experimental base, he found that it was more strictly guarded, and the number of patrols was doubled than before. It seemed that they had stepped up their vigilance.

Qin Yuan thought about it, and decided to retreat. He shouldn't startle the enemy now. After all, the masked man is too cunning. He was too impulsive before finally discovering one of his bases.

So let this guy escape, and now knowing that the United States is also involved, it will not be that simple.

After Qin Yuan went back, as expected, Zhang Meng couldn't wait to find him, and still wanted to test whether the previous incident was related to Qin Yuan.

At this moment, Qin Yuan pretended that he had just returned from a mission, and he also wanted to make sure whether Li Kang and Zhao Tao were also the traitors behind this, because he felt that everything was not safe anymore.

Moreover, his system has been completely upgraded. When he questioned Li Kang, he directly invaded into his system, and Li Kang didn't even notice it.

According to the systematic analysis, Li Kang had no suspicion whatsoever, and everything about him was completely exposed to him.

Moreover, Zhao Tao and Qin Yuan also conducted tests, and indeed they did not lie at all. At least the two of them are currently trustworthy, and both of them have systems.

When Qin Yuan found them, he only talked about the current progress. In fact, Zhang Meng mainly wanted to find Qin Yuan.

The three of them were talking when Zhang Meng walked in, and she greeted them with a smile as before.

"Captain Qin, you've been really busy these days. I wanted to discuss something with you, but I couldn't find the time."

Qin Yuan could only say apologetically: "There is really nothing I can do here, so I can only look at you for the investigation later. I don't know if you have found anything in the investigation later, have you found any clues?"

"So far, I haven't found any clues."

Li Kang and the others didn't even know that Zhang Meng was the traitor, and instead said frankly: "In my opinion, it's better if we design a plan to see if we can lure that masked man out, and let's pretend to surrender."

When Li Kang said this, Qin Yuan kept looking at Zhang Meng. This guy was really good at pretending, without the slightest change in emotion.

But Zhang Meng directly vetoed it, "It's better not to be so impulsive about this matter. After all, the forces behind them are very strong. Even if we pretend to surrender now and they find out, it will be troublesome."

"What you said is indeed reasonable, but we are too passive now, and we don't even know where they are."

Qin Yuan also quickly echoed by the side, saying that he didn't know what he could do so far, so he could only sit back and wait. He said this to lower Zhang Meng's vigilance.

Zhang Meng confirmed his answer. It was true that Qin Yuan had been performing tasks before, so the matter of the medicine had nothing to do with him at all.

And that batch of medicine was just Zhang Meng's preliminary plan. Now that it was destroyed, they could only make a new plan, and they had to put the devouring capsule into production as soon as possible.

At this moment, the corner of Qin Yuan's mouth was raised, he pressed down the brim of his hat, and then stepped out of the elevator. Just as he stepped out of the elevator, there were some patrols standing beside him.

Then a person stepped forward and asked, "What are you here for?"

"I came down to deliver the meeting materials. They are waiting for the meeting to be used urgently."

The man nodded, and then let Qin Yuan go, then he pointed to the big conference room at the innermost, otherwise, Qin Yuan walked over, knocked on the door, and after entering, he found that Zhang Meng was indeed inside, at the moment she was He lowered his head and recorded something on the paper.

But at this moment, Qin Yuan has completely changed his face, so he can't recognize him at all. The people around him are also doing their own things in silence. No one cares about Qin Yuan. After he put the meeting materials on the table, he stood beside him. .

At this time, a person next to him whispered: "What are you still doing here? You can leave after delivering the materials, hurry down."

Said this caught Zhang Meng's attention, he raised his head to take a look, but lowered his head again, because she didn't recognize the person in front of her at all.

He still wanted to find an opportunity to stay here longer, but it seemed that there was no other way. After he came out, the patrol team had just turned around the corner. Taking this opportunity, Qin Yuan raised his head and jumped onto the ventilation duct above.

Then he slowly climbed up the ventilation duct and came to the top of the meeting room, because when he went in just now, he quickly let the system recognize it, and there was someone with a system inside.

Time was too short, he didn't have time to look at the many people inside, he didn't know if the masked man was inside, this time he came to the upper ventilation duct, and he glanced at the lower ventilation hole.

The people below are giving a speech at their conference. This time it seems that they are some kind of capsule that will be put into production soon. It sounds normal, but the more you hear it, the more something is wrong.

Because the capsule they produced can actually cause rapid metabolism of human cells and accelerate the growth and death of cells. To put it bluntly, it can accelerate the speed of aging.

This capsule was delivered by Zhang Meng, who was very confident in her product and introduced the product beside her.

"This capsule is completely out of my system. There is absolutely no problem. Combined with our latest research technology, it can accelerate the aging of cells after implantation."

A researcher asked: "What is the stage of your experiment? What are the results of the experiment?"

"We conducted a total of three waves of experiments, and each wave of experiment subjects consisted of teenagers aged 6 to 18. There was no problem, and all of them aggravated the death."

Hearing this, Qin Yuan couldn't help but gasped. He didn't expect Zhang Meng to conduct such a vicious experiment behind his back.

No wonder his every move was discovered before, but he didn't expect this person to be lurking beside him, and everything was controlled by others. This Zhang Meng is really unusual, and even escaped his own system.

Then Qin Yuan looked around, and the system also issued an early warning. The third person sitting on the left is the one with the system.

"Currently, can you tell what system capabilities he has?"

"Answer the host, according to what I have sensed, he should have an immortality system."

Immortal system? The first time Qin Yuan heard about this system, he thought it was quite unfamiliar, and then the system explained that it was a powerful resurrection system, and to put it bluntly, it was able to successfully revive the host.

At present, whether this immortality system is effective for other people requires further contact with the system, and its specific effect can only be known after copying. At present, Qin Yuan's system has been upgraded to a god-level system, and the only analysis that can be done is these .

Qin Yuan had met before, the real face of Gu Nan, that guy was not among them, and more importantly, he has now mastered another skill, which is able to identify clones.

After his screening, no clones appeared in this meeting room, so the masked man was not there.

After listening to this meeting, Qin Yuan felt cold sweat on his back. They not only want to develop this kind of capsule that can accelerate aging.

And there is another kind, this kind of capsule is a kind of phagocytosis capsule, after taking it, the cells of the human body will self-phagocytize, and then lose the self-fighting ability in an instant.

What's even more frightening is that these capsules will be transported to the battlefield in the future. For them, this is another war strategy.

It's just that they are still developing the other swallowing capsules, and they need a large number of people to experiment, which is really terrifying.

Moreover, the main provider of the experimental drug is Zhang Meng. She is using her own system to dispense the drug, and then cooperates with other people with the system. The two abilities are used together and this capsule is produced .

Half an hour later, the meeting was over, Zhang Meng stood up, and she reached out to shake the man with the system before.

"Mr. Wells, I also look forward to our future cooperation and hope that everything will go well for us."

"The drug developed by Ms. Zhang is really powerful. I have really seen it today. We will have more and more opportunities to cooperate like this in the future."

"In fact, we are all working together for the celestial body, we are all members of the celestial body, and we should do this."

This sentence is even more certain. Zhang Meng is the traitor hiding beside Qin Yuan. This guy hides too deeply.

For a moment, Qin Yuan wondered if Li Kang and the others had problems too. Could it be that he was the only one kept in the dark? But before he clearly tested the system and there was nothing wrong with it, so what's going on!

Only later did he know that his system at that time, I was not a god-level system, and I could hide the manipulators behind the scenes from them.

Even if his system ability was strong at that time, he was fooled by these people. Now it is almost impossible to fool him.

Qin Yuan slowly jumped down from the ventilation duct. There is no need to destroy the base now, so as not to startle the snake, because the masked man has not yet appeared.

It's just that he must find a way to destroy the so-called batch of medicines by these people, because according to what they talked about in the meeting, this batch of medicines will lead to country c.

They want to use country C as the experimental target of the first battlefield, because country C is currently in war.

It's getting more and more complicated. It seems that the country of the United States must be the mastermind behind the scenes, otherwise they would not bear the brunt of targeting country C, because country C has just developed a powerful military weapon.
