

Special Soldier 1101

Chapter 1101: internal strife

Zhang Meng now has to focus on the laboratory, because he and Wells have reached an agreement. Wells has an immortality and regeneration system. Such a system can produce new cells, and she can use these cells to make experiment.

It happened to be used to experiment with her newly developed drugs. All these drugs were produced systematically, but it was really difficult to achieve mass production, so this time it was a very big loss for them.

Zhang Meng didn't find any other clues here, so she could only find an excuse to go back. He wanted to go back to the company to continue research and development of drugs. This time, she spent half a year on the batch of drugs destroyed by Qin Yuan. Only so much was raised, and it was all destroyed in an explosion.

On the other side, after Zhang Meng returned to the company, he met Wells in the office. This guy has now reached a consensus with her.

"Miss Zhang, I think you are still busy with business all day, but who are you going to meet mysteriously?"

Zhang Meng frowned unhappily upon hearing this, what does this guy mean?

"Where I go has nothing to do with you, besides, I have my own affairs, and all you need to do is cooperate with me."

Seeing that Zhang Meng seemed a little angry, Wells quickly smiled and continued:

"And your reaction doesn't have to be so big. It may be that I asked too suddenly, but this is what my husband explained. After all, we are not just a cooperative relationship now."

"Sir, did you tell me? You don't want me to go with the people above. What's going on?"

"Hehe, there are some things you don't need to understand so clearly, but you'd better report to me where you go from now on, otherwise, avoid unnecessary misunderstandings."

Zhang Meng clenched her fists when she heard this. Wells didn't know what kind of bad things he said about him on the other side. How could he make the husband so wary of him? It was obvious that he was spying on himself.

It seems that this time he came here not only because of the cooperative relationship, but more importantly, because he insisted on his behavior. Could it be that the husband suspected that he and Qin Yuan had reached a certain consensus and deliberately destroyed the batch of medicines sold?

But there is no way to say anything more now, after all, this kind of suspicion has already arisen, Zhang Meng is also very helpless, after all, their boss is a suspicious person.

"Well, I did meet Qin Yuan today, and that's because I wanted to make sure whether the last incident was related to him."

Welsh was even more proud when he heard this. He said that Zhang Meng went out in a sneaky way and didn't even report to him. At this moment, he tapped Erlang's leg and looked at Zhang Meng with a proud face.

"Oh, what is the specific situation? You'd better report to me like this."

Seeing his attitude, Zhang Meng was angry at what kind of status this guy was, for daring to talk to him like this. He slapped the table and stared at him coldly.

"I advise you to be more respectful. You are not my superior at all. I don't need to report to you. The result of my investigation today is that he has nothing to do with this matter."

"Miss Zhang, you don't need to be so excited. I always feel that there is a big problem if you are so excited."

Zhang Meng didn't bother to talk to him, stood up and walked out of the office. At this moment, Wells sneered twice, then took out his phone and called.

"How about the person who followed her this afternoon? Have you learned about the specific situation? I always feel that she is not telling the truth."

"Brother, today our people can only go downstairs. After all, the willing guy is up there, and we don't dare to get too close. We didn't monitor the specifics."

"Forget it, then continue to follow, find a good opportunity next time, and find a way to place the monitoring equipment next to her."

"Brother, but the master said, let us not act rashly, to avoid being caught by Qin Yuan, in case we install monitoring equipment and are discovered by Qin Yuan, then..."

"Nonsense! Now that I'm here, I have the final say, and I always feel that this girl must have something to do with Qin Yuan. Now let me investigate this matter."

At this moment, Qin Yuan didn't know that they had internal strife, but after Zhang Meng left, he still left Li Kang alone.

The reason why I only told Li Kang is because Zhao Tao has a straightforward personality and he can't hide any secrets. If I tell him, it is very likely that I will go to Zhang Meng directly.

Then all the plans will be destroyed, and because Li Kang has been in this mall for a long time, he is a very shrewd person, so he will be on guard when talking to him.

When Li Kang learned that Zhang Meng was actually a spy hiding between them, he was instantly taken aback. How could this be possible? He felt that Zhang Meng could be completely trusted.

After all, he helped them so much before. When Qin Yuan was in trouble, he directly provided him with pills.

"Captain Qin, you can't talk nonsense. What's going on? Is there something wrong with her? I'm afraid there won't be any misunderstandings if I do it?"

"Do you think what I'm sure of is still false? That's because my system hasn't been upgraded before, but now I've seen it with my own eyes, so I'm 100% sure."

Li Kang frowned, so what should we do now? After all, the spies have joined them, "Then let's find a way to follow her and catch the person behind her."

"That's what I thought. The reason why I told you is to remind you to be vigilant. Sometimes, don't tell her too many things. Everyone should be on guard, but be careful, don't be caught by her."
."

After explaining to Li Kang, Qin Yuan planned to enter Zhang Meng's company after putting on makeup and changing his appearance. Now he wanted to use Zhang Meng as a breakthrough to find some clues.

When Qin Yuan came to Zhang Meng's company, he found a car parked downstairs. He looked very familiar. Although the license plate of this car had been changed, it was the car that Zhang Meng picked up and dropped off in the United States.

And that Wells at that time was also on this car, and that Wells was the one with the system.

Qin Yuan hid in the dark and observed carefully. It was incredible that there were four or five people lurking at the door of the small company.

There are fruit sellers on the side, newsstands on the side, and small shops on the opposite side.

Although these people are doing their own things in their hands, their eyes can't change, and there is a sense of vigilance in their eyes. You must know that these small traders are just ordinary people, and there will not be so much vigilance in their eyes. .

Qin Yuan originally wanted to go in, but when he saw this scene, the corners of his mouth rose slightly. He didn't know who these people were guarding against. Maybe if he continued to wait, he could still see a big show.

But the first person he thought of was Zhang Meng. After all, this is her company. He was suddenly under surveillance. He must have something to do with her. Could it be that this guy was suspected? Valley

In order to confirm his conjecture, Qin Yuan called Zhang Meng, told her that he had made other new discoveries, and asked her to come and have a look.

Moreover, Zhang Meng was already in the company, so she walked out without much hesitation. As expected, just as she walked out, those people stared at her intently, and it seemed that they were targeting Zhang Meng.

Although Qin Yuan didn't know the specific situation, he could come over to investigate at night, and deal with Zhang Meng first.

Qin Yuan turned his attention to Long Xiaoyun, and he said that he wanted to use Long Xiaoyun to find the masked man.

"By the way, I'm mainly looking for you this time, just to see if there are any pills you can use. I want to put Long Xiaoyun back and attract the masked man."

At this moment, Zhang Meng was thinking about something, and she was in a daze for a while. She didn't react until Qin Yuan asked the question a second time.

"Huh? What did you just say? I wasn't paying attention."

"I think you've been in a bit of an abnormal state recently. Did something happen? Or is it that the masked man is bothering you alone?"

Qin Yuan also said this on purpose, Zhang Meng quickly smiled and quickly covered up his panic, "It's nothing, but there are too many things in the company recently, so I'm a bit busy and haven't had a good rest."

"So that's the case, then this is not okay, you have to take a good rest and pay attention to your body, can you help solve the matter of the pill?"

"I can only go back and have a look at this one. What kind of pills do you want? Tell me later. I want to see if the system can deliver the medicine."

After all, she has been hiding the swallowing of the capsule recently, and the system has already been overloaded, so she can't care about Qin Yuan's side.

Qin Yuan was just testing, so he was not in a hurry, and walked downstairs with her. Qin Yuan knew that those people downstairs were watching her.

So I deliberately walked closer to Zhang Meng, and then whispered a few words to her. In fact, the main purpose was to make her pay attention to safety, but from the perspective of the opposite person, it seemed that she was plotting something.

The person who was always watching hurriedly announced in the headset, "Brother, Ms. Zhang has come out, but the relationship between her and Qin Yuan seems to be a little abnormal. The two are very close, and we can't hear the details of what they said."

Wells on the opposite side was very excited when he heard this. What he wanted was this effect. He felt that the bombing case was definitely not simple. After all, the meeting was held by their internal members, and they were the only ones who knew the news. core members only.

Including the boss who specifically told him to pay attention to Zhang Meng, it is very likely that this girl has betrayed, as long as he has the evidence, he can climb up directly.

Because now they are mainly relying on Zhang Meng's system to dispense medicine. Although he is assisting Zhang Meng, this woman Zhang Meng is really too cold.

Wells had long been dissatisfied and wanted to take revenge, but the opportunity came unexpectedly.

"You continue to monitor, remember to get the evidence of her conspiracy with Qin Yuan, so that I can give this thing to Mr., this is an opportunity to trip her up."

In this way, after another week, Qin Yuan found Zhang Meng again, and originally asked her to make a conscious effort to find Long Xiaoyun, which was just a cover.

But this time Qin Yuan's system had already issued an early warning just as it approached Zhang Meng. He was carrying a monitoring device.

It seems that the people on their side are indeed suspicious of Zhang Meng. He just hopes that these people can fight each other, so that he can find a chance for himself.

Qin Yuan deliberately approached Zhang Meng. Today, he didn't have any digressions, it was just a caring attitude, and deliberately brought the relationship between the two closer.

Zhang Meng couldn't figure it out, he didn't know what he wanted today, why he was so abnormal, he cared so much about himself, it didn't fit his usual style.

And in the end, Zhang Meng was sent to the company in person. Zhang Meng has been bothering her recently because of a problem with the medicine in the laboratory and the previous bombing, but she has no time to take care of Qin Yuan's affairs.

It's just that when he just entered the company, he saw Wells walking towards him, "Miss Zhang, where did you come from? Did you forget what I told you before?"

"What do you mean by that? And what are you doing here if you don't cooperate with the extraction of cells in the laboratory?"

"Hehe, I came here because of you. After all, the relationship between some people and Qin Yuan is really abnormal!"

"Crazy! I don't want to talk about this with you at all. Now we are just cooperating. I don't know what you mean."

Zhang Meng is simply too lazy to care about her. She is now working wholeheartedly for the organization. She just wants to quickly develop this swallowing capsule. If it is to make up for the loss from the previous explosion, this swallowing capsule is not so complicated. Combined with Wells' abilities.

Seeing her attitude, Wells just shrugged his shoulders. He hasn't caught clear evidence yet, but one day he will definitely catch it.

In this way, with the efforts of Zhang Meng and Wells, their batch of swallowing capsules has been successfully released, because it is more difficult for them to conduct experiments in Yan Country, so they plan to send this batch of drugs to the United States. On the other side, the experiment will be conducted at the base over there.

Wells is also the **** of this batch of drugs, and he plans to go to the base in the United States together.

He still explained that his subordinates were closely monitoring Zhang Meng's every move, but this time, they did not choose the sailing route, but directly chose the helicopter.

Before setting off, Wells was very cautious. After checking that there was no problem, he was ready to set off.

This is the real praying mantis catching cicadas, with the oriole behind, Qin Yuan has been watching their every move, thanks to the internal strife between these two guys, Qin Yuan got an opportunity to take advantage of.

Qin Yuan used his powerful stealth skills to attach himself to the bottom of the helicopter's cabin, and thus reached the midair.

Even the radar equipment on the plane did not detect his existence. At this moment, the helicopter suddenly shook, and it was very bumpy in mid-air.

The driver also felt strange, they didn't encounter any airflow, why such a big shaking happened? Immediately afterwards, the instrument panel on the helicopter also issued an alarm.

Chapter 1102: suspect each other

Sitting in the back, Du Wells looked strange, what's going on, "What's the situation now? Why did the alarm sound?"

"Brother, I don't know what's going on. It seems to be ours. There is a problem with the position of the wing. Usually, there is such an alarm when it encounters strong airflow and it is very easy to break."

Wells looked out of the window when he heard this. Even though he was in the high altitude now, it wouldn't mean that there was a strong airflow.

Qin Yuan wanted to take this guy with the plane and directly cause the crash, but thinking about it, he couldn't do it so obviously, he had to keep alive.

He also has to be more cautious when fighting the old fox that is the masked man. What he has to face is not a system that ordinary people can give, and their celestial organization should be very large. This plan has been prepared for decades.

At this moment, the driver finds that all the dashboards are completely yours. That's because Qin Yuan is at the bottom of the airport, and he has completely removed a part below, which is too simple for him.

The driver was also very anxious. He continued to control, and finally found that there was no way to recover.

"Brother, all the dashboards are out of order now. We have no choice but to abandon the plane and prepare to parachute now, or we will fall soon."

Wells panicked instantly when he heard this. This was at an altitude of several thousand meters. He quickly took out his seat and put the parachute on his body directly.

Seeing that he didn't even have time to think about what was going on, he just wanted to jump off the **** helicopter. At this moment, thick smoke was rising from the helicopter, and the situation was urgent. Wells jumped directly under the **** of two bodyguards next to him. Come down, and soon the plane is completely out of control.

The helicopter slammed into the mountain wall in front of it with thick smoke, and a huge explosion occurred, and the medicines on the helicopter were completely destroyed.

Wells was wearing a parachute at the moment, and fell into the woods below in a very embarrassing situation. He has an immortal system, but he is not worried. When a bodyguard next to him landed, his position was not standard, and he was directly pierced by a branch.

On the other side, Qin Yuan also landed steadily on the ground. He stared coldly at the black smoke in the distance, and this time it was considered to have destroyed their plan.

After doing all this, he is not in a hurry now, and he is not in a hurry to find Zhang Meng. He returns to Grandma Sun and goes to see the child first.

After all, the child changed to another environment, mainly because she was worried about the system ability in her body, which is why Qingyuan sent the child to Grandma Sun, because the child was going to kindergarten soon, and Grandma Sun happened to have so many children here.

Just to see the child's recent reaction, Grandma Sun didn't say anything, only said that the child is very energetic, and Qin Ran is also very obedient. He didn't expose his system ability in front of anyone, but he is full of energy. There is nothing to do about it, this is built into the system, and she can't control it.

If this is the case, then he can rest assured that his child will go to kindergarten after school, at least he does not want his child to be treated as a different kind by others.

Qin Yuan is more relaxed now, spending the whole day with the children in the orphanage. Anyway, now it is a long line to catch big fish, so don't be too anxious, otherwise it will be easy to scare the snake.

On the other side, Zhang Meng and the others were not so lucky. Zhang Meng was sprayed **** by the masked man at the moment, because this was the second time that the medicine exploded.

Wells was very angry in the conference room. After all, he was sure about what happened this time. Only Zhang Meng and him knew that even the subordinates around him were already being questioned.

As soon as Zhang Meng went in, he saw that the angry Welsh people hadn't arrived in front of him. He patted the table and stood up. Pointing at Zhang Meng, he began to say:

"I'm telling you this time because I'm lucky, but those tricks you played, do you really want to kill me?"

"What do you mean by that? I don't understand at all, and I just learned the news. Now we are all here to deal with things. I don't have time to argue with you."

Zhang Meng was even more baffled. Ever since this guy said he wanted to cooperate with him, he had started to target him in various ways, and now he was talking about such nonsense. He didn't know what he was going to do.

"Hehe, you don't know about the delivery of medicines this time, the main key people are just the two of us, but why are the planes coming again and again, and if I don't react quickly, then I guess we all have to die here On the plane."

Hearing this, Zhang Meng understood. This guy seemed to want to beat him up and hurt himself, because in Zhang Meng's opinion, it should be his subordinates who had a problem.

After all, the first time something happened to a ship at sea, it might have been an accident, but this time there was another accident, which made no sense.

Now Wells meant to throw the blame on himself, Zhang Meng snorted coldly, "I really don't understand what you are talking about, do you think you can frame me with such a wrong memory now? I think there is something wrong with your subordinates, or even that you have used bitter tricks."

For a while, the two confronted each other, and began to quarrel in the conference room, neither of them would let the other.

At this moment, a cold voice sounded from behind.

"Enough! Quiet! What time is it? Still arguing here!"

After Zhang Meng heard the voice, she quickly turned her head and saw that they were going to get it by the way, both of them immediately stopped talking, but at this moment Wells hurried forward and immediately started to complain.

"Sir, this matter is too weird. It can't be an accident. It's her fault. I suspect that she and Qin Yuan have already colluded."

Faced with Wells' accusation, Zhang Meng was also very helpless, this guy would really beat him up.

After all, Wells has an immortality system, he is not afraid of death at all, maybe this is just a trick he staged, Zhang Meng also expressed his thoughts.

When Wells heard that Zhang Meng still wanted to leave this matter to him, he became even more angry. Seeing that he was about to make a move, he was stopped behind the scenes.

"Even now that I'm here, don't you take me seriously? That's enough. I don't want to see you making noise here anymore. I just want to know the truth of the matter."

After the masked man finished speaking, he looked at the two of them coldly, and then asked someone to take them down. To be honest, he didn't believe any of these two people.

After taking the two of them down separately, he explained to the subordinates next to him, "Stimulate the two of them with brain waves and make them tell the truth. What's going on? I must find out."

"Yes, sir!"

After the brain wave test, neither of them lied, and the masked man also felt a little strange, was it really an accident? But this accident is too exaggerated, one after another.

But Wells insisted no matter what, he felt that there must be something wrong with Zhang Meng, and he must have gotten involved with Qin Yuan long ago.

Just like that, the masked man came to the room where Zhang Meng was. At this moment, Zhang Meng had just finished being questioned. She was in great pain, because she had her own system. When receiving such brain wave interference, her system would also resonate, allowing her to body is in great pain.

Zhang Meng raised her head in pain, "Sir, you must believe me, I have never done anything to offend the organization, I have always done my duty, and Qin Yuan never found out."

The masked man stepped forward and pinched Zhang Meng's neck, "Then tell me, why didn't he find out? Maybe you and him have already colluded secretly."

"Sir, I... I can prove my innocence, I can accept any test from the organization, and there is absolutely no surrender to the enemy."

The masked man stared at Zhang Meng coldly, making sure she hadn't spoken, and when he let go, Zhang Meng knelt on the ground and coughed violently.

At this time, the masked man took two steps back, then took out a small instrument, and pressed the button on it. Zhang Meng instantly fell to the ground and twitched, foaming at the mouth, looking very painful.

Zhang Meng's system also issued a prompt, "Ding! The system has detected external pressure and warned of danger!"

After her system issued a notification sound, it went into a dead state without any response. At this moment, Zhang Meng was still twitching on the ground. She rolled her eyes to look at the masked man, sobbing and begging for mercy.

After a few minutes, the masked man pressed the button in his hand. He looked at Zhang Meng and said coldly: "I hope you remember how you feel now, this is your punishment. If you have any intention of betraying the organization, Then this is the end, no matter where you are, I can torture you."

"Ahem, my subordinate...I don't dare, I will definitely do my best."

The masked man let out a cold snort and walked out. At this moment, Zhang Meng completely collapsed on the ground, gasping for breath. Her back was already soaked in cold sweat. The feeling just now made her want to die.

Since entering the organization, everyone has been implanted with a chip. This chip is the celestial body organization. It is used to control them and there is no way to remove it. This is also a means of their control.

It can be said that their lives are never in their own hands. If there is absolutely anything wrong with the masked man and he moves his fingers casually, he will explode and die directly.

This is the cruelty of the organization, and the masked man is not the only person behind the organization. What Qin Yuan is investigating now is too one-sided. The organization is powerful, but they cannot solve it.

After a while, someone brought a set of clean clothes and put them directly on the table, "Sir, I told you to go and report any movements lurking beside Qingyuan at any time."

Zhang Meng reached out and touched the clothes. Her life, including the fact that she couldn't decide for herself until now, she was also very helpless.

And now she must produce the swallowing capsule as soon as possible, because the previous batch has been completely destroyed.

But this method is really too similar to Qin Yuan's. At the altitude of several thousand meters, someone can make the helicopter explode out of control.

He could only think of Qin Yuan, but how did Qin Yuan know these things? If it was really him, then he might not survive.

After Zhang Meng changed her clothes and came out, she contacted Qin Yuan again, but Qin Yuan's phone could not be connected. She knew this situation, and he was usually outside performing tasks or receiving training.

In this case, she suspected that she might have thought wrong, and it was absolutely impossible to be Qin Yuan.

At this moment, Qin Yuan had already arranged for the child to come to their previous laboratory. Although the security had been strengthened here, he still sneaked in, and he wanted to make them have another internal strife.

This time, he is no longer targeting Zhang Meng. If it is Wells, after all, this guy is too eager and he wants to make a contribution.

Moreover, Qin Yuan is also very interested in his immortality system. He wonders if it can be recycled. At this moment, there are still people sent to the experimental base on this side for experiments.

It is no longer an experimental system, but using their newly developed capsules, Qin Yuan directly invaded their general system, only to find that the death rate of the system they used for experiments before is too high, and they can't stand it. waste of resources.

So they are now developing a technology capsule, which is to use the systemic medicine produced by the person who already has the system to cooperate with it and implant it into someone else's body like a chip.

This can greatly reduce the death rate, but such things are considered an invasion to the human body, and will be rejected by the human body, and only a small part of it can be accepted.

Qin Yuan saw thick smoke billowing from behind, it seemed to be an incineration plant, he walked in quietly, the scene before him completely shocked him, the staff inside were wearing chemical protective suits.

There were many carts on the ground, and corpses were everywhere on the stretchers, and these corpses were pushed into the inner room by the staff.

Before, Qin Yuan thought that they were only trading and producing medicines here, but he didn't expect that this place was still responsible for incinerating corpses.

While Qin Yuan was observing, a person came in. Qin Yuan took a closer look and found that it was Wells. After this guy came in, he called the person in charge into the office. Qin Yuan slowly approached the office. The outer wall, here he could hear clearly.

Wells lit a cigarette, "The work here has been really hard for you recently, and there are more and more corpses now."

"Who says it's not? The failure rate of recent experiments seems to be quite high, and these people die too quickly, basically they don't survive a day."

"I'm not interested in this stuff. I'm in charge of the population right now, and you're in charge of the death registration. If I change the number, you shouldn't have any objections, right?"

The person in charge raised his eyebrows when he heard this. He is a smart person, and he immediately understood and said with a smile: "No matter what happens here, you have the final say, and everything I do is up to you."

Chapter 1103: crisis at the zoo

Because he knew that Wells had the final say here now, and although they said they all had to obey the husband, that gentleman didn't come here often.

Wells is not only in charge of cooperating with the experiments, but more importantly, the people involved in these experiments are all recruited by him and have to go through his review.

Although the person in charge here doesn't know what I want to do, anyway, I probably want him to tamper with the number of people on the list.

This thing is trivial to him, and it is not difficult. Qin Yuan heard it clearly outside, and this thing is nothing to his hearing.

Judging from the current situation, it should be that Wells wants to frame Zhang Meng for something, because his words are full of dissatisfaction with Zhang Meng.

Because of this explosion, he felt even more disgusted with Zhang Meng, so he might want to take revenge on Zhang Meng.

Wells snorted coldly at this moment, he threw the cigarette **** on the ground, and then said: "Although Mr. has already believed in that woman, I always feel that he is not that simple. Two efforts have been wasted like this. I think she must something wrong."

"So you want to really get her out this time."

"So you don't have to worry too much. After all, you are doing things for the organization. Besides, there must be something wrong with this woman. Trust me, I will definitely catch it."

The person in charge frowned slightly when he heard this. If this is the case, then the matter may be a bit complicated. After all, Zhang Meng's current position in the organization is not ordinary.

"Captain Wells, if this is the case, I think we should be more careful and do it after we figure it out. After all, he has already passed the test of the gentleman. If we do something else, will it anger the gentleman?"

When he thought of this, he was very scared, because the punishment of the masked man was very cruel. He had personally experienced that feeling of pain, and he didn't want to experience it again.

"Don't worry, I must have evidence, that's why I asked you to help. I have already obtained some evidence for this matter, but that woman is too cunning to escape detection."

The person in charge nodded when he heard what Wells said. If this is the case, then it will be easy. Since he said that he can get some evidence, it should not be a problem.

"Okay, the list is here, how do you want to change it? Just tell me."

Originally, Qin Yuan was looking for an opportunity to come to the factory to cause sabotage, but he didn't expect to hear about such a plan. It seems that they wanted to frame Zhang Meng.

If that's the case, then there's no need for him to act in such a hurry, it will expose himself instead, so let them fight each other first, and just watch the show by himself.

Then a black figure flashed out of the factory, and no one noticed, but he received a call from Grandma Sun not long after he left.

In the middle of the night, his heart skipped a beat and he picked up the phone quickly, thinking that something was wrong with the child.

As soon as she picked up the phone, she heard the noisy voice of the child next to her, and Grandma Sun's tone was full of helplessness.

"Qin Yuan, you know that I won't call you unless I have to, but this kid doesn't know what's going on, so he suddenly made a noise and insisted on looking for you."

Qin Yuan breathed a sigh of relief when he got here, he thought something happened to the child again.

"Grandma, give the phone to the child. I'll ask her. I should be back tomorrow."

Qin Ran answered the phone with a crying voice, it seemed that he had been arguing for a long time, "Dad, come back quickly, I have something very important to tell you."

"Then can you talk to me on the phone first, because Dad may not arrive until tomorrow."

"No, this is the secret that Dad said before, that you can't tell anyone."

Could it be that the child's system has developed other abilities? Qin Yuan felt a little uneasy in his heart. Now he is still in the country of America, and going back in the middle of the night will be a matter of tomorrow morning, so he can only hurry back as soon as possible.

Comforting the good boy, he hung up the phone, and he hurried to the airport, praying all the way, nothing more would happen, when he returned to Grandma Sun's orphanage.

Grandma Sun looked haggard, "Tell me that this child is really with you and your husband. He is so energetic. I have been guarding him all night, and I just fell asleep now."

Qin Yuan felt a little guilty, "Grandma is really bothering you, this child is usually very good, I really didn't expect her to be noisy all of a sudden."

"It's nothing. After all, it's your child and I'm willing to take care of it. It's just that this child is really strange."

Could it be that Grandma Sun has discovered other problems with the child? He hurriedly asked, and Grandma Sun told the truth.

It turned out that yesterday the children from the orphanage organized a trip to the zoo together. In addition to the teachers, even the security guards went out together. Although there are not many children, Grandma Sun is also responsible for the children.

I don't know what's going on, but the tiger was quite obedient at first, but when they passed the wild beast area, the tiger suddenly rushed over madly.

Because it was a safari park, but the children were all in the car, and the tiger kept slapping the windows aggressively, which was very scary, and many children in the car were scared and cried.

Qin Ran was very calm. He walked to the glass window and patted the window. Unexpectedly, the tiger obediently lay down on the ground.

But Grandma Sun didn't pay attention, she thought that the tiger was controlled by the staff next to it.

"You don't know the situation at that time. It was too dangerous. The tiger's claws were so big. There were so many children in your car, and then the staff came and asked us to open the car door. They wanted to come up."

Qin Yuan was stunned when he heard this, what's going on? In this safari park, they actually asked a car with a toddler to open the door, and they wanted to get in.

"Grandma Sun, do you remember correctly? These staff members will make such a request?"

"Look at what you said, grandma, I've lived most of my life, can I still tell nonsense? That's what those people said. I also felt strange at the time. There is a tiger outside, how can I open the door?"

Later, it was said that grandma tried her best not to open the door. She must have wanted to ensure the safety of the children. Those staff members were in another car, and they kept asking Grandma Sun to open the door.

At this moment, without knowing what was going on, the tigers who had surrounded their car walked away straight away, as if they were under some kind of command.

The staff even asked to open the car door. They wanted to check the child's safety. Grandma Sun was still worried, so she asked the driver to drive the car all the way out of the zoo.

Checking the safety of this place, she planned to take the children out before talking about it. After going out later, the person in charge of the zoo also came to calm everyone's emotions. Valley

Hearing this, Qin Yuan became more and more curious about those staff members, and he hurriedly asked: "Those staff members, are they the ones who asked for inspection before?"

"I don't remember this, but there are a lot of people, and they all wear the same clothes. I don't know if it's those few. Anyway, there are a lot of people who come to deal with it, but don't worry, the child is fine."

Grandma Sun whispered beside her, she thought that Qin Ran must have been frightened, that's why he kept clamoring for his father.

"Anyway, the children are back safely now, but the child must have been frightened, so please comfort her well."

Qin Yuan nodded, and when he walked into the room, he found that the child had already woken up. Qin Ran got up from the bed and ran into Qin Yuan's arms.

She looked at Grandma Sun next to her, then blinked her big eyes, "With Dad around, I won't be afraid, I want to sleep with Dad!"

Grandma Sun smiled. She gently patted the child's head, as long as the child is good, that's fine. Now that Qin Yuan has returned, let the father and daughter get along well.

After Grandma Sun left, Qin Ran hurriedly told the truth.

The tigers in the zoo are indeed under the control of others. Although Qin Yuan is only a three-year-old child, her thinking is very clear.

It should also be her system ability, but the child couldn't explain it clearly. She just said that she knew those tigers were under control, so she attacked them.

"Then Dad asked you if there was anything wrong with the staff that day?"

"It's them, I feel the same breath, and they are very bad, they are still controlling those tigers in front of my face! They are all bad people!"

"However, how did you know they were manipulating those tigers?"

"I don't know their small movements, I can see everything clearly, and I seem to know everything."

It seems that this is also a certain ability of the child. After hearing what Grandma Sun and the child said, the first thing Qin Yuan thought of was the masked man.

This guy really cared about his child, and he didn't know what kind of conspiracy he was plotting, Qin Yuan was suffocated when he heard it.

After all, a three-year-old child can't distinguish anything now, so he must be able to control it better than an adult himself. At this moment, he looks at the child with some distress, and it is also because of his genes. This child has somehow inherited it into the system.

He hoped that his child would be an ordinary person, without any ability, and that he would be targeted by these people when he was just born, and he still wouldn't let him go even now.

As long as the celestial body organization exists for one day, his child will be in danger for one day. It's just that he has just found some superficial news, so he can only make a breakthrough from Zhang Meng.

At this time, he suddenly thought of a question, this time he brought the child to hide so much, how could anyone know the child's clues?

He immediately turned his attention to the orphanage. None of the staff, teachers and security guards could be spared.

These are the key objects of investigation. He first found Grandma Sun, using the excuse of wanting to check the work situation, and then see if some security personnel need to be replaced.

Grandma Sun naturally didn't become suspicious, and directly handed him the job list of the orphanage, and then said that the above-mentioned people were very responsible, including the security guards, who were also very enthusiastic.

"Anyway, don't worry, the person I'm looking for is absolutely fine. These two security guards are young and big guys, not like before. They can protect children in any danger."

The more this is the case, the more suspicious it is. Qin Yuan intends to investigate from these two security guards. When he came in yesterday, he did not find anything unusual.

There was no reminder from the system, which meant that none of these people had a system on them. If so, he could start an investigation and choose to invade directly.

At this moment, a security guard was sitting in the sentry box to register, and he looked very serious. Qin Yuan stepped forward, first questioned him a few times, and then directly controlled him while he was not paying attention, and then invaded his mind.

There is nothing wrong with the security guard. This time, Qingyuan's system has been completely upgraded, so all the clues can't escape him.

It seems that it should be another one, because they are divided into day and night shifts here, and the other security guard is on the night shift, so we can only wait until night to talk about it.

When it was dark, the security guard came to take over, and I was willing to wait for him in the security booth, but I didn't expect the security guard to feel very guilty when he saw Qin Yuan.

"Little Liu, please replace me for a while, I suddenly feel a little pain in my stomach, and I want to go to the bathroom."

"Okay, go quickly, but come back quickly, I'm going back to sleep too."

The security guard was about to go to the door, so Qin Yuan strode forward and grabbed him by the shoulder. Then he said with a smile: "This brother happens to be going to the toilet too, so I'm going to go to the bathroom too." Why don't we go together."

After finishing speaking, without waiting for him to refuse, she forcibly pressed his shoulders, and took off directly. It is not easy to do anything in this place, so I will talk about it later.

The more this happened, the more suspicious it became. The security guard walked slowly, feeling more and more guilty. He turned his head, not daring to look into Qin Yuan's eyes.

Seeing this scene, Qin Yuan became more certain, snorted coldly, and then the security guard knelt down on the ground in an instant with his hands. He didn't know how he knelt down.

"What's going on? You'd better tell me the truth, don't force me to use other methods, or you will only suffer more."

The security guard was completely frightened, he looked like an ordinary person, so he spoke tremblingly.

"It's all my fault, I shouldn't be greedy for cheap."

"What's going on? Better be honest with me."

It turned out that someone gave him 100,000 yuan to come to this orphanage to work as a security guard. At that time, he didn't know what was going on, but these people even gave him money and asked him to work as a security guard.

But as long as there is money to make, he will report the situation here every day after he comes here as a security guard. He will report to the other party if anyone comes or if there are any new members.

It seemed that he was indeed the masked man. This guy was worried that he would find an ordinary person because there were too many ordinary people like this, and they were everywhere. The more ordinary, the less likely to arouse suspicion.

Chapter 1104: child's new abilities

Qin Yuan was still a little skeptical about what the security guard said. He simply invaded directly, and the security guard did not lie to him. He was an ordinary person, and there was nothing he could do about Qin Yuan's aggressive persecution.

The masked man was very cautious this time, and he was only making second-hand preparations. The security guard had come to work here since Qin Yuan's daughter was born, and the masked man started planning at that time.

Qin Yuan didn't dare to imagine how many years this has been planned, and the organization of these people is very large, they have been able to lurk for so many years, and have developed so many offline, all of them are people around him.

If it wasn't for his daughter's ability today, then what kind of tiger really destroyed the car would probably be passed on to them. They probably wanted to find this excuse, and then got into the car with their children.

In addition, Grandma Sun was also very cautious, and didn't let anyone get into the car. Thinking of this, she was willing, sometimes afraid that he would clench his fists, and must destroy the masked man completely, otherwise every day would be dangerous.

At this moment, a pair of small hands suddenly held Qin Yuan's hand, and then called out in a childish voice, "Dad."

"What's the matter? Are you still not sleeping? Or are you scared?"

"That little thing won't scare me. I feel that Dad is unhappy. I know your emotions. I know where Dad has gone."

Qin Yuan was surprised when he heard this, what did the child say?

After repeated questioning, the child simply climbed down and got a paintbrush, and then directly drew on the paper the general appearance of the factory where Qin Yuan went to the United States before.

Qin Yuan was even more surprised when he saw the identical scene. How did this child know?

"Of course, you tell Dad, how do you know this place? And how do you know what Dad thinks?"

Qin Ran stretched out his little finger and pointed to his head, "I don't know, I can sense your emotions when I'm close to you, I know you're worried, and I can see what you've seen when I'm in your arms. "

I didn't expect my child's ability to be stronger than myself. Now that he is only a three-year-old child, he can actually have the ability to sense. What he does is like copying, completely copying what other people see.

Is this another kind of genetic mutation? After the military recovery system in my body was transferred to my child, another change occurred.

The next morning, Grandma Sun still felt strange, and she kept nagging at Qin Yuan, "This is really strange, how did this security guard do such a good job? If you don't do it, you won't do it. Leave me a letter of resignation." The letter just left, and it became clear at the moment, I still have to find someone."

"Grandma, maybe there is something urgent at home, let's understand it, and just look for it again, but this time, let me recommend it. People I know will come here directly when the time comes."

"There's nothing to do about it. What do you think is going on with this young man? Isn't this causing trouble for others? Then you should take a look quickly, and someone you know will recommend it."

Qin Yuan nodded, and then made a phone call. Now he has to solve many things, especially about children.

The child's system ability is stronger than his. Although this is a good thing, it is not a good thing for a three-year-old child. The child does not know how to control himself, and many things are done unconsciously.

When Qin Yuan was worrying about his child, he suddenly thought that his system could be recovered, just like the preliminary system he recovered from Wang Zhi before.

"Can the system recover the system on Qin Ran now? Is she a primary system now?"

"Answer the host, there is currently no way to recover it, because the system she carries is the same as mine, it is my subsidiary system, and I need to upgrade again to be able to recover it."

I didn't expect it to be like this, but it can wait. According to the system, as long as it is upgraded next time, it can be recycled. In this case, recycling the system is also a good thing for the child.

On the other side, Zhang Meng is conducting drug research and development in the laboratory. There are too many things that have been delayed during this period, and the successive damages of the drugs have caused considerable losses to the headquarters.

The swallowing capsule developed by Zhang Meng and the others was sent to the research base. Once, in order to prevent other accidents, a special plane was directly sent to carry it. Qin Yuan could not make any more moves. If he continued to make moves, he might be watched. Out.

All he needs to do now is to wait, to wait for Wells to explode, because Wells' plan should be about the same.

A week later, Zhang Meng was still processing drugs in the laboratory, when she suddenly received a call from the man in the mask telling her to return to the base immediately.

When Zhang Meng hurried to the base, she saw the masked man sitting in the meeting room with a serious face. No one dared to speak, so she walked in silently and sat beside him.

The masked man suddenly threw an experiment report in front of her, very angry, "Look, this is the data of your batch of drugs. What's going on? The capsule I asked you to develop can be used on the battlefield. The kind that exerts its effect and kills people, what is going on!"

Zhang Meng took the experiment report and looked at it. This is simply too strange. The fatality rate of the medicine she sent this time only reached 35%, less than half.

But it shouldn't be, it's a drug from her system, and then it's combined with another toxic ingredient from someone with a system, the two are mixed together, it shouldn't be.

But the result of the experiment is here, he frowned tightly, and didn't know what to say for a while, the masked man was very angry, and now everything is not progressing.

"I don't want to talk about what happened to Qin Yuan before, but now you have screwed up even the most basic drug research and development!"

"Sir, this experimental data, when I used animals in the laboratory before, was very accurate, and the causative force could reach 98%. Why did it become like this when it was applied to humans?"

"Is this the time for you to ask me? I'm asking you. You guys have been doing this experiment all along. How much time wasted on me?"

If this batch of medicines were to be sent to the battlefield in country c according to the previous agreement, they had missed their appointments there twice in a row, and now the result of the third experiment was like this, which made the masked man very angry.

This is all a good thing Wells did. He quietly switched the research data and falsified the data, mainly to prevent Zhang Meng from coming down and make the masked man suspicious of her.

On the other side, Qin Yuan was also very cooperative. He directly summoned the red blood cell team, and then came to the vicinity of the experimental base.

Everyone was very excited when they heard that there was a mission. After all, they had come into contact with that mysterious person before, and after such a long time, there was finally news.

However, Qin Yuan looked at his watch and said, "From now on, everyone's speed will be reduced, and we will delay the entire battle by ten minutes."

"Brother Qin, what you mean is that we will continue to interfere inside."

"Yes, try to brainwash them and delay the time, so that these people have enough time to escape."

Li Erniu was dumbfounded when he heard this, wouldn't it be enough for them to rush in and kill everyone? Why give them time to escape?

Qin Yuan has no way to explain it, mainly because he passed through the system's detection line, and the masked man sitting inside is a clone, and the real master has not been found yet, this is just one of the bases.

Qin Yuan only needs to make a play now, and let them draw the fire to Zhang Meng. This trick is called praying mantis catching cicada, and the oriole behind.

Although the team members didn't understand, they still followed the order form. After all, obeying orders is also the bounden duty of soldiers.

The masked man and the others are still having a meeting in the conference room, mainly for the problem of the capsules this time. The battlefield in country C has been urging them to come up with a solution as soon as possible. The previous laning drugs have not appeared until now.

The celestial organization sent people to negotiate with these countries in war, and then promised to use their medicine to directly resolve the battle in a short period of time, and resolve the war more quickly than scientific and technological weapons.

As a result, because of the delay in the drug experiment, successive accidents prevented the delivery of their drugs on the battlefield in country C.

The masked man was very angry. He looked at Zhang Meng, "The organization will not raise some useless people for nothing. If so, I will transfer other people from the headquarters to your position, so you don't have to do it."

Zhang Meng felt aggrieved and anxious when she heard this. She didn't know what the problem was. It was obvious that she was doing experiments on animals, so there was no problem.

At this moment, a violent explosion came in from outside, and the masked man reacted instantly. He stood up, and several bodyguards also rushed in.

"What's the situation outside? What's going on?"

"Sir, it seems to be the red blood cell team. I saw Qin Yuan. Only that guy's marksmanship can be so accurate. Our defense in front has completely failed."

The people in the meeting room panicked when they heard it.

The masked man yelled loudly, "What are you panicking about? Those who are defending outside now, just hurry up and retreat. Remember to take all the data and destroy everything that can be destroyed."

After he finished speaking, he turned his head and took a meaningful look at Zhang Meng. It was the red blood cell team again, and this time it went directly to the experimental base here. What's going on?

Zhang Meng didn't know at all, because Qin Yuan never mentioned this matter to her.

Because of Zhang Meng's special status, it is not yet known whether Qingyuan has discovered her, so the masked man can only take her into the car and follow Wells.

According to Qin Yuan's usual speed, he had already entered the meeting room, but now he deliberately left time for them to escape.

So when Qin Yuan and the others came, those people had already escaped successfully, and the factory was already a piece of garbage, which could be regarded as destroying one of the experimental bases.

The masked man and the others got into the helicopter at the moment, and he stared coldly at Zhang Meng next to him, "What's going on? It's never possible to disclose anything in a base. There must be something wrong with one of your links."

Wells even took this opportunity to strike while the iron was hot and said: "If I remember correctly, you and Qin Yuan have been walking very close before, and I wondered if you were a double-faced spy? On our side Do things, and then do things for Qin Yuan."

Faced with such slander, Zhang Meng was also very angry, "I don't know what you mean by saying that, if it is really my whistleblower, then do I need to expose myself like this?"

"It's nothing impossible. After all, according to what you said to me before, this is a bitter trick, and the previous accidents have nothing to do with you. I don't know how you can explain it."

"You! You are talking nonsense, I don't even bother to explain to you."

Speaking unintentionally, it sounded intentional, the masked man had been very suspicious of Zhang Meng before, the accidents happened one after another, and this time, another one of their experimental bases was destroyed.

This is another loss for their organization. Qin Yuan has a really good nose recently, and he has destroyed their experimental systems one after another.

Compared with Wells' slander, Zhang Meng paid more attention to the masked man, but at the moment he didn't say a word, and didn't say anything.

The masked man also has his own plans, he wants to interrogate him again, he is becoming more and more suspicious It was not an accident before, as Wells said, this cuteness may be a double spy.

The real behind-the-scenes bosses have already run away, and the experimental base has no meaning. Qin Yuan directly blew it up with a grenade and arrested everyone.

Then he asked the team members to go back first, and now he needs to perform the task alone.

Thanks to the monitor that Wells put on Zhang Meng, Qin Yuan's system can sense and locate the monitoring device. He has been in contact with it once before, and this time he used this device to track him all the way.

The masked man is very cautious. Although he is just a clone now, he can't reveal the location of other bases. Everyone first found a building to hide.

The most critical question now is to interrogate Zhang Meng. He feels more and more that Zhang Meng has a big problem.

Just as Zhang Meng entered the room, the masked man followed her up. Before she could speak, the numb pain came again, and she fell to the ground, twitching violently.

This time the punishment was very long, and the masked man didn't mean to pause at all. Zhang Meng felt that he was about to die, and kept going back and forth on the verge of death.

"First... sir!"

The masked man just stared at her coldly, "It's come to this point, are you still unwilling to tell the truth? Have you reached some kind of agreement with Qin Yuan?"

The masked man finally let go of his hand, and Zhang Meng gasped for breath. This feeling of being able to breathe fresh air again was like being reborn.

Chapter 1105: want to instigate rebellion

The masked man saw that Zhang Meng still had no intention of explaining anything, and planned to press the button again, "You are in front of me, you'd better not hide anything, this kind of feeling that makes you want to die, I have many ways to deal with it." Let me tell you, you'd better confess now."

"Sir, I...cough, I really have nothing to hide. I never thought of betraying the organization, including Qin Yuan's side. I never had any entanglements with him."

The masked man didn't believe it at all, and at this time Wells even handed over a piece of evidence, which was what he had listened to before. Although he didn't listen to much, it sounded like they were very ambiguous from the recording.

The masked man was very angry. Zhang Meng was supposed to be the biggest chess piece, and planned to stay beside Qin Yuan all the time. Unexpectedly, this guy had the intention of betraying him.

Faced with such a recording, Zhang Meng stopped abruptly. He didn't expect Wells to be so despicable, and put a monitor on himself.

"Sir, you must not trust him, I have never done anything like that."

"Then what's going on with this recording? From this recording, your relationship is not that simple!"

"The recording can't prove other problems. I didn't do anything, especially the betrayal of the organization. I never thought about it!"

Zhang Meng said it almost in a growl, because she knew that if she didn't try her best to prove her innocence, the masked man might do other crazy things.

Regarding the relationship with the recording, the masked man was even more suspicious of Zhang Meng, and he took out another tool.

"Do you know what this is? This one is re-developed by us. The system on your body is given by us. I also have a lot of ways to deal with you."

Zhang Meng looked at what was going on before he could react to the thing in his hand with a look of horror. Suddenly, a pain came, first from the bottom of the foot and then a string, and the bones on his body seemed to be broken, the heart-piercing pain The pain in her lungs made her unable to make a sound out of her throat.

This kind of repeated torture is the most frustrating, because there is no trauma, but it can make people feel great pain.

The masked man is very satisfied with this torture device, which is specially aimed at people with systems like them. This torture device can resonate with their systems, and then cause a huge pain to their bodies from the inside.

Wells next to him saw his eyelids twitching. He was a little guilty, worried about what he had done before, and whether he would find that such punishment seemed too inhumane.

The masked man repeated this over and over again, and finally Zhang Meng couldn't take it anymore and passed out from the pain.

"Hehe, I thought how strong your tolerance is. It seems that you didn't lie to me, and you have already reached this level."

Wells was a little unwilling. The reason why he targeted Zhang Meng so much was because he wanted to move to him. More importantly, Zhang Meng had a system. If Zhang Meng was killed, his system could be transferred to Wells' body.

The masked man and the others studied that most of the systems are unknown, all functions are initialized, and only after one time do they know what kind of system it can become.

Zhang Meng now has a ready-made drug delivery system on his body, and Wells's own system belongs to the immortal system, which belongs to the immortal body. This system sounds very powerful, but it is also very weak. He wants to have other Ability.

For example, Zhang Meng's system dispenses medicine, so that he can monopolize the power in the future, and all the steps in the future can be completed by himself alone.

Seeing that he was targeted several times, the masked man didn't have any intention of killing Zhang Meng, he just turned around and left, and Wells hurried after him.

"Sir, I think this woman's mouth is too rigid. He refuses to say anything. There must be something wrong. Otherwise, the previous two times can't be accidents. Our security measures are so good."

"Oh, so what do you mean by that?"

"I suspect that there is definitely something wrong with her. According to their Yan Kingdom's saying, it is better to kill the wrong than to let it go. If she is kept by our side, it is really a dangerous factor. Our secrets have been completely leaked."

When the masked man heard this, he turned his head and looked at him interestingly, "Are you questioning me?"

After finishing speaking, he stretched out his hand and patted Wells on the shoulder. In an instant, Wells fell to the ground like an electric shock, twitching non-stop.

Wells' eyes widened, and he tried to control his figure and begged for mercy, but the strong electric shock made him unable to do anything.

The masked man looked very disgusted at the person who fell on the ground, but said disdainfully: "I haven't pursued it yet, you put a monitor on her casually, you have to know that this is a very important chess piece, Qin Yuan is very cautious, if this plan is destroyed, I will not spare you."

For him, these people are all pawns. As pawns, they only need to be obedient, and there is no need for them to act last time, because they cannot bear the consequences of this unauthorized action. Qin Yuan is very cunning.

On the other side, Zhang Meng finally woke up in the middle of the night. Her bones seemed to be falling apart. She struggled to crawl to the side and leaned against the wall.

Her lips were white, her throat was almost dry and smoked, and there was not a drop of water. This was the punishment of the organization. The masked man was very cautious, and no one believed it.

She raised her head, looked at the moonlight outside the window and wept silently. She didn't know how many times she would go through this kind of pain, but it was that guy Wells.

Although her system can be used to deal with all kinds of pain, she can be immune to it, but the equipment in the masked man's hand doesn't work at all, which is completely restraint for them.

Zhang Meng suddenly saw a figure jumping in from the window. Before she could react, someone covered her mouth with her hand. She turned her head to look, but she didn't expect it to be Qin Yuan.

Qin Yuan's strength was so great that she couldn't struggle at all, but she didn't know why Qin Yuan came to this place to do it, and what was going on.

Qin Yuan looked at her and made a silent movement, "It's too late to explain so much, you follow me first, leave here first and then talk."

Zhang Meng definitely won't do it, and it's hard to tell if she will leave now, but Qin Yuan didn't give her this chance at all, kicking the door open and rushing out.

Now it's all right, everyone outside heard it, and the guards guarding the door also noticed it, but they didn't have time to react, and they were killed by Qin Yuan directly.

Organized people rushed out from inside, Qin Yuan took Zhang Meng and ran towards the outside quickly, this time it was even more unclear.

It has to be said that Qin Yuan did this on purpose. If he wanted to take Zhang Meng away quietly, it would be too simple, but he just wanted to make such noise on purpose.

And he didn't stay too long, he just told these people that he was here, and he took Zhang Meng away quickly, and the masked man chased him out angrily. He clenched his fists and looked at the corpse lying on the ground.

"These two ***** and Zhang Meng really dare to betray me!"

Wells didn't think it was a big deal, and said directly next to him: "Sir, or just activate the destruction system and let that stinky ***** Zhang Meng fend for herself outside. This is the end of her betrayal of the organization."

The strange thing is that the masked man kicked him to the ground, then left angrily without saying anything.

Wells couldn't figure it out for a while. This is not in line with their boss's style. According to this situation, since there is a traitor in the organization, he will definitely not let it go. He will directly start the destruction program and remotely control her system.

As for the masked man, it wasn't that he didn't want to start the destruction program, but that he unbind Zhang Meng's system in order to avoid being discovered by Qin Yuan.

The masked man could only get angry in the room, and he can't do anything now, but he will definitely not let Zhang Meng go, this is the first time a traitor has appeared in the organization.

At this moment, Zhang Meng and Qin Yuan had already run away, and she was carried on Qin Yuan's back, unable to move at all.

Qin Yuan saw that no one was chasing her, so he threw her on the ground. Zhang Meng was very angry and wanted to run back without any hesitation, but was held down by Qin Yuan.

"Where do you want to run now? I finally rescued you, and you didn't even say thank you, and just ran towards that side without saying anything. What do you want to do?"

"You bastard, you are going to kill me. You don't know what methods those people will use. I want to go back now."

"Hehe, I think you can't go back now."

Qin Yuan strangled Zhang Meng's neck, "I really didn't expect that the traitor turned out to be you. You have been lurking by my side for so long, including my daughter's information. You must have leaked it."

Zhang Meng was caught and didn't know what to say for a while. She rolled her eyes and said, "It's just that you misunderstood all this. You will only delay my plan, you know? Can help you, help us all."

When did she smile, this guy is still biting back now, saying that he delayed her plan, does she really want to be a counter-spy?

Qin Yuan looked into her eyes and touched her forehead with his hand. Just like that, Zhang Meng was controlled and successfully invaded her system.

He didn't have time to ask many details, but after confirming that Zhang Meng was indeed the spy there, he let go of the system.

"You may not know it. My system has been upgraded now. You lied to me for the first time before, but it's impossible now."

Zhang Meng looked at Qin Yuan with confident eyes, and she lost all control at that moment just now.

"So you already knew that I was a traitor. From the very beginning, you already knew that something happened to the medicine in the sea, right?"

"I really can't help it. I discovered some problems unintentionally. That's why you didn't harm so many people. You don't have any regrets now. Do you know how many people will be harmed by those medicines?"

Zhang Meng bowed her head when she heard this, but she couldn't help it. The real mastermind behind her was the masked man, and she was just a tool.

After a while, Zhang Meng raised her head and said slowly: "So you did it on purpose. You deliberately let them misunderstand me. Now I can't go back at all!"

"Right, so you have only one choice left now, and that is to choose to cooperate with me. I think you should be very clear about his conspiracy behind this and the specific situation of this organization."

The main reason is that the masked man is too cunning, and Qin Yuan can't catch other important points. Now he can only find clues from Zhang Meng.

So he planned to instigate Zhang Meng, and now he has pushed Zhang Meng to a dead end, she had no choice but to choose herself.

Hearing this, Zhang Meng smiled self-deprecatingly, "Hehe, Captain Qin, you really think highly of me."

"Now you can think about it for yourself. I will definitely not hurt you. If you choose to cooperate with me, I can protect you."

"Protection! What do you use to protect me? You have no idea how powerful they are, how many people are involved behind this, and your strength alone will not work."

Zhang Meng was suddenly very excited. She roared out this sentence, and then completely slumped on the ground. She also knew that she had no choice. Even if she went back this time, the masked man would not believe her at all.

"Qin Yuan, you really did me a bad job. Now I may be hunted down endlessly That guy is ruthless and will never let me go."

"You know how to be afraid now. It's so valuable. What about those innocent people who were killed by you? Who will decide their lives? How long are you going to do this endlessly?"

It is still not suitable to stay in this place for a long time. After Qin Yuan finished speaking, Zhang Meng was knocked out with a punch, and then he carried it on his shoulder and continued to set off.

It still has to be a matter of time. He still has the confidence to instigate Zhang Meng's rebellion. If it really doesn't work, he will ask one question after another until all the inside information is revealed.

The reason why he didn't forcefully intrude like that was because he was worried that before what happened before, he also tried to intrude those with systems, and soon they would generate a self-destruct program.

When Zhang Meng woke up, she found herself trapped on the bed. She tried to break free, but the handcuffs were so tight that she couldn't break free at all.

At this time, the door of the room opened, and a person walked in. She took a closer look and saw that it was Qin Yuan, but he was still holding a child in his arms.

Zhang Meng didn't know what he was going to do, but said coldly: "No matter what you do or what you ask, I won't tell you. You don't know how terrible they are. You can't even imagine how terrifying they are. It's a huge group."

"I did this not only to save those innocent people, but also to save you. You are actually a victim."

Zhang Meng might have been touched by these words, she didn't have that much resistance, she just calmed down and looked at Qin Yuan in front of her.

Chapter 1106: sabotage factory

Qin Yuan also planned to play the emotional card with her. To be honest, Zhang Meng really didn't get to know her deeply.

"If I don't do this this time, I don't know how many innocent people will be there, and do you want me to really do something to you? When I really confront him, do you think I will let you go, let you go?"

Zhang Meng raised his head and glanced at Qin. He was very capable, and what he said was true.

"But you have no idea how terrifying this organization is. I thought about escaping before, but it was impossible. The people behind them are very powerful."

Qin Yuan smiled and hugged his daughter in front of him, "I've never been afraid of these things, and I'm even less afraid now that I have a child, especially since he wants to target my child, which has touched my bottom line, no matter what, Even if the entire country of America is behind him, I will not be afraid."

Qin Yuan's words completely shocked Zhang Meng. This is indeed the bottom line of a father, not just as a soldier.

Zhang Meng was silent for a long time, and finally spoke, perhaps for the sake of the child, the child didn't know anything, and was still calling her auntie.

"I don't know much about them, but I do know about his identity."

Zhang Meng was selected by them when he was 15 years old. At that time, they were going to conduct experiments, but they were not as direct as they are now. They also have strict requirements on the implanted people, training them like training agents.

And the training is different, like Zhang Meng's physical quality is not good, the main training is other aspects, including her study, employment is arranged by the organization, especially the study is all paid by the organization.

So it should be taken for granted that she will work for the organization after she comes out. This is what she should do. Later, she was implanted into the system, and she did not expect to fit the system.

According to Zhang Meng, among the 30 people who experimented with her at that time, she was the only one who survived.

Moreover, this organization is ruthless and will not give up until it achieves its goal. If the experiment fails, it will continue for so many years. They have secretly conducted many experiments.

At the beginning, they wanted to achieve a fully organized army with the oil suppression system. This time, the army can be a thunderbolt, but they gradually discovered that the abilities of these systems are different. Going to the battlefield with an ability like her is undoubtedly death. .

It is basically difficult to achieve Qin Yuan's powerful military recycling system.

Zhang Meng looked up at this point, "I have contacted seven or eight of the current organizations, and there are all kinds of people in them, and their abilities are different, but yours is the most special and powerful ."

"You mean there are a lot of people with systems like this."

"Yes, they have been experimenting for so many years. According to my understanding, there are at least a dozen people with the system. They can only be regarded as people I know. I haven't come into contact with many core contents."

Qin Yuan's face was a little serious when he heard this, but the abilities of these systems are different, like Zhao Tao, like Zhang Meng, if there is basically no threat to him, otherwise the masked man would have made a move up.

Zhang Meng continued, she only knew that the organization called Celestial Body should be backed by Mi Guo.

This is a secret she inadvertently explored during a meeting. Miguo wanted to form such a powerful army, but this dream was shattered. These people have different abilities. They can only use the abilities of these people to do other things. matter.

Just like what Zhang Meng is doing now, in her situation, there are many systems that can be obtained in various places. They use these systems to conduct secondary research, integrate them into another technological weapon, and then apply them to on the battlefield.

"But it's been so many years. Isn't their experiments, especially those with a system like this, not enough? Their experiments are still going on."

"I don't know what happened in the past few years. Those who used to have the system have slowly lost the ability of the system. The system seems to be automatically shut down, and there is no response. They are doing experiments like crazy."

Qin Yuan felt hopeful when he heard this. If he said so, the system could be automatically shut down, and his child would be saved. He would rather his child be an ordinary person than him.

Zhang Meng only knew that the organization behind the celestial body must be the country of Mi, and the specific person in charge was the masked man, but she didn't know the identity of the masked man, because that person was very mysterious, and basically no one knew his true face.

"They will not give up until they achieve their goals anyway. I know that your child also has system capabilities, so you must be careful."

"Of course I know this. That's why I want to protect my family and my children. What I hope is that he won't have such a system capability."

Qin Ran blinked his big eyes, not understanding what the adults meant, and was eating a lollipop beside him.

Zhang Meng asked tentatively: "Your child, what is her ability?"

Qin Yuan immediately became vigilant, "What do you mean? Don't you know her ability?"

"Don't be so excited. I don't have any malicious intentions. I just want to know clearly. I'm just curious. The masked man never gave us any contact with him, and he just reported the situation to him."

Qin Yuan thought for a while, and it doesn't matter if he talks to her anyway, "She has a powerful recovery system like me, and with her current ability, basically no one can hurt her,"

Zhang Meng was stunned when he heard this. He didn't expect that the child would be perfectly inherited. No wonder the masked man wanted Qin Yuan's genes so crazily.

His perfect genes can all be passed on to his children, so there is no need to do those experiments before, everyone can be a powerful recycling system.

Zhang Meng couldn't help reminding, "I think it's not your child who is in danger now, but you."

Qin Yuan felt that this was a bit ridiculous. His current ability was basically invincible. It was impossible for anyone to be able to do it, and it was more likely to threaten him.

"Don't you think it's impossible? At present, no one is my opponent. With my ability, it's like entering your base, and I can come and go freely. Including the first two accidents, I was indeed caused."

"I know this. I know that your ability is very strong. Now they are developing another new type of equipment that can control our system. If you don't have the system ability, do you think you can beat them?"

Qin Yuan is not worried about this problem. He has already asked about his system before, and now his system has been upgraded to a god-level system. It can be said that it is completely out of control. No matter what equipment they are using, there is no way to control his system. Take control.

He didn't tell Zhang Meng that no matter what, he still couldn't fully trust this woman, and he still kept some things that should be kept.

The masked man must know about the system on his child, that's why he was so crazy and targeted himself many times.

"Okay, I've said so much, I just want to know where his other bases are? I won't let him continue to harm people like this."

"Are you crazy? Don't you understand what I mean? There are many people with systems in his bases, and all you do is to die by yourself."

"You just need to tell me, I have my own plan."

Zhang Meng shook her head helplessly, she had already said what she had to say, especially now that the new device developed by the masked man had a control effect on their system.

She had no choice but to tell Qin Yuan about the remaining bases.

Qin Yuan's speed must be fast, he must completely destroy these experimental bases, and then he can lead out the real masked man, and now he is only confronting himself as a clone.

There is not much time left for Qin Yuan, he wants to destroy those bases as soon as possible before the masked man is transferred, and there is only three months for him and Gao Shiwei to apply for vacation.

As for Zhang Meng, just stay here and let Long Xiaoyun take care of her. Now he is not worried about her running away at all, because she has no other way, and it will be more dangerous after she runs out.

"I think you should already know what I'm going to do. You'd better stay in this place wisely. Running away is not the best choice."

Zhang Meng turned his head and did not speak again. Qin Yuan took the child and walked out. He sent the child back to the compound of the military region. It is the safest place now, and he can deal with the masked man wholeheartedly.

According to the clues provided by Zhang Meng, Qin Yuan came to Xiaomao Country. There are two experimental bases in Xiaomao Country, one is at the pier and the other is near the airport.

These two positions have mastered important transportation channels, and the drugs they experimented here are transported from here to other places.

Some inhumane experimental equipment is produced here. These two places can be said to be particularly important. As long as this place is destroyed, some of his transportation channels will be interrupted.

On the other side, the masked man is also rapidly deploying the plan. Zhang Meng knows too much, especially the locations of several laboratories, but it is a big project to move so many laboratories at the same time.

Just when he was struggling with what plan to use, a member of the organization ran in in a panic, "Sir, it's bad, our two experimental bases in Xiaomao Country have been blown up!"

"what!"

The masked man was very excited, and he stepped forward and grabbed the person who came to report, "How is this possible? What's going on? I have deployed a lot of people over there, and there are a few special people there. Will it be breached?"

"This...sir, I received a report from there, and all the equipment on our side has been destroyed!"

The masked man cursed secretly, and now he has no choice but to go over there to see the situation, and he immediately organized people to rush to the little Mao country.

At this moment, Qin Yuan has already left in a cool way. This is insignificant to him. As for the few special people he mentioned, they all have systems, and it just so happens that those systems are reluctantly accepted by him.

Qin Yuan changed into a suit of clothes, sat on a bus, came to the end position, put on a hat and began to close his eyes to rest.

It looks like a tourist who came to travel, there is nothing unusual, and at this moment, he is manipulating the system in his mind.

During this explosion, three special systems were recovered, one of which he was particularly interested in was the time system. At that time, because he was in a hurry, he didn't pay attention to recovering all of them. Now he is slowly researching.

"System, start recycling."

The system quickly analyzes and recovers after receiving the instruction.

"Ding! Congratulations to the successful recovery of the host, please choose a skill."

Qin Yuan was even more happy when he heard this. This system is very powerful after it is upgraded. He could not recycle the same system before, but now he can directly recycle it and transform it into his own ability in the future.

"1. World-class time delay technique, which can delay the time in the same space, and the delay time multiplier is 0.5 times."

"2. World-class time control technique, which can manipulate the time in the same space, and the freeze time is three minutes."

"3. World-class time capture technique, which can capture time in the same space, and the manipulation time is five minutes."

Qin Yuan is quite satisfied with these three skills, as long as it is about time, he does not have this skill yet.

He clicked on it and looked at the details of the third capture technique. It was like fast forwarding, allowing the time to be fast forwarded to five minutes later.

This skill sounds a little weak, so it is better to choose the second one, which can freeze the time. Although it is only three minutes, for him, three minutes is enough to solve a battle.

"System! I choose the second one."

"Ding! Congratulations to the host for successfully selecting and obtaining a world-class control number."

Following the prompts from the system, the skills began to be integrated into Qin Yan's mind. This time, the recovery was special, as it was extracted from someone else's system, so the recovery time was relatively long, lasting for three hours.

Qin Yuan looked at the time. In this case, the other two skills can be studied later, and the system should be recovered first.

At this moment, the masked man has arrived at the pier of Xiaomao Country. This factory is very important and is their transportation hub.

There was still a raging fire inside the factory, with thick smoke puffing out one after another, and there were corpses of organization members everywhere, and some of them could no longer be recognized.

There is no way to remedy this situation, "You bastard! And Zhang Meng really completely betrayed the organization."

"Sir, what should we do now? Do you want to transfer the other factories?"

"Nonsense, with that guy's ability, he can't resist it at all. Let everyone prepare for the transfer, and transfer to the headquarters first."

He was thinking about the location before, and he couldn't make perfect preparations for the sudden transfer of so many factories, but seeing the current situation, he couldn't help it.

Chapter 1107: plan to instigate rebellion

Now he can only let those organization members catch the factory equipment to speed up the transfer, and then go back to the two factories, and the production chain on his side will be completely broken.

Among the several factories, one is a military factory, and the other two are drug manufacturers. The drugs they extract are re-refined and produced in the factories here.

In particular, the military factory is also very important, and it is their only backing now. If the military factory is destroyed, they will lose the right to speak in many things.

But Qin Yuan's speed was faster than he had imagined, and two factories were destroyed one after another. The most important thing now is the military factory. He personally led people and was transferring the ammunition in the factory.

At this moment, Qin Yuan is watching on the hillside in the distance. Now he uses the ability he obtained before to stop time, which is effortless. The two factories before were blown up in this way.

Now he is more and more looking forward to other people with system ability here, so that he can carry out other recovery and strengthen his own strength.

Seeing what they were carrying, Qin Yuan almost rushed out. Like an arrow on the string, the flying knife in his hand quickly slashed across the guard standing at the door. He felt a strong wind blowing, and then fell into a pool of blood. .

His speed was so fast that the sniper on the wall also spotted him and was about to shoot when a poker card passed his throat. The sniper couldn't figure out why this man's speed was so fast. can do it so fast.

When the masked man heard the movement, he picked up the binoculars and saw someone jumping towards him in the distance. Qin Yuan was so fast that he had already reached this position.

Wells also sucked in a breath of air. Although he has system capabilities, it is absolutely impossible to do what Qin Yuan did.

Those members of the organization outside couldn't stop Qin Yuan's footsteps at all, and soon he got rid of those people outside.

Wells and the masked man were followed by two people with systems. They were waiting for the helicopter to pick them up. They didn't expect Qin Yuan to rush in so fast.

Qin Yuan knew that the person in front of him was just a clone, so there was no need to kill him now, or it would be the same if he didn't kill him.

Wells couldn't wait any longer, he slowly clenched the gun in his hand, and the two people with systems next to him were also ready, and their system capabilities were very strong.

"Sir, let's go out together later, you use a gun to deal with him, and we go together, I don't believe we can't deal with this monster."

The masked man lifted the corner of his mouth and smiled, his eyes were full of self-deprecation, and he admired Qin Yuan very much.

He didn't pay any attention to what Teacher Wei said, because he knew that these people present were not willing opponents at all.

"Qingyuan, we met again. I didn't expect you to be so fast, and you are also quite capable. You even instigated one of my subordinates. You are amazing."

"I said before, no matter where you go, even to the ends of the earth, I will catch up with you, and you know what not to move, you know that is my bottom line."

"Are you talking about your child? If you didn't mention it, I almost forgot about it. Don't worry, it will definitely become my perfect experimental target. I will conduct repeated experiments on it."

After the masked man finished speaking, he burst into laughter. He just wanted to provoke Qin Yuan on purpose. This guy was very despicable, and Wells next to him didn't understand.

"Sir, should we do it now? The four of us should still have a chance of winning against one of him."

"It's impossible for you alone, but you have an immortality system. Remember that we can meet again next time."

Wells was confused when he heard this, what exactly did he mean by this?

In the next second, the masked man jumped off the roof directly. It was almost fatal. This side of them was the factory office building, and this side was the roof of the 17th floor. Going down from such a high floor was completely fatal.

Because he was originally a clone, and now he was only executing the orders of the main body, Wells and the others were completely stunned, and they couldn't figure out what this operation was.

"gentlemen!"

Qin Yuan didn't bother to talk to that clone, it didn't matter at all now, it didn't make any sense, these people were the most valuable in front of him.

He stepped forward, and a man standing on the left suddenly made a move on her. The system on this guy was a speed control system.

His speed was very fast, even surpassing Qin Yuan, and he appeared directly in front of Qin Yuan in the next second, and the dagger in his hand was also slashed towards him, but he underestimated Qin Yuan's defensive power, the knife in his hand was fierce. It was inserted into Qin Yuan's body, but there was no change.

Qin Yuan snorted coldly, kicked the man in the chest, and he fell to the ground in an instant. Wells next to him had a look of surprise on his face. He was about to make a move, but Qin Yuan snapped his fingers in the next second and directly controlled the man. live time.

Now that he has no time to entangle with these people, he might as well absorb their system directly.

The time is only three minutes, so Qin Yuan has to hurry up, he is very interested in this man with speed, this speed even surpassed himself, he came into contact with the man.

"Recover his system immediately."

"Ding! Remind the host that this system is a low-level system, and it won't make much sense after recycling."

"The speed has far surpassed me. How can this be considered a low-level system?"

"It's just because their current system capabilities have been enhanced, and the system itself has been improved, but it is still a low-level system, and I can't make other skills after recycling."

Qin Yuan felt a little strange. It seemed that there was something wrong with the masked man, and he should have made some kind of improvement to the system.

But contacting another person, the system on this person is also a low-level system, which is of no use to him at all. Now he has the most comprehensive and strongest recovery system.

Qin Yuan shook his head, since it was useless, he directly dealt with it. His throwing knife quickly slashed across the throats of the two of them, and when he was about to attack Wells, this guy also jumped from the roof of the building suddenly.

Qin Yuan followed closely, and it seemed that three minutes was up, but the man in front of him was not afraid. After all, he had an immortal system. For him, even if he fell from this height, he would not die.

As soon as they jumped down, they saw the corpse of the masked man. The appearance of this corpse was no different from that of a normal person, but it was just a puppet.

Qin Yuan easily caught Wells, and he stared at Qin Yuan with horror at the moment, because he couldn't believe that someone fell from a building more than ten floors away, and nothing happened.

He is because of his own system, even if he falls, his system will not let him die, this is his system ability.

"You! You are simply a monster, and there is nothing wrong with you."

"We're just each other, aren't you okay?"

Qin Yuan originally wanted to kill him directly, but after thinking about it, there are other uses for keeping this guy.

Seeing that Wells should know more things, not too different from Zhang Meng, you can ask him some useful things.

"You know, if I want to kill you, it's as easy as killing an ant, so you'd better answer my question honestly."

Wells was very troubled, he looked around, and then at Qin Yuan, "Why should I answer your question? Anyway, I'm dead anyway, so why don't you just kill me directly."

"How do you know that cooperating with me will mean death? I appreciate your ability very much. You can be on my side like Zhang Meng."

Wells laughed out loud. He doesn't believe in Qin Yuan at all now. In his mind, Zhang Meng is already dead. The masked man is such a heartless person, it is absolutely impossible for him to endure such a traitor.

"Don't fool me here, this trick is useless to me, that ***** Zhang Meng is probably already dead."

"How did you know she was dead? If she is really dead, how do I know these things? She told me personally. I am very tolerant to those who are willing to participate and stand on my side." ."

Wells was a little surprised to know that Zhang Meng was still alive, which was not in line with their boss' style, "How is this possible, you'd better not lie to me."

"Why do you think I lied to you? If you want to go to Zhang Meng now, I can take you there. I know your ability and even the little things between you."

Wells was shocked, what else does this guy know?

"If you choose to go back now, it's fine, but I need to talk to your boss. The fact that you concealed some real data before did not have a small impact. It was just to frame others, but..."

Hearing what Qin Yuan said, Wells was completely stunned. This matter must not be known by the boss. If the boss knows, the consequences will be unimaginable. He can't even stay in the organization.

"You bastard, you actually eavesdropped on our conversation, what else did you hear?"

"Don't be so anxious, don't speak so harshly, I eavesdrop on you, that's not why you wanted to spy on me first."

Wells was stunned for a moment, he didn't know what to say, now that Qin Yuan is forcing him, it must be impossible for him to return to the organization.

But he looked at the corpse on the ground, the boss is dead now, will the organization replace another boss and let him go.

Qin Yuan saw his careful thoughts at a glance, "I know what you are thinking, don't think about those useless things, this person is impossible to die, this one is just a substitute."

Wells was completely shocked, why Qin Yuan, an outsider, felt that he knew more than he had been in for more than ten years.

"If you want to know something else, you'd better choose to cooperate with me. What I need to know is also very simple."

For this sake, Qin Yuan felt that Wells would definitely go with him, but unexpectedly he shook his head.

"Just now you said that he is not dead, then we are the most dangerous. If I go with you, if I go out of his set range, I will only die. Do you understand?"

Qin Yuan looked at him with some doubts, and Wells said the rules of their organization. Those people with a system were all controlled by the masked man.

Their abilities may be strong or weak, but no matter how powerful they are, they will be controlled by them. As long as they want to kill, they can easily generate a self-destruct program by pressing a button, and the controlled person will die immediately.

Wells thought Zhang Meng was like this before, but now Zhang Meng is still alive, which makes him a little unbelievable.

In fact, Qin Yuan couldn't figure this out. It was very likely that Zhang Meng had other uses, so they didn't do anything.

"Since this is the case, you should also make a choice now. I know that you are eager to gain power, and I can help you with this."

Wells became interested when he heard this. He had been eager to become stronger before, but the masked man didn't give him this opportunity at all. He was worried about losing such a good experimental subject, so he didn't dare to try it lightly.

Qin Yuan smiled, patted him on the shoulder, and then directly used 2000 merit points to strengthen his strength a little.

Wells received a strong force and suddenly entered his body. Qin Yuan pointed to the concrete pier next to him.

"You go over now, you can try to lift it."

"How is this possible? That concrete pier weighs at least 50 kilograms. How can I lift it?"

"I've made your strength stronger just now, you're absolutely fine Wells got up dubiously, he walked over and squatted down with all his strength, he didn't expect that the fifty-pound weight He was surprised that the concrete pier could actually be lifted by him. This was absolutely impossible before.

He knocked on the concrete pier again, and it was indeed solid, this! He widened his eyes and turned to look at Qin Yuan.

"Don't be so surprised, this is the ability I strengthened for you, which is much better than your so-called boss. If you want to become stronger, I can also increase your other abilities. This is just a trivial thing. ."

"How did you do it? Not only can you become stronger, but you can even make others stronger. Your ability is really terrifying."

"At present, I can only let you know so much. If you want to become stronger, I can definitely satisfy you. I have that strength."

Wells weighed it over and over again. He felt that what Qin Yuan said was very reasonable. This person could not only make him stronger, but more importantly, Qin Yuan now had some other handles on him.

He immediately nodded and agreed, and now he will go with Qin Yuan. Unexpectedly, Qin Yuan directly rejected him.

"Don't be so impulsive, just follow me. Joining is probably just an exception. I am also worried about the situation you mentioned, so what you need to do now is to return to the organization."

"You mean you want me to be a counter-spy, and then use my identity to send you information?"

"Yes, if I want to know something, I will naturally go to you. We will not contact you in other time periods, and it will not affect anything."

Chapter 1108: emergency

The terms Qin Yuan said were really attractive. Wells nodded and agreed without hesitation. It would not be a loss to him. Even if the organization wanted to interrogate him, he would have reason to perfunctory it.

There are indeed many things in the organization that she is not clear about. To put it bluntly, he is just a pawn. When the boss doesn't need him anymore, he can be abandoned directly, or start other experiments again.

The only ones who can kill him are the people from the organization. Instead of doing this, it is better to make yourself stronger as soon as possible and get out of their control.

Now he is an immortal body with such a system, so he is not worried, Qin Yuan can kill him, but he is more worried about how to deal with it.

In this way, he and Qin Yuan reached a consensus that he returned to the back of the system and would provide Qin Yuan with some organization intelligence and news.

Before leaving, Qin Yuan specifically explained to him, "I think you should be very clear about what to say and what not to say when you go back."

Wells smiled, didn't say much, and then left like this. Qin Yuan knew that this person was very smart and had been able to stay in the organization for so many years, and he even plotted against Zhang Meng and lied under the nose of the masked man And don't panic, such a person is the scariest.

On the one hand, it is also because of the system he has, only organized people can target him.

He is very satisfied with his current ability, he can only live by relying on this, and it is impossible for others to take it away easily, so he can only fight for the opportunity for himself.

The matter here is temporarily settled. The masked man had placed all kinds of spies by his side before, trying his best to get close to him, and now he has a countermeasure for him.

At this time, it was completely dark, Qin Yuan got on the plane back, and on the plane, he turned on the system again, preparing to recover the other two skills.

However, one of the skills recovered by the system is the same as his before. He has recovered various skills from the recovery system for so many years, and it is not surprising that there are duplications.

The other system's skills are mainly about strength. His current system's recovery ability has had strength a long time ago, and it is even stronger than this one. This is another kind of repetition.

It's better to freeze the time and space before. Now he can maintain it for three minutes. I don't know if this skill can be strengthened later. It would be better if the strengthening time is longer.

There are less than two months left now, and he has done a lot of things in this more than a month. Several foreign factories related to masked men have been destroyed by him one after another.

It even alarmed Gao Shiwei, but Gao Shiwei didn't know that Qin Yuan did it. He just read foreign reports. It is said that criminals have sabotaged the factory recently, which has caused several explosions one after another.

He told Long Xiaoyun to be prepared, maybe he would receive a request from there and ask them to assist in the investigation. Such a large-scale explosion is not a trivial matter.

But this is the factory to which the masked man belongs, how could he let the outside army participate in these things? There has been no news about this matter for more than a week.

On the other side, Wells had already returned to the organization. He followed the clues he had left before and came to another factory.

He had just entered, but unexpectedly, he was controlled by the people inside. He was locked up at that time, and he yelled at the people outside.

"What are you doing? Do you know that I am the person next to Mr., and you dare to detain me."

"Hehe, let's wait for Mr. to talk about something. This one is that Mr. told us that as long as we see you, we will lock you up first."

Wells knew that the masked man was worried that he would be bought by Qin Yuan, so he wanted to test him personally. What surprised him even more was that the masked man was still alive. He saw his body with his own eyes, and it was really like Qin Yuan. That being said, it's a replica.

He has been in the organization for a full 15 years. He didn't expect that he couldn't even tell whether the person in front of him was real or not. It was really scary to think about it.

But he is more determined to make himself stronger. One day he will get out of control. If he wants to continue like this, he will be played to death by these people sooner or later.

In the eyes of these people, he was never regarded as a person at all, and he was completely a chess piece that could be used. If one day he was no longer useful, they would abandon him without hesitation.

The masked man walked in with a smile, he was really shocked, he kept looking at the masked man in front of him, it was no different from before, it was still their gentleman.

"Why are you looking at me like that? Am I any different?"

"I! Sir, I jumped down, and I saw your dead body."

The masked man is not surprised to hear you. After all, there are not a few people who have known his secrets for so many years. He has brought out so many people.

So he wouldn't kill Wells just because Wells knew his secret.

"I really didn't mean anything else, I... I can say, I didn't see anything."

"Don't worry, I won't target you because of this matter, it's just that I want to ask you about other things now."

After the masked man finished speaking, he took out a small button from his pocket. Although the button was inconspicuous, it made Wells tremble slightly.

This was enough to make him feel unprecedented fear, that kind of inhumane torture, the electric current running through his whole body, the pain was unimaginable.

"What I want to ask is very simple. How did you escape under that person's hands? I'm curious."

Wells swallowed his saliva. He was very nervous at this time, and he quickly talked about the words he had organized before.

"Because he didn't know that I had a false system, I took the opportunity to escape after I jumped from the 18th floor."

"Oh?"

The masked man didn't seem to believe what he said, stared at him coldly, and then without hesitation, he pressed the button of the cup directly, and Wells fell to the ground, twitching non-stop!

With the penetration of the current, there was endless pain, and every time he could feel the pain of broken bones, Wells rolled on the ground in pain, but the masked man didn't hesitate at all, he still stared at him coldly.

"Better tell me the truth, how could he let his guard down so much and leave without checking the corpse, and you have a system on your body, his system should be able to sense it."

"I... I don't know!"

Wells' consciousness of the pain became more and more blurred. At this moment, the masked man let go of his hand.

"Give you another chance. What's going on? Don't worry, you are very useful. Tell the truth, I will never hurt you. I can guarantee this."

Wells weighed in his heart, this is absolutely impossible, Qin Yuan will definitely not hurt him, and also gave himself the ability, comparing the two, he is more willing to trust Qin Yuan.

"I... I really don't know. Maybe he has other things. Even if you give me ten guts, I wouldn't dare to betray the organization. I don't have that ability."

The masked man kept staring into Wells' eyes. He didn't know whether to trust the person in front of him, and then pressed the button again until Wells passed out from the pain.

After he came out, he looked at the people at the door, and said, "When he came, was there anyone behind him? Is there any special situation?"

"Sir, there is no special situation. We have observed it, and he told us that his route was detoured according to your instructions before."

The masked man nodded, and asked the people outside to guard him and lock him up for three days before talking.

The current pain test method may not be very effective. He is very cautious. He suffered a loss from Zhang Meng before, but because Wells is still very useful now, he can't do it easily.

Wells' system controls his entire gene, and some of his cell genes can be used to synthesize other drugs. This person is also very important. He cannot be easily killed, but he cannot relax his vigilance because of this.

When a person is hungry, it is very easy to extract a confession successfully. After three days of starvation, Wells, who has not finished dripping water, looks a little dazed.

The masked man came in again, he held his nose and looked at the filth in the corner of the room.

"How? Are you still going to tell the truth? Let me tell you, you can't fool me. You'd better tell me the truth now. "

"I really didn't lie to you, sir, I beg you, can you let me go? I never thought of betraying the organization."

The masked man didn't give up at all, and continued to follow the previous method. After a few hours of tossing like this, Wells fainted again.

Even the subordinates outside couldn't stand it anymore. After the subordinates came in and saw it, "I think what he said must be the truth. Even in this situation, he still didn't let go. That Qin Yuan is not worthy of him doing these things."

This is true, Qin Yuan can't give him anything, only here not only holds his lifeline, but also can give him a lot of things.

"Okay, take the man down and take him to the medical room. This man won't die, he just fainted temporarily."

The subordinates nodded, and hurriedly carried the man out. Wells was indeed so persistent because of these things.

In the future, he wants to be strong even more. If he is not strong, he can only be slaughtered by others. Only Qin Yuan can give himself these things.

Qin Yuan's previous plan was very good, now he only needs to wait for Wells to send him a message to find the real body of the masked man.

This one was fine, but a phone call completely disrupted his plans.

The call was from Gao Shiwei, and this time it was an emergency, and there was nothing he could do.

"Qin Yuan, I know you're busy with your own affairs. If there's no other way, I won't call you. Now that the vacation is over, I'll return to the team immediately."

There was no other way, Qin Yuan knew at the time that Gao Shiwei did not let him return to the team in this unexpected situation, but directly took a helicopter to pick him up, and went directly to the starting point after picking him up.

When Qin Yuan boarded the helicopter, the members of the red blood cell team were already inside.

While wearing the combat uniform, he asked, "What's the situation now? What Lao Gao said is a bit unclear."

"Team Gao and Team Long have already set off there first. This time the situation is very special."

After He Chenguang finished speaking, he handed over a document. After Qin Yuan opened it, he looked at it. It turned out that there was an emergency in country A. At around 8 o'clock this morning, their country suddenly closed all passages.

And unilaterally issued a notice, saying that it would cut off all trade with Yan Guo. The problem is that the embassy is still there, and there are still many expatriates in it.

Since they closed the passage, the embassy has also cut off contact. It seems that their personnel have been controlled, and now they don't know what's going on. Yan Guo has sent people to actively coordinate, but their attitude is very firm. Do not accept, do not refute.

He Chenguang handed over the equipment, "This time the situation is a bit big, the heads of several numbers have already passed, and now our two brigades have passed."

"I think these people are just idle. It's inexplicable. Isn't this just the beginning of targeting us? Then we have to see if we can be targeted by them?"

When Li Erniu said this, he clenched his fists, because up to now, their compatriots had no news at all, and they must have been put under house arrest by these guys.

"What's the situation at the embassy now? Don't we have a team stationed there? I remember there seems to be a squad of soldiers."

"We have lost contact since this morning nothing happened, and now our staff has already set off there."

Half an hour later, the helicopter had already arrived at the border area of country A, and it could break into the sky above them. Unexpectedly, it suddenly received a warning message.

And then several fighter jets suddenly appeared in front of them, surrounding them, and constantly issued warnings.

It probably means that they are prohibited from entering their country. Now the whole country is in a state of blockade, and no army or anyone is allowed to enter.

Qin Yuan also received a message from the ground, asking them to land first, and land on an island near them.

As the helicopter landed, Qin Yuan saw their warship. This time the incident was quite big, and even the marines were dispatched.

After coming down, Qin Yuan saw that a temporary military tent had been set up on the ground, several chiefs and Gao Shiwei were all having a meeting in the tent.

Gao Shiwei said hello and told him to come over quickly.

"Captain Gao! What's the situation now? What did the people on our side say when they negotiated with them?"

"What else can I say? This group of ***** is now turning their faces and refusing to recognize anyone. They say that their country is undergoing a nationwide blockade, and no one is allowed to enter or leave. We can't get in touch for a while, and the contact is interrupted."

Everyone frowned tightly. Such words sounded like an excuse. More importantly, they were now very worried about the safety of the staff of the embassy and the expatriates.

Chapter 1109: ready to infiltrate

There is a map in front of Gao Shiwei, which shows the national defense situation of country A, but this map is already ten years ago, and now they can only use it as a reference.

"This is a map we obtained many years ago, and it is also their military defense. According to the current situation, we decided to infiltrate it quietly and take a look inside."

Qin Yuan nodded. He thought so too. After all, country A is now in a state of vigilance all over the country. They must not act rashly, otherwise they will find excuses naturally.

A chief of staff below frowned, "But infiltrating is not an option. If the people we infiltrate are discovered by them, they will instead catch them and make a big fuss."

They really should consider this point. Now that country A is making such a move, it is obviously deliberately targeting them.

"As far as I know, Xiaomao country and the embassy in country C received the news a month in advance, and they quietly carried out the evacuation plan. Only we are still in the dark."

It turned out to be the case, and everyone understood it after hearing this. This is simply targeted, because several other embassies have received the news in advance, and they couldn't contact their own embassy until this morning.

Long Baichuan, who was sitting next to him, looked serious, "This is not the worst news. When we were patrolling the sea area, we found that country A closed their passage and conducted military exercises in their sea area. In my opinion Come on, this is a provocation and threat to us."

Qin Yuan laughed disdainfully when he heard this, country A is just a small country, they can have such courage, there must be someone behind them to support them.

"As a small country like theirs, how many military weapons can they have? We have aircraft carriers and so many warships. Don't they even think about it?"

"It's true to say that, but during their military exercises, an aircraft carrier actually appeared. I'm sure I read it correctly, and our scouts saw it clearly. Their carrier-based aircraft is still flying in the sky."

To build an aircraft carrier, on the one hand, the cost is relatively high; on the other hand, such research blueprints should not be able to be achieved at the level of country A.

It's not that Qin Yuan looks down on them, but even if they hide it, it will take at least ten years for them to develop it at this level, and it can't be so fast.

So according to everyone's discussion, there is only one result, this aircraft carrier is definitely from other countries.

Among them, the most likely country is the United States. In the past two years, the movement between the United States and the country A has been very frequent. It reminds me that as the military technology of the Yan State is getting more and more powerful, the United States is also a little anxious, so they joined forces. Get up country A.

Everything points to Mi Guo, the main messenger behind them. After their analysis, no matter how capable country A is, it would not dare to directly target them like this.

The current situation is that everyone can't act rashly. If there is any small friction, it is very likely to escalate into a war between the two countries. This is extraordinary.

They have sent diplomatic affairs to negotiate, and there is still no news.

"Everything can only be discussed after the diplomatic event comes back. Let's hold back for now."

After the meeting, Qin Yuan left and came out to explain the current situation to the team members.

When Li Erniu heard this, he stood up and said, "Brother Qin wants me to tell you what are we waiting for? Why don't our team just go in and bring out all the people from the embassy and overseas Chinese."

"You kid is too impulsive. Now is not the time to do these things. Maybe this is a long trap. After we go in, we will fall into their tricks, and they will catch us and make a big fuss."

In all cases, we can only make a decision after negotiating major diplomatic matters.

Jiang Xiaoyu and the others also came over, and they were also dispatched to cooperate this time.

"Brother Qin, do you think we can fight? If we really fight, the scale will be quite large. If you look at them, we will probably be fighting at sea from the beginning."

Jiang Xiaoyu's worry is not unreasonable. In the sea area 300 kilometers away from them, the destroyers of country A are patrolling around.

Their fighter jets hover over the sky from time to time to give high-altitude warnings, and methods like this are just another kind of demonstration.

Qin Yuan shook his head, it was impossible to fight, if he wanted to fight, he would go to war directly, it's just that the situation is more urgent now.

"They are backed by the country of the United States. Of course, the country of the United States will not come forward. It is impossible for him to fight us as a small country."

"Then they don't want to fight, and they trapped our people inside. What does this mean?"

"It's very simple. It's a disarming power. Country A and country H on their borders have also been fighting very tensely in the past two years. If they confront country H, they might start fighting immediately."

To put it bluntly, it was actually more like killing chickens to warn monkeys, because they were sure that Yan Kingdom was a big country after all, and they would definitely not fight with them lightly.

After He Chenguang listened to Qin Yuan's analysis, he said slowly: "My good fellow, this country H really kills two birds with one stone. It not only plotted against us, but also plotted against country H. They made such a big deal that country H also Will remember their strength."

"But they calculated the wrong person, and they calculated it on us. I am not the kind of owner who suffers. Just wait until our diplomats come back. Don't worry, they will definitely not fight, but they have to give them a little Lessons."

Jiang Xiaoyu also stood up and patted his chest, "Because it's too despicable, we are not afraid of fighting at all. If we want to fight, it is really no problem. With their little military strength, the ship carrier dispatched by our side can be killed in seconds. them."

"Fight with us, they are not worthy of engaging in these low-handed methods!"

Everyone is suffocating. Now that their compatriots are still in country A, they don't know what's going on. The main reason is that they are being calculated by others.

The diplomats didn't come back in a hurry until they were done. The diplomats were a little tired. As soon as they walked into the meeting room, Gao Shiwei couldn't wait to ask:

"How is the situation you talked about? Did they give any clear statement?"

The diplomat wearing glasses is called Yang Kang. He has dealt with country A for many years. "These guys are completely shirking their responsibilities. Now they ask a question and don't know anything."

"How can this be? There are so many people in our embassy, and those overseas Chinese, what's going on? They say the country will be closed!"

"That's right, that's what they said, and they said that certain military exercises will be carried out. I don't know when it will end. It may be a week, or it may be three months."

"Damn it!" Gu

Gao Shiwei couldn't help swearing a bad word, and then punched the table.

Everyone was very angry, and this is the result of talking and talking. They just want to delay the time now, and the so-called military exercises are just for H country to see.

Now the outsiders don't know, they think Yan Country is really intimidated by these military weapons of country A, and dare not take action easily.

Long Baichuan couldn't take it anymore, he stood up directly and said: "I'm really aggrieved, I can't fight now, and we don't know what's going on with our people inside."

No matter what, they are a big country after all, and this is the method used by country A. Once they make a move, they really don't take advantage of it.

After thinking about it for a while, Gao Shiwei called Qin Yuan in and sent his team to infiltrate it first, not from this side of course.

When Qin Yuan came in, he felt that the atmosphere was obviously not right. It was indeed the situation where he wanted to fight but couldn't fight. He was really aggrieved. As far as their military weapons were concerned, Yan Guo didn't pay attention at all.

"Qin Yuan, you see that you are leading your team to infiltrate from the border area to the south of them, that is, from country H. Can this be done?"

Qin Yuan looked at the map, this one is absolutely no problem, it doesn't matter where to infiltrate, and they have given more consideration to infiltrating from there, because there are mountainous terrain over there, and there are several villages nearby, so it is also okay to infiltrate from there. Easier.

"Captain Gao, don't worry, the brothers have been waiting for a long time."

"You kid, don't cause trouble for me. Remember to make sure our personnel are safe after entering, and then report to me at any time, and we will decide according to the situation."

"Captain Gao, don't worry, I'm sure I'll be reasonable."

Looking at the map in front of him, Long Baichuan said: "But there is no guarantee that they have strengthened their defenses. If Qin Yuan and the others go, will it be very dangerous?"

"Dragon team! I will definitely complete the task without being discovered by them. This is my confidence and my strength."

With Qin Yuan's ability, there shouldn't be any problem. Long Baichuan nodded, and everyone made other battle arrangements, asking them to change their equipment. The main thing is to covertly, and then quietly infiltrate.

Their main task is to infiltrate, depending on the situation, the first is to ensure the safety of their personnel in country A, and then focus on protection.

After assigning the task, Qin Yuan took the red blood cell team members to the border area of country H, where there are rolling mountains. This kind of terrain has both advantages and disadvantages. On the one hand, it is suitable for concealment, but it does not rule out that there are people from the other party hiding in it. Among these mountains and forests.

Qin Yuan and the others were lying on the hillside, and He Chenguang observed the situation from the side, "Brother Qin, the situation is not good now, look at their defense, even if we pass, we will definitely be regarded as living targets!"

The main reason is that country A has now entered a state of national blockade. They have strengthened their defenses in the border areas, and country H is not to be outdone. They must also worry that Congress A will not suddenly attack them. After all, for the purpose of military exercises, Many things are kept in the dark.

The defenses on both sides are very tight. Qin Yuan can't risk this line now. If it is him, he should be fine, but it is a bit difficult to deal with so many people.

According to their previous actions, these people are no problem to them, and the problem can be solved by simply eliminating them, and they cannot shoot now.

"Well, since this place is not good, let's go around the side villages and see that there are always gaps in the nearby villages. It is impossible for them to be so tightly arranged and such a long border line. How can they stop it?"

Everyone nodded and maintained their formation again. After Li Erniu died, the group set off quietly towards the east.

Qin Yuan led the team through a village. There was a big river in front of them. They could cross the river, and the border of country A was on the opposite side.

The defense here is relatively lax, and there is only one defensive point 100 meters away, so they can take advantage of this opportunity to enter from here.

It was already past 9 o'clock in the evening, and it was pitch black everywhere. Qin Yuan led the team members to cross the river quietly, and then everyone touched the shore.

It was smooth, everyone successfully entered the opposite jungle, but just after walking a certain distance, Qin Yuan made a warning gesture.

"Be careful, I heard dogs barking, it should be their patrol team."

Now is a special period, and the patrols in country A are also very frequent. What Qin Yuan is most worried about is encountering military dogs. Everything else is fine. Humans are not as agile as dogs, but dogs can smell things 500 meters away.

Not to mention this kind of well-trained military dogs They can sense even a little trouble.

Everyone was lying in the bushes, not daring to act rashly. After a few minutes, a patrol team consisting of 15 people and two military dogs came towards us.

However, they were walking in the direction above Qin Yuan and the others, so as long as they didn't move, they wouldn't be found.

But the keen military dog still smelled something else, and the military dog suddenly barked wildly in the direction where Qin Yuan and the others were lurking.

The patrolling people on the opposite side raised their guns one after another, "Who is the person on the other side? Come out."

In fact, they didn't see anyone at all, they just heard the military dog barking like this, so they raised their tone to see if they could defraud someone.

"Come out quickly, if you don't come out, we will shoot."

Qin Zhengyang was a little nervous when he heard this, and he asked in a low voice: "Brother Qin, what should we do now? Should we do it first?"

"Don't worry, trust me, they won't shoot."

Qin Yuan's guess was correct. The people on the opposite side were discussing, and the team leader who led the team whispered, "Don't shoot now. It's a special period. Avoid being caught by others."

"What should we do now? If there is someone on the other side, the military dog won't bark for no reason."

The team leader thought for a while and decided to let the military dogs out first, and first look at the situation on the other side. If there are people, they are shooting. If no one shoots inexplicably, it will cause other disturbances. Now it is special During this period, everyone was very nervous.

Chapter 1110: under house arrest

Several patrolling soldiers nearby also began to slowly approach the place where the dog was barking.

Qin Yuan originally wanted time to stop, but there is another disadvantage of time stopping, that is, everything around him is forbidden, as long as he is in this space.

But now there is no other way, he must use the time to stop, although only three minutes, his own team members will be affected, but he can directly solve the previous things in these three minutes.

He Chenguang and the others were all ready, if it didn't work, they had to shoot.

In the next second, Qin Yuan snapped his fingers, and all the time stopped instantly. He Chenguang and the others still maintained their vigilance.

He quickly rushed forward to lift the two military dogs, and ran forward, taking them completely in the opposite direction, and the military dogs appeared a kilometer away in an instant.

Qin Yuan's speed is very fast. He can only use this method to mislead them. After doing all this, he quickly returned to the previous position, and then snapped his fingers, and the space was restored. Everyone didn't know what happened .

The team leader from earlier was just about to step forward when he suddenly heard a dog barking behind him, and everyone looked strange.

"What's the situation! If I remember correctly, wasn't the dog barking right in front of us just now, why is it running behind us now?"

"Captain, I... I don't know, what's going on? Could it be that there is something wrong there too?"

It's dark everywhere now, and they didn't bring other infrared devices, so they could only rely on the dog's sense of smell.

The team leader thought for a while, and then made a decision, "Forget it, let's focus on military dogs, let's go to the side where the dogs are barking first."

Just like that, they were completely attracted to them, and the rest of the team members didn't realize what was going on. Qin Yuan gestured for them to leave quickly. Taking advantage of this opportunity, everyone passed the area smoothly.

The border of country A is very long. After they crossed the mountain, they saw a few villages in front. The security inside was not so exaggerated. They mainly focused on the periphery.

After entering here, everything was easy to handle, and now it was night, no one paid attention to them at all, they passed the village smoothly.

After Qin Yuan and the others left the village, they took out the clothes they had prepared and changed into them. These were all local clothes, and they also had to do basic camouflage.

Now they can only rush to the city center by a forced march on foot, mainly because the embassy is located in the city center, and now they cannot take other means of transportation.

Qin Yuan looked at the map. It is about 500 kilometers away from the city center.

They have also gone through this kind of distance during training, especially the long-term training, this problem is not a big problem.

Everyone was on their way all night, and Qin Yuan added a merit point to them before, which allowed them to support them until 9 o'clock in the morning.

Even if they were given merit points, their energy could not keep up with Qin Yuan, and everyone was very tired at this time.

Qin Yuan looked at the team members, their condition is not good now, and it is morning, and they are not familiar with the situation here, so it is better to let everyone rest for a while.

They have all entered the urban area. If they are too blatant, they will be easily noticed by others.

Qin Yuan found a coffee shop and took the team members in for a short break. There were many people in the coffee shop, which is also a local habit.

It seems that Fengguo doesn't have much influence on them, everyone is still living a normal life, going to work, and no one around discusses this matter. In this place, it doesn't have a great influence on them.

Although Qin Yuan and the others had dressed up, they were still spotted by the boss at a glance. After all, in this place, it was easy for foreigners to spot them, and their skin colors were different.

When paying the bill, the boss also asked politely, "I think you are the one who has the most influence on Fengguo now. You foreigners should come to our side to do business."

Qin Yuan also followed his words and nodded, just in time to find out some news.

"That's right, we have no other choice. If we suddenly say that the country is going to be closed, we can't go out, so we can only stay here for the time being."

"This is a decision made by the people above. We don't know what it is. Anyway, everyone can't get out now."

"By the way, boss, you know when this will end! It's not the way to go on like this."

The boss looked at Qin Yuan, and he wisely added another piece of money, which was also considered a tip.

"Hahaha, you are quite interesting. Let me tell you this. One of my friends is in power above. He told me that it will be unblocked within a week at most."

Qin Yuan smiled, and couldn't find out other news, after all, he was just the owner of a coffee shop.

However, judging by the time, there are indeed American people supporting Country A, and one week is enough to give them face.

The reason why their country A closed the country is to hold large-scale military drills internally. Qin Yuan and the others did not find this situation after they came in. Their so-called military drills were all placed in the border areas, mainly for others to see. .

At around 3 o'clock in the afternoon, they finally arrived in the urban area, still more than 2,000 meters away from the embassy.

At this time, Qin Yuan found that the closer he was to the embassy, the more vigilance there was, and some patrolling teams had already appeared.

They wanted to get close to the embassy. It was impossible for them to have an army in front of them, so they directly blocked that area. The reason they gave was that a military drill was going on ahead, and all personnel were prohibited from entering and exiting.

Qin Yuan looked at the blocked team and led everyone back. The problem now is that he can't fight. If he can fight, he doesn't pay attention to these people at all.

"Brother Qin, what should we do now? We can't get through, they have blocked all the back and sides."

"Now wait for the opportunity. The goal is too big during the day. I will think of a way to see if I can go in at night. I will go in and check the internal situation first."

Seeing this scene, Li Erniu said indignantly: "These ***** are really daring. They really locked up our people. This is completely house arrest!"

"Don't worry, I will make them apologize sooner or later. It's just a matter of time. Do you really think that if you become a dog of the United States, his owner will protect him?"

Qin Yuan was very disdainful, they found a hotel nearby to stay first, and then waited for the night.

Qin Yuan didn't take any action in the first half of the night, and he asked everyone to stay in the hotel in the second half of the night, so his goal is relatively small when he goes out alone, so let him go out first to have a look. Valley

In the second half of the night, everyone's vigilance will be lowered, mainly because this is the city center again, and the focus of their guards is definitely not here.

Sure enough, they relaxed a lot at night, and there were not as many guards as during the day. After all, most of their troops had been dispatched to several border lines.

Qin Yuan directly entered the embassy with the help of his own figure, but the situation inside the embassy was not what he imagined. He thought that country A should control their embassy as a whole.

Unexpectedly, the security squad that was filmed here before is now stationed inside the embassy, guarding against death and resisting the situation outside.

Just as Qin Yuan jumped into the yard, the person opposite raised his gun directly.

"What are you trying to do? We have warned you many times. This is our last line. If you come in again, we will execute the order and shoot directly!"

Moreover, the people on the opposite side were full of momentum, and they were not joking. Qin Yuan saw that the bolts of the guns had been pulled away.

"Brother, don't shoot, I'm one of my own."

But the person on the other side didn't believe it at all. After all, it was a special period, and any situation could happen. It might be a deliberate disguise by the other party.

"Hehe, you still want to lie to us with this little trick, you'd better leave as soon as possible, we won't agree!"

What's the situation? What did he agree to? Are these guys forcing them to sign some kind of agreement, or what?

Qin Yuan could only explain again and again, "Everyone is our own, really don't get me wrong, I'm an outsider, now our team has infiltrated, and we're really here to help you."

The soldiers on duty opposite him were also very responsible. He kept confirming Qin Yuan's identity, and finally one of the soldiers recognized Qin Yuan.

"Captain Qin, is that you? You are the captain of the red blood cell team, aren't you?"

"I finally recognized me. I don't even know what to say, so you believe me."

Only then did the people on the opposite side let down their vigilance, and hurriedly brought Ruan Yuan in. Qin Yuan followed them into the hall, only to find that the situation was more serious than he had imagined, and the hall was full of people sleeping.

The person who talked to Qin Yuan just now was the captain of the guard they invited here. He told the others to continue to be vigilant, and then introduced the situation here to Qin Yuan.

"Captain Qin is really sorry, I didn't recognize you just now, and almost caused a misunderstanding."

"It's okay. After all, it's not a bad thing to be cautious, but what's going on?"

"This matter is troublesome to say. All our staff and most of the expats have been driven to this place."

Under the captain's introduction, Qin Yuan knew that about three days ago, the overseas Chinese in country A received a message from the embassy, asking all their overseas Chinese to gather at the embassy.

But the embassy did not issue such an order at all. After everyone came here, they found that they were directly blocked. Country A did not allow them to enter and leave, and declared to them that they were conducting military exercises.

Moreover, all their connections were cut off, and they were not allowed to communicate with the outside world. They were completely blocked to this place.

There are also some expatriates who have not had time to enter the embassy, so they can only be quarantined at home. Except for them from country A, people from their own country are not restricted. Other residents of Yan country are restricted at home and cannot take other actions.

When everyone saw someone coming, they all stood up one after another, as if they had seen hope. The expatriates were very excited. Guns and ammunition, of course, will be afraid.

The captain was also unambiguous, and quickly stood up to maintain order, "Everyone, don't be so excited, calm down first, we must not let outsiders know what's going on here, and now Captain Qin is just coming in first to ensure our safety."

"Ah, are you alone? So what should we do now? Those people outside won't let us go out, and won't let us go back. What's going on?"

"Yes, who will take care of us? What should we do?"

Seeing this situation, Qin Yuan could only stand up and promise everyone, "Everyone, calm down first, you are all strict citizens, Yan Guo will definitely not ignore you, you have to trust us!"

"Yes, everyone must calm down. Captain Qin and the others have already arrived here, and they will definitely find a way to solve this matter."

Qin Yuan saw that there were so many people, there were at least forty people in this lobby, so what should be done to deal with these people's eating and drinking?

He looked at the team leader next to him, and the team leader quickly explained, not only in the lobby, but also in the courtyard behind the upstairs, there are now more than 170 people living in their embassy.

"Then how do you deal with what you eat?"

"Country A didn't do that very well. they will send us food, but they blocked it for no reason, so I quickly organized a formation. No matter what, we will also protection of aliens."

Qin Yuan patted the captain on the shoulder. He did a good job. Even though he knew the power disparity, he didn't flinch at all and took on the responsibility of protecting everyone.

Now he just knows that everyone is safe, and country A has not done anything too extreme, nor has he the guts to do so.

After understanding the situation here, he counted the number of people and the current situation, and reported the news to Gao Shiwei first.

He can't make the decision on his own this time, he must get in touch with the outside world, let's see what Gao Shiwei and the others have to say first.

Soon Gao Shiwei and the others discussed, and a message came, asking when to take a group of photos of the situation inside the embassy and send them back.

They want to take these photos to negotiate with people from country A, this is house arrest! This is absolutely unacceptable.

Now no one wants to fight, so we still have to focus on negotiation, Qin Yuan looked at the small captain.

"Don't worry, my team members and I have been on the periphery. We will definitely ensure your safety. We will never give up. We will bring everyone back safely when the time comes."

"Captain Qin, I believe you are here. I will definitely maintain order and nothing else will happen."

After explaining clearly here, Qin Yuan left first, because the computer was at He Chenguang's side, and he needed to transfer the photos outside through the computer.
