

## Special Soldier 111

Chapter 111: drink?

The people of these Wolf Warriors squad are not fools, and they soon thought of what shocked Leng Feng.

And when they thought of this, they were so scared that they couldn't hold the gun in their hands!

There were not a few hours of pursuit, but Qin Yuan arranged this place as a minefield!

and it was transformed from old mines!

You must know that it takes a long time for ordinary people to clear a landmine, but Qin Yuan did it in such a short time!

Is this guy really a person?

At this time, the people in the Wolf Warriors team couldn't stop swallowing and spitting, and glanced at the corpses around them. They could be killed by Qin Yuan so painstakingly, right?

"I will never dare to say that I can catch up with Great God Qin anymore. This is really not a human being!"

"I don't even know how that person's brain and hands grew. It was a very dangerous thing to remove landmines, but he did it so many times!"

"Oh my god, I thought it was a bit inappropriate to let him come to our Wolf Squadron, now it seems that we have to ask him if we ask!"

Hearing the words of those players, Long Xiaoyun didn't know what to express. Their Wolf Warrior team is known as the elite of the elite, but now in front of Qin Yuan, it is like a group of chickens just debuting!

If Qin Yuan wants to deal with them, I am afraid it will be no more difficult than dealing with these people lying on the ground!

"Watch out for mines, let's move on!"

At this time, Long Xiaoyun took a deep breath, and then said to those around him, and the people from the Wolf Warriors team also nodded and slowly moved forward.

At this time, Qin Yuan, who was in the distance, also found the trail of the Wolf Warriors squad. He glanced at the old cat and others who were fleeing frantically, took out the headset, adjusted the channel, and said to Long Xiaoyun:

"You better don't come over now, there are mines all around, it's not safe!"

Suddenly heard Qin Yuan's voice at this time, Long Xiaoyun was shocked immediately, but when he heard Qin Yuan's meaning, Long Xiaoyun's heart squatted, and then asked Qin Yuan:

"Did you reset all these mines?"

"What do you mean?"

Qin Yuan smiled, and then moved his finger lightly, directly detonating a mine, and an enemy was instantly blown into a ball of blood!

Hearing the movement over there, Long Xiaoyun's heart was suddenly startled, and he quickly said to Qin Yuan:

"Is the battle on your side not over yet? Have you already exchanged fire with the old cat, should we go to support you?"

"Support is unnecessary!" Qin Yuan's faint voice came.

When Long Xiaoyun heard it, his eyes condensed, "That's good! Qin Yuan, if you can kill the old cat, I will invite you to drink tonight!"

At this moment, when he heard this, the eyes of the people in the surrounding Wolf Warriors squad looked at Long Xiaoyun suddenly becoming weird!

My God!

The goddess of the iceberg in their minds actually wanted to invite a soldier to drink?

Hearing this, Qin Yuan's mouth suddenly showed a smile:

"As long as the word is settled, you can honestly prepare the food and drink, and wait for me to find you!"

At this time, there are only two of the old cat and his group...

In addition to the old cat, there is also a tall and strong man, codenamed Crazy Bull!

There were more than 30 of them, but now there are only two left. The others are dead in the terrifying jungle and landmines!

"Boss, it's a river! We are out of this forest, we are out of the minefield!"

Crazy Bull said with excitement, then threw away the gun in his hand and ran forward frantically!

The old cat also wiped out his cold sweat, and now they are about to walk out of this forest, they feel extremely grateful in their hearts!

"Fuck, it's so scary to say nothing after finishing this order!"

But at this moment, the old cat suddenly heard a muffled noise in front of him. How did the mad cow run out just now, and how did he fly back now!

Looking at the mad cow whose whole body was blown up and vented more and less, the old cat closed his eyes and took out the pistol to relieve the pain of the mad cow!

And the last thunder sound also completely reminded the old cat.

Their danger is not over yet.

After all, they just came to this place after chasing someone!

And that person is not dead, he is not completely safe!

Now that he has walked out of the minefield, that person should appear too!

Although the old cat knew that it was not completely safe yet, when he saw the clear stream, he couldn't help but feel relieved.

The side of the stream is generally not a good place to set up mines. The soil here is too thin and it is easy to touch it by mistake!

He is temporarily safe!

The old cat licked his dry lips. After a night of baptism, he was physically exhausted. It would be better if he could drink saliva.

Then the old cat walked carefully toward the edge of the stream, and his footsteps were really like a cat, very careful!

The old cat took off his night vision goggles, opened his eyes wide, and carefully looked at the place where he was about to settle!

At this time, the old cat found that there was a transparent silk thread on the ground where he had just walked, and he was immediately relieved. It's right that I didn't bring a night vision device, in the night vision device. You can't see this transparent thread at all, and many of your subordinates have died on it!

At this time, Qin Yuan, who was in the forest, saw that the old cat had actually avoided a lot of landmines, but a smile appeared on his mouth.

He understood that this guy is not a general, so he prepared a final gift for him!

After drinking the water, the old cat's mood is also relaxed!

As long as he crosses this creek, he will no longer be the boundary of Yan Country, and he will be completely safe by then!

"Hahaha, I will never come to this place in my next life!"

The stream is not wide, and the old cat stepped directly over it!

But before stepping over, the old cat took a very weird posture and withdrew his steps abruptly!

This one directly caused the old cat to fall, but the old cat was very careful to support the ground with his fingers, looking at the thread in front of him, he was extremely grateful!

"Shit, Fuck, want to play with me, go to hell!"

Seeing this last thread, the old cat uttered all the swear words that could be scolded, because he really couldn't express his emotions!

But this posture is so weird, the old cat wants to stand up. .

But as soon as he tried hard, his feet slipped, and the old cat subconsciously took his hand forward, and then his whole body froze!

Because, he felt that he had touched a cold and hard object in his hand, and there was a creaking sound from this thing!

#### Chapter 112: whereabouts

Hearing this ominous sound, the whole body of the old cat froze!

mine! Landmines! There are mines all over the world!

Seeing that he escaped with only one step now, it's a landmine again!

At this time, the old cat doesn't know what to say in his heart, he can't wait to directly kill the man who buried the mine!

And the design of this landmine is extremely concealed, just as if he was able to find the thread just now, it made perfect use of people's psychological weakness!

The old cat knows that this is probably set by that person specially for himself!

The other party already knew that he would see that thread and would avoid it directly, so he planted mines in this place!

But Lao Mao is a veteran for many years, after all, he quickly adjusted his mentality, he still has a chance!

This land mine is just a heavy thunder. As long as he doesn't let go, it won't explode. If he uses another hand, he might be able to get rid of this land mine!

The old cat lay on the ground in an ugly posture. The hand that was pressing on the mine did not dare to move. The other hand took out the dagger, digging wildly, and finally carefully dug out the mine!

But he just wanted to disassemble the mine, but suddenly he found that there was still a silk thread under the mine, which was connected to other places.

"Serial Thunder, haha! Haha, I know how can I leave a way for people to survive since I have done so absolutely!"

The old cat let out a desperate grin and gave up completely!

serial mines are mines specially made for demining masters. There is one mine on this kind of mine, and one is connected to other places.

If you accidentally pull the second class mine while clearing the first mine, you will be killed instantly!

The way to remove this kind of mine is also very simple, that is, touch it first, and remove the second mine first!

But now the old cat still has a hand on that pressure thunder. If he can prevent the thunder from exploding, thank God, how can the second mine be eliminated?

"Come out! Come out for me!"

The old cat suddenly yelled hoarsely. He knew he was dead, but before he died, he wanted to see what the man who buried the mine looked like!

Sure enough, at this moment, the old cat heard a sound of footsteps behind him, and when he looked back, he found a young man with a slight smile on his face, looking at him!

"who are you?"

asked the old cat sharply, but Qin Yuan looked at the old cat mockingly:

"I have been looking at you since just now, to be honest, your level of cursing is so bad, I am ashamed to say you!"

Hearing this sound, the old cat reacted instantly. This is the person in the walkie-talkie!

"Why have I never heard of a master like you, shouldn't someone like you be famous?"

"There are countless people like me in Yan Country. Okay, death is imminent. Just do something good and tell me something."

Qin Yuan asked bluntly, and the old cat also showed a sorrowful smile. The person in front of him killed it without a face, naturally there was a purpose.

"What do you want to know?"

Hearing the old cat's question, Qin Yuan's mouth turned upside down. He is indeed a smart person, and dealing with such people is a joy:

"I only have one question... where is Minden?"

Qin Yuan knelt down at this time and looked at the old cat.

"Let me tell you, can you save me?"

The old cat said with a hint of excitement. Although he knew it was impossible, since the person in front of him is a master of mine burial, he must also be a master of mine clearance.

If he is willing to save himself, he will definitely survive!

"If I say I can save you, do you believe it? I can only say that I can prevent you from being killed by landmines!"

Qin Yuan looked at the old cat like an idiot. This guy asked himself to save him. It was a idiot!

Qin Yuan knew that if this guy had killed many people in the movie, if it wasn't for Qin Yuan today, I'm afraid the things in the movie would happen again!

The old cat gritted his teeth severely when he heard Qin Yuan's words. He knew it would not be so easy.

But even so, he directly told the trace of Minden:

"Minden is in a small city hundreds of kilometers away from here, and he carries blood samples and a lot of information from your country of Yan."

After all, the old cat just gave Qin Yuan an accurate coordinate!

It's not that the old cat is crazy, but the old cat's heart is extremely regretful, why should he trust that \*\*\*\* boss to come here to attract the attention of the entire northern line!

There are experts like Qin Yuan, and their behavior is no different from sending to death!

Since you let me die, don't think about it!

Seeing that the old cat became so angry, Qin Yuan also guessed the psychology of the old cat, turned on the intercom and reported the news.

"Captain Dragon, check this place!"

"What's wrong? Is there anything wrong with this place?"

Long Xiaoyun suddenly received Qin Yuan's notice, and there was also a slight accident.

"Minden is here!"

Qin Yuan didn't say much, directly said this sentence, Long Xiaoyun instantly understood everything, and then quickly reported the news!

Minden is a notorious international broker. If you can catch Minden, it must be a great thing!

Soon, the news was passed up one by one, and finally passed directly to Fan Tianlei's hands!

"Haha, great, there is news from Minden! Is the news reliable?"

Fan Tianlei slapped his thigh with excitement at this time. He had already wanted to catch Minden, but he had been struggling to catch Minden's tail. After all, this man was extremely cunning and was not an easy person!

"It is said that this came from the Wolf Warriors team, it should be true!"

Chen Shanming on the side of said, and when he heard this, Fan Tianlei couldn't help but think of Qin Yuan!

This kid can surprise himself no matter where he goes!

"That must be true, notify the Thor team and set off immediately! Capture all Minden and the group!"

"Yes!"

After Fan Tianlei issued the order, he directly slammed his fist on the table. As an international broker, Minden must have a lot of news in his mouth!

"I don't know if I can get the whereabouts of the scorpion from his mouth after catching him!"

Fan Tianlei murmured, and touched his leg! !

Fan Tianlei never forgot the pain that person caused to him!

"Scorpion, waiting for me, I have found someone more powerful than you. One day I will find you and let you pay for it!"

Chapter 113: Looking for specimens!

looked back to the old cat. The old cat watched Qin Yuan disseminate the news, then showed a fierce smile, suddenly raised his hand and yelled:

"Boy! Let me die together!"

The old cat is only five meters away from Qin Yuan. Two mines exploded at the same time, and the guy in front of him would die!

But when the old cat let go of his hand, he was extremely surprised and desperate to find that this land mine had a hint of smoke coming out of it, and it did not explode!

The second landmine that made the old cat frightened, it exploded directly, but he rose directly into the night sky with a trace of red light!

This is a flare!

"how could this be....."

Looking at the flare that was lifting off, the old cat's eyes were filled with despair.

"Sorry, you also know that I placed these mines by myself, and the number of mines in my hand is limited, so at the end of the day, I can only replace them with flare flares. I'm so sorry for not letting you die with me. what!"

A smile appeared on Qin Yuan's face!

"You fool me!"

After all, the old cat rushed towards Qin Yuan!

brush!

A shadow flashed, the old cat hit a poker card on the neck in an instant, covered his throat, and fell straight down!

"I said that I won't let you die on a landmine, so I won't let you die on a landmine. I am a person who counts, and it is considered that you have revealed a little bit of intelligence!"

Qin Yuan looked at the old cat's corpse, then glanced at the flare again, and a smile appeared at the corner of his mouth.

"Ding Dong, congratulations to the host for killing the squad led by the old cat. The mission is completed and two grids are awarded!"

Hearing the system's prompt, Qin Yuan smiled with satisfaction, two grids, it was not in vain that he had expended so much effort.

At this time, seeing the light of that flare, Long Xiaoyun also said with excitement:

"Qin Yuan, did you kill the old cat?"

"of course!"

Qin Yuan smiled confidently, but at this time, it was a little painful, because of the arrival of these people, Qin Yuan's exercise mission was probably interrupted and could not be completed.

After such a calculation, did you still lose one?

But fortunately, the skills of landmines have been obtained, so it is not a loss to see it!

"Comrade Long Xiaoyun, I don't know if I won this exercise?"

Qin Yuan wanted to continue struggling, but at this moment, another voice sounded directly:

"Of course you won, Lieutenant Qin Yuan, I have heard of your name before, and now that I see it, it's even better to meet you! I don't know if Lieutenant Qin Yuan is willing to come to our brigade and promise you a satisfaction. s position!"

"Brigadier Shi Qingsong, are you digging the corner too brazenly? This is the great \*\*\*\* I borrowed from Chief of Staff Fan, and I have to return it!"

Long Xiaoyun also smiled slightly, but Qin Yuan smiled slightly:

"You come and pack the old cat's body!"

And when the Wolf Warriors squad passed through the jungle and saw the dead old cat, they were shocked.

Although they said that they saw these corpses along the way, they guessed that Qin Yuan would definitely be able to kill all those people, but when they really saw the dead cat, they couldn't stop the shock!

They have received information from Lao Mao and others, all of them are habitual murderers, and they are so easily killed by Qin Yuan?

Looking at the tragic scene on the ground, these people were a little skeptical:

Is the gap between them and Qin Yuan that big?

Especially Leng Feng, he felt that his strength should be about the same as that of the old cat, but seeing the miserable appearance of the old cat, Leng Feng also felt a little itchy in his neck!

Fortunately, Qin Yuan is on their side, otherwise it would be miserable!

But Leng Feng was itchy in his heart. He didn't expect that besides his superb marksmanship, Qin Yuan would actually have such a skill to mine!

You know, as a blocker, the making of booby traps is a required course!

"Master, you still hide this landmine kungfu? Can you teach me?"

Qin Yuan nodded as he looked at Leng Feng's hopeful look. If Qin Yuan couldn't teach other things, this method of burying Leibei could be taught!

It's just that Qin Yuan is still worried about Min Deng and directly asked Long Xiaoyun:

"How about Minden?"

"We relied on satellites to investigate and found that what the old cat said is true. There is indeed a private blood control group there, but you can rest assured that I have reported this news to the Chief of Staff Fan Tianlei. He has dispatched Thor Squad to deal with this matter!"

Hearing this, Qin Yuan was also relieved. He remembered that there were no masters beside Min Deng besides the old cat.

In the movie, just relying on Leng Feng alone is enough to suppress Minden. The Thor team has gone through many battles, and there is definitely no problem.

"Well, let's go back, I'm almost starving to death!"

Qin Yuan smiled slightly, and Long Xiaoyun also patted Qin Yuan on the shoulder:

"Of course I have to celebrate, I still owe you a drink!"

"Okay, then we won't be drunk or return tonight!"

And just when Qin Yuan was about to go back a voice suddenly rang in his mind:

"Ding Dong~ Congratulations to the host for completing the task, winning the first place in the exercise, and rewarding three squares!"

Yep?

Qin Yuan's eyes widened when he heard such a voice. Hasn't the exercise been interrupted? Why can I still complete my task?

When he saw Qin Yuan's appearance, Long Xiaoyun immediately asked, and Qin Yuan directly addressed the doubt in his heart to Long Xiaoyun.

"Haha, you are still worried about this, but you can rest assured, since this exercise has not been completely completed, then it will be replaced by a points system, whoever has higher combat merits, then whoever wins!"

And Qin Yuan's eyes suddenly brightened when he heard this, but he killed Lan Fang's Commander Shi Qingsong, he was naturally the person with the highest record, so he won!

This is also a coincidence. If it weren't for the appearance of the old cats, the exercise would not end suddenly, then I am afraid that Qin Yuan would only be able to win the victory by killing everyone!

This exercise is worth taking part in. Qin Yuan directly obtained six squares from this exercise!

is simply unprecedented wealth!

This made Qin Yuan's heart itch. He always wanted to put something in the grid, but now they are going back, and there is no chance to find something to recycle. .

But at this moment, Qin Yuan's head turned his mind, why should he do it alone? Isn't there so much labor around him?

"I like specimens better. I wonder if I can wait for me first, so I can find something rare?"

Chapter 114: dragonfly

specimen?

Hearing this, the people in the Wolf Squad around were taken aback.

"Specimen? Great God Qin, I'll help you!"

"Yes, what do you want, we will help you find it!"

"Master, is there any reward for finding it?"

Hearing this, Qin Yuan nodded with satisfaction:

"I prefer praying mantises and spiders. If I can find some other rare insects, it would be even better!"

"Qin Yuan, is it inappropriate to ask my team members to help you? They still have tasks to do! Besides, they are looking for something, what are you doing?"

At this time, Long Xiaoyun said with a smile on his face, you know, the time of their special forces is very precious. Usually, except for training, Long Xiaoyun will not let them do some other cleaning.

"I'm going to demolish the mines! It is still very dangerous to detonate the mines that did not explode."

Qin Yuan defended, but seeing Long Xiaoyun's smile on his face, he still said:

"Then what do you want me to do?"

"Ten mine burying courses!"

Long Xiaoyun smiles like a little fox, but there are not many times when he can get wool from Qin Yuan!

"Three sessions..."

"Deal!"

Long Xiaoyun settled down directly, this made Qin Yuan a little confused, as expected he was not a bargaining person.

"Everyone has it, help Lieutenant Qin Yuan find precious insects! This is a three-session mine burying course, and we made a lot of money!"

"Yes!"

The people around the Wolf Warriors team saw that there were such benefits, and they cheered immediately!

Seeing this situation, Qin Yuan also shook his head and smiled. In fact, he originally wanted to share these courses. Long Xiaoyun did nothing but extravagance!

The guards and companies who came after them were all people looking at the Wolf Squad with a blank expression. Why these people seemed to be looking for something!

More importantly, they saw the captain of the Wolf Warriors team, found a bug, and ecstatically filled it into a bottle, just thinking the world was a little crazy!

Is this fake?

Qin Yuan also watched and disassembled the mines!

As expected, there is a lot of people and power. Soon, the people of the Wolf Warriors team found many strange insects for Qin Yuan.

There are many mantises and spiders named by Qin Yuan!

There are some other things, ladybugs, dragonflies, and even a gecko!

Qin Yuan carefully put these things in a bottle, now is not the time to recycle them, let's talk about it when these people are not paying attention!

There was a hint of surprise in Qin Yuan's eyes, and he didn't know what abilities these bugs could bring to him.

Soon they just cleaned up this place, and then Qin Yuan'er followed them back to the base of Wolf Warriors.

After all, these people have been working hard for a long time, so they fell asleep slowly on the plane, but Qin Yuan looked excited, and the bug that put himself in the bottle received it in the grid!

First, this mantis and spider!

"Ding Dong~ Congratulations to the host for obtaining the Cosmos Mantis Fist!"

"Ding Dong~ Congratulations to the host for gaining cosmic spider perception!"

There is not much need for cosmic mantis boxing. Qin Yuan has now completely become a mantis boxing master. With his powerful body host, in close combat, I am afraid it is difficult for anyone to be his opponent!

And this cosmic spider perception directly expanded Qin Yuan's danger perception range to one kilometer!

One kilometer, with Qin Yuan's nerve reaction speed, I am afraid that no one can assassinate him!

And this next, is the highlight!

Qin Yuan looked at these insects, selected them, and directly placed a dragonfly in his grid!

Dragonfly is a general term for invertebrates, Odonata, and Hyptera insects.

The most famous feature is that it has compound eyes!

So the dragonfly's vision is extremely sensitive!

"Recycle!"

"Ding Dong, please start choosing!"

"1, get world-class compound eyes!"

"2, get world-class dynamic vision!"

"3, get world-class physical vibration!"

Seeing these three options, Qin Yuan was immediately delighted!

This compound eye ability is Dragonfly's signature stunt. It can directly watch 360-degree scenes without turning.

However, Qin Yuan gave up this item temporarily. After all, the human body structure is different from that of a dragonfly. In case, after accepting the transformation of the system, he directly fitted Qin Yuan with a pair of secondary eyes, wouldn't it be directly exposed? Maybe it will be sliced by scientists!

And this world-class dynamic vision is much easier to use. Qin Yuan itself has seven times the speed of neural response, and this dynamic vision can naturally further strengthen Qin Yuan's vision!

"System, I choose 2"

"Ding Dong~ Congratulations to the host for your successful selection and world-class dynamic vision!"

"World-class dynamic vision: can greatly enhance the host's visual ability, three times the dynamic vision of ordinary people!"

triple dynamic vision, plus seven times the neural response speed, in Qin Yuan's eyes, a thing can reach 21 times the slowest!

In this way, when others attacked Qin Yuan, Qin Yuan was even in the mood to look at the texture on the opponent's fist!

And this is not the limit. According to Qin Yuan's guess, if the dynamic vision ability is upgraded to the cosmic level, can get forty-nine times the dynamic vision!

Forty-nine times the dynamic vision!

It's scary to imagine!

It's a pity that Qin Yuan's body speed is not enough. If Qin Yuan's speed is also enough, isn't it about the same as a guy named Kuaiyin!

There are two more dragonflies, and Qin Yuan recycled them for a while, directly raising his dynamic vision to the perfect level!

Another dragonfly made Qin Yuan choose the third item!

The fast flashing ability of the dragonfly's wings can also be ranked high. Although it is not as fast as the fastest hummingbird, it is enough for Qin Yuan!

"Ding Dong~ Congratulations to the host for choosing successfully, and getting a world-class physical shock!"

"World-class limb vibration: Part of the host's limbs can get a lot of activity and high-frequency vibration within five seconds!"

Seeing this explanation, the first time Qin Yuan thought of a long organ that would have important consequences if it vibrated!

That is.....

Finger...

The current high-frequency vibration is only five seconds, but there is no cooling time. As long as Qin Yuan's body can bear it, it can be used continuously!

Qin Yuan's current eight needles against the sky are not only expensive, but also a lot of time wasted. If first aid is needed, then Qin Yuan's high-frequency vibration can be used! !

Having obtained these two new abilities, Qin Yuan couldn't stop being overjoyed, but at this moment, Long Xiaoyun suddenly received a message, and his face suddenly changed:

"What, you said the arrest of the Thor team failed!"

Chapter 115: Hide

Hearing such a voice at this time, Qin Yuan suddenly woke up, then frowned, walked to Long Xiaoyun's side, and asked the other person:

"what is the problem!"

The Minden in the movie is just an old man in his 50s and 60s. How can such a person be the opponent of Thor team even if he has a few men?

Fan Tianlei, who was on the opposite side, heard Qin Yuan's question and sighed and said solemnly:

"Originally, the operation went very smoothly. Raytheon and others directly killed many of Minden's men, and also intercepted all the information and blood samples in Minden's hands. But who knows, just when they wanted to capture Minden? When he boarded, Minden suddenly fought back. This old man turned out to be a hidden master!"

"what?"

At this time, Qin Yuan frowned when he heard this. Mindeng was actually a master?

"Yes, this sly guy is deeply hidden, and his kung fu is even stronger than Thor and others! Directly wounded Thor, and Hades originally wanted to kill Minden, but he also let another Minden kill him. His bodyguard stopped, and then Minden and his bodyguard took the opportunity to escape!"

"Although Minden did not directly kill Yan Wang and others, the two of them were seriously injured and are now in the emergency room to rescue them! Life or death is unknown!"

When Fan Tianlei said these words, he was obviously gnashing his teeth. This time he was not just that they were completely fooled by Minden, but more importantly, he lost two generals!

And hearing such a voice, Qin Yuan's mind directly rang a soft sound:

"Ding Dong~ Release system missions, the host will heal Thor and Hades and get a grid!"

At this time, hearing the sound of the system, Qin Yuan's brows suddenly frowned!

This is not the case. He doesn't want to do this task, but he understands that Thor and Hades are seriously injured this time!

The task of the system has never been very simple!

"Minden..."

Qin Yuan murmured at this time, this is also his inertial thinking, he thought that Minden in the original book was just an old man, so he did not remind Thor and others.

But think about it carefully, if it's just a simple old man, how can such a big power be deployed?

But Qin Yuan understands that even if he rushes over, it is too late. This time he can only let Minden leave first, and go to treat Thor and Hades first!

"Chief of Staff, where exactly are Raytheon and Yan Wang? Give me an address, and I will rush over immediately!"

And when he heard this, Fan Tianlei was stunned:

"Qin Yuan, I know you are eager to save people, but I have found the best experts in the city to treat the two of them. Even if you are in the past, it is of no use."

"They are soldiers. This time, no matter what the result is, they are...their home..."

When Fan Tianlei said this, he couldn't help but touch his broken leg.

Fighting, there will always be sacrifices. This is the last destination of soldiers, the highest honor.

But Fan Tianlei didn't know that Qin Yuan still had a medical skill that could change his life against the sky, let alone Qin Yuan's medical skill, and he had even reached the point where he was reborn from a severed limb!

Otherwise, he would have asked Qin Yuan to help him heal that injured leg.

After all, he was bombed to the leg at the time. The medical condition at the time could not be treated, and he had to cut off the injured leg with the pain.

Although I am wearing a prosthesis, it is still a bit inconvenient.

After all, a person without legs, if he knows that there is a way to regenerate a broken leg, no matter what the price is, he will want to try it.

Besides, Fan Tianlei killed his closest comrade-in-arms because of this broken leg.

This broken leg has become the worst nightmare in Fan Tianlei's heart, a testimony of his failure!

"Chief of Staff Fan, Qin Yuan has family medical skills! He has cured one of my deputy captains. Let him go and see this time. You don't want Thor and Hades to fall into such a fate!"

Hearing what Long Xiaoyun said, Fan Tianlei immediately reacted, and Qin Yuan was also kind, and immediately reported the address of the hospital!

After getting the address, Qin Yuan didn't say much, but said directly to Long Xiaoyun:

"Captain Dragon, I need a helicopter now, and I need to go to the hospital soon. I suspect that the situation of the two of them may be very dangerous!"

"It's important to save people. I will parachute all the members of the Wolf Squad. You can just take this helicopter and go there!"

Long Xiaoyun gave an order, and the people in the Wolf Warriors team knew that the situation was urgent, and soon they were ready, and jumped directly from the flying helicopter.

Seeing Long Xiaoyun actually preparing to skydive directly, Qin Yuan's heart was also touched:

"Thank you very much. When I see you for dinner next time, I will definitely bring you a bottle of good wine!"

"Me? I plan to go with you. Thor is my former friend. They are injured. Why should I go and see!"

Qin Yuan raised his eyebrows, which was also a bit surprised, but now the situation is urgent, and he doesn't have much to say, so he directly said to the driver:

"Well, let's go straight now!"

Qin Yuan must hurry up. now both Hades and Thor are rescued in the intensive care unit, and they are not out of danger. If Hades and Thor have any accidents, Qin Yuan has no choice. .

After all, Qin Yuan can't save the dead!

Following this order, Long Xiaoyun and Qin Yuan went directly to the hospital!

Soon, the two of them have arrived at the Hospital of the First Military Region.

After getting off the helicopter, Qin Yuan and Long Xiaoyun were heading for the intensive care unit!

At this time, the old fox, Harley, Little Bee and others, all stood at the door with an anxious look, walking around!

Each of them has red eyes, obviously they are extremely worried about the two people inside!

If something goes wrong with Thor and Hades, their team may be disbanded!

What's more, the doctor's expression was not good just now, which gave them a very ominous premonition!

When they saw Qin Yuan at this time, they also directly hit a Ji Ling, and quickly won:

"Qin Yuan, Captain Dragon, why are you two here?"

But soon they were lonely again, even if Qin Yuan came, so what happened, now that the king of Yan and the Thunder God are still undecided, they really can't be happy.

And Qin Yuan asked in a deep voice:

"How is the situation now? Can I go in and have a look?"

"No, the two of them are undergoing an operation. The doctor said that they are not out of danger. We just wanted to go in and have a look, but we almost got bombed out!"

The old fox said with a sad face, after all, this is the hospital of the military region, not the place where they go crazy!

Chapter 116: Qin Yuan shot

Hearing such words, Qin Yuan also frowned.

Now the hospital system is relatively complete. Patients have no way to meet with their families, and nurses are available 24 hours a day, especially in the intensive care unit. After all, infection is a very serious problem.

Not to mention that they are still a military hospital here!

At this time, a doctor in a white coat walked out directly, glanced at the people outside, and said in a deep voice:

"Are you all other people's family members?"

"Yes! Yes! He is my captain!"

At this time, the old fox and others directly surrounded them, and the doctor also understood the identities of these people, nodded slightly, and then said to everyone:

"The operation has now been completed, but I don't guarantee that the two of them can wake up safely, but one thing has been confirmed. I am afraid that they will not be able to serve as soldiers in the future."

"This... this... how can this work!"

The old fox looked desperate. Both Thor and Hades were in their 30s. It was the peak age of a man. But something like this prevented them from continuing to join the army. This is for both of them to put their best age into the army. For people, it is a very cruel thing!

And at this time Qin Yuan heard this, went around directly, and said to the doctor, "Can you let me in and see, I am also a doctor."

"I'm sorry this gentleman, his condition is still very dangerous now, even if you are really a doctor, I can't put it in."

The doctor shook his head directly. Thunder God and Yan Wang were important patients who had been ordered by their superiors to be treated. He didn't understand Qin Yuan's details. How could he directly let Qin Yuan in?

After saying this, the doctor left here directly. He has been undergoing surgery for a long time and is already very tired.

At this time, the old fox and others were completely desperate. Although they were mentally prepared, they still couldn't accept the news when they knew it.

"It's all me! It's all me! I was going to go, but Thor did it for me, Thor! I killed you!"

At this time, Harley, who was on the side, burst into tears, and Qin Yuan heard this, but said directly to Harley:

"What's the use of crying now, even if it is replaced by you, at most it is replaced by Thor crying outside. The most important thing now is to find a way to let me in, and I am sure to cure them!"

Hearing these words, the members of the Thunder God team were shocked and looked at Qin Yuan in disbelief.

"What, Qin Yuan, you said you can cure Thor and Hades?"

"Qin Yuan, do you really know how to heal?"

"But, the doctor just now is already the top expert, and they can't say it..."

None of these people have seen the magic of Qin Yuan's medical skills, and naturally they have doubts about Qin Yuan.

But after doubting, they also gritted their teeth and directly chose to believe in Qin Yuan!

"I know a nurse, I don't know if he can open a back door for us!"

"A friend of my old uncle's is also in this hospital, I'll ask him if he can help!"

Seeing these people at this time, he instantly panicked, while Long Xiaoyun, who was standing on the side, asked Qin Yuan in a low voice:

"Are you really sure to cure those two people?"

Although Long Xiaoyun knew that Qin Yuan had cured Yu Fei, Yu Fei's symptoms were cardiac arrest after all. He thought that Qin Yuan would only be able to do some first aid.

But now both Yan Wang and Thunder God have undergone surgery, but Qin Yuan also said that he could be cured, which made Long Xiaoyun a little bit incredulous.

"Trust me, as long as you let me in, I'm 90% sure!"

"That's good, then I will believe you once, I will help find a relationship!"

Long Xiaoyun finally chose to believe in Qin Yuan, but at this moment, they saw that the lights in the operating room went out, and then several nurses and doctors came out pushing a hospital bed!

And the one lying on the bed is Lei Zhan!

At this time, Lei Zhan was still carrying a ventilator. There was no blood on his face, and he looked extremely miserable.

When he saw Lei Zhan, the old fox and others immediately surrounded him. But the nurses stopped them and said to these people:

"You can't go there, the patient is not out of danger yet!"

"Doctor, tell me, how is he doing?"

The old fox was about to cry when he saw the doctor's face, because the two doctors were extremely solemn, and they seemed not to be optimistic.

"I can't assure you that he will be able to wake up. He was hit on a nerve in the spine. Even if he can wake up, he can only live in bed in the future!"

Hearing this, the members of the Thor team seemed to be struck by lightning, and they froze immediately.

They didn't expect that the powerful Thor would actually end up like this. If they become a vegetative or someone who can only live on a bed, this is even more uncomfortable than killing Thor!

Seeing the appearance of this group of people at this time, the nurses were also very embarrassed. They knew exactly how excited these people were when they first sent the patient.

can also think of the meaning of Thor lying on the bed to them.

Now that this is the case, their tone is naturally a lot more euphemistic.

And these nurses understand that the chance of Thor waking up may not be great.

For a plant person, they don't want to care about too much with the old fox.

It cannot be said that these people are relatively indifferent. As medical staff in hospitals, especially military hospitals, they have seen a lot of life and death.

"Lei Zhan, you can't just fall asleep like this! If you fall asleep, what do you want us to do!"

At this time, the old fox suddenly uttered a shout and everyone was shocked, but when they saw the old fox as a middle-aged man, tears were falling like a flood that they felt like mentioning. They were also in their hearts. Something moved.

At this moment, Qin Yuan squeezed over.

Just now that Lei Zhan didn't die directly, he was relieved.

As long as he is still alive, as for the spinal nerve damage and turning into a vegetative person, it is nothing to Qin Yuan.

The eight needles against the sky are powerful, and the limbs can be regenerated. Isn't it the same as drizzle to repair a damaged nerve?

Qin Yuan directly took out the silver needle from his pocket, and said in a deep voice to the old fox and others:

"Old fox, little bee, if you want Thor to stand up, then look around for me and don't let anyone disturb me!"

Hearing this, the old fox and the others were stunned. At this moment, they saw Qin Yuan, took out the silver needle, opened the quilt and clothes on Thor's body, and directly pierced Thor's needle. Body!

Chapter 117: Shock

The silver needle in Qin Yuan's hand traversed a mysterious arc and directly pierced Thor's body!

Eight stitches against the sky, the third stitch, start!

At this time, the people around saw Qin Yuan's movements, and they were all attracted by the movements of Qin Yuan's hands. After all, the arc is so beautiful that it makes people feel lighthearted!

Just looking at it is an incomparable enjoyment!

With the drop of Qin Yuan's needle, Thor, who was lying on the bed, immediately struck a spirit, and his whole body trembled directly!

"effective!"

Seeing Thor's reaction at this time, the old fox and others were immediately happy. As soldiers, they naturally understood some common medical knowledge.

It is reasonable to say that now Thor should be in a severe coma, no matter what others do to him, he should not feel it.

But Qin Yuan's stabbing made his body tremble, which proved that Qin Yuan's medical treatment was effective.

I didn't expect Qin Yuan to really have a strong medical skill!

At this time, several nurses and doctors in the surrounding area immediately responded, and they quickly wanted to stop Qin Yuan:

"What are you doing? How can you treat patients casually? In case something goes wrong, can you bear the responsibility?"

At this time, a doctor immediately reprimanded him severely. He just wanted to pull Qin Yuan aside, but Qin Yuan's eyes moved, and he winked at the old fox on one side.

The old fox immediately understood his mind. He gritted his teeth and directly made a gesture to his teammates. Then these people's eyes changed, and they immediately rushed up, buckling the doctors and nurses.

Now that Qin Yuan's treatment is effective, they can't take care of that much.

As long as there is a chance to restore Thor, they will do whatever it is.

As for these medical staff, I can only apologize to them afterwards.

Qin Yuan understood that although the people from the Thor team had detained these medical personnel, they would not be able to hold off for long after all.

"Body shaking!"

Qin Yuan's eyes flashed, and his limbs vibrated directly!

In an instant, Qin Yuan's hand was like a ball of lightning! The silver needle in the hand is rapidly reduced!

And the consequence of doing this is that Qin Yuan felt that his massive physical strength was being drained quickly, and his steps became a bit vain!

However, Thor's changes are visible to the naked eye!

Thirty seconds, Thor's heart rate has returned to normal!

One minute, Thor's complexion has improved, and some injuries have healed!

For five minutes, Thor's eyes were shaking constantly, and he was about to open his eyes!

In the seventh minute, Thor's fingers moved directly, and they had completely recovered!

Qin Yuan directly took his silver needle back, and at this time, Thunder God suddenly sat up from the bed, completely frightening everyone present!

At this time, everyone looked at Qin Yuan and Lei Shen with shocked expressions. They didn't expect that Qin Yuan actually rescued Lei Shen back!

How else could Thor, a vegetative man about to be paralyzed, sit up from the bed?

Seeing that Thunder God had already sat up, Qin Yuan also took a deep breath, stepped back two steps, and sat down on one side of the wall.

At this time, Qin Yuan's clothes were completely soaked in cold sweat. He could already guess that the third stitch would consume a lot of money, but he did not expect it to consume so much.

What's more, he also used high-frequency vibration. In such a short period of time, completing the treatment of the third needle, the consumption is even greater!

At this time, Thor looked at the people around him blankly, and said blankly:

"What's the matter? What's wrong with me? Aren't we on a mission?"

Thunder God just woke up, his memory still stayed before the injury.

But soon he just became anxious and asked these people:

"Where's the king, how is the king, what happened to the king, Minden used the trick, I was caught, and I saw someone go to deal with the king, how is he!"

At this time, Thor's face was full of panic, he was very afraid of losing his comrades!

But this kind of person saw the appearance of Thor, but he was full of joy!

"Look at Thor's appearance, it's really cured!"

"Yes, I speak clearly and remember clearly!"

"This is too amazing, what kind of medical technique is this? Even this kind of injury can be cured!"

At this time, everyone was cheering, and Long Xiaoyun was also looking at Qin Yuan in shock. She came over to see how Qin Yuan cured and saved people. Who knew that Qin Yuan would give her a complete surprise!

As for the nurses and doctors around, they were even more surprised. After all, they had determined just now that the chance of the patient in front of him waking up is unlikely, but now, seeing the bewildered Thor, who is sitting on the bed, they are too. unbelievable!

Is it just less than 10 minutes, it has been restored?

A doctor couldn't believe it, he rushed to Thor's side and checked Thor's data, but was extremely horrified to discover that Thor was not only injured in the spine, but also recovered from other physical injuries, but also returned to normal!

"This, is this really something humans can do?"

At this time, the doctor's heart collapsed a bit. He had studied Western medicine for so many years, and he couldn't even cure such a condition. The young man just got a few needles and he was cured directly?

This is too scary!

At this time, everyone looked at Qin Yuan who was on the side, and saw that Qin Yuan was tired and about to collapse. They were extremely grateful and admired for Qin Yuan!

Thunder God heard the explanation from his teammates at this time, and also figured out what happened. When he knew that Qin Yuan had cured him, his eyes were almost falling out of fright.

He really didn't expect that Qin Yuan is not only outstanding in marksmanship, but also good in skill! Unexpectedly, there is such a magical medical technique.

"Qin Yuan, me, I really don't know what to say!"

At this time, Lei Shen was extremely excited, and he paid a military salute to Qin Yuan!

And Qin Yuan just smiled, and then said to Thor:

"No need to be like this. Everyone is a comrade-in-arms and a friend. You don't have to worry about things like this."

There was a burst of tears in the eyes of Thunder God, and Qin Yuan saved him from fire and water this time, completely changing the fate of his life.

Just when Thor wanted to say something, he suddenly heard a voice from the other side of the corridor:

"What are you doing? Why do you stop the patient in the corridor? Don't you know if you should send it to a sterile ward?"

The person who spoke was the attending doctor who came out of the operating room just now, but when the attending doctor saw clearly that the person on the side turned out to be Thor, he was so scared that he almost fainted!

Chapter 118: Minden's purpose

He was still operating on this man just now, so he naturally knew how serious the injury of the man in front of him was. Not to mention standing up, even waking up is something worth cheering!

But Thor is standing in front of him alive!

Is this a corpse fraud!

Is this person hung up, and then he was called up?

I can't help the doctor think too much, this is really challenging his three views!

And Qin Yuan didn't care about the doctor's shock, but went directly to another room, and directly treated Yan Wang!

And that doctor subconsciously wanted to stop Qin Yuan, but he was stopped by the old fox and others. Now that the example of Thor is in front of them, they have a little more confidence when they do it!

Hell's injury is lighter than that of Thunder God, and Qin Yuan has cured it only with the second shot against the sky, and this time there is no need to worry, Qin Yuan can also take a sigh of relief.

An hour later, Qin Yuan put away the needle and saved two people in a row. Qin Yuan was also a bit exhausted, and all his clothes were soaked.

Only at this time, Qin Yuan's mind sounded a system prompt:

"Ding Dong, congratulations to the host for completing the task and getting a grid!"

Hearing this voice, Qin Yuan also showed a smile, not only because he got the grid, but also because he saved two people.

He and Yan Wang Leishen are also acquaintances, and Qin Yuan is also a little relieved to be able to save the military career of these two.

At this time, King Yan also looked at Qin Yuan blankly, not knowing why Qin Yuan was in front of him.

Qin Yuan didn't say much, but directly opened the door and walked out.

And when I saw Qin Yuan coming out, everyone surrounded him:

"how about it?"

"It's cured! Go in and take a look!"

The old fox and others heard this, and they were immediately overjoyed. They saw that they were intact, sat on the bed, and hugged him directly.

Several people hugged tightly.

At this time, the attending doctor looked at Qin Yuan with a dumbfounded look. These two patients who had been judged to be incurable by them, are now being cured by Qin Yuan?

They felt that the books they had read and the operations they had done before were all done for nothing!

"Qin Yuan, I really don't know how to say it! Thank you!"

"Yes, our Thor team will remember your kindness!"

"Uh, is this doctor called Qin Yuan, I wonder if I can ask, what exactly are you using?"

But after hearing these voices, Qin Yuan didn't want to answer at all. He was very tired now, he just wanted to sit down and rest. Qin Yuan directly leaned against the wall and slowly swayed.

And Long Xiaoyun, who stood beside Qin Yuan, directly supported Qin Yuan, and said loudly to those people:

"Quiet, what's the problem? Later I said, now Doctor Qin Yuan needs to rest!"

Hearing this and seeing what Qin Yuan looked like, the people around instantly became quiet. They looked at Qin Yuan with admiration. It seemed that Qin Yuan had also spent a lot of money to save others.

Long Xiaoyun looked at this magical man with a hint of gentleness on his face.

This man is too easy to exceed others' expectations.

When Qin Yuan woke up, he found that it was a ceiling that he had never seen before, and he felt that he was still holding a bottle in his hand, and when he looked up, he found that it was actually glucose for replenishing energy.

"You wake up, your comrades are waiting in the corridor, saying that they are afraid of affecting your rest, I will call them!"

This little nurse has also seen Qin Yuan's treatment, so he admires Qin Yuan abnormally.

While Qin Yuan just wanted to say something, the little nurse smiled and walked out directly, and then a group of people came in from outside!

"Qin Yuan!"

"Great God Qin!"

The people who came at this time were not only the people from the Thor team and Long Xiaoyun, but even the doctors in the hospital came here.

At this time, Long Xiaoyun asked Qin Yuan:

"Do you feel better? You are really too powerful. I went to take another look at the results of Thor and Hades' previous examinations. Even a layman, I can see how serious their injuries are. I didn't expect you to be. It was cured so easily."

Long Xiaoyun's eyes were full of admiration, but Qin Yuan smiled and said:

"It's just a matter of effort."

"Haha, you saved the lives of both of us with a simple effort."

Thunder God and Hades also patted Qin Yuan on the shoulder vigorously. They were extremely grateful to Qin Yuan. If it weren't for Qin Yuan, I'm afraid that even if the two of them could survive in the future, they could only spend it in bed or wheelchair .

After , everyone greeted for a while, but at this moment, there was a knock on the door, and everyone looked at it and found that the person who came was actually Fan Tianlei.

Seeing Fan Tianlei, everyone in the house immediately walked out with interest. He knew that Fan Tianlei's coming here was definitely not only to condolences Qin Yuan, but also other things!

Long Xiaoyun also showed a slight smile, nodded to Qin Yuan, and walked out slowly, then Fan Tianlei sat beside Qin Yuan's bed, looking at Qin Yuan in surprise:

"What the \*\*\*\* did you do? I have checked your information. You didn't know how to heal at all before."

Qin Yuan had already known that this time caused Fan Tianlei's suspicion. After all, an orphan in an orphanage had such medical skills, so it was unreasonable.

And at this time, Qin Yuan was the old \*\*\*\*\* who said:

"Well You also know that my previous gambling skills were good. When I was in the casino, I met an old man and won him a lot of money. As a result, he couldn't pay the bill, so I won from him. I arrived in a medical book. It is said that he is a descendant of Shengu, and he has to use this needle method to pay off debts. I reluctantly agreed..."

Hearing what Qin Yuan said was obviously nonsense, Fan Tianlei shook his head. Since Qin Yuan didn't want to say it, he didn't need to ask too much.

"Well, I really want to thank you this time. If it weren't for you, I'm afraid Thor and Hades will be abolished. I'm afraid the entire Thor team will be disbanded. You saved them and saved the two generals in my hands."

"They are all comrades-in-arms, so I don't need to say more, but I want to ask what happened to Minden?"

Qin Yuan frowned slightly at this time, but when he heard what Qin Yuan said, Fan Tianlei said with a serious face:

"We first received the tip that Minden came here this time to avenge his brother, but in fact he has already cooperated with an international organization to steal blood samples from our country and create A genetic weapon that can only exist in our country!"

Chapter 119: Rescue Fan Tianlei

Fan Tianlei paused and continued:

"This kind of genetic weapon can greatly increase the deformity rate of our newborn babies and reduce the immunity. It can be regarded as ruining a country from the root. Fortunately, when you learned the news, Thor also destroyed these materials. Once this goal is accomplished, that is truly terrible."

"He has now escaped from Yan Nation, and we have no way to attack him for a while, but I have issued a wanted order internationally, this time his loss is not small, I believe he is not well now."

Qin Yuan shook his head when he heard this. This time it was his negligence. Unexpectedly, Minden was a master. If he had known it earlier, he might fly over and kill Minden!

Fan Tianlei saw Qin Yuan's appearance, and also comforted Qin Yuan:

"Don't worry. Although Minden was allowed to run away this time, we have strengthened our defense against Minden. Once we learn about him, I will notify you. Then he will be brought to justice. Revenge!"

Qin Yuan nodded when he heard this. After all, people have already run away, and now they can't find it. An international broker like this for profit can do everything and will never give up. Come to Yan Country again.

And Qin Yuan still has an idea, that is, to take the initiative to attack, it is best to wipe out those people outside the country, so that it can naturally greatly reduce losses!

In this way, it can also convey the prestige of the country of Yan, so that those who see the money will tremble when they hear the name of the country of Yan. In this way, there will be no people like old cats appearing!

And Min Deng was the first chicken Qin Yuan prepared to kill!

As long as Minden dares to show his head, Qin Yuan will definitely kill him in the first place!

"Ding Dong, the system releases the task, kill Minden, reward two grids!"

Qin Yuan also smiled when he heard the sound of the system.

Seeing that Qin Yuan was relieved, Fan Tianlei also said:

"Well, now that Thor and Hades have been rescued, Minden's goal has not been achieved, and our loss is not big. Let this thing pass for the time being. By the way, now your mission is almost completed, yes Isn't it time to return to the red blood cells?"

Red blood cells?

Qin Yuan thought for a moment, he hadn't been out for a short time, and he didn't know how Li Erniu and others were training.

"You want me to regain red blood cells, don't you want me and Li Erniu to train together?"

Qin Yuan clearly remembered how miserable he would be trained as a red blood cell rookie. Although he is not afraid now, he does not want to suffer this sin!

"Of course not. Your current ability is much stronger than us veterans. What qualifications do we have to train you? What's more, such training is only to exercise the soldiers' will. Does your will need to be exercised?"

This time I asked you to go back, just to get you and the people of the red blood cell team to break in. After all, they are your future players. "

Hearing this, Qin Yuan also nodded. There are three gangs of a hero. Ever since Qin Yuan knew that the abilities he gained from the system could be taught to others, he wondered if he could train a real special person. The team comes.

The red blood cell team that has not yet formed is naturally the best choice for Qin Yuan!

But he glanced at Fan Tianlei's leg, but said to Fan Tianlei:

"I still have two things that I haven't finished. The first is that I need to give some lessons to the members of the Spike Team. Second, I want to see if some people's legs can be treated."

what?

At this moment, Fan Tianlei's eyes widened when he heard this!

In fact, when he first received the news that Qin Yuan had cured Thunder God and Yan Wang, apart from the unspeakable excitement, there was still a trace of regret in his heart.

If I had a teammate with a medical skill like Qin Yuan at that time, wouldn't my leg be cut off?

But now that he heard what Qin Yuan said, he seems to have a way to recover his legs?

"what do you mean....."

"Yes, I want to see if there is any chance of saving your legs!"

With these words, Qin Yuan got out of bed and checked Fan Tianlei's broken leg.

Fan Tianlei looked nervous at this time. Since his son died and his wife divorced, Fan Tianlei has put all his energy into the army.

But this broken leg is Fan Tianlei's weakness, so Fan Tianlei has no way to continue his mission!

"This....."

"Okay, stop this and that, now you are not my chief of staff, but my patient, I am a doctor, and the patient must listen to the doctor!"

Qin Yuan directly removed Fan Tianlei's prosthesis, and looked at Fan Tianlei's broken leg that was worn out by the prosthesis, Qin Yuan also sighed.

Although it was said that he could be reborn by amputated limbs, Qin Yuan had not tried it, and he had no bottom in his heart.

"You are lying on the bed, I will give you acupuncture!"

After      , Qin Yuan directly used acupuncture and moxibustion to treat Fan Tianlei, and found that it was effective!

It's just that this severed limb cannot be cured in a short period of time and requires multiple acupuncture.

just right, Qin Yuan also needs to be proficient in using eight needles against the sky, which can be considered a little proficiency!

Fan Tianlei was extremely excited, he really did not expect that Qin Yuan actually had a solution to his broken leg!

"Thank you! Thank you! Qin Yuan!"

At this time, Fan Tianlei was excited and didn't know what words to use to thank Qin Yuan, but Qin Yuan just smiled.

And Qin Yuan heard the system prompt:

"Ding Dong~ The system will issue a task to treat Fan Tianlei's broken leg and reward a grid!"

Hearing this voice, Qin Yuan suddenly became more motivated!

In the next few days, Qin Yuan went back to the red blood cell team directly, but Qin Yuan was a little surprised that he had gone for a long time, but the number of people participating in the training was still quite large, even the Zhao Haipeng who had left before. came back!

And when Qin Yuan mentioned this to Fan Tianlei, Fan Tianlei laughed loudly when

"There are still 25 people left, which is beyond my expectation. In fact, all of this is your credit. When they think about becoming your subordinates, their motivation is even stronger. Unfortunately, we can only stay 5 Personally, a lot of good seedlings really appeared this time! Something wasted!"

Hearing this, Qin Yuan shook his head for a while. He didn't expect such a change in his appearance.

"Qin Yuan, do you want to follow the training today, it will be very interesting."

"Oh? What training?"

Qin Yuan was also a little interested, and Fan Tianlei smiled, and said directly to Qin Yuan:

"Let's not talk about this, let's go to the cafeteria for dinner first, and you will know after eating!"

And when Qin Yuan arrived in the cafeteria, he found that all the members of the red blood cell team were dressed in formal wear and arrived in the cafeteria, and what was placed in front of them were bowls of tofu brain sprinkled with chili noodles!

#### Chapter 120: Tofu Brain

Seeing these tofu brains, Qin Yuan immediately understood what Fan Tianlei was going to make, and a smile suddenly appeared at the corner of his mouth.

At this time, Li Erniu and others saw that Qin Yuan finally came back, and they were all very excited. The training they received in the past few days was extraordinary. Now that they saw Qin Yuan, they felt a lot of comfort in their hearts. .

"Brother Yuan is here, do you think he will receive training with us?"

"No way, who is Brother Yuan? He has become the default captain, how could he still train with us?"

"Oh, forget it, what do you care about? This tofu brain is really fragrant, why don't you let it be eaten!"

At this time, after seeing these people sitting down, Fan Tianlei directly began to speak:

"Everyone, today, there is a special training, but I spent a lot of attraction in this training, and it took a lot of favors to get it, so you must cherish it, and wait until we have eaten this bowl of tofu. , Go now! Okay, everyone, you know the one next to me, so I won't introduce more, let's start eating!"

After saying this, Fan Tianlei sat down and ate tofu brain, and his wife was naturally looking at these red blood cells with pity, but he didn't say it straight.

After all, he knows that the red blood cells will face the mission of a lifetime of nine deaths in the future. If they can see blood earlier, they will naturally grow up earlier. Sooner or later, they will have to go this way!

Qin Yuan directly brought a bowl of tofu to He Chenguang's table, and He Chenguang and the others quickly gave a place!

"Brother Yuan, where have you been these days? I want to kill you!"

"That's right, Brother Yuan, you don't know what kind of training we have received these past few days, alas, my brain, it will kill us!"

"Brother Qin, this is Xu Tianlong, you can call him Longlong, this is Song Kaifei, you call him the pilot, as for this, Qin Yuan Qin Dashen, you have seen it before, so I won't say more!"

At this time, Li Erniu and others saw that Qin Yuan was an unusual intimacy, and Longlong and Song Kaifei also knew Qin Yuan's abilities and understood that Qin Yuan was a real master, and naturally they also treated Qin Yuan courteously.

"Okay, okay, any reminiscences, we'll be talking for a while, let's eat first, after all, you will have to train later, this training is not easy."

After Qin Yuan said this, he started to eat tofu brain.

After hearing Qin Yuan's words, He Chenguang and Long Long suddenly thought of something, and their faces instantly became strange.

They didn't think about that at first, but they glanced at the tofu brain in front of them, and then remembered Qin Yuan's profound words, swallowed, and felt that the tofu brain in front of them didn't seem so fragrant.

"What are you two doing in a daze? Eat quickly, wow, this bean curd is amazing!"

"Yeah, Chenguang, where do we usually eat this?"

"Hey, do you usually eat sweet tofu nao or salty tofu nao?"

"Of course it is sweet!"

"Fuck off, only salty parties are authentic, and your sweet parties are heretics!"

At this time, seeing these people seem to be unaware, He Chenguang squeezed out an ugly smile, and then reminded Li Erniu:

"Brothers, eat slowly, don't eat too much, this thing is delicious and not digestible!"

"Isn't it just bean curd? Is there anything difficult to digest?"

Li Erniu asked blankly, but Qin Yuan shook his head at He Chenguang and said directly:

"It's delicious, there is no limited supply today!"

He Chenguang's heart sank after hearing this.

Qin Yuan was right. They would have to go through this sooner or later anyway. Although Qin Yuan had already been appointed as the captain, He Chenguang knew that Qin Yuan and

them were the same recruits. Since Qin Yuan would eat if he guessed it, how could he? Was left behind?

"Brother Yuan, you are right! I eat!"

This is He Chenguang who also picked up the tofu brain and ate it smashingly.

Li Erniu looked at the two people with puzzled faces, and asked with his cheeks bulging:

"What the \*\*\*\* are you two playing puzzles? I don't know what you are talking about!"

Seeing Li Erniu's appearance, Qin Yuan smiled:

"Okay, ignorance is bliss, hurry up and eat!"

Everyone eats deliciously, especially Li Erniu and Wang Yanbing, as well as Song Kaifei. They ate three full bowls, and after eating, they still looked unsatisfied.

Qin Yuan looked at these three people and couldn't help but want to laugh, eating so much, but you will feel better for a while!

At this time, seeing that the rookies had finished eating, Fan Tianlei also stood up directly and said to these people:

"I've already eaten it, then let's hurry up!"

Everyone got into a bus directly and left the military area.

The car slowly passed through the city and went directly to the suburbs, and the surrounding environment became more and more desolate, but there were a lot of armed police officers here, which immediately attracted everyone's attention.

"What are you doing? Why is it such a big battle? Does it have anything to do with us?"

Pilot Song Kaifei asked with a curious look. At this time, He Chenguang's expression was ugly. He pointed to Song Kaifei on the high wall in the distance. On it, there was the word "Xing"!

Song Kaifei took a look at it, and when he saw the word clearly, his face instantly turned pale, as if he understood what the training was this time!

"Isn't it, this is a bit too cruel, this kind of training also allows us to eat tofu brain in advance?"

"What training? Why don't I know?"

Hearing Song Kaifei's words full of despair, Li Ernew suddenly asked curiously.

Wang Yanbing also found out, and said to Li Erniu with an ugly face:

"Brother Niu, this is for us to see the execution of the death penalty!"

"What?"

Li Ernew suddenly yelled. and heard this voice. The pleasant atmosphere in the car just now disappeared. Everyone's face seemed to be eaten. Baba is as ugly as that.

At this time, Fan Tianlei stood up, looked back, shook his head and said:

"What's the matter? Don't you all pretend to be kings of soldiers, special forces elites? If you can't even pass this level, how can you continue to go down? All this is to thank your captain Qin Yuan, if this criminal It is not being caught by Qin Yuan. If you want to see such a scene, you need to delay for a while!"

Hearing this, everyone fell silent. At this time they remembered Qin Yuan's words. This person obviously knew the content of the training, but in the end he ate a lot. He was a real ruthless person!

When Qin Yuan heard such words, he was taken aback and asked Fan Tianlei:

"Who is going to be shot today?"

"Hey, it's the Fatty Liu you caught before!"
