

Special Soldier 1111

Chapter 1111: sudden attack

And it is also necessary to communicate with the outside team members. The current situation is that they deny the fact of house arrest, so they can only pass on the photos first, and see the results of their talks later.

Qin Zhengyang leaned against the fence outside. He looked at the guards in front of him, "If I were to be honest, if there was a fight, we would have dealt with these guards long ago."

"What do you know, kid? Right now, we have to stand still. Whoever fights first will have to pay the responsibility. Once there are so many people fighting, it's not just a few of us."

The current situation is relatively tense. There are still cruisers and destroyers in the waters to which they belong. The two sides are now in a stage of confrontation and negotiation, which has not yet reached that level.

Just as Qin Yuan was talking, he came back, and he handed over the photos he had just taken to He Chenguang for him to transmit. He also briefly talked about the situation here, and there will be no major conflicts now.

In addition, now that they have the photos, they can't wait a week, and they have already obtained proper evidence. It is a kind of house arrest for their personnel, and they can just hand it over to the diplomats to talk about it now.

After all, Qin Zhengyang is still young, and he is relatively impulsive. He looked at Qin Yuan and said, "Brother Qin, if you want me to say, let's just rush in and give them a blow. With the strength of the few of us, these people, we really don't have enough strength." Put it in your eyes."

"Honestly put your gun away, don't worry, you can't shoot it, we are only here to investigate and collect evidence, now that the evidence is conclusive, they will talk with their superiors."

"But is that the way to go? If they really let our people go and let them go like this, wouldn't it be too cheap, and it's really embarrassing."

"A man can bend and stretch, and besides, what do we represent? We represent a big country, especially after you come out now, you represent the Yan country."

Although Qin Yuan said so, he still thought that as long as the people on his side were released, he would definitely teach them a lesson, and their diplomats were not vegetarians, so they would definitely ask for an explanation , things can't be so simple.

After the photos were transmitted, Gao Shiwei and the others saw that the internal situation was better than they had imagined. Even if country A was backed by the country of Mi, there were still some things to consider. The strength of Yan country should not be underestimated.

At least the safety of their common people is guaranteed, but this is their only choice. If their own people are really hurt, it will not be such a simple confrontation.

Now that there is conclusive evidence, Yang Kang and his team have already gone out to negotiate with the team. Gao Shiwei naturally hopes that it is best not to fight. Once this fights, the situation will be very serious.

He is definitely not afraid of war or anything, but once the suffering people are involved, how many people will join this battle.

Yang Kang led his team to find their military diplomat. Without further ado, he released the evidence they took. The military diplomat was also stunned. Their defense is so tight, how could these photos be circulated? of?

Originally, they still prepared the previous set of arguments, and the request given to them was to delay their stay for a week.

But looking at the current situation, let alone a week, they can't wait for a day. Yang Kangde's attitude is very tough, and he demands the immediate release of their personnel.

"Mr. Romeo, you probably don't understand, right? If this thing is changed and something like this happens in our country, I don't know what you will do?"

Yang Kang looked at the diplomat in front of him coldly, and said these words.

Now that someone else has the evidence, Romeo knows he is wrong, he can only say: "I am very sorry, now I will communicate with my superior, and we will definitely deal with this matter. This is definitely a misunderstanding."

"The photos have been released, and our personnel are indeed in a state of being detained. This is completely under house arrest. Why is there no such situation in other areas?"

Faced with Yang Kang's pressing questions, Romeo really didn't know what to say, so he could only ask the chief above for instructions.

This sudden change disrupted their plan. Originally, according to their previous plan, it was extended for one week. As long as they strictly guarded against it and no one discovered the change, the blockade would be lifted after a week.

The military chief of Country A frowned. This time, he planned to kill two birds with one stone, using Yan Country to give Country H a blow.

They get together and have a meeting in the conference room, and everyone is very nervous.

The diplomatic staff of country A was very anxious. He looked at the people in the conference room and couldn't make up their minds. "Everyone, we need to make a decision quickly. This matter has been discovered by others, so we can only release them."

"Release! What you said is easy, then we have done such a long time of preparation, isn't it all in vain?"

"That's because you don't have to face them. You know how much pressure our Ministry of Foreign Affairs is under. If this incident completely becomes the fuse of intensified conflicts, none of us can shirk our responsibility."

To be honest, they don't want to fight either. If they really fight, even with the support of the United States, they are not opponents.

In the end, after everyone's discussion, it was decided to release their personnel. If this confrontation continues, there will be no good results for everyone.

It's just an officer sitting on the side at the moment, looking at them coldly. This officer is Bass, the special envoy sent by the United States.

Just when everyone agreed, he suddenly raised his hand and said, "I object!"

Everyone looked at him, and he definitely had to object. Originally, they in the United States hoped that this matter would go on for as long as possible, so as to consume the strength between them, and what they wanted more was to fight directly.

The United States has an attitude of sitting on the mountain and watching the tigers fight. Even if they can't fight, they have to find a way to make them fight. Now they are about to retreat just now, which has completely deviated from their plan.

Bass looked at the crowd and said: "I don't know what kind of evidence these photos are. To me, it's just a staged photo. It never happened. Besides, it's not a military blockade. Is it a normal thing?"

This guy is really adhering to the style of the United States, so he simply came here to be shameless.

Even if they have already got the evidence, as long as they don't admit it, it's really despicable, but he is just a master who can stand up and talk without back pain. Now it is the country A that really has to face Yan country, and they are outside Speaking, of course, speaking lightly.

The diplomat of Country A stood up, looked at him and said, "Mr. Bass, the crux of the problem is that we have to admit that we don't know how these photos got out."

There will definitely be other new evidence in the future. Whether they admit it or not is not the point. At that time, Yan Guo will be really angered, and everyone will end badly.

Bass walked over with a smile, and patted him on the shoulder, "It seems that your internal training is still not enough. We have made so many preparations and given you such great support. Could it be over in two days? ?"

"And I speak more directly. If our country had a diplomat like this, I would have applied to the higher authorities to remove him. After all, it is useless." Gu

The diplomat of country A felt very uncomfortable hearing this, and stood up with fists clenched, but he couldn't offend the person in front of him.

Although Bass said so, other people still have to consider the consequences, and it is precisely because of this that they have to be more cautious.

Although he was sneering at him here, everyone still didn't listen to his opinion, and decided to release the personnel. Later, they found other new evidence, which is not good for anyone.

Seeing that such a provocation was unsuccessful, Buzz could only report to the outsiders after he came out, and they decided to adopt another plan.

The little secretary next to Bass tapped the keyboard quickly, "Mr. Bass, will we leave any clues by doing this? I'm worried that they will catch them."

"What's your worry? You can't find these wastes at all."

"Sir, I'm worried about the Yan Kingdom."

"Don't worry, everything is according to my plan. They can't afford to cause too much trouble. Now that the whole country of country A has been blocked, how can they come in?"

After he finished speaking, he snorted coldly, "We are the leaders of this game. Country A can't just stop playing if you don't want to play it. Let us be the leader now."

At this moment, everyone still doesn't know the conspiracy behind the United States. The diplomats of country A plan to go to the embassy in person and **** their personnel out. This can be regarded as an explanation for them.

Of course, regarding the external explanation, he could only claim that this was their normal internal blockade, which led to a misunderstanding.

When Qin Yuan saw the diplomats from country a rushing over with people, he knew he could close the team.

Originally, he was fully prepared this time, but he didn't expect the task this time to be particularly simple. He stood up and stretched himself.

"Okay! Everyone is ready to close the team. We just need to follow behind, **** everyone safely, and watch our personnel leave."

Everyone was quite satisfied with the result, and Li Erniu couldn't wait to say: "According to the progress, we may be able to go back in the afternoon, just in time for the big buns made in the canteen tonight."

"You kid knows how to eat in a day."

This time, it seems that the matter has been resolved, because nothing else will happen on the way, and country A dare not do anything to them.

Country A also made it quite grand, and specially sent several buses to pick up and drop off these people, and they also promised that for some expatriates who were locked down at home, they would pick them up in person and **** them to the airport.

This is really the first time for such an evacuation of overseas Chinese. The diplomats of country A only feel that it is ironic. They send them out by themselves, but they don't know how the above decision is made. This kind of embarrassing situation has arisen.

There is nothing he can do now, he can only apologize in person in the embassy with a smiling face, and promise to send them away now.

Qin Yuan took the red blood cells, and the team knew that they were slowly escorting him from the rear. Just when everyone thought everything was going well, an accident happened.

The bus from the embassy has just driven to the city center, because although they are blocked across the country, other things have not changed.

At the intersection of traffic lights, everyone was waiting for the pedestrians in front to pass. At this moment, a man rushed out of the pedestrians.

He pulled off his clothes, his body was covered with bombs, and he rushed towards the bus desperately. Qin Yuan saw this situation from behind, without any hesitation, he shot decisively and hit the man in the head.

I didn't expect there to be a suicide attack. What's going on? The captain of the car stared coldly at the escorting diplomats ahead.

"What do you mean by this? Didn't you say that it's safe to ask us to ***** you out?"

The diplomat looked at the corpse in front of him, and the body was full of bombs, and it was almost there. If the people behind didn't have time to react, they would die with the car.

He was so frightened that he was sweating coldly, there is no such thing as air traffic control now, he really doesn't know what's going on.

With this sudden situation, the soldiers escorting the outside also rushed over, and the diplomat wiped the cold sweat from his forehead.

"Fortunately, you dealt with it in a timely manner, and you almost rushed up as a guy, but what's going on?"

But the captain looked at the corpse on the ground in a strange way' No, our people didn't deal with it, and there was no time to react. We didn't find this person, but only heard the gunshots. "

what!

Now that this happened, the diplomats could only keep everyone in the car, and there was a shootout in the downtown area. This is no joke, and the people on the street are in chaos.

The soldiers rushed over and surrounded the bus to ensure the safety of the people on board. They also hurriedly evacuated the crowd and launched an investigation.

At this moment, Qin Yuan and the others have been hiding in the dark. As long as there are still attackers, he will not let them go, let alone let them approach the vehicle.

He Chenguang looked at the situation ahead, and said in a low voice: "Brother Qin, I think these guys want to go back on their word. Otherwise, how could such a thing happen? If we didn't deal with it in time, they would really succeed. gone."

"I can't tell exactly what's going on at the moment, but I really hope they can give an explanation. Now everyone is more vigilant and protects our people."

Brother Qin also couldn't figure out what was going on. According to the current calculations, there was no need for them to fight with him. It would have no chance for them to win.

I just don't know if this person was specially arranged by them, and it can be blamed on other violent terrorists at that time.

The soldiers leading up from the other side squatted down and checked the situation of the person in front of them. Excluding this person, the bomb was strapped to his body, and the bullet that hit his forehead was also taken out.

Chapter 1112: successfully caused internal strife

The captain who came up to check took a look at the bullet, and instantly turned pale with shock, "Everyone, be alert, there are other people here besides us."

The former head of the diplomat also looked nervous. Everyone kept looking around, but they didn't see any clues.

"Captain Eric, could it be that you are thinking too much? In my opinion, it should be the subconscious reaction of a soldier."

The person in charge of the diplomat, he felt, was likely to be the subconscious reaction of the soldiers behind to shoot, otherwise there would be so many accidents.

"This is my specialty. Do you think I'm going to make a mistake? We say that all the guns and ammunition used by soldiers are 5.56mm, but this bullet is 7.62mm."

They are all using close-range submachine guns now, so the millimeters of the bullets are all 5.56, and there is no 7.62 so far.

The captain was also worried that the diplomat would not believe it, so he directly took out the bullets for him to compare.

"Although you are a layman, you don't understand these things, but look at the size of this bullet, and the ones we use are not the same kind at all."

After the captain finished speaking, he turned his head and looked around, and said again, "There is one more important point, my soldiers will definitely not be able to achieve such good results."

Knowing this position, it does not occupy any shooting angle at all. The bus in front has become a line of sight blocker, and there are still a few cars on the outer side.

This requires a high level of shooting to hit the target with one shot, and it only hits the head. The bomb was not hit, so the bomb did not explode. His soldiers absolutely cannot do this kind of marksmanship.

He solemnly raised his head and looked at the passengers on the bus. This time they dispatched a total of three buses. At present, they don't know what happened.

The diplomat glanced at it, but also felt a chill on his back. If there was a sniper hiding outside them, and they couldn't tell whether the enemy was a friend or not, it would be troublesome.

"Mr. Diplomat, I think it is very necessary for you to report to the higher authorities as soon as possible. I suspect that this is a bitter trick they have come up with, deliberately pretending to show it to us."

"what!"

The team leader felt that Yan Guo directed and acted on their own. After all, they would never swallow their anger like this. This time, they had been confronting each other for a day and a night, and there was no movement from either side.

However, something went wrong during the delivery, so the team leader suspected that they did all this on purpose.

Trying to get these people to go wrong midway and then refer the responsibility to them.

Although the team leader said this, the diplomat also calmed down. He retorted: "What you said is very reasonable, but if they directed and performed it themselves, why did they kill this criminal?"

"I can't figure it out at the moment, but they must have a reason. Now their people are lurking in our city. We have set up so many security guards around us. How did they get in?"

The problem now is not only the safety of these people in the car, but that they have been blocked all over the country. Under such a tight blockade, they can still infiltrate.

It's not something they should consider at this level now, they infiltrated, and now there is only a shooting here, so what if there is any harm to their president? This may involve security issues.

The squad leader immediately took out his walkie-talkie to ask for support, but the people sitting on the bus didn't know what happened. Soon, a large number of soldiers surrounded several buses.

Even the helicopters have been dispatched. The helicopters are responsible for high-altitude security at high altitudes and provide fire support at any time.

Brother Qin frowned in the back. Originally, he had rescued his own people, but he didn't expect the matter to become more and more complicated, and he was misunderstood by them.

After all, this is the city center, and there was a violent terrorist attack. The nearby reinforcements were very timely, and the soldiers quickly assembled.

Seeing that the situation was not good, He Chenguang asked in a low voice: "Brother Qin, what should we do now? Or just reveal our identities and take our people away?"

"We can't go out casually. Things are not that simple. It's getting more and more complicated. If we go out now, we might be bitten back by them, and we really can't shoot."

At this point, they do not have any advantage, mainly because the orders this time try not to conflict.

Li Erniu said a little indignantly: "I think this is what they really directed and acted on their own. If we hadn't acted just now, the suicide attack and rushing onto the bus would have had disastrous consequences."

"The current problems are getting more and more complicated. We just need to protect our people. From now on, the mission will change to a latent one."

Everyone understood that after the soldiers in front received reinforcements, the team gradually grew. Under the leadership of the team leader, everyone was asked to conduct inspections in batches, mainly to search for snipers hiding in the city.

Brother Qin looked at it from a distance, and a man wearing a beret walked over and looked like he was their captain.

The captain glanced at the corpse, and immediately understood, "Can you now determine where the call came from?"

When asked, all the soldiers were silent. The situation was urgent at that time, and no one noticed it. They only heard gunshots, and they didn't even notice which direction it was coming from.

The captain was very angry. Not only did others infiltrate this time, but now even the most basic questions, their soldiers don't know how to ask them.

He stepped forward and slapped the team leader on the face, "You bastards, a sniper got in among us, and you don't know where the gun came from. What are you doing for food?"

The team leader was also very helpless, the situation was very urgent at that time, he really didn't pay attention, he looked around, and could only roughly point to the back.

"Report! It is very likely that it came from the direction of six o'clock behind."

"What is very likely? You have been in the army for so many years, don't you know the rules? What I want is not possibility, what I want is a definite answer! Lead me out to find it!"

"Yes!"

The team leader led his men to start searching, Qin Yuan and the others quietly retreated into the nearby moat and dived directly under the water.

The people on the bus were terrified. After experiencing such a thing just now, many people had lingering fears, especially the car in front.

The captain who spoke just now stepped into the car resolutely and ordered the driver to turn around. Now he is going to take them back and resettle them.

The person in charge of the Yanguo embassy hurriedly stepped forward and asked, "Sir, where are you taking us? Didn't you mean to send us out?" Gu

"I'm sorry, because of an unexpected situation, we have to add you and bring them back for management."

"What's the reason for this? Since there has been an emergency, we should go out as soon as possible instead of staying in this place, which will only cause greater danger."

Unexpectedly, it was this sentence that completely angered the captain in front of him. He pulled out his own gun from his waist and put it directly on the embassy staff member's head.

"Based on your status, you are not worthy to talk to me at all. Now, please sit on your seat obediently and go back!"

The driver was also quite frightened. The staff member of the embassy looked at him coldly, "You are really brave. Do you know who is behind me? You dare to point a gun at me."

"I don't care who you are, now you have to carry out my order, go back and sit down."

After finishing speaking, he directly pulled the bolt of the gun and fired a shot out of the window. Everyone was frightened by the shot, and the soldiers outside the window turned their heads to look around.

Qin Yuan also heard the gunshots. He felt that something was wrong. He came out of the ditch. The bus was too far away and there were many obstacles, so he couldn't see what was going on inside.

"Brother Qin, what's the matter? Have our people been threatened by them?"

"Damn! These guys really dare!"

Li Erniu wanted to rush forward without saying a word, but was held back by Brother Qin. Now they want to focus on the overall situation, not the time to express their personal emotions.

"There shouldn't be any problem. They don't dare to do anything. At most, they just fire a shot to threaten them. Don't worry! They don't have the guts."

"Brother Qin, should we just leave it alone?"

"No, we don't care, now we can only covertly protect and not shoot, otherwise the problem will only get worse!"

Qin Yuan ordered everyone to lurk in the ditch, and they walked out of the search area along the moat, and there was no point in staying here, because the bus was about to be taken away, and their soldiers also started Manhunt.

What happened, their streets began to use the radio to appeal to the citizens not to go out, and now they are picking up the fugitives.

The former team leader came to the place where Qin Yuan and the others stayed before. Qin Yuan handled it very cleanly without leaving any traces or clues.

They didn't find anything, the team leader sighed silently, he was very worried about such a good marksmanship, it was Yan Guo's ace team.

"Brothers! Look carefully for me, don't let go of any clues."

"Captain, aren't you just a sniper? Why are you so nervous? When the time comes, their military dogs will come, and the four of them will not go out, so they will definitely be found."

"You kid is really too careless, you know? What we just said is just a sniper. I'm worried that they have infiltrated a whole team, and look at that person's marksmanship."

This team leader is not the kind who underestimates the enemy, he knows that Yan Country has an ace team, if it is that team, then they have nothing to do.

At this moment, Gao Shiwei on the other side also received the news. Originally, according to Zhiquan's agreement, they were at the pier and waited for them to send people over, but half an hour had passed and there was still no movement. The news came.

Gao Shiwei was very serious when he heard it. This is not good news. At this critical moment, such a situation has unexpectedly occurred.

And immediately after that, they also sent negotiators, saying that in the current emergency situation in the country, no one should be allowed to go out.

This is completely nonsense, Gao Shiwei didn't care so much, and directly asked to meet their highest officer.

Long Baichuan directly ordered people to drive up all the destroyers behind, and a total of 25 destroyers surrounded the island.

Not only that, their aircraft carrier stopped 500 nautical miles away from here.

This is another way to put pressure on them. Sure enough, this trick worked, and soon the top official of country A, Regiel, came out to talk.

"We are also deeply sorry for this incident, but nothing has been investigated so far, so we cannot release any personnel at will. After all, we don't know whether these violent terrorists are related to these people."

Gao Shiwei became angry instantly when he heard this, he patted the table without any fear, and stood up directly.

"What do you mean? You suspect us. Our people have been detained by you for 48 hours for no reason, and there is no news at all. Are you still stalling here?"

Regill was not to be outdone, "This is not delaying time, but is related to the safety of our country. We now have clear evidence that other outsiders have infiltrated into our country."

"That's your business and has nothing to do with us' Now I ask you to release our personnel immediately."

"I can't do this. After all, I also want to ensure the safety of our side. This matter may be directed and acted by you. At the last moment, is it necessary for us to take action against you?"

It's really going to be a hit! Now the relationship between the two parties is very tense, and each party mistakenly believes that the other party is playing tricks.

The special commissioner of the United States, Bass, saw in the binoculars that Yan Guo had sent more troops, and he was very happy. He wished that this matter would become more and more chaotic.

The secretary next to him also gave a thumbs up, "Sir, our plan this time is really going very smoothly, and they have successfully had internal strife."

"This is not just the beginning. It will become more and more lively later on. It's just that I didn't expect that they actually penetrated inside. This really surprised me."

Buzz's original plan was to kill a few people, especially Yan Guo's side, so that they would be completely angered, but he didn't expect the plan to fail, and he still doesn't know which side they are from.

Whether it is the people from the country A or the people from the Yan country, but it should not be so easy for the people of the Yan country to infiltrate, so he can only continue to observe now.

The staff of the embassy, as well as the expats, were taken to another military base by them, and they were also interrogated. The staff of the embassy immediately stood up to stop this behavior.

"You are not qualified to interrogate us at all. We also have human rights, and you do not have this right."

Chapter 1113: start investigating

Faced with the questioning of the embassy staff, the soldiers around laughed loudly.

"Where do you think this is, or your country? This is country A, and you must follow our regulations here. You can do whatever we ask you to do, even if I kill you now."

The embassy staff wanted to argue with them, but was pulled down by the captain next to them.

"There's no point in arguing with these people now, they're not going to listen."

"We just watched them do something to us, do you think they are doing a body search?"

The staff of the embassy were very indignant, because the soldiers said, um, one of the girls did something, in the name of a body search.

The girl looked at them holding guns, looking fierce, she was so frightened that she didn't dare to move, she could only cry silently, everyone was very indignant when they saw it, but there was nothing they could do now.

"But there is no way now. It depends on the situation. No matter what, we must first ensure our own safety. They should not do anything."

The staff of the embassy can only bear it silently. Their duty is to protect these people. They did not expect it to become like this now.

Not only were they injured one by one, but they also had to accept their interrogation. The content of the inquiry was mainly how the previous photos were circulated. These guys were not here to investigate the shooting at all.

Zhang Ming from the guard couldn't take it anymore when he heard this. He told everyone to endure it before. He felt that there must be a misunderstanding in it. It would be nice if everyone solved it. They didn't want to solve this situation at all.

"What do you mean by that? Your inquiry doesn't make any sense. How will our photos get out? This is our business, and it has nothing to do with you."

"Why has nothing to do with us? Who doesn't know that if you use this method to leak some military secrets of our country, this matter is very important."

"I don't understand what you are talking about. Now I ask you to stop searching and interrogating us immediately. You have no such right."

"Now on our territory we have rights, and I doubt there are any spies among you!"

Zhang Ming directly picked up the gun in his hand. Their guards had weapons, and the soldiers next to them gave them a very disdainful look. This is a military base, so how could their few guns be useful.

"I put down your weapon now, I advise you to be honest, otherwise I can kill you at any time."

After the soldier finished speaking, he directly picked up the assault rifle in his hand and fired a few shots into the sky, scaring the surrounding people.

"Also, each of you must answer me truthfully and cooperate well. If there is any deception, I will kill you immediately!"

This time the hats are really big, most of them are ordinary people, they are guns, and they are intimidating, who will suffer?

Zhang Ming clenched his fists. There was really no other way now. For the safety of the people behind him, and for the sake of the overall situation, he could only silently choose to put down the gun.

But he knew that Qin Yuan would definitely come. Ever since she killed the gangster just now, she knew that Qin Yuan had been sitting around them and would protect them, but now he couldn't show up for many reasons.

Zhang Ming's idea was indeed right. Brother Qin had been following their footsteps, and now they heard gunshots just one kilometer outside the military base.

Gunshots at this time are not good, but there are soldiers patrolling around, and they have added infrared equipment, Qin Yuan and the others can't act rashly for a while.

Gao Shiwei on the other side failed to negotiate, and he could only get angry when he came back. These **** are just making excuses, and now they are completely detained. "

Everyone was discussing the plan in the conference room, and a military staff officer from the Eastern Theater Command stood up.

"I think the main responsibility for this incident lies with us, not Qin Yuan. Whoever let him make his own decisions? We ordered him to go in without any friction. In the end, he shot directly. Already!"

Long Baichuan next to him couldn't listen anymore, "The key to the current problem is not whose responsibility we are looking for, but what we should think of to solve it now."

"That's what I'm talking about. Since it's his responsibility, let his team lead the team out and make this matter clear, wouldn't it be good? Why bother with it? Now people misunderstand us all because of him ."

This time, they simply threw the pot out, and it completely became their special operations brigade's business, and they also completely shifted the responsibility for this matter to Qin Yuan.

If it weren't for a few chiefs sitting next to him, Gao Shiwei would have lifted the table directly. This guy really doesn't hurt his back while standing and talking.

"I don't agree with what you said. Look at the situation at that time. When Qin Yuan reported back, if he hadn't shot and killed the gangster in time, it would have been a suicide attack, and the consequences would have been disastrous."

This military staff officer has never really been on the battlefield, and has participated in several exercises. He doesn't even know what the real battlefield is like.

So I didn't expect the consequences and dangers of this situation at all.

Fortunately, the chiefs next to him were not foolish. Everyone knew that Qin Yuan had been forced to shoot in desperation. If it wasn't for that shot, it would have only caused greater chaos.

The commander of the southern theater stood up, and he stepped forward to carefully look at the position on the map.

"Our key problem now is not to shirk responsibility from each other, nor to blame our own comrades, but to find a way to solve the problem. I think it is these guys who made the ghosts. They directed and acted on their own."

"I also agree, otherwise, how could this unexpected situation happen just after our people came out."

Gao Shiwei frowned. The current situation is more serious. Time passed by, and they couldn't fight, so they could only wait quietly.

"Let's see it this way. It happens that Qin Yuan and the others are inside, so let their team secretly protect the safety of our personnel, and then investigate the truth of this matter."

This can be said to be the best way. Gao Shiwei believes in Qin Yuan's ability very much, and he can definitely find other clues in it leading the team.

But the previous combat staff officer didn't think so, "You guys trust him too much, don't you! It's too exaggerated to put the lives of so many people on their team, just those few people, it's just not right at all. responsible behavior."

Gao Shiwei's patience had reached its limit, he looked coldly at the staff officer in front of him, "Oh, what's your opinion, or send you there?"

The military staff officer was a little embarrassed when he heard this, and he coughed slightly, "Group Gao was joking, how can I go? If I go, wouldn't that be a joke?"

"Hehe, you really know how to make jokes. You have no combat experience at all. You have participated in several exercises, but you haven't been in actual combat. You just point your fingers here. Do you know what combat is? Do you understand what is the overall situation?"

Gao Shiwei's voice was loud, and these rhetorical questions completely stunned the combat staff officer.

"You... I'm making an idea for everyone's benefit, so you don't have to be so aggressive, right?"

"That's the soldier you slandered me first. Let me tell you, I trust Qin Yuan and the others 100%. I believe in their ability. They are our trump card troops."

Long Baichuan couldn't help laughing at the side. As we all know, Gao Shiwei is famous for protecting the calf. He can scold him at will, but as long as others talk about his soldiers, he will never stop.

The chief next to him doesn't make any sense either, this is the best solution now, let Qin Yuan and the others investigate the truth first.

"Old Gao, but what you said just now, can they really protect the people and investigate at the same time? They don't have enough manpower, just a few people, or should they also transfer your wolf warrior team?"

"Chief, it's not that I'm stingy and reluctant to send troops. Now that something like this has happened, they are under full martial law. If we send troops in again, if we are discovered, it will only be more troublesome."

This is indeed the truth, Gao Shiwei has 100% trust in Qin Yuan.

He immediately issued a task order to divide their team into two groups. On the one hand, they should protect the people, and on the other hand, they should investigate the truth of the matter as soon as possible. They should start investigating around the gangster, and compete with the people from country A for time and clues.

Qin Yuan immediately took the team into action after receiving Gao Shiwei's order. He left Li Erniu and He Chenguang here, they are the best snipers.

"Remember, under any circumstances, as long as the group of beasts dare to shoot at our people, they will be killed immediately! I will bear all the responsibilities!"

I have to say that this is really domineering, even Qin Zhengyang was taken aback when he heard it.

"Now is a special situation, special treatment, no matter what, I can't let our people be bullied abroad, these things, I will definitely return them later!"

What he said made everyone excited, and he led the rest of the team to start an investigation. Li Erniu and He Chenguang found a suitable position and began to lurk secretly.

No matter what, these people are behind them. When Qin Yuan and the others arrived at the scene of the incident, your soldiers had already gone up, and there were still a few scattered vehicles patrolling nearby.

Qin Yuan took a look at the position in front of him, and immediately drew a simple map. Qin Zhengyang was completely dumbfounded, his memory is too strong, and he just casually drew the streets of several cities .

"Zhengyang, don't be in a daze. Now we are going to talk about business. I will arrange tasks for you. We now divide these three lines into abc. According to my current speculation, if the criminals want to pass through this position, they will definitely start from these few lines." passing along the line."

Qin Yuan asked the three of them to go to the three streets separately, and they were going to conduct secret inspections, and no corners could be missed.

It is mainly a violent terrorist attack like this. He has so many bombs strapped to his body. If he doesn't live nearby, he must have come by car. Maybe there is a vehicle from which to start.

He separated the three of them, and now he is going to inquire about the other whereabouts. Country A is the first to contact this matter, and they should have investigated something, so he is going to inquire now.

The surrounding patrol cars were still wandering around on the street, but they didn't notice that a dark figure had quietly arrived on the roof of the car.

The vehicle had just driven into the alley, and after a few minutes, Qin Yuan had knocked out those soldiers and dragged them to a dark place. Now that he wanted to obtain this information, he had to start from the inside.

He also asked for some clues. The body of the violent terrorist has now been taken away by their special operations team. For this matter, a special operations team has been specially formed.

Qin Yuan also successfully figured out the address, now they just need to go to the neighborhood to see if these people have been investigated.

He drove the car, and swaggered to the exit where Qin Zhengyang entered. This kid was quite clever, and when he saw the car coming, he quickly jumped into the trash can next to him.

"Stinky boy, don't hide, I've already seen you, come here quickly."

"Ah? Brother Qin, why is it you? You're too fast, you got a car so quickly. "

"Stop talking nonsense, get in the car and change the clothes behind."

Qin Zhengyang quickly jumped into the car, changed his clothes, picked up the other two, and Qin Yuan took the three of them to set off together.

"Now report to me about your investigation' Have you found any clues?"

Qin Zhengyang and the others didn't find any clues, but Wang Yanbing did find something, and found a little white powder on the side of the road.

This powder is basically the ration of drug addicts. The problem is that next to these powders, there is a little gunpowder. This is the case where gunpowder is found in the city center, which is very rare.

So Wang Yanbing suspects that this is where the terrorist stayed, but apart from this trace, there is nothing else left.

"Brother Qin, I suspect that this terrorist should be driving some kind of vehicle, otherwise it would be impossible to just have that little powder appear there out of thin air."

"This means that country A has investigated other clues, and the vehicle has been brought back. Let's go and have a look now."

Qin Yuan and the others drove the car like this, and walked on the street swaggeringly. Anyway, they represent the patrol car now, and no one suspects it at all.

It was almost dark, and the emotions of the expatriates who were brought back began to fluctuate. It has been so long, and there is no clue at all. They are still trapped in this place.

More than three hours have passed, and the review work has been completely completed. They thought that the review was over, and they thought they could be released. Unexpectedly, these people still had other reasons to continue to be detained, so they were all brought to two places. Inside the tent.

It can be considered that these guys still have human nature, and food was sent to them in the end, mainly because of Yan Guo behind them.

Chapter 1114: better lay down your arms

Qin Yuan and the others managed to sneak into the vicinity of the special operations team. The surrounding area was heavily guarded. The entire street was completely blocked, and they couldn't get in at all, even their patrol cars couldn't get in.

Qin Yuan could only give up the vehicle, intending to see if he could find a gap and slip through it.

At this moment, he saw a familiar person. He did not expect that he was the person in charge of this special operation. This person had also participated in the training camp of the Hunter School before, and Qin Yuan and the others also had a little overlap.

They also cooperated together in the next few cooperation operations, and generally speaking, they felt pretty good.

Wang Yanbing also recognized that person, "It's a trick of God that it's Onick. I didn't expect that we would meet on the battlefield one day. It was just a joke before."

"I don't mention anything about the past. As long as we meet on the battlefield and we become opposing sides, it is absolutely impossible to let him go."

This is what a qualified soldier should think about. He has absolutely no friends on the battlefield.

Onick came out of the small building, followed by a few cars, looking like he didn't know where he was going.

"Let's keep up with them first, maybe they should have found a clue."

In this way, Qin Yuan drove a patrol car and followed them far away. The whole street was very quiet, except for some patrol cars, so they didn't find anything unusual.

Unexpectedly, Onick came directly to the camp where their embassy staff were detained.

As soon as he entered, he rushed directly to the tent where he was being held, and looked at the people inside coldly. All the people were crowded together, not to mention lying down.

The officer in charge on this side ran out quickly. He didn't see who the person was, but he just went to the place where he was imprisoned as soon as he came.

"What do you guys eat? Just put people in."

"Report sir, they are from the special operations team."

"What kind of special operations team, if these people run away today, or if something goes wrong, I will let you be shot!"

The soldiers could only quickly explain that they had orders to act, and they also carried orders from the officers above, and they couldn't stop them at all.

Onik also turned his head when he heard the voice, he said in a big tone, this guy is really desperate, he dared to torment these Yan people.

He looked at the officer who was still angry, and said coldly, "I don't have time to watch your performances now, you can train the soldiers as you want, you can do whatever you want after we leave, now quickly arrange all these people Best place to stay."

The officer asked, did he hear correctly? To him, these people were just captives, and they were still spies. Maybe each of them was hiding their identities.

It's just that the investigation has not been done so far, because he is not allowed to use punishment, if he really wants to use punishment, he can find out immediately from the questioning.

"I don't understand what you mean by that, why should I follow your arrangement?"

Onik rushed forward and grabbed his collar. The soldiers around became tense instantly, and everyone took up their guns to guard their chief.

"You bastard, do you know? You're going to do a terrible job to country a, quickly resettle them all, and make an apology. Who gave you the right to censor? You haven't even issued an order from above."

Onick was full of momentum, but the officer was not frightened by him. Instead, he became a little annoyed and beat himself up in front of his soldiers for no reason. Who would bear it, he pushed Onick away.

"Let me tell you, don't scare me here. I don't know what you mean. It's best to apologize to me quickly, or take your people and get out of here!"

Onick shook his head helplessly, this guy is just a lunatic, a complete lunatic, that's because he has never seen a real lunatic.

He knew that Qin Yuan was the worst person to mess with, and this guy liked to hold grudges. If he knew about these things, everything would be over, especially when he saw the wound today.

When he took over this matter, he knew that it must be Qin Yuan and the others who came in, and only their red blood cell team had such ability. This team was the last thing he wanted to meet.

It was really interesting for Qin Yuan and the others to observe all this silently from a distance. They originally wanted to ask them to investigate the situation, but they didn't expect that the people inside them would start fighting among themselves.

Li Erniu and the others also reported the situation, "These guys are really not human. If we drive all our people into that big tent, so many people will be thrown into one tent."

"If I didn't think about the overall situation this time, Lao Gao and the others are still on the periphery, I really want to wipe out their military base."

While they were talking, a burst of gunshots rang out, and everyone hurriedly looked in the direction of the camp. It was Onik and the others, and there had already been a conflict there.

Onik's soldiers also started to confront them, "You are so courageous, you dare to attack our special operations team!"

"It was you who came to interfere with us first, and said something inexplicably here, do you know that I can do whatever I want, you are under my jurisdiction, and I have an entire military base!"

"I tell you, you will pay for your ignorance, you don't know the horror of that guy."

The officer was very disapproving, provocative while talking, and simply walked into the tent and dragged out two hostages.

"I think you are really timid to do things outside. Just these two people, I can kill them if I want to. What can I do?"

"I advise you not to do that!"

These two people were already trembling with fright, they didn't know what happened, they only knew that the gun was pointed at their heads, the officer was very proud of seeing this scene, it was the feeling of oppression.

"See, this is the weak. They are scared, because I have a gun in my hand. Even if the guy you mentioned, even if he comes to me, I will not back down. I have a whole military base here. I'm afraid he won't make it."

The officer was jumping and shouting like a madman, and kept waving his gun. The two people on the ground were so frightened that they didn't dare to move.

Suddenly the gun went off, and this was the gunshot just now.

Qin Yuan picked up the sniper rifle next to him. These guys really dared to do it, and dragged their people out. Without hesitation, he pulled the trigger directly. In an instant, a golden bullet pierced the air, heading towards The officer shoots. Valley

The officer was still jumping up and down just now, did he get a bullet right between the eyebrows the next second? The bullet passed through his head, and he fell straight down like this. Before he died, his eyes were wide open, and he didn't know what happened.

what's the situation? Everyone only saw the officer fell down, and no one knew what happened, but Onik, who was the closest, could see clearly that it was a bullet. He quickly looked into the distance, but there was nothing there.

The soldiers were in a mess, everyone hurried back to back and kept a vigilant posture, Onik said loudly: "Don't panic, keep the formation, the people above turn on all the headlights, and call me in the direction of ten o'clock. "

The light is not too far away, but in this case, if it is a sniper scope, the place where the light shines will produce reflections. I didn't expect to find anything, and I don't know which direction the call came from.

Onik whispered that it was definitely Qin Yuan, he wasn't around here, he might be on a mountain or a building that was farther away than here.

He felt unprecedented panic. The officer died in front of him just like that, and he was only one step away from death.

That person is someone he has seen who can truly be called the God of War. His strength is terrifying, and his combat power will always be a mystery. He can be ranked ten or even a hundred by one.

The soldiers around were all on alert, but Onik made a movement that surprised everyone, he knelt down on the ground directly.

The two ordinary people just now were even more frightened and at a loss when they saw the officer who threatened them die directly in front of them.

On the other hand, Onick favored the direction of the shooting, knelt down, and said loudly: "Captain Qin, I know it's you, and only you can have such a good marksmanship. Come out, why don't we shoot one shot? There is no way."

The soldier next to him couldn't understand his officer, why did he do this? In fact, Odick wanted to save them. He knew the terror of Qin Yuan.

"Captain Qin, I will ask all the soldiers to put down their weapons. Let's come out and have a good talk. We must not be used by others. It's all just a misunderstanding."

Next, he didn't care whether Qin Yuan responded or not, and directly asked all the soldiers around him to put down their guns, including the officer's subordinates before, and everyone was stunned.

"Sir, why did you issue such an order? We have an entire military base here. We have hundreds of people here. I don't know what you are afraid of, and this is obviously our territory."

"Soldier, I advise you to do as I tell you. You can't even imagine how terrifying that man is."

The soldiers on Onik's side had already listened to his words and put down all their weapons.

But the military base is more difficult to deal with. These soldiers don't believe in evil. They feel that no matter what, they can't do such a spineless thing. Surrendering on their own territory will become a joke.

"I respected you as an officer just now, that's why I said that, but don't fool us here, how can you shoot so accurately when you press the button? There is no one at all. I suspect it is your fault."

"what are you saying!"

"I suspect it's your fault. Only you can do it at close range."

Under the instigation of this soldier, those peripheral soldiers raised their guns at Onik and the others.

But the next second was another bullet, which directly hit the soldier's heart. At the same time, there was a sniper upstairs because he was aiming.

Everyone started to panic, and no one dared to act rashly. They didn't know this time, but where it came from, the speed was too fast.

In such a dark situation, sometimes the soldiers quietly ran along the base of the wall to the opposite side, but the next second they were directly hit in the heart and fell into a pool of blood.

They have become living targets, being shot at will by the people on the opposite side.

The opponent's marksmanship was fast and accurate, and they had no time to take any precautions. Some soldiers fired casually in the chaos, shooting at the dark place. Prevent.

"Stop shooting, don't do anything, do as I said just now, put down your weapons, no one will hurt you."

He was even more sure that the person facing him must be Qin Yuan. This was very in line with his style, and he was so ruthless.

These soldiers had tasted the lesson of blood, and only then did they completely believe in Onik, and began to back away slowly, and then put their weapons down.

"Captain Qin really just misunderstood just now. I really didn't expect things to turn out like this. See if you can give us a chance because we have worked together before."

He said it very sincerely. He had doubts about this matter for a long time. It was definitely not that simple. He did not expect to meet some pig teammates, and he was afraid that their side would not be chaotic.

Qin Yuan has never regretted it since he started. He said that he can bear all the responsibilities.

He swaggered into that military base with the people from the red blood cell team' In this place, if he wasn't limited by the orders from above, he could instantly raze it to the ground.

"Onik, it's been a long time. I didn't expect to meet again, and we will be on such an occasion."

"Captain Qin, I didn't expect it to turn out like this, but I still hope you can give me a chance to explain. This time it's a complete misunderstanding. I hope we can resolve it calmly and avoid being taken advantage of by others."

While speaking, Qin Yuan just flicked his hand like this, and a sniper upstairs fell directly from the throwing knife, and everyone was completely stunned.

"I said, don't do these little tricks in front of me. It's really dirty my eyes. If you don't want to live, you can do it now."

His knife was too fast, even faster than his marksmanship. Before everyone could see what was going on, the man was already dead.

Onik smiled helplessly, he had already persuaded him, but these people didn't listen! Fortunately, Qin Yuan also gave him this face, mainly because he didn't want to be used by others, and wanted to solve it as soon as possible.

Onik quickly asked the soldiers below to arrange the common people into the room inside, and Qin Yuan also strode into the tent.

"Everyone, don't be afraid, don't worry, no matter at any time, we will stand behind you to protect you, we are your backing."

After settling down the people, Qin Yuan and Onik sat down face to face. Onik did not delay, and also told the situation of his investigation. This matter is indeed very strange.

Chapter 1115: Take the initiative

As far as he knew, this person was a drug addict. To put it bluntly, there was no way to find the punks everywhere on the street.

People like this have no grievances against them, and they even know the route from the embassy. You must know that they blocked some roads in order to evacuate these people from Yan Kingdom.

Not only did they know the exact time of departure, but they also stepped on the location very accurately, as if they knew it in advance.

Onik looked at Qin Yuan, "When I saw a blunder before, I was the first to think of you. At that shooting angle, only you can do this."

"I was forced to shoot in desperation. I just wanted to protect my people. If I didn't shoot, the consequences would be disastrous."

"I know all of this, and I can understand it. It's just Captain Qin. We weren't friends before? You don't need to be so kind to me. I've already told them to put down their weapons."

"Yes, we were indeed friends before, but this matter must not be sloppy now, so I have to measure some things myself."

Onik sighed silently. To be honest, he really admired Qin Yuan very much. He felt very honored to be able to work with such a person, but now, they actually stood on the opposite side.

As soon as Onik finished speaking, suddenly an order from the officer above came from his walkie-talkie.

"Onick is now leading your special operations team to arrest the person in front of you directly."

"Reporting to the officer, the truth of the matter has not yet come out. It is against the rules for us to arrest them casually like this."

"Are you going to disobey my order? What am I asking you to do now? If you still want to question me, I will order you now, take your people immediately, and bring them under control. People from a military base, even a Everyone in the team can't handle it!"

Onick felt a little annoyed when he heard it, so he simply turned off the walkie-talkie.

In addition, Qin Yuan was sitting opposite, which was really embarrassing. With Qin Yuan's strength, they were no match at all.

Seeing this situation, Qin Yuan smiled, "What do you mean? Are you planning to see your commander's order?"

"Because the order given by the chief is nonsense. He didn't consider the overall situation at all. I don't know what happened to us."

Onick saw the essence of the matter, and he felt that someone was definitely sowing discord this time, trying to destroy the relationship between the two countries.

Qin Yuan sighed, stepped forward and patted him on the shoulder, "You can't change these things, as long as you try your best to be yourself, I hope we won't meet again next time."

After Qin Yuan finished speaking, he waved his hands and stood up, signaling for his team to gather. Onick didn't understand, so he hurried forward.

"Captain Qin, where are you going? You must know that if you stay here, you will be fine. With me here, I will tell our chief that they will never make things difficult for you."

"The current situation is no longer a matter that you and I can solve this time. There are too many things involved. Since we need to find the real culprit behind it, we still have to work together."

Onik had no way to stop Qin Yuan, nor did he have the ability, so he could only watch him leave, but Qin Yuan left a word when he left.

"If any of you dare to touch the people on our side, if you kill one, I will kill 100."

When Onik heard this, his hair stood on end instantly. If someone else said this, he felt that he must be bragging, but Qin Yuan was different, he could really do it.

The soldiers at the military base just watched Qin Yuan leave, and they didn't dare to act rashly. That guy's marksmanship and knife skills were too fast.

Qin Yuan left with the members of the red blood cell team, but he still left He Chenguang and Li Erniu behind. No matter what, he still needs to leave a guarantee here and monitor the situation here at any time.

He split up with the others, and now they have their own investigations to do.

Before, he wanted to listen to Gao Shiwei to stay inside honestly and obey their orders from outside, but now the situation has completely changed.

If the delay continues, the situation will only get worse. He wants to find out the real culprit behind the scenes.

Now they have already started, and they don't care about other things that will happen. At least for them outside, there will definitely not be a real fight outside, and now the inside is not sure who it is.

When the headquarters of country A sent people to the military base, they found that the team holding them had completely left.

The corpses on the ground were still lying there coldly, without any change. The person in charge was a little angry and walked down.

"Onick, what's going on? Didn't I tell you clearly enough? No matter who it is, no matter what armed force it is, you must find a way to keep him."

"Report sir, I don't have that ability. I want to protect the safety of all the hostages, as well as our own safety."

"You bastard, what the ***** are you doing here? What's going on here?"

Onick looked at the soldiers around him, but no one spoke. He said slowly, "It's not clear at the moment. They are a group of militants whose identities are unknown. There was nothing we could do in that situation. I still say the same thing. We need to protect the hostages."

Everyone in charge was so angry that so many soldiers died inexplicably, and they didn't even know their identities. They only knew that they were a group of militants.

"Onick, I don't think you need to stay in this position anymore."

Onik didn't care at all, what he was most concerned about now was Qin Yuan's problem.

"Sir, no matter what, I still want to warn you, don't provoke these people from the Yan Kingdom, they have protectors behind them."

The person in charge laughed out loud, and he was very disdainful, "I think you are covering up those people. We have already done research on this bullet, and it is exclusive to their Yan Guo Special Forces. Regarding this, what do you want to quibble about?" of?"

Onick also had nothing to say, "The result is not important now, I just hope that you must treat those people well, otherwise there will be big problems."

The loser was very disdainful, waved his hand, and asked the soldiers next to him to take Onick down. He felt that this guy had completely betrayed his country and had no faith at all.

Even without Onik, he still has other soldiers. There are so many people here, can't everyone talk together?

In this way, under his cross-examination, someone still told the truth. They said that it was the red blood cell team of Yanguo. Valley

Knowing the news, he was really shocked. At first, he thought it might be that other local armed forces had been lurking in their country. He was very confident in his external arrangements.

He checked all the security defenses one by one, but he didn't expect someone to infiltrate, and it was a small team.

This was so unexpected, he grabbed the soldier next to him, "Can you be sure that it is the red blood cell team? If you dare to lie to me about this matter, you know what will happen."

"Reporting...reporting sir, we did hear clearly that they belong to the red blood cell team."

When the person in charge heard this, his back was sweating coldly, and a whole group completely infiltrated, and no one even noticed!

He immediately notified the Ministry of National Defense and Security. This time it really became a national alert. It was just a drill before, but now it's real.

Just when they were under martial law all over the country and began to conduct a rigorous search, Qin Yuan and his team members lay on the roof of the building to bask in the sun.

Qin Zhengyang didn't understand what time it was now, news of them being wanted was everywhere, it was too difficult to get out now, and their equipment was also very eye-catching.

"Brother Qin, you're still in the mood to sing. What are we going to do now? They're all under martial law."

"Don't be in a hurry, kid. Just let you bask in the sun well. Observe your position. If there is any trouble, you must report to me."

"Oh, brother Qin, aren't you the ones you let me see? I've already seen it. This morning, a total of six patrol cars passed by, including two armored vehicles and three teams."

Qin Yuan smiled and did not speak, but asked Wang Yanbing next to him, "Then how is your observation? Is there anything I mentioned?"

"Brother Qin, so far, we haven't seen any other suspicious vehicles."

"Then continue to observe until a suspicious vehicle appears, especially when it bears the sign I mentioned, be sure to call me."

The reason why Qin Yuan did this was because three hours ago, Li Erniu and the others received a piece of bad news.

Originally, those people had just been settled in, but they were suddenly transferred out. This was because the new person in charge began to take over. No matter what, these people were their last bargaining chips.

The person in charge thought very simple, he also wanted to use these common people to attract Qin Yuan out.

In addition, they are not only under nationwide martial law, but now they have begun to publicly condemn Yan Kingdom, accusing them of sending secret special operations troops into their country, causing great security risks to their country.

Gao Shiwei and the others were talking with those diplomats outside, and they were about to quarrel. These guys don't want to get in, anyway, now they insist that they have sent a spy team in.

They are all self-directed and self-acted. It is impossible to release the hostages. They must investigate the matter clearly before releasing them.

The staff of the embassy, as well as those expatriates, have been in country A for 72 hours by another method of software.

Although Qin Yuan and the others were protecting him, it was not an option to keep going like this. Facing the baseless accusations of these guys, Gao Shiwei was not to be outdone, and directly turned back.

"What evidence do you have that dare to show that our people are inside? I still feel that you are framing us. You are making something out of nothing. You just don't want to let our people go."

He believed in Qin Yuan's side very much, and it was absolutely impossible for these people to find out. Anyway, now he is also learning from these people to kill him and deny him.

The person in charge of their diplomatic negotiations said coldly: "Now we do not have clear evidence, but we have found some marginal evidence. Don't worry, we will definitely find evidence."

"Now I don't care what evidence you are looking for, I just want to ask you to release people, our people have passed 72 hours, what should you explain!"

Gao Shiwei felt that this feeling was too aggrieved, and he couldn't fight openly, and now there were some minor frictions.

There are too many rising things in it. It is obvious that the outside negotiations have failed time and time again, and the matter has been dragged on like this.

There was no report of their casualties here, which is not a glorious thing anyway, and Onik, the only one who knew about it, has been detained and is being interrogated.

Although Qin Yuan was basking in the sun on the roof, what he asked Wang Yanbing to observe were the vehicles of several military prime ministers of country A.

He had studied and guided them in country A before, so he was too familiar with their vehicles. As long as he found the sign of that vehicle, he would start investigating from these big guys.

Although Qin Zhengyang and the others didn't understand what was going on, they still followed Fu Fu's wishes. After another hour or so, Wang Yanbing finally found something. He saw three cars through the binoculars.

"Brother Qin! The target is here."

When Qin Zhengyang heard this, he became excited instantly. He quickly picked up the sniper rifle in his hand and looked down, but was slapped on the head by Qin Yuan.

"Don't be so excited now, be careful of fire, let you observe carefully, not let you target them."

"Brother Qin, didn't we shoot them?"

"What are you thinking, brat? What we have to do now is not to fight, but to outsmart them. Before you were asked to fight, it was to protect our people. There is no need to attack them officers."

Qin Yuan also began to observe, the windows of the car were treated to prevent peeping, and the situation inside could not be seen from this position, Qing Yuan told him that they were waiting for him at the top of the building.

This place is the safest place, and the whole city began to search for them, so Qin Yuan knew that they should start from their top management.

It's just that they couldn't find their headquarters before, and now under such martial law, they can only find them by themselves.

After Qin Yuan arranged his team members, he came to the street outside. The car made a circle and started to come towards them. This was the best opportunity.

Qin Yuan's speed was very fast, and when he was about to approach, he snapped his fingers, and the time in the space he was in was completely suspended.

These are just ordinary people, an invasion like this is no problem, he mainly wants to know the location of the leader of country A.

Chapter 1116: find the president of country a

Wanting to break into the interior is only one of them, but according to the current situation, it is already a little uncontrollable. They have completely blocked the whole country.

In addition to what they thought of before and the interests of the United States, there are also people who are fueling the flames, and there are still people who are messing up the water in the middle. They hope that the chaos will be as good as possible.

He must let him end this matter as soon as possible, otherwise there will be other incidents in the later period, especially the border line on the side of country A is already long, and other frictions will occur at that time, and it will be troublesome if it is framed on the side of Yan country up.

This was also an instruction from Gao Shiwei and the others. Gao Shiwei even let Qin Yuan let go and do it inside. If something happened, he would support him outside.

That's why Qin Yuan thought of a better way, it's better to go directly to the person who can make the decision on this matter instead of those messy ones.

He got the information from these people, they were indeed going to the Ministry of Defense for a meeting, including their leaders were also secretly transferred there for the meeting, because now with Qin Yuan and the others intervening, they still don't know what happened. What kind of militants.

They also need to ensure the safety of their leader and several important people. Everyone's meetings are secretly transferred and held.

However, they have already determined that it should be the Yan Kingdom's special team, but they haven't found any evidence of the matter so far. If they find this evidence, they can directly confront Yan Guo.

The internal and external situation is very tense now. Country A has entered the highest alert state, and several surrounding countries are watching the excitement.

The leaders of country A have brought the people from the Ministry of National Defense to hold an emergency meeting. At the beginning, they just wanted to use Yan country to grow stronger, improve their strength, and deal with country H. Unexpectedly, the situation has gotten out of control now.

A little more slight friction, and there's a real chance of a real fight.

A staff officer at the Ministry of National Defense, apart from their current military defense, if they really want to fight Yan Guo, they will not have much advantage at all.

"Sir, I don't think this is the right time to fight. Although we have all kinds of heavy weapons here, Yan Kingdom is not a vegetarian. They have already mobilized 137 destroyers to patrol our side."

This officer only made this analysis based on the current situation. More importantly, there are intercontinental missiles on Yanguo's side. Although they have anti-missile equipment on their side, they can't guarantee that they can completely defend against their fierce attack. live.

A lieutenant general next to him also made an analysis, "We not only need to beware of their intercontinental missiles, but on the other hand, we also need to beware of country H, whether it will suddenly attack us at this time."

However, at this time, some people also pointed out that there is the country of the United States behind them. After all, the country of the United States supported them in this incident, and it is impossible for the country of the United States to let them go.

The leaders of country A now only think that one is the first and the other is the big one, no matter which plan is acceptable, there are two plans now, one is to **** the expatriates of Yan country and the staff of the embassy safely out.

This method is not desirable, it will completely make them lose face, and there will be no foothold in the future.

Now that the commotion has become vigorous, they just let him go, wouldn't they lose face at all, and the preparations they made this time are even more wasted.

Another aspect is to directly find the special team hiding in their country.

At present, the second method is the most desirable. A military chief will discuss the situation of their search below.

The leaders of Country A were a little impatient. It had been six hours now, and the people from Yan Country outside kept urging them to release their personnel immediately, but there was no progress inside them.

"I just want to know how long it will take for you to catch these people? What are the clues now?"

Originally, Onick was appointed as the leader of the special operations team, but he did not expect that he would take the lead in personally releasing the militants, and refused to cooperate after the arrest. Now they can say that they have not grasped the situation.

There was silence throughout the meeting. It can be said that they have made no progress and have launched a carpet search, but these militants disappeared as if they had evaporated.

"I don't even know what you are doing. It's been such a long time. Do you have to wait for someone to hit us on the head before you can react?"

"Sir, now we have dispersed the team, and we have also informed other people to stay at home as much as possible and not to go out. This will also make it easier for us to find those militants."

"I hope that you will come up with one as soon as possible. As a result, we don't know how long we can persist on the periphery. If we still haven't got the evidence, we will definitely implement the first set of plans tomorrow morning at the latest."

This is something that can't be helped, we can't detain people all the time, besides, rabbits will bite people when they are in a hurry, when the time comes, the country of Yan will really be in a hurry, this battle must be fought.

On the other side, the Belgian special commissioner and his secretary were planning the next operation. This time, they planned to cause trouble on the border as Yuan had guessed.

This time the explosion did not proceed as scheduled, and was stopped by Qin Yuan halfway. If the explosion happened, their conflict would be completely intensified.

So he is now planning the occurrence of the second phase of the incident, intending to provoke conflicts between the two sides on the border and let them go to war directly.

I have to say that this guy is really despicable, but now that country A has also raised his vigilance, he can't leave him for a while, so he can only tell the secretary and the people below to handle this matter secretly.

The leader of country A came to a nearby hotel just after the meeting. Now his safety is the most important thing.

The secretary sorted out today's meeting. He was flipping through the minutes of the meeting, but there were no useful plans to discuss. They seemed to be stuck in a pool of stagnant water.

More importantly, how did this special operations team get in? Because of this incident, patrols on the border have also been stepped up.

Their security protection is still not enough, they have already implemented a nationwide blockade, and Yan people can still sneak in. The point is that after they come in, they don't have any awareness, killing people right under their noses.

The secretary brought a cup of coffee, "Sir, you still need to pay attention to rest, now you need to preside over both inside and outside."

"I know, but now I can't just rest if I want to. You can ask them to contact the American side to see what their attitude is."

"Sir, do you mean to seek help from the United States?"

"The incident this time has nothing to do with them. Now that we have been pulled out, I want to see what their attitude is. We stand up to support them." Gu

The secretary nodded and retreated. The corridor was covered with security guards, and there were soldiers patrolling below. The security level of the entire hotel had reached the best level.

The leader of Country A took a sip of his coffee and felt the wind blowing in. He got up and planned to close the window.

As soon as he walked over, a figure appeared from behind the curtain, and then a cold dagger was pressed against his throat.

The coffee cup in his hand was frightened and fell instantly. Qin Yuan caught the coffee cup with quick eyesight and quick hands. The coffee inside didn't spill out, and there was no movement.

The leaders of country A are very worried at the moment, this is the 28th floor, unexpectedly someone climbed up from the outside.

"Who are you? What do you want? Don't you know what this place is?"

"Of course I know, Mr. President, I just want to talk to you when I see you now, and I hope you can cooperate."

After Qin Yuan finished speaking, he let go of his hand. Unexpectedly, he wanted to call someone outside in the next second. Qin Yuan had already seen it. He picked up the rag on the table and stuffed it into his mouth. Then dragged him to the inner room.

You must know that this is the presidential suite, and the sound insulation is very good. The bodyguards outside did not hear the slight movement just now.

"I originally wanted to have a good talk with you, but you turned out to be so uncooperative. I made it very clear and told you not to act rashly."

At this moment, the president of country A was terrified. The man in front of him was too fast. He was completely controlled and tied to the chair.

Qin Yuan looked at him. Although he was afraid, he still had other ideas. After all, there were so many bodyguards and soldiers outside. This guy thought that the people outside would definitely be able to save him.

In order to dispel his thoughts, Qin Yuan took out his flying knife and played with it, then picked up the pillow on the bed and threw the pillow on it, the flying knife shot out quickly, and the goose feathers in the pillow burst out in an instant.

"I want to kill you, there are many ways, and my knife skills are faster than bullets, I am not afraid of eating and will not die, I will finish you before those people come, and then run away, so you better not have Any ideas."

Seeing this scene, the president of country A could only nod his head desperately. His knife technique was so fast that he didn't even see clearly, the pillow was completely shot through, and his voice was extremely low.

"Now you should cooperate with me well, understand the matter clearly, I will definitely not hurt you, and I don't want to hurt you, it's just you resisting, that's why I tied you up, do you understand?"

The president of country A hurriedly nodded desperately. Now that he knows, he should try his best to cooperate first! And he was also stalling for time. Before, he asked his secretary to contact the country of Mi, and he estimated that he would send back messages later. When the secretary came in, it was time to save himself.

"What exactly do you want to know? If I'm not mistaken, you should be the special operations team from Yan Kingdom."

"That's right, I'm not afraid that you will know. That's why I came to see you. I don't have any malice. I just want to clarify the matter. We don't want to be used by others for no reason."

"What do you mean? You, a member of Yan Kingdom's special operations team, are threatening me when you come to my place now?"

"Hehe, Mr. President, you think highly of me. I'm not threatening you. I just want to clarify this matter. I just want to understand the attack."

The president of country A thought about it. They are all in the investigation stage of this attack, and there is no result at all. Now he is here to ask what does this mean?

Qin Yuan didn't go around the corner, and directly expressed his opinion. He said that he was there at the time to save his own people.

That's why he cut the gun decisively. That person is definitely not from Yan Kingdom's side. He can use his military career as a guarantee.

The president of country A looked at him strangely, "But how did you infiltrate it? It's because of this that we have doubts about you."

"We infiltrated in. We didn't plan to cause anything. We just wanted to make sure our people were safe. We didn't expect that something like that would happen later, so we had to do it. And don't you think it's strange?"

The president of Country A also pondered Qin Yuan's words carefully. This is indeed the case. The appearance of that gangster was too crucial, and he suddenly appeared during their escort.

And if it wasn't for Qin Yuan's timely handling and a bigger attack happened, it is estimated that Yan Guo would have quit by this time ' would have rushed forward to demand the release of their personnel.

Qin Yuan saw that he was also willing to cooperate with him in speaking. After all, he was the president of a country, so he let him go.

"Mr. President, I will let you go, but don't even think about running away. There is basically no such possibility in front of me."

As soon as Qin Yuan finished speaking, he heard a knock on the door outside. It was the secretary who had returned.

The president of country A was very nervous. He looked at the willingness next to him, while Qin Yuan looked indifferent, without any expression of worry.

"It's my secretary. I just asked him to do something, and now he will come to report to me."

"This is your business. You can meet him normally. Don't worry, I'll wait for you here."

"You are very courageous. Aren't you afraid that I will call everyone in after I go out?"

"You won't, because there are still many things that you have to wait for me to do. There has already been a ghost inside you. You can think about it yourself."

After Qin Yuan finished speaking, he leaned on the chair next to him and made a gesture of invitation, and the secretary knocked on the door again outside.

The president of country A got up and tidied his clothes, then walked out of the room. Just as he opened the door, he saw the secretary standing outside respectfully holding a file bag, and there were patrolling bodyguards and soldiers in the corridor.

At this moment, he really hesitated, he was thinking whether to ask someone to go in and arrest him, it shouldn't be a problem how many people deal with him alone, but what he said just now really made him fall into deep thought.

Chapter 1117: face buss

After struggling again and again, he still chose to remain silent. When the secretary came in, he handed him the document bag, and said, "Sir, we have already contacted the US side, but they said this is our own business, and they have no right to do so." Interference, the meaning over there is obvious."

The president of country A snorted coldly when he heard this, and he really can't rely on anyone. They said so swearingly before, and they also said that they will always be their backing. Shirk responsibility.

"Did they say nothing at all?"

"That's right, and they said that if their special envoys have any questions on our side, they can go to their special envoys."

The president of country A got even more angry when he heard this. What kind of **** reason is this? He is a majestic lord of a country, and he wants to find a little special commissioner from the United States.

"They were just joking with me and made such a big mess, now let's clean it up."

The secretary was also very helpless. Among the several reports he brought, and several military chiefs behind them gave plans, they all hoped that their president would have a look.

The president of country A feels very upset now, there is no one available around him, and now he desperately hopes that someone can come out to solve this problem for him, and he thinks of Qin Yuan in the room, maybe this person can solve these problems.

When the secretary was speaking, the president of country A was always absent-minded, and he kept looking at the side room.

The secretary saw his situation and saw that the coffee cup was placed on the window sill, and he asked a little worriedly: "Sir, is something wrong? I think your face is not very good. Do you want me to call someone?" come and see?"

"No, you go down first, leave these reports here, I will read them."

"Okay, sir, I'm right outside, you can call me if you need anything."

"Um."

After the secretary went out, Qin Yuan walked out of the room directly. He was so courageous that he simply sat on the opposite sofa with his legs crossed, and looked at the president of country A on the opposite side with a playful face.

"It seems that Mr. President still understands that it is yours. Of course, he knows that we need cooperation, so he didn't expose me. This is still very good."

The president of country A just sighed helplessly. He now feels that he has failed to be the president. Now he has made a mess at home and abroad.

Especially when he offended Yan Guo, and more importantly, he had no choice but to sit in his room directly when a small team of others lurked in.

"You said just now that I will need you, so can you tell me about the specific situation?"

Qin Yuan was not in a hurry either. He looked at the documents in the hands of the President of Country A and was very disdainful. The news they passed on was completely useless.

He directly analyzed the current situation, "The only thing we want to fight now is the United States. Combined with the support behind you, then they will be even more inseparable."

"You're saying that some of them sneaked into our position and made these little tricks."

"Yes, if they can know such precise time, place, and target vehicle, it must be your internal leak. I heard correctly just now. You mean that there is a special commissioner in the United States, right?"

Originally, these situations were all confidential to them at present, but there was nothing they could do now. The president of country A had to admit it if he didn't.

Qin Yuan also told him his thoughts without hesitation. What he suspects now is the special commissioner from the United States. It is very likely that everything is caused by him. Maybe there is another conspiracy in the works.

After listening to Qin Yuan's analysis, the president of country A felt that it was very reasonable, "What you said is indeed reasonable, but do you have any evidence here?"

"As for the evidence, I think it's very easy to find. It's just that you have to provide me with a lot of things. I will investigate. What I mean by providing is everyone under your command, including all those who have participated in this matter. I Everyone has the right to investigate."

Hearing this, the president of country A was very entangled. He didn't know whether he should trust an outsider, and he was their enemy. Now he could be regarded as an enemy, after all, the two sides were confronting each other.

Qin Yuan looked at his tangled appearance, and continued: "You have no one available around you now, and what do you think this is?"

After Qin Yuan finished speaking, he directly took out two small devices from his hands. This thing also had a headset, and he didn't know what it was.

"It was found inside your room, with one bug under the bedside table and another under the table outside."

The president of country A was taken aback when he saw this. He took the bug, and the bug had been destroyed. "How could this happen? All my rooms here are arranged by the secretary, and if there is a bug, wouldn't it be the case we just had?" The conversations are..."

Thinking of this, he felt a cold sweat running down his back. He didn't expect that he was being watched all the time.

"Don't worry about this. Before you came in, I removed the bug here. They didn't hear our conversation just now, but I don't know about your previous conversation."

The president of country A was completely stunned. He was surprised that Qingyuan could come and go freely in his well-furnished presidential suite, and even removed the wiretapping equipment.

"You! Why should I believe what you said, what if this wiretapping device is the cover you use to deliberately disturb me?"

"Did I lie to you? You can go and see for yourself that there are still traces left on the bug. It's on the bedside table. I don't have to lie to you."

The president of country A looked at the bug in his hand, and he looked at Qin Yuan again. This time he chose to trust Qin Yuan.

It's just that he didn't expect that the matter would go to such an extent that every step of his own was being monitored, and even his own place was bugged, not to mention other people's places. Many of their secrets were likely to be leaked in this way. out.

"These bastards, I don't know how they do things. They can't do this little thing well."

"It doesn't make any sense for Mr. to blame those people now. You should consider my conditions now. If you promise me, I can find out all these things."

After listening to Qin Yuan's words, the president of country A fell into deep thought. He really needs someone to find out all these behind-the-scenes culprits. If he wants to target country H or Yan country, he will not be treated in vain. The gun worked.

After such a discussion, the president of country A agreed. He made a phone call and asked the secretary to send all the list information of all the people responsible for this incident, including the special commissioner from the United States.

Although the secretary felt strange, he still prepared for him. After the secretary left, the president of country A asked: "Do you think my secretary has something to do with it? These rooms and other meetings are all related to him." to arrange."

"I'm not sure about this matter. I haven't started the investigation yet. Remember, you agreed to my investigation now. Don't go back on your word at that time." Gu

The president of country A made up his mind and nodded, "Don't worry, I have promised you that they will investigate whatever happened later, and I will definitely not look for you, but I hope you really want to. The two of us, it seems that what you are talking about is for the common development of the two countries."

"Hahaha, of course, Mr. President, then we will see you next time."

After Qin Yuan finished speaking, he opened the side window and jumped down. The president of country A's eyelids twitched. This is too exaggerated. This is the 28th floor. This person jumped down without the slightest hesitation.

This is simply unbelievable. He lay on the window and listened for a long time, but he didn't hear anything. He originally wanted to ask the bodyguards outside, but after thinking about it, forget it.

After a while, there was no movement at all. He leaned on the sofa and began to carefully sort out what happened.

It's really ironic to say that he didn't expect that he would rely on an outsider to help him now, and there was no one available on his side.

But now that the situation is special, he really hopes that Qin Yuan can investigate the truth of the matter as soon as possible, just as Qin Yuan said, he must stop them before they plan their next conspiracy.

Qin Yuan walked on the ground outside the wall of the 28th floor and was not affected at all. After the communication here, he came to the place where Qin Zhengyang and the others were lurking before. They are still on the roof of the building.

He brought some food for everyone and let them continue to lurk here. This place is currently the safest.

But for now, tonight is safe. The president said that starting tomorrow, they will conduct drones and helicopters to conduct a comprehensive search. The roof will definitely not be safe by then.

The main reason is that there is a large abandoned water tank on the roof. In case of emergency, the few of them can hide in this water tank.

"I brought you food for three days. You stay here first, but it doesn't take three days. I may be back tomorrow. I'm going to investigate something now."

Qin Zhengyang couldn't bear it anymore, he didn't want to lie here all the time, he wanted to go out and perform the same tasks as Qin Yuan.

"Brother Qin, what are you going out for? We can also go with you, which can improve efficiency. Let's act together in batches."

"It is unlikely that we will act together now. They are collecting everywhere. We are here to ensure your safety. If I go out alone, the target will be relatively small."

Wang Yanbing was already used to Qin Yuan's solitary behavior, and Qin Yuan's success would be even greater if he acted alone.

He asked Li Erniu about the situation there. Now the staff of their embassy and the overseas Chinese have been properly resettled, and the living environment is much better than before, but another transfer has been carried out.

They are not in that military base now, and have already carried out a second transfer with these common people.

Qin Yuan looked at the time, it was already 11 o'clock in the evening, he casually looked at the information, and planned to start with the special commissioner from the United States, find this guy first, he is the key person.

After explaining to Qin Zhengyang and the others, he set off now. This special commissioner from the United States, Bass, is very easy to find. He already has all the specific information on where he lives.

It's just that the place where they live is under unified militarized management. Qin Yuan looked at it from a distance, and there were actually four 360-degree cameras.

The main reason is that the whole country is now under martial law, and another kind of security has been formed in their residence.

But Qin Yuan couldn't help it. He took out the computer from his backpack and began to interfere and shield the surrounding monitoring system.

This kind of signal interference shielding can only last for five minutes, but these five minutes are enough for him to go in.

At this moment, the personnel in the monitoring room suddenly found that the monitoring screen was very blurry, and then a burst of snowflakes appeared on the screen, making them unable to see anything.

"What's going on here? Is there something wrong with the monitoring system?"

"Hurry up and repair it. There must be no safety hazards in this place."

Several soldiers hurried out with their toolboxes, and at this moment Qin Yuan had successfully entered the building, and Bass lived in room 702.

Brother Qin went up and knocked on the door, and Bass' voice soon came, "Who is it?"

"Sir, our Mr. President handed over a document, let me send it to you now."

There are soldiers patrolling everywhere below' Bass didn't think too much about it, so he went directly to open the door, but Qin Yuan greeted him with a throwing knife in his hand.

This guy is very shrewd, he immediately made a state of surrender and cooperation, and slowly retreated towards the back.

Of course, Qin Yuan knew what he was thinking. Since he could install a bug in the room of the president of country a, he probably had some kind of bug here too, which could help him warn the outsiders in advance.

He used another type of electromagnetic wave interference to block all signals in this room.

Under Qin Yuan's control, Bass slowly retreated into the room.

"Who are you to be able to come to this place?"

"I have my reasons for coming to this place, but I'm just curious, what's your next plan?"

"What plan? I don't understand what you're talking about."

Bass simply pretended to be confused now, and he kept approaching the sofa. There was indeed an alarm there. He took advantage of the situation and sat on the sofa, and then stretched out his foot to touch the alarm.

Although there was no expression on this guy's face, his eyes had completely betrayed him, and Qin Yuan could see all his movements clearly.

Qin Yuan smiled, "There's no need to do those little tricks, they are useless to me, whether you know it or not, I'll just test it out."

Before Buzz could react, Qin Yuan stretched out his hand towards his forehead, and in the next second, he didn't know anything, Qin Yuan had successfully entered his consciousness.

Chapter 1118: sudden explosion

This method is also the most direct and clear. Compared with those who dealt with masked men before, Qin Yuan thinks it is really too easy to deal with such ordinary people. There is no system in their minds that can be invaded at will.

His judgment was indeed correct. This special commissioner had a big problem, and now he had sent a secret team to the border area, trying to provoke disputes between the two parties there.

Qin Yuan immediately notified Gao Shiwei, telling them to pay attention to the border area and not let those people take advantage of the loopholes.

Gao Shiwei was also very shocked when he received the news of his willingness. These guys are really despicable. Now as long as they are caught, they will have real-time evidence.

These people sit on the mountain and watch the tigers fight, deliberately provoking disputes, and causing the two countries to fall into disputes. He immediately photographed the wolf warrior team and the thunder and lightning commando team to cooperate with each other.

Qin Yuan was still carefully interrogating the person in front of him, but another key word suddenly appeared. This guy also mentioned the Celestial Organization. His expression changed, and he hurriedly asked:

"Celestial body? How do you know about this organization?"

"I don't know what organization it is. I only know that we belong to a celestial body project, and we are only a small part of the plan."

I would rather hear the frown here, he still thinks things too simply, no wonder these Americans will suddenly attack country A, in fact, everything is aimed at him, it is the masked man behind the scenes.

It's just that he couldn't understand for a while why these people would suddenly launch such a plan. The masked man was so mysterious that he couldn't be caught all this time.

Qin Yuan planned to settle the matter in front of him. He wanted to contact Wells. It took too long for this guy to go back. Maybe he can contact him to see if there are any new clues over there?

Now the special commissioner from the United States is useless, but this guy can't be used yet, he is the key evidence chain behind.

Qin Yuan directly tied him up, and then threw him into the room. Most of the clues he needed to know had already been grasped. This person was only reserved for later interrogation, and it was of no value now.

When Qin Yuan walked out, he looked at the patrolling soldiers outside. Everyone didn't want to fight, they just wanted to fight for their own country, but all this will end soon, and the truth will be revealed before tomorrow morning.

Qin Yuan now intends to find the president of country A, explain the matter here clearly to him, and hand him a list by the way. This is all learned from the special commissioner. Indeed, there are two officials among them. A consensus has been reached with the special commissioner from the United States.

On the other side, Long Xiaoyun brought the members of the Wolf Warriors team to the border area. This special commissioner from the United States, the team he sent out was only to provoke a war in the border area, but the specific location was not too specific. The goal.

With such a long border line, Long Xiaoyun led the members of the Wolf Warriors team and the Thunder and Lightning Assault Team to act separately.

Under such circumstances, they were divided into groups again, with each group consisting of two people. In order to improve efficiency, Long Xiaoyun took the initiative to stand up. She formed a group by herself, and everyone searched carefully on the border.

Such a target is really too vague, they don't even know when those guys will show up, they didn't even notice the patrolling soldiers from country a.

You can't cross the border at will. It can be said that everyone walked very hard. More than an hour has passed without any clues.

Long Xiaoyun and the others were still carrying infrared multifunctional equipment, but they didn't know where these guys would hide, or when they would suddenly jump out and bite back.

At this moment, a burst of explosion sounded, and Long Xiaoyun hurriedly ran towards the direction of the explosion. She didn't hesitate at all. No matter whether it was her teammates or the opponent, she didn't want this to happen.

The sound of the explosion caused waves in the quiet night, and Gao Shiwei and the others heard it too, and everyone felt bad.

"What's the situation? Hurry up and check."

Now everyone's mental state is tense, and they can't travel on business at all. If there is a problem, it will be troublesome.

The patrolling soldiers in country A also heard the explosion, and people on both sides quickly moved towards the direction of the explosion.

Long Xiaoyun and the others rushed to the location of the explosion first, and saw Fan Tianlei dragging a wounded soldier, running towards Long Xiaoyun quickly.

They cooperated tacitly, without the slightest hesitation, picked up the wounded soldier, and hurriedly left the area.

Long Xiaoyun was a little anxious, seeing the unconscious soldier, and his feet had become bloody, "What's going on?"

"Dragon Squad! There are landmines on this side, hurry up and let the brothers go, and their patrols will come later."

Long Xiaoyun nodded, and asked people to quickly carry the wounded soldiers on their backs to evacuate Fan Tianlei, who was also slightly injured, his arm was scratched by the fragments that exploded.

She stayed at the end and began to clean up the traces of the scene. As soon as they left, the patrol team from country A had already arrived.

For the sake of safety, they planted landmines in this area. The sound of the explosion just now was that someone wanted to cross their border and stepped on a landmine. But when they came, there was nothing but the traces of the explosion. Not found.

The patrolling personnel were not reconciled, and they expanded their inspection around. There was nothing, except for two broken branches on the side, which seemed to be stepped on by someone, and there were no other clues.

The patrol team didn't dare to be sloppy, and quickly reported to the above personnel, and sent additional personnel to investigate here, because they didn't know whether the injured person was rescued and left, or entered their room directly. area.

Originally, he wanted to find the team sent by the United States to disrupt them, but he didn't expect that just after he came out, the people on his side were injured. Gao Shiwei hurried to the health team to check the condition of the wounded.

Fan Tianlei was on patrol with a team member. Unexpectedly, that team member stepped on a mine. The mine they buried was very sensitive. Before Fan Tianlei was ready to clear the mine, it exploded.

The team member was seriously injured, and Fan Tianlei was also implicated. At this moment, Fan Tianlei blamed himself and sat by the bed.

"Captain Gao, I'm to blame for what happened this time. I'm also an old player, but I let my guard down. Now not only my teammates are injured, but we've also alarmed the snake. You punish me."

"What am I going to punish you for? Now that everything has happened, I'm not here to hold you accountable. I just want each of you to come back safely."

Gao Shiwei is also very helpless, now that it has become like this, let alone other things, it is meaningless to pursue responsibility, we can only arrange the wounded properly first, and then look at the internal situation.

It would probably be more difficult to send out a team now, and country A had already been alarmed, and it was only at this time that they would really startle the snake.

If at this time they were dispatched to meet the teams on both sides, it would be even more for the Americans to take advantage of the loopholes.

Fortunately, Long Xiaoyun and the others reacted quickly and moved the wounded quickly, and did not catch any clues, but Country A was not so calm, and they fell into a kind of panic. Now they don't know if anyone has entered the country.

So when Qin Yuan came to the presidential suite again, the president of country A was very angry, and he stared at Qin Yuan coldly.

"What exactly do you mean? Is it to let you deliberately attract my attention here, and then let your people go around? What do you want to do?"

Qin Yuan was also dumbfounded when he was asked, he was here to report the situation to him, why did he question him first instead?

"Mr. President, I don't quite understand what's going on when you say this."

"Hehe, what's going on? I feel like I've been tricked by you guys. Take a good look."

The president of country A was very angry, he directly smashed the documents in his hand on the table, he wanted to see what kind of explanation Qin Yuan would give him.

Now there are his bodyguards outside, he can let people in at any time, but he has to see if this guy has anything to say first.

Qin Yuan picked up the report and took a closer look. According to the news from the border, they found that someone had stepped on a landmine, but they didn't find anyone injured. They didn't find any other clues. entry.

He frowned tightly, and the first thing he thought of was who Long Xiaoyun and the others were injured, and it shouldn't be the special commissioner from the US side, because if there were landmines, the US side should know about it.

Qin Yuan was even more worried about the situation of his teammates. At this moment, the president of country A directly interrupted his thoughts.

"I know you are very skilled, but I will not be afraid of you. I shouldn't believe your tricks again and again. Now that everything is over, you just wait to be arrested."

"Mr. President, wait a minute, this matter may not be what you imagined."

As Qin Yuan spoke, he handed over the documents in his arms. This list was all obtained from the special commissioner from the United States.

All of them are the list of their internal personnel colluding with the US side, and the specific actions they want to take.

It's such a time now, Qin Yuan has no choice but to tell the whole story of the matter, because time is tight, so he notified their team members outside in advance.

I planned to detain the secret teams sent by the US first, but I didn't expect that they might accidentally step on a landmine during the search.

The president of country A looked at the list with some doubts, he didn't know whether he should trust the person in front of him again.

"Mr. President, if I really lie to you, there is no need to come and tell you these things, then I will directly let my teammates attack in, which is not impossible."

The president of country A snorted coldly when he heard this, "Your tone is really not fictional, you hit it as soon as you hit it, can you bear that responsibility?"

"Then do you think that with my ability, I can make you lose all command power in the next second, including those people you have a meeting with today, and I can take care of them all in one go. What do you think will happen without the people under these leaders? "

As soon as Qin Yuan's words fell, the back of the presidential hall of country A was in cold sweat. What he said was not unreasonable. This guy can come and go freely on the 20th floor, avoiding the cameras and his own bodyguards.

What he said is not impossible, and he looked at the list below again, combined with this explosion.

"Are you sure your people didn't come in again?"

"This is a matter of our integrity. Besides, we don't need to send so many people in. It doesn't make any sense. We didn't send them here to attack you. We just want to resolve the conflict."

After thinking about it, the president of country A wrote a document himself, and then made another phone call. After a few minutes, the secretary came in, and the president of country A handed him the document bag and the letter. Let him be taken to the Minister of Security for force.

Now he wants to solve the internal problems first, and arrest all those people who are stirring up trouble inside. They clearly wanted to target country H before, but now they are inexplicably bringing strictness into it.

He hurriedly resolved this matter before, if he completely fell out with Yan Guo, it would not be a good thing.

It's just that he couldn't figure it out, they were all supporting the US, and the US gave them an aircraft carrier as a supporter, which was also their confidence, and he didn't expect things to develop like this.

The best solution now is to push all these matters to the special commissioner from the US country' and then by this step, he can release all the people from the country of Yan.

Qin Yuan saw through his thoughts at a glance. This approach is indeed the best of both worlds, and the American side will not care about this little special commissioner. If something goes wrong, they will lose this person.

Qin Yuan is also a smart man, of course he didn't expose it, but said, "Then I hope that Mr. President can protect our people well, and then arrest these criminals."

The president of country A looked at Qin Yuan. The person in front of him was not only courageous, but also his thoughts were always one step ahead of others. It seemed that everything could not be hidden in front of him.

"Yes, you are right, we are protecting your strict people now, don't worry, I will definitely catch those criminals."

Qin Yuan also gave him an opinion. This guy should know what to do next. Now he just needs to go back quietly and wait.

Just as Qin Yuan was about to leave, he turned his head and said, "By the way, Mr. President, in order to protect my people, I seemed to have accidentally killed a few people by mistake at your military base. This..."

"What you said doesn't exist. What you shot and killed were just a few criminals pretending to be our army."

Qin Yuan smiled, the president of country A is also very smart, he is just an old fox, as the leader of a country, he can afford it and let it go, at this time, he doesn't care about his face at all.

Chapter 1119: 1 agreement

Qin Yuan didn't mention this matter at all, he knew that sometimes he should give face to the other party, no matter what, he is also the leader of a country.

Qin Yuan has done a good job in this regard, even if he is in a hurry, he will jump over the wall. If he pushes him too fast, other troubles may happen, so it is better to let it go.

"Mr. President, now that the matter has been investigated, I have given you all the evidence. I still hope that you can solve the following matters quickly, release our personnel, and prevent the matter from getting worse."

"This is definitely no problem. I will tell people to go down halfway now, but I still have one question. How many people have you come in?"

Qin Yuan smiled and made a gesture.

"Mr. President, no matter what, we met. We can ignore this matter in the future and just pretend that nothing happened. It's time for me to carry out my mission now."

After Qin Yuan finished speaking, he still calmly left the window. The window was just a small vent, and Qin Yuan could go out through that vent, and this was a 28 tall building.

It's just that the president of country A still looks shocked up to now, because there are only six people in total who played all of them around.

After these six people came in, they could protect their people and do so quietly. Up to now, they have dispatched so many people, and they have not even found their whereabouts. Moreover, their captain came directly in front of him .

The president of Country A sighed helplessly. He felt it was a pity, but it was a pity that Qin Yuan was not his soldier. If their country had such a team, a small team could be worth a complete army establishment.

Gao Shiwei, who was stationed outside, watched the time pass by, and there was still no news from Qin Yuan, and they were also planning for the worst.

Now their people are under house arrest by these guys in the name of other excuses. No one can bear this breath.

So Gao Shiwei and his high-level officials discussed and decided that if there is no news at dawn, they will issue an ultimatum. If there is still no progress, they will not be afraid to go to war.

Everyone is ready, and the cruiser behind can also drive up. The soldiers on the border saw this scene, and everyone was very nervous. It seemed that a war was really going to start.

To be honest, no matter which side the soldiers are on, they are unwilling to go to war. These soldiers on the border of country are all panicked.

At this time, the news suddenly came in front of them that there were very big changes within them, and several major military chiefs were brought under control.

For these soldiers, there was a change in the chief of the internal capital, and in the face of such an imminent battle, they didn't know what happened, which affected the morale of the soldiers even more.

The members of the naval brigade who were in charge of confronting them were very nervous at the moment. Their chief had been completely replaced, and now a new chief had been appointed.

The team leader who led the team hadn't closed his eyes for two whole days. He didn't dare to relax in the slightest. The weapons on the opposite side were much stronger than theirs. Although they had the aircraft carrier provided by the US side, the Yan country also had them.

"Brothers, everyone should be more vigilant. We can't relax any more now. Seeing them like this, we are likely to have a battle."

"Captain, is there really going to be a fight? There have been such big changes below, is there something wrong with us?"

"We are soldiers, and it is our bounden duty to obey orders. No matter what the officers below say, we must now defend our territory and not allow them to invade at will."

Even though I said this, the soldiers below all understood that such a thing would not have happened if they hadn't detained the people of Yan Kingdom at will.

Two hours before dawn, Gao Shiwei and the others have issued an ultimatum. If there is no demonstration, their personnel, they will attack at any time.

At this time, the news from Qin Yuan's side also came. He said that everything has been resolved, and their personnel will return safely by dawn.

Gao Shiwei believed in Qin Yuan very much, and he was also relieved. To be honest, no one wants to fight, especially if they do it, this matter will get out of hand. Many things, especially the surrounding countries, are likely to be involved.

However, the previous military staff officer put forward a different opinion.

"I think in this case, everyone should not let down their vigilance. Just relying on his few people inside, can the matter be resolved? This matter is not that simple."

"I trust my soldier very much. He will only tell us these things when he is absolutely sure."

"Team Gao, I know you have such confidence. They are undeniably an ace team in our country, but how can they ensure their news?"

Because now Gao Shiwei feels that the situation cannot be made more rigid, and Qin Yuan has made it clear that their president has promised to release the personnel, and it is also obvious that the soldiers on their border have withdrawn a lot, just staying Basic support team.

So now they also need to withdraw their troops to a certain extent, and they can't put too much pressure on the other side, otherwise it won't make sense. There is a slight friction in a situation like this, and other wars may break out.

Gao Shiwei advocates that they can withdraw their troops on a small scale now, leaving only their warships to pick up the civilians, and the other teams can retreat 100 kilometers first.

But when the military staff officer said this, there were indeed several people who held different opinions. They felt that if this was their strategy.

If at dawn, they suddenly repented and used their people as a threat, and if they really fought, after they withdrew, there would be no time to react.

Gao Shiwei frowned. This military staff officer has been looking for trouble, refuting his own opinion again and again. Is he trying to make things worse?

"I made it very clear. I trust my soldiers very much now. We had better retreat too. They have already retreated. Shouldn't we set an example?"

"Captain Gao, by the way, you are also a person who has personally been on the battlefield, why are you so naive? Do you really think that people's assessment is really withdrawn? There may be other ambushes in places we can't see."

These words really contained endless irony, Gao Shiwei was very angry, and just about to refute, suddenly a loud voice sounded at the door.

"I agree with Team Gao's request to evacuate!"

Following the voice, I didn't expect it to be Qin Yuan. Why did he come out at this time? And there are also soldiers patrolling on the border. This guy just came and went without a trace. The point is that he came in, and no one here informed him.

Gao Shiwei was surprised, and hurried over, "You brat, why are you here?"

"Hey, Team Gao! I've almost finished the task this time, and I'm here to report the situation to you guys. I didn't expect that someone would actually question it."

After Qin Yuan finished speaking, he stared coldly at the military staff officer. The people around him felt a little embarrassed, and Long Baichuan also hurriedly stood up to smooth things over.

"Qin Yuan, it's really nothing. It's just that everyone is expressing their opinions. What's the situation with you?"

Originally, it was enough to just follow what Long Baichuan said, but now Qin Yuan is working according to the normal report, but the military staff officer still insisted on it, so he simply stepped forward and asked:

"Wait, how did you do it? You are disobeying orders, and why didn't anyone come in to report?"

There was a quarrel inside, and the guards outside rushed in. When they saw Qin Yuan, they were also shocked. To be honest, they didn't even see Qin Yuan outside. When did this guy come in?

Qin Yuan just shrugged his shoulders indifferently, "For me, I can come and go whenever I want to these places. Besides, I don't want to disturb everyone. After all, what else do you need to guard against?"

By saying this, he gave enough face to the guards outside. To be honest, no one noticed how he got here. The speed was too fast. Fortunately, he was one of his own. If it was an enemy, it would be unimaginable.

Qin Yuan didn't bother to talk to the military staff officer. There were more important things to do now. He took out a document from his pocket. Just in case, this was an agreement signed between him and the president of country a.

Then there was the recording of the President of Country A. When the recording was released, everyone was completely stunned. They thought that Qin Yuan's investigation was probably conducted through some peripheral personnel or some diplomats for negotiation and investigation. , I didn't expect to find their president directly.

This is simply unbelievable. One must know that their president is surrounded by heavy protection. How did Qin Yuan do it?

Qin Yuan looked at the serious staff officer, turned his head and said, "Is there anyone still questioning?"

"This..."

The military staff officer was a little speechless. This is solid evidence, and the president of a country has already stood up and signed the agreement. What else can he say?

Qin Yuan stretched after putting these things on the table, and was about to go out again.

"Captain Gao, I haven't fully completed my mission yet. I will continue to go back. Don't worry, I will be safe and bring my team and our personnel back safely."

"You brat, you really treat yourself as your own home, hurry up and go."

Although Gao Shiwei complained, his face was full of happiness. This kid really tried to save face for him. In such a short few minutes, the military staff officer couldn't say a word.

"How? Now that my soldiers have come up with such an important commitment agreement, does anyone still disagree with what I just said?"

After doing it for a while, no one said anything, everyone agreed to join together, and doing this also gave both parties face.

But at this moment, Long Baichuan next to him pulled Gao Shiwei, and lowered his voice, "Old Gao, I don't think this matter is that simple?"

"What do you mean? Don't you believe Qin Yuan?"

"It's not that he doesn't believe in Qin Yuan, but this military staff officer, you don't know that this old boy has a great background. There are two old guys behind him, so everyone will give him face."

Gao Shiwei became angry when he heard this. No wonder the military staff officer was able to sit here with them for a meeting. It seemed that there was someone behind him. He hated this kind of person the most.

"Hehe, I'm not afraid. They will come at me if they have the ability. Our special team is not afraid of offending people. I will stand up for anything."

Long Baichuan sighed helplessly, this Lao Gao is good at everything, but his temper is too straightforward, and sometimes the offended people don't know it.

On the other side, Qin Yuan has already entered the military defense zone of country a. For this place, he is as light as a swallow. He evaded the opponent's reconnaissance plane lightly, and then entered their country again.

Because this time an agreement was reached with the president of country a, there was no further pursuit of them, but all the focus was on finding out the previous traitor.

In just a few hours, major changes took place in country a. The special commissioner in country a didn't know what was going on, and he was controlled inexplicably.

He only remembered that a soldier came to look for him before, but at that time he suddenly became unconscious, and when he regained consciousness, he disappeared.

Moreover, there were no traces left at the scene, which made him wonder if he was dreaming.

It's just that there was no news in a short period of time, and the military officers he had contacted before could not be contacted in an instant. Now he is also prohibited from going out and cut off all contact.

He was very dissatisfied and said to the sentinel outside: "What is going on? I need an explanation' I am a special commissioner from the United States, and this is how you treat me?"

"Sir, this is the order we have received now. We are investigating many things above, so all personnel are prohibited from going out."

"You have no right and no right to put me under house arrest! I'm going out now."

At this time, a cold voice sounded from the corridor. It turned out to be Orke. This was also the suggestion Qin Yuan had given before, and he could be regarded as a little help to Orke.

This person is also quite capable, but because they have too many internal problems in country a, he has not been reused, and now he is even more misunderstood.

"Please make it clear that this is our country now, and I have enough evidence to point out that you are instigating and destroying our relationship with Yan Kingdom. This is a felony!"

"You! What are you talking about? I don't understand at all. I need to contact my officers outside. You are crazy. I am from the United States."

Chapter 1120: 1 go home

"Do you really think that someone is coming to save your mother? Let me tell you, the evidence of your secret contact has been fully grasped by us!"

"You! What are you talking about? I don't understand."

"I don't need you to understand now. Are you still counting on General Barshin to save you? Let me tell you, he has already explained everything."

The special commissioner of the United States, Bass, completely slumped on the sofa in the back. He didn't know what was going on.

The door was completely closed, and he began to recall, wasn't that a dream? That person clearly appeared in front of him, did he say something? Otherwise, he is the only one who contacts these people, how could he be investigated?

On the other side, the Ministry of Security of the United States also caused a sensation. Suddenly, the president of country A cut off all contact with them, and the special commissioner and the team they sent were also completely detained.

And country A didn't say anything, just sent them a list directly, and this list is the evidence of their part's collusion with the United States.

An emergency meeting was also held in the United States. At this time, a figure walked in. If Qin Yuan was there, he would be shocked, because this person is a masked man, and this guy's identity is really different. In front of the officer, he walked in as if no one was there.

The military chief of the United States, looking at the list sent by country A, needs to come up with a plan as soon as possible. Now that country A has not targeted them, it is because they are still dealing with their own domestic affairs, but in the later stage This matter will definitely be involved.

There was a lot of people in the meeting room, everyone was discussing their own plans, but the discussions went on and on without any results.

The masked man asked a key question, "Now what we have to think about is not these, but to be sure that some of them have betrayed or been successfully interrogated by some people through some special means."

The masked man had already thought that it was definitely Qin Yuan, and the others didn't have this ability at all, but these people didn't know it.

A military officer from the United States looked curious, "How is this possible? That guy has received the highest anti-captive training, and he will never betray easily."

"You have to know that training is just training, and it's for some ordinary people. For some special groups, it's different."

The military chief disagreed with what the masked man said, "I don't understand what you mean, and you come here to interfere with our actions every time, but this time things are done differently. It involves the relationship between the two countries. Now, I hope you better not..."

The military officer hadn't finished his sentence yet, a person following the man in the mask just stood up and stared at him. The military officer only saw the man behind him.

"one two Three!"

The military officer stared and fell straight to the back. The meeting room was silent for an instant, and everyone turned their heads to stare at them. What's going on?

The masked man shrugged his shoulders, "I hate people questioning me the most."

The entire meeting room was very quiet, and finally someone next to him couldn't help but said:
"Sir, although we don't know what happened, but anyway, he is also the military chief here, isn't it a bit too much for you to do this?"

"Don't worry, he's fine. He was simply hypnotized by me. This is what you despise the most, which is my research. You don't have any right to question me."

After the masked man finished speaking, he knocked on the table and put away the list on the table.

"Remember, our celestial body organization will accept the next thing, and you don't need to participate in the next thing."

Hearing this, everyone in the conference room was stunned, but two bold military staff officers stood up and retorted:

"Sir, you can't do that. After all, this is something given to us by the supreme officer, and you can't take it away at will."

The masked man's tone was a little unhappy, he stroked his hair, "Why are there always people who can't understand people's words?"

At this time, there was a rush of footsteps inside, and the officers inside stood up and saluted after seeing the people coming.

"General Orson!"

But General Orson ignored them at all. Instead, he was very angry and walked over to push the officer who had just spoken.

"You idiots, do you know what you're doing?"

"General..."

"To shut up!"

After General Orson finished speaking, he quickly walked up to the masked man, nodded and bowed and said, "Sir, I'm very sorry, I didn't explain that I have subordinates. This is my negligence. I apologize to you on their behalf."

"Hehe, you really arrived in time, otherwise I really wanted to kill a few people to add to the fun."

The people in the conference room heard the masked man say such arrogant words, and they were still in front of their general, but their general was very afraid of this masked man, and kept nodding and bowing, with a very respectful attitude.

"Sir, don't worry, I have already understood this matter, and all matters will be handed over to your celestial body organization, and we will not participate in it anymore."

"It's not bad, some things are not for you to participate in."

After the masked man finished speaking, he walked out with the two subordinates behind him. At this time, General Orson hurriedly asked:

"Sir, how is my subordinate doing now?"

"In a minute, he'll wake up."

Just like that, the masked man left with the two people with the system, and General Orson was completely relieved after they left completely.

At this time, the person who fell on the ground also woke up, he was in a daze, he didn't know what happened at all, it seemed that at the previous moment, he couldn't decide anything by himself, his brain went blank, and he was controlled.

He stood up and was still thinking about what happened before, "What... what happened to me just now? And where did that person go?"

"You don't need to participate in the next matter. This matter is absolutely confidential, and no one present can disclose it."

"General, I don't understand. Who is that masked person? He seems to have appeared on several important occasions before."

"Don't ask more about things you shouldn't ask, and do as I tell you."

The people in the conference room certainly understand what this is. There are many things that people like them cannot know. There are many organizations like this in their country, but they are all mysterious.

According to their account, the patrol team of country A successfully captured the small team in the border area, and they appealed to cause disputes between the two parties.

Qin Yuan took the red blood cells with him, and the team members silently guarded the people in the rear. All the nationals in country A were evacuated.

The side of country A drove a car on the street and started broadcasting, mainly to evacuate the people of Yan country.

The small captain of the guard who was in charge of security at the embassy took the people into the car first.

At this time, some people were also a little worried. After all, such an incident happened before, "Captain Wang, can we successfully get out this time? Could it be that they lied to us again?"

"Everyone, don't worry. I think we will be able to go out this time. It is impossible for them to use literal translations to go back on their word over and over again."

"But I'm worried that what happened that day will happen. If another terrorist comes out, what should we do? We are all unarmed now."

At this moment, Captain Wang looked up out of the window, only to see a man on the opposite viaduct, grinning at him, and his body was clearly marked with the national flag of Yan Kingdom.

The moment he saw Qin Yuan, he was completely relieved, he turned his head and said to everyone:

"Don't worry, there are always people behind us and around us silently protecting us. They have never flinched. This is the strength of our country. Everyone must believe in them."

Captain Wang smiled. Qin Yuan really kept his promise. He said before that it was absolutely impossible to abandon them and go first. He has been silently guarding around.

Qin Yuan put away the chess pieces and asked Li Erniu and the others to be vigilant, and everyone followed the team. Apart from the soldiers from country A, they were also escorting them along the way.

Gao Shiwei and the others finally saw the long-awaited scene, and all their people were picked up.

The common people were all cheering, they finally saw their own people, Long Baichuan led the soldiers and began to arrange for these common people to board the warship first and start registering one by one, without missing anyone.

The foreign minister from country A came over and apologized for a year, "Sir Gao, I really caused you trouble. I am very sorry about this incident. There is indeed a problem with our side, but we are still investigating."

"It's not up to the two of us to say anything here. Now I just want to ensure the safety of my people. As for other things, you can talk to us later."

Gao Shiwei was very domineering when he said this, but now it's not what they want to talk about, and he doesn't accept it.

This diplomat also wanted to say something nice in front of Gao Shiwei, so as to facilitate their subsequent negotiations. Seeing that this was a mess, he could only smile awkwardly.

After Captain Wang brought his own guards and followed these people on board the warship, he kept looking for Qin Yuan and the others. He remembered it very clearly. There were no mistakes. He never saw Qin Yuan and the others at all. .

They also couldn't stay here for a long time. After the counting of the number of people was over, Long Baichuan gave an order to prepare to sail the warship home.

He was very excited, and the expressions on everyone's faces were happy. At this moment, Captain Wang suddenly yelled.

"Wait a minute, we still have people not coming up."

Gao Shiwei was a little anxious when he heard this. He hurriedly stepped forward and asked himself: "What's going on? Who is missing? We have checked the list, and there is no problem."

"Sir, it's not our people that are missing, but your people, those soldiers who have been silently protecting us around us before!"

Speaking of this, the common people just remembered, especially the two common people rescued by Qin Yuan before. At that time, they were dragged out. Fortunately, Qin Yuan shot in time and directly killed the officer.

Only then did the common people realize that they all started to look around, and they really didn't see Qin Yuan and his team.

"Sir, we can't just leave like this, they must be trapped in their country, we have to wait for them here."

"That's right! We can't do such a treacherous thing, but they have been protecting us at that time, which gave us such confidence."

It seemed that there was a misunderstanding. He really thought that someone hadn't come up. He said with a smile: "Well, don't worry about it. I know who I am. Now let's go home together."

As soon as his words fell, Qin Yuan also brought red blood cells, and the team members came up from the cabin.

"Don't worry everyone, our team will always be behind you and around you, silently protecting everyone."

This sentence really made people feel safe, and the people around them applauded. The house arrest this time was indeed thrilling. After all, they experienced shooting and bombing again.

This time it can be regarded as an evacuation of overseas Chinese in another sense, but it was forced to evacuate.

Qin Yuan led the team into the cabin, and Gao Shiwei made arrangements for the common people to follow them in. He couldn't hide his smile anymore.

"You brat, this time the performance is very good, I am very satisfied."

"Captain Gao, but I still have to review. When I started to act again this time, I was a bit presumptuous and advocated firing ahead of time, but it was also to save our people."

"I don't need to say more about this one. I really believe in your judgment' And after our analysis, if you hadn't made a decisive decision at that time, the consequences might have been even more serious than now."

Long Baichuan also walked in, "We have really become tool people this time. I didn't expect that your team has become the leading force. Not bad, not bad. It is indeed our trump card team."

"Captain Long, you're just joking. We still have to count on your help outside, otherwise we won't be able to rely on us."

"Why do you still learn to be humble now, kid? Don't worry, you will have done your military service well after you go back."

Qin Yuan didn't care about that, anyway, he had already obtained countless military merits, but this time the system didn't give any reminders, and he didn't receive any merit points.

Merit points are not so easy to get. It seems that some opportunities are still needed, mainly because during this operation, he also accidentally found out that the Celestial Organization was also involved.

So this time the matter may not be so easy to solve. With the participation of this organization, a scapegoat can be scapegoated casually, and the following matters can only be said to turn a blind eye.
