

Special Soldier 1121

Chapter 1121: things have changed

Qin Zhengyang was very happy on the way back, humming all the way, this time they can be said to have no casualties, and brought all the people out.

"Brother Qin, although we spent a long time outside this time, no one was injured. I think this is the best."

"Oh, it's not bad, you're enlightened now, and now you know that you don't need to be so impatient. Sometimes safety is the most important thing."

In addition, according to Gao Shiwei, after they go back this time, they should remember an individual military merit, as well as a collective military merit.

The specifics depend on the arrangement of the leaders above. This is the first time Qin Zhengyang has joined the red blood cell team to get military work, and he can be regarded as the youngest team member.

He Chenguang said beside him: "Zhengyang, this time you will be able to get military merits after you go back, Gao is not happy."

"How can you be unhappy? Besides, I just followed everyone to gain fame and did nothing. I didn't expect to get a military merit."

"It can't be said like this. Each of us has our own role. Besides, we are a collective. Now is the time for our honor, but if we encounter difficulties, we will also bear it together."

Everyone was talking and laughing, and they still don't know what will be waiting for them when they go back. The main reason is that there are too many things involved this time.

On the one hand, the president of country A, according to his willingness to prompt, captured all those people on the list one by one. He has almost solved the internal problems, and now he should solve the external problems. On the one hand, And the side of the United States, on the one hand, is the problem of the country of Yan.

The president of country A originally wanted to follow the plan Qin Yuan said, and didn't care about the rest, and they also signed the agreement, but the people from the Celestial Organization found him suddenly.

In an office, the president of Country A stared at the man in front of him with a serious face. All these guys just appeared in his office quietly. Just like Qin Yuan before, it was too blatant.

"What on earth do you want to do? Is this place where you come and leave whenever you want?"

"It seems that Mr. President still doesn't understand our strength. This time we represent the United States."

Even if the president of country A gets angry again, he can only endure it. There is no other way. They are just a small country in front of the United States. If the United States really wants to attack them, they have no power to resist.

"I don't know what you mean by this? Why did you come here?"

"Of course we are here to solve the problem this time. Of course, I also want to know the specific situation. Has someone come to you and said something to you?"

The president of Country A hesitated when he heard this. He was very entangled. At that time, Qin Yuan told him that this matter was a secret between the two of them, and no one could disclose it, so he also signed the agreement.

"This... I haven't met anyone, and I don't understand. What do you mean by this?"

"It seems that Mr. President is really forgetful. I need to remind you. Have you ever seen a soldier from Yan Kingdom? He came to look for you."

The president of country A was stunned when he heard this. Only the two of them knew about this matter. Could it be that something went wrong with Qin Yuan?

The masked man straightened his mask, "You don't have to be so nervous, it's just that I need to know the truth of the matter now, after all, you have no way to investigate those things through your power."

Speaking of this, the president of country A is angry that these guys are really justified. They have inserted people into their own Ministry of Defense, including the Ministry of Military Industry. Their spies are now completely caught by themselves. They are here to Do you question it?

"No matter what you are here to investigate, no matter what, our country A must have dignity. It is impossible for those personnel to remain inside us forever."

Regarding the attitude of the president of country A, the masked man seemed to have expected it a long time ago, so he clapped his hands disapprovingly, and then threw a document on the table.

"You don't need to tell me these things. Now I have given you a solution. Just do what I say, otherwise you know what the consequences will be."

"You! You are threatening me, do you know who I am?"

The president of country A was very angry. At this moment, the phone in the office rang, and he stood up to answer the phone.

In the next second, his face changed completely, and he looked at the masked man in shock. After hanging up the phone, he walked over silently, picked up the plan, and lowered his head, looking like he was sure he agreed with their plan up.

It's not that he compromised so easily, but the content of the call. The United States sent a security team to directly enter their territory. On the surface, it said to assist them in management, resolve civil strife, and ensure the safety of their people.

In fact, this Guard Dad is stationed beside their Marine Corps, more like a surveillance role, if there is any trouble, they will be the first to attack their Marine Corps.

Mi Jun's speed was so fast that he never expected it to become like this.

The masked man stood up, walked forward, and patted him on the shoulder, "Don't worry, we won't treat you guys who are willing to cooperate with us badly, I know what you're thinking, I've been targeting your country H before, We will solve this problem."

The president of country A was so shocked that his back broke out in cold sweat. The person in front of him always had an invisible pressure on his head all the time. Every word he said to him made him feel the pressure doubled. .

Until the masked man walked out, the president of country A still hadn't recovered. He held the document helplessly, and then sat on the sofa. At this time, the secretary walked in.

The secretary's face was serious. He was holding countless documents in his hand, and there were many requests for instructions. Everyone didn't understand the sudden entry of the Mi army.

After a few minutes, the deputy prime minister also walked in. The president of country A waved his hand to signal the secretary to go out. He sat down on the sofa and handed over the document.

"Look at it, this is the solution they gave us, asking us to do what it says."

"Sir, what is the situation? I don't quite understand. It's this time, especially the US troops. Why did they suddenly move in? Isn't this a big joke?"

The president of country A also smiled helplessly. It is indeed a big joke. Mi Jun is using excuses to uphold justice for them and help them maintain the security of the people. Can't they solve their own country's affairs? ?

These people still need to point fingers, but the crux of the problem now is that he can't make decisions on his own. If people say they settle in, they will directly settle in.

It is said to be a guard team, but there are more than 500 people, and they are all carrying heavy weapons. Under such circumstances, they are definitely a huge threat, and they are stationed on their defense line like this.

Facing the deputy prime minister's questioning, he was also very helpless, "Do you think I have any solution now? At present, we can only let everyone hold a meeting and pass this matter on first."

I have to say that the United States is despicable. Relying on their strong military strength, they first ask others to cooperate with them. If they are unwilling to cooperate, this is forced cooperation.

The deputy prime minister looked at the plan in this document with a look of shock, "Are we really going to do what they say? This will completely offend Yan Guo."

"There are a lot of things I can't decide, just like their army is directly stationed in now. For now, we can only do what they say first."

He really had no choice but to threaten her from both sides, but at least Yan Guo would not make too obvious threats to her. Mi Jun's side was different, they directly sent troops in.

And in comparison, the threat of the United States is greater than that of the Yan State.

Qin Yuan and the others have been back for more than a week, but country A has not given any statement. Originally, this matter is not under their control, but everyone is curious. It has been so long, why even a No apology statement?

After a few days, country A finally took action. They only publicly arrested a few people, especially the special commissioner Bass from the United States. All the crimes were placed on Bass. body.

Moreover, Bath's identity has undergone other changes, and he has suddenly become an unknown foreigner.

They publicly stated that these things were done by foreign personnel like them. They deliberately provoked disputes between the two countries. protect their people.

When Qin Yuan saw this report, he couldn't help but clenched his fists. This is too exaggerated. It's completely confusing black and white. Before he found the president of country a, he said that's not the case.

Such a statement is completely shirking responsibility, meaningless, without any sincerity of apology, and without any expression.

Their people were previously under house arrest for nothing and were bullied by them abroad.

The diplomats on the side of Yan State made a statement of condemnation. They expressed their disapproval of the dishonest publicity of State A, and this kind of investigation was only their unilateral participation. For this incident, Yan State is also responsible, also has the right to participate in surveys.

Everyone needs the truth of the matter, and more importantly, their people have been softened by them in another way, and now they have become their constant protection, which is really too ironic.

Qin Yuan couldn't figure out what the president of country A wanted to do. He had already agreed on it before, including the recordings. Why did it become like this now?

Although Gao Shiwei was very angry that this matter was resolved like this, he was not in a hurry. He knew that with the recording brought by Qin Yuan and the agreement on his side, the subsequent negotiations would not be too serious. big.

The diplomats on Yanguo's side did indeed bring the agreement and a recording to talk to them about this matter. Since they don't want to solve it, there is no need for Yanguo to take everyone's face into consideration and just expose it all.

After waiting for another three days, without any apology statement, a military vehicle arrived.

The people who got out of the car made a simple registration, and went directly to Gao Shiwei's office, and took out an investigation order, requesting to take Qin Yuan to investigate now.

Gao Shiwei couldn't figure it out, what's going on?

"If you want to take my soldiers away, you must at least tell me what's going on."

"Sir, we are also executing orders, and the specific situation is not clear. You can contact the above-mentioned officer for details."

Gao Shiwei was so angry that he didn't say anything, and directly sent someone to him to lead him. What kind of situation is this?

No matter what kind of investigation it is, there is no need to do this, at least say hello to yourself, no matter what, Qin Yuan can be regarded as a famous person in it.

Gao Shiwei immediately called the military officer in the general military region, "Vice General Liu, I'm afraid it's unreasonable for you to do this. Without any explanation, you want to take my soldiers away. What's going on? "

Liu Chengshan knew that Gao Shiwei would definitely call him, and this matter was unavoidable, "Don't be so anxious, we are just cooperating, calling someone over to ask for clarification, it will be good for us all."

"What do you mean by that? Call someone over and ask clearly? What exactly did my soldiers do?"

"Old Gao, do you think I don't have an order from above, so I dare to go to your place to bring someone casually? I can't help you this time, I just carried out the order. I can only tell you that it is the Ministry of Foreign Affairs. There's something wrong with that recording."

Gao Shiwei was stunned when he heard this. Long Baichuan had reminded him before, but he didn't pay attention at that time. He didn't expect it to be that recording.

The person on the opposite side did not speak for a long time, and Liu Chengshan continued to say: "Old Gao, you can leave him to me, don't worry, I will definitely not wrong our comrades, and now I am just cooperating with the investigation."

Hanging up the phone Gao Shiwei called Qin Yuan to the office. He had no choice but to obey orders as his bounden duty. On the other hand, he couldn't ask too many questions.

Qin Yuan also looked confused when he came to the office, looking at the people in uniforms and sleeves, he couldn't figure it out either.

"Qin Yuan, you follow them to investigate some things now, remember, tell the truth, and if anything happens, I'm here!"

"Yes!"

Although Qin Yuan didn't understand, he still carried out the order and got into the car with the investigators.

Anyway, he is not afraid of the shadow slanting, and he has done nothing wrong. It is actually quite normal to accept such an investigation.

Qin Yuan was taken directly to the general military region, but he was taken to the interrogation room over there, and the other party also took off his weapon, which made him very uncomfortable.

If he really wants to do something, these people are not his opponents at all without weapons.

Chapter 1122: despicable country A

These are normal procedures, including the soldiers on the opposite side who are also very polite, "Captain Qin also hopes that you will cooperate with us. This is also for the sake of everyone's safety. This is a routine inspection."

For Qin Yuan, he didn't think it was a big problem. After all, the other party's attitude was also here, so it wasn't so tough.

At this moment, the soldier wanted to take out the handcuffs and do a basic bondage. Qin Yuan didn't accept this. He was only in a normal inquiry period, so why did he put on handcuffs?

"I don't quite understand what you mean by this? My current identity is just being called by you to talk and investigate normally. Why do you treat me like a criminal suspect?"

The main problem is that Qin Yuan's ability is too outstanding. It can be said that these soldiers are instinctively afraid that if he really makes trouble, the handcuffs still have a little restraint effect.

Although it is just a normal investigation and inquiry now, there is no guarantee what will happen later.

At this moment, Liu Chengshan's secretary hurried down, and he stopped the soldiers in front of him, "What are you doing? Is Captain Qin the kind of person who needs restraint?"

Qin Yuan snorted coldly, without their orders, would these ordinary soldiers dare to restrain themselves? But I just saw myself making a fuss here, so I hurried over to sing my bad face.

For this kind of person, he didn't respond at all, and strode forward and asked directly: "Secretary Chen, I don't know what happened, especially now, since it is an investigation, then follow the normal process, why did you bring me?" To the interrogation room?"

Secretary Chen was also in a difficult situation. He lowered his voice and said, "Captain Qin, we are all comrades-in-arms no matter what. process."

"You don't need to use these processes to pressure me, just tell me what's going on, and I'll answer you directly, and I have all the evidence I need to show."

"This... It's not convenient for me to disclose this at the moment. After all, I am not here to connect with you."

"Really? Then you need to know my identity. Although you are the secretary of Vice General Liu, in terms of rank, I am indeed higher than you."

Secretary Chen was one head and two older, so he could only say with a smile: "Captain Qin, this matter was our negligence, and we will arrange it immediately."

"Then I hope you can make good arrangements, otherwise this matter will not be let go. Our Gao team also said that we don't cause trouble, but we are not afraid of trouble."

"Okay, I'll arrange it right now."

Secretary Chen repeatedly agreed, and quickly transferred the person to the office instead of staying in the review room.

Just as Qin Yuan left, Secretary Chen helplessly wiped the cold sweat from his forehead. Qin Yuan's aura was too strong just now, and he didn't know how to answer the questions he asked.

There were two recruits next to them, and it was the first time they saw Secretary Chen like this. In their eyes, Secretary Chen could speak good morals and handle everything with ease.

The recruit next to him couldn't help but stepped forward and asked: "I don't know much about Secretary Chen, but he seems to be some kind of God of War in our theater, but there should be many such Gods of War. Why can't even you handle it?"

When Secretary Chen heard this, he said with a cold face and seriousness: "Hehe, you don't even know how powerful an ordinary ***** of war is. First-class and special-class skills, he is given soft hands. How many first-class ones have you seen alive now?" Waiting for merit, let alone special merit."

The soldier looked surprised, and Secretary Chen continued: "You have just come here, so you don't understand a lot of things. There is indeed no lack of God of War in the military area, but personal fame like him has been softened, and there is also collective merit. It's just this time. The matter involved is too big, so I called him over."

Secretary Chen also sighed helplessly. This time, no matter how it is resolved, it will end up being unpleasant.

After a while, just as Liu Chengshan came out of the conference room, Secretary Chen went up to meet him.

"Chief, go and have a look. He's in the office now, and I can't handle it."

"Oh, there are people you can't handle, don't worry, I know this kid very well, and I have talked to him several times before."

"Chief, it's different this time. When we were at the registration office just now, we were really underwhelmed. Is Captain Qin serious? He's so talkative on the surface."

"I think you guys must be embarrassing others. I have met this kid before, and he is not so difficult to get along with."

"Hey, it's not that the recruits who just arrived are ignorant. They insisted on confiscating weapons, searching him, and then wanting to handcuff him."

Liu Chengshan was a little angry when he heard this, isn't this just messing around? I really offended people. It was good at first, but I just invited them to investigate normally. If this matter becomes a big deal, it will not be good for anyone.

"You do something every day, and you don't have any vision."

Knowing that Qin Yuan was unhappy, Liu Chengshan hurried to the office, and Qin Yuan just stood up and saluted symbolically.

"Qin Yuan, I kept you waiting for a long time. You see, there are too many things going on in the General Military Region. I've been in various meetings."

Qin Yuan looked coldly at Secretary Chen next to him, "Chief, this meeting is nothing to worry about, but I was treated like a criminal suspect just now, which made me very uncomfortable."

He didn't intend to sue on purpose, but he knew that Secretary Chen would definitely tell him about this matter.

Secretary Chen also hurriedly apologized beside him, "Captain Qin, I apologize to you again for this matter. What happened just now was indeed our negligence, and we did not properly coordinate some things."

Qin Yuan is not such a shameless person, he even apologized for the second time, and he nodded, "That's fine, since it's already like this, I won't embarrass you too much, anyway, we are also comrades-in-arms ."

After receiving Liu Chengshan's instructions, Secretary Chen left as if fleeing. He didn't want to stay here any longer. Qin Yuan's aura was too strong. I don't know if it was his illusion. He had seen it before. The general's, but Qin Yuan's aura is bigger than that general's.

After Secretary Chen left, Liu Chengshan took out a top-secret document, "Qin Yuan, it's a helpless act to invite you here this time, take a look, this is the statement they sent from country a, it's all nonsense ."

Qin Yuan took the document and read it carefully. Now country A has completely overturned the previous matter. Not only that, but what they said about the recording and the agreement also showed that it was under the threat of Qin Yuan on the spot. , was signed.

No wonder the matter was so serious this time, and he was called in to investigate. It turned out that the president of country A was messing with it.

"Chief, this is definitely impossible. If it is a threat, I did threaten him at the beginning. It was to prevent him from being born. We will negotiate normally later. He definitely said these things voluntarily."

"Yes, I know who you are, we must believe you, but now they are biting this matter."

"Oh, that's really interesting, what does that **** want to do?"

Liu Chengshan smiled awkwardly when he heard Qin Yuan call the president of country A an asshole, but this kind of behavior is indeed quite an asshole. Since everything has been agreed before, even the agreement and recording, now It is despicable to stand up and overthrow it again.

Besides, as the president of country a, the head of a country, Qin Yuan has nothing to say if he can't believe what he said.

"Now the relationship between the two countries is still very simple. I suspect that the United States is supporting them behind the scenes. Otherwise, how could they have such confidence."

"Chief, but the crux of the problem is that it was their fault. They detained our citizens at will. Now the problem is this. Don't they admit it?"

"Yes, we talked to them about this, but they didn't talk to us about it. They told us that now their leaders are threatened by us, and our soldiers entered their offices at will, and certain of their secrets. theft."

It was just nonsense, Qin Yuan was furious when he heard it, these ***** are really shameless enough.

It can be seen that Liu Chengshan is also very embarrassed. This time he called Qin Yuan to investigate, on the one hand, to get the real truth of the matter, and on the other hand, to protect Qin Yuan.

"But don't worry, we will definitely not wrong our own people. This time, we mainly protect you. We all know about the past, but now they just want an explanation."

Of course, Qin Yuan understood that bringing him to investigate now was just to show outsiders, and he might give a statement later, indicating that they were investigating.

All this is a normal process, and it's also to protect him. The key to him accepting the problem is that he doesn't want to be so cheap, that bastard.

The reason why they did this was to muddy the water, and then let this matter go away. They were completely avoiding the important and taking the light of the light. Now they poured all the dirty water on that Buzz, and also shifted half of the responsibility to themselves. It's really hilarious.

"Chief, how do you plan to solve this matter?"

"Although there are some things you shouldn't know, you should be clear about my relationship with Lao Gao and your relationship. I'm definitely on our side."

The result of their handling is to negotiate first, and mainly insist on their evidence.

Having said that, but if country a's attitude is still very tough, there is nothing they can do, after all, they directly refused to admit it.

What they can do here is to condemn in the form of a press conference or in writing. There is no other way, and they cannot fight.

Qin Yuan could not help but frown, there are too many things to consider now, the relationship has reached this level, and there is no room for maneuver.

Liu Chengshan stood up and opened the cabinet to make tea, "But don't worry, this time, apart from condemnation, our diplomacy with them is completely broken, and all trade contacts will also be terminated."

In this way, for a country, the loss is indeed huge, not referring to their Yan country. After all, the Yan country is a big country here, and they don't care about these things at all. It is mainly for country a, and their economy will soon be impacted.

They must have considered this issue, but they feel that the relationship between the two countries has become like this. No matter how hard they try to ease it, the result will be the same in the end. It is very likely that they have a broken attitude .

It's just that they always feel that they are too cheap, but that's not enough. Now he is being wronged for no reason. He is not the kind of Xiaobai who allows others to beat him.

The reason why Liu Chengshan called Qin Yuan here was because he was worried that he would go out and cause other troubles. The relationship between the two countries is already tense, and there is another problem that he did not tell Qin Yuan.

It was the shooting incident before, and now they are still talking about it, but they listed all the soldiers who died at the military base at that time.

This matter is more serious than killing the bandits before. Although Qin Yuan said that he wanted to protect the people, it would be unwise to shoot in that situation. But now they don't have any evidence, and they are just suspicious.

The evidence presented by country a is based on bullets, which Yan country absolutely does not approve of. Bullets like this are used by many countries, and they may not necessarily belong to their country.

Therefore, the current negotiation relationship between the two parties is also very rigid, and everyone's daily negotiations are basically spent in quarrels.

Country a now has the support of the United States, so it doesn't have any face at all. Anyway, it overturns all the previous agreements.

Qin Yuan sat on the sofa without saying a word, and Liu Chengshan handed him the tea.

"Qin Yuan, don't worry about this matter, we will definitely handle it well, you just have a good time here for a few days, by the way, the soldiers under my command are also loose Help me bring some sky."

Liu Chengshan tried his best to avoid the topic and asked Qin Yuan to stay.

"Chief, these ***** are completely nonsense, and you do have other things to hide from me, right? They should be threatening us with other things now, so you will keep me."

Liu Chengshan didn't expect that what he had done was strict enough, and everything could not be hidden from Qin Yuan's eyes. There was no way, this kid was really too smart.

Liu Chengshan sighed helplessly, now he can only tell the truth and tell the whole story clearly, since he has been keeping it a secret, it is better to tell it in advance.

Qin Yuan knew that they were making a fuss about the shooting, and felt even more angry. It really showed their shamelessness to the extreme.

"Chief, you know that at that time, they were going to shoot and kill our people. I couldn't do it. Let's not do it anymore. Those ***** deserve to die."

Chapter 1123: let down your guard

"Qin Yuan, what are you talking about? You don't need to explain this to us at all. We must all trust your judgment."

Qin Yuan knew that they didn't misunderstand him, but did this to protect those bastards, which made Qin Yuan feel very uncomfortable.

Liu Chengshan knew Qin Yuan's strength. If he really wanted to get serious, he would really rush to the president's office. So doing this was not only to protect, but also to protect the people there.

To be honest, why didn't he want Qin Yuan to clean up those ***** problems in the past, because it is easy to be caught by others, and it is unreasonable for them to have any problems at this tense moment.

He took a sip of tea and said solemnly: "I know you are not reconciled now, you go and teach those ***** a lesson, but now we have to consider the overall situation, if they get caught, things will be more troublesome."

"Chief, I believe that my skills will never leave any clues. This matter cannot be calculated in this way. You also know that if you talk about it like this, there will be no results in the end."

Liu Chengshan knew that Qin Yang would say that, he quickly shook his head, walked over, and pushed him to sit on the sofa.

"You stinky boy, let you come here and stay here now, just stay here, it's good for everyone."

Liu Chengshan can only avoid the problem first, and he doesn't want to become like this, but there are too many things on his body, and he can't just think about himself.

Qin Yuan was a little anxious, and he said directly: "Chief, you didn't see the situation at that time, the **** I killed, dragged our people out, and was going to shoot them, and kept shooting. You know the fear of ordinary people at gunpoint."

"What! There is such a thing!"

Because Qin Yuan didn't want to say more about these things at the time, he just said that his people were threatened. Now that the details are revealed, it really makes people angry.

"You know that I don't seek any fame, and I didn't want to say more at the time, but those **** are really bullying people. Tell me when our people have been wronged like this?"

Liu Chengshan was indeed suffocating, but soon he calmed down, because he and Qin Yuan had different identities, and he was in charge of too many people, he couldn't be impulsive first, once he let go, After opening this opening, it will be out of control later.

"Oh, but I really can't help it now, and I hope you can understand, you can stay with us for a few days, and I will ask someone to arrange a room for you."

"Chief!"

"Okay! I know it all, but what can you tell me to do? I have to have my own principles, do you understand? There are too many people behind me."

When it came to this point, Qin Yuan had nothing to say. If this is the case, he can only rely on himself.

"Yes, chief!"

"Don't think too much about it, just stay here with me these few days, and other people will naturally deal with the rest of the matter. It's not our business to worry about. We just need to obey the orders and carry out the orders."

Liu Chengshan was also worried that Qin Yuan would do other impulsive things, so he specially emphasized the words "execute orders".

Qin Yuan already had his own plan in mind, so there was no need to entangle him here, so he just followed Secretary Chen. Secretary Chen enthusiastically introduced the situation here to him.

"Captain Qin has offended me a lot before, and I hope you can take it easy. I don't know the specific situation, but don't worry, you are here with us, just like you are at your own home, so you don't need to be restrained."

"Okay, then thank Secretary Chen."

Secretary Chen was a little surprised. This person's attitude changed too quickly. In fact, Qin Yuan just wanted them to relax their vigilance.

When I saw the soldiers at the registration office again, those recruits now respected Qin Yuan very much, and there was reverence in their eyes.

Qin Yuan also walked over purposely and greeted them. The soldiers were also flattered, which made them a little unhappy. But when they knew about Qin Yuan's deeds, they were all in admiration.

"Captain Qin, I didn't expect you to be so powerful, and you are too low-key. We really didn't see it just now, which made us a little offended."

"It's okay, you don't have to be so polite, just call me Brother Qin and we can all be comrades-in-arms brothers."

These soldiers did not expect that Qin Yuan was not only outstanding in ability, but also so approachable. This could be considered as Qin Yuan's trick, and he had no choice but to act.

He has no way to explain many things, but now he only wants to do things that make him not regret it. If those **** dare to do this, then he must teach them a lesson.

Of course, he will not do it head-on, and he must not leave any excuses. Liu Chengshan is also doing it for his own benefit and for the sake of the overall situation.

Secretary Chen brought Qin Yuan to the accommodation. Qin Yuan noticed that there were some sentry guards below. This was not an ordinary dormitory for soldiers, but a place for officers to stay.

Qin Yuan said with a smile: "I said you are being too polite. In fact, there is no need to arrange such a special place for me. I can live in a big dormitory, or you can live in your guest room."

"Captain Qin, what are you talking about? You are a guest specially invited by our chief to guide our work. How can you be allowed to go to that kind of place?"

I have to say that Secretary Chen is very tactful. What he said will not remind people of other things, but will make people feel very comfortable.

But Qin Yuan is Qin Yuan after all, of course he knows what it means, the old fox Liu Chengshan is still worried about him, worried that he will run away quietly, that's why he is arranged here.

However, there are only a few guards below, and I really don't pay attention to them. If they want to leave, they can come and go freely.

Secretary Chen also deliberately took Qin Yuan to the security office to register. The purpose of doing this was to impress the security guards and make them pay more attention.

In this way, Qin Yuan managed to stay. He didn't say anything at that time. When Secretary Chen came back to report to Liu Chengshan, Liu Chengshan couldn't believe it.

"What did you say? This kid really cooperated like that, and he talked and laughed along the way."

"That's right, Chief, I personally followed him to register. Captain Qin is quite polite."

Liu Chengshan looked puzzled, did this kid really change his gender? With just a few words of your own, did you really convince him?

Originally, he wanted Gao Shiwei to call Qin Yuan, so he had to suppress the boy's temper, but it seemed that it was unnecessary, so he called Gao Shiwei anyway, as a sign of his safety. Telling others to be here makes him feel at ease.

The signal to turn off the lights at ten o'clock in the evening had already sounded, and Qin Yuan was lying on the bed according to his previous routine. At this moment, there was a knock on the door of the room.

Qin Yuan smiled, the old guy was still worried about himself, and when he opened the door, he saw Secretary Chen.

Secretary Chen's face was a little unnatural, and he couldn't be called by Liu Chengshan. Seeing Qin Yuan open the door, he was sure that he was in the room. After that, Secretary Chen could only say awkwardly:

"Captain Qin, I just wanted to ask, are you still used to living here? You can tell me if there is any inconvenience."

It was too obvious for him to come here at 10 o'clock in the evening to ask himself if he was used to the place he lived in. Qin Yuan smiled helplessly.

"Secretary Chen, I know what you want to do. You go back and tell the chief, tell him, and reassure him. I will definitely not go to this matter. I have also decided. Let them solve it by themselves. We are only soldiers. Follow orders."

Secretary Chen was even more embarrassed when he heard this. Is his purpose so obvious? It was exposed directly, and he hurriedly explained it forcefully.

"Captain Qin, it's really not what you think. I just came here to ask you if you're used to living here. It has nothing to do with our chief."

"Oh, is this the case? Now that the lights have been blown, it stands to reason that no one should be in the corridor. I don't know, Secretary Chen came this late at night just to ask me if I'm used to living here?"

"This..."

Secretary Chen didn't know what to say for a while, if he knew it earlier, he wouldn't explain it, and now it's even more embarrassing to explain it, because people have already seen it.

Fortunately, Qin Yuan didn't make things difficult for him. He just smiled and said, "Okay, go back quickly. I understand. I'm what I said just now. I will definitely obey the order and won't cause you any trouble."

Secretary Chen breathed a sigh of relief. After walking out of the dormitory, he turned his head and looked at the room where the lights were turned off.

He has no other choice, he can't do it if he doesn't come, Liu Chengshan asked him to see Qin Yuan in the dormitory.

Looking at it like this, they must not care about it, but really stayed here honestly. He felt that their chief thought too much, and just like that, Secretary Chen still came the next day.

Qin Yuan took it for granted. Later in the day, Qin Yuan took the initiative to take some of their soldiers to train on the playground. Everything looked very normal, as if Qin Yuan really didn't care about those things anymore.

In the office, Liu Chengshan stood in front of the window, looking at Qin Yuan who was training on the playground.

"Secretary Chen, you said this kid has really changed his gender, but as far as I know him, he won't give up so easily."

"Chief, I don't think Captain Qin really means that. No matter what kind of personality he has, he still obeys orders, and I don't want to go to the dormitory tonight."

"Looking at it like this, maybe there is really no need to go. He has indeed stabilized here."

Secretary Chen was relieved to know that he didn't need to go to the dormitory. He was embarrassed every day. It had been three days in a row, and he went every night. It was because Qin Yuan had a good temper, and most people would already lose their temper.

"That's right, Chief, I don't think Captain Qin has any problems at all now, and I trust him very much."

Liu Chengshan nodded, so let's do it first, anyway, the outside matter has not been resolved, it is estimated that Qin Yuan will stay here for a week.

At night, the lights had already sounded, Qin Yuan did not lie on the bed, but sat by the window, listening to the movement below.

It was very quiet down here, there was no sound at all, no footsteps, according to the previous situation, Secretary Chen should have come by this time, but now there is no movement, it seems that they should have believed in themselves.

To be on the safe side, Qin Yuan waited for another half an hour, but no one came.

He had already observed the guards on this side before. There was a patrol team on the other side of the outer wall, and there was a team of patrolling soldiers who would come to patrol every half an hour.

Downstairs is a necessary exit, and there are soldiers on guard. It is definitely not possible to go out in such a way, so he decided to jump directly from the window on the seventh floor. This height is no problem for him.

His body was very light and his movements were nimble, and he jumped down without making any movement.

Taking advantage of the dark night, he managed to get out of the gate of the General Military Region without anyone noticing.

After she came out, she ran wildly in the night, and now time is very tight for him, he must be back here before 6:00 tomorrow morning, and now he still has seven hours.

However, this time is enough for him. According to country a's despicable style, talking and talking won't lead to much results, but he can't hold back this tone.

The inner door of a high-end club was suddenly kicked open, and the rich kids who were having fun inside looked puzzled, and one of them stood up with his eyes wide open.

"Damn it! Who is it? How dare you disturb me, I'm really tired of work."

In the next second, a cold dagger brushed against his neck and directly hit the wall behind him.

For a moment, no one dared to act rashly, it was too fast, the speed of the knife just now was really too fast.

Qin Yuan stepped forward and grabbed the rich boy, "Young Master Zhao?"

The man at this moment doesn't have the courage he used to have before. He has seen too many scenes, big and small, and his first thought is, could it be that the enemy is here to seek revenge? He has encountered such a situation before.

"Big...Brother, what are you trying to do? I promise you anything, I can give you whatever you want."

"I don't want money, I just heard that Mr. Zhao has a private helicopter, right?"

...

Zhao Zhouchen didn't expect that the other party didn't come to seek revenge at all, and he didn't want anything, just use his helicopter to leave the country.

But the more this happened, the more scared he became, and he didn't dare to ask any more questions. He silently handed over the helicopter to the other party. The other party could even fly a helicopter and didn't need his people at all.

He felt that some enemy must have come to seek revenge, otherwise how could he know so clearly.

Originally, Qin Yuan wanted to find Li Kang, but tossing back and forth in the middle of the night would waste more time, so it's better to find someone who is ready to take advantage of him.

Helicopters are the fastest now, and no one will investigate the helicopters owned by these rich kids, they are all for fun.

Chapter 1224: 1 good deal

This method is also the most covert. He mainly does not want to implicate other people. He did this by himself, so he must be sure that nothing will go wrong.

Mr. Zhao didn't know what was going on at all. Qin Yuan snapped his fingers and drove the helicopter away on the roof of the building. When he woke up, he couldn't even hear the sound.

He even wondered if all this was true, until the helicopter disappeared directly in front of him, he didn't dare to call the police rashly, Qin Yuan's strength lies there, and he himself has done a lot of disgraceful things matter.

Thinking that if he was an enemy, he would have a lot of evidence of his crimes in his hands, so he didn't dare to act rashly.

On the other side, Gao Shiwei was standing on the playground. They had recruited a new batch of special forces this time and were leading the team for training. It was already past 10 o'clock, and he hadn't gone to bed yet. Long Xiaoyun was standing next to him.

"You said that boy Qin Yuan should go to bed at this time."

"Team Gao! To be honest, do you believe that Qin Yuan is such a law-abiding person? This time they did go too far. Are we going to let them go so easily?"

"If this brat doesn't cause trouble for me for a day, he will be idle and panic. Anyway, no matter what he does, I will stand up for him."

Gao Shiwei had already made all the preparations. He knew that Qin Yuan would never give up so easily, but he didn't know that the current Qin Yuan was about to reach the border of country a.

To be on the safe side, Qin Yuan stopped the helicopter, and then walked in from the side of their village.

The president of country a is sleeping peacefully in his own residence at this time, but this guy is also scared. Now, besides the bodyguards in the corridor where he is stationed, there are even bodyguards in the living room, except for the room where he sleeps.

There was also a revolver under the pillow for self-defense, and he even wore body armor.

Since he made that decision, he has been worried every day, but he has no choice. Their strength is nothing compared to the United States. Whatever the United States asks them to do, they can only do it silently.

And he would often be awakened by nightmares, dreaming that Qin Yuan came to him, after all, they are now biting back on this matter.

It was raining sporadically outside, and he woke up from the nightmare again. He dreamed that Qin Yuan came directly into the room. After sitting up, he realized that it was just a dream, and wiped the cold sweat from his forehead.

He shook his head to wake himself up. The place where she lives is very safe now. There are security systems up and down, and infrared rays are installed at the door, so it is impossible for anyone to break in.

He touched the side of the bedside table and wanted to lift the glass to drink some water, but he touched a cold dagger. When he raised his head, he saw a figure standing beside the bed. , was directly held down by Qin Yuan.

"long time no see."

The face of the president of Country A was full of horror, he couldn't believe it, how did Qin Yuan get here? In order to prevent Qin Yuan, he spared no expense to install anti-theft alarms at the windows and doors.

All are infrared settings, as long as someone passes by, an alarm will be issued, but why is there no movement at all?

Qin Yuan saw through his thoughts and threw the infrared device from his hand.

"Do you think it's just this rubbish, and you want to stop me? Let me tell you, I come to this place whenever I want, and leave whenever I want."

The people outside seemed to hear a little movement, and the bodyguard stood up and knocked on the door.

Qin Yuan made a silent movement, and slowly let go of his hand, but the knife was still on his throat.

The bodyguard kept knocking on the door, and he did hear voices speaking, "Mr. President, what's the matter with you?"

The president of country a was very nervous. He adjusted his emotions and said, "It's okay, I just answered a phone call."

"Okay, then I'll be at the door, call me if you need anything."

This is obviously not the place to talk, and the president of Country A is also very worried. Qin Yuan's sword skills are too fast, he has no time to call the bodyguards outside, and it is very likely that he will be decapitated.

"Don't touch me, now I will take you to another place, where we can have a good talk."

Qin Yuan might as well have planned to kill him, but now it is useless to kill this guy. Killing him will instead divert dirty water to the country of Yan, so why not see what this guy has to say, and think of a perfectly perfect Solution.

The president of country a stood up. He went to the side and moved the lamp, and opened a secret door on the side wall of the bed cabinet.

"I have known this day for a long time. You will definitely come in the morning. I am worried every day. Now after you come in the morning, I feel a sense of relief."

He sighed silently, and made a gesture of invitation. Qin Yuan didn't show any politeness to him, but pushed him, first pushed him into the secret door, then pushed the door and it was closed. After entering, He flipped the switch next to him.

There is a small cubicle inside. From the looks of it, the sound insulation effect is not bad, and there are all kinds of things in it. Otherwise, there are many documents. This should be his secret office.

"Don't worry, there is nothing wrong with this place, and it won't be under any surveillance."

Qin Yuan was a little puzzled when he heard this, "Surveillance? What do you mean by that? Aren't those bodyguards at the door sent by you?"

"I did send people to protect my safety before, but slowly, I found that all those bodyguards were replaced. They changed from protecting my safety to monitoring me and monitoring my every move, including my secretary. It's all under control."

Qin Yuan snorted coldly with disdain, "What do you mean? Do you want to play tricks in front of me, or win my sympathy? I'm not here to listen to your complaints, I just want to know how you plan to solve it."

The president of country a smiled helplessly, walked to the front desk, and took out a document from the drawer.

"Look, this is what the United States submitted to me. I have no choice but to threaten me all the time. How can our country be compared with yours?"

Qin Yuan took the document and read it carefully. It was all about how to solve this incident. Anyway, it was similar to what they described. This time, they wanted to push all the problems to Yan Guo.

Moreover, they had to find a scapegoat for the shooting incident, and successfully diverted all the dirty water to Yanguo, especially to the red blood cell team. Threat him, then get the evidence out of it.

After Qin Yuan finished reading, he just said lightly, "This is very in line with their style, and they have always used such despicable means, but why did you show me this, let me see you dog bite dog?"

The president of country a doesn't mind Qin Yuan saying this, he has no right to be angry now.

"I know what you mean now. What I promised you before, I regretted it again, but I really can't help it. Those people threatened us. I believe you should also know that the Americans have landed on our shores."

Regarding this matter, I would rather not want to interfere at all. It is their own internal problem. Both parties want to take advantage of cooperation. They think they can easily report to the thigh of the United States, but the United States just wants to use them as a stepping stone.

Now the president of country a regrets that he does not want to cooperate, but it is no longer his decision. Now the country of the United States is forcibly cooperating with him, and the people around him are replaced one after another.

"Do you know? I really don't want to do this. I promised to talk to you at the beginning, but I didn't expect it to become like this."

Qin Yuan was a little impatient, so he interrupted him, "Enough, I didn't come to listen to you, I just want to know this problem, how do you solve it?"

The president of country a gave a wry smile. That's right, it's useless for him to talk to Qin Yuan here. Qin Yuan now wishes to kill him directly.

"I know there is no other way, but if you can help me solve the threat of the American troops stationed here, then I can apologize to the whole world and you Yan Country."

The president of Country A has thought about it for a long time. He knows Qin Yuan's ability. He can come and go freely in this place by himself, and their troops are also very powerful. As long as the troops from Country A are not here, then he will have no worries.

Qin Yuan looked at the President of Country A in front of him, walked over, and pushed him on the stool, "You are really funny, what do you think of yourself, I am here to let you solve the problem, not to help you To solve the problem, just an apology, let me do these things for you, what are you thinking?"

"Mr. Qin, I know that I am very unworthy of saying these words, but in addition to apologizing, I will provide Yan Guo with 10 million tons of rice, cotton and steel."

Qin Yuan quickly calculated in his head when he heard this, his output is not small, according to the current output of their Yan country, they only have an output of 50 to 60 million tons a year.

In this way, they can still make a small profit. Apart from apologizing, it's really good to get some cash from him.

The president of country a was worried that Qin Yuan would not agree, so he hurriedly said: "There is also our oil. Although I can't give away oil for free, I can give it to you at a price 30% lower than the market price."

The corner of Qin Yuan's mouth rose, and he walked over and patted him on the shoulder, "Mr. President, what you said is wrong. What do you want me to deal with? That is the elite army of the United States, with as many as 500 people. "

"But it's really all I got out, you know we can't empty everything out now, can we?"

"That's your business, all of this is caused by you, and I don't have to agree to your conditions, but you have to apologize. It's not you talking to me here, but me talking to you."

The president of country a was completely stunned. He didn't expect Qin Yuan not only to be powerful, but also to think too fast.

He slumped on the stool and thought for a while. What Qin Yuan said was indeed reasonable, and it would be worth it if he exchanged these for the peace behind them.

"I can solve the previous problems, but I have to discuss the latter with others. I can't do so many sets by myself, so can you give me some time?"

"I will give you three days at most, and I will come again in three days, but you'd better not play tricks on me, otherwise I can visit you here often, but I can't guarantee that we will be so polite next time."

The president of Country A nodded. Qin Yuan walked out of the secret passage ahead of him. When he came out, Qin Yuan had long since disappeared. Everything in the room remained unchanged from before, and the windows were closed tightly.

He didn't know how he thought of it, he was probably crazy, and he would even discuss these conditions with a soldier from the Yan Kingdom. If the other party recorded the recording and handed the recording to the country of Mi, then he would be finished.

But now he can't do anything about it. It's all forced by the Americans. He can only find a way to solve the immediate crisis. The American side is also the biggest threat. Now he is just using them, and this will be a long-term problem in the future.

At six o'clock in the morning, Liu Chengshan breathed a sigh of relief when he saw that he was already on the playground. The secretary next to him also felt that their chief was making too much of a fuss. Qin Yuan is now staying in their brigade every day, and there is no problem at all.

"Chief, I think you are thinking too much. Now that we have so many guards here, Qin Yuan really can't leave even if he wants to."

"I hope it will continue to be like this. Recently, all news has been blocked. Don't let this kid know the news over there. Now the external negotiations are still going on, but there is no progress."

Liu Chengshan was relieved, and Mr. Zhao over there was still wondering if what happened last night was a dream. The next morning he saw the helicopter parked on the building intact.

But there is no one inside In such a tall building, the door upstairs is also locked, how did that person get out? Mr. Zhao didn't dare to think about it at all.

After Qin Yuan came back, he was waiting for the opportunity. Now the outside world has nothing to do with him. Three days later, she can go to find the president of a country. It is not a big problem to solve those teams from the United States.

It is worthwhile to be able to rely on one's own ability to exchange for an apology and so many supplies for the country.

Qin Yuan was in a very good mood. In the afternoon, he went to play chess with Liu Chengshan. He was somewhat confused about what Qin Yuan was thinking. He was so impulsive before, but now he can calm down.

After three days like this, Qin Yuan was more familiar with the road this time, took the key, and then went directly to the roof to drive the helicopter. If there is no accident, if the other side agrees, tonight is the time for him to slaughter.

He had just boarded the helicopter when he heard a beep from the system.

Chapter 1125: The group of five hundred people was wiped out!

"Ding! The host triggers a mission, and the mission prompt: Every time you kill a militant of the Mi Army, you will get 1,000 merit points!"

Qin Yuan's eyes lit up instantly when he heard the prompt from the system. This is a good deal, and according to the situation, it is estimated that there will be no problem in talking with the president of country A, because the system has already triggered the prompt .

The president of Country A had indeed made a decision very early on, but he didn't know how to contact Qin Yuan. Qin Yuan said at the time that he would come back in three days, and he had been waiting anxiously.

Just when he lifted the coffee cup on the table, he heard a slight movement, raised his head, and saw that Qin Yuan had turned in from the window, and then Qin Yuan made a silent movement.

The president of country a walked over and said in a low voice, "Why did you come in through the window again? Today, for safety reasons, I have withdrawn all the bodyguards outside."

Qin Yuan shook his head, the matter is not that simple, there are still people outside.

"Now you drop the cup on the floor."

The president of country a looked puzzled and didn't understand, but he still did what Qin Yuan said.

Just as the cup fell to the ground, suddenly the bodyguards outside the door rushed in. Qin Yuan saw the timing and immediately dealt with the two bodyguards who rushed in.

There was only a smell of blood left in the air, and the president of Country A didn't recover for a long time. In just the blink of an eye, the first person on the order turned into two corpses.

His heart was even in his throat. Fortunately, he didn't do anything to Qin Yuan before. This person is really terrifying. These bodyguards were all brought in by those Americans. They have experienced many battles and have tested themselves before.

Unexpectedly, it was solved by Qin Yuan in the blink of an eye.

Qin Yuan put the knife away, and then said, "Stop standing there, come over and help drag the corpse to the side, and I'll deal with the people outside."

The president of country a pointed to himself with a puzzled expression, "You mean to let me touch the corpses of these people, are you right?"

"If you really want me to do those things for you, it's best to do what I say. I don't want those people to be aware of it in advance, so I have to solve all of them."

The president of Country A was sweating all over his back. He didn't dare to imagine how much commotion would be caused when everyone was dealt with, but now he didn't dare to refute at all, and could only do what Qin Yuan said.

Qin Yuan walked out of the room in a flash. The president of country a could only suppress his nausea and dragged the corpse on the ground with all his strength.

A few minutes later, just as the president of Country A came out of the room, he saw Qin Yuan coming in dragging two corpses from outside.

"There are still two people outside, you go and drag them in."

It was the first time for the president of country a to do such a thing, and he became more and more afraid of Qin Yuan. He didn't know how this person did it.

After finishing the treatment, Qin Yuan pointed to the dead body on the ground and said, "These people were all sent by the country of America to monitor you. Now that I have solved it for you, shouldn't you thank me?"

"Mr. Qin, I didn't expect your skill to be so good. Before that, I specially applied for the strength of two small teams for you."

"These are not important, you talk about your plan first, I know you should have thought it through now."

The president of country a nodded, and then took out a document from the room. This time, not only his name was signed on the document, but also those of several other military chiefs and the vice president.

This document is enough to see their sincerity. This time, even if they want to pour dirty water on Yan Guo later, they can't help it. With this agreement, so many people can't be coerced right?

"I hope that this time I will help you solve these messy things, so that you don't go back on your word in the future."

"Mr. Qin, I'm really sorry about the previous incident, and there's nothing I can do about it, so we really hope that you can harass the troops stationed by the rice army and find a way to get them to move out."

This time they also sent two small teams to cooperate with Qin Yuan, "By the way, Mr. Qin, it's just this time, I hope it can be kept secret, I don't want them to know that it's our people and your identity."

"Of course I do, but there's no need to send out your two teams, I can do it by myself."

The president of country a was stunned when he heard this. He looked at the agreement and saw that there was nothing wrong with it. "Mr. Qin, are you dissatisfied with any point in the agreement? What I promised before will definitely not be less."

He witnessed Qin Yuan's strength tonight, and felt that it was all right, and what he promised before was worth it, because the continued presence of these rice troops would have an impact on them.

Qin Yuan just waved his hand coolly, "Others can't keep up with my speed and will only drag me down. I will solve this matter perfectly for you, and you don't have to worry about the rest. Be ready for what you promised things will do."

"But you alone, can you really do it?"

"What I do is to be seamless. You probably didn't mention my identity to those two teams."

The president of country a shook his head repeatedly. How could he say this one, "Mr. Qin, don't worry, only I know about this matter, and I haven't disclosed it to others."

"That's fine. You can deal with the corpses in these rooms by yourself. You don't need to worry about the rest, and I don't need to worry about them. Everything will come to fruition tomorrow morning."

To be honest, the president of country a still has a lot of doubts in his heart. Although he saw Qin Yuan's skills just now, he wanted to directly deal with his army of 500 people. How could this be possible?

Faced with such a large number of people, what the president of country a is talking about is just brainwashing and making them feel threatened.

He couldn't guarantee the success of this incident, but Qin Yuan's attitude was very firm, and there was no room for him to refuse, so he left directly.

After a while, the vice president also walked into the room, and when he saw the messy corpses on the ground, he was completely stunned.

The president of country a didn't explain anything, he just sent someone to deal with these corpses secretly.

"Sir, are you really going to do that?"

"This is our only solution, but I am also hesitant now, he only has one person, can it really be done?"

"Ah? What about the team we arranged before? Doesn't he even need it? Who is this person?"

"I need to keep his identity secret. Now I don't know how he is doing. He didn't even ask me for any weapons."

The vice president was completely stunned when he heard this. He felt that their president must be ill. "Sir, why didn't you discuss such a big matter with me?"

Because he felt that it was very possible that the mysterious person mentioned by the president of country a was deliberately sent by the US side to obtain evidence.

Now that the agreement and those lists have been signed, there is no room for maneuver.

The president of country a was also a little tangled for a while, he didn't know whether the decision he made was wrong or right, but it was too late to say all of this now, because Qin Yuan had already gone out.

"Enough, it's useless to say these things now, I still choose to believe him, look at these corpses on the ground, he also dealt with them for us."

"But maybe this is his strategy. What if they use these corpses to threaten us? Instead, they splashed dirty water on our heads."

The president of country a shook his head, "Now that things have become like this, there is no way to make other changes, just let it develop, take one step at a time."

The atmosphere in the room was very embarrassing. The vice president just thought that their president was too crazy to sign an agreement with others casually. Up to now, he still didn't know who that mysterious person was.

On the other side, Qin Yuan has already arrived at the territory where the Mi Army is stationed, not far from the Mi Army camp, about 3km away is the Marine Corps.

No wonder the old guy is so anxious, this is a mouthful of fat, if there is any problem, he can eat his marines in one mouthful, first restrain,

It is already 1 o'clock in the morning, and the guards of these rice troops are very lax. They have no threat in this place, but they are very comfortable.

Inside the camp, someone could still be seen setting up a stove and having a barbecue. Three heavy fire points were placed at the main entrance, but it was just a matter of a few people, which was not a threat to Qin Yuan.

What Qin Yuan wants to do is not to harass. He wants to get rid of these rice soldiers. Not only can he get merit points, but he can actually drive these rice soldiers away.

He lay on the opposite **** and looked at their military flag. He was very familiar with this team. He had heard of it when he went to participate in special training. It seemed to be some trump team in their country.

Qin Yuan smiled, what he wanted to play was these so-called trump cards, to kill all their elites.

The positions of the several firepower points were different, Qin Yuan planned to use playing cards to solve the problem, when the sentry in front just turned around, he heard a slight movement.

Looking up, he saw two soldiers with heavy firepower falling down. He didn't take it seriously, thinking they were joking. After all, he heard the sound of the two soldiers falling down, but nothing else.

In the next second, he felt a stabbing pain in his chest, and when he looked down, blood oozed out instantly, and another poker card directly passed his throat, and he couldn't make any sound, just fell down like this on the ground.

Qin Yuan's speed is very fast, he must rush back before 6 o'clock, to be safe.

Usually he doesn't like to use guns, but now in order to do other camouflage, he has to use guns to eliminate the two heavy firepower points in front.

He picked up a submachine gun, rushed directly to the innermost part, and fired at the soldiers who were grilling and dancing.

The two snipers on the roof noticed the anomaly and were looking for the target, but Qin Yuan was faster than them, and threw two grenades straight up.

The Mi Army was stationed in the camp, and the movement here quickly attracted the attention of the nearby Marine Corps, but they received orders in advance, no matter what happened to the Mi Army, they could not act rashly.

The captain of the marine corps had been holding his breath for a long time. Although he didn't know where the mysterious power was invited from above, he hoped to teach those people a lesson no matter what.

Regarding this matter, everyone remained silent. After all, there were 500 people there, and it was not their turn to support them, and at most they would suffer some injuries.

The gunfire lasted for more than an hour, and finally stopped. No one from the Marine Corps dared to go up to check the situation. The entire camp of the Mi Army was in a mess and very quiet.

The gunfire finally stopped, and they should put on a show, pretending to rush over, but they didn't see anyone coming out to greet them.

After entering, they were completely shocked by the scene in front of them. There were corpses everywhere. The tents of those lost soldiers had been burned in pieces, and countless corpses fell into the sea of flames.

The captain of the Marine Corps of Country A squatted down to check the situation. These soldiers were shot in very accurate places, all of them were between the eyebrows and the heart. They didn't show any signs of struggle, and almost no one was alive.

This situation is really surprising. In just one hour, 500 people were like this, and the group was wiped out!

The captain of the Marine Corps, if he hadn't seen it with his own eyes, wouldn't believe his eyes at all. His hands trembled slightly, and he rarely saw such a **** scene. It was like **** on earth.

When the president of country a received the call, his face was also full of shock, because what he reported to him was that the rice army stationed on their side had been completely wiped out, and no one survived.

He looked at the vice president in front of him and couldn't say anything, it was too scary, it was killing God.

"You know what? I asked him to just harass and teach them a little lesson, but he killed everyone there."

what! !

The vice president was also shocked. This is not a trivial matter. Soon the Mi Army also received news. This is their elite army, and it was attacked in country a.

Such a big thing happenedGao Shiwei received a call in the middle of the night, and immediately contacted Liu Chengshan.

Liu Chengshan ran towards the dormitory without even putting on his clothes. He was worried that it was Qin Yuan, but when he rushed to the dormitory, he saw Qin Yuan get up sleepily and open the door for him.

"Chief, what are you doing? I'm sleeping soundly."

Liu Chengshan looked puzzled, it wasn't Qin Yuan! And looking at it like this, how could he come back in such a short time, plus there was a team of 500 people, no matter what, it was impossible for Qin Yuan to do it.

Liu Chengshan just said lightly, "There is a problem with the Mi army stationed in country a. I just came to see your situation, mainly to tell you."

"There is such a good thing. I think it's probably because they dog eat dog. It should be that they sent someone to mess with Mi Jun."

Liu Chengshan kept looking at Qin Yuan. This kid didn't lie, he seemed to be really sleeping.

Chapter 1126: things take a turn for the better

Then this is too strange. According to the latest news from country a, the soldiers of the rice army stationed on their side were completely wiped out.

Qin Yuan yawned, "Chief, I see what's going on, let's talk about it tomorrow, anyway, they've already started a fight, and there will definitely be an investigation result."

"Okay, then go on to sleep."

Liu Chengshan was a little puzzled, this was so strange, he couldn't figure it out, so he quickly called Gao Shiwei back after he came out, and Gao Shiwei was also waiting for the call.

"How's the situation? Is the kid there?"

"He was sleeping well, but he was disturbed by me. I think we really thought too much. Maybe he didn't have this idea. Besides, how did he get over in such a short time? It can grow wings and fly over No."

Gao Shiwei couldn't believe it, and he asked repeatedly: "Are you sure you saw him in person? You just heard his voice or something else."

"Oh, you old guy, why can't you even believe me? I said it was him. How could I be wrong? I'm more anxious than you about such a big matter. "

After hanging up the phone, Gao Shiwei also couldn't figure it out, so if it wasn't Qin Yuan, who did this military operation?

Now they don't know much about the situation. If a 500-man garrison can be wiped out in a short period of time, there is only one possibility, and that is that they used large-scale heavy weapons.

But if large-scale weapons are used, they should all be aware of it. There is no detection on the border closest to them, and their radars have not detected any traces of heavy weapons.

Just after dawn, Qin Yuan came to Liu Chengshan's office. At this moment, Liu Chengshan had two dark circles under his eyes. He didn't sleep well last night. He didn't know who planned this.

The main problem now is to worry about whether this matter will have something to do with them again? Now the relationship between the two countries is already very bad.

If country A directly makes a fuss about this matter, it will be more troublesome, because things will really become more and more complicated when the country of the United States is involved.

Seeing Liu Chengshan's frowning face, Qin Yuan poured him a glass of water, "I said chief, it's useless for you to be so frowning, and we didn't fight."

"Wait, this is not in line with your kid's style. You don't usually say that. Tell me honestly. Does what happened last night have anything to do with you?"

With Qin Yuan's military accomplishment, how could he not know the relationship? Now that there is a problem with the Mi Army, it is very likely that someone deliberately provoked it. They are mainly worried that this matter will implicate the Yan Kingdom.

Qin Yuan said with an innocent face: "Chief, this hat is a bit too big. I did have that idea before, but you said before that you want me to put the overall situation first, and I didn't do it. Besides, How do I get there? You have so many guards here."

"You brat, you were the first person I suspected last night. If it wasn't because you were in the room, I would really drag you here for a good interrogation."

Qin Yuan chuckled, and then said: "Chief, can I go back now? They are fighting over there, and it is estimated that we will solve the matter soon, and they can't take care of me."

It's really useless for Qin Yuan to stay here now. Country A has become a mess. They guessed that it was too late to deal with their own internal affairs, so they waved their hands.

"Okay, you brat, stay with me for such a long time, leave as soon as you say, get out of here, I don't want to see you."

"Hey, Chief, then we will see you next time."

Moreover, they sent a special car to send them back. Qin Yuan was humming and crossing his legs along the way. He was checking at the moment. He got the merit points yesterday. This is the fact that the 500-person system has finally reached a state of exploding. Finally the system underwent another upgrade.

Now after the upgrade, he can also perform inspections on people like his daughter who are born with their own system, and it will not harm his daughter's body.

This is something to be happy about, and this time I got so many merit points, I can improve everyone's abilities when I go back.

The driver driving next to him looked at Qin Yuan and said with a smile: "Captain Qin, when you and I came here, we really had two faces. When we came here before, I never saw you smile. I am in such a good mood when I go back today." .”

"Hahaha, of course. After all, there is an old saying that the golden nest and the silver nest are not as good as our own old nest. It's hard to go home."

Qin Yuan also joked with the driver next to him. It was better for him to settle the matter this time, and the president of Country A promised that her things would arrive soon.

After going back, Gao Shiwei didn't believe him, and even questioned him, but Qin Yuan kept an innocent face, saying that he didn't know anything.

Moreover, there seemed to be no movement in country a. The thing that they used to bring Yan country's special team into their country every day suddenly seemed to disappear, and no one talked about it anymore.

The most uneasy thing right now is the US side. This time they sent an elite team of 500 people.

Unexpectedly, they died inexplicably on the territory of country A. Their top officials personally led a team to investigate, but found no traces, no heavy weapons, and all the guns and ammunition they used were their own of.

Looking at the corpses all over the ground, the top official on the US side roared angrily, and punched the sandbag beside him.

"They're all a bunch of trash, how many people there are? Could it be that there is no reaction at all, this is the elite we have selected, but who is so courageous?"

At this time, a subordinate next to him came over with the autopsy report, "Sir, the practice report has come out, but the result is different from what we imagined, no foreign weapons were found, all of them are guns used in our camp ammunition."

"How is this possible? Could it be that the other party just dealt with the sentries? Judging from this situation, they must at least have the same number as us. How could such a dense group of people only use our weapons."

The situation at the scene looked like they were killing each other, and all the ammunition was their own.

The top officials of the United States felt that to be able to achieve this level, at least the number of them must be right. Of course, there were no traces at the scene, as if only their own soldiers left behind.

They investigated for a whole morning, but found nothing. The president of country A pretended to send a few military staff officers to assist them in the investigation.

Not far from them is the marine corps of country a, but none of them did any rescue.

The highest military officer of the United States grabbed the military officer of country A in front of him, "What's going on? Come and sit with you for up to 15 minutes, but why didn't you report and didn't start any rescue for us, just watch like this Are they attacking us?"

This military champion can't stand them for a long time. Anyway, something happened to their team, why put this responsibility on them?

"Sir, I don't agree with what you said. We didn't hear too many gunshots, and we didn't hear too much movement. We thought you were conducting a military exercise."

"What! Are you talking about military exercises that directly take people's lives as a joke? I think you definitely did it, and then pretended to be other militants."

As soon as this sentence came out, the atmosphere at the scene became quite tense. The troops stationed in country A were also innocent, and they really didn't hear anything.

After investigation by these Americans, they felt that the team that could eliminate 500 people would definitely not be less than 50 people.

With such a large number of teams, the Marine Corps is on the side, but they didn't find anything, which is absolutely inseparable from them.

However, country A is not worried at all. Their president even said that they can investigate the surveillance around them at will, including all their records, and they can transfer them at will.

Because he believed in Qin Yuan, since Qin Yuan alone was like killing a god, after killing 500 people, he was completely admired by Qin Yuan.

Miguo is constantly putting pressure on him, and he is also in a difficult situation. Now that he has Qin Yuan, he is not afraid anymore. These guys always like to come secretly. If there are any problems in the future, they can ask Qin Yuan to solve them.

So he didn't even show up now, and he didn't bother to talk to these Americans, so he let them toss by themselves, and nothing would be found out anyway.

On the contrary, he has to rush to prepare what he promised to Qin Yuan. This deal is definitely not a loss for him, and there may be many opportunities for cooperation in the future. to describe.

Thinking of this, I felt cold sweat on my back. If I hadn't agreed to him at the beginning, I might have been decapitated by now. This person is too ruthless in doing things, and he has his own judgment.

The deputy prime minister trotted into the office all the way, "Sir, don't we come out to help those Americans solve this incident now?"

"Why assist them? Now we have more important things to solve. Their people are doing whatever they want on our territory, but they are shot by a group of militants. We don't know about it. It has nothing to do with us."

"Sir, this may not be very good. If they pursue this matter later, we will not be able to offend our two countries."

The president of country A snorted coldly when he heard this. He has endured it for a long time, and he endured it every time, but the result in exchange is that the country of the United States made progress, including this time.

So this time he doesn't want to bear it anymore, he wants to take the initiative to attack and teach these Americans a lesson, because now he has Qin Yuan.

Although the vice president didn't understand why their president suddenly made such a decision, according to the current situation, at least it solved another problem for them.

Anyway, it's fine if they don't admit it. Those Americans are powerful, so let them investigate casually.

As soon as the military chief of the United States was in their camp, he even personally participated in the investigation. He couldn't believe that there was no trace at all. What kind of team could do it.

At this time, a helicopter slowly stopped in front of the camp, and the military officer took a closer look at the few people who got off the helicopter, and it was the mysterious man wearing a mask from before.

This man has a great background. Anyway, his status in China is relatively high. Basically, many things that involve his presence are decided by them.

But the military chief didn't want to miss this opportunity. He had to figure out what was going on. The team of 500 people sent to station this time was entirely selected by him, and each of them could be said to be an elite.

The masked man stepped forward and just casually glanced at the wounds. These wounds are very uniform, and they all hit the heart and head, leaving no room for resistance.

There is only one person who can achieve such precision, and that is Qin Yuan, and there is no trace of it. Everyone's hit position is the same, and only he can do it.

He originally wanted to win Qin Yuan over, but it seems that he can't wait for that day. Qin Yuan is completely against him now. His factory has been destroyed by Qin Yuan all the time, and the soldiers stationed now. I don't know how big it will be.

He sighed silently. If he had known this was the result, he should have controlled Qin Yuan from the very beginning and would not let him develop like this.

The current situation is completely out of control. This trouble was created by them, and he also wants to solve it here.

He took out a black medal, which is the unique symbol of their celestial organization.

"Now you can take your team to evacuate. There is no point in investigating here. Let it be handed over to our organization. We will clean up the remains of these soldiers."

The military chief was somewhat reluctant, but this masked man was very mysterious and had a great background. He didn't dare to provoke him too much.

They could only accept the medal and leave silently. Many soldiers couldn't understand why their highest officer was so obedient in front of them.

The masked man saw that they had left, and then called out his people, "Dispose of the bodies of these people, and then send a message to the headquarters. I will implement the plan as soon as possible."

Only he can solve this trouble, but Qin Yuan has already thought of many ways, this guy's life is really too big.

On the other side, the president of country A was planning those supplies, and he received a report from someone outside that someone from the United States came to him.

The president of country A is very busy now, and it is not that simple to raise these materials.

"How do you do things? I said that I will not see anyone from today, especially Americans."

However, in the next second, a voice sounded from outside, "Oh, Mr. President, have you forgotten our meeting before?"

Chapter 1127: being threatened

The president of country a turned his head and saw a man wearing a mask. His right hand was involuntarily clenched. Every time this guy comes, he always gives people a sense of oppression, and he came with that agreement before. of.

The bodyguards behind rushed up, and the deputy prime minister also scolded: "Who are you? Who let you in? Without our permission..."

Before he finished speaking, the masked man made a silent movement, and then the two people next to him shot. The man with the tattoo on his side was a master fighter with a system, and he shot the two bodyguards behind him instantly. All down.

It was obvious that they were here to make trouble. The deputy prime minister was very angry and didn't pay attention to them at all. He yelled for people from outside to come in, but there was no response, except for the two bodyguards who came in just now.

The president of country a seemed to have seen through it. He waved his hand and asked the deputy prime minister to stop talking.

"Stop yelling, those people outside are probably already taken care of by them."

what! The deputy prime minister looked surprised. There were too many things that shocked him in the past few days. One after another, the Mi Army was completely disintegrated by a mysterious armed force.

Now this mysterious man wearing a mask just took two people with him, dealt with all their bodyguards, and came to their office, just like his own home.

The president of Country A seems to have gotten used to it a long time ago. Qin Yuan also came and went freely like this before. He is very clear about the strength of the people here.

The masked man didn't care too much, just walked over and sat on the sofa with his legs crossed.

"Mr. President, don't worry, we are not here to make trouble, but I just want to ask you a few questions."

Just like that, he didn't come here to make trouble, and he solved all the security here. It's not surprising that the deputy prime minister has been enduring the president of country A by his side, and Qin Yuan was like this before.

"Then just tell me what you want to ask, I have other things here."

"Hahaha, what a big tone. It seems that someone should have given you the confidence. You wouldn't dare to talk to me like this before."

The deputy prime minister didn't get used to him patting the table and stood up, "What do you mean? Let me tell you, immediately apologize to our Mr. President, even if you are from the United States, so what? You are our border. "

The masked man burst out laughing after hearing this, and didn't make any other response, the laughter was full of sarcasm and disdain.

"You bastard, what are you laughing at?"

The person next to him wanted to do something, but was stopped by the masked man, "Don't think about these fights for a day, we are all civilized people, and we are here to solve the problem."

"Yes, sir."

The president of country a has been staring at him coldly, "What do you want to do? I don't quite understand what you mean."

"No, no, from what you said just now, I already understand that it should be that guy who came to you, right? Including the troops we stationed over there were also made by that guy. From what you said, I already You know, it's useless even if you don't admit it."

To be honest, being directly recognized by someone, the president of country a was really flustered for a while, but he was still pretending to be calm.

"I don't know what you mean, and I don't understand it. I just said it very clearly. If you have anything to say, just say it. There's no need to go round and round."

"Then I'll just say it directly. If you think he is your protector, you are too naive. The power behind us is beyond your imagination. You will pay the price for this wrong decision you made, but it is not Now."

"Are you threatening me? Do you know the consequences of threatening the president of a country?"

The masked man smiled disdainfully, then stood up and left without showing any face, "I came here today just to verify this matter, it seems that that guy really cooperated with you, which also means that you are completely with us Standing on the opposite side."

The deputy prime minister didn't react until the masked man went out. This guy is so rampant, he can leave and come whenever he wants.

It was only after they went out that they found out that they had taken care of all the security guards, and it was done quietly. The president of country A only felt that he had failed too much, as if no matter who it was, he came to this place whenever he wanted. You can leave if you want.

The deputy prime minister didn't understand very much. He didn't know what the two people said between them, and what happened during this period of time. It seemed that everything was going in an unfavorable direction for them.

He let out a long sigh, and then looked at the president of country a who was slumped on the sofa, "Mr. President, what's going on now? Can you explain it to me? This feeling of ambiguity makes me really It's very insecure and I don't even know when they're going to target us again."

"Well, you just need to know that I will not do anything harmful to this country. Everything I do is for everyone, for everyone, and you should understand."

"I saw your list. So many things are going to be sent to Yan Country. Is this also for us, but there is no need to do those things between us and Yan Country. Doing so will completely offend the United States."

The president of country a smiled helplessly. Even if they don't do this now, they have already offended the country of the United States, and the country of the United States will not let them go.

In comparison, the country of Mi always likes to use some ruthless tricks behind the scenes, so this time he also made a decision, he chose Yan country completely, and he chose to believe in Qin Yuan.

"No matter what I do, it's my decision to make, rest assured, everything will be fine."

The deputy prime minister knew that what he was asking was meaningless. He had already made a decision, and it had been passed in the previous discussions.

Judging from everyone's decision, most people still choose Yan Country for Mi Country and Yan Country.

In this way, there was no statement of condemnation from the United States, nor any news, and the bodies of their soldiers were silently transported back. There has been no response to this matter.

On the contrary, country a started showing favor to Yan country with great fanfare. The agreement they signed before, all the items in the agreement have been fulfilled. Gao Shiwei was very shocked when he heard the news.

The sudden gesture of favor from country a caught everyone by surprise. Before, they claimed to demand all kinds of condemnation, and they backfired. Now their attitude has turned 180 degrees.

It seems that everything has changed since the garrison of the United States was attacked. However, until now, the two of them have not given a clear statement, only saying that they were attacked by an unknown militant.

Gao Shiwei always felt that this matter had something to do with Qin Yuan. He found Qin Yuan again, "You better tell me the truth now, what happened? You must have done this."

Otherwise, such a large-scale investigation by the United States and country A would not reveal anything, how is this possible?

Only Qin Yuan and Gao Shiwei knew this soldier so well that there was no trace. He couldn't just swallow his anger like this.

Qin Yuan sat opposite and smiled, "Captain Gao, no matter what the current result is, it is beneficial to us. Isn't it great that we can get so many things?"

"You boy, don't change the subject for me. Did you do this thing?"

"Team Gao, we shouldn't worry about the process now, but only need to know the result. No matter what, the result is always good, and we don't have to worry about it in the future."

Hearing this, Gao Shiwei understood. Although Qin Yuan didn't give the exact answer, it was definitely him, and no one else would have this strength.

The team of 500 people was completely cut off overnight by this kid, and neither of them noticed anything.

Gao Shiwei broke out in a cold sweat, how did he do it?

Before, he knew that Qin Yuan was also very capable. After all, the title of God of War was well-deserved, but he was able to resolve the battle in just a few hours, and came back from one side without being noticed by anyone.

This was simply unbelievable. At one point, he even wondered whether Qin Yuan had raised his own private soldiers outside, otherwise, how could it be possible to come and go so freely, and solve a team of 500 people in a short period of time.

But as soon as this thought came up, he shook his head. This kind of thought was too extreme, and Qin Yuan would never do such a thing.

As Qin Yuan said, everything has already happened now, and it is useless for them to hold back the previous process.

It's just this matter that Gao Shiwei couldn't calm down for a long time. How strong is Qin Yuan?

After returning, Qin Yuan was not idle either. Now he has a lot of merit points in his hands, and he can slowly give blessings to the team members, especially Qin Zhengyang, who came later.

In addition to training, Qin Yuan also quietly contacted a person, Wells who was with the masked man before.

This guy hadn't contacted him for so long that he almost forgot about it. Wells also put this matter behind him. He is still in charge of the biopharmaceutical, and since Zhang Meng was rescued by Qin Yuan, he has been working in Longxiao. Yun over there.

Wells was drinking alone in a tavern. At this time, he noticed someone walking by, and he was very impatient. Since that incident, he has been very disgusted with other people's contact.

He directly took out a piece of money from his pocket and threw it on the table, "There is someone here, get out!"

But the other party was still unmoved, he was a little angry, just when he raised his head, he saw a familiar face.

Wells was stunned for a moment. He didn't expect it to be Qin Yuan. At this moment, this guy dared to look for him. He hurriedly tried to observe, making sure no one was paying attention, and pulled Qin Yuan up.

"Good guy, you dare to come here, you know? Everyone is looking for you now."

"Hey, is there any place I don't dare to go? I see that you have forgotten the agreement between us? It seems that you have been living comfortably during this time."

Wells was a little nervous, he told Qingyuan to stop talking, there were too many people here, and then he took out a piece of money to the bartender and asked him to lead them to a separate private room.

After entering the private room, Wells slowly told what happened. It turned out that since the soldiers of the Mi Army stationed in country A were massacred, Qin Yuan was wanted everywhere first among them.

It's just a pity that Qin Yuan has always been inside the Yan Kingdom, and they have no chance to do anything, but now the arrest warrant has been issued to the whole organization.

Hearing this, Qin Yuan just smiled disdainfully. There are too many people who want to kill him. Before that, he was included in the killer version. Up to now, no one has dared to take this list.

"I never cared about these things, but what are you thinking about now?"

"What else can I think about? Of course I agree with you. After I come back, I won't be reused at all. It's still the same as before. I thought that I should be valued if I solved Zhang Meng, but I just thought too much."

When Wells said this, he sighed helplessly. His ability can be regarded as dispensable, and sometimes it is very tasteless.

"I'm not interested in those. Since you choose to cooperate with me, you have to come up with something meaningful. Where is that guy now?"

"He is very mysterious. I don't know his whereabouts at all. Every time he is coming, he will be notified 15 minutes before."

This masked man is really becoming more and more cautious now. Even if he clones people again, he will not be able to make so many clones in a short time, and was killed by Qin Yuan again and again.

However, Qin Yuan still got another news from Wells, they seem to be implementing some kind of plan b now.

"I don't get much information in my capacity. I only know that it seems to be about your group. I only know this superficial news, and I don't know the specifics."

It's related to his own group Qin Yuan couldn't think of what the masked man wanted to do for a while.

Wells also kindly reminded, "Anyway, during the recent period, you should pay more attention. There is now a huge system being studied within the organization, which seems to be able to target your recycling system."

In contrast, this is important news. It seems that these people have been completely **** off by themselves, and now they can't wait to do it.

In return, Qin Yuan also gave Wells a little ability enhancement, and patted him on the shoulder casually. Wells really felt that he was different.

It's too easy, Wells looked at Qin Yuan in shock, "You guys are really scary, you killed the 500 people before, and now you give me the ability so easily, I can't believe it." Doubt your system, is it really so against the sky?"

"It's not against the sky, haven't you seen it? So this is the benefit of cooperating with me. As long as you cooperate with me, I will give you the ability you want."

This sentence has been said very clearly, Wells seems to have made a decision, he nodded.

Chapter 1128: Is it an accident or a conspiracy?

"Don't worry, now I know you won't hurt me, and I won't let you give me anything you gave me. I will go to find out the news, but it may take a few days."

"Yes, you may need a few days to give me an accurate time, and I can't stay here for a long time."

Wells thought about it. Now if he wants to enter the organization to inquire about news, he can't expose himself. Anyway, it will take at least three days.

Qin Yuan said that there is no problem, three days would be enough time.

When the two talked about parting ways, Wells suddenly said, "In this place, you'd better abide by the rules. This is not Yan Country."

Qin Yuan smiled, for him, everywhere is the same, as long as he wants to go, there is no place he cannot go.

He couldn't trust Wells 100% completely. Now they are based on interests, so this relationship is very unstable.

There are many things that he still has to find out by himself. After Wells left the bar, he went straight to his residence. He had to find a way to get inside to find out the news.

It's just that he didn't realize that Qin Yuan followed him until he came out. Wells' anti-investigation ability is relatively strong, but Qing Yuan is not weak.

Qin Yuan followed Wells to an underground boxing gym. There are many places for black boxing like this in foreign countries, but everyone will bet along with them, basically there are no rules.

There is also a mix of people and dragons here. I didn't expect their organization base to be hidden in this place this time. What Qin Yuan learned before was basically some factories.

Qin Yuan lowered his hat and followed Wells into the room. There were many people in the boxing gym. Two people on the ring were fighting fiercely. The surrounding crowd were shouting loudly, because they all Bet was placed.

He noticed that Wells had entered the upper room, and there were guards at the stairs. After Wells walked over, he just took out a sign, and several people let him go.

Now Qin Yuan has observed that if he wants to go up, there are only other places at the top of the stairs, but this is too simple for him. Qin Yuan originally wanted to use time to pause so that he could go up easily, but on second thought, in case A place that will be useful later.

His ability sounds relatively strong, but it has a weakness, that is, the time interval is very long. After using it once, it takes a long time to use it again.

Now outside, especially Wells, this **** is too important, he doesn't want to be found.

Just like that, Qin Yuan went out, intending to see if there was a back door, so he could sneak in through the back door or the back window.

After walking out, there was a small alley behind, and Qin Yuan heard the system prompt just as he passed by.

"Ding! There are people with carrying systems within 100m of the host in advance."

Qin Yuan immediately reacted, he leaned against the wall and slowly approached, and as he approached, the system also gave a reminder that he saw a drunk person lying on his stomach in the deepest part of the alley.

As long as it is a person with a system, it is basically inseparable from the masked man. Qin Yuan only saw a black medal when he checked him, and nothing else.

This black medal might represent his identity, and then he sensed it, but he didn't expect that the system that the man possessed was the Dali system.

"Remind the array that the abilities of the array of this system seem to have been transformed. In addition to the vigorous system, there is also a fighting system, which seems to have been forcibly injected into the two systems."

Qin Yuan was a little surprised when he heard this. Can one person accept two systems together? Walking should be developed by the masked man and the others.

It seems that they haven't done nothing during this period of time, they have been doing big things silently, and they are still continuing this kind of research.

Qin Yuan didn't dare to act rashly, he just took out his mobile phone to take a picture, and then left. If he understood too deeply, he would be discovered by their internal monitoring system.

When he came over, he saw Wells had come out of it, and he quickly hid in the side alley.

Fortunately, Wells didn't find out, but Qin Yuan's discovery today confirmed one point. Wells did hide something from himself. As the person in charge of biological research, how could he not know about the new plan they implemented? .

For the next two days, Wells traveled around, mostly in various underground places. It seemed that this was their real channel.

Qin Yuan followed around and silently wrote down all these places. When it's time to come back later, clearing all these places can be regarded as a heavy blow to the masked man.

Three days later, Qin Yuan was waiting for Wells in the bar. After Wells came in, he walked straight from his side to the private room without making a sound.

After entering, Qin Yuan didn't rush to mention the previous things, but asked: "How is your investigation these few days?"

"I didn't find anything too specific, because I'm too embarrassed to inquire. At present, I only know that there is indeed a plan, and it will be implemented in a week. Anyway, it is aimed at your group."

This guy said it as if he didn't say it. Although he said that the time has been confirmed, but people are in the dark and they are in the light. It is not so easy to prevent it.

Qin Yuan casually changed the topic, "By the way, I have a photo here, I'll show it to you, do you recognize the person above?"

He said no problem, he nodded, Qin Yuan showed him the photo, the moment he saw the photo, his pupils dilated instantly.

"You killed him!"

"No, he was drunk himself, and then I found him lying on the side of the road."

Wells breathed a sigh of relief, and then he said nervously: "What does this mean? He usually only appears near the boxing gym, and I got you to follow me."

"Whether to follow you or not, you have to know what's going on, and don't try to hide it from me. He has two systems on him. You haven't told me about this, have you?"

Sometimes when I heard this, I was obviously stunned. He didn't expect Qin Yuan to know everything. He really wanted to keep this matter as his trump card.

He also wanted to give himself a way out, in case Qin Yuan was unreliable here, he could still rely on the face man to take the other side.

Qin Yuan stepped forward and punched him in the abdomen. This punch was directly powerful. Qin Yuan knew that this guy had an immortal body. Although he would not die, the huge pain was enough for him to bear .

Wells lay on the ground, clutching his stomach, with a painful expression on his face, "Don't do it, I know what you mean, but I also hope you can understand me, I have my own selfishness, it's because I'm afraid."

"Hehe, this is your choice. If you choose to be a loyal dog, you can only be loyal to one person. Your two-sided style makes me not trust you very much."

What Qin Yuan said was harsh, but it was also true. He stepped on Wells' chest.

"Remember, you have to take the initiative to report these things to me in the future. If I find out by myself and find out that you deliberately concealed it, I will not be so easy to talk to next time. You are just a pawn. I still have other people."

Wells lay on the ground and nodded, of course he understood that Qin Yuan had this ability.

Although they didn't get so much news this time, they still developed other new things on the side of the mask, and Qin Yuan had to be more vigilant.

After returning to the brigade, everyone found that Qin Yuan had changed. Before Gao Shiwei said there was any task, his team would rush to go.

But now Qin Yuan is just persuading and obeying the arrangement, he is very calm, but He Chenguang and the others can't sit still.

"Brother Qin, what's going on? Today's mission was taken away by their Wolf Warriors team again. This is not in line with our style."

"Don't be so anxious. Besides, we were the ones who carried out the tasks every day before. Now let them give them a chance to make meritorious deeds."

"But Brother Qin, this is not an opportunity to make meritorious service. It's been a few days in a row. Don't we have any missions?"

It's not that Qin Yuanlu thought of it, but since he knew about it, now he can only be careful to guard against the enemy in the dark, and he can only deal with it carefully.

If the thing was aimed at him alone, he would definitely not be afraid, but if it was aimed at the group, he must take precautions. These people are very despicable, and they don't know what methods they will come up with.

Qin Yuan just told everyone that they need training now, so they should not be so anxious.

It can be regarded as stabilizing everyone's emotions, but sometimes things will be interrupted by sudden accidents even if things are taken precautions.

The emergency assembly whistle sounded in the middle of the night, and everyone assembled quickly. This time, Gao Shiwei assigned the task directly. Generally, the task is relatively difficult in this case, so he will send the red blood cell team.

It turned out that several of their overseas Chinese in country f were hijacked by some armed elements, including local residents. Their mission was to rescue their own expatriates. Six hours have passed since the hijacking took place.

Qin Yuan and the others have only now received the mission. On the helicopter, Qin Yuan frowned. Why did this incident happen abroad? The previous matter has been weighing on his mind, making him feel a little uneasy.

Li Erniu next to him called him twice before he realized it.

"Brother Qin? I see why you are more nervous than us? This is not in line with your style. Besides, we have taken too many kidnapping cases like this, so there is no need to be afraid. "

What Qin Yuan was afraid of was not this at all, he was just worried that this was just an excuse, and it had been six hours since the kidnapping case appeared, why did the local authorities notify them so late?

Qin Yuan also expressed his doubts, "I hope that everyone will pay attention to this incident and stay vigilant. It has been six hours since the local government notified us. I always feel a little strange."

"This may be because the local area also needs to count the number of people. After all, it is not that simple to find our expatriates."

In this way, it seems to make sense, but Qin Yuan still told everyone to be more vigilant.

When they arrived at the local area, local soldiers came to pick them up. The leading officer in front was more polite, and they first expressed their apologies.

"Captain Qin is very sorry. This time it was our negligence in our work. It took us a long time to find out the information of those overseas Chinese."

"How are their expats doing now? Did the kidnappers send any messages?"

Qin Yuan didn't want to ask too many other questions, but only wanted to know the safety of those hostages.

"It's like this. After taking the hostages, we discovered those bandits immediately. Now, under our pursuit, they evacuated to a nearby tourist island and now occupy that island."

Tourist island? It sounds like a normal kidnapping, but all of this may be uncertain now, let's go and have a look first, and then talk about it later.

When Qin Yuan and the others arrived there, the local soldiers had already surrounded the island, but they needed to take a boat to get to the island, so no one dared to act rashly. After all, the hostages were in their hands, and those bandits even hijacked the island. people on the island.

Li Erniu couldn't help complaining, these people are too useless, after such a long time, they dare not even go to a small island.

"Brother Qin, tell me about the efficiency of these people. Isn't this a gift? It's been such a long time, and there is no progress at all. No wonder we are asked to come out."

"We will first find out about their armed forces, and then we will go directly to the island."

In such a kidnapping case, time is life, and as time goes by, the thoughts of the gangsters will also be changed, so they need to race against time to rescue the next person as soon as possible, instead of delaying time like this.

Although the periphery is surrounded by these soldiers, these people are very leisurely. The so-called negotiators are still drinking coffee and chatting.

Qin Yuan learned about the situation of the armed forces with the soldiers who first made contact.

Their armed group has about 15 people, carrying a heavy weapon, and all the others are assault rifles. During their pursuit, they were also found to have used explosive grenades.

In this case, it can only be regarded as a small armed force with only one heavy weapon, which is not worth mentioning in their eyes.

Knowing about the same, Qin Yuan took the team and prepared to go straight away. After the negotiator saw it, he ran over quickly, and there was also the captain in charge beside him.

Seeing that Qin Yuan was about to set off, they hurried to stop him, "What are you doing? We are still in the negotiation stage, and you will break the rules as soon as you come, so you go straight away?"

"We don't go directly to rescue the hostages, should we wait for you to drink coffee here?"

Facing Qin Yuan's questioning, the negotiator was not at all embarrassed, but said directly: "You have no right to doubt my profession, this is negotiating with them, what is needed now is time, if you start now, you will screw us up all plans."

Chapter 1129: Successfully landed on the island

This is also their way of doing things here. They generally focus on negotiation. If they can't fight, they won't make a move.

Including those local special police officers next to them, they were laughing and laughing, not serious at all, Qin Yuan frowned.

Li Erniu looked even more disgusted, "Brother Qin, I think these people are too loose, they don't have any organizational discipline, they just laugh like that."

Unexpectedly, Li Erniu's words were heard by the team members next to him, and one of them understood and walked over.

"Hehe, why are you talking about us here? Let me tell you that this place is not your country of Yan. We can do whatever we like. This is our style of doing things."

Qin Yuan wasn't used to him either, and didn't give him any face, so he just turned back, "It turns out that this is your style of doing things, and I have really seen it. With this little military strength and this little quality, it is indeed It's worrying."

"What did you say!"

All of a sudden, the soldiers from behind surrounded them, and the conflict between the two sides was about to erupt. At this time, the captain in charge rushed over.

The captain saw that it was Qin Yuan who had clashed with others, and took the lead in scolding his soldiers.

"What are these idiots doing? This is the captain of the red blood cell team. What do you want to do?"

Hearing the name of the red blood cell team, the soldiers were stunned. They didn't expect them to come so fast. They had already felt it within half an hour after they reported it. This is too exaggerated.

The soldier who was very arrogant just now didn't dare to say anything, and silently retreated to the red blood cell team next to him. Now he has a great reputation in the world, and they have all witnessed it, so no one dared to say anything more.

It's just that the negotiator came over, "Since you want to go in and rescue those hostages, we will definitely not stop you, but everyone must discuss a plan together, so we can't just let you come, right? Not only you, but also Many other people, even from other countries."

The captain also quickly smoothed things over. He took out the map of the island and pointed out the terrain problem here, because there are several watchtowers on the island.

He pointed to the watchtower and said: "The key to the problem is these few watchtowers. As long as there are ships in the vicinity, they can see them clearly, so they will have a great impact on our attack."

In addition, negotiators have successfully contacted the robbers on the island with walkie-talkies, and their only requirement now is to prepare 30 million US dollars.

There are so many hostages on the small island, it is definitely worth the price, and they also need a helicopter, but to put it bluntly, they are just delaying time.

For the captain's statement, I would rather not agree. He pointed to the watchtower, "According to what you said, wouldn't it be impossible to attack? Are we going to sit and wait like this? You have to know that the hostages are on the island now. With so many people, anything can happen."

"Captain Qin, this is also the reason I wanted to explain to you just now, that's why we spent so long making sure that your personnel are inside. The situation inside is very complicated, and as long as the ship is used for a while, they will definitely find it."

Qin Yuan snorted coldly, did they only think of using ships to solve the problem?

"Who told you that we were going to go there by boat? There are still about two hours before dark. After these two hours, I will take my team members directly into the water."

This sentence not only shocked the captain next to him, but also the soldiers on the side were stunned. This is too exaggerated.

From here to the island is a full dozen kilometers away, they just swam over like this, just kidding.

The captain hurriedly stopped with good intentions, "Captain Qin, it's not that I don't believe in your abilities, but that this situation is really not optimistic. Going from here is very risky, and it will also be a great test for your physical strength."

"Don't worry about this, I will solve this problem, and this is just a small training for us."

The captain was completely stunned. He even said that the distance of more than ten kilometers was just a small training.

Aside from this, the temperature difference between day and night here is huge. After the sun goes down, the temperature in the water is several degrees below zero. It is absolutely impossible for them to persist for more than ten kilometers.

But Qin Yuan and the others didn't seem to be joking at all, they were already warming up.

Qin Yuan is very confident about this. In the past, he could pass alone, but now the physical fitness of the members of the red blood cell team is different. He has already strengthened them with merit points.

For the sake of safety, he added two thousand merit points to each of them, mainly for physical fitness.

In this case, it will be foolproof, basically no problem, besides, they have indeed trained before.

But the people around felt that they were just joking. This was an absolutely impossible task, including the kidnappers on the island. It was absolutely impossible for anyone to swim over.

Several waves of people have come to persuade Qin Yuan, but they were all directly rejected by Qin Yuan. In the end, Qin Yuan became a little impatient and looked at the soldiers who were chattering beside him.

"I don't know what you think, but I can tell you very clearly that what you can't do, we can do. This is the red blood cell team."

These words sounded really arrogant. Some in the crowd were disdainful, while others were shocked. The captain wanted to say something, but was held back by the people next to him.

The secretary-general next to him shook his head at him, "You don't need to stop him. This is what they wanted. They are sure of this. We don't want to delay him."

"But this is not just a problem with their team. There are so many hostages on the island. If they are exposed, it will have an impact on the safety of those hostages on the island."

But the secretary-general just smiled. He wished for such a thing to happen. It just so happened that the red blood cell team was so arrogant that they could take advantage of this incident to frustrate their prestige.

"He said it himself. None of us forced him, and our negotiators told us to stay put, so we have no responsibility for what happened."

The captain frowned, why did the secretary-general speak like that? What he cares about now is the safety of the hostages on the island. Why is it that at this time, they are still pulling out those messy things, and they are still carrying personal emotions.

He ignored it, and the secretary-general stepped forward and said, "Captain Qin, I know I can't persuade you, but I can provide you with the best equipment. We have a set of the most advanced diving equipment for you to use." ."

Qin Yuan wasn't too polite with him, since it was time-consuming to spend time with them here, it's better to finish the matter and go to bed early.

"Thank you very much. Since we have such equipment, it can be regarded as adding wings to us."

The captain did not have any objections from other people, and then took out the equipment. This batch of equipment is indeed their bottom of the box, and their own team has not used it yet.

The soldier next to him was a little unhappy. He pulled the equipment with a look of reluctance, "Captain, we haven't used these things before, so why should we use them?"

"Idiot, how long are we going to spend here, why don't we let them go up and solve the problem quickly."

"Captain, what do you mean, can they really solve it? It's a bit impossible. There are so many hostages above, just relying on the strength of their team."

"What you haven't seen doesn't mean that people won't remember it. People still need to keep a low profile. We help them, but we also help ourselves."

It was getting dark gradually, Qin Yuan lay on the recliner next to him and yawned, he didn't need to worry about eating and drinking on the island, the food inside was fine.

After all, it was a tourist island in itself, and food like this was distributed normally. Basically, the supply of that kind of food could last for a week without any problem.

Qin Yuan saw the searchlights on the coast, and from a distance, he could only see some lights on the opposite island, but they couldn't see it unless they looked carefully on the sea.

"Okay, all the red blood cell teams are there, ready to go to sea."

Everyone was not ambiguous, and did some warm-up exercises again, put on the batch of equipment and prepare to go into the sea.

Most of the people on the coast are spectators. After all, the distance of more than ten kilometers, and now they just stand on the coast, can feel the sea breeze.

Everyone is more curious, can they really stick to the past? In this area, they can swim across, but when they get close to the island, they need to dive by themselves.

This kind of difficulty is also very great, and they have to carry equipment on their backs, and each of them weighs about 30 kilograms.

But they didn't have any ambiguity, so under the leadership of Qin Yuan, all the teams on the next floor set off. It can be seen that they usually have a lot of training, and there is not much movement in the water.

Including on the surface of the sea, they can still maintain their formation, with Qin Yuan leading the battle, and their people on the side and tail, forming a circle like this.

Because anything can happen on the sea, their formation is also more beneficial to them.

The captain on the coast prayed silently, hoping that Qin Yuan and the others could really succeed, otherwise everyone would really not be able to spend it anymore. The kidnappers sent another message, asking them to prepare money and helicopters as soon as possible.

They will only be given three hours in the end, otherwise they will start killing hostages as soon as the time is up.

The negotiator tried his best to calm the kidnapper's emotions, saying that 30 million yuan was being raised. In fact, Qin Yuan and the others were quite correct in making this decision.

Everyone silently put their hopes on Qin Yuan and the others, but Qin Yuan felt nothing at the moment, because his ability to withstand the cold was absolutely fine.

He turned his head to look at the other team members, and he was mainly worried about Qin Zhengyang, because Qin Zhengyang didn't dare to add too many merit points at once, and this thing had to be done step by step.

"How is Zhengyang? Can you hold on?"

Qin Zhengyang's lips turned pale, but he still nodded firmly, "Brother Qin, don't worry, I can keep up with no problem."

Qin Yuan swam over and took the backpack on his back to himself. Qin Zhengyang originally wanted to refuse, but Qin Yuan said: "At this time, don't be brave, save your strength on the island. I'm absolutely fine here."

The distance from this side to the small island is indeed a bit far. According to their current speed, it will take two hours at the latest to get there.

He originally wanted to go there early, but he was a little worried. The team members could only follow them, and everyone didn't want to be a hindrance, so they tried their best to speed up.

In this way, they speeded up and saw it after a while, and the island also saw those watchtowers.

"Brother Qin, this situation is not good. I will definitely not be able to go up to the pier. The range of the watchtower is too wide. Our targets are relatively large. It will be troublesome if we are discovered."

Brother Qin looked at it, and then signaled the team members to rush ashore from the right side. The watchtower on the right is farther away from the other two and is relatively cheaper. In this position, he can directly deal with the people on the watchtower, and then from there Landing ashore.

Li Erniu looked at the watchtower on the opposite side, which was very high. In this position, unless a sniper rifle was used, he took the gun off his back and handed it to Qin Yuan.

"Brother Qin, I'll give you a gun."

When Li Erniu said this, his voice trembled a little. To be honest, it was too cold to soak in this water. They had been soaking for more than an hour.

However, Qin Yuan was still in high spirits, without the slightest influence. He didn't use a gun, mainly because if he used a gun in this position, even with a silencer, it would still be easy to expose.

He can use throwing knives directly, so there must be no problem in this position. He led his team members to dive nearby, and then he took the lead to climb to the coast.

He came to the position of the reef aimed at the people on the watchtower, and threw a throwing knife out, only to see blood flowing down the watchtower.

Qin Yuan gestured, and the team members were finally able to land. According to their previous plan, as long as they landed, they had to get in touch with the outside world.

But Qin Yuan didn't think it was necessary. They could resolve the battle within ten minutes now, and it would be the same when they went out again.

"Now everyone checks the weapons, and then rush in with me to ensure the safety of the hostages."

The area of the small island here is relatively wide, and the distance between several watchtowers is relatively far, so no one noticed that the people on this side fell down.

They started to head towards the center of the island. The journey was very quiet and they didn't hear any sound. Qin Yuan felt a little strange. This is a small tourist island, and it stands to reason that there should be a lot of people on it.

As they approached, Qin Yuan smelled a strong smell of blood.

Chapter 1130: The hostages are all dead!

And this smell became more and more intense as the sea breeze drifted away, Qin Yuan frowned tightly, he always felt that things were not that simple, because the surroundings were so quiet.

He Chenguang walked on the side, holding an assault rifle with a vigilant face, at this moment, Qin Yuan grabbed his shoulder.

"Be careful, there are landmines!"

Because it was night and the light was not good, everyone didn't notice that this piece of sandy land was very unsuitable for burying landmines.

It is easy to loosen and collapse, causing an explosion when mines are planted, so everyone didn't think about that.

Hearing what Qin Yuan said, He Chenguang stopped in his tracks, not daring to move, and pointed to the front. Everyone squatted down to check carefully, only to find that there were indeed traces of excavation.

He Chenguang almost stepped on it. This kind of sand mine is the most difficult to remove. Basically, it can be triggered soon after stepping on it, because it sinks downward.

Qin Yuan squatted down, squinted his eyes and looked ahead. There was only one road at the far end. How did the newest people know that they would come in from this side? There was a feeling that they were deliberately let in.

At this time, Qin Yuan heard some footsteps behind him, his hearing was quick, he turned around quickly, and then shot at the place behind him.

The people on the opposite side also fired, the purpose was to drive them into the minefield.

Qin Yuan secretly called out that it was not good, they must have been tricked, you must know that they did not trigger any mechanism during the whole process, and the person on the lighthouse could not be discovered so quickly, which means that they were ambushed a long time ago over there.

These people saw that they hadn't been caught, so they wanted to preemptively attack them from behind and drive them into the minefield, but Qin Yuan reacted quickly and dealt with them first.

Because of the gunshots from this side, the snipers on the two lighthouses on the opposite side also started shooting at Qin Yuan and the others. Li Erniu picked up the sniper rifle and directly eliminated the enemy on one of the lighthouses.

At this moment, the lights on the small island, which was still dim just now, were suddenly fully turned on, and a dozen militants with weapons stood opposite them.

Qin Yuan couldn't figure out what these guys wanted to do, did they just want to solve themselves? What he couldn't figure out was how it was discovered? They do it very covertly.

But now that the situation is urgent, the militants in front still have to be dealt with. Besides, the feeling of uneasiness in his heart is getting stronger and stronger. What about the hostages on the island? These guys shoot without saying a word.

It completely disrupted his plan. Originally, her plan was to quietly go up to get rid of these militants, and then directly rescue the hostages. This plan has been carried out very smoothly every time before, and has never been discovered.

However, now that their footsteps are disrupted, there will be landmines, and they can't act rashly, they can only deal with the enemy here.

At this moment, the soldiers on the periphery were shocked when they heard the fierce gunshots from the island.

The negotiator held a binoculars and kept looking in that direction, "Damn, what are they doing here? He said before that he would not disturb the robbers and rescue the hostages with such intensive gunfire." , now it seems that the situation is not what he said."

The captain who was in command just now also felt that the situation was not good, but he still stabilized everyone's emotions.

"Everyone, don't be confused. First, your first brigade and the second brigade will set off with me. Now that the war has started, let's forcefully land on the island."

The move taken by the captain was indeed correct. Now that the fight has started, they can't watch the battle from the sidelines.

He set off towards the island with two commandos. It would be faster for them to take a motorboat, and they would get there in 15 minutes at most.

The captain was also very uneasy, but he still believed in Qin Yuan. After all, he had really seen their abilities before. Just when their boat was halfway through, the gunshots on the island stopped abruptly.

The captain thought the battle was over. It seems that Qin Yuan's speed is still the same as before, and he really deserves his reputation. He turned his head and said to his team members:

"See? This is the ability of the red blood cell team. We met at a training meeting before. Captain Qin led his team members and directly captured a fortress of the opponent at such a speed. Although it was training, But it also shocked me at the time."

The soldiers below all asked after hearing this: "Captain, is that Qin Yuan really as amazing as you say?"

"I didn't say this. You should also know that in the past two years, the red blood cell team has won all the championships in all competitions. If they are not the first, basically no one will win the award."

Although the tone of these words is loud, it is also true. The team leader has allowed the players to turn off the insurance, which is basically no problem. They have already resolved the battle.

He took out the walkie-talkie and started calling the people on the opposite side to bring the boat over, ready to pick up the hostages back.

It's just that when they landed on the island, the sea breeze was getting stronger and stronger, and they also asked about the **** smell, but the captain didn't think much about it.

After all, there were so many militants on the island, and these might be the bodies of those militants, but when they walked in, they saw a shocking scene.

Those bushes were full of civilian corpses, at first there were only one or two, as they went deeper, the corpses of those civilians were everywhere.

The captain was so shocked that he couldn't speak, he hurried forward, knelt down and checked the situation of these civilians.

At this time, the soldier behind looked at the wound and said, "Captain, these bullets are all from Type 95 assault rifles."

In this way, everyone understands. After all, they are the only ones using the Type 95 assault rifles in Yan Country. Although they are also used in other places, is there such a coincidence?

This matter is not a joke, the captain looked serious, grabbed the soldier and said sternly: "You'd better not talk nonsense, this matter, without evidence, everything cannot be easily concluded."

The soldier had no choice but to pick up the shell casings from the corpse, "Captain, I really didn't lie, look, this is the Type 95 assault rifle, and they are very precise in their shooting positions."

The team leader led his team members to set off towards the front. The more they looked at it, the more shocking they felt. The wounds on these corpses all hit the heart and head.

This is different from the militants they learned about before. Those militants and civilian armed forces they learned about before can't be so accurate in marksmanship.

There were corpses of civilians everywhere, until they reached the lobby, they saw the squad leader behind the militants rushing forward, pointing to a leader on the ground and saying:

"Captain! Come and see, this guy is the one who made the exchange with us."

I didn't expect that even the gangsters died here. Everyone was staring at each other, not sure what was going on. Could it be that there are no living people on this island now? And where did the red blood cell team go?

At this time, Qin Yuan also led people around the minefields before rushing over. Qin Yuan was also surprised to see the captain and the others.

"When did you come here?"

"Captain Qin, what's going on? Did you kill these people?"

Qin Yuan shook his head, how could they kill people just now, "No, there is a minefield over there, we just came around from there, it took a long time."

However, such an explanation has already created a big question mark in front of them. Does it take so long to bypass the minefield?

And at this moment, Qin Yuan also noticed the corpses on the side. The hostages on the side were completely shot, and they all collapsed behind the sofa.

This is the first time in the rescue history of the red blood cell team that the hostage was killed by the kidnappers.

Qin Yuan couldn't believe it. He rushed forward to find out if there were any survivors, but there was nothing. The team members also rushed forward. After searching, no one survived.

These ***** actually shot the hostages, Qin Yuan clenched his fists, he was still a step late.

Looking at his angry appearance, but the captain already had doubts in his heart at this moment, he slowly backed away.

"Captain Qin, I think you should explain what's going on? We heard gunshots just now, but why did you say you were dealing with minefields?"

When Qin Yuan heard this, he was instantly upset. What does this guy mean? He was doubting himself.

"I don't understand what you're talking about. I made it very clear that there was a landmine battle over there. I took my men ashore from the west side."

"Oh? Then how do you explain the wounds on these corpses? They all use your 95 moves!"

Originally, they came one step too late, and the hostages were completely shot. Qin Yuan was on the verge of anger, and heard that the captain questioned him, stepped forward and pushed him away.

"I don't want to talk to you about this, because we have no idea what's going on. Didn't you hear the gunshot?"

The captain looked at Qin Yuan, he didn't mean to explain at all, and he was escaping. He immediately raised his gun, and the two commandos behind him also raised their guns.

"Don't move around, this matter has nothing to do with you. Why did everyone on the island die in a short period of time?"

The members of the red blood cell team were all stunned. What is this guy trying to do? Li Erniu even pulled the bolt of the gun.

"You bastard, put down the gun, who told you to point the gun at our captain."

"I think you put your guns down. What's going on?"

For a moment, the emotions of the two parties reached a peak, Qin Yuan just wanted to stop time, and then he stroked it carefully, what happened? At this time, there was another movement from outside. It was the message received before to pick up the person.

It was hard for Qin Yuan to attack with so many people, and the people who came in were even more surprised because the whole island was full of corpses.

Now that the hostages are dead, everyone can only deal with these corpses first. The corpses of the sentence on the right were pulled onto the boat. It looked shocking, and the wounds were very precise.

Qin Yuan didn't say a word, he really couldn't think of what was going on, at this moment, He Chenguang said something, which reminded him.

"Brother Qin, have you noticed that we seem to be being used by others. It is absolutely impossible for the people on the island to discover our actions, but they seem to know it in advance."

That's right, he didn't think of this just now, because someone knew about their actions, so they set up an ambush on the island in advance, and these people on the island were definitely shot and killed by them before.

Now I can only go back first. Qin Yuan looked at the seven people on the ground. These are civilians from Yan Kingdom. He took his team members to take off his hat. He felt sorry for the hostages. It would be better if they acted earlier. up.

It's all those bastards, and it has been six hours since I reported the situation to them, Qin Yuan is now feeling suffocated.

Now that it's not easy to attack, Qin Yuan had to follow them back to the other side. After returning to the other side, the person in charge there began to count the number of deaths. After the kidnappers were removed from the island, there were a total of 78 civilians, all of whom died from gunfire. kill.

The other 15 kidnappers all died in the lobby on the first floor. After listening to the report from the person in charge, Qin Yuan stood up on the spot.

"The situation you said is wrong. There is also the west side. There is at least a seven-member team on the west side, which is the assault team that we encountered."

Unexpectedly, the person in charge directly contacted the registration book, and then said coldly: "I'm sorry, Captain Qin, this is also where I am puzzled. Our people did not find any corpses on the west side, and the minefields did. , but it looks very fresh, as if it was just buried."

how can that be?

The more Qin Yuan listened, the more confused he became How is this possible? How could the person who committed suicide himself not know? So he applied to go over there to have a look in person. This time, he didn't take the boat directly driven by the team members, and set off towards the island, regardless of other people's objections.

When he came to the west side, he only found some messy footprints. In the bushes on the west side, there were indeed some bloodstains, but there were no corpses.

This is so strange, who moved these corpses away? There is no other way now, Qin Yuan can only take a picture first, mainly those traces, and then go back to the other side.

It's just that he had just landed when he saw his team members surrounded by those soldiers. Qin Yuan was so angry that he stepped forward and pushed away the soldiers on the outside.

"What are you trying to do? Point your gun at our own people?"

But those soldiers did not intend to put down their guns at all. Instead, the former person in charge came over and said, "Captain Qin, I hope you can cooperate with our investigation. We all need an explanation for this matter."
