

## Special Soldier 1131

Chapter 1131: next time surprise

The Qin Yuan's strength was so great that a soldier around him wanted to come up and directly lowered his gun, but Qin Yuan kicked the soldier in the abdomen with one kick, and the people next to him rushed up when they saw it.

For a while, the members of the red blood cell team also fought, and the soldiers rushed forward one after another, not to be outdone, but they were all knocked down by Qin Yuan.

Just when they were fighting, there was a burst of gunfire from behind, and several cars drove to the coast, they were the staff of the local embassy.

It was the former captain who fired the shots. He has nothing to do now. After all, all the unfavorable situations are directed at Qin Yuan and the others. First of all, after they landed on the small island, there were gunshots.

When they went, all the people on the island were dead, including the hostages and kidnappers, and the wounds of these hostages were very precise, definitely not what the previous kidnappers could use, plus the bullets were all Type 95, how could it be possible Inseparable from them?

Faced with the captain's questioning, Qin Yuan just said lightly, "I was sure before that there must be someone on the west side, and someone was there to attract our attention, but when I went up just now, I only saw blood. But we didn't see the body, so didn't you set us up?"

what! Hearing this, the captain quit. Originally, he was always on Qin Yuan's side, but now Qin Yuan actually said that someone on his side framed him.

For a while, the conflict between the two sides became more and more intense. At this time, the diplomat on the side car also hurried down.

What happened this time was not just that simple, so many people died on the island, and the red blood cell team also participated in the rescue.

A soldier who was also knocked down by Qin Yuan had teeth flying out. He was a little unconvinced and his speech was a little slurred.

"What are you? You still beat me. Let me tell you, you are a murderer. You killed all the people on the island."

Li Erniu was not used to him, so he punched him and greeted him in the face, but was stopped by the person next to him.

"Er Niu, don't be so impulsive, don't fight them now, our people are here."

"But do you hear what this kid is saying is human? Now he is directly hurting us. We have swam such a long distance. Could it be that we used to kill people?"

Because of this sentence, everyone calmed down, and Qin Yuan also stood up and said: "Why do you think that? Could it be that we killed the person just because of the straight line? What is our motive for killing? And we Is it necessary to travel so far to kill everyone on the island?"

The captain was speechless for a while, and he didn't know how to explain it, but now all the evidence points to them, there must be a reason.

Because a conflict broke out between the two sides just now, now the staff of the embassy came forward to resolve it, and the seven people in charge nearby also started to discuss, Qin Yuan and the others could only stay where they were.

He Chenguang looked at the soldiers on the periphery, and they all stared at them vigilantly.

"Brother Qin, I've never been so aggrieved. What do these \*\*\*\*\* want to do? Our people are dying for no apparent reason, and then they hurt us, right?"

"It's not so easy to frame us. I want to see what evidence they can produce. Guns like ours are easy to buy on the black market. It seems that this is an unprecedented conspiracy."

Wells reminded him before Qin Yuan arrived. At that time, he said that the masked man wanted to carry out a plan against Qin Yuan and the others. Anyway, he was specifically targeting the red blood cell team. It seems that this should be the case.

But how exactly is this plan going to work? Now it seems that they have indeed achieved their goal, but if you think about the details, it is not true at all. First of all, they don't have such a fast time to kill everyone on the island.

Also, they couldn't find any reason, many things were untenable, what exactly did the masked man want to do?

Qin Yuan thought about it for a long time, but he didn't know what was going on, but the only thing he could be sure of now was that he fell into the trick of the masked man.

The incident this time was no small matter, and soon a separate investigation team was organized internationally, because too many people were involved, and there were also several other countries.

This investigation team is also composed of several countries, and they need to investigate the ins and outs of the entire incident.

Qin Yuan and the others also have to accept the investigation, which is a normal investigation and inquiry, including the captain who landed on the island with them before and after, they also have to conduct an investigation.

Under the instructions of the person in charge, Qin Yuan and the others put down their weapons and were taken to a temporary base for questioning.

Seeing that the team members were very nervous, Qin Yuan comforted: "You all relax, there is nothing wrong, and now it is just a normal investigation and inquiry."

"Brother Qin, I'm not nervous. I just can't figure out why it's such a coincidence, and who is framing us?"

Qin Yuan shook his head. He had the answer in his heart, but he couldn't say it out. These investigation teams probably couldn't find anything, but they didn't know how far this matter would develop.

When getting out of the car, Qin Yuan saw the captain walking in front of them, and said that this guy is pretty good, and he gave them the equipment before, this person should have nothing to do with this matter, he should be a masked boy mingled with them.

Qin Yuan strode forward, ignoring the obstruction of the guards beside him. The soldiers next to the captain also looked nervous. You must know that they had fought against each other just now, and Qin Yuan's skills were so powerful that he couldn't beat them at all.

"You... what do you want to do? I tell you it's best not to mess around, it's all in the investigation stage now."

Qin Yuan shook his head, just approached the captain, and lowered his voice, "Think about this matter carefully, we are definitely framed, so I don't want you to be used by others, you should think about it carefully."

After speaking, Qin Yuan turned around and returned to his team, and the guards escorting them complained for a while.

The team leader is not stupid, he thought about what happened carefully, if it was really Qin Yuan and the others who did it, there is no need to swim so hard.

Anyway, on this matter, he still chose to believe them, mainly because the evidence Qin Yuan took later was indeed somewhat different from what they said before.

People on both sides were taken into different rooms for interrogation, and Qin Yuan answered truthfully, but the person who wanted to ask was surprised to know that they had swam for more than ten kilometers and landed directly on the island. This is too exaggerated, right? .

So Qin Yuan directly took this opportunity to ask back: "We swam for more than ten kilometers, did we just go up and kill everyone? This is a proper frame at all."

"But all the evidence points to you, especially the muzzles and bullets on these people."

"Sir, this thing is easy to understand. If it is true and I want to do this thing, why should I use my own gun?"

It has to be said that the people in charge of the investigation were convinced by Qin Yuan. Although a lot of evidence points to them, according to the development and analysis of the matter, they have no reason to do such a thing at all.

At this time, it was completely dark, and Qin Yuan and the others were taken into the room separately. Before the investigation results came out, they were not allowed to move around at will.

Qin Zhengyang was a little anxious. After all, this was the first time he had encountered such a thing. The people who had cut off all contact with the outside world to interrogate them were also from other countries.

He stood up and paced back and forth in the room. Qin Yuan yawned and asked him to come back and sleep.

"You don't need to wander around the room like this. Don't worry, the results will come out tomorrow morning."

"Brother Qin, aren't you worried at all? We've obviously been framed this time. What if they get involved in this matter, what should we do?"

"Hehe, no, think about our reputation. We have already established a certain reputation in the world. Why do we do such a thing? Even if someone really wanted to wrong us, it would not be wronged so much. for the sake."

Qin Zhengyang was still a little worried, but looking at the other team members, they were already lying on the bed leisurely, ready to sleep.

It felt like he was the only one who was worrying about it. He wanted to say something, but Qin Yuan ignored him at all, yawned and turned over and fell asleep.

At around 2 o'clock in the morning, Qin Yuan noticed something unusual. When he turned over, he saw a figure hanging outside the window.

He quickly came to the window, the throwing knife in his hand was ready, but unexpectedly it was a man in black, and there was another person on the back of the man in black, it turned out to be a masked man.

Qin Yuan only glanced at him, and the system had already given a reminder that the guy in front of him was just a stand-in and a clone.

So Qin Yuan didn't care about it, just opened the window and looked at him without any timidity.

"It's so late at night, what are you doing here?"

"Hey hey, Captain Qin is a smart man, I don't think you're here to talk to us, are you? If possible, why don't we go to the roof."

Qin Yuan turned his head to look at his sleeping teammates, just like that, he turned out the window and the masked man came to the roof of the building.

After coming up, Qin Yuan straight to the point and said: "What exactly do you want to do? Framed again and again, do you think this is fun?"

"That's why you attacked us first. The 500 soldiers we stationed in country a, you just wiped them out. Are you here to question me now?"

"I'm just cleaning up a little rubbish. I can't understand what some people are doing. If I insist on buying and selling by force, I can't see it."

Some of the men in black were gone, and this man even spoke rudely to their husband, "You bastard, do you know who you are talking to? Apologize to our husband immediately now."

Qin Yuan was very disdainful, and threw the flying knife in his hand. He threw it casually. The flying knife scratched the man's wrist, just to teach him a little lesson.

Just as the man was about to attack, he was stopped by the masked man next to him, "Don't move around without my order."

Qin Yuan smiled, "That's right, take care of your dog, don't let him bite people casually, next time I will be more than just hands."

The man was very angry, but there was nothing he could do. The masked man next to him didn't give an order, so he could only stand like this.

The masked man wasn't angry either, but just looked at Qin Yuan more appreciatively, "I really didn't expect that your abilities would actually be enhanced after I haven't seen you for a few months. I can detect the changes in your system. Now Let's upgrade again."

"My system upgrade has nothing to do with you. Don't worry, I will find you one day and wipe out your entire organization."

"Actually, we could cooperate, but if you don't want to give me this opportunity, you are against us. We are destined to become enemies."

"Stop talking nonsense, what else do you want to do?"

The masked man just smiled and didn't speak. After a while, Qin Yuan got a little impatient. It was just a stand-in to kill him and it didn't make any sense at all.

Just when Qin Yuan was about to leave, the masked man looked at his watch, then he held up the headset, as if he had received some signal, and then burst out laughing.

"Qin Yuan, next time we meet, I will give you a surprise."

After the masked man finished speaking, he patted the man in black on the shoulder, and the man picked him up and jumped off the stairs.

Qin Yuan originally wanted to ask, but the mask was taken away very quickly, and Qin Yuan didn't want to alarm other people, so he could only go back to the room silently and be a guy, what conspiracy is he plotting?

After a week of investigation, Qin Yuan and the others were also cleared of their suspicions. The ammunition and models of all their guns were transferred, and they were not the same batch at all. This is a proper frame.

Moreover, they also salvaged a few corpses near other small islands. They were some militants. It seems that they should be what Qin Yuan said before.

All kinds of evidence show that Qin Yuan and the others were only framed' The truth is revealed, but the real culprit behind the scenes has still not been found out, and it is not known who is behind the scenes.

But Qin Yuan knew very well that this was all the trick of the masked man, but what's the point of him doing this? Qin Yuan couldn't figure this out.

This time the incident has completely become a mystery. Everyone said that they are continuing to investigate, but Qin Yuan knows that the investigation will not yield any results, and the masked man is very cautious in doing things.

It's just a pity that so many people, more than 70 lives, innocent civilians have become their pawns.

After Qin Yuan returned home, he called An Ran's parents as soon as possible to make sure the child's safety. Apart from the child, Qin Yuan couldn't think of anything else that could threaten him.

Gao Shiwei also specially gave their red blood cell team a holiday. They are not to blame for the incident this time. After all, it was from Country F, and it took a full six hours to report it.

Chapter 1132: cloned child

Qin Yuan didn't have any interest in training either, mainly because of the surprise that the masked man said when he left at the end. What on earth does this guy want to do?

It happened to be a vacation, he was staying in the dormitory, thinking about what happened recently, he wanted to take a good look at it.

At this time, Long Xiaoyun came to Qin Yuan, saw him sitting on the bed with dull eyes, thought it was because of those hostages.

"I don't blame you for this matter. When we go out to perform missions, anything can happen. This time it is indeed their responsibility."

"I'm not blaming other people, I just think this thing is too wrong."

Qin Yuan found an excuse and put it in a perfunctory manner. The problem he was thinking about now was the masked man. Before that, Qin Yuan and Gao Shiwei asked for a hypothetical solution to this matter, but they were always delayed. Up to now, the masked man has nothing to do. information.

He couldn't tell Long Xiaoyun and the others directly, anyway, this person was too dangerous, and he didn't want people on his side to get involved.

Just like that, this incident was just a small episode. After they rested for a few days, they started to perform tasks normally again, as if nothing had happened.

As for the investigation over there, there was no progress, which was also expected by Qin Yuan, because the masked man and the others were very cautious in doing things and would never leave any clues behind.

This incident is the first failure of their red blood cell team. As the captain of the team, Qin Yuan also needs to comfort everyone's emotions. They really don't blame them for this incident. If they had known the news earlier, it would not have become so.

Qin Yuan was leading the team in normal training, but unexpectedly, he received a letter from abroad, which He Chenguang helped him fetch.

"Brother Qin, do you have any friends abroad? The doorman said that this letter seems to be very urgent, and the order is urgent."

Qin Yuan was at a loss when he heard this. He didn't have any friends abroad, and if they were really his friends, they usually contacted him directly by phone, so how could he still use letters.

I opened the letter and glanced at it, and there was only a short sentence on it, "In three days, we will see you at the third airport of country f! There are surprises!"

Seeing such content, Qin Yuan knew it was definitely the masked man, because only the masked man had told him about surprises before.

He quickly collected the letter, but He Chenguang who was next to him didn't see it, "Oh! Brother Qin, there is something wrong with you. Could it be that some foreign girl wrote you a love letter and still won't let people read it?"

"Don't talk nonsense. When the Dragon Team finds out, there will be an explanation. Nothing will happen."

Everyone started booing, and then looked at Qin Yuan with a look of fun on his face. He could only follow along. It was indeed written to him by a woman, but it was a friend, so he asked him to do a favor.

This kind of explanation is better than others, He Chenguang, they really believed it, and Li Erniu lamented the injustice of fate.

"Brother Qin, this is really unfair. Why are you so capable and handsome? You are simply a heartthrob. Look at us."

"Don't talk nonsense, you guys, this is just a friend."

Qin Yuan was joking with them on the surface, but he had already figured it out in his heart, what exactly did the masked man want to do? But if you go to the airport, there should be a lot of people, so there will be no problem.

And between him and the masked man, this matter must be resolved. Now this celestial organization is not just as simple as the masked man. According to the clues provided by Wells, their organization has a very large relationship.

It just so happened that he could go to Wells to check other situations. He has given this guy some other abilities now. I don't know how far he can get mixed up now.

This letter was sent today, and Qin Yuan checked the time, and it took exactly two days. He said that in three days, it will be tomorrow.

Now there are no tasks in the team, so if Qin Yuan goes, there is no problem. Basically, he will be able to come back in a day, and there will be no delay.

Just like that, Qin Yuan got on the plane as promised, and when he got off the airport, he saw two familiar figures. The masked man is really courageous now, so he dared to make an appointment with him like this.

Qin Yuan strode forward, staring at the masked man coldly, "I didn't expect you to meet me in such a way, aren't you afraid that I will kill you directly?"

"Hahaha, if you could kill me, you would have killed me a few times before. Of course I have the confidence. It's just that you came to me alone, and you really have a lot of courage."

Qin Yuan was very disdainful, the man next to him was just a display to him, and this time, as expected, it was still the clone.

"Forget it, this is not a place to talk. I will take you to see something, and you can consider whether to cooperate with me. No matter what, I still hope that we can cooperate, and there is no need to do those fighting matter."

"Cooperation? It's really naive."

The masked man didn't say anything, but made a gesture of please, and Qin Yuan followed them into a black car.

Qin Yuan was completely relaxed in the car, he put his feet up on the front seat, and the people next to the masked man couldn't bear it anymore.

"Don't go too far, you guy, I tell you, or I'll make you look good now."

Qin Yuan smiled, and then looked at the masked man next to him, "I didn't expect that the two of us have met so many times, why can't you manage your dog well? If the dog is not \*\*\*\* properly, it will kill you if it bites someone." All right."

"You! You bastard, what are you talking about?"

Hearing that Qin Yuan was humiliating him, the man was so angry that he pulled out the gun from his waist. The masked man just sat behind and watched all this coldly. Now he just wanted to see Qin Yuan's face. How strong the ability has developed.

Without raising his eyelids, Qin Yuan snatched the clip from the man's hand, but the man didn't react at all. He quickly raised his hand and subconsciously snatched back the gun.

The man sneered, "It seems that you are nothing more than that. The method of snatching the gun is really fast, but the gun is still in my hand."

"Oh, are you sure? Then try shooting."

The masked man had seen through everything a long time ago and didn't say anything, but the man didn't notice his complacency, and his boss didn't seem to say anything, as if he acquiesced.

From the moment he got off the airport, he was very dissatisfied with Qin Yuan. Who actually asked their boss to meet him in person, and this guy was very arrogant all the way, he couldn't stand it for a long time.

Since their boss didn't say anything, he pulled the trigger directly, Qin Yuan didn't even hide, and there was no headshot scene as the man imagined.

At this time, Qin Yuan took out the magazine in his hand, "It seems that your dog is really useless, you can't tell the weight of the magazine, what kind of bodyguard are you?"

When the man was told by Qin Yuan, he instantly felt ashamed, but what Qin Yuan said was indeed the truth, and it was all because Qin Yuan's speed was so fast that he couldn't even feel it.

The man looked at the masked man first, and then quickly apologized, "Sir, I'm really sorry, I will definitely practice hard when I go back."

But the masked man clapped his hands, "Not bad, not bad, it is indeed my most satisfying work. Your speed and strength are even faster than the machines on my side."

The man looked at the man in the mask who didn't seem to be angry, and breathed a sigh of relief, but the next second, the man in the mask took out a pistol from his waist and shot the man in the head.

The driver next to him was very calm, and seemed to be familiar with such things, but silently took out his handkerchief and began to clean up the blood beside him.

Qin Yuan was a little surprised. This man indeed has a system. His system ability is the same as Zhang Meng's before, and it is also a medicine dispensing system.

I didn't expect the masked man to be so cruel. If he said no, he didn't want it, and he just shot.

The masked man looked indifferent, "This is trash, trash is useless at all, you can kill it, so, Qin Yuan, I really value you very much, if you can come to cooperate with me, I don't need it." These are trash."

"Hehe, aren't you afraid that I will do something to you?"

"I think you should know my identity and why I have been able to survive. You can do it to me now, but you may not see the surprise."

This guy also played a mysterious trick. Anyway, it doesn't make any sense to do something to such a clone. Qin Yuan simply folded his arms and leaned on the seat to rest. He wanted to see what tricks this guy could play.

Anyway, no matter what, it is impossible for me to cooperate with him, and it is absolutely impossible to cooperate with such a person.

The car drove in the urban area for more than an hour, and then entered a manor. The guards here were also very lax, and there was nothing special about it.

Qin Yuan looked around, this guy probably brought him to meet some important person, otherwise there would not be such lax guards, but after entering the room, Qin Yuan received a system prompt that the seven people inside were all with system.

The system abilities of these people are very different. Some are proficient in the fighting system, and the other is the same as what Qin Yuan saw before. He has two systems mixed, one is the medical treatment system, and the other is the fighting system. Two systems actually appear in one person at the same time.

When Qin Yuan saw it before, he thought it was just a special case, but now another situation has appeared, it seems that there are more and more experiments on the masked male left.

The masked man didn't know much about Qin Yuan's abilities, so he was always in a state of probing. He looked at Qin Yuan who was in a daze and couldn't help asking: "What? Did you see any difference?"

"There is no such thing, but is this the surprise you mentioned?"

Qin Yuan reacted quickly, he immediately avoided the subject, the masked man just smiled, and then he clapped his hands.

Within a few minutes, a man came down from upstairs, holding a child in the man's arms. The moment Qin Yuan saw the child, he rushed forward and kicked the man away, then caught it. Child, because this child is actually Qin Ran!

What's going on here? Qin Ran was doing well in China, why did he suddenly appear here? He had also visited Qin Ran before.

But soon, the system gave him a notification tone.

"Ding! Remind the host, don't be so impulsive, the person in front of you is just a clone."

what! Qin Yuan was even more shocked when he heard the notification sound from the system. When did this happen? The masked man can clone his own daughter.

The child is his bottom line, Qin Yuan was more angry than ever, he rushed forward and grabbed the masked man, the people next to him became tense instantly, and surrounded Qin Yuan.

But the masked man didn't care, he just waved his hand, "Relax, it's okay!"

"You bastard, what did you do to my daughter? Why is there a clone of her here?"

"It seems that your system has indeed undergone another upgrade, and you can tell that the clone is really good. This is the surprise I told you."

The masked man is like a mad scientist. Before introducing his work, he pointed to the little girl in front of him.

"How about it! Is it exactly the same as your daughter? This is cloning technology, and she also carries your daughter's perfect system gene."

"You madman."

Qin Yuan was very angry, but at this moment, the child in his arms took out a knife from nowhere and stabbed Qin Yuan's chest directly.

Qin Yuan suffered the pain, left the child directly, and staggered back. His strong recovery ability was not surprising to this knife, but the child was indeed the first to hurt him.

Even if the child is a clone, he has no way to do anything to this person who looks exactly like his daughter, he can't do it.

He pulled out the dagger himself and threw it aside, and the little girl with a facial expression on her face walked to the masked man silently' like a robot.

The masked man was very satisfied with this scene and had achieved his goal, "I know you won't cooperate with me, so I secretly sent someone to draw your daughter's blood, how about I use her genes to clone? very perfect?"

He was completely in a state of madness, very satisfied with his work, Qin Yuan rushed over directly, no matter what, he wanted to kill this bastard, but at this time, just as his throwing knife came out, the little girl directly blocked it in front of him.

The child reached out and grabbed the flying knife directly. After all, being a child has inherited her daughter's perfect genes, and all abilities are exactly the same.

This clone is the biggest protective umbrella in front of the masked man. Qin Yuan really couldn't do anything, so he stared at the masked man viciously.

"You bastard, let me tell you, I will definitely find your body, and then tear you into pieces."

"Hahaha, don't be so anxious, don't you see such a great move, don't you want to cooperate with me?"

#### Chapter 1133: cloned child

The person in front of me is completely crazy. I don't know how many clones he has, but as long as Qin Yuan makes a move, the clone of Qin Ran next to him will definitely make a move.

The men in black standing on the side didn't need to move at all. The little girl in front of them was a hundred times stronger than them.

His reaction and speed are similar to Qin Yuan's, especially his explosive power is as strong as Qin Yuan's, which is much better than Qin Ran's.

Because no matter what Qin Ran said, she was only a child of three or four years old, and she still didn't understand many things, but she was developed some abilities by the system in her ignorance.

But she doesn't know how to use these abilities, and in the process of playing, she unintentionally releases them, which is an unconscious behavior.

Qin Yuan also told her before, so she would not use these abilities. Now he is like an ordinary child most of the time, but the clone in front of him is different.

Her genes have been completely modified, and after being cloned, everything will be controlled by the masked man. The masked man began to train her crazily, so that all her systemic abilities will be activated.

Qin Yuan began to keep testing the explosive power of the little girl in front of him, and the power she instantly hit was comparable to his own.

The masked man watched this scene with great satisfaction, "This is just one of our experimental products, and many things have not yet been stimulated. I am really looking forward to what surprises your daughter will provide us the second time."

Hearing what the masked man meant, maybe the second experiment still needs to be extracted from Qin Ran. Qin Yuan was very angry when he heard this, and he clenched his fists.

He has been convincing himself that the little girl in front of him is just a clone, not his real daughter.

And when his throwing knife was about to approach the little girl, he subconsciously grabbed the throwing knife. Even though his hands were already soaked in blood, he was still so fearless.

Because he really couldn't do it, the child who looked exactly like his daughter was just a clone, but he really couldn't do it.

"You despicable bastard, I tell you, I will definitely find your body and kill you."

Qin Yuan could only growl unwillingly, seeing Qin Yuan's appearance, the masked man was even more proud, finally let Qin Yuan be embarrassed for such a long time.

"So what's your decision now? Do you still want to kill me? I think you might as well cooperate with us. You can also reduce your daughter's pain and let me directly extract your genes."

"Go away! Crazy!"

How could Qin Yuan let him clone another self? After all, it is absolutely impossible for him to have such a powerful ability, and there is no way to deal with the masked man at that time.

Qin Yuan jumped over the little girl and rushed down to get it, but the girl's reaction was the same as his and rushed over first.

There is no way, Qin Yuan directly used the time pause for the first time, and everything is forbidden. Originally, he had to be careful enough in front of the masked man, so that he would not expose too much of his strength. He just used it.

He knelt down and looked at the child in front of him. There was no emotion in the child's eyes, it was just a robot being controlled by someone.

He just felt very distressed and felt that he hadn't protected his daughter well. Why did he let these people take advantage of it?

Qin Yuan didn't show mercy at all, and directly killed everyone in the room. As if venting his anger, he directly vented his anger on the masked man, a double. Although he knew it was a double, he just wanted to vent at this moment .

Eventually time resumed and the cloned little girl stayed where she was because she hadn't received any instructions.

Qin Yuan originally wanted to take the little girl away, but it seemed impossible, the girl didn't want to follow him at all.

He tried many methods, and even thought about manipulating the little girl through his thoughts, but it didn't work at all, and Qin Yuan couldn't do it either, this person who looked exactly like his daughter.

He sighed silently, looked at the masked man's body on the ground, walked over, and stepped on his chest.

One day he will personally kill the masked man himself. Looking at everything in front of him, he feels a little helpless, so he can only leave this place first, and next time he has to find Wells, hoping that guy can become a breakthrough.

On the way back, Qin Yuan's mood was very complicated. He didn't know which link had gone wrong, so he still called An Ran's parents, and An Ran's parents answered truthfully. Sent down to collect blood for the child.

It seems that An Ran's parents cooperated with the inspection, and they only had contact with the child at that time, but An Ran's parents said that there were other people present at the time.

So everyone didn't think much about it, Qin Yuan thought it was strange to ask such a question, and the two old people didn't know what happened, so they could only ask quickly, and Qin Yuan could only perfunctory first.

Now he only feels that his head is getting bigger, and it is not safe for children to be placed in the compound, and these guys can infiltrate wherever they go.

They dare not take their children away now, because the masked man knows that if he takes the children away, Qin Yuan will definitely not let them go.

So he can only think of such clones, and clones are easier to control. He didn't expect their research to reach such a level, not only can clone the body, but also completely clone the genes.

What Qin Yuan thinks of now is to protect himself and his daughter. Because of their special identities, if their genes are extracted, the consequences will be disastrous.

Now he wants to find someone to completely protect his daughter and not let anyone get close, but after thinking about it for a long time, he really doesn't know who to turn to to protect his daughter.

Because he is going to investigate other things now, and he has to go on missions, it is impossible to stay with his daughter 24 hours a day.

This kind of protection does not mean that force is required, but as long as other people are not allowed to approach her, according to the masked man, the child is developing now, and it is likely to stimulate other skills, so the masked man will attack her a second time. The child starts.

Qin Yuan thought for a while, and finally called Mu Qingmei. If he hadn't had to, he would definitely not bother Mu Qingmei, after all, this is his and An Ran's child.

And he always felt that he owed Mu Qingmei and Long Xiaoyun, but there was no way to make up for it now.

Mu Qingmei answered the phone quickly, Qin Yuan didn't know what to say for a while, and struggled for a long time.

"I said you guys haven't called me for a long time, why didn't you talk when you picked it up?"

It was because of this sentence that Qin Yuan felt a little guilty. He hadn't contacted someone for a long time and just asked someone for help. Such an approach is indeed a bit too scumbag.

"Qingmei, where are you now? If you have time, let's come out and meet. I want to ask you something."

"Brother Qin Yuan, this is not in line with your style. Normally you wouldn't talk to me, but now you ask me to help you with something. It's really strange, but I really want to know what it is."

Mu Qingmei's voice was still so lively, Qin Yuan smiled, he would owe something anyway, and now he can't care so much for the safety of the child.

After Mu Qingmei came back from the peacekeeping force, she was assigned to a military hospital, so she had plenty of time.

Compared with before, she was much more free in the brigade, just like commuting to and from get off work normally, so she had the opportunity to come out to see Qin Yuan.

After a long time, Qin Yuan finally opened his mouth. No matter what, he wanted to ask Mu Qingmei to take care of the child for three months. During these three months, he must completely disintegrate the entire celestial organization behind him.

Only in this way can the child's safety be permanently guaranteed, and there is nothing he can do. Hearing what Qin Yuan said, Mu Qingmei felt very puzzled.

"Why can't I understand what you said, let me protect and take care of the child, but isn't Qin Ran safe in the brigade? And I can't protect anything."

Mu Qingmei hurriedly explained that it wasn't because she didn't want to, but because she felt that she couldn't do anything, and she was worried that it would add chaos.

Qin Yuan shook his head, "It's a little too much to say protection, but what I hope is to have you around, so I can feel more at ease. I don't want anyone else to come into contact with her."

Mu Qingmei is very smart. She knew that Qin Yuan would not open his mouth easily. This time the matter must be very serious, and the child was involved again. She asked tentatively:

"Then can you tell me what happened? Who are the people I want to prevent? If the matter is serious, I think you should find Miss Xiaoyun."

Mu Qingmei knew that relying on her little three-legged kung fu would not work at all, and if something really happened, she had to be like Long Xiaoyun.

Qin Yuan was also helpless, shaking his head, of course he had thought about it before, but Long Xiaoyun simply didn't have time to lead the Wolf Warriors team now, three months was too long for her.

"Qingmei, I think it's really selfish for me to say this, but the only person I can find is you. I think you can do it, and there are other people in the brigade who will protect the child. What I hope is not to let her reach out to other people."

Seeing that Qin Yuan didn't seem to be joking, and he said it was so serious, Mu Qingmei had no choice but to nod in agreement.

Qin Yuan always felt very sorry, but it was all for the sake of the child, and he was still explaining repeatedly.

"This matter is very serious. You must remember that no matter you or An Ran's parents, no one can touch the child."

The reason why Qin Yuan didn't tell the two old people was because he was worried that it would scare them. After all, they didn't know what happened, and sometimes they were easy to think about it.

In addition, Mu Qingmei still has certain skills, and she can react quickly when encountering things, so it is not a problem to leave this matter to her.

Mu Qingmei's side had already made sense, and then Qin Yuan called An Ran and the two old people respectively.

For the past three months, he asked the child not to go to kindergarten for the time being, and let the child stay at home. An Ran didn't know what Qin Yuan wanted to do, but after all, she was the child's father, so she would not harm the child.

She just found it strange, and made another special call, "Qin Yuan, what are you hiding from us? Why did you make such a decision, and let Qingmei take care of our children? unfair."

"I've considered everything you said, and I know it, but I'm doing it for the sake of my children. I can't tell you now, but you have to believe me."

An Ran struggled for a while, but still chose to believe in Qin Yuan. Every time he did something, he had his own confidence, and there shouldn't be any problems.

"Okay, then I choose to listen to you, but I still hope you have something to say, we are a family after all."

Qin Yuan was silent for a long time, and then hung up the phone. It wasn't that he didn't talk about it, but that it wasn't easy to talk about it.

At least during this period of time, he will not let the masked man succeed, and if he wants to race against the masked man, he must seize his body and completely destroy this organization.

Qin Yuan became even busier. When there was no task, he was always outside to conduct investigations. He went to find Zhang Meng and Long Xiaoyun again, and learned more detailed things from them, without letting go of any clues.

According to Zhang Meng's recollection, the masked man was very cautious in doing things, basically he didn't have any specific assistants, but Zhang Meng also found it strange that the masked man never went to the headquarters in the United States.

Because of Zhang Meng's medicine, Zhang Meng has also been to the headquarters several times. That place is very tightly guarded, and people of her level will not go to such a confidential place, but this is an order from the masked man. The place seems to be very conflicted.

Every time there is medicine that wants to pass through the headquarters, the masked man will directly ask Zhang Meng to send it.

Zhang Meng also said that ' this discovery of mine was only accidental, and I don't know if it can help, but Qin Yuan thinks that such a discovery is very important, and it is possible to haunt his body at the headquarters, so He deliberately avoided that place because he was too cautious in doing things.

After getting the location of the headquarters, Qin Yuan set off directly, but when he went there, he found that the address Zhang Meng mentioned had already been vacated.

Qin Yuan was furious, mainly because he found out too late now, and such a thing would not have happened earlier, because what he could think of, the masked man could think of, Zhang Meng was the biggest threat.

In this way, he perfectly missed that opportunity and almost found the masked man's body. Now he doesn't know where their headquarters has moved. According to the current situation, he can only place all bets on Wells body.

On the other side, Wells and the others have to regularly test their physical skills every month. During the test, the masked man also discovered Wells' physical changes.

But he didn't doubt it, because he thought it might be a mutation of the system.

Chapter 1134: wells who tasted the sweetness

The After testing, it was found that Wells's various physical functions had been enhanced. The staff in charge of the testing immediately reported like the masked man. After all, the masked man paid great attention to their physical condition.

They have also encountered cases of systemic mutations before, but basically it is rare that only one in two or three hundred people will appear in their experiments.

Wales originally didn't want to expose it so early, but there was no way to hide the machine in front of them, and all the hidden things in front of it were empty.

The masked man didn't expect Wells' system to undergo a mutation, and he found Wells immediately.

Because when Qin Yuan brought the cloned Qin Ran to find Qin Yuan, the people with systems who followed them were all killed by Qin Yuan.

Although they are constantly doing experiments, such people are very precious. After all, there are really very few who can accept the system.

He asked Wells to stand in front of the instrument and conduct another appraisal. This time, the speed analysis and strength analysis given by the instrument have far exceeded his previous data.

"This machine should be fine, right?"

"Sir, this machine is absolutely fine. It has been tested by more than a hundred people before, and it is his side that has made new discoveries."

The masked man walked around Wells a few times, looked at him, and then asked directly: "Tell me, what's going on with you? Don't you know that your body has changed? Why don't you hide it and report it?" ?"

Wells breathed a sigh of relief. It seemed that he didn't know about Qin Yuan's system capabilities, and he could help other people strengthen them. Otherwise, he would be finished if he saw through it. It hasn't even started yet.

"Sir, I really didn't find anything about this, because my job is to be responsible for the R&D and manufacturing of medicines at the grassroots level, and I have no contact with other things, so I don't know."

This reason can be explained, and the masked man thought about it again. He usually used those tortures to treat them. Under normal circumstances, they would not dare to lie.

Wells was worried that the masked man would not believe him, and he continued: "Sir, I can be said to be loyal to the organization. I am very grateful that the organization can give me this system capability, so I will definitely not hide anything."

The masked man was quite satisfied with this answer, stepped forward and patted him on the shoulder, "Yes, yes, we need people like you, don't worry, as long as you work hard for the organization, what kind of experiments will you have in the future?" If you have the opportunity, I will definitely let you go."

Wells was smiling on the surface, but in fact, he had already made his own plans in his heart. How could this old fox give up those opportunities for practice to himself? He has been waiting for so many years and has never seen him experiment.

So it still depends on the willingness. Wells has already made up his mind, and the masked man sees that Wells' ability has improved, and he also wants to send him to other types of work.

Especially Wells' own ability is immortality, and now his speed and strength have been strengthened, so the masked man wants to send him to the action group.

Their action teams generally carry out secret missions in various countries, and these people are systematic. As for drug research and development, he already has other alternatives.

I also don't know whether this transfer is a good thing or a bad thing for him, but it must be a good thing for Qin Yuan. After all, the person who is most accessible to the action team is the masked man.

In addition, Qin Yuan protected the child very well and let Mu Qingmei pass by. Although the two old people didn't know the reason, they still chose to trust Qin Yuan.

Qin Yuan also started to investigate his actions. He found Wells immediately. This guy has been completely transferred from the previous place since he was reused by the masked man. Qin Yuan still spent a lot of money to find him. Kung Fu.

Wells got a promotion this time, because he was reused by the masked man, and now he is the leader of a special operations team.

In fact, in this case, his transfer to the special operations team can be regarded as a good application of his ability, because he will not die.

But the guilty conscience is that apart from the enhanced speed and strength, he can't do anything else at all, especially like these special operations teams, which are directly like various battlefields.

So recently, he has been receiving training every day. Although his speed and strength have improved, his reaction speed has not been good. He also wanted to contact Qin Yuan secretly, but he didn't dare.

The main reason is that in their secret training base, the masked man will also come to supervise. Now that he has just been transferred, it is impossible to contact Qin Yuan directly and easily expose himself.

After another day of training, Wells slowly walked back to his residence. After a week of devil training, his whole body was about to fall apart.

He also couldn't bear the cynicism of those people. During the training here, other people had system abilities, and their abilities were different. Compared with this, his ability was really too weak.

Some people's fighting ability is born with a fighting system, which is hundreds of times stronger than him, and it is easy to beat him completely.

But he has no choice, after all, this system ability is beyond his control, Qin Yuan just strengthened his other items.

As soon as Wells returned to his residence, he felt that someone was waiting for him to turn his head and saw a familiar figure in the room. At first, he was very nervous, but when he saw that the person was Qin Yuan, he immediately relaxed.

Qin Yuan looked at the person in front of him, and it was not difficult to see that he had received training, "You should have been put to good use during this time, I should congratulate you, right?"

Wells smiled wryly, "I have indeed been promoted, but my other abilities are not good enough. There is nothing I can do now. If I do this again, I suspect that I will be eliminated by the group. They won't listen to me."

Wells told all about his promotion and testing, and he knew that Qin Yuan was the only one he should believe now.

However, Qin Yuan didn't answer his question at all. Instead, he asked another question, "Do you know what he's planning now? Do you know anything about cloning?"

It was the first time Wells heard about the plan, and he shook his head, "I don't know what you're talking about, he never mentioned it in front of us, and I have no access to it."

Qin Yuan's eyes were fixed on Wells all the time, he sighed helplessly, "There is no need to lie to you, I hope you can believe me, now I can only trust you, I can have no reservations about you said."

"Okay, then I will trust you once, but I hope you can do more things. I know what you want just now. If you want to become stronger, you have to exchange it with other things. You know what I mean."

Of course Wells knows this truth, but it's a pity that he doesn't have the ability to be stuck in an awkward position. The team members below don't listen to him, and his current life is also a mess.

It is too simple for Qin Yuan to want to give him abilities, Qin Yuan just stepped forward and pressed his shoulder, "This time I will give you a little sweetness first, but next time I hope to get what I want to know Things, apart from this plan, I want to know about that person's movements, all his movements."

Wells was still curious, Qin Yuan waved at him directly, "Come on, hit me directly now, let's do two tricks."

"What! How could I beat you? Don't be kidding. Although I am immortal, I will also know pain."

It seems that this guy still has a fresh memory of the last brutal beating, Qin Yuan smiled, "I just enhanced your fighting skills for you, you can shoot now because you take me as a training target, don't worry, I won't hit you too hard."

Wells was pleasantly surprised when he heard this, and she couldn't wait to try it out. Sure enough, his muscles had already formed a kind of memory, and all the moves had already appeared in his mind just now.

He didn't know how Qin Yuan did it, it was amazing, just a few seconds later, this ability suddenly manifested in him.

Even so, in Qin Yuan's eyes, everything in his movements seemed to be slowed down. The speed was not fast enough, and the strength was not strong enough. Qin Yuan just blocked his few moves with one hand.

But these things should be enough to deal with his so-called team members, and Qin Yuan gave him a little more strength.

"This time I gave you a lot of rewards, not only for fighting, but also for strengthening your strength. You'd better not let me down."

Wells was very excited. He kept looking at the muscles on his body, "Don't worry, I will never forget this matter. Following you is indeed much more reliable than that old guy."

After Qin Yuan finished speaking, he was about to leave, and Wells quickly stopped him, "Then what's the situation now? How can I find you? If I find out the news, do I go to see you directly? You have to give me an address. "

This guy is really interesting. Could it be that he wants to play both sides? Qin Yuan smiled. Since he wanted to find out about himself, his purpose was too obvious.

Qin Yuan just turned around, threw the throwing knife in his hand quickly, and slashed across Wells' arm in an instant. Wells was taken aback. The speed was so fast that he had no time to react. appear on the arm.

"You! What are you doing? Why did you suddenly attack me? I didn't say anything."

"Remember, don't ask if you shouldn't. I will come to you when I need it. Now our identity is not an equal relationship, but you are begging me. Do you understand? You are doing things for me."

Although he was a little unconvinced in his heart, Wells really wanted to leave a way out for himself and find out some information from each other. If Qin Yuan couldn't do it, he would give all Qin Yuan's information to the masked man.

This guy has been fighting for so many years, so he is also very cunning, but he didn't expect that Qin Yuan would have seen through his plan long ago, and would not let him have any chance at all.

"No! I think you must have misunderstood. I never thought about it that way. I just wanted to tell you the news earlier."

"There is no need for this. It was just a small lesson. I can find someone to replace you at any time. If you still want to do those little tricks, the next time will be a hundred times more painful than this."

Qin Yuan knows that this guy is not afraid of death because he has an immortal system, but there are many ways to torture him.

After hearing this, Wells felt cold sweat on his back. He thought the masked man was difficult enough, but he didn't expect Qin Yuan to be more cunning than the masked man. Neither of them are easy to mess with.

He really has to hurry up to find out the news now, otherwise Qin Yuan will be really angered, and there will be no good end. Now that he has tasted the sweetness of this kind of ability enhancement, how can he give up so easily.

When Wells went out the next day, he always felt as if he was being followed, but he turned his head and found nothing unusual. When they went to the training base, there was a special car to pick them up, and the car would change cars three times on the way.

It was indeed Qin Yuan who was following him. He didn't expect that these people were quite cunning, and he couldn't completely rely on Wells, he still had to act on his own, but Wells was a breakthrough.

These people were very cunning, they changed cars three times in the middle, and Qin Yuan almost lost him once in the middle, because their cars were all the same, and they changed in an instant through the traffic.

However, Qin Yuan still kept up with their rhythm, and came to a secret training base like this. There are many vehicles parked outside, all of which are used to pick up and drop off members of these organizations. Camera devices are placed on both sides of the gate. What is it? Qin Yuan didn't see it.

Qin Yuan observed for a while, and planned to use Wells' identity to disguise himself as Wells, and then pretend to go in.

Wells is a person he knows very well, so he probably wouldn't go undercover when he went in, and he just wanted to see the details of this secret base' But when he was about to approach, he received a system prompt .

"Ding! Remind that there is an infrared recognition device in front of the array."

"What the \*\*\*\* is that?"

"Back to the host, mainly face recognition through the face and pupils."

Speaking of this, Qin Yuan understood that his disguise can completely change his appearance, including his voice, but there is no way to copy his pupils.

It seems that the masked man attaches great importance to this training base, and even used such a method. I don't know if it is to defend himself or others.

Qin Yuan smiled, this small device is not a problem for him, in this case, he can use hacking technology to invade their system and paralyze the system for one minute, this minute is enough for him to get in.

And in just one minute, the people inside them would not be suspicious, Qin Yuan immediately interfered with the control of the computer on the outside, and five minutes later, Qin Yuan successfully entered their system.

Chapter 1135: Successfully entered the computer room

The failure did not arouse much suspicion.

The internal staff found that there was a sudden interruption in the monitoring, thought it was a problem with the signal tower, and immediately sent someone to repair it.

At this time, Qin Yuan also took the opportunity to sneak into the training camp, but he was Wells, as long as he avoided the infrared device, everything else would be fine. After entering, this place is like a special training school, with classrooms Some other teaching equipment is very sufficient.

People who come here will go to another room to change into uniform clothes with numbers on them, which is also to prevent others from sneaking in.

Qin Yuan frowned slightly, this was a bit difficult to deal with, originally he thought that he could make any suit of clothes when he came in, but he didn't expect that all of them had numbers.

Qin Yuan came in successfully. He quietly came to the vicinity of the teaching building. There were relatively few people here, but everyone went in another direction, which should be their changing room.

Now the clothes are difficult to get. Everyone has a set and has a unique number. Technology equipment, but also this uniform dress.

At this moment, Qin Yuan noticed that someone was watching him, and he turned his head to find that it was Wells.

Wells walked over quickly. After all, he found a person who looked exactly like himself. He didn't panic. The first reaction was definitely Qin Yuan.

Ever since Qin Yuan gave him the ability, he started to investigate. He never let go of Qin Yuan's dealings. He also knew part of Qin Yuan's ability, and the information about Qin Yuan was completely unknown within their organization. public.

Wells pulled Qin Yuan and looked around nervously, "How did you come to this place? And how did you find out?"

"Is there any place I can't go? Why are you so nervous? Do you really think I can only rely on you?"

When Wells heard this, she lowered her head completely. She quickly put on her hat and lowered her head very low, after all, she didn't want to attract other people's attention.

"Now I don't care how you got in, but this place is not for you to stay for a long time. We will all have to change clothes later, and you will be easily exposed."

Qin Yuan saw that Wells was even more nervous than himself, but he was sitting beside him with his arms folded, looking like he was enjoying the show.

"Oh, then you can talk about how to solve it for me. After all, there is really some trouble. I will kill everyone here at worst."

"You madman, are you going to ruin all this?"

Wells' volume couldn't help but increase several times. After all, this place has injected all the hard work of the masked man. For the masked man, this place is very important. Basically, most of their people with systems are here.

Someone on the side heard the movement and looked towards them. Wells quickly turned his head. Seeing his appearance, Qin Yuan couldn't help but find it funny.

"Why are you so excited? Besides, even if I kill them, I won't kill you."

"It's not a question of whether to kill or not, but do you want to kill me?"

After all, his basic ability has just awakened now, but at this critical moment, there is a problem in the base, and it is hard not to make people suspect that he is the one who played tricks.

Moreover, the masked man is a wily guy, he seldom trusts others, if something goes wrong here, he will be the first to ask Wells, after all, he just came here not long ago.

"Now I will take you to a place, and you will wait there until we come out. Don't expose yourself, or you will ruin everything."

Of course Qin Yuan knew that he just wanted to come in and investigate, and he didn't intend to touch the people here, after all, now is not the time.

In this way, under the arrangement of Wells, Qin Yuan came to another warehouse of theirs, where some props for training were piled up.

"Now I'm going to gather, you remember to stay here, don't cause any trouble, just beg me, okay?"

"I know it myself, so go quickly."

Wells was a little worried. After all, how could Qin Yuan be such a peaceful person? When he went out, he locked the door on purpose.

But how could Qin Yuan be trapped by this small door? Besides, the purpose of his coming in this year is to investigate. Since it is not obvious, then he will come secretly. Anyway, he has already entered, so it is impossible to return empty-handed.

In this place, although he didn't want to hurt those people, and this time it wasn't the purpose, but when he came in just now, he noticed a small building on the side, which looked like a computer room.

Generally, there are many things hidden in the computer data like that, especially the tasks they have performed in the past two years, maybe some clues can be found from these.

After Qin Yuan waited for Wells to leave, he heard a whistle blowing from outside, and they had indeed assembled.

And looking at its anxious appearance just now, it really doesn't look like a lie. Apart from those monitoring equipment, there should be other things controlling him in this place, otherwise the guy wouldn't be so nervous.

Qin Yuan always felt that Wells didn't seem to be telling the truth sometimes, especially like some place names, or things they were going to gather, which he never disclosed.

The sweetness he gave him was enough, but he never said this information. He only said that one possibility was that they were still manipulating behind the scenes. If they really said something, it might be life-threatening.

This guy is carrying an immortality system, even what he is afraid of, the only thing Qin Yuan can think of is the brutal and inhuman criminal law of the masked man.

Qin Yuan looked around. This is a very simple warehouse, and the sound of training has already come from the playground.

He slowly stood on the table and saw the ventilation ducts on it. In places like these, they used a set of ventilation equipment, which were usually connected together.

Qin Yuan skillfully removed the ceiling above, and then climbed up the pipe. The sound inside the pipe was very loud, accompanied by some hot wind. It was stuffy and hot inside the pipe, and there was a buzzing sound in his ears.

Qin Yuan slowly crawled on the pipe, trying not to make a sound. Every time a room passed through the pipe, there would be some small gaps, and he could see the situation below.

You can see some classrooms, those students are in class, and they are all learning some basic tactics.

At this time, Qin Yuan noticed what was being said in the classroom below, and he was instantly interested. He didn't expect that it was about his own red blood cell group.

What I only saw projected on the screen were clips of their red blood cell team participating in the competition, using the physical characteristics of each member of their team as an analysis and explanation.

I have to say that this teacher is quite professional in his lectures. He has a very thorough analysis of each of them's abilities and areas of expertise. It can be said that he understands them better than they themselves.

They all perform various tasks in groups, so the red blood cell group is the best example.

When Qin Yuan was about to take the next step, he suddenly felt a gaze. He lowered his head and saw the gaze. His gaze was a student.

The system also quickly reminded that the student's system ability was unusual, but it turned out to be clairvoyant ability, no wonder he was able to see himself.

From a long distance, Qin Yuan was not sure whether he could hypnotize him, but now he could only stare at the student closely. The student was about to open his mouth, but found that he couldn't make a sound, and his eyes were momentarily dull.

Seeing this sight, Qin Yuan breathed a sigh of relief. Fortunately, the system has been upgraded now, and its other abilities are getting stronger and stronger. Before, at least face-to-face can be used to hypnotize people. distance.

The student's eyes were glazed, and his whole body became dull. He didn't know what he was doing at all. Qin Yuan quickly entered his brain system, and then forced him to forget the memory just now.

After doing all this, Qin Yuan quickly crawled through the pipeline, and soon the student was in a daze, and was discovered by the teacher above.

Under the teacher's reprimand, this student didn't know what happened. The scene just now seemed to be a desertion, and he forgot everything.

It can be regarded as a near miss, and you should pay more attention to this place. After all, they are all people with system capabilities, and they have various system capabilities.

Qin Yuan crawled through the pipes, and just like that, he finally came to the computer room. Looking around here, there are dozens of computers, and countless staff are manipulating them.

They are entering the information of these students, as well as assigning their abilities, and receiving information from various countries for help.

Dozens of computers are controlling the things that the staff are busy with. Qin Yuan reminded the system a little, and found that there are no people with the system here, they are just ordinary staff.

Since this is the case, he can rest assured that he can basically do it freely. They are all ordinary people, so it is easy to solve.

He squatted at the opening of the ventilation duct, and slowly released a charming aura. Soon, the staff who were working below were completely confused by him, and they all stopped their work and sat in front of the computer in a daze.

Taking advantage of this opportunity, Qin Yuan opened the ventilation duct and jumped down. The whole office was very quiet, except for the computer and the sound of the machines running nearby.

Papers are coming out of the copying machine on the side. Qin Yuan walked over and took a look. They were all tasks that they needed to perform. They seemed to be some insignificant and small tasks. You are like assassinating the boss of a certain group. Dude, or stole a certain country's secrets.

That's what they're working on, and these people are responsible for collecting, taking, and then distributing this information.

It seems to be a set of assembly lines, and then those with the system are sent in batches for training, and are assigned to a group according to the different abilities of each of them, and then go to perform the task.

Qin Yuan checked the files on their computer. Basically, apart from some tasks, there are also some member lists here, and there is nothing special about it.

Originally, he wanted to see if there was anything related to the masked man, but basically there was none. Maybe the masked man used other identities to hide, so even the person in charge was marked with an asterisk.

He searched for a long time, but there was no clue at all. As the time passed, Qin Yuan was worried about whether anyone would come in from the periphery, and at the same time accelerated the speed of his hand.

There are too many documents here, basically they are all about their information here, and after searching for a long time, they still find nothing, except for the more than 300 people trained here, there is nothing else.

Qin Yuan was so angry that he cursed secretly, and then blurted out: "Where is this bastard? Who is responsible?"

Unexpectedly, a staff member behind suddenly stood up and said, "Our person in charge is in the United States, Red Rice Bar No. 686."

The sudden voice made Qin Yuan jump, and he turned his head to find that the staff member thought he was asking him a question, so he answered it.

It was only at this time that Qin Yuan remembered that he could interrogate these staff members. The reason why he hadn't interrogated those with the system before was.

That's because their systems are monitored by masked men, and once they touch a certain area, they will generate a self-destruct program.

Thinking of this, Qin Yuan was suddenly enlightened, and he began to question the staff, the specific whereabouts of the person in charge, and the staff answered truthfully, anyway, everything pointed to the Red Rice Bar.

Just like that, Qin Yuan also got another piece of news. A week later, they had a batch of medicine on the Atlantic Ocean to be shipped to Xiaomao. This batch of medicine was the result of their latest research. Inhale and react.

After the human body inhales ', it will quickly destroy the immune function, and lazy people will completely lose their immunity. They plan to use this batch of drugs in Xiaomao country first.

Qin Yuan was quite surprised when he got this unexpected news. On the surface, the relationship between Mi Country and Xiao Mao Country seems to be very good. Unexpectedly, they also like to play tricks behind the scenes.

But these two guys are the same, everyone is actually a dog eats a dog, there is no good person, he is now struggling, whether to stop the circulation of this batch of drugs.

This side knows about the same, he plans to go to the Red Rice Bar to have a look, anyway, there is still a week.

Still following the previous route, he climbed up the ventilation duct and returned to the warehouse again. What he understood here, almost the rest will be handed over to Wells. This guy now has a lot of abilities for him. , is estimated to stand out.

At around 5 o'clock in the afternoon, there was a sound of footsteps. It seems that it should be Wells. This guy walks very cheerfully. It seems that he has used the abilities Qin Yuan gave him very well.

Chapter 1136: drug plan

This warehouse seems to be forgotten by them, and they only come to pick it up at special times, and use the items in it for training.

Qin Yuan was lying on the side cushion with his arms folded. Wales opened the door and saw this scene. He was relieved, thankful that Qin Yuan didn't run around and cause trouble for him.

"My big brother, do you know that when I was training today, I was very worried about me, worried about when you would run out and cause me trouble."

"What do you mean by that? Do you really think I'm so reckless? And what am I going to do? Why should I report to you? I can do whatever I want."

Wells also realized that it was inappropriate for him to say this now. After all, the two of them are not in a superior-subordinate relationship, and Wells even looked up to Qin Yuan.

"Mr. Qin, I think you misunderstood me. I just remind you kindly. In addition, I also hope that our relationship can develop slowly. If others find out, it will be bad for us."

"Hey! Don't be here to promote me. I'll tell you that I can come and leave this place whenever I want. There are some things I want to investigate. I will investigate. You don't need to talk too much."

Wells opened his mouth to say something, but he took it back. Now his status is not suitable for saying anything more, only for reporting.

"This place is not that I don't tell you, but we all have competitions, and some things are monitored at all times. We are monitored at least 12 hours a day."

"What do you mean by surveillance?"

"The chips placed in our bodies by the organization can easily be monitored by them if we have said anything or said something wrong. This is why the celestial organization has been able to exist for so many years and has not produced any traitors."

Sure enough, as Qin Yuan guessed, something was placed on them, so they didn't dare to act rashly.

"Then why do you dare to tell me these things now? Are you lying to me?"

Hearing this, Wells quickly shook his head and explained, "This is because we have to take the chip for repairs on a regular basis. When we come out for repairs in the urban area today, we are the most free on this day, but tomorrow we will It will be reviewed and cross-examined again."

Listening to his helpless words, Qin Yuan kept staring at him, making sure that the boy was not lying. It seems that their celestial organization is indeed quite inhumane. They are being monitored at any time. Not only that, after taking the chip After repairs, they will also conduct an inspection.

No wonder he didn't dare to say anything to him before, but Zhang Meng was an exception, because Zhang Meng's own system was a medicine dispensing system, and during the dispensing process again, her chip was completely dissolved by her medicine.

And the masked man also thought of a way to install the other chips again, but the result was the same. It seemed that it was Zhang Meng's own system, which was a rejection of this chip.

Except for Zhang Meng, everyone else is equipped with such a chip and is subject to supervision anytime and anywhere.

So this is also the reason why he wants to escape and choose Qin Yuan. He wants to become stronger and escape from this organization, but the strength of this organization is far beyond his imagination.

Wells, on the other hand, shared a lot of information about the organization. He has been around longer than Zhang Meng and knows more.

"This is the largest pharmaceutical factory among them. Most of the biopharmaceuticals come out of it, and several other batches of drugs have been shipped to other places in batches. Now the first stage is good."

Qin Yuan was very angry when he heard this, stood up, and grabbed Wells, "What are you talking about? You have already started experiments with people."

"It has nothing to do with me. I'm just one of them. I can't do anything about these things. I can only watch them conduct experiments, and they are all civilians who conduct experiments this time."

And Wells said calmly that these experiments are acquiesced by certain countries, especially those civilians who are at the bottom, which are a burden to them, and they can be used in such a quiet way to make them a lot of people. die.

No wonder they didn't receive any reports at all. So many innocent civilians were dealt with silently without knowing it, and died in their dark conspiracy.

Qin Yuan only felt cold sweat on his back. Those civilians didn't know what happened, and they didn't have any place to redress their grievances. In this way, under their plan, they became batch after batch of experimental products.

"Hurry up, you still know what their plan is, if I can decide, I will try my best to stop it."

Wells shook his head, "By the time we knew the news, all the medicines had been sent out. He wouldn't let us know in advance. It's too late for you to go out now."

"Don't worry about whether it's too late for me, you just have to tell me what you know."

Wells looked at Qin Yuan seriously, and after a long time, he sighed deeply, as if he had made a decision.

"I can tell you a situation, and it's about you, but you have to strengthen my ability."

Qin Yuan heard that the road here was unstoppable, so he stepped forward and knocked Wells down with a punch. This guy dared to negotiate terms with himself now. What kind of thing is he?

"Do you know what you said just now? I have always been the dominant one. You are just a \*\*\*\* of mine, a puppet. You want to be attached to me, but now you dare to talk to me about the conditions."

Wells coughed twice, and then silently wiped away the blood from the corner of his mouth. He would be beaten anyway, whether it was the masked man or Qin Yuan, he seemed to be used to it.

"I know that my life is worthless, and this kind of immortality system is useless to me, but I just want to live stronger, so it's not too much for me to ask for my conditions."

This guy said this because it was obvious that he was not afraid of death anyway, so just use any tricks, and he can afford it.

Qin Yuan hated being threatened by others the most. He clenched his fists and grabbed Wells, "You bastard, I know you are not afraid of death, but are you afraid of 100 times the pain?"

Speaking of which, the corners of Wells' mouth twitched a little, but he couldn't help it. This is when he gambled.

"Mr. Qin, I need to remind you that my chip will be re-implanted in a few hours. I really can't say anything at that time. I can only wait another month."

The bastard! Qin Yuan really wanted to beat him up hard, but it was useless at all. This guy has a mentality that a dead pig is not afraid of boiling water. Anyway, now he just wants to get what he wants.

In the end, in order to get the news, Qin Yuan had no choice but to compromise. He stepped forward and gave the man some other skills. This time, his speed was improved by three degrees. Now his speed is about the same as that of an off-road motorcycle.

But Wells doesn't seem to be very satisfied with this skill, he wants to have other skills, "Mr. Qin, this skill doesn't seem to be useful to me, do you have anything else you can give me?"

"Hehe, what I give you is up to me. Do you really think this thing is useless? Such a fast speed is enough for you to escape. As for the rest, we will talk about it later."

Wells was very entangled. He wanted to exchange for other things, but Qin Yuan stopped him directly.

"Tell you, you'd better not challenge my patience. I can find many people like you, and I can even find people around him. It's just a matter of time."

Wells' eyes rolled, it was indeed the truth, Qin Yuan's ability did not lack such chess pieces.

He shrugged his shoulders, and then said slowly: "It's actually very simple. I'll tell you now. I don't know if it's too late. I just know that they sent a batch of sealed medicine to your border last night."

"You bastard!"

Qin Yuan kicked Wells over with one kick. He can't control that much now. It's really late to know the news, but Wells just got the news.

Qin Yuan opened the door and rushed out. Now they have completely exited the training state, and most of them have changed their clothes.

So no one doubted that he was going out now. Wells got up from the ground. Although he was beaten, the exchange was worth it.

Qin Yuan rushed to their border non-stop. According to the coordinate clue provided by Wells, it was their most important line of defense.

He couldn't imagine what kind of reaction these drugs would have when they were used on their border. These \*\*\*\* actually used such a despicable way to do it.

Qin Yuan's speed was very fast, he had already arrived at the border before it was dark, but everything here was as usual, there was basically no problem, and some patrolling soldiers could be seen in the distance, nothing happened.

Could it be that the medicine has been used? Qin Yuan didn't dare to imagine that this was the worst possible outcome. He could only ask the system. The only thing he could rely on now was the system's detection, but he didn't know if it could be detected.

"Is that kind of system that you can detect?"

After a long time, the system began to give a mechanical answer, "Answer the host, it can be identified, but so far no breath has been found."

Qin Yuan was wondering if he was too far away, so he didn't feel it. It seemed that he had to find a way to go there, and it would be fine if he went there, after all, they all knew him.

Just when Qin Yuan was about to take action, he heard the sound of a car starting from behind. Although it was far away, he could hear it clearly.

This location is about ten kilometers away from their border. There is a stretch of road here, mainly because there is a checkpoint leading to their border.

He slowly approached when he heard the sound of the car starting, walked around, and came to the other side of the road, where he saw three cars parked against the hill.

There were a few people sitting around the car, smoking, all of them were foreigners. The man wearing sunglasses took a puff of cigarette and said slowly: "Brothers, it depends on this time, anyway, according to their requirements, we will arrive As long as the time passes there, smash that thing."

"But the risk is too great. I'd better do as I said before, just get the car out of control and rush in. After all, they got a real guy from there."

"I think you are whimsical. Look at what they feel. As long as our car rushes into their field of vision, the tire will be blown out immediately. It is impossible to rush over."

Qin Yuan hid in the back and listened to their discussion. What these people said was half-knowledgeable, and they didn't explain clearly what it was, and Qin Yuan didn't know whether it was related to the batch of drugs.

But under normal circumstances, who would discuss going to the border checkpoint, this sounds very problematic.

He was getting closer, trying to see what was on the vehicle, and they seemed to be waiting for an opportunity, they were waiting for dark.

As Qin Yuan approached, the system suddenly issued a notification sound, "Ding! Remind the host that there is a system coming out of the measured range, and the specific drug has not been detected yet."

It seems that the blind cat really ran into a dead mouse. Qin Yuan was so fast that he rushed over in front of them. These guys have been unable to make up their minds and plan to wait for the opportunity here.

As a result, I ran into it. Although the system could not detect what kind of drug it was, how could it be so coincidental that the system released the drug again.

At this time, another man got out of the car from behind. The man's temperament was obviously different from theirs. He looked at the few people squatting on the ground smoking, and said a little unhappy:

"Could you guys be more vigilant? It's really too much trouble to do things with you. If something unexpected happens and there is a problem with this batch of medicine, none of us can take responsibility."

But when the other people heard him say this, they looked disdainful, "Hahaha! I think you think too much. Who would come here in this barren mountain? Besides, we are here Stop, what can ' do."

Obviously these few people are not convinced by the man, it seems that they should be separated from the masked man alone.

And the system also reminded that this man had other systems on him.

What is it? The ability of his system can only be detected after getting close, and Qin Yuan didn't hide it. Anyway, he had reached this point, so he stood up directly.

The few people who were laughing and joking just now were startled when they saw Qin Yuan appearing suddenly.

"Damn! Where did this kid come from? There is no sound at all."

The man who spoke subconsciously moved his hand to the back of his waist, but then he remembered that when they set off, for safety reasons, they avoided inspection and the guns had been put away, but now they are too many and they are not afraid.

The man who scolded them just now also looked vigilant, and walked forward slowly, while Qin Yuan looked indifferent, "I said a few big brothers, what are you doing here?"

#### Chapter 1137: New Capabilities for Recycling

Facing the calm Qin Yuan, these people were relatively very nervous. After all, they squatted here all afternoon, let alone people, and even a car didn't pass by, and Qin Yuan suddenly appeared like this.

In addition to their discussion just now, I don't know if Qin Yuan heard it. The man in black walked slowly to the trunk, where the steel pipe was hidden.

No matter what, they have to be more vigilant, they would rather kill the wrong than let it go, their discussion just now may have been heard.

Looking at their actions, Qin Yuan only thought it was ridiculous, even the small actions of these few people wanted to escape his own eyes.

And the man with the system turned around and ran away the moment he saw Qin Yuan. The people next to him were completely dumbfounded. It hadn't even started yet. Moreover, there were five people on their side and only one on the other side. Why? The guy ran away?

The man in the black jacket was very unconvinced, turned his head and cursed, "Damn it, you're a coward, I just said why the higher-ups filmed such waste, and being with us is completely holding us back, first put this Boy, let's go find him."

But as soon as this person's words fell, Qin Yuan made a move directly. He didn't want to talk nonsense with these people. Since it was confirmed that it was medicine, he would deal with it all directly.

The person who ran would never be able to run out of his palm. Qin Yuan's flying knife had already been deployed quickly, and the few people in front of him had their throats cut by the flying knife before they had time to react.

This time, his speed was fast, and it was so early that he intercepted their vehicle. The man on the ground was not completely dead, and kept twitching on the ground. He stared at Qin Yuan with wide eyes. I can't believe that this person in front of him can kill them all in a few moments.

At this moment, Qin Yuan came to the car, opened their trunks, and began to check the medicines. They looked more like candies, but they didn't know how to use them. Such medicines would also do some basic camouflage. .

He picked up the drug that looked like a sugar pill, and sniffed it with his nose. It didn't have any special smell. He didn't know how to use it, and the man who was born at this time had completely died. Originally, Qin Yuan wanted to ask , it seems that only the other one with the system can be found.

Qin Yuan hadn't felt this kind of chasing for a long time, but he dared to conclude that that person would never escape his grasp.

To avoid worrying about being discovered by others, Qin Yuan first disposed of the corpses of these people, and then drove the car to the foot of a nearby mountain to hide them. The main reason is that he still has great uses for these medicines. Since the masked man likes to harm others so much, he wants to use them Drugs are used according to their own way and from their own body.

And the man with the system just now has entered the forest in front. This forest is very powerful, and it is not so easy to get out.

The man with the system had just seen Qin Yuan and immediately concluded that he was the most wanted person in the organization, the person who existed like a \*\*\*\*\* of killing.

He didn't know if he could escape with his own ability, but facing a character of that level, he could only keep running away.

In this huge primeval forest, he looked around. Under the cover of these vegetation, he should be able to escape.

Without the slightest hesitation, he got into a nearby bush, and then lay down tightly on the ground, sticking to the roots of the tree, not daring to move.

And Qin Yuan is relatively relaxed, because his system itself can sense the person with the system, as if he has a location, he can track the man at any time.

At this moment, Qin Yuan was whistling, and slowly came to the place where the man was hiding. The man was also taken aback. Qin Yuan was able to find him after running for so long and hiding here, but he still didn't dare to move, because He felt that his ability should not be seen through.

In Qin Yuan's mind, the system kept reminding him that the man was nearby, but he looked around and found nothing.

And this made Qin Yuan very strange. He looked around here and found no trace of the man. Could it be related to his ability?

As Qin Yuan approached, the man became more and more nervous. At this time, Qin Yuan was standing directly in front of the man, but there was still nothing in front of him, but Qin Yuan looked at it, and suddenly felt that the bushes in front of him were a little strange , if you look closely, it looks more like a person walking directly on the ground.

It turns out that this guy can change his skin color as the environment changes, completely blending in with the surrounding vegetation. If he didn't check it so carefully, he really wouldn't be able to find it.

The man was very nervous at the moment. He originally thought that he should have escaped a catastrophe, but Qin Yuan grabbed his shoulder with a precise grasp and lifted him up.

Apart from this ability, the man has no other ability to resist. Although he has also undergone basic training, he is like an ant in front of Qin Yuan, and he is directly controlled by Qin Yuan.

When Qin Yuan came into contact with the man, the system also quickly analyzed that the system on the man is indeed another perception system, which can follow the changes of the environment, and then simulate the transformation and integrate with the surrounding environment.

The research of the masked man and the others is really getting more and more advanced. Qin Yuan doesn't even have the system ability. To be precise, he hasn't recovered it yet. It seems that this is really the prey that came to his door.

At this moment, the man began to cry and prepare to beg for mercy, but Qin Yuan didn't intend to hurt him, the main thing he valued was the system on his body, which can be recycled directly.

"System! Recycle directly."

With this ability, it will be much more convenient for Qin Yuan to go anywhere. He didn't expect the system to recycle normally. At this time, just after the recycling was over, the man suddenly trembled violently.

In the next second, he fell directly to the ground, tilted his head, and died like this. Qin Yuan was stunned. What's going on? It has never happened before, and he has recycled the system before, but there has never been a direct death of the host.

"System! What's going on here?"

But the system did not respond after a long time, as if it was still analyzing the previous recovery. Qin Yuan groped for a long time on the man, but there was no clue, so now he can only leave him here first.

This is so strange. On the way back, the system finally responded, and the previous recycling has completely ended.

"Ding! Remind the host that they have a remote system on them. If the system is destroyed, the host will automatically disintegrate."

Although Qin Yuan doesn't know what the automatically disintegrating system is, I must have something to do with the research of the masked man. Then it can remotely control the person with the system. This also shows a problem. Once the man dies, the masked man's side Definitely get the message.

So he had to speed up, came to the foot of the mountain, drove the car, and set off directly in the direction of the country of rice.

On the other side, the masked man also received the news that there was a number note on their computer screen for each person with the system, and at this time number 734 suddenly fell into darkness, completely cutting off the signal.

The staff hurriedly reported to the masked man, "Sir, one of our numbering personnel has completely lost contact, and the signal has been interrupted. It seems that his system has been damaged."

"The system was compromised, what happened? Someone killed him?"

"Sir, we don't know yet, it's just that his system seems to have disappeared from his body."

When the masked man heard this, the first thing that came to his mind was Qin Yuan. He hurriedly asked the staff to transfer the task that this person was currently performing, but he didn't expect that he was actually delivering medicine. That's too strange. How could Qin Yuan know? ?

After thinking about it, the masked man was more cautious. He asked to send a team to the place where he disappeared to check the situation.

"Anyway, bring the body back first, and I want to see how this system disappeared."

The staff immediately sent a small team to the place where the man disappeared last, and Qin Yuan had already left there, and now he is about to arrive in the country of Mi.

According to an information provided by Wells before, they are in a border town in the United States, and there is also a huge production factory, all of which are used for the production of such drugs.

Originally, Qin Yuan didn't want to touch this factory, because it was very likely that he would turn the object of suspicion to Wells, but now he couldn't bear it, and had to destroy it as soon as possible, otherwise the things they produced continuously would only harm the more More and more people are coming.

Moreover, Wells is now receiving training in another place, so it is not so easy to be suspected, so Qin Yuan plans to fight again.

The masked man who was still waiting for the news in the office received two bad news at the same time. They sent a team to investigate the place where the last man disappeared, inexplicably triggered the grenade around the body, and three team members died at that time.

The man's body was also destroyed in the explosion, and it was of no investigative value.

On the other side, another accident occurred in one of their largest production plants in the United States. According to the report of the staff at the factory, it seems that the drug handling was not standardized. Their staff somehow had the same situation as the experimenter himself. .

As soon as the masked man didn't come out, first the corpse was destroyed, and now there was a big problem in his factory. Now, to him, the corpse was no longer important, and the factory was the most important.

When he went to the factory, he found that the situation was even more serious than what he had reported. The more than 100 staff members who worked here all had different symptoms, all of which were caused by a loss of immunity.

This is the same reaction as they developed the drug, but how could these workers be infected by their own drug?

So many people were infected at the same time, and it looked like the factory was completely abolished. The masked man couldn't figure it out, why would this drug be used on their staff?

The person in charge of the factory is now completely paralyzed on the hospital bed. His immune function has been lost, and he doesn't know how long he can last.

The masked man didn't show any mercy. After such a big accident happened, he stepped forward and grabbed the man.

"What's going on? Let me tell you, if you don't give me a reasonable explanation, even if you die, I won't let your family members go. You should understand."

The man lying on the hospital bed had no choice but to try to recall everything he had experienced.

"Sir, I don't know what's going on until now. When we produce drugs, we strictly follow the rules and regulations, and there is absolutely no possibility of leakage."

Because now they initially suspect that there should be a leak during the production process that caused so many workers to be infected.

However, the Masked Wolves did not approve of this result. It also sent an investigation team. There was no residual component in the air, and how could the drug volatilize without using it.

Moreover, the medicines on the production line are all in good condition, so this is not the same batch. Combined with the dead man's body, the masked man can't help but think of it together. Could it be that there is something wrong with that batch of medicines?

All these problems are combined together, it seems that there is a mole inside them, otherwise, how can anyone know the delivery route, time, and location of the drug so clearly, including the location of their factory.

The clenched fist of the masked man, all of this is definitely caused by someone, but under his strict system, there are even traitors.

This time it was considered a major accident, and even the masked man couldn't bear the responsibility. He walked into a separate office, and there was a man sitting in it.

"How do you explain this incident? Time and time again, I am really very disappointed with your recent behavior."

The masked man was also suffering and couldn't tell. He knew that Qin Yuan was definitely responsible for all this. Only that guy had such abilities, but he didn't know which link went wrong.

He could only lower his head, and said: "Sir, I will definitely be responsible for this matter to the end. I will investigate our personnel immediately. I suspect that there is a traitor inside."

The masked man originally wanted to avoid the important and ignore the problem, but to tell the truth, Qin Yuan is a rare talent, and he didn't want to destroy this person unless it was absolutely necessary.

But the officer in front of him is not a fool, he patted the table and stood up, "Don't think that I don't know what you did, is it that Qin Yuan did it again? Time and time again, he destroyed how many of us Plan? I want you to come up with a solution."

"This matter really has nothing to do with him, but he is also a rare talent and our most successful experiment. I still don't want to give up on him until the end. I think..."

But the officer in front of him didn't show any face and interrupted him directly.

"That's enough, don't tell me these things, these are not what I want to hear, this person has sabotaged our plans many times, he is not our person, then there is no need to stay, next time I just want to see his Corpse."

Chapter 1138: target is child

In the end, when the masked man came out of the office, he had a wry smile on his face. Originally, Qin Yuan was indeed a very rare genius, especially since his system had been upgraded and evolved many times. This is something that their system cannot do now.

But a chess piece that cannot be used by them is helpless, and he cannot stay for a long time, it will only bring serious losses to his team.

Just like this time, their largest pharmaceutical factory was also destroyed by Qin Yuan, and many factories before were destroyed by Qin Yuan.

The masked man sighed silently. He didn't want to carry out that plan at first, but it seems that this is the only way now. He must draw Qin Yuan out.

And the more important thing now is to find out the traitor, but he doesn't agree with the theory of traitor, it is very likely that Qin Yuan came into contact with someone with a system.

Then he used his ability to interrogate him. Otherwise, under his strict surveillance, how could anyone dare to betray?

The masked man immediately held an emergency meeting, and he doesn't have many clones now. Although such clones can be used indefinitely, the cost of each clone is very high.

To be honest, his body still doesn't have the courage to face Qin Yuan directly. Facing such a terrifying guy, it is very likely that he will be instantly killed.

At the meeting, everyone expressed different opinions. They also felt that it was very likely that Qin Yuan's system had undergone some kind of evolution and began to question their personnel.

The masked man himself had a dubious attitude, he wasn't sure if there was a traitor on his side.

His attitude has always been that he would rather kill the wrong than let it go, so he decided to conduct a thorough investigation and cross-examination of all personnel.

But things happened one after another on their side, especially at the factory, and so many people were lost. I don't know how long this kind of interrogation will last, and every time they interrogate them, they are punished by using the system.

On the other side, another plan of the masked man has also started. He wants to continue to make a clone of Kieran, and now he needs to harvest Kieran's cells. I don't know how the child has changed after these few months?

Their cloning can only clone the state at that time, especially those with powerful genes like Qin Ran can only clone different stages according to the different changes of their children.

The plans on both sides were going on, and Wells didn't know what was going on, so he was directly monitored for no reason, and then began to investigate from beginning to end.

Fortunately, Wells had been prepared before. He was used to such interrogations. Although he was immortal, the pain caused by the system headquarters was endless. After six hours of torture, It finally came out.

He didn't know why the superiors came to question them suddenly, and he didn't know what happened until later. One of their factories was directly damaged, and there were also accidents with the people who had delivered the medicine before.

All of this has something to do with Qin Yuan. Just when Wells returned, Qin Yuan appeared at his home.

Wells was very excited when he saw Qin Yuan, stepped forward and asked face to face: "You bastard, do you know what you did? You almost killed me, if he really investigates me Here, none of us can survive."

"Why, don't you, a person with an undead system, also worry about dying?"

Wells seemed to be taking other monitoring into consideration. There were a lot of things he couldn't say clearly, even with gestures. Anyway, it probably meant this kind of system, and their headquarters could directly take it back.

"Isn't there something wrong with you yet? Don't worry, I know it myself."

"But if this happens again next time, I can't guarantee that they will turn their suspicions on me, and everything will be over by then."

Of course Qin Yuan knew this truth, this time it was indeed more risky, and he also wanted to further stimulate the masked man, hurry up and lure this guy out.

As for the child, he only has three months now. If this matter is delayed, it will not be good for anyone.

Moreover, the research on the masked man's side became more and more crazy. Qin Yuan found that the system capabilities of them all began to undergo various changes. In the past, everyone had a separate system, but now there are dual systems.

Wells has nothing to do with Qin Yuan like this, but this is what he chose in the first place. He chose Qin Yuan. Now she is more eager to become stronger, so that she can completely escape the control of the system.

And Qin Yuan didn't intend to leave this time, but just sat on the sofa and looked at him with a smile on his face.

"What? Don't you plan to leave? How long do you want to stay here?"

"I said before that you have to tell me the truth about all the missions. What are you hiding from me now, don't you think I don't know?"

Wells was taken aback when he heard this. They had indeed assigned other tasks, but how did this guy Qin Yuan know?

Looking at his expression, Qin Yuan immediately understood that this guy really had something to hide from him, and he was still dishonest.

Originally, he just wanted to cheat casually, but he didn't expect that this guy really had something to hide from him. Qin Yuan coughed slightly, and then approached Wells directly.

"If you have been so dishonest, then I can only take back my previous ability, and then I can find anyone else."

Wells was completely anxious when he heard this. Now he finally managed to become the captain of the action team. His ability has been recognized by other team members. It would not be good news for him to withdraw his ability suddenly.

He was a little anxious, and hurriedly said loudly: "Don't tell you everything now, but because of other things in me, I can't say it clearly."

Qin Yuan smiled. Now he has fully grasped Wells' psychology. Wells was very helpless. He couldn't lose these abilities. In the end, he chose another way to tell Qin Yuan.

They don't know the specific mission situation, but they do have an operation next week, and they will go to Yan Country.

And it's not just their action team, there are two other teams, and people from the three teams have to infiltrate separately.

Qin Yuan frowned when he heard this, the people from the three teams were going to infiltrate, what mission did they want to perform?

But Wells didn't know the specific tasks. Generally, in order to avoid leaking such tasks, they would not know them until 15 minutes before the action, or even when they set off.

Originally, Qin Yuan planned to go back to see the child first, but in this situation, he can only stay here first, and he must grasp the first-hand information.

When Wells knew that Qin Yuan was going to stay here, he was even more nervous. He was very worried that the masked man would find out that all previous efforts would be for naught.

"I've already told you the action plan this time, can you leave you first, it will kill me, do you know?"

"I just want to know what I want to know, you don't have to worry about other things, and I will keep you safe."

After Qin Yuan finished speaking, he stepped forward and patted Wells on the shoulder. This time, he improved his fighting ability and brought his strength to the extreme.

"This is a small reward for you. I hope you can cooperate with my actions well. Don't worry, I won't let you be exposed."

Of course, Qin Yuan knew this truth. Wells, a chess piece, had finally been cultivated to this stage. He couldn't just waste it like this, so he wanted to shift his goal to other places.

Wells has been very nervous all the time, he was very worried that the masked man would find out, but three days later, everything is very normal, they are still training and preparing for the next action.

It's just that when they were training, the masked man suddenly appeared, and all the teams gathered, and everyone stood on the playground. Wells was very nervous, but he didn't expect the masked man to lead people directly and grab a person from their team .

The person who was arrested was also in a daze, not knowing what was going on. Immediately afterwards, the person on the stage searched the man and found a locator on the sole of his shoe.

Everyone didn't know what happened, and they were taken away by the masked man. Before he left, he didn't forget to warn everyone not to touch any suspicious people casually.

Only Wells knew what happened. This should be Qin Yuan's intentional diversion of the target. It seemed that Qin Yuan had protected himself and shifted his target to other people.

Wells also breathed a sigh of relief. Qin Yuan's ability is indeed impressive. Under such circumstances, he successfully protected himself.

In the blink of an eye, the day of the operation came, and there were still six hours left before the operation, but the mission objective was still unclear, and Wells became more and more nervous. He didn't know when Qin Yuan would show up.

It wasn't until they got on the bus that the task was sent to them in batches. The target of the operation turned out to be Qin Yuan's daughter, and a tube of blood from that child needed to be collected.

Moreover, all of them were in groups of two and began to move in batches. All the teams were completely disrupted, some from the waterway, and some from the bus.

The team member next to him had been with Wells all the time, so he didn't know how to report this matter to Qin Yuan. They were sitting on the bus and didn't know how long it would take to arrive. The team member next to him was sleeping with his eyes closed.

Wells was in a state of confusion, he didn't know how to notify him, and this operation, if it failed, would the masked man suspect himself?

At this moment, a hand suddenly stretched out from the back seat, Wells was taken aback, turned his head and it turned out to be Qing Yuan, he was shocked, although there were other people on the bus, they mixed with other people We set off together, but when did we get mixed up.

Qin Yuan made a silent movement, Wells immediately understood, and he quietly handed Qin Yuan a note.

Wells was very anxious. After a while, the bus arrived and everyone was about to get off. At this time, he turned his head and looked, but there was no one behind.

They now have to get off the bus for inspection, because they will pass through the border of Yan Kingdom, and Qin Yuan is using the ability he absorbed before, which can be disguised at any

time. Now he and the floor of the bus are basically integrated, If you don't look carefully, you really can't see it.

Wells was worried, and now he had no choice but to follow the team. There was no specific time for their operation this time, and there was only one purpose, which was to collect blood samples.

At this moment, Qin Yuan also got the information on the note. He didn't expect that their target was his daughter. It seemed that the masked man was very anxious. Qin Yuan thought it must have something to do with cloning.

It's just that he doesn't know the specific situation, and can only make some guesses now, but these guys really want to make a move, it's not that easy, the child is very safe in the army now, and there is Mu Qingmei.

But he still wants to deal with these people in secret, as long as it is not good for his daughter, he will not let anyone go.

But this time he had to think of a perfect plan, because Wells was also involved in the operation, so it was easy to transfer the target of suspicion to him.

Originally, according to Qin Yuan's plan, he planned to lurk around and not let these people have any chance to make a move. Unexpectedly, at this time, he received a call from Gao Shiwei. There was a task in the team and he was asked to go back.

Qin Yuan has been running around outside lately. There is no important matter in the team, so he will not show up. This also aroused Gao Shiwei's suspicion.

It was only after Qin Yuan came back that he realized that it was a small rescue mission. For a mission like this, he didn't need to be the captain at all. Long Xiaoyun and the others could solve it. What he was worried about now was his daughter's safety.

"Team Gao, to be honest, let them go to the Wolf Warriors team for such a mission, we don't need to mobilize so many people."

"You brat' Do you know what you're talking about? Now you're picking and choosing when you take on a mission, and you've been so mysterious recently, where have you been?"

Qin Yuan is also suffering and can't tell, and Gao Shiwei's attitude is very firm, the current task is to give them the red blood cell team.

The task is also helpless, but Qin Yuan also knows that as long as the children don't leave the army, there will be no problems, no matter how powerful these people are, they will not be able to infiltrate.

To be on the safe side, he called Mu Qingmei and told her not to take the child out no matter what the situation was.

Qin Yuan did not expect that this small rescue mission allowed him to discover the masked man's body.

This time, they were going to cooperate with the peacekeeping force. It was originally just a small rescue mission, and Qin Yuan couldn't wait to go back after it was resolved.

But Qin Yuan found a person with a system among the rescued people, but that person was seriously injured and was being rescued in the medical tent.

Chapter 1139: Code twenty-three

Originally, he had already led his team to board the helicopter, but when he received a reminder, he went straight to the tent in spite of everything, and Li Erniu and the others also chased after him.

"Brother Qin, what's the matter? Is your direction reversed? We have to go this way. "

"Wait first, I seem to see a familiar person, let's wait for a while."

Everyone found it strange that familiar people could still be seen in this place, and during the rescue process this time, neither the peacekeepers nor anyone on their side was injured, and it seemed that those few civilians were injured.

Qin Yuan went directly into the room inside the medical tent, reached a temporary operating room, and was undergoing emergency sutures.

The two staff members were a little unhappy when they saw Qin Yuan walking in, but since he was the captain of the red blood cell team, they couldn't say anything, they just said politely:

"Captain Qin, this is not the place for you to come. There is debridement and sutures going on inside. I hope you can avoid it for a while."

Qin Yuan opened his mouth and wanted to say something, but he squinted his eyes and saw that the person on the bed inside seemed to be dying, and the machine next to him made a harsh sound.

The so-called suture table inside is just a simple cloth hanging as a temporary cover. There is no way, the conditions here are like this, they can only set up a temporary tent on the way to rescue.

Qin Yuan could only talk to the staff next to him, and divert their attention.

"I think the person inside seems to be seriously injured. Why don't you take it to the camp first?"

"Captain Qin can't do anything about it. The road ahead was blown up by those violent terrorists. Our people have already gone to the front to repair it. Now we can only set up a temporary camp and treat them first."

Qin Yuan nodded, it made sense to say so, but the man inside was about to die, his life was fading rapidly.

At the critical moment, Qin Yuan couldn't care too much. He snapped his fingers, and the time paused instantly. He only had three minutes. He walked in quickly to check the man's condition.

The two doctors next to him were cooperating, and all their movements stopped in the hands of one doctor in mid-air, with the scalpel just halfway up.

When Qin Yuan came into contact with the man, the system issued a prompt, "Ding! Remind the host that the system on this man is a primary recovery system!"

Qin Yuan was stunned when he heard this. If his daughter was added, this would be the third person with a recycling system.

He looked a little nervous, and at this time the system continued to remind him that he had a primary recovery system, which was not even comparable to the system on his daughter.

In this way, the recycling system cannot choose other abilities, just like when he comes into contact with a cup, if he chooses to recycle the cup, it will be recycled into his body. What he recycles are things, not abilities.

Listening to the system's explanation, Qin Yuan was completely relieved, otherwise, if another strong man like himself appeared, it would be really difficult to deal with.

Sometimes, he feels that his body is too terrifying, these skills have given him a level against the sky, and now he is not afraid of death at all, especially with a strong recovery ability.

In order to find out the masked man behind him, Qin Yuan could only rescue the man first. Facing his powerful recovery ability, the wound on the man's chest healed immediately, and the bullet fell out of it.

It's just that there are still 30 seconds left in the time, Qin Yuan took this opportunity to heal the wound on the man's back, and then slowly backed out.

The time immediately resumed just after exiting the tent, and the staff inside the tent were also taken aback. If I remember correctly, he was still talking to Qin Yuan just now, so there was no one in front of him.

Not only that, but the doctor who was performing the operation inside also turned his head to look at the machine in front of him. There were vital signs on the machine, everything was normal, and there was no wound on the man, except for the \*\*\*\* clothes.

This is really too strange, they doubted for a while, did they see it wrong just now?

At this moment, the man was also struggling to wake up. He stepped back with a look of vigilance. The doctor could only quickly explain to him that he was being treated, so the man relaxed a little.

At this moment, Qin Yuan walked in. The doctors were still puzzled at the moment. They didn't know what happened. Could it be just a misdiagnosis?

The moment the man saw Qin Yuan, he obviously knew him. After all, Qin Yuan's face was so recognizable that he was the most wanted in their organization.

"you!"

The man was a little surprised, but he stammered a word, Qin Yuan made a gesture of silence at him, the man at this moment quickly looked down, and there was no scar on his body, you must know the injury he did to himself, But it is very clear that he was hunted down by the organized people, and then he was shot in the heart twice.

There were scars on his back from the previous hunt, but they had completely disappeared now. The moment he saw Qin Yuan, he completely understood.

The man struggled to get off the operating table. There was nothing wrong with him now, and the doctors behind him couldn't figure out what was going on.

In this way, Qin Yuan and the man walked to the back of the medical tent tacitly. There was no one here, and the front was still messy. Some were going to repair the road, and some were treating other people nearby.

The man is very smart, he glanced at Qin Yuan, and then asked directly: "I can't figure it out, why did you save me, you should know who I am."

"Of course I have my reasons for you, but is it convenient for you to talk now?"

After Qin Yuan finished speaking, he tapped his head. The man was shocked when he heard this. Did Qin Yuan refer to that chip? Unexpectedly, Qin Yuan even knew this.

At this time, the man took out a small piece of blue crystal from his pocket, "You should be talking about this, right? This means that the chip that controls us has been taken out of my body. It is because of this that I was They were regarded as traitors and were hunted down by the organization."

When the man said this, he recalled the previous scene again. It was a little painful. Qin Yuan patted him on the shoulder. Now is a good time. After all, he can't always rely on Wells. They are all guarding against themselves, maybe this guy in front of him can be used.

After a while, the man finally calmed down, and Qin Yuan also went out, first asking the members of the red blood cell team to help them build the road ahead.

Everyone is not surprised by such an order, after all, they are also helping them with the peacekeeping force, and they are all their own people.

Qin Yuan dismissed all the people in the team, and then led the men to the opposite hillside. It can be said that no one disturbed them here.

The man seemed to have resigned himself to his fate. After all, he had just walked through the gate of hell, and it was Qin Yuan who saved him. He began to introduce himself.

The man has no name. As long as he can remember, within that organization, he only has a code name called 23. In that, he is different from other people. Many people were arrested for experiments the day after tomorrow, but he was a child. accept various experiments.

It was also his luck that he stood out from the group of children who were tested and successfully accepted the system.

Since then, he has been doing things for the people in the organization, because his ability is to recycle all kinds of things, and directly turn his body into a container, which can hold all things, no matter how big they are.

This ability can be said to be quite against the sky. For example, his body can recover more than 30 assault rifles, which is simply a small mobile warehouse.

Speaking of this, 23 seems to recall that it was very painful before. Because of his special ability, he was used as a warehouse supply for some teams.

But his sky-defying ability also has another side effect, that is, every time he recovers something, he will feel an electric shock-like pain.

Every time he was recovered, he was accompanied by pain, but no one cared about his life and death at all, and no one cared about his pain. Instead, he used him even more. He helped the organization bring out a lot of drugs.

Moreover, his ability has never had room for improvement. Up to now, the number of items he can hold is also very limited. Although his ability sounds very powerful, after these limitations, his effect is not so great.

Moreover, he has been suffering for so many years, so he had the idea of escaping. At first, he just asked the organization to take away the system from him. He just wanted to be an ordinary person, but this idea just came up. In exchange for a burst of beatings.

In addition to being severely beaten, he was also imprisoned in a water prison and tortured until he tacitly cooperated and no longer had the same thoughts as before before he was released.

Qin Yuan was not very interested in these things, he interrupted and asked directly: "I'm not interested in your experiences, I just want to know that man, how many times have you met him?"

23 didn't mind, he smiled, and then said helplessly: "Let's put it this way, I've always been by his side before, and I even know every model of his clone."

When Qin Yuan heard this, his eyes lit up instantly, "Then do you know where his real body is?"

"Although I don't know about this, but I have recovered his things before, and my body still has a skill that has recovered things, and it will have a certain memory."

Qin Yuan was very excited when he heard this, he grabbed 23, "Then you take me to find this guy now, according to your previous memory, don't worry, I will protect you and never let you get hurt."

Unexpectedly, 23 shook his head. Qin Yuan saw hope now, so he was very excited, and pulled him directly regardless of everything else.

"Do you know? That \*\*\*\*\* is going to do something to my daughter now, so I have to find him no matter what, and I saved your life. If I want to let you die, it will be very easy."

23 smiled helplessly, "I know what you mean. It's not that I don't want to take you there, but that I can't take you with my current situation. While they chased and killed me, they also used the system to remotely control me. My Part of the memory is impaired."

Qin Yuan looked at the guy in front of him, he lowered his head a little guilty, Qin Yuan directly used hypnosis, but this time he didn't dare to control it so deeply, he was worried that there would be a violent situation, and he still wanted to use this guy.

Although I don't know much about the situation, at least it shows that this guy is lying.

Before 23 could react, he saw Qin Yuan standing opposite him, staring at him coldly, "Do you think your little tricks and what you said can fool me? I want to know your It is very easy, and I can directly control your life and death."

23 almost forgot that he knew something about Zhang Meng before, but now he is not worried about being manipulated.

"I know what you want to say, Zhang Meng should tell you, we all have the control system of the headquarters, but I won't because before that, my chip has been completely taken out."

It turns out that the headquarters controls them by relying on this chip. This chip is not only used for surveillance, but also for remote control of their systems.

His memory was damaged just now, he was just an excuse, because he didn't want to help either side now.

Qin Yuan didn't get used to him, and now that he had something to do with his daughter, he stepped forward and kicked 23 to the ground.

"I made it very clear that I want to use your system capabilities to find that guy's body, and I will destroy him."

23 was a little emotional when he heard this, so he stood up directly and stared at Qin Yuan viciously, "Are you sure you can really destroy him? That guy is a completely terrifying existence. It is absolutely impossible to disappear. He has many clones." body, and behind him is that powerful organization."

"You don't need to take care of this, you just need to provide what I know, and do you think you will be safe and sound? That organization will let you go?"

23 completely collapsed' He sat paralyzed on the ground. He thought he could escape completely, but in the end he was discovered by the people of the organization, and then chased him down. Out of nowhere, he was rescued by the peacekeeping force up.

Because the peacekeeping forces did not investigate their true identities, they just thought that some local violent and terrorist organizations were harming civilians.

All of this was a mistake, and this life was saved by Qin Yuan. In the end, he could only agree to Qin Yuan's request.

"I can use my system to lead you to find his body, but I only have one condition, you must protect my safety."

"As for your safety, I can guarantee that even if I find him, I will not hurt you."

23 was a little hesitant when he said this. He couldn't believe such a guarantee. After all, Qin Yuan was very capable. If he wanted to kill him, it could happen at any time.

He is now thinking of a way, he wants to make a contract that can reach an agreement with Qin Yuan, otherwise, if he really finds the masked man, he will have no use value, maybe he will die.

Chapter 1140: Mask Man's other plans

Seeing that this guy had a stubborn mouth, no matter what, he didn't say that Qin Yuan was completely angry, and directly punched him on the cheek.

Because he had to hurry up, this time with the news from Wells, the personnel who provided the infiltration in the country were already preparing to do it, and they were always looking for opportunities.

So Qin Yuan must find the masked man's body before that, and deal with him directly.

The current 23 is simply heartbroken. Anyway, he has passed through the gate of \*\*\*\*\* once, so he can't say it so easily, otherwise he really has no use value, he just wants to live.

Another punch, Qin Yuan hit him directly in the abdomen, and he couldn't stand up at all. He can recover many things, but he really doesn't have other self-protection abilities.

"I didn't expect you to be so stubborn. I will never break my promise. I promised to protect your safety, and I will do it."

"But... but the husband told us before that Zhang Meng has been brutally killed by you, and the death is very tragic."

After all, 23 couldn't hold it anymore, so he expressed his doubts.

It turned out that this guy was worried about this, Qin Yuan smiled, that was even more impossible, he directly talked about Zhang Meng and another Long Xiaoyun, these people can be regarded as the subordinates of that masked man.

23 Some were skeptical, since he hadn't seen anyone, he wasn't sure if Zhang Meng was still alive, but Qin Yuan also made a promise to him.

"If you are worried, I can take you to meet Zhang Meng. You should be able to tell when you see his situation. I am not the same as that guy. I know that, strictly speaking, you are all victim."

Maybe this sentence touched 23 completely. He lowered his head and thought for a while, then looked up at Qin Yuan and said, "I can help you, but my memory was indeed damaged when I forcibly took the chip, but I memories can be restored, it takes time."

Qin Yuan originally wanted to know the whereabouts of the masked man directly through forced hypnosis, but this is something in his system, so Qin Yuan has no way to know.

23 was also worried that Qin Yuan would not believe it, so he deliberately told the process of forcibly taking the chip. During this process, he also used his own system to recycle other things, and then let his space capacity reach a state of fullness , Forcibly squeezed out the chip.

In this case, some of his space capacity will be damaged, especially the things that have been recycled before, so some space skills will be lost, but this does not affect

Seeing that this guy didn't seem to be lying anymore, Qin Yuan asked again, "How long will it take for your memory to recover?"

"It will take at least one month. This is the first time this has happened to me. I'm just reminded by my system that it may take a month."

Qin Yuan frowned slightly, a month is too long, he immediately mentioned 23, "You'd better not lie to me, there will be no good end if you lie to me."

23 spread his hands helplessly, "To be honest, I may really have to rely on you now, the organization is very scary, if they know I'm not dead, they will start endless pursuit of me, so I will Choose you."

As soon as he finished speaking, Qin Yuan heard Li Erniu's voice calling him.

"Remember, you boy, from now on, you follow me, and then don't worry about other things, I will take you back."

23 nodded. He understood all these things. After Qin Yuan finished speaking, he took 23 down the hillside.

Li Erniu and the others came back with their tools on their shoulders, "Oh, brother Qin, let me tell you that you are really elusive all day long, and we are looking for you everywhere."

"That's right, Brother Qin, don't you know that there was a particularly big rock just now. Do we have any large equipment? It would be great if you were here, and you can move it away directly."

Qin Yuan could only laugh, hurriedly made a perfunctory excuse, and then diverted his attention.

"Anyway, how many of you are powerful. Besides, I have other things. By the way, I forgot to tell you. This is a friend I knew before."

I don't have any doubts about the man, after all, everyone has experienced life and death, and they can all believe in it 100%.

He Chenguang stepped forward and grabbed 23's shoulders, "It's good for you, kid. Where did you get mixed up with our captain? When you were working just now, you actually cheated behind our backs."

23 is still a little uncomfortable with this sudden way of greeting. He has never enjoyed such a friendly moment in the team over there. Each of them is an appendage of the organization, so everyone is in a competitive relationship.

There has never been such a statement. Everyone is full of competition and comparison.

The main reason is that there is an unwritten rule in their organization that the greater the contribution to the organization, the higher the rewards they will get, and it can even reach the situation of early retirement.

23 also had this kind of simple idea before, he desperately took on various tasks, just wanting to retire himself later, he found that everything was a scam.

The organization will keep fooling them, and the points they get will be deducted by the organization for various reasons or let them use these points to consume other things.

Therefore, it is never possible to achieve retirement, and the organization will not let them go, and more importantly, they are monitored endlessly, without any secrets at all.

The rescue operation this time was considered very successful. Since it will take another month, Qin Yuan plans to go back and stay with his daughter first, which is the safest way. Only he can completely guarantee it.

On the way back, I couldn't wait to call Mu Qingmei. She made sure that she was in the army with her child, and Qin Yuan was relieved.

23 was very quiet, and under Qin Yuan's leadership, no one asked more questions, but according to the previous regulations, he was not allowed to enter their team.

So Qin Yuan asked them to go back to report first, and he sent 23 back first. He planned to let 23 stay with Zhang Meng and the others.

It's just that this guy's name is too strange. It's just a code name of 23, which is somewhat awkward, but he doesn't mind, after all, he has been called for so many years.

From the name, it can be heard that the organization doesn't respect them at all. There is no basic name, and they all exist under code names. This way, absolute confidentiality can be achieved. Even if someone wants to investigate, nothing can be found out. .

After being separated from the team members, 23 also began to slowly talk about everything about the Celestial Organization. Compared with Wells, he knew more things because he grew up inside the organization.

This organization called Celestial Body is very large. Like the training base that Qin Yuan saw before, they have a total of three such large bases.

And now the organization is still researching continuously, using the abilities of these people, and starting to develop some other special systems.

Many things are even applied to animals, but this plan is very confidential, even 23 doesn't know, he only knows to chase, and is already implementing another plan. In addition to cloning Qin Yuan's daughter, the masked man also engages in Another mysterious team.

And even someone like 23 who has been inside the organization for many years has never seen the real face of the masked man.

"People at the club said before that his face seemed to have been destroyed in an accident, so he wore a mask for a long time, but some people said that he may be someone we are most familiar with."

It is possible for Qin Yuan to hear the person he is most familiar with here. He may want to conceal his identity, so he wears a mask, and he also deliberately changed his voice.

If it was just burnt and disfigured, according to that guy's personality, it shouldn't be so exaggerated. Wearing a mask for a long time is too mysterious.

While speaking, they had come to the place where Zhang Meng lived, this one was a club under the name of Li Kang, Long Xiaoyun and Zhang Meng were both in this place.

After Qin Yuan took 23 in, Zhang Meng showed a vigilant look the first time he saw him.

"Why did you bring this guy? He's by that man's side."

"You all relax, now everyone is your own."

Zhang Meng believed in Qin Yuan's ability, but she didn't expect to be able to bring people around this guy. Previously, Zhang Meng only knew a little bit, but she had also seen 23.

In addition, 23 here is also very surprised to see Zhang Meng. It is completely different from what the masked man said before. In order to intimidate them, the masked man told them that Zhang Meng was hunted down by the organization after becoming a traitor, and then killed by Qin Yuan.

This place is very safe, and Zhao Tao is also here. With Zhao Tao's ability, he can report to him at any time if there is any situation.

I am willing to temporarily settle 23 here so that he can recover as soon as possible. As soon as he recovers, he will contact himself immediately if he has any news.

Qin Yuan is very confident, no matter how big the organization is, he will destroy all the real murderers behind the scenes.

23 Now he is desperate, he can only choose to stand with Qin Yuan, after everything is settled, Qin Yuan intends to go back, but at this time Long Xiaoyun stopped him.

"You... be careful, pay attention to safety!"

"Don't worry, I'm sure I'll be fine. You guys should protect yourselves here, and contact me directly if you have any questions."

Long Xiaoyun looked at Qin Yuan's back with some sadness. Every time his answer was so official, the relationship between them was no longer what it used to be, but now there was more and more distance between them.

Zhang Meng saw something wrong, she looked at Long Xiaoyun and said with a smile: "This person is very good, he will not belong to someone alone."

"I know, it's just a pity."

Looking at Long Xiaoyun's appearance, Zhang Meng couldn't help feeling a little sympathetic to her, "Actually, it's mainly because of that guy. He's in a bit of trouble now, don't worry, if you really have this idea, I can help you later."

When Long Xiaoyun heard this, her eyes lit up, "Sister Zhang Meng, is what you said true?"

"Of course, you little girl, I will still lie to you. I know this person quite well. I will teach you when the time comes."

When Long Xiaoyun said this, two blushes appeared on her face, and Qin Yuan on the other side had just returned to the office in a hurry. Seeing Gao Shiwei, the first sentence was not to report work, but to ask for leave.

Gao Shiwei was so angry that this guy couldn't stay anymore recently and often asked for leave.

"You brat, where do you want to go to cause trouble for me?"

"Captain Gao, you really misunderstood me. I want to ask for leave to go to the fifth brigade to look after the child. After all, doesn't the child live there?"

Gao Shiwei originally wanted to scold people, but he restrained himself when he heard this sentence, and it was true. Both he and An Ran were too busy with work, and he could understand how long it took for the child to be gone.

"Okay, I can approve such a reason. Is three days enough?"

Qin Yuan originally only thought that he could invite him for a while, but he didn't expect Gao Shiwei to approve it for three days with a wave of his hand.

"Hey, it must be enough!"

Qin Yuan turned around and ran out with the leave note, Gao Shiwei hurriedly called him, "Stinky boy, spend time with the child when you go back, by the way, come back as soon as you have any tasks."

"Yes!"

Qin Yuan hurried towards the fifth brigade. After all, this was inside the army, so the people from Wells and his small teams couldn't get in at all.

Qin Yuan only sensed a few people with systems around him, but they were all outside the army, and they couldn't get in at all.

The child was very happy to see Qin Yuan come to see him, and happily ran forward, and couldn't wait to share the candy in his hand with Qin Yuan.

Mu Qingmei was also very emotional when she saw this scene, and An Ran's parents just took this opportunity to go back to see the situation in their hometown, after all, they have been taking care of their children all the time.

Qin Yuan hugged the child, and looked at Mu Qingmei apologetically, "I've worked \*\*\*\* you recently, this child is a bit naughty."

"This is nothing It's just... Is there something you are hiding from us? Especially Xiaoran, I always feel that something is wrong. "

Qin Yuan recognized it when he heard this. Could it be that they really discovered other abilities of the child?

Unexpectedly, Mu Qingmei went on to say: "This child is really obedient, he doesn't look like a child who is only three or four years old, you don't know, I helped my colleague take care of it before, it's too naughty."

Qin Yuan breathed a sigh of relief in an instant, it's okay, it's okay, he was talking about this, he was actually most worried that his daughter's ability would be discovered by others, even if he was familiar with it, but it is not a good thing to have this ability discovered.

Qin Yuan really stayed with the child for a while, but at night he opened the door again and went out quietly. There are some things that should be resolved.

Wells and the others are now in a group of two. Everyone is looking for opportunities, and they can't get in at all. They can only wait for the people inside to come out.

According to the usual practice, they use the walkie-talkie to report the situation of the day every night, but today, four people lost contact.
