

Special Soldier 1151

Chapter 1151: perfect victory

Qin Yuan led the red blood cells. It was the first time for the group to do this. It felt like there was a piece of meat next to his mouth, but he couldn't eat it yet, so he could only watch silently.

From the sniper scope, Li Erniu could see every move he felt in front of him. It had to be said that they would only say that there were seven secret whistles here, which was too exaggerated.

"Brother Qin, look at what they've done, it's just to defend against us!"

"They really thought we were going to sneak attack, but there was no need at all. This time we are fighting a joint operation. These secret sentries are meaningless at all, and instead waste our troops."

The Red Army command post also felt that the red blood cell team should have a sneak attack. They had participated in military exercises before. At that time, the red blood cell team would directly kill the other party's command post, so this time it can be said that they were on the command post. Big effort.

At present, their Red Army commander said that in order to cover, they threw a few smoke bombs, and now they have set up three false command posts, which seem to be worthless.

The three command posts are not far apart. Qin Yuan smiled. This move is really good. If he protects himself, the command post will do the same. At least set up a few more targets so that the opponent is not so easy to spot.

It's just a pity that their goal this time is not to command, but to act together. In the end, these secret sentries are useless. Even if he is setting up a few, there is nothing to say when there is no more troops.

Because of the sudden attack launched by the blue army, the red army could only retreat continuously, and the three command posts also began to retreat under the cover of the guard platoon.

Qin Yuan and the others followed not far away and moved slowly. Fierce gunshots could be heard in front of them. It seemed that they were not far away, and they could break through immediately.

No matter what, Qin Yuan felt that this time could be regarded as soy sauce, but he evenly distributed the opportunities for performance, previously relying entirely on their red blood cell team.

Now this can be regarded as a new combat mode. At this time, it was completely dark, and the Red Army was speeding up its withdrawal.

Their line of defense is getting later and later, retreating from the beginning to dominate the battlefield, and now they are completely withdrawing step by step.

At this moment, suddenly a red flare ignited from behind them, and the staff officers in the Red Army command post were taken aback. What's going on?

"Who? Who set off the signal flares in this place?"

At this moment, Gao Shiwei and the others also received a signal flare, instructing them to know the location of the Red Army's command post. When the soldiers of the Southern Army rushed in, the Red Army's command post fled, with only one guard platoon.

There was no way, under such absolute suppression, the commander of the Red Army command post was captured on the spot for a while.

However, at this moment, the commander of the Red Army snorted coldly, saw himself surrounded by bugs, and suddenly pulled his clothes away.

"Old Zhao, I didn't expect you to end in person. I really didn't expect it."

Commander Zhao only saw the grenade tied to his body, as long as he moved, they would all be wiped out.

Head Zhao smiled helplessly, "I said, Lao Liu, is it still interesting for you to do this now? No matter what happens now, the outcome is already doomed, and you have already lost."

"Yeah, I know we've already lost, but before I die, I can also help. At least one of them is the captain of the Special Operations Brigade!"

But Gao Shiwei stood in front, but he didn't panic at all, "Head Liu, I know what you're thinking, but look over there first."

"You old fox, you want to trick me. It's impossible. Let me tell you, as long as I move my hand today, no one will live."

But soon he realized something was wrong, and the secretary next to him quickly reminded him that he only saw a red dot, locked on the back of his head.

"Head Liu is hiding our seven snipers at the back of your mountain. Do you think the probability of them hitting your head is greater than this?"

Commander Liu was completely stunned, and he had admitted defeat. After all, under such a probability, the speed of the sniper would be faster than him, and he would only be the first to be eliminated.

And it's meaningless to keep fighting like this. Head Liu smiled helplessly, "I didn't expect that we fought so smoothly at the beginning, but now there is a reversal and we lost completely."

At this time, Qin Yuan and the others also came down, and only now did Commander Liu see clearly that the signal just now should have been sent by them, but they did not expect to be lurking for such a long time.

"I said, why didn't you play your cards according to the routine this time? Before, you all acted according to the group. This time, have you been lurking behind me like this?"

"Director Liu, after all, it's too boring to directly cut off your command post. The battlefield ended too early. This is not what the people above want to see. We are fighting a team battle this time, and we must cooperate together. "

Head Liu felt very embarrassed when he heard this. After all, what Qin Yuan said was completely implying their strength, and he could fight if he wanted.

It's just delaying time.

And to be honest, Qin Yuan and his special operations team have been lurking by their side all the time, and they didn't find Commander Liu at all, so they were convinced.

I have to say that although there were many small episodes in the middle of this coordinated action, it was still a perfect ending in the end.

Enron was very happy when he received this data in the office, which is enough to show that the special operations team can be combined with any of their mech loading and unloading units.

And they can not only act alone, but also play a leading role in the battlefield of the entire large force.

After the military exercise this time, Gao Shiwei stayed in the general military region for a meeting, mainly to discuss the results of their exercise this time.

Qin Yuan had just returned to the brigade when the guard at the door stopped him.

"Captain Qin, you are finally back. I have been receiving letters from you for a while. I don't know who is so anxious to find you, basically every day."

Qin Yuan also found it strange that this person was looking for him. After he took the letter, he looked at the address and instantly understood that it was Li Kang and the others.

After all, there are too many people here and it is inconvenient, so he just searched out all the letters, and when he returned to the dormitory, he probably opened one and read it.

It probably means to inform him that there has been a new progress on the 23rd, as if he recalled something, so now he is urgent to find Qin Yuan.

Qin Yuan frowned slightly, and opened other envelopes. As the date passed, the content behind became more and more brief. It was sent the day before yesterday, and only two words were written, so please reply quickly.

Could it be that something went wrong with Li Kang? After Qin Yuan left the brigade, he called directly, but Li Kang's phone couldn't be connected, so he quickly dialed Long Xiaoyun's phone.

It was still the same, they couldn't be connected temporarily. I don't know what happened. When Qin Yuan rushed to Li Kang's company, he found that the door of his company was locked.

There was a security guard squatting on the ground next to him smoking a cigarette. Qin Yuan stepped forward to ask about the situation, but the security guard was very impatient.

"How many times have I said that recently, due to some special circumstances, our place has been temporarily closed and no reception will be accepted."

"Master, I think you should have met me before. I have been with you Mr. Li all the time."

Hearing this, the security guard stood up quickly, held his hat and glanced at Qin Yuan, "Oh, why didn't I hear your voice just now? By the way, our boss just asked me to notify you. If you come to him, let I'll give you an address."

It seems that something happened here, and now it is so mysterious, and then the security guard took out a note from his pocket, and it looked like it had been rubbed repeatedly.

There were only a few numbers written on the note, and the security guard scratched his head, "This is what our boss asked me to hand over to you, but I don't know what it means. He said you can tell it by looking at it, and let you find him."

Qin Yuan smiled, thanked the security guard, turned around and left. Of course he knew what this series of numbers meant. To be precise, it was a series of coordinates, and combined with the place names, it was a place where Li Kang was in the mountains before. villa.

At noon, Qin Yuan came to the villa. He glanced at the door of the villa, and there was a pot of red flowers. He immediately understood that this was the hint from Li Kang.

Before this, they have made detailed arrangements. If there is an emergency, they will retreat to this villa. This villa was purchased by Li Kang in the name of other employees, so even if someone wants to check, they can't. to his head.

As soon as Qin Yuan entered, Li Kang found him in the camera. There are infrared cameras everywhere.

Li Kang looked at Qin Yuan vigilantly and asked, "Did no one follow you on the way you came?"

"Don't worry about my work. Basically, no one can keep up with my speed. What's going on?"

Li Kang nodded, first brought Qin Yuan into the room, after entering, he saw Long Xiaoyun, and 23, they were all here at this moment, he was relieved.

It's just that Zhao Tao wasn't there. At this time, Zhao Tao heard the movement and walked down the stairs. The moment he saw him, Qin Yuan's eyes widened instantly. The guy's left hand was empty.

what's going on? Zhao Tao is a master of boxing and fighting, how could he suddenly lose his left hand?

Only then did Li Kang tell the whole story. It turned out that Qin Yuan and the others had just gone to the place where the military exercise was taking place. At this time, the masked man sent someone to find Li Kang and the others.

The masked man didn't know that Long Xiaoyun was with them, nor that 23 was here, but he had checked Li Kang's system before.

The masked man sent out several people with systems. These people have different abilities, and there are all kinds of them.

Zhao Tao had no choice at all, and judging from their appearance, they should not come to trouble Li Kang, but their goal should be Zhao Tao.

Having said that, Lee Kang has no

Naidi sighed, "I thought about Zhao Tao's ability at the time, and there were no other bodyguards in the place where we lived. I didn't expect those guys to be too powerful. They just went after Zhao Tao."

"But how did you know that you were going for Zhao Tao? Did they express anything?"

"The person in the lead caught me first, and he stretched out his hand to sense my head. I couldn't struggle at all. One of them was very strong, and then said that my system ability was useless."

When Li Kang said this, there was still panic in his eyes. Like this, he was really frightened at that time, because the six bodyguards who followed him were all killed on the spot.

According to what he said, those few people are very special, they are not like the people with the system that they have come into contact with before. Now they all have a single system with only a certain skill, and those people seem to be completely mixed. .

Zhao Tao slammed his fist on the table at this time, "Those ***** didn't know what despicable means they used, but suddenly a little girl appeared, and that little girl also wore this mask, probably about three or four years old."

Hearing this, Qin Yuan was completely stunned, little girl! He couldn't help but think of the clone.

According to what Zhao Tao said, the little girl was very powerful, and she just punched him flying. He didn't react at all, and the little girl started to absorb it directly on him, but after absorbing it for a long time, there was nothing.

In the end, the little girl just kicked him away like a waste, "Let's go, this waste is useless, his system is completely bound and cannot be absorbed."

It can actually absorb The more Qin Yuan listens, the more he feels cold sweat on his back. What the ***** is going on behind the masked man? Has his research reached such an advanced level?

Because the little girl was wearing a mask, they didn't know it at all. If they saw it, they would know each other. After all, they had seen Qin Yuan's child.

Zhao Tao patted his empty cuff, "That little girl is very ruthless, she has great strength and no emotion, just like a robot, she forcibly tore off my left arm."

Long Xiaoyun was also there at the time, and she also had lingering fears, "That little girl is very scary, she doesn't have any feelings, she looks like she wants to kill Zhao Tao directly."

The little girl in the back seemed to have received some kind of order, so she interrupted, which allowed Zhao Tao to escape.

Li Kang felt very unsafe at that time, so he temporarily closed the company, and then took them to hide in the villa here.

Qin Yuan stepped forward, frowned slightly and looked at the severed arm in Zhao Tao's hand. Zhang Meng also said that there was nothing he could do. He had already used medicine, but he could barely stop the bleeding, and it was impossible to achieve regeneration.

According to what they said, everyone started to discuss. At present, there are two key points. One is that there is a new system developed by the mask holder, which seems to be able to sense people with systems like them.

On the other hand, there is that very powerful little girl who can directly absorb their system.

When Zhao Tao talked about this matter, he was still a little apprehensive, "I'm 100% sure that child, if he absorbs my system ability, will definitely kill me, I can't see any emotion from her eyes ."

Chapter 1152: able to absorb the system?

It's just a pity that Qin Yuan had just gone to participate in the military exercise at that time, otherwise he could have saved them, but he didn't expect things to turn out like this, and Qin Yuan stayed there for a month.

"Zhao Tao, I am also responsible for this matter. If I had been here, I would not have hurt you. It's just that I didn't expect their actions to be so fast."

"Why are you telling me these things? We are all brothers. Besides, what does this have to do with you? Those guys want to target me. Even without you, they would target me."

Zhao Tao looked very angry, but he is such a powerful boxer, and now he only has one arm left.

It's really a pity that Zhao Tao's ability could have stayed here to protect everyone. Seeing this, there is no other way. However, Li Kang's reaction was relatively quick and he brought them here directly.

"By the way, besides this, have you found any clues? Which direction did they leave from?"

Li Kang recalled, and then slowly said: "These guys left from the roof. At that time, they held me hostage on the roof and wanted to throw me directly from the top. It seems that they received some news later. After grabbing Zhao Tao's arm, they left with paragliders."

Now it's not sure whether those guys will come back again, Long Xiaoyun sat in the corner without saying a word or anything.

It's just that Qin Yuan actually has a very doubtful point in his heart, looking at Zhang Meng and Long Xiaoyun, he is very uncertain, and it includes that 23.

He turned to look at Li Kang and said, "By the way, when I came here, I saw a group of people blocking your company. I don't know if it will have any impact. Do you know those people?"

Li Kang was stunned, when is this? Do you still want to take care of the company's affairs? But Qin Yuan went on to say: "I took a few photos, take a look, in case it is an important partner."

Watching Qin Yuan take out his mobile phone, there were no photos on it, just a line of words.

"Find a chance to go to the basement with me."

Li Kang understood right away, just like that, he first appeased everyone and asked everyone to go back to their rooms, wait to see later, and now hide here to avoid the limelight.

In order to prepare before, the food in the villa is very sufficient, so it will not be affected. In this way, Li Kang came to the basement in the evening, and Qin Yuan made a booing motion just after entering the door.

Li Kang also felt strange, and there was a sound of footsteps coming from behind. Although it was very slight, even Li Kang could hear it, because the basement was very quiet.

Qin Yuan dodged and hid in the dark. Li Kang suddenly opened the door, but he didn't expect it to be Long Xiaoyun. He only saw Long Xiaoyun holding a lot of things.

Li Kang also felt strange, when he came, he clearly saw Long Xiaoyun had already entered the room, "What are you doing here?"

"I didn't see the things you piled up on it. I wanted to ask you to bring them together and put them in the warehouse, but you didn't respond for a long time."

Li Kang was even more baffled, how could he not respond to calling himself, Long Xiaoyun walked in sideways, put the things on the table, and looked around.

"I thought Qin Yuan was with you, why isn't he here?"

"What is he doing here? He has already returned to his room. I just happened to come down to the basement to check the food situation in the warehouse. After all, I don't know how long I will hide here."

When Long Xiaoyun learned that Qin Yuan had returned to the room, she nodded quickly, "I'll go back first, and you will take your time here to count, do you need my help?"

"It's okay, it's just a little thing, you don't need two people, you go back first, I'm bored anyway."

After dismissing Long Xiaoyun in this way, Qin Yuan jumped off the roof. He listened carefully to the sound until he was completely gone.

Li Kang didn't take it seriously, he thought that Long Xiaoyun might really be here to deliver something.

"By the way, you are so secretive, why did you ask me to come down, and why didn't you tell them what happened?"

Qin Yuan lowered his voice, and asked Li Kang to lower his voice, "Today, I feel that it is too abnormal. According to what you said, there are too many doubts."

Qin Yuan began to analyze. According to them, if the masked man has developed some kind of system and can directly find people with the system, then why was 23 not found, Zhang Meng was not found, but only Li Kang and Zhao Tao were found.

Although the few of them live completely scattered, they seem to be very purposeful, which can only explain one problem, they have not been systematically tracked at all, but have been molested.

As soon as Qin Yuan finished speaking, Li Kang gasped. He felt that this should be impossible.

"It shouldn't be possible, so why only target me? If there were real traitors, we should have been taken by the pot long ago."

"This is exactly the cleverness of that traitor. He probably didn't provide other information, but just proceeded step by step. In order not to arouse our suspicion, if I didn't think about this carefully just now, it is very likely that even I have been deceived."

After all, 23 and they are all standing there intact. You must know that although they live scattered, they all live together. If there is a feeling, then everyone should know.

So when Qin Yuan said this, he felt that something was very wrong, and he immediately analyzed it. According to the current situation, Zhao Tao must be excluded, because he was directly targeted and his arm was broken.

The other Long Xiaoyun and Zhang Meng are still 23. One of these three people must have a problem.

"The matter is urgent now. You should think about it carefully and see what happened. Are there any details missing?"

Hearing this, Li Kang frowned, and began to think back, "It happened so suddenly, they seemed to appear out of nowhere, and my bodyguard was killed by them in an instant, the situation was too chaotic, I don't remember at all what happened."

Li Kang can't get any valuable clues here, but the only thing that is certain is that Li Kang's suspicion must be ruled out.

If the traitor is really him, he doesn't need to make so many small tricks, and it would be better if he just took it all at once.

It's just that the remaining three people are willing to start a careful analysis. It should be impossible for 23. He and the masked man have completely broken off, and the mask doesn't know if he is still alive.

Their relationship is not worth mentioning at all, and 23 wanted to leave before, and Qin Yuan also conducted some tests on him, so he should be fine.

Now the only two suspects are Zhang Meng and Long Xiaoyun. Qin Yuan couldn't make up his mind for a while, who could it be?

Zhang Meng had tested her before, so there shouldn't be any problems with complete hypnosis, or did she rebel halfway through?

Li Kang also felt that if he had to choose, Zhang Meng would be more likely, because Long Xiaoyun is completely an ordinary person.

"Zhang Meng didn't seem to be abnormal that day. I didn't notice him at all, because it was too chaotic. A dead person appeared in my company. I could only quickly block this news. You know, it will be more troublesome if you provoke other people. "

Qin Yuan can understand this thing. Although Li Kang has a system, he is still an ordinary person in some respects, and he will definitely panic when he sees a dead body suddenly.

"Don't worry, let me deal with it here. I just need your cooperation. I plan to conduct another review of Zhang Meng to see if there is any problem with her."

But before that, he hoped that Li Kang could keep it completely secret. After all, he didn't want to scare the snake away. The traitor was hidden among these two people.

After coming out of the basement, Qin Yuan saw Long Xiaoyun sitting on the sofa in the living room in a daze.

Qin Yuan stepped forward and waved his hand in front of her eyes before he could react. Unexpectedly, Long Xiaoyun raised her eyes and looked at him with tears in her eyes.

"Qin Ge, I know it's all my fault. My so-called father made us become like this."

In fact, Long Xiaoyun was also a victim. Qin Yuan patted her on the shoulder to show comfort, "How could this matter have anything to do with you? It was originally what they did. Don't worry, Zhao Tao will definitely not blame you." Yes, you were a victim too."

"I knew it before, but I just felt guilty. No matter what, he raised me back then. I felt like I was my father."

"Don't worry, it's not your fault in the first place. I'll go and make it clear to Zhao Tao. Don't feel so guilty."

Long Xiaoyun nodded, then threw herself into Qin Yuan's arms, and began to cry.

After Qin Yuan comforted her, Long Xiaoyun also returned to the room. Although the names were similar, the gap between her and Long Xiaoyun was too great, and there was no comparison between the two.

Qin Yuan shook his head, and completely let go of those bad thoughts. Long Xiaoyun was just an ordinary girl, why should she be compared with others?

In this way, he also went upstairs, but he came to Zhao Tao's room first. He checked Zhao Tao's situation first, and only asked Zhang Meng from the side.

For Zhang Meng, Zhao Tao is very grateful. After all, Zhang Meng treated him immediately and made him stop the bleeding. Otherwise, Zhao Tao would really bleed too much in that situation.

"Brother Qin, it's really inconvenient for me now. You know I'm not very good at talking, and I hope you can help tell her. I really appreciate her."

Qin Yuan nodded and walked out. Zhao Tao had a very high opinion of Zhang Meng, and he already regarded her as a lifesaver.

Then Qin Yuan came to Zhang Meng's room. There was nothing to talk about between the two of them, and they were a little embarrassed for a while.

Qin Yuan could only speak first, "By the way, just now

I went to see Zhao Tao, and he mentioned you to me. "

"What! Did something happen to his wound again? I'll go there now."

It could be seen that Zhang Meng was really nervous, Qin Yuan grabbed her and stared at her eyes without saying a word, trying to see some flaws, but there seemed to be nothing.

Zhang Meng was baffled, and Qin Yuan simply cut to the chase.

"I'm not sure about some things right now, so I think..."

Before Qin Yuan finished speaking, Zhang Meng smiled, "I know what you want to say, do you doubt me? I knew this would happen a long time ago, but I can tell you that I am not afraid of shadows in Shenzhen, You can check whatever you want."

Zhang Meng didn't do anything else, she simply put on a righteous look, she was not afraid of Qin Yuan's investigation of her.

"Do you think that if you act like this, I will fall into your trap and not investigate you? Let me tell you, I will definitely investigate today."

Zhang Meng just spread his hands to express that he didn't care. Qin Yuan directly invaded Zhang Meng's brain without saying a word. He investigated everything that Zhang Meng experienced recently, and he didn't find any flaws. Everything seemed to be normal. of.

Five minutes later, cold sweat broke out on Zhang Meng's head, and Qin Yuan also let go of her control at this time.

"How? Did I pass your review?"

Zhang Meng smiled sarcastically. To be honest, she had completely treated everyone as her own during this time, that's why he was so nervous about Zhao Tao.

There is indeed nothing wrong with the review, Qin Yuan sighed silently, and finally chose to express his doubts. I really didn't expect that the object of our suspicion at the beginning was indeed you, yours. The suspicion is great, but since you have no problem! "

"I can also understand why you guys doubt me. After all, I have indeed betrayed you before, but I can be sure that I have no choice. Why should I go back to find that guy?"

Now only Long Xiaoyun was left uninvestigated, but Long Xiaoyun was just an ordinary girl, Qin Yuan didn't know how to investigate.

Zhang Meng seemed to be very magnanimous. He didn't care too much about the things he was suspected of, but instead helped to analyze them.

"You have never been in contact with her, but I can't tell. When I contacted her, she was normal and didn't find anything abnormal."

"So you think I can use this method to investigate her?"

"Since this has already happened, you can investigate, and for an ordinary person like her, even after you investigate, you don't know what's going on."

Qin Yuan nodded, a little embarrassed. After all, most of his suspected targets had been completely shifted to Zhang Meng's side before, but the result was unexpected.

"You don't have to be ashamed of me. This is what they made up. It will make people hard to guard against. You should investigate now."

Qin Yuan nodded, didn't know what to say, said sorry, and walked out. Just after he came out, he saw Long Xiaoyun, it seemed that it was time to investigate her.

Long Xiaoyun ran forward enthusiastically as before, holding his arm, "Brother Qin, why did you come out of Sister Zhang Meng's room?"

Chapter 1153: Anyone okay?

Qin Yuan looked at Long Xiaoyun in front of him with very complicated emotions. He didn't know what to say. After thinking about it for a long time, he had to make a decision as soon as possible for the safety of the entire team.

If Long Xiaoyun is really the traitor, then he must not be merciful. This time Zhao Tao, he will not know who it is next time.

In this way, Qin Yuan brought Long Xiaoyun downstairs, she is an ordinary person, if she invades her directly, she will not notice anything, and if she is hypnotized at that time, she thinks she is just sleeping. It's just a sleep.

Long Xiaoyun looked at Qin Yuan looking at herself with complicated eyes, a little strange, "Brother Qin, what do you mean? Do you have anything to say to me?"

In the next second, she was directly hypnotized, and Long Xiaoyun's entire thoughts had been completely emptied, and Qin Yuan began to carefully check his mind, including what she had done recently.

But it's strange, everything is normal, except that some parts seem to be disconnected, but Qin Yuan doesn't know what's going on, it's like a stuck disc, after reaching this position, other things can't be asked, It suddenly jumped to a certain scene.

Qin Yuan didn't believe in evil, and tried several times, but of course there was no problem.

And at this time, Long Xiaoyun was under control for a long time, and cold sweat appeared on her forehead, because for her, she is now in a dream, and it is very likely to be a nightmare.

When Qin Yuan heard the movement, he raised his head and saw that it was Zhang Meng walking down. Seeing Long Xiaoyun's painful expression, he knew that he was being controlled.

"How did you check? Is there anything wrong with her body?"

"It's strange, there is nothing, but some blank clips appear instead, I don't know what's going on."

"If you don't find out, then you should release her as soon as possible. This will damage her brain nerves, and she may not be able to hold back for a long time."

Qin Yuan sighed, there is no other way now, this is the only way to go, after Long Xiaoyun was released from control, she also slowly woke up, she didn't know what happened, she was in a dazed state.

When she opened her eyes, she saw Zhang Meng sitting next to her. She was a little confused, so she was sitting and chatting with Qin Yuan just now, why did she seem to have fallen asleep suddenly?

"Sister Zhang Meng, what's going on with me? Why does it feel like I had a short dream just now, but I can't remember what the dream was."

"It's okay, I saw you fell asleep here when I came down just now, and your brother Qin said to go up and get you a quilt."

Just as he was talking, Qin Yuan came down from the top holding the quilt, completely reassuring Long Xiaoyun's doubts.

She lowered her head in embarrassment, "Brother Qin, I'm sorry, I don't know what's going on, how can I fall asleep while chatting with you, it's really rude."

"It may be that you have come here recently, and you are too nervous. If I am here, you may be more relaxed, and it is normal to fall asleep."

Long Xiaoyun nodded, and looked at Qin Yuan more and more curiously. Zhang Meng saw something, but she didn't see through it.

Qin Yuan was very troubled in the basement at night, Li Kang couldn't wait to ask the result, but Qin Yuan shook his head.

"To be honest, I haven't found anything, including Zhang Meng. I have already interrogated her, but there is nothing. I doubt it will be 23. I plan to conduct a cross-examination of 23 and Zhao Tao."

Li Kang was a little surprised. If it wasn't the two of them, the possibility of one or two remaining would be even lower.

In the end, Li Kang was also very funny, he even doubted himself, "You look on me to see if I am being monitored by them, and then I don't know, for safety, I think everyone needs to accept you Review."

Qin Yuan didn't expect that Li Kang's awareness was so high. It's really good for him to think of this, and it's also very aboveboard, so he can let himself check.

For everyone's safety, Qin Yuan went through the screening again, not only Li Kang, but also Zhao Tao and 23. He went through the review, and there was no problem at all. This is really too strange. If there is no problem internally, how did they find it?

At this time, the sky gradually darkened, and it was impossible for Qingyuan to stay here forever, but he still made another decision. Although Zhao Tao only has one arm now, his basic system ability is still there, and his ability is still relatively strong.

Qin Yuan didn't want to let more people know about his true skills, that is, he could use merit points to change other people's physique and enhance their abilities.

But now, in order to protect Li Kang, their choice is necessary. Although this is only a small team, they have helped themselves more or less before, and maybe they will rely on them in the future.

So Qin Yuan intends to give Zhao Tao some more abilities. He already has basic system abilities, so that would be better. As for 23, he hasn't figured it out yet.

Because 23's abilities are not offensive like Zhao Tao's, and 23's main task now is to fill in the gaps in his memory as soon as possible, and quickly recall the missing information about the masked man.

As long as I let myself find the masked man's body, and then successfully reach their headquarters, all problems can be easily solved.

Zhao Tao's wound is recovering very well, basically almost done, after all, Zhang Meng's medicine has been treating him.

Just as Qin Yuan entered, Zhao Tao thought he was here to investigate again, but he was used to it anyway, so he said carelessly, "Brother Qin, haven't you found anything yet? If you want to

investigate at any time, you can investigate at any time." , I have a clear conscience, but I'm just worried that these guys will play some tricks and put something on us."

Qin Yuan stepped forward and patted him on the shoulder, "It's enough for you to have this intention, but this time I'm not here to review, but I want to tell you something."

Seeing Qin Yuan's seriousness, Zhao Tao also sat up quickly, "Brother Qin, just say what you want, don't worry, I can tell which is more important, and I will never reveal what you said ."

Qin Yuan nodded, and then said slowly: "Basically no one knows about this matter. I only tell you this to protect you. Even the people over there don't know about it."

When Zhao Tao heard Qin Yuan say that he could make his abilities stronger, he was also very surprised. This is not a joke, is it?

"Brother Qin! What you said can really make my ability stronger, but I only have one arm now, and I'm a little worried that if you give it to me, it will be useless."

"Of course I won't lie to you, and what if you only have one arm? The ability I can give you can strengthen you tenfold. Don't worry, I have predicted these things, but I don't want others to know about it."

Of course Zhao Tao knew that, he kept nodding his head, and repeatedly assured that Qin Yuan would slowly use his salary to strengthen his ability. On the one hand, he strengthened his strength, but also enhanced his speed and his fighting ability.

Zhao Tao didn't feel much at first, but then he had a strange force surging in his body. After a while, when all this was over, Qin Yuan looked at him and said, "Well, you just Throw a few punches at me, and the two of us go through a few moves, and you will be able to feel the change in your own strength."

Zhao Tao knew that it was impossible for him to hurt Qin Yuan, so he let go of the punch, not to mention that he only has one arm now, and he was not used to this arm before, because when he was punching with his whole body, he could no longer control his balance. .

Unexpectedly, the speed of willingness was very fast, and Zhao Tao also did not expect that he could escape Qin Yuan's attack. This is something he never thought of. This is too exaggerated. When did his reaction become so powerful? strong?

As Zhao Tao's reaction increased, his strength also increased. He was very aware of his own strength before, and now it is ten times stronger than before.

Qin Yuan dodged sideways, punched the sofa behind him, and the single sofa flew out in an instant. Zhao Tao was stunned. His strength could not do this before, but now it is no exaggeration to say that a Fist can kill people.

Hearing the movement, Li Kang hurried over, thinking that something happened, but he saw the flipped sofa fly out, knocking a big hole in the wall.

Zhao Tao suddenly felt a little embarrassed, and he quickly said with a smile: "Mr. Li, I'm sorry, I ruined your villa. We just had a sparring session, but we didn't expect it to be so serious."

"Ham, I thought something happened. I thought it was those guys who came again. It's all right. It's all a small problem. Money is something outside of me."

Qin Yuan is very satisfied with Zhao Tao's reaction. Now his ability has not only been strengthened, but also he reacts faster when faced with emergencies. At least keep this secret first.

After Li Kang went out, Qin Yuan looked at Zhao Tao solemnly, "That place is still safe, but I don't understand many things clearly, so only you can protect everyone, do you understand?"

"Brother Qin, don't worry. You gave me this ability in the first place. From now on, I will belong to you according to his life. Don't worry, I will protect everyone."

"Don't say that in the future, this ability is your own, I didn't give it to you, understand?"

He came to his senses, smiled hey, and then nodded again and again to show that he understood.

Because Qin Yuan can't stay in this place all the time, he has to go out to investigate other events. If it is a clone sent by the masked man, then this matter will become more and more complicated.

In addition, Qin Yuan just came out of the villa here, and he planned to go to Li Kang's previous company to investigate and see if he could find any details.

Unexpectedly, I received a call. It turned out to be from Wells. This guy hadn't contacted for a long time, and he never took the initiative to contact

Be yourself, could it be that something happened over there?

Wells spoke very fast, as if someone would watch him. After he finished speaking quickly, he only left one sentence at the end, "Remember, what I told you just now is true, but this is also my bargaining chip. I hope You can give me stronger power next time."

After hanging up the phone, Qin Yuan carefully recalled what Wells said just now, probably the guy in the mask is going to do something, he has already sent seven clones of his lover.

On the one hand, he wanted to come to a replacement, and on the other hand, he also wanted to use these seven clones to search for people with systems in different places.

But what exactly are people looking for with a system to do? Wells didn't know, and he didn't even know the specific situation.

Combining the current situation of Zhao Tao and the others, it seems that their clone should have developed some special ability, and they can directly choose to forcibly recover their ability.

Speaking of Qin Yuan's sudden inspiration, something is wrong, isn't this recycling ability unique to him?

Did they make any breakthroughs in previous research? Because it is impossible for them to get in touch with the children now, it's just that they have to wait for the trouble.

Now the child has been in the brigade, so it is very safe, as long as he does not come out it is impossible to give them a chance, so Qin Yuan is now going to find these clones and eliminate them one by one.

Although the abilities of these clones are very strong, each of them is a small copy of Kieran's ability, but it should be very difficult for them to create such clones, so hurry up now.

Qin Yuan started to let go of the system completely, and let his system sense whether there were people with the system around him. He kept shuttling through the streets and alleys like this. Although it was the most stupid method, it was quite effective.

The enemy is in the dark, he doesn't know where these people will run, and his experience is very limitless, in such a situation, there is no need to worry about him running wildly.

At this moment, the system suddenly issued a notification sound, and a person with system ability was detected 100 meters ahead.

Without the slightest hesitation, Qin Yuan rushed forward quickly, only to see a few figures faintly appearing on the edge of the moat.

He rushed forward quickly, and saw a short figure, that guy turned his head, wearing a mask like the masked man.

The clone seemed to know about it a long time ago, she turned her head and stared at Qin Yuan coldly, "You guys throw this man's body into the river, and I'll take care of the rest."

This is not like what a child said at all, it is completely a killing machine, Qin Yuan frowned, and rushed up without hesitation.

Before, he couldn't bear to attack Qin Ran's clones, because they were his own children, so he couldn't do so, but now it's different, he must protect Qin Ran, and then all these clones must be wiped out .

Chapter 1154: enter amazon

The clone on the opposite side didn't have any emotion, and rushed towards Qin Yuan quickly. The two flying knives in his hand were shining with cold light, and came towards Qin Yuan's front.

Qin Yuan dodged sideways, and threw the flying knife in his hand. The reaction speed of the other side was very fast. He threw the flying knife again in his hand, and the two flying knives collided.

His genes are indeed very powerful, but what is this, it's just the beginning, and Qin Yuan has already experienced so much, the poker cards in his hand are played in an instant, and the clone has no idea that there is such a trick.

A cut was made in the clone's abdomen, and blood gushed out instantly. Without hesitation, Qin Yuan took the opportunity to punch her in the abdomen, and the clone flew out heavily.

At this moment, her mask fell off, revealing that innocent face again, Qin Yuan frowned, suddenly he couldn't do anything again.

At this moment, the man in black also rushed over. Qin Yuan threw out the knife nonchalantly. This time, he was in a state of hunting and killing. After throwing the knife, he directly punched another person in the head.

Several black people around him were instantly knocked down by him, but at this moment a man in black standing behind suddenly burst into a dizzy sound.

What ability is this? It was even able to make Qin Yuan dizzy, causing his throwing knife to suddenly change its trajectory and fall to the side.

The clone took advantage of this opportunity and wanted to escape, but Qin Yuan quickly used his charm ability and completely controlled the people around him. Regardless of everything, he rushed forward, grabbed the clone, and tightly choked her throat.

Ke Longti kept struggling, staring at Qin Yuan with a pitiful look, "Dad, don't kill me."

Hearing this, Qin Yuan's heart softened instantly, but then he thought, this **** pretended to be his daughter, they are not at all, they are just substitutes.

Even though he said that, he still couldn't make a move, his hands were trembling slightly, and his strength was gradually decreasing.

Afterwards, the clone's eyes suddenly revealed a fierceness, and a flying knife directly stabbed at Qin Yuan's throat, but Qin Yuan's own defense force actually resisted the flying knife, and after the flying knife swiped over, , just across a small bloodstain.

Sure enough, this was a killing machine, not his lovely Qin Ran at all. This time, Qin Yuan didn't hesitate, and increased his strength with a click, directly twisting her throat.

However, this is just one of them, he just solved one of the clones, and a clone like this would like to reclaim her skills, but there is no way at all.

Looking at the corpses on the ground, Qin Yuan clenched his fists. He must find other clones as soon as possible.

Relying on that kind of induction, he began to search frantically. Such a chance was too difficult. He didn't sense a faint breath until dawn, but when he arrived, the clone had already escaped, leaving only The next woman's body.

And women should have a system before, but now the system has been taken away abruptly.

How many people are there? Qin Yuan can't imagine how many people the celestial organization behind this has done experiments on.

Just when Qin Yuan was about to go down to investigate, Gao Shiwei called him from there, telling him to return to the team as soon as possible, gather urgently, and have a task.

When Qin Yuan returned to the brigade, everyone was already dressed. Gao Shiwei didn't say anything when he saw him. Recently, Qin Yuan is always very mysterious and has not been in the team.

"Qin Yuan, I don't want to say anything now, maybe you have a family, but you have to pay attention to the influence, you know?"

"Yes! Team Gao!"

After Qin Yuan changed his equipment on the helicopter, he carefully checked the mission. This time they were going to enter the Amazon jungle.

They want to enter the Amazon jungle to find a missing commando team. This commando team is a team from country H. It was supposed to enter the Amazon jungle to perform a mission, but the target of the mission and this team suddenly disappeared. , all signals cannot be searched.

Country H has already sent other assault teams to search for it, but the entire jungle is very extensive. They have been searching for a week, but there is no whereabouts, and the food that the assault team brought can only last for a week at most.

The main problem is that under such circumstances, they did not see any fire, so they began to ask for help from the international community, hoping that countries can send rescue teams to cooperate with them to find the missing commandos as soon as possible.

I am willing to look at the task, and I probably understand that this task is quite simple, just go in and find people, and a commando team like this should not be a problem in the jungle for a week, at least a month of life is no problem, after all, eating from the forest a lot.

Li Erniu said while eating beef jerky: "I said they can't even do the basic life, even if that kind of wetland, no matter how humid the jungle is, but no matter what, they can still start a fire, and they He still has a gun in his hand."

So this is the crux of the matter,

If there is no trace at all, that is a big problem.

"Anyway, we are cooperating this time, so let's look for it as soon as possible."

Qin Yuan's mind is not on this, what he is thinking about now is those clones, before he left, he called and explained to Mu Qingmei.

His mind was full of messy things, and he couldn't calm himself down.

There have been several reports from the headset in front of them, allowing them to prepare for skydiving, but Qin Yuan still didn't respond.

"Brother Qin? What are you thinking?"

Li Erniu called him several times before he realized it, then shook his head, now he was going to perform the task again, he couldn't be affected by these things, he should devote himself to the task wholeheartedly.

"It's okay, it's okay, I might have lost my mind just now, but I haven't had a good rest."

Seeing his state, He Chenguang was a little worried, "Brother Qin, why don't you go this time, after you go down later, you stay in the camp, let's just go, I don't think your condition is very good. "

It can also be said that he has exhausted a lot of energy recently, and has not slept for two consecutive days, and he is constantly looking for those clones.

Moreover, continuously using the system's ability to detect whether there are people with the system around him also consumes his energy.

He shook his head, "It's okay, as the captain of the red blood cell team, how could I not go with you, and this time it's a coordinated operation, there may be some danger there, I don't worry."

"Brother Qin, but your state is really worrying, or else you should take it easy, let us go in first, and you will follow behind."

"It's okay, that's it, everyone is ready to skydive."

Qin Yuan saw the target on the ground. There was a person waving a flag. There was a big landmark on the side. Everyone jumped down together, and they were all preparing to collect it. At this time, there was another rumbling sound, which should be from another family. team.

The officer in charge of the reception hurried over, "Captain Qin, thank you for your hard work. I didn't expect that we would meet again on this occasion."

Qin Yuan looked at the person in front of him and carefully recalled that this person seemed to have performed some training tasks with them before.

This person seemed to be called Jin Zhengchuan, and Qin Yuan also greeted him politely, and Jin Zhengchuan began to introduce the specific situation.

"We now have a total of six teams starting to search, plus a total of 12 teams that you came to support, two of which have already entered, from different directions, and now I will act together with you."

Qin Yuan felt a little strange when he heard this, why so many people were dispatched this time, it was just an assault team, which made such a mobilization.

Moreover, the commando led by Jin Zhengchuan is also well-equipped. Qin Yuan noticed that the other teams acted alone, but this guy insisted on being with him. what.

"By the way, Captain Jin, I would like to take the liberty to ask, which direction should we go now? Just now you said that we have entered other teams, so should we set a new goal?"

"That's right, before we detected the place where their signal finally disappeared, we have to look there separately. I have a new target, and you just follow me."

Qin Yuan nodded, and led the team to act together. After all, this is a tropical jungle, and everyone's speed has slowed down.

When they reached the place where the special operations team disappeared in the last action, they saw some traces.

There are scattered bullet casings all around, as if a fierce battle broke out here, many bullets hit tree trunks and bushes, but there were no corpses or bloodstains.

There are just some very scattered footprints, which is very strange. Who are they attacking?

Qin Yuan carefully observed the surrounding situation. At this time, he heard footsteps and looked up. Looking at their attire, it should be the team from the country of Mi.

Normally, the team from the United States would not bother to participate in such a search mission. Unexpectedly, they would also come this time, and Qin Yuan was full of doubts.

The voice of Jin Zhengchuan saying hello interrupted his thoughts, only to see Jin Zhengchuan Bharara running over, and then reported the situation to them.

Li Erniu stepped forward to take a look, looking at the surrounding environment, "Brother Qin, I went to the back position just now, so according to the normal traces, someone should have been injured and fell there, but the soil is very fresh, even The **** dirt was taken away."

Wishing to hear this, I couldn't help but follow Li Erniu to that place. After walking there, I saw broken branches around. According to this trace, it is obvious that someone fell here directly after being hit by a machine and broke the branches.

The color of the surrounding soil is obviously a little different, but of course the blood stains on it have been dug away, it seems that the other party is really cautious.

Only

Whether this person is from the commando team or their so-called mission, they don't know why the commando team entered the jungle.

Because country H didn't disclose too specific a situation, it just said that they were carrying out a mission.

Qin Yuan straightened up and watched Jin Zhengchuan approaching. He told everyone to keep quiet. Jin Zhengchuan smiled, "Captain Qin, did you find out what happened? How many teams have passed by here today, but nothing Didn't find it?"

"Captain Jin was also joking. How could I find out? I just wandered around and found nothing."

Qin Yuan was obviously relieved when he saw Jin Zhengchuan. Although it was a small detail, it was also noticed by Qin Yuan, and everyone remained silent.

In this way, the team from the United States set off towards the southeast, and Qin Yuan and Jin Zhengchuan's team set off towards the southwest.

Walking forward did not give any clues. After all, an assault team like them was relatively concealed. Qin Yuan was also very puzzled. In this position, it should not be said that contact was broken. Positioning equipment and communication equipment.

Hearing Qin Yuan's question, Jin Zhengchuan smiled, and then motioned Qin Yuan to take out the compass, "Look at the compass now, and you have completely lost your direction. There seems to be some kind of magnetic field underground in this place, which will affect your judgment and direction. ."

No wonder they lost their way completely, which can also explain, "Then if we go out now, how will we communicate?"

Jin Zhengchuan raised the walkie-talkie in his hand Now he can only use this old-fashioned way, "I don't know what's going on, after entering this place, all mood signals will be completely blocked, and only Take the most primitive way."

Speaking of this, another team's report came from the intercom. Everyone will report the location every half an hour, and there is also a specific situation. At present, there is no progress.

The Amazon jungle is very vast, and I don't know how long this search will last.

At this moment, Qin Yuan heard a movement in front of him, a very slight cry for help. He ignored Jin Zhengchuan at all, and quickly rushed forward. Jin Zhengchuan didn't know what happened, and ran after him.

They ran to a ravine in front of them, Qin Yuan stopped, it was dark below, he couldn't see anything clearly, he was willing to throw one down, it instantly lit up the whole space, only saw a soldier lying in the ravine .

There was some blood on the soldier's back, and he couldn't see clearly, but he was calling for help in a low voice below.

Jin Zhengchuan was also stunned, what kind of hearing is Qin Yuan doing? Since it can be found in this way, this is too exaggerated, the surrounding is very quiet, but they didn't hear any sound.

Originally, Qin Yuan wanted to go down, only this soldier, but Jin Zhengchuan said that his people could go down.

Just like this, a soldier was tied with a rope and slowly went down. Everyone was watching their every move, and the soldier turned over the injured soldier carefully.

Qin Yuan noticed that the wound on his back was a gunshot wound, and it looked like someone attacked him directly from behind, and then drove him into the ravine.

Chapter 1155: There must be tricks

At this time, Qin Yuan's attention was originally on the soldier below, but Jin Zhengchuan suddenly picked up the walkie-talkie to attract Qin Yuan's attention.

"The sixth team found the situation here! And found a wounded person, bring the health worker up."

Qin Yuan turned his head and told him, "Don't worry, there should be no need for a health worker. I can help him here. We have all learned medical bandaging, and we also have medicine here."

Jin Zhengchuan laughed, "Captain Qin, thank you."

After a while, the people below had already pulled the soldier up, but they didn't expect that the one who pulled up turned out to be a corpse. This is not right. The soldier was still calling for help. Although his voice was very weak, Qin Yuan can assure you that he will definitely is alive.

But now the person pulled up is a corpse, with no breath at all, Qin Yuan couldn't believe it, so he squatted down to check carefully.

At this time, he noticed that there was a small knife edge where the soldier was pulling the rope. Although this kind of knife edge looked very small on the surface, the entire blade was very long and very thin, and it was easy to injure the internal organs inside.

If he's not mistaken, this is the special warfare saber from country H.

Sabers with this characteristic are generally used to interrogate prisoners, because the outside world does not see too many wounds, but the wounds to that part are actually very serious, especially if the soldier himself has suffered such serious wounds. He was shot twice in the back, and now he is hit like this again, he must not be able to hold on.

At this moment, Jin Zhengchuan was very surprised, and he hurried forward, "What's going on? How did you do things? Don't you all be more careful? He was fine just now, how could he just die?"

"Captain, it may be that he is too weak. He couldn't hold on during the process of our transfer just now, so he couldn't be rescued."

When Qin Yuan heard this idea, he thought it was impossible. It seems that these guys really have ghosts. Jin Zhengchuan was very active along the way, especially when they found new clues just now, Jin Zhengchuan hurried over.

Such wounds, for special forces like them, can be seen as long as they take a closer look. Qin Zhengyang also found it when he went to check the corpse. He stood up regardless of everything and said:

"Wait, something is wrong, why is the wound on this person like this?"

Hearing this, Jin Zhengchuan was a little flustered, and quickly withdrew to block his sight, "Brother, what did you just say? If it's a wound, let's wait for our professional staff to check it."

Qin Yuan quickly winked at him, and then smoothed things over, "Captain Jin, don't get me wrong, mine is a soldier, but I haven't seen a gunshot wound, you know, this kid just joined the army this year, and he hasn't had any injuries yet. See."

Only then did Jin Zhengchuan nod his head, but he still had doubts in his heart. At this moment, Qin Zhengyang immediately reacted, and he smiled.

"That's right, that's right, Captain Jin, because I've never seen Qianshan before, so I'm a little curious, I didn't expect it to be like this."

Only at this time did Jin Zhengchuan feel relieved. He turned out to be a new recruit with no threat at all. He thought that something had been noticed. The lowest of him now was Qin Yuan.

Now that the soldier is dead, Jin Zhengchuan frowned, looked at Qin Yuan and said, "Leader Qin, I think so, we don't waste time, you start in the direction I said, I'm here waiting for the medical team to come Explain the situation to them, and I will follow you as soon as possible."

This guy stayed here on purpose, he didn't know what to explain, and he even sent the team to Qin Yuan's side. Qin Yuan thought it was helping, but now it looks like surveillance.

So it became more and more clear about their problems. Anyway, Qin Yuan would just follow suit, and he wanted to see what the **** they would do next.

"Captain Jin, our team walks faster, but I don't know if your team can keep up."

"Hahaha, Captain Qin was joking, don't worry, I have more confidence in my team members, I think there should be no problem."

Qin Yuan smiled, then nodded, and started to set off in the direction he indicated. Before setting off, he turned his head, looked at Jin Zhengchuan, and waved at him.

This kid is really too ghostly. He was worried that the soldier would reveal other information, so he was killed directly in the process of pulling him down.

Qin Yuan took the red blood cells, and the team members deliberately accelerated their speed so fast that the soldiers from country H couldn't keep up with them trotting all the way, only to see Qin Yuan and the others walking through the jungle with ease.

Gradually, the distance between the two parties became wider and wider, and in the end Country H couldn't keep up.

"Captain Qin, slow down in front of you, we won't be able to keep up behind."

Qin Yuan had deliberately thrown them away, "Okay, then speed up, let's slow down and catch up quickly, after all time is life, we have to hurry to find the missing special

Warriors. "

Li Erniu turned his head to look, then lowered his voice, "Brother Qin, it's almost the same now, they shouldn't be able to hear you from this position, it's about 800 meters away."

"I just said that this group of boys still wanted to compete with us in running, and I deliberately let him, otherwise they wouldn't even be able to see our butts."

Qin Yuan waved his hand, and then started to talk about business. He felt that there was definitely something wrong with the search this time.

"If you find any clues later, you should report to me as soon as possible. That kid Jin Zhengchuan is definitely tricky."

"When I arrived at the assembly point before, I found out that there was a problem. Why didn't he follow other teams, but insisted on following us. You must know that we are the strongest team, which means that this kid wants to guard against us."

Then everyone talked about the soldier again, and Li Erniu was very sure that the soldier was definitely alive when he was in the pit.

So the key issue now is that they were kept in the dark to find the special forces. It is not known whether it is true or not, but so far they have seen the bodies of the special forces.

And they were killed by themselves, and the others don't know what happened, and the United States is also involved, so this matter is not easy.

On the other side, Jin Zhengchuan was waiting for the staff behind him to come, and he began to yell loudly.

"I don't know how you guys do things, why one is missing here, do you know? He almost found out just now."

"How is this possible? We dealt with it very cleanly, and all the remaining people were driven into that swamp by us, and it is absolutely impossible for them to come out."

"I really hope it's impossible to come out as you said. You have to know that Qin Yuan is a difficult guy. If he finds out something, then this plan will be over, understand?"

"Ok ok!"

After the explanation, the staff next to him hurriedly put the body in a bag and carried it down without any inspection. They already knew that, after all, they were the ones who killed the person.

Qin Yuan was sitting on the hillside next to him, looking at the country H team who ran up out of breath.

"Hey, I said that your physique is too bad. In a few days, you still need to let your captain train you well. We have nothing to run, and we have been waiting for you here for a long time."

The soldier in front was out of breath, I'm just kidding, he felt that he was running fast in the mountains, and the terrain here was already complicated, with one foot deep and one foot shallow, why did their special operations team run so fast? Cattle?

"Captain Qin, I have to say that your special operations team is really good, and the speed is incomparable."

"Hahaha, then we will wait here for your captain."

After a while, Jin Zhengchuan also caught up. His expression didn't change. Qin Yuan pretended to be concerned and asked: "Captain Jin, did your inspection find any specific situation that can help us?"

Jin Zhengchuan put on a distressed look, "There is really no way, nothing has been found at all, and that person's body has no value."

"That's really a pity, but is it a member of your special warfare team?"

"I don't know yet. We are investigating now. Anyway, let's search first."

All the questions this guy asked were avoiding love, and he could already conclude that they definitely had something to hide from him. How could it be possible that even the members of his own team didn't know about it?

And this guy is always on guard. It's really inconvenient to have them follow him to do a lot of things. Qin Yuan didn't miss any corners. He searched carefully and found no clues.

This situation can only explain one problem, they should know where the missing players are going, and the guy deliberately led himself in the opposite direction, because he was worried that he would find the clues first.

Seeing that the sun was setting again, Jin Zhengchuan looked around, "Captain Jin, take a look, or we can find a suitable camp and rest tonight. After all, everyone has been searching for a day, and we can continue tomorrow."

"Ah, are you guys going to rest now? I mean, let's take advantage of this time to search quickly. After all, in this primeval jungle, if something happens, those special operators are very dangerous."

But Jin Zhengchuan showed indifference, and he said with a smile: "Captain Qin, I know that you also have good intentions, but people are like iron and rice are steel. We have been looking for it for so long. We can't, let's fall down first, don't worry." Bar."

This guy just doesn't care about this matter at all, Qin Yuan has already seen it anyway, if this is the case, then follow his wish first, and find a way to go out alone after finding an opportunity later.

Everyone found an open space at random, and planned to camp here tonight, and then everyone started to go out in batches to find firewood and come back to make a fire.

He Chenguang was eating compressed biscuits in front of him.

Looking at the surrounding environment, "It's not what I said, look at the road this guy brought us here, there is no trace at all, even if they are special forces, they will leave footprints more or less, after a day of searching nothing."

"That's why I said just now that this guy completely deviated us from the road. I think it's just to monitor us."

Qin Yuan now intends to take one step at a time, and when he finds an opportunity later, he will directly separate from them.

There was nothing to do at night, everyone took turns to watch the night, and just like that, they continued to set off at dawn.

Of course, Qin Yuan knew that in this kind of place, there would be no clues to be found now, after all, this guy was deliberately leading them around in circles.

Jin Zhengchuan still looks good. He sat down on the road and reported the situation through the walkie-talkie at any time. During the lunch break, Qin Yuan asked the team members to relax. There is nothing wrong anyway, but it will not work if this continues. , he has to find an opportunity later.

Unexpectedly, this opportunity came soon. Jin Zhengchuan found an excuse and wanted to go outside to report the situation, but he had been out for more than ten minutes and hadn't come back yet.

"Hey, brother, it's been ten minutes since I asked you to go and see your captain, where is he going?"

The members of the country H team here are also very strange, so they can only go out to look for it. Qin Yuan also went out with them, only to find Jin Zhengchuan lying in pain in the ravine behind.

Taking a closer look, there were two blood holes on his feet. It was obvious that he was bitten by a poisonous snake, and the soldiers next to him hurriedly used bandages to strangle the wounds to prevent the toxin from spreading.

Jin Zhengchuan's body was trembling non-stop. Of course Qin Yuan could save him, but right now he didn't think it would be of any benefit if this guy saved him.

Looking at the panicked soldiers beside him, Qin Yuan coughed twice, "I think so, you should quickly contact the health team to pick up your captain, this is a snake bite, no joke, we don't have any serum. "

"Captain Qin, but I don't know if this is a poisonous snake. Our captain's previous order is that we must find special forces."

"Why are you so confused? If you look at his current state, he is already in a coma. It's not a poisonous snake, or when the poison spreads all over his body, he will be sent to the health team, and he can't be saved."

Hearing that the soldiers next to here were also very nervous, they had no choice but to contact the health team quickly, and after sending a coordinate through the radio next to them, they began to wait for the health team.

The corner of Qin Yuan's mouth turned upwards. This time, he should be able to find an opportunity, because the most difficult person to deal with is this Jin Zhengchuan. As for the soldiers under him, it is relatively easy.

Half an hour later, there was a rumbling sound in the sky, Qin Yuan hurriedly asked them to fire the signal gun, and then the ladder came down.

Unexpectedly, this guy Jin Zhengchuan woke up now, but his mouth could not speak, it should be paralyzed by the snake venom.

Qin Yuan patted the back of his hand, and said solemnly: "Captain Jin, don't worry, you go back first, leave it to me here, and I will definitely take your soldiers to find those special forces."

Chapter 1156: Find a way to drop them!

Jin Zhengchuan was very emotional, he was speechless, but he pointed at his soldiers and let the soldier in front pass by.

After the soldier walked over, Jin Zhengchuan held his hand tightly. Although he couldn't speak, his eyes were still communicating. Of course, the soldier knew that he was explaining something before, so he must not stay away from Qin Yuan and the others. All they have to do is monitor.

Just like that, Jin Zhengchuan was taken away by the helicopter, Qin Yuan stretched his waist, at least now there is nothing to restrain himself, these soldiers can easily handle it.

Seeing the helicopter drifting away, Qin Yuan cleared his throat, "Then let me lead you now, and now we will continue to search."

The soldier nodded. Now that Jin Zhengchuan is not here, he has to take the lead. The team leader is very nervous. He doesn't know if he can supervise Qin Yuan.

Because Jin Zhengchuan didn't explain other things at all, he just walked with Qin Yuan and the others in this direction, and he knew nothing about other things.

There is no way to clearly identify the direction in this place, so Qin Yuan took advantage of this loophole. His thoughts and various senses are stronger than these soldiers.

And in such a harsh environment, those precise instruments have completely failed, all rely on the crude maps in their hands, but the landmarks are very vague.

Qin Yuan has slowly brought the team back on track, and has completely deviated from the previous direction. He intends to go to the place where the soldiers were found.

Maybe if we look in that area, we can find other clues.

In this way, for a day, they came to the place where the soldiers were found before, but Qin Yuan deliberately took them far away, and the previous ravine could not be seen from this position.

Although the soldiers of the country H team didn't know the exact location, they found the marks they had made before.

He was a little curious, and hurried forward and said, "Captain, please wait a moment, I wonder if we are going around in circles and back to where we were before, otherwise how could this happen?"

Pointing to the mark they made earlier, he said with certainty that this was left by their captain, and he must be going around in circles.

Qin Yuan walked over with a smile, and patted him on the shoulder, "After all, the forest on this side is so big, it's okay, even if you go around in circles, just look around here."

At this moment, Qin Yuan showed a nonchalant attitude, which was mainly used to confuse the soldier, and let him see that he didn't care about this matter at all, and just wanted to be lazy.

The soldier looked at the smiling Qingyuan, and instantly understood that cooperating with this guy is just to be lazy. If this is the case, that's even better, and it saves him the trouble of looking for it by himself.

"Captain Qin, it seems that I misunderstood you just now. After all, this forest is so big, there is a possibility of getting lost, so it's better for us to walk slowly."

Through the soldier's words, Qin Yuan was even more sure that they didn't want him to find the special forces member, and the reason why he asked them for help this time was probably because of some reason, which disrupted their plan .

If this is the case, it will be even more interesting. I didn't expect so many things to be involved in just a simple search and arrest operation.

Qin Yuan was still in the same state as before. They rested at night and set off during the day. When they set off in the morning, Qin Yuan deliberately climbed up a tree to check the direction. This time it was a brand new direction, and he didn't find any signs. , it seems to have gone out of that range.

The environment in the jungle here is very harsh. It is like entering another kind of wetland. The jungle feels like there are shallow puddles left by the rain. There are no roads at all, and weeds are overgrown everywhere.

In such an environment, everyone is very tired. Although the sun can't shine in, the sweltering environment makes the sweat on the back flow, and it is uncomfortable to stick to the clothes.

The team leader in front was walking aimlessly, when Qin Yuan suddenly grabbed him.

The team leader was very nervous, and the gun in his hand was almost raised, and it was pointed in Qin Yuan's direction. Qin Yuan smiled. such a move.

"Brother, what are you doing? I'm telling you to be careful. Look at what's in front of you?"

The team leader looked up, only to see a snake hanging upside down on the big tree in front of him, spitting out its core, staring at them coldly.

The team leader broke out in a cold sweat. If Qin Yuan hadn't held him back just now, he would have been bitten by the snake, but just now he thought Qin Yuan wanted to do something to him.

At this time, Qin Yuan swung the flying knife in his hand, and the poisonous snake was cut into two sections. The soldiers behind were completely dumbfounded. This is too accurate, and the knife technique is so fast.

"No problem, everyone be careful, I have seen two snakes just now, which means that snakes in this area

There are a bit too many, everyone be careful not to be bitten. "

With Qin Yuan's reminder, and seeing the intuitive scene just now, everyone couldn't help but slow down a bit. This is exactly what Qin Yuan wanted, and he led his team to move forward quickly.

The members of the red blood cell team were brought into that kind of virgin forest before and trained many times. They are very familiar with this environment, so they are not affected at all. In addition, their physique has been changed, and their walking speed very fast.

They quickly left the country H team behind. The soldiers of this team wanted to keep up, but they didn't dare to go so fast, for fear of encountering poisonous snakes, poisonous insects and the like.

The little captain could only helplessly shout from behind: "Captain Qin, if you slow down a bit, we will almost be unable to keep up."

"It's okay, anyway, this is the road, we are ahead, you can go slower."

At first, he could still hear Qin Yuan's answer, and the team leader felt relieved. Anyway, it's just where the Conglin can throw it. At worst, they should be faster.

But soon he found that something was wrong. He could hear some slight footsteps and see a little back, but gradually he couldn't see anything. He was a little anxious to let the team speed up.

"Go faster, you will really lose track later."

"Captain, it's not that we don't want to go fast, you see brothers, this has already caught up with the speed of the rapid march, you know, we have been in this broken jungle for three or four days, and our physical strength is really exhausted. "

"Nonsense, look at the red blood cell team in front, it's so normal when they walk down."

The soldiers behind were scolded, but they were also very unconvinced in their hearts. Since he is so powerful, his captain is not at the same speed as them, and everyone can't catch up. There is nothing to worry about.

"Captain, I don't think you need to be so impatient. Anyway, it's only such a short distance, so we won't lose it anywhere. We just follow them."

But just like that, after only ten minutes, the captain kept calling Qin Yuan in front of him, but this time there was no response, and a bad feeling arose in his heart.

"Captain Qin, are you still there?"

But no one responded at all, he hurried forward, but there was no one at all, he cursed secretly.

"What the ***** is going on? It just disappeared out of thin air."

The soldiers behind caught up panting, "Captain, don't be so anxious, they must be ahead, maybe we were too slow just now, then let's catch up now."

Now it is not the problem of his speed being too slow, but Qin Yuan has already left them behind completely, so there is no need to think about other problems.

Because Qin Yuan noticed a footprint on another branch road before.

If it was their search team, there would be many footprints, because in such a low-lying environment, it is easy for a small group of footprints to appear, and there is no way to completely remove them.

But there was only one footprint that was very shallow, and it looked like it had been tampered with to hide it, and there was some fresh soil around it to cover it up.

But because the country J team has been following them, he has no way to investigate, so he can only use this method to get rid of them first.

In this way, they completely left the team behind and came to the place where they found the clues before.

Qin Zhengyang looked behind him, "Brother Qin, is there really nothing wrong? Nothing will happen to them over there, right?"

"Don't worry, what's the problem? Are they holding fire sticks? Besides, they can still send messages asking for help. It's okay. If they really ask, they will say that they got separated accidentally."

Qin Zhengyang nodded, and then he was in charge of guarding nearby. Qin Yuan stepped forward and began to inspect the traces he found before. He squatted down carefully and slowly peeled off the surrounding soil. Sure enough, he saw a row of footprints, but these footprints have There are deep and shallow ones, as if this person was injured, one of the left and right footprints is deep and the other is shallow.

This is really interesting, someone is deliberately covering up, not wanting them to find this special force, and then they send so many people here.

It was really contradictory, Qin Yuan planned to set off in the direction of the footprints, so they searched for more than ten minutes, and found another fresh trace.

I saw a drop of dried blood on the leaf next to it. If ordinary people passed by, they would not notice it at all, but Qin Yuan's vision and sense of smell have reached their peak state, and he will not let these small details go.

It can be seen that this person is also very cautious. Since arriving here, the entire trace has begun to disappear, and Qin Yuan can only start searching on a large scale.

After searching around, he didn't find anything. At this moment, Qin Yuan squatted down, and he heard a very subtle breathing sound. He was very clear about the breathing of everyone in the team.

He let out his hearing completely, and indeed there was another sound of breathing, which sounded very weak.

He slowly moved in that direction, and the team members followed behind him. After walking for more than ten minutes, the sound of breathing became more and more clear.

It seemed to be coming from the cave in front, and he rushed up with his people. At this time, the breathing in the cave became more and more rapid, and one could hear the tension.

The team members didn't know what happened, they just followed Qin Yuan and ran forward.

Just entering the cave, he didn't expect to shoot directly inside, a bullet came out, Qin Yuan dodged sideways, turned over and rolled in front of the man, and kicked the pistol away in his hand.

Li Erniu at the back was also very shocked. They didn't expect that there were people hiding inside, and there was a gunshot just as they entered.

In this quiet jungle, the gunshots were very abrupt, and they spread far away.

The soldier who fired the gun was terrified and stared at Qin Yuan closely. At this moment, his hands and feet were restrained, and he could not move at all.

He Chenguang stepped forward and kicked him on the waist, "You bastard, no one could see clearly, and you shot without saying a word. Fortunately, our captain reacted quickly."

The soldier on the ground screamed in pain, but he didn't respond much, or his body was very weak, his lips were white, and he seemed to have been hungry for several days, and he didn't have any food on him.

In addition to the pistol, there is also a dagger, and judging by what he is wearing ~www.readwn.com~, it seems to be the special operations team from country H, because before they set off, they saw a rough photo, the above The clothes are the same.

Seeing that Qin Yuan was about to take him out, the soldiers on the ground began to struggle violently. Qin Yuan could only quickly comfort him, "Don't move around, we are the Yan Kingdom's special operations team, specially here to rescue you, don't worry, I will definitely will protect you."

The soldier was stunned when he heard the word Yan Guo, "Are you sure you can protect me?"

"I'm here to search and rescue you, and I will definitely protect you."

The soldier was stunned for a while, then suddenly thought of something, and quickly got up from the ground, "I can tell you something, but I can't stay here forever, because I should have exposed myself by shooting just now, let's leave quickly first. "

The soldier stood up and limped, trying to go outside, but the struggle just now made him a little exhausted. Qin Yuan supported him from behind, and then took out some food.

"Don't worry, there are no other people around here at present, you should eat something to replenish your strength."

The soldier was dubious, but looked at the food in Qin Yuan's hand and swallowed, then snatched it, and ate it with big mouthfuls.

It could be seen that he hadn't eaten for a long time, and he was coughing violently due to choking on the compressed biscuits. He Chenguang frowned and handed him a pot of water.

"How long has this guy not eaten? This is too exaggerated."

Hearing this, the soldier shook his head, his mouth was full of food, "For four days, after being separated from my team, I haven't had a sip of water, and I dare not go anywhere."

Chapter 1157: found 1 live

Seeing his embarrassed appearance, Qin Yuan patted him on the back, "You should eat first, don't worry, we still have a lot of food here."

"No, no, we have to leave as soon as we finish eating. I hope you can save our people."

The soldier said it was very serious. After eating quickly, he was anxious to go outside. He didn't want to stay in this place for a minute.

"By the way, I trouble you to bring us here, and remove the traces quickly, so that they can't be found."

them? Qin Yuan was a little puzzled when he heard this, who was involved? But thinking about it, it is very likely that it is Jin Zhengchuan and the others.

In terms of dealing with the traces, there must be no problem. Synthesis picked up a few branches, completely cleaned up the footprints they came in, and picked up the shell casing at the beginning.

It was almost dark at this time, and the soldiers seemed to relax a lot about the darkness.

"It's hard for them to find our whereabouts after dark. To be honest, I'm still not sure that I can trust you, but you saved me just now. It seems to be my last hope."

What this guy said was very strange, but Qin Yuan wanted to continue asking, so he shook his head and stopped talking. It seems that he still doesn't trust him enough. Let's talk later when he is willing to talk.

This is the Amazon jungle, full of all kinds of poisonous snakes and poisonous insects, so it is better to stay where you are at night. If you leave, it will be really dangerous for other team members.

Not long after Qin Yuan and the others left, another team also came to the place where the gunshots came from, but they only knew that the gunshots came from this direction, not the exact location, so they started searching everywhere, but couldn't find it. what clues.

If you look carefully, you can see that the clothes on them should be the team from country H.

The man with glasses in front looked polite, he frowned, "Strange, are you sure you heard gunshots here? Why is there nothing?"

"From the perspective of the current search team, no one will shoot rashly, and among all the teams we have collected, everyone is using assault rifles, and the shots are continuous, but the sound just now was the sound of a pistol. "

"So you suspect it should be that team."

"It should be that guy found us, or found other prey, so he solved it with a gun."

"I really didn't expect that there are still people alive. This is the result of your poor handling of affairs. I don't want this kind of thing to be discovered, especially when several special operations teams are also involved. Do you understand?"

The people behind nodded, and just like that, they continued to search here, planning to continue to expand the scope, but at this moment Qin Yuan and the others had already moved away from this area.

Sitting next to the fire, the man looked at Qin Yuan, and asked very seriously: "Do you think I can trust you? Although you are from Yan Kingdom, can you tell me which team you are from?"

"We are the red blood cell special operations team, I think you should have heard of it, but what happened to you?"

When the man heard this, his eyes lit up instantly, and he grabbed Qin Yuan's wrist with some excitement.

"Red blood cell team! It turned out to be you. If I really didn't expect it, you should know our captain. Our captain's name is Park Zhengming!"

"Park Jung-myung?"

Qin Yuan began to recall carefully. To be honest, he didn't seem to have any impression.

The soldier was very excited, and he quickly explained, "Our captain participated in a foreign training mission with you before, so he admired you very much at that time, and said that if we meet you on the battlefield in the future, we must maintain respect."

Since this is the case, there are too many teams who have participated in training with him. It is normal for Qin Yuan not to remember, but it seems that this soldier has completely let go of his vigilance.

Although he didn't remember the captain, the soldier didn't pay much attention to it, but hurriedly told the truth of the matter.

"Captain Qin, it's not that I don't believe you on purpose, but that there's a reason for everything. We've been hunted down all this time!"

what! ! Hearing this result, everyone was shocked. They have been hunted down all the time. What's going on?

The man asked for another compressed biscuit. He ate most of the food along the way, and it seemed that he was indeed hungry for a long time.

It turned out that they didn't know the mission that their special operations team was ordered to come in before. It seemed that they were looking for a doctor of biochemistry, and he had some very important data in his hand.

They don't know much about this doctor of biochemistry. The task given to them is to find this doctor of biochemistry and try to bring him back alive, as well as the data in his hand. There is no explanation for the rest.

In this way, the team set off on the cover. On the third day after they came in, they finally found the trace of the biochemical doctor. They were not alone, but a team composed of more than a dozen people.

Their captain began to be ordered to

These people pursued, and those people were not vegetarians, and soon they had a battle in the jungle, and two special forces members were injured.

But the other party was not much better. At that time, they killed three gangsters, and found no clues on them, but judging from their clothes, they were all terrorists from abroad.

They clearly said that they wanted to catch a doctor of biochemistry, but looking at the guns they used, it seemed that it was not that simple. What's more, during the pursuit, they found themselves completely lost.

Because they used high-tech precise positioning equipment, they didn't expect it to fail completely after entering.

But they are soldiers, and their main duty is to obey orders, so the main task at that time was to catch that doctor of biochemistry.

Under this kind of pursuit, they did capture the doctor of biochemistry, but their losses were also terrible. In this capture operation, they lost four teammates.

So their captain was very angry, and began to interrogate him after catching the doctor of biochemistry. Although this was against the rules, the captain wanted to know what mission they were doing, and he couldn't let his brother sacrifice in vain.

In order to save his life, the doctor of biochemistry also revealed what they were researching, which seemed to be some kind of system.

Of course, when it came to the system, Qin Yuan's eyes suddenly lit up, "System? Why do you still study this kind of thing?"

"That's right, but we are also very strange. We don't understand what system he is talking about. Anyway, he said a lot of messy celestial organizations and the like."

Qin Yuan suddenly became excited when he heard this place. He didn't expect to find things related to that organization here.

This can also explain why the American team got involved. This was originally something they did, but they couldn't handle it for a while, so they sent people in.

The soldier went on to say that at that time when their captain was interrogating, they thought it was very strange, because they had never heard of these things, so they thought that the doctor of biochemistry must be lying.

Unexpectedly, after the doctor of biochemistry finished speaking, their previously malfunctioning equipment suddenly recovered, and at this time the captain also received an order from above, asking them to gather at a certain place with the doctor of biochemistry.

Since this is the case, they have nothing to do. It seems that the task has almost been completed, and now they only need to take people out.

The place is here, when they brought the biochemical doctor to the commanded place, what awaited them was not going home, but a machine gun fire.

At that time, they were completely dumbfounded. The doctor of biochemistry had just boarded the helicopter when the people below began to shoot them.

The rest of them began to flee wildly. Even their people were also their helicopters. The captain couldn't figure out how to attack them.

And because of the equipment on them, those people could accurately chase them, and even sent other teams in. Although they fled into the jungle, they couldn't escape the pursuit of their own people.

They could only give up those positioning equipment, which is equivalent to giving up their own way of life, because without these advanced positioning systems, they didn't know how to get out, and they completely ran away in that chaotic situation.

The soldier was very painful when he said this, and he held his head tightly.

"Do you know? I ran with our captain at the time. He injured his shoulder. He could survive. We met the team who came to search and rescue us in the jungle. We were really happy, although at first we didn't know why those people Hit us, but we saw our own people!"

The soldier was very excited, and his mood became more and more tense, and he clenched his hands into fists, "It's just that I didn't expect that those **** shot us suddenly when they saw us. Our captain blocked me in order to save me." In front of him, he told me to run quickly."

When the soldier said this, he started to hold his head and cried out loudly. One can imagine his sadness. After all, it was his own people who attacked them, and his captain also wanted to save him.

Qin Yuan patted him on the shoulder, "This matter is really hard to accept. When we first came in, we also found some strange things, but don't worry, I will protect you."

The soldier nodded. Now he felt that the reason why they were hunted down was probably because the biochemical doctor they were interrogating discovered their secret, so they were silenced.

Qin Yuan also exchanged information with him. Currently, teams from more than a dozen countries are searching for them. It looks like they are trying to confuse the public.

The soldier only knew that the running was too chaotic at that time, but he still remembered the specific coordinates. He wanted to go to that place and then look for the rest of his teammates, but he didn't know if anyone was still alive.

This is also what Qin Yuan is concerned about. Since he has hooked up with the system, he has to look for it.

"Don't worry, this

I will definitely take care of the matter to the end, besides, this matter is really too dark, even my own people can do it to my own people. "

"Captain Qin, I've told you the truth. Are you really not afraid? There may be too many things involved in this, and I'm afraid you will also..."

"Hahahaha, are you talking about us? I wish I had never been afraid of anything. Don't worry, I will definitely take care of this matter today."

Qin Yuan asked the soldier to rest first, and then took them to that place, and then searched. There was no problem in the first half of the night, but in the second half of the night, because Qin Yuan and the others lit the fire, there were footsteps in the distance, as if a team.

Qin Yuan woke up the soldier, pointed to the big tree in front of him, and told him to hide in the tree first.

The soldiers also reacted immediately, and quickly climbed up the tree. After a while, a group of people came over.

Qin Yuan looked at the clothes of these people, there were people from the United States and people from the H country, and they were still shuttling through the jungle at night, it was really desperate.

The person leading the team in front came over and greeted Qin Yuan, "You are from the Yan Kingdom team, right? I didn't expect to meet you here."

"Yeah, I'm also very curious. How dare you travel through this jungle in the middle of the night. There are a lot of poisonous insects and snakes here."

The captain in front laughed, "After all, we have to hurry up and find our people, so there is no way, time is life."

Qin Yuan only finds it funny when he hears this now, and he hastened to find their people. Seeing this, he is eager to find the silencer as soon as possible.

He just said a few words in a perfunctory way, and Qin Yuan pushed back and forth like he did Tai Chi, and finally the captain couldn't bear it anymore.

"By the way, Captain Qin, did you hear gunshots during the day today?"

It would be too false to say that you didn't hear it. After all, in this empty place, gunshots can be heard far away from the forest.

"I heard it, but there was only one shot. I thought it was some wild animal from another team, so I shot it. I didn't take it to heart. Did something happen?"

The person on the opposite side was obviously relieved when he heard this, and he seemed to be on guard against himself, worried that he would find out.

"Oh, it's nothing. We thought it was sent by you, and we were also worried about whether we might encounter any danger."

"Hahaha, then you don't have to worry too much about this. There is no danger along the way. It can be said that this mission is really easy."

This side also confirmed their own affairs, and looked at the team. There was indeed nothing unusual, and prepared some food for Qin Yuan and the others, and then left.

From the looks of it, they were indeed in a hurry, worried that others would find out, that's why they took the risk to find that person at night.

After all, the sound of gunshots meant that there were still people alive, and they would definitely not give up.

After they were completely gone, the man jumped down from the tree, and he stared at those people viciously.

"These people really sound good. If there were any gunshots, we would have been saved a week ago. In fact, they all came to kill us."

Chapter 1158: Confidential documents found

"Are you so sure that it must be them?"

After all, it was impossible for such a coincidence to happen, but the man nodded firmly, "I'm very sure, because the person they took the lead shot at us at that time, so they were so anxious."

According to the situation on both sides, Qin Yuan has a general understanding now, it should be that the doctor of biochemistry is also in the Celestial Organization, and he fled in with some kind of experimental data.

The United States did these things very covertly, but the country H suddenly intervened, indicating that they were unaware of this matter at the beginning, and those who were later discovered their special operations team.

The main reason was to take that doctor of biochemistry back. Unexpectedly, the captain of the special operations team violated the rules and interrogated the doctor of biochemistry directly, and got some clues that they shouldn't know, so they were killed and silenced.

As long as those people who have something to do with the system start to take it very seriously, they probably couldn't keep busy later, so they deliberately called several international teams so that they can search on a larger scale.

Otherwise, given their situation, they would definitely silence them quietly. After all, the primeval forest is too big, and they can't find them with their strength, and they are worried that this matter will be leaked, so they can only think of such a way.

Thinking of this, Qin Yuan turned his head to look at the man and asked: "But you have been here for so many days now, even your situation is the same, I can't guarantee whether I will find other team members."

"But I think there should be hope, because we all dispersed and started running. I'm not sure they're alive, but I really hope you can go find them with me."

"That's not a problem, but when you act during the day, you seem to be more careful, and don't let others discover your existence."

The man nodded to show that he understood, and just like that, they hurriedly set off at dawn, after all, most of the teams might still be resting at this time.

I have to say that the man's memory is really good. He started to memorize directions and landmarks on the ground along the way.

At noon, they finally came to the place where they were attacked before. The battlefield here has been completely cleaned up, without any traces. Except for some trees that have been interrupted, there is no way to restore them, but most of the traces have been wiped away remove.

The man squatted down with some emotion, "In this position, two of my teammates died here. When I ran, I only saw them coming down and pulling the corpse."

The man was very sad when he said this, Qin Yuan stepped forward and pulled him up, "I know I shouldn't interrupt you now, but the key is to find your team members as soon as possible, because the longer the time, the more difficult it is for them. The physical drain, and with so many people looking for them, you should understand."

The man nodded quickly, looked in the direction of his surroundings, and then began to carefully recall the situation that day.

He and his captain ran to the left, and four other team members ran to the southwest, and the other two ran too fast, so he didn't pay attention.

Now that the direction of the four people can be determined, let's start looking here.

In this way, under the leadership of the man, I would rather they set off in that direction. At this time, some footprints can be seen, and many teams have already searched here.

Under such circumstances, it is really difficult to find them. These footprints can be regarded as a kind of confusion, and so many days have passed, it is not known whether they are still alive.

According to this range, they expanded a distance of seven or eight kilometers outward, but still did not find anything. Qin Yuan did not give up, thinking that since this person can live, it means there are other things, and he is really interested in that doctor of biochemistry now. Getting more and more interested.

"By the way, I had a few more things to think about just now. Was the data of the biochemical experiment you mentioned taken away by them or with you?"

"On us are the few team members we are looking for now, because after the doctor of biochemistry who was controlling went up first, they shot at us before the experimental data was handed over."

Hearing this, Qin Yuan also understood. No wonder these guys are so excited. It seems that the experimental data has not been found yet. This experimental data should be very important, so these guys have spent so much trouble.

Speaking of this, Qin Yuan became even more interested, and he quickened his pace. After all, the soldier had spent most of his physical strength in the jungle these days, and he must not be able to keep up physically.

Qin Yuan simply carried the soldier on his back, and started striding forward, "Captain Qin, what are you doing? Put me down quickly, otherwise your physical energy will also be a waste."

"Where is this going? Don't worry, my physical fitness is absolutely fine. Now time is the key. We must find your teammates as soon as possible before those people."

The soldier also couldn't figure out why Qin Yuan would suddenly take the initiative, but he didn't think too much about it, after all, Qin Yuan had been protecting him along the way.

In the afternoon, they came to another wetland. Before Qin Zhengyang squatted down, he was not familiar with this kind of wetland environment. After training later, he can now see that there is a swamp in front.

"Brother Qin, there is a swamp ahead, do we want to go in?"

"You must go in. You see, even you are thinking whether to go in, which means that those guys think so too, but if their people are hiding in this place, it's not certain."

This swamp is very dangerous, but it is mixed with the grass. If you accidentally step on one of them, you will be completely submerged.

Qin Yuan made the distinction very clearly, there was only a slight difference between the grassland and the swamp, and it was no problem for him, so he led the way.

They walked into the ground slowly, Qin Yuan pointed to the front and said, "Do you see it, there is a footprint in front."

Speaking of this, everyone looked in his direction, as expected, because the grass there was relatively deep, so a series of footprints could be seen.

It looks like it is alone, it should not be those who hunted them down.

The soldiers on their backs were very excited. Qin Yuan led them to continue walking along the direction of the footprints. Halfway there, he saw a man collapsed on the side of the road from a distance.

The soldier on his back was very excited when he saw it, and jumped down, "Captain Qin is there, and he is our team member."

Qin Yuan hurried forward, only to see that the man had been shot in the abdomen. It seemed that he had been infected, and his breath was very weak.

His forehead was very hot, it was completely infected, and he was running a fever. If they hadn't discovered it, the man would definitely not be able to survive.

This was a small problem for Qin Yuan. He slowly treated the man, and after a while the man woke up, but after seeing Qin Yuan and the others, he subconsciously wanted to grab the gun at his waist.

The soldier before quickly held him down, "Mison, don't move, we are saving you."

Hearing this, the man let go of his nervousness. The two were very excited to meet each other, and immediately hugged each other and cried.

After all, according to the previous situation, everyone thought that they might not meet again in the future, but they didn't expect to see each other on this occasion.

But Misen suddenly grabbed Qin Yuan very excitedly, "By the way, you hurry up and we have a team member in front. There is a crocodile here. He lured the crocodile away in order to save me, and I passed out later. , don't know what happened."

When Qin Yuan just rescued him, he had already observed that there should be no so-called experimental data on this guy, and it should be on that person. Without the slightest hesitation, he rushed forward.

According to the speed of the crocodile, it should be not far away. Qin Yuan asked the others to stay where they are, and it is best not to move around. After all, this is in a swamp, so he went out to look for it himself.

Qin Yuan searched carefully for a while, and found a shiny thing, which seemed to be a box.

He hurried forward and just when he was about to touch the box, he heard a crackling sound behind him, turned his head, and it turned out to be an alligator.

This guy really came to seek death. Qin Yuan's throwing knives flew out without the slightest hesitation. The two throwing knives pierced the crocodile's eyes fiercely.

The crocodile kept writhing on the grass next to it, willingly stepped forward, raised the knife in hand, and quickly slid down the crocodile's belly.

Soon the crocodile stopped moving. The crocodile next to it was attracted by the **** smell and ran over quickly. Qin Yuan snorted coldly. Even these small things could not threaten him. The crocodile's bite force is very strong, but he The strength of the crocodile is more than ten times that of the crocodile.

After finishing those crocodiles, Qin Yuan walked to the suitcase again and saw some bloodstains next to the mobile phone case. It seemed that the soldier had been eaten by the crocodile.

And there are some fine tooth marks on the suitcase, but the crocodile didn't bite it open. The quality of this suitcase is really good.

Qin Yuan looked at the suitcase, and there was a password on it, which did not bother him. After a while, he broke the password and opened the suitcase.

This lockbox has been bulletproofed and waterproofed, and the documents stored inside are perfect, including a list, plans, and their specific actions.

There are also some other experimental data, I would rather have a rough look, in order not to waste time, I put away these files first.

More importantly, Qin Yuan saw the problem of gene cloning in this experimental data. As long as he can find this experimental site, he can completely destroy the clone of the masked man.

After finding it, Qin Yuan put some stones in the box and threw it directly into the swamp.

After a while, when Qin Yuan came back, Misen was very excited, "How is it? Have you found my comrade? He is right in front."

Qin Yuan shook his head regretfully, "I didn't see him, I just saw some bloodstains around him, he may have been killed."

what!

Mison had a painful expression on his face, he couldn't believe it, just separated by such a small distance, his comrade-in-arms had already become the crocodile's lunch.

It's just that there is still a problem before them, that is, how should they go back?

Both of them shook their heads. They didn't know how to take the next step. It wasn't that there were any terrorists chasing and killing them, but their own people, because they knew something they shouldn't know.

Misen said in pain: "I don't know what happened at all. Even if our captain interrogated illegally, could it be because of those clues, but even if we have heard about those things, we don't know what they mean."

It can be said that they are quite innocent, Qin Yuan looked at them, and then slowly said: "For this situation, I can help you, I suggest not to go back, I can help you go to other countries, and then from now on Anonymous, if you can do it, I can help you."

For this, they must agree, at least this is another way to survive, if they go out now, no one wants them to survive, even if they go out brightly, they will try every means to kill them later.

The soldier was very excited, and he quickly held Qin Yuan's hands, "Captain Qin, this may be a better choice for us, and there is no other way to survive after we go back."

"Don't worry, I will help people to the end. I will help you in these situations, but now is not the best time. Now I have to find a way to get out first."

In this way, they walked out of the swamp, and under the leadership of Qin Yuan, they came to the place where they were separated from the H country team.

Without Qin Yuan's leadership, these guys were just going around in circles, and it had been so long that even Qin Yuan and the others hadn't been seen.

Moreover, Jin Zhengchuan didn't contact them, so they don't have any instructions now, so they can only search aimlessly.

Qin Yuan handed over the food on his body to the two of them and told them to hide in the jungle. He definitely can't go out now. He can only find a way to pick them up after everyone has gone out. .

"The food should be enough for you to last for two weeks. You can save this as much as possible. Don't worry, I will definitely come to you and send you out."

Speaking of this, the soldier was very excited and kept nodding his thanks. These places were searched by them before, so they were relatively safe, and no one would conduct a second search.

And it was completely two directions away from where they fled before, so Qin Yuan took them to a nearby cave and let them hide here.

After explaining to them, Qin Yuan also came out and led the team to find the country H team.

The team leader at the moment is lying on the hillside, and now he has no clue, it is too difficult to supervise, Qin Yuan and the others are too fast, they can't keep up.

At this moment, he heard some movement in front of him, he quickly became vigilant, stood up and looked carefully, unexpectedly it was Qin Yuan and the others.

Chapter 1159: Cloning base?

They walked in this jungle for such a long time without seeing a single person. The team leader didn't know how to explain to their chief. After all, he lost Qin Yuan, but he didn't expect someone to appear at this time.

This guy was very excited, he rushed forward and grabbed Qin Yuan, for fear that he would run away, Qin Yuan just thought it was funny.

And seeing him like this is very nervous, anyway, now I have got what I want, and I have done what I need to do, now I just need to play a play with them.

"I said, what did you do? Why did you suddenly disappear? You don't know, we've been looking for you in the jungle here."

Qin Yuan preemptively said what he wanted to say first, and the team leader choked instantly. What's going on?

"This? That's right, Captain Qin, it's obvious that you are walking too fast. I told you not to go so fast before, but in the end I lost it."

"So, I said that you have to continue to exercise. We really didn't walk very fast, but you were too slow, and disappeared as soon as you turned around. We will come back to find you later, and we may have missed it on some road."

It seems that it really makes sense to say so, and the team leader looked at Qin Yuan carefully, and he didn't seem to find anything strange.

"Besides, I'm also thinking about your team members. After all, seeing how calm you are, they are members of a small team anyway. We must find them in advance."

The captain was a little panicked when he heard this. After all, the order they gave before was to drag Qin Yuan and the others out, but they didn't ask them to find someone. Besides, Qin Yuan is so cunning, will he see something? He hastened to explain:

"Captain Qin, you are a little overwhelmed when you say this. It's not that we don't look for it seriously, and there are too many teams looking for it. It has also consumed some of our energy these few days."

"Oh, I thought there was something wrong? Since that's the case, everyone should look for it carefully. After all, time is life. So many days have passed, but I'm still very worried."

In this way, Qin Yuan, relying on his powerful ability to fool, fooled this matter away.

On the other side, Jin Zhengchuan finally woke up from the hospital, and the first thing he did was send a message to the team leader here, asking him about his specific situation.

At this time, the captain had already joined forces with Qin Yuan, so he didn't say anything special about it, but said that everything was normal.

In addition, the team from the United States over there is also a little impatient. It has been 15 days, and it is absolutely impossible for them to persist for such a long time. In such a jungle, there is no supply, and it is accompanied by various dangers. , how could it survive?

Facing the top advisor of country H, the team leader of the American country directly said bluntly: "I think the situation is just like this. Anyway, I have already found almost all of them, and they will last for three days at most, 18 days. They will definitely not Might make it out alive."

"Anyway, you have the final say on everything. You were the ones who were looking for someone in the first place, and you are the ones who don't want to find someone now."

The consultant representatives from country H have been completely recorded. These guys are so superior that they somehow asked them to mobilize so many teams to find a few people. They still don't know what the situation is, and it is because of their orders. , they are going to attack their own people.

"Oh, what's your attitude? Don't forget your previous contract with us!"

Although the representatives and consultants of country H were holding back their stomachs, they couldn't say anything. No matter what, they had something to do with others, and they were the ones who said they wanted to cooperate in the first place.

Anyway, only the leaders above know the specific situation, and he doesn't know about these situations, so he can only do things according to orders.

In this way, another three days passed, and the whereabouts of the team were still not found. Qin Yuan originally thought that they would persist for a few more days, but unexpectedly, there was a news.

It was reported from the team leader's walkie-talkie that one of their team members had been found. Qin Yuan still felt strange. At first he wondered if those two people had been found. Later, when they arrived at the meeting place, he realized that it was It's a fake show of a fox pretending to be a tiger.

Although these people were dressed the same as them, they were obviously not the group of people who disappeared. Qin Yuan saw the photos once, and his memory was absolutely impossible to be that group of people. Besides, he believed what the two people said before.

But in this case, no one doubted, because with such long-term persistence, many teams have been soaking in the jungle for a week, who can bear it?

Anyway, as long as they say they find everyone, they can take over the team, and they are not from their own country.

So this is enough to see their purpose this time, they are not looking for someone at all, but to kill someone, because they know something they shouldn't know, and that confidential document.

Qin Yuan has never left anyone around, the little captain has been by Qin Yuan's side all the time, the kind who never leaves.

Qin Yuan was a little impatient with being followed, "I said that the mission is over now, and we just go back to the assembly point together, what are you still following us for?"

"Captain Qin, don't get me wrong. The main reason is that although the mission is over now, in order to thank you for your help this time, we will go back to our residence to celebrate together, and to thank everyone."

Qin Yuan had already finished his acting, so he didn't bother to talk about it, so he turned his head and said, "I don't think that's necessary. After all, we are all very busy, and I have my own business here."

The team leader didn't expect Qin Yuan to say this, and to leave in such a hurry. At this time, Jin Zhengchuan actually came over. This guy is really desperate.

"Captain Qin, I'm very sorry. I was injured two days ago, and no one participated in the operation with you, so I must thank you very much this time."

"This is unnecessary. After all, we didn't find the person. If you want to thank, then you should thank the person you found."

Being rejected again, Jin Zhengchuan was not angry at all, anyway, the farther away the better to send a ***** of injustice like Qin Yuan, since he doesn't want to come, then so be it!

The two exchanged some polite words, Qin Yuan's attitude was very firm, he wanted to go back now, and didn't want to get involved in anything here.

Jin Zhengchuan felt that it was better for an old fox like Qin Yuan to go as far as possible, so what clues would he find later?

Looking at the plane going away, the corners of Jin Zhengchuan's mouth turned up. No one will know about this incident. They managed it and it was relatively satisfactory.

However, what they didn't expect was that Qin Yuan planned to parachute directly from high altitude when the helicopter was in the middle. The promise made before will definitely protect the safety of those two people.

But at this time, He Chenguang stopped him, "Brother Qin, is it inappropriate to do this? After all, it is their internal matter. We don't know why they want to kill their team members. Will it be okay for us to participate?" Would it be bad?"

"That is their own internal matter, and we have no way to argue, but what I want to say is that now that I have promised others, I will definitely do it."

"Well, Brother Qin, as long as you make a good decision, we will support you, but we still hope you pay attention to safety, after all, you are acting alone this time."

"Don't worry, you guys should know how to talk to Lao Gao about this when you go back, as long as we know it ourselves, it can be regarded as giving others a way out and helping them to the end."

Everyone nodded, and Li Erniu patted his chest and said, "Of course I know what Brother Qin means, but in fact, if this happens to our team, Brother Qin will definitely stand up without hesitation. "

After explaining in this way, Qin Yuan directly parachuted from high altitude. In this primeval jungle, it is very quiet now. The search team has been completely evacuated, mainly targeting several other countries.

Now there are still a few teams from H country who are not giving up on the final search, which is also the task assigned by those Americans.

However, everyone's search was completely ignored. The captain in front of the team was eating compressed biscuits, "Damn, these guys are really gone, and they clearly said that they have been searched, and they still want us to find them in this broken forest." How long are you staying in there?"

"Captain, we also feel very strange. Didn't the above say that someone has been found? Why do we still have to stay here?"

"Who knows what those guys above are thinking? They really don't treat us as human beings. They went back to celebrate instead. We are eating compressed biscuits in this crappy place."

Anyway, judging by their appearance, I don't really want to search for everyone, but it's just a process. At this moment, Qin Yuan is quietly observing them from a big tree, and he didn't come down quietly until they left.

Qin Yuan also came to the place where the two were hiding before as promised. The soldier didn't expect that he would come. He was still very excited. After all, it was only a verbal promise at that time. Who knows that he really did it.

"Captain Qin, I didn't expect you to come to pick us up. I thought you wouldn't."

"I will definitely do what I say, but I don't know what's going on with you."

Qin Yuan told the news of finding their team members, and the two soldiers immediately denied it. At present, only the two of them should survive, and it is absolutely impossible for the others.

Mison sat helplessly on the nearby hillside, "I really didn't expect that the result would be like this. Until now, I don't know what we know, and we don't know what they said."

"Forget it, these are not important anymore. Now I have made plans for you. You just need to go abroad as I said. As for how you develop abroad, I have no way to control it. You know? send out."

The two nodded repeatedly. It was already the best result for Qin Yuan to come and rescue them. How could they dare to expect anything else?

It is very easy to go out of the country, after all, there are not so many restrictions in the primitive jungle here.

After sending the two of them out safely, Qin Yuan also left. On the way, he quietly opened the plan to cut off the goods before. There was a cloning base on it, and some specific data were related to their cloning.

Moreover, he also saw the photos of his own children on it, and their experimental data this time is all about creating a clone army similar to Kieran.

Because Qin Ran's ability has completely inherited his genes, but there are still many genes that have not been developed, but these genes are already very powerful within their organization.

And human cloning does not need so many factors, just like now if they want to keep the system on ordinary people, it is very likely that there will be a rejection reaction, leading to the failure of the experiment, but human cloning is different, and their experiments can be completely accepted remodel.

Qin Yuan took a look at the approximate coordinates and there should be no problem. If possible, he would take this opportunity to go directly to their cloning base and bring that cloning base.

After all, there are many nights and dreams. When the time comes, they will realize that this cloning base is likely to be transferred.

Just doing what he said, Qin Yuan quietly came to a small town in the United States according to the address on the coordinates. This small town is quite ordinary, and Qin Yuan even wondered if there was something wrong with the coordinates.

Because there are no factories or any other mass production workshops in sight at all, knowing that to create such clones, at least a factory floor is required.

At this time, Qin Yuan suddenly received a reminder from the system that people with the system appeared around him. Qin Yuan put on a disguise, lowered the brim of his hat, and sat on the side stall.

I saw a few people in suits driving towards the southeast.

Being able to meet people with a system, it seems that the cloning base is just ahead, Qin Yuan followed them quietly, and the vehicle stopped in a parking lot, Qin Yuan still felt strange, this seemingly ordinary cloning base Where?

There is no way to go inside, because the inside is too spacious, if Qin Yuan enters rashly, it will be easily exposed.

He could only observe the situation from the outside. After a long time, none of those people came out.

He was lying on the tall building opposite, observing the parking lot. There were some security guards around the parking lot. Everything seemed normal, but how these people disappeared from the parking lot out of thin air could only explain one possibility, cloning The base is here underground.

As long as it is confirmed, it will be easy to handle. Qin Yuan stepped forward and snapped his fingers, instantly using his ability to freeze time and space to pause time.

Now he has three minutes, and he can use these three minutes to find the exit.

But when Qin Yuan entered the parking lot, he was stunned instantly. This place is really too ordinary, just an ordinary parking lot.

Chapter 1160: was under control

Qin Yuan looked back and forth several times, except for a few parking spaces, there seemed to be no other special places, not to mention the entrance, there was not even a gate.

Seeing the passing of minutes and seconds, Qin Yuan was also a little anxious. After all, this area is too open, and the security guards will find him directly when the time comes.

Unexpectedly, at this time, the car suddenly sounded an alarm. Qin Yuan turned his head to look, only to see that the car was parked in place, as if someone had remotely controlled it, but Qin Yuan looked down and saw that there was a lot of space under the parking space. .

He has been on it all the time, no matter how hard he looks, he can't find it. It turns out that it is directly the exit built on the parking space. Once the car covers it, he can't see it at all.

It turned out that here, because of time constraints, Qin Yuan couldn't control so much, and he didn't know who pressed the alarm, anyway, he found the entrance and exit first.

He walked up to the black car and just reached out to touch it, but he didn't expect the car to move forward automatically, and then a big hole began to appear underneath.

This cloning base is really well hidden, and Qin Yuan jumped in directly.

At this time, someone called the lover, but he didn't turn on the voice, so he didn't notice that he went in quietly from the passage.

It's just that he felt a little strange. This place was completely different from the laboratory equipment he had seen before, especially the decoration next to it, which seemed to be like a sponge.

There was a sudden sound of footsteps ahead. Qin Yuan turned over and hid above the pipeline. There was a small group of patrolling personnel. They seemed to be quite normal, but there was a lot of things down here, and there were intricate things everywhere. If you want to find the right The path takes a lot of work.

Qin Yuan doesn't dare to act rashly now, he still doesn't know what's going on inside, so as not to startle the snake, he has been hiding in the dark, intending to observe first.

From time to time, patrol members walked by, and they patrolled very diligently. In about ten minutes, a patrol member passed by.

In the darkness, his watch suddenly glowed. Qin Yuan silently put the watch in his pocket, when he touched the phone.

When he turned on the phone, he saw several missed calls, and they were unfamiliar missed calls. He was a little surprised, who else could call him?

Then a message was sent, and just as Qin Yuan clicked on it, he saw a sentence written on it.

"Leave quickly, you have been cheated!"

When Qin Yuan was still thinking about this sentence, suddenly he stood on the pipeline and shook violently. He turned over and jumped down. Just after he jumped down, many heavily armed staff rushed out from the darkness.

These people pointed guns at him, and it was the first time he saw such guns. The system kept reminding him, and there were people with systems around him.

He snorted coldly, could he be subdued by such means? That's really naive.

Qin Yuan rushed forward quickly, and just as his throwing knife went out, suddenly a piercing sound echoed in the entire space.

The voice was not as sharp as usual, but it kept echoing in his mind. Qin Yuan was stimulated by the voice over and over again, and he covered his ears sadly.

The staff in uniform around them, wearing special earplugs on their heads, shot at Qin Yuan quickly, and countless bullets shot at him. Qin Yuan quickly turned to avoid, but there was no place to hide here at all. Several bullets went straight into his thigh.

The main reason is that the distance is too short, even if he has defensive power, he can't resist it at all.

Qin Yuan endured the pain. Anyway, he has the ability to recover. This little gunshot wound is nothing to him. He stared at the opposite person coldly, and took out the throwing knife in his hand.

It seems that he really suffered a big loss. He didn't expect this to be a trap, but he didn't know who tipped him off.

The throwing knife in his hand was quickly thrown out, intending to finish off these people and make an incision. Unexpectedly, the flying knife, which is usually extremely accurate, failed at this moment.

After being easily dodged by a few people on the opposite side, they shot at Qin Yuan quickly, and Qin Yuan was stunned. What's going on? His throwing knife had never failed before, but at this moment, there was an error, and his hands were shaking constantly, and the connection with the system was very vague.

The system's prompt sound was very clear before, but now it is intermittent in his mind, as if the signal is very poor, and he keeps calling the system.

"The system... answer me!"

But the system didn't respond at all. There was intermittent sound at the beginning, and then it completely fell into a state of immersion, just like the automatic shutdown state of the previous system upgrade.

At this time, Qin Yuan felt a burst of pain, and a bullet hit him directly on the shoulder without energy. When the piercing sound was still ringing, to interfere with him, he could only use his usual basic movements. For a moment, he discovered that the system's capabilities had completely failed.

His speed was only a little faster than normal people's state. Qin Yuan kept rolling on the ground, trying to avoid those bullets, but besides his shoulder, he was shot in the back again.

At this time, Qin Yuan only heard a man say: "Okay, you all pay attention, don't beat people to death, sir, it's hard to explain over there."

"I didn't expect that such a powerful person before, under such interference, is not even as good as a waste, hahahahaha."

After these people finished speaking, they burst into laughter. They slowly stepped forward to approach Qin Yuan. Relying on his excellent physical fitness, Qin Yuan jumped up and wanted to break through the crowd, but just as he took off, his legs were involved. The wound on his face fell directly to the ground.

"I didn't expect you kid to be able to carry it, so I want to see if you can carry it or not."

After the man in front finished speaking, he stepped forward again, stepped on the wound on Qin Yuan's shoulder, sweated from the pain, stared coldly at the man in front of him, and reached out to grab his leg.

But the man's speed was faster, and it could be seen that his system ability was at work, and quickly flashed to the other side, and then punched Qin Yuan in the chest again.

Qin Yuan didn't know what happened at all. He was hit continuously by the man, and his shoulder was bleeding all the time. In the end, he was in a daze. He only saw the man hitting him continuously. That's it. fainted.

Seeing that Qin Yuan had passed out, the staff members at the back quickly stretched out their hands to stop him, "It's ok, this kid has already passed out, don't move around, if there is any problem at that time, sir will not let us go."

The beater clenched his fists just now, still a little unconvinced, "It's really cheap for him. How many of our brothers were in his hands before, I really want to teach him a good lesson, but I'm just worried that I'll play this kid to death gone."

"By the way, this guy's physique is really against the sky, and he has no systematic help. He was able to fight us a few tricks just now. It's really amazing."

"Okay, now is not the time to talk about this, just wait for Mr. to come over."

Qin Yuan completely fainted on the ground, not knowing what happened, and was dragged directly to the door by these people.

The man took out a walkie-talkie and began to report the situation here, but the ear-piercing voice continued, and the fainted Qin Yuan felt that he had been dreaming, and in that dream, he kept rolling and spinning until he became dizzy.

Half an hour later, the masked man drove a car to the gate of the foundation, but upon closer inspection, it was a RV with a completely remodeled interior.

The materials inside the carriage and the foundation are actually the same, and they look similar.

The masked man got down from the car. He stared coldly at Qin Yuan on the ground with his hands behind his back. After so many times, he finally subdued Qin Yuan this time.

"This brat is really capable of tossing around. If it wasn't for the plan I came up with before, I really wouldn't be able to catch him."

The man next to him said flatteringly: "Sir, this guy doesn't seem to be so good, but why do you have to protect him? He destroyed a lot of our warehouses before."

The masked man gave him a cold look, "Now you are allowed to refute me? If I ask you to do something, you do it."

"Sir. No, it's just because this guy is too dangerous. I'm just worried that if he is forced to stay, will there be any impact?"

The masked man raised an eyebrow from the person next to him, and the person next to him immediately understood, took out a pistol from his waist, and shot the man who had just spoken to death.

The few people next to him were stunned. It was too exaggerated to kill people just because of one sentence.

Everyone gasped and didn't dare to speak for a moment, the masked man walked forward with his hands behind his back, "Treat his wound first, don't let him die, if he dies, then all of you won't survive tonight. "

After hearing this, everyone dared to stay longer, and hurriedly helped Qin Yuan deal with the wound.

Qin Yuan is a rare experimental question. Now that he can do it, after he takes him back, he can directly extract his genes to clone others. Compared with cloning that child, he can clone a perfect Qin Yuan.

This is a good deal, so the masked man made such a big plan this time, including the H country team, which was completely arranged by him.

The materials in the hands of the doctor of biochemistry were completely scattered there on purpose, but in order to achieve the real effect, they and the h country team did play a play, including the h country team did not know, from the beginning In the end, they are all other people's pawns, to be played with in the palm of their hands.

Mian Junan knew that as long as Qin Yuan heard about him, he would come to this place desperately, because he was too anxious now, for the safety of his daughter.

This place is all carefully prepared for lovers, and he has spent decades on this research project.

At this moment, the person on the ground has been bandaged, but it was just a simple bandage, and the bullet in his body has not been taken out yet.

The masked man took a look and asked Qin Yuan to be taken outside to the car. During this process, there were a few minutes to get away from the previous noise.

The system suddenly woke up, and he kept calling Qin Yuan, but at this moment, Qin Yuan, because of his damaged body function, could not recover completely in a short time.

Qin Yuan just felt dazed. He just opened his eyes and saw the man in the mask appearing in front of him. He wanted to take precautions, but he didn't have any strength in his body.

"Didn't expect that we would meet in this way, Qin Yuan!"

"You bastard, despicable person, what on earth are you trying to do to me?"

"Hahaha, well, you'll know it when you get in the car. I have invited you in various ways before, but unfortunately, if you don't want to cooperate with us, there is nothing you can do. You are my best work. ."

Qin Yuan originally wanted to resist, but in the next second, he was thrown into the car. There was such a harsh sound from the car, he fell heavily into the car, and his body could not heal in an instant.

The system also completely lost its response, as if it was shut down before, Qin Yuan struggled on the ground in pain, and the wound on his body made him unable to move around at all.

It's been a long time since he felt this kind of pain from ordinary people, but there's nothing he can do now, so he hastened to analyze the current situation.

He gritted his teeth and looked up to see the masked man sitting in front of him. In this empty carriage, he was the only one with two other staff members.

The two staff members stared at him coldly. They should have an anesthesia gun in their hands, just to control his movements.

Qin Yuan tried to move his body, and the man on the opposite side raised his gun nervously and was about to shoot.

"Wait, I just want to move."

I wish that now I can only choose to be subdued temporarily. He doesn't want to be stunned again. He won't know what happens to him when the time comes. He has to stay awake at all times.

He shook his head The piercing sound made his temples ache.

In the beginning, someone secretly called him information, but he didn't pay attention, as if everything started from entering the underground base. He noticed that the decoration inside the carriage was the same as that inside the base.

Coupled with this inexplicable voice, it can actually damage his system. He suddenly remembered that Wells seemed to have said that the masked man was researching something specifically to deal with him, which could control his system.

At that time, Qin Yuan didn't take it seriously. After all, his system had reached an advanced state, and he had upgraded it several times, but he was still under control.

Now that he moved his hand casually, he could touch the pain in the wound and grin his teeth.

Not knowing where the masked man would take him, Qin Yuan was very apprehensive. If he just wanted to get out of this environment, he could immediately resist.

In such a noisy and harsh life, there was still love, and there were wounds on his body. The inside of the carriage was swaying all the time. I don't know how long it had passed. Finally, Qin Yuan couldn't hold on anymore, and fell into a deep sleep like that.
