

## **Special Soldier 1161**

Chapter 1161: start looking

When he woke up, he found that all kinds of instruments were plugged into his body, and the roaring sound was still there. People around him were wearing special earplugs. He saw those people in white coats and masks. .

That roaring sound made him very irritable, he wanted to leave, but he couldn't move at all, he had no strength at all.

When a doctor wearing a mask saw that he was awake, he just silently made notes on a piece of paper, and then walked out.

Qin Yuan opened his mouth, and found that he didn't even have the strength to speak, mainly because the injury he suffered this time was too serious, and he hadn't recovered systematically.

He had a penetrating wound on his shoulder, a shot in his thigh, and a shot in his calf, all of which were typical penetrating wounds.

It is a miracle that he can survive in such a situation. At the last moment, he relied on the support of the system, but now Qin Yuan is most worried about what they are doing to him. He is very worried that his blood will be drawn.

If he is really cloned like he was before, it will be troublesome, because he is very aware of his abilities, and with so many abilities, if another self appears, there is no guarantee that he can deal with it.

But Qin Yuan couldn't do anything now, his left hand was still in handcuffs, and he was tied to the bed sheet next to him. Those roaring noises made him very irritated.

At noon, someone brought him food, and the staff, like a machine, began to prepare to feed him. Qin Yuan turned his head, he didn't know whether there was poison in the food.

Unexpectedly, the staff pressed the button directly and called another person. They forcibly moved Qin Yuan's mouth away and began to force-feed him.

Qin Yuan didn't know what he meant by that, did he want to poison himself to death?

"What are you guys trying to do? Is there something wrong with this meal?"

The staff next to him remained expressionless, "There is no problem with the food, you'd better eat it cooperatively, otherwise we will avoid trouble."

"How can I trust you? What if you are going to poison me!"

But the two staff members next to him were similar, they didn't pay any attention to him at all, and repeated their previous actions. In the end, Qin Yuan couldn't bear it anymore, and they forcibly fed half a bowl of rice like this.

Amid such roaring sounds, his system had completely crashed, and he could not use any abilities, and he had a wound on his shoulder, which prevented him from making too many movements.

After getting better in the afternoon, he lay on the hospital bed and began to move his body, wanting to observe the situation outside. Here is a completely closed room with no windows, only a very small ventilation fan on the top, trying to escape It's impossible.

If it was before, he was not afraid of such a small room at all, but now he is not at all.

Now that roaring sound continues, Qin Yuan has no way to fully adapt to it, that sound completely suppresses his system.

At this time, Qin Yuan sighed helplessly at the sound of footsteps coming from the door. He would have heard it if people hadn't approached before, but now that people are about to come in, he only reacted. It seems that he really relies too much on the power of the system, and now it suddenly cannot be used, and it will lie on a hospital bed like a disabled person in the future.

But what Qin Yuan didn't know was that his physical constitution was quite special. Without systematic protection, he could survive so many penetrating wounds on his body.

That's why this is the most surprising thing. The masked man didn't expect that Qin Yuan's body was excluded from the exclusion system. In just a few days, his own defense has surpassed that of ordinary people.

Qin Yuan stared at the door vigilantly, and when someone walked in, his fists couldn't help but clenched slightly, this \*\*\*\* dared to come over, the person who came was the masked man.

"You bastard, you have the guts to let me go now and I'll tear you to pieces."

Qin Yuan struggled to get up, but when he moved, the various pipes on his body were also pulled, and the machine also sounded an alarm.

But at the moment, he couldn't control that much, the masked man just looked at him with a smile.

"You don't need to be so excited. Now that you have reached this point, why don't you cooperate with me well? You must know the benefits of cooperating with me. I can let you get this ability permanently."

"Fart, this ability is originally my own, why should I ask you to give it to me?"

"Hahaha, it seems that you still haven't figured it out, I am the one who gave you the real ability, just like now I said to take you back, just lying here like a useless person."

Qin Yuan smiled disdainfully, and then lay down on the bed. He didn't want to argue with such a person, and the masked man didn't know what the purpose of coming here was. It looked like he wanted to stimulate him deliberately, so he didn't want to eat it. This set.

Qin Yuan lay in this closed room, unable to see any time, had no concept of time, and did not know how long he had been in a coma.

After the masked man finished speaking, he also walked out silently, not knowing what this guy wanted to do.

"Hey, you bastard, how long are you going to lock me up?"

It's just that there was no response at all. After the masked man left, even the staff left, leaving only Qin Yuan lying quietly on the bed, with the sound of machines beside him.

On the other side, inside the Special Operations Brigade, Gao Shiwei found out that he couldn't get in touch. Where did this guy go all day?

You must know that under normal circumstances, Qin Yuan would not disappear for no reason like this.

At first, he thought he was with his family, but Gao Shiwei didn't care when he thought about it, but he has been missing for four days, which is completely a case of disconnection. Gao Shiwei was a little anxious, and hurriedly dispatched the red blood cell team Investigate.

Gao Shiwei was very angry at the moment, he was angry in the office, Li Erniu and the others stood in the office and looked at each other, no one dared to speak.

"What did you guys tell me at the time? You told me that he needed to go home after performing his mission, but according to the results of our current investigation, he didn't go home at all. What's going on?"

Li Erniu and the others didn't know what to say. At that time, Qin Yuan said that he was going to send those two people back to the virgin forest. After all, this was not their task. no return.

This is not what everyone wants to see. As time goes by, the paper can't cover the fire at all. In the end, Gao Shiwei slammed the table and asked loudly:

"I think you guys are really going to turn the world upside down. What's going on? It's best to explain clearly now."

Seeing this, He Chenguang had no choice but to stand up and tell what happened before. Gao Shiwei's face became more and more ugly. These guys are really lawless now, and they completely ignore their own words, which is not their task. , They also went to mix it up, something happened now, but it has been such a long time.

"You guys are really amazing, how about letting you be my captain? Since I'm so good at making claims without authorization, it seems that I don't need me anymore, does it?"

Gao Shiwei seldom got so angry, everyone didn't dare to say anything, just looked at him silently.

He was walking around in the office, which was in the primeval jungle of the Amazon. Anything could happen. He had been missing for four full days. Did he encounter danger or was he trapped in the Amazon jungle?

Without further ado, Gao Shiwei had no choice but to let the Wolf Warriors Team and the Red Blood Cell Team join forces to enter the primeval jungle and search for Qin Yuan.

When Long Xiaoyun heard the news, he was also very shocked. Qin Yuan did make his own claims, but he never made a mistake, because he is also very confident in his own ability, and everyone can rest assured that he is powerful. , I didn't expect that something really happened this time.

He Chenguang and the others blamed themselves for this matter. At that time, everyone thought there was no problem, but they didn't expect that something really went wrong.

On the plane, everyone lowered their heads and did not speak. Long Xiaoyun kept a straight face, "Your captain really did a good job this time, and he moved all of us."

"Long Dui, you also know that Brother Qin has never been in such a situation before. I didn't expect it to become like this this time."

"It's not easy to say about this matter. Of course I hope he can be safe, but what you did this time is really too exaggerated. Before he disappeared for four days, why didn't you say that on the first day after he disappeared, you You should explain the situation!"

The main reason is that Qin Yuan's ability is too powerful, and I didn't think about that at all, thinking that he would come back by himself, but I didn't expect that this time I completely cut off contact, and even the positioning watch on him has been removed.

Everyone in their special operations team has a positioning watch, but that positioning watch has completely lost its positioning, and no information can be found at all.

Qin Yuan was lying in the ward, unaware that the team had been in the jungle for two days and two nights looking for him.

At this moment, the masked man stood in the laboratory and stared at a pile of data on the table, "I really didn't expect that this guy's physique is so special, he can only draw blood when he uses the system ability, and his genes can be converted into blood." , it usually doesn't work."

They had already done experiments when Qin Yuan was just arrested, but the experiment completely failed, because the blood drawn at that time had no effect and could not perform any transformation.

Qin Yuan's ability is to draw blood only when his system fully cooperates with him, but the crux of the problem is that once his system ability is restored, there is nothing he can do about it.

Now it's a mask, there is no good way, but to temporarily lock him up, and Qin Yuan's injuries are also serious.

The masked man stared at the other people in the meeting, and said loudly: "The specific situation is like this now, I need someone to come up with a plan for me."

Everyone began to discuss, and some people agreed that it is possible to quickly draw blood at the moment Qin Yuan recovers the system's ability, but this is impossible. Qin Yuan's reaction power, especially its system, is dozens of times that of a normal person .

So there is no way at all. This statement is completely denied. Once Qin Yuan explodes, he cannot control it at all.

At this time, a man sitting on the side proposed his own plan, "Sir, I think we can speed up the research now to see if we can research other system capabilities that can be temporarily restrained, or as long as his system capabilities are restored, We paralyzed him at the same time, and at this point he was able to draw blood."

The masked man nodded. This statement was okay. He turned around and asked them about the progress of the experiment, and the experimenter next to him also produced a copy of the data.

"Sir, at present we have a person with a special physique. It is very likely that after he is put in, his system will undergo a second evolutionary upgrade, and it may be able to achieve other expected situations."

"How long will it take now?"

"Sir, it will take about a week. We dare not put it into the system rashly. We are currently in the trial stage. His physique is very special. We are worried about failure and losing this excellent host."

The masked man turned around and thought about it for a week. That shouldn't be a problem. He could keep Qin Yuan under control for a week, and in this place, it's impossible for anyone to rescue him without anyone noticing.

Qin Yuan didn't know about this, he didn't know what the masked man wanted to do, and what he was more worried about now was whether he would be cloned by them, he couldn't even imagine.

His main concern was that if he was cloned, that fake Qin Yuan would enter their brigade, and he might get close to his children, people around him, and his relatives, all of whom would be harmed.

These few days are when he is most helpless. He thinks about running away or recovering system capabilities all the time. There is no way.

Long Xiaoyun and the team members have been walking in the primeval jungle for three or four days, but there are no clues, including the two people they mentioned, and they have not been found until now, as if all traces have been completely erased.

"What's going on here? Are you telling the truth? Now is really not the time to cover up. I'm worried that something will happen to him. Do you understand?"

Long Xiaoyun never thought that Qin Yuan would encounter any danger. After all, he was very capable, so he felt that the red blood cell team definitely had something to hide.

Li Erniu is also very helpless, "Dragon Team, we have already said what we need to say, the specific situation is like that, and it's this time, don't we still know the priorities?"

"The crux of the problem now is that he disappeared at all, without a trace. Do you know what this means? How could a living person disappear like this?"

Long Xiaoyun was a little angry. She didn't know why, since Qin Yuan disappeared, she couldn't control her emotions like this.

Chapter 1162: Controlled again

She even wondered whether Qin Yuan would be plotted against by those two people, but just as soon as this thought came out, she quickly shook her head to shake the thought away.

This kind of situation is generally impossible, his ability is so strong, and he can definitely survive in this primitive jungle, but the crux of the problem now is that there are no traces.

The people in the team searched for four days without any clues. Gao Shiwei kept asking about the progress of the matter.

But the clues on Qin Yuan's side have been completely cut off. In such a large primitive forest, people from their two teams can't be found at all. Two special operations teams.

However, in order to preserve Qin Yuan's reputation, he only publicized it to the outside world. Qin Yuan went into the primeval forest to carry out a secret mission, so he disappeared.

This news was still in a semi-closed state at first, but Qin Yuan has been missing for a whole week, and he is a figure at the level of God of War.

Later, even the Marine Corps knew about it, and Jiang Xiaoyu and the others even applied directly and took the initiative to join the search team.

In this way, more and more people were looking for it, and everyone began to divide into groups and search in the primeval jungle.

After everyone's unremitting efforts, they finally found a few tiny footprints on the edge of the jungle. From this look, they looked like a pair of military boots that were the special characteristics of their special forces.

The main reason is that the soil here is relatively deep, so it is easy to leave footprints, and Qin Yuan may not have noticed it at the time.

Long Xiaoyun squatted down and carefully examined the footprints, "It seems that they have all left the country, and they are not in this primitive forest."

"Dragon Team, could this be a deliberate attempt to confuse? Given Captain Qin's status, it's impossible for him to be so careless and leave traces."

"You mean that he might be coerced, and then someone deliberately put down his footprints to attract us."

The soldiers next to him nodded, because Qin Yuan's own abilities were relatively outstanding, and it was impossible for him to let go of such a low-level mistake. They paid great attention to footprints and traces.

"But the current situation is that we have been searching for so long in the primeval jungle, and there is no clue at all. If he is here, he will live no matter what at night. Even if he gets lost, we can still see the flames. He As a special operator, you shouldn't be ignorant of this."

"this..."

The soldiers didn't know what to say, Jiang Xiaoyu and the others who were helping to find him also came over at this time.

"I now think there is a possibility. It is very likely that they all went out. There should be no clues in the primeval jungle. If there are any clues, it has been so long, and he will definitely remind us."

This is exactly what Long Xiaoyun thought, because Qin Yuan is a very smart person. If he had been trapped in the primeval jungle for such a long time, everyone would know it well.

No matter what, there will be clues left, but they haven't appeared yet.

Long Xiaoyun sighed, then packed up his things, and prepared to set off abroad, "Since we have found footprints here, we should look for them along this place. No matter what, if he left them, at least we can find some footprints." a clue."

Everyone agreed, but for the sake of safety, he still left a small team behind, continued to search for other people in the primeval jungle, and began to move towards the outside world.

The only embarrassing problem now is that they are now fully armed. This is a small-scale combat team and cannot approach the borders of other countries at will. There are so many borders in this place, and it is impossible to know which direction he will go out from. .

So Long Xiaoyun and the others need to wait for the top to negotiate with other countries, and they can go there only after the negotiation is completed.

In this way, everyone can only search around the border, but after two days of searching, there are no clues.

Long Xiaoyun looked at the opposite side in a daze silently. He didn't know where Qin Yuan had gone, how was the situation now, and would he be in any danger?

On the other hand, after this period of cultivation, Qin Yuan recovered from his injuries relatively quickly. At first, he was a little cautious, not daring to eat the food brought by these people. Later, he didn't care so much. Anyway, if these people really If you really want to harm him, you won't use these dirty methods.

Moreover, he also analyzed that the reason why the masked man was able to keep him for such a long time indicated that he had other uses, so he would definitely not do anything to him like this.

It's just that he can't figure it out, what exactly does this guy want to do? As time went by, Qin Yuan had been under house arrest in this place for two whole weeks.

In the afternoon, the masked man finally appeared. He hadn't come to Qin Yuan for a while.

Qin Yuan was also a little impatient, because it had been two full weeks, "What do you want to do?"

"Don't worry, you will know soon, for you, I have no way to control you, and you are not willing to cooperate with me, then I can only find other ways, after all, you are indeed my best work, But it can't be used for me, and I can't help it."

After the masked man said these inexplicable words, he asked the staff to bring up a man. This man was very thin. Qin Yuan could say that he had never seen this man before. He didn't know why the masked man brought him to see him.

And no matter what Qin Yuan said later, the masked man ignored him, and instead turned his head to look at the man.

"Now you know what to do? You can evaluate whether you have that ability."

The man nodded, looked at Qin Yuan up and down and began to size up, "Sir, it should be no problem, I can give it a try, if it doesn't work, I think I can turn on the control at any time."

Faced with this situation, Qin Yuan was also dumbfounded. He had a system before and could identify it at any time, but according to what the two of them said, it seems that the man should have a system, and it is probably used to deal with himself.

It's just a pity that facing this situation, he couldn't leave even if he wanted to, and soon many people came in the room, all of them were fully armed.

A few minutes later, several doctors came in, and they began to inject something into Qin Yuan's infusion tube. Qin Yuan felt that something was wrong, and before he could react, he just fell asleep like that. It was an anesthetic .

They also wanted to be safe, after all, they were worried that after Qin Yuan gained the system ability, they would not be able to control it at all.

This time, he finally took advantage of this opportunity to catch Qin Yuan. If he was allowed to escape, there would be no way to make such a device next time.

Watching Qin Yuan fall asleep, the masked man was a little cautious, and observed for a few more minutes before asking the outside staff to turn off the device.

After the device was turned off, the system quickly came to life, and the system began to restart. Under the system's capabilities, Qin Yuan's body was originally invulnerable to all poisons. Such an anesthetic had no effect on him at all, and he woke up right after. Come over and stare coldly at the people around you. Valley

The masked man was not ready yet, and Ruan Ruan suddenly jumped up from the bed. His strength was so great that he overturned the entire bed and knocked all the staff in front to the ground.

"Quickly subdue him!"

The thin man just now started to use his system ability, Qin Yuan stared at him coldly, his target was the thin man, and he didn't know what else this guy had.

But no matter what, let's deal with him first. The throwing knife in his hand was thrown towards the man. Of course, at the same moment, the man also quickly released his skills. Unexpectedly, it turned out to be infinite control.

Under control, Qin Yuan's flying knife completely shifted its direction and moved to the side.

The man's ability to control is not only that, he began to try to control and calm Qin Yuan down, but how can his ability be compared with Qin Yuan's?

Under the powerful charm skill, Qin Yuan released it quickly, and everyone in the room was instantly controlled.

But in the next second, the annoying voice continued to sound again, Qin Yuan stared coldly at the camera outside, and just a little bit short, he completely fell down.

This guy turned on the voice that could control his system again, and the system ability was recovered again. Now he has nothing to do, just like an ordinary person.

The people under his control stood up slowly. His injuries had recovered. The man standing in front stepped forward and kicked him on the shoulder.

The masked man roared loudly: "It's alright, don't touch him."

"Sir, but this guy is too dangerous. We couldn't control the sudden explosion just now."

"This is not his problem at all, but you told me before that you can ensure control, and now this is the control you said that you have not insisted on for a minute."

When the masked man said this, he deliberately looked at the man next to him, and the man lowered his head silently. He didn't know that he had tested this kind of experiment many times before, and it was very stable, but when facing Qin Yuan, he really no way.

In front of Qin Yuan's system, his ability is not worth mentioning, and he was defeated instantly like this.

The masked man was even more thankful that he had put in an extra layer of protection, otherwise it would have been easy for Qin Yuan to escape in the situation just now.

Qin Yuan was very unwilling, and angrily blew on the floor. He has been trapped here for more than two weeks. Of course, there is no progress at all. It was actually a good opportunity just now, but he didn't seize it.

The masked man stared at him coldly, "Now we can talk again, which is the condition I just said. If you think it's okay, then we can cooperate. I won't control your ability casually."

"If you want me to cooperate with you, this is absolutely impossible!"

The masked man's patience is quite good. Faced with Qin Yuan's clamor, he didn't care too much. He just said when he came out: "It seems that the environment you are in is really comfortable."

"What the \*\*\*\* do you mean? Come back!"

But the masked man walked out directly. At this moment, Qin Yuan is just like an ordinary person. He has no ability and can only be manipulated by them.

The masked man is currently building another system. The sound he is making can temporarily disable Qin Yuan's system capabilities, but it needs to be turned on all day long.

But at the same time, he also wants Qin Yuan to submit, so he plans to recreate another space, which can not only make the sound circulate continuously, but also make Qin Yuan submit.

The mask was taken to another underground space, where it is being built.

The current Qin Yuan is just an ordinary person's body. In this case, various criminal methods can be used, anyway, as long as he is kept alive.

The staff inside are rushing to build it. Judging from the appearance, it probably looks like a water prison, and there are many large radios on the side.

After another three days, Long Xiaoyun and the others were allowed to enter the country, but with so many borders, they didn't know where to go. It was too confusing to search like this, without any clues or standards.

Moreover, there are requirements for them to enter the country, and the number of people is limited. On the other hand, they have to cooperate with the local team. It is called cooperation, but it is actually a kind of supervision.

The local area also promised to help them find and investigate clues, but the time is delayed by one second every day, and it is impossible to continue like this.

Long Xiaoyun just took a chance, chose a general direction, and started to search. This side is the border of Xiaomao Country. She didn't know whether Qin Yuan would enter here.

So many days have passed, and there is no trace to be found. When it was getting dark, Long Xiaoyun was so angry that he followed their team and kept urging them to go back to the local embassy.

It's just that she doesn't have seizures, so she reported it to Gao Shiwei directly after returning home.

"Captain Gao, the current situation is really helpless. If this continues, we won't be able to find him at all. If you don't open it, you need to investigate, but you can't investigate anything."

"Xiao Yun, you have to know that we have been able to enter these areas, which has been discussed for a long time."

"But we're completely out of target right now, and I'm worried we might block the draw and go for nothing."

"I know this, and there is a lot of pressure on me from above. We have mobilized so many people to look for Qin Yuan. What is the final result? I don't know, and I can't guarantee it now."

Long Xiaoyun sighed silently. She didn't know how to find so many borders and countries tomorrow. Where did he go?

On the other side, the place that the masked man built for Qin Yuan has been completely remodeled.

He asked someone to bring Qin Yuan out, and the whole aisle recalled the ear-piercing chirping sound, Qin Yuan was very irritable, but there was nothing he could do.

When he came to the water dungeon, the masked man looked at Qin Yuan, "Actually, take a closer look, there is no need to make it like this. Now I really admire your system capabilities. You only woke up for a few seconds. The wound on your body It has fully recovered."

Chapter 1163: find a chance to escape

"What's the use of telling me this now? Do you think I will give in because of this?"

"It seems that you are still so stubborn. Do you know why there was no way to interrogate you before? That's because you have the system ability I gave you. Now that you don't have it, what else do you compare with me?"

Qin Yuan smiled disdainfully, no matter what, even if he has no system ability, he will never give in.

This kind of gourd-watching training, he has done it many times before, as long as he is broken and weak once, he will bow his head countless times later.

Qin Yuan was very calm, the harsh voices around him made him a little broken, and his footsteps were a little trembling, mainly because he had been under house arrest recently.

He had just stepped forward when the man next to him suddenly came out from behind and hit his waist with a stick. The iron baseball bat caused Qin Yuan to kneel on the ground instantly in pain.

He gritted his teeth and was just about to stand up, but another club hit him, followed by a violent beating. After these people completely knocked him down, they dragged him and threw him into the dungeon.

The masked man watched coldly from the side, "Remember not to feed him anything for the next three days, until he is willing to say that he is willing to see me."

The people next to him nodded quickly, and just like that, the masked man turned around and left, Qin Yuan was thrown into the icy pond with blood still dripping from his head.

In this dungeon, there is no sunlight at all. Qin Yuan could calculate the time before, but now the time is simply too long for him. If it was before, he could persist for a long time. It is definitely not a problem, but now After about two hours, he had already started to tremble, plus the wounds on his body.

He just felt that the time was too fast, and the water dungeon was very painful, the water was directly up to his neck, he could only keep maintaining his figure, his feet were completely numb and trembling.

His lips had gradually turned white, and his whole body was trembling uncontrollably. This was a sign of hypothermia. After all, the temperature in this underground water was already low, let alone in this icy water.

Qin Yuan couldn't stand still, and turned over in the middle of the water building, and began to cough violently. He kept struggling, and the people next to him were just watching the show, and everyone laughed.

He didn't know how long he could last like this. He stabilized his figure again and again, and finally had no choice but to stretch out his hand and hug the pillar above it tightly.

Unexpectedly, the guard was not happy, and began to stand on the side, picking up stones on the ground, and began to throw them at him.

Qin Yuan stared at those guards coldly, he would not let any one go, as long as he had a chance to go out.

What Qin Yuan didn't know was that Long Xiaoyun hadn't given up on him, and was still searching, but such searching was meaningless. After all, the masked men and the others were very covert, so how could they be easily caught by them? found it?

In addition, in the office, the masked man looked at Qin Yuan in the dungeon, observing his every move. This guy had ruined many of his plans, and he couldn't let him go so easily.

"Sir, should we continue with our previous plan? Do we need his child?"

"I don't need it now. Since I have such a powerful gene, why do I need other ones? Don't worry, I will always make him succumb."

In fact, the masked man also wants to make two-handed preparations. He can't guarantee that he will give in 100%, so what he needs is time. If there is no other way in the end, he will also attack Qin Yuan's child. After all, he is just a useless person now and cannot protect him. His child, if he finds an opportunity, he will definitely make a move.

Long Xiaoyun and the others have been floating on the sea for three full days. If the people from Xiaomao Country do not cooperate at all, they will be told to wait for notification after searching for a period of time, and they cannot stay in the country for too long.

They could only search for clues back and forth on those borders, but this is a vast sea, and some borders are all mountains. This time, I don't know how many people were dispatched, but nothing was found.

Everyone is haggard, it's been so long, there is no clue, everyone is exhausted, both physically and mentally.

He Chenguang took some food and handed it to Long Xiaoyun, "Captain Long, why don't you eat something first, Brother Qin hasn't found it yet, you are our backbone."

On the surface of the sea, Long Xiaoyun has been standing on the deck. She looks around and doesn't know what she wants to see, but she doesn't want to miss it.

She took a piece of compressed biscuit casually and gnawed on it. Her chapped lips were finally moistened with food.

She casually took the water bottle and took a sip of water. "We have completely searched for the coordinates here, but we haven't found any clues. It seems that we have to speed up and break through this range directly after tomorrow."

He Chenguang sighed, he knew that Long Xiaoyun couldn't be persuaded, and everyone was very anxious now.

"Dragon Team, you should pay more attention to your body."

"I am very worried about Qin Yuan now. He has never disappeared for such a long time. I am worried that he will encounter other dangers."

"But Brother Qin's ability is so strong, so he shouldn't encounter any problems, right?"

"It's true to say that, but you've seen when he disappeared for such a long time, and he didn't tell us."

This... He Chenguang shook his head. He didn't know what to say. Qin Yuan is a very stable person, and he would never worry everyone. It seems that something unexpected happened.

Another day and night passed like this, and Qin Yuan felt that his legs had completely lost consciousness.

He couldn't stand still, and just wanted to close his eyes and go to sleep, but the guards next to him didn't let him sleep at all. As soon as he fell asleep, the guards next to him started shooting underwater.

That roar kept ringing in his ears, he was close to collapse, his eyes were red.

This kind of torture didn't know when it would be the top, and it lasted until the evening of the next day.

The dinner delivery came, and a few guards sat cross-legged beside them and began to eat big mouthfuls. While eating, they deliberately threw the chicken bones beside the water prison like teasing a dog.

"How about it? Do you want to eat? If you want to eat, I will send you out later, kneel down and kowtow to us, and then I will eat for you."

Afterwards, everyone started to roar with laughter. Qin Yuan didn't say a word. After soaking in the cold water for two days, plus the previous wound, his consciousness was even a little blurred.

At this moment, the lights in the room flickered suddenly, and a guard next to him cursed, "It must be the group of grandchildren up there who don't know what the \*\*\*\* is going on. They did it like this before, and the voltage is not enough at all. It looks like the lights are not working." It's almost unbearable."

"Speaking of which, do you want to report this matter to your husband? After all, it was a problem they designed at the time."

"Let's forget it. How dare I say it. If it's just a small problem, because it disturbs him, then you know the consequences."

When several people said this, they continued to eat and drink, and ignored it, but Qin Yuan seemed to see an opportunity.

After all, in this case, it means that the voltage is unstable, and it is easy to have a power outage. If the power is out, the audio equipment should also be cut off. If this is the case, then you have a chance.

It's a pity that such an opportunity didn't show up until the next morning, Qin Yuan's consciousness was a little fuzzy, and he didn't eat anything for the past two days.

The next morning, he really couldn't hold on, but he still didn't say a word, and the guard next to him came over.

"I said you guys can really hold on, we can all feel the cold breath just by standing by."

"roll!"

Qin Yuan didn't want to say a word, but just spit out this word coldly. No matter what, he couldn't lose to himself, and even if he died, he would not agree to the request of the masked man.

And the masked man would not let himself die so easily. The guard next to him saw that Qin Yuan was still so stubborn, so he opened the cage and dragged him out.

"You guys have a tough mouth, but I want to see if you are tough or our stick."

It can be said that Qin Yuan has no strength at all now, and the masked man also saw the scene of Qin Yuan being tortured by them on the monitor.

The man behind said slowly: "Sir, do you want to go out and stop it?"

"No, I just want to see how long this guy can last, maybe after being tortured by them like this, I will think about it."

Qin Yuan was beaten to the ground by them, and he had no strength at all, but he still thought of an idea. When he was beaten to the ground, he saw a wire in the corner.

In an instant, he seemed to see hope. After all, the voltage in this place was insufficient, and there was a wire there, which might be connected to the switch behind it. If the wire could be destroyed to cause a short circuit, it might be possible to stop the \*\*\*\* sound.

Qin Yuan forced himself to stand up, "Just you \*\*\*\* bastards, I never thought that you can... you can deal with me now."

"You guys are really rampant. It seems that you still haven't figured out the situation. Who is calling the shots now?"

After the man finished speaking, he went forward and smashed Qin Yuan's head with the \*\*\*\* of his gun. Qin Yuan tried to get close to the wire, but they pulled him back.

Qin Yuan, who repeated this repeatedly, felt a heat flow down from his head.

Finally, he finally found a chance and fell directly against the wall by inertia. Several guards laughed loudly, they didn't realize the seriousness of the matter at all.

Qin Yuan gritted his teeth. The reason why he was able to persevere until this time was not only due to the ability of the system, but also his stronger willpower.

He rushed to the wire by the wall with all his strength, roared, and tore off the wire abruptly, because he knew that this was his only chance and he must not let it go.

The guards next to them didn't react at all. They were still laughing, but suddenly the whole room fell into darkness. Several people were at a loss, and as the darkness fell, the previous roar stopped abruptly.

In the darkness, Qin Yuan was like a killing god. He moved his body, and the system completely came to life. He didn't delay, and went straight forward.

The few people who were laughing just now fell into a pool of blood in an instant. Their eyes were wide open, and they couldn't believe it. In just a few seconds, they turned into corpses.

The masked man on the other side of the monitoring room opened his eyes even wider. He felt that the situation was not good, and cursed loudly: "What are these trash doing? Hurry over."

He knew the horror of Qin Yuan's ability, and these few seconds were enough for him to react.

When they arrived, the entire underground space was in a state of darkness, and no one could be seen clearly. The masked man was very cautious and asked everyone to turn on the infrared device.

As soon as the infrared device was turned on, a figure rushed out towards them. The guards in front of them were killed by throwing knives before they could react.

At this moment, the masked man has been hiding behind. Although he is just a clone, he also knows to be afraid. He knows that the current Qin Yuan will only choose revenge, and he can't control it at all.

It's just that this guy also thought of a plan, and simply lured Qin Yuan to the hall, which also has this kind of equipment. Unexpectedly, this unexpected situation cut off the electricity underground.

But Qin Yuan's system had already reminded him that there was equipment in the hall, so how could Qin Yuan fall into the trap of himself?

He stared at the masked man coldly, he definitely didn't plan to go, he had to go back and think of a way, whether he could upgrade the system, and then be immune to his kind of control.

Otherwise, this is not a long-term solution at all. If he is controlled again in the future, he will have no chance to escape. After thinking about it, he jumped out of the high wall and no one can stop him. Even the snipers on the wall were directly killed by him with playing cards.

After coming out, Qin Yuan started running. He was worried that he would encounter the previous situation again. Anyway, he must stay away from here first.

With the system, his skills recovered quickly, and the injuries he suffered before had fully recovered without any problems. His speed was so fast that even drones couldn't catch him.

The masked man clenched his fists. He didn't expect Qin Yuan to run away this time. This was a rare opportunity, but he wasn't worried that there would be such an opportunity in the future.

After all, he has now researched something to restrain Qin Yuan. As long as he is under control, he will definitely destroy Qin Yuan mentally next time.

Qin Yuan asked as he ran, "How long did I stay in the system this time?"

"Back to the host, I have been asleep for half a month, it seems that that thing restrains me very much, and can interfere with my parasitism."

"Then do you have a solution? Do you need more salary, and I will help you upgrade."

It took a while for the system to respond, because the system was also thinking of a solution.

Chapter 1164: train special teams

"Host, it is currently detected that there are still 20,000 merit points, which is not enough to upgrade. If the next upgrade is required, the system itself needs to reach 100,000 merit points."

Hearing this, Qin Yuan thought about the value of 100,000 meritorious deeds. It seems that he has to hurry up and do the task later. He will definitely not be able to contact the masked man again in the recent period. This guy is full of tricks.

Judging from the previous situation, he not only modified a car, but also had this kind of equipment in their base. Once he heard that sound, he would lose the power of the system.

And according to what the system is explaining now, as long as one's ability improves, there will be no problem.

After the next upgrade, that voice will no longer be a threat. He must be careful in the near future. This time, he suffered a big loss. He didn't expect the masked man to set up such a big trick.

The members of the h country team should not have known about it. Everyone was completely calculated. Qin Yuan began to calmly analyze while shuttling on the border.

In addition to the problem of upgrading the system, there is another problem: how should he explain to Gao Shiwei that he has disappeared for half a month now.

He has nothing on him now, including his previous mobile phone. Now he only hopes that the number sent before he was caught will not be found.

He didn't know who that person was, whether he was issued 23 or Wells, after all, the only pieces he could use now were these two.

After Qin Yuan crossed the border and passed the guards in front, he saw their ships on the sea, because they saw their signs at a glance, and it was absolutely impossible to forget this.

Qin Yuan was very excited, and just wanted to go forward, but he held back, now is not the time to go forward, if he goes out now, there is no way to explain it, he can't say he was taken away, this reason is too far-fetched, and it involves There are many things.

After thinking for a while, Qin Yuan slowly retreated to the jungle behind him. He decided to go back to the original jungle, because according to the current situation, Li Erniu and the others must have thought that he was the last to know about him. Was attacked by those two h country players.

So he decided to go back to the original jungle, where he could hide his figure and find other excuses.

In this way, he bypassed everyone. Although he saw Long Xiaoyun, he couldn't say hello, because he did this to protect the overall situation.

Slowly he retreated into the primeval jungle, and now his injuries have fully recovered due to the recovery of the system, but this experience made him feel that he was no longer so powerful, but was found by that guy weak point, but his system can also be upgraded.

Now this matter can't be rushed, he can only wait for the system to upgrade first.

Seeing that it was completely dark, Qin Yuan found a similar position and lay down. With his own system ability, he could of course control it. He gritted his teeth and forcibly broke his leg bone.

At least he has too many secrets now, especially with this system behind his back, so he can't let others know.

On the side of the primitive jungle, Gao Siwei and the others still did not give up. They had launched a drone search, and the infrared system of the drone began to work at night.

Jiang Xiaoyu and the others are responsible for searching in this primeval jungle. After all, the time is too long, and no one reports anything. I hope they have been searching in this jungle for nearly half a month.

Unexpectedly, the drone issued an alarm at this time. They saw a human-shaped marker, and everyone was very excited.

Jiang Xiaoyu quickly took the lead and rushed forward. In the ravine in front of him, he saw a figure lying on his stomach. His figure was very similar to Qin Yuan. He was a little excited.

Everyone called Qin Yuan's name, but there was no response. Everyone's flashlights gathered together, and it turned out that it was really Qin Yuan, but at this moment, Qin Yuan was covered with scars.

Jiang Xiaoyu was very excited, and quickly called the doctor. They were accompanied by health team members. After a simple examination by the health team members, he had already developed symptoms of dehydration.

After all, the group members hadn't eaten at all recently, and he was able to temporarily shut down the system just now, so his state quickly weakened.

Everyone couldn't control that much, so they hurriedly called the helicopter, and brought Qin Yuan back like this. Long Xiaoyun was also very excited when he learned that Qin Yuan had found the news, at least he was safe.

Qin Yuan is also very helpless in his heart, obviously he can recover by moving his fingers casually, but there is no way now, he has to hide first.

When he returned to the brigade, Qin Yuan slowly came to his senses. He looked at the familiar people in front of him, and everyone had expressions of concern.

In fact, he knows everything about the outside world, but this scene must be played well.

Seeing that he was awake, Gao Shiwei hurried forward and asked, "You brat, do you know how many troops were used to find you this time? What's going on? It's really getting bolder and defying me. The command."

Qin Yuan smiled wryly, "Captain Gao, you know that I like to meddle in other people's business, and I couldn't help but take action when I saw that kind of situation, but I didn't expect to be tricked."

Qin Yuan's identity as God of War is placed there, so basically no one will doubt what he said. Qin Yuan's general explanation is that he was attacked by the two members of H country. He did not expect that they were the real spies. Anyway He couldn't tell the details, and he got lost in the mountain.

In addition, the results of the previous doctor's examination were similar. He did have symptoms of dehydration, and his body was very weak, which fit the situation in the mountains and forests.

Gao Shiwei was very angry, "Now I will send someone to find out those two people. What's going on?"

"Team Gao, this is like looking for a needle in a haystack, and I think the identities of the two of them are not simple, and the country of the United States is probably behind it. Anyway, it's very complicated. This time I was really tricked."

Hearing this, Gao Shiwei frowned slightly. This time he paid a lot of money to find Qin Yuan, "You brat, I asked you to come back immediately after executing the order, who told you to go back halfway."

"Captain Gao, I'm like this now, but no matter what punishment comes, I'm willing to accept it."

Although Gao Shiwei said this, he changed his mind and looked at Qin Yuan on the hospital bed, "Anyway, I have already told you clearly here, remember that when they come to ask, don't say anything, you just go there. While performing tasks, I have already mentioned the specific tasks."

Qin Yuan opened his mouth and smiled, "Captain Gao, I really have to rely on you to help me this time, I really can't help it, you know me, sometimes I can't stand those things. "

"Okay, you should have a good rest. There was a lot of commotion this time. I have to deal with those people outside. Just remember not to say anything."

To be honest, Qin Yuan was quite moved, no matter what, there was still Senior Senior standing outside to support him, otherwise he really didn't know how to explain it when he came back, but this time, he didn't expect it to turn out like this.

After Gao Shiwei went out, Long Xiaoyun walked in, he closed the door, stared at Qin Yuan coldly, "There is no one else now, just the two of us, tell me, what's going on?"

Qin Yuan was confused, and quickly shook his head, "Xiaoyun, why am I not clear about what you are talking about? This is indeed what happened this time."

"Don't lie to me, let me tell you where you are, I took your team there no less than ten times, do you know? I almost walked through the entire primeval jungle!"

Long Xiaoyun was very excited when he said this, he stepped forward and grabbed Qin Yuan, what is this \*\*\*\* doing? And why did it appear in that place inexplicably?

Qin Yuan knew that Long Xiaoyun was too smart, and at that time she must have gone crazy looking for many things, she definitely did.

"Xiaoyun, where do you think I will go? After all, I can't stay in that place forever. I was really trapped in it, lost my way, and finally fell down there due to exhaustion. I really don't know. What do you mean by saying this."

Now Qin Yuan can only pretend to be pitiful to avoid this interrogation, because Long Xiaoyun is really too smart, it is very likely that she will see even a slight expression, and Qin Yuan doesn't want them to worry.

Long Xiaoyun carefully observed Qin Yuan's expression, and it seemed that there was no change. Could it be that he was thinking too much? Because after such a long time, she really couldn't understand why Qin Yuan lost his way in the jungle when he was so powerful?

Qin Yuan seemed to hold back this mentality, "I know what you're doubting, but do you think I need to lie to you? It's already at this point. Although I'm strong, of course I sometimes miss it."

Hearing this, Long Xiaoyun frowned slightly. The tone of her words just now might have been too strong. After all, Qin Yuan was injured and came back with great difficulty. She shouldn't be so suspicious.

"Forget it, I was really wrong just now, I was thinking a little too much, because I was really worried about you, do you know how many people came out to look for it?"

"Xiaoyun, I really know this, so I am very lucky to be able to come back this time, and I will not do that next time."

"I hope you can really do it, and don't worry us again then."

After Long Xiaoyun finished speaking, she walked out silently. She is very conflicted now, but she believed Qin Yuan in general.

On the other hand, after Gao Shiwei returned to the office, he explained to the people at work that this time there was an emergency, but no matter what, the result was good, and Qin Yuan came back.

At this time, Long Baichuan walked in suddenly, Gao Shiwei hid it very well, he did not reveal other things to anyone, because he wanted to protect Qin Yuan.

But Long Baichuan is also a smart person, of course he knows the specific situation, no matter how to carry out the mission, it is impossible for Qin Yuan to go alone.

He walked over, looked at Gao Shiwei and said directly: "Old Gao, what do you think about this incident? I would like to hear your opinion."

"What do you mean? Isn't everything resolved? What else can I think? Just wait for that kid to recover."

"Hahaha, you old fox, you really are still biting on it until now, but don't forget, we are people standing on the united front, I am different from those guys."

Gao Shiwei smiled helplessly, Long Baichuan was really too smart, there were many things he couldn't hide from him.

"What you said is indeed true. Qin Yuan disobeyed the order this time, but I promised him the specific situation, and I can't tell others, because there are too many things involved."

"Of course I know this. I don't care what he is doing, but I want to ask your opinion on this incident. There is only one God of War."

Hearing this, Gao Shiwei turned his head and looked at him suspiciously, "You mean?"

The meaning of Long Baichuan is actually very simple. Through this incident, it can be seen that many of their training groups are deficient. The one that can make a difference is the red blood cell group, and the wolf squad, and then the lone wolf group B, plus the thunder and lightning group. Commandos, but these are old special operations teams, and they now need more fresh blood.

And Qin Yuan is the main person who maintains these special warfare teams. It can be said that Qin Yuan can come out alone. His strength can be said to be the sum of these special warfare teams, but when this core force is gone, There is no way to condense many things.

So what Long Baichuan meant was to see if he could re-form a few special warfare teams. This time, Qin Yuan could be completely in charge, and he couldn't rely on them for everything.

About forming a new special warfare team Gao Shiwei hesitated, no matter what, he felt that his special warfare team was mainly responsible for this matter, and he hadn't thought of this yet.

"Baichuan, I think it's too early for you to think about this question? The strength of our special warfare teams is still at its peak. Do we need to train other new ones?"

"Old Gao, you can look at the problem from another perspective. These special operations teams are indeed very good, but we really don't have an advantage in terms of numbers, and their capabilities are indeed very strong."

Because now take the United States as an example, they have formed 16 special warfare assault teams this year, what is this concept? In terms of the number of developments in all aspects, they are indeed ahead, and they are all digging out various military talents.

So for this point, Gao Shiwei must understand it as soon as possible, and in addition to the matter of searching for Qin Yuan, it gave Long Baichuan the greatest inspiration.

"We have sent so many teams this time. Except for your few special operations teams who are more experienced, look at the people in the team. To be honest, I am really disappointed. For the search, for personal ability, they're really underwhelming."

What Long Baichuan said was also true. Will they have to rely on these special operations teams in the future?

Chapter 1165: have an idea

Gao Shiwei is also seriously thinking about this issue. If this is the case, Qin Yuan can be responsible for this matter. He is indeed talented in training.

"Baichuan, do you mean to start a comprehensive selection process or something?"

"Old Gao, we are all at this age now, sometimes we can retreat, we can make some suggestions, the specific action plan should be left to young people, don't you think so?"

Gao Shiwei understood what Long Baichuan meant, because Qin Yuan made a lot of noise this time, and he just used this excuse to let him make up for his mistakes. In addition, it was seen that Qin Yuan had made achievements, so there would be no more pursue.

On the other side, Qin Yuan was lying on the bed, thinking about how to increase the merit value, but unexpectedly, the system seemed to be sensed, and suddenly made a sound.

"Ding! The host triggers a situational task. Every time a special warfare team is successfully trained, it will get 5,000 merit points. After completing the task and reaching the merit point, the system will automatically upgrade."

what's going on? Qin Yuan was still confused, why did he suddenly say that he wanted to train a special warfare team, but the system usually does not send out such tasks for no reason, and it is usually combined with other circumstances.

Qin Yuan thought about it for a long time, and Gao Shiwei came to him suddenly in the afternoon. It turned out that it was for him to train the team members. They planned to let Qin Yuan develop in an all-round way and start looking for talents in all aspects, not limited to the assault within their team. squad.

Hearing this moment, Qin Yuan regained his energy and sat up from the bed, "Good team! Is what you said true? I can really take full responsibility and then do this thing."

"Of course it's true, you brat, this time I'm entrusting you with such great power, don't mess around with me, you should train hard, and you must make achievements."

Gao Shiwei has already reported to the superior, and the superior agrees with this matter very much, and now all parties have agreed, so it depends on Qin Yuan, as long as he can train the team, basically there is no problem.

"Team Gao! Is there a time limit for how long? I want to finish it."

Qin Yuan was very excited when he said this, because in his opinion, there was finally something to do, and he could increase his merit points.

"At present, there is no time limit. This is the first time for us, so I still hope that you can do it well. The first step is to see how to select. These things are left to you anyway."

Speaking of this, Qin Yuan was very excited. In fact, when he just started talking, he already had a rough plan in his mind. Since it was about all aspects, it was absolutely no problem. He had gone to

the special police brigade for training before. , I feel that they can also become their own unique team.

Including medical treatment, he can set up a unique medical team. In the face of various emergencies, such a medical team can play the greatest role on the battlefield.

These thoughts kept popping up in his mind, and he became more and more excited, wishing he could go now, and got out of bed directly.

Gao Shiwei pulled him, "What's your hurry now, brat? I just got the application from the higher-ups, and then I will issue the documents. Just during this time, you should take a good rest and wait for your body to recover, and then directly use your left hand train."

"Captain Gao, I think I'm almost done resting now, and I can take the team members with me."

"How to train is your business, but now you stay here for me, recover first."

Gao Shiwei's attitude was very firm. After all, it was the first time before he saw Qin Yuan in such an injured state. Even he thought Qin Yuan was invincible.

The next day, Mu Qingmei took Qin Ran to see Qin Yuan. During this time, under Mu Qingmei's leadership, the children are doing well, but it's not a problem if they don't go to school all the time.

So this time I came here to talk about this matter. The child is very sensible, and she quietly assured Qin Yuan that she had never used other abilities in front of others. Although the child did not understand what the ability was, she still listened to Qin Yuan very much. Yuan's words.

But the more this happened, the more worried Qin Yuan became. After all, the child is in an ignorant state now, but as she gets older, if she encounters any unexpected situation outside, she is likely to use her ability, because the child It is uncontrollable in itself.

Mu Qingmei looked at Qin Yuan's bitter and bitter look, and couldn't help but jokingly said: "Brother Qin, I said you are really good, I have been your nanny for such a long time, you also Don't tell me what's going on, can I go now?"

"It's been really hard for you during this period, but I really can't help it. I think you are indeed the person I trust the most, so I am willing to hand over the child to you."

Mu Qing rolled his eyebrows at him, "You speak nicely, so why don't you call me Sister Xiaoyun, and Sister An Ran? If you insist on calling me, it's really annoying."

Qin Yuan knew that Mu Qingmei wasn't angry, but she was curious about why. Qin Yuan planned to bear these things by himself, and he didn't want to involve other people.

According to the current situation, the child should be safe and can go to school normally, and there will be no problems in the brigade.

On the other side, he still has Wells and No. 23, so he will report to him as soon as possible if there is any situation. Now he feels that the person who reported to him before should be Wells.

"Actually, I also came to talk to you about this matter this time, because I was always worried that someone would retaliate against the child, so I let you keep it with me, but now the matter has been resolved by me, I am very sorry, I cannot talk to you You say that."

Mu Qingmei was actually a little disappointed, because Qin Yuan still kept it from her, and didn't tell her many things.

But after thinking about it, Long Xiaoyun and An Ran didn't even mention it. Now that they compare it like this, it seems that they really have some trust in themselves. Thinking about it this way, I can think about it.

"You guys are really annoying. You still keep everything from us. I'm really worried about you."

"You little girl is still teaching me a lesson now, but the lesson is right, but no matter what, don't worry, I won't do other things. Everything I do is to protect you."

Qin Yuan was holding the child, who was playing with a car in his arms, as if he didn't care about the outside world, Qin Yuan also had mixed feelings in his heart.

Now the child's heart is too simple, and she doesn't understand many things. At this time, he suddenly asked the system, "System, can I hypnotize the child? Just let her forget some previous memories."

"Answer the host. There is no problem with this. Currently, the host's hypnotic ability can be achieved, but the duration is only three months."

three months! This was very satisfying for Qin Yuan, three months would be fine, and he could hypnotize the child next time, as long as she didn't show that ability, it would be the greatest protection for the child.

Qin Yuan did what he said, and Mu Qingmei was sitting next to him, carefully peeling the fruit. Taking this opportunity, he began to hypnotize the child slowly.

Mu Qingmei didn't find anything until the end. Qin Yuan's actions were very careful, and he could do it unconsciously.

The child didn't realize what happened, and it was still the same as before, playing with toys beside him. Qin Yuan looked at Mu Qingmei next to him, and then at the child. It can be said that the time is quiet at this moment, but unfortunately he still has many things. have to face.

If this is the case, let him bear those things, and the children and them will be responsible for the time and peace.

This time Mu Qingmei also talked about this matter, she can't keep asking for leave, she has already used the rest of the leave this time, and she has to go back to the health team.

It happened that Qin Yuan said that the crisis had been resolved, so she could send the child back.

For Mu Qingmei, Qin Yuan was generally a little guilty, and asked her to help take care of the child. Looking at her back as she was about to leave, Qin Yuan suddenly said:

"I will definitely compensate you next time. Let's go and have fun, but I have other tasks later, but don't worry, I will definitely go to you when I have a chance."

Facing Qin Yuan's sudden appearance, Mu Qingmei said it so solemnly, a little embarrassed, "You're a glib guy all day long, and you'll talk nice things to coax me. Forget it, I don't want to argue with you."

After finishing speaking, she took the child and left. In fact, she was very happy in her heart, as long as she could get Qin Yuan's approval, it would be nothing.

For Qin Yuan this time, it can be said that two major issues have been resolved. One is the matter of meritorious service, which can basically be implemented. If he wants to train the team, he already has several sets of plans in his mind, which is basically no problem. One is that the child is temporarily safe.

Qin Yuan's memory is super strong, he has always remembered the previous number, but he was very worried about the mobile phone, because he was taken away immediately at that time, and the mobile phone was also confiscated by them.

So now even if you remember that number, there is no way, after all, it must be meaningless.

He originally wanted to go to Wells, but he really couldn't do without it. Now that he wants to go out, it is basically impossible. Gao Shiwei simply sent someone to be on duty 24 hours a day, worried that he would disappear like last time .

The members of the red blood cell team come in rotation every day, and there are people there day and night, Qin Yuan is really helpless.

Qin Yuan's condition has also improved, and he is about to be discharged from the hospital. Li Erniu came to the hospital again.

Qin Yuan said helplessly: "I said, are you exaggerating? Don't you have this trust? Where else would I go?"

"Brother Qin, it's not that we don't trust you, it's that you talk about it yourself. This time we were scolded \*\*\*\* by Lao Gao, and you were hospitalized in the hospital. We were punished every day."

"Why? Isn't this what it should be? Didn't everyone say they were brothers before?"

"Brother Qin, this is indeed what should be done, but you should also score. Now that Lao Gao has told us about the training of the players, don't make any problems in this joint, and none of us will be able to bear it by then." Walk around."

Qin Yuan smiled, this kid has finally matured, he didn't think about so many problems before, but now he thinks about things in many ways.

This is what he wants to see, because everyone in his red blood cell team can pull out independently, not necessarily relying on him.

But this is also what Long Baichuan hopes for. He hopes that everyone can develop in multiple ways, and he has also seen the specific documents and news sent by Long Baichuan.

He handed the document to Li Erniu, "Don't worry, I'm naturally concerned, you should take a good look at these, I didn't expect the United States to develop so fast this year."

Sixteen special warfare teams, this is no joke, but these special warfare teams are mainly based on land and air, mainly within the three armed forces.

It's not that simple for Qin Yuan to develop. Since Lao Gao entrusted him with such great power, he will definitely develop well.

After being discharged from the hospital, Gao Shiwei's red-headed document had already been sent down, "Stinky boy, let me tell you, you have to do it for me this time, don't embarrass me."

"Don't worry, Team Gao. I've already thought about what to do."

This time, the authority given by the higher-ups is very large, so that he is not limited to the inside of the brigade, and other talents in other fields can be discovered, which is also what Qin Yuan thought.

As for all the tasks of the brigade, they will be handed over to Long Xiaoyun temporarily, but there are not many tasks recently.

Qin Yuan simply took the red blood cell team away, and he also needed other training later on. The first thing he thought of was selection. If he wanted to be selected, he would definitely need to cooperate.

And the news that Qin Yuan wants to lead the special warfare team quickly spread, UU Reading [www.uukanshu.com](http://www.uukanshu.com) In fact, most people have a skeptical attitude, after all, his approach this time is too bold.

As the name suggests, the special warfare team usually selects top soldiers from the army, but this time Qin Yuan broke the tradition.

When everyone received the documents, especially when those local units received the documents, they were all in a daze. The special warfare brigade was going to come to them to select talents. Why does this feel a bit nonsense?

After all, in their impression, special warfare soldiers like this are always rushing to the front and becoming a sharp knife force of the country, but now they should be selected from their units, which is a bit unbelievable.

In the car, Qin Yuan probably talked about the selection situation with the team members this time. Since it is a selection, he has to sort out the types. For the first batch, he will focus on their special forces team, and start with the beginning .

After all, he had been to the special police brigade before, and he felt that their physical fitness was very good, and such training was also very necessary.

He can also train a special police team like the red blood cell team, which can serve as the main combat force in the city.

Such combat power is not limited, but developed in many ways, both internal and external.

Chapter 1166: brand new team

It can be said that Qin Yuan and the others are developing innovatively this time, and Qin Yuan is actually very worried about this issue, especially after He Chenguang has seen Qin Yuan's plan, he is a little worried.

"Brother Qin, is the method you mentioned not suitable? After all, they can't accept it. After all, they have their own rules and regulations. Will we be too strict in doing so?"

"Your worries are too much, but they do have other ideas, but this time, the superiors gave me the highest authority, and everything is up to me."

If Qin Yuan wants to do it, he must do the best, and will not say anything else.

Others think these things are very difficult, but he has to do it, and he is not afraid of offending others, because if he wants to be the best, he must meet his standards.

The two of them were talking as the vehicle stopped, and they had already reached Xiongshi's SWAT team.

Qin Yuan is really familiar with this place. Long Xiaoyun also came to give guidance before, and he also came to serve as a temporary instructor for a period of time, but mainly to guide their tactics, but this time he came is completely different.

The special police brigade had received orders before, so the team leader brought his team members to stand at the door early, welcoming Qin Yuan and the others to come down, and the team leader Song Lin walked over with a smile.

This Song Lin is also a retired veteran, but he served in the local army before, and he is also very capable.

Qin Yuan admired him very much before. This person can endure hardships, and these people have also done a lot of practical things at the grassroots level.

"Captain Qin, I said before that we will meet again. I didn't expect you to come with a special order this time. Welcome."

"Hahaha, no matter what, we are all a family, and we all want to develop in a better direction, so maybe what I do next will offend others, and I need you to take care of me."

When Qin Yuan said this, he purposely looked at the team members standing behind. He didn't want others to think that he was giving others a blow when he came, so he tried to soften his tone, but this must be done.

Song Lin is still smiling. To be honest, he has made a lot of achievements in the special warfare team over the years. Now that he has Qin Yuan, he wants to see what he can do with the special warfare team.

"By the way, Captain Qin doesn't know what your plan is this time?"

"Well, I've made a detailed plan. After I go back, I want to tell you that now I hope you can find some captains and we will hold a meeting."

It has to be said that the Special Operations Brigade is different. The team members below are already talking a lot, and they have just arrived, and they have already started to do business.

Most of the team members are still very familiar with Qin Yuan. Qin Yuan also gave them special training before. This person is very capable. However, several new teams have joined recently, so a small number of people are still a little strange.

Qin Yuan also said hello, and then led the team into the back of the office building where Song Lin was calling other team members to prepare for a meeting.

There are a total of seven teams on their special police team, plus some reserve members. There are more than 90 people in total. The team here can be regarded as relatively large.

And it can be regarded as a team among the elites, because the main task of the special police team is also very important, so the players who can enter here are carefully selected.

Qin Yuan now wants to select an eight-member team from the ninety people. It can be said that it is somewhat modeled after their red blood cell team, but only in general and other details need to be improved, because their goals are different. .

At the meeting, Qin Yuan looked at the team members sitting below and began to talk about his plan endlessly. He was very confident about this plan.

"I know that everyone is quite familiar with our special operations team, and we can be regarded as performing their own duties, but this time I will create a special elite team from among you, which can better carry out urban strategies."

Because special police like them basically fight around the city, focusing on counter-terrorism.

Such targets also have some action plans, which are fundamentally different from their special operations teams. Most of them need to face hijacking cases or search for some major criminals and fugitives.

Just as we were talking, a member of the team below raised his hand to speak, "Leader, I have a question about this. It is no problem for you to lead the new team, because we have many teams in our team. Of course we need the elite among the elites, but what is the standard?" ?"

"Yes, this question is also what we wanted to ask before. Is it completely different according to the standards of your special operations team? Our goals are different."

Qin Yuan smiled when he heard this, indicating that they were really thinking seriously and began to think about the composition of the team.

"I have fully considered the things you said. Don't worry, although I am from the Special Operations Team, I will screen and select you according to your specific direction and goals. Of course, I will also take your main goals as the basis train."

Hearing this, the people below suddenly began to talk a lot, Qin Yuan looked at them with an unnatural expression, what's going on? He turned to look at Song Lin.

Song Lin coughed slightly, and the discussion around him stopped.

"Captain Qin is fine, this group of guys owe you to discipline you."

Qin Yuan didn't understand that the plan he said was absolutely fine. Although there were so many people talking about it just now, he still heard clearly. It probably meant that there seemed to be differences in training.

Qin Yuan also talked about the training. He divided it into several steps. One is the preliminary selection. After the selection, the training starts. After the training, the training is carried out according to the task stage. This kind of training is very clear.

The members of the red blood cell team applauded. They felt that what Qin Yuan said was very correct. At present, these plans are very suitable for their special forces.

But if you look carefully, the other team members seem to be a bit unconvinced. Anyway, this meeting revealed a bit of embarrassment from inside to outside, and everyone didn't say anything more. Qin Yuan also ended the meeting briefly.

When Qin Yuan does things, he pays attention to speed. He turned his head to look at Song Lin and said, "Captain Song, if possible, I plan to directly conduct the selection tonight, which will be faster."

Unexpectedly, Song Lin came over and patted him on the shoulder, "Captain Qin, don't be so anxious, you just came here today, we haven't given you a good reception yet, let's talk about it tomorrow."

Qin Yuan was a little unhappy. After all, this had disrupted his first step plan. According to his plan, the selection would start tonight, and he would start selecting other team members.

Li Erniu next to him carefully pulled Qin Yuan. After all, he just came here today, so there is no need to be so serious.

"Brother Qin, after all, we just came here today, you might as well tell everyone first, so that they are mentally prepared, right?"

Of course Qin Yuan knows what you mean by Erniu. If that's the case, then we can only start tomorrow morning. He will inform you first tonight.

"Captain Song, no matter what, I still hope that everyone can pay attention to this matter as soon as possible. I will start the selection tomorrow morning. I hope you can cooperate with us."

Song Lin fully agreed, but he was a little perfunctory, pushing Qin Yuan to let them go to the cafeteria, where the welcome meals were already prepared for them.

After eating like this, they arranged dormitories for them. Qin Yuan mentioned the matter of tomorrow's selection many times. He needs to see everyone's list and the basic situation of some players. With a basic understanding of the situation, it is better to be able to determine the training plan and selection conditions.

This is also a task for him to complete the system. After all, as long as he trains a team of special forces, his meritorious value will increase, so this is also very important to him.

However, Captain Song kept silent about this matter, and every time he mentioned it, he immediately sloppy, which made Qin Yuan very confused. He was very cooperative in what he said before, so why did he suddenly become like this?

Qin Yuan couldn't figure it out. After talking for a long time, Captain Song was still a little reluctant and handed him the basic information of the team members.

"Captain Qin, there is no rush for this matter. After all, we have just received the order. It will take some time for these team members to receive such information in a short period of time, so give me another two days."

"What still needs two days, time is very tight for us, and I think everyone has this condition."

It can be said that the conditions of the special forces here are relatively good, and there is no need to do some psychological intervention. What kind of thing is there?

Qin Yuan originally wanted to keep asking, but Captain Song made a sloppy look and hurried away, using the excuse that he had other things to do.

He Chenguang and the others also saw that it was tricky. It was obvious that people didn't want it, but what they said was very good before, why did they suddenly change their mind now? This made everyone feel very strange.

"Brother Qin, what do you think is going on with them? Why did they suddenly disagree? "

"I think it's probably about training. Have you noticed that they all agree with the plan I mentioned before, but when it comes to training, everyone's face changed, so it appeared on this question."

This is indeed the problem, but there is no other way now, they can only go back to the dormitory first, Qin Yuan has to go back and study the basic situation of these players.

Qin Yuan just thought of someone when he came back here for special training. He had a lot of contact with the captain of the second team when he came here for special training.

As soon as he was talking, he ran into the little captain. As soon as this guy saw Qin Yuan, he turned his head quickly. It was obvious that something was wrong. Qin Yuan was also full of anger. After all, the plan was broken, so he simply walked up.

"I said brother, you don't need to avoid me like this, you have to tell me what's going on!"

"Brother Qin, what are you talking about? How could brother hide something from you?"

This guy definitely has something to do, Qin Yuan also said straight to the point, he hesitated for a while, a little tangled, and finally said: "Brother Qin, let me tell you the truth, I don't blame the brothers for not cooperating, because everyone has something in their hearts." One question, I am worried that you will poach people!"

what's the situation? Qin Yuan was dumbfounded when he heard this, and worried that he would poach people. This was a decision made by the superiors. Besides, this was also for the good of their team. At most, he was a training instructor.

It took a long time for Qin Yuan to realize that everything was misunderstood. These guys thought that after being selected, they would start to form a new team and send them to the special forces.

Qin Yuan just thought it was funny, what was all this said, "It's too much for you to worry about! Our brigade already has so many small teams, there's no need for it, it's your own."

The team leader was a little surprised when he heard this, "Huh? Why is this happening, but everyone said that you have to compete for selection and training, so it's not poaching or something."

"Don't worry, I have a measure of these things. I can assure you that there will be absolutely no problems. They are all your own team members."

Hearing Qin Yuan's assurance, the team leader was instantly overjoyed, "What you said is true!"

"Of course, in fact, we are all brothers. If you have any questions, just ask them face to face. Just think about it. Isn't there a misunderstanding?"

The team leader was a little embarrassed to hear this, originally Qin Yuan and the others wanted to make their team stronger, but they still thought of them that way.

Immediately patted my chest and promised that I would go and explain clearly to the team members There will be absolutely no problem tomorrow, and I will definitely be selected.

This kind of selection mode is also the first time, Qin Yuan is looking forward to it, the new mode will not be like the special forces, but the requirements will be very high.

As soon as he returned to the dormitory, Qin Yuan understood the general situation. This matter was probably caused by Song Lin. He didn't know what this guy was worried about, so he made these team members not cooperate with him.

This can be said to disturb the morale of the army, but everything will be discussed the next day, Qin Yuan felt that he might be too polite to them.

At half past five the next day, Qin Yuan's red blood cell team had assembled in the playground. Qin Yuan looked at his watch and signaled to blow the whistle.

The sound of the whistle broke everyone's peace. After all, they usually get up on time at 6:30, which was an hour earlier, and everyone was confused.

But usually they would also perform tasks, so they gathered quickly, and when everyone came to the playground, they saw Qin Yuan staring at them with a serious face.

"I'm really disappointed in your concept of time. It only took ten minutes for one set!"

As soon as Qin Yuan's voice fell, the team members beside him became unhappy, "Are you kidding us?"

Chapter 1167: 1 off Mawei

"I made it very clear yesterday that you will be selected from today onwards. Is there anyone who didn't hear what I said yesterday?"

Although Qin Yuan said this matter very seriously, some team members below were still laughing and joking. The whole team was in a very loose state, and everyone didn't take it seriously at all.

Qin Yuan was a little unhappy, and he roared, "Look at your attitude? I said it very clearly before, since the superiors have entrusted me to do this job, then I will do it well."

After being yelled at by Qin Yuan, the following team members couldn't stand anymore, and they came out and said, "What are you? Why do you say that? Let's talk about it. Don't use chicken feathers as arrows here. You can train us at most. , still want us to form a team, we have so many teams, isn't it enough for you?"

In their view, wanting to set up a separate team is completely redundant, because it is not necessary at all.

The most indispensable thing in their special police brigade is the squad. Each team is formed by a squad, and when performing tasks, several squads go together. It has never been so special. According to Qin Yuan, it was established. The team I'm working on is for consulting on special missions.

For them, this is not a fair thing, just like before everyone was at the same level, they all ate from the same big pot, and now they suddenly have to be stricter and set up a new set of standards, then everyone must not accept it , they have gotten used to the previous pattern.

Of course, Qin Yuan also knew about this state, so he became serious now. If he didn't speak well, these people would never take it seriously.

"I'm making it very clear now, and the selection this time is not for you to sign up voluntarily, but for selection based on your status. Now I have the final say!"

I was stunned when I heard this, what does he mean by this? Does that mean that everyone has to participate in his so-called selection?

Immediately, some team members stood up and retorted, "It's too exaggerated for you to say this, why do you formulate such rules, and what should you do with the mission? Everything depends on our team."

Qin Yuan snorted coldly, "I have already greeted the second and third brigades before I came, and from now on, they will be responsible for all mission operations."

But what their brigade needs to do now is to conduct a three-month selection training. Qin Yuan has to select a special warfare team from among them.

Qin Yuan was lecturing the team members, Song Lin hurried over from the door, he just received the news that Qin Yuan gathered all the teams early in the morning.

He thought he was going to have some kind of mission, but he didn't expect this guy to be serious. Yesterday he thought it was just a joke. After all, it took a long time to think about it. He didn't expect that he would start the selection now.

Qin Yuan stared at him coldly, no longer the usual laughing look, but a serious face.

"Captain Song, it seems that these comrades are very dissatisfied with my discipline. If so, then I need to call the leaders above to confirm again. Since they have given me this right, I must carry it out properly. "

When Song Lin heard this, cold sweat broke out on his back in an instant. Qin Yuan's face changed too quickly. Yesterday he looked like a friend and brother, but today he started to do business.

He hurried forward and said with a smile: "Captain Qin, you see that you are too outrageous when you say this. After all, the leader at work said it. We will definitely implement it. It's just that I haven't had time to communicate with the brothers, so It was a misunderstanding."

"It's not necessary. I didn't communicate well. I made it very clear just now. Now that the selection has started like this, we won't waste any more time."

Song Lin couldn't say anything at all, Qin Yuan directly planned to lead the team to set off, and several cars had already arrived at the gate.

Seeing this scene, Song Lin was also taken aback. He didn't expect that Qin Yuan was really serious. Before, he thought it was just a matter of cooperation, but he didn't expect that the authority given to him was really great. It can be said that even he was directly assigned.

He had a dark face and a very bad complexion. After all, it would be embarrassing to scold him directly in front of so many people, but he couldn't say anything.

However, a special police member next to him didn't dare to say a word when he saw their captain being bullied, so he stood up and called Qin Yuan to stop.

"You wait for me to say that you are too arrogant, even if the leader above sent you, but you can't do this, right? Our captain is also a symbol of our brigade after all."

Qin Yuan didn't take him seriously at all, and walked over slowly, "So what do you want to say? In any place, it is based on strength to speak. I didn't use the power from above to suppress you, because you listened. I don't know, I'm planning to actually make a move."

"What do you mean by that? I don't understand, but you must apologize to our captain now."

Song Lin quickly came over to pull the team member, "Liu Qiang, don't talk about it, we are wrong about this matter, we should cooperate with Captain Qin, and go back quickly."

Although he said this, he didn't take any action at all, he just teased Liu Qiang pretendingly.

No matter what, it made him lose face. Of course, Qin Yuan knew that it would be very difficult to rectify his style of work. First of all, he had to give some people some authority.

Liu Qiang also understood the captain's hint. No matter what, a special forces team came to their territory out of nowhere and yelled at them. He must be unconvinced in his heart.

"Hey, I said you guys don't understand? I asked you to apologize to our captain, and what did you say? We are our special police brigade here!"

Qin Yuan simply looked at him with his hands behind his back, "It's very clear that we must rely on our strength to speak. I know that many of you are not convinced. If this is the case, it is better to solve it as soon as possible. I will convince you."

Qin Yuan's words should fall, and a few people came out of the team. They were already unconvinced, and felt that Qin Yuan had started playing with them this morning, and it was still mandatory.

In fact, Qin Yuan also saw their specific situation, so he made such a decision, because at present, the level of their entire brigade is very good, after all, they recruited players from other places.

There were not many people, and with Song Lin's interference, if he was asked to sign up automatically, there would probably not be many people, so they all had a big selection, anyway, this special forces team is also their own.

Liu Qiang looked at the team members who stood up and became more confident in an instant. "Captain Qin, you said it yourself just now. If you want to speak to us with strength, then I want to see how strong it is?"

Qin Zhengyang next to him laughed outright, couldn't these guys see it?

Everyone was watching the show from the sidelines, and a few old special forces members wanted to come out and call them, but since Song Lin was around, it was hard to say much.

"Then stop talking nonsense. After all, I still have to help you in the selection. There are too many things, so let's solve them in five minutes. Maybe five minutes is quite a lot." Gu

Several people were stunned when they heard this. Isn't this guy's tone too arrogant? In five minutes, there were six of them here.

"Captain Qin, did I hear you right? In five minutes, you want to get rid of the six of us. The few of us are not made of dough. I even won the national martial arts championship this year."

It seems that it has been a long time since I have dealt with these newcomers. Qin Yuan only feels that there is indeed that arrogance in it, but they have never seen it before. There are people outside the people, and there are mountains outside the mountains.

"You set the rules, I only give five minutes, you can beat me in any way."

Qin Yuan just said these words coldly, then stood beside his hands behind his back, and pressed his watch.

"Five minutes after the start of the time, if you haven't made a move, then it's up to me to make a move."

Qin Yuan's style of doing things was so fast that even Song Lin was caught off guard. This guy didn't follow the routine at all. Under such circumstances, most people would not care about it anymore. They didn't expect him to directly confront the tough.

Liu Qiang and those team members felt that they had been insulted in an instant, so they only said five minutes, isn't that too exaggerated? In this case, everyone is welcome.

However, one of the team members still knew Qin Yuan's skills. He said in advance: "Captain Qin, but I have to declare in advance that since you are in the special warfare team, we all know your ability, so..."

Before he could finish his sentence, he was interrupted by Qin Yuan.

"I know what you mean? Don't you just want me to let you? This is of course no problem."

Then Qin Yuan made a shocking move. He took out a cloth strip from his pocket and tied it directly over his eyes.

Originally, this team member meant to ask them to do a few tricks. No matter what, he had heard of Qin Yuan's name, but he didn't expect him to directly fight with fierce eyes. This is too exaggerated.

Liu Qiang felt that he had been insulted even more. This was really too exaggerated. At the beginning, he said that it would be fine to solve them in five minutes, but now he is blindfolded. If they can't beat them like this, wouldn't they be too embarrassed?

"I said, brothers, what are you waiting for? Go ahead."

"But I think this is a bit dishonest. We have an advantage in numbers, and he is blindfolded. It's unfair for us to beat him like this. Even if we win, it would be disgraceful."

Qin Yuan was a little impatient when he heard this. These guys really talked for a long time, but they didn't do anything.

"You'd better act quickly. Now you have four minutes left. If you don't make a move, then I will make a move. You will be too late. And even if you are blindfolded, don't be too confident in yourself."

Qin Yuan had already talked about this part, and the few people did not hesitate any longer.

Liu Qiang stepped forward and said politely, "Captain Qin, I'll offend you, if I really knock you down..."

Before the words were finished, a team member next to him had already made a move and kicked Qin Yuan directly in the abdomen. Qing Yuan reacted quickly, turned sideways slightly, grabbed his ankle and knocked his elbow on his knee.

The speed was so fast that Liu Qiang didn't even have time to react. The team member was already lying on the ground, howling in pain.

What's the situation? Everyone was a little panicked when they saw this, so they rushed forward without caring so much.

Qin Yuan's speed was several times faster than theirs. Even with a mask on, he could tell their direction. He grabbed a team member's shoulder. This team member only felt an extremely powerful force, and he couldn't resist at all. The person was lifted up, and then fell heavily to the ground.

Liu Qiang was even more impatient watching his team members being knocked down one after another.

"I said, what are you guys still doing? Hurry up and cooperate."

As soon as the words came out, he felt that he should have exposed his voice, so he quickly closed his mouth, and then gestured for the other three people to go around to the side, and he attacked from the front.

He thought he was doing it seamlessly. After all, in this situation, Qin Yuan couldn't see it at all. Their movements were also very careful, and they were usually well-trained. Qin Yuan didn't expect to see them all.

Qin Yuan swept his legs, kicked a team member behind him to the ground first, and then grabbed the fist that was hitting him.

Liu Qiang was also dispatched at this time. He wanted to take advantage of this opportunity to attack directly from behind. Unexpectedly, Qin Yuan turned around suddenly, punched him in the abdomen, and then grabbed his collar. He didn't know what was going on, so he just fell to the ground.

Song Lin's expression on the side became more and more ugly. It can be said that the few people who came out just now performed well in their team. Unexpectedly, they were directly dealt with by Qin Yuan before five minutes passed.

The few people lying on the ground howling Song Lin felt so ashamed, they were still blindfolded, they really didn't know what they were eating.

However, Qin Yuan's speed was really too fast, and the old team members beside him applauded one after another. To be honest, they admired them from the bottom of their hearts. Qin Yuan had given them special training before, so everyone knew that A few catties and a few taels.

Liu Qiang fell to the ground and looked at the team members who came to help him, while Qin Yuan was very relaxed, took off the blindfold and looked at the time, "It seems that the time is a little earlier than I expected, except that you just wasted a minute talking to solve your problems , I only spent three minutes in total."

Liu Qiang instantly felt extremely ashamed. Is this the strength of the Special Forces? He is really too strong. In terms of fighting, he has never been convinced by anyone before. He never expected to be caught by Qin Yuan so easily.

He lowered his head, a little at a loss, but Qin Yuan didn't bother with him, and stepped forward to pat him on the shoulder.

"Why do you still want to sit here? I said just now that the time is very tight, and there is one minute left. You should return to the team as soon as possible."

Qin Yuan gave him the steps, and Liu Qiang quickly stood up and ran back to the team. To be honest, Qin Yuan had already put his hand away. If he wanted to really fight, they would not be able to stand up now.

Chapter 1168: initial elimination

Song Lin didn't say anything more, all of this was proved by his strength.

In addition, Qin Yuan was holding a document in his hand, which was the highest order from above, so he had no choice but to follow the team outside, only to see Qin Yuan get into a small jeep in front of him, and waved at him.

"Captain Song, let's go, let's go and see how many of these comrades can stay."

Song Lin was very embarrassed at the moment, but he had no choice but to bite the bullet and run over, "Captain Qin, in fact, our brigade doesn't have that many talents, it's all boasted outside, and I hope you can show mercy."

The main reason is that he knows Qin Yuan's style of work, if the time comes to eliminate all the people, then if it spreads, their brigade will not have any good reputation at all.

In addition to Qin Yuan's selection conditions, he had seen before that the bidding of the special forces team was very strict, and they also had some confrontations between the red and blue troops. too difficult.

Qin Yuan was laughing beside him. He saw what Song Lin was thinking and patted him on the shoulder.

"Captain Song, you don't have to worry about these things. I'm sure I have a sense of proportion. I can't use our standards to define you. You also have your standards. Don't be so unconfident in your own people."

At this moment, Captain Song had a wry smile on his face, "Captain Qin, let me tell you the truth, I really hope you can hold your hand high, after all, the reputation of our large team is here, and there are too many people who will be eliminated by then, then we There is no face to speak of."

"Don't worry, I naturally have my own standards in my heart. Besides, I can't do things on the surface. If I want to do it, it must be thorough."

Seeing Qin Yuan's resolute attitude, he fell into deep thought. He had already said what he should say, but Qin Yuan didn't listen, and he couldn't help it. Looking at the special police officers behind him, he could only pray for them silently.

The vehicle just drove out of the urban area with a full three-car team members. Everyone didn't know where the destination was, and they didn't receive any news so far, and they were all sitting in the car.

After leaving the urban area, he turned around and came to an abandoned factory. This factory covers a very large area. The wall on the left has completely collapsed, and it looks like a dangerous building.

Qin Yuan got out of the car first, and watched the team members assemble, and they were orderly now.

"Everyone, don't be so nervous. I mainly see that the weather is good today. Let everyone come out to breathe fresh air and relax a little. It's okay."

Hearing what Qin Yuan said, everyone felt that he was not that serious, which was completely opposite to his attitude just now.

And following the red blood cells, the team members jumped out of the car, and they began to set up equipment beside them.

Qin Yuan said with a smile: "Am I the right person? When people should be serious, I will be serious. Since today is the selection, there will be rewards. You should do the selection first. I will take my team members to give you some wild rabbits, let you have a taste, after all, everyone hasn't had breakfast."

Everyone was a little excited when they heard this, and they all said that Qin Yuan of the Special Forces team cooks, which is a must, and now they have the opportunity to taste it.

Seeing that the red blood cell team was digging and preparing the pit in an orderly manner, some team members beside them couldn't help but want to help.

It's just that they didn't find that there were two missing members in the red blood cell team, so Qin Yuan coughed slightly.

"You don't need to do these things. You are here to be selected today. When you saw the abandoned factory in front of you, you didn't enter the factory to rescue a hostage. This is your specialty. The task is very simple, just bring the person back."

Hearing this, Song Lin also frowned, is there really such a simple thing?

He held a telescope at the side to observe the basic situation, but nothing could be seen inside. How could Qin Yuan's selection be so simple? And more than 90 people went in to search for a hostage, isn't that too simple?

"Captain Qin, are you right? So many people looking for a hostage?"

"That's right, if you don't tell me, I almost forgot to tell you that besides one hostage, there are also two gangsters. Remember to ensure your safety, as well as the safety of the hostages."

Hearing this, some members of the team burst out laughing. This is too exaggerated. It is basically impossible for more than 90 people to face two robbers, one hostage, and other uncertainties. It is organized in small teams, and each team has snipers, blasters, and assaulters.

This kind of organization is actually similar to their special operations team, except that this kind of special police team is mainly engaged in anti-terrorism between cities, and generally carries out rescue, rescue, and search tasks.

"I've already said, my selection rules, as long as you bring the word "herringbone" over, you can play the specifics as you like, and I don't restrict you!"

Everyone felt that such a rule was too simple, and Liu Qiang was a little carried away. Just now he lost the fight, but rescuing hostages is his strong point, so there is absolutely no problem.

"Captain Qin, you can make a deal, if we bring back the character, the hare must take care of it enough."

"Don't worry, this is my guarantee. It's absolutely fine. I'll catch hares for you right now. You can play freely after you go in, but it depends on the number of people. If you are all eliminated, you can only watch me eat hares." My hares are only for people I select."

Everyone felt that it was too exaggerated when they heard this. There are so many people looking for one person to live in, can't they find it? Everyone did what they said, anyway, before he regretted it.

In this way, everyone began to divide into groups. They were originally independent teams, so they were divided into groups quickly.

They have performed such tasks many times, and if there are only two gangsters, it is basically no problem.

Just when several teams in front had already set off, Liu Qiang suddenly ran back.

"Captain Qin, you haven't given us the specific goal of the mission. Do you have any photos of the bandits or hostages? Do you have any other basic information?"

The corners of Qin Yuan's mouth rose when he heard this. This Liu Qiang is a malleable talent. Before, he thought that this guy was just a simple-minded guy with well-developed limbs, but he didn't expect his reaction to be quite fast.

He took out a document from behind him, which simply stated the specific appearance of the hostages, without any photos, "The basic situation is here, and you can adapt to the rest, come on."

Liu Qiang had been pondering over the phrase "responsibility", but he didn't think too much about it, and set off with the team.

He Chenguang and Li Erniu who were in the factory at the moment were observing everything outside, "Erniu, how many people do you think we can eliminate?"

"I think we should keep our hands down. Brother Qin said just now, don't ask them according to our standards. If you want to ask them according to our requirements, if they come one, I will kill one."

"Don't worry, it's okay, I know it myself."

On the other side, Qin Yuan led the team members with a smile on their faces, ready to go hunting rabbits in the woods behind. Song Lin was a little surprised when he saw this scene.

"Captain Qin, you really plan to hunt hares. It's about this time. Shouldn't you only be on the first scene?"

"Don't worry, I'm very confident in my players, and this is just a preliminary selection, and it won't be necessary after my selection is over. Training is the time when I can really use me."

Besides, if Qin Yuan really came to the selection in person, there might not be any of these people left, so he can be regarded as giving a chance, and he will make good arrangements for the later training.

Relying on the large number of people, everyone entered the factory excitedly. The factory here is very large, but they don't know exactly where the hostages are. Qin Yuan just gave a very vague target.

At this time, one of the people in the team took out a small drone.

"Did you see it? This is the age of science and technology. Those things in the past have been eliminated. Now you can use thermal imaging cameras to locate them."

It was indeed much better than their traditional search, so under the detection of the thermal imager, they found three portraits in the abandoned building in front.

Liu Qiang was even more overjoyed. It seems that this time there should be no problem. Before, they were worried that the selection would be too difficult. If this is the case, basically there will be no problem.

Everyone began to move forward slowly, and several people cooperated with each other. Although the task this time was simple, everyone still followed the previous style.

Soon everyone surrounded the independent small building, and the corners of Li Erniu's mouth rose, finally waiting for them.

At this time, a team member on the side planned to outflank the small building and then break out from the rear. Unexpectedly, they had just reached the corner, and suddenly they were wearing a police suit under their feet, and white smoke rose after giving birth. .

Just as Qin Yuan turned around and wanted to leave, he heard the alarm sound inside. Song Lin was even more surprised. He didn't know what happened inside, so he could only look around anxiously.

Qin Yuan looked at his watch. Six minutes had just passed. Unexpectedly, someone triggered the alarm. It seems that this elimination mode is still useful. Most people forget to be vigilant.

At this moment, the team inside was also in a state of bewilderment. They saw the white smoke rising from their feet, and they understood that this was the periphery, and it was covered with minefields.

Seeing this scene, the eliminated people were of course indignant, they were eliminated out of nowhere, isn't that too exaggerated? And it was agreed that their mission was to rescue, so how could there be landmines again?

But the rules are like this, the people of this team came out like this, some teams learned a lesson, and other teams began to be more cautious.

The eliminated people came out and began to complain angrily, "Team Song, look at this is too exaggerated. When we encountered such a landmine during the mission, we were eliminated for no reason. The squad can be regarded as one of the best in the brigade, so just get a lunch box like this."

"That's right, I think it's so unfair. We just went in like this without any hints, and were eliminated out of nowhere. It's very unfair to us."

Everyone chattered about it, anyway, it probably meant that they felt it was unfair and wanted to give them another chance. After all, everyone felt that the rescue mission this time was very simple, so they lost out of nowhere, and they were very unwilling.

Qin Zhengyang was left behind, and he stood beside him with a calm face, ignoring their words.

The people next to him talked for a long time, but he didn't respond, so he simply stepped forward.

"I said, brother, when will your captain come? This is too unfair to us. We didn't tell us any rules, and we suffered a lot when we went in."

Qin Zhengyang just looked at him coldly, "But our mission cannot be accurate every time, just like when you usually perform missions, is there anyone who can be 100% accurate?"

What Qin Yuan wants to test is their on-the-spot reaction ability. After all, it is impossible for all missions to be performed according to his model, according to his textbook. After all, the situation is ever-changing.

If they are still executing according to the inherent mode, they will only suffer themselves.

In fact, in order to test them, Qin Yuan has set up the surrounding mines very conspicuously, and they can find them as long as they pay a little attention, but they completely ignore this problem and rush forward self-righteously, so they are eliminated.

The eliminated team members were still a little unconvinced, and when they wanted to argue, they were stopped by Song Lin. He finally understood that they were indeed his team members, and he was completely unprepared, because he also knew about on-site observation and on-site observation. The situation can be said to be ever-changing, and it is indeed that I am not prepared enough.

At this moment, he silently looked inside the factory, hoping that the remaining team members could learn from this and not make any more low-level mistakes.

It seems that this is not that simple, such a task is just a small daily task for them, so everyone will relax their vigilance.

He Chenguang and the others who were inside at this moment also began to prepare for the second round of attacks.

Now that the perimeter cannot go up, everyone plans to use another plan. After observing that there are no mines on the side, they plan to break through from the side, but they need another team to attract the attention of the bandits from the front.

This is also their cooperation when they usually perform tasks. When they were discussing countermeasures, Li Erniu suddenly leaned out from the window and aimed a gun at the head of one of the team members.

It took only fifteen seconds to directly deal with a team member. The team member was stunned when he saw the white smoke rising from his body. This is too fast!

Li Erniu was very helpless. He had already given him enough time to react. He didn't expect this guy to be dealt with before he could react.

Chapter 1169: Did you choose the right one?

Li Erniu and He Chenguang began to shuttle between the various corridors. When the team members below were still struggling with this small building, they had already moved from the steel cable on the roof to another building without being noticed.

Wang Yanbing looked behind from time to time. To be honest, he was quite curious. Originally, he wanted to go with him to participate in the elimination.

But for Wang Yanbing, Qin Yuan knows that sometimes he is too serious. If he is asked to release water, he will not, so the most suitable candidates are Li Erniu and He Chenguang. He's quite blue-headed, but very obedient, he will listen to He Chenguang.

"Brother Qin, let me tell you that your conditions are really simple. Even if the two of them are selected, there will still be a lot of people left. Is this team a little too exaggerated?"

"I'm going to participate in this kind of basic selection. It doesn't make any sense at all. After they are selected, the real selection will start. My selection is to train and eliminate. You know, so that the elite can be selected from the elite. I want The squad is everything."

Wang Yanbing frowned slightly. He thought about it carefully. In fact, their current special police team, these teams are all good.

Everyone in their team has an independent position, and everyone is responsible for different things. To be honest, this scale is quite good.

But Qin Yuan is not only interested in these, he wants a more capable team, and these can no longer satisfy him.

What is needed is a team that develops in all aspects, and the requirements of the system are the same. He can only create more teams. For example, sometimes when encountering border support or urban anti-terrorism, they still need their red blood cell team to come forward , When encountering some relatively large and difficult tasks, they will not be recruited.

Therefore, such a team is very meaningful and needs to be established as soon as possible.

Song Lin listened anxiously to the gunshots inside. He didn't know what happened. He just saw some team members walking out dejectedly. He couldn't believe it. There were only three people inside. How many people are there?

"I said, what's the matter with you? You are doing well during training, and this task is really simple. What's going on? It's fine if they stepped on a mine in front of them, but did you also step on it?"

The team members who were scolded did not dare to show their anger, and spread their hands helplessly, "Team Song, this is really beyond our control, those two gangsters are too powerful, we don't know when to transfer Got to another building and hit us directly in the back."

"Even if you attack all of you from behind, what are you doing? Don't you know how to cooperate?"

The main reason is that Li Erniu's reaction speed is too fast, and their physical fitness has been improved by Qin Yuan, so there is no problem at all.

He Chenguang looked at the eliminated people, "Er Niu, I think it's almost ready, you can send a message to the captain and let him prepare to come."

It is also impossible for them to eliminate everyone, and they cannot select according to their model. This is only a preliminary selection, and they will continue to be eliminated during training.

After Qin Yuan received the news, he asked Wang Yanbing to continue looking for the rabbit, and he quietly walked into the factory from behind.

After entering the factory, he looked at the team members below, and there were still many dead ends. After Li Erniu and his team were eliminated just now, the remaining team members became more vigilant, and they didn't dare to show up at will.

"I said you two guys are pretty good, the number of people is well controlled, and the rest of the wave is fine."

Moreover, the members of their squads have also begun to reorganize these few times. This time, they plan to use another method to start a frontal storm, and then there is a squad behind them that is responsible for the sneak attack, rushing up to rescue the hostages first.

They quickly changed their tactics. Qin Yuan watched all this from above, and had to say that their team was pretty good, at least they had changed several tactics in a short period of time.

"Before I thought it would be impossible to break them up completely, but it seems that it is still possible. They are very smart and can make changes under any circumstances."

"Brother Qin, how do you think our team compares to them?"

"There is no comparison at all. We target different things. If it is for our team, I will have stricter requirements. But they are the same, but our goals are different."

Qin Yuan had already thought of many plans in his mind. Liu Qiang's team was responsible for the sneak attack, and there was another team beside them, and the people in front were responsible for attracting firepower.

Li Erniu and He Chenguang were guarding the side alone. Unexpectedly, a flash bomb was thrown in at this moment, and Li Erniu couldn't open his eyes for a moment.

"I'll go, these boys are serious, Chen Guang, please pay attention to your side."

Li Erniu didn't forget to remind He Chenguang, and sure enough another flash bomb was thrown in, and He Chenguang shot quickly, smashing the flash bomb directly.

The team members below were all stunned. This speed is too exaggerated. They actually hit the thrown flash bomb within a few seconds. Climb up from the side fence.

Qin Yuan's ears are very sensitive. He listens to everything outside. I have to say that these guys are quite capable, so it is also a good choice for him to choose this as the first training team.

It's just that there will be a bigger test waiting for them later. I don't know if they can pass this test. He doesn't want the whole army to be wiped out. s Choice.

If he didn't pass the final test, he might choose another team.

Song Lin's face was getting darker and darker. More and more people were eliminated from the team of more than 90 people.

But he also knew that in the end they would only want a team of eight people, and now it was just the beginning of the elimination stage, but he didn't expect that the proud people under him would eliminate so many people in a short period of time.

A soldier who was eliminated next to him felt that he was wronged because he accidentally stepped on a landmine just now.

"Team Song, I know that we may indeed be inferior to them in some aspects of strength, but do you think that this situation is really possible? What do we face every day? It's not like them."

He felt that it was too exaggerated to use landmines to set up the formation, and it was really unfair to them.

In addition, it is basically impossible for them to encounter such a powerful gangster in real life.

So he felt that such an elimination system was very unfair. Although Qin Yuan said that he did not use the rules and requirements of the special forces to demand them, it was clearly bullying.

Qin Zhengyang, who hadn't spoken for a long time beside him, said silently, "If I remember correctly, we have carried out many missions before and cooperated with you, and they are all difficult missions. Besides, how could we not meet them? For such a powerful gangster like us, do you think saving people is based on textbooks?"

Seeing that Qin Zhengyang, who was much younger than him, actually educated him with an old-fashioned attitude, the special police member was even more unconvinced in an instant.

"You new recruit, let me tell you, it's none of your business. Besides, this kind of opportunity is too rare, do we need it?"

"When you say this, your eyes are too shallow. No wonder you will be eliminated."

This stimulated the team member even more. Without saying a word, he stepped forward and wanted to grab Qin Zhengyang's collar. Unexpectedly, Qin Zhengyang's reaction speed was very fast, he took a step back slightly, and then punched him in the chest. Just knock him out.

"I don't want to fight with you. It's meaningless after all. Otherwise, others will say that I bully you."

This is simply a big joke. Looking at this brat in front of him, he even said that he was bullying others.

He was even more unconvinced, and walked forward with his sleeves rolled up, "Your captain, I admit that I really can't beat you, but you kid, don't be so arrogant."

Song Lin stopped yelling at the side, "What time is it? Don't you think it's not enough to cause trouble? Don't you think it's not embarrassing enough. It's embarrassing to say go back here after being beaten like this."

Song Lin was actually protecting this soldier, because from Qin Yuan on, he already knew that the special forces team members were too capable this time, and these people of his could not be defeated at all, and it would only embarrass them if they continued to fight.

The SWAT team member who was still clamoring just now was still not convinced, but his own captain said so, so he didn't have much to say, so he quietly retreated to the team, but made a very unconvinced gesture.

Qin Zhengyang didn't care, anyway, he had nothing to fear, Song Lin's face was very heavy, but he didn't know how many people would be left after this elimination.

On the other side, the team members had already completely broken through. Liu Qiang took this opportunity to quickly turn over and enter the room. Qin Yuan was a little surprised, this kid's skills were better than before.

At this time, they also cooperated with each other, and the follow-up team members also quickly broke through, but when he saw the four people in the room, he was instantly dumbfounded. Who is the robber and who is the hostage!

This was Qin Yuan's final test for them, because at that time Qin Yuan explained the characteristics of the hostages, he looked at the few people in front of him indifferently, Li Erniu who shot just now was killed by them, and this was also a release for them water.

The team members who rushed in behind did not dare to shoot, and the two sides were facing each other like this. He Chenguang smiled, "Why don't you brothers do it? Now you can take the herringbone out immediately, but I shoot You shoot too, fair trade."

Liu Qiang quickly recalled what they had said before in his mind, and they didn't even notice when Qin Yuan came here.

He whispered to the team leader next to him, "What do you think is the situation? Could it be a trap set by them? They are all gangsters, and there are no hostages at all."

"This kind of situation is basically impossible. What kind of characteristics did he tell you before, you should quickly identify them carefully."

Liu Qiang was also very helpless. Before Qin Yuan and his characteristics were talking about inch-shaped heads and a height of about 1.8 meters. The problem is that these people on the scene all have the same characteristics, and their characteristics are similar. Where can he tell the difference?

At this moment, Qin Yuan was holding a gun in his hand, and didn't speak, but just sat silently on the chair next to him, and another soldier was also sitting on the side.

"You'd better make a choice quickly. If you don't make a choice in three minutes, the delay bomb will explode later. We can say that we will be wiped out here."

what! I have to say that this selection is not as simple as it sounds. They changed different formations in this basic selection and eliminated many players. At this time, they must observe carefully and make key choices.

The captain on the side looked at the situation in front of him, "I think Qingyuan is probably the gangster among them, otherwise the kind of fire suppression just now would not work at all, so except for the person on the side, everyone else would be killed."

As soon as his words fell, Qin Yuan still didn't speak when everyone's guns were aimed at them. For this selection, he just came in to participate in the final process.

But the more Liu Qiang looked at it, the more he felt that something was wrong. How could there be such a simple thing? And he remembered that when he went to talk to Qin Yuan, that guy looked very conflicted.

"Wait a minute, I think something is wrong, Qin Yuan should be the hostage."

To be honest, it was the first time they encountered such a situation. They didn't know who they were, and ran in to save them. The main reason was that everyone didn't take this selection seriously, they just thought it was a basic training.

Just when they were tangled, Qin Yuan raised his hand, expressing that they were running out of time. UU reading [www.uukanshu.com](http://www.uukanshu.com)

The squad leader next to him couldn't wait to shoot, but Liu Qiang stopped him at the last moment. Although he didn't have much dealings with Qin Yuan, he knew from the moment he was given to him today that this guy was definitely not simple. .

"The captain believed me once. This is a psychological warfare. I think he is the hostage."

The captain was also very hesitant, and the others were covering them, so that the two teams of them rushed forward. If something really went wrong, they would have no face to go back.

Especially when everyone eliminated him, there was no way to explain it, which was also their shame, but the indifferent appearance of Qin Yuan in front of him made him very hesitant.

Liu Qiang glanced at Qin Yuan again. His chest seemed to be tied with something, and his clothes were bulging. He was even more sure that it was too late. After they hesitated, they directly dealt with the person on the side of the gunpoint target in an instant. Morning light smiled.

Seeing this scene, the team leader collapsed on the ground. He loudly blamed Liu Qiang, "What are you messing around with? This is all lost!"

After all, the hostages were killed, what is going on? Although it was just a training session, it was a shame to spread the word.

Chapter 1170: start drinking

But in the next second, Qin Yuan stood up and applauded Liu Qiang. He was a little impressed by the soldier who was messing around with him in the morning. This kid was young and vigorous.

He thought he was a tempered and incompetent person, but later he found that this guy was quite humble, at least he was very careful in the end, and would ask himself.

Wanting to see this scene, he breathed a sigh of relief, and the people around him suddenly let go. They were all in a tense mood just now. If the entire army was wiped out, it would be really embarrassing.

It's just that the team leader next to him was a little unhappy. With a gloomy face, he asked loudly: "From the very beginning, I felt that this kind of selection was very unfair. I don't even know what the task you are talking about is nothing. Explain it clearly, come in out of nowhere, we eliminated so many people, and this is the end result!"

Although he was not eliminated, but this time they also eliminated a lot of people outside. To be honest, it is really embarrassing. Their special police team is among several teams, and the situation is relatively strong.

So in this situation, he was very angry, especially when he was robbed of face by Liu Qiang just now. Liu Qiang is a newcomer who has just joined their special police brigade for only a few months.

In fact, it was more of this kind of anger. He remembered that when he came up at the end, he saw Liu Qiang sneaking behind him asking Qin Yuan something, so he was a little suspicious at that time.

Facing his questioning, Liu Qiang was completely confused, what's going on? Didn't you agree with the outside world once before? Now how to transfer the flames of war to yourself.

"Captain, you can't talk nonsense like this. I did ask him about the specific appearance of the hostages. He told me what I said to you is the same."

"If you don't talk about this matter, there are other things. Think about it for yourself. Is it fair for him to do this? His selection is completely a large-scale elimination."

Qin Yuan still didn't have any explanation, because such an explanation was simply unnecessary.

"I want to choose the team I want to form. The elite among your elites is the strongest, and can perform all tasks in this city, instead of encountering any problems, just like other teams asking for help."

This sentence completely irritated the team leader. He clenched his fists and wanted to refute, but the old team members behind him stopped him. Now is not the time to quarrel, they have passed the selection now.

If that's the case, it's better to wait until later to see the situation, and there are a lot of people eliminated this time, they have to stay no matter what, when the time comes when most of the people are really eliminated, what face do they have?

It's definitely okay to be eliminated in the later stage, the main reason is that you are only a junior now, and it is really a big joke after it gets out.

Qin Yuan looked at him with an expression of disbelief, walked over and patted him on the shoulder.

"Don't worry! There are still many opportunities for you to perform in the future. If you are not convinced, just come to me and I will talk to you properly."

The captain was even angrier when he heard this, what does this guy mean? Are you threatening him?

And after Qin Yuan finished speaking, he led the people out and directly jumped down from the window on the fifth floor without any ropes on his body.

He Chenguang shook his head helplessly from behind, "Brother Qing, you are about to start playing handsome again."

The others were completely stunned when they saw this scene. This guy is too exaggerated. The height of the five-storey building did not take any protective measures, so he just jumped down.

Qin Yuan easily jumped down from the height of the five-story building, and patted the dirt on his body, "Stop talking nonsense, come down quickly, and I will take you to eat roasted rabbit meat. After eating, the selection will officially begin. would be more brutal."

The team members above also hurried down. Song Lin heaved a sigh of relief when he saw the team members who came out at the end. At least the number was relatively large, much better than he had expected.

Everyone is not in a good mood. Even if these players have officially entered the selection, they still have a chance to be eliminated. This is just the beginning.

They have experienced the cruelty in all aspects. Although the task sounds simple, it is their on-the-spot reaction ability that is tested.

They knew how Qin Yuan could make such a simple selection, and what they would meet later would be the cruelest. But Liu Qiang is very confident.

Everyone got together at night, and Qin Yuan also fulfilled his promise, roasting rabbits beside him.

He was very optimistic about Liu Qiang, and tore a rabbit leg for him, "Brother, when did you come in?"

On the contrary, Liu Qiang was a little embarrassed. After all, he contradicted him in the morning. He didn't expect that he didn't care about it at all.

"Captain Qin, you are being polite, how dare I call you brother and brother? We are not of the same status."

Qin Yuan didn't even show his military ranks, and Liu Qiang was self-aware.

But Qin Yuan still said with a smile: "I don't mean that, but you don't have to worry about those identities with me. I'm just an instructor here, so I don't have to think so much."

Having said that, the atmosphere has eased a lot. Qin Yuan seems to be a very easy-going person. Liu Qiang didn't say much, and told him his basic situation. He also came to the special police team through selection. three months.

Liu Qiang's ability is very strong, his design ability, fighting ability and agility are all very good, but it's a pity that he is still a rookie and can't speak in the team at all.

"I'll ask you a question, and you answer it truthfully. Why didn't you pay in the first place? Did you see the landmines?"

When Qin Yuan said this, he deliberately lowered his voice. If someone is careful, he would definitely be able to spot it. He wanted to see if Liu Qiang would disappoint him.

He hesitated a little, he looked at the players around him, no one paid attention to him at all, everyone was eating meat as much as they should.

"To tell the truth, Captain Qin, I did see the landmine, but I dare not say it. After all, I am a newcomer, so it's not that I don't want to remind everyone."

Liu Qiang was worried about being misunderstood, so he explained quickly. After all, this kind of behavior is concealment and non-reporting, which is a delay in military affairs.

He smiled wryly. After all, he has only been here for three months, and he has no right to speak at all. No matter how powerful he is, he will not be reused here. Who would believe it?

"It was the captain of the third team who stepped on a landmine. He had always looked down on me before, because I was indeed young and energetic when I came here, and I knocked him down when I was fighting with him."

Qin Yuan found it very interesting to hear this. It turns out that this kid is not simple. After all, he also said that he is a national champion.

Among these people, Qin Yuan had observed carefully. In fact, if he had to choose, Liu Qiang could indeed be the captain of his new commando. This kid is not only careful, but also has good physical fitness in all aspects.

"You don't need to explain these things, I can see it, I just look at your other performances. I am very optimistic about you. If you can, you can become the captain of the team later."

Liu Qiang heard that you couldn't believe your ears at all, is this true? He can become the captain, he never dared to imagine, after all, to become the captain here, it has very deep qualifications, just like the captain of the third team he said before, he has served as the captain here for three years, and he I have only been here for three months, how can I qualify?

"Captain Qin, you! Are you serious? You really think I can do it."

"Otherwise, why do you think I will tell you so much? Some people are born with this material, I can see it, but don't expect me to give you water. If you want to become the captain, I will only treat you Stricter, understand?"

When Liu Qiang heard this, he quickly patted his chest to ensure that his own training will not fail in the future, and he promises to complete every training.

Judging from the current actual situation of these people, it is true that Liu Qiang is more careful than many members of the old village. After all, although most of the special police teams like them are very capable, there is a drawback that they rely too much on the captain.

Everyone has a complete division of labor. As long as each person is responsible for each person's part, he will lack a kind of leadership. Liu Qiang has not been assimilated yet. He has only been here for three months. He has this ability in all aspects. Outstanding, so this kid is pretty good.

At this time during the day, the squad leader took a sip of his wine, and he stared at the few people who were talking and laughing opposite.

"He's a traitor. He climbed up to a high branch so quickly. I said something wrong with this kid before. Look, now he's sitting directly with him."

As soon as he said this, the team members next to him followed his gaze and saw Liu Qiang sitting there smiling.

The more he thought about it, the more unhappy he became. This Qin Yuan was too exaggerated. He didn't pay attention to him as the captain at all. No matter what, he was already an old special police member here. It's all very good.

The more he thought about it, the more he became unconvinced, and because he drank some wine, he walked over directly with the wine in his hand.

He stepped forward and directly raised the mug in his hand, "Captain Qin, my team members offended me a little this morning. I'm here to offer you a glass of wine."

To be honest, this guy is quite dishonest, he only had half a glass of wine left in his jar, yet he was ashamed to respect someone.

Qin Yuan didn't bother with him too much, he saw through all these little tricks, so he simply opened a bottle of beer.

"It's okay, we are all brothers, and you can speak out if you are not convinced."

After finishing speaking, he drank a bottle of beer in one gulp without any hesitation, and the team leader didn't take it seriously, isn't it just beer? It's okay for him to drink a case. Since he is no match for him in other aspects, we must let this guy show his true colors and let him get drunk first.

He can't guarantee other aspects, but when it comes to drinking, he has never lost to anyone.

Song Lin was just watching the fun, but he also took this opportunity to come over and start toasting.

To be honest today, it was a bit of a loss. He kept holding his breath in his heart. If this is the case, he might as well use it on wine.

Qin Zhengyang saw several of them coming over to toast in turn, this is too exaggerated, each of them only drank one glass, but they would rather have one bottle at a time.

He was a little unhappy, and wanted to stand up, but was stopped by Li Erniu next to him, who directly pushed him to the ground.

"Brother Er Niu, why are you stopping me? Look at them, they are going too far. Isn't this obviously a bully? Really, there is no one in our special forces team."

"You're young, kid. You don't even know how much your brother Qin can drink. Not to mention them, the entire SWAT team can't drink him."

what! !

Qin Zhengyang was stunned when he heard this, how is this possible? This is too exaggerated.

Turning around, I saw that Qin Yuan had already opened another case of wine, and in just a few minutes, half of the case had gone down.

Just drinking like this is too exaggerated, even Song Lin was a little dumbfounded, this kid really has such a huge amount?

They usually go to get together after returning from their missions. To be honest, the boys in front of him are pretty good when it comes to drinking, but he was dumbfounded by the fact that this operation was real.

On the other hand, Qin Yuan was still a little unsatisfied, stood up and said, "Captain Song, do you have liquor here? Drinking beer is meaningless, just drink it like a drink, and you want to go to the bathroom."

Is this guy crazy? Song Lin repeatedly asked with certainty: "Captain Qin, this is not a joke. You also know that we actually don't allow drinking. Besides, didn't you say that we will have training and elimination tomorrow morning?"

"Hahaha, if you don't allow drinking, you are actually afraid of delaying training, but I can guarantee that tomorrow's training will never be delayed."

Song Lin was a little hesitant. This guy doesn't play cards according to the routine. Is there anything wrong with this?

Just when he was struggling Qin Yuan said again: "I heard before that people in your special police brigade are especially good at drinking, but I just want to come and see it today, don't you think everyone drinks this little bit for children?" drink?"

Hearing this, who could bear it, even said that it was drunk by a child, Song Lin didn't care so much, and just asked someone to go down to get the liquor.

"Captain Qin's wine is fine to drink, but I have to say it first. If something goes wrong, I will not be responsible. My team members will be able to get back to normal tomorrow morning."

He turned around and looked at the few people behind him. These guys usually drink well, so there shouldn't be any problems.

"Do you have anything else to say about what I just said?"

"Team Song, don't worry, no matter what, I won't delay the training, isn't it just drinking, everyone just wants to have a good time drinking, besides, Captain Qin, we haven't thanked you enough yet."

At this time, the other team members behind him also stood up one after another. Since this kid is so crazy today, why not drink together.

Qin Zhengyang couldn't stand it anymore, this was too bullying, it was too exaggerated that dozens of them all got up to drink with Qin Yuan alone.
