

Special Soldier 1181

Chapter 1181: random selection

"Why are you still hesitating? You better hurry up, otherwise you will not only waste your own time, but also the time of your teammates behind. Everyone must go up in 1 minute and 30 seconds."

These armed police soldiers usually have a lot of training, but this time limit is too harsh, it is really difficult, and they have been running around with heavy loads just now, and their physical fitness has been exhausted.

In fact, their requirements for Qin Yuan will be relatively stricter, because the danger they face is more serious, especially for the support to the border.

Qin Yuan made a demonstration. He jumped forward and even pulled the rope with one hand, and climbed up like that. The people below were dumbfounded. This is too exaggerated. His arm strength is really amazing.

Zhao Yongtian was on the rope on the left side. He turned his head and saw Qin Yuan climbing up easily. Personally, he was giving himself an encouragement. No matter what, he would never give up.

Relying on the strength of one hand, Qin Yuan climbed up directly in half a minute. The person who gave birth did not say anything more, and everyone quickly cooperated.

There are only three ropes, but there are so many people trying to go up, it is absolutely impossible in terms of speed.

He could only urge the people in front to go faster, but at this moment Qin Yuan asked Li Erniu and the others to shoot from a distance, constantly disturbing them, which was another kind of mental disturbance to them.

The detachment leader silently withdrew and sat next to him. Anyway, he was only here to experience it, and he would definitely not compete with these fighters for a spot. I have to say that this Qin Yuan's training and elimination mode really opened his eyes.

He Chenguang walked over with a smile, "Detachment Lei, our captain asked you if you want to go up and experience it."

"Let them go first, and when it's over, I'll go up to save their time."

Although this Lei Detachment said so, his speed and skill are not a joke, and this can be regarded as withdrawing and giving it to others.

Zhao Yongtian lived up to everyone's expectations, and still maintained the first speed. Other people also kept urging everyone below, telling everyone to hurry up and not waste everyone's time.

"Third class, I asked if you could hurry up, you made money, if you can't do it, come down and change to someone else."

"Hey, what you said, it's obviously whoever arrives first, you don't care how long I spend on it, it's my business."

This kid was obviously playing tricks, everyone else had already gone up, and he was the only one holding the rope, slowly, because he knew that everyone was waiting.

Qin Yuan was not used to this kid, he just shook the rope on it, he didn't pay attention, his arm slipped instantly, and fell off the rope.

"What are you doing? Why are you shaking the rope on purpose?"

"Why did you say I was shaking on purpose, how much time did you waste on this? The time you stayed is enough for two people to come up, and now I announce that you kid is eliminated."

"you!"

It has to be said that Qin Yuan has always maintained the fairness and fairness of the scene. After seeing this scene, everyone silently began to cheer for themselves. At least this is an absolutely fair game.

Under this mode, many people were eliminated, but it still barely reached the number of people Qin Yuan wanted before, a total of 57 people.

Seeing that everyone was almost up, the detachment leader was also eager to try. The soldiers who were eliminated below were very regretful, but everyone focused on the detachment.

I have to say that this detachment leader's skill is really very good, every movement of him is clean and neat, and he climbs up quickly, but he is carrying a backpack, and he is willing to look at it, his waist is always tight Trembling, as if he had suffered an old injury before.

When the detachment leader climbed halfway, he felt a sharp pain from his waist, but he had no choice but to bite the bullet and continue to climb up. At this moment, he felt a force.

Everyone couldn't see clearly in this position. The detachment leader raised his head, only to see Qin Yuan wrapping his feet around the rope and slowly pulling it upwards. His movements were so small that outsiders couldn't see it at all.

The detachment leader wanted to refuse at first, but the pain from his waist made him sweat so much that he had no choice but to rely on this method. After all, he was still a leader no matter what, and he couldn't lose face in front of him. .

However, he admired Qin Yuan even more. In this state, he was able to pull him up directly, relying on the strength of one foot.

Just now when he went up, Qin Yuan stretched out his hand and pulled him up. His strength was so great that the detachment leader lay on the ground, panting heavily.

Just as he was about to explain Qin Yuan, he said first: "Lei Detachment, your physical fitness is very good. It seems that you gave way to them just now, otherwise you would have entered this team long ago."

He knew that Qin Yuan was going down the steps for him, so he could only deal with it with a smile. After everyone else went down, Lei Detachment helplessly supported his waist, which was already in great pain.

"There is really no way. I was injured when I was at the border before. A bullet went straight through here. I also hit a steel plate at that time, so it is also an old injury."

"Lei Detachment, don't worry, these are minor problems. My family has a few ancestral medical skills. I will go back and take a look for you when the time comes."

Lei Detachment was a little dubious when they heard this. He has seen this in the best military hospital, and there is no way to do it. Can he really be treated?

But no matter what, he was also kind, Lei Detachment smiled, "This is the boss, you must set an example, sometimes there is no way."

Qin Yuan didn't say anything, and gave the other party enough face. After the two came down, they took the rest of the team members and prepared to go back. When they passed the big pit, Qin Yuan turned his head and looked at the players who had already entered the selection.

"The situation has changed now and an emergency evacuation is required without leaving any traces. You only have 10 minutes."

What he said was obvious, everyone reacted and began to quickly fill the hole, Zhao Yongtian was also vigorously waving the military shovel, but when he was filling the soil, he seemed to find something strange.

He quickly stopped the person next to him, "Brother, quickly see if that is a Type 95 assault rifle?"

"Hey, brother, stop making trouble, whoever it is, fill in the hole first, and then, whose gun will be thrown in here, it must be your eyesight."

After all, the time set by Qin Yuan was only ten minutes, and they had to speed up. Zhao Yongtian shook his head, because everyone was filling the soil too fast, and he wondered if he had read it wrong. It was completed within the specified time, and then some traces were covered up.

Unexpectedly, Qin Zhengyang walked over with a metal detector on his back at this time, and began to check the area. valley

When everyone was still in a daze, the instrument suddenly issued an alarm. Qin Zhengyang smiled. This was already expected, because he was the one who threw the gun in. If someone found out before, it would have been early Just take it out.

It's just a pity that none of this group of people noticed that everyone was staring at each other, and didn't realize what happened at all, but Zhao Yongtian seemed to be a little clear about it.

Qin Yuan coughed twice, stepped forward and stretched out his feet, chopping off the place they had just covered.

"I have to say that your traces are very good, but you have left something in it. It is conceivable that no matter how good the traces are, they will be discovered by others. They are just superficial."

Everyone was completely confused, and no one discovered what was mixed in at that time.

"I'm so disappointed in you. Is this your agility and responsiveness? No one has discovered it. If this is in the real battlefield, it shows your legacy problems. If the operation fails because of this legacy problem, Who is actually responsible?"

Everyone lowered their heads. What Qin Yuan said was indeed reasonable. As a punishment, Qin Yuan asked them to do 100 push-ups on the spot, and then dig out the hole.

After all, a mistake is a mistake, and no one complained. After doing 100 push-ups, everyone started digging a hole frantically, and finally found the Type 95 assault rifle.

At this time, some people in the team were already complaining softly, not knowing who was responsible for it.

In this way, over and over again, they dig holes and fill holes, and they dig holes and fill holes.

And the detachment leader has already brought the rest of the eliminated people back first, and everyone can say that the water has not been exhausted. In such a 30km armed raid, they kept filling and digging holes, which has reached an extreme loss of their physical fitness. .

But after such repeated digging and filling, the surrounding traces are already very obvious. Even if they cover up, it is still difficult to fill the surrounding traces.

Qin Yuan was very dissatisfied, "Everyone really disappointed me. In such a situation, who do you think you can fool? If this is the case, continue to do 100 push-ups."

Hearing what Qin Yuan said, someone in the team finally couldn't help it, "Instructor Qin, I admit that we did make a mistake just now, but isn't it just tossing people like you? We have repeated it like this, and now we are doing 100 push-ups again. !"

"So do you think there is something wrong here? You have already said just now, I am the instructor, then do as I say. Weak people are not qualified to ask questions."

Hearing this, the team member was very unconvinced, why they usually train very intensively, but they have never seen such an exaggeration.

"I don't understand what is the purpose of your training? At least I want to know whether this training will help me."

Although this kid stood up directly, Qin Yuan was quite relieved, because he knew how to think and think about what their training was for.

"Well, I just said it directly to enhance your physical fitness. Your physical fitness is so bad that I don't like it at all."

When it came to the issue of poor physical fitness, most people were not convinced. Looking at their appearance, Qin Yuan just smiled contemptuously, and then asked them to pick up the guns in their hands.

"I think everyone is very unconvinced. If this is the case, let's play a small game. Shoot quickly at the target at ten o'clock and see what you hit."

Before everyone could realize what he meant, they saw some balloons floating on the opposite side. Zhao Yongtian shot quickly, which had already formed muscle memory, and he hit the balloon very quickly. Qin Yuan looked satisfied. Watching him, the others followed suit and started hitting the balloons.

Among these people, his responsiveness is indeed the strongest, and his design level is also very good.

However, this greatly tested everyone's physical fitness. During such repeated training, their hands were already trembling slightly, and they lacked some precision.

After the shooting was over, Qin Yuan jumped out a few more people from the team and announced that they were eliminated. Everyone felt that such a rule was really weird.

"Don't try to hide it from my eyes. What I see is more accurate than the camera. I can see clearly which ones hit and which ones didn't."

To tell the truth, these team members did not hit, but everyone was surprised that Qin Yuan's method of selection and selection was completely arbitrary, without any plan, and he came to whatever he thought of. Will get them ready.

Originally, I thought that after the selection just now, it should be fine now, but I didn't expect to be eliminated. One of the eliminated players stepped forward helplessly and asked:

"Instructor Qin, I just think that what you said before we were eliminated was just a small game without giving us any preparation."

Li Erniu and the others burst out laughing when they heard this, this kid is really naive.

However, Qin Yuan explained to him very patiently, because as armed police soldiers, they are armed forces, and they have to deal with any situation, the most urgent and sudden.

They need to be ready for combat at any time, and treat every drill and training as actual combat.

"And you have already passed the first selection. To be honest, for the current shooting, you still can't meet my requirements. Wait until you train slowly. I will have special training methods for you."

After Qin Yuan finished speaking, he picked up the assault rifle on his chest, only to see him shoot forward casually, "Only three leaves will fall."

Everyone feels incredible when they hear this. This is not a pistol, this is an assault rifle, this bullet is fired once, how can it be controlled so precisely.

But in the next second, everyone was completely shocked. Three thousand leaves slowly fell from the big tree in front, no more, no less.

This is really too exaggerated, how precise the control force is, it is able to control the bullets of the assault rifle.

Zhao Yongtian couldn't hold his tongue from ear to ear, apart from their detachment leader, Qin Yuan was the second person he admired.

"You don't have to be so surprised. As long as you pass the selection well, your marksmanship can be improved in the future. Although you can't do what I do, it is definitely better than it is now."

After hearing this, everyone understands that they were said to be bad at marksmanship before, and they are really bad.

Chapter 1182: hidden training

This time, no one said anything more, and they all began to follow the training silently. In the first day of training, many people have been eliminated, but in the eyes of the detachment leader, this is normal. After all, the players Qin Yuan wants, That's excellence.

After going back, everyone was already exhausted. After running for 30km with heavy loads, they ran back after another 30km.

Looking at the filthy people, Qin Yuan still put on that smile, "Everyone have a good rest, you can reveal tomorrow's selection, tomorrow is mainly for hidden training."

This sounds a lot simpler, at least you don't need to run around with a heavy load like this, it's all a complete waste of energy.

After everyone went back, Qin Yuan came to the detachment leader's room. His back injury recurred in tomorrow's training. He barely managed to return to the brigade, but now he couldn't get up because of the pain.

"Look at my body, now that I think of it, I can't even say hello to you."

"Lei Detachment, what are you talking about? After all, you have been injured before, don't worry, I fulfilled my promise to help you see your back injury."

"Captain Qin, what you said is true. I have undergone surgery in this place, and I have seen it in several hospitals. Everyone is helpless."

"That's because they can't help it, but it doesn't mean I can't help it. Don't worry, I can definitely cure you."

Treating Qin Yuan is just a small effort, I don't want to see him in such pain, Lei Detachment is still a good person.

Lei Detachment was lying on the whole body, only saw Qin Yuan take out the silver needle, and didn't know what he was going to do, he just smiled helplessly. To be honest, he had tried the silver needle treatment a long time ago, but at all useless.

And Qin Yuan took the silver needle, it was just a cover, he could use the magic needle skill before, but now he has a strong recovery ability.

He used powerful recovery skills to help him recover from his waist injury, but he used silver needles to dispel Team Lei's suspicion.

Lei Detachment didn't feel anything at first, but slowly, he felt a wave of heat from his waist, and then the previous pain disappeared instantly.

When Qin Yuan stopped, he could move freely and jump up from the bed, he couldn't believe it.

"This... this is amazing. Once I got this old injury, I basically had to rest for three or four days. I didn't expect to be able to move."

"Lei Detachment, I told you before that you must trust me, don't worry, it's not just this time, it won't happen again in the future."

This is really amazing, in just a few minutes, his waist injury has completely recovered, and Team Lei thanked him repeatedly.

And not only that, he felt as if his waist had never been injured, he had indeed taken medicine before, and it was relieved, but now he couldn't feel the slightest pain, and he was even more flexible than before.

"Captain Qin, I really appreciate your help today. Before this, to be honest, I still misunderstood you. After all, you are the legendary God of War. At that time, I always felt that there was something bragging about it."

"How does the Lei Detachment feel now? To be honest, I don't think it matters about the title of God of War. Everyone said it."

"From the day I saw you conduct live ammunition drills on them, I knew that you were absolutely worthy of the title of God of War. You were fearless in the face of live ammunition, and you were able to dodge even the bullets that were close at hand. I admire you."

Qin Yuan just smiled and left after saying hello, but facing Lei Detachment saying this, he cherished his ability even more.

Now his worries are mainly about the masked man. This guy has completely disappeared. He tried to contact Wells before, but unfortunately that guy has been disconnected.

Now he has no choice but to complete the tasks given by the system as soon as possible, increase the merit value, and upgrade the system, otherwise even if he sees the masked man now, he might be plotted against him.

The next morning, Qin Yuan blew the assembly whistle below, and he was going to start selection training for everyone. These armed police soldiers are all physically fit, and overall they are not bad for him, but he needs to get them all out as soon as possible within a week. Single out.

Everyone still entered the jungle, which was a battlefield they were more familiar with. Qin Yuan looked at the assembled team and pointed to a jungle ahead.

"See that jungle highland? That's your battlefield. Now I only give you 15 minutes to quickly make silver coins. After 15 minutes, I will go in and hunt them down. Anyone I find will be eliminated directly."

If it was yesterday, everyone might have hesitated about the order, but at this moment, everyone received the order and rushed into the jungle highland quickly.

This kind of covert mission is also commonplace for them. They have trained many times before, and 15 minutes is not too short, enough for them to camouflage.

Qin Zhengyang was chewing beef jerky beside him, and threw one to Li Erniu, "Brother Niu, how many people do you think our captain can find this time?"

"To be honest, if our captain doesn't release the water, it is estimated that all of them will be discovered."

Several people laughed loudly when they heard this, it was true, but Qin Yuan suddenly turned his head and looked at them and said, "Who said that I will go in and check this time, you guys get ready, after they hide, it will be you Go in and look for it."

This is no problem, but Qin Yuan went on to say: "There are 53 people inside now, and you only have five minutes to go in later. If you find one less person within five minutes, then you will do 50 push-ups, at least." Find out how much and do as much."

what!

Originally, Qin Zhengyang and the others thought that they were here to be melon eaters, but they didn't expect to have something to do with themselves.

Both sides were a little nervous now. Qin Yuan's voice was loud and echoed in the jungle. He deliberately stood in front and said loudly:

"Hurry up, you still have ten minutes. If you are quarreled, you will be eliminated! We will only search for five minutes. After five minutes, the rest will advance."

Such concealment is also indispensable for armed police fighters, especially when avoiding some special criminals or performing hidden tasks.

Time passed by every minute and every second, Qin Yuan remembered the time, and when the time came, let the team members go in.

He stood in the distance, observing the situation inside. With his eyesight, it was not surprising to see the people on the opposite side. I have to say that these small characters are quite good at hiding. Some people buried themselves in the soil directly. Two eyes and a nose are exposed.

Some people climbed directly onto the big trees and used the tall trees to hide themselves.

After looking around, Qin Yuan saw that their positions were almost the same, but he only took a rough look, and now he is looking at how the team members are doing. This is also a kind of reverse training for them, and both sides can train.

The members of the red blood cell team had just entered. After all, everyone had conducted inspection tasks, so of course they probably knew where they were. At this time, Qin Zhengyang pointed to the bushes in front of them. The bushes were really strange and prominent.

Sure enough, the first person was found just after passing by, and everyone started searching again. In this way, the second, third, and fourth were found one after another.

Li Erniu just walked past a big tree, and felt something was wrong. He turned his head and saw a footprint on the big tree, but when he looked up, he didn't see anything unusual, because there were too many leaves on it.

He simply pointed his gun at the top and said loudly: "Boy on the tree, I've already spotted you, get out of here quickly, or I'll shoot you."

The team member hiding in the tree was a little unknown, so he wondered if he was cheating himself, because he did a very good job of hiding.

He squatted motionless on the tree trunk, relying on the surrounding branches to hide. At this time, Li Erniu suddenly kicked the tree trunk, and the trunk shook a little. He continued:

"Stinky boy, come down quickly!"

After this team member came down, he looked at the eliminated people squatting on the ground. He was a little unclear, so he was very well disguised. How could he be discovered?

"Brother, I'm curious, I hide so well, how did you find me?"

Speaking of this, what did he suddenly think of? Pointing at a team member on the ground, he began to curse.

"Yang Chengjun! Did you betray me? Only you know that I am hiding here."

This team member was baffled by what he said, he had no idea what this guy was talking about, at this time Li Erniu grabbed him and pointed to the footprints on the opposite tree.

"Did you see it, you brat? This is called being careless. Look for yourself. Who can not see such a big footprint?"

Seeing this, he completely flinched. He thought he was hiding well, but he was discovered after only two minutes.

In this way, Li Erniu and the others found 13 people one after another. I have to say that they really know how to hide. The main reason is that the range of this jungle is relatively wide. It is also difficult for them to find them like this.

In the end, they only eliminated 13 people, and the others were not found.

When the rest of the people came out, they saw the members of the red blood cell team silently doing push-ups on the ground, feeling like they were venting their anger.

They had been doing push-ups yesterday, and it was their turn today. Everyone was watching the show, but Qin Yuan suddenly came over at this time.

"You don't have to be so complacent, that is, this group of boys is not capable, so this is their punishment. If it were me, I would probably eliminate more people."

What he said is indeed good, but a lot of strength can be seen from the aspect of hiding. He asked everyone to continue hiding in the previous place, or change places. After ten minutes, he will go in and check.

Everyone didn't know what he was going to do, so they could only follow his request. Ten minutes later, Qin Yuan walked in.

As soon as he entered, he found a person hiding in the bushes. This kid was very smart. He used the bushes to completely cover himself under the rotting leaves, so it was really not easy to see.

But Qin Yuan stepped forward, grabbed a handful of things from his pocket, and threw them on him in an instant, and the kid jumped up immediately.

These are all bugs like centipedes and spiders, which were completely exposed by this jump. It would be fine if it was one, but there is no way to throw this one away.

But it happened to take the boy as the first experimental product, and Qin Yuan didn't care whether other people could see it, anyway, his voice was quite loud, so it was a good time to give an explanation.

"This is the hidden training of poisonous insects. It will be more difficult for you in some other special jungles than it is now. This level will test your concentration and endurance. No matter what the situation is, just squat down honestly and don't expose it. Own."

Everyone started to write down silently when they heard this, and this team member sighed helplessly, never expecting that he would be eliminated when he just came in.

Just when the others were still rejoicing that their hiding place should not be found, Qin Yuan had already found them one by one, there was no one Qin Yuan could not find, including Zhao Yongtian.

But this training is only for the concentration training of poisonous insects.

According to their reaction, Qin Yuan started to eliminate them, which was relatively good.

Zhao Yongtian is quite interesting, he is the calmest of all, Qin Yuan directly threw the bug into his back, the numb feeling made him break out in a cold sweat.

Even in this situation, he remained motionless, lying tightly on the ground.

Qin Yuan felt more and more that this kid was quite interesting, and it was really good to be able to reach this level, so he increased the difficulty a little.

"Six o'clock direction! See if there is any bird's nest on that tree, let's shoot now."

Without any hesitation, Zhao Yongtian aimed the gun for a while, and shot directly, hitting the bird's nest precisely.

I have to say that his concentration and marksmanship are the most outstanding, this kid is really good, During this time's poisonous insect training, Qin Yuan eliminated a few more people, which was still some distance away from the number he wanted, but there were still a few days of training, so he was not in a hurry.

Looking at it now, he thinks that Zhao Yongtian should be the easiest candidate to become the captain. No matter how he looks at it, his ability is very stable.

After three days of training, most of the people have been eliminated, and the rest are struggling, and it is getting harder and harder for the remaining people to be eliminated. After all, they are excellent in all aspects.

When everyone was eating in the cafeteria at night, Qin Yuan couldn't help asking about Zhao Yongtian's situation.

He has indeed seen a lot of geniuses, but now he doesn't believe in geniuses, what he believes in is perseverance, and according to Zhao Yongtian's current situation, he is more inclined to the latter.

A soldier sitting next to him lowered his voice and said, "Ask me, so you are talking about him. This kid is like crazy. No matter what training he does, he is better than us every time."

That is, when other people train normally, he will train himself with a normal load. Others carry 25 kg, and he will carry 30 kg.

Everyone below named him Crazy Zhao, and he looked like a dead man during training.

Chapter 1183: final selection

"Instructor Qin, you don't know this kid, anyway, every time he gets messed up, our squad leader has to give us extra training."

Hearing this, Qin Yuan finally understood why this kid was very capable, but was isolated by all the team members. This was to be the leader.

Because all his training tasks and training indicators are overfulfilled than others, obviously everyone can reach the same level at the same starting line, but he insists on being in a prominent position.

Anyway, the players next to him are quite dissatisfied with him, the main reason is that everyone will be trained more often because he will always be compared by himself.

"Instructor Qin, I think this kid is too arrogant, and he doesn't talk to anyone, he just trains by himself like that. Basically there is no communication, although he is very capable."

This is also his weakness. No matter what, as an excellent assault team member, the most important thing is to learn to communicate and cooperate with the team members. Although this kid is very strong, he is stronger than himself .

Wang Yanbing laughed, this kid has the demeanor of his past, took a pack of compressed biscuits and threw it to him.

"The kid is pretty good. I'll reward you with this bag of biscuits if you work hard."

Under normal circumstances, everyone would say thank you politely, but unexpectedly he picked up the compressed biscuit and gnawed it silently without looking up.

After the team members next to him saw it, they couldn't help complaining, "Did you see it? This kid is like this. We're all used to it. It's always been like this before, with a hot face and a cold ass."

Wang Yanbing was also a little embarrassed, but as a member of the commando special forces, he shouldn't argue with them, so he smiled and didn't say anything.

"Young people, they all have a bit of a temper, and the more capable they are, they have a bit of a temper."

But Qin Yuan didn't think so. This kid is strong, but he still doesn't know the importance of cooperation. It seems that he needs to take care of him later.

The training in the afternoon was even more brutal. On a hillside, they started to pull the off-road vehicle with ropes and set off towards the top of the hill.

This kind of training and elimination is very cruel, and it completely pushes their physical fitness to the limit.

Among them, some people were eliminated intermittently, but to be honest, Zhao Yongtian was really a man, even though his back was bloodstained by the rope, he still gritted his teeth and persisted.

After a day of training, everyone returned to the camp, and when they were taking a shower, suddenly a smoke bomb was thrown directly in.

Already exhausted from a day's training, and facing elimination at any time, everyone's mental state was in a tense state. Facing the sudden smoke bomb, everyone was stunned and hurriedly lay on the ground.

After the smoke bomb, the emergency assembly whistle was blown, and everyone rushed outside quickly without caring so much.

Qin Yuan outside had already started the timer, and they were still arranging their clothes. In just a few minutes, two players were eliminated.

In fact, what was wrong was their on-the-spot reaction ability. Zhao Yongtian's face didn't change at all, he always had that neither salty nor dull expression, as if he couldn't feel the pain.

Looking at the rest of the people, Qin Yuan is quite satisfied. The number is not bad, which shows that their overall strength is very good.

As the number of training days increases, the number of people is also slowly decreasing, and the last team has only the last ten people left.

According to the usual tasks that their armed police detachment had to perform, Qin Yuan divided an eight-member team, one more than the previous commando team, and a health team member was also included in it.

Among the ten people, two people will be eliminated. Zhao Yongtian firmly believes that he is definitely the one who can last till the end, but today's training is a bit unexpected, no weights, no push-ups, and no other cruel marksmanship training.

Qin Yuan just called them together, as if having a heart-to-heart conversation, and asked them to sit on the ground.

In this state, he was very relaxed. Following Qin Yuan's explanation, he also slowly spoke about the final assessment. This final assessment depends on the number of people eliminated. In the end, only eight people can come out.

But in the middle of the talk, Qin Yuan played tricks, and asked directly instead of the topic he directly avoided:

"How do you guys understand facing your comrades?"

Everyone's understanding was similar, and the answers were almost the same, except for Zhao Yongtian, a small guy named Chen Ming, who was also very capable, and Qin Yuan valued him very much.

"Instructor Qin, I think the right is to rely on. Under special circumstances, we can become the last resort. Even when there are no weapons, the right is our last guarantee."

This statement was unanimously approved by everyone, but Zhao Yongtian was somewhat disdainful.

He snorted coldly beside him, although his voice was relatively low, Qin Yuan still heard him.

"Zhao Yongtian, what opinion do you hold? Anyway, today is just a casual conversation, and you can express whatever you think."

Anyway, he has offended a lot of people, so he doesn't care about that one, the two just speak straight.

"I think that for comrades-in-arms, you have to be with people with strong abilities, and that will be helpful. If you get some with poor abilities, it will only affect your own footsteps."

What this guy said was indeed too direct, especially for a cooperative team like Qin Yuan and the others, it was not suitable for the development of the team at all.

Because the whole team is in a cooperative battle, and everyone cooperates with each other. There is absolutely no one who is strong and who is weak. There is indeed such a distinction, but at critical moments, the strongest person may not need help.

Teammates are more reliable partners than weapons, and can save lives at critical moments. Just like the red blood cell team, their life motto is to trust teammates unconditionally.

Everyone obviously scoffed at Zhao Yongtian's statement, and Chen Ming was even more unconvinced. He stood up and said, "Why do you come out to refute my opinion? What I say has nothing to do with you. I said that teammates don't include you. Inside."

"Of course, because I stimulated you. If I remember correctly, among the few of us, although your ability is strong, your marksmanship is the worst."

He became famous for what he said, and he didn't know how to refute it for a while. To be honest, it was really ugly, and he didn't let go of stepping on the weakness of others. Moreover, the poor marksmanship mentioned here refers to the fact that among them, they are already regarded as excellent. Poor, but for some it's a very good grade.

Qin Yuan frowned slightly, this kid was a little too arrogant, he put himself first, he still didn't even know what his teammates were.

Seeing that several people were about to quarrel, Qin Yuan quickly stopped the quarrel, no matter what, let them go in for selection first.

"The selection this time is very important. You may rely on the teammates around you, but what you choose in the end is up to you."

Everyone was a little unclear about what Qin Yuan said, but under Qin Yuan's urging, they still entered the unfinished building in front.

In this unfinished building, there is a countdown time bomb hidden. They only have 25 minutes, and they must find the time bomb within 25 minutes to eliminate the danger.

And during this period, they will also be interfered by the red blood cell team. If they are hit by the red blood cell team, they will be considered eliminated.

This time it was Qin Zhengyang who was in charge of interfering with them. Qin Yuan asked him to pay attention to this point. Don't be too rigid, otherwise no one will be able to catch it.

Qin Zhengyang was in charge of sniping them inside, interfering with a few people outside who were playing cards and fighting landlords.

Everyone had guesses about the eliminated ones. He Chenguang looked at Unweilou and said slowly, "Which two people do you think will be eliminated? To be honest, these ten boys are all about the same level."

"I think it should be the guy named Li Jun and Yang Datong. The two of them are indeed not bad in ability, but compared to their reflexes, the other few people are slightly better. You must know that Qin Zhengyang is really harassing."

Speaking of this, several people nodded their heads. They thought that the possibility of these two being eliminated was relatively high, but they didn't expect Qin Yuan, who had been silent all this time, to say a name silently.

"Zhao Yongtian!"

Everyone was a little surprised when they heard this. You must know that Zhao Yongtian's ability is relatively strong. In this selection, his grades have always been at the first level, and his overall quality is very strong in all aspects, whether it is marksmanship , fighting, or armed attack.

"Brother Qin, did I hear you right? This kid's grades have remained at the top level until now."

"But what we are paying attention to this time is a cooperative battle. If he doesn't make a good choice, he will most likely face elimination."

Everyone knows what Qin Yuan is referring to. When the blaster is finally dismantled, two people will stand up and sacrifice themselves. They have to sacrifice themselves to let other teammates go out. It depends on which two people are willing to stand up.

Qin Zhengyang's harassing was very successful. At present, it only interfered with their mentality. He didn't want to eliminate them directly, but just interfered with their mentality so that they could not find them accurately.

At this moment, they have completely entered a warehouse in the unfinished building, and the blaster is inside.

Zhao Yongtian still maintained the first position. In front of them was a wall more than 3 meters high, and he needed the cooperation of his teammates to jump up.

While the others were still cooperating, Zhao Yongtian didn't bother at all, and he just went all out and climbed up with the help of his jumping ability.

Seeing this scene, the people next to him didn't bother to argue with him. This is something that needs cooperation. If he insists on being brave, just let him go, and no one cares about him.

"Hey, can you wait for me, boy? What if there is a trap ahead? Don't kill everyone."

"It's really long-winded to be teammates with you. I hope that my teammates can help me. Can you be faster?"

"Damn, let me tell you, brat, I've disliked you a long time ago, what are you talking about here?"

"My teammates are not trash like you. Only those who can be as strong as me can be teammates."

Zhao Yongtian's words are undoubtedly stimulating other people. He is indeed very unconvinced when he says this, but now everyone must focus on the overall situation. After all, they are still in the knockout round, and there is not much time left, so they can't be wasted. quarrel above.

"Let me tell you, brat, I'm too lazy to argue with you. There's not much time left now. No matter what, I hope you can cooperate."

"Why should I cooperate with you? Instructor Qin made it very clear that you only need to dismantle the blaster."

He was very confident and rushed forward first. After jumping off, he saw the blaster hidden under the table.

As everyone walked in, they could already hear the sound of the countdown. It was a little uncomfortable to hear the sound in this empty hall.

For blasting demolition, Zhao Yongtian is indeed the strongest, but the blaster in front of him is not ordinary, it needs two people to dismantle it at the same time, because it has a total of four leads, and both sides can be detonated, so the cooperation of two people is required removed simultaneously.

Everyone stepped forward to look around, and then began to discuss, which two people should be sent to dismantle the time bomb. Currently, there are only seven minutes left.

Zhao Yongtian didn't hesitate, and stood up first. His bomb disposal skills are good, so this is no problem for him.

At this moment, he pointed at Chen Ming and said, "Come out and be with me."

This tone felt like an order, which made people very uncomfortable. Chen Ming was also very upset and ignored him at all.

"I don't know what you're talking about. Why can you order me and who to dismantle it with? That's my business, right? It has nothing to do with you."

"I don't want to talk to you guys, I just want to win this competition, I need the most careful opponent, I know your menu level is the first in your class, so you are with me, we will demolish the odds together is the biggest."

Although this guy's words were harsh, what he said was indeed the truth. Everyone hesitated again and again, and finally asked him and Chen Ming to dismantle the bomb together.

This time bomb was arranged by Qin Yuan himself, even if two people dismantle it at the same time, it is impossible to complete it.

He just played a sloppy eye, because there is still a very subtle mechanism in it, and then he will see what choice they should make.

Apparently no one had noticed that tiny mechanism. Beads of sweat had already oozed from Chen Ming's forehead, and he carefully studied the wires on his side.

"Let me tell you, you'd better see clearly, just don't kill me."

This Zhao Yongtian is really famous for his poisonous mouth. In this situation, he doesn't play tricks on his teammates. They are obviously partners in cooperation with each other, but he forced them to look like competitors.

"I already know, can you stop talking nonsense here, if you say these things, it will only affect my mentality."

Zhao Yongtian also knew this truth, and finally shut up, and the two began to dismantle it patiently. They needed to remove the external parts first, and then cut the thread at the same time.

Chapter 1184: selfish guy

This situation is a test of the tacit understanding between the two people. At this moment, Chen Ming who is opposite is very nervous.

Just as a drop of sweat fell, his head tilted slightly, which affected the movement of his hands, and the steel ball inside slipped instantly. Fortunately, the team members standing on the side grabbed his hand and stabilized the steel ball.

Both of them broke out in a cold sweat. Although they knew it was fake, they had reached this level. Wouldn't it be too much of a disadvantage if they were eliminated?

"I said, can you do it, kid? If you can't, I'll be with you instead. It's really too troublesome. It's a pity that I trusted you so much before."

"Say your surname is Zhao, don't force me here, if you can do it, you have the guts to dismantle it by yourself, can you guarantee that you will not make mistakes for the rest of your life?"

"I really can't guarantee that I won't make mistakes in my life, but I can at least guarantee my own safety and avoid being dragged down by some pig teammates."

"you!"

A team member next to him saw that Chen Ming's heart had been affected, because he couldn't calm down now, it was disturbed, he could only say helplessly:

"Forget it, Chen Ming, you can replace me, I will replace you, in case something goes wrong later, it will be in vain."

If there is still a time limit, if they procrastinate, no one will be able to get out. If people cannot be eliminated here, other levels will also eliminate people, but they have already reached this point, and they do not want any mistakes to occur.

Chen Ming thought about it, and now he was indeed disturbed, his palms were already covered with sweat, so he had no choice but to change it.

Zhao Yongtian snorted coldly, and cursed secretly in his heart, he felt that these teammates dragged him down.

After changing people, their speed increased significantly, and the two of them dismantled the machine almost simultaneously, and the wires inside were exposed.

"Look at which line it is on. My intuition should be the red one."

Zhao Yongtian also thinks so, the red one is the closest, according to the current situation, the red one can be cut at the same time.

However, when he was about to cut the scissors, Zhao Yongtian suddenly said, "No, I am very nervous now, I am worried that I will touch the steel ball, who will replace me?"

Chen Ming was a little disdainful when he heard this. This kid has never been submissive and begging for help. He didn't expect to die at this time. It seems that it is just a name.

"You kid also has times when you give in. I tell you not to do this. If it doesn't work, then back down and I'll do it."

Hearing this, Zhao Yongtian smiled brightly. What he wanted was this effect, because to be honest, the mechanism was too complicated, and he wasn't sure whether to cut the red wire would be safe.

He felt that this risk was not worth his risk. Why should he help these guys? These guys should also contribute their own efforts.

Chen Ming originally thought of his team members, but he thought that anyone could go out, so he directly replaced Zhao Yongtian.

After the two confirmed again, it should be the red wire, and they cut down that wire almost at the same time.

Everyone was very nervous at the moment, staring at the wire motionlessly. After the cut, the countdown sound stopped, and everyone was completely relieved. It seemed that it was nothing more than that.

Chen Ming also stared at Zhao Yongtian with a provocative face. He was cowardly at the last moment just now, so he can laugh at him now.

"How about it, Zhao, are you convinced? How does my demolition method compare with yours?"

However, as soon as the words fell, there was a sudden macroscopic flash, and the two had no time to retreat. The timer in front of them suddenly exploded, and the two were covered in paint.

Zhao Yongtian and the others stood relatively back, so they were not affected. As the sound of explosions sounded, Qin Yuan also appeared behind the gate. He stretched out his hand and began to applaud.

"Okay, you did a very good job. Now congratulations to the eight of you who have successfully advanced. You are members of the New Bridge team."

Everyone was dumbfounded when they heard this, it was too fast, and they were eliminated directly. Yang Ming couldn't believe that he had put in so much effort and had already reached the last step. He didn't expect to be eliminated!

He was a little reconciled, and he still hadn't put down the scissors in his hand, "How could this happen? Could it be that everything went wrong? It's absolutely fine to pick up the red thread. You've said it before, Zhao."

At this moment, Zhao Yongtian completely changed his expression, his face was indifferent, "Yes, I said that it's okay to cut red, but I can't guarantee that it's right, just like you said, can't it be wrong? Is it wrong? I don't know."

But at this time, Yang Ming came to his senses. This kid was not admitting cowardice at all just now. He clearly knew the danger, and he couldn't make up his mind. That's why he pushed himself out. This was completely tricked by him. .

He wasn't angry that he cut the wrong thread, but angry that this kid couldn't make up his mind, and he didn't discuss it with everyone. This is too selfish! He dropped the scissors on the ground, rushed forward and punched him in the face.

Zhao Yongtian is not a vegetarian either, he dared to beat himself up, he rushed forward to fight with Yang Ming without saying a word.

The few people next to him wanted to go up to persuade the fight, but they saw Qin Yuan's expression of watching the show.

"Instructor Qin, don't we stop them? The two of them seem to be fighting for real."

"Why should I stop it? Besides, this is an assessment, and you are still going out for the assessment. I want to see how it goes."

Qin Yuan knew very well that this time bomb was designed by him himself. In fact, no matter what, if they had discussed it at the time, someone had indeed discovered the problem, and maybe they could have avoided that situation, and everyone would have successfully advanced to the next stage of elimination.

This Zhao Yongtian is quite good, he is very strong in every aspect, but he is really too independent, he wants to be the first in everything, but he ignores the teammates next to him, who are obviously fighting side by side with him, but he feels that is trouble.

Chen Ming was not Zhao Yongtian's opponent, and was quickly beaten to the ground. This time, Zhao Yongtian was even more proud, and he gave a cold snort of disdain.

"How do you compare with me? I am better than you in every item. I am number one every time. Even if a person like you advances, what's the point? It's just a waste of places. What I need is the strongest teammate!"

"You bastard, you are a selfish villain. I really see through people like you. We are all helping each other along the way, only you!"

Chen Ming was unwilling to lag behind, but what's the use now? Qin Yuan didn't speak the whole time, watched Zhao Yongtian stand up silently, and just asked him to return to the team.

Now everything is just the beginning, because now it is the team in the city after they are selected, and this team still needs specific training.

"Okay, if you are not convinced, if you want to argue, we will talk about it when we go back, but now I want to train you, and the eliminated players can leave."

No matter how unconvinced Chen Ming is, he can't interfere with the training now, he just limped and left with the help of another team member, and turned his head to stare at Zhao Yongtian viciously.

This kid is really selfish. After Chen Ming told him, others also realized that he was indeed too scheming.

Yang Xiaohu stared at him closely, "You found a problem just now, why didn't you tell me?"

But Zhao Yongtian didn't pay attention to him at all, just stood there silently, for him, these teammates are not worth it at all, he still wants to be the strongest one.

Qin Yuan coughed twice to make them quiet, "Now is not the time to quarrel, your training has just started now, of course you can't relax, because you can face elimination and replacement at any time."

Qin Yuan's words made everyone a little nervous. To be honest, they thought at first that they would be able to form a team after entering the selection process. It seemed that this was just the beginning.

For these armed police fighters, he has higher requirements, because this kind of training can prevent them from reducing casualties in later missions, so his requirements will be more stringent.

Even if a team has been established, he can change and eliminate at any time. The candidate he is most concerned about now is Zhao Yongtian. Although this kid has strong abilities, he doesn't know how to cooperate. Such a person is more dangerous than the enemy on the battlefield.

Qin Yuan still strengthens them according to the training in the previous manual. Apart from physical training, what they do most is to dismantle explosives and search for target persons. They travel through various jungles every day .

They have been in this jungle for more than a week, and they have been living on dry food, because just like they usually have to carry out search missions, they must not expose their traces, and lighting a fire is a big taboo.

During this kind of training, Qin Yuan has been with them all the time, and he is very satisfied with everyone's training in all aspects.

In the evening Li Erniu looked at the list in his hand, behind the list was everyone's score.

This is a comprehensive score for their training, such as survival skills, tracking skills, and marksmanship. Currently, Zhao Yongtian still has the highest score.

"Brother Qin, this kid surnamed Zhao is quite arrogant, but his ability is really strong. I am quite optimistic about him. Maybe he is the captain behind."

When Qin Zhengyang heard this, he was a little unconvinced, because although this Zhao Yongtian was very good at everything, he was just too arrogant.

"Brother Er Niu, I don't agree with your statement. This kid has a face of dissatisfaction. He is still dissatisfied with me. I really want to deal with him severely sometime."

Qin Yuan didn't even look at the results on the list, because these people already had a rough budget in his mind, and it was absolutely impossible for him to be the captain.

"Tomorrow will be the eighth day when we come in, isn't it?"

Li Erniu was still talking about the captain just now, but Qin Yuan changed the subject directly, he didn't realize it, so he could only nod quickly.

"Yes, what's the matter, Brother Qin?"

"I think so. We are also very close to the border in the south. Why don't we just take them there and have a real on-site drill."

This is not a problem, it's just that everyone is a little bit entangled now, there is no problem with them, but if they go out alone, will it be too dangerous?

He Chenguang also quickly put forward his own opinion. No matter what, they should also be responsible for the safety of these team members. Taking him there rashly like this is too dangerous.

"Brother Qin, I know that your thoughts are for everyone's benefit, and you want to train quickly, but I don't think they can reach the level to participate in the war."

"Then can you tell me why?"

Their average scores are very good. If they are placed in the whole team, they are very good, and they can definitely complete it independently, but there are some other reasons.

Qin Yuan watched them falter, and simply told the situation himself.

"Actually, the key to this problem lies in one person, that is, Zhao Yongtian, you all should know the importance of cooperation, and the captain you mentioned just now, as the captain of a small team, you must first analyze the situation of the team members. You must absolutely trust, but He can't."

He Chenguang also slapped his head when he heard this, and he said why it always feels weird, because they are fighting in coordination, and it is absolutely impossible to rely on just one person, but it can be said to rely on Qin Yuan, because Qin Yuan Yuan itself is very powerful.

But this Zhao Yongtian is not qualified, because he is too prominent in the whole team and too independent, so he seems out of place with this team.

Qin Yuan also had the same idea, so he wanted to have a direct practice training. If Zhao Yongtian could understand it, then he would keep him.

If this kid is still obsessed with his obsession, then there is nothing he can do, he cannot integrate into the group, and if he continues to show off his individual heroism, then it is not team spirit.

Qin Yuan always sees problems so sharply, and the people next to him are very impressed, and everyone agrees with Qin Yuan's statement.

That's it After they came back from training, Qin Yuan told them to get ready, they will go to the southern border area tomorrow.

Everyone didn't have any idea about this sudden mission. After all, they had been there before, but at that time they set off with the large army as support.

Now they are going to carry out tasks in small groups, and everyone is both excited and nervous.

As soon as Zhao Yongtian mentioned going to the border, his aura completely changed. He didn't feel nervous, but was very excited.

The team members next to him felt a little strange when they saw his state, "Zhao Yongtian, I advise you not to make any small moves. Going to the border area is not a joke. We'd better cooperate well tomorrow."

"It should be you who said this. You should cooperate well with me. It's best not to hold me back. Going to that place is the real battlefield. If there is any problem, you will be responsible for it."

"You! Let me tell you, don't forget that we are a team, a collective."

Chapter 1185: real battlefield

But at this time, Zhao Yongtian couldn't control these things at all. From the beginning to the end, he never regarded the people around him as teammates. He felt that they were all competitors.

However, it was also because of some other things that caused him to become like this. He would not trust the people around him. The only one he could trust was himself. The situation that day was also under pressure, so he chose to cooperate with them.

It was precisely because of the situation that day that Zhao Yongtian was completely isolated, because he was not a teammate who could make everyone trustworthy, although he was very capable in all aspects.

"Okay, I don't want to talk nonsense with you. I came here to show myself. Only the strong are qualified to be here, and the weak are not qualified to speak, let alone seek help from others."

"You bastard, what are you talking about here? I'm telling you, now that we're a squad, it's up to you to unite with all of us."

[To tell the truth, I have been using Mimi to read and update books recently, switch sources, read aloud with many timbres, and both Android and Apple can be used.]

At this time, a team member next to him stopped Yang Xiaohu and asked him to stop talking.

"Xiaohu, that's fine, don't tell this kind of person, he is completely unclear now, and talking to him is also nonsense."

Yang Xiaohu, of course, also knows, but what they will face tomorrow is the real battlefield. They have been to the border area many times, but this time is different.

They went alone as a team, and they didn't know what kind of situation they would face, so they had to cooperate wholeheartedly.

Originally, he wanted to talk about it, but Zhao Yongtian always had such an attitude, which made him unable to bear it at all.

The conversation between the few people was heard clearly by Qin Yuan. He didn't come out to stop them, but just wanted to see what kind of sparks would arise tomorrow.

At dawn the next day, Qin Yuan took them out. The training time this time was relatively long, and they had only just begun to get in touch.

But relatively speaking, the basic abilities of the few of them are almost the same. Qin Yuan completely follows the training in the manual, and the training in the manual is completely based on the fields they are good at.

Halfway through the walk, Qin Yuan pointed to the opposite hillside, "Did you see that? You will reach another place after crossing this hillside."

Zhao Yongtian stepped forward, staring blankly at the direction ahead, with excitement flashing in his eyes, this was the first time he asked a question on his own initiative.

"Instructor Qin, if we get there, can we really reach some so-called criminals on the battlefield, can we all shoot and kill them!"

Through this simple sentence, Qin Yuan knew that Zhao Yongtian still hadn't integrated into this group, because he was still so unfamiliar with his name.

There is still a distance, and everyone else calls him Brother Qin, but he is still in that polite state, and he is in a polite state to everyone.

But he didn't bother with him, just said slowly: "You have to know that going to the battlefield is not a child's play. When you actually go to the battlefield, you have to face them face to face. They are also criminals with weapons. Whatever."

As he said just now, whether it is possible to shoot and kill those criminals at will, of course they are among their teams. Every time they have only been trained and assessed in the practice field and training ground, they have never really been exposed to face-to-face shooting .

Qin Yuan just wanted to take them to experience it today, so that they could face death most directly.

"Instructor Qin, I know very well. I understand what I'm talking about. I can't wait to step forward now. If you have any tasks, you can assign them to me."

This kid is really impatient, and the few people around him are very disdainful. For his behavior, everyone thinks that he is completely an early bird, and his parents haven't said anything yet, which is really obvious to him.

Yang Xiaohu ignored him at all, bypassed him directly, and asked Qin Yuan: "Brother Qin, what specific task are we performing this time? It's almost over."

"What mission? You will know when you go there. There and here are completely two places. Now we have here, guarded by other border soldiers, so we are safe, but it is not necessarily the case in the past."

Just as Qin Yuan was talking, he blew a signal, and then he waved his hand to fight, and looked at the place where he waved, only to see a reflection in the opposite mountain, but he didn't expect that in the small mountain, There were seven or eight snipers lying on their stomachs.

"It stands to reason that you should not be unfamiliar with them. They are armed police soldiers stationed on the border."

Yang Xiaohu nodded, this is not unfamiliar, I have heard of it before, but they have not been to the border area here, and they have only been with the support before, it is the southern area.

After a while, I saw a patrol team coming down the hillside in front. The captain in front saw that Qin Yuan was very enthusiastic, so he hurried forward to say hello.

"Captain Qin, what brought you here? Oh, yes, yes, I forgot, you can't ask about this casually, after all, everyone has their own tasks."

The captain immediately realized that he might be a little talkative, and Qingyuan didn't mind. This time, the leaders above gave him great power. He can be dispatched at will, so it is not a problem to go to the border to train, and the area there is originally It's a three-way zone.

Qin Yuan simply asked directly: "Is there anything going on across the street recently? I feel that the number of your patrols seems to have increased."

The captain smiled wryly when he heard this, and nodded.

"Yes, there is indeed a situation. I don't know which two gangs on the opposite side started fighting at around 4 o'clock last night, and it didn't end until around 8 o'clock this morning."

It can also be seen that the captain's eyes are blue and his face is tired. At this time, they have to play 12 points, and they will never let them take advantage of it, and they will definitely guard the border.

"However, it's already a regular occurrence. It happened to them before. After all, there are many gangs over there."

Qin Yuan nodded, just in time for them to practice their hands. Anyway, there are no good people over there, and there were some escaped pirates gathered in that no matter area.

After asking for a long time, the team leader found out that Qin Yuan was going there. He was a little surprised, but he couldn't ask more about other things.

"Captain Qin, if you need anything, just ask, and I'll send someone there right away."

After all, the fight happened only last night, and the situation on that side is very complicated, even the captain doesn't know.

Qin Yuan patted him on the shoulder to express his thanks, then turned his head to look at the team members and said, "Have you heard that? This is the real situation. Let me emphasize again, this time is not an act, but a real assessment. Is anyone quitting now?"

Everyone's answers are very firm, and they have already reached this point, how could someone quit? Zhao Yongtian even showed unprecedented excitement.

After bidding farewell to the armed police team, they set off towards the forest, and patrolling members could be seen everywhere.

Until they completely stepped out of that line of defense, Yang Xiaohu was actually very apprehensive. This was the first time he had really faced a real battlefield like this.

When facing each other, they only need to be responsible for the training and the things at hand, but now the situation is different, they are the ones who rush to the front.

As they went deeper, they gradually smelled the smell of gunpowder in the air, as well as scattered shell casings.

Li Erniu patted his back against a big tree as thick as a bucket in front of him. Yang Xiaohu took a closer look and saw that there was still half a human leg hanging on the big tree, and the big tree had been hit by a rocket and had already been split. In two halves, it looks very perky.

However, these things have long been familiar to the members of the red blood cell team, and Li Erniu calmly analyzed them.

"To be honest, this kid is a short-lived ghost. It's not bad at all. Such a big shock wave just washed him up and hung him on a tree."

Li Erniu's words were also deliberately directed at Zhao Yongtian. Just now the boy was very arrogant, but he wanted to see what the boy would think when he saw this scene.

But Zhao Yongtian didn't say anything, he turned his head and glanced at the half of the corpse, then silently followed the team and continued to move forward.

Listening to the joking discussion of the red blood cell group, everyone couldn't calm down for a long time.

Because what they faced before was completely different. Although it is said that wherever there is difficulty, they need their armed police soldiers to dispatch, but such a situation is rarely encountered.

However, this is what a special combat team should have. Qin Yuan wanted them to face the most real battlefield, and began to conduct special training on their psychology and ability.

As soon as they crossed the stream in front, they saw an even more inhumane scene, with corpses everywhere and various weapons intertwined.

This is the most real border battlefield, because this area is a no-nonsense area, where all the criminal transactions are gathered, and no one will maintain any balance here.

It's just a check and balance between several major gangs, but because of this, several major gangs will also exchange fire here at any time, all because of various interests.

Qin Yuan introduced them as he walked, and kicked the submachine gun next to him with his foot.

"Well, this is the authentic American product. They all bought it from the black market, but under such circumstances, what is the use of a powerful gun? It depends on your own reflexes, otherwise it is just a bunch of mobs."

Qin Yuan is also reminding the importance of teamwork. Although the weapons are powerful, if you don't have any sense of teamwork, you will be like these mobs.

It was Zhao Yongtian who completely misinterpreted his meaning.

"Instructor Qin, I understand what you are talking about. I knew this truth very well before. If I can't do it myself, don't drag my teammates down. I think the one who will always believe in me is myself."

Qin Yuan shook his head. This kid really didn't understand, but he would know the importance of teammates later on.

But if he is still like this, such a person is very dangerous, and he must not be allowed to stay in the team.

Qin Yuan introduced the local situation to them. In this place, as far as he knew, six big gangs had gathered, and there were countless other small ways, but the main ones were these six big gangs.

They are engaged in various criminal activities here, which is much better than before. At this time, Yang Xiaohu couldn't help asking:

"Brother Qin, according to what you said, why don't the countries send troops to each other and hand over all these people directly, so that there will be no future troubles, otherwise this will be a crime zone."

Qin Yuan smiled. He looked at Yang Xiaohu and said, "You have to know that this place is not destroyed just by saying it is destroyed. If you want to make a place free of beggars forever, what should you do?"

Just like the question he is asking now, it is also the same reason. If all these people are killed, it will only breed other new crimes, because the root of the crime is still linked to other reasons. Even if they eliminate the criminals here, but There will be other criminals coming here.

This is a situation where it is a temporary solution but not the root cause. These armed crimes cannot be completely solved, and it will consume a lot of energy and financial resources.

Coupled with the resistance of several surrounding countries, these things have been hidden here.

"I brought you here this time to let you have a good experience. I also hope that what you have learned can be put to use at that momentRemember that on the battlefield, you can only believe in yourself, and your teammates."

When he said this, he deliberately looked at Zhao Yongtian, but Zhao Yongtian was very disdainful.

In addition, it is actually a small task for them to come to this place. There is indeed a drug manufacturing den hidden here. They were indeed assigned to the red blood cell team before, but this time Qin Yuan chose to bring their team. It's an established team.

After entering here, I also explained the real situation to them and told them the danger of the mission.

"This criminal den is the result of our internal comrades following it for a long time, even after several years, so we must eliminate it."

"Brother Qin, don't worry, we will definitely complete the task this time."

"I know that the protagonist of my mission this time is not our red blood cell team, but you."

When everyone heard this, they felt a little uneasy. This was their real battle. Although they knew that all their training was for this moment, they were a little flustered that they were about to go to the real battle all of a sudden.

"But you don't have to be afraid, don't worry, I will always be by your side, not to mention completely letting go, because I know the importance of this mission."

After the explanation, everyone continued to set off. According to the location sent by the informant before, Qin Yuan led them into the mountain ahead.

This information was hard-won, and it was obtained in exchange for countless undercover agents, so Qin Yuan took advantage of this opportunity to train and complete tasks.

To be on the safe side, Qin Yuan still divided the members of the red blood cell team into two halves, leaving Yang Xiaohu and the others in the middle.

Chapter 1186: Impulsive Zhao Yongtian

"Attention everyone, this is the junction of several gangs, so it is very likely that there will be enemies and other situations."

Everyone raised their vigilance when they heard this, and Yang Xiaohu squinted his eyes to observe the surroundings.

At this time, Qin Yuan made a plot gesture, he squatted down slowly, pointed to the front and asked:

"Look at the problem ahead?" ωωω.ЭiiiyqXs.°CoM

Yang Xiaohu was standing in front, so he could see the most intuitively, but he didn't see anything unusual, as if there was no big difference from the surroundings.

At this time, Zhao Tianming came over, pointed to the big tree on the side and said, "There are mines under there, and there is a fishing line on the side."

Hearing this, Yang Xiaohu was taken aback. How could this be possible? He didn't even notice something. He quickly rubbed his eyes and looked carefully. Only then did he notice that under the reflection of the sunlight, there was indeed a trace of fish. Line, but this is too thin!

As expected of a character at the God of War level, he was able to spot them even from such a long distance.

Qin Yuan looked around, there was no way to go around, Li Erniu took out the map, and said in a low voice: "Brother Qin, I just checked, if we want to detour, we can only choose to retreat to the exit just now. "

Moreover, the location of the exit is not very good. Even if they have to make a detour after retreating there, they can only go around the cliff on the side. The speed is about the same.

But if you want to go from the other side of the cliff, it will be a big test for Yang Xiaohu and the others.

Qin Yuan thought about it, and finally gave up on the detour, and planned to go directly from here, but he needed to get rid of the minefield in front of him first.

For the sake of safety, he asked everyone to wait for him on the side, and he cleared mines in front first.

Everyone else listened to the order and stayed on guard. Qin Yuan slowly stepped forward, but at this moment, Liu Yongtian was a little unconvinced.

Just as he was about to step forward, He Chenguang quickly grabbed him.

"I said, what are you doing up there? Be honest, didn't you hear the order just now? Obedience to orders is your first rule."

Unexpectedly, Zhao Yongtian was still a little unconvinced, and he simply retorted: "But you clearly said that this time we are the main ones to let us receive training, what's going on now? Besides, if the instructor goes alone, it's impossible to arrange so much Lots of mines."

He Chenguang only thought it was funny when he heard this, this kid is really a genius, is he really questioning Qin Yuan's ability? To be honest, he cleared mines faster than all of them alone, and his efficiency was very high.

"Stinky boy, just stay here, don't make trouble. It's useless to rely on your three-legged cat's kung fu."

But Zhao Yongtian was still relentless, and he applied again to participate in demining. His voice was also heard by Qin Yuan. Qin Yuan didn't want him to take this risk, but this kid is so ignorant, so let him try. give it a try.

When the other team members saw this scene, they all felt that this kid was too early, when would he go up and help others?

In this way, he came to the side of Qin Yuan as he wished. When he lowered his body, he saw that Qin Yuan had cleared two landmines in his hands. The mines were taken out.

"Don't be dazed, didn't you come to help? Take out his equipment from the bag and be careful, don't make any small moves for me."

Zhao Yongtian didn't dare to delay, he quickly sorted out the mine detection equipment in his backpack, then squatted on the ground, and began to search slowly, at least they had to clean up the area in front of them completely.

Qin Yuan is very clear about the struggle between these gangs. There are absolutely no landmines. It is estimated that the area ahead is a minefield.

Qin Yuan cleared the mines very quickly. As soon as the red light of the instrument came on, he began to clear the mines. In just ten minutes, all six mines were taken out.

On the contrary, the kid on Zhao Yongtian's side was still struggling with the first mine, and the team members behind him looked around from time to time, wondering what the ***** he was doing, but to be honest, he was indeed at a normal speed.

Chen Xiaohu gloated a little, letting this kid be the first bird, he must have made a fool of himself.

"Brother Erniu, I have to say that you are really good. This is the first time I have seen the speed of mine removal, which is faster than the speed of others."

"What is this? Let me tell you, our captain was the best one before. He ran directly over. His speed was not as fast as the explosion speed of the landmine."

Chen Xiaohu was stunned when he heard this, he suspected that he heard it wrong, how could this be possible? A mine like this basically starts off as soon as you step on it, and it takes a second or two at most.

Unexpectedly, Li Erniu was serious for a year, and he swore that this was the real situation, because time was tight at that time, and they had no time to clear the mines slowly, but the situation is different now.

Now they can't scare the snake, so they can only clear the mine first, and then go there later, otherwise Qin Yuan doesn't have such patience, and with his speed, he can definitely solve it easily.

Zhao Yongtian was still next to the first landmine, slowly delving into it, mainly this kind of landmine, to be honest, it was also his first time rowing, and he had undergone other training before.

This kind of landmine has two pieces of iron on it, and a wire in the middle of the iron piece. If you accidentally touch the wire, the whole mine will detonate, and the steel ball fragments inside will burst out instantly.

This is the latest type of landmine, and he did not expect it to be used in this place. He wiped the sweat from his forehead and looked at Qin Yuan who was already tens of meters forward.

It has to be said that he really admires them, the speed of dismantling the bombs is really too fast, he hasn't even finished a single bomb, and they are all in the front.

Qin Yuan stood up, checked it carefully again, and made sure that there was nothing wrong with it. It seemed that they had placed mines at a distance of more than 50 meters, and they would disappear after passing this area.

The equipment is also safe, and his hearing and vision are excellent, so there is no problem.

He walked over slowly, looked at Zhao Yongtian who was still lying on the ground, and patted his shoulder.

"Okay, get up, I'll do it, we have to speed up, we don't have time to grind around here."

Zhao Yongtian was a little unconvinced. He was unconvinced by himself. He obviously did well every time during the training, but after studying for a long time, he dared not do anything. His palms were already covered with sweat. What he said was true. A little scared, a slight mistake, he might detonate.

"Instructor Qin, give me another chance, give me another five minutes, and I'll crack it right now."

Qin Yuan shook his head. It wasn't that he didn't give him a chance, but that his current defense line had collapsed, and these five minutes were just invisible pressure on him, which had no effect and would lead to failure instead.

"There are still many opportunities to try later, you get up first, otherwise we won't be able to get there before dark."

Besides, it doesn't matter whether this mine is removed or not, the previous ones have been completely cleared.

It's just that Qin Yuan may have done it in front of him in order to comfort him and to demonstrate again.

Zhao Yongtian saw that Qin Yuan used only a small knife to quickly cut off the line, and then took out the mines. This is too exaggerated. I struggled for more than ten minutes, but I didn't expect someone to come over, just a few seconds later. That's it.

He opened his mouth wide in surprise, which was really too exaggerated, and the speed was not so fast.

Qin Yuan waved to the team members behind, and everyone came up.

Zhao Yongtian stood up, he was so surprised that he didn't recover, Chen Xiaohu came up and said: "Hey, you were very good just now, and you asked to go up, isn't this just a waste of time and delaying others?"

Zhao Yongtian was very unconvinced when he heard this, for this kid would say sarcastic remarks.

"Anyway, I am willing to try, what are you doing?"

"This is not willing to try. Didn't you hear clearly just now? All we need to do is obey the order, otherwise it will easily delay them. You are delaying our actions and wasting our time."

Zhao Yongtian clenched his fists, he really wanted to refute, but what Chen Xiaohu said was indeed reasonable, this time it was true that his skills were not as good as others.

Seeing them getting louder and louder, Qin Yuan could only yell loudly, "You are still arguing in this place, don't you understand that unity is the most important thing after you come out, and the only thing you can trust is the weapons in your hands, And the comrades around me."

After being yelled at by Qin Yuan, the two fell silent instantly, so that the team continued to set off. After they passed through the minefield, Qin Yuan made a warning gesture, and everyone squatted down quickly.

Unexpectedly, a pair of heavily armed militants came in front of them. Qin Yuan carefully observed that they were not the target they were looking for.

Because they entered this gang area, there were several gangs here, so before he set off, he specifically identified the target person they were looking for. The people walking across the street had messy clothes, including camouflage uniforms and black uniforms. The goal they are looking for is not the same.

The gang they are looking for is relatively large, so their uniforms are very uniform, and they are a large gang built entirely according to the mercenary model.

Qin Yuan signaled everyone not to move. If it was normal, he would have dealt with all these people directly, but what needs to be done now is not to startle the snake.

Everyone was very nervous and prayed silently, hoping that they would not come over. Qin Yuan was already preparing for the throwing knife in his hand. If they came in this direction, they had no choice but to strike by themselves.

"It's best not to act rashly. I will use cold weapons to solve it later. Of course, this is a no-way solution. The best solution is that they can pass from other places."

Zhao Yongtian also clenched the gun in his hand, he is also very good at using cold weapons. It's just that such a close-range killing made him feel a little uneasy for a moment, he didn't know what he would do later.

At this time, He Chenguang came to him, pressed him directly, lay down on the ground, and signaled him not to move.

The main reason is that this kid always makes some fools, so he can only keep an eye on them first, so as not to ruin their plans at that time.

After another few minutes, seeing those people getting closer and closer, they changed direction at this time and walked towards the southeast. Moreover, those people were carrying some goods in their hands, which should be the things he traded.

Zhao Yongtian stared at those people, he had changed from the fear just now, it could be seen that he really wanted to do something.

This kid didn't know what was going on, and he suddenly became excited when he saw these militants, as if he had been beaten with chicken blood.

Just when they were about to leave, Zhao Yongtian suddenly jumped up and rushed over.

He Chenguang didn't realize it when he was beside him, this kid was too exaggerated, he didn't watch for a second, and rushed out.

Qin Yuan secretly screamed that it was not good. He was at the same speed as him, even faster than him. The people on the opposite side had already noticed that they threw three throwing knives out of his hand in an instant, killing the few people holding heavy weapons in front of them on the spot.

Just as Zhao Yongtian was about to get in front of a criminal, the gun in that person's hand was quickly pulled, and the class shot straight at him with a row of bullets.

Qin Yuan didn't have time to think, kicked him on the waist, and instantly kicked him flying, but Qin Yuan was shot in the thigh.

This brat is really a tiger. I didn't expect to rush over so blatantly. Isn't this being directly regarded as a living target by others? Qin Yuan moved quickly.

He rushed directly to the middle of the team and started killing randomly. The leader inside had their throats cut before they could react.

Li Erniu, they also charged money. After all, they had already fired just now, which was completely exposed. They also started to replenish their guns and eliminated the remaining few people.

At this moment, Zhao Yongtian was still in fear. He saw the bullet just now and hit him, his mind went blank for a moment, and he didn't know what to do.

He collapsed on the ground, Li Erniu stepped forward and pulled him up, and he slapped him twice.

"Stinky boy, do you know what that behavior was called? It's called seeing a doctor on the battlefield, and they can directly give you Fa-rectification on the spot."

The more Li Erniu talked, the angrier he became. This kid didn't care about other people's safety, so he rushed out like this. If he hadn't been willing just now and reacted quickly, then some of them would definitely be injured.

"I said, are you stupid? I'm asking you something? If you just rush out in such a stupid way, you know how many people will be killed."

Li Erniu punched him in the stomach again, and he collapsed on the ground in pain, but no one from the surrounding team members stepped forward to stop him. Everyone thought he asked for it and deserved it.

At this time, Qin Yuan slowly walked over. He listened carefully to the surrounding situation with a solemn face. The main reason was that the shooting just now was easy to expose. He just hoped that their target would regard the gunshots here as a battle between other gangs. little fight.

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. However, the wolf demon is very talented and powerful, so if he faces the enemy head-on, he may not be the opponent. Especially since he is young and lacks energy and blood, he will definitely not be able to fight for a long time. If it wasn't for the transformed human being who forcibly killed a wolf demon, he might not be able to make a move against two third-level wolf demons. His own life is the most important thing.

However, once he makes a move, he must hit it.

The wolf demon was in extreme anger right now, so he didn't realize it until Tang San's palm had already slapped the side of his eyes. Turning his head sharply, the wolf's mouth went straight to bite Tang San.

Tang San's other hand grabbed his clothes at this moment, taking advantage of his thin body, he pulled the wolf's fur and changed his direction. Almost the position next to the third-order wolf demon's chest was flipped to the other side of the wolf demon.

The index finger and **** of the right hand merged into a sword finger, and Xuanyu moved the hand, making the **** shine with a pure white jade color, and they pierced the eyes of the wolf demon who was turning around like lightning. 818 novels

"Pfft!" The slender fingers spread into the warmth almost instantly. In terms of physical strength, Tang San must be far inferior to this third-order wolf demon, but he hit the vital point, and with the same level of energy, he would never be able to. No luck.

Under the injection of Xuanyu's hand, Xuantian Kung almost spun into the wolf monster's brain. So much so that the wolf demon's other eye burst open in an instant, and its brain was twisted into a mess. The roar stopped abruptly as if the neck was stuck, and the strong body fell to the ground.

Tang San kicked on him with his toes, turned over and landed in a far away place.

The result of this attack was due to the help of his rich combat experience in his previous life. The child's thin body and the dark night are the best cover, plus the third-order wolf demon is in a rage, and his perception is weakened.

In a frontal confrontation, even Tang San's Xuanyu hands may not be able to break through the thick skin of the wolf monster. However, the eyes are the most vulnerable place, if the eyes are pierced and the energy of Xuantian Kung is injected, then the dead cannot die again.

Both feet landed on the ground, and the third-order wolf demon on the other side was also silent. Only then did Tang San breathe a sigh of relief. He was not in a hurry to check on the human being, but quickly lay down on the ground and pressed his ears to the ground, listening to the movement around him to see if there were any pursuers.

With his current strength, it would be very difficult to confront the third-order wolf demon head-on. No matter how good his skills are, his young body is too weak. Once hit by a wolf demon, it is likely to be fatal. In the seemingly simple attack just now, he actually went all out to raise his spiritual will to the highest level.

There was no other movement around. Obviously, only two third-tier wolf monsters were chasing and killing those who could transform into humans. This also made Tang San breathe a sigh of relief, otherwise, he could only choose to escape.

Only then did he walk towards the human being, while remaining vigilant.

When he came close to that person, he suddenly found that the hair that had grown on that person's body had disappeared. It made Tang San's heartbeat increase a bit.

Given his childhood situation, and the fact that he was not related to the transformed human being, the safest way before was naturally not to make a move, and wait for the wolf demon to leave. But he still chose to shoot. One is because it is human beings who are hunted down. Another important reason is his transformation just now.

In Tang San's original world of Douluo Continent, there was a soul master with a beast spirit who could possess similar abilities. It can also continue to grow and become stronger by cultivating the beast spirit.

If there is a similar ability in this world, for him, if he can learn it, it will be of great benefit to his own strength improvement, and it will be easier to integrate into this world!

Chapter 1187: finally changed

Qin Yuan lowered his voice. Although they didn't find anything, they still had to leave as soon as possible.

"That's enough, now is not the time to talk about this, go to a safe place first, don't be discovered by the enemy, go quickly."

The main reason is that if these criminals really found out what was going on and moved their base at that time, then all the things they exchanged for so many comrades before they laid an empty space would be in vain.

He Chenguang kicked Zhao Yongtian, "Stinky boy, don't pretend to be dead with me here, get up quickly, it's all your fault."

Zhao Yongtian could only get up silently, he was going to have an attack, unexpectedly Qin Yuan turned around, he froze instantly, his eyes contained murderous intent, at this moment, his body trembled uncontrollably.

"I tell you, it's best not to challenge my patience."

Because Qin Yuan always pursues perfection when doing things, and this time he felt that under his leadership, there must be no problem.

He was very upset now, and he only hoped that he wouldn't startle the snake, and that this would really be the first time their red blood cell team failed in a mission.

But failure is not inevitable, but there may be some small episodes, no matter where those people escaped, he must find them out, otherwise all the efforts of so many people will be in vain.

The team members behind gave Zhao Yongtian a push, and then he came to his senses, lowered his head, and walked forward silently. That look just now was really terrifying, and he can be regarded as a person who has experienced many things, but he didn't expect to be frightened by that look.

When they had completely walked out of this range, I would rather turn my head and look at it, and signaled everyone to rest for a few minutes, because they had been on their way all the time, and no one dared to say anything during the whole process, because everyone could see that Qin Yuan was in a very bad mood it is good.

"Rest in place for five minutes now, Er Niu, Chen Guang is in charge of vigilance."

"Yes!"

After finishing speaking, the others squatted down to rest, and the two of them went to the side of the jungle, one left and one right.

At this time, Qin Yuan stepped forward and looked at Zhao Yongtian in front of him, "I didn't expect you to have such a great ability. I told you before that you should not mess with me. Do you know that you almost died just now?" In the hands of those people?"

Zhao Yongtian was so frightened that he didn't dare to say a word, he didn't dare to look into Qin Yuan's eyes, it was only at this moment that he suddenly remembered, if he read correctly, it was when Qin Yuan rescued him just now.

It seemed that his leg was hit by a bullet. He quickly looked at Qin Yuan's leg, but there was no trace of blood. Could it be that he was wrong?

But how? Because in that case, he would definitely get hit by a bullet.

Seeing that the kid was still in a daze, Qin Yuan reached out and slapped him on the head.

"Boy, let me ask you something. In that situation, why did you rush out suddenly? Do you know that it was because I saw the military order, and you almost killed everyone."

Zhao Yongtian lowered his head and didn't say a word. The team members next to him couldn't stand it anymore, so they rushed out and said:

"Brother Qin, I said that I shouldn't have brought this kid with me at the time. He was like this in the team before. He was often nervous. When we set off, I felt something was wrong with him."

If Qin Yuan wanted to know his thoughts, it would be too simple, but now he doesn't want to waste that time, he just wants everyone to have a good rest and adjust their state.

He once again explained to everyone, not to act without authorization, otherwise it may put everyone in danger, because the moment they come out, they are not individuals, but a whole.

The other team members were also staring at Zhao Yongtian's behavior. If it wasn't for Qin Yuan just now, and the red blood cell team reacted quickly, then they might really be in danger. After all, no one wants such a thing to happen when they come out.

After a few minutes, let everyone continue to set off. This time, they can find the coordinates in one go.

Everyone walked through the jungle for more than an hour, and finally saw some faint buildings in front of them. Qin Yuan made a gesture to ask everyone to squat down first, and they had reached the destination.

"The front is the target point we are going to. I wanted you to act alone. Of course, there are some unavoidable factors in it. You are still with us."

Everyone nodded to express their understanding, and Yang Xiaohu stared at Zhao Yongtian viciously. It was this brat's plan to sabotage, otherwise they would really be able to act independently. Everyone has been training for so long, and they were all ruined by him.

Since Zhao Yongtian was taught by Qin Yuan just now, he has not said a word all the way. Qin Yuan glanced at him, and then told Li Erniu that he must keep an eye on him. Happening.

"Er Niu, your responsibility later is to keep an eye on this kid, and don't let him make any trouble."

"Brother Qin, don't worry, the kid will never make mistakes with me here. I'll tie his hands up later, and I'll see if he can still go crazy."

Unexpectedly, when Zhao Yongtian heard this, he suddenly stood up. Fortunately, Qin Yuan's acting hand quickly pressed it, and there was an enemy sniper on the opposite side. Is this kid crazy?

"Stinky boy, what are you doing? Are you trying to expose everyone? Let me tell you that you don't have to wait to go back. I'll clean you up right here."

Zhao Yongtian also realized that his emotions were not right just now, he lowered his voice and quickly explained, "Instructor Qin, I was really in an accident just now, but I hope you don't control me, I want to fight with you."

Everyone scoffed when they heard this. This kid is really ashamed to say that he sabotages everyone's actions time and time again, and now he has the face to say that he wants to be with everyone. Wouldn't that kill others?

"I am the commander of this operation. If I say you have no right to participate, then you absolutely have no right to participate. Just stay honest."

Qin Yuan didn't give him any chance to refute at all, it was too dangerous for such a person, he had never seen a disobedience on the spot, and it was too exaggerated.

Qin Yuan observed that there was a temporary building on the opposite side, but the infrastructure was still in good condition. You could see a patrol team at the door, and there were four lighthouses on the side with soldiers on duty.

Their task this time is to directly destroy this criminal base, and then retreat safely, because this is one of the big gangs.

Once there is a problem with this gang, it will lead to an imbalance in this area, and it is likely to attract the attention of other gangs, so they must leave as soon as possible after they are resolved.

After Qin Yuan made the deployment, he asked Yang Xiaohu and the others to follow behind the team as the vanguard.

Everyone has no problem with such a decision, but Qin Yuan can't bear the task this time. Although the opportunity is rare, it is also a rare opportunity for their training.

In the end, he looked at Yang Xiaohu, and said: "Well, I'll give you a chance. You can volunteer to come out and see the one on the opposite lighthouse? We will solve the other two people, and you will send two people to solve the one in front. "

Everyone is very excited to hear this, such an opportunity is really rare, after all, it is facing a real battlefield and massacre.

Everyone was somewhat nervous, Zhao Yongtian actually started to sign up again, he thought that his marksmanship would not be a problem, but Qin Yuan didn't even think about it, and refused him directly, this kid is considered a high profile if he doesn't make trouble .

In the end, Qin Yuan selected two team members and asked them to aim at the snipers on the opposite side, mainly the ones above the lighthouse, and the two behind them were relatively far away, just leave it to them to solve it.

As long as these few people are dealt with, the rest will not be a problem. His plan is that after the deal is over, he will lead the red blood cell team to rush up first, and they will suppress firepower, while Yang Xiaohu and the others will follow up to fill up the guns.

"Everyone remember that this mission does not leave any household registration. The main criminals have already been caught. Shen Yi's are all participants, so don't worry about it."

Yang Xiaohu nodded. He is very nervous now. From the inside, he can clearly see the person on the opposite side. This is really very different from the usual training.

Unexpectedly, Qin Yuan was very patient, and slowly lay beside him, guiding him.

"This is different from your usual training. You can clearly see his every move, but you have to relax. Don't think about anything else. At that time, only the order to shoot is left in your mind. I said shoot. You shoot when the time comes, understand?"

After all, a sniper needs to rely on his own judgment, but Qin Yuan can see his nervousness, after all, everyone has their first experience.

He didn't want this mission to fail, so it was very important for him to see the timing right. He also asked He Chenguang to prepare later, and if it didn't work, he would start the second shot.

Zhao Yongtian was very depressed, he regretted a little, he was too impulsive just now, but this was his purpose, he really wanted to go to the battlefield to kill the enemy and these people he had a blood feud with, but what could he do, his ability was limited here For a moment it seemed a little difficult.

He could only look at Qin Yuan in front of him guiding the other team members, he clenched his fists tightly, no matter what, after rushing in later, he must still have a chance to kill the enemy.

Yang Xiaohu kept adjusting his distance. He felt that it was almost the same. At this time, Qin Yuan also gave an order, and the four of them shot at almost the same time.

Yang Xiaohu's reaction was a little slower, but it was not a big problem, and he hit the target accurately. During the sniping, he only saw a cloud of snow mist rising, and instantly his heart was very excited. This was his first time. hits a living target.

Qin Yuan patted him on the shoulder and praised him a little. After all, encouragement is still needed when it is time to encourage.

As the gunshots sounded, everyone rushed forward quickly. This time they all changed to submachine guns to wipe out the enemies inside.

After entering, there were more enemies than they had imagined. These militants were not vegetarians either. They all walked through the hail of bullets, reacted quickly, and prepared themselves well.

Thinking that the rocket flew directly in the direction they were just now, and their reaction speed was relatively fast, Qin Yuan took aim at the target and took the lead in dealing with the heavy weapons behind.

Let everyone have no worries for a while, everyone rushed forward quickly, and they couldn't care so much at the moment, all they could do was shoot and kill them.

Li Erniu was also red-eyed. After he rushed into the base, he began to shoot at the enemies.

At first he could still pay attention to Zhao Yongtian next to him, but later on he couldn't care about it at all, because there were indeed a lot of enemies, Qin Yuan had already rushed to the front and solved most of the enemies for them.

Zhao Yongtian also got a chance, after all, what he held was also a weapon, not a fire stick. He tried to shoot, but after killing the first enemy, he became smoother and smoother.

In addition, his usual grades are also very good. At this moment, he didn't notice that the enemy behind him suddenly circled up.

These militants were very crazy. One militant with a bomb strapped to his body rushed towards them. At this moment, Zhao Yongtian was completely immersed in the killing.

As soon as Zhao Yongtian raised his head, he saw Qin Yuan, standing on the second floor opposite, and raised his gun at him. He was instantly frightened and at a loss. What's going on?

Anyway, even if he made a mistake just now, he wouldn't kill him directly, right?

In the next second, Qin Yuan directly pulled the trigger. He didn't expect to deal with the enemy behind him. Zhao Yongtian was stunned. He didn't see any enemies behind him. At this time, an enemy on the side was also shot to death by Yang Xiaohu.

"My surname is Zhao, I said what are you doing in a daze? Do you know how dangerous it was just now?"

To be honest, Zhao Yongtian didn't expect that he could receive help from others. He looked down on his teammates the most before, but in the dangerous situation just now, he relied on other teammates, because no matter how powerful he was, he was alone people.

Watching Yang Xiaohu rush forward, he also rushed forward. This battle was very fierce, mainly because of Qin Yuan's help, or deliberately left some people behind to let them exercise. At this moment, everyone did not Feeling scared again, I can only think about solving the people around me as soon as possible.

This time it took them a total of 25 minutes to eliminate all the people in the base. When Qin Yuan left, he lit a fire and threw them into the ammunition warehouse behind them.

A huge explosion sounded, and everyone had completely evacuated to a safe place.

Zhao Yongtian rushed to the back to look around from time to time, because Qin Yuan was in charge of solving the following matters.

"Why hasn't Brother Qin come up yet? I heard the explosion just now."

Li Erniu smiled, this kid finally changed his tune, and an instructor shouted before, "Don't worry, you just heard the explosion now, I guess our captain is already on the way, he is very fast, you Just drive your way well, and he will catch up with us in a while."

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. Under the injection of Xuanyu's hand, Xuantian Kung almost spun into the wolf monster's brain. So much so that the wolf demon's other eye burst open in an instant, and its brain was twisted into a mess. The roar stopped abruptly as if the neck was stuck, and the strong body fell to the ground.

Tang San kicked on him with his toes, turned over and landed in a far away place.

The result of this attack was due to the help of his rich combat experience in his previous life. The child's thin body and the dark night are the best cover, plus the third-order wolf demon is in a rage, and his perception is weakened.

In a frontal confrontation, even Tang San's Xuanyu hands may not be able to break through the thick skin of the wolf monster. However, the eyes are the most vulnerable place, if the eyes are pierced and the energy of Xuantian Kung is injected, then the dead cannot die again.

Both feet landed on the ground, and the third-order wolf demon on the other side was also silent. Only then did Tang San breathe a sigh of relief. He was not in a hurry to check on the human being, but quickly lay down on the ground and pressed his ears to the ground, listening to the movement around him to see if there were any pursuers.

With his current strength, it would be very difficult to confront the third-order wolf demon head-on. No matter how good his skills are, his young body is too weak. Once hit by a wolf demon, it is likely to be fatal. In the seemingly simple attack just now, he actually went all out to raise his spiritual will to the highest level.

There was no other movement around. Obviously, only two third-tier wolf monsters were chasing and killing those who could transform into humans. This also made Tang San breathe a sigh of relief, otherwise, he could only choose to escape.

Only then did he walk towards the human being, while remaining vigilant.

When he came close to that person, he suddenly found that the hair that had grown on that person's body had disappeared. It made Tang San's heartbeat increase a bit.

Given his childhood situation, and the fact that he was not related to the transformed human being, the safest way before was naturally not to make a move, and wait for the wolf demon to leave. But he still chose to shoot. One is because it is human beings who are hunted down. Another important reason is his transformation just now.

In Tang San's original world of Douluo Continent, there was a soul master with a beast spirit who could possess similar abilities. It can also continue to grow and become stronger by cultivating the beast spirit.

If there is a similar ability in this world, for him, if he can learn it, it will be of great benefit to his own strength improvement, and it will be easier to integrate into this world!

Chapter 1188: renamed

Even though he said this, Zhao Yongtian still looked behind from time to time. At that moment just now, he completely forgot what fear is. At first Li Erniu was worried that these boys would not dare to shoot at all, but after rushing in, who I don't care about it, it's almost a subconscious action.

After a while. Sure enough, he saw a figure, but he didn't expect that it was really Qin Yuan, and at this moment Qin Yuan ran out unscathed.

"Brother Qin, you're back!"

Everyone was very excited, but the members of the red blood cell team seemed to be familiar with this situation. After all, Qin Yuan came to the back every time.

"Okay, there is no problem there now, we have fully completed the task, and now we can go back."

And the most important thing is that this time they are not allowed to wear any signs in order to protect their undercover comrades.

According to their mission before, there will be helicopters or ships to pick them up, but this time they can only go back by their own ability, and they must be absolutely silent.

However, this kind of silence is only used to hide their identities. Before the mission, he asked everyone to remove all the signs on their bodies. After this time, after destroying this big gang, the main thing is to give up their internal factories. Completely destroyed.

Although there are several major gangs hidden in this area, on the surface they are very different, but they are relatively consistent with the outside world.

So Qin Yuan has to consider protecting his undercover comrades. After all, there are still undercover personnel hidden in other gangs. This time, they must not expose anything.

After all, everyone experienced the first real battle on the battlefield just now, so they were quite excited. Qin Yuan gave everyone five minutes to make adjustments, which can be regarded as giving them a buffer time.

"Everyone, tell me about your feelings about this operation, and you can tell me anything, and I can guide you."

Before Yang Xiaohu could speak, Zhao Yongtian next to him couldn't wait, his face was full of excitement.

"Brother Qin, you were so handsome just now. You rushed in with your gun in hand. I could still see your figure at first, but I couldn't see you later. And just now... Thank you for saving my life just now."

It's okay to say this, as soon as Qin Yuan said this, he stood up, looked coldly at Li Erniu next to him, and said loudly:

"What was the order I gave you just now? I asked you to keep an eye on this kid. What did you do? Two hundred push-ups will start now."

Li Erniu also thought he was unlucky, plus Qin Yuan's order, they never disobeyed, did not say anything, put down the equipment, and did push-ups on the ground, the people around were dumbfounded, Zhao Yongtian was even more I don't know why.

"Brother Qin, what do you mean? I have killed the enemy just now, and I didn't make any mistakes in the whole battlefield. Why do you want to punish him?"

"Haven't you heard clearly? I punished him because he disobeyed my order. What I gave him was not this. He is not responsible for destroying the enemy, but for keeping you in check."

When Zhao Yongtian heard this, the more he thought about it, the more unconvinced he became. Why? Why do you have to watch yourself? More importantly, in this battle, I also dedicated my ability.

"Brother Qin, I really don't understand. I didn't make any mistakes in this battlefield. It can be said that I also helped everyone. Why did you punish him?"

This kid has reached this point, and he still doesn't know what mistake he made. He was too impulsive on the battlefield, and he was completely careless. If he hadn't reacted quickly before, he probably had to pack a box and go back. up.

Qin Yuan didn't save him the slightest bit of face, pointing out his mistakes one by one. His previous training results were indeed excellent, but he was a cowardly act on the battlefield.

"In the battlefield, you did not observe the situation and charged blindly. This is one. Second, my order to you is to follow Li Erniu. You are not allowed to charge blindly, but you also disobeyed the order. This is a taboo on the battlefield. ."

Usually Qin Yuan can joke with them, but when faced with this matter, Qin Yuan is very serious. The most important thing is that under this situation, Zhao Yongtian has no sense of unity.

Li Erniu was punished because of him. According to the idea in the book he gave everyone, if one person is punished, everyone will accompany him, but this guy just watched his dissatisfaction in his heart like that.

Is it because he obviously made a contribution and killed people on the battlefield, so why criticize him alone? What he didn't understand was this, the kid didn't realize his mistake at all.

Qin Yuan became more and more disappointed with him, Zhao Yongtian didn't know if it was his own illusion, why did he see other things in Qin Yuan's eyes? Qin Yuan was relatively fashionable towards him at first, but it seems that after this battle, he completely changed towards him.

After talking about Zhao Yongtian, Qin Yuan praised the other team members by the way. Generally speaking, the expressiveness of other teams' language was beyond his expectation. According to the training rules, the overall performance was very good.

"Every comrade has performed very well. I think your cooperation has reached a tacit understanding. This team can indeed be established. I can complete the delivery task after returning."

Everyone was very happy to hear this, and Yang Xiaohu said with a smile: "Brother Qin, it is really thanks to your help, under your guidance, we can adapt so quickly, and your training us. It was the first time I saw it, and it really improved us a lot."

"That's right, as expected of someone from the Special Operations Brigade. Not only can they train special operations soldiers, but we can also train them."

Hearing everyone's praise, Zhao Yongtian was silent beside him, he felt very uncomfortable, he was in a dead end now, and felt that Qin Yuan was deliberately targeting him.

At this time, Li Erniu stood up after finishing his push-ups, and silently returned to the team. Qin Yuan glanced at his watch. It was almost time, and they could continue to set off.

From the beginning to the end, Zhao Yongtian didn't feel any guilt, he just thought why Qin Yuan had such a big prejudice against him?

Finally, when he was leaving, he couldn't help calling Qin Yuan, "Instructor Qin, I really don't understand, do you just disapprove of me? I killed four enemies just now, do you know what that means? Absolutely You can do first-class work."

Qin Yuan snorted coldly when he heard this, this kid really has more than pure purpose, everyone is for the task, this kid is all for fame.

"Stinky boy, what is killing four people? Dare I tell you that? In the previous battle, all the people in the team killed more enemies than you."

"I know, it's because you have let him control me all the time, so I can't rush in immediately. If I rush in immediately, there will be more than four people."

"Boy, if I hadn't let him control you, you would have been shot if you were the first to go in, understand?"

Qin Yuan pushed him away, didn't bother to talk nonsense, and continued to lead the team to set off. Just as Zhao Yongtian wanted to go forward, Li Erniu immediately grabbed him.

"Return to the team, what are you doing? Do you still want to disobey the captain's order?"

Zhao Yongtian had no choice but to return to the team silently. After the actions just now, everyone sneered at Zhao Yongtian even more, and according to Qin Yuan's attitude, it is estimated that he would not be allowed to stay in the team after returning.

It was already dark, and Qin Yuan and the others marched very fast, passing through the jungle, Qin Yuan pointed to the frontier, they climbed over the mountain, and they reached their own territory completely, no problem.

"We try to climb that mountain for half an hour, try to maintain an average speed, and talk about it later, and now we don't rest in the middle."

For everyone, this is not a big problem. After all, they have been training in physical fitness before, and a group march like this is not a problem at all.

It's just that they had just reached the third foot, Qin Yuan hurriedly gestured for everyone to squat down.

After five or six minutes, there was no movement at all, and everyone was a little anxious. They looked around, but they didn't see anything. The most important thing was that it was dark from the forest, and the visibility was too low. They could only rely on the infrared light on the gun equipment for observation.

At this time, no one dared to say anything, they all silently listened to Qin Yuan's arrangement, and two minutes passed like this, Zhao Yongtian was a little anxious, and it was not a big deal to squat here all the time, and he didn't say anything about the situation.

Just as he was about to ask a question, he suddenly heard a movement. Everyone looked at the place where the movement was coming from, and there were some tiny lights in the distance.

When everyone saw this, they couldn't help but gasp. This is too exaggerated. Qin Yuan's hearing is simply amazing. Those people were at least one kilometer away just now. He didn't expect him to be able to hear them all.

In normal times, Qin Yuan would have dealt with all these people long ago, but now he can't act rashly, because other gangs also have their own comrades, and he wants to protect their safety.

"Everyone is insured, don't make any noise, let them go."

Everyone followed Qin Yuan's instructions, and as the small group of people approached, everyone saw clearly that their clothes were much better than those they saw during the day, and they were completely in uniform.

Moreover, there are some people in the team who hold heavy weapons, and they all have blasting grenades hanging around their waists. This kind of 95 blasting grenade has a very wide explosion range, and all of them are small marbles.

As long as it is touched, the undead is also half-crippled.

Under the faint moonlight, Zhao Yongtian looked at the person who was getting closer and closer, and suddenly his eyes narrowed rapidly, and he saw a person he was familiar with and had always regarded as the target.

He is very conflicted in his heart now, and his body is trembling uncontrollably. The reason why he chose to be a soldier and came here is because of this moment. The enemy is right in front of him, but the order Qin Yuan gave is to stay where he is Do not turn.

Yang Xiaohu next to him noticed something unusual, why did this boy start to tremble? Just as he was about to remind Qin Yuan in front of him, suddenly Zhao Yongtian jumped up from the grass.

You must know that this group of people is not so easy to mess with now. As soon as they made a movement, the people in front subconsciously fired a volley of bullets.

Qin Yuan hurriedly let everyone throw away the throwing knives in his hands, and then the two sides fell into a melee, preferring to rush directly into the crowd and try to solve it personally.

In this dark situation, Qin Yuan could judge the enemy's direction by listening to the gunshots, and Qin Yuan walked in this team like a ***** of death.

He raised the knife and dropped the knife, and the enemies around him fell one by one. His reaction was quick. The person on the side was about to shoot, but he lowered his waist, dodged the bullet, and then plunged a dagger into the heart of the enemy.

In this dark night, he killed silently, and the surrounding enemies felt fear, because the people around them fell one by one, but they still couldn't lock the target.

"Fack! Who! Get out, who is plotting against me?"

As soon as the boss finished speaking, he felt a pain in his neck. When he looked down, blood spurted out instantly.

Qin Yuan's knife was too fast, and before his body could react, the boss fell straight down, his dying eyes were wide open, and he didn't know what happened.

Qin Yuan quickly resolved the battle, and now he can't take care of that much. Although there will be conflicts in this area at any time, he doesn't want to cause other troubles.

He had no choice but to let the team members retreat first. At this time, He Chenguang ran forward nervously, and pointed behind him.

"Brother Qin, it's not good, Yang Xiaohu was shot."

Qin Yuan frowned slightly, at that moment just now, their reaction speed was too fast, Qin Yuan could only say that he tried his best to protect them.

He hurried forward to check on Yang Xiaohu's injuries. Yang Xiaohu was shot twice in the shoulder and arm, and Zhao Yongtian was not much better. He was directly hit in the eye by the marbles from the grenade just now, and one eye was filled with blood. Li Erniu could only reluctantly bandage him with gauze.

Such marbles fly in spirally, causing great damage, and it is estimated that the eyeballs cannot be kept.

But in this situation, Qin Yuan stepped forward, tore off the gauze, and directly punched Zhao Yongtian to the ground.

"You bastard, do you know that you almost killed your own comrade just now? This is the second time, and I can directly punish you on the spot right now."

After Qin Yuan finished speaking, he immediately put on the safety and pulled the bolt. He would never allow anyone in his team to make such a mistake. Yang Xiaohu was injured because of him. Someone sacrificed, no one can afford this responsibility.

Unexpectedly, under such circumstances, even though Yang Xiaohu was injured, his face was very pale, and he pleaded with Zhao Yongtian.

"Brother Qin, it's none of his business. After all, bullets don't have eyes. Just now... I really didn't pay attention just now."

"Who is right and who is wrong, I will judge that this kid is completely a **** stick, sabotaging our plan time and time again, how many people are you going to kill?"

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. However, the wolf demon is very talented and powerful, so if he faces the enemy head-on, he may not be the opponent. Especially since he is young and lacks energy and blood, he will definitely not be able to fight for a long time. If it wasn't for the transformed human being who forcibly killed a wolf demon, he might not be able to make a move against two third-level wolf demons. His own life is the most important thing.

However, once he makes a move, he must hit it.

The wolf demon was in extreme anger right now, so he didn't realize it until Tang San's palm had already slapped the side of his eyes. Turning his head sharply, the wolf's mouth went straight to bite Tang San.

Tang San's other hand grabbed his clothes at this moment, taking advantage of his thin body, he pulled the wolf's fur and changed his direction. Almost the position next to the third-order wolf demon's chest was flipped to the other side of the wolf demon.

The index finger and **** of the right hand merged into a sword finger, and Xuanyu moved the hand, making the **** shine with a pure white jade color, and they pierced the eyes of the wolf demon who was turning around like lightning. 818 novels

"Pfft!" The slender fingers spread into the warmth almost instantly. In terms of physical strength, Tang San must be far inferior to this third-order wolf demon, but he hit the vital point, and with the same level of energy, he would never again. No luck.

Under the injection of Xuanyu's hand, Xuantian Kung almost spun into the wolf monster's brain. So much so that the wolf demon's other eye burst open in an instant, and its brain was twisted into a mess. The roar stopped abruptly as if the neck was stuck, and the strong body fell to the ground.

Tang San kicked on him with his toes, turned over and landed in a far away place.

The result of this attack was due to the help of his rich combat experience in his previous life. The child's thin body and the dark night are the best cover, plus the third-order wolf demon is in a rage, and his perception is weakened.

In a frontal confrontation, even Tang San's Xuanyu hands may not be able to break through the thick skin of the wolf monster. However, the eyes are the most vulnerable place, if the eyes are pierced and the energy of Xuantian Kung is injected, then the dead cannot die again.

Both feet landed on the ground, and the third-order wolf demon on the other side was also silent. Only then did Tang San breathe a sigh of relief. Chapter 1189: one more impulse

Zhao Yongtian endured the severe pain, his brain is blank now, his right eye is completely blind, he can't even feel the existence of the eyeball.

Coupled with the intense pain in his body, he gritted his teeth and didn't let himself make a sound.

Everyone is very disgusted with Zhao Yongtian's behavior. He sabotaged their plans again and again. Originally, everyone could go out safely, but now this is the second time.

Qin Yuan even wondered if he was an undercover agent sent by the other party. Could it be that he hadn't noticed before that when he picked up Zhao Yongtian, he didn't care so much and wanted to brainwash him directly.

He wanted to see where the undercover agent was sent, otherwise how could he put the whole team in danger again and again.

But he directly invaded Zhao Yongtian's mind, and found nothing. This kid's background is very clean, and he also discovered some other things.

At this moment, the people in the team saw that Qin Yuan's state was very wrong, and it was obvious that he was really going to be shot.

However, for Zhao Yongtian's behavior, he can indeed choose to be punished on the spot in the battlefield, because he interferes with everyone's plans time and time again, and on top of that, puts the entire team in danger.

Wang Yang, who had been silent in the team, quickly said: "Brother Qin, I can understand him. He also has difficulties. Although he has been watching the order, he is also avenging his family."

At this moment, Zhao Yongtian didn't know what happened because of his controlled consciousness, and Qin Yuan also understood all this from his mind, he silently put Zhao Yongtian on the ground, and then healed him.

"It's such a pity, he was a very good sniper, but what should he do now that his eyeball is injured?"

Wang Yanbing said angrily from the side, "When is it? You still think that he can become a sniper. This kid made such a big mistake. Wait for the military court."

Qin Yuan has met quite a few soldiers over the years, but he is the first one to be so fierce, and one after another.

Just now he saw a lot of clips in Zhao Yongtian's mind. This kid's brother was also a border soldier before, and he died in the process of fighting against those criminals. The most important thing is that those criminals found his family.

At that time, Zhao Yongtian's family was on the border, so it was easy for people to take advantage of his loopholes. His family was retaliated by those criminals, and his parents were brutally killed by those criminals. At the beginning, he was studying outside, so Just escaped.

So from the very beginning, he made up his mind that he must be the best. He originally wanted to enter the special warfare brigade, but because the conditions did not allow it, entering the special warfare brigade was basically the same as signing a life and death certificate. Face the most realistic and **** battlefield.

And his brother's situation had already appeared in his family before, so in order to take care of him, he also considered the next best thing and became a policeman.

But it wasn't until Qin Yuan appeared that he felt that he finally had hope. He would definitely be able to go to the battlefield to avenge his family, and the group just now, he would never forget the past. According to the official survey results on this side, their clothes and equipment are exactly the same.

That's why he couldn't control his emotions again and again. After all, he was his own enemy. When those criminals took revenge, they didn't pay attention to any kindness. Not only his parents, but also the two neighbors around them were brutally killed.

Zhao Yongtian has been living in the middle of these years. Although no one has come to blame him, of course he dare not go back. After he goes back, he will face those people in the village. It is true that the neighbor died because of his family's affairs.

So Zhao Yongtian slowly developed this extreme character, he felt that no one can be relied on, he must rely on himself, Qin Yuan sighed silently, helped him heal his eyes, and then turned around to replace Yang Xiaohu treat.

No matter what, this is a pitiful person. Under that kind of extreme oppressive situation, he forced himself so much. It is understandable that some emotions can be released, but he is very likely not suitable for this path. .

Yang Xiaohu bared his teeth in pain, he saw that his arm was completely numb.

"Brother Qin, do you think I will never be able to hold a gun again?"

"Stinky boy, what did you say? Let me tell you, when I will witness a miracle for you later, I will restore your arm to its original state immediately."

If he was in front of the red blood cell team, he could show it and use his recovery ability directly. After all, everyone was familiar with it, but after all, there were outsiders present, so he still used acupuncture.

The other team members all looked strange. Is it really okay to use acupuncture to treat trauma? And in this case, the shrapnel should not be taken out first.

The current environment is also very unsuitable for them. They don't even have anesthetics, only some basic first-aid medicines. It's impossible to continue like this.

It's just that in less than two minutes, Yang Xiaohu moved his arm, the pain just now disappeared, and when he looked at his hand again, there was no scar.

This is too exaggerated, he has never seen such a treatment method, it is simply that Hua Tuo is alive.

Because the scene was pitch black, no one else could see clearly, only seeing that Yang Xiaohu's arm could move, everyone was very surprised.

"I'm going, this is too powerful, what kind of therapy is this, it can move freely."

"How about it, boy? I didn't lie to you just now, did I? I can definitely guarantee your safety."

At this time, Zhao Yongtian also slowly woke up, he didn't understand what happened to him just now, but he suddenly lost consciousness for a while.

But he suddenly thought of something, and rushed to Yang Xiaohu with an anxious expression on his face.

"Yang Xiaohu, I'm sorry for you. It's all my fault. Don't worry, if your hand is broken, mine won't stay. I will accompany you wherever you are hurt."

This kid is now talking about this, Qin Yuan kicked him on the waist.

"Don't gossip here, everyone is fine, hurry up, let me tell you again, it's best not to make trouble for me, those people have already been dealt with, just go back safely."

It was only at this time that Zhao Yongtian came to his senses. He remembered that his eyes were completely injured before, but now there was nothing but dried blood on his face.

Including Yang Xiaohu, who was not injured at all. He didn't understand what was going on, and everyone urged him to leave quickly. Only from the mouths of others did he learn what happened just now.

Zhao Yongtian didn't say a word the whole time, but this time he was directly brought to his side by love, since others couldn't see it, then let him watch this kid, he wanted to see how much trouble he could bring about.

Fortunately, until they crossed the border, Zhao Yongtian didn't make any mistakes, and went back smoothly all the way.

To tell the truth about this mission line, Qin Yuan felt a little regretful that he failed to achieve the perfection he wanted to achieve, and in this case, he didn't know whether it would have any impact on those undercover comrades.

After Qin Yuan went back, he first reported the specific situation of the mission. This team is not bad so far. Although it is only half of the training, as long as it is based on the training in the manual, there should be no serious problems in the future.

Now Qin Yuan still has one and a half months to carry out special training for them. After one and a half months, the team can be fully dispatched.

After everyone went back, everyone's faces were full of joy. This was their first real mission. There was only one person, Zhao Yongtian, who was silent the whole time. He returned to the dormitory silently and began to pack his luggage.

No matter what, he has no regrets. After all, the revenge that should be reported has already been reported. The main reason is that under such circumstances, he also implicated everyone and almost put everyone in danger. He has no face to continue to stay here. Inside the squad.

Yang Xiaohu wanted to stop him, but was stopped by the team behind him.

"Okay, why are you going to join in the fun? Think about it, even if you want to keep him, do you think Brother Qin will keep him? There is no organization and no distance at all. If we carry out missions together in the future, and like this It's too dangerous to be together."

"I didn't understand him very well before, but after Brother Qin said it, I think he is quite pitiful. He is also for his family."

"It's true to say that, but aren't we pitiful? If because of his negligence, our mission fails and even kills more people, who do you think can afford it?"

As soon as the player's voice fell, Wang Yanbin applauded from behind. This is the meaning of the team. The team cooperates with each other. For those who don't cooperate, they are not suitable. Just kick them out of the team early.

He had disliked Zhao Yongtian a long time ago. Not only is this kid very stubborn, but he also looks down on others.

As long as this kid left early, he would save himself from becoming a shit-stirring stick in the team. After this incident, Zhao Yongtian had a great understanding. He knew that it was absolutely impossible to rely on himself alone.

The most important thing is that he also understands that the mistakes he made are completely selfish. He packed his luggage and walked out, watching everyone talking and laughing on the playground, discussing the next training.

And Qin Yuan reported the details of this mission in the office, all of which seemed to have nothing to do with him.

The most important thing is that he doesn't know whether he will be punished. He knows that he disobeyed orders on the battlefield, which is already a violation of military taboo.

He packed his luggage and stood beside him silently. Everyone was chatting and laughing just now, but when they saw him coming, they all stopped tacitly.

Just when everyone was unexpected, he came over suddenly and apologized directly.

"I'm very sorry everyone, I now know that my own behavior was really bad, and I didn't do my duty as a good player before."

Although his apology was very sincere, some team members still disagreed. This kid should not come here to pretend to be merciful.

"Don't do that before, you never said such a thing, do you think you will stay if you apologize? Let me tell you, it is absolutely impossible. The kind of mistake you made is a principle Yes, it is absolutely impossible to forgive."

Zhao Yongtian smiled helplessly, and he quickly shook his head, "No, I don't intend to come back, I know that I made a mistake, and it is very likely that I will be sent to a military prison, but my apology to everyone is sincere. "

Zhao Yongtian began to apologize to the previous team members one by one, until he walked in front of Yang Xiaohu, he bowed deeply, because if it was not for Qin Yuan, it is very likely that Yang Xiaohu would not be able to stay in the team, his hand would be It's completely useless.

Although he didn't know how Qin Yuan did it, at least his hands were preserved, as were his eyes.

After all this, he also understands the importance of his teammates, and he can think of how selfish he was before, but it was too late to understand all this, so now he only has guilt, hoping to make up for his teammates.

Everyone didn't know what to say. After all, his fate was already predetermined. How could such a person stay?

At this time, Qin Yuan finished his report and walked out of the office. When he came over, he saw Zhao Yongtian carrying a luggage bag.

"Hey? You guys packed your luggage, where are you going? I didn't say any order to go out for training."

"Brother Qin, didn't I prepare myself? This time I know how big a mistake I let go, but no matter what the result is, I can accept it. Please punish me. "

At this time, the corners of Qin Yuan's mouth turned up, he smiled, and then said: "Punishment is certain, after all, as I said before, you are still in the assessment period."

Zhao Yongtian was already prepared. He knew that he would face multiple punishments, and he would definitely not be able to escape from the military prison. Unexpectedly, what Qin Yuan said next completely shocked him.

"I really have to punish you. On the battlefield, you are really the first to order. It makes me very challenging. Now I can do 200 push-ups, and then run 10km with a load."

what! !

Not only Zhao Yongtian, but the people around him were stunned, what does this mean?

Qin Yuan reiterated again, "Why don't you understand the order? Or do you want me to teach you by hand?"

"No, Brother Qin, what's going on? Is this a punishment for my ex-wife? "

"This is my punishment for you. For your performance this time, you put everyone in danger. This is your personal punishment, understand?"

Everyone was confused, and Qin Yuan also explained that Zhao Yongtian was going to give him a chance to be assessed, after all, he was indeed excellent in all aspects.

It is not yet the final stage, and according to his pattern, it is very likely that Zhao Yongtian can be the captain.

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. However, the wolf demon is very talented and powerful, so if he faces the enemy head-on, he may not be the opponent. Especially since he is young and lacks energy and blood, he will definitely not be able to fight for a long time. If it wasn't for the transformed human being who forcibly killed a wolf demon, he might not be able to make a move against two third-level wolf demons. His own life is the most important thing.

However, once he makes a move, he must hit it.

The wolf demon was in extreme anger right now, so he didn't realize it until Tang San's palm had already slapped the side of his eyes. Turning his head sharply, the wolf's mouth went straight to bite Tang San.

Tang San's other hand grabbed his clothes at this moment, taking advantage of his thin body, he pulled the wolf's fur and changed his direction. Almost the position next to the third-order wolf demon's chest was flipped to the other side of the wolf demon.

The index finger and **** of the right hand merged into a sword finger, and Xuanyu moved the hand, making the **** shine with a pure white jade color, and they pierced the eyes of the wolf demon who was turning around like lightning. 818 novels

"Pfft!" The slender fingers spread into the warmth almost instantly. In terms of physical strength, Tang San must be far inferior to this third-order wolf demon, but he hit the vital point, and with the same level of energy, he would never again. No luck.

Under the injection of Xuanyu's hand, Xuantian Kung almost spun into the wolf monster's brain. So much so that the wolf demon's other eye burst open in an instant, and its brain was twisted into a mess. The roar stopped abruptly as if the neck was stuck, and the strong body fell to the ground.

Tang San kicked on him with his toes, turned over and landed in a far away place.

The result of this attack was due to the help of his rich combat experience in his previous life. The child's thin body and the dark night are the best cover, plus the third-order wolf demon is in a rage, and his perception is weakened.

In a frontal confrontation, even Tang San's Xuanyu hands may not be able to break through the thick skin of the wolf monster. However, the eyes are the most vulnerable place, if the eyes are pierced and the energy of Xuantian Kung is injected, then the dead cannot die again.

Both feet landed on the ground, and the third-order wolf demon on the other side was also silent. Only then did Tang San breathe a sigh of relief. He was not in a hurry to check on the human being, but quickly lay down on the ground and pressed his ears to the ground, listening to the movement around him to see if there were any pursuers.

With his current strength, it would be very difficult to confront the third-order wolf demon head-on. No matter how good his skills are, his young body is too weak. Once hit by a wolf demon, it is likely to be fatal. In the seemingly simple attack just now, he actually went all out to raise his spiritual will to the highest level.

There was no other movement around. Obviously, only two third-tier wolf monsters were chasing and killing those who could transform into humans. This also made Tang San breathe a sigh of relief, otherwise, he could only choose to escape.

Only then did he walk towards the human being, while remaining vigilant.

When he came close to that person, he suddenly found that the hair that had grown on that person's body had disappeared. It made Tang San's heartbeat increase a bit.

Given his childhood situation, and the fact that he was not related to the transformed human being, the safest way before was naturally not to make a move, and wait for the wolf demon to leave. But

he still chose to shoot. One is because it is human beings who are hunted down. Another important reason is his transformation just now.

In Tang San's original world of Douluo Continent, there was a soul master with a beast spirit who could possess similar abilities. It can also continue to grow and become stronger by cultivating the beast spirit.

If there is a similar ability in this world, for him, if he can learn it, it will be of great benefit to his own strength improvement, and it will be easier to integrate into this world!

Chapter 1190: give one more chance

Everyone was a little confused, especially He Chenguang. He felt that the youngest boy had decided to go. He made such a big mistake and disobeyed orders on the battlefield. This was the biggest taboo.

"Brother Qin, are you wrong? Look at this kid who doesn't have the character of obeying orders at all. If such a person stays, something big will happen sooner or later."

Qin Yuan really wanted to eliminate him at the beginning, but in the last confrontation, he changed his mind, because the kid rushed towards the militants over there.

He went out at the same time as him, and the boy saw the bullets coming, and blocked Chen Xiaohu first. Although he usually said that his comrades were all burdens and burdens, at the critical moment, he dared to rush out to block the bullets.

Although the cause of this incident was caused by him, this is something that most people cannot do.

That's why Qin Yuan wanted to give him another chance. In addition, he had worked so hard for so many years before, and everything was for revenge. This time it can be regarded as revenge for himself. Qin Yuan wanted to see if he would do it later. Something would have changed, otherwise this time would mean nothing.

"Zhao Yongtian, this is an opportunity I gave you, but if you don't cherish it, it's up to you to win it. But I said in advance that you still have the risk of being eliminated in the future, because you have been in my team all the time. Probation period."

Hearing this, Zhao Yongtian burst into tears instantly. He has persisted in his dream for so many years. At first he really thought that he was just doing it for revenge, but after all the criminal militants died, he felt that it was not his goal. .

He thought that as long as he could get revenge, the stone in his heart would be let go, but after returning from the border, he always had a lump in his heart, because it was not about revenge, but he had other ideas.

It's just a pity that he was about to be eliminated, and he began to accept his fate, because in that case, he was delaying everyone, delaying everyone.

He was already facing the worst plan to deal with it, but now things have turned around. Without any hesitation, he dropped his backpack and sat up on the ground.

As for the others, Qin Yuan asked everyone to disband, but after experiencing this incident, other teammates also had other changes towards Zhao Yongtian, and everyone silently stayed by his side.

After the members of the red blood cell team returned, Qin Zhengyang was a little puzzled. No matter how powerful this man was, he disobeyed orders on the battlefield.

"Brother Qin, I can't understand this kid. To put it bluntly, he is really capable, but he is easy to make mistakes and put everyone in danger."

"I know this, but people will always change after what happened this time. If he hasn't changed, then I think I have misjudged the person."

Qin Yuan is also very talented. He knows that such soldiers are rare, because he has faith in his heart, which is much better than no faith.

I just hope that I don't get it wrong. Giving him a chance is also a warning to others.

The next training Qin Yuan glanced at the training manual and felt a little strange. He repeatedly confirmed that this was too exaggerated. It can be said that he had never conducted special training for the red blood cell team before.

According to the training manual, this is to completely build a small team into a small-scale combat team.

The stage of building bridges when meeting water and paving roads when meeting roads surprised Qingyuan a little. He had never tried this training before, but it happened to be a test with them, armed police soldiers.

Because the training manual is sure that there will be no mistakes. The different situations of each unit are divided into very detailed training manuals, and detailed training is carried out according to what they have mastered and their specialties.

So the next day when everyone saw that they were willing to take them to the timber factory, everyone was stunned. Didn't they say that they would be given special training, so why did they come to the timber factory?

And without giving them any equipment, Qin Yuan just said three words slowly, "Saw wood!"

Everyone suspected that they heard it wrong. It was not until Qin Yuan walked over and turned on the switch of the machine that everyone came to their senses. He directly dropped a drawing.

"According to this drawing, produce timber here, and then re-build a small bridge across the small river."

This kind of training method is really quite unique, how did you become a carpenter?

It was very difficult for Qin Yuan until the beginning, especially in the wild. They had to perform tasks, and there was no way to take them to find a ready-made logging factory like this. Everything could only be done by themselves, but now let them familiarize themselves with the basics Some of the construction conditions, as well as the combination of wood.

In this way, everyone has been changing the configuration of various bridges for the past three days. Although everyone feels strange, no one is talking about it, because Qin Yuan's ability has been seen in the previous confrontation with militants.

Although I don't understand why Qin Yuan kept asking them to build bridges in various ways, after leaving the factory, he asked them to use local materials to start building bridges.

The reason why Qin Yuan didn't let the red blood cell team train this subject was because under his leadership, there was no need to build any bridges at all, but these armed police detachments were different. They faced various tasks, including emergency rescue. For disaster relief, there are also searches near mountains.

They have to respond to the situation on the spot at any time. In addition, Qin Yuan and his team have improved the physique of everyone in the team. Diving and swimming are not a problem, and they are several times stronger than ordinary people.

But such a boring bridge-building training lasts for a whole week. Even if everyone is interested, they will not repeat bridge-building every day.

Besides building bridges, Qin Yuan also brought them into the cave and asked them to carry out precise blasting.

In addition, what is even more difficult is that eggs are willing to be placed when blasting. It must be accurate to 1mm, and there is no error at all. If the eggs are broken, all personnel will practice additionally.

At the beginning, it was easy to directly smash the eggs, because the eggs were blasted on the periphery, and the position was slightly shifted, and the ten pieces that flew out would break the eggs.

For this blasting training, everyone felt that the conditions were too harsh. Even if there were no broken stones flying out to break the eggs, the shock waves caused by the explosion could easily break the eggs.

At the beginning, everyone followed the conventional method. No matter how hard we tried, the eggs were broken. We practiced at home every day, except for push-ups and jumping, and it was on the mountain.

Qin Yuan punished them, and the most serious punishment was that they were not given any equipment, and they were left alone on the mountain overnight.

Qin Yuan asked them to stay on the mountain and think carefully about how to face the next day's training. The second day was still the same blasting training, mainly to let them comprehend it by

themselves. Unfortunately, these boys reacted too slowly and had already exploded. So many times, no one has reacted yet.

Zhao Yongtian thought about it for a long time, but he didn't take it for granted. Besides, everyone had no equipment at night and was thrown in this barren mountain. He could only barely light a fire and sit in the cave in a daze.

"I said, do you want to have a meeting to discuss it? What's going on? Otherwise, the result will be the same tomorrow, and I really can't run anymore."

"But there is no way to do it. You must know that we have all done blasting, especially Lao Liu. Didn't you work in the blasting class before?"

"I am indeed a professional in blasting, but according to the standards he said, there is no way. I think it is impossible. The shock wave is very large. How can it be so accurate? Unless you use a computer."

Everyone was a little puzzled when they heard this, did Qin Yuan want them to use computers? But if it involves computer precision, they won't be thrown on the mountain.

And according to what he said, it would have to continue tomorrow, which simply wouldn't work.

Zhao Yongtian picked up a stick in front of him and began to draw, but they have already tried all these solutions in these positions today.

"No, the angle you mentioned, we have tried three times today, but all of them failed. It doesn't work at all."

"Then what do you mean by that? Last week we've been building bridges, this week it's all been demolition, and we're not doing sapper work."

Everyone stared wide-eyed and didn't know what to say. After this incident, Zhao Yongtian trusted Qin Yuan very much, so he interrupted the conversation of several people.

"Okay, don't talk about those useless things. How to arrange the love song is his business, and I think it is absolutely useful. Now we should study how to explode."

"Hey, I said you kid has already been bought by him, it seems pretty good."

"It's not a matter of buying or not. Think about it, everyone. How can a person with such a great love song never be in vain? Therefore, there must be a reason for us to do these things. Think about it carefully. I don't want to be punished tomorrow. Come up with a plan immediately."

Yang Xiaohu also thought it made sense, but they had already tried these methods. How could such a powerful shock wave be able to protect the eggs?

Everyone discussed and discussed, and there was no plan. At this time, he simply turned around.

"Forget it, let's talk about it tomorrow morning, go to bed first, I've been tossed enough today, protect myself first."

When Zhao Yongtian heard the words "protect himself", his eyes lit up instantly.

"I see. Are you asking us to protect the eggs before blasting them? We put the eggs in that position every time. In fact, it is already very accurate, but the protection is not in place."

Everyone heard that this seems to be the case, because they have been adjusting the distance, but the shock wave of the explosion cannot be adjusted at this position. They have been adjusting the position of the explosion, but they have not adjusted the egg.

But this will have to wait until tomorrow morning to test, and now they don't have anything that can be exploded.

The next day, Qin Yuan and the others saw that Yang Xiaohu and the others had all assembled just as they came up.

"What? Are you guys ready to start? It's best to hurry up. If you still haven't researched the blasting plan today, then continue."

Zhao Yongtian smiled, made an OK gesture, and ran forward excitedly.

"Brother Qin, don't worry, we will have absolutely no problem this time."

According to their theory last night, everyone not only adjusted the position of the egg, but also added another layer of protection around the egg, which can be regarded as reducing some shock waves.

Because according to what Qin Yuan said, as long as the egg does not leave the kilometer range they blasted, they just readjust the angle.

Everyone stared nervously at the egg in front of them, Qin Yuan smiled, these boys finally got the hang of it, at least they knew how to adjust.

As the machine started, there was an explosion sound, and everyone rushed over. After the smoke cleared, the eggs were still intact, and everyone couldn't help cheering. After so many days, they finally saw the effect.

At this time, Qin Yuan walked in to look at the whole egg, and just said something symbolically.

"It's quite good, but the reaction is too slow. It hasn't been researched after such a long time. Now increase the difficulty."

After Qin Yuan finished speaking, he sat directly within the blasting range.

"Go, prepare to place it within the range I just pointed out. You choose a place to blast, but I'm sitting here, and you have to know for yourself."

Everyone was stunned when they heard this, what's going on! It's too dangerous for Qin Yuan to sit on the blasting place.

"Brother Qin, it's not appropriate to do this. We can't predict the shock wave of the explosion. What if we hurt you?"

"Do whatever I tell you to do, but if you hurt me, none of you will be able to escape. This is a matter for you to judge."

Everyone was in a dilemma when they heard this, how could this be such an explosion shock wave, no one had any way of predicting it, it was too accurate.

Zhao Yongtian turned his head to look at the old Liu who used to be a blasting professional, "Do you think it can be installed in this case? Can we be more precise?"

Lao Liu quickly shook his head, he had never tried to use a real person to directly hit it, it was too dangerous, and he had never done this before in his training.

"Let me tell you that such a shock wave is effective within this range and does a lot of damage."

Qin Yuan kept looking at the time like an outsider, and said, "Remember, you still have ten minutes, just ten minutes. You not only need to study the blasting plan, but also place the blasting equipment."

This is really too difficult. It really tests people's speed and psychology. In this case, they have to make quick judgments and accurately locate the point.

In the area indicated by Qin Yuan, he couldn't be hurt, but it was necessary to blast the target precisely.

"You have to remember this training, and you will encounter it in the future. If you encounter someone who is injured and trapped in a rock crevice, then you have to carry out precise blasting, don't you dare?"

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. However, the wolf demon is very talented and powerful, so if he faces the enemy head-on, he may not be the opponent.
