

## Special Soldier 1191

Chapter 1191: strange reflection

The question Qin Yuan mentioned is also the key point. As an armed police team, they have to deal with various emergencies at any time, especially rescue missions in various harsh environments.

As time passed, Qin Yuan no longer gave any reminders. After three or four days of blasting, he would have more or less experience, and this is what they should face.

This can be said to be another kind of assessment and training, "You have to remember, just like when you were sent to the battlefield before, although your team has not been formally established, this is an unexpected situation, and you will not be prepared for it."

Yang Xiaohu was a little confused, just like the rescue situation Qin Yuan mentioned, they had encountered it before, but they didn't blast so recklessly, but excavated bit by bit artificially.

He was very impressed with the last incident. At that time, they were still working together with the brigade. At that time, a villager went up the mountain to collect medicine and fell into a crack in the rock.

When the villager was found, he had already been trapped in the crevice of the stone, and his body was very weak for a day and a night.

Therefore, rescue must be launched as soon as possible, but everyone has found the best blasting experts, and no one dares to try, because they are worried that a secondary collapse will occur after the blasting.

In the end, there was no other way. Everyone could only start digging and rescue with bare hands, but when the man was rescued, the villager had died due to long-term oppression.

So when Yang Xiaohu thought of this matter, it was a pity at the time. Now the same problem is facing them, and now that Qin Yuan is sitting, it is simpler than the previous blasting, which is only a roughly standardized range.

The team Qin Yuan wants to build is omnipotent, they don't need to wait for any blasting experts, they can be their own experts, and everyone in it can be said to be omnipotent.

As time passed by every minute and every second, everyone hurriedly discussed where to place it. In this position, Qin Yuan could not be hurt, and the target must be accurately destroyed.

Qin Yuan originally wanted them to train by himself, but he was really worried. After all, he himself was fine, and his defense was hundreds of times better than these people.

Qin Yuan had already begun to remind them of the time, and there were still five minutes left. They were too late, so they looked at it one day, and finally discussed with Lao Liu to determine the final placement, and then everyone pushed it to the outside.

Zhao Yongtian couldn't bear it. After all, he was not sure whether the result was accurate, so he chose to stand with Qin Yuan, and other team members also came up at this time.

"What are you doing? Listen to my order and retreat outside the circle, within a safe range."

"Brother Qin, but you didn't even quit, and this was arranged by us. I think we are also responsible. I am willing to stand with you."

At this moment, Qin Yuan only wondered if these boys were stupid. When was the time, he dared to sit here because he was sure.

"Hurry up, this is an order!"

Everyone didn't dare to hesitate any longer when they heard this, and hesitated a little, but seeing Li Erniu waving at them, they could only retreat quickly.

According to the normal operation, they had to press the detonator after exiting, but everyone couldn't do it, and Li Erniu kept urging them.

"I said, what are you guys doing? Hurry up and press the button! Can you let Brother Qin stay in the sun for a long time?"

"Brother Er Niu, can this not work? Can you help us see if the position is accurate? Can you really press the button?"

"This is your own business. This is an assessment. Let me tell you, isn't that considered cheating? Judge for yourself."

Everyone was very conflicted, and felt that this position was too worrying, and always felt that it would hurt Qin Yuan.

"Brother Erniu, although this is an assessment, it is too dangerous. Brother Qin is there, what if we really hurt you, what should we do?"

The other team members burst out laughing when they heard this, these boys were really naive, "I told you all to stop writing, and press the button quickly, there really is no one who wants to hurt you Brother Qin."

Qin Yuan also kept giving gestures on the opposite side, telling them to hurry up. In the end, Zhao Yongtian simply closed his eyes and pressed the button directly.

As the button was pressed, there was a loud explosion on the opposite side, Zhao Yongtian stared intently at the dust, and ran over quickly.

The seat where Qin Yuan was sitting just now was completely shattered, and Qin Yuan also rolled to the side, and several people rushed forward to look for Qin Yuan.

This is a big play, this is what everyone thinks in their hearts, after all, such a big shock wave will definitely hurt.

Unexpectedly, Qin Yuan stood next to them unharmed, and then slapped Zhao Yongtian on the head.

"I said you brats, this arrangement is too outrageous. According to your calculations, this position is not rescuing hostages, it is killing hostages."

"Brother Qin, it's good that you are fine. We were so worried just now. The main reason is that I have never done such a thing. Everyone is not sure."

"Then what you have learned these days is for nothing? I asked you to carry out the blasting for three days. Could it be that you still can't sense the position and distance? Then you are still talking nonsense with me here."

Speaking of this, everyone realized that the blasting these days was not for nothing, but they had been studying how to prevent the eggs from breaking, and they put all their thoughts on it, so the distance is still far away. Didn't figure it out.

Up to now, there is no need for Qin Yuan to say anything, everyone consciously did push-ups on the ground, but the way Yang Xiaohu looked at Qin Yuan changed a little.

Qin Yuan's speed was really too fast, the explosion just now took four to five seconds, it was too exaggerated that he could dodge in such a short time.

Qin Yuan asked them to continue to study after the punishment was over. Before, they relied too much on electronics, relying entirely on the accuracy of the computer, but if they were performing some special tasks, there was no way to bring in electronic equipment like this, and they relied entirely on themselves. experience and judgment.

In this way, they practiced blasting for another two days. This time they could make a completely accurate judgment, at least much better than the beginning, and they could know the approximate range of impact at which point.

Qin Yuan's training method is also very unique. He simply let the players test one by one, leaving one player at the blasting point.

The people he trains, of course he knows everyone's level, and now he can let them try.

This training method is also the first time, the main thing is to make their external judgments the same as electronically. According to the training in the manual, when the time came to the last week, Zhao Yongtian also managed to stay. He has fully integrated into this collective team.

The original choice was indeed correct, Zhao Yongtian's abilities in all aspects are excellent, since he came back from the border, he has completely changed, especially his attitude towards his comrades.

He used to be arrogant, always thinking of being alone when doing things, but now he knows how to cooperate, knows the importance of the team, and will be with his teammates.

The training here is coming to an end, and Qin Yuan has to consider going to the next place. If the team trains successfully this time, this success also indicates that he can increase his merit points again. After two more visits, he can upgrade.

Recently, Qin Yuan always took them to train on the mountain. Seeing that the team's training was coming to an end, Qin Yuan planned to take them back together.

The detachment leader is already on the side of the brigade, ready to welcome them. Qin Yuan is taking them to a training camp in the snow mountain this time. Now the training of the whole team is almost done, and everyone is discussing a name for the team.

Everyone was chatting and laughing in the car, thinking about various names, "I think it should be called Thunder Team, after all, our speed is not a joke, we can attack at any time."

"Hey! Your brain is turning around quite quickly, yes, so let's call it this, but the rest of you can put forward any opinions, after all, it is still in the discussion stage."

While everyone was joking, Qin Yuan, who was sitting by the window, suddenly felt glared by some reflection, and he hurriedly told Qin Zhengyang to stop.

"What's the matter? Brother Qin, what's the problem?"

"Someone is using binoculars on the opposite hillside, or is using a sniper scope."

When everyone heard this, they hurriedly looked out of the window. Suddenly, He Chenguang pointed to the opposite hillside, "Is the grass on the two people over there very strange? They should be lurking snipers."

Yang Xiaohu looked in his direction, and indeed the two bushes were very abrupt, and it looked like someone was lurking there, but would it be too exaggerated to say a sniper?

"There should be no other teams in this area to zip here. If they do, we should know. After all, they are very large, or who is doing small training here?"

"If this is the case, I don't worry about it. What I worry about is whether there are some criminals lurking here?"

Thinking of this, Qin Yuan got out of the car to check. He stared closely at the location of the hillside. The people on the other side also spotted him, but neither of them acted rashly.

At first, Li Erniu thought it might be some kind of photography enthusiasts, and they would have reflections when they held binoculars in their hands, but after Qin Yuan checked carefully, he found that it was not because he had seen the clarinet.

This one is unusual, it is a bit different in nature, and several people walked down the hillside.

Just halfway through, the two bushes moved, shaking the grass, and two people stood out from inside, wearing camouflage uniforms.

But the camouflage uniforms they wear are different from those of any team in the military region. Even if they go out to perform missions, there is no logo on their bodies, but the camouflage uniforms do not meet their daily specifications.

Qin Yuan stepped forward and asked politely, "Two comrades, where are you here?"

"Comrade, I think you may have misunderstood, we are just amateurs, come here to have fun."

Hearing what he said, Qin Yuan couldn't help noticing the guns in the hands of the two of them. After a closer look, it turned out to be a toy gun, but the only difference was the sniper scope on the gun. This is not a toy standard, it is already military grade standard.

Seeing Qin Yuan staring at the gun in his hand, the man smiled and said, "Comrade, you may have misunderstood, we are toy guns, and we are usually military enthusiasts, so we come here to play. "

Hearing this, everyone breathed a sigh of relief, at least not what they imagined. After all, military fans like this are common, but Qin Yuan has been staring at the man's eyes. This man has definitely killed people and has been on the battlefield. It was too calm.

"Brother, I'm afraid it's not just military. It's not that simple. With the sniper scope in your hand, this thing is not easy to do."

"Hey, it's just a little worthless gadget. A friend brought it back to me from abroad."

In order to reassure Qin Yuan, the man removed the sniper scope and showed that the soft bullets in the toy gun did not pose any threat.

It's just that when he stretched out his hand, Qin Yuan grabbed his hand. This guy's hands were full of calluses. Then at this opportunity, Qin Yuan stretched out his hand and tore off the man's collar. Very visible imprint.

This situation is generally caused by long-term use of sniper rifles, especially at 1 km, the recoil is very strong, and long-term training and use will leave callus marks on the body.

"Are the two brothers also serving in some army, are they retired?"

"Comrade, it's too impolite for you to do this. We didn't do anything. What are you doing?"

Qin Yuan also felt that he was a little too impulsive, mainly because he felt a little sensitive when he saw this kind of thing, so he could only let go of his hands first, after all, the two people on the opposite side didn't do anything, but he always felt that these two people came. The road is not that simple.

"We're just ordinary people, can't we just come here? If you want to ask me this way, do I want to go somewhere with you to verify my identity?"

When the man was talking, he deliberately avoided Qin Yuan's eyes. This way he should know Qin Yuan.

Qin Yuan originally planned to use his own abilities to check whether there was any problem with the two of them. At this moment, the tall man next to him suddenly spoke.

"Comrade You don't need to be so serious, forget it, let us tell you the truth, we are hired members of the foreign legion in Yuan Kingdom."

Qin Yuan knew that these two guys would definitely not be that simple, "Then what do you guys want to do here?"

"But don't worry, you can investigate us at any time. We don't want to miss training after we come back from vacation. We just train ourselves in this place."

There seems to be no problem in saying this, and the other party also took the initiative to admit his identity. After all, everyone has his own ambitions. The mercenary group they mentioned belongs to a regular group, so there will be no problem.

Qin Yuan shook his head, thinking that maybe he was too suspicious. Just as he left, the two people behind him breathed a sigh of relief.

Chapter 1192: news from wells

"Hey! Tell me if you can fool him, but I feel like he almost did something to us just now."

"Who knows? These are all tasks they teach. If there is any way to do it, we were discovered before we even started."

"His vigilance is really too high. He is worthy of being a God of War figure. He ranks first in the list of killers."

The two whispered and shook their heads helplessly. Now that they have been discovered, it is useless to continue monitoring here. They are indeed from foreign mercenary groups. Their mission this time is to convince Qin Yuan.

Mainly one of the bosses of their group. Qin Yuan had something to ask, so they sent them to approach the group members, and then asked Qin Yuan to come out to help.

In addition, I would rather they set off towards the brigade after they came out. Everyone felt that it might have been an accident just now, but Qin Zhengyang was somewhat interested in such a foreign legion.

"Brother Qin, what's the difference between these foreign mercenary groups and the militants we usually see?"

"Boy, let me tell you, this difference is quite big. Let's put it this way, they are also considered to be a regular group. Although they are loyal to the mercenary service series, what they do is formalized management. It's also normalized."

This is different from those so-called armed criminals. Qin Zhengyang is even more puzzled when he says this, so why would they join the foreign mercenary group?

"What else can it be for? Isn't it just for money? Do you know how much their salary is? They are calculated on the basis of annual salary. Everyone has their own way, and we don't need to pay attention to it."

In this way, everyone returned to the brigade. The training results of this armed police team are nearing completion.

It can be said that this is a new development. Their armed police detachment rarely has a team like yours. Under the willingness to innovate, not only has such a team been established to complete tasks independently, there is absolutely no problem in terms of strength. complete trust.

Qin Yuan looked at the detachment leader's expectant eyes, and specially asked the team members to conduct a more in-depth assessment, and asked them to have a confrontation drill with the armed police soldiers in the detachment.

"Don't worry about Lei Detachment, the team I have trained can not only complete tasks independently, but also cooperate with the team."

"This is really great. In the past, we always had some risks of exposure when we operated in large groups. If there is a small group, we don't have to bother you every time."

The Lei Detachment is a little embarrassed to say this. After all, before any mission that was too unique, they would have their special warfare team cooperate to complete it, but now it is not needed. They also have an independent special warfare team in their own team.

For this assessment, the Lei detachment is looking forward to it very much, while Qin Yuan is full of confidence. Even if their number is several times that of this team, it is not a problem. His team has assembled rescue, blasting, search and arrest, counter-assault One team.

This confrontation exercise also added a demining project, which made everyone excited. Their commando team completed the mission brilliantly, and Zhao Yongtian's performance made everyone admire him. He was willing to stay in the rear at the last moment and give Other teammates buy time.

This performance surprised Lei Detachment very much. In his impression, Zhao Yongtian was a rebellious kid who looked down on anyone and rarely cooperated with his teammates so perfectly.

"I really didn't expect it, Captain Qin, I'm really curious, how did you train? People like him are trained to be submissive by you."

"Squad Lei, this one is an honor for you. Of course I have my own unique training method. Now that this team has completed training, there is absolutely no problem with the assessment, let alone the actual combat."

Just after the assessment here was over, Qin Yuan received the meritorious value rewarded by the system.

"Ding! Remind the host that 20,000 merit points are needed, and the system can be automatically upgraded."

This is what Qin Yuan wanted, and the corners of his mouth rose slightly. Regarding the establishment of the team, it is now a matter of confidence, and there will be many opportunities in the future.

This is nothing to worry about, but it has been such a long time, and there is no news from the side of the mask, as if it has completely disappeared.

In order to celebrate the establishment of the Thunder Assault Squad, the detachment leader prepared drinks in the brigade that night to thank Qin Yuan and the others.

Originally, Qin Yuan planned to leave, but they couldn't stand their enthusiasm. The detachment leader said something above, which probably meant to thank Qin Yuan for his training and create an independent team for their armed police detachment.

This is another innovation. Their armed police detachment also has its own independent team, which will make it easier to complete tasks in the future.

At this time, Qin Yuan suddenly received a call. He owed a debt, and when he got up, it was an unfamiliar number.

He just picked up the phone when he heard a familiar voice. He didn't expect it to be Wells. This guy had disappeared for half a year, and now he took the initiative to call himself.

"What's the situation? Where did your kid go?"

"Not much to say now, I will send you an address later, if you can, come see me as soon as possible, remember as soon as possible, I will stay here for a day at most."

"What's going on here? Is it inconvenient for you to talk over there now? And how do you think I can trust you? You kid disappeared for so long."

The main reason is that Qin Yuan is not sure what kind of tricks this kid is playing. If it is a trap, because his current merit points have not been fully upgraded, and the system cannot be upgraded, so he is still afraid of the masked man.

And the main problem is that, like last time, if he is controlled again, the masked man will never give him an easy chance to escape.

So Qin Yuan could only become more cautious. He could be said to be fearless before, but this time he could only be cautious.

The voice of Wells on the opposite side became more and more urgent, as if he was very afraid of something, he lowered his voice.

"Do you think I will ruin your future? And I called you last time. Do you think I'm going to harm you, so is it necessary to remind you?"

Hearing this, Qin Yuan can basically confirm his conjecture. Last time, he suspected that Wells had tipped him off, and it seems that this is indeed the case.

After hanging up the phone, Wells sent an address telling Qin Yuan that he could only stay for one day, and asked Qin Yuan to find a way to find him, because he had important news to report.

Qin Yuan checked that the address was in a foreign country. If he rushed over from here, he had to leave now, otherwise there would be no time.

The detachment leader on the stage was still talking endlessly, and waved Qin Yuan to come on stage to say a few words. Unexpectedly, Qin Yuan ran over and whispered a few words in his ear with a serious face. The detachment leader understood immediately.

"Don't worry, I'll send you a car now. I'll let Xiao Liu from here accompany you. He's a good driver."

Qin Yuan just made an excuse, saying that he had a separate mission, so he needed to borrow a vehicle and was leaving now.

It's not very far from the border area by car, and he can enter directly from there.

"Lei Detachment, don't bother. I can go alone. After all, this mission is quite special, so I can't explain it in detail."

Of course he only understands this. He knows that Qin Yuan and his special forces team will always have some secret missions, and these things are not for him to ask. He nodded repeatedly and asked Qin Yuan to leave quickly.

After a while, a military jeep stopped at the door, and Qin Yuan waved to He Chenguang.

"Now I have something to deal with, so you stay inside their detachment, don't worry, I think I'll be back within three days."

"Brother Qin, is it convenient for me to ask what's the matter? Do you need help from the brothers? If necessary, we all go together."

"It's okay, I will take care of this matter myself, and you all stay here first."

Seeing his attitude, He Chenguang knew that this was not something he should ask himself. He nodded and watched Qin Yuan drive away.

Qin Yuan's speed has reached the fastest speed, he doesn't want to miss the mask, it's rare to hear any news, and 23's memory in China has never been recovered.

He said before that it would only take a month, but it has been so long now, and he still can't remember where the masked man is hiding.

So this may be his chance, and he will never give up any chance.

Wells is currently in an abandoned small building. Too many things have happened in the past few months, so he has no chance at all, and he dare not contact Qin Yuan. It was found on his head at one point.

However, because of his quick response, he successfully blamed this matter on other people, and escaped the catastrophe, but at that time he had already aroused some suspicion.

As long as there is any doubt in their organization, they will be tortured severely. The punishment of the organization is very serious. Fortunately, he has persevered. He has been in the water prison for three months.

If it weren't for his immortal body, Wells would have been gone a long time ago. When Wells thought of those, he couldn't help shivering. The smoke in his hand had burned to the end, and he realized it.

A person next to him slapped him on the shoulder, "Brother, what's the matter? You have to pay attention, the following said that the target person will pass by in three hours, so we must hold on tight."

Wells nodded and forced a smile, "Don't worry, I won't drag you down. I've been watching, but I just thought of something else."

"That's good. You have to be clear about the mission this time. If there is any mistake, none of us can escape the punishment of the organization."

Another man wearing a mask next to him also became vigilant. The task this time was that the three of them were a secret operation.

They need to snipe and kill the boss of another gang member. Small tasks like this will be accepted within their organization, which can not only train them, but also build a certain reputation for the organization.

It was also because of this mission that he was able to get out of the organization and temporarily escaped from the organization's monitoring, so he had the opportunity to get in touch with Qin Yuan.

Because after dealing with this side, he needs to rush to another place to deal with another small boss, so he can meet Qin Yuan in that short time.

At this moment, he is thinking about the time in his heart. Every minute and every second, he must be precise. After he gets there, he will retreat quickly after finishing the little boss. On the way to retreat, he will pass by Qin Yuan. that location.

Fortunately, the task this time is not difficult, and the two people next to him are equipped with systems, so it is not a problem for such a chase.

After the assassination here is completed, he needs to go to the other two people in batches to assassinate other small bosses. He is responsible for another target.

Just as he was about to leave, the man who had spoken to him stopped him.

"Wells, remember your mission. We must gather at the assembly point at 8 o'clock tomorrow morning. If you are one minute late by then, we will go straight."

"Don't worry, I will never drag you down, I have said many times."

After Wells finished speaking, he left without looking back, and the two who had just performed the task were whispering behind them.

"No way, don't remind him. If something happens to him, we will be punished by the organization when we go back. Have you forgotten the person who performed the mission with him last time?"

"It's really unlucky to perform missions with such a person. We have to pay attention to everything we do, otherwise we will really be dragged down by him."

"Forget it, I have already warned him. If he doesn't listen, there is nothing we can do. Let's complete our task as soon as possible. Remember, we must gather at eight o'clock."

Wells ran very fast, he didn't care what the people behind him were saying, because now he had to hurry up and deal with the little boss, and then go to the place he said before to find Qin Yuan.

On the other side, Qin Yuan had already arrived ahead of time, and he did not see Wells at this location.

But this is beneficial to him. He can observe the surrounding environment when he arrives in advance. So far, there is no ambush. It seems that Wells did not lie to himself.

Qin Yuan lowered his hat and sat on the opposite step. There were people coming and going here, so he didn't notice him.

He didn't know why Wells chose this place. The flow of people here is quite large, but there is a problem that if there are too many people, some things hidden in it will not be seen, and it will be easy to find.

Qin Yuan looked around. On this street, apart from coffee shops and bookstores, there is also a photocopying shop. There is a machine at the door of the photocopying shop, which is humming.

After more than an hour, Qin Yuan kept raising his watch. He was just worried that something would happen to this guy, right?

Chapter 1193: 20,000 merit points!

At this time, Wells ran over from a distant mountain. He had changed into a suit of clothes, his weapons were completely hidden, and he was carrying a leather bag.

After not seeing Wells for a long time, Qin Yuan felt that this guy had lost a lot of weight, as if he was very weak.

As soon as he came over, he noticed Qin Yuan on the steps, and made a gesture to him, and the two walked into the side alley.

After walking into the alley, Qin Yuan kept observing, and after confirming that there was no problem, he said, "What's the matter with you? Why are you in such a hurry to invite me?"

"Time is running out now. I only have ten minutes. Let me tell you, we have a new leader over there now. In addition to the masked man, there is also one of his personal assistants who is new."

"Is there any connection in this?"

"That's not the point. The point is that the person has the system ability, which is the audio that can control you before."

what!

Qin Yuan was very surprised when he heard this. You must know that the masked man was relying on the equipment before, but he didn't expect to bring a person who can control the audio with him now.

If this is the case, then the situation is very dangerous. After all, he has experienced that kind of audio. As soon as he touches it, all his abilities will disappear.

Qin Yuan frowned. The news was indeed timely, but he didn't know how to solve it for a while.

"What is the origin of that person? Can you tell me the specific location? I can go and check."

"I'm telling you to keep you on guard. Don't show up for now. They're already looking for you everywhere, and they've already issued a killing order within the organization. As long as we find you, we'll all have rewards."

This guy talked a lot out of breath, and he probably introduced the mysterious person. The audio on that person can not only control Qin Yuan, but also have the same effect on other people. They used this method to control more people.

This is also the reason why Wells wants to cooperate with Qin Yuan. He is more eager to be stronger. He has already obtained this ability, and he does not want these abilities to be taken back again.

He talked a lot about the situation over there, and then looked at Qin Yuan with hints in his eyes.

"I'm providing you with so much information, you should also give me some benefits. Don't forget the last time I reminded you, do you know? That time I reminded you that I almost died in it."

Qin Yuan smiled, this guy is not for his own benefit, but such a person has his own benefit, but he can use it, he didn't say anything, and gave him something, so that his speed and strength can be obtained strengthened.

"Why don't I feel obvious progress this time, are you lying to me?"

"Am I lying to you? You will know after the interview. Your current speed is ten times faster than that of ordinary people. Do you want to be like me so that you can be easily suspected by others? I am here to protect you. you."

Wells rolled his eyes, he didn't know what to say for a while, but what he was willing to say seemed to make sense.

"Okay? If there is any news later, I will definitely inform you, but next time I hope I can get stronger power."

"By the way, what do you mean by the chase you just said?"

"He is now using cloning technology to be by his side. That man has been restrained by him in the same way, and he has restrained more than a dozen. He spreads in our organization, and they are everywhere. This is also to deal with you."

It seemed that the situation was even more serious than I imagined. The masked man really did everything he could to deal with him.

After the two chatted briefly, Wells kept looking at the time. He couldn't miss the time, otherwise it would arouse suspicion again.

"Remember what happens next, I will contact you, don't worry, I will give you information, but I just want to get what I want, you'd better not break the appointment."

"Don't worry, there are still many things that can be given to you, and they will continue to flow."

Wells just nodded, and then quickly ran towards the outside, his time is very tight, he must arrive at the assembly point at 8 o'clock, otherwise he will not be able to catch the plane.

After a few minutes, Qin Yuan also came out from the alley, his face was serious now, this news was not good for him.

He looked around vigilantly, and this time he summoned the system, mainly because the system's ability could make him more vigilant, and he absolutely couldn't get close to such a person.

In addition, Wells also told him another clue. The masked man is planning another conspiracy. This conspiracy is very large, and it is estimated that it will provoke disputes between the other two countries.

On the one hand, the main purpose of this conspiracy is for their own benefit, and on the other hand, it can also attract Qin Yuan, because if there is a war between the two countries, then Qin Yuan and the others will definitely carry out the evacuation operation. At that time, the masked man seized this opportunity and found Qin Yuan.

Qin Yuan just wants to quickly increase his merit points, and then upgrade the system. Once the upgrade is completed, he will no longer be afraid of that voice.

Because thinking about the previous events, Qin Yuan was in a daze until when he was driving back, he received a call from He Chenguang. Usually, He Chenguang would not call him when he was on a mission.

"What's wrong? Is there something wrong with the team?"

"No, Brother Qin, do you remember that we found two people on the hillside before? They were sneaky these two days, and now they appeared near the armed police detachment. We found them when we went out to patrol with them. "

He Chenguang's vigilance has increased a lot now, and he is very impressed with those two people. If they met by accident before, it can explain the situation.

But now they are found again near the armed police detachment, which shows that they definitely appeared on purpose. I don't know what their purpose is, so He Chenguang called to remind them.

"Okay, I see. Don't act rashly. I'll be back in an hour at most. Let's talk about it after I come back."

One wave after another, the matter over there has not been resolved, and these foreign mercenary members appearing here are looking for me again, what do they want to do?

Qin Yuan knew very well in his heart that it was impossible for them to appear there without saying anything. There must be something going on between him and them, which was very strange.

When Qin Yuan arrived, He Chenguang hurried up to meet him. He leaned on the window and pointed to the hillside in the distance.

"Brother Qin, they have already left, but they were always there yesterday." Gu Lan

"Does the detachment leader know about this?"

"He shouldn't know, because I didn't report it to him, and you said it, so I kept it a secret."

"Okay, you've done a very good job. I don't want these messy things to involve them. Since these people want to find me, then I'll see what they are going to do."

Qin Yuan had nothing to fear, and when he got close to these two people, the system didn't give any hints, even if ordinary mercenary members didn't have any systems, such words were not enough to pose any threat.

It is really too easy to find these two people. The reason why they appear here must be stationed here, and it is not a problem for them to hire members to spend the night on the mountain before.

Qin Yuan and the detachment leader returned the car after thanking them, and then found an excuse to sneak up the mountain. He planned to handle this matter himself.

The matter of the masked man disturbed him, and now he has to be vigilant at all times, so he needs to deal with these small matters as soon as possible.

At this moment, the two mercenary members were lying on their stomachs in a cave, and a fire was lit in front of them.

"Old Zhang, when do you think we will be big these days? There is no way for us to squat down like this. I feel like their team members have discovered us."

"But we haven't seen their captain all this time, so we can't go back empty-handed like this? This time, they came with a mission, so it's not very good to go back empty-handed like this."

"You've seen that guy's tricks. I don't dare to provoke him. If there is any misunderstanding, we will all have to explain it here."

The two sighed silently, what can they do now? They wanted to tell Qin Yuan, but they had to find a way to get close to Qin Yuan and tell him that this matter should not be known to others.

"I think it's better to do this. I'll go to him directly tomorrow. Anyway, it's a knife, so let's be more direct."

As soon as the man finished speaking, Qin Yuan's voice sounded from behind, "Oh, brother, I don't know what you are looking for me for."

The two got up quickly when they heard the voice, and instantly reached for the weapon at their waists, but Qin Yuan was faster than them, and he took the man in front of him under control with one hand, and the knife in his hand was pressed against the man's throat .

The two were taken aback for an instant, and the man under control broke out in cold sweat. It can be said that they didn't hear any movement, which is absolutely impossible.

The two of them have served abroad for so many years, and they have performed various tasks on the battlefield, but a big living person walked in, and they didn't even notice it.

"You! How on earth did you do this? There is no sound at all."

"Is it hard to be silent? And I can say this, I can kill you both without making a sound."

These words came out of Qin Yuan's mouth so calmly, both of them felt shudder, and the uncontrolled man quickly explained:

"Don't do it, we don't have any malice, just want to ask you for a favor."

Qin Yuan didn't like these two people at all. With their three-legged cat skills, they wouldn't hurt himself. He snorted coldly and let go of his hand. The man lay on the ground coughing violently. Just for a moment, He was controlled by Qin Yuan.

"I said you have the nerve to come to me with your strength. My team members have discovered you, don't you know?"

It was a bit embarrassing to say this, and Lao Zhang coughed slightly.

"Mr. Qin, I know that our strength is indeed not as strong as yours, but there is no way to do it. We just have different goals, but we are all from Yan Kingdom."

Qin Yuan only thought it was funny, and now he was playing the emotional card for himself. He didn't have much respect for these people, but he didn't have a good impression of them either.

"Forget it, don't talk about other things. I'm not very patient. What are you looking for me for? Tell me directly."

When Lao Zhang heard this, he quickly explained that they had no way to receive the task of the group. This time, they came to Qin Yuan and asked him to help rescue the daughter of the boss of a group.

"Don't you think it's funny for you to say this? Why should I go to help you and say it again, what does the daughter of the boss of your group have to do with me?"

"Mr. Qin, don't be in a hurry to refuse the conditions promised by our boss. If you can rescue his daughter, he will give you 100 million."

To be honest, this condition is very attractive to most people, but Qin Yuan is not interested at all. He wants to avoid going to foreign regions as much as possible now, because the masked man has been chasing him.

Besides, he is indeed not short of money now, but he didn't expect that the man's words should be dropped, and there was a prompt sound from Qin Yuan's system.

"Ding! Remind the host to trigger an accidental mission and rescue the daughter of the boss of the group, and you will get 20,000 merit points!"

Qin Yuan was stunned for a moment, the reward for this mission was so high, usually he could get thousands of meritorious persons, but this time he saved one person and it reached 20,000, which further shows that the goal of this mission is very difficult.

And what's more important now is that he really needs these merits. Especially after receiving the news from Wells, he is even more eager to make himself stronger quickly. After the system is upgraded, he will no longer be afraid of that voice.

Otherwise, he would be in fear every day. According to his current training, it would take at least six months before he could train two teams and get the 20,000 merit points. Otherwise, there would be no other way.

After thinking it over and over again Qin Yuan didn't reveal his true thoughts, after all, this is the capital of the negotiation, he pretended not to care and asked:

"Since the conditions are so generous, there are so many capable people in your mercenary group, why don't you fight for them yourself, instead come to me?"

Having said that, Lao Zhang smiled helplessly, "Mr. Qin, let me tell you the truth, not only did our group send seven teams for this mission, but none of these seven teams survived."

Although the abilities of these mercenaries are not as strong as their red blood cell team, they are not so weak. I didn't expect that none of the seven teams came back. What is going on?

Speaking of this, Qin Yuan was a little curious. He urged the man to explain the specific situation in detail before he considered whether to accept the task.

Hearing what Qin Yuan meant, Lao Zhang instantly felt hopeful.

Chapter 1194: can go with you

"Is what you said true? Mr. Qin, I am here to tell you seriously that we really want to seek your help, and the remuneration is negotiable. The remuneration offered by our boss is much richer than this." gone."

"Don't talk nonsense, I'm not interested in your so-called rewards now, just tell me the truth about the situation."

Lao Zhang nodded repeatedly when he heard this, and then he talked about the specific things. After that, their mercenary group is indeed formal and relatively well-known.

That's why they chose to be in this group. On the one hand, their salaries are generous. On the other hand, they will never get entangled with other militants. They mainly serve some small countries.

But because of this, they also offended a local gang leader during a mission. Because they were performing missions in that country at that time, they moved the gang leader's people, and the gang leader has always had revenge.

It's just a pity that he didn't have the ability to deal with the entire mercenary group at the time, so this guy played a black hand and directly beat up the daughter of the boss of their mercenary group behind his back.

In this way, the daughter of their boss was kidnapped, and she has been missing for a whole month now, but there are videos sent every day, and the boss of the mercenary group has to prepare 300 million US dollars.

Not only that, but he needed two elite mercenary squads in exchange for such a condition, which is too exaggerated. How could the boss of this mercenary group compromise like this?

But he sent several teams one after another, but he didn't expect that they all disappeared mysteriously after entering that territory, and they have completely cut off contact.

When Lao Zhang said this, he was also frowning. To be honest, they were all out for money, but this time the action was too risky. They were almost sent there at the time. In the end, the boss of their group also knew it. It seems that the strength of the other party is too strong. , he could only seek help from the outside.

The people on his side couldn't do anything about that leader, and the teams sent out one after another had completely disappeared, so he put his hope on Qin Yuan, because Qin Yuan's reputation was reputable.

The crux of the problem is Qin Yuan, but how could Huaxia's special forces help him? The last leader can be regarded as offering generous conditions, 300 million US dollars is not a problem at all, any amount of money is fine.

Now he not only wants to rescue his daughter, but also wants to take revenge, their mercenary group. It is also relatively well-known, this time it really suffered a dumb loss, and was screwed by a local snake.

The boss of the group sent someone out to look for Qin Yuan, trying to persuade Qin Yuan to help them, but Qin Yuan couldn't help them in vain. The two had no choice but to lurk around and observe the situation first. The thought was exposed just at the beginning.

When Lao Zhang said this, he sighed helplessly, "Mr. Qin, to be honest, you definitely have the strength to help his daughter out. We really admire you from the bottom of our hearts for the two hands you showed just now."

"But the crux of the problem now is not here, but why I want to help you. After talking for a long time, you still haven't mentioned the key points. Do you think I'm easy to lie to the seven teams? Why are you cutting off the news so easily?"

In fact, the focus of my willingness to pay attention is on these seven squads. You must know that the mercenary group they belong to is the largest mercenary group in the country, and all the elites are there. These seven squads disappeared without a trace after entering. It is absolutely impossible.

"And as far as I know, when it's your turn to be mercenaries, they are basically retired from the elite troops of various countries. They are not bad at all. How could they all disappear?"

Lao Zhang was a little excited when he heard this, and it seemed that he was willing not to believe him. He hurriedly patted his chest to ensure that what he said was the truth, and also took out the documents they had received before.

Their files are all sent to the special mailbox, and they click on the microcomputer to view it, and all of them are the missing list of that team.

Lao Zhang turned on the computer screen, then pointed to an area on the map and said.

"This place is the old den of the boss, but the terrain of this place is very steep, surrounded by mountains, there is no way to go up, there is only one way out."

Qin Yuan carefully observed the map. This map can be said to be very crude, at least more than ten years ago.

"Are you sure this map can still be used now, besides, how do you know that other places can't be accessed?"

"How can I lie to you? We have already thought of so many ways, and those teams also want to climb up from the cliff behind, but the cliff is too steep, and there is no place to go up."

They also tried to use paragliders or drones, but of course there was no way, because the target was too big, and their fourth over there was condescending, and they would detect any movement in the air.

When Qin Yuan heard this, he also began to think in his heart. The 20,000 meritorious value is not a small amount. The most important thing is whether he wants to take this risk. Now what he knows is that the masked man is chasing him around with the mysterious man.

But this adventure is directly proportional to what he gets. If he gets 20,000 merit points, then he doesn't have to worry about the masked man at all.

After thinking about it for a while, he finally made up his mind. The risk of such a high merit value must be great, but as long as he bypasses the masked man, it will basically not be a problem.

"Well, you give me a day to prepare, I have to explain to the team, and then I will go with you."

Lao Zhang's eyes lit up instantly when he heard this, and finally there is hope. They have been out for more than a week this time, and the higher-ups are constantly urging, because the boss of the group is being tortured every day, and every day there Sent the video, so the people above have been urging them.

They were all worried that this task would definitely not be completed, but they didn't expect this time to usher in a turning point. Lao Zhang quickly stood up and took Qin Yuan's hand.

"Mr. Qin, don't worry, the remuneration I mentioned just now is only on my side. After you go there, you can discuss it with our boss in detail."

Qin Yuan smiled, he was not interested in remuneration or anything like that, what he was most interested in now was meritorious service, after saying goodbye to the two, he agreed to come to find them after finishing the affairs there, and then go out together.

As for the red blood cell team, he has nothing to worry about now, and he can just find an excuse to keep them in the detachment, just say that they are consolidating the strength of the newly formed Thunder commando team, and these are all fine.

As soon as he entered the dormitory, Li Erniu rushed to greet him, after all, everyone had heard about the two people nearby.

"Brother Qin, is there something wrong with those two guys? I wanted to ask you just now when you went out."

"Boy, none of you are asleep. It seems that your alertness is indeed much higher than before. You didn't notice anything when I went out before."

Li Erniu scratched his head in embarrassment, he didn't know what was going on, anyway, his alertness had increased a lot recently, not only him, everyone seemed to be the same.

The main reason is that Qin Yuan has already improved their bodies by using merit points, so the problem is not big. Qin Yuan looked at them and said directly:

"Brothers, now I have some personal matters. I need to deal with them. You stay here for the last two days and you can continue to help them consolidate. I will tell you the specific training methods."

"Brother Qin, is it really about those two people? Do you need any help? Let me know if you need it, and we can all go out together."

"It's nothing, you don't have to be so nervous. If I really needed help, I would have spoken. I'm not that kind of person, but it's best for you to stay. I don't want other people to know about this. Do you understand?"

He Chenguang nodded. He was clear about this, because Qin Yuan did have a lot of things to deal with, including the last time, and it was not their business to ask about them. Anyway, he knew that what Qin Yuan did was definitely not a bad thing.

After explaining clearly to the team members, he went to the detachment leader's office to explain the situation to him at dawn, probably because he needed a basic retraining for the remaining team members.

However, he had other tasks himself, so he had to leave first. Of course, the detachment leader didn't ask too much, after all, everyone knew what they were doing.

"Captain Qin really doesn't know how to thank you this time. The establishment of this team is really of great significance to our armed police detachment."

"You're being polite when you say that. We are all brothers. Besides, it's just a small favor. Don't worry, it's absolutely fine for my brothers to stay here. They are no worse than me."

"Hahaha, can I still feel worried when you say that? You can rest assured, just say something if you have anything to say."

After saying hello, Qin Yuan left. He came to the cave last night. Lao Zhang and Liu Yong were waiting for him. They saw that Qin Yuan did not break his promise, and their eyes shone with excitement. There is absolutely no problem with the task. They have wasted such a long time, so they can go back and explain it.

"Captain Qin, I have to say that you can really do what you say, which really makes us admire."

"It's nothing, I just want to see what kind of person it is. Since even you guys can't figure it out, I'm very interested in such things, and it's challenging."

In this way, the three of them set off together, and after getting off the plane, an exclusive vehicle came to pick them up. On the way, Lao Zhang was enthusiastically introducing the specific situation of their group.

To be honest, this is the first time that seven teams have completely disappeared like this. It can be said that these seven teams have been completely lost.

Lao Zhang felt a little regretful when he said this. Although everyone came out to work for money, it was really weird that all the people in the seven teams were completely dead.

Qin Yuan also felt a little strange when he heard this. What he had suspected before was this point. These people are so capable, and they would send signals no matter what, or have other measures. How could they disappear completely?

"Wait a minute, what I'm more interested in is the situation of the seven teams you mentioned. What does it look like?"

Lao Zhang hurriedly introduced it. It was strange to say that the seven teams entered in batches, but just like the gourd baby rescued the grandfather, one disappeared and the other disappeared completely. No one has found anything so far.

"Did they all enter through the same entrance?"

"No, three teams entered from the entrance, and the others planned to enter from the cliff, but as soon as they got close to that area, the signal was cut off in an instant. We are carrying the most advanced equipment in the world. It seems that there is nothing wrong with it. use."

Qin Yuan frowned solemnly when he heard this. It was the first time he had heard of this situation, but the specific situation will wait until he meets the boss. After all, it is not so fast.

In this way, after going back and forth several times, they came to an independent villa, and outside the villa were armed men with live ammunition.

As soon as he entered, a person stood up in front of him and demanded that Qin Yuan hand over his weapon.

Lao Zhang hurriedly stepped forward and scolded, "What the \*\*\*\* are you doing? Mr. Qin is our guest, so can you take him in? This is an order from the boss, get out of the way quickly."

The people in front nodded quickly when they heard it, then stood to the side, and made a gesture of please. After Qin Yuan walked in, he found that there were surveillance cameras everywhere, and there were a lot of security personnel, basically standing at a distance of two or three meters. with a person.

Lao Zhang explained next to him, "Mr. Qin, don't mind, the main reason is that our young lady was kidnapped before, so the security here has also been strengthened, and it is definitely not against anyone."

Qin Yuan nodded, he didn't think much about it, besides, he really didn't pay attention to this little person.

After they entered the villa, under the guidance of Lao Zhang, everyone entered a living room. The decoration inside can be said to be magnificent, with golden glitter everywhere.

A waiter came over and directed them to sit down first, and then served some tea and snacks.

"Mr. Qin, although our boss is a foreigner, he knows our eating habits, so let's wait a bit He will come out soon."

After a few minutes, a blond-haired man came out from the inner room. The man's nose bridge was high, with clothes hanging on it, and gold-rimmed glasses. It was hard to imagine that this was the boss of their mercenary group. He looked like a knowledgeable man. Molecules are the same.

The man didn't have any airs, he was very polite, and he was the first to say hello when he came over.

"Hello, is this Mr. Qin? I'm Jelson, the person in charge here."

Since everyone was so polite, Qin Yuan stood up and shook hands with him without putting on airs.

"I've heard of Mr. Qin's name a long time ago. I really didn't expect that we could meet here."

When Jelson said this, he was actually beating drums in his heart, because Qin Yuan's image seemed to be different from what he knew.

Chapter 1195: 1 action

He thinks that God of War should be the kind of tall and thick, but Qin Yuan is not that tall compared to the bodyguards behind him, but the bodyguards around him can be considered carefully selected, nearly 2m tall.

Looking at Qin Yuan again, it seems that his attire is very ordinary, just a set of training uniforms and sunglasses, which always feels impolite. This time, Jelson is asking him to, so it's hard to say anything. .

And the two bodyguards next to him also showed disdainful expressions when they saw Qin Yuan, thinking that this kid is too pretending, why don't he wear sunglasses in broad daylight.

Qin Yuan also greeted with a smile, "I have heard too many things from your subordinates about the specific situation, and I don't want to understand it. It's a bit troublesome. I only have one condition. I don't need anyone. As long as I Just go by yourself."

Everyone felt a little unbelievable when they heard this, this kid is completely crazy, hasn't he heard of it before? After the mercenaries of the seven squads entered that area, they were all completely disconnected. Now he actually asks to go alone. Is this crazy or something?

In addition, these words are too arrogant. Jelson tried his best to suppress his anger. Now his daughter has been kidnapped for more than a month, and the so-called God of War brought back by these two people always makes him feel unreliable. Spectrum.

Qin Yuan could see disbelief in his eyes. After all, he had never dealt with these people before, and most of them had only heard of him, so it was normal not to know.

"Mr. Qin, I don't mean to look down on you. I'm just curious about that place. Their leader has established a military base there. There are probably six or seven hundred people there. How can you get in by yourself?"

"You don't need to worry about this, you just need to be responsible for paying the money, and I am responsible for bringing people back to you safely, besides, bringing other people is a burden."

The bodyguard next to him was unconvinced when he heard this before Jelson could speak. He stood up and pointed at Qin Yuan and said loudly:

"What's so arrogant about you kid? It's up to you. Is it really possible? Let me tell you that maybe you are very famous in your local area, but this is not your local area. There are everyone here!"

"Hahaha, it seems that you don't believe me!"

When Qin Yuan said this, he deliberately looked at Jelson. This guy was obviously his bodyguard, but he didn't stop him. It seemed that he was using the bodyguard's mouth to question himself.

The bodyguard was still chattering beside him, after all, his body was a head taller than Qin Yuan's.

Old Zhang next to him broke out in a cold sweat from the fright, what the \*\*\*\* is their boss doing? The two of them had come here with great difficulty after traveling thousands of miles.

Lao Zhang hurried forward and lowered his voice, and said next to their boss: "Sir, we hired him with great difficulty, and his skills are really fast, I'm worried..."

Unexpectedly, Jelson waved his hand, indicating that he doesn't need to say any more. It seems that this guy really doubts Qin Yuan's identity, and is worried that the two of them will find someone to fool him.

Qin Yuan has long seen the eye contact among these few people, isn't he just doubting himself? Then prove it to them, since I don't want to waste time anyway.

Qin Yuan's speed was very fast. Before the bodyguard could react, he rushed forward and grabbed him and pointed at his hand, and then followed his shoulder. It hit the marble table next to it.

At this time, the bodyguards on the side also rushed up, but Qin Yuan turned over, kicked him on the chin, and then punched him hard, the bodyguards didn't expect to look in front of them. The strength emanating from a strong man without him is so powerful.

He couldn't take it at all, so he only used three moves, and the two bodyguards next to him fell down directly. At this time, people outside rushed in when they heard the movement.

The man with the assault rifle in front just came in, and the throwing knife in Qin Yuan's hand was thrown out, faster than his gun, but the man's hat was given to fly on the wall behind, everyone recited this scene Completely stunned.

Jelson also broke out in a cold sweat in an instant. You must know that his two bodyguards had won world championships, and their backgrounds were not small. He didn't expect to be subdued by Qin Yuan with his bare hands.

"Let's all go out, there's nothing to do."

"Yes, sir!"

The people who rushed in just now retreated silently, Qin Yuan played with the throwing knife in his hand again, and then sat on the sofa, crossing his legs.

"How? You've already seen my strength, and I'm just showing off a little, and to tell you the truth, if I really want to do something, you don't have enough people here for me to kill."

Although these words were arrogant, Jelson also thought of some of Qin Yuan's previous achievements, which he had personally seen.

This guy quickly put on another smiling face, and then complained: "Mr. Qin is very sorry, this is my rudeness, I didn't expect my two bodyguards to be so impulsive, everything is a misunderstanding."

Anyway, he said what to do, just push him on the bodyguards. Two bodyguards were smashed on the marble table. Yuan's punch directly broke his ribs.

Jason's attitude towards Qin Yuan also changed immediately, and he began to introduce the specific situation to Qin Yuan.

He took out a computer, and clicked to play. It was full of videos sent by the leader during this period. In the video, a six-year-old girl was sitting on a chair.

This little girl was Jelson's daughter, Belle. He had been locked up for a whole month, and besides his daughter, there was also his wife.

In the video, the little girl was just frightened, but not injured.

The moment Jelson saw the video, his eyes were still full of worry.

"Mr. Qin, I don't know if you have children, but you should understand my heart. I'm really hard. I have sent so many people, but there is no news at all, so I thought of you. Don't worry, Whatever conditions you want, just ask, and I will definitely meet them."

Qin Yuan interrupted him. Now he is not interested in any conditions, but he didn't say that his wife was also brought in.

Because his system only mentioned bringing his daughter back and did not mention other people, so he was a little strange. Generally, the tasks accompanying the system were related to himself.

"Wait a minute, you said your wife was also taken away, what's going on? Are there any other videos?"

Jason nodded, and quickly searched for it. For a long time, his wife had only one video.

In the video, the woman was placed on a film with a black hood and was receiving electric shocks. The woman's screams resounded throughout the room, which sounded horrific.

"This has been the only video of my wife in over a month, but he should be alive."

It was very painful for Jelson to say this, after all, he couldn't even protect his wife and daughter.

"Mr. Qin, no matter what, I really pray that you must rescue them, and I will give you 300 million rewards."

Because he was going to pay the ransom for the 300 million yuan, but as long as Qin Yuan rescued his penguin, all the money would be given to him.

Qin Yuan nodded, and then checked the content of the video. Basically, the videos were all shot in one room, including where the little girl was.

"By the way, I have another question. Since it's been such a long time, they haven't made any other requests. Is it just going to continue like this?"

Jelson was very excited when he heard this, "Because those \*\*\*\*\* wanted to torture me on purpose, because our mission killed his son at that time, so I knew very well that even if I paid him the money, he would not give my daughter to him." Let go."

Hearing this, Qin Yuan finally understood. No wonder these guys were able to drag on for so long without doing anything. Apart from mental torture, they also wanted to treat his wife and children as permanent bargaining chips.

The situation here is pretty much known, and Jelson also showed him other materials, mainly about the situation of the leader of the organization.

Qin Yuan took a closer look, but he didn't expect that he was an old acquaintance. This guy had been a pirate before, and was wiped out by Qin Yuan at that time, but that guy was not famous at that time, so he escaped directly.

Qin Yuan was deeply impressed, he was very clear about everyone he came into contact with.

Since they are all acquaintances, there is no problem. I am absolutely sure. Besides, what are these five or six hundred people?

"Mr. Qin, when can you do it? How many people do you need? I'll send you right away."

Qin Yuan shook his head, he doesn't need anyone at all now, he still has that condition, he only needs him alone, and if there are too many people, it will become a burden.

He just asked for a sniper rifle, and he didn't need anything else. Anyway, the most powerful weapon after he entered was himself. His melee combat could kill people instantly, including his throwing knife and poker skills.

Jelson was stunned when he heard that Qin Yuan only needed a sniper rifle. How is this possible? Their military base is heavily surrounded, and there are so many people inside, how could it be possible?

"Mr. Qin, I need to confirm with you again. Can you really help me? My wife and daughter are really important to me. I don't want them to suffer any harm. "

"Don't worry, I can indeed rescue your daughter, but I always feel that there is something strange about it, but let me go in and see for details."

Qin Yuan was very relaxed when he said this, and Jelson doubted whether what this guy said was true or not, but now he had no choice but to trust Qin Yuan.

Qin Yuan took a box of ammunition and threw it in his backpack, then put on the sniper rifle and set off directly. He didn't even take the map. For a while, Jelson wondered if this guy could really do it?

One must know that it has only been half an hour since he came in and left now, and he just glanced at that map casually, did he just memorize the terrain?

But he didn't dare to have too many doubts. After all, all hopes were on Qin Yuan. He sighed helplessly, not knowing whether the decision he made was right or wrong.

"Do you think he can really do it? He is so confident that he won't take anything."

Hearing his boss's question, Lao Zhang nodded quickly. They had seen Qin Yuan's strength.

"Don't worry, sir. I think there is absolutely nothing wrong with him. After all, not everyone can call him the God of War."

Jereson's face was full of worry, and now he had nothing to do, Qin Yuan had already set off, so he could only keep praying for his child's safety.

And Qin Yuan came to the vicinity of the cliff according to the route in his memory. This place is really surrounded by mountains.

He has already climbed to the highest mountain, but he can only see a few faint buildings below. The wind is very strong in this place, and people who stand on the edge of the cliff without paying attention will be directly blown off the cliff.

No wonder no one dared to walk this way before. The cliffs here were so barren of grass that there were few raised stones. This was the first time he had seen such a smooth terrain.

However, this is not a big problem for Qin Yuan. He just thinks that such a good terrain can be used for training, but it is a pity that such a venue has not been found in China.

He took a deep breath, and without turning his head, he jumped directly. If there was anyone behind him, he would definitely be shocked by such a move. He didn't have any equipment on him, so he just jumped down.

However, his jumping ability is simply amazing. Standing directly on the hillside here, he jumped to the opposite cliff, separated by a distance of tens of meters.

This is not a big problem for Qin Yuan, now he can directly enter the hinterland along the hillside here, completely silently.

He didn't make any movement, and after he stood firm, he went straight into the hinterland, but the terrain here was indeed very severe. After descending into the hillside, the entire terrain was very steep and it was difficult to stand on it.

It is also because his physical fitness is different from ordinary people, and he walked very steadily under such circumstances and did not cause too many gravels to slip, so he could be easily discovered.

Qin Yuan slowly approached the base, surrounded by barbed wire, which seemed to be very well-defended, and there were guards and guards beside him.

It's just that Qin Yuan also noticed a detail, he quietly went around to the other side, where he could observe the road to the gate of the base.

Although he had never been in contact with it before, he could see a lot of people ambushing on both sides of the road at this moment, as if they were waiting for something.

He didn't know whether these people had been in ambush here before or behind them. For some reason, the news that the seven teams were completely disconnected made him a little suspicious.

But these are none of his business. What he has to do now is to successfully enter the base and rescue the child.

Chapter 1196: not in the group

At this moment, Qin Yuan's conjecture was basically right, because he had just left the mercenary group and immediately someone sent a signal to this side, so they strengthened the guards.

Everyone felt that he would definitely go in through the main entrance. After all, the cliff behind was steep. If he wanted to come over, it would be absolutely impossible. In addition, they still have the observation tower, so it is almost impossible to get down from that commanding height.

It's just that they didn't expect that Qin Yuan's skills must be extraordinary, and it's not a problem at all in this situation. At this moment, he has come to the periphery of the military base, but now there are more first places in the daytime, and the towers above are more complicated than what he saw before.

Before they entered some military bases, the most common tower defenses were generally arranged on the four corners, which can form a direct connection, but in this place it can be said that the entire high wall is built.

In addition to those who go out to patrol and watch, there are also infrared detectors. As long as someone breaks in, an alarm will be issued. Qingyuan originally planned to fight the dark, but now he can't wait to complete the task as soon as possible, and then get merit points, so that his The system is upgraded.

Because if this matter continues to be delayed, it will really be nights and dreams. The masked man has been looking for him all the time. For this time he came here, he didn't know whether he would be discovered by him, so he could only complete the task as soon as possible and leave.

Qin Yuan quickly rushed forward, snapped his fingers quickly, and instantly stopped the time. Now he only has three minutes, but it is enough for him, he just needs to go in first.

The surrounding guards were all motionless, and no one responded. Qin Yuan took this opportunity to jump, climbed over the high wall, and rushed into the military base.

There are also a lot of guards inside. It looks like this military base is really not simple. No wonder they said before that the seven teams came in and disappeared without a trace, but Qin Yuan felt that there must be something strange in it. No matter what, the seven teams People in the team will also be alive, and the greatest probability is that they will be locked up by them.

Seeing the time passing by every minute and every second, the system has already started counting down. Qin Yuan saw the military tent next to him and didn't think too much, so he jumped in. Just after the countdown ended, the patrol outside the door started to walk again.

Qin Yuan can't act rashly now, he will start to deal with the rest of these people after he finds the girl, because first of all, he needs to determine whether the girl is here.

Although the videos they sent before indicated that the girl was in the hands of the boss of the group, it was not certain that the girl would be in the base.

Qin Yuan dodged and hid under a bed. At this moment, two men in camouflage came in.

"I really can't stand it anymore. Why can the new group of guys go to eat first, let them do everything first, this day can't be passed."

"Then what can be done? Who makes people belong to the regular army? We are all miscellaneous brands."

"Hehe, this is really interesting. Isn't the regular army just joined by some messy people? I don't think it's better if we don't know why the boss believes them?"

"Forget it, I think you'd better say a few words less, when the time comes, others will hear what you said, and you won't be able to explain it clearly, so bear with it."

The two soldiers were still complaining non-stop, probably meaning that not only did they have to give way to the other group of people for eating, but it seemed that they had changed in all patrol areas, and it took longer for them to execute than the group of people. long.

Qin Yuan was a little curious when he heard this. If this is the case, it would be a good thing for him if the two groups had internal strife.

It's just that now he doesn't know who the group these two people are talking about is, and most importantly, he has to find out the whereabouts of the little girl. When the two were still chattering, Qin Yuan suddenly appeared Rolled out from under the bed.

Before the tall man on the left could react, he was knocked out by Qin Yuan with a punch. The person behind was about to pick up the dagger at his waist when he was directly pressed to the ground by Qin Yuan. A cold knife was pressed against his neck .

The man swallowed nervously, "Who are you? Who gave you the guts to come to this place? Do you know where this is?"

"Hehe, you are still so stubborn when you are about to die. Believe it or not, I will let you go to see God every minute."

Qin Yuan knew that to deal with these people, he had to use ruthless tactics, because these people were used to seeing life and death, and they all belonged to the level of hob meat. He tightly covered the man's mouth, and then stabbed him directly in the thigh .

The man was trembling with pain, he wanted to scream, but there was no way.

And Qin Yuan's strength was so great that he couldn't break free at all.

"You'd better answer my question honestly, because next time I can't guarantee where I will get the piercing. If I don't get the question I want, then I will pierce it all over my body."

The man endured the pain and could only nod his head. Now he has no choice but to cooperate.

"You brought a little girl here some time ago, do you know where it is?"

There was doubt in the man's eyes. He didn't know what kind of little girl it was, so he could only shake his head desperately.

Qin Yuan stabbed him in the calf again, the man shook his head in pain, he really didn't know.

Originally, Qin Yuan didn't plan to develop skills, but this kid didn't cooperate with him, so he had no choice but to invade him in an instant. Unexpectedly, after walking around, he didn't have any clues about the little girl.

Looking at it like this, it might be that his level has not been able to get in touch. Qin Yuan raised the knife and dealt with the man directly, and then dragged him under the bed.

Qin Yuan changed into the clothes of the man who was knocked out just now, and walked out swaggeringly.

It was still a normal patrol outside, he looked around, there was a relatively large tent in front, and there were a lot of leaders around, it looked like it should belong to the boss of the group.

Just as Qin Yuan was about to pass, he was stopped by a soldier in front.

He took a closer look at the color of the soldier's clothes, which was very different from his. In addition, the soldier was wearing an armband. It seemed that they should use this to distinguish their status.

"I said, you kid, don't go over there to guard, but come here to wander around. Is there any place where you can come? Get out."

It seems that this place is not only heavily guarded, but more importantly, there is a very strong hierarchy. As the protagonist of the clothes on his body, he cannot approach the big tent at all.

Qin Yuan hurriedly nodded and bent down. It's best not to expose himself now, he slowly backed out, and just as he was about to leave, the man just stopped him again.

"and many more!"

The man directly pulled one of their buckets, and threw it in front of Qin Yuan, "Look at you kid, go, fill up all the buckets over there, and fetch water for us."

The people around were just watching the fun, and no one paid any attention to it. Qin Yuan glanced at the direction of the well, but he didn't expect that it happened to be near the big tent.

He quickly took the bucket and said that he would definitely fetch water. The man snorted disdainfully.

"Useless trash."

Qin Yuan walked over and looked around while fetching water. In this military base, there are three colors of their clothes and armbands.

Just as Qin Yuan was fetching water, three people came over suddenly. Qin Yuan looked up, and he was very familiar with these three people. They were the members of the seven teams that disappeared before, because before he left, he specially asked for photos I took a look.

This is absolutely no problem for his memory, these three people are members of the seven teams.

The man who came over looked at Qin Yuan impatiently at them, and kicked over the bucket in front of him.

"What are you looking at, kid? Hurry up and fetch water for the uncle, we will use it now."

The tone of his voice didn't sound like he was imprisoned. On the contrary, he seemed to have a different identity since he came here. The things here are really getting more and more complicated. Qin Yuan walked forward with a smile, and then took the opportunity to approach the man, and then He instantly controlled the man's consciousness and invaded directly.

But unfortunately, there is still no information about the girl's whereabouts here. Could it be that the girl is not here at all?

And the man just stood there motionless, and the two companions next to him didn't notice the situation here.

Although he didn't know the whereabouts of the girl, Qin Yuan also got other information. These people included the seven teams that came in before, and all of them are alive and well. They didn't disappear or disappear, but surrendered voluntarily , cast here.

So the matter here is not that simple. The members of the seven teams are all traitors, which is a very big loss for a mercenary group. Maybe the girl is just an excuse, and there must be traitors among them.

The most important thing is that Qin Yuan has thoroughly checked these people, but he didn't find any whereabouts of the little girl. Three 3 love novels

Now he suspects more and more that the child is not here at all, and everything is just fake news released here. If this is the case, he can't act rashly.

At this time, it was completely dark, and the surrounding headlights were already on. Qin Yuan took this opportunity to quickly intersperse.

Originally, he thought that there would be the leader of the group in that big tent, and it would be the easiest to find the leader directly. He didn't expect that after entering, it was completely a decoration. People feel that there are important people here.

Qin Yuan looked around, except for some simple utensils, there was no one at all, and the table in front was already covered with thick dust, it looked like no one was here for at least a week or two.

Qin Yuan combined the previous timeline to see that the boss of this group definitely hid the little girl somewhere else.

Not only that, Qin Yuan also grasped other clues, now he can't startle the snake here, just like that, he quietly retreated out again, and no one noticed during the whole process.

At this moment, Jelson was sitting anxiously in the villa, waiting for news from Qin Yuan. But so far, there has been no movement from the other side.

"What's the situation over there now? Is there any disturbance or the sound of shooting?"

"Boss, it's very quiet over there now, and we watched their leader from a distance still very tight, and we didn't find anything."

"Then what's going on? Hasn't that guy done it yet?"

After all, he was brought back by Lao Zhang. Jelson had always doubted Qin Yuan's identity before. He looked at Lao Zhang again and asked seriously:

"Let me ask you one last time, is this person really the God of War? Why has it been so long now? There is no movement at all."

"Boss, I can assure you that there is absolutely no problem with this. We have also seen his skills, and his identity will not be wrong. Maybe he is still making other preparations."

Although Jie Ersen was in a hurry, he had no choice but to continue to wait, because the initiative had been completely placed on Qin Yuan's side.

At this moment, the subordinates outside suddenly ran in anxiously.

"Boss, that person is back."

what! Jason was taken aback, what's going on? so fast? He hurriedly asked how many of his subordinates answered that he was the only one who came, and the boss lost all thoughts in an instant. Could it be that he failed?

"I knew all this seemed to be doomed before, and I should obey his request."

Jie Ersen felt a little hopeless, because he put all his hopes on Qin Yuan before, but now Qin Yuan came back alone, which can only show that the action failed.

At this moment, Shi Qinyuan strode in. He looked calm, and Jelson didn't maintain his previous attitude. He asked loudly:

"What's going on here? You haven't been out for three hours, and you haven't done anything. Did you just come back like this?"

"Who said I didn't act, it's just that your place is too unsafe."

Qin Yuan knew that there were traitors in this place now, if he revealed anything, it would be easy to startle the snake.

So he didn't speak, but walked up to Jelson and patted him on the shoulder. He felt a little strange why Qin Yuan would do this to him. Could it be hinting at him?

Looking at Qin Yuan's eyes did not seem to lie to him, he waved his hand and called everyone out, including the bodyguards behind him.

"Go down, all of you, and remove the guards at the door."

"What! How can the boss do this? In case this kid wants to do something to you, what should we do?"

"What I say is what I say, hurry down, I don't want to say it a second time."

Now Jie Ersen's whole mood is very broken, he just wants to know the whereabouts of his daughter, and he also understands what Qin Yuan means.

After those subordinates heard it, they took a look and walked out like this. It wasn't until the guards at the door were gone that Qin Yuan sat across from him and spoke slowly.

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. However, the wolf demon is very talented and powerful, so if he faces the enemy head-on, he may not be the opponent. Especially since he is young and lacks energy and blood, he will definitely not be able to fight for a long time. If it wasn't for the transformed human being who forcibly killed a wolf demon, he might not be able to make a move against two third-level wolf demons. His own life is the most important thing.

However, once he makes a move, he must hit it.

The wolf demon was in extreme anger right now, so he didn't realize it until Tang San's palm had already slapped the side of his eyes. Turning his head sharply, the wolf's mouth went straight to bite Tang San.

Tang San's other hand grabbed his clothes at this moment, taking advantage of his thin body, he pulled the wolf's fur and changed his direction. Almost the position next to the third-order wolf demon's chest was flipped to the other side of the wolf demon.

The index finger and \*\*\*\* of the right hand merged into a sword finger, and Xuanyu moved the hand, making the \*\*\*\* shine with a pure white jade color, and they pierced the eyes of the wolf demon who was turning around like lightning. 818 novels

"Pfft!" The slender fingers spread into the warmth almost instantly. In terms of physical strength, Tang San must be far inferior to this third-order wolf demon, but he hit the vital point, and with the same level of energy, he would never again. No luck.

Under the injection of Xuanyu's hand, Xuantian Kung almost spun into the wolf monster's brain. So much so that the wolf demon's other eye burst open in an instant, and its brain was twisted into a mess. The roar stopped abruptly as if the neck was stuck, and the strong body fell to the ground.

Tang San kicked on him with his toes, turned over and landed in a far away place.

The result of this attack was due to the help of his rich combat experience in his previous life. The child's thin body and the dark night are the best cover, plus the third-order wolf demon is in a rage, and his perception is weakened.

In a frontal confrontation, even Tang San's Xuanyu hands may not be able to break through the thick skin of the wolf monster. However, the eyes are the most vulnerable place, if the eyes are pierced and the energy of Xuantian Kung is injected, then the dead cannot die again.

Both feet landed on the ground, and the third-order wolf demon on the other side was also silent. Only then did Tang San breathe a sigh of relief. He was not in a hurry to check on the human being, but quickly lay down on the ground and pressed his ears to the ground, listening to the movement around him to see if there were any pursuers.

With his current strength, it would be very difficult to confront the third-order wolf demon head-on. No matter how good his skills are, his young body is too weak. Once hit by a wolf demon, it is likely to be fatal. In the seemingly simple attack just now, he actually went all out to raise his spiritual will to the highest level.

There was no other movement around. Obviously, only two third-tier wolf monsters were chasing and killing those who could transform into humans. This also made Tang San breathe a sigh of relief, otherwise, he could only choose to escape.

Only then did he walk towards the human being, while remaining vigilant.

When he came close to that person, he suddenly found that the hair that had grown on that person's body had disappeared. It made Tang San's heartbeat increase a bit.

Given his childhood situation, and the fact that he was not related to the transformed human being, the safest way before was naturally not to make a move, and wait for the wolf demon to leave. But he still chose to shoot. One is because it is human beings who are hunted down. Another important reason is his transformation just now.

In Tang San's original world of Douluo Continent, there was a soul master with a beast spirit who could possess similar abilities. It can also continue to grow and become stronger by cultivating the beast spirit.

If there is a similar ability in this world, for him, if he can learn it, it will be of great benefit to his own strength improvement, and it will be easier to integrate into this world!

Chapter 1197: find girl

"Now they have all left, what is the specific situation, you should give me an answer, right? And what is going on?"

"I think you should give me an answer. It's been more than a month. You don't even know that there is a traitor on your side. It makes it very difficult for me to do it."

Jason was taken aback when he heard this, how is this possible? To be honest, he has never doubted the traitor, because he and his subordinates are only in an interest relationship, and the benefits he gives are also very generous, so it is impossible to say that there will be a mutiny.

"What do you mean? Are you trying to sow discord here? I told you that I will not be fooled by you. Now I just want to know what the specific situation is like. Did you go in? Don't scare me with those words ."

"To scare you, do you think it's necessary for me? And with my ability, I've already gone in, and now I can come out safely, what do you think?"

After Qin Yuan finished speaking, he picked up the coffee on the table in a leisurely manner, took a sip, and complained that it was too bitter for him to drink.

But Jelson was very excited. After all, this guy was the only one who came out alive after going in. He couldn't believe it, and felt that he must be lying to him on purpose.

Otherwise, his people have been monitoring the base from the opposite side, and there will be no movement inside.

Qin Yuan had expected that he would say this, and threw two sleeves out of his pocket in a leisurely manner.

Seeing those two sleeves, Jelson was stunned for a moment. He was so familiar with these sleeves, because when his daughter and wife were kidnapped that night, the person wearing such sleeves took them away. they.

He was a little agitated, holding the two sleeves tightly.

"I didn't expect that since you really went in, how about my daughter...how is she?"

"This is what I want to tell you. After investigation, I found that your daughter is not in the base, including the leader. He should have taken them to other places."

Jelson didn't expect Qin Yuan's ability to be so strong, and he came out of a military base with so many people safe and sound.

It was only what Qin Yuan said next that shocked him completely, because Qin Yuan told him that the members of the seven teams were still alive and well.

This is the absolute accuracy of the news that Qin Yuan obtained through brain wave interference. Before that, Jelson patted his chest and assured that he felt that his people would never betray, nor would there be any traitorous behavior, because he felt that the conditions he gave Already very rich.

But he overlooked a problem, that is human nature. In the face of these so-called human nature, everyone becomes complicated, and they also start to be greedy. The mercenary group of Jelson is originally a formal enterprise, so they accept It's just a business between some small countries.

If they accept any mission like some other mercenary groups, their pay will only get higher and higher, so those team members are dissatisfied and everyone came out to make money.

That's why the betrayal happened. More importantly, Qin Yuan also knew some special circumstances. This is just the person who was betrayed by these soldiers, none other than his wife Alan.

But now Qin Yuan didn't have the real-time evidence to confirm what the system suggested, all he needed was to rescue the little girl.

Regarding his wife's situation, Qin Yuan didn't say a word, because it is very likely that this guy doesn't believe it, and it will cause other misunderstandings, so Qin Yuan just told him what he saw.

Jelson didn't even believe that he would betray him, let alone his wife would betray him.

"Mr. Qin, is what you said true? My daughter is really not there."

"That's right, I stayed inside for more than half an hour. I've gone around the entire base, but I didn't find your daughter."

"Then what should I do now? I don't know if there is any other news besides this." m.三三丫  
QxS.CõM

At this time, Qin Yuan looked at him confidently, "I already have a solution, and I also know where he will be, I will investigate this matter, and now all you have to do is to cooperate with me to play a play ."

Jelson was puzzled for a year. At this time, Qin Yuan whispered his plan in his ear. It would be too easy to find his daughter, who is now on the periphery.

Although he didn't understand after listening, he still planned to do what Qin Yuan said, after all, this person brought the most real situation.

"But what should I do except for the situation you mentioned? Since there is no longer my daughter in that military base, can I just send someone to break in through the main entrance?"

"Don't act rashly now, and the main problem is that after I find your daughter, there are still problems that should be solved. You are doing it."

Gilson nodded, and now he didn't know what to say, so he could only choose to believe Qin Yuan, because what he said was basically in line with the situation.

At this moment, a bodyguard outside the door was anxiously looking inside the yard, but he couldn't hear anything. After all, the sound insulation measures over there were very good.

"I said, why are you not in a hurry at all? The boss is still inside, what if that guy attacks him?"

"I said, what are you worrying about, kid? Why are you attacking the boss for no reason?"

Lao Zhang just thought this person was really weird, why was he so excited? Besides, the boss himself trusts Qin Yuan, so what are they going to do here.

"I really can't tell you clearly. After all, it is our duty that the boss pays to protect him."

Lao Zhang just felt that this person's behavior was really weird, why did he get so excited? Besides, he also chose to believe in Qin Yuan, he felt that there was absolutely no problem with Qin Yuan.

At this moment, a cup suddenly flew out of the window. Everyone saw this scene and ran in quickly. As soon as they walked to the corridor, they heard violent quarrels coming from the room.

"You are a liar, get out of here, you can't help me at all, get out of here quickly."

"Hey, if you don't want to, I won't stay here. I don't stay here, I have my own place to stay."

Just like that, Qin Yuan kicked open the door, and walked out like a bastard, the bodyguards in the corridor stared.

Lao Zhang acted with a serious face, how could it be a bit out of line with Qin Yuan's usual style? He had given himself the impression that he was very calm and reliable, so why would he quarrel with his boss?

"Mr. Qin, what's going on? Why did you suddenly quarrel? Didn't you have a good chat before?"

"I'm angry when you talk about this. This guy is an idiot. He doesn't listen to me. Just let him go. I don't have time to talk to you. Now I have to go back."

I have to say that Qin Yuan and Jelson's acting skills are really good, they fooled everyone for a while, and the bodyguard next to them couldn't help sneering when they saw this scene.

Now he wished that the situation would become like this, the more chaotic the better, because only when it became like this, could they really relax their vigilance.

Qin Yuan is still a God of War figure anyway, and a person like this is too dangerous, so he has to deal with this relationship quickly no matter what, originally he wanted to provoke it, but he didn't expect it to be unnecessary now Provocation, the relationship between them has broken down.

After the bodyguard rushed in, he saw his boss sitting on the sofa angrily, and the things on the table were also smashed.

"Boss, forget it, it's not worth being angry for such a person. Besides, you are rich, and you can call hundreds of such people. I think this kid is a complete lie."

The previous anger still remained on Jelson's face. He didn't speak, but looked at the bodyguard who was talking in front of him. Qin Yuan had told him before that anyone who wanted to provoke their relationship must be a traitor, because this matter is very important to him. It is beneficial to them.

And if he remembered correctly, it was the third time that this bodyguard had provoked the relationship.

It seems that the traitors around him are from these people. No wonder the people sent out before have not acted, and there is no news at all. On the one hand, they have directly rebelled, and on the other hand, they have already sent out the news in advance.

At this moment, he was very confused. Although he cooperated with Qin Yuan in such a play, he was even more worried about his daughter's safety, because the traitor would make his daughter's side even more unsafe.

He even regretted that it had been more than a month since he was incompetent as a father, and it was only now that he realized that his daughter was not in that base at all.

After Qin Yuan came out, he went into the alley and successfully threw away the people following him. He knew that the room inside was not simple, and he kept staring at him.

On the other side, he also has the news. After all, his ability cannot be hidden by any secrets, but based on the vague memories in the minds of those subordinates, he can roughly determine the location of a manor.

Without further ado, Qin Yuan quickly went to the manor. During this period, he also turned on the system completely, mainly to sense whether there are people with the system. He must be careful in everything now.

Originally, when I came to the manor, there were only a few cleaning workers and workers who trimmed flowers and plants.

But if you look closely, those workers are not simple. Their waists are bulging, and it seems that professional personnel are carrying weapons, but they are just doing basic camouflage.

It seems that this place is right, and if it is just a little girl, there is no need for so many guards. It is estimated that the boss is also here.

Qin Yuan didn't care about these people at all. After entering, he directly put the people in the yard without making a sound. He dragged the bodies of those people into the grass, and then went directly to the interior of the department.

He jumped in from the window, and there were only two patrolling personnel inside. The person in front had just gone upstairs and didn't hear any movement. Qin Yuan followed him quietly, and then threw the throwing knife, directly killing the person. people solve.

There were not many people on duty in the manor. After all, most of them were at the military base. Qin Yuan came up very smoothly and went straight to the room on the second floor.

After dealing with the people outside, he looked around. There were three rooms on the second floor. At this time, some indescribable sounds came from one room.

Qin Yuan hesitated for a moment, turned around and searched for other rooms first, and just opened a room at the end, and saw a little girl.

The moment the little girl saw Qin Yuan, she also had a terrified expression, and she quickly hid in the corner in fright.

"who are you?"

"Don't be afraid, I'm here to take you out!"

"Why are you taking me out? I'm here, where are you taking me? I won't go!"

It seemed that the child didn't know what kind of relationship happened at all, so he could only go forward and explain to her patiently, after all, the child's troubles were only for those few minutes.

After Qin Yuan was sure it was safe, he put the child inside the room first. He was going to check other situations, and now he had to find the boss of the group.

When he came to the room where the sound was made before, he kicked open the door without any hesitation. At this moment, he saw a man and a woman on board.

The man heard the movement and wanted to touch the gun on the bedside table, but Qin Yuan was faster than him. He threw a throwing knife and shot the man in the shoulder on the spot. The man also rolled down due to inertia.

"You! Who the hell? What do you want?"

Qin Yuan took a closer look at the woman on the bed, and he was very familiar with it. Isn't this the wife of Jelson? It's really a good show, it seems that it is not the same as the news that he hit him before.

It's such a big green hat, no wonder the child doesn't have any fear, after all, his mother has been with him all the time, and the child doesn't know what's going on.

To be honest, Qin Yuan is a little sympathetic to Jelson now, his subordinates have also rebelled, and then his good wife is with others.

"Brother, please calm down first, I am very strong, and I can give you a lot of things, as long as you let me go."

The boss of this group is not a fool either. After seeing Qin Yuan's skill, he knew that he couldn't beat him, so he could only choose the way of begging for mercy, but he didn't expect that the moment Qin Yuan pulled off his mask, he was completely stunned.

"I didn't expect it to be you, you chased me to this place."

Qin Yuan didn't talk nonsense with him at all, and settled it with a single shot. The woman next to the boss of the group screamed in fright, and Qin Yuan didn't bother to talk to her at all.

He just turned around and walked into the room, and took the child away. After all, this is the task of the system, and this child is his real goal.

But at the moment at the villa, the bodyguard kept fanning his ears.

"Boss, since that kid is no longer good enough, then we might as well follow their previous request, or the lady may be really in danger."

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. There was no other movement around. Obviously, only two third-tier wolf monsters were chasing and killing those who could transform into humans. This also made Tang San breathe a sigh of relief, otherwise, he could only choose to escape.

Only then did he walk towards the human being, while remaining vigilant.

When he came close to that person, he suddenly found that the hair that had grown on that person's body had disappeared. It made Tang San's heartbeat increase a bit.

Given his childhood situation, and the fact that he was not related to the transformed human being, the safest way before was naturally not to make a move, and wait for the wolf demon to leave. But

he still chose to shoot. One is because it is human beings who are hunted down. Another important reason is his transformation just now.

Chapter 1198: too good at disguising

Jelson is not stupid, this guy's purpose is too obvious, urging himself again and again.

"Oh, what if I send the money and people there as they asked, but they still don't let my daughter go?"

"Boss, I don't think this possibility is very likely. After all, that guy agreed to our request no matter what, so he should follow suit."

Jelson felt like laughing when he heard this kind of answer. Does this guy really think of himself as a no-brainer? He waved his hand and let him go down first.

After a while, Lao Zhang walked in. He still felt a little strange. After all, the boss would not look for him so alone, but at this time he felt that he could start with other people. Before that, the two bodyguards he trusted most were these two bodyguards.

These two bodyguards were introduced by his wife before, and they were very good at reaching out. They had tried their best to protect him before, so Jelson trusted these two people very much.

As soon as Lao Zhang walked in, Jason made a movement, and he didn't speak slowly until he heard that there was no one at the door.

"Do you think I can trust you?"

Lao Zhang was a little puzzled, why did his boss suddenly ask him about his trust? That must be no problem, after all, I have never done anything too outrageous.

"Boss, if you have any orders, just tell me directly. I will never hesitate to do so. After all, you gave me this job. You also helped me a lot when I was in the most difficult time."

"It's mainly because you brought people back, so I still want to choose to believe in you, but you must not let me down."

Jelson now trusts Qin Yuan more, because he has placed all his bets on Qin Yuan, and now he really has no choice, especially after knowing about the traitor.

So now he can only order Lao Zhang to supervise the bodyguard without being discovered. Lao Zhang is also very smart, so he didn't ask too many questions, just nodded, and then said that he would supervise well.

"By the way, remember that he must not find any clues. I only told you about this matter, so you should understand what I mean."

Old Zhang nodded again and again. Of course he knew that since the boss trusted him so much, he would definitely not let him down. Just like that, Lao Zhang walked out.

As soon as he walked out, the bodyguard ran up.

"Hey, let me tell you, what kind of \*\*\*\* luck did you have, the boss actually came to find you in person."

Of course, Lao Zhang knew the seriousness of the matter. He had no choice but to force a smile, "My brother, I said, you should stop teasing me. This is not a good thing. The boss came to me just because of Qin Yuan. He I think I found a liar, and to be honest, I don't know what level this guy is."

He obviously saw that the bodyguard breathed a sigh of relief. Sure enough, there was something wrong with this guy.

The bodyguard also comforted him a few words in a serious manner. In fact, he was just looking for information, and Lao Zhang covered everything up calmly.

On the other side, Qin Yuan had already brought Belle halfway safely, but did he think this incident would really go so smoothly? After all, that's 20,000 merit points.

And looking at the child in front of him, he always felt an indescribable strangeness. The child had been arguing to find her mother before, but after she came out, she didn't say a word, and she didn't even ask who her mother was.

At this moment, Qin Yuan felt a strong crisis, which was the conscious reaction given by his system, and he saw the girl behind her with a fierce look in her eyes, and rushed towards him quickly with a dagger in her hand.

Qin Yuan snorted coldly. He didn't care about such an attack at all. He caught the dagger with his bare hands and kicked the girl away.

Unexpectedly, the girl's skill was so good that she turned over and landed on the ground steadily, but was kicked back a few steps by Qin Yuan's powerful force.

Qin Yuan was a little curious. This little girl has such a powerful ability. It can be seen that her basic skills are very good.

Seeing that she failed once, the girl rushed up again, and this time she actually took out a few darts behind her. Qin Yuan just looked at her with interest. Such an attack was really nothing to him.

The girl reacted quickly, turned over to avoid Qin Yuan's attack, and then threw a few darts towards Qin Yuan. She turned around and wanted to run outside, but Qin Yuan was faster than her, and rushed forward with a stride, directly grabbing on her shoulder.

The girl's reaction was too fast, Qin Yuan grabbed her by the shoulder, and she took advantage of her small stature to quickly come down to escape with a golden cicada.

And taking advantage of the situation, he pulled out a pistol from his waist and pointed it at Qin Yuan, "Go to hell!"

"I think you really haven't woken up, forget it, I won't play with you anymore."

After Qin Yuan finished speaking, the speed was extremely fast, the girl didn't even react, the gun in her hand was already flying into the air, and then her whole body was directly knocked out by Qin Yuan's punch, Qin Yuan's force was great, this time he didn't have any Pull back.

This punch directly hit the girl's face, and the girl moved directly under the huge impact, and her face also changed, unexpectedly, she was actually wearing a mask.

Under such an angelic face, this little girl finally revealed her ugly face before. Unexpectedly, under such a figure, her face looked like an old woman in her fifties or sixties.

Before, Qin Yuan just confirmed the girl's appearance and took her away, but he didn't expect it to be a counterfeit.

Qin Yuan directly invaded the meaning of the girl, and quickly figured out everything. It turned out that this guy was the real boss behind the group, and she was just using that man's identity as a cover-up.

This guy is a dwarf, but it is precisely because of her short stature that she has escaped many times of pursuit. This criminal group is bigger than imagined, and the military base with five or six hundred people is just one of them.

Over the years, she has taken over many small mercenary groups by relying on this method, so her military strength has grown stronger and stronger.

This time, she used Jelson's group to use her daughter as a threat, and wanted to annex her entire group, but she didn't expect to kill Qin Yuan halfway.

And Qin Yuan also knew from her consciousness that the real location of the girl was in the underground of the manor.

This guy's trick is really too insidious. If he hadn't discovered it in time, wouldn't he have sent a demon to Jelson?

Qin Yuan squatted down and looked at the human skin mask carefully. It was indescribably familiar, and he always felt that he had touched the material of this thing many times.

He clicked on the mask and asked the system to see if it could be recovered or detected.

The system quickly gave the answer. Although this thing cannot be recycled, Qin Yuan has indeed come into contact with the material on the mask before. Killed that guy many times.

That's why he felt familiar with such a material. He didn't expect it to come from the same place, but the system now prompts that there is no one who carries the system.

The organization of this masked man is really huge, his hands have already reached this place, and their eyeliner is everywhere. From this look, this guy should have cooperated with him.

When the girl woke up, she just opened her eyes and saw Qin Yuan sitting opposite, staring at her coldly, and the real Belle was lying on the small bed next to Qin Yuan.

Unexpectedly, the dwarf girl in front of her didn't feel the slightest fear, she just snorted coldly.

"Hehe, I really didn't expect that since you saw it through, to be honest, your skills are really good, but do you think you can save her?"

Qin Yuan just thought it was funny. It seems that this guy really doesn't know his own strength. When he found Belle just now, he did find that she had been injected with some kind of toxin, so she fell into a coma all the time, but this is for Qin Yuan. It's nothing at all.

He had easily removed the toxin, but now she wanted to see what other tricks this guy could play.

"Are you threatening me? Do you think my ability is necessary to tell you these things?"

"I'm telling you, you'd better let me go, otherwise that girl won't survive tonight without my antidote."

The dwarf girl now has a smug look on her face. She is sure that Qin Yuan will definitely beg her, and she even speaks wildly, asking Qin Yuan to kneel down and beg her.

Unexpectedly, she would be stunned by Qin Yuan's actions in the next second. Qin Yuan just patted the \*\*\*\* the bed, and the girl woke up slowly, as if she had just fallen asleep, and rubbed her eyes sleepily. .

She couldn't believe it, because she knew the poison very well, and it was absolutely impossible for anyone to get the antidote from her. This was the secret weapon she was proud of.

"How is this possible? How could you know the antidote?"

"I know a lot of things, and now I have one last question to ask you, how much contact did that masked man have with you?"

Originally, Qin Yuan wanted to use her to attract the masked man, because she already knew everything she needed to know. Unexpectedly, the dwarf girl's frightened eyes instantly appeared when she heard this. ωωω.ΞiiiyqXs.°CoM

"How is this possible? How do you know of his existence? Who are you?"

"You don't need to know these things, you just need to cooperate with me well. To be honest, I have fully grasped most of your situations. You just need to cooperate with me to play a play."

As soon as Qin Yuan finished speaking, he noticed something strange, and when he turned his head, he saw a trace of black blood dripping from the corner of the dwarf girl's mouth. Unexpectedly, she committed suicide by biting the poison at the corner of her mouth.

Qin Yuan rushed forward and grabbed the girl tightly, holding her mouth tightly, but the poison quickly spread throughout his body, and even he couldn't help it.

He lowered his head and smelled it, and a strong smell emanated instantly. He quickly let go of the girl and stepped back quickly, only to see the corpse on the ground, and white smoke was slowly rising.

Seeing this scene, he couldn't help but gasp. In just a few minutes, the girl in front of him had no bones left.

The scene in front of me was just like the bone powder seen in the movie before, I didn't expect this poison to be so powerful.

The air was filled with this pungent smell, and Belle next to her was overwhelmed by fright and just grabbed Qin Yuan's hand.

Qin Yuan could only cover his eyes for a short period of comfort, and then took him out of the basement. After he came out, the sun was shining outside.

But the scene in the basement just now made people feel shuddering. The masked man really had such great fear. I just mentioned his situation, but I didn't expect that girl to commit suicide like this.

Qin Yuan felt that this place couldn't be kept longer, so he had to take the girl back first, as long as the girl was sent back, the meritorious value would be reached, so he didn't have to worry about meeting the masked man.

Jelson was pacing back and forth in the office, very worried that he didn't know what was going on outside. At this moment, he suddenly received a call from Qin Yuan, and he quickly pressed the answer button.

From the opposite side came the immature cry of his daughter, calling for his father, and he was instantly overjoyed.

"Mr. Qin, I didn't expect that you would actually do it. Now, hurry up and bring my daughter back. How much do you want? I'll promise you whatever you want."

"There's no need to say this now, you hurry up and send the helicopter over, I'll send you a location, and then I'll bring her back."

Jelson hung up the phone and hurried to make arrangements in person. After all, the mole on the internal side probably didn't know about the news from the outside world, but for safety reasons, three helicopters were sent out, mainly to cover up people's eyes and ears.

Looking at the helicopter in the square, the bodyguard behind showed a little puzzled expression.

"Boss, where are you going? Why did you send three helicopters?"

"Where am I going? Do you think I need to report to you?"

By this time, Jelson's patience had been completely exhausted. For the bodyguard in front of him who kept betraying him, he wished he could kill him right now, but he must ensure the safety of his daughter, and we'll talk about it when he comes back.

In the end, he could only hold back his breath, and the bodyguard didn't say anything more. As long as his daughter came back safely, he would definitely deal with all these traitors.

It's just that what made Gilson more curious was that he only heard his daughter's voice during the phone call, and didn't hear any news about Qin Yuan's wife, but now he can't care so much, as long as the child can come back safely it is good.

According to Qin Yuan's location, the helicopter arrived at the destination very quickly, and Qin Yuan didn't want to take a look at it. It was indeed the helicopter representing their group that took the child up.

There were no problems along the way. In addition to the driver, this small armed helicopter also added another security personnel.

The security personnel put down the ladder, and then went up with the child, "Mr. Qin, you have worked hard. Our boss personally ordered me to pick you up."

Qin Yuan just nodded, and then did not hand over the child to him, but hugged the child by his side. No matter what, this child cannot leave his sight, which is worth 20,000 meritorious deeds to him.

This time, Tang San's grasp of time, location, and distance was very precise.

He knew very well that even if he possessed the unique knowledge of the Tang Sect, he also possessed the third-order Xuantian Kungfu. However, the wolf demon is very talented and powerful, so if he faces the enemy head-on, he may not be the opponent. Especially since he is young and lacks energy and blood, he will definitely not be able to fight for a long time. If it wasn't for the transformed human being who forcibly killed a wolf demon, he might not be able to make a move against two third-level wolf demons. His own life is the most important thing.

However, once he makes a move, he must hit it.

The wolf demon was in extreme anger right now, so he didn't realize it until Tang San's palm had already slapped the side of his eyes. Turning his head sharply, the wolf's mouth went straight to bite Tang San.

Tang San's other hand grabbed his clothes at this moment, taking advantage of his thin body, he pulled the wolf's fur and changed his direction. Almost the position next to the third-order wolf demon's chest was flipped to the other side of the wolf demon.

The index finger and \*\*\*\* of the right hand merged into a sword finger, and Xuanyu moved the hand, making the \*\*\*\* shine with a pure white jade color, and they pierced the eyes of the wolf demon who was turning around like lightning. 818 novels

"Pfft!" The slender fingers spread into the warmth almost instantly. In terms of physical strength, Tang San must be far inferior to this third-order wolf demon, but he hit the vital point, and with the same level of energy, he would never again. No luck.

Under the injection of Xuanyu's hand, Xuantian Kung almost spun into the wolf monster's brain. So much so that the wolf demon's other eye burst open in an instant, and its brain was twisted into a mess. The roar stopped abruptly as if the neck was stuck, and the strong body fell to the ground.

Tang San kicked on him with his toes, turned over and landed in a far away place.

The result of this attack was due to the help of his rich combat experience in his previous life. The child's thin body and the dark night are the best cover, plus the third-order wolf demon is in a rage, and his perception is weakened.

In a frontal confrontation, even Tang San's Xuanyu hands may not be able to break through the thick skin of the wolf monster. However, the eyes are the most vulnerable place, if the eyes are pierced and the energy of Xuantian Kung is injected, then the dead cannot die again.

Both feet landed on the ground, and the third-order wolf demon on the other side was also silent. Only then did Tang San breathe a sigh of relief. He was not in a hurry to check on the human being, but quickly lay down on the ground and pressed his ears to the ground, listening to the movement around him to see if there were any pursuers.

With his current strength, it would be very difficult to confront the third-order wolf demon head-on. No matter how good his skills are, his young body is too weak. Once hit by a wolf demon, it is likely to be fatal. In the seemingly simple attack just now, he actually went all out to raise his spiritual will to the highest level.

There was no other movement around. Obviously, only two third-tier wolf monsters were chasing and killing those who could transform into humans. This also made Tang San breathe a sigh of relief, otherwise, he could only choose to escape.

Only then did he walk towards the human being, while remaining vigilant.

When he came close to that person, he suddenly found that the hair that had grown on that person's body had disappeared. It made Tang San's heartbeat increase a bit.

Given his childhood situation, and the fact that he was not related to the transformed human being, the safest way before was naturally not to make a move, and wait for the wolf demon to leave. But he still chose to shoot. One is because it is human beings who are hunted down. Another important reason is his transformation just now.

In Tang San's original world of Douluo Continent, there was a soul master with a beast spirit who could possess similar abilities. It can also continue to grow and become stronger by cultivating the beast spirit.

If there is a similar ability in this world, for him, if he can learn it, it will be of great benefit to his own strength improvement, and it will be easier to integrate into this world!

Chapter 1199: a man with a system appears

The security personnel continued: "Sir, you can leave the lady to me without worry, don't worry, I will definitely protect her safety."

"Sorry, no need!"

Qin Yuan's voice was cold, and there was no room for negotiation. Seeing this, the man had no choice but to give up, and then returned to his seat.

Because the driver was wearing a helmet and a mask, Qin Yuan didn't see it clearly. Anyway, it was arranged by Jelson himself, so there shouldn't be any problem.

Halfway through the helicopter, the man sitting in the co-pilot handed over two bottles of water and a little food. The child was very happy to see the biscuits and reached out to pick them up.

Unexpectedly, Qin Yuan directly rejected it, "Thank you, we don't need it."

The man was also a little angry when he saw this scene, he was obviously here to pick them up, besides, what outrageous things could he do to his young lady?

"I don't know what you mean, but your skeptical attitude towards me makes me feel very uncomfortable. I was also sent by our boss himself. Do you think I will hurt her?"

"Oh!"

The man said a lot, but Qin Yuan only replied with one word. He was very angry. The girl looked at the biscuit eagerly, but she didn't dare to resist. After all, the aura on her body can completely deter this kind of child.

But the journey back is not short, it takes more than three hours by helicopter.

The child was also a little hungry, and he kept swallowing his saliva. Qin Yuan had no choice but to take the biscuit anyway. He opened the biscuit and ate a piece first. There was nothing wrong with it.

Although the man was a little angry when he saw this move, he could still understand it. After all, it was all for the safety of the child.

"Forget it, I don't want to argue with you either, no matter what, we are all doing things with money."

There were no problems along the way, and Qin Yuan's vigilance was relaxed a bit, and the child's food was quite quiet.

And it was obvious that Belle also knew the man who gave her the biscuit, and called enthusiastically, "Uncle Fossey."

The man agreed with a smile. At this moment, the child suddenly blurted out when he saw the man who was flying the plane.

"Uncle Reminke, I didn't expect you to be here. That's great. I haven't seen you for a long time. I miss you so much."

When Qin Yuan heard this name, his spirit tensed instantly. After all, isn't this name the bodyguard next to Jelson? He had doubts about the bodyguard before, so he quickly grabbed the child.

Fossey next to him hurriedly explained, "Bell, I think you are wrong. How do you know that he is Remink? That guy is with the boss now, there is no way he will be here."

Unexpectedly, the child was a bit firm, she shook her head, pointed with her little finger and said loudly, "Because Uncle Reminke has a worm pattern on his hand, I always remember it."

When Qin Yuan heard this, he turned his attention to that person's hand. Sure enough, this guy was the bodyguard.

It's just that the other party hasn't acted rashly yet, Qin Yuan just hugged the girl, and then carefully fumbled for the skydiving equipment from under the seat.

Because in this case, generally this kind of helicopter has a skydiving backpack underneath.

Fossey also noticed something different. After all, it wasn't Remink when they set off. They have professional drivers here, so how could it be him?

Under Fossey's questioning, the person next to him became impatient and simply took off the mask on his face.

"It's me, what can you do with me? Let me tell you, I have installed a self-destruct device on this plane, and it will never land."

"What! What nonsense are you talking about? What do you want to do?"

"Hahaha, what I want to do is the man behind me. He should never have done that. He can't bring that child back. I can't let that child get out alive."

Fossey rushed to grab the steering wheel, but it was too late, because no matter how much he pulled up the control lever next to him, the speed of the plane did not drop at all.

Qin Yuan also knew that it was useless. From the fact that the dwarf girl was able to turn her whole body into nothingness in order to keep a secret, he could tell that these people were ruthless.

This guy also had the idea of dying together, no matter what, even killing Qin Yuan would be a good thing for him.

At this time, Fossey rushed forward and hugged Reminke in the driver's seat and shouted: "Hurry up and take the child to skydive, this guy is crazy."

Qin Yuan had doubted this person before, and it seems that there should be no problem, but his attitude of speaking made him a little suspicious just now, and he even covered himself at this critical moment.

Unexpectedly, Reminke laughed loudly, "Do you really think you can jump out? Now there is only one skydiving backpack, and you are thousands of meters high. Can you hold that child?"

This guy is getting more and more crazy. I don't know what was brainwashed before, but now he has started talking nonsense, Qin Yuan can't control that much.

Fossey hurriedly ran back and tried to open the hatch, but the helicopter had been tampered with, and the entire cabin was in a closed state and could not be opened at all.

Seeing this situation, Qin Yuan stepped forward and kicked it away. Fossey next to him was completely stunned. The strength must have been too great. He kicked the helicopter door away with one kick. .

In an instant, the strong wind rushed in completely, and the whole cabin began to sway. Seeing that the operation was about to fail, Lei Mingke desperately began to adjust the joystick, and went down quickly. He didn't want Qin Yuan and the others to parachute.

Fossey jumped straight into the joystick, and kept urging Qin Yuan to take the child to skydive.

In fact, Qin Yuan wanted to save him. Of course, it didn't work out like this. After all, there was only one skydiving backpack, and that guy was an ordinary person. out of control state.

The child was so frightened that he cried, and Qin Yuan couldn't care less. If he didn't jump, it would be too late. He took one last look at Fossey, and just jumped straight down.

He quickly put on the skydiving equipment, and then jumped straight away. He was used to such a height, but the child had never seen such a scene, and was trembling in his arms with fright.

Qin Yuan felt that things were not that simple. Could there be some secret hidden in this child? Why do these people want to kidnap again, and then continue to do things that hurt the child, even if it is for revenge, it is a bit unreasonable. Did they know the news so quickly?

Qin Yuan took the child to the ground safely. The child was obviously terrified and said nothing. Qin Yuan slowly untied the skydiving equipment and quickly observed the surrounding terrain. They jumped into a forest. Now he doesn't know where they are. which location.

He didn't have much experience in coaxing children, so he could only take out the remaining half box of biscuits from his pocket and hand it to the child.

Then a loud bang was heard, and thick smoke billowed in the distance, causing the helicopter to crash.

Qin Yuan's footsteps were also relatively fast. He carried the child on his back and walked towards the hillside. Usually, he could see the specific situation after climbing up the hill.

Now he dare not contact Jelson, because there are too many internal factors, even this bodyguard can sneak in, it seems that if he informs him again, it will only attract other killers.

Normally, he would never be afraid of these killers, but this time the incident was also related to the masked man, so he had to take some precautions.

When Qin Yuan climbed to the top of the mountain, he looked into the distance and saw a road on the opposite side. Originally, he planned to travel through the jungle, but now he didn't have any equipment and would just get lost in it.

No matter how powerful he is, if he can find a specific coordinate on the road, then he can know the direction.

After the scare just now and the tossing along the way, the child has already fallen asleep lying on Qin Yuan's back.

Qin Yuan had just climbed onto the road, and there were cars stopping along the road. After all, seeing him carrying the child on his back, he wanted to take him for a ride, but Qin Yuan refused. He doesn't believe anyone now.

Just when he was halfway there, a prompt sound came from the system.

"Remind the host that there are people with systems within a radius of two kilometers."

Qin Yuan didn't have time to think about it, so he quickly jumped into the gutter next to him. After a while, a car whizzed by, and the system's notification was getting closer and closer.

Now he is very wary of such systematic people, he hastened to ask:

"The system, can you sense what kind of system it has? How about the level?"

"It's too fast, I can't sense it. Only when the host contacts me personally can I make an in-depth analysis, but the body can conduct remote analysis in the future."

In any case, it seems that the system needs to be upgraded before those functions can be used.

But fortunately, his ability is not bad now, at least he can remind himself, looking at the extended road ahead, he intends to follow up to have a look, his speed is nothing compared to a car, just need to keep bending over , and then advance inside the gutter.

It's not raining now, and the gutter is relatively dry, and the wide gutter also hides his figure.

When Qin Yuan followed halfway, he found that this car was heading for the place where the helicopter crashed. After a while, the car stopped on the side of the road, and three people got out of the car. They planned to get down from here.

According to the system's prompt, the three people in front were all systematic, and Qin Yuan didn't dare to act rashly, mainly because he was worried about the voice that could control his abilities.

Now he is more and more suspicious of what is in this girl that can make these guys react so quickly, no matter what the cost.

Qin Yuan watched them go down, then quietly walked around the car, and glanced at the direction there. He couldn't take this risk, he had to go back first.

Qin Yuan also determined the direction. According to his speed, it is estimated that he will be able to reach Jelson tomorrow morning.

The girl woke up once in the middle of the journey. After all, the tossing along the way made the girl a little unbearable and kept crying.

Qin Yuan could only put it down and let him rest first. He himself could withstand the toss, but after all, this is a child.

At this time, Qin Yuan stretched out his hand and patted the girl's forehead. This was the first time he used the system to analyze ordinary people.

Although his own system doesn't have that powerful function, what he has is a recovery system. He intends to use this loophole to let the system analyze directly.

"System! Perform recovery analysis."

This was the first recycling, and the target of the recycling turned out to be a human. Unexpectedly, the system also started to analyze it.

After a while, Qin Yuan wasn't sure if something happened in the installment, but the system didn't respond, as if it was stuck.

"Answer the host, this child's physical ability is very special, no accident, he is of the same type as you."

"What does this mean? Is he also being dragged into the experiment?"

"It's not clear at the moment. I can only analyze the child's physique. Her physique is very similar to yours, and she can accept a powerful system."

Hearing this, Qin Yuan instantly understood why these guys had been vying for this child before, they should have experimented with the toxin on the child.

No wonder when he found the child, he found that there were more than a dozen toxins hidden in the child's body, but the child was still alive. He didn't expect her physical strength to be so strong.

This can also show that those guys are trying to find the child at all costs, and even know that when they are with the child, they directly issued an instruction to destroy, plus the people with the system who came behind, they definitely received it. Instructions from the masked man.

I didn't expect that there was such a big conspiracy behind this. Fortunately, I had kept an eye out just now. If I rushed up rashly, I might be directly controlled, because the masked man knew his existence, and he would definitely send out the one with the special voice in the future. system.

Thinking of this, he seized the time even more, picked up the child directly, and then quickly ran towards the destination. Now he must hand the child back safely, and must upgrade his system as soon as possible.

He was earlier than expected, around 4 o'clock in the morning he saw Jelson's employment group.

And Jelson knew that the helicopter happened at the end, but he couldn't contact Qin Yuan. He suspected that both Qin Yuan and the child had an accident.

But when Qin Yuan appeared in front of him with the child, he rushed forward and hugged the child tightly.

"Mr. Qin, I really don't know how to express my feelings at the moment, but I really thank you very much. I thought you had an accident because the helicopter suddenly lost contact."

"You guy, I don't even know what to say about you. You almost killed us. Aren't you being rigorous in picking someone yourself? I told you to keep an eye on that bodyguard, and you released him."

Speaking of this, Jelson was also very helpless. He asked Lao Zhang to supervise the bodyguard. Unexpectedly, Lao Zhang was also attacked at the last moment, and finally \*\*\*\* with the pilot sent out.

#### Chapter 1200: System Upgrade

Jelson didn't expect this to happen. It was too late when he knew the situation, and he could go out to investigate, but the people he sent out had no news.

Qin Yuan just said slowly: "Forget it, it's useless to talk about those, and I told you before you look at the people you photographed, they have completely rebelled, I told you about this matter, But you didn't take the lead."

But after thinking about it, he is just an ordinary person. There is really no way to face a terrorist organization like the masked man and the others. It can be said that it is impossible to guard against.

"Mr. Qin, I am really very grateful to you for saving my daughter. No matter what, I will immediately agree to any conditions you said."

"This is not necessary, but I do have something to tell you."

Qin Yuan is not interested in those material things now, because his system has already accounted for 20,000 merit points, and the child has now successfully returned.

Now the system is automatically upgrading, as long as the upgrade is over, he can be said to be fearless towards the masked man.

Knowing what Qin Yuan was going to talk to him about, Jie Ersen immediately sent someone to take the child down.

"Mr. Qin, I'm curious. I don't know if you have seen my wife or if he has been killed."

"I'm about to tell you about this. Your wife is one of the masterminds who planned this mutiny. But I don't kill women, so his life and death have something to do with us."

Jelson's expression changed instantly when he heard this, because he couldn't believe it at all.

"How is this possible? We have been together for ten years. Will he really stab me in the back? How is this possible? And he took our daughter away."

"There are some things you have to accept. I can't explain many details to you one by one, but all you need to know is that because your so-called wife, your daughter has been being experimented with, and the toxins in her body have been eliminated. I cleared."

Jelson was shocked by the news again, and he never came back to his senses until Qin Yuan told him about what happened.

It's just not as exaggerated as he said, because this is definitely unacceptable to an ordinary person, and he didn't disclose any organization. He didn't want this man to get involved.

When Jason learned that his wife was already with another man, he was completely shocked and punched the table.

"This \*\*\*\*\* really dares to do this. It's fine if she betrays me. Now that she has pushed our children into the fire pit, what on earth is she thinking!"

In any case, Jelson is also the boss of the employment group. He has more than a dozen employment teams under him, but in the face of such a situation, he couldn't accept it for a while. He was plotted against by his bedside person, and his child was also implicated.

"Mr. Qin, I am very grateful to you for saving my daughter. I promised before that as soon as my daughter comes back, 300 million cash will be transferred to your account immediately, but now I have another request."

Qin Yuan knew what this guy meant without even thinking about it. He definitely wanted to help him kill that woman, but Qin Yuan saw that woman was relatively innocent, and she didn't belong in this situation. In the battle for the front, he is nothing more than a puppet.

"I know what you're going to say, but I can't meet this condition. I won't kill women, unless it's not necessary, like some female killers. In other cases, I won't violate my principles."

"If I also pay 300 million in cash, can you kill her for me?"

At this moment, Jelson hated his wife so much that his wife's mercenary squad was pushed out of the fire pit by his wife, and his daughter almost couldn't come back, so he must let that woman die.

"If I'm not wrong, it's very difficult for you to pay me 300 million in cash now. Manage your group well. There aren't many formalized ones."

Qin Yuan patted him on the shoulder, then turned around and walked out, and then threw out a card number, "I have my principles, and I don't want you to be too persistent about some things. Now that the child has come back, there is no need for other things. Think, just put the money on this card."

I have to say that Qin Yuan is very straightforward in doing things. The matter here has been resolved, and he doesn't want to stay here any longer and waste time. He has to go back quickly, because there are still a lot of training matters waiting for him over there.

"Mr. Qin, I still have a lot of questions that I haven't had time to ask you for advice. Although I have no money now, I would really like to ask you to stay as my instructor and help me train soldiers."

"This! Let's talk about it later, I also have other things now."

Jelson hurriedly chased him out, but Qin Yuan had disappeared, so he quickly grabbed a person next to him and asked:

"Where was the person just now? Why did he disappear after running out? Which direction did he go from?"

"Boss! Who is it? We haven't seen anything."

What?

Jelson couldn't believe his eyes, and there were so many soldiers around, yet Qin Yuan could come and go freely under such circumstances. How strong is this man?

The most important thing is that he thought about the daughter Qin Yuan rescued for him before, and he would probably speak loudly. Even if he wants to annex his entire group, he doesn't care, as long as the child can come back.

Unexpectedly, Qin Yuan only asked for the 300 million promised before. This person knows how to choose, and he is very particular about what to choose.

Jelson has a lot of things to do now. He needs to reorganize the entire team, clear out the traitors, and then slowly expand the team. He feels that he will meet Qin Yuan one day.

It's just that Qin Yuan's ability is really too strong. He not only found the child's location by himself, but also brought him out with a safety belt. All the people he sent out have disappeared without exception.

Although he doesn't know the specific situation, he always feels that the conspiracy this time is very deep, and it's not just something that every group boss can do.

Is there anything he can do now? There are too few people in the group that he can use now, and he can only wait until it is reorganized. Now he wants to rely on Qin Yuan, but he doesn't have that strength anymore.

On the other hand, Qin Yuan's system has been upgraded. He checked his system on the plane. In addition to the recovery function, the system also added another defense function, which he had never seen before, and this The defense turned out to be able to isolate all interference from the outside world.

"System, is this defense function able to resist that voice?"

"Answer the host, not only can it resist sound, but it can also resist all external forces. It can be said that this system has been completely upgraded to a super recovery system that is separated from the first generation and the middle generation."

Hearing this, the corners of Qin Yuan's mouth rose slightly. He had been worried before, but now he is not afraid even if he faces the masked man. Isn't that guy capable of cloning? He will kill as many as he comes, but now he has to go back to the team. He has been out for two or three days, and if he doesn't go back, it is not good to leave the team for a long time.

After getting off the plane, Qin Yuan went directly to the armed police detachment, because the team members were still waiting for him there.

Before going back, he made a phone call to the team members, just to inform them. He just went back. Unexpectedly, there was no welcome as expected, but another situation appeared instead.

Everyone was downcast, and Qin Yuan obviously felt that the aura was different. He looked at He Chenguang and asked, "What's going on now? Did something happen?"

Moreover, Captain Lei was more polite to him before. He had already said that he would come back, and the detachment would be there no matter what, but he didn't show up at this moment.

"Brother Qin, you are back. This matter is too complicated."

He Chenguang led Qin Yuan into the previous office while talking about what happened. At this moment, he saw only one person running over with crutches.

He took a closer look, but he didn't expect it to be Yang Xiaohu. He squatted down to check the injury on his leg, and found that the ligaments were broken. What's going on? He turned to look at He Chenguang.

"I asked you to train and didn't pay the training fee. You should know that if I'm fine, his belt will break and his leg will be useless."

Yang Xiaohu heard this, and quickly explained beside him.

"Brother Qin, that's not the case. You misunderstood them. The injury on my leg was not caused by training, but by being bullied by others."

what's the situation? Qin Yuan suspected that he had heard wrongly, bullying people could bully the armed police detachment.

Under their narration, Qin Yuan finally figured out what happened. It turned out that just after Qin Yuan left, someone came to challenge with a small team the next day. He Chenguang and the others were used to challenges, after all, they had often accepted them before. challenge.

But the opponent's goal is obviously not aimed at the red blood cell group.

The leader is Chen Yongguang. This guy claims to have come back from abroad. He has studied abroad for many years, mainly studying various special operations.

After returning from studying this time, he immediately formed a team by himself. Now he can't wait to bring the team to challenge. He originally wanted to challenge Qin Yuan, but Qin Yuan was not there, so he took the next best thing and challenged the trained team. team.

He Chenguang said solemnly: "At that time, I really didn't expect that guy to be quite strong. Their fighting and speed are faster than our trained players. We suffered a big loss in the first contest."

The ligament on Yang Xiaohu's leg was broken by the player brought by Chen Yongguang with a single kick. This is the first time everyone has seen this situation.

This is just the first match. Seeing the accident, everyone didn't want to continue the match, but the promoted players quit. Isn't this obviously bullying? Coupled with the fact that the competition has already started, there is no reason to back down.

The entire team behind lost to their team in terms of marksmanship, weight bearing, and fighting.

Hearing this, Qin Yuan frowned, what's going on? It shouldn't be possible. All the people he trained were trained according to the manual, not to mention better than the red blood cell team, but they are absolutely no problem against ordinary commandos.

"Since they are defeated, what are you doing to eat? Are you just watching like this?"

"We talked, and I said that I would like to come out to fight, but that person was very arrogant and looked down on people at all. He said that I am not qualified to speak on behalf of the entire group, and I will wait until you come back."

It's really an eye-opener, Qin Yuan heard this character for the first time, he didn't expect that such a thing would happen after he had only been out for three days, and he was obviously bullying others.

For challenges like this, he has challenged others before, and others have challenged them, but no matter what, as long as the other party does not do too much, he will leave room for it. Playing like this is too exaggerated. Except for Yang Xiaohu, the other players are currently hospitalized.

Yang Xiaohu suffered a ruptured ligament. The doctor felt that his current state was no longer suitable for him to stay in the team, so he issued a certificate for him. He was originally planning to transfer him to another hospital. The handover will take place in these two days. Qin Yuan did not expect Just came back.

His question was just a small one for Qin Yuan, but it was the first time he heard about Yang Yongtian.

While treating Yang Xiaohu, he asked about this person's condition.

"Why has I never heard of this Yang Yongtian? It seems that I have no impression of forming a team."

"This person is very mysterious. He also participated in the training of the Hunter School before, but unfortunately he was eliminated. Then he went abroad to start further training. He felt that the training methods abroad were much better than ours."

This is undeniable, and Li Erniu didn't care much when he heard this.

"I think this guy is a man who eats inside and outside, and is completely xenophobic. Brother Qin, you didn't see his attitude that day. I hate it now when I think about it."

"It's not admiring foreigners, it's just that they do have the ability to bring foreign things to our side, but this attitude is indeed too arrogant."

And they came to challenge by roll call. According to what He Chenguang and the others said, they not only want to challenge the armed police detachment here, but also challenge the Thunder Commando.

"HeheIt's really a lack of people's hearts, and they can challenge the commando without electricity?"

Although everyone disdains this kind of behavior, Ruan Ruan is a little more worried, because if this guy can beat all the people he picks out from the training manual, then he probably has some strength.

"Did they say when to go?"

"It seems to be just these two days, why Brother Qin? Are you worried that he will really defeat the Thunder Commando? Stop joking."

"I said that you are underestimating the enemy now. Do you know the reason for this failure? They scattered you and defeated them one by one. What's the use of that? What is the purpose of my forming a team?"

To be honest, Qin Yuan was really slapped in the face this time, because the team he formed had passed the test before, and he did not expect to be defeated by other teams.
