

Special Soldier 1201

Chapter 1201: Had an accident!

Zhao Yongtian used to have a very arrogant personality, but under Qin Yuan's training, his personality has gradually subsided, but his abilities are excellent in all aspects, especially in fighting. There should be no problem. Was it broken?

After careful questioning, Qin Yuan realized that the captain was really not simple. He actually saw everyone's weaknesses, just like Yang Xiaohu, who is very good at other shooting and armed assault with heavy loads, but he is only a little short of being promoted to fighting.

So the captain asked to break down one by one, according to his previous distribution, he played directly at once, and Yang Xiaohu faced the most powerful fighter in their team.

"Brother Qin, it's really weird to talk about it. Those people are too skilled, especially the one I was fighting. I didn't have any power to parry at all. I could do one or two tricks on the street at first, but later he was completely It's with killing intent."

Qin Yuan believed what he said, because he knew that Yang Xiaohu's character would not be like this, besides, everyone will have a rule in the competition, just go as far as it goes.

He kicked and broke the ligaments of others. If it was not intentional, he would never believe it, because no one can achieve such absolute strength as him.

Not to mention the rest, they were aimed at the weaknesses of each of them. From the beginning of the armed raid to the final load, they all lost.

Because the purpose of Qin Yuan's formation of the team is also to hope that they can cooperate with each other. In fact, in general, they really have no problem, but this guy is too cunning, so he just disperses them and uses the strongest person in their team. Beat their weaknesses.

"What do you think of Chen Yongguang's team members?"

Li Erniu thought about it carefully, and to be honest, he also admired it.

"Let's talk about the guy who broke Xiaohu's ligament with a kick. He was so frightened that every move was carried out according to our standards for killers. Every move was a killer move, very fierce, without any reservations."

"Not only that, but their load has fully met our requirements. We usually carry 35 kg, which is enough, but their load is 50 kg, which is exactly the same as our special forces."

He Chenguang also noticed a detail, that is, the members of their team were very indifferent, they had no communication at all, they were all following orders.

"I don't know if it's my illusion, maybe it should be that they are too strong, I shouldn't have such doubts, but I always feel that they are too disciplined, but there is nothing..."

He Chenguang really didn't know what words to describe, until Qin Zhengyang reminded him: "There is no humanity at all."

At this time, everyone suddenly realized, and they all noticed it. This can be described as Iron Warriors. In the usual training among them, everyone will be sparse, because this is a normal reaction, even when it is serious. , at least somewhat humane.

However, from the beginning to the end of the competition, none of the team members said any harsh words, and they were completely following orders, feeling like puppets on strings.

After understanding the situation, Qin Yuan decided to meet this so-called commando in person.

At this time, the detachment leader also came back from the outside in his car. He had been in meetings outside the city for the past two days, and it was really because of the defeat of the commando team.

As soon as he got out of the car, he had a solemn expression on his face. After all, the commando team had just been formally established, so he was slapped in the face without thinking.

Qin Yuan just felt a little sorry. He didn't expect that the commando team he had trained would lose so thoroughly. Under normal circumstances, it would not be possible, because they had also fought against his own red blood cell team. The team's sense of unity and cooperation is completely fine.

"Lei Detachment, I'm really sorry. I didn't expect things to turn out like this. I will take the main responsibility this time, and I will make timely adjustments in my training."

After all, he had promised him before that he wanted to train a unique and excellent commando, but he didn't expect it to become like this now.

But the Lei detachment didn't mind, "Captain Qin, what you said is too serious, there is nothing wrong with it, but this so-called commando came too suddenly, they not only defeated the commandos in our team team, and I heard that the team over there has also been challenged by them all over the place."

what! !

This news was quite surprising. After Lei Detachment's explanation, everyone knew that this commando team had been established for a year.

This Chen Yongguang also gave his commando a well-known name, called the Fox Hunting Commando, not only that, but also gave himself the nickname of Killing God.

Because Qin Yuan is the God of War, he gave himself the nickname of Killing God. He revealed inside and outside that he wanted to compete with Qin Yuan, but he never had this opportunity, because Qin Yuan has been fighting intermittently this year. are performing various tasks.

So they had no chance to meet at all, and then this person was calm enough to lead his team members to train every day, and then challenged various teams. After this year, commandos everywhere Be challenged by them all over.

The guy in the back became more and more arrogant, and started to challenge Qin Yuan directly. This time he came to the Armed Police Detachment, knowing that Qin Yuan was still training the team members here. He didn't expect that he would not meet Qin Yuan when he arrived, but saw him instead. The trained commando just threatened to challenge.

After hearing this, Qin Yuan snorted coldly. This guy does have some tricks, but the commando team he trained is just to crush others, and it doesn't mean much.

"I think this guy is just too arrogant. He has completely forgotten the original intention of the commando. The commando we trained is to serve the people and the country. How did it become the reason for him to compete?"

"Who knows? It seems that this guy got a little stimulated in the hunter school, and then he got out of control."

Qin Yuan became more and more interested. At the beginning of the Hunter School, he had retreated completely. What kind of character is this guy? He was getting more and more interested.

As for the matter on the side of the armed police detachment, Qin Yuan planned to wait for that guy to be cleaned up before coming over to give them intensive training.

This time, he was really in a hurry. There was still a week to make up the amount of training in the training manual. Because of this emergency, he couldn't wait to upgrade his system.

If according to the system, the amount for this month is insufficient, then there shouldn't be any major problems.

Qin Yuan thought for a while and discussed the situation with the head of the armed police detachment, and said that he would come to make up for their training after he finished solving the problem, which would definitely strengthen the team.

Looking at the back of the people willing to leave, the head of the Armed Police Detachment had a solemn face, because this Chen Yongguang has been very famous in the past year, and Qin Yuan was performing tasks everywhere, so he didn't know much about it.

"Detachment Captain, do you think Captain Qin can really defeat that guy? This guy is really crazy."

"It's hard to say. Although Captain Qin is also very good, that guy is not a vegetarian. He has defeated many commandos in the past year."

"However, we have already reminded everything that should be reminded. Captain Qin should be fine."

"I also hope it can be like this. The main reason is that the guy is too arrogant. He won't give anyone face at all. I'm worried about other problems."

The detachment leader sighed helplessly, he had already said what should be said, no matter what, he still hoped that Qin Yuan could win.

Just halfway on the way, Qin Yuan received a call from Long Xiaoyun. He felt something was wrong, and just after he picked it up, Long Xiaoyun directly told him the address of a hospital, telling him to come to the hospital as soon as possible.

After careful questioning, it turned out that Yan Wang of the Thunder Commando was injured and is now in the hospital.

What's more, this time the incident was quite big, and several palms had already passed. After all, we were all commandos. Although the higher-ups did not object to such a competition, such a competition has seriously threatened the lives of the team members.

After Qin Yuan hung up the phone, he asked He Chenguang to turn around and prepare to go to the hospital. Originally, they wanted to find the Thunder Commando, but it seemed that they had already finished their competition.

"What's the real situation? That boy Yan Wang is very good at marksmanship, and he is also good at fighting. We have all competed before and suddenly got injured."

"It's not clear at the moment. If he compares marksmanship with others, it stands to reason that he won't be seriously injured, but we'll see the situation after we get there."

He Chenguang speeded up, and when Qin Yuan and the others arrived at the hospital, Long Xiaoyun was waiting for them at the door, just as he got off the car, Long Xiaoyun ran over impatiently.

"Qin Yuan, listen to me first, don't mention anything after you go in later, just keep quiet, and then see if you can find a chance to see the situation of Hades first."

Long Xiaoyun was rarely so solemn, Qin Yuan felt a little uneasy, and he quickly asked: "What's the situation?"

"What else can happen? Hades is now in a vegetable state, with a bullet in his head, and the doctor said he dare not perform an operation casually. If the nerve is damaged by the operation, he may not even be able to get off the operating table."

Everyone was completely stunned when they heard this, what's going on, why is the bullet in the head? Did he perform any mission?

As Long Xiaoyun led them upstairs, he explained that Chen Yongguang had brought his commando directly to the Thunder Commando, and threatened that he had already defeated the commando trained by Qin Yuan before. Not worth mentioning.

This guy is very arrogant, if he speaks all kinds of harsh words there, Lei Zhan will definitely quit. No matter what this kid says, he can't slander his comrades like this.

Therefore, Lei Zhan also directly agreed with his statement, and immediately responded to the challenge. However, because the Thunder Commando team had other tasks, they planned to directly use a project to compete.

At this time, Yan Wang stood up. He admired Qin Yuan very much and absolutely did not allow others to slander him like this, so he was the first to stand up unconvinced.

Then a man came out of Chen Yongguang's team. This man claimed to be the number one sniper in China.

To be honest, this person's tone is really not small, Yan Wang instantly felt provoked, and they had slandered Qin Yuan before, so they directly had a showdown with him, and the two placed a life-and-death bet.

As snipers, the first thing to consider is concealment, so the two of them each occupied a hill, concealed themselves, and then shot.

At that time, safety was also considered, but both of them were snipers, and if they used training in that position, the effect would not be very good, so both sides used their own guns.

It's just that for the sake of safety, it has been agreed that as long as you aim and hit the target behind the opponent, you will win.

Everything went smoothly at the beginning, neither side did anything, after all, they were still in the observation stage, and later Hades discovered the existence of the sniper on the opposite side, and he didn't want to hurt others, and he also maintained respect for his opponent.

Just when he was about to shoot and hit the big tree behind the opponent, suddenly a golden bullet hit him directly.

The speed of this sniper rifle is an armor-piercing projectile, and it is impossible to dodge at all. Hades didn't pay attention at all, and fell to the ground in an instant, unconscious.

Lei Zhan panicked in an instant, this was the first time this happened during a competition, everyone rushed to send King Yan to the hospital.

Hearing this, everyone is very angry. You must know that as a sniper, he actually understands the importance of the target. If he claims to be the number one sniper in the country, he should know what the target is. This kid is completely suspected of doing it on purpose. .

"Damn, what is the origin of this guy? How did you deal with it later?"

Long Xiaoyun sighed helplessly, what else can I do? It's all on top now.

"I came down early to stop you from being so impulsive. Now both parties are still in the mediation stage."

"How can we adjust this? It's completely deliberate Does he really think we haven't fired a shot? This is directly killing the enemy, not competing."

"We also think so. Lei Zhan is also in a bad mood, but there is nothing he can do now. That guy insists that he was injured by accident. Who knows that he will be hit suddenly?"

Qin Yuan couldn't help but swear when he heard this. This guy really said something. To a layman, it is very likely that this is an accident, but as a special team, especially the experienced , how could something unexpected happen.

In addition, facing his comrades, even though he is now the target of competition, he will not shoot so decisively. This is completely intentional.

Long Xiaoyun came down to stabilize Qin Yuan's mood, because now several leaders are here, this time it is considered a serious accident, and the King of Hades has not yet woken up.

Chapter 1202: medical miracle

Qin Yuan nodded to show that he knew that the moment the elevator door opened, he saw Lei Zhan squatting at the stairs, his face was solemn and haggard.

Of course Qin Yuan knew what he was thinking? As a captain, even if his team members were injured, he did not fulfill his responsibility. He must be the most self-blaming in this situation.

Also as the captain, he stepped forward and patted Lei Zhan on the shoulder.

"Brother, don't put so much pressure on yourself, sometimes it's just human effort."

"I'm all to blame for this matter. It would be fine if I didn't agree at the beginning. You can go in and see him."

Lei Zhan's voice was very hoarse, and the team members beside him were also silent, and everyone squatted at the door of the ward.

Qin Yuan walked over and looked into the ward, only to see a few leaders inside, and a doctor standing beside the ward, explaining the situation to them.

Qin Yuan didn't hesitate either, he just opened the door and walked in. Several chiefs were obviously taken aback when they saw him. Everyone knew that Qin Yuan had a good relationship with the Thunder Commando, and they were all worried that he would make trouble, so they went to the door early. Send Chen Yongguang and the others away.

"Oh, it's really Cao Cao. Cao Cao will be here soon. Your speed is quite fast."

People who are familiar with each other didn't make any detours. They just looked at the people on the hospital bed, and said, "I know you have nothing to do now. This doctor still invites you to go out. Of course, I have my own way to save him."

The doctor next to him had gray hair and looked very sophisticated. He couldn't believe Qin Yuan's words.

"This comrade, I don't know what you are talking about, but based on my experience, this person is completely hopeless, and he can't wake up without surgery."

Qin Yuan really didn't want to waste time, because he saw that the aura of Hades lying on the bed was already very weak, and if he continued like this, he might not be able to save him, and his voice became extremely cold.

"I just want to say one more thing and ask you to go out. I will definitely save my comrades."

The atmosphere became very delicate for a while, and the doctor felt that Qin Yuan's attitude was too arrogant. After all, he didn't give any face to so many chief executives, but what he didn't know was Qin Yuan's achievements, and how With his meritorious blessings, he is definitely qualified to stand here and speak.

A chief standing on the side still played a smooth game, after all, no matter what, we couldn't let everyone go down the stairs.

"Qin Yuan, all of us can understand your feelings, but you also have to believe in science. Now the doctor said that his situation is just like this. There is no way, we have to accept the reality, do you understand?"

"Chief, I'm really doing this to save you, otherwise I wouldn't be so polite. I'm here to speak, because saving people is the most important thing now. I don't shy away from saying that I have a set of ancestral medical skills, and there is absolutely no problem."

The doctor couldn't believe it when he heard this, it was absolutely impossible, what kind of traditional medical skills, isn't this nonsense? It is simply incredible that traditional art is used to treat surgical trauma.

The chief still wanted to speak, but Qin Yuan suddenly looked over. At this moment, his eyes were full of murderous intent, not because of his intention, but because the aura of Hades was dropping sharply.

The electrocardiogram has already issued an alarm. If he doesn't take action, Hades may really die.

Everyone was intimidated by this look. You must know that the few chief executives present were also people who had experienced great storms. They did not expect Qin Yuan's eyes to be so terrifying, full of undeniable meaning.

Several chiefs glanced at each other, knowing that this guy is not easy to mess with, after all, he is a figure at the level of God of War, and who knows what this kid will do? In this way, several people exchanged glances.

"Okay, Qin Yuan, then do as you said, let's go out first."

The doctor next to him felt that he had heard it wrong. Isn't this too exaggerated? The official titles and positions of several chiefs are all higher than the person in front of him, but why do you just listen to him?

The chief next to him pushed the doctor and told him to go out quickly. The doctor was very unconvinced and was still gurgling when he came out.

"I've never seen anything like this before, don't you know? The patient is very dangerous now and may die at any moment. Are you just letting him mess around like this?"

"This is not something you should manage. Since your hospital has no way to draw a knife, why not let the rest of us try."

The person who spoke was Lei Zhan. He strode over from the end of the corridor. Now the only person he could trust was Qin Yuan. When Qin Yuan came, he saw hope in his eyes.

He is very clear that Qin Yuan will not make promises casually, as long as Qin Yuan can say something, he will definitely be able to do it, so now he will not let anyone influence him.

But the doctor also felt that this matter was really ridiculous, and the patient might still be saved now, but when Qin Yuan was going out just now, he saw that the patient's ventilator was pulled out, isn't this just nonsense?

"I don't care what decisions you are making, but I will absolutely not allow you to mess around in this place, it is a human life."

"I don't allow you to influence my brother here."

The more Lei Zhan talked, the more excited he was, he rushed forward and grabbed the doctor's collar, and the several chiefs next to him hurriedly shouted and told him to let go.

"That's enough, Lei Zhan, are you going to disobey the order? Now let go of your hand immediately."

The team members next to him didn't know what to do for a while, everyone just gathered around, but the chief's face became more and more ugly, just now Qin Yuan didn't give them face, it's fine, Lei Zhan also came here to mess around, what kind of place is this?

"Just now I felt that your team members were lying in it, so I gave you some face. Let me tell you, if you do this again, I will directly send you to a military court."

Lei Zhan's attitude was very firm. With a cold face, he directly blocked the door of the ward. Other team members also stepped forward to block the door of the ward, not allowing the doctor to enter.

He knew very well that Qin Yuan was the only one who could save Hades, so he didn't allow anyone to go in and destroy it.

He knew very well in his heart that even if he wanted to go to the military court, he felt that enough was enough, as long as his brother could live, he couldn't care less.

There was a lot of noise outside, and Qin Yuan was trying his best to rescue him inside. For him, this problem is not a big problem, as long as he still has a breath, he can save him.

Long Xiaoyun also hurried forward to explain that she was only helping, and she looked at the faces of the chiefs very badly, mainly because Lei Zhan was really too shameless.

"Several chiefs, I hope you can also understand that he didn't mean that, he just wanted to save his brother's life."

"But you have to be clear that this is a hospital, not a place for you to mess around. First of all, it is your bounden duty to obey orders as soldiers. We have given the opportunity, but you have been messing around here."

At this moment in the ward, Qin Yuan had successfully pulled Hades back from the line of life and death. He wiped the sweat from his forehead. To be honest, the situation this time was so dangerous that he was holding the bullet in his hand.

The armor-piercing bullets from this sniper rifle completely damaged the nerves. His rescue this time completely repaired his brain nerves, and the bullets were successfully removed.

If it was not intentional, he would never believe it. At this time, Yan Wang also slowly woke up. He looked at Qin Yuan in front of him and understood instantly, because he knew that at the moment he fell, he knew very well. .

However, he is also very lucky. You must know that this kind of headshot damage is basically killed on the spot. The luck is better because they are far away. This bullet did not completely penetrate him, but got stuck in it. The position of the brainstem saved his life, otherwise the gods of Da Luo would not be able to save him.

He looked at the bullet in Qin Yuan's hand, and couldn't help rubbing it in his hand.

"I didn't expect that I owed you my life again. I don't know how many times you saved me."

"They're all brothers, what are you talking about? I have to say that you are really lucky, if you deviate a little bit, this bullet will go through your head, and we won't be able to see you."

Hades smiled helplessly, what can they do? To be honest, he is a little scared now, he didn't expect that he didn't fall on the charge, he didn't fall on the way to kill the enemy, but was almost killed by his own people.

Thinking of this, he clenched his fists, and then said through gritted teeth: "That kid definitely did it on purpose, I can see his target from my sniper, and he should be able to see me too, but he just ran towards me from the head."

"I'm also very clear about this, plus what he claims to be the number one sniper in the country, I've never heard of him being so arrogant."

"I seem to have heard about this before, but because we have been performing missions before, we didn't pay much attention to the things over there. It seems that there was such a character."

At this moment, the noise outside became more and more intense. The doctor felt that he could not leave his patient alone, and wanted to rush in with someone. At this moment, the door of the ward opened, and the doctor was full of surprise. He couldn't believe the King of Hades at this moment Standing in front of him intact.

Not only that, Yan Wang actually walked up to several chiefs and saluted a standard military salute, how could he still look sick like before?

Everyone was completely stunned. You must know that what they saw just now was hanging in one breath, completely maintained by machines. They did not expect to be standing in front of them alive and well.

Lei Zhan was very excited, he stepped forward and hugged his brother tightly, this kind of lost and found feeling is really too complicated.

"It's good that the brat comes back, I know that as long as Qin Yuan is here, it will be fine."

Reluctantly, the doctor stepped forward and pulled Hades to start checking around. He even took a lamp to shine on his pupils, and checked the place where he was injured before. The previous scars were all gone, which is simply amazing.

Although it was a traditional medical technique, he had never seen such a powerful one. Even if he could save people alive, in just a few minutes, they stood in front of them alive and well. It was really unbelievable.

Several chiefs were also completely stunned. They had heard about it before, but they had only heard that Qin Yuan had a special traditional medical skill, but they didn't expect it to be shown directly in front of them now.

The doctor even began to doubt himself. The problem here has been solved. Qin Yuan said with a smile: "Several chiefs, now he has no problem, can we be discharged from the hospital? After all, there are other things to solve."

Everyone knew what Qin Yuan was referring to, but the accident that happened this time had already attracted the attention of the higher authorities. Such competitions were originally against the rules, and live ammunition competitions were also used.

"Qin Yuan, you have to know that this competition has completely violated the rules, and we don't want this matter to develop to the point where there is no way to control it."

"Chief, what does that mean? Since that guy injured my brother, should it be ignored? It's not something that can be solved just because of an accident during a competition."

When King Yan heard this, he was extremely moved. At the critical moment, Qin Yuan really stood up without hesitation.

"Qin Yuan, I hope you can see your position clearly. You are now the captain of the red blood cell team. You don't need to do those unnecessary things. Now you only need to do your job well. We will handle this matter."

"Chief, then you may have misunderstood me. I don't mean that I want to take revenge. I just want to see how good this guy is. We are all just competing."

But no matter what Qin Yuan said, the chief here absolutely cannot agree, because they absolutely cannot accept any more losses when this happened.

Now the situation is very serious, they must control the development of the situation, from the beginning of the competition, if it continues like this, it is very likely that they will fall into another cycle.

Originally it was just a simple competition, but in the end it turned into another kind of hatred, and this situation became uncontrollable.

So now they have to stop it in time, and it is impossible to compete again. The two commando teams are excellent for them, especially Qin Yuan's red blood cell team. They absolutely do not allow anyone to be injured again.

Qin Yuan knew that it was useless to continue talking, so it was better to go back and talk, and he believed that according to Chen Yongguang's thinking, that guy was definitely not one to give up easily.

With such provocations again and again, he will definitely come to find himself in person, because his ultimate goal is still himself and his team.

So Qin Yuan didn't stay long, and the chief saw that there was no problem here, he just explained a few words, and asked them to prepare a written review. When the time came, they would review in person at the meeting, and everyone left just like that.

On the way back, Lei Zhan once again sincerely thanked Qin Yuan, he really did not expect that Yan Wang could be rescued.

"I'm really responsible for what happened this time. As the captain, I shouldn't have agreed to such an unreasonable request. If it wasn't for you this time, then we really need a brother."

Chapter 1203: movable freighter

"For this matter, I don't think the main responsibility is your fault. If you think about who can be so ruthless in a competition, it's all the ghosts of those boys."

Qin Yuan pointed out the problem straight to the point. He never felt that there was a mistake in the competition, but this was on top of the normal competition.

If they compete normally, they can discover each other's shortcomings, just like the team he trained this time, when he did leave due to special circumstances.

There was still a week of training to be completed, and he didn't expect to be broken one by one like this. He believed in the manual very much, and if he made up for that week, it would definitely be fine.

In addition, the people in this team are indeed quite powerful, and they can directly discover the weaknesses of each of their members, which is really something to see.

Thinking of this, Lei Zhan sighed silently, "Do you know? At that time when I saw the boy Hades, I was really scared and at a loss. I have seen many corpses, but I really can't accept it. Seeing my brother of."

"Anyway, this matter is endless. Since they won't let the competition, I will find a way."

Lei Zhan looked at Qin Yuan gratefully, he knew that he would take the blame for them.

"Anyway, there is absolutely nothing we can do. After all, we dare not refute what the above said. We almost went to the military court just now."

"Don't worry, leave this matter to me. If you want to negotiate with others, you must have strong capital. I will definitely talk about this matter."

Originally, after the competition was banned, Qin Yuan wanted to take the initiative to find them, and then see what this guy meant. At worst, he could avoid the people in the team and challenge him outside. He had to deal with this guy well.

Unexpectedly, before Qin Yuan went to find them, there was another news. They had just returned to the Special Operations Brigade. This time they had been training outside for the past few months, and they hadn't been back for a long time. Unexpectedly, Gao Shiwei Seeing them coming, he handed a document to Qin Yuan directly.

"It just so happens that your kid is back, and go to the Southern Military Region to hold this meeting for me."

"Captain Gao, I've just come back, my ***** is still hot, and you're starting to command me again."

"Stinky boy, don't be poor. It's good to let you go this time. I've heard about the Thunder Commando, so I let you go this time. You can take Lei Zhan with you."

I would like to hear that some don't understand what this means. After his questioning, I realized that Chen Yongguang couldn't take it there, and now he proclaimed himself the God of Killing there.

Moreover, the team with him has won three consecutive championships in the military region over there, two firsts.

When Gao Shiwei said this, he frowned slightly, "I have to say that this kid seems to be really capable, so why not go in, there is no shortage of soldier kings over there, but when he selected the team before, he did not choose from among these people, are some ordinary soldiers."

This kid only studied abroad for three years. After returning, he started to form his own team. Within a year, he developed rapidly and became their current Fox Hunting Commando.

The philosophy he pays attention to is completely foreign. At present, although they have not conducted any actual combat, they have never lost in the competition between the various teams. The Black Tiger commando team has a contest.

Qin Yuan of the Black Tiger Commando has heard about it. To be honest, the captain of the commando Qin Yuan is very familiar with him. He even asked Qin Yuan for advice before, and he was very polite anyway.

"Team Gao, if I remember correctly, the results of this Black Tiger commando team are also very good. According to the ranking of our national commando team, they can all enter the top ten."

"Yes, this time according to the regulations, the leaders above said that they can no longer compete in private, but they are not able to compete in various aspects of tactics and functions. This time the competition is very special."

The competition this time is very interesting. The two assault teams are the attacking and defending teams. The most important thing is that the performance of the Black Tiger Commando has been very good. They have also performed various missions. The competition is very interesting, because to be honest in the team, most of them rely on the survival of the fittest.

Under normal circumstances, a competition like this is quite interesting, so I invited a leader from the military region to observe it together, which is also to add some experience to my team.

Gao Shiwei gave this opportunity to Qin Yuan, the main reason is that he doesn't lead the team very much now, the main person who leads the team is Qing Yuan, so let him study hard, coupled with the thunder and lightning assault team, this time it can be regarded as a meal deficit.

Although it was just a simple competition, they could also learn lessons from other people's competitions.

Qin Yuan nodded, this is no problem, and he looked at the date of the competition is only three days later, it seems that he can see that Chen Yongguang.

The rest of the team had seen this person before, but Qin Yuan didn't take it seriously. He just felt a little curious. In this short period of time, he could quickly set up a commando team that swept across the country. This person should be very capable. powerful.

He did have an idea, mainly because now he is training various commandos, if they want, he can guide them, so that he can quickly build an existing commando, then he can also get merit points .

"Chen Guang, you have been in contact with this commando team before, do you think he will agree if I help them train?"

When He Chenguang heard this, he suspected that he had heard it wrong. He was a little surprised and looked at Qin Yuan, "Brother Qin, I heard it right. Let me tell you the truth. This kid will never agree."

"Why do you deny it so quickly? I think you can try something that is promising. After all, our group is relatively famous."

"Brother Qin, I know what you mean, but I'm talking about this person. This person is so arrogant, and he didn't say anything extra during the whole process. He was just provocative."

Others also felt that it was absolutely impossible for Qin Yuan to train them, because this guy's own goal was to run towards Qin Yuan.

But no matter what, Qin Yuan wanted to give it a try. He wanted to complete the goal quickly, and the 20,000 merit points could be added to his own team, or directly given to the Thunder Commando.

Qin Yuan took a closer look at his system after returning to the dormitory, because it had been upgrading before.

This time the system has become more humane, and it can also conduct direct analysis on people. Before, he needed to contact people to analyze. Unexpectedly, now he just glanced at the strength, speed, and All the specialties are shown one by one.

Qin Yuan glanced casually at the guard standing in front, then stepped forward and patted him on the shoulder.

"Xiao Liu, you should strengthen your arm exercises in the near future, or else you will not be able to pass the pull-up next month."

The guard was taken aback when he heard this, Qin Yuan hasn't come back for a long time, how could he know that his pull-ups are not good? And not just pull-ups, but his entire arm strength training, especially grid climbing.

"Captain Qin, you are too amazing, you just look at me like this, and you know what I'm not good at."

"Generally, the main reason is that there are too many soldiers. I think you should continue to strengthen push-ups in your situation. First, exercise your hand strength. The main reason is endurance."

The guard nodded repeatedly when he heard this. With Qin Yuan's suggestion, he can make better changes.

There is nothing wrong with the system now. If you encounter the masked man, you can take him down.

Thinking of the masked man, Qin Yuan called Li Kang and the others again, because he hadn't contacted him for a long time, mainly because of 23's memory recovery, which was what he was most concerned about.

Unexpectedly, there was good news from Li Kang. 23's memory had recovered, and he could remember where the masked man was at that time.

Qin Yuan looked at the time. If he went now, he would definitely be back within three days. Even if he couldn't kill the masked man within these three days, he still had to go find out the truth first.

This time, Qin Yuan kept an eye out. He didn't tell anyone about his system upgrade, including Li Kang.

Because since he was caught by the masked man last time, he felt that there must be a mole in it.

The object of his suspicion is getting more and more serious about that Long Xiaoyun.

It's just that he doesn't know why, he can conduct brainwashing interrogation on anyone, but it doesn't have any effect on that Long Xiaoyun.

He doesn't believe in any feelings, he only believes in his own systematic judgment. At present, Zhang Meng, Zhao Tao and Li Kang, all three of them have completely passed the review, there is absolutely no problem, only Long Xiaoyun.

It was already late at night when Qin Yuan came, and he had to hurry up now. As soon as he entered the door, he saw Long Xiaoyun sitting on the sofa smiling at him. At this moment, he felt more and more that this smile was fake.

23 was very excited as soon as he entered, he hurried out and said, "You know what? I remembered, that guy is on an island, and that island can be moved."

what! !

Qin Yuan was confused when he heard that this place is a movable island, what is it?

To be precise, it can't be regarded as an island, but an extra-large cargo ship left over from World War II. After their transformation, it can accommodate thousands of people.

There are radar facilities on it, which can hide the entire cargo ship, so it can move at any time, and it is not easy to be discovered by others.

Qin Yuan understood it when he heard this. No wonder he searched so many places before. He felt that this guy was too mysterious. He couldn't find his foothold all the time. He didn't expect it to be a mobile one. This can also explain it.

"Then can you take me to that place now?"

23 shook his head, he just remembered a specific situation in that place, but he had already said before that he was mobile, he didn't know exactly where, but he could take Qin Yuan to the last time he remembered place, I can only say try my luck and see if I can be there.

When the two of them said this, Zhang Meng deliberately walked over, she was just avoiding suspicion, because last time Qin Yuan suspected that there was an internal traitor, Zhang Meng knew that she should not hear these things by herself, so she walked out silently.

As for Zhao Tao and Li Kang, both of them are straight-tempered. They didn't do anything, but they were still helping out with ideas. They really wanted to solve the problem, and Qin Yuan had tested them before. any problem.

Such a comparison made Long Xiaoyun's suspicion even greater. She sat quietly on the sofa the whole time, without saying a word or raising any opinions, as if she was listening to their arguments seriously.

Qin Yuan didn't avoid suspicion this time, and Long Xiaoyun didn't know if she would take such a risk. If she was really a traitor, then she could go over there and see if this guy had tipped off the news in advance.

23 After finishing speaking, Qin Yuan pressed his shoulders and asked him to take him there now, because he didn't have much time, only three days, anyway, let's go and have a look first, so as to confirm his conjecture.

"Brother Qin, it's not that I'm afraid. I've also figured it out during this time. If we go rashly now, it will be very dangerous. What should we do if he is still there?"

"Don't worry, I am sure of this matter. I know what to do. Now you just need to do what I say. I don't have much time left. This time I have a tight schedule."

"Okay, then I'll go with you."

Li Kang also prepared other things for the luggage that he brought up above. It has to be said that money can turn ghosts around.

"I can't help you in other aspects, especially in terms of force, but what I can help you with now is to book a private helicopter for you. You can rest assured of the concealment."

Having said all of this, it must be no problem. At this time, Long Xiaoyun stepped forward and said worriedly: "You must pay attention to safety, I will wait for you to come back at home."

"Don't worry, it's definitely fine. He didn't think much about it at all, because he didn't expect that the person beside him turned out to be a mole."

He and Qin Yuan boarded the helicopter and followed the route in his mind. Qin Yuan was not a problem for flying a helicopter.

Along the way, Qin Yuan kept asking how long it would take, and he was counting the time.

"How long is it from here to where you said?"

"We can park the helicopter on a nearby small island. In my memory, there are several small islands there, but in order not to expose the target, we can go further back."

23 is also analyzed according to the current situation. If it is too close, the target of the helicopter is too big. They have not been close, and they have been discovered by others. It is a freighter with thousands of people.

Chapter 1204: Find the mole

"No, you misunderstood me. How far is it now? Tell me an approximate distance so that I can determine the direction."

Although 23 didn't understand, he estimated the direction. According to their current progress, they can reach the location he said in at most 20 minutes, and that place is relatively hidden, so he has already planned it.

Qin Yuan thought for a while and then asked again: "Is the place you mentioned really hidden?"

"There should be no problem. We have patrolled there before, when I was still organizing."

Thinking of this, Qin Yuan suddenly called him to stop, and then the two turned around and stopped directly on a piece of wasteland below.

"Brother Qin, why did you ask me to stop here? It's still a long way from where we are going to arrive. It will take 20 minutes by helicopter. If we can't do it, it will probably take an hour or two."

Not only that, but when they got to the front, they were all at the seaside. They had no way to walk at all, and could only find nearby boats.

23 thought that Qin Yuan was worried about revealing his direction, so he said to stop the helicopter here in advance.

"I can't tell you so much now, but you can wait for me here. It does take two hours to get there at your speed, but mine is the same as the speed of the helicopter, and it will take 20 minutes."

23 was surprised to hear this, how is this possible? It's not that he looks down on Qin Yuan, but that the road here is difficult to walk, and they have no way to discern the direction at all.

"Brother Qin, this is not acceptable. Only I know the direction I told you before, but I have no way to express it, because the road there is very complicated."

It is just to cross the wasteland in front, and there are many waterways. After the waterways pass, it is even more difficult to discern the direction on the vast ocean.

This is also what 23 was worried about. Qin Yuan thought about it, so he just took him with him. Originally, he was thinking about 23's safety, but after thinking about it, he might as well just take him with him.

"Come on, I'm carrying you on my back, my speed is very fast, otherwise you won't be able to keep up at all."

23 Of course he knew Brother Qin's ability, so he didn't think much about jumping directly on his back. After a while, he felt the wind blowing in his ears, because Qin Yuan's speed was so fast, His current speed is comparable to a high-speed off-road vehicle, moving forward rapidly in this wasteland.

Soon they saw a vast ocean in front of them, and 23 began to recall carefully, because before they started patrolling by boat, the nearby points are where they patrol, and they have to ensure that there are no people within a radius of 5km every time. any signs of activity.

This is why the masked man is very cautious, he has never been discovered, and he will order his subordinates to patrol a very wide range.

In this way, under 23's instructions, Qin Yuan started to swim in the water with him on his back. 23 thought they would sink directly. Thinking of Brother Qin's strength, it seemed that he would never run out of strength.

Qin Yuan's speed was so fast that he was not affected at all. The speed in this vast ocean was the same as on land.

23 was very surprised that this ability was too strong, not only his fighting skills, but even his ordinary swimming skills were dozens of times stronger than ordinary people.

But now 23 only needs to be on his back to navigate the route. After a while, 23 is very excited looking at the island in front of him.

"Brother Qin, it seems that we have already arrived. Just turn around the island ahead and you will be able to see the big freighter."

But the expression on Qin Yuan's face became more and more serious, because he knew what it meant, but now he didn't say much, and the two came to the nearest small island together.

As soon as I climbed behind a rock, I saw the large freighter in front of it, which was parked there quietly, and I could see some armed personnel patrolling on the deck.

23 was a little excited, "It's the place I mentioned, it seems that my memory is not wrong."

Qin Yuan just glanced at it, and then planned to leave. 23 was a bit wrong, and they finally came here after spending so much effort, did they leave just to take a look?

"What's going on here? Should we just go back like this? If you cooperate with me according to your ability, at least you can give them a little loss."

"No, I'm here just to confirm my conjecture. First of all, this is a trap. We don't need to jump in, although I'm ready."

Now that his system has been upgraded, Qin Yuan is not afraid of the sound around the mask at all, but the time is not yet ripe, and there is no need to rush to solve some things at this time.

He knew very well that such a long time had passed, how could it be possible that the freighter was still parked here? With the cautious character of the masked man, it was absolutely impossible for him to stay in one place for so long.

23 also said before that they would change positions every once in a while, but this time they stopped right here. Isn't this just waiting for them to fall into a trap, what else could it be?

So Long Xiaoyun is definitely a traitor among them, and now he needs to go back and deal with this traitor.

23 Although he didn't understand, he still followed Qin Yuan's choice. On the way back, Qin Yuan thought about it. He couldn't startle the snake so quickly.

Since that guy put in so much effort to put Long Xiaoyun by his side, then he will use it back, and now that he sees through him, it won't do him much good.

Because if Long Xiaoyun was useless, the masked man might have sent someone else in.

At that time, it will be really hard to guard against. Now at least I know that the guy is a traitor, so I just need to guard against her alone.

After thinking twice, Qin Yuan still told 23 next to Long Xiaoyun the actual situation. He was also very shocked when he heard it. He didn't expect that the last traitor would be the woman who appeared to be harmless to humans and animals.

At this moment, he also understood why Qin Yuan let him go back. This was obviously a trap, and there was no need for them to go in.

"Brother Qin, this is too much. Let's do this. I will definitely tear that woman into pieces when I go back. He almost killed us all. This is a disaster."

"The purpose of what I'm telling you now is to make you take precautions. You can't startle the snake now. You must understand it according to my plan? After I go back, I will find a way to inform other people. Anyway, you have to take precautions against her. But she couldn't find it."

23 believed in Qin Yuan very much. He saw Qin Yuan's ability, and he was even more convinced that if he followed Qin Yuan, he could really protect him. He nodded repeatedly.

On the other side of the villa, Long Xiaoyun was very worried. She had been waiting for news, but no one came back.

At this moment, the roar of the helicopter came from the roof, Long Xiaoyun was a little puzzled, and Li Kang also felt strange, was it resolved so quickly?

After a few minutes, I only saw Qin Yuan and 23 walking down, Qin Yuan's face was calm, but he couldn't see any expression, while 23 looked serious.

"I said what's going on with you guys? How did you come back so quickly? Did it go so smoothly? That guy is dead?"

"Oh, don't ask, it's all my fault. I really can't remember where the exact location is. I only have a general impression in my mind. You all know that I was injured before."

"What! I went out with you for a long time and got nothing. Let me tell you, if you are really in doubt, it will not be troublesome for you to ask Brother Qin to accompany you on this trip."

Zhao Tao is a straightforward person, but he has no bad intentions. After all, everyone wants to solve the matter quickly, otherwise they will be in danger. They are like products of failed experiments, and all their fates are in their hands. In the hands of the masked man.

23 also quickly cooperated with the performance. He said that he was injured before, so his memory was short. This time he took Qin Yuan out for a circle, but he couldn't find the place, so he had no choice.

"But I can definitely remember the approximate location. Don't worry, this will be a matter of time."

"I'll just say you're unreliable. It's really delaying the matter. I thought it would be resolved today, so we are here to worry about it."

At this time, Qin Yuan looked at Li Kang and said, "By the way, when did you buy that helicopter? I feel something is wrong."

Li Kang was taken aback by this question. His helicopter is brand new and has never been used before. How could there be a problem?

"Why don't you believe me, who has driven a military helicopter, see if you can find someone to fix it. By the way, come up and let me tell you what the problem is, so as not to cause problems when we use it next time."

Li Kang quickly followed Qin Yuan up, and as soon as he went upstairs, Qin Yuan lowered his voice and told him about Long Xiaoyun. It's the traitor.

"What can we do? Will we be in danger when we get along with such a person?"

"Don't worry, it's been such a long time. Besides, you are actually the safest place in this position. I also think about your safety. I don't have the spirit of cleaning. I will find a way to notify the others. Remember to Can't be exposed."

Of course Li Kang understood Qin Yuan's plan, he nodded his head to show that he knew, so Qin Yuan tried to tell Zhang Meng again.

As for Zhao Tao, Zhao Tao's thoughts are too simple, and he can't tell him about this matter, otherwise he will be impulsive, as long as the other three know that they are prepared.

"You have to remember that if there is any situation when I return to the team, you should inform me in time. I have certain things, but the time has not yet come to my side. It must be fine. When the time is right, I will put it They caught them all."

"Don't worry, just leave it to me on this side, and I will report to you as soon as possible if there is any situation."

Because Qingyuan was going to participate in the competition, they were invited to observe and observe, so Qin Yuan went to find Lei Zhan.

"Although I know you have good intentions, I won't go."

"Why are you so unconfident? Did your team members give up on themselves after losing once? You don't even dare to look at the face?"

Lei Zhan shook his head, he was just very disdainful, "If you go over there to watch, it's just to watch their performance. I'm not interested in these jumping clowns at all, and that guy is too arrogant."

He felt that instead of watching those people's performances, it would be better to train his soldiers' abilities and improve their abilities.

"You guys have committed that stinking problem again, don't worry, I didn't let you go to watch the excitement, but to watch another kind of excitement, how could I just let them perform? Do you think I can swallow that?" A man of breath."

Lei Zhan realized right away in an instant, if Qin Yuan could see it, maybe he could avenge them.

Because the number of places is limited this time, the two of them can't bring other team members, so they can only go together.

Yan Wang also hurried forward and said: "Brother Qin, you must clean up properly when the time comes, that car is too arrogant, this incident, it seems that they just took a punishment and it's over."

"That's why I said that the handling was too light. This has already involved murder. It's really funny to try to cover up the past with just an accident."

The King of Hades had lingering fears about the last experience, and he was too scared of the feeling of being on the verge of death.

If he was facing the enemy's muzzle on the battlefield, he would never back down, but precisely because he was one of his own, he had no defenses, and if he was suddenly hit in that situation, he would more or less shrink back.

Fortunately, Yan Wang's heart is strong enough, otherwise I don't know if he can persist in the special forces.

When Qin Yuan and Lei Zhan arrived in the south, they found many old acquaintances.

Especially Qin Yuan, after all, is also a famous person, and people greet him everywhere.

"Captain Qin, I didn't expect you to come this time."

The one who greeted Qin Yuan was the former brigade commander of the 43rd Tank Brigade. Qin Yuan had been to his company before and took those soldiers for training, so everyone is familiar with it.

"Chief, hey, look, we haven't seen each other for a long time, it seems that we have been busy fighting since the last training."

"You brat is still so polite, how dare I compare with you, you brat is full of military achievements, we can't compare."

"Chief, you are too polite to say that. No matter how many military workers there are, I can't compare with you old comrades. After all, your experience is precious."

"Hahahaha, it's still interesting to talk to you kid, unlike some people now, who start to float after a little achievement."

"Chief, what's wrong with you? Who dares to make you angry?"

Chapter 1205: Competition between 2 teams

The brigade commander of the tank brigade didn't say anything, but just pointed to the distance, "Forget it, I'm not that kind of villain. I used to be open and frank all my life, and people will say that I said bad things about them. ."

The brigade commander of the tank brigade was talking about the special warfare team led by Yang Yongguang.

The brigade commander didn't say anything, and the guard next to him directly told the whole story. It turned out that when they first came, they had a defiant attitude.

Because they feel that they have already defeated all the domestic commandos, large and small, so they immediately put forward their competition conditions after they came, and everything must be done according to their conditions.

"Captain Qin, you don't know how arrogant those guys are. When I mentioned this, I was very angry. They didn't pay attention to us at all. It's really too much to talk about conditions with open mouths."

"You guys talk too much every day, let's talk about what Captain Qin and the others are doing. Everyone is here to watch the game, so just play well."

Lei Zhan next to him was very familiar with this attitude, he spread his hands helplessly.

"Did you see it? That's the situation. It was the same when I met that day. They won't say anything, but the conditions they put forward are very harsh."

In this way, Qin Yuan became more and more curious about the captain, but before everyone sat down, the situation over there changed again, and several jeeps drove up to the playground, and asked everyone to get on the jeep first. Now it's time to move on to play elsewhere.

The brigade commander was even more angry when he heard this. He had endured it before, thinking about waiting until the game was over.

"What are they going to do! Are the changing conditions again and again really playing tricks? The venue on our side has just been set up, what are they going to do?"

As soon as the brigade commander finished speaking, he saw a man in camouflage uniform approaching.

"Old Zhao, your temper is still the same as before. It hasn't changed at all. Besides, my soldiers didn't say anything. They just wanted to change the venue. What's wrong with that? Don't you dare to fight?"

This guy sounds polite, but his tone is a bit tit-for-tat.

Qin Yuan squinted his eyes and looked at the man for a long time, but he didn't recognize the man in front of him. He was sure that he had never seen this man before, and he didn't have any epaulets on his shoulders, just an ordinary camouflage training uniform.

Before Qin Yuan could speak, the man took the initiative to say hello. He came over and patted Qin Yuan on the shoulder.

"Oh, I didn't expect to see the legendary God of War. It's really good. But, today we have a God of Death here. I don't know who is better between you two, hahaha."

This guy's tone is really arrogant, and he doesn't mean to respect people at all.

"God of War or God of War or something, I think it's all a false name. After all, it's all given to me by others. As a person, I always like to talk about actual combat and fame."

"I am indeed, but well, you must give some young people a chance. I heard that your team is very famous, so you can't always occupy the spots."

"This leader, I don't know who the killing ***** you mentioned is. Anyway, I have been performing missions recently, but has the killing ***** you mentioned made any achievements?"

As soon as the words fell, the face of the man in front of him turned ashen, and he couldn't speak for a while.

He just smiled awkwardly, then turned and left. After he left, the brigade commander of the tank brigade burst out laughing.

"I'm talking about Qin Yuan. I have to say that you are the one who can make this guy speechless in an instant. Why didn't I hate him like this?"

"Chief, I don't understand. Who is this guy? Why is he so mysterious, and he speaks aggressively."

"This guy's name is Zhang Long. He used to be a political commissar of the military region corps. Later, he advocated learning from the outside world. What he learned was the training plan of some foreign special forces."

Anyway, generally speaking, this guy is the direct leader of Chen Yongguang. Recently, Qin Yuan and the others have been busy with tasks and training.

So he didn't pay attention to the situation in the country. Now the country has begun to change, abandoning the old training methods before, and also introducing some special training methods from abroad.

However, their foreign training is mainly aimed at the small team, so this time Qin Yuan received the task and also formed a small team. These two tasks seem to conflict.

In fact, the leader is making a comparison to see which side's training results are more effective, whether it is the things returned from overseas training or Qin Yuan's personal ability.

Qin Yuan was at a loss for this task, because Gao Shiwei hadn't told him about it at all. He thought he was just here to be a spectator. No wonder that guy was so gunpowder just now.

According to the commander of the tank brigade, the special warfare team formed by the two of them is here for PK.

"Chief, I didn't hear wrong just now, you should mean that the leader wants to see my team compete with his team, right?"

"That's right, don't you know? Lao Gao didn't tell you that these are all documents approved before."

The brigade commander of the tank brigade instantly realized that he had said something wrong. After all, Gao Shiwei would definitely tell him something.

"Forget it, you kid, don't ask. There may be other reasons, so I didn't tell you. Now you just pretend that I didn't say anything. Remember, don't talk."

How could Qin Yuan miss this opportunity? I kept asking, but I didn't expect that the old guy refused to reveal a word, so everyone came to the car together.

They didn't even know the specific location of the competition, they just said that it seemed to be on some kind of ice. Although they were a little unhappy, everyone could only follow along patiently.

Just taking this opportunity, the brigade commander of the tank brigade in the car also knew that this was not a bad thing, so he couldn't bear Qin Yuan's constant questioning.

"Anyway, you will know what you should know about this matter. This competition is a normal competition. I want to see the strength of both of you, and at the beginning it didn't seem like this guy was going to compete."

It turned out that Zhang Long directly set up the military status in front of the leader, and he was also very arrogant, because he firmly believed that the soldiers brought out by his theory would be absolutely fine, which was much better than the traditional way of leading troops.

Moreover, he bluntly said that Gao Shiwei's special warfare brigade was the one he wanted to challenge. You must know that the special warfare brigade has been established for many years, and this guy will challenge the most difficult challenge as soon as he comes. Give it a try, after all, if there is competition, then there will be competition, and if there is competition, everyone will be under pressure, and only then can we move forward together.

"Do you know? The leader originally let him do it, and this kid did make some achievements, but what happened to their Thunder Commando last time."

Although the man was rescued, it almost caused irreparable consequences, so he was not allowed to go and compete alone. All competitions must be formalized.

Qin Yuan also got another news from the commander of the tank brigade. It turned out that this guy was always trying to challenge his red blood cell team, but was stopped by Zhang Long.

Hearing this, Lei Zhan couldn't help laughing out mockingly, "It's really funny, he really doesn't know the heights of the sky and the earth, he just opened his mouth and shut his mouth to challenge the red blood cell team, no matter in our country or abroad, he can already be called For those who are ranked, he opens his mouth to challenge, he is really not afraid of death."

"Who said it wasn't? But Zhang Long is sober, so he has been preventing them from having a direct confrontation with the red blood cell team, and he is asking for your news everywhere, so you must pay attention."

Qin Yuan just smiled at this situation. It would be too easy to message him. Now the whole country has its own training materials.

Because what he wants is to share all his experience, and it is too easy to know his own situation, even if he is so prepared, it is impossible to guard against.

"Chief, don't worry, let him investigate how he wants to investigate, anyway, if it comes, it will be safe."

"I really admire your kid's self-confidence, it's pretty good."

A few people were talking when they saw that the car had left the road and came to another dirt road.

I don't know what the ***** this Zhang Long is doing. He brought everyone to this place because he really wanted to have a large-scale field competition. That's not what he said before.

The Black Tiger Commando is also trying to fight in the field like this, so there is nothing to be afraid of. Anyway, if you compete, you can do whatever you want.

When Qin Yuan and the others arrived, they realized that they were near the snow-capped mountains, and there were already soldiers setting up tents nearby as a temporary stronghold.

But no matter who you ask, everyone is in a state of ignorance. Once you ask, you don't know what the ***** this Zhang Long is going to do. Why did you bring everyone to this place?

Some people in the crowd couldn't sit still anymore. After all, in this situation, isn't this playing tricks on everyone? Is there anything I can't explain clearly? In the end, someone got impatient and began to complain, and Zhang Long came out at this time.

"Don't be impatient, everyone. I will show you a good show right away. This time is unprecedented. I believe you have seen many competitions, but have you ever seen a competition on ice?"

Hearing this, Lei Zhan was also quite surprised. This was the first time he had seen such a training method. He might not even be able to stand on the ice. Although they had trained before, they were all on snow-capped mountains. The training ground has been moved to the ice, which is really the first time we have seen each other.

In addition, the ice surface is very wide, which is not conducive to concealment at all. In terms of their current camouflage uniforms, if they don't wear camouflage training uniforms for snow combat, they will be easily spotted, and snipers have no way to lurk.

Qin Yuan is used to it. He knew what this guy wanted to do when he saw the snow-capped mountains. This is the traditional way of training mercenaries, because the environment in each region is different. If he uses this trick, he really learned it from abroad. here.

In some foreign countries, their living conditions are relatively harsh, especially in places where wars have been fought all year round. In winter, their winters will be very long. In some places, winter is winter for four or five months a year, and it is covered with snow for a long time.

So they can only be forced to train on the ice to improve their ability to survive and fight.

But to be honest, this method is too impractical if it has to be used in China, because this kind of situation is rare in China, and it can only be used in competitions to bluff opponents.

Originally, Qin Yuan thought that this person was capable, but it seemed that he could only copy other people's things and had no innovation of his own.

They are completely bullying their own people, because there is very little such training in the country, and the combat conditions on the ice are not suitable for their operations at all.

"I didn't expect this guy to have so many crazy ideas. It seems that the Black Tiger Commando is going to suffer. They don't seem to have done training like this."

"It is certain that they will suffer a loss. They should have done a lot of this kind of training before. It looks very advanced, but in my opinion it is completely put on airs."

Qin Yuan's voice was very loud, he didn't hide anything, Zhang Long obviously heard it, and up to now, Qin Yuan hadn't seen his so-called mysterious special team.

This guy is quite calm has already arrived at the place, but he has done a good job of keeping secrets.

Zhang Long came over, and he obviously heard what Qin Yuan said just now, "Captain Qin, it might be a little bad for you to say that, the tactics we have worked so hard to research, you just directly deny it, will this not Some are too underestimating the enemy? I remember that in some of your theories, the most important thing is not to underestimate the enemy."

This guy really did his homework too much. He said everything Qin Yuan said before. The purpose was to slap Qin Yuan in the face, but he targeted the wrong person.

"Commissioner Zhang, I'm just skeptical. Your current training method is just like what I said. I think it's all a show, but whether you recognize it or not is another matter."

Unexpectedly, Zhang Long was a little unhappy when he heard this sentence, and he said loudly: "Captain Qin, please find out my identity, I am no longer the former political commissar, I am now the captain of the special operations team ."

This is really a great official authority, Qin Yuan is too lazy to argue with him, he knows the general idea from this person's behavior.

Anyway, let him do whatever he wants, wait to watch the game first, and then say, "I really can't help it, so what do you think I should call you? If you really want to care about the title and fame I have now, you should call me Chief!"

It has to be said that Qin Yuan can only deal with him. Zhang Long was speechless for a while when he heard this. He forgot about this matter. Others keep a low profile, but it doesn't mean that others have nothing.

Qin Yuan has made so many contributions, his military rank has long been above them, but he feels that those things are too empty, if he wants to compare, it is a real competition.

Chapter 1206: bully!

Zhang Long was kept speechless by Qin Yuan, and instantly felt that he lost all face, so he could only clenched his fists, thinking that his team would get back the face.

"Forget it, Captain Qin. I don't want to worry about these things. If that's the case, why not watch the game carefully. If you think it's a show, then please give me some guidance."

"Of course it's no problem. I like to help others guide the most. You must study hard when the time comes."

These words are really watertight, completely mocking them, and Qin Yuan also became a wave of teachers.

The brigade commander of the tank brigade kept holding himself back from laughing. It was difficult for him to see Zhang Long being treated like this. Usually, this guy is too arrogant, so he was supported by someone standing on top of him, because this guy This year's results are really not bad, defeating so many special warfare teams in a row.

"It seems that I really have to keep you kid, because this guy is too rampant, and only you can deal with him."

"I just can't get used to this kind of person. After learning some fur from abroad, he came to China to show off. What a good money he has, but you have to be prepared, the Black Tiger Commando is very likely to lose."

Next, each of them received the specific situation. This time, the Tiger Commando was the attacking party. The commando led by Chen Yongguang was on the other side of the ice. As long as they could attack that side, they would victory.

Qin Yuan frowned even more when he saw this. To be honest, the idea of the Black Tiger Commando was too memorized, and the attacker could be drawn by any draw.

Because according to the current situation, they are already familiar with plane combat. If they are used as the starting lineup, they will have an advantage.

It was the first time for the Black Tiger Commandos to come into contact with such a combat environment, and now that they had a completely open field of vision without any hiding places, it was simply too difficult for them to fight directly.

Qin Yuan quickly analyzed the situation. The current situation is too unfavorable for the Black Tiger Commando. He can only look at the future and then go to guide him if it doesn't work.

This kind of game is refreshing for many people. After all, they are seeing it for the first time. Everyone is discussing their own plans. There is no way, they quickly make their own plans.

The captain of the Black Tiger Commando has performed many missions, and his experience is relatively rich. Seeing this situation, his first plan was to use the shield as the main blocking assault force in the front, and then use heavy weapons to carry out a strong attack .

He looked around. He originally wanted to arrange the snipers around, but after looking around, there was no suitable ambush location at all. The main reason was that the color of their clothes was too obvious, which disrupted them all of a sudden. s plan.

"Captain, this is really too much. According to what they said before, our current situation is too unfavorable, and whether we can stand firmly on the ice is one thing."

"Don't worry, our combat boots are absolutely fine, and it's fine to stand firm, but the most critical issue now is that we can't just rely on the strength of the shield."

He looked at the commanding heights on the side, there was a vast expanse of whiteness, but it would be too painful to lie there for a long time.

Although the current situation is just a competition, if they encounter a real emergency, even if there is a sea of fire, they have to go there and lie down.

"How about Xiao Liu? You go to that commanding height to prepare for an ambush, and then cover us."

"Captain, don't worry, it's absolutely fine to entrust this task to me, and I will definitely cover you well."

"Okay, then Xiao Liu goes to the commanding heights over there as our back cover, Da Fei, you use heavy firepower weapons to suppress them from behind, and keep a certain distance from us."

In this way, snipers are also available, and they can provide long-range fire support to them, and heavy fire weapons will also support them in the back. As long as they are responsible for the assault, they can follow his plan without any problems.

The captain of the Black Tiger commando team made such a deployment. His final plan was to sacrifice at most two team members, because although this is an exercise, he still needs to make conversions based on the current situation. If the sacrifice rate is too high, even if this exercise is won, it is also a failure.

So he can only accept the sacrifice of two players at most, but in this case, everything is too difficult.

Qin Yuan also guessed their battle plan. At present, using shields to attack is indeed the most effective and direct plan. If you want to go around, it is basically impossible.

There is a cliff next to him. If it was him, he would definitely be able to walk on the cliff, including Li Erniu and the others, because their special operations team has different training methods and different physiques.

The physical fitness of each of them has exceeded the standard of ordinary people, and this kind of training has been carried out before, so he will choose to charge from the cliff, but the Black Tiger Commando can make such a judgment is already very good.

Everyone stared closely at the two commandos, Qin Yuan looked at the defender in the distance, and finally saw the so-called killing god.

Only a few figures can be vaguely seen, and their concealment is very strong, but the aspect of clothing is the same as them.

At present, there is nothing special to see, but this gimmick is really big.

Just at the beginning, the captain of the Black Tiger Commando rushed forward with his team members, and was attacked fiercely by them. The sniper he placed on the high ground on the side just now was targeted by them at the very beginning.

They seem to have been fully tuned in under all positions and have been fully monitored by them.

The sniper Xiao Liu didn't react at all, white smoke was rising from his body, and he was eliminated directly like this. This was the first time this happened. He was eliminated without firing a single shot.

The people around were also very nervous. The competition had just started, but they didn't expect that there would already be eliminations.

Xiao Liu was stunned for a moment, he stood up and looked in the direction of his captain, but at this moment the captain had no time to take care of him, because the opponent's firepower was too fierce, they used heavy weapons directly from the very beginning, and their shields were not at all doesn't work.

Fortunately, under the cover of heavy firepower behind them, only one team member holding a shield in front was sacrificed. This opportunity quickly retreated, although the person retreated.

But in this case, it is very difficult for them to carry out a second attack, because their numbers have been reduced, and they cannot advance under such suppression.

The captain of the Black Tiger commando cursed secretly, he had no choice but to retreat first, and then think of a way to attack again.

The match had only lasted less than ten minutes, and two of their teammates had been eliminated. This was the first time this happened.

The captain of the Black Tiger Commando was very anxious. He thought of many plans, but none of them seemed to work. Anyway, this is an open land, and it is flat. There is no way to attack at all. It's a dead end.

Zhang Long was smiling beside him, he looked smug, this is the effect he wanted, he wanted to show everyone what real strength is.

"Did you see it? This is my philosophy. Just now some people said that we are a show, but the show is really effective. We eliminated two players in just ten minutes. I don't know what you think ?"

When he said this, he deliberately looked at Qin Yuan, but Qin Yuan ignored him at all, stood up and walked straight forward.

Although it was a violation of the regulations, he must remind the Black Tiger Commando. He didn't know if such a reminder was useful, but at least it could give them a clue.

Zhang Long seemed to have seen Qin Yuan's intentions, and he shouted loudly: "Captain Qin, wait a minute, I'm afraid it's not kind of you to do this. Now it's a competition between the two teams, and no one can do it." involved."

"Hehe, you're talking to me here. Look at your soldiers training on this kind of ice. You should have trained more than once, and you've already achieved this effect. Then why are you talking to me here? ? They are truly experiencing such a battlefield for the first time."

Qin Yuan is very confident, and he has seen this kind of training, so he also has the right to speak.

"This! Let me tell you, don't slander. This is the place we temporarily chose to replace. If you do this, it is a violation of the rules."

"Slander? Do you really think that you are the only ones who have been abroad?"

Zhang Long didn't know what to say in this wave of interviews. He didn't expect Qin Yuan's reaction speed to be so fast. To be honest, this kind of training is quite unpopular, but it was only when he was studying abroad.

Specially discover this unpopular tactic of others, and then use it for domestic development.

"So I made it very clear, since you are the first to violate the rules and use your strengths to counter other people's weaknesses, then I am not violating the rules, and I am only giving off-site guidance, so what's the matter?"

As soon as Qin Yuan finished speaking, the people around him began to talk about it. It is really unreasonable to say this. Since they have already trained so many times, the Black Tiger Commando has never done such training. Isn't it true? Clearly bullying?

The leaders next to me couldn't stand it any longer. Although it was the first time for everyone to see such a training comparison method, it was too unreasonable to directly toss them to death. They didn't leave anything for the other party To save face, use their strengths to bully others.

In the end, Zhang Long still compromised, and he was actually not a compromise, because he had no advantage in the first place.

In the end, he agreed with Qin Yuan to come forward and tell his tactics. In fact, he was also very confident that no tactics would work in this situation. He had already studied it before, so he let Qin Yuan use it.

"However, I declare in advance that you can only tell them the general tactical situation, but you cannot play in person, otherwise you will really violate the rules."

"Don't worry, I will say what I have to say frankly, and I won't be like some people."

Zhang Long knew that Qin Yuan was talking about himself, since he was thick-skinned anyway, so he didn't care what he was doing, just stood by the side.

Qin Yuan strode to the ice surface. The captain of the Black Tiger Commando was sweating profusely in this situation, and the surrounding temperature was very low. He didn't know what plan to come up with for a while.

The moment he saw Qin Yuan, he instantly saw hope and hurried forward.

"Captain Qin! Why are you here?"

"Don't worry, I'm here to help you. I always can't understand that some people are simply ignorant to the extreme. They come up with some messy things, and they have the nerve to bully others."

"It's all my misjudgment. I didn't understand the plan just now, so my teammates were eliminated in vain. If this is on the real battlefield, then I owe my brother two lives."

The captain of the Black Tiger Commando blamed himself very much, but he wished to know that he was not to blame, "Don't worry, I'm just trying to find a way for you? Don't worry, you don't have to feel guilty at all, this is what they are clearly bullying. "

Qin Yuan approached his ear, and then said his planThe captain of the Black Tiger Commando's eyes lit up instantly, this method is indeed feasible.

After he thanked him again and again, Qin Yuan walked back. Qin Yuan knew the result of this time, and he would lose no matter what, because the method he said could indeed make a surprise attack, but it was only for his red blood cell team. The comprehensive ability here is very strong.

But the ability of the assault team against them this time is not bad, and there will always be some unexpected tricks, which is also hard to guard against.

The plan Qin Yuan said was also very accurate. He directly drove the field combat vehicle up. With the help of the field vehicle, they quickly entered tens of meters.

The brigade commander of the tank brigade kept applauding. It has to be said that Qin Yuan's plan is really good. With the cover of the field vehicles, they should be able to attack soon.

But when they were about to confess, two people rushed out from the side. The speed of these two people was so fast that Qin Yuan was shocked.

what's going on? The speed of these two can be said to be comparable to the speed of their special forces.

Before, Qin Yuan thought that they were going to win tactically, but he didn't expect them to win in terms of comprehensive ability. The speed of these two people was really fast, and they directly hit the tires of the field vehicle from left to right.

The captain of the Black Tiger Commando hurriedly counterattacked, but the opponent's cooperation was too tacit, and the attack on the other side continued. On the contrary, they were somewhat limited in the land-occupied vehicle.

But this can't be blamed on them, because they have very little training on field vehicles. If they have had such training before and cooperated with each other tacitly, they will be able to deal with such a situation.

On the contrary, the situation is very unfavorable to them now, and they are completely trapped inside the chariot.

Chapter 1207: showdown on ice

The captain of the Black Tiger Commando was very anxious. He turned sideways and fired a few shots towards the outside first, trying to cover his teammates and jump down.

"Don't waste time, jump down quickly, and shoot from the side to attract their firepower."

You must know that this is on the ice, and their speed is also very fast, but there is no way now, after the door is opened, a team member just jumped off.

Unexpectedly, the commando on the opposite side was faster. They quickly outflanked a grenade and rolled directly under the car. Before everyone could react, white smoke rose from the whole car.

The team member started to roll wildly, and then fought back, but the opponent's firepower was too fierce. Even so, the result was obvious, the Black Tiger commando team lost.

Standing on the opposite bank, Zhang Long clapped his hands happily, without any concealment, "Have you seen it? This is the strength of our commando team. What do you think of this strength? And in such a harsh and extreme environment, our combat speed, the combat capabilities are all at the first level, and a commando was wiped out in a short period of time."

Qin Yuan was very disdainful when he heard these words. These words were only used to coax children, and to him, they looked down upon them at all.

The captain of the Black Tiger Commando staggered out of the car. He didn't expect that they had won several awards in a row in the Southern Military Region. is very excellent.

How did you end up like this now? This was something he never thought of, and before that, he thought about eliminating two players at most.

But according to the real situation now, even the player who jumped down at the end cannot escape the blame.

Chen Yongguang walked over slowly with his team members, and when he passed by the captain of the Black Tiger Commando, he smiled contemptuously.

"We lost this time. It seems that you really deserve your reputation. I really admire you for thinking of doing training in this place."

"No, in my opinion we still haven't won enough, because in my previous budget, you should be wiped out, and I should have won 100%, but this time it is only 90%."

"You guys don't do things so terribly, everyone is the captain, don't you really give no face?"

"How much is face worth? Let me tell you what I want? What I want is number one. To be honest, if they hadn't blown the whistle just now, your last teammate would not be left."

The Black Tiger commando clenched his fists, but what can he do now? The result has already come out, they really lost, this is because their skills are not as good as others, this is not like in other competitions, in the army it is all about strength, if you can't do it, you can't do it.

Chen Yongguang led his team members slowly into everyone's field of vision, Qin Yuan only noticed these people at this time.

Among them, there are two big ones, and they are carrying sandbags for training, which is quite surprising. After all, they are doing competition now, and there is no need to carry sandbags during training, but they are not only carrying heavy sandbags, And carrying a weapon.

A sniper behind him had a stern face and was wearing sunglasses. Lei Zhan lowered his voice and said, "That kid was the one who shot Hades."

"It's really quite capable. His gun has also been modified. I didn't expect them to know how to modify it. Is this done by themselves or someone else?"

Because the weapons used by everyone in the team are unified, modified guns like this are generally used in special forces operations, and they are not counted in the strict sense. Use such a special weapon.

Lei Zhan next to him was a little surprised. They were at least two to three hundred meters apart from this distance, and he could see it so clearly.

"Are you kidding me? That sniper rifle doesn't look any different to me. How did you know it was modified?"

"This is very simple. The gunshots in front of the gun have been modified, and the sniper scope has also been modified. It has completely exceeded the normal design range, at least it is more than 1500m."

Lei Zhan was completely stunned when he heard this. No wonder Hades was hit by the trick before. It turned out that the guns were different when they competed. Isn't this too despicable? Start doing these small moves from all sides.

"I felt something was wrong at the time. How could the penetration of the gun be so strong? We had planned their distance before for the sake of safety. I didn't expect to hit the person. It turned out that the problem was in the weapon. above."

"Before I thought this was a respectable opponent, but it doesn't look like it's worth mentioning at all, it's just some tricks, especially this time they defeated the Black Tiger Commando, it's really a bit of a celebration, if it's me He left in a hurry."

Qin Yuan looked at all this coldly, and the people on the opposite side walked over completely. The others must not know the specific situation inside. Everyone only saw the result, so they all applauded for them, and I have to say that they also saw something. One is the Black Tiger Commando, and the other is the newly formed Fox Hunt on their side.

It took only 15 minutes for the battle to be completely over, and it was still under Qin Yuan's instructions. At this time, Qin Yuan noticed an unfriendly gaze towards him. It seemed that it was Chen Yongguang, the captain of the Fox Hunting Commando.

Qin Yuan didn't hesitate at all, and stared back with even colder eyes. Chen Yongguang didn't expect that he would be frightened by such eyes. To be honest, he has undergone a lot of training abroad, and he has also gone through a lot of training. Unexpectedly, under such circumstances, he was frightened by a look.

At this time, several medical staff quickly ran to the ice surface. The team member who jumped off before seemed to be injured because he jumped off the high-speed car and the hard ice surface.

But the Fox Hunt Commando didn't care at all. Now they only need to enjoy the victory and applause. Qin Yuan couldn't stand it anymore. He strode forward and stared at the commando in front of him coldly.

Zhang Long seemed to be worried that Qin Yuan would destroy his commando, so he hurriedly stopped him and said, "Captain Qin, what are you trying to do? You don't want to attack my team members on this occasion, they just came from the field of competition." Come down, now, no matter from which aspect, it is not an advantage."

Qin Yuan only thought it was funny when he heard this. This guy would really find reasons for himself, and he would find a lot of reasons for himself, but they have no reservations about bullying others.

"I just think that if I were you, I would have left long ago. I would only use these things to bully others. What kind of real skill is that? Besides, all these things you have done are just show-offs in my opinion."

The people in the surrounding stands were completely stunned when they heard this, and the expressions of the people who accompanied Zhang Long were also very bad, because this was a direct provocation to them.

"Captain Qin, what do you mean by that? We are all comrades in arms, so there's no need to say something so terribly. Are you really jealous of our victory?"

"It's too funny for you to say this. I don't need to prove anything here when I got a citizen. I just can't stand it and bully people. In this operation, the Black Tiger Commando, I think they have already obtained victory."

Even though Qin Yuan said so, no one on the field believed him, after all, everyone was looking at the result.

Chen Yongguang stared at him coldly, and now he was going to challenge Qin Yuan, but Zhang Long next to him stopped him, because Zhang Long knew that this person was difficult to deal with, and the foundation they had built with great difficulty was absolutely impossible to be defeated at this time break in.

"Captain Qin, no matter what you say, we will accept it humbly. If this is the case, we will definitely study hard."

Qin Yuan felt that this guy really had the patience to provoke him like this, but he didn't expect him to be unmoved at all.

"Didn't you hear clearly just now? I think this game is unfair. If it doesn't work, you can have another game. I can lead the team myself."

At this time, Zhang Long quit. He began to find out various reasons, mainly that they had already competed once, and it was unfair to them to compete again, regardless of physical strength. , In terms of endurance, it doesn't work.

"Captain Qin, what you said just now is indeed very reasonable. Sometimes things are unfair, so don't continue. Just like now we all know that you are very capable. You are the God of War. How can we compare with you?" Woolen cloth?"

This guy actually started to take the initiative to give in. Qin Yuan just smiled. Looking at it like this, today is not comparable. If he continues to talk like this, others will think he is too aggressive.

"Okay, then whatever you want, anyway, I said before that if you want my guidance, I can accompany you at any time."

"This is natural. After all, we are just a newly formed commando team. If you have many questions, you can ask Captain Qin for advice."

This guy Zhang Long is completely a smiling tiger. He was teased by Qin Yuan before, and he knew Qin Yuan's strength, so he restrained himself a lot now. It's time to give in, and sometimes he is the real winner.

In addition, it is forbidden now to prevent them from continuing to compete. The main reason is that they are worried about hurting people before, including all they used for training this time. However, during the training competition this time, some players were still injured. , so it is very likely that their next competition will be postponed.

Under the leadership of Chen Yongguang, the Fox Hunting Commando silently withdrew from the arena, and everyone started to play. Qin Yuan stared at the backs of those people, and he had to say that he still admired them, at least the physical fitness of these people had reached Some basic levels of the red blood cell group have been achieved.

How did they do it without the blessing of meritorious service? Qin Yuan felt very curious.

After a while, the brigade commander of the tank brigade came over, "Qin Yuan, how is it? Now that the competition is over, you really hit the mark. I didn't expect the Black Tiger Commando to lose so badly."

"Actually, it's not too bad. It's just that it's okay to be seized by some people. This matter is a piece of cake for me. The so-called flowery things they call are not practical at all."

"You're good at assault, how about you? Would you like to go to my place for a drink or two?"

Qin Yuan smiled, and then played the toy. Now he has other serious things to do. Since the commando team can't compete now, there is no need for him to stay here. I don't know what will happen later.

He planned to go back to the armed police detachment, complete the remaining courses, follow the training in the manual, and make up for all their weaknesses.

The brigade commander of the tank brigade was also very polite. He directly sent a small soldier to drive Qin Yuan and the others back. Originally, Qin Yuan wanted to refuse, but he couldn't stand it because he was too enthusiastic.

Lei Zhan wanted to go back to the Thunder Commando, but thinking that Qin Yuan was going to train the previous Armed Police Commando, he went along with him, wanting to watch the fun.

Anyway, there's nothing going on in the team recently, so it's just a matter of time for him to study and see how they lead troops.

The little soldier driving the car was quite talkative. He was a soldier who had just been in the army for two years.

Qin Yuan has been carrying out various missions before, as well as the commando training, so he really doesn't know about Chen Yongguang, and Lei Zhan is even less clear about it. figure.

"You saw it today too. This kid is really arrogant. He is lawless at all. I only know that he is from the eastern station area. I don't know which subordinate he belongs to."

"If you are arrogant, you have to have the capital of arrogance. Their tricks are just clowns in my opinion."

At this time, the little soldier who was driving next to him suddenly took up the conversation.

"Captain Qin, I do agree with what you said, but they are indeed quite arrogant. They were very arrogant when they came to our side to recruit troops."

This made Qin Yuan very curious. A member of the eastern war zone actually came to recruit troops from them. After the little soldier's explanation, they knew that this Chen Yongguang was recruiting in the entire military zone.

You must know that even if Qin Yuan and his special operations team only recruit from one military region, depending on the situation of each quarter, sometimes the eastern military region is the main one, or the southern combat region. Anyway, the bidding situation is different every quarter.

Unexpectedly, their appetite was so big that they started a comprehensive bidding.

"Not only that, their conditions are very harsh, basically everyone who goes there is eliminated, and their elimination rate is simply the standard of one in ten thousand."

Hearing this, Qin Yuan understood a little bit. No wonder he felt that the aptitude of those few people was so strong. Among the tens of millions of people, only one person from the entire military region was selected for them to choose. It was not only the elite among the elites, but the It is simply to find the strong among the elites, and let the strong fight each other.

Chapter 1208: barron injured

The little soldier was very aggrieved when he said this, because he also had a selection at that time, but he didn't expect that he was not even qualified for the selection threshold.

Qin Yuan asked about the basic situation of the little soldier. His performance in some assessments in the team is considered good, and he is also ranked among the top in the class. Soldiers like this can participate in the election. Why do you say that even those who participated in the election Not qualified enough?

"As you said just now, if your grades are all qualified and up to the standard, then you can participate. Like our special forces team, you can come in and select."

"Yes, this is what everyone is curious about. They are very arrogant. They look down on soldiers like us who are less than two years old. At least they are all soldiers who are more than five years old."

No matter how good or powerful these soldiers are, they can't do it in front of that Zhang Long. Their first criterion is that they need to be at least five years old. .

Because in this case, these squad platoon and battalion cadres are all strong players. His starting standard is very high. He just selects from these people, and the conditions after the selection are very harsh. This little soldier can't explain clearly .

"When is the specific selection? Why don't I know at all?"

"At that time, there seemed to be some kind of secrecy in the selection. Anyway, a brother of mine also went, but he was eliminated in the first round. He said that it was not a place for people to stay."

The little soldier has nothing to hide, he only knows the preliminary selection, which is to let everyone do basic fighting, but this fighting is not that simple, every two people are a unit, and their hands are handcuffed Live, so very particular about cooperation.

In addition to their close combat, Zhang Long sent people to chase them, so many people have been eliminated in the first round of elimination. It can be said that this kind of selection is very cruel.

Later, the little fighters only heard about some selection situations, mainly to train from some harsh environments. The most exaggerated thing is to let them enter the desert area with an average temperature of 40 degrees, and then eliminate them for selection.

Lei Zhan became more and more interested when he heard this. This kid really dared to do it. This is not training soldiers, it is training robots. Even people dare not imagine it like this.

Moreover, Qin Yuan has many training manuals for special warfare soldiers, none of which are so harsh. After all, this is a human being, not a machine.

He also noticed that in those commando squads, everyone's face was very calm, completely in a state of numbness.

Under the training, he no longer has his own thoughts, and relies entirely on the form of commands. It is not an exaggeration to describe it as a walking dead.

"Anyway, the players he selected are all selected from across the country, and they are all the best of the best."

When the little soldier said this, he felt admiration in his heart, because there are only a few people in the whole country, and those few people carry at least a few champions and runners-up on their backs.

"Anyway, it's not something us people can touch, and we can only watch helplessly, so it's really not easy for others to achieve the current results."

"Boy, don't underestimate yourself so easily. Sometimes that kind of training method is not suitable. Don't worry, I will come to carry out the selection of the assault team after a while. If you are interested, you can participate."

When the little soldier heard this, his eyes lit up instantly. One must know that it was a great luck to be trained by Qin Yuan.

"Captain Qin, what you said is true, so when will you come for the selection?"

"This matter may take a few months, because now I have to go to other teams for selection training, but I want to have some separate combat teams. For each independent combat military region, I think there must be at least seven combat teams. "

Then the probability is high, and the little soldier is very happy. If this is the case, he will definitely train well, and then he will have the opportunity to participate in the selection.

In this way, Qin Yuan and the others arrived at the armed police base. The Lei detachment didn't feel anything about the previous incident. He felt that victory or defeat was a common matter in military affairs. Besides, the assault team was aggressive.

Qin Yuan was very sorry. He said that it was because his training stage had not been completed, and he would definitely make up for it this time.

It was delayed because of the masked man before, but this time everyone's training attitude is very high, everyone's spirits are high, we must train hard, after all, we have been defeated before.

Qin Yuan wanted to make up for each of them's own weaknesses within a week. He looked at the merit points in his hand and combined with the final training manual, basically there was no problem.

After the training here, Lei Zhan returned to the commando team with Qin Yuan, saying that he had learned a good lesson this time. Qin Yuan's training methods are very unique, and his ability is very strong, which can be clearly seen. A change of a week.

"I have to say that I really think your training method is much better than Chen Yongguang's. It sounds unreliable to me. This is your real training."

"So in my opinion, they are nothing more than clowns. When I have a chance later, I will show them what a real fighter is. Warriors are not trained like them. They will only train people. "

Qin Yuan really felt that it was a pity. If he had known about this earlier and had taken all those people into the commando team, a new commando team could have been formed. At least they would not have become like this. Now at first glance, their abilities are strong, but completely machine behavior.

Qin Yuan had conducted a training in their special police team before, and their commando team was very effective. After it was established, it directly won the title of second-class meritorious service for all.

This matter has been completely spread in their special police brigade. Everyone thinks that this is the effect of selection and individual training. With such a strong commando team, it will drive the entire team.

They were used as a pilot at that time, and now other special police brigades also invite Qin Yuan to conduct special training. This is no problem for him, because there are too few such teams, and his goal is that there are also seven independent teams like this in the special police brigade. squad.

Because the special police operations are basically carried out in small groups, and the establishment of such a few more unique small groups can drive other small groups to act, which will increase the success rate of the operation.

It's just that Qin Yuan and the others have temporarily received the task. Recently, because he has been training other teams, the goal of such a task has been placed on the Wolf Warriors team, and it is time for him to share.

The task this time is relatively simple, which is to cooperate with their special police department to encircle and suppress a drug manufacturing den.

With the help of Qin Yuan and the others, the mission ended very quickly this time, and no one was injured. Everyone was in a good mood when they came back.

"Brother Qin, according to what you said, our mission is over this time, should we go to the special police brigade?"

"Yes, this time I plan to gather all of them together, and we will first eliminate and select them according to the most traditional bidding training we had before. In addition to their previous commando team, then I still need six commando teams." Team, the efficiency is too slow, I plan to train together."

Li Erniu frowned slightly when he heard this, "Brother Qin, is this too difficult? It's a bit difficult to select six teams at the same time, so how many people do we have to face?"

"Brat, what do you guys do? With your current abilities, it's absolutely no problem for you to lead any commando. Anyone I bring out can lead anyone."

This is not a problem, and in addition to the elimination selection mentioned by Qin Yuan, this time it is in the form of voluntary registration. With so many special police officers, he does not believe that six teams cannot be selected.

Now they are much easier to deal with than before. In the beginning, no one wanted to believe in that situation, because this was the first time such a form appeared.

But now that the initial success has been achieved, those who signed up will be more active. This time they don't have to worry about the number of people.

After Qin Yuan and the others returned to the brigade, he saw a familiar figure. He didn't expect it to be Long Baichuan. He hadn't seen him for a long time, but why did Long Baichuan come to the special warfare brigade?

"Dragon Team, it's been a long time since I saw you. Do you have any cooperative missions this time?"

"Your boy has been thinking about missions all day long. This time, there are no missions."

Long Baichuan's complexion didn't look very good, and he said that he had to go to a meeting and that Gao Shiwei would tell him some things, and then hurried away in the car.

Qin Yuan was confused, he rarely saw Long Baichuan like this, when he entered the office, he saw Gao Shiwei holding a document in a daze.

"You kid really can't say, Cao Cao is coming, you should come and have a look first. By the way, did you see the dragon team just now?"

"I see, he said you have something to tell me, and then he left in a hurry, saying he was going to a meeting."

"That's right, he's been named by the higher-ups now, that's why he went to the meeting. This time, the incident is a bit big. That Zhang Long doesn't know what the **** this kid is going to do."

It was Zhang Long and his fox-hunting commando again. Qin Yuan frowned and stepped forward, picked up the document and read it.

It turned out that something happened to Jiang Xiaoyu's commando team. Originally, the two sides would not interfere, but this Chen Yongguang also won the Warrior Medal before.

However, in the process of fighting again, he was eliminated halfway due to injuries. This time, the people he wanted to target were Jiang Xiaoyu and the others, but he changed another environment this time, because he applied to the higher authorities for a normal competition.

Originally, the higher-ups were also very hesitant, but they couldn't bear it, it was almost the end of the year, and everyone wanted to see the results of the various companies.

In addition, Zhang Long and his commando team belong to the army division in a strict sense, and Jiang Xiaoyu and his team belong to the amphibious scouts. These are actually two completely unrelated teams, but what this guy wants to say Competition.

In the end, the leader above also agreed, and Long Baichuan was very confident in his soldiers. Qin Yuan had also trained them before, so there was absolutely no problem. He was very confident in the few people inside.

I didn't expect them to lose so badly this time. Balang was seriously injured and is still in the hospital. After all, if this happened, the higher-ups would not let them compete again. I didn't expect that this would be a casual change. Reporting becomes a simple accident.

Because it is inevitable that such mistakes and faults will occur during the training process, the leaders above feel that this is nothing, and they can directly form a small team for them.

Now Qin Yuan and the others have heavy tasks. Not only do they have to perform various tasks, but they also have to participate in some large and small domestic competitions. join.

So the current competition is still going on, and Long Baichuan was also called to the meeting this time because Zhang Long put forward a condition, he wants to take Xiang Yu away, and wants Xiang Yu to join their team.

Now Zhang Long's commando can be said to want wind and windwant rain and rain. Now that they have made a lot of achievements, maybe the leader will agree, so Long Baichuan is now one head and two big.

Qin Yuan frowned when he saw this. This was too exaggerated. It was a blatant robbery. What's the matter with the right people on the road to the navy?

"Gao Dui, I think this is a bit too much. Is the commando good? He insists on dismantling the house and leaving him alone. What does that mean? He doesn't know how to respect people at all."

"It can't be helped, this is our rule, have you forgotten how you came here? I went to various troops to come back with a cheeky face, otherwise I would still be here today, they are now us at the beginning, we have already opened before One mouth, so the leader may agree"

"But this situation is different. They are now an independent special operations team, and they are simply poaching people."

"Now that they've lost, that's what Zhang Long meant. That's why their Dragon team got angry in such a hurry. They came to me to discuss countermeasures. Before they could say a few words, they were called to a meeting again."

Qin Yuan just heard that Balang was injured and was still in the hospital. He was also a little worried, and then asked for instructions to go to the hospital. Gao Shiwei agreed directly, and asked him to see if he could solve the problem.

"Remember that you tried not to cause trouble in the past. This guy has a lot of background now. He is already a celebrity in various military regions. It's hard to explain if there are any problems."

"Don't worry, Captain Gao, I'm sure I won't cause trouble, as long as he doesn't mess with me, this kid is really getting more and more arrogant."

Qin Yuan was just very curious, and Jiang Xiaoyu's level is logically not weak.

Chapter 1209: Healing Baron

Qin Yuan took them for special training before, and there are two veterans among them, one is Liu Xiaoshan and the other is Deng Jiuguang. Qin Yuan has healed their injuries before, so there should be no The question is right.

Without further ado, Qin Yuan set off to the sea training ground. Now he was eager to know about Balang's injury. These successive accidents made him more and more disgusted with this so-called Fox Hunting Commando.

Jiang Xiaoyu was very excited when she saw Qin Yuan coming, "Brother Qin, why are you here?"

"If I don't come again, I think everyone will be poached by others. What's going on?"

"What else could be going on? It's just that kid playing dirty tricks. I've suffered a big loss this time."

Hearing the movement, Deng Jiuguang also came out from the inside, just in time to hear Jiang Xiaoyu complaining, so he walked over to stop Jiang Xiaoyu.

"You brat is obviously not as strong as others, what are you talking about here? I think losing is losing. There is nothing to prepare for. This time we lost completely, just be convinced, you know?"

"Didn't the master say that? Look at them, they are obviously playing dirty tricks. We have never been there for training, and they tricked us all to go there, so Balang was injured. This is a despicable person. "

"That's enough, don't talk about it, you've already lost, what else is there to share, this is what I told you before, if you don't usually prepare it, if people take out what they have prepared, won't you be dumbfounded? "

Listening to the master and apprentice singing together, Qin Yuan was even more confused. What kind of training did they even have experience with?

"What's going on here? Tell me quickly, and how is Balang doing now?"

Qin Yuan followed them and walked into the barracks. He saw the dark clouds were there, and there were some fruits beside them. Balang's hands were wrapped with gauze.

Balang struggled to get up, Qin Yuan quickly stepped forward and pressed him, suddenly he grinned in pain, it turned out that not only his hand was injured, but also his shoulder.

Qin Yuan didn't care, so he opened his clothes so much and checked carefully. His shoulders and arms were wrapped in gauze.

Jiang Xiaoyu said at the side that this was the herbal medicine they had found, because this time it was considered a recurrence of Balang's illness, and the main reason was the strained ligament, from the shoulder to the entire arm.

They didn't dare to report this matter to the higher authorities, because his toughness was relatively serious. If he hugged him, Balang would probably have to stay in the hospital.

"Brother Qin, I planned to go to you today, because we know that you will definitely heal Balang."

"It's definitely not a problem. You guys made the right decision. You don't seem so stupid."

Jiang Xiaoyu rubbed his head, he was not to blame for this, he believed that Liu Xiaoshan and Deng Jiuguang had such serious injuries before, and they had been healed by Qin Yuan for so many years, he thought it was incredible at the time , so I believe unconditionally.

While treating him, Qin Yuan inquired about the specific injury, and it turned out that he fell directly from the paraglider. Because the safety buckle on the top is not buckled properly, it cannot bear the weight of two people.

But because the height was not enough, Baron kept holding on to the paraglider and let go at the last moment, which resulted in the entire shoulder muscle and the complete strain of the arm.

This also used a paraglider, Qin Yuan became more and more curious, and they had done this kind of paraglider training before, so there shouldn't be any problems.

"What's the situation? Since you have used paragliders, I remember that you have done this kind of training before."

"Yes, we have indeed done this kind of training before, but it is the first time for us in the plateau area."

Qin Yuan was stunned when he heard this, isn't this a joke? what's the situation? He even engaged in strong gliding training in the plateau area. You must know that severe altitude sickness will directly kill you.

The commando team led by Zhang Long really has no bottom line. As long as his commando team can persist in training, he doesn't care about the other team members and directly opens his mouth to challenge.

Like the previous ice training, the other team members have never received it at all, but he doesn't care about it, as long as his people can persist, he will use his strengths to challenge others' weaknesses.

It's really despicable to say it, but Deng Jiuguang thinks that if they lose this time, they lose.

"Although I think this kind of training is incredible, they have persisted. This is what I can't figure out the most. They can do it, but we made it like this."

This can be regarded as the most serious provocation their assault team has encountered, and it is also the result that everyone did not expect. In the first ten minutes or so, everyone was defeated and they were forced to the top of the cliff.

In the end, we had no choice but to escape by paragliding. Unexpectedly, there was a problem with the paragliding field at a critical moment, because one was in a plateau area, and they had not trained in that kind of place before, so they could only conduct simple low-altitude flights. , can not fly too high.

This caused them to be eliminated on the spot. You must know that Deng Jiuguang is a veteran of more than eight years. He did not expect to be shot dead during the parachute just a few minutes after he played. In that case, they did not have any of fighting back.

"No matter what, this battle was really aggrieved. We were directly eliminated by them in just a few minutes. We were completely chased and beaten. In that situation, we couldn't run fast at all."

Qin Yuan stepped forward and patted him on the shoulder. He knew that no one was to blame for this incident. This was the limit of human physiology. They had never been trained on that plateau. Normal people struggled to walk on it. Not to mention normal combat training.

Qin Yuan had healed Balang's injury, Xiang Yu also walked in at this time, he was still holding a basket of herbs, the moment he saw Qin Yuan, he was a little excited.

"Brother Qin, I didn't expect you to come."

"If I don't come again, I can't watch my brother being bullied by these people, it's too much."

The most critical issue now is that Zhang Long has already applied to the military region, and wants to directly ask Xiang Yu to go there. Xiang Yu is definitely unwilling, but in this case, some things cannot be controlled by him.

In the end, it will only come down to one sentence, it is all for the good of everyone, because the army needs stronger people to command and fight, especially a team composed of strong people.

They didn't have any advantage in this assessment, and the commando team led by Zhang Long defeated many domestic commando teams one after another, and now they are well-known.

"Anyway, no matter what, I can't leave my brother, but I didn't expect him to ask someone directly."

"A person like him can't do anything, and I think he came to challenge you probably for you."

Qin Yuan told the story about the Black Tiger commando before, and added about their selection and assessment, which is obviously to gather all the strongest soldiers in the country.

In this case, it doesn't matter who the leader is, the team formed by so many strong people must be the best, but Qin Yuan is different, Qin Yuan can train an ordinary soldier.

The main reason is that going on like this is simply messing around, because their training methods are obviously problematic. This kind of training can't have any effect on soldiers, and it doesn't help much in actual combat. It's completely used to bully their own people .

First of all, in the plateau area, everyone is normal and ordinary people. According to the normal physiological structure, that is challenging the limit. Who will go to that place to fight, basically there are very few. Besides, in that situation, it is very important for both sides. Is a consumption, but they violate this consumption.

Balang's situation has completely improved, Long Baichuan also came back from the meeting, and called them to gather at the beast camp.

There was a document in front of Long Baichuan, his eyes were serious, it was specially approved by the superior.

"Open the file and see for yourself. This time I have no choice but to try to delay the time. That guy is too arrogant, and now I have no reason to refuse."

Jiang Xiaoyu stepped forward to pick up the document, and it turned out to be Xiang Yu's transfer order. Are you really going to transfer Xiang Yu to that ghostly place to train with those guys?

"Dragon Team is too unruly. Why should Xiang Yu be transferred? As long as those guys can train well, they will hurt Xiang Yu."

"It's not my decision, but the decision of the people above. This guy doesn't know who is behind it. Now which soldier he wants, the top will definitely give it to him. I have no choice."

What Long Baichuan can do now is to delay time, to see if he can keep Xiang Yu, other than that, he really has no other way, as a soldier is to obey orders, sometimes a military order can even change him position, not to mention a small player.

Qin Yuan understood very well that Long Baichuan must have nothing to do in this situation. He stood up and said that he could say a few words to see the specific situation, because their training competition was unfair in the first place.

"Long team, let me talk about it. I will communicate with you after I finish talking about the specific situation."

"Can this work? Now even the transfer order from above has been brought in, this guy's ability is really great."

At this moment, a soldier ran in from outside.

"Report! Team Dragon, a commando has come to our camp and wants to see you by name!"

Qin Yuan snorted coldly, and figured it out with his toes. It must be Zhang Long and the others. He wanted to find them at first, but he didn't expect this to come to his door. He happened to tidy them up at this place and see what happened. Called the real strong.

Qin Yuan walked out with Long Baichuan and the others, and saw that the commando led by Zhang Long was indeed standing on the playground with his hands behind his back, and the members of the commando lined up, standing on the side, but he was a little surprised when he saw Qin Yuan.

He originally came here today to ask for someone, and he also wanted to give Long Baichuan and the others a blow, because he was very confident in his soldiers, but he didn't expect Qin Yuan to be here.

If this is the case, things will be a little difficult, but Chen Yongguang next to him doesn't think so. The succession of victories makes him feel a little bit smug. He thinks what's the big deal about Qin Yuan. The team he was able to win before, he can also win now. Winning is not all the same.

"Let me tell you, don't be so proud, boy, this man is not easy to deal with."

"Team Zhang, I think you are just being too careful. I think this guy is just ordinary. I just heard too much about his legend. He went to the hunter school before, so I have been there too. It doesn't matter." What, I have also studied the tactical guidance of foreign armies."

He has studied outside for two or three years, so he is very confident and feels that he can use the methods of foreign troops to deal with his own players, which is completely no problem.

Coupled with the passage of time, he felt that the problem was not serious, and he didn't pay much attention to Qin Yuan.

Seeing Long Baichuan come out, Zhang Long stepped forward to say hello with a smile.

"Long Dui, I haven't seen you for two days. Your mental outlook is pretty good."

Long Baichuan has been worrying about this for the past few daysIsn't this guy just blatantly sarcastic?

"It's nothing, what do you want to do this time?"

"Long Dui, it seems that your memory is so bad? Didn't I come to raise my soldiers? The leader has already said it before, and the transfer order should have been issued. I want to bring my soldiers Let's go, I have to start training well."

This guy is really arrogant, he doesn't take Long Baichuan seriously at all, he is a little afraid of Qin Yuan, but he is very arrogant towards other people.

But he feels that Qin Yuan can't say anything here, this is not his special operations brigade, this is the Marine Corps, and has nothing to do with him.

Jiang Xiaoyu clenched his fists, this guy was really arrogant, he stood up, pointed at Zhang Long and said:

"What do you mean, you guy? Is that how you talk to our dragon team?"

"Hehe, you soldier, you are not very capable, but you have a big temper. This is because you talk too much with my leader."

Long Baichuan pulled Jiang Xiaoyu and motioned him to stop talking. This guy is the best at talking.

"That's enough. It's meaningless to say more about that, but it will increase the contradiction. As for the transfer order you just mentioned, I have indeed received it, but if I remember correctly, this transfer order has a 30-day validity period? If I don't Agree, then even if you have a transfer order now, you can't take my people away."

"It's true to say that, but the dragon team is already in this situation, do you still have to worry about the number of days? It's a matter of taking it away sooner or later, it's better to give it to me earlier."

This guy looked confident, and felt that Xiang Yu was definitely his man, so he simply came to lead him directly. Anyway, in his opinion, this was already a certainty.

Chapter 1210: guide training

At this time Qin Yuan stood up, "I disagree with this matter."

Zhang Long was quite surprised. Where did this guy come from to say such a thing? This is not his special operations brigade, why should he say this here?

"Captain Qin, your hand is stretched too far. You are not your special operations team. I don't need to tell you what I should do, right?"

"It seems that you really don't understand clearly enough. I also have the right to train directly under the Marine Route Team!"

Zhang Long was stunned when he heard this, what is the situation? Why he had never heard of it before, Long Baichuan understood in an instant, he laughed loudly, and then solemnly introduced Qin Yuan's identity again.

"By the way, I forgot to introduce you to this special instructor of our marine corps. This is the highest authority bestowed on him by the leadership above, and the authority can reach the same level as mine."

Qin Yuan had given the title of a special instructor before, and basically all troops had the right to this special training, because the training team he led out at that time was not ordinary.

This is not just the God of War, the God of War is just a title given to him by others, but the rights of this chief instructor are extraordinary.

Long Baichuan almost forgot about this matter, the main reason is that Qin Yuan is too low-key, people usually talk about it, but this guy keeps talking about what rights he is here, so Qin Yuan stepped up and said it.

"Captain Zhang, do you think I have enough rights? And if I remember correctly, the training you give everyone is too childish, right? It's mainly a bit of a bully, I told you before Still not restrained."

Hearing this, Zhang Long simply pretended to be confused. He said that he didn't know what he was talking about, and he just acted according to the meaning above.

"I don't quite understand what you mean. Besides, this is also the decision of the leaders above, and everyone hopes to get good soldiers."

"This is indeed true. Everyone wants to get good soldiers, but they can't be won by some despicable means."

"What do you mean by that? If that's the case, then I won't bother you today. I'll take him away when the military order takes effect."

Seeing that he couldn't say anything, this guy wanted to leave, but how could Qin Yuan let him go, he finally got his chance, and Chen Yongguang next to him stared at him with an expression of disbelief.

This guy is also aggressive. Qin Yuan smelled dissatisfaction from him. If this is the case, he must clean up and teach them a lesson.

"Captain Zhang, where are you going in such a hurry? Since the time hasn't come yet, I'm a little curious. If that's the case, I've defeated your soldiers, can I ask you for someone directly?"

This guy uses this method to demand people everywhere, so Qin Yuan can also use his method to get his soldiers back? When Zhang Long heard this, the expression on his face froze instantly.

At this moment, Zhang Long had a wry smile in his heart, why can't he avoid this Qin Yuan anywhere? This guy is really a disaster star, I want to avoid him every day, but it is really a narrow road to enemies.

The main reason is that every time I meet Qin Yuan, there is absolutely nothing good to happen. I was ridiculed in front of so many people before, but now he is here to sabotage my plan.

Because Xiang Yu is really strong, he wanted to take him into his team, but he didn't expect to kill Qin Yuan halfway.

"Captain Qin, it's a little funny for you to say this. We are all comrades in arms, and there is no need to engage in those contradictory things."

"When did I say that I want to do your thing right? It's just some guidance training. Besides, it's not too much for me to guide you as a chief instructor with independent rights?"

Jiang Xiaoyu just felt it was funny when he heard this, finally someone can take care of him, this guy avoided Qin Yuan again and again, but this time Qin Yuan directly took out his identity as the chief instructor, to see how this guy evades.

To put it bluntly, it means that some expect the strong to be afraid of the weak. If he is really good, there is no need to worry about Qin Yuan. Didn't he keep saying that he wanted to challenge the red blood cell team? Why is it weak again now?

Zhang Long is thoughtful, but this Chen Yongguang is not smart enough, mainly because his team has become a little too proud during this period of time, and Xie Lian's victory can easily make people proud.

Chen Yongguang stepped forward and lowered his voice, "Team Zhang. Why are you so afraid of him? Besides, what is this guy? At worst, it's like who is afraid of who in a game. I am very confident in my team members."

"Shut up, this is not where you talk, when is it? Don't you think this place is not messy enough?"

"Team Zhang, I really don't understand. You didn't let me challenge them before, but I think I can challenge them. What's the matter?"

Qin Yuan just thought it was funny looking at this guy, this dragon is not easy to deal with, but maybe Chen Yongguang is just a guy with well-developed limbs and a simple mind.

"Captain Zhang, you can see that your soldiers are a little bit overwhelmed, so why not let me guide you, don't worry, it's just that the guide doesn't need to be so afraid."

Having said all this, Zhang Long sighed silently. They all said directly that he was guiding them, and if he didn't give some reaction, he would really be wiped out.

And the people around are watching, because the news about Jiang Xiaoyu's commando team's loss has spread through the cash register, and Jiang Xiaoyu and the others represent the Marine Corps.

This wave of operations is indeed a bit of a slap in the face, and this is a direct door-to-door asking for someone, which is full of provocation.

Chen Yongguang couldn't bear such a provocation, so he directly stood up and said that he could accept the challenge.

"Captain Qin, right? I've heard of you a long time ago, and I'm going to challenge you and your team this time. How about this, you can choose any place you want, and we can challenge you anytime."

This guy is so arrogant that there is no end to it. Qin Yuan only found it funny when he heard this. As the saying goes, you can win every battle if you know yourself and the enemy. This guy dares to challenge him because he doesn't understand his own situation.

Zhang Long couldn't hold back Zhang Long beside him, and Chen Yongguang didn't know what was wrong today, so why did he go after Qin Yuan? Doesn't he know Qin Yuan's ability?

In fact, this Chen Yongguang had heard of Qin Yuan at the very beginning, especially when he was in the Hunter School, Chen Yongguang just felt unconvinced, there were many things he didn't get, but he felt that Qin Yuan got it easily, which made him feel very dissatisfied. Convinced, he always regarded Qin Yuan as his opponent.

After so many years of hard work, he is just for today, including studying abroad, how much humiliation he has suffered, and how many hardships he has suffered, just to be able to challenge Qin Yuan. Today this opportunity is finally coming, and Zhang Long has been blocking him before. But today he doesn't want to go on like this anymore.

"Team Zhang, just give me a chance. I have to settle this matter, otherwise I will always have a knot in my heart."

"You guys are completely crazy. Now that the commando team has just been established, I can't ask you to solve some broken problems and then send the commando team out."

"Team Zhang, what do you mean? Don't you think my commando is really bad compared to his commando? You don't have confidence in me so much, so in the past year or so, we have won one after another, don't you think?" Is it for nothing?"

Zhang Long shook his head. He knew that he couldn't explain clearly to this guy now. He was completely overwhelmed by the anger. Qin Yuan and him were not at the same level. They could win by relying on some opportunism, but This is absolutely different, Qin Yuan is really strong.

Unexpectedly, these two people quarreled, Qin Yuan and the others watched the excitement from the side, and Jiang Xiaoyu sighed even more.

"I said Captain Zhang, if that's the case, why don't we go to the conference room, it's okay for you to argue like this on the playground, after all, there are so many people watching."

Saying this made Zhang Long feel ashamed even more. He looked at the spectators beside him, they were already like this anyway, so he might as well teach Chen Yongguang a lesson.

Let him know what a real strong person is, so as to save him from yelling every day to provoke the red blood cell group. I always feel that the time is not enough, so I persuade him every time, but he always goes against himself.

"No, since it's a training guide, I hope Captain Qin will give me a good guide."

"Of course, I will definitely guide it well, but I still say that, if you lose, then the conditions can be left to me."

Before Zhang Long could speak, Chen Yongguang beside him couldn't bear it any longer, and agreed directly. Zhang Long was cursing in his heart, and he couldn't do it in front of so many people. This guy is really stupid.

Chen Yongguang, after waiting for so many years, he just wants to challenge Qin Yuan, he wants to see where the gap between this so-called strong man and him is, and he can also achieve that position.

"Okay, then tell me where to challenge and bring your team out. I can be anywhere."

"I didn't say that I would bring out my team. The challenge I said was that I challenged your entire team, understand?"

what! !

Chen Yongguang next to him was stunned, did he hear correctly? This guy is too exaggerated, saying that he wants to challenge their entire team alone, isn't this a joke? Just look down on yourself like that.

"You are still the same as you were three years ago. Let me tell you, I have had enough. Do you really think you are strong? I want to use my ability to prove you wrong. You said it yourself."

Three years ago, Qin Yuan had no impression of these things at all, especially for this Chen Yongguang, he felt that he had never seen this person before, so what did he say three years ago.

Chen Yongguang also felt that he had picked up a bargain. After all, as long as he fought against Qin Yuan alone, there would be no problem. He was very confident in his team.

However, it also reminded him of the time three years ago when he was just an ordinary commando. At that time, the team he was in also had a confrontation training with Qin Yuan and the others.

For Qin Yuan, it was just an ordinary training confrontation, but for Chen Yongguang and his team, it completely decided their fate.

Because it was the final year-end assessment at that time, but the assault teams formed by their company had been completely eliminated when the battlefield just started.

At that time, it was the first time he had a direct confrontation with Qin Yuan, and he was eliminated immediately before he could see the figure clearly. At that time, he did not expect that one person could shoot so fast.

After that elimination, he completely changed his view. He originally wanted to go to Qin Yuan, but every aspect of his wish kept pressing him down.

No matter what the project is, Qin Yuan is better than him. From the champion of the whole military region to the national champion, even to the world ranking all the way to the hunter school, Qin Yuan will always be better than him.

Unexpectedly, Qin Yuan didn't remember him at all, so he didn't take him seriously.

This made him even more annoyed. After all, he regarded Qin Yuan as an opponent from the very beginning, but in the end he was nothing in the eyes of others.

"You guys are still as arrogant as ever, but I will let you know that you will regret it."

Qin Yuan was baffled by him. He didn't do anything, what was he trying to do all of a sudden? But let him go.

Qin Yuan looked at the soldiers under his hands. These guys are just like training machines, they only know how to obey orders. This kind of training method is actually quite sad.

"Since it is a challenge, I am also a kind of guidance for you. Training is not a challenge. As long as you set the location and match him, don't worry about his specific situation. I will protect you and won't let any of you get hurt. "

Saying this sentence is even more provocative, but this is indeed a willing and true thought. He doesn't want anyone to be injured. What he can do is to be able to defeat them again, and not let them have other accidents.

Doing so can be regarded as a slap in the face. You must know that every time they conduct confrontation training with other teams, other players will be injured.

To put it bluntly, it is not a confrontation training, but more inclined to the real battlefield. What they are fighting against is not their own comrades, but the confrontation directly with the enemy.

This is what Qin Yuan scoffed at the most, so he specially emphasized this point, and Zhang Long felt that he was slapped in the face.

Chen Yongguang thought about it, it would be better to be in the plateau area, because according to his previous understanding, Qin Yuan didn't seem to have any special training in the plateau area.

Although this method is a bit disgraceful to challenge someone's weakness, but he really wants to win, even with this method, he also wants to win again.

When Zhang Chong heard that they were talking about the plateau area again, he became very angry. These guys are really good at calculating.

Qin Yuan felt that it didn't matter when he was beside him. He felt that it was no problem to challenge him anywhere, and it was all pediatrics.
